(1) If a corporation or association is guilty of an offense that provides a penalty consisting of a fine only, a court may sentence the corporation or association to pay a fine in an amount fixed by the court, not to exceed the fine provided by the offense.

(2) If a corporation or association is adjudged guilty of an offense that provides a penalty including imprisonment, a court may sentence the corporation or association to pay a fine in an amount fixed by the court, not to exceed:

(A) $10,000 if the offense is a felony of any category; or

(B) $5,000 if the offense is a Class A or Class B misdemeanor.

(3) In lieu of the fines authorized by Sections (1) and (2) of this article, if a court finds that the corporation or association gained money or property or caused personal injury, property damage, or other loss through the commission of a felony or Class A or Class B misdemeanor, the court may sentence the corporation or association to pay a fine in an amount fixed by the court, not to exceed double the amount gained or caused by the corporation to be lost, whichever is greater.

(4) In addition to any sentence that may be imposed by this article, a corporation that has been adjudged guilty of an offense may be ordered by the court to give notice of the conviction to any person the court deems appropriate.

Art. 9.020. Remedies of State are Cumulative

The remedies of the state provided for in this chapter are cumulative, and no action taken by the comptroller or the attorney general constitutes an election by the state to pursue any remedy to the exclusion of any other remedy for which provision is made in this chapter.

SUBCHAPTER B. GASOLINE TAX

Art. 9.101. Tax Imposed

(1) There is imposed on the first sale or use of gasoline in this state an excise tax of five cents for each gross or volumetric gallon or fractional part sold or used in this state, except:

(A) gasoline brought into this state in the fuel tank of a vehicle with a capacity of less than 42 gallons when the tank is connected to the carburetor or fuel injection system of the power plant providing the propulsion of the vehicle;

(B) gasoline delivered by a permitted distributor to a common or contract carrier, oceangoing vessel (including ship, tanker, or boat), or a barge for export from this state if the gasoline is moved forthwith outside the state;

(C) gasoline sold by a permitted distributor to another permitted distributor;

(D) gasoline sold to the federal government for its exclusive use;

(E) gasoline delivered by a permitted distributor into a storage facility of a permitted aviation fuel dealer from which gasoline will be delivered solely into the fuel supply tanks of aircraft or aircraft servicing equipment; and

(F) gasoline sold to a transit company for exclusive use in its transit carrier vehicles under an exemption certificate promulgated by the comptroller in which event the rate of tax shall be four cents for each gallon.

(2) The tax shall be computed and paid over to the state on the gross or volumetric gallons of taxable gasoline sold to wholesalers or jobbers, dealers, or bulk users, as shown by the authorized measurement certificate issued for the cargo tank making deliveries or as shown by any other measuring device approved by the comptroller.

(3) For a distributor whose gasoline deliveries are made to retail outlets that are operated by him or deliveries by him on consignment, the tax on sales to users and consumers shall be computed on the basis of actual sales.

(4) If the comptroller is not satisfied with a tax return or the amount of tax required to be paid to the state by any distributor who elects to report on the basis of actual sales, the comptroller may compute and determine the amount required to be paid on the basis of the beginning inventory, showing the total gallons of gasoline in storage at the location on the first day of the calendar month, plus the total gallons of gasoline delivered into the storage facility during the month, less the total gallons of gasoline in the storage facility at the end of the calendar month.

(5) This article does not prohibit volume correction of gasoline under accepted practices when sold or distributed to or between permitted distributors, but reports filed with the comptroller must show tax-paid purchases, taxable sales, and distributions in gross quantities.

(6) The tax imposed by this article is in lieu of any other excise or occupation tax imposed by the state or any state political subdivision on the sale, use, or distribution of gasoline.

[Amended by Acts 1979, 66th Leg., p. 626, ch. 291, § 1, eff. Jan. 1, 1980.]

Art. 9.102. Permits

A distributor, interstate trucker, or aviation fuel dealer shall file an application with the comptroller for one of the nonassignable permits provided for in this subchapter.

[Amended by Acts 1979, 66th Leg., p. 626, ch. 291, § 1, eff. Jan. 1, 1980.]

Art. 9.103. Distributor's Permit

A person performing the functions of a distributor shall obtain a distributor's permit.

[Amended by Acts 1979, 66th Leg., p. 626, ch. 291, § 1, eff. Jan. 1, 1980.]

Art. 9.104. Interstate Trucker's Permit

An interstate trucker's permit authorizes persons who import gasoline into Texas in the fuel supply tanks of motor vehicles having an aggregate capacity of 42 gallons or more to report and pay the tax due on the gasoline imported into this state or to claim a credit or refund of the tax paid on gasoline purchased in Texas and used in other states.

[Amended by Acts 1979, 66th Leg., p. 626, ch. 291, § 1, eff. Jan. 1, 1980.]

Art. 9.105. Trip Permits

In lieu of an annual interstate trucker's permit, a person bringing a motor vehicle into this state for commercial purposes with fuel supply tanks having an aggregate capacity of 42 or more gallons may obtain a trip permit. The trip permit must be obtained prior to entry into the state or at the time of entry. No more than five trip permits for each person may be issued during a calendar year. A fee for each trip permit shall be collected from the applicant and shall be an amount equivalent to the tax payable on the quantity of gasoline that could be imported in the fuel supply tanks of the motor vehicle, but never less than $5. No reports are required with respect to the vehicle. Operating a motor vehicle without a valid interstate trucker's or trip permit may subject the operator to a penalty under Article 9.014 of this chapter.

[Amended by Acts 1979, 66th Leg., p. 626, ch. 291, § 1, eff. Jan. 1, 1980.]

Art. 9.106. Aviation Fuel Dealer's Permit

A person delivering gasoline exclusively into the fuel supply tanks of aircraft or aircraft servicing equipment shall obtain an aviation fuel dealer's permit.

[Amended by Acts 1979, 66th Leg., p. 626, ch. 291, § 1, eff. Jan. 1, 1980.]

Art. 9.107. Permit Application Forms

The comptroller shall promulgate the application form which must contain the following information:

(A) the name under which the applicant transacts or intends to transact business;

(B) the principal office, residence, or place of business in Texas of the applicant;

(C) if the applicant is not an individual, the names of the principal officers of an applicant corporation, or the names of the members of an applicant partnership, and the office, street, or post office addresses of each; and

(D) other information required by the comptroller.

[Amended by Acts 1979, 66th Leg., p. 626, ch. 291, § 1, eff. Jan. 1, 1980.]

Art. 9.108. Distributor May Perform Other Functions

A distributor may operate under his distributor's permit as an interstate trucker or an aviation fuel dealer without securing a separate permit, but shall be subject to all other conditions, requirements, and liabilities imposed on those permittees.

[Amended by Acts 1979, 66th Leg., p. 626, ch. 291, § 1, eff. Jan. 1, 1980.]

Art. 9.109. Permits: Periods of Validity

(1) A distributor's permit is permanent and is valid so long as the permittee has in force and effect the required bond or security and furnishes timely reports as required, or until the permit is surrendered by the holder or cancelled by the comptroller.

(2) An aviation fuel dealer's permit is permanent and is valid until the permit is surrendered by the holder or cancelled by the comptroller.

(3) An interstate trucker's permit is valid from the date of its issuance through December 31 of each calendar year or until the permit is surrendered by the holder or cancelled by the comptroller. The comptroller may renew the permit for each ensuing calendar year if the permittee has in force and effect the required bond or security and furnishes timely reports as required. Interstate truckers exempted by provisions of this chapter from bonding and reporting requirements shall file an annual affidavit and on approval the comptroller shall issue the required permit.

(4) A trip permit is valid for the period prescribed thereon as determined by the comptroller.

[Amended by Acts 1979, 66th Leg., p. 626, ch. 291, § 1, eff. Jan. 1, 1980.]

Art. 9.110. Display of Permits

(1) A permit must be posted in a conspicuous place or kept available for inspection at the principal place of business of the owner. A copy of the permit must be kept at each place of business or other place of storage from which gasoline is sold, distributed, or used, and in each motor vehicle used by the permit holder to transport gasoline purchased by him for resale, distribution, or use.

(2) A person holding an interstate trucker's permit shall reproduce the permit and carry a photocopy with each motor vehicle being operated into or from the state.

[Amended by Acts 1979, 66th Leg., p. 626, ch. 291, § 1, eff. Jan. 1, 1980.]

Art. 9.111. List of Permitted Distributors and Aviation Fuel Dealers

The comptroller shall, on or before the 20th day of December of each year, prepare and mail or distribute to all permitted distributors a printed alphabetical list of permitted distributors and aviation fuel dealers who are qualified to purchase gasoline tax free during the ensuing calendar year, and a supplemental list of additions and deletions shall be delivered to the distributors each month. A current and effective permit or the list furnished by the comptroller shall serve as evidence of the validity of the permit unless and until the comptroller notifies distributors of any change in the status of any permit holder.

[Amended by Acts 1979, 66th Leg., p. 626, ch. 291, § 1, eff. Jan. 1, 1980.]

Art. 9.112. Computation and Collection of Tax

(1) A person who makes a sale or use of gasoline on which the tax has not been previously paid in this state for any purpose other than those exceptions listed in Article 9.101 of this chapter shall at the time of sale or use collect the tax from the purchaser or recipient of gasoline in addition to the selling price and shall also be liable to the state for the taxes collected at the time and in the manner as provided by this chapter. A person is liable to the state for the tax of five cents for each gallon of gasoline or fractional part thereof used or consumed by him in a taxable manner and shall report and pay the tax as provided by this chapter. In each subsequent sale of gasoline on which the tax of five cents for each gallon has been collected, the tax shall be added to the selling price so that the tax is paid ultimately by the person using or consuming the gasoline for the purpose of propelling any vehicle upon the public highways of this state.

(2) Gasoline shall be deemed to be used when it is delivered into the fuel supply tanks.

(3) The tax on two percent of the taxable gallons of gasoline sold in this state shall be allocated to the persons selling, distributing, or handling gasoline in this state, which allocation or allowance shall be deducted by the distributors in the payment to the state of the taxes herein levied and shall be apportioned as follows:

(A) one percent to the distributor making the first taxable sale or use of the gasoline and paying the tax to the state for the expense of collecting, accounting for, reporting, and remitting the tax collected and for keeping records;

(B) one-half of one percent to wholesalers or jobbers who pay taxes to a distributor on gasoline purchased for resale to dealers or bulk users to cover loss by evaporation, temperature changes in the gasoline, and ordinary handling from the time the gasoline is acquired tax-paid by wholesalers or jobbers until its sale or distribution and delivery to purchasers; and

(C) one-half of one percent to dealers or bulk users to cover losses by evaporation, temperature changes in gasoline, or other handling losses from the time the gasoline is delivered to the storage facilities of dealers or bulk users until it is sold or delivered into the fuel supply tanks of motor vehicles or motorboats. If the consignor retains title to gasoline consigned to a dealer or bulk user until the gasoline is delivered into the fuel supply tanks of motor vehicles or motorboats, the consignor is entitled to the allowance or allocation.

(4) In the sale and distribution of gasoline in this state, if any person performs more than one of the functions or activities of distributor, wholesaler or jobber, dealer, or bulk user, he shall be entitled to

the apportionment or allowance for each function or activity, but the aggregate allowance shall never exceed the total amount of two percent.

(5) The intent and purpose of the above allowance or allocation to wholesalers or jobbers, dealers, or bulk users is to reimburse fully persons acting in such capacities for losses sustained by them from evaporation, temperature changes, and ordinary handling of gasoline, and to facilitate the payment of tax refunds without volume adjustments of gasoline purchased tax-paid and thereafter used in other states.

(6) An interstate trucker who imports gasoline into Texas in the fuel supply tanks of motor vehicles having an aggregate capacity of 42 gallons or more for each vehicle, shall report and pay the tax at the imposed rate on gasoline that is imported and used on Texas highways. The number of gallons of gasoline used on Texas highways shall be computed by dividing the total miles travelled in all states by the total number of gallons of gasoline delivered into the fuel supply tanks of motor vehicles in all states. The mileage factor obtained shall be divided into the total Texas miles travelled in order to determine the number of gallons of gasoline used in Texas. An interstate trucker shall remit all taxes due by him based on five cents for each gallon on gasoline consumed within the state at the time of the filing of his quarterly reports. A permitted interstate trucker is entitled to deduct one-half of one percent of the taxable gallons of gasoline on payment of the taxes to the state for the expense of record keeping, reporting, and remitting the tax.

[Amended by Acts 1979, 66th Leg., p. 626, ch. 291, § 1, eff. Jan. 1, 1980.]

Art. 9.113. Bonding Requirements

(1)(A) A distributor or interstate trucker shall post a surety bond equal to two times the highest tax that could accrue on tax-free gasoline purchased or acquired during a reporting period. The minimum bond is $1,000 for a distributor and $500 for an interstate trucker. The maximum bond for a distributor or interstate trucker is $100,000 unless the comptroller believes there is undue risk of loss of tax revenues, in which event he may require one or more bonds or securities in a total amount exceeding $100,000.

(B) A permitted interstate trucker who maintains all fuel records in Texas, and all or substantially all of whose highway use is made with gasoline purchased within this state with the tax paid may be exempted from the bonding requirements under an annual affidavit to the comptroller attesting to the intrastate or substantially intrastate tax-paid purchases of gasoline.

(2) A bond must be a continuing instrument, must constitute a new and separate obligation, in the penal sum named in the bond, for each calendar year or portion of a year while the bond is in force, and must remain in effect until the surety on the bond is released and discharged.

(3) In lieu of filing a surety bond, an applicant for a permit may substitute the following security:

(A) cash in the form of U.S. currency in an amount equal to the required bond to be deposited in the suspense account of the state treasury; or

(B) an assignment to the comptroller of a certificate of deposit in any bank or savings and loan association in Texas which is a member of the FDIC or the FSLIC. The amount of the certificate of deposit must be at least equal to the bond amount required.

(4) If the amount of any existing bond becomes insufficient or any security becomes unsatisfactory or unacceptable, the comptroller may require the filing of a new or of an additional bond or security.

(5) No surety bond or other form of security will be released until it is determined by examination or audit that no tax, penalty, or interest liability exists. When a permit holder has been cleared of all tax liability by the comptroller, the cash or securities shall be released within 60 days.

(6) The comptroller may use the cash or certificate of deposit security to satisfy a final determination of delinquent liability or a judgment secured in any action by this state to recover gasoline taxes, costs, penalties, and interest found to be due this state by any person in whose behalf the cash or certificate security was deposited.

(7) A surety on a bond furnished by a permittee shall be released and discharged from liability to the state accruing on the bond after the expiration of 30 days from the date on which the surety files with the comptroller a written request to be released and discharged. The request does not relieve, release, or discharge the surety from a liability already accrued, or which accrues before the expiration of the 30-day period. The comptroller shall promptly on receipt of the request notify the permittee who furnished such bond, and unless the permittee, before the expiration date of the existing security, files with the comptroller a new bond with a surety company duly authorized to do business under the laws of the state, or other authorized security, in the amount required in this article, the comptroller shall cancel the permit in the manner provided by this chapter.

(8) A permittee may request an examination or audit to obtain release of the security when he relinquishes the permit or when he desires to substitute one form of security for an existing one.

[Amended by Acts 1979, 66th Leg., p. 626, ch. 291, § 1, eff. Jan. 1, 1980.]

Art. 9.114. Records

(1) A distributor shall keep a record in gallons showing:

(A) all gasoline inventories on hand at the first of each month;

(B) all gasoline refined, compounded, or blended;

(C) all gasoline purchased or received, showing the name of the seller and date of each purchase or receipt;

(D) all gasoline sold, distributed, or used, showing the name of the purchaser and the date of the sale or use; and

(E) all gasoline lost by fire or other accident.

(2) A dealer shall keep a complete record in gallons of:

(A) gasoline inventories on hand at the first of each month;

(B) all gasoline purchased or received, showing the name of the seller and the date of each purchase or receipt;

(C) all gasoline sold or used, showing the date of the sale or use; and

(D) all gasoline lost by fire or other accident.

(3) An interstate trucker shall keep a record of:

(A) the total miles travelled in all states by all vehicles travelling into or from Texas and the total quantity of gasoline consumed in those vehicles; and

(B) the total miles travelled in Texas and the total quantity of gasoline purchased and delivered into the fuel supply tanks of motor vehicles in Texas.

(4) An aviation fuel dealer shall keep a complete record in gallons showing:

(A) all gasoline inventories on hand at the first of each month;

(B) all gasoline purchased or received, showing the name of the seller and date of each purchase or receipt;

(C) all gasoline sold or used in aircraft or aircraft servicing equipment, showing the name of the purchaser, the date of the sale or use, and the airplane registration or "N" number or aircraft servicing equipment number or description; and

(D) all gasoline lost by fire or other accident.

(5) The comptroller may require selective schedules from a distributor, dealer, aviation fuel dealer, interstate trucker, or common or contract carrier for any purchases, sales, or deliveries of gasoline when the schedules are not inconsistent with the requirements of this chapter.

(6) The records required must be kept for four years and are open to inspection at all times by the comptroller, the attorney general, or their authorized representatives.

[Amended by Acts 1979, 66th Leg., p. 626, ch. 291, § 1, eff. Jan. 1, 1980.]

Art. 9.115. Reports

(1) On or before the 25th day of each month, a distributor shall file a report and remit the amount of tax required to be collected during the preceding month. The report shall be executed by the distributor or his representative and shall be filed with the comptroller on a form provided or approved by the comptroller, containing complete and detailed information not inconsistent with the requirements of this chapter of gasoline transactions. A distributor required to file a report under this article who has not sold or used any gasoline during the reporting period shall nevertheless file with the comptroller the required report setting forth the facts or information. The failure of a distributor to obtain forms from the comptroller is no excuse for the failure to file a report containing all the information required to be reported.

(2) On or before the 25th day of the month following the end of each calendar quarter, an interstate trucker shall file a report and remit the amount of tax due. The report shall be properly executed and filed with the comptroller and shall contain complete and detailed information as the comptroller may require on forms provided for that purpose. An interstate trucker who has not used any gasoline during the reporting period shall nevertheless file with the comptroller the required report setting forth the facts or information. The failure of an interstate trucker to obtain forms from the comptroller is no excuse for the failure to file a report containing all the information required to be reported.

(3) An interstate trucker who maintains all fuel records in Texas and all or substantially all of whose highway use is made with gasoline purchased within this state with the tax paid may be exempted from the quarterly reporting requirements under an annual affidavit to the comptroller attesting to the intrastate, or substantially intrastate, tax-paid purchases of gasoline, but records must be retained for four years as required in Article 9.114(6) of this chapter.

(4) An aviation fuel dealer is not required to file a report with the comptroller, but records must be retained for four years as required in Article 9.114(6) of this chapter.

[Amended by Acts 1979, 66th Leg., p. 626, ch. 291, § 1, eff. Jan. 1, 1980.]

Art. 9.116. Refunds

(1) A person who exports, sells to the federal government, loses by fire or other accident, or uses gasoline for the purpose of operating or propelling

any motorboat, tractor used for agricultural purposes, or stationary engine, or for any other purpose except in a vehicle operated or intended to be operated on the public highways of this state, and who has paid the tax imposed on gasoline by this chapter either directly or indirectly is, when the person has fully complied with the invoice and filing provisions of this article and the rules and regulations of the comptroller, entitled to reimbursement of the tax paid by him, less a filing fee and any amount allowed distributors, wholesalers or jobbers, dealers, or others under Article 9.112(3) of this chapter.

(2) A person may file a refund claim for tax paid on the gasoline used in motor vehicles which are operated exclusively off the public highways except for incidental travel on the public highways as determined by the comptroller, but not for that portion used in incidental travel.

(3) A permitted interstate trucker is entitled to a credit equivalent to the tax rate for each gallon paid on all gasoline on which the gasoline tax has been paid and later consumed in vehicles outside the state. When the amount of credit to which the interstate trucker is entitled for any calender quarter exceeds the amount of tax for which the interstate trucker is liable for gasoline consumed in the vehicles during the reporting period, the excess shall be allowed as a credit or refund on a timely filed quarterly report against tax for which the interstate trucker would be otherwise liable for any of the three succeeding quarters. Evidence of the mileage travelled and gallonage consumed and the payment of the gasoline tax on a form as may be required by or is satisfactory to the comptroller shall be furnished by an interstate trucker claiming a credit or tax refund.

(4) If the quantity of gasoline used in Texas by auxiliary power units or power take-off equipment on any motor vehicle can be accurately measured while the motor vehicle is stationary by any metering or other measuring device or method designed to measure the fuel separately from fuel used to propel the motor vehicle, the comptroller may approve and adopt the use of any device as a basis for determining the quantity of gasoline consumed in those operations for tax credit or tax refund.

(5) A person who exports, loses by fire or other accident 100 gallons or more of gasoline on which the tax has been paid, or sells gasoline in any quantity to the United States government for the exclusive use of that government on which the tax has been paid, may file a claim for a refund of the net tax paid to the state in the manner provided by this chapter or as the comptroller may direct. A permitted distributor who establishes proof satisfactory to the comptroller of export, loss by accident, or sale to the United States government, may take a credit for the net amount of the tax paid to the state on any subsequent monthly report and tax payment made to the comptroller within one year from the date of the exportation, loss, or sale.

(6) The right to receive a refund under this article is not assignable, except that a person residing or maintaining a place of business outside the state who purchases 100 gallons or more of gasoline and forthwith exports the entire quantity may assign his right to claim a refund to the permitted distributor from whom the gasoline was purchased or to any permitted distributor who has paid the tax on the gasoline either directly or through another permitted distributor in Texas. When a distributor has secured an assignment and the proof of export required by the comptroller, he may credit the tax paid on any monthly report filed with the comptroller before the expiration of one year from the first day of the month following the date of delivery to the exporter of the gasoline.

[Amended by Acts 1979, 66th Leg., p. 626, ch. 291, § 1, eff. Jan. 1, 1980.]

Art. 9.117. Claims for Refunds

(1) A refund claim must be filed on a form provided by the comptroller, be supported by the original invoice issued by the seller, and contain:

(A) a stamped or preprinted name and address of the seller;

(B) the name of the purchaser;

(C) the date of delivery of the gasoline;

(D) the date of the issuance of the invoice (if different from the date of fuel delivery);

(E) the number of gallons of gasoline delivered;

(F) the amount of tax either separately stated from the selling price or a notation that the selling price includes the tax; and

(G) the type of vehicle or equipment, such as a motorboat, railway engine, highway vehicle, off-highway vehicle, or refrigeration unit or stationary engine into which the fuel is delivered.

(2) The invoice shall be made out in duplicate. The original invoice shall be delivered to the purchaser of the gasoline no later than 30 days after the date of delivery of the gasoline. The duplicate invoice shall be retained by the seller at his place of business. If the delivery of gasoline is made through an automated method whereby the purchase is automatically applied to the purchaser's account, one invoice may be issued at the time of billing covering multiple purchases made during a 30-day billing cycle.

(3) A person who files a claim for a tax refund on any gasoline used for any purpose for which a tax refund is not authorized or who files an invoice supporting a refund claim on which the date, figures, or any material information has been falsified or altered forfeits his right to the entire amount of

the refund claim filed. Forfeiture does not apply if a claimant provides proof satisfactory to the comptroller that the incorrect refund claim filed was due to a clerical or mathematical calculation error.
[Amended by Acts 1979, 66th Leg., p. 626, ch. 291, § 1, eff. Jan. 1, 1980.]

Art. 9.118. Limitations on Refunds

(1) Except as provided by this article, a claim for a refund must be filed with the comptroller before the expiration of one year from the first day of the calendar month following the purchase or use.

(2) An interstate trucker may accumulate credits for four successive calendar quarters, but he must take the credit or claim a refund on a report filed on or before the 25th day following the fourth quarter.

(3) Except for an audit deficiency assessment, a claim for refund shall be filed with the comptroller before the expiration of one year from the first day of the month following delivery, export, or loss by fire or other accident. If an audit of a distributor determines that tax-free sales were made to unauthorized purchasers and the unauthorized purchaser could have filed for a refund if tax had been paid at the time of sale, the unauthorized purchaser may file a refund claim within one year from the date of final assessment.
[Amended by Acts 1979, 66th Leg., p. 626, ch. 291, § 1, eff. Jan. 1, 1980.]

Art. 9.119. Refund Payments and Filing Fee

(1) After examination of the refund claim, the comptroller before issuing a refund warrant shall deduct from the amount of the refund:

(A) the two percent deducted originally by the distributor on the first sale or distribution of the gasoline; and

(B) $1.50 as a filing fee.

(2) The filing fees shall be set aside for the use and benefit of the comptroller in the administration and enforcement of this article. All filing fees shall be paid into the state treasury and shall be paid out on vouchers and warrants in the manner prescribed by law.
[Amended by Acts 1979, 66th Leg., p. 626, ch. 291, § 1, eff. Jan. 1, 1980.]

Art. 9.120. Allocation of Revenue

(1) Before any diversion or allocation of the gasoline tax collected under the provisions of this chapter is made, one percent of the gross amount of the tax shall be set aside in the state treasury in a special fund, subject to the use of the comptroller in the administration of this chapter and enforcement of the provisions of this chapter. Any unexpended portion of the special fund shall, at the end of each fiscal year, revert to the highway motor fuel tax fund and to the funds prescribed below, in proportion to the amounts originally derived from the respective sources.

(2) Each month the comptroller, after making the deductions for refund purposes, shall determine as accurately as possible the number of gallons of fuel used in motorboats on which the gasoline tax has been paid to this state, and on which refund of the tax has not been made and against which limitation has run for filing claim for refund of the tax (called "unclaimed refunds"), and from the number of gallons so determined the comptroller shall compute the amount of taxes that would have been refunded under the law had refund claims been filed in accordance with the law, and shall allocate and deposit the unclaimed refunds as follows:

(A) twenty-five percent of the revenues based on unclaimed refunds of taxes paid on motor fuel used in motorboats shall be placed to the credit of the available school fund; and

(B) the remaining 75 percent of the revenue shall be allocated, deposited, and set aside in the state treasury in the special boat fund, which may be appropriated to the Parks and Wildlife Department for the purpose of acquiring land for recreational purposes and for enforcement of the Water Safety Act.

(3) Each month the comptroller, after making all deductions for refund purposes and for the funds derived from unclaimed refunds, shall allocate and deposit the net remainder of the taxes collected under the provisions of this chapter as follows:

(A) one-fourth of the tax shall be placed to the credit of the available school fund;

(B) one-half of the tax shall be placed to the credit of the state highway fund for the construction and maintenance of the state road system under existing laws; and

(C) from the remaining one-fourth of the tax the comptroller shall:

(i) place to the credit of the county and road district highway fund an amount determined by the Board of County and District Road Indebtedness and certified by the board to the comptroller prior to August 31st of each year, for the fiscal year beginning September 1st each year, to be required in addition to any and all funds already on hand, for the payment by the board of the principal, interest, and sinking fund requirements for each year, on all bonds, warrants, or other legal evidences of indebtedness heretofore issued by counties or defined road districts of this state, which mature on or after January 1, 1933, insofar as amounts of same were issued for and proceeds have been actually expended in the construction of roads that constituted and comprised a part of the system of designated state highways on September 17,

1932, or which subsequent to such date and before January 2, 1939, have been designated a part of the system of state highways and declared by the Board of County and District Road Indebtedness before January 2, 1945, to be eligible to participate in the distribution of the money in the county and road district highway fund under the provisions of existing laws;

(ii) for the fiscal year beginning September 1, 1951, and each fiscal year thereafter, place to the credit of the fund known as the county and road district highway fund the sum of $7,300,000, that amount to be provided on the basis of equal monthly payments, which sum shall be allocated by the Board of County and District Road Indebtedness to all of the counties of Texas not later than September 15th of each year, through the lateral road account; and

(iii) place to the credit of the state highway fund the remainder of the one-fourth of the tax, the amount to be provided on the basis of monthly allocations, which sum shall be used by the State Department of Highways and Public Transportation for the construction and improvement of farm-to-market roads; except that one-half of the amount may be used for the maintenance of farm-to-market roads during a fiscal year for which at least $15 million is appropriated for the construction of farm-to-market roads under Subsection (4–b), Section 2, Article XX, Chapter 184, Acts of the 47th Legislature, Regular Session, 1941, as amended (Article 7083a, Vernon's Texas Civil Statutes).

(4) All receipts due the available school fund which are in the highway motor fuel tax fund on August 31st of each fiscal year shall be credited to the available school fund on August 31st of each fiscal year.

[Amended by Acts 1979, 66th Leg., p. 626, ch. 291, § 1, eff. Jan. 1, 1980.]

Subdivision (6a) of former art. 9.13 was also amended by Acts 1979, 66th Leg., p. 548, ch. 260, art. 1, § 5.

SUBCHAPTER C. DIESEL FUEL TAX

Art. 9.201. Tax Imposed

(1) There is imposed on the first sale or use of diesel fuel in this state an excise tax of 6.5 cents for each gross or volumetric gallon or fractional part sold or used in this state except:

(A) diesel fuel delivered by a permitted supplier to a common or contract carrier, oceangoing vessel (including ship, tanker, or boat), or barge for export from this state, if the diesel fuel is moved forthwith outside this state;

(B) diesel fuel sold by a permitted supplier to the federal government for its exclusive use;

(C) diesel fuel sold or delivered by a permitted supplier to another permitted supplier or bonded user, to the bulk storage facility of a diesel tax prepaid user, or to a purchaser who provides a signed statement as provided by Article 9.202 of this chapter, but not including a delivery of tax-free diesel fuel into the fuel supply tanks of a motor vehicle, except for a motor vehicle owned by the federal government;

(D) diesel fuel sold or delivered by a permitted supplier into the storage facility of a permitted aviation fuel dealer, from which diesel fuel will be sold or delivered solely into the fuel supply tanks of aircraft or aircraft servicing equipment;

(E) diesel fuel sold or delivered by a permitted supplier into fuel supply tanks of railway engines, motorboats, or refrigeration units or other stationary equipment powered by a separate motor from a separate fuel supply tank;

(F) diesel fuel sold by a permitted supplier to a transit company for exclusive use in its transit carrier vehicles, under an exemption certificate promulgated by the comptroller, in which event the rate of tax shall be six cents for each gallon; and

(G) kerosene when delivered by a permitted supplier into a storage facility at a retail business from which all deliveries are exclusively for heating, cooking, lighting, or similar nonhighway use.

(2) The tax shall be computed and paid to the state on the gross or volumetric gallons of taxable diesel fuel sold to dealers or bulk users, as shown by the authorized measurement certificate issued for the cargo tank making deliveries, or as shown by any other measuring device approved by the comptroller.

(3) For a supplier whose diesel fuel deliveries are made to retail outlets that are operated by him or deliveries by him on consignment, the tax on sales to users and consumers shall be computed on the basis of actual sales.

(4) If the comptroller is not satisfied with a tax return or the amount of tax required to be paid to the state by a supplier who elects to report on the basis of actual sales, the comptroller may compute and determine the amount required to be paid on the basis of the beginning inventory, showing the total gallons of diesel fuel in storage at the location on the first day of the calendar month, plus the total gallons of diesel fuel delivered into the storage facility during the month, and less the total gallons of diesel fuel in the storage facility at the end of the calendar month.

(5) This article does not prohibit volume correction of diesel fuel under accepted practices when sold or distributed to or between permitted suppliers, but reports filed with the comptroller must show

tax-paid purchases and taxable sales and distributions in gross quantities.

(6) The tax imposed by this article is in lieu of any other excise or occupation tax imposed by the state or any state political subdivision on the sale, use, or distribution of diesel fuel.

[Amended by Acts 1979, 66th Leg., p. 626, ch. 291, § 1, eff. Jan. 1, 1980.]

Art. 9.202. Signed Statement for Purchasing Diesel Fuel Tax Free

(1) The first sale or use of diesel fuel in this state is taxable, except that the sale of diesel fuel may be made without collecting the tax otherwise imposed when the purchaser has furnished to a permitted supplier a signed statement that stipulates that:

(A) the purchaser does not operate any diesel-powered motor vehicles on the public highway;

(B) all of the diesel fuel will be consumed by the purchaser and in no event may diesel fuel purchased on a signed statement be resold; and

(C) none of the diesel fuel purchased in this state will be delivered or permitted by the purchaser to be delivered into fuel supply tanks of motor vehicles.

(2) The signed statement from the purchaser relieves the permitted supplier from the burden of proof that the sale of diesel fuel was not taxable to the purchaser and remains in effect unless:

(A) the statement is revoked in writing by the purchaser or supplier;

(B) the comptroller notifies the supplier in writing that the purchaser may no longer make tax-free purchases; or

(C) the supplier is put on notice by making taxable sales of diesel fuel to a purchaser who has previously submitted a signed statement to this supplier. Taxable sales create a rebuttable presumption that the supplier had reasonable notice that all subsequent sales should have been taxable.

(3) A taxable use of any part of the diesel fuel purchased under a signed statement shall, in addition to any criminal penalty, forfeit the right of the person to purchase diesel fuel tax free for a period of one year from the date of the offense, and any tax, interest, and penalty found to be due through false or erroneous execution or continuance of a promissory statement by the purchaser, if assessed to the supplier, shall be a debt of the purchaser to the supplier until paid, and shall be recoverable at law in the same manner as the purchase price of the fuel. The person may, however, claim a refund of the tax paid on any diesel fuel used for nonhighway purposes under Article 9.220 of this chapter.

(4) The statement must be signed by the purchaser or his representative.

(5) The comptroller may make regulations that allow separate operating divisions of corporations to give separate signed statements as if they were different legal entities.

(6) The comptroller may promulgate necessary forms and rules to comply with this article.

[Amended by Acts 1979, 66th Leg., p. 626, ch. 291, § 1, eff. Jan. 1, 1980.]

Art. 9.203. Computation and Collection of Tax

(1) A supplier who makes a sale or use of diesel fuel in this state for any purpose other than those exceptions listed in Article 9.201(1) of this chapter shall at the time of sale or use be liable to the state for the tax imposed in this subchapter and shall report and pay the tax in the manner provided in the subchapter.

(2) A dealer shall collect the tax at the rate imposed on each gallon of diesel fuel delivered by him into the fuel supply tanks of a motor vehicle and shall report and pay to the state any tax collected that has not been paid to a permitted supplier.

(3) A user, except a diesel tax prepaid user, shall report and pay to the state the tax at the rate imposed on each gallon of diesel fuel delivered by him into the fuel supply tanks of a motor vehicle, unless the tax has been paid to a permitted supplier or a dealer, or, as a diesel tax prepaid user, the tax has been prepaid directly to the comptroller.

(4) An interstate trucker who imports diesel fuel into Texas in the fuel supply tanks of a motor vehicle having an aggregate capacity of 42 gallons or more for each vehicle shall report and pay the tax at the rate imposed herein on diesel fuel that is imported and used on Texas highways. The number of gallons of diesel fuel used on Texas highways shall be computed by dividing the total miles travelled in all states by the total number of gallons of diesel fuel delivered into the fuel supply tanks of motor vehicles in all states. The mileage factor obtained shall be divided into the total Texas miles travelled in order to determine the number of gallons of diesel fuel used in Texas. An interstate trucker shall remit all taxes due by him based on 6.5 cents for each gallon on diesel fuel consumed within the state at the time of the filing of the quarterly report.

(5) Diesel fuel shall be deemed to be used when it is delivered into fuel supply tanks.

(6) The tax on 1-½ percent of the taxable gallons of diesel fuel sold or distributed in this state shall be allocated to the persons selling, distributing, or handling diesel fuel in this state, which allocation or

allowance shall be deducted by the supplier in the payment to the state of the taxes imposed and shall be apportioned as follows:

(A) one percent to the permitted supplier making the first taxable sale or delivery of the diesel fuel to dealers and users and paying the tax imposed to the state for the expense of collecting, accounting for, reporting, and remitting the taxes collected and keeping records; and

(B) one-half of one percent of the taxable gallons to users who purchase in quantities of 2,500 gallons or more for each delivery, dealers, or consignors to cover evaporation and handling losses sustained from the time the diesel fuel is delivered to their storage facilities until it is sold or delivered into fuel supply tanks of motor vehicles.

(7) A bonded user or permitted interstate trucker is entitled to deduct one-half of one percent of the taxable gallons of diesel fuel on payment of the taxes to this state for the expense of record keeping, reporting, and remitting the tax.

(8) A person who performs more than one of the functions or activities for which a deduction is allowed is entitled to the apportionment or allowance for each function or activity, subject to the limitations prescribed for each function or activity, but the aggregate allowance may not exceed 1-½ percent.

(9) The allocation or allowance shall be distributed under rules and regulations prescribed by the comptroller.

(10) The intent and purpose of the allowance or allocation to suppliers, dealers, or users is to reimburse fully persons acting in those capacities for losses sustained by them from evaporation, temperature changes, and ordinary handling of diesel fuel and to facilitate the payment of tax refunds without volume adjustments of diesel fuel purchased tax-paid and thereafter used in other states.

[Amended by Acts 1979, 66th Leg., p. 626, ch. 291, § 1, eff. Jan. 1, 1980.]

Art. 9.204. Permits

A bonded supplier, bonded user, interstate trucker, diesel tax prepaid user, or aviation fuel dealer shall file an application with the comptroller for one of the nonassignable permits provided for in this subchapter.

[Amended by Acts 1979, 66th Leg., p. 626, ch. 291, § 1, eff. Jan. 1, 1980.]

Art. 9.205. Bonded Supplier's Permit

A bonded supplier's permit authorizes a person to sell tax-free diesel fuel to other bonded suppliers, bonded users, aviation fuel dealers, diesel tax prepaid users only for diesel fuel delivered into his bulk storage facilities, and persons issuing signed statements and to supply tax-paid diesel fuel to dealers and other purchasers. A bonded supplier may not make a tax-free sale or delivery of diesel fuel into the fuel supply tanks of a motor vehicle other than a motor vehicle owned by the federal government.

[Amended by Acts 1979, 66th Leg., p. 626, ch. 291, § 1, eff. Jan. 1, 1980.]

Art. 9.206. Bonded User Permit

A bonded user permit authorizes a user whose purchases of diesel fuel are predominantly for nonhighway use to purchase diesel fuel tax free from permitted suppliers and to report and pay taxes to this state on that part of the diesel fuel that is delivered into the fuel supply tanks of motor vehicles owned or operated by him.

[Amended by Acts 1979, 66th Leg., p. 626, ch. 291, § 1, eff. Jan. 1, 1980.]

Art. 9.207. Diesel Tax Prepaid User Permit

A diesel tax prepaid user permit authorizes a person whose use of diesel fuel is predominantly for nonhighway use, but who owns or operates one or more passenger cars or light trucks only in the weight class shown in this article to elect to prepay an annual tax on the fuel delivered from his own tax-free storage rather than obtain a bonded user permit. If he elects to obtain a diesel tax prepaid user permit, he must prepay the tax at the rate prescribed for each motor vehicle based on the class of registered gross weight. A person whose purchases of diesel fuel are predominantly for highway use does not qualify for a diesel tax prepaid user permit.

Class A Less than 2,500 lbs.	$20
Class B 2,500 to 3,500 lbs.	36
Class C 3,501 to 4,500 lbs.	45
Class D 4,501 to 7,000 lbs.	54

[Amended by Acts 1979, 66th Leg., p. 626, ch. 291, § 1, eff. Jan. 1, 1980.]

Art. 9.208. Interstate Trucker's Permit

An interstate trucker's permit authorizes a person who imports diesel fuel into the state in the fuel supply tanks of motor vehicles having an aggregate capacity of 42 gallons or more for each vehicle to report and pay the tax due on diesel fuel imported into this state or to claim a credit or a refund of the tax paid on diesel fuel purchased in this state and thereafter used in other states. An interstate trucker may not make tax-free purchases of diesel fuel.

[Amended by Acts 1979, 66th Leg., p. 626, ch. 291, § 1, eff. Jan. 1, 1980.]

Art. 9.209. Trip Permits

In lieu of an annual interstate trucker's permit, a person bringing motor vehicles into this state for commercial purposes with fuel supply tanks having an aggregate capacity of 42 gallons or more for each vehicle may obtain a trip permit. The trip permit

must be obtained before entry into the state or at the time of entry. No more than five trip permits may be issued during a calendar year to a person operating interstate. A fee for each trip permit shall be collected from the applicant. The fee is an amount equal to the tax payable on the quantity of diesel fuel that could be imported in the fuel supply tanks of the motor vehicle, but never less than $5.
[Amended by Acts 1979, 66th Leg., p. 626, ch. 291, § 1, eff. Jan. 1, 1980.]

Art. 9.210. Aviation Fuel Dealer's Permit

An aviation fuel dealer's permit authorizes a person to deliver diesel fuel exclusively into the fuel supply tanks of aircraft or aircraft servicing equipment.
[Amended by Acts 1979, 66th Leg., p. 626, ch. 291, § 1, eff. Jan. 1, 1980.]

Art. 9.211. Permit Application Forms

(1) The comptroller shall promulgate the application form which must contain the following information:

(A) the name under which the applicant transacts or intends to transact business;

(B) the principal office, residence, or place of business in Texas of the applicant;

(C) if the applicant is not an individual, names of the principal officers of an applicant corporation, names of each partner in an applicant partnership, and the office, street, or post office address of each; and

(D) other information required by the comptroller.

(2) The comptroller shall determine from the information shown in the application or other investigation the kind and class of permit to be issued.
[Amended by Acts 1979, 66th Leg., p. 626, ch. 291, § 1, eff. Jan. 1, 1980.]

Art. 9.212. Supplier May Perform Other Functions

A supplier may operate under his supplier's permit as a user, dealer, interstate trucker, or aviation fuel dealer without securing a separate permit, but shall be subject to all other conditions, requirements, and liabilities imposed on those permittees.
[Amended by Acts 1979, 66th Leg., p. 626, ch. 291, § 1, eff. Jan. 1, 1980.]

Art. 9.213. Permits: Periods of Validity

(1) A bonded supplier's and bonded user permit is permanent and valid so long as the permittee has in force and effect the required bond or security and furnishes timely reports as required, or until the permit is surrendered by the holder or cancelled by the comptroller.

(2) An aviation fuel dealer's permit is permanent and is valid until the permit is surrendered by the holder or cancelled by the comptroller.

(3) An interstate trucker's permit is valid from the date of issuance through December 31 of each calendar year or until the permit is surrendered by the holder or cancelled by the comptroller. The comptroller may renew the permit for each ensuing calendar year if the permittee has in force and effect the required bond or security and furnishes timely reports as required. Interstate truckers exempted by provisions of this chapter from bonding and reporting requirements shall file an annual affidavit and on approval, the comptroller shall issue the required permit.

(4) A trip permit is valid for the period prescribed on the permit as determined by the comptroller.

(5) A diesel tax prepaid user permit shall be issued annually and is valid from the date of its issuance through December 31 of the calendar year unless a motor vehicle for which the tax is prepaid is sold or no longer used on the public highway. A diesel tax prepaid user must make application for a new permit each calendar year.
[Amended by Acts 1979, 66th Leg., p. 626, ch. 291, § 1, eff. Jan. 1, 1980.]

Art. 9.214. Display of Permits

(1) A permit must be posted in a conspicuous place or kept available for inspection at the principal place of business of the owner. A copy of the permit must be kept at each place of business or other place of storage from which diesel fuel is sold, distributed, or used, and in each motor vehicle used by the permit holder to transport diesel fuel purchased by him for resale, distribution, or use.

(2) A person holding an interstate trucker's permit shall reproduce the permit and carry a photocopy with each motor vehicle being operated into or from the state.
[Amended by Acts 1979, 66th Leg., p. 626, ch. 291, § 1, eff. Jan. 1, 1980.]

Art. 9.215. List of Permittees

(1) The comptroller shall, on or before the 20th day of December of each calendar year, prepare and either mail or distribute to each bonded supplier a printed alphabetical list of permitted suppliers, bonded users, and aviation fuel dealers who are qualified to purchase diesel fuel tax free during the ensuing calendar year. A supplemental list of additions and deletions shall be delivered to each supplier each month thereafter.

(2) The comptroller shall, on or before the 31st day of January of each calendar year, prepare and either mail or distribute to each bonded supplier a printed alphabetical list of diesel tax prepaid user permittees who are qualified to purchase diesel fuel

tax free during the ensuing calendar year. A supplemental list of additions and deletions shall be delivered to each supplier each month thereafter. [Amended by Acts 1979, 66th Leg., p. 626, ch. 291, § 1, eff. Jan. 1, 1980.]

Art. 9.216. Bonding Requirements

(1)(A) Except as provided by Subsection (B) of this section, each supplier, bonded user, or interstate trucker shall post a surety bond equal to two times the highest tax that will or may be expected to accrue on taxable sales and use of diesel fuel during a reporting period. The minimum bond for a supplier is $1,000. The minimum bond for a bonded user or interstate trucker is $500.

(B) A permitted interstate trucker who maintains all fuel records in Texas, and all or substantially all of whose highway use is made with diesel fuel purchased within this state with the tax paid may be exempted from the bonding requirements under an annual affidavit to the comptroller attesting to the intrastate or substantially intrastate tax-paid purchase of diesel fuel.

(2) A bond must be a continuing instrument, must constitute a new and separate obligation, in the penal sum named in the bond, for each calendar year or portion of a year while the bond is in force, and must remain in effect until the surety on the bond is released and discharged.

(3) In lieu of filing a surety bond, an applicant for a permit may substitute the following security:

(A) cash in the form of U.S. currency in an amount equal to the required bond to be deposited in the suspense account of the state treasury; or

(B) an assignment to the comptroller of a certificate of deposit in any bank or savings and loan association in the state that is a member of the FDIC or the FSLIC. The amount of the certificate of deposit shall at least equal the bond amount required.

(4) If the amount of an existing bond becomes insufficient, or any surety on a bond becomes unsatisfactory or unacceptable, the comptroller may require the filing of a new or an additional bond.

(5) No surety bond or other form of security may be released until it is determined by examination or audit that no tax, penalty, or interest liability exists. When the permit holder has been cleared of all tax liability by the comptroller, the cash or securities shall be released within 60 days.

(6) The comptroller may use the cash or certificate of deposit to satisfy a final determination of delinquent liability or a judgment secured in an action by this state to recover diesel fuel taxes, costs, penalties, and interest found to be due this state by any person in whose behalf the cash or securities were deposited.

(7) A surety on any bond furnished by a permittee shall be released and discharged from liability to the state accruing on the bond after the expiration of 30 days from the date on which the surety files with the comptroller a written request to be released and discharged. The request does not relieve, release, or discharge the surety from a liability already accrued, or which accrues before the expiration of the 30-day period. The comptroller shall promptly on receipt of the request notify the permittee who furnished the bond, and unless the permittee, before the expiration date of the existing security, files with the comptroller a new bond with a surety company duly authorized to do business under the laws of the state, or other authorized security, in the amount required in this article, the comptroller shall cancel the permit in the manner provided in this chapter.

(8) A permittee may request an examination or audit to obtain release of the security when he relinquishes the permit or when he desires to substitute one form of security for an existing one. [Amended by Acts 1979, 66th Leg., p. 626, ch. 291, § 1, eff. Jan. 1, 1980.]

Art. 9.217. Records

(1) A supplier shall keep a complete record in gallons showing:

(A) all diesel fuel inventories on hand at the first of each month;

(B) all diesel fuel refined, compounded, or blended;

(C) all diesel fuel purchased or received, showing the name of the seller, and the date of each purchase or receipt;

(D) all diesel fuel sold, distributed, or used showing the name of the purchaser and the date of sale, distribution, or use; and

(E) all diesel fuel lost by fire or other accident.

(2) A dealer shall keep a complete record in gallons of:

(A) diesel fuel inventories on hand at the first of each month;

(B) all diesel fuel purchased or received, showing the name of the seller, the date of each purchase or receipt, and all diesel fuel sold, distributed, or used; and

(C) all diesel fuel lost by fire or other accident.

(3) A bonded user or other user with nonhighway equipment uses who files a claim for a refund shall keep a complete record in gallons of:

(A) inventories of all diesel fuel on hand at the first of each month;

(B) all diesel fuel purchased or received, showing the name of the seller and the date of each purchase;

(C) all diesel fuel deliveries into the fuel supply tanks of motor vehicles;

(D) diesel fuel used for other purposes, showing the purpose for which used; and

(E) all diesel fuel lost by fire or other accident.

(4) An aviation fuel dealer shall keep a complete record in gallons showing:

(A) all diesel fuel inventories on hand at the first of each month;

(B) all diesel fuel purchased or received, showing the name of the seller and the date of each purchase or receipt;

(C) all diesel fuel sold, distributed, or used in aircraft or aircraft servicing equipment, showing the name of purchaser and the date of sale, distribution, or use and the airplane registration or "N" number or aircraft servicing equipment number or description to which diesel fuel is delivered; and

(D) diesel fuel lost by fire or other accident.

(5) A permitted interstate trucker shall keep a record of:

(A) the total miles travelled in all states by all vehicles traveling into or from Texas and the total quantity of diesel fuel consumed in those vehicles; and

(B) the total miles travelled in Texas and the total quantity of diesel fuel delivered into the fuel supply tanks of motor vehicles in Texas.

(6) The comptroller may require selective schedules from a supplier, dealer, aviation fuel dealer, interstate trucker, or common or contract carrier for a purchase, sale, or delivery of diesel fuel when the schedules are not inconsistent with the requirements of this chapter. The records required must be kept for four years and are open to inspection at all times by the comptroller, the attorney general, or their authorized representatives.

[Amended by Acts 1979, 66th Leg., p. 626, ch. 291, § 1, eff. Jan. 1, 1980.]

Art. 9.218. Invoices

(1) A delivery of diesel fuel into the fuel supply tanks of a motor vehicle having an aggregate capacity of 42 gallons or more shall be evidenced by an invoice issued in duplicate by a dealer or an invoice or a distribution log issued by a bonded user or other user.

(2) An invoice must be carried in the vehicle until the next purchase or delivery of fuel into that vehicle. A distribution log must be carried with the vehicle until the end of the calendar month.

(3) A dealer shall also issue an invoice for any sale, distribution, or use for any purpose other than propelling a motor vehicle on the public highways of this state.

(4) The required invoice or distribution log must have the name and address of the person making the delivery stamped or preprinted on it and provide spaces for:

(A) the name of the purchaser;

(B) the date of delivery of the fuel;

(C) the number of gallons delivered;

(D) the odometer or hubmeter reading;

(E) the state highway license or unit number;

(F) the type of vehicle or equipment, such as a motorboat, railway engine, highway vehicle, off-highway vehicle, or refrigeration unit or stationary engine into which the fuel is delivered;

(G) the Texas diesel tax stated separately from the selling price of the fuel, or a statement noting that the state diesel tax is included in the selling price of the fuel if the invoice is to be used to support a refund claim by the purchaser. If the invoice is to be used by the seller to support a refund claim, the invoice shall state that no tax was collected by the seller; and

(H) the signature of the recipient.

(5) If the delivery of tax-paid diesel fuel is made through an automated method whereby the purchase is automatically applied to the purchaser's account, one invoice may be issued at the time of billing covering multiple purchases made during a 30-day billing cycle.

(6) If the fuel delivery into the fuel supply tanks of a motor vehicle is through a method where there is no seller or agent present, then the purchaser or recipient must prepare the required invoice at the time of delivery.

[Amended by Acts 1979, 66th Leg., p. 626, ch. 291, § 1, eff. Jan. 1, 1980.]

Art. 9.219. Reports

(1) On or before the 25th day of each month, each supplier shall file a report of diesel fuel transactions and remit the amount of tax required to be collected during the preceding month. A report must be filed on a form provided by the comptroller and contain information required by the comptroller, showing complete and detailed information of diesel fuel transactions during the preceding month. A supplier required to file a report under this article who has not sold, used, or distributed any diesel fuel during the reporting period shall nevertheless file with the comptroller the required report setting forth the facts or information. The failure of a supplier to obtain forms from the comptroller is no excuse for the failure to file a report. The report must be executed by the supplier or his representative and is subject to the penalties provided in this chapter.

(2) On or before the 25th day of the month following the end of each calendar quarter, each bonded user and interstate trucker shall file a report and remit the amount of tax due except as provided by Section (4) of this article. A report must be executed and filed with the comptroller and contain complete and detailed information on diesel fuel

transactions during the preceding calendar quarter and other information required by the comptroller on forms provided for that purpose. A bonded user or interstate trucker required to file a report under this article who has not sold, used, or distributed any diesel fuel during the reporting period shall nevertheless file with the comptroller the required report setting forth the facts or information. The failure of a bonded user or interstate trucker to obtain forms from the comptroller is no excuse for the failure to file a report containing all the information required to be reported.

(3) No report is required to be filed by:

(A) an aviation fuel dealer;

(B) a trip permit user;

(C) a diesel tax prepaid user;

(D) a person issuing signed statements; or

(E) a common or contract carrier.

(4) A permitted interstate trucker who maintains all fuel records in Texas, and all, or substantially all, of whose highway use is made with diesel fuel purchased within this state with the tax paid may be exempted from the quarterly reporting requirements under an annual affidavit to the comptroller attesting to the intrastate, or substantially intrastate, purchases of tax-paid diesel fuel.

[Amended by Acts 1979, 66th Leg., p. 626, ch. 291, § 1, eff. Jan. 1, 1980.]

Art. 9.220. Refunds

(1) A dealer who has paid tax on diesel fuel that has been used or sold for use by the dealer for any purpose other than propelling a motor vehicle on the public highways of this state or that has been sold to the United States for the exclusive use of the government, and a user who has paid tax on any diesel fuel that has been used by him for any purpose other than propelling a motor vehicle on the public highways may file a claim for a refund of taxes paid, less the deduction allowed vendors and a filing fee.

(2) A person may file a refund claim for tax paid on the diesel fuel used in motor vehicles which are operated exclusively off the public highways except for incidental travel on the public highway as determined by the comptroller, but not for that portion used in the incidental travel.

(3) A permitted interstate trucker is entitled to a credit equivalent to the tax rate for each gallon paid on all diesel fuel on which the diesel fuel tax has been paid and later consumed in motor vehicles outside the state. When the amount of credit to which the interstate trucker is entitled for any calendar quarter exceeds the amount of tax for which the interstate trucker is liable for diesel fuel consumed in the motor vehicles during the reporting period, the excess shall be allowed as a credit or refund on a timely filed quarterly report against the tax for which the interstate trucker would be otherwise liable for any of the three succeeding quarters. Evidence of the mileage travelled and gallonage consumed and the payment of the diesel fuel tax, on a form that may be required by or is satisfactory to the comptroller, shall be furnished by the interstate trucker claiming the credit or tax refund.

(4) If the quantity of diesel fuel used in Texas by auxiliary power units or power take-off equipment on any motor vehicle can be accurately measured while the motor vehicle is stationary by any metering or other measuring device or method designed to measure the fuel separately from fuel used to propel the motor vehicle, the comptroller may approve and adopt the use of any device as a basis for determining the quantity of diesel fuel consumed in those operations for tax credit or tax refund. If no separate metering device or other approved measuring method is provided, the following credit or refund procedures are authorized. A permitted supplier or bonded user who operates diesel-powered motor vehicles equipped with a power take-off or a diesel-powered auxiliary power unit mounted on the motor vehicle and using the fuel supply tank of the motor vehicle may be allowed a five percent deduction from the taxable gallons used in this state in each motor vehicle so equipped. A user who is required to pay the tax on diesel fuel used in motor vehicles so equipped may file a claim for a refund not to exceed five percent of the total taxable fuel used in this state in each motor vehicle so equipped.

(5) A person who exports or loses by fire or other accident 100 or more gallons of diesel fuel on which the tax has been paid, or who sells diesel fuel in any quantity to the United States government for the exclusive use of that government on which the tax has been paid, may file a claim for a refund of the net tax paid to the state as the comptroller may direct.

[Amended by Acts 1979, 66th Leg., p. 626, ch. 291, § 1, eff. Jan. 1, 1980.]

Art. 9.221. Refund Procedure

(1) A claim must be filed with the comptroller on forms provided by the comptroller and show the date of filing, the period covered in the claim, the number of gallons of diesel fuel subject to refund, and other information required by the comptroller. A claim must be supported by one or more original invoices issued to or by the claimant, or such other information as the comptroller deems necessary.

(2) If a motor vehicle is sold, transferred, or destroyed, the owner is entitled to a refund of the unused portion of the advance taxes paid for that calendar year. The owner or operator must submit to the comptroller an affidavit identifying the vehicle, the permit number, the circumstances entitling

him to a refund, and all other information required by the comptroller. On receipt of the affidavit and when satisfied as to the circumstances, the comptroller shall refund to the owner or operator that portion of the payment that corresponds to the number of complete months remaining in the calendar year for which the vehicle was no longer utilized. No refund may be made if the use of the vehicle ceased within the last month of the calendar year.

[Amended by Acts 1979, 66th Leg., p. 626, ch. 291, § 1, eff. Jan. 1, 1980.]

Art. 9.222. Limitations on Refunds

(1) Except as provided by this article, a claim for a refund must be filed with the comptroller before the expiration of one year from the first day of the calendar month following the purchase or use.

(2) An interstate trucker may accumulate credits for four successive calendar quarters, but he must take the credit or claim a refund on a report filed on or before the 25th day following the fourth quarter.

(3) Except for an audit deficiency assessment, a claim for refund shall be filed with the comptroller before the expiration of one year from the first day of the month following delivery, export, or loss by fire or other accident. If an audit of a supplier determines that tax-free sales were made to unauthorized purchasers and the unauthorized purchaser could have filed for a refund if tax had been paid at the time of sale, the unauthorized purchaser may file a refund claim within one year from the date of final assessment.

(4) A person who files a claim for a tax refund on any diesel fuel used for a purpose for which a tax refund is not authorized, or who files an invoice supporting a refund claim on which the date, figures, or any material information has been falsified or altered, shall forfeit his right to the entire amount of the refund claim filed. This forfeiture provision shall not apply if a claimant provides proof satisfactory to the comptroller that the incorrect refund claim filed was due to a clerical or mathematical calculation error.

[Amended by Acts 1979, 66th Leg., p. 626, ch. 291, § 1, eff. Jan. 1, 1980.]

Art. 9.223. Refund Payments and Filing Fee

(1) After examination and approval of the refund claim, the comptroller before issuing a refund warrant shall deduct from the amount of the refund payment:

(A) the 1-½ percent deducted originally by the supplier on the sale or delivery of the diesel fuel; and

(B) $1.50 as a filing fee.

(2) The filing fees shall be set aside for the use and benefit of the comptroller in the administration and enforcement of the provisions of this chapter, and for payment of expenses in furnishing the claim forms and other forms. All filing fees shall be paid into the state treasury and shall be paid out on vouchers and warrants in the manner prescribed by law.

[Amended by Acts 1979, 66th Leg., p. 626, ch. 291, § 1, eff. Jan. 1, 1980.]

Art. 9.224. Allocation of Revenue

(1) Before allocation of the funds collected hereunder is made, one percent of the gross amount of the funds shall be set aside in the state treasury in a special fund for the use of the comptroller in the administration and enforcement of the provisions of this subchapter. Any unexpended portion of the fund at the end of each fiscal year reverts to the respective funds in the proper proportions to which the diesel fuel taxes are allocated.

(2) Each month the comptroller, after making deductions for refund purposes and for the administration and enforcement of the provisions of this subchapter, shall allocate and deposit the remainder of the taxes collected under this subchapter, in the proportions as follows:

(A) one-fourth of the taxes shall be placed to the credit of the available school fund; and

(B) three-fourths of the taxes shall be placed to the credit of the state highway fund.

[Amended by Acts 1979, 66th Leg., p. 626, ch. 291, § 1, eff. Jan. 1, 1980.]

SUBCHAPTER D. LIQUEFIED GAS TAX

Art. 9.301. Tax Imposed

(1) An excise tax is imposed on the use of liquefied gas for the propulsion of motor vehicles on the public highways of this state at the rate of five cents for each gallon.

(2) A person using a liquefied gas-propelled motor vehicle, including a motor vehicle equipped to use liquefied gas interchangeably with another motor fuel, that is required to be licensed in Texas for use on the public highways of Texas, shall prepay the liquefied gas tax to the comptroller on an annual basis.

(3) An interstate trucker operating a motor vehicle licensed in a base state other than Texas and any other out-of-state user shall pay the excise tax on delivery of the liquefied gas into the fuel supply tanks of a motor vehicle.

(4) The tax imposed by this article is in lieu of any other excise or occupation tax imposed by this state or any state political subdivision on the sale, use, or distribution of liquefied gas.

[Amended by Acts 1979, 66th Leg., p. 626, ch. 291, § 1, eff. Jan. 1, 1980.]

Art. 9.302. Permits

A bonded dealer, interstate trucker, or liquefied gas tax decal permittee shall file application to the comptroller for one of the nonassignable permits provided for by this subchapter.

[Amended by Acts 1979, 66th Leg., p. 626, ch. 291, § 1, eff. Jan. 1, 1980.]

Art. 9.303. Bonded Dealer's Permit

A bonded dealer's permit authorizes a dealer to collect and remit taxes on liquefied gas delivered into the fuel supply tanks of motor vehicles displaying an out-of-state license plate.

[Amended by Acts 1979, 66th Leg., p. 626, ch. 291, § 1, eff. Jan. 1, 1980.]

Art. 9.304. Liquefied Gas Tax Decal Permit

(1) A user of liquefied gas for propulsion of a motor vehicle on the public highways of Texas shall pay in advance annually on each motor vehicle owned, operated, and licensed in Texas by him, a tax based on the registered gross weight in the following schedule:

Class A:	Less than 4,000 pounds	$ 72
Class B:	4,000 to 8,000 pounds	84
Class C:	8,001 to 12,500 pounds	120
Class D:	12,501 to 22,500 pounds	168
Class E:	22,501 and over	300

Class S:	Special purpose motor vehicle used for purposes which do not require travel on the public highways exceeding 5,000 miles annually	$ 48
Class T:	Transit carrier vehicles operated by a transit company	330
Class Y:	Motor vehicles designed for carrying fewer than 10 passengers and used for the transportation of persons for compensation	204

[Amended by Acts 1979, 66th Leg., p. 626, ch. 291, § 1, eff. Jan. 1, 1980.]

Art. 9.305. Interstate Trucker's Permit

An interstate trucker's permit authorizes an interstate trucker operating a motor vehicle with a base license plate issued by a state other than Texas to import liquefied gas into this state in the fuel supply tanks of motor vehicles owned or operated by him for commercial purposes, to report and pay the tax due, and to make sales or distributions in Texas from his cargo tanks, but no delivery may be made in Texas into the fuel supply tanks of motor vehicles not bearing a current liquefied gas tax decal without first obtaining the required dealer's permit to make taxable sales. The interstate trucker's permit for users operating a motor vehicle with a base license plate issued by a state other than Texas shall be in lieu of the liquefied gas decal permit required to operate motor vehicles on the highways of the state.

[Amended by Acts 1979, 66th Leg., p. 626, ch. 291, § 1, eff. Jan. 1, 1980.]

Art. 9.306. Application for Permits

(1) A bonded dealer, interstate trucker, or liquefied gas tax decal user shall secure from the comptroller the kind and class of permit required by this subchapter.

(2) An application must be filed with the comptroller for a permit on a form provided by the comptroller showing the kind and class of permit desired, and other information required by the comptroller. A permit shall be posted in a conspicuous place or kept available for inspection at the principal place of business of the owner. A permit holder shall reproduce the permit and keep a copy on display at each additional place of business from which liquefied gas is sold, delivered, or used in motor vehicles. A person holding an interstate trucker's permit shall reproduce the permit and carry a copy with each motor vehicle being operated into or from Texas. The liquefied gas decal user shall affix the decal in the lower right-hand corner of the front windshield of the passenger side of the vehicle.

[Amended by Acts 1979, 66th Leg., p. 626, ch. 291, § 1, eff. Jan. 1, 1980.]

Art. 9.307. Permits: Period of Validity

(1) A bonded dealer's permit is permanent and valid so long as the permittee has in force and effect the required cash bond and furnishes timely reports as required, or until the permit is surrendered by the holder or cancelled by the comptroller.

(2) An interstate trucker's permit is valid from the date of its issuance through December 31 of each calender year, or until the permit is surrendered by the holder or cancelled by the comptroller. The comptroller may renew the permit for each ensuing calendar year if the permittee has in force and effect the required cash bond and furnishes timely reports as required.

(3) A liquefied gas tax decal permit shall be issued annually and is valid from the date of its issuance through December 31 of the calendar year unless a motor vehicle for which the tax is prepaid is sold or no longer used on the public highway. A liquefied gas decal permittee must make application for a new permit each calendar year.

[Amended by Acts 1979, 66th Leg., p. 626, ch. 291, § 1, eff. Jan. 1, 1980.]

Art. 9.308. Bonds

(1) A person applying for a permit as a bonded dealer or interstate trucker shall at the time of application post a cash bond of $100.

(2) The cash bond shall be deposited in the suspense account of the state treasury and shall be released within 60 days after cancellation or surrender of any permit held by the person in whose behalf it was deposited when the permit holder has been cleared of all tax liability by the comptroller.

(3) The comptroller may withdraw and use any cash to satisfy any delinquent liability including tax, penalty, and interest or to pay any judgment secured in any action by this state.

[Amended by Acts 1979, 66th Leg., p. 626, ch. 291, § 1, eff. Jan. 1, 1980.]

Art. 9.309. Computation and Collection

(1) A permitted dealer who makes a sale or delivery of liquefied gas into the fuel supply tanks of motor vehicles on which the tax is required to be collected is liable to the state for the tax imposed, and shall report and pay the tax in the manner required by this subchapter.

(2) A permitted interstate trucker shall report and pay to this state the tax at the rate imposed on each gallon of liquefied gas delivered by him into the fuel supply tanks of motor vehicles, unless the tax has been paid to a permitted dealer, and shall report and pay the tax on each gallon of liquefied gas imported into this state in the fuel supply tanks of motor vehicles owned or operated by him and consumed in the operation of the motor vehicles on the public highways of this state.

(3) The tax on one percent of the taxable gallons of liquefied gas sold in this state shall be allocated to the permitted dealer making the sale for the expense of collecting, accounting for, reporting, and remitting the taxes collected and keeping the records. The allocation allowance shall be deducted by the permitted dealers in the payment to the state.

(4) The tax of one-half of one percent of the taxable gallons of liquefied gas used in this state by persons permitted as interstate truckers shall be allocated to the interstate trucker making the use of the liquefied gas for the expense of accounting for, reporting, and remitting the taxes due.

[Amended by Acts 1979, 66th Leg., p. 626, ch. 291, § 1, eff. Jan. 1, 1980.]

Art. 9.310. Records

(1) A bonded dealer shall keep for four years, open to inspection at all times by the comptroller, the attorney general, or their authorized representatives, a complete record of all liquefied gas sold or delivered for taxable purposes.

(2) An interstate trucker shall keep for four years, open to inspection by the comptroller, the attorney general, or their authorized representatives, a record of:

(A) the total miles travelled in all states by all motor vehicles traveling into or from Texas and the total quantity of liquefied gas used in such motor vehicles; and

(B) the total miles travelled in Texas and the total quantity of liquefied gas purchased in Texas, showing both tax-paid fuel delivered into the fuel supply tanks of motor vehicles and tax-free fuel delivered into storage facilities in Texas.

(3) Each taxable sale or delivery of liquefied gas into the fuel supply tanks of a motor vehicle, including deliveries by interstate truckers from bulk storage, shall be covered by an invoice. The invoice must be printed and contain the following:

(A) the preprinted or stamped name and address of the permitted dealer or interstate trucker;

(B) the date;

(C) the number of gallons delivered;

(D) the mileage recorded on the odometer;

(E) the state and state highway license number;

(F) the signature of the driver of the motor vehicle; and

(G) the amount of tax paid or accounted for separately from the selling price.

(4) The invoice must be carried with the vehicle and will serve as a trip permit.

[Amended by Acts 1979, 66th Leg., p. 626, ch. 291, § 1, eff. Jan. 1, 1980.]

Art. 9.311. Reports

(1) A permitted dealer shall on or before the 25th day of the month following the end of each calendar quarter file a report and remit the amount of tax due. A permitted dealer who has not made taxable sales during the reporting period shall nevertheless file with the comptroller the required report setting forth the facts or information.

(2) Every permitted interstate trucker shall on or before the 25th day of the month following the end of each calendar quarter file a report and remit the amount of tax due. A report shall be filed with the comptroller and must contain the miles traveled in this state, the miles traveled outside this state, and other information required by the comptroller on forms provided for that purpose. An interstate trucker who is required to file a report under this article and who has not made interstate trips or used liquefied gas in motor vehicles in Texas during the reporting period shall nevertheless file with the comptroller the required report setting forth the facts or information.

[Amended by Acts 1979, 66th Leg., p. 626, ch. 291, § 1, eff. Jan. 1, 1980.]

Art. 9.312. Refunds; Transfer of Decals

(1) If a motor vehicle bearing a liquefied gas tax decal is sold or transferred, the seller and purchaser shall promptly notify the comptroller of the sale or transfer and a new decal shall be issued in the new purchaser's name.

(2) If a motor vehicle bearing a liquefied gas tax decal is destroyed or the liquefied gas carburetor system removed, the owner is entitled to a refund of the unused portion of the advance taxes paid for that calendar year. The owner or operator shall submit to the comptroller an affidavit identifying the vehicle, the permit number, the decal number assigned to the vehicle, the circumstances entitling him to a refund, and all other information required by the comptroller. On receipt of the affidavit and when satisfied as to the circumstances, the comptroller shall refund that portion of the tax payment that corresponds to the number of complete months remaining in the calendar year for which the tax has been paid, beginning with the month following the date on which the vehicle or the liquified gas carburetor was no longer utilized. No refund may be made if the use of the vehicle ceased within the last month of the calendar year.

(3) A permitted interstate trucker is entitled to a refund equal to the tax rate for each gallon paid on liquefied gas on which the Texas liquefied gas tax has been paid and that has thereafter been consumed in motor vehicles outside the State of Texas. On verification by the comptroller that the interstate trucker report was timely filed with all information required, he shall issue a warrant to the interstate trucker for the amount of the refund less the one percent deducted originally by the permitted dealer making the sale and a filing fee of $1.50. Failure to file an interstate trucker report by the 25th of the month following the end of a calendar quarter forfeits the right to a refund.

[Amended by Acts 1979, 66th Leg., p. 626, ch. 291, § 1, eff. Jan. 1, 1980.]

Art. 9.313. Allocation of Revenue

(1) Before allocation of the tax collected under this subchapter is made, one percent of the gross amount shall be set aside in the state treasury in a special fund for the use of the comptroller in the administration and enforcement of the provisions of this subchapter. Any unexpended portion of this fund shall at the end of the fiscal year revert to the respective funds in the proper proportions to which the liquefied gas taxes are allocated.

(2) Each month the comptroller, after making deductions for refund purposes, and for the administration and enforcement of the provisions of this subchapter, shall allocate and deposit the remainder of the taxes collected as follows:

(A) one-fourth of the taxes shall be placed to the credit of the available school fund; and

(B) three-fourths of the taxes shall be placed to the credit of the state highway fund.

[Amended by Acts 1979, 66th Leg., p. 626, ch. 291, § 1, eff. Jan. 1, 1980.]

Art. 12.06. Initial Tax to be Paid

(1) Prior to and as a precondition to receiving a charter or certificate of authority from the Secretary of State of Texas, a domestic corporation incorporating under the Texas Business Corporation Act or The Texas Professional Corporation Act or a foreign corporation qualifying under the Texas Business Corporation Act must prepay an initial franchise tax deposit in the amount of One Hundred Dollars ($100) to the Comptroller of Public Accounts. This prepayment may not be refunded in whole or part for any reason after the charter or certificate of authority has been issued by the Secretary of State.

(2) Every domestic or foreign corporation shall file its initial franchise tax report within ninety (90) days after the expiration of one (1) year from the date of filing its charter or granting its certificate of authority, at which time the tax shall be computed according to its first year's business as prescribed by this Chapter and at the same time, the corporation shall also pay its tax in advance, based upon the first year's business, for the period from the end of the first year to and including April 30th following. The tax prepaid under Section (1) of this Article shall be applied as a credit against the tax computed on this first report and subsequent reports.

Where the corporation's first year from the filing of its charter or from the granting of its certificate of authority ends between January first and May first, there shall also be computed and paid an additional year's tax for the year beginning May first following the end of the first year as above defined, which tax shall be computed from the data contained in the first report filed by such corporation.

(3) All foreign corporations applying for a certificate of authority to do business, shall at the time of filing its application deposit with the Comptroller of Public Accounts the sum of Five Hundred Dollars ($500) which sum shall be deposited in a trust fund to be held by the Comptroller of Public Accounts during the time the foreign corporation is engaged in doing business in this State. This deposit shall insure a foreign corporation's payment of all filing fees, filing all franchise tax reports and payment of franchise taxes, penalties and interest due this State according to the provisions of this Chapter. In the event a foreign corporation has ceased doing business in Texas prior to the forfeiture of the corporation's Certificate of Authority, and can demonstrate that all franchise tax reports, franchise taxes and penalties have been filed and paid, such deposit or balance thereof, if any, shall be returned by the Comptroller of Public Accounts to the legal agent of such foreign corporation in this State, designated in conformity with Article 12.11 of this Chapter.

Whenever a corporation's Certificate of Authority to do business in this State be forfeited as provided in this Chapter, the entire amount of said deposit shall likewise be forfeited.

The forfeiture of said deposit shall not bar the State's full recovery of the amount of franchise tax due; however, upon proof by such corporation of the actual amount of such franchise taxes due, and upon the filing of all delinquent tax reports, any amount of said deposit in excess of such franchise tax, including penalty and interest, shall be refunded.

(4) Effective September 1, 1975, each foreign corporation doing business in this State shall have on deposit with the Comptroller of Public Accounts the Five Hundred Dollars ($500) trust amount described in Section (3) above. Upon determination by the comptroller that a foreign corporation has maintained a continuous status in good standing for three (3) consecutive reporting years, or upon determination by the comptroller that a corporation is exempt from payment of the franchise tax under Article 12.03 of this chapter or other laws of this state, such corporation shall be exempt thereafter from the security requirements of this article, and the comptroller shall return the trust deposit to the corporation; provided, however, that such exemption from the security requirement shall continue only until such time that it is determined by the comptroller that the corporation has failed to file all reports or to pay the franchise tax or other payments required by this chapter, or that the corporation no longer qualifies for exemption from the franchise tax, at which time the comptroller shall notify the corporation that a cash trust deposit in the amount of Five Hundred Dollars ($500) must be furnished the comptroller's office as required by this article.

Art. 12.10. Information Confidential

(a) Except information set forth in liens filed pursuant to this Title, all information secured, derived or obtained from any record, instrument, or copy thereof, required to be furnished under the terms of this Chapter, shall be and shall remain confidential and not open to public inspection. All information secured, derived or obtained during the course of an examination of the taxpayer's books, records, papers, officers or employees, including the business affairs, operations, profits, losses or expenditures of the taxpayer, shall be and shall remain confidential and not open to public inspection.

However, a bona fide stockholder owning one or more shares of outstanding stock of any corporation may examine and receive copies of the reports made under Articles 12.08 and 12.09 of this Chapter upon presentation of evidence of such ownership to the Comptroller. Any interested person may also be furnished the names, titles, and mailing addresses of the officers, directors, and agents for service of process, and the location of the principal office and place of business, and ownership required to be filed by Article 12.12 of this Chapter, of any corporation filing a franchise tax report.

(b) The Comptroller or the Attorney General may use such information, records, reports, instruments and copies thereof, for enforcing the provisions of this Chapter, or may authorize their use in any judicial proceeding in which the State is a party. In addition, the Comptroller or the Attorney General may authorize examination by other State officers and law enforcement officials, or by tax officials of another state and by officials of the federal government if a reciprocal arrangement exists.

[Amended by Acts 1979, 66th Leg., p. 1823, ch. 740, § 3, eff. June 13, 1979.]

He shall have authority to make and publish rules and regulations not inconsistent with the Constitution or laws of this State or of the United

States for the enforcement of this Chapter. The Comptroller of Public Accounts may require any corporation to furnish such additional information from its books and records as may be necessary in determining the amount of taxes that may be due hereunder. The Comptroller of Public Accounts or his authorized representative, or the State Auditor or his authorized representative, shall have full and complete authority to investigate and inquire into and examine the books and records of any such corporation for the purpose of ascertaining the correctness of its franchise tax liability.

In addition to any other requirements established by the Comptroller of Public Accounts, corporations shall provide the following information on the Corporate Franchise Tax Form, but in no event more than once a year, which the Comptroller of Public Accounts shall forward to the Secretary of State to be available for public inspection:

[Amended by Acts 1977, 65th Leg., p. 1191, ch. 458, § 1, eff. Aug. 29, 1977.]

Section 2 of the 1977 amendatory act provided:

"The unexpended balances from the appropriations for the office of the Secretary of State for the year ending August 31, 1977, are appropriated to the Secretary of State for the fiscal year ending August 31, 1978, and the unexpended balance from this 1977–1978 appropriation is appropriated to the Secretary of State for the fiscal year ending August 31, 1979, for the purpose of implementing the provisions of this Act."

Art. 12.14. Failure to Pay Tax and File Reports

(1) Any corporation, either domestic or foreign, which shall fail to pay any franchise tax provided for in this Chapter when the same shall become due and payable under the provisions of this Chapter or shall fail to file any report provided for in this Chapter when the same shall become due, shall thereupon become liable to a penalty of five per cent (5%) of the amount of such franchise tax due by such corporation, and if said report has not been filed or said taxes have not been paid within thirty (30) days from the date said report or taxes shall have become due, an additional five per cent (5%) of such tax shall be forfeited; said penalty shall never be less than One Dollar ($1). Delinquent taxes shall draw interest at the rate of seven per cent (7%) per annum beginning sixty (60) days from the date due.

(2) If the reports required by Articles 12.08, 12.09, and 12.19 be not filed in accordance with the provisions of this Chapter, or if the amount of such tax and penalties be not paid in full on or before September 15 of each year or, when an initial tax report or payment is required, on or before ninety (90) days after the time the initial report and payment is required, such corporation shall for such default forfeit its right to do business in this State; which forfeiture shall be consummated without judicial ascertainment by the Comptroller of Public Accounts. Any corporation whose right to do business shall be thus forfeited shall be denied the right to sue or defend in any court of this State, except in a suit to forfeit the charter or certificate of authority of such corporation. In any suit against such corporation on a cause of action arising before such forfeiture, no affirmative relief shall be granted to such corporation unless its right to do business in this State shall be revived as provided in this Chapter.

(3) Each director and officer of any corporation whose right to do business within this State shall be so forfeited shall, as to any and all debts of such corporation, which shall include all franchise taxes and penalties thereon which shall become due and payable subsequent to the date of such forfeiture, and which may be created or incurred within this State, after the report or payment becomes due and before the revival of the right of such corporation to do business, be deemed and held liable thereon in the same manner and to the same extent as if such directors and officers of such corporation were partners. However, any officer or director may avoid liability if he shows that the debt was created (1) over his objection, or (2) without his knowledge, if the exercise of reasonable diligence to acquaint himself with the affairs of the corporation would not have revealed the intention to create the debt.

[Amended by Acts 1977, 65th Leg., p. 1692, ch. 671, § 1, eff. Aug. 29, 1977; Acts 1979, 66th Leg., p. 84, ch. 51, § 10, eff. Jan. 1, 1980.]

Art. 12.15. Notice of Forfeiture

The Comptroller of Public Accounts shall notify each domestic and foreign corporation which may be or become subject to a franchise tax under the laws of this State and which has failed to file such report or pay franchise tax on or before the time specified by this Chapter that unless such overdue report is filed or such overdue tax together with said penal-

The notice must be mailed during the 45-day period following the day on which the report or payment was required to be made. This notice may be either written or printed and shall be verified by the seal of the office of the Comptroller of Public Accounts, and shall be addressed to such corporation and mailed to the post office named in its articles of incorporation as its principal place of business, or to any other known place of business of the corporation. A record of the date of mailing this notice shall be kept in the office of the Comptroller of Public Accounts, and such notice and record thereof shall constitute legal and sufficient notice thereof for all purposes of this Chapter. Any corporation whose right to do business may have been forfeited, as provided in this Chapter, shall be relieved from such forfeiture by paying to the Comptroller of Public Accounts at any time prior to the forfeiture of the charter or certificate of authority of such a corporation as hereinafter provided, the full amount of the franchise taxes, penalties, and interest due by it. When such taxes, penalties, and interest shall be paid to the Comptroller of Public Accounts, he shall revive the right of the corporation to do business within the State. If any domestic corporation or foreign corporation, whose right to do business within this State shall hereafter be forfeited under the provisions of this Chapter, shall fail to pay the Comptroller of Public Accounts within one hundred and twenty (120) days after such forfeiture, the amount necessary to entitle it to have its right to do business revived under the provisions of this Chapter, such failure shall constitute sufficient ground for the forfeiture of the charter of such domestic corporation, or of the certificate of authority of such foreign corporation. It shall be the duty of the Comptroller of Public Accounts, after such one hundred and twenty (120) days next following such forfeiture, to certify to the Attorney General for bringing suit under Article 12.16 of this Chapter and to the Secretary of State for administrative forfeiture under Article 12.17 of this Chapter the names of all corporations whose right to do business within the State has been forfeited as hereinbefore provided. The Attorney General, upon receiving such certificate, shall forthwith institute suit against such corporations certified to him by the Comptroller of Public Accounts as provided in Article 12.16 of this Chapter.

(2) It shall be unlawful for a person to secure or attempt to secure a contract of lease or bailment of a music or skill or pleasure coin-operated machine by coercion, threats or intimidation, through the commission of, or threat to commit, any act prohibited by the penal laws of this State or the Consumer Credit Code of this State.

(3) A person who violates Subsection (1) of this Section shall be guilty of a third-degree felony.

(4) Any person required to be licensed by this Article may make an extension of credit or lend the licensee's credit to a lessee or a bailee of a music or skill or pleasure coin-operated machine, or on behalf of either for business or commercial purposes when the following terms and conditions have been met and the following duties and obligations satisfactorily assumed and discharged.

(a) Before making the first such extension of credit, the licensee under this Article shall first notify the Consumer Credit Commissioner of the State of Texas of the intent of such licensee to make extensions of credit in the conduct of the licensee's business.

(b) The consideration for such extensions of credit shall not be less than one-half percent or exceed interest or its equivalent at the rate of one and one-half percent (1½%) per month, computed according to the United States Rule. Consideration excludes court costs and attorney's fees as determined by the court, but includes the aggregate interest, fees, bonuses, commissions, brokerage, discounts, expenses, and other forms of costs charged, contracted for, or received by a licensee or any other person in connection with investigating, arranging, negotiating, procuring, guaranteeing, making, servicing, collecting, and enforcing

an extension of credit or forbearance of money, credit, goods, or things in action, or any other service rendered. If in any transaction any consideration in excess of that provided above is charged or received by the licensee directly, or indirectly, except as the result of an accidental and bona fide error corrected upon discovery, the unpaid balance of the indebtedness created by such transaction shall be void, and that portion of any indebtedness so created which has been paid to the licensee, either the principal or its equivalent or interest or its equivalent, or both, shall be repaid by the licensee to the person.

(c) No extension of credit may be made by any person required to be licensed by this Article unless it is evidenced by a written agreement signed by the parties thereto specifying both the amount of credit extended, the consideration for such extension of credit, and the terms according to which such extension of credit is to be repaid.

(d) Each licensee making extensions of credit authorized by this Section shall keep in this State books and records, which shall be consistent with accepted accounting and auditing practices, relating to all such extensions of credit authorized by this Section sufficient to enable any competent person to determine whether or not such licensee is complying with this Section. Such records shall be preserved for four (4) years from the date of the transaction to which they relate, or two (2) years from the date of the final entry made with regard to such transaction, whichever is later.

(e) At such times as the Consumer Credit Commissioner may deem necessary, or at the request of the commission or the Attorney General, the Consumer Credit Commissioner, or his duly authorized representative, may make an examination of the place of business of each licensee hereunder, and may inquire into and examine the transactions, books, accounts, papers, correspondence, or records of such licensee insofar as they pertain to the extensions of credit regulated by this Section. In the course of such examinations, the Consumer Credit Commissioner or his duly authorized representative shall have free access to the office, place of business, files, safes and vaults of such licensee, and shall have the right to make copies of such books, accounts, papers, correspondence and records. The Consumer Credit Commissioner or his duly authorized representative may, during the course of such examination, administer oaths and examine any person under oath upon any subject pertinent to any matter about which the Commissioner is authorized or required by this Section to consider, investigate or secure information. Any licensee who shall fail or refuse to let the Consumer Credit Commissioner or his duly authorized representative examine or make copies of such books or other relative documents shall thereby be deemed in violation of this Section. The information obtained in the course of such examination shall be confidential. Each licensee shall pay to the Consumer Credit Commissioner an amount assessed by the Commissioner to cover the direct and indirect costs of such examination, including a proportionate share of general administrative expenses, which amount shall be retained and held by the Consumer Credit Commissioner, and no part of such fee shall ever be paid into the General Revenue Fund of this State. All expenses incurred by the Consumer Credit Commissioner in conducting such examinations shall be paid only from such fees, and no such expense shall ever be charged against the funds of this State.

(f) The Consumer Credit Commissioner may make regulations necessary for the enforcement of this Section and consistent with all its provisions. Before making a regulation the Consumer Credit Commissioner shall give each licensee at least thirty (30) days' written notice of a public hearing, stating the time and place thereof and the terms or substance of the proposed regulation. At the hearing, any licensee or other person may be heard and may introduce evidence, data, or arguments or place the same on file. The Consumer Credit Commissioner, after consideration of all relevant matters presented, shall adopt and promulgate every regulation in written form, stating the date of adoption and date of promulgation. Each regulation shall be entered in a permanent record book which shall be a public record and be kept in the Consumer Credit Commissioner's office. A copy of every regulation shall be mailed to each licensee, and no regulation shall become effective until the expiration of at least twenty (20) days after such mailing. On the application of any person and payment of the cost thereof, the Consumer Credit Commissioner shall furnish such person a certified copy of any such regulation.

(4) Any person who violates Subsection (3) of this Section is guilty of a Class C misdemeanor.

If the portion of the payment is paid during a later reporting period, the retailer shall report and pay the tax during the reporting period in which the payment is made.

The exemption provided herein does not include the following:

(i) machinery, equipment, and replacement parts and accessories therefor, having a useful life when new in excess of six (6) months;

(b) Transactions involving a transfer for a consideration of the title or possession of items such as handbills, circulars, flyers, advertising supplements, or the like, which have been printed to the special order of the customer, provided that such items, when printed, are printed for the exclusive purpose of being distributed as a part of a newspaper, as defined in Article 20.01(Y) of this Chapter, are actually distributed as part of such a newspaper, and further provided that such items, after being printed, are not delivered to such customer but are instead delivered to the person responsible for the distribution of the newspaper of which the items were originally intended to be a part.

(b) State water also may be appropriated, stored, or diverted for any other beneficial use.

(c) Unappropriated storm water and floodwater may be appropriated to recharge underground freshwater bearing sands and aquifers in the portion of the Edwards underground reservoir located within Kinney, Uvalde, Medina, Bexar, Comal, and Hays counties if it can be established by expert testimony that an unreasonable loss of state water will not occur and that the water can be withdrawn at a later time for application to a beneficial use. The normal or ordinary flow of a stream or watercourse may never be appropriated, diverted, or used by a permittee for this recharge purpose.

(d) When it is put or allowed to sink into the ground, water appropriated under Subsection (c) of this section loses its character and classification as storm water or floodwater and is considered percolating groundwater.

(e) The amount of water appropriated for each purpose mentioned in this section shall be specifically appropriated for that purpose, subject to the preferences prescribed in Section 11.024 of this code.

(f) The water of any arm, inlet, or bay of the Gulf of Mexico may be changed from salt water to sweet or fresh water and held or stored by dams, dikes, or other structures and may be taken or diverted for any purpose authorized by this chapter.

[Amended by Acts 1977, 65th Leg., p. 2207, ch. 870, § 1, eff. Sept. 1, 1977.]

§ 11.024. Appropriation: Preferences

In order to conserve and properly utilize state water, the public welfare requires not only recognition of beneficial uses but also a constructive public policy regarding the preferences between these uses, and it is therefore declared to be the public policy of this state that in appropriating state water preference shall be given to the following uses in the order named:

(1) domestic and municipal uses, including water for sustaining human life and the life of domestic animals;

(2) industrial uses, meaning processes designed to convert materials of a lower order of value into forms having greater usability and commercial value, including the development of power by means other than hydroelectric;

(3) irrigation;

(4) mining and recovery of minerals;

(5) hydroelectric power;

(6) navigation;

(7) recreation and pleasure; and

(8) other beneficial uses.

[Amended by Acts 1977, 65th Leg., p. 2207, ch. 870, § 1, eff. Sept. 1, 1977.]

§ 11.025. Scope of Appropriative Right

A right to use state water under a permit or a certified filing is limited not only to the amount specifically appropriated but also to the amount which is being or can be beneficially used for the purposes specified in the appropriation, and all water not so used is considered not appropriated.

[Amended by Acts 1977, 65th Leg., p. 2207, ch. 870, § 1, eff. Sept. 1, 1977.]

§ 11.026. Perfection of an Appropriation

No right to appropriate water is perfected unless the water has been beneficially used for a purpose stated in the original declaration of intention to appropriate water or stated in a permit issued by the commission or one of its predecessors.

[Amended by Acts 1977, 65th Leg., p. 2207, ch. 870, § 1, eff. Sept. 1, 1977.]

[Amended by Acts 1977, 65th Leg., p. 2207, ch. 870, § 1, eff. Sept. 1, 1977.]

§ 11.028. Exception

Any appropriation made after May 17, 1931, for any purpose other than domestic or municipal use is subject to the right of any city or town to make further appropriations of the water for domestic or municipal use without paying for the water. However, this section does not apply to any stream which constitutes or defines the international boundary between the United States of America and the Republic of Mexico.

[Amended by Acts 1977, 65th Leg., p. 2207, ch. 870, § 1, eff. Sept. 1, 1977.]

§ 11.029. Title to Appropriation by Limitation

When an appropriator from a source of water supply has used water under the terms of a certified filing or a permit for a period of three years, he acquires title to his appropriation by limitation against any other claimant of water from the same source of water supply and against any riparian owner on the same source of water supply.

[Amended by Acts 1977, 65th Leg., p. 2207, ch. 870, § 1, eff. Sept. 1, 1977.]

§ 11.030. Forfeiture of Appropriation

If any lawful appropriation or use of state water is wilfully abandoned during any three successive years, the right to use the water is forfeited and the water is again subject to appropriation.

[Amended by Acts 1977, 65th Leg., p. 2207, ch. 870, § 1, eff. Sept. 1, 1977.]

§ 11.031. Annual Report

(a) Not later than March 1 of every year, every person who takes water during the preceding calendar year from a stream or reservoir shall submit a written report to the department on a form prescribed by the department. The report shall contain all information required by the department to aid in administering the water law and in making inventory of the state's water resources. However, with the exception of public utilities and political subdivisions which furnish water for municipal uses, no report is required of persons who take water solely for domestic or livestock purposes.

(b) A person who fails to file an annual report with the department as required by this section is liable to a penalty of $25, plus $1 per day for each day he fails to file the statement after March 1. However, the maximum penalty under this section is $150. The state may sue to recover the penalty.

§ 11.032. Records

(a) A person who owns and operates a system of waterworks used for a purpose authorized by this code shall keep a detailed record of daily operations so that the quantity of water taken or diverted each calendar year can be determined.

(b) If the water is used for irrigation, the record must show the number of acres irrigated, the character of the crops grown, and the yield per acre. No survey is required to determine the exact number of acres irrigated.

[Amended by Acts 1977, 65th Leg., p. 2207, ch. 870, § 1, eff. Sept. 1, 1977.]

§ 11.033. Eminent Domain

The right to take water necessary for domestic and municipal supply purposes is primary and fundamental, and the right to recover from other uses water which is essential to domestic and municipal supply purposes is paramount and unquestioned in the policy of the state. All political subdivisions of the state and constitutional governmental agencies exercising delegated legislative powers have the power of eminent domain to be exercised as provided by law for domestic, municipal, and manufacturing uses and for other purposes authorized by this code, including the irrigation of land for all requirements of agricultural employment.

An appropriator may acquire the reservoir site and rights-of-way over private land by contract.

[Amended by Acts 1977, 65th Leg., p. 2207, ch. 870, § 1, eff. Sept. 1, 1977.]

§ 11.035. Condemnation of Private Property

(b) The party obtaining private property by condemnation shall cause damages to be assessed and paid for as provided by the statutes of this state relating to eminent domain.

(c) If the party exercising the power granted by this section is not a corporation, district, city, or town, he shall apply to the department for the condemnation.

(d) The executive director shall have the proposed condemnation investigated. After the investigation, the commission may give notice to the party owning the land proposed to be condemned and hold a hearing on the proposed condemnation.

(e) If after a hearing the commission determines that the condemnation is necessary, the executive director may institute condemnation proceedings in the name of the State of Texas for the use and benefit of the party who applied for the condemnation and all others similarly situated.

(f) The parties at whose instance a condemnation suit is instituted shall pay the costs of the suit and condemnation in proportion to the benefits received by each party as fixed by the commission. Before using any of the condemned rights or property, a party receiving the rights or property shall pay the amount of costs fixed by the commission.

(g) If, after the costs of the condemnation proceedings have been paid, a party seeks to take the benefits of the condemnation proceedings, he shall apply to the department for the benefits. The commission may grant the application and fix the fees and charges to be paid by the applicant.

[Amended by Acts 1977, 65th Leg., p. 2207, ch. 870, § 1, eff. Sept. 1, 1977.]

(a) A person, association of persons, corporation, or water improvement or irrigation district having in possession and control any storm water, floodwater, or rainwater that is conserved or stored as authorized by this chapter may contract to supply the water to any person, association of persons, corporation, or water improvement or irrigation district having the right to acquire use of the water.

(b) The price and terms of the contract shall be just and reasonable and without discrimination, and the contract is subject to the same revision and control as provided in this code for other water rates and charges. If any person uses the stored or conserved water without first entering into a contract with the party that conserved or stored it, the user shall pay for the use at a rate determined by the commission to be just and reasonable, subject to court review as in other cases.

[Amended by Acts 1977, 65th Leg., p. 2207, ch. 870, § 1, eff. Sept. 1, 1977.]

(b) If the person, association of persons, or corporation owning or controlling the water and the person who owns or holds a possessory interest in the adjoining land cannot agree on a price for a permanent water right or for the use of enough water for irrigation of the person's land or for mining, milling, manufacturing, development of power, or stock raising, then the party owning or controlling the water, if he has any water not contracted to others, shall furnish the water necessary for these purposes at reasonable and nondiscriminatory prices.

(a) If a shortage of water in a water supply results from drouth, accident, or other cause, the water to be distributed shall be divided among all customers pro rata, according to the amount each may be entitled to, so that preference is given to no one and everyone suffers alike.

(b) Nothing in Subsection (a) of this section precludes the person, association of persons, or corporation owning or controlling the water from supplying water to a person who has a prior vested right to the water under the laws of this state.

[Amended by Acts 1977, 65th Leg., p. 2207, ch. 870, § 1, eff. Sept. 1, 1977.]

(1) that he is entitled to receive or use the water;

(2) that he is willing and able to pay a just and reasonable price for the water;

(3) that the party owning or controlling the water supply has water not contracted to others and available for the petitioner's use; and

(4) that the party owning or controlling the water supply fails or refuses to supply the available water to the petitioner, or that the price or rental demanded for the available water is not reasonable and just or is discriminatory.

(b) If the petition is accompanied by a deposit of $25, the executive director shall have a preliminary investigation of the complaint made and determine whether or not there are probable grounds for the complaint.

(c) If, after preliminary investigation, the executive director determines that probable grounds exist for the complaint, the commission shall enter an order setting a time and place for a hearing on the petition.

(d) The commission may require the complainant to make an additional deposit or execute a bond satisfactory to the commission in an amount fixed by the commission conditioned on the payment of all costs of the proceeding.

(f) The commission shall hold a hearing on the complaint at the time and place stated in the order. It may hear evidence orally or by affidavit in support of or against the complaint, and it may hear arguments. On completion of the hearing, the commission shall render a written decision.

(g) If, after the preliminary investigation, the executive director determines that no probable grounds exist for the complaint, the executive director shall dismiss the complaint. The department may either return the deposit or pay it into the State Treasury.

The board shall prescribe rules for this purpose.

[Amended by Acts 1977, 65th Leg., p. 2207, ch. 870, § 1, eff. Sept. 1, 1977.]

Bridges, culverts, or siphons shall be constructed at all road and highway crossings as necessary to prevent any impairment of the uses of the road or highway.

(b) If any public road, highway, or public bridge is located on the ground necessary for a damsite, reservoir, or lake, the commissioners court shall change the road and remove the bridge so that it does not interfere with the construction of the proposed dam, reservoir, or lake. The party desiring to construct the dam, reservoir, or lake shall pay the expense of moving the bridge or roadway.

(b) The work shall be done in such a manner that navigation of vessels on the stream is not obstructed, and where any gate is used, the appropriator shall at all times keep a competent person at the gate to allow free navigation.

(e) The commission shall also mail a copy of the notice by first-class mail, postage prepaid, to each claimant or appropriator of water from the source of water supply, the record of whose claim or appropriation has been filed in the office of the commission. The notice shall also be mailed by first-class mail, postage prepaid, to all navigation districts within the watershed concerned. The inadvertent failure of the commission to mail a notice to a navigation district which is not a claimant or appropriator of water does not prevent the hearing on the application.

(f) The notice shall be mailed and first published not less than 20 days before the date set for the hearing.

[Amended by Acts 1977, 65th Leg., p. 2207, ch. 870, § 1, eff. Sept. 1, 1977.]

(2) unappropriated water is available in the source of supply; and

(3) the proposed appropriation:

(A) contemplates the application of water to any beneficial use;

He shall index the permit alphabetically in the name of the applicant and of the stream or source of water supply. After he has recorded the permit, the county clerk shall deliver the permit, on demand, to the applicant.

(c) When the permit is filed in the office of the county clerk, it is constructive notice of:

(1) the filing of the application;

(a) The commission may issue temporary permits for beneficial purposes to the extent that they do not interfere with or adversely affect prior appropriations or vested rights on the stream from which water is to be diverted under such temporary permit. The commission may, by appropriate order, authorize any member of the commission or its executive director to approve and issue temporary permits without notice and hearing if it appears to such issuing party that sufficient water is available at the

proposed point of diversion to satisfy the requirements of the temporary permit as well as all existing rights. No temporary permit issued without notice and hearing shall authorize more than 10 acre-feet of water, nor may it be for a term in excess of one year.

(b) The commission may prescribe rules governing notice and procedure for the issuance of temporary permits.

(c) As between temporary permits, the one applied for first has priority.

(d) The commission may not issue a temporary permit for a period exceeding three calendar years.

(e) A temporary permit does not vest in its holder a permanent right to the use of water.

(f) A temporary permit expires and shall be cancelled by the commission in accordance with the terms of the permit.

(g) The board may prescribe by rule the fees to be paid for issuance of temporary permits, but no fee for issuance or extension of a temporary permit shall exceed $500.

§ 11.139. Emergency Permits

(a) The commission may grant an emergency permit for the diversion and use of water for a period of not more than 30 days if it finds that emergency conditions exist which threaten the public health, safety, and welfare and which override the necessity to comply with established statutory procedures.

(b) An emergency permit may be granted for a period of not more than 30 days, and no extension or additional emergency permit may be granted at the expiration of the original permit.

(c) An emergency permit may be granted under this section without the necessity to comply with statutory and other procedures required for granting other permits issued by the commission.

(d) The board may prescribe rules and adopt fees which are necessary to carry out the provisions of this section.

(e) An emergency permit does not vest in the permittee any right to the diversion and use of water and shall expire and be cancelled in accordance with its terms.

[Amended by Acts 1977, 65th Leg., p. 2207, ch. 870, § 1, eff. Sept. 1, 1977.]

§ 11.140. Permits for Storage for Project Development

The commission may issue permits for storage solely for the purpose of optimum development of projects. The commission may convert these permits to permits for beneficial use if application to have them converted is made to the commission.

[Amended by Acts 1977, 65th Leg., p. 2207, ch. 870, § 1, eff. Sept. 1, 1977.]

§ 11.141. Date of Priority

He may obtain a regular permit, a seasonal permit, or a permit for a term of years. He may elect to obtain the permit by proceeding under this section or under the other provisions of this chapter governing issuance of permits.

(1) state the name and post-office address of the applicant;

(2) state the date the application was filed;

(3) state the purpose and extent of the proposed appropriation of water;

(4) identify the source of supply and the place where the water is stored; and

(5) specify the time and place of the hearing.

(f) The notice shall be published only once, at least 20 days before the date stated in the notice for the hearing on the application, in a newspaper having general circulation in the county where the dam or reservoir is located. At least 15 days before the date set for the hearing, the commission shall transmit a copy of the notice by first-class mail to each person whose claim or appropriation has been filed with the department and whose diversion point is downstream from that described in the application.

(g) The applicant shall pay the filing fee prescribed by Section 12.111(b) of this code at the time he files the application.

A detailed statement and plans for alterations or changes shall be filed with the department and approved by the commission before the alterations or changes are made. This section does not apply to the ordinary maintenance or emergency repair of the facility.

[Amended by Acts 1977, 65th Leg., p. 2207, ch. 870, § 1, eff. Sept. 1, 1977.]

§ 11.145. When Construction Must Begin

(a) If a person's permit is for appropriation by direct diversion, he shall begin construction of the proposed facilities within 90 days after the date his permit is issued. He shall work diligently and continuously to the completion of the construction. The commission may, by entering an order of record, extend the time for beginning construction for a period not to exceed 12 months after the date the permit was issued.

(e) If a permit has been issued for the use of water, the water is not subject to a new appropriation until the permit has been cancelled in whole or part as provided by this section.

(f) Except as provided by Subchapter E of this chapter, none of the provisions of this code may be construed as intended to impair, cause, or authorize or may impair, cause, or authorize the forfeiture of any rights acquired by any declaration of appropriation or by any permit if the appropriator has begun or begins the work and development contemplated by his declaration of appropriation or permit within the time provided by the law under which the declaration of appropriation was made or the permit was granted and has prosecuted or continues to prosecute it with all reasonable diligence toward completion.

(2) the holder has not used reasonable diligence in applying the unused portion of the water to an authorized beneficial use; and

(3) the holder has not been justified in the nonuse or does not then have a bona fide intention of putting the unused water to an authorized beneficial use within a reasonable time after the hearing.

(b) In determining what constitutes a reasonable time as used in Subsection (a)(3) of this section, the commission shall give consideration to:

(1) the expenditures made or obligations incurred by the holder in connection with the permit, certified filing, or certificate of adjudication;

(2) the purpose to which the water is to be applied;

SUBCHAPTER F. ARTESIAN WELLS

§ 11.201. Artesian Well Defined

An artesian well is an artificial water well in which the water, when properly cased, will rise by natural pressure above the first impervious stratum below the surface of the ground.
[Amended by Acts 1977, 65th Leg., p. 2207, ch. 870, § 1, eff. Sept. 1, 1977.]

§ 11.202. Right to Drill Artesian Well

A person is entitled to drill an artesian well on his own land for domestic purposes or for stock raising without complying with the general provisions of this code regulating the use of water. However, he shall have the well properly and securely cased, and when water is reached containing mineral or other substances injurious to vegetation or agriculture, he shall have the well securely capped or its flow controlled so as not to injure another person's land or shall fill the well so as to prevent the water from rising above the first impervious stratum below the surface of the ground.
[Amended by Acts 1977, 65th Leg., p. 2207, ch. 870, § 1, eff. Sept. 1, 1977.]

§ 11.203. Artesian Well: Drilling Record

(a) A person who drills an artesian well or has one drilled shall keep a complete and accurate record of the depth, thickness, and character of the different strata penetrated and when the well is completed shall transmit a copy of the record to the department by registered mail.

(b) A person who violates any provision of this section is guilty of a misdemeanor and on conviction is punishable by a fine of not less than $10 nor more than $100.
[Amended by Acts 1977, 65th Leg., p. 2207, ch. 870, § 1, eff. Sept. 1, 1977.]

§ 11.204. Report of New Artesian Well

Within one year after an artesian well is drilled, the owner or operator shall transmit to the department a sworn report stating the result of the drilling operation, the use to which the water will be applied, and the contemplated extent of the use.
[Amended by Acts 1977, 65th Leg., p. 2207, ch. 870, § 1, eff. Sept. 1, 1977.]

§ 11.205. Wasting Water From Artesian Well

(a) Unless the water from an artesian well is used for a purpose and in a manner in which it may be lawfully used on the owner's land, it is waste to wilfully cause or knowingly permit the water to run off the owner's land or to percolate through the stratum above which the water is found.

(b) It is not waste to use water from an artesian well, if suitable, for proper irrigation of trees on a street, road, or highway or for ornamental ponds or fountains or for the propagation of fish.

(c) A person who commits waste as defined in this section is guilty of a misdemeanor and on conviction is punishable by a fine of not more than $500 or by confinement in the county jail for not more than 90 days or by both.
[Amended by Acts 1977, 65th Leg., p. 2207, ch. 870, § 1, eff. Sept. 1, 1977.]

§ 11.206. Improperly Cased Well: Nuisance

An artesian well that is not tightly cased, capped, and furnished with mechanical appliances that readily and effectively prevent water from flowing out of the well and running over the surface of the ground about the well or wasting through the strata through which it passes is a public nuisance and subject to abatement by the commission.
[Amended by Acts 1977, 65th Leg., p. 2207, ch. 870, § 1, eff. Sept. 1, 1977.]

§ 11.207. Annual Report

(b) The report shall state:

(1) the quantity of water which was obtained from the well;

(2) the nature of the uses to which the water was applied;

(3) the change in the level of the well's water table; and

(4) other information required by the department.

(c) If water from the well was used for irrigation, the report shall also state the acreage and yield of each crop irrigated.
[Amended by Acts 1977, 65th Leg., p. 2207, ch. 870, § 1, eff. Sept. 1, 1977.]

SUBCHAPTER G. WATER RIGHTS ADJUDICATION ACT

§ 11.301. Short Title

This subchapter may be cited as the Water Rights Adjudication Act.

[Amended by Acts 1977, 65th Leg., p. 2207, ch. 870, § 1, eff. Sept. 1, 1977.]

§ 11.302. Declaration of Policy

The conservation and best utilization of the water resources of this state are a public necessity, and it is in the interest of the people of the state to require recordation with the commission of claims of water rights which are presently unrecorded, to limit the exercise of these claims to actual use, and to provide for the adjudication and administration of water rights to the end that the surface-water resources of the state may be put to their greatest beneficial use. Therefore, this subchapter is in furtherance of the public rights, duties, and functions mentioned in this section and in response to the mandate expressed in Article XVI, Section 59 of the Texas Constitution and is in the exercise of the police powers of the state in the interest of the public welfare.

[Amended by Acts 1977, 65th Leg., p. 2207, ch. 870, § 1, eff. Sept. 1, 1977.]

§ 11.303. Recordation and Limitation of Certain Water Rights Claims

(a) This section applies to:

(1) claims of riparian water rights;

(2) claims under Section 11.143 of this code to impound, divert, or use state water for other than domestic or livestock purposes, for which no permit has been issued;

(3) claims of water rights under the Irrigation Acts of 1889 and 1895 [1] which were not filed with the State Board of Water Engineers in accordance with the Irrigation Act of 1913,[2] as amended; and

(4) other claims of water rights except claims under permits or certified filings.

(b) Any claim to which this section applies shall be recognized only if valid under existing law and only to the extent of the maximum actual application of water to beneficial use without waste during any calendar year from 1963 to 1967, inclusive. However, in any case where a claimant of a riparian right has prior to August 28, 1967, commenced or completed the construction of works designed to apply a greater quantity of water to beneficial use, the right shall be recognized to the extent of the maximum amount of water actually applied to beneficial use without waste during any calendar year from 1963 to 1970, inclusive.

(c) On or before September 1, 1969, every person claiming a water right to which this section applies shall file with the commission a statement setting forth:

(1) the name and address of the claimant;

(2) the location and the nature of the right claimed;

(3) the stream or watercourse and the river basin in which the right is claimed;

(4) the date of commencement of works;

(5) the dates and volumes of use of water; and

(6) other information the commission may require to show the nature and extent of the claim.

(d) A person who files a statement as provided in this section shall certify under oath that the statements made in support of his claim are true and correct to the best of his knowledge and belief.

(e) A claimant who desires recognition of a right based on use from 1968 to 1970, inclusive, as provided in Subsection (b) of this section shall file an additional sworn statement on or before July 1, 1971.

(f) The commission shall prescribe forms for the sworn statements required by this section, but use of the commission forms is not mandatory.

(g) On or before January 1, 1968, and June 1, 1969, the commission shall cause notice of the requirements of this section to be published once each week for two consecutive weeks in newspapers having general circulation in each county of the state and by first-class mail to each user of surface water who has filed a report of water use with the commission.

(h) On sworn petition, notice, and hearing as prescribed for applications for permits and upon finding of extenuating circumstances and good cause shown for failure to timely file, the commission may authorize the filing of the sworn statement or statements required by this section until entry of a preliminary determination of claims of water rights in accordance with Section 11.309 of this code which includes the area described in the petition or, if a preliminary determination has not been entered, until September 1, 1974.

(i) Since the filing of all claims to use public water is necessary for the conservation and best utilization of the water resources of the state, failure to file a sworn statement in substantial compliance with this section extinguishes and bars any claim of water rights to which this section applies.

(j) A sworn statement submitted under this section is binding on the person submitting it and his successors in interest, but is not binding on the commission or any other person in interest.

(k) Nothing in this section shall be construed to recognize any water right which did not exist before August 28, 1967.

(*l*) This section does not apply to use of water for domestic or livestock purposes.

§ 11.304. Adjudication of Water Rights

The water rights in any stream or segment of a stream may be adjudicated as provided in this subchapter:

(1) on the commission's own motion;

(2) on petition to the commission signed by 10 or more claimants of water rights from the source of supply; or

(3) on petition of the board.

[Amended by Acts 1977, 65th Leg., p. 2207, ch. 870, § 1, eff. Sept. 1, 1977.]

§ 11.305. Investigation

(a) Promptly after a petition is filed under Section 11.304 of this code, the commission shall investigate the facts and conditions necessary to determine whether the adjudication would be in the public interest. If the commission finds that an adjudication would be in the public interest, it shall enter an order to that effect, designating the stream or segment to be adjudicated. The executive director shall have an investigation made of the area involved in order to gather relevant data and information essential to the proper understanding of the claims of water rights involved. The results of the investigation shall be reduced to writing and made a matter of record in the commission's office.

(b) In connection with the investigation, the executive director shall have a map or plat made showing with substantial accuracy the course of the stream or segment and the location of reservoirs, diversion works, and places of use, including lands which are being irrigated or have facilities for irrigation.

[Amended by Acts 1977, 65th Leg., p. 2207, ch. 870, § 1, eff. Sept. 1, 1977.]

§ 11.306. Notice of Adjudication

(a) The commission shall prepare a notice of adjudication which describes the stream or segment to be adjudicated and the date by which all claims of water rights in the stream or segment shall be filed with the commission. The date shall not be less than 90 days after the date the notice is issued.

(b) The notice shall be published once a week for two consecutive weeks in one or more newspapers having general circulation in the counties in which the stream or segment is located.

(c) The notice shall also be sent by first-class mail to each claimant of water rights whose diversion is within the stream or segment to be adjudicated, to the extent that the claimants can reasonably be ascertained from the records of the department.

[Amended by Acts 1977, 65th Leg., p. 2207, ch. 870, § 1, eff. Sept. 1, 1977.]

§ 11.307. Filing of Sworn Claims

(a) Every person claiming a water right of any nature, except for domestic or livestock purposes, from the stream or segment under adjudication shall file a sworn claim with the commission within the time prescribed in the notice of adjudication, including any extensions of the prescribed time, setting forth:

(1) the name and post-office address of the claimant;

(2) the location and nature of the right claimed, including a description of any permit or certified filing under which the claim is made;

(3) the purpose of the use;

(4) a description of works and irrigated land; and

(5) all other information necessary to show the nature and extent of the claim.

(b) The commission shall prescribe forms for claims, but use of the commission forms is not mandatory.

[Amended by Acts 1977, 65th Leg., p. 2207, ch. 870, § 1, eff. Sept. 1, 1977.]

§ 11.308. Hearings on Claims; Notice

The commission shall set a time and a place for hearing all claims. Not less than 30 days before commencement of the hearings, the commission shall give notice of the hearings by certified mail to all persons who have filed claims in accordance with Section 11.307 of this code, or this notice may be included in the notice of adjudication provided in Section 11.306 of this code. The hearings shall be conducted as provided in Section 11.337 of this code.

[Amended by Acts 1977, 65th Leg., p. 2207, ch. 870, § 1, eff. Sept. 1, 1977.]

§ 11.309. Preliminary Determination of Claims

(a) On completion of the hearings, the commission shall make a preliminary determination of the claims to water rights under adjudication.

(b) One copy of the preliminary determination shall be furnished without charge to each person who filed a claim in accordance with Section 11.307 of this code. Additional copies of the preliminary determination shall be made available for public inspection at convenient locations throughout the river basin, as designated by the commission. Copies shall also be made available to other interested persons at a reasonable price, based on the cost of reproduction.

[Amended by Acts 1977, 65th Leg., p. 2207, ch. 870, § 1, eff. Sept. 1, 1977.]

§ 11.310. Evidence Open to Inspection

§ 11.312. Notice of Preliminary Determination; Copies

(a) Promptly after the preliminary determination is made as provided in Section 11.309 of this code, the commission shall publish notice of the determination once a week for two consecutive weeks in one or more newspapers having general circulation in the river basin in which the stream or segment that is the subject of the adjudication is located.

(b) The commission shall also send notice by first-class mail to each claimant of water rights within the river basin in which the stream or segment is located, to the extent that the claimants can be reasonably ascertained from the records of the department.

(c) Each notice shall state:

(1) the place and the period of time that the preliminary determination and evidence presented to or considered by the commission will be open for public inspection;

(2) the locations throughout the river basin where copies of the preliminary determination will be available for public inspection;

(3) the method of ordering copies of the preliminary determination and the charge for copies;

(4) the date by which contests on the preliminary determination must be filed.

[Amended by Acts 1977, 65th Leg., p. 2207, ch. 870, § 1, eff. Sept. 1, 1977.]

§ 11.313. Filing Contests

(a) Any water right claimant affected by the preliminary determination, including any claimant to water rights within the river basin but outside the stream or segment under adjudication, who disputes the preliminary determination may within the time for filing contests prescribed by the commission in the notice, including any extension of the time, file a written contest with the commission, stating with reasonable certainty the grounds of his contest.

(b) The statement filed to contest a preliminary determination must be verified by an affidavit of the contestant, his agent, or his attorney.

(c) If the contest is directed against the preliminary determination of the water rights of other claimants, a copy shall be served on each of these claimants or his attorney by certified mail, and proof of service shall be filed with the commission.
[Amended by Acts 1977, 65th Leg., p. 2207, ch. 870, § 1, eff. Sept. 1, 1977.]

§ 11.314. Hearing on Contest; Notice

After the time for filing contests has expired, the commission shall prepare a notice setting forth the part of the preliminary determination to which each contest is directed and the time and place of a hearing on the contest. The notice shall be sent to each claimant of water rights within the river basin in which the stream or segment is located, to the extent that the claimants can be reasonably ascertained from the records of the commission. The hearing shall be conducted as provided in Section 11.337 of this code.
[Amended by Acts 1977, 65th Leg., p. 2207, ch. 870, § 1, eff. Sept. 1, 1977.]

§ 11.315. Final Determination

On completion of the hearings on all contests, the commission shall make a final determination of the claims to water rights under adjudication. The commission shall send a copy of the final determination and any modification of the final determination to each claimant whose rights are adjudicated and to each contesting party.
[Amended by Acts 1977, 65th Leg., p. 2207, ch. 870, § 1, eff. Sept. 1, 1977.]

§ 11.316. Application for Rehearing

Within 30 days from the date of the final determination, any affected party may apply to the commission for a rehearing. Applications for rehearing which in the opinion of the commission are without merit may be denied without notice to other parties, but no application for rehearing shall be granted without notice to each claimant whose rights are adjudicated and to each contesting party.
[Amended by Acts 1977, 65th Leg., p. 2207, ch. 870, § 1, eff. Sept. 1, 1977.]

§ 11.317. Filing Final Determination With District Court

However, if the stream or segment under adjudication includes all or parts of three or more counties and if 10 or more affected persons who appeared in the proceedings petition the commission to do so, the commission shall file the action in a

convenient district court of a judicial district which is not within the river basin of the stream or segment under adjudication.

(b) The commission shall obtain an order from the court fixing a time not less than 30 days from the date of the order for the filing of exceptions to the final determination and also fixing a time not less than 60 days from the date of the order for the commencement of hearings on exceptions.

(c) The commission shall immediately give written notice of the court order by certified mail to all parties who appeared in the proceedings before the commission. The commission shall file proof of the service with the court.

[Amended by Acts 1977, 65th Leg., p. 2207, ch. 870, § 1, eff. Sept. 1, 1977.]

§ 11.318. Exceptions to Final Determination

(a) Any affected person who appeared in the proceeding before the commission may file exceptions to the final determination. An exception must state with a reasonable degree of certainty the grounds for the exception and must specify the particular paragraphs and pages of the determination to which the exception is taken.

(b) Three copies of the exceptions shall be filed in court, and a copy shall be served on the commission. The commission shall make copies of all exceptions available at a reasonable price, based on the cost of reproduction.

[Amended by Acts 1977, 65th Leg., p. 2207, ch. 870, § 1, eff. Sept. 1, 1977.]

§ 11.319. Hearings on Exceptions

(a) The court shall hear any exceptions that have been filed. The commission and all affected persons who appeared in the proceedings before the commission are entitled to appear and be heard on the exceptions. The court may permit other parties in interest to appear and be heard for good cause shown.

(b) The court may conduct nonjury hearings and proceedings at any convenient location within the state. Actual expenses incurred by the court outside its judicial district shall be taxed as costs.

[Amended by Acts 1977, 65th Leg., p. 2207, ch. 870, § 1, eff. Sept. 1, 1977.]

§ 11.320. Scope of Judicial Review

(a) In passing on exceptions, the court shall determine all issues of law and fact independently of the commission's determination. The substantial evidence rule shall not be used. The court shall not consider any exception which was not brought to the commission's attention by application for rehearing. The court shall not consider any issue of fact raised by an exception unless the record of evidence before the commission reveals that the question was genuinely in issue before the commission.

(b) A party in interest may demand a jury trial of any issue of fact, but the court may in its discretion have a separate trial with a separate jury of any such issue.

(c) The legislature declares that the provisions of this section are not severable from the remainder of this subchapter and that this subchapter would not have been passed without the inclusion of this section. If this section is for any reason held invalid, unconstitutional, or inoperative in any way, the holding applies to the entire subchapter so that the entire subchapter is null and void.

[Amended by Acts 1977, 65th Leg., p. 2207, ch. 870, § 1, eff. Sept. 1, 1977.]

§ 11.321. Evidence

Any exception heard by the court without a jury may be resolved on the record of evidence before the commission, or the court may take additional evidence or direct that additional evidence be heard by the commission.

[Amended by Acts 1977, 65th Leg., p. 2207, ch. 870, § 1, eff. Sept. 1, 1977.]

(b) The court may assess the costs as it deems just.

(c) An appeal may be taken from the decree of the court in the same manner and with the same effect as in other civil cases.

(d) The final decree in every water right adjudication is final and conclusive as to all existing and prior rights and claims to the water rights in the adjudicated stream or segment of a stream. The decree is binding on all claimants to water rights outside the adjudicated stream or segment of a stream.

(e) Except for domestic and livestock purposes or rights subsequently acquired by permit, a water right is not recognized in the adjudicated stream or segment of a stream unless the right is included in the final decree of the court.

[Amended by Acts 1977, 65th Leg., p. 2207, ch. 870, § 1, eff. Sept. 1, 1977.]

§ 11.323. Certificate of Adjudication

(a) When a final determination of the rights to the waters of a stream has been made in accordance with the procedure provided in this subchapter and the time for a rehearing has expired, the commission shall issue to each person adjudicated a water right a certificate of adjudication, signed by the chairman and bearing the seal of the commission.

(b) In the certificate, the commission shall include:

(1) a reference to the final decree;

(2) the name and post-office address of the holder of the adjudicated right;

§ 11.324. Recordation of Certificate

(a) The commission shall transmit the certificate of adjudication or a true copy to the county clerk of each county in which the appropriation is made.

(b) On receipt of the recording fee from the holder of the certificate, the county clerk shall file and record the certificate in a well-bound book provided and kept for that purpose only. The clerk shall index the certificate alphabetically under the name of the holder of the certificate of adjudication and under the name of the stream or source of water supply.

(c) When a certificate of adjudication is filed and recorded as provided in this section, the county clerk shall deliver the certificate on demand to the holder.

[Amended by Acts 1977, 65th Leg., p. 2207, ch. 870, § 1, eff. Sept. 1, 1977.]

§ 11.325. Water Divisions

The board shall divide the state into water divisions for the purpose of administering adjudicated water rights. Water divisions may be created from time to time as the necessity arises. (d) In a water division in which the office of watermaster is vacant, the executive director has the powers of a watermaster.

(e) The executive director shall supervise and generally direct the watermaster in the performance of his duties. A watermaster is responsible to the executive director for the proper performance of his duties.

(f) A person dissatisfied with any action of a watermaster may apply to the executive director for relief.

[Amended by Acts 1977, 65th Leg., p. 2207, ch. 870, § 1, eff. Sept. 1, 1977.]

§ 11.327. Duties of Watermaster

(a) A watermaster shall divide the water of the streams or other sources of supply of his division in accordance with the adjudicated water rights.

(b) A watermaster shall regulate or cause to be regulated the controlling works of reservoirs and diversion works in time of water shortage, as is necessary because of the rights existing in the streams of his division, or as is necessary to prevent the waste of water or its diversion, taking, storage, or use in excess of the quantities to which the holders of water rights are lawfully entitled.

(c) A watermaster may regulate the distribution of water from any system of works that serves users whose rights have been separately determined.

[Amended by Acts 1977, 65th Leg., p. 2207, ch. 870, § 1, eff. Sept. 1, 1977.]

§ 11.328. Watermaster's Notice Posted

If, in the performance of his duties, a watermaster regulates diversion works or the controlling works of reservoirs, he shall attach to the works a written notice, properly dated and signed, stating that the works have been properly regulated and are wholly under his control. The notice is legal notice to all parties interested in the diversion and distribution of the water served by the diversion works or reservoir.

[Amended by Acts 1977, 65th Leg., p. 2207, ch. 870, § 1, eff. Sept. 1, 1977.]

(a) The department shall pay the compensation and necessary expenses of a watermaster, assistant watermasters, and other necessary employees, but the holders of water rights that have been determined or adjudicated and are to be administered by the watermaster shall reimburse the department for the compensation and expenses.

(b) After the adjudication decree becomes final, the executive director shall notify each holder of water rights under the decree of the amount of compensation and expenses that will be required annually for the administration of the water rights so determined.

(c) The commission shall hold a public hearing to determine the apportionment of the costs of administration of adjudicated water rights among the holders of the rights. After a public hearing, the commission shall issue an order assessing the annual

cost against the holders of water rights to whom the water will be distributed under the final decree. The commission shall equitably apportion the costs. The executive director may provide for payments in installments and shall specify the dates by which payments shall be made to the department.

(d) The executive director shall transmit all collections under this section to the State Treasurer.

(e) No water shall be diverted, taken, or stored by, or delivered to, any person while he is delinquent in the payment of his assessed costs.

(f) An order of the commission assessing costs remains in effect until the commission issues a further order. The commission may modify, revoke, or supersede an order assessing costs with a subsequent order. The commission may issue supplementary orders from time to time to apply to new diversions.
[Amended by Acts 1977, 65th Leg., p. 2207, ch. 870, § 1, eff. Sept. 1, 1977.]

§ 11.330. Outlet for Free Passage of Water

The owner of any works for the diversion or storage of water shall maintain to the satisfaction of the commission a substantial headgate at the point of diversion, or a gate on each discharge pipe of a pumping plant, constructed so that it can be locked at the proper place by the watermaster, or a suitable outlet in a dam to allow the free passage of water that the owner of the dam is not entitled to divert or impound, the suitability of the outlet to be determined by the commission.

[Amended by Acts 1977, 65th Leg., p. 2207, ch. 870, § 1, eff. Sept. 1, 1977.]

§ 11.332. Installation of Flumes

The commission may order flumes to be installed along the line of any ditch if necessary for the protection of water rights or other property.
[Amended by Acts 1977, 65th Leg., p. 2207, ch. 870, § 1, eff. Sept. 1, 1977.]

If the owner of waterworks using state water refuses or neglects to comply with the directions of the commission given pursuant to Section 11.330, 11.331, or 11.332 of this code, the commission, after 10 days notice or after a period of additional time that is reasonable under the circumstances, may order the watermaster to make adjustments of the control works to prevent the owner of the works from diverting, taking, storing, or distributing any water until he has fully complied with the order of the commission.

Any person who is injured by an act of the department under this subchapter may bring suit against the commission to review the action or to obtain an injunction. (a) If any area in which water rights of record in the office of the department have not been adjudicated, the claimants of the rights and the commission may enter into a written agreement for their administration.

(b) An agreement made under authority of this section shall provide:

(1) the basis and manner of distribution of the water to which the agreement relates;

(2) the services of a special watermaster, and assistants if necessary, to carry out the agreement; and

(3) the allocation, collection, and payment of the annual costs of administration.

(c) An agreement to administer unadjudicated water rights shall be recorded in the offices of the department and of the county clerk of each county in which any of the works or lands affected by the agreement are located.

(d) The administration of water rights by agreement is governed by the provisions of this subchapter except as regards allocation and payment of the expenses of the administration.

(e) No agreement authorized by this section impairs any vested right to the use of water or creates any additional rights to the use of water.
[Amended by Acts 1977, 65th Leg., p. 2207, ch. 870, § 1, eff. Sept. 1, 1977.]

§ 11.336. Administration of Permits Issued After Adjudication

§ 11.340. Abatement of Certain Civil Suits

(a) Nothing in this subchapter prevents or precludes a person who claims the right to divert water from a stream from filing and prosecuting to a conclusion a suit against other claimants of the right to divert or use water from the same stream. However, if the commission has ordered a determination of water rights as provided in this subchapter or if the commission orders such a determination within 90 days after notice of the filing of a suit, the suit shall be abated on the motion of the commission or any party in interest as to any issues involved in the water rights determination.

(b) If a suit is abated as provided in Subsection (a) of this section, the court may grant or continue any temporary relief necessary to preserve the status quo pending a final determination of the water rights involved.
[Amended by Acts 1977, 65th Leg., p. 2207, ch. 870, § 1, eff. Sept. 1, 1977.]

(a) A court having jurisdiction over a suit described in Section 11.401 of this code may appoint a watermaster with power to allocate and distribute, under the supervision of the court, the water taken into judicial custody.

(b) The court may not appoint a watermaster with authority to act both upstream and downstream from an existing reservoir on any surface stream of the state. However, once a watermaster is appointed, the construction of a new reservoir does not

invalidate his appointment or restrict his authority over that portion of the stream contemplated by the original order of appointment.

(c) Under terms and conditions prescribed by the court, the watermaster may incur necessary expenses, appoint necessary deputies and assistants, and perform duties and assume responsibilities delegated to him by the court.

[Amended by Acts 1977, 65th Leg., p. 2207, ch. 870, § 1, eff. Sept. 1, 1977.]

(b) The court shall assess the costs and expenses on the basis of:

(1) acreage;

(2) acre-feet of allocated water;

(3) per capita; or

(4) any other formula the court, after notice and hearing, determines to be the most equitable.

(c) During the pendency of an appeal, the trial court, in its discretion, may assess costs against some parties on one basis and against other parties on another basis.

(d) The costs and expenses are not to be taxed as ordinary court costs, but are to be considered costs necessary to protect the rights and privileges of the parties receiving allocations of water during the litigation and are to be paid by those parties.

[Amended by Acts 1977, 65th Leg., p. 2207, ch. 870, § 1, eff. Sept. 1, 1977.]

§ 11.406. Judicial Custody of Water During Appeal

If a party appeals the judgment of the trial court, that court may retain custody of the water which it has previously taken into judicial custody and over which it has appointed a watermaster. [Amended by Acts 1977, 65th Leg., p. 2207, ch. 870, § 1, eff. Sept. 1, 1977.]

§ 11.408. Retention of Watermaster During Appeal

[Amended by Acts 1977, 65th Leg., p. 2207, ch. 870, § 1, eff. Sept. 1, 1977.]

(3) "Federal agency" means the Corps of Engineers of the United States Army, the Bureau of Reclamation of the Department of Interior, the Soil Conservation Service of the Department of Agriculture, the United States Section of the International Boundary and Water Commission, or any other agency of the United States, the function of which includes the conservation, development, retardation by impounding, control, or study of the water resources of Texas or the United States.

(b) When the governor receives an engineering report submitted by a federal agency seeking the governor's approval of a federal project, he shall immediately forward the report to the department for its study concerning the feasibility of the federal project.

(c) The board shall hold a public hearing to receive the views of persons and groups who might be affected by the proposed federal project. The board shall publish notice of the time, date, place, nature, and purpose of the public hearing once each week for two consecutive weeks before the date stated in the notice in a newspaper having general circulation in the section of the state where the federal project is to be located or the work done.

(d) After hearing all the evidence both for and against approval of the federal project, the board shall enter its order approving or disapproving the feasibility of the federal project, and the order shall include the board's reasons for approval or disapproval.

(e) In determining feasibility, the board shall consider, among other relevant factors:

(1) the effect of the federal project on water users on the stream as certified by the commission;

(2) the public interest to be served;

(3) the development of damsites to the optimum potential for water conservation;

(4) the integration of the federal project with other water conservation activities;

(5) the protection of the state's interests in its water resources; and

(6) the engineering practicality of the federal project, including cost of construction, operation, and maintenance.

(f) The board shall forward to the governor a certified copy of its order. The board's finding that the federal project is either feasible or not feasible is final, and the governor shall notify the federal agency that the federal project has been either approved or disapproved.

(g) The provisions of this section do not apply to the state soil conservation board as long as that board is designated by the governor as the authorized state agency having supervisory responsibility to approve or disapprove of projects designed to effectuate watershed-protection and flood-prevention programs initiated in cooperation with the United States Department of Agriculture.

The state may recover the penalty by suit brought for that purpose in the district court of Travis County.

(d) Nothing in this section or in rules or orders made by the department shall be construed to relieve an owner or operator of a dam or reservoir of the legal duties, obligations, or liabilities incident to ownership or operation.

(2) require, on its own motion or on complaint by any person, audits or other financial information, inspections, evaluations, and engineering reports;

(3) issue subpoenas for witnesses to carry out its authority under this subsection;

(4) institute investigations and hearings using examiners appointed by the commission; and

(5) issue rules necessary to supervise the districts.

If the commission finally approves or refuses to approve the project or the issuance of bonds for the

improvements it shall make a full written report, file it in its office, and furnish a copy of the report to the board of the district.

(f) During the course of construction of the project and improvements, no substantial alterations shall be made in the plans and specifications without the approval of the executive director. The executive director or his designated agent has full authority to inspect the improvements at any time during construction to determine if the project is being constructed in accordance with approved plans and specifications.

(g) If the executive director finds that the project is not being constructed in accordance with the approved plans and specifications, the executive director immediately shall notify in writing by certified mail each member of the board of the district and its manager. If, within 10 days after the notice is mailed, the board of the district does not take steps to insure that the project is being constructed in accordance with the approved plans and specifications, the executive director shall give written notice of that fact to the attorney general.

The executive director shall make a record of fees prescribed when due and shall render an account to the person charged with the fees. Each fee is a separate charge and is in addition to other fees unless provided otherwise.

(b) The fee for filing an application or petition is $25 plus the cost of required notice.

(c) The fee for recording an instrument in the office of the commission is $1 per page.

(d) The fee for the use of water for irrigation is 50 cents per acre to be irrigated.

(e) The fee for the use of water for a steam or gas power plant or for cooling, condensing, or steam purposes is $1 for each indicated horsepower.

(f) The fee for impounding water, except under Section 11.142 of this code, is 50 cents per acre-foot of storage, based on the total holding capacity of the reservoir at normal operating level, provided that no additional fee shall be charged for recreational use for any impoundments of water now or hereafter permitted by the state or exempted from permit by statute.

(g) The fee for other uses of water not specifically named in this section is $1 per acre-foot.

(h) A fee charged under this section for one use of water under a permit from the commission may not exceed $5,000. The fee for each additional use of water under a permit for which the maximum fee is paid may not exceed $1,000.

(i) The fees prescribed by Subsections (d) through (g) of this section are one-time fees, payable when the application for an appropriation is made. However, if the total fee for a permit exceeds $1,000, the applicant shall pay one-tenth of the fee when the application is filed, one-tenth within 30 days after notice is mailed to him that the permit is granted, and the balance before he begins to use water under the permit. If the applicant does not pay all of the amount owed before he begins to use water under the permit, his permit is annulled.

"Sec. 2. (a) All permits issued prior to the effective date of this Act by the Texas Water Rights Commission or its predecessors are validated, ratified, approved, and confirmed insofar as, but only insofar as, the validity and priority of any such permits may be affected by any failure to pay or any failure to pay timely the fees prescribed by applicable statute.

"(b) If the Texas Water Rights Commission determines that any fees prescribed by applicable statute have not been paid in connection with any permit issued prior to the effective date of this Act by the commission or its predecessors, the commission shall submit a written statement of charges to the permittee. If such charges are not paid in full within 30 days of receipt of the statement by the permittee, then this section is not applicable for the validation, ratification, approval, or confirmation of the permit.

"Sec. 3. If any provision of this Act or the application thereof to any person or circumstances is held invalid, such invalidity shall not affect other provisions or applications of the Act which can be given effect without the invalid provision or application, and to this end the provisions of this Act are declared to be severable.

"Sec. 4. Due to the fact that the Texas Water Rights Commission and its predecessor agencies were charged with the responsibility to collect fees for the use and benefit of the state, and failing to do so violated the principles of the Constitution of Texas relating to the alienation and use of property of the public,

and placed numerous public agencies, state and federal, in the position of having made substantial investments in major dams and reservoirs without the benefit of a permit, the same having been annulled by operation of law, * * * create an emergency * * *."

(a) No person may construct, attempt to construct, cause to be constructed, maintain, or cause to be maintained any levee or other such improvement on, along, or near any stream of this state that is subject to floods, freshets, or overflows so as to control, regulate, or otherwise change the floodwater of the stream without first obtaining approval of the plans by the commission.

(b) Any person who violates any provision of this section is guilty of a misdemeanor and upon conviction is punishable by a fine of not more than $100. A separate offense is committed each day a structure constructed in violation of this section is maintained.

(c) At the request of the executive director, the attorney general shall file suit in a district court of Travis County to enjoin any violation or threatened violation of this section. In the suit, the attorney general may seek to have the illegal levee or other

improvement removed and the preexisting conditions restored and may also collect civil penalties of up to $100 a day for each day a violation occurs.

(d) This section does not apply to:

(1) dams permitted by the commission or recognized as valid by final decree in any proceeding begun under Subchapter G, Chapter 11, of this code; [1]

(2) dams authorized by Section 11.142 of this code;

(3) a levee or other improvement within the corporate limits of a city or town provided: (a) plans for the construction or maintenance or both must be approved by the city or town as a condition precedent to starting the project and (b) the city or town requires that such plans be in substantial compliance with rules and standards adopted by the board; or

(4) a levee or other improvement within the boundaries of any political subdivision which has qualified for the National Flood Insurance Program as authorized by the National Flood Insurance Act of 1968 (Title 42, U.S.C., Sections 4001–4127) provided: (a) plans for the construction or maintenance or both must be approved by the political subdivision which is participating in the national flood insurance program as a condition precedent to starting the project and (b) the political subdivision requires that such plans be in substantial compliance with rules and standards adopted by the board;

(5) projects implementing soil and water conservation practices set forth in a conservation plan with a landowner or operator and approved by the governing board of a soil and water conservation district organized under the State Soil Conservation Law, as amended (Article 165a–4, Vernon's Texas Civil Statutes), provided that the governing board finds the practices do not significantly affect stream flooding conditions on, along, or near a state stream.

(e) On projects located within the corporate limits of a city or town or within the boundaries of any political subdivision which are exempt from the provisions of this section by Subdivision (3) or (4) of Subsection (d) above, any person whose property is located outside of the corporate limits of such city or town or of the boundaries of such a political subdivision and whose property is affected or potentially affected by the effect of the project on the floodwaters of the stream may appeal the decision of such political subdivision. The appeal shall be in writing and shall specify the grounds therefor and a copy shall be sent by certified mail to the project applicant and to the city or town or such political subdivision. The timely filing of such an appeal with the executive director suspends the decision of the city or town or political subdivision until a final decision is rendered by the department. The executive director shall review the complaint and investigate the facts surrounding the nature of the complaint. If the executive director finds that the complaint is frivolous or nonmeritorious or made solely for purposes of harassment or delay, then he shall dismiss the appeal. Otherwise, the executive director shall refer the appeal to the commission which shall after due notice hold a hearing to determine whether the project should be approved using the standards established by the department and shall hear such appeal de novo under the procedural rules established by the commission for other reclamation projects.

SUBCHAPTER I. FLOOD INSURANCE

§ 16.311. Short Title

This subchapter may be cited as the Flood Control and Insurance Act.

[Amended by Acts 1977, 65th Leg., p. 2207, ch. 870, § 1, eff. Sept. 1, 1977.]

§ 16.312. Purpose

The State of Texas recognizes the personal hardships and economic distress caused by flood disasters since it has become uneconomic for the private insurance industry alone to make flood insurance available to those in need of such protection on reasonable terms and conditions. Recognizing the burden of the nation's resources, congress enacted the National Flood Insurance Act of 1968, as amended (42 U.S.C. Sections 4001 through 4127), whereby flood insurance can be made available through coordinated efforts of the federal government and the private insurance industry, by pooling risks, and the positive cooperation of state and local government. The purpose of this subchapter is to evidence a positive interest in securing flood insurance coverage under this federal program and to so procure for those citizens of Texas desiring to participate and in promoting the public interest by providing appropriate protection against the perils of flood losses and in encouraging sound land use by minimizing exposure of property to flood losses.

[Amended by Acts 1977, 65th Leg., p. 2207, ch. 870, § 1, eff. Sept. 1, 1977.]

(3) "Secretary" means the Secretary of the United States Department of Housing and Urban Development.

[Amended by Acts 1977, 65th Leg., p. 2207, ch. 870, § 1, eff. Sept. 1, 1977.]

(c) The aforementioned aid may include but is not necessarily limited to:

(1) coordinating local, state, and federal programs relating to floods, flood losses, and floodplain management;

(3) carrying out studies with respect to the adequacy of present public and private measures, laws, regulations, and ordinances in flood-prone areas as to land management and use, flood control, flood zoning, and flood damage prevention;

(4) evaluating all available engineering, hydrologic, and geologic data relevant to flood-prone areas and flood control in those areas; and

(5) carrying out floodplain studies and mapping programs of floodplains, flood-prone areas, and flood-risk zones.

(d) On the basis of such studies and evaluations, the department, to the extent of its capabilities, shall periodically identify and publish information and maps with respect to all floodplain areas, including the state's coastal area, which have flood hazards, and where possible aid the federal government in identifying and establishing flood-risk zones in all such areas.

SUBCHAPTER D. ASSISTANCE TO POLITICAL SUBDIVISIONS FOR PROJECTS

§ 17.121. Financial Assistance

The water development account may be used by the board to provide financial assistance to political subdivisions for the construction, acquisition, or improvement of projects, but to the extent that financial assistance is given by the board to an applicant for construction, acquisition, or improvement of any waste water treatment plant, the financial assistance shall be considered as state matching funds for obtaining maximum federal grants for construction of treatment works.
[Amended by Acts 1977, 65th Leg., p. 2207, ch. 870, § 1, eff. Sept. 1, 1977.]

§ 17.122. Application for Assistance

(a) In an application to the board for financial assistance, the applicant shall include:

(1) the name of the political subdivision and its principal officers;

(2) a citation of the law under which the political subdivision operates and was created;

(3) the total cost of the project;

(4) the amount of state financial assistance requested;

(5) the plan for repaying the total cost of the project; and

(6) any other information the board requires in order to perform its duties and to protect the public interest.

(b) The board may not accept an application for financial assistance unless it is submitted in affidavit form by the officials of the political subdivision. The board shall prescribe the affidavit form in its rules. The rules do not restrict or prohibit the board from requiring additional factual material from an applicant.

[Amended by Acts 1977, 65th Leg., p. 2207, ch. 870, § 1, eff. Sept. 1, 1977.]

§ 17.123. Certificate of Commission or Approval by Commission

(a) Except as provided in Subsection (b) of this section, the board shall not deliver funds pursuant to an application for financial assistance until the political subdivision has furnished the board a resolution adopted by the commission certifying:

(1) that an applicant proposing surface-water development has the necessary water right authorizing it to appropriate and use the water which the project will provide; or

(2) that an applicant proposing underground water development has the right to use water that the project will provide.

(b) If an application includes a proposal for a waste water treatment plant, the part of the application relating to the waste water treatment plant does not need to be certified by the commission, but the board may not deliver funds for the waste water treatment plant until the political subdivision has obtained written evidence of approval of the plans for the waste water treatment plant from the executive director.

[Amended by Acts 1977, 65th Leg., p. 2207, ch. 870, § 1, eff. Sept. 1, 1977.]

§ 17.124. Considerations in Passing on Application

In passing on an application from a political subdivision for financial assistance, the board shall consider:

(1) the needs of the area to be served by the project and the benefit of the project to the area in relation to the needs of other areas requiring state assistance in any manner and the benefits of those projects to the other areas;

(2) the availability of revenue to the political subdivision, from all sources, for the ultimate repayment of the cost of the project, including interest;

(3) whether the political subdivision can reasonably finance the project without assistance from the state;

(4) the relationship of the project to the overall, statewide water needs; and

(5) the relationship of the project to the state water plan.

[Amended by Acts 1977, 65th Leg., p. 2207, ch. 870, § 1, eff. Sept. 1, 1977.]

§ 17.125. Approval of Application

The board by resolution may approve an application if, after considering the factors listed in Section 17.124 of this code and any other relevant factors, the board finds:

(1) that the public interest requires state participation in the project;

(2) that the political subdivision cannot reasonably finance the project without state assistance in the amount finally approved by the board; and

(3) that in its opinion the revenue or taxes pledged by the political subdivision will be sufficient to meet all the obligations assumed by the political subdivision during the succeeding period of not more than 50 years.

[Amended by Acts 1977, 65th Leg., p. 2207, ch. 870, § 1, eff. Sept. 1, 1977.]

§ 17.126. Method of Financial Assistance

The board may provide financial assistance by using money in the water development account to purchase bonds or other securities issued by the political subdivision to finance the project. The board may purchase bonds or securities that are secondary or subordinate to other bonds or securities issued by the political subdivision to finance the same project. The board may purchase outstanding prior lien bonds previously issued by the political subdivision when this will avoid or reduce the necessity for issuing junior lien bonds for subsequent sale to the board. However, the security for both prior lien and junior lien bonds shall be pledged from substantially the same sources of revenue.

[Amended by Acts 1977, 65th Leg., p. 2207, ch. 870, § 1, eff. Sept. 1, 1977.]

§ 17.127. Bond Maturity

The board may not purchase bonds or other securities which have a maturity date more than 50 years from the date of issuance.

[Amended by Acts 1977, 65th Leg., p. 2207, ch. 870, § 1, eff. Sept. 1, 1977.]

§ 17.128. Interest Rate

(a) Except as provided in Subsection (b) of this section, bonds and securities purchased by the board on or after September 1, 1977, with money derived from the sale of bonds issued under this chapter shall bear interest at the lending rate. The bonds shall bear coupons evidencing interest at a rate or combination of rates that will approximate the lending rate as nearly as the board deems practicable.

The lending rate shall be affected by the payment of premiums or the deduction of discounts as necessary.

(b) Bonds and securities purchased by the board pursuant to applications for financial assistance approved by the board prior to September 1, 1977, shall bear interest at the rate prescribed by Subsection (a) of this section prior to this amendment. Outstanding prior lien bonds purchased by the board under Section 17.126 of this code need not bear the interest rate provided in Subsection (a) of this section, but the board may pay such price or prices for outstanding prior lien bonds which in its discretion will accomplish the objective of Section 17.126 of this code.

[Amended by Acts 1977, 65th Leg., p. 2207, ch. 870, § 1, eff. Sept. 1, 1977.]

(2) registration by the comptroller; and

(3) purchase by and delivery to the board.

[Amended by Acts 1977, 65th Leg., p. 2207, ch. 870, § 1, eff. Sept. 1, 1977.]

§ 17.131. Security for Bonds

(a) Bonds purchased by the board shall be supported by:

(1) all or part of the net revenue from the operation of the project;

(2) taxes levied by the political subdivision for the purpose; or

(3) a combination of taxes and net revenue, and revenue from other available sources.

(b) The board may require that the bonds be supported both by taxes and by net revenue from the operation of the project in any ratio the board considers necessary to fully secure the investment. The board shall establish other conditions and requirements it considers to be consistent with sound investment practices and in the public interest.

(c) As used in this section, "net revenue" means gross revenue less the amount necessary to provide for principal, interest, and reserve requirements of bonds superior to those purchased by the board and the amount necessary to pay the cost of maintaining and operating the project.

[Amended by Acts 1977, 65th Leg., p. 2207, ch. 870, § 1, eff. Sept. 1, 1977.]

§ 17.132. Default

(a) In the event of a default in payment of the principal of or interest on bonds purchased by the board or any other default as defined in the proceedings or indentures authorizing the issuance of the bonds, the attorney general shall institute appropriate proceedings by mandamus or other legal remedies to compel the political subdivision or its officers, agents, and employees to cure the default by performing those duties which they are legally obligated to perform. These proceedings shall be brought and venue shall be in a district court of Travis County.

(b) The provisions of this section are cumulative of any other rights or remedies to which the bondholders may be entitled.

[Amended by Acts 1977, 65th Leg., p. 2207, ch. 870, § 1, eff. Sept. 1, 1977.]

§ 17.133. Sale of Bonds by Board

(a) The board may sell or dispose of bonds purchased with money in the water development account. The board may not sell the bonds for less than amortized value and accrued interest.

(b) The board shall first offer the bonds at their amortized value plus accrued interest to the issuing political subdivision at least 30 days before the date of requesting competitive bids.

(c) If the political subdivision fails to give notice to the board of its desire to acquire the bonds at amortized value and accrued interest within the 30-day period, then the board shall give notice of the sale of the bonds, receive competitive bids, and conduct the sale, all in the manner provided for the sale of bonds, except the board may waive any requirement for good faith checks.

[Amended by Acts 1977, 65th Leg., p. 2207, ch. 870, § 1, eff. Sept. 1, 1977.]

§ 17.134. Proceeds From Sale

The proceeds from the sale of political subdivision bonds held by the board shall be credited to the water development account, except that accrued interest shall be credited to the interest and sinking fund.

[Amended by Acts 1977, 65th Leg., p. 2207, ch. 870, § 1, eff. Sept. 1, 1977.]

(3) that payment of the 10 percent remaining due upon completion of the contract shall be made only after:

(A) approval by the engineer for the political subdivision as required under the bond proceedings; and

(B) certification by the board that the work to be done under the contract has been completed and performed in a satisfactory manner and in accordance with sound engineering principles and practices.

[Amended by Acts 1977, 65th Leg., p. 2207, ch. 870, § 1, eff. Sept. 1, 1977.]

§ 17.136. Filing Construction Contract

The political subdivision shall file with the department a certified copy of each construction contract it enters into for the construction of all or part of a project. Each contract shall contain or have attached to it the specifications, plans, and details of all work included in the contract.

[Amended by Acts 1977, 65th Leg., p. 2207, ch. 870, § 1, eff. Sept. 1, 1977.]

§ 17.137. Inspection of Projects

(1) the contractor is substantially complying with the engineering plans of the project as submitted when approval of the feasibility of the project was sought; and

(2) the contractor is constructing the project in accordance with sound engineering principles.

(b) Inspection of a project by the department does not subject the state to any civil liability.

[Amended by Acts 1977, 65th Leg., p. 2207, ch. 870, § 1, eff. Sept. 1, 1977.]

§ 17.138. Alteration of Plans

§ 17.230. Direct Loans

(a) If a political subdivision in the judgment of the board is unable to issue bonds or other obligations for a project in the state for which a federal grant is to be made under the Federal Water Pollution Control Act, as amended,[1] then the board may provide financial assistance to the political subdivision by agreeing to pay from water quality enhancement funds the amount required by federal law of the estimated reasonable cost of the project.

(b) Before the delivery of any water quality enhancement funds to the political subdivision, the board with the advice of the development fund manager and the political subdivision shall execute a loan agreement which shall provide that the political subdivision shall pay into the appropriate account not less than the amount necessary to repay the principal of and interest on the loan over the period of time and under the terms and conditions which are mutually agreeable to the board and the political subdivision. The purchase of bonds and other obligations as provided in this code and the making of direct loans as provided in Section 17.230 of this code together constitute payment by the state of the amount required by federal law of the estimated reasonable construction costs of all projects in the state for which federal grants are to be made under the Federal Water Pollution Control Act, as amended,[1] or any similar law.

§ 18.0841. Election for Approval of a Permit That Includes Authorization for Hail Suppression

(a) In this section:

(1) "Target area" means that area described by metes and bounds or other specific bounded description set out in the application for a permit.

(2) "Operational area" means that area that joins the target area which is reasonably necessary to use in order to effectuate the purposes over the target area without affecting the land or land owners in the operational area, but in no event to exceed eight miles from the limits of the target area. The operational area shall be described by metes and bounds or other specific bounded description and shall be set out in the application for a permit. If the application for a permit does not describe the operational area, the commission may designate an area located inside and up to eight miles from the outer limits of the target area described in the application as the operational area of the permit for the purposes of this chapter.

(b) No permit may be issued by the commission before the end of the 30-day period immediately following the first publication of notice and then only in those counties or parts of counties in the target area or operational area in which the majority of the qualified voters voting have approved or have not disapproved the issuance of a permit if an election has been held, or in any county or part of a county in the target area or operational area if no petition for an election has been filed.

(c) Persons eligible to vote in elections held under this section shall include qualified voters in counties or parts of counties included in the target area or operational area. Where the target area or operational area includes only part of a county, an election held under this section may be held only in the election precincts which are included entirely within or are partially included in said areas. All qualified voters in such precincts shall be entitled to vote in these elections.

(d) On written request of at least 25 qualified voters residing in the target area or operational area mentioned in the notice requesting an election accompanied by unsigned petitions, the county clerk of each county within the target area or operational area shall certify and mark for identification petitions for circulation. An application for a petition seeking an election to disapprove the issuance of a permit shall be headed: "Application for Election to Disapprove a Weather Modification Permit." The application shall contain a statement just ahead of the signatures of the applicants stating the following: "It is the hope, purpose, and intent of the applicants whose signatures appear on this application to see disapproved the issuance of a permit for weather modification including hail suppression." An application for a petition seeking an election to approve the issuance of a permit shall be headed: "Application for Election to Approve a Weather Modification Permit." The application shall contain a statement just ahead of the signatures of the applicants as follows: "It is the hope, purpose, and intent of the applicants whose signatures appear on this petition to see approved the issuance of a permit for weather modification including hail suppression." Upon the return to the county clerks of such petitions signed by at least 10 percent of the qualified voters residing in each county within the target area or operational area in the notice requesting an election the commissioners court of each county shall call and hold an election. Notice under Chapter 549, Acts of the 60th Legislature, Regular Session, 1967 (Article 29e, Vernon's Texas Civil Statutes), of the commissioners court meeting to call and hold the election is not required. The date of the election shall be determined by the commissioners court in accordance with this section notwithstanding Section 9b, Texas Election Code, as amended (Article 2.01b, Vernon's Texas Election Code). The petition must be filed with the clerk of each county within 30 days immediately following the first publication of notice. The election shall be held within 45 days after the petition is received to determine whether or not the qualified voters in the target area or operational area approve the issuance of the permit. Immediately on calling the election, the clerk of each county within the target area or operational area shall notify the executive director of the date of the election. Except as otherwise provided in this chapter, elections shall be held in accordance with the Texas Election Code.

(e) The petition for the election shall read substantially as follows: "The following qualified voters of _____ County request the Commissioners Court of _____ County to call an election at which the qualified voters shall be asked to vote on the proposition of whether or not they approve of the issuance of a weather modification permit that includes authorization for hail suppression (description of area)." Each qualified voter signing the petition shall give his full name and address and voter registration number. Within five days after receiving a petition under this section, the commissioners court shall have the county clerk of the county check the names on the petition against the voter registration lists of the county and certify to the commissioners court the number of qualified voters signing the petition as reflected by checking the county's voter registration lists. If only a part of a county is included in the target area or operational area, the county clerk shall also certify that those signing the petition reside in an election precinct in the county totally or partially included in the target area or operational area. On certification by the county clerk, the petition shall be filed with the official records of the county and shall be available for public inspection.

(f) A person filing a petition with the county clerk shall deposit with the county clerk an amount of money estimated by the county clerk to be sufficient to cover the costs of the election, to be held by the

county clerk until the result of the election to approve or disapprove the issuance of the permit is officially announced. If the result of the election favors the party petitioning for the election, the county clerk shall return the deposit to the person filing the petition or his agent or attorney, but if the result of the election does not favor the party petitioning for the election, the county clerk shall pay the cost and expenses of the election from the deposit and return the balance of the deposit to the person filing the petition or his agent or attorney.

(g) The ballots for an election under this section shall be printed to provide for voting for or against the proposition: "The issuance of a permit providing for weather modification including authorization for hail suppression and control in (description of area)."

(h) The order calling the election shall provide for the time and place or places for holding the election, the form of the ballots, and the presiding judge for each voting place.

(i) The commissioners court shall publish a copy of the election order in a newspaper of general circulation in the county or in the part of the county within the target area or operational area at least 30 days preceding the day of the election.

(j) The presiding judge of each voting place shall supervise the counting of all votes cast and shall certify the results to the commissioners court within five days after the election. A copy of the results are to be filed with the county clerk and become a public record.

(k) Within five days after the results are filed, the commissioners court shall declare the results.

(*l*) The commissioners court of each county holding an election shall send certified copies of the results of the election to the executive director within 24 hours after the results are declared under Subsection (j) of this section.

(m) If a majority of the qualified voters voting in the election precincts any part of which are located in the target area vote against issuance of the permit, no permit may be issued. If a majority of the qualified voters voting in the election precincts any part of which are located within the target area vote in favor of issuance of the permit, the commission may issue the permit as provided in this subchapter, provided, however, if a majority of the qualified voters voting in either of the following areas vote against issuance of the permit, those areas shall be excluded from the coverage of the permit:

(1) any election precinct any part of which is located in the operational area; or

(2) any election precinct located wholly within the target area and contiguous with its outer boundary. If, however, the commission finds that a weather modification and control operation is still feasible, a permit may be issued covering areas in which no election is requested or areas in which the voters give their approval as provided in this section.

(n) If a permit is denied under Subsection (m) of this section, no application for a permit covering all or part of the same target area or operational area so denied may be considered, and no permit under that application may be issued by the commission, for a period of two years following the date of the election nor may an election be held pursuant to this chapter.

(*o*) If a permit including authorization for hail suppression is to cover only a part of a county, only those qualified voters residing in an election precinct or precincts of the county included in the target area or operational area are eligible to sign a petition and to vote at an election under this section, and in computing the vote, only a majority of those qualified voters residing in such areas and voting in the election shall be necessary to carry the proposition in that county.

(p) No permit shall be issued which provides for or allows the seeding of clouds for hail suppression outside the target area or within those counties or parts of counties located in the operational or target areas which were excluded from the coverage of the permit by virtue of an election under Subsection (m) of this section. However, seeding may be done in those counties or parts of counties located in the operational or target area which were not excluded from the coverage of the permit by virtue of an election under Subsection (m) of this section, provided it is reasonably calculated to take effect only within the target area. This shall not prohibit the observation of cloud and cloud formations.

(q) The department may monitor any program under such conditions as the department deems advisable.

(r) The provisions of this section do not apply to any permits in effect at the time this section becomes law.

(s) Upon petition as provided in this section, the commissioners court of any county outside but adjacent to a county included in the operational area of an existing or proposed permit shall call and hold an election on the proposition of whether or not the qualified voters of the county approve of the issuance of any permit authorizing hail suppression in the county. If the county voters voting in such election disapprove the issuance of permits authorizing hail suppression, the commission may not issue any such permit covering the county until the proposition has been approved by a subsequent election.

(t) If any county or part of a county has disapproved the issuance of a permit at the previous election held under the provisions of this section, that county or part of a county shall not be included

in any permit issued by the commission until the voters of that county or part of a county have participated in a subsequent election at which a permit is approved. The applicant for a permit which includes that county or part of a county shall have the burden of petitioning for an election and depositing costs in the manner provided by this section for the original election to approve or disapprove a permit.

(u) The board by rule shall define the term hail suppression as used in this section, using the most current scientifically accepted technological concepts.

§ 18.088. Proof of Financial Responsibility

Proof of financial responsibility is made by showing to the satisfaction of the commission that the licensee has the ability to respond in damages for liability which might reasonably result from the operation for which the permit is sought.

§ 18.089. Modification of Permit

The commission may modify the terms and conditions of a permit if:

(1) the licensee is first given notice and a reasonable opportunity for a hearing on the need for a modification; and

(2) it appears to the commission that a modification is necessary to protect the health or property of any person.

He shall also comply with any terms and conditions of the permit as originally issued or as subsequently modified by the commission.

(b) Failure of a licensee to comply with the provisions of Subsection (a) of this section constitutes a violation of this chapter and subjects the licensee to the sanctions provided in Sections 18.121 and 18.122 of this chapter.

§ 19.001. Policy

It is the policy, intent, and determination of the legislature that:

(1) Texas urgently needs an offshore deepwater port capable of accommodating supertankers for the importation of crude oil and other fluid commodities that may be carried in ships of that size;

(2) it is most desirable for private enterprise to own, construct, and operate such an offshore port;

(3) in the absence of any active and viable plan to develop a deepwater, offshore port by private enterprise, the State of Texas should construct such a facility, which should be self-supporting and whose design, construction, and operation should be carried out by private companies under contract;

(4) protecting the environment is essential to the proper operation of such a port;

(5) the credit of the State of Texas shall not be pledged to finance such a port; and

(6) the Texas Deepwater Port Authority be created to implement this policy.

(3) within 45 days after the date of the newspaper publication of the commission's notice, neither a commissioner, the executive director, nor an affected person who objects to the application has requested a public hearing.

(b) Whenever it appears that the use of private sewage facilities in an area is causing or may cause pollution or is injuring or may injure the public health, the commission may hold a public hearing in or near the area to determine whether an order should be entered controlling or prohibiting the installation or use of private sewage facilities in the area.

(c) Before the commission enters its order, the executive director shall consult with the Director of Health Resources for recommendations concerning the impact of the use of private sewage facilities in the area on public health and present the recommendations at the hearing.

(d) If the commission finds after the hearing that the use of private sewage facilities in an area is causing or may cause pollution or is injuring or may injure the public health, the commission may enter an order as it may consider appropriate to abate or prevent pollution or injury to public health.

(e) The order may, without limitation, do one or more of the following:

(1) limit the number and kind of private sewage facilities which may be used in the area;

(2) prohibit the installation and use of additional private sewage facilities or kinds of private sewage facilities in the area;

(3) require modifications or improvements to existing private sewage facilities or impose limitations on their use; and

(4) provide for a gradual and systematic reduction of the number or kinds of private sewage facilities in the area.

(f) The commission may provide in the order for a system of licensing of private sewage facilities in the area, including procedures for cancellation of a license for violation of this section, the license, or the orders or rules of the department. The commission may also provide in the system of licensing for periodic renewal of the licenses, but this may not be required more frequently than once a year.

(g) The commission may delegate the licensing function and the administration of the licensing system to the executive director or to any local government whose boundaries include the area or which has been designated by the commission under Sections 26.081 through 26.086 of this code as the agency to develop a regional waste disposal system which includes the area or to any district or authority created and existing under Article XVI, Section 59 or Article III, Section 52 of the Texas Constitution, which owns or operates a dam or reservoir project within the area regulated.

(h) The board also may prescribe and require the payment of reasonable license fees by an applicant for a license, including fees for periodic renewal of a license. The board may change the amount of the license fees from time to time. The amount of the fees shall be based on the reasonable cost of performing the licensing function and administering the licensing system, including, where applicable, costs of soil percolation and other tests to determine the suitability of using a particular type or types of private sewage facilities in the area or at any location within the area, field inspections, travel, and other costs directly attributable to performing the licensing function and administering the licensing system.

(i) If the commission or the executive director has the responsibility for performing the licensing function, the license fees shall be paid to the department. Those fees shall not be deposited in the General Revenue Fund of the state but shall be deposited in a special fund for use by the department in performing the licensing function and administering the licensing system, and the fees so deposited are hereby appropriated to the department to use for those purposes only.

(j) If a local government has the responsibility for performing the licensing function, the fees shall be paid to the local government.

§ 26.032. Control by Counties

(a) Whenever it appears to the commissioners court of any county that the use of private sewage facilities in an area within the county is causing or may cause pollution or is injuring or may injure the public health, the county may proceed in the same manner and in accordance with the same procedures as the commission to hold a public hearing and enter an order, resolution, or other rule as it may consider appropriate to abate or prevent pollution or injury to public health.

(b) The order, resolution, or other rule may provide the same restrictions and requirements as are authorized for an order of the commission entered under this section.

(c) Before the order, resolution, or other rule becomes effective, the county shall submit it to the commission and obtain the commission's written approval.

(d) In the event of any conflict within an area between an order adopted by the commission and an order, resolution, or other rule adopted by a county under this section, the order of the commission shall take precedence.

(e) Where a system of licensing has been ordered by the commission or the commissioners court of a county, no person may install or use private sewage facilities required to be licensed without obtaining a license.

[Amended by Acts 1977, 65th Leg., p. 2207, ch. 870, § 1, eff. Sept. 1, 1977.]

§ 26.033. Rating of Waste Disposal Systems

(a) After consultation with the Texas Department of Health Resources, the board shall provide by rule for a system of approved ratings for municipal waste disposal systems and other waste disposal systems which the board may designate.

(b) The owner or operator of a municipal waste disposal system which attains an approved rating has the privilege of erecting signs of a design approved by the board on highways approaching or inside the boundaries of the municipality, subject to reasonable restrictions and requirements which may be established by the State Department of Highways and Public Transportation.

(c) In addition, the owner or operator of any waste disposal system, including a municipal system, which attains an approved rating has the privilege of erecting signs of a design approved by the board at locations which may be approved or established by the board, subject to such reasonable restrictions and requirements which may be imposed by any governmental entity having jurisdiction.

(d) If the waste disposal system fails to continue to achieve an approved rating, the commission may revoke the privilege. On due notice from the com-

mission, the owner or operator of the system shall remove the signs.

§ 26.034. Approval of Disposal System Plans

(a) This section applies to all sewer systems, treatment facilities, and disposal systems, except those public sewage disposal systems for which plans are subject to review and approval by the Texas Department of Health Resources.

(b) Before beginning construction, every person who proposes to construct or materially alter the efficiency of any sewer system, treatment facility, or disposal system to which this section applies shall submit completed plans and specifications to and obtain the approval of the plans by the board.

(c) The board shall approve the plans and specifications if they conform to the waste discharge requirements and water quality standards established by the commission and the board respectively.

[Amended by Acts 1977, 65th Leg., p. 2207, ch. 870, § 1, eff. Sept. 1, 1977.]

The department may accept federal funds for these purposes and for other purposes consistent with the objectives of this chapter and may use the funds as prescribed by law or as provided by agreement.

[Amended by Acts 1977, 65th Leg., p. 2207, ch. 870, § 1, eff. Sept. 1, 1977.]

§ 26.036. Water Quality Management Plans

(a) The executive director shall develop and prepare, and from time to time revise, comprehensive water quality management plans for the different areas of the state, as designated by the board.

(b) The executive director may contract with local governments, regional planning commissions, planning agencies, other state agencies, colleges and universities in the state, and any other qualified and competent person to assist the department in developing and preparing, and from time to time revising, water quality management plans for areas designated by the board.

(c) With funds provided for the purpose by legislative appropriation, the board may make grants or interest-free loans to, or contract with, local governments, regional planning commissions, and planning agencies to pay administrative and other expenses of such entities for developing and preparing, and from time to time revising, water quality management plans for areas designated by the board. The period of time for which funding under this provision may be provided for developing and preparing or for revising a plan may not exceed three consecutive years in each instance. Any loan made pursuant to this subsection shall be repaid when the construction of any project included in the plan is begun.

(d) Any person developing or revising a plan shall, during the course of the work, consult with the department and with local governments and other federal, state, and local governmental agencies which in the judgment of the executive director may be affected by or have a legitimate interest in the plan.

(e) Insofar as may be practical, the water quality management plans shall be reasonably compatible with the other governmental plans for the area, such as area or regional transportation, public utility, zoning, public education, recreation, housing, and other related development plans.

[Amended by Acts 1977, 65th Leg., p. 2207, ch. 870, § 1, eff. Sept. 1, 1977.]

§ 26.037. Approval of Plans

(a) After a water quality management plan has been prepared or significantly revised as authorized in Section 26.036 of this code, it shall be submitted to the board and to such local governments and other federal, state, and local governmental agencies as in the judgment of the executive director may be affected by or have a legitimate interest in the plan.

(b) After a reasonable period of time as determined by the board for the persons to whom the plan was submitted to review and consult on the plan, a public hearing shall be held on whether the plan should be approved or whether the plan should be modified in any way. Notice of the hearing shall be given to the person or persons who prepared or revised the plan and to the persons to whom the plan was submitted for review.

(c) After the public hearing if the board finds that the plan complies with the policy and purpose of this chapter and the rules and policies of the board, it shall approve the plan. If the board does not so find, it may disapprove the plan, modify the plan as necessary so that it will comply, or return it for further development and later resubmission to the board, in accordance with the procedure in Section 26.036 of this code.

(d) When a water quality management plan has been approved as provided in this section, the plan may be furnished to the Federal Environmental Protection Agency, the Federal Water Quality Administration, or any other federal official or agency

in fulfillment of any federal water quality management planning requirement specified for any purpose by the federal government.

(e) The board and the commission may use an approved water quality management plan or a plan in progress but not completed or approved in reviewing and making determinations on applications for permits and on applications for financial assistance for construction of treatment works.

[Amended by Acts 1977, 65th Leg., p. 2207, ch. 870, § 1, eff. Sept. 1, 1977.]

§ 26.038. Fiscal Control on Water Quality Management Planning

In administering the program for making grants and loans to and contracting with local governments, regional planning commissions, and planning agencies as authorized in Subsection (c) of Section 26.036 of this code, the board shall adopt rules and procedures for the necessary engineering review and supervision, fiscal control, and fund accounting. The fiscal control and fund accounting procedures are supplemental to other procedures prescribed by law.

(a) As used in this section:

(1) "Accidental discharge" means an act or omission through which waste or other substances are inadvertently discharged into water in the state.

(2) "Spill" means an act or omission through which waste or other substances are deposited where, unless controlled or removed, they will drain, seep, run, or otherwise enter water in the state.

(3) "Other substances" means substances which may be useful or valuable and therefore are not ordinarily considered to be waste, but which will cause pollution if discharged into water in the state.

(b) Whenever an accidental discharge or spill occurs at or from any activity or facility which causes or may cause pollution, the individual operating, in charge of, or responsible for the activity or facility shall notify the department as soon as possible and not later than 24 hours after the occurrence.

(c) Activities which are inherently or potentially capable of causing or resulting in the spillage or accidental discharge of waste or other substances and which pose serious or significant threats of pollution are subject to reasonable rules establishing safety and preventive measures which the board may adopt or issue. The safety and preventive measures which may be required shall be commensurate with the potential harm which could result from the escape of the waste or other substances.

(d) The provisions of this section are cumulative of the other provisions in this chapter relating to waste discharges, and nothing in this section exempts any person from complying with or being subject to any other provision of this chapter.

[Amended by Acts 1977, 65th Leg., p. 2207, ch. 870, § 1, eff. Sept. 1, 1977.]

§ 26.040. Control of Certain Waste Discharges by Rule

Whenever the board determines that the quality of water in an area is adversely affected or threatened by the combined effects of several relatively small-quantity discharges of wastes being made for which it is not practical to issue individual permits or that the general nature of a particular type of activity which produces a waste discharge is such that requiring individual permits is unnecessarily burdensome both to the waste discharger and the department, the board may by rule regulate and set the requirements and conditions for the discharges of waste.

[Amended by Acts 1977, 65th Leg., p. 2207, ch. 870, § 1, eff. Sept. 1, 1977.]

§ 26.041. Health Hazards

The department may use any means provided by this chapter to prevent a discharge of waste that is injurious to public health.

[Amended by Acts 1977, 65th Leg., p. 2207, ch. 870, § 1, eff. Sept. 1, 1977.]

§ 26.042. Monitoring and Reporting

Text of section effective until delegation of NPDES permit authority

The board may prescribe reasonable requirements for a person making waste discharges to monitor and report on his waste collection, treatment, and disposal activities. When in the judgment of the commission significant water quality management benefits will result or water quality management needs justify, the commission may also prescribe reasonable requirements for any person or persons making waste discharges to monitor and report on the quality of any water in the state which the commission has reason to believe may be materially affected by the waste discharges.

or of any pollutant to monitor and report on his activities concerning collection, treatment, and disposal of the waste or pollutant.

(b) The board may, by regulation, order, permit, or otherwise require the owner or operator of any source of a discharge of pollutants into any water in the state or of any source which is an industrial user of a publicly owned treatment works to:

(1) establish and maintain such records;

(2) make such reports;

(3) sample any discharges in accordance with such methods, at such locations, at such intervals, and in such manner as the board shall prescribe; and

(4) provide such other information relating to discharges of pollutants into any water in the state or to introductions of pollutants into publicly owned treatment works as the board may reasonably require.

(c) When in the judgment of the commission significant water quality management benefits will result or water quality management needs justify, the commission may also prescribe reasonable requirements for any person or persons making discharges of any waste or of any pollutant to monitor and report on the quality of any water in the state which the commission has reason to believe may be materially affected by the discharges.

§ 26.043. The State of Texas Water Pollution Control Compact

(a) The legislature recognizes that various river authorities and municipal water districts and authorities of the state have signed, and that others are authorized to sign and may sign, a document entitled "The State of Texas Water Pollution Control Compact" (hereinafter called the "compact"), which was approved by Order of the Texas Water Quality Board on March 26, 1971, and which is now on file in the official records of the department, wherein each of the signatories is by law an official agency of the state, created pursuant to Article XVI, Section 59 of the Texas Constitution and operating on a multiple county or regional basis, and that collectively those signatories constitute an agency of the state authorized to agree to pay, and to pay, for and on behalf of the state not less than 25 percent of the estimated costs of all water pollution control projects in the state, wherever located, for which federal grants are to be made pursuant to Clause (7), Subsection (b), Section 1158,[1] Federal Water Pollution Control Act, as amended (33 U.S.C. Section 1158), or any similar law, in accordance with and subject to the terms and conditions of the compact. The compact provides a method for taking advantage of increased federal grants for water pollution control projects by virtue of the state payment which will be made from the proceeds from the sale of bonds by the signatories to the compact. The compact is hereby ratified and approved, and it is hereby provided that Section 30.026 of this code shall not constitute a limitation or restriction on any signatory with respect to any contract entered into pursuant to the compact or with respect to any water pollution control project in the state, wherever located, for which the aforesaid federal grants are to be made, and such signatory shall not be required to obtain the consent of any other river authority or conservation and reclamation district which is not a signatory with respect to any such contract or project. Each signatory to the compact is empowered and authorized to do any and all things and to take any and all action and to execute any and all contracts and documents which are necessary or convenient in carrying out the purposes and objectives of the compact and issuing bonds pursuant thereto, with reference to any water pollution control project in the state, wherever located, for which the aforesaid federal grants are to be made.

(b) It is further found, determined, and enacted that all bonds issued pursuant to said compact and all bonds issued to refund or refinance same are and will be for water quality enhancement purposes, within the meaning of Article III, Section 49–d–1, as amended, of the Texas Constitution and any and all bonds issued by a signatory to said compact to pay for all or any part of a project pursuant to the compact and any bonds issued to refund or refinance any such bonds may be purchased by the Texas Water Development Board with money received from the sale of Texas Water Development Board bonds pursuant to said Article III, Section 49–d–1, as amended, of the Texas Constitution. The bonds or refunding bonds shall be purchased directly from any such signatory at such price as is necessary to provide the state payment and any other part of the cost of the project or necessary to accomplish the refunding, and all purchases shall constitute loans for water quality enhancement. The bonds or refunding bonds shall have the characteristics and be issued on such terms and conditions as are acceptable to the board. The proceeds received by any such signatory from the sale of any such bonds shall be used to provide the state payment pursuant to the compact and any other part of the cost of the project, and the proceeds from the sale of any such refunding bonds to refund any outstanding bonds issued pursuant to the compact shall be used to pay off and retire the bonds being refunded thereby.

(c) This subsection is not intended to interfere in any way with the operation of Article III, Section

49–d–1, as amended, of the Texas Constitution or the enabling legislation enacted pursuant thereto, and the aforesaid compact shall constitute merely a complementary or supplemental method for providing the state payment solely in instances that it is deemed necessary or advisable by the board.

(b) The board shall issue rules concerning the disposal of sewage from boats located or operated on inland fresh waters in this state. The rules of the board shall include but not be limited to provisions for the establishment of standards for sewage disposal devices, the certification of sewage disposal devices, including on-shore pump-out facilities, and the visible and conspicuous display of evidence of certification of sewage disposal devices on each boat equipped with such device and on each on-shore pump-out device.

(c) The board may delegate the administration and performance of the certification function to the executive director or to any other governmental entity. The board may prescribe and require the payment, by applicants for certification, of reasonable fees based on the costs of administering and performing the certification function. All certification fees shall be paid to the entity performing the certification function. All fees collected by any state agency shall be deposited in a special fund for use by that agency in administering and performing the certification function and shall not be deposited in the General Revenue Fund of the state.

(d) Before issuing any rules under Subsection (b) of this section, the board or any person authorized by it under Section 26.021 of this code shall hold hearings thereon in Austin and in five other locations in the state in order to provide the best opportunity for all citizens of the state to appear and present evidence to the board.

(e) Notice of the hearing in Austin shall be published at least once in one or more newspapers having general circulation in the state. Notice of each of the other hearings shall be published at least once in one or more newspapers having general circulation in the region in which each hearing is to be held.

(3) "Shoreside installation" means marinas and other installations servicing boats on fresh water of Texas.

(4) "Fresh water" means as geographically applied all of the surface lakes, streams, and reservoirs of the state, exclusive of the extent of ordinary tidal action on this water.

(b) After a public hearing and after making every reasonable effort to bring about the establishment of an adequate number of boat pump-out stations on fresh water, the commission may enter an order requiring the establishment of boat pump-out stations by a local government that has any jurisdiction over at least a portion of the fresh water or over land immediately adjacent to the fresh water.

(c) If a local government is authorized to issue authorization for the operation of shoreside installations, the local government may require the installation and operation of boat pump-out stations where necessary. The local government shall require the installation and operation of boat pump-out stations if required by the commission.

(d) A local government responsible for establishing boat pump-out stations may issue bonds or may use general revenue funds from normal operations to finance the construction and operation of the pump-out facilities. Pump-out stations established as a result of this section will be self-sustaining with respect to costs and revenues collected from users of said facilities, and local governments are authorized to levy reasonable, appropriate charges or fees to recover cost of installation and operation of the pump-out stations. Nothing in this section is to be construed to require any local government to rebate to the State of Texas funds collected pursuant to this program.

(e) The hearings required by this section and other acts of the commission in carrying out the provisions of this section shall be handled as provided in the rules of the board.

[Amended by Acts 1977, 65th Leg., p. 2207, ch. 870, § 1, eff. Sept. 1, 1977.]

§ 26.046. Hearings on Protection of Edwards Aquifer From Pollution

(a) As used in this section, "Edwards Aquifer" means that portion of an arcuate belt of porous, waterbearing limestones composed of the Comanche Peak, Edwards, and Georgetown formations trending from west to east to northeast through Kinney, Uvalde, Medina, Bexar, Kendall, Comal, and Hays counties, respectively, and as defined in the most recent order of the commission for the protection of the quality of the potable underground water in those counties.

(b) Annually, the commission shall hold a public hearing in Kinney, Uvalde, Medina, Bexar, Kendall, Comal, or Hays County, and a hearing in any other of those counties whose commissioners court requests that a hearing be held in its county, to receive evidence from the public on actions the commission should take to protect the Edwards Aquifer from pollution.

(1) Notice of the public hearing shall be given and the hearing shall be conducted in accordance with the rules of the commission.

(2) The hearings examiner, appointed by the commission, shall convene the public hearing at an hour convenient for the public to attend, but not later than 10 a. m. of the day set for the public hearing and shall close the public hearing no later than 6 p. m. of the same day.

(a) The board may execute agreements with the United States Environmental Protection Agency or its successor agency and any other federal agency that administers programs providing federal grants to local governments for the construction of treatment works, as defined in Section 21.602[2] of this code. The board may exercise all duties and responsibilities required for the administration by the board of the federal construction grant program.

(b) Each applicant for a federal construction grant, under a grant program administered by the board, shall pay to the board a reasonable grant processing fee as prescribed by the board. The grant processing fee charged by the board shall be cost-eligible under the grant program and shall not exceed one-half of one percent of the total eligible project cost, including the planning, design, and construction phases, for any one project. The board shall promulgate regulations establishing schedules for timely payment of grant processing fees. SUBCHAPTER C. REGIONAL AND AREA-WIDE SYSTEMS

§ 26.081. Regional or Area-Wide Systems; General Policy

(a) The legislature finds and declares that it is necessary to the health, safety, and welfare of the people of this state to implement the state policy to encourage and promote the development and use of regional and area-wide waste collection, treatment, and disposal systems to serve the waste disposal needs of the citizens of the state and to prevent pollution and maintain and enhance the quality of the water in the state.

(b) Within any standard metropolitan statistical area in the state, the department is authorized to implement this policy in the manner and in accordance with the procedure provided in Sections 26.081 through 26.086 of this code.

(c) In those portions of the state which are not within a standard metropolitan statistical area, the department shall observe this state policy by encouraging interested and affected persons to cooperate in developing and using regional and area-wide systems. The department may not use the procedure specified in Sections 26.081 through 26.086 of this code in these areas to implement this policy. However, this does not affect or diminish any authority which the department may otherwise have and exercise under other provisions of this chapter.

(d) The term "standard metropolitan statistical area," as used in this section, means an area consisting of a county or one or more contiguous counties which is officially designated as such by the United States Office of Management and Budget or its successor in this function.

§ 26.082. Hearing to Define Area of Regional or Area-Wide Systems

(a) Whenever it appears to the board that because of the existing or reasonably foreseeable residential, commercial, industrial, recreational, or other economic development in an area a regional or area-wide waste collection, treatment, or disposal system or systems are necessary to prevent pollution or maintain and enhance the quality of the water in the state, the board may hold a public hearing in or near the area to determine whether the policy stated in Section 26.081 of this code should be implemented in that area.

(b) Notice of the hearing shall be given to the local governments which in the judgment of the board may be affected.

(c) If after the hearing the board finds that a regional or area-wide system or systems are necessary or desirable to prevent pollution or maintain and enhance the quality of the water in the state, the board may enter an order defining the area in which such a system or systems are necessary or desirable.

[1] Section 26.121 et seq.

§ 26.175. Cooperative Agreements

(a) A local government may execute cooperative agreements with the department or other local governments:

(1) to provide for the performance of water quality management, inspection, and enforcement functions and to provide technical aid and educational services to any party to the agreement; and

(2) for the transfer of money or property from any party to the agreement to another party to the agreement for the purpose of water quality management, inspection, enforcement, technical aid and education, and the construction, ownership, purchase, maintenance, and operation of disposal systems.

(b) When in the opinion of the executive director it would facilitate and enhance the performance by a local government of its water quality management, inspection, and enforcement functions pursuant to a cooperative agreement between the local government and the department as authorized in Subsection (a) of this section, the executive director may assign and delegate to the local government during the period of the agreement such of the pertinent powers and functions vested in the department under this chapter as in the judgment of the executive director may be necessary or helpful to the local government in performing those management, inspection, and enforcement functions.

(c) At any time and from time to time prior to the termination of the cooperative agreement, the executive director may modify or rescind any such assignment or delegation.

(d) The executive director shall notify immediately a local government to whom it assigns or delegates any powers and functions pursuant to Subsections (b) and (c) of this section or as to when it modifies or rescinds any such assignment or delegation.

[Amended by Acts 1977, 65th Leg., p. 2207, ch. 870, § 1, eff. Sept. 1, 1977.]

§ 26.176. Disposal System Rules

(a) Every local government which owns or operates a disposal system is empowered to and shall, except as authorized in Subsection (c) of this section, enact and enforce rules, ordinances, orders, or resolutions, referred to in this section as rules, to control

and regulate the type, character, and quality of waste which may be discharged to the disposal system and, where necessary, to require pretreatment of waste to be discharged to the system, so as to protect the health and safety of personnel maintaining and operating the disposal system and to prevent unreasonable adverse effects on the disposal system.

(b) The local government in its rules may establish the charges and assessments which may be made to and collected from all persons who discharge waste to the disposal system or who have conduits or other facilities for discharging waste connected to the disposal system, referred to in this subsection as "users." The charges and assessments shall be equitable as between all users and shall correspond as near as can be practically determined to the cost of making the waste disposal services available to all users and of treating the waste of each user or class of users. The charges and assessments may include user charges, connection fees, or any other methods of obtaining revenue from the disposal system available to the local government. In establishing the charges and assessments, the local government shall take into account:

(1) the volume, type, character, and quality of the waste of each user or class of users;

(2) the techniques of treatment required;

(3) any capital costs and debt retirement expenses of the disposal system required to be paid for from the charges and assessments;

(4) the costs of operating and maintaining the system to comply with this chapter and the permits, rules, and orders of the department; and

(5) any other costs directly attributable to providing the waste disposal service under standard, accepted cost-accounting practices.

(c) A local government may apply to the commission for an exception from the requirements of Subsections (a) and (b) of this section or for a modification of those requirements. The application shall contain the exception or modifications desired, the reasons the exception or modifications are needed, and the grounds authorized in this subsection on which the commission should grant the application. A public hearing on the application shall be held in or near the territorial area of the local government, and notice of the hearing shall be given to the local government. If after the hearing the commission in its judgment determines that the volume, type, character, and quality of the waste of the users of the system or of a particular user or class of users of the system do not warrant the enactment and enforcement of rules containing the requirements prescribed in Subsections (a) and (b) of this section or that the enactment and enforcement of the rules would be impractical or unreasonably burdensome on the local government in relation to the public benefit to be derived, then the commission in its discretion may enter an order granting an exception to those requirements or modifying those requirements in any particular in response to circumstances shown to exist.

(d) At any time and from time to time as circumstances may require, the commission may amend or revoke any order it enters pursuant to Subsection (c) of this section. Before the commission amends or revokes such an order, a public hearing shall be held in or near the territorial area of the local government in question, and notice of the hearing shall be given to the local government. If after the hearing the commission in its judgment determines that the circumstances on which it based the order have changed significantly or no longer exist, the commission may revoke the order or amend it in any particular in response to the circumstances then shown to exist.

(e) In the event of any conflict between the provisions of this section and any other laws or parts of laws, the provisions of this section shall control. [Amended by Acts 1977, 65th Leg., p. 2207, ch. 870, § 1, eff. Sept. 1, 1977.]

§ 26.177. Water Pollution Control Duties of Cities

(a) Every city in this state having a population of 5,000 or more inhabitants shall, and any city of this state may, establish a water pollution control and abatement program for the city. The city shall employ or retain an adequate number of personnel on either a part-time or full-time basis as the needs and circumstances of the city may require, who by virtue of their training or experience are qualified to perform the water pollution control and abatement functions required to enable the city to carry out its duties and responsibilities under this section.

(b) The water pollution control and abatement program of a city shall encompass the entire city and may include areas within its extraterritorial jurisdiction which in the judgment of the city should be included to enable the city to achieve the objectives of the city for the area within its territorial jurisdiction. The city shall include in the program the services and functions which, in the judgment of the city or as may be reasonably required by the commission, will provide effective water pollution control and abatement for the city, including the following services and functions:

(1) the development and maintenance of an inventory of all significant waste discharges into or adjacent to the water within the city and, where the city so elects, within the extraterritorial jurisdiction of the city, without regard to whether or not the discharges are authorized by the department;

(2) the regular monitoring of all significant waste discharges included in the inventory pre-

pared pursuant to Subdivision (1) of this subsection;

(3) the collecting of samples and the conducting of periodic inspections and tests of the waste discharges being monitored to determine whether the discharges are being conducted in compliance with this chapter and any applicable permits, orders, or rules of the department, and whether they should be covered by a permit from the commission;

(4) in cooperation with the department, a procedure for obtaining compliance by the waste dischargers being monitored, including where necessary the use of legal enforcement proceedings; and

(5) the development and execution of reasonable and realistic plans for controlling and abating pollution or potential pollution resulting from generalized discharges of waste which are not traceable to a specific source, such as storm sewer discharges and urban runoff from rainwater.

[Amended by Acts 1977, 65th Leg., p. 2207, ch. 870, § 1, eff. Sept. 1, 1977.]

[Amended by Acts 1977, 65th Leg., p. 2207, ch. 870, § 1, eff. Sept. 1, 1977.]

§ 30.026. Contracts by River Authority

Each river authority may make contracts authorized by this chapter with any person, including any public agency situated wholly or partly inside its boundaries and any public agency situated wholly or partly inside the river basin and any public agency situated wholly or partly inside the coastal basins adjoining its boundaries, but a river authority may not make contracts to serve a public agency situated wholly inside the boundaries of another river authority or to serve facilities of a person situated wholly within the boundaries of another river authority, except with the consent of the other river authority.
[Amended by Acts 1977, 65th Leg., p. 2207, ch. 870, § 1, eff. Sept. 1, 1977.]

§ 30.027. Contract With Public Agency

[Amended by Acts 1977, 65th Leg., p. 2207, ch. 870, § 1, eff. Sept. 1, 1977.]

(1) duration of the contract for a specified period or until issued and unissued bonds and refunding bonds of the district are paid;

(2) assuring equitable treatment of parties who contract with the district for waste collection, transportation, treatment, and disposal services from the same disposal system;

(3) requiring the public agency to regulate the quality and strength of waste to be handled by the disposal system;

(4) sale or lease to or use by a district of all or part of a disposal system owned or to be acquired by the public agency;

(5) the district operating all or part of a disposal system owned or to be acquired by the public agency; and

(6) other terms the district or the governing body of the public agency consider appropriate or necessary.

(b) The contract shall specify the method for determining the amounts to be paid by the public agency to the district.

(c) A contract made by a city may provide that the district shall have the right to use the streets, alleys, and public ways and places inside the city during the term of the contract.

[Amended by Acts 1977, 65th Leg., p. 2207, ch. 870, § 1, eff. Sept. 1, 1977.]

§ 30.030. Source of Contract Payments

(a) A public agency may pay for the waste collection, transportation, treatment, and disposal services with income from its waterworks system, sanitary sewer system, or both systems, or its combined water and sanitary sewer system, as prescribed by the contract. In the alternative, a joint board defined as a public agency in Section 30.003, Subdivision (3), may pay for these services from any revenue or other funds within its control specified in the contract if the city councils of the cities which created the joint board approve, by ordinance, the contract between the joint board and the district. These payments constitute an operating expense of each system whose revenue is so used.

(b) The obligation of contract payments on the income of the public agency's water system is subordinate to the obligation imposed by any bonds that are payable solely from the water system net revenue and that are outstanding at the time the contract is made, unless the ordinance or resolution

authorizing the bonds expressly reserved the right to give the contract payments a priority over the bond requirements.

(c) If a public agency having taxing power holds an election substantially according to the applicable provisions of Chapter 1, Title 22, Revised Civil Statutes of Texas, 1925, as amended,[1] relating to the issuance of bonds by cities and it is determined that the public agency is authorized to levy an ad valorem tax to make all or part of the payments under a contract with a district, then the contract is an obligation against the taxing power of the public agency to the extent authorized, and payments under the contract may be payable from and constitute solely an obligation against the taxing powers of the city or may be payable both from taxes and from revenue prescribed in the contract. Otherwise, neither the district nor the holders of the district's bonds are entitled to demand payment of the public agency's obligation out of any tax revenue.

[Amended by Acts 1977, 65th Leg., p. 2207, ch. 870, § 1, eff. Sept. 1, 1977.]

[1] Civil Statutes, art. 701 et seq.

§ 30.031. Rates

(a) When all or part of the payments under a contract are to be made from revenue of the waterworks system, sanitary sewer system, both systems, or a combination of both systems, the public agency shall establish, maintain, and periodically adjust the rates charged for services of the systems, so that the revenue, along with any taxes levied in support of the indebtedness, will be sufficient to pay:

(1) the expenses of operating and maintaining the systems;

(2) the obligations to the district under the contract; and

(3) the obligations of bonds that are secured by revenue of the systems.

(b) The contract may require the use of consulting engineers and financial experts to advise the public agency on the need for adjusting rates.

(c) Notwithstanding any provision of this chapter or any other law to the contrary, a district may use the proceeds of bonds issued for the purpose of constructing a waste disposal system or systems, and payable wholly or in part from ad valorem taxes, for the purchase of capacity in, or a right to have the wastes of the district treated in, a waste collection, treatment, or disposal system and facilities owned or to be owned exclusively or in part by another public agency, and a district may issue bonds payable wholly or in part from ad valorem taxes specifically for such purpose if a majority of the resident electors of the district have authorized the governing body of the district to issue bonds for that purpose or for the purpose of constructing a waste disposal system or systems. The bonds shall be issued in accordance with the provisions of, and shall be subject to the same terms and conditions of, the laws authorizing the district to issue bonds for the purpose of constructing waste collection, treatment, and disposal systems, except as otherwise provided in this subsection.

[Amended by Acts 1977, 65th Leg., p. 2207, ch. 870, § 1, eff. Sept. 1, 1977.]

A contract or group of contracts may provide for the district to render services concurrently to more than one person through constructing and operating a disposal system and may provide that the cost of these services be allocated among the persons as provided in the contract or group of contracts.

[Amended by Acts 1977, 65th Leg., p. 2207, ch. 870, § 1, eff. Sept. 1, 1977.]

[Amended by Acts 1977, 65th Leg., p. 2207, ch. 870, § 1, eff. Sept. 1, 1977.]

If a district makes necessary the relocating, raising, rerouting, changing the grade of, or altering the construction of any highway, railroad, electric transmission line, pipeline, or telephone or telegraph properties or facilities in the exercise of powers granted under this chapter, the district shall pay all of the actual cost of the relocating, raising, rerouting, changing in grade, or altering of construction and shall pay all of the actual cost of providing comparable replacement of facilities without enhancement, less the net salvage value of the facilities.

The Red River Compact reads as follows:

"PREAMBLE

"The States of Arkansas, Louisiana, Oklahoma, and Texas, pursuant to the acts of their respective Governors or legislatures, or both, being moved by considerations of interstate comity, have resolved to compact with respect to the water of the Red River and its tributaries. By Act of Congress, Public Law No. 346 (84th Congress, First Session), the consent of the United States has been granted for said states to negotiate and enter into a compact providing for an equitable apportionment of such water; and pursuant to that Act the President has designated the representative of the United States.

"Further, the consent of Congress has been given for two or more states to negotiate and enter into agreements relating to water pollution control by the provisions of the Federal Water Pollution Control Act (P.L. 92–500, 33 U.S.C. Subsection 1251 et seq.).

"The Signatory States acting through their duly authorized Compact Commissioners, after several years of negotiations, have agreed to an equitable apportionment of the water of the Red River and its tributaries and do hereby submit and recommend that this compact be adopted by the respective legislatures and approved by Congress as hereinafter set forth:

"ARTICLE I

"PURPOSES

"§ 1.01. The principal purposes of this Compact are:

"(a) To promote interstate comity and remove causes of controversy between each of the affected states by governing the use, control and distribution of the interstate water of the Red River and its tributaries;

"(b) To provide an equitable apportionment among the Signatory States of the water of the Red River and its tributaries;

"(c) To promote an active program for the control and alleviation of natural deterioration and pollution of the water of the Red River Basin and to provide for enforcement of the laws related thereto;

"(d) To provide the means for an active program for the conservation of water, protection of lives and property from floods, improvement of water quality, development of navigation and regulation of flows in the Red River Basin; and

"(e) To provide a basis for state or joint state planning and action by ascertaining and identifying each state's share in the interstate water of the Red River Basin and the apportionment thereof.

"ARTICLE II

"GENERAL PROVISIONS

"§ 2.01. Each Signatory State may use the water allocated to it by this Compact in any manner deemed beneficial by that state. Each state may freely administer water rights and uses in accordance with the laws of that state, but such uses shall be subject to the availability of water in accordance with the apportionments made by this Compact.

"§ 2.02. The use of water by the United States in connection with any individual Federal project shall be in accordance with the Act of Congress authorizing the project and the water shall be charged to the state or states receiving the benefit therefrom.

"§ 2.03. Any Signatory State using the channel of Red River or its tributaries to convey stored water shall be subject to an appropriate reduction in the amount which may be withdrawn at the point of removal to account for transmission losses.

"§ 2.04. The failure of any state to use any portion of the water allocated to it shall not constitute relinquishment or forfeiture of the right to such use.

"§ 2.05. Each Signatory State shall have the right to:

"(a) Construct conservation storage capacity for the impoundment of water allocated by this Compact;

"(b) Replace within the same area any storage capacity recognized or authorized by this Compact made unusable by any cause, including losses due to sediment storage;

"(c) Construct reservoir storage capacity for the purposes of flood and sediment control as well as storage of water which is either imported or is to be exported if such storage does not adversely affect the delivery of water apportioned to any other Signatory State; and

"(d) Use the bed and banks of the Red River and its tributaries to convey stored water, imported or exported water, and water apportioned according to this Compact.

"§ 2.06. Signatory States may cooperate to obtain construction of facilities of joint benefits to such states.

"§ 2.07. Nothing in this Compact shall be deemed to impair or affect the powers, rights, or obligations of the United States, or those claiming under its authority, in, over and to water of the Red River Basin.

"§ 2.08. Nothing in this Compact shall be construed to include within the water apportioned by this Compact any water consumed in each state by livestock or for domestic purposes; provided, however, the storage of such water is in accordance with the laws of the respective states but any such impoundment shall not exceed 200 acre-feet, or such smaller quantity as may be provided for by the laws of each state.

"§ 2.09. In the event any state shall import water into the Red River Basin from any other river basin, the Signatory State making the importation shall have the use of such imported water.

"§ 2.10. Nothing in this Compact shall be deemed to:

"(a) Interfere with or impair the right or power of any Signatory State to regulate within its boundaries the appropriation, use, and control of water, or quality of water, not inconsistent with its obligations under this Compact;

"(b) Repeal or prevent the enactment of any legislation or the enforcement of any requirement by any Signatory State imposing any additional conditions or restrictions to further lessen or prevent the pollution or natural deterioration of water within its jurisdiction; provided nothing contained in this paragraph shall alter any provision of this Compact dealing with the apportionment of water or the rights thereto; or

"(c) Waive any state's immunity under the Eleventh Amendment of the Constitution of the United States, or as constituting the consent of any state to be sued by its own citizens.

"§ 2.11. Accounting for apportionment purposes on interstate streams shall not be mandatory under the terms of the Compact until one or more affected states deem the accounting necessary.

"§ 2.12. For the purposes of apportionment of the water among the Signatory States, the Red River is hereby divided into the following major subdivisions:

"(a) Reach I—the Red River and tributaries from the New Mexico-Texas State boundary to Denison Dam;

"(b) Reach II—the Red River from Denison Dam to the point where it crosses the Arkansas-Louisiana state boundary and all tributaries which contribute to the flow of the River within this reach;

"(c) Reach III—the tributaries west of the Red River which cross the Texas-Louisiana state boundary, the Arkansas-Louisiana state boundary, and those which cross both the Texas-Arkansas state boundary and the Arkansas-Louisiana state boundary.

"(d) Reach IV—the tributaries east of the Red River in Arkansas which cross the Arkansas-Louisiana state boundary; and

"(e) Reach V—that portion of the Red River and tributaries in Louisiana not included in Reach III or in Reach IV.

"§ 2.13. If any part or application of this Compact shall be declared invalid by a court of competent jurisdiction, all other severable provisions and applications of this Compact shall remain in full force and effect.

"§ 2.14. Subject to the availability of water in accordance with this Compact, nothing in this Compact shall be held or construed to alter, impair, or increase, validate, or prejudice any existing water right or right of water use that is legally recognized on the effective date of this Compact by either statutes or courts of the Signatory State within which it is located.

"ARTICLE III

"(1) The Signatory States shall have equal rights to the use of run-off originating in subbasin 5 and undesignated water flowing into subbasin 5, so long as the flow of the Red River at the Arkansas-Louisiana state boundary is 3,000 cubic feet per second or more, provided no state is entitled to more than 25 percent of the water in excess of 3,000 cubic feet per second.

"(2) Whenever the flow of the Red River at the Arkansas-Louisiana state boundary is less than 3,000 cubic feet per second, but more than 1,000 cubic feet per second, the States of Arkansas, Oklahoma, and Texas shall allow to flow into the Red River for delivery to the State of Louisiana a quantity of water equal to 40 percent of the total weekly runoff originating in subbasin 5 and 40 percent of undesignated water flowing into subbasin 5; provided, however, that this requirement shall not be interpreted to require any state to release stored water.

"(3) Whenever the flow of the Red River at the Arkansas-Louisiana state boundary falls below 1,000 cubic feet per second, the States of Arkansas, Oklahoma, and Texas shall allow a quantity of water equal to all the weekly runoff originating in subbasin 5 and all undesignated water flowing into subbasin 5 within their respective states to flow into the Red River as required to maintain a 1,000 cubic foot per second flow at the Arkansas-Louisiana state boundary.

"(c) Whenever the flow at Index, Arkansas, is less than 526 c.f.s., the states of Oklahoma and Texas shall each allow a quantity of water equal to 40 percent of the total weekly runoff originating in subbasin 5 within their respective states to flow into the Red River; provided however, this provision shall be invoked only at the request of Arkansas, only after Arkansas has ceased all diversions from the Red River itself in Arkansas above Index, and only if the provisions of Sub-sections 5.05(b)(2) and (3) have not caused a limitation of diversions in subbasin 5.

"(d) No state guarantees to maintain a minimum low flow to a downstream state.

"§ 5.06. Special Provisions.

"(a) Reservoirs within the limits of Reach II, subbasin 5, with a conservation storage capacity of 1,000 acre feet or less in existence or authorized on the date of the Compact pursuant to the rights and privileges granted by a Signatory State authorizing such reservoirs, shall be exempt from the provisions of Section 5.05; provided, if any right to store water in, or use water from, an existing exempt reservoir expires or is cancelled after the effective date of the Compact the exemption for such rights provided by this section shall be lost.

"(b) A Signatory State may authorize a change in the purpose or place of use of water from a reservoir exempted by subparagraph (a) of this section without losing that exemption, if the quantity of authorized use and storage is not increased.

"(c) Additionally, exemptions from the provisions of Section 5.05 shall not apply to direct diversions from Red River to off-channel reservoirs or lands.

"ARTICLE VI

"APPORTIONMENT OF WATER—REACH III

"ARKANSAS, LOUISIANA, AND TEXAS

"Subdivision of Reach III and allocation of water therein. Reach III of the Red River is divided into topographic subbasins, and the water therein allocated, as follows:

"§ 6.01. Subbasin 1—Interstate streams—Arkansas and Texas.

"(a) This subbasin includes the Texas portion of those streams crossing the Arkansas-Texas state boundary one or more times and flowing through Arkansas into Cypress Creek-Twelve Mile Bayou watershed in Louisiana.

"(b) Texas is apportioned sixty (60) percent of the runoff of this subbasin and shall have unrestricted use thereof; Arkansas is entitled to forty (40) percent of the runoff of this subbasin.

"§ 6.02. Subbasin 2—Interstate streams—Arkansas and Louisiana.

"(a) This subbasin includes the Arkansas portion of those streams flowing from Subbasin 1 into Arkansas, as well as other streams in Arkansas which cross the Arkansas-Louisiana state boundary one or more times and flow into Cypress Creek-Twelve Mile Bayou watershed in Louisiana.

"(b) Arkansas is apportioned sixty (60) percent of the runoff of this subbasin and shall have unrestricted use thereof; Louisiana is entitled to forty (40) percent of the runoff of this subbasin.

"§ 6.03. Subbasin 3—Interstate streams—Texas and Louisiana.

"(a) This subbasin includes the Texas portion of all tributaries crossing the Texas-Louisiana state boundary one or more times and flowing into Caddo Lake, Cypress Creek-Twelve Mile Bayou or Cross Lake, as well as the Louisiana portion of such tributaries.

"(b) Texas and Louisiana within their respective boundaries shall each have the unrestricted use of the water of this subbasin subject to the following allocation:

"(1) Texas shall have the unrestricted right to all water above Marshall, Lake O' the Pines, and Black Cypress damsites; however, Texas shall not cause runoff to be depleted to a quantity less than that which would have occurred with the full operation of Franklin County, Titus County, Ellison Creek, Johnson Creek, Lake O' the Pines, Marshall, and Black Cypress Reservoirs constructed, and those other impoundments and diversions existing on the effective date of this Compact. Any depletions of runoff in excess of the depletions described above shall be charged against Texas' apportionment of the water in Caddo Reservoir.

"(2) Texas and Louisiana shall each have the unrestricted right to use fifty (50) percent of the conservation storage capacity in the present Caddo Lake for the impoundment of water for state use, subject to the provision that supplies for existing uses of water from Caddo Lake, on date of Compact, are not reduced.

"(3) Texas and Louisiana shall each have the unrestricted right to fifty (50) percent of the conservation storage capacity of any future enlargement of Caddo Lake, provided, the two states may negotiate for the release of each state's share of the storage space on terms mutually agreed upon by the two states after the effective date of this Compact.

"(4) Inflow to Caddo Lake from its drainage area downstream from Marshall, Lake O' the Pines, and Black Cypress damsites and downstream from other last downstream dams in existence on the date of the signing of the Compact document by the Compact Commissioners, will be allowed to continue flowing into Caddo Lake except that any manmade depletions to this inflow by Texas will be subtracted from the Texas share of the water in Caddo Lake.

"(c) In regard to the water of interstate streams which do not contribute to the inflow to Cross Lake or Caddo Lake, Texas shall have the unrestricted right to divert and use this water on the basis of a division of runoff above the state boundary of sixty (60) percent to Texas and forty (40) percent to Louisiana.

"(d) Texas and Louisiana will not construct improvements on the Cross Lake watershed in either state that will affect the yield of Cross Lake; provided, however, this subsection shall be subject to the provisions of Section 2.08.

"§ 6.04. Subbasin 4—Intrastate streams—Louisiana.

"(a) This subbasin includes that area of Louisiana in Reach III not included within any other subbasin.

"(b) Louisiana shall have free and unrestricted use of the water of this subbasin.

"ARTICLE VII

"APPORTIONMENT OF WATER—REACH IV

"ARKANSAS AND LOUISIANA

"Subdivision of Reach IV and allocation of water therein. Reach IV of the Red River is divided into topographic subbasins, and the water therein allocated as follows:

"§ 7.01. Subbasin 1—Intrastate streams—Arkansas.

"(a) This subbasin includes those streams and their tributaries above last downstream major damsites originating in Arkansas and crossing the Arkansas-Louisiana state boundary before flowing into the Red River in Louisiana. Those major last downstream damsites are as follows:

			Location	
Stream	Site	Ac-ft	Latitude	Longitude
Ouachita River	Lake Catherine	19,000	34°26.6'N	93°01.6'W
Caddo River	DeGray Lake	1,377,000	34°13.2'N	93°06.6'W
Little Missouri River	Lake Greeson	600,000	34°08.9'N	93°42.9'W
Alum Fork, Saline River	Lake Winona	63,264	32°47.8'N	92°51.0'W

"(b) Arkansas is apportioned the waters of this subbasin and shall have unrestricted use thereof.

"§ 7.02. Subbasin 2—Interstate Streams—Arkansas and Louisiana.

"(a) This subbasin shall consist of Reach IV less subbasin 1 as defined in Section 7.01(a) above.

"(b) The State of Arkansas shall have free and unrestricted use of the water of this reach subject to the limitation that Arkansas shall allow a quantity of water equal to forty (40) percent of the weekly runoff originating below or flowing from the last downstream major damsite to flow into Louisiana. Where there are no designated last downstream damsites, Arkansas shall allow a quantity of water equal to forty (40) percent of the total weekly runoff originating above the state boundary to flow into Louisiana. Use of water in this subbasin is subject to low flow provisions of subparagraph 7.02(b).

"§ 7.03. Special Provisions.

"(a) Arkansas may use the beds and banks of segments of Reach IV for the purpose of conveying its share of water to designated downstream diversions.

"(b) The State of Arkansas does not guarantee to maintain a minimum low flow for Louisiana in Reach IV. However, on the following streams when the use of water in Arkansas reduces the flow at the Arkansas-Louisiana state boundary to the following amounts:

"(1) Ouachita—780 cfs

"(2) Bayou Bartholomew—80 cfs

"(3) Boeuf River—40 cfs

"(4) Bayou Macon—40 cfs

the state of Arkansas pledges to take affirmative steps to regulate the diversions of runoff originating or flowing into Reach IV in such a manner as to permit an equitable apportionment of the runoff as set out herein to flow into the State of Louisiana. In its control and regulation of the water of Reach IV any adjudication or order rendered by the State of Arkansas or any of its instrumentalities or agencies affecting the terms of this Compact shall not be effective against the State of Louisiana nor any of its citizens or inhabitants until approved by the Commission.

"ARTICLE VIII

"APPORTIONMENT OF WATER—REACH V

"§ 8.01. Reach V of the Red River consists of the mainstem Red River and all of its tributaries lying wholly within the State of Louisiana. The State of Louisiana shall have free and unrestricted use of the water of this subbasin.

"ARTICLE IX

"ADMINISTRATION OF THE COMPACT

"§ 9.01. There is hereby created an interstate administrative agency to be known as the 'Red River Compact Commission,' hereinafter called the 'Commission.' The Commission shall be composed of two representatives from each Signatory State who shall be designated or appointed in accordance with the laws of each state, and one Commissioner representing the United States, who shall be appointed by the President. The Federal Commissioner shall be the Chairman of the Commission but shall not have the right to vote. The failure of the President to appoint a Federal Commissioner will not prevent the operation or effect of this Compact, and the eight representatives from the Signatory States will elect a Chairman for the Commission.

"§ 9.02. The Commission shall meet and organize within 60 days after the effective date of this Compact. Thereafter, meetings shall be held at such times and places as the Commission shall decide.

"§ 9.03. Each of the two Commissioners from each state shall have one vote; provided, however, that if only one representative from a state attends he is authorized to vote on behalf of the absent Commissioner from that state. Representatives from three states shall constitute a quorum. Any action concerned with administration of this Compact or any action requiring compliance with specific terms of this Compact shall require six concurring votes. If a proposed action of the Commission affects existing water rights in a state, and that action is not expressly provided for in this Compact, eight concurring votes shall be required.

"§ 9.04.

"(a) The salaries and personal expenses of each state's representative shall be paid by the government that it represents, and the salaries and personal expenses of the Federal Commissioner will be paid for by the United States.

"(b) The Commission's expenses for any additional stream flow gaging stations shall be equitably apportioned among the states involved in the reach in which the stream flow gaging stations are located.

"(c) All other expenses incurred by the Commission shall be borne equally by the Signatory States and shall be paid by the Commission out of the 'Red River Compact Commission Fund.' Such Fund shall be initiated and maintained by equal payments of each state into the fund. Disbursement shall be made from the fund in such manner as may be authorized by the Commission. Such fund shall not be subject to audit and accounting procedures of the state; however, all receipts and disbursements of the fund by the Commission shall be audited by a qualified independent public accountant at regular intervals, and the report of such audits shall be included in and become a part of the

annual report of the Commission. Each state shall have the right to make its own audit of the accounts of the Commission at any reasonable time.

"ARTICLE X

"POWERS AND DUTIES OF THE COMMISSION

"§ 10.01. The Commission shall have the power to:

"(a) Adopt rules and regulations governing its operation and enforcement of the terms of the Compact;

"(b) Establish and maintain an office for the conduct of its affairs and, if desirable, from time to time, change its location;

"(c) Employ or contract with such engineering, legal, clerical and other personnel as it may determine necessary for the exercise of its functions under this Compact without regard to the Civil Service Laws of any Signatory State; provided that such employees shall be paid by and be responsible to the Commission and shall not be considered employees of any Signatory State.

"(d) Acquire, use and dispose of such real and personal property as it may consider necessary;

"(e) Enter into contracts with appropriate State or Federal agencies for the collection, correlation and presentation of factual data, for the maintenance of records and for the preparation of reports;

"(f) Secure from the head of any department or agency of the Federal or State government such information as it may need or deem to be useful for carrying out its functions and as may be available to or procurable by the department or agency to which the request is addressed; provided such information is not privileged and the department or agency is not precluded by law from releasing same;

"(g) Make findings, recommendations or reports in connection with carrying out the purposes of this Compact, including, but not limited to, a finding that a Signatory State is or is not in violation of any of the provisions of this Compact. The Commission is authorized to make such investigations and studies, and to hold such hearings as it may deem necessary for said purposes. It is authorized to make and file official certified copies of any of its findings, recommendations or reports with such officers or agencies of any Signatory State, or the United States, as may have any interest in or jurisdiction over the subject matter. The making of findings, recommendations, or reports by the Commission shall not be a condition precedent to the instituting or maintaining of any action or proceeding of any kind by a Signatory State in any court or tribunal, or before any agency or officer, for the protection of any right under this Compact or for the enforcement of any of its provisions; and

"(h) Print or otherwise reproduce and distribute its proceedings and reports.

"§ 10.02. The Commission shall:

"(a) Cause to be established, maintained, and operated such stream, reservoir and other gaging stations as are necessary for the proper administration of the Compact;

"(b) Cause to be collected, analyzed and reported such information on stream flows, water quality, water storage and such other data as are necessary for the proper administration of the Compact;

"(c) Perform all other functions required of it by the Compact and do all things necessary, proper and convenient in the performance of its duties thereunder;

"(d) Prepare and submit to the governor of each of the Signatory States a budget covering the anticipated expenses of the Commission for the following fiscal biennium;

"(e) Prepare and submit an annual report to the governor of each Signatory State and to the President of the United States covering the activities of the Commission for the preceding fiscal year, together with an accounting of all funds received and expended by it in the conduct of its work;

"(f) Make available to the governor or to any official agency of a Signatory State or to any authorized representative of the United States, upon request, any information within its possession;

"(g) Not incur any obligation in excess of the unencumbered balance of its funds, nor pledge the credit of any of the Signatory States; and

"(h) Make available to a Signatory State or the United States in any action arising under this Compact, without subpoena, the testimony of any officer or employee of the Commission having knowledge of any relevant facts.

"ARTICLE XI

"POLLUTION

"§ 11.01. The Signatory States recognize that the increase in population and the growth of industrial, agricultural, mining and other activities combined with natural pollution sources may lead to a diminution of the quality of water in the Red River Basin which may render the water harmful or injurious to the health and welfare of the people and

impair the usefulness or public enjoyment of the water for beneficial purposes, thereby resulting in adverse social, economic, and environmental impacts.

"§ 11.02. Although affirming the primary duty and responsibility of each Signatory State to take appropriate action under its own laws to prevent, diminish, and regulate all pollution sources within its boundaries which adversely affect the water of the Red River Basin, the states recognize that the control and abatement of the naturally-occurring salinity sources as well as, under certain circumstances, the maintenance and enhancement of the quality of water in the Red River Basin may require the cooperative action of all states.

"§ 11.03. The Signatory States agree to cooperate with agencies of the United States to devise and effectuate means of alleviating the natural deterioration of the water of the Red River Basin.

"§ 11.04. The Commission shall have the power to cooperate with the United States, the Signatory States and other entities in programs for abating and controlling pollution and natural deterioration of the water of the Red River Basin, and to recommend reasonable water quality objectives to the states.

"§ 11.05. Each Signatory State agrees to maintain current records of waste discharges into the Red River Basin and the type and quality of such discharges, which records shall be furnished to the Commission upon request.

"§ 11.06. Upon receipt of a complaint from the governor of a Signatory State that the interstate water of the Red River Basin in which it has an interest are being materially and adversely affected by pollution and that the state in which the pollution originates has failed after reasonable notice to take appropriate abatement measures, the Commission shall make such findings as are appropriate and thereafter provide such findings to the governor of the state in which such pollution originates and request appropriate corrective action. The Commission, however, shall not take any action with respect to pollution which adversely affects only the state in which such pollution originates.

"§ 11.07. In addition to its other powers set forth under this Article, the Commission shall have the authority, upon receipt of six concurring votes, to utilize applicable Federal statutes to institute legal action in its own name against the person or entity responsible for interstate pollution problems; provided, however, sixty (60) days before initiating legal action the Commission shall notify the Governor of the state in which the pollution source is located to allow that state an opportunity to initiate action in its own name.

"§ 11.08. Without prejudice to any other remedy available to the Commission, or any Signatory State, any state which is materially and adversely affected by the pollution of the water of the Red River Basin by pollution originating in another Signatory State may institute a suit against any individual, corporation, partnership, or association, or against any Signatory State or political or governmental subdivision thereof, or against any officer, agency, department, bureau, district or instrumentality of or in any Signatory State contributing to such pollution in accordance with applicable Federal statutes. Nothing herein shall be construed as depriving any persons of any rights of action relating to pollution which such person would have if this Compact had not been made.

"ARTICLE XII

"TERMINATION AND AMENDMENT OF COMPACT

"§ 12.01. This Compact may be terminated at any time by appropriate action of the legislatures of all of the four Signatory States. In the event of such termination, all rights established under it shall continue unimpaired.

"§ 12.02. This Compact may be amended at any time by appropriate action of the legislatures of all Signatory States that are affected by such amendment. The consent of the United States Congress must be obtained before any such amendment is effective.

"ARTICLE XIII

"RATIFICATION AND EFFECTIVE DATE OF COMPACT

"§ 13.01. Notice of ratification of this Compact by the legislature of each Signatory State shall be given by the governor thereof to the governors of each of the other Signatory States and to the President of the United States. The President is hereby requested to give notice to the governors of each of the Signatory States of the consent to this Compact by the Congress of the United States.

"§ 13.02. This Compact shall become effective, binding and obligatory when, and only when:

"(a) It has been duly ratified by each of the Signatory States; and

"(b) It has been consented to by an Act of the Congress of the United States, which Act provides that:

"Any other statute of the United States to the contrary notwithstanding, in any case or controversy:

"which involves the construction or application of this Compact;

"in which one or more of the Signatory States to this Compact is a plaintiff or plaintiffs; and

"which is within the judicial power of the United States as set forth in the Constitution of the United States;

"and without any requirement, limitation or regard as to the sum or value of the matter in controversy, or of the place of residence or citizenship of, or of the nature, character or legal status of, any of the other proper parties plaintiff or defendant in such case or controversy:

"The consent of Congress is given to name and join the United States as a party defendant or otherwise in any such case or controversy in the Supreme Court of the United States if the United States is an indispensable party thereto.

"§ 13.03. The United States District Courts shall have original jurisdiction (concurrent with that of the Supreme Court of the United States, and concurrent with that of any other Federal or state court, in matters in which the Supreme Court, or other court has original jurisdiction) of any case or controversy involving the application or construction of this Compact; that said jurisdiction shall include, but not be limited to, suits between Signatory States; and that the venue of such case or controversy may be brought in any judicial district in which the acts complained of (or any portion thereof) occur.

§ 47.011. Text of Compact

The Caddo Lake Compact reads as follows:

"CADDO LAKE COMPACT

PREAMBLE

The States of Louisiana and Texas, by acts of their respective governors, and based upon previous acts of their legislatures, have appointed representatives, including their respective Red River Compact Commissioners, to negotiate, in the interest of interstate comity and equitable apportionment and use of water, a Compact on Caddo Lake to augment and amplify the provisions of the Red River Compact dealing with Caddo Lake.

The Act of Congress, Public Law No. 346 (84th Congress, First Session), grants consent of federal government to the negotiation of this Compact; pursuant to that act, the President has designated the representative of the United States.

Because the water and water rights of the States of Oklahoma and Arkansas under the Red River Compact are completely unaffected by this Compact, Oklahoma and Arkansas have no objection to this Compact and did not participate in the negotiation of this Compact.

In order to resolve current controversies regarding the use of Caddo Lake water, controversies not adequately dealt with in the Red River Compact, the States of Texas and Louisiana, acting through their authorized representatives, have agreed to an equitable apportionment and use of the water of Caddo Lake and do hereby submit this Compact to amplify the Red River Compact and recommend that it be adopted by their respective legislatures and approved by Congress as hereinafter set forth:

Sec. 1. **Purposes**

In addition to the purposes specified in the Red River Compact, this compact is intended to preserve and protect Caddo Lake as a valuable environmental, cultural and natural resource and enhance water resource and recreational potentials, while allowing its utilization for water needs of adjacent portions of Louisiana and Texas. A primary means of accomplishing these purposes is to raise the spillway elevation of Caddo Lake to an elevation of 170.5 feet above mean sea level.

Nothing in this Compact shall be deemed to impair or affect the powers, rights, or obligations of the United States or those claiming under its authority in, over, and to water of Caddo Lake; nor shall this Compact be construed as interfering with the application of the National Environmental Policy Act of 1969.[1]

[1] 42 U.S.C.A. § 4321 et seq.

Sec. 2. **Relation to the Red River Compact**

(a) This compact augments and amplifies the Red River Compact. It shall be construed harmoniously with the Red River Compact; it is not intended to amend, replace, or supersede any provisions of the Red River Compact, nor are any of the provisions of the Red River Compact intended to prevent the effective implementation of this Compact.

(b) In the event the Red River Compact is not enacted by all concerned states and ratified by Congress, or in the event that such action occurs after the effective date of this Compact, this Compact shall be fully effective pursuant to the provisions of Section 9.

Sec. 3. **Dedication**

The States of Louisiana and Texas hereby dedicate the water of Caddo Lake below 167.5 feet above mean sea level to serve as a recreation and navigation pool. Neither Louisiana nor Texas shall allow the diversion or consumptive use of the water of Caddo Lake below that level except as authorized in this Compact.

Sec. 4. **Diversion of Dedicated Water**

(a) In order to divert water when the level of Caddo Lake is below 167.5 feet above mean sea level, any water user diverting more than 1,000 gallons per day from Caddo Lake must submit water use plans to the Caddo Lake Commission providing for conservation and efficient use of water.

(b) The Caddo Lake Commission shall authorize users with approved water use plans to divert water from Caddo Lake when the lake level is below 167.5 feet above mean sea level, at times and under conditions authorized by the Caddo Lake Commission. The Caddo Lake Commission shall give priority to domestic users, municipalities or municipal use by political subdivisions and industries, in that order.

(c) In the event any user of water from Caddo Lake shall purchase water which is delivered into Caddo Lake from another source, that user making the purchase shall have the use of such purchased water, minus transportation or storage losses if any, as determined by the Commission, free from the regulation of the Caddo Lake Commission.

Sec. 5. **Operating Rules**

As provided in Section 7, the Caddo Lake Commission shall have the power to establish operating criteria to govern the diversion and use of water from Caddo Lake. Unless modified, supplemented or changed by the Caddo Lake Commission, the following rules shall govern the diversion and use of water from Caddo Lake.

(a) The following operating rules shall be in effect until Caddo Lake is enlarged by raising the spillway level as provided in Section 8.

(1) Whenever water is spilling over the existing spillway at 168.5 feet above mean sea level, each state may withdraw or divert water from Caddo Lake without restriction.

(2) Whenever Caddo Lake is not spilling over the existing spillway at 168.5 feet above mean sea level, the total consumptive use by each state shall not exceed 8,400 acre-feet during the drawdown period; provided that neither state shall divert more than 3,600 acre-feet during any one month or 4,800 acre-feet during any two consecutive months.

(3) In addition to the requirements of Section 5(a)(2), when the lake level of Caddo Lake is at or below 167.5 feet above mean sea level,

(a) Any diversion by either state must be approved by the Caddo Lake Commission, as provided in Section 4; and,

(b) The total consumptive use by each state shall not exceed an average of 1,000 acre-feet per month, or more than 3,000 acre-feet during any two consecutive months; however,

(c) The limitations above shall not apply to a municipality or political subdivision during an emergency caused by the destruction or contamination of the municipality's or political subdivision's other water source.

(b) The following operating rules shall be in effect after Caddo Lake is enlarged by raising the spillway level as provided in Section 8.

(1) Whenever water is spilling over the raised spillway level, each state may withdraw or divert water from Caddo Lake without restriction.

(2) Whenever Caddo Lake is not spilling over the raised spillway, and the lake surface elevation is above 167.5 feet above mean sea level,

(a) If each state obtains 50% of the water above 168.5 feet above mean sea level, as authorized in Section 8, each state shall be entitled to divert 16,800 acre-feet during a drawdown period.

(b) If each state does not obtain 50% of the water above 168.5 feet above mean sea level, as authorized in Section 8, the total consumptive use by that state shall not be reduced below the amount of water to which it was entitled under Section 5(a).

(3) Whenever Caddo Lake is at or below 167.5 feet above mean sea level, no diversions from Caddo Lake may be made except in the case of a catastrophic event (such as destruction of a municipality or political subdivision's other water supply source or a drawdown which is more severe than

the critical drawdown of record). Any emergency withdrawal or diversion must be specifically authorized by the Caddo Lake Commission, as provided in Section 4.

(c) The term 'drawdown' as used herein means that period commencing on the first day water ceases spilling over the existing spillway (or the raised spillway, if Caddo Lake is enlarged as authorized in Section 8) and continuing so long as the Caddo Lake surface elevation continues to fall, until the day when appreciable inflow reaches Caddo Lake, causing the Caddo Lake surface elevation to rise leading to a spill from Caddo Lake.

Sec. 6. **Administration**

(a) There is hereby created an interstate administrative agency to be known as the 'Caddo Lake Commission,' also referred to herein as the 'Commission.' It shall be composed of the Commissioners of Louisiana and Texas who serve as Red River Compact Commissioners and an appointed commissioner from each state who resides within one of the parishes or counties in which Caddo Lake is located. The Commissioners shall choose one member of the Commission to serve as a voting chairman. In the event this Compact becomes effective prior to, or without, the Red River Compact, the Governors of Texas and Louisiana shall each appoint three Commissioners to serve as Caddo Lake Commissioners. These Commissioners, or their successors, shall serve until the Red River Compact becomes effective and the offices of the nonlocal commissioners are assumed by the states' Red River Compact Commissioners.

(b) The Commission shall meet and organize within sixty (60) days after the effective date of this Compact. Thereafter, meetings shall be held at such times and places as the Commission shall decide.

(c) Each Commissioner shall have one vote; however, if one or more commissioners from a state is absent, the Commissioner(s) in attendance from that state is authorized to vote on behalf of the absent Commissioner(s) from that state. Any action concerning the administration of this Compact shall require four votes.

(d) The salaries and personal expenses of each state's Commissioners shall be paid by that state.

(e) All expenses incurred by the Commission shall be borne equally by the States of Louisiana and Texas and shall be paid by the Commission out of the 'Caddo Lake Commission Fund'. Such fund shall be initiated and maintained by equal payments of each state into the fund. Disbursements shall be made from the fund in such a manner as may be authorized by the Commission. Such fund shall not be subject to audit and accounting procedures of either state; however, all receipts and disbursements of the fund by the Commission shall be audited by a qualified independent public accountant at regular intervals, and the report of such audits shall be included in and become part of the annual report of the Commission. Each state shall have the right to make its own audit of the accounts of the Commission at any reasonable time.

Sec. 7. **Duties and Powers**

(a) The Commission shall have the power to:

(1) Adopt rules and regulations governing its operation and enforcement of the terms of the Compact;

(2) Establish and maintain an office for the conduct of its affairs and, if desirable, from time to time, change its location;

(3) Employ or contract with such engineering, legal, clerical and other personnel as it may determine necessary for the exercise of its functions under this Compact without regard to the Civil Service Laws of Louisiana or Texas; provided that such employees shall be paid by and be responsible to the Commission and shall not be considered employees of any state;

(4) Acquire, use and dispose of such real and personal property as it may consider necessary;

(5) Enter into contracts with appropriate state or federal agencies for the collection, correlation and presentation of factual data, for the maintenance of records and for the preparation of reports;

(6) Secure from the head of any department or agency of the federal or state government such information as it may need or deem to be useful for carrying out its functions and as may be available to or procurable by the department or agency to which the request is addressed; provided such information is not privileged and the department or agency is not precluded by law from releasing same;

(7) Make findings, recommendations or reports in connection with carrying out the purposes of this Compact, including, but not limited to, a finding that Louisiana or Texas is or is not in violation of any of the provisions of this Compact. The Commission is authorized to make such investigations and studies, and to hold such hearings as it may deem necessary for said purposes. It is authorized to make and file official certified copies of any of its findings, recommendations or reports with such officers or agencies of Louisiana or Texas or the United States, as may have any interest in or jurisdiction over the subject matter. The making of findings, recommendations, or reports by the Commission shall not be a condition precedent to the instituting or maintaining of any action or proceeding of any kind by Louisiana or

Texas, in any court or tribunal, or before any agency or officer, for the protection of any right under this Compact or for the enforcement of any of its provisions; and

(8) Print or otherwise reproduce and distribute its proceedings and reports.

(b) The Commission shall:

(1) Cause to be established, maintained, and operated such stream, reservoir and other gaging stations as are necessary for the proper administration of the Compact;

(2) Cause to be collected, analyzed and reported such information on stream flows, water quality, water storage and such other data as are necessary for the proper administration of the Compact;

(3) Adopt reasonable standards and criteria for the approval of water use plans required by Section 4, and procedures for the submission thereof;

(4) Establish operating criteria to govern the diversion and use of water from Caddo Lake;

(5) Perform all other functions required of it by the Compact and do all things necessary, proper and convenient in the performance of its duties thereunder;

(6) Prepare and submit to the Governors of Louisiana and Texas a budget covering the anticipated expenses of the Commission for the following fiscal year or biennium;

(7) Prepare and submit an annual report to the Governors of Louisiana and Texas and to the President of the United States covering the activities of the Commission for the preceding fiscal year, together with an accounting of all funds received and expended by it in the conduct of its work;

(8) Make available to the governor or to any official agency of Louisiana or Texas or to any authorized representative of the United States, upon request, any information within its possession;

(9) Not incur any obligation in excess of the unencumbered balance of its funds, nor pledge the credit of Louisiana or Texas; and

(10) Make available to Louisiana or Texas or the United States in any action arising under this Compact, without subpoena, the testimony of any officer or employee of the Commission having knowledge of any relevant facts.

Sec. 8. **Enlargement of Caddo Lake**

(a) It is the intention of Louisiana and Texas to enlarge Caddo Lake by raising the spillway level two feet. Each state has the guaranteed right to obtain 50% of the water above 168.5 feet above mean sea level made available from such an enlargement, subject to paying one-half of the total costs. Total costs of enlargement are equal to the sum of the cost of spillway construction, the cost of land and flowage easements in Texas, the current market value of land and flowage easements in Louisiana, as well as the administrative expenses incurred for each of the above listed items.

(b) Each state may obtain a proportionately larger share of the water resulting from the enlargement by paying the portion of the cost which would otherwise be paid by the other state under Section 8(a).

(c) Should Louisiana, or one of its political subdivisions, unilaterally raise the Caddo Lake spillway level without obtaining flowage easements in Texas, Louisiana would have the right to all water made available by the enlargement; provided, however, this provision constitutes an express waiver of any sovereign immunity or Eleventh Amendment defenses which might otherwise be available to the State of Louisiana in an action for damages by a Caddo Lake property owner in Texas for damage resulting from such action.

(d) This section does not prevent the enlargement of Caddo Lake by raising the spillway level some amount less than two feet, nor does it prevent a subsequent enlargement of Caddo Lake which might ultimately raise the level of Caddo Lake's spillway more than two feet.

Sec. 9. **Ratification and Effective Date of Compact**

(a) Notice of ratification of this Compact by the Legislatures of Louisiana and Texas shall be given by the Governor thereof to the Governor of the other state and to the President of the United States. The President is hereby requested to give notice to the Governors of Texas and Louisiana of the consent to this Compact by the Congress of the United States.

(b) This Compact shall become effective, binding and obligatory when, and only when:

(1) It has been duly ratified by Louisiana and Texas;

(2) The Red River Compact has been duly ratified by the State of Texas; and

(3) It has been consented to by an Act of the Congress of the United States, which Act provides that:

Any other statute of the United States to the contrary notwithstanding, in any case or controversy:

which involves the construction or application of this Compact; in which Louisiana or Texas is a plaintiff; and

which is within the judicial power of the United States as set forth in the Constitution of the United States;

and without any requirement, limitation or regard as to the sum or value of the matter in controversy, or of the place of residence or citizenship of, or of the nature, character or legal status of, any of the other proper parties plaintiff or defendant in such case or controversy:

The consent of Congress is given to name and join the United States as a party defendant or otherwise in any such case or controversy in the Supreme Court of the United States if the United States is an indispensable party thereto.

(c) The United States District Courts shall have original jurisdiction (concurrent with that of the Supreme Court of the United States, and concurrent with that of any other federal or state court, in matters in which the Supreme Court, or other court has original jurisdiction) of any case or controversy involving the application or construction of this Compact; that said jurisdiction shall include, but not be limited to, suits between Louisiana and Texas; and that the venue of such case or controversy may be brought in any judicial district in which the acts complained of (or any portion thereof) occur.

SUBCHAPTER C. POWERS AND DUTIES

§ 50.055. Fire Departments

(a) A district may establish, operate, and maintain a fire department to perform all fire-fighting activities within the district as provided in this section and may issue, with voter approval, bonds for financing the establishment of the fire department including the construction and purchase of necessary buildings, facilities, and equipment and the provision of an adequate water supply.

(b) After approval of the district electors of a plan to operate or jointly operate a fire department, the district or districts shall provide an adequate system and water supply for fire-fighting purposes and may construct and purchase necessary buildings, facilities, and equipment and may employ all necessary personnel including supervisory personnel to operate the fire department.

(c) Bonds issued for establishment of the fire department shall be authorized and issued as provided by law for authorization and issuance of other bonds of the district.

(d) Two or more districts may contract to operate a joint fire department for their districts and shall include in the contract a system for joint administration and operation of the fire department, the extent of services to be provided, a method for funding the department from funds of each district, and any other terms and conditions the parties consider necessary.

(e) A district may contract with any other person to perform fire-fighting services within the district.

(f) Before a district establishes a fire department, contracts to operate a joint fire department, or contracts with another person to perform fire-fighting services within the district, the district must comply with the provisions of Subsections (g), (h), and (i) of this section.

(g) A district or districts proposing to act jointly shall develop a detailed plan for the establishment, operation, and maintenance of the proposed department, including a detailed presentation of all financial requirements. If a district is entering into a contract under Subsection (e) of this section, the district shall develop a plan that describes in detail the facilities and equipment to be devoted to service to the district and all proposals for providing the service and that includes a presentation of the financial requirements under the contract. Before adoption of a plan and any contract by the district, the governing board of the district shall hold a hearing at which any person residing in the district may present testimony for and against the proposed plan and any proposed contract. Notice of the hearing and the place at which the plan and any contract may be examined shall be posted in two public places within the district at least 10 days before the date of the hearing.

(h) After adoption of the plan and any contract by the governing board, the plan and financial presentation, together with any contract and a written report in a form prescribed by the executive director describing existing fire departments and fire-fighting services available within 25 miles of the boundaries of the district, shall be submitted to the executive director for consideration by the commission under rules adopted by the board. Before approval or disapproval, the commission shall hold a hearing. Notice of the hearing before the commission shall be posted by the governing board of the district in at least two public places in the district at least five days before the hearing. Before the commission approves the application, it must find that it is economically feasible for the district to implement the plan and meet the provisions of any contract and shall take into consideration in giving its approval the general financial condition of the district and the economic feasibility of the district carrying out the plan or meeting the obligations of the contract.

(i) After approval by the commission, the district shall submit to the electors of the district at the election to approve bonds for financing the plan, or if no bonds are to be approved, at an election called for approval of the plan, the proposition of whether or not the plan should be implemented or entered into by the district. The ballots at the election shall be printed, as applicable, to provide for voting for or against the proposition: "The implementation of the plan for (operation/joint operation) of a fire department"; or "The plan and contract to provide fire-fighting services for the district."

(j) No funds of the district may be used to establish a fire department, to enter into joint operation of a fire department, or to contract for fire-fighting services without the approval of a plan by the electors as provided in this section. However, the district may use available funds for preparation of a plan and any contract.

[See Compact Edition, Volume 1 for text of (a)]

(b) If the governing body of a city fails or refuses to grant permission for the inclusion of land within its extraterritorial jurisdiction in a district within 120 days after receipt of a written request, a majority of the electors in the area proposed to be included in the district or the owner or owners of 50 percent or more of the land to be included may petition the governing body of the city and request the city to make available to the land the water or sanitary sewer service contemplated to be provided by the district.

[See Compact Edition, Volume 1 for text of (c) to (e)]

(f) A city may provide in its written consent for the inclusion of land in a district that a contract ("allocation agreement") between the district and the city be entered into prior to the first issue of bonds, notes, warrants, or other obligations of the district. The allocation agreement shall contain the following provisions:

(1) a method by which the district shall continue to exist following the annexation of all territory within the district by the city, if the

district is initially located outside the corporate limits of the city;

(2) an allocation of the taxes or revenues of the district or the city which will assure that, following the date of the inclusion of all the district's territory within the corporate limits of the city, the total annual ad valorem taxes collected by the city and the district from taxable property within the district does not exceed an amount greater than the city's ad valorem tax upon such property;

(3) an allocation of governmental services to be provided by the city or the district following the date of the inclusion of all of the district's territory within the corporate limits of the city;

(4) such other terms and conditions as may be deemed appropriate by the city.

(g) In addition to all the rights and remedies provided by the laws of the state in the event a district violates the terms and provisions of a city's written consent, the city shall be entitled to injunctive relief or a writ of mandamus issued by a court of competent jurisdiction restraining, compelling or requiring the district and its officials to observe and comply with the terms and provisions prescribed in the city's written consent to the inclusion of land within the district.

(h) A city with a population of 1 million or less may provide in its written consent for the inclusion of land in a district that after annexation the city may set rates for water and/or sewer services for property that was within the territorial boundary of such district at the time of annexation, which rates may vary from those for other properties within the city for the purpose of wholly or partially compensating the city for the assumption of obligation under this code providing that:

(1) such written consent contains a contract entered into by the city and the persons petitioning for creation of the district setting forth the time and/or the conditions of annexation by the city which annexation shall not occur prior to the installation of 90 percent of the facilities for which district bonds were authorized in the written consent; and that

(2) the contract sets forth the basis on which rates are to be charged for water and/or sewer services following annexation and the length of time they may vary from those rates charged elsewhere in the city; and that

(3) the contract may set forth the time, conditions, or lands to be annexed by the district; and that

(4)(A) Each purchaser of land within a district which has entered into a contract with a city concerning water and/or sewer rates as set forth herein shall be furnished by the seller at or prior to the final closing of the sale and purchase with a separate written notice, executed and acknowledged by the seller, which shall contain the following information:

(i) the basis on which the monthly water and/or sewer rate is to be charged under the contract stated as a percentage of the water and/or sewer rates of the city;

(ii) the length of time such rates will be in effect;

(iii) the time and/or conditions of annexation by the city implementing such rates.

The provisions of Sections 50.301(d) through Section 50.301(n), as amended, and Section 50.301(p), Water Code, are herein incorporated by reference thereto, and are applicable to the separate written notice required by Section 54.016(h)(4).

A suit for damages under the provisions of these referenced sections must be brought within 90 days after the purchaser receives his or her first water and/or sewer service charge following annexation, or the purchaser loses his or her right to seek damages under this referenced section.

(B) The governing board of any district covered by the provisions of this subsection shall file with the county clerk in each of the counties in which all or part of the district is located a duly affirmed and acknowledged statement which includes the information required in Section 54.016(h)(4)(A) and a complete and accurate map or plat showing the boundaries of the district.

"Sec. 3. Notwithstanding any contrary provision of the law, a district which is a party to an allocation agreement, in accordance with Section 54.016(f), Water Code, as amended, shall continue to exist and perform those services provided by said contract after annexation of all of the territory within the district by the city which has entered into the contract. The district shall be abolished and the city shall succeed to all the remaining properties, powers, duties, assets, debts, liabilities, and obligations of the district on the date specified in the contract."

"Sec. 5. The provisions of this Act are severable. If any word, phrase, clause, paragraph, sentence, section, part, or provision of this Act or the application thereof to any person or circumstance shall be held to be invalid or unconstitutional, the remainder of this Act shall nevertheless be valid; and the legislature hereby declares that the Act would have been enacted without such invalid or unconstitutional word, phrase, clause, paragraph, sentence, section, part, or provision.

"Sec. 6. All laws in conflict with the provisions of this Act are hereby expressly repealed to the extent of such conflict."

§ 54.0161. Review of Creation by County

(a) If all or part of a proposed district is to be located outside the extraterritorial jurisdiction of a city, the commissioners court of the county in which

the district is to be located may review the petition for creation and other evidence and information relating to the proposed district that the commissioners consider necessary. Petitioners for the creation of a district shall submit to the county commissioners court any relevant information requested by the commissioners court in the event a review is done.

(b) In the event of a review, the commissioners court shall submit to the commission, at least 10 days before the date set for the hearing on the petition, a written opinion stating whether or not the county would recommend the creation of the proposed district and stating any findings, conclusions, and other information that the commissioners think would assist the commission in making a final determination on the petition.

(a) After the hearing of the petition if it is found that the petition conforms to the requirements of Section 54.015 of this code and that the project is feasible and practicable and is necessary and would be a benefit to the land to be included in the district, the commission shall so find by its order and grant the petition.

(b) In determining if the project is feasible and practicable and if it is necessary and would be a benefit to the land included in the district, the commission shall consider:

(1) the availability of comparable service from other systems, including but not limited to water districts, municipalities, and regional authorities;

(2) the reasonableness of projected construction costs, tax rates, and water and sewer rates; and

(3) whether or not the district and its system and subsequent development within the district will have an unreasonable effect on the following:

(A) land elevation;

(B) subsidence;

(C) groundwater level within the region;

(D) recharge capability of a groundwater source;

(E) natural run-off rates and drainage;

(F) water quality; and

(G) total tax assessments on all land located within a district.

(c) If the commission finds that not all of the land proposed to be included in the district will be benefited by the creation of the district, the commission shall so find and exclude all land which is not benefited from the proposed district and shall redefine the proposed district's boundaries accordingly.

(d) If the commission finds that the petition does not conform to the requirements of Section 54.015 of this code or that the project is not feasible, practicable, necessary, or a benefit to the land in the district, the commission shall so find by its order and deny the petition.

(e) A copy of the order of the commission granting or denying a petition shall be mailed to each city having extraterritorial jurisdiction in the county or counties in which the district is located who requested notice of hearings as provided in Section 54.019 of this code.

(b) The board of the contributing political subdivision may contract for contributions and contribute from an unappropriated or available fund without submitting the contract and contributions to a vote of the electors of the contributor. (a) All money due the lessor under the lease shall be payable solely from the revenue derived by the district from the sale of water supplied through the leased system.

The board may agree to deposit this money in a separate fund as a first charge on the gross revenue received each year from sales of water, and which shall not be used for any other purpose.

(c) The board may agree in the lease to pay all expenses of operating and maintaining the leased properties from the fund provided by the board each year for the maintenance and operation expenses of the district so that the gross revenue from sale of water will be available exclusively for payment of rentals until the amount required for rentals each year is paid into the separate rental fund.

(d) If the board includes this agreement in the lease, the board shall provide for the payment of sums into the maintenance fund from sources other than the remaining portions of the gross revenue from the sale of water not required to pay rentals which are sufficient each year to pay all expenses of operating the district and maintaining and operating its properties and facilities, including the leased properties.

A district may acquire by gift, grant, or purchase any part of an irrigation system serving the district which is subject to a mortgage or encumbrance. The mortgage or encumbrances shall not be assumed by the district and shall not be an indebtedness of the district but shall constitute solely a charge on the encumbered property and the revenue from it.

[Added by Acts 1977, 65th Leg., p. 1537, ch. 627, § 1, eff. Aug. 29, 1977.]

(b) The board may contract to use and pledge its revenue derived solely from the sale of water and services supplied through the acquired properties for the payment of a purchase money lien.

(c) The board also may use revenue from taxation or from the issuance and sale of bonds to pay all or part of the amount due under the encumbrance if a majority of the electors of the district voting at an election on this proposition approve its use.

If any district operating under this chapter requires the relocation, raising, lowering, rerouting, or change in grade or alteration in the construction of any railroad, electric transmission, telegraph or telephone lines, conduits, poles, properties, or facilities, or pipelines in the exercise of the power of eminent domain or police power, or any other power, all of the relocation, raising, lowering, rerouting or changes in grade or alteration of construction shall be the sole expense of the district. The term "sole expense" means the actual cost of relocation, raising, lowering, rerouting, or change in grade or alteration of construction to provide comparable replacement without enhancement of facilities, after deducting the net salvage value derived from the old facility. This section does not apply to projects under construction or financed or for which bonds were voted and approved by another type of district on or prior to August 27, 1961, and which such district has subsequently elected to convert into a district operating under this chapter, unless the acts of the district authorizing the construction or financing are contained in the provisions of this section.

§ 58.480. Alternate Methods for Paying Bonds

(a) As used in this section and in Sections 58.481–58.484 of this code, "net revenue" means income or increment which may come from ownership and operation of the improvements which are encumbered less the proportion of the district's revenue income reasonably required to provide for administration, efficient operation, and adequate maintenance of the district's services and facilities which are encumbered. Net revenue does not include money derived from taxation.

(b) A district which expects net revenue from operations may secure its bonds in any one of the following:

(1) as provided in Section 58.463 of this code;

(2) by entering into a contract to pledge the net revenue of the district and to mortgage and encumber part or all of the property and facilities, franchise, revenue, and income from operations, and everything acquired or to be acquired by the district; or

(3) as provided in both Subdivisions (1) and (2) of this subsection.

[Added by Acts 1977, 65th Leg., p. 1537, ch. 627, § 1, eff. Aug. 29, 1977.]

§ 58.481. Taxes to Secure Certain Bonds

(a) If bonds are secured as provided in Section 58.480(b)(3) of this code, at the time that net revenue together with money derived from taxes accumulates a surplus in the sinking fund equal to the amount required in the succeeding year to liquidate the interest and principal on the district's bonds maturing in that year, the district's annual tax levies may be lowered to produce not less than 25 percent of the bond maturities for the succeeding year.

(b) If three successive years demonstrate that this net revenue is adequate to protect the district's bonds as they mature, the district's tax may be discontinued until further experience demonstrates

the necessity to continue the tax to avoid default in the payment of the district's bonds as they mature.
[Added by Acts 1977, 65th Leg., p. 1537, ch. 627, § 1, eff. Aug. 29, 1977.]

§ 58.482. Election

(a) If the district proposes to issue bonds which will be secured under either Section 58.480(b)(2) or 58.480(b)(3) of this code, the proposition shall be presented at an election held under Section 58.443 of this code.

(b) The ballots for the election shall be printed to provide for voting for or against one of the following propositions:

(1) "The issuance of bonds and the pledge of net revenue for the payment of the bonds.";

(2) "The issuance of bonds, the pledge of net revenue, and the creation of a lien on physical property to secure payment of the bonds."; or

(3) "The issuance of bonds, the pledge of net revenue, and the levy of adequate taxes to pay the bonds."

[Added by Acts 1977, 65th Leg., p. 1537, ch. 627, § 1, eff. Aug. 29, 1977.]

§ 58.483. Hearing and Election on Certain Bonds

(a) A district which plans to issue bonds payable from and secured by a pledge of net revenue and a lien on the physical property, either or both, without the levy of taxes, is not required to hold a hearing to exclude land or adopt a plan of taxation.

(b) The proposition for issuance of bonds may be submitted at the election held to confirm the creation of the district or at an election called by the board.

[Added by Acts 1977, 65th Leg., p. 1537, ch. 627, § 1, eff. Aug. 29, 1977.]

§ 58.484. Hearing Before Issuing Certain Bonds

If a district issues its original bonds under Section 58.480(b)(2) of this code and later desires to issue bonds payable in whole or in part from taxes or to levy a tax for maintenance purposes, the district shall hold a hearing to exclude land, and at the time provided by law, shall hold another hearing to adopt a plan of taxation. These hearings shall be held before an election is called to approve the issuance of tax-supported bonds or the levy of a maintenance tax.

[Added by Acts 1977, 65th Leg., p. 1537, ch. 627, § 1, eff. Aug. 29, 1977.]

After a district is organized, preliminary surveys are completed, and plans adopted by the district for the construction of a plant and improvements, and before the board calls an election for the authorization of construction bonds, the board must exclude land or other property from the district under the provisions of Sections 58.692–58.701 of this code, if the exclusions are practicable, just, or desirable.

Exclusions from the district may be made on the grounds that:

(1) to retain certain land or other property within the district's taxing power would be arbitrary, would be unnecessary to conserve the public welfare, would impair or destroy the value of the property desired to be excluded, and would constitute the arbitrary imposition of a confiscatory burden;

(2) to retain any given land or other property in the district and to extend to it, either presently or in the future, the benefits, service, or protection of the district's facilities would create an undue and uneconomical burden on the remainder of the district; or

If the district includes land in more than one county, the venue shall be in the district court having jurisdiction in the county in which the major portion of the acreage of the land sought to be excluded from the district is located.

(b) The decision shall be made on a preponderance of the evidence and facts found in the trial as in other civil cases, independently of any action taken by the board.

(c) The procedure for the trial and the determination of the orders and judgments to be entered shall be governed solely by the rules of law, evidence, and procedure of the state courts according to the constitution, statutes, and rules of procedure for the trial of civil actions.

CHAPTER 61. ARTICLE III, SECTION 52, NAVIGATION DISTRICTS

SUBCHAPTER D. POWERS AND DUTIES

§ 61.116. Lease of State Owned Lands and Flats

(a) Any district organized under this chapter or any special law or any general law under which navigation districts may be created may apply for a lease from the State of Texas of the surface estate of any lands and flats belonging to the state which are covered or partly covered by the water of any of the bays or other arms of the sea; however, any navigation district created after the effective date of this Act may not lease the surface estate of any such lands or flats which are located within 10 miles of the boundary of any navigation district in existence on the effective date of this Act, without first receiving the written approval of the district now in existence. The words "navigation district," "district," or "districts" as used in Sections 61.116, 61.117, and 60.038 of the Texas Water Code shall apply to any incorporated city in this state which owns and operates wharves, docks, and other marine port facilities.

(b) The state, through the School Land Board, may lease these state owned lands or flats to eligible navigation districts only for purposes reasonably related to the promotion of navigation. The term "navigation" as used herein refers to marine commerce and immediately related activities, including but not limited to port development; channel construction and maintenance; commercial and sport fishing; recreational boating; industrial site locations; transportation, shipping, and storage facilities; pollution abatement facilities; and all other activities necessary or appropriate to the promotion of marine commerce; but specifically does not refer to residential development.

(c) In making application for a lease of state owned lands or flats, the district shall include the following information:

(1) a description of the lands or flats sought to be leased;

(2) a plan showing how it proposes to utilize the land and a timetable indicating approximately when such utilization will take place;

(3) a draft environmental impact statement assessing the effect of the proposed use on the environment, which statement shall generally conform to the requirements of the National Environmental Policy Act,[1] until such time as the legislature shall impose different requirements; however, a draft environmental impact statement shall not be required if the proposed use requires no dredging, filling, or bulkheading. If the proposed use does require dredging, filling, or bulkheading, but[2] the lease shall be processed as provided in Subsections (d), (e), and (f) of this section without the filing of a draft environmental impact statement if the applicant so requests in writing; but in such a case, the School Land Board shall include in the lease provisions requiring (i) that the draft environmental impact statement required by federal law be filed with the School Land Board before the district makes any use of such lands or flats which requires dredging, filling, or bulkheading; (ii) that approval of such use be obtained from the School Land Board after copies of the summary of the draft environmental impact statement and a description of the proposed use are circulated for comment and a hearing held as provided in Subsections (d) and (e) of this section and the School Land Board shall be authorized to give its approval to make such amendments to the lease as may then be deemed necessary by it as a result of information developed in the draft environmental impact statement; and (iii) that the lease shall cease to be effective at a time specifically stated in the lease unless prior to that time accord concerning environmental issues has been reached between the district and the School Land Board;

(4) proof satisfactory to the board establishing the public convenience and necessity for acquisition of lands sought to be leased.

(d) Upon receipt of an application and accompanying information, the School Land Board shall submit copies thereof to the member agencies of the Interagency Council on Natural Resources and the Environment and all other appropriate state agencies for

review and comment. In addition, the board shall submit for review and comment the proposed terms and conditions of the lease. The board shall allow 30 days for such review and comment, and may extend the review period for an additional 30 days upon written request by the executive director of any state agency.

(e) Following the expiration of the period provided for review and comment, or following the expiration of the 30 day extension of such period, if applicable, the School Land Board shall cause a hearing to be held in the county in which the land proposed to be leased is located. Notice of the hearing shall be given by publication for at least three days, not less than two weeks nor more than four weeks prior to the hearing, in the daily paper having the greatest circulation in the county. Members of the board or their designated representatives shall conduct the hearing, at which any party may offer testimony in support of or in opposition to the application, and the board shall consider the record of the hearing in making a decision on the application.

(f) After submission of all evidence, the School Land Board shall authorize the issuance or denial of the proposed lease and shall determine the reasonable cost to the district, term of years, special limitations, if any, and other conditions necessary to best serve the interest of the general public. In establishing the consideration to be paid to the state for the lease, due weight shall be given to the depth of the water over the submerged land, its proximity to development activities, and its proposed use. Final action shall be taken by the board no more than 60 days following the public hearing.

(g) The funds derived from the lease shall be paid to the General Land Office for transfer to the proper funds of the state.

(h) Districts may sublease lands leased from the state under the provisions of this section to third parties for activities reasonably related to navigation, but such sublease shall be subject to the approval of the School Land Board according to the procedures, requirements, and criteria set forth in Subsections (c) and (d) of Section 61.116 of this code; provided, however, that no approval by the School Land Board shall be required if the sublease is for a purpose contemplated by the district and approved by the board in the district's original lease. It is further provided that no environmental impact statement shall ever be necessary for any sublease which requires no dredging, filling, or bulkheading, and which would not have a substantial impact upon the environment, or which requires only insubstantial dredging, filling, or bulkheading, as determined by the board; nor shall a district in obtaining approval for a sublease under any circumstances be required to reveal the name of the tenant to whom the sublease is to be made.

(i) If lands or flats leased from the state under the provisions of this section are utilized by the district or its sublessee for any purpose or use not approved by the School Land Board, the district shall be given notice and an opportunity to change and correct the use. If the use is not changed and corrected within a reasonable time after receipt of such notice, the lease may be terminated by the School Land Board and the lands or flats shall revert to the State of Texas.

"Sec. 5. Any and all laws or parts of laws in conflict with the provisions of this Act are repealed to the extent of such conflict."

§ 61.117. Limitations on Sales and Use of State Lands and Flats

(a) The State of Texas shall retain its rights in all mines and minerals, including oil, gas, and geothermal resources, in and under the land, together with the right to enter the land for the purpose of development when it leases land under Section 61.116 of this code.

(b) All leases of land under Section 61.116 are subject to oil, gas, or mineral leases in existence at the time of the lease to the district.

(c) Any land which has been franchised or leased or is being used by any navigation district or by the United States for the purpose of navigation, industry, or other purpose incident to the operation of a port shall not be entered or possessed by the State of Texas or by anyone claiming under the State of Texas for the purpose of exploring for oil, gas, or other minerals except by directional drilling. No easement, lease, or permit may be granted on land which has been leased to a navigation district which will interfere with the proposed use of the land by the navigation district, and the prior approval of the navigation district shall be obtained for such purpose.

(d) No surface drilling location may be nearer than 660 feet and special permission from the Commissioner of the General Land Office is necessary to make any surface location nearer than 2,160 feet, measured at right angles from the nearest bulkhead line designated by a navigation district or the United States as the bulkhead line or from the nearest dredged bottom edge of any channel, slip, or turning basin which has been dredged, or which has been authorized by the United States as a federal project for future construction, whichever is nearer.

(e) In the event land is leased to a navigation district for construction of a navigation project, the School Land Board may in the lease designate the

district to be the agent of the State of Texas with authority to grant to the United States of America such easements for dredging and disposal of dredged material as may be required for federal participation in the project. In designating the district to be the agent of the State of Texas for the purpose of granting spoil easements, the board may include a requirement that the district obtain the approval of the board before granting any such easement. Such approval may be given in the form of accepting a master plan for spoil disposal.

(f) Districts which, prior to the enactment of this provision, have obtained patents to state owned lands or flats under Article 8225, Revised Civil Statutes of Texas, 1925,[1] or under any general or special act, and which still claim title to any such lands or flats, may not hereafter dispose of any such lands or flats which were conveyed to them by the State of Texas and may not lease such lands or flats for a use for which districts are not authorized to lease their other lands; however, in the event a district possesses lands it finds to be in excess of its needs, it may sell such surplus lands or flats back to the State of Texas for the same consideration as originally paid to the state or exchange them for other lands with the State of Texas. It is further provided that the limitation on resale of lands or flats acquired from the State of Texas shall not prevent a district from exchanging such lands or flats for land, or rights in land, of an adjacent littoral owner for the purpose of adjusting or straightening the boundary between such lands. All such exchanges made after December 31, 1973, shall be subject to the approval of the School Land Board.

(g) Any district which, prior to the effective date of this Act has maintained, and which at the effective date of this Act is maintaining, any channel, dredged material disposal site, or other navigational aid or improvement on state owned lands to which the district holds no patent or lease from the state shall notify the General Land Office of the boundaries of such submerged land used by furnishing a map or other drawing acceptable to the General Land Office.

(b) The development board's findings of benefit to the land included in the authority are final and conclusive unless judicial review is sought in the manner provided in Subchapter J of Chapter 5 of this code[1] for appeals from other orders of the development board, and after the development board's order of creation is final, no land may be excluded from the authority, but land may be added and annexed in the manner provided in this chapter.

No bonds are to be issued until registered by the state comptroller, who is to register the bonds if the attorney general has filed with the comptroller his or her certificate approving the bonds and the proceedings for the issuance of the bonds. If bonds or the proceedings pertaining to bonds recite that they are secured by a pledge of the proceeds of a contract made with the authority, a copy of the contract and proceedings of the contracting parties shall be submitted to the attorney general with the bond record, and if the bonds have been duly authorized and the contract made in compliance with law, the attorney general shall approve the bonds and contract and the bonds shall be registered by the state comptroller. If approved, the bonds and contract are valid and binding and incontestable for any cause. Whenever the

The provisions of this subchapter with reference to the issuance of other bonds and their approval by the attorney general and the rights and remedies of the holders are to be applicable to refunding bonds. Refunding bonds are to be registered by the comptroller on the surrender and cancellation of the bonds to be refunded, but in lieu thereof, the resolution authorizing their issuance may provide that they are to be sold and their proceeds deposited in the bank where the original bonds are payable, in which case the refunding bonds may be issued in an amount sufficient to pay the interest on the original bonds to their option date or maturity date, and the comptroller is to register them without concurrent surrender and cancellation of the original bonds.

The trust indenture or mortgage may include provisions for a lien on all or any part of the physical properties of the authority and franchises, easements, water rights and appropriation permits, leases, and contracts, and all rights appurtenant to these properties, vesting in the trustee, in the event of default, power to operate the properties and all other powers for the further security of the bonds. The trust indenture, regardless of the existence of the deed of trust lien, may contain any provisions prescribed by the board for the security of the bonds and the preservation of the trust estate, including provision for an amendment or modification of the trust indenture, and the issuance of bonds to replace lost or mutilated bonds secured by the trust indenture. Any purchaser in a sale under the deed of trust lien where one is given is the owner of the properties, facilities, and rights purchased and has the right to maintain and operate them during the period prescribed by the trust indenture.
