(b) If the amount of tax for the current tax year has not been determined on the date of judgment, the court shall order recovery of the amount of tax imposed on the property for the preceding tax year, prorated to the date of judgment.

(b) If a person other than the purchaser at the tax sale or his successor in interest pays taxes on the property during the three years following the date the deed is filed and that person was not served citation in the suit to foreclose the tax lien, the three-year limitations period does not apply to that person.

(c) When actions are barred by this section, the purchaser at the tax sale or his successor in interest shall be held to have full title to the property, precluding all other claims.

[Acts 1979, 66th Leg., p. 2296, ch. 841, § 1, eff. Jan. 1, 1982.]

### SUBCHAPTER A. TAX SALES

#### § 34.01. Sale of Property

(a) Property seized or ordered sold pursuant to foreclosure of a tax lien shall be sold in the manner similar property is sold under execution except as otherwise provided by this subchapter.

(b) The owner of real property subject to sale may file with the officer charged with the sale a written request that the property be divided and that only as many portions be sold as is necessary to pay the tax, penalties, interest, and costs adjudged due against the property. In the request the owner shall describe the desired portions and shall specify the order in which the portions should be sold.

(c) If a sufficient bid is not received, the officer making the sale shall bid the property off to a taxing unit that is a party to the judgment for the aggregate amount of the judgment against the property or for the market value of the property as specified in the judgment, whichever is less. The taxing unit takes title to the property for the use and benefit of itself and all other taxing units that established tax liens in the suit. Payments in satisfaction of the judgment and any costs or expenses may not be required until the property is redeemed or resold by the purchasing taxing unit.

(d) The officer making the sale shall prepare a deed to the purchaser of real property at the sale or to any other person whom the purchaser may specify. The deed vests good and perfect title in the purchaser or his assigns to the interest owned by the defendant in the property subject to the foreclosure, subject to the defendant's right of redemption. The deed may be impeached only for fraud.

[Acts 1979, 66th Leg., p. 2297, ch. 841, § 1, eff. Jan. 1, 1982.]

#### § 34.02. Distribution of Proceeds

(a) The proceeds of a tax sale shall be applied first to the payment of costs. The remainder shall be distributed to all taxing units participating in the sale in satisfaction of the taxes, penalties, and interest due each.

(b) If the proceeds are not sufficient to pay the costs and taxes, penalties, and interest due all participants in the sale, each participant is entitled to a share of the proceeds after payment of costs in an amount equal to the proportion its taxes, penalties, and interest bear to the total amount of taxes, penalties, and interest due all participants in the sale.

(c) If the sale is pursuant to foreclosure of a tax lien, the officer conducting the sale shall pay any excess proceeds after payment of all costs and of all taxes, penalties, and interest due all participants in the sale to the clerk of the court issuing the order of sale.

(d) If the sale is pursuant to seizure of personal property, the officer conducting the sale shall distribute any excess of proceeds as provided by law for excess proceeds in the case of execution.

[Acts 1979, 66th Leg., p. 2297, ch. 841, § 1, eff. Jan. 1, 1982.]

#### § 34.03. Disposition of Excess Proceeds

(a) The clerk of the court shall keep the excess proceeds paid into court as provided by Subsection (c) of Section 34.02 of this code for a period of seven years after the date of the sale unless otherwise ordered by the court.

(b) If no claimant establishes entitlement to the proceeds within seven years, the clerk shall distribute the excess proceeds to each taxing unit participating in the sale in an amount equal to the proportion its taxes, penalties, and interests bear to the total amount of taxes, penalties, and interest due all participants in the sale.

(c) The clerk shall note on the execution docket in each case the amount of the excess proceeds, the date they were received, and the date they were transmitted to the taxing units participating in the sale.

[Acts 1979, 66th Leg., p. 2298, ch. 841, § 1, eff. Jan. 1, 1982. Amended by Acts 1981, 67th Leg., 1st C.S., p. 169, ch. 13, § 132, eff. Jan. 1, 1982.]

#### § 34.04. Claims for Excess Proceeds

(a) A person may file a petition in the court that ordered the sale setting forth a claim to the excess proceeds within seven years from the date of the sale of the property.

(b) A copy of the petition shall be served on the county attorney or, if there is no county attorney, the district attorney and on all parties to the suit that ordered the sale, if any, not later than the 20th day before the date set for a hearing on the petition. The county attorney or district attorney shall represent the state at the hearing.

(c) At the hearing if the court finds that the claimant is entitled to recover the excess proceeds, it shall order that the proceeds be paid to him. Interest or costs may not be allowed.

(d) A claim for the excess proceeds may not be filed after the expiration of seven years from the date the property is sold.

[Acts 1979, 66th Leg., p. 2298, ch. 841, § 1, eff. Jan. 1, 1982.]

**§ 34.05. Resale by Taxing Unit**

(a) If property is sold to a taxing unit that is a party to the judgment, the taxing unit may sell the property at any time, subject to any right of redemption existing at the time of the sale. If property is sold to the state, the commissioners court of the county in which the property is located may act for the state.

(b) Unless the property is sold pursuant to Subsections (c) and (d) of this section, it may not be sold for less than the market value specified in the judgment of foreclosure or the total amount of the judgments against the property, whichever is less, without the consent of each taxing unit entitled to receive proceeds of the sale under the judgment. Joinder of the taxing units in the conveyance of the property constitutes consent. The collector for the county in which the property is located may consent in behalf of the state. The presiding officer of the governing body of a taxing unit may consent in behalf of the taxing unit.

(c) The taxing unit purchasing the property by resolution of its governing body may request the sheriff to sell the property at a public sale. If the purchasing taxing unit has not sold the property within six months after the date on which the owner's right of redemption terminates, any taxing unit that is entitled to receive proceeds of the sale by resolution of its governing body may request the sheriff in writing to sell the property at a public sale. On receipt of a request made under this subsection, the sheriff shall sell the property as provided by Subsection (d) of this section.

(d) Except as provided by this subsection, all public sales requested as provided by Subsection (c) of this section shall be conducted in the manner prescribed by the Rules of Civil Procedure for the sale of property under execution. The notice of the sale must contain a description of the property to be sold, which must be a legal description in the case of real property, the number and style of the suit under which the property was sold at the tax foreclosure sale, and the date of the tax foreclosure sale. The officer conducting the sale shall reject any bid for the property if it is his judgment that the amount bid is insufficient. If all bids are insufficient, the property shall be readvertised and offered for sale again. The acceptance of a bid by the officer conducting the sale is conclusive and binding on the question of its sufficiency. An action to set aside the sale on the grounds that the bid is insufficient may not be sustained in court, except that a taxing unit that participates in distribution of proceeds of the sale may file an action within one year after the date of the sale to set aside the sale on the grounds of fraud or collusion between the officer making the sale and the purchaser.

(e) The presiding officer of a taxing unit or the sheriff selling real property pursuant to this section shall execute a deed to the property conveying to the purchaser the right, title, and interest acquired or

held by each taxing unit that was a party to the judgment foreclosing tax liens on the property. The conveyance shall be made subject to any remaining right of redemption at the time of the sale.

(f) An action attacking the validity of a resale of property pursuant to this section may not be instituted after the expiration of one year after the date of the resale.

[Acts 1979, 66th Leg., p. 2298, ch. 841, § 1, eff. Jan. 1, 1982.]

**§ 34.06. Distribution of Proceeds of Resale**

(a) The proceeds of a resale of property purchased by a taxing unit at a tax foreclosure sale shall be paid to the purchasing taxing unit.

(b) The purchasing taxing unit shall pay all costs and expenses of court and sale and shall distribute the remainder of the proceeds as provided by Section 34.02 of this code for distribution of proceeds after payment of costs.

[Acts 1979, 66th Leg., p. 2299, ch. 841, § 1, eff. Jan. 1, 1982.]

**§ 34.07. Subrogation of Purchaser at Void Sale**

(a) The purchaser at a void or defective tax sale is subrogated to the rights of the taxing unit in whose behalf the property was sold to the same extent a purchaser at a void or defective sale conducted in behalf of a judgment creditor is subrogated to the rights of the judgment creditor.

(b) Except as provided by Subsection (c) of this section, the purchaser at a void or defective tax sale is subrogated to the tax lien of the taxing unit in whose behalf the property was sold to the same extent a purchaser at a void or defective mortgage or other lien foreclosure sale is subrogated to the lien of the lienholder, and the purchaser is entitled to a reforeclosure of the lien to which he is subrogated.

(c) If the purchaser at a void or defective tax sale paid less than the total amount of the judgment against the property, he is subrogated to the tax lien only in the amount he paid at the sale.

(d) In lieu of pursuing the rights to which he is subrogated, a purchaser at a void tax sale may elect to file an action against the taxing units to which the proceeds of the sale were distributed to recover the amount paid at the sale. A purchaser who files a suit authorized by this subsection waives all rights to which he would otherwise be subrogated.

[Acts 1979, 66th Leg., p. 2299, ch. 841, § 1, eff. Jan. 1, 1982.]

**§ 34.08. State a Taxing Unit**

For the purposes of this chapter, the state is a taxing unit.

[Acts 1979, 66th Leg., p. 2300, ch. 841, § 1, eff. Jan. 1, 1982.]

[Sections 34.09 to 34.20 reserved for expansion]

## SUBCHAPTER B. REDEMPTION

## § 34.21. Right of Redemption

(a) The owner of real property sold at a tax sale may redeem the property within two years after the date on which the purchaser's deed is filed for record by paying the purchaser the amount he bid for the property, the amount of the deed recording fee, and the amount paid by the purchaser as taxes, penalties, interest, and costs on the property, plus 25 percent of the aggregate total if the property is redeemed during the first year of the redemption period or 50 percent of the aggregate total if the property is redeemed during the second year of the redemption period.

(b) If the owner of the property makes an affidavit that he has made diligent search in the county in which the property is located for the purchaser at the tax sale and has failed to find him, that the purchaser at the sale is not a resident of the county in which the property is located, that he and the purchaser cannot agree on the amount of redemption money due, or that the purchaser refuses to give him a quitclaim deed to the property, the owner may redeem the land by paying the required amount to the assessor-collector for the county in which the property is located. The assessor-collector receiving the payment shall give the owner a signed receipt witnessed by two persons. The receipt, when recorded, is notice to all persons that the property described has been redeemed. The assessor-collector shall on demand pay the money received by him to the purchaser at the tax sale.

[Acts 1979, 66th Leg., p. 2300, ch. 841, § 1, eff. Jan. 1, 1979.]

## § 34.22. Evidence of Title to Redeem Real Property

(a) A person asserting ownership of real property sold for taxes is entitled to redeem the property if he had title to the property or he was in possession of the property in person or by tenant either at the time suit to foreclose the tax lien on the property was instituted or at the time the property was sold. A defect in the chain of title to the property does not defeat an offer to redeem.

(b) A person who establishes title to real property that is superior to the title of one who has previously redeemed the property is entitled to redeem the property during the redemption period by paying the amounts provided by law to the person who previously redeemed the property.

[Acts 1979, 66th Leg., p. 2300, ch. 841, § 1, eff. Jan. 1, 1982.]

## § 34.23. Distribution of Redemption Proceeds

(a) If the owner of property sold for taxes to a taxing unit redeems the property before the property is resold, the taxing unit shall distribute the redemption proceeds in the manner that proceeds of the resale of property are distributed.

(b) If the owner of property sold for taxes redeems the property from the taxing unit after the

property has been resold, the taxing unit shall pay the purchaser at the resale the amount he paid for the property, plus 25 percent of that amount if the redemption occurs within one year after the date the property is resold or 50 percent of that amount if the redemption occurs more than one year after the date the property is resold. The taxing unit shall distribute the redemption proceeds remaining after payment of the amount due the purchaser at resale to the taxing units adjudged to have tax liens against the property in the proportion the amount of each unit's lien bears to the total amount of all liens established in the foreclosure suit.

[Acts 1979, 66th Leg., p. 2300, ch. 841, § 1, eff. Jan. 1, 1982.]

*Section 1 of Acts 1981, 67th Leg., p. 1490, ch. 389, enacted Title 2. Section 40 of said Act provides:*

*"Sec. 40. Legislative Intent. This Act is intended as a recodification only, and no substantive change in the law is intended by this Act."*

**§ 101.001. Purpose of Title**

(a) This title is enacted as a part of the state's continuing statutory revision program, begun by the Texas Legislative Council in 1963 as directed by the legislature in Chapter 448, Acts of the 58th Legislature, 1963 (Article 5429b-1, Vernon's Texas Civil Statutes). The program contemplates a topic-by-topic revision of the state's general and permanent statute law without substantive change.

(b) Consistent with the objectives of the statutory revision program, the purpose of this code is to make the general and permanent state tax laws more accessible and understandable by:

- (1) rearranging the statutes into a more logical order;
- (2) employing a format and numbering system designed to facilitate citation of the law and to accommodate future expansion of the law;
- (3) eliminating repealed, duplicative, unconstitutional, expired, executed, and other ineffective provisions; and
- (4) restating the law in modern American English to the greatest extent possible.

[Acts 1981, 67th Leg., p. 1492, ch. 389, § 1, eff. Jan. 1, 1982.]

**§ 101.002. Construction of Code**

[Acts 1981, 67th Leg., p. 1493, ch. 389, § 1, eff. Jan. 1, 1982.]

(a) A grammatical error does not vitiate a law, and when a sentence or clause is without meaning, words and clauses may be transposed to determine the intended meaning.

(b) The punctuation of a sentence does not control or affect the intention of the legislature in the enactment of this title.

[Acts 1981, 67th Leg., p. 1493, ch. 389, § 1, eff. Jan. 1, 1982.]

The comptroller shall collect the taxes imposed by this title except as otherwise provided by this title. [Acts 1981, 67th Leg., p. 1495, ch. 389, § 1, eff. Jan. 1, 1982.]

**§ 111.002. Comptroller's Rules; Compliance; Forfeiture**

(a) The comptroller may adopt rules that do not conflict with the laws of this state or the constitution of this state or the United States for the enforcement of the provisions of this title and the collection of taxes and other revenues under this title.

(b) A person who does not comply with a rule made under this section forfeits to the state an amount of not less than \$25 nor more than \$500. Each day on which a failure to comply occurs or continues is a separate violation.

(c) If a forfeiture is not paid, the attorney general shall file suit to recover the forfeiture in a court of competent jurisdiction in Travis County or in any other county where venue lies.

(d) Any other provision of this code that imposes a different penalty for the violation of a comptroller's rule made for the enforcement or collection of a specific tax imposed by this title prevails over the penalty provided by this section.

[Acts 1981, 67th Leg., p. 1495, ch. 389, § 1, eff. Jan. 1, 1982.]

**§ 111.003. Comptroller's Investigations**

(a) On the governor's request, the comptroller shall:

(1) investigate the books and accounts of assessing and collecting officers of the state and other officers or persons receiving, disbursing, or possessing public funds;

(2) perform other duties and make investigations in relation to public funds as requested by the governor; and

(3) investigate any state institution and its policies, management, and operation, including the fiscal affairs and the conduct and efficiency of any state employee of the institution.

(b) The comptroller shall report to the governor the results of an investigation requested under Subsection (a) of this section. The report must be written and include:

(1) a description of each violation of the revenue laws;

(2) a description of the failure, if any, to enforce revenue laws;

(3) the name of each person reasonably believed to have committed a violation or to have been guilty of nonfeasance; and

(4) if a state institution is investigated, a description of the expenditures of the institution and of all sums of money due the state, the ascertainment and collection of which does not devolve upon other officers of the state under existing law.

(c) A person connected with the public service shall submit all books, records, and accounts to the comptroller without delay on the request of the comptroller when conducting an investigation under Subsection (a) of this section.

(d) On the receipt of a report that indicates a violation of revenue laws or neglect of duty, the governor shall notify the attorney general, who shall institute criminal and civil proceedings in the name of the state against persons accused of a violation or neglect of duty.

(e) The comptroller may at any time examine and investigate the expenditure of appropriated money for a state institution or for any other purpose or for improvements made by the state on state property or money received and disbursed by any board au-

thorized to receive and disburse state money. The comptroller shall investigate any state institution when required by information coming to his own knowledge.

[Acts 1981, 67th Leg., p. 1495, ch. 389, § 1, eff. Jan. 1, 1982.]

**§ 111.004. Power to Examine Records and Persons**

(a) For the purpose of carrying out the terms of this title the comptroller may examine at the principal or any other office in the United States of any person, firm, agent, or corporation permitted to do business in this state, all books, records and papers and also any of their officers or employees under oath.

(b) If any person refuses to permit an examination or answer any question authorized by Subsection (a) of this section, the comptroller may certify the fact of the refusal to the secretary of state, who shall immediately forfeit the charter or the permit to do business of the person until the examination as required is completed.

(c) No charge may be made by the comptroller to examine a book, record, or paper or to question an officer or employee.

(d) The comptroller's authority to examine books, records, and papers under this chapter extends to all books, records, papers, and other objects which the comptroller determines are necessary for conducting a complete examination under this title.

[Acts 1981, 67th Leg., p. 1496, ch. 389, § 1, eff. Jan. 1, 1982.]

**§ 111.0041. Records**

(a) Any taxpayer who is required by this title to keep records shall keep those records open to inspection by the comptroller, the attorney general, or the authorized representatives of either of them for four years.

(b) This section prevails over any other conflicting provision of this title except Section 191.024(b) of this code.

[Acts 1981, 67th Leg., p. 1496, ch. 389, § 1, eff. Jan. 1, 1982.]

**§ 111.0042. Sampling in Auditing; Projecting Assessments**

(a) Pursuant to a written agreement with the taxpayer, or without an agreement in cases coming within the provisions of Subsection (b)(2) of this section, the comptroller or his designee may use sample and projection auditing methods for determining tax liability when he determines that the sampling and projection will provide the most reasonable means of determining any tax imposed by this title. Should the taxpayer not agree in writing to a sample and projection audit method as provided by this section, any audit performed on the taxpayer shall be a detailed audit. The comptroller may use sample audit methods in preliminary testing to de-

termine if an error exists without the written approval of the taxpayer, but the sample may not be used as a basis for a tax liability without the written consent of the taxpayer.

(b) Sampling auditing methods are appropriate if:

(1) the taxpayer's records are so detailed, complex, or voluminous that an audit of all detailed records would be unreasonable or impractical;

(2) the taxpayer's records are inadequate or insufficient, so that a competent audit for the period in question is not otherwise possible; or

(3) the cost of an audit of all detailed records to the taxpayer or to the state will be unreasonable in relation to the benefits derived, and sampling procedures will produce a reasonable result.

(c) Before using a sample technique to establish a tax liability, the comptroller or his designee must notify the taxpayer in writing of the sampling procedure to be used.

(d) The sample must reflect as nearly as possible the normal conditions under which the business was operated during the period to which the audit applies. If a taxpayer can demonstrate that a transaction in a sample period is not representative of the taxpayer's business operations, the transaction shall be eliminated from the sample and be separately assessed in the audit. If records are inadequate to reflect accurately the business operations of the taxpayer, the comptroller or his designee shall determine the best information available and base his audit report on that information.

(e) If the taxpayer demonstrates that any sampling method used by the comptroller was not in accordance with generally recognized sampling techniques, the audit will be dismissed as to that portion of the audit established by projection based upon the sampling method, and a new audit may be performed.

[Acts 1981, 67th Leg., p. 1496, ch. 389, § 1, eff. Jan. 1, 1982.]

#### § 111.0043. General Audit and Prehearing Powers

(a) In this section:

(1) "Person" includes an individual, corporation, partner, partnership, officer, or director of a corporation, joint venture, trust, trustee, agent, or association.

(2) "Taxpayer" means the person whose tax obligation the comptroller is seeking to determine.

(b)(1) Before a determination of or a hearing on a taxpayer's tax obligation, if any, the comptroller may issue a subpoena addressed to the sheriff or constable of any county in this state to require any person who the comptroller determines may provide assistance in the examination of a taxpayer's tax obligation to appear at the place and time stated in the subpoena for the taking of his oral deposition before an official authorized to take depositions. The subpoena may require the person to produce at the time of the deposition books, documents, records,

papers, accounts, and other objects as may be specified by the comptroller. The subpoena must include a statement setting out the reason why the requested material is needed.

(2) The deposition shall be taken in the county of the person's residence or in the county where the person is employed or regularly transacts business. The subpoena shall specify that the person shall remain in attendance from day to day until the deposition is begun and completed.

(3) The officer taking the oral deposition may not sustain objections to any of the testimony taken or exclude any of it.

(4) When the testimony is fully transcribed, the deposition shall be submitted to the person for examination and read to or by the person, unless the examination and reading are waived in writing by the person and by the comptroller. However, if the person is represented by an attorney of record, the deposition officer shall notify the attorney of record in writing by registered mail or certified mail that the deposition is ready for examination and reading at the office of the deposition officer. If the person does not appear and examine, read, and sign the deposition within 10 days after the mailing of the notice, the deposition shall be returned and may be used as fully as though signed. The officer shall enter on the deposition any changes in form or substance that the person desires to make and a statement of the reasons given by the person for making them. The deposition shall then be signed by the person, unless the person and the comptroller by stipulation waive the signing or the person is ill, cannot be found, or refuses to sign. If the deposition is not signed by the person, the officer shall sign it and state on the record the fact of the waiver, illness, or absence of the person or the fact of the refusal to sign, together with the reason, if any, given for failure to sign. The deposition may then be used as fully as though signed.

(5) The deposition shall be returned to the comptroller by the official taking the deposition either by mail or by delivering it in person.

(c) Before a determination of or a hearing on a taxpayer's tax obligation, if any, the comptroller may:

(1) issue a subpoena addressed to the sheriff or constable of any county in this state to require any person to produce at the place and time stated in the subpoena books, documents, records, papers, accounts, and other objects that the comptroller determines may assist in an examination of a person's tax obligation;

(2) issue an order to a person to permit entry upon designated land or other property in his possession or control for the purpose of inspecting, measuring, surveying, or photographing the property or any designated object or operation on the property that may be material to any matter

involved in the examination; the order must specify the time, place, and manner of making the inspection, measurement, or survey and taking the copies and photographs and may prescribe any terms and conditions that are just;

(3) copy or conduct a complete examination of books, documents, records, papers, accounts, and other objects that are produced as a result of the subpoenas or orders specified in this section; and

(4) serve or have served by his designated agent any subpoena or order issued under this section by delivering a copy of the subpoena to the person.

(d) A person, other than the taxpayer, who is subpoenaed to give a deposition or to produce books, records, papers, or other objects under the authority of this section is entitled to receive after presentation of a voucher sworn by the person and approved by the comptroller:

(1) mileage of 20 cents a mile, or a greater amount as prescribed by agency rule, for going to and returning from the place of the hearing or the place where the deposition is taken, if the place is more than 25 miles from the person's place of residence; and

(2) a fee of \$20 a day, or a greater amount as prescribed by agency rule, for each day or part of a day the person is necessarily present as a deponent.

(e) If a person fails to comply with a subpoena or order issued under this section, the comptroller may:

(1) acting through the attorney general, bring suit to enforce the subpoena or order in a district court of Travis County; the court, if it determines that good cause exists for the issuance of a subpoena or order, shall order the compliance with the requirements of the subpoena or order; failure to obey the order of the court may be punishable by the court as contempt;

(2) use records, books, papers, and other documents obtained or depositions taken under this section only in an administrative hearing of the comptroller or a judicial proceeding brought by or against the comptroller; the information may be made available to the federal government or to another state under an exchange agreement; and

(3) delegate his authority to issue subpoenas or orders and to participate in the taking of depositions as specified in this section to any attorney employed by him.

(f) If a foreign corporation doing business in this state has such contact with this state that it becomes subject to the taxes administered and collected by the comptroller and fails to appoint or maintain a registered agent in this state, or if the registered agent cannot with reasonable diligence be found at the registered office, then the secretary of state shall be an agent of the corporation and may be served with any subpoena or other order issued under this section in the manner provided for service of process in Article 8.10, Texas Business Corporation Act, as amended.

(g) Any person, including the taxpayer, shall be entitled to obtain upon request a copy of any statement he has previously made concerning the examination or its subject matter and which is in the possession, custody, or control of the comptroller. Copies of statements made to the comptroller by any person which are used as a basis for an assessment against a taxpayer may be obtained by the taxpayer upon request. If the request is refused, the person may move for an agency order under this subsection. For the purpose of this section, a statement previously made is:

(1) a written statement signed or otherwise adopted or approved by the person making it; or

(2) a stenographic, mechanical, electrical, or other recording, or a transcription thereof, which is a substantially verbatim recital of an oral statement by the person making it and contemporaneously recorded.

[Acts 1981, 67th Leg., p. 1497, ch. 389, § 1, eff. Jan. 1, 1982.]

**§ 111.0044. Special Procedures for Third-Party Orders and Subpoenas**

(a)(1) If any order or subpoena described in Section 111.0043 of this code is served on any person who is a third-party recordkeeper, and the order or subpoena requires the production of any portion of records made or kept of the business transactions or affairs of any person (other than the person ordered or subpoenaed) who is identified in the description of the record contained in the order or subpoena, then notice of the order or subpoena shall be given to any person so identified within three days of the day on which the service on the third-party recordkeeper is made but no later than the 14th day before the day fixed in the order or subpoena as the day upon which the records are to be examined. The notice shall be accompanied by a copy of the order or subpoena which has been served and shall contain directions for staying compliance with the order or subpoena under Subsection (b)(2) of this section.

(2) The notice shall be sufficient if, on or before the third day, the notice is delivered in hand to the person entitled to notice or is mailed by certified or registered mail to the last mailing address of the person or, in the absence of a last known address, is left with the person ordered or subpoenaed. If the notice is mailed, it shall be sufficient if mailed to the last known address of the person entitled to notice.

(3) For purposes of this section, the term "third-party recordkeeper" means:

(A) a mutual savings bank, cooperative bank, domestic building and loan association, or other savings institution chartered and supervised as a savings and loan or similar association under federal or state law, a bank as defined in Section 581 of the Internal Revenue Code of 1954, as amended (26 U.S.C. 581), or any credit union within the meaning of Section 501(c)(14)(A), Internal Revenue Code;

(B) any consumer reporting agency as defined under Section 603(f) of the Fair Credit Reporting Act (15 U.S.C. 1681a(f));

(C) any person extending credit through the use of credit cards or similar devices; and

(D) any broker as defined in Section 3(a)(4) of the Securities Exchange Act of 1934 (15 U.S.C. 78c(a)(4)).

(4) Subsection (a)(1) of this section may not apply to an order or subpoena served on the person with respect to whose liability the order or subpoena is issued or an officer or employee of the person; or any order or subpoena to determine whether or not records of the business transactions or affairs of an identified person have been made or kept; or any order or subpoena described in Subsection (e) of this section.

(5) An order or subpoena to which this subsection applies shall identify the taxpayer to whom the order or subpoena relates and to whom the records pertain and shall provide other information to enable the person ordered or subpoenaed to locate the records required under the order or subpoena.

(b)(1) Notwithstanding any other law or rule of law, a person who is entitled to notice of an order or subpoena under Subsection (a) of this section shall have the right to intervene in any proceeding with respect to the enforcement of the order or subpoena under Subsection (e) of Section 111.0043 of this code.

(2) Notwithstanding any other law or rule of law, a person who is entitled to notice of an order or subpoena under Subsection (a) of this section shall have the right to stay compliance with the order or subpoena if, not later than the 14th day after the day the notice is given in the manner provided in Subsection (a)(2) of this section:

(A) notice in writing is given to the person ordered or subpoenaed not to comply with the order or subpoena;

(B) a copy of the notice not to comply with the order or subpoena is mailed by registered or certified mail to the person and to the office the comptroller directs in the notice referred to in Subsection (a)(1) of this section; and

(C) suit is filed against the comptroller in a district court of Travis County to stay compliance with the order or subpoena.

(c) No examination of any records required to be produced under an order or subpoena as to which notice is required under Subsection (a) of this section may be made:

(1) before the expiration of the 14-day period allowed for the notice not to comply under Subsection (b)(2) of this section; or

(2) when the requirements of Subsection (b)(2) of this section have been met, except in accordance with an order issued by a district court of Travis County authorizing examination of the rec-

ords or with the consent of the person staying compliance.

(d) If any person takes any action as provided in Subsection (b) of this section and such person is the person with respect to whose liability the order or subpoena is issued under Section 111.0043 of this code (or is the agent, nominee, or other person acting under the direction or control of such person), then the running of any period of limitations under Subchapter D of this chapter with respect to the person shall be suspended for the period during which a proceeding and appeals of the proceeding with respect to the enforcement of such order are pending.

(e) Any order or subpoena issued under Section 111.0043 of this code that does not identify the person with respect to whose liability the order is issued may be served only after a court proceeding in which the comptroller establishes that:

(1) the order relates to the investigation of a particular person or ascertainable group or class of persons;

(2) there is a reasonable basis for believing that the person or group or class of persons may fail or may have failed to comply with any provision of state law; and

(3) the information sought to be obtained from the examination of the records (and the identity of the person or persons with respect to whose liability the order is issued) is not readily available from other sources.

(f) In the case of an order or subpoena issued under Section 111.0043 of this code, the provisions of Subsections (a)(1) and (b) of this section may not apply if, upon petition by the comptroller, the court determines, on the basis of the facts and circumstances alleged, that there is reasonable cause to believe the giving of notice may lead to attempts to conceal, destroy, or alter records relevant to the examination, to prevent the communication of information from other persons through intimidation, bribery, or collusion, or to flee to avoid prosecution, testifying, or production of records.

(g)(1) A district court of Travis County has jurisdiction to hear and determine proceedings brought under Subsection (e) or (f) of this section. The determinations required to be made under Subsections (e) and (f) of this section shall be ex parte and shall be made solely upon the petition and supporting affidavits. An order denying the petition shall be deemed a final order that may be appealed.

(2) Except for cases the court considers of greater importance, a proceeding brought for the enforcement of any order, or a proceeding under this section, and appeals, take precedence on the docket over all cases and shall be assigned for hearing and decided at the earliest practicable date.

(h) The comptroller shall by rule establish the rates and conditions for payments to reimburse rea-

sonably necessary costs directly incurred by third-party recordkeepers in searching for, reproducing, or transporting books, papers, records, or other data required to be produced by order or subpoena upon request of the comptroller. The reimbursement shall be in addition to mileage and fees paid under Subsections (d)(1) and (d)(2) of Section 111.0043 of this code.

[Acts 1981, 67th Leg., p. 1499, ch. 389, § 1, eff. Jan. 1, 1982.]

**§ 111.005. Governmental Entities to Cooperate**

Each department, officer, and employee of the state or of a local governmental entity shall cooperate with and give reasonable assistance and information to the comptroller when performing authorized duties.

**SUBCHAPTER D. LIMITATIONS**

[Acts 1981, 67th Leg., p. 1508, ch. 389, § 1, eff. Jan. 1, 1982.]

Section 39(l) of Acts 1981, 67th Leg., p. 1787, ch. 389, provides: "Sections 1 through 8 of S.B. No. 371, Acts of the 67th Legislature, Regular Session, 1981 [Chapter 102], are repealed. Section 10 of S.B. No. 371, Acts of the 67th Legislature, Regular Session, 1981, applies to the provisions of Title 2, Tax Code, that incorporate the amendments contained in S.B. No. 371 in the same manner that Section 10 of S.B. No. 371 applies to the provisions of S.B. No. 371."

Section 10 of Acts 1981, 67th Leg., p. 243, ch. 102, eff. Aug. 31, 1981, provides:

"The amendment by this Act in narrowing the period of limitations for collection of tax does not apply to the estates of persons who died prior to the effective date of this Act."

### § 111.202. Suit Limitation

At any time within three years after a deficiency or jeopardy determination has become due and payable or within three years after the last recording of a lien, the comptroller may bring an action in the courts of this state, or any other state, or of the United States in the name of the people of the State of Texas to collect the amount delinquent together with penalties and interest.

[Acts 1981, 67th Leg., p. 1508, ch. 389, § 1, eff. Jan. 1, 1982.]

For provisions as to application of 1981 amendment of article from which this section was derived, see note under § 111.201.

### § 111.203. Agreements to Extend Period of Limitation

(a) Before the expiration of the periods prescribed in Sections 111.201 and 111.202 of this code for the assessment and collection of any tax imposed by this title, the comptroller and a taxpayer may agree in writing to an assessment and collection after that time. The agreement must contain the reasons the comptroller and the taxpayer wish to extend the period. At any time before the expiration of the period agreed on, the tax may be assessed and collected or an action may be commenced in any court to collect the amount delinquent.

(b) The extended period agreed on under Subsection (a) of this section may be extended by subsequent agreements made before the expiration of the extended period. All subsequent agreements must set forth the reasons for extending the period.

(c) No single extension agreement may be for a period of more than 24 months from the expiration date of the period being extended.

(d) The period for assessment and collection of a tax may be extended if:

(1) without an extension, there might occur a revenue loss to the state;

(2) either the taxpayer or the comptroller, despite good faith efforts, requires more time to prepare for or complete the audit;

(3) without an extension, circumstances beyond the control of either the comptroller or the taxpayer would make an audit by the comptroller impractical or burdensome for either party; or

(4) an issue of law involved in the audit is awaiting determination in either litigation or an administrative proceeding.

[Acts 1981, 67th Leg., p. 1508, ch. 389, § 1, eff. Jan. 1, 1982.]

For provisions as to application of 1981 amendment of article from which this section was derived, see note under § 111.201.

### § 111.204. Beginning of Period of Limitation

In determining the beginning date for a period of limitation provided in this title, the date that a tax is due and payable is the day after the last day on which a payment is required by the chapter of this title imposing the tax.

[Acts 1981, 67th Leg., p. 1509, ch. 389, § 1, eff. Jan. 1, 1982.]

### § 111.205. Exception to Assessment Limitation

The limitation provided by Section 111.201 of this code does not apply and the comptroller may assess a tax imposed by this title at any time if:

(1) with intent to evade the tax, the taxpayer files a false or fraudulent report;

(2) no report for the tax has been filed; or

(3) information contained in the report of the tax contains a gross error and the amount of tax due and payable after correction of the error is 25 percent or more greater than the amount initially reported.

[Acts 1981, 67th Leg., p. 1509, ch. 389, § 1, eff. Jan. 1, 1982.]

### § 111.206. Exception to Limitation: Determination Resulting From Administrative Proceeding

(a) This section applies only to a final determination resulting from:

(1) an administrative proceeding of a local, state, or federal regulatory agency; or

(2) a judicial proceeding arising from an administrative proceeding of a local, state, or federal regulatory agency.

(b) A final determination that affects the amount of liability of a tax imposed by this title shall be reported to the comptroller before the expiration of 60 days after the day on which the determination becomes final. The report must include a detailed statement of the reasons for the difference in tax liability as required by the comptroller.

(c) Notwithstanding the expiration of a period of limitation provided in this title, the comptroller may assess and collect or bring suit for the collection of any tax deficiency, including penalties and interest, resulting from a final determination or from investigation at any time before the expiration of one year after:

(1) the day the report required by Subsection (b) of this section is received, if the report is filed within the 60-day period; or

(2) if the report is not made or is made after the 60-day period, the day the report is received or the day the final determination is discovered, whichever period is the shorter.

(d) If a final determination or investigation results in the taxpayer having overpaid the amount of tax due the state, the comptroller shall refund or issue a credit for the amount of the overpayment at

any time during the one-year period during which assessments may be made under Subsection (c) of this section.

(e) This section does not shorten any period of limitation elsewhere provided in this title.

[Acts 1981, 67th Leg., p. 1509, ch. 389, § 1, eff. Jan. 1, 1982.]

**§ 111.207. Tolling of Limitation Period**

(a) In determining the expiration date for a period when a tax imposed by this title may be assessed or collected, the following periods are not considered:

- (1) the period following the date of a tax payment made under protest;
- (2) the period during which a judicial proceeding is pending in a court of competent jurisdiction to determine the amount of the tax due; and
- (3) the period during which an administrative proceeding is pending before the comptroller for a redetermination of the tax liability.

(b) The suspension of a period of limitation under Subsection (a) of this section applies only to the amount of taxes in issue under Subdivision (1), (2), or (3) of that subsection.

(c) A bankruptcy case commenced under Title 11 of the United States Code suspends the running of the period prescribed by any section of this title for the assessment or collection of any tax imposed by this title until the bankruptcy case is dismissed or closed. After the case is dismissed or closed, the running of the period resumes until finally expired.

[Acts 1981, 67th Leg., p. 1510, ch. 389, § 1, eff. Jan. 1, 1982.]

(a) A person may voluntarily pay to the comptroller the tax, fine, penalty, and interest due for a period of time under this title by another person after the tax becomes due or may pay a judgment for those taxes, and when the tax or judgment is paid, the comptroller may assign all rights, liens, judgments, and remedies of the state to secure and enforce tax payments to the person paying the tax or the judgment.

(b) A person paying a tax or judgment for another under Subsection (a) of this section is subrogated to and succeeds to all rights, liens, judgments, and remedies of the state relating to the enforcement of the taxes paid.

[Acts 1981, 67th Leg., p. 1510, ch. 389, § 1, eff. Jan. 1, 1982.]

**§ 111.252. Notice to Taxpayer**

(a) No assignment under Section 111.251 of this code may be made until after the expiration of 30 days after notice of the assignments is given to the taxpayer from whom the tax is due or against whom the judgment is taken.

(b) Notice of the assignment must be sent by certified mail to the taxpayer at his last known address as shown in the comptroller's records.

[Acts 1981, 67th Leg., p. 1510, ch. 389, § 1, eff. Jan. 1, 1982.]

**§ 111.253. Venue for Enforcement of Assigned Claims**

Venue for the enforcement of an assigned tax claim or judgment under this subchapter by the assignee is governed by the general law establishing venue and not by the special venue provisions of this title.

[Acts 1981, 67th Leg., p. 1510, ch. 389, § 1, eff. Jan. 1, 1982.]

**§ 111.254. Reassignment**

(a) The rights, liens, judgments, and remedies assigned under Section 111.251 of this code may be reassigned by any assignee.

(b) If notice is given as required by Section 111.252 of this code, all rights, liens, judgments, and remedies originally held by the state to enforce and secure the tax claim or judgment pass to each person receiving a reassignment unless the reassignment is expressly limited in writing.

[Acts 1981, 67th Leg., p. 1511, ch. 389, § 1, eff. Jan. 1, 1982.]

The court in which a suit is refiled as authorized by this subsection may dispose of those taxes paid under protest more than 90 days before the refiled, if those taxes were included in the original suit.

(c) This section applies to additional taxes paid under protest only if a written protest is filed with the additional taxes and the protest states the same reason for contending the payment of taxes that was stated in the original protest.

**§ 112.059. Disposition of Protest Payments Belonging to the State**

(a) If a suit authorized by this subchapter is not brought in the manner or within the time required or if the suit is properly filed and results in a final determination that a tax payment or a portion of a tax payment made under protest, including the pro rata amount of interest earned on the payment, belongs to the state, the treasurer shall transfer the proper amount from the suspense account to the appropriate state fund by the issuance of a deposit warrant.

(b) Each warrant issued under this section shall be entered in the suspense cash book and the appropriate fund to which the transfer is made shall be properly credited with the correct amount.

(1) paid into the suspense account of the treasurer all taxes, fees, and penalties then due by the applicant to the state; or

(2) filed with the treasurer a good and sufficient bond to guarantee the payment of the taxes, fees, and penalties in an amount equal to twice the amount of the taxes, fees, and penalties then due and that may reasonably be expected to become due during the period the order or injunction is in effect.

(b) The amount of the bond and the sureties on the bond authorized by Subsection (a)(2) of this section must be approved by and acceptable to the judge of the court granting the order or injunction and the attorney general.

(c) The application for the restraining order or injunction must state under the oath of the applicant or the agent or attorney of the applicant that:

(a) After the granting of a restraining order or injunction under this subchapter, the applicant shall make and keep a well-bound record book of all taxes accruing during the period that the order or injunction is effective.

(b) The record book is open for inspection by the attorney general and the state officer authorized to enforce the collection of the tax to which the order or injunction applies during the period that the order or injunction is effective and for one year after the date that the order or injunction expires.

(c) The record book must include a record of each purchase, receipt, sale, or other disposition of a commodity, product, material, or article on which the tax is levied or by which the tax is measured. [Acts 1981, 67th Leg., p. 1515, ch. 389, § 1, eff. Jan. 1, 1982.]

(b) If the attorney general determines that the amount of a bond filed under this subchapter is insufficient to cover double the amount of taxes, fees, and penalties accruing after the restraining

order or injunction is granted, the attorney general shall demand that the applicant file an additional bond.

[Acts 1981, 67th Leg., p. 1515, ch. 389, § 1, eff. Jan. 1, 1982.]

**§ 112.105. Dismissal of Injunction**

(b) On the filing of an affidavit authorized by Subsection (a) of this section, the clerk of the court shall give notice to the applicant to appear before the court to show cause why the order or injunction should not be dismissed. The notice shall be served by the sheriff of the county where the applicant resides or by any other peace officer in the state.

(c) The date of the show-cause hearing, which shall be within five days of service of the notice or as soon as the court can hear it, shall be named in the notice.

(d) If the court finds that the applicant failed, at any time before the suit is finally disposed of by the court of last resort, to make and keep a record, file a report, file an additional bond on the demand of the attorney general, or pay additional taxes, fees, and penalties as required by this subchapter, the court shall dismiss the application and dissolve the order or injunction.

[Acts 1981, 67th Leg., p. 1515, ch. 389, § 1, eff. Jan. 1, 1982.]

(a) If a restraining order or injunction is finally dismissed or dissolved, the treasurer shall:

- (1) if a bond was filed, make demand on the applicant and the applicant's sureties for the immediate payment of all taxes, fees, and penalties due the state; or
- (2) if no bond was filed, transfer the amount of taxes, fees, and penalties from the suspense account to the proper fund to which the taxes, fees, and penalties are allocated.

(b) Taxes, fees, and penalties that are secured by a bond and remain unpaid after a demand for payment shall be recovered in a suit by the attorney general against the applicant and the applicant's sureties in a court of competent jurisdiction of Travis County or in any other court having jurisdiction of the suit.

[Acts 1981, 67th Leg., p. 1516, ch. 389, § 1, eff. Jan. 1, 1982.]

**SUBCHAPTER B. APPLICATIONS AND STATUS OF STATE TAX LIENS**

**§ 113.101. Applicability of Lien Before Filing**

(a) No lien created by this title is effective against a person listed in Subsection (b) of this section who acquires a lien, title, or other right or interest in property before the filing, recording, and indexing of the lien:

(1) on real property, in the county where the property is located; or

(2) on personal property, in the county where the taxpayer resided at the time the tax became due and payable or in the county where the taxpayer filed the report.

(b) This section applies to a bona fide purchaser, mortgagee, holder of a deed of trust, judgment creditor, or any other person who acquired the lien, title, or right or interest in the property for bona fide consideration.

[Acts 1981, 67th Leg., p. 1520, ch. 389, § 1, eff. Jan. 1, 1982.]

**§ 113.102. Applicability of Lien to Merchandise Purchase**

No lien created by this title is effective against a bona fide purchaser for value of goods, wares, or merchandise daily exposed for sale in the regular course of business if the purchase and actual or constructive possession of the goods, wares, or merchandise is completed before the goods, wares, or merchandise are seized under a valid legal writ or other lawful process.

[Acts 1981, 67th Leg., p. 1520, ch. 389, § 1, eff. Jan. 1, 1982.]

**§ 113.103. Applicability of Lien to Financial Institutions**

(b) If a lien is perpetuated and foreclosed, no further action or notice on the judgment is required, and the notice of the state tax lien on record continues in effect.

(c) If all or part of a lien is nullified, a certified copy of the judgment may be filed with the county clerk of the county where the tax lien notice was filed and may be recorded in the same manner as a release by the comptroller.

(d) Execution, order for sale, or other process for the enforcement of the lien may be issued on the judgment at any time.

[Acts 1981, 67th Leg., p. 1521, ch. 389, § 1, eff. Jan. 1, 1982.]

ARTICLE I. PURPOSES

- 2. Promote uniformity or compatibility in significant components of tax systems.
- 3. Facilitate taxpayer convenience and compliance in the filing of tax returns and in other phases of tax administration.
- 4. Avoid duplicative taxation.

ARTICLE II. DEFINITIONS

As used in this compact:

- 1. "State" means a state of the United States, the District of Columbia, the Commonwealth of Puerto Rico, or any territory or possession of the United States.
- 2. "Subdivision" means any governmental unit or special district of a state.
- 3. "Taxpayer" means any corporation, partnership, firm, association, governmental unit or agency or person acting as a business entity in more than one state.
- 4. "Income tax" means a tax imposed on or measured by net income including any tax imposed on or measured by an amount arrived at by deducting expenses from gross income, one or more forms of which expenses are not specifically and directly related to particular transactions.
- 5. "Capital stock tax" means a tax measured in any way by the capital of a corporation considered in its entirety.

6. "Gross receipts tax" means a tax, other than a sales tax, which is imposed on or measured by the gross volume of business, in terms of gross receipts or in other terms, and in the determination of which no deduction is allowed which would constitute the tax an income tax.

7. "Sales tax" means a tax imposed with respect to the transfer for a consideration of ownership, possession or custody of tangible personal property or the rendering of services measured by the price of the tangible personal property transferred or services rendered and which is required by state or local law to be separately stated from the sales price by the seller, or which is customarily separately stated from the sales price, but does not include a tax imposed exclusively on the sale of a specifically identified commodity or article or class of commodities or articles.

8. "Use tax" means a nonrecurring tax, other than a sales tax, which (a) is imposed on or with respect to the exercise or enjoyment of any right or power over tangible personal property incident to the ownership, possession or custody of that property or the leasing of that property from another including any consumption, keeping, retention, or other use of tangible personal property and (b) is complementary to a sales tax.

### ARTICLE III. ELEMENTS OF INCOME TAX LAWS

#### Taxpayer Option, State and Local Taxes

1. Any taxpayer subject to an income tax whose income is subject to apportionment and allocation for tax purposes pursuant to the laws of a party state or pursuant to the laws of subdivisions in two or more party states may elect to apportion and allocate his income in the manner provided by the laws of such state or by the laws of such states and subdivisions without reference to this compact, or may elect to apportion and allocate in accordance with Article IV. This election for any tax year may be made in all party states or subdivisions thereof or in any one or more of the party states or subdivisions thereof without reference to the election made in the others. For the purposes of this paragraph, taxes imposed by subdivisions shall be considered separately from state taxes and the apportionment and allocation also may be applied to the entire tax base. In no instance wherein Article IV is employed for all subdivisions of a state may the sum of all apportionments and allocations to subdivisions within a state be greater than the apportionment and allocation that would be assignable to that state if

the apportionment or allocation were being made with respect to a state income tax.

#### Taxpayer Option, Short Form

2. Each party state or any subdivision thereof which imposes an income tax shall provide by law that any taxpayer required to file a return, whose only activities within the taxing jurisdiction consist of sales and do not include owning or renting real estate or tangible personal property, and whose dollar volume of gross sales made during the tax year within the state or subdivision, as the case may be, is not in excess of \$100,000 may elect to report and pay any tax due on the basis of a percentage of such volume, and shall adopt rates which shall produce a tax which reasonably approximates the tax otherwise due. The Multistate Tax Commission, not more than once in five years, may adjust the \$100,000 figure in order to reflect such changes as may occur in the real value of the dollar, and such adjusted figure, upon adoption by the commission, shall replace the \$100,000 figure specifically provided herein. Each party state and subdivision thereof may make the same election available to taxpayers additional to those specified in this paragraph.

#### Coverage

3. Nothing in this article relates to the reporting or payment of any tax other than an income tax.

### ARTICLE IV. DIVISION OF INCOME

1. As used in this article, unless the context otherwise requires:

(a) "Business income" means income arising from transactions and activity in the regular course of the taxpayer's trade or business and includes income from tangible and intangible property if the acquisition, management, and disposition of the property constitute integral parts of the taxpayer's regular trade or business operations.

(b) "Commercial domicile" means the principal place from which the trade or business of the taxpayer is directed or managed.

(c) "Compensation" means wages, salaries, commissions and any other form of remuneration paid to employees for personal services.

(f) "Public utility" means any business entity (1) which owns or operates any plant, equipment, property, franchise, or license for the transmission of communications, transportation of goods or persons, except by pipe line, or the production, trans-

mission, sale, delivery, or furnishing of electricity, water or steam; and (2) whose rates of charges for goods or services have been established or approved by a federal, state or local government or governmental agency.

(g) "Sales" means all gross receipts of the taxpayer not allocated under paragraphs of this article.

(h) "State" means any state of the United States, the District of Columbia, the Commonwealth of Puerto Rico, any territory or possession of the United States, and any foreign country or political subdivision thereof.

(i) "This state" means the state in which the relevant tax return is filed or, in the case of application of this article to the apportionment and allocation of income for local tax purposes, the subdivision or local taxing district in which the relevant tax return is filed.

2. If a taxpayer has income from business activity as a public utility but derives the greater percentage of his income from activities subject to this article, the taxpayer may elect to allocate and apportion his entire net income as provided in this article.

3. For purposes of allocation and apportionment of income under this article, a taxpayer is taxable in another state if (1) in that state he is subject to a net income tax, a franchise tax measured by net income, a franchise tax for the privilege of doing business, or a corporate stock tax, or (2) that state has jurisdiction to subject the taxpayer to a net income tax regardless of whether, in fact, the state does or does not.

4. Rents and royalties from real or tangible personal property, capital gains, interest, dividends or patent or copyright royalties, to the extent that they constitute nonbusiness income, shall be allocated as provided in paragraphs 5 through 8 of this article.

5. (a) Net rents and royalties from real property located in this state are allocable to this state.

(b) Net rents and royalties from tangible personal property are allocable to this state: (1) if and to the extent that the property is utilized in this state, or (2) in their entirety if the taxpayer's commercial domicile is in this state and the taxpayer is not organized under the laws of or taxable in the state in which the property is utilized.

(c) The extent of utilization of tangible personal property in a state is determined by multiplying the rents and royalties by a fraction, the numerator of which is the number of days of physical location of the property in the state during the rental or royalty period in the taxable year and the denominator of which is the number of days of

physical location of the property everywhere during all rental or royalty periods in the taxable year. If the physical location of the property during the rental or royalty period is unknown or unascertainable by the taxpayer, tangible personal property is utilized in the state in which the property was located at the time the rental or royalty payer obtained possession.

6. (a) Capital gains and losses from sales of real property located in this state are allocable to this state.

(b) Capital gains and losses from sales of tangible personal property are allocable to this state if (1) the property had a situs in this state at the time of the sale, or (2) the taxpayer's commercial domicile is in this state and the taxpayer is not taxable in the state in which the property had a situs.

(c) Capital gains and losses from sales of intangible personal property are allocable to this state if the taxpayer's commercial domicile is in this state.

7. Interest and dividends are allocable to this state if the taxpayer's commercial domicile is in this state.

8. (a) Patent and copyright royalties are allocable to this state: (1) if and to the extent that the patent or copyright is utilized by the payer in this state, or (2) if and to the extent that the patent or copyright is utilized by the payer in a state in which the taxpayer is not taxable and the taxpayer's commercial domicile is in this state.

(b) A patent is utilized in a state to the extent that it is employed in production, fabrication, manufacturing, or other processing in the state or to the extent that a patented product is produced in the state. If the basis of receipts from patent royalties does not permit allocation to states or if the accounting procedures do not reflect states of utilization, the patent is utilized in the state in which the taxpayer's commercial domicile is located.

(c) A copyright is utilized in a state to the extent that printing or other publication originates in the state. If the basis of receipts from copyright royalties does not permit allocation to states or if the accounting procedures do not reflect states of utilization, the copyright is utilized in the state in which the taxpayer's commercial domicile is located.

9. All business income shall be apportioned to this state by multiplying the income by a fraction, the numerator of which is the property factor plus the payroll factor plus the sales factor, and the denominator of which is three.

10. The property factor is a fraction, the numerator of which is the average value of the taxpayer's real and tangible personal property owned or rented and used in this state during the tax period and the denominator of which is the average value of all the

taxpayer's real and tangible personal property owned or rented and used during the tax period.

11. Property owned by the taxpayer is valued at its original cost. Property rented by the taxpayer is valued at eight times the net annual rental rate. Net annual rental rate is the annual rental rate paid by the taxpayer less any annual rental rate received by the taxpayer from subrentals.

12. The average value of property shall be determined by averaging the values at the beginning and ending of the tax period but the tax administrator may require the averaging of monthly values during the tax period if reasonably required to reflect properly the average value of the taxpayer's property.

13. The payroll factor is a fraction, the numerator of which is the total amount paid in this state during the tax period by the taxpayer for compensation and the denominator of which is the total compensation paid everywhere during the tax period.

14. Compensation is paid in this state if:

(a) the individual's service is performed entirely within the state;

(b) the individual's service is performed both within and without the state, but the service performed without the state is incidental to the individual's service within the state; or

(c) some of the service is performed in the state and (1) the base of operations or, if there is no base of operations, the place from which the service is directed or controlled is in the state, or (2) the base of operations or the place from which the service is directed or controlled is not in any state in which some part of the service is performed, but the individual's residence is in this state.

15. The sales factor is a fraction, the numerator of which is the total sales of the taxpayer in this state during the tax period, and the denominator of which is the total sales of the taxpayer everywhere during the tax period.

16. Sales of tangible personal property are in this state if:

(a) the property is delivered or shipped to a purchaser, other than the United States government, within this state regardless of the f. o. b. point or other conditions of the sale; or

(b) the property is shipped from an office, store, warehouse, factory, or other place of storage in this state and (1) the purchaser is the United States government or (2) the taxpayer is not taxable in the state of the purchaser.

17. Sales, other than sales of tangible personal property, are in this state if:

(a) the income-producing activity is performed in this state; or

(b) the income-producing activity is performed both in and outside this state and a greater proportion of the income-producing activity is performed in this state than in any other state, based on costs of performance.

18. If the allocation and apportionment provisions of this article do not fairly represent the extent of the taxpayer's business activity in this state, the taxpayer may petition for or the tax administrator may require, in respect to all or any part of the taxpayer's business activity, if reasonable:

(a) separate accounting;

(b) the exclusion of any one or more of the factors;

(c) the inclusion of one or more additional factors which will fairly represent the taxpayer's business activity in this state; or

(d) the employment of any other method to effectuate an equitable allocation and apportionment of the taxpayer's income.

#### ARTICLE V. ELEMENTS OF SALES AND USE TAX LAWS

##### Tax Credit

1. Each purchaser liable for a use tax on tangible personal property shall be entitled to full credit for the combined amount or amounts of legally imposed sales or use taxes paid by him with respect to the same property to another state and any subdivision thereof. The credit shall be applied first against the amount of any use tax due the state, and any unused portion of the credit shall then be applied against the amount of any use tax due a subdivision.

##### Exemption Certificates, Vendors May Rely

2. Whenever a vendor receives and accepts in good faith from a purchaser a resale or other exemption certificate or other written evidence of exemption authorized by the appropriate state or subdivision taxing authority, the vendor shall be relieved of liability for a sales or use tax with respect to the transaction.

#### ARTICLE VI. THE COMMISSION

##### Organization and Management

1. (a) The Multistate Tax Commission is hereby established. It shall be composed of one "member" from each party state who shall be the head of the state agency charged with the administration of the types of taxes to which this compact applies. If there is more than one such agency the state shall provide by law for the selection of the commission member from the heads of the relevant agencies. State law may provide that a member of the commission be represented by an alternate but only if there is on file with the commission written notification of the designation and identity of the alternate. The attorney general of each party state or his designee, or other counsel if the laws of the party state specifically provide, shall be entitled to attend the meetings of the commission, but shall not vote. Such attorneys general, designees, or other counsel shall receive all notices of meetings required under paragraph 1(e) of this article.

(b) Each party state shall provide by law for the selection of representatives from its subdivisions

affected by this compact to consult with the commission member from that state.

(c) Each member shall be entitled to one vote. The commission shall not act unless a majority of the members are present, and no action shall be binding unless approved by a majority of the total number of members.

(d) The commission shall adopt an official seal to be used as it may provide.

(e) The commission shall hold an annual meeting and such other regular meetings as its bylaws may provide and such special meetings as its executive committee may determine. The commission bylaws shall specify the dates of the annual and any other regular meetings, and shall provide for the giving of notice of annual, regular and special meetings. Notices of special meetings shall include the reasons therefor and an agenda of the items to be considered.

(f) The commission shall elect annually, from among its members, a chairman, a vice-chairman and a treasurer. The commission shall appoint an executive director who shall serve at its pleasure, and it shall fix his duties and compensation. The executive director shall be secretary of the commission. The commission shall make provision for the bonding of such of its officers and employees as it may deem appropriate.

(g) Irrespective of the civil service, personnel or other merit system laws of any party state, the executive director shall appoint or discharge such personnel as may be necessary for the performance of the functions of the commission and shall fix their duties and compensation. The commission bylaws shall provide for personnel policies and programs.

(h) The commission may borrow, accept or contract for the services of personnel from any state, the United States, or any other governmental entity.

(i) The commission may accept for any of its purposes and functions any and all donations and grants of money, equipment, supplies, materials and services, conditional or otherwise, from any governmental entity, and may utilize and dispose of the same.

(j) The commission may establish one or more offices for the transacting of its business.

(k) The commission shall adopt bylaws for the conduct of its business. The commission shall publish its bylaws in convenient form, and shall file a copy of the bylaws and any amendments thereto with the appropriate agency or officer in each of the party states.

(l) The commission annually shall make to the governor and legislature of each party state a report covering its activities for the preceding year. Any donation or grant accepted by the commission or services borrowed shall be reported in the annual report of the commission, and shall

include the nature, amount and conditions, if any, of the donation, gift, grant or services borrowed and the identity of the donor or lender. The commission may make additional reports as it may deem desirable.

#### Committees

2. (a) To assist in the conduct of its business when the full commission is not meeting, the commission shall have an executive committee of seven members, including the chairman, vice-chairman, treasurer and four other members elected annually by the commission. The executive committee, subject to the provisions of this compact and consistent with the policies of the commission, shall function as provided in the bylaws of the commission.

(b) The commission may establish advisory and technical committees, membership on which may include private persons and public officials, in furthering any of its activities. Such committees may consider any matter of concern to the commission, including problems of special interest to any party state and problems dealing with particular types of taxes.

(c) The commission may establish such additional committees as its bylaws may provide.

#### Powers

3. In addition to powers conferred elsewhere in this compact, the commission shall have power to:

(a) Study state and local tax systems and particular types of state and local taxes.

(b) Develop and recommend proposals for an increase in uniformity or compatibility of state and local tax laws with a view toward encouraging the simplification and improvement of state and local tax law and administration.

(c) Compile and publish information as in its judgment would assist the party states in implementation of the compact and taxpayers in complying with state and local tax laws.

(d) Do all things necessary and incidental to the administration of its functions pursuant to this compact.

#### Finance

4. (a) The commission shall submit to the governor or designated officer or officers of each party state a budget of its estimated expenditures for such period as may be required by the laws of that state for presentation to the legislature thereof.

(b) Each of the commission's budgets of estimated expenditures shall contain specific recommendations of the amounts to be appropriated by each of the party states. The total amount of appropriations requested under any such budget shall be apportioned among the party states as follows: one-tenth in equal shares; and the remainder in proportion to the amount of revenue collected by each party state and its subdivisions from income taxes, capital stock taxes, gross re-

ceipts taxes, sales and use taxes. In determining such amounts, the commission shall employ such available public sources of information as, in its judgment, present the most equitable and accurate comparisons among the party states. Each of the commission's budgets of estimated expenditures and requests for appropriations shall indicate the sources used in obtaining information employed in applying the formula contained in this paragraph.

(c) The commission shall not pledge the credit of any party state. The commission may meet any of its obligations in whole or in part with funds available to it under paragraph 1(i) of this article: provided that the commission takes specific action setting aside such funds prior to incurring any obligation to be met in whole or in part in such manner. Except where the commission makes use of funds available to it under paragraph 1(i), the commission shall not incur any obligation prior to the allotment of funds by the party states adequate to meet the same.

(d) The commission shall keep accurate accounts of all receipts and disbursements. The receipts and disbursements of the commission shall be subject to the audit and accounting procedures established under its bylaws. All receipts and disbursements of funds handled by the commission shall be audited yearly by a certified or licensed public accountant and the report of the audit shall be included in and become part of the annual report of the commission.

(e) The accounts of the commission shall be open at any reasonable time for inspection by duly constituted officers of the party states and by any persons authorized by the commission.

(f) Nothing contained in this article shall be construed to prevent commission compliance with laws relating to audit or inspection of accounts by or on behalf of any government contributing to the support of the commission.

#### ARTICLE VII. UNIFORM REGULATIONS AND FORMS

1. Whenever any two or more party states, or subdivisions of party states, have uniform or similar provisions of law relating to an income tax, capital stock tax, gross receipts tax, sales or use tax, the commission may adopt uniform regulations for any phase of the administration of such law, including assertion of jurisdiction to tax, or prescribing uniform tax forms. The commission may also act with respect to the provisions of Article IV of this compact.

2. Prior to the adoption of any regulation, the commission shall:

(a) As provided in its bylaws, hold at least one public hearing on due notice to all affected party states and subdivisions thereof and to all taxpayers and other persons who have made timely request of the commission for advance notice of its regulation-making proceedings.

(b) Afford all affected party states and subdivisions and interested persons an opportunity to submit relevant written data and views, which shall be considered fully by the commission.

3. The commission shall submit any regulations adopted by it to the appropriate officials of all party states and subdivisions to which they might apply. Each such state and subdivision shall consider any such regulation for adoption in accordance with its own laws and procedures.

#### ARTICLE VIII. INTERSTATE AUDITS

1. This article shall be in force only in those party states that specifically provide therefor by statute.

2. Any party state or subdivision thereof desiring to make or participate in an audit of any accounts, books, papers, records or other documents may request the commission to perform the audit on its behalf. In responding to the request, the commission shall have access to and may examine, at any reasonable time, such accounts, books, papers, records, and other documents and any relevant property or stock of merchandise. The commission may enter into agreements with party states or their subdivisions for assistance in performance of the audit. The commission shall make charges, to be paid by the state or local government or governments for which it performs the service, for any audits performed by it in order to reimburse itself for the actual costs incurred in making the audit.

3. The commission may require the attendance of any person within the state where it is conducting an audit or part thereof at a time and place fixed by it within such state for the purpose of giving testimony with respect to any account, book, paper, document, other record, property or stock of merchandise being examined in connection with the audit. If the person is not within the jurisdiction, he may be required to attend for such purpose at any time and place fixed by the commission within the state of which he is a resident: provided that such state has adopted this article.

4. The commission may apply to any court having power to issue compulsory process for orders in aid of its powers and responsibilities pursuant to this article and any and all such courts shall have jurisdiction to issue such orders. Failure of any person to obey any such order shall be punishable as contempt of the issuing court. If the party or subject matter on account of which the commission seeks an order is within the jurisdiction of the court to which application is made, such application may be to a court in the state or subdivision on behalf of which the audit is being made or a court in the state in which the object of the order being sought is situated. The provisions of this paragraph apply only to courts in a state that has adopted this article.

5. The commission may decline to perform any audit requested if it finds that its available personnel or other resources are insufficient for the pur-

pose or that, in the terms requested, the audit is impracticable of satisfactory performance. If the commission, on the basis of its experience, has reason to believe that an audit of a particular taxpayer, either at a particular time or on a particular schedule, would be of interest to a number of party states or their subdivisions, it may offer to make the audit or audits, the offer to be contingent on sufficient participation therein as determined by the commission.

6. Information obtained by any audit pursuant to this article shall be confidential and available only for tax purposes to party states, their subdivisions or the United States. Availability of information shall be in accordance with the laws of the states or subdivisions on whose account the commission performs the audit, and only through the appropriate agencies or officers of such states or subdivisions. Nothing in this article shall be construed to require any taxpayer to keep records for any period not otherwise required by law.

7. Other arrangements made or authorized pursuant to law for cooperative audit by or on behalf of the party states or any of their subdivisions are not superseded or invalidated by this article.

8. In no event shall the commission make any charge against a taxpayer for an audit.

9. As used in this article, "tax," in addition to the meaning ascribed to it in Article II, means any tax or license fee imposed in whole or in part for revenue purposes.

#### ARTICLE IX. ARBITRATION

1. Whenever the commission finds a need for settling disputes concerning apportionments and allocations by arbitration, it may adopt a regulation placing this article in effect, notwithstanding the provisions of Article VII.

2. The commission shall select and maintain an arbitration panel composed of officers and employees of state and local governments and private persons who shall be knowledgeable and experienced in matters of tax law and administration.

3. Whenever a taxpayer who has elected to employ Article IV, or whenever the laws of the party state or subdivision thereof are substantially identical with the relevant provisions of Article IV, the taxpayer, by written notice to the commission and to each party state or subdivision thereof that would be affected, may secure arbitration of an apportionment or allocation, if he is dissatisfied with the final administrative determination of the tax agency of the state or subdivision with respect thereto on the ground that it would subject him to double or multiple taxation by two or more party states or subdivisions thereof. Each party state and subdivision thereof hereby consents to the arbitration as provided herein, and agrees to be bound thereby.

4. The arbitration board shall be composed of one person selected by the taxpayer, one by the agency

or agencies involved, and one member of the commission's arbitration panel. If the agencies involved are unable to agree on the person to be selected by them, such person shall be selected by lot from the total membership of the arbitration panel. The two persons selected for the board in the manner provided by the foregoing provisions of this paragraph shall jointly select the third member of the board. If they are unable to agree on the selection, the third member shall be selected by lot from among the total membership of the arbitration panel. No member of a board selected by lot shall be qualified to serve if he is an officer or employee or is otherwise affiliated with any party to the arbitration proceeding. Residence within the jurisdiction of a party to the arbitration proceeding shall not constitute affiliation within the meaning of this paragraph.

5. The board may sit in any state or subdivision party to the proceeding, in the state of the taxpayer's incorporation, residence or domicile, in any state where the taxpayer does business, or in any place that it finds most appropriate for gaining access to evidence relevant to the matter before it.

6. The board shall give due notice of the times and places of its hearings. The parties shall be entitled to be heard, to present evidence, and to examine and cross-examine witnesses. The board shall act by majority vote.

7. The board shall have power to administer oaths, take testimony, subpoena and require the attendance of witnesses and the production of accounts, books, papers, records, and other documents, and issue commissions to take testimony. Subpoenas may be signed by any member of the board. In case of failure to obey a subpoena, and upon application by the board, any judge of a court of competent jurisdiction of the state in which the board is sitting or in which the person to whom the subpoena is directed may be found may make an order requiring compliance with the subpoena, and the court may punish failure to obey the order as a contempt. The provisions of this paragraph apply only in states that have adopted this article.

8. Unless the parties otherwise agree the expenses and other costs of the arbitration shall be assessed and allocated among the parties by the board in such manner as it may determine. The commission shall fix a schedule of compensation for members of arbitration boards and of other allowable expenses and costs. No officer or employee of a state or local government who serves as a member of a board shall be entitled to compensation therefor unless he is required on account of his service to forego the regular compensation attaching to his public employment, but any such board member shall be entitled to expenses.

9. The board shall determine the disputed apportionment or allocation and any matters necessary thereto. The determinations of the board shall be final for purposes of making the apportionment or allocation, but for no other purpose.

10. The board shall file with the commission and with each tax agency represented in the proceeding: the determination of the board; the board's written statement of its reasons therefor; the record of the board's proceedings; and any other documents required by the arbitration rules of the commission to be filed.

11. The commission shall publish the determinations of boards together with the statements of the reasons therefor.

12. The commission shall adopt and publish rules of procedure and practice and shall file a copy of such rules and of any amendment thereto with the appropriate agency or officer in each of the party states.

13. Nothing contained herein shall prevent at any time a written compromise of any matter or matters in dispute, if otherwise lawful, by the parties to the arbitration proceeding.

#### ARTICLE X. ENTRY INTO FORCE AND WITHDRAWAL

1. This compact shall enter into force when enacted into law by any seven states. Thereafter, this compact shall become effective as to any other state upon its enactment thereof. The commission shall arrange for notification of all party states whenever there is a new enactment of the compact.

2. Any party state may withdraw from this compact by enacting a statute repealing the same. No withdrawal shall affect any liability already incurred by or chargeable to a party state prior to the time of such withdrawal.

3. No proceeding commenced before an arbitration board prior to the withdrawal of a state and to which the withdrawing state or any subdivision thereof is a party shall be discontinued or terminated by the withdrawal, nor shall the board thereby lose jurisdiction over any of the parties to the proceeding necessary to make a binding determination therein.

#### ARTICLE XI. EFFECT ON OTHER LAWS AND JURISDICTION

Nothing in this compact shall be construed to:

(a) Affect the power of any state or subdivision thereof to fix rates of taxation, except that a party state shall be obligated to implement Article III 2 of this compact.

(b) Apply to any tax or fixed fee imposed for the registration of a motor vehicle or any tax on motor fuel, other than a sales tax; provided that the definition of "tax" in Article VIII 9 may apply for the purposes of that article and the commission's powers of study and recommendation pursuant to Article VI 3 may apply.

(c) Withdraw or limit the jurisdiction of any state or local court or administrative officer or body with respect to any person, corporation or other entity or subject matter, except to the extent that such jurisdiction is expressly conferred by or pursuant to this compact upon another agency or body.

(d) Supersede or limit the jurisdiction of any court of the United States.

#### ARTICLE XII. CONSTRUCTION AND SEVERABILITY

This compact shall be liberally construed so as to effectuate the purposes thereof. The provisions of this compact shall be severable and if any phrase, clause, sentence or provision of this compact is declared to be contrary to the constitution of any state or of the United States or the applicability thereof to any government, agency, person or circumstance is held invalid, the validity of the remainder of this compact and the applicability thereof to any government, agency, person or circumstance shall not be affected thereby. If this compact shall be held contrary to the constitution of any state participating therein, the compact shall remain in full force and effect as to the remaining party states and in full force and effect as to the state affected as to all severable matters.

[Acts 1981, 67th Leg., p. 1528, ch. 389, § 1, eff. Jan. 1, 1982.]

#### § 141.002. Commission Member for This State

(a) The governor shall appoint the comptroller to represent this state on the Multistate Tax Commission created by Article VI of the compact.

(b) The comptroller may designate one of his division chiefs as an alternate representative on the commission.

(c) The office of Multistate Tax Compact Commissioner for Texas is subject to the Texas Sunset Act (Article 5429k, Vernon's Texas Civil Statutes). Unless continued in existence as provided by that Act, the office is abolished and this chapter expires effective September 1, 1989.

[Acts 1981, 67th Leg., p. 1540, ch. 389, § 1, eff. Jan. 1, 1982.]

The comptroller and his alternate shall consult regularly with these appointees in accordance with Article VI 1(b) of the compact.

[Acts 1981, 67th Leg., p. 1540, ch. 389, § 1, eff. Jan. 1, 1982.]

(4) two members of the house appointed by the speaker of the house.

(b) The comptroller is chairman of the advisory committee.

(1) it becomes a part of the sales price;

(2) it is a debt of the purchaser to the seller until paid; and

(3) if unpaid, it is recoverable at law in the same manner as the original sales price.

(b) The owner or former owner of tangible personal property, a factor of the owner or former owner, or an agent of the owner, former owner, or factor shall collect the sales tax and add the amount of the tax to the sales price of the tangible personal property if the person delivers the property to a consumer in this state or to another person for redelivery to a consumer in this state under a sale of the property that is not a sale for resale and that is made by a seller not engaged in business in this state.

(c) When several taxable items are sold together and at the same time, the sales tax is determined on the sum of the sales prices of the items sold exclusive of any item the sale of which is exempted by this chapter.

.38 to .62	.02
.63 to .87	.03
.88 to 1.12	.04

(b) Successive brackets for the schedule in this section shall be computed by multiplying the percentage rate of the sales tax times the amount of the sale. A fraction of one cent that is less than one-half of one cent is not collected and a fraction of one cent that is equal to one-half of one cent or more is collected as one cent of tax.

[Acts 1981, 67th Leg., p. 1550, ch. 389, § 1, eff. Jan. 1, 1982.]

(c) A sale of liquor, wine, beer, or malt liquor by the holder of a manufacturer's license, wholesaler's permit, general class B wholesaler's permit, local class B wholesaler's permit, local distributor's permit, or a general, local, or branch distributor's license issued under the Alcoholic Beverage Code to the holder of a retail license or permit issued under the Alcoholic Beverage Code is presumed to be a sale for resale. In a sale to which this section applies, the seller is not required to receive a resale certificate from the purchaser.

[Acts 1981, 67th Leg., p. 1550, ch. 389, § 1, eff. Jan. 1, 1982.]

(a) If a person purchases tangible personal property by means of a sale for resale for the purpose of renting or leasing the property for use but subsequently sells the property in an occasional sale before the person has collected and paid to the state an amount of sales tax on rental or lease charges equal to the amount of sales tax that would have been due if the person had not acquired the property at a sale for resale, the person at the time of the occasional sale shall include in his receipts from taxable sales the amount by which the purchase price of the item at the occasional sale exceeds the amount received from renting or leasing the property.

(b) If tangible personal property is rented or leased under an agreement that provides that all or a portion of the rental or lease payments may be credited against the purchase price of the item and the property is sold to the lessee, the lessor shall collect the sales tax only on that portion of the sales price that exceeds the amount of lease or rental charges on which the tax has previously been collected and paid.

[Acts 1981, 67th Leg., p. 1551, ch. 389, § 1, eff. Jan. 1, 1982.]

(b) A contractor or repairman is the seller of tangible personal property furnished by him and incorporated into the property of his customer, from whom he shall collect the tax, if the contract between the contractor or repairman and his customer contains separate amounts for the performance of the service and for the furnishing of the necessary incidental material. The tax rate is applied to the price of the materials as agreed in the contract or the price of the materials to the contractor or repairman, whichever is the greater.

(c) If a contractor or repairman has paid the sales tax to his supplier when the tangible personal property is purchased, the contractor or repairman may credit the amount of the tax paid to the supplier against the tax imposed as provided in Subsection (b) of this section with respect to a subsequent sale of the property.

(d) In this section, "contractor" or "repairman" means a person who performs a repair service on tangible personal property or makes an improvement on real estate and who, as a necessary or incidental part of the service, incorporates tangible personal property into the property repaired or improved.

(b) The burden of showing that a sale of tangible personal property for delivery in this state is not for

storage, use, or consumption in this state is on the person making the sale unless the person receives in good faith from a purchaser, who is in the business of selling, leasing, or renting taxable items, a resale certificate stating that the property is acquired for the purpose of selling, leasing, or renting it in the regular course of business or for the purpose of transferring it as an integral part of a taxable service performed in the regular course of business.

§ 151.151. Resale Certificate

A purchaser may give a resale certificate for the acquisition of tangible personal property if the purchaser intends to sell, lease, or rent it in the regular course of business or transfer it as an integral part of a taxable service performed in the regular course of business or if, at the time of the sale, the purchaser is unable to ascertain whether it will be sold, leased, rented, or transferred in the regular course of business or used for some other purpose.

[Acts 1981, 67th Leg., p. 1553, ch. 389, § 1, eff. Jan. 1, 1982.]

If a purchaser gives a resale certificate with respect to the purchase of fungible goods and then commingles the goods with other similar fungible goods for which a resale certificate was not given, sales from the mass of commingled fungible goods are deemed to be sales of goods covered by the resale certificate until the quantity of goods covered by the certificate equals the quantity of goods sold.

[Acts 1981, 67th Leg., p. 1554, ch. 389, § 1, eff. Jan. 1, 1982.]

§ 151.154. Resale Certificate: Liability of Purchaser

The fair market rental value of the tangible personal property is the amount that a purchaser would pay on the open market to rent or lease the tangible

personal property for his use. If the item has no fair market rental value, the original purchase price shall be the measure of the tax. At any time, the person making the divergent use may cease paying tax on the fair market rental value and pay sales tax on the original purchase price without credit for taxes previously paid on the fair market rental value.

(b) A purchaser of tangible personal property who gives a resale certificate is not liable for the tax imposed by this chapter if he donates the property to an organization exempted under Section 151.309 or 151.310(a)(1) or (2) of this code; except that any use by the purchaser of the property other than retention, demonstration, or display shall be subject to taxes imposed by Subsection (a) of this section. The fair market rental value is the amount that a purchaser would pay on the open market to rent or lease the property for his use. If the item has no fair market rental value, the original purchase price shall be the measure of tax. At any time, the person making the divergent use may cease paying tax on the fair market rental value and pay sales tax on the original purchase price without credit for taxes previously paid on the fair market rental value.

(b) A purchaser of tangible personal property who gives an exemption certificate is not liable for the tax imposed by this chapter if he donates the property to an organization exempted under Section 151.309 or 151.310(a)(1) or (2) of this code; except that any use by the purchaser of the property other than retention, demonstration, or display shall be subject to taxes imposed by Subsection (a) of this section. (b) The comptroller shall fix the amount of security required in each case, taking into consideration the amount of tax that has or is expected to become due from the person under this chapter and the Local Sales and Use Tax Act and the necessity to protect the state against the failure to pay these taxes, except that the maximum amount of security that may be required is the lesser of \$50,000 or three times the amount of the person's average quarterly tax liability.

(c) A bond qualifying under this subchapter must be a continuing instrument and a new and separate obligation for the penal sum named in the bond for each calendar year or portion of a calendar year while the bond is in effect. #### § 153.002. Tax Liability on Leased Vehicles

(a) A user or interstate trucker is liable for the tax on motor fuel imported into this state in fuel supply tanks of motor vehicles leased to him and used on the Texas highways to the same extent and in the same manner as motor fuel imported in his own motor vehicles and used on the public highways of Texas, unless the lessor is liable under Subsection (b) of this section.

(b) A lessor who is engaged regularly in the business of leasing for compensation motor vehicles and equipment he owns to carriers or other lessees for interstate operation may be deemed to be the user or interstate trucker when he supplies or pays for the motor fuel consumed in those vehicles, and the lessor may be issued a permit as an interstate trucker when an application and bond have been properly filed with and approved by the comptroller.

(c) A lessee may exclude motor vehicles that he leases from his reports and liabilities under this chapter, but only if the motor vehicles in question have been leased from a lessor holding a valid permit as a bonded interstate trucker for the calendar year.

(d) A lessor described in Subsection (b) of this section must file with his application for an interstate trucker permit one copy of the form-lease or service contract he enters into with the various lessees of his motor vehicles. When the interstate trucker permit has been secured, the lessor shall make and assign to each motor vehicle he leases for interstate operation a photocopy of the permit to be carried in the cab compartment of the motor vehicle. The photocopy of the permit must have typed or printed on the back the unit or motor number of the motor vehicle to which it is assigned and the name of the lessee. The lessor is responsible for the proper use of the photocopy of the permit issued and for its return to him with the motor vehicle to which it is assigned.

[Acts 1981, 67th Leg., p. 1600, ch. 389, § 1, eff. Jan. 1, 1982.]

#### § 153.003. Carrier Records

(a) All common and contract carriers operating in this state shall keep for four years, open to inspection by the comptroller, a complete and separate record of each intrastate and interstate transportation of motor fuel.

(b) The record must show:

- (2) the name of the consignor and consignee;
- (3) the means of transportation; and
- (4) the quantity and kind of motor fuel transported.

(c) The record must also include:

- (1) full data concerning the diversion of shipments, including the number of gallons diverted from interstate to intrastate and intrastate to interstate commerce; and

- (2) the points of origin and destination, the number of gallons shipped or transported, the date, the consignee and the consignor, and the kind of motor fuel which has been diverted.

[Acts 1981, 67th Leg., p. 1600, ch. 389, § 1, eff. Jan. 1, 1982.]

#### § 153.004. Motor Fuel Transportation: Required Documents

(a) Except as provided by Subsection (c) of this section, a person who transports motor fuel, regardless of whether or not a tax is due on the motor fuel under this chapter, shall record the shipment of the cargo on a cargo manifest containing such information as may be required by the comptroller.

(b) The cargo manifest shall be carried with the motor fuel until the motor fuel is resold or removed from the cargo tank.

(c) This section does not apply to a pipeline operating as a common carrier or to the transporting of motor fuel in the fuel supply tanks of motor vehicles. A cargo manifest is not required for any motor fuel being transported by a person in his own cargo tanks for his own use and not for resale.

[Acts 1981, 67th Leg., p. 1601, ch. 389, § 1, eff. Jan. 1, 1982.]

**§ 153.005. Redetermination of Tax Liability**

(a) A person against whom a determination for any tax, penalty, or interest is made under this chapter may petition for a redetermination within 30 days after service of the notice of the determination.

(b) If a petition for redetermination is filed within the 30-day period, the comptroller shall reconsider the determination and, if the person has so requested in his petition, shall grant the person an oral hearing and shall give him 20 days' notice of the time and place of the hearing. The notice may be served personally or by mail. If the notice is served by mail, it shall be addressed to the permittee at his address as it appears in the records of the comptroller.

(c) In case of service by mail of any notice required by this chapter, the service is complete at the time of deposit in the United States Post Office.

(d) An order or decision of the comptroller on a petition for redetermination becomes final 30 days after service on the petitioner of notice of the order or decision.

[Acts 1981, 67th Leg., p. 1601, ch. 389, § 1, eff. Jan. 1, 1982.]

**§ 153.006. Cancellation or Refusal of Permit**

(a) The comptroller may cancel or refuse to issue or reissue a motor fuel permit to any person who has violated or has failed to comply with a provision of this chapter or a rule of the comptroller.

(b) Before a permit may be canceled, or the issuance or reissuance refused, the comptroller shall give the permittee or permit applicant not less than 10 days' notice of a hearing at the office of the comptroller, in Austin, Texas, or at a specified comptroller's field office, granting the permittee or applicant an opportunity to show cause before the comptroller why the proposed action should not be taken. If a permit is in effect, the permit remains in force pending the determination of the show-cause hearing. Notice must be in writing and may be mailed by United States registered mail or certified mail to the permittee or applicant at his last known address, or may be delivered by the comptroller to the permittee or applicant, and no other notice is necessary. In case of service by mail of a notice required by this chapter, the service is complete at the time of deposit in the United States Post Office.

(c) The comptroller may prescribe rules of procedure and evidence for the hearings in accordance with the Administrative Procedure and Texas Regis-

ter Act (Article 6252-13a, Vernon's Texas Civil Statutes).

(d) If, after the hearing or the opportunity to be heard, the permit is canceled or the issuance or reissuance refused by the comptroller, all taxes that have been collected or that have accrued, although the taxes are not then due and payable to the state, except by the provisions of this chapter, shall become due and payable concurrently with the notice of cancellation of the permit. The permittee shall within five days make a report covering the period of time not covered by preceding reports filed by the permittee and ending with the date of cancellation, and shall remit and pay to the comptroller all taxes that have been collected and that have accrued from the sale, use, or distribution of motor fuel in this state.

[Acts 1981, 67th Leg., p. 1601, ch. 389, § 1, eff. Jan. 1, 1982.]

**§ 153.007. Enforcement of Permit Cancellation or Refusal**

(a) The comptroller may examine any books and records incident to the conduct of the business of a person whose permit has been canceled on the person's failure to file the reports required by this chapter or to remit all taxes due. The comptroller shall issue an audit deficiency determination of the amount of delinquent taxes, penalties, and interest, containing a demand for payment. The deficiency determination shall provide that if neither a payment is made nor a request for a redetermination is filed within 30 days after the date of the notice of the deficiency, the amount of the determination becomes due and payable. If the amount is not paid on or before the 44th day after service of the notice of the deficiency determination, the bond or other security required under this chapter shall be forfeited. The demand for payment shall be addressed to both the surety or sureties and the person who owes the delinquency.

(b) If the forfeiture of the bond or other security does not satisfy the delinquency, the comptroller shall certify the taxes, penalty, and interest delinquent to the attorney general, who may file suit against the person or his surety or both to collect the amount due. After being given notice of an order of cancellation, it shall be unlawful for any person to continue to operate his business under a canceled permit. The attorney general may file suit to enjoin the person from continuing to operate under his permit until the person's permit is reissued by the comptroller.

(c) An appeal from an order of the comptroller canceling or refusing the issuance or reissuance of a permit may be taken to a district court of Travis County by the aggrieved permittee or applicant. The trial shall be de novo under the same rules as ordinary civil suits, except that:

(1) an appeal must be perfected and filed within 30 days after the effective date of the order, decision, or ruling of the comptroller;

(2) the proceeding shall have precedence over all other causes of a different nature;

(3) the trial of the case shall begin within 10 days after its filing; and

(4) the order, decision, or ruling of the comptroller may be suspended or modified by the court pending a trial on the merits.

[Acts 1981, 67th Leg., p. 1602, ch. 389, § 1, eff. Jan. 1, 1982.]

**Amendment by Acts 1981, 67th Leg., p. 2644, ch. 707, § 4(34)**

*Section 4 (34) of Acts 1981, 67th Leg., p. 2644, ch. 707, purports to amend subd. (7) of Taxation—General, art. 9.006 [now, this section], without reference to repeal of said article by Acts 1981, 67th Leg., p. 1785, ch. 389, § 39(a). As so amended, subd. (7) reads:*

*“An appeal from an order of the comptroller cancelling or refusing the issuance or reissuance of a permit may be taken to the district court of Travis County, Texas, by the aggrieved permittee or applicant. The trial shall be de novo under the same rules as ordinary civil suits with the following exceptions:*

*“(A) an appeal shall be perfected and filed within 30 days after the effective date of the order, decision, or ruling of the comptroller;*

*“(B) the trial of the case shall commence within 10 days after its filing; and*

*“(C) the order, decision, or ruling of the comptroller may be suspended or modified by the court pending a trial on the merits.”*

*Section 3.11(c) of the Code Construction Act (Civil Statutes, art. 5429b-2) provides, in part, that the repeal of a statute by a code does not affect an amendment of the statute by the same legislature which enacted the code and that the amendment is preserved and given effect as part of the code provision.*

**§ 153.008. Inspection of Premises and Records**

For the purpose of determining the amount of tax collected and payable to the state, the amount of tax accruing and due, and whether a tax liability has been incurred under this chapter, the comptroller may:

(1) inspect any premises where motor fuel; crude petroleum; natural gas; derivatives or condensates of crude petroleum, natural gas, or their products; methyl alcohol; ethyl alcohol; or other blending agents are produced, made, prepared, stored, transported, sold, or offered for sale or exchange;

(2) examine the books and records required to be kept and records incident to the business of any distributor, supplier, dealer, or any person receiving or possessing, delivering, or selling motor fuel,

crude oil, derivatives or condensates of crude petroleum, natural gas, or their products, or any blending agents;

(3) examine and either gauge or measure the contents of all storage tanks, containers, and other property or equipment; and

(4) take samples of any and all of these products stored on the premises.

[Acts 1981, 67th Leg., p. 1603, ch. 389, § 1, eff. Jan. 1, 1982.]

**§ 153.009. Calibration of Cargo Tanks and Containers**

(a) Before initially transporting gasoline or diesel fuel for sale or distribution, a person shall have the cargo tanks or other containers used for transporting gasoline or diesel fuel tested, measured, and calibrated by the comptroller, an authorized representative of another state, or a commercial calibration company that meets the calibration standards approved by the comptroller. The person shall obtain a measurement certificate showing the capacity by liquid volume for each cargo tank or container and its compartments before transporting gasoline or diesel fuel.

(b) The owner of a cargo tank or container tested and measured by the comptroller may be required to pay to the state a reasonable fee for the water used to calibrate tank capacity.

(c) The measurement certificate or a duplicate measurement certificate shall be carried with the vehicle for which it was issued. The certificate number and the total capacities of each cargo tank must be marked on the rear of the vehicle. Compartment capacities must be marked on each compartment dome.

(d) Cargo tanks or containers that have been damaged, repaired, or modified in any way that might affect their capacity must be retested or remeasured before transporting gasoline or diesel fuel. The comptroller shall mark “out of order” on a cargo tank that is not in conformity with this section or with a rule promulgated under this section.

[Acts 1981, 67th Leg., p. 1603, ch. 389, § 1, eff. Jan. 1, 1982.]

**§ 153.010. Authority to Stop and Examine**

In order to enforce the provisions of this chapter, the comptroller or a peace officer may stop a motor vehicle that appears to be operating with or transporting motor fuel in order to examine the cargo manifest or invoices required to be carried, examine a permit or copy of a permit that may be required to be carried, take samples from the fuel supply or cargo tanks, and make any other investigation that could reasonably be made to determine whether the taxes have been paid or accounted for by a distributor, supplier, dealer, user, or any person required to be so permitted.

[Acts 1981, 67th Leg., p. 1603, ch. 389, § 1, eff. Jan. 1, 1982.]

**§ 153.011. Impoundment and Seizure**

(a) If after examination or other investigation, it is found that the owner or operator of any motor vehicle or cargo tanks has not paid all motor fuel taxes due, or does not possess a valid permit as a distributor, supplier, user, dealer, or interstate trucker to use or transport motor fuel in motor vehicles operating on the public highways, the comptroller or peace officer may impound the motor vehicle or cargo tanks. Unless proof is produced within 72 hours after the beginning of impoundment that the owner or operator has paid the taxes and has paid all other taxes established by audit or investigation by the comptroller to be due on the motor fuel used or transported, or that the owner or operator holds a valid permit to use or transport motor fuel for such purposes, the motor vehicle or cargo tanks and cargo may be held until all taxes, penalties, and interest found to be due this state and all costs of impoundment have been paid, or until the owner or operator has filed a bond with the comptroller payable to the treasurer in an amount equal to twice the amount of taxes, penalties, interest, and costs found to be due, to guarantee the payment of such liabilities to the state.

(b) If the owner or operator does not produce the required permit, pay the taxes, penalties, and interest due, or post the bond required, the comptroller may seize the impounded property.

(c) The comptroller may seize:

(1) all motor fuel on which taxes are imposed by this chapter that is found in the possession, custody, or control of any person for the purpose of being sold, transported, removed, or used by him in violation of this chapter;

(2) all motor fuel that is removed or is deposited, stored, or concealed in any place with intent to avoid payment of taxes;

(3) any automobile, truck, tank truck, boat, conveyance, or other vehicle used in the removal or transportation of the motor fuel to avoid payment of taxes; and

(4) all equipment, paraphernalia, storage tanks, or tangible personal property incident to and used for avoiding the payment of taxes and found in the place, building, or vehicle where the motor fuel is found.

(d) The comptroller, when making a seizure under this section, shall immediately make a written report showing the name of the agent or representative making the seizure, the place where or the person from whom the property was seized, an inventory of the property, and an appraisal at the usual and ordinary retail price of each article seized. The report shall be prepared in duplicate and signed by the agent or representative making the seizure. The original report shall be given to the person from whom the property is taken, and the duplicate shall be filed in the office of the comptroller and be open to public inspection.

[Acts 1981, 67th Leg., p. 1604, ch. 389, § 1, eff. Jan. 1, 1982.]

**§ 153.012. Sale of Seized Property**

(a) The comptroller may sell property seized under Section 153.011 of this code.

(b) Notice of the time and place of a sale shall be given to the delinquent person in writing by certified mail at least 20 days before the date set for the sale. The notice shall be enclosed in an envelope addressed to the person at his last known address or place of business. It shall be deposited in the United States mail, postage prepaid. The notice shall also be published once a week for two consecutive weeks before the date of the sale in a newspaper of general circulation published in the county in which the property seized is to be sold. If there is no newspaper of general circulation in the county, notice shall be posted in three public places in the county 14 days before the date set for the sale. The notice must contain a description of the property to be sold, a statement of the amount due, including interest, penalties, and costs, the name of the delinquent, and the further statement that unless the amount due, interest, penalties, and costs are paid on or before the time fixed in the notice for the sale, the property, or as much of it as may be necessary, will be sold at public auction in accordance with the law and the notice.

(c) At the sale, the comptroller shall sell the property and shall deliver to the purchaser a bill of sale for personal property and a deed for real property sold. The bill of sale or deed vests the interest or title of the person liable for the amount in the purchaser. The unsold portion of any property seized may be left at the place of sale at the risk of the person liable for the amount.

(d) The proceeds of a sale shall be allocated according to the following priorities:

(1) the payment of expenses of seizure, appraisal, custody, advertising, auction, and any other expenses incident to the seizure and sale;

(2) the payment of the tax, penalty, and interest; and

(3) the repayment of the remaining balance to the person liable for the amount unless a claim is presented before the sale by any other person who has an ownership interest evidenced by a financing statement or lien, in which case the comptroller shall withhold the remaining balance pending a determination of the rights of the respective parties.

[Acts 1981, 67th Leg., p. 1604, ch. 389, § 1, eff. Jan. 1, 1982.]

**§ 153.013. Presumptions**

(a) A distributor, supplier, dealer, interstate trucker, or user who fails to keep a record, issue an invoice, or file a report required by this chapter, is presumed to have sold or used for taxable purposes all motor fuel shown by an audit by the comptroller to have been sold to the distributor, supplier, dealer, interstate trucker, or user. Motor fuel unaccounted

for is presumed to have been sold or used for taxable purposes. The comptroller may fix or establish the amount of taxes, penalties, and interest due the state from the records of deliveries or from any records or information available to him. If a tax claim, as developed from this procedure, is not paid, after the opportunity to request a redetermination, the claim and any audit made by the comptroller or any report filed by the distributor, supplier, dealer, interstate trucker, or user, are evidence in any suit or judicial proceedings filed by the attorney general, and are prima facie evidence of the correctness of the claim or audit. A prima facie presumption of the correctness of the claim may be overcome at the trial by evidence adduced by the distributor, supplier, dealer, interstate trucker, or user.

(b) In the absence of records showing the number of miles actually operated per gallon of motor fuel consumed, it is presumed that not less than one gallon of motor fuel was consumed for every four miles traveled. An interstate trucker may produce evidence of motor fuel consumption to establish another mileage factor. If an examination or audit made by the comptroller from the records of an interstate trucker shows that a greater amount of motor fuel was consumed than was reported by the interstate trucker for tax purposes, the interstate trucker is liable for the tax, penalties, and interest on the additional amount shown or he is entitled to a credit or refund on overpayments of tax established by the audit.

[Acts 1981, 67th Leg., p. 1605, ch. 389, § 1, eff. Jan. 1, 1982.]

#### § 153.014. Venue of Tax Collection Suits

The venue of a suit, injunction, or other proceeding at law available for the establishment or collection of a claim for delinquent taxes, penalties, or interest accruing under this chapter and the enforcement of the terms and provisions of this chapter is in Travis County or in any other county having venue under existing venue statutes.

[Acts 1981, 67th Leg., p. 1606, ch. 389, § 1, eff. Jan. 1, 1982.]

#### § 153.015. Other Motor Fuel Taxes Prohibited

The taxes imposed by this chapter are in lieu of any other excise or occupation tax imposed by a political subdivision of the state on the sale, use, or distribution of gasoline, diesel fuel, or liquefied gas.

[Acts 1981, 67th Leg., p. 1606, ch. 389, § 1, eff. Jan. 1, 1982.]

[Sections 153.016 to 153.100 reserved for expansion]

### SUBCHAPTER B. GASOLINE TAX

#### § 153.101. Gasoline Tax Imposed

A tax is imposed on the first sale or use of gasoline in this state.

[Acts 1981, 67th Leg., p. 1606, ch. 389, § 1, eff. Jan. 1, 1982.]

#### § 153.102. Tax Rates

(a) The gasoline tax rate is five cents for each gross or volumetric gallon or fractional part sold or used in this state except as provided by Subsection (b) of this section.

(b) The gasoline tax rate for gasoline sold to a transit company for exclusive use in its transit carrier vehicles under an exemption certificate promulgated by the comptroller is four cents for each gallon.

[Acts 1981, 67th Leg., p. 1606, ch. 389, § 1, eff. Jan. 1, 1982.]

#### § 153.103. Computation of Tax

(a) The amount of the tax shall be computed and paid over to the state on the temperature-adjusted volume of gallons of taxable gasoline sold to wholesalers, jobbers, dealers, or other persons purchasing gasoline for resale, where such sales are made in single deliveries of 5,000 gallons or more, or in lesser quantities where required by city ordinance, as computed from the authorized measurement certificate issued for the cargo tank making deliveries. The comptroller may publish and distribute a table to be used for converting the measurement of gross gallons of gasoline to temperature-adjusted gallons of gasoline.

(b) The amount of the tax shall be computed and paid to the state on the gross or volumetric gallons of taxable gasoline sold where the sales are made in single deliveries of less than 5,000 gallons or in quantities less than the maximum prescribed by city ordinance, if the maximum is less than 5,000 gallons.

(c) For a distributor whose gasoline deliveries are made to retail outlets that are operated by him or deliveries by him on consignment, the tax on sales to users and consumers shall be computed on the basis of actual sales.

(d) If the comptroller is not satisfied with a tax return or the amount of tax required to be paid to the state by any distributor who elects to report on the basis of actual sales, the comptroller may compute and determine the amount required to be paid on the basis of the beginning inventory, showing the total gallons of gasoline in storage at the location on the first day of the calendar month, plus the total gallons of gasoline delivered into the storage facility during the month, less the total gallons of gasoline in the storage facility at the end of the calendar month.

#### § 153.104. Exceptions

The tax imposed by this subchapter does not apply to gasoline:

(1) brought into this state in the fuel tank of a vehicle with a capacity of less than 42 gallons when the tank is connected to the carburetor or

fuel injection system of the power plant providing the propulsion of the vehicle;

(2) delivered by a permitted distributor to a common or contract carrier, oceangoing vessel (including ship, tanker, or boat), or a barge for export from this state if the gasoline is moved forthwith outside the state;

(3) sold by a permitted distributor to another permitted distributor;

(4) sold to the federal government for its exclusive use;

(5) delivered by a permitted distributor into a storage facility of a permitted aviation fuel dealer from which gasoline will be delivered solely into the fuel supply tanks of aircraft or aircraft servicing equipment; or

(6) sold by one aviation fuel dealer to another aviation fuel dealer who will deliver the aviation fuel exclusively into the fuel supply tanks of aircraft or aircraft servicing equipment.

[Acts 1981, 67th Leg., p. 1607, ch. 389, § 1, eff. Jan. 1, 1982.]

**§ 153.105. Collection of Tax; Allowances**

(a) A person who makes a sale or use of gasoline on which the tax has not been previously paid in this state for any purpose other than those excepted by Section 153.104 of this code shall at the time of sale or use collect the tax from the purchaser or recipient of gasoline in addition to the selling price and is also liable to the state for the taxes collected at the time and in the manner as provided by this chapter. A person is liable to the state for the tax at the applicable tax rate for each gallon of gasoline or fractional part thereof used or consumed by him in a taxable manner and shall report and pay the tax as provided by this chapter. In each subsequent sale of gasoline on which the tax has been collected, the amount of the tax shall be added to the selling price so that the tax is paid ultimately by the person using or consuming the gasoline for the purpose of propelling a vehicle upon the public highways of this state.

(b) Gasoline is deemed to be used when it is delivered into a fuel supply tank.

(c) If gasoline is purchased, in a single delivery of 5,000 gallons or more, or in lesser quantities where required by city ordinance, by any person for the purpose of resale, the seller, distributor, or broker shall sell the product to the retailer or any other person purchasing the product on the basis of temperature-corrected gallonage to 60 degrees Fahrenheit and the tax shall be computed and paid over to the state on the temperature-corrected basis. All other sales shall be reported to the comptroller on the basis of gross or volumetric gallons of taxable gasoline sold.

(d) For each one degree Fahrenheit that the temperature of gasoline taken at the time of loading for sale differs from 60 degrees Fahrenheit, an adjustment in the contract price shall be made equal to

the stipulated value of six-hundredths of one percent of the total volume delivered.

(e) The tax on two percent of the taxable gallons of gasoline sold in this state shall be allocated to the distributor making the first taxable sale or use of the gasoline and paying the tax to the state for the expenses of collecting, accounting for, reporting, and remitting the tax collected and for keeping records. [Acts 1981, 67th Leg., p. 1607, ch. 389, § 1, eff. Jan. 1, 1982. Amended by Acts 1981, 67th Leg., p. 2774, ch. 752, § 8(c), eff. Jan. 1, 1982.]

**§ 153.106. Permits: Application**

(a) A distributor, interstate trucker, or aviation fuel dealer shall file an application with the comptroller for one of the nonassignable permits provided for in this subchapter.

(b) The comptroller shall promulgate the application form, which must contain the following information:

(1) the name under which the applicant transacts or intends to transact business;

(2) the principal office, residence, or place of business in Texas of the applicant;

(3) if the applicant is not an individual, the names of the principal officers of an applicant corporation, or the names of the members of an applicant partnership, and the office, street, or post office addresses of each; and

(4) other information required by the comptroller.

[Acts 1981, 67th Leg., p. 1608, ch. 389, § 1, eff. Jan. 1, 1982.]

**§ 153.107. Distributor's Permit**

A person performing the functions of a distributor shall obtain a distributor's permit.

[Acts 1981, 67th Leg., p. 1608, ch. 389, § 1, eff. Jan. 1, 1982.]

**§ 153.108. Interstate Trucker's Permit**

An interstate trucker's permit authorizes a person who imports gasoline into Texas in the fuel supply tanks of motor vehicles having an aggregate capacity of 42 or more gallons to report and pay the tax due on the gasoline imported into this state or to claim a credit or refund of the tax paid on gasoline purchased in Texas and used in other states.

[Acts 1981, 67th Leg., p. 1608, ch. 389, § 1, eff. Jan. 1, 1982.]

**§ 153.109. Trip Permits**

(a) In lieu of an annual interstate trucker's permit, a person bringing a motor vehicle into this state for commercial purposes with fuel supply tanks having an aggregate capacity of 42 or more gallons may obtain a trip permit. The trip permit must be obtained prior to entry into state or at the time of entry.

(b) No more than five trip permits for each person may be issued during a calendar year.

(c) A fee for each trip permit shall be collected from the applicant and shall be an amount equivalent to the tax payable on the quantity of gasoline that could be imported in the fuel supply tanks of the motor vehicle, but not less than \$5.

(d) No reports are required with respect to the vehicle.

(e) Operating a motor vehicle without a valid interstate trucker's or trip permit may subject the operator to a penalty under Section 153.402 of this code.

[Acts 1981, 67th Leg., p. 1608, ch. 389, § 1, eff. Jan. 1, 1982.]

#### § 153.110. Aviation Fuel Dealer's Permit

A person who delivers gasoline exclusively into the fuel supply tanks of aircraft or aircraft servicing equipment shall obtain an aviation fuel dealer's permit. A person who obtains an aviation fuel dealer's permit may sell aviation fuel to another aviation fuel dealer who will deliver the aviation fuel exclusively into the fuel supply tanks of aircraft or aircraft servicing equipment. The holder of an aviation fuel dealer's permit may not act as a distributor of gasoline other than as provided by this section.

[Acts 1981, 67th Leg., p. 1609, ch. 389, § 1, eff. Jan. 1, 1982.]

#### § 153.111. Distributor May Perform Other Functions

A distributor may operate under the distributor's permit as an interstate trucker or an aviation fuel dealer without securing a separate permit, but is subject to all other conditions, requirements, and liabilities imposed on those permittees.

[Acts 1981, 67th Leg., p. 1609, ch. 389, § 1, eff. Jan. 1, 1982.]

#### § 153.112. Permits: Periods of Validity

(a) A distributor's permit is permanent and is valid so long as the permittee has in force and effect the required bond or security and furnishes timely reports as required, or until the permit is surrendered by the holder or canceled by the comptroller.

(b) An aviation fuel dealer's permit is permanent and is valid until the permit is surrendered by the holder or canceled by the comptroller.

(c) An interstate trucker's permit is valid from the date of its issuance through December 31 of each calendar year or until the permit is surrendered by the holder or canceled by the comptroller. The comptroller may renew the permit for each ensuing calendar year if the permittee has in force and effect the required bond or security and furnishes timely reports as required. An interstate trucker exempted from bonding and reporting requirements by Section 153.116(b) of this code must file the affidavit required by that section before the permit may be issued.

(d) A trip permit is valid for the period stated on it as determined by the comptroller.

[Acts 1981, 67th Leg., p. 1609, ch. 389, § 1, eff. Jan. 1, 1982.]

#### § 153.113. Display of Permit

(a) A permit must be posted in a conspicuous place or kept available for inspection at the principal place of business of the owner. A copy of the permit must be kept at each place of business or other place of storage from which gasoline is sold, distributed, or used, and in each motor vehicle used by the permit holder to transport gasoline purchased by him for resale, distribution, or use.

(b) A person holding an interstate trucker's permit shall reproduce the permit and carry a photocopy with each motor vehicle being operated into or from the state.

[Acts 1981, 67th Leg., p. 1609, ch. 389, § 1, eff. Jan. 1, 1982.]

#### § 153.114. List of Distributors and Aviation Fuel Dealers

The comptroller, on or before December 20 of each year, shall mail or distribute to all permitted distributors a printed alphabetical list of permitted distributors and aviation fuel dealers who are qualified to purchase gasoline tax free during the ensuing calendar year. A supplemental list of additions and deletions shall be delivered to the distributors each month. A current and effective permit or the list furnished by the comptroller is evidence of the validity of the permit until the comptroller notifies distributors of a change in the status of a permit holder.

[Acts 1981, 67th Leg., p. 1610, ch. 389, § 1, eff. Jan. 1, 1982.]

#### § 153.115. Tax Payments by an Interstate Truck-er; Allowance

(a) An interstate trucker who imports gasoline into Texas in the fuel supply tanks of motor vehicles having an aggregate capacity of 42 or more gallons for each vehicle shall report and pay the tax at the imposed rate on gasoline that is imported and used on Texas highways. The number of gallons of gasoline used on Texas highways shall be computed by dividing the total miles traveled in all states by the total number of gallons of gasoline delivered into the fuel supply tanks of motor vehicles in all states. The mileage factor obtained shall be divided into the total Texas miles traveled in order to determine the number of gallons of gasoline used in Texas.

(b) An interstate trucker shall remit all taxes due by him based on the applicable tax rate for each gallon on gasoline consumed within the state at the time of the filing of his quarterly reports.

(c) A permitted interstate trucker is entitled to deduct one-half of one percent of the taxable gallons of gasoline on payment of the taxes to the state for the expense of recordkeeping, reporting, and remitting the tax.

[Acts 1981, 67th Leg., p. 1610, ch. 389, § 1, eff. Jan. 1, 1982.]

§ 153.116. Bonds and Other Security for Taxes

(a) A distributor or interstate trucker shall post a surety bond equal to two times the highest tax that could accrue on tax-free gasoline purchased or acquired during a reporting period. The minimum bond is \$1,000 for a distributor and \$500 for an interstate trucker. The maximum bond for a distributor or interstate trucker is \$100,000 unless the comptroller believes there is undue risk of loss of tax revenues, in which event he may require one or more bonds or securities in a total amount exceeding \$100,000.

(b) A permitted interstate trucker who maintains all fuel records in Texas, and all or substantially all of whose highway use is made with gasoline purchased within this state with the tax paid, may be exempted from the bonding requirements under an annual affidavit to the comptroller attesting to the intrastate or substantially intrastate tax-paid purchases of gasoline.

(c) A bond must be a continuing instrument, must constitute a new and separate obligation in the penal sum named in the bond for each calendar year or portion of a year while the bond is in force, and must remain in effect until the surety on the bond is released and discharged.

(d) In lieu of filing a surety bond, an applicant for a permit may substitute the following security:

(1) cash in the form of U. S. currency in an amount equal to the required bond to be deposited in the suspense account of the state treasury; or

(2) an assignment to the comptroller of a certificate of deposit in any bank or savings and loan association in Texas that is a member of the FDIC or the FSLIC in an amount at least equal to the bond amount required.

(e) If the amount of an existing bond becomes insufficient or a security becomes unsatisfactory or unacceptable, the comptroller may require the filing of a new or of an additional bond or security.

(f) No surety bond or other form of security may be released until it is determined by examination or audit that no tax, penalty, or interest liability exists. The cash or securities shall be released within 60 days after the comptroller determines that no liability exists.

(g) The comptroller may use the cash or certificate of deposit security to satisfy a final determination of delinquent liability or a judgment secured in any action by this state to recover gasoline taxes, costs, penalties, and interest found to be due this state by a person in whose behalf the cash or certificate security was deposited.

(h) A surety on a bond furnished by a permittee shall be released and discharged from liability to the state accruing on the bond after the expiration of 30 days after the date on which the surety files with the comptroller a written request to be released and discharged. The request does not relieve, release, or discharge the surety from a liability already accrued,

or that accrues before the expiration of the 30-day period. The comptroller, promptly on receipt of the request, shall notify the permittee who furnished the bond, and unless the permittee, before the expiration date of the existing security, files with the comptroller a new bond with a surety company duly authorized to do business under the laws of the state, or other authorized security, in the amount required in this section, the comptroller shall cancel the permit in the manner provided by this chapter.

(i) A permittee may request an examination or audit to obtain release of the security when he relinquishes the permit or when he desires to substitute one form of security for an existing one. [Acts 1981, 67th Leg., p. 1610, ch. 389, § 1, eff. Jan. 1, 1982.]

§ 153.117. Records

(a) A distributor shall keep a record showing the number of gallons of:

(1) all gasoline inventories on hand at the first of each month;

(2) all gasoline refined, compounded, or blended;

(3) all gasoline purchased or received, showing the name of the seller and date of each purchase or receipt;

(4) all gasoline sold, distributed, or used, showing the name of the purchaser and the date of the sale or use; and

(5) all gasoline lost by fire or other accident.

(b) A dealer shall keep a record showing the number of gallons of:

(1) gasoline inventories on hand at the first of each month;

(2) all gasoline purchased or received, showing the name of the seller and the date of each purchase or receipt;

(3) all gasoline sold or used, showing the date of the sale or use; and

(4) all gasoline lost by fire or other accident.

(c) An interstate trucker shall keep a record of:

(1) the total miles traveled in all states by all vehicles traveling into or from Texas and the total quantity of gasoline consumed in those vehicles; and

(2) the total miles traveled in Texas and the total quantity of gasoline purchased and delivered into the fuel supply tanks of motor vehicles in Texas.

(d) An aviation fuel dealer shall keep a record showing the number of gallons of:

(1) all gasoline inventories on hand at the first of each month;

(2) all gasoline purchased or received, showing the name of the seller and date of each purchase or receipt;

(3) all gasoline sold or used in aircraft or aircraft servicing equipment; and

(4) all gasoline lost by fire or other accident.

(e) The records of an aviation fuel dealer made under Subsection (d)(3) of this section must show:

(1) the name of the purchaser or user of gasoline;

(2) the date of the sale or use of gasoline; and

(3) the registration or "N" number of the airplane or a description or number of the aircraft or a description or number of the aircraft servicing equipment in which gasoline is used.

(f) The comptroller may require selective schedules from a distributor, dealer, aviation fuel dealer, interstate trucker, or common or contract carrier for any purchases, sales, or deliveries of gasoline when the schedules are not inconsistent with the requirements of this chapter.

(g) The records required must be kept for four years and are open to inspection at all times by the comptroller and the attorney general.

[Acts 1981, 67th Leg., p. 1611, ch. 389, § 1, eff. Jan. 1, 1982.]

#### § 153.118. Reports and Payments

(a) On or before the 25th day of each month, a distributor shall file a report and remit the amount of tax required to be collected during the preceding month. The report shall be executed by the distributor or his representative and shall be filed with the comptroller on a form provided or approved by the comptroller, containing complete and detailed information not inconsistent with the requirements of this chapter of gasoline transactions. A distributor required to file a report under this section who has not sold or used any gasoline during the reporting period shall file with the comptroller the report setting forth the facts or information. The failure of a distributor to obtain forms from the comptroller is no excuse for the failure to file a report containing all the information required to be reported.

(b) On or before the 25th day of the month following the end of each calendar quarter, an interstate trucker shall file a report and remit the amount of tax due. The report shall be properly executed and filed with the comptroller and must contain complete and detailed information as the comptroller may require on forms provided for that purpose. An interstate trucker who has not used any gasoline during the reporting period shall file with the comptroller the report setting forth the facts or information. The failure of an interstate trucker to obtain forms from the comptroller is no excuse for the failure to file a report containing all the information required to be reported.

(c) An interstate trucker who maintains all fuel records in Texas and all or substantially all of whose highway use is made with gasoline purchased within this state with the tax paid may be exempted from the quarterly reporting requirements under an annual affidavit to the comptroller attesting to the intrastate, or substantial intrastate, tax-paid purchases of gasoline.

(d) An aviation fuel dealer is not required to file a report with the comptroller.

[Acts 1981, 67th Leg., p. 1612, ch. 389, § 1, eff. Jan. 1, 1982.]

#### § 153.119. Refunds of Taxes Paid on Excepted Uses of Gasoline

(a) A person who exports, sells to the federal government, loses by fire or other accident, or uses gasoline for the purpose of operating or propelling a motorboat, tractor used for agricultural purposes, or stationary engine, or for another purpose except in a vehicle operated or intended to be operated on the public highways of this state, and who has paid the tax imposed on gasoline by this chapter either directly or indirectly is, when the person has complied with the invoice and filing provisions of this section and the rules of the comptroller, entitled to reimbursement of the tax paid by him, less a filing fee and any amount allowed distributors, wholesalers or jobbers, dealers, or others under Section 153.105(c) of this code.

(b) A person may file a refund claim for tax paid on the gasoline used in motor vehicles that are operated exclusively off the public highways except for incidental travel on the public highways as determined by the comptroller, but not for that portion used in incidental travel.

(c) A permitted interstate trucker is entitled to a credit equivalent to the tax rate for each gallon paid on all gasoline on which the gasoline tax has been paid and later consumed in vehicles outside the state. If the amount of credit to which the interstate trucker is entitled for any calendar quarter exceeds the amount of tax for which the interstate trucker is liable for gasoline consumed in the vehicles during the reporting period, the excess shall be allowed as a credit or refund on a timely filed quarterly report against tax for which the interstate trucker would be otherwise liable for any of the three succeeding quarters. Evidence of the mileage traveled and gallonage consumed and the payment of the gasoline tax on a form as may be required by or is satisfactory to the comptroller shall be furnished by an interstate trucker claiming a credit or tax refund.

(d) If the quantity of gasoline used in Texas by auxiliary power units or power take-off equipment on any motor vehicle can be accurately measured while the motor vehicle is stationary by any metering or other measuring device or methods designed to measure the fuel separately from fuel used to propel the motor vehicle, the comptroller may approve and adopt the use of any device as a basis for determining the quantity of gasoline consumed in those operations for tax credit or tax refund.

(e) A person who exports or loses by fire or other accident 100 or more gallons of gasoline on which the tax has been paid, or sells gasoline in any quantity to the United States government for the exclusive use of that government on which the tax

has been paid, may file a claim for a refund of the net tax paid to the state in the manner provided by this chapter or as the comptroller may direct. A permitted distributor who establishes proof satisfactory to the comptroller of export, loss by accident, or sale to the United States, may take a credit for the net amount of the tax paid to the state on any subsequent monthly report and tax payment made to the comptroller within one year after the date of the exportation, loss, or sale.

(f) The right to receive a refund under this section is not assignable, except that a person residing or maintaining a place of business outside the state who purchases 100 or more gallons of gasoline and forthwith exports the entire quantity may assign his right to claim a refund to the permitted distributor from whom the gasoline was purchased or to any permitted distributor who has paid the tax on the gasoline either directly or through another permitted distributor in Texas. If a distributor secures an assignment and the proof of export required by the comptroller, he may credit the tax paid on any monthly report filed with the comptroller within one year after the first day of the month following the date of delivery of the gasoline to the exporter. [Acts 1981, 67th Leg., p. 1613, ch. 389, § 1, eff. Jan. 1, 1982.]

#### § 153.120. Claims for Refunds

(a) A refund claim must be filed on form provided by the comptroller, be supported by the original invoice issued by the seller, and contain:

- (1) the stamped or preprinted name and address of the seller;
- (2) the name of the purchaser;
- (3) the date of delivery of the gasoline;
- (4) the date of the issuance of the invoice (if different from the date of fuel delivery);
- (5) the number of gallons of gasoline delivered;
- (6) the amount of tax, either separately stated from the selling price or a notation that the selling price includes the tax; and
- (7) the type of vehicle or equipment, such as a motorboat, railway engine, highway vehicle, off-highway vehicle, or refrigeration unit or stationary engine into which the fuel is delivered.

(b) The invoice shall be made out in duplicate. The original invoice shall be delivered to the purchaser of the gasoline no later than 30 days after the date of delivery of the gasoline. The duplicate invoice shall be retained by the seller at his place of business. If the delivery of gasoline is made through an automated method whereby the purchase is automatically applied to the purchaser's account, one invoice may be issued at the time of billing covering multiple purchases made during a 30-day billing cycle.

(c) A person who files a claim for a tax refund on gasoline used for a purpose for which a tax refund is not authorized or who files an invoice supporting a

refund claim on which the date, figures, or any material information has been falsified or altered forfeits his right to the entire amount of the refund claim filed unless the claimant provides proof satisfactory to the comptroller that the incorrect refund claim filed was due to a clerical or mathematical calculation error.

[Acts 1981, 67th Leg., p. 1614, ch. 389, § 1, eff. Jan. 1, 1982.]

#### § 153.121. When Gasoline Tax Refund May be Filed

(a) Except as provided by this section, a claim for a refund must be filed with the comptroller within one year after the first day of the calendar month following the purchase, use, delivery, export, or loss by fire or other accident of gasoline, whichever period expires latest.

(b) An interstate trucker may accumulate credits for four successive calendar quarters, but he must take the credit or claim a refund on a report filed on or before the 25th day following the fourth quarter.

(c) If an audit of a distributor determines that tax-free sales were made to an unauthorized purchaser and the purchaser could have filed for a refund if the tax had been paid at the time of the sale, the unauthorized purchaser must file a refund claim within one year after the date of the final assessment.

[Acts 1981, 67th Leg., p. 1614, ch. 389, § 1, eff. Jan. 1, 1982.]

#### § 153.122. Gasoline Tax Refund Payment and Filing Fee

(a) After examination of the refund claim, the comptroller before issuing a refund warrant shall deduct from the amount of the refund:

- (1) the two percent deducted originally by the distributor on the first sale or distribution of the gasoline; and
- (2) \$1.50 as a filing fee.

(b) The filing fees shall be set aside for the use and benefit of the comptroller in the administration and enforcement of this section. All filing fees shall be paid into the state treasury and shall be paid out on vouchers and warrants in the manner prescribed by law.

[Acts 1981, 67th Leg., p. 1614, ch. 389, § 1, eff. Jan. 1, 1982.]

#### § 153.123. Gasoline and Alcohol Mixtures: Special Fund and Tax Credits and Payments

(a) On or before the 25th day of each month, the comptroller shall determine from appropriate reports prescribed by the comptroller and furnished during the prior month by distributors the number of gallons of first sales or uses of a mixture of gasoline and alcohol that meets the specifications provided in Subsection (e) of this section and shall transfer from

the General Revenue Fund to the gasoline and alcohol mixture fund, which is hereby created, the following amounts:

(1) until January 1, 1987, five cents per gallon on the first sale or use of that mixture;

(2) from January 1, 1987, through December 31, 1987, four cents per gallon on the first sale or use of that mixture;

(3) from January 1, 1988, through December 31, 1988, three cents per gallon on the first sale or use of that mixture;

(4) from January 1, 1989, through December 31, 1989, two cents per gallon on the first sale or use of that mixture;

(5) from January 1, 1990, through December 31, 1990, one cent per gallon on the first sale or use of that mixture; and

(6) on and after January 1, 1991, no amount of transfers to the gasoline and alcohol mixture fund may be made.

(b) On the effective date of this section, the comptroller shall estimate the amount of credit to be claimed within the subsequent 60 days and shall transfer that amount of money to the gasoline and alcohol mixture fund.

(c) A distributor required by this subchapter to make and keep records of motor fuel sales, distributions, uses, or consumptions and who is required to make reports to the comptroller shall include separately in the records and reports, in the detail as the comptroller may prescribe, the sale, distribution, use, or consumption of the gasoline and alcohol mixture defined in Subsection (e) of this section. The records and reports shall include the amount of all alcohol manufactured or purchased as a motor fuel blending agent.

(d) A distributor may claim a credit on the first sale or use of the gasoline and alcohol mixture described in Subsection (e) of this section or on the gasoline used for mixing with ethyl alcohol if the mixture meets the specifications described in Subsection (e) of this section, in the amount per gallon transferred to the gasoline and alcohol mixture fund as specified in Subsection (a) of this section. The distributor may take the credit on his monthly Texas gasoline distribution report. Thereafter, the comptroller shall promptly transfer funds from the gasoline and alcohol mixture fund to the highway motor fuel tax fund in the amount of the credits allowed to distributors. If a claim is based on gasoline used for mixing with ethyl alcohol, the comptroller may require the person making the claim to include in the claim the total number of gallons of ethyl alcohol produced or purchased and not thereafter resold or distributed as ethyl alcohol and any other information deemed necessary. The forms to be used, the procedure for filing, and the time within which a claim for credit must be instituted are the same as those set forth for claims for refund of taxes provided in Sections 153.120 and 153.121 of this code, with

any modifications that the comptroller determines to be appropriate to accomplish the purposes of this section.

(e) The mixture of gasoline and alcohol for which transfers, credits, or payments shall be made under this section shall meet the following specifications:

(1) the mixture must contain at least 10 percent ethyl alcohol;

(2) the alcohol added to the gasoline must have been at least 192 proof when added;

(3) the alcohol added to the gasoline must have been produced or distilled from a renewable source only; and

(4) except as provided by Subsection (f) of this section, the mixture must contain no alcohol that was produced or distilled outside the state.

(f) If the comptroller certifies that another state provides an exemption from that state's taxes applicable to gasoline or a credit or refund for taxes collected or an amount in lieu of taxes collected on a mixture of gasoline and alcohol, and if the other state's exemption, credit, or refund allowance applies to a mixture that includes alcohol produced or distilled in Texas, and if the alcohol produced in the other state meets the specifications provided by Subdivisions (1), (2), and (3) of Subsection (e) of this section, then the specifications for the mixture for which the transfers shall be made to the gasoline and alcohol mixture fund and for which credits or payments shall be made shall include mixtures that include alcohol produced and distilled in the other state or in Texas and the other state. However, if a mixture of alcohol produced or distilled in another state and gasoline qualifies under this subsection for a transfer and a credit, the amount of the transfer and credit under this section for the mixture may not exceed the amount of the exemption, credit, or refund (stated in or converted to cents for each gallon of the mixture) provided by the state in which the alcohol was produced or distilled.

[Added by Acts 1981, 67th Leg., 1st C.S., p. 43, ch. 3, § 2, eff. Jan. 1, 1982.]

Section 1 of the 1981 Act adding this section provides:

"The Legislature of the State of Texas finds that:

"(1) it is in the public interest of the people of Texas to conserve its mineral resources;

"(2) the encouragement of the use of a gasoline and alcohol mixture meeting the specifications of this Act is in furtherance of the public interest; and

"(3) the public interest of this state will be served by creating the gasoline and alcohol mixture fund, transferring money to that fund, and providing for credits or payments in accordance with this Act."

#### SUBCHAPTER C. DIESEL FUEL TAX

##### § 153.201. Diesel Fuel Tax Imposed

A tax is imposed on the first sale or use of diesel fuel in this state.

[Acts 1981, 67th Leg., p. 1615, ch. 389, § 1, eff. Jan. 1, 1982.]

§ 153.202. Tax Rates

(a) The diesel fuel tax rate is 6.5 cents for each gross or volumetric gallon or fractional part sold or used in this state except as provided by Subsection (b) of this section.

(b) The diesel fuel tax rate for diesel fuel sold by a permitted supplier to a transit company for exclusive use in its transit vehicles under an exemption certificate issued by the comptroller is six cents for each gallon.

[Acts 1981, 67th Leg., p. 1615, ch. 389, § 1, eff. Jan. 1, 1982.]

§ 153.203. Exceptions

The tax imposed by this subchapter does not apply to:

(1) diesel fuel delivered by a permitted supplier to a common or contract carrier, oceangoing vessel (including ship, tanker, or boat), or barge for export from this state, if the diesel fuel is moved forthwith outside this state;

(2) diesel fuel sold by a permitted supplier to the federal government for its exclusive use;

(3) diesel fuel sold or delivered by a permitted supplier to another permitted supplier or bonded user, to the bulk storage facility of a diesel tax prepaid user, or to a purchaser who provides a signed statement as provided by Section 153.205 of this code, but not including a delivery of tax-free diesel fuel into the fuel supply tanks of a motor vehicle, except for a motor vehicle owned by the federal government;

(4) diesel fuel sold or delivered by a permitted supplier into the storage facility of a permitted aviation fuel dealer, from which diesel fuel will be sold or delivered solely into the fuel supply tanks of aircraft or aircraft servicing equipment;

(5) diesel fuel sold or delivered by a permitted supplier into fuel supply tanks of railway engines, motorboats, or refrigeration units or other stationary equipment powered by a separate motor from a separate fuel supply tank;

(6) kerosene when delivered by a permitted supplier into a storage facility at a retail business from which all deliveries are exclusively for heating, cooking, lighting, or similar nonhighway use; or

(7) diesel fuel sold or delivered by one aviation fuel dealer to another aviation fuel dealer who will deliver the diesel fuel exclusively into the supply tanks of aircraft or aircraft servicing equipment.

[Acts 1981, 67th Leg., p. 1615, ch. 389, § 1, eff. Jan. 1, 1982.]

§ 153.204. Computation of Tax

(a) The amount of the tax shall be computed and paid to the state on the temperature-adjusted volume of gallons of taxable diesel fuel sold to wholesalers, jobbers, dealers, or other persons purchasing

diesel fuel for resale, where such sales are made in single deliveries of 5,000 gallons or more, or in lesser quantities where required by city ordinance, as computed from the authorized measurement certificate issued for the cargo tank making deliveries. The comptroller may publish and distribute a table to be used for converting the measurement of gross gallons of diesel fuel to temperature-adjusted gallons of diesel fuel.

(b) The amount of the tax shall be computed and paid to the state on the gross or volumetric gallons of taxable diesel fuel sold where the sales are made in single deliveries of less than 5,000 gallons or in quantities less than the maximum prescribed by city ordinance, if the maximum is less than 5,000 gallons.

(c) For a supplier whose diesel fuel deliveries are made to retail outlets that are operated by him or deliveries by him on consignment, the tax on sales to users and consumers shall be computed on the basis of actual sales.

(d) If the comptroller is not satisfied with a tax return or the amount of tax required to be paid to the state by a supplier who elects to report on the basis of actual sales, the comptroller may compute and determine the amount required to be paid on the basis of the beginning inventory, showing the total gallons of diesel fuel in storage at the location on the first day of the calendar month, plus the total gallons of diesel fuel delivered into the storage facility during the month, and less the total gallons of diesel fuel in the storage facility at the end of the calendar month.

[Acts 1981, 67th Leg., p. 1616, ch. 389, § 1, eff. Jan. 1, 1982. Amended by Acts 1981, 67th Leg., p. 2775, ch. 752, § 8(d), eff. Jan. 1, 1982.]

§ 153.205. Statement for Purchase of Diesel Fuel Tax Free

(a) The first sale or use of diesel fuel in this state is taxable, except that the sale of diesel fuel may be made without collecting the tax if the purchaser furnishes to a permitted supplier a signed statement that stipulates that:

(1) the purchaser does not operate any diesel-powered motor vehicles on the public highway;

(2) all of the diesel fuel will be consumed by the purchaser and no diesel fuel purchased on a signed statement will be resold; and

(3) none of the diesel fuel purchased in this state will be delivered or permitted by the purchaser to be delivered into fuel supply tanks of motor vehicles.

(b) The signed statement from the purchaser relieves the permitted supplier from the burden of proof that the sale of diesel fuel was not taxable to the purchaser and remains in effect unless:

(1) the statement is revoked in writing by the purchaser or supplier;

(2) the comptroller notifies the supplier in writing that the purchaser may no longer make tax-free purchases; or

(3) the supplier is put on notice by making taxable sales of diesel fuel to a purchaser who has previously submitted a signed statement to this supplier.

(c) A taxable sale to a person who has previously submitted a signed statement creates a rebuttable presumption that the supplier had reasonable notice that all subsequent sales should have been taxable.

(d) A taxable use of any part of the diesel fuel purchased under a signed statement shall, in addition to any criminal penalty, forfeit the right of the person to purchase diesel fuel tax free for a period of one year from the date of the offense, and any tax, interest, and penalty found to be due through false or erroneous execution or continuance of a promissory statement by the purchaser, if assessed to the supplier, is a debt of the purchaser to the supplier until paid, and is recoverable at law in the same manner as the purchase price of the fuel. The person may, however, claim a refund of the tax paid on any diesel fuel used for nonhighway purposes under Section 153.222 of this code.

(e) The statement must be signed by the purchaser or his representative.

(f) The comptroller's regulations may allow separate operating divisions of corporations to give separate signed statements as if they were different legal entities.

(g) The comptroller may promulgate necessary forms and rules to comply with this section.

[Acts 1981, 67th Leg., p. 1616, ch. 389, § 1, eff. Jan. 1, 1982.]

#### § 153.206. Collection and Payment of Tax; Allowances

(a) A supplier who makes a sale or use of diesel fuel in this state for a purpose other than those exceptions listed in Section 153.203 of this code shall at the time of sale or use be liable to the state for the tax imposed in this subchapter and shall report and pay the tax in the manner provided in the subchapter.

(b) A dealer shall collect the tax at the rate imposed on each gallon of diesel fuel delivered by him into the fuel supply tanks of a motor vehicle and shall report and pay to the state any tax collected that has not been paid to a permitted supplier.

(c) A user, except a diesel tax prepaid user, shall report and pay to the state the tax at the rate imposed on each gallon of diesel fuel delivered by him into the fuel supply tanks of a motor vehicle, unless the tax has been paid to a permitted supplier or a dealer, or, as a diesel tax prepaid user, the tax has been prepaid directly to the comptroller.

(d) An interstate trucker who imports diesel fuel into Texas in the fuel supply tanks of a motor vehicle having an aggregate capacity of 42 or more gallons for each vehicle shall report and pay the tax at the rate imposed on diesel fuel that is imported and used on Texas highways. The number of gal-

lons of diesel fuel used on Texas highways shall be computed by dividing the total miles traveled in all states by the total number of gallons of diesel fuel delivered into the fuel supply tanks of motor vehicles in all states. The mileage factor obtained shall be divided into the total Texas miles traveled in order to determine the number of gallons of diesel fuel used in Texas. An interstate trucker shall remit all taxes due by him based on the diesel fuel tax rate for each gallon on diesel fuel consumed within the state at the time of the filing of the quarterly report.

(e) Diesel fuel is deemed to be used when it is delivered into fuel supply tanks.

(f) If diesel fuel is purchased, in a single delivery of 5,000 gallons or more, or in lesser quantities where required by city ordinance, by any person for the purpose of resale, the seller, distributor, or broker shall sell the product to the retailer or any other person purchasing the product on the basis of temperature-corrected gallonage to 60 degrees Fahrenheit and the tax shall be computed and paid over to the state on the temperature-corrected basis. All other sales shall be reported to the comptroller on the basis of gross or volumetric gallons of taxable gasoline sold.

(g) For each one degree Fahrenheit that the temperature of diesel fuel taken at the time of loading for sale or consignment differs from 60 degrees Fahrenheit, an adjustment in the contract price shall be made equal to the stipulated value of four-hundredths of one percent of the total volume delivered.

(h) The tax on two percent of the taxable gallons of diesel fuel sold in this state shall be allocated to the supplier making the first taxable sale or use of the diesel fuel and paying the tax to the state for the expenses of collecting, accounting for, reporting, and remitting the tax collected and for keeping records.

(i) A bonded user or permitted interstate trucker is entitled to deduct one-half of one percent of the taxable gallons of diesel fuel on payment of the taxes to this state for the expense of recordkeeping, reporting, and remitting the tax.

[Acts 1981, 67th Leg., p. 1617, ch. 389, § 1, eff. Jan. 1, 1982. Amended by Acts 1981, 67th Leg., p. 2775, ch. 752, § 8(e), eff. Jan. 1, 1982.]

#### § 153.207. Permits; Application

(a) A bonded supplier, bonded user, interstate trucker, diesel tax prepaid user, or aviation fuel dealer shall file an application with the comptroller for one of the nonassignable permits provided for in this subchapter.

(b) The comptroller shall promulgate the application form, which must contain the following information:

(1) the name under which the applicant transacts or intends to transact business;

(2) the principal office, residence, or place of business in Texas of the applicant;

(3) if the applicant is not an individual, names of the principal officers of an applicant corporation, names of each partner in an applicant partnership, and the office, street, or post office address of each; and

(4) other information required by the comptroller.

(c) The comptroller shall determine from the information shown in the application or other investigation the kind and class of permit to be issued. [Acts 1981, 67th Leg., p. 1618, ch. 389, § 1, eff. Jan. 1, 1982.]

**§ 153.208. Bonded Supplier's Permit**

(a) A bonded supplier's permit authorizes a person to sell tax-free diesel fuel to:

- (1) another bonded supplier;
- (2) a bonded user;
- (3) an aviation fuel dealer;
- (4) a diesel prepaid user if delivered into his bulk storage facilities only; and
- (5) a person issuing a signed statement.

(b) A bonded supplier's permit authorizes a person to supply tax-paid diesel fuel to suppliers and other purchasers.

(c) A bonded supplier may not make a tax-free sale or delivery of diesel fuel into the fuel supply tanks of a motor vehicle other than a motor vehicle owned by the United States.

[Acts 1981, 67th Leg., p. 1618, ch. 389, § 1, eff. Jan. 1, 1982.]

**§ 153.209. Bonded User Permit**

A bonded user permit authorizes a user whose purchases of diesel fuel are predominantly for non-highway use to purchase diesel fuel tax free from permitted suppliers and to report and pay taxes to this state on that part of the diesel fuel that is delivered into the fuel supply tanks of motor vehicles owned or operated by him.

[Acts 1981, 67th Leg., p. 1619, ch. 389, § 1, eff. Jan. 1, 1982.]

**§ 153.210. Diesel Tax Prepaid User Permit**

(a) A diesel tax prepaid user permit authorizes a person whose use of diesel fuel is predominantly for nonhighway use, but who owns or operates one or more passenger cars or light trucks only in the weight class shown in this section to elect to prepay an annual tax on the fuel delivered from his own tax-free storage rather than obtain a bonded user permit. If he elects to obtain a diesel tax prepaid user permit, he must prepay the tax at the rate prescribed for each motor vehicle based on the class of registered gross weight. A person whose purchases of diesel fuel are predominantly for highway

use does not qualify for a diesel tax prepaid user permit.

(b) The vehicle classes and amounts of tax are:

Class A	Less than 2,500 pounds	.....\$20
Class B	2,500 to 3,500 pounds	..... 36
Class C	3,501 to 4,500 pounds	..... 45
Class D	4,501 to 7,000 pounds	..... 54

[Acts 1981, 67th Leg., p. 1619, ch. 389, § 1, eff. Jan. 1, 1982.]

**§ 153.211. Interstate Trucker's Permit**

An interstate trucker's permit authorizes a person who imports diesel fuel into the state in the fuel supply tanks of motor vehicles having an aggregate capacity of 42 or more gallons for each vehicle to report and pay the tax due on diesel fuel imported into this state or to claim a credit or a refund of the tax paid on diesel fuel purchased in this state and then used in other states. An interstate trucker may not make tax-free purchases of diesel fuel.

[Acts 1981, 67th Leg., p. 1619, ch. 389, § 1, eff. Jan. 1, 1982.]

**§ 153.212. Trip Permits**

(a) In lieu of an annual interstate trucker's permit, a person bringing motor vehicles into this state for commercial purposes with fuel supply tanks having an aggregate capacity of 42 or more gallons for each vehicle may obtain a trip permit.

(b) The trip permit must be obtained before entry into the state or at the time of entry. No more than five trip permits may be issued during a calendar year to a person operating interstate.

(c) A fee for each trip permit shall be collected from the applicant. The fee is an amount equal to the tax payable on the quantity of diesel fuel that could be imported in the fuel supply tanks of the motor vehicle, but not less than \$5.

[Acts 1981, 67th Leg., p. 1619, ch. 389, § 1, eff. Jan. 1, 1982.]

**§ 153.213. Aviation Fuel Dealer's Permit**

An aviation fuel dealer's permit authorizes a person to deliver diesel fuel exclusively into the fuel supply tanks of aircraft or aircraft servicing equipment. The holder of an aviation fuel dealer's permit may sell or deliver diesel fuel to another aviation fuel dealer who will deliver the diesel fuel exclusively into the fuel supply tanks of aircraft or aircraft servicing equipment. The holder of an aviation fuel dealer's permit may not act as a supplier of diesel fuel other than as allowed by this section.

[Acts 1981, 67th Leg., p. 1619, ch. 389, § 1, eff. Jan. 1, 1982.]

**§ 153.214. Supplier May Perform Other Functions**

A supplier may operate under the supplier's permit as a user, dealer, interstate trucker, or aviation fuel dealer without securing a separate permit, but

is subject to all other conditions, requirements, and liabilities imposed on those permittees.

[Acts 1981, 67th Leg., p. 1620, ch. 389, § 1, eff. Jan. 1, 1982.]

#### § 153.215. Permits: Periods of Validity

(a) A bonded supplier's and bonded user permit is permanent and valid as long as the permittee has in force and effect the required bond or security and furnishes timely reports as required, or until the permit is surrendered by the holder or canceled by the comptroller.

(b) An aviation fuel dealer's permit is permanent and is valid until the permit is surrendered by the holder or canceled by the comptroller.

(c) An interstate trucker's permit is valid from the date of issuance through December 31 of each calendar year or until the permit is surrendered by the holder or canceled by the comptroller. The comptroller may renew the permit for each ensuing calendar year if the permittee has in force and effect the required bond or security and furnishes timely reports as required. An interstate trucker exempted by Section 153.218(b) of this code must file the affidavit required by that section before the permit may be issued.

(d) A trip permit is valid for the period stated on it as determined by the comptroller.

(e) A diesel tax prepaid user permit shall be issued annually and is valid from the date of its issuance through December 31 of the calendar year unless a motor vehicle for which the tax is prepaid is sold or no longer used on the public highway. A diesel tax prepaid user must make application for a new permit each calendar year.

[Acts 1981, 67th Leg., p. 1620, ch. 389, § 1, eff. Jan. 1, 1982.]

#### § 153.216. Display of Permit

(a) A permit must be posted in a conspicuous place or kept available for inspection at the principal place of business of the owner. A copy of the permit must be kept at each place of business or other place of storage from which diesel fuel is sold, distributed, or used, and in each motor vehicle used by the permit holder to transport diesel fuel purchased by him for resale, distribution, or use.

(b) A person holding an interstate trucker's permit shall reproduce the permit and carry a photocopy with each motor vehicle being operated into or from the state.

[Acts 1981, 67th Leg., p. 1620, ch. 389, § 1, eff. Jan. 1, 1982.]

#### § 153.217. List of Suppliers, Bonded Users, and Aviation Fuel Dealers

(a) The comptroller, on or before December 20 of each calendar year, shall mail or distribute to each bonded supplier a printed alphabetical list of permitted suppliers, bonded users, and aviation fuel dealers

who are qualified to purchase diesel fuel tax free during the ensuing calendar year. A supplemental list of additions and deletions shall be delivered to each supplier each month.

(b) The comptroller, on or before January 31, of each calendar year, shall mail or distribute to each bonded supplier a printed alphabetical list of diesel tax prepaid user permittees who are qualified to purchase diesel fuel tax free during the ensuing calendar year. A supplemental list of additions and deletions shall be delivered to each supplier each month.

[Acts 1981, 67th Leg., p. 1620, ch. 389, § 1, eff. Jan. 1, 1982.]

#### § 153.218. Bonds and Other Security for Taxes

(a) Except as provided by Subsection (b) of this section, a supplier, bonded user, or interstate trucker shall post a surety bond equal to two times the highest tax that will or may be expected to accrue on taxable sales and uses of diesel fuel during a reporting period. The minimum bond for a supplier is \$1,000. The minimum bond for a bonded user or interstate trucker is \$500.

(b) A permitted interstate trucker who maintains all fuel records in Texas, and all or substantially all of whose highway use is made with diesel fuel purchased within this state with the tax paid may be exempted from the bonding requirements under an annual affidavit to the comptroller attesting to the intrastate or substantially intrastate tax-paid purchase of diesel fuel.

(c) A bond must be a continuing instrument, must constitute a new and separate obligation, in the penal sum named in the bond, for each calendar year or portion of a year while the bond is in force, and must remain in effect until the surety on the bond is released and discharged.

(d) In lieu of filing a surety bond, an applicant for a permit may substitute the following security:

(1) cash in the form of U.S. currency in an amount equal to the required bond to be deposited in the suspense account of the state treasury; or

(2) an assignment to the comptroller of a certificate of deposit in any bank or savings and loan association in the state that is a member of the FDIC or the FSLIC in an amount at least equal to the bond amount required.

(e) if the amount of an existing bond becomes insufficient, or a surety on a bond becomes unsatisfactory or unacceptable, the comptroller may require the filing of a new or an additional bond.

(f) No surety bond or other form of security may be released until it is determined by examination or audit that no tax, penalty, or interest liability exists. The cash or securities shall be released within 60 days after the comptroller determines that no liability exists.

(g) The comptroller may use the cash or certificate of deposit to satisfy a final determination of

delinquent liability or a judgment secured in an action by this state to recover diesel fuel taxes, costs, penalties, and interest found to be due this state by a person in whose behalf the cash or securities were deposited.

(h) A surety on any bond furnished by a permittee shall be released and discharged from liability to the state accruing on the bond after the expiration of 30 days after the date on which the surety files with the comptroller a written request to be released and discharged. The request does not relieve, release, or discharge the surety from a liability already accrued or that accrues before the expiration of the 30-day period. The comptroller promptly on receipt of the request shall notify the permittee who furnished the bond, and unless the permittee, before the expiration date of the existing security, files with the comptroller a new bond with a surety company duly authorized to do business under the laws of the state, or other authorized security, in the amount required in this section, the comptroller shall cancel the permit in the manner provided in this chapter.

(i) A permittee may request an examination or audit to obtain release of the security when he relinquishes the permit or when he desires to substitute one form of security for an existing one. [Acts 1981, 67th Leg., p. 1621, ch. 389, § 1, eff. Jan. 1, 1982.]

**§ 153.219. Records**

(a) A supplier shall keep a record showing the number of gallons of:

- (1) all diesel fuel inventories on hand at the first of each month;
- (2) all diesel fuel refined, compounded, or blended;
- (3) all diesel fuel purchased or received, showing the name of the seller, and the date of each purchase or receipt;
- (4) all diesel fuel sold, distributed, or used showing the name of the purchaser and the date of sale, distribution, or use; and
- (5) all diesel fuel lost by fire or other accident.

(b) A dealer shall keep a record showing the number of gallons of:

- (1) all diesel fuel inventories on hand at the first of each month;
- (2) all diesel fuel purchased or received, showing the name of the seller, the date of each purchase or receipt;
- (3) all diesel fuel sold, distributed, or used; and
- (4) all diesel fuel lost by fire or other accident.

(c) A bonded user or other user with nonhighway equipment uses who files a claim for a refund shall keep a record showing the number of gallons of:

- (1) inventories of all diesel fuel on hand at the first of each month;
- (2) all diesel fuel purchased or received, showing the name of the seller and the date of each purchase;

(3) all diesel fuel deliveries into the fuel supply tanks of motor vehicles;

(4) diesel fuel used for other purposes, showing the purpose for which used; and

(5) all diesel fuel lost by fire or other accident.

(d) An aviation fuel dealer shall keep a record showing the number of gallons of:

- (1) all diesel fuel inventories on hand at the first of each month;
- (2) all diesel fuel purchased or received, showing the name of the seller and the date of each purchase or receipt;
- (3) all diesel fuel sold, distributed, or used in aircraft or aircraft servicing equipment; and
- (4) diesel fuel lost by fire or other accident.

(e) The records of an aviation fuel dealer made under Subsection (d)(3) of this section must show:

- (1) the name of the purchaser or user of diesel fuel;
- (2) the date of the sale, distribution, or use of the diesel fuel; and
- (3) the registration or "N" number of the airplane or a description or number of the aircraft servicing equipment in which diesel fuel is used.

(f) A permitted interstate trucker shall keep a record of:

- (1) the total miles traveled in all states by all vehicles traveling into or from Texas and the total quantity of diesel fuel consumed in those vehicles; and
- (2) the total miles traveled in Texas and the total quantity of diesel fuel delivered into the fuel supply tanks of motor vehicles in Texas.

(g) The comptroller may require selective schedules from a supplier, dealer, aviation fuel dealer, interstate trucker, or common or contract carrier for a purchase, sale, or delivery of diesel fuel if the schedules are not inconsistent with the requirements of this chapter.

(h) The records required must be kept for four years and are open to inspection at all times by the comptroller or the attorney general.

[Acts 1981, 67th Leg., p. 1622, ch. 389, § 1, eff. Jan. 1, 1982.]

**§ 153.220. Invoices**

(a) A delivery of diesel fuel into the fuel supply tanks of a motor vehicle having an aggregate capacity of 42 or more gallons shall be evidenced by an invoice issued in duplicate by a dealer or an invoice or a distribution log issued by a bonded user or other user.

(b) An invoice must be carried in the vehicle until the next purchase or delivery of fuel into that vehicle. A distribution log must be carried with the vehicle until the end of the calendar month.

(c) A dealer shall also issue an invoice for a sale, distribution, or use for a purpose other than propell-

ing a motor vehicle on the public highways of this state.

(d) The invoice or distribution log must contain:

(1) the name and address of the person making the delivery stamped or preprinted on it;

(2) a statement of the amount of the diesel fuel tax separate from the selling price or a statement that the diesel fuel tax is included in the selling price;

(3) a statement that no diesel fuel tax was collected by the seller if the invoice is to be used by the seller to support a refund claim; and

(4) spaces for providing the following:

(A) the name of the purchaser;

(B) the date of delivery of the fuel;

(C) the number of gallons delivered;

(D) the odometer or hubmeter reading;

(E) the state highway license or unit number;

(F) the type of vehicle or equipment, such as a motorboat, railway engine, highway vehicle, off-highway vehicle, or refrigeration unit or stationary engine into which the fuel is delivered; and

(G) the signature of the recipient.

(e) If the delivery of tax-paid diesel fuel is made through an automated method whereby the purchase is automatically applied to the purchaser's account, one invoice may be issued at the time of billing covering multiple purchases made during a 30-day billing cycle.

(f) If the fuel delivery into the fuel supply tanks of a motor vehicle is through a method where there is no seller or agent present, then the purchaser or recipient must prepare the required invoice at the time of delivery.

[Acts 1981, 67th Leg., p. 1623, ch. 389, § 1, eff. Jan. 1, 1982.]

#### § 153.221. Reports and Payments

(a) On or before the 25th day of each month, a supplier shall file a report of diesel fuel transactions and remit the amount of tax required to be collected during the preceding month. A report must be filed on a form provided by the comptroller and contain information required by the comptroller, showing complete and detailed information of diesel fuel transactions during the preceding month. A supplier required to file a report under this section who has not sold, used, or distributed any diesel fuel during the reporting period shall file with the comptroller the report setting forth the facts or information. The failure of a supplier to obtain forms from the comptroller is no excuse for the failure to file a report. The report must be executed by the supplier or his representative and is subject to the penalties provided in this chapter.

(b) On or before the 25th day of the month following the end of each calendar quarter, a bonded user or interstate trucker shall file a report and remit the

amount of tax due except as provided by Subsection (d) of this section. A report must be executed and filed with the comptroller and contain complete and detailed information on diesel fuel transactions during the preceding calendar quarter and other information required by the comptroller on forms provided for that purpose. A bonded user or interstate trucker required to file a report under this section who has not sold, used, or distributed any diesel fuel during the reporting period shall file with the comptroller the report setting forth the facts or information. The failure of a bonded user or interstate trucker to obtain forms from the comptroller is no excuse for the failure to file a report containing all the information required to be reported.

(c) No report is required to be filed by:

(1) an aviation fuel dealer;

(2) a trip permit user;

(3) a diesel tax prepaid user;

(4) a person issuing signed statements; or

(5) a common or contract carrier.

(d) A permitted interstate trucker who maintains all fuel records in Texas, and all, or substantially all, of whose highway use is made with diesel fuel purchased within this state with the tax paid may be exempted from the quarterly reporting requirements under an annual affidavit to the comptroller attesting to the intrastate, or substantially intrastate, purchases of tax-paid diesel fuel.

[Acts 1981, 67th Leg., p. 1623, ch. 389, § 1, eff. Jan. 1, 1982.]

#### § 153.222. Refunds of Taxes Paid on Excepted Uses of Diesel Fuel

(a) A dealer who has paid tax on diesel fuel that has been used or sold for use by the dealer for any purpose other than propelling a motor vehicle on the public highways of this state or that has been sold to the United States for its exclusive use, and a user who has paid tax on any diesel fuel that has been used by him for a purpose other than propelling a motor vehicle on the public highways may file a claim for a refund of taxes paid, less the deduction allowed vendors and a filing fee.

(b) A person may file a refund claim for tax paid on the diesel fuel used in motor vehicles that are operated exclusively off the public highways except for incidental travel on the public highways as determined by the comptroller, but not for that portion used in the incidental travel.

(c) A permitted interstate trucker is entitled to a credit equivalent to the tax rate for each gallon paid on all diesel fuel on which the diesel fuel tax has been paid and later consumed in motor vehicles outside the state. If the amount of credit to which the interstate trucker is entitled for any calendar quarter exceeds the amount of tax for which the interstate trucker is liable for diesel fuel consumed in the motor vehicles during the reporting period, the excess shall be allowed as a credit or refund on a

timely filed quarterly report against the tax for which the interstate trucker would be otherwise liable for any of the three succeeding quarters. Evidence of the mileage traveled and gallonage consumed and the payment of the diesel fuel tax, on a form that may be required by or is satisfactory to the comptroller, shall be furnished by the interstate trucker claiming the credit or tax refund.

(d) If the quantity of diesel fuel used in Texas by auxiliary power units or power take-off equipment on any motor vehicle can be accurately measured while the motor vehicle is stationary by any metering or other measuring device or method designed to measure the fuel separately from fuel used to propel the motor vehicle, the comptroller may approve and adopt the use of any device as a basis for determining the quantity of diesel fuel consumed in those operations for tax credit or tax refund. If no separate metering device or other approved measuring method is provided, the following credit or refund procedures are authorized. A permitted supplier or bonded user who operates diesel-powered motor vehicles equipped with a power take-off or a diesel-powered auxiliary power unit mounted on the motor vehicle and using the fuel supply tank of the motor vehicle may be allowed a five percent deduction from the taxable gallons used in this state in each motor vehicle so equipped. A user who is required to pay the tax on diesel fuel used in motor vehicles so equipped may file a claim for a refund not to exceed five percent of the total taxable fuel used in this state in each motor vehicle so equipped.

(e) A person who exports or loses by fire or other accident 100 or more gallons of diesel fuel on which the tax has been paid, or who sells diesel fuel in any quantity to the United States for its exclusive use on which the tax has been paid, may file a claim for a refund of the net tax paid to the state as the comptroller may direct.

[Acts 1981, 67th Leg., p. 1624, ch. 389, § 1, eff. Jan. 1, 1982.]

**§ 153.223. Claims for Refunds**

(a) A refund claim must be filed with the comptroller on forms provided by the comptroller and show the date of filing, the period covered in the claim, the number of gallons of diesel fuel subject to refund, and other information required by the comptroller. A claim must be supported by one or more original invoices issued to or by the claimant, or such other information as the comptroller deems necessary.

(b) If a motor vehicle is sold, transferred, or destroyed, the owner is entitled to a refund of the unused portion of the advance taxes paid for that calendar year. The owner or operator must submit to the comptroller an affidavit identifying the vehicle, the permit number, the circumstances entitling him to a refund, and all other information required by the comptroller. On receipt of the affidavit and when satisfied as to the circumstances, the comptrol-

ler shall refund to the owner or operator that portion of the payment that corresponds to the number of complete months remaining in the calendar year for which the vehicle was no longer utilized. No refund may be made if the use of the vehicle ceased within the last month of the calendar year.

(c) A person who files a claim for a tax refund on diesel fuel used for a purpose for which a tax refund is not authorized, or who files an invoice supporting a refund claim on which the date, figures, or any material information has been falsified or altered, forfeits his right to the entire amount of the refund claim filed unless the claimant provides proof satisfactory to the comptroller that the incorrect refund claim filed was due to a clerical or mathematical calculation error.

[Acts 1981, 67th Leg., p. 1625, ch. 389, § 1, eff. Jan. 1, 1982.]

**§ 153.224. When Diesel Fuel Tax Refund May be Filed**

(a) Except as provided by this section, a claim for a refund must be filed with the comptroller within one year after the first day of the calendar month following the purchase, use, delivery, export, or loss by fire or other accident of diesel fuel, whichever period expires latest.

(b) An interstate trucker may accumulate credits for four successive calendar quarters, but he must take the credit or claim a refund on a report filed on or before the 25th day following the fourth quarter.

(c) If an audit of a supplier determines that tax-free sales were made to an unauthorized purchaser and the purchaser could have filed for a refund if the tax had been paid at the time of the sale, the unauthorized purchaser must file a refund claim within one year after the date of the final assessment.

[Acts 1981, 67th Leg., p. 1625, ch. 389, § 1, eff. Jan. 1, 1982.]

**§ 153.225. Diesel Fuel Tax Refund Payments and Filing Fee**

(a) After examination and approval of the refund claim, the comptroller before issuing a refund warrant shall deduct from the amount of the refund payment:

(1) the 1½ percent deducted originally by the supplier on the sale or delivery of the diesel fuel; and

(2) \$1.50 as a filing fee.

(b) The filing fees shall be set aside for the use and benefit of the comptroller in the administration and enforcement of the provisions of this chapter, and for payment of expenses in furnishing the claim forms and other forms. All filing fees shall be paid into the state treasury and shall be paid out on vouchers and warrants in the manner prescribed by law.

[Acts 1981, 67th Leg., p. 1626, ch. 389, § 1, eff. Jan. 1, 1982.]

(b) An interstate trucker operating a motor vehicle licensed in a base state other than Texas and any other out-of-state user shall pay the excise tax on delivery of the liquefied gas into the fuel supply tanks of a motor vehicle.

[Acts 1981, 67th Leg., p. 1626, ch. 389, § 1, eff. Jan. 1, 1982. Amended by Acts 1981, 67th Leg., p. 2783, ch. 752, § 13(b), eff. Jan. 1, 1982.]

§ 153.303. Permits; Application; Display

(b) An application for a permit must be filed on a form provided by the comptroller showing the kind and class of permit desired, the odometer reading of a Class A through F motor vehicle, and other information required by the comptroller.

(c) A permit shall be posted in a conspicuous place or kept available for inspection at the principal place of business of the owner. A permit holder shall reproduce the permit and keep a copy on display at each additional place of business from which liquefied gas is sold, delivered, or used in motor vehicles. A person holding an interstate trucker's permit shall reproduce the permit and carry a copy with each motor vehicle being operated into or from Texas. The liquefied gas tax decal user shall affix the decal in the lower right-hand corner of the front windshield of the passenger side of the vehicle.

§ 153.304. Dealer's Permit

A dealer's permit authorizes a dealer to collect and remit taxes on liquefied gas delivered into the fuel supply tanks of motor vehicles displaying an out-of-state license plate or a motor vehicle displaying a motor vehicle dealer's liquefied gas tax decal.

[Acts 1981, 67th Leg., p. 1627, ch. 389, § 1, eff. Jan. 1, 1982. Amended by Acts 1981, 67th Leg., p. 2783, ch. 752, § 13(d), eff. Jan. 1, 1982.]

§ 153.305. Liquefied Gas Tax Decal Permit

(a) A user of liquefied gas for the propulsion of a motor vehicle on the public highways of Texas shall pay in advance annually on each motor vehicle owned, operated, and licensed in Texas by him, a tax based on the registered gross weight and mileage driven the previous year in the following schedule:

	Less than 5,000 miles	5,000 to 9,999 miles	10,000 miles and over
Class A: Less than 4,000 pounds	\$24.00	\$ 48.00	\$ 72.00
Class B: 4,000 to 10,000 pounds	27.00	54.00	84.00
Class C: 10,001 to 15,000 pounds	39.00	78.00	120.00

Class E: 27,501 to 43,500 pounds	57.00	114.00	228.00
Class F: 43,501 pounds and over	60.00	120.00	300.00

(b) The first issuance of a liquefied gas tax decal for a Class A through F motor vehicle shall be issued on a basis of estimated miles which will be driven annually or at the rate of 5,000 miles annually prorated monthly if issuance is after January 31.

(c) The following special use liquefied gas tax decal and tax shall be required for the types of vehicles described below:

Class T: Transit carrier vehicles operated by a transit company . . . . . \$330

Class Y: Motor vehicles designed for carrying fewer than 10 passengers and used for the transportation of persons for compensation . . . . . 204

(d) An entity holding a valid registration under Article 6686, Revised Civil Statutes of Texas, 1925, as amended, may obtain a decal for each liquefied gas-powered motor vehicle held for sale or resale and pay the tax per gallon to a permitted dealer on each delivery of liquefied gas into the fuel supply tank of the motor vehicle.

[Acts 1981, 67th Leg., p. 1627, ch. 389, § 1, eff. Jan. 1, 1982. Amended by Acts 1981, 67th Leg., p. 2783, ch. 752, § 13(e), eff. Jan. 1, 1982.]

§ 153.306. Interstate Trucker's Permit

An interstate trucker's permit authorizes an interstate trucker operating a motor vehicle with a base license plate issued by a state other than Texas to import liquefied gas into this state in the fuel supply tanks of motor vehicles owned or operated by him for commercial purposes, to report and pay the tax due, and to make sales or distributions in Texas

from his cargo tanks, but no delivery may be made in Texas into the fuel supply tanks of motor vehicles not bearing a current liquefied gas tax decal without first obtaining the required dealer's permit to make taxable sales. The interstate trucker's permit for users operating a motor vehicle with a base license plate issued by a state other than Texas is in lieu of the liquefied gas tax decal permit required to operate motor vehicles on the highways of the state. [Acts 1981, 67th Leg., p. 1627, ch. 389, § 1, eff. Jan. 1, 1982.]

**§ 153.307. Permits: Periods of Validity**

(a) A dealer's permit is permanent and valid as long as the permittee furnishes timely reports as required, or until the permit is surrendered by the holder or canceled by the comptroller.

(b) An interstate trucker's permit is valid from the date of its issuance through December 31 of each calendar year, or until the permit is surrendered by the holder or canceled by the comptroller. The comptroller may renew the permit for each ensuing calendar year if the permittee furnishes timely reports as required.

(c) A liquefied gas tax decal permit shall be issued annually and is valid from the date of its issuance through December 31 of the calendar year unless a motor vehicle for which the tax is prepaid is sold or no longer used on the public highway. A liquefied gas tax decal permittee must make application for a new permit each calendar year. The ending odometer reading must be provided on the renewal application. In the absence of an ending odometer reading, the previous year's mileage of the motor vehicle shall be presumed to be at least 10,000 miles.

(d) A motor vehicle dealer's liquefied gas tax decal permit shall be issued annually and is valid from the date of its issuance through December 31 of each calendar year unless the motor vehicle is sold at which time the decal shall be removed by the dealer from the motor vehicle. A motor vehicle dealer's liquefied gas tax decal permittee must make application for a new permit each year.

[Acts 1981, 67th Leg., p. 1627, ch. 389, § 1, eff. Jan. 1, 1982. Amended by Acts 1981, 67th Leg., p. 2784, ch. 752, § 13(f), eff. Jan. 1, 1982.]

**§ 153.308. Computation of Taxes; Allowances**

(a) A permitted dealer who makes a sale or delivery of liquefied gas into a fuel supply tank of a motor vehicle on which the tax is required to be collected is liable to the state for the tax imposed, and shall report and pay the tax in the manner required by this subchapter.

(b) A permitted interstate trucker shall report and pay to this state the tax at the rate imposed on each gallon of liquefied gas delivered by him into the fuel supply tank of a motor vehicle, unless the tax has been paid to a permitted dealer, and shall report and pay the tax on each gallon of liquefied gas imported into this state in the fuel supply tanks of

motor vehicles owned or operated by him and consumed in the operation of the motor vehicles on the public highways of this state.

(c) The tax on one percent of the taxable gallons of liquefied gas sold in this state shall be allocated to the permitted dealer making the sale for the expense of collecting, accounting for, reporting, and remitting the taxes collected and keeping the records. The allocation allowance shall be deducted by the permitted dealers in the payment to the state.

(d) The tax of one-half of one percent of the taxable gallons of liquefied gas used in this state by persons permitted as interstate truckers shall be allocated to the interstate trucker making the use of the liquefied gas for the expense of accounting for, reporting, and remitting the taxes due.

[Acts 1981, 67th Leg., p. 1628, ch. 389, § 1, eff. Jan. 1, 1982. Renumbered from § 153.309 by Acts 1981, 67th Leg., p. 2784, ch. 752, § 13(h), eff. Jan. 1, 1982.]

A former § 153.308, relating to security for payment of tax, derived from Acts 1981, 67th Leg., p. 1628, ch. 389, § 1, was repealed by Acts 1981, 67th Leg., p. 2784, ch. 752, § 13(g).

**§ 153.309. Records**

(a) A dealer shall keep for four years, open to inspection at all times by the comptroller and the attorney general, a complete record of all liquefied gas sold or delivered for taxable purposes.

(b) An interstate trucker shall keep for four years, open to inspection by the comptroller and the attorney general, a record of:

- (1) the total miles traveled in all states by all the interstate trucker's motor vehicles traveling into or from Texas and the total quantity of liquefied gas used in the motor vehicles; and
- (2) the total miles traveled in Texas and the total quantity of liquefied gas purchased in Texas, showing both tax-paid fuel delivered into the fuel supply tanks of motor vehicles and tax-free fuel delivered into storage facilities in Texas.

(c) Each taxable sale or delivery of liquefied gas into the fuel supply tanks of a motor vehicle, including deliveries by interstate truckers from bulk storage, shall be covered by an invoice. The invoice must be printed and contain the following:

- (1) the preprinted or stamped name and address of the permitted dealer or interstate trucker;
- (2) the date;
- (3) the number of gallons delivered;
- (4) the mileage recorded on the odometer;
- (5) the state and state highway license number;
- (6) the signature of the driver of the motor vehicle; and
- (7) the amount of tax paid or accounted for separately from the selling price.

(d) The invoice must be carried with the vehicle and will serve as a trip permit.

(e) A liquefied gas tax decal permittee required to report beginning and ending odometer readings may deduct the miles travelled outside the State of Texas

from the total miles travelled. A record of miles travelled by the vehicle in states other than Texas must be maintained and submitted with the renewal each year. A decal may not be renewed for an amount less than the rate for 4,999 miles annually. [Acts 1981, 67th Leg., p. 1628, ch. 389, § 1, eff. Jan. 1, 1982. Renumbered from § 153.310 and amended by Acts 1981, 67th Leg., p. 2784, ch. 752, § 13(h)(i), eff. Jan. 1, 1982.]

### § 153.310. Reports and Payments

(a) A permitted dealer, on or before the 25th day of the month following the end of each calendar quarter, shall file a report and remit the amount of tax due. A permitted dealer who has not made taxable sales during the reporting period shall file with the comptroller the report setting forth the facts or information.

(b) Every permitted interstate trucker, on or before the 25th day of the month following the end of each calendar quarter, shall file a report and remit the amount of tax due. A report shall be filed with the comptroller and must contain the number of miles traveled in this state, the number of miles traveled outside this state, and other information required by the comptroller on forms provided for that purpose. An interstate trucker who is required to file a report under this section and who has not made interstate trips or used liquefied gas in motor vehicles in Texas during the reporting period shall file with the comptroller the report setting forth the facts or information.

[Acts 1981, 67th Leg., p. 1629, ch. 389, § 1, eff. Jan. 1, 1982. Renumbered from § 153.311 by Acts 1981, 67th Leg., p. 2784, ch. 752, § 13(h), eff. Jan. 1, 1982.]

### § 153.311. Refunds; Transfer of Decals

(a) If a motor vehicle bearing a liquefied gas tax decal is sold or transferred, the seller and purchaser shall promptly notify the comptroller of the sale or transfer and a new decal shall be issued in the new purchaser's name.

(b) If a motor vehicle bearing a liquefied gas tax decal is destroyed or the liquefied gas carburetor system removed, the owner is entitled to a refund of the unused portion of the advance taxes paid for that calendar year. The owner or operator shall submit to the comptroller an affidavit identifying the vehicle, the permit number, the decal number assigned to the vehicle, the circumstances entitling him to a refund, and all other information required by the comptroller. On receipt of the affidavit and when satisfied as to the circumstances, the comptroller shall refund that portion of the tax payment that corresponds to the number of complete months remaining in the calendar year for which the tax has been paid, beginning with the month following the date on which the vehicle or the liquefied gas carburetor was no longer utilized. No refund may be made if the use of the vehicle ceased within the last month of the calendar year.

(c) A permitted interstate trucker is entitled to a refund of the amount of the Texas liquefied gas tax paid on each gallon of liquefied gas subsequently used outside this state. On verification by the comptroller that the interstate trucker's report was timely filed with all information required, he shall issue a warrant to the interstate trucker for the amount of the refund less the one percent deducted originally by the permitted dealer making the sale and a filing fee of \$1.50. Failure to file an interstate trucker report by the 25th of the month following the end of a calendar quarter forfeits the right to a refund. [Acts 1981, 67th Leg., p. 1629, ch. 389, § 1, eff. Jan. 1, 1982. Renumbered from § 153.312 by Acts 1981, 67th Leg., p. 2784, ch. 752, § 13(h), eff. Jan. 1, 1982.]

**§ 157.101. Tax Imposed**

There is levied a motor vehicle sales and use tax on interstate motor vehicles, trailers, and semitrailers operated by motor carriers which are residents of this state or are domiciled or doing business in this state.

[Added by Acts 1981, 67th Leg., p. 2750, ch. 752, § 1, eff. Jan. 1, 1982.]

**§ 157.102. Tax Rate**

(a) Except as provided in Subsections (c), (d), and (e) of this section, the payment of the tax is the responsibility of the motor carrier operating the

motor vehicle and the tax rate on an interstate motor vehicle shall be calculated as follows:

(1) The carrier's total miles operated in Texas by interstate truck-tractors and interstate commercial motor vehicles during the preceding year is divided by the total miles operated by the same interstate truck-tractors and interstate commercial motor vehicles operated in Texas during the preceding year;

(2) The percentage calculated in Subdivision (1) of this subsection is multiplied by four percent of the purchase price of each interstate motor vehicle purchased in Texas or first brought into the State of Texas during the reporting period. If a lease price is used in this formula, charges for gasoline, maintenance, insurance, and pass-through charges, such as federal highway use tax and fees for licensing and registration, may be excluded from the lease price;

(3)(A) From the amount computed in Subdivision (2) of this subsection may be deducted the amount of sales and use tax paid on the interstate motor vehicle multiplied by the formula in Subdivision (1) of this subsection;

(B) If an operator is paying sales or use tax on lease payments, he may take the credit allowed by Paragraph (A) of this subdivision on a quarterly basis.

(b) If a motor carrier has not operated in Texas during the preceding year, it shall estimate the miles it will drive during the year and use the estimate in the calculations set forth in Subsection (a) of this section. The carrier shall adjust any overpayments or underpayments of tax based on actual mileage in the first reporting period after a year of operation.

(c)(1) The payment of the tax is the responsibility of the motor carriers operating the motor vehicle, and the tax rate on an interstate trailer or semitrailer being purchased or first brought into Texas during a reporting period shall be calculated as follows:

(A) The number of truck-tractors operated in Texas by the motor carrier during the reporting period is divided by the total number of truck-tractors operated by a motor carrier in the reporting period;

(B) The percentage calculated in Paragraph (A) of this subdivision is multiplied by four percent of the purchase price of all trailers and semitrailers purchased during the reporting period;

(C) The amount calculated in Paragraph (B) of this subdivision is multiplied by the formula in Subsection (a)(1) of this section;

(D) From the amount calculated in Paragraph (C) of this subdivision shall be deducted the amount of sales and use taxes paid on all trailers and semitrailers purchased in the reporting period multiplied by the percentages calculated in Paragraph (A) of this subdivision and in Subsection (a)(1) of this section;

(2) However, if the motor carrier can prove that the actual number of trailers or semitrailers being purchased in Texas or first brought into Texas during a reporting period is less than the number under the formula in Subsection (c)(1) of this section, the motor carrier may pay tax on the lesser number using the formula in Subsection (a) of this section. If a motor carrier chooses to use the actual number of trailers or semitrailers purchased in Texas or first brought into Texas during a reporting period and then uses the formula for other reporting periods, the motor carrier must remit tax on trailers and semitrailers purchased during the period it used the actual count when the trailers or semitrailers are first brought into the state.

(d) If a motor carrier contracts to hire an interstate motor vehicle with a driver to transport persons or property over the carrier's routes and under the authority of the carrier's permits, the tax rate is \$25 per truck-tractor per contract and \$25 per trailer or semitrailer per contract and is the responsibility of the motor carrier operating the motor vehicle. However, if a sales and use tax of at least four percent of the purchase price of the motor vehicle has been paid or if tax under Subsection (a), (b), or (c) of this section has been paid, no tax is due on the vehicle under this subsection. This subsection may not be utilized by a motor carrier contracting with a person being controlled or having controlling interest in the motor carrier. Controlling interest is defined as 50 percent of ownership.

(e) If a motor carrier contracts to use trip-leased equipment, the tax rate is \$5 per motor vehicle per contract and is the responsibility of the motor carrier operating the motor vehicle. However, if a sales and use tax of at least four percent of the purchase price of the motor vehicle has been paid or if tax under Subsection (a) of this section has been paid, no tax is due on the vehicle under this subsection. This subsection may not be utilized by a motor carrier contracting with a person being controlled or having controlling interest in the motor carrier. Controlling interest is defined as 50 percent of ownership. [Added by Acts 1981, 67th Leg., p. 2750, ch. 752, § 1, eff. Jan. 1, 1982.]

#### SUBCHAPTER C. ENFORCEMENT AND COLLECTION

##### § 157.201. Permits

(a) Motor carriers required to pay tax under this chapter shall be permitted by the comptroller.

(b) The permit may be used by the motor carrier to register motor vehicles, trailers, and semitrailers with the county tax assessor-collector without paying the motor vehicle sales and use tax under Chapter 152 of this code if the motor vehicle is being registered as an apportioned motor vehicle or if the motor vehicle is a bus used in the interstate transportation of chartered parties.

(c) Lessors may title an interstate motor vehicle, trailer, and semitrailer leased for periods in excess of 180 days under the permit authority of the motor carrier operating the vehicle without payment of taxes imposed by Chapter 152 of this code, if the motor vehicle is being registered as an apportioned motor vehicle or if the motor vehicle is a bus used in the interstate transportation of chartered parties. [Added by Acts 1981, 67th Leg., p. 2750, ch. 752, § 1, eff. Jan. 1, 1982.]

§ 157.202. Reports

(a) The motor carriers subject to the provisions of this chapter shall report and pay the tax to the comptroller quarterly on or before the last day of the month succeeding each calendar quarter.

(b) Notwithstanding the provisions of Subsection (a) of this section, the comptroller may prescribe the date and period for filing reports and payments in order to facilitate the collection of the tax including a longer reporting period for motor carriers owing a minimal amount of tax.

[Added by Acts 1981, 67th Leg., p. 2750, ch. 752, § 1, eff. Jan. 1, 1982.]

§ 157.203. Records

Motor carriers are required to keep records and supporting documents including mileage records regarding the payment of motor carrier sales and use tax in such form as the comptroller may reasonably require. The motor carriers must keep the records for at least three years.

[Added by Acts 1981, 67th Leg., p. 2750, ch. 752, § 1, eff. Jan. 1, 1982.]

§ 157.204. Penalty and Interest

Any person who fails to timely pay the tax required by this chapter forfeits five percent of the amount due as a penalty, and after the first 30 days, forfeits an additional five percent. The penalty may never be less than \$1. Delinquent taxes shall draw interest at the rate of 10 percent per annum, beginning 60 days from the date due.

[Added by Acts 1981, 67th Leg., p. 2750, ch. 752, § 1, eff. Jan. 1, 1982.]

§ 157.205. Enforcement by the Comptroller; Rules and Regulations

(a) The comptroller shall enforce the provisions of this chapter and may prescribe, adopt, and enforce rules relating to the administration and enforcement of this chapter.

(b) The comptroller may promulgate such forms as are necessary for the administration and enforcement of this chapter.

[Added by Acts 1981, 67th Leg., p. 2750, ch. 752, § 1, eff. Jan. 1, 1982.]

#### § 158.052. Computation of Tax

The initial sale of a manufactured home occurs on the sale, shipment, or consignment by a manufacturer to a retailer or other person in this state. The tax rule is applied to 65 percent only of the sales price to be paid by the retailer or other person, as set forth in the actual invoice or bill of sale. The sales price does not include any shipping, freight, or delivery charges for the manufactured home from the manufacturer to the retailer or other person if those charges are separately stated on the invoice or bill of sale.

[Added by Acts 1981, 67th Leg., p. 2754, ch. 752, § 2(a), eff. March 1, 1982.]

#### § 158.053. Collection of Tax From Retailer

Every manufacturer engaged in business in this state shall set forth the amount of the tax imposed on each manufactured home on the actual invoice or bill of sale and shall collect the amount of the tax from the retailer or other person to or for whom the manufactured home is sold, shipped, or consigned in this state. As used in this chapter, "manufacturer engaged in business in this state" includes the following:

(1) any manufacturer maintaining, occupying, or using, permanently or temporarily, directly or indirectly, or through a subsidiary, affiliate, or agent, by whatever name called, an office, manufacturing facility, place of distribution, warehouse, storage place, or other place of business; and

(2) any manufacturer having a representative, agent, salesman, canvasser, or solicitor operating in this state under the authority of the manufacturer, or of its subsidiary, affiliate, or agent, for the purpose of selling, delivering, or the taking of orders for any manufactured home.

#### § 158.054. Permits

Every manufacturer engaged in business in this state shall file with the comptroller an application for a permit authorizing the manufacturer to sell, ship, or consign manufactured homes to persons in this state. The application must be on a form prescribed by the comptroller and contain the information that the comptroller requires. The application must be executed by the owner of a sole proprietorship, by an officer or partner of an association or

partnership, or by an executive officer, or other person who is expressly authorized, of a corporation. A manufacturer may not be issued a permit unless the manufacturer is duly registered and bonded under the Texas Manufactured Housing Standards Act, as amended (Article 5221f, Vernon's Texas Civil Statutes).

[Added by Acts 1981, 67th Leg., p. 2754, ch. 752, § 2(a), eff. March 1, 1982.]

#### § 158.055. Records

Every manufacturer selling, shipping, or consigning manufactured homes to or for any person in this state shall keep on file for audit purposes for the limitation period records showing:

(1) the identification number of each module or section of each manufactured home sold, shipped, or consigned;

(2) the name of the retailer or other person to whom or for whom the manufactured home was sold, shipped, or consigned and the address to which the home was delivered in this state; and

(3) the sales price of each manufactured home sold, shipped, or consigned.

[Added by Acts 1981, 67th Leg., p. 2754, ch. 752, § 2(a), eff. March 1, 1982.]

#### § 158.056. Report and Tax Payment

(a) Each manufacturer shall send to the comptroller on or before the last day of each month a report showing the total sales prices of manufactured homes sold, shipped, or consigned to or for, any person in this state during the preceding month together with the taxes imposed by this chapter. The report shall be made in the form and manner required by the comptroller.

(b) Along with each monthly report, the manufacturer shall remit to the comptroller monthly the tax imposed by this chapter and due on manufactured homes during the reporting period.

[Added by Acts 1981, 67th Leg., p. 2754, ch. 752, § 2(a), eff. March 1, 1982.]

#### § 158.057. Use Tax

(a) A use tax is imposed on the use or occupancy of a manufactured home in this state at the same rate as provided by this chapter on the initial sale of a new manufactured home.

(b) "Use" includes the exercise of any right or power over a manufactured home incident to its ownership and includes the incorporation of any manufactured home into real estate or into improvements on real estate.

(c) If a sales or use tax has previously been paid on the manufactured home in any state, credit in the amount of the tax may be taken against any use tax due on the manufactured home under this chapter. If the sales tax imposed by this chapter has previously been paid to the manufacturer, no use tax is due or payable.

(d) The person to whom or for whom the manufactured home is sold, shipped, or consigned in this state is liable for, and shall pay the use tax on 65 percent of the sales price of the manufactured home as set forth in the actual invoice, bill of sale, or other document transferring title. It is presumed that the manufactured home was sold, shipped, or consigned for use or occupancy in this state. If a manufactured home has been registered or titled in another state for a period of at least one year, as shown by a certificate or document of title, it is presumed that the manufactured home was not purchased for use in this state and no use tax is due.

[Added by Acts 1981, 67th Leg., p. 2754, ch. 752, § 2(a), eff. March 1, 1982.]

The cost of the manufactured home to the person is the sales price for purposes of determining the amount of tax for which the person is liable.

[Added by Acts 1981, 67th Leg., p. 2754, ch. 752, § 2(a), eff. March 1, 1982.]

SUBCHAPTER D. ENFORCEMENT

§ 171.106. **Determination of Amount of Taxable Capital Allocated to This State**

The part of a corporation's taxable capital that is allocated to this state and that is used to determine the amount of the tax imposed by this chapter is equal to the corporation's total taxable capital multiplied by a fraction, the numerator of which is the corporation's gross receipts from business done in this state and the denominator of which is the corporation's gross receipts from its entire business.

The term includes a mechanical or chemical device that has the ability to store solar-generated energy for use in heating or cooling or in the production of power.

(b) A corporation may deduct from its taxable capital allocated to this state the amortized cost of a solar energy device if:

(4) cover only a period in which the device is in use in this state.

(d) A corporation that makes a deduction under this section shall file with the comptroller an amortization schedule showing the period in which a deduction is to be made. If the allocation and apportionment provisions of Sections 171.103, 171.104, 171.105, and 171.106 of this code do not fairly represent the extent of the corporation's business done in this state, the corporation is entitled to request and the comptroller may grant permission for the corporation to use, with respect to all or any part of the corporation's business activity, an alternate allocation and apportionment method by:

(1) a separate accounting;

(b) Payment of the tax covering the second period is due on the same date as the tax covering the initial period.

(c) Payment of the tax covering the regular annual period is due June 15 of each year. However, if the first anniversary of the date that the corporation files its charter or is granted its certificate of authority is after December 31 and before May 1, the payment of the tax covering the first regular annual period is due on the same date as the tax covering the initial period.

[Acts 1981, 67th Leg., p. 1699, ch. 389, § 1, eff. Jan. 1, 1982.]

**§ 171.153. Business on Which Tax is Based**

(b) The tax covering the second period is based on the same business on which the tax covering the initial period is based and is to be prorated based on the length of the second period.

(c) The tax covering the regular annual period is based on the business done by the corporation during its fiscal year that ends in the year before the year in which the tax is due. However, if the first anniversary of the date that the corporation files its charter or is granted its certificate of authority is after December 31 and before May 1, the tax covering the first regular annual period is based on the same business on which the tax covering the initial period is based.

The deposit is to be used to ensure that the foreign corporation files each report required by this chapter and pays any filing fee, tax, penalty, or interest imposed by this chapter.

(c) If a foreign corporation's certificate of authority is forfeited under this chapter, the tax deposit is forfeited. The forfeiture of the deposit does not bar the state's recovery of the amount of the tax due under this chapter that is in excess of the amount of the forfeited deposit. However, if the foreign corporation pays the amount of the tax due under this chapter and files each tax report required by this chapter, the comptroller shall refund to the corporation the amount of the deposit in excess of any tax, penalty, and interest due under this chapter.

#### SUBCHAPTER A. GENERAL PROVISIONS

### § 201.001. Definitions

In this chapter:

(1) "Casinghead gas" means gas or vapor indigenous to an oil stratum and produced from the stratum with oil.

(2) "Condensate" means liquid hydrocarbon that is or can be recovered from gas by a separator, but does not include liquid hydrocarbon recovered from gas by refrigeration or absorption and separated by a fractionating process.

(3) "First purchaser" means a person who purchases gas from a producer.

(4) "Gas" means natural gas, casinghead gas, or other gas taken from the earth or water, whether produced from a gas well or a well also producing oil, distillate or condensate or both, or other products.

(5) "Producer" means a person who takes gas from the earth or water, a person who owns, controls, manages, or leases a gas well, or a person who owns an interest, including a royalty interest, in gas or its value, whether the gas is produced by the person owning the interest or by another on his behalf by lease, contract, or other arrangement.

(6) "Production" or "gas produced" means the gross amount of gas taken from the earth or water as determined by meter readings that show 100 percent of the gas taken expressed in cubic feet.

(7) "Royalty interest" means an interest in mineral rights in a producing leasehold in the state, but does not include the interest of the person having the management and operation of a well.

(8) "Sour gas" means gas with more than 1½ grains of hydrogen sulfide per 100 cubic feet or more than 30 grains of sulphur per 100 cubic feet.

(9) "Subsequent purchaser" means a person who purchases gas from a person other than the producer of the gas.

(10) "Sweet gas" means gas other than sour gas or casinghead gas.

[Acts 1981, 67th Leg., p. 1728, ch. 389, § 1, eff. Jan. 1, 1982.]

§ 201.002. Measurement of Volume of Gas

The provisions of Section 91.052 of the Standard Gas Measurement Law, Subchapter C, Chapter 91, Natural Resources Code, apply to this code.

[Acts 1982, 67th Leg., p. 1729, ch. 389, § 1, eff. Jan. 1, 1982.]

[Sections 201.003 to 201.050 reserved for expansion]

SUBCHAPTER B. TAX IMPOSED

§ 201.051. Tax Imposed

There is imposed a tax on each producer of gas. [Acts 1981, 67th Leg., p. 1729, ch. 389, § 1, eff. Jan. 1, 1982.]

§ 201.052. Rate of Tax

(a) The tax imposed by this chapter is at the rate of 7.5 percent of the market value of gas produced and saved in this state by the producer.

(b) The minimum tax rate on sweet and sour gas produced and saved in this state is 121/1,500 on one cent for each 1,000 cubic feet.

[Acts 1981, 67th Leg., p. 1729, ch. 389, § 1, eff. Jan. 1, 1982.]

§ 201.053. Gas Not Taxed

The tax imposed by this chapter does not apply to gas:

(1) injected into the earth in this state, unless sold for that purpose;

(2) produced from oil wells with oil and lawfully vented or flared; or

(3) used for lifting oil, unless sold for that purpose.

[Acts 1981, 67th Leg., p. 1729, ch. 389, § 1, eff. Jan. 1, 1982.]

§ 201.054. Tax on Liquid Hydrocarbons

(a) There is imposed on each producer a tax on the market value of liquid hydrocarbons, other than condensate, recovered from gas produced in the state by a producer.

(b) The rate of the tax imposed by this section is the same as the rate of the tax imposed by Section 201.052 of this code.

[Acts 1981, 67th Leg., p. 1729, ch. 389, § 1, eff. Jan. 1, 1982.]

§ 201.055. Tax on Condensate

(a) There is imposed on each producer a tax measured by the amount of condensate recovered from gas produced in this state by a producer.

(b) The tax imposed by this section is at the same rate as the rate of the tax imposed on oil by Section 202.052 of this code.

[Acts 1981, 67th Leg., p. 1729, ch. 389, § 1, eff. Jan. 1, 1982.]

[Sections 201.056 to 201.100 reserved for expansion]

SUBCHAPTER C. DETERMINING VALUE

§ 201.101. Market Value

The market value of gas is its value at the mouth of the well from which it is produced.

[Acts 1981, 67th Leg., p. 1730, ch. 389, § 1, eff. Jan. 1, 1982.]

§ 201.102. Cash Sales

If gas is sold for cash only, the tax shall be computed on the producer's gross cash receipts. Payments from a purchaser of gas to a producer for the purpose of reimbursing the producer for taxes due under this chapter are not part of the gross cash receipts.

[Acts 1981, 67th Leg., p. 1730, ch. 389, § 1, eff. Jan. 1, 1982.]

**§ 201.103. Value if Consideration Includes Extracts**

If the consideration for the sale of gas includes products extracted from the gas, a portion of the residue gas, or both, the tax shall be computed on the gross value of all things of value received by the producer, including a bonus or premium.

[Acts 1981, 67th Leg., p. 1730, ch. 389, § 1, eff. Jan. 1, 1982.]

**§ 201.104. Returned Cycle Gas**

(a) If gas is processed for its liquid hydrocarbon content and the residue gas is returned to a gas-producing formation by cycling methods, as distinguished from repressuring or pressure maintenance methods, the taxable value of the gas is three-fifths the value of all liquid hydrocarbons extracted, separated, and saved from the gas.

(b) The value of the liquid hydrocarbons for the purpose of this section is the highest posted price of crude oil in the field where the gas is produced. If no oil is produced in that field, the value is the highest posted price for crude oil in the nearest oil field.

(c) The value of the liquid hydrocarbons is determined when they are extracted and separated from gas and before they are absorbed, refined, or processed. The quantity of the liquid hydrocarbons is the yield from the gas at the processing plant.

(d) The valuation method prescribed by this section controls over the valuation methods described in Sections 201.102 and 201.103 of this code only in circumstances in which Subsection (a) of this section applies.

[Acts 1981, 67th Leg., p. 1730, ch. 389, § 1, eff. Jan. 1, 1982.]

**§ 201.105. Value of Liquid Hydrocarbons Other Than Condensate**

The taxable value of liquid hydrocarbons other than condensate is the producer's total gross receipts for all liquid hydrocarbons, including condensate, recovered from gas produced by him less the taxable value of the condensate recovered from that gas.

[Acts 1981, 67th Leg., p. 1730, ch. 389, § 1, eff. Jan. 1, 1982.]

**§ 201.106. Value of Condensate**

The value of condensate for the purpose of computing the tax due on it is the prevailing price for condensate in the general area where it is recovered.

[Acts 1981, 67th Leg., p. 1730, ch. 389, § 1, eff. Jan. 1, 1982.]

[Sections 201.107 to 201.150 reserved for expansion]

SUBCHAPTER D. RECORDS

**§ 201.151. Producer's Records**

A producer shall keep accurate records of all gas the producer produces. The records shall be kept in the state.

[Acts 1981, 67th Leg., p. 1731, ch. 389, § 1, eff. Jan. 1, 1982.]

[Acts 1981, 67th Leg., p. 1731, ch. 389, § 1, eff. Jan. 1, 1982.]

**§ 201.202. Payment of Tax**

The tax imposed by this chapter must be paid by legal tender or cashier's check payable to the state treasurer.

[Acts 1981, 67th Leg., p. 1731, ch. 389, § 1, eff. Jan. 1, 1982.]

**§ 201.203. Producer's Report**

(a) On or before the last day of each calendar month, each producer shall file a report with the comptroller on forms prescribed by the comptroller. The report must contain the following information concerning gas produced during the preceding calendar month:

- (1) the gross amount of gas produced that is subject to the tax imposed by this chapter;
- (2) the leases from which the gas was produced;
- (3) the names and addresses of the first purchasers of the gas; and
- (4) other information the comptroller may reasonably require.

(b) If the producer is required to pay a tax on gas reported under this section, the producer shall pay the tax when he files the report.

[Acts 1981, 67th Leg., p. 1731, ch. 389, § 1, eff. Jan. 1, 1982.]

**§ 201.204. First Purchaser to Pay Tax**

(a) A first purchaser shall pay the tax imposed by this chapter on gas that the first purchaser purchases from a producer and takes delivery on the premises where the gas is produced.

(b) A first purchaser shall withhold from payments to the producer the amount of the tax that the first purchaser is required to pay. This subsection does not affect a lease or contract between the state or a political subdivision of the state and a producer.

(c) Money withheld by a first purchaser under this section is held in trust for the use and benefit of the state and may not be commingled with other funds of the first purchaser.

[Acts 1981, 67th Leg., p. 1731, ch. 389, § 1, eff. Jan. 1, 1982.]

**§ 201.205. Tax Borne Ratably**

The tax shall be borne ratably by all interested parties, including royalty interests. Producers or purchasers of gas, or both, are authorized and required to withhold from any payment due interested parties the proportionate tax due and remit it to the comptroller.

[Acts 1981, 67th Leg., p. 1731, ch. 389, § 1, eff. Jan. 1, 1982.]

**§ 201.206. Transfer of Ownership**

(a) If a gas-producing lease is transferred or is to be transferred, the producer transferring the lease shall note the name and address of the producer acquiring the lease and the date of the transfer on the last report that covers the lease and that he is required by Section 201.203 of this code to file.

(b) If a gas-producing lease is transferred, the producer acquiring the lease shall note the date of the transfer and the name and address of the person from whom the lease was acquired on the first report that covers the lease and that he is required by Section 201.203 of this code to file.

[Acts 1981, 67th Leg., p. 1732, ch. 389, § 1, eff. Jan. 1, 1982.]

[Sections 201.207 to 201.250 reserved for expansion]

**SUBCHAPTER F. LIABILITY FOR TAX**

**§ 201.251. Liability of Producer and Purchaser**

The tax imposed by this chapter is the primary liability of the producer and is a liability of the first purchaser and each subsequent purchaser. Failure of the first purchaser to pay the tax does not relieve the producer or a subsequent purchaser from liability for the tax. A purchaser of gas produced in the state shall satisfy himself that the tax on that gas has been or will be paid by the person liable for the tax.

[Acts 1981, 67th Leg., p. 1732, ch. 389, § 1, eff. Jan. 1, 1982.]

**§ 201.252. Producer's Remedy**

If a purchaser withholds the amount of the tax imposed by this chapter from payments to a producer for the sale of gas and fails to pay the tax as

provided by this chapter, the producer may sue the purchaser to recover the amount of the tax withheld, penalties and interest that have accrued from failure to pay the tax, court costs, and reasonable attorney's fees.

[Acts 1981, 67th Leg., p. 1732, ch. 389, § 1, eff. Jan. 1, 1982.]

[Sections 201.253 to 201.300 reserved for expansion]

**SUBCHAPTER G. ENFORCEMENT**

**§ 201.301. Investigations**

The comptroller may enter the premises of a taxpayer liable for a tax imposed by this chapter or any other premises necessary to determine tax liability in order to examine books or records of a person subject to a tax imposed by this chapter or to secure any information related to the enforcement of this chapter.

[Acts 1981, 67th Leg., p. 1732, ch. 389, § 1, eff. Jan. 1, 1982.]

**§ 201.302. Audits**

(a) The comptroller shall employ auditors and other technical assistants to verify reports and investigate the affairs of producers and purchasers to determine whether the tax is properly reported and paid.

(b) A producer who has failed to pay the proper amount of tax, a penalty, or interest due is liable for the reasonable expenses incurred by representatives of the comptroller in the investigation or the reasonable value of their services. The amount for which the producer is liable under this subsection is an additional penalty.

[Acts 1981, 67th Leg., p. 1732, ch. 389, § 1, eff. Jan. 1, 1982.]

**§ 201.303. Tax Lien**

(a) If a tax imposed by this chapter is delinquent or if interest or a penalty on a delinquent tax has not been paid, the state has a prior lien for the tax, penalty, and interest on all property and equipment used by the producer to produce gas.

(b) The lien may be enforced by a suit filed by the attorney general. Venue of the suit is in Travis County.

[Acts 1981, 67th Leg., p. 1733, ch. 389, § 1, eff. Jan. 1, 1982.]

(c) Property of a resident includes real property having an actual situs in this state whether or not held in trust; tangible personal property having an actual situs in this state; and all intangible personal property, wherever the notes, bonds, stock certificates, or other evidence, if any, of the intangible personal property may be physically located or wherever the banks or other debtors of the decedent may be located or domiciled; except that real property in a personal trust is not taxed if the real property has an actual situs outside this state.

### Definitions

Sec. 1. In this Act:

(1) "Tax collector" means the county tax assessor-collector.

(2) "Check" means an instrument signed by the maker; containing an unconditional promise

or order to pay a sum certain in money and containing no other promise, order, obligation, or power given by the maker; payable on demand; and drawn on a bank.

(3) "Maker" means the drawer of a check.

### Acceptance of Check for Payment of Certain Fees Permitted

Sec. 2. A tax collector may, but is not required to, accept a check for the payment of motor vehicle registration fees (Article 6675a-1 et seq., Vernon's Texas Civil Statutes); motor vehicle sales taxes imposed by Chapter 6, Title 122A, Taxation-General, Revised Civil Statutes of Texas, 1925; occupation taxes paid to the tax collector under Chapter 19, Title 122A, Taxation-General, Revised Civil Statutes of Texas, 1925; motor vehicle title transfer fees under the Certificate of Title Act (Article 6687-1, Vernon's Texas Civil Statutes); license or permit fees under the Texas Liquor Control Act (Article 666-1 et seq., Vernon's Texas Penal Auxiliary Laws), and property taxes.

### Issuance Conditional on Bank's Honoring Check

Sec. 3. The acceptance of a check for the payment of taxes and fees listed in Section 2 of this Act does not constitute payment of the tax or fee, and the tax or fee is not considered paid until the check is honored by the bank on which the check is drawn. This section does not prohibit a tax collector from issuing receipts, license plates, certificates, or other instruments on the receipt of a check, but the issuance is conditional on the payment of the check by the drawee bank.

### Identification Required

Sec. 4. When a tax collector receives a check as conditional payment of a tax or fee listed in Section 2 of this Act, he shall require adequate identification of the maker and note on the check or otherwise record the type of identification of the maker and information from the identification to assist in locating the maker in the event the check is not honored.

### Liability of Tax Collector and Bondsman

Sec. 5. Except as provided in Section 8 of this Act, a tax collector and his bondsman are not liable for the amount of any taxes and fees for which the tax collector has accepted a check that is not honored by the drawee bank if the tax collector complied with the requirements of Section 4 of this Act and if the tax collector did not know or should not reasonably have known that the check was not properly drawn or that it would not be honored.

### Procedures for Collection of Dishonored Checks

Sec. 6. A tax collector may establish procedures for the collection of dishonored checks. The procedures may include:

(1) official notification to the maker that the check has not been honored and that the receipt, registration, certificate, or other instrument issued on the receipt of the check is not valid until payment of the tax or fee is made;

(2) notification of the sheriff or other law enforcement officers that a check has not been honored and that the receipt, registration, certificate, or other instrument held by the maker is not valid; and

(3) notification to the State Department of Highways and Public Transportation, the State Comptroller of Public Accounts, or the Department of Public Safety that the receipt, registration, certificate, or instrument held by the maker is not valid.

Dishonored Checks; Remission Not Required; Notice; Assistance in Collection

Sec. 7. If taxes and fees listed in Section 2 of this Act are required to be remitted to the State Comptroller of Public Accounts or the State Department of Highways and Public Transportation and if payment was made to the tax collector by a check that was not honored by the drawee bank, the amount of the tax or fee is not required to be remitted, but the tax collector shall notify the appropriate department of the amount of the fee or tax, the type of fee or tax involved, and the name and address of the maker. The State Department of Highways and Public Transportation and the State Comptroller of Public Accounts shall assist the tax collector in collecting the fee or tax and may cancel or revoke any receipt, registration, certificate, or instrument issued in the name of the state conditioned on the payment of the fee or tax.

Liability of Tax Collector for Violations of Act

Sec. 8. If the State Comptroller of Public Accounts or the State Department of Highways and Public Transportation determines that the tax collector of a county has accepted payment for fees and taxes to be remitted to that department in violation of Section 4 of this Act or that more than two percent of the fees and taxes to be received from the tax collector are not remitted because of the acceptance of checks that are not honored by the drawee bank, the department may notify the tax collector that he may not accept a check for the payment of any fee or tax to be remitted to that department. A tax collector who, after notice that he may not receive a check for the payment of fees or taxes to be remitted to a department, accepts a check for the payment of a fee or tax, is liable to the state for the amount of the check accepted.

Rules for Acceptance of Checks and Collection of Dishonored Checks

Sec. 9. The State Comptroller of Public Accounts and the State Department of Highways and Public Transportation may make rules concerning the acceptance of checks by tax collectors and for the collection of dishonored checks.

SUBCHAPTER B. RIGHTS IN STATE WATER

**§ 11.021. State Water**

(a) The water of the ordinary flow, underflow, and tides of every flowing river, natural stream, and lake, and of every bay or arm of the Gulf of Mexico, and the storm water, floodwater, and rainwater of every river, natural stream, canyon, ravine, depression, and watershed in the state is the property of the state.

(b) Water imported from any source outside the boundaries of the state for use in the state and which is transported through the beds and banks of any navigable stream within the state or by utilizing any facilities owned or operated by the state is the property of the state.

[Amended by Acts 1977, 65th Leg., p. 2207, ch. 870, § 1, eff. Sept. 1, 1977.]

**§ 11.022. Acquisition of Right to Use State Water**

The right to the use of state water may be acquired by appropriation in the manner and for the purposes provided in this chapter. When the right to use state water is lawfully acquired, it may be taken or diverted from its natural channel.

[Amended by Acts 1977, 65th Leg., p. 2207, ch. 870, § 1, eff. Sept. 1, 1977.]

**§ 11.023. Purposes for Which Water May be Appropriated**

(a) State water may be appropriated, stored, or diverted for:

(1) domestic and municipal uses, including water for sustaining human life and the life of domestic animals;

(2) industrial uses, meaning processes designed to convert materials of a lower order of value into forms having greater usability and commercial value, including the development of power by means other than hydroelectric;

(3) irrigation;

(4) mining and recovery of minerals;

(5) hydroelectric power;

(6) navigation;

(7) recreation and pleasure;

(8) stock raising;

(9) public parks; and

(10) game preserves.

(b) State water also may be appropriated, stored, or diverted for any other beneficial use.

(c) Unappropriated storm water and floodwater may be appropriated to recharge underground fresh-water bearing sands and aquifers in the portion of the Edwards underground reservoir located within Kinney, Uvalde, Medina, Bexar, Comal, and Hays counties if it can be established by expert testimony that an unreasonable loss of state water will not occur and that the water can be withdrawn at a later time for application to a beneficial use. The normal or ordinary flow of a stream or watercourse may never be appropriated, diverted, or used by a permittee for this recharge purpose.

(d) When it is put or allowed to sink into the ground, water appropriated under Subsection (c) of this section loses its character and classification as storm water or floodwater and is considered percolating groundwater.

(e) The amount of water appropriated for each purpose mentioned in this section shall be specifically appropriated for that purpose, subject to the preferences prescribed in Section 11.024 of this code.

(f) The water of any arm, inlet, or bay of the Gulf of Mexico may be changed from salt water to sweet or fresh water and held or stored by dams, dikes, or other structures and may be taken or diverted for any purpose authorized by this chapter.

[Amended by Acts 1977, 65th Leg., p. 2207, ch. 870, § 1, eff. Sept. 1, 1977.]

The text of this section incorporates the amendment to former § 5.023 by Acts 1977, 65th Leg., p. 249, ch. 116, § 1.

**§ 11.024. Appropriation: Preferences**

In order to conserve and properly utilize state water, the public welfare requires not only recognition of beneficial uses but also a constructive public policy regarding the preferences between these uses, and it is therefore declared to be the public policy of this state that in appropriating state water preference shall be given to the following uses in the order named:

(1) domestic and municipal uses, including water for sustaining human life and the life of domestic animals;

(2) industrial uses, meaning processes designed to convert materials of a lower order of value into forms having greater usability and commercial value, including the development of power by means other than hydroelectric;

(3) irrigation;

- (4) mining and recovery of minerals;
- (5) hydroelectric power;
- (6) navigation;
- (7) recreation and pleasure; and
- (8) other beneficial uses.

[Amended by Acts 1977, 65th Leg., p. 2207, ch. 870, § 1, eff. Sept. 1, 1977.]

#### § 11.025. Scope of Appropriative Right

A right to use state water under a permit or a certified filing is limited not only to the amount specifically appropriated but also to the amount which is being or can be beneficially used for the purposes specified in the appropriation, and all water not so used is considered not appropriated.

[Amended by Acts 1977, 65th Leg., p. 2207, ch. 870, § 1, eff. Sept. 1, 1977.]

#### § 11.026. Perfection of an Appropriation

No right to appropriate water is perfected unless the water has been beneficially used for a purpose stated in the original declaration of intention to appropriate water or stated in a permit issued by the commission or one of its predecessors.

[Amended by Acts 1977, 65th Leg., p. 2207, ch. 870, § 1, eff. Sept. 1, 1977.]

#### § 11.027. Rights Between Appropriators

As between appropriators, the first in time is the first in right.

[Amended by Acts 1977, 65th Leg., p. 2207, ch. 870, § 1, eff. Sept. 1, 1977.]

#### § 11.028. Exception

Any appropriation made after May 17, 1931, for any purpose other than domestic or municipal use is subject to the right of any city or town to make further appropriations of the water for domestic or municipal use without paying for the water. However, this section does not apply to any stream which constitutes or defines the international boundary between the United States of America and the Republic of Mexico.

[Amended by Acts 1977, 65th Leg., p. 2207, ch. 870, § 1, eff. Sept. 1, 1977.]

#### § 11.029. Title to Appropriation by Limitation

When an appropriator from a source of water supply has used water under the terms of a certified filing or a permit for a period of three years, he acquires title to his appropriation by limitation against any other claimant of water from the same source of water supply and against any riparian owner on the same source of water supply.

[Amended by Acts 1977, 65th Leg., p. 2207, ch. 870, § 1, eff. Sept. 1, 1977.]

#### § 11.030. Forfeiture of Appropriation

If any lawful appropriation or use of state water is wilfully abandoned during any three successive

years, the right to use the water is forfeited and the water is again subject to appropriation.

[Amended by Acts 1977, 65th Leg., p. 2207, ch. 870, § 1, eff. Sept. 1, 1977.]

#### § 11.031. Annual Report

(a) Not later than March 1 of every year, every person who takes water during the preceding calendar year from a stream or reservoir shall submit a written report to the department on a form prescribed by the department. The report shall contain all information required by the department to aid in administering the water law and in making inventory of the state's water resources. However, with the exception of public utilities and political subdivisions which furnish water for municipal uses, no report is required of persons who take water solely for domestic or livestock purposes.

(b) A person who fails to file an annual report with the department as required by this section is liable to a penalty of \$25, plus \$1 per day for each day he fails to file the statement after March 1. However, the maximum penalty under this section is \$150. The state may sue to recover the penalty.

[Amended by Acts 1977, 65th Leg., p. 2207, ch. 870, § 1, eff. Sept. 1, 1977.]

#### § 11.032. Records

(a) A person who owns and operates a system of waterworks used for a purpose authorized by this code shall keep a detailed record of daily operations so that the quantity of water taken or diverted each calendar year can be determined.

(b) If the water is used for irrigation, the record must show the number of acres irrigated, the character of the crops grown, and the yield per acre. No survey is required to determine the exact number of acres irrigated.

[Amended by Acts 1977, 65th Leg., p. 2207, ch. 870, § 1, eff. Sept. 1, 1977.]

#### § 11.033. Eminent Domain

The right to take water necessary for domestic and municipal supply purposes is primary and fundamental, and the right to recover from other uses water which is essential to domestic and municipal supply purposes is paramount and unquestioned in the policy of the state. All political subdivisions of the state and constitutional governmental agencies exercising delegated legislative powers have the power of eminent domain to be exercised as provided by law for domestic, municipal, and manufacturing uses and for other purposes authorized by this code, including the irrigation of land for all requirements of agricultural employment.

[Amended by Acts 1977, 65th Leg., p. 2207, ch. 870, § 1, eff. Sept. 1, 1977.]

#### § 11.034. Reservoir Site: Land and Rights-of-Way

An appropriator who is authorized to construct a dam or reservoir is granted the right-of-way, not to

exceed 100 feet wide, and the necessary area for the site, over any public school land, university land, or asylum land of this state and the use of the rock, gravel, and timber on the site and right-of-way for construction purposes, after paying compensation as determined by the commission. An appropriator may acquire the reservoir site and rights-of-way over private land by contract.

[Amended by Acts 1977, 65th Leg., p. 2207, ch. 870, § 1, eff. Sept. 1, 1977.]

**§ 11.035. Condemnation of Private Property**

(a) An appropriator may obtain rights-of-way over private land and may obtain the land necessary for pumping plants, intakes, headgates, and storage reservoirs by condemnation.

(b) The party obtaining private property by condemnation shall cause damages to be assessed and paid for as provided by the statutes of this state relating to eminent domain.

(c) If the party exercising the power granted by this section is not a corporation, district, city, or town, he shall apply to the department for the condemnation.

(d) The executive director shall have the proposed condemnation investigated. After the investigation, the commission may give notice to the party owning the land proposed to be condemned and hold a hearing on the proposed condemnation.

(e) If after a hearing the commission determines that the condemnation is necessary, the executive director may institute condemnation proceedings in the name of the State of Texas for the use and benefit of the party who applied for the condemnation and all others similarly situated.

(f) The parties at whose instance a condemnation suit is instituted shall pay the costs of the suit and condemnation in proportion to the benefits received by each party as fixed by the commission. Before using any of the condemned rights or property, a party receiving the rights or property shall pay the amount of costs fixed by the commission.

(g) If, after the costs of the condemnation proceedings have been paid, a party seeks to take the benefits of the condemnation proceedings, he shall apply to the department for the benefits. The commission may grant the application and fix the fees and charges to be paid by the applicant.

[Amended by Acts 1977, 65th Leg., p. 2207, ch. 870, § 1, eff. Sept. 1, 1977.]

**§ 11.036. Conserved or Stored Water: Supply Contract**

(a) A person, association of persons, corporation, or water improvement or irrigation district having in possession and control any storm water, floodwater, or rainwater that is conserved or stored as authorized by this chapter may contract to supply the water to any person, association of persons, corporation, or water improvement or irrigation district having the right to acquire use of the water.

(b) The price and terms of the contract shall be just and reasonable and without discrimination, and the contract is subject to the same revision and control as provided in this code for other water rates and charges. If any person uses the stored or conserved water without first entering into a contract with the party that conserved or stored it, the user shall pay for the use at a rate determined by the commission to be just and reasonable, subject to court review as in other cases.

[Amended by Acts 1977, 65th Leg., p. 2207, ch. 870, § 1, eff. Sept. 1, 1977.]

**§ 11.037. Water Suppliers: Rules and Regulations**

Every person, association of persons, corporation, or irrigation district conserving or supplying water for any of the purposes authorized by this chapter shall make and publish reasonable rules and regulations relating to:

- (1) the method of supply;
- (2) the use and distribution of the water; and
- (3) the procedure for applying for the water and paying for it.

[Amended by Acts 1977, 65th Leg., p. 2207, ch. 870, § 1, eff. Sept. 1, 1977.]

**§ 11.038. Rights of Owners of Land Adjoining Canal, Etc.**

(a) A person who owns or holds a possessory interest in land adjoining or contiguous to a canal, ditch, flume, lateral, dam, reservoir, or lake constructed and maintained under the provisions of this chapter and who has secured a right to the use of water in the canal, ditch, flume, lateral, dam, reservoir, or lake is entitled to be supplied from the canal, ditch, flume, lateral, dam, reservoir, or lake with water for irrigation of the land and for mining, milling, manufacturing, development of power, and stock raising, in accordance with the terms of his contract.

(b) If the person, association of persons, or corporation owning or controlling the water and the person who owns or holds a possessory interest in the adjoining land cannot agree on a price for a permanent water right or for the use of enough water for irrigation of the person's land or for mining, milling, manufacturing, development of power, or stock raising, then the party owning or controlling the water, if he has any water not contracted to others, shall furnish the water necessary for these purposes at reasonable and nondiscriminatory prices.

(a) If a shortage of water in a water supply results from drouth, accident, or other cause, the water to be distributed shall be divided among all customers pro rata, according to the amount each may be entitled to, so that preference is given to no one and everyone suffers alike.

(b) Nothing in Subsection (a) of this section precludes the person, association of persons, or corporation owning or controlling the water from supplying water to a person who has a prior vested right to the water under the laws of this state.

(1) that he is entitled to receive or use the water;

(2) that he is willing and able to pay a just and reasonable price for the water;

(3) that the party owning or controlling the water supply has water not contracted to others and available for the petitioner's use; and

(4) that the party owning or controlling the water supply fails or refuses to supply the available water to the petitioner, or that the price or rental demanded for the available water is not reasonable and just or is discriminatory.

(b) If the petition is accompanied by a deposit of \$25, the executive director shall have a preliminary investigation of the complaint made and determine whether or not there are probable grounds for the complaint.

(c) If, after preliminary investigation, the executive director determines that probable grounds exist for the complaint, the commission shall enter an order setting a time and place for a hearing on the petition.

(d) The commission may require the complainant to make an additional deposit or execute a bond satisfactory to the commission in an amount fixed by the commission conditioned on the payment of all costs of the proceeding.

(e) At least 20 days before the date set for the hearing, the commission shall transmit by registered mail a certified copy of the petition and a certified

Approval of the construction plans and specifications shall be obtained from the owner of the road or highway prior to the installation of conveyance facilities.

(b) If any public road, highway, or public bridge is located on the ground necessary for a damsite, reservoir, or lake, the commissioners court shall change the road and remove the bridge so that it does not

If the commission believes that the efficient operation of any existing or proposed irrigation system may be adversely affected by lack of adequate drainage facilities incident to the work proposed to be done by an applicant, the commission may require the applicant to submit to the executive director for approval plans for drainage adequate to guard against any injury which the proposed work may entail.

[Amended by Acts 1977, 65th Leg., p. 2207, ch. 870, § 1, eff. Sept. 1, 1977; Acts 1981, 67th Leg., p. 961, ch. 367, § 1, eff. June 10, 1981.]

### § 11.128. Payment of Fee

(a) The executive director shall have all applications for appropriations recorded in a well-bound book kept for that purpose in the department's office.

(b) The executive director shall have the applications indexed alphabetically in the name of:

(1) the applicant;

(2) the stream or source from which the appropriation is sought to be made; and

(3) the county in which the appropriation is sought to be made.

[Amended by Acts 1977, 65th Leg., p. 2207, ch. 870, § 1, eff. Sept. 1, 1977.]

### § 11.131. Examination and Denial of Application Without Hearing

(a) The commission shall make a preliminary examination of the application, and if it appears that there is no unappropriated water in the source of supply or that the proposed appropriation should not be allowed for other reasons, the commission may deny the application.

(b) If the commission denies the application under this section and the applicant elects not to proceed further, the commission may order any part of the fee submitted with the application returned to the applicant.

[Amended by Acts 1977, 65th Leg., p. 2207, ch. 870, § 1, eff. Sept. 1, 1977.]

(e) The commission shall also mail a copy of the notice by first-class mail, postage prepaid, to each claimant or appropriator of water from the source of water supply, the record of whose claim or appropriation has been filed in the office of the commission. The notice shall also be mailed by first-class mail, postage prepaid, to all navigation districts within the watershed concerned. The inadvertent failure of the commission to mail a notice to a navigation district which is not a claimant or appropriator of water does not prevent the hearing on the application.

(f) The notice shall be mailed and first published not less than 20 days before the date set for the hearing.

[Amended by Acts 1977, 65th Leg., p. 2207, ch. 870, § 1, eff. Sept. 1, 1977.]

§ 11.134. Action on Application

- (1) the application conforms to the requirements prescribed by this chapter and is accompanied by the prescribed fee;
- (2) unappropriated water is available in the source of supply; and
- (3) the proposed appropriation:
  - (A) contemplates the application of water to any beneficial use;
  - (B) does not impair existing water rights or vested riparian rights; and
  - (C) is not detrimental to the public welfare.

[Amended by Acts 1977, 65th Leg., p. 2207, ch. 870, § 1, eff. Sept. 1, 1977.]

[Amended by Acts 1977, 65th Leg., p. 2207, ch. 870, § 1, eff. Sept. 1, 1977.]

§ 11.136. Recording of Permit

(b) When the county clerk receives the permit and is paid the recording fee (as prescribed by Article 3930, Revised Civil Statutes of Texas, 1925, as

amended), he shall file and record the permit in a well-bound book kept for that purpose. He shall index the permit alphabetically in the name of the applicant and of the stream or source of water supply. After he has recorded the permit, the county clerk shall deliver the permit, on demand, to the applicant.

(c) When the permit is filed in the office of the county clerk, it is constructive notice of:

- (1) the filing of the application;
- (2) the issuance of the permit; and
- (3) all the rights arising under the filing of the application and the issuance of the permit.

§ 11.138. Temporary Permits

(a) The commission may issue temporary permits for beneficial purposes to the extent that they do not interfere with or adversely affect prior appropriations or vested rights on the stream from which water is to be diverted under such temporary permit. The commission may, by appropriate order, authorize any member of the commission to approve and issue temporary permits without notice and hearing if it appears to such issuing party that sufficient water is available at the proposed point of diversion to satisfy the requirements of the temporary permit as well as all existing rights. No temporary permit issued without notice and hearing shall authorize more than 10 acre-feet of water, nor may it be for a term in excess of one year.

(b) The commission may prescribe rules governing notice and procedure for the issuance of temporary permits.

(c) As between temporary permits, the one applied for first has priority.

(d) The commission may not issue a temporary permit for a period exceeding three calendar years.

(e) A temporary permit does not vest in its holder a permanent right to the use of water.

(f) A temporary permit expires and shall be cancelled by the commission in accordance with the terms of the permit.

(g) The board may prescribe by rule the fees to be paid for issuance of temporary permits, but no fee for issuance or extension of a temporary permit shall exceed \$500.

### § 11.139. Emergency Permits

(a) The commission may grant an emergency permit for the diversion and use of water for a period of not more than 30 days if it finds that emergency conditions exist which threaten the public health, safety, and welfare and which override the necessity to comply with established statutory procedures.

(b) An emergency permit may be granted for a period of not more than 30 days, and no extension or additional emergency permit may be granted at the expiration of the original permit.

(c) An emergency permit may be granted under this section without the necessity to comply with statutory and other procedures required for granting other permits issued by the commission.

(d) The board may prescribe rules and adopt fees which are necessary to carry out the provisions of this section.

(e) An emergency permit does not vest in the permittee any right to the diversion and use of water and shall expire and be cancelled in accordance with its terms.

[Amended by Acts 1977, 65th Leg., p. 2207, ch. 870, § 1, eff. Sept. 1, 1977.]

### § 11.140. Permits for Storage for Project Development

The commission may issue permits for storage solely for the purpose of optimum development of projects. The commission may convert these permits to permits for beneficial use if application to have them converted is made to the commission.

A detailed statement and plans for alterations or changes shall be filed with the department and approved by the executive director before the alterations or changes are made. This section does not apply to the ordinary maintenance or emergency repair of the facility.

[Amended by Acts 1977, 65th Leg., p. 2207, ch. 870, § 1, eff. Sept. 1, 1977; Acts 1981, 67th Leg., p. 3150, ch. 828, § 1, eff. June 17, 1981.]

(b) After beginning construction if the appropriator fails to work diligently and continuously to the completion of the work, the appropriation is subject to cancellation in whole or part, subject to notice and hearing as prescribed by this section.

(c) If the commission believes that an appropriation or permit should be declared forfeited under this section or any other sections of this code, it should give the appropriator or permittee 30 days notice and provide him with an opportunity to be heard.

(d) After the hearing, the commission by entering an order of record may cancel the appropriation in whole or part. The commission shall immediately transmit a certified copy of the cancellation order by certified mail to the county clerk of the county in which the permit is recorded. (f) Except as provided by Subchapter E of this chapter, none of the provisions of this code may be construed as intended to impair, cause, or authorize or may impair, cause, or authorize the forfeiture of any rights acquired by any declaration of appropriation or by any permit if the appropriator has begun or begins the work and development contemplated by his declaration of appropriation or permit within the time provided by the law under which the declaration of appropriation was made or the permit was granted and has prosecuted or continues to prosecute it with all reasonable diligence toward completion. (3) the holder has not been justified in the nonuse or does not then have a bona fide intention of putting the unused water to an authorized beneficial use within a reasonable time after the hearing.

(b) In determining what constitutes a reasonable time as used in Subsection (a)(3) of this section, the commission shall give consideration to:

(1) the expenditures made or obligations incurred by the holder in connection with the permit, certified filing, or certificate of adjudication;

(2) the purpose to which the water is to be applied;

SUBCHAPTER F. ARTESIAN WELLS

**§ 11.201. Artesian Well Defined**

An artesian well is an artificial water well in which the water, when properly cased, will rise by natural pressure above the first impervious stratum below the surface of the ground.

[Amended by Acts 1977, 65th Leg., p. 2207, ch. 870, § 1, eff. Sept. 1, 1977.]

**§ 11.202. Right to Drill Artesian Well**

A person is entitled to drill an artesian well on his own land for domestic purposes or for stock raising without complying with the general provisions of this code regulating the use of water. However, he shall have the well properly and securely cased, and when water is reached containing mineral or other substances injurious to vegetation or agriculture, he shall have the well securely capped or its flow controlled so as not to injure another person's land or shall fill the well so as to prevent the water from rising above the first impervious stratum below the surface of the ground.

[Amended by Acts 1977, 65th Leg., p. 2207, ch. 870, § 1, eff. Sept. 1, 1977.]

**§ 11.203. Artesian Well: Drilling Record**

(a) A person who drills an artesian well or has one drilled shall keep a complete and accurate record of the depth, thickness, and character of the different

strata penetrated and when the well is completed shall transmit a copy of the record to the department by registered mail.

(b) A person who violates any provision of this section is guilty of a misdemeanor and on conviction is punishable by a fine of not less than \$10 nor more than \$100.

[Amended by Acts 1977, 65th Leg., p. 2207, ch. 870, § 1, eff. Sept. 1, 1977.]

#### § 11.204. Report of New Artesian Well

Within one year after an artesian well is drilled, the owner or operator shall transmit to the department a sworn report stating the result of the drilling operation, the use to which the water will be applied, and the contemplated extent of the use.

[Amended by Acts 1977, 65th Leg., p. 2207, ch. 870, § 1, eff. Sept. 1, 1977.]

#### § 11.205. Wasting Water From Artesian Well

(a) Unless the water from an artesian well is used for a purpose and in a manner in which it may be lawfully used on the owner's land, it is waste to wilfully cause or knowingly permit the water to run off the owner's land or to percolate through the stratum above which the water is found.

(b) It is not waste to use water from an artesian well, if suitable, for proper irrigation of trees on a street, road, or highway or for ornamental ponds or fountains or for the propagation of fish.

(c) A person who commits waste as defined in this section is guilty of a misdemeanor and on conviction is punishable by a fine of not more than \$500 or by confinement in the county jail for not more than 90 days or by both.

[Amended by Acts 1977, 65th Leg., p. 2207, ch. 870, § 1, eff. Sept. 1, 1977.]

#### § 11.206. Improperly Cased Well: Nuisance

An artesian well that is not tightly cased, capped, and furnished with mechanical appliances that readily and effectively prevent water from flowing out of the well and running over the surface of the ground about the well or wasting through the strata through which it passes is a public nuisance and subject to abatement by the executive director.

[Amended by Acts 1977, 65th Leg., p. 2207, ch. 870, § 1, eff. Sept. 1, 1977; Acts 1981, 67th Leg., p. 3150, ch. 828, § 1, eff. June 17, 1981.]

#### § 11.207. Annual Report

(a) Not later than March 1 of each year, a person who during any part of the preceding calendar year owned or operated an artesian well for any purpose other than domestic use shall file a report to the department on a form supplied by the department.

(b) The report shall state:

- (1) the quantity of water which was obtained from the well;
- (2) the nature of the uses to which the water was applied;

(3) the change in the level of the well's water table; and

(4) other information required by the department.

(c) If water from the well was used for irrigation, the report shall also state the acreage and yield of each crop irrigated.

[Amended by Acts 1977, 65th Leg., p. 2207, ch. 870, § 1, eff. Sept. 1, 1977.]

### SUBCHAPTER G. WATER RIGHTS ADJUDICATION ACT

#### § 11.301. Short Title

This subchapter may be cited as the Water Rights Adjudication Act.

[Amended by Acts 1977, 65th Leg., p. 2207, ch. 870, § 1, eff. Sept. 1, 1977.]

#### § 11.302. Declaration of Policy

The conservation and best utilization of the water resources of this state are a public necessity, and it is in the interest of the people of the state to require recordation with the department of claims of water rights which are presently unrecorded, to limit the exercise of these claims to actual use, and to provide for the adjudication and administration of water rights to the end that the surface-water resources of the state may be put to their greatest beneficial use. Therefore, this subchapter is in furtherance of the public rights, duties, and functions mentioned in this section and in response to the mandate expressed in Article XVI, Section 59 of the Texas Constitution and is in the exercise of the police powers of the state in the interest of the public welfare.

[Amended by Acts 1977, 65th Leg., p. 2207, ch. 870, § 1, eff. Sept. 1, 1977; Acts 1981, 67th Leg., p. 961, ch. 367, § 1, eff. June 10, 1981.]

#### § 11.303. Recordation and Limitation of Certain Water Rights Claims

(a) This section applies to:

- (1) claims of riparian water rights;
- (2) claims under Section 11.143 of this code to impound, divert, or use state water for other than domestic or livestock purposes, for which no permit has been issued;

(3) claims of water rights under the Irrigation Acts of 1889 and 1895<sup>1</sup> which were not filed with the State Board of Water Engineers in accordance with the Irrigation Act of 1913,<sup>2</sup> as amended; and

(4) other claims of water rights except claims under permits or certified filings.

(b) Any claim to which this section applies shall be recognized only if valid under existing law and only to the extent of the maximum actual application of water to beneficial use without waste during any calendar year from 1963 to 1967, inclusive. How-

ever, in any case where a claimant of a riparian right has prior to August 28, 1967, commenced or completed the construction of works designed to apply a greater quantity of water to beneficial use, the right shall be recognized to the extent of the maximum amount of water actually applied to beneficial use without waste during any calendar year from 1963 to 1970, inclusive.

(c) On or before September 1, 1969, every person claiming a water right to which this section applies shall file with the department a statement setting forth:

- (1) the name and address of the claimant;
- (2) the location and the nature of the right claimed;
- (3) the stream or watercourse and the river basin in which the right is claimed;
- (4) the date of commencement of works;
- (5) the dates and volumes of use of water; and
- (6) other information the department may require to show the nature and extent of the claim.

(d) A person who files a statement as provided in this section shall certify under oath that the statements made in support of his claim are true and correct to the best of his knowledge and belief.

(e) A claimant who desires recognition of a right based on use from 1968 to 1970, inclusive, as provided in Subsection (b) of this section shall file an additional sworn statement on or before July 1, 1971.

(f) The department shall prescribe forms for the sworn statements required by this section, but use of the department forms is not mandatory.

(g) On or before January 1, 1968, and June 1, 1969, the commission shall cause notice of the requirements of this section to be published once each week for two consecutive weeks in newspapers having general circulation in each county of the state and by first-class mail to each user of surface water who has filed a report of water use with the commission.

(h) On sworn petition, notice, and hearing as prescribed for applications for permits and upon finding of extenuating circumstances and good cause shown for failure to timely file, the commission may authorize the filing of the sworn statement or statements required by this section until entry of a preliminary determination of claims of water rights in accordance with Section 11.309 of this code which includes the area described in the petition or, if a preliminary determination has not been entered, until September 1, 1974.

(i) Since the filing of all claims to use public water is necessary for the conservation and best utilization of the water resources of the state, failure to file a sworn statement in substantial compliance with this section extinguishes and bars any claim of water rights to which this section applies.

(j) A sworn statement submitted under this section is binding on the person submitting it and his

successors in interest, but is not binding on the commission or any other person in interest.

(k) Nothing in this section shall be construed to recognize any water right which did not exist before August 28, 1967.

(l) This section does not apply to use of water for domestic or livestock purposes.

[Amended by Acts 1977, 65th Leg., p. 2207, ch. 870, § 1, eff. Sept. 1, 1977; Acts 1981, 67th Leg., p. 978, ch. 367, § 2, eff. June 10, 1981.]

<sup>1</sup> Acts 1889, 21st Leg., p. 100, ch. 88; Acts 1895, 24th Leg., p. 21, ch. 21.  
<sup>2</sup> Acts 1913, 33rd Leg., p. 358, ch. 1.71.

**§ 11.304. Adjudication of Water Rights**

The water rights in any stream or segment of a stream may be adjudicated as provided in this subchapter:

- (1) on the commission's own motion;
- (2) on petition to the commission signed by 10 or more claimants of water rights from the source of supply; or
- (3) on petition of the executive director.

[Amended by Acts 1977, 65th Leg., p. 2207, ch. 870, § 1, eff. Sept. 1, 1977; Acts 1981, 67th Leg., p. 961, ch. 367, § 1, eff. June 10, 1981.]

**§ 11.305. Investigation**

(a) Promptly after a petition is filed under Section 11.304 of this Code, the commission shall consider whether the adjudication would be in the public interest. If the commission finds that an adjudication would be in the public interest, it shall enter an order to that effect, designating the stream or segment to be adjudicated. The executive director shall have an investigation made of the area involved in order to gather relevant data and information essential to the proper understanding of the claims of water rights involved. The results of the investigation shall be reduced to writing and made a matter of record in the department's office.

(b) In connection with the investigation, the executive director shall have a map or plat made showing with substantial accuracy the course of the stream or segment and the location of reservoirs, diversion works, and places of use, including lands which are being irrigated or have facilities for irrigation.

[Amended by Acts 1977, 65th Leg., p. 2207, ch. 870, § 1, eff. Sept. 1, 1977; Acts 1981, 67th Leg., p. 978, ch. 367, § 3, eff. June 10, 1981.]

**§ 11.306. Notice of Adjudication**

(a) The commission shall prepare a notice of adjudication which describes the stream or segment to be adjudicated and the date by which all claims of water rights in the stream or segment shall be filed with the department. The date shall not be less than 90 days after the date the notice is issued.

(b) The notice shall be published once a week for two consecutive weeks in one or more newspapers having general circulation in the counties in which the stream or segment is located.

(c) The notice shall also be sent by first-class mail to each claimant of water rights whose diversion is within the stream or segment to be adjudicated, to the extent that the claimants can reasonably be ascertained from the records of the department. [Amended by Acts 1977, 65th Leg., p. 2207, ch. 870, § 1, eff. Sept. 1, 1977; Acts 1981, 67th Leg., p. 978, ch. 367, § 4, eff. June 10, 1981.]

#### § 11.307. Filing of Sworn Claims

(a) Every person claiming a water right of any nature, except for domestic or livestock purposes, from the stream or segment under adjudication shall file a sworn claim with the department within the time prescribed in the notice of adjudication, including any extensions of the prescribed time, setting forth:

- (1) the name and post-office address of the claimant;
- (2) the location and nature of the right claimed, including a description of any permit or certified filing under which the claim is made;
- (3) the purpose of the use;
- (4) a description of works and irrigated land; and
- (5) all other information necessary to show the nature and extent of the claim.

(b) The department shall prescribe forms for claims, but use of the department forms is not mandatory.

[Amended by Acts 1977, 65th Leg., p. 2207, ch. 870, § 1, eff. Sept. 1, 1977; Acts 1981, 67th Leg., p. 961, ch. 367, § 1, eff. June 10, 1981.]

#### § 11.308. Hearings on Claims; Notice

The commission shall set a time and a place for hearing all claims. Not less than 30 days before commencement of the hearings, the commission shall give notice of the hearings by certified mail to all persons who have filed claims in accordance with Section 11.307 of this code, or this notice may be included in the notice of adjudication provided in Section 11.306 of this code. The hearings shall be conducted as provided in Section 11.337 of this code. [Amended by Acts 1977, 65th Leg., p. 2207, ch. 870, § 1, eff. Sept. 1, 1977.]

#### § 11.309. Preliminary Determination of Claims

(a) On completion of the hearings, the commission shall make a preliminary determination of the claims to water rights under adjudication.

(b) One copy of the preliminary determination shall be furnished without charge to each person who filed a claim in accordance with Section 11.307 of this code. Additional copies of the preliminary determination shall be made available for public inspection at convenient locations throughout the river basin, as designated by the commission. Copies shall also be made available to other interested persons at a reasonable price, based on the cost of reproduction.

[Amended by Acts 1977, 65th Leg., p. 2207, ch. 870, § 1, eff. Sept. 1, 1977.]

#### § 11.310. Evidence Open to Inspection

All evidence presented to or considered by the commission shall be open to public inspection for a period of not less than 60 days, as fixed by the commission, after the notice prescribed in Section 11.312 of this code is issued.

[Amended by Acts 1977, 65th Leg., p. 2207, ch. 870, § 1, eff. Sept. 1, 1977.]

#### § 11.311. Date for Filing Contests

The commission shall set a date for filing contests on the preliminary determination, which date shall not be less than 30 days after the period for public inspection of the evidence has closed.

[Amended by Acts 1977, 65th Leg., p. 2207, ch. 870, § 1, eff. Sept. 1, 1977.]

#### § 11.312. Notice of Preliminary Determination; Copies

(a) Promptly after the preliminary determination is made as provided in Section 11.309 of this code, the commission shall publish notice of the determination once a week for two consecutive weeks in one or more newspapers having general circulation in the river basin in which the stream or segment that is the subject of the adjudication is located.

(b) The commission shall also send notice by first-class mail to each claimant of water rights within the river basin in which the stream or segment is located, to the extent that the claimants can be reasonably ascertained from the records of the department.

(c) Each notice shall state:

(1) the place and the period of time that the preliminary determination and evidence presented to or considered by the commission will be open for public inspection;

(2) the locations throughout the river basin where copies of the preliminary determination will be available for public inspection;

(3) the method of ordering copies of the preliminary determination and the charge for copies;

(4) the date by which contests on the preliminary determination must be filed.

[Amended by Acts 1977, 65th Leg., p. 2207, ch. 870, § 1, eff. Sept. 1, 1977.]

#### § 11.313. Filing Contests

(a) Any water right claimant affected by the preliminary determination, including any claimant to water rights within the river basin but outside the stream or segment under adjudication, who disputes the preliminary determination may within the time for filing contests prescribed by the commission in the notice, including any extension of the time, file a written contest with the commission, stating with reasonable certainty the grounds of his contest.

(b) The statement filed to contest a preliminary determination must be verified by an affidavit of the contestant, his agent, or his attorney.

(c) If the contest is directed against the preliminary determination of the water rights of other claimants, a copy shall be served on each of these claimants or his attorney by certified mail, and proof of service shall be filed with the commission.

[Amended by Acts 1977, 65th Leg., p. 2207, ch. 870, § 1, eff. Sept. 1, 1977.]

**§ 11.314. Hearing on Contest; Notice**

After the time for filing contests has expired, the commission shall prepare a notice setting forth the part of the preliminary determination to which each contest is directed and the time and place of a hearing on the contest. The notice shall be sent to each claimant of water rights within the river basin in which the stream or segment is located, to the extent that the claimants can be reasonably ascertained from the records of the department. The hearing shall be conducted as provided in Section 11.337 of this code.

[Amended by Acts 1977, 65th Leg., p. 2207, ch. 870, § 1, eff. Sept. 1, 1977; Acts 1981, 67th Leg., p. 961, ch. 367, § 1, eff. June 10, 1981.]

**§ 11.315. Final Determination**

On completion of the hearings on all contests, the commission shall make a final determination of the claims to water rights under adjudication. The commission shall send a copy of the final determination and any modification of the final determination to each claimant whose rights are adjudicated and to each contesting party.

[Amended by Acts 1977, 65th Leg., p. 2207, ch. 870, § 1, eff. Sept. 1, 1977.]

**§ 11.316. Application for Rehearing**

Within 30 days from the date of the final determination, any affected party may apply to the commission for a rehearing. Applications for rehearing which in the opinion of the commission are without merit may be denied without notice to other parties, but no application for rehearing shall be granted without notice to each claimant whose rights are adjudicated and to each contesting party.

[Amended by Acts 1977, 65th Leg., p. 2207, ch. 870, § 1, eff. Sept. 1, 1977.]

**§ 11.317. Filing Final Determination With District Court**

(a) As soon as practicable after the disposition of all applications for rehearing, the commission shall file a certified copy of the final determination, together with all evidence presented to or considered by the commission, in a district court of any county in which the stream or segment under adjudication is located. However, if the stream or segment under adjudication includes all or parts of three or more counties and if 10 or more affected persons who appeared in the proceedings petition the commission to do so, the commission shall file the action in a convenient district court of a judicial district which

is not within the river basin of the stream or segment under adjudication.

(b) The commission shall obtain an order from the court fixing a time not less than 30 days from the date of the order for the filing of exceptions to the final determination and also fixing a time not less than 60 days from the date of the order for the commencement of hearings on exceptions.

(c) The commission shall immediately give written notice of the court order by certified mail to all parties who appeared in the proceedings before the commission. The commission shall file proof of the service with the court.

[Amended by Acts 1977, 65th Leg., p. 2207, ch. 870, § 1, eff. Sept. 1, 1977.]

**§ 11.318. Exceptions to Final Determination**

(a) Any affected person who appeared in the proceeding before the commission may file exceptions to the final determination. An exception must state with a reasonable degree of certainty the grounds for the exception and must specify the particular paragraphs and pages of the determination to which the exception is taken.

(b) Three copies of the exceptions shall be filed in court, and a copy shall be served on the commission. The commission shall make copies of all exceptions available at a reasonable price, based on the cost of reproduction.

[Amended by Acts 1977, 65th Leg., p. 2207, ch. 870, § 1, eff. Sept. 1, 1977.]

**§ 11.319. Hearings on Exceptions**

(a) The court shall hear any exceptions that have been filed. The commission and all affected persons who appeared in the proceedings before the commission are entitled to appear and be heard on the exceptions. The court may permit other parties in interest to appear and be heard for good cause shown.

(b) The court may conduct nonjury hearings and proceedings at any convenient location within the state. Actual expenses incurred by the court outside its judicial district shall be taxed as costs.

[Amended by Acts 1977, 65th Leg., p. 2207, ch. 870, § 1, eff. Sept. 1, 1977.]

**§ 11.320. Scope of Judicial Review**

(a) In passing on exceptions, the court shall determine all issues of law and fact independently of the commission's determination. The substantial evidence rule shall not be used. The court shall not consider any exception which was not brought to the commission's attention by application for rehearing. The court shall not consider any issue of fact raised by an exception unless the record of evidence before the commission reveals that the question was genuinely in issue before the commission.

(b) A party in interest may demand a jury trial of any issue of fact, but the court may in its discretion

have a separate trial with a separate jury of any such issue.

(c) The legislature declares that the provisions of this section are not severable from the remainder of this subchapter and that this subchapter would not have been passed without the inclusion of this section. If this section is for any reason held invalid, unconstitutional, or inoperative in any way, the holding applies to the entire subchapter so that the entire subchapter is null and void.

[Amended by Acts 1977, 65th Leg., p. 2207, ch. 870, § 1, eff. Sept. 1, 1977.]

#### § 11.321. Evidence

Any exception heard by the court without a jury may be resolved on the record of evidence before the commission, or the court may take additional evidence or direct that additional evidence be heard by the commission.

[Amended by Acts 1977, 65th Leg., p. 2207, ch. 870, § 1, eff. Sept. 1, 1977.]

#### § 11.322. Final Decree

(a) After the final hearing, the court shall enter a decree affirming or modifying the order of the commission.

(b) The court may assess the costs as it deems just.

(c) An appeal may be taken from the decree of the court in the same manner and with the same effect as in other civil cases.

(d) The final decree in every water right adjudication is final and conclusive as to all existing and prior rights and claims to the water rights in the adjudicated stream or segment of a stream. The decree is binding on all claimants to water rights outside the adjudicated stream or segment of a stream.

(e) Except for domestic and livestock purposes or rights subsequently acquired by permit, a water right is not recognized in the adjudicated stream or segment of a stream unless the right is included in the final decree of the court.

[Amended by Acts 1977, 65th Leg., p. 2207, ch. 870, § 1, eff. Sept. 1, 1977.]

#### § 11.323. Certificate of Adjudication

(a) When a final determination of the rights to the waters of a stream has been made in accordance with the procedure provided in this subchapter and the time for a rehearing has expired, the commission shall issue to each person adjudicated a water right a certificate of adjudication, signed by the chairman and bearing the seal of the commission.

(b) In the certificate, the commission shall include:

(1) a reference to the final decree;

(2) the name and post-office address of the holder of the adjudicated right;

(3) the priority, extent, and purpose of the adjudicated right and, if the right is for irrigation, a description of the irrigated land; and

(4) all other information in the decree relating to the adjudicated right.

[Amended by Acts 1977, 65th Leg., p. 2207, ch. 870, § 1, eff. Sept. 1, 1977.]

#### § 11.324. Recordation of Certificate

(a) The commission shall transmit the certificate of adjudication or a true copy to the county clerk of each county in which the appropriation is made.

(b) On receipt of the recording fee from the holder of the certificate, the county clerk shall file and record the certificate in a well-bound book provided and kept for that purpose only. The clerk shall index the certificate alphabetically under the name of the holder of the certificate of adjudication and under the name of the stream or source of water supply.

(c) When a certificate of adjudication is filed and recorded as provided in this section, the county clerk shall deliver the certificate on demand to the holder.

[Amended by Acts 1977, 65th Leg., p. 2207, ch. 870, § 1, eff. Sept. 1, 1977.]

#### § 11.325. Water Divisions

The board shall divide the state into water divisions for the purpose of administering adjudicated water rights. Water divisions may be created from time to time as the necessity arises. The divisions shall be constituted to secure the best protection to the holders of water rights and the most economical supervision on the part of the state.

[Amended by Acts 1977, 65th Leg., p. 2207, ch. 870, § 1, eff. Sept. 1, 1977.]

#### § 11.326. Appointment of Watermaster

(a) The executive director may appoint one watermaster for each water division.

(b) A watermaster holds office until a successor is appointed. The executive director may remove a watermaster at any time.

(c) The executive director may employ assistant watermasters and other employees necessary to aid a watermaster in the discharge of his duties.

(d) In a water division in which the office of watermaster is vacant, the executive director has the powers of a watermaster.

(e) The executive director shall supervise and generally direct the watermaster in the performance of his duties. A watermaster is responsible to the executive director for the proper performance of his duties.

(f) A person dissatisfied with any action of a watermaster may apply to the executive director for relief.

[Amended by Acts 1977, 65th Leg., p. 2207, ch. 870, § 1, eff. Sept. 1, 1977.]

**§ 11.327. Duties of Watermaster**

(a) A watermaster shall divide the water of the streams or other sources of supply of his division in accordance with the adjudicated water rights.

(b) A watermaster shall regulate or cause to be regulated the controlling works of reservoirs and diversion works in time of water shortage, as is necessary because of the rights existing in the streams of his division, or as is necessary to prevent the waste of water or its diversion, taking, storage, or use in excess of the quantities to which the holders of water rights are lawfully entitled.

(c) A watermaster may regulate the distribution of water from any system of works that serves users whose rights have been separately determined.

[Amended by Acts 1977, 65th Leg., p. 2207, ch. 870, § 1, eff. Sept. 1, 1977.]

**§ 11.328. Watermaster's Notice Posted**

If, in the performance of his duties, a watermaster regulates diversion works or the controlling works of reservoirs, he shall attach to the works a written notice, properly dated and signed, stating that the works have been properly regulated and are wholly under his control. The notice is legal notice to all parties interested in the diversion and distribution of the water served by the diversion works or reservoir.

[Amended by Acts 1977, 65th Leg., p. 2207, ch. 870, § 1, eff. Sept. 1, 1977.]

**§ 11.329. Compensation and Expenses of Watermaster**

(a) The department shall pay the compensation and necessary expenses of a watermaster, assistant watermasters, and other necessary employees, but the holders of water rights that have been determined or adjudicated and are to be administered by the watermaster shall reimburse the department for the compensation and expenses.

(b) After the adjudication decree becomes final, the executive director shall notify each holder of water rights under the decree of the amount of compensation and expenses that will be required annually for the administration of the water rights so determined.

(c) The commission shall hold a public hearing to determine the apportionment of the costs of administration of adjudicated water rights among the holders of the rights. After a public hearing, the commission shall issue an order assessing the annual cost against the holders of water rights to whom the water will be distributed under the final decree. The commission shall equitably apportion the costs. The executive director may provide for payments in installments and shall specify the dates by which payments shall be made to the department.

(d) The executive director shall transmit all collections under this section to the State Treasurer.

(e) No water shall be diverted, taken, or stored by, or delivered to, any person while he is delinquent in the payment of his assessed costs.

(f) An order of the commission assessing costs remains in effect until the commission issues a further order. The commission may modify, revoke, or supersede an order assessing costs with a subsequent order. The commission may issue supplementary orders from time to time to apply to new diversions. [Amended by Acts 1977, 65th Leg., p. 2207, ch. 870, § 1, eff. Sept. 1, 1977.]

**§ 11.330. Outlet for Free Passage of Water**

The owner of any works for the diversion or storage of water shall maintain a substantial headgate at the point of diversion, or a gate on each discharge pipe of a pumping plant, constructed so that it can be locked at the proper place by the watermaster, or a suitable outlet in a dam to allow the free passage of water that the owner of the dam is not entitled to divert or impound. The board shall adopt rules, and the executive director shall enforce the rules, governing the type and location of the headgates or gates and the outlets to allow the free passage of water.

[Amended by Acts 1977, 65th Leg., p. 2207, ch. 870, § 1, eff. Sept. 1, 1977; Acts 1981, 67th Leg., p. 3150, ch. 828, § 1, eff. June 17, 1981.]

**§ 11.331. Measuring Devices**

The board, by rule, may require the owner of any works for the diversion, taking, storage, or distribution of water to construct and maintain suitable measuring devices at points that will enable the watermaster to determine the quantities of water to be diverted, taken, stored, released, or distributed in order to satisfy the rights of the respective users.

[Amended by Acts 1977, 65th Leg., p. 2207, ch. 870, § 1, eff. Sept. 1, 1977; Acts 1981, 67th Leg., p. 3150, ch. 828, § 1, eff. June 17, 1981.]

**§ 11.332. Installation of Flumes**

The board, by rule, may require flumes to be installed along the line of any ditch if necessary for the protection of water rights or other property.

[Amended by Acts 1977, 65th Leg., p. 2207, ch. 870, § 1, eff. Sept. 1, 1977; Acts 1981, 67th Leg., p. 3150, ch. 828, § 1, eff. June 17, 1981.]

**§ 11.333. Failure to Comply With Board Rules**

If the owner of waterworks using state water refuses or neglects to comply with the rules adopted pursuant to Section 11.330, 11.331, or 11.332 of this code, the executive director, after 10 days notice or after a period of additional time that is reasonable under the circumstances, may direct the watermaster to make adjustments of the control works to prevent the owner of the works from diverting, taking, storing, or distributing any water until he has fully complied with the rules.

[Amended by Acts 1977, 65th Leg., p. 2207, ch. 870, § 1, eff. Sept. 1, 1977; Acts 1981, 67th Leg., p. 3150, ch. 828, § 1, eff. June 17, 1981.]

**§ 11.334. Suit Against Department for Injury**

Any person who is injured by an act of the department under this subchapter may bring suit against the commission to review the action or to obtain an injunction. If the water right involved has been adjudicated as provided in this subchapter, the court shall issue an injunction only if it is shown that the department has failed to carry into effect the decree adjudicating the water right.

[Amended by Acts 1977, 65th Leg., p. 2207, ch. 870, § 1, eff. Sept. 1, 1977.]

(a) If any area in which water rights of record in the office of the department have not been adjudicated, the claimants of the rights and the commission may enter into a written agreement for their administration.

(b) An agreement made under authority of this section shall provide:

(1) the basis and manner of distribution of the water to which the agreement relates;

(2) the services of a special watermaster, and assistants if necessary, to carry out the agreement; and

(3) the allocation, collection, and payment of the annual costs of administration.

(c) An agreement to administer unadjudicated water rights shall be recorded in the offices of the department and of the county clerk of each county in which any of the works or lands affected by the agreement are located.

(d) The administration of water rights by agreement is governed by the provisions of this subchapter except as regards allocation and payment of the expenses of the administration.

(e) No agreement authorized by this section impairs any vested right to the use of water or creates any additional rights to the use of water.

[Amended by Acts 1977, 65th Leg., p. 2207, ch. 870, § 1, eff. Sept. 1, 1977.]

**§ 11.336. Administration of Permits Issued After Adjudication**

Permits, other than temporary permits, that are issued by the commission to appropriate water from an adjudicated stream or segment are subject to administration in the same manner as is provided in this subchapter for adjudicated water rights.

[Amended by Acts 1977, 65th Leg., p. 2207, ch. 870, § 1, eff. Sept. 1, 1977.]

**§ 11.337. Hearings: Notice and Procedure**

(a) The commission shall give notice of a hearing or other proceeding it orders under this subchapter in the manner prescribed in the procedural rules of the commission, unless this subchapter specifically provides otherwise.

(b) In any proceeding in any part of the state, the commission may:

(1) take evidence, including the testimony of witnesses;

(2) administer oaths;

(3) issue subpoenas and compel the attendance of witnesses in the same manner as subpoenas are issued out of the courts of the state;

(4) compel witnesses to testify and give evidence; and

(5) order the taking of depositions and issue commissions for the taking of depositions in the same manner as depositions are obtained in civil actions.

(c) Evidence may be taken by a duly appointed reporter before the commission or before an authorized representative who has the power to administer oaths.

(d) If a person neglects or refuses to comply with an order or subpoena issued by the commission or refuses to testify on any matter about which he may be lawfully interrogated, the commission may apply to a district court of the county in which the proceeding is held to punish him in the manner provided by law for such disobedience in civil actions.

(e) The commission may adjourn its proceedings from time to time and from place to place.

(f) When a proceeding before the commission is concluded, the commission shall render a decision as to the matters concerning which the proceeding was held.

[Amended by Acts 1977, 65th Leg., p. 2207, ch. 870, § 1, eff. Sept. 1, 1977.]

**§ 11.338. Cancellation of Water Rights**

Nothing in this subchapter recognizes any abandoned or cancelled water right or impairs in any way the power of the commission under general law to forfeit, cancel, or find abandoned any water right, including adjudicated water rights.

[Amended by Acts 1977, 65th Leg., p. 2207, ch. 870, § 1, eff. Sept. 1, 1977.]

[Amended by Acts 1977, 65th Leg., p. 2207, ch. 870, § 1, eff. Sept. 1, 1977.]

**§ 11.340. Abatement of Certain Civil Suits**

(a) Nothing in this subchapter prevents or precludes a person who claims the right to divert water from a stream from filing and prosecuting to a conclusion a suit against other claimants of the right to divert or use water from the same stream. However, if the commission has ordered a determination of water rights as provided in this subchapter or if the commission orders such a determination within 90 days after notice of the filing of a suit, the suit shall be abated on the motion of the commission or any party in interest as to any issues involved in the water rights determination.

(b) If a suit is abated as provided in Subsection (a) of this section, the court may grant or continue any temporary relief necessary to preserve the status quo pending a final determination of the water rights involved.

[Amended by Acts 1977, 65th Leg., p. 2207, ch. 870, § 1, eff. Sept. 1, 1977.]

**§ 11.341. Limitation on Actions**

SUBCHAPTER H. COURT-APPOINTED WATERMASTER

**§ 11.401. Scope of Subchapter**

The provisions of this subchapter apply to a suit if:

- (1) the state is a party;
- (2) the purpose of the suit is to determine the right of the parties to divert or use water of a surface stream; and
- (3) rights are asserted to use water in, or divert water to, not more than four counties.

[Amended by Acts 1977, 65th Leg., p. 2207, ch. 870, § 1, eff. Sept. 1, 1977.]

**§ 11.402. Appointment and Authority of Watermaster**

(a) A court having jurisdiction over a suit described in Section 11.401 of this code may appoint a watermaster with power to allocate and distribute, under the supervision of the court, the water taken into judicial custody.

(b) The court may not appoint a watermaster with authority to act both upstream and downstream from an existing reservoir on any surface stream of the state. However, once a watermaster is appointed, the construction of a new reservoir does not invalidate his appointment or restrict his authority over that portion of the stream contemplated by the original order of appointment.

(c) Under terms and conditions prescribed by the court, the watermaster may incur necessary expenses, appoint necessary deputies and assistants, and perform duties and assume responsibilities delegated to him by the court.

[Amended by Acts 1977, 65th Leg., p. 2207, ch. 870, § 1, eff. Sept. 1, 1977.]

(a) The trial court shall assess the costs and expenses of the watermaster and his staff against all persons receiving an allocation of the water in judicial custody. The court shall assess the costs and expenses monthly or at other time intervals ordered by the court.

(b) The court shall assess the costs and expenses on the basis of:

- (1) acreage;
- (2) acre-feet of allocated water;
- (3) per capita; or
- (4) any other formula the court, after notice and hearing, determines to be the most equitable.

(c) During the pendency of an appeal, the trial court, in its discretion, may assess costs against some parties on one basis and against other parties on another basis.

(d) The costs and expenses are not to be taxed as ordinary court costs, but are to be considered costs necessary to protect the rights and privileges of the parties receiving allocations of water during the litigation and are to be paid by those parties.

[Amended by Acts 1977, 65th Leg., p. 2207, ch. 870, § 1, eff. Sept. 1, 1977.]

**§ 11.405. Failure to Pay Assessed Costs**

If the costs and expenses assessed are not paid within the time prescribed by the court, the court after notice and hearing may withdraw or limit allocations of water to any party failing or refusing to pay his share until all costs and expenses assessed against him are paid in full.

[Amended by Acts 1977, 65th Leg., p. 2207, ch. 870, § 1, eff. Sept. 1, 1977.]

**§ 11.406. Judicial Custody of Water During Appeal**

If a party appeals the judgment of the trial court, that court may retain custody of the water which it has previously taken into judicial custody and over which it has appointed a watermaster. Until final judgment is entered in the case, the trial court has exclusive jurisdiction to administer, allocate, and distribute the water retained in its custody, as provided in Section 11.407 of this code.

[Amended by Acts 1977, 65th Leg., p. 2207, ch. 870, § 1, eff. Sept. 1, 1977.]

**§ 11.407. Allocation and Distribution of Water During Appeal**

During the pendency of an appeal, the trial court shall limit the allocation and distribution of the water in its custody to the parties adjudicated to have a valid right to use the water. However, if any party prosecutes an appeal and files a supersedeas bond, the trial court shall make any necessary adjustments in the water allocations and allocate to that party the same amount of water that he received during the proceedings in the trial court.

[Amended by Acts 1977, 65th Leg., p. 2207, ch. 870, § 1, eff. Sept. 1, 1977.]

### § 11.408. Retention of Watermaster During Appeal

During the pendency of an appeal, the trial court may retain the watermaster in office with the same authority he had during the trial proceedings.

[Amended by Acts 1977, 65th Leg., p. 2207, ch. 870, § 1, eff. Sept. 1, 1977.]

### § 11.409. Violations of Court Orders

If a party violates any order of the trial court either during trial proceedings or during an appeal, the trial court may limit or withdraw his allocation of water until he corrects the violation to the satisfaction of the court.

[Amended by Acts 1977, 65th Leg., p. 2207, ch. 870, § 1, eff. Sept. 1, 1977.]

SUBCHAPTER C. PROJECTS

**§ 12.051. Federal Projects**

(a) In this section:

(1) "Federal project" means an engineering undertaking or work to construct, enlarge, or extend a dam, lake, reservoir, or other water-storage or flood-control work or a drainage, reclamation, or canalization undertaking or any combination of these financed in whole or in part with funds of the United States.

(2) "Engineering report" means the plans, data, profiles, maps, estimates, and drawings prepared in connection with a federal project.

(3) "Federal agency" means the Corps of Engineers of the United States Army, the Bureau of Reclamation of the Department of Interior, the Soil Conservation Service of the Department of Agriculture, the United States Section of the International Boundary and Water Commission, or any other agency of the United States, the function of which includes the conservation, development, retardation by impounding, control, or study of the water resources of Texas or the United States.

(b) When the governor receives an engineering report submitted by a federal agency seeking the governor's approval of a federal project, he shall immediately forward the report to the department for its study concerning the feasibility of the federal project.

(c) The board shall hold a public hearing to receive the views of persons and groups who might be affected by the proposed federal project. The board shall publish notice of the time, date, place, nature, and purpose of the public hearing once each week for two consecutive weeks before the date stated in the notice in a newspaper having general circulation

in the section of the state where the federal project is to be located or the work done.

(d) After hearing all the evidence both for and against approval of the federal project, the board shall enter its order approving or disapproving the feasibility of the federal project, and the order shall include the board's reasons for approval or disapproval.

(e) In determining feasibility, the board shall consider, among other relevant factors:

(1) the effect of the federal project on water users on the stream as certified by the commission;

(2) the public interest to be served;

(3) the development of damsites to the optimum potential for water conservation;

(4) the integration of the federal project with other water conservation activities;

(5) the protection of the state's interests in its water resources; and

(6) the engineering practicality of the federal project, including cost of construction, operation, and maintenance.

(f) The board shall forward to the governor a certified copy of its order. The board's finding that the federal project is either feasible or not feasible is final, and the governor shall notify the federal agency that the federal project has been either approved or disapproved.

(g) The provisions of this section do not apply to the state soil conservation board as long as that board is designated by the governor as the authorized state agency having supervisory responsibility to approve or disapprove of projects designed to effectuate watershed-protection and flood-prevention programs initiated in cooperation with the United States Department of Agriculture.

[Amended by Acts 1977, 65th Leg., p. 2207, ch. 870, § 1, eff. Sept. 1, 1977.]

(a) The department shall make and enforce rules and orders and shall perform all other acts necessary to provide for the safe construction, maintenance, repair, and removal of dams located in this state.

(b) Rules and orders made by the board shall be made after proper notice and hearing as provided in the rules of the board.

(c) If the owner of a dam that is required to be constructed, reconstructed, repaired, or removed in order to comply with the rules and orders promulgated under Subsection (a) of this section wilfully fails or refuses to comply within the 30-day period following the date of the commission's order to do so or if a person wilfully fails to comply with any rule or other order issued by the commission under this section within the 30-day period following the effective date of the order, he is liable to a penalty of not more than \$1,000 a day for each day he continues to

violate this section. The state may recover the penalty by suit brought for that purpose in the district court of Travis County.

(d) If the commission determines that the existing condition of the dam is creating or will cause extensive or severe property damage or economic loss to others or is posing an immediate and serious threat to human life or health and that other procedures available to the department to remedy or prevent the occurrence of the situation will result in unreasonable delay, the commission may issue an emergency order, either mandatory or prohibitory in nature, directing the owner of a dam to repair, modify, maintain, dewater, or remove the dam which the commission determines is unsafe. The emergency order may be issued without notice to the dam owner or with notice the commission considers practicable under the circumstances. The notice does not have to comply with the Administrative Procedure and Texas Register Act, as amended (Article 6252-13a, Vernon's Texas Civil Statutes).

(e) If the commission issues an emergency order under authority of this section without notice to the dam owner, the commission shall fix a time and place for a hearing which shall be held as soon as practicable to affirm, modify, or set aside the emergency order. The notice does not have to comply with the Administrative Procedure and Texas Register Act, as amended (Article 6252-13a, Vernon's Texas Civil Statutes). If the nature of the commission's action requires further proceedings, those proceedings shall be conducted as appropriate under the Administrative Procedure and Texas Register Act, as amended (Article 6252-13a, Vernon's Texas Civil Statutes).

(f) Nothing in this section or in rules or orders made by the department shall be construed to relieve an owner or operator of a dam or reservoir of the legal duties, obligations, or liabilities incident to ownership or operation.

[Amended by Acts 1977, 65th Leg., p. 2207, ch. 870, § 1, eff. Sept. 1, 1977; Acts 1981, 67th Leg., p. 3150, ch. 828, § 1, eff. June 17, 1981.]

**§ 15.002. Purpose**

(a) The legislature finds that it is in the public interest and to the benefit of the general public of the state to encourage and to assist in the planning and construction of projects to develop and conserve the storm water and floodwater as well as the ordinary flows of the rivers and streams of the state, to maintain and enhance the quality of the water of the state, to provide protection to the state's citizens from the floodwater of the rivers and streams of the state, and other purposes as provided by law or board rule.

(b) The legislature finds that the conventional means of financing projects are inadequate to meet current and anticipated needs of the state. Therefore, it is the further intent of the legislature to provide a means of coordinating the development of projects throughout the state through the board and to provide political subdivisions the maximum opportunity to finance projects through programs provided by this chapter.

(b) If the executive director finds that the application includes a project that has flood control as one of its purposes and that the watershed in which the project is located is partially located outside the political subdivision making the application, the executive director shall require the applicant to submit a written memorandum of understanding relating to the management of the watershed in which the project is to be located.

(c) The memorandum of understanding must be approved by all governing bodies of political subdivisions located in the watershed in which the project is to be located and must be signed by the presiding officers of each of those political subdivisions.

(2) that the sale, transfer, or lease will contribute to the conservation and development of the water resources of the state; and

(3) that the consideration for the sale, transfer, or lease is fair, just, and reasonable and in full compliance with the law.

(b) The consideration for any such sale or transfer may be either money or revenue bonds, which revenue bonds for the purposes hereof shall be deemed the same as money.

(c) The amount of money shall be equal to the price for purchasing the facilities as prescribed by the provisions of Section 16.187 of this code, or if revenue bonds constitute the consideration, the principal amount of revenue bonds shall be equal to the price for purchasing the facilities as prescribed by the provisions of Section 16.187 of this code, and such revenue bonds shall bear interest at the rate prescribed in Section 17.128 of this code with regard to bonds purchased with the proceeds of the Texas Water Development Fund.

The money shall be collected and credited to the proper special fund as is money received in payment of principal and interest on loans to political subdivisions under this code, taking into consideration the manner in which the facilities were acquired.

(b) When enough money has been collected to pay all outstanding indebtedness, including the principal of all state bonds and contractual obligations and the full amount of interest to accrue on these debts, the board may use any further amounts received from the sale, transfer, or lease of facilities to acquire additional facilities or to provide assistance to political subdivisions for water supply projects.

(b) The board shall make the same determinations with respect to the sale of water as are required in Section 16.190 of this code with respect to the sale or lease of facilities.

(c) The board shall not compete with any political subdivision in the sale of water when this competition jeopardizes the ability of the political subdivision to meet obligations incurred to finance its own water supply projects.

(b) Any person who violates any provision of this section is guilty of a misdemeanor and upon conviction is punishable by a fine of not more than \$100. A separate offense is committed each day a structure constructed in violation of this section is maintained.

(c) At the request of the executive director, the attorney general shall file suit in a district court of Travis County to enjoin any violation or threatened violation of this section. In the suit, the attorney general may seek to have the illegal levee or other improvement removed and the preexisting conditions restored and may also collect civil penalties of up to \$100 a day for each day a violation occurs.

(d) This section does not apply to:

(1) dams permitted by the commission or recognized as valid by final decree in any proceeding begun under Subchapter G, Chapter 11, of this code;<sup>1</sup>

(2) dams authorized by Section 11.142 of this code;

(3) a levee or other improvement within the corporate limits of a city or town provided: (a) plans for the construction or maintenance or both must be approved by the city or town as a condition precedent to starting the project and (b) the city or town requires that such plans be in substantial compliance with rules and standards adopted by the board; or

(4) a levee or other improvement within the boundaries of any political subdivision which has qualified for the National Flood Insurance Program as authorized by the National Flood Insurance Act of 1968 (Title 42, U.S.C., Sections 4001-4127) provided: (a) plans for the construction or maintenance or both must be approved by the political subdivision which is participating in the

national flood insurance program as a condition precedent to starting the project and (b) the political subdivision requires that such plans be in substantial compliance with rules and standards adopted by the board;

(5) projects implementing soil and water conservation practices set forth in a conservation plan with a landowner or operator and approved by the governing board of a soil and water conservation district organized under the State Soil Conservation Law, as amended (Article 165a-4, Vernon's Texas Civil Statutes),<sup>2</sup> provided that the governing board finds the practices do not significantly affect stream flooding conditions on, along, or near a state stream.

(e) On projects located within the corporate limits of a city or town or within the boundaries of any political subdivision which are exempt from the provisions of this section by Subdivision (3) or (4) of Subsection (d) above, any person whose property is located outside of the corporate limits of such city or town or of the boundaries of such a political subdivision and whose property is affected or potentially affected by the effect of the project on the floodwaters of the stream may appeal the decision of such political subdivision. The appeal shall be in writing and shall specify the grounds therefor and a copy shall be sent by certified mail to the project applicant and to the city or town or such political subdivision. The timely filing of such an appeal with the executive director suspends the decision of the city or town or political subdivision until a final decision is rendered by the department. The executive director shall review the complaint and investigate the facts surrounding the nature of the complaint. If the executive director finds that the complaint is frivolous or nonmeritorious or made solely for purposes of harassment or delay, then he shall dismiss the appeal. Otherwise, the executive director shall refer the appeal to the commission which shall after due notice hold a hearing to determine whether the project should be approved using the standards established by the department and shall hear such appeal de novo under the procedural rules established by the commission for other reclamation projects.

## SUBCHAPTER I. FLOOD INSURANCE

**§ 16.311. Short Title**

This subchapter may be cited as the Flood Control and Insurance Act.

[Amended by Acts 1977, 65th Leg., p. 2207, ch. 870, § 1, eff. Sept. 1, 1977.]

**§ 16.312. Purpose**

The State of Texas recognizes the personal hardships and economic distress caused by flood disasters since it has become uneconomic for the private insurance industry alone to make flood insurance available to those in need of such protection on reasonable terms and conditions. Recognizing the burden of the nation's resources, congress enacted the National Flood Insurance Act of 1968, as amended (42 U.S.C. Sections 4001 through 4127), whereby flood insurance can be made available through coordinated efforts of the federal government and the private insurance industry, by pooling risks, and the positive cooperation of state and local government. The purpose of this subchapter is to evidence a positive interest in securing flood insurance coverage under this federal program and to so procure for those citizens of Texas desiring to participate and in promoting the public interest by providing appropriate protection against the perils of flood losses and in encouraging sound land use by minimizing exposure of property to flood losses.

[Amended by Acts 1977, 65th Leg., p. 2207, ch. 870, § 1, eff. Sept. 1, 1977.]

(c) The aforementioned aid may include but is not necessarily limited to:

§ 17.122. Application for Assistance

(a) In an application to the board for financial assistance, the applicant shall include:

- (1) the name of the political subdivision and its principal officers;
- (2) a citation of the law under which the political subdivision operates and was created;
- (3) the total cost of the project;
- (4) the amount of state financial assistance requested;
- (5) the plan for repaying the total cost of the project; and
- (6) any other information the board requires in order to perform its duties and to protect the public interest.

(b) The board may not accept an application for financial assistance unless it is submitted in affidavit form by the officials of the political subdivision. The board shall prescribe the affidavit form in its rules. The rules do not restrict or prohibit the board from requiring additional factual material from an applicant.

[Amended by Acts 1977, 65th Leg., p. 2207, ch. 870, § 1, eff. Sept. 1, 1977.]

- (2) that an applicant proposing underground water development has the right to use water that the project will provide.

(b) If an application includes a proposal for a waste water treatment plant, the part of the application relating to the waste water treatment plant does not need to be certified by the commission, but the board may not deliver funds for the waste water treatment plant until the political subdivision has obtained written evidence of approval of the plans for the waste water treatment plant from the executive director.

[Amended by Acts 1977, 65th Leg., p. 2207, ch. 870, § 1, eff. Sept. 1, 1977.]

§ 17.124. Considerations in Passing on Application

In passing on an application from a political subdivision for financial assistance, the board shall consider:

- (1) the needs of the area to be served by the project and the benefit of the project to the area in relation to the needs of other areas requiring state assistance in any manner and the benefits of those projects to the other areas;
- (2) the availability of revenue to the political subdivision, from all sources, for the ultimate repayment of the cost of the project, including interest;
- (3) whether the political subdivision can reasonably finance the project without assistance from the state;
- (4) the relationship of the project to the overall, statewide water needs; and
- (5) the relationship of the project to the state water plan.

[Amended by Acts 1977, 65th Leg., p. 2207, ch. 870, § 1, eff. Sept. 1, 1977.]

§ 17.125. Approval of Application

The board by resolution may approve an application if, after considering the factors listed in Section 17.124 of this code and any other relevant factors, the board finds:

- (1) that the public interest requires state participation in the project;
- (2) that the political subdivision cannot reasonably finance the project without state assistance in the amount finally approved by the board; and
- (3) that in its opinion the revenue or taxes pledged by the political subdivision will be sufficient to meet all the obligations assumed by the political subdivision during the succeeding period of not more than 50 years.

[Amended by Acts 1977, 65th Leg., p. 2207, ch. 870, § 1, eff. Sept. 1, 1977.]

The board may purchase bonds or securities that are secondary or subordinate to other bonds or securities issued by the political subdivision to finance the same project. The board may purchase outstanding prior lien bonds previously issued by the political subdivision when this will avoid or reduce the necessity for issuing junior lien bonds for subsequent sale to the board. However, the security for both prior lien and junior lien bonds shall be pledged from substantially the same sources of revenue.

[Amended by Acts 1977, 65th Leg., p. 2207, ch. 870, § 1, eff. Sept. 1, 1977.]

**§ 17.128. Interest Rate**

(a) Except as provided in Subsection (b) of this section, bonds and securities purchased by the board on or after September 1, 1977, with money derived from the sale of bonds issued under this chapter shall bear interest at the lending rate. The bonds shall bear coupons evidencing interest at a rate or combination of rates that will approximate the lending rate as nearly as the board deems practicable. The lending rate shall be affected by the payment of premiums or the deduction of discounts as necessary.

(b) Bonds and securities purchased by the board pursuant to applications for financial assistance approved by the board prior to September 1, 1977, shall bear interest at the rate prescribed by Subsection (a) of this section prior to this amendment. Outstanding prior lien bonds purchased by the board under Section 17.126 of this code need not bear the interest rate provided in Subsection (a) of this section, but the board may pay such price or prices for outstanding prior lien bonds which in its discretion will accomplish the objective of Section 17.126 of this code.

[Amended by Acts 1977, 65th Leg., p. 2207, ch. 870, § 1, eff. Sept. 1, 1977.]

**§ 18.0841. Election for Approval of a Permit That Includes Authorization for Hail Suppression**

(a) In this section:

(1) "Target area" means that area described by metes and bounds or other specific bounded description set out in the application for a permit.

(2) "Operational area" means that area that joins the target area which is reasonably necessary to use in order to effectuate the purposes over the target area without affecting the land or land owners in the operational area, but in no event to exceed eight miles from the limits of the target area. The operational area shall be described by metes and bounds or other specific bounded description and shall be set out in the application for a permit. If the application for a permit does not describe the operational area, the commission may designate an area located inside and up to eight miles from the outer limits of the target area described in the application as the operational area of the permit for the purposes of this chapter.

(b) No permit may be issued by the commission before the end of the 30-day period immediately following the first publication of notice and then only in those counties or parts of counties in the target area or operational area in which the majori-

ty of the qualified voters voting have approved or have not disapproved the issuance of a permit if an election has been held, or in any county or part of a county in the target area or operational area if no petition for an election has been filed.

(c) Persons eligible to vote in elections held under this section shall include qualified voters in counties or parts of counties included in the target area or operational area. Where the target area or operational area includes only part of a county, an election held under this section may be held only in the election precincts which are included entirely within or are partially included in said areas. All qualified voters in such precincts shall be entitled to vote in these elections.

(d) On written request of at least 25 qualified voters residing in the target area or operational area mentioned in the notice requesting an election accompanied by unsigned petitions, the county clerk of each county within the target area or operational area shall certify and mark for identification petitions for circulation. An application for a petition seeking an election to disapprove the issuance of a permit shall be headed: "Application for Election to Disapprove a Weather Modification Permit." The application shall contain a statement just ahead of the signatures of the applicants stating the following: "It is the hope, purpose, and intent of the applicants whose signatures appear on this application to see disapproved the issuance of a permit for weather modification including hail suppression." An application for a petition seeking an election to approve the issuance of a permit shall be headed: "Application for Election to Approve a Weather Modification Permit." The application shall contain a statement just ahead of the signatures of the applicants as follows: "It is the hope, purpose, and intent of the applicants whose signatures appear on this petition to see approved the issuance of a permit for weather modification including hail suppression." Upon the return to the county clerks of such petitions signed by at least 10 percent of the qualified voters residing in each county within the target area or operational area in the notice requesting an election the commissioners court of each county shall call and hold an election. Notice under Chapter 549, Acts of the 60th Legislature, Regular Session, 1967 (Article 29e, Vernon's Texas Civil Statutes), of the commissioners court meeting to call and hold the election is not required. The date of the election shall be determined by the commissioners court in accordance with this section notwithstanding Section 9b, Texas Election Code, as amended (Article 2.01b, Vernon's Texas Election Code). The petition must be filed with the clerk of each county within 30 days immediately following the first publication of notice. The election shall be held within 45 days after the petition is received to determine whether or not the qualified voters in the target area or operational area approve the issuance of the permit. Immediately on calling the election, the clerk of each county

within the target area or operational area shall notify the executive director of the date of the election. Except as otherwise provided in this chapter, elections shall be held in accordance with the Texas Election Code.

(e) The petition for the election shall read substantially as follows: "The following qualified voters of \_\_\_\_\_ County request the Commissioners Court of \_\_\_\_\_ County to call an election at which the qualified voters shall be asked to vote on the proposition of whether or not they approve of the issuance of a weather modification permit that includes authorization for hail suppression (description of area)." Each qualified voter signing the petition shall give his full name and address and voter registration number. Within five days after receiving a petition under this section, the commissioners court shall have the county clerk of the county check the names on the petition against the voter registration lists of the county and certify to the commissioners court the number of qualified voters signing the petition as reflected by checking the county's voter registration lists. If only a part of a county is included in the target area or operational area, the county clerk shall also certify that those signing the petition reside in an election precinct in the county totally or partially included in the target area or operational area. On certification by the county clerk, the petition shall be filed with the official records of the county and shall be available for public inspection.

(f) A person filing a petition with the county clerk shall deposit with the county clerk an amount of money estimated by the county clerk to be sufficient to cover the costs of the election, to be held by the county clerk until the result of the election to approve or disapprove the issuance of the permit is officially announced. If the result of the election favors the party petitioning for the election, the county clerk shall return the deposit to the person filing the petition or his agent or attorney, but if the result of the election does not favor the party petitioning for the election, the county clerk shall pay the cost and expenses of the election from the deposit and return the balance of the deposit to the person filing the petition or his agent or attorney.

(g) The ballots for an election under this section shall be printed to provide for voting for or against the proposition: "The issuance of a permit providing for weather modification including authorization for hail suppression and control in (description of area)."

(h) The order calling the election shall provide for the time and place or places for holding the election, the form of the ballots, and the presiding judge for each voting place.

(i) The commissioners court shall publish a copy of the election order in a newspaper of general circulation in the county or in the part of the county within the target area or operational area at least 30 days preceding the day of the election.

(j) The presiding judge of each voting place shall supervise the counting of all votes cast and shall certify the results to the commissioners court within five days after the election. A copy of the results are to be filed with the county clerk and become a public record.

(k) Within five days after the results are filed, the commissioners court shall declare the results.

(l) The commissioners court of each county holding an election shall send certified copies of the results of the election to the executive director within 24 hours after the results are declared under Subsection (j) of this section.

(m) If a majority of the qualified voters voting in the election precincts any part of which are located in the target area vote against issuance of the permit, no permit may be issued. If a majority of the qualified voters voting in the election precincts any part of which are located within the target area vote in favor of issuance of the permit, the commission may issue the permit as provided in this subchapter, provided, however, if a majority of the qualified voters voting in either of the following areas vote against issuance of the permit, those areas shall be excluded from the coverage of the permit:

(1) any election precinct any part of which is located in the operational area; or

(2) any election precinct located wholly within the target area and contiguous with its outer boundary. If, however, the commission finds that a weather modification and control operation is still feasible, a permit may be issued covering areas in which no election is requested or areas in which the voters give their approval as provided in this section.

(n) If a permit is denied under Subsection (m) of this section, no application for a permit covering all or part of the same target area or operational area so denied may be considered, and no permit under that application may be issued by the commission, for a period of two years following the date of the election nor may an election be held pursuant to this chapter.

(o) If a permit including authorization for hail suppression is to cover only a part of a county, only those qualified voters residing in an election precinct or precincts of the county included in the target area or operational area are eligible to sign a petition and to vote at an election under this section, and in computing the vote, only a majority of those qualified voters residing in such areas and voting in the election shall be necessary to carry the proposition in that county.

(p) No permit shall be issued which provides for or allows the seeding of clouds for hail suppression outside the target area or within those counties or parts of counties located in the operational or target areas which were excluded from the coverage of the permit by virtue of an election under Subsection (m)

of this section. However, seeding may be done in those counties or parts of counties located in the operational or target area which were not excluded from the coverage of the permit by virtue of an election under Subsection (m) of this section, provided it is reasonably calculated to take effect only within the target area. This shall not prohibit the observation of cloud and cloud formations.

(q) The department may monitor any program under such conditions as the department deems advisable.

(r) The provisions of this section do not apply to any permits in effect at the time this section becomes law.

(s) Upon petition as provided in this section, the commissioners court of any county outside but adjacent to a county included in the operational area of an existing or proposed permit shall call and hold an election on the proposition of whether or not the qualified voters of the county approve of the issuance of any permit authorizing hail suppression in the county. If the county voters voting in such election disapprove the issuance of permits authorizing hail suppression, the commission may not issue any such permit covering the county until the proposition has been approved by a subsequent election.

(t) If any county or part of a county has disapproved the issuance of a permit at the previous election held under the provisions of this section, that county or part of a county shall not be included in any permit issued by the commission until the voters of that county or part of a county have participated in a subsequent election at which a permit is approved. The applicant for a permit which includes that county or part of a county shall have the burden of petitioning for an election and depositing costs in the manner provided by this section for the original election to approve or disapprove a permit.

(u) The board by rule shall define the term hail suppression as used in this section, using the most current scientifically accepted technological concepts.

[Added by Acts 1977, 65th Leg., p. 952, ch. 360, § 2, eff. June 10, 1977. Amended by Acts 1979, 66th Leg., p. 2064, ch. 808, §§ 1, 3, eff. June 13, 1979.]

**§ 18.088. Proof of Financial Responsibility**

Proof of financial responsibility is made by showing to the satisfaction of the commission that the licensee has the ability to respond in damages for liability which might reasonably result from the operation for which the permit is sought.

**§ 18.089. Modification of Permit**

The commission may modify the terms and conditions of a permit if:

(1) the licensee is first given notice and a reasonable opportunity for a hearing on the need for a modification; and

He shall also comply with any terms and conditions of the permit as originally issued or as subsequently modified by the commission.

(b) Failure of a licensee to comply with the provisions of Subsection (a) of this section constitutes a violation of this chapter and subjects the licensee to the sanctions provided in Sections 18.121 and 18.122 of this chapter.

##### § 19.001. Policy

It is the policy, intent, and determination of the legislature that:

- (1) Texas urgently needs an offshore deepwater port capable of accommodating supertankers for the importation of crude oil and other fluid commodities that may be carried in ships of that size;
- (2) it is most desirable for private enterprise to own, construct, and operate such an offshore port;
- (3) in the absence of any active and viable plan to develop a deepwater, offshore port by private enterprise, the State of Texas should construct such a facility, which should be self-supporting and whose design, construction, and operation should be carried out by private companies under contract;
- (4) protecting the environment is essential to the proper operation of such a port;
- (5) the credit of the State of Texas shall not be pledged to finance such a port; and
- (6) the Texas Deepwater Port Authority be created to implement this policy.

[Added by Acts 1977, 65th Leg., 1st C.S., p. 59, ch. 5, § 1, eff. Aug. 29, 1977.]

No permit shall be issued authorizing the discharge of any radiological, chemical, or biological warfare agent or high-level radioactive waste. The commission may refuse to issue a permit when the commission finds that issuance of the permit would violate the provisions of any state or federal law or rule or regulation promulgated thereunder, or when the commission finds that issuance of the permit would interfere with the purpose of this chapter.

(b) A person desiring to obtain a permit or to amend a permit shall submit an application to the department containing all information reasonably required by the department.

(c) A person may not commence construction of a treatment facility until the commission has issued a permit to authorize the discharge of waste from the facility, except with the approval of the commission.

(d) The commission may not require under this chapter any permit for the placing of dredged or fill materials into or adjacent to water in the state for the purpose of constructing, modifying, or maintaining facilities or structures, but this does not change or limit any authority the commission may have with respect to the control of water quality. The commission may adopt rules and regulations to govern and control the discharge of dredged or fill materials consistent with the purpose of this chapter.

[Amended by Acts 1977, 65th Leg., p. 1645, ch. 644, § 7; Acts 1977, 65th Leg., p. 2207, ch. 870, § 1, eff. Sept. 1, 1977.]

### § 26.028. Action on Application

(a) Except as provided in Subsections (b) and (c) of this section, notice shall be given to the persons who in the judgment of the commission may be affected by an application for a permit, permit amendment, or renewal of a permit. The commission, on the motion of a commissioner, or on the request of the executive director or any affected person, shall hold a public hearing on the application for a permit, permit amendment, or renewal of a permit.

(b) An application to amend a permit to improve the quality of waste authorized to be discharged may be set for consideration and may be acted on by the commission at a regular meeting without the necessity of holding a public hearing if the applicant does not seek to increase significantly the quantity of waste authorized to be discharged or change

materially the pattern or place of discharge. Notice of the application shall be mailed to the mayor and health authorities for the city or town, and the county judge and health authorities for the county, in which the waste is or will be discharged, at least 10 days before the commission meeting, and they may present information to the commission on the application.

(c) An application to renew a permit for a confined animal feeding operation which was issued between July 1, 1974, and December 31, 1977, may be set for consideration and may be acted on by the commission at a regular meeting without the necessity of holding a public hearing if the applicant does not seek to discharge into or adjacent to water in the state and does not seek to change materially the pattern or place of disposal.

(d) For the purposes of Subsection (a), the commission may act on the application without holding a public hearing if all of the following conditions are met:

(1) not less than 30 days before the date of action on the application by the commission, the applicant has published the commission's notice of the application at least once in a newspaper regularly published or circulated within each county where the proposed facility or discharge is located and in each county affected by the discharge;

(2) not less than 30 days before the date of action on the application by the commission, the applicant has served or mailed the commission's notice of the application to persons who in the judgment of the commission may be affected. As part of his application the applicant shall submit an affidavit which lists the names and addresses of the persons who may be affected by the application and includes the source of the list;

(3) within 30 days after the date of the newspaper publication of the commission's notice, neither a commissioner, the executive director, nor an affected person who objects to the application has requested a public hearing.

- (1) the permittee has failed or is failing to comply with the conditions of the permit;
- (2) the permit is subject to cancellation or suspension under Section 26.084 of this code;
- (3) the permit or operations under the permit have been abandoned; or
- (4) the permit is no longer needed by the permittee.

(d) The notice required by Subsections (b) and (c) of this section shall be sent to the permittee at his last known address as shown by the records of the department.

- (2) the location of the point of discharge of the waste;
- (3) the maximum quantity of waste that may be discharged under the permit at any time and from time to time;
- (4) the character and quality of waste that may be discharged under the permit; and
- (5) any monitoring and reporting requirements prescribed by the commission for the permittee.

(b) After a public hearing, notice of which shall be given to the permittee, the commission may require the permittee, from time to time, for good cause, in conformance with applicable laws, to conform to new or additional conditions.

(c) A permit does not become a vested right in the permittee. After a public hearing in conformance with applicable laws, notice of which shall be given to the permittee, the commission may revoke or suspend a permit for good cause on any of the following grounds:

- (1) the permittee has failed or is failing to comply with the conditions of the permit;
- (2) the permit is subject to cancellation or suspension under Section 26.084 of this code;
- (3) the permit or operations under the permit have been abandoned;
- (4) the permit is no longer needed by the permittee;
- (5) the commission finds that a change in conditions requires elimination of the discharge;
- (6) revocation or suspension is necessary in order to maintain the quality of water in the state consistent with the objectives of this chapter; or
- (7) the permit was obtained by misrepresentation or failure to disclose fully all relevant facts.

(d) The notice required by Subsections (b) and (c) of this section shall be sent to the permittee at his last known address as shown by the records of the department.

(e) If the permittee requests or consents to the revocation or suspension of the permit, the executive director may revoke or suspend the permit.

*For text of section effective until delegation of NPDES permit authority, see § 26.029, ante*

For effective date of Acts 1977, 65th Leg., ch. 644, see note under § 26.001. Section 45 of the 1981 amendatory act provides:

"Section 26.029, Water Code, as amended by this Act, takes effect at the same time as other sections of this Act and shall remain in effect without regard to the assumption of full or partial delegation of NPDES permit authority by the department from the administrator of the United States Environmental Protection Agency under Section 402(b) of the Federal Water Pollution Control Act or the maintenance of the NPDES permit authority."

**§ 26.030. Permit: Effect on Recreational Water**

In considering the issuance of a permit to discharge effluent into any body of water having an established recreational standard, the commission shall consider any unpleasant odor quality of the effluent and the possible adverse effect that it might have on the receiving body of water, and the commission may consider the odor as one of the elements of the water quality of the effluent. [Amended by Acts 1977, 65th Leg., p. 2207, ch. 870, § 1, eff. Sept. 1, 1977.]

**§ 26.031. Private Sewage Facilities**

(a) As used in this section and Section 26.032 of this code, "private sewage facilities" means septic tanks, pit privies, cesspools, sewage holding tanks, injection wells used to dispose of sewage, chemical toilets, treatment tanks, and all other facilities, systems, and methods used for the disposal of sewage

other than disposal systems operated under a permit issued by the commission.

(b) Whenever it appears that the use of private sewage facilities in an area is causing or may cause pollution or is injuring or may injure the public health, the board may hold a public hearing in or near the area to determine whether rules should be adopted controlling or prohibiting the installation or use of private sewage facilities in the area.

(c) Before the board adopts its rules, the executive director shall consult with the commissioner of the Texas Department of Health for recommendations concerning the impact of the use of private sewage facilities in the area on public health and present the recommendations at the hearing.

(d) If the board finds after the hearing that the use of private sewage facilities in an area is causing or may cause pollution or is injuring or may injure the public health, the board may adopt rules as it may consider appropriate to abate or prevent pollution or injury to public health.

(e) The rules may, without limitation, do one or more of the following:

(1) limit the number and kind of private sewage facilities which may be used in the area;

(2) prohibit the installation and use of additional private sewage facilities or kinds of private sewage facilities in the area;

(3) require modifications or improvements to existing private sewage facilities or impose limitations on their use; and

(4) provide for a gradual and systematic reduction of the number or kinds of private sewage facilities in the area.

(f) The board may provide in the rules for a system of licensing of private sewage facilities in the area, including procedures for cancellation of a license for violation of this section, the license, or the rules of the department. The board may also provide in the system of licensing for periodic renewal of the licenses, but this may not be required more frequently than once a year.

(g) The board may delegate the licensing function and the administration of the licensing system to the executive director or to any local government whose boundaries include the area or which has been designated by the board under Sections 26.081 through 26.086 of this code as the agency to develop a regional waste disposal system which includes the area or to any district or authority created and existing under Article XVI, Section 59 or Article III, Section 52 of the Texas Constitution, which owns or operates a dam or reservoir project within the area regulated.

(h) The board also may prescribe and require the payment of reasonable license fees by an applicant for a license, including fees for periodic renewal of a license. The board may change the amount of the license fees from time to time. The amount of the fees shall be based on the reasonable cost of per-

forming the licensing function and administering the licensing system, including, where applicable, costs of soil percolation and other tests to determine the suitability of using a particular type or types of private sewage facilities in the area or at any location within the area, field inspections, travel, and other costs directly attributable to performing the licensing function and administering the licensing system.

(i) If the board or the executive director has the responsibility for performing the licensing function, the license fees shall be paid to the department. Those fees shall not be deposited in the General Revenue Fund of the state but shall be deposited in a special fund for use by the department in performing the licensing function and administering the licensing system, and the fees so deposited are hereby appropriated to the department to use for those purposes only.

(j) If a local government has the responsibility for performing the licensing function, the fees shall be paid to the local government.

[Amended by Acts 1977, 65th Leg., p. 2207, ch. 870, § 1, eff. Sept. 1, 1977; Acts 1981, 67th Leg., p. 961, ch. 367, § 1, eff. June 10, 1981.]

#### § 26.032. Control by Counties

(a) Whenever it appears to the commissioners court of any county that the use of private sewage facilities in an area within the county is causing or may cause pollution or is injuring or may injure the public health, the county may proceed in the same manner and in accordance with the same procedures as the board to hold a public hearing and enter an order, resolution, or other rule as it may consider appropriate to abate or prevent pollution or injury to public health.

(b) The order, resolution, or other rule may provide the same restrictions and requirements as are authorized for an order of the board entered under this section.

(c) Before the order, resolution, or other rule becomes effective, the county shall submit it to the board and obtain the board's written approval.

(d) In the event of any conflict within an area between rules adopted by the board and an order, resolution, or other rule adopted by a county under this section, the rules of the board shall take precedence.

(e) Where a system of licensing has been adopted by the board or the commissioners court of a county, no person may install or use private sewage facilities required to be licensed without obtaining a license. [Amended by Acts 1977, 65th Leg., p. 2207, ch. 870, § 1, eff. Sept. 1, 1977; Acts 1981, 67th Leg., p. 961, ch. 367, § 1, eff. June 10, 1981.]

#### § 26.033. Rating of Waste Disposal Systems

(a) After consultation with the Texas Department of Health Resources, the board shall provide by rule

for a system of approved ratings for municipal waste disposal systems and other waste disposal systems which the board may designate.

(b) The owner or operator of a municipal waste disposal system which attains an approved rating has the privilege of erecting signs of a design approved by the board on highways approaching or inside the boundaries of the municipality, subject to reasonable restrictions and requirements which may be established by the State Department of Highways and Public Transportation.

(c) In addition, the owner or operator of any waste disposal system, including a municipal system, which attains an approved rating has the privilege of erecting signs of a design approved by the board at locations which may be approved or established by the board, subject to such reasonable restrictions and requirements which may be imposed by any governmental entity having jurisdiction.

(d) If the waste disposal system fails to continue to achieve an approved rating, the commission may revoke the privilege. On due notice from the commission, the owner or operator of the system shall remove the signs.

[Amended by Acts 1977, 65th Leg., p. 2207, ch. 870, § 1, off. Sept. 1, 1977.]

§ 26.034. Approval of Disposal System Plans

(a) The executive director shall review and approve plans and specifications for treatment works for which financial assistance is provided in any amount from water quality enhancement funds or funds granted under the Federal Water Pollution Control Act, as amended. The Texas Department of Health shall review and approve plans in those cases where such financial assistance or federal grant has not been requested except when notice of intention to apply for the financial assistance or federal grant has been given to the executive director in which case the executive director shall perform review and approval functions. Duplicate review and approval will not be performed and actions on review and approval shall be fully interchangeable between the executive director and the Texas Department of Health.

(b) Before beginning construction, every person who proposes to construct or materially alter the efficiency of any treatment works to which this section applies shall submit completed plans and specifications to the executive director for review and approval.

(c) The executive director shall approve the plans and specifications if they conform to the waste discharge requirements and water quality standards established by the commission and the board respectively.

[Amended by Acts 1977, 65th Leg., p. 2207, ch. 870, § 1, off. Sept. 1, 1977; Acts 1981, 67th Leg., p. 961, ch. 387, § 1, off. June 10, 1981.]

§ 26.035. Federal Grants

The executive director with the approval of the board may execute agreements with the United States Environmental Protection Agency or any other federal agency that administers programs providing federal cooperation, assistance, grants, or loans for research, development, investigation, training, planning, studies, programming, and construction related to methods, procedures, and facilities for the collection, treatment, and disposal of waste or other water quality control activities. The department may accept federal funds for these purposes and for other purposes consistent with the objectives of this chapter and may use the funds as prescribed by law or as provided by agreement.

[Amended by Acts 1977, 65th Leg., p. 2207, ch. 870, § 1, off. Sept. 1, 1977.]

§ 26.036. Water Quality Management Plans

(a) The executive director shall develop and prepare, and from time to time revise, comprehensive water quality management plans for the different areas of the state, as designated by the board.

(b) The executive director may contract with local governments, regional planning commissions, planning agencies, other state agencies, colleges and universities in the state, and any other qualified and competent person to assist the department in developing and preparing, and from time to time revising, water quality management plans for areas designated by the board.

(c) With funds provided for the purpose by legislative appropriation, the board may make grants or interest-free loans to, or contract with, local governments, regional planning commissions, and planning agencies to pay administrative and other expenses of such entities for developing and preparing, and from time to time revising, water quality management plans for areas designated by the board. The period of time for which funding under this provision may be provided for developing and preparing or for revising a plan may not exceed three consecutive years in each instance. Any loan made pursuant to this subsection shall be repaid when the construction of any project included in the plan is begun.

(d) Any person developing or revising a plan shall, during the course of the work, consult with the department and with local governments and other federal, state, and local governmental agencies which in the judgment of the executive director may be affected by or have a legitimate interest in the plan.

(e) Insofar as may be practical, the water quality management plans shall be reasonably compatible with the other governmental plans for the area, such as area or regional transportation, public utility, zoning, public education, recreation, housing, and other related development plans.

[Amended by Acts 1977, 65th Leg., p. 2207, ch. 870, § 1, off. Sept. 1, 1977.]

**§ 26.037. Approval of Plans**

(a) After a water quality management plan has been prepared or significantly revised as authorized in Section 26.036 of this code, it shall be submitted to the board and to such local governments and other federal, state, and local governmental agencies as in the judgment of the executive director may be affected by or have a legitimate interest in the plan.

(b) After a reasonable period of time as determined by the board for the persons to whom the plan was submitted to review and consult on the plan, a public hearing shall be held on whether the plan should be approved or whether the plan should be modified in any way. Notice of the hearing shall be given to the person or persons who prepared or revised the plan and to the persons to whom the plan was submitted for review.

(c) After the public hearing if the board finds that the plan complies with the policy and purpose of this chapter and the rules and policies of the board, it shall approve the plan. If the board does not so find, it may disapprove the plan, modify the plan as necessary so that it will comply, or return it for further development and later resubmission to the board, in accordance with the procedure in Section 26.036 of this code.

(d) When a water quality management plan has been approved as provided in this section, the plan may be furnished to the Federal Environmental Protection Agency, the Federal Water Quality Administration, or any other federal official or agency in fulfillment of any federal water quality management planning requirement specified for any purpose by the federal government.

(e) The board and the commission may use an approved water quality management plan or a plan in progress but not completed or approved in reviewing and making determinations on applications for permits and on applications for financial assistance for construction of treatment works.

[Amended by Acts 1977, 65th Leg., p. 2207, ch. 870, § 1, eff. Sept. 1, 1977.]

**§ 26.038. Fiscal Control on Water Quality Management Planning**

In administering the program for making grants and loans to and contracting with local governments, regional planning commissions, and planning agencies as authorized in Subsection (c) of Section 26.036 of this code, the board shall adopt rules and procedures for the necessary engineering review and supervision, fiscal control, and fund accounting. The fiscal control and fund accounting procedures are supplemental to other procedures prescribed by law.

[Amended by Acts 1977, 65th Leg., p. 2207, ch. 870, § 1, eff. Sept. 1, 1977.]

**§ 26.039. Accidental Discharges and Spills**

(a) As used in this section:

(1) "Accidental discharge" means an act or omission through which waste or other substances are inadvertently discharged into water in the state.

(2) "Spill" means an act or omission through which waste or other substances are deposited where, unless controlled or removed, they will drain, seep, run, or otherwise enter water in the state.

(3) "Other substances" means substances which may be useful or valuable and therefore are not ordinarily considered to be waste, but which will cause pollution if discharged into water in the state.

(b) Whenever an accidental discharge or spill occurs at or from any activity or facility which causes or may cause pollution, the individual operating, in charge of, or responsible for the activity or facility shall notify the department as soon as possible and not later than 24 hours after the occurrence.

(c) Activities which are inherently or potentially capable of causing or resulting in the spillage or accidental discharge of waste or other substances and which pose serious or significant threats of pollution are subject to reasonable rules establishing safety and preventive measures which the board may adopt or issue. The safety and preventive measures which may be required shall be commensurate with the potential harm which could result from the escape of the waste or other substances.

(d) The provisions of this section are cumulative of the other provisions in this chapter relating to waste discharges, and nothing in this section exempts any person from complying with or being subject to any other provision of this chapter. [Amended by Acts 1977, 65th Leg., p. 2207, ch. 870, § 1, eff. Sept. 1, 1977.]

**§ 26.040. Control of Certain Waste Discharges by Rule**

Whenever the board determines that the quality of water in an area is adversely affected or threatened by the combined effects of several relatively small-quantity discharges of wastes being made for which it is not practical to issue individual permits or that the general nature of a particular type of activity which produces a waste discharge is such that requiring individual permits is unnecessarily burdensome both to the waste discharger and the department, the board may by rule regulate and set the requirements and conditions for the discharges of waste.

[Amended by Acts 1977, 65th Leg., p. 2207, ch. 870, § 1, eff. Sept. 1, 1977.]

**§ 26.041. Health Hazards**

The department may use any means provided by this chapter to prevent a discharge of waste that is injurious to public health.

[Amended by Acts 1977, 65th Leg., p. 2207, ch. 870, § 1, eff. Sept. 1, 1977.]

§ 26.042. Monitoring and Reporting

*Text of section effective until delegation of NPDES permit authority*

The board may prescribe reasonable requirements for a person making waste discharges to monitor and report on his waste collection, treatment, and disposal activities. When in the judgment of the commission significant water quality management benefits will result or water quality management needs justify, the commission may also prescribe reasonable requirements for any person or persons making waste discharges to monitor and report on the quality of any water in the state which the commission has reason to believe may be materially affected by the waste discharges.

[Amended by Acts 1977, 65th Leg., p. 2207, ch. 870, § 1, eff. Sept. 1, 1977.]

(a) The board may prescribe reasonable requirements for a person making discharges of any waste or of any pollutant to monitor and report on his activities concerning collection, treatment, and disposal of the waste or pollutant.

(b) The board may, by regulation, order, permit, or otherwise require the owner or operator of any source of a discharge of pollutants into any water in the state or of any source which is an industrial user of a publicly owned treatment works to:

- (1) establish and maintain such records;
- (2) make such reports;
- (3) sample any discharges in accordance with such methods, at such locations, at such intervals, and in such manner as the board shall prescribe; and
- (4) provide such other information relating to discharges of pollutants into any water in the state or to introductions of pollutants into publicly owned treatment works as the board may reasonably require.

(c) When in the judgment of the commission significant water quality management benefits will result or water quality management needs justify, the commission may also prescribe reasonable requirements for any person or persons making discharges of any waste or of any pollutant to monitor and report on the quality of any water in the state which the commission has reason to believe may be materially affected by the discharges.

[Amended by Acts 1977, 65th Leg., p. 1640, ch. 644, § 1; Acts 1977, 65th Leg., p. 2207, ch. 870, § 1, eff. Sept. 1, 1977.]

§ 26.043. The State of Texas Water Pollution Control Compact

(a) The legislature recognizes that various river authorities and municipal water districts and authorities of the state have signed, and that others are authorized to sign and may sign, a document entitled "The State of Texas Water Pollution Control Compact" (hereinafter called the "compact"), which was approved by Order of the Texas Water Quality Board on March 26, 1971, and which is now on file in the official records of the department, wherein each of the signatories is by law an official agency of the state, created pursuant to Article XVI, Section 59 of the Texas Constitution and operating on a multiple county or regional basis, and that collectively those signatories constitute an agency of the state authorized to agree to pay, and to pay, for and on behalf of the state not less than 25 percent of the estimated costs of all water pollution control projects in the state, wherever located, for which federal grants are to be made pursuant to Clause (7), Subsection (b), Section 1158,<sup>1</sup> Federal Water Pollution Control Act, as amended (33 U.S.C. Section 1158), or any similar law, in accordance with and subject to the terms and conditions of the compact. The compact provides a method for taking advantage of increased federal grants for water pollution control projects by virtue of the state payment which will be made from the proceeds from the sale of bonds by the signatories to the compact. The compact is hereby ratified and approved, and it is hereby provided that Section 30.026 of this code shall not constitute a limitation or restriction on any signatory with respect to any contract entered into pursuant to the compact or with respect to any water pollution control project in the state, wherever located, for which the aforesaid federal grants are to be made, and such signatory shall not be required to obtain the consent of any other river authority or conservation and reclamation district which is not a signatory with respect to any such contract or project. Each signatory to the compact is empowered and authorized to do any and all things and to take any and all action and to execute any and all contracts and documents which are necessary or convenient in carrying out the purposes and objectives of the compact and issuing bonds pursuant thereto, with reference to any water pollution control project in the state, wherever located, for which the aforesaid federal grants are to be made.

(b) It is further found, determined, and enacted that all bonds issued pursuant to said compact and all bonds issued to refund or refinance same are and will be for water quality enhancement purposes, within the meaning of Article III, Section 49-d-1, as amended, of the Texas Constitution and any and all bonds issued by a signatory to said compact to pay for all or any part of a project pursuant to the compact and any bonds issued to refund or refinance any such bonds may be purchased by the Texas Water Development Board with money received

from the sale of Texas Water Development Board bonds pursuant to said Article III, Section 49-d-1, as amended, of the Texas Constitution. The bonds or refunding bonds shall be purchased directly from any such signatory at such price as is necessary to provide the state payment and any other part of the cost of the project or necessary to accomplish the refunding, and all purchases shall constitute loans for water quality enhancement. The bonds or refunding bonds shall have the characteristics and be issued on such terms and conditions as are acceptable to the board. The proceeds received by any such signatory from the sale of any such bonds shall be used to provide the state payment pursuant to the compact and any other part of the cost of the project, and the proceeds from the sale of any such refunding bonds to refund any outstanding bonds issued pursuant to the compact shall be used to pay off and retire the bonds being refunded thereby.

(c) This subsection is not intended to interfere in any way with the operation of Article III, Section 49-d-1, as amended, of the Texas Constitution or the enabling legislation enacted pursuant thereto, and the aforesaid compact shall constitute merely a complementary or supplemental method for providing the state payment solely in instances that it is deemed necessary or advisable by the board.

[Amended by Acts 1977, 65th Leg., p. 2207, ch. 870, § 1, eff. Sept. 1, 1977.]

#### § 26.044. Disposal of Boat Sewage

(a) As used in this section, "boat" means any vessel or other watercraft, whether moved by oars, paddles, sails, or other power mechanism, inboard or outboard, or any other vessel or structure floating on water in this state, whether or not capable of self-locomotion, including but not limited to cabin cruisers, houseboats, barges, marinas, and similar floating objects.

(b) The board shall issue rules concerning the disposal of sewage from boats located or operated on inland fresh waters in this state. The rules of the board shall include but not be limited to provisions for the establishment of standards for sewage disposal devices, the certification of sewage disposal devices, including on-shore pump-out facilities, and the visible and conspicuous display of evidence of certification of sewage disposal devices on each boat equipped with such device and on each on-shore pump-out device.

(c) The board may delegate the administration and performance of the certification function to the executive director or to any other governmental entity. The board may prescribe and require the payment, by applicants for certification, of reasonable fees based on the costs of administering and performing the certification function. All certification fees shall be paid to the entity performing the certification function. All fees collected by any state agency shall be deposited in a special fund for

use by that agency in administering and performing the certification function and shall not be deposited in the General Revenue Fund of the state.

(d) Before issuing any rules under Subsection (b) of this section, the board or any person authorized by it under Section 26.021 of this code shall hold hearings thereon in Austin and in five other locations in the state in order to provide the best opportunity for all citizens of the state to appear and present evidence to the board.

(e) Notice of the hearing in Austin shall be published at least once in one or more newspapers having general circulation in the state. Notice of each of the other hearings shall be published at least once in one or more newspapers having general circulation in the region in which each hearing is to be held.

(f) Copies of each rule issued by the board under this section shall be filed in the offices of the department in Austin, Texas, in the office of the Secretary of State in Austin, and the office of the county clerk in each county in the state. The board shall provide for publication of notice of each rule issued under this section in at least one newspaper of general circulation in each county of the state and shall furnish the county judge of each county of the state a copy of the rules.

#### § 26.045. Pump-Out Facilities for Boat Sewage

(a) In this section:

(1) "Boat" means the same as defined in Section 26.044(a), Water Code.

(2) "Boat pump-out station" means any private or public shoreside installation either independent of or in addition to an organized waste collection, treatment, and disposal system used to receive boat sewage.

(3) "Shoreside installation" means marinas and other installations servicing boats on fresh water of Texas.

(4) "Fresh water" means as geographically applied all of the surface lakes, streams, and reservoirs of the state, exclusive of the extent of ordinary tidal action on this water.

(b) After a public hearing and after making every reasonable effort to bring about the establishment of an adequate number of boat pump-out stations on fresh water, the commission may enter an order requiring the establishment of boat pump-out stations by a local government that has any jurisdiction over at least a portion of the fresh water or over land immediately adjacent to the fresh water.

(c) If a local government is authorized to issue authorization for the operation of shoreside installations, the local government may require the installation and operation of boat pump-out stations where necessary. The local government shall require the installation and operation of boat pump-out stations if required by the commission.

(d) A local government responsible for establishing boat pump-out stations may issue bonds or may use general revenue funds from normal operations to finance the construction and operation of the pump-out facilities. Pump-out stations established as a result of this section will be self-sustaining with respect to costs and revenues collected from users of said facilities, and local governments are authorized to levy reasonable, appropriate charges or fees to recover cost of installation and operation of the pump-out stations. Nothing in this section is to be construed to require any local government to rebate to the State of Texas funds collected pursuant to this program.

(e) The hearings required by this section and other acts of the commission in carrying out the provisions of this section shall be handled as provided in the rules of the board.

[Amended by Acts 1977, 65th Leg., p. 2207, ch. 870, § 1, eff. Sept. 1, 1977.]

**§ 26.046. Hearings on Protection of Edwards Aquifer From Pollution**

(a) As used in this section, "Edwards Aquifer" means that portion of an arcuate belt of porous, waterbearing limestones composed of the Comanche Peak, Edwards, and Georgetown formations trending from west to east to northeast through Kinney, Uvalde, Medina, Bexar, Kendall, Comal, and Hays counties, respectively, and as defined in the most recent rules of the board for the protection of the quality of the potable underground water in those counties.

(b) Annually, the board shall hold a public hearing in Kinney, Uvalde, Medina, Bexar, Kendall, Comal, or Hays County, and a hearing in any other of those counties whose commissioners court requests that a hearing be held in its county, to receive evidence from the public on actions the board should take to protect the Edwards Aquifer from pollution. Notice of the public hearing shall be given and the hearing shall be conducted in accordance with the rules of the department.

**[§ 26.047.]<sup>1</sup> Permit Conditions and Pretreatment Standards Concerning Publicly Owned Treatment Works**

*Text of section added effective upon delegation of NPDES permit authority*

(b) The board is authorized to impose as conditions in permits for the discharge of pollutants from

publicly owned treatment works appropriate measures to establish and insure compliance by industrial users with any system of user charges required under state or federal law or any regulations or guidelines promulgated thereunder.

(c) The board is authorized to apply, and to enforce pursuant to Subchapter E of this code,<sup>2</sup> against industrial users of publicly owned treatment works, toxic effluent standards and pretreatment standards for the introduction into such treatment works of pollutants which interfere with, pass through, or otherwise are incompatible with such treatment works.

**[§ 26.048.]<sup>1</sup> Federal Grants for the Construction of Treatment Works; Processing Fees**

(a) The board may execute agreements with the United States Environmental Protection Agency or its successor agency and any other federal agency that administers programs providing federal grants to local governments for the construction of treatment works, as defined in Section 21.602<sup>2</sup> of this code. The board may exercise all duties and responsibilities required for the administration by the board of the federal construction grant program.

#### SUBCHAPTER C. REGIONAL AND AREA-WIDE SYSTEMS

##### § 26.081. Regional or Area-Wide Systems; General Policy

(a) The legislature finds and declares that it is necessary to the health, safety, and welfare of the people of this state to implement the state policy to encourage and promote the development and use of regional and area-wide waste collection, treatment, and disposal systems to serve the waste disposal needs of the citizens of the state and to prevent pollution and maintain and enhance the quality of the water in the state.

(b) Within any standard metropolitan statistical area in the state, the department is authorized to implement this policy in the manner and in accordance with the procedure provided in Sections 26.081 through 26.086 of this code.

(c) In those portions of the state which are not within a standard metropolitan statistical area, the department shall observe this state policy by encouraging interested and affected persons to cooperate in developing and using regional and area-wide systems. The department may not use the procedure specified in Sections 26.081 through 26.086 of this code in these areas to implement this policy. However, this does not affect or diminish any authority which the department may otherwise have and exercise under other provisions of this chapter.

(d) The term "standard metropolitan statistical area," as used in this section, means an area consisting of a county or one or more contiguous counties which is officially designated as such by the United States Office of Management and Budget or its successor in this function.

##### § 26.082. Hearing to Define Area of Regional or Area-Wide Systems

(a) Whenever it appears to the board that because of the existing or reasonably foreseeable residential, commercial, industrial, recreational, or other economic development in an area a regional or area-wide waste collection, treatment, or disposal system or systems are necessary to prevent pollution or maintain and enhance the quality of the water in the state, the board may hold a public hearing in or near the area to determine whether the policy stated in Section 26.081 of this code should be implemented in that area.

(b) Notice of the hearing shall be given to the local governments which in the judgment of the board may be affected.

(c) If after the hearing the board finds that a regional or area-wide system or systems are necessary or desirable to prevent pollution or maintain and enhance the quality of the water in the state, the board may enter an order defining the area in which such a system or systems are necessary or desirable.

[Amended by Acts 1977, 65th Leg., p. 2207, ch. 870, § 1, eff. Sept. 1, 1977.]

##### § 26.083. Hearing to Designate Systems to Serve the Area Defined; Order; Election; Etc.

(b) Notice of the hearing shall be given to the local governments and to owners and operators of any waste collection, treatment, and disposal systems who in the judgment of the board may be affected.

(c) If after the hearing the board finds that there is an existing or proposed system or systems then capable or which in the reasonably foreseeable future will be capable of serving the waste collection, treatment, or disposal needs of all or part of the area defined and that the owners or operators of the system or systems are agreeable to providing the services, the board may enter an order designating the person to provide the waste collection, treatment, or disposal system or systems to serve all or part of the area defined.

(d) After the board enters an order under Subsection (c) of this section and if the board receives a timely and sufficient request for an election as provided in Section 21.206, the board shall designate a presiding judge for an election, to determine whether the proposed regional or area-wide system or systems operated by the designated regional entity should be created.

(2) that the owner or operator of the designated regional or area-wide system is agreeable to providing the service;

(3) that it is feasible for the service to be provided on the basis of waste collection, treatment, and disposal technology, engineering, financial, and related considerations existing at the time, exclusive of any loss of revenue from any existing or proposed waste collection, treatment, or disposal systems in which the person or persons who are the subject of an action taken under this section have an interest;

(4) that inclusion of the person or persons who are the subject of an action taken by the commission under this section will not suffer undue financial hardship as a result of inclusion in a regional or area-wide system; and

(5) that a majority of the votes cast in any election held under Section 21.206<sup>1</sup> of this code favor the creation of the regional or area-wide system or systems operated by the designated regional entity.

(c) An action taken by the commission under Section 26.085 of this code, excluding any person or persons from a regional or area-wide system because the person or persons will suffer undue financial

hardship as a result of inclusion in the regional or area-wide system, shall be subject to a review at a later time determined by the commission in accordance with the criteria set out in this section, not to exceed three years from the date of exclusion.

(d) If a person or persons excluded from a regional or area-wide system fail to operate the excluded facilities in a manner that will comply with its permits, the permits shall be subject to cancellation after review by the commission, and the facilities may become a part of the regional or area-wide system.

(b) Notice of the hearing shall be given to the owner or operator of the designated regional or area-wide system, the person requesting the hearing, and any other person who in the judgment of the commission may be affected by the action taken by the commission as a result of the hearing.

The notice shall be published once a week for two consecutive weeks in a newspaper with general circulation in the county or counties in which the regional or area-wide system or systems is to be located. The first publication of the notice shall be at least 14 days before the day set for the election. Notice of the election shall be given to the local governments and to owners and operators of any waste collection, treatment, and disposal systems who in the judgment of the board may be affected.

(d) Absentee balloting in the election shall begin 10 days before the election and shall end as provided in the Texas Election Code. The ballots for the election shall be printed to provide for voting for or against the regional or area-wide system to be operated by the designated regional entity.

A local government may inspect the public water in its area and determine whether or not:

(1) the quality of the water meets the state water quality standards adopted by the board;

(2) persons discharging effluent into the public water located in the areas of which the local government has jurisdiction have obtained permits for discharge of the effluent; and

(3) persons who have permits are making discharges in compliance with the requirements of the permits.

[Amended by Acts 1977, 65th Leg., p. 2207, ch. 870, § 1, eff. Sept. 1, 1977.]

**§ 26.172. Recommendations to Board**

[Amended by Acts 1977, 65th Leg., p. 2207, ch. 870, § 1, eff. Sept. 1, 1977.]

**§ 26.173. Power to Enter Property**

(a) A local government has the same power as the department has under Section 26.014 of this code to enter public and private property within its territorial jurisdiction to make inspections and investigations of conditions relating to water quality. The local government in exercising this power is subject to the same provisions and restrictions as the department.

<sup>1</sup>Section 26.121 et seq.

**§ 26.175. Cooperative Agreements**

(a) A local government may execute cooperative agreements with the department or other local governments:

(1) to provide for the performance of water quality management, inspection, and enforcement functions and to provide technical aid and educational services to any party to the agreement; and

(2) for the transfer of money or property from any party to the agreement to another party to the agreement for the purpose of water quality management, inspection, enforcement, technical aid and education, and the construction, ownership, purchase, maintenance, and operation of disposal systems.

(b) When in the opinion of the executive director it would facilitate and enhance the performance by a local government of its water quality management, inspection, and enforcement functions pursuant to a cooperative agreement between the local government and the department as authorized in Subsection (a) of this section, the executive director may assign and delegate to the local government during the period of the agreement such of the pertinent powers and functions vested in the department under this chapter as in the judgment of the executive director may be necessary or helpful to the local government in performing those management, inspection, and enforcement functions.

(c) At any time and from time to time prior to the termination of the cooperative agreement, the executive director may modify or rescind any such assignment or delegation.

(d) The executive director shall notify immediately a local government to whom it assigns or delegates any powers and functions pursuant to Subsections (b) and (c) of this section or as to when it modifies or rescinds any such assignment or delegation.

[Amended by Acts 1977, 65th Leg., p. 2207, ch. 870, § 1, eff. Sept. 1, 1977.]

**§ 26.176. Disposal System Rules**

(a) Every local government which owns or operates a disposal system is empowered to and shall, except as authorized in Subsection (c) of this section, enact and enforce rules, ordinances, orders, or resolutions, referred to in this section as rules, to control and regulate the type, character, and quality of waste which may be discharged to the disposal system and, where necessary, to require pretreatment of waste to be discharged to the system, so as to protect the health and safety of personnel maintaining and operating the disposal system and to prevent unreasonable adverse effects on the disposal system.

(b) The local government in its rules may establish the charges and assessments which may be made to and collected from all persons who discharge waste to the disposal system or who have conduits or other facilities for discharging waste connected to

the disposal system, referred to in this subsection as "users." The charges and assessments shall be equitable as between all users and shall correspond as near as can be practically determined to the cost of making the waste disposal services available to all users and of treating the waste of each user or class of users. The charges and assessments may include user charges, connection fees, or any other methods of obtaining revenue from the disposal system available to the local government. In establishing the charges and assessments, the local government shall take into account:

- (1) the volume, type, character, and quality of the waste of each user or class of users;
- (2) the techniques of treatment required;
- (3) any capital costs and debt retirement expenses of the disposal system required to be paid for from the charges and assessments;
- (4) the costs of operating and maintaining the system to comply with this chapter and the permits, rules, and orders of the department; and
- (5) any other costs directly attributable to providing the waste disposal service under standard, accepted cost-accounting practices.

(c) A local government may apply to the commission for an exception from the requirements of Subsections (a) and (b) of this section or for a modification of those requirements. The application shall contain the exception or modifications desired, the reasons the exception or modifications are needed, and the grounds authorized in this subsection on which the commission should grant the application. A public hearing on the application shall be held in or near the territorial area of the local government, and notice of the hearing shall be given to the local government. If after the hearing the commission in its judgment determines that the volume, type, character, and quality of the waste of the users of the system or of a particular user or class of users of the system do not warrant the enactment and enforcement of rules containing the requirements prescribed in Subsections (a) and (b) of this section or that the enactment and enforcement of the rules would be impractical or unreasonably burdensome on the local government in relation to the public benefit to be derived, then the commission in its discretion may enter an order granting an exception to those requirements or modifying those requirements in any particular in response to circumstances shown to exist.

(d) At any time and from time to time as circumstances may require, the commission may amend or revoke any order it enters pursuant to Subsection (c) of this section. Before the commission amends or revokes such an order, a public hearing shall be held in or near the territorial area of the local government in question, and notice of the hearing shall be given to the local government. If after the hearing the commission in its judgment determines that the circumstances on which it based the order have changed significantly or no longer exist, the commis-

sion may revoke the order or amend it in any particular in response to the circumstances then shown to exist.

(e) In the event of any conflict between the provisions of this section and any other laws or parts of laws, the provisions of this section shall control. [Amended by Acts 1977, 65th Leg., p. 2207, ch. 870, § 1, eff. Sept. 1, 1977.]

**§ 26.177. Water Pollution Control Duties of Cities**

(a) Every city in this state having a population of 5,000 or more inhabitants shall, and any city of this state may, establish a water pollution control and abatement program for the city. The city shall employ or retain an adequate number of personnel on either a part-time or full-time basis as the needs and circumstances of the city may require, who by virtue of their training or experience are qualified to perform the water pollution control and abatement functions required to enable the city to carry out its duties and responsibilities under this section.

(b) The water pollution control and abatement program of a city shall encompass the entire city and may include areas within its extraterritorial jurisdiction which in the judgment of the city should be included to enable the city to achieve the objectives of the city for the area within its territorial jurisdiction. The city shall include in the program the services and functions which, in the judgment of the city or as may be reasonably required by the commission, will provide effective water pollution control and abatement for the city, including the following services and functions:

- (1) the development and maintenance of an inventory of all significant waste discharges into or adjacent to the water within the city and, where the city so elects, within the extraterritorial jurisdiction of the city, without regard to whether or not the discharges are authorized by the department;
- (2) the regular monitoring of all significant waste discharges included in the inventory prepared pursuant to Subdivision (1) of this subsection;
- (3) the collecting of samples and the conducting of periodic inspections and tests of the waste discharges being monitored to determine whether the discharges are being conducted in compliance with this chapter and any applicable permits, orders, or rules of the department, and whether they should be covered by a permit from the commission;
- (4) in cooperation with the department, a procedure for obtaining compliance by the waste dischargers being monitored, including where necessary the use of legal enforcement proceedings; and
- (5) the development and execution of reasonable and realistic plans for controlling and abating pollution or potential pollution resulting from generalized discharges of waste which are not tracea-

ble to a specific source, such as storm sewer discharges and urban runoff from rainwater.

[Amended by Acts 1977, 65th Leg., p. 2207, ch. 870, § 1, eff. Sept. 1, 1977.]

(b) The board may issue rules necessary and convenient to carry out the purposes of this subchapter.

(c) The executive director shall enforce the provisions of this subchapter and any rules given effect pursuant to Subsection (b) of this section.

(d) The executive director with the approval of the board may contract with any public agency or private persons or other entity for the purpose of implementing this subchapter.

(e) The executive director shall solicit the assistance of and cooperate with local governments, the federal government, other agencies and departments of this state, and private persons and other entities to develop regional contingency plans for prevention and control of oil and hazardous substance spills and discharges.

(f) The department and the State Department of Highways and Public Transportation, in cooperation with the governor and the United States Coast Guard, shall develop a contractual agreement whereby personnel, equipment, and materials in possession or under control of the State Department of Highways and Public Transportation may be diverted and utilized for spill and discharge cleanup as provided for in this subchapter. Under the agreement, the following conditions shall be met:

(1) the department and the State Department of Highways and Public Transportation shall develop and maintain written agreements and contracts on how such utilization will be effected, and designating agents for this purpose;

(2) personnel, equipment, and materials may be diverted only with the approval of the department and the State Department of Highways and Public Transportation, acting through their designated agents, or by action of the governor;

The executive director shall place the resources of the state at the disposal of the on-scene coordinator, if he is present, or shall engage in cleanup activities when directed to do so by the on-scene coordinator.

(2) Nothing in this subchapter shall prevent the executive director from acting independently if no on-scene coordinator is present and no action is being taken by an agency of the federal government.

(3) The department shall seek reimbursement from the designated agencies of the federal government for the reasonable costs incurred in cleanup operations, including but not limited to costs of personnel, equipment, the use of equipment, and supplies.

(b) In the event that the responsible party is unwilling or in the opinion of the executive director is unable to remove the discharge or spill, or the removal operation of such party is inadequate, the department may undertake the removal of the discharge or spill and may retain agents for these purposes who shall operate under the direction of the executive director.

(c) Any discharge or spill of oil or hazardous substance, the source of which is unknown, occurring in coastal waters or in waters beyond the jurisdiction of this state and which may reasonably be expected to enter coastal water may be removed by or under the direction of the executive director. Any expense involved in the removal of an unexplained discharge pursuant to this subsection shall be paid, on the board's approval, from the fund, subject to the authority of the board to seek reimbursement from an agency of the federal government, and from the responsible party if the identity of that party is discovered.

(d) In any activity undertaken pursuant to this section, the department shall act in accordance with the national contingency plan authorized by the Federal Water Pollution Control Act, as amended,<sup>1</sup> and with Section 26.264(h) of this code.

(5) "Pollutant or contaminant" includes any element, substance, compound, or mixture, including disease-causing agents, that after release into the environment and on exposure, ingestion, inhalation, or assimilation into any organism, either directly from the environment or indirectly by ingestion through food chains, will or may reasonably be anticipated to cause death, disease, behavioral abnormalities, cancer, genetic mutation, physiological malfunctions, including malfunctions in reproduction, or physical deformations in those organisms or their offspring. The term does not include petroleum, including crude oil and any fraction of crude oil that are not otherwise specifically listed or designated as hazardous substances under Sections 101(14)(A) through (F) of the environmental response law,<sup>3</sup> nor does it include natural gas, liquefied natural gas, or synthetic gas of pipeline quality or mixtures of natural gas and such synthetic gas.

(6) "Release" means any spilling, leaking, pumping, pouring, emitting, emptying, discharging, injecting, escaping, leaching, dumping, or disposing into the environment, but excludes:

(B) emissions from the engine exhaust of a motor vehicle, rolling stock, aircraft, vessel, or pipeline pumping station engine;

(C) release of source, by-product, or special nuclear material from a nuclear incident, as those terms are defined in the Atomic Energy Act of 1954, as amended (42 U.S.C. 2011 et seq.) if the release is subject to requirements with respect to financial protection established by the Nuclear Regulatory Commission under Section 170 of that Act,<sup>4</sup> or, for the purposes of Section 104 of the environmental response law<sup>5</sup> or any other response action, any release of source, by-product, or special nuclear material from any processing site designated under Section 102(a)(1) or 302(a) of the Uranium Mill Tailings Radiation Control Act of 1978 (42 U.S.C. 7912 and 7942); and

(D) the normal application of fertilizer.

(7) "Removal" means the cleanup or removal of released hazardous substances, pollutants, or contaminants from the environment; the actions necessary to be taken in the event of the threat of release of hazardous substances, pollutants, or contaminants into the environment; the actions necessary to monitor, assess, and evaluate the release or threat of release of hazardous substances, pollutants, or contaminants; the disposal of removed material; or the taking of other actions as may be necessary to prevent, minimize, or mitigate damage to the public health or welfare or to the environment that may otherwise result from a release or threat of release. The term also includes security fencing or other measures to limit access, provision of alternate water supplies, temporary evacuation and housing of threatened individuals not otherwise provided for, action taken under Section 104(b) of the environmental response law, and any emergency assistance that may be provided under the Disaster Relief Act of 1974 (42 U.S.C. 5121 et seq.).

(8) "Remedial action" means those actions consistent with a permanent remedy taken instead of or in addition to removal actions in the event of a release or threatened release of a hazardous substance, pollutant, or contaminant into the environment to prevent or minimize the release of hazardous substances, pollutants, or contaminants so that they do not migrate to cause substantial danger to present or future public health or welfare or the environment. The term includes such actions at the location of the release as storage, confinement,

perimeter protection using dikes, trenches, or ditches, clay cover, neutralization, cleanup of released hazardous substances, pollutants, contaminants, or contaminated materials, recycling or reuse, diversion, destruction, segregation of reactive wastes, dredging or excavations, repair or replacement of leaking containers, collection of leachate and runoff, on-site treatment or incineration, provision of alternate water supplies, and any monitoring reasonably required to assure that those actions protect the public health and welfare and the environment. The term includes the costs of permanent relocation of residents and businesses and community facilities where the President of the United States determines that alone or in combination with other measures this relocation is more cost effective than and environmentally preferable to the transportation, storage, treatment, destruction, or secure disposition off site of hazardous substances, pollutants, or contaminants, or may otherwise be necessary to protect the public health or welfare. The term does not include off-site transport of hazardous substances or the storage, treatment, destruction, or secure disposition off site of the hazardous substances, pollutants, contaminants, or contaminated materials unless the president determines that those actions:

(A) are more cost effective than other remedial actions;

(B) will create new capacity to manage, in compliance with Subtitle C of the federal Solid Waste Disposal Act (42 U.S.C. 6921 et seq.), hazardous substances in addition to those located at the affected facility; or

(C) are necessary to protect public health or welfare or the environment from a present or potential risk that may be created by further exposure to the continued presence of those substances, pollutants, contaminants, or materials;

(9) "Response" means removal and remedial action.

#### § 30.026. Contracts by River Authority

Each river authority may make contracts authorized by this chapter with any person, including any public agency situated wholly or partly inside its boundaries and any public agency situated wholly or partly inside the river basin and any public agency situated wholly or partly inside the coastal basins adjoining its boundaries, but a river authority may not make contracts to serve a public agency situated wholly inside the boundaries of another river authority or to serve facilities of a person situated wholly within the boundaries of another river authority, except with the consent of the other river authority.

[Amended by Acts 1977, 65th Leg., p. 2207, ch. 870, § 1, eff. Sept. 1, 1977.]

**§ 30.027. Contract With Public Agency**

[Amended by Acts 1977, 65th Leg., p. 2207, ch. 870, § 1, eff. Sept. 1, 1977.]

**§ 30.028. Contract Provisions**

(a) The contract may provide for:

(1) duration of the contract for a specified period or until issued and unissued bonds and refunding bonds of the district are paid;

(2) assuring equitable treatment of parties who contract with the district for waste collection, transportation, treatment, and disposal services from the same disposal system;

(3) requiring the public agency to regulate the quality and strength of waste to be handled by the disposal system;

(4) sale or lease to or use by a district of all or part of a disposal system owned or to be acquired by the public agency;

(5) the district operating all or part of a disposal system owned or to be acquired by the public agency; and

(6) other terms the district or the governing body of the public agency consider appropriate or necessary.

(b) The contract shall specify the method for determining the amounts to be paid by the public agency to the district.

(c) A contract made by a city may provide that the district shall have the right to use the streets, alleys, and public ways and places inside the city during the term of the contract.

**§ 30.029. Continued Use of District Facilities**

After amortization of the district's investment in the disposal system, the public agency is entitled to continued performance of the service during the useful life of the disposal system, on payment of reasonable charges reduced to take into consideration the amortization.

[Amended by Acts 1977, 65th Leg., p. 2207, ch. 870, § 1, eff. Sept. 1, 1977.]

**§ 30.030. Source of Contract Payments**

(a) A public agency may pay for the waste collection, transportation, treatment, and disposal services with income from its waterworks system, sanitary sewer system, or both systems, or its combined water and sanitary sewer system, as prescribed by the contract. In the alternative, a joint board defined as a public agency in Section 30.003, Subdivision (3),

may pay for these services from any revenue or other funds within its control specified in the contract if the city councils of the cities which created the joint board approve, by ordinance, the contract between the joint board and the district. These payments constitute an operating expense of each system whose revenue is so used.

(b) The obligation of contract payments on the income of the public agency's water system is subordinate to the obligation imposed by any bonds that are payable solely from the water system net revenue and that are outstanding at the time the contract is made, unless the ordinance or resolution authorizing the bonds expressly reserved the right to give the contract payments a priority over the bond requirements.

(c) If a public agency having taxing power holds an election substantially according to the applicable provisions of Chapter 1, Title 22, Revised Civil Statutes of Texas, 1925, as amended,<sup>1</sup> relating to the issuance of bonds by cities and it is determined that the public agency is authorized to levy an ad valorem tax to make all or part of the payments under a contract with a district, then the contract is an obligation against the taxing power of the public agency to the extent authorized, and payments under the contract may be payable from and constitute solely an obligation against the taxing powers of the city or may be payable both from taxes and from revenue prescribed in the contract. Otherwise, neither the district nor the holders of the district's bonds are entitled to demand payment of the public agency's obligation out of any tax revenue.

[Amended by Acts 1977, 65th Leg., p. 2207, ch. 870, § 1, eff. Sept. 1, 1977.]

<sup>1</sup> Civil Statutes, art. 701 et seq.

**§ 30.031. Rates**

(a) When all or part of the payments under a contract are to be made from revenue of the waterworks system, sanitary sewer system, both systems, or a combination of both systems, the public agency shall establish, maintain, and periodically adjust the rates charged for services of the systems, so that the revenue, along with any taxes levied in support of the indebtedness, will be sufficient to pay:

(1) the expenses of operating and maintaining the systems;

(2) the obligations to the district under the contract; and

(3) the obligations of bonds that are secured by revenue of the systems.

(b) The contract may require the use of consulting engineers and financial experts to advise the public agency on the need for adjusting rates.

(c) Notwithstanding any provision of this chapter or any other law to the contrary, a district may use the proceeds of bonds issued for the purpose of constructing a waste disposal system or systems, and payable wholly or in part from ad valorem taxes, for

the purchase of capacity in, or a right to have the wastes of the district treated in, a waste collection, treatment, or disposal system and facilities owned or to be owned exclusively or in part by another public agency, and a district may issue bonds payable wholly or in part from ad valorem taxes specifically for such purpose if a majority of the resident electors of the district have authorized the governing body of the district to issue bonds for that purpose or for the purpose of constructing a waste disposal system or systems. The bonds shall be issued in accordance with the provisions of, and shall be subject to the same terms and conditions of, the laws authorizing the district to issue bonds for the purpose of constructing waste collection, treatment, and disposal systems, except as otherwise provided in this subsection.

[Amended by Acts 1977, 65th Leg., p. 2207, ch. 870, § 1, eff. Sept. 1, 1977.]

A contract or group of contracts may provide for the district to render services concurrently to more than one person through constructing and operating a disposal system and may provide that the cost of these services be allocated among the persons as provided in the contract or group of contracts. [Amended by Acts 1977, 65th Leg., p. 2207, ch. 870, § 1, eff. Sept. 1, 1977.]

(b) To accomplish the purposes of the chapter, a district may exercise the power of eminent domain to acquire all or any interest in property inside or outside the boundaries of the district. The power shall be exercised according to the laws applicable or available to the district.

[Amended by Acts 1977, 65th Leg., p. 2207, ch. 870, § 1, eff. Sept. 1, 1977.]

If a district makes necessary the relocating, raising, rerouting, changing the grade of, or altering the construction of any highway, railroad, electric transmission line, pipeline, or telephone or telegraph properties or facilities in the exercise of powers granted under this chapter, the district shall pay all of the actual cost of the relocating, raising, rerouting, changing in grade, or altering of construction and shall pay all of the actual cost of providing comparable replacement of facilities without enhancement, less the net salvage value of the facilities.

[Amended by Acts 1977, 65th Leg., p. 2207, ch. 870, § 1, eff. Sept. 1, 1977.]

#### § 30.035. Elections

The Red River Compact reads as follows:

##### "PREAMBLE

"The States of Arkansas, Louisiana, Oklahoma, and Texas, pursuant to the acts of their respective Governors or legislatures, or both, being moved by considerations of interstate comity, have resolved to compact with respect to the water of the Red River and its tributaries. By Act of Congress, Public Law No. 346 (84th Congress, First Session), the consent of the United States has been granted for said states to negotiate and enter into a compact providing for an equitable apportionment of such water; and pursuant to that Act the President has designated the representative of the United States.

"Further, the consent of Congress has been given for two or more states to negotiate and enter into agreements relating to water pollution control by the provisions of the Federal Water Pollution Control Act (P.L. 92-500, 33 U.S.C. Subsection 1251 et seq.).

"The Signatory States acting through their duly authorized Compact Commissioners, after several years of negotiations, have agreed to an equitable apportionment of the water of the Red River and its tributaries and do hereby submit and recommend that this compact be adopted by the respective legislatures and approved by Congress as hereinafter set forth:

##### "ARTICLE I

##### "PURPOSES

"§ 1.01. The principal purposes of this Compact are:

- "(a) To promote interstate comity and remove causes of controversy between each of the affected states by governing the use, control and distribution of the interstate water of the Red River and its tributaries;
- "(b) To provide an equitable apportionment among the Signatory States of the water of the Red River and its tributaries;
- "(c) To promote an active program for the control and alleviation of natural deterioration and pollution of the water of the Red River Basin and to provide for enforcement of the laws related thereto;
- "(d) To provide the means for an active program for the conservation of water, protection of lives and property from floods, improvement of water quality, development of navigation and regulation of flows in the Red River Basin; and
- "(e) To provide a basis for state or joint state planning and action by ascertaining and identifying each state's share in the interstate water of the Red River Basin and the apportionment thereof.

“ARTICLE II

“GENERAL PROVISIONS

“§ 2.01. Each Signatory State may use the water allocated to it by this Compact in any manner deemed beneficial by that state. Each state may freely administer water rights and uses in accordance with the laws of that state, but such uses shall be subject to the availability of water in accordance with the apportionments made by this Compact.

“§ 2.02. The use of water by the United States in connection with any individual Federal project shall be in accordance with the Act of Congress authorizing the project and the water shall be charged to the state or states receiving the benefit therefrom.

“§ 2.03. Any Signatory State using the channel of Red River or its tributaries to convey stored water shall be subject to an appropriate reduction in the amount which may be withdrawn at the point of removal to account for transmission losses.

“§ 2.04. The failure of any state to use any portion of the water allocated to it shall not constitute relinquishment or forfeiture of the right to such use.

“§ 2.05. Each Signatory State shall have the right to:

- “(a) Construct conservation storage capacity for the impoundment of water allocated by this Compact;
- “(b) Replace within the same area any storage capacity recognized or authorized by this Compact made unusable by any cause, including losses due to sediment storage;
- “(c) Construct reservoir storage capacity for the purposes of flood and sediment control as well as storage of water which is either imported or is to be exported if such storage does not adversely affect the delivery of water apportioned to any other Signatory State; and
- “(d) Use the bed and banks of the Red River and its tributaries to convey stored water, imported or exported water, and water apportioned according to this Compact.

“§ 2.06. Signatory States may cooperate to obtain construction of facilities of joint benefits to such states.

“§ 2.07. Nothing in this Compact shall be deemed to impair or affect the powers, rights, or obligations of the United States, or those claiming under its authority, in, over and to water of the Red River Basin.

“§ 2.08. Nothing in this Compact shall be construed to include within the water apportioned by this Compact any water consumed in each state by livestock or for domestic purposes; provided, how-

ever, the storage of such water is in accordance with the laws of the respective states but any such impoundment shall not exceed 200 acre-feet, or such smaller quantity as may be provided for by the laws of each state.

“§ 2.09. In the event any state shall import water into the Red River Basin from any other river basin, the Signatory State making the importation shall have the use of such imported water.

“§ 2.10. Nothing in this Compact shall be deemed to:

- “(a) Interfere with or impair the right or power of any Signatory State to regulate within its boundaries the appropriation, use, and control of water, or quality of water, not inconsistent with its obligations under this Compact;
- “(b) Repeal or prevent the enactment of any legislation or the enforcement of any requirement by any Signatory State imposing any additional conditions or restrictions to further lessen or prevent the pollution or natural deterioration of water within its jurisdiction; provided nothing contained in this paragraph shall alter any provision of this Compact dealing with the apportionment of water or the rights thereto; or
- “(c) Waive any state’s immunity under the Eleventh Amendment of the Constitution of the United States, or as constituting the consent of any state to be sued by its own citizens.

“§ 2.11. Accounting for apportionment purposes on interstate streams shall not be mandatory under the terms of the Compact until one or more affected states deem the accounting necessary.

“§ 2.12. For the purposes of apportionment of the water among the Signatory States, the Red River is hereby divided into the following major subdivisions:

- “(a) Reach I—the Red River and tributaries from the New Mexico-Texas State boundary to Denison Dam;
- “(b) Reach II—the Red River from Denison Dam to the point where it crosses the Arkansas-Louisiana state boundary and all tributaries which contribute to the flow of the River within this reach;
- “(c) Reach III—the tributaries west of the Red River which cross the Texas-Louisiana state boundary, the Arkansas-Louisiana state boundary, and those which cross both the Texas-Arkansas state boundary and the Arkansas-Louisiana state boundary.
- “(d) Reach IV—the tributaries east of the Red River in Arkansas which cross the Arkansas-Louisiana state boundary; and

“(e) Reach V—that portion of the Red River and tributaries in Louisiana not included in Reach III or in Reach IV.

“§ 2.13. If any part or application of this Compact shall be declared invalid by a court of competent jurisdiction, all other severable provisions and applications of this Compact shall remain in full force and effect.

“§ 2.14. Subject to the availability of water in accordance with this Compact, nothing in this Compact shall be held or construed to alter, impair, or increase, validate, or prejudice any existing water right or right of water use that is legally recognized on the effective date of this Compact by either statutes or courts of the Signatory State within which it is located.

“(c) Whenever the flow at Index, Arkansas, is less than 526 c.f.s., the states of Oklahoma and Texas shall each allow a quantity of water equal to 40 percent of the total weekly runoff originating in subbasin 5 within their respective states to flow into the Red River; provided however, this provision shall be invoked only at the request of Arkansas, only after Arkansas has ceased all diversions from the Red River itself in Arkansas above Index, and only if the provisions of Sub-sections 5.05(b)(2) and (3) have not caused a limitation of diversions in subbasin 5.

“(d) No state guarantees to maintain a minimum low flow to a downstream state.

“§ 5.06. Special Provisions.

“(a) Reservoirs within the limits of Reach II, subbasin 5, with a conservation storage capacity of 1,000 acre feet or less in existence or authorized on the date of the Compact pursuant to the rights and privileges granted by a Signatory State authorizing such reservoirs, shall be exempt from the provisions of Section 5.05; provided, if any right to store water in, or use water from, an existing exempt reservoir expires or is cancelled after the effective date of the Compact the exemption for such rights provided by this section shall be lost.

“(b) A Signatory State may authorize a change in the purpose or place of use of water from a reservoir exempted by subparagraph (a) of this section without losing that exemption, if the quantity of authorized use and storage is not increased.

“(c) Additionally, exemptions from the provisions of Section 5.05 shall not apply to direct diversions from Red River to off-channel reservoirs or lands.

#### “APPORTIONMENT OF WATER—REACH III

#### “ARKANSAS, LOUISIANA, AND TEXAS

“Subdivision of Reach III and allocation of water therein. Reach III of the Red River is divided into

topographic subbasins, and the water therein allocated, as follows:

“§ 6.01. Subbasin 1—Interstate streams—Arkansas and Texas.

“(a) This subbasin includes the Texas portion of those streams crossing the Arkansas-Texas state boundary one or more times and flowing through Arkansas into Cypress Creek-Twelve Mile Bayou watershed in Louisiana.

“(b) Texas is apportioned sixty (60) percent of the runoff of this subbasin and shall have unrestricted use thereof; Arkansas is entitled to forty (40) percent of the runoff of this subbasin.

“§ 6.02. Subbasin 2—Interstate streams—Arkansas and Louisiana.

“(a) This subbasin includes the Arkansas portion of those streams flowing from Subbasin 1 into Arkansas, as well as other streams in Arkansas which cross the Arkansas-Louisiana state boundary one or more times and flow into Cypress Creek-Twelve Mile Bayou watershed in Louisiana.

“(b) Arkansas is apportioned sixty (60) percent of the runoff of this subbasin and shall have unrestricted use thereof; Louisiana is entitled to forty (40) percent of the runoff of this subbasin.

“§ 6.03. Subbasin 3—Interstate streams—Texas and Louisiana.

“(a) This subbasin includes the Texas portion of all tributaries crossing the Texas-Louisiana state boundary one or more times and flowing into Caddo Lake, Cypress Creek-Twelve Mile Bayou or Cross Lake, as well as the Louisiana portion of such tributaries.

“(b) Texas and Louisiana within their respective boundaries shall each have the unrestricted use of the water of this subbasin subject to the following allocation:

“(1) Texas shall have the unrestricted right to all water above Marshall, Lake O’ the Pines, and Black Cypress damsites; however, Texas shall not cause runoff to be depleted to a quantity less than that which would have occurred with the full operation of Franklin County, Titus County, Ellison Creek, Johnson Creek, Lake O’ the Pines, Marshall, and Black Cypress Reservoirs constructed, and those other impoundments and diversions existing on the effective date of this Compact. Any depletions of runoff in excess of the depletions described above shall be charged against Texas’ apportionment of the water in Caddo Reservoir.

“(2) Texas and Louisiana shall each have the unrestricted right to use fifty (50) per-

cent of the conservation storage capacity in the present Caddo Lake for the impoundment of water for state use, subject to the provision that supplies for existing uses of water from Caddo Lake, on date of Compact, are not reduced.

“(3) Texas and Louisiana shall each have the unrestricted right to fifty (50) percent of the conservation storage capacity of any future enlargement of Caddo Lake, provided, the two states may negotiate for the release of each state’s share of the storage space on terms mutually agreed upon by the two states after the effective date of this Compact.

“(4) Inflow to Caddo Lake from its drainage area downstream from Marshall, Lake O’ the Pines, and Black Cypress damsites and downstream from other last downstream dams in existence on the date of the signing of the Compact document by the Compact Commissioners, will be allowed to continue flowing into Caddo Lake except that any manmade depletions to this inflow by Texas will be subtracted from the Texas share of the water in Caddo Lake.

“(c) In regard to the water of interstate streams which do not contribute to the inflow to Cross Lake or Caddo Lake, Texas shall have the unrestricted right to divert and use this water on the basis of a division of runoff above the state boundary of sixty (60) percent to Texas and forty (40) percent to Louisiana.

“(d) Texas and Louisiana will not construct improvements on the Cross Lake watershed in either state that will affect the yield of Cross Lake; provided, however, this subsection shall be subject to the provisions of Section 2.08.

“§ 6.04. Subbasin 4—Intrastate streams—Louisiana.

“(a) This subbasin includes that area of Louisiana in Reach III not included within any other subbasin.

“(b) Louisiana shall have free and unrestricted use of the water of this subbasin.

“ARTICLE VII

“APPORTIONMENT OF WATER—REACH IV

“ARKANSAS AND LOUISIANA

“Subdivision of Reach IV and allocation of water therein. Reach IV of the Red River is divided into topographic subbasins, and the water therein allocated as follows:

“§ 7.01. Subbasin 1—Intrastate streams—Arkansas.

“(a) This subbasin includes those streams and their tributaries above last downstream major damsites originating in Arkansas and crossing the Arkansas-Louisiana state boundary before flowing into the Red River in Louisiana. Those major last downstream damsites are as follows:

Stream	Site	Ac-ft	Location	
			Latitude	Longitude
Ouachita River	Lake Catherine	19,000	34°26.6'N	93°01.6'W
Caddo River	DeGray Lake	1,377,000	34°13.2'N	93°06.6'W
Little Missouri River	Lake Greeson	600,000	34°08.9'N	93°42.9'W
Alum Fork, Salline River	Lake Winona	63,264	32°47.8'N	92°51.0'W

“(b) Arkansas is apportioned the waters of this subbasin and shall have unrestricted use thereof.

“§ 7.02. Subbasin 2—Interstate Streams—Arkansas and Louisiana.

“(a) This subbasin shall consist of Reach IV less subbasin 1 as defined in Section 7.01(a) above.

“(b) The State of Arkansas shall have free and unrestricted use of the water of this reach subject to the limitation that Arkansas shall allow a quantity of water equal to forty (40) percent of the weekly runoff originating below or flowing from the last downstream major damsite to flow into Louisiana. Where there are no designated last downstream damsites, Arkansas shall allow a quantity of water equal to forty (40) percent of the total weekly runoff originating above the state boundary to flow into Louisiana. Use of water in this subbasin is subject to low flow provisions of subparagraph 7.02(b).

“§ 7.03. Special Provisions.

“(a) Arkansas may use the beds and banks of segments of Reach IV for the purpose of conveying its share of water to designated downstream diversions.

“(b) The State of Arkansas does not guarantee to maintain a minimum low flow for Louisiana in Reach IV. However, on the following streams when the use of water in Arkansas reduces the flow at the Arkansas-Louisiana state boundary to the following amounts:

“(1) Ouachita—780 cfs

“(2) Bayou Bartholomew—80 cfs

“(3) Boeuf River—40 cfs

“(4) Bayou Macon—40 cfs

the state of Arkansas pledges to take affirmative steps to regulate the diversions of runoff originating or flowing into Reach IV

in such a manner as to permit an equitable apportionment of the runoff as set out herein to flow into the State of Louisiana. In its control and regulation of the water of Reach IV any adjudication or order rendered by the State of Arkansas or any of its instrumentalities or agencies affecting the terms of this Compact shall not be effective against the State of Louisiana nor any of its citizens or inhabitants until approved by the Commission.

#### “ARTICLE IX

##### “ADMINISTRATION OF THE COMPACT

“§ 9.01. There is hereby created an interstate administrative agency to be known as the ‘Red River Compact Commission,’ hereinafter called the ‘Commission.’ The Commission shall be composed of two representatives from each Signatory State who shall be designated or appointed in accordance with the laws of each state, and one Commissioner representing the United States, who shall be appointed by the President. The Federal Commissioner shall be the Chairman of the Commission but shall not have the right to vote. The failure of the President to appoint a Federal Commissioner will not prevent the operation or effect of this Compact, and the eight representatives from the Signatory States will elect a Chairman for the Commission.

“§ 9.02. The Commission shall meet and organize within 60 days after the effective date of this Compact. Thereafter, meetings shall be held at such times and places as the Commission shall decide.

“§ 9.03. Each of the two Commissioners from each state shall have one vote; provided, however, that if only one representative from a state attends he is authorized to vote on behalf of the absent Commissioner from that state. Representatives from three states shall constitute a quorum. Any action concerned with administration of this Compact or any action requiring compliance with specific terms of this Compact shall require six concurring votes. If a proposed action of the Commission affects existing water rights in a state, and that action is not expressly provided for in this Compact, eight concurring votes shall be required.

“§ 9.04.

“(a) The salaries and personal expenses of each state’s representative shall be paid by the government that it represents, and the sal-

aries and personal expenses of the Federal Commissioner will be paid for by the United States.

- “(b) The Commission’s expenses for any additional stream flow gaging stations shall be equitably apportioned among the states involved in the reach in which the stream flow gaging stations are located.
- “(c) All other expenses incurred by the Commission shall be borne equally by the Signatory States and shall be paid by the Commission out of the ‘Red River Compact Commission Fund.’ Such Fund shall be initiated and maintained by equal payments of each state into the fund. Disbursement shall be made from the fund in such manner as may be authorized by the Commission. Such fund shall not be subject to audit and accounting procedures of the state; however, all receipts and disbursements of the fund by the Commission shall be audited by a qualified independent public accountant at regular intervals, and the report of such audits shall be included in and become a part of the annual report of the Commission. Each state shall have the right to make its own audit of the accounts of the Commission at any reasonable time.

“ARTICLE X

“POWERS AND DUTIES OF THE COMMISSION

“§ 10.01. The Commission shall have the power to:

- “(a) Adopt rules and regulations governing its operation and enforcement of the terms of the Compact;
- “(b) Establish and maintain an office for the conduct of its affairs and, if desirable, from time to time, change its location;
- “(c) Employ or contract with such engineering, legal, clerical and other personnel as it may determine necessary for the exercise of its functions under this Compact without regard to the Civil Service Laws of any Signatory State; provided that such employees shall be paid by and be responsible to the Commission and shall not be considered employees of any Signatory State.
- “(d) Acquire, use and dispose of such real and personal property as it may consider necessary;
- “(e) Enter into contracts with appropriate State or Federal agencies for the collection, correlation and presentation of factual data, for the maintenance of records and for the preparation of reports;
- “(f) Secure from the head of any department or agency of the Federal or State government such information as it may need or deem to be useful for carrying out its functions and

as may be available to or procurable by the department or agency to which the request is addressed; provided such information is not privileged and the department or agency is not precluded by law from releasing same;

- “(g) Make findings, recommendations or reports in connection with carrying out the purposes of this Compact, including, but not limited to, a finding that a Signatory State is or is not in violation of any of the provisions of this Compact. The Commission is authorized to make such investigations and studies, and to hold such hearings as it may deem necessary for said purposes. It is authorized to make and file official certified copies of any of its findings, recommendations or reports with such officers or agencies of any Signatory State, or the United States, as may have any interest in or jurisdiction over the subject matter. The making of findings, recommendations, or reports by the Commission shall not be a condition precedent to the instituting or maintaining of any action or proceeding of any kind by a Signatory State in any court or tribunal, or before any agency or officer, for the protection of any right under this Compact or for the enforcement of any of its provisions; and
  - “(h) Print or otherwise reproduce and distribute its proceedings and reports.
- “§ 10.02. The Commission shall:
- “(a) Cause to be established, maintained, and operated such stream, reservoir and other gaging stations as are necessary for the proper administration of the Compact;
  - “(b) Cause to be collected, analyzed and reported such information on stream flows, water quality, water storage and such other data as are necessary for the proper administration of the Compact;
  - “(c) Perform all other functions required of it by the Compact and do all things necessary, proper and convenient in the performance of its duties thereunder;
  - “(d) Prepare and submit to the governor of each of the Signatory States a budget covering the anticipated expenses of the Commission for the following fiscal biennium;

States, upon request, any information within its possession;

“(g) Not incur any obligation in excess of the unencumbered balance of its funds, nor pledge the credit of any of the Signatory States; and

“(h) Make available to a Signatory State or the United States in any action arising under this Compact, without subpoena, the testimony of any officer or employee of the Commission having knowledge of any relevant facts.

#### “ARTICLE XI

##### “POLLUTION

“§ 11.01. The Signatory States recognize that the increase in population and the growth of industrial, agricultural, mining and other activities combined with natural pollution sources may lead to a diminution of the quality of water in the Red River Basin which may render the water harmful or injurious to the health and welfare of the people and impair the usefulness or public enjoyment of the water for beneficial purposes, thereby resulting in adverse social, economic, and environmental impacts.

“§ 11.02. Although affirming the primary duty and responsibility of each Signatory State to take appropriate action under its own laws to prevent, diminish, and regulate all pollution sources within its boundaries which adversely affect the water of the Red River Basin, the states recognize that the control and abatement of the naturally-occurring salinity sources as well as, under certain circumstances, the maintenance and enhancement of the quality of water in the Red River Basin may require the cooperative action of all states.

“§ 11.03. The Signatory States agree to cooperate with agencies of the United States to devise and effectuate means of alleviating the natural deterioration of the water of the Red River Basin.

“§ 11.04. The Commission shall have the power to cooperate with the United States, the Signatory States and other entities in programs for abating and controlling pollution and natural deterioration of the water of the Red River Basin, and to recommend reasonable water quality objectives to the states.

“§ 11.05. Each Signatory State agrees to maintain current records of waste discharges into the Red River Basin and the type and quality of such discharges, which records shall be furnished to the Commission upon request.

“§ 11.06. Upon receipt of a complaint from the governor of a Signatory State that the interstate water of the Red River Basin in which it has an interest are being materially and adversely affected by pollution and that the state in which the pollution originates has failed after reasonable notice to take

appropriate abatement measures, the Commission shall make such findings as are appropriate and thereafter provide such findings to the governor of the state in which such pollution originates and request appropriate corrective action. The Commission, however, shall not take any action with respect to pollution which adversely affects only the state in which such pollution originates.

“§ 11.07. In addition to its other powers set forth under this Article, the Commission shall have the authority, upon receipt of six concurring votes, to utilize applicable Federal statutes to institute legal action in its own name against the person or entity responsible for interstate pollution problems; provided, however, sixty (60) days before initiating legal action the Commission shall notify the Governor of the state in which the pollution source is located to allow that state an opportunity to initiate action in its own name.

“§ 11.08. Without prejudice to any other remedy available to the Commission, or any Signatory State, any state which is materially and adversely affected by the pollution of the water of the Red River Basin by pollution originating in another Signatory State may institute a suit against any individual, corporation, partnership, or association, or against any Signatory State or political or governmental subdivision thereof, or against any officer, agency, department, bureau, district or instrumentality of or in any Signatory State contributing to such pollution in accordance with applicable Federal statutes. Nothing herein shall be construed as depriving any persons of any rights of action relating to pollution which such person would have if this Compact had not been made.

#### “ARTICLE XII

##### “TERMINATION AND AMENDMENT OF COMPACT

“§ 12.01. This Compact may be terminated at any time by appropriate action of the legislatures of all of the four Signatory States. In the event of such termination, all rights established under it shall continue unimpaired.

“§ 12.02. This Compact may be amended at any time by appropriate action of the legislatures of all Signatory States that are affected by such amendment. The consent of the United States Congress must be obtained before any such amendment is effective.

#### “ARTICLE XIII

##### “RATIFICATION AND EFFECTIVE DATE OF COMPACT

“§ 13.01. Notice of ratification of this Compact by the legislature of each Signatory State shall be given by the governor thereof to the governors of each of the other Signatory States and to the Presi-

dent of the United States. The President is hereby requested to give notice to the governors of each of the Signatory States of the consent to this Compact by the Congress of the United States.

“§ 13.02. This Compact shall become effective, binding and obligatory when, and only when:

“(a) It has been duly ratified by each of the Signatory States; and

“(b) It has been consented to by an Act of the Congress of the United States, which Act provides that:

“Any other statute of the United States to the contrary notwithstanding, in any case or controversy:

“which involves the construction or application of this Compact;

“in which one or more of the Signatory States to this Compact is a plaintiff or plaintiffs; and

“which is within the judicial power of the United States as set forth in the Constitution of the United States;

“and without any requirement, limitation or regard as to the sum or value of the matter in controversy, or of the place of residence or citizenship of, or of the nature, character or legal status of, any of the other proper parties plaintiff or defendant in such case or controversy:

“The consent of Congress is given to name and join the United States as a party defendant or otherwise in any such case or controversy in the Supreme Court of the United States if the United States is an indispensable party thereto.

“§ 13.03. The United States District Courts shall have original jurisdiction (concurrent with that of the Supreme Court of the United States, and concurrent with that of any other Federal or state court, in matters in which the Supreme Court, or other court has original jurisdiction) of any case or controversy involving the application or construction of this Compact; that said jurisdiction shall include, but not be limited to, suits between Signatory States; and that the venue of such case or controversy may be brought in any judicial district in which the acts complained of (or any portion thereof) occur.

#### § 47.011. Text of Compact

The Caddo Lake Compact reads as follows:

##### "CADDO LAKE COMPACT

##### PREAMBLE

The States of Louisiana and Texas, by acts of their respective governors, and based upon previous acts of their legislatures, have appointed representatives, including their respective Red River Compact Commissioners, to negotiate, in the interest of interstate comity and equitable apportionment and use of water, a Compact on Caddo Lake to augment and amplify the provisions of the Red River Compact dealing with Caddo Lake.

The Act of Congress, Public Law No. 346 (84th Congress, First Session), grants consent of federal government to the negotiation of this Compact; pursuant to that act, the President has designated the representative of the United States.

Because the water and water rights of the States of Oklahoma and Arkansas under the Red River Compact are completely unaffected by this Compact, Oklahoma and Arkansas have no objection to this Compact and did not participate in the negotiation of this Compact.

In order to resolve current controversies regarding the use of Caddo Lake water, controversies not adequately dealt with in the Red River Compact, the States of Texas and Louisiana, acting through their authorized representatives, have agreed to an equitable apportionment and use of the water of Caddo Lake and do hereby submit this Compact to amplify the Red River Compact and recommend that it be adopted by their respective legislatures and approved by Congress as hereinafter set forth:

##### Sec. 1. Purposes

In addition to the purposes specified in the Red River Compact, this compact is intended to preserve and protect Caddo Lake as a valuable environmental, cultural and natural resource and enhance water

resource and recreational potentials, while allowing its utilization for water needs of adjacent portions of Louisiana and Texas. A primary means of accomplishing these purposes is to raise the spillway elevation of Caddo Lake to an elevation of 170.5 feet above mean sea level.

Nothing in this Compact shall be deemed to impair or affect the powers, rights, or obligations of the United States or those claiming under its authority in, over, and to water of Caddo Lake; nor shall this Compact be construed as interfering with the application of the National Environmental Policy Act of 1969.<sup>1</sup>

<sup>1</sup> 42 U.S.C.A. § 4321 et seq.

**Sec. 2. Relation to the Red River Compact**

(a) This compact augments and amplifies the Red River Compact. It shall be construed harmoniously with the Red River Compact; it is not intended to amend, replace, or supersede any provisions of the Red River Compact, nor are any of the provisions of the Red River Compact intended to prevent the effective implementation of this Compact.

(b) In the event the Red River Compact is not enacted by all concerned states and ratified by Congress, or in the event that such action occurs after the effective date of this Compact, this Compact shall be fully effective pursuant to the provisions of Section 9.

**Sec. 3. Dedication**

The States of Louisiana and Texas hereby dedicate the water of Caddo Lake below 167.5 feet above mean sea level to serve as a recreation and navigation pool. Neither Louisiana nor Texas shall allow the diversion or consumptive use of the water of Caddo Lake below that level except as authorized in this Compact.

**Sec. 4. Diversion of Dedicated Water**

(a) In order to divert water when the level of Caddo Lake is below 167.5 feet above mean sea level, any water user diverting more than 1,000 gallons per day from Caddo Lake must submit water use plans to the Caddo Lake Commission providing for conservation and efficient use of water.

(b) The Caddo Lake Commission shall authorize users with approved water use plans to divert water from Caddo Lake when the lake level is below 167.5 feet above mean sea level, at times and under conditions authorized by the Caddo Lake Commission. The Caddo Lake Commission shall give priority to domestic users, municipalities or municipal use by political subdivisions and industries, in that order.

(c) In the event any user of water from Caddo Lake shall purchase water which is delivered into Caddo Lake from another source, that user making the purchase shall have the use of such purchased water, minus transportation or storage losses if any, as determined by the Commission, free from the regulation of the Caddo Lake Commission.

**Sec. 5. Operating Rules**

As provided in Section 7, the Caddo Lake Commission shall have the power to establish operating criteria to govern the diversion and use of water from Caddo Lake. Unless modified, supplemented or changed by the Caddo Lake Commission, the following rules shall govern the diversion and use of water from Caddo Lake.

(a) The following operating rules shall be in effect until Caddo Lake is enlarged by raising the spillway level as provided in Section 8.

(1) Whenever water is spilling over the existing spillway at 168.5 feet above mean sea level, each state may withdraw or divert water from Caddo Lake without restriction.

(2) Whenever Caddo Lake is not spilling over the existing spillway at 168.5 feet above mean sea level, the total consumptive use by each state shall not exceed 8,400 acre-feet during the drawdown period; provided that neither state shall divert more than 3,600 acre-feet during any one month or 4,800 acre-feet during any two consecutive months.

(3) In addition to the requirements of Section 5(a)(2), when the lake level of Caddo Lake is at or below 167.5 feet above mean sea level,

(a) Any diversion by either state must be approved by the Caddo Lake Commission, as provided in Section 4; and,

(b) The total consumptive use by each state shall not exceed an average of 1,000 acre-feet per month, or more than 3,000 acre-feet during any two consecutive months; however,

(c) The limitations above shall not apply to a municipality or political subdivision during an emergency caused by the destruction or contamination of the municipality's or political subdivision's other water source.

(b) The following operating rules shall be in effect after Caddo Lake is enlarged by raising the spillway level as provided in Section 8.

(1) Whenever water is spilling over the raised spillway level, each state may withdraw or divert water from Caddo Lake without restriction.

(2) Whenever Caddo Lake is not spilling over the raised spillway, and the lake surface elevation is above 167.5 feet above mean sea level,

(a) If each state obtains 50% of the water above 168.5 feet above mean sea level, as authorized in Section 8, each state shall be entitled to divert 16,800 acre-feet during a drawdown period.

(b) If each state does not obtain 50% of the water above 168.5 feet above mean sea level, as authorized in Section 8, the total consumptive use by that state shall not be reduced below the amount of water to which it was entitled under Section 5(a).

(3) Whenever Caddo Lake is at or below 167.5 feet above mean sea level, no diversions from Caddo Lake may be made except in the case of a catastrophic event (such as destruction of a municipality or political subdivision's other water supply source or a drawdown which is more severe than the critical drawdown of record). Any emergency withdrawal or diversion must be specifically authorized by the Caddo Lake Commission, as provided in Section 4.

(c) The term 'drawdown' as used herein means that period commencing on the first day water ceases spilling over the existing spillway (or the raised spillway, if Caddo Lake is enlarged as authorized in Section 8) and continuing so long as the Caddo Lake surface elevation continues to fall, until the day when appreciable inflow reaches Caddo Lake, causing the Caddo Lake surface elevation to rise leading to a spill from Caddo Lake.

#### Sec. 6. Administration

(a) There is hereby created an interstate administrative agency to be known as the 'Caddo Lake Commission,' also referred to herein as the 'Commission.' It shall be composed of the Commissioners of Louisiana and Texas who serve as Red River Compact Commissioners and an appointed commissioner from each state who resides within one of the parishes or counties in which Caddo Lake is located. The Commissioners shall choose one member of the Commission to serve as a voting chairman. In the event this Compact becomes effective prior to, or without, the Red River Compact, the Governors of Texas and Louisiana shall each appoint three Commissioners to serve as Caddo Lake Commissioners. These Commissioners, or their successors, shall serve until the Red River Compact becomes effective and the offices of the nonlocal commissioners are assumed by the states' Red River Compact Commissioners.

(b) The Commission shall meet and organize within sixty (60) days after the effective date of this Compact. Thereafter, meetings shall be held at such times and places as the Commission shall decide.

(c) Each Commissioner shall have one vote; however, if one or more commissioners from a state is absent, the Commissioner(s) in attendance from that state is authorized to vote on behalf of the absent Commissioner(s) from that state. Any action concerning the administration of this Compact shall require four votes.

(d) The salaries and personal expenses of each state's Commissioners shall be paid by that state.

(e) All expenses incurred by the Commission shall be borne equally by the States of Louisiana and Texas and shall be paid by the Commission out of the 'Caddo Lake Commission Fund'. Such fund shall be initiated and maintained by equal payments of each state into the fund. Disbursements shall be made from the fund in such a manner as may be

authorized by the Commission. Such fund shall not be subject to audit and accounting procedures of either state; however, all receipts and disbursements of the fund by the Commission shall be audited by a qualified independent public accountant at regular intervals, and the report of such audits shall be included in and become part of the annual report of the Commission. Each state shall have the right to make its own audit of the accounts of the Commission at any reasonable time.

#### Sec. 7. Duties and Powers

(a) The Commission shall have the power to:

(1) Adopt rules and regulations governing its operation and enforcement of the terms of the Compact;

(2) Establish and maintain an office for the conduct of its affairs and, if desirable, from time to time, change its location;

(3) Employ or contract with such engineering, legal, clerical and other personnel as it may determine necessary for the exercise of its functions under this Compact without regard to the Civil Service Laws of Louisiana or Texas; provided that such employees shall be paid by and be responsible to the Commission and shall not be considered employees of any state;

(4) Acquire, use and dispose of such real and personal property as it may consider necessary;

(5) Enter into contracts with appropriate state or federal agencies for the collection, correlation and presentation of factual data, for the maintenance of records and for the preparation of reports;

(6) Secure from the head of any department or agency of the federal or state government such information as it may need or deem to be useful for carrying out its functions and as may be available to or procurable by the department or agency to which the request is addressed; provided such information is not privileged and the department or agency is not precluded by law from releasing same;

(7) Make findings, recommendations or reports in connection with carrying out the purposes of this Compact, including, but not limited to, a finding that Louisiana or Texas is or is not in violation of any of the provisions of this Compact. The Commission is authorized to make such investigations and studies, and to hold such hearings as it may deem necessary for said purposes. It is authorized to make and file official certified copies of any of its findings, recommendations or reports with such officers or agencies of Louisiana or Texas or the United States, as may have any interest in or jurisdiction over the subject matter. The making of findings, recommendations, or reports by the Commission shall not be a condition precedent

to the instituting or maintaining of any action or proceeding of any kind by Louisiana or Texas, in any court or tribunal, or before any agency or officer, for the protection of any right under this Compact or for the enforcement of any of its provisions; and

(8) Print or otherwise reproduce and distribute its proceedings and reports.

(b) The Commission shall:

(1) Cause to be established, maintained, and operated such stream, reservoir and other gaging stations as are necessary for the proper administration of the Compact;

(2) Cause to be collected, analyzed and reported such information on stream flows, water quality, water storage and such other data as are necessary for the proper administration of the Compact;

(3) Adopt reasonable standards and criteria for the approval of water use plans required by Section 4, and procedures for the submission thereof;

(4) Establish operating criteria to govern the diversion and use of water from Caddo Lake;

(5) Perform all other functions required of it by the Compact and do all things necessary, proper and convenient in the performance of its duties thereunder;

(6) Prepare and submit to the Governors of Louisiana and Texas a budget covering the anticipated expenses of the Commission for the following fiscal year or biennium;

(7) Prepare and submit an annual report to the Governors of Louisiana and Texas and to the President of the United States covering the activities of the Commission for the preceding fiscal year, together with an accounting of all funds received and expended by it in the conduct of its work;

(8) Make available to the governor or to any official agency of Louisiana or Texas or to any authorized representative of the United States, upon request, any information within its possession;

(9) Not incur any obligation in excess of the unencumbered balance of its funds, nor pledge the credit of Louisiana or Texas; and

(10) Make available to Louisiana or Texas or the United States in any action arising under this Compact, without subpoena, the testimony of any officer or employee of the Commission having knowledge of any relevant facts.

**Sec. 8. Enlargement of Caddo Lake**

(a) It is the intention of Louisiana and Texas to enlarge Caddo Lake by raising the spillway level two feet. Each state has the guaranteed right to obtain 50% of the water above 168.5 feet above mean sea

level made available from such an enlargement, subject to paying one-half of the total costs. Total costs of enlargement are equal to the sum of the cost of spillway construction, the cost of land and flowage easements in Texas, the current market value of land and flowage easements in Louisiana, as well as the administrative expenses incurred for each of the above listed items.

(b) Each state may obtain a proportionately larger share of the water resulting from the enlargement by paying the portion of the cost which would otherwise be paid by the other state under Section 8(a).

(c) Should Louisiana, or one of its political subdivisions, unilaterally raise the Caddo Lake spillway level without obtaining flowage easements in Texas, Louisiana would have the right to all water made available by the enlargement; provided, however, this provision constitutes an express waiver of any sovereign immunity or Eleventh Amendment defenses which might otherwise be available to the State of Louisiana in an action for damages by a Caddo Lake property owner in Texas for damage resulting from such action.

(d) This section does not prevent the enlargement of Caddo Lake by raising the spillway level some amount less than two feet, nor does it prevent a subsequent enlargement of Caddo Lake which might ultimately raise the level of Caddo Lake's spillway more than two feet.

**Sec. 9. Ratification and Effective Date of Compact**

(a) Notice of ratification of this Compact by the Legislatures of Louisiana and Texas shall be given by the Governor thereof to the Governor of the other state and to the President of the United States. The President is hereby requested to give notice to the Governors of Texas and Louisiana of the consent to this Compact by the Congress of the United States.

(b) This Compact shall become effective, binding and obligatory when, and only when:

(1) It has been duly ratified by Louisiana and Texas;

(2) The Red River Compact has been duly ratified by the State of Texas; and

(3) It has been consented to by an Act of the Congress of the United States, which Act provides that:

Any other statute of the United States to the contrary notwithstanding, in any case or controversy:

which involves the construction or application of this Compact; in which Louisiana or Texas is a plaintiff; and

which is within the judicial power of the United States as set forth in the Constitution of the United States;

and without any requirement, limitation or regard as to the sum or value of the matter in

controversy, or of the place of residence or citizenship of, or of the nature, character or legal status of, any of the other proper parties plaintiff or defendant in such case or controversy:

The consent of Congress is given to name and join the United States as a party defendant or otherwise in any such case or controversy in the Supreme Court of the United States if the United States is an indispensable party thereto.

(c) The United States District Courts shall have original jurisdiction (concurrent with that of the Supreme Court of the United States, and concurrent with that of any other federal or state court, in matters in which the Supreme Court, or other court has original jurisdiction) of any case or controversy involving the application or construction of this Compact; that said jurisdiction shall include, but not be limited to, suits between Louisiana and Texas; and that the venue of such case or controversy may be brought in any judicial district in which the acts complained of (or any portion thereof) occur.

**§ 50.055. Fire Departments**

(a) A district may establish, operate, and maintain a fire department to perform all fire-fighting activities within the district as provided in this section and may issue, with voter approval, bonds for financing the establishment of the fire department including the construction and purchase of necessary buildings, facilities, and equipment and the provision of an adequate water supply.

(b) After approval of the district electors of a plan to operate or jointly operate a fire department, the district or districts shall provide an adequate system and water supply for fire-fighting purposes and may construct and purchase necessary buildings, facilities, and equipment and may employ all necessary personnel including supervisory personnel to operate the fire department.

(c) Bonds issued for establishment of the fire department shall be authorized and issued, and a district shall be authorized to levy a tax to pay the principal of and interest on such bonds, as provided by law for authorization and issuance of other bonds of the district.

(d) Two or more districts may contract to operate a joint fire department for their districts and shall include in the contract a system for joint administration and operation of the fire department, the extent of services to be provided, a method for funding the department from funds of each district, and any other terms and conditions the parties consider necessary.

(e) A district may contract with any other person to perform fire-fighting services within the district.

(c) If the governing board of a district covered by this section desires to adopt and impose a charge or fee prohibited by Subsection (b) of this section, it shall submit to the commission a petition for authority to adopt and impose the charge or fee. #### SUBCHAPTER B. CREATION OF DISTRICT; CONVERSION OF DISTRICT

##### § 54.016. Consent of City

[See Compact Edition, Volume 1 for text of (a)]

(b) If the governing body of a city fails or refuses to grant permission for the inclusion of land within its extraterritorial jurisdiction in a district within 120 days after receipt of a written request, a majority of the electors in the area proposed to be included in the district or the owner or owners of 50 percent or more of the land to be included may petition the governing body of the city and request the city to make available to the land the water or sanitary sewer service contemplated to be provided by the district.

[See Compact Edition, Volume 1 for text of (c) to (e)]

(f) A city may provide in its written consent for the inclusion of land in a district that a contract ("allocation agreement") between the district and the city be entered into prior to the first issue of bonds, notes, warrants, or other obligations of the district. The allocation agreement shall contain the following provisions:

(1) a method by which the district shall continue to exist following the annexation of all territory within the district by the city, if the district is

initially located outside the corporate limits of the city;

(2) an allocation of the taxes or revenues of the district or the city which will assure that, following the date of the inclusion of all the district's territory within the corporate limits of the city, the total annual ad valorem taxes collected by the city and the district from taxable property within the district does not exceed an amount greater than the city's ad valorem tax upon such property;

(3) an allocation of governmental services to be provided by the city or the district following the date of the inclusion of all of the district's territory within the corporate limits of the city;

(4) such other terms and conditions as may be deemed appropriate by the city.

(g) In addition to all the rights and remedies provided by the laws of the state in the event a district violates the terms and provisions of a city's written consent, the city shall be entitled to injunctive relief or a writ of mandamus issued by a court of competent jurisdiction restraining, compelling or requiring the district and its officials to observe and comply with the terms and provisions prescribed in the city's written consent to the inclusion of land within the district.

(h) A city with a population of 1 million or less may provide in its written consent for the inclusion of land in a district that after annexation the city may set rates for water and/or sewer services for property that was within the territorial boundary of such district at the time of annexation, which rates may vary from those for other properties within the city for the purpose of wholly or partially compensating the city for the assumption of obligation under this code providing that:

(1) such written consent contains a contract entered into by the city and the persons petitioning for creation of the district setting forth the time and/or the conditions of annexation by the city which annexation shall not occur prior to the installation of 90 percent of the facilities for which district bonds were authorized in the written consent; and that

(2) the contract sets forth the basis on which rates are to be charged for water and/or sewer services following annexation and the length of time they may vary from those rates charged elsewhere in the city; and that

(3) the contract may set forth the time, conditions, or lands to be annexed by the district; and that

(4)(A) Each purchaser of land within a district which has entered into a contract with a city concerning water and/or sewer rates as set forth

herein shall be furnished by the seller at or prior to the final closing of the sale and purchase with a separate written notice, executed and acknowledged by the seller, which shall contain the following information:

- (i) the basis on which the monthly water and/or sewer rate is to be charged under the contract stated as a percentage of the water and/or sewer rates of the city;
- (ii) the length of time such rates will be in effect;
- (iii) the time and/or conditions of annexation by the city implementing such rates.

The provisions of Sections 50.301(d) through Section 50.301(n), as amended, and Section 50.301(p), Water Code, are herein incorporated by reference thereto, and are applicable to the separate written notice required by Section 54.016(h)(4).

A suit for damages under the provisions of these referenced sections must be brought within 90 days after the purchaser receives his or her first water and/or sewer service charge following annexation, or the purchaser loses his or her right to seek damages under this referenced section.

(B) The governing board of any district covered by the provisions of this subsection shall file with the county clerk in each of the counties in which all or part of the district is located a duly affirmed and acknowledged statement which includes the information required in Section 54.016(h)(4)(A) and a complete and accurate map or plat showing the boundaries of the district.

The district shall be abolished and the city shall succeed to all the remaining properties, powers, duties, assets, debts, liabilities, and obligations of the district on the date specified in the contract."  
 "Sec. 5. The provisions of this Act are severable. If any word, phrase, clause, paragraph, sentence, section, part, or provision of this Act or the application thereof to any person or circumstance shall be held to be invalid or unconstitutional, the remainder of this Act shall nevertheless be valid; and the legislature hereby declares that the Act would have been enacted without such invalid or unconstitutional word, phrase, clause, paragraph, sentence, section, part, or provision.

(c) The request by a city for notice of hearings on the creation of districts shall be filed annually with the commission during the month of January. The request shall state the names of not more than two persons who are to receive the notice on behalf of the city and the mailing address of the persons.

  - (E) natural run-off rates and drainage;

(d) If the commission finds that the petition does not conform to the requirements of Section 54.015 of this code or that the project is not feasible, practicable, necessary, or a benefit to the land in the district, the commission shall so find by its order and deny the petition.

(e) A copy of the order of the commission granting or denying a petition shall be mailed to each city having extraterritorial jurisdiction in the county or counties in which the district is located who requested notice of hearings as provided in Section 54.019 of this code.

**§ 56.721. Resolution to Add Territory**

If the board finds on hearing the petition that the addition would be of benefit to the district and that the district's improvements are sufficient to serve the added territory without injuring the land already in the district, it may add the territory to the district by resolution entered in its minutes. The board does not have to include all the territory described in the petition if it finds that a modification or change is necessary or desirable.

[Added by Acts 1981, 67th Leg., p. 2439, ch. 624, § 1, eff. June 15, 1981.]

**§ 56.722. Elections to Ratify Annexation of Land**

(a) Annexation of the territory is not final until ratified by a majority vote of the electors at a separate election held in the district and by a majority vote of the electors at a separate election held in the territory proposed to be added.

(b) If the district has outstanding debts or taxes, the same election shall determine also whether or not the territory to be added will assume its proportion of the debts, or taxes if the land is added to the district.

[Added by Acts 1981, 67th Leg., p. 2439, ch. 624, § 1, eff. June 15, 1981.]

(a) If land is added to a district operating under Article XVI, Section 59, of the Texas Constitution, the order of the board adding the land to the district may contain an agreement that the added land will be taxed on the benefit basis instead of the ad valorem basis. The agreement may provide that the added land will be taxed on a uniform acreage basis or on the plan of a definite annual payment.

(b) The board, in its order adding land to the district, shall set the amount of the debts to be paid by the owner of the added land and levy annual taxes against the land to pay the debts. The taxes assessed by the board constitute a lien against the added land in the same manner and to the same extent as if the land had been a part of the district at the time the indebtedness was incurred or authorized by an election held for that purpose.

(c) The added land is a part of the district and is liable for debts subsequently incurred by the district in the same manner as other land in the district.

However, if the directors, at any time after 50 percent of the work has been completed, find that satisfactory progress is being made, they may authorize any of the remaining progress payments to be made in full. Also, whenever the work is substantially complete, the directors, if they consider the amount retained to be in excess of the amount adequate for the protection of the district, at their discretion, may release to the contractor all or a portion of the excess amount.

(d) On completion and acceptance of each separate project, public work, or other division of the contract, on which the price is stated separately in the contract, payment may be made without retention of a percentage.

(b) Before issuing bonds, a contributing political subdivision shall submit the contract for contribution to its electors for approval and for authority to issue the bonds, fix a lien to secure the bonds, and levy, assess, and collect taxes to retire the bonds. The

procedure by a contributing political subdivision of the state shall conform to the applicable law under which the political subdivision was organized and authorized to create bonded indebtedness.

(c) The disposition of the proceeds of the bond shall conform to the approved contract of contribution.

(b) The contributor shall collect the tax at its own expense and pay it annually to the district to which the contribution is to be made. The district shall hold the annual payment as a trust fund and annually apply it to the bonds issued by it to provide funds for the construction of the improvements to which the contribution is made.

(c) The contributor shall submit the contract of contribution to its electors for approval and for authority to levy and assess a sufficient tax to meet the annual payments fixed in the contract. The election for the approval of the contract and the authorized taxes for the fulfillment of the contract shall conform to appropriate law under which the contributing political subdivision was organized and authorized to create bonded indebtedness.

**§ 58.167. Contributions from Unappropriated or Available Funds of Contributor**

(a) If the proposed contributor has an unappropriated fund or a fund which is not required for actual use even though otherwise appropriated, the fund may be withdrawn from the project which does not need it and may be applied to pay contributions to the cost of the improvements considered to be a benefit to the contributor but to be constructed by another agency or jointly by the contributor and another agency.

(b) The board of the contributing political subdivision may contract for contributions and contribute from an unappropriated or available fund without submitting the contract and contributions to a vote of the electors of the contributor. However, the contributions shall not be made if they impair the ability of the contributor to meet any outstanding obligation or to adequately and economically discharge the contributor's duty to its electorate or constituency.

[Added by Acts 1977, 65th Leg., p. 1537, ch. 627, § 1, eff. Aug. 29, 1977.]

The board's resolution will specify the term of the lease, which may not be more than 40 years.

(b) The board may lease property located partly outside the boundaries of the district and may sell surplus untreated water to other districts and to other consumers.

[Added by Acts 1977, 65th Leg., p. 1537, ch. 627, § 1, eff. Aug. 29, 1977.]

**§ 58.170. Covenants and Agreements Included in Lease**

(a) The lease shall expressly state that the sums payable under the terms of the lease and the lease itself shall not constitute an indebtedness or pledge of the general credit of the district within the meaning of any constitutional or statutory limitation of indebtedness. The lease shall contain a statement that payments due under it are not payable from any funds raised or to be raised by taxation.

(b) The lease may contain covenants and agreements which are not inconsistent with the provisions of this code which authorize the lease for:

- (1) the management and operation of the leased properties;
- (2) the imposition and collection of charges for water;
- (3) the disposition of the proceeds of charges;
- (4) the insurance, protection, and maintenance of the leased properties;
- (5) the creation of other obligations payable from the revenues derived from the operation of the leased properties;

(a) All money due the lessor under the lease shall be payable solely from the revenue derived by the district from the sale of water supplied through the leased system.

(b) The board shall set and collect charges for the water supplied through the leased properties to produce sufficient revenue at all times to allow for delinquencies and to pay promptly all rental payments becoming due under the terms of the lease. The board may agree to deposit this money in a separate fund as a first charge on the gross revenue received each year from sales of water, and which shall not be used for any other purpose.

(c) The board may agree in the lease to pay all expenses of operating and maintaining the leased properties from the fund provided by the board each year for the maintenance and operation expenses of the district so that the gross revenue from sale of water will be available exclusively for payment of rentals until the amount required for rentals each year is paid into the separate rental fund.

(d) If the board includes this agreement in the lease, the board shall provide for the payment of sums into the maintenance fund from sources other than the remaining portions of the gross revenue from the sale of water not required to pay rentals which are sufficient each year to pay all expenses of operating the district and maintaining and operating its properties and facilities, including the leased properties.

[Added by Acts 1977, 65th Leg., p. 1537, ch. 627, § 1, eff. Aug. 29, 1977.]

A district may acquire by gift, grant, or purchase any part of an irrigation system serving the district which is subject to a mortgage or encumbrance. The mortgage or encumbrances shall not be assumed by the district and shall not be an indebtedness of the district but shall constitute solely a charge on the encumbered property and the revenue from it. [Added by Acts 1977, 65th Leg., p. 1537, ch. 627, § 1, eff. Aug. 29, 1977.]

**§ 58.175. Revenue for Payment of Mortgage**

(b) The board may contract to use and pledge its revenue derived solely from the sale of water and services supplied through the acquired properties for the payment of a purchase money lien.

(c) The board also may use revenue from taxation or from the issuance and sale of bonds to pay all or part of the amount due under the encumbrance if a majority of the electors of the district voting at an election on this proposition approve its use. [Added by Acts 1977, 65th Leg., p. 1537, ch. 627, § 1, eff. Aug. 29, 1977.]

(b) The board and the lessee shall agree on the form of the lease and its terms, conditions, provisions, and stipulations; however, the duration of the lease shall not be longer than the duration of the water contract between the district and the lessee under the primary term of the water contract and any renewal or extension of it.

(c) After a lease to a water customer is authorized by the board, the lease shall be executed by the president or vice-president of the board and attested by the secretary. The lease is valid and effective without any other requirement or prerequisite by the district. [Added by Acts 1977, 65th Leg., p. 1537, ch. 627, § 1, eff. Aug. 29, 1977.]

**§ 58.179. Expense of Relocation of Facilities**

If any district operating under this chapter requires the relocation, raising, lowering, rerouting, or change in grade or alteration in the construction of any railroad, electric transmission, telegraph or telephone lines, conduits, poles, properties, or facilities, or pipelines in the exercise of the power of eminent domain or police power, or any other power, all of the relocation, raising, lowering, rerouting or changes in grade or alteration of construction shall be the sole expense of the district. The term "sole expense" means the actual cost of relocation, raising, lowering, rerouting, or change in grade or alteration of construction to provide comparable replacement without enhancement of facilities, after deducting the net salvage value derived from the old facility. This section does not apply to projects under construction or financed or for which bonds were voted and approved by another type of district on or prior to August 27, 1961, and which such district has subsequently elected to convert into a district operating under this chapter, unless the acts of the district authorizing the construction or financing are contained in the provisions of this section. If there is land in a district which has a water right from a source of supply acquired by the district but the land is difficult or impracticable to irrigate from that source of supply, the district may allow transfer of the water right to other land which is adjacent to the district. The adjacent land may be admitted to the district with the same right of water service as the land from which the water was transferred.

[Added by Acts 1977, 65th Leg., p. 1537, ch. 627, § 1, eff. Aug. 29, 1977.]

(a) The district may enter into a contract to sell waterpower privileges if power can be generated from water flowing from the district's reservoirs within its canal system.

(a) If the district has outstanding bonds, the proceeds of the sale of property not required for the district's plans shall be applied to retire outstanding emergency warrants, if any, issued to protect ultimate liability of the district in condemnation proceedings as provided in this chapter and the remainder, if any, to be placed in the interest and sinking fund account provided for the retirement of outstanding bonds of the district.

(b) If the district does not have money available from other sources to complete the plans for which its construction work and its bonds were authorized, the board may use the proceeds derived from the sale of the property or land not required to carry out the plans of the district to complete the work included in its plans for improvements to the degree required, and any excess of the proceeds shall be applied as provided in Subsection (a) of this section. [Added by Acts 1977, 65th Leg., p. 1537, ch. 627, § 1, eff. Aug. 29, 1977.]

(b) The principal amount of the interim bonds may not be more than 25 percent of the principal amount of the district's bonds which have been voted but not sold.

(c) Before the issuance of the interim bonds, the board, by resolution, may limit the issue to any amount less than 25 percent, and after the amount is determined and fixed by the resolution, no additional interim bonds may be issued and sold until all outstanding interim bonds are paid.

[Added by Acts 1977, 65th Leg., p. 1537, ch. 627, § 1, eff. Aug. 29, 1977.]

**§ 58.478. Payment of Interim Bonds**

(a) The board shall appropriate the tax levied to pay the bonds deposited to the credit of the interest and sinking fund to pay the interim bonds or as much of that tax as necessary to secure the loan evidenced by the interim bonds.

(b) The proceeds of the tax shall be devoted exclusively to the payment of the principal and interest on the interim bonds.

(c) None of the provisions of this subchapter relating to interim bonds shall be construed as prohibiting the sale of bonds deposited to the credit of the interest and sinking fund to pay interim bonds or of any other bonds of the district, but if any of these bonds are sold, the district depository shall apply the proceeds to the payment of principal and accrued interest on the interim bonds and the remainder to the purposes for which the bonds were authorized.

(d) If none of the bonds are sold at the time an installment on the principal and interest of interim bonds matures, the depository shall cancel the deposited bonds and attached interest coupons in an amount equal to the principal and interest of the interim bonds paid off and discharged.

**§ 58.480. Alternate Methods for Paying Bonds**

(a) As used in this section and in Sections 58.481–58.484 of this code, “net revenue” means income or increment which may come from ownership and operation of the improvements which are encumbered less the proportion of the district’s revenue income reasonably required to provide for administration, efficient operation, and adequate maintenance of the district’s services and facilities which are encumbered. Net revenue does not include money derived from taxation.

(b) A district which expects net revenue from operations may secure its bonds in any one of the following:

- (1) as provided in Section 58.463 of this code;
- (2) by entering into a contract to pledge the net revenue of the district and to mortgage and encumber part or all of the property and facilities, franchise, revenue, and income from operations, and everything acquired or to be acquired by the district; or

(3) as provided in both Subdivisions (1) and (2) of this subsection.

[Added by Acts 1977, 65th Leg., p. 1537, ch. 627, § 1, eff. Aug. 29, 1977.]

**§ 58.481. Taxes to Secure Certain Bonds**

(a) If bonds are secured as provided in Section 58.480(b)(3) of this code, at the time that net revenue together with money derived from taxes accumulates a surplus in the sinking fund equal to the amount required in the succeeding year to liquidate the interest and principal on the district’s bonds maturing in that year, the district’s annual tax levies may be lowered to produce not less than 25 percent of the bond maturities for the succeeding year.

(b) If three successive years demonstrate that this net revenue is adequate to protect the district’s bonds as they mature, the district’s tax may be discontinued until further experience demonstrates the necessity to continue the tax to avoid default in the payment of the district’s bonds as they mature. [Added by Acts 1977, 65th Leg., p. 1537, ch. 627, § 1, eff. Aug. 29, 1977.]

**§ 58.482. Election**

(a) If the district proposes to issue bonds which will be secured under either Section 58.480(b)(2) or 58.480(b)(3) of this code, the proposition shall be presented at an election held under Section 58.443 of this code.

(b) The ballots for the election shall be printed to provide for voting for or against one of the following propositions:

- (1) “The issuance of bonds and the pledge of net revenue for the payment of the bonds.”;
- (2) “The issuance of bonds, the pledge of net revenue, and the creation of a lien on physical property to secure payment of the bonds.”; or

(3) “The issuance of bonds, the pledge of net revenue, and the levy of adequate taxes to pay the bonds.”

[Added by Acts 1977, 65th Leg., p. 1537, ch. 627, § 1, eff. Aug. 29, 1977.]

**§ 58.483. Hearing and Election on Certain Bonds**

(a) A district which plans to issue bonds payable from and secured by a pledge of net revenue and a lien on the physical property, either or both, without the levy of taxes, is not required to hold a hearing to exclude land or adopt a plan of taxation.

(b) The proposition for issuance of bonds may be submitted at the election held to confirm the creation of the district or at an election called by the board.

[Added by Acts 1977, 65th Leg., p. 1537, ch. 627, § 1, eff. Aug. 29, 1977.]

**§ 58.484. Hearing Before Issuing Certain Bonds**

If a district issues its original bonds under Section 58.480(b)(2) of this code and later desires to issue bonds payable in whole or in part from taxes or to levy a tax for maintenance purposes, the district shall hold a hearing to exclude land, and at the time provided by law, shall hold another hearing to adopt a plan of taxation. These hearings shall be held before an election is called to approve the issuance of tax-supported bonds or the levy of a maintenance tax.

[Added by Acts 1977, 65th Leg., p. 1537, ch. 627, § 1, eff. Aug. 29, 1977.]

After the board adopts plans for construction of a plant and improvements to accomplish the purposes of the district and after an election is held to authorize the issuance of construction bonds and the levy of a tax to pay for the bonds, the board shall hold a public hearing to determine whether the taxes to pay the construction bonds and maintenance, operation, and administrative costs of the district shall be levied, assessed, and collected on:

- (1) the ad valorem basis;
- (2) the basis of assessment of specific benefits;

(b) If the tax plan is not based wholly on the ad valorem basis or on the benefit basis, the order adopting the proposed plan shall specify the portion of the tax to be based on the ad valorem basis and the portion to be based on the benefit basis. The board also shall state the physical and economic reasons, the peculiar diverse local needs, or the comparative potential benefits of different areas of designated property in the district which make it necessary or equitable to levy all or part of the tax on a defined part of the district on the ad valorem or benefit basis.

(d) The order is not subject to judicial review except on the ground of fraud, palpable error, or arbitrary and confiscatory abuse of discretion.

(e) A new plan may be adopted if required to preserve equity of distribution in the manner provided for adopting the original plan; however, no change may be made in the tax plan which will impair the ability of the district promptly to meet all outstanding obligations of the district within the intent of Sections 58.464 and 58.467 of this code. If proposed improvements are considered to be required to promote the public welfare or if the owners of the land in a defined area file a petition acknowledged as required for deeds requesting the district to provide improvements and assess a tax only in the defined area, it is not necessary to constitute the area a separate election precinct and have a separate election in that area.

(a) If the improvements to be provided in a defined area are considered peculiarly for the benefit of that area and not required to conserve the public or general welfare in the district as a whole, and if the proposed improvements in that area will require the imposition of a tax only on the property in the area, the defined area is constituted a separate election precinct in which a separate election shall be held to determine if the improvements will be provided and a separate tax levied.

(b) The designation shall be based on a written petition in conformity with the laws authorizing contracts by a petitioner or person owning, control-

ling, or governing the property or area to be designated.

(c) The board may make the designation in a contract to provide, administer, maintain, and operate the desired improvements, facilities, or service for the designated area or property, and the designated area or property shall be subject to a tax lien in an amount to retire the obligations incurred by the district to provide the facilities, improvements, or service and to cover the expenses necessary to administer, maintain, and operate the improvements and facilities under the contract.

(d) The contract may not violate the law of this state or the United States and may not result in impairing a vested right or causing the district to fail to serve fully and permanently water demands in the district in the order of preference of uses.

(e) The contract may provide that one governing body may establish the contractual and statutory tax lien in behalf of the district and may levy, assess, and collect the tax for and on behalf of the district.

(f) The district may not issue bonds pledging the full faith and credit of the district under this section or under Section 58.517 of this code without submitting the proposition to the electors of the whole district under the provisions of this subchapter or under the provisions authorizing the issuance of construction bonds.

(b) The district shall have a lien on the property in the defined area or on the designated property and may levy, assess, and collect or have levied, assessed, and collected taxes in the area or on the property to protect the district from or to compensate any liability incurred on behalf of the defined area or designated property.

(c) The procedure for the trial and the determination of the orders and judgments to be entered shall be governed solely by the rules of law, evidence, and procedure of the state courts according to the consti-

If the board finds on hearing the petition that the addition would be of benefit to the district and that the water supply, canals, and other improvements are sufficient to supply the added territory without injuring the land already in the district, it may add the territory to the district by resolution entered in its minutes. **CHAPTER 61. ARTICLE III, SECTION 52,  
NAVIGATION DISTRICTS**

**SUBCHAPTER D. POWERS AND DUTIES**

**§ 61.116. Lease of State Owned Lands and Flats**

(a) Any district organized under this chapter or any special law or any general law under which navigation districts may be created may apply for a lease from the State of Texas of the surface estate of any lands and flats belonging to the state which are covered or partly covered by the water of any of the bays or other arms of the sea; however, any navigation district created after the effective date of this Act may not lease the surface estate of any such lands or flats which are located within 10 miles of the boundary of any navigation district in existence on the effective date of this Act, without first receiving the written approval of the district now in existence. The words "navigation district," "district," or "districts" as used in Sections 61.116, 61.117, and 60.038 of the Texas Water Code shall apply to any incorporated city in this state which owns and operates wharves, docks, and other marine port facilities.

(b) The state, through the School Land Board, may lease these state owned lands or flats to eligible navigation districts only for purposes reasonably related to the promotion of navigation. The term "navigation" as used herein refers to marine commerce and immediately related activities, including but not limited to port development; channel construction and maintenance; commercial and sport fishing; recreational boating; industrial site locations; transportation, shipping, and storage facilities; pollution abatement facilities; and all other activities necessary or appropriate to the promotion of marine commerce; but specifically does not refer to residential development.

(c) In making application for a lease of state owned lands or flats, the district shall include the following information:

(1) a description of the lands or flats sought to be leased;

(2) a plan showing how it proposes to utilize the land and a timetable indicating approximately when such utilization will take place;

(3) a draft environmental impact statement assessing the effect of the proposed use on the environment, which statement shall generally conform to the requirements of the National Environmental Policy Act,<sup>1</sup> until such time as the legislature shall impose different requirements; however, a draft environmental impact statement shall not be required if the proposed use requires no dredging, filling, or bulkheading. If the proposed use does require dredging, filling, or bulkheading, but<sup>2</sup> the lease shall be processed as provided in Subsections (d), (e), and (f) of this section without the filing of a draft environmental impact statement if the applicant so requests in writing; but in such a case, the School Land Board shall include in the lease provisions requiring (i) that the draft environmental impact statement required by federal law be filed with the School Land Board before the district makes any use of such lands or flats which requires dredging, filling, or bulkheading; (ii) that approval of such use be obtained from the School Land Board after copies of the summary of the draft environmental impact statement and a description of the proposed use are circulated for comment and a hearing held as provided in Subsections (d) and (e) of this section and the School Land Board shall be authorized to give its approval to make such amendments to the lease as may then be deemed necessary by it as a result of information developed in the draft environmental impact statement; and (iii) that the lease shall cease to be effective at a time specifically stated in the lease unless prior to that time accord concerning environmental issues has been reached between the district and the School Land Board;

(4) proof satisfactory to the board establishing the public convenience and necessity for acquisition of lands sought to be leased.

(d) Upon receipt of an application and accompanying information, the School Land Board shall submit copies thereof to the member agencies of the Inter-agency Council on Natural Resources and the Environment and all other appropriate state agencies for review and comment. In addition, the board shall submit for review and comment the proposed terms and conditions of the lease. The board shall allow 30 days for such review and comment, and may extend the review period for an additional 30 days upon written request by the executive director of any state agency.

(e) Following the expiration of the period provided for review and comment, or following the expiration of the 30 day extension of such period, if applicable, the School Land Board shall cause a hearing to be held in the county in which the land proposed to be leased is located. Notice of the hearing shall be given by publication for at least three days, not less than two weeks nor more than four weeks prior to the hearing, in the daily paper having the greatest circulation in the county. Members of the board or their designated representatives shall conduct the hearing, at which any party may offer testimony in support of or in opposition to the application, and the board shall consider the record of the hearing in making a decision on the application.

(f) After submission of all evidence, the School Land Board shall authorize the issuance or denial of the proposed lease and shall determine the reasonable cost to the district, term of years, special limitations, if any, and other conditions necessary to best serve the interest of the general public. In establishing the consideration to be paid to the state for the lease, due weight shall be given to the depth of the water over the submerged land, its proximity to development activities, and its proposed use. Final action shall be taken by the board no more than 60 days following the public hearing.

(g) The funds derived from the lease shall be paid to the General Land Office for transfer to the proper funds of the state.

(h) Districts may sublease lands leased from the state under the provisions of this section to third parties for activities reasonably related to navigation, but such sublease shall be subject to the approval of the School Land Board according to the procedures, requirements, and criteria set forth in Subsections (c) and (d) of Section 61.116 of this code; provided, however, that no approval by the School Land Board shall be required if the sublease is for a purpose contemplated by the district and approved by the board in the district's original lease. It is further provided that no environmental impact statement shall ever be necessary for any sublease which requires no dredging, filling, or bulkheading, and which would not have a substantial impact upon the environment, or which requires only insubstantial dredging, filling, or bulkheading, as determined by the board; nor shall a district in obtaining ap-

proval for a sublease under any circumstances be required to reveal the name of the tenant to whom the sublease is to be made.

(i) If lands or flats leased from the state under the provisions of this section are utilized by the district or its sublessee for any purpose or use not approved by the School Land Board, the district shall be given notice and an opportunity to change and correct the use. If the use is not changed and corrected within a reasonable time after receipt of such notice, the lease may be terminated by the School Land Board and the lands or flats shall revert to the State of Texas.

<sup>2</sup> So in enrolled bill.

Sections 4 and 5 of the 1975 amendatory act provided:

"Sec. 4. Venue for any action arising under this Act brought by or against the State of Texas, or involving the state's claim to title to land conveyed or sought to be conveyed under this Act, shall lie in a district court of Travis County, Texas.

"Sec. 5. Any and all laws or parts of laws in conflict with the provisions of this Act are repealed to the extent of such conflict."

**§ 61.117. Limitations on Sales and Use of State Lands and Flats**

(a) The State of Texas shall retain its rights in all mines and minerals, including oil, gas, and geothermal resources, in and under the land, together with the right to enter the land for the purpose of development when it leases land under Section 61.116 of this code.

(b) All leases of land under Section 61.116 are subject to oil, gas, or mineral leases in existence at the time of the lease to the district.

(c) Any land which has been franchised or leased or is being used by any navigation district or by the United States for the purpose of navigation, industry, or other purpose incident to the operation of a port shall not be entered or possessed by the State of Texas or by anyone claiming under the State of Texas for the purpose of exploring for oil, gas, or other minerals except by directional drilling. No easement, lease, or permit may be granted on land which has been leased to a navigation district which will interfere with the proposed use of the land by the navigation district, and the prior approval of the navigation district shall be obtained for such purpose.

(d) No surface drilling location may be nearer than 660 feet and special permission from the Commissioner of the General Land Office is necessary to make any surface location nearer than 2,160 feet, measured at right angles from the nearest bulkhead line designated by a navigation district or the United States as the bulkhead line or from the nearest dredged bottom edge of any channel, slip, or turning basin which has been dredged, or which has been authorized by the United States as a federal project for future construction, whichever is nearer.

(e) In the event land is leased to a navigation district for construction of a navigation project, the School Land Board may in the lease designate the

district to be the agent of the State of Texas with authority to grant to the United States of America such easements for dredging and disposal of dredged material as may be required for federal participation in the project. In designating the district to be the agent of the State of Texas for the purpose of granting spoil easements, the board may include a requirement that the district obtain the approval of the board before granting any such easement. Such approval may be given in the form of accepting a master plan for spoil disposal.

(f) Districts which, prior to the enactment of this provision, have obtained patents to state owned lands or flats under Article 8225, Revised Civil Statutes of Texas, 1925,<sup>1</sup> or under any general or special act, and which still claim title to any such lands or flats, may not hereafter dispose of any such lands or flats which were conveyed to them by the State of Texas and may not lease such lands or flats for a use for which districts are not authorized to lease their other lands; however, in the event a district possesses lands it finds to be in excess of its needs, it may sell such surplus lands or flats back to the State of Texas for the same consideration as originally paid to the state or exchange them for other lands with the State of Texas. It is further provided that the limitation on resale of lands or flats acquired from the State of Texas shall not prevent a district from exchanging such lands or flats for land, or rights in land, of an adjacent littoral owner for the purpose of adjusting or straightening the boundary between such lands. All such exchanges made after December 31, 1973, shall be subject to the approval of the School Land Board.

(g) Any district which, prior to the effective date of this Act has maintained, and which at the effective date of this Act is maintaining, any channel, dredged material disposal site, or other navigational aid or improvement on state owned lands to which the district holds no patent or lease from the state shall notify the General Land Office of the boundaries of such submerged land used by furnishing a map or other drawing acceptable to the General Land Office.

The bonds shall be signed by the president and attested by the secretary, and have the seal of the authority impressed on them. Bonds may be sold at the price and under the terms determined by the board to be the most advantageous and reasonably obtainable, provided that the interest cost to the authority calculated by the use of standard bond interest tables currently in use by insurance companies and investment houses does not exceed 10 percent a year. If bonds are issued payable wholly or partially from ad valorem taxes, it is the duty of the board to levy a tax sufficient to pay the bonds and the interest on the bonds as the bonds and interest become due, but the rate of the tax for any year may be fixed after giving consideration to the money received from the pledged revenues that may be available for the payment of the principal and interest to the extent and in the manner permitted by the resolution authorizing the issuance of the bonds.

[Added by Acts 1979, 66th Leg., p. 2085, ch. 816, § 1, eff. Aug. 27, 1979.]

#### § 64.138. Approval and Registration of Bonds

Bonds issued by the authority under this subchapter constitute negotiable instruments within the meaning of the law of this state pertaining to negotiable instruments. Before any bonds are sold by the authority, a certified copy of the proceedings for the issuance thereof, including the form of the bonds, together with any other information which the attorney general may require, shall be submitted to the attorney general, and if he or she finds that the bonds are issued in accordance with the law, including compliance with Section 54.516 of this code, he or she shall approve the bonds and execute a certificate of approval that shall be filed in the office of the state comptroller and shall be recorded in a record kept for that purpose. No bonds are to be issued until registered by the state comptroller, who is to register the bonds if the attorney general has filed with the comptroller his or her certificate approving the bonds and the proceedings for the issuance of the bonds. If bonds or the proceedings pertaining to bonds recite that they are secured by a pledge of the proceeds of a contract made with the authority, a copy of the contract and proceedings of the contracting parties shall be submitted to the attorney general with the bond record, and if the bonds have been duly authorized and the contract made in compliance with law, the attorney general shall approve the bonds and contract and the bonds shall be registered by the state comptroller. If approved, the bonds and contract are valid and binding and incontestable for any cause. Whenever the authority has issued bonds, including interim or temporary bonds, or has contracted with the United States or the State of Texas, or any corporation or agency of either or any other entity in connection with the financing of its works or facilities, the authority may validate the bonds or contracts by suit in the manner and with the same effect as provided by Chapter 51 of this code.

After any exchange and substitution, it is the duty of the authority to file proper certificates with the state comptroller, as to the exchange, substitution, and cancellation of the bonds. The certificates are to be recorded by the state comptroller.

The board may issue refunding bonds for the purpose of refunding any outstanding bonds authorized by this subchapter and the interest on the bonds without the necessity of an election. Refunding bonds may be issued to refund more than one series of outstanding bonds, and in the case of bonds secured in whole or in part by net revenues, the authority may combine the pledges for the outstanding bonds for the security of the refunding bonds and may secure them by other or additional revenues. The provisions of this subchapter with reference to the issuance of other bonds and their approval by the attorney general and the rights and remedies of the holders are to be applicable to refunding bonds. Refunding bonds are to be registered by the comptroller on the surrender and cancellation of the bonds to be refunded, but in lieu thereof, the resolution authorizing their issuance may provide that they are to be sold and their proceeds deposited in the bank where the original bonds are payable, in which case the refunding bonds may be issued in an amount sufficient to pay the interest on the original bonds to their option date or maturity date, and the comptroller is to register them without concurrent surrender and cancellation of the original bonds.

[Added by Acts 1979, 66th Leg., p. 2085, ch. 816, § 1, eff. Aug. 27, 1979.]

Any bonds, including refunding bonds, authorized by this subchapter, not payable wholly from ad valorem taxes, may be secured additionally by a trust indenture under which the trustee is a bank having trust powers and is located either within or without the State of Texas. The trust indenture or mortgage may include provisions for a lien on all or any part of the physical properties of the authority and franchises, easements, water rights and appropriation permits, leases, and contracts, and all rights appurtenant to these properties, vesting in the trustee, in the event of default, power to operate the properties and all other powers for the further security of the bonds. The trust indenture, regardless of the existence of the deed of trust lien, may

contain any provisions prescribed by the board for the security of the bonds and the preservation of the trust estate, including provision for an amendment or modification of the trust indenture, and the issuance of bonds to replace lost or mutilated bonds secured by the trust indenture. Any purchaser in a sale under the deed of trust lien where one is given is the owner of the properties, facilities, and rights purchased and has the right to maintain and operate them during the period prescribed by the trust indenture.
