§ 93.005. Procurement at Determined Price

[Acts 1979, 66th Leg., p. 2408, ch. 842, art. 1, § 1, eff. Sept. 1, 1979.]

§ 93.009. Feasibility Study

(a) The committee shall study the feasibility of extending the program established by this chapter to severely handicapped individuals whose disabilities are not of a visual nature.

(b) The study must include:

(1) an assessment of the potential sales to the state and its political subdivisions of goods and services manufactured or provided by severely

handicapped individuals in nonprofit, sheltered workshops in Texas;

(2) an estimate of the number of individuals who might benefit from an extension of the program and who are not being effectively served through other available state-supported programs of education and special services for the handicapped;

(4) consideration of additional costs, if any, or additional savings, if any, accruing to the state's General Revenue Fund if the program were expanded.

(c) The committee shall report its findings and recommendations to the governor and the legislature. If the committee recommends expansion of the program, the committee shall make specific recommendations concerning required statutory changes and implementation schedules and procedures.

§ 93.011. Product Specifications

Except as otherwise provided by this section, a product manufactured for sale through the State Board of Control to any office, department, institution, or agency of the state under this chapter shall be manufactured or produced according to specifications developed by the State Board of Control. If the State Board of Control has not adopted specifications for a particular product, the production shall be based on commercial or federal specifications in current use by industry for the manufacture of the product for sale to the state.

[Added by Acts 1979, 66th Leg., p. 2441, ch. 842, art. 2, § 21, eff. Sept. 21, 1979.]

§ 93.012. Determinations of Fair Market Value

(a) In determining the fair market value of products or services offered for sale under this chapter, the committee shall give due consideration to the following type of factors:

(1) to the extent applicable, the amounts being paid for similar articles in similar quantities by federal agencies purchasing the products or services under the authorized federal program of like effect to the state program authorized by this chapter;

(2) the amounts which private business would pay for similar products or services in similar quantities if purchasing from a reputable corporation engaged in the business of selling similar products or services;

(3) to the extent applicable, the amount paid by the state in any recent purchases of similar products or services in similar quantities, making due allowance for general inflationary or deflationary trends;

(4) the actual cost of manufacturing the product or service at a sheltered workshop offering employment services to blind or other severely handicapped individuals, with adequate weight to be given to legal and moral imperatives to pay blind or other severely handicapped workers equitable wages; and

(5) the usual, customary, and reasonable costs of manufacturing, marketing, and distribution.

(b) The fair market value of a product or service, determined after consideration of relevant factors of the foregoing type, may not be excessive or unreasonable.

[Added by Acts 1979, 66th Leg., p. 2441, ch. 842, art. 2, § 21, eff. Sept. 1, 1979.]

§ 93.013. Exceptions

(a) Exceptions from the operation of the mandatory provisions of Section 93.011 of this code may be made in any case where:

(1) under the rules of the State Board of Control, the product or service so produced or provided does not meet the reasonable requirements of the office, department, institution, or agency; or

(2) the requisitions made cannot be reasonably complied with through provision of blind-made products or services.

(b) Each month, the State Board of Control shall provide the committee with a list of all items purchased under the exception provided by Subsection (a) of this section. The committee shall adopt the form in which the list is to be provided and may require the list to include the date of requisition, the type of product or service requested, the reason for purchase under the exception, and any other infor-

mation that the committee considers relevant to a determination of why the product or service was not purchased in accordance with Section 93.011 of this code.

(c) No office, department, institution, or agency may evade the intent of this section by slight variations from standards adopted by the State Board of Control, when the products or services produced or provided by the blind, in accordance with established standards, are reasonably adapted to the actual needs of the office, department, institution, or agency.

[Added by Acts 1979, 66th Leg., p. 2441, ch. 842, art. 2, § 21, eff. Sept. 1, 1979.]

§ 93.014. Procurement for Political Subdivisions

A product manufactured for sale to a political subdivision of this state or an office or department thereof shall be manufactured or produced according to specifications developed by the purchaser. The provisions of Section 93.013 of this code shall also apply to procurements of political subdivisions, however those political subdivisions shall make the determinations regarding reasonable requirements and compliance which are required of the State Board of Control in that section. All uses of the exceptions provision shall be reported to the committee in the same manner as that provided in Section 93.013 of this code and no office or department of a political subdivision may evade the intent of this section by slight variations from specifications adopted in accordance with this section, when the products or services produced or provided in accordance with this chapter are reasonably adapted to the actual needs of that office or department.

[Added by Acts 1979, 66th Leg., p. 2441, ch. 842, art. 2, § 21, eff. Sept. 1, 1979.]

§ 93.015. Political Subdivisions Excluded

There are excluded from the application of this chapter the political subdivisions of the state that are not required by Title V of the Federal Rehabilitation Act of 1973, as amended (29 U.S. Code Sections 790 through 794), to take affirmative action with respect to employment and other matters relating to handicapped individuals. Nothing in this chapter shall be construed as limiting blind or other severely handicapped individuals in their capacity to sell their products to any willing buyer.

[Added by Acts 1979, 66th Leg., p. 2441, ch. 842, art. 2, § 21, eff. Sept. 1, 1979.]

§ 94.001. Definitions

In this chapter:

(1) "Blind person" means a person having not more than 20/200 visual acuity in the better eye with correcting lenses or visual acuity greater than 20/200 but with a limitation in the field of vision such that the widest diameter of the visual field subtends an angle no greater than 20 degrees.

(2) "Vending facility" means a facility in which food, drinks, drugs, novelties, souvenirs, tobacco products, notions, or related items are sold regularly. The term excludes facilities consisting solely of vending machines that do not compete directly or indirectly with a facility that is or could be operated by a vocationally handicapped person.

(3) "State property" means land and buildings owned, leased, or otherwise controlled by the state.

(4) "Agency" means the state agency in charge of state property.

(5) "Handicapped" means a physical or mental condition that the commission or rehabilitation commission determines to constitute a substantial vocational disadvantage.

(6) "Commission" means the State Commission for the Blind.

(7) "Rehabilitation commission" means the Texas Rehabilitation Commission.

[Acts 1979, 66th Leg., p. 2411, ch. 842, art. 1, § 1, eff. Sept. 1, 1979.]

§ 94.002. License or Permit Required

No person may operate a vending facility or a facility with vending machines or other coin-operated devices on state property unless the person is licensed to do so by the commission or is authorized to do so by an agency granted a permit to arrange for vending facilities.

[Acts 1979, 66th Leg., p. 2411, ch. 842, art. 1, § 1, eff. Sept. 1, 1979.]

§ 94.003. Licensing Procedure

(a) On its own initiative or at the request of an agency that controls state property, the commission shall survey the property, or blueprints and other available information concerning the property, to determine whether the installation of a vending facility is feasible and consonant with the commission's vocational rehabilitation objectives.

(b) If the installation of the facility is feasible, the commission shall either license a blind person to operate a facility to be installed by the commission or allow the rehabilitation commission to install a facility to be operated by a handicapped person who is not blind according to rules and procedures comparable to those adopted by the commission. The commission and the rehabilitation commission may enter into agreements relating to management services and related forms of necessary assistance.

[Acts 1979, 66th Leg., p. 2411, ch. 842, art. 1, § 1, eff. Sept. 1, 1979.]

§ 94.004. Location of Vending Facilities

(a) With the concurrence of the agency in charge of state property, the commission shall designate the location of vending facilities that have been requested by the agency.

(b) The agency responsible for state property shall alter the property to make it suitable for the proper operation of the vending facilities. To this end, the agency in charge of constructing new state property shall consult with the commission during the planning stage on the construction.

[Acts 1979, 66th Leg., p. 2411, ch. 842, art. 1, § 1, eff. Sept. 1, 1979.]

§ 94.005. Issuance of Licenses; Eligibility

(a) The commission may issue a license to operate its vending facilities on state property to blind citizens of the state who are capable of operating the facilities in a manner that is reasonably satisfactory to all parties concerned.

(b) Before issuing a license to a person, the commission shall determine whether the person has the physical, psychological, and personal traits and abilities required to operate a vending facility in a satisfactory manner.

(c) The commission shall maintain a roster of the names of each person who has been certified as suitable for licensing. If two or more equally qualified persons are listed on the roster and apply for a license to operate an available vending facility, the commission shall issue the license to the person who is most in need of employment.

(d) The granting of a license does not vest the licensee with property or other rights which may constitute the basis of a cause of action, at law or in equity, against the state or its officers or employees.

[Acts 1979, 66th Leg., p. 2411, ch. 842, art. 1, § 1, eff. Sept. 1, 1979.]

§ 94.006. Expiration, Renewal, and Revocation of Licenses

(a) A license or general permit to operate a vending facility on state property is valid for a period of three years from the date it is issued.

(b) The commission shall review each license or permit prior to its expiration and shall issue a new or different license or permit as the circumstances warrant.

(c) The commission and the agency may consent mutually to revoke a general permit prior to its expiration if changed circumstances warrant that action.

(d) A blind person's wilful failure to comply with the commission's rules or the provisions of this chapter constitutes grounds for the automatic revocation of the person's license.

(e) The commission shall adopt substantive and procedural rules governing the revocation of licenses.

[Acts 1979, 66th Leg., p. 2411, ch. 842, art. 1, § 1, eff. Sept. 1, 1979.]

§ 94.007. Operation of Vending Facilities Under the Rehabilitation Commission

(a) If the commission determines that a blind person could not properly operate a vending facility at a particular location, the rehabilitation commission may survey the property to determine whether a handicapped person whose disability is not of a visual nature could operate the facility in a proper manner.

(b) The commission and the rehabilitation commission may develop procedures and methods of exchanging information necessary to implement cooperative activities.

(c) The installation and operation of a vending facility by the rehabilitation commission must conform to the provisions of this chapter applicable to vending facilities installed by the commission.

[Acts 1979, 66th Leg., p. 2411, ch. 842, art. 1, § 1, eff. Sept. 1, 1979.]

§ 94.008. Closing Certain Facilities Prohibited

Neither a vending facility operated by a blind or otherwise vocationally handicapped individual nor a vending facility location surveyed by the commission may be closed as a result of the transfer of state property from one agency to another, the alteration of a state building, or the reorganization of a state agency unless the commission or the rehabilitation commission agrees to the closing.

[Acts 1979, 66th Leg., p. 2411, ch. 842, art. 1, § 1, eff. Sept. 1, 1979.]

§ 94.009. Employment of Assistants

(a) If an individual licensed to operate a vending facility on state property requires an assistant, a qualified visually handicapped person must be given preference for employment. If the commission determines that a visually handicapped person could not perform the labor for which an assistant is required, or if a visually handicapped person is not available, a handicapped person whose disability is not of a visual nature must be given preference for employment. If no handicapped person is available for the job, preference must be given to a person who is socially, culturally, economically, or educationally disadvantaged.

(b) An assistant employed by a blind person licensed by the commission must be approved by the commission, and the deliberate refusal of a blind licensee to comply with this section constitutes grounds for the revocation of his or her license.

[Acts 1979, 66th Leg., p. 2411, ch. 842, art. 1, § 1, eff. Sept. 1, 1979.]

§ 94.010. Competing Vending Machines

(a) If the commission and an agency agree to the installation and operation of an additional vending facility or vending machine on property that already has a commission-sponsored vending facility, no additional permit or license is required. However, the installation of a competing vending facility consisting of vending machines or other coin-operated devices must be authorized by the commission. The commission's authorization must be made with a view toward providing the greatest economic benefits for blind persons consonant with supplying the additional services required at the building.

(b) State agencies shall cooperate and negotiate in good faith to accomplish the purposes of this chapter.

(c) Vocationally handicapped individuals who operate vending facilities on state property are entitled to receive all commissions from vending machines installed on the same property. If two or more vending facilities are operated by vocationally handicapped persons in a building in which vending machines are installed, the commission shall divide the commissions from the vending machines among the handicapped operators in a manner that will achieve equity and equality in the incomes of the handicapped operators. If the commission and the rehabilitation commission have decided not to locate a vending facility in a building, the agency to whom a general permit has been issued shall determine the assignment of the commissions from vending machines installed in the building.

[Acts 1979, 66th Leg., p. 2411, ch. 842, art. 1, § 1, eff. Sept. 1, 1979.]

§ 94.011. Vending Facility Equipment and Stock

(a) The commission may supply a blind vending facility operator with equipment and initial stock necessary for the operator to begin business.

(b) The commission shall collect and set aside from the proceeds of the operation of its vending facilities enough money:

(1) to insure a sufficient amount of initial stock for the facilities and for their proper maintenance;

(2) to pay the costs of supervision and other expenses incidental to the operation of the facilities; and

(3) to pay other program costs to the extent necessary to assure fair and equal treatment of the blind persons licensed to operate the facilities and to the extent allowed under federal programs that provide financial support to the commission.

(c) Except for purchasing and installing original equipment, the operation of commission-sponsored vending facilities must be as self-supporting and self-sustaining as possible. To achieve this end, the commission shall periodically review and, when necessary, revise its schedules for collecting and setting aside money from the proceeds of its vending facilities.

[Acts 1979, 66th Leg., p. 2411, ch. 842, art. 1, § 1, eff. Sept. 1, 1979.]

§ 94.012. Duties and Privileges of Parties

(a) The commission may promulgate rules and initiate procedures necessary to implement this chapter.

(b) A blind person licensed to operate a vending facility on state property shall operate the facility in accordance with law and the commission's rules and policies.

(c) The agency in charge of state property shall cooperate with the commission and its blind licensees to accomplish the purposes of this chapter. The agency shall also furnish all necessary utility service, including connections and outlets required for the installation of the facility, janitorial and garbage disposal services where feasible, and other related assistance.

[Acts 1979, 66th Leg., p. 2411, ch. 842, art. 1, § 1, eff. Sept. 1, 1979.]

§ 94.013. Training Programs

The commission may establish training or experimentation locations necessary to train blind persons who desire to be licensed to operate vending facilities and to develop techniques which will allow blind persons to operate the facilities or related types of small businesses more efficiently and productively.

[Acts 1979, 66th Leg., p. 2411, ch. 842, art. 1, § 1, eff. Sept. 1, 1979.]

§ 94.014. Conformity With Federal Statutes

(a) This chapter shall be construed in a manner consistent with the requirements of federal programs that provide financial assistance to the commission.

(b) If a provision of this chapter conflicts with a federal program requirement, the commission may waive or modify the provision to the extent necessary to secure the full benefits of the federal program.

[Acts 1979, 66th Leg., p. 2411, ch. 842, art. 1, § 1, eff. Sept. 1, 1979.]

§ 94.015. Application of Chapter

(a) This chapter does not apply to property over which the federal government maintains partial or complete control or to property maintained and operated by state-supported institutions of higher education. However, the commission may enter into agreements with state institutions of higher education concerning the use of blind labor in vending facilities at the institutions.

(b) This chapter does not apply to vending facilities operated by an institution under the control of the Texas Department of Mental Health and Mental Retardation, or its successor, if the vending facilities are operated without profit for the benefit of the patients at the institution.

(c) This chapter does not prohibit the commission from selecting blind persons to operate other suitable types of vending facilities or business enterprises, and the chapter does not prohibit the installation of automated vending facilities serviced by blind persons.

It is the policy of the State of Texas to provide rehabilitation and related services to eligible handicapped individuals so that they may prepare for and engage in a gainful occupation or achieve maximum personal independence.

[Acts 1979, 66th Leg., p. 2419, ch. 842, art. 1, § 1, eff. Sept. 1, 1979.]

§ 111.002. Definitions

In this chapter:

(1) "Commission" means the Texas Rehabilitation Commission.

(2) "Commissioner" means the chief administrative officer of the commission.

(3) "Handicapped individual" means any individual, except one whose disability is of a visual nature, who has a disability which constitutes a substantial handicap to employment, or to achieving maximum personal independence, but which is of a nature that rehabilitation services may reasonably be expected to enable the individual to engage in a gainful occupation, including a gainful occupation which is more consistent with his or her capacities and abilities or render the individual fit for self-care and independent living. The term includes an individual for whom rehabilitation services are necessary for the determination of rehabilitation potential. The term also includes individuals disadvantaged by reason of their youth or advanced age, low educational attainments, ethnic or cultural

factors, prison or delinquency records, or other conditions that constitute a barrier to employment, and the term may include members of a handicapped individual's family when the provision of rehabilitation services to family members is necessary for the rehabilitation of a handicapped individual.

(4) "Disability" means a physical or mental condition that materially limits, contributes to limiting, or, if not corrected, will probably result in limiting an individual's activities or functioning. It includes behavioral disorders characterized by deviant social behavior or impaired ability to carry out normal relationships with family and community which may result from vocational, educational, cultural, social, environmental, or other factors. The term includes low educational attainment, ethnic or cultural factors, youth or advanced age, or other factors that constitute a barrier to employment or self-care and independent living.

(5) "Substantial handicap to employment" means a disability that impedes an individual's occupational performance by preventing the individual from obtaining, retaining, or preparing for a gainful occupation consistent with the individual's capacities and abilities.

(6) "Rehabilitation services" means any goods and services necessary to enable a handicapped individual to engage in a gainful occupation or independent living, or to determine the individual's rehabilitation potential, and to provide work adjustment training or adult social services. To enable a handicapped individual to engage in a gainful occupation or independent living, may require the commission to engage in or contract for such activities as outreach, diagnosis and appraisal, treatment, training, job placement or self-employment, guidance, and counseling. Services may include maintenance, transportation, and training allowances, not exceeding the estimated cost of subsistence during rehabilitation, for the handicapped individual as well as members of the individual's family when necessary for the rehabilitation of the handicapped individual.

(7) "Gainful occupation" includes employment in the competitive labor market; practice of a profession; self-employment; homemaking, farm, or family work (including work for which payment is in kind rather than in cash); sheltered employment; and home industries or other gainful homebound work.

(8) "Establishment of a rehabilitation facility" means:

(A) the expansion, remodeling, or alteration of existing buildings necessary to adapt or increase the effectiveness of the buildings for rehabilitation facility purposes;

(B) the acquisition of initial equipment for those purposes; or

(C) the initial staffing of a rehabilitation facility.

(9) "Establishment of a workshop" means the expansion, remodeling, or alteration of existing buildings necessary to adapt the buildings to workshop purposes or to increase the employment opportunities in workshops, and the acquisition of initial equipment necessary for new workshops or to increase the employment opportunities in workshops.

(A) a mentally or physically handicapped person beyond a period of 18 months from the initial date that eligibility to receive vocational rehabilitation services was determined; or

(B) mentally or physically handicapped persons who were not eligible for vocational rehabilitation services under laws and regulations in effect before April 2, 1969, and who can now benefit from the provisions of this chapter.

(12) "Extended sheltered workshop employment" means employment in a sheltered workshop of persons with mental or physical handicaps that render the persons incapable of competing in the open or customary labor market.

(13) "Extended community residence" means a group living arrangement providing the essentials of community living, such as room, board, clothing, evening and nighttime supervision, recreational activities, and transportation to and from work for persons living therein who are in extended sheltered workshop employment or who, while physically or mentally handicapped, are employed in the open or customary labor market.

(14) "Sheltered workshop" means an occupation-oriented facility operated by a nonprofit agency, public or private, which except for its staff, employs only mentally or physically handicapped persons.

"(7) to obtain information from the Board of Pardons and Paroles and the Texas Department of Corrections, if such records relate to an applicant for rehabilitation services or to a client of the agency, who has been or is about to be released by the Texas Department of Corrections; the Board of Pardons and Paroles and the Texas Department of Corrections shall upon request supply the commission with information applying to applicants for rehabilitation services or clients of the commission if the person has been or is about to be released by the Texas Department of Corrections; the commission shall treat all information as privileged and confidential and for commission use only."

Section 3.11(c) of the Code Construction Act (Civil Statutes, art. 5429b–2) provides, in part, that the repeal of a statute by a code does not affect an amendment of the statute by the same legislature which enacted the code and that the amendment is preserved and given effect as part of the code provision.

The earnings contributions made under this section must be credited to the state in arriving at the net sums due to the agency contracting with the state to furnish services.

[Acts 1979, 66th Leg., p. 2424, ch. 842, art. 1, § 1, eff. Sept. 1, 1979.]

§ 111.084. Standards

The commission shall establish standards of staffing, physical plant, and services required for the operation of facilities of nonprofit agencies furnishing services under this subchapter by contract with the state. A contract entered into by the state under this subchapter is subject to cancellation by the state for cause at any time by the issuance of written notice of cancellation by the state to the contracting agency at least 30 days in advance of the date of cancellation.

The policy of the state is to encourage and enable physically handicapped persons to participate fully in the social and economic life of the state, to achieve maximum personal independence, to become gainfully employed, and to otherwise fully enjoy and use all public facilities available within the state.

[Acts 1979, 66th Leg., p. 2425, ch. 842, art. 1, § 1, eff. Sept. 1, 1979.]

§ 121.002. Definitions

In this chapter:

(1) "White cane" means a cane or walking stick which is metallic or white in color or white tipped with some contrasting color, and which is carried by a blind person to assist the blind person in traveling from place to place.

(2) "Dog guide" means a dog that:

(A) is fitted with a special harness so as to be suitable as an aid to the mobility of a blind person;

(B) is used by a blind person who has satisfactorily completed a specific course of training in the use of a dog as an aid to personal travel; and

(C) has been trained by an organization generally recognized by agencies involved in the rehabilitation of the blind as reputable and competent to provide dogs with training of this type.

(3) "Public facilities" includes streets, highways, sidewalks, walkways, all common carriers, airplanes, motor vehicles, railroad trains, motor buses, streetcars, boats, or any other public conveyances or modes of transportation, hotels, motels, or other places of lodging, public buildings maintained by any unit or subdivision of government, buildings to which the general public is invited, college dormitories and other educational facilities, restaurants or other places where food is offered for sale to the public, and all other places of public accommodation, amusement, convenience, or resort to which the general public or any classification of persons from the general public is regularly, normally, or customarily invited.

(4) "Handicapped person" means a person who has a mental or physical handicap, including mental retardation, hardness of hearing, deafness, speech impairment, visual handicap, being crippled, or any other health impairment which requires special ambulatory devices or services.

(5) "Housing accommodations" means all or part of real property which is used or occupied or is intended, arranged, or designed to be used or occupied as the home, residence, or sleeping place of one or more human beings, except a single family residence whose occupants rent, lease, or furnish for compensation only one room.

[Acts 1979, 66th Leg., p. 2425, ch. 842, art. 1, § 1, eff. Sept. 1, 1979.]

§ 121.003. Discrimination Prohibited

(a) Subject only to limitations and conditions established by law and applicable alike to all persons, persons who are physically handicapped have the same right as the able-bodied to the full use and enjoyment of any public facility in the state.

(b) No common carrier, airplane, railroad train, motor bus, streetcar, boat, or other public conveyance or mode of transportation operating within the state may refuse to accept as a passenger a person who is physically handicapped solely because of the person's handicap, nor may a handicapped person be required to pay an additional fare because of his or her use of a dog guide, wheelchair, crutches, or other device used to assist the handicapped person in travel.

(c) No person who is physically handicapped may be denied admittance to any public facility in the state because of the handicapped person's use of a white cane, dog guide, wheelchair, crutches, or other device of assistance in mobility, or because the person is handicapped.

(d) The discrimination prohibited by this section includes discrimination through an open and obvious refusal to allow a handicapped person to use or be admitted to any public facility, as well as discrimination based on a ruse or subterfuge calculated to prevent or discourage a handicapped person from using or being admitted to a public facility. Regulations relating to the use of public facilities by any designated class of persons from the general public may not prohibit the use of particular public facilities by handicapped persons who, except for their handicaps or use of dog guides or other devices for assistance in travel, would fall within the designated class. Lists containing the names of persons who desire to use particular public facilities may not be composed or manipulated so as to deny a handicapped person a fair and equal opportunity to use or be admitted to any public facility.

(e) This section does not limit the right of the owner or manager of a public facility to refuse to admit, to refuse to serve, or to evict from a public facility a person who is so unkempt as to be clearly offensive to others using the public facility, who is obviously intoxicated, or who conducts himself in a belligerent, boisterous, profane, or other offensive manner which unreasonably interferes with the right of other persons to use and enjoy the public facility.

(f) An employer who conducts business in this state may not discriminate in his or her employment practices against a handicapped person on the basis of the handicap if the person's ability to perform the task required by a job is not impaired by the handicap and the person is otherwise qualified for the job.

(g) It is the policy of the state that the blind, the visually handicapped and the otherwise physically disabled be employed by the state, by political subdivisions of the state, in the public schools, and in all other employment supported in whole or in part by public funds on the same terms and conditions as the able-bodied, unless it is shown that the particular disability prevents the performance of the work involved.

(h) The blind, the visually handicapped, and the otherwise physically disabled shall be entitled to full and equal access, as other members of the general public, to all housing accommodations offered for rent, lease, or compensation in this state, subject to the conditions and limitations established by law and applicable alike to all persons.

(i) Nothing in this section shall require any person renting, leasing, or providing for compensation real

property to modify his or her property in any way or provide a higher degree of care for a blind person, visually handicapped person, or otherwise physically disabled person than for a person who is not physically disabled.

(j) A totally or partially blind person who has a guide dog, or who obtains a guide dog, is entitled to full and equal access to all housing accommodations provided for in this section, and may not be required to pay extra compensation for the guide dog but is liable for any damage done to the premises by the guide dog.

[Acts 1979, 66th Leg., p. 2425, ch. 842, art. 1, § 1, eff. Sept. 1, 1979.]

§ 121.004. Penalties for and Damages Resulting from Discrimination

(a) A person, firm, association, corporation, or other organization, or the agent of a person, firm, association, corporation, or other organization who violates Section 121.003 of this chapter is guilty of a misdemeanor and on conviction shall be punished by a fine of not less than $100 nor more than $300.

(b) In addition to the penalty provided in Subsection (a) of this section, a person, firm, association, corporation, or other organization, or the agent of a person, firm, association, corporation, or other organization who violates the provisions of Section 121.003 of this chapter is deemed to have deprived a handicapped person of his or her civil liberties. The handicapped person deprived of his or her civil liberties may maintain a cause of action for damages in a court of competent jurisdiction, and there is a conclusive presumption of damages in the amount of at least $100 to the handicapped person.

[Acts 1979, 66th Leg., p. 2425, ch. 842, art. 1, § 1, eff. Sept. 1, 1979.]

§ 121.005. Responsibilities of Handicapped Persons

(a) A blind person who uses a dog guide for assistance in travel is liable for any damages done to the premises or facilities by the dog.

(b) A blind person who uses a dog guide for assistance in travel shall keep the dog guide properly harnessed, and a person who is injured by the dog guide because of a blind person's failure to properly harness the dog guide is entitled to maintain a cause of action for damages in a court of competent jurisdiction under the same law applicable to other causes brought for the redress of injuries caused by animals.

(c) A physically handicapped person who, after being duly warned of a danger unique to a handicapped person's use of a particular public facility, is injured in using the facility because of a danger of the type about which warning was given, is deemed to have assumed the risk of using the public facility.

[Acts 1979, 66th Leg., p. 2425, ch. 842, art. 1, § 1, eff. Sept. 1, 1979.]

§ 121.006. Penalties for Improper Use of Dog Guides

(a) A person who fits a dog with a harness of the type commonly used by blind persons who use dog guides for purposes of travel, in order to represent that his or her dog is a specially trained dog guide when training of the type described in Section 121.002(2)(C) of this chapter has not in fact been provided, is guilty of a misdemeanor and on conviction shall be punished by a fine of not more than $200.

(b) A person who habitually abuses or neglects to feed or otherwise neglects to properly care for his or her dog guide is not entitled to the benefits of this chapter available to those who use dog guides, and must surrender the dog guide on demand to the person or organization furnishing the dog or to other competent authorities.

[Acts 1979, 66th Leg., p. 2425, ch. 842, art. 1, § 1, eff. Sept. 1, 1979.]

§ 121.007. Blind and Incapacitated Pedestrians

(a) No person may carry a white cane on a public street or highway unless the person is totally or partially blind or otherwise incapacitated.

(b) The driver of a vehicle approaching an intersection or crosswalk where a pedestrian guided by a guide dog or carrying a white cane is crossing or attempting to cross shall take necessary precautions to avoid injuring or endangering the pedestrian. The driver shall bring the vehicle to a full stop if injury or danger can be avoided only by that action.

(c) The failure of a totally or partially blind or otherwise incapacitated person to carry a white cane or be guided by a guide dog does not deprive the person of the rights and privileges conferred by law on pedestrians crossing streets or highways and does not constitute evidence of contributory negligence.

(d) A person who violates this section commits a Class C misdemeanor.

[Acts 1979, 66th Leg., p. 2425, ch. 842, art. 1, § 1, eff. Sept. 1, 1979.]

§ 121.008. Dissemination of Information Relating to the Handicapped

(a) To ensure maximum public awareness of the policies set forth in this chapter, the governor may issue a proclamation each year taking suitable public notice of October 15 as White Cane Safety Day. The proclamation must contain appropriate comment about the significance of various devices used by handicapped persons to assist them in traveling, and must call to the attention of the public the provisions of this chapter and of other laws relating to the safety and well-being of this state's handicapped citizens.

(b) State agencies regularly mailing forms or information to significant numbers of public facilities operating within the state shall cooperate with state

agencies responsible for the rehabilitation of the handicapped by sending information about this chapter to those to whom regular mailings are sent. The information, which must be sent only on the request of state agencies responsible for the rehabilitation of the handicapped and not more than once each year, may be included in regular mailings or sent separately. If sent separately, the cost of mailing is borne by the state rehabilitation agency or agencies requesting the mailing and, regardless of whether sent separately or as part of a regular mailing, the cost of preparing information about this chapter is borne by the state rehabilitation agency or agencies requesting distribution of this information.

[Acts 1979, 66th Leg., p. 2425, ch. 842, art. 1, § 1, eff. Sept. 1, 1979.]

§ 121.009. Construction of Chapter

The provisions of this chapter must be construed in a manner compatible with other state laws relating to the handicapped.

[Acts 1979, 66th Leg., p. 2425, ch. 842, art. 1, § 1, eff. Sept. 1, 1979.]

1.001. Purpose of Code.

§ 1.001. Purpose of Code

(a) This code is enacted as a part of the state's continuing statutory revision program, begun by the Texas Legislative Council in 1963 as directed by the legislature in Chapter 448, Acts of the 58th Legislature, Regular Session, 1963 (Article 5429b–1, Vernon's Texas Civil Statutes). The program contemplates a topic-by-topic revision of the state's general and permanent statute law without substantive change.

(b) Consistent with the objectives of the statutory revision program, the purpose of this code is to make the general and permanent natural resources law more accessible and understandable by:

(1) rearranging the statutes into a more logical order;

(2) employing a format and numbering system designed to facilitate citation of the law and to accommodate future expansion of the law;

(3) eliminating repealed, duplicative, unconstitutional, expired, executed, and other ineffective provisions; and

(4) restating the law in modern American English to the greatest extent possible.

[Acts 1977, 65th Leg., p. 2347, ch. 871, art. I, § 1, eff. Sept. 1, 1977.]

§ 1.002. Construction of Code

The Code Construction Act (Article 5429b–2, Vernon's Texas Civil Statutes) applies to the construction of each provision in this code, except as otherwise expressly provided by this code.

[Sections 11.002 to 11.010 reserved for expansion]

SUBCHAPTER B. TERRITORY AND BOUNDARIES OF THE STATE

§ 11.011. Vacant and Unappropriated Land

So that the law relating to the public domain may be brought together, the following extract is taken from the joint resolutions of the Congress of the United States relating to the annexation of Texas to the United States, which was approved June 23, 1845: "Said State, when admitted into the Union, . . . shall also retain all the vacant and unappropriated lands lying within its limits, to be applied to the payment of debts and liabilities of said Republic of Texas, and the residue of said lands, after discharging said debts and liabilities, to be disposed of as said State may direct. . . ."

[Acts 1977, 65th Leg., p. 2349, ch. 871, art. I, § 1, eff. Sept. 1, 1977.]

§ 11.012. Gulfward Boundary of Texas

(a) The gulfward boundary of the State of Texas is the boundary determined in and pursuant to the decision of the United States Supreme Court in Texas v. Louisiana, 426 U.S. 465 (1976).

(b) The State of Texas has full sovereignty over the water, the beds and shores, and the arms of the Gulf of Mexico within its boundaries as provided in Subsection (a) of this section, subject only to the right of the United States to regulate foreign and interstate commerce under Article I, Section 8 of the United States Constitution, and the power of the United States over admiralty and maritime jurisdiction under Article III, Section 2 of the United States Constitution.

(c) The State of Texas owns the water and the beds and shores of the Gulf of Mexico and the arms of the Gulf of Mexico within the boundaries provided in this section, including all land which is covered by the Gulf of Mexico and the arms of the Gulf of Mexico either at low tide or high tide.

(d) None of the provisions of this section may be construed to relinquish any dominion, sovereignty, territory, property, or rights of the State of Texas previously held by the state.

[Acts 1977, 65th Leg., p. 2349, ch. 871, art. I, § 1, eff. Sept. 1, 1977.]

§ 11.013. Gulfward Boundaries of Counties, Cities, Towns, or Villages

(a) The gulfward boundary of each county located on the coastline of the Gulf of Mexico is the Three Marine League line as determined by the United States Supreme Court.

(b) The area in the extended boundaries of the counties as provided in this section becomes a part of the public free school land and is subject to the constitutional and statutory provisions of this state pertaining to the use, distribution, sale, and lease of public free school land in this state.

(c) The gulfward boundaries of any city, town, or village created and operating under the general laws of the State of Texas shall not be established or extended by incorporation or annexation more than 5,280 feet gulfward beyond the coastline, and any inclusion of territory in any such city, town, or village more than 5,280 feet gulfward beyond the coastline is void. The term "coastline" as used in this subsection means the line of mean low tide along that portion of the coast which is in direct contact with the open Gulf of Mexico. The term "city, town, or village created and operating under the general laws of the State of Texas" shall not include any city operating under a home-rule charter.

If any such general-law city, town, or village has heretofore been established by incorporation or attempted incorporation more than 5,280 feet gulfward beyond the coastline, the corporate existence of such general-law city, town, or village is in all things validated, ratified, approved, and confirmed.

The boundaries of such general-law city, town, or village, including the gulfward boundaries to the extent of 5,280 feet gulfward beyond the coastline, are in all things validated, ratified, approved, and confirmed and shall not be held invalid by reason of the inclusion of more territory than is expressly authorized in Article 971, Revised Civil Statutes of Texas, 1925, as amended, or by reason of the inclusion of territory other than that which is intended to be used for strictly town or city purposes as required by Article 1134 of the Revised Civil Statutes of Texas, 1925, as amended, or by reason of not constituting a city, town, or village.

§ 21.076. Co-Ordinate System Definitions

(a) For the purpose of precisely defining the Texas Co-ordinate System, the following definitions by the National Oceanic and Atmospheric Administration are adopted:

(1) The Texas Co-ordinate System, North Zone, is a Lambert conformal projection of the Clarke spheroid of 1866, having standard parallels at north latitudes 34° 39′ and 36° 11′, along which parallels the scale shall be exact. The origin of co-ordinates is at the intersection of the meridian 101° 30′ west longitude and the parallel 34° 00′ north latitude. This origin is given the co-ordinates: x = 2,000,000 feet (720,000 varas) and y = 0 feet (0 varas).

(2) The Texas Co-ordinate System, North Central Zone, is a Lambert conformal projection of the Clarke spheroid of 1866, having standard parallels at north latitudes 32° 08′ and 33° 58′, along which parallels the scale shall be exact. The origin of co-ordinates is at the intersection of the meridian 97° 30′ west longitude and the parallel 31° 40′ north latitude. This origin is given the co-ordinates: x = 2,000,000 feet (720,000 varas) and y = 0 feet (0 varas).

(3) The Texas Co-ordinate System, Central Zone, is a Lambert conformal projection of the Clarke spheroid of 1866, having standard paral-

lels at north latitudes 30° 07′ and 31° 53′, along which parallels the scale shall be exact. The origin of co-ordinates is at the intersection of the meridian 100° 20′ west longitude and the parallel 29° 40′ north latitude. This origin is given the co-ordinates: x = 2,000,000 feet (720,000 varas) and y = 0 feet (0 varas).

(4) The Texas Co-ordinate System, South Central Zone, is a Lambert conformal projection of the Clarke spheroid of 1866, having standard parallels at north latitudes 28° 23′ and 30° 17′, along which parallels the scale shall be exact. The origin of co-ordinates is at the intersection of the meridian of 99° 00′ west longitude and the parallel 27° 50′ north latitude. This origin is given the co-ordinates: x = 2,000,000 feet (720,000 varas) and y = 0 feet (0 varas).

(5) The Texas Co-ordinate System, South Zone, is a Lambert conformal projection of the Clarke spheroid of 1866, having standard parallels at north latitudes 26° 10′ and 27° 50′, along which parallels the scale shall be exact. The origin of co-ordinates is at the intersection of the meridian 98° 30′ west longitude and the parallel 25° 40′ north latitude. This origin is given the co-ordinates: x = 2,000,000 feet (720,000 varas) and y = 0 feet (0 varas).

(b) The position of the Texas Co-ordinate System shall be as marked on the ground by triangulation or traverse stations established in conformity with the standards adopted by the National Oceanic and Atmospheric Administration for first-order and second-order work, whose geodetic positions have been rigidly adjusted on the North American datum of 1927, and whose co-ordinates have been computed on the system defined in this subchapter. Any of these stations may be used for establishing a survey connection with the Texas Co-ordinate System.

[Acts 1977, 65th Leg., p. 2358, ch. 871, art. I, § 1, eff. Sept. 1, 1977.]

§ 21.077. Unit of Measurement

The unit of measurement in this subchapter has the following values, based on the International Meter established by the National Bureau of Standards:

(1) one meter = 39.37 inches exactly;

(2) one foot = 12.00 inches exactly; and

(3) one vara = 33⅓ inches exactly.

[Acts 1977, 65th Leg., p. 2359, ch. 871, art. I, § 1, eff. Sept. 1, 1977.]

§ 21.078. Terms "X Co-Ordinate" and "Y Co-Ordinate"

(a) The plane rectangular co-ordinates of a point on the earth's surface, to be used in expressing the position or location of the point in the appropriate zone, of this system, shall consist of two distances, expressed in feet and decimals of a foot.

(b) One of these distances, to be known as the "x co-ordinate," shall give the position in an east-and-west direction; the other, to be known as the "y co-ordinate," shall give the position in a north-and-south direction.

(c) These co-ordinates shall be made to depend on and conform to the plane rectangular co-ordinates of the triangulation and traverse stations of the National Oceanic and Atmospheric Administration within the State of Texas, as those co-ordinates have been determined by the survey.

[Acts 1977, 65th Leg., p. 2359, ch. 871, art. I, § 1, eff. Sept. 1, 1977.]

§ 21.079. Land in More Than One Zone

If a tract of land to be defined by a single description extends from one zone into another of the co-ordinate zones, the positions of all points on its boundaries may be referred to by either of the zones, the zone which is used being specifically named in the description.

[Acts 1977, 65th Leg., p. 2360, ch. 871, art. I, § 1, eff. Sept. 1, 1977.]

This subchapter may be cited as the Coastal Wetland Acquisition Act.

[Added by Acts 1979, 66th Leg., p. 1993, ch. 785, § 2, eff. June 13, 1979.]

§ 33.232. Policy

It is the declared policy of the state:

(1) to protect the property rights of those who sell interests in land to the state by fairly compensating the sellers;

(2) to protect that coastal wetland which is most essential to the public interest by acquiring fee and lesser interests in the coastal wet-

land and managing it in a manner that will preserve and protect the productivity and integrity of the land as coastal wetland; and

(3) to assure that the state does not expend funds to acquire any coastal wetland to which it already holds a valid title at the time of the expenditure.

[Added by Acts 1979, 66th Leg., p. 1993, ch. 785, § 2, eff. June 13, 1979.]

§ 33.233. Definitions

In this subchapter:

(1) "Acquiring agency" means the Parks and Wildlife Department.

(2) "Certifying agency" means the General Land Office.

(3) "Coastal wetland" means marshes and other areas of high biologic productivity where seawater is present during times other than and in addition to storms or hurricanes as defined by the Beaufort Wind Scale, but does not include any areas seaward of the line of mean annual low spring tide, nor any mainland area where seawater is present only during storms or hurricanes as defined by the Beaufort Wind Scale, and the presence at a given point of vegetation characteristic of marshes containing seawater is prima facie evidence that seawater is present at the point during times other than and in addition to storms or hurricanes as defined by the Beaufort Wind Scale.

(4) "Seaward" means the direction away from the shore and toward the body of water bounded by the shore.

(5) "Seawater" means any water containing a concentration of one-twentieth of one percent or more by weight of total dissolved inorganic salts derived from the marine water of the Gulf of Mexico.

[Added by Acts 1979, 66th Leg., p. 1993, ch. 785, § 2, eff. June 13, 1979.]

§ 33.234. Duties and Authority of Acquiring Agency

(a) The acquiring agency shall do the following:

(1) accept gifts, grants, or devises of interests in land;

(2) acquire, by purchase or condemnation, fee and lesser interests in the surface estate in coastal wetland certified by the certifying agency as most essential to protection of the public interest, provided that in each instance in which an interest in land is acquired by the acquiring agency pursuant to this section, a sufficient interest shall be acquired to preserve and protect the productivity and integrity of such land as coastal wetland; and

(3) manage interests in land acquired pursuant to this section in a manner that will preserve and protect the productivity and integrity of the land as coastal wetland.

(b) This subchapter shall not be construed to authorize the condemnation of any interest in the mineral estate in any coastal wetland.

(c) The acquiring agency shall promulgate reasonable rules and regulations necessary to preserve and protect the productivity and integrity of the land as coastal wetland acquired pursuant to this subchapter. The rules and regulations shall include regulations governing activities conducted on the land in conjunction with mineral exploration, development, and production.

(d) If the acquiring agency seeks to condemn an interest less than the fee interest in the surface estate in any coastal wetland, the owner of the coastal wetland may demand that the acquiring agency instead seek condemnation of the fee interest in the surface estate in the coastal wetland. Upon this demand, the acquiring agency shall either:

(1) seek to condemn the fee interest in the surface estate in the coastal wetland; or

(2) cease all condemnation proceedings pursuant to this subchapter against the coastal wetland.

[Added by Acts 1979, 66th Leg., p. 1993, ch. 785, § 2, eff. June 13, 1979.]

§ 33.235. Agricultural Exemption

Coastal wetland used only for farming or ranching activities, including maintenance and repair of buildings, earthworks, and other structures, shall not be subject to any power of condemnation exercised pursuant to this subchapter. However, this exemption from condemnation shall terminate upon the receipt by any state or federal agency of an application for a permit, license, or other authorization to conduct on the wetland, activities other than farming and ranching activities, including irrigation and water well drilling, and activities necessary to exploration, development, or production of the underlying mineral estate.

[Added by Acts 1979, 66th Leg., p. 1993, ch. 785, § 2, eff. June 13, 1979.]

§ 33.236. Duties and Authority of Certifying Agency

(a) The certifying agency shall do the following:

(1) certify to the acquiring agency that coastal wetland which is most essential to the public interest in accordance with the criteria in this subchapter, assign priorities for acquisition of interests in the coastal wetland, and revoke certification made pursuant to this section when it is in the public interest to do so; and

(2) publicize the importance to the public interest of coastal wetland in general, and of designated coastal wetland in particular.

(b) A certification, assignment of priority for acquisition, or revocation of certification made pursuant to this subchapter does not constitute a "contested case" within the meaning of the Administrative Procedure and Texas Register Act (Article 6252–13a, Vernon's Texas Civil Statutes).

(c) The commissioner of the General Land Office shall forward a copy of any certification to the county judge of every county in which any part of the wetland certified is located and shall request the recommendation of the commissioners of the county on the certification.

(d) Within 45 days of receipt of a certification from the commissioner of the General Land Office, the commissioners court shall send to the commissioner of the General Land Office written recommendations concerning the certification.

(e) If the commissioners court of a county described in Subsection (c) of this section agrees that the portion of the certified wetland within the county should be certified, or if the commissioners court does not submit recommendations to the commissioner of the General Land Office within the time specified in Subsection (d) of this section, then as to that portion of the wetland, the certification shall continue in full force and effect.

(f) If the commissioners court of any county described in Subsection (c) of this section recommends that certified wetland or any part of it within the county should not be certified, the certification shall be revoked as to that part of the wetland.

(g) If the commissioner of the General Land Office wishes to contest a revocation of certification pursuant to Subsection (f) of this section, he shall forward the certification to the governor, together with the recommendations of the commissioners courts and any further information the commissioner of the General Land Office shall deem advisable.

(h) If the governor determines that any certification revoked pursuant to Subsection (f) of this section should be reinstated in whole or in part, he shall notify the commissioner of the General Land Office within 60 days of receipt of the certification pursuant to Subsection (g) of this section. Upon receipt of notice from the governor, the commissioner of the General Land Office may recertify the part of the wetland to the acquiring agency, and the certification shall be in full force and effect.

[Added by Acts 1979, 66th Leg., p. 1993, ch. 785, § 2, eff. June 13, 1979.]

§ 33.237. Most Essential Coastal Wetland Certification

(a) In selecting and certifying coastal wetland most essential to the public interest, and in assigning priorities of acquisition to coastal wetland, the certifying agency shall consider the following criteria:

(1) whether the land is coastal wetland within the definition, intent, and purpose of this subchapter;

(2) whether the state owns the coastal wetland or claims title to it, which title can be validated by bringing an appropriate action in a court of law;

(3) whether the biological, geological, or physical characteristics of the coastal wetland, including the interrelationship of the coastal wetland with other coastal wetland, is essential to the public interest;

(4) the degree to which the coastal wetland is in danger of being altered, damaged, or destroyed, and the imminence of that danger; and

(5) the cost of acquiring the coastal wetland.

(b) The legislature declares that certifications, assignments of priority for acquisition, and revocations of certifications made pursuant to Section 33.235 of this code are made only for the purpose of administering the provisions of this subchapter. No certifications, assignments of priority for acquisition, or revocations of certification shall be grounds for an inference, or admissible in a court of law to prove, that any coastal wetland is of greater or lesser value than any other coastal wetland for any purpose other than administering the provisions of this subchapter.

(c) A certification made pursuant to this subchapter shall expire one year from the date of certification.

(d) If on or before the expiration date of such certification the acquiring agency files suit in a court of law to condemn the certified coastal wetland, the certification shall extend until the suit is settled, dismissed, or otherwise terminated.

(e) If a contract of sale between the state and the owner of the certified coastal wetland is entered into on or before the expiration date of the certification, the certification shall extend until title to the coastal wetland is conveyed to the state or the contract is rescinded, invalidated, or otherwise terminated.

[Added by Acts 1979, 66th Leg., p. 1993, ch. 785, § 2, eff. June 13, 1979.]

§ 33.238. Funding

The acquiring agency may compensate the seller of land acquired pursuant to this subchapter with funds obtained through:

(1) gift, grant, or devise;

(2) legislative appropriation; or

(3) gift or grant from the United States.

(b) Failure to pay the special fee does not render the bid void, but the commissioner shall demand payment of the fee before he issues a lease to the successful bidder.

(c) If the successful bidder fails or refuses to pay the fee within 30 days after demand is made by the commissioner, the bidder is not entitled to a lease on the tract covered by his bid and the cash bonus is automatically forfeited to the state. The commissioner shall deposit the bonus in the State Treasury to the appropriate fund.

(b) The easements may be granted on terms and conditions the board considers to be in the best interest of the state.

§ 34.183. Effect of Payment on Obligation

The payment of the bonus, rentals, or royalties under the lease does not relieve the lessee of the obligation to develop the lease and protect the oil, gas, or other minerals from drainage.

[Acts 1977, 65th Leg., p. 2399, ch. 871, art. I, § 1, eff. Sept. 1, 1977.]

(a) If oil or gas is produced in paying quantities from a well on privately owned land and the well is within 1,000 feet of the area covered by the lease, or in any case if the land covered by the lease is being drained, the lessee shall begin in good faith the drilling of an offset well on the area covered by his lease within 60 days after initial production on the private land and shall diligently prosecute the drilling.

(b) The offset well shall be drilled to the depth necessary to prevent the undue drainage of the area covered by the lease.

(c) The lessee, manager, or driller shall use all means reasonably necessary in a good-faith effort to make the offset well produce in paying quantities.

[Acts 1977, 65th Leg., p. 2400, ch. 871, art. I, § 1, eff. Sept. 1, 1977.]

(2) the owner or his authorized agent knowingly makes a false return or false report concerning production, royalty, or drilling;

(3) the owner fails or refuses to drill an offset well or wells in good faith as required by his lease and the rules adopted by the board;

(4) the owner or his agent refuses the proper authority access to the records and other data pertaining to operations under his lease;

(5) the owner or his authorized agent knowingly fails to furnish the log of a well within 30 days after production is found in paying quantities; or

(6) any of the material terms of the lease are violated.

(b) If a lease is forfeited, the area is subject again to lease to the highest bidder under the same rules controlling the original sale of leases.

(c) A forfeiture may be set aside and the lease and all rights under the lease reinstated at any time before the rights of a third party intervene on satisfactory evidence to the commissioner of future compliance with the provisions of this chapter and the rules adopted relative to this chapter.

(b) The board may reject all bids and may withdraw any land advertised for lease before receiving and opening bids.

(c) If the board rejects all bids after a bidding by sealed bids, it may offer for sale and sell the oil and gas in the land, in separate whole surveys only or subdivisions of them, by open public auction at a price less than the price offered by the sealed bids.

(d) If there is no sale at public auction, the subsequent procedure for the sale of oil and gas leases is in the manner provided in the previous sections of this subchapter.

(b) The board may reject all bids and may withdraw any land advertised for lease before receiving and opening bids.

(B) who has himself or whose predecessors in interest had the vacancy enclosed or within definite recognized boundaries and in possession for a period of 10 years with a good-faith belief that the vacancy was included inside the boundaries of the survey or surveys that were previously titled, awarded, or sold under circumstances that would have vested title in the vacancy if it were actually located within the boundaries of the survey or surveys whose boundaries are recognized boundaries in the community.

(2) "Vacancy" means an area of unsurveyed public school land that:

(A) is not in conflict on the ground with land previously titled, awarded, or sold;

(B) has not been listed on the records of the land office as public school land; and

(b) If production is secured in commercial quantities and the payment of royalty begins and continues to be paid, the lessee is exempt from further delay rental payments on the acreage.

(c) If production ceases and royalty is not paid, the lessee shall pay at the end of the lease year in which the royalty ceased to be paid and annually after that time in advance, an amount determined by the board for as long as the lessee desires to maintain the rights acquired under the lease, but not for more than five years from the date of the lease.

§ 52.024. Lease Provisions for Shut-In Gas Royalty and Compensatory Royalty

Each lease shall provide that:

(1) if at the expiration of the primary term or at any time after the expiration of the primary term a well or wells capable of producing gas in paying quantities are located on the leased premises but gas is not being produced for lack of a suitable market and the lease is not being maintained in force and effect, before the expiration of the primary term or if the primary term has expired, within 60 days after the lessee ceases to produce gas from the well, the lessee may pay as a shut-in gas royalty an amount equal to double the annual rental provided in the lease but not less than $1,200 a year for each well capable of producing gas in paying quantities;

(2) if the shut-in gas royalty is paid, the lease shall be considered to be a producing lease and the payment shall extend the term of the lease for a period of one year from the end of the primary term or from the first day of the month next succeeding the month in which production ceased and after that if no suitable market for the gas exists, the lessee may extend the lease for four additional and successive periods of one year by paying the same amount each year on or before the expiration of the extended term;

(3) if, during the period the lease is kept in effect by payment of the shut-in gas royalty, gas is sold and delivered in paying quantities from a well located within 1,000 feet of the leased premises and completed in the same producing reservoir or in any case in which drainage is occurring, the right to continue to extend the lease by paying the shut-in gas royalty shall cease, but the lease shall remain effective for the remainder of the year for which the royalty has been paid and for an additional period of not more than five years from the expiration of the primary term by the lessee paying compensatory royalty at the royalty rate provided in the lease of the value at the well of production from the well which is causing the drainage or which is completed in the same producing reservoir and within 1,000 feet of the leased premises;

(4) the compensatory royalty is to be paid monthly to the commissioner beginning on or before the last day of the month next succeeding the month in which the gas is sold and delivered from the well located within 1,000 feet of or draining the leased premises and completed in the same reservoir;

(5) if the compensatory royalty paid in any 12-month period is in an amount less than the annual shut-in gas royalty, the lessee shall pay an amount equal to the difference within 30 days from the end of the 12-month period; and

(6) none of these provisions will relieve the lessee of the obligation of reasonable development nor the obligation to drill offset wells as provided in Section 52.034 of this code.

[Acts 1977, 65th Leg., p. 2447, ch. 871, art. I, § 1, eff. Sept. 1, 1977.]

(d) The transferee shall succeed to all rights and be subject to all obligations and penalties of the original lessee.

(a) A lessee may relinquish his lease to the state at any time by recording the relinquishment in each county in which all or part of the leased area is located.

(b) Within 90 days after the execution of the relinquishment, the recorded relinquishment or a certified copy of the recorded relinquishment together with a $5 filing fee shall be filed in the land office.

(c) After the lessee relinquishes the area, he is relieved of any further obligations to the state, but the relinquishment does not release the lessee from any obligations or liabilities previously accrued in favor of the state.

[Acts 1977, 65th Leg., p. 2448, ch. 871, art. I, § 1, eff. Sept. 1, 1977.]

§ 52.028. Suspension of Oil and Gas Leases

(a) If an oil and gas lease issued by the commissioner is involved in litigation relating to its validity or to the authority of the commissioner to lease the

land, the primary term of the lease shall be suspended and all obligations imposed by the lease set aside during the period of the litigation.

(b) If the litigation is instituted at least six months before the expiration of the primary term, after final judgment is rendered, the primary term provided in the lease shall begin to run again and shall continue to run for the remainder of the period specified in the lease and all obligations and duties imposed by the lease shall be operative.

(c) The lessee shall pay all annual delay rentals and any royalties that accrue during the period of litigation in the same manner as they are paid during the period of an extended primary term. The delay rentals paid during the period of litigation shall be held and returned to the lessee if the state is unsuccessful in the litigation.

[Acts 1977, 65th Leg., p. 2448, ch. 871, art. I, § 1, eff. Sept. 1, 1977.]

§ 52.029. Forfeiture of Rights

The provisions of Subchapter F of this chapter governing the forfeiture and reinstatement of rights apply to forfeiture and reinstatement of leases issued under this subchapter, and on forfeiture of a lease, the area covered by the lease may be leased, after advertisement, by any other person.

[Acts 1977, 65th Leg., p. 2448, ch. 871, art. I, § 1, eff. Sept. 1, 1977.]

§ 52.030. Refund of Lease Money in Certain Situations

(a) If a lessee is prevented from exploring, developing, drilling, or producing oil and gas from the tract leased to him as a result of the action of any agency of the United States or of this state during the entire primary term of the lease, he is entitled to a refund of all money paid for bonus, delay rentals, and other fees under the lease as provided by legislative appropriation.

(b) A refund shall be made only on verification of the claim by the board or on the judgment of a court of competent jurisdiction.

(c) A lessee who has a claim under this section is given permission to bring suit against the state within two years after the expiration of the lease in any court of competent jurisdiction to recover the money paid.

[Acts 1977, 65th Leg., p. 2448, ch. 871, art. I, § 1, eff. Sept. 1, 1977.]

§ 52.0301. Suspension of Terms of Lease in Certain Situations

(a) If the owner of a valid oil and gas lease granted by the state is denied access to or is denied a permit to drill on or produce from the leased premises by any duly constituted authority of the United States after a bona fide attempt has been made by the owner to obtain access or a permit to drill on or produce from the leased premises, the owner may file with the board an application describing and giving the date of the action that deprives him of access to or the right to drill on or produce from the premises.

(b) If the board is satisfied that the facts included in the application are true, the board may enter an order in its minutes suspending the running of both the primary and the principal term of the lease or suspending any condition, obligation, or duty under the lease, from the date of the cause for the suspension through the continued existence of the cause for the suspension, so long as the lessee continues to make the annual rental payments that are stipulated in the lease on each anniversary date of the lease during the period of suspension.

(c) Until 90 days after the board enters an order in its minutes stating that the cause for suspension has ceased to exist, the oil and gas lease shall remain in status quo, and all obligations and conditions existing under the lease or any of those obligations or conditions that are suspended by the board are inoperative and of no force and effect except for the obligation to pay delay rentals.

(d) Ninety days after the board enters its order stating the cause for suspension has ceased to exist, the oil and gas lease shall again become operative if the rental payments have been made during the period of suspension, and all suspended obligations and conditions, including the payment of rentals, shall again attach and be in force. In the case of the suspension of the primary and principal terms of the lease, the lease shall continue in force for a period equivalent to the unexpired term of the lease on the date the cause of suspension began.

(e) The commissioner shall give notice immediately to the lessee of the entry of an order stating that the cause of suspension has ceased to exist, provided annual rental payments have been made.

(f) This section may not be construed as abridging any rights or privileges conveyed under Chapter 287, Acts of the 47th Legislature, Regular Session, 1941 (Article 5366a, Vernon's Texas Civil Statutes).

[Added by Acts 1979, 66th Leg., p. 2006, ch. 785, § 7, eff. June 13, 1979.]

§ 52.031. Extension of Lease by Commissioner

(a) At the expiration of the primary term of a lease made under the provisions of this subchapter, if production of oil or gas has not been obtained on the leased premises but drilling operations are being conducted in good faith and in good and workmanlike manner, the lessee may file in the land office on or before the expiration of the primary term a written application to the commissioner for a 30-day extension of the lease accompanied by $3,000 for 640 acres or less or $6,000 for more than 640 acres.

(b) The commissioner shall extend the lease in writing for a 30-day period from the expiration of the primary term and as long after that time as oil or gas is produced in paying quantities.

(c) As long as drilling operations are being conducted, the lessee may submit an application and payment during any 30-day extended period for an additional extension of 30 days. On receiving the application and payment, the commissioner shall again extend the lease in writing so that it will remain effective for an additional 30-day period and as long after that time as oil or gas is produced in paying quantities.

(d) No lease may be extended under this section for more than 390 days after the expiration of the primary term unless production is obtained in paying quantities.

[Acts 1977, 65th Leg., p. 2449, ch. 871, art. I, § 1, eff. Sept. 1, 1977.]

§ 52.032. Regulation of Development and Operations

(a) Development and operations on areas covered by this subchapter shall be done insofar as practicable in a manner that will prevent the pollution of water, destruction of fish, oysters, and other marine life, and obstruction of navigation.

(b) The commissioner shall adopt and enforce rules that may be necessary for the purposes stated in Subsection (a) of this section.

(c) Any rules and changes of rules adopted under this section shall be submitted to the attorney general for his written approval before the rules or their changes become effective.

[Acts 1977, 65th Leg., p. 2449, ch. 871, art. I, § 1, eff. Sept. 1, 1977.]

§ 52.033. Access to Land

(a) If it is necessary for the lessee to enter the enclosed land of another person for the purpose of ingress and egress to and from the area leased from the state and if the lessee and the owner cannot agree on the place or the conditions of entry and exit, the lessee or his agent may petition the commissioners court of the county in which all or part of the enclosure is located to open the places of ingress and egress that may be necessary.

(b) On filing the petition, the commissioners court shall delineate the roads necessary for the stated purpose in the manner provided for delineating third-class public roads.

[Acts 1977, 65th Leg., p. 2449, ch. 871, art. I, § 1, eff. Sept. 1, 1977.]

§ 52.034. Offset Wells

(a) If oil or gas is produced in commercial quantities from a well located on a privately owned area and the well is located within 1,000 feet of an area leased under this subchapter, the lessee of the state area shall begin in good faith and prosecute diligently the drilling of an offset well or wells on the area leased from the state within 60 days after the initial production on the privately owned area.

(b) An offset well shall be drilled to a depth and the means shall be employed which may be necessary to prevent undue drainage of oil or gas from beneath the state area.

(c) Within 30 days after an offset well has been completed or abandoned, a log of each well shall be filed in the land office.

(c) If production ceases and royalty is not paid, the lessee shall pay at the end of the lease year in which the royalty ceased to be paid and annually after that time in advance, in an amount determined by the board as long as the lessee desires to maintain the rights acquired under the lease, but not for more than five years from the date of the lease.

(b) If there is any conflict surrounding the drilling of an offset well under a permit from the Railroad Commission of Texas, the condemning party is required to move any interference or hindrance or to go around any offset well, and if he fails or refuses to immediately move the interference or hindrance on demand, the owner of the mineral rights is entitled to do so immediately without liability.

(b) Before an injunction or restraining order is issued or becomes effective, the court shall require the complaining party to execute a bond payable to the governor with good and sufficient sureties authorized to do business in this state in an amount determined by the court to be sufficient to protect the state from loss from drainage of the riverbed or channel, of lease or bonus or consideration, or from any other reason. In determining the amount of the bond, the court shall consider the probable and possible loss to the state by granting the injunction.

(c) The attorney general shall bring suit on the bond to recover any loss to the state caused by the suit for injunction.

(d) The lessee has the responsibility for paying royalties or having royalties paid by the date provided for payment in this section.

(e) Any royalty not paid or affidavits and supporting documents not filed when due shall become delinquent and a delinquency penalty of one percent for each 30-day period of delinquency or fractional part of that period shall be added to the amount owed, however, no penalty may be less than $5. Payment of this penalty in no way operates to prohibit the state's right of forfeiture as provided by law and does not postpone the date on which royalties were originally due. The penalty does not apply in cases of title dispute as to the state's portion of the royalty or to that portion of the royalty in dispute as to fair market value.

(c) The option to take the royalty in kind may be exercised at any time or from time to time on not less than 60 days' notice to the holder of the lease.

(d) The board, the commissioner, each board for lease other than the Board for Lease of University Lands, or the owner of the soil under Subchapter F of this chapter may negotiate and execute sales contracts or any other instruments or agreements necessary to dispose of their portion of the royalty taken in kind.

(e) This section does not apply to or have any effect on the Board for Lease of University Lands or any lease executed on university land.

(f) This section shall not be construed to surrender or in any way affect the right of the state or the owner of the soil under existing or future leases to receive royalty from its lessee on the basis of the fair market value produced from state public land or land under the provisions of Subchapter F of this chapter.

(b) An agreement that commits the royalty interest in any land or an area not listed in Subsection (a) of this section must be approved by the board, official, agent, agency, or authority of the state which has the authority to lease or to approve the lease of the land for oil and gas.

[Acts 1977, 65th Leg., p. 2457, ch. 871, art. I, § 1, eff. Sept. 1, 1977.]

The state hereby constitutes the owner of the soil its agent for the purposes herein named, and in consideration therefor, relinquishes and vests in the owner of the soil an undivided fifteen-sixteenths of all oil and gas which has been undeveloped and the value of the same that may be upon and within the surveyed and unsurveyed public free school land and asylum lands and portions of such surveys sold with a mineral classification or mineral reservation, subject to the terms of this law. The remaining undivided portion of said oil and gas and its value is hereby reserved for the use of and benefit of the public school fund and the several asylum funds.

If such owner shall fail or refuse to obtain the commencement of such a well within 100 days after the date of such notice, the relinquishment herein granted and the rights acquired thereunder shall be subject to forfeiture by the commissioner by endorsing on the file wrapper containing the papers relating to the sale of the land, words indicating such forfeiture, and such rights shall thereupon be forfeited, and notice of such forfeiture shall be forwarded to the county clerk of the county wherein the land is situated. The rights of any owner of the soil which may have ipso facto terminated under prior laws shall be reinstated and are hereby reinstated, together with all rights acquired thereunder except where rights of third parties may have intervened. § 52.175. Lease of Oil and Gas After Forfeiture

When the relinquishment herein granted has been so forfeited by the commissioner, the land shall be subject to lease for oil and gas under the procedure provided by law for the leasing of unsold surveyed public school lands. No lease shall be executed which provides for a royalty of less than one-eighth, payable to the state for the benefit of the permanent free school fund, and the lessee shall in every case pay to the surface owner amounts equal to the bonus money and the delay rentals paid to the state, and in case of production such lessee shall pay to the surface owner amounts equal to one-half of all royalty above the reserved one-eighth. Upon the termination or expiration of a lease so executed by the Commissioner of the General Land Office, or if no acceptable offer is received for such lease after due advertisement, the rights of the surface owner to act under this law shall be ipso facto reinstated.

[Acts 1977, 65th Leg., p. 2459, ch. 871, art. I, § 1, eff. Sept. 1, 1977.]

§ 52.176. Forfeiture of Rights

If any person, firm, or corporation operating under this law shall fail or refuse to make the payment of any sum within 30 days after it becomes due, or if such one or an authorized agent should knowingly make any false return or false report concerning production or drilling, or if such one should fail to file reports in the manner required by law or fail to comply with General Land Office rules and regulations or refuse the proper authority access to the records pertaining to the operations, or if such one or an authorized agent should knowingly fail or

refuse to give correct information to the proper authority, or knowingly fail or refuse to furnish the land office a correct log of any well, or if any lease is assigned and the assignment is not filed in the General Land Office as required by law, the rights acquired under the permit or lease shall be subject to forfeiture by the commissioner, and he shall forfeit same when sufficiently informed of the facts which authorize a forfeiture, and the oil and gas shall be subject to sale in the manner provided for the sale of other forfeited rights hereunder, except that the owner of the soil shall not thereby forfeit his interest in the oil and gas. Such forfeiture may be set aside and all rights theretofore existing shall be reinstated at any time before the rights of another intervene, upon satisfactory evidence of future compliance with the provisions of this subchapter.
[Acts 1977, 65th Leg., p. 2459, ch. 871, art. I, § 1, eff. Sept. 1, 1977.]

§ 52.177. Rights of Subsequent Purchaser

If one acquires a valid right by permit or lease to the oil and gas in any unsold public free school or asylum land under any other law, a subsequent purchaser of such land shall not acquire any rights to any of the oil and gas that may be therein, but when the rights under such permit or lease terminate in the manner provided in the law under which they were obtained, then the owner of the soil shall become the owner of that portion of the oil and gas herein relinquished, and shall be thereafter subject to the provisions of this law. A forfeiture of the purchase of any survey or tract for any cause shall operate as a forfeiture of the minerals therein to the state. A relinquishment to the state of a lease producing oil or gas in paying quantities shall not operate to relinquish or convey to the owner of the soil any interest whatever in the oil and gas that may be in the land included in said lease.
[Acts 1977, 65th Leg., p. 2459, ch. 871, art. I, § 1, eff. Sept. 1, 1977.]

§ 52.178. Operation Under Permit

The owner of a permit or combination of permits shall have 18 months from the date or average date thereof in which to begin drilling a well for oil and gas on some portion of the land included therein. The drilling on one permit shall be sufficient protection against forfeiture of all the permits included in a combination. Owners of permits or combination of permits included herein shall have three years after the date or average date thereof in which to complete the development of oil and gas thereon, and if oil and gas should not be found in paying quantities and a lease applied for within said time all rights in such permit or combination of permits shall terminate, and the oil and gas in such land shall become subject to the provisions of this law relating to the relinquishment of oil and gas to the owner of the soil.
[Acts 1977, 65th Leg., p. 2460, ch. 871, art. I, § 1, eff. Sept. 1, 1977.]

§ 52.179. Lease Under Permit

If oil or gas should be produced in paying quantities upon any land included in this law, the owner of the permit shall report the development to the commissioner within 30 days thereafter and apply for a lease upon such whole surveys or tracts in each permit as the owner or owners of a combination of permits may desire to be leased, and accompany the application with a log of the wells, and the correctness of the log shall be sworn to by the owner, manager, or driller, and thereupon a lease shall be issued without the payment of any additional sum of money and for a period not to exceed 10 years, subject to renewal or renewals.
[Acts 1977, 65th Leg., p. 2460, ch. 871, art. I, § 1, eff. Sept. 1, 1977.]

§ 52.180. Payments Under Permit

The owner of a permit or combination of permits who desires to avail himself of the terms of this law, shall pay the state 10 cents per acre, annually in advance, for the second and third years, and shall likewise pay the owner of the soil 10 cents per acre for the first year of such permit, before availing himself of the privileges hereof, and a like sum thereafter annually in advance. A failure to make either of said payments shall subject the permit or permits to forfeiture by the commissioner, and when sufficiently informed of the facts which subject the permits to forfeiture, said commissioner shall forfeit the same by an endorsement of forfeiture upon the wrapper containing the papers relating to the permits and sign it officially. The payment of 10 cents per acre to the owner of the soil may be made to him or to the county clerk of the county in which the land is situated, and said clerk shall deposit such payment as he receives, in some bank at the county seat to the credit of the record owner of such land. If the owner of the soil refuses to accept such payment, said clerk shall withdraw such deposit and return it to the owner of the permit. The payment, or the tender of payment, shall be evidenced by the receipt of the owner or part owner or county clerk filed among the papers in the land office relating to such permits.
[Acts 1977, 65th Leg., p. 2460, ch. 871, art. I, § 1, eff. Sept. 1, 1977.]

§ 52.181. Relinquishment Under Permit

The owner of a permit or combination of permits may relinquish to the state a permit or combination of permits or any whole survey or whole tract included in a permit at any time before obtaining a lease therefor by having such relinquishment recorded in the counties in which the land or part thereof is situated, and by filing it in the land office within 60 days after its execution, with $1 as a filing fee.
[Acts 1977, 65th Leg., p. 2460, ch. 871, art. I, § 1, eff. Sept. 1, 1977.]

§ 52.182. Damages to Soil

The payment of the 10 cents per acre and the obligation to pay the owner of the soil one-sixteenth of the production and the payment of same when produced and the acceptance of same by the owner, shall be in lieu of all damages to the soil.

[Acts 1977, 65th Leg., p. 2461, ch. 871, art. I, § 1, eff. Sept. 1, 1977.]

§ 52.183. Effective Date of Lease

No mineral lease executed by the owner of the land or minerals under this subchapter is effective until a certified copy of the lease is filed in the land office.

[Acts 1977, 65th Leg., p. 2461, ch. 871, art. I, § 1, eff. Sept. 1, 1977.]

§ 52.184. Statement of Consideration

No lease executed under this subchapter after September 17, 1939, is binding on the state unless it recites the actual and true consideration paid or promised.

[Acts 1977, 65th Leg., p. 2461, ch. 871, art. I, § 1, eff. Sept. 1, 1977.]

§ 52.185. University Land

The provisions of this subchapter relating to a combination of permits and extension of time for beginning development and time for development applies to permits on university land.

[Acts 1977, 65th Leg., p. 2461, ch. 871, art. I, § 1, eff. Sept. 1, 1977.]

§ 52.186. Lease of Oil and Gas When Owner of the Soil Unavailable

When the commissioner finds, upon the written request of any party interested in bargaining for an oil and gas lease, that the owner of the soil or of any undivided interest therein of any land subject to the terms of this subchapter is unavailable to act as the state's agent for oil and gas leasing purposes, or that his name, identity, or place of residence is unknown, such land or undivided interest therein shall be subject to lease for oil and gas under the procedure provided by Subchapter B of this Chapter 52[1] for the leasing of unsold surveyed public school lands.

An owner of the soil or of an undivided interest therein may be found to be unavailable by the commissioner if the written request for such finding is supported by a sworn affidavit detailing attempts to locate and contact such surface owner, which attempts satisfy the commissioner that reasonable diligence has been used in attempting to locate and contact such surface owner and by written certification from the tax assessor-collector of each taxing entity in which the land is located stating that ad valorem taxes owed to that entity have not been paid by the owner of the soil or an undivided interest therein or his representative for any year within the five years preceding the year in which the written request is submitted to the commissioner under this section. Notice of such finding shall forthwith be mailed to the person shown by the records of the tax assessor-collector in the county where the land is located to be the surface owner at his last known address as shown by the records of said office.

If the surface owner appears within 30 days after the date of such finding or prior to the execution of an oil and gas lease on his land pursuant to this section, his rights to act under this subchapter may, at the discretion of the commissioner and upon such terms as the commissioner may prescribe, be reinstated. If the owner of the soil or of any undivided interest therein appears within two years after the execution of such oil and gas lease on his land pursuant to this section, he shall be entitled to one-half of all royalties theretofore paid or thereafter to be paid under such oil and gas lease, reduced in the proportion which his interest bears to the whole and undivided surface estate, upon showing to the satisfaction of the commissioner that a reasonably diligent search would have resulted in his being located.

Upon the termination or expiration of a lease for oil and gas executed pursuant to this section, or if no acceptable offer is received for such lease after due advertisement, the rights of the owner of the soil to act under this subchapter shall be ipso facto reinstated.

(1) "Department" means the Parks and Wildlife Department.

(2) "Line of vegetation" means the extreme seaward boundary of natural vegetation which spreads continuously inland.

(3) "Highest wave" means the highest swell of the surf with such regularity that vegetation cannot grow and does not refer to the extraordinary waves which temporarily extend above the line of vegetation during storms and hurricanes.

(4) "Littoral owner" means the owner of land adjacent to the shore and includes anyone acting under the littoral owner's authority.

(5) "Public beach" means any beach area, whether publicly or privately owned, extending inland from the line of mean low tide to the line of vegetation bordering on the Gulf of Mexico to which the public has acquired the right of use or easement to or over the area by prescription, dedication, presumption, or has retained a right by virtue of continuous right in the public since time immemorial, as recognized in law and custom.

[Acts 1977, 65th Leg., p. 2477, ch. 871, art. I, § 1, eff. Sept. 1, 1977.]

SUBCHAPTER B. ACCESS TO PUBLIC BEACHES

§ 61.011. Public Policy

It is declared and affirmed to be the public policy of this state that the public, individually and collectively, shall have the free and unrestricted right of ingress and egress to and from the state-owned beaches bordering on the seaward shore of the Gulf of Mexico, or if the public has acquired a right of use or easement to or over an area by prescription, dedication, or has retained a right by virtue of continuous right in the public, the public shall have the free and unrestricted right of ingress and egress to the larger area extending from the line of mean low tide to the line of vegetation bordering on the Gulf of Mexico.

[Acts 1977, 65th Leg., p. 2477, ch. 871, art. I, § 1, eff. Sept. 1, 1977.]

§ 61.012. Definition

In this subchapter, "beach" means state-owned beaches to which the public has the right of ingress and egress bordering on the seaward shore of the Gulf of Mexico or any larger area extending from the line of mean low tide to the line of vegetation bordering on the Gulf of Mexico if the public has acquired a right of use or easement to or over the area by prescription, dedication, or has retained a right by virtue of continuous right in the public.

[Acts 1977, 65th Leg., p. 2477, ch. 871, art. I, § 1, eff. Sept. 1, 1977.]

§ 61.013. Prohibition of Obstructions

(a) It is an offense against the public policy of this state for any person to create, erect, or construct any obstruction, barrier, or restraint that will interfere with the free and unrestricted right of the public, individually and collectively:

(1) to enter or to leave any public beach; or

(2) to use lawfully and legally any public beach or any larger area abutting on or contiguous to a public beach if the public has acquired a right of use or easement to or over the area by prescription, dedication, or has retained a right by virtue of continuous right in the public.

(b) For purposes of this section, "public beach" shall mean any beach bordering on the Gulf of Mexico which extends inland from the line of mean low tide to the natural line of vegetation bordering on the seaward shore of the Gulf of Mexico, or such larger contiguous area to which the public has acquired a right of use or easement to or over by prescription, dedication, or estoppel, or has retained a right by virtue of continuous right in the public since time immemorial as recognized by law or custom. This definition does not include a beach which is not accessible by a public road or public ferry.

(c) A person who creates, erects, or constructs an obstruction, barrier, or restraint in violation of Subsection (a) of this section is liable to the state for a civil penalty of not less than $50 nor more than $1,000.

[Acts 1977, 65th Leg., p. 2478, ch. 871, art. I, § 1, eff. Sept. 1, 1977. Amended by Acts 1979, 66th Leg., p. 1607, ch. 681, § 2, eff. Aug. 27, 1979.]

§ 61.014. Denial of Access by Posting

(a) As used in this section, "public beach" means the area extending from the line of mean low tide of the Gulf of Mexico to the line of vegetation bordering on the Gulf of Mexico, or to a line 200 feet inland from the line of mean low tide, whichever is nearer the line of mean low tide, if the public has acquired a right of use or easement to or over the area by prescription, dedication, or has retained a right by virtue of continuous right in the public.

(b) Any person who displays or causes to be displayed on any public beach any sign, marker, or warning, or who shall make or have made any written or oral communication which states that the public beach is private property or who states in any other manner that the public does not have the right of access to the public beach in violation of the lawful access rights of the public guaranteed by this subchapter is liable to the state for a civil penalty of not less than $50 nor more than $1,000.

(c) Each day that the communication is made constitutes a separate offense.

(d) Any person who violates the provisions of this section shall be prosecuted in the county in which the public beach is located.

(e) This section does not apply to any island or peninsula that is not accessible by public road or common carrier ferry facility so long as the condition exists.

[Acts 1977, 65th Leg., p. 2478, ch. 871, art. I, § 1, eff. Sept. 1, 1977. Amended by Acts 1979, 66th Leg., p. 1607, ch. 681, § 1, eff. Aug. 27, 1979.]

§ 61.015. Satisfaction of Ingress and Egress Requirement

The requirement of free and unrestricted right of ingress and egress over an area landward of the line of vegetation is considered fully satisfied by access roads or ways which are in existence now and available to the public or which by or with the approval of any governmental authority having jurisdiction may be provided in the future.

[Acts 1977, 65th Leg., p. 2478, ch. 871, art. I, § 1, eff. Sept. 1, 1977.]

§ 61.016. Boundaries for Areas With No Marked Vegetation Line

(a) To determine the elevation reached by the highest waves of the Gulf of Mexico, in any area in which there is no clearly marked vegetation line (for instance, a line immediately behind well-defined dunes or mounds of sand and at a point where vegetation begins) recourse shall be to the nearest clearly marked line of vegetation on each side of the unmarked area.

(b) The "line of vegetation" for the unmarked area shall be the line of constant elevation connecting the two clearly marked lines of vegetation on each side.

(c) If the elevation of the two points on each side of the area are not the same, the extension defining the line reached by the highest waves of the Gulf shall be the average elevation as between the two points, but if there is no clearly marked line of vegetation, the extended line shall not extend inland further than 200 feet from the seaward line of mean low tide.

[Acts 1977, 65th Leg., p. 2478, ch. 871, art. I, § 1, eff. Sept. 1, 1977.]

§ 61.017. Line of Vegetation Unaffected by Certain Conditions

(a) The "line of vegetation" is not affected by the occasional sprigs of salt grass on mounds and dunes or seaward from them and by artificial fill, the addition or removal of turf, or by other artificial changes in the natural vegetation of the area.

(b) If the changes listed in Subsection (a) of this section are made and the vegetation line is obliterated or is created artificially, the line of vegetation

shall be determined in the same manner as in those areas covered by Section 61.016 of this code, but if there is a vegetation line consistently following a line more than 200 feet from the seaward line of mean low tide, the 200-foot line shall constitute the landward boundary of the area subject to public easement until a final court adjudication establishes the line in another place.

[Acts 1977, 65th Leg., p. 2479, ch. 871, art. I, § 1, eff. Sept. 1, 1977.]

§ 61.018. Suit to Remove Obstructions

(a) The attorney general or any county attorney, district attorney, or criminal district attorney shall file in a district court of Travis County, or in the county in which the property is located, a suit to obtain either a temporary or permanent court order or injunction to remove any obstruction or barrier or to prohibit any restraint or interference which restricts the right of the public, individually or collectively, to free and unrestricted ingress and egress to and from any area described in Section 61.012 of this code or any property abutting on or contiguous to the state-owned beach on which the public has acquired a prescriptive right.

(b) In the same suit, the attorney general, county attorney, district attorney, or criminal district attorney may seek recovery of the costs of removing any obstruction or barrier if it is removed by public authorities pursuant to an order of the court.

[Acts 1977, 65th Leg., p. 2479, ch. 871, art. I, § 1, eff. Sept. 1, 1977.]

§ 61.019. Declaratory Judgment Suits

(a) A littoral owner whose rights are determined or affected by this subchapter may bring suit for a declaratory judgment against the state to try the issue or issues.

(b) Service of citation on the state shall be made by serving the citation on the attorney general.

[Acts 1977, 65th Leg., p. 2479, ch. 871, art. I, § 1, eff. Sept. 1, 1977.]

§ 61.020. Prima Facie Evidence

In a suit brought or defended under this subchapter or whose determination is affected by this subchapter, a showing that the area in question is located in the area from mean low tide to the line of vegetation is prima facie evidence that:

(1) the title of the littoral owner does not include the right to prevent the public from using the area for ingress and egress to the sea; and

(2) there is imposed on the area, subject to proof of easement, a prescriptive right or easement in favor of the public for ingress and egress to the sea.

[Acts 1977, 65th Leg., p. 2479, ch. 871, art. I, § 1, eff. Sept. 1, 1977.]

§ 61.021. Area Not Covered by Subchapter

None of the provisions of this subchapter apply to beaches on islands or peninsulas that are not accessible by a public road or ferry facility for as long as the condition exists.

[Acts 1977, 65th Leg., p. 2480, ch. 871, art. I, § 1, eff. Sept. 1, 1977.]

§ 61.022. Exemption for Certain Structures

The provisions of this subchapter do not prevent any agency, department, institution, subdivision, or instrumentality of this state or of the federal government from erecting or maintaining any groin, seawall, barrier, pass, channel, jetty, or other structure as an aid to navigation, protection of the shore, fishing, safety, or other lawful purpose authorized by the constitution or laws of this state or the United States.

[Acts 1977, 65th Leg., p. 2480, ch. 871, art. I, § 1, eff. Sept. 1, 1977.]

§ 61.023. Effect on Land Titles and Property Adjacent to and on Beaches

The provisions of this subchapter shall not be construed as affecting in any way the title of the owners of land adjacent to any state-owned beach bordering on the seaward shore of the Gulf of Mexico or to the continuation of fences for the retention of livestock across sections of beach which are not accessible to motor vehicle traffic by public road or by beach.

[Acts 1977, 65th Leg., p. 2480, ch. 871, art. I, § 1, eff. Sept. 1, 1977.]

§ 61.024. Effect of Subchapter on Definition of Public Beach

None of the provisions of this subchapter shall reduce, limit, construct, or vitiate the definition of public beaches which has been defined from time immemorial in law and custom.

[Acts 1977, 65th Leg., p. 2480, ch. 871, art. I, § 1, eff. Sept. 1, 1977.]

SUBCHAPTER E. LICENSES FOR BUSINESS ESTABLISHMENTS

§ 61.161. Public Policy

It is the public policy of this state that the state-owned beaches bordering on the seaward shore of the Gulf of Mexico, and any larger area extending from the line of mean low tide to the line of vegetation bordering on the Gulf of Mexico, if the public has acquired a right of use or easement to or over the area by the prescription or dedication or has retained a right by virtue of continuous right in the public, shall be used primarily for recreational purposes, and any use which substantially interferes with the enjoyment of the beach area by the public shall constitute an offense against the public policy of the state. Nothing in this subchapter prevents any agency, department, political subdivision, or municipal corporation of this state from exercising its lawful authority under any law of this state to regulate safety conditions on any beach area subject to public use.

[Acts 1977, 65th Leg., p. 2485, ch. 871, art. I, § 1, eff. Sept. 1, 1977.]

§ 61.162. Findings

(a) The legislature finds that the operation and maintenance of business establishments at fixed or permanent locations on the public beaches of this state bordering on the seaward shore of the Gulf of Mexico constitute a potential public health hazard and a substantial interference with the free and unrestricted rights of ingress and egress of the public, both individually and collectively, to and from the state-owned beaches bordering on the seaward shore of the Gulf of Mexico or any larger area extending from the line of mean low tide to the line of vegetation bordering on the Gulf of Mexico if the public has acquired a right of use or easement to or

over the area by prescription, dedication, or has retained a right by virtue of continuous right in the public.

(b) The legislature finds that a reasonable number of mobile business establishments which traverse the public beach while doing business are beneficial to the public interest and do not interfere with the free and unrestricted rights of ingress and egress of the public as provided in this subchapter.

[Acts 1977, 65th Leg., p. 2486, ch. 871, art. I, § 1, eff. Sept. 1, 1977.]

§ 61.163. Definition

In this subchapter, "business establishment" means any structure or vehicle where any commodity including memberships in any private club or other similar organization is offered to the public for sale or lease but does not include any structure or vehicle where only services are offered to the public for sale.

[Acts 1977, 65th Leg., p. 2486, ch. 871, art. I, § 1, eff. Sept. 1, 1977.]

The application shall include:

(1) the name and street address of the applicant;

(3) the limits of the territory within which the mobile business establishment will operate.

[Acts 1977, 65th Leg., p. 2486, ch. 871, art. I, § 1, eff. Sept. 1, 1977.]

§ 61.166. Filing Fee

(a) The application shall be accompanied by a filing fee in an amount determined by the department, not to exceed $25.

(b) The filing fee shall be deposited in the state treasury in the Land and Water Recreation and Safety Fund 63, and the department may pay from this fund the expenses of carrying out the provisions of this subchapter.

[Acts 1977, 65th Leg., p. 2486, ch. 871, art. I, § 1, eff. Sept. 1, 1977.]

§ 61.167. Separate Applications

Any applicant who plans to operate more than one mobile business establishment must file a separate application accompanied by a separate filing fee for each mobile business establishment that he seeks to have licensed.

[Acts 1977, 65th Leg., p. 2486, ch. 871, art. I, § 1, eff. Sept. 1, 1977.]

§ 61.168. Granting License

(a) On finding that the issuance of a license is consistent with recreational needs and the public welfare, and that the mobile business establishment would not create a traffic or safety hazard, and on compliance with this subchapter by the applicant, the department shall grant the license.

(b) The license shall be valid for one year from the day it is issued.

(c) If the license is not granted, the department shall return the filing fee to the applicant.

[Acts 1977, 65th Leg., p. 2487, ch. 871, art. I, § 1, eff. Sept. 1, 1977.]

§ 61.169. Applications Not to be Granted

The department shall not grant an application:

(1) for a business establishment located at a fixed or permanent location on a public beach;

(2) for a business establishment that does not traverse the beach while doing business; or

(3) that does not otherwise meet the terms and provisions of this subchapter.

[Acts 1977, 65th Leg., p. 2487, ch. 871, art. I, § 1, eff. Sept. 1, 1977.]

§ 61.170. License Prohibition Against Glass Containers

(a) Each license granted under this subchapter authorizing the sale of commodities on a public beach shall include a prohibition against the sale of any commodity in a glass container.

(b) Any person selling a commodity in a glass container on a public beach outside the boundaries of any incorporated city shall have his rights conferred by the license immediately terminated and revoked as provided in Section 61.172 of this code.

[Acts 1977, 65th Leg., p. 2487, ch. 871, art. I, § 1, eff. Sept. 1, 1977.]

§ 61.171. Assignment

No license issued under this subchapter may be assigned.

[Acts 1977, 65th Leg., p. 2487, ch. 871, art. I, § 1, eff. Sept. 1, 1977.]

§ 61.172. Termination and Revocation of License

(a) The failure or refusal of the licensee to comply with the terms and conditions of a license shall operate as an immediate termination and revocation of all rights conferred in or claimed under the license.

(b) The termination and revocation of the license is not effective until notice is delivered by mail to the address of the licensee listed on the application for the license.

[Acts 1977, 65th Leg., p. 2487, ch. 871, art. I, § 1, eff. Sept. 1, 1977.]

§ 61.173. Maximum Territorial Limits

(a) If territorial limitations are applied uniformly to all applicants seeking to operate mobile business establishments in the territory, the department may establish maximum territorial limits over which mobile business establishments may operate.

(b) A license to sell or lease only surfboards and related equipment may not be limited as to the territory over which the mobile business establishment may operate.

[Acts 1977, 65th Leg., p. 2487, ch. 871, art. I, § 1, eff. Sept. 1, 1977.]

§ 61.174. Additional Standards

In addition to other standards provided in this subchapter, it is the intention of the legislature that the department exercise the authority delegated to it under this subchapter according to the following considerations:

(1) that the number of mobile business establishments licensed by the department should not constitute a substantial interference with the free and unrestricted rights of ingress and egress of the public provided in this subchapter;

(2) that the number of licenses issued by the department under this subchapter are sufficient to ensure free and unrestricted competition in selling or leasing of commodities to the public; and

(3) that no person should be allowed to operate any mobile business establishment on any public beach in restraint of trade or competition by which the person controls all or substantially all the business establishments on the public beach licensed by the department.

[Acts 1977, 65th Leg., p. 2487, ch. 871, art. I, § 1, eff. Sept. 1, 1977.]

§ 61.175. Rules, Procedures, and Conditions

§ 61.176. Areas Exempt From Subchapter

This subchapter does not apply to a public beach that is within the boundaries of a state park designated by the department or to a remote beach on any island or peninsula which is not accessible by public road or common carrier ferry facility as long as that condition exists.

[Acts 1977, 65th Leg., p. 2488, ch. 871, art. I, § 1, eff. Sept. 1, 1977.]

§ 61.177. Penalty

A person, who for himself or on behalf of or under the direction of another person, operates any business establishment, whether mobile or at a fixed or permanent location, on any public beach outside the boundaries of any incorporated city without first obtaining a license to operate the business establishment from the department shall be fined not less than $10 nor more than $200.

[Acts 1977, 65th Leg., p. 2488, ch. 871, art. I, § 1, eff. Sept. 1, 1977.]

SUBCHAPTER F. REMOVAL OF SAND, MARL, GRAVEL, AND SHELL

§ 61.211. Findings

The legislature finds that the unregulated excavation, taking, removal, and carrying away of sand, marl, gravel, and shell from islands and peninsulas bordering on the Gulf of Mexico and from the public beaches of the state constitute a substantial interference with public enjoyment of Texas beaches and a hazard to life and property.

(3) to any agency of the federal or state government or any county, city, or other political subdivision or any of their agents or officers acting in their official capacities.

(b) Any person who holds a lease that was issued by the state under Chapter 377, Acts of the 57th Legislature, Regular Session, 1961 (Article 5415e, Vernon's Texas Civil Statutes), before it was repealed shall be treated as an owner of the land and shall be entitled to excavate, take, remove, and carry away sand, marl, gravel, or shell for the purposes provided in Subsection (a) of this section without obtaining a permit from the commissioners court.

§ 61.213. Application

outside the boundaries of an incorporated city, town, or village, he must submit a written application to the commissioners court of the county in which the excavation, taking, removal, or carrying away is to take place.
[Acts 1977, 65th Leg., p. 2489, ch. 871, art. I, § 1, eff. Sept. 1, 1977.]

§ 61.214. Contents of Application

No permit may be issued by the commissioners court under this subchapter to excavate, take, remove, or carry away sand, marl, gravel, or shell from land owned by the state, public beach, or privately owned land that is subject to this subchapter and that is not located on a public beach, unless the applicant is the owner of the land on which the proposed excavating, taking, removing, or carrying away is to take place or unless the applicant is acting with the knowledge and consent of the owner.

§ 61.219. Issuance of Permit

(a) On a finding that the proposed excavating, taking, removing, or carrying away would not create hazardous conditions or imperil lives or property by exposing the island or peninsula or public beach to the ravages of storm water, the commissioners court may issue a permit to the applicant, and it shall be valid for six months from the date of its issuance.

(b) The decision to issue a permit shall be made with the advice and counsel of the county engineer in counties in which the commissioners court employs a county engineer.

(c) None of the provisions of this subchapter prohibit a commissioners court from issuing a permit to a person who holds a right-of-way easement granted by the commissioner for a pipeline to cross state land, provided the applicant complies with the provisions of this subchapter relating to the issuance of permits.

SUBCHAPTER A. GENERAL PROVISIONS

§ 62.001. Applicability

(a) The provisions of this chapter apply to counties that are located or border on the Gulf of Mexico and have within their boundaries beaches that are suitable for park purposes. The suitability of a beach for park purposes is established conclusively when the commissioners court of the county makes a finding that the beach located within its boundaries, but not located within the boundaries of an incorporated city, is suitable for park purposes.

(b) As long as an island or peninsula is not accessible by a public road or common carrier ferry facility, the provisions of this chapter do not apply to that island or peninsula.

(c) The provisions of this chapter do not interfere with, preempt, or in any manner restrict or usurp the authority of the land office over state-owned beaches.

(d) The provisions of this chapter do not prohibit the creation of, or limit the lawful actions of, a beach park board of trustees of a home-rule city as provided in Chapter 33, Acts of the 57th Legislature, 3rd Called Session, 1962, as amended (Article 6081g–1, Vernon's Texas Civil Statutes).

(e) The provisions of this chapter do not permit any interference with the right the public has under the provisions of Subchapter B of Chapter 61 of this code to the free and unrestricted use of, and to ingress and egress to, the area bordering on the Gulf of Mexico from mean low tide to the line of vegetation, as that term is defined in Subsection (2), Section 61.001 of this code. A county, county official, or anyone acting under the authority of this chapter may not exercise any authority, contract out a right to exercise authority, or otherwise delegate authority beyond that specifically granted to it in Sections 61.122 through 61.128 of this code over that area notwithstanding any of the specific provisions of this chapter. The rights established in Subchapters B and D of Chapter 61 of this code are paramount over the rights or interests that might otherwise be created by the provisions of this chapter, and nothing in this chapter encroaches on those rights or upon land, or interests in land, that may ultimately be held subject to those rights.

[Acts 1977, 65th Leg., p. 2492, ch. 871, art. I, § 1, eff. Sept. 1, 1977.]

§ 62.002. Definition

In this chapter, "board" means the Beach Park Board of Trustees.

§ 62.101. Legislative Intent

It is the intent of the legislature in enacting the provisions of this chapter that the rights established or recognized in Subchapters B and D of Chapter 61 of this code are paramount over any rights or interests that might otherwise be considered created by this chapter, and none of the provisions of this chapter may trench on those rights or encroach on land or interests in land that may ultimately be held subject to those rights.

Section 3.11(c) of the Code Construction Act (Civil Statutes, art. 5429b–2) provides, in part, that the repeal of a statute by a code does not affect an amendment of the statute by the same legislature which enacted the code and that the amendment is preserved and given effect as part of the code provision.

SUBCHAPTER A. GENERAL PROVISIONS

§ 63.001. Findings of Fact

The legislature finds and declares:

(1) that the barrier islands and peninsulas of this state and the adjacent mainland areas contain a significant portion of the state's human, natural, and recreational resources;

(2) that these areas are wholly or in part protected from the action of the water of the Gulf of Mexico and storms on the Gulf by a system of natural or artificially constructed vegetated sand dunes that provide a protective barrier for adjacent land and inland water and land against the action of sand, wind, and water;

(3) that certain persons have from time to time modified or destroyed the effectiveness of the protective barriers in the process of developing the shoreline for various purposes;

(4) that the operation of recreational vehicles over these dunes has destroyed the natural vegetation on them;

(5) that these practices constitute serious threats to the safety of adjacent properties, to public highways, to the taxable basis of adjacent property and constitute a real danger to the health, safety, and welfare of persons living, visiting, or sojourning in the area;

(6) that it is necessary to protect these dunes as provided in this chapter because stabilized, vegetated dunes offer the best natural defense against storms;

(7) that vegetated stabilized dunes help preserve state-owned beaches and shores by protecting against erosion of the shoreline;

(8) that the area bounded on the north by the Mansfield Ship Channel and extending to the southern tip of South Padre Island is an area of irregular dunes, the vast majority of which are unvegetated, unstable, and migratory, and these dunes do not afford significant protection to persons and property inland from this area; and

(9) that the area bounded on the north by the inlet known as Aransas Pass and on the south by the Mansfield Ship Channel is an area of a mixture of irregular dunes as described in Subdivision (8) of this section and dunes that afford protection to persons and property inland.

[Acts 1977, 65th Leg., p. 2499, ch. 871, art. I, § 1, eff. Sept. 1, 1977.]

§ 63.002. Definitions.

In this chapter:

(1) "Commissioner" means the Commissioner of the General Land Office.

(2) "Barrier island" means an island bordering on the Gulf of Mexico and entirely surrounded by water.

(3) "Peninsula" means an arm of land bordering on the Gulf of Mexico surrounded on three sides by water.

(4) "Recreational vehicle" means a dune buggy, marsh buggy, minibike, trail bike, jeep, or any other mechanized vehicle that is being used for recreational purposes, but does not include any vehicle not being used for recreational purposes.

[Acts 1977, 65th Leg., p. 2500, ch. 871, art. I, § 1, eff. Sept. 1, 1977.]

§ 63.003. Effect of Chapter

The provisions of this chapter do not apply to any island or peninsula not accessible by public road or common carrier ferry facility for as long as that condition exists.

[Acts 1977, 65th Leg., p. 2500, ch. 871, art. I, § 1, eff. Sept. 1, 1977.]

(3) "Pool" means an underground reservoir containing a connected accumulation of crude petroleum oil, or natural gas, or both.

(4) "Product" and "product of oil or gas" mean a commodity or thing made or manufactured from oil or gas and derivatives or by-products of oil or gas, including refined crude oil, crude tops, topped crude, processed crude petroleum, residue from crude petroleum, cracking stock, uncracked fuel oil, treated crude oil, fuel oil, residuum, gas oil, naphtha, distillate, gasoline, kerosene, benzine, wash oil, waste oil, lubricating oil, casinghead gas, casinghead gasoline, blended gasoline, and blends or mixtures of oil, or gas, or any derivatives or by-products of them.

(b) "Oil" means crude petroleum oil, crude petroleum, and crude oil, and "gas" means natural gas. These terms shall not be construed as referring to substances different from those referred to in this chapter and other laws as "oil and gas" and these terms mean the same whether used in this chapter or in other laws relating to the conservation of oil and gas.

[Acts 1977, 65th Leg., p. 2514, ch. 871, art. I, § 1, eff. Sept. 1, 1977.]

§ 85.002. Antitrust and Monopoly Statutes

(a) The provisions of this chapter that were formerly a part of Chapter 26, Acts of the 42nd Legislature, 1st Called Session, 1931, as amended, Chapter 2, Acts of the 42nd Legislature, 4th Called Session, 1932, as amended, and Chapter 76, General Laws, Acts of the 44th Legislature, Regular Session, 1935, as amended, do not affect, alter, diminish, change, or modify the antitrust and monopoly laws of this state and do not directly or indirectly authorize a violation of the antitrust and monopoly laws of this state.

SUBCHAPTER C. PROVISIONS GENERALLY APPLICABLE TO THE CONSERVATION OF OIL AND GAS

§ 85.041. Acts Prohibited in Violation of Laws, Rules, and Orders

(a) The purchase, acquisition, or sale, or the transporting, refining, processing, or handling in any other way, of oil or gas, produced in whole or in part in violation of any oil or gas conservation statute of this state or of any rule or order of the commission under such a statute, is prohibited.

(b) The purchase, acquisition, or sale, or the transporting, refining, processing, or handling in any other way, of any product of oil or gas which is derived in whole or in part from oil or gas or any product of either, which was in whole or part produced, purchased, acquired, sold, transported, refined, processed, or handled in any other way, in violation of any oil or gas conservation statute of this state, or of any rule or order of the commission under such a statute, is prohibited.

[Acts 1977, 65th Leg., p. 2516, ch. 871, art. I, § 1, eff. Sept. 1, 1977.]

§ 85.042. Rules and Orders

(b) When necessary, the commission shall make and enforce rules either general in their nature or applicable to particular fields for the prevention of actual waste of oil or operations in the field dangerous to life or property.

[Acts 1977, 65th Leg., p. 2516, ch. 871, art. I, § 1, eff. Sept. 1, 1977.]

§ 85.043. Application of Certain Rules and Orders

If the commission requires a showing that refined products were manufactured from oil legally produced, the requirement shall be of uniform application throughout the state; provided that, if the rule or order is promulgated for the purpose of controlling a condition in any local area or preventing a violation in any local area, then on the complaint of a person that the same or similar conditions exist in some other local area and the promulgation and enforcement of the rule could be beneficially applied to that additional area, the commission shall determine whether or not those conditions do exist, and if it is shown that they do, the rule or order shall be enlarged to include the additional area.

[Acts 1977, 65th Leg., p. 2516, ch. 871, art. I, § 1, eff. Sept. 1, 1977.]

[Acts 1977, 65th Leg., p. 2516, ch. 871, art. I, § 1, eff. Sept. 1, 1977.]

§ 85.045. Waste Illegal and Prohibited

The production, storage, or transportation of oil or gas in a manner, in an amount, or under conditions that constitute waste is unlawful and is prohibited.

[Acts 1977, 65th Leg., p. 2517, ch. 871, art. I, § 1, eff. Sept. 1, 1977.]

§ 85.046. Waste

(a) The term "waste," among other things, specifically includes:

(1) operation of any oil well or wells with an inefficient gas-oil ratio and the commission may determine and prescribe by order the permitted gas-oil ratio for the operation of oil wells;

(2) drowning with water a stratum or part of a stratum that is capable of producing oil or gas or both in paying quantities;

(3) underground waste or loss, however caused and whether or not the cause of the underground waste or loss is defined in this section;

(4) permitting any natural gas well to burn wastefully;

(5) creation of unnecessary fire hazards;

(6) physical waste or loss incident to or resulting from drilling, equipping, locating, spacing, or operating a well or wells in a manner that reduces or tends to reduce the total ultimate recovery of oil or gas from any pool;

(7) waste or loss incident to or resulting from the unnecessary, inefficient, excessive, or improper use of the reservoir energy, including the gas energy or water drive, in any well or pool; however, it is not the intent of this section or the provisions of this chapter that were formerly a part of Chapter 26, Acts of the 42nd Legislature, 1st Called Session, 1931, as amended, to require repressuring of an oil pool or to require that the separately owned properties in any pool be unitized under one management, control, or ownership;

(8) surface waste or surface loss, including the temporary or permanent storage of oil or the placing of any product of oil in open pits or earthen storage, and other forms of surface waste or surface loss including unnecessary or excessive surface losses, or destruction without beneficial use, either of oil or gas;

(9) escape of gas into the open air in excess of the amount necessary in the efficient drilling or operation of the well from a well producing both oil and gas; and

(10) production of oil in excess of transportation or market facilities or reasonable market demand, and the commission may determine when excess production exists or is imminent and ascertain the reasonable market demand.

(b) Notwithstanding the provisions contained in this section or elsewhere in this code or in other statutes or laws, the commission may permit production by commingling oil or gas or oil and gas from multiple stratigraphic or lenticular accumulations of oil or gas or oil and gas where the commission, after notice and hearing, has found that producing oil or gas or oil and gas in a commingled state will prevent waste, promote conservation, or protect correlative rights.

[Acts 1977, 65th Leg., p. 2517, ch. 871, art. I, § 1, eff. Sept. 1, 1977. Amended by Acts 1979, 66th Leg., p. 673, ch. 300, § 1, eff. May 29, 1979.]

§ 85.047. Exclusion From Definition of Waste

The use of gas produced from an oil well within the permitted gas-oil ratio for manufacture of natural gasoline shall not be included in the definition of waste.

[Acts 1977, 65th Leg., p. 2517, ch. 871, art. I, § 1, eff. Sept. 1, 1977.]

§ 85.048. Authority to Limit Production

(a) Under the provisions of Subsection (10), Section 85.046 of this code, the commission shall not restrict the production of oil from any new field brought into production by exploration until the total production from that field is 10,000 barrels of oil a day in the aggregate.

(b) The commission's authority to restrict production from a new field under other provisions of Section 85.046 of this code is not limited by this section.

[Acts 1977, 65th Leg., p. 2517, ch. 871, art. I, § 1, eff. Sept. 1, 1977.]

§ 85.049. Hearing

(a) On verified complaint of any person interested in the subject matter that waste of oil or gas is taking place in this state or is reasonably imminent, or on its own initiative, the commission, after proper notice, may hold a hearing to determine whether or not waste is taking place or is reasonably imminent and if any rule or order should be adopted or if any other action should be taken to correct, prevent, or lessen the waste.

(b) The hearing shall be held at the time and place determined by the commission.

[Acts 1977, 65th Leg., p. 2517, ch. 871, art. I, § 1, eff. Sept. 1, 1977.]

§ 85.050. Procedure at Hearing

(a) At the hearing, interested parties shall be entitled to be heard and to introduce evidence and require the attendance of witnesses.

(b) The production of evidence may be required as provided by law.

[Acts 1977, 65th Leg., p. 2518, ch. 871, art. I, § 1, eff. Sept. 1, 1977.]

§ 85.051. Adoption of Rule or Order

If the commission finds at the hearing that waste is taking place or is reasonably imminent, it shall adopt a rule or order in the manner provided by law as it considers reasonably required to correct, prevent, or lessen the waste.

[Acts 1977, 65th Leg., p. 2518, ch. 871, art. I, § 1, eff. Sept. 1, 1977.]

§ 85.052. Compliance With Rule or Order

From and after the promulgation of a rule or order of the commission, it is the duty of each person affected by the rule or order to comply with it.

[Acts 1977, 65th Leg., p. 2518, ch. 871, art. I, § 1, eff. Sept. 1, 1977.]

§ 85.053. Distribution, Proration, and Apportionment of Allowable Production

If a rule or order of the commission limits or fixes in a pool or portion of a pool the production of oil, or

the production of gas from wells producing gas only, the commission shall distribute, prorate, or otherwise apportion or allocate the allowable production among the various producers on a reasonable basis.
[Acts 1977, 65th Leg., p. 2518, ch. 871, art. I, § 1, eff. Sept. 1, 1977.]

§ 85.054. Allowable Production of Oil

(a) To prevent unreasonable discrimination in favor of one pool as against another, and on written complaint and proof of such discrimination, the commission may allocate or apportion the allowable production of oil on a fair and reasonable basis among the various pools in the state.

(b) In allocating or ascertaining the reasonable market demand for the entire state, the reasonable market demand of one pool shall not be discriminated against in favor of another pool.

(c) The commission shall determine the reasonable market demand of the respective pool as the basis for determining the allotments to be assigned to the respective pool so that discrimination may be prevented.
[Acts 1977, 65th Leg., p. 2518, ch. 871, art. I, § 1, eff. Sept. 1, 1977.]

§ 85.055. Allowable Production of Gas

(a) If full production from wells producing gas only from a common source of supply of gas in this state is in excess of the reasonable market demand, the commission shall inquire into the production and reasonable market demand for the gas and shall determine the allowable production from the common source of supply.

(b) The allowable production from a common source of supply is that portion of the reasonable market demand that can be produced without waste.

(c) The commission shall allocate, distribute, or apportion the allowable production from the common source of supply among the various producers on a reasonable basis and shall limit the production of each producer to the amount allocated or apportioned to the producer.
[Acts 1977, 65th Leg., p. 2518, ch. 871, art. I, § 1, eff. Sept. 1, 1977.]

§ 85.056. Public Interest

In the administration of the provisions of this chapter that were formerly a part of Chapter 2, Acts of the 42nd Legislature, 4th Called Session, 1932, as amended, the commission shall take into consideration and protect the rights and interests of the purchasing and consuming public in oil and all its products, such as gasoline and lubricating oil.
[Acts 1977, 65th Leg., p. 2519, ch. 871, art. I, § 1, eff. Sept. 1, 1977.]

§ 85.057. Restriction on Unexplored Territory

The provisions of this chapter that were formerly a part of Chapter 2, Acts of the 42nd Legislature, 4th Called Session, 1932, as amended, shall not be construed to grant the commission any authority to restrict or in any manner limit the drilling of wells to explore for oil or gas or both in territory that is not known to produce either oil or gas.
[Acts 1977, 65th Leg., p. 2519, ch. 871, art. I, § 1, eff. Sept. 1, 1977.]

§ 85.058. Commission Inquiry and Determination

From time to time, the commission shall inquire into the production, storage, transportation, refining, reclaiming, treating, marketing, and processing of oil and gas, and the reasonable market demand for oil and gas, so that it may determine whether or not waste exists or is imminent or whether the oil and gas conservation laws of this state or the rules and orders of the commission promulgated under those laws are being violated.
[Acts 1977, 65th Leg., p. 2519, ch. 871, art. I, § 1, eff. Sept. 1, 1977.]

§ 85.059. Records

Each person who produces, stores, transports, refines, reclaims, treats, markets, or processes oil or gas or the products of either shall keep in this state accurate records of the amount of oil or gas which such person produced, stored, transported, refined, reclaimed, treated, marketed, or processed and of the source from which the person produced, obtained, or received the oil or gas or the products of either and the disposition made of them.
[Acts 1977, 65th Leg., p. 2519, ch. 871, art. I, § 1, eff. Sept. 1, 1977.]

§ 85.060. Sworn Statements and Reports

The commission may require a person who produces, stores, transports, refines, reclaims, treats, markets, or processes oil or gas or the products of either to make and file with the commission sworn statements or reports as to facts within his knowledge or possession pertaining to the reasonable market demand for oil and to the production, storage, transportation, refining, reclaiming, treating, marketing, or processing of oil or gas and the products of either. The report shall include those facts enumerated in Section 85.059 of this code.
[Acts 1977, 65th Leg., p. 2519, ch. 871, art. I, § 1, eff. Sept. 1, 1977.]

§ 85.061. Inspection and Gauging

The commission may require any well, lease, refinery, plant, tank or storage, pipeline, or gathering line that belongs to or is under the control of a person who produces, stores, transports, refines, reclaims, treats, markets, or processes oil or gas or the

products of either to be inspected or gauged by the agents of the commission whenever and as often as and for such periods as the commission considers necessary.

[Acts 1977, 65th Leg., p. 2519, ch. 871, art. I, § 1, eff. Sept. 1, 1977.]

§ 85.062. Examination of Books and Records

The commission and its agents and the attorney general and his assistants and representatives may examine the books and records of a person who produces, stores, transports, refines, reclaims, treats, markets, or processes oil or gas or the products of either as often as considered necessary for the purpose of determining the facts concerning matters covered by Sections 85.058 through 85.061 of this code.

[Acts 1977, 65th Leg., p. 2520, ch. 871, art. I, § 1, eff. Sept. 1, 1977.]

SUBCHAPTER A. GENERAL PROVISIONS

§ 86.001. Declaration of Policy

In recognition of past, present, and imminent evils occurring in the production and use of gas as a result of waste in this production and use of gas in the absence of correlative opportunities of owners of gas in a common reservoir to produce and use the gas, the provisions of this chapter are enacted for the protection of public and private interests against these evils by prohibiting waste and compelling ratable production.

[Acts 1977, 65th Leg., p. 2531, ch. 871, art. I, § 1, eff. Sept. 1, 1977.]

§ 86.002. Definitions

In this chapter:

(1) "Oil" means crude petroleum oil.

(2) "Gas" means natural gas.

(3) "Commission" means the Railroad Commission of Texas.

(4) "Common reservoir" means all or part of any oil or gas field or oil and gas field that comprises and includes any area that is underlaid or that, from geological or other scientific data or experiments or from drilling operations or other evidence, appears to be underlaid by a common pool or accumulation of oil or gas or oil and gas.

(5) "Gas well" means a well that:

(A) produces gas not associated or blended with oil at the time of production;

(B) produces more than 100,000 cubic feet of gas to each barrel of oil from the same producing horizon; or

(C) produces gas from a formation or producing horizon productive of gas only encountered in a well bore through which oil also is produced through the inside of another string of casing.

(6) "Oil well" means any well that produces one barrel or more of oil to each 100,000 cubic feet of gas.

(7) "Dry gas" means gas produced from a stratum that does not produce oil.

(8) "Sour gas" means gas:

(A) containing more than one and one-half grains of hydrogen sulphide per 100 cubic feet;

(B) containing more than 30 grains of total sulphur per 100 cubic feet; or

(C) which in its natural state is found by the commission to be unfit for use in generating light or fuel for domestic purposes.

(9) "Sweet gas" means all gas except sour gas and casinghead gas.

(10) "Casinghead gas" means any gas or vapor indigenous to an oil stratum and produced from the stratum with oil.

(11) "Natural gasoline" means gasoline manufactured from casinghead gas or from any gas.

(12) "Cubic foot of gas" or "standard cubic foot of gas" means the volume of gas, including natural and casinghead gas, contained in one cubic foot of space at a standard pressure base of 14.65 pounds per square inch absolute and at a standard temperature base of 60 degrees Fahrenheit, and if the conditions of pressure and temperature differ from this standard, conversion of the volume from the differing conditions to the standard conditions shall be made in accordance with the ideal gas laws, corrected for deviation.

[Acts 1977, 65th Leg., p. 2531, ch. 871, art. I, § 1, eff. Sept. 1, 1977.]

§ 86.003. Determination of Separate Wells

If oil or gas, or both, is produced through different strings of casing set in the same well bore, the inner string through which oil or gas, or both, is produced shall be regarded as one well, and each successive additional string of casing through which oil or gas, or both, is produced from a different producing horizon through the same well bore shall be regarded as another well.

[Acts 1977, 65th Leg., p. 2532, ch. 871, art. I, § 1, eff. Sept. 1, 1977.]

§ 86.004. Applicability

The provisions in this chapter do not impair the authority of the commission to prevent waste under the oil and gas conservation laws of this state and do not repeal, modify, or impair any of the provisions relating to oil and gas conservation in Sections 85.002, 85.041 through 85.055, 85.056 through 85.064, 85.125, 85.201 through 85.207, 85.241 through 85.243, 85.249 through 85.252, and 85.381 through 85.385 of this code and Subchapters E and J of Chapter 85 of this code.

[Acts 1977, 65th Leg., p. 2532, ch. 871, art. I, § 1, eff. Sept. 1, 1977.]

[Sections 86.005 to 86.010 reserved for expansion]

SUBCHAPTER B. WASTE OF GAS

§ 86.011. Prohibition Against Waste

The production, transportation, or use of gas in a manner, in an amount, or under conditions which constitute waste is unlawful and is prohibited.

[Acts 1977, 65th Leg., p. 2532, ch. 871, art. I, § 1, eff. Sept. 1, 1977.]

§ 86.012. Definition of Waste

(a) The term "waste" includes:

(1) the operation of an oil well or wells with an inefficient gas-oil ratio;

(2) the drowning with water of a stratum or part of a stratum capable of producing gas in paying quantities;

(3) permitting a gas well to burn wastefully;

(4) the creation of unnecessary fire hazards;

(5) physical waste or loss incident to or resulting from so drilling, equipping, or operating a well or wells as to reduce or tend to reduce the ultimate recovery of gas from any pool;

(6) the escape of gas from a well producing both oil and gas into the open air in excess of the amount that is necessary in the efficient drilling or operation of the well;

(7) the production of gas in excess of transportation or market facilities or reasonable market demand for the type of gas produced;

(8) the use of gas for the manufacture of carbon black without first having extracted the natural gasoline content from the gas, except it shall not be necessary to first extract the natural gasoline content from the gas where it is utilized in a plant producing an average recovery of not less than five pounds of carbon black to each 1,000 cubic feet of gas;

(9) the use of sweet gas produced from a gas well for the manufacture of carbon black unless it is used in a plant producing an average recovery of not less than five pounds of carbon black to each 1,000 cubic feet and unless the sweet gas is produced from a well located in a common reservoir producing both sweet and sour gas;

(10) permitting gas produced from a gas well to escape into the air before or after the gas has been processed for its gasoline content, unless authorized as provided in Section 86.185 of this code;

(11) the production of natural gas from a well producing oil from a stratum other than that in which the oil is found unless the gas is produced in a separate string of casing from that in which the oil is produced;

(12) the production of more than 100,000 cubic feet of gas to each barrel of crude petroleum oil unless the gas is put to one or more of the uses authorized for the type of gas so produced under allocations made by the commission or unless authorized as provided in Section 86.185 of this code; and

(13) underground waste or loss however caused and whether or not defined in other subdivisions of this section.

(b) Notwithstanding the provisions contained in this section or elsewhere in this code or in other statutes or laws, the commission may permit production by commingling oil or gas or oil and gas from multiple stratigraphic or lenticular accumulations of oil or gas or oil and gas where the commission, after notice and hearing, has found that producing oil or gas or oil and gas in a commingled state will prevent

waste, promote conservation, or protect correlative rights.

[Acts 1977, 65th Leg., p. 2532, ch. 871, art. I, § 1, eff. Sept. 1, 1977. Amended by Acts 1977, 65th Leg., p. 2695, ch. 871, art. II, § 8, eff. Sept. 1, 1977; Acts 1979, 66th Leg., p. 674, ch. 300, § 2, eff. May 29, 1979.]

[Sections 86.013 to 86.040 reserved for expansion]

SUBCHAPTER C. POWERS AND DUTIES OF THE COMMISSION

§ 86.041. In General

The commission has broad discretion in administering the provisions of this chapter and may adopt any rule or order in the manner provided by law that it finds necessary to effectuate the provisions and purposes of this chapter.

[Acts 1977, 65th Leg., p. 2533, ch. 871, art. I, § 1, eff. Sept. 1, 1977.]

§ 86.042. Rules and Orders

The commission shall adopt and enforce rules and orders to:

(1) conserve and prevent the waste of gas;

(2) prevent the waste of gas in drilling and producing operations and in the piping and distribution of gas;

(3) require dry or abandoned wells to be plugged in a way that confines gas and water in the strata in which they are found and prevents them from escaping into other strata;

(4) provide for drilling wells and preserving a record of them;

(5) require wells to be drilled and operated in a manner that prevents injury to adjoining property;

(6) prevent gas and water from escaping from the strata in which they are found into other strata;

(7) require records to be kept and reports made;

(8) provide for the issuance of permits and other evidences of permission when the issuance of the permit or permission is necessary or incident to the enforcement of its blanket grant of authority to make any rules necessary to effectuate the law; and

(9) otherwise accomplish the purposes of this chapter.

[Acts 1977, 65th Leg., p. 2533, ch. 871, art. I, § 1, eff. Sept. 1, 1977.]

§ 86.043. Determining Gas-Oil Ratio

The commission may fix and determine the gas-oil ratio of all oil wells in the state but none of the provisions of this chapter may be construed to authorize the limitation of the production of marginal wells below the amount fixed by statute. If a restriction imposed by the commission on the production of oil from an oil well operates to increase the gas-oil ratio of the well so as to then classify it as a gas well under the provisions of this chapter, the well nevertheless shall be considered to be an oil well.

[Acts 1977, 65th Leg., p. 2534, ch. 871, art. I, § 1, eff. Sept. 1, 1977.]

[Sections 86.044 to 86.080 reserved for expansion]

SUBCHAPTER D. PRODUCTION OF GAS

§ 86.081. Regulation of Production

For the protection of public and private interests, the commission shall prorate and regulate the daily gas well production from each common reservoir to:

(1) prevent waste; and

(2) adjust the correlative rights and opportunities of each owner of gas in a common reservoir to produce and use or sell the gas as permitted in this chapter.

[Acts 1977, 65th Leg., p. 2534, ch. 871, art. I, § 1, eff. Sept. 1, 1977.]

§ 86.082. Exercise of Authority to Prevent Waste

The commission shall exercise its authority to prevent waste when the presence or imminence of waste is supported by a finding based on the evidence introduced at a hearing after proper notice.

[Acts 1977, 65th Leg., p. 2534, ch. 871, art. I, § 1, eff. Sept. 1, 1977.]

§ 86.083. Exercise of Authority to Adjust Correlative Rights and Opportunities

The commission shall exercise its authority to adjust correlative rights and opportunities of each owner of gas in a common reservoir to produce and use or sell the gas when evidence introduced at a hearing after proper notice will support a finding made by the commission that the aggregate lawful volume of the open flow or daily potential capacity to produce of all gas wells located in a common reservoir is in excess of the daily reasonable market demand for gas from gas wells that may be produced from the common reservoir, to be used as permitted in this chapter.

[Acts 1977, 65th Leg., p. 2534, ch. 871, art. I, § 1, eff. Sept. 1, 1977.]

§ 86.084. Determination of Status of Production

(a) The commission shall determine the status of gas production from all reservoirs in the state.

(b) If the commission finds that waste exists or is imminent in the production of gas from a reservoir, or that the capacity of the wells to produce gas from

a reservoir exceeds the market demand for gas from the reservoir, the commission by proper order shall prorate and regulate the gas production from the reservoir on a reasonable basis.

[Acts 1977, 65th Leg., p. 2534, ch. 871, art. I, § 1, eff. Sept. 1, 1977.]

§ 86.085. Determination of Demand and Volume

On or before the 20th day of each month, the commission, after notice and hearing, shall determine:

(1) the lawful market demand for gas to be produced from each reservoir during the following month; and

(2) the volume of gas that can be produced without waste from the reservoir and each well in the reservoir during the following month.

[Acts 1977, 65th Leg., p. 2534, ch. 871, art. I, § 1, eff. Sept. 1, 1977.]

§ 86.086. Monthly Reservoir Allowable

After determining demand and volume of production as provided in Section 86.085 of this code, the commission shall fix the monthly reservoir allowable of gas to be produced from the reservoir at the lawful market demand for the gas or at the volume that can be produced from the reservoir without waste, whichever is the smaller quantity.

[Acts 1977, 65th Leg., p. 2535, ch. 871, art. I, § 1, eff. Sept. 1, 1977.]

§ 86.087. Monthly Well Allowable

The monthly reservoir allowable shall be allocated among all wells entitled to produce gas from the reservoir to give each well its fair share of the gas to be produced from the reservoir, but each well is restricted to the amount of gas that can be produced from it without waste. The volume of gas allocated to each well is the monthly allowable for that well.

[Acts 1977, 65th Leg., p. 2535, ch. 871, art. I, § 1, eff. Sept. 1, 1977.]

§ 86.088. Daily Allowable

The daily market demand for gas and the daily allowable shall be determined by dividing the monthly demand and the monthly allowable by the number of days in the month.

[Acts 1977, 65th Leg., p. 2535, ch. 871, art. I, § 1, eff. Sept. 1, 1977.]

§ 86.089. Factors in Determining Allowable

(a) In determining the daily allowable production for each gas well, the commission shall take into account:

(1) the size of the tract segregated with respect to surface position and common ownership on which the gas well or wells are located;

(2) the relation between the daily producing capacity of each gas well and the aggregate daily capacity of all gas wells producing the same kind of gas in the same common reservoir or zone; and

(3) other factors that are pertinent.

(b) In determining the daily allowable production for each gas well, the commission shall not take into account the size of the tract on which any gas well or wells are located in excess of the efficient drainage area of the well or wells, producing at 25 percent of the daily productive capacity. The drainage area shall be determined by the commission.

(c) In ascertaining the drainage area of a well, the commission shall take into account such factors as are reflected in the productive capacity of a gas well, including formation pressure, the permeability and porosity of the producing formation, and the well bore's structural position, together with all other factors taken into account by a reasonably prudent operator in determining the drainage area for a gas well.

[Acts 1977, 65th Leg., p. 2535, ch. 871, art. I, § 1, eff. Sept. 1, 1977.]

§ 86.090. Authorizing Overproduction and Underproduction

(a) In order to adjust the correlative rights and opportunities of each owner to produce, use, and sell gas from a common reservoir from which a portion of the market demand is seasonal or where a portion of the market demand fluctuates from month to month, the commission may permit the wells in the reservoir to be produced in excess of the monthly allowable, in accordance with the conditions and limitations set forth in Subsections (b), (c), and (d) of this section, if no waste is caused.

(b) No well may be permitted in any one month to produce:

(1) at a rate in excess of 25 percent of the daily producing capacity of the well as found by the commission; or

(2) in excess of two times its monthly allowable, except that if on application to the commission there is shown to exist, or there is threatened and unforeseen, an emergency requiring an increase in the demand for the gas from the reservoir which cannot be satisfied otherwise from the reservoir, then the wells under the application may be produced as authorized in this subchapter but not in excess of four times each of the well's monthly allowable.

(c) No well may ever be allowed to produce in excess of twice its allowable for more than two months in any period of six months beginning on the first day of March and September of each year. If a well has produced twice its allowable or more during a period of six months beginning on the first day of

March or September, it shall be closed in until its production and allowable are in balance.

(d) On the first day of March and September of each year, the commission shall restrict production from all wells that are then overproduced to the fractional part of their monthly allowable that will bring the accumulated allowables and the accumulated monthly production in balance during the next six months. If the overproduction is not balanced during that six-month period, the overproduced well shall be shut in until its production and allowable are in balance.

(e) The commission by appropriate order may permit a gas well to be underproduced for a period of six consecutive months and may allow the accumulated underproduction to be produced in addition to the regular monthly allowable during the following six-month period.

[Acts 1977, 65th Leg., p. 2535, ch. 871, art. I, § 1, eff. Sept. 1, 1977.]

§ 86.091. Minimum Limits on Well Restrictions

(a) None of the provisions of this chapter require that the production from a gas well with a daily natural open flow of 200,000 cubic feet of gas or more be restricted to a quantity less than 50,000 cubic feet of gas daily.

(b) None of the provisions of this chapter require that the production from a gas well with a daily natural open flow of less than 200,000 cubic feet of gas be reduced to a quantity less than 25 percent of its natural open flow.

[Acts 1977, 65th Leg., p. 2536, ch. 871, art. I, § 1, eff. Sept. 1, 1977.]

§ 86.092. Maximum Well Production

(a) In a common reservoir producing both sweet and sour gas, no gas well may be permitted to produce in excess of 25 percent of its daily productive capacity except as provided in Subsection (b) of this section.

(b) If the commission finds that reservoir conditions require that the percentage be increased to prevent waste and that the increase will not create a drainage condition between sweet and sour gas land, the commission may authorize an increase in the allowable production.

(c) If the allowable production previously allocated to a well is more than 15 percent of its daily producing capacity and the commission finds that the production of its daily allowable from the well will cause waste due to the intermingling of sweet and sour gas, the commission may order the production from the well restricted to 15 percent of its daily producing capacity. This subsection shall not be construed to militate against the right of the commission to fix the allowable production of a well below 15 percent of its daily producing capacity in carrying out the requirements of Sections 86.089 and 86.090 of this code.

[Acts 1977, 65th Leg., p. 2536, ch. 871, art. I, § 1, eff. Sept. 1, 1977.]

§ 86.093. Effect of Oil and Gas Stratum on Gas Only Stratum

If gas is produced from one stratum and oil and gas are produced from another stratum in the same well bore, the commission shall taken into account the amount of gas produced from the oil stratum in determining the amount of gas that may be produced from the stratum producing gas only. The commission may subtract the amount of the casinghead gas produced from the dry gas that would be allocated to the well if it produced dry gas and may restrict the dry gas production accordingly.

[Acts 1977, 65th Leg., p. 2536, ch. 871, art. I, § 1, eff. Sept. 1, 1977.]

§ 86.094. Authority to Increase Take Above Allowable

If unforeseen contingencies increase the demand for gas required by a distributor, transporter, or purchaser to an amount in excess of the total allowable production of the wells to which he is connected, the distributor, transporter, or purchaser may increase his take ratably from all these wells in order to supply his demand for gas, provided that notice of the increase and the amount of the increase are given to the commission within five days; and provided further, the commission, at its next hearing, shall adjust the inequality of withdrawals caused by the increase in fixing the allowable production of the various wells in the common reservoir or zone.

[Acts 1977, 65th Leg., p. 2537, ch. 871, art. I, § 1, eff. Sept. 1, 1977.]

§ 86.095. Zoning Common Reservoirs

(a) The commission shall zone a common reservoir if, on consideration of the evidence introduced at a hearing, it finds that either the prevention of waste or adjustment of correlative rights and opportunities, or both, as designated in Section 86.081 of this code, may be accomplished more adequately by zoning the common reservoir.

(b) If the commission zones a common reservoir, each zone shall be regarded as a separate common reservoir in making allocations of daily allowable production as provided in this chapter.

(c) If the commission zones a common reservoir, the commission:

(1) shall allocate to each zone its just proportion of the market demand for gas from the common reservoir;

(2) shall establish appropriate rules applicable to each zone;

(3) may adjust its orders to the practicable conditions that exist; and

(4) may enter any reasonable order necessary to effectuate the purposes of this chapter.

(d) The commission may segregate a sour gas area from a sweet gas area and is not required to restrict the allowable production of the sour gas zone to the same percentages that may be produced from the sweet gas zone.

[Acts 1977, 65th Leg., p. 2537, ch. 871, art. I, § 1, eff. Sept. 1, 1977.]

§ 86.096. Failure to Use or Sell Allowable Production

If the commission finds that the owner of a gas well failed or refused to use or sell the allowable production from his well when the owner was offered a connection or market for the gas at a reasonable price, the well shall be excluded from consideration in allocating the daily allowable production from the reservoir or zone in which it is located until the owner of the well signifies to the commission his desire to use or sell the gas. In all other cases, all gas wells shall be taken into account in allocating the allowable production among wells producing the same type of gas.

[Acts 1977, 65th Leg., p. 2537, ch. 871, art. I, § 1, eff. Sept. 1, 1977.]

§ 86.097. Production of Gas From Oil Well

No person in possession of or operating an oil well may produce from the oil well gas found in a horizon productive of gas only.

SUBCHAPTER F. USE OF GAS

§ 86.181. Use of Sweet Gas Produced From Gas Well

No sweet gas produced from a gas well may be used for any purpose except:

(1) light or fuel;

(2) efficient chemical manufacture, other than the manufacture of carbon black, provided that sweet gas produced from wells located in a common reservoir producing both sweet and sour gas may be used for the manufacture of carbon black if it is used in a plant producing an average recovery of not less than five pounds of carbon black to each 1,000 cubic feet of gas;

(3) bona fide introduction of gas into oil or gas bearing horizon in order to maintain or increase the rock pressure, or otherwise increase the ultimate recovery of oil or gas from the horizon; and

(4) the extraction of natural gasoline when the residue is returned to the horizon from which it is produced.

[Acts 1977, 65th Leg., p. 2538, ch. 871, art. I, § 1, eff. Sept. 1, 1977.]

In addition to the purposes for which sweet gas produced from a gas well may be used, sour gas may be used for efficient chemical manufacturing purposes including the manufacture of carbon black provided:

(1) it is utilized in a plant producing a recovery of not less than one pound of carbon black to each 1,000 cubic feet of gas; and

(2) the gasoline content is removed and saved from the sour gas before the gas is used for carbon black.

SUBCHAPTER C. PRODUCTION OF SOUR GAS

§ 87.051. Limitation of Sour Gas Production

No person may produce sour gas from any sour gas well in a reservoir producing both sweet and sour gas in excess of the daily allowable production for the gas well as fixed by the orders and schedules

of the commission. The rate of production from a sour gas well is considered to be the daily average rate of production for the calendar month.
[Acts 1977, 65th Leg., p. 2542, ch. 871, art. I, § 1, eff. Sept. 1, 1977.]

§ 87.052. Maximum Production of Sour Gas for Carbon Black Manufacture

(a) In any common reservoir in the state producing both sweet and sour gas, there shall never be produced from the common reservoir for use in carbon black manufacture a maximum daily volume of sour gas from the gas wells in excess of 750 million cubic feet.

(b) The commission shall prorate the daily volume of sour gas from gas wells among all the sour gas wells in the reservoir to prevent cognizable and preventable drainage of gas from tracts of land in the sour gas producing area segregated as to surface position and common ownership on which the sour gas wells are located.

(a) If a lawful daily demand exists for sour gas from gas wells for purposes of utilization permitted by law, other than the manufacture of carbon black, the additional demand shall be added to the daily demand for carbon black manufacture, and that sum shall constitute the daily volume of sour gas from gas wells that may be withdrawn from the common reservoir for utilization.

(b) The commission shall prorate the daily volume provided for in Subsection (a) of this section among the sour gas wells in the area on the basis set forth in Section 87.052 of this code.

In any common reservoir in this state producing both sweet and sour gas, no person may operate a plant for the extraction of the natural gasoline content of gas in which sweet gas and sour gas are commingled, or plant casinghead gas is commingled with either sweet gas or sour gas or both, until the person secures from the commission a permit authorizing the operation of the plant.
[Acts 1977, 65th Leg., p. 2543, ch. 871, art. I, § 1, eff. Sept. 1, 1977.]

§ 87.093. Issuance of Permit

The commission shall issue a permit if it appears that the plant is being operated and the residue gas from the plant is and will be disposed of in accordance with the provisions of this subchapter.
[Acts 1977, 65th Leg., p. 2543, ch. 871, art. I, § 1, eff. Sept. 1, 1977.]

§ 87.095. Residue Gas Allowed in Air

(a) Except as provided in Subsection (b) of this section, if a plant operating under this subchapter commingles casinghead gas with sweet gas or sour gas or both, the operator of the plant shall not blow, or permit to be blown, in the air any of the residue gas remaining after the gasoline content of the gas is extracted.

(b) The operator of a plant may blow in the air an amount of residue gas from the plant that is determined by the commission to be necessary to accomplish uninterrupted deliveries in required amounts to carbon black plants for carbon black manufacture.

§ 87.096. Residue Gas: Determination by Commission

If a plant operating under this subchapter commingles casinghead gas with sweet gas or sweet gas with sour gas, the commission shall ascertain:

(1) the quantity of residue gas required to be used for fuel purposes in the efficient operation of the plant; and

(2) the quantity of residue gas required to be returned by the operator of the plant to the leases to which the plant is connected for use as fuel in the operation of the leases.

[Acts 1977, 65th Leg., p. 2543, ch. 871, art. I, § 1, eff. Sept. 1, 1977.]

§ 87.132. Use of Gas From Certain Wells for Carbon Black Manufacture

(a) Gas from any gas well completed on or before September 5, 1947, within a common reservoir producing both sweet and sour gas from which the gas was not sold off the leased premises to an interstate pipeline company during the year immediately preceding September 5, 1947, or gas from any gas well completed after September 5, 1947, within a common reservoir producing both sweet and sour gas, may be used for the manufacture of carbon black without the prior extraction of its natural gasoline content if:

(1) it is used in a plant producing an average recovery of not less than one and one-half pounds of carbon black for each 1,000 cubic feet of gas; and

(2) the royalty rate and market price paid for the gas at the wellhead at least equals the royalty rate and market price paid at the wellhead in the immediate area for gas used for light and fuel purposes.

(b) In arriving at the market price of sour gas, a reduction of not more than one-half cent per 1,000 cubic feet shall be allowed for purifying the gas to render it suitable for light and fuel purposes.

(c) If the gas is used by a producer, any royalty rate paid shall be paid on the same basis.

[Acts 1977, 65th Leg., p. 2544, ch. 871, art. I, § 1, eff. Sept. 1, 1977.]

It is also declared that the protection of water and land of the state against pollution or the escape of oil or gas is in the public interest. In the exercise of the police power of the state, it is necessary and desirable to provide additional means so that wells that are drilled for the exploration, development, or production of oil or gas, or as injection or salt water disposal wells, and that have been abandoned and are leaking salt water, oil, gas, or other deleterious substances into freshwater formations or on the surface of the land, may be plugged, replugged, or repaired by or under the authority and direction of the commission.

[Acts 1977, 65th Leg., p. 2552, ch. 871, art. I, § 1, eff. Sept. 1, 1977.]

§ 89.002. Definitions

(1) "Well" means a hole drilled for the purpose of:

(A) producing oil or gas;

(B) injecting fluid or gas in the ground in connection with the exploration or production of oil or gas; or

(C) obtaining geological information by taking cores or through seismic operations.

(2) "Operator" means a person who is responsible for the physical operation and control of a well at the time the well is about to be abandoned or ceases operation.

(3) "Nonoperator" means a person who owns a working interest in a well at the time the well is about to be abandoned or ceases operation and is not an operator as defined in Subdivision (2) of this subsection.

(4) "Landowner" means the owner of the land on which the well is located at the time the well is abandoned and one who holds a mineral interest therein.

(5) "Commission" means the Railroad Commission of Texas.

(b) The terms operator and nonoperator as defined in this section do not mean a royalty interest owner or an overriding royalty interest owner.

[Acts 1977, 65th Leg., p. 2552, ch. 871, art. I, § 1, eff. Sept. 1, 1977.]

[Acts 1977, 65th Leg., p. 2553, ch. 871, art. I, § 1, eff. Sept. 1, 1977.]

[Sections 89.004 to 89.010 reserved for expansion]

[Acts 1977, 65th Leg., p. 2553, ch. 871, art. I, § 1, eff. Sept. 1, 1977.]

[Sections 89.014 to 89.040 reserved for expansion]

SUBCHAPTER C. POWERS AND DUTIES OF THE COMMISSION

§ 89.041. Determining Proper Plugging

If it comes to the attention of the commission that a well that has been abandoned or is not being operated is causing or is likely to cause pollution of fresh water above or below the ground or if gas or oil is escaping from the well, the commission shall determine at a hearing, after due notice, whether or not the well was properly plugged as provided in Section 89.011, Section 89.012, or Section 89.013 of this code.

[Acts 1977, 65th Leg., p. 2553, ch. 871, art. I, § 1, eff. Sept. 1, 1977.]

§ 89.042. Commission Order to Plug

(a) If the commission finds that the well was not properly plugged, it shall order the operator to plug the well according to the rules of the commission in effect at the time the order is issued.

(b) If the operator cannot be found or is no longer in existence or has no assets with which to properly plug the well, the commission shall order the nonoperators to plug the well according to the rules of the commission in effect at the time the order is issued.

(c) If the nonoperators cannot be found or are no longer in existence or have no assets with which to properly plug the well, the commission shall order the landowners to properly plug the well according to the rules of the commission in effect at the time the order is issued.

§ 89.043. Plugging by Commission

If the commission determines at a hearing under Section 89.041 of this code that a well has not been properly plugged or needs replugging, the commission, through its employees or through a person acting as agent for the commission, may plug or replug the well if:

(1) the well was properly plugged according to rules in effect at the time the well was abandoned or ceased to be operated; or

(2) neither the operator, nonoperator, nor the landowner properly plugged the well, and

(A) neither the operator, nonoperator, nor the landowner can be found; or

(B) neither the operator, nonoperator, nor the landowner has assets with which to properly plug the well.

[Acts 1977, 65th Leg., p. 2554, ch. 871, art. I, § 1, eff. Sept. 1, 1977.]

§ 89.044. Right to Enter on Land

The commission or its employees or agents, the operator, the nonoperator, or the landowner may enter the land of another for the purpose of plugging or replugging a well that the commission has determined, under the provisions of Section 89.041 of this code, has not been properly plugged.

[Acts 1977, 65th Leg., p. 2554, ch. 871, art. I, § 1, eff. Sept. 1, 1977.]

§ 89.045. Liability for Damages

[Acts 1977, 65th Leg., p. 2554, ch. 871, art. I, § 1, eff. Sept. 1, 1977.]

[Sections 89.046 to 89.080 reserved for expansion]

SUBCHAPTER D. COSTS OF PLUGGING WELLS

§ 89.081. Cause of Action for Disproportionate Share of Cost

If an operator, nonoperator, or landowner owns only a partial interest in the well, oil and gas, or land and the operator, nonoperator, or landowner pays a larger proportion of the cost of plugging the well than his proportionate interest in the well, oil and gas, or land, he has a cause of action against the other operators, nonoperators, or landowners for their proportionate shares of the cost of plugging.

[Acts 1977, 65th Leg., p. 2554, ch. 871, art. I, § 1, eff. Sept. 1, 1977.]

§ 89.082. Cause of Action If Landowner Plugs

(a) If a landowner plugs or replugs a well under Section 89.013 of this code, the landowner has a cause of action against the operator and nonoperator or either of them in any court of competent jurisdiction for all reasonable costs and expenses incurred in the plugging or replugging of the well, to be secured by a lien on the interest of the operator and the nonoperator or either of them in:

(1) the oil and gas underlying the lease on which the well is located; and

(2) the fixtures, machinery, and equipment found or used on the lease.

(b) Notwithstanding the provisions of Subsection (a) of this section, if the landowner is responsible for the well not being plugged properly, the landowner does not have a cause of action under this chapter.

[Acts 1977, 65th Leg., p. 2554, ch. 871, art. I, § 1, eff. Sept. 1, 1977.]

§ 89.083. Cause of Action If Commission Plugs

If the commission plugs a well under the provisions of Sections 89.043 through 89.044 of this code, the state has a cause of action for all reasonable expenses incurred in plugging or replugging the well according to the rules of the commission in effect at the time the well is plugged or replugged. The cause of action is:

(1) first, against the operator, to be secured by a lien on his interest in the oil and gas in the land and his fixtures, machinery, and equipment found or used on the land where the well is located;

(2) second, against the nonoperator at the time the well should have been plugged, to be secured by a lien on his interest in the oil and gas in the land; and

(3) third, against the landowner, to be secured by a lien on his interest in the land.

[Acts 1977, 65th Leg., p. 2555, ch. 871, art. I, § 1, eff. Sept. 1, 1977.]

§ 89.084. Money Paid Commission by Private Person

(a) The commission may accept money from private persons and use the money to plug or replug a well.

(b) Paying money to the commission is not an admission that the person paying the money is obligated to plug or replug the well. Evidence that a person has paid money to the commission is not admissible against the person in a suit in which the person's obligation to plug a well is an issue and introducing the evidence is a compulsory ground for mistrial.

[Acts 1977, 65th Leg., p. 2555, ch. 871, art. I, § 1, eff. Sept. 1, 1977.]

[Sections 89.085 to 89.120 reserved for expansion]

In addition to the powers specifically granted to the commission under the provisions of this chapter, the commission may enforce the provisions of this chapter or any rule or order of the commission adopted under the provisions of this chapter in the same manner and on the same conditions as provided in the other chapters of Title 3 of this code.

[Acts 1977, 65th Leg., p. 2555, ch. 871, art. I, § 1, eff. Sept. 1, 1977.]

§ 89.122. Appeal to Courts

Any person affected by the provisions of this chapter may sue to test the validity of any order adopted by the commission under this chapter in the same manner, on the same conditions, and to the same court or courts as prescribed for suits testing the validity of orders of the commission adopted under the general oil conservation statutes of this state.

[Acts 1977, 65th Leg., p. 2555, ch. 871, art. I, § 1, eff. Sept. 1, 1977.]

"It is hereby agreed that the Interstate Compact to Conserve Oil and Gas executed in the City of Dallas, Texas, on the 16th day of February, 1935, and now on deposit with the Department of State of the United States, be and the same is hereby extended for a period of four (4) years from its date of expiration (September 1, 1947), this agreement to become effective when executed by any three (3) of the States of Texas, Oklahoma, California, Kansas and New Mexico, and consent thereto is given by Congress."

[Acts 1977, 65th Leg., p. 2556, ch. 871, art. I, § 1, eff. Sept. 1, 1977.]

§ 90.006. Withdrawal From Compact

(a) The governor may determine if and when it is in the best interest of the state to withdraw from the compact as provided by its terms on 60 days' notice.

(b) If the governor determines that the state should withdraw from the compact, he has full authority to give necessary notice and take any steps necessary and proper to effect the withdrawal of the State of Texas from the compact.

[Acts 1977, 65th Leg., p. 2557, ch. 871, art. I, § 1, eff. Sept. 1, 1977.]

§ 90.007. Text of Compact

The Interstate Compact to Conserve Oil and Gas reads as follows:

AN INTERSTATE COMPACT TO CONSERVE OIL AND GAS

ARTICLE I

This agreement may become effective within any compacting state at any time as prescribed by that state, and shall become effective within those states ratifying it whenever any three (3) of the States of Texas, Oklahoma, California, Kansas and New Mexico have ratified, and Congress has given its consent. Any oil-producing state may become a party hereto as hereinafter provided.

ARTICLE II

The purpose of this Compact is to conserve oil and gas by the prevention of physical waste thereof from any cause.

ARTICLE III

Each state bound hereby agrees that within a reasonable time it will enact laws, or if laws have

been enacted, then it agrees to continue the same in force, to accomplish within reasonable limits the prevention of:

(a) The operation of any oil well with an inefficient gas-oil ratio;

(b) The drowning with water of any stratum capable of producing oil or gas, or both oil and gas, in paying quantities;

(c) The avoidable escape into the open air or the wasteful burning of gas from a natural gas well;

(d) The creation of unnecessary fire hazards;

(e) The drilling, equipping, locating, spacing, or operating of a well or wells so as to bring about physical waste of oil or gas or loss in the ultimate recovery thereof;

(f) The inefficient, excessive, or improper use of the reservoir energy in producing any well.

The enumeration of the foregoing subjects shall not limit the scope of the authority of any state.

ARTICLE IV

Each state bound hereby agrees that it will, within a reasonable time, enact statutes, or if such statutes have been enacted then that it will continue the same in force, providing in effect that oil produced in violation of its valid order and/or gas conservation statutes or any valid rule, order, or regulation promulgated thereunder, shall be denied access to commerce; and providing for stringent penalties for the waste of either oil or gas.

ARTICLE V

It is not the purpose of this Compact to authorize the states joining herein to limit the production of oil or gas for the purpose of stabilizing or fixing the price thereof, or create or perpetuate monopoly, or to promote regimentation, but is limited to the purpose of conserving oil and gas and preventing the avoidable waste thereof within reasonable limitations.

ARTICLE VI

Each state joining herein shall appoint a representative to a Commission hereby constituted and designated as The Interstate Oil Compact Commission, the duty of which said Commission shall be to make inquiry and ascertain from time to time such methods, practices, circumstances, and conditions as may be disclosed for bringing about conservation and the prevention of physical waste of oil and gas; and at such intervals as said Commission deems beneficial it shall report its findings and recommendations to the several states for adoption or rejection.

The Commission shall have power to recommend the coordination of the exercise of the police powers of the several states within their several jurisdictions to promote the maximum ultimate recovery from the petroleum reserves of said states, and to recommend measures for the maximum ultimate recovery of oil and gas. Said Commission shall organize and adopt suitable rules and regulations for the conduct of its business.

No action shall be taken by the Commission, except: (1) by the affirmative votes of the majority of the whole number of the compacting states, represented at any meeting; and (2) by a concurring vote of a majority in interest of the compacting states at said meeting, such interest to be determined as follows: Such vote of each state shall be in the decimal proportion fixed by the ratio of its daily average production during the preceding calendar half-year to the daily average production of the compacting states during said period.

ARTICLE VII

No state by joining herein shall become financially obligated to any other state, nor shall the breach of the terms hereof by any state subject such state to financial responsibility to the other states joining herein.

ARTICLE VIII

This Compact shall expire September 1, 1937. But any state joining herein may, upon sixty (60) days notice, withdraw herefrom.

The representatives of the signatory states have signed this agreement in a single original, which shall be deposited in the archives of the Department of State of the United States, and a duly certified copy shall be forwarded to the Governor of each of the signatory states.

This Compact shall become effective when ratified and approved as provided in Article I. Any oil-producing state may become a party hereto by affixing its signature to a counterpart to be similarly deposited, certified, and ratified.

[Acts 1977, 65th Leg., p. 2557, ch. 871, art. I, § 1, eff. Sept. 1, 1977.]

SUBCHAPTER B. DUTIES RELATING TO OIL AND GAS WELLS

§ 91.011. Casing

Before drilling into the oil or gas bearing rock, the owner or operator of a well being drilled for oil or gas shall encase the well with good and sufficient wrought iron or steel casing in a manner that will exclude surface or fresh water from the lower part of the well from penetrating the oil or gas bearing rock, and if the well is drilled through the first into the lower oil or gas bearing rock, the well shall be cased in a manner that will exclude fresh water above the last oil or gas bearing rock penetrated.

[Acts 1977, 65th Leg., p. 2560, ch. 871, art. I, § 1, eff. Sept. 1, 1977.]

§ 91.012. Water in Wells

(a) In boring any well for oil or gas, if a person pierces any cap rock or other geological formation in a manner that will cause a flow of salt water or fresh water injurious to an already bored oil well or any oil or gas deposits and that will probably result in the injury of the oil or gas field or already bored oil or gas well, the person shall abandon immediately all work on the well if the flow of water cannot be cased off and shall plug and fill the well in a manner and with materials that will stop the flow of the water.

(b) No well owner or person boring a well described under Subsection (a) of this section may remove the casing from the drilled well until the flow of water is stopped either by casing off or plugging the well.

(c) The provisions of this section apply only if the cap rock or other formation is pierced at a depth below the horizon at which oil or gas has been discovered already.

[Acts 1977, 65th Leg., p. 2560, ch. 871, art. I, § 1, eff. Sept. 1, 1977.]

§ 91.013. Plugging and Shutting in Wells by Others

(a) If the owner of a well described in Subsection (a) of Section 91.012 of this code neglects or refuses to have the well plugged or shut in for more than 20 days after written notice is given to him, the owner or operator of adjacent or neighboring land may enter the premises on which the well is located and have the well plugged if it is an abandoned well or shut in if it is not abandoned, in the manner provided by law.

(b) Notice may be given to the owner of the well either by personal service on the owner or by posting the notice at a conspicuous place at or near the well.

(c) The reasonable cost and expense incurred in plugging or shutting in the well shall be paid by the owner of the well and may be recovered as debts of like amount are recovered under the law.

[Acts 1977, 65th Leg., p. 2560, ch. 871, art. I, § 1, eff. Sept. 1, 1977.]

§ 91.014. Petition to Restrain Waste

(a) In addition to any other penalties, a district judge, in term time or vacation time, shall hear and determine any petition that is filed to restrain the waste of gas in violation of this subchapter and may issue mandatory or restraining orders that in his judgment are necessary.

(b) The petition may be filed by any citizen of this state and does not have to allege further financial interest of the petitioner in the state's natural resources than that possessed in common with all citizens of the state.

[Acts 1977, 65th Leg., p. 2561, ch. 871, art. I, § 1, eff. Sept. 1, 1977.]

§ 91.015. Prevention of Waste

Operators, contractors, drillers, pipeline companies, and gas distributing companies that drill for or produce oil or gas or pipe oil or gas for any purpose shall use every possible precaution in accordance with the most approved methods to stop and prevent waste of oil, gas, or both oil and gas in drilling and producing operations, storage, piping, and distribution and shall not wastefully use oil or gas or allow oil or gas to leak or escape from natural reservoirs, wells, tanks, containers, or pipes.

[Acts 1977, 65th Leg., p. 2561, ch. 871, art. I, § 1, eff. Sept. 1, 1977.]

§ 91.016. Confining Gas to Original Stratum

(a) If gas located in a gas-bearing stratum known to contain gas in paying quantities is encountered in a well drilled for oil or gas in this state, the gas shall be confined to its original stratum until it can be produced and used without waste.

(b) Gas-bearing strata shall be adequately protected from infiltrating water.

[Acts 1977, 65th Leg., p. 2561, ch. 871, art. I, § 1, eff. Sept. 1, 1977.]

§ 91.017. Using Gas in the Open Air

(a) Any person who uses gas in lights in the open air or in or around derricks shall turn off the gas not later than 8 a. m. of each day the lights are burning or are used and shall not turn the lights on or relight them between 8 a. m. and 5 p. m.

(b) The person consuming the gas and using the burners in the open air shall enclose them in glass globes or lamps.

SUBCHAPTER C. STANDARD GAS MEASUREMENT

§ 91.051. Title

This subchapter may be cited as the Standard Gas Measurement Law.

[Acts 1977, 65th Leg., p. 2561, ch. 871, art. I, § 1, eff. Sept. 1, 1977.]

§ 91.052. Definition

(a) The term "cubic foot of gas" or "standard cubic foot of gas" means the volume of gas contained in one cubic foot of space at a standard pressure base and at a standard temperature base.

(b) The standard pressure base shall be 14.65 pounds per square inch absolute, and the standard temperature base shall be 60 degrees Fahrenheit. If the conditions of pressure and temperature differ from this standard, conversion of the volume from these conditions to the standard conditions shall be made in accordance with the ideal gas laws, corrected for deviation.

[Acts 1977, 65th Leg., p. 2562, ch. 871, art. I, § 1, eff. Sept. 1, 1977.]

§ 91.053. Commission Determination

The commission shall determine the average temperature of gas as produced in each oil and gas field in Texas, other variable factors necessary to calculate the metered volumes in accordance with the ideal gas laws, and the variable factors to correct for deviation from the ideal gas laws in each of the oil and gas fields in the state.

[Acts 1977, 65th Leg., p. 2562, ch. 871, art. I, § 1, eff. Sept. 1, 1977.]

§ 91.054. Notice and Hearing

On making the determination, the commission promptly shall make its findings and shall adopt reasonable field rules that may be necessary to effectuate the provisions of this subchapter.

[Acts 1977, 65th Leg., p. 2562, ch. 871, art. I, § 1, eff. Sept. 1, 1977.]

§ 91.056. Use of Findings and Field Rules

(a) Any person may use the findings and field rules of the commission for any purposes under this subchapter.

(b) If the findings or field rules are not used as provided in Subsection (a) of this section in deter-

mining volumes under this subchapter, the volumes otherwise determined shall be corrected to the basis of the standard cubic foot of gas as defined in Section 91.052 of this code.

[Acts 1977, 65th Leg., p. 2562, ch. 871, art. I, § 1, eff. Sept. 1, 1977.]

(a) Each sale, purchase, delivery, and receipt of gas by volume made in this state by, for, or on behalf of an oil and gas lease owner, royalty owner under a lease, or other mineral interest owner shall be made and the gas shall be measured, calculated, purchased, delivered, and accounted for on the basis of a standard cubic foot of gas as defined in this subchapter and determined under this subchapter.

(b) If the provisions of this subchapter operate to change the basis of measurement provided in existing contracts, the price for gas, including royalty gas, provided for in the contracts shall be adjusted to compensate for the change in the method of measuring the volume of gas delivered under the contracts if either the purchaser or seller so desires.

(c) This section is intended to protect parties to contracts in existence on October 4, 1949, so that the total amount of money paid for a volume of gas purchased or required to be accounted for under these contracts shall remain unaffected by this subchapter.

[Acts 1977, 65th Leg., p. 2562, ch. 871, art. I, § 1, eff. Sept. 1, 1977.]

[Acts 1977, 65th Leg., p. 2563, ch. 871, art. I, § 1, eff. Sept. 1, 1977.]

§ 91.060. Penalty

(a) Any person who, as purchaser, shall knowingly fail or refuse to measure, calculate, or account in the manner required in this subchapter for any gas purchased is subject to a penalty of not less than $10 nor more than $500 for each offense.

(b) The penalty is recoverable in the name of the state in a district court in Travis County.

(c) Each day a violation is committed constitutes a separate offense.

(d) It is a defense to a claim for the penalty that the commission has not made the findings under Section 91.055 of this code with regard to the particular field in question.

[Acts 1977, 65th Leg., p. 2563, ch. 871, art. I, § 1, eff. Sept. 1, 1977.]

[Acts 1977, 65th Leg., p. 2563, ch. 871, art. I, § 1, eff. Sept. 1, 1977.]

§ 91.062. Applicability of Certain Provisions

None of the provisions of Sections 91.058 through 91.061 of this code affect or apply to purchases or sales made on any basis other than a volume basis.

[Acts 1977, 65th Leg., p. 2563, ch. 871, art. I, § 1, eff. Sept. 1, 1977.]

[Acts 1977, 65th Leg., p. 2564, ch. 871, art. I, § 1, eff. Sept. 1, 1977.]

§ 91.172. Declaration of Policy

The underground storage of natural gas promotes the conservation of natural gas, permits the building of reserves for orderly withdrawal in periods of peak demand, makes more readily available natural gas resources to residential, commercial, and industrial customers of this state, provides a better year-round market to the various gas fields, and promotes the public interest and welfare of this state.

[Added by Acts 1979, 66th Leg., p. 1997, ch. 785, § 3, eff. June 13, 1979.]

§ 91.173. Definitions

In this subchapter:

(1) "Person" means any natural person, partnership or other combination of natural persons, corporation, group of corporations, trust, or governmental entity.

(2) "Gas utility" means a gas utility as defined in Section 3, Public Utility Regulatory Act (Article 1446c, Vernon's Texas Civil Statutes), or Article 6050, Revised Civil Statutes of Texas, 1925, as amended.

(3) "Natural gas" means any gaseous material composed predominantly of the following hydrocarbons or mixtures thereof: methane, ethane, propane, butane (normal or isobutane), in either its original or manufactured state, or gas which has been processed to separate it into one or more of its component parts after its withdrawal from the earth.

(4) "Native gas" means:

(A) natural gas which has not previously been withdrawn from the earth; or

(B) natural gas which has been withdrawn from the storage facility, processed, and reinjected into the storage facility.

(5) "Storage facility" means any subsurface sand, stratum, or formation used or to be used for the underground storage of natural gas and all surface and subsurface rights and appurtenances necessary to the operation of a facility for the underground storage of natural gas.

(6) "Storer" means (A) a gas utility, (B) a wholly owned subsidiary of a gas utility, (C) the parent corporation of a gas utility, or (D) a wholly owned subsidiary of a parent corporation which also wholly owns a subsidiary gas utility, but a nonutility storer included in category (B), (C), or (D) must operate the storage facility pursuant to a contract with its affiliated gas utility that provides that all withdrawals of natural gas from the storage facility must be delivered to the affiliated gas utility.

(7) "Substantially depleted" means that at least 75 percent of the estimated volume of recoverable native gas reserves originally in place in any gas-bearing sand, formation, or stratum have been withdrawn from the sand, formation, or stratum.

(8) "Interested person" means any person who enters an appearance at the commission hearing required by Section 91.174 of this code.

(9) "Commission" means the Railroad Commission of Texas.

[Added by Acts 1979, 66th Leg., p. 1997, ch. 785, § 3, eff. June 13, 1979.]

§ 91.174. Findings of Commission

(a) Any storer desiring to exercise the right of eminent domain for the acquisition of a storage facility shall, as a condition precedent to the filing of its petition in the appropriate court, obtain from the commission an order finding:

(1) that the underground formation or stratum sought to be acquired is classified by the commission as a gas reservoir and is suitable for the underground storage of natural gas and that the storage of natural gas is necessary for the gas utility to provide adequate service to the public and is in the public interest;

(2) that the use of the formation or stratum as a storage facility will cause no injury to surface or underground water resources;

(3) that the formation or stratum does not contain native gas producible in paying quantities unless the the recoverable volumes of native gas originally in place are substantially depleted and unless the formation or stratum has a greater value of ultimate use to the consuming public as a storage facility to ensure an adequate supply of natural gas or for the conservation of natural gas than the production of native gas which remains;

(4) the extent of the horizontal limits of the reservoir expected to be penetrated by displaced or injected gas; and

(5) that no portion of the formation or stratum sought to be acquired has been condemned or is being utilized for the injection, storage, and withdrawal of gas by others.

(b) The designation of a storage facility does not prevent any storer from instituting additional proceedings in the event it is later determined that the underground reservoir should be extended to prevent the escape, displacement, or withdrawal by others of injected gas.

[Added by Acts 1979, 66th Leg., p. 1997, ch. 785, § 3, eff. June 13, 1979.]

§ 91.175. Commission Jurisdiction

The commission shall have jurisdiction to supervise the construction and operation of all storage facilities formed pursuant to this subchapter, and in addition to the findings required by Section 91.174 of this code, the commission shall include in any order of approval a requirement that the storer file a report each month, including each month prior to the time the storage facility is in operation, with the commission showing, for that month, the volume of gas injected and stored gas withdrawn from storage.

[Added by Acts 1979, 66th Leg., p. 1997, ch. 785, § 3, eff. June 13, 1979.]

§ 91.176. Withdrawal of Native Gas

A storer may withdraw from storage injected and stored gas as market demand dictates. However, any time a storer's withdrawals from a storage facility equal the volume of gas injected for storage, the storer shall not withdraw additional gas from the storage facility without first obtaining specific authority from the commission.

[Added by Acts 1979, 66th Leg., p. 1997, ch. 785, § 3, eff. June 13, 1979.]

§ 91.177. Storage Operations Must be Bona Fide

(a) A storer must initiate injection operations for gas storage within 12 months after the condemnation order of the court becomes final and storage operations must continue with reasonable diligence after that time.

(b) Should the monthly reports to the commission indicate that bona fide underground gas storage operations are not being conducted, the commission may, on its own motion or on motion of any interested person, schedule a public hearing, giving the storer the opportunity to show cause why the commission approval of the project should not be withdrawn.

(c) If the commission finds that the storage project is not being conducted in a bona fide manner, it shall issue an order withdrawing approval of the storage facility, and all property, both mineral and surface, that was condemned by the storer shall revert to those who owned the property at the time of condemnation or their successors.

[Added by Acts 1979, 66th Leg., p. 1997, ch. 785, § 3, eff. June 13, 1979.]

§ 91.178. Relocation of Facilities

In the event the acquisition or operation of a storage facility acquired through the exercise of the power of eminent domain requires the relocation or alteration of any railroad, electric, telegraph, telephone, or pipeline lines or facilities, the expense of the relocation or alteration shall be borne by the storer. The expense of relocation means the actual cost incurred in providing a comparable replacement line or facility, less net salvage value from the sale or other disposition of the old facility.

[Added by Acts 1979, 66th Leg., p. 1997, ch. 785, § 3, eff. June 13, 1979.]

§ 91.179. Appropriation of Storage Facilities; Limitations

After an order of the commission is issued approving a storage facility, a storer may condemn without further attack as to its right to condemn, any subsurface sand, stratum, or formation for the underground storage of natural gas, condemning all mineral and royalty rights as are reasonably necessary for the operation of the storage facility, subject to

the limitations of this subchapter, and the storer may condemn any other interests in property that may be required, including interests in the surface estate in the sand, stratum, or formation reasonably necessary to the operation of the storage facility, provided that:

(1) no part of a reservoir is subject to condemnation unless the storer has acquired by option, lease, conveyance, or other negotiated means at least 66-⅔ percent of the ownership of minerals, including working interests, and 66-⅔ percent of the ownership of the royalty interests, computed in relation to the surface area overlying the part of the reservoir which as found by the commission to be expected to be penetrated by displaced or injected gas;

(2) no dwelling, barn, store, or other building is subject to condemnation; and

(3) the right of condemnation is without prejudice to the rights of the owners or holders of other rights or interests of land to drill through the storage facility under such terms and conditions as the commission may prescribe for the purpose of protecting the storage facility against pollution or escape of natural gas and is without prejudice to the rights of the owners or holders of other rights or interests of the land to all other uses so long as those uses do not interfere with the operation of the storage facility.

[Added by Acts 1979, 66th Leg., p. 1997, ch. 785, § 3, eff. June 13, 1979.]

§ 91.180. Institution of Condemnation Proceedings

(a) The finding by the commission that underground storage is in the public interest is binding on all persons whose property the storer has the right to condemn. After that finding of the commission, the storer has the right to condemn all of the underground storage area and any surface area required for the use and enjoyment of the storage facility.

(b) The storer shall initiate eminent domain proceedings in the court having jurisdiction in the area in which a portion of the land is situated. The petition shall set forth the purpose for which the property is sought to be acquired, a description of the sand, stratum, or formation and of the land under which it is alleged to be contained, the names of the owners as shown by the deed records of the county, and a description of all other property and rights sought to be appropriated for use in connection with the storage facility, including any parts of the surface necessary for any facilities incidental to the operation of the storage facility.

(c) The petition shall state facts showing that the storer has obtained the findings of the commission required by Section 91.174 of this code, that the storer in good faith has been unable to acquire the rights sought to be appropriated, that the storer has acquired, prior to the filing of the petition, by any means other than condemnation, at least 66-⅔ percent of the ownership of the minerals, including working interests, and 66-⅔ percent of the royalty interests of the property rights in the storage facility required for that purpose, and shall describe the surface area overlying the storage facility the storer seeks to acquire and the names of the owners of those rights and interests.

(d) Where more than one tract of land is involved, all or any tracts may be joined in one proceeding, without prejudice to the right of the storer to institute additional proceedings; provided, that the failure to make service upon a defendant does not affect the right of the storer to proceed against any or all other of the defendants upon whom service has been made.

[Added by Acts 1979, 66th Leg., p. 1997, ch. 785, § 3, eff. June 13, 1979.]

§ 91.181. Exercise of Right of Eminent Domain

All proceedings in connection with the condemnation and acquisition of storage facilities shall be in accordance with Articles 3264 through 3271, Revised Civil Statutes of Texas, 1925, as amended, and to the extent of any conflict between those articles and this subchapter, the provisions of this subchapter prevail.

[Added by Acts 1979, 66th Leg., p. 1997, ch. 785, § 3, eff. June 13, 1979.]

§ 91.182. Ownership of Stored Gas

All natural gas in the stratum condemned which is not native gas, and which is subsequently injected into storage facilities is personal property and is the property of the injector or its assigns, and in no event is the gas subject to the right of the owner of the surface of the land or of any mineral or royalty owner's interest under which the storage facilities lie, or of any person other than the injector to produce, take, reduce to possession, either by means of the law of capture or otherwise, waste, or otherwise interfere with or exercise any control over a storage facility. Upon failure, neglect, or refusal of the person to comply with this section, the storer has the right to compel compliance by injunction or by other appropriate relief by application to a court of competent jurisdiction.

[Added by Acts 1979, 66th Leg., p. 1997, ch. 785, § 3, eff. June 13, 1979.]

§ 91.183. Rights of Purchasers of Native Gas

(a) In the event there are remaining reserves of native gas in the storage facility which are dedicated to a purchaser and the purchaser and storer are unable to agree on an equitable settlement of rights with respect to the remaining native gas within a period of time that will prevent interference with

the operation of the storage facility, the storer or purchaser may apply to the commission for an adjudication concerning remaining reserves of native gas.

(b) Upon application, the commission shall direct a settlement of remaining reserves of native gas that is equitable to all parties, but which does not interfere with the public benefits arising from the operation of the storage facility.

(c) In addition to any other disposition that is equitable to all parties, the commission may make a finding of the quantity of remaining recoverable native gas and an allocation of future production on a reasonable production schedule and order delivery to the purchaser by the storer of the amounts of native gas that the commission finds would have been taken by the purchaser during the term of the purchase agreement.

[Added by Acts 1979, 66th Leg., p. 1997, ch. 785, § 3, eff. June 13, 1979.]

§ 91.184. Abandonment

(a) When a storer has permanently abandoned the storage facility, the storer shall file with the commission a notice of abandonment, and shall file an instrument in the deed records in the appropriate county or counties, stating that the storage has ceased, and that all property, both mineral and surface, condemned by the storer has reverted to those who owned the property at the time of condemnation, or their heirs, successors, or assigns.

(b) The storer shall also file in the deed records in the appropriate county or counties a list of the owners of the mineral, royalty, and surface owners to whom the various interests have reverted, together with an affidavit that the storer has compiled the list from a current examination of title records and that the list is true and correct to the best of the knowledge of the affiant.

SUBCHAPTER A. GENERAL PROVISIONS

§ 101.001. Definition

In this chapter, "commission" means the Railroad Commission of Texas.

[Acts 1977, 65th Leg., p. 2566, ch. 871, art. I, § 1, eff. Sept. 1, 1977.]

§ 101.002. Existing Agreement Rights

None of the provisions in this chapter restrict any of the rights that a person now may have to make and enter into unitization and pooling agreements.

[Acts 1977, 65th Leg., p. 2566, ch. 871, art. I, § 1, eff. Sept. 1, 1977.]

§ 101.003. Applicability

None of the provisions in this chapter impair the power of the commission to prevent waste under the oil and gas conservation laws of the state except as provided in Section 101.004 of this code or repeal, modify, or impair any of the provisions of Sections 85.002 through 85.003, 85.041 through 85.055, 85.056 through 85.064, 85.125, 85.201 through 85.207, 85.241 through 85.243, 85.249 through 85.252, or 85.381 through 85.385 of this code or Subchapters E and J of Chapter 85 of this code, relating to oil and gas conservation.

§ 101.004. Conflict With Antitrust Acts

(a) Agreements and operations under agreements which are in accordance with the provisions in this chapter, being necessary to prevent waste and conserve the natural resources of this state, shall not be construed to be in violation of the provisions of Chapter 15, Business & Commerce Code, as amended.

(b) If a court finds a conflict between the provisions in this chapter and Chapter 15, Business & Commerce Code, as amended, the provisions in this chapter are intended as a reasonable exception to that law, necessary for the public interests stated in Subsection (a) of this section.

(c) If a court finds that a conflict exists between the provisions in this chapter and Chapter 15, Business & Commerce Code, as amended, and finds that the provisions in this chapter are not a reasonable

exception to said Chapter 15, it is the intent of the legislature that the provisions in this chapter, or any conflicting portion of them, shall be declared invalid rather than declaring Chapter 15, Business & Commerce Code, as amended, or any portion of it, invalid.

[Acts 1977, 65th Leg., p. 2567, ch. 871, art. I, § 1, eff. Sept. 1, 1977.]

[Sections 101.005 to 101.010 reserved for expansion]

SUBCHAPTER B. COOPERATIVE AGREEMENTS IN SECONDARY RECOVERY OPERATIONS

§ 101.011. Authorized Agreements for Separately Owned Properties

Subject to the approval of the commission, as provided in this chapter, persons owning or controlling production, leases, royalties, or other interests in separate property in the same oil field, gas field, or oil and gas field may voluntarily enter into and perform agreements for either or both of the following purposes:

(1) to establish pooled units, necessary to effect secondary recovery operations for oil or gas, including those known as cycling, recycling, repressuring, water flooding, and pressure maintenance and to establish and operate cooperative facilities necessary for the secondary recovery operations;

(2) to establish pooled units and cooperative facilities necessary for the conservation and use of gas, including those for extracting and separating the hydrocarbons from the natural gas or casinghead gas and returning the dry gas to a formation underlying any land or leases committed to the agreement.

[Acts 1977, 65th Leg., p. 2567, ch. 871, art. I, § 1, eff. Sept. 1, 1977.]

§ 101.012. Persons Bound by Agreements

Agreements for pooled units and cooperative facilities do not bind a landowner, royalty owner, lessor, lessee, overriding royalty owner, or any other person who does not execute them. The agreements bind only the persons who execute them, their heirs, successors, assigns, and legal representatives. No person shall be compelled or required to enter into such an agreement.

[Acts 1977, 65th Leg., p. 2567, ch. 871, art. I, § 1, eff. Sept. 1, 1977.]

§ 101.013. Commission Approval

(a) Agreements for pooled units and cooperative facilities are not legal or effective until the commission finds, after application, notice, and hearing:

(1) that the agreement is necessary to accomplish the purposes specified in Section 101.011 of this code;

(2) that it is in the interest of the public welfare as being reasonably necessary to prevent waste and to promote the conservation of oil or gas or both;

(3) that the rights of the owners of all the interests in the field, whether signers of the unit agreement or not, would be protected under its operation;

(4) that the estimated additional cost, if any, of conducting the operation will not exceed the value of additional oil and gas so recovered, by or on behalf of the several persons affected, including royalty owners, owners of overriding royalties, oil and gas payments, carried interests, lien claimants, and others as well as the lessees;

(5) that other available or existing methods or facilities for secondary recovery operations or for the conservation and utilization of gas in the particular area or field concerned or for both are inadequate for the purposes; and

(6) that the area covered by the unit agreement contains only that part of the field that has reasonably been defined by development, and that the owners of interests in the oil and gas under each tract of land in the area reasonably defined by development are given an opportunity to enter into the unit on the same yardstick basis as the owners of interests in the oil and gas under the other tracts in the unit.

(b) A finding by the commission that the area described in the unit agreement is insufficient or covers more acreage than is necessary to accomplish the purposes of this chapter is grounds for the disapproval of the agreement.

[Acts 1977, 65th Leg., p. 2568, ch. 871, art. I, § 1, eff. Sept. 1, 1977.]

§ 101.014. Jointly Owned Properties

None of the provisions in this chapter shall be construed to require the approval of the commission of voluntary agreements for the joint development and operation of jointly owned property.

[Acts 1977, 65th Leg., p. 2568, ch. 871, art. I, § 1, eff. Sept. 1, 1977.]

§ 101.015. Commission Regulation

An agreement executed under the provisions of this chapter is subject to any valid order or rule of the commission relating to location, spacing, proration, conservation, or other matters within the authority of the commission, whether adopted prior to or subsequent to the execution of the agreement.

[Acts 1977, 65th Leg., p. 2568, ch. 871, art. I, § 1, eff. Sept. 1, 1977.]

§ 101.016. Permissible Provisions

(a) An agreement authorized by this chapter may provide for the location and spacing of input wells and for the extension of leases covering any part of land committed to the unit as long as operations for drilling or reworking are conducted on the unit or as long as production of oil or gas in paying quantities is had from any part of the land or leases committed to the unit. However, no agreement may relieve an operator from the obligation to develop reasonably the land and leases as a whole committed to the unit.

(b) An agreement authorized by this chapter may provide that the dry gas after extraction of hydrocarbons may be returned to a formation underlying any land or leases committed to the agreement and may provide that no royalties are required to be paid on the gas so returned.

[Acts 1977, 65th Leg., p. 2568, ch. 871, art. I, § 1, eff. Sept. 1, 1977.]

§ 101.017. Prohibited Provisions

(a) No agreement authorized by this chapter may attempt to contain the field rules for the area or field, or provide for or limit the amount of production of oil or gas from the unit properties, those provisions being solely the province of the commission.

(b) No agreement authorized by this chapter may provide directly or indirectly for the cooperative refining of crude petroleum, distillate, condensate, or gas, or any by-product of crude petroleum, distillate, condensate, or gas. The extraction of liquid hydrocarbons from gas, and the separation of the liquid hydrocarbons into propanes, butanes, ethanes, distillate, condensate, and natural gasoline, without any additional processing of any of them, is not considered to be refining.

(c) No agreement authorized by this chapter may provide for the cooperative marketing of crude petroleum, condensate, distillate, or gas, or any by-products of them.

[Acts 1977, 65th Leg., p. 2569, ch. 871, art. I, § 1, eff. Sept. 1, 1977.]

§ 101.018. Effect of Approval Outside of Unit

The approval of an agreement authorized by this chapter shall not of itself be construed as a finding that operations of a different kind or character in the portion of the field outside of the unit are wasteful or not in the interest of conservation.

[Acts 1977, 65th Leg., p. 2569, ch. 871, art. I, § 1, eff. Sept. 1, 1977.]

[Sections 101.019 to 101.050 reserved for expansion]

SUBCHAPTER C. PUBLIC LAND

§ 101.051. Authority of Commissioner of General Land Office

Subject to the approval specified in Section 101.052 of this code, the Commissioner of the General Land Office, in behalf of the State of Texas or of any fund belonging to the state, may execute contracts committing to the agreements declared lawful by the provisions of this chapter the royalty interests in oil or gas or both reserved to the state, or any fund of the state, by law, in any patent, in any contract of sale, or under the terms of any oil and gas lease lawfully issued by an official, board, agent, agency, or authority of the state.

[Acts 1977, 65th Leg., p. 2569, ch. 871, art. I, § 1, eff. Sept. 1, 1977.]

§ 101.052. Necessary Approval by Other Persons and State Agencies

(a) An agreement that commits the royalty interests in land set apart by the constitution and laws of this state for the permanent free school fund and the several asylum funds, in river beds, inland lakes, and channels, and the area within tidewater limits, including islands, lakes, bays, inlets, marshes, reefs, and the bed of the sea, must be approved by the School Land Board.

(b) An agreement that covers land leased for oil and gas under the Relinquishment Act, codified as Subchapter F in Chapter 52 of this code, must be executed by the owners of the soil.

(c) An agreement that commits the royalty interests in land or areas other than those covered by Subsections (a) and (b) of this section must be approved by the board, official, agent, agency, or authority of the state vested with authority to lease or to approve the leasing of the land or areas for oil and gas.

[Acts 1977, 65th Leg., p. 2569, ch. 871, art. I, § 1, eff. Sept. 1, 1977.]

[Sections 102.005 to 102.010 reserved for expansion]

SUBCHAPTER B. REQUIREMENTS AND PROCEDURE FOR POOLING

§ 102.011. Authority of Commission

When two or more separately owned tracts of land are embraced in a common reservoir of oil or gas for which the commission has established the size and shape of proration units, whether by temporary or permanent field rules, and where there are separately owned interests in oil and gas within an existing or proposed proration unit in the common reservoir and the owners have not agreed to pool their interests, and where at least one of the owners of the right to drill has drilled or has proposed to drill a well on the existing or proposed proration unit to the common reservoir, the commission, on the application of an owner specified in Section 102.012 of this code and for the purpose of avoiding the drilling of unnecessary wells, protecting correlative rights, or preventing waste, shall establish a unit and pool all of the interests in the unit within an area containing the approximate acreage of the proration unit, which unit shall in no event exceed 160 acres for an oil well or 640 acres for a gas well plus 10 percent tolerance.

[Acts 1977, 65th Leg., p. 2571, ch. 871, art. I, § 1, eff. Sept. 1, 1977.]

§ 102.012. Owners Authorized to Apply for Pooling

The following interested owners may apply to the commission for the pooling of mineral interests:

(1) the owner of any interest in oil and gas in an existing proration unit or with respect to a proposed unit;

(2) the owner of any working interest; or

(3) any owner of an unleased tract other than a royalty owner.

[Acts 1977, 65th Leg., p. 2571, ch. 871, art. I, § 1, eff. Sept. 1, 1977.]

§ 102.013. Required Voluntary Pooling Offer

(a) The applicant shall set forth in detail the nature of voluntary pooling offers made to the owners of the other interests in the proposed unit.

(b) The commission shall dismiss the application if it finds that a fair and reasonable offer to pool voluntarily has not been made by the applicant.

(c) An offer by an owner of a royalty or any other interest in oil or gas within an existing proration unit to share on the same yardstick basis as the other owners within the existing proration unit are then sharing shall be considered a fair and reasonable offer.

[Acts 1977, 65th Leg., p. 2572, ch. 871, art. I, § 1, eff. Sept. 1, 1977.]

§ 102.014. Productive Acreage Equal to Standard Proration Unit

(a) The commission shall not require the owner of a mineral interest, the productive acreage of which is equal to or in excess of the standard proration unit for the reservoir, to pool his interest with others unless requested by the holder of an adjoining mineral interest, the productive acreage of which is smaller than such pattern, who has not been provided a reasonable opportunity to pool voluntarily.

(b) If the conditions specified in Subsection (a) of this section exist, the commission shall pool the smaller tract with adjacent acreage on a fair and reasonable basis and may authorize a larger allowable for the unit if it exceeds the size of the standard proration unit for the reservoir.

[Acts 1977, 65th Leg., p. 2572, ch. 871, art. I, § 1, eff. Sept. 1, 1977.]

§ 102.015. Prohibited Provisions in Operating Agreement

A pooling agreement, offer to pool, or pooling order is not considered fair and reasonable if it provides for an operating agreement containing any of the following provisions:

(1) preferential right of the operator to purchase mineral interests in the unit;

(2) a call on or option to purchase production from the unit;

(3) operating charges that include any part of district or central office expense other than reasonable overhead charges; or

(4) prohibition against nonoperators questioning the operation of the unit.

[Acts 1977, 65th Leg., p. 2572, ch. 871, art. I, § 1, eff. Sept. 1, 1977.]

§ 102.016. Notice of Hearing

On the filing of an application for pooling of interests into a unit under the provisions of this chapter, at least 30 days notice before hearing on the application shall be given to all interested parties, including notice by publication if there are unknown owners or owners whose whereabouts are unknown. The notice shall be given in the manner and form prescribed by the commission.

[Acts 1977, 65th Leg., p. 2572, ch. 871, art. I, § 1, eff. Sept. 1, 1977.]

§ 102.017. Pooling Order

(a) After notice and hearing, all orders effecting the pooling shall be made on terms and conditions that are fair and reasonable and will afford the owner or owners of each tract or interest in the unit the opportunity to produce or receive his fair share.

(b) Each order shall:

(1) describe the land included in the unit, identifying the reservoir to which it applies;

(2) designate the location of the well; and

(3) appoint an operator for the unit.

[Acts 1977, 65th Leg., p. 2572, ch. 871, art. I, § 1, eff. Sept. 1, 1977.]

SUBCHAPTER C. RIGHTS IN A POOLED UNIT

§ 102.051. Ownership of Production

(a) For the purpose of determining the portions of production owned by the persons owning interests in the pooled unit, the production shall be allocated to the respective tracts within the unit in the proportion that the number of surface acres included within each tract bears to the number of surface acres included in the entire unit.

(b) Notwithstanding the provisions in Subsection (a) of this section, if the commission finds that allocation on a surface-acreage basis does not allocate to each tract its fair share, the commission shall allocate the production so that each tract will receive its fair share, which for any nonconsenting owner shall be no less than he would receive under a surface-acreage allocation.

[Acts 1977, 65th Leg., p. 2573, ch. 871, art. I, § 1, eff. Sept. 1, 1977.]

§ 102.052. Drilling and Completion Costs

(a) As to an owner who elects not to pay his proportionate share of the drilling and completion costs in advance, the commission shall make provision in the pooling order for reimbursement solely out of production, to the parties advancing the costs, of all actual and reasonable drilling, completion, and operating costs plus a charge for risk not to exceed 100 percent of the drilling and completion costs.

(b) If there is a dispute relative to the costs, the commission shall determine the proper costs and their allocation among working interest owners af-

ter due notice to interested parties and a hearing on the costs.
[Acts 1977, 65th Leg., p. 2573, ch. 871, art. I, § 1, eff. Sept. 1, 1977.]

§ 102.053. Effect of Operations

(a) The operations on and production from any portion of a unit for which a pooling order has been entered shall be considered for all purposes the conduct of the operations on and production from each separately owned tract in the pooled unit. If a gas well on a pooled unit is shut-in, it shall be considered that the shut-in gas well is on each separately owned tract in the pooled unit.

(b) If only part of a tract is included in the unit, operations on, production from, or a shut-in gas well on the unit shall maintain an oil and gas lease on the tract as to the part excluded from the unit only if the lease would be maintained had the unit been created voluntarily under the provisions of the lease.

[Acts 1977, 65th Leg., p. 2692, ch. 871, art. II, § 3, eff. Sept. 1, 1977.]

§ 111.302. Commission Authority to Issue Certificates

(a) The commission is further authorized, empowered, and directed to issue certificates of public convenience and necessity to pipelines transporting coal in whatever form or mixture for hire in Texas if the commission finds that the public convenience and necessity will be served in that existing facilities will not be able to provide the transportation as economically or efficiently as the proposed pipeline.

(b) In exercising its powers and duties under this section, the commission may not issue a permit for or attempt to regulate in any manner the condemnation, appropriation, or acquisition of surface or ground water in Texas.

(c) The commission shall not issue a permit, certificate, or any authority to any applicant whose rates and charges are not regulated by government authority, either state or federal, and that state or federal regulations insure to the public and to the ultimate electric consumer that the contracts, rates, and charges shall be just and reasonable, nondiscriminatory, and offering no preference or advantage to any person, corporation, entity, or group.

(d) The commission shall not issue a permit, certificate, or any authority to any applicant whose pipeline transporting coal in whatever form unless the pipeline transporting coal in whatever form is to be buried at least 36 inches below the surface, except in such instances in which the commission specifically exempts the 36-inch depth requirement and unless the pipeline transporting coal in whatever form conforms to all applicable state or federal regulations concerning the operation, maintenance, and construction of that same pipeline.

(e) The commission shall condition the issuance of a certification upon the requirement that the pipeline company shall take no more than 50 feet in width of right-of-way under the power of eminent domain, except for temporary work areas adjacent to the right-of-way and then not to exceed 100 feet in width for the duration of the construction period only; and provided that any condemnation award granted under this chapter shall take into account the damages to the remainder caused by the exercise of eminent domain for the temporary work areas.

[Acts 1977, 65th Leg., p. 2693, ch. 871, art. II, § 3, eff. Sept. 1, 1977.]

The notice shall, among other things, specify to the extent practicable the land which would be subject to the power of eminent domain.

(b) The commission shall then conduct public hearings in areas of the state along the prospective pipeline right-of-way as it shall determine shall be necessary to give property owners an opportunity to be heard. The commission is vested with authority

to alter the right-of-way to meet with local objections.

[Acts 1977, 65th Leg., p. 2693, ch. 871, art. II, § 3, eff. Sept. 1, 1977.]

§ 111.304. Transportation Contract

No common carrier pipeline transporting coal in whatever form shall contract or otherwise agree to transport coal for a term in excess of three years without prior approval of that contract or agreement by the commission which approval shall be given on determination that the contract or agreement is in the public interest in which case the contract or agreement shall be enforceable.

(b) Neither the authority conveyed to the commission by this subchapter to issue certificates and to promulgate rules governing pipelines transporting coal in whatever form nor the powers and duties conveyed on those pipelines by this chapter shall affect, diminish, or otherwise limit the jurisdiction and authority of the Texas Water Commission and the Texas Water Quality Board, or their successors, to regulate by applicable rules the acquisition, use, control, disposition, and discharge of water or water rights in Texas.

[Acts 1977, 65th Leg., p. 2694, ch. 871, art. II, § 3, eff. Sept. 1, 1977.]

SUBCHAPTER A. GENERAL PROVISIONS

§ 131.001. Short Title

This chapter may be cited as the Texas Uranium Surface Mining and Reclamation Act.

[Acts 1977, 65th Leg., p. 2607, ch. 871, art. I, § 1, eff. Sept. 1, 1977. Amended by Acts 1979, 66th Leg., p. 305, ch. 141, § 39, eff. May 9, 1979; Acts 1979, 66th Leg., p. 849, ch. 379, § 1, eff. June 6, 1979.]

§ 131.002. Declaration of Policy

The legislature finds and declares that:

(1) the extraction of minerals by surface mining operations is a basic and essential activity making an important contribution to the economic well-being of the state and nation;

(2) proper reclamation of surface-mined land is necessary to prevent undesirable land and water conditions that would be detrimental to the general welfare, health, safety, and property rights of the citizens of this state;

(3) surface mining takes place in diverse areas where the geologic, topographic, climatic, biological, and social conditions are significantly different and that reclamation operations and the specifications for reclamation operations must vary accordingly;

(4) it is not always possible to extract minerals required by our society without disturbing the surface of the earth and producing waste materials, and the very character of certain types of surface mining operations occasionally precludes complete restoration of the affected land to its original condition;

(5) unregulated surface mining may destroy or diminish the utility of land for commercial, industrial, residential, recreational, agricultural, and forestry purposes by causing erosion and landslides, by contributing to floods, by polluting the water, by destroying fish and wildlife habitats, by impairing natural beauty, by damaging the property of citizens, by creating hazards dangerous to life and property, by degrading the quality of life in local communities, and by counteracting governmental programs and efforts to conserve soil, water, and other natural resources, which results are declared to be inimical to the public interest and destructive to the public health, safety, welfare, and economy of the State of Texas;

(6) due to its unique character or location, some land within the state may be unsuitable for all or certain types of surface mining operations;

(7) reclamation of surface-mined land as provided by this chapter will allow the mining of valuable minerals in a manner designed for the protection and subsequent beneficial use of land; and

(8) the requirements of this chapter for reclamation and maintenance of affected land are necessary for the public health and safety and thus constitute a valid application of the police power of this state.

[Acts 1977, 65th Leg., p. 2607, ch. 871, art. I, § 1, eff. Sept. 1, 1977. Amended by Acts 1979, 66th Leg., p. 849, ch. 379, § 1, eff. June 6, 1979.]

§ 131.003. Purposes

It is declared to be the purpose of this chapter:

(1) to prevent the adverse effects to society and the environment resulting from unregulated surface mining operations as defined in this chapter;

(2) to assure that the rights of surface landowners and other persons with a legal interest in the land or appurtenances to the land are protected from unregulated surface mining operations;

(3) to assure that surface mining operations are not conducted where reclamation as required by this chapter is not possible;

(4) to assure that surface mining operations are conducted in a manner that will prevent unreasonable degradation of land and water resources; and

(5) to assure that reclamation of all surface-mined land is accomplished as contemporaneously as practicable with the surface mining, recognizing that the extraction of minerals by responsible mining operations is an essential and beneficial economic activity.

[Acts 1977, 65th Leg., p. 2608, ch. 871, art. I, § 1, eff. Sept. 1, 1977.]

§ 131.004. Definitions

In this chapter:

(1) "Minerals" means uranium and uranium ore.

(2) "Surface mining" means the mining of minerals by removing the overburden lying above the natural deposit of minerals and mining directly from the natural deposits that are exposed and those aspects of underground mining having significant effects on the surface; provided, this definition shall not be construed to include in situ mining activities associated with the removal of uranium or uranium ore.

(3) "Exploration activity" means the disturbance of the surface or subsurface for the purpose of or related to determining the location, quantity, or quality of a mineral deposit, except those exploration activities associated with the drilling of test holes or core holes that are not required by federal law.

(4) "Affected land" or "land affected" means:

(A) the area from which any materials are to be or have been displaced in a surface mining operation;

(B) the area on which any materials that are displaced are to be or have been deposited;

(C) the haul roads and impoundment basins within the surface mining area; and

(D) other land whose natural state has been or will be disturbed as a result of the surface mining operations.

(5) "Surface mining operation" means those activities conducted at or near the mining site and concomitant with the surface mining, including extraction, storage, processing, and shipping of minerals and reclamation of the land affected.

(6) "Operator" means the individual or entity, including any public or governmental agency, that is to engage or that is engaged in a surface mining operation, including any individual or entity whose permit has expired or been suspended or revoked.

(7) "Overburden" means all materials displaced in a mining operation which are not, or will not be, removed from the affected area.

(8) "Reclamation" means the process of restoring an area affected by a surface mining operation to its original or other substantially beneficial condition, considering past and possible future uses of the area and the surrounding topography.

(9) "Topsoil" means the unconsolidated mineral matter naturally present on the surface of the earth which has been subjected to and influenced by genetic and environmental factors of parent material, climate, macroorganisms and microorganisms, and topography, all acting over a period of time, and which is necessary for the growth and regeneration of vegetation on the surface of the earth.

(10) "Surface mining permit" means the written certification by the commission that the named operator may conduct the surface mining operations described in the certification during the term of the surface mining permit and in the manner established in the certification.

(11) "Person affected" means any person who is a resident of a county or any county adjacent or contiguous to the county in which a mining operation is or is proposed to be located, including any person who is doing business or owns land in the county or adjacent or contiguous county and any local government and who demonstrates that he has suffered or will suffer actual injury or economic damage.

(12) "Commission" means the Railroad Commission of Texas.

(13) "Fund" means the Land Reclamation Fund.

(14) "Toxic material" means any substance present in sufficient concentration or amount to cause injury or illness to plant, animal, or human life.

(15) "Approximate original contour" means that surface configuration achieved by backfilling and grading of the surface-mined area so that it resembles the surface configuration of the land prior to mining and blends into and complements the drainage pattern of the surrounding terrain, with all highwalls, spoil piles, and depressions eliminated, although the new contour may subsequently be at a moderately lower or higher elevation than existed prior to the surface mining operation.

(16) "Person" means an individual, partnership, society, jointstock company, firm, company, corporation, business organization, governmental agency, or any organization or association of citizens.

(17) "Party to the administrative proceedings" means any person who has participated in a public hearing or filed a valid petition or timely objection pursuant to any provision of this chapter.

(18) "Permit area" means all the area designated as such in the permit application and shall include all land affected by the surface mining operations during the term of the permit and may include any contiguous area that the operator proposes to surface mine after that time.

§ 131.005. Reclamation

(a) The basic objective of reclamation is to reestablish on a continuing basis, where required, vegetation and other natural conditions consistent with the anticipated subsequent use of the affected land.

(b) The process of reclamation may require contouring, terracing, grading, backfilling, resoiling, revegetation, compaction and stabilization and settling ponds, water impoundments, diversion ditches, and other water treatment facilities in order to minimize water diminution to existing water sources, pollution, soil and wind erosion, or flooding resulting from mining or any other activity that may be considered necessary to accomplish the reclamation of the land affected to a substantially beneficial condition.

After the survey is made, an area may be designated unsuitable for all or certain types of surface mining if:

(1) the commission determines that reclamation under this chapter is not feasible;

(2) the operations will result in significant damage to important areas of historic, cultural, or archaeological value or to important natural systems;

(3) the operations will affect renewable resource land that includes aquifers and aquifer recharge areas, resulting in a substantial loss or reduction of long-range productivity of water supply or food or fiber products;

(4) the operations are located in an area subject to frequent flooding or an area that is geologically unstable and may reasonably be expected to endanger life and property;

(5) the operations will adversely affect any national park, national monument, national historic landmark, property listed on the national register of historic places, national forest, national wilderness area, national wildlife refuge, national wild and scenic river area, state park, state wildlife refuge, state forest, recorded Texas historic landmark, state historic site, state archaeological landmark, or city or county park; or

(6) the operations would endanger any public road, public building, cemetery, school, church, or similar structure or existing dwelling outside the permit area.

(a) Any person is entitled to petition the commission to have an area designated as unsuitable for surface mining operations or to have the designation terminated.

(b) The petition shall include allegations of facts with supporting evidence that in the opinion of the commission would tend to establish the allegations.

(c) The commission shall make a determination of the validity of the petition, and if the petition is found to be valid, it shall be kept on file by the commission and made available for public inspection.

(d) On application for a surface mining permit for which a valid petition has been filed, the commission shall hold a public hearing as provided in Section 131.163 of this code in the locality of the proposed mining operation.

(e) Any person affected may intervene before the public hearing by filing allegations of facts with supporting evidence that would tend to establish the allegations.

(f) If all the petitioners and the applicant stipulate agreement before the requested hearing, the hearing does not have to be held.

§ 131.043. Inspection by Commission

Without advance notice and on presentation of appropriate credentials to the operation supervisor, if present, the authorized representatives of the commission are entitled to enter in, on, or through a surface mining operation or premises in which any records required under Section 131.042 of this code are located, and may at reasonable times and without delay have access to and copy any records and inspect monitoring equipment or methods of operation required under this chapter.

(a) The inspections by the commission shall occur on an irregular basis at a frequency necessary to insure compliance with the intent and purposes of this chapter and the commission's rules for the surface mining and reclamation operations covered by each permit.

(b) The inspections shall occur only during normal operating hours if practicable and without prior notice to the permittee or his agents or employees.

(c) An inspection shall include the filing of an inspection report adequate to enforce the requirements of and to carry out the terms and purposes of this chapter. The commission shall make each report a part of the record and furnish one copy of the report to the operator.

(d) Insofar as practicable, the commission shall establish a system of rotation of inspectors.

[Acts 1977, 65th Leg., p. 2615, ch. 871, art. I, § 1, eff. Sept. 1, 1977.]

§ 131.045. Sign

(a) Any party to the administrative proceedings whose interest is or may be adversely affected by a ruling, order, decision, or other act of the commission may appeal by filing a petition in a district court of Travis County or in the county in which the greater portion of the land in question is located.

(b) The plaintiff shall pursue his action with reasonable diligence, and if the plaintiff does not prosecute his action within one year after the action is filed, the court shall presume that the action has been abandoned. The court shall dismiss the suit on a motion for dismissal made by the attorney general unless the plaintiff, after receiving due notice, can show good and sufficient cause for the delay.

(c) The court shall hear the complaint solely on the record made before the commission. The findings of the commission, if supported by substantial evidence on the record considered as a whole, shall be upheld.

(d) The court may, under conditions it may prescribe, grant temporary relief that it considers appropriate pending final determination of the proceedings.

(e) The commencement of a proceeding under this section shall not, unless specifically ordered by the court, operate as a stay of the action, order, or decision of the commission.

§ 131.049. Temporary Orders Prior to Notice and Hearing

(a) The commission may issue temporary orders relating to a surface mining operation without notice and hearing, or with the notice and hearing as the commission considers practical under the circumstances, when necessary to enable action to be taken more expeditiously than is otherwise provided by this chapter to effectuate the policy and purposes of this chapter.

(b) If the commission issues a temporary order under this authority without a hearing, and if the subject matter of the order is such as to require a public hearing under Section 131.163 of this code or under any rule of the commission, the order shall set a time and place for a public hearing to be held. The hearing shall be held as soon after the temporary order is issued as is practical.

(c) At the hearing, the commission shall affirm, modify, or set aside the temporary order. SUBCHAPTER C. PLANS AND STANDARDS

§ 131.101. Reclamation Plan

(a) A reclamation plan shall be developed in a manner consistent with local, physical, environmental, and climatological conditions and current mining and reclamation technologies.

(b) A reclamation plan submitted as part of a permit application shall include:

(1) the identification of the entire area to be mined and affected over the estimated life of the mining operation;

(2) the condition of the land to be covered by the permit prior to any mining, including:

(A) the uses existing at the time of the application, and if the land has a history of previous mining, the uses, if reasonably ascertainable, that immediately preceded any mining; and

(B) the capability of the land prior to any mining to support a variety of uses giving consideration to soil and foundation characteristics, topography, and vegetative cover;

(3) the capacity of the land to support its anticipated use following reclamation, including a discussion of the capacity of the reclaimed land to support alternative uses;

(4) a description of how the proposed postmining land condition is to be achieved and the necessary support activities that may be needed to achieve the condition, including an estimate of the cost per acre of the reclamation;

(5) the steps taken to comply with applicable air and water quality and water rights laws and regulations and any applicable health and safety standards, including copies of any pertinent permit applications;

(6) a general timetable that the operator estimates will be necessary for accomplishing the major events included in the reclamation plan; and

(7) other information the commission, by rule, determines to be reasonably necessary to effectuate the purposes of this chapter.

(c) The operator may revise or amend the reclamation plan at any time in accordance with the requirements of this code.

[Acts 1977, 65th Leg., p. 2616, ch. 871, art. I, § 1, eff. Sept. 1, 1977.]

§ 131.102. Reclamation Standards

(a) A permit issued under this chapter to conduct surface mining operations shall require that the surface mining operations meet all applicable reclamation standards of this chapter and any other requirements that the commission establishes by rule.

(b) Reclamation standards shall apply to all surface mining and reclamation operations that are not exempted or excluded and shall require the operator as a minimum to:

(1) conduct surface mining operations in a manner consistent with prudent mining practice, so as to maximize the utilization and conservation of the resource being recovered so that reaffecting the land in the future through surface mining can be minimized;

(2) restore the land affected to the same or a substantially beneficial condition considering the present and past uses of the land, so long as the condition does not present any actual or probable hazard to public health or safety or pose an actual or probable threat of water diminution or pollution, and the permit applicants' declared anticipated land use following reclamation is not considered to be impractical or unreasonable, to involve unreasonable delay in imple-

mentation, or to violate federal, state, or local law, provided that a variety of postmining land conditions that differ from the land condition immediately preceding the surface mining operation, including but not limited to stock ponds, fishing or recreational lakes, school or park sites, industrial, commercial, or residential sites, or open space uses, may be approved by the commission if the proposed condition is determined to be substantially beneficial and complies with the provisions of this section;

(3) reduce all highwalls, spoil piles, and banks to a degree to control erosion effectively and sufficiently to sustain vegetation, where required, consistent with the anticipated subsequent use of the affected land, provided that backfilling, compacting, and grading shall be required to restore the approximate original contour where required by federal law and where the volume of overburden is large in comparison to the volume of mineral deposit and the commission considers the requirement to be practical;

(4) stabilize and protect all surface areas affected by the mining and reclamation operation effectively to control erosion and attendant air and water pollution;

(5) remove the topsoil, if any, from the land in a separate layer, replace it on the backfill area, or if not utilized immediately, segregate it in a separate pile from other spoil and when the topsoil is not replaced on a backfill area within a time short enough to avoid deterioration of the topsoil, maintain a successful cover by quick growing plants or other means so that the topsoil is preserved from wind and water erosion, remains free of any contamination by toxic material, and is in a usable condition for sustaining vegetation when restored during reclamation, except if topsoil is of insufficient quantity or of poor quality for sustaining vegetation and if other strata can be shown to be as suitable for vegetation requirements, then the operator shall remove, segregate, and preserve in a like manner the other strata which is best able to support vegetation, provided that the requirements of this provision shall not apply if a mixing of strata can be shown to be equally suitable for revegetation requirements;

(6) replace the topsoil or the best available subsoil, if any, on top of the land to be reclaimed;

(7) fill any auger holes with an impervious material in order to prevent drainage;

(8) minimize the disturbances to the prevailing hydrologic balance at the mine site and in associated offsite areas and to the quality and quantity of water in surface and groundwater systems both during and after surface mining operations and during reclamation by:

(A) avoiding toxic mine drainage by such measures as:

(i) preventing or removing water from contact with toxic-producing deposits,

(ii) treating drainage to reduce toxic content,

(iii) casing, sealing, or otherwise managing boreholes, shafts, and wells to keep toxic drainage from entering ground and surface water;

(B) conducting surface mining operations in a manner to prevent unreasonable additional contributions of suspended solids to streamflow or runoff outside the permit area above natural levels under seasonal flow conditions;

(C) removing temporary or large siltation structures from drainways consistent with good water conservation practices after disturbed areas are revegetated and stabilized; or

(D) other actions as the commission may prescribe pursuant to its rules;

(9) stabilize any waste piles;

(10) refrain from surface mining in proximity to active and abandoned underground mines in which mining would cause breakthroughs or would endanger the health or safety of miners;

(11) incorporate with respect to the use of impoundments for the disposal of mine wastes, processing wastes, or other liquid or solid wastes current engineering practices for the design and construction of water retention facilities which, at a minimum, shall be compatible with the requirements of Section 6.0731,[1] Water Code, and applicable federal laws, ensure that leachate will not pollute surface or groundwater, and locate impoundments so as not to endanger public health and safety should failure occur;

(12) ensure that all debris, toxic materials, or materials constituting a fire hazard are treated or disposed of in a manner designed to prevent contamination of ground or surface water or combustion;

(13) ensure that any explosives are used only in accordance with existing state and federal law and rules promulgated by the commission;

(14) ensure that all reclamation efforts proceed as contemporaneously as practicable with the surface mining operations;

(15) ensure that construction, maintenance, and postmining conditions of access roads into and across the site of operations will minimize erosion and siltation, pollution of air and water, damage to fish or wildlife or their habitat, or

public or private property, provided that the commission may permit the retention after mining of certain access roads if compatible with the approved reclamation plan;

(16) refrain from the construction of roads or other access ways up a streambed or drainage channel or in proximity to such channel where such construction would seriously alter the normal flow of water;

(17) establish on all affected land, where required in the approved reclamation plan, a diverse vegetative cover native to the affected land where vegetation existed prior to mining and capable of self-regeneration and plant succession equal in extent of cover to the natural vegetation of the area, except that introduced species may be used in the revegetation process where desirable or necessary to achieve the approved reclamation plan;

(18) assume responsibility for successful revegetation for a period of four years beyond the first year in which the vegetation has been successfully established as evidenced by the land being used as anticipated in the reclamation plan;

(19) ensure with respect to permanent impoundments of water as part of the approved reclamation plan that:

(A) the size of the impoundment and the availability of water are adequate for its intended purpose;

(B) the impoundment dam construction will meet the requirements of Section 6.0731, Water Code, and applicable federal laws;

(C) the quality of impounded water will be suitable on a permanent basis for its intended use and the discharges from the impoundment will not degrade the water quality in the receiving stream;

(D) final grading will provide adequate safety and access for anticipated water users; and

(E) the water impoundments will not result in the diminution of the quality or quantity of water utilized by adjacent or surrounding landowners for agricultural, industrial, recreational, or domestic uses; and

(20) meet other criteria pursuant to the commission's rules as are necessary to achieve reclamation in accordance with the purposes of this chapter, taking into consideration the physical, climatological, and other characteristics of the site.

(c) The purpose of this section is to have land affected restored to the same condition as the land that existed enjoyed before the mining or some substantially beneficial condition.

(d) A method of reclamation other than that provided in this section may be approved by the commission after public hearing if the commission determines that any method of reclamation required by this section is not practical and that the alternative method will provide for the affected land to be restored to a substantially beneficial condition.

(e) If an alternative method of reclamation is generally applicable to all surface mining operations involving a particular mineral, the commission shall promulgate rules in the manner provided in Section 131.033 of this code.

(f) The operator is entitled to access to the land affected to the extent necessary to carry out the reclamation and maintenance required under this chapter.

§ 131.210. Inspection and Evaluation

(a) On receipt of the notice and request, the commission shall conduct an inspection and evaluation of the reclamation work involved, the inspection and evaluation to occur within a reasonable time not to exceed 45 days.

(b) The evaluation shall consider among other things:

(1) the degree of difficulty to complete remaining reclamation;

(2) whether pollution of surface and subsurface water is occurring;

(3) the probability of continuance or future occurrence of pollution; and

(4) the estimated cost of abating pollution.
[Acts 1977, 65th Leg., p. 2628, ch. 871, art. I, § 1, eff. Sept. 1, 1977.]

§ 131.211. Basis for Release of Bond or Deposit

The commission may release in whole or part the bond or deposit if it is satisfied that reclamation covered by the bond or deposit or a portion of the bond or deposit has been accomplished as required by this chapter according to the following schedule:

(1) when the operator completes required backfilling, regrading, and drainage control of a bonded area as provided in his approved recla-

mation plan, the commission may authorize the release of up to 75 percent of the bond or substitute collateral for the applicable permit area, provided the amount of the unreleased portion of the bond or substitute collateral is not less than the amount necessary to assure completion of the reclamation work by a third party in the event of forfeiture; and

(2) when the operator has successfully completed the remaining reclamation activities, but not before the expiration of the period specified for operator responsibility in Section 131.102 of this code, the commission may release the remaining portion of the bond or substitute collateral, provided that no bond is fully released until all reclamation requirements of this chapter are fully met.

[Acts 1977, 65th Leg., p. 2628, ch. 871, art. I, § 1, eff. Sept. 1, 1977.]

§ 131.213. Notice of Release to Local Governmental Agency

Within 30 days after an application for total or partial bond or deposit release is filed with the commission, the commission shall notify the local governmental agency in which the surface mining operation is located by certified mail.

[Acts 1977, 65th Leg., p. 2629, ch. 871, art. I, § 1, eff. Sept. 1, 1977.]

§ 131.214. Objections to Release

(a) Any person or the officer or head of a federal, state, or local governmental agency is entitled to file written objections to the proposed release from the bond or deposit.

(b) The objections must be filed with the commission within 30 days after the last publication of notice as provided in Section 131.209 of this code.

(c) If the commission determines that the application is of a significance sufficient to warrant a public hearing considering the objections that have been filed, the commission shall hold a public hearing.

(d) The commission shall give notice to all interested parties of the time and place of the hearing which shall be conducted as provided in Sections 131.160 through 131.164 of this code.

(e) The hearing shall be held in the locality of the surface mining operation proposed for bond or deposit release.

(f) Notice of the date, time, and location of the public hearing shall be published by the commission as provided in Section 131.163 of this code.

SUBCHAPTER G. ENFORCEMENT

§ 131.261. Conditions, Practices, and Violations Creating Imminent Danger or Causing Imminent Harm

(a) On the basis of any inspection, if the commission or its authorized representative or agent determines that a condition or practice exists or that a permittee is in violation of a requirement of this chapter or a permit condition required by this chapter, and that this condition, practice, or violation also creates an imminent danger to the health or safety of the public or is causing or can reasonably be expected to cause significant imminent harm to land, air, or water resources, a member of the commission shall immediately order a cessation of surface mining operations on the portion of the area relevant to the condition, practice, or violation.

(b) The cessation order shall set a time and place for a hearing to be held before the commission and shall be held as soon after the order is issued as is practicable.

(c) The requirements of Section 131.159 of this code relating to time for notice, newspaper notice, and method of giving notice do not apply to a hearing under this section, but general notice shall be given in the manner that the commission judges to be practicable under the circumstances.

(d) No more than 24 hours after the commencement of the hearing and without adjournment, the commission shall affirm, modify, or set aside the order.
[Acts 1977, 65th Leg., p. 2630, ch. 871, art. I, § 1, eff. Sept. 1, 1977.]

§ 131.262. Violations Not Creating Imminent Danger or Causing Imminent Harm

(a) On the basis of an inspection, if the commission or its authorized representative or agent determines that a permittee is in violation of a requirement of this chapter or a permit condition required by this chapter, but the violation does not create an imminent danger to the health or safety of the public or is not causing or reasonably expected to cause significant imminent harm to land, air, or water resources, the commission shall issue a notice to the permittee or his agent setting a reasonable time not to exceed 30 days for the abatement of the violation.

(b) If, on expiration of the period of time as originally set or subsequently extended, for good cause shown, and on written finding of the commission, the commission finds that the violation has not been abated, it may order a cessation of surface mining operations on the portion of this area relevant to the violation. However, if requested by the operator, a hearing must be held prior to a commission finding or order.

(c) The cessation order shall remain in effect until the commission determines that the violation has been abated or until modified, vacated, or terminated by the commission under Section 131.263 of this code.
[Acts 1977, 65th Leg., p. 2631, ch. 871, art. I, § 1, eff. Sept. 1, 1977.]

§ 131.263. Continuous Violations

(a) On the basis of an inspection, if the commission has reason to believe that a pattern of violations of any requirements of this chapter or any permit conditions required by this chapter exists or has existed, and if the commission also finds that these violations are caused by the unwarranted failure of the permittee to comply with requirements of this chapter or permit conditions or that the violations are wilfully caused by the permittee, the commission shall issue an order to the permittee forthwith to show cause as to why the permit should not be suspended or revoked.

(b) The order shall set a time and place for a public hearing to be held in accordance with the notice and procedural requirements of Sections 131.159 through 131.164 of this code.

(c) On failure of a permittee to show cause why the permit should not be suspended or revoked, the commission shall promptly suspend, or revoke the permit.

(2) the period of time established for abatement; and

(3) a reasonable description of the portion of the surface mining and reclamation operation to which the notice or order applies.

(b) Each notice or order issued under this section shall be given promptly to the permittee or his agent by the commission.

(b) The action shall be brought in a district court in Travis County or in the county in which the greater portion of the surface mining and reclamation operation is located.

(c) The court has jurisdiction to provide the relief that is appropriate, and relief granted by the court to enforce Subdivision (1) of Subsection (a) of this section shall continue in effect until the completion or final termination of all proceedings for review of the order under this chapter unless before that time the district court granting the relief sets the order aside or modifies it.

[Acts 1977, 65th Leg., p. 2632, ch. 871, art. I, § 1, eff. Sept. 1, 1977.]

(a) The commission may have a civil suit instituted for injunctive relief to restrain a permittee from continuing a violation or threatening a violation or for the assessment of a civil penalty of not more than $5,000 as the court considers proper for each day of violation, or for both.

(b) In determining the amount of the civil penalty, consideration shall be given to:

(1) the permittee's history of previous violations under this chapter;

(2) the appropriateness of the penalty to the size of the business of the permittee;

(3) the seriousness of the violation, including irreparable harm to the environment and hazard to the health or safety of the public;

(4) whether the permittee was negligent; and

(5) the demonstrated good faith of the permittee charged in attempting to achieve rapid compliance after notice of the violation.

§ 132.001. Adoption of Compact

The Interstate Mining Compact is enacted into law and entered into with all other jurisdictions legally joining in the compact in the form provided in Section 132.002 of this code.

[Acts 1977, 65th Leg., p. 2633, ch. 871, art. I, § 1, eff. Sept. 1, 1977.]

Application of Sunset Act

Acts 1977, 65th Leg., p. 1841, ch. 735, § 2.063, purports to add § 1a to Acts 1975, 64th Leg., ch. 136 [now, this Chapter], without reference to repeal of said Act by Acts 1977, 65th Leg., p. 2690, ch. 871, art. I, § 2(a)(5). As so added, § 1a reads:

"The office of Interstate Mining Compact Commissioner for Texas is subject to the Texas Sunset Act [Civil Statutes, art. 5429k]; and unless continued in existence as provided by that Act the office is abolished, and this Act expires effective September 1, 1983."

Section 3.11(c) of the Code Construction Act (Civil Statutes, art. 5429b–2) provides, in part, that the repeal of a statute by a code does not affect an amendment of the statute by the same legislature which enacted the code and that the amendment is preserved and given effect as part of the code provision.

§ 132.002. Text of Compact

The Interstate Mining Compact reads as follows:

INTERSTATE MINING COMPACT

ARTICLE I. FINDINGS AND PURPOSES

(a) The party states find that:

(1) Mining and the contributions thereof to the economy and well-being of every state are of basic significance.

(2) The effects of mining on the availability of land, water, and other resources for other uses present special problems which properly can be approached only with due consideration for the rights and interests of those engaged in mining, those using or proposing to use these resources for other purposes, and the public.

(3) Measures for the reduction of the adverse effects of mining on land, water, and other resources may be costly and the devising of means to deal with them are of both public and private concern.

(4) Such variables as soil structure and composition, physiography, climatic conditions, and the needs of the public make impracticable the application to all mining areas of a single standard for the conservation, adaptation, or restoration of mined land, or the development of mineral and other natural resources, but justifiable requirements of law and practice relating to the effects of mining on land, water, and other resources may be reduced in equity or effectiveness unless they pertain similarly from state to state for all mining operations similarly situated.

(5) The states are in a position and have the responsibility to assure that mining shall be conducted in accordance with sound conservation principles and with due regard for local conditions.

(b) The purposes of this compact are to:

(1) advance the protection and restoration of land, water, and other resources affected by mining;

(2) assist in the reduction or elimination or counteracting of pollution or deterioration of land, water, and air attributable to mining;

(3) encourage, with due recognition of relevant regional, physical, and other differences, programs in each of the party states which will achieve comparable results in protecting, conserving, and improving the usefulness of natural resources, to the end that the most desirable conduct of mining and related operations may be universally facilitated;

(4) assist the party states in their efforts to facilitate the use of land and other resources affected by mining, so that such use may be consistent with sound land use, public health, and public safety, and to this end to study and recommend, wherever desirable, techniques for the improvement, restoration, or protection of such land and other resources;

(5) assist in achieving and maintaining an efficient and productive mining industry and in increasing economic and other benefits attributable to mining.

ARTICLE II. DEFINITIONS

As used in this compact, the term:

(a) "Mining" means the breaking of the surface soil in order to facilitate or accomplish the extraction or removal of minerals, ores, or other solid matter, any activity or process constituting all or part of a process for the extraction or removal of minerals, ores, and other solid matter from its original location, and the preparation, washing, cleaning, or other treatment of minerals, ores, or other solid matter so as to make them suitable for commercial, industrial, or construction use; but shall not include those aspects of deep mining not having significant effect on the surface, and shall not include excavation or grading when conducted solely in aid of on-site farming or construction.

(b) "State" means a state of the United States, the District of Columbia, the Commonwealth of Puerto Rico, or a territory or possession of the United States.

ARTICLE III. STATE PROGRAMS

Each party state agrees that within a reasonable time it will formulate and establish an effective program for the conservation and use of mined land, by the establishment of standards, enactment of laws, or the continuing of the same in force, to accomplish:

(a) the protection of the public and the protection of adjoining and other landowners from damage to their land and the structures and other property thereon resulting from the conduct of mining operations or the abandonment or neglect of land and property formerly used in the conduct of such operations;

(b) the conduct of mining and the handling of refuse and other mining wastes in ways that will reduce adverse effects on the economic, residential, recreational, or aesthetic value and utility of land and water;

(c) the institution and maintenance of suitable programs of adaptation, restoration, and rehabilitation of mined land;

(d) the prevention, abatement, and control of water, air, and soil pollution resulting from mining, present, past, and future.

ARTICLE IV. POWERS

In addition to any other powers conferred on the Interstate Mining Commission established by Article V of this compact, such commission shall have power to:

(a) study mining operations, processes, and techniques for the purpose of gaining knowledge concerning the effects of such operations, processes, and techniques on land, soil, water, air, plant and animal life, recreation, and patterns of community or regional development or change;

(b) study the conservation, adaptation, improvement, and restoration of land and related resources affected by mining;

(c) make recommendations concerning any aspect or aspects of law or practice and governmental administration dealing with matters within the purview of this compact;

(d) gather and disseminate information relating to any of the matters within the purview of this compact;

(e) cooperate with the federal government and any public or private entities having interest in any subject coming within the purview of this compact;

(f) consult, on the request of a party state and within resources available therefor, with the officials of such state in respect to any problem within the purview of this compact;

(g) study and make recommendations with respect to any practice, process techniques, or course of action that may improve the efficiency of mining or the economic yield from mining operations;

(h) study and make recommendations relating to the safeguarding of access to resources which are or may become the subject of mining operations to the end that the needs of the economy for the products of mining may not be adversely affected by unplanned or inappropriate use of land and other resources containing minerals or otherwise connected with actual or potential mining sites.

ARTICLE V. THE COMMISSION

(a) There is hereby created an agency of the party states to be known as the "Interstate Mining Commission," hereinafter called "the commission." The commission shall be composed of one commissioner from each party state who shall be the governor thereof. Pursuant to the laws of his party state, each governor shall have the assistance of any advisory body (including membership from mining industries, conservation interests, and such other public and private interests as may be appropriate) in considering problems relating to mining and in discharging his responsibilities as the commissioner of his state on the commission. In any instance where a governor is unable to attend a meeting of the commission or perform any other function in connection with the business of the commission, he shall designate an alternate, from among the members of the advisory body required by this paragraph, who shall represent him and act in his place and stead. The designation of an alternate shall be communicated by the governor to the commission in such manner as its bylaws may provide.

(b) The commissioners shall be entitled to one vote each on the commission. No action of the commission making a recommendation pursuant to Articles IV(c), IV(g), and IV(h) of this compact, or requesting, accepting, or disposing of funds, services, or other property pursuant to this paragraph or Article V(g), V(h), or VII of this compact, shall be valid unless taken at a meeting at which a majority of the total number of votes on the commission is cast in favor thereof. All other action shall be by a majority of those present and voting; provided that action of the commission shall be only at a meeting at which a majority of the commissioners, or their alternates, is present. The commission may establish and maintain such facilities as may be necessary for the transacting of its business. The commission may acquire, hold, and convey real and personal property and any interest therein.

(c) The commission shall have a seal.

(d) The commission shall elect annually, from among its members, a chairman, a vice-chairman, and a treasurer. The commission shall appoint an executive director and fix his duties and compensation. Such executive director shall serve at the pleasure of the commission. The executive director, the treasurer, and such other personnel as the commission shall designate shall be bonded. The amount or amounts of such bond or bonds shall be determined by the commission.

(e) Irrespective of the civil service, personnel, or other merit system laws of any of the party states, the executive director with the approval of the commission, shall appoint, remove, or discharge such personnel as may be necessary for the performance of the commission's functions, and shall fix the duties and compensation of such personnel.

(f) The commission may establish and maintain independently or in conjunction with a party state, a suitable retirement system for its employees. Employees of the commission shall be eligible for social security coverage in respect of old age and survivor's insurance provided that the commission takes such steps as may be necessary pursuant to the laws of the United States, to participate in such program of insurance as a governmental agency or unit. The commission may establish and maintain or participate in such additional programs of employee benefits as it may deem appropriate.

(g) The commission may borrow, accept, or contract for the services of personnel from any state, the United States, or any other governmental agency, or from any person, firm, association, or corporation.

(h) The commission may accept for any of its purposes and functions under this compact any and all donations, and grants of money, equipment, supplies, materials, and service, conditional or otherwise, from any state, the United States, or any other governmental agency, or from any person, firm, association, or corporation, and may receive, utilize, and dispose of the same. Any donation or grant accepted by the commission pursuant to this paragraph or services borrowed pursuant to Paragraph (g) of this article shall be reported in the annual report of the commission. Such report shall include the nature, amount, and conditions, if any, of the donation, grant, or services borrowed and the identity of the donor or lender.

(i) The commission shall adopt bylaws for the conduct of its business and shall have the power to amend and rescind these bylaws. The commission shall publish its bylaws in convenient form and shall file a copy thereof and a copy of any amendment thereto, with the appropriate agency or officer in each of the party states.

(j) The commission annually shall make to the governor, legislature, and advisory body required by Article V(a) of each party state a report covering the activities of the commission for the preceding year, and embodying such recommendations as may have been made by the commission. The commission may make such additional reports as it may deem desirable.

ARTICLE VI. ADVISORY, TECHNICAL, AND REGIONAL COMMITTEES

The commission shall establish such advisory, technical, and regional committees as it may deem necessary, membership on which shall include private persons and public officials, and shall cooperate with and use the services of any such committees and the organizations which the members represent in furthering any of its activities. Such committees may be formed to consider problems of special interest to any party states, problems dealing with particular commodities or types of mining operations, problems related to reclamation, development, or use of mined land, or any other matters of concern to the commission.

ARTICLE VII. FINANCE

(a) The commission shall submit to the governor or designated officer or officers of each party state a budget of its estimated expenditures for such period as may be required by the laws of that party state for presentation to the legislature thereof.

(b) Each of the commission's budgets of estimated expenditures shall contain specific recommendations of the amount or amounts to be appropriated by each of the party states. The total amount of appropriations requested under any such budget shall be apportioned among the party states as follows: one-half in equal shares, and the remainder in proportion to the value of minerals, ores, and other solid matter mined. In determining such values, the commission shall employ such available public source

or sources of information as, in its judgment, present the most equitable and accurate comparisons among the party states. Each of the commission's budgets of estimated expenditures and requests for appropriations shall indicate the source or sources used in obtaining information concerning value of minerals, ores, and other solid matter mined.

(c) The commission shall not pledge the credit of any party state. The commission may meet any of its obligations in whole or in part with funds available to it under Article V(h) of this compact; provided that the commission takes specific action setting aside such funds prior to incurring any obligation to be met in whole or in part in such manner. Except where the commission makes use of funds available to it under Article V(h) of this compact, the commission shall not incur any obligation prior to the allotment of funds by the party states adequate to meet the same.

(d) The commission shall keep accurate accounts of all receipts and disbursements. The receipts and disbursements of the commission shall be subject to the audit and accounting procedures established under its bylaws. All receipts and disbursements of funds handled by the commission shall be audited yearly by a qualified public accountant and the report of the audit shall be included in and become part of the annual report of the commission.

(e) The accounts of the commission shall be open at any reasonable time for inspection by duly constituted officers of the party states and by any persons authorized by the commission.

(f) Nothing contained herein shall be construed to prevent commission compliance with laws relating to audit or inspection of accounts by or on behalf of any government contributing to the support of the commission.

ARTICLE VIII. ENTRY INTO FORCE AND WITHDRAWAL

(a) This compact shall enter into force when enacted into law by any four or more states. Thereafter, this compact shall become effective as to any other state on its enactment thereof.

(b) Any party state may withdraw from this compact by enacting a statute repealing the same, but no such withdrawal shall take effect until one year after the governor of the withdrawing state has given notice in writing of the withdrawal to the governors of all other party states. No withdrawal shall affect any liability already incurred by or chargeable to a party state prior to the time of such withdrawal.

ARTICLE IX. EFFECT ON OTHER LAWS

Nothing in this compact shall be construed to limit, repeal, or supersede any other law of any party state.

ARTICLE X. CONSTRUCTION AND SEVERABILITY

This compact shall be liberally construed so as to effectuate the purposes thereof. The provisions of this compact shall be severable, and if any phrase, clause, sentence, or provision of this compact is declared to be contrary to the constitution of any state or of the United States, or the applicability thereof to any government, agency, person, or circumstance is held invalid, the validity of the remainder of this compact and the applicability thereof to any government, agency, person, or circumstance shall not be affected thereby. If this compact shall be held contrary to the constitution of any state participating herein, the compact shall remain in full force and effect as to the remaining party states and in full force and effect as to the state affected as to all severable matters.

SUBCHAPTER A. PURPOSE AND POLICY

§ 1.001. Purpose of Code

(a) This code is enacted as a part of the state's continuing statutory revision program, begun by the Texas Legislative Council in 1963 as directed by the legislature in Chapter 488, Acts of the 58th Legislature, 1963 (Article 5429b–1, Vernon's Texas Civil Statutes). The program contemplates a topic-by-topic revision of the state's general and permanent statute law without substantive change.

(b) Consistent with the objectives of the statutory revision program, the purpose of this code is to make the general and permanent parks and wildlife law more accessible and understandable by:

(1) rearranging the statutes into a more logical order;

(2) employing a format and numbering system designed to facilitate citation of the law and to accommodate future expansion of the law;

(3) eliminating repealed, duplicative, unconstitutional, expired, executed, and other ineffective provisions; and

(4) restating the law in modern American English to the greatest extent possible.

[Acts 1975, 64th Leg., p. 1405, ch. 545, § 1, eff. Sept. 1, 1975.]

§ 1.002. Construction of Code

The Code Construction Act (Article 5429b–2, Vernon's Texas Civil Statutes) applies to the construction of each provision in this code, except as otherwise expressly provided by this code.

(d) The Parks and Wildlife Department shall regulate the taking and conservation of fish, oysters, shrimp, crabs, turtles, terrapins, mussels, lobsters, and all other kinds and forms of marine life, or sand, gravel, marl, mud shell, and all other kinds of shell in accordance with the authority vested in it by this code.

The application must be signed by the owner of the vessel and must be accompanied by a fee of $1. On receipt of the application in approved form, the department shall enter the information on the records of its office and shall issue to the applicant a serial number.

(c) No person may wilfully destroy, remove, alter, cover, or deface the manufacturer's serial number or plate bearing the serial number or the serial number issued by the department. SUBCHAPTER A. PUBLIC AND PRIVATE OYSTER BEDS

§ 76.001. Natural Oyster Bed

(a) A natural oyster bed exists when at least five barrels of oysters are found within 2,500 square feet of any position on a reef or bed.

(b) In this section, a barrel of oysters is equal to three boxes of oysters in the shell. The dimensions of a box are 10 inches by 20 inches by 13-½ inches. In filling a box for measurement, the oysters may not be piled more than 2-½ inches above the height of the box at the center. Two gallons of shucked oysters without shells equals one barrel of oysters in the shell.

[Acts 1975, 64th Leg., p. 1405, ch. 545, § 1, eff. Sept. 1, 1975.]

§ 76.002. Designation of Public and Private Beds

(a) All natural oyster beds are public.

(b) All oyster beds not designated as private are public.

[Acts 1975, 64th Leg., p. 1405, ch. 545, § 1, eff. Sept. 1, 1975.]

§ 76.003. Beds Subject to Location

Except as provided in Section 76.004 of this code, an oyster bed or reef, other than a natural oyster bed, is subject to location by the department. This section does not apply to a bed or reef that has been exhausted within an eight-year period.

(b) If the creek, bayou, lake, or cove is not included in the original grant, a riparian owner has an exclusive right in the creek, bayou, lake, or cove for the planting and sowing of oysters to the middle of the creek, bayou, lake, or cove or to 100 yards from the shore, whichever distance is shorter.

(c) The right of a riparian owner of land along any bay shore in this state to plant oysters extends 100 yards into the bay from the high-water mark or from where the land survey ceases. The right to a natural oyster bed under this subsection is not exclusive.

(a) The department may require the owner of riparian rights described in Section 76.004 of this code when offering oysters for sale to make an affidavit stating that the oysters were produced on his property.

(b) The failure of an owner of riparian rights described in Section 76.004(a) of this code to have an affidavit when required by the department or to show it to a game management officer on request or to the person to whom the oysters are offered for sale when required by the department is prima facie evidence that the oysters were produced from public beds.

(a) The holder of a certificate of location as provided for in Section 76.012 of this code is protected in his possession of the location against trespass in the same manner as are freeholders.
