(c) The driver of a vehicle approaching a yield sign shall in obedience to such sign slow down to a speed reasonable for the existing conditions and shall yield the right-of-way to any vehicle in the intersection or approaching on another highway so closely as to constitute an immediate hazard during the time such driver is moving across or within the intersection. Provided, however, that if such a driver is involved in a collision with a vehicle in the intersection, after driving past a yield sign without stopping, such collision shall be deemed prima facie evidence of his failure to yield right-of-way.

#### Vehicle Entering Highway From Private Road or Driveway

Sec. 74. The driver of a vehicle about to enter or cross a highway from an alley, building, private road or driveway shall yield the right-of-way to all vehicles approaching on the highway to be entered.

This provision shall not apply under the conditions stated in Section 78(b).

(b) Whenever any vehicle is stopped at a marked crosswalk or at any unmarked crosswalk at an intersection to permit a pedestrian to cross the roadway, the driver of any other vehicle approaching from the rear shall not overtake and pass such stopped vehicle.

lighting devices as referred to in Article XIV, and to issue and enforce regulations not inconsistent with law, establishing standards and specifications for their approval, installation and adjustment when in use on motor vehicles. Such regulations shall correlate with, and, insofar as practicable, conform to the then current standards and specifications of the Society of Automotive Engineers, or in its discretion any other recognized organization which sets standards for such equipment, material and lighting equipment.

(e) The Department is further authorized to establish the procedure which shall be followed when any device is submitted for approval. Any person, firm, or corporation, may submit to the Department any such lamp, device, equipment, or material, required to be approved by the Department, and to make application that the same be tested as to conformity with the requirements of the law and the regulations of the Department. Upon such application being made, the Department shall cause such test to be made as may be necessary to determine whether to approve or disapprove. Each such applicant shall, upon the filing of his application, pay to the Department of Public Safety a fee of Fifty Dollars (\$50). All such fees shall be paid by the Department into the State Treasury to be deposited in the Operator's and Chauffeur's License Fund. The Department may recognize the American Association of Motor Vehicle Administrators' certificate of equipment approval or in its discretion a certificate from any other recognized testing organization as evidence that the minimum standards prescribed have been satisfied.

(f) When the Department has reason to believe that an approved device as being sold commercially does not comply with the requirements of this Chapter, the Department may, after giving thirty (30) days previous notice to the person holding the certificate of approval for such device in this State, conduct a hearing upon the question of compliance of said approved device. After said hearing the Department shall determine whether said approved device meets the requirements of this Chapter. If said device does not meet the requirements of this Chapter the Department shall give notice to the person holding the certificate of approval for such device in this State. If, at the expiration of ninety (90) days after such notice, the person holding the certificate of approval for such device has failed to satisfy the Department that said approved device as thereafter to be sold meets the requirements of this Chapter, the Department shall suspend or revoke the approval issued therefor until or unless such device is resubmitted to and retested by an authorized testing agency and is found to meet the requirements of this Chapter, and may require that all said devices sold since the notification following the hearing be replaced with devices that do comply with the requirements of this Chapter. The Department may at the time of the retest purchase in the open market and submit to the testing agency one or

more sets of such approved devices and if such device upon such retest fails to meet the requirements of this Chapter, the Department may refuse to renew the certificate of approval of such device.

(g) Any order or act of the Department under the provisions of this section may be subject to review within ten (10) days' notice thereof by appeal to the District Court at the instance of any party in interest and in the county wherein the person aggrieved by such order or act resides, and such Court is hereby vested with jurisdiction. The proceeding on appeal shall be a trial de novo as such term is commonly used and intended in an appeal from the Justice Court to the County Court, and the burden of proof shall be on the Department.

#### Selling or Using Lamps or Equipment

Sec. 108A. (a) On and after September 1, 1955, no person shall have for sale, sell, or offer for sale, for use upon or as a part of the equipment of a motor vehicle, trailer or semi-trailer, or use upon any such vehicle any head-lamp, auxiliary, or fog-lamp, rear lamp, signal lamp, or reflector, which reflector is required hereunder, or any safety glass, glass coating material, or warning devices and equipment, or parts of any of the foregoing which tend to change the original design or performance, unless of a type which has been submitted to the Department of Public Safety and approved by it. The foregoing provisions of this Section shall not apply to equipment in actual use when this Section is adopted, or replacement parts therefor.

(b) No person shall have for sale, sell, or offer for sale, for use upon or as a part of the equipment of a motor vehicle, trailer, or semi-trailer, any lamp or device mentioned in this Section, which has been approved by the Department, unless such lamp or device bears thereon the trademark or name under which it is approved so as to be legible when installed. The provisions of this subsection shall not apply, however, to safety glass and glass coating material.

(c) No person shall use upon any motor vehicle, trailer, or semi-trailer, any lamps mentioned in this Section unless said lamps are mounted, adjusted, and aimed in accordance with instructions of the Department of Public Safety.

#### Authority of the Department of Public Safety With Reference to Lighting Devices

Sec. 108B. Repealed by Acts 1971, 62nd Leg., p. 743, ch. 83, § 53, eff. Aug. 30, 1971.

#### When Lighted Lamps are Required—Visibility—Height

Sec. 109. (a) Every vehicle upon a highway within this State at any time from a half hour after sunset to a half hour before sunrise and at any other time when, due to insufficient light or unfavorable atmospheric conditions, persons and vehicles on the highway are not clearly discernible at a distance of one thousand (1,000) feet ahead shall display lighted

lamps and illuminating devices as hereinafter respectively required for different classes of vehicles, subject to exceptions with respect to parked vehicles, and further that stop lights, turn signals and other signaling devices shall be lighted as prescribed for the use of such devices.

(b) Whenever requirement is hereinafter declared as to distance from which certain lamps and devices shall render objects visible or within which such lamps or devices shall be visible, said provisions shall apply during the times stated in Subsection (a) of this section in respect to a vehicle without load when upon a straight, level, unlighted highway under normal atmospheric conditions unless a different time or condition is expressly stated.

(c) Whenever requirement is hereinafter declared as to the mounted height of lamps or devices, it shall mean from the center of such lamp or device to the level ground upon which the vehicle stands when such vehicle is without a load.

#### Head Lamps on Motor Vehicles

Sec. 110. (a) Every motor vehicle shall be equipped with at least two (2) head lamps with at least one (1) on each side of the front of the motor vehicle, which head lamps shall comply with the requirements and limitations set forth in this Article.

(b) Every head lamp upon every motor vehicle shall be located at a height of not more than fifty-four (54) inches nor less than twenty-four (24) inches to be measured as set forth in Subsection (c) of Section 109.

#### Exemptions From Lighting Equipment Requirements

Sec. 110A. (a) The requirements of this Act requiring the installation of fixed electric lights on vehicles do not apply to farm trailers and fertilizer trailers registered as such under Section 2, Chapter 88, General Laws, Acts of the 41st Legislature, 2nd Called Session, 1929, as amended (Article 6675a-2, Vernon's Texas Civil Statutes), if they are operated on the highways only during daytime, and not at times when, due to insufficient light or unfavorable atmospheric conditions, persons and vehicles on the highway are not clearly discernible at a distance of one thousand (1,000) feet ahead.

(b) Except for Section 118 of this Act, the provisions of this Act requiring the installation of fixed electric lights on vehicles do not apply to boat trailers with a gross weight of less than four thousand, five hundred (4,500) pounds, if they are operated on the highways only during daytime, and not at times when, due to insufficient light or unfavorable atmospheric conditions, persons and vehicles on the highway are not clearly discernible at a distance of one thousand (1,000) feet ahead. Boat trailers with a gross weight of not more than three thousand (3,000) pounds are exempt from all provisions of this Act requiring the installation of electric lights on vehicles, including the provisions of Section 118, if they

are operated on the highways only during daytime, and not at times when, due to insufficient light or unfavorable atmospheric conditions, persons and vehicles on the highway are not clearly discernible at a distance of one thousand (1,000) feet ahead.

(c) Except for Section 118 of this Act, the provisions of this Act relating to lamps, reflectors, and lighting equipment do not apply to a mobile home if it is moved over the highways only during daytime and not at times when, due to insufficient light or unfavorable atmospheric conditions, persons and vehicles are not clearly discernible at a distance of one thousand (1,000) feet ahead, and if the mobile home is being moved pursuant to a special permit issued by the State Highway Department under Chapter 41, Acts of the 41st Legislature, 2nd Called Session, 1929, as amended (Article 6701a, Vernon's Texas Civil Statutes). In no event may a mobile home lighted as provided in this section move on the highways other than at daytime.

#### Tail Lamps

Sec. 111. (a) After January 1, 1972, every motor vehicle, trailer, semi-trailer and pole trailer, and any other vehicle which is being drawn at the end of a combination of vehicles, shall be equipped with at least two (2) tail lamps mounted on the rear which, when lighted as required in Section 109, shall emit a red light plainly visible from a distance of one thousand (1,000) feet to the rear, except that passenger cars and trucks manufactured or assembled prior to model year 1960 shall have at least one (1) tail lamp. On a combination of vehicles, only the tail lamps on the rearmost vehicle need actually be seen from the distance specified. On vehicles equipped with more than one (1) tail lamp, the lamps shall be mounted on the same level and as widely spaced laterally as practicable.

(b) Every tail lamp upon every vehicle shall be located at a height of not more than seventy-two (72) inches nor less than fifteen (15) inches.

(c) Either a tail lamp or a separate lamp shall be so constructed and placed as to illuminate with a white light the rear registration plate and render it clearly legible from a distance of fifty (50) feet to the rear. Any tail lamp or tail lamps, together with any separate lamp or lamps for illuminating the rear registration plate, shall be so wired as to be lighted whenever the head lamps or auxiliary driving lamps are lighted.

#### Reflectors

Sec. 112. (a) Every motor vehicle, trailer, semitrailer and pole trailer shall carry on the rear, either as a part of the tail lamps or separately, two (2) or more red reflectors meeting the requirements of this section; provided, however, that vehicles of the types mentioned in Section 114 shall be equipped with reflectors meeting the requirements of Sections 116 and 117.

(b) Every such reflector shall be mounted on the vehicle at a height not less than fifteen (15) inches nor more than sixty (60) inches measured as set forth in Subsection (c) of Section 109, and shall be of such size and characteristics and so mounted as to be visible at night from all distances within six hundred (600) feet to one hundred (100) feet from such vehicle when directly in front of lawful lower beams of head lamps, except that reflectors on vehicles manufactured or assembled prior to January 1, 1972, shall be visible at night from all distances within three hundred and fifty (350) feet to one hundred (100) feet when directly in front of lawful upper beams of the head lamps.

#### Application of Succeeding Sections

Sec. 113. Those sections of this Chapter which follow immediately, including Sections 114, 115, 116, 117 and 119, relating to clearance lamps, marker lamps and reflectors, shall apply as stated in said sections to vehicles of the type therein enumerated; namely, buses, trucks, truck tractors, and trailers, semitrailers and pole trailers, respectively, when operated upon any highway, and said vehicles shall be equipped as required and all lamp equipment required shall be lighted at the times mentioned in Section 109.

#### Additional Lighting Equipment Required on Certain Vehicles

Sec. 114. In addition to other equipment required in Sections 110, 111, 112, and 118 of this Act, the following vehicles shall be equipped as herein stated under the conditions stated in Section 113, and in addition, the reflectors elsewhere enumerated for such vehicles shall conform to the requirements of Section 117.

(a) Buses and trucks eighty (80) inches or more in overall width:

1. On the front, two (2) clearance lamps, one (1) at each side.
2. On the rear, two (2) clearance lamps, one (1) at each side.
3. On each side, two (2) side marker lamps, one (1) at or near the front and one (1) at or near the rear.
4. On each side, two (2) reflectors, one (1) at or near the front and one (1) at or near the rear.

**Color of Clearance Lamps, Identification Lamps, Side Marker Lamps, Back-up Lamps and Reflectors**

Sec. 115. (a) Front clearance lamps, identification lamps and those marker lamps and reflectors mounted on the front or on the side near the front of a vehicle shall display or reflect an amber color.

(b) Rear clearance lamps, identification lamps and those marker lamps and reflectors mounted on the rear or on the sides near the rear of a vehicle shall display or reflect a red color.

(c) All lighting devices and reflectors mounted on the rear of any vehicle shall display or reflect a red color, except the stop light or other signal device, which may be red, amber or yellow, and except that the light illuminating the license plate shall be white and the light emitted by a back-up lamp shall be white or amber.

**Mounting of Reflectors, Clearance Lamps, Identification Lamps, and Side Marker Lamps**

Sec. 116. (a) Reflectors shall be mounted at a height of not less than twenty-four (24) inches and not higher than sixty (60) inches above the ground on which the vehicle stands, except that if the highest part of the permanent structure of the vehicle is less than twenty-four (24) inches the reflector at such point shall be mounted as high as that part of the permanent structure will permit.

The rear reflectors on a pole trailer may be mounted on each side of the bolster or load.

Any required red reflector on the rear of a vehicle may be incorporated with the tail lamp, but such reflector shall meet all the other reflector requirements of this Act.

(b) Clearance lamps shall, so far as is practicable, be mounted on the permanent structure of the vehicle in such a manner as to indicate the extreme height and width of the vehicle. Provided, that when rear identification lamps

are required and are mounted as high as it is practicable, rear clearance lamps may be mounted at optional height and when the mounting of front clearance lamps results in such lamps failing to indicate the extreme width of the trailer, such lamps may be mounted at optional height but must indicate, as near as practicable, the extreme width of the trailer. Clearance lamps on truck tractors shall be located so as to indicate the extreme width of the truck tractor cab. Clearance lamps and side marker lamps may be mounted in combination provided illumination is given as required herein with reference to both.

**Visibility Requirements for Reflectors, Clearance Lamps, Identification Lamps and Marker Lamps**

Sec. 117. (a) Every reflector upon any vehicle referred to in Section 114 shall be of such size and characteristics and so maintained as to be readily visible at nighttime from all distances within six hundred (600) feet to one hundred (100) feet from the vehicle when directly in front of lawful lower beams of the head lamps, except that the visibility for reflectors on vehicles manufactured or assembled prior to January 1, 1972, shall be measured in front of lawful upper beams of head lamps. Reflectors required to be mounted on the sides of the vehicle shall reflect the required color of light to the sides, and those mounted on the rear shall reflect a red color to the rear.

(b) Front and rear clearance lamps and identification lamps shall be capable of being seen and distinguished under normal atmospheric conditions at the times lights are required at all distances between five hundred (500) and fifty (50) feet from the front and rear, respectively, of the vehicle.

(c) Side marker lamps shall be capable of being seen and distinguished under normal atmospheric conditions at the times lights are required at all distances between five hundred (500) and fifty (50) feet from the side of the vehicle on which mounted.

**Stop Lamps and Turn Signals**

Sec. 118. (a) After January 1, 1972, every motor vehicle, trailer, semitrailer and pole trailer shall be equipped with two (2) or more stop lamps meeting the requirements of Section 124, except that passenger cars manufactured or assembled prior to the model year 1960, shall be equipped with at least one (1) stop lamp. On a combination of vehicles, only the stop lamps on the rearmost vehicle need actually be seen from the distance specified in Section 124.

(b) After January 1, 1972, every motor vehicle, trailer, semitrailer and pole trailer shall be equipped with electric turn signal lamps meeting the requirements of Section 124, except that passenger cars and trucks less than eighty (80) inches in width, manufactured or assembled prior to model year 1960, need not be equipped with electric turn signal lamps.

**Obstructed Lights Not Required**

Sec. 119. Whenever motor and other vehicles are operated in combination during the time that lights are required, any lamp (except tail lamps) need not be lighted which, by reason of its location on a vehicle of the combination, would be obscured by another vehicle of the combination, but this shall not affect the requirement that lighted clearance lamps be displayed on the front of the foremost vehicle required to have clearance lamps, nor that all lights required on the rear of the rearmost vehicle of any combination shall be lighted.

**Lamps or Flags on Projecting Load**

Sec. 120. Whenever the load upon any vehicle extends to the rear four (4) feet or more beyond the bed or body of such vehicle there shall be displayed at the extreme rear end of the load, at the times specified in Section 109, two (2) red lamps visible from a distance of at least five hundred (500) feet to the rear, two (2) red reflectors visible at night from all distances within six hundred (600) feet to one hundred (100) feet to the rear when directly in front of lawful lower beams of head lamps and located so as to indicate maximum width, and on each side one red lamp visible from a distance of at least five hundred (500) feet to the side and located so as to indicate maximum overhang. There shall be displayed at all other times on any vehicle having a load which extends beyond its sides or more than four (4) feet beyond its rear, red flags, not less than twelve (12) inches square, marking the extremities of such load, at each point where a lamp would otherwise be required by this section.

**Lamps on Parked Vehicles**

Sec. 121. (a) Every vehicle shall be equipped with one (1) or more lamps which, when lighted, shall display a white or amber light visible from a distance of one thousand (1,000) feet to the front of the vehicle, and a red light visible from a distance of one thousand (1,000) feet to the rear of the vehicle. The location of said lamp or lamps shall always be such that at least one (1) lamp or combination of lamps meeting the requirements of this section is installed as near as practicable to the side of the vehicle which is closest to passing traffic.

(b) Whenever a vehicle is lawfully parked upon a street or highway during the hours between a half hour after sunset and a half hour before sunrise and in the event there is sufficient light to reveal any persons and vehicles within a distance of one thousand (1,000) feet upon such street or highway, no lights need be displayed upon such parked vehicle.

(c) Whenever a vehicle is parked or stopped upon a roadway or shoulder adjacent thereto, whether attended or unattended, during the hours between a half hour after sunset and a half hour before sunrise and there is insufficient light to reveal any person or object within a distance of one thousand (1,000) feet upon such highway, such vehicle so parked or

stopped shall be equipped with and shall display lamps meeting the requirements of Subsection (a).

(d) Any lighted head lamps upon a parked vehicle shall be depressed or dimmed.

**Lamps and Reflectors on Farm Tractors, Farm Equipment and Implements of Husbandry and Other Vehicles and Equipment**

Sec. 122. (a) Every farm tractor and every self-propelled unit of farm equipment or implement of husbandry manufactured or assembled after January 1, 1972, shall be equipped with vehicular hazard warning lights of a type described in Section 125(d), visible from a distance of not less than one thousand (1,000) feet to the front and rear in normal sunlight, which shall be displayed whenever any such vehicle is operated upon a highway.

(b) Every farm tractor and every self-propelled unit of farm equipment or implement of husbandry manufactured or assembled after January 1, 1972, shall at all times, and every other such motor vehicle shall at all times mentioned in Section 109, be equipped with lamps and reflectors as follows:

1. At least two (2) head lamps meeting the requirements of Sections 126, 128 or 129.

2. At least one (1) red lamp visible when lighted from a distance of not less than one thousand (1,000) feet to the rear mounted as far to the left of the center of the vehicle as practicable.

3. At least two (2) red reflectors visible from all distances within six hundred (600) feet to one hundred (100) feet to the rear when directly in front of lawful lower beams of head lamps.

(c) Every combination of farm tractor and towed farm equipment or towed implement of husbandry shall at all times mentioned in Section 109 be equipped with lamps and reflectors as follows:

1. The farm tractor shall be equipped as required in Subsections (a) and (b).

2. If the towed unit or its load extends more than four (4) feet to the rear of the tractor or obscures any light thereon, said unit shall be equipped on the rear with at least two (2) red reflectors visible from all distances within six hundred (600) feet to one hundred (100) feet to the rear when directly in front of lawful lower beams of head lamps.

3. If the towed unit of such combination extends more than four (4) feet to the left of the centerline of the tractor, said unit shall be equipped on the front with an amber reflector visible from all distances within six hundred (600) feet to one hundred (100) feet to the front when directly in front of lawful lower beams of head lamps. This reflector shall be so positioned to indicate, as nearly as practicable, the extreme left projection of the towed unit.

(d) The two (2) red reflectors required in the foregoing subsection shall be so positioned as to show from the rear, as nearly as practicable, the extreme width of the vehicle or combination carrying them. Provided that all other requirements are met, reflective tape or paint may be used in lieu of the reflectors required by Subsection (c).

(e) Every vehicle including animal-drawn vehicles and vehicles referred to in Section 108(c), not specifically required by the provisions of this article to be equipped with lamps or other lighting devices shall at all times specified in Section 109 of this Act be equipped with at least one lamp displaying a white light visible from a distance of not less than one thousand (1,000) feet to the front of said vehicle, and shall also be equipped with two (2) lamps displaying red light visible from a distance of not less than one thousand (1,000) feet to the rear of said vehicle, or as an alternative, one lamp displaying a red light visible from a distance of not less than one thousand (1,000) feet to the rear and two red reflectors visible from all distances of six hundred (600) to one hundred (100) feet to the rear when illuminated by the lawful lower beams of head lamps.

#### Spot Lamps and Auxiliary Driving Lamps

Sec. 123. (a) Spot lamps. Any motor vehicle may be equipped with not to exceed two (2) spot lamps and every lighted spot lamp shall be so aimed and used that no part of the high-intensity portion of the beam will strike the windshield, or any windows, mirror, or occupant of another vehicle in use.

(d) Auxiliary driving lamps. Any motor vehicle may be equipped with not to exceed two (2) auxiliary driving lamps mounted on the front at a height of not less than sixteen (16) inches nor more than forty-two (42) inches above the level surface upon which the vehicle stands. The provisions of Section 126 shall ap-

ply to any combination of head lamps and auxiliary driving lamps.

#### Audible and Visual Signals on Vehicles, Signal Lamps and Signal Devices

Sec. 124. (a) Every authorized emergency vehicle may, in addition to any other equipment and distinctive markings required by this Act, be equipped with a siren, exhaust whistle or bell capable of giving an audible signal.

(b) Every school bus and every authorized emergency vehicle shall, in addition to any other equipment and distinctive markings required by this Act, be equipped with signal lamps mounted as high and as widely spaced laterally as practicable, which shall be capable of displaying to the front two alternately flashing red lights located at the same level and to the rear two alternately flashing red lights located at the same level, and these lights shall have sufficient intensity to be visible at 500 feet in normal sunlight. A church bus may be equipped with signal lamps of the type authorized for school buses if it has the words "Church Bus" printed on the front and rear of the bus, and the words are clearly discernible to drivers of other vehicles.

(c) A police vehicle when used as an authorized emergency vehicle may but need not be equipped with alternately flashing red lights specified herein.

(d) The alternately flashing lighting described in Subsections (b) and (c) of this section shall not be used on any vehicle other than a school bus, a church bus, or an authorized emergency vehicle.

(e) Any vehicle may be equipped and when required under this Act shall be equipped with a stop lamp or lamps on the rear of the vehicle which shall display a red or amber light, or any shade of color between red and amber, visible from a distance of not less than three hundred (300) feet to the rear in normal sunlight, and which shall be actuated upon application of the service (foot) brake, and which may but need not be incorporated with one (1) or more other rear lamps.

(f) Any vehicle may be equipped and when required under this Act shall be equipped with electric turn signals which shall indicate an intention to turn by flashing lights showing to the front and rear of a vehicle or on a combination of vehicles on the side of the vehicle or combination toward which the turn is to be made. The lamps showing to the front shall be mounted on the same level and as widely spaced laterally as practicable and, when signaling, shall emit white or amber light, or any shade of light between white and amber. The lamps showing to the rear shall be mounted on the same level and as widely spaced laterally as practicable, and, when signaling, shall emit a red or amber light, or any shade of color between red and amber. Turn signal lamps on vehicles eighty (80) inches or more in overall width shall be visible from a distance of not less than five hundred (500) feet to the front and rear in normal sunlight. Turn signal

lamps on vehicles less than eighty (80) inches wide shall be visible at a distance of not less than three hundred (300) feet to the front and rear in normal sunlight. Turn signal lamps may, but need not be, incorporated in other lamps on the vehicle.

#### Additional Lighting Equipment

Sec. 125. (a) Any motor vehicle may be equipped with not more than two (2) side cowl or fender lamps which shall emit an amber or white light without glare.

(b) Any motor vehicle may be equipped with not more than one (1) running board courtesy lamp on each side thereof which shall emit a white or amber light without glare.

(c) Any motor vehicle may be equipped with one (1) or more back-up lamps either separately or in combination with other lamps, but any such back-up lamp or lamps shall not be lighted when the motor vehicle is in forward motion.

(d) Any vehicle may be equipped with lamps for the purpose of warning the operators of other vehicles of the presence of a vehicular traffic hazard requiring the exercise of unusual care in approaching, overtaking or passing. After January 1, 1972, every bus, truck, truck tractor, trailer, semitrailer or pole trailer eighty (80) inches or more in overall width or thirty (30) feet or more in overall length shall be equipped with lamps meeting the requirements of this subsection. The lamps used to display such warning to the front shall be mounted at the same level and as widely spaced laterally as practicable, and shall display simultaneously flashing white or amber lights, or any shade of color between white and amber. The lamps used to display such warning to the rear shall be mounted at the same level and as widely spaced laterally as practicable, and shall show simultaneously flashing amber or red lights, or any shade of color between amber and red. These warning lights shall be visible from a distance of not less than five hundred (500) feet in normal sunlight.

(e) Any vehicle eighty (80) inches or more in overall width, if not otherwise required by this Act, may be equipped with not more than three (3) identification lamps showing to the front which shall emit an amber light without glare and not more than three (3) identification lamps showing to the rear which shall emit a red light without glare. Such lamps shall be mounted as specified in Subsection (f) of Section 114.

#### Multiple-Beam Road Lighting Equipment

Sec. 126. Except as hereinafter provided, the headlamps or the auxiliary driving lamp or the auxiliary passing lamp or combination thereof on motor vehicles other than motorcycles or motor driven cycles shall be so arranged that the driver may select at will between distributions of light projected to different elevations and such lamps may, in addition, be so arranged that such selection can be made

automatically, subject to the following limitations:

(a) There shall be an uppermost distribution of light, or composite beam, so aimed and of such intensity as to reveal persons and vehicles at a distance of at least four hundred and fifty (450) feet ahead for all conditions of loading.

(b) There shall be a lowermost distribution of light, or composite beam so aimed and of sufficient intensity to reveal persons and vehicles at a distance of at least one hundred and fifty (150) feet ahead; and on a straight level road under any condition of loading none of the high-intensity portion of the beam shall be directed to strike the eyes of an approaching driver.

(c) Every new motor vehicle, other than a motorcycle or motor-driven cycle, registered in this State after January 1, 1948, which has multiple-beam road lighting equipment shall be equipped with a beam indicator, which shall be lighted whenever the uppermost distribution of light from the head lamps is in use, and shall not otherwise be lighted. Said indicator shall be so designed and located that when lighted it will be readily visible without glare to the driver of the vehicle so equipped.

#### Use of Multiple-Beam Road Lighting Equipment

Sec. 127. (a) Whenever a motor vehicle is being operated on a roadway or shoulder adjacent thereto during the times specified in Section 109, the driver shall use a distribution of light, or composite beam, directed high enough and of sufficient intensity to reveal persons and vehicles at a safe distance in advance of the vehicle, subject to the following requirements and limitations:

(b) Whenever the driver of a vehicle approaches an oncoming vehicle within five hundred (500) feet, such driver shall use a distribution of light, or composite beam, so aimed that the glaring rays are not projected into the eyes of the oncoming driver. The lowermost distribution of light, or composite beam, specified in Section 126(b) and Section 139F(f)(2b) shall be deemed to avoid glare at all times, regardless of road contour and loading.

(c) Whenever the driver of a vehicle approaches another vehicle from the rear, within three hundred (300) feet, such driver shall use a distribution of light permissible under this Article other than the uppermost distribution of light specified in Sections 126(a) and 139F(f)(2a).

#### Single Beam Road Lighting Equipment

Sec. 128. Head lamp systems which provide only a single distribution of light shall be permitted on all farm tractors regardless of date of manufacture, and on other motor vehicles manufactured and sold prior to one (1) year after the effective date of this Act in lieu of multiple-beam road-lighting equipment herein specified if the single distribution of light

complies with the following requirements and limitations:

1. The head lamps shall be so aimed that when the vehicle is not loaded none of the high-intensity portion of the light shall at a distance of twenty-five (25) feet ahead project higher than a level of five (5) inches below the level of the center of the lamp from which it comes, and in no case higher than forty-two (42) inches above the level on which the vehicle stands at a distance of seventy-five (75) feet ahead.

2. The intensity shall be sufficient to reveal persons and vehicles at a distance of at least two hundred (200) feet.

#### Alternate Road Lighting Equipment

Sec. 129. Any motor vehicle may be operated under the conditions specified in Section 109 when equipped with two (2) lighted lamps upon the front thereof capable of revealing persons and vehicles one hundred (100) feet ahead in lieu of lamps required in Section 126 or Section 128, provided, however, that at no time shall it be operated at a speed in excess of twenty (20) miles per hour.

#### Number of Driving Lamps Required or Permitted

Sec. 130. (a) At all times specified in Section 109, at least two (2) lighted lamps shall be displayed, one on each side at the front of every motor vehicle except when such vehicle is parked subject to the regulations governing lights on parked vehicles.

(b) Whenever a motor vehicle equipped with head lamps as herein required is also equipped with any auxiliary lamps or a spot lamp or any other lamp on the front thereof projecting a beam of an intensity greater than three hundred (300) candlepower, not more than a total of four (4) of any such lamps on the front of a vehicle shall be lighted at any one time when upon a highway.

#### Special Restrictions on Lamps

Sec. 131. (a) Any lighted lamp or illuminating device upon a motor vehicle other than head lamps, spot lamps, auxiliary lamps, or flashing turn signals, emergency vehicle warning lamps, and school bus warning lamps, which projects a beam of light of an intensity greater than three hundred (300) candlepower shall be so directed that no part of the high intensity portion of the beam will strike the level of the roadway on which the vehicle stands at a distance of more than seventy-five (75) feet from the vehicle.

(b) No person shall drive or move any vehicle or equipment upon any highway with any lamp or device thereon displaying a red light visible from directly in front of the center thereof. This Section shall not apply to police vehicles or to any vehicle upon which a red light visible from the front is expressly authorized or required by law.

(c) Flashing lights are prohibited except as authorized or required in Sections 122, 124, 125 and 131.

(d) The Department of Public Safety is authorized to adopt standards and specifications applicable to lighting equipment on and special warning devices to be carried by school buses consistent with the provisions of this Article, but supplemental thereto. Such standards and specifications shall correlate with and, so far as possible, conform to the specifications then current as approved by the Society of Automotive Engineers.

(e) It shall be unlawful to operate any flashing warning signal light on any school bus except when any said school bus is stopped on a highway for the purpose of permitting school children to board or alight from said school bus.

(f) The Texas Highway Department shall adopt standards and specifications applicable to head lamps, clearance lamps, identification and other lamps on snow-removal and other highway maintenance and service equipment when operated on the highways of this State in lieu of the lamps otherwise required on motor vehicles by this Article. Such standards and specifications may permit the use of flashing lights for purposes of identification on snow-removal and other highway maintenance and service equipment when in service upon the highways. The standards and specifications for lamps referred to in this section shall correlate with and, so far as possible, conform with those approved by the American Association of State Highway Officials.

(g) It shall be unlawful to operate any snow-removal and other highway maintenance and service equipment on any highway unless the lamps thereon comply with and are lighted when and as required by the standards and specifications adopted as provided in this section.

#### Brakes

Sec. 132. Every motor vehicle, trailer, semi-trailer and pole trailer, and any combination of such vehicles operating upon a highway within this State shall be equipped with brakes in compliance with the requirements of this Article.

(a) Service brakes—adequacy. Every such vehicle and combination of vehicles, except special mobile equipment which is not designed or used primarily for the transportation of persons or property and only incidentally operated or moved on a highway, shall be equipped with service brakes complying with the performance requirements as required and adequate to control the movement of and to stop and hold such vehicle under all conditions of loading, and on any grade incident to its operation.

(b) Parking brakes—adequacy. Every such vehicle and combination of vehicles

shall be equipped with parking brakes adequate to hold the vehicle on any grade on which it is operated, under all conditions of loading, on a surface free from snow, ice, or loose material. The parking brakes shall be capable of being applied in conformance with the foregoing requirements by the driver's muscular effort or by spring action or by equivalent means. Their operation may be assisted by the service brakes or other source of power provided that failure of the service brake actuation system or other power assisting mechanism will not prevent the parking brakes from being applied in conformance with the foregoing requirements. The parking brakes shall be so designed that when once applied they shall remain applied with the required effectiveness despite exhaustion of any source of energy or leakage of any kind. The same brake drums, brake shoes and lining assemblies, brake shoe anchors and mechanical brake shoe actuation mechanism normally associated with the wheel brake assemblies may be used for both the service brakes and the parking brakes. If the means of applying the parking brakes and the service brakes are connected in any way, they shall be so constructed that failure of any one part shall not leave the vehicle without operative brakes.

(c) Brakes on all wheels. Every vehicle shall be equipped with brakes acting on all wheels except:

1. Certain trailers, semitrailers, and pole trailers, which are treated as follows:

a. If the gross weight of the trailer, semitrailer, or pole trailer does not exceed four thousand, five hundred (4,500) pounds, it is not required to have brakes.

b. If the gross weight of the trailer, semitrailer, or pole trailer exceeds four thousand, five hundred (4,500) pounds but does not exceed fifteen thousand (15,000) pounds, and the vehicle is not drawn at a speed in excess of thirty (30) miles per hour, it is not required to have brakes.

c. If the gross weight of the trailer, semitrailer, or pole trailer exceeds four thousand, five hundred (4,500) pounds but does not exceed fifteen thousand (15,000) pounds, and the vehicle is drawn at a speed in excess of thirty (30) miles per hour, it must have brakes acting on both wheels of the rear axle.

d. "Gross weight," as used in this subsection, means the weight of the trailer, semitrailer, or pole trailer plus the weight of the load actually carried.

2. Any vehicle being towed in driveaway or towaway operations, pro-

vided the combination of vehicles is capable of complying with the performance requirements of this Act.

3. Trucks and truck tractors having three (3) or more axles need not have brakes on the front wheels, except that when such vehicles are equipped with at least two (2) steerable axles, the wheels of one (1) steerable axle need not have brakes. However, such trucks and truck tractors must be capable of complying with the performance requirements of this Act.

4. Special mobile equipment as defined in Subsection (a) above.

5. Any farm trailer or farm semitrailer operated or moved temporarily upon the highways when its gross weight does not exceed ten thousand (10,000) pounds and when the speed of such farm trailer or farm semitrailer does not exceed thirty (30) miles per hour and when the vehicle and its operation meet all other requirements for total or partial exemption from registration fees as set forth in Section 2, Chapter 88, Acts of the 41st Legislature, 2nd Called Session, 1929, as last amended by Chapter 111, Acts of the 55th Legislature, Regular Session, 1957 (Article 6675a-2, Vernon's Texas Civil Statutes). The term "gross weight" as used in this subsection shall mean the combined weight of the trailer or semitrailer and the weight of the load actually carried on the highway.

6. Any farm trailer or farm semitrailer operated or moved temporarily upon the highways solely to transport cotton

a. if the gross weight of the trailer or semitrailer is not more than fifteen thousand (15,000) pounds;

b. if the speed of the trailer or semitrailer is not more than thirty (30) miles per hour; and

c. if the trailer or semitrailer is totally or partially exempt from the regular registration fees under Section 2, Chapter 88, Acts of the 41st Legislature, 2nd Called Session, 1929, as amended (Article 6675a-2, Vernon's Texas Civil Statutes).

(d) Automatic trailer brake application upon breakaway. Every trailer, semitrailer, and pole trailer equipped with air or vacuum actuated brakes and every trailer, semitrailer, and pole trailer with a gross weight in excess of three thousand (3,000) pounds, shall be equipped with brakes acting on all wheels and of such character as to be applied automatically and promptly, and remain applied for at least fifteen (15) minutes, upon breakaway from the towing vehicle.

(e) Tractor brakes protected. Every motor vehicle used to tow a trailer, semitrailer or pole trailer equipped with brakes, shall be equipped with means for providing that in case of a breakaway of the towed vehicle, the towing vehicle will be capable of being stopped by the use of its service brakes.

(f) Trailer air reservoirs safeguarded. Air brake systems installed on trailers shall be so designed that the supply reservoir used to provide air for the brakes shall be safeguarded against backflow of air from the reservoir through the supply line.

(g) Two (2) means of emergency brake operation.

1. Air brakes. After January 1, 1972, every towing vehicle, when used to tow another vehicle equipped with air controlled brakes, in other than driveaway or towaway operations, shall be equipped with two (2) means for emergency application of the trailer brakes. One of these means shall apply the brakes automatically in the event of a reduction of the towing vehicle air supply to a fixed pressure which shall be not lower than twenty (20) pounds per square inch nor higher than forty-five (45) pounds per square inch. The other means shall be a manually controlled device for applying and releasing the brakes, readily operable by a person seated in the driving seat, and its emergency position or method of operation shall be clearly indicated. In no instance may the manual means be so arranged as to permit its use to prevent operation of the automatic means. The automatic and the manual means required by this section may be, but are not required to be, separate.

2. Vacuum brakes. After January 1, 1972, every towing vehicle used to tow other vehicles equipped with vacuum brakes, in operations other than driveaway or towaway operations, shall have, in addition to the single control device required by Subsection (h), a second control device which can be used to operate the brakes on towed vehicles in emergencies. The second control shall be independent of brake air, hydraulic, and other pressure, and independent if other controls, unless the braking system be so arranged that failure of the pressure upon which the second control depends will cause the towed vehicle brakes to be applied automatically. The second control is not required to provide modulated braking.

(h) Single control to operate all brakes. After April 1, 1973, every motor vehicle, trailer, semitrailer and pole trail-

er, and every combination of such vehicles, equipped with brakes shall have the braking system so arranged that one control device can be used to operate all service brakes. This requirement does not prohibit vehicles from being equipped with an additional control device to be used to operate brakes on the towed vehicles. Surge or inertia brake systems may be used on trailers and semitrailers with a gross weight of not more than fifteen thousand (15,000) pounds in satisfaction of the requirements of Subsection (c) of this section. This regulation does not apply to driveaway or towaway operations unless the brakes on the individual vehicles are designed to be operated by a single control on the towing vehicle.

(i) Reservoir capacity and check valve.

1. Air brakes. Every bus, truck or truck tractor with air operated brakes shall be equipped with at least one (1) reservoir sufficient to insure that, when fully charged to the maximum pressure as regulated by the air compressor governor cut-out setting, a full service brake application may be made without lowering such reservoir pressure by more than twenty (20%) percent. Each reservoir shall be provided with means for readily draining accumulated oil or water.

2. Vacuum brakes. After January 1, 1972, every truck with three (3) or more axles equipped with vacuum assist type brakes and every truck tractor and truck used for towing a vehicle equipped with vacuum brakes shall be equipped with a reserve capacity or a vacuum reservoir sufficient to insure that, with the reserve capacity or reservoir fully charged and with the engine stopped, a full service brake application may be made without depleting the vacuum supply by more than forty (40%) percent.

3. Reservoir safeguarded. All motor vehicles, trailers, semitrailers and pole trailers, when equipped with air or vacuum reservoirs or reserve capacity as required by this section, shall have such reservoirs or reserve capacity so safeguarded by a check valve or equivalent device that in the event of failure or leakage in its connection to the source of compressed air or vacuum, the stored air or vacuum shall not be depleted by the leak or failure.

(j) Warning devices.

1. Air brakes. Every bus, truck or truck tractor using compressed air for the operation of its own brakes or the brakes on any towed vehicle, shall be provided with a warning signal, other than a pressure gauge, readily audible or visible to the driver, which will operate at any time the air reservoir

pressure of the vehicle is below fifty (50) percent of the air compressor governor cut-out pressure. In addition, each such vehicle shall be equipped with a pressure gauge visible to the driver, which indicates in pounds per square inch the pressure available for braking.

2. Vacuum brakes. After January 1, 1972, every truck tractor and truck used for towing a vehicle equipped with vacuum operated brakes and every truck with three (3) or more axles using vacuum in the operation of its brakes, except those in driveaway or towaway operations, shall be equipped with a warning signal, other than a gauge indicating vacuum, readily audible or visible to the driver, which will operate at any time the vacuum in the vehicle's supply reservoir or reserve capacity is less than eight (8) inches of mercury.

3. Combination of warning devices. When a vehicle required to be equipped with a warning device is equipped with both air and vacuum power for the operation of its own brakes or the brakes on a towed vehicle, the warning devices may be, but are not required to be, combined into a single device which will serve both purposes.

A gauge or gauges indicating pressure or vacuum shall not be deemed to be an adequate means of satisfying this requirement.

(k) Performance ability of brakes. Every motor vehicle and combination of vehicles, at all times and under all conditions of loading, upon application of the service brake, shall be capable of:

1. Developing a braking force that is not less than the percentage of its gross weight tabulated herein for its classification;

2. Decelerating to a stop from not more than twenty (20) miles per hour at not less than the feet per second per second tabulated herein for its classification, and

3. Stopping from a speed of twenty (20) miles per hour in not more than the distance tabulated herein for its classification, such distance to be measured from the point at which movement of the service brake pedal or control begins.

Tests for deceleration and stopping distance shall be made on a substantially level (not to exceed plus or minus one [1] percent grade), dry, smooth, hard surface that is free from loose material.

(l) Maintenance of brakes. All brakes shall be maintained in good working order and shall be so adjusted as to operate as equally as practicable with respect to the wheels on the opposite sides of the vehicle.

Horns and Warning Devices

Sec. 133. (a) Every motor vehicle when operated upon a highway shall be equipped with a horn in good working order and capable of emitting sound audible under normal conditions from a distance of not less than two hundred (200) feet, but no horn or other warning device shall emit an unreasonably loud or harsh sound or a whistle. The driver of a motor vehicle shall when necessary to insure safe operation give audible warning with his horn but shall not otherwise use such horn when upon a highway.

(b) No vehicle shall be equipped with nor shall any person use upon a vehicle any siren, whistle, or bell, except as otherwise permitted in this section.

(c) It is permissible but not required that any commercial vehicle be equipped with a theft alarm signal device which is so arranged that it cannot be used by the driver as an ordinary warning signal.

(d) Any authorized emergency vehicle may be equipped with a siren, whistle or bell, capable of emitting sound audible under normal conditions from a distance of not less than five hundred (500) feet and of a type approved by

the department, but such siren shall not be used except when such vehicle is operated in response to an emergency call or in the immediate pursuit of an actual or suspected violator of the law, in which said latter event the driver of such vehicle shall sound said siren when necessary to warn pedestrians and other drivers of the approach thereof.

Mufflers, Prevention of Noise

Sec. 134. (a) Every motor vehicle shall at all times be equipped with a muffler in good working order and in constant operation to prevent excessive or unusual noise and no person shall use a muffler cut out, bypass, or similar device upon a motor vehicle on a highway.

(b) The engine and power mechanism of every motor vehicle shall be so equipped and adjusted as to prevent the escape of excessive fumes or smoke.

(c) Every new motor vehicle and new motor vehicle engine beginning with the model year 1968 shall at all times be so equipped that crankcase emissions are not discharged into the ambient atmosphere from the vehicle or engine.

(d) The owner or operator of any new motor vehicle or new motor vehicle engine beginning with the model year 1968 equipped with an exhaust emission system shall maintain the exhaust emission system in good operable condition and shall use it at all times that the motor vehicle or motor vehicle engine is operated.

The owner or operator of the motor vehicle or motor vehicle engine shall not remove or intentionally make inoperable within the State of Texas the exhaust emission system, or any part thereof, except where the purpose of removal of the exhaust emission system, or part thereof, is to install another exhaust emission system, or part thereof, which is intended to be equally effective in reducing atmospheric emissions from the vehicle or engine.

#### Mirrors

Sec. 134A. On and after January 1, 1972, every motor vehicle, operated singly or when towing any other vehicle, shall be equipped with a mirror so located as to reflect to the driver a view of the highway for a distance of at least two hundred (200) feet to the rear of such motor vehicle.

#### Windshields Must be Unobstructed and Equipped With Wipers

Sec. 134B. (a) No person shall drive a motor vehicle with any sign, poster or other non-transparent material upon the front windshield, side wings or side or rear windows of such vehicle which materially obstructs, obscures, or impairs the driver's clear view of the highway or any intersecting highway.

(b) The windshield on every motor vehicle shall be equipped with a device for cleaning rain, snow or other moisture from the windshield, which device shall be so constructed as to be controlled or operated by the driver of the vehicle.

(c) Every windshield wiper upon a motor vehicle shall be maintained in good working order.

#### Restrictions as to Tire Equipment

Sec. 135. (a) Every solid rubber tire on a vehicle shall have rubber on its entire traction surface extending above the edge of the flange of the entire periphery.

(b) No person shall operate or move on any highway any motor vehicle, trailer, or semi-trailer having any metal tire in contact with the roadway, provided however this section shall not apply to farm wagons and/or farm trailers having a gross weight less than five thousand (5,000) pounds where owners are in the act of transporting farm products to market or for processing or from farm to farm.

(c) No tire on a vehicle moved on a highway shall have on its periphery any block, stud, flange, cleat, or spike or any other protuberance of any material other than rubber which projects beyond the tread of the traction surface of the tire, except that it shall be permissible to use tires having protuberances which will not injure the highway, and except also that it shall be permissible to use tire chains of reasonable proportions upon any vehicle when required for safety because of snow, ice, or other conditions tending to cause a vehicle to skid.

(d) The State Highway Commission and local authorities in their respective jurisdictions

may in their discretion issue a special permit authorizing the operation upon a highway of traction engines or tractors having movable tracks with transverse corrugations upon the periphery of such movable tracks or farm tractors or other farm machinery, the operation of which upon a highway would otherwise be prohibited under this Act.

(e)(1) After January 1, 1973, no person may sell or offer for sale regrooved tires. The provisions of this Section shall apply only to private passenger automobile tires.

(2) Any person violating Subdivision (1) of this Subsection is guilty of a misdemeanor and upon conviction is punishable by a fine of not less than \$500 nor more than \$2,000.

#### Safety Glazing Material in Motor Vehicles

Sec. 136. (a) On and after January 1, 1972, no person shall sell any new motor vehicle as specified herein, nor shall any new motor vehicle as specified herein be registered thereafter unless such vehicle is equipped with safety glazing material of a type approved by the Department of Public Safety wherever glazing material is used in doors, windows and windshields. The foregoing provisions shall apply to all passenger-type motor vehicles, including passenger buses and school buses, but in respect to trucks, including truck tractors, the requirements as to safety glazing material shall not apply to glazing material in compartments not so designed and equipped that persons may ride therein.

(b) The term "safety glazing materials" means glazing materials so constructed, treated or combined with other materials as to reduce substantially, in comparison with ordinary sheet glass or plate glass, the likelihood of injury to persons by objects from exterior sources or by these safety glazing materials when they may be cracked or broken.

(c) It shall be unlawful after the first day of January, 1972, for any person to replace or cause to be replaced, any glass in doors, windows or windshields in any motor vehicle, unless such replacement be made with safety glazing materials as defined in this Act.

[Text of subsection (d) as amended by Acts 1971, 62nd Leg., p. 759, ch. 83, § 79]

(d) No person shall sell or affix to a motor vehicle any camper manufactured or assembled after January 1, 1972, unless such camper is equipped with safety glazing material of a type approved by the Department of Public Safety, wherever glazing material is used in doors and windows. As used in this section "camper" means any structure designed to be loaded onto, or affixed to, a motor vehicle to provide temporary living quarters for recreation, travel, or other use.

[Text of subsection (d) as added by Acts 1971, 62nd Leg., p. 3046, ch. 1007]

(d) No person shall sell imperfect safety glass for doors, windows, or windshields of motor vehicles unless the glass is labelled "second" or "imperfect" or by a similar term in red let-

ters each letter being at least one inch in size which will clearly indicate to the consumer the quality of the glass being sold; the seller of each piece of imperfect glass will notify the consumer verbally of the imperfection and what could possibly result because of said imperfection, and will also deliver in writing at the time of purchase the quality of the glass explaining all imperfections and what could result because of the imperfections.

**Certain Vehicles to Carry Flares or Other Devices**

Sec. 137. (a) No person shall operate any truck, bus or truck tractor, or any motor vehicle towing a house trailer, upon any highway outside an urban district or upon any divided highway at any time from a half hour after sunset to a half hour before sunrise unless there shall be carried in such vehicle the following equipment except as provided in Subsection (b):

1. At least three (3) flares or three (3) red electric lanterns or three (3) portable red emergency reflectors, each of which shall be capable of being seen and distinguished at a distance of not less than six hundred (600) feet under normal atmospheric conditions at nighttime.

No flare, fusee, electric lantern or warning flag shall be used for the purpose of compliance with the requirements of this section unless such equipment has been approved by the Texas Department of Public Safety. No portable reflector unit shall be used for the purpose of compliance with the requirements of this section unless it is so designed and constructed as to be capable of reflecting red light clearly visible from all distances within six hundred (600) feet to one hundred (100) feet under normal atmospheric conditions at night when directly in front of lawful lower beams of head lamps, and unless it is of a type which has been approved by the Department of Public Safety.

2. At least three (3) red-burning fusees unless red electric lanterns or red portable emergency reflectors are carried.

(b) No person shall operate at the time and under conditions stated in Subsection (a) any motor vehicle used for the transportation of explosives, or any cargo tank truck used for the transportation of flammable liquids or compressed gases, unless there shall be carried in such vehicle three (3) red electric lanterns or three (3) portable red emergency reflectors meeting the requirements of Subsection (a) of this section and there shall not be carried in any said vehicle any flares, fusees or signal produced by flame.

**Display of Warning Lights and Devices When Vehicle is Stopped or Disabled**

Sec. 138. (a) Whenever any truck, bus, truck tractor, trailer, semi-trailer or pole trailer eighty (80) inches or more in overall width or thirty (30) feet or more in overall length is stopped upon a roadway or adjacent shoulder,

the driver shall immediately actuate vehicular hazard warning signal lamps meeting the requirements of Section 125. Such lights need not be displayed by a vehicle parked lawfully in an urban district, or stopped lawfully to receive or discharge passengers, or stopped to avoid conflict with other traffic or to comply with the directions of a police officer or an official traffic-control device, or while the devices specified in Subsections (b) to (h) are in place.

(b) Whenever any vehicle of a type referred to in Subsection (a) is disabled, or stopped for more than ten (10) minutes, upon a roadway outside of an urban district at any time when lighted lamps are required, the driver of such vehicle shall display the following warning devices except as provided in Subsection (c):

1. A lighted fusee, a lighted red electric lantern or a portable red emergency reflector shall immediately be placed at the traffic side of the vehicle in the direction of the nearest approaching traffic.

2. As soon thereafter as possible but in any event within the burning period of the fusee (15 minutes), the driver shall place three (3) liquid-burning flares (pot torches), or three (3) lighted red electric lanterns, or three (3) portable red emergency reflectors on the roadway in the following order:

(I) One (1), approximately one hundred (100) feet from the disabled vehicle in the center of the lane occupied by such vehicle and toward traffic approaching in that lane.

(II) One (1), approximately one hundred (100) feet in the opposite direction from the disabled vehicle and in the center of the traffic lane occupied by such vehicle.

(III) One (1) at the traffic side of the disabled vehicle not less than ten (10) feet rearward or forward thereof in the direction of the nearest approaching traffic. If a lighted red electric lantern or a red portable emergency reflector has been placed at the traffic side of the vehicle in accordance with Paragraph (I) of this subsection, it may be used for this purpose.

(c) Whenever any vehicle referred to in this section is disabled, or stopped for more than ten (10) minutes, within five hundred (500) feet of a curve, hillcrest or other obstruction to view, the warning device in that direction shall be so placed as to afford ample warning to other users of the highway, but in no case less than one hundred (100) feet nor more than five hundred (500) feet from the disabled vehicle.

(d) Whenever any vehicle of a type referred to in this section is disabled, or stopped for more than ten (10) minutes, upon any roadway of a divided highway during the time lighted lamps are required, the appropriate warning

devices prescribed in Subsections (b) and (e) shall be placed as follows:

One (1) at a distance of approximately two hundred (200) feet from the vehicle in the center of the lane occupied by the stopped vehicle and in the direction of traffic approaching in that lane;

one (1) at a distance of approximately one hundred (100) feet from the vehicle, in the center of the lane occupied by the vehicle and in the direction of traffic approaching in that lane;

one (1) at the traffic side of the vehicle and approximately ten (10) feet from the vehicle in the direction of the nearest approaching traffic.

(e) Whenever any motor vehicle used in the transportation of explosives or any cargo tank truck used for the transportation of any flammable liquid or compressed flammable gas, is disabled, or stopped for more than ten (10) minutes, at any time and place mentioned in Subsections (b), (c), or (d), the driver of such vehicle shall immediately display red electric lanterns or portable red emergency reflectors in the same number and manner specified therein. Flares, fusees or signals produced by flame shall not be used as warning devices for disabled vehicles of the type mentioned in this subsection.

(f) The warning devices described in Subsections (b) to (e) need not be displayed where there is sufficient light to reveal persons and vehicles within a distance of one thousand (1,000) feet.

(g) Whenever any vehicle described in this section is disabled, or stopped for more than ten (10) minutes, upon a roadway outside of an urban district or upon the roadway of a divided highway at any time when lighted lamps are not required by Section 109, the driver of the vehicle shall display two (2) red flags as follows:

(I) If traffic on the roadway moves in two directions, one (1) flag shall be placed approximately one hundred (100) feet to the rear and one (1) flag approximately one hundred (100) feet in advance of the vehicle in the center of the lane occupied by such vehicle.

(II) Upon a one-way roadway, one (1) flag shall be placed approximately one hundred (100) feet and one (1) flag approximately two hundred (200) feet to the rear of the vehicle in the center of the lane occupied by such vehicle.

(h) When any vehicle described in this section is stopped entirely off the roadway and on an adjacent shoulder at any time and place hereinbefore mentioned, the warning devices shall be placed, as nearly as practicable, on the shoulder near the edge of the roadway.

(i) The flares, fusees, red electric lanterns, portable red emergency reflectors and flags to be displayed as required in this section shall conform with the requirements of Section 137 applicable thereto.

(j) It shall be unlawful for any person except any peace officer while acting in his official capacity, or the owner of the vehicle or his duly authorized agent or employee, to remove, damage, destroy, misplace, or extinguish any lamp, flare, fusee, or other signaling device required under this section and Section 137 of this Act, while the same are being displayed or being used as required by this Act.

#### Vehicle Transporting Hazardous Materials

Sec. 139. (a) The Director of the Texas Department of Public Safety shall after public hearing adopt such regulations as may be deemed necessary for the safe transportation of hazardous materials. Such regulations shall duplicate or be consistent with current hazardous materials regulations of the United States Department of Transportation. The Director of the Texas Department of Public Safety is hereby authorized to adopt all or any part of said hazardous materials regulations by reference and any such adoption shall be construed to incorporate amendments thereto as may be made from time to time.

(b) Any person operating a vehicle transporting any hazardous materials as a cargo or part of a cargo upon a highway shall at all times comply with regulations of the Director of the Department of Public Safety adopted pursuant to the provisions of this section.

## ARTICLE XV—INSPECTION OF VEHICLES

### Compulsory Inspection

Sec. 140. (a) It shall be the duty of the Texas Department of Public Safety to require every owner of a motor vehicle, trailer, semi-trailer, pole trailer, or mobile home, registered in this state and operated on the highways of this state, to have the tires, brakes, lighting equipment, horns and warning devices, mirrors, windshield wipers, front seat belts in vehicles where seat belt anchorages were part of the manufacturer's original equipment on the vehicle, steering (including power steering), wheels and rims, exhaust system, and exhaust emission system inspected at state-appointed inspection stations or by State Inspectors as hereinafter provided. Provisions relating to the inspection of trailers, semitrailers, pole trailers, or mobile homes shall not apply when the gross weight of such vehicles and the load carried thereon is four thousand (4,000) pounds or less. Only the tires, brakes, lighting equipment, horns and warning devices, mirrors, windshield wipers, front seat belts in vehicles where seat belt anchorages were part of the manufacturer's original equipment on the vehicle, steering (including power steering), wheels and rims, exhaust system, and exhaust emission system may be inspected, and the owner shall not be required to have any other equipment or part of his motor vehicle inspect-

ed as a prerequisite for the issuance of an inspection certificate.

(b) If such inspection discloses the necessity for adjustments, corrections, or repairs, only the tires, brakes, lighting equipment, horns and warning devices, mirrors, windshield wipers, front seat belts in vehicles where seat belt anchorages were part of the manufacturer's original equipment on the vehicle, steering (including power steering), wheels and rims, exhaust system, and exhaust emission system shall be adjusted, corrected, or repaired before a certificate is issued as hereinafter provided. The owner may have such adjustments, corrections, or repairs made by such qualified person or persons as he may choose, subject to reinspection as hereinafter provided.

(c) Official inspection stations appointed and supervised by the State of Texas shall make all inspections pursuant to the provisions of this Section, except as provided in subdivision (d) hereof. The Department shall cause one (1) inspection to be made in the year commencing with the effective date of this Act, and annually thereafter. If the motor vehicle, trailer, semi-trailer, pole trailer or mobile home, registered in this State, is damaged to the apparent extent that it would require repair before passing state inspection, the investigating officer shall remove the inspection certificate from the vehicle windshield and shall give the operator of the vehicle a dated receipt. Within thirty (30) days of the date indicated on the receipt, the vehicle shall be reinspected. The periods of inspection shall be fixed by the Department, provided, however, that at no time shall a certificate of inspection or a receipt for a certificate of inspection be required or demanded as a condition precedent to securing a license plate for any motor vehicle, regardless of any period or periods of inspection as may be fixed by the Department. The Department shall have power to make rules and regulations, not inconsistent with law, with respect to the periods of inspection.

(d) The Department may, in its discretion, permit inspection as herein provided to be made by State inspectors under such terms and conditions as the Department may prescribe. Provided, however, the Department may authorize the acceptance in this State of a certificate of inspection and approval issued in another state having a similar inspection law and may extend the time within which a certificate shall be obtained by the resident owner of a vehicle which was not in this State during the time an inspection was required.

(e) After the period designated for the inspection, no person shall operate on the highways of this State any motor vehicle registered in this State unless a valid certificate of inspection is displayed thereon as required by this Section and any inspector or patrolman of the Department of Public Safety, or any sheriff or deputy sheriff, or any City policeman who shall exhibit his badge or other signs of authority, may stop any motor vehicle not dis-

playing this inspection certificate on the windshield and require the owner or operator to produce an official inspection certificate for the Motor Vehicle being operated.

(f) Any person operating a motor vehicle on the highways of this State, other than a motor vehicle licensed in another State and being temporarily and legally operated under a valid reciprocity agreement, in violation of the provisions of this Act, or without displaying an inspection certificate shall be guilty of a misdemeanor, and shall upon conviction be punished as provided in Section 143.

[Text of subsec. (f) added by Acts 1973, 63rd Leg., p. 1680, ch. 607, § 8, without reference to subsec. (f), ante]

(f) All motor-assisted bicycles shall be subject to annual inspection in the same manner as are motorcycles, except (1) the fee for inspection shall be One Dollar (\$1), fifty cents (50¢) of which shall be paid to the Department to be placed in the Motor Vehicle Inspection Fund and used for the purposes prescribed by law, and (2) the only items of equipment required to be inspected are the brakes, headlamps, and reflectors, which are required to comply with the standards prescribed in Section 184 of this Act. The Department shall promulgate rules and regulations relating to the inspection of motor-assisted bicycles and the issuance and display of inspection certificates with respect to those vehicles.

(g) The Department may appoint and remove such patrolmen, assistants, inspectors and employees as it may deem necessary to carry out the provisions of this Section, prescribe their powers and duties, and fix their compensation within the amounts made available by appropriation.

(h) The provisions of this Act shall not apply to the vehicles referred to in Subsection (a) of this Section when moving under or bearing current "Factory-Delivery License Plates" or current "In-transit License Plates." Nor shall the provisions of this Act apply to farm machinery, road-building equipment, and all other vehicles required to have a slow-moving-vehicle emblem under Section 139(b) of this Act.

#### State Appointed Inspection Stations

Sec. 141. (a) The Department may establish state-appointed inspection stations to carry out the provisions of this Section. Such stations may be located anywhere in the state, and should any be established or appointed, there shall be at least one (1) for each county. The Department is authorized to furnish instructions to, and to supervise official inspection stations and mechanics for inspection of motor vehicles, trailers, semitrailers, pole trailers, and mobile homes for the proper and safe performance of tires, brakes, lighting equipment, horns and warning devices, mirrors, windshield wipers, front seat belts in vehicles where seat belt anchorages were part of the manufacturer's original equipment on the vehi-

cle, steering (including power steering), wheels and rims, exhaust systems, and exhaust emission systems. The certification of persons to inspect vehicles shall be in accordance with the rules and regulations promulgated by the Department. Every person desiring to operate as an official inspection station shall file an application for a certificate of appointment with the Department.

The application shall be made upon a form prescribed and furnished by the Department, and shall set forth the name under which the applicant transacts or intends to transact business, the location of his place of business within the state, and such other information as the Department may require. If the applicant has or intends to have more than one place of business within the state, a separate application shall be made for each place of business.

If the applicant is an association, the application shall set forth the names and the addresses of the persons constituting the association, and if a corporation, the names and addresses of the principal officers thereof, and any other information prescribed by the Department for purposes of identification. The application shall be signed and verified by oath or affirmation by the owner, if a natural person; in the case of a corporation, by an executive officer thereof or some person specifically authorized by the corporation to sign the application, to which shall be attached written evidence of his authority.

Only such locations which fulfill the Department's requirements and whose owners or proprietors comply with Department regulations shall qualify and be appointed and issued a certificate. Upon approval of an application, the Department shall issue to the owner a certificate of appointment as an official inspection station for the place of business within the state set forth in the application.

Certificates of appointment shall not be assignable, and shall be valid for the owners in whose names issued and for the transaction of business at the place designated therein, and shall at all times be conspicuously displayed at the place for which issued.

Upon being advised that an application will be approved, the applicant shall provide the bond hereinafter required and a fee of Ten Dollars (\$10) which shall constitute the certificate fee until August 31st of the odd-numbered year following the date of appointment. Thereafter, appointments shall be made for two-year periods and the certificate fee for each such period shall be Ten Dollars (\$10). All certificate fees shall be placed in a fund in the State Treasury to be known as the Motor Vehicle Inspection Fund and shall be used by the Department in the administration of this Act.

(b) Every owner of an official inspection station shall be required to furnish a bond payable to the State of Texas in the amount of One Thousand Dollars (\$1,000), to be approved by the Director of the Department, with two or

more good and solvent sureties, or one corporate surety qualified by law to make such bond, to indemnify the state against the violation of any of the terms and conditions of this Act. Except where the surety is a corporate surety as herein provided, the bond shall first be submitted to the county judge of the county in which the inspection station is located, who shall make his recommendation to the Director whether the bond be approved or disapproved. Any inspector or any official or employee of any inspection station who shall issue an official certificate of inspection without having made an inspection of the vehicle for which it is issued or who shall knowingly or willfully issue an official inspection certificate for a motor vehicle or vehicles, the tires, brakes, lighting equipment, horns and warning devices, mirrors, windshield wipers, front seat belts in vehicles where seat belt anchorages were part of the manufacturer's original equipment on the vehicle, steering (including power steering), wheels and rims, exhaust system, and exhaust emission system of which are not at the time of such issuance in a good condition and in conformity with the laws of this state shall forfeit said bond to the State of Texas.

(c) Any owner of an official inspection station who by himself, agent, servant, or employee, violates any provision of this Section or requires the repair of any mechanism or equipment other than that set forth in the uniform standards of safety and items to be inspected as established, shall upon conviction, be punished by a fine not exceeding Two Hundred Dollars (\$200). The Department may for cause, upon notice of an administrative hearing, cancel or suspend the certificate of any inspection station or cancel or suspend the certificate of any person to inspect vehicles and the decision of the Department in respect to the cancellation or suspension of the station license or the cancellation or suspension of the certificate of any person to inspect vehicles, or the refusal to reissue a license to any official inspection station or the refusal to reissue the certificate for any person to inspect vehicles shall be subject to review as provided herein. Any aggrieved party may appeal from the decision of said administrative hearing. The proceedings on appeal shall be a trial de novo, as such term is commonly used and intended in an appeal from the justice court to the county court, and which appeal shall be taken in any district court of the county in which the inspection station is located. At such trial the burden of proof shall always be on the Department and never shifts to the aggrieved party.

(d) The fee for compulsory inspection to be made under this Section shall be Two Dollars (\$2.00). Fifty cents (50¢) of each fee shall be paid to the Department and shall be placed in the Motor Vehicle Inspection Fund for the purpose of paying the expense of the administration of this law. The Department may require each official inspection station to make an advance payment of fifty cents (50¢) for each inspection certificate furnished to it, and

the money so received shall be placed in the Motor Vehicle Inspection Fund, and no further payment to the Department shall be required upon issuance of the certificate. If such advance payment has been made, the Department shall refund to the inspection station the amount of fifty cents (50¢) for each unissued certificate which the inspection station returns to the Department in accordance with rules and regulations promulgated by the Department.

If an inspection disclosed the necessity for adjustments, corrections, or repairs to tires, brakes, lighting equipment, horns and warning devices, mirrors, windshield wipers, front seat belts in vehicles where seat belt anchorages were part of the manufacturer's original equipment on the vehicle, steering (including power steering), wheels and rims, exhaust system, and exhaust emission system, such motor vehicle shall be reinspected free of charge after the adjustments, corrections, or repairs have been made. Any such motor vehicle under the terms of this Act, if involved in an accident subsequent to the required inspection, shall return to an inspection station after adequate repairs are made for a second and reinspection procedure.

(e) No certificate of inspection shall be issued by any inspector or inspection station until the tires, brakes, lighting equipment, horns and warning devices, mirrors, windshield wipers, front seat belts in vehicles where seat belt anchorages were part of the manufacturer's original equipment on the vehicle, steering (including power steering), wheels and rims, exhaust system, and exhaust emission system have been inspected and found to be in proper and safe condition and to comply with the laws of this state. A tire may not be found in proper and safe condition unless it is free of fabric breaks and has at least one-sixteenth of an inch of tread at two distinct points. No person shall make, issue, or knowingly use an imitation or counterfeit of an official inspection certificate.

No person shall display or cause or permit to be displayed any inspection certificate knowing the same to be fictitious or issued for another vehicle or issued without the required inspection having been made.

No person shall perform an inspection or issue an inspection certificate without such person first having been certified to do so by the Department.

No person shall drive or move on any highway any motor vehicle, trailer, semitrailer, pole trailer, mobile home, or combination thereof unless the equipment upon any and every said vehicle is in good working order and adjustment as required in this Act and said vehicle is in such safe mechanical condition as not to endanger the driver or other occupant or any person upon the highway.

(f) The Department may appoint as official inspection stations, for the limited purpose of inspecting vehicles owned by political subdivi-

sions and agencies of the state, vehicle maintenance facilities owned and operated by the political subdivisions or agencies. The political subdivisions and agencies may not be required to pay the vehicle-inspection fee provided for in Subsection (d) of this section, but shall pay to the Department an advance payment of fifty cents (50¢) for each inspection certificate issued to it. The funds received by the Department shall be placed in the Motor Vehicle Inspection Fund for the purpose of paying the expense of the administration of this Act. Inspection stations appointed under this subsection must satisfy all requirements set forth in Sections 140, 141, and 142 of this Act except the provisions relating to the fee and bond contained in Subsections (a) and (b) of this section. No officer, employee, or inspector of any political subdivision or agency shall place or cause to be placed any inspection certificate received from the Department under the provisions of this subsection on any vehicle other than a vehicle owned by the political subdivision or agency.

#### Standards of Safety; Certificates of Inspection

Sec. 142. (a) The Department may establish uniform standards of safety as prescribed in Article XIV of this Act wherever applicable with respect to tires, brakes, lighting equipment, horns and warning devices, mirrors, windshield wipers, front seat belts in vehicles where seat belt anchorages were part of the manufacturer's original equipment on the vehicle, steering (including power steering), wheels and rims, exhaust systems, and exhaust emission systems. A tire may not be found in proper and safe condition unless it is free of fabric breaks or if it has, in at least two distinct points, one-sixteenth of an inch of tread or less. Such standards of safety shall be posted in every official inspection station. Every motor vehicle inspected shall be required to conform in all respects to the standards of safety established pursuant to this Section.

(b) The Department shall furnish serially numbered certificates of inspection to inspection stations. Each certificate, when issued, shall bear such information as required by the Department for the type of vehicle that was inspected. The certificate shall be invalid after the end of the twelfth month in which the vehicle was last inspected, approved, and the certificate of inspection issued. A certificate of inspection and approval for any vehicle shall be attached to or produced for such vehicle as the Department shall require. The Department shall require that certificates for motorcycles be attached to the rear of the vehicle near the license plate. A record and report as prescribed by the Department shall be made of every inspection and every certificate so issued. No unused certificates of inspection representing a prior inspection period shall be issued after the beginning of the next ensuing period. The effective date shall be January 1, 1974.

(b) Within ten (10) days after conviction of forfeiture of bail of a person upon a charge of violating any provision of this Act or other law regulating the operation of vehicles on highways, every said magistrate of the court or clerk of the court of record in which such conviction was had or bail was forfeited shall prepare and immediately forward to the department an abstract of the record of said court covering the case in which said person was so convicted or forfeited bail, which abstract must be certified by the person so required to prepare the same to be true and correct.

(c) Said abstract must be made upon a form furnished by the Department and shall include the name and address of the party charged, the number, if any, of his operator's, commercial operator's, or chauffeur's license, the registration number of the vehicle involved, the nature of the offense, the date of hearing, the plea, the judgment, or whether bail forfeited and the amount of the fine or forfeiture as the case may be.

## Repeal of Inconsistent Laws

Sec. 156. All laws or parts of laws inconsistent or conflicting with the provision of this Act are hereby repealed, provided, however, that nothing in this Act is intended to repeal provisions of Section 1 of Chapter 88, of the Acts of the Forty-first Legislature, Second Called Session, 1929, as amended by Chapter 23, Acts of the Forty-first Legislature, Fifth Called Session, 1930, and Chapter 110, Acts of the Forty-seventh Legislature, Regular Session, 1941,<sup>1</sup> or House Bill No. 407, Page 602, Volume 1, Acts of the Forty-sixth Legislature, Regular Session, 1939, as amended by Chapter 187, Acts of the Forty-seventh Legislature, Regular Session, 1941.<sup>2</sup>

## Traffic Signals or Signs in Cities or Towns With Less Than 2,500 Population

Sec. 158. No incorporated city or town with a population of less than two thousand, five hundred (2,500) according to the last preceding Federal Census shall enact any ordinance for the erection or operation of any traffic signal or sign on any State Highway the cost of which has been paid, either in whole or in part,

by the State of Texas, in any such city or town without prior approval thereof by the State Highway Department. Such city or town shall make written application to the State Highway Department for approval of such installation and operation, and upon the filing of any such application, the State Highway Department shall designate an employee to investigate such application, and within ninety (90) days thereafter, said Department shall grant or refuse such application. In granting any such application, the Highway Department may prescribe the conditions under which the signals or signs may be erected and operated, their location, size, shape, height, color, wording, timing, spacing, and all other aspects of such signals or signs, provided that the Highway Department shall consider not only the convenience of the traveling public in raising speed limits in noncongested areas, but also the proper control of traffic for the protection of the lives of school children and other inhabitants of small communities where there are areas of congestion and cross traffic.

## Arrest for Non-Compliance With Unauthorized Signal or Sign

Sec. 159. If any officer shall arrest or attempt to arrest or stop the driver of any vehicle for failing to comply with any unauthorized traffic signal or sign, knowing that such signal or sign has not been authorized, he shall be guilty of a misdemeanor, and, upon conviction, shall be fined not less than One Hundred Dollars (\$100) and not more than Five Hundred Dollars (\$500).

## Injunction Against Unauthorized Signals or Signs

Sec. 160. If any such incorporated city or town shall erect or maintain any traffic signal or sign without having been duly authorized as provided herein, a suit to enjoin erection and maintenance of such signal or sign shall be prosecuted by the County or District Attorney of the county in which it is located, and if such attorneys shall fail to institute any such suit within fifteen (15) days after receipt of request therefor from any citizen of the State of Texas, then any citizen of the State may institute and prosecute same.

## Speed Limits in Cities or Towns With Less Than 2,500 Population; Fixing

Sec. 161. The State Highway Department may, upon its own initiative, or upon the application of any city or town or any citizen of the State of Texas, fix the speed limits on such State Highways within the limits of any incorporated city or town of less than two thousand, five hundred (2,500) population according to the last preceding Federal Census, higher or lower than the prima facie speed limits now otherwise established by law, in the same manner as provided in Section 158 hereof, provided that fixing of such speed limits shall be done in accordance with the provisions of Chapter 346 of the Acts of the Fifty-second Legislature, 1951, except where inconsistent herewith.

## Arrest for Speed Permitted by Department

Sec. 162. If any officer shall arrest, or attempt to arrest, the operator of any motor vehicle for traveling at a rate of speed permitted by the State Highway Department on any State Highway within the limits of any such incorporated city or town, he shall be guilty of a misdemeanor, and, upon conviction, shall be fined not less than One Hundred Dollars (\$100) and not more than Five Hundred Dollars (\$500).

## Ordering Removal or Alteration of Traffic Signal or Sign

Sec. 163. The State Highway Department may, upon its own initiative, or upon the application of any incorporated city or town or any citizen of the State of Texas, order the removal or alteration of any traffic signal or sign erected prior to the passage of this Act.

## Counties to Which Preceding Sections Applicable

Sec. 164. The provisions of the preceding Sections 158, 159, 160, 161, 162, and 163 of this Act shall not apply to cities and towns in counties of less than two hundred and fifty thousand (250,000) population according to the last Federal Census.

## Preceding Sections Applicable Only to State Highways

Sec. 165. Nothing in this Act shall be construed to take away from any incorporated city, its authority and jurisdiction over its streets except to the extent provided herein in connection with State Highways only, the cost of which has been paid in whole or in part by the State.

ARTICLE XIX—SPEED RESTRICTIONS  
[1963 ENACTMENT]

## Maximum Speeds of Vehicles

Sec. 166. (a) No person shall drive a vehicle on a highway at a speed greater than is reasonable and prudent under the circumstances then existing. Except when a special hazard exists that requires lower speeds for compliance with paragraph (b) of this Section, the limits specified in this Section or established as hereinafter authorized shall be lawful, but any speed in excess of the limits specified in this Section or established as hereinafter authorized shall be prima facie evidence that the speed is not reasonable or prudent and that it is unlawful:

1. Thirty (30) miles per hour in any urban district;

2. Seventy (70) miles per hour during the daytime and sixty-five (65) miles per hour during the nighttime for any passenger car, motorcycle, or motor-driven cycle on any State or Federal numbered highway outside any urban district, including farm- and/or ranch-to-market roads, and sixty (60) miles per hour during the daytime and fifty-five (55) miles per hour during the nighttime for any passenger car, motorcycle, or motor-driven cycle on

all other highways outside any urban district;

3. Sixty (60) miles per hour for all other vehicles on any highway outside any urban district;

4. The speed limits for any bus or other vehicle engaged in this State in the business of transporting passengers for compensation or hire, for any commercial vehicle which is in authorized use as a "Highway Post Office" vehicle furnishing Highway Post Office service in the transportation of the United States mail, and for any light truck, as described in Subdivision 5 of this subsection, shall be the same as prescribed for passenger cars at the same location.

5. The above limitations notwithstanding, the following prima facie maximum limits are declared, for any highway outside any urban district;

a. Forty-five (45) miles per hour for any vehicle towing any house trailer of actual or registered gross weight exceeding four thousand, five hundred (4,500) pounds or with an over-all length exceeding thirty-two (32) feet, excluding the tow bar.

b. Sixty (60) miles per hour in daytime and fifty-five (55) miles per hour during nighttime for any truck, except light trucks as described in this Subdivision 5, truck tractor, trailer or semitrailer, or for any vehicle towing any trailer, semitrailer, another motor vehicle, or any house trailer of actual or registered gross weight, less than four thousand, five hundred (4,500) pounds and over-all length of thirty-two (32) feet or less, excluding the tow bar.

c. Fifty (50) miles per hour for any school bus.

"Daytime" means from one-half ( $\frac{1}{2}$ ) hour before sunrise to one-half ( $\frac{1}{2}$ ) hour after sunset, and "nighttime" means at any other hour.

"Urban District" means the territory contiguous to and including any highway or street which is built up with structures devoted to business, industry or dwelling houses, situated at intervals of less than one hundred (100) feet for a distance of one-quarter ( $\frac{1}{4}$ ) of a mile or more on either side.

"Passenger car" means every motor vehicle, except motorcycles and motor-driven cycles, designed for carrying ten (10) passengers or less and used for the transportation of persons.

"Light truck" means any truck, as defined in this Act, with a manufacturer's rated carrying capacity not to exceed two thousand (2,000) pounds and is intended to include those trucks commonly known as pick-up trucks,

panel delivery trucks and carry-all trucks.

The maximum speed limits set forth in this Section may be altered as authorized in Sections 167, 168 and 169.

(b) No person shall drive a vehicle on a highway at a speed greater than is reasonable and prudent under the conditions and having regard to the actual and potential hazards then existing. In every event speed shall be so controlled as may be necessary to avoid colliding with any person, vehicle or other conveyance on or entering the highway in compliance with legal requirements and the duty of all persons to use due care.

(c) The driver of every vehicle shall, consistent with the requirements of paragraph (b), drive at an appropriate reduced speed when approaching and crossing an intersection or railway grade crossing, when approaching and going around a curve, when approaching a hill crest, when traveling upon any narrow or winding roadway, and when special hazard exists with respect to pedestrians or other traffic or by reason of weather or highway conditions.

Authority of State Highway Commission to Alter  
Maximum Speed Limits

Sec. 167. (a) Whenever the State Highway Commission shall determine upon the basis of an engineering and traffic investigation that any prima facie maximum speed limit hereinbefore set forth is greater or less than is reasonable or safe under the conditions found to exist at any intersection or other place or upon any part of the highway system, taking into consideration the width and condition of the pavement and other circumstances on such portion of said highway as well as the usual traffic thereon, said State Highway Commission may determine and declare a reasonable and safe prima facie maximum speed limit thereat or thereon, and another reasonable and safe speed when conditions caused by wet or inclement weather require it, by proper order of the Commission entered on its minutes, which limits, when appropriate signs giving notice thereof are erected, shall be effective at such intersection or other place or part of the highway system at all times or during hours of daylight or darkness, or at such other times as may be determined; provided, however, that said State Highway Commission shall not have the authority to modify or alter the rules established in Paragraph (b) of Section 166, nor to establish a speed limit higher than seventy (70) miles per hour; and provided further that the speed limits for vehicles described in Paragraphs a, b, and c of Subdivision 5 of Subsection (a) of Section 166 shall not be increased.

By wet or inclement weather is meant conditions of the pavement or roadway caused by precipitation, water, ice or snow which make driving thereon unsafe and hazardous.

(b) The authority of the State Highway Commission to alter maximum speed limits shall exist with respect to any part of any

highway, road or street officially designated or marked by the State Highway Commission as part of the State Highway System. Also, this authority shall exist both within and without the limits of an incorporated city, town or village, including Home Rule Cities, with respect to highways declared to be limited-access or controlled-access highways as defined by this Act.

(c) The State Highway Commission shall, in conducting the engineering and traffic investigation specified in paragraph (a) of Section 167, follow its "Procedure for Establishing Speed Zones" which is in use on the effective date of this Act and as same may be subsequently revised for reasons of technological advancements in traffic operation, design and construction of highways and motor vehicles, as well as the safety of the motoring public.

Authority of Texas Turnpike Authority to alter Maximum Prima Facie Speed Limits on  
Turnpike Projects

Sec. 168. (a) Whenever the Texas Turnpike Authority shall determine upon the basis of an engineering and traffic investigation that any maximum prima facie speed limit hereinbefore set forth is greater or less than is reasonable or safe under the conditions found to exist at any intersection or other place or upon any part of a turnpike constructed and maintained by it, taking into consideration the width and condition of the pavement and other circumstances on such portion of said turnpike as well as the usual traffic thereon, the Legislature hereby directs the Texas Turnpike Authority to determine and declare a reasonable and safe maximum prima facie speed limit thereat or thereon, by proper order of the Authority entered on its minutes, for all vehicles or for any class or classes of vehicles hereinabove established, which limit, when appropriate signs giving notice thereof are erected, shall be effective at such intersections or other places or part of the highway at all times or during hours of daylight or darkness, or at such other times as may be determined.

(b) The authority of the Texas Turnpike Authority to alter maximum prima facie speed limits shall be effective upon any part of any turnpike project constructed and maintained by it pursuant to House Bill No. 4, Chapter 410, Acts of 1953, Fifty-third Legislature, Regular Session, codified as Article 6674v, Vernon's Revised Civil Statutes of Texas, as same may be amended, both within and without the corporate limits of any incorporated city, town or village, including Home Rule Cities. Such authority shall be exclusive with respect to any such project, and the authorities prescribed in Sections 167 and 169 shall not apply upon any part of any such turnpike project; provided, however, that should any turnpike constructed by the Texas Turnpike Authority ever become a part of the designated State Highway System, the State Highway Commission shall then have the sole authority to alter maximum prima facie speed limits thereon as prescribed in

Section 167. The Texas Turnpike Authority shall not have the authority to alter the basic rule established in paragraph (a) of Section 166 nor to establish a speed limit higher than seventy (70) miles per hour.

(c) The Texas Turnpike Authority shall, in conducting the engineering and traffic investigations specified in paragraph (a) of Section 168, following the "Procedure for Establishing Speed Zones" prepared by the Texas Highway Department which is in use on the effective date of this Act and as same may be subsequently revised for reasons of technological advancements in traffic operation, design and construction of highways and motor vehicles, as well as the safety of the motoring public.

**Authority of County Commissioners Court and Governing Bodies of Incorporated Cities, Towns and Villages to Alter Maximum Prima Facie Speed Limits**

Sec. 169. (a) The County Commissioners Court of any county with respect to county highways or roads outside the limits of the right-of-way of any officially designated or marked highway, road or street of the State Highway System and outside the limits of any incorporated city, town or village shall have the same authority by order of the County Commissioners Court entered upon its records to alter maximum prima facie speed limits upon the basis of an engineering and traffic investigation as that delegated to the State Highway Commission with respect to any officially designated or marked highway, road or street of the State Highway System; provided that under no circumstances shall any County Commissioners Court have the authority to modify or alter the basic rule established in paragraph (a) of Section 166 nor to establish a speed limit higher than sixty (60) miles per hour.

(b) The governing body of an incorporated city, town or village with respect to any highway, street or part of a highway or street, including those marked as a route of a highway of the State Highway System, within its corporate limits, shall have the same authority by city ordinance to alter maximum prima facie speed limits upon the basis of an engineering and traffic investigation as that delegated to the State Highway Commission with respect to any officially designated or marked highway, road or street of the State Highway System; provided that under no circumstances shall any such governing body have the authority to modify or alter the basic rule established in paragraph (a) of Section 166, nor to establish a speed limit higher than sixty (60) miles per hour, and provided, further, that any order of the State Highway Commission declaring a speed limit upon any part of a designated or marked route of the State Highway System made pursuant to Section 167 shall supersede any city ordinance in conflict therewith.

**Special Speed Limitations**

Sec. 169A. (a) No person shall operate any motor-driven cycle at any time mentioned in

Subsection (a) of Section 109 at a speed greater than thirty-five (35) miles per hour unless such motor-driven cycle is equipped with a head lamp or lamps which are adequate to reveal a person or vehicle at a distance of three hundred (300) feet ahead.

(b) No person shall drive any vehicle equipped with solid rubber or cushion tires at a speed greater than a maximum of ten (10) miles per hour.

(c) No person shall drive a vehicle over any bridge or other elevated structure constituting a part of a highway at a speed which is greater than the maximum speed which can be maintained with safety to such bridge or structure, when such structure is signposted as provided in this section.

(d) The State Highway Commission upon State highways, the Texas Turnpike Authority upon any part of a turnpike constructed and maintained by it, and local authorities on highways under their jurisdiction, may conduct an investigation of any bridge or other elevated structure constituting a part of a highway, and if it shall thereupon find that such structure cannot with safety to itself withstand vehicles traveling at a speed otherwise permissible under this Act, the Commission, Texas Turnpike Authority, or local authority shall determine and declare the maximum speed of vehicles which such structure can safely withstand, and shall cause or permit suitable signs stating such maximum speed to be erected and maintained before each end of such structure.

**Temporary Speed Limits**

*[Text of section effective until April 1, 1975]*

Sec. 169B. (a) If the State Highway Commission finds that the facts specified in Subsection (b) of this section exist, it may enter an order establishing maximum prima facie speed limits of not more than seventy (70) miles per hour applicable to all highways in this state, including highways under the control of the Texas Turnpike Authority, incorporated cities and towns, and counties. An order entered under this section does not have the effect of increasing a speed limit on any highway. The limits established under this section are prima facie prudent and reasonable speed limits enforceable in the same manner as prima facie limits established under other provisions of this article. When speed limits established under this section are in effect, they prevail over any other established speed limit which would permit a person to operate a motor vehicle at a higher rate of speed, but do not apply to vehicles permitted to exceed established limits under Sections 24 and 172 of this Act.

(b) An order issued under Subsection (a) of this section is justified if the commission finds the following facts exist, which must be stated in the order:

- (1) That a severe shortage of motor fuel or other petroleum product exists; and

(2) That the shortage was caused by war, national emergency or other circumstances; and

(3) That a reduction of speed limits will serve to foster conservation purposes and safety; or

(4) The failure to alter state speed limits will prevent the state from receiving revenue for highway purposes from the federal government.

(c) Unless a specific speed limit is required by federal law or directive under threat of loss of federal highway funds then the State Highway Commission may not set maximum prima facie speed limits under this section of all vehicles below sixty (60) miles per hour.

(d) Before the commission may enter an order establishing a maximum prima facie speed limit, it must hold a public hearing preceded by the publication in at least three newspapers of general circulation in the state of a notice of the date, time, and place of the hearing and of the action proposed to be taken. The notice must be published at least 12 days before the date of the hearing. At the hearing, all interested persons may present oral or written testimony regarding the proposed order.

(e) When the commission enters an order under this section, it shall file the order in the office of the governor. The governor shall then undertake an independent finding of fact and determine the existence of the facts in Subdivisions (1), (2), (3) or (4) of Subsection (b) of this section. Before the eighth day after the order is filed in his office, the governor shall conclude his finding of fact, issue a proclamation stating whether the necessary facts exist to support the issuance of the commission's order, and file copies of the order and his proclamation in the office of the secretary of state.

(f) If the governor's proclamation states that the facts necessary to support the issuance of the commission's order exist, the order takes effect according to Subsection (g) of this section. Otherwise, the order has no effect.

(g) In an order issued under this section, the commission may specify the date on which the order takes effect, but that date may not be sooner than the eighth day after the order is filed with the governor. If the order contains no effective date, it takes effect on the 21st day after it is filed with the governor. Unless the order by its own terms expires earlier, it remains in effect until a subsequent order adopted by the procedure prescribed by this section amends or repeals it, except that any order adopted under this section expires when this section expires. The procedure for repealing an order is the same as for adopting an order except that the commission and the governor must find that the facts required to support the issuance of an order under Subsection (b) of this section no longer exist.

(h) When an order is adopted in accordance with this section, the commission and all gov-

ernmental authorities responsible for the maintenance of highway speed limit signs shall proceed with appropriate action to conceal or remove all signs which give notice of a speed limit higher than the one contained in the order and to erect appropriate signs. All governmental entities having responsibility for administration of traffic safety programs and the enforcement of traffic laws shall also proceed to use all available resources to notify the public of the effect of the order, and to accomplish this purpose they are directed to seek to enlist the cooperation of all news media in the state.

(i) Any change in speed limits under this section shall be effective for a maximum of 120 days, unless the commission makes a finding prior to the expiration of the 120 day period that the conditions specified under Section 169B, Subsection (b) continue to exist. If such conditions are found to still exist such limits may be continued in effect for additional 120 day periods.

(j) This section expires on April 1, 1975.

#### Minimum Speed Regulations

Sec. 170. (a) No person shall drive a motor vehicle at such a slow speed as to impede the normal and reasonable movement of traffic except when reduced speed is necessary for safe operation or in compliance with law.

(b) Whenever the State Highway Commission, Texas Turnpike Authority, County Commissioners Court, or the governing body of an incorporated city, town, or village, within their respective jurisdictions, as specified in Sections 167, 168 and 169, determine on the basis of an engineering and traffic investigation that slow speeds on any part of a highway consistently impede the normal and reasonable movement of traffic, the said State Highway Commission, Texas Turnpike Authority, County Commissioners Court, or governing body of an incorporated city, town or village are hereby empowered and may determine and declare a minimum speed limit thereat or thereon, and when appropriate signs are erected, giving notice of such minimum speed limit, no person shall drive a vehicle below that limit except when necessary for safe operation or in compliance with law.

#### Charging Violations and Rule in Civil Cases

#### Exceptions to Speed Law

Sec. 172. The provisions of this Article regulating speeds of vehicles shall not apply to vehicles operated by the fire department of any city, town or village responding to calls, nor to police patrols, nor to physicians and/or ambulances responding to emergency calls, provided that incorporated cities and towns may by ordinance regulate the speed of ambulances.

(a) No person, co-partnership, limited partnership, association, corporation, State, county, municipality, town, village, or any department or political subdivision thereof, their agents or employees, shall load or transport, cause to be loaded or transported, or aid or abet the loading or transporting, in a motor

vehicle, commercial motor vehicle, truck-tractor, trailer or semi-trailer, any loose material on or over the public roads, streets or highways of this State in violation of any requirement of this section.

(b) As used in this section, "loose material" means dirt, sand, gravel, wood chips, or other material that is capable of blowing or spilling from a vehicle as a result of movement or exposure to air, wind currents, or weather, but shall not include agricultural products in their natural state.

(c) The bed carrying the load must be completely enclosed on both sides by sideboards or sidepanels, on the front by a board or panel or by the cab of the vehicle, and on the rear by tailgate or board or panel, all of which must be so constructed as to prevent the escape of any part of the load because of blowing or spilling.

(d) The top of the load making contact with any sideboard or sidepanel or front or rear part of the enclosure must not be within six inches of the top of the part of the enclosure contacted, and the highest point of the load must not be above any point on a horizontal plane equal in height to the top of the side, front, or rear part of the enclosure that is the least in height, or in the alternative by covering the load with a canvas or similar type covering firmly secured thereby creating a physical horizontal plane; and at no time shall the load exceed the six inches as stated in this section during transportation of load without being covered.

(e) The excess spillage of loose material on the non-load carrying parts of the vehicle occasioned by or from the act of loading shall be removed before the vehicle is operated over a public road, street, or highway of this State.

(f) The tailgate must be securely closed to prevent spillage during transportation, whether loaded or empty.

(g) The bed shall not have any holes, cracks, or openings through which loose material may escape.

(h) The residue of the transported loose material shall be removed from the non-load carrying parts of the vehicle upon completion of unloading before the vehicle is operated over a public road, street, or highway of this State.

(i) Subsection (d) of this section does not apply to any load-carrying compartment that completely encloses the load or to the transporting of any load that is otherwise suitably covered or secured by other means which prevents the escape of loose material.

(j) Nothing in this Section 3A applies to any vehicle or construction or mining equipment which is:

- (1) moving between construction barricades on a public works project; or
- (2) merely crossing a public road, street, or highway.

(k) Any person, co-partnership, limited partnership, association, corporation, or any departmental head, agent or employee of the State or of any county, municipality, town, village, or any department or political subdivision thereof who fails to comply with the provisions of this section shall be guilty of a misdemeanor, and upon first conviction shall be fined a sum of not less than Twenty-five Dollars (\$25) nor more than Two Hundred Dollars (\$200), and on second conviction a sum of not less than Two Hundred Dollars (\$200).

Lights or Flags on Extended Loads

Sec. 4. Wherever the load or drawbar or coupling on any vehicle shall extend beyond the rear or the bed or body thereof, there shall be displayed at the end of such load or extension, in such position as to be clearly visible at all times from the rear of such load or extension, a red flag not less than twelve (12) inches both in length and width, except that between one-half hour<sup>1</sup> after sunset and one-half hour before sunrise there shall be displayed at the end of any such load or extensions a red light, plainly visible under normal atmospheric conditions at least five hundred (500) feet from the rear of such vehicle.

<sup>1</sup> So in enrolled bill. Session Laws omit word "hour."

Weight of Load

Sec. 5. Except as otherwise provided by law, no commercial motor vehicle, truck-tractor, trailer or semitrailer, nor combination of such vehicles, shall be operated over, on, or upon the public highways outside the limits of an incorporated city or town, having a weight in excess of one or more of the following limitations:

- (1) No group of axles shall carry a load in pounds in excess of the value given in the following table corresponding to the distance in feet between the extreme axles of the group, measured longitudinally to the nearest foot:

The weights set forth in column two of the above table shall constitute the maximum permissible gross weight for any such vehicle or combination of such vehicles.

(2) In no event shall the total gross weight, with load, of any vehicle or combination of vehicles, exceed seventy-two thousand (72,000) pounds.

(3) No axle shall carry a load in excess of eighteen thousand (18,000) pounds. An axle load shall be defined as the total load transmitted to the road by all wheels whose centers may be included between two (2) parallel transverse vertical planes forty (40) inches apart, extending across the full width of the vehicle.

(4) No such vehicle nor combination of vehicles shall have a greater weight than six hundred (600) pounds per inch width of tire upon any wheel concentrated upon the surface of the highway and using high-pressure tires, and a greater weight than six hundred and fifty (650) pounds per inch, width of tire upon any wheel concentrated upon the surface of the highway and using low-pressure tires, and no wheel shall carry a load in excess of eight thousand (8,000) pounds on high-pressure tires and nine thousand (9,000) pounds on low-pressure tires, nor any axle a load in excess of sixteen thousand (16,000) pounds on high-pressure tires, and eighteen thousand (18,000) pounds on low-pressure tires. The total gross weight concentrated on the highway surface from any tandem axle group shall not exceed thirty-two thousand (32,000) pounds for each such tandem axle group. Tandem axle group is defined to be two (2) or more axles spaced

forty (40) inches or more apart from center to center having at least one (1) common point of weight suspension.

Farm-to-Market and Ranch-to-Market Roads;  
Highway Commission to Fix Loads

Sec. 5½. The State Highway Commission shall have the power and authority upon the basis of an engineering and traffic investigation to determine and fix the maximum gross weight of vehicle, or combination thereof, and load as well as the maximum axle and wheel loads, to be transported or moved on, over or upon any State highway or any road that has been classified by the Highway Commission and shown by the records of the Commission as a Farm-to-Market or Ranch-to-Market Road under the jurisdiction of the State Highway Commission, at less than the maximums hereinbefore fixed by law, taking into consideration the width, condition and type of pavement structures and other circumstances on such road, when it is found that greater maximum weights would tend to rapidly deteriorate or destroy the roads, bridges or culverts along the particular road or highway sought to be protected. Whenever the State Highway Commission shall determine and fix the maximum gross weight of vehicle, or combination thereof, and load or maximum axle and wheel loads, which may be transported or moved on, over or upon any such State Highway or Farm-to-Market or Ranch-to-Market road at a less weight than the respective maximums hereinbefore set forth in this Act and shall declare such maximums by proper order of the Commission entered on its minutes, such gross weight of vehicle, or combination thereof, and load and maximum axles and wheel loads shall become effective and operative on said highway or road when appropriate signs giving notice thereof are erected under the order of the Commission on such State highway or Farm-to-Market or Ranch-to-Market road.

The Commissioners Court of any county shall have the same power and authority to limit the maximum weights to be transported or moved on, over or upon any county road, bridge or culvert that is given by this Act to the State Highway Commission with respect to State highways and State Farm-to-Market and Ranch-to-Market roads. The Commissioners Court shall exercise its authority with respect to county roads in the same manner and under the same conditions as provided herein for the State Highway Commission with respect to highways and roads under its jurisdiction, and its action shall be entered on its minutes and become effective and operative on county roads when appropriate signs giving notice thereof are erected on such roads in accordance with the order of the Commissioners Court.

It shall be unlawful for and constitute a misdemeanor for any person, corporation, receiver or association to drive, operate or move, or for the owner to cause or permit to be driven, operated or moved, on any such highway or road any vehicle, or combination of vehicles, which

in any respect exceeds the maximum gross weight or maximum axle or wheel loads fixed for any such highway or road by the State Highway Commission or a Commissioners Court in accordance with the terms of this Section. Any person, corporation, receiver or association who commits the violation heretofore set out shall, upon conviction, be subject to and punished by the same fines and penalties for the first and subsequent offenses as are set out in Section 5 of House Bill No. 19, Chapter 71, Acts of the Forty-seventh Legislature, Regular Session, 1941, (codified in Vernon's as Section 9c of Article 827a of the Penal Code).<sup>1</sup>

Provided, however, that nothing in this Act shall in anywise alter, amend or repeal any law of this State authorizing or providing for special permits for weights in excess of those provided by law or fixed under this Act.

Provided, further, that this Section shall not apply to vehicles making deliveries of groceries or farm products to destinations requiring travel over such roads; but, if for any reason this exception is unconstitutional or invalid, it is the intention of the Legislature to enact, and it does here and now enact and pass, this Act without such exception; and if it be invalid, such exception alone shall fall and be held for naught, and the remainder of the Act shall be and remain unimpaired and it is so enacted.

<sup>1</sup> Section 9-c of this article.

**Applicant for Registration to Show Weight and Maximum Load; License Receipt; Penalty for Violation**

Sec. 5(a). Upon application for registration of any commercial motor vehicle, truck tractor, trailer or semi-trailer, the applicant shall deliver to the Tax Collector, or one of his duly authorized deputies, an affidavit, duly sworn to before an officer authorized to administer oaths, showing the weight of said vehicle, the maximum load to be transported thereon, and the total gross weight for which said vehicle is to be registered; which affidavit shall be kept on file by the Collector. The license receipt issued to the applicant shall also show said total gross weight for which said vehicle is registered. A copy of said receipt shall be carried at all times on any such vehicle while same is upon the public highway.

The copy of the registration license receipt above required shall be admissible in evidence in any cause in which the gross registered weight of such vehicle is an issue, and shall be prima facie evidence of the gross weight for which such vehicle is registered. Such copy of the registration license receipt shall be displayed to any officer authorized to enforce this Act, upon request by such officer.

The driver, owner operator, or other person operating or driving such vehicle, failing to comply with this provision of this Act, shall be guilty of a misdemeanor and upon conviction shall be fined in any sum not exceeding Two Hundred (\$200.00) Dollars.

**Exception to Limitation on Weight**

Sec. 5a. Notwithstanding other provisions of the statutes governing the weight of motor vehicles which may be operated over, on, and upon the highways and roads of this state, it shall be lawful to operate motor vehicles whose total gross weight shall not exceed fifty-eight thousand (58,000) pounds, where such vehicles comply with all other provisions of law excepting only as to their total gross weight and the limitations of weight on axle or group of axles, where such vehicles are used exclusively for transporting fixed load oil field service equipment used in connection with servicing oil and gas wells from the point of origin to well location not more than fifty (50) highway miles distant from such origin.

Sec. 5(b). Repealed by Acts 1941, 47th Leg., p. 86, ch. 71, § 2.

**Weighing Loaded Vehicles by Inspectors**

Sec. 6. Subd. 1. Any License and Weight inspector of the Department of Public Safety, any highway patrolman or any sheriff or his duly authorized deputy, having reason to believe that the gross weight or axle load of a loaded motor vehicle is unlawful, is authorized to weigh the same by means of portable or stationary scales furnished or approved by the Department of Public Safety, or cause the same to be weighed by any public weigher, and to require that such vehicle be driven to the nearest available scales for the purpose of weighing. In the event the gross weight of such vehicle be found to exceed the maximum gross weight authorized by law, plus a tolerance allowance of five per cent (5%) of the gross weight authorized by law, such license and weight inspector, highway patrolman, sheriff or his duly authorized deputy, shall demand and require the operator or owner of such motor vehicle to unload such portion of the load as may be necessary to decrease the gross weight of such vehicle to the maximum authorized by law plus such tolerance allowance. Such operator or owner shall forthwith unload such vehicle to the extent necessary to reduce the gross weight thereof to such lawful maximum and such vehicle may not be operated further over the public highways or roads of the State of Texas until the gross weight of such vehicle has been reduced to a weight not in excess of the maximum limit plus such tolerance allowance. In the event the axle load of any such vehicle be found to exceed the maximum authorized by law, plus a tolerance allowance of five per cent (5%) of the axle load authorized by law, such officer shall demand and require the operator or owner thereof to rearrange his cargo, if possible, to bring such vehicle and load within the maximum axle load authorized by law, and if this cannot be done by rearrangement of said cargo, then such portion of the load as may be necessary to decrease the axle load to the maximum authorized by law plus such tolerance allowance shall be unloaded before such vehicle may be operated further

over the public highways or roads of the State of Texas. Provided, however, that if such load consists of livestock, then such operator shall be permitted to proceed to destination without being unloaded provided destination be within the State of Texas.

It is further provided that in the event the gross weight of the vehicle exceeds the registered gross weight, the License and Weight Inspector, State Highway Patrolman or Sheriff or his duly authorized Deputy shall require the operator or owner thereof to apply to the nearest available County Tax Assessor-Collector for additional registration in an amount that will cause his gross registration to be equal to the gross weight of the vehicle, provided such total registration shall not exceed gross weight allowed for such vehicle, before such operator or owner may proceed. Provided, however, that if such load consists of livestock or perishable merchandise then such operator or owner shall be permitted to proceed with his vehicle to the nearest practical point in the direction of his destination where his load may be protected from damage or destruction in the event he is required to secure additional registration before being allowed to proceed. It shall be conclusively presumed and deemed prima facie evidence that where an operator or owner is apprehended and found to be carrying a greater gross load than that for which he is licensed or registered, he has been carrying similar loads from the date of purchase of his current license plates and will therefore be required to pay for the additional registration from the date of purchase of such license. Provided further that when an operator or owner is required to purchase additional registration in a county other than the county in which the owner resides, the Tax Assessor-Collector of such county shall remit the fees collected for such additional registration to the State Highway Department to be deposited in the State Highway Fund. It shall be the duty of the State Highway Department, and the necessary funds are hereby appropriated, to remit the counties' portion of such fees collected to the county of the residence of the owner; and it is provided further that the provisions of this Section will in no way conflict with Article 6675a, Section 2, of the Revised Civil Statutes.

It is further provided that all forms and accounting procedure necessary to carry out the provisions of this Section shall be prescribed by the State Highway Department.

Subd. 2. The officers named herein are the only officers authorized to enforce the provisions of this Act.

Subd. 3. It shall be unlawful for any of the persons, officers or deputies authorized to enforce the weighing and unloading provisions of this Act, to accept or agree to accept any gift, emolument, money or thing of value, privilege or the promise of either, from any person, firm, corporation, association, partnership, or the officers, agents, servants, or employees thereof as an inducement to enforce or attempt

to enforce the weighing and unloading provisions of this Act. Any person who violates the provisions of this Section shall be guilty of a felony and upon conviction shall be punished as provided in Article 159, Penal Code of Texas.<sup>1</sup>

Subd. 4. It shall be unlawful for any person, firm, corporation, association, partnership, or the officers, agents, servants or employees thereof, to give, or offer to give or promise to give to any of the persons, officers or deputies authorized to enforce the weighing and unloading provisions of this Act, any gift, emolument, money or thing of value, privilege, or the promise of either, as an inducement to enforce or attempt to enforce the weighing and unloading provisions of this Act. Any person who violates the provisions of this Section shall be guilty of a felony and upon conviction shall be punished as provided in Article 158, Penal Code of Texas.<sup>1</sup>

Provided, however, if a corporation shall be convicted of a violation of any of the provisions of this Section the penalty shall be a fine of not less than One Hundred Dollars (\$100) nor shall be a fine of not more than Five Thousand Dollars (\$5,000) for each such offense.

Subd. 5. The inhibitions in Subdivisions 3 and 4 above shall not apply to the regular compensation paid to such persons or officers by the State or a county of this State.

<sup>1</sup> Repealed; see, now, Penal Code, § 36.02.

(b) The drawbar or other connection between any two vehicles, one of which is towing or drawing the other on a highway, shall not exceed twenty (20) feet in length from one vehicle to the other.

Sec. 8. Repealed by Acts 1963, 58th Leg., p. 455, ch. 161, § 2, eff. Aug. 23, 1963.

#### Equipment With Lights, Brakes, Etc.

Sec. 9. Every motor vehicle, other than any road roller, road machinery or farm tractor, having a width at any part in excess of seventy (70) inches shall carry two clearance lamps on the left side of such vehicle, one located at the front and displaying a white light visible under normal atmospheric conditions from a distance of five hundred (500) feet to the front of the vehicle, and the other located at the rear of the vehicle and displaying a red or yellow light visible under like conditions from a distance of five hundred (500) feet to the rear of the vehicle, both of which lights shall be kept lighted while any such vehicle is upon the highway from one-half hour after sunset to one-half hour before sunrise. A motor vehicle requiring clearance lights hereunder may, in lieu of such clearance lights, be equipped with adequate reflectors conforming as to color and marginal location to the requirements for clearance lights. No such reflector shall be deemed adequate unless it is so designed, locat-

ed as to height and maintained as to be visible for at least two hundred (200) feet when opposed by the light of a motor vehicle displaying lawful undimmed headlights at night on an unlighted highway. Reflectors herein referred to must be approved by the Department as to specifications before they can be lawfully used on a vehicle, and it shall be unlawful and constitute a misdemeanor to use a reflector on a motor vehicle unless it has been approved by the Department, and such approval by the Department shall be firmly affixed to such reflector.

All vehicles not heretofore by law required to be equipped with specified lighted lamps shall carry one or more lighted lamps or lanterns displaying a white light visible under normal atmospheric conditions from a distance of not less than five hundred (500) feet to the front of such vehicle and displaying a red or yellow light visible under like conditions from a distance of not less than five hundred (500) feet to the rear of such vehicle, which light shall be kept lighted while the vehicle is upon a highway from one-half hour after sunset to one-half hour before sunrise. Provided, however, that vehicles drawn by animal power may in lieu of such lamps or lanterns be equipped with adequate reflectors.

Every owner, driver or operator of a vehicle while it is upon the main traveled portion of the highway during the period from one-half hour after sunset to one-half hour before sunrise, and at any other time when there is not sufficient light to render clearly discernible any person upon the highway from a distance of at least two hundred (200) feet ahead, shall keep lighted all lamps or lighting devices with which such vehicle is required to be equipped, whether the vehicle is in motion or not.

It shall be unlawful for any person to operate or move any vehicle upon a highway with a red light thereon visible directly from the front thereof, except, that this provision shall not apply to law enforcement officers, fire departments, and ambulances.

Every motor vehicle other than a motorcycle when operated upon the highway shall be equipped with brakes adequate to control the movement of and to stop and to hold such vehicle, including two separate means of applying the brakes, each of which means shall be effective to apply the brakes to at least two wheels. If these two separate means of applying the brakes are connected in any way, they shall be so constructed that failure of any one part of the operating mechanism shall not leave the motor vehicle without brakes on at least two wheels. Any motor vehicle or combination of motor vehicles, trailer, or semitrailer or other vehicle, shall be equipped with brakes upon one or more of such vehicles adequate to stop such combination of vehicles in dry weather upon a reasonably level surface within a distance of forty-five (45) feet from the spot where such brakes are first applied when such vehicle or

combination of vehicles are traveling at a rate of speed of twenty (20) miles per hour.

Every motor vehicle when operated upon a highway shall be equipped with a horn in good working order capable of emitting sounds audible under normal conditions for a distance of not less than two hundred (200) feet, and it shall be unlawful for any vehicle to be equipped with or for any person to use upon a vehicle any bell, siren, compression or exhaust whistle or for any person at any time to use a horn otherwise than as a reasonable warning or to make any unnecessary or unreasonably loud or harsh sound by means of a horn or other warning device, except that vehicles operated in the performance of duty by law enforcement officers, fire departments and ambulances may attach and use a bell, siren, compression or exhaust whistle.

Every motor vehicle engaged in the transportation of passengers for hire or lease shall be equipped with at least one quart of chemical type fire extinguisher in good condition and conveniently located for immediate use.

Except as otherwise provided herein, it shall be unlawful for any person to operate or permit to be operated any commercial motor vehicle for hire or lease upon the highways of this State without first having obtained a chauffeur's license as provided in Article 6687 of the Revised Civil Statutes of Texas, 1925; and provided further, however, the driver or operator of such vehicle who has secured a driver's license under the provisions of any other statute of this State, shall not be required to secure the chauffeur's license under Article 6687 of the Revised Civil Statutes of Texas, 1925.

It shall be the duty of the judge of the court to report forthwith to the Department of Public Safety any convictions obtained in his court under this Section and it shall be the duty of the Department of Public Safety to keep a record thereof.

(b) If any corporation is convicted for the violation of any provision of this Act and fails to pay the fine assessed, the district or county attorney in the county in which such conviction was had is hereby authorized to file suit in a court of competent jurisdiction against such corporation to collect such fine.

Sec. 10. No person shall park or leave standing any vehicle, whether attended or unattended, upon the paved or improved or main traveled portion of any highway, outside of any incorporated town or city, when it is possible to park or leave such vehicle standing off of the paved or improved or main traveled portion of such highway; provided, in no event shall any person park or leave standing any vehicle, whether attended or unattended, upon any highway unless a clear and unobstructed width of not less than fifteen feet upon the main traveled portion of said highway opposite such standing vehicle shall be left for free passage of other vehicles thereon, nor unless a clear view of such vehicle may be obtained from a distance of 200 feet in each direction upon such highway.

Whenever any peace officer or license and weight inspector of the Department shall find a vehicle standing upon a highway in violation of the provisions of this section, he is hereby authorized to move such vehicle or require the driver or person in charge of such vehicle to move such vehicle to a position permitted under this section.

#### Marking Highways

Sec. 11. The Department is hereby authorized to classify, designate and mark both intrastate and interstate State Highways lying within the boundaries of this State and to provide a uniform system of marking and signing such highways under the jurisdiction of this State, and such system of marking and signing shall correlate with and so far as possible conform to the system adopted in other states.

#### Designation of Main Highways

Sec. 12. The Department, with reference to State Highways under its jurisdiction, is hereby authorized to designate main traveled or through highways by erecting at the entrances thereto signs notifying drivers of vehicles to come to a full stop before entering or crossing any such highway; and whenever any such sign has been so erected, it shall be unlawful for the driver or operator of any vehicle to fail to stop in obedience thereto.

#### Unauthorized Markers or Lights

Sec. 13. No unauthorized person shall erect or maintain upon any State Highway any warning or direction sign, marker, signal or light, and no person shall erect or maintain upon any highway any traffic or highway sign or signal bearing thereon any commercial advertising, provided nothing in this section shall be construed to prohibit the erection or maintenance of signs, markers, or signals bearing thereon the name of an organization authorized to erect the same by the Department.

#### Penalty for Removal of Signs

Sec. 14. Any person who shall deface, injure, knock down or remove any sign, posted as provided in this Act shall be guilty of a misdemeanor.

**Art. 6701d-16. Movement of Oversize or Overweight Oil Well Servicing and Drilling Machinery**

**Purpose of Act**

Sec. 1. The provisions of this Act shall be cumulative of all other laws regulating the operation of vehicles and the movement of machinery on the highways of this state, it being the express intent of this Act to provide an optional procedure for the issuance of permits for the movement of oversize or overweight oil well servicing and/or oil well drilling machinery and equipment.

**Permits; Designation of Routes**

Sec. 2. When any person, firm or corporation, desires to operate over any road or highway under the jurisdiction of the State Highway Department any vehicle which is a piece of fixed load mobile machinery or equipment used for the purpose of servicing, cleaning out, or drilling oil wells, and when such vehicle cannot comply with one or more of the restrictions set out in Sections 3 and 5 of Acts 1929, 41st Legislature, 2nd Called Session, Chapter 42, page 72, as amended (Article 827a, Vernon's Annotated Penal Code),<sup>1</sup> the State Highway Department may, as an alternative to any other procedure authorized by law, upon application, issue a permit for the movement of such vehicle, when the Department is of the opinion that the same may be moved without material damage to the highway or serious inconvenience to highway traffic. Provided, however, that all cities and towns having a state highway within their limits may designate to the State Highway Department the route within the city or town to be used by said vehicles operating over the state highway. When so designated, the route shall be shown on all maps routing said vehicles by the State Highway Department. In the event a route is not so designated by a city or town, the State Highway Department shall determine the route on state highways for such vehicles within cities or towns. No fee, permit or license shall be required by any city or town for movement of said vehicles on the route of a state highway designated by the State Highway Department or on said special route designated by a city or town.

<sup>1</sup> Transferred; see, now, article 6701d-11, §§ 3, 5.

**Necessity of Registration of Vehicles**

Sec. 3. Prior to issuing any permit for the movement of such vehicles, said vehicles must have been registered under Acts, 1929, 41st Legislature, 2nd Called Session, Chapter 88, as amended (Article 6675a, Vernon's Annotated Civil Statutes)<sup>1</sup> for the maximum gross weight applicable to such vehicles under Section 5, Acts, 1929, 41st Legislature, 2nd Called Session, Chapter 42, page 72, as amended (Article

827a, Vernon's Penal Code),<sup>2</sup> or shall have the distinguishing license plates as provided in Paragraph (c) of Section 2, Acts 1929, 41st Legislature, 2nd Called Session, Chapter 88, as added by Acts 1961, 57th Legislature, Regular Session, Chapter 259, page 554, as amended,<sup>3</sup> if applicable to said vehicles.

<sup>1</sup> See article 6675a-1 et seq.

<sup>2</sup> Transferred; see, now, article 6701d-11, § 5.

<sup>3</sup> Article 6675a-2, par. (c).

**Rules and Regulations; Forms and Procedures; Violations; Fees**

Sec. 4. The State Highway Commission shall formulate rules and regulations regarding the issuance of such permits including, but not limited to, the forms and procedures to be used in applying for same; conditions with regard to route and time of movement and special requirements as to flags, flagmen and warning devices; the fees to be collected and deposited in the State Highway Fund; whether a particular permit shall be for one trip only, or for a period of time to be established by the Commission; and such other matters as the Commission may deem necessary to carry out the provisions of the Act. The failure of an owner or his representative to comply with any rule or regulation of the Commission or with any condition placed on his permit shall render the permit void and, immediately upon such violation, any further movement over the highways of the oversize or overweight vehicles, shall be in violation of existing laws regulating the size and weight of vehicles on public highways.

It is recognized that the movement of such overweight and oversize vehicles is a privilege not accorded to every user of the highway system, and it is logical and proper that the fees to be charged for special transportation permit be sufficient to provide that the permittee pay the administrative costs incurred in the processing and issuing of the permits, pay for the added wear on the highways in proportion to the reduction of service life, and for the special privilege of transporting a more hazardous load over the highways thus compensating for the economic loss to the operators of vehicles in regular operation due to necessary delays and inconveniences occasioned by these types of vehicle movements. It is, therefore, declared to be the policy of the Legislature that in formulating such rules and regulations and in establishing such fees, the Commission shall consider and be guided by:

- a. The state's investment in its highway system;
- b. The safety and convenience of the general traveling public;
- c. The amount of registration or license fee previously paid on the vehicle for which the permit is desired, and the amount of such fees paid by vehicles operating within legal limits; and
- d. The suitability of roadways and sub-grades on the various classes of high-

ways of the system, variation in soil grade prevalent in the different regions of the state and the seasonal effects on highway load capacity as well as the highway shoulder design and other highway geometrics and the load capacity of the highway bridges.

#### Damages to Highways

Sec. 5. The issuance of a permit for an oversize or overweight movement shall not be a guarantee by the Department that the highways can safely accommodate such movement, and the owner of any vehicle involved in any oversize or overweight movement, whether with or without permit, shall be strictly liable for any damage such movement shall cause the highway system or any of its structures or appurtenances.

#### Determination as to Whether Vehicle Subject to Registration; License Plates

Sec. 6. With respect to oil well servicing, oil well clean out, and/or oil well drilling machinery or equipment, the State Highway Department may, if determined by it to be necessary or expedient for the proper administration of the laws of this state regarding the registration and licensing of motor vehicles, establish criteria for determining whether a vehicle of the specific type described in this Section is subject to registration under Article 6675a, Revised Civil Statutes, or eligible for the distinguishing license plate provided for in Paragraph (c) of Section 2, Acts 1929, as added by Acts of 1961, 57th Legislature, Chapter 259, page 554, as amended,<sup>1</sup> and on the basis of such criteria, said Department is authorized to determine whether such vehicle is or is not subject to registration under Article 6675a. Provided, however, that no vehicle heretofore authorized by the State Highway Department to operate without registration under the provisions of Article 6675a shall hereafter be required to register under the provisions thereof. For all purposes under this Section 6 of this Act, oil well servicing, oil well clean out and oil well drilling machinery or equipment shall mean only those vehicles constructed as a machine used solely for servicing, cleaning out, and/or drilling oil wells, and consisting in general of a mast, an engine for power, a draw works and a chassis permanently constructed or assembled for such purpose or purposes.

<sup>1</sup> Article 6675a-2, par. (c).

#### Application of Act

Sec. 7. Nothing in this Act shall be construed to include or apply to any person, firm or corporation authorized by the Railroad Commission of Texas to operate as a carrier for compensation or hire over the public highways of this state, whether or not all the operations of such person, firm or corporation are performed under such certificate, permit or authority granted by the Commission.

[Acts 1963, 58th Leg., p. 492, ch. 179.]

#### Art. 6701d-17. Length of Vehicles Transporting Poles or Pipe

Sec. 1. Notwithstanding other provisions of the statutes governing the length of motor vehicles and combinations thereof and the provisions of the statutes controlling the distance which a load may extend beyond the front or rear of a vehicle or combination of vehicles which may be operated over the highways and roads, it shall be lawful to operate such vehicles and combinations thereof where the combined length of the vehicle or vehicles and its load does not exceed sixty-five (65) feet in length and where such vehicles or combinations thereof are used exclusively for the transportation of poles or pipe.

Sec. 2. Such vehicles may be operated only between the hours of sunrise and sunset as defined by law and there shall at all times be displayed at the extreme rear end of the load carried on such vehicles a red flag or cloth not less than twelve (12) inches square and so hung that the entire area is visible to the driver of a vehicle approaching from the rear.

Sec. 3. The width, height, length and weight of each vehicle or combination thereof shall conform to the requirements of Article 827a, Revised Penal Code of Texas,<sup>1</sup> and nothing in this Act shall be construed to repeal any other provisions of the statutes other than the necessity to secure a permit from the Texas Highway Department to operate a combination of vehicles hauling pipe or poles.

[Acts 1971, 62nd Leg., p. 20, ch. 8, eff. Feb. 26, 1971.]

<sup>1</sup> Transferred; see, now, article 6701d-11.

#### Art. 6701d-18. Special Permits for Unladen Lift Equipment Exceeding Weight and Width Limits

Notwithstanding other provisions of the statutes governing the weight and width of motor vehicles which may be operated over the highways and roads of Texas, the State Highway Department may, on application, issue annual permits for a fee of \$50 each to authorize the movement of unladen lift equipment motor vehicles which because of their design for use as lift equipment exceed the maximum weight and width limitations prescribed by statute.

[Acts 1973, 63rd Leg., p. 18, ch. 14, eff. March 22, 1973.]

#### Art. 6701d-19. Cotton Truck Regulation

##### Declaration of Policy

Sec. 1. A serious traffic menace has been caused upon the public highways and public roads of this State because of the use of the highways and roads to truck a substantial part of the cotton crop, and because of the fact that most of the cotton crop of this State moves within a very short period of time. The moving of an even greater proportion of the annual cotton crop each year will increase the traffic menace upon the highways and roads of the State. The operation of cotton trucks upon the public highways and public roads of the State of Texas at the present time has resulted in an

unusual and an appalling loss of life of travelers upon the public roads and public highways of the State, has resulted in unwarranted destruction of the public highways of this State, has resulted in unwarranted and dangerous traffic congestion, has created an unusual and unwarranted traffic menace upon the public highways and public roads of the State, has created an unreasonable and unwarranted fire hazard upon the public highways and public roads of the State, and has made difficult and almost impossible the establishing and maintaining of a coordinated use of the highways by the general traveling public. It is declared to be the public policy of this State not to permit any one kind or character of truck traffic to be conducted upon the public highways and public roads of the State in such a manner as unreasonably to interfere with and unreasonably to make dangerous the use of the highways by the general traveling public in a reasonable and safe manner, or unreasonably to destroy such highways, and in order to guard against the dangers above mentioned, this law is enacted.

#### Definition of Vehicle

Sec. 2. For the purpose of this Act a "vehicle" is every mechanical device in, upon or by which any person or property is or may be transported or drawn upon a public highway, excepting devices moved by human power or used exclusively upon stationary rails or tracks.

#### Limitation of Load

Sec. 3. It shall hereafter be unlawful for any person, firm, corporation or association of persons to operate or cause to be operated over the public highways of this State any vehicle or combination of vehicles carrying, singly or collectively, a load of more than ten (10) bales of cotton unless all of the bales of cotton carried in or on any such load shall have been compressed to a density of twenty-two (22) pounds per cubic foot or greater.

#### Enclosing Loads

Sec. 4. It shall hereafter be unlawful for any person, firm, corporation or association of persons to operate or cause to be operated any vehicle or combination of vehicles carrying singly or collectively a load of more than ten (10) square bales of compressed cotton or more than twenty (20) round bales of compressed cotton for a distance of greater than fifteen (15) miles over the public roads and public highways of this State unless said vehicle or combination of vehicles shall be equipped with a body or bodies constructed so as to completely enclose the load or loads carried thereon from the bottom, sides and ends, and unless all the floors, tops, sides and ends of such vehicle, or combination of vehicles, so enclosing such load or loads, shall be entirely constructed of wood, not less than one and one-half (1½) inches thick, or of iron, or of steel, or of a

combination of such wood and/or iron, and/or steel, to protect the load or loads from being spilled upon the roads or highways.

#### Inapplicable to Cities or Towns

Sec. 5. The provisions of this Act shall not apply to the operation of vehicles or combination of vehicles within an incorporated city or town in this State.

#### Penalty

Sec. 6. Any person, association of persons or corporation violating any provision of this Act shall be guilty of a misdemeanor and upon conviction shall be fined in any sum not less than One Hundred Dollars (\$100.00) nor more than Five Hundred Dollars (\$500.00) and each day such vehicle or combination of vehicles is operated contrary to the provisions of this Act shall constitute a separate offense.

[Acts 1931, 42nd Leg., p. 207, ch. 121.]

Such lights shall consist of red lights, amber (yellow) lights and green lights. Said signal unit shall be suspended above the center of said State Highways and installed under the direction of the State Highway Engineer, or any resident engineer of the State Highway Department.

At the display of the red light all traffic approaching such displayed light shall come to a complete stop; at the display of the amber (yellow) light, traffic shall prepare to move forward, and at the display of the green light traffic shall proceed to move forward.

**Art. 6701g. Traffic Regulations on County Roads and Lands by Commissioners Courts**

**Authorization; Notice and Hearing on Regulations**

Sec. 1. (a) The Commissioners Court of any county in this State may regulate and restrict traffic on county roads and on other county-owned land under its jurisdiction.

(b) The Commissioners Court shall hold a public hearing before issuing any traffic regulation pursuant to this Act, and shall give advance notice of the regulation or regulations to be considered at the hearing by causing notice of the hearing to be published not less than seven days nor more than thirty days prior to the hearing in a newspaper of general circulation in the county.

**Rate of Speed; Load Limits**

Sec. 2. (a) The Commissioners Court may determine and fix the maximum, reasonable

and prudent speed at any road or highway intersection, railroad grade crossing, curve or hill, or upon any other part of a county road less than the maximum fixed by law for public highways, taking into consideration the width and condition of the surface of the road and other circumstances on the affected portion of the road, as well as the usual traffic thereon. Whenever the Commissioners Court of any county shall determine and fix the rate of speed at any such point upon any county road at a less rate of speed than the maximum fixed by law for public highways and shall declare the maximum, reasonable and prudent speed limit thereat by proper order of the court entered on its minutes, such rate of speed shall become effective and operative at said point on said highways when appropriate signs giving notice thereof are erected at such intersection or portion of the road under order of the court.

(b) The Commissioners Court may establish load limits for any road or bridge, and may authorize the county traffic officer, if one or more such officers have been appointed, or any sheriff, deputy sheriff, constable, or deputy constable, to weigh vehicles for the purpose of ascertaining whether a vehicle is loaded in excess of the prescribed limit.

**Traffic Control Devices**

Sec. 3. The Commissioners Court of any county may adopt rules and regulations consistent with this Act for the establishment of a system of traffic control devices within restricted traffic zones established on county roads and on any other property owned by such county, under its jurisdiction, and such system shall conform to the State Highway Department's manual and specifications. The Court may, pursuant to an order entered on its minutes, place, erect, install and maintain upon county roads and on any other property owned by it, within traffic zones, such traffic signal lights, stop signs, and no parking signs, as it may deem necessary for the public safety.

**Stopping, Standing or Parking**

Sec. 4. The Commissioners Court of any county with respect to roads and any other property owned by the county, under its jurisdiction, may place signs prohibiting or restricting the stopping, standing or parking of vehicles on any road or on any property owned by the county within a restricted traffic zone where in the opinion of the Commissioners Court such stopping, standing or parking is dangerous to those using the road or the other property owned by the county or where the stopping, standing or parking of vehicles will unduly interfere with the free movement of traffic or with the necessary control of property owned by the county and its use thereof. Such signs shall be erected pursuant to an order of the Court and it shall be unlawful for any person to stop, stand, or park any vehicle in violation of the restrictions stated on such signs.

## Injury or Removal of Signs or Devices

Sec. 5. Any person who shall deface, injure, knock down or remove any sign or traffic control device erected pursuant to an order of the Commissioners Court as provided in this Act shall be guilty of a misdemeanor.

## Punishment for Violations

## Partial Invalidity

Sec. 7. If any portion of this Act is held unconstitutional by a Court of competent jurisdiction the remaining provisions shall nevertheless be valid the same as if the unconstitutional portion had not been part of this Act.

## ARTICLE II—ADMINISTRATION OF ACT

Administration of Act; Appeal to Court; Stay Order;  
Proof of Financial Responsibility; Maintaining  
Proof With Department

Sec. 2. (a) The Department shall administer and enforce the provisions of this Act and may make rules and regulations necessary for its administration, and shall provide for hearings upon request of persons aggrieved by orders or acts of the Department under the provisions of this Act.

(b) Any order or act of the Department, under the provisions of this Act, may be subject to review within thirty (30) days after notice thereof, or thereafter for good cause shown, by appeal to the County Court at Law at the instance of any party in interest and in the county wherein the person aggrieved by such order or act resides, or if there be no County Court at Law therein, then in the County Court of said county, or if there be no County Court having jurisdiction, then such jurisdiction shall be in the District Court of said county, and such Court is hereby vested with jurisdiction, and such appeal shall be by trial de novo. The Court shall determine whether the filing of the appeal shall operate as a stay of any such order or decision of the Department, with the exception that no stay order shall be granted staying an order of suspension by the Department of Public Safety that is based on a final judgment rendered against any person in this State by a court of competent jurisdiction growing out of the use of a motor vehicle in

this State when said judgment is a subsisting final judgment and unsatisfied; further, an appeal shall not operate as a stay of any such other orders or decisions of the Department of Public Safety where the aggrieved party was involved in an accident involving a motor vehicle which he was operating if he was charged with a violation of any of the laws of the State of Texas, or any of its political subdivisions, and said complaint or indictment is pending at the time the appeal from an order or decision of the Department of Public Safety is filed, unless the aggrieved party shall file proof of financial responsibility with the Department of Public Safety as a condition precedent to the obtaining of said stay and maintain said proof of financial responsibility until dismissal of said complaint or indictment or for such period of time as provided for in Section 2(d) of this Act. If the aggrieved party shall at the time of said appeal in lieu of proof of financial responsibility file with the court and the Department of Public Safety an affidavit setting forth specific facts which would entitle the aggrieved party to an acquittal of the complaint or indictment filed against the aggrieved party, he shall be entitled to a temporary stay of the order of the Department of Public Safety without the necessity of filing proof of financial responsibility. Upon the filing of such affidavit, the cause shall take priority upon the court's docket in said Court where said complaint or indictment is pending and if the same is not tried within forty-five (45) days from the date of filing of such complaint or indictment, shall thereafter be subject to transfer to such county or District Court of an adjoining county upon the filing of a motion thereof by the aggrieved party. If within ninety (90) days from the date of the original suspension or order by the Department of Public Safety, the Department has not received a certified copy of a judgment of the court acquitting the aggrieved party, the Department of Public Safety shall again order the driver's license and the registrations of all motor vehicles registered in the aggrieved party's name suspended and from this said order of the Department of Public Safety, no appeal shall operate as a stay unless the aggrieved party files with the Department of Public Safety, as an absolute condition precedent to the obtaining of a stay, proof of financial responsibility and maintain said proof of financial responsibility until said complaint or indictment has been dismissed or if the aggrieved party has plead guilty or been convicted for the period of time provided for in Section 2(d) of this Act. Upon the disposition of said complaint or indictment either by a plea of guilty or final conviction, the aggrieved party who shall have plead guilty or been finally convicted and has previously filed proof of financial responsibility as a condition precedent to obtaining a stay from an order of suspension of the Department of Public Safety, must maintain said proof of financial responsibility with the Department of Public Safety for that

period of time provided for in Section 2(d) of this Act. If no stay order has been previously applied for prior to a plea of guilty or final conviction, the aggrieved party can obtain a stay from any order or decision of the Department of Public Safety if said party will file with the Department of Public Safety as a condition precedent to the obtaining of a stay of said order or decision proof of financial responsibility and maintain said proof of financial responsibility as provided for in Section 2(d) of this Act. Where the aggrieved party has been found not guilty to the complaint or indictment filed against him, or said complaint or indictment has been dismissed, filing of proof of financial responsibility shall not be a condition precedent to the granting of a stay from any order or decision of the Department of Public Safety, and prior filing of proof of financial responsibility with the Department of Public Safety as a condition precedent to obtaining a stay from an order or decision of the Department of Public Safety, may be withdrawn. The above provision restricting the granting of a stay order in appeals where the aggrieved party has been charged with the violation of any of the laws of the State of Texas or of any of the political subdivisions shall also limit any court in this State in any original action brought against the Department of Public Safety to enjoin or order the enforcement of any order of the Department of Public Safety issued under this Act.

(c) Trial in the court shall be de novo, with the burden of proof upon the Department, and the substantial evidence rule shall not be invoked or apply, but the same shall be tried without regard to any prior holding of fact or law by the Department, and judgment entered only upon the evidence offered at the trial by the Court. A trial by jury may be had upon proper application.

(d) Whenever a person has been convicted or pleads guilty to a violation of any of the laws of the State of Texas, or its political subdivisions, growing out of a motor vehicle accident, as specified in Section 2(b) of this Act, and said party is required to file proof of financial responsibility as a condition precedent to the obtaining of a stay of any order or decision of the Department of Public Safety, said proof of financial responsibility shall be maintained with said Department of Public Safety by said party for a period of three (3) years from date of final conviction or plea of guilty.

#### Department to Furnish Operating Record

Sec. 3. The Department shall, upon request and receipt of proper fees, furnish any person a certified abstract of the operating record of any person subject to the provisions of this Act, which abstract shall also fully designate the motor vehicles, if any, registered in the name of such person, and, if there shall be no record of any conviction of such person of violating any law relating to the operation of a motor vehicle or of any injury or damage

caused by such person, the Department shall so certify.

### ARTICLE III—SECURITY FOL- LOWING ACCIDENT

#### Report Required Following Accident

Sec. 4. The operator of every motor vehicle which is in any manner involved in an accident within the State, in which any person is killed or injured or in which damage to the property of any one person, including himself, to an apparent extent of at least Two Hundred Fifty Dollars (\$250) is sustained, shall within ten (10) days after such accident report the matter in writing to the Department. Such report, the form of which shall be prescribed by the Department, shall contain information to enable the Department to determine whether the requirements for the deposit of security under Section 5 are inapplicable by reason of the existence of insurance or other exceptions specified in this Act. Any written report of accident in accordance with Section 44, Chapter 421, Acts of the 50th Legislature, Regular Session, 1947, as last amended by Chapter 363, Acts of the 53rd Legislature, Regular Session, 1953, compiled as Article 6701d, Section 44, Vernon's Texas Civil Statutes, if actually made to the Department, shall be sufficient provided it also contains the information required herein. The Department may rely upon the accuracy of the information unless and until it has reason to believe that the information is erroneous. If such operator be physically incapable of making such report, the owner of the motor vehicle involved in such accident shall, within ten (10) days after learning of the accident, make such report. The operator or the owner shall furnish such additional relevant information as the Department shall require.

#### Non-domiciliary of U. S.; Proof of Financial Responsibility; Impounding Vehicle

Sec. 4A. (a) Any motor vehicle operator who is not domiciled within the United States and who operates a vehicle which is in any manner involved in an accident within the State of Texas in which any person is killed or injured or in which damage to the property of any one person, not including himself, to an apparent extent of at least One Hundred Dollars (\$100) is sustained shall be taken immediately before a magistrate and there shall present proof of financial responsibility.

(b) If a person does not present proof of financial responsibility in accordance with Subsection (a), the magistrate shall enter an order directing the Department to impound the vehicle operated by the foreign domiciliary. The Department shall hold the vehicle until:

(1) a cash bond, in an amount to be determined by the magistrate, has been posted with the Department;

(2) a release has been executed by the other party or parties to the accident and the release is filed with the Department; or

(3) the Department receives certification of the entry of a final judgment of liability in the accident from a court of record.

Security; Determination of Amount; Suspension of License and Registrations; Notice; Exceptions

Sec. 5. (a) If twenty (20) days after the receipt of a report of a motor vehicle accident within this State which has resulted in bodily injury or death, or damage to the property of any one person of at least Two Hundred Fifty Dollars (\$250), the Department does not have on file evidence satisfactory to it that the person who would otherwise be required to file security under Subsection (b) of this section has been released from liability, or has been finally adjudicated not to be liable, or has executed a duly acknowledged written agreement providing for the payment of an agreed amount in installments with respect to all claims for injuries or damages resulting from the accident, the Department shall determine the amount of security which shall be sufficient in its judgment, and in no event less than Two Hundred Dollars (\$200) to satisfy any judgment or judgments for damages resulting from such accident as may be recovered against each operator or owner.

(b) The Department shall, within sixty (60) days after the receipt of such report of a motor vehicle accident, suspend the license and all registrations of each operator and owner of a motor vehicle in any manner involved in such accident, and if such operator or owner is a nonresident the privilege of operating a motor vehicle within this State, and the privilege of the use within this State of any motor vehicle owned by him unless such operator, owner or operator and owner shall deposit security in the sum so determined by the Department and in no event less than Two Hundred Dollars (\$200), and unless such operator and owner shall give proof of financial responsibility; provided notice of such suspension shall be sent by the Department to such operator and owner not less than ten (10) days prior to the effective date of such suspension and shall state the amount required as security and the necessity for proof of financial responsibility. Where erroneous information is given the Department with respect to the matters set forth in subdivisions 1, 2 and 3 of Subsection (c) of this Section, it shall take appropriate action as hereinbefore provided, within sixty (60) days after receipt by it of correct information with respect to said matters.

(c) This section shall not apply under the conditions stated in Section 6 nor:

1. To such operator or owner if such owner had in effect at the time of such accident a motor vehicle liability policy with respect to the motor vehicle involved in such accident;

2. To such operator, if not the owner of such motor vehicle, if there was in effect at the time of such accident a motor vehicle liability policy or bond with respect to

his operation of motor vehicles not owned by him;

3. To any person employed by the government of the United States, when such person is acting within the scope or office of his employment;

4. To such operator or owner if the liability of such operator or owner for damages resulting from such accident is, in the judgment of the Department, covered by any other form of liability insurance policy or bond; nor

5. To any person qualifying as a self-insurer under Section 34 of this Act, or to any person operating a motor vehicle for such self-insurer.

No such policy or bond shall be effective under this section or under Section 7 unless issued by an insurance company or surety company authorized to write motor vehicle liability insurance in this State, except that if such motor vehicle was not registered in this State, or was a motor vehicle which was registered elsewhere than in this State at the effective date of the policy, or the most recent renewal thereof, such policy or bond shall not be effective under this section unless the insurance company or surety company if not authorized to do business in this State shall execute a power of attorney authorizing the Department to accept service on its behalf of notice or process in any action upon such policy or bond arising out of such accident; providing, however, every such policy or bond is subject, if the accident has resulted in bodily injury or death, to a limit, exclusive of interest and costs, of not less than Ten Thousand Dollars (\$10,000) because of bodily injury to or death of one person in any one accident and, subject to said limit for one person, to a limit of not less than Twenty Thousand Dollars (\$20,000) because of bodily injury to or death of two (2) or more persons in any one accident, and, if the accident has resulted in injury to or destruction of property, to a limit of not less than Five Thousand Dollars (\$5,000) because of injury to or destruction of property of others in any one accident. The policy or bond may exclude coverage of the first Two Hundred Fifty Dollars (\$250) of liability for bodily injury to or death of any one person in any one accident, and, subject to that exclusion for one person, may exclude coverage for the first Five Hundred Dollars (\$500) of liability for the bodily injury to or death of two (2) or more persons in any one accident and may exclude coverage for the first Two Hundred Fifty Dollars (\$250) of liability for the injury to or destruction of property of others in any one accident.

6. Wherever the word "bond" appears in this section or this Act, it shall mean a bond filed with and approved by the Department of Public Safety.

## Further Exceptions to Requirement of Security

Sec. 6. The requirements as to security, proof of financial responsibility and suspension in Section 5 shall not apply:

1. To the operator or the owner of a motor vehicle involved in an accident wherein no injury or damage was caused to the person or property of any one other than such operator or owner;

2. To the operator or the owner of a motor vehicle legally parked or legally stopped at a traffic signal at the time of the accident;

3. To the owner of a motor vehicle if at the time of the accident the vehicle was, being operated without his permission, express or implied, or was parked by a person who had been operating such motor vehicle without such permission; nor

4. If, prior to the date that the Department would otherwise suspend license and registration or nonresident's operating privilege under Section 5, there shall be filed with the Department evidence satisfactory to it that the person, who would otherwise have to file security and proof, has been released from liability or been finally adjudicated not to be liable or has executed a duly acknowledged written agreement providing for the payment of an agreed amount in installments, with respect to all claims for injuries or damages resulting from the accident.

## Duration of Suspension

Sec. 7. The license and registration and nonresident's operating privilege suspended as provided in Section 5 shall remain so suspended and shall not be renewed nor shall any such license or registration be issued to such person until:

1. Such person shall deposit and file or there shall be deposited and filed on his behalf the security and proof required under Section 5 and under this Section; or

2. Two (2) years shall have elapsed following the date of such accident and evidence satisfactory to the Department has been filed with it that during such period no action for damages arising out of the accident has been instituted, provided such person files proof of financial responsibility; or

3. Evidence satisfactory to the Department has been filed with it of a release from liability, or a final adjudication of nonliability, or a duly acknowledged written agreement, in accordance with subdivision 4 of Section 6; provided, however, in the event there shall be any default in the payment of any installment under any duly acknowledged written agreement, then, upon notice of such default, the Department shall forthwith suspend the license and registration or nonresident's operating

privilege of such person defaulting which shall not be restored unless and until

(a) Such person deposits and thereafter maintains security as required under Section 5 in such amount as the Department may then determine and files proof of financial responsibility; or

(b) Two (2) years shall have elapsed following the date when such security was required and during such period no action upon such agreement has been instituted in a court in this State, provided such person gives proof of financial responsibility.

## Reinstatement—Fees

Sec. 7A. Whenever a license or registration, or nonresident's operating privilege is suspended and the filing of proof of financial responsibility is, under this Article, made a prerequisite to reinstatement thereof, or to the issuance of a new license or registration, no such license or registration, or nonresident's operating privilege shall be reinstated or new license or registration shall be issued unless the licensee or registrant or nonresident, in addition to complying with other provisions of this Article, pays to the Department a fee of Ten Dollars (\$10) in addition to any other fees which may be required by law. Only one such fee shall be paid by any one person regardless of the number of licenses and registrations to be reinstated for or issued to such person in connection with such payment.

The fees paid pursuant to this Section shall be used by the Department to administer the provisions of this Article.

## Application to Non-Residents, Unlicensed Drivers; Unregistered Motor Vehicles and Accidents in Other States

Sec. 8. (a) In case the operator or the owner of a motor vehicle involved in an accident within this State has no license or registration, or is a non-resident, he shall not be allowed a license or registration until he has complied with the requirements of this Article to the same extent that would be necessary if, at the time of the accident, he had held a license and registration.

(b) When a non-resident's operating privilege is suspended pursuant to Section 5 or Section 7, the Department shall transmit a certified copy of the record of such action to the official in charge of the issuance of licenses and registration certificates in the state in which such non-resident resides, if the law of such other state provides for action in relation thereto similar to that provided for in Subsection (c) of this Section.

(c) Upon receipt of certification by the Department that the operating privilege of a Texas resident has been suspended or revoked in another state pursuant to a law providing for its suspension or revocation for failure to deposit security for the payment of judgments

arising out of a motor vehicle accident or for failure to file proof of financial responsibility, the Department shall contact the official who issued the certification and request information pertaining to the specific nature of the Texas resident's noncompliance. If the alleged noncompliance is based on the failure of the Texas resident's insurance company or surety company to obtain authorization to write motor vehicle liability insurance in the other state and for failure of the insurance or surety company to execute a power of attorney directing the appropriate official in the other state to accept service on its behalf of notice or process in any action upon the policy arising out of the accident, then the Department shall not suspend the Texas resident's license and other registrations. If the evidence shows that the Texas resident's operating privilege was suspended in the other state for any other violation of another state's laws providing for suspension or revocation for failure to deposit security for the payment of judgments arising out of motor vehicle accidents or for failure to file proof of financial responsibility, under circumstances that would require the Department to suspend a nonresident's operating privilege had the accident occurred in this state, then the Department shall suspend the Texas resident's license and registrations. The suspension shall continue until the resident furnishes evidence of his compliance with the law of the other state relating to the deposit of security and proof of financial responsibility.

#### Form and Amount of Security

Sec. 9. The security required under this Article may be by cash deposit or by bond written by an insurance company duly authorized to execute surety bonds in this State in the amount the Department may require or in such other form and in such amount as the Department may require but in no case less than Two Hundred Dollars (\$200) nor in excess of the limits specified in Section 5 in reference to the acceptable limits of a policy. The person depositing security shall specify in writing the person or persons on whose behalf the deposit is made and, at any time while such deposit is in the custody of the Department or the State Treasurer of the State of Texas, the person depositing it may, in writing, amend the specification of the person or persons on whose behalf the deposit is made to include an additional person or persons; provided, however, that a single deposit of security shall be applicable only on behalf of persons required to furnish security because of the same accident and the same motor vehicle.

The Department may reduce the amount of security ordered in any case within six (6) months after the date of the accident if, in its judgment, the amount ordered is excessive. In case the security originally ordered has been deposited the excess deposited over the reduced amount ordered shall be returned to the depositor or his personal representative forthwith, notwithstanding the provisions of Section 10.

#### Custody, Disposition and Return of Security

Sec. 10. "Cash" security deposited in compliance with the requirements of this Article shall be placed by the Department in the custody of the State Treasurer and shall be applicable only to the payment of a judgment or judgments rendered against the person or persons on whose behalf the deposit was made, for damages arising out of the accident in question in an action at law, begun not later than two (2) years after the date of such accident, or within two (2) years after the date of deposit of any security under Subdivision 3 of Section 7, or to the payment in settlement, agreed to by the depositor, of a claim or claims arising out of such accident. Such deposit or any balance thereof shall be returned to the depositor or his personal representative when evidence satisfactory to the Department has been filed with it that there has been a release from liability, or a final adjudication of nonliability, or a duly acknowledged agreement, in accordance with Subdivision 4 of Section 6, or whenever, after the expiration of two (2) years from the date of the accident, or within two (2) years after the date of deposit of any security under Subdivision 3 of Section 7, the Department shall be given reasonable evidence that there is no such action pending and no judgment rendered in such action left unpaid.

#### Matters Not to be Evidence in Civil Suits

Sec. 11. Upon the filing of the report required by Section 4, the action taken by the Department pursuant to this Article, the findings, if any, of the Department upon which such action is based, nor the security or proof of financial responsibility filed as provided in this Article shall be referred to in any way, nor be any evidence of the negligence or due care of either party, at the trial of any action at law to recover damages.

### ARTICLE IV—PROOF OF FINANCIAL RESPONSIBILITY FOR THE FUTURE

#### Courts to Report Non-Payment of Judgments and Convictions

Sec. 12. (a) Whenever any person fails within sixty (60) days to satisfy any judgment, upon the written request of the judgment creditor or his attorney it shall be the duty of the clerk of the court, or of the judge of a court which has no clerk, in which any such judgment is rendered within this State, to forward to the Department immediately after the expiration of said sixty (60) days, a certified copy of such judgment.

(b) If the defendant named in any certified copy of a judgment reported to the Department is a non-resident, the Department shall transmit a certified copy of the judgment to the official in charge of the issuance of licenses and registration certificates of the State of which the defendant is a resident.

(c) The clerk of the court, or the judge of a court which has no clerk, in which any conviction for violation of a motor vehicle law is ren-

dered, or in which a person charged with violation of a motor vehicle law has pleaded guilty or forfeited bail, shall forward immediately to the Department a certified copy of the judgment, order or record of other action of the court. This copy shall be prima-facie evidence of the conviction, plea or other action stated.

**Suspension for Non-Payment of Judgments; Exceptions; Filing Evidence of Insurance and Original Policy**

Sec. 13. (a) Upon the receipt of a certified copy of a judgment, the Department shall forthwith suspend the license and all registrations and any nonresident's operating privilege of any person against whom such judgment was rendered, except as hereinafter otherwise provided in this Section and in Section 16 of this Act.

(b) If the judgment creditor consents in writing, in such form as the Department may prescribe, that the judgment debtor be allowed license and registration or nonresident's operating privilege, the same may be allowed by the Department, in its discretion, for six (6) months from the date of such consent and thereafter until such consent is revoked in writing, notwithstanding default in the payment of such judgment, or of any installments thereof prescribed in Section 16, provided the judgment debtor furnishes proof of financial responsibility.

(c) Notwithstanding any other provision of this Act any person whose license, registration or nonresident's operating privilege has been suspended, or is about to be suspended or shall become subject to suspension under this Article, may relieve himself from the effect of the judgment by filing with the Department satisfactory evidence that there was in effect at the time of the accident out of which the judgment arose a policy of liability insurance covering the operation of the motor vehicle involved and filing with the Department an affidavit stating that at the time of the accident upon which the judgment has been rendered he was insured, that the insurer is liable to pay such judgment, and the reason, if known, why the insurance company has not paid the judgment. He shall also file the original policy of insurance or a certified copy thereof, if available, and such other documents as the Department may require to show that the loss, injury, or damage for which the judgment was rendered, was covered by the policy of insurance.

If the Department is satisfied from such papers that the insurer was authorized to issue the policy of insurance in this State at the time of issuing the policy and that such insurer is liable to pay such judgment, at least to the extent and for the amounts provided in this Article, the Department shall not suspend the license, registration or nonresident's operating privilege, or if already suspended, shall reinstate them.

Any person whose license, registration or nonresident's operating privilege has heretofore been suspended under the provisions of

this Article may take advantage of this Section.

**Suspension to Continue Until Judgments Paid and Proof Given**

Sec. 14. (a) Such license, registration and non-resident's operating privilege shall remain so suspended and shall not be renewed, nor shall any such license or registration be thereafter issued in the name of such person, including any such person not previously licensed, unless and until every such judgment is stayed, satisfied in full or to the extent hereinafter provided and until the said person gives proof of financial responsibility subject to the exemptions stated in Sections 13 and 16 of this Act.

(b) A discharge in bankruptcy following the rendering of any such judgment shall not relieve the judgment debtor from any of the requirements of this Article.

**Payments Sufficient to Satisfy Requirements**

Sec. 15. Judgments herein referred to shall, for the purpose of this Act only, be deemed satisfied:

1. When Ten Thousand Dollars (\$10,000) has been credited upon any judgment or judgments rendered in excess of that amount because of bodily injury to or death of one person as the result of any one accident;

2. When, subject to such limit of Ten Thousand Dollars (\$10,000) because of bodily injury to or death of one person, the sum of Twenty Thousand Dollars (\$20,000) has been credited upon any judgment or judgments rendered in excess of that amount because of bodily injury to or death of two (2) or more persons as the result of any one accident; or

3. When Five Thousand Dollars (\$5,000) has been credited upon any judgment or judgments rendered in excess of that amount because of injury to or destruction of property of others as a result of any one accident;

Provided, however, payments made in settlement of any claims because of bodily injury, death or property damage arising from a motor vehicle accident shall be credited in reduction of the amounts provided for in this Section.

**Installment Payment of Judgments—Default**

Sec. 16. (a) A judgment debtor upon due notice to the judgment creditor may apply to the court in which such judgment was rendered for the privilege of paying such judgment in installments and the court, in its discretion and without prejudice to any other legal remedies which the judgment creditor may have, may so order and fix the amounts and times of payment of the installments.

(b) The Department shall not suspend a license, registration or a non-resident's operating privilege, and shall restore any license, registration or non-resident's operating privi-

lege suspended following non-payment of a judgment, when the judgment debtor gives proof of financial responsibility and obtains such an order permitting the payment of such judgment in installments, and while the payment of any said installment is not in default.

(c) In the event the judgment debtor fails to pay any installment as specified by such order, then upon notice of such default, the Department shall forthwith suspend the license, registration or non-resident's operating privilege of the judgment debtor until such judgment is satisfied, as provided in this Act.

**Suspension of Registration for All Vehicles; Duration; Subsequent Proof of Financial Responsibility**

Sec. 17. (a) Whenever the Department, under any law of this State, suspends or revokes the license of any person upon receiving record of a conviction or a forfeiture of bail, the Department shall also suspend the registrations for all motor vehicles registered in the name of such person, and whenever the Department shall receive record of a plea of guilty to any offense the conviction for which the Department is required to suspend or revoke the license of any person, the Department shall immediately suspend the registrations for all motor vehicles registered in the name of such person, except that the Department shall not suspend any such registrations, unless otherwise required by law, if such person has previously given or shall immediately give and thereafter maintain proof of financial responsibility with respect to all motor vehicles registered by such person.

(b) Whenever the Department under any law of this State, suspends or revokes the license of any person upon receiving record of a conviction or suspends the registrations of any person upon receiving record of a plea of guilty, and such person was not the owner of the motor vehicle used at the time of the violation resulting in the conviction or the plea of guilty, the Department shall also suspend the license and all registrations in the name of the owner of the motor vehicle so used, if such vehicle was operated with such owner's permission or consent at the time of the violation unless such owner has previously given or shall immediately give and thereafter maintain proof of financial responsibility with respect to all motor vehicles registered by any such person.

(c) Licenses and registrations suspended or revoked under this Section shall remain suspended or revoked and shall not at any time thereafter be renewed nor shall any license be thereafter issued to such person, nor shall any motor vehicle be thereafter registered in the name of such person until permitted under the Motor Vehicle Laws of this State and not then unless and until he shall give and thereafter maintain proof of financial responsibility.

(d) If a person is not licensed but by final order or judgment is convicted of or forfeits any bail or collateral deposited to secure an appearance for trial for (or pleads guilty to

any such offense) any offense requiring the suspension or revocation of license, or for operating a motor vehicle upon the highways without being licensed to do so, or for operating an unregistered motor vehicle upon the highways, no license shall thereafter be issued to such person and no motor vehicle shall continue to be registered or thereafter be registered in the name of such person until he shall give and thereafter maintain proof of financial responsibility.

(e) Whenever the Department suspends or revokes a nonresident's operating privilege by reason of a conviction, forfeiture of bail or a plea of guilty, such privilege shall remain so suspended or revoked unless such person shall have previously given or shall immediately give and thereafter maintain proof of financial responsibility.

**Alternate Methods of Giving Proof**

Sec. 18. Proof of financial responsibility when required under this Act with respect to a motor vehicle or with respect to a person who is not the owner of a motor vehicle may be given by filing:

1. A certificate of insurance as provided in Section 19 or Section 20; or
2. A bond as provided in Section 24; or
3. A certificate of deposit of money or securities as provided in Section 25; or
4. A certificate of self-insurance, as provided in Section 34, supplemented by an agreement by the self-insurer that, with respect to accidents occurring while the certificate is in force, he will pay the same judgments and in the same amounts that an insurer would have been obligated to pay under an owner's motor vehicle liability policy if it had issued such a policy to said self-insurer.

No motor vehicle shall be or continue to be registered in the name of any person required to file proof of financial responsibility unless such proof shall be furnished for such motor vehicle.

**Certificate of Insurance as Proof**

Sec. 19. (a) Proof of financial responsibility may be furnished by filing with the Department the written certificate of any insurance company duly authorized to write motor vehicle liability insurance in this State certifying that there is in effect a motor vehicle liability policy for the benefit of the person required to furnish proof of financial responsibility. Such certificate shall give the effective date of such motor vehicle liability policy, which date shall be the same as the effective date of the certificate, and shall designate by explicit description or by appropriate reference all motor vehicles covered thereby, unless the policy is issued to a person who is not the owner of a motor vehicle.

(b) No motor vehicle shall be or continue to be registered in the name of any person re-

quired to file proof of financial responsibility unless such motor vehicle is so designated in such a certificate.

**Certificate Furnished by Non-Resident as Proof**

Sec. 20. (a) The non-resident owner of a motor vehicle not registered in this State may give proof of financial responsibility by filing with the Department a written certificate or certificates of an insurance company authorized to transact business in the state in which the motor vehicle or motor vehicles described in such certificate are registered, or if such non-resident does not own a motor vehicle, then in the state in which the insured resides, provided such certificate otherwise conforms to the provisions of this Act, and the Department shall accept the same upon condition that said insurance company complies with the following provisions with respect to the policies so certified:

1. Said insurance company shall execute a power of attorney authorizing the Department to accept service on its behalf of notice or process in any action arising out of a motor vehicle accident in this State;

2. Said insurance company shall agree in writing that such policies shall be deemed to conform with the laws of this State relating to the terms of motor vehicle liability policies issued herein.

(b) If any insurance company not authorized to transact business in this State, which has qualified to furnish proof of financial responsibility, defaults in any said undertakings or agreements, the Department shall not thereafter accept as proof any certificate of said company whether theretofore filed or thereafter tendered as proof, so long as such default continues.

**Motor Vehicle Liability Policy Defined**

Sec. 21. (a) A "motor vehicle liability policy" as said term is used in this Act shall mean an owner's or an operator's policy of liability insurance, certified as provided in Section 19 or Section 20 as proof of financial responsibility, and issued, except as otherwise provided in Section 20, by an insurance company duly authorized to write motor vehicle liability insurance in this State, to or for the benefit of the person named therein as insured.

(b) Such owner's policy of liability insurance:

1. Shall designate by explicit description or by appropriate reference all motor vehicles with respect to which coverage is thereby to be granted; and

2. Shall pay on behalf of the insured named therein and any other person, as insured, using any such motor vehicle or motor vehicles with the express or implied permission of such named insured, all sums which the insured shall become legally obligated to pay as damages arising

out of the ownership, maintenance or use of such motor vehicle or motor vehicles within the United States of America or the Dominion of Canada, subject to limits exclusive of interest and costs, with respect to each such motor vehicle, as follows: Ten Thousand Dollars (\$10,000) because of bodily injury to or death of one person in any one accident and, subject to said limit for one person, Twenty Thousand Dollars (\$20,000) because of bodily injury to or death of two (2) or more persons in any one accident, and Five Thousand Dollars (\$5,000) because of injury to or destruction of property of others in any one accident. The policy may exclude coverage of the first Two Hundred Fifty Dollars (\$250) of liability for bodily injury to or death of any one person in any one accident, and, subject to that exclusion for one person, may exclude coverage for the first Five Hundred Dollars (\$500) of liability for the bodily injury to or death of two (2) or more persons in any one accident and may exclude coverage for the first Two Hundred Fifty Dollars (\$250) of liability for the injury to or destruction of property of others in any one accident.

(c) Such operator's policy of liability insurance shall pay on behalf of the insured named therein all sums which the insured shall become legally obligated to pay as damages arising out of the use by him of any motor vehicle not owned by him, within the same territorial limits and subject to the same limits of liability as are set forth above with respect to an owner's policy of liability insurance.

(d) Such motor vehicle liability policy shall state the name and address of the named insured, the coverage afforded by the policy, the premium charged therefor, the policy period and the limits of liability, and shall contain an agreement or be endorsed that insurance is provided thereunder in accordance with the coverage defined in this Act as respects bodily injury and death or property damage, or both, and is subject to all the provisions of this Act.

(e) Such motor vehicle liability policy shall not insure:

1. Any obligation for which the insured or any company as his insurer may be held liable under any workmen's compensation law;

2. Any liability on account of bodily injury to or death of any employee of the insured while engaged in the employment, other than domestic, of the insured, or in domestic employment if benefits therefor are either payable or required to be provided under any workmen's compensation law; nor

3. Any liability because of injury to or destruction of property owned by, rented to, in charge of or transported by the insured.

(f) Every motor vehicle liability policy shall be subject to the following provisions which need not be contained therein:

1. The liability of the insurance company with respect to the insurance required by this Act shall become absolute whenever injury or damage covered by said motor vehicle liability policy occurs; said policy may not be canceled or annulled as to such liability by any agreement between the insurance company and the insured after the occurrence of the injury or damage; no statement made by the insured or on his behalf and no violation of said policy shall defeat or void said policy;

2. The satisfaction by the insured of a judgment for such injury or damage shall not be a condition precedent to the right or duty of the insurance company to make payment on account of such injury or damage;

3. The insurance company shall have the right to settle any claim covered by the policy, and if such settlement is made in good faith, the amount thereof shall be deductible from the limits of liability specified in Subdivision 2 of Subsection (b) of this Section;

4. The policy, the written application therefor, if any, and any rider or endorsement which does not conflict with the provisions of the Act shall constitute the entire contract between the parties.

(g) Any policy which grants the coverage required for a motor vehicle liability policy may also grant any lawful coverage in excess of or in addition to the coverage specified for a motor vehicle liability policy and such excess or additional coverage shall not be subject to the provisions of this Act. With respect to a policy which grants such excess or additional coverage the term "motor vehicle liability policy" shall apply only to that part of the coverage which is required by this Section.

(h) Any motor vehicle liability policy may provide that the insured shall reimburse the insurance company for any payment the insurance company would not have been obligated to make under the terms of the policy except for the provisions of this Act.

(i) Any motor vehicle liability policy may provide for the prorating of the insurance thereunder with other valid and collectible insurance.

(j) The requirements for a motor vehicle liability policy may be fulfilled by the policies of one (1) or more insurance companies which policies together meet such requirements.

(k) Any binder issued pending the issuance of a motor vehicle liability policy shall be deemed to fulfill the requirements for such a policy.

#### Notice of Cancellation or Termination of Certified Policy

Sec. 22. When an insurance company has certified a motor vehicle liability policy under

Section 19 or a policy under Section 20, the insurance so certified shall not be canceled or terminated until at least five (5) days after a notice of cancellation or termination of the insurance so certified shall be received in the office of the Department, except that such a policy subsequently procured and certified shall, on the effective date of its certification, terminate the insurance previously certified with respect to any motor vehicle designated in both certificates.

#### Act Not to Affect Other Policies

Sec. 23. (a) This Act shall not be held to apply or to affect policies of motor vehicle insurance against liability which may now or hereafter be required by any other law of this State, and such policies, if they contain an agreement or are endorsed to conform to the requirements of this Act, may be certified as proof of financial responsibility under this Act.

(b) This Act shall not be held to apply to or affect policies insuring solely the insured named in the policy against liability resulting from the maintenance or use by persons in the insured's employ or on his behalf of motor vehicles not owned by the insured.

#### Bond as Proof

Sec. 24. (a) Proof of financial responsibility may be furnished by filing a bond with the Department, accompanied by the statutory recording fee of the County Clerk to cover the cost of recordation of the notice provided for herein, and with at least two (2) individual sureties each owning real estate within this State, not exempt under the Constitution or laws of the State of Texas, and together having equities equal in value to at least twice the amount of such bond. Such real estate shall be scheduled in the bond approved by a judge of a court of record, and shall be certified by the tax assessor and collector of the county where the property is situated as being free from any tax liens. Such bond shall be conditioned for payments in amounts and under the same circumstances as would be required in a motor vehicle liability policy, and shall not be cancelable except after five (5) days written notice is received by the Department, but cancellation shall not prevent recovery with respect to any right or cause of action arising prior to the date of cancellation. Such bond shall constitute a lien in favor of the State upon the real estate so scheduled of any surety, which lien shall exist in favor of any holder of a final judgment against the person who has filed such bond. Notice to that effect, which shall include a description of the real estate scheduled in the bond, shall be filed by the Department in the office of the County Clerk of the county where such real estate is situated. Such notice shall be accompanied by the statutory fee for the services of the County Clerk in connection with the recordation of such notice, and the County Clerk or his deputy, upon receipt of such notice, shall acknowledge and

cause the same to be recorded in the lien records. Recordation shall constitute notice as provided by the statutes governing the recordation of liens on real estate.

(b) If a judgment, rendered against the principal on such real estate bond, shall not be satisfied within sixty (60) days after it has become final, the judgment creditor may, for his own use and benefit and at his sole expense, bring an action or actions in the name of the State against the persons who executed such bond, including an action or proceeding to foreclose any lien that may exist upon the real estate of a person who has executed such bond, which foreclosure action shall be brought in like manner and subject to all the provisions of law applicable to an action to foreclose a mortgage on real estate.

#### Money or Securities as Proof

Sec. 25. (a) Proof of financial responsibility may be evidenced by the certificate of the State Treasurer that the person named therein has deposited with him Twenty-five Thousand Dollars (\$25,000) in cash, or securities such as may legally be purchased by savings banks or for trust funds of a market value of Twenty-five Thousand Dollars (\$25,000). The State Treasurer shall not accept any such deposit and issue a certificate therefor and the Department shall not accept such certificate, unless accompanied by evidence that there are no unsatisfied judgments of any character against the depositor in the county where the depositor resides.

(b) Such deposit shall be held by the State Treasurer to satisfy, in accordance with the provisions of this Act, any execution on a judgment issued against such person making the deposit, for damages, including damages for care and loss of services, because of bodily injury to or death of any person, or for damages because of injury to or destruction of property, including the loss of use thereof, resulting from the ownership, maintenance, use or operation of a motor vehicle after such deposit was made. Money or securities so deposited shall not be subject to attachment or execution unless such attachment or execution shall arise out of a suit for damages as aforesaid.

#### Owner May Give Proof for Others

Sec. 26. Whenever any person required to give proof of financial responsibility hereunder is or later becomes an operator in the employ of any owner, or is or later becomes a member of the immediate family or household of the owner, the Department shall accept proof given by such owner in lieu of proof by such other person to permit such other person to operate a motor vehicle for which the owner has given proof as herein provided. The Department shall designate the restrictions imposed by this Section on the face of such person's license.

#### Substitution of Proof

Sec. 27. The Department shall consent to the cancellation of any bond or certificate of

insurance or the Department shall direct and the State Treasurer shall return any money or securities to the person entitled thereto upon the substitution and acceptance of other adequate proof of financial responsibility pursuant to this Act.

#### Other Proof May be Required

Sec. 28. Whenever any proof of financial responsibility filed under the provisions of this Act no longer fulfills the purposes for which required, the Department shall for the purpose of this Act, require other proof as required by this Act and shall suspend the license and all registrations or any nonresident's operating privilege pending the filing of such other proof.

#### Duration of Proof—When Proof May be Cancelled or Returned

Sec. 29. The Department shall upon request consent to the immediate cancellation of any bond or certificate of insurance, or the Department shall direct and the State Treasurer shall return to the person entitled thereto any money or securities deposited pursuant to this Act as proof of financial responsibility, or the Department shall waive the requirement of filing proof, in any of the following events:

1. At any time after five (5) years from the date such proof was required when, during the five-year period preceding the request, the Department has not received record of a conviction or a forfeiture of bail which would require or permit the suspension or revocation of the license, registration or nonresident's operating privilege of the person by or for whom such proof was furnished; or

2. In the event of the death of the person on whose behalf such proof was filed or the permanent incapacity of such person to operate a motor vehicle; or

3. In the event the person who has given proof surrenders his license and registration to the Department;

Provided, however, that the Department shall not consent to the cancellation of any bond or the return of any money or securities in the event any action for damages upon a liability covered by such proof is then pending or any judgment upon any such liability is then unsatisfied, or in the event the person who has filed such bond or deposited such money or securities has, within two (2) years immediately preceding such request, been involved as an operator or owner in any motor vehicle accident resulting in injury or damage to the person or property of others. An affidavit of the applicant as to the nonexistence of such facts, or that he has been released from all of his liability, or has been finally adjudicated not to be liable, for such injury or damage, shall be sufficient evidence thereof in the absence of evidence to the contrary in the records of the Department.

Whenever any person whose proof has been cancelled or returned under Subdivision 3 of this Section applies for a license or registration within a period of five (5) years from the date proof was originally required, any such application shall be refused unless the applicant shall re-establish such proof for the remainder of such five-year period.

#### ARTICLE V—VIOLATION OF PROVISIONS OF ACT—PENALTIES

##### Transfer of Registration to Defeat Purpose of Act Prohibited

Sec. 30. If an owner's registration has been suspended hereunder, such registration shall not be transferred nor the motor vehicle in respect of which such registration was issued registered in any other name until the Department is satisfied that such transfer of registration is proposed in good faith and not for the purpose or with the effect of defeating the purposes of this Act. Nothing in this Section shall in any wise affect the rights of any conditional vendor, chattel mortgagee or lessor of a motor vehicle registered in the name of another as owner who becomes subject to the provisions of this Section.

##### Surrender of License and Registration

Sec. 31. Any person whose license or registration shall have been suspended as herein provided, or whose policy of insurance or bond, when required under this Act, shall have been cancelled or terminated or who shall neglect to furnish other proof upon request of the Department, shall return his license and registration to the Department within ten (10) days after receiving notice from the Department in writing, either by personal delivery thereof to the person to be so notified or by deposit in the United States mail of such notice in an envelope with postage prepaid, addressed to such person at the last address supplied to the Department by the licensee, which notice shall be presumed to be complete upon the expiration of nine (9) days after such is deposited in the United States mail. If any person shall fail to return to the Department the license or registration as provided herein, the Department shall forthwith direct any employee of the Department to secure possession thereof and to return the same to the Department. The Director of the Department of Public Safety, or a person designated by him, may file a complaint in any court of competent jurisdiction under Subsection (d) of Section 32 against any person whom he has reason to believe has wilfully failed to return license or registration as required herein. Proof of the giving of notice in either such manner as hereinabove set out may be made by the certificate of any employee of the Department that such notice was prepared in the regular course of business and placed in the United States mail as a part of the regular organized activity of the Department, or, if given in person, by certificate of the employee

of the Department, naming the person to whom such notice was given and specifying the time, place and manner of the giving thereof.

##### Other Violations—Penalties

Sec. 32. (a) Failure to report an accident as required in Section 4 shall be punished by a fine not in excess of Twenty-five Dollars (\$25), and in the event of injury or damage to the person or property of another in such accident, the Department shall suspend the license of the person failing to make such report, or the non-resident's operating privilege of such person, until such report has been filed and for such further period not to exceed thirty (30) days as the Department may fix.

(b) Any person who gives information required in a report or otherwise as provided for in Section 4, knowing or having reason to believe that such information is false, or who shall forge or, without authority, sign any evidence of proof of financial responsibility, or who files or offers for filing any such evidence of proof knowing or having reason to believe that it is forged or signed without authority, shall be fined not more than One Thousand Dollars (\$1,000) or imprisoned for not more than one year, or both.

(c) Any person whose license or registration or non-resident's operating privilege has been suspended or revoked under this Act and who, during such suspension or revocation drives any motor vehicle upon any highway or knowingly permits any motor vehicle owned by such person to be operated by another upon any highway, except as permitted under this Act, shall be fined not more than Five Hundred Dollars (\$500) or imprisoned not exceeding six (6) months, or both.

(d) Any person wilfully failing to return license or registration as required in Section 31 shall be fined not more than Two Hundred Dollars (\$200).

(e) Any person who shall violate any provision of this Act for which no penalty is otherwise provided shall be fined not more than Five Hundred Dollars (\$500) or imprisoned not more than ninety (90) days, or both.

(f) Any person who is required to maintain proof of financial responsibility under this Act and who, during the period financial responsibility is required to be maintained, drives any motor vehicle owned by him upon any highway or knowingly permits any motor vehicle owned by him to be operated by another upon any highway, except as permitted under this Act, when proof of financial responsibility is not in force, shall be fined not more than Five Hundred Dollars (\$500) or imprisoned not exceeding six (6) months, or both.

(g) Any case now or hereafter pending on the docket of any court involving prosecution under any provision of this Act shall be given precedence on the docket of such court and prosecution shall proceed with all due diligence.

## ARTICLE VI—GENERAL PROVISIONS

## Exceptions

Sec. 33. This Act shall not apply with respect to any motor vehicle owned by the United States, the State of Texas or any political subdivision of this state, or any municipality therein except as provided in Section 35, nor to the officers, agents or employees of the United States, the State of Texas, or any political subdivision of the state, while driving said vehicle in the course of their employment; provided, however, that the operator of every motor vehicle specified herein shall comply with the provisions of Section 4 of this Act; nor, except for Sections 4 and 26 of this Act, with respect to any motor vehicle which is subject to the requirements of Articles 911a (Sec. 11) and 911b (Sec. 13) of the Revised Civil Statutes of Texas; provided, however, that nothing in this Act shall be construed so as to exclude from this Act its applicability to taxicabs, jitneys, or other vehicles for hire, operating under franchise or permit of any incorporated city, town or village.

## Self-Insurers

Sec. 34. (a) Any person in whose name more than 25 motor vehicles are registered may qualify as a self-insurer by obtaining a certificate of self-insurance issued by the Department as provided in Subsection (b) of this Section.

(b) The Department may, in its discretion, upon the application of a person, issue a certificate of self-insurance when it is satisfied that such person is possessed and will continue to be possessed of ability to pay judgments obtained against such person.

(c) Upon not less than five (5) days notice and a hearing pursuant to such notice, the Department may upon reasonable grounds cancel a certificate of self-insurance. Failure to pay any judgment within thirty (30) days after such judgment shall have become final shall constitute a reasonable ground for the cancellation of a certificate of self-insurance.

## Assigned Risk Plan

Sec. 35. Subject to the provisions of Article 5.10, Texas Insurance Code of 1951, as amended, insurance companies authorized to issue motor vehicle liability policies in this state may establish an administrative agency and make necessary reasonable rules in connection therewith, relative to the formation of a plan and procedure to provide a means by which insurance may be assigned to an authorized insurance company for a person required by this Act to show proof of financial responsibility for the future and who is in good faith entitled to motor vehicle liability insurance in this state but is unable to secure it through ordinary methods; or, in amounts not to exceed the limits prescribed in Section 21(b)2 of this law, for any unit of government within the State of Texas which, acting in good faith, is unable to secure motor vehicle liability insur-

ance in this state through ordinary methods; and may establish a plan and procedure for the equitable apportionment among such authorized companies of applicants for such policies and for motor vehicle liability policies, including, but not limited to, voluntary agreements by insurance companies to accept such assignments. When any such plan has been approved by the State Board of Insurance, all insurance companies authorized to issue motor vehicle liability policies in the State of Texas shall subscribe thereto and participate therein.

The State Board of Insurance, in addition to the provisions prescribed by Subchapter A, Chapter 5, Texas Insurance Code of 1951, as amended, may determine, fix, prescribe, promulgate, change, and amend rates or minimum premiums normally applicable to a risk so as to apply to any and every assignment such rates and minimum premiums as are commensurate with the greater hazard of the risk, considering in connection therewith the experience, physical or other conditions of such risk of the person or municipality applying for insurance under any such plan.

## Disposition of Fees

Sec. 36. All fees and charges required by this Act shall be remitted without deduction to the Department at Austin, Texas, and all such fees so collected shall be deposited in the Treasury of the State of Texas to the credit of the Operator's and Chauffeur's License Fund established under Article 6687b, Texas Revised Civil Statutes. In addition to statutory recording fees of county clerks required in Section 24, any filing with, certification or notice to the Department in compliance with any of the provisions of this Act, or request for certified abstract of operating record required in Section 3, except report of accident required in Section 4, shall be accompanied by a fee of Five Dollars (\$5) for each transaction. Statutory fees required by the State Highway Department in furnishing certified abstracts or in connection with suspension of registrations, or such statutory fees which shall become due the State Treasurer for issuance of certificates of deposits required in Section 25, shall be remitted from such Fund.

## Appropriation

Sec. 37. There is hereby appropriated out of the Operator's and Chauffeur's License Fund such money as may be necessary for the purpose of defraying the expenses of this Act through the biennium ending August 31, 1953, not to exceed the sum of Three Hundred Thousand Dollars (\$300,000) for the fiscal year ending August 31, 1952 and not to exceed the sum of Two Hundred Thousand Dollars (\$200,000) for the fiscal year ending August 31, 1953. So much money as is necessary to administer this Act shall be used for the employment of necessary clerical and administrative help and for defraying the necessary expenses incident to travel, rental and any judicial hearings relative to court review, and including printing of

all necessary forms required by this Act, and including the purchase through bids taken by the Board of Control of all necessary furniture, fixtures and equipment of any nature; provided the number of employees and the salaries of each shall be consistent with the number of employees and the salaries of each as fixed by the Legislature in the Biennial Departmental Appropriation Bill for like service. (2) The words "brake fluid" and the designation "heavy duty";

(3) An accurate statement of the net contents in terms of liquid measure.

#### Standards and Specifications

Sec. 4. The Department of Public Safety of the State of Texas, hereinafter called the Department, is hereby directed, after public hearing held not more than thirty (30) nor less than fifteen (15) days after the publication in a newspaper of general circulation in this state of notice of the time, place and purpose of such hearing, to adopt rules and regulations establishing such minimum standards and specifications for brake fluids as will promote the public safety in the operation of motor vehicles in this state. Any rules and regulations adopted hereunder may be amended after notice and hearing as herein provided.

#### Approval

Sec. 5. Any manufacturer, packer or distributor, or their agents or representatives, desiring to market any brake fluid in the State of Texas shall first furnish to the Department such sample of the fluid as it may require for testing purposes, and contemporaneously, pay a filing fee of Fifty Dollars (\$50.00) and present in writing to the Department an application

(1) Accidents and deaths on their streets and highways present a very serious human and economic problem with a major deleterious effect on the public welfare.

(2) There is a vital need for the development of greater interjurisdictional cooperation to achieve the necessary uniformity in the laws, rules, regulations and codes relating to vehicle equipment, and to accomplish this by such means as will minimize the time between the development of demonstrably and scientifically sound safety features and their incorporation into vehicles.

(b) The purposes of this compact are to:

(3) To provide means for the encouragement and utilization of research which will facilitate the achievement of the foregoing purposes, with due regard for the findings set forth in subdivision (a) of this Article.

(c) It is the intent of this compact to emphasize performance requirements and not to determine the specific detail of engineering in the manufacture of vehicles or equipment except to the extent necessary for the meeting of such performance requirements.

##### ARTICLE II. DEFINITIONS

(f) The commission may establish and maintain independently or in conjunction with any one or more of the party states, a suitable retirement system for its full time employees. Employees of the commission shall be eligible for social security coverage in respect of old age and survivor's insurance provided that the commission takes such steps as may be necessary pursuant to the laws of the United States, to participate in such program of insurance as a governmental agency or unit. The commission may establish and maintain or participate in such additional program of employee benefits as may be appropriate.

(g) The commission may borrow, accept or contract for the services of personnel from any party state, the United States, or any subdivision or agency of the aforementioned governments, or from any agency of two or more of the party states or their subdivision.

(h) The commission may accept for any of its purposes and functions under this compact any and all donations, and grants of money, equipment, supplies, materials, and services, conditional or otherwise, from any state, the United States, or any other governmental agency and may receive, utilize and dispose of the same.

(d) Recommend to the party states changes in law or policy with emphasis on uniformity of laws and administrative rules, regulations or codes which would promote effective governmental action or coordination in the prevention of equip-

ment-related highway accidents or the mitigation of equipment-related highway safety problems.

#### ARTICLE V. VEHICULAR EQUIPMENT

(a) In the interest of vehicular and public safety, the commission may study the need for or desirability of the establishment of or changes in performance requirements of restrictions for any item of equipment. As a result of such study, the commission may publish a report relating to any item or items of equipment, and the issuance of such a report shall be a condition precedent to any proceedings or other action provided or authorized by this Article. No less than sixty days after the publication of a report containing the results of such study, the commission upon due notice shall hold a hearing or hearings at such place or places as it may determine.

(b) Following the hearing or hearings provided for in subdivision (a) of this Article, and with due regard for standards recommended by appropriate professional and technical associations and agencies, the commission may issue rules, regulations or codes embodying performance requirements or restrictions for any item or items of equipment covered in the report, which in the opinion of the commission will be fair and equitable and effectuate the purposes of this compact.

(d) The commission shall send prompt notice of its action in issuing any rule, regulation or code pursuant to this Article to the appropriate motor vehicle agency of each party state and such notice shall contain the complete text of the rule, regulation or code.

(e) If the constitution of a party state requires, or its Statutes provide, the approval of the Legislature by appropriate resolution or act may be made a condition precedent to the taking effect in such party state of any rule, regulation or code. In such event, the commissioner of such party state shall submit any commission rule, regulation or code to the Legislature as promptly as may be in lieu of administrative acceptance or rejection thereof by the party state.

(f) Except as otherwise specifically provided in or pursuant to subdivisions (e) and (g) of this Article, the appropriate motor vehicle agency of a party state shall in accordance with its constitution or procedural laws adopt the rule, regulation or code within six months of the sending of the notice, and, upon such adoption, the rule, regulation or code shall have the force and effect of law therein.

(g) The appropriate motor vehicle agency of a party state may decline to adopt a rule, regulation or code issued by the commission pursu-

ant to this Article if such agency specifically finds, after public hearing on due notice, that a variation from the commission's rule, regulation or code is necessary to the public safety, and incorporates in such finding the reasons upon which it is based. Any such finding shall be subject to review by such procedure for review of administrative determinations as may be applicable pursuant to the laws of the party state. Upon request, the commission shall be furnished with a copy of the transcript of any hearings held pursuant to this subdivision.

#### ARTICLE VI. FINANCE

(a) The commission shall submit to the executive head or designated officer or officers of each party state a budget of its estimated expenditures for such period as may be required by the laws of that party state for presentation to the Legislature thereof.

(b) Each of the commission's budgets of estimated expenditures shall contain specific recommendations of the amount or amounts to be appropriated by each of the party states. The total amount of appropriations under any such budget shall be apportioned among the party states as follows: one-third in equal shares, and the remainder in proportion to the number of motor vehicles registered in each party state. In determining the number of such registrations, the commission may employ such source or sources of information as, in its judgment present the most equitable and accurate comparisons among the party states. Each of the commission's budgets of estimated expenditures and requests for appropriations shall indicate the source or sources used in obtaining information concerning vehicular registrations.

(c) The commission shall not pledge the credit of any party state. The commission may meet any of its obligations in whole or in part with funds available to it under Article III(h) of this compact, provided that the commission takes specific action setting aside such funds prior to incurring any obligation to be met in whole or in part in such manner. Except where the commission makes use of funds available to it under Article III(h) hereof, the commission shall not incur any obligation prior to the allotment of funds by the party states adequate to meet the same.

(d) The commission shall keep accurate accounts of all receipts and disbursements. The receipts and disbursements of the commission shall be subject to the audit and accounting procedures established under its rules. However, all receipts and disbursements of funds handled by the commission shall be audited yearly by a qualified public accountant and the report of the audit shall be included in and become a part of the annual reports of the commission.

(e) The accounts of the commission shall be open at any reasonable time for inspection by

duly constituted officers of the party states and by any persons authorized by the commission.

(f) Nothing contained herein shall be construed to prevent commission compliance with laws relating to audit or inspection of accounts by or on behalf of any government contributing to the support of the commission.

#### ARTICLE VII. CONFLICT OF INTEREST

(a) The commission shall adopt rules and regulations with respect to conflict of interest for the commissioners of the party states, and their alternates, if any, and for the staff of the commission and contractors with the commission to the end that no member or employee or contractor shall have a pecuniary or other incompatible interest in the manufacture, sale or distribution of motor vehicles or vehicular equipment or in any facility or enterprise employed by the commission, or in its behalf, for testing, conduct of investigations or research. In addition to any penalty for violation of such rules and regulations as may be applicable under the laws of the violator's jurisdiction of residence, employment or business, any violation of a commission rule or regulation adopted pursuant to this Article shall require the immediate discharge of any violating employee and the immediate vacating of membership, or relinquishing of status as a member on the commission by any commissioner or alternate. In the case of a contractor, any violation of any such rule or regulation shall make any contract of the violator with the commission subject to cancellation by the commission.

(b) Nothing contained in this Article shall be deemed to prevent a contractor for the commission from using any facilities subject to his control in the performance of the contract even though such facilities are not devoted solely to work of or done on behalf of the commission; nor to prevent such a contractor from receiving remuneration or profit from the use of such facilities.

#### ARTICLE VIII. ADVISORY AND TECHNICAL COMMITTEES

(a) This compact shall enter into force when enacted into law by any six or more states. Thereafter, this compact shall become effective as to any other state upon its enactment thereof.

(b) Any party state may withdraw from this compact by enacting a Statute repealing the

same, but no such withdrawal shall take effect until one year after the executive head of the withdrawing state has given notice in writing of the withdrawal to the executive heads of all other party states. No withdrawal shall affect any liability already incurred by or chargeable to a party state prior to the time of such withdrawal.

#### ARTICLE X. CONSTRUCTION AND SEVERABILITY

This compact shall be liberally construed so as to effectuate the purposes thereof. The provisions of this compact shall be severable and if any phrase, clause, sentence or provision of this compact is declared to be contrary to the Constitution of any state or of the United States or the applicability thereof to any government, agency, person or circumstance is held invalid, the validity of the remainder of this compact and the applicability thereof to any government, agency, person, or circumstance shall not be affected thereby. If this compact shall be held contrary to the constitution of any state participating herein, the compact shall remain in full force and effect as to the remaining party states and in full force and effect as to the state affected as to all severable matters.

Any such minor placed on probation shall be under the supervision of such court.

Sec. 4. Nothing contained in this Act shall be construed to repeal or affect any other Statutes regulating the powers and duties of Juvenile Courts; the provisions of this Act shall be cumulative with all other Acts on this subject.

Sec. 5. If any clause, sentence, section or portion of this Act shall be held invalid or unconstitutional, such holding shall not affect

No such minor shall be convicted of such an offense or fined as provided in this Act except in the presence of one or both parents or guardians having legal custody of the minor. The court shall cause one or both parents or guardians to be summoned to appear in court and shall require one or both of them to be present during all proceedings in the case. However, the court may waive the requirement of the presence of parents or guardians in any case in which, after diligent effort, the court is unable to locate them or to compel their presence.

Sec. 2. No such minor, after conviction or plea of guilty and imposition of fine, shall be committed to any jail in default of payment of the fine imposed, but the court imposing such fine shall have power to suspend and take possession of such minor's driving license and retain the same until such fine has been paid.

Sec. 3. If any such minor shall drive any motor vehicle upon any public road or highway in this state or upon any street or alley within the limits of any corporate city, town or village, or upon any beach as defined in Chapter 430, Acts of the 51st Legislature, 1949, without having a valid driver's license authorizing such

driving, such minor shall be guilty of a misdemeanor and shall be fined as set out in Section 1 hereof.

Sec. 4. The offenses created under this Act shall be under the jurisdiction of the courts regularly empowered to try misdemeanors carrying the penalty herein affixed, and shall not be under the jurisdiction of the Juvenile Courts; but nothing contained in this Act shall be construed to otherwise repeal or affect the statutes regulating the powers and duties of Juvenile Courts. The provisions of this Act shall be cumulative of all other laws on this subject.

**Art. 6701l-5. Chemical Tests for Intoxication; Implied Consent; Evidence**

Sec. 1. Any person who operates a motor vehicle upon the public highways of this state shall be deemed to have given consent, subject to the provisions of this Act, to a chemical test, or tests, of his breath for the purpose of determining the alcoholic content of his blood if arrested for any offense arising out of acts alleged to have been committed while a person was driving or in actual physical control of a motor vehicle while under the influence of intoxicating liquor. Any person so arrested may consent to the taking of any other type of chemical test, or tests, to determine the alcoholic content of his blood, but he shall not be deemed, solely on the basis of his operation of a motor vehicle upon the public highways of this state, to have given consent to any type of chemical test other than a chemical test, or tests, of his breath. The test, or tests, shall be administered at the direction of a law enforcement officer having reasonable grounds to believe the person to have been driving or in actual physical control of a motor vehicle upon the public highways of this state while under the influence of intoxicating liquor.

Sec. 2. If a person under arrest refuses, upon the request of a law enforcement officer, to submit to a chemical breath test designated by the law enforcement officer as provided in Section 1, none shall be given, but the Texas Department of Public Safety, upon the receipt of a sworn report of the law enforcement officer that he had reasonable grounds to believe

the arrested person had been driving or was in actual physical control of a motor vehicle upon the public highways of this State while under the influence of intoxicating liquor and that the person had refused to submit to the breath test upon the request of the law enforcement officer, shall set the matter for a hearing as provided in Section 22(a), Chapter 173, Acts of the 47th Legislature, Regular Session, 1941, as amended (Article 6687b, Vernon's Texas Civil Statutes), if, upon such hearing the court finds (1) that probable cause existed that such person was driving or in actual physical control of a motor vehicle on the highway while under the influence of intoxicating liquor at the time of the arrest by the officer, (2) that the person was placed under arrest by the officer at such time and before offering the person an opportunity to be tested under the provisions of this Act, and (3) that such person refused to submit to the test upon request of the officer, the Director of the Texas Department of Public Safety shall suspend the person's license or permit to drive, or any nonresident operating privilege for the period ordered by the court, but not to exceed one (1) year. If the person is a resident without a license or permit to operate a motor vehicle in this State, the Texas Department of Public Safety shall deny to the person the issuance of a license or permit for a period ordered by the court, but not to exceed one (1) year. Provided, however, that should such person be found "not guilty" of the offense of driving while under the influence of intoxicating liquor or if said cause be dismissed, then the Director of the Texas Department of Public Safety shall in no case suspend such person's driver's license; or, in the event that proceedings had been instituted resulting in the suspension of such person's driver's license, then the Director of the Texas Department of Public Safety shall immediately reinstate such license upon notification of such acquittal or dismissal by the county clerk of the county in which the case was pending. Notification to the Director of the Texas Department of Public Safety shall be made by certified mail.

Sec. 3. (a) Upon the trial of any criminal action or proceeding arising out of acts alleged to have been committed by any person while driving or in actual physical control of a motor vehicle and while under the influence of intoxicating liquor, evidence of the amount of alcohol in the person's blood at the time of the act alleged as shown by chemical analysis of his blood, breath, urine, or any other bodily substance, shall be admissible and if there was at that time 0.10 percent or more by weight of alcohol in the person's blood, it shall be presumed that the person was under the influence of intoxicating liquor.

(b) Chemical analysis of the person's breath, to be considered valid under the provisions of this section, must be performed according to methods approved by the Texas Department of Public Safety and by an individual possessing

a valid certificate issued by the Texas Department of Public Safety for this purpose. The Texas Department of Public Safety is authorized to approve satisfactory techniques or methods, to ascertain the qualifications and competence of individuals to conduct such analysis, and to issue certificates certifying such fact. These certificates shall be subject to termination or revocation, for cause, at the discretion of the Texas Department of Public Safety.

(c) When a person shall submit to a blood test at the request of a law enforcement officer under the provisions of this Act, only a physician, qualified technician, chemist, registered professional nurse, or licensed vocational nurse under the supervision or direction of a licensed physician may withdraw blood for the purpose of determining the alcoholic content therein. The sample must be taken by a physician or in a physician's office or hospital licensed by the Texas Department of Health. This limitation shall not apply to the taking of breath specimens. The person drawing blood at the request of a law enforcement officer under the provisions of this Act, or hospital where that person is taken for the purpose of securing the specimen, shall not be held liable for damages arising from the request of the law enforcement officer to take the specimen as provided herein, provided the blood was withdrawn according to recognized medical procedures, and provided further that the foregoing shall not relieve any such person from liability for negligence in the withdrawing of any blood sample. Breath specimens must be taken and analysis made under such conditions as may be prescribed by the Texas Department of Public Safety, and by such persons as the Texas Department of Public Safety has certified to be qualified.

(d) The person tested may, upon request and within a reasonable time not to exceed two hours after the arrest, have a physician, qualified technician, chemist, or registered professional nurse of his own choosing administer a chemical test, or tests, in addition to any administered at the direction of a law enforcement officer. The failure or inability to obtain an additional test by a person shall not preclude the admission of evidence relating to the test, or tests, taken at the direction of the law enforcement officer.

(e) Upon the request of a person who has submitted to a chemical test, or tests, at the request of a law enforcement officer, full information concerning the test, or tests, shall be made available to him or his attorney.

(f) If for any reason the person's request to have a chemical test for intoxication is refused by the officer or any other person acting for or on behalf of the state, such fact may be introduced into evidence on the trial of such person.

Sec. 4. Appeals from all actions of the department under this Act in suspending, denying, or refusing to issue a license shall be governed by Chapter 173, Acts of the 47th Legis-

lature, Regular Session, 1941, as amended (Article 6687b, Vernon's Texas Civil Statutes).

Sec. 5. If any provision of this Act or the application thereof to any person or circumstance is held invalid, such invalidity shall not affect other provisions or applications of the Act which can be given effect without the invalid provision or application, and to this end the provisions of this Act are declared to be severable.

Such rules and regulations shall specify the primary use to which vehicles exempt from the requirements of this Act are devoted, the purpose to be served by not printing on them the inscriptions required by this Act and such rules and regulations shall not be effective until filed with the Secretary of State. Whoever drives a vehicle exempted from the requirements of this Act as authorized by this provision shall not be subject to the penalties prescribed in this Act.

All public roads and highways not discontinued that have heretofore been laid out and es-

tablished agreeably to law are hereby declared to be public roads.

[Acts 1925, S.B. 84.]

### Art. 6703. Commissioners Courts: Powers

The commissioners court shall order the laying out and opening of public roads when necessary, and discontinue or alter any road whenever it shall be deemed expedient. No public roads shall be altered or changed except to shorten the distance from end to end, unless the court upon a full investigation of the proposed change finds that the public interest will be better served by making the change; and said change shall be by unanimous consent of all the commissioners elected. No part of a public road shall be discontinued until a new road is first built connecting the parts not discontinued; and no entire first or second class road shall be discontinued except upon vacation or non-use for a period of three years. Said court shall assume and have control of the streets and alleys in all cities and incorporated towns in Texas which have no defacto,<sup>1</sup> municipal government in the active discharge of their official duties.

[Acts 1925, S.B. 84.]

<sup>1</sup> Probably should read "de facto."

### Art. 6703a. Abandoned Roads

Whenever the use of a county road has become so infrequent that the adjoining land owner or owners have enclosed said road with a fence and said road has been continuously under fence for a period of twenty (20) years or more, the public shall have no further easement or right to use said road unless and until said road is re-established in the same manner as required for the establishment of a new road; this Act shall not apply to roads to a Cemetery or Cemeteries; provided however, that this Act shall not apply to access roads reasonably necessary to reach adjoining land.

### Art. 6704. Classes of Roads; Cattle Guards

The Commissioners Court shall classify all public roads in their counties as follows:

1. First class roads shall be clear of all obstructions, and not less than forty (40) feet nor more than one hundred (100) feet wide; all stumps over six (6) inches in diameter shall be cut down to six (6) inches of the surface and rounded off, and all stumps six (6) inches in diameter and under, cut smooth with the ground, and all causeways made at least sixteen (16) feet wide. No first or second class road shall be reduced to a lower class.

2. Second class roads shall conform to the requirements of first class roads except that they shall be not less than forty (40) feet wide.

3. Third class roads shall not be less than twenty (20) feet wide and the causeway not less than twelve (12) feet wide;

otherwise they shall conform to the requirements of first class roads.

4. Any county in this State containing a population of less than ten thousand (10,000) inhabitants, or any county with a population of not less than twenty-seven thousand, six hundred fifty (27,650) nor more than twenty-seven thousand, six hundred eighty-five (27,685), according to the last preceding federal census, may by a majority vote of the Commissioners Court thereof authorize the construction of cattle guards across any or all of the first class, second class, or third class roads in said county, and such cattle guards shall not be classed or considered as obstructions on said roads.

The Commissioners Court of any county coming under the provisions of this Act shall provide proper plans and specifications of a standard cattle guard to be used on the roads of said county, said plans and specifications to be plainly written, supplemented by such drawings as may be necessary and shall be available to the inspection of the citizenship of such county. After said Commissioners Court provides said proper plans and specifications of a standard cattle guard to be used on the roads of said county any person constructing any cattle guard that is not in accordance with said approved plans and specifications prepared by said Commissioners Court shall be deemed guilty of obstructing said roads of said county, and the person responsible for such improper construction of said cattle guards shall be deemed guilty of a misdemeanor, and shall be fined not less than Five Dollars (\$5) nor more than One Hundred Dollars (\$100).

The Commissioners Court of any county coming under the provisions of this Act is hereby authorized and empowered to construct cattle guards on the first class, second class, and third class roads of said county and pay for same out of the Road and Bridge Funds of said county when in their judgment they believe the construction of such cattle guards to be to the best interest of the citizens of said county.

[Acts 1925, S.B. 84; Acts 1927, 40th Leg., p. 256, ch. 178, § 1; Acts 1929, 41st Leg., p. 429, ch. 197, § 1; Acts 1939, 46th Leg., Spec.Laws, p. 940, § 1; Acts 1953, 53rd Leg., p. 675, ch. 256, § 1; Acts 1965, 59th Leg., p. 1499, ch. 650, § 1, eff. June 17, 1965; Acts 1971, 62nd Leg., p. 1830, ch. 542, § 58, eff. Sept. 1, 1971.]

#### Art. 6705. Petition

The commissioners court shall in no instance grant an order on an application for any new road, or to discontinue an original one, or to alter or change the course of a public road, unless the applicants have given at least twenty days notice by written advertisement of their intended application, posted up at the court house door of the county and at two other public places in the vicinity of the route of such road. All such applications shall be by petition to the commissioners court, signed by at least eight freeholders in the precinct in which such road is desired to be made or discontin-

ued, specifying in such petition the beginning and termination of such road, provided an application to alter or change a road need not be signed by more than one freeholder of the precinct.

[Acts 1925, S.B. 84.]

#### Art. 6706. Preliminary Survey

All roads ordered to be made shall be laid out by a jury of freeholders in the county, to be appointed by the commissioners court. Said jury shall consist of five persons, a majority of whom may proceed, with or without the county surveyor, as ordered by the commissioners court, to lay out, survey and describe such road to the greatest advantage to the public, and so that the same can be traced with certainty. They shall make written report of their proceedings to the next term of said court, and the field notes of such survey or description of the road shall be included therein, and, if adopted, shall be recorded in the minutes of said court.

[Acts 1925, S.B. 84.]

#### Art. 6707. Notice of Appointment

When juries of view are appointed, the clerk of the court shall make out and deliver to the sheriff duplicate copies of the order appointing them within ten days after such appointment was made, indorsing on such copies the date of such order. The sheriff shall serve the same upon each juror in person, or by leaving one of said copies at his usual place of abode. The sheriff shall make such service within twenty days after he receives said copies, and shall make his return to the clerk on the duplicate copies, stating the date and manner of service, or the cause of his failure to make the same. Any juror of view, summoned as such, who fails or refuses to perform the service required of him by law as such juror, shall forfeit and pay for every such failure the sum of ten dollars, to be recovered by judgment on motion of the district or county attorney, in the name of the county.

[Acts 1925, S.B. 84.]

#### Art. 6708. Oath of Jury

Said jurors shall first take the following oath: "I, \_\_\_\_\_, do solemnly swear that I will lay out the road now directed to be laid out by the order to us directed from the commissioners court, according to law, without favor or affection, malice or hatred, to the best of my skill and knowledge. So help me God."

[Acts 1925, S.B. 84.]

#### Art. 6709. Notice to Owner

Said jury shall issue a written notice of the time when they will proceed to lay out such road, or when they will assess the damages incidental to the opening of the same. Such notice shall be served upon each land owner, his agent or attorney, through whose land said road may run, at least five days before the day named therein. If such owner is a non-resident of the county the notice may be given by publication in a newspaper published in the

county, once a week for four consecutive weeks, and the road may be established after four weeks publication, the cost of publishing to be paid as directed by the judgment of the court.

[Acts 1925, S.B. 84.]

#### Art. 6710. Damages to Land

Any such owner may, at the time stated in such notice, or previously thereto, but not in any event thereafter, present to the jury a written statement of the damages claimed by him, incidental to the opening of such road, and thereupon the jury shall proceed to assess the damages, returning their assessment and the claimant's statement with their report. If the commissioners court approves the report and orders such road to be opened, they shall consider the assessment and damages by the jury and the claimant's statement thereof, and allow to such owner just damages and adequate compensation for the land taken. When same are paid or secured by special deposit with the county treasurer to the credit of such owner and after notice of such payment or deposit to the owner, and if no objection is made to the jury's report, said court may proceed to have such road opened, if deemed of sufficient importance. Said owner may appeal from such assessment as in cases of appeal from judgment of justice courts, but such appeal shall not prevent the road from being opened, but shall be only to fix the amount of damages.

[Acts 1925, S.B. 84.]

#### Art. 6711. Neighborhood Roads

Any lines between different persons or owners of lands, any section line, or any practicable route, practicable route as used herein, shall mean a route which will not unduly inconvenience the owners or persons occupying the land through which such route shall be declared, that the Commissioners Court may agree on in order to avoid hills, mountains or streams through any and all enclosures, shall be declared a public highway on the following conditions:

1. One or more freeholders, or owners of lands, persons, firms or corporations, into whose lands there is now no public road or public means of access, who desires an access road connecting his said land with the county public road system, may make a sworn application to the Commissioners Court for an order establishing such road, designating the lines sought to be opened, and the names and residences of the person or persons affected by such proposed access road, and stating the facts which show a necessity therefor.

2. Upon the filing of such application the County Clerk shall issue a notice, reciting the substance thereof, directed to the Sheriff or any Constable of the County, commanding him to summon such landowners as may be affected by the opening of said road, naming them, to appear at

the next regular term of the Commissioners Court to contest the same, if they so desire, and to testify as to the amount of damage they will sustain, if any, by reason of the establishment of such road. Said notice shall be served in the manner and for the length of time provided for the service of citations in civil actions in justice courts, and shall be returned in like manner as such citation.

3. At a regular term of the court, after due service of such notice, the court may hear evidence as to the truth of such application, and if it appears that the said applicants have no means of access to their lands and premises, it may issue an order declaring the lines designated in the application, or such lines as may be fixed by the Commissioners Court, to be a public highway, and direct the same to be opened by the owners thereof and left open for a space of not less than fifteen (15) feet nor more than thirty (30) feet on each side of said line, but the marked trees and other objects used to designate said lines, and the corners of surveys, shall not be removed nor defaced. Notice of such order shall be immediately served on such owners, and return thereon made as hereinabove provided. A copy of such order shall be filed in the Deed Records in the office of the County Clerk of said County.

4. The damages to such landowners shall be assessed by a jury of freeholders, as for other public roads, and all costs attending the proceedings in opening said road shall be paid by the County, and the Commissioners Court shall not be required to keep such road worked by the road hands as in the case of other public roads, but shall place said roads in the first instance in condition for use as access public roads.

##### What May be Declared Public Highways

- Sec. 1. Any lines between different persons or owners of land, any section line, any survey line, any survey subdivision line or any direct practicable route through an enclosure containing not less than five hundred (500) acres of land that the Commissioners Court or a majority thereof may agree to open in order to furnish access to public streams, lakes and bays in the Counties of Leon or Madison, may be declared public highways upon the following conditions:

##### Application for Road

- Sec. 2. Ten (10) citizens of the county in which such application is filed, or one or more persons living within such an enclosure, who desire a means of access to public streams, lakes or bays in the Counties of Leon or Madi-

son where there is a distance of at least five (5) miles along the banks of said river or stream, or a distance of five (5) miles on the shore of said lake or bay not now served by a public road or highway, may make sworn application to the Commissioners Court for an order establishing such road, designating the lines sought to be opened and the names and residence of the persons or owners to be affected by such proposed roads, and stating the facts which show the necessity for such road.

#### Notice to Land Owners

Sec. 3. Upon the filing of such application the clerk shall issue a notice reciting the substance thereof directed to sheriff or any constable of the county, commanding him to summons such land owners, naming them, to appear at the next regular term of the Commissioners Court and show cause why said line should not be declared public highways. Said notice shall be served in the manner and for the length of time provided for the service of citations in civil actions in Justice Courts, and shall be returned in like manner as such citation.

#### Directing Opening of Road

Sec. 4. At a regular term of Court, after due service of such notice, if the Commissioners Court deems that the proposed road comes within the provisions of this Act and is of public importance it shall issue an order declaring the lines designated in the application, or lines fixed by the Commissioners Court, to be public highways, and direct the same to be opened by the owners thereof and left open for a space of fifteen (15) feet on each side of said line, but the marked trees and other objects used to designate said lines, and the corners of surveys shall not be removed or defaced. Notice of such order shall be immediately served upon such owners, and return made thereon, as before provided.

#### Working Road

Sec. 5. The Commissioners Court shall not be required to keep any such roads worked by the road hands as in the case of other public roads.

#### Damages Assessed

Sec. 6. The damages to such land owners shall be assessed by a jury of freeholders, as for other public roads, and all cost attending the proceeding in opening neighborhood roads, if the application is granted, shall be paid by the county.

#### Navigable Streams

Sec. 7. The lack of adequate roads for the purpose of public access to navigable streams or public lakes, or to shores of lakes or bays within tide water limits is hereby declared to create a public necessity for additional roads in the Counties of Leon or Madison, which will furnish a means of such access for the general public. "Navigable streams," as that term is used herein, are defined to be statutory naviga-

ble streams of an average width of thirty (30) feet, and public lakes are defined to be those lakes in which the State owns the beds, or reserves the right of access for its citizens for fishing, boating, hunting or other recreation.

#### Public Necessity for Road

Sec. 8. A public necessity for roads of the character herein defined is declared to exist where any existing public roads which furnish access to public rivers, lakes or bays are more than five (5) miles apart, and/or where there is an area of at least five (5) miles on any such river, stream, lake or bay without a road to furnish public access to such stream, lake or bay.

#### Order Opening Road

Sec. 9. On application being filed in accordance with Sections 1, 2, 3, 4, 5, and 6 of this Act, the Commissioners Courts of Leon and Madison Counties may issue an order opening a public road sixty (60) feet in width running parallel with and adjacent to the bank of any statutory navigable stream of this State for such distance as the Court may deem necessary, said right of way to be used for access to said public streams, and for camping purposes. The opening of highways along and adjacent to the banks of said navigable streams shall be in accordance with the terms of this Act and compensation shall be made to the owners of said lands as provided for in Section 6 of this Act.

#### Purpose of Act

Sec. 10. It is the purpose of this Act to make accessible public streams, bays, lakes and other bodies of public waters which are now fenced in and not accessible to the general public, by establishing roads and highways. Any bank of a stream and shore of a lake or bay which extends more than five (5) miles without a public highway furnishing access to the public, to said bank or shore of said stream, lake or bay is declared to be inaccessible and subject to be opened to public access under the terms of this Act.

#### Application to Leon and Madison Counties

Sec. 10-a. No provision of this Act shall be applicable to any other county in this State except to the Counties of Leon and Madison.

[Acts 1935, 44th Leg., Spec. Laws, p. 1196, ch. 33, § 1.]

#### Art. 6711b. Neighborhood Roads

[1925 P.C.]

**Art. 6712. Gates**

[Acts 1925, S.B. 84.]

**Art. 6712a. Leaving Gates Open on Third Class Roads**

Any person placing a gate on or across any third-class road, or on or across any road such as is designated in article 836 shall be required to keep said gate and the approaches to the same in good order, and the gate shall be ten feet wide and so constructed as to cause no unnecessary delay to the traveling public in opening and shutting the same; and provide a fastening to hold said gate open until the passengers go through. Such person shall place a permanent hitching post and stile block on each side of and within sixty feet of such gate. Any person who may place a gate on or across a third-class road, or on or across any road such as is designated in article 836 who shall wilfully or negligently fail to comply with any requirement of this article shall be fined not less than five nor more than twenty dollars for each offense, and each week of such failure is a separate offense. Whoever wilfully or negligently leaves open any gate on or across any third-class road, or on or across any road such as is designated in article 836, shall be fined as above provided for.

[Acts 1925, S.B. 84.]

**Art. 6713. Road Supervisors**

Except when road commissioners are employed, the county commissioners shall be supervisors of public roads in their respective counties, and each commissioner shall supervise the public roads within his commissioners precinct once each month. He shall also make a sworn report to each regular term of the commissioners court held in his county during the year, showing:

2. The condition of all culverts and bridges.
3. The amount of money remaining in the hands of overseers subject to be expended upon the roads within his precinct.
4. The number of mile posts and finger boards defaced and torn down.
5. What, if any, new roads of any kind should be opened in his precinct, and what, if any, bridges, culverts, or other improvements are necessary to place the roads in his precinct in good condition and the probable cost of such improvements; also the name of every overseer who has failed to work on the road, or in any way neglected to perform his duty.

Said report shall be spread upon the minutes of the court, to be considered in improving public roads and determining the amount of taxes levied therefor.

[Acts 1925, S.B. 84.]

**Art. 6714. Reports**

Said supervisor's report shall be submitted together with all contracts made by said court since its last report for any work on any road, to the grand jury, at the first term of the district court thereafter.

[Acts 1925, S.B. 84.]

**Art. 6715. Across Public Lands**

No public road shall be opened across lands owned and used or for actual use by the State, educational, eleemosynary, or other public State institutions for public purposes and not subject to sale under the general laws of the State, without the consent of the trustees of said institution and the approval of the Governor. The roads heretofore opened across such lands may be closed by the authorities in charge of any such lands whenever they deem it necessary to protect the interests of the State, upon repayment to the county where the land is situated with eight per cent interest, the amount actually paid out by said county for the condemnation of said lands as shown by the records of the commissioners court.

[Acts 1925, S.B. 84.]

**Art. 6716. Damage to Roads**

The county commissioner of any precinct, or county road superintendent of any county, or road supervisor, whose road is affected, may forbid the use of highways or parts thereof when from wet weather or recent construction or repairs they cannot be safely used without probable serious damages to same, or when the bridge or culverts on same are unsafe, under the following rules:

1. Such officer shall post notices on such highways, stating the maximum load permitted and the time such use is prohibited, and same shall be posted upon the highway in such places as will enable the drivers to make detours to avoid the restricted highways or portions thereof.
2. If the owner or operator of any such vehicle feels himself aggrieved by such action, he may complain in writing to the county judge of such county, setting forth the nature of his grievance. When such complaint is filed, the judge shall set the same down for a day certain not more than three days later, and shall give written notice to such official of the day and purpose of such hearing. The judge shall hear testimony offered by the parties thereto, and upon conclusion thereof, shall render judgment sustaining, revoking or modifying such order or notice, and such judgment shall be final as to the issues raised.
3. The owners, operators, drivers or movers of any vehicle, object or contriv-

ance over a public highway or bridge shall be jointly and severally responsible for all damages which said highway or bridge may sustain as the result of negligent driving, operating or moving of such vehicle, or as a result of operating same at a time forbidden by said road officials. The amount of such damages may be recovered in any action at law by the county judge for the use of the county, and such recovery shall go to the benefit of the damaged road. The county attorney shall represent the county in such suit.

[Acts 1925, S.B. 84.]

#### Art. 6716-1. The Optional County Road Law of 1947

Sec. 1. The short title of this Act shall be "The Optional County Road Law of 1947."

##### Adoption of Act

Sec. 2. By a majority vote of its qualified voters, any county in this state, at an election held for that purpose, may adopt the provisions of this Act for the construction and maintenance of county roads and bridges and for the expenditure of the County Road and Bridge Fund. Such question shall be submitted to the qualified voters of such county at a general or special election by the Commissioners Court of such county, upon petition of a number of qualified voters of such county equal to ten (10) per cent of the number voting for Governor at the last preceding general election in such county, not less than thirty (30) days nor more than sixty (60) days after the petition is filed with the Commissioners Court. The ballot for such election shall read:

If there be a favoring vote at such election, the provisions of this Act shall become effective with the official proclamation of the results of such election. Sec. 5. The County Road Engineer shall be appointed by the Commissioners Court. He shall be a licensed professional engineer, experienced in road construction and maintenance, who shall meet the qualifications required by the State Highway Department for its county engineers. If the Commissioners Court is not able to employ a licensed professional engineer for any reason, then the Commissioners Court is authorized to employ a qualified road administrative officer, who shall be known as the County Road Administrator, to perform the duties of the County Road Engineer. The County Road Administrator shall have had experience in road building or maintenance or other types of construction work qualifying him to perform the duties imposed upon him, but it shall not be necessary that he have had any fixed amount of professional training or experience in engineering work. The County Road Administrator shall perform the same duties as are imposed upon the County Road Engineer, and all references in other Sections of this Act to the County Road Engineer shall include and apply to the County Road Administrator.

##### Term of Engineer; Removal

Sec. 7. The County Road Engineer shall hold his position for an indefinite term and may be removed by a majority vote of the Commissioners Court. Removal shall not become effective until thirty (30) days after he shall have been notified in writing of the intention of the Commissioners Court to remove him, and until after a public hearing on the question of his removal shall have been held, if such hearing is requested of the Commissioners Court in writing by the County Road Engineer.

##### Administrative Officer

Sec. 8. In the absence or inability of the County Road Engineer to perform his duties, the Commissioners Court may designate a qualified administrative officer to perform the duties of County Road Engineer during such absence or inability.

##### Powers of County Road Engineer

Sec. 9. The County Road Engineer shall be responsible to the Commissioners Court for the efficient and economical construction and maintenance of the county roads. He shall have the power to appoint for an indefinite term and to remove all county road department personnel, subject to the approval of the Commissioners Court. He may authorize certain

administrative personnel to employ and remove subordinates or employes under their respective direction.

#### Commissioners Court

Sec. 10. Except for the purpose of inquiry the Commissioners Court shall deal with the county road department's administrative personnel and employes through the County Road Engineer.

#### Duties of Engineer

Sec. 11. He shall see that the policies of the Commissioners Court relating to county roads are faithfully executed, supervise the administration of the county road department, and prepare detailed annual budget estimates for the construction and maintenance of the county roads and the operation of the county road department. The County Road Engineer shall prepare estimates and specifications for all equipment, materials, supplies, and labor necessary for the construction and maintenance of the county roads and the operation of the county road department, serve as custodian for all equipment, materials, and supplies belonging to the county road department, prepare plans and specifications for all county road construction and maintenance, maintain cost accounting records on county road department expenditures, keep a perpetual inventory of all county road department equipment, material and supplies, and perform such other duties as the Commissioners Court may require which are consistent with this Act.

#### Bond; Oath

All expenditures for the construction and maintenance of the county roads and the operation of the county road department shall be paid out of the Road and Bridge Fund strictly in accordance with annual budgeted appropriations, except that upon application of the County Road Engineer the Commissioners Court may transfer any part of any unencumbered appropriation balance for some item within the Road and Bridge Fund budget to some other item.

#### Engineer as Representative of County

Sec. 14. On projects of county road construction and maintenance let to private contractors, the County Road Engineer shall be the representative of the county in inspecting

the progress of the work. Before any claims by reason of county road construction or maintenance done by private contractors shall be ordered paid by the Commissioners Court, the County Road Engineer shall certify in writing to the correctness of the claims and shall certify that the work done conforms to the plans and specifications called for in the respective contracts.

#### Purchase of Equipment and Supplies

Sec. 15. All equipment, materials and supplies for the construction and maintenance of county roads and for the county road department shall be purchased by the Commissioners Court on competitive bids in conformity with estimates and specifications prepared by the County Road Engineer; except when upon recommendation of the County Road Engineer and when in the judgment of the Commissioners Court it is deemed in the best interest for the county to do so, purchases in an amount not to exceed One Thousand Dollars (\$1,000.00) may be made through negotiation by the Commissioners Court or the Commissioners Court's duly authorized representative, upon requisition to be approved by the Commissioners Court or the County Auditor without advertising for competitive bids. Before any claims covering the purchase of such equipment, materials and supplies and for any services contracted for by the Commissioners Court shall be ordered paid by the Commissioners Court, the County Road Engineer shall certify in writing to the correctness of the claims therefor and shall certify that the respective equipment, materials and supplies covered by the claims conform to specifications approved by him and that the same respective equipment, materials and supplies were delivered in good condition and that any road department services contracted for by the Commissioners Court have been satisfactorily performed. The provisions of this section shall not be construed to permit the division or reduction of purchases for the purpose of avoiding the requirement of taking formal bids on purchases which would otherwise exceed One Thousand Dollars (\$1,000.00).

Arts. 6717 to 6728. Repealed by Acts 1965, 59th Leg., p. 945, ch. 459, § 1, eff. Aug. 30, 1965

## Art. 6729. Condemnation of Road Material

The commissioners court may use either timber, earth, stone, gravel, or other necessary material most convenient therefor to build, re-

pair, or maintain any public road or any part of any public road in the county without regard to the location or extent thereof or the funds from which such repair or maintenance is paid. In such case the owner of any such material shall be paid a fair and just compensation therefor as may be agreed upon by the owner or his agent and the commissioners court. Should the owner and the commissioners court fail to agree upon the compensation to be paid for the material required, then the county, upon the order of said court, shall proceed to condemn the same. If such material is needed for the general system of county highways, then payment shall be made from the road and bridge fund of the county, or from the proceeds of any county issue of bonds. If such material is to be used for the benefit of any defined district or political subdivision of the county, then the cost of such material shall be paid from funds of such defined district or subdivision arising through sale of bonds or the collection of special taxes. The commissioners appointed to condemn the property shall receive two dollars for each day they may be necessarily engaged in the performance of their duties, to be paid out of the same fund from which payment is made for materials on the order of the commissioners court. Compensation awarded by said commissioners for material shall be paid to the owner or deposited with the county treasurer to the credit of such owner, and when so paid or deposited the county shall have the right to enter upon and use said material. If the owner or the county is not satisfied with the compensation awarded, he or said county may appeal therefrom as in condemnation cases; provided, the commissioners appointed to condemn such road material shall, after due hearing, fix a fair and reasonable value for such material; and if it has a market value, then such market value shall be determined and the market value fixed thereon as compensation to the owners, or if the material has no market value, then its value shall be fixed at such sum as the evidence shows the material to be reasonably worth for the purpose for which it was used. The value may be fixed either as a whole or in quantities, by the yard for earth, for sand, or broken stone, or by the perch for stone, and per tree, or per post, or per foot where trees are suitable for lumber or for timbers in such quantities as may be needed upon estimates secured by the commissioners court.

[Acts 1925, S.B. 84.]

## Art. 6730. Drains

The earth necessary to construct a causeway shall be taken from both sides, so as to make a drain on each side thereof. Whenever it is necessary to drain the water from any public road, the overseer shall cut a ditch for that purpose, having due regard for the natural water flow, and with as little injury as possible to the adjacent land owners. In such cases the commissioners court shall cause the damages to such premises to be assessed and paid out of

the general revenues of the county, and in case of disagreement the same may be settled by suit as in other cases.

[Acts 1925, S.B. 84.]

**Arts. 6731 to 6735. Repealed by Acts 1965, 59th Leg., p. 945, ch. 459, § 1, eff. Aug. 30, 1965**

#### **Art. 6736. Road and Bridge Funds**

All moneys appropriated by law, or by order of the commissioners court, for working public roads or building bridges, shall be expended under the order of the commissioners court, except when otherwise herein provided, and said court shall from time to time make the necessary orders for utilizing such money and for utilizing convict labor for such purposes.

[Acts 1925, S.B. 84.]

### **2. ROAD COMMISSIONERS**

#### **Art. 6737. Employment**

Each commissioners court may employ not exceeding four road commissioners, who shall be resident citizens of the district for which they are employed, and when more than one is employed, the district that each road commissioner is to control shall be defined and fixed by the court. Such road commissioners shall receive such compensation as may be agreed upon by the court, not to exceed two dollars per day for the time actually engaged. Each road commissioner shall first execute a bond, payable to the county judge of the county and his successors in office, in the sum of one thousand dollars, with one or more good and sufficient sureties, to be approved by the county judge, and conditioned for the faithful performance of his duties.

[Acts 1925, S.B. 84.]

#### **Art. 6738. Powers and Duties**

A road commissioner shall have control over all overseers, hands, tools, machinery and teams to be used upon the roads in his district; and may require overseers to order out hands in any number he may designate for the purpose of opening, working or repairing roads or building or repairing bridges or culverts in his district. He shall see that all roads and bridges in his district are kept in good repair, and he shall, under the direction and control of the commissioners court, inaugurate a system of grading and draining public roads in his district, and see that such system is carried out by the overseers and hands under his control, and shall obey all orders of the commissioners court; and he shall be responsible for the safe-keeping and liable for the loss or destruction of all machinery, tools or teams placed under his control, unless such loss is without his fault, and when he shall be discharged he shall deliver them to the person designated by the court.

[Acts 1925, S.B. 84.]

#### **Art. 6739. Expenditures**

He shall expend such money as may be placed in his hands by the commissioners court under its direction in the most economical and advantageous manner on the public roads, bridges and culverts of his district; and all his acts shall be subject to the control, supervision, orders and approval of the commissioners court. He shall work the convicts and such other labor as may be furnished him by the commissioners court. When he has funds in his hands to expend for labor on the roads, and when it shall be necessary for any overseer in his district to work more than five days during any one year upon the public roads, he may employ such overseer to continue his duties as such for such length of time as may be necessary, and pay him for such services not more than one dollar and fifty cents per day for the time actually employed after the five days; provided, that the hands shall not be required to work when there shall be on hand, after building and repairing bridges, a sufficient road fund to provide for the necessary work on the roads. Said road commissioner shall report to the commissioners court at each regular term under oath showing an itemized account of all money he has received to be expended on roads and bridges and what disposition he has made of the money, and showing the condition of all roads, bridges and culverts in his district, and such other facts as the court may desire information upon, and shall make such other reports and at such time as the court may desire.

[Acts 1925, S.B. 84.]

#### **Art. 6740. Expenditure of Road Fund**

The commissioners court shall see that the road and bridge fund of their county is judiciously and equitably expended on the roads and bridges of their county, and, as nearly as the condition and necessity of the roads will permit, it shall be expended in each county commissioners precinct in proportion to the amount collected in such precinct. Money used in building permanent roads shall first be used only on first or second-class roads, and on those which shall have the right of way furnished free of cost to make as straight a road as is practicable and having the greatest bonus offered by the citizens of money, labor or other property.

[Acts 1925, S.B. 84.]

#### **Art. 6741. Powers of Court**

The commissioners court may make and enforce all reasonable and necessary rules and orders for the working and repairing of public roads, and to utilize the labor to be used and money expended thereon, not in conflict with the laws of this State. Said court may purchase or hire all necessary road machinery, tools or teams, and hire such labor as may be needed in addition to the labor required of citizens to build or repair the roads.

[Acts 1925, S.B. 84.]

**Art. 6742. Donations**

Commissioners court or road commissioners may accept donations of money, lands, labor of men, teams or tools, or any other kind of property or material to aid in building roads in their counties, and may authorize any person to make a drain along any public road for the purpose of draining his land, and require the person draining his land to do such work under the direction of the road commissioner.

[Acts 1925, S.B. 84.]

**3. ROAD SUPERINTENDENTS****Art. 6743. Appointment**

The commissioners court of any county subject to this law may appoint a competent person as road superintendent for such county, or one such superintendent in each commissioners precinct, as it shall determine by an order made at a regular term thereof. Such order shall be entered on the minutes of such court, and shall not be void for want of form, but a substantial compliance with the provisions of this subdivision shall be sufficient. Every road superintendent shall be a qualified voter in the county or precinct for which he is appointed, and shall hold his office for two years or until removed by the commissioners court for good cause. No county shall be under the operation of this law whose commissioners court does not appoint a road superintendent or superintendents.

[Acts 1925, S.B. 84.]

**Art. 6744. Oath and Bond**

Each road superintendent shall within twenty days after his appointment take and subscribe the oath required by the Constitution, and give bond payable to and to be approved by the county judge in such sum as the commissioners court may fix, conditioned that he will faithfully perform all the duties required of him by law or the commissioners court, and that he will pay out and disburse the funds subject to his control as the law provides or said court may direct.

[Acts 1925, S.B. 84.]

**Art. 6745. Salary**

Each road superintendent shall receive such salary as the commissioners court may fix, to be paid on the order of said court at stated intervals. In counties of less than fifteen thousand inhabitants the county superintendent's salary shall never exceed one thousand dollars per annum, and in counties of more than fifteen thousand inhabitants it shall not exceed twelve hundred dollars per annum. The salary of precinct superintendents in counties of less than fifteen thousand inhabitants shall not exceed three hundred dollars per annum, and in counties of over fifteen thousand inhabitants, it shall never exceed four hundred dollars per annum. Said court may suspend the salary of any superintendent whose continued services are not needed.

[Acts 1925, S.B. 84.]

**Art. 6746. Powers**

Subject to the orders of said court, each superintendent shall have general supervision over all public roads of his county or precinct, and shall superintend the laying out of new roads, the making, changing, working and repairing of roads, and the building of bridges except where otherwise contracted and over all county convicts worked on such roads, but this shall not prevent the commissioners court from employing a person to watch and manage such convicts and direct the work to be done by them. Said road superintendent shall take charge of and be responsible for the safe-keeping of all tools, machinery, implements and teams placed under his control by the commissioners court and execute his receipt therefor, which shall be filed with the county clerk. He shall be liable for the loss, injury or destruction of any such tools, teams, implements or machinery unless such loss occurred without his fault, and for the wrongful or improper expenditure of any road funds coming into his hands. On leaving office, he shall deliver all such money and property to such person as the commissioners court may direct.

[Acts 1925, S.B. 84.]

**Art. 6747. Duties**

Each superintendent shall see that all roads and bridges in his county or precinct are kept in good repair, and he shall, under the direction of the commissioners court, inaugurate and carry out a system of working, grading and draining the public roads in his county or precinct. He shall act as supervisor of the roads in his county or precinct, and perform all the duties of supervisor devolving on the county commissioners in counties not adopting this law, and he shall do and perform such other service as said court may require.

[Acts 1925, S.B. 84.]

**Art. 6748. Road Districts**

When said court so directs, each superintendent shall divide his county or precinct into road districts of convenient size, to be approved by said court, and define the boundaries thereof and designate the same by number. Such boundaries shall be recorded in the road minutes of the commissioners court. He shall ascertain the names of all persons subject to road duty in each district and keep a record thereof and report the same to the commissioners court.

[Acts 1925, S.B. 84.]

**Art. 6750. Accounts and Reports**

Each superintendent shall make a sworn report to said court at each regular term thereof showing an itemized account of all money belonging to the road fund he has received, from whom received, and what disposition he has made of the same, the condition of all roads and bridges in the county or precinct, and such

other matters as the court may desire information upon, and shall make such other reports at such times as such court may require. Within ten days after collection of any money on account of the road or bridge fund he shall pay the same over to the county treasurer, taking his receipt therefor, and shall keep an accurate account thereof.

[Acts 1925, S.B. 84.]

#### Art. 6751. Powers of Court

The commissioners court of any such county is authorized to purchase or hire all necessary road machinery, tools, implements, teams and labor required to grade, drain, or repair the roads of such county, and said court is authorized and empowered to make all reasonable and necessary rules, orders and regulations not in conflict with law for laying out, working and otherwise improving the public roads, and to utilize the labor and money expended thereon, and to enforce the same.

[Acts 1925, S.B. 84.]

#### Art. 6752. Extra Road Force

Each road superintendent shall employ a sufficient force to enable him to do the necessary work in his county or precinct, as the case may be, having due regard for the condition of the county road and bridge fund and the quality and durability of the work to be done, and shall buy or hire such tools, teams, implements and machinery as the commissioners court may direct, and he shall work such roads in such manner as the commissioners court may direct, and such work shall at all times be subject to the general supervision of the commissioners court. He shall make the best contract possible for such labor or machinery, and in payment therefor he shall issue to the person entitled thereto his certificate showing the amount due, the purpose for which it was given, and upon approval by the commissioners court, a warrant shall issue therefor to the holder thereof on the county treasurer, to be paid by him out of the proper fund as other warrants. All such certificates shall be dated, numbered and signed by the road superintendent, and he and his sureties on his official bond shall be liable for all loss or damages caused by the wrongful issue of any such certificate or any extravagance in the amount thereof.

[Acts 1925, S.B. 84.]

#### Art. 6753. Contracts for Road Work

The commissioners court may, when deemed best, construct, grade, gravel or otherwise improve any road or bridge by contract, and advertise for bids, and may reject any bid. The contract shall be awarded to the lowest responsible bidder, who shall enter into bond with good and sufficient sureties payable to and to be approved by the county judge, in such sum as said court may determine, conditioned for the faithful compliance with such contract. At the time of making such contract said court shall direct the county treasurer to pass the amount of money stipulated in such contract to

a particular fund and to keep a separate account thereof, and the same shall be used for no other purpose and can only be paid out on the order of said court.

[Acts 1925, S.B. 84.]

#### Art. 6754. Donations

The commissioners court may accept donations of money, land, teams, tools, or labor, or any other kind of property or material to aid in building or keeping up roads in the county, and said court or any road superintendent, with the concurrence of the commissioners, may authorize any person to make a drain along any public road, the same to be done under the direction of the road superintendent or such other person as said court may direct.

They shall superintend the laying out of new roads, the making or changing of roads and the building of bridges under rules adopted by said court. Each commissioner shall first execute a bond of One Thousand Dollars (\$1,000.00) payable to and to be approved by the County Judge for the use and benefit of the road and bridge fund, conditioned that he will perform all the duties required of him by law, or by the Commissioners Court, and that he will account for all money or other property belonging to the county that may come into his possession.

## 5. DRAINAGE

**Art. 6771. Powers**

For the purpose of this subdivision all public roads and highways that have been or may be laid out and established agreeably to law, and all roads and highways that have been opened to and used by the public for a period of ten years prior to March 25, 1897, and which have not been discontinued or closed to the use of the public agreeably to law, are hereby declared to be public roads.

The commissioners court at any regular session thereof may cause to be constructed and maintained, as hereinafter provided, ditches, drains and water courses, hereinafter called ditches on and within the exterior lines of all public roads situated within the county sufficient in capacity to carry off and into the natural waterways of the county, all surface water reasonably adjacent and liable to collect in said ditch from natural causes, or by means of the construction of private lateral ditches as hereinafter provided for, and shall also have power to construct, in connection with such ditch any side, lateral, spur or branch ditch or water course necessary to the accomplishment of the purposes of this law. No ditch shall be constructed along any public road unless at the same time an outlet is constructed to a natural waterway, sufficient in capacity to carry off all water that may collect therein.

[Acts 1925, S.B. 84.]

**Art. 6772. Culverts**

No road overseer, or any court, shall, on petition or otherwise, have the power to change the natural course of any branch, creek or stream, but such volume of water shall always enter and cross said road at its natural crossing; and overseers shall always, in draining their roads, provide a culvert sufficiently broad and tall to permit said stream to flow at high tide, from its intersection with said road, across its natural outflow at the opposite natural channel.

[Acts 1925, S.B. 84.]

**Art. 6773. Petition**

A petition shall first be filed with the county clerk, signed by at least one hundred tax payers and voters of said county, setting forth the necessity and availability for such drainage system, and the number of miles of public roads within such county, as accurately as the same may be known, and as near as practicable the width and depth required for the ditches to be constructed along the first class roads of the county. Said petition shall also separately state the name and location of each natural waterway of such county crossed by each of the first class public roads of said county, and the distance of said natural waterways one from the other along said road. Said petition shall also state the names and residences, if known, of the owners of the lands adjacent to each of said first class public roads, and with-

in one mile thereof, and, if unknown, shall so state.

[Acts 1925, S.B. 84.]

**Art. 6774. Notice of Hearing**

Upon the filing of said petition, the clerk shall issue five notices in writing, containing a brief statement of the contents of said petition, commanding all persons interested to appear at the next regular term of the commissioners court and contest the same. One of said notices shall be posted at the courthouse door of such county, and one each at four other public places in such county, no two of which shall be in the same town or city, for twenty days prior to the first day of the next regular term of the commissioners court after the issuance thereof. Said notices shall be posted by the sheriff of the county, who shall make due returns to the clerk of said court of such notices, on or before the said first day of the term; and for such services the sheriff shall receive three dollars, and the clerk one dollar and fifty cents.

[Acts 1925, S.B. 84.]

**Art. 6775. Hearing**

At the time specified, said court shall hear and determine the petition in connection with all protests, remonstrances or objections thereto; and, if they find that the adoption of the drainage system provided for herein is necessary, advisable or for the public benefit, or for the best interest of the county, the court shall so order, and the order shall be entered at length upon the minutes of the court and become a part of the record thereof, and the same shall recite the time, character and manner of service of notice. If it appears therefrom that notice has been given as provided for herein, the said order shall be final. If said court refuses to adopt said drainage system, no other application therefor shall be heard for one year thereafter.

[Acts 1925, S.B. 84.]

**Art. 6776. Survey**

At the same or any succeeding term of said court after the entry of such order, said court shall employ a competent surveyor, who shall be an engineer, to run a line of levels along the public roads of the county, and to measure the same from the beginning to the terminus of said road, and to measure the distance of each waterway crossed by said roads from the beginning point. Said survey and the drainage system shall be first applied to the first class roads of such county, and thereafter to roads of the second and third class. Nothing herein shall be construed to prohibit said court from constructing one or more ditches at the same time, as the financial condition of the county will permit.

[Acts 1925, S.B. 84.]

**Art. 6777. Survey: Report**

The surveyor shall, as soon as practicable after his employment, proceed to make such survey and system of levels, and shall cause

stakes or monuments to be placed along said line at intervals of one hundred feet, with such intermediate stakes as may be necessary, numbered progressively, and shall establish permanent bench marks along said lines at intervals of one mile or less, as may be necessary, and shall establish by stake or monument of a different character and appearance from all other stakes or monuments, the highest point upon said road between each of the natural waterways crossed by the road; and said surveyor shall also measure and establish by suitable marks, the frontage of each tract of land abutting on said road; and if there be a natural waterway adjacent to the line of said road and ditch and the same is necessary to be utilized as an outlet for the water at any point on said ditch, the surveyor shall measure the distance to same, and run the line of levels thereto, at the nearest practicable point on said road and ditch. He shall prepare a map showing the location of said ditch or ditches, together with the position of stakes or monuments with numbers corresponding with those on the ground, and the position of bench marks, with their elevations referred to an assumed or previously determined datum. Said map shall also show the lines and boundaries of adjacent land, and the courses and distances of any adjacent watercourse, together with a profile of the line of the ditch which shall show the assumed datum and the grade line of the bottom of the same, and the elevation of each stake, monument, or other important feature along the line, such as top of banks, and bottom of all ditches or watercourses, and surface of water, top of rail and bottom of tie, foot of embankment, and bottom of borrow pits of all railroads. Said map, or the explanation accompanying same, shall in tabular form give the depth of cut, width at bottom and width at top, at the source, outlet, and at each one hundred feet stake or monument to said ditch; and shall show the total number of cubic yards of earth to be excavated and removed from said ditch between each natural waterway into which the water is to be conveyed, and an estimate of the cost of each portion of the said ditch or ditches lying between natural waterways crossed by said road, together with an estimate of total cost of the whole work. He shall also prepare detailed specifications for the execution of such project. Whenever in his opinion it may be advantageous to run said ditch underground through drainage tiles, he shall so state in said report, map and specifications, together with the statement of the locality of said underground ditch, and length thereof, and the dimensions or character of tiling or other material required therefor. As soon as completed, he shall file said survey, report, map, explanation and estimate with the county clerk.

[Acts 1925, S.B. 84.]

#### Art. 6778. Jury of View

At any regular or called session of the commissioners court after the filing of said report, map, explanation, specifications and estimate,

the court shall appoint a jury of five freeholders of the county who shall meet at a time and place to be specified by the said court in the order appointing them. The county clerk shall thereupon issue to said viewers a certified copy of the petition and order of the court, together with the original report, map, explanation, specifications and estimate of the surveyor; and, if said jury of viewers shall fail or refuse from any cause to perform the duties required under such appointment, or if their report, from any cause, should not be adopted, the court may at any succeeding term appoint another jury of viewers, whose appointment and duties shall be the same as required in the first instance. Said jury shall proceed at the time and place so specified, after giving notice to each abutting land owner, and owner of land within one mile of said ditch, as hereinafter provided, and after viewing the line of the proposed ditch and after hearing all protests, claims and remonstrances offered, they shall take the several partial estimates, and the surveyor's estimate of the total cost of the work as a basis, and shall have lines run parallel to the lines of said ditch at a distance of one mile on either side thereof, and shall set apart and apportion to each parcel of land abutting on said road and ditch, or within said parallel lines, and to each person, firm or corporation owning the same, its proportionate share of the one-half of the total cost of said ditch, taking into consideration the relative amount of benefit derived by said land from the construction thereof. They shall assess the amount of damages or compensation due to each land owner through whose land any spur, branch or lateral ditch, is or may be constructed under the order of appointment. Before such ditch is opened said sum shall be paid on the order of the commissioners court out of the county treasury from the fund set aside for the construction of said ditch. Said jury shall make a sworn report to the commissioners court as soon as practicable after their meeting, signed by at least three of said jury, and shall return with their report an accurate and full description of each tract of land assessed by them, with the number of acres and the name of the owners thereof, and the amount assessed against each tract and the owner thereof. The jury shall also return with their report the map, profile, explanation and estimates of the surveyor, together with a copy of the specifications; and the same shall be filed with the clerk, and shall become a public record and be preserved as such. The court shall act upon said report at the next regular or called term, and approve or reject the same; provided that the court may appoint separate juries of view for each road and ditch to be constructed, if deemed desirable or advantageous to the public.

[Acts 1925, S.B. 84.]

#### Art. 6779. Oath of Viewers

Said jury shall first take the following oath: "I do solemnly swear that I am not directly interested in the construction of the proposed

ditch, either as the owner or otherwise, of adjacent land lying within one mile thereof, and that I am not of kin to any person who is so interested. I further swear that I have no bias or prejudice toward any person directly interested in said ditch, and that I will assess the amount of expense due on and by all adjacent lands lying within one mile of said ditch, according to law, without fear, favor, hatred or hope of reward, to the best of my knowledge and ability. So help me God."

[Acts 1925, S.B. 84.]

#### Art. 6780. Notice of Assessments

The said jury shall issue a written notice to the land owner of each abutting tract along said ditch, and to each land owner, any part of whose land lies within one mile of the line of said ditch, or to his agent or attorney, of the time and place when they will assess the one-half of the expense incidental to the construction of the ditch or ditches specified in the order of appointment; which notice shall be served at least five days before the day named therein, by any person competent to testify; and a duplicate of said notice, together with the returns of said service, shall be returned and filed with the report of the jury of viewers. If such owner is a non-resident of the county, and has no resident, agent or attorney therein, the notice shall be given by publication in a newspaper published in the county, as notices are required to be given to non-resident defendants in actions in the district courts; and said notices shall be complete after four weeks publication thereof prior to the date named for the meeting of the jury of view, and at any time thereafter the jury of viewers may proceed to assess the proportionate part of such expense against said non-resident land owner, and the land owned by him subject thereto. The cost of such publication shall be paid by the county, on an order of the commissioners court.

[Acts 1925, S.B. 84.]

#### Art. 6781. Claims

Any person whose land may be affected by such ditch may appear before said viewers and freely express his opinion on all matters pertaining to the assessment of expense against him. The owner of any such lands may at the time stated in such notice, or previously thereto, present to the jury a written statement of any objections to, or dissatisfaction therewith, and any claim for damages which he may have sustained by reason of making said ditch or drain; and a failure to so make such objection or claim for damages or compensation shall be deemed a waiver of all claim or right thereto. All such claims or objections shall be returned to the commissioners court in connection with the report of the viewers. Any adjacent land owner may appear before and be heard by the commissioners court on his protest or remonstrance or claim against the action of said jury.

[Acts 1925, S.B. 84.]

#### Art. 6782. Appeals

Any person, firm or corporation, aggrieved by any such assessments, may appeal from the final order of the commissioners court approving the report of said jury to any proper court within the county by giving notice of appeal in open court and having the same entered as a part of the judgment of the court, and by filing within ten days thereafter, a transcript of the proceeding had in the commissioners court, with the justice or clerk of the court to which appeal is taken, together with an appeal bond, with at least two good sureties, to be approved by such clerk or justice, in double the amount of the probable costs to accrue, conditioned that the appellant will prosecute his appeal to effect, and pay all costs that may be adjudged against him in said court. Appeals from an assessment of expense shall be heard upon this issue: whether the assessments made against the appellant for the construction of such ditch are in proportion to the benefits to be derived therefrom. Appeals from an assessment of compensation shall be heard upon this issue: whether the assessment of compensation made by the jury is adequate to the injury occasioned and to the value of the land.

[Acts 1925, S.B. 84.]

#### Art. 6783. Trial on Appeal

In the trial of all such appealed cases the burden of proof shall rest upon the appellant; and the court or jury trying the cause shall state the correct amount of expense chargeable to appellant, or the correct amount of compensation due to appellant as found by them, and the same shall be entered as the judgment of the court thereon, and from such judgment no further appeal shall be allowed to either party. If the verdict of the jury shall find the appellant chargeable with a less amount of expense, or that the appellant is entitled to a greater amount of compensation as damages, than was found by the jury of viewers, the costs shall be adjudged against the county; otherwise the same shall be adjudged against the appellant. Within five days after the entry of such judgment, the clerk or justice shall issue and return to the commissioners court a certified copy of such judgment, to be filed with the papers pertaining to such ditch, and the same shall be entered by the commissioners court as the judgment of said court, and thereafter the appellant shall be held for, or claim, the amount specified in said judgment.

[Acts 1925, S.B. 84.]

#### Art. 6784. Appropriation: Construction

The commissioners court of such county may, at the next term thereof, after the filing of the report of the jury of viewers and the entry of the order approving the same, if the report be approved, make an order setting aside such portion of the road and bridge fund, and such portion of the special road and bridge fund as may be necessary for the construction of the ditch described in the report of the jury of viewers, and shall also enter an order to the

overseers of the road adjoining said ditch or to the supervisors of the road, or to the road commissioner, commanding him to construct such ditch in accordance with the specifications of the surveyor, which shall be turned over to him for his information, and that the earth taken therefrom shall be used in making a raised road adjoining said ditch. The court shall further order that all the road hands apportioned to said road, and that any teams, tools or materials, belonging to the county, and necessary to the execution of such work, be apportioned to said overseer, supervisor or commissioner, for the completion thereof; and shall authorize such overseer, supervisor or commissioner to employ such additional labor and teams, and to purchase tools and implements as may be necessary, to be paid for out of the road and bridge fund set aside therefor, on the order of the commissioners court, and said order shall also show the amount of compensation to be allowed to said overseer, supervisor, or road commissioner for his services.

[Acts 1925, S.B. 84.]

#### Art. 6785. Special Overseer

The commissioners court may employ some suitable and competent person, other than the overseer, road commissioner or supervisor, if to the best interest of the county, and such person shall have the same powers, duties and responsibilities as provided for overseers, road commissioners, and supervisors in the preceding article, and the court shall enter an order showing the amount of compensation to be paid him for his services.

[Acts 1925, S.B. 84.]

#### Art. 6786. List of Assessments

At the same or at any succeeding term after the entry of such order for the construction of the ditches and roadway, the commissioners court shall make and enter upon the minutes of the court a list showing the names of the owners, amounts due, the tract of land, original grantees, number of acres covered by each assessment of expense, as made and reported by the jury of viewers and approved by the court; and the county clerk shall issue a certificate against each person on said list showing the amount of each assessment and for what ditch or road the same was issued, and the tract of land on which said amount was assessed. Such certificate shall be signed by the county judge in open court, and attested under the hand and seal of the county clerk, which fact shall be noted upon the minutes of said court.

[Acts 1925, S.B. 84.]

#### Art. 6787. Assessments: Collection

All assessments, sums, and charges by said viewers, or order of court, assessed against any land and the owner thereof, shall be a lien thereon, unless prohibited by the Constitution of this State. The county judge shall deliver the certificate to the county treasurer, taking his receipt therefor, which shall be filed with

the papers and archives concerning such ditch; and the county treasurer shall collect the sums due on such certificates, and deposit the amount so collected to the credit of the road and bridge fund. If any person against whom any such certificate may be issued fails or refuses to pay the same to the county treasurer on demand therefor, such treasurer shall turn same over to the county attorney, who shall at once file suit thereon, and have the lien on said land foreclosed, or for a personal judgment as may be lawful.

[Acts 1925, S.B. 84.]

#### Art. 6788. Compensation

The jury of viewers shall each receive three dollars per day for their services for each day so actually engaged; and said surveyor shall receive such sum as the commissioners court may allow.

[Acts 1925, S.B. 84.]

#### Art. 6789. Private Ditch

Any owner of lands or tracts of land abutting on said road or ditch, or the owner of any tract of land lying wholly or partially within one mile of such road or ditch, may construct at his own cost lateral drainage ditches and connect the same with such main ditch or ditches as shall be constructed under the provisions of this subdivision.

[Acts 1925, S.B. 84.]

#### Art. 6789a. Acquiring Right of Way for Diversion of Streams and Drainage Channels in Locating, Relocating, or Maintaining Roads

Any Commissioners' Court is hereby authorized and empowered to acquire by purchase or by condemnation any new or wider right-of-way or land not exceeding one hundred (100) feet in width for stream bed diversion and drainage channels only in connection with the locating, relocating, construction, reconstruction or maintenance of any public road, and to pay for the same out of the County Road and Bridge Fund or out of any available county funds.

- 6790. Election.
- 6791. Election, Conduct of.
- 6792. Result of Election.
- 6793. No Bonds to Issue.

#### Art. 6790. Election

The commissioners court shall order an election upon presentation to it at any regular session of a petition signed by two hundred qualified voters and property tax payers of the county, or a petition of fifty persons so qualified in any political subdivision or defined district of the county, requesting said court to order an election to determine whether said court shall levy upon the property within said terri-

tory a road tax not to exceed fifteen cents on the one hundred dollars worth of property, under the provisions of the amendment of 1889 to the Constitution of the State of Texas, adopted in 1890. Said court may act on such petition without notice, and may make an order for such election, fixing the amount to be levied, not to exceed fifteen cents on the one hundred dollars, the election to take place at any time thereafter, not less than twenty nor more than ninety days from the date of making the order therefor. Upon a petition signed by a majority of the qualified tax paying voters of any portion of any county or of any political subdivision of any county, to said court requesting that such portion of said county or political subdivision shall be created as a defined district, the said court shall declare such territory a defined district and spread the order for same upon the minutes of said court; provided the petition aforesaid shall define by metes and bounds the territory desired to be so incorporated in such defined district.

[Acts 1925, S.B. 84.]

**Art. 6791. Election, Conduct of**

No formal notice need be given of such election, but the county judge shall issue his election proclamation; and the fact that such election is to be held shall be published in the newspapers of the county or political subdivision or defined district as fully as practicable. Tickets for the election shall be printed by the county and sent to each voting precinct by the county judge before the election opens, and as long before such time as practicable. The tickets printed and to be voted shall have written or printed on them the words: "For the Tax" and "Against the Tax," and those who favor the tax shall vote the ticket "For the Tax," and those who oppose the tax shall vote the ticket "Against the Tax." The expenses of the election shall be paid for by the county. An election ordered within ninety days of a general election shall be held on the day of the general election, and as elections on other questions are held, but otherwise the commissioners court shall order a special election which shall be conducted as other elections. The officers to conduct the same shall be appointed as in other cases. Only qualified voters who pay a property tax in the county or political subdivision or defined district shall be permitted to vote at such election.

[Acts 1925, S.B. 84.]

**Art. 6792. Result of Election**

If at any such election a majority of the qualified voters voting thereat shall vote for such tax, it shall not be necessary to make further proclamation of that fact than to count the votes, as in other cases, and officially announce the result, and the commissioners court shall thereby be authorized and required to levy a road tax in the same manner that other taxes are levied in the amount specified in said order for such election, never to exceed fifteen cents on the one hundred dollars worth of

property. Such levy shall be made at the same time other county taxes are levied, if such election is held in time therefor, but otherwise it may be made at any time before the rolls are made out. If at the election, the proposition for said tax shall carry, no petition for its repeal shall be granted in less than two years. But if it fail to carry, another petition may be granted in one year, but not sooner; and the order granting the second or any subsequent petition may fix a greater or less rate of levy, not to exceed fifteen cents on the one hundred dollars worth of property, and if no greater rate is levied for any one year the commissioners court may lower the rate for the next year without a petition therefor. An election to repeal the levy may be ordered and held as in other cases, but there must be satisfactory proof presented to said commissioners court that there is great dissatisfaction with such tax and that it is probable that a majority of the citizens of the county or political subdivision or defined district who are authorized to vote for said tax would vote for the repeal of the law, and unless such proof be made the petition to repeal shall be denied.

[Acts 1925, S.B. 84.]

**Art. 6793. No Bonds to Issue**

No bonds shall ever be issued under the provisions of this chapter.

[Acts 1925, S.B. 84.]

**Art. 6794. Commissioners Court: Powers**

The commissioners court shall have full power and authority to cause all necessary bridges to be built and kept in repair in their respective counties, and to make necessary appropriations of money of the counties therefor.

[Acts 1925, S.B. 84.]

**Art. 6795. Toll Bridges**

When it is inexpedient for the road force to build bridges over large creeks or water courses, the commissioners court may contract with a proper person to build a toll bridge, for which the court shall lay the toll to be levied on all persons, cattle, horses, vehicles, etc., passing over the same, to be granted to the contractor for such a number of years as said court may think proper, not to exceed ten years; and the builder and his successors shall keep the bridge in constant repair during the term of the contract, and in default thereof shall forfeit all right and claim to the toll of such bridges. Before granting a license to any person to build a toll bridge, the commissioners' court shall take bond in the sum of one thousand dollars, with good and sufficient sureties, conditioned that the contractor shall build and keep in constant repair the bridges so contemplated for the term of years agreed upon. If any person shall sustain damages in consequence of the owner or keeper of any toll bridge not having complied with the conditions of his bond, the person so damaged may bring an action of debt against the owner or keeper of such toll bridge on his or their bond, in the county in which such license was granted, and recover judgment for the damages so sustained.

[Acts 1925, S.B. 84.]

**Art. 6795a. Tunnel or Underpass Authorized in Counties of 350,000****Franchise, Authority to Grant**

Sec. 1. The Commissioners' Court situated within any County having not less than three hundred and fifty thousand (350,000) population, according to the last preceding Federal Census shall have full power and authority to grant to a person, firm or private corporation, a franchise for the construction, maintenance and operation of a toll underpass or tunnel under any stream, channel or body of water in the State of Texas and necessary approaches thereto and to enter into a contract with such person, firm and/or corporation to finance, build, construct, own, maintain, and operate such toll underpass or tunnel and approaches, with a reasonable toll charge to be agreed upon, to be levied upon or charged all railroads, persons, vehicles, cattle, motor cars and motor busses and/or other vehicles of transportation passing through said tunnel or underpass; said franchise to be granted to said person, firm or corporation for such number of years as the Court may think proper not to ex-

ceed fifty (50) years and such contract and franchise to provide that such persons, firm or corporation shall keep said tunnel and/or underpass and approaches in continuous repair during the term of said contract or franchise; the granting of said franchise shall be conditioned that the contractor shall build and keep in continuous repair the tunnel or underpass and approaches so contemplated for the term of years agreed upon, in accordance with the plans and specifications therefor set out in said contract and franchise.

**Option of County to Purchase**

Sec. 2. The Commissioners' Court may provide in said contract and franchise that the county shall have the right to purchase said tunnel and/or underpass at a time and for a price to be agreed upon in said contract or franchise.

**Regulations as to Crossing Under Navigable Stream**

Sec. 3. Said tunnel or underpass when crossing a navigable stream shall be located, built and constructed at an adequate depth below the fixed navigable depth of such navigable stream, river or channel, as may be provided by law or by the rules and regulations of the State authorities and/or Department of the United States Government having control or charge of said river, stream or channel and said franchise from the Commissioners' Court of the County wherein such tunnel or underpass is to be built, constructed, operated and maintained, shall so provide.

**Eminent Domain**

Sec. 4. The right of eminent domain is hereby conferred upon counties of the State of Texas for the purpose of condemning and acquiring land right of way or easement in land, where said land right of way or easement is necessary for the purposes of the construction of said tunnels or underpasses and approaches thereto.

**Tolls Authorized; Loan of Public Funds**

Sec. 5. Such county, through the Commissioners' Court, is hereby authorized and empowered as a part of its road and bridge system, to construct, build, acquire, own and operate an underpass or tunnel with necessary approaches and to charge tolls therefor and/or operate same upon free service or upon free and toll service, as may be provided by the Commissioners' Court, and is hereby authorized to enter into such contract or agreement relative to grants or loans of public funds by the United States Government as may be necessary to carry out the purposes of this Act.

**Partial Invalidity**

Sec. 6. The provisions of this Act shall be severable and if any of its provisions shall be held to be unconstitutional the decision so holding shall not be construed to affect the validity of any of the remaining provisions of this Act. It is hereby declared as the legislative intent that this Act would have been

adopted had such unconstitutional provision not been included therein.

Repeals

Sec. 7. That all laws and parts of laws in conflict with the provisions of this Act be and the same are hereby repealed.

[Acts 1935, 44th Leg., 1st C.S., p. 1644, ch. 419, § 1.]

**Art. 6795b. Causeways, Bridges, and Tunnels Authorized in Gulf Coast Counties of 20,000 or More**

Construction and Operation Authorized; Cost and Expenses

Sec. 1. Any county in the State of Texas which borders on the Gulf of Mexico and which has a population of twenty thousand (20,000) or more, according to the last Federal Census, preceding the authorization of bonds hereunder, acting through its Commissioners Court, is hereby authorized and empowered to construct, acquire, improve, operate, and maintain a causeway, bridge, tunnel, or any combination of such facilities, including all necessary approaches, fixtures, accessories, and equipment (all of which are hereinafter referred to as "the project") from one point in said county to another, in, over, through, or under the waters of the Gulf of Mexico or any bay or inlet opening thereinto, and to issue its revenue bonds payable solely from the revenues to be derived from the operation thereof, to pay the cost of such construction, acquisition, or improvement. The cost of the project shall be considered to include the cost of construction, the cost of all property, real, personal, and mixed, and all appurtenances, easements, contracts, franchises, pavements, and properties of every nature, used or useful in connection with the construction, acquisition, improvement, operation, and maintenance of the project; shall include the payment of the cost of condemning any such property, including both the payment of the award and the payment of the court costs and attorneys fees; shall include the payment of all legal, fiscal, and engineering expenses incurred in connection with the acquisition and construction of the project and the making of preliminary surveys and investigations and the authorization and issuance of the revenue bonds; and shall include the payment of interest on the bonds prior to and during the period occupied by the construction of the project and for one year thereafter. If the Commissioners Court shall consider it desirable to acquire, through purchase or lease, existing ferry properties for the purpose of operating such properties during the period of construction, over the route to be traversed by the project, such properties may be so acquired and the cost thereof paid from the proceeds of the bonds. Any preliminary expenses paid from county funds shall be repaid to such funds from the proceeds of the bonds when available, and all engineering and fiscal contracts and agreements for such projects heretofore entered into are hereby validated and confirmed; provided, however, that

nothing in this Act shall authorize the construction of a bridge over and across any ship channel or waterway with a maintained depth of twenty (20) feet or more.

Bonds; Charge Only on Revenues of Project; Approval and Registration

Sec. 2. No bonds authorized hereunder shall ever be a debt of the county issuing them, but shall be solely a charge upon the revenues of the project and shall never be reckoned in determining the power of the county to issue any bonds for any purpose authorized by law. Each such bond shall contain this clause: "The holder hereof shall never have the right to demand payment of this obligation out of any funds raised or to be raised by taxation." Bonds issued hereunder may be presented to the Attorney General for his approval in the same manner and with like effect as is provided for the approval of tax bonds issued by counties. In such case the bonds shall be registered by the State Comptroller as in the case of other county bonds.

Acceptance of Federal Aid; Contracts; Acquisition of Property

Sec. 3. Any county proceeding hereunder may accept any loan, gift, or grant from the United States of America or the State of Texas, or any agency or instrumentality thereof, and may enter into any agreement or agreements not prohibited by the constitution which may be necessary to obtain such loan, grant, or gift. Construction contracts may be awarded with or without advertised notice for bids in such manner as may be deemed advisable by the Commissioners Court. Such county may enter on any lands, waters, and premises for the purpose of making surveys, soundings, and examinations, and if considered advisable may exercise the right of eminent domain and may institute condemnation proceedings under the provisions of any pertinent general law of Texas for the purpose of acquiring any property to be used or useful in connection with the project. The county shall be under no obligation to accept and pay for any property condemned and shall in no event pay for same except from the proceeds derived from the sale of the revenue bonds, and in any condemnation suit the Court having jurisdiction may make such orders as may be just to the county and to the owners of the property to be condemned. Upon the institution of any such condemnation proceedings and upon tender of a bond or other security in sufficient sum to secure the owner or owners for damages and upon approval of such bond or other security by the Court, the county shall have the right to immediate possession of the property which is the subject matter of the condemnation proceedings and may enter thereon. The State of Texas hereby expressly grants to any such county full easements and rights of way through, across, under, and over any lands or property owned by the State which may be necessary or convenient to the construction, acquisition or efficient operation of the project.

## Bonds; Tolls; Trust Indenture

Sec. 4. Bonds issued hereunder may be authorized by resolution at one time or from time to time. Such bonds shall be payable solely from the revenues to be derived from the operation of the project and it shall be the mandatory duty of the county to impose such tolls and charges for use of the project as will be fully sufficient to operate and maintain the project, pay principal of and interest on the bonds when due and establish such reserve therefor as may be provided, and establish an adequate fund for depreciation and replacement. The Commissioners Court shall have full discretion in fixing the details of the bonds and in determining the manner of sale thereof, provided that the bonds shall not run more than forty (40) years from their date, and that the interest rate and sale price shall be such that the interest cost of the bonds shall not exceed six (6) per cent per annum, computed on average maturities according to standard tables of bond values. The bonds may be made redeemable prior to maturity in such manner and at such prices as may be determined by the Commissioners Court prior to the issuance of the bonds. All bonds issued hereunder shall and are hereby declared to have all of the qualifications and incidents of negotiable instruments under the Negotiable Instruments Law of Texas.<sup>1</sup> Provision may be made for registration of such bonds as to principal or interest or both. The proceeds of the bonds shall be used solely to pay the cost of the project as above defined, and shall be disbursed under such restrictions as may be provided in the bond resolution or trust indenture hereinafter mentioned, and there shall be and is hereby created and granted a lien upon such moneys until so applied in favor of the holders of the bonds or any trustee provided for in respect of such bonds. Unless otherwise provided in such resolution or indenture, if the proceeds of the bonds prove insufficient to pay the cost of the project, additional bonds may be issued to the amount of the deficit and shall be deemed to be of the same issue and entitled to payment from the same fund without preference or priority of the bonds first issued. Any surplus remaining from bond proceeds after the cost of the project has been paid in full shall be used in paying interest on and retiring bonds. Prior to the issuance of definitive bonds, temporary or interim bonds, with or without coupons, exchangeable for definitive bonds may be issued. Such bonds may be authorized and issued without any proceedings or the happening of any conditions or things or the publication of any proceedings or notices other than those specifically specified and required by this Act, and may be authorized and issued without regard to the requirements, restrictions, or procedural provisions contained in any other law. The resolution authorizing the bonds may provide that such bonds shall contain a recital that they are issued pursuant to this Act and such recital shall be conclusive

evidence of their validity and the regularity of their issuance.

If so provided by the Commissioners Court, the bonds may be secured by a trust indenture by and between the county and a corporate trustee, which may be any trust company or bank having the powers of a trust company within or outside of the State of Texas. Such trust indenture may pledge or assign tolls and revenues but shall not convey or mortgage the project itself or any part thereof. Either the resolution providing for the issuance of the bonds or such trust indenture may contain such provisions for protecting and enforcing the rights and remedies of the bondholders as may be reasonable and proper and not in violation of law, including covenants setting forth the duties of the county in relation to the acquisition of properties and the construction, maintenance, operation, repair, and insurance of the project, and the custody, safeguarding, and application of all moneys. It shall be lawful for any bank or trust company in this State to act as depository of the proceeds of the bonds or revenues derived from the operation of the project and to furnish such indemnity bonds or to pledge such securities as may be required by the county. Such bond resolution or indenture may set forth the rights and remedies of the bondholders and of the trustee and may restrict the individual rights of action of the bondholders. In addition to the foregoing, such bond resolution or trust indenture may contain such other provisions as the Commissioners Court may deem reasonable and proper for the security of the bondholders including, but without limitation, covenants prescribing all happenings or occurrences which constitute events of default and the terms and conditions upon which any or all of the bonds shall become or may be declared to be due before maturity and as to the rights, liabilities, powers, and duties arising upon the breach by the county of any of its duties or obligations.

<sup>1</sup> Articles 5932 to 5948 (repealed; see, now, Business and Commerce Code, § 3.101 et seq.).

## Rights of Bondholders or Trustee for Bondholders; Receiver

Sec. 5. Any holder or holders of bonds issued hereunder, including a trustee or trustees for such holders, shall have the right in addition to all other rights by mandamus or other proceeding in any court of competent jurisdiction to enforce his or their rights against the county and its employees and against any board which may be created to operate the project and against the agents and employees thereof, including, but not limited to, the right to require the county and such board to impose and collect sufficient tolls and charges to carry out the agreements contained in the bond resolution or trust indenture and to perform all agreements and covenants therein contained and duties arising therefrom, and to apply for and obtain the appointment of a receiver for the project. If such receiver be appointed, he may enter, and take possession of the project

and maintain the project and collect and receive all revenues and tolls arising therefrom in the same manner as the county itself might do and shall dispose of such moneys and apply same in accordance with the obligations of the county under the bond resolution or trust indenture and as the Court may direct.

#### Board of Trustees to Manage Project

Sec. 6. The management and control of the project during such time as any of the bonds remain outstanding may by the terms of the bond resolution or trust indenture be placed in the hands of a Board of Trustees to be named therein, consisting of not more than five (5) members, to be appointed in such manner and to have such powers and duties as may be therein provided.

#### Bonds Free From Taxation

Sec. 7. The accomplishment of the purposes stated in this Act being for the benefit of the people of this State and for the improvement of their commerce and property, the county in carrying out the purposes of this Act will be performing an essential governmental function and shall not be required to pay any tax or assessment on the project or any part thereof, and the bonds issued hereunder and their transfer and the income therefrom, including any profits made on the sale thereof, shall at all times be free from taxation within this State.

#### Powers of Counties and of State Highway Commission

Sec. 8. The powers herein granted may be carried out by such counties and the projects may be acquired and operated and tolls and charges fixed and maintained without the consent, approval, supervision, or regulation of any commission, department, bureau, agency, or officer of the State of Texas, provided however, that nothing in this Section shall be construed to prevent the State Highway Commission from operating and maintaining the project or contributing to the cost of such maintenance under such provisions not inconsistent with the rights of bondholders as may be agreed to by the county. The State Highway Commission shall have authority without further legislative enactment to make such provision for and contributions toward maintenance of the project as it may see fit, and to lease the project under such terms not inconsistent with the provisions of the bond resolution or trust indenture as may be agreed upon with the county, and to declare the project or any part thereof to be a part of the State Highway System and to operate the project or such part thereof as a part of the State Highway System, provided, however, that such declaration may be made and such operation undertaken only to the extent that property and contract rights in the project and in the bonds are not unfavorably affected thereby. When all of the bonds and interest thereon shall have been paid, or a sufficient amount for the payment of all bonds and the interest thereon to maturity shall have been set aside in a trust fund for

the benefit of the bondholders and shall continue to be held for that purpose, the project shall become a part of the State Highway System and shall be maintained by the State Highway Commission, free of tolls.

#### Refunding Bonds

Sec. 9. Subject to any restrictions which may appear in the aforesaid trust indenture or bond resolution, the Commissioners Court may by resolution provide for the issuance of bonds for the purpose of refunding any bonds issued under this Act and at the time outstanding. The issuance of such refunding bonds, the maturities and other terms thereof, the rights of the holders thereof, and the duties of the county in respect to the same, shall be governed by the foregoing provisions of this Act in so far as the same may be applicable, but no such refunding bonds shall be delivered unless delivered in exchange for the bonds authorized to be refunded thereby or unless sold and delivered to provide funds for the payment of matured or redeemable bonds maturing or redeemable within three (3) months.

#### Repeal

Sec. 10. House Bill No. 9, Chapter 32, Acts, Fourth Called Session, Forty-third Legislature, is hereby repealed.

#### Partial Invalidity

Sec. 11. That if any clause, sentence, paragraph, or part of this Act shall for any reason be adjudged by any Court of competent jurisdiction to be invalid or ineffective, such judgment shall not affect, impair, or invalidate the remainder of this Act, but shall be confined in its operation to the clause, sentence, paragraph, or part thereof directly involved in the controversy in which such judgment has been rendered.

[Acts 1941, 47th Leg., p. 822, ch. 509; Acts 1947, 50th Leg., p. 106, ch. 73, § 1; Acts 1959, 56th Leg., p. 25, ch. 15, § 1.]

#### Art. 6795b-1. Causeways, Bridges, and Tunnels Authorized in Gulf Coast Counties of 50,000 or More

##### Construction and Operation Authorized; Cost and Expenses

Sec. 1. Any county in the State of Texas which borders on the Gulf of Mexico and which has a population of fifty thousand (50,000) or more, according to the last Federal Census preceding the authorization of bonds hereunder, acting through its Commissioners Court, is hereby authorized and empowered to construct, acquire, improve, operate and maintain a causeway, bridge, tunnel, or any combination of such facilities, including all necessary approaches, fixtures, accessories, and equipment (all of which are hereinafter referred to as "the project") from one (1) point in said county to another, or from one (1) point in said county to a point in another county (regardless of the population of such other county), in, over, through or under the waters of the Gulf of Mexico or any bay or inlet open-

ing thereinto, and to issue its revenue bonds payable solely from the revenues to be derived from the operation thereof, to pay the cost of such construction, acquisition, or improvement. Among other things, the cost of the project may include the following: the cost of construction; the cost of all property, real, personal, and mixed, and all appurtenances, easements, contracts, franchises, pavements, and properties of every nature, used or useful in connection with the construction, acquisition, improvement, operation, and maintenance of the project; the payment of the cost of condemning any such property, including both the payment of the award and the payment of the court costs and attorneys fees; the payment of all legal, fiscal, and engineering expenses incurred in connection with the acquisition and construction of the project and the making of preliminary surveys and investigations and the authorization and issuance of the revenue bonds; and the payment of interest on the bonds prior to and during the period occupied by the construction of the project and for one (1) year thereafter. If the Commissioners Court shall consider it desirable to acquire, through purchase or lease, existing ferry properties for the purpose of operating such properties during the period of construction, over the route to be traversed by the project, such properties may be so acquired and the cost thereof paid from the proceeds of the bonds. Any preliminary expenses paid from county funds shall be repaid to such funds from the proceeds of the bonds when available, and all engineering and fiscal contracts and agreements for such projects heretofore entered into are hereby validated and confirmed. Where any causeway, bridge, tunnel, or combination thereof constructed or acquired and financed hereunder extends from a point in the county issuing the bonds to a point in another county, it may be so constructed or acquired only after there shall have been adopted by the Commissioners Court of the county not issuing the bonds, a resolution approving and consenting to such construction or acquisition, and the Commissioners Court of any such county is hereby authorized to adopt such resolution. So long as and to the extent that the project, or part thereof, has not been designated as part of the State Highway System, that part of the project (which has not been so designated) in each county shall be considered a part of the county road system of such county, and all laws relating to the maintenance of county roads are hereby made applicable to any project constructed or acquired hereunder in so far as they do not conflict with the provisions hereof; and each county into which the project extends may acquire necessary lands or right of ways or other property by purchase, condemnation or otherwise, under the General Laws of Texas, and the county issuing the bonds shall have such powers with respect to necessary lands or right of ways or other property in each county into which the project extends; provided that provision for the payment

of the purchase price, award, or other costs may be upon such terms as may be agreed upon by the Commissioners Courts of the county issuing the bonds and the other county, and the proceeds of the bonds issued hereunder may be used for such purposes; and provided, further, that no election shall be necessary to authorize the issuance of any bonds issued hereunder payable solely from revenues, but in case no election is held, notice of intention to issue such bonds shall be given as provided in Sections 2 and 3 of the Bond and Warrant Law of 1931, as amended, and the authority to issue such bonds shall be subject to the right of referendum provided in Section 4 of said Law. Bonds authorized to be issued under this law shall not be sold initially for less than par and accrued interest. No funds raised or to be raised by taxation in any county shall be expended on any such project extending between two (2) counties unless the Commissioners Court of such county is authorized to expend such funds by a vote of the electors qualified to vote at an election called by the Commissioners Court for such purpose. Notice of such election shall be published once a week for two (2) consecutive weeks in a newspaper of general circulation in said county, the first publication to be not less than fifteen (15) days prior to the date of said election.

**Bonds; Charge Only on Revenues of Projects; Approval and Registration; Alternative Methods; Elections**

Sec. 2. Except as expressly provided in this Section, no bonds authorized hereunder shall ever be a debt of the county issuing them, but shall be solely a charge upon the revenues of the project and shall never be reckoned in determining the powers of the county to issue any bonds for any purpose authorized by law. Each such bond shall contain this clause: "The holder hereof shall never have the right to demand payment of this obligation out of any funds raised or to be raised by taxation." Bonds issued hereunder may be presented to the Attorney General for his approval in the same manner and with like effect as is provided for the approval of tax bonds issued by counties. In such case the bonds shall be registered by the State Comptroller as in the case of other county bonds. But notwithstanding any limitations in this Act or in the law which it amends, any county proceeding hereunder after this amendatory Act becomes effective may issue bonds for such purpose secured by any one of the following methods:

(a) Solely by the pledge of revenues as prescribed hereinabove in this Section and elsewhere in Chapter 304, Acts of the Regular Session of the Fiftieth Legislature; or

(b) A pledge of and payable from either an ad valorem tax levied out of the Road and Bridge Fund Tax authorized for counties under Article 8, Section 9 of the Constitution, or an unlimited ad valorem tax authorized under Article 3, Section 52 of

the Constitution and laws enacted pursuant thereto; or

(c) A designated part of the bonds to be secured solely by a pledge of revenues as provided under sub-section (a) and a designated part of the bonds to be secured by pledges of such ad valorem tax as provided under sub-section (b) of this Section; or

(d) A combination of the methods prescribed under sub-sections (a) and (b) wherein all of the bonds are to be supported and secured by such ad valorem tax with the duty imposed on the County to collect tolls for use of the facilities so long as any of the bonds are outstanding so that in the manner to be prescribed in the bond resolution or the trust indenture the amount of the tax to be collected from time to time may be reduced or abated to the extent that the revenues from the operation of the facilities are sufficient to meet the requirements for operation and maintenance and to provide funds for the bonds as prescribed in the indenture.

But no such bonds wholly or partially supported by an ad valorem tax shall be issued unless and until they shall have been authorized at an election at which the question of their issuance shall have been submitted. If the bonds are to be supported by a limited ad valorem tax they must have been authorized by not less than a majority vote at an election called and held substantially in the manner prescribed for the issuance of county bonds in Chapter 1 of Title 22 of the Revised Civil Statutes of Texas as amended. If the bonds are to be supported by an unlimited tax they must have been authorized by not less than a two-thirds majority vote at an election called and held substantially in the manner prescribed for the issuance of unlimited tax county road bonds in Chapter 3 of Title 22 of the Revised Civil Statutes of Texas, as amended.

**Federal or State Aid; Contracts; Acquisition of Property**

Sec. 3. Any county proceeding hereunder may accept any loan, gift, or grant from the United States of America or the State of Texas, or any agency or instrumentality thereof, and may enter into any agreement or agreements not prohibited by the Constitution which may be necessary to obtain such loan, grant, or gift. Construction contracts may be awarded with or without advertised notice for bids in such manner as may be deemed advisable by the Commissioners Court. Such county may enter on any lands, waters, and premises for the purpose of making surveys, soundings, and examinations, and if considered advisable may exercise the right of eminent domain and may institute condemnation proceedings under the provisions of any pertinent General Law of Texas for the purpose of acquiring any property to be used or useful in connection with the project. In any condemnation suit the Court having jurisdiction may make such orders as may be just to the county and to the owners of the property to be condemned. Upon the insti-

tution of any such condemnation proceedings and upon tender of a bond or other security in sufficient sum to secure the owner or owners for damages and upon approval of such bond or other security by the Court, the county shall have the right to immediate possession of the property which is the subject matter of the condemnation proceedings and may enter thereon. The State of Texas hereby expressly grants to any such county full easements and right of ways through, across, under, and over any lands or property owned by the State which may be necessary or convenient to the construction, acquisition or efficient operation of the project.

**Bonds; Tolls; Trust Indenture**

Sec. 4. The bonds issued hereunder may be authorized by resolution at one time or from time to time. Such bonds shall be payable solely from the revenues to be derived from the operation of the project and it shall be the mandatory duty of the county to impose such tolls and charges for use of the project as will be fully sufficient to operate and maintain the project, pay principal of and interest on the bonds when due and establish such reserve therefor as may be provided, and establish an adequate fund for depreciation and replacement. The Commissioners Court shall have full discretion in fixing the details of the bonds and in determining the manner of sale thereof, provided that the bonds shall not run more than forty (40) years from their date, and that the interest rate and sale price shall be such that the interest cost of the bonds shall not exceed six per cent (6%) per annum, computed on average maturities according to standard tables of bond values. The bonds may be redeemable prior to maturity in such manner and at such prices as may be determined by the Commissioners Court prior to the issuance of the bonds. All bonds issued hereunder shall and are hereby declared to have all of the qualifications and incidents of negotiable instruments under the Negotiable Instruments Law of Texas.<sup>1</sup> Provision may be made for registration of such bonds as to principal or interest or both. The proceeds of the bonds shall be used solely to pay the cost of the project as above defined, and shall be disbursed under such restrictions as may be provided in the bond resolution or trust indenture hereinafter mentioned, and there shall be and is hereby created and granted a lien upon such moneys until so applied in favor of the holders of the bonds or any trustee provided for in respect of such bonds. Unless otherwise provided in such resolution or indenture, if the proceeds of the bonds prove insufficient to pay the cost of the project, additional bonds may be issued to the amount of the deficit and shall be deemed to be of the same issue and entitled to payment from the same fund without preference or priority of the bonds first issued. Any surplus remaining from bond proceeds after the cost of the project has been paid in full shall be used in paying interest on and retiring

bonds. Prior to the issuance of definitive bonds, temporary or interim bonds, with or without coupons, exchangeable for definitive bonds may be issued. Such bonds may be authorized and issued without any proceedings or the happening of any conditions or things or the publication of any proceedings or notices other than those specifically specified and required by this Act, and may be authorized and issued without regard to the requirements, restrictions, or procedural provisions contained in any other law. The resolution authorizing the bonds may provide that such bonds shall contain a recital that they are issued pursuant to this Act and such recital shall be conclusive evidence of their validity and the regularity of their issuance.

If so provided by the Commissioners Court, the bonds may be secured by a trust indenture by and between the county and a corporate trustee, which may be any trust company or bank having the powers of a trust company within or outside of the State of Texas. Such trust indenture may pledge or assign tolls and revenues but shall not convey or mortgage the project itself or any part thereof. Either the resolution providing for the issuance of the bonds or such trust indenture may contain such provisions for protecting and enforcing the rights and remedies of the bondholders as may be reasonable and proper and not in violation of law, including covenants setting forth the duties of the county in relation to the acquisition of properties and the construction, maintenance, operation, repair, and insurance of the project, and the custody, safeguarding, and application of all moneys. It shall be lawful for any bank or trust company in this State to act as depository of the proceeds of the bonds or revenues derived from the operation of the project and to furnish such indemnity bonds or to pledge such securities as may be required by the county. Such bond resolution or indenture may set forth the rights and remedies of the bondholders and of the trustee and may restrict the individual rights of action of the bondholders. In addition to the foregoing, such bond resolution or trust indenture may contain such other provisions as the Commissioners Court may deem reasonable and proper for the security of the bondholders including, but without limitation, covenants prescribing all happenings or occurrences which constitute events of default and the terms and conditions upon which any or all of the bonds shall become or may be declared to be due before maturity and as to the rights, liabilities, powers and duties arising upon the breach by the county of any of its duties or obligations.

<sup>1</sup> Articles 5932 to 5948 (repealed; see, now, Business and Commerce Code, § 3.101 et seq.).

#### Rights of Bondholders or Trustee for Bondholders; Receiver

Sec. 5. Any holder or holders of bonds issued hereunder, including a trustee or trustees for such holders, shall have the right in addition to all other rights by mandamus or other proceeding in any Court of competent jurisdic-

tion to enforce his or their rights against the county and its employees and against any board which may be created to operate the project and against the agents and employees thereof, including, but not limited to, the right to require the county and such board to impose and collect sufficient tolls and charges to carry out the agreements contained in the bond resolution or trust indenture and to perform all agreements and covenants therein contained and duties arising therefrom, and to apply for and obtain the appointment of a receiver for the project. If such receiver be appointed, he may enter and take possession of the project and maintain the project and collect and receive all revenues and tolls arising therefrom in the same manner as the county itself might do and shall dispose of such moneys and apply same in accordance with the obligations of the county under the bond resolution or trust indenture and as the Court may direct.

#### Contract or Lease Agreement

Sec. 5a. Any county proceeding hereunder after this amendment becomes effective may, within the discretion of the Commissioners Court, to the extent prescribed by the bond resolution or the trust indenture or pursuant to the provisions thereof make a contract or lease agreement under which the facilities may be operated for a period fixed therein not extending beyond the date of the maturity of the last maturing bond, by another agency, person, firm, or corporation, provided that nothing in such contract or lease shall be so interpreted as to interfere with the right of the holders of the bonds or their representatives to require proper operation and maintenance of the facilities and the payments for the benefit of the bonds as prescribed in the bond resolution or in the trust indenture.

#### Bonds Free From Taxation

Sec. 6. The accomplishment of the purposes stated in this Act being for the benefit of the people of this State and for the improvement of their commerce and property, the county in carrying out the purposes of this Act will be performing an essential governmental function and shall not be required to pay any tax or assessment on the project or any part thereof, and the bonds issued hereunder and their transfer and the income therefrom, including any profits made on the sale thereof, shall at all times be free from taxation within this State.

#### Powers of Counties and of State Highway Commission

Sec. 7. The powers herein granted may be carried out by such counties and the projects may be acquired and operated and tolls and charges fixed and maintained without the consent, approval, supervision or regulation of any commission, department, bureau, agency, or officer of the State of Texas, provided, however, that nothing in this Section shall be construed to prevent the State Highway Commission from operating and maintaining the project or contributing to the cost of such operation and

maintenance under such provisions as may be agreed to by the county which are not inconsistent with the rights of bondholders or the rights of any agency, person, firm or corporation then operating the project under lease or contract with the county. The State Highway Commission shall have authority without further legislative enactment to make such provision for and contributions toward operation and maintenance of the project as it may see fit, and to lease the project under such terms not inconsistent with the provisions of the bond resolution or trust indenture as may be agreed upon with the county, and to declare the project or any part thereof to be a part of the State Highway System and to operate the project or such part thereof as a part of the State Highway System, provided, however, that such declaration may be made and such operation undertaken only to the extent that property and contract rights in the project and in the bonds are not unfavorably affected thereby. When all of the bonds and interest thereon shall have been paid, or a sufficient amount for the payment of all bonds and the interest thereon to maturity shall have been set aside in a trust fund for the benefit of the bondholders and shall continue to be held for that purpose, the project shall become a part of the State Highway System and shall be maintained by the State Highway Commission, free of tolls.

#### Contributions by United States or by State

Sec. 7(a). The county is hereby authorized to accept from the United States Government or any of its departments or agencies or from the State of Texas or any of its departments or agencies, any contributions or assistance available from such source or sources in connection with the acquisition, construction and operation of such project and to enter into agreements with one or any of them in reference to the acquisition, construction and operation of the project.

#### Bonds as Legal Investments or Security

Sec. 7(b). All bonds issued under this law before and after this amendment shall be and are hereby declared to be legal and authorized investments for banks, savings banks, trust companies, building and loan associations, savings and loan associations, insurance companies, fiduciaries, trustees, guardians, and for the sinking funds of cities, towns, villages, counties, school districts, or other political corporations or subdivisions of the State of Texas. Such bonds shall be eligible to secure the deposit of any and all public funds of the State of Texas, and any and all public funds of cities, towns, villages, counties, school districts, or other political corporations or subdivisions of the State of Texas; and such bonds shall be lawful and sufficient security for said deposits to the extent of their value, when accompanied by all unmatured coupons appurtenant thereto.

#### Refunding Bonds

Sec. 8. Subject to any restrictions which may appear in the aforesaid trust indenture or bond resolution, the Commissioners Court may by resolution provide for the issuance of bonds for the purpose of refunding any bonds issued under this Act and at the time outstanding. The issuance of such refunding bonds, the maturities and other terms thereof, the rights of the holders thereof, and the duties of the county in respect to the same, shall be governed by the foregoing provisions of this Act in so far as the same may be applicable, but no such refunding bonds shall be delivered unless delivered in exchange for the bonds authorized to be refunded thereby or unless sold and delivered to provide funds for the payment of matured or redeemable bonds maturing or redeemable within three (3) months.

#### Bonds for Payment of Outstanding Toll Bridge Revenue Bonds

Sec. 8(a). When any county has heretofore issued or may hereafter issue bonds under authority of Chapter 304, Acts of the Regular Session of the Fiftieth Legislature, 1947, as amended payable from the net revenues derived from tolls collected for the use of a causeway or bridge and which bonds are also payable from an unlimited tax authorized under Article III, Section 52, of the Constitution, and laws enacted pursuant thereto, such county acting through its Commissioners Court may, after being duly authorized in the manner provided by Article III, Section 52, of the Constitution, and laws enacted pursuant thereto, authorize, issue, and sell its bonds and use the proceeds therefrom in an amount sufficient to call, redeem, and pay off its outstanding tax and revenue bonds pursuant to the terms of said bonds, and thereby remove the pledge of the revenues from such facility and the covenants in connection with said bonds and the operation of said bridge, and make such causeway or bridge available for the free use of the public.

#### Partial Invalidity

Sec. 9. If any clause, sentence, paragraph, or part of this Act shall for any reason be adjudged by any Court of competent jurisdiction to be invalid or ineffective, such judgment shall not affect, impair, or invalidate the remainder of this Act, but shall be confined in its operation to the clause, sentence, paragraph, or part thereof directly involved in the controversy in which such judgment has been rendered.

#### Art. 6795c. Toll Bridges in Counties Bordering River Between Texas and Mexico

##### Acquisition Authorized; Purchase or Condemnation

Sec. 1. Any county in this State which borders on a river between the State of Texas and

the Republic of Mexico, acting through its Commissioners Court, is hereby authorized and empowered as a part of its road and bridge system to acquire a toll bridge or bridges by construction or otherwise, and to acquire any existing toll bridge or bridges with their rights and franchises and appurtenant properties, by purchase thereof from the owner or owners thereof; either by purchase of the properties as such, or, if such toll bridge or bridges are owned by a private corporation, either by purchase from it of the properties, as such, or by purchasing the capital stock of such corporation from the owner or owners of such stock, either all of the outstanding capital stock of such corporation, or a sufficient amount thereof as required under the law for the dissolution and liquidation of such corporation, and immediately liquidating such corporation, paying the debts and obligations or liabilities thereof, and winding up its business and affairs, and causing conveyance of its properties to said county, taking the title to such stock either in the name of such county or in the name of a trustee therefor, and voting or causing such stock to be voted to carry out and accomplish such purposes, all in such manner and to such effect as to vest title to said toll bridge or bridges with all their rights, franchises and appurtenant properties in such county. The purchase and acquisition of any such properties or stock of such corporation from the owner or owners thereof shall be for such price, upon such terms and conditions, and upon such covenants and agreements as may be mutually agreed upon in respect thereto, by and between such owner or owners and the Commissioners Court of such county, the action of the latter being expressed by appropriate resolution or order consistent with the subject and purpose of this Act, but under no event shall the said bridge or bridges be acquired by condemnation under the powers of eminent domain.

**Maintenance and Operation; Eminent Domain;  
Franchises**

Sec. 2. Any such county thus acquiring any such toll bridge or bridges, through its Commissioners Court, shall have power to maintain and operate same, and to own, hold and control same, and to make or cause to be made any repairs, or improvements thereto, and to such end shall have all rights and privileges of acquiring property by condemnation under the power of eminent domain accruing to counties of this State for public purposes under general law. Any such county thus acquiring any such properties shall have the power to renew or extend any franchise therefor, and to obtain new or additional franchises therefor, and to do any and all things required, or that may be proper or necessary to the maintenance and operation thereof, and conduct of the business thereof, and of rendering the services thereof to the public and to the patrons of said bridge or bridges; and to such end and for such purposes shall have power to make and enter into and to carry out, observe, and perform any and

all contracts, agreements, and undertakings, of any and every kind, required by the United States of America or the Republic of Mexico or any of their departments, officers, or governmental agencies, or the public authorities thereof.

**Tolls, Fees and Charges; Power of County to Collect;  
Purpose of Tolls**

Sec. 3. Any such county thus acquiring any such toll bridge or bridges shall have power, through its Commissioners Court as expressed by appropriate resolution or order thereof, to fix and to enforce and collect tolls, fees and charges for the use thereof, and for the passage or transportation of persons or property, passengers, vehicles, freight and commodities, over and across such toll bridge or bridges. Such tolls, fees and charges shall be fixed from time to time by the Commissioners Court and collected under its direction in accordance with the provisions and requirements of any permits or franchises granted or extended by any governmental authority in respect of or applicable thereto; and, subject to the provisions and requirements of such permits or franchises, such tolls, fees and charges shall be just and reasonable and nondiscriminatory, as determined by the Commissioners Court of such county, with no free service until the bonds herein provided to be issued to purchase or otherwise to acquire such properties, together with the interest on such bonds, and all duties and obligations incident thereto or arising therefrom are first fully paid, met and discharged; and, subject to the provisions and requirements of any such permits and franchises, and such tolls, fees and charges shall be sufficient at all times to produce revenues adequate:

(a) To pay all expenses necessary for the maintenance and operation of such toll bridge or bridges, and to comply with the requirements and make all payments necessary under the provisions of any such permits and franchises therefor;

(b) To pay the interest on and the principal of all bonds issued under this Act, when and as the same shall become due and payable;

(c) To pay all sinking fund and/or reserve fund payments agreed to be made in respect of any such bonds, and, payable out of such revenues, when and as the same shall become due and payable; and

(d) To fulfill the terms of any agreements made with the holders of such bonds and/or with any person in their behalf; out of the revenues which may be received in excess of those required for the purposes specified in subparagraphs (a), (b), (c), and (d) above, the Commissioners Court of any such county may in its discretion establish a reasonable depreciation and emergency fund, or retire (by purchase and cancellation or redemption) bonds issued under this Act, or apply the

same to accomplish any of the purposes of this Act.

It is the intention of this Act that the tolls, fees and charges herein provided for shall be those necessary to fulfill all obligations imposed by this Act. Nothing herein shall be construed as depriving the State of Texas of its power to regulate and control tolls and charges to be collected for such purposes, or to provide for bridges over any such river to be used free of any tolls or charges, provided that the State of Texas does hereby pledge to and agree with the purchasers and successive holders of the bonds issued hereunder that the State will not limit or alter the power hereby vested in any such county and the Commissioners Court thereof to establish and collect such fees and charges as will produce revenues sufficient to pay the items specified in subparagraphs (a), (b), (c) and (d) of this Section 3 of this Act, or exercise its powers in any way which may impair the rights or remedies of the holders of the bonds, or of any person acting in their behalf until the bonds, together with interest thereon and with interest on unpaid installments of interest and all costs and expenses in connection with any acts or proceedings by or on behalf of the bondholders and all other obligations of any such county in connection with such bonds are fully met and discharged.

with its rights and franchises and appurtenant properties from the owner or owners thereof, or such part or portion thereof as may be purchased by any such county as herein provided for, either by purchase of the properties, as such, or by using such bonds or the proceeds of the sale thereof for the purchase from any owner or owners thereof of the stock of any corporation owning such toll bridge or bridges and for the liquidation and winding up of the business and affairs of such corporation and paying the debts and obligations or liabilities thereof, and all in such manner and to such effect as to vest title to such toll bridge or bridges with their rights and franchises and appurtenant properties for such part or portion thereof as may be purchased, in said county, as provided for herein; and which bonds may be exchanged for property or sold to accomplish any of the purposes of this Act as herein provided.

**Mortgage or Pledge of Revenues to Secure Bonds;  
Sinking Fund**

Sec. 8. Any such county shall have the power, in respect to any such bonds issued in pursuant<sup>1</sup> of the provisions of this Act to accomplish all or any of the purposes of this Act, to mortgage or pledge all or any part of or any interest in the said toll bridge or bridges, with their rights and franchises and appurtenant properties, or any other properties acquired or to be acquired with such bonds or the proceeds of the sale thereof, and all or any part of the gross or net revenues thereafter received by such county for or in respect of any such properties so acquired or to be acquired by such county with such bonds or the proceeds of the sale thereof; to secure the payment of the principal of and interest on such bonds, and of such sinking fund and reserve fund agreed to be made in respect of such bonds and to make and enter into such covenants and agreements with the purchasers of such bonds or any person in their behalf in respect thereto and for securing the payment thereof and for providing rights and remedies to the owners and holders of any such bonds or to any person in their behalf, as the Commissioners Court of any such county may in its discretion approve, determine and provide by appropriate resolution or order adopted for such purposes; all in accordance with the provisions of this Act.

<sup>1</sup> So in enrolled bill. Probably should be "pursuance".

**Bonds to be Charge Solely on Revenues of Bridge**

Sec. 9. No bonds authorized to be issued by this Act shall ever be a debt of the county issuing them, but shall be solely a charge upon the revenues of the toll bridge or bridges and appurtenances constructed and acquired through the issuance of such bonds and shall never be reckoned in determining the power of the county to issue any bonds for any purpose authorized by law. Each such bond shall contain this clause: "The holder hereof shall never have the right to demand payment of this obligation out of any funds raised or to be

raised by taxation." Bonds issued hereunder may be presented to the Attorney General for his approval and if such bonds have been issued in accordance with the Constitution and laws of this State, they shall be approved by the Attorney General and shall be registered by the Comptroller of Public Accounts in the same manner as provided for the approval of tax bonds issued by counties of this State. After such approval and registration the bonds shall be incontestable.

**Additional Bonds; Trust Indenture**

Sec. 10. When any county has bonds outstanding payable from the revenues of any toll bridge or bridges, additional bonds may be issued to the extent and under the conditions prescribed by the provisions of the outstanding bonds and the proceedings relating thereto including the provisions of any trust indenture securing such outstanding bonds, and any such additional bonds may be secured by a pledge of and lien on the net revenues of the bridge or bridges on a parity with such outstanding bonds to the extent, in the manner, and under the conditions set out in the proceedings and/or the trust indenture securing and authorizing such previously issued and outstanding bonds. After any such county shall have acquired a toll bridge or bridges under the provisions of this Act it may in the manner herein prescribed with relation to the issuance of original bonds, issue and deliver subsequent bonds for the purpose of repairing or improving or reconstructing or replacing a toll bridge or bridges, or for any one or more of such purposes, subject only to the restrictions contained in the resolution or orders of the Commissioners Court authorizing the original bonds and in the deed of indenture, if any, securing such original issue of bonds.

**Bonds; Payable Solely From Revenues; Tolls Fixed to be Sufficient to Pay; Depository of Proceeds**

Sec. 11. The bonds issued hereunder may be authorized by resolution or order at one time or from time to time. Such bonds shall be payable solely from the revenues to be derived from the operation of the toll bridge or bridges referred to in the bond proceedings and it shall be the mandatory duty of the Commissioners Court to impose such tolls and charges for the use of the bridge or bridges thus encumbered as will be fully sufficient to satisfy all the purposes set forth in Section 3 of this Act. The Commissioners Court shall have full discretion in fixing the details of the bonds and in determining the manner of sale thereof. All bonds issued hereunder shall and are hereby declared to have all of the qualifications and incidents of negotiable instruments under the Negotiable Instrument Law of Texas. If so provided by the Commissioners Court bonds may be secured by a trust indenture by and between the county and a corporate trustee, which may be any trust company or bank having the powers of a trust company within or outside of the State of Texas. Such trust indenture may either pledge or assign the tolls, fees and revenues or mort-

gage the bridge or bridges or any part thereof, or both. Either the resolution or order providing for the issuance of the bonds or the trust indenture securing same may contain such provisions for protecting and enforcing the rights and remedies of the bondholders as may be reasonable and proper and not in violation of law, including covenants setting forth the duties of the county with relation to the acquisition of properties and the construction, maintenance, operation, repair and insurance of the bridge or bridges and the custody, safeguarding, and application of all moneys. It shall be lawful for any bank or trust company in this State to act as depository of the proceeds of the bonds or revenues derived from the operation of the bridge or bridges and to furnish such indemnity bonds or to pledge such securities as may be required by the county.

**Depository of Proceeds**

Sec. 12. If such bonds are sold for cash, the proceeds of the sale thereof shall be deposited in such depository and shall be paid out pursuant to such terms and conditions, as may be agreed upon between the Commissioners Court and the purchasers of such bonds.

**Rights of Bondholders; Receivers**

Sec. 13. Any holder or holders of bonds issued hereunder, including the Trustee or Trustees for such holders, shall have the right in addition to all other rights, by mandamus or other proceedings in any court of competent jurisdiction to enforce his or their rights against the county and its officers and employees including, but not limited to, the right to require the county and its Commissioners Court to impose and collect sufficient tolls and charges to carry out the agreements contained in the bond resolution or trust indenture, and to perform all agreements and covenants therein contained and duties arising therefrom, and to apply for and obtain the employment of a receiver for the bridge or bridges. If such receiver be appointed, he may enter and take possession of such bridge or bridges and maintain them and collect and receive all revenues and tolls arising therefrom in the same manner as the county itself might do and shall dispose of such moneys and apply same in accordance with the provisions of the county's obligations under the bond resolution or order or trust indenture and as the court may direct.

**Amounts and Denominations of Bonds; Interest Rate; Coupon or Registered; Place of Payment**

Sec. 14. Any such bonds issued by any such county in pursuance of and to accomplish the purposes of this Act, shall be in such aggregate principal amount or amounts, of such denominations, shall bear such date or dates, and be of such maturities, bearing interest at such rate or rates, not exceeding six per cent (6%) per annum, payable annually or semiannually on such respective dates, in such form, containing such terms, provisions and conditions, either coupon or registered, with such registra-

tion privileges, such provisions for the call or redemption thereof before maturity, payable at such place or places within or without the State of Texas, as the Commissioners Court of any such county may in its discretion approve and determine and provide by resolution or order adopted for such purposes.

**Sale or Exchange of Bonds; Cash or Terms**

Sec. 15. Any bonds issued by such county in pursuance of and to accomplish the purposes of this Act may either be:

(a) Sold for cash, at private or public sale, at such price or prices as the Commissioners Court of such county may determine, provided that the interest cost of the money received therefor, computed to maturity in accordance with standard bond tables in general use by banks and insurance companies, shall not exceed six per cent (6%); or

(b) May be issued on such terms as the Commissioners Court of any such county shall determine in exchange for property of any kind, real, personal or mixed, or any interest therein, which the Commissioners Court of such county shall determine to be proper and necessary to accomplish any of the purposes of this Act; or

(c) May be issued in exchange for like principal amount of any other bonds of such issue matured or unmatured.

**Exemption From Taxation; Property and Bonds**

Sec. 16. The accomplishment of the purposes stated in this Act being for the benefit of the people of this State and for the improvement of their commerce and property, the county in carrying out the purposes of this Act will be performing an essential governmental function and shall not be required to pay any tax or assessment on the properties acquired hereunder or on any part thereof and the bonds issued hereunder and their transfer and the income therefrom, including any profits made on the sale thereof, shall at all times be free from taxation within this State. It is provided, however, that any such county which may acquire any such toll bridge or bridges by purchase from private owner or owners thereof may make payments in lieu of ad valorem taxes previously paid by such private owner or owners to any common or independent school district in which such properties are situated. Any payments so made shall be in such amounts as may be determined upon by the Commissioners Court and shall be considered as an operation expense for all purposes of this Act.

**Refunding Bonds**

Sec. 17. Subject to any restrictions which may appear in the bond resolutions or orders or in the trust indentures pertaining to the issuance of bonds hereunder, the Commissioners Court may by resolution or order provide for the issuance of bonds for the purpose of re-

funding any bonds issued under this Act and at the time outstanding.

Sec. 1. In all counties in this State having a population of more than one hundred and ninety-eight thousand (198,000) inhabitants, and less than four hundred thousand (400,000) inhabitants according to the last preceding Federal Census, and wherein is situated an incorporated city having a population in excess of two hundred and fifty thousand (250,000) inhabitants according to the last preceding Federal Census, the Commissioners Court of such counties shall have full power and authority, and it shall be its duty to adopt, at a meeting of said court of which the county judge and at least three (3) of the county commissioners of said counties shall be present and cause to be recorded in the minutes of said court, and put into effect such rules, regulations, plans and system for the maintenance, laying out, opening, widening, draining, grading, constructing, building and repairing of the public roads of said counties, other than the State highways located therein, as the available funds of the counties will permit so as to facilitate travel between the communities thereof, subject to and in harmony with the duties of the county engineer as herein specified. Where such rules, regulations, plans and system have already been adopted by the Commissioners Court of such counties and are of record, it shall not be necessary to repeat the same in the absence of public necessity therefor, but same may be amended and supplemented from time to time as the public needs may require.

#### County Engineer

Sec. 2. The Commissioners Court of each such county shall appoint a county engineer, but the selection shall be controlled by considerations of skill and ability for the task; such engineer may be selected at any regular meeting of the Commissioners Court, or at any special meeting called for that purpose, and such engineer shall hold his office for a period of two (2) years, his term of office expiring concurrently with the terms of other county officers, but may be removed at the pleasure of the Commissioners Court. Such engineer shall receive a salary to be fixed by the Commissioners Court not to exceed Ten Thousand Dollars (\$10,000) per year, to be paid out of the second-class road and bridge fund; such engineer before entering upon the discharge of his duties, shall take the oath of office prescribed by

law, and shall execute a bond in the sum of Fifteen Thousand Dollars (\$15,000), with a good and sufficient surety or sureties thereon, payable to the county judge of said county and his successors in office in trust, for the use and benefit of the road and bridge fund of said county, to be approved by the court, conditioned that such engineer will faithfully and efficiently discharge and perform all of the duties required of him by law and by the orders of said Commissioners Court and shall faithfully and honestly and in due time, account for all the money, property and materials placed in his custody.

#### Classification and Record of Roads

Sec. 3. The county engineer shall, under the direction of the Commissioners Court, and as soon as practicable, classify all public roads in such county, and such classification when completed, and when approved by the court, shall become a part of the permanent records, of roads and bridges, of said counties. He shall prepare a suitable map on which shall be delineated in appropriate colors the various roads which shall be designated as first, second and third class roads; said map shall show to which class each road belongs and the nature of its construction. He shall make a complete indexed record of each county road in the county, together with all bridges; said records shall show when each county road was dedicated to the use of the public, a complete description as to location, measured length, width of right of way, character of construction and terminals of same.

Each road shall be indexed in said record by the same number and name as it is delineated on said map. As new roads are opened and improved, and the existing roads are widened or improved so as to change their class, such facts shall be added to the record of such roads in the "Records of Roads." Such information shall be made available to the public; provided, however, that any omission in respect to the above requirement shall not invalidate any contract for the construction or repair of any road or highway in said county, and where such classification, records and indexes have heretofore been prepared there shall be no necessity to repeat the same in the absence of public necessity therefor, but same may be amended, added to or taken from as the facts and public need may demand.

#### Inventory and Appraisal of Equipment; Disposal and Purchase

Sec. 4. The county engineer shall at the end of every three (3) months, acting in conjunction with the county purchasing agent of said county, make a complete inventory and appraisal of all tools, machinery, equipment, materials, trucks, cars, and other property owned by the second-class road and bridge fund, and transmit the same in written form to the Commissioners Court and the county auditor, which written report shall be kept as a "Permanent Inventory Record" by the county

auditor, and when any of said tools, machinery, trucks, cars and other property and equipment become unusable, the Commissioners Court shall enter an order upon the minutes of the court, stating such facts and the reason for disposing of such equipment and shall have authority to dispose of same as it deems best. When in its opinion it is necessary to purchase other machinery, supplies, tools and other equipment and materials, the Commissioners Court shall enter an order on the minutes showing the necessity therefor. All equipment purchased or acquired as herein specified, shall be shown on the "Permanent Inventory Record."

#### Employees

Sec. 5. The Commissioners Court shall employ all help necessary for the discharge of their public service. Such employees shall receive such compensation as may be fixed by the court, but in all such cases an order shall be passed and entered on the minutes of the court, showing in each case the public necessity for such employment and the amount of compensation to be paid each employee and the fund out of which it is to be paid.

#### Daily Time Sheet

Sec. 6. The engineer shall keep, or cause to be kept, in duplicate a daily time sheet which shall show the amount of time and the character of work performed and the place where the same is performed by each person working for the county on road maintenance or construction, and such other records in connection therewith as the Commissioners Court and the county auditor may require, one (1) copy of which shall be furnished the county auditor, and one (1) copy shall be retained in the office of the engineer.

#### Master Plan

Sec. 7. The county engineer shall, when funds are available and when authorized by the Commissioners Court to do so, make a careful and thorough survey of all roads at that time opened and constructed with a view of determining what new roads and connections of roads should be opened and constructed, as well as what roads should be widened and improved. In making such survey, he shall take into consideration the convenience of the traveling public, and especially the convenience of the citizenship of the county, so that each community or part of the county shall have easy and practical connection with the other and with the State highway system of roads in said county, thereby furnishing to the citizenship of the county a convenient means of ingress and egress into and out of every city and town, as well as every other community in the county. The roads indicated in such surveys to be opened and constructed, as well as existing roads that are designated to be widened and improved, shall be located and designated with a view of giving the entire county an efficient road system. The Commissioners Court shall, in selecting roads or new roads, as well as the

improvement of existing roads, look to the density of the population, the amount of traffic that will normally flow over such roads. Such survey, when completed by the engineer, and when adopted by the Commissioners Court at a regular meeting thereof, shall be known as the "Master Plan." When such "Master Plan" has been completed, and adopted by the court as herein stipulated, the same shall be made in permanent record form and kept by the county engineer, and after such adoption, all new construction, widening and permanent improvement shall be done in accordance with such "Master Plan" with a view of ultimately completing the same, both as to location and character of construction. The construction and completion of said "Master Plan" shall proceed as the available funds of the county will permit, and each unit of such construction shall be made in accordance with such "Master Plan." The order in which the roads or projects in the construction of said "Master Plan" are constructed shall be determined by the county engineer, with the approval of the Commissioners Court and in determining the priority of roads or projects, the engineer and court shall take into consideration the necessity and convenience of the public and shall give priority to those roads or projects that will result in the greatest service to the greatest number of the citizenship of the county, looking at all times to the entire county as a unit and wholly disregarding precinct lines.

#### Adoption and Alteration of Master Plan

Sec. 8. The Commissioners Court shall, when said "Master Plan" is submitted to them for adoption, or if after adoption an amendment or change thereto shall be deemed advisable, set a date at a regular meeting of the Commissioners Court called for that purpose, and give public notice thereof at least two (2) weeks in advance of such meeting and the purpose thereof, inviting the citizenship of the county to be present and protest any part of said "Master Plan" and also to make such suggestions as they deem pertinent in connection with same, or any change therein, but the decision of the Commissioners Court shall become and be final and conclusive as to said "Master Plan", and no succeeding Commissioners Court shall have the power or authority to alter and/or change or amend any of the provisions thereof except by unanimous vote of the Commissioners Court. Provided, that where such "Master Plan" has once been adopted, there shall be no necessity to repeat the same in absence of public necessity therefor, but same may be amended and altered when public necessity therefor is shown, and after notice is given as hereinabove provided.

#### Subdivisions and Additions

Sec. 9. Many subdivisions and additions, for residential, industrial and commercial purposes, lying and being outside the corporate limits of any city, town or village, have in recent years been platted and such plats and ded-

ications approved by Commissioners Courts and filed for record in such counties. And many more such subdivisions will hereafter be prepared and submitted to Commissioners Courts of said counties. The platting and dedicating of such additions and the consequent sale of lots in such subdivisions have caused the rapid development of such subdivisions and consequent increase of traffic in, on and along the dedicated streets in said additions and subdivisions, and it shall be the duty of the county engineer and the Commissioners Court to cause the "Master Plan" to be conformed to such needs and demands of such subdivision by constructing adequate highways leading from such subdivisions to the county seat, provided that from and after the passage of this Act the Commissioners Court, before approving the plat or plan of any subdivision lying outside the corporate limits of any city, town or village, as required by Article 6626 of the Revised Civil Statutes of the State of Texas, 1925, as amended, shall require such subdivider to enter into a written contract and agreement with the county that such subdivider or dedicator will grade, and gravel, all streets and provide all necessary drainage structures within such tract of land so subdivided. Such street improvements and drainage structures shall be in accordance with standard plans and specifications prepared by the county engineer. Such contract shall be for the benefit of any person or persons, firm or corporation who may thereafter acquire by purchase or otherwise any lot or lots in said addition or subdivision, and the faithful performance of said contract as to the initial improvements of said streets shall be deemed a part of the consideration paid for said lot and be read into the contract of sale of same, and such contract shall be enforceable at the instance, and suit if necessary, of the owner or owners of any of said lot or lots in a given subdivision suing singly or as a group or class. After such initial street improvements have been completed in accordance with such plans, said streets then become and remain a part of the county road system and shall be maintained by the county unless and until included within the corporate limits of some city, town or village capable of maintaining its own streets.

#### Payment of Employees

Sec. 10. It shall be the duty of the county auditor to compute the pay for all employees under the court's supervision from time sheets furnished him by the engineer, and no check or warrant shall be issued in favor of any such employee without the approval of such auditor. It shall be the duty of said auditor to see that no employee is paid for time not actually served by such employees and to this end he shall have authority, and it is hereby made his duty, at such time or times as he deems advisable, to check any or all of such employees while they are actually engaged in work. Nothing in this Act, however, shall be construed as repealing or being in conflict with

the provisions of Article 2372g-1, Vernon's Revised Statutes of 1925.

#### Special Counsel

Sec. 11. The Commissioners Court shall have the authority to employ special counsel, learned in the law, to advise the court or the Commissioners thereof in all matters wherein the services of counsel may be required, and also to conduct the litigation of the county in which the interests of the county may be involved, which employment may be made for such time and on such terms as the Commissioners Court may deem proper and expedient.

#### Surveys, Plans and Specifications; Gradings; Drainage; Culverts and Bridges

Sec. 12. Before actual construction shall have begun on any road or highway so to be improved, the county engineer, under the direction of the Commissioners Court, shall make careful and accurate surveys of the roads and highways to be improved, and shall file with the records of the courts plans and specifications and estimates as to the cost thereof. Provided, that the provisions of this Section shall not apply to work done by county convicts. As far as practicable, all such roads shall be thoroughly graded and drained, and all roadbeds, bridges, culverts and drain pipes shall be of durable material, the bridges to be of steel or cement and the drain pipes of vitrified clay or of material equally durable and lasting. All culverts and bridges on first and second-class roads shall not be less than twenty-four (24) feet in length and of sufficient strength to support all forms of motor traffic, and the weight of all farm and road engines.

#### Acquisition of Land; Condemnation

Sec. 13. Whenever in the judgment of the Commissioners Court it shall be or become necessary to lay out and construct any road or highway in or through the county or any part thereof, whether said road extends through any city, town, village, hamlet, community or otherwise or whenever it shall be or become necessary in the judgment of the Commissioners Court to occupy any land, in town or county, for the purpose of constructing, building, opening, widening, straightening, draining, grading, improving, repairing or maintaining any public road or highway of said counties or any part thereof, said court, through the agents and employees of the county may enter upon, occupy and take such land, paying therefor, if the owner thereof and said court can agree on the price thereof, as to the value of the land so taken and the amount of damage, if any there be to the remainder, but if such owner and the Commissioners Court cannot agree with respect to such value or damage or both, then said county may proceed to condemn such land for any of the purposes hereinabove mentioned in the same manner as now or may hereafter be prescribed by law for condemnation by railroad corporations and may condemn land for right of way under such proceeding with a right to invoke the Statutes, in so far as the same may

be applicable for the exercise of the right of eminent domain by railroad corporations except that, in no case, shall the county be required to give bond or to deposit more than the amount assessed by the Commissioners in condemnation; provided however, that nothing contained in this Section shall be held to repeal the provisions of the General Law now in force or that may hereafter be passed relating to the opening or construction of public roads by a jury of view, but this Section shall be held to be cumulative thereof, and the Commissioners Court of said county may, at the option of said court, in such cases proceed under the provisions of such General Law or under the provisions of this Act according as same may be best adapted, in the judgment of said Commissioners Court, to expedite the relief sought to be obtained.

#### Drainage of Railroad Rights of Way

Sec. 14. Whenever it shall be made to appear to the satisfaction of said Court that it is necessary for the better drainage of any public road or roads within said county that the ditches along the right of way of any railroad in the county should be emptied and drained, said court may, by an order entered upon its minutes at a regular or special term of the court, require any such railway whose ditches or borrow pits are so constructed or so out of repair as to impede the easy and rapid flow of water accumulating on, along or near its right of way to the nearest gully, ravine, creek, water course or outlet, and it shall be the duty of said railway in reference to which said order is made and entered within sixty (60) days after a certified copy of said order shall have been delivered to any general officer of such railway company or to any of its agents in said county to supply proper and sufficient drainage in the premises and within sixty (60) days thereafter to commence the work so ordered to be done and to continue such work with reasonable dispatch until its completion. In the event such railway company, its officers and agents shall fail to commence work within sixty (60) days from the date of service of a certified copy of such order, or having begun shall fail to finish the same within a reasonable time, the Commissioners Court may have such work performed, keeping an accurate account of the money expended upon said work, and said money so expended being reasonable in amount, may be recovered from the railway company along whose right of way said work was done at the suit of the county for the benefit of its road and bridge fund in any court of competent jurisdiction.

#### Payment of Road Taxes; Overseers

Sec. 15. In such county the payment of road taxes by labor is abolished and all provisions of laws concerning overseers shall be of no further force or effect.

#### County Commissioners; Duties and Compensation

Sec. 16. Each member of the Commissioners Court shall be and he is hereby required to

devote all of his time (unless prevented by illness) to the duties of his office, and shall be in attendance at all sessions of the court. In addition thereto he shall personally inspect the conditions of the roads and bridges of the county, and shall see to it that employees under the control of the Commissioners Court perform their full duties. Each member shall receive an annual salary as provided by the General Statutes of the State of Texas relating to the salaries of county commissioners in counties having a population which conforms to the population of the counties affected by this Act. Said salaries to be paid out of the road and bridge fund of the county.

#### Amount of Road and Bridge Tax

Sec. 17. It shall be unlawful for said Commissioners Court to levy any road and bridge tax in excess of the maximum rate prescribed by law, and any member of said court who shall vote for such excessive levy, knowing it to be excessive, shall be deemed guilty of a misdemeanor and upon conviction thereof shall be punished by a fine of not more than Five Hundred Dollars (\$500).

#### Convict Labor

Sec. 18. Said court may require all county convicts of said county, who may be physically able and not otherwise employed, to work on the public roads of said county under such rules and regulations as the court may prescribe, and each convict so worked shall receive a credit of Three Dollars (\$3) per day, one half of which shall be as nearly as practicable, applied to the fine, and one half to the court costs, provided that this shall not be so construed as to relieve a convict from the payment of all costs for which he would be liable under the General Laws of this State; said court may, as a reward for good behavior and faithful service, grant a reasonable commutation which shall in no case exceed one-tenth ( $\frac{1}{10}$ ) of the whole time. Said court may provide all such houses, tents, clothing, bedding, food, medicine, medical attention, supplies and guards as it may deem necessary or proper for the safe and humane treatment and for the safe-keeping of such county convicts. Said court may also provide and enforce and such guards may, under the direction of said court and in accordance with its rules and regulations, administer such reasonable and humane punishment as may be necessary to require such convicts to perform good work. Said court may provide a reward, not exceeding Ten Dollars (\$10) in any instance, to be paid out of the road and bridge fund for the capture and delivery of an escaped convict, but no such reward shall be paid to any guard or persons in charge of or assisting such convict at the time of his escape.

#### Bond Issues; Resolution; Election

Sec. 19. Whenever the Commissioners Court shall deem it necessary or expedient to build, construct, improve, repair or maintain first or second-class roads of a permanent na-

ture with the proceeds of the sale of bonds issued for road and bridge purposes under the terms of this Act, said court, shall at any regular meeting pass and record in its minutes a resolution setting forth that it is the sense of said court that public roads and bridges of a permanent nature should be built, constructed, improved, repaired or maintained and that the county should issue its bonds to raise money for that purpose in an amount to be named in such resolution, and said resolution shall be submitted to the vote of the property-owning, qualified voters of the county under the law and the Constitution at any regular or special election which the court may order for that purpose, and if at such election a majority of the votes cast shall be for such resolution, then the same shall be deemed to be adopted; otherwise it shall be deemed to be rejected. Such election shall be governed in all respects by the laws governing elections in this State, save that the time for holding such elections, the manner and kind of notice shall be fixed by the Commissioners Court, and the returns shall be made and canvassed in the same manner and the result declared by proclamation of the county judge, which proclamation shall be posted in at least three (3) public places in the county, or at the option of the court published one time in a daily newspaper of general circulation in the county.

#### Qualifications of Voters; Ballots

Sec. 20. No person shall be permitted to vote at any election provided for in the next preceding Section of this Act unless he is a property owner, taxpayer, who has duly rendered his property for taxation, and a qualified voter of the county under the law and Constitution of Texas. Those desiring to vote for the resolution shall have written or printed on their ballot the words "FOR the Resolution to issue bonds to \_\_\_\_\_" and those desiring to vote against the resolution shall have written or printed on their ballots the following: "AGAINST the Resolution to issue bonds to \_\_\_\_\_" (here insert such purpose of the proposed bond issue as set forth in said resolution). Such ballots shall be written or printed on plain white paper with black ink and shall contain no distinguishing mark or device except as above provided, and if printed, shall be in type of uniform size and face.

#### Preparation and Execution of Bonds; Terms of Bonds; Registration and Enrollment; Sale or Negotiation; Tax Levy

Sec. 21. If, at the election hereinabove provided for, a majority of the property-owning qualified voters, under the Constitution and Laws of the State, shall vote in favor of the resolution hereinbefore provided for and the Commissioners Court shall have canvassed the vote and declared the result, and proclamation therefor has been made by the county judge or publication made in lieu thereof, declaring said result, then it shall be the duty of said court to

prepare and execute the bonds of the county in such sums as may be deemed advisable by the court, not exceeding the amount authorized at the election, said bonds to bear interest at not exceeding five per cent (5%) per annum, payable annually or semi-annually as the courts shall direct, which bonds shall be redeemable or payable not more than forty (40) years from date thereof, and at such intermediate periods, serially or otherwise as the court may direct, the time of maturity to be expressed on the face of the bonds and such bonds shall be registered or enrolled as in case of other county bonds, and the same shall not be sold or negotiated at less than their par value; provided, however, that the tax levy for the payment of interest and principal on any issue of bonds under the terms of this Act shall not exceed in any one case the sum of Fifteen Cents (15¢) on the One Hundred Dollars (\$100) property valuation, and the amount of bonds so to be issued shall be limited accordingly; provided further, that nothing in this language or in the terms of this Act shall be held to impair the right of the county to issue bonds under the provisions of Article 3 of Section 52 of the State Constitution and the Statutes enacted pursuant thereof.

#### Levy of Tax; Use of Tax and Bond Proceeds

Sec. 22. At or prior to the issuance of said bonds, it shall be the duty of said Commissioners Court to levy an annual ad valorem tax on all property within the county liable to taxation, sufficient to provide for the interest on such bonds and to create a sinking fund for the payment of the principal thereof at the maturity of same. Such tax and the levy thereof may vary or lessen accordingly as assessed taxable values may increase or diminish from year to year. The fund arising from such tax and the levy thereof shall not be used for any other purpose than that for which it was created, and the proceeds of the sale of such bonds shall be confined strictly for the purpose for which they were issued and for all necessary and incidental expense incurred in the issuance and sale thereof. It shall be unlawful for said court to transfer any money or fund from the road and bridge fund to any other purpose, except as outlined in Section 15 of this Act, than the laying out, opening, widening, draining, constructing, building, repairing and maintaining the public roads of said counties and the incidental and necessary expense growing out of the issuance of said bonds and the sale thereof.

#### Account and Disbursement of Bond Proceeds

Sec. 23. It shall be the duty of the county treasurer to keep a separate account of all moneys received from the sale of bonds of said county issued for road and bridge purposes, and said treasurer shall pay out none of it except on written order or warrant of said court, specifying the contract against which it is drawn or for the purpose for which it is expended.

## Contracts; Alternative Methods; Record of Cost

Sec. 24. Except as otherwise provided in this Act, no contract requiring the expenditure of money derived from the sale of bonds authorized by this Act shall be made until said county engineer shall have made and filed with the Commissioners Court maps, profiles, plans, specifications, and estimates of the work to be done under such contract and not until said court shall have considered the same and ordered it of record. Provided, however, that in the event said court shall have advertised for and rejected bids, it may in its discretion proceed to do the work mentioned in said advertisement. In the expenditure of road funds other than moneys derived from the sale of bonds, the Commissioners Court may authorize the building, construction and repair of roads by contract, day labor or convict labor as said court may deem to be for the best interest of the county. In every instance where the court chooses to do so under the terms of this Act to build, improve, repair or maintain roads by having the work done by the county, then the county must keep a careful and accurate record of the cost of the work, provided the work referred to in this Section shall be done under the direction of the county engineer in harmony with the other provisions of this Act.

## Purchase of Equipment and Material

Sec. 25. Any and all tools, implements, machinery, material and supplies which may be purchased from the second-class road and bridge fund by the court under its direction shall be purchased only after competitive bid therefor shall have been invited by the court, and then only from the lowest responsible bidder, with the right on the part of the court to reject any and all bids and call for other competitive bids thereon; provided, however, bridge lumber, corrugated iron pipe for culverts, road surfacing materials, cement, gasoline, oil, groceries, convict supplies and other materials in regular or constant use may be purchased in carload or other practical large lots under competitive bidding as herein stipulated.

## Advertisements and Bids; Bond of Successful Bidder; Withholding Percentage of Estimates

Sec. 26. Whenever, pursuant to the provisions of this Act, said court shall desire to make a purchase or let a contract for which competitive bids are required under the terms of this Act, said court or the county auditor under its direction, may advertise for bids therefor in such manner and for such length of time as the order of the court may prescribe with the right on the part of the court in every case to reject any and all bids; the advertisement for bids shall be made by either posting same or by publication in such manner and for such length of time as the court may direct; provided, however, that this shall not be held to invalidate or prevent purchases, without competitive bids under the terms of the next

preceding Section hereof. Whenever any such contract is let in which competitive bids are required, the successful bidder or contractor shall enter into a bond in a sum not less than the amount of the contract with a surety company authorized to do business in Texas thereon, payable to the county judge or his successors in office, in trust for the use and benefit of the road and bridge fund of said counties, to be approved by the court and conditioned for the faithful performance of said contract and upon such other conditions as the court may require. In no event shall such contract be or become effective until the bond herein required shall have been filed and approved by the court. Provided, further, that during the progress of such work, the court in allowing estimates on the contract shall withhold fifteen per cent (15%) of each estimate until the work shall have been entirely completed and is accepted by the county engineer and by the Commissioners Court.

## Transfers to Road and Bridge Fund

Sec. 27. The Commissioners Court is authorized and empowered, whenever and in such manner as it may determine, to transfer to and make a part of the road and bridge fund of said county any money now in the county, to pay interest and create a sinking fund for any bonds of said county heretofore issued and which have now been retired and cancelled. Such money so transferred to the road and bridge fund may be expended by the Commissioners Court at their discretion in constructing or repairing any of the first-class or cross roads of the county, such expenditures to be made in compliance with the provisions and requirements of this Act.

## Record of Vote on Expenditures

Sec. 28. The records of the Commissioners Court shall show in detail every vote for expenditure of any of the funds mentioned in this Act.

## Shade Trees; Signboards or Signposts

Sec. 29. The Commissioners Court may, where funds are available for that purpose, plant shade trees along the side of the public roads; the Commissioners Court may protect all shade trees along the side of said thoroughfares and erect, place and keep a substantial signboard or signpost at every point where a public road forks or is intersected by another public road and such signboard or signpost shall contain a legible inscription directing the way and giving the distance of the next important place on such highway. Any person who shall willfully remove, injure, deface or mutilate or injure the growth of any shade tree along the side of a public road or any signboard or signpost thereon or thereabouts shall be deemed guilty of a misdemeanor and on conviction thereof shall be punished by a fine of not less than Twenty-five Dollars (\$25) nor more than One Hundred Dollars (\$100).

Financial Interest of Members of Commissioners Court;  
Violations of Act

Sec. 30. It shall be unlawful for any member of the Commissioners Court or for any county officer to be or become financially interested, directly or indirectly, in any contract with said county for road work or for the purchase or sale of any material or supplies of any character or in any transaction whatsoever in connection with any of the roads of said county, excepting only his own salary, fees or per diem. If any such county commissioner or such county officer shall willfully violate any of the foregoing provisions of this Section, he shall be punished by a fine of not less than Five Hundred Dollars (\$500) nor more than One Thousand Dollars (\$1,000) or by imprisonment in the county jail of said county for not more than one (1) year or by both such fine and imprisonment and in addition thereto shall be forthwith removed from office as provided for by General Law. If any member of said Commissioners Court or any such officer shall willfully violate any of the other provisions of this Act, he shall be deemed guilty of a misdemeanor and upon conviction thereof shall be punished by a fine of not more than Five Hundred Dollars (\$500) or by imprisonment in the county jail of said county for not more than six (6) months or by both such fine and imprisonment.

Fines and Moneys Collected Applied to Road  
and Bridge Fund

Sec. 31. All fines for any and all violations of any of the provisions of this Act and any and all moneys which may be collected by or on behalf of said county, on, under, or by virtue of any contract which may be executed under the provisions of this Act shall be applied to the road and bridge fund of said county.

Definitions

Sec. 32. The terms "Road" and "Highway" as used in this Act shall be held to include bridges, viaducts, causeways, culverts, roadbeds, ditches, drains and every part of a road or highway as such terms are commonly understood whether herein specified or not.

Judicial Notice of Law

Sec. 33. This Act is and shall be held and construed to be a public act of which the court shall take cognizance without proof thereof, and in any court proceedings wherein the provisions of this Act are drawn in question, the necessity for pleadings or proving same is hereby dispensed with.

Law Cumulative; Conflict or Inconsistency

Sec. 34. The provisions of this Act are and shall be held and construed to be cumulative of all General Laws of this State on the subject treated of and embraced in this Act when not in conflict or inconsistent herewith, but in case of such conflict or inconsistency in whole or in part, this Act shall control said county.

Partial Invalidity

Sec. 35. If any section, subdivision, paragraph, sentence, clause or word of this Act shall be held to be unconstitutional, the remaining portions of same shall, nevertheless, be valid and it is declared that such remaining portions would have been included in this Act though the unconstitutional portion had been omitted.

[Acts 1951, 52nd Leg., p. 471, ch. 299.]

Art. 6812b-1. Counties of 49,400 to 52,000;  
County Engineer; Duties

County Engineer

Sec. 1. The commissioners court of any county having a population of not less than 49,400 nor more than 52,000, according to the last preceding federal census, may appoint a county engineer, but the selection shall be controlled by considerations of skill and ability for the task. The engineer may be selected at any regular meeting of the commissioners court, or at any special meeting called for that purpose. The engineer selected shall be a Registered Professional Engineer in the State of Texas. The engineer shall hold his office for a period of two years, his term of office expiring concurrently with the terms of other county officers, and he may be removed at the pleasure of the commissioners court. The engineer shall receive a salary to be fixed by the commissioners court not to exceed the amount of the salary paid to the highest county official, to be paid out of the Road and Bridge Fund. The engineer, before entering upon the discharge of his duties, shall take the oath of office prescribed by law, and shall execute a bond in the sum of \$15,000 with a good and sufficient surety or sureties thereon, payable to the county judge of the county and successors in office in trust, for the use and the benefit of the Road and Bridge Fund, of the county to be approved by the court, conditioned that such engineer will faithfully and efficiently discharge and perform all of the duties required of him by law and by the orders of said commissioners court and shall faithfully and honestly and in due time account for all of the money, property and materials placed in his custody.

Classification and Record of Roads

Sec. 2. (a) The county engineer shall, under the direction of the commissioners court, and as soon as practicable, classify all public roads in such county, and such classification when completed, and when approved by the court, shall become a part of the permanent records of roads and bridges of said county. He shall prepare a suitable map of which shall be delineated in appropriate colors the various roads which shall be designated as first, second, and third class roads. The map shall show to which place each road belongs and the nature of its construction. He shall make a complete indexed record of each county road in the county and all bridges. The records shall

show when each county road was dedicated to the use of the public, a complete description as to location, measured length, width of right-of-way, character of construction, and terminals of same.

(b) Each road shall be indexed in the record by the same number and name as it is delineated on the map. As new roads are opened and improved, and the existing roads are widened or improved so as to change their class, such facts shall be added to the record of such roads in the "Records of Roads." Such information shall be made available to the public; provided, however that any omission in respect to the above requirement shall not invalidate any contract for the construction or repair of any road or highway in said county, and where such classification, records and indexes have heretofore been prepared there shall be no necessity to repeat the same in the absence of public necessity therefor, but same may be amended, added to or taken from as the facts of public need may demand.

#### Inventory and Appraisal of Equipment; Disposal and Purchase

Sec. 3. The county engineer shall at the end of every 12 months, acting in conjunction with each commissioner of the county, make a complete inventory and appraisal of all tools, machinery, equipment, materials, trucks, cars, and other property owned by the respective commissioners, and transmit the same in written form to the commissioners court and the county auditor, which report shall be kept as a permanent inventory record by the county auditor. When any of said tools, machinery, trucks, cars, and other property becomes unusable, the commissioners court shall enter an order upon the minutes of the court, stating such facts and reason for disposing of such equipment and shall have authority to dispose of same as it deems best. When in its opinion it is necessary to purchase other machinery, supplies, tools, and other equipment and materials, the commissioners court shall enter an order on the minutes showing the necessity therefor. All equipment purchased or acquired as herein specified, shall be shown on the permanent inventory record.

#### Master Plan

Sec. 4. The county engineer shall, when funds are available and when authorized by the commissioners court, to do so, make a careful and thorough study of all roads at that time opened and constructed with a view of determining what new roads and connections of roads should be opened and constructed, as well as what roads should be widened and improved. In making such survey, he should take into consideration the convenience of the traveling public, and especially the convenience of the citizenship of the county, so that each community a part of the county shall have easy and practical connection with the other and the state highway system of roads in the county, thereby furnishing to the citizenship of the

county a convenient means of ingress and egress into and out of every city and town, as well as every other community in the county. The roads indicated in such surveys to be opened and constructed, as well as existing roads that are designated to be widened and improved, shall be located and designated with the view of giving the entire county an efficient road system. The commissioners court shall, in selecting roads or new roads, as well as the improvement of existing roads, look to the density of the population and amount of traffic that will normally flow over such roads; such survey when completed by the engineer, and when adopted by the commissioners court at a regular meeting thereof, shall be known as the Master Plan. When such Master Plan has been completed and adopted by the court as it is stipulated, the same shall be made into permanent record form and kept by the county engineer, and after such adoption, all new construction, widening and permanent improvement shall be done in accordance with such Master Plan and with the view of ultimately completing the same, both as to location and character of construction. The construction of said Master Plan shall proceed as the available funds of the county will permit, and each unit of such construction shall be made in accordance with such Master Plan. The order in which the roads or projects in the construction of said Master Plan are constructed shall be determined by the county engineer, with the approval of the commissioners court and in determining the priority of roads or projects, the engineer and court shall take into consideration the necessity and convenience of the public and should give priority to those roads or projects that will result in the greatest service to the greatest number of the citizenship of the county, looking at all times to the entire county as a unit and wholly disregarding precinct lines.

#### Adoption and Amendment of Master Plan

Sec. 5. The commissioners court shall when said Master Plan is submitted to them for adoption, or if after adoption, an amendment or change thereto shall be deemed advisable, set a date at a regular meeting of commissioners court called for that purpose, and give public notice thereof at least two weeks in advance of such meeting and the purpose thereof, inviting the citizenship of the county to be present to protest any part of said Master Plan and also to make such suggestions as they deem pertinent in connection with same, or any change therein, but the decision of the commissioners court shall become and be final and conclusive as to said Master Plan, and no succeeding commissioners court shall have the power or authority to alter or change or amend any of the provisions thereof except by unanimous vote of the commissioners court. Provided, that where such Master Plan has once been adopted, there shall be no necessity to repeat the same in absence of public necessity thereof, for same may be amended and altered

when public necessity therefor is shown, and after notice is given as herein above provided.

#### Subdivisions

Sec. 6. It shall be the duty of the county engineer and the commissioners court in each respective precinct to cause the Master Plan to be conformed to the needs and demands of existing and new subdivisions by constructing adequate highways leading from such subdivisions to the county seat. Provided that from and after the passage of this Act, the commissioners court, before approving the plan or plans of any subdivision lying outside the corporate limits of any city, town, or village, as required by Article 6626, Revised Civil Statutes of Texas, 1925, as amended, shall require such subdivision to enter into a written contract in agreement with the county, then such subdivider or dirt dealer will grade, and gravel all streets and provide all necessary drainage structures within such tract of land so subdivided. Such street improvements and drainage structures shall be in accordance with standard plans and specifications prepared by the county engineer. Such contracts shall be for the benefit of any person or persons, firm or corporation who may thereafter acquire by purchase or otherwise any lot or lots in said addition or subdivision, and the faithful performance of said contract as to the initial improvements of said streets shall be deemed a part of the consideration paid for said lot and be read into the contract of sale of same, and such contract shall be enforceable at the instance, if necessary, of the owner or owners of any lot or lots in a given subdivision, suing singularly or as a group or class. After such initial street improvements have been completed in accordance with such plans, said streets then become and remain a part of the county road system and shall be maintained by the county unless and until included within the corporate limits of a city, town or village capable of maintaining its own streets.

#### Inspections of Plats, Subdivision Plans and Land Encompassed; Advice to Commissioners Court and Developers

Sec. 7. The county engineer when directed to do so by the commissioners court of the county, shall inspect all plats and plans of subdivisions to be recorded within said county, and make an on-site inspection of the land encompassed within said subdivision and advise the court as to the roads, drainage, sewage, and all aspects of said subdivision and terrain. The county engineer when and if required by the commissioners court, shall affix his signature to said plat along with the county judge and the commissioners court upon any plat approved and accepted by the commissioners court and filed in the county clerk's office. The county engineer will offer advice and suggestions to said developer and commissioners court in order to promote conformity with any and all rules and regulations for subdividing as laid out by the commissioners court.

#### Inspection of Various Utility Districts Within County; Map

Sec. 8. The county engineer when directed by the commissioners court shall make such inspections of any and all utility districts, water districts, sewage districts, and any other type district formed within the confines of the county, to ascertain whether or not said districts meet the state and county requirements. The county engineer will keep a map setting out each and every type district created within the county and make it available for public use at any and all times required to do so.

#### Assistance on County Functions

Sec. 9. The county engineer when requested to do so by the commissioners court or by a commissioner shall assist said commissioner in connection with any county road in said county, any drainage problem, public buildings, health and sanitation district, planning commissions, and any other function or service over which the commissioner or commissioners court might have jurisdiction.

#### Employees

Sec. 10. The commissioners court shall employ all help necessary for the discharge of their public service or for the discharge of the duties of the county engineer. Such employees shall receive such compensation as may be fixed by the court, but in all such cases an order shall be passed and entered on the minutes of the court, showing in such case the public necessity for such employment and the amount of compensation to be paid each employee and the fund out of which it is to be paid.

#### Work Records; Daily Time Sheet

Sec. 11. The county engineer shall keep or cause to be kept, in duplicate, a daily time sheet which shall show the amount of time and the character of work performed and the place where the same is performed by himself and each person working for the county engineer, and such other records in connection therewith as the commissioners court and county auditor may require, one copy of which shall be furnished to the county auditor, and one copy shall be retained by the engineer.

#### County Commissioners; Duties

Sec. 12. This Act shall in no way diminish, alter or eliminate any of the duties presently handled by the commissioners court or by any individual commissioner. Each member of the commissioners court shall be and he is hereby required to devote all of his time unless prevented by illness to the duties of his office, and shall be in attendance at all sessions of the court.

#### Cumulative Effect; Conflict or Inconsistency

Sec. 13. The provisions of this Act are and shall be held and construed to be cumulative of all general laws or special laws of this state on the subject treated in this Act when not in conflict or inconsistent herewith, but in case of

such conflict or inconsistency in whole or in part, this Act shall control.

**Severability**

Sec. 14. If any section, subdivision, paragraph, sentence, clause, or word in this Act shall be held to be unconstitutional, the remaining portions of same shall nevertheless be valid and it is declared that such remaining portions would have been included in this Act though the unconstitutional portion had been omitted.

**County Engineer; Release From Position**

Sec. 15. If at any time the commissioners court at any time feels that the county engineer position is no further of any necessity or benefit to the county, then said commissioners court has the authority to release said engineer without any obligation to fill said position or vacancy.

[Acts 1971, 62nd Leg., p. 2483, ch. 809, eff. June 8, 1971.]

**Art. 6812c. Building or Set-Back Lines; Adjacent Counties of 350,000**

**Establishment of Set-Back Lines on Major Highways and Roads**

Sec. 1. Whenever the Commissioners Court in any county having a population of not less than 350,000 according to the last Federal Decennial Census and which is adjacent to another county having a population of not less than 350,000 according to the last Federal Decennial Census, deems that the general welfare will be promoted thereby, it is hereby authorized and empowered to establish building lines or set-back lines on major highways and roads in such county, not to exceed one hundred fifty (150) feet from the center line of such major highways and roads, and to prohibit any new building being located within such building or set-back lines outside of the corporate limits of any city, village or incorporated town. Such Commissioners Court is further authorized and empowered to regulate and limit and to change and amend by order such building or set-back lines on such major highways or roads and to prohibit any new buildings being located within such building or set-back lines outside the corporate limits of any city, village or incorporated town.

**Hearing and Adoption of Plan; Amendment or Alteration**

Sec. 2. Before the adoption of any plan for major highways and the establishing of building or set-back lines thereon the Commissioners Court shall hold at least one public hearing related thereto, fifteen days notice of the time and place of which shall be published in at least one newspaper having general circulation within the county. Such hearing may be adjourned from time to time. Adoption of the major highway plan shall be by resolution carried by not less than a majority vote of the full membership of the court. The establishment of building or set-back lines shall be by order passed by not less than a majority vote of the

full membership of the court. After adoption of a major highway plan or plans an attested copy shall be filed with the County Clerk. Thereafter, the Commissioners Court may upon like approval, publication and notice change, amend, supplement or alter the major highway plan and building lines relating thereto.

**Notice; Failure to Begin Construction**

Sec. 3. The property owners of all property fronting upon any major highway or road on which a building line or set-back line has been established shall be charged with notice of the requirement of the building line order. All building lines established pursuant to this Act shall be shown in a general manner upon a map and the same shall be filed with the County Clerk and notice thereof shall be published in at least one newspaper having general circulation within the county, and such notice shall also be posted in at least three conspicuous places along each highway affected; provided, however, that in the event the county should fail to begin the construction of the improvement or widening of the road on which any building or set-back line has been established within four (4) years from the date when said building or set-back line had been fixed, such designation of the building or set-back line shall cease and be of no force or effect unless the time is extended therefor by agreement of the county and the property owners interested.

**Board of Adjustment**

Sec. 4. The Commissioners Court is hereby authorized and empowered to appoint a Board of Adjustment. Such Board shall consist of five (5) freeholders of such county. The membership of the first Board appointed shall serve respectively: two members for one year, and three members for two years. Thereafter members shall be appointed for terms of two years. Members shall be removable for cause by the Commissioners Court upon written charge after public hearings. Vacancies shall be filled by the Commissioners Court for the unexpired term of any member whose term becomes vacant. The Board of Building Line Adjustment shall elect its own chairman and shall adopt rules of procedure. All meetings of the Board shall be open to the public and minutes shall be kept and filed in the office of the Board and shall be a public record. Said Board of Adjustment shall have the following powers and it shall be its duty to modify or vary the regulations affecting building lines or set-back lines in specific cases, subject to appropriate conditions and safeguards in cases where unnecessary hardship may result from a literal enforcement of such building line or set-back line requirements, so that substantial justice may be done and the intent and purpose of the regulations to protect the public welfare and public safety observed:

Such Board of Adjustment shall hear and decide appeals where, by reason of exceptional narrowness, shallowness, shape, topography, existing building development or other excep-

tional and extraordinary situation or condition of a specific piece of property, the strict application of a building line established under this Act would result in peculiar and exceptional difficulties to, or hardship to, the owner of such property, to authorize upon an appeal relating to such property, a variance from the strict application under such conditions as such Board of Adjustment may impose so as to relieve the hardship or difficulties, provided such relief can be granted without substantially impairing the intent and purpose of the building line or set-back line.

The Board of Adjustment shall, with appropriate safeguards, authorize the construction of improvements or structures which may encroach on any building or set-back line established under this Act; provided, however, that should the county proceed with the projected improvement of the road within the time specified herein, then the owner of such improvements will be required to remove the same without cost to the county whatsoever.

#### Violation of Line; Injunction or Abatement

Sec. 5. In case any building or structure is erected, constructed or reconstructed in violation of any building line or set-back line adopted by any Commissioners Court pursuant to this Act, then such court, the District Attorney or County Attorney, as the case may be, any owner of real property within the county in which such building or structure is located may institute injunction, mandamus, abatement, or any appropriate action or proceeding to prevent, enjoin, abate or remove such unlawful erection, construction or reconstruction.

#### Appeals

Sec. 6. Any property owner who feels injured or damaged by any Act or order of the Board of Adjustment may appeal within thirty days from such act or order to the Commissioners Court of such county. Any property owner in such county who feels injured or damaged by any final order of such Board of Adjustment or by any final order of such Commissioners Court shall have and is hereby given the right to appeal from such order to the District Court or to any other court having jurisdiction thereof, provided that such appeal shall be made within thirty days from the date of such order; and provided further that such appellant shall execute an appeal bond in an amount fixed by such court.

Rules and Regulations; Standard Expense Account Forms; Reimbursement for Travel by Private Conveyance; Overpayment

Sec. 6. a. The Comptroller of Public Accounts is to promulgate rules and regulations to facilitate the execution of the travel regulations, as defined in this Act or as may hereafter be contained in General Appropriations Acts, and shall, with the concurrence of the State Auditor, prescribe the form on which travel expenses are to be submitted. The Comptroller shall approve claims for travel expense and issue warrants on basis of approved claims.

Such rules and regulations as are prescribed by the Comptroller shall be subject to final approval by the Attorney General. After such approval has been given, official copies of the rules and regulations, including administrative policies and/or interpretations of these rules and regulations, shall be filed with the Secretary of State.

b. Standard expense account forms shall be used by all state agencies in preparing the expense accounts for traveling state employees. Such forms shall contain information stating

(1) the point of origin and the town, place or point of destination of each trip and the reimbursable mileage travelled between each point, town, or place. This provision shall also apply to intra-city mileage;

(2) the actual period of time the employee is away from his designated headquarters entitling him to travel expenses; and

(3) a brief statement which clearly shows the purpose of the trip and the character of official business performed.

c. In determining transportation reimbursement for travel by private conveyance, the Comptroller shall base reimbursement on the mileage by shortest highway distance between point of origin and the destination via intermediate points at which official state business is conducted and other necessary mileage at points where official state business is conducted. In determining the amounts of reimbursement for transportation by personal car within the State, the Comptroller shall compute all distances according to the shortest route between points. In determining the amount of reimbursement for transportation by personal car within this state, the Comptroller shall adopt a mileage guide including a chart of distances showing the shortest route between points, and which shall include all Farm-to-Market roads and shall be reissued annually.

d. When two or more employees travel in a single private conveyance, only one shall receive a transportation allowance, but this provision shall not preclude each traveler from receiving a per diem allowance.

e. When two, three, or four officials or employees of the same state agency with the same itinerary on the same dates are required to travel on the same official state business for which travel reimbursement for mileage in a personal car is claimed, mileage reimbursement will be claimed and allowed for only one of the employees except as provided hereafter. To the extent of mileage reimbursement claimed, the Comptroller shall consider such travel claims as multiple claims and may pay only one such claim. If more than four employees attend such meeting or conference in more than one car, full mileage reimbursement shall be allowed for one car for each four employees and for any fraction in excess of a multiple of four employees. If, in any instance, it is not feasible for these officials or employees to travel in the same car, then prior official approval from the head of the state department or agency shall be obtained and shall be considered as authorization and the basis for reimbursement for travel for each person authorized to use his personal car in such travel.

f. Should an officer or employee of the state receive an overpayment for travel expenses from money appropriated in the Appropriations Acts, he is to reimburse the state for such overpayment.

Double Travel Expense Payments; Reimbursement by Non-State Agency

Sec. 7. Double travel expense payments to state officials or employees are prohibited. When an employee engages in travel for which he is to be compensated by a non-state agency, he shall not receive any reimbursement for such travel from authorized amounts in the General Appropriation Acts.

Local Transportation Allowance; Limits

Sec. 8. An employee whose duties customarily require travel within his designated headquarters may be authorized a local transportation allowance for this travel. Such allowance, however, shall never exceed the transportation allowance for use of a privately owned automobile as set by the Legislature in the General Appropriations Acts.

Disallowance of Per Diem Reimbursement

Sec. 9. Neither a per diem allowance nor partial per diem allowance as set out in the General Appropriations Acts shall be allowed for the period of time on those days when an employee is:

(1) At his official designated headquarters.

(2) Absent from post of duty for personal reasons.

(3) Absent from post of duty for any reason not connected with duties of the agency by which the employee is employed.

(4) Away from designated headquarters for a period of less than six consecutive hours.

When an employee leaves his post of duty for any reason not connected with the duties of the agency by which such employee is employed, or for personal reasons, the employee shall clearly show he is absent for personal reasons on the expense account and will also show the hour and date of departure from post of duty and the hour and date he returned to said post of duty.

**Public Conveyances; Courtesy Cards**

Sec. 10. The provisions of this Act shall not preclude reimbursement of claims by officials or employees for use of public conveyances. Transportation is authorized by courtesy cards for air, rail and bus lines.

**Exclusions**

Sec. 11. None of the provisions of this Act shall apply to reimbursement for travel expenses incurred by officials or employees of athletic departments of the institutions of higher education, to reimbursement for travel expenses to officials or employees of institutions of higher education from gifts or bequests, or to reimbursement for travel expenses of officials or employees when expenses for such travel are paid or reimbursed to the institutions of higher education under provisions of contracts between the institutions and the Federal Government or other contracting agencies. Such proceedings shall be instituted, prosecuted, tried, and heard as other civil proceedings of like nature in such courts, provided that such proceedings shall have priority over other cases in settings for hearing; provided further, that no such proceeding shall be instituted unless and until the Director of the Texas State Department of Public Safety or his assistant in charge has been notified by telephone, telegraph, or in person of the intention to institute such proceeding, and an affidavit of such notice filed with the application for

such injunction proceedings shall be sufficient for the filing of the same.

Nothing in this Act shall be construed to alter in any way the powers now held by the courts of this State or of this nation under the laws of this State in labor disputes.

#### Search Warrants

Sec. 9. A search warrant may issue under Title 6 of the Code of Criminal Procedure for the purpose of searching for and seizing any books, records, pamphlets, cards, receipts, lists, memoranda, pictures, recordings, or any written instruments showing that a person or organization is violating or has violated any provision of this Act. Search warrants may be issued by any judge of a court of record in this State upon the written application of the District Attorney, Criminal District Attorney, or County Attorney, within their respective jurisdictions, accompanied by the affidavit of a credible person setting forth the name or description of the owner or person in charge of the premises to be searched, or stating that his name and description are unknown, the address or description of the premises, and showing that the described premises is a place where some specified phase or phases of this Act are violated or are being violated, or where are kept any books, records, pamphlets, cards, receipts, lists, memoranda, pictures, recordings, or written instruments of any kind showing a violation of some phase or phases of this Act; provided that if the premises to be searched constitute a private residence, such application for a search warrant shall be accompanied by the affidavits of two credible citizens. Except as herein provided, the application, issuance, and execution of any such warrant and all proceedings relative thereto shall conform to the applicable provisions of Title 6 of the Code of Criminal Procedure; provided that any evidence obtained by virtue of a search warrant issued under the provisions of this Act shall not be admissible in evidence in the trial of any proceeding, administrative or judicial, save and except those arising under this Act.

#### Art. 6889-5. Interstate Civil Defense and Disaster Compact

Sec. 1. Whereas the Congress of the United States of America has granted its consent to civil defense compacts by an Act entitled "Federal Civil Defense Act of 1950" (Public Law 920, Eight-first Congress, 2nd Session, Approved January 12, 1951<sup>1</sup>), the Legislature of this State hereby ratifies a compact on behalf of the State of Texas with any other state legally joining therein in the form substantially as follows:

#### INTERSTATE CIVIL DEFENSE AND DISASTER COMPACT

The contracting States solemnly agree:

"Article 1. The purpose of this compact is to provide mutual aid among the States in meeting any emergency or disaster from enemy attack or other cause (natural or otherwise) including sabotage and subversive acts and direct attacks by bombs, shellfire, and atomic, radiological, chemical, bacteriological means, and other weapons. The prompt, full and effective utilization of the resources of the respective States, including such resources as may be available from the United States Government or any other source, are essential to the safety, care and welfare of the people thereof in the event of enemy action or other emergency, and any other resources, including personnel, equipment or supplies, shall be incorporated into a plan or plans of mutual aid to be developed among the civil defense agencies or similar bodies of the States that are parties hereto. The Directors or Co-ordinators of Civil Defense of all party states shall constitute a committee to formulate plans and take all necessary steps for the implementation of this compact.

"Article 2. It shall be the duty of each party state to formulate civil defense plans and programs for application within such state. There shall be frequent consultation between the Representatives of the States and with the United States Government and the free exchange of information and plans, including inventories of any materials and equipment available for civil defense. In carrying out such civil defense plans and programs the party states shall so far as possible provide and

follow uniform standards, practices and rules and regulations including:

(a) Insignia, arm bands and any other distinctive articles to designate and distinguish the different civil defense services;

(b) Blackouts and practice blackouts, air raid drills, mobilization of civil defense forces and other tests and exercises;

(c) Warnings and signals for drills or attacks and the mechanical devices to be used in connection therewith;

(d) The effective screening or extinguishing of all lights and lighting devices and appliances;

(e) Shutting off water mains, gas mains, electric power connections and the suspension of all other utility services;

(f) All materials or equipment used or to be used for civil defense purposes in order to assure that such materials and equipment will be easily and freely interchangeable when used in or by any other party states;

(g) The conduct of civilians and the movement and cessation of movement of pedestrians and vehicular traffic, prior, during and subsequent to drills or attacks;

(h) The safety of public meetings or gatherings; and

(i) Mobile support units.

"Article 3. Any party state requested to render mutual aid shall take such action as is necessary to provide and make available the resources covered by this compact in accordance with the terms hereof; provided that it is understood that the state rendering aid may withhold resources to the extent necessary to provide reasonable protection for such state. Each party state shall extend to the civil defense forces of any other party state, while operating within its state limits under the terms and conditions of this compact, the same powers (except that of arrest unless specifically authorized by the receiving state), duties, rights, privileges and immunities as if they were performing their duties in the state in which normally employed or rendering services. Civil defense forces will continue under the command and control of their regular leaders but the organizational units will come under the operational control of the civil defense authorities of the state receiving assistance.

"Article 4. Whenever any person holds a license, certificate or other permit issued by any state evidencing the meeting of qualifications for professional, mechanical or other skills, such person may render aid involving such skill in any party state to meet an emergency or disaster and such state shall give due recognition to such license, certificate or other permit as if issued in the state in which aid is rendered.

"Article 5. No party state or its officers or employees rendering aid in another state pursuant to this compact shall be liable on ac-

count of any act or omission in good faith on the part of such forces while so engaged, or on account of the maintenance or use of any equipment or supplies in connection therewith.

"Article 6. Inasmuch as it is probable that the pattern and detail of the machinery for mutual aid among two (2) or more states may differ from that appropriate among other states party hereto, this instrument contains elements of a broad base common to all states, and nothing herein contained shall preclude any state from entering into supplementary agreements with another state or states. Such supplementary agreements may comprehend, but shall not be limited to, provisions for evacuation and reception of injured and other persons, and the exchange of medical, fire, police, public utility, reconnaissance, welfare, transportation and communications personnel, equipment and supplies.

"Article 7. Each party state shall provide for the payment of compensation and death benefits to injured members of the civil defense forces of that state and the representatives of deceased members of such forces in case such members sustain injuries or are killed while rendering aid pursuant to this compact, in the same manner and on the same terms as if the injury or death were sustained within such state.

"Article 8. Any party state rendering aid in another state pursuant to this compact shall be reimbursed by the party state receiving such aid for any loss or damage to, or expense incurred in the operation of any equipment answering a request for aid, and for the cost incurred in connection with such requests; provided, that any aiding party state may assume in whole or in part such loss, damage, expense, or other cost, or may loan such equipment or donate such services to the receiving party state without charge or cost; and provided further that any two (2) or more party states may enter into supplementary agreements establishing a different allocation of costs as among those states. The United States Government may relieve the party state receiving aid from any liability and reimburse the party state supplying civil defense forces for the compensation paid to and the transportation, subsistence and maintenance expenses of such forces during the time of the rendition of such aid or assistance outside the state and may also pay fair and reasonable compensation for the use or utilization of the supplies, materials, equipment or facilities so utilized or consumed.

"Article 9. Plans for the orderly evacuation and reception of the civilian population as the result of an emergency or disaster shall be worked out from time between representatives of the party states and the various local civil defense areas thereof. Such plans shall include the manner of transporting such evacuees, the number of evacuees to be received in different areas, the manner in which food, clothing, housing, medical care, and burial services will be provided, the registration of

the evacuees, the providing of facilities for the notification of relatives or friends and the forwarding of such evacuees to other areas or the bringing in of additional materials, supplies, and all other relevant factors. Such plans shall provide that the party state receiving evacuees shall be reimbursed generally for the out-of-pocket expenses incurred in receiving and caring for such evacuees, for expenditures for transportation, food, clothing, medicines, medical care, and burial services. Such expenditures shall be reimbursed by the party state of which the evacuees are residents, or by the United States Government under plans approved by it. After the termination of the emergency or disaster the party state of which the evacuees are resident shall assume the responsibility for the ultimate support or repatriation of such evacuees.

"Article 10. This compact shall be available to any state, territory or possession of the United States, and the District of Columbia. The term 'state' may also include any neighboring foreign country or province or state thereof.

"Article 11. The committee established pursuant to Article 1 of this compact may request the Civil Defense Agency of the United States Government to act as an informational and coordinating body under this compact, and representatives of such agency of the United States Government may attend meetings of such committee.

"Article 12. This compact shall become operative immediately upon its ratification by any state as between it and any other state or states so ratifying and shall be subject to approval by Congress unless prior Congressional approval has been given. Duly authenticated copies of this compact and of such supplementary agreements as may be entered into shall, at the time of their approval, be deposited with each of the party states and with the Civil Defense Agency and other appropriate agencies of the United States Government.

"Article 13. This compact shall continue in force and remain binding on each party state until the Legislature or the Governor of such party state takes action to withdraw therefrom. Such action shall not be effective until ninety (90) days after notice thereof has been sent by the Governor of the party state desiring to withdraw to the Governors of all other party states.

"Article 14. This compact shall be construed to effectuate the purpose stated in Article 1, hereof. If any provision of this compact is declared unconstitutional, or the applicability thereof to any persons or circumstance is held invalid, the constitutionality of the remainder of this compact and the applicability thereof to other persons and circumstances shall not be affected thereby.

"Article 15. This compact shall become binding and obligatory when it shall have been signed by the Governors of the respective states enumerated in this compact; when it

shall have been ratified by the Legislature of each state that requires ratification of said compact by the Legislature; and when ratified by the Congress of the United States. Failure of the United States Congress to ratify within sixty (60) days after transmittal, the consent shall be considered as granted. Notice of ratification by each of the states which are a party to this compact shall be given by the Governor of that state to the Governors of the other states and to the President of the United States, and the President is hereby requested to give notice to the Governor of each state of approval by the Congress of the United States."

Sec. 2. Duly authenticated copies of this Act shall, upon its approval, be transmitted to the Governor of each state, to the President of the Senate of the United States, to the Speaker of the House of Representatives, to the Federal Civil Defense Administration, to the Secretary of State of the United States, and to the Council of State Governments.

##### Short Title

Sec. 1. This Act may be cited as the "Texas Disaster Act of 1973."

##### Purposes

Sec. 2. The purposes of this Act are to:

(1) reduce vulnerability of people and communities of this state to damage, injury, and loss of life and property resulting from natural or man-made catastrophes, riots, or hostile military or paramilitary action;

(2) prepare for prompt and efficient rescue, care, and treatment of persons victimized or threatened by disaster;

(3) provide a setting conducive to the rapid and orderly restoration and rehabilitation of persons and property affected by disasters;

(4) clarify and strengthen the roles of the governor, state agencies, and local governments in prevention of, preparation for, response to, and recovery from disasters;

(5) authorize and provide for cooperation in disaster prevention, preparedness, response, and recovery;

(6) authorize and provide for coordination of activities relating to disaster prevention, preparedness, response, and recovery by agencies and officers of this state, and similar state-local, interstate, federal-state, and foreign activities in which the state and its political subdivisions may participate;

(7) provide a disaster management system embodying all aspects of pre-disaster preparedness and post-disaster response; and

(8) assist in prevention of disasters caused or aggravated by inadequate plan-

ning for and regulation of public and private facilities and land use.

##### Limitations

Sec. 3. Nothing in this Act may be construed to:

(1) interfere with the course or conduct of a labor dispute, except that actions otherwise authorized by this Act or other laws may be taken when necessary to forestall or mitigate imminent or existing danger to public health or safety;

(2) interfere with dissemination of news or comment on public affairs, but any communications facility or organization (including but not limited to radio and television stations, wire services, and newspapers) may be required to transmit or print public service messages furnishing information or instructions in connection with a disaster emergency;

(3) affect the jurisdiction or responsibilities of police forces, fire fighting forces, units of the armed forces of the United States, or of any personnel thereof, when on active duty, but state, local, and interjurisdictional disaster emergency plans shall place reliance upon the forces available for performance of functions related to disaster emergencies; or

(4) limit, modify, or abridge the authority of the governor to proclaim martial law or exercise any other powers vested in him under the constitution, statutes, or common law of this state independent of, or in conjunction with, any provisions of this Act.

##### Definitions

Sec. 4. As used in this Act:

(1) "Disaster" means the occurrence or imminent threat of widespread or severe damage, injury, or loss of life or property resulting from any natural or man-made cause, including but not limited to fire, flood, earthquake, wind, storm, wave action, oil spill or other water contamination requiring emergency action to avert danger or damage, volcanic activity, epidemic, air contamination, blight, drought, infestation, explosion, riot, or hostile military or paramilitary action.

(2) "Political subdivision" means any county, city, or other unit of local government.

(3) "Organized volunteer groups" means organizations such as the American National Red Cross, The Salvation Army, Civil Air Patrol, Radio Amateur Civil Emergency Services, and other similar organizations recognized by federal or state statute, regulation, or memorandum.

##### The Governor and Disaster Emergencies

Sec. 5. (a) The governor is responsible for meeting the dangers to the state and people presented by disasters.

(b) Under this Act, the governor may issue executive orders, proclamations, and regulations and amend or rescind them. Executive orders, proclamations, and regulations have the force and effect of law.

(c) The governor may establish by executive order or proclamation a Defense and Disaster Relief Council, to advise and assist him in all matters relating to defense and disaster relief. The council shall be composed of the heads of state agencies, boards, and commissions and representatives of organized volunteer groups he may deem appropriate.

(d) A disaster emergency shall be declared by executive order or proclamation of the governor if he finds a disaster has occurred or that the occurrence or the threat of disaster is imminent. The state of disaster emergency continues until the governor finds that the threat or danger has passed or the disaster has been dealt with to the extent that emergency conditions no longer exist and terminates the state of disaster emergency by executive order or proclamation, but no state of disaster emergency may continue for longer than 30 days unless renewed by the governor. The legislature by concurrent resolution may terminate a state of disaster emergency at any time. On termination by the legislature, the governor shall issue an executive order or proclamation ending the state of disaster emergency. All executive orders or proclamations issued under this subsection shall indicate the nature of the disaster, the area or areas threatened, and the conditions which have brought it about or which make possible termination of the state of disaster emergency. An executive order or proclamation shall be disseminated promptly by means calculated to bring its contents to the attention of the general public and, unless the circumstances attendant upon the disaster prevent or impede, promptly filed with the State Office of Disaster Emergency Services, the secretary of state, and the county clerk or city secretary in the area or areas to which it applies.

(e) An executive order or proclamation of a state of disaster emergency activates the disaster response and recovery aspects of the state, local, and interjurisdictional disaster emergency plans applicable to the political subdivision or area in question and is authority for the deployment and use of any forces to which the plan or plans apply and for use or distribution of any supplies, equipment, and materials, and facilities assembled, stockpiled, or arranged to be made available pursuant to this Act or any other provision of law relating to disaster emergencies.

(f) During the continuance of any state of disaster emergency and the pursuant recovery period, the governor is commander-in-chief of state agencies, boards, and commissions having emergency responsibilities. To the greatest extent practicable, the governor shall delegate or assign command authority by prior arrangement embodied in appropriate executive orders

or plans, but nothing in this Act restricts his authority to do so by orders issued at the time of the disaster emergency.

(g) In addition to any other powers conferred upon the governor by law, he may:

(1) suspend the provisions of any regulatory statute prescribing the procedures for conduct of state business, or the orders, rules, or regulations of any state agency, if strict compliance with the provisions of any statute, order, rule, or regulation would in any way prevent, hinder, or delay necessary action in coping with the emergency;

(2) utilize all available resources of the state government and of each political subdivision of the state which are reasonably necessary to cope with the disaster emergency;

(3) transfer the direction, personnel, or functions of state departments and agencies or their units for the purpose of performing or facilitating emergency services;

(4) subject to any applicable requirements for compensation under Section 13 of this Act, commandeer or utilize any private property if he finds this necessary to cope with the disaster emergency;

(5) recommend the evacuation of all or part of the population from any stricken or threatened area in the state if he deems this action necessary for the preservation of life or other disaster mitigation, response, or recovery;

(6) prescribe routes, modes of transportation, and destinations in connection with evacuation;

(7) control ingress and egress to and from a disaster area, and the movement of persons and the occupancy of premises in the area;

(8) suspend or limit the sale, dispensing, or transportation of alcoholic beverages, firearms, explosives, and combustibles; and

(9) make provision for the availability and use of temporary emergency housing.

#### State Division of Disaster Emergency Services

Sec. 6. (a) A Division of Disaster Emergency Services is established in the office of the governor. The division shall have a director appointed by and to serve at the pleasure of the governor. The division shall have coordinating and planning officers and other professional, technical, secretarial, and clerical employees necessary for the performance of its functions.

(b) The Division of Disaster Emergency Services shall prepare and maintain a comprehensive state disaster plan and keep it current. The plan may include:

(1) provisions for prevention and minimization of injury and damage caused by disaster;

(2) provisions for prompt and effective response to disaster;

(3) provisions for emergency relief;

(4) identification of areas particularly vulnerable to disasters;

(5) recommendations for zoning, building, and other land-use controls, safety measures or securing mobile homes or other nonpermanent or semipermanent structures, and other preventive and preparedness measures designed to eliminate or reduce disasters or their impact;

(6) provisions for assistance to local officials in designing local emergency action plans;

(7) authorization and procedures for the erection or other construction of temporary works designed to protect against or mitigate danger, damage, or loss from flood, conflagration, or other disaster;

(8) preparation and distribution to the appropriate state and local officials of state catalogs of federal, state, and private assistance programs;

(9) organization of manpower and channels of assistance;

(10) coordination of federal, state, and local disaster activities;

(11) coordination of the state disaster plan with the disaster plans of the federal government; and

(12) other necessary matters.

(c) The Division of Disaster Emergency Services shall take an integral part in the development and revision of local and interjurisdictional disaster plans prepared under Section 8 of this Act. To this end it shall employ or otherwise secure the services of professional and technical personnel capable of providing expert assistance to political subdivisions, their disaster agencies, and interjurisdictional planning and disaster agencies. These personnel shall consult with subdivisions and agencies on a regularly scheduled basis and shall make field reviews of the areas, circumstances, and conditions to which particular local and interjurisdictional disaster plans are intended to apply, and may suggest revisions.

(d) In preparing and revising the state disaster plan, the Division of Disaster Emergency Services shall seek the advice and assistance of local government, business, labor, industry, agriculture, civic, and volunteer organizations and community leaders. In advising local and interjurisdictional agencies, the division shall encourage them also to seek advice from these sources.

(e) The state disaster plan or any part of it may be incorporated in regulations of the Division of Disaster Emergency Services or executive orders which have the force and effect of law.

(f) The Division of Disaster Emergency Services shall:

(1) determine requirements of the state and its political subdivisions for food, clothing, and other necessities in event of an emergency;

(2) procure and pre-position supplies, medicines, materials, and equipment;

(3) promulgate standards and requirements for local and interjurisdictional disaster plans;

(4) periodically review local and interjurisdictional disaster plans;

(5) provide for mobile support units;

(6) establish and operate or assist political subdivisions, their disaster agencies, and interjurisdictional disaster agencies to establish and operate training programs and programs of public information;

(7) make surveys of public and private industries, resources, and facilities in the state which are necessary to carry out the purposes of this Act;

(8) plan and make arrangements for the availability and use of any private facilities, services, and property and provide for payment for use under terms and conditions agreed upon if the facilities are used and payment is necessary;

(9) establish a register of persons with types of training and skills important in emergency prevention, preparedness, response, and recovery;

(10) establish a register of mobile and construction equipment and temporary housing available for use in a disaster emergency;

(11) prepare, for issuance by the governor, executive orders, proclamations, and regulations necessary or appropriate in coping with disasters;

(12) cooperate with the federal government and any public or private agency or entity in achieving any purpose of this Act and in implementing programs for disaster prevention, preparation, response, and recovery; and

(13) do other things necessary, incidental, or appropriate for the implementation of this Act.

#### Financing

Sec. 7. (a) It is the intent of the legislature and declared to be the policy of the state that funds to meet disaster emergencies always be available.

(b) The Disaster Emergency Funding Board, composed of the governor, the lieutenant governor, speaker of the house, chairmen of the senate and house appropriations committees and the director of the Division of Emergency Services, is established.

(c) A Disaster Contingency Fund is established which shall receive money appropriated

thereto by the legislature. Money in the Disaster Contingency Fund shall remain in the fund until expended.

(d) It is the legislative intent that the first recourse shall be to funds regularly appropriated to state and local agencies. If the governor finds that the demands placed on these funds in coping with a particular disaster are unreasonably great, he may, with the concurrence of the Disaster Emergency Funding Board, make funds available from the Disaster Contingency Fund. If money available from the Disaster Contingency Fund is insufficient, and if the governor finds that other sources of money to cope with the disaster are not available or are insufficient, the governor, with the concurrence of the Disaster Emergency Funding Board may transfer and expend money appropriated for other purposes.

(e) Whenever the federal government or any other public or private agency or individual offers to the state, or through the state to any political subdivision of the state, services, equipment, supplies, materials, or funds as gifts, grants, or loans for purposes of civil defense or disaster relief, the governor, if required by the donor, and the political subdivision through its executive officer or governing body, may accept the offer in behalf of the state or its political subdivision. The governor or his designated agent is authorized to determine when a public calamity or disaster has occurred. Where any gift, grant, or loan is accepted by the state, the governor or, on his designation, the State Defense and Disaster Relief Council or the State Coordinator of Defense and Disaster Relief, or any other officer or agency the governor may designate, has authority to dispense the gift, grant, or loan directly to accomplish the purpose for which it was made, or to allocate and transfer to any political subdivision of this state services, equipment, supplies, materials, or funds in the amount he or his designated agent may determine. All these funds received by the state shall be placed in the state treasury in a special fund or funds and shall be disbursed by warrants issued by the comptroller of public accounts on order of the governor or his designated agent, who may be named by him either in a written agreement accepting the funds or in a written authorization filed with the secretary of state. Where the funds are to be used for the purchase of equipment, supplies, or commodities of any kind, it is not necessary that bids be obtained or that the purchases be approved by any other agency. On receipt of an order for disbursement, the comptroller shall issue a warrant without delay. All political subdivisions of the state, including counties, municipalities, and all other political subdivisions of every nature, are authorized to accept and utilize all services, equipment, supplies, materials, and funds to the full extent authorized by the agreement under which they are received by the state or by the political subdivision.

Local and Interjurisdictional Disaster Agencies and Services

Sec. 8. (a) Each political subdivision within this state is within the jurisdiction of and served by the Division of Disaster Emergency Services and by a local or interjurisdictional agency responsible for disaster preparedness and coordination of response.

(b) Each county shall maintain a disaster agency or participate in a local or interjurisdictional disaster agency which, except as otherwise provided under this Act, has jurisdiction over and serves the entire county or interjurisdictional area.

(c) The governor shall determine which municipal corporations need disaster agencies of their own and shall recommend that they be established and maintained. He shall make his determinations on the basis of the municipality's disaster vulnerability and capability of response related to population size and concentration. The disaster agency of a county shall cooperate with the disaster agencies of municipalities situated in its borders but shall not have jurisdiction in a municipality having its own disaster agency. The Division of Disaster Emergency Services shall publish and keep current a list of municipalities required to have disaster agencies under this subsection. Nothing in this subsection may be construed as limiting the constitutional and statutory powers of local governments.

(d) Any provision of this Act or other law to the contrary notwithstanding, the governor may recommend that a political subdivision establish and maintain a disaster agency jointly with one or more contiguous political subdivisions, if he finds that the establishment and maintenance of an agency or participation in it is made necessary by circumstances or conditions that make it unusually difficult to provide disaster prevention, preparedness, response, or recovery services under other provisions of this Act.

(e) Each political subdivision which does not have a disaster agency and has not made arrangements to secure or participate in the services of an agency shall have a liaison officer designated to facilitate the cooperation and protection of that subdivision in the work of disaster prevention, preparedness, response, and recovery.

(f) The mayor, county judge, or other principal executive officer of each political subdivision in the state shall notify the Division of Disaster Emergency Services of the manner in which the political subdivision is providing or securing disaster planning and emergency services, identify the person who heads the agency from which the service is obtained, and furnish additional pertinent information that the division requires.

(g) Each local and interjurisdictional agency shall prepare and keep current a local or interjurisdictional disaster emergency plan for its area.

(h) The local or interjurisdictional disaster agency, as the case may be, shall prepare in written form and distribute to all appropriate officials a clear and complete statement of the emergency responsibilities of all local agencies and officials and of the disaster channels of assistance.

(i) Each shall have the power to make appropriations for defense and disaster relief in the manner provided by law for making appropriations for ordinary expenses of such political subdivisions and shall have power to enter into agreements for the purpose of organizing defense and disaster relief divisions, to provide for a mutual method of financing the organization of such units on a basis satisfactory to said political subdivisions, and shall have power to render aid to other subdivisions under mutual aid agreements provided that the functioning of said units shall be coordinated by the State Defense and Disaster Relief Council. For the payment of the cost of any equipment, construction, acquisition, or any improvements for carrying out the provisions of this Act, counties, incorporated cities and towns, including home-rule cities, may issue time warrants. These time warrants shall be issued in accordance with the provisions of Chapter 163, Acts of the 42nd Legislature, Regular Session, 1931, as amended (Article 2368a, Vernon's Texas Civil Statutes); provided that time warrants shall not be issued for financing permanent construction or improvements for civil defense purposes except on the right of a referendum vote as provided in Section 4, Chapter 163, Acts of the 42nd Legislature, Regular Session, 1931, as amended (Article 2368a, Vernon's Texas Civil Statutes).

#### Establishment of Interjurisdictional Disaster Planning and Service Areas

Sec. 9. (a) If the governor finds that two or more adjoining counties would be better served by an interjurisdictional arrangement than by maintaining separate disaster agencies and services, he may delineate by executive order or regulation an interjurisdictional area adequate to plan for, prevent, or respond to disaster in that area and direct steps to be taken as necessary, including the creation of an interjurisdictional relationship, a joint disaster emergency plan, mutual aid, or an area organization for emergency planning and services. A finding of the governor pursuant to this subsection shall be based on one or more factors related to the difficulty of maintaining an efficient and effective disaster prevention, preparedness, response, and recovery system on a unijurisdictional basis, such as:

- (1) small or sparse population;
- (2) limitations on public financial resources severe enough to make maintenance of a separate disaster agency and services unreasonably burdensome;
- (3) unusual vulnerability to disaster as evidenced by a past history of disasters, topographical features, drainage charac-

teristics, disaster potential, and presence of disaster-prone facilities or operations;

(4) the interrelated character of the counties in a multicounty area; or

(5) other relevant conditions or circumstances.

(b) If the governor finds that a vulnerable area lies only partly within this state and includes territory in another state or states or territory in a foreign jurisdiction and that it would be desirable to establish an interstate or international relationship, mutual aid, or an area organization for disaster, he shall take steps to that end as desirable. If this action is taken with jurisdictions that have enacted the Interstate Civil Defense and Disaster Compact (Article 6889-5, Vernon's Texas Civil Statutes), any resulting agreement or agreements may be considered supplemental agreements pursuant to Article VI of that compact.

(c) If the other jurisdiction or jurisdictions with which the governor proposes to cooperate pursuant to Subsection (b) of this section have not enacted that compact, he may negotiate special agreements with the jurisdiction or jurisdictions. Any agreement, if sufficient authority for its making does not otherwise exist, becomes effective only after its text has been communicated to the legislature and provided that neither house of the legislature has disapproved it by adjournment of the next ensuing session competent to consider it or within 30 days of its submission, whichever is longer.

#### Intergovernmental Arrangements

Sec. 10. (a) This state has enacted into law and enters into the Interstate Civil Defense and Disaster Compact (Article 6889-5, Vernon's Texas Civil Statutes), with all states, as defined in that Act, bordering this state which have enacted or may enact the compact in the form substantially contained in Chapter 312, Acts of the 52nd Legislature, 1951 (Article 6889-5, Vernon's Texas Civil Statutes).

(b) The governor may enter into the compact with any state which does not border this state if he finds that joint action with that state is desirable in meeting common intergovernmental problems of emergency disaster planning, prevention, response, and recovery.

(c) Nothing in Subsections (a) and (b) of this section may be construed to limit previous or future entry into the Interstate Civil Defense and Disaster Compact of this state with other states.

(d) If any person holds a license, certificate, or other permit issued by any state or political subdivision of any state evidencing the meeting of qualifications for professional, mechanical, or other skills, the person may render aid involving that skill in this state to meet an emergency or disaster; this state shall give due consideration to the license, certificate, or other permit.

#### Local Disaster Emergencies

Sec. 11. (a) A local disaster emergency may be declared only by the governing body of

a political subdivision. It may not be continued or renewed for a period in excess of seven days except by or with the consent of the governing body of the political subdivision. Any order or proclamation declaring, continuing, or terminating a local disaster emergency shall be given prompt and general publicity and shall be filed promptly with the city secretary or county clerk as applicable.

(b) The effect of a declaration of a local disaster emergency is to activate the response and recovery aspects of any and all applicable local or interjurisdictional disaster emergency plans and to authorize the furnishing of aid and assistance under the declaration.

(c) No interjurisdictional agency or its official may declare a local disaster emergency, unless expressly authorized to do so by the agreement pursuant to which the agency functions. However, an interjurisdictional disaster agency shall provide aid and services in accordance with the agreement pursuant to which it functions.

#### Disaster Prevention

Sec. 12. (a) In addition to disaster prevention measures as included in the state, local, and interjurisdictional disaster plans, the governor shall consider, on a continuing basis, steps that could be taken to prevent or reduce the harmful consequences of disasters. At his direction, and pursuant to any other authority and competence they have, state agencies, including but not limited to those charged with responsibilities in connection with floodplain management, stream encroachment and flow regulation, weather modification, fire prevention and control, air quality, public works, land use and land-use planning, and construction standards, shall make studies of disaster prevention-related matters. The governor, from time to time, shall make recommendations to the legislature, local governments, and other appropriate public and private entities as may facilitate measures for prevention or reduction of the harmful consequences of disasters.

(b) The Water Development Board and other state agencies, in conjunction with the Division of Disaster Emergency Services, shall keep land uses and construction of structures and other facilities under continuing study and identify areas which are particularly susceptible to severe land shifting, subsidence, flood, or other catastrophic occurrence. The studies under this subsection shall concentrate on means of reducing or avoiding the dangers caused by this occurrence or its consequences.

(c) If the Division of Disaster Emergency Services believes on the basis of the studies or other competent evidence that an area is susceptible to a disaster of catastrophic proportions without adequate warning, that existing building standards and land-use controls in that area are inadequate and could add substantially to the magnitude of the disaster, and that changes in zoning regulations, other land-use regulations, or building requirements are

essential in order to further the purposes of this section, it shall specify the essential changes to the governor. If the governor on review of the recommendations finds after public hearing that the changes are essential, he shall make appropriate recommendations to the agencies or local governments with jurisdiction over the area and subject matter. If no action or insufficient action pursuant to his recommendations is taken within the time specified by the governor, he shall so inform the legislature and request legislative action appropriate to mitigate the impact of disaster.

(d) The governor, at the same time that he makes his recommendations pursuant to Subsection (c) of this section, may suspend the standard or control which he finds to be inadequate to protect the public safety and by regulation place a new standard or control in effect. The new standard or control shall remain in effect until rejected by concurrent resolution of both houses of the legislature or amended by the governor. During the time it is in effect, the standard or control contained in the governor's regulation shall be administered and given effect by all relevant regulatory agencies of the state and local governments to which it applies. The governor's action is subject to judicial review but is not subject to temporary stay pending litigation.

#### Compensation

Sec. 13. (a) Each person in this state shall conduct himself and keep and manage his affairs and property in ways that will reasonably assist and will not unreasonably detract from the ability of the state and the public successfully to meet disaster emergencies. This obligation includes appropriate personal service and use or restriction on the use of property in time of disaster emergency. This Act neither increases nor decreases these obligations but recognizes their existence under the constitution and statutes of this state and the common law. Compensation for services or for the taking or use of property shall be only to the extent that obligations recognized in this Act are exceeded in a particular case and then only to the extent that the claimant may not be deemed to have volunteered his services or property without compensation.

(b) No personal services may be compensated by the state or any subdivision or agency of the state, except pursuant to statute or local law or ordinance.

(c) Compensation for property shall be made only if the property was commandeered or otherwise used in coping with a disaster emergency and its use or destruction was ordered by the governor or a member of the disaster emergency forces of this state.

(d) Any person claiming compensation for the use, damage, loss, or destruction of property under this Act shall file a claim for compensation with the Division of Disaster Emergency Services in the form and manner the Division of Disaster Emergency Services provides.

(e) Unless the amount of compensation on account of property damaged, lost, or destroyed is agreed between the claimant and the Division of Disaster Emergency Services, the amount of compensation shall be calculated in the same manner as compensation due for taking of property pursuant to the condemnation laws of this state.

(f) Nothing in this section applies to or authorizes compensation for the destruction or damaging of standing timber or other property in order to provide a firebreak or to the release of waters or the breach of impoundments in order to reduce pressure or other danger from actual or threatened flood, or contravention of Article I, Section 17, of the Texas Constitution, or statutes pertaining to that section.

#### Communications

Sec. 14. The Division of Disaster Emergency Services shall ascertain in cooperation with the Criminal Justice Council or its successor agency what means exist for rapid and efficient communications in times of disaster emergencies. The division shall consider the desirability of supplementing these communications resources or of integrating them into a comprehensive state or state-federal telecommunications or other communications system or network. In studying the character and feasibility of any system or its several parts, the division shall evaluate the possibility of their multipurpose use for general state and local governmental purposes. The division shall make recommendations to the governor as appropriate.

#### Mutual Aid

Sec. 15. (a) Political subdivisions not participating in interjurisdictional arrangements pursuant to this Act nevertheless shall be encouraged and assisted by the Division of Disaster Emergency Services to conclude suitable arrangements for furnishing mutual aid in coping with disasters. The arrangements shall include provision of aid by persons and units in public employ.

(b) In reviewing local disaster plans, the governor or his agent shall consider whether

they obtain adequate provisions for the rendering and receipt of mutual aid.

(c) It is a sufficient reason for the governor or his agent to require an interjurisdictional agreement or arrangement pursuant to Section 9 of this Act that the area involved and political subdivisions in it have available equipment, supplies, and forces necessary to provide mutual aid on a regional basis and that the political subdivisions have not already made adequate provision for mutual aid; but in requiring the making of an interjurisdictional arrangement to accomplish the purpose of this section, the governor need not require establishment and maintenance of an interjurisdictional agency or arrangement for any other disaster purposes.

#### Weather Modification

Sec. 16. The Division of Disaster Emergency Services shall keep continuously appraised of weather conditions which present danger of precipitation or other climatic activity severe enough to constitute a disaster. If the division determines that precipitation that may result from weather modification operations, either by itself or in conjunction with other precipitation or climatic conditions or activity, would create or contribute to the severity of a disaster, it shall request, in the name of the governor, that the officer or agency empowered to issue permits for weather modification operations suspend the issuance of the permits. On the governor's request, no permits may issue until the division informs the officer or agency that the danger has passed.

#### Severability

Sec. 17. If any provision of this Act or the application thereof to any person or circumstance is held invalid, such invalidity shall not affect other provisions or applications of the Act which can be given effect without the invalid provision or application, and to this end the provisions of this Act are held to be severable.

**Art. 6911. Who May Take Up**

When any stray horse, mare, gelding, filly, colt, mule, jack, jennet, or work ox shall be found on the land of any citizen or his lessee for one year or more, such citizen or his lessee may forthwith advertise the same, describing the animal's color and specifying the marks and brands, if any, also giving the age and flesh marks of every kind, at three public places in the county in which he resides, one of which notices shall be at the courthouse door, for at least twenty days, and shall also deliver to the county clerk a copy of said notice which shall be by him securely posted up in his office; after the expiration of which time, if no owner apply, the taker-up of said animal or animals shall appear before some justice of the peace in said county and estray the same. No animal so taken up shall be used for any purpose until the party shall have given bond as required by the succeeding article.

[Acts 1925, S.B. 84.]

**Art. 6912. Appraisalment and Bond**

Any citizen so entitled to estray any animal shall make affidavit before said justice of the peace that the animal which he proposes to estray was taken upon his plantation, or on his lands adjoining the same; that the marks and brands thereof have not been altered or disfigured since the same was taken up; that notice has been given as the law requires, and that no owner has been found; whereupon the said justice shall file said affidavit and shall cause to appear before him, by summons or otherwise, two disinterested householders of his county, who are in no way related to the person estraying, commanding them, after being sworn, to value and appraise the same and certify under oath attested by said justice the valuation, together with a particular description of the animal, including height, marks, brands, color and age. Said justice shall thereupon require of the taker-up a bond with two or more good and sufficient sureties, in double the value of such animal or animals, payable to the county judge of the county, conditioned that the taker-up shall comply with the provisions of this chapter, which bond, affidavit and ap-

praisement shall be sent by such justice to the county clerk within twenty days thereafter, for which said justice shall receive the same fees that are allowed for similar services by law. Said clerk shall record said papers so sent to him in a separate book to be kept for that purpose, for which he shall be entitled to collect the same fees allowed by law for similar services to be paid in all cases by the taker-up. When two or more animals are taken up at the same time by the same person, they shall be included in the same entry, and said justice and said clerk shall receive no more fees including posting and advertising, than for one such animal.

[Acts 1925, S.B. 84.]

**Repeal**

*Acts 1971, 62nd Leg., p. 2722, ch. 886, effective June 14, 1971, relating to the micro-filming of records by counties, and classified as article 1941(a), provided in section 2 that all laws or parts of laws in conflict with the provisions of this Act are hereby repealed, to the extent of conflict only, including but not limited to this article.*

**Art. 6913. Proof of Ownership**

At any time within twelve months, and before the sale of any estrays, it shall be lawful for the owner of any such estray to prove his property by the affidavit of any respectable witness, which shall specify a particular description of the animal claimed, including the kind, marks, brands, height, color and age of the same. This affidavit shall be delivered to the taker-up and by him filed in the office of the county clerk of such county, and on the delivery of such affidavit and the payment of all costs incurred in posting such estray to the taker-up, such owner shall be entitled to demand and receive the animal. When the respectability of said witness is not known to the officer administering the oath, the party claiming the estray shall produce satisfactory evidence of the respectability of such witness, certified to by a notary public, county clerk or county judge of the county in which such witness resides.

[Acts 1925, S.B. 84.]

**Repeal**

*Acts 1971, 62nd Leg., p. 2722, ch. 886, effective June 14, 1971, relating to the micro-filming of records by counties, and classified as article 1941(a), provided in section 2 that all laws or parts of laws in conflict with the provisions of this Act are hereby repealed, to the extent of conflict only, including but not limited to this article.*

**Art. 6914. No Pay for Taker-up**

If the owner of any animal which has been so duly estrayed, be a resident citizen of the county in which it has been estrayed, and shall have had his mark and brand recorded in said county, and the animal so estrayed shall be in

the mark and brand of the owner at the time it was taken up, then and in that case the taker-up shall not be entitled to receive any compensation for expense incurred in estraying said animal.

[Acts 1925, S.B. 84.]

#### Art. 6915. Commissioner to Return

If any estrays of any kind shall be found running at large and not estrayed, and the owner of the same be unknown, any county commissioner shall return the same, with a full description thereof, to the county clerk of his county, who shall advertise the same as specified in this chapter. If such animal shall not be proven away by the owner within the time allowed by law the commissioner returning the same, or his successor in office, shall proceed to sell such animals and report the sale thereof to said county clerk, and after paying the clerk's fee and retaining twenty per cent of the proceeds of such sale, he shall pay the remaining sum into the county treasury.

[Acts 1925, S.B. 84.]

#### Art. 6916. Advertisement

The county clerk shall cause a statement of the appraisalment and a description of the animals so estrayed to be advertised at least three times in some newspaper published in the county where such animal was estrayed, if there be one; and if none, then the clerk shall cause the same to be advertised in the newspaper nearest to the county, and also by posting up notices at three public places in the county, one of which shall be at the courthouse door thereof. The printer of such notice shall furnish the said clerk with a copy of the paper containing said notice. For such publication the printer shall be entitled to receive two dollars from the party estraying the same. Said clerk shall file and preserve said copy in his office.

[Acts 1925, S.B. 84.]

#### Art. 6917. Property in Estrays

The property of every stray horse, mare, gelding, filly, colt, mule, jack, jennet or work ox taken up as aforesaid and not proven away within twelve months after such appraisalment shall be deemed vested in the county wherein such stray or estrays may have been posted, and the taker-up shall immediately thereafter proceed to sell the same for cash to the highest bidder at the courthouse door of the county, after giving notice of the same as required in the case of sheriff's sale. Within ten days after such sale, he shall, after deducting the expenses incurred in estraying said animals, pay into the county treasury seventy-five per cent of the proceeds of the same, and retain the other twenty-five per cent for his own use. Whenever a sale of an stray shall be made according to the provisions of this article, the taker-up shall make a return of such sale, duly sworn to by him, to the county clerk of the

county in which the sale was made, who shall file the same in his office.

[Acts 1925, S.B. 84.]

#### Art. 6918. Sale Day

All sales of estrays, horses, mares, fillies, geldings, colts, mules, jacks, jennets, or work oxen shall be made on the first Monday in the month, and between the hours of one and three o'clock p. m. of said day.

No animal enumerated in this article except work oxen, shall be subject to be estrayed, unless the same shall have been known to the taker-up as being an stray for at least four months previous to the time of estraying the same.

[Acts 1925, S.B. 84.]

#### Art. 6920. Returns of Sales

In making the returns of sales under this chapter, when the sale has been made at the residence of the taker-up or other place than at the courthouse door of the county, the taker-up shall, in all cases, give the names of at least three of the bidders who were present at said sale, who were not members of his family.

[Acts 1925, S.B. 84.]

#### Art. 6921. Taker-up Liable

If any person estraying an animal enumerated in this chapter shall send or take away the same out of the county in which the same was taken up and estrayed, or sell or otherwise dispose of the same, he and his sureties shall be liable upon their bond in an action for damages in favor of the party injured.

[Acts 1925, S.B. 84.]

#### Art. 6922. Taker-up May Use

The taker-up of an stray may use the same in moderation, after having executed bond as provided in this chapter, but should he abuse or injure the same, he and his sureties shall be liable upon his bond in damages for such abuse or injury, and may be sued therefor by the owner for his own use, or by the county judge for the use of the county.

[Acts 1925, S.B. 84.]

#### Art. 6923. If Stray Dies

Whenever an stray animal shall be found dead, or shall escape, the taker-up shall with-

out delay, make a written sworn report thereof to the county clerk; which report shall be recorded by said clerk in a book to be kept by him for that purpose. Any person who shall make a false report shall be liable on his bond, together with his sureties, for the value of the animal or animals estrayed.

[Acts 1925, S.B. 84.]

**Art. 6924. Proceeds of Sale**

All moneys arising from the sales of estrays, under the provisions of this chapter, shall be paid to the county treasurer, and shall be by him applied exclusively to the jury fund of the county.

[Acts 1925, S.B. 84.]

**Art. 6925. If Taker-up Refuse to Deliver**

If any person having in charge an estray shall refuse to deliver the same to the owner thereof, on his complying with the provisions of this chapter, such owner shall be entitled to action therefor with damages.

[Acts 1925, S.B. 84.]

**Art. 6926. Owner May Reclaim Money**

At any time within twelve months after the sale of any estray made under the provisions of this chapter, the owner of such estray may apply to the county treasurer of the county in which such estray has been sold, and upon proof of such ownership shall be entitled to receive from said treasurer the amount deposited on account of such sale, after paying such costs as may be necessary to establish his right thereto.

[Acts 1925, S.B. 84.]

**Art. 6927. Notice of Estray**

Whenever any person shall stray any animal on which any county brand may be found, the county clerk of the county in which said estray may be shall immediately send a notice containing a full description of said animal, together with the marks and brands, to the county clerk of the county to which the county brand may belong; and the county clerk of said county brand shall record said notice in a book kept for that purpose, and post the same on the courthouse door; and shall ascertain from his record of brands to whom said animal may belong, and notify said owner by letter or otherwise. For such services he shall be entitled to a fee of one dollar from said owner; and the county clerk furnishing the notice shall be entitled to a fee of one dollar from said owner. Any county clerk who shall fail to

send a notice as required by this article, shall become liable to the original owner of said estray in an amount equal to the value of said estray.

The following rules shall govern any election held under any provision of this chapter for either of the purposes named in this chapter:

1. If the election be for a subdivision of the county, the county judge, at the time he issues the order for such election, shall appoint proper persons as managers of said election, all of whom shall be free-

holders of the county and qualified voters; and such managers may appoint their own clerks.

2. Said election shall be held at the usual voting places in the several election precincts if the election is ordered for the whole county; but if the election is ordered for any particular subdivision, the county judge shall designate the particular places in such subdivision at which the polls shall be opened.

3. Only persons who are freeholders and qualified voters under the Constitution and laws shall vote at said election.

4. On or before the tenth day after any said election, the persons holding such election shall make due returns to the county judge of all votes cast at their respective voting places for and against the proposition or propositions submitted at said election.

[Acts 1925, S.B. 84.]

#### Art. 6929. Combined Elections

When an election is called for any county or subdivision thereof for the purpose of voting upon the question of the adoption of the stock law or any part thereof, under the provisions of this chapter, if such county or subdivision has not already in operation the stock law or any part thereof under the provisions of this chapter, it shall be lawful to submit at the same time and at the same election the question of the limited period of free range for hogs, as provided for in this chapter, but said proposition must be submitted and voted upon as a separate proposition, and the votes cast therein and the returns thereof, and the judge's proclamation thereon, must be separate and distinct from that of the stock law proposition voted on at such election.

[Acts 1925, S.B. 84.]

## 2. STOCK LAW ELECTIONS

#### Art. 6930. To Order Election

Upon the written petition of fifty (50) freeholders of any county, or upon the petition of twenty (20) freeholders of any subdivision of a county, the Commissioners Court of such county shall order an election to be held in said county or subdivision, on some day named in the order, for the purpose of enabling the freeholders of such county or subdivision to determine whether any one or more of the following classes of animals, to wit: horses, mules, jacks, jennets, donkeys, hogs, sheep, and goats, shall be permitted to run at large in such county or subdivision.

[Acts 1925, S.B. 84; Acts 1953, 53rd Leg., p. 789, ch. 318, § 1.]

#### Art. 6931. Territory Between Subdivisions

Whenever there is territory between two (2) subdivisions of a county which have adopted a stock law, or when there is territory adjoining a subdivision which has adopted a stock law, in

a county, or in an adjoining county, and in such territory there are less than fifty (50) freeholders, an election shall be ordered on a petition of a majority of the freeholders residing in such territory by the Commissioners Court of the County in which the territory lies, and the election shall be held as provided by law in other cases relating to the adoption of the stock law. If there be less than twenty (20) freeholders in such intervening or adjoining territory, then on petition of a majority of the owners of the land to said Commissioners Court, the said Commissioners Court shall issue an order extending the stock law to said territory and the same shall be included in the territory of such adjoining subdivision; in cases where there are no freeholders on such intervening or adjoining territory, then on the petition of the owner or owners of the land to said Commissioners Court, the said Court shall issue an order extending the stock law to said territory, and the same shall be included in the territory of such adjoining subdivision; and any person or persons who own lands adjoining any other lands which have been added to territory in which a stock law prevails, shall have the same right, and on petition of the owner or owners of such lands to the said Court, the said Court shall issue an order extending the stock law to said territory, and the same shall be included in the territory of such adjoining subdivision.

[Acts 1925, S.B. 84; Acts 1945, 49th Leg., p. 530, ch. 318, § 1.]

#### Art. 6932. Requisites of Petition

Such petition shall set forth clearly the class or classes of animals enumerated in the preceding articles which the petitioners desire shall not run at large in such county or subdivision. If the petition be from the freeholders of a subdivision of any county, such subdivision shall be particularly described and the boundaries thereof designated.

[Acts 1925, S.B. 84.]

#### Art. 6933. Election Ordered

Upon the filing of such petition, the commissioners court, at its next regular term thereafter, shall order an election to be held throughout the county, or the particular subdivision thereof, as the case may be, on a day to be designated in the order, not less than thirty days from the date of such order.

[Acts 1925, S.B. 84.]

#### Art. 6934. Order and Notice

Immediately after the passage of an order for an election by the commissioners court, the county judge shall issue an order for such election and cause public notice thereof to be given for at least thirty days before the day of election, by publication of the order therefor in some newspaper published in the county; but if no newspaper be published in the county, then by posting copies of such order at the courthouse door, and at some public place in each justice's precinct, if the election be or-

dered for the whole county, or at three public places in the subdivision, if the election be ordered for a subdivision. The order of the county judge shall specify:

1. The petition and the action of the commissioners court.
2. The class of animals it is proposed shall not run at large.
3. The territorial limits to be affected.
4. The day of election.
5. The places at which polls are to be opened.

[Acts 1925, S.B. 84.]

#### Art. 6935. Manner of Voting

All votes at such election shall be by ballot, and all ballots shall have printed thereon the words, "For letting \_\_\_\_\_ run at large" and "Against letting \_\_\_\_\_ run at large". In the blank spaces there shall be printed the name of the animal or animals designated in the order. There shall be printed just above the propositions to be voted on, this instruction note: "Scratch or mark out one statement so that the one remaining shall indicate the way you wish to vote". The voters shall mark their ballots and the votes shall be counted in accordance with this instruction note.

[Acts 1925, S.B. 84; Acts 1955, 54th Leg., p. 665, ch. 236, § 1.]

#### Art. 6936. Returns of Election

The returns shall be opened, tabulated and counted by the commissioners court of the county in the same manner as provided for all general elections in this State.

[Acts 1925, S.B. 84.]

#### Art. 6937. Proclamation of Result

If a majority of the votes cast at such election shall be against letting such animals run at large, the county judge shall immediately issue his proclamation declaring the result, which proclamation shall be posted at the court house door, and after the expiration of thirty days from its issuance it shall be unlawful to permit to run at large within the limits designated any animal of the class mentioned in said proclamation.

[Acts 1925, S.B. 84; Acts 1955, 54th Leg., p. 665, ch. 236, § 2.]

#### Art. 6938. Stock Impounded

If any stock forbidden to run at large shall enter the inclosed lands, or shall, without being herded, roam about the residence, lots or cultivated land of any person, other than the owner of such stock, without his consent, in any county or subdivision in which the provisions of this subdivision have become operative in the manner provided in the preceding articles, the owner, lessee or person in lawful possession of such lands may impound said stock and detain the same until his fees and all damages occasioned by said stock are paid to him. No animals shall be impounded unless they

have entered upon the inclosed lands or shall be found roaming about the residence, lots, or cultivated land of another; and whenever any stock is impounded notice thereof shall at once be given to the owner, if known, and such owner shall be entitled to their possession upon payment of fees and damages.

[Acts 1925, S.B. 84.]

#### Art. 6939. Fees and Damages

Any owner, lessee, or person in lawful possession of inclosed lands shall be entitled to the following fees for impounding stock, to-wit: Ten cents per day per head for hogs, ten cents per day per head for goats, and five cents per day per head for sheep. The damages done by such stock, if any, may be assessed by any three disinterested freeholders of the subdivision in which said stock is taken up, who shall upon the application of the taker-up of the stock be appointed by the justice of the peace of the precinct in which such subdivision is situated. Where said justice shall fail or refuse to make such appointment, or where the stock law has been adopted by an entire county, said freeholders shall be appointed by the county judge of the county. Said freeholders, after being duly sworn to discharge with impartiality the duties devolving upon them by said appointment, shall proceed after hearing the evidence to determine whether or not any trespass prohibited by the provisions of this law has been committed, and to ascertain the damages, if any, occasioned thereby, and the fees due to the taker-up of the stock by reason of said trespass, and shall make an assessment of damages and fees, in writing, and signed by said freeholders, or two of them, and verified by the affidavit of said freeholders, to the effect that said assessment is just and that they have no bias in favor of or prejudice against any party interested therein, and shall file said assessment with said justice, which shall be final; provided, that the owner of the stock, if known, shall have five days' notice of the time and place of the meeting of said freeholders, and if the owner is unknown then a written notice there-of shall be posted in two public places in said subdivision, and one at the door of the courthouse of the county; and provided, further, that nothing in this law shall be construed to deprive the taker-up of the stock to enforce by suit in a court of competent jurisdiction any claim he may have for such fees and damages, and to subject the stock so taken for the payment of the same under the provisions of this law. After the filing of the assessment, as provided for in this article, the constable of the precinct shall sell such stock at public auction for cash, after having given notice of such sale as in constable's sales of personal property, and apply the proceeds of such sale, after deducting the expenses thereof, to the satisfaction of said fees and damages, and shall pay the balance, if any remains, to the owner of such stock. The justices and constables shall receive for their services the same compensa-

tion as is allowed for like services in civil cases.

[Acts 1925, S.B. 84.]

#### Art. 6940. Stock Sold

If no owner can be found of stock so impounded, the taker-up may make affidavit before a justice of the peace of the county, describing the stock impounded by him, and that the owner is unknown to affiant, which affidavit shall be forthwith delivered to the county clerk by such justice, to be kept in his office for inspection. After the filing of such assessment, the constable of the precinct shall sell such stock as in case where the owner is known; and, if anything remains after satisfying the expenses of said sale and the fees and damages due to the taker-up, he shall report the same under oath to the county clerk, and pay the same over to the county treasurer, to be received and disbursed by him, as in case of sales of estrays; or the taker-up may at his option, after the expiration of five days, stray such stock, according to the laws regulating estrays in this State.

[Acts 1925, S.B. 84.]

#### Art. 6941. Subsequent Elections

Whenever an election is held under the provisions of this law for any county or subdivision, and the proposition for a stock and fence law, as herein provided, is defeated, no other election for such purpose shall be held within that locality for the space of twelve months thereafter. But the defeat of the proposition for a county shall not prevent another election from being held immediately thereafter for any subdivision of such county; nor shall a defeat of the proposition for any subdivision prevent an election from being held immediately thereafter for the entire county.

[Acts 1925, S.B. 84.]

#### Art. 6942. Lawful Fence

Should any stock not permitted to run at large enter any inclosure of any owner or lessee of land, entitled to the benefit of this law, without his consent, it shall be lawful for the owner or lessee of said inclosure to impound said stock; and it shall be the duty of the owner or lessee of said land to give notice immediately to the owner of said stock of their impounding and detention; and the owner of said stock shall be entitled to the possession of his stock on payment of expenses incurred in impounding and keeping said stock; provided, that in such county or subdivision said owners or lessees shall not be required to fence against the stock not permitted to run at large; and any fence in said county or subdivision which is sufficient to keep out ordinary stock permitted to run at large under this chapter shall be deemed a lawful fence. Three barbed wires with posts not more than thirty feet apart, and one or more stays between them or pickets four feet high and not more than six inches apart, shall constitute a lawful fence.

5 West's Tex. Stats. & Codes—59

If boards or rails are used, then three boards to be not less than five inches wide and one thick, or four rails shall constitute a lawful fence; provided, that all fencing built under the provision of this chapter shall be four feet high. Nothing in this subdivision shall prevent the freeholders of any county or subdivision of a county where the stock law prevails from deciding by a majority vote whether or not three barbed wires without a board shall constitute a lawful fence in such county or subdivision thereof; the election for such purpose to be conducted in the same manner and under the same rules as elections provided for in this chapter governing the passage of the stock law.

[Acts 1925, S.B. 84.]

#### Art. 6942a. Misuse of Grazing Land Under One Fence; Injunction

Sec. 1. That, where one owner or lessee holds a separate tract or tracts of grazing or pasture land adjoining or adjacent to a tract or tracts of similar land held by another owner or lessee, fenced under one fence or enclosure surrounding said tracts, separately owned or leased, or enclosed with natural barriers and fences, it shall be unlawful for either owner or lessee of any such tract, or tracts, so enclosed, desiring to pasture the tract or tracts owned or leased by him, to place or keep, or cause to be placed or kept in said general enclosure, more cattle or other livestock than the tract, or tracts, owned or leased by him will reasonably pasture. Any one owning or leasing such land within said general enclosure injured by any other owner or lessee placing or keeping in said general enclosure, more cattle, or other livestock than the land owned or leased by him separately will reasonably pasture, may recover his damages by suit against the person excessively grazing said land or placing excess cattle and other livestock in such general enclosure, and shall have a lien upon the livestock of said person thus offending until said damages and all costs recovered are fully paid. It shall be unlawful for any person to place, or cause to be placed in said general enclosure, cattle or other livestock, unless he has a sufficient permanent supply of water on the land owned or leased by him in such general enclosure for such cattle or livestock; and the placing or causing to be placed in such general enclosure cattle or other livestock by any person holding or leasing land in such general enclosure but not having a sufficient permanent supply of water on the land owned or leased by him shall be deemed guilty of intentional and willful fraud and also subject to said full civil damages.

Sec. 1-a. The words "reasonably pasture" used in the foregoing Section are hereby interpreted to mean: "that number of livestock that a prudent and experienced livestock raiser is accustomed to graze on a range similar to the enclosure referred to in said Section 1 above and that such enclosure will supply ample

grazing to, under the usual condition of such community wherein such enclosure is located."

When a trespass has been committed by any cattle or horses on the cleared or cultivated land of any person who has complied with the provisions of this chapter, in the erection of a lawful fence, such person may complain thereof to the justice of the peace of the precinct in which such trespass shall have been committed; and such justice is hereby authorized and required to cause two disinterested and impartial freeholders to be summoned, who shall on oath view and examine whether such complaint be sufficient or not, and what damages have been sustained by said trespass, and certify the same in writing; and, if it shall so appear that said fence be sufficient, then the owner of such cattle or horses shall make just satisfaction for the trespass to the party injured, to be recovered before any tribunal having proper jurisdiction. In case of a second

trespass by the same cattle or horses, the owner or lessee of the premises upon which the trespass is committed may, if he deem it necessary for the protection and preservation of his premises or growing crops thereon, cause said stock to be penned and turned over to the sheriff or constable, and held responsible to the person damaged for all damages caused by said stock and all costs thereof. It shall be lawful for the owner or lessee of such inclosures as are contemplated in this law to charge twenty-five cents per day per head for impounding such stock as referred to in this law.

#### Art. 6946a. Local Option "Hog Law"

The word, "inspector," as used in this title, shall mean the inspector of hides and animals. Such inspectors shall hold their office for the term of two years. Until any vacancy in such office is filled by appointment, the sheriff of the county shall discharge the duties of the office. [Acts 1925, S.B. 84.]

**Art. 6973. Bond**

Each person elected to the office of inspector, before entering on the duties of his office, shall enter into a bond, with two or more good and sufficient sureties, to be approved by the commissioners court of the county constituting his district, payable to the county judge, in a sum to be fixed by said court, not less than one thousand nor more than ten thousand dollars, conditioned that he shall well and truly perform the duties of his office. A sheriff acting temporarily as inspector, pending a vacancy in such office, shall not be required to give additional bond but his official bond as sheriff shall extend to and include the faithful and proper performance of his duties as inspector ad interim.

[Acts 1925, S.B. 84.]

**Art. 6975. Deputies**

The inspector shall require bond and security of their deputies for the faithful performance of their duties; and the said deputies shall take and subscribe the official oath. The inspectors shall be responsible to any person injured thereby for the official acts of each of their deputies and they shall have the same remedies against their deputies and their sureties as any person can have against the inspectors and their sureties.

[Acts 1925, S.B. 84.]

**Art. 6976. Definitions**

As used in this chapter, the words "deputy inspector" shall mean the "deputy inspector of hides and animals," and the words "county," "district," or "inspection district," shall include each organized county in this State not herein excepted, together with any unorganized county that may be attached for judicial purposes to any such county.

[Acts 1925, S.B. 84.]

**Art. 6977. Take Acknowledgments**

Such certificate shall be then delivered to the purchaser and shall protect him from the payment of inspection fees in any other district for the animals therein described, except from the county from which the same may be exported; provided that any person driving cattle in his own mark and brand shall be entitled to the certificate of inspection provided for herein, on payment of fees to the inspector, and on presentation to the inspector of the certificate of the county clerk of the county where such mark and brand is recorded, to the effect that the mark and brand named therein is duly recorded in his office as the mark and brand of the person so driving such cattle.

#### Art. 6991. Notify if Stolen

If an inspector finds among hides or animals imported from Mexico any hides or animals which from the brand or from other evidence, he has reason to believe have been stolen from the lawful owner, he shall separate said hides or animals from others undergoing inspection and take possession of the same and notify any person he believes to be interested therein to come forward and institute suit for the recovery of the same. If no person appears to claim said hides or animals, the inspector shall within twenty-four hours, make oath before the district judge, the county judge, or any justice of the peace of the county, according to the value of the property involved, that he has reason to believe that said hides or animals have been stolen; whereupon said judge or justice shall issue a citation directing the importer or party claiming the same to appear before him at his office within a time specified, not to exceed twenty-four hours, to show cause why said property should not be condemned.

[Acts 1925, S.B. 84.]

#### Art. 6992. Importer to Recover

If said importer or claimant makes proof that he is the lawful owner of said hides or animals by showing a bill of sale from the owner of same, or his legally authorized agent, and by showing complete chain of transfer of title from the original owner of the brand to himself, or his firm, such judge or justice shall direct the same to be delivered to said importer or claimant upon his paying the inspection fees.

[Acts 1925, S.B. 84.]

#### Art. 6993. Hides or Animals Sold

If the importer or claimant of said hides or animals fail to establish his claim as the lawful owner of the same, or to any number of hides or animals so seized, the district judge, county judge or justice shall direct that said property be sold at public auction by the inspector, after a notice of ten days, published in a newspaper, should there be one published in said county, or if no newspaper be published in the county, then by written notice, posted at the courthouse door and two or more other places in said county, and the said hides shall be sold to the highest and best bidder. The inspector shall retain twenty-five per cent of the purchase money, after having deducted and paid all necessary expenses incurred by reason of said sale, and he shall deposit the remainder of said purchase money with the county treasurer, and take his receipt therefor. Said treasurer shall place one-half of said sum of money to the credit of the school fund and the other

half to the credit of the jury fund of said county.

[Acts 1925, S.B. 84.]

**Art. 6994. Property Delivered to Owner**

If any person appears and claims any hides or animals imported from Mexico at any time before the same shall have been sold as above directed, and should said claim be established before such judge or justice of the peace of said county, such property shall be delivered to the claimant, and all costs accruing therein shall be paid by the importer; provided that at any time before proceedings shall have been commenced as above directed the importer may be permitted to pay the lawful owner, his agent or attorney, for any hides or animals imported by him from Mexico and presented in any county of this State for inspection, and upon such payment and the fees for inspection such hides or animals shall be released.

[Acts 1925, S.B. 84.]

**Art. 6995. Brand Recorded Once**

In all cases where application for registration of any mark or brand shall be made, the county clerk shall receive and record the same, unless an examination of the recorded list of marks and brands shows that a similar mark and brand is already upon record in such county, in which event he shall refuse to register or give any certificate for the same; provided, that if such applicant shall have previously had such mark and brand recorded in some other county, and shall have a certificate from the clerk thereof, stating that such brand and mark had been recorded in said county at some time anterior to the time of the registration of the similar mark and brand in the county in which the applicant may desire to have his brand recorded, then said brand and mark shall be recorded; and the clerk shall make a minute on the record setting forth said facts.

[Acts 1925, S.B. 84.]

**Art. 6996. In County of Range**

All marks and brands of cattle shall be recorded in the county or counties in which they usually range. When cattle are gathered near the county line, the bills of sale of the same shall be recorded in both counties. When any stock or cattle is sold, the fact shall be noted on the record opposite or near the record of its mark or brand, giving the name of the vendor and vendee and date of sale, and this shall be done as often as there is a sale. The inspector shall procure certified copies of the marks and brands of this county for himself and his deputies, and monthly have added thereto the marks and brands that may be recorded.

[Acts 1925, S.B. 84.]

**Art. 6997. Only One to be Used**

No person owning and claiming stock shall, in originally marking and branding animals, make use of more than one mark and brand.

Any person may own and possess animals in many marks and brands, the same having been acquired by him by purchase; and written bills of sale, properly acknowledged from the previous owner or owners shall be sufficient evidence of such purchase, but the increase of such animals, or of any animal counterbranded by such person from other stocks of cattle owned by him, shall be branded or counterbranded by one and the same brand; and when marked by such person shall be marked in one and the same mark.

[Acts 1925, S.B. 84.]

**Art. 6997a. Penalty for Using More Than One Brand or Mark**

Whoever in originally branding or marking cattle uses more than one mark or brand shall be fined not less than twenty-five nor more than one hundred dollars for each animal so branded or marked.

[1925 P.C.]

**Art. 6998. Counterbranding**

In all cases where the counterbranding of any cattle shall be deemed necessary or expedient, the person so counterbranding shall counterbrand the existing brand of the animal by which the owner thereof is then known, or by which it is then claimed and owned, by branding below the said brand its facsimile, that is, similar letters, characters or numbers, as the case may be; and he shall also place on said animals the brand of the then owner thereof; but no person shall change or alter the ear marks of any animal, but in counterbranding shall leave the ears bearing the same mark or marks as before counterbranding.

[Acts 1925, S.B. 84.]

**Art. 6998a. Unlawful Counterbranding**

Whoever counterbrands any cattle without the consent of the owner or his agent shall be fined not less than ten nor more than fifty dollars for each animal so counterbranded.

[1925 P.C.]

**Art. 6999. Authority to Gather, etc.**

Any person having marks and brands recorded in the office of the county clerk may file with the inspector a list of his recorded marks and brands, certified by the clerk under his seal, to which certified lists shall be attached the names of any person or persons whom the owner of said stock may wish to authorize to gather, drive or otherwise handle his stock. The filing of said list with the inspector shall be deemed sufficient authority to the person or persons named in such list to gather, drive or otherwise handle any animals of the marks and brands therein described.

[Acts 1925, S.B. 84.]

**Art. 7000. Inspections Personal**

In making inspections, the inspector shall not trust to the statement or representations of any persons, but he shall in person carefully

inspect and examine each animal or hide separately so as to identify the marks and brands, and in case of animals, the ages and sexes. He shall also carefully examine the bills of sale and lists of brands and marks for the cattle inspected by him; and, if satisfied that the person claiming the cattle inspected has correct bills of sale or chain of transfer in writing from the record owner, or is the owner himself in whole or part of the mark and brand of each animal in his drove or herd which should be inspected, and that he has none other in said herd or under his control to be carried with it, he will then, and not until then, make out a certificate, which he shall first enter in his record, under his hand and seal containing the number of cattle in each mark and brand, with their respective ages and sexes, thus inspected, and that they appear to be the property of the person for whom they were inspected, naming him, as appears by bills of sale from recorded owner of the marks and brands on the cattle inspected by him, or the owner of the brand and mark himself, and that he has none other in his herd or under his control that should be inspected; and that he intends to drive or ship them, naming the place in the State for sale or slaughter; or if out of the State, he shall then name the place on the border of the State through which it is proposed to drive or ship such stock.

[Acts 1925, S.B. 84.]

#### Art. 7001. Inspection Before Export

Whenever any person shall be about to drive or ship any stock out of the State, if the inspector shall believe or is informed by any credible person that said person has other stock in his herd than those covered by his original certificate of inspection, or by subsequent purchase duly attested by proper bill of sale, the inspector at said point of shipment or border county where said person leaves the State, shall be authorized to inspect said stock in the same manner as in the original inspection; and, if any stock is found in said herd other than those covered by his original certificate of inspection, or by subsequent purchase duly and properly authenticated by bill of sale, the fees of said inspection shall be paid as provided in Article 6988, provided that said inspector shall in no case be authorized to receive or demand more than three cents per head for each head of cattle inspected; but if not, then said fees shall be paid by the person at whose instance said inspection was made; and if said inspection is made by the inspector at his own instance, and no stock is found in said herd, except those properly accounted for under the provisions of this article, then said inspector shall receive no fees for said inspection.

[Acts 1925, S.B. 84.]

#### Art. 7002. Seizure of Other Cattle

If the inspector at the point of destination shall find upon inspection that the owner of the herd or person in charge has in his herd

other cattle besides those inspected originally in the county from which said herd was driven, he shall seize said cattle and take them into possession, and thereupon the same proceedings shall be had as are prescribed in Article 6981. If the person in charge of any such cattle refuses to deliver the same into the possession of the inspector, such inspector may obtain a writ of sequestration from any justice of the peace, county judge or district judge, according as the value of such cattle may come within the jurisdiction of either. Such writ may be obtained upon the affidavit of the inspector, stating that he believes such cattle have been unlawfully acquired, shall issue without bond, and be forthwith executed by the sheriff or any constable of the county; and thereupon said proceedings shall be had before the officer issuing the writ, either in term time or in vacation.

[Acts 1925, S.B. 84.]

#### Art. 7003. Proceeds Into Treasury

The net proceeds of the sale of cattle condemned under the preceding article, save one-fourth of such proceeds retained by the inspector for his compensation, shall be paid into the county treasury, subject to the claim of the true owner of such cattle. If no claim be set up and established thereto within one year from the date of its deposit, such proceeds shall pass into the general fund of the county, and all claims thereto shall thereafter be barred. At the time such proceeds are originally deposited in the county treasury the inspector shall accompany such deposit with a certified statement, under his hand and seal, of the number of cattle sold, the mark and brand of each animal, with the amount for which sold.

[Acts 1925, S.B. 84.]

#### Art. 7004. Change of Destination

If the owner of the inspected herd desires to sell, slaughter or ship the cattle, or any of them, at any place other than the destination named in the original certificate of inspection he may do so by first having his herd inspected at the point of destination therein named and a new certificate of inspection issued to him at that point, naming the new point of destination or shipment; and upon his arrival at such new point of destination, like proceedings shall be had in the way of inspection, comparison and return of the certificate of inspection, as are prescribed for the original point of destination.

Said Commission may at its discretion whenever it is deemed necessary or advisable also to engage in the eradication and control of any disease of any kind or character that affects animals, live stock, fowls, or canines regardless of whether said diseases are infectious, contagious or communicable and may establish necessary quarantines for said purpose. It shall be the duty of the Commission to establish quarantines

against other States, territories and foreign countries and portions thereof whenever said Commission ascertains or is informed that any of said diseases exist therein, and to establish quarantines within the State of Texas on cattle, horses, mules, asses, sheep, goats, hogs and other live stock, domestic animals and domestic fowls, also counties, districts, areas, premises, lands, pastures, lots, ranches, farms, fields, ranges, thoroughfares, buildings, barns, stables, stock yards, pens and other places whenever said Commission ascertains that any of said diseases or the agency of transmission thereof exist in any of said places or among any of said live stock, domestic animals or domestic fowls, or that any of said places, live stock, domestic animals or domestic fowls are exposed to any of said diseases or to the germs or agency of transmission of any of said diseases. Said Commission shall adopt rules and regulations to be proclaimed by the Governor of the State of Texas for the purpose of carrying out and enforcing the provisions of this Act. The said Commission is hereby authorized to control the sale and distribution of veterinary biologics. No provision of this Act shall relate to tick eradication; nor shall any provision hereof relate to scabies except those provisions in which scabies is expressly mentioned. When reference is made in any Section of this Act to infectious, contagious and communicable diseases, the same shall not be construed as having reference to scabies, unless said Section specifically states that scabies is included. It is hereby specifically provided that scabies eradication and tick eradication shall be conducted only by Inspectors of the Live Stock Sanitary Commission appointed and recognized by said Commission for said purposes, and all permits and certificates for certifying that cattle or sheep are free of scabies infection and exposure shall be issued only by Inspectors appointed for said purpose, and permits and certificates for certifying that live stock are free of ticks and exposure shall be issued only by Inspectors appointed for said purpose. Provisions of this with reference to issuing search warrants shall also apply to scabies inspectors for the purpose of dipping sheep or cattle under any law for eradicating scabies. Where cattle are quarantined on account of being tubercular reactors prosecutions for violations thereof shall be only under the penal clause for violating quarantines on tubercular reactors and no other penal clause of this Act shall apply. Wherever the word "person" is used in this Act the same shall also include firm and corporations.

#### Definitions

Sec. 1(a). The terms "livestock," "domestic animals," "domestic fowls," and specifically mentioned animals, when used in this Act, shall be construed to include the dead carcasses of such animals or fowls or parts thereof.

#### Exposure or Infection Considered as Continuing; Proof of Treatment by Other Than Authorized Person Inadmissible

Sec. 2. Whenever it is determined by Veterinarians in the employ of the Live Stock Sanitary Commission that any contagious, infectious or communicable disease exists among any live stock or domestic animals or domestic fowls, in the State of Texas, or on any land or premises or other places, or that any live stock, domestic animals or domestic fowls, premises or other places have been exposed or are exposed to the agency of transmission of any infectious, contagious or communicable disease, such exposure or infection shall be considered as continuing until the Live Stock Sanitary Commission has eradicated the same through its prescribed methods under authority of law and of the rules and regulations of the Live Stock Sanitary Commission. In the trial of any case involving the compliance or non-compliance of any owner or caretaker with any provision of law requiring the treatment, vaccination, dipping, disinfecting or other methods to be applied to live stock it shall not be permissible to prove that the same was done by any one except an authorized representative of said Commission. The provisions of this Section shall apply to any and all contagious, infectious and communicable diseases of live stock, domestic animals and domestic fowls, whether said diseases are mentioned in this Act or not, and said provisions shall also include scabies infection and exposure among cattle, sheep, and goats, when a scabies inspector of said Commission determines the existence of scabies infection or exposure thereto.

#### Notice of Quarantines

Sec. 3. Notice of quarantines established by the Live Stock Sanitary Commission shall be given in the following manner: Notice of quarantines against other states, territories and foreign countries, or any part thereof, shall be given by publishing a brief statement thereof in a newspaper published in the State of Texas and said quarantine shall become and be in effect on and after the time of said publication. The expense of said publication shall be paid out of any appropriation made for office and stationery expenses of the Live Stock Sanitary Commission. Notice of quarantines established within the State of Texas shall be given either by publishing a brief statement thereof in a newspaper published in the County in which said quarantine is established or by posting said brief statement giving notice of said quarantine at the Court House door of said county or by delivering a written notice of said quarantine to the owner or caretaker or person in charge of the live stock, domestic animals, domestic fowls, or the lands, premises or other place to be quarantined. When a quarantine is established on any lands, premises or other place the same shall also quarantine all live stock, domestic animals or domestic fowls of the kind mentioned in said quarantine notice

whether or not said live stock, animals or fowls are owned or controlled by the person who owns and has control of the land or other place, and said quarantine shall include all such live stock, domestic animals or domestic fowls owned by any person, if the said live stock, domestic animals or domestic fowls shall be upon or enter upon said quarantined premises, lands or other quarantined places during the existence of said quarantine. The expense of publishing or posting notice of any quarantine established within the State of Texas may be paid out of any appropriation made by the Legislature for office and stationery expenses of the Live Stock Sanitary Commission or out of any appropriation made by the Legislature for the eradication or control of contagious, infectious or communicable diseases of live stock; or the County Commissioners' Court in counties in which said quarantines are established may provide funds for publishing or posting said notices out of the general funds of said counties or out of any other available funds of said counties. All quarantine notices shall state the requirements and restrictions under which live stock may be permitted to enter the State of Texas or to be moved from any quarantined places; or if the seriousness of the disease is such that movements of such live stock shall not be permitted, then and in that event said quarantine shall state this fact.

**Removal or Transportation of Animals From Quarantine Area Unlawful**

Sec. 4. Any person, firm or corporation that shall ship, drive, drift, lead, haul, truck, carry, or in any manner move or transport any cattle, horses, mules, asses, sheep, goats, hogs or other live stock, domestic animals or domestic fowls from any county, district, area, premises, pasture, lot, pen, yard, stockyard, field, barn, stable, building, enclosure, or other place which is under quarantine under any provision of this Act, or any person, firm or corporation that shall ship, drive, drift, lead, haul, truck, carry or in any manner transport or move any of said live stock, domestic animals, or domestic fowls which are under quarantine under any provision of this Act from any county, district, area, premise, pasture, lot, pen, yard, stockyard, field, barn, stable, enclosure, building, or other place in which or upon which said live stock, animals or fowls are quarantined; or any person, firm or corporation that shall ship, drive, drift, lead, haul, truck, carry or in any manner transport or move any cattle, horses, mules, asses, sheep, goats, hogs or other live stock, domestic animals or domestic fowls into the State of Texas from any State, territory or foreign country against which a quarantine is established by the Live Stock Sanitary Commission under any provision of this Act, or from any quarantined part of any State, territory, or foreign country against which a quarantine is established by the Live Stock Sanitary Commission under any provision of this Act, shall be fined not less than Twenty-Five Dollars per head nor more than One Hundred

Dollars per head for each head of such live stock, domestic animals or domestic fowls which are shipped, driven, drifted, led, hauled, trucked, carried or in any manner transported or moved by said person, firm or corporation in violation of said quarantine, unless said live stock, domestic animals or domestic fowls are accompanied by a written certificate or written permit from the Live Stock Sanitary Commission of Texas or a written certificate or written permit from a veterinarian or other representative authorized by said Commission to issue the same. The said certificate or permit shall be issued in conformity with the requirement stated in the quarantine notice and the same shall be issued by some one of the class of persons authorized for such purpose by said Commission in said quarantine notice. Quarantine notices shall state for what cause said quarantines are established, whether on account of infection or exposure. It shall not be necessary to describe in said notices the land or territory or premises by metes and bounds or other measures, but it will be sufficient if the said quarantine notice makes such reference to the land, territory or premises and the location thereof to reasonably identify the same. The provisions of this Section with reference to the quarantining against other States, and foreign countries and portions thereof, and assessing a penalty for the violation of same, shall apply to quarantines established on account of the diseases mentioned and referred to in this Act, and also to scabies among cattle, whenever said quarantine is established on account of said scabies, but where a quarantine is established on account of scabies among cattle, the issuance of certificates and permits for the movement of cattle which are subject to said quarantine shall be only by scabies inspectors recognized for such purpose by the Live Stock Sanitary Commission of Texas, in said quarantine notice.

**Regulation of Movement of Commodities or Disease Carriers**

Sec. 5. The Commission may establish necessary quarantines for prohibiting or regulating the movement of any commodity or article, livestock, animals or fowls that the said Commission may designate to be carriers of any of the diseases mentioned in this Act, as amended, or that the Commission may designate as potential carriers if movement is not otherwise regulated or prohibited, whenever any of said diseases or exposure thereto exist in the nation, State, territory or area to be quarantined. In the quarantine notice the Commission may prescribe any exceptions, terms, conditions, or provisions it believes necessary or desirable to promote the objectives of this Act or to minimize the economic impact of the quarantine without endangering the objectives of this Act and the public health and safety. Any person, firm or corporation who shall violate said quarantine by in any manner moving any of said designated commodity or article, livestock, animals or fowls into the State of Texas from

any state, foreign nation, territory or area, or who shall in any manner move any of said designated commodity or article, livestock, animals or fowls from any territory, county, district, or place in the State of Texas quarantined by said Commission shall be fined not less than \$25.00 nor more than \$100.00 for each of said movements or shipments unless said movement or shipment is accompanied by a written permit or certificate provided for in said quarantine notice.

Entry Into Public or Private Property in Exercise  
of Authority

Sec. 6. The Chief Veterinarian of the Live Stock Sanitary Commission and all other veterinarians employed by said Commission, including members of said Commission, are hereby authorized to enter any public or private property for the exercise of any authority or performance of any duty authorized under this Act. If said person desires to be accompanied by a peace officer the said person may apply to any magistrate in the County wherein said property is located for the issuance of a search warrant, and it shall be the duty of the said magistrate to issue the same, but no such search warrant shall issue without describing as near as may be the premise or other place to be entered; nor without probable cause, supported by oath or affirmation. It shall not be necessary to describe said premises or place by field notes or metes and bounds, or other measures, but it will be sufficient if the search warrant contains such reasonable description as will enable the owner or caretaker of said property to know just what property is referred to therein. When said search warrant is issued it will authorize the person to whom it is issued to be accompanied by peace officers, and said search warrant will authorize the person to whom it is issued to be also accompanied by as many helpers and assistants as he may deem necessary for the performance of said duty or the exercise of said authority. Any person, firm or corporation who shall refuse to permit any person to whom said search warrant is issued to make said entry or to perform any duty or exercise any authority designated in said search warrant under authority of this Act, or who shall refuse to permit any peace officer or any helper or any assistant to said person to whom said search warrant is issued to make said entry or to exercise any authority or perform any duty designated in said search warrant under authority of this Act shall be fined not less than Twenty-five nor more than One Hundred Dollars. Each separate day upon which said refusal is made during the thirty days next succeeding the date of the issuance of said search warrant shall constitute a separate offense. Said search warrant shall permit the entry and re-entry and the performance of said duties and exercise of said authority continuously for a period of thirty days after its issuance, and additional search warrants may be issued thereafter under the provisions of this Act as often

as same may be necessary. It is further provided that it shall not be necessary for veterinarians, inspectors or members of said Commission to secure said search warrants, unless they are to be accompanied by peace officers, but they are hereby authorized to make entries upon private and public lands for the performance of any duties authorized under this Act. Search warrants may also be issued to inspectors of the Live Stock Sanitary Commission engaged in the eradication of scabies among sheep, goats and cattle, whenever said inspectors are to be accompanied by peace officers in the performance of any duties in connection with said work.

Persons Liable

Sec. 7. For all purposes of this Act, it shall be construed that any person, firm or corporation who is owner, lessee, renter or tenant of premises, pens, pastures or other places is the caretaker of and has control of all cattle, horses, mules, asses, sheep, goats, hogs and other live stock, domestic animals or domestic fowls, located thereon or therein, and subject to prosecution under provisions of this Act, penalizing owners or caretakers, whether he owns such live stock or not; provided that this shall not be construed as limiting the care and control of such mentioned live stock, animals and fowls to said owner, lessee, renter or tenant of said land, but any other person who exercises any care or control over such live stock, animals or fowls and also the actual owner of same shall also be held liable under provisions of this Act penalizing owners and caretakers for violation. Owners of land, pastures, premises and other places shall not be considered caretakers of live stock thereon if some other person has control of said premises by virtue of any lease or rental contract, or by some other authority, unless the owner of said premises is also owner of the said live stock, domestic animals or domestic fowls located thereon, nor shall a tenant of premises be considered a caretaker of live stock, domestic animals or domestic fowls thereon unless said tenant has control of said premises or said live stock, domestic animals or domestic fowls.

Commissioners' Court to Cooperate With Commission

Sec. 8. It shall be the duty of the County Commissioners' Courts of this State to cooperate with and assist the Live Stock Sanitary Commission in protecting the live stock, domestic animals and domestic fowls of their respective counties from all contagious, infectious and communicable diseases, whether such diseases exist within or outside of the county, and said Commissioners' Courts are hereby authorized to employ a veterinarian at the expense of the county, said veterinarian to be approved by the Live Stock Sanitary Commission.

Into Any County

Sec. 9. It shall be unlawful for any person, firm or corporation to ship, drive, drift, haul, lead or otherwise move from any state, territo-

The said Commission shall provide in its rules and regulations for authorizing and recognizing veterinarians of this state and of other states and Departments of the United States Government, and no veterinarian shall be considered as recognized or authorized by said Commission, except as provided therein. The said certificate shall show that said livestock, domestic animals, and domestic fowls were inspected by said veterinarian sometime within the preceding ten days before they entered the State of Texas, and that he found them to be free of all infectious and contagious diseases, as such are determined by the Texas Animal Health Commission to be dangerous to livestock, and that said animals were subjected to such tests, immunizations, and treatment as required under regulations adopted by said Commission. Any person, firm or corporation that shall ship, drive, drift, haul, lead or otherwise move into the State of Texas, or any railway or other common carrier that shall haul, ship, or transport into the State of Texas, any cattle (except steers and spayed heifers), horses, mules, asses, sheep, goats, hogs, domestic animals or domestic fowls, in violation hereof without the same being accompanied by said certificate shall be deemed guilty of a misdemeanor, and upon conviction thereof shall be fined any sum of not less than Twenty-five Dollars (\$25.00) nor more than One Hundred Dollars (\$100.00) for each head of livestock and for each domestic animal or domestic fowl which said person, firm or corporation, railway or other common carrier ships, hauls, drives, drifts, transports, leads, or otherwise moves into the State of Texas in violation hereof. Cattle and sheep and hogs billed and shipped for immediate slaughter purposes shall be admitted into the State of Texas without certification, treatment, vaccination or testing.

#### Rules and Regulations for Shipment

Sec. 10. Livestock shall not be considered as billed or shipped or intended for immediate slaughter purposes unless they are handled as provided in the rules and regulations of the Texas Animal Health Commission and accompanied by a written statement of this fact shown on the waybill, or bill of lading, express shipping papers, or if hauled by trucks or other vehicles the driver shall have in his possession a written statement of this fact.

Sec. 11. All livestock brought into the state shall be accompanied by an official health certificate stating that the animals are free from symptoms of infectious, contagious, and communicable diseases, and shall meet the specific health requirements as stated in this regulation.

All cattle except cattle exempt from testing in accordance with the rules and regulations of the Texas Animal Health Commission, over eight (8) months of age shall be required to show a negative brucellosis agglutination test within thirty (30) days prior to date of shipment. Any health certificate required herein shall be issued by a veterinarian recognized by the Texas Animal Health Commission. The Texas Animal Health Commission, in regulations adopted by said Commission, may prescribe the manner and method of tuberculin testing prior to entry into Texas and provide for permits to be secured authorizing said brucellosis and tuberculin tests to be conducted after arrival of cattle into Texas.

Any person, firm, corporation, railway or other transportation company that shall ship, drive, drift, haul, transport or otherwise move into the State of Texas any cattle in violation hereof shall be deemed guilty of a misdemeanor, and upon conviction thereof shall be fined any sum of not less than Twenty-five Dollars (\$25.00) per head nor more than One Hundred Dollars (\$100.00) per head for cattle shipped, driven, drifted, hauled, transported or otherwise moved into the State of Texas by said person, firm, corporation, railway or other transportation company in violation hereof.

#### Regulation of Hog Shipments

Sec. 12. Any person, firm or corporation that shall ship, drive, drift, haul, truck or otherwise transport into the State of Texas any hogs, except hogs shipped for immediate slaughter in accordance with the rules and regulations of the Live Stock Sanitary Commission, unless the certificate accompanying said hogs as prescribed in this Act, certifies that

the veterinarian who issued same vaccinated said hogs and dipped them in a two per cent solution of cresol compound USP, prescribed in the Rules and Regulations of said Commission, shall be deemed guilty of a misdemeanor and upon conviction thereof shall be fined any sum of not less than \$25.00 per head nor more than \$100.00 per head for each head of hogs shipped, driven, drifted, hauled, trucked or transported or otherwise moved by said person, firm or corporation into the State of Texas in violation hereof. Any railway company or other common carrier who shall haul, ship or transport into the State of Texas any hogs, except said immediate slaughter hogs, unless the same are accompanied by the said certificate bearing the said certification showing said vaccination and dipping, shall be deemed guilty of violating the provisions of this Section and shall be punished as herein prescribed. For the purpose of carrying out the provisions of this Section the said Commission or its Chairman may establish such restrictions or quarantines on said cattle as may be necessary, to insure their being retested as herein prescribed, provided that the Texas Animal Health Commission shall not adopt any regulations requiring tuberculin tests prior to entry into this state of grade cattle of beef breeds originating in non-quarantined herds in Modified Accredited Tuberculosis Free Areas.

**Cattle Showing Positive Reaction to Tuberculosis Test as Public Nuisance**

Sec. 14. All cattle that show a positive reaction when tested for tuberculosis by a veterinarian recognized by the Live Stock Sanitary Commission for the performance of such testing are hereby declared to be a public nuisance and a menace to the health of other live stock with consequent and serious danger to human life and health. It shall be the duty of said veterinarian to brand or have branded all of said positive reactors "T" on the left jaw with a hot iron, which letter "T" shall be not less than three inches high. Said veterinarian shall immediately notify the Live Stock Sanitary Commission of the location, description and number of said reactors and it shall be the duty of said Commission to immediately quarantine the said reactors and the premises upon which they are located. Any person, firm, or corporation who shall sell, trade, barter, give away, or loan, or drive, drift, ship, haul, lead, truck, or in any manner move, before the Live Stock Sanitary Commission has established a quarantine on said positive reactors, any of said positive reactors from the enclosure wherein they were located at the time they were so tested, or that shall so move any of said reactors from the place or enclosure where they are under quarantine by said Commission or that shall so move any cattle located in said quarantined place or enclosure during the existence of said quarantine without first securing a written permit from the said Commission shall be fined not less than \$100.00 per head nor more than \$500.00 per head for each head of said positive reactors which the said person, firm or corporation shall sell, trade, barter, give or loan, or shall drive, ship, haul, lead, truck, or in any manner move in violation of any provision of this Section without first receiving said permit as aforesaid.

Owners and persons in charge of fairs, shows and exhibitions, stock yards and railway shipping pens shall also be liable under this Act for such movement and fined as herein provided whenever they permit or allow the same.

**Definitions**

The County Judge upon receipt of the report from the appraisers shall issue an order to the sheriff, deputy sheriff or constable of said county commanding him to seize said diseased animal and take it to some secluded spot or place and kill it and burn the carcass until thoroughly consumed. The said appraisers and officers shall be paid reasonable compensation for their services, out of funds provided by the County Commissioners' Court under the same provisions authorized by this Act for other expenditures by County Commissioners' Courts.

Sec. 22. (1) The Livestock Sanitary Commission is hereby authorized to cooperate with the United States Department of Agriculture and with County Commissioners Courts of this State, and it is hereby made the duty of County Commissioners Courts to cooperate with said Commission and the United States Department of Agriculture as hereinafter provided for the eradication of tuberculosis among cattle, under the provisions of this Act and of the rules and regulations of said Commission as herein provided for the purpose of the establishment of modified accredited areas in the State of Texas. The said County Commissioners Courts may at their discretion cooperate with said Commission and the United States Department of Agriculture, but it shall be the duty of said County Commissioners Courts to so cooperate upon the filing with said County Commissioners Courts of a petition signed by at least seventy-five per cent (75%) of the owners of cattle in the county as shown by the tax rolls of said county. The Livestock Sanitary Commission shall provide in its rules and regulations the manner, method and system of testing cattle for tuberculosis in said cooperative tuberculosis eradication work. The owners of cattle which have shown a positive reaction to the tuberculin test in said cooperative tuberculosis eradication work shall sell such reactors under the direction of said Commission for immediate slaughter at public slaughtering establishments where Federal postmortem inspection is maintained; or said Commission may authorize said slaughter upon the owner's property or other place under the direction of said Commission. After such sale and slaughter the Livestock Sanitary Commission is authorized to pay such owners out of funds appropriated by the Legislature for that purpose an amount not to exceed one-third ( $\frac{1}{3}$ ) of the appraised value of such reactors after deducting the amount of salvage received for same. In no case shall any compensation be made by the State for more than Thirty-five Dollars (\$35.00) for any grade animal or more than Seventy Dollars (\$70.00) for any purebred animal; nor shall any of such payment be made until said owner complies with the rules and regulations of said Commission; nor shall any compensation be made in excess of the amount of compensation paid said owner for said reactors by the United States Department of Agriculture. The value of said animal shall be appraised by a representative of said Commission or of said United

States Department of Agriculture and a representative of the owner of said livestock, and if they cannot agree, then a third appraiser shall be appointed by these two appraisers and then the value shall be appraised by the agreement of any two of said three appraisers. It shall be unlawful for any positive reactors to the tuberculin test, regardless of whether said animals were tested in said cooperative tuberculosis eradication work to be slaughtered or otherwise disposed of except under the direction of the Livestock Sanitary Commission, and any person who kills or destroys or removes the carcass of any positive reactor from the place where the same is under quarantine or the place whereon said animal was tested, shall be fined the same as if he had violated the quarantine of said positive reactors under this Act.

(2) When the Livestock Sanitary Commission is conducting tuberculin tests in any county, in cooperation with the United States Department of Agriculture, for the purpose of maintaining this State and each county thereof as a Modified Accredited Tuberculosis Free Area, under the terms of uniform methods and rules of the United States Department of Agriculture, adopted by the Livestock Sanitary Commission of Texas, said Commission or its authorized representative is hereby authorized to examine, test and retest any and all cattle in this State, as may be required, to maintain the status of each county as a Modified Accredited Tuberculosis Free Area.

(3) Any herd, or herds, of cattle, or parts of herds in Modified Accredited Tuberculosis Free Areas, or any other area, shall be tested or retested at such intervals as may be deemed advisable or necessary by the Livestock Sanitary Commission to control and eliminate bovine tuberculosis.

(4) It shall be the duty of every owner, part owner or caretaker to assemble and submit his cattle for examination and tuberculin test when directed in writing by the Livestock Sanitary Commission or its authorized representative. Said notice, fixing the date and approximate time cattle are to be tested, shall be delivered by registered mail, to owner, part owner or caretaker ten (10) days prior to the date cattle are to be assembled for test.

(5) Such owners, part owners or caretakers shall provide reasonable assistance in confining their cattle and providing facilities in order that tuberculin tests may be properly administered to cattle to be tested. It shall also be their duty to return for observation the same cattle, at the same place and at a time designated by the Livestock Sanitary Commission or its representative.

(6) Owners, part owners or caretakers who fail or refuse to assemble cattle or to provide reasonable assistance and facilities for the tuberculin testing or observation of the results of such tests, at time and place directed in writing by said Commission, shall be fined not less than Twenty-five Dollars (\$25) nor more than

Two Hundred Dollars (\$200), and each day of failure or refusal shall be a separate offense.

(2) The Commission shall provide in its rules and regulations the manner, method and system of eradicating such diseases in this state; provided, that such rules and regulations shall not exceed those imposed by the Minimum Standards for Cooperative Programs promulgated by the Animal and Plant Health Service, United States Department of Agriculture. Before adopting these rules and regulations or any amendment or repeal of them, the Commission shall hold a public hearing preceded by publication of notice in at least three newspapers having general statewide circulation at least thirty (30) days before the date of the hearing. The notice shall state the substance of the proposed rules and regulations, or of the amendments or repeals, and the place, date, and time of the hearing.

(3) It shall be the duty of the Texas Animal Health Commission to provide applicable rules and regulations for the use of biologicals as a protection against dissemination of contagious, infectious, or communicable swine diseases.

(4) The Commission shall have the authority to order swine infected with, or exposed to, vesicular exanthema, foot and mouth disease, hog cholera and other diseases of swine to be sold for immediate slaughter at public slaughtering establishments where federal post mortem inspection is maintained; or the Commission may authorize such slaughter upon the owner's property, premises or other place under the direction of said Commission. Provided however, the owner shall have the right to appeal such order by the Commission, to the County Court, in the county where such swine are located.

(5) After such sale and slaughter of swine infected with or exposed to vesicular exanthema, foot and mouth disease, and hog cholera, the Commission is authorized to pay the owner of such swine out of funds appropriated by the Legislature for that purpose in an amount not to exceed fifty per cent (50%) of the appraised value of such animals after deducting the amount of salvage received for them by the owner. No payment shall be made unless the owner or owners of such swine have complied with Subsection (7) of this Section and the

If either party is not satisfied with the value as appraised, he shall have the right to appeal to the court having jurisdiction of the amount in controversy in the county of the residence of the owner. The trial shall be de novo as that term is used in appeals from the justice court to the county court.

Sec. 23. The Livestock Sanitary Commission is hereby authorized to employ a Chief Veterinarian, a first assistant and as many Assistant Veterinarians as may be necessary; also, such other persons as may be necessary for the enforcement of the provisions of this Act, and other Live Stock Sanitary Acts; also, clerks, stenographers, chief clerk and all necessary clerical help.

Control and Eradication of Bovine Brucellosis

Sec. 23A. (1) Purpose. It is the purpose of this Section to bring about the effective control and eventual eradication of bovine brucellosis in the State of Texas and to accomplish that purpose in the most effective, practical, and expeditious manner.

(2) The Livestock Sanitary Commission of Texas may enter into cooperative agreements with the United States Department of Agriculture for the control and eradication of bovine brucellosis in Texas.

(3) The Livestock Sanitary Commission of Texas, in cooperation with the United States Department of Agriculture, is hereby authorized to engage in area or county programs for the control and eradication of bovine brucellosis to the end that all the area of this State may eventually become a modified certified brucellosis free area.

(4) When seventy-five per cent (75%) of the cattle owners in any area or county in this State, as reflected on the current tax rolls, owning at least fifty-one per cent (51%) of the cattle within that affected area or county, as reflected by said tax rolls, shall petition the Livestock Sanitary Commission of Texas to have such area or county designated as a modified certified brucellosis free area, the Livestock Sanitary Commission, of Texas may declare that county or area to be a brucellosis control area. If such area follows county boundary lines it shall be designated as a "County Brucellosis Control Area," the name of the county identifying the area.

(4a) Regardless of any other provision of this section, the Commission, on a finding that at least 75 percent of the cattle owners of the State, as reflected on the current tax rolls, owning at least 51 percent of the cattle within the State, have petitioned the Commission for establishment of Type II brucellosis control areas under this Section 23A, may designate any county or area as a Type II control area if it has not already been so designated.

(5) In the event that, for any valid reasons, the Livestock Sanitary Commission of Texas

should decide that conditions within and surrounding the county originating such petition make it impractical to operate a brucellosis control area within the boundaries of such county, then the Texas Livestock Sanitary Commission is authorized to add additional territory to such county area in reasonable amount or to eliminate part of such county area in reasonable amount, and to establish the boundary of such control area along practical and reasonable lines, provided that, before such control area can be established it must be determined that at least seventy-five per cent (75%) of the cattle owners within the boundaries of the area so established, owning at least fifty-one per cent (51%) of the cattle within that area, request the Texas Livestock Sanitary Commission to have such area designated as a modified, certified brucellosis free area. When an area not following county boundary lines is established as a brucellosis control area by the Texas Livestock Sanitary Commission such area shall be designated as "Special Brucellosis Control Area."

(6) In order to establish and designate an area, either County or Special, as a brucellosis control area, the Texas Livestock Sanitary Commission shall issue a proclamation describing the area by boundaries. Said proclamation shall state that said area is designated and established as a "Brucellosis Control Area," either County or Special, and state the date upon which brucellosis control work shall start within that area, which date shall be not less than ninety (90) days after the date of such proclamation. Such proclamation shall be publicized by posting copies thereof in at least three (3) public places within the affected area and at the door of the courthouse of the county seat or seats of the county or counties affected, which posting shall be made at least ninety (90) days before the effective date of the proclamation.

Said proclamation shall also fix the date, which shall be not less than thirty (30) days after the date of the proclamation, at which time a hearing will be had in the office of the Livestock Sanitary Commission of Texas, at which hearing any person owning cattle within the affected area who desires to protest the designation and establishment of the control area shall have the right to appear, either in person or by representative or both, and there express to the Livestock Sanitary Commission his views and opinions as to why such brucellosis control area should not be designated and established. Within ten (10) days after such hearing the Commission shall issue a statement showing its decision upon the question of whether or not such control area shall be designated and established and such decision by the Livestock Sanitary Commission shall be final.

(7) Two (2) types of brucellosis control areas may be established. These types are:

I. An area in which no testing shall be required but in which all female calves

shall be required to be officially vaccinated within ages fixed by regulation of the Texas Livestock Sanitary Commission and in compliance with the regulations of such Commission relating to vaccination.

II. An area in which such tests, vaccinations, identifying practices, quarantines, disposition of infected animals and other practices as provided by regulations of the Texas Livestock Sanitary Commission shall be followed.

The petition of the cattle owners constituting the basis for the proclamation establishing the brucellosis control area shall state which type, "I" or "II", control area is desired in the affected area and the proclamation establishing the control area shall designate which type, "I" or "II," is established. No type control shall be established unless that type has been properly requested.

(8) "Type I" Control Area

After the effective date of the proclamation establishing an area, either County or Special, as a "Type I" brucellosis control area, it shall be the duty of all cattle owners owning cattle within the area to, at their own expense, have all female calves owned by them officially vaccinated for brucellosis in accordance with the applicable regulations issued by the Texas Livestock Sanitary Commission. Failure on the part of any person owning cattle within the designated area to have female calves owned by him so vaccinated in accordance with said regulations shall constitute a misdemeanor and upon conviction shall be punished by a fine of not less than Ten Dollars (\$10), nor more than One Hundred Dollars (\$100), and each female calf owned by such person that is not so vaccinated in compliance with such regulations shall constitute a separate offense.

(9) "Type II" Control Area

Whenever the Livestock Sanitary Commission of Texas shall designate and establish an area, either County or Special, as a "Type II" brucellosis control area, the Livestock Sanitary Commission shall proceed to conduct such tests, vaccinations and other practices, and to enforce such rules and regulations as may be necessary to qualify said county for certification or recertification as a modified certified brucellosis free area as outlined in the uniform regulations of the United States Department of Agriculture and the Livestock Sanitary Commission of Texas. An area may be certified as a brucellosis free area when not more than one per cent (1%) of the cattle and not more than five per cent (5%) of the herds are positive to the official brucellosis agglutination test, exclusive of officially vaccinated animals under thirty (30) months of age, calves under six (6) months of age, steers and spayed heifers.

(10) The Livestock Sanitary Commission of Texas is prohibited from adopting any regulation dealing with brucellosis that would prohibit or interfere with the free movement of officially vaccinated calves from unquarantined herds under thirty (30) months of age within the State of Texas.

tinued herds under thirty (30) months of age within the State of Texas.

(10a) The Texas Animal Health Commission shall provide a brucellosis milk ring test (BRT) as an alternate test for any owner, part owners or caretakers of cattle to certify or recertify such cattle to be free of bovine brucellosis. Any owner, part owners or caretakers adopting this alternate method to certify or recertify such cattle to be free of bovine brucellosis shall be required to submit such cattle for a brucellosis milk ring test (BRT) and such cattle shall pass three (3) successive negative tests at intervals of not less than three (3) nor more than four (4) months apart during the period of a year.

If any one of the three (3) brucellosis milk ring tests (BRT) results, conducted annually, is positive and indicates a reactor or reactors may be present in a herd, within ten (10) days after receipt of notice by any owner, part owners or caretakers, a second brucellosis milk ring test (BRT) shall be taken, if requested by any owner, part owners or caretakers, and if determined positive, then such cattle must be submitted for a bovine brucellosis blood test at the expense of the Texas Animal Health Commission. Such cattle shall only be determined free of bovine brucellosis after having passed a negative bovine brucellosis blood test. Provided, however, that if any animal or animals in a herd shows a positive reaction, within ten (10) days after receipt of notice by any owner, part owners or caretakers, a second bovine brucellosis blood test shall be taken, if requested by any owner, part owners or caretakers, at the expense of the Texas Animal Health Commission, and if the second blood test results in a positive reaction, such animal or animals shall be branded and disposed of according to the provisions of this Act. It is further provided, that in the event of problem herds the culture material of any positive reactor or reactors shall be sent to an approved laboratory to determine if the positive test is the result of inoculation by a brucellosis vaccine or the actual disease of brucellosis.

(11) In order to effectuate the provisions and purposes of this Section, the Livestock Sanitary Commission of Texas is hereby authorized to promulgate such rules and regulations and to require such reports and records as may be necessary to the testing, vaccinating and movement of cattle into and within said areas declared to be in the process of accreditation and into certified brucellosis free areas.

(12) Any person, firm or corporation that shall ship, drive, drift, haul, truck or otherwise transport cattle into and within any county or area declared to be in the process of accreditation or that has been designated as a modified brucellosis free area without written permit or certificate as provided for in accordance with the rules and regulations of the Livestock Sanitary Commission of Texas shall be deemed guilty of a misdemeanor and upon conviction thereof shall be fined in a sum of not less than

Ten Dollars (\$10) nor more than One Hundred Dollars (\$100) for each head of cattle which said person, firm, or corporation, railroad or other common carrier shall haul, drive, drift, lead or otherwise move into such designated area in violation hereof.

Provided, however, that no regulation shall ever prohibit the movement of cattle within such area by the owner thereof when such movement is confined to unquarantined contiguous lands owned or controlled by such owner.

(13) Representatives of the Livestock Sanitary Commission of Texas, including members of said Commission, are hereby authorized to enter into any public or private property for the exercise of any authority or the performance of any duty authorized under this Section. Any person who refuses to permit representatives of the Livestock Sanitary Commission to enter upon any property or premises of which he is owner, tenant, or caretaker for the purpose of carrying out the provisions of this Section, shall be deemed guilty of a misdemeanor and upon conviction shall be fined any sum not less than Ten Dollars (\$10) and not more than Two Hundred Dollars (\$200), and each separate day on which said refusal is made shall be considered a separate offense.

(14) If a representative of the Commission desires to be accompanied by a peace officer, provisions of Section 6 of this Act with respect to issuing search warrants shall apply to representatives engaged in brucellosis control and eradication.

(15) The Livestock Sanitary Commission of Texas is hereby authorized to employ veterinarians, inspectors, stenographers and necessary clerical help and such other persons it may deem necessary for the performance of any duty under this Section or the enforcement of any provisions of this Section and may detail its veterinarians, inspectors and other persons for any duty authorized under this Section or incidental thereto.

(16) All tests and vaccinations provided in this Section may be given and conducted by any person certified by the Texas Livestock Sanitary Commission, whether such person be a Doctor of Veterinary Medicine, or not.

(17) Owners, part owners and caretakers owning or having charge of cattle located within a Type II brucellosis control area, shall submit their cattle, furnish sufficient labor and facilities when directed by the Livestock Sanitary Commission of Texas or its authorized representative, in order that necessary blood or milk specimen may be secured from their cattle or in order that they may be vaccinated, tattooed, branded, ear notched or tagged in accordance with the regulations of the Livestock Sanitary Commission of Texas. Owners and caretakers owning or having charge of cattle located within a Type II brucellosis control area who fail or refuse to gather their cattle and furnish necessary labor and facilities in drawing blood or milk samples, vaccinating and identifying animals shall be deemed guilty

of a misdemeanor and upon conviction shall be fined not less than Ten Dollars (\$10) nor more than Two Hundred Dollars (\$200) and each day of refusal or failure to submit cattle and render the assistance required under this Section shall be a separate offense.

(18) Should evidence of infection be disclosed in any of the animals required to be tested, such animals that react to the test shall be fire branded with the letter "B" on the left jaw and such cattle and herds shall be handled in accordance with regulations of the Livestock Sanitary Commission of Texas which shall provide for the issuance of quarantines, the manner, method and system of disposing of reactor cattle, the testing and retesting of infected herds, and the cleaning and disinfection of premises following removal of reactor cattle.

(19) Indemnities shall not be paid for any cattle which may be reactors to any test for brucellosis made under the provisions of this Section.

(20) Before regulations of the Livestock Sanitary Commission relating to control work of brucellosis in all types of areas shall become effective, notice of intent to promulgate such regulations shall be given by publication in at least three (3) newspapers having state-wide circulation: Said notice shall also inform the public that on a designated date stated in such published notice a hearing will be had at the office of the Livestock Sanitary Commission of Texas, at which hearing any person who objects to such proposed regulations or any part thereof shall have the right to appear either in person or by representative or both, and to state his objections. All such facts and evidence developed at such hearing shall be considered and evaluated by the Livestock Sanitary Commission and public notice shall be given by the Livestock Sanitary Commission within ten (10) days after such hearing stating whether or not such objections have been approved and adopted or have been disapproved and rejected by the Livestock Sanitary Commission.

(21) If any person, corporation or other party at interest be dissatisfied with any rule, order, act or regulation adopted by said Livestock Sanitary Commission of Texas, separately or in conjunction with the United States Department of Agriculture or any other agency, such dissatisfied person, corporation or other entity, after failing to get relief from said Commission, may within twenty (20) days of the date of issuance of such rule, order, act or regulation, file a petition setting forth the particular objection to such rule, order, act or regulation or either or all of them in the District Court of the county where said order, act or regulations have been or proposed to be enforced, against said Livestock Sanitary Commission of Texas as defendant. In all trials under this Section the burden of proof shall rest upon the plaintiff, who must show by the preponderance of evidence that the rules, or-

ders, acts or regulations complained of are unreasonable to it or them.

**Certified Brucellosis Free Counties**

Sec. 23B. When all of the counties of this State are certified by the Commission as having reached "modified certified brucellosis free" status, the Commission is authorized to begin all reasonably necessary operations to establish and maintain the counties of this State as "certified brucellosis free."

"Certified brucellosis free" is defined as that status which is reached when, in the eighteen (18) months preceding the request for county certification:

(1) no more than two-tenths of one percent (.2%) of the cattle in the county shall have been found infected;

(2) no more than one percent (1%) of the herds in the county, or one herd, whichever is greater, shall have been found infected; and

**Commissioners' Court to Coöperate With Commission; Maintenance of Vats at County Expense**

Sec. 5. It shall be the duty of the County Commissioners' Court of every County in the State of Texas in which the Live Stock Sanitary Commission is authorized to conduct tick eradication under the provisions of this Act, to cooperate with said Commission in the eradication of said tick in their respective counties, and it shall be mandatory upon said Commissioners' Courts to furnish at the expense of the county, in localities designated by the Live

Stock Sanitary Commission, a sufficient number of dipping vats, pens, chutes and all necessary facilities of the kind and description designated by said Commission, for the purpose of dipping cattle, horses, mules, jacks and jennets under the supervision of inspectors of the Live Stock Sanitary Commission, the said vats, pens, chutes and other facilities to be owned or leased by the county, and said Commissioners' Court are hereby authorized, empowered and directed, and it is hereby made their duty to appropriate moneys out of the general funds of their counties, to incur indebtedness by the issuance of warrants, and to levy taxes to pay the interest thereon, and to provide a sinking fund for the payment thereof for the purpose of constructing, purchasing or leasing necessary public dipping vats in their counties, including all necessary land, property, material and labor for said purpose; provided said warrants shall draw interest at a rate not exceeding six per cent per annum and shall not run exceeding twenty years from the date hereof. It shall also be the duty of said County Commissioners' Courts to maintain said vats at the expense of the county, including all necessary repairs, changes, alterations or remodeling of any of said vats, pens, chutes or other facilities connected therewith; also to furnish at the expense of the county water for filling and refilling said vats and to bear all expense necessary in cleaning out and refilling said vats. The provisions of this Section shall apply to the County Commissioners' Court of any county in which the Live Stock Sanitary Commission is authorized by this Act to conduct tick eradication, whether all of said county or only a part thereof is designated for tick eradication. The provisions of this Section shall also apply to counties and parts of counties in the Free Area whenever it is necessary for said Commission to conduct tick eradication in any part of any county in the Free Area. County Commissioners' Courts in all counties are hereby authorized, at their discretion, to pay out of the general funds or any available funds of their county, the salaries and necessary traveling expenses of a sufficient number of inspectors for tick eradication purposes, and purchase dipping material, but in such event such inspectors shall be appointed and directed by the Live Stock Sanitary Commission, regardless of the fact that their salaries and expenses may be paid by the county. the Live Stock Sanitary Commission the number of local inspectors found by the Live Stock Sanitary Commission to be necessary to carry on the work of tick eradication in such county, and when so nominated said Live Stock Sanitary Commission shall appoint them. In the event of failure or refusal of the Commissioners' Court to nominate said local inspectors the Live Stock Sanitary Commission is hereby authorized to appoint the number of local inspectors deemed by them to be necessary. Said local inspectors shall work under the direction and orders of the Live Stock Sanitary Commission and shall be subject to discharge by said Commission and shall be paid their salaries out of the State Treasury of the State of Texas, their compensation to be fixed by said Commission. In the event the Commissioners' Court should nominate any persons who are thereafter appointed as local inspectors and the Live Stock Sanitary Commission finds or concludes that the Commissioners' Court of said county are trying to retard tick eradication or that they are nominating men who are incompetent or negligent in the performance of their duty, then and in that event the Live Stock Sanitary Commission is hereby authorized to ignore in the future nominations or recommendations by said Commissioners' Court of such inspectors. County and district supervising inspectors shall not be nominated by Commissioners' Courts, but shall be appointed by said Commission on its own initiative.

**Exercise of Eminent Domain by Commissioners' Court**

Sec. 7. There is hereby conferred upon the County Commissioners' Court of every county in the State of Texas the right of Eminent Domain for the purpose of acquiring necessary lands, and ingress thereto and egress therefrom, for the purpose of establishing, constructing and maintaining dipping vats, pens, chutes and other facilities connected therewith, and for the purpose of acquiring dipping vats, pens, chutes and facilities that have already been constructed, with ingress thereto and egress therefrom. The right of Eminent Domain is to be exercised by said Commissioners' Court under the same provisions of law now in effect for the acquiring of land or lands for the building and maintenance of courthouses, jails and other public buildings, except that it shall be mandatory upon the County Commissioners' Court of any county in which tick eradication is authorized to be conducted under the provisions of this Act, whether in the Free Area or in the Tick Eradication Area, to institute and prosecute condemnation proceedings in the name of the county upon written application of the Chairman of the Live Stock Sanitary Commission, designating the land to be condemned and its location and the name of the owner, and also designating the easement to be acquired for the purpose of ingress there to and egress therefrom. In acquiring said vats, pens, chutes, facilities and lands, the said Commissioners' Court may either retain the same for permanent use by making said compensation, or the said Court may acquire the

temporary use of same, together with said easement, for the purpose of ingress thereto and egress therefrom by making proper compensation to the owner thereof for such period of time as said Court may find it necessary to use same.

Commission to Prescribe Dipping Materials; Method  
of Testing by Inspectors

Sec. 8. (a) The Texas Animal Health Commission shall prescribe in its rules and regulations the dipping materials to be used in the dipping of cattle, horses, mules, jacks and jennets, under the provisions of this Act, and the same shall be recognized official dipping materials for the dipping of such livestock, under the provisions of this Act, and no other dipping materials shall be used for such purposes.

(b) If the dipping solution is designated as a solution using dipping materials of the kind that are ordinarily known as arsenical dipping materials used for the dipping of livestock for the eradication of the fever-carrying tick, the Commission shall also prescribe in its rules and regulations the manner and method by which its inspectors shall test such arsenical dipping solution after the same has been mixed with water in the dipping vat for the purpose of determining the arsenical contents of the solution. The testing of said dipping solution shall be by the use of testing outfits, testing materials and testing fluids furnished to inspectors by the Texas Animal Health Commission or by the United States Department of Agriculture, Animal Health Division, in cooperation with said Commission, for the purpose of ascertaining said arsenical contents. When a test is made of said dipping solution by the use of the testing outfit, testing materials and testing fluid furnished by said Commission or Bureau, as herein provided, the same shall be accepted as the official test of said dipping solution. In the dippings of cattle, horses, mules, jacks and jennets in regular tick eradication, other than for official movement of said livestock, the test of said dipping solution after being mixed with water in the vat ready for dipping shall be not less than eighteen cubic centimeters or not more than twenty cubic centimeters, as shown by the test made with said testing outfits, testing material and testing fluid. By the term "not less than eighteen cubic centimeters and not more than twenty cubic centimeters" is meant that in making said test with said testing outfit, testing material and testing fluid in accordance with the directions contained in the rules and regulations of the Texas Animal Health Commission, the inspector who makes said test secures the results described in said rules and regulations, to-wit: a decided change of color of said dipping material to a light purple, as showing the completion of said test, by mixing not less than eighteen cubic centimeters nor more than twenty cubic centimeters of testing fluid with twenty-five cubic centimeters of said dipping solution into which has been dissolved a test tablet furnished with said testing outfit by said Tex-

as Animal Health Commission or Animal Health Division, United States Department of Agriculture. In the trial of any case in connection with the dipping or failure to dip livestock under any provision of this Act, it shall be presumed that the dipping vat in question contained a sufficient amount of said dipping solution for dipping said livestock and that said dipping solution had been properly tested and that it showed the above test, or that said dipping solution could have and would have been put into said vat and tested to show the above test if the owner or caretaker had brought his livestock to said dipping vat for the purpose of dipping; and it shall not be necessary for the state to allege and prove in any criminal prosecution for failure to dip livestock under any provision of this Act, that said vat contained said dipping solution showing said test. If it becomes necessary in any court proceeding to prove the test of said dipping solution, it shall only be necessary to prove that the dipping material used was one of the official dipping materials prescribed in the rules and regulations of the Texas Animal Health Commission, and that the inspector tested said dipping solution in accordance with the provisions of this Section and of the rules and regulations of the Texas Animal Health Commission and that the test showed not less than eighteen cubic centimeters or not more than twenty cubic centimeters, as defined and explained in this Section and in said rules and regulations. When said dipping material is mixed with water in the dipping vat and is tested by an inspector of said Commission and shows a test at any strength of not less than eighteen cubic centimeters or not more than twenty cubic centimeters, it shall be the duty of all owners and caretakers of livestock which are subject to dipping to dip said livestock in said dipping solution at said strength, as shown by said test. The twenty-two cubic centimeter test elsewhere referred to in this Act shall be made in the same manner herein described by securing said change in color by mixing twenty-two cubic centimeters of said testing fluid in said dipping solution in which has been dissolved said test tablet.

(c) The Texas Animal Health Commission shall have the authority to prescribe by rule or regulation other dipping materials for use in the dipping of cattle, horses, mules, jacks and jennets under the provisions of this Act. The rules and regulations prescribing other dipping materials shall also set forth the purpose for which each dipping material is to be used and the manner in which each dipping solution shall be prepared.

Penalty for Damaging or Destroying Public  
Dipping Facilities

Sec. 9. The dipping vats, pens, chutes and other facilities as provided for in this Act, are hereby designated as "Public Dipping Facilities." Any person who shall without lawful authority damage or destroy any public dipping facilities or any part thereof by cutting, burn-

1. The value at the time of trial of such improvements as were so made before the filing of the suit not exceeding the amount to which the value of the premises is actually increased thereby.

2. The value of the use and occupation of the premises during the time the defendant was in possession thereof (exclusive of the improvements thereon made by himself or those under whom he claims), and also, if authorized by the pleadings, the damages for waste or other injury to the premises committed by him, not computing such annual value for a longer time than two years before suit, nor damages for waste or injury done before said two years.

3. The value of the premises recovered without the improvements made as aforesaid.

[Acts 1925, S.B. 84.]

#### Art. 7395. Rents and Profits as Offset

If the sum estimated for the improvements exceeds the damages estimated against the defendant and the value of the use and occupation as aforesaid, there shall then be estimated against him, if authorized by the testimony, the value of the use and occupation and the damages for injury done by him or those under whom he claims, for any time before the said two years, so far as may be necessary to balance the claim for improvements, but no further; and he shall not be liable for the excess, if any, beyond the value of the improvements.

[Acts 1925, S.B. 84.]

#### Art. 7396. Judgment for Excess

If it shall appear from the finding of the court or jury under the two preceding articles that the estimated value of the use and occupation and damages exceed the estimated value of the improvements, judgment shall be entered for the plaintiff for the excess and costs in addition to a judgment for the premises; but should the estimated value of the improvements exceed the estimated value of the use and occupation and damages, judgment shall be entered for the defendant for the excess.

[Acts 1925, S.B. 84.]

#### Art. 7397. Writ of Possession

In any action of trespass to try title, when the lands or tenements have been adjudged to the plaintiff, and the estimated value of the improvements in excess of the value of the use and occupation and damages has been adjudged to the defendant, no writ of possession shall be issued for the term of one year after the date of the judgment, unless the plaintiff shall pay to the clerk of the court for the defendant the amount of such judgment in favor of the defendant, with the interest thereon.

[Acts 1925, S.B. 84.]

#### Art. 7398. Failure of Plaintiff to Pay

If the plaintiff shall neglect for the term of one year to pay the amount of said judgment in favor of the defendant, with the interest thereon as directed in the preceding article, and the defendant shall within six months after the expiration of said year, pay to the clerk of the court for the plaintiff the value of the lands or tenements, without regard to the improvements as estimated by the court or jury, then the plaintiff shall be forever barred of his writ of possession, and from ever having or maintaining any action whatever against the defendant, his heirs or assigns, for the lands or tenements recovered by such suit.

[Acts 1925, S.B. 84.]

#### Art. 7399. Defendant Failing to Pay

If the defendant or his legal representatives shall not, within six months aforesaid, pay to the clerk for the plaintiff the estimated value of the lands or tenements, as directed in the preceding article, then the plaintiff may sue out his writ of possession as in ordinary cases.

[Acts 1925, S.B. 84.]

#### Art. 7400. Repealed by Rules of Civil Procedure (Acts 1939, 46th Leg., p. 201, § 1.)

#### Art. 7401. Duty of the Clerk

If payment is made to the clerk of the court by the plaintiff or defendant, as provided in the preceding articles, such clerk shall enter a memorandum of such payment, with the date thereof, on the page of the record on which the judgment was entered; and he shall, on demand, pay the money to the party entitled, taking his receipt therefor, dated and signed on the page of the record aforesaid.

[Acts 1925, S.B. 84.]

#### Art. 7401A. Removal of Improvements

Sec. 1. In an action of trespass to try title, the defendant may in his pleadings:

(1) allege that he and those under whom he claims have had adverse possession of the premises in controversy without the intent to defraud, and that he and those under whom he claims have made permanent and valuable improvements on the land during the time they have had possession, without the intent to defraud;

(2) identify the improvements; and

(3) include in his prayer for relief a prayer for judgment allowing the defendant, in the event the court or jury finds that he is not the rightful owner of the land, to remove the improvements upon giving a good and sufficient surety bond, in such amount as the court deems proper under the circumstances, conditioned upon the defendant's removal of the improvements in such a manner as to restore the land to substantially the same condition as that which obtained before the improvements were made.

Sec. 2. If the defendant has pleaded as provided in Section 1 of this article and the court or jury finds that he is not the rightful owner of the land, but that he and those under whom he claims, being possessors of the land without the intent to defraud, have made permanent and valuable improvements on the land without the intent to defraud, then the court or jury shall at the same time determine whether or not the improvements can be removed without substantial and permanent damage to the land.

Sec. 3. If the court or jury determines that the improvements can be removed without substantial and permanent damage to the land, then the court shall fix the amount of the surety bond, and, upon the defendant's giving of a bond in that amount, conditioned as stated in Section 1 of this article, the court shall appoint a referee to supervise the removal of the improvements and to make such reports to the

court as the court may direct. The court shall retain jurisdiction of the suit and make final disposition of the case and determine the rights, duties, and liabilities of the parties and sureties consistent with the relevant principles of law and equity.

Sec. 4. The court may condition the defendant's right to remove the improvements on the satisfaction of any money judgment in favor of the plaintiff arising out of any claim of the plaintiff in the suit.

Sec. 5. The remedy provided by this article is cumulative of all other remedies provided by this title and by other applicable statutes and rules of law and equity, and the defendant may plead for this remedy as an alternative to any other remedy to which he may be entitled.

[Acts 1967, 60th Leg., p. 2024, ch. 748, § 1, eff. Aug. 28, 1967.]

### IN GENERAL

#### Art. 7425a. Conveyance by Trustees

Where a trust is created, but is not contained or declared in the conveyance to the trustee, or when a conveyance or transfer is made to a trustee without disclosing the names of the beneficiary, or beneficiaries, the trustee shall be held to have the power to convey or transfer or encumber the title and whenever he shall execute and deliver a conveyance or transfer or encumbrance of such property, as trustee, such conveyance or transfer or encumbrance shall not thereafter be questioned by any one claiming as a beneficiary under such trust or by any one claiming by, through, or under an undisclosed beneficiary, provided that none of the trust property in the hands of said trustee shall be liable for personal obligations of said trustee.

[Acts 1925, 39th Leg., ch. 120, p. 305, § 1.]

#### Art. 7425a-1. Charitable Trusts; Appointment of Trustees; Vacancies; Absence of Agreement

If a vacancy occurs in the number of trustees originally appointed under a valid charitable trust agreement and the trust agreement does not provide for filling such vacancy, then the vacancy may, at the discretion of the remaining trustees, be filled upon the affirmative vote of a majority of the remaining trustees.

[Acts 1969, 61st Leg., 2nd C.S., p. 116, ch. 9, § 1, eff. Sept. 19, 1969.]

#### Art. 7425a-2. Employment of Banks by Fiduciaries as Custodians of Securities

Sec. 1. In this Act, unless the context requires a different definition, "fiduciary" means an executor, administrator, trustees of express trusts, including a corporation or a natural person acting as a fiduciary, and a successor or substitute fiduciary, whether designated in a trust instrument or not.

Sec. 2. (A) In the absence of contrary or limiting provisions in the court order or decree appointing a fiduciary, or in a subsequent or-

der or decree, or in the will, deed or other instrument, every fiduciary is authorized to employ any bank incorporated in this state or any national bank located in this state as custodian of any stock or other securities held as a fiduciary, and the cost thereof, except in the case of a corporate fiduciary, shall be a charge upon the estate or trust. The records of such bank shall at all times show the ownership of such stock or other securities. Such stock or other securities shall at all times be kept separate from the assets of such bank and may be kept by such bank

(1) in a manner such that all certificates representing the securities from time to time constituting the assets of a particular estate, trust or other fiduciary account are held separate from those of all other estates, trusts or accounts; or

(2) in a manner such that, without certification as to ownership attached, certificates representing securities of the same class of the same issuer and from time to time constituting assets of particular estates, trusts or other fiduciary accounts are held in bulk, including, to the extent feasible, the merging of certificates of small denomination into one or more certificates of large denomination, provided that a bank when operating under the method of safekeeping security certificates described in this subparagraph (2), shall be subject to such rules and regulations as, in the case of state chartered institutions, the State Finance Commission and, in the case of national banking associations, the Comptroller of the Currency may from time to time issue. Such bank shall on demand by the fiduciary, certify in writing the securities held by it for such estate, trust or fiduciary account.

(B) Every fiduciary is authorized to cause any stock or other securities (hereinafter referred to as "securities") held by any bank, when acting as fiduciary, whether alone or jointly with an individual, with the consent of the individual fiduciary, if any (who is hereby authorized to give such consent), to be registered and held in the name of a nominee of such bank without disclosure of the fiduciary relationship; and, in the case of an individual acting as fiduciary, to direct any bank located in this state to register and hold any securities deposited with such bank in the name of a nominee of such bank. The bank shall not redeliver such securities to the individual fiduciary, who authorized their registration in the name of a nominee of the bank, without first registering the securities in the name of the individual fiduciary, as such. But, any sale of such securities by the bank at the direction of the individual fiduciary shall not be treated as a redelivery. The bank may make any disposition of such securities which is authorized or directed by an order or decree of the court having jurisdiction of the estate or trust. Any such bank shall be liable for any loss occa-

sioned by the acts of its nominee with respect to the securities so registered. The records of the bank shall at all times show the ownership of any such securities and of those held in bearer form. Such securities and those held in bearer form shall at all times be kept separate from the assets of the bank and may be kept by such bank

(1) in a manner such that all certificates representing the securities from time to time constituting the assets of a particular estate, trust or other fiduciary account are held separate from those of all other estates, trusts or accounts; or

(2) in a manner such that, without certification as to ownership attached, certificates representing securities of the same class of the same issuer and from time to time constituting assets of particular estates, trusts or other fiduciary accounts are held in bulk, including, to the extent feasible, the merging of certificates of small denomination into one or more certificates of large denomination, provided that a bank, when operating under the method of safekeeping security certificates described in this subparagraph (2), shall be subject to such rules and regulations as, in the case of state chartered institutions, the State Finance Commission and, in the case of national banking associations, the Comptroller of the Currency may from time to time issue. Such bank shall, on demand by any party to an accounting by such bank as fiduciary or on demand by the attorney for such party, certify in writing the securities held by such bank as such fiduciary.

Sec. 3. This Act shall be regarded as permissive and shall be cumulative of all the general laws on the subject.

[Acts 1971, 62nd Leg., p. 3037, ch. 1002, eff. Aug. 30, 1971.]

#### Art. 7425b. Payment of Money to Trustees

Whenever one shall actually and in good faith pay a sum of money to a trustee, which the trustee is authorized to receive, he shall not be responsible for the proper application of the money, according to the trust; and any right or title derived from the trustee in consideration of such payment shall not be impeached or called in question in consequence of a misapplication by the trustee of the money so paid.

[Acts 1925, 39th Leg., ch. 120, p. 305, § 2.]

### TEXAS TRUST ACT

#### Art. 7425b-1. Short Title

This Act may be cited as the Texas Trust Act.

[Acts 1943, 48th Leg., p. 232, ch. 148, § 1.]

#### Art. 7425b-2. Definition of Trust

"Trust" for the purpose of this Act means an express trust only, and does not include (1) re-

sulting or constructive trusts, (2) so-called "Massachusetts Trusts" or similar business trusts, (3) security instruments such as deeds of trust, mortgages and conditional sales contracts, (4) instruments wherein one or more persons are mere nominees for one or more persons without any disclosed beneficiaries and without any active trust duties.

[Acts 1943, 48th Leg., p. 232, ch. 148, § 2; Acts 1945, 49th Leg., p. 109, ch. 77, § 1.]

#### Art. 7425b-3. Purposes and Capacities

A trust in relation to, or consisting of, real, personal or mixed property may be created or established for any use or purpose which is not illegal. A person has the same capacity to create a trust by declaration, transfer inter vivos, devise, bequest or appointment that he has to transfer, devise, bequeath or appoint free of trust. A person has capacity to create a trust by making a promise to another person whose rights against the promisor are to be held in trust for a third person, to the same extent that he has capacity to make a contract.

[Acts 1943, 48th Leg., p. 232, ch. 148, § 3; Acts 1945, 49th Leg., p. 109, ch. 77, § 2.]

#### Art. 7425b-4. General Definitions

As used in this Act unless the context or subject-matter otherwise requires:

A. "Person" means an individual, a corporation, a partnership, an association, a joint stock company, a business trust, an unincorporated organization, or two or more persons having a joint or common interest.

B. "Trustor" means the maker, creator, donor, settlor, grantor, of a trust and the testator or testatrix of a will containing trust provisions.

D. "Relative" means a spouse or, whether by blood or adoption, an ancestor, descendant, brother, or sister.

E. "Affiliate" means any person directly or indirectly controlling or controlled by another person, or any person under direct or indirect common control with another person. It includes any person with whom a trustee has an express or implied agreement regarding the purchase of trust investments by each from the other, directly or indirectly, except a broker or stock exchange.

F. "Principal" means any real or personal property which has been so set aside or limited by the owner thereof, or a person thereto, legally empowered that it and any substitutions for it are eventually to be conveyed, delivered, or paid to a person, while the return therefrom or use thereof, or any part of such return or use is in the meantime to be taken or received by or

held for accumulation for the same or another person.

G. "Income" means the return derived from principal.

H. "Tenant" means the person to whom income is presently or currently payable, or for whom it is accumulated or who is entitled to the beneficial use of the principal presently and for a time prior to its distribution.

I. "Remainderman" means the person ultimately entitled to the principal, whether named or designated by the terms of the transaction by which the principal was established or determined by operation of law.

J. "Beneficiary" means any person entitled to receive from a trust any benefit of whatsoever kind or character.

K. "Trustee's compensation," as used in this Act, means the normal, recurring fee of the trustee for services in the management and administration of the trust estate, irrespective of the manner of computation of such fee. "Trustee's commission," as used in this Act, means the fee of the trustee for services rendered, other than in the normal management and administration of the trust estate, and includes extraordinary and unusual services, remuneration of the trustee for acceptance of the trust, distribution of the trust properties, termination of the trust estate, and all other fees of similar nature, as distinguished from regularly recurring compensation for the usual and ordinary management and supervision of the trust estate by the trustee.

#### Art. 7425b-5. Person Entitled to Possession, Rents and Profits Has Legal Estate

Every person who, by virtue of any transfer or devise, is entitled to the actual possession of real property, and the receipts of the rents and profits thereof, is deemed to have a legal estate therein, of the same quality, extent, and duration, and subject to the same conditions as his beneficial interest therein.

[Acts 1943, 48th Leg., p. 232, ch. 148, § 5.]

#### Art. 7425b-6. Active Trust Valid

The last preceding section does not divest the estate of any trustee in a trust heretofore existing, where the title of such trustee is not merely nominal, but is connected with or subject to some power of actual disposition or management in relation to the real property, which is the subject of the trust.

[Acts 1943, 48th Leg., p. 232, ch. 148, § 6.]

#### Art. 7425b-7. Requisites of a Trust

An express trust may be created by one of the following means or methods:

A. A declaration in writing by the owner of the property that he holds it as trust-

tee for another person, or persons, or for himself and another person or persons; or

B. A written transfer inter vivos by the owner of property to another person as trustee for the transferor or for a third person or persons; or

E. A promise by a person to another person whose rights thereunder are to be held in trust for a third person; or

F. A beneficiary may be a co-trustee and the legal and equitable title to the trust estate shall not merge by reason thereof.

Provided, however, that a trust in relation to or consisting of real property shall be invalid, unless created, established, or declared:

1. By a written instrument subscribed by the trustor or by his agent thereunto duly authorized by writing;

2. By any other instrument under which the trustee claims the estate affected.

[Acts 1943, 48th Leg., p. 232, ch. 148, § 7; Acts 1945, 49th Leg., p. 109, ch. 77, § 3.]

#### Art. 7425b-8. Conveyance by Trustees

Where a trust is created, but is not contained or declared in the conveyance to the trustee, or when a conveyance or transfer is made to a trustee without disclosing the names of the beneficiary, or beneficiaries, the trustee shall be held to have the power to convey or transfer or encumber the title and whenever he shall execute and deliver a conveyance or transfer or encumbrance of such property, as trustee, such conveyance or transfer or encumbrance shall not thereafter be questioned by any one claiming as a beneficiary under such trust or by any one claiming by, through, or under an undisclosed beneficiary, provided that none of the trust property in the hands of said trustee shall be liable for personal obligations of said trustee. (Article 7425a, R.C.S. of Texas.)

[Acts 1943, 48th Leg., p. 232, ch. 148, § 8.]

#### Art. 7425b-9. Payment of Money to Trustees

Whenever one shall actually and in good faith pay a sum of money to a trustee, which the trustee is authorized to receive, he shall not be responsible for the proper application of the money, according to the trust; and any right or title derived from the trustee in consideration of such payment shall not be impeached or called in question in consequence of

a misapplication by the trustee of the money so paid. (Article 7425b, R.C.S. of Texas.)

[Acts 1943, 48th Leg., p. 232, ch. 148, § 9.]

#### Art. 7425b-10. Loan of Trust Funds

Except as provided in Section 11 of this Act, a corporate trustee shall not lend trust funds to itself or an affiliate (as defined herein), or to any director, officer or employee of itself or of an affiliate; nor shall any noncorporate trustee lend trust funds to himself, or to his relative, employer, employee, partner, or other business associate; provided, however, that nothing contained in this Act shall prohibit any trustee from lending such funds to any beneficiary of a trust when so authorized or directed by the express terms of the instrument or transaction by which such trust was established.

[Acts 1943, 48th Leg., p. 232, ch. 148, § 10; Acts 1963, 58th Leg., p. 133, ch. 80, § 1.]

#### Art. 7425b-11. Corporate Trustee Depositing Trust Funds With Self

A corporate trustee may deposit with itself trust funds which are being held pending investment, distribution, or to pay debts, provided it maintains under control of its trust department (if it has a trust department separate from its banking department) as security for such deposit a separate fund consisting of securities legal for trust investments which have at all times during the deposit a total market value equal to the amount of the deposit. No such security shall be required to the extent said deposit is insured or otherwise secured by or under state or federal law. The separate fund of securities shall be marked as such. Withdrawals from or additions to it may be made from time to time, as long as the required value is maintained. The income of such securities shall belong to the corporate trustee.

[Acts 1943, 48th Leg., p. 232, ch. 148, § 11.]

#### Art. 7425b-12. Trustee Buying from or Selling to Self

A trustee shall not buy or sell, either directly or indirectly, any property owned by or belonging to the trust estate, from or to itself or an affiliate; or from or to a director, officer, or employee of such trustee, or of an affiliate; or from or to himself, a relative, employer, partner or other business associate; provided a national banking association, or a state chartered bank and trust company, or a state chartered trust company, or a state chartered bank having trust powers, or any other state chartered corporation having the right to exercise trust powers, when acting or serving as executor, administrator, guardian, trustee, or receiver, may sell shares of the capital stock of itself so owned or held by itself, for any estate, to one or more of its officers, or directors, upon a court of competent jurisdiction finding that any such sale will be to the best interest of the estate owning such shares; fixing or approv-

ing the price to be paid therefor, and the terms of sale, and upon entering an order, decree or judgment, authorizing, approving and directing such sale to be made; and provided further, that a corporate trustee, executor, administrator, or guardian, when authorized by will, trust agreement, other trust instrument, or judicial order to retain its own capital stock in trust, may exercise rights to purchase its own stock when increases in its capital stock are offered pro rata to stockholders; and, when the exercise of rights or the receipt of a stock dividend results in a fractional share holding, may purchase an additional fractional share (or shares) to round out the fractional share so acquired into one full share; provided, moreover, that such exercise of rights, or purchase of fractional shares, in the circumstances then prevailing, shall be consistent with the judgment and care which men of ordinary prudence exercise in the management of their own affairs.

[Acts 1943, 48th Leg., p. 232, ch. 148, § 12; Acts 1945, 49th Leg., p. 109, ch. 77, § 4; Acts 1965, 59th Leg., p. 560, ch. 284, § 1, eff. May 31, 1965; Acts 1973, 63rd Leg., p. 484, ch. 210, § 1, eff. May 26, 1973.]

#### Art. 7425b-13. Trustee Selling from One Trust to Another Trust

A trustee shall not as trustee of one trust sell property to another trust estate of which it is trustee, except bonds, notes, bills and other obligations issued, or fully guaranteed as to both principal and interest, by the United States of America, which may be so sold and transferred by the trustee, from one trust estate to another, at the current market price.

[Acts 1943, 48th Leg., p. 232, ch. 148, § 13.]

#### Art. 7425b-14. Corporate Trustee Buying Its Own Stock

A corporate trustee shall not purchase for a trust, shares of its own stock, or its bonds, obligations, or other securities, or the stock, bonds, obligations, or other securities of an affiliate (as defined herein). A noncorporate trustee shall not purchase for a trust the stock, bonds, obligations, or other securities of a corporation with which such trustee is connected as director, owner, manager, or in an executive or official capacity.

This Section shall not prohibit the retention of shares of stock already owned by the trust estate if such retention satisfies the provisions of Section 46 hereof, nor the exercise of stock rights, nor purchase of fractional shares, as permitted by Section 12 hereof, as amended from time to time.

[Acts 1943, 48th Leg., p. 232, ch. 148, § 14; Acts 1945, 49th Leg., p. 109, ch. 77, § 5; Acts 1965, 59th Leg., p. 560, ch. 284, § 2, eff. May 31, 1965.]

#### Art. 7425b-15. Voting Stock

A trustee owning corporate stock may vote it by proxy, without power of substitution, in favor of one or more persons, or the survivors of them, and the trustee, in the absence of bad faith or gross negligence in selecting the person or persons to whom any proxy, either limit-

ed or unlimited, is given, shall not be liable for any financial loss resulting to the trust estate or the beneficiaries thereof in deciding how to vote the stock and in the voting of it.

[Acts 1943, 48th Leg., p. 232, ch. 148, § 15.]

#### Art. 7425b-16. Holding Stock in Name of Nominee

A trustee owning stock or property may hold same in the name of a nominee, without mention of the trust in the stock certificate or stock registration book, or other evidence of the title to such property; provided that:

A. The trust records and all reports or accounts rendered by the trustee clearly show the ownership of the stock or property by the trustee, and the facts regarding its holdings; and

B. The nominee deposits with the trustee a signed statement showing the trust ownership, endorses the stock certificate in blank, or executes an appropriate stock-power in blank and attaches thereto, or executes a conveyance or assignment of the title to said property, and does not have possession of the stock certificate or property or access thereto except under the immediate supervision of the trustee.

No such registration or holding shall relieve the trustee of liability for any loss to the trust resulting from any improper act of such nominee in connection with securities or properties so held.

[Acts 1943, 48th Leg., p. 232, ch. 148, § 16.]

#### Art. 7425b-17. Powers Attached to Office

Unless otherwise expressly provided in this Act or by the trust instrument, or an amendment thereof, or by court order, the exercise of all powers and discretions of a trustee shall be inherent in the office and shall not be personal.

[Acts 1943, 48th Leg., p. 232, ch. 148, § 17.]

#### Art. 7425b-18. Powers Exercisable by Majority: Survivor May Execute Trust

Unless it is otherwise provided by the trust instrument, or an amendment thereof, or by court order:

A. Any power vested in three or more trustees may be exercised by a majority of such trustees; but a trustee who has not joined in exercising a power shall not be liable to the beneficiaries or to others for the consequences of such exercise, nor shall a dissenting trustee be liable for the consequences of an act in which he joins at the direction of the majority trustees, if he expressed his dissent in writing to any of his co-trustees at or before the time of such joinder.

B. Where two or more trustees are appointed by will or a voluntary trust to execute a trust and one or more of them die, the surviving trustee or trustees may execute the trust and may exercise the discre-

tionary powers given to the trustees jointly, unless the terms of the will or agreement expressly provide to the contrary.

C. Nothing in this section shall excuse a co-trustee from liability for failure to discharge his duties as trustee.

[Acts 1943, 48th Leg., p. 232, ch. 148, § 18.]

#### Art. 7425b-19. Contracts of Trustee

Whenever a trustee shall make a contract which is within his powers as trustee, or a predecessor trustee shall have made such a contract, and a cause of action arises thereon:

A. The party in whose favor the cause of action has accrued may sue the trustee in his representative capacity, and any judgment rendered in such action in favor of the plaintiff shall be collectible by execution out of the trust property. In such an action the plaintiff need not prove that the trustee could have secured reimbursement from the trust fund if he had paid the plaintiff's claim.

B. No judgment shall be rendered in favor of the plaintiff in such action unless he proves that within thirty (30) days after the beginning of such action, or within such other time as the court may fix, and more than thirty (30) days prior to obtaining the judgment, he notified each of the beneficiaries known to the trustee who then had a present or contingent interest, or in the case of a charitable trust the Attorney General of Texas and any corporation which is a beneficiary or agency in the performance of such charitable trust, of the existence and nature of the action. Such notice shall be given by mailing copies thereof by registered mail addressed to the parties to be notified at their last known addresses. The trustee shall furnish the plaintiff a list of the beneficiaries or persons having an interest in the trust estate, and their addresses, if their whereabouts are known to the trustee, within ten (10) days after written demand therefor, and notification of the persons on such list shall constitute compliance with the duty placed on the plaintiff by this section.

Any beneficiary, or in the case of charitable trusts the Attorney General of Texas, and any corporation which is a beneficiary or agency in the performance of such charitable trust, may intervene in such action and contest the right of the plaintiff to recover. If any beneficiary is a minor or has been adjudged incompetent, the court shall appoint a guardian ad litem, whose duty it shall be to defend such action.

C. The plaintiff may also hold the trustee who made the contract personally liable on such contract, if the contract does not exclude such personal liability. The addition of the word "trustee" or the words "as trustee" after the signature of a

trustee to a contract shall be deemed prima facie evidence of an intent to exclude the trustee from personal liability.

[Acts 1943, 48th Leg., p. 232, ch. 148, § 19.]

#### Art. 7425b-20. Exoneration or Reimbursement for Torts

A trustee who has incurred personal liability for a tort committed in the administration of the trust is entitled to exoneration therefor from the trust property:

A. If he has not discharged the claim, or to be reimbursed therefor out of trust funds if he has paid the claim; if

1. The tort was a common incident of the kind of business activity in which the trustee was properly engaged for the trust; or

2. Although the tort was not a common incident of such activity, if neither the trustee nor any officer or employee of the trustee was guilty of actionable negligence in incurring the liability.

B. If a trustee commits a tort which increases the value of the trust property, he shall be entitled to exoneration or reimbursement with respect thereto to the extent of such increase in value, even though he would not otherwise be entitled to exoneration or reimbursement.

[Acts 1943, 48th Leg., p. 232, ch. 148, § 20.]

#### Art. 7425b-21. Tort Liability of Trust Estate

Where a trustee or his predecessor has incurred personal liability for a tort committed in the course of his administration:

A. The trustee in his representative capacity may be sued and collection had from the trust property, if the court shall determine in such action:

1. That the tort was a common incident of the kind of business activity in which the trustee or his predecessor was properly engaged for the trust; or

2. That although the tort was not a common incident of such activity neither the trustee nor his predecessor, nor any officer or employee of the trustee or his predecessor, was guilty of actionable negligence in incurring the liability; or

3. That although the tort did not fall within classes 1 or 2 above, it increased the value of the trust property.

If the tort is within classes 1 or 2 above, collection may be had of the full amount of damage proved; and if the tort is within class 3 above, collection may be had only to the extent of the permanent increases in the value of the trust property.

B. In an action against the trustee in his representative capacity under this section the plaintiff need not prove that the

trustee could have secured reimbursement from the trust fund if he had paid the plaintiff's claim.

C. No judgment shall be rendered in favor of the plaintiff in such action unless he proves that within thirty (30) days after the beginning of the action, or within such other period as the court may fix and more than thirty (30) days prior to obtaining the judgment, he notified each of the beneficiaries known to the trustee, who then had a present or contingent interest of the existence and nature of the action. Such notice shall be given by registered mail addressed to such beneficiaries at their last known addresses. The trustee shall furnish the plaintiff a list of such beneficiaries and their addresses, within ten (10) days after written demand therefor, and notification of the persons on such list shall constitute compliance with the duty placed on the plaintiff by this section. Any beneficiary may intervene in such action and contest the right of the plaintiff to recover. If any beneficiary is a minor or has been adjudged incompetent, the court shall appoint a guardian ad litem, whose duty it shall be to defend such action.

D. The trustee may also be held personally liable for any tort committed by him, or his agents or employees in the course of their employments, subject to the rights of exoneration or reimbursement provided in Section 20 of this Act.

[Acts 1943, 48th Leg., p. 232, ch. 148, § 21.]

#### Art. 7425b-22. Power of Trustor

The trustor of any trust affected by this Act may, by provisions in the instrument creating the trust, or by an amendment of the trust if the trustor reserved the power to amend the trust, relieve his trustee from any or all of the duties, restrictions, and liabilities which would otherwise be imposed upon him by this Act; or alter or deny to his trustee any or all of the privileges and powers conferred upon the trustee by this Act; or add duties, restrictions, liabilities, privileges, or powers to those imposed or granted by this Act; but no act of the trustor shall relieve a corporate trustee from the duties, restrictions, and liabilities imposed upon it by Sections 10, 11, and 12 of this Act.

[Acts 1943, 48th Leg., p. 232, ch. 148, § 22.]

#### Art. 7425b-23. Power of Beneficiary

Any beneficiary of a trust affected by this Act may, if of full legal capacity and acting upon full information, by written instrument delivered to the trustee, relieve the trustee as to such beneficiary from any or all of the duties, restrictions, responsibilities and liabilities which would otherwise be imposed on the trustee by this Act, including the release of the trustee from any or all liability to such beneficiary for past violations of any of the provisions of the Act, except as to the duties, re-

strictions, and liabilities imposed on corporate trustees by Sections 10, 11, and 12 herein.

[Acts 1943, 48th Leg., p. 232, ch. 148, § 23.]

#### Art. 7425b-24. Power of the Court

A. The district court shall have original jurisdiction to construe the provisions of any trust instrument; to determine the law applicable thereto; the powers, responsibilities, duties, and liability of trustee; the existence or non-existence of facts affecting the administration of the trust estate; to require accounting by trustee; and to surcharge trustee.

B. In cases where there be a single trustee, the venue of such actions shall be in the county of the residence of such trustee; or if a corporation, in the county of its principal place of business. Where there are two or more trustees, then the venue shall be in the county where the principal office of the trust is maintained.

C. Actions hereunder may be brought by a trustee, beneficiary, or any person affected by or having an active interest in the administration of the trust estate. If the action is predicated upon any act or obligation of any beneficiary, such beneficiary shall be a necessary party to the proceedings. The only necessary parties to such actions shall be those persons designated by name in the instrument creating the trust, and any persons who may be actually receiving distributions from the trust estate at the time the action is filed; contingent beneficiaries designated as a class shall not be necessary parties.

D. Except as otherwise provided herein, the provisions of the statutes and rules of court governing civil procedure, commencement of action, process, process by publication, appointment of guardians ad litem, supersedeas and appeal, shall govern all actions and proceedings instituted under the provisions of this Act.

E. A court of competent jurisdiction may, for cause shown and upon notice to the beneficiaries, relieve a trustee from any or all of the duties, limitations, and restrictions which would otherwise be placed upon him by this Act, or wholly or partly release and excuse a trustee, who has acted honestly and reasonably, from liability for violations of the provisions of this Act.

[Acts 1943, 48th Leg., p. 232, ch. 148, § 24.]

#### Art. 7425b-25. Powers, Duties, and Responsibilities of Trustees

In the absence of contrary or limiting provisions in the instrument creating the trust, or a subsequent order or decree of a court of competent jurisdiction, the trustee of an express trust is authorized:

A. To exchange, re-exchange, subdivide, develop, improve, dedicate to public use, make or vacate public plats, adjust boundaries, and/or partition real property, and to adjust differences in valuation by giving or receiving money or money's worth. Easements may be dedicated to

public use without consideration if deemed by the trustee to be for the best interest of the trust.

B. To grant options and to sell real or personal property at public auction or at private sale for cash, or upon credit secured by lien upon the property sold or upon such property or a part thereof and/or other property.

C. To grant or take leases of real property for any term of years, and of all rights and privileges above or below the surface of real property for any term or terms, including exploration for and removal of oil, gas, and other minerals, with or without options of purchase, and with or without covenants as to erection of buildings, or as to renewals thereof, through the term of the lease or renewals thereof, or of such options extending beyond the term of the trust.

D. To raze existing walls or buildings and/or erect new party walls or buildings alone or jointly with the owners of any adjacent property. To make ordinary repairs and in addition thereto such extraordinary alterations, changes, and additions in buildings or other structures which are necessary to make the property productive or more productive. To effect and keep in force, fire, rent, title, liability, casualty, or other insurance of any nature, in any form and in any amount.

E. To compromise, contest, arbitrate, or settle any and all claims of or against the trust estate or the trustee as such. To abandon property deemed by the trustee burdensome or valueless.

F. To pay calls, assessments, and any other sums chargeable or accruing against, or on account of shares of stock or other securities in the hands of the trustee where such payment may be legally enforceable against the trustee or any property of the trust, or where the trustee deems payment expedient and for the best interests of the trust. To sell or exercise stock subscription or conversion rights, participate in the foreclosures, reorganizations, consolidations, mergers, liquidations, pooling agreements and voting trusts; to assent to corporate sales, leases, and encumbrances, and in general, except as limited by the particular will, indenture, trust agreement, or other trust instrument, have and exercise all powers of an absolute owner in respect of such securities. In the exercise of the foregoing powers the trustee shall be authorized, where he deems such course expedient, to deposit stocks, bonds, or other securities with any protective or other committee formed by or at the instance of persons holding similar securities, under such terms and conditions respecting the deposit thereof as the trustee may approve. Any stock or other secu-

rities obtained by conversion, reorganization, consolidation, merger, liquidation, or the exercise of subscription rights shall be free, unless the trust instrument provides otherwise, from any restrictions on sale or otherwise contained in the trust instrument relative to the securities originally held.

G. Generally to execute and deliver any deed or other instrument and to do all things in relation to such trust necessary, desirable, or advisable for carrying out any of the above powers or those considered incident to the purposes of such trust. In addition to the other rights, powers, and authority granted to and conferred upon the trustee of an express trust by this, The Texas Trust Act, the trustee may sell, exchange, transfer, assign, convey, mortgage, or otherwise encumber, lease, contract for the joint exploration and development of the trust property, with other properties, and otherwise contract with reference to oil, gas, or other minerals or natural resources, and mineral rights and mineral royalties, which may be or become a part of the trust estate, upon such terms and conditions, and for such royalties, rents, benefits, and consideration as the trustee may deem to be to the best interest of the trust estate.

H. Employ attorneys, accountants, agents, and brokers reasonably necessary in the administration of the trust estate; permit real estate held in trust to be occupied by a surviving spouse or minor child of the trustor and, where reasonably necessary for the maintenance of the surviving wife or minor child, to invest trust funds in real property to be used for a home by any such beneficiary, and, in the trustee's discretion, to pay funeral expenses of any beneficiary actually receiving benefits from the trust estate at the time of his or her death.

I. The following rules of administration shall be applicable to all express trusts but such rules shall not be exclusive of those otherwise imposed by law, unless the latter be contrary to these rules:

1. Where a trustee is authorized to sell or dispose of land, such authority shall include the right to sell or dispose of a part thereof, whether the division is horizontal, vertical, or made in any other way, or of undivided interests therein.

2. Where a trustee is authorized by the trust instrument creating the trust or by law to pay, expend, or otherwise apply capital money subject to the trust for any purpose or in any manner, he shall have and shall be deemed always to have had the power to raise the money so required by selling, converting, calling in, or mortgaging or

otherwise encumbering all or any part of the trust property for the time being in possession.

3. A trustee shall have a lien, and may reimburse himself with interest, for, or pay or discharge out of the trust property, either principal or income or both, all advances made for the convenience, benefit or protection of the trust or its property, and all expenses, losses, and liabilities, not resulting from the negligence of the trustee, incurred in or about the execution or protection of the trust or because of his holding or ownership of any property subject thereto.

4. When the happening of any event, including marriage, divorce, attainment of a certain age, performance of educational requirements, death, or any other event, determines or affects the distribution of income or principal of trust estates, the trustees shall not be liable for mistakes of fact made prior to the actual knowledge or written notice of such fact.

J. The powers, duties, and responsibilities stated in this Act shall not be deemed to exclude other implied powers, duties, or responsibilities not inconsistent herewith.

K. Pay all taxes and assessments levied or assessed against the trust estate or the trustee by governmental taxing or assessing agencies.

L. Unless the instrument creating the trust provides to the contrary, the trustee of any trust created after the effective date of this amendment shall be required to give bond payable to all persons interested in the trust as their interest may appear, conditioned for the faithful performance of the duties as trustee, to be in such amount and with such surety or sureties as the District Court shall, by order entered in a proceeding brought for such purpose, direct and approve. If the proceeding be brought by the person named as trustee, citation in respect thereof shall not be necessary, but the proceeding may be upon ex parte verified petition showing the nature and probable value of the trust estate, and the District Court may, in term time or vacation, hear the application and enter such order in respect thereof as the court shall deem proper. If the proceeding be brought by some other person interested in the estate, citation shall issue, as required by law, to the trustee, unless such citation be expressly waived in writing. Any bond made pursuant to the provisions of this Subsection L shall be subject to increase, decrease, or the substitution or addition of another surety or other sureties upon order of the District Court in an action brought by any person interested in the trust estate, as in Section 24 hereof

provided. Any bond made pursuant to the terms of this Subsection shall be deposited with the Clerk of the District Court in which the order shall have been entered, and suit may be maintained on a certified copy thereof, provided that any recovery thereon shall, upon appropriate proof by the surety or sureties, reduce their liability on such bond pro tanto. Failure to comply with the provisions of this paragraph shall not render void or voidable, or otherwise affect, any act or transaction of the trustee with any third person.

Provided, however, that this Subsection shall not apply to corporate trustees which are authorized by law to act as trustee of any trust affected by this Act.

M. In the event that any property which is or may become a part of the assets of a trust is situated in a state or states other than the State of Texas, or in a foreign country, the Texas trustee is empowered to name an individual or corporate trustee qualified to act in any such state or foreign country in connection with the property situated therein as ancillary trustee of such property and require such security as may be designated by the Texas trustee. The ancillary trustee so appointed shall have all rights, powers, discretions, responsibilities and duties as are delegated to it by the Texas trustee, within the limits of the authority possessed by the Texas trustee, but shall exercise and discharge same subject to such limitations or directions of the Texas trustee as shall be specified in the instrument evidencing the appointment. The ancillary trustee shall be answerable to the Texas trustee for all monies, assets or other property entrusted to it or received by it in connection with the administration of the trust. The Texas trustee may remove such ancillary trustee and may or may not appoint a successor at any time or from time to time as to any or all of the assets. Provided, however, that if the ancillary trustee is to be appointed in any jurisdiction that requires any kind of procedure or judicial order for the appointment of such an ancillary trustee or to authorize it to act, the Texas trustee and the ancillary trustee must conform to all such requirements.

N. Whenever an instrument containing a trust reserves unto the trustor, or vests in an advisory or investment committee, or in any other person or persons (including a co-trustee), to the exclusion of the trustee or to the exclusion of one or more of several trustees, authority to direct the making or retention of investments, or of any investment, or the performance of any other act in the management and administration of the trust, the excluded trustee or co-trustee shall not be liable as trustee or co-trustee for any loss resulting from the making or retention of any investment

pursuant to such authorized direction, or from the doing of any act in the management and administration of the trust in accordance with such authorized direction. This Subsection shall not be applicable if the terms of the trust instrument contain contrary provisions with respect to the liability of the excluded trustee or co-trustee.

#### Art. 7425b-26. Right of Trustee to Determine Principal and Income

This Act shall govern the ascertainment of income and principal, and the apportionment of receipts and expenses between tenants and remaindermen in all cases where an express trust has been created; except that in the establishment of the principal, provision may be made touching all matters covered by this Act, and the person establishing the principal may himself direct the manner of ascertainment of income and principal and the apportionment of receipts and expenses or grant discretion to the trustee or other person to do so, and such provision and direction, where not otherwise contrary to law, shall control notwithstanding this Act.

[Acts 1943, 48th Leg., p. 232, ch. 148, § 26; Acts 1945, 49th Leg., p. 109, ch. 77, § 9.]

#### Art. 7425b-27. Income and Principal—Disposition

Unless otherwise expressly provided in this Act:

A. All receipts of money or other property paid or delivered as rent of realty or hire of personalty or dividends payable other than in shares of the corporation, company, or association itself, or interest on money loaned, or interest on or the rental or use value of property wrongfully withheld or tortiously damaged, or otherwise in return for the use of principal, shall be deemed income.

B. All receipts of money or other property paid or delivered as the consideration for the sale or other transfer, or for the granting of an option for the sale or other transfer, not a leasing or letting, of property forming a part of the principal, or as a repayment of loans, or in liquidation of the assets of a corporation, or as the proceeds of property taken on eminent domain proceedings where separate awards to tenant and remaindermen are not made, or as proceeds of insurance upon property forming a part of the principal except where such insurance has been issued for the benefit of either tenant or remainderman alone, or otherwise as a refund or replacement or change in form of principal shall be deemed principal unless otherwise expressly provided in this Act. Any profit or loss resulting upon any change in form

of principal shall enure to or fall upon principal.

C. All income after deduction of expenses properly chargeable to it, including reasonable reserves, shall be paid and delivered to the tenant or retained by him if already in his possession or held for accumulation where legally so directed by the terms of the transaction by which the principal was established; while the principal shall be held for ultimate distribution as determined by the terms of the transaction by which it was established or by law.

[Acts 1943, 48th Leg., p. 232, ch. 148, § 27.]

#### Art. 7425b-28. Apportionment of Income

Whenever a tenant shall have the right to income from periodic payments, which shall include rent, interest on loans, and annuities, but shall not include dividends, and such rights shall cease and determine by death or in any other manner at a time other than the date when such periodic payments should be paid, he or his personal representative shall be entitled to that portion of any such net income next payable which amounts to the same percentage thereof as the time elapsed from the last due date of such periodic payments to and including the day of the determination of his right is of the total period during which such income would normally accrue. The remaining income shall be paid to the person next entitled to income by the terms of the transaction by which the principal was established. But no action shall be brought by the trustee or tenant to recover such apportioned income or any portion thereof until after the day on which it would have become due to the tenant but for the determination of the right of the tenant entitled thereto. The provisions of this section shall apply whether an ultimate remainderman is specifically named or not. Likewise, when the right of the first tenant accrues at a time other than the payment dates of such periodic payments, he shall only receive that portion of such income which amounts to the same percentage thereof as the time during which he has been so entitled is of the total period during which such income would normally accrue; the balance shall be a part of the principal.

[Acts 1943, 48th Leg., p. 232, ch. 148, § 28.]

#### Art. 7425b-29. Corporate Distributions

(a) Corporate distributions of shares of the distributing corporation, including distributions in the form of a stock split or stock dividend, are principal. A right to subscribe to shares or other securities issued by the distributing corporation accruing to stockholders on account of their ownership and the proceeds of any sale of the right are principal.

(b) Except to the extent that the corporation indicates that some part of a corporate distribution is a settlement of preferred or guaranteed dividends accrued since the trustee be-

came a stockholder or is in lieu of an ordinary cash dividend, a corporate distribution is principal if the distribution is pursuant to

(1) a call of shares;

(2) a merger, consolidation, reorganization, or other plan by which assets of the corporation are acquired by another corporation; or

(3) a total or partial liquidation of the corporation, including any distribution which the corporation indicates is a distribution in total or partial liquidation or any distribution of assets, other than cash, pursuant to a court decree or final administrative order by a government agency ordering distribution of the particular assets.

(c) Distributions made from ordinary income by a regulated investment company or by a trust qualifying and electing to be taxed under federal law as a real estate investment trust are income. All other distributions made by the company or trust, including distributions from capital gains, depreciation, or depletion, whether in the form of cash or an option to take new stock or cash or an option to purchase additional shares, are principal.

(d) Except as provided in Subsections (a), (b), and (c), all corporate distributions are income, including cash dividends, distributions of or rights to subscribe to shares or securities or obligations of corporations other than the distributing corporation, and the proceeds of the rights or property distributions. Except as provided in Subsections (b) and (c), if the distributing corporation gives a stockholder an option to receive a distribution either in cash or in its own shares, the distribution chosen is income.

(e) The trustee may rely upon any statement of the distributing corporation as to any fact relevant under any provision of this Article concerning the source or character of dividends or distributions of corporate assets.

(f) This Act shall be applicable only to trusts created after the effective date of the Texas Trust Act, and shall not be construed to have any effect on trusts created prior to the effective date of the Texas Trust Act, Acts 1943, 48th Legislature, Page 232, Chapter 148. No provision of this Act shall be construed to alter the intent of any testator or testatrix as expressed in any testamentary instrument whether executed before or after the effective date of such Texas Trust Act and this Act.

[Acts 1943, 48th Leg., p. 232, ch. 148, § 29; Acts 1971, 62nd Leg., p. 2914, ch. 965, § 1, eff. June 15, 1971.]

#### Art. 7425b-30. Premium and Discount Bonds

Where any part of the principal consists of bonds or other obligations for the payment of money, they shall be deemed principal at their inventory value or in default thereof at their market value at the time the principal was es-

tablished; or at their cost where purchased later, regardless of their par or maturity value; and upon their respective maturities or upon their sale any loss or gain realized thereon shall fall upon or enure to principal; except securities purchased on a discount basis and not bearing interest, in which cases the discount when received, or recovered shall be income.

[Acts 1943, 48th Leg., p. 232, ch. 148, § 30.]

#### Art. 7425b-31. Principal Used in Business

When principal is used in business, the net profits and any increase or decrease in the principal shall be allocated as follows:

A. Whenever a trustee or a tenant is authorized by the terms of the transaction by which the principal was established, or by law, to use any part of the principal in the continuance of a business which the original owner of the property comprising the principal had been carrying on, the net profits of such business attributable to such principal shall be deemed income.

B. Where such business consists of buying and selling property—including the buying and selling of goods, wares and merchandise in operating and conducting a retail or wholesale business—the net profits for any period shall be ascertained by deducting from the gross returns during and the inventory value of the property at the end of such period, the expenses and purchases during the period and the inventory value of the property at the beginning of such period.

C. Where such business does not consist of buying and selling property, the net income shall be computed in accordance with the customary practice of such business, but not in such way as to decrease the principal.

D. Any increase in the value of the principal used in such business shall be deemed principal, and all losses in any one calendar year, or fiscal year if it differs from calendar year, after the income from such business for that year has been exhausted, shall fall upon principal.

[Acts 1943, 48th Leg., p. 232, ch. 148, § 31.]

#### Art. 7425b-32. Principal Comprising Animals

Where any part of the principal consists of animals employed in business, the provision of Section 31 of this Act shall apply, and in other cases where the animals are held as a part of the principal partly or wholly because of the offspring or increase which they are expected to produce, all offspring or increase shall be deemed principal to the extent necessary to maintain the original number of such animals and the remainder shall be deemed income; and in all other cases such offspring or increase shall be deemed income.

[Acts 1943, 48th Leg., p. 232, ch. 148, § 32.]

**Art. 7425b-33. Disposition of Natural Resources**

Where any part of the principal consists of any interest in lands, including royalties, overriding royalties, and working interest, from which may be taken timber, minerals, oil, gas or other natural resources, and the trustee or tenant is authorized by law or by the terms of the transaction by which the principal or trust was established to sell, lease, or otherwise develop such natural resources, and no provision is made for the disposition of the proceeds thereof, such proceeds, if received as delay rentals on a lease shall be deemed income, but if received as consideration, whether as bonus or consideration for the execution of the lease or as royalties, overriding or limited royalties, oil payments or other similar payments, received in connection with the physical severance of such natural resources, shall be apportioned to principal and income as follows: 27½% of the gross proceeds (but not to exceed 50% of the net, after deducting the expense and carrying charges on such property) shall be treated as principal and invested or held for the use and benefit of the remainderman, and the balance shall be treated as income subject to be disbursed to the tenant or person entitled thereto. Such disposition of proceeds shall apply whether the property is producing or non-producing at the time the trust becomes effective.

[Acts 1943, 48th Leg., p. 232, ch. 148, § 33; Acts 1945, 49th Leg., p. 109, ch. 77, § 10.]

**Art. 7425b-34. Principal Subject to Depletion**

Where any part of the principal in the possession or under the custody and control of the trustee consists of property other than natural resources, subject to depletion, such as leaseholds, patents, copyrights, and royalty rights, and the trustee or tenant in possession is not under a duty to change the form of the investment of the principal, the full amount of rents, royalties, or return from the property shall be income to the tenant; but where the trustee or tenant is under a duty, arising either by law or by the terms of the transaction by which the principal was established, to change the form of the investment, either at once or as soon as it may be done without loss, then the return from such property not in excess of five (5%) per cent per annum of its fair inventory value or in default thereof its market value at the time the principal was established, or at its cost where purchased later, shall be deemed income and the remainder principal.

[Acts 1943, 48th Leg., p. 232, ch. 148, § 34.]

**Art. 7425b-35. Unproductive Estate**

Upon conversion of any unproductive property, allocation between principal and income shall be as follows:

A. Where any part of a principal in the possession of a trustee consists of realty or personalty, whether tangible or intangible property, which for more than a year

and until disposed of as hereinafter stated has not produced an average net income, not considering depreciation or obsolescence, of at least one (1%) per cent per annum of its fair inventory value or in default thereof its market value at the time the principal was established or of its cost where purchased later, and the trustee is under a duty to change the form of the investment as soon as it may be done without sacrifice of value and such change is delayed, but is made before the principal is finally distributed, then the tenant, or in case of his death, his personal representative, shall be entitled to share in the net proceeds received from the property as delayed income to the extent hereinafter stated. The basis under this Section for establishing value of property acquired through foreclosure of a mortgage held by the trust, shall be the net investment in the property up to the date of re-sale by the trust and not the price bid at the foreclosure sale. Net investment shall consist of all moneys invested and advanced.

B. Such income shall be the difference between the net proceeds received from the property and the amount which, had it been placed at simple interest at the rate of four (4%) per cent per annum for the period during which the change was delayed, would have produced the net proceeds at the time of change, but in no event shall such income be more than the amount by which the net proceeds exceed the fair inventory value of the property, or in default thereof, its market value at the time the principal was established or its costs where purchased later. The net proceeds shall consist of the gross proceeds received from the property less any expenses incurred in disposing of it and less all carrying charges which are chargeable to principal during the period while it has been unproductive. No allocation to income shall be made when the net proceeds from any sale are less than the value of the property as determined by sub-section A of this section.

C. The change shall be taken to have been delayed from the time when the duty to make it first arose, which shall be presumed, in the absence of evidence to the contrary, to be one year after the trustee first received the property if then unproductive, otherwise one year after it became unproductive.

D. If the tenant has received any income from the property or has had any beneficial use thereof during the period while the change has been delayed, his share of the delayed income shall be reduced by the amount of such income received or the value of the use had.

E. In case of successive tenants the delayed income shall be divided among them or their representatives according to the

length of the period for which each was entitled to income.

F. Where a trustee is required to change the form of investment under the provisions of the instrument by which the trust is created or under the existing law, he shall use reasonable care in determining the necessity for such change and the time and manner of changing said form of investment. Provided, that the provisions in this Section shall not be construed to require a trustee to change the form of an investment.

[Acts 1943, 48th Leg., p. 232, ch. 148, § 35; Acts 1945, 49th Leg., p. 109, ch. 77, § 11.]

**Art. 7425b-36. Expenses—Trust Estate**

A. All ordinary expenses incurred in connection with the trust estate or with its administration and management, including regularly recurring taxes assessed against any portion of the principal, water rates, premiums on insurance taken upon the estates of both tenant and remainderman, interest on mortgages on the principal, ordinary repairs, compensation of assistants, fees, and court costs on regular accountings, shall be chargeable against income; provided, however, that the trustee's compensation or commissions, as defined in Subsection K of Section 4 of this Act, and attorney's fees may be chargeable against income or principal or partially against income and partially against principal as the trustee shall determine in its discretion to be just and equitable.

B. All other expenses, including cost of investing or reinvesting principal, attorney's fees and other costs incurred in maintaining or defending any action to protect the trust or the property or assure the title thereof, unless due to the fault or cause of the tenant, and costs of, or assessments for, improvements to property forming part of the principal, shall be paid out of principal. Any tax levied by any authority, federal, state, or foreign, upon profit or gain defined as principal under the terms of Subsection B of Section 27 of this Act, shall be paid out of principal, notwithstanding said tax may be denominated a tax upon income by the taxing authority.

C. Expenses paid out of income according to Subsection A of this Section which represents regularly recurring charges shall be considered to have accrued from day to day, and shall be apportioned on that basis whenever the right of the tenant begins or ends at some date other than the payment date of the expenses. Where the expenses to be paid out of the income are of unusual amount the trustee may distribute them throughout an entire year or part thereof, or throughout a series of years. After such distribution, where the right of the tenant ends during the period, the expense shall be apportioned between tenant and remainderman on the basis of such distribution.

D. Where the costs of, or special taxes or assessments for, an improvement representing

an addition of value to property held by the trustee as part of principal are paid out of principal, as provided in Subsection B, the trustee shall reserve out of income and add to the principal each year a sum equal to the cost of the improvement divided by the number of years of the reasonably expected duration of the improvement.

Sec. 1. When used in this Act, unless the context otherwise requires:

(a) "Power" means any power to appoint or designate to whom property shall go, any power to invade or consume property, any power to alter, amend or revoke any instrument under which an estate or trust is held or created or to terminate any right or interest thereunder, and any power remaining where one or more partial releases have heretofore or hereafter been made with respect to a power, whether heretofore or hereafter created or reserved, whether vested, contingent or conditional, and whether classified in law or known as a power in gross, a power appendant, a power appurtenant, a collateral power, a general, special or limited power, an exclusive or non-exclusive power, or otherwise, and irrespective of when or in what manner a power, as herein defined, was created or reserved, or when, in what

manner, or in whose favor, it may be exercised; provided, however, that the word "power" shall not include a power in trust which is imperative, and this Act shall not apply thereto.

(b) "Donee" means any person, whether resident or non-resident of this State, who, either alone or with another or others, has the right to exercise a power.

(c) "Objects", when used in connection with a power, means the persons in whose favor the power may be exercised.

(e) "Release" means renunciation, relinquishment, surrender, refusal to accept, extinguishment, and any other form of release. "Release" shall likewise include a covenant not to exercise a power, either in whole or in part.

**Donee May Release Power**

Sec. 2. Unless the instrument creating the power specifically provides to the contrary, the donee of a power may:

(A) At any time completely release his power;

(B) At any time or times release his power

(a) as to any property which is subject thereto;

(b) as to any one or more of the objects thereof; or

(c) so as to limit in any other respect the extent to which it may be exercised.

**Requisites of Release; Delivery**

Sec. 3. A release of a power, whether partial or complete, shall be valid and effective, with or without a consideration, when the donee thereof executes and acknowledges, in the manner required by law for execution and recordation of deeds, an instrument evidencing an intent to make the release, and delivers the instrument or causes it to be delivered, either:

(A) To any person or in any manner specified for such purpose in the instrument creating the power; or

(B) To any adult person, other than the donee so releasing, who may take any of the property which is subject to the power in the event of its non-exercise or to one in whose favor it may be exercised after such partial release; or

(C) To any trustee or any co-trustee of the property which is subject to the power; or

(D) By filing the same with the County Clerk for recordation in the Deed Records of any county in the State of Texas in which any property subject to such power is situated, or in which the donee, if in control of the property resides, or in which the trustee in control of the property resides, or in which a corporate trustee in control of the property has its principal office, or in which the instrument creating the power is probated or recorded.

#### Powers Exercisable by Two or More Donees

Sec. 4. If a power is or may be exercisable by two or more donees, either in an individual or fiduciary capacity in conjunction with one another or successively, a release thereof in whole or in part by any one or more of the donees shall not, unless the instrument creating the power otherwise provides, prevent or limit the exercise or participation in the exercise thereof by the other donee or donees.

#### Notice of Release

Sec. 5. (A) No fiduciary or other person, association or corporation having the possession or control of any property subject to a power (other than the donee thereof) shall be deemed to have notice of a release of the power unless and until the original or a copy of the release is delivered to such fiduciary or other person, association or corporation.

(B) No purchaser, lessee or mortgagee, for a valuable consideration, of real property subject to a power who is without actual notice shall be deemed to have notice of a release of the power unless and until the instrument effecting such release, or a proper copy thereof, is filed with the County Clerk of the county in which the particular real property so purchased, leased, or mortgaged is situated, for recordation in the Deed Records of such county.

#### Recording and Indexing

Sec. 6. County Clerks are authorized and directed to record releases in the Deed Records of their respective counties, and to index the same, the name of the donee being entered in the grantor index, and to charge therefor at the rate applicable to deeds.

#### Failure to Deliver or File

Sec. 7. Failure to deliver or file an instrument releasing a power, or a copy of such instrument, as provided in Sections 4 and 5 of this Act, shall not affect the validity of the release as to the donee or objects thereof or as to any other persons except those expressly protected by the provisions of said sections.

#### Release by Guardian

Sec. 8. A power held by a person under a disability and for whose estate a guardian has been or may be appointed, may be released, in the manner hereinabove provided, by the guardian of such person's estate, upon order of the County Court of the county in the State of Texas in which such guardian shall have been

appointed or in which the guardianship proceeding shall be pending.

#### Power Held by Married Woman

Sec. 9. A power held by a married woman may be released by her, in the manner hereinabove provided, without the joinder of her husband, unless his joinder would be required in the exercise of such power, in which event his joinder shall be required.

#### Restraints of Alienation or Anticipation

Sec. 10. Release of a power otherwise releasable shall not be prevented merely by provisions in restraint of alienation or anticipation contained in the instrument creating the power.

#### Rights and Means Not Exclusive

Sec. 11. The rights and means provided for in this Act for the release of a power are not exclusive, but are in addition to all other rights and means of a donee to release a power in whole or in part.

#### Releases Prior to Enactment of Law

Sec. 12. Nothing in this Act shall invalidate any valid release made prior to the enactment hereof, and all releases made prior to such enactment, which are not valid under law then existing but which are in substantial compliance with the requirements hereof, are hereby validated, unless the power intended to be affected by such an invalid release was thereafter, but prior to the enactment hereof, exercised.

#### Declaratory of Common Law; Liberal Construction; Applicability

Sec. 13. This Act shall, so far as possible, be deemed to be declaratory of the common law of the State of Texas and shall be liberally construed so as to effectuate the intent that all powers whatsoever, except powers in trust which are imperative, shall be releasable unless otherwise expressly provided in the instrument creating the power.

#### Conflict With Other Laws

Sec. 14. Insofar as the provisions of this Act may conflict with other Acts or parts thereof, the provisions of this Act shall control.

#### Partial Invalidity

Sec. 15. If any provisions of this Act or the application thereof is held invalid, such invalidity shall not affect the other provisions or applications of this Act which can be given effect without the invalid provision or application, and to this end the provisions of this Act are declared to be severable.

<sup>1</sup> Acts 1973, 63rd Leg., p. 1723, ch. 626, classified as art. 5923b, changed the age of majority to eighteen.

#### Previously Issued Licenses

Sec. 11. Any person in Texas holding a previously issued license which is still in effect on the effective date of this Act, shall be deemed licensed under this Act, entitled to practice veterinary medicine, and subject to the provisions of this Act applicable to licensees.

#### Meetings and Examinations

Sec. 12. The Board shall hold regular meetings at least twice each year for the holding of examinations as provided in this Act, at such times and places as it deems convenient for applicants for examinations. Notice of meetings for holding examinations shall be given by publication in such newspapers or periodicals as the Board may select, and the Board shall examine all qualified applications for examinations as follows:

(a) Examinations shall be on subjects and operations pertaining to veterinary medicine including veterinary anatomy, veterinary pathology, chemistry, veterinary obstetrics, sanitary science, veterinary practice, veterinary jurisprudence, veterinary physiology and bacteriology and such other subjects as are regularly taught in reputable schools of veterinary medicine.

(b) Examinations may be given orally, in writing, or a practical demonstration of the applicant's skill, or any combination of these as the Board may determine.

(c) Applicants shall demonstrate such standard of proficiency as the Board may determine is essential for a qualified veterinarian.

#### Expiration and Renewal of Licenses

Sec. 13. Licenses shall expire March 1st of each calendar year, and any licensee may renew his license on or before March 1st by making written application to the Board setting forth such facts as the Board may require, and by paying the required fee. Any person whose license expires, or has expired prior to the effective date of this Act, may, in the discretion of the Board, renew his license by making written application to the Board setting forth such facts as the Board may require, and by payment of annual renewal fees in arrears and an additional fee of Five Dollars (\$5.00); provided, however, that the requirements governing the payment of the annual renewal fee and

the penalty for late renewal shall not apply to licensees who are on active duty with the Armed Forces of the United States of America and who do not engage in private or civilian practice; provided further, licensees who are full-time members of the faculty of a reputable veterinary college or school in the State of Texas where such faculty members perform their services for the sole benefit of such school or college and who do not engage in private or civilian practice shall pay one-half ( $\frac{1}{2}$ ) of the annual renewal fee fixed by the Board pursuant to law.

#### Expiration Dates of Licenses; Proration of Fees

Sec. 13A. The board by rule may adopt a system under which licenses expire on various dates during the year. For the year in which the expiration date is changed, license fees payable on March 1 shall be prorated on a monthly basis so that each licensee shall pay only that portion of the license fee which is allocable to the number of months during which the license is valid. On renewal of the license on the new expiration date, the total license renewal fee is payable.

#### Revocation or Suspension of License; Refusal to Examine Applicant or Issue or Renew License; Grounds

Sec. 14. The Board may revoke or suspend any license, may refuse to examine an applicant, to issue a license or to issue a renewal of a license, after notice and hearing as provided in Section 15 of this Act, or as provided by the rules of the Board, if it finds that an applicant or licensee:

(a) Has presented to the Board dishonest or fraudulent evidence of qualification; has been guilty of illegal fraud or deception in the process of examination, or for the purpose of securing a license; or

(b) Is chronically or habitually intoxicated or is addicted to drugs; or

(c) Has engaged in dishonest or illegal practices in or connected with the practice of veterinary medicine; or

(d) Has been convicted of a felony under the laws of this or any other state of the United States or of the United States; or

(e) Has engaged in practices or conduct in connection with the practice of veterinary medicine which are violative of the standards of professional conduct as duly promulgated by the Board in accordance with law; or

(f) Has permitted or allowed another to use his license, or certificate to practice veterinary medicine in this state, for the purpose of treating, or offering to treat, sick, injured or afflicted animals."

#### Procedure for Revocation or Suspension of License

Sec. 15. Proceedings by the Board for the suspension or revocation of a license to practice veterinary medicine shall be as follows:

(a) Proceedings may be instituted by any member of the Board or its employees or by any other person, by filing with the Board a sworn statement setting forth the grounds upon which the person presenting the statement believes the Board should revoke or suspend the license.

(b) Upon the filing of such statement the executive secretary shall cause such investigation to be made as he deems necessary to determine the existence of such grounds, and if the executive secretary is of the opinion that grounds for suspension or revocation of a license exist, he shall cause appropriate entries to be made on a hearing docket and shall fix a time and place for hearing as may be prescribed by the rules of the Board.

(c) The executive secretary shall cause notice of the hearing to be given the licensee, whose license is under consideration for suspension or revocation, not less than ten (10) days prior to the date fixed for hearing. Notice of hearing shall be served as is provided by law in civil cases in the District Courts of this State, and shall contain a brief statement of the statutory grounds upon which revocation or suspension of license is being considered; the date, time and place of hearing; and a statement that the licensee may appear and offer such evidence as is pertinent to the question of revocation or suspension of license.

(d) The Board shall conduct hearings under such rules as the Board may adopt, and may administer oaths and subpoena and compel attendance of witnesses, deemed by the Board or the licensee to have knowledge which would aid the Board in reaching a proper decision and for enforcement of this Act, in the same manner as the District Courts of this State in civil proceedings.

(e) The Board may, by a three-fourths vote of the members of the Board present, evidenced by the signatures of such members on the order, reprimand a licensee or order an accused licensee's license suspended for such time as the Board may determine, or order his license revoked.

#### Appeals

Sec. 16. a. Within 30 days after issuance of an order by the Board suspending, revoking, or refusing to renew a license, the affected licensee or applicant may appeal such order to the district court of the county in which the applicant or licensee maintained his principal office for the practice of veterinary medicine on the dates of the commission of the acts relied upon by the Board to suspend or revoke a

license or refuse to issue a renewal of a license. An applicant who has never practiced veterinary medicine may, within 30 days after issuance of an order by the Board refusing to examine the qualifications of the applicant or refusing to issue a license to the applicant, appeal the Board's order to the district court of the county in which the applicant resided at the time he made such application to the Board.

b. The trial in the district court shall be de novo as in cases of appeal from the justice courts to the county courts of the State of Texas. Either party may demand a jury to pass upon the disputed fact issues. The district court upon final hearing shall enter its judgment suspending or revoking the license or refusing to suspend or revoke the license as the court may determine. The Board or the applicant or licensee may appeal as in other civil cases.

#### Injunction Proceedings; Venue

Sec. 17. The Attorney General or any District or County Attorney may institute any injunction proceeding or any such other proceeding incident to such injunction proceeding as to enforce the provisions of this Act and to enjoin any person from the practice of veterinary medicine, as defined in this Act, without such person having complied with the other provisions of this Act. The venue for such injunction proceedings shall be in the county of the residence of the person against whom such injunction proceedings are instituted.

#### Penalties

Sec. 18. (a) Any member or employee of the Board who issues a license other than as provided in this Act, or who gives an applicant for examination a list of questions to be propounded at the examination, shall be fined not less than Two Hundred Dollars (\$200), nor more than One Thousand Dollars (\$1,000).

(b) Any person who practices, offers or attempts to practice veterinary medicine in this State without first having complied with the provisions of this Act shall be fined not less than Twenty-five Dollars (\$25), nor more than Two Hundred Dollars (\$200). Each day of practicing, attempting or offering to practice is a separate offense.

#### Fees

Sec. 19. Applicants for examinations shall pay to the Board a fee of Fifty Dollars (\$50), and an applicant for license under the reciprocal provisions of this Act shall pay to the Board a fee of One Hundred Dollars (\$100) at the time of application to the Board for such license. Licensees shall pay to the Board for annual renewal of licenses, a fee of not less

than Five Dollars (\$5), nor more than Thirty Dollars (\$30), as determined by the Board, based upon the needs of the Board, and a licensee whose license has been lost or destroyed shall be issued a duplicate license after application and upon payment of a fee of Twenty Dollars (\$20).

#### Veterinary Fund

Sec. 20. All fees collected by the Board under this Act shall be placed in the State Treasury every thirty (30) days, as collected, to the credit of a special fund to be known as the "Veterinary Fund," and all expenditures from this fund shall be on order of the Board, on warrants issued by the State Comptroller for the purposes and in the amounts fixed by the Legislature in appropriation bills. On August 31st of each year, all money in excess of Forty Thousand Dollars (\$40,000) remaining in said "Veterinary Fund" shall revert to the General Revenue Fund of the State Treasury.

#### Payment of Compensation, Expenses and Costs

Sec. 21. The compensation and expenses of Board members, the salaries and expenses of employees, and all other costs of the Board in the administration of this Act shall be paid from the Veterinary Fund created by this Act, and no moneys for such purposes shall be paid from the General Fund of this State.

#### PART 1.

##### Art. 8306. Damages and Compensation for Personal Injuries

###### Defenses

Sec. 1. In an action to recover damages for personal injuries sustained by an employé in the course of his employment, or for death resulting from personal injury so sustained, it shall not be a defense:

1. That the employé was guilty of contributory negligence.
2. That the injury was caused by the negligence of a fellow employé.
3. That the employé had assumed the risk of the injury incident to his employment; but such employer may defend in such action on the ground that the injury was caused by the willful intention of the employé to bring about the injury, or was so caused while the employé was in a state of intoxication.

4. In all such actions against an employer who is not a subscriber, as defined hereafter in this law, it shall be necessary to a recovery for the plaintiff to prove negligence of such employer or some agent or servant of such employer acting within the general scope of his employment.

#### Application of Law; Exceptions

Sec. 2. The provisions of this law shall not apply to actions to recover damages for personal injuries nor for death resulting from personal injuries sustained by domestic servants or casual employees engaged in employment incidental to a personal residence, farm laborers, ranch laborers, nor to the employees of any person, firm or corporation operating any steam, electric, street, or interurban railway as a common carrier.

#### Nonresidents; Employment of Labor; Service of Process on Chairman of Industrial Accident Board

Sec. 2a. The acceptance by a nonresident of this State of the rights, privileges and benefits extended by law to such persons of employing labor within the State of Texas shall be deemed equivalent to an appointment by such nonresident of the Chairman of the Industrial Accident Board of this State, or his successor in office, to be his true and lawful attorney and agent upon whom may be served all lawful process in any civil action or proceeding now pending or hereafter instituted against said nonresident growing out of any accident resulting in the injury or death of any employee of said nonresident, occurring in the course of employment of the employee in this State, when the action or proceeding is brought by the employee, his heirs or legal representative. Service of process under this Section shall be in the same manner and method as that prescribed in Chapter 125, Acts of the Forty-first Legislature, Regular Session, 1929, as last amended by Chapter 502, Acts of the Fifty-sixth Legislature, Regular Session, 1959 (compiled as Article 2039a of Vernon's Texas Civil Statutes), which relates to citation of nonresident motor vehicle operators by serving the Chairman of the State Highway Commission.

#### Exclusiveness of Remedy; Exemption of Compensation From Legal Process; Assignability; Recovery From Third Persons; Liability of Subscriber

Sec. 3. The employees of a subscriber and the parents of minor employees shall have no right of action against their employer or against any agent, servant or employee of said employer for damages for personal injuries, and the representatives and beneficiaries of deceased employees shall have no right of action against such subscribing employer or his agent, servant or employee for damages for injuries resulting in death, but such employees and their representatives and beneficiaries shall look for compensation solely to the association, as the same is hereinafter provided for. All compensation allowed under the succeeding sections herein shall be exempt from garnishment, attachment, judgment and all

other suits or claims, and no such right of action and no such compensation and no part thereof or of either shall be assignable, except as otherwise herein provided, and any attempt to assign the same shall be void. If an action for damages on account of injury to or death of an employee of a subscriber is brought by such employee, or by the representatives or beneficiaries of such deceased employee, or by the association for the joint use and benefit of itself and such employee or such representatives or beneficiaries, against a person other than the subscriber, as provided in Section 6a, Article 8307, Revised Civil Statutes of Texas, 1925, and if such action results in a judgment against such other person, or results in a settlement by such other person, the subscriber, his agent, servant or employee, shall have no liability to reimburse or hold such other person harmless on such judgment or settlement, nor shall the subscriber, his agent, servant or employee, have any tort or contract liability for damages to such other person because of such judgment or settlement, in the absence of a written agreement expressly assuming such liability, executed by the subscriber prior to such injury or death. No part of this Section is intended to lessen or alter the employees existing rights or cause of action either against his employer, its subscriber, or any third party.

The Association, its agent, servant or employee, shall have no liability with respect to any accident based on the allegation that such accident was caused or could have been prevented by a program, inspection, or other activity or service undertaken by the association for the prevention of accidents in connection with operations of its subscriber; provided, however, this immunity shall not affect the liability of the association for compensation or as otherwise provided in this law. No part of this Section is intended to lessen or alter the employees existing rights or cause of action either against his employer, its subscriber, or any third party.

#### Waiver of Common Law or Statutory Right of Action

Sec. 3a. An employé of a subscriber shall be held to have waived his right of action at common law or under any statute of this State to recover damages for injuries sustained in the course of his employment if he shall not have given his employer, at the time of his contract of hire, notice in writing that he claimed said right or if the contract of hire was made before the employer became a subscriber, if the employé shall not have given the said notice within five days of notice of such subscription. An employé who has given notice to his employer that he claimed his right of action at common law or under any statute may thereafter waive such claim by notice in writing, which shall take effect five days after its delivery to his employer or his agent. Any employé of a subscriber who has not waived his right of action at common law or under any statute to recover damages for injury sustained in the course of his employment, as above pro-

vided in this section, shall, as well as his legal beneficiaries and representatives have his or their cause of action for such injuries as now exist by the common law and statutes of this State, which action shall be subject to all defenses under the common law and statutes of this State.

#### Compensation, When to be Paid

Sec. 3b. If an employé who has not given notice of his claim of common law or statutory rights of action, or who has given such notice and waived the same, sustains an injury in the course of his employment, he shall be paid compensation by the association as hereinafter provided, if his employer is a subscriber at the time of the injury.

#### Notice of Provision for Compensation

Sec. 3c. From and after the time of the receipt by the Industrial Accident Board of notice from any employer that the latter has become a subscriber under this law, all employés of said subscriber then and thereafter employed, shall be conclusively deemed to have notice of the fact that such subscriber has provided with the association for the payment of compensation under this law. If any employer ceases to be a subscriber he shall on or before the date on which his policy expires give notice to that effect to the Industrial Accident Board, and to such subscribers' employés by posting notices to that effect in three public places around such subscribers' plant.

#### Rights of Employés When Employer Not Subscriber

Sec. 4. Employés whose employers are not at the time of the injury subscribers to said association, and the representatives and beneficiaries of deceased employés who at the time of the injury were working for nonsubscribing employers can not participate in the benefits of said insurance association, but they shall be entitled to bring suit and may recover judgment against such employers, or any of them, for all damages, sustained by reason of any personal injury received in the course of employment or by reason of death resulting from such injury, and the provisions of section 1 of this law shall be applied in all such actions.

#### Exemplary Damages

Sec. 5. Nothing in this law shall be taken or held to prohibit the recovery of exemplary damages by the surviving husband, wife, heirs of his or her body, or such of them as there may be of any deceased employé whose death is occasioned by homicide from the wilful act or omission or gross negligence of any person, firm or corporation from the employer of such employé at the time of the injury causing the death of the latter. In any suit so brought for exemplary damages the trial shall be de novo, and no presumption shall exist that any award, ruling or finding of the Industrial Accident Board was correct. In any such suit, such award, ruling or finding shall neither be pleaded nor offered in evidence.

Accrual of Compensation; Medical Aid, Etc.

Sec. 6. No compensation shall be paid under this law for an injury which does not incapacitate the employee for a period of at least one week from earning full wages, but if incapacity extends beyond one week compensation shall begin to accrue on the eighth day after the injury. The medical aid, hospital services, chiropractic services, and medicines, as provided for in Section 7 hereof, shall be supplied as and when needed and according to the terms and provisions of said Section 7. If incapacity does not follow at once after the infliction of the injury or within eight days thereof but does result subsequently, compensation shall begin to accrue with the eighth day after the date incapacity commenced. In any event the employee shall be entitled to the medical aid, hospital service, chiropractic service, and medicines provided in this law. Provided further, that if such incapacity continues for four (4) weeks or longer, compensation shall be computed from the inception date of such incapacity.

Medical Services

Sec. 7. The employee shall have the sole right to select or choose the persons or facilities to furnish medical aid, chiropractic services, hospital services, and nursing and the association shall be obligated for same or, alternatively, at the employee's option, the association shall furnish such medical aid, hospital services, nursing, chiropractic services, and medicines as may reasonably be required at the time of the injury and at any time thereafter to cure and relieve from the effects naturally resulting from the injury. Such treatment shall include treatments necessary to physical rehabilitation, including proper fitting and training in the use of prosthetic appliances, for such period as the nature of the injury may require or as necessary to reasonably restore the employee to his normal level of physical capacity or as necessary to give reasonable relief from pain, but shall not include any other phase of vocational rehabilitation. The obligation of the association to be responsible for hospital services as herein provided shall not be held to include any obligation on the part of the association to pay for medical, nursing or surgical services not ordinarily provided by hospitals as a part of their services.

Upon receipt thereof, the Board shall promptly analyze each notice of injury incurred by an injured employee covered under this law. If the Board concludes that vocational rehabilitation is indicated in any such case, it immediately shall take the necessary steps to inform the injured employee of the services and facilities available to him under the Texas Rehabilitation Commission and the Board immediately shall notify said Commission of such case. In each such case recommendation of services and facilities shall be made after consultation by the Board with the physician or chiropractor furnishing medical aid or chiropractic services as required by this Section, who shall retain general supervision of treat-

ment of the injured employee and, should the employee request it, the Board shall consult with a physician or chiropractor specially trained in such treatment. The Board shall co-operate with said Texas Rehabilitation Commission with reference to the work of said Commission in providing said services and facilities to injured employees covered under the provisions of this law.

Provided that any physician or chiropractor rendering medical or chiropractic care to any injured workman shall render an initial report as soon as practical identifying the injured workman and stating the nature and extent of the injury and thereafter shall render subsequent reports reasonably necessary to keep the status of the claimant's condition known. The reports are to be made to the Industrial Accident Board, the association, and the injured workman. The failure of the physician or chiropractor to make such reports shall relieve the association and the injured workman from any obligation to pay for the services rendered by the physician or chiropractor.

Change in Medical Aid, Hospital Services, Chiropractic Services and Medicines

Sec. 7a. If it be shown that the employee is receiving medical aid, hospital services, chiropractic services, and medicines provided for by Section 7 hereof in such manner that there is reasonable ground for believing that the life, health or recovery of the employee is being endangered or impaired thereby, the Board may order a change in the physician, chiropractor or other requirements of said section after holding a hearing on the change. If the employee fails promptly to comply with such order after receiving it, the Board may relieve the association from its responsibility to pay for or alternatively furnish medical aid, hospital services, chiropractic services, and medicines until such time as the employee complies with the order of the Board.

Fees and Charges for Medical Aid, Hospital Services, Chiropractic Services or Medicines

Sec. 7b. All fees and charges under Sections 7 and 7a hereof shall be fair and reasonable, shall be subject to regulation of the Board and shall be limited to such charges as are reasonable for similar treatment of injured persons of a like standard of living where such treatment is paid for by the injured person himself or someone acting for him. In determining what fees are reasonable, the Board may also consider the increased security of payment afforded by this law. Where such medical aid, hospital service, chiropractic service or medicines are furnished by a public hospital or other institution, payment thereof shall be made to the proper authorities conducting the same, and the amount so paid shall be promptly reported to the Board.

Attorneys' Fees Regulated by the Board

Sec. 7c. All fees of attorneys for representing claimants before the Board under the pro-

visions of this law shall be subject to the approval of the Board. No attorneys' fees for representing claimants before the Board shall be allowed or approved against any party or parties not represented by such attorney, nor exceeding an amount equal to twenty-five per cent (25%) of the total recovery, in addition to the reasonable expenses incurred by the attorney in the preparation and presentation of the said claim before the Board, such expenses to be allowed by the Board. Where an attorney represents only a part of those interested in the allowance of a claim before the Board and his services in prosecuting such claim and obtaining an award there inures to the benefit of others jointly interested therein, then the Board may take these facts into consideration and allow the attorney a reasonable charge, to be assessed against the interest of those receiving benefits from the service of such attorney. The attorneys' fees herein provided for may be redeemed by the association by the payment of a lump sum or may be commuted by the agreement of the parties subject to the approval of the Board, but not until the claim represented by said attorney has been finally determined by the Board and recognized and accepted by the association. After the approval, as first above provided for, if the association be notified in writing of such claim or agreement for legal services, the same shall be a lien against any amount thereafter to be paid as compensation; provided, that where the employee's compensation is payable by the association in periodical installments, the Board shall fix at the time of approval the proportion of each installment to be paid on account of said legal services.

#### Attorneys' Fees Regulated by the Court

Sec. 7d. For representing the interest of any claimant in any manner carried from the Board into the courts, it shall be lawful for the attorney representing such interest to contract with any beneficiary under this law for an attorneys' fee for such representation, not to exceed twenty-five per cent (25%) of the amount recovered, such fee for services so rendered to be fixed and allowed by the trial court in which such matter may be heard and determined.

In fixing and allowing such attorneys' fees the court must take into consideration the benefit accruing to the beneficiary as a result of such services. No attorneys' fees (other than the amount which the Board may have approved) shall be allowed for representing a claimant in the trial court unless the court finds that benefits have accrued to the claimant by virtue of such representation, and then such attorneys' fees may be allowed only on a basis of services performed and benefits accruing to the beneficiary.

Provided, however, that in all cases involving fatal injuries where the Association admits liability on all issues involved and tenders payments of maximum benefits in writing under

this Act while the death benefits claim of such beneficiaries is pending before the Board, then no attorney fee shall be allowed.

#### Artificial Appliances

Sec. 7-e. (a) In all cases where liability for compensation exists for an injury sustained by an employee in the course of his employment where artificial appliances of any kind would materially and beneficially improve the future usefulness and occupational opportunities of such injured employee, the association shall furnish such employee with the artificial appliance or appliances needed by him for such occupational opportunities and shall continue to furnish the needed artificial appliance or appliances until a satisfactory fit is obtained in the judgment of the attending physician or physicians. The association shall not be liable for replacing or repairing any artificial appliances so furnished. The cost of such artificial appliances so furnished to any such employee shall be in keeping with the salary or wages received by such employee.

(b) In the event the association shall fail or refused to furnish or provide such artificial appliances, such employee shall make application to the Board for such artificial appliances. On receipt of such application the Board shall order a medical examination of the employee and obtain such other evidence as in their opinion they may deem necessary, after which the Board shall determine whether or not the artificial appliances would materially and beneficially improve the future usefulness and occupational opportunities of the injured employee and in the event they find that such improvement would exist, then the Board shall order the association to furnish the artificial appliances.

#### Death Benefit

Sec. 8. (a) If death results from the injury, the association shall pay the legal beneficiaries of the deceased employee a weekly payment equal to sixty-six and two-thirds per cent ( $66\frac{2}{3}\%$ ) of the employee's average weekly wage, but not less than the minimum weekly benefit nor more than the maximum weekly benefit set forth in Section 29 of this article.

(b) The weekly benefits payable to the widow or widower of a deceased employee shall be continued until the death or remarriage of the beneficiary. In the event of remarriage a lump sum payment equal in amount to the benefits due for a period of two (2) years shall be paid to the widow or widower. The weekly benefits payable to a child shall be continued until the child reaches eighteen (18) years of age, or beyond such age if actually dependent, or until twenty-five (25) years of age if enrolled as a full-time student in any accredited educational institution. All other legal beneficiaries are entitled to weekly benefits for a period of three hundred and sixty (360) weeks.

(c) Upon the termination of the eligibility of any child to receive benefits, the portion of compensation paid to such child shall thereaf-

ter be paid to any remaining child or children entitled to benefits under the provisions of this Act. If there is no other eligible child then such benefits shall be added to those being paid to the surviving spouse entitled to receive benefits under the provisions of this Act.

(d) The benefits payable to a widow, widower, or children under this section shall not be paid in a lump sum except in events of remarriage or in case of bona fide disputes as to the liability of the association for the death. Any settlement of a disputed case shall be approved by the board or court only upon an express finding that a bona fide dispute exists as to such liability.

Upon settlement of all cases where the carrier admits liability for the death but a dispute exists as to the proper beneficiary or beneficiaries, the settlement shall be paid in periodic payments as provided by the law, with a reasonable attorney's fee not to exceed twenty-five per cent (25%) of the settlement. The attorney's fee shall be paid periodically and not in a lump sum.

**Persons to Whom Death Benefits Payable; Exemptions; Distributions; Payments**

Sec. 8a. The compensation provided for in the foregoing section of this law shall be for the sole and exclusive benefit of the surviving husband who has not, for good cause and for a period of three years prior thereto, abandoned his wife at the time of the injury, and of the wife who has not, at the time of the injury without good cause and for a period of three years prior thereto, abandoned her husband, and of the minor children, parents and stepmother, without regard to the question of dependency, dependent grandparents, dependent children, dependent grandchildren and dependent brothers and sisters of the deceased employee; and the amount recovered thereunder shall not be liable for the debts of the deceased nor the debts of the beneficiary or beneficiaries and shall be distributed among the beneficiaries as may be entitled to the same as hereinbefore provided, according to the laws of descent and distribution of this State; provided, the right in such beneficiary or beneficiaries to recover compensation for death be determined by the facts that exist at the date of the death of the deceased and that said right be a complete, absolute and vested one. Such compensation shall not pass to the estate of the deceased to be administered upon, but shall be paid directly to said beneficiaries when the same are capable of taking, under the laws of this State, or to their guardian in case of lunacy, infancy or other disqualifying cause; except payments may be made directly to the person having custody of the person of such beneficiary, who shall be entitled to receive and receipt for such payments unless or until the association is notified that a guardian has been appointed, in which event payment shall thereafter be made to such guardian. The compensation provided for in this law

shall be paid weekly to the beneficiaries herein specified, subject to the provisions of this law.

**Death After Period of Total or Partial Incapacity**

Sec. 8b. In case death occurs as a result of the injury after a period of total or partial incapacity, for which compensation has been paid, the period of incapacity shall be deducted from the total period of compensation and the benefits paid thereunder from the maximum allowed for the death.

**Funeral Expenses**

Sec. 9. If the deceased employee leaves no legal beneficiaries, the association shall pay all expenses incident to his last sickness as a result of the injury, and in addition a funeral benefit not to exceed Five Hundred Dollars (\$500).

If the deceased employee leaves a legal beneficiary or beneficiaries, and is buried at the expense of the beneficiary or beneficiaries, or is buried at the expense of his employer or any other person, the expense of such burial, not to exceed Five Hundred Dollars (\$500), shall be payable without discount for present payment to the person or persons at whose expense the burial occurred, subject to the approval of the Board; and such burial expense, regardless of to whom it is paid, shall be in addition to the compensation due the beneficiary or beneficiaries of such deceased employee.

**Total Incapacity**

Sec. 10. While the incapacity for work resulting from the injury is total, the association shall pay the injured employee a weekly compensation equal to sixty-six and two-thirds per cent (66- $\frac{2}{3}$ %) of his average weekly wages, but not more than the maximum weekly benefit nor less than the minimum weekly benefit set forth in Section 29 of this article, and in no case shall the period covered by such compensation be greater than four hundred and one (401) weeks from the date of injury.

**Partial Incapacity**

Sec. 11. While the incapacity for work resulting from the injury is partial, the association shall pay the injured employee a weekly compensation equal to sixty-six and two-thirds per cent (66- $\frac{2}{3}$ %) of the difference between his average weekly wages before the injury and his average weekly wage earning capacity during the existence of such partial incapacity, but in no case more than the maximum weekly benefit set forth in Section 29 of this article. The period covered by such compensation shall be in no case greater than three hundred (300) weeks; provided that in no case shall the period of compensation for total and partial incapacity exceed four hundred and one (401) weeks from the date of injury. Compensation for all partial incapacity resulting from a general injury shall be computed in the manner provided in this Section, and shall not be computed on a basis of a percentage of disability.

## Injuries Constituting Total and Permanent Incapacity

Sec. 11a. In cases of the following injuries, the incapacity shall conclusively be held to be total and permanent, to-wit:

- (1) The total and permanent loss of the sight of both eyes.
- (2) The loss of both feet at or above the ankle.
- (3) The loss of both hands at or above the wrist.
- (4) A similar loss of one hand and one foot.
- (5) An injury to the spine resulting in permanent and complete paralysis of both arms or both legs or of one arm and one leg.
- (6) An injury to the skull resulting in incurable insanity or imbecility.

In any of the above enumerated cases it shall be considered that the total loss of the use of a member shall be equivalent to and draw the same compensation during the time of such total loss of the use thereof as for the total and permanent loss of such member.

The above enumeration is not to be taken as exclusive but in all other cases the burden of proof shall be on the claimant to prove that his injuries have resulted in permanent, total incapacity.

## Specific Compensation

Sec. 12. For the injuries enumerated in the following schedule the employee shall receive in lieu of all other compensation except medical aid, hospital services and medicines as elsewhere herein provided, a weekly compensation equal to sixty-six and two-thirds per cent ( $66\frac{2}{3}\%$ ) of the average weekly wages of such employee, but not less than the minimum weekly benefit per week nor exceeding the maximum weekly benefit set forth in Section 29 of this article, for the respective periods stated herein, to wit:

For the loss of a thumb, sixty-six and two-thirds per cent ( $66\frac{2}{3}\%$ ) of the average weekly wages during sixty (60) weeks.

For the loss of a first finger, commonly called the index finger, sixty-six and two-thirds per cent ( $66\frac{2}{3}\%$ ) of the average weekly wages during forty-five (45) weeks.

For the loss of a second finger, sixty-six and two-thirds per cent ( $66\frac{2}{3}\%$ ) of the average weekly wage during thirty (30) weeks.

For the loss of a third finger, sixty-six and two-thirds per cent ( $66\frac{2}{3}\%$ ) of the average weekly wages during twenty-one (21) weeks.

For the loss of a fourth finger, commonly known as the little finger, sixty-six and two-thirds per cent ( $66\frac{2}{3}\%$ ) of the average weekly wages during fifteen (15) weeks.

The loss of the second or distal phalange of the thumb shall be considered to be equal to the loss of one-half ( $\frac{1}{2}$ ) of such thumb; the loss of more than one-half ( $\frac{1}{2}$ ) of such thumb shall be considered to be equal to the loss of the whole thumb.

The loss of the third or distal phalange of any finger shall be considered to be equal to the loss of one-third ( $\frac{1}{3}$ ) of such finger.

The loss of more than the middle and distal phalange of any finger shall be considered to be equal to the loss of the whole finger, provided that in no case shall the amount received for the loss of a thumb and more than one (1) finger on the same hand exceed the amount provided in this schedule for the loss of a hand.

For the loss of the metacarpal bone (bone or palm) for the corresponding thumb, finger or fingers above, add ten (10) weeks to the number of weeks as above subject to the limitation that in no case shall the amount received for the loss or injury to any one (1) hand be more than for the loss of the hand.

For ankylosis (total stiffness of) or contracture (due to scars or injuries) which make the fingers useless, the same number of weeks shall apply to such finger or fingers or parts of fingers (not thumb) as given above.

For the loss of a hand, sixty-six and two-thirds per cent ( $66\frac{2}{3}\%$ ) of the average weekly wage during one hundred and fifty (150) weeks.

For the loss of an arm at or above the elbow, sixty-six and two-thirds per cent ( $66\frac{2}{3}\%$ ) of the average weekly wage during two hundred (200) weeks.

For the loss of one (1) of the toes other than the great toe, sixty-six and two-thirds per cent ( $66\frac{2}{3}\%$ ) of the average weekly wages during ten (10) weeks.

For the loss of the great toe, sixty-six and two-thirds per cent ( $66\frac{2}{3}\%$ ) of the average weekly wages during thirty (30) weeks.

The loss of more than two-thirds of any toe shall be considered to be equal to the loss of the whole toe.

The loss of less than two-thirds of any toe shall be considered to be equal to the loss of one-half ( $\frac{1}{2}$ ) of the toe.

For the loss of a foot, sixty-six and two-thirds per cent ( $66\frac{2}{3}\%$ ) of the average weekly wages during one hundred and twenty-five (125) weeks.

For the loss of a leg, at or above the knee, sixty-six and two-thirds per cent ( $66\frac{2}{3}\%$ ) of the average weekly wages during two hundred (200) weeks.

For the total and permanent loss of the sight of one (1) eye, sixty-six and two-thirds per cent ( $66\frac{2}{3}\%$ ) of the average

weekly wages during one hundred (100) weeks.

In the foregoing enumerated cases of permanent, partial incapacity, it shall be considered that the permanent loss of the use of a member shall be equivalent to and draw the same compensation as the loss of that member.

For the complete and permanent loss of the hearing in both ears, sixty-six and two-thirds per cent ( $66\frac{2}{3}\%$ ) of the average weekly wages during one hundred and fifty (150) weeks.

For the loss of an eye and leg above the knee, sixty-six and two-thirds per cent ( $66\frac{2}{3}\%$ ) of the average weekly wages during a period of three hundred and fifty (350) weeks.

For the loss of an eye and an arm above the elbow, sixty-six and two-thirds per cent ( $66\frac{2}{3}\%$ ) of the average weekly wages during a period of three hundred and fifty (350) weeks.

For the loss of an eye and a hand, sixty-six and two-thirds per cent ( $66\frac{2}{3}\%$ ) of the average weekly wages during a period of three hundred and twenty-five (325) weeks.

For the loss of an eye and a foot, sixty-six and two-thirds per cent ( $66\frac{2}{3}\%$ ) of the average weekly wages during a period of three hundred (300) weeks.

Where the employee sustains concurrent injuries resulting in concurrent incapacities, he shall receive compensation only for the injury which produces the longest period of incapacity; but this Section shall not affect liability for the concurrent loss or the loss of the use thereof of more than one (1) member, for which member compensation is provided in this schedule, compensation for specific injuries under this law shall be cumulative as to time and not concurrent.

In all cases of permanent partial incapacity it shall be considered that the permanent loss of the use of the member is equivalent to, and shall draw the same compensation as the loss of that member; but the compensation in and by said schedule provided shall be in lieu of all other compensation in such cases.

In all other cases of partial incapacity, including any disfigurement which will impair the future usefulness or occupational opportunities of the injured employee, compensation shall be determined according to the percentage of incapacity, taking into account among other things any previous incapacity, the nature of the physical injury or disfigurement, the occupation of the injured employee, and the age at the time of the injury. The compensation paid therefor shall be calculated by first determining a basic figure amounting to sixty-six and two-thirds per cent ( $66\frac{2}{3}\%$ ) of the average weekly wages of the employee, but which basic figure shall not exceed the maximum weekly benefit set forth in Section 29 of

this article; such basic figure shall then be multiplied by the percentage of incapacity caused by the injury, and the result shall be the weekly compensation which shall be paid for such period not exceeding three hundred (300) weeks as the Board may determine. Whenever the weekly payments under this paragraph would be less than Three Dollars (\$3) per week, the period may be shortened, and the payments correspondingly increased by the Board.

#### Injured Employé, Refusal of Employment

Sec. 12a. If the injured employé refuses employment reasonably suited to his incapacity and physical condition, procured for him in the locality where injured or at a place agreeable to him, he shall not be entitled to compensation during the period of such refusal, unless in opinion of the board such refusal is justifiable. This section shall not apply in cases of specific injuries for which a schedule is fixed by this law.

#### Hernia

Sec. 12b. In all claims for hernia resulting from injury sustained in the course of employment, it must be definitely proven to the satisfaction of the board:

1. That there was an injury resulting in hernia.
2. That the hernia appeared suddenly and immediately following the injury.
3. That the hernia did not exist in any degree prior to the injury for which compensation is claimed.
4. That the injury was accompanied by pain.

In all such cases where liability for compensation exists, the association shall provide competent surgical treatment by radical operation. In case the injured employé refuses to submit to the operation, the board shall immediately order a medical examination of such employé by a physician or physicians of its own selection at a time and place to be by them named, at which examination the employé and the association, or either of them, shall have the right to have his or their physician present. The physician or physicians so selected shall make to the board a written report, signed and sworn to, setting forth the facts developed at such examination and giving his or their opinion as to the advisability or non-advisability of an operation. If it be shown to the board by such examination and such report thereof and the expert opinions thereon that the employé has any chronic disease or is otherwise in such physical condition as to render it more than ordinarily unsafe to submit to such operation he shall, if unwilling to submit to the operation, be entitled to compensation for incapacity under the general provisions of this law. If the examination and the written report thereof and the expert opinions thereon then on file before the board do not show to the board the existence of disease or other physical condition

rendering the operation more than ordinarily unsafe and the board shall unanimously so find and so reduce its findings to writing and file the same in the case and furnish the employé and the association with a copy of its findings, then if the employé with the knowledge of the result of such examination, such report, such opinions and such findings, thereafter refuses to submit within a reasonable time, which time shall be fixed in the findings of the board, to such operation, he shall be entitled to compensation for incapacity under the general provisions of this law for a period not exceeding one year.

If the employé submits to the operation and the same is successful, which shall be determined by the board, he shall in addition to the surgical benefits herein provided for be entitled to compensation for twenty-six weeks from the date of the operation. If such operation is not successful and does not result in death, he shall be paid compensation under the general provisions of this law the same as if such operation had not been had; other than in determining the compensation to be paid to the employé, the board may take into consideration any minor benefits that accrued to the employé by reason thereof or any aggravation or increased injury which accrued to him by reason thereof.

If the hernia results in death within one year after it is sustained, or the operation results in death, such death shall be held a result of the injury causing such hernia and compensated accordingly under this law. This paragraph shall not apply where the employé has wilfully refused to submit to an operation which has been found by the examination herein provided for not to be more than ordinarily unsafe.

#### Subsequent Injury; Second Injury Fund

Sec. 12c. If an employee who has suffered a previous injury shall suffer a subsequent injury which results in a condition of incapacity to which both injuries or their effects have contributed, the association shall be liable for all compensation provided by this Act, but said association shall be reimbursed from the "Second Injury Fund" as hereinafter described, to the extent that the previous injury contributes to the combined incapacity.

#### Permanent and Total Incapacity Through Loss of or Loss of Use of, Another Member or Organ

Sec. 12c-1. If an employee who has previously lost, or lost the use of, one hand, one arm, one foot, one leg, or one eye, becomes permanently and totally incapacitated through the loss or loss of use of another member or organ, the association shall be liable for all compensation provided by this Act, not to exceed 401 weeks, but said association shall be reimbursed from the "Second Injury Fund," as hereinafter described, to the extent that its payment exceeds the amount due for the second injury as above set out. In order to qualify for reimbursement from the "Second Injury Fund" under this section, the association must file its

claim with the Industrial Accident Board within 180 days following date of injury, together with evidence of its payment of all compensation provided by this Act and of the preexisting permanent physical impairment qualifying the association for such reimbursement. Good cause for late filing as set forth in Section 4(a), Article 8307, Revised Civil Statutes of Texas, 1925, as amended, shall also apply in such claims for reimbursement. Provided further, if the association makes payment in a lump sum to the injured claimant, the association shall be entitled to reimbursement from the "Second Injury Fund" by lump sum payment.

#### Second Injury Fund; How Created

Sec. 12c-2. The special fund known as the "Second Injury Fund" shall be created in the following manner:

(a) In every case of the death of an employee under this Act where there is no person entitled to compensation surviving said employee, the association shall pay to the Industrial Accident Board the full death benefits, but not to exceed 360 weeks of compensation, as provided in Section 8, of Article 8306, Revised Civil Statutes of Texas, 1925, as amended, to be deposited with the Treasurer of the State for the benefit of said Fund and the Board shall direct the distribution thereof.

(b) When the total amount of all such payments into the Fund, together with the accumulated interest thereon, equals or exceeds Two Hundred Fifty Thousand Dollars (\$250,000) in excess of existing liabilities, no further payments shall be required to be paid to said Fund; but whenever thereafter the amount of such Fund shall be reduced below One Hundred Twenty-Five Thousand Dollars (\$125,000) by reason of payments from such Fund, the payments to such Fund shall be resumed forthwith, and shall continue until such Fund again amounts to Two Hundred Fifty Thousand Dollars (\$250,000) including accumulated interest thereon.

#### Change of Condition, Mistake or Fraud; Review

Sec. 12d. Upon its own motion or upon the application of any person interested showing a change of condition, mistake or fraud, the Board at any time within the compensation period, may review any award or order, ending, diminishing or increasing compensation previously awarded, within the maximum and minimum provided in this Law, or change or revoke its previous order denying compensation, sending immediately to the parties a copy of its subsequent order or award. Provided, when such previous order has denied compensation, application to review same shall be made to the Board within twelve months after its entry, and not afterward. Review under this Section shall be only upon notice to the parties interested.

**Surgical Operation**

Sec. 12e. In all cases where liability for compensation exists for an injury sustained by an employé in the course of his employment and a surgical operation for such injury will effect a cure of the employé or will materially and beneficially improve his condition, the association or the employé may demand that a surgical operation be had upon the employé as herein provided, and the association shall provide and pay for all necessary surgical treatment, medicines and hospital services incident to the performance of said operation, provided the same is had. In case either of said parties demands in writing to the board such operation, the board shall immediately order a medical examination of the employé in the same manner as is provided for in the section of this law relating to hernia. If it be shown by the examination, report of facts and opinions of experts, all reduced to writing and filed with the board, that such operation is advisable and will relieve the condition of the injured employé or will materially benefit him, the board shall so state in writing and upon unanimous order of said board in writing, a copy of which shall be delivered to the employé and the association, shall direct the employé at a time and place therein stated to submit himself to an operation for said injury. If the board should find that said operation is not advisable, then the employé shall continue to be compensated for his incapacity under the general provisions of this law. If the board shall unanimously find and so state in writing that said operation is advisable, it shall make its order to that effect, stating the time and place when and where such operation is to be performed, naming the physicians therein who shall perform said operation, and if the employé refuses to submit to such operation, the board may order or direct the association to suspend the whole or any part of his compensation during the time of said period of refusal. The results of such operation, the question as to whether the injured employé shall be required to submit thereto and the benefits and liabilities arising therefrom shall attach, be treated, handled and determined by the board in the same way as is provided in the case of hernia in this law.

**Physicians or Chiropractors Employed by Subscriber or Association**

Sec. 12f. In all cases where a subscriber or the association has in his or its employ a physician or physicians, a chiropractor or chiropractors, regularly paid in any manner whatsoever by such subscriber or association to administer to or treat injured employees, the name or names of such physicians or chiropractors at the date of employment of the same shall be filed with the Board together with a copy of the contract of such employment. If the contract of such physician or physicians, chiropractor or chiropractors is not in writing, then the same shall be reduced to writing and a copy thereof filed with the Board. Such contract shall state fully the extent and scope of

the employment and the compensation to be paid such physicians or chiropractors. If the association or subscriber willfully fails or refuses to comply with this provision of this law, then an injured employee or any person acting for him shall have the right to provide hospital services, chiropractic services, medical aid and medicine for said injured employee, at the expense of and the same shall be charged to the association, and the subscriber or association shall notify the employee at or before the time of injury what physician or physicians, chiropractor or chiropractors are contracted with to attend and render professional services to his or its employees.

**Insurance Premiums**

Sec. 12g. It shall be unlawful for any subscriber or any employer who seeks to comply with the provisions of this law to either directly or indirectly collect of or from his employés by any means or pretense whatever any premium under this law or part thereof paid or to be paid upon any policy of such insurance under this law which covers such employés, or any intended policy of such insurance designed to cover such employés. If any such subscriber or any employer of labor in this State violates this provision of this law, then any employé or the legal beneficiary of any employé of such employer or subscriber shall be entitled to all the benefits of this law and in addition thereto shall have a separate right of action to recover damages against such employer without regard to the compensation paid or to be paid to such employé or beneficiary under this law. The association shall in no wise be responsible because of such separate action by such employé or beneficiary against such employer on such separate cause of action.

**Indemnity or Insurance Contracts**

Sec. 12h. Every contract or agreement of an employer, the purpose of which is to indemnify him from loss or damage on account of the injury of an employé by accidental means or on account of the negligence of such employer or his officer, agent or servant, shall be absolutely void unless it also covers liability for the payment of the compensation provided for by this law. This section shall not apply to employers of labor who are not eligible under the terms hereof to become subscribers thereto, nor to employers whose employés have elected to reject the provisions of this law, nor to employers eligible to come under the terms of this law who do not elect to do so, but who choose to carry insurance upon their employés independently of this law and without attempting in such insurance to provide compensation under the terms of this law. Any evasion of this section whereby an insurance company shall undertake, under the guise of writing insurance against the risk of the employers who do not see proper to come under this law, to write insurance substantially or in any material respect similar to the insurance provided for by this law shall render such insurance void as provided for in this section.

**Minors**

Sec. 121.<sup>1</sup> If it be established that the injured employee were a minor when injured and that under normal condition his wages would be expected to increase, that fact may be considered in arriving at his average weekly wages, and compensation may be fixed accordingly.

A minor who has been employed in any hazardous or other employment which is prohibited by any Statute of this State, shall nevertheless be entitled to receive compensation under the terms and provisions of this Act. Provided, that this Section shall not be construed to excuse or justify any person, firm or corporation employing or permitting to be employed a minor in any hazardous or other employment prohibited by any Statute of this State.

<sup>1</sup> So in enrolled bill. Probably should be "121."

**Minor or Incompetent Injured Employé**

Sec. 13. If an injured employé is mentally incompetent or is a minor or is under any other disqualifying cause at the time when any right or privileges accrue to him or exist under this law, his guardian or next friend may in his behalf claim and exercise such rights and privileges except as otherwise herein provided. In case of partial incapacity or temporary total incapacity, payment of compensation may be made direct to the minor and his receipt taken therefor, if the authority to so pay and receipt therefor is first obtained from the board.

**Waiver of Right to Compensation**

Sec. 14. No agreement by any employé to waive his rights to compensation under this law shall be valid.

**Lump Sum Settlement**

Sec. 15. In cases where death or incapacity in any degree results from an injury, the liability of the association may be redeemed by the payment of a lump-sum by agreement of the parties thereto subject to the approval of the Industrial Accident Board. Where in the judgment of the Board manifest hardship and injury would otherwise result, the Board may compel the association to redeem the liability by payment of the award of the Board in a lump-sum, and a discount shall be allowed for present payment in accordance with Article 8306a, of the Revised Civil Statutes of 1925, as amended.

**Increase of Weekly Compensation**

Sec. 15a. In any case where compensation is payable weekly at a definite sum and for a definite period, and it appears to the Board that the amount of compensation being paid is inadequate to meet the necessities of the employee or beneficiary, the Board shall have the power to increase the amount of compensation by correspondingly decreasing the number of weeks for which the same is to be paid, allowing discount for present payment at the rate of four (4%) per cent, compounded annually; provided that in no case shall the amount to

which it is increased exceed the amount of the average weekly wages upon which the compensation is based; provided it is not intended hereby to prevent lump sum settlement when approved by the Board.

The provisions of this section shall also apply to compensation which is payable under any law enacted pursuant to Section 59, Section 60, or Section 61 of Article III of the Constitution of Texas.

**Death, Survival of Cause of Action**

Sec. 16. In all cases of injury resulting in death, where such injury was sustained in the course of employment, cause of action shall survive.

**Non-resident and Resident Alien Beneficiaries**

Sec. 17. Non-resident alien beneficiaries and resident alien beneficiaries shall be entitled to compensation under this law. Non-resident alien beneficiaries may be officially represented by the consular officers of the nation of which such alien or aliens may be citizens or subjects, and in such cases the consular officers shall have the right to receive for distribution for such non-resident alien beneficiaries all compensation awarded hereunder, and the receipt of such consular officers shall be a full discharge of all sums paid to and received by them. The association may at any time, subject to the approval of the board, commute all future installments of compensation payable to alien beneficiaries, not residents of the United States, by paying to such alien beneficiaries the sum agreed upon and filing receipts therefor with the board.

**Weekly Compensation; Non-payment; Forfeiture or Revocation of Association's License**

Sec. 18. It is the purpose of this law that the compensation herein provided for shall be paid from week to week and as it accrues and directly to the person entitled thereto, unless the liability is redeemed as in such cases provided elsewhere herein. If the association willfully fails or refuses to pay compensation as and when the same matures and accrues, the board shall notify said association that such is the course it is pursuing. If after such notice the association continues to willfully refuse and fail to meet these payments of compensation as provided for in this law, the board shall have the power to hold that such association is not complying with the provisions of this law, and shall certify such fact to the Commissioner of Insurance, and said certificate shall be sufficient cause to justify said Commissioner to revoke or forfeit the license or permit of such association to do business in Texas; provided, said power of the board shall not be held to deny the association the right to bring suit or suits to set aside any ruling, order or decision of the board.

**Injuries Sustained Outside State; Venue**

Sec. 19. If an employee, who has been hired in this State, sustain injury in the course of his employment he shall be entitled to compen-

sation according to the Law of this State even though such injury was received outside of the State, and that such employee, though injured out of the State of Texas, shall be entitled to the same rights and remedies as if injured within the State of Texas, except that in such cases of injury outside of Texas, the suit of either the injured employee or his beneficiaries, or of the Association, to set aside an award of the Industrial Accident Board of Texas, or to enforce it, as mentioned in Article 8307, Sections 5-5a, shall be brought either

a. In the county of Texas where the contract of hiring was made; or

b. In the county of Texas where such employee or his beneficiaries or any of them reside when the suit is brought, or

c. In the county where the employee or the employer resided when the contract of hiring was made, as the one filing such suit may elect.

Providing that such injury shall have occurred within one year from the date such injured employee leaves this State; and provided, further, that no recovery can be had by the injured employee hereunder in the event he has elected to pursue his remedy and recovers in the state where such injury occurred..

**"Injury" or "Personal Injury", and "Occupational Disease" Defined; Ordinary Diseases**

Sec. 20. Wherever the terms "Injury" or "Personal Injury" are used in the Workmen's Compensation Laws of this State, such terms shall be construed to mean damage or harm to the physical structure of the body and such diseases or infections as naturally result therefrom. The terms "Injury" and "Personal Injury" shall also be construed to mean and include "Occupational Diseases," as hereinafter defined. Whenever the term "Occupational Disease" is used in the Workmen's Compensation Laws of this State, such term shall be construed to mean any disease arising out of and in the course of employment which causes damage or harm to the physical structure of the body and such other diseases or infections as naturally result therefrom. An "Occupational Disease" shall also include damage or harm to the physical structure of the body occurring as the result of repetitious physical traumatic activities extending over a period of time and arising in the course of employment; provided, that the date of the cumulative injury shall be the date disability was caused thereby. Ordinary diseases of life to which the general public is exposed outside of the employment shall not be compensable, except where such diseases follow as an incident to an "Occupational Disease" or "Injury" as defined in this section.

**False Representations as to Previous Disease**

Sec. 21. If the employee, at the time of his employment, wilfully and falsely represents in writing that he has not previously been afflicted with the occupational disease which is the

cause of incapacity or death, no compensation shall be payable.

**Aggravation of Previously Existing Diseases**

Sec. 22. Where an occupational disease is aggravated by any other non-compensable disease or infirmity, or where incapacity or death from any other non-compensable cause, is aggravated, prolonged, accelerated or in anywise contributed to by an occupational disease, the number of weeks of compensation payable by the Association shall be reduced and limited to such proportion only of the total number of weeks of compensation that would be payable if the occupational disease were the sole cause of the incapacity or death, as such occupational disease, as a causative factor, bears to all the causes of such incapacity or death, such reduction in compensation to be effected by reducing the number of weekly payments of compensation for which the Association is liable.

**Retroactive Effect of Statute**

Sec. 23. The provisions of this Act do not apply to cases of incapacity or death resulting from a disease in which the last injurious exposure to the hazards of such disease occurred before the date on which this Act takes effect.

**Employer, Who Deemed**

Sec. 24. Where compensation is payable for an occupational disease, the employer in whose employ the employee was last injuriously exposed to the hazards of such disease shall be deemed the employer within the meaning of the Act.

Secs. 25 to 27. Repealed by Acts 1971, 62nd Leg., p. 2540, ch. 834, § 2, eff. Aug. 30, 1971

**Workmen's Compensation Fund**

Sec. 28. There is hereby established as a special fund, separate and apart from all public monies or funds of this state, a Workmen's Compensation Fund which shall be used by the Board for the purpose of paying costs of the administration of the law, in addition to amounts appropriated by the Legislature of the State of Texas. The State Treasurer shall be the treasurer and custodian of the fund. He shall administer such fund in accordance with the directions of the Board, and the Comptroller shall issue warrants upon it in accordance with the directions of the Board. In addition to all other taxes now being paid, each stock company, mutual company, reciprocal, or inter-insurance exchange or Lloyds Association writing Workmen's Compensation insurance in this state, shall pay annually into the State Treasury, for the use and benefit of the Workmen's Compensation Fund, an amount equal to one-fourth ( $\frac{1}{4}$ ) of one percent (1%) of gross premiums collected by such company or association during the preceding year under workmen's compensation policies written by such companies or associations covering risks in this state according to the reports made to the Board of Insurance Commissioners as required by law. Said amount shall be collected at the

same time and in the same manner as provided by law for the collection of taxes on gross premiums of such workmen's compensation insurance carriers. All self-insurers under any of the Workmen's Compensation Acts of the State of Texas shall report to the State Board of Insurance the total amount of their medical and indemnity costs for the previous year and pay a like amount of tax as provided above on said total amount of medical and indemnity costs. The Industrial Accident Board is hereby authorized and directed to decrease the amount of tax herein provided for any year if the revenue received from House Bill 686, 62nd Legislature, 1971<sup>1</sup>, produces sufficient revenue to pay the appropriations authorized the Industrial Accident Board by the Legislature for that year. Failure to make any report required by this Section shall be punishable by fine not to exceed One Thousand (\$1000) Dollars and the failure to pay any tax within thirty (30) days after same is due under this Section shall be punishable by a penalty of ten percent (10%) of the amount, and shall be recovered by the Attorney General in a suit brought by him in the name of the State of Texas and such penalties when collected shall be deposited in the State Treasury for the use and benefit of the Workmen's Compensation Fund.

(c) If the annual average of the manufacturing production workers average weekly wage in Texas exceeds by Ten Dollars (\$10) the average weekly wage for those workers in 1974 as determined by the Texas Employment Commission and published in its report, "The Average Weekly Wage," the maximum weekly benefit shall be increased by Seven Dollars (\$7) and the minimum weekly benefit shall be increased by One Dollar (\$1) above the amounts specified in Subsection (b) of this section beginning with the commencement of the state fiscal year following the publication of the report. Thereafter, each additional Ten Dollar (\$10) increase in the average weekly wage for manufacturing production workers in Texas as annually determined and reported by the Texas Employment Commission shall increase the maximum weekly benefit by an additional Seven Dollars (\$7) and the minimum weekly benefit by an additional One Dollar (\$1) beginning with the commencement of the state fiscal year following the publication of the report.

In all cases when the payments of weekly compensation due an injured employee or beneficiary coming within the provisions of the Workmen's Compensation Act are accelerated by increasing the amount of compensation by correspondingly decreasing the number of weeks for which the same is to be paid, and when the liability of the insurance company is redeemed by the payment of a lump sum, by agreement of parties interested, or as a result

of an order made by the Industrial Accident Board or a judgment rendered by a court of competent jurisdiction, and when advanced payments of compensation are made, and in all cases when compensation is paid before becoming due, discount shall be allowed for present payment at four (4%) per cent, compounded annually.

Provided, however, where suits are legally brought by any claimant or beneficiary under any of the provisions of this Act and recovery is had for past due weekly installments, such claimant or beneficiary shall be entitled to recover interest on such past due installments at the rate of four (4%) per cent, compounded annually. Any judgment rendered pursuant to any of the provisions of this Act shall bear interest from the date it is rendered until paid at the rate of four (4%) per cent, compounded annually.

## PART 2

### Art. 8307. Industrial Accident Board

#### Members; Powers

Sec. 1. The Industrial Accident Board shall consist of three members, one to be biennially appointed by the Governor for a term of six years. Said board shall have the powers, duties and functions hereinafter conferred.

#### Eligibility of Members

Sec. 2. At the time of each appointment one member of the Industrial Accident Board shall be an employer of labor in some industry or business covered by this law; one shall be employed in some business industry as a wage earner, and the third member shall be a practicing attorney of recognized ability, and shall act in the capacity of legal adviser to the board, in addition to his other duties as a member thereof, and be chairman of said board.

**Secretary; Pre-hearing Officers; Clerical Services; Expenses**

Sec. 3. The Board may appoint a Secretary, pre-hearing officers and other employees as may be necessary to properly administer this Act. It shall also be allowed a reasonable sum, the amount to be determined by the Legislature, for pre-hearing officers, clerical and other services, office equipment, traveling expenses and all other expenses necessary.

**Rules: Physical Examination; Suspension of Compensation; Procedure and Powers**

Sec. 4. The Board may make rules not inconsistent with this law for carrying out and enforcing its provisions, and may require any employee claiming to have sustained injury to submit himself for examination before such Board or someone acting under its authority at some reasonable time and place within the State, and as often as may be reasonably ordered by the Board to a physician or physicians, a chiropractor or chiropractors authorized to practice under the laws of this State. If the employee or the association requests, he or it shall be entitled to have a physician or physicians, chiropractor or chiropractors of his or its own selection present to participate in such examination. Refusal of the employee to submit to such examination shall deprive him of his right to compensation during the continuance of such refusal. When a right to compensation is thus suspended no compensation shall be payable in respect to the period of suspension. If any employee shall persist in insanitary or injurious practices which tend to either imperil or retard his recovery, or shall refuse to submit to such medical or surgical treatment, chiropractic service or other remedial treatment recognized by the State, as is reasonably essential to promote his recovery, the board may in its discretion order or direct the association to reduce or suspend the compensation of any such injured employee. No compensation shall be reduced or suspended under the terms of this Section without reasonable notice to the employee and an opportunity to be heard.

When authorized by the Board, the Association shall have the privilege of having any injured employee examined by a physician or physicians, chiropractor or chiropractors of its own selection, at reasonable times, at a place or places suitable to the condition of the injured employee and convenient and accessible to him. The Association shall pay for such examination and the reasonable expense incident to the injured employee in submitting thereto. The injured employee shall have the privilege to have a physician or chiropractor of his own selection present to participate in such examination. Provided, when such examination is directed by the Board at the request of the Association, the Association shall pay the fee of the physician or chiropractor selected by the employee, such fee to be fixed by the Board.

Process and procedure shall be as summary as may be under this law. The Board or any

member thereof shall have the power to subpoena witnesses, administer oaths, inquire into matters of fact, examine such parts of the books and records of the parties to a proceeding as relate to questions in dispute, punish for contempt in the same manner and to the same extent as a District Court may do, and to bar persons guilty of unethical or fraudulent conduct from practicing before the Board. All rulings and decisions of the board relating to disputed claims shall be upon questions of fact and in accord with the provisions of this law.

**Notice of Injury; Claim for Compensation**

Sec. 4a. Unless the Association or subscriber have notice of the injury, no proceeding for compensation for injury under this law shall be maintained unless a notice of the injury shall have been given to the Association or subscriber within thirty (30) days after the happening of an injury or the first distinct manifestation of an occupational disease, and unless a claim for compensation with respect to such injury shall have been made within six (6) months after the occurrence of the injury or of the first distinct manifestation of an occupational disease; or, in case of death of the employee or in the event of his physical or mental incapacity, within six (6) months after death or the removal of such physical or mental incapacity. For good cause the Board may, in meritorious cases, waive the strict compliance with the foregoing limitations as to notice, and the filing of the claim before the Board.

**Determination of Questions; Suit to Set Aside Final Ruling and Decision; Revocation of Association's License**

Sec. 5. All questions arising under this law, if not settled by agreement of the parties interested therein and within the provisions of this law, shall, except as otherwise provided, be determined by the Board. Any interested party who is not willing and does not consent to abide by the final ruling and decision of said Board shall, within twenty (20) days after the rendition of said final ruling and decision by said Board, file with said Board notice that he will not abide by said final ruling and decision. And he shall within twenty (20) days after giving such notice bring suit in the county where the injury occurred to set aside said final ruling and decision, and said Board shall proceed no further toward the adjustment of such claim, other than hereinafter provided. In all cases of occupational diseases, for the purpose of determining venue when an appeal is effected to set aside the final ruling and decision of the Board, suit shall be brought in a court of competent jurisdiction in the said county in which the employee was last exposed to the disease alleged, prior to the manifestation of the disease, or death therefrom, or in the county in which the adverse party resides, or has a permanent place or business, or by agreement of the parties in a court of competent jurisdiction in any county in this state.

Whenever such suit is brought, the rights and liability of the parties thereto shall be determined by the provisions of this law, and the suit of the injured employee or person suing on account of the death of such employee shall be against the Association, if the employer of such injured or deceased employee at the time of such injury or death was a subscriber as defined in this law. If the final order of the Board is against the Association, then the Association and not the employer shall bring suit to set aside said final ruling and decision of the Board, if it so desires, and the court shall in either event determine the issues in such cause, instead of the Board, upon trial de novo, and the burden or<sup>1</sup> proof shall be upon the party claiming compensation. The Industrial Accident Board shall furnish any interested party in said claim pending in court, upon request, free of charge, with a certified copy of the notice of the employer becoming a subscriber, filed with the Board, and the same when properly certified to shall be admissible in evidence in any court in this state upon trial of such claim therein pending, and shall be prima facie proof of all facts stated in such notice in the trial of said cause unless same is denied under oath by the opposing party therein. In case of recovery, the same shall not exceed the maximum compensation allowed under the provisions of this law. If any party to such final ruling and decision of the Board, after having given notice as above provided, fails within said twenty (20) days to institute and prosecute a suit to set the same aside, then said final ruling and decision shall be binding upon all parties thereto; and, if the same is against the Association, it shall at once comply with such final ruling and decision; and failing to do so, the Board shall certify the fact to the Commissioner of Insurance, and such certificate shall be sufficient cause to justify said Commissioner to revoke or forfeit the license or permit of such Association to do business in Texas.

Notwithstanding any other provision of this law, as amended, no award of the Board, and no judgment of the court, having jurisdiction of a claim against the association for the cost or expense of items of medical aid, hospital services, nursing, chiropractic services, medicines or prosthetic appliances furnished to an employee under circumstances creating a liability therefor on the part of the association under the provisions of this law, shall include in such award or judgment any cost or expense of any such items not actually furnished to and received by the employee prior to the date of said award or judgment. The first such final award or judgment rendered on such claim shall be res judicata of the liability of the association for all such cost or expense which could have been claimed up to the date of said award or judgment and of the issue that the injury of said employee is subject to the provisions of this law with respect to such items, but shall not be res judicata of the obligation

of the association to furnish or pay for any such items after the date of said award or judgment. After the first such final award or judgment, the Board shall have continuing jurisdiction in the same case to render successive awards to determine the liability of the association for the cost or expense of any such items actually furnished to and received by said employee not more than six (6) months prior to the date of each such successive award, until the association shall have fully discharged its obligation under this law to furnish all such medical aid, hospital services, nursing, chiropractic services, medicines or prosthetic appliances to which said employee may be entitled; provided, each such successive award of the Board shall be subject to a suit to set aside said award by a court of competent jurisdiction, in the same manner as provided in the case of other awards under this law.

<sup>1</sup> So in enrolled bill. Probably should be "of".

#### Rights and Remedies of Claimant

Sec. 5a. In all cases where the board shall make a final order, ruling or decision as provided in the preceding section and against the association, and the association shall fail and refuse to obey or comply with the same and shall fail or refuse to bring suit to set the same aside as in said section is provided, then in that event, the claimant in addition to the rights and remedies given him and the board in said section may bring suit where the injury occurred, upon said order, ruling or decision. If he secures a judgment sustaining such order, ruling or decision in whole or in part, he shall also be entitled to recover the further sum of twelve per cent as damages upon the amount of compensation so recovered in said judgment, together with a reasonable attorney's fee for the prosecution and collection of such claim.

Where the board has made an award against an association requiring the payment to an injured employé or his beneficiaries of any weekly or monthly payments, under the terms of this law, and such association should thereafter fail or refuse, without justifiable cause, to continue to make said payments promptly as they mature, then the said injured employé or his beneficiaries, in case of his death, shall have the right to mature the entire claim and to institute suit thereon to collect the full amount thereof, together with twelve per cent penalties and attorney's fees, as herein provided for. Suit may be brought under the provisions of this section, either in the county where the accident occurred, or in any county where the claimants reside, or where one or more of such claimants may have his place of residence at the time of the institution of the suit.

#### Computation of Time for Notice or Suit

Sec. 5b. In computing the twenty (20) days for the filing with the Board notices of unwillingness to abide by the final ruling and deci-

sion of the Board, and likewise in computing the twenty (20) days to institute a suit to set aside the final ruling of said Board, if the last day is a legal holiday or is Sunday, then, and in such case, such last day shall not be counted, and the time shall be and the same is hereby extended so as to include the next succeeding business day; but this provision shall not extend to or include any cases now filed or now pending in the trial court or on appeal from the trial court; the rights of the parties in such suits now pending or on appeal from the trial courts shall be determined by the law existing prior to the passage of this Act.

**Multiple Subscribers; Payment of Claims; Deposit of Proportionate Share Prior to Liability Determination**

Sec. 5c. In any proceeding in which it is determined that compensation, including costs for medical services incurred, is allowable in a sum certain for injuries sustained by an employee, but there is a dispute with respect to which of two or more subscribers said employee was serving at the time of injury, the Association and other workmen's compensation insurer, or insurers, of each such subscriber shall be required to deposit with the Board or court a proportionate share of the compensation awarded, including costs for medical services incurred, for the injuries received. Such proportionate share due from the Association and other workmen's compensation insurer, or insurers, shall be determined by dividing the compensation awarded, including costs for medical services incurred, by the number of subscribers who are alleged to have been the employer of the injured employee at the time of injury, and the Association and workmen's compensation insurer of each such subscriber shall pay such proportionate share, or shares, depending on whether they insure one or more of such subscribers. The Board or court shall deliver the full amount of the workmen's compensation award, including costs for medical services incurred, in the same manner as if the sum had been paid only by the responsible insurer. Thereafter, upon final determination of liability for compensation, whether by agreement, award of the Board or order of the court, the insurer, or insurers found not to be liable shall be entitled to reimbursement for its, or their, proportionate share deposited with the Board or court from the insurer who is determined to be liable for compensation and medical costs incurred.

**Employé of Sub-contractor**

Sec. 6. If any subscriber to this law with the purpose and intention of avoiding any liability imposed by its terms sublets the whole or any part of the work to be performed or done by said subscriber to any sub-contractor, then in the event of any employé of such sub-contractor sustains an injury in the course of his employment he shall be deemed to be and taken for all purposes of this law to be the employé of the subscriber, and in addition thereto such

employé shall have an independent right of action against such sub-contractor, which shall in no way be affected by any compensation to be received by him under the provisions of this law.

**Recovery From Third Person; Subrogation; Attorney's Fees**

Sec. 6a. Where the injury for which compensation is payable under this law was caused under circumstances creating a legal liability in some person other than the subscriber to pay damages in respect thereof, the employee may proceed either at law against that person to recover damages or against the association for compensation under this law, and if he proceeds at law against the person other than the subscriber, then he shall not be held to have waived his rights to compensation under this law. If the claimant is a beneficiary under the death benefits provisions of Section 8a, Article 8306, Revised Civil Statutes of Texas, 1925, as amended, a judgment shall not constitute an election but the amount of such recovery shall first pay costs and attorney's fees and then reimburse the association, and if there be any excess it shall be paid to the beneficiaries in the same ratio as they received death benefits and the association shall suspend further payments of benefits until the suspended benefits shall equal the amount of such excess at which time benefits shall be resumed. If compensation be claimed under this law by the injured employee or his legal beneficiaries, then the association shall be subrogated to the rights of the injured employee, and may enforce in the name of the injured employee or of his legal beneficiaries the liability of said other person, and in case the recovery is for a sum greater than that paid or assumed by the association to the employee or his legal beneficiaries, then out of the sum so recovered the association shall reimburse itself and pay said costs and the excess so recovered shall be paid to the injured employee or his beneficiaries. However, when the claimant is represented by an attorney, and the association's interest is not actively represented by an attorney, the association shall pay such fee to the claimant's attorney not to exceed one-third ( $\frac{1}{3}$ ) of said subrogation recovery or as may have been agreed upon between the claimant's attorney and the association or in the absence of such agreement the court shall allow a reasonable attorney's fee to the claimant's attorney for recovery of the association's interest which in no case shall exceed thirty-three and one-third per cent ( $33\frac{1}{3}\%$ ) payable out of the association's part of the recovery. In any case where the claimant's attorney is also representing the subrogated association, a full written disclosure must be made to the claimant, prior to actual employment by the association as an attorney, and acknowledged by the claimant, and a signed copy of the same furnished to all concerned parties and made a part of the file in the Industrial Accident Board. A copy of the disclosure with authorization and consent, shall also be filed

with the claimant's pleadings prior to any judgment entered and approved by the court. Unless the claimant's attorney complies with all of the requirements as prescribed in this section, the attorney shall not be entitled to receive any of the fees prescribed in this section to which he would be entitled pursuant to an agreement with the association.

If the association obtains an attorney to actively represent its interest and if the attorney actively participates in obtaining a recovery, the court shall award and apportion an attorney's fee allowable out of the association's subrogation recovery between such attorneys taking into account the benefit accruing to the association as a result of each attorney's service, the aggregate of such fees not to exceed thirty-three and one-third per cent (33-1/3%) of the subrogated interest.

If at the conclusion of a third party action a workmen's compensation beneficiary is entitled to compensation, the net amount recovered by such beneficiary from the third party action shall be applied to reimburse the association for past benefits and medical expenses paid and any amount in excess of past benefits and medical expenses shall be treated as an advance against future benefit payments of compensation to which the beneficiary is entitled to receive under the Act. When the advance is adequate to cover all future compensation and medical benefit payments as provided by this law, no further payments shall be made by the association but if insufficient, the association shall resume such payments when the advance is exhausted. The reasonable and necessary medical expenses incurred by the claimant on account of the injury shall be deducted from the advance in the same manner as benefit payments.

#### Record of Injuries; Reports

Sec. 7. Every subscriber shall hereafter keep a record of all injuries, fatal or otherwise, sustained by his employees in the course of their employment. Within eight (8) days after the occurrence of an accident resulting in an injury to an employee, causing his absence from work for more than one (1) day, or within eight (8) days after the employee notifies the employer of a definite manifestation of an occupational disease, a written report thereof shall be made to the Board on blanks to be procured from the Board for that purpose. Upon the termination of the incapacity of the injured employee, or if such incapacity extends beyond a period of sixty (60) days, the subscriber shall make a supplemental report upon blanks to be procured for that purpose. The said report shall contain the name and nature of the business of the employer, the location of the establishment, the name, age, sex and occupation of the injured employee, and the character of work in which he was engaged at the time of the injury, and shall state the date and hour of receiving such injury or of the definite manifestation of the occupational disease, and

the nature and cause of the injury, and such other information as the Board may require. Any employer wilfully failing or refusing to make any such report within the time herein provided, or wilfully failing or refusing to give said Board any information demanded by said Board relating to any injury to any employee, which information is in the possession of or can be ascertained by the employer by the use of reasonable diligence, shall be liable for and shall pay to the State of Texas a penalty of not more than One Thousand (\$1,000.00) Dollars for each and every offense, the same to be recovered in a suit to be instituted and prosecuted in Travis County by the Attorney General or by the district or county attorney, under his direction, in a District Court thereof.

#### Failure to File Report; Limitation on Filing of Claim

Sec. 7a. Where the association or subscriber has been given notice or the association or subscriber has knowledge of an injury or death of an employee and fails, neglects, or refuses to file a report thereof as required by the provisions of Section 7 of this Article, the limitation in Section 4a of this Article in respect to the filing of a claim for compensation shall not begin to run against the claim of the injured employee or his dependents entitled to compensation, or in favor of either the association or subscriber until such report shall have been furnished as required by Section 7 of this Article.

#### Claim Forms to Employee; Filing Requirements

Sec. 7b. Upon receipt of the written report required under Section 7 of this Article the Industrial Accident Board shall immediately furnish the injured employee claim forms which shall clearly inform the employee of the filing requirements of Section 4a of this Article, and if applicable, Section 7a of this Article.

#### Quorum of Board; Seal; Proceedings as Evidence

Sec. 8. A majority of the Board shall constitute a quorum to transact business, and the Act or decision of any two members thereof shall be held the act or decision of the Board, except as otherwise herein specifically provided. No vacancy shall impair the right of the remaining member or members of the Board to exercise all the powers of the Board. The Board shall provide itself with a seal on which shall be inscribed the words "Industrial Accident Board, State of Texas." Any Order, award or proceeding of said Board when duly attested by any member of the Board or its secretary, shall be admissible as evidence of the act of said Board in any Court of this State.

#### Certified Copy of Records; Fees

Sec. 9. Upon the written request and payment of the fees therefor, which fees shall be the same as those charged for similar services in the Secretary of State's office, the board shall furnish to any person entitled thereto a certified copy of any order, award, decision or paper on file in the office of said board, and

the fees so received for such copies shall be paid into the State Treasury and credited to the general revenue fund. No fee or salary shall be paid to any person in said department for making such copies in excess of the fees charged for such copies.

Hearings; Investigations; Appearance of Claimants;  
Pre-hearing Conferences and Officers; Rules  
and Regulations

Sec. 10. (a) Said Board or any member thereof may hold hearings or take testimony or make investigations at any point within this state, reporting the result thereof, if the same is made by one member, to the Board. The Board shall also employ and use the assistance of a sufficient number of pre-hearing officers for the purpose of adjusting and settling claims for compensation; provided, however, that pre-hearing officers shall not be empowered to take testimony.

Notwithstanding any provision of this Act, no claimant shall be required to appear before the Board or Board Member within a distance greater than one hundred (100) miles from the courthouse of the county of the claimant's residence or within a greater distance than one hundred (100) miles of the courthouse of the county where the injury occurred.

(b) The Board shall examine and review all controverted claims and shall schedule and hold pre-hearing conferences on such claims as the Board may designate. It shall have the power to direct the parties, their attorneys or the duly authorized agents of the parties to appear before the Board, any member thereof or a pre-hearing officer for pre-hearing conferences to attempt to adjust and settle the claim amicably and to take such other action other than taking of testimony that may aid in the disposition of the claim. Provided, however, that no matter occurring during, or fact developed in, a pre-hearing conference shall be deemed as admissions or evidence or impeachment against the association, employee or the subscriber in any proceedings before the Board, or elsewhere in a contested case where the facts involved therein or in any one of them is sought to be contradicted by the association, employee or the subscriber. The Board shall promulgate procedural rules and regulations not inconsistent with this law to govern such pre-hearing conferences and provided further, such rules and regulations shall not affect nor change any substantive portion of this law.

Association Suspending Payments

Sec. 11. When the association suspends or stops payment of compensation, it shall immediately notify the board of that fact, giving the board the name, number and style of the claim, the amount paid thereon, the date of the suspension or stopping of payment thereon, and the reason for such suspension or stopping.

Compensation Payments; Compromise; Commutation

Sec. 12. The board upon application of either party may, in its discretion, having regard

to the welfare of the employé and the convenience of the association, authorize compensation to be paid monthly or quarterly.

Where the liability of the association or the extent of the injury of the employé is uncertain, indefinite or incapable of being satisfactorily established, the board may approve any compromise, adjustment, settlement or commutation thereof made between the parties.

Medical Committee; Examination of Employee; Report

Sec. 13. (a) If, on the hearing of a claim for compensation for occupational disease, any controverted medical question or questions shall arise, upon the request of either party, or its own motion, the Board shall appoint a Medical Committee consisting of three (3) doctors, duly qualified in the diagnosis and treatment of occupational diseases, and licensed to practice in the state, and the Board shall reserve its decision and award until it shall have received a report from such Medical Committee. The date of incapacity, if in dispute, shall be deemed to be a medical question.

(b) The Medical Committee, upon reference to it of a case of occupational disease, shall notify the employee, or, in case he be dead, his beneficiary or beneficiaries, and the Association to appear before the Medical Committee at a time and place stated in the notice. If the employee be living he shall appear before the Medical Committee at the time and place specified, and he shall submit to such examinations including clinical and x-ray examinations as the Medical Committee may require. The employee, or, if he be dead, his beneficiary or beneficiaries, and the Association shall be entitled to have present at all such examinations a physician of his or its own selection, who shall be given an opportunity to witness the same, and whose services shall be paid for by the person who engaged his services. The claimant and the Association shall produce to the Medical Committee all reports, medical and x-ray examinations which may be in their respective possession or control showing the past or present condition of the employee, to assist the Medical Committee in reaching its conclusion.

(c) The Medical Committee shall, if it deems advisable, inspect or cause to be inspected, the plant or industrial operation or process, where the exposure to the occupational disease is alleged to have occurred, to determine whether such conditions exist in such plant, industrial operation or process as to produce the occupational disease complained of.

(d) The Medical Committee shall, as soon as practicable after it has completed its consideration of a case, report to the Board its opinion regarding all medical questions involved in the case. The Medical Committee shall include in its report a statement of what, if any, physician or physicians were present at the examination on behalf of the claimant or Association and what, if any, medical reports and x-rays were produced by or on behalf of the claimant or Association.

(e) The Medical Committee shall file its report in triplicate with the Board, which shall send one copy thereof to the claimant and one copy to the Association. All fees, costs, and expenses incident to the functioning of said Medical Committee shall be paid by the party requesting same; the Board shall determine the reasonableness of said fees, costs and expenditures.

(f) If the employee refuses to submit to such examination, all action on his claim for compensation shall be suspended during such period as he persists in such refusal.

(g) Where a case of occupational disease is pending in any court of this state, upon the motion of either party, or upon its own motion, the court shall appoint a Medical Committee consisting of three (3) doctors duly qualified in the diagnosis and treatment of occupational diseases and licensed to practice in the state, and shall direct the employee to submit to examination, including clinical and x-ray examination, as the Medical Committee may require or deem advisable. The Medical Committee shall report its findings and conclusions in open court, and such may be rebuttable. The court shall pass on the reasonableness of the fees, costs and other expenditures of the Medical Committee, which fees shall be taxed as costs.

#### Autopsy

Sec. 14. Upon the filing of a claim for compensation for death by reason of an occupational disease where an autopsy is necessary to accurately and scientifically determine the cause of death, upon the request of either party, or on its own motion, such autopsy shall be ordered by the Board. The Board shall designate a duly licensed physician, who is a specialist in such examinations, to perform or attend such autopsy, and to certify his findings thereon. Such findings are to be filed with the Board and shall be a public record. All proceedings for compensation shall be suspended upon refusal of the beneficiaries of the deceased employee to permit such autopsy when ordered, and no compensation shall be payable for any period during which such autopsy is refused. No autopsy shall be held in any case, by any person, without notice first being given to the parties in interest, (if they reside in this state or their whereabouts can be reasonably ascertained,) of the time and place thereof, and reasonable time and opportunity given such parties in interest to have a representative or representatives present to witness the same. If such notice is not given, all evidence obtained by such autopsy shall be suppressed on motion duly made to the Board.

#### Art. 8307a. Suit to Set Aside Decision of Industrial Accident Board; Transfer to County Where Injury Occurred

Any interested party who is not willing and does not consent to abide by the final ruling and decision of the Industrial Accident Board shall, in the manner and within the time provided by Section 5 of Article 8307, Revised Civil Statutes of 1925, file notice with said Board, and bring suit in the county where the injury occurred to set aside said final ruling and decision; however, in the event such suit is brought in any county other than the county where the injury occurred, the Court in which same is filed shall, upon ascertaining that it does not have jurisdiction to render judgment upon the merits, transfer the case to the proper Court in the county where the injury occurred. Provided, however, that notice of said transfer shall be given to the parties and said suit when filed in the court to which the transfer is made, shall be considered for all purposes, the same as if originally filed in said court.

[Acts 1931, 42nd Leg., p. 351, ch. 208, § 1.]

#### Art. 8307b. Presumptions on Appeal From Board; Denial by Verified Pleadings

In the trial of any case appealed to the court from the board the following, if plead, shall be presumed to be true as plead and have been done and filed in legal time and manner, unless denied by verified pleadings:

- (1) Notice of injury;
- (2) Claim for compensation;
- (3) Award of the board;
- (4) Notice of intention not to abide by the award of the board;
- (5) Filing of suit to set aside the award.

Such denial may be made in original or amended pleadings; but if in amended pleadings such must be filed not less than seven days before the case proceeds to trial. In case of such denial the things so denied shall not be presumed to be true, and if essential to the case of the party alleging them must be proved.

[Acts 1937, 45th Leg., p. 535, ch. 261.]

#### Art. 8307c. Protection of Claimants From Discrimination by Employers; Remedies; Jurisdiction

Sec. 1. No person may discharge or in any other manner discriminate against any employee because the employee has in good faith filed a claim, hired a lawyer to represent him in a claim, instituted, or caused to be instituted, in good faith, any proceeding under the Texas Workmen's Compensation Act, or has testified or is about to testify in any such proceeding.

Sec. 2. A person who violates any provision of Section 1 of this Act shall be liable for rea-

sonable damages suffered by an employee as a result of the violation, and an employee discharged in violation of the Act shall be entitled to be reinstated to his former position. The burden of proof shall be upon the employee.

Sec. 3. The district courts of the State of Texas shall have jurisdiction, for cause shown, to restrain violations of this Act.

<sup>1</sup> 33 U.S.C.A. §§ 901 to 950.

Votes

Sec. 8. In any meeting of the subscribers each subscriber shall have one vote, and if a subscriber has 500 employés to whom the association is bound to pay compensation he shall be entitled to two votes and he shall be entitled to one additional vote for each additional 500 employés to whom the association is bound to pay compensation, but no subscriber shall cast, by his own right or by right of proxy, more than 20 votes.

Minimum Number of Subscribers

Sec. 9. No policies shall be issued by the association until not less than 50 members have subscribed, who have not less than 2,000 employés to whom the association may be bound to pay compensation.

List of Subscribers to be Filed

Sec. 10. No policies shall be issued by the association until a list of the subscribers with the number of employés of each, together with such information as the Commissioner of Insurance may require, shall have been filed with the Commissioner, nor until the president and secretary of the association shall have certified under oath that every subscription on the list so filed is genuine and made with an agreement with each subscriber that he will take the policy so subscribed for by him within thirty days of the granting of a license to the association by the Commissioner to issue policies.

Subscribers Falling Below Minimum

Sec. 11. If the number of subscribers falls below fifty, or the number of employés to whom the association may be bound to pay compensation falls below 2,000, no further policies shall be issued until other employers have subscribed who, together with existing subscribers, amount to not less than fifty, who have not less than 2,000 employés to whom the association may be bound to pay compensation, said subscriptions to be subject to the provisions of the preceding section.

Investigation; License to Issue Policies

Sec. 12. Upon the filing of the certificates provided for in the two preceding sections, the Commissioner of Insurance shall make such investigations as he may deem proper and, if his findings warrant it, grant a license to the association to issue policies.

of segregating the experience of each such group as to premiums and losses, and for the purpose of determining dividends payable to and assessments payable by the subscribers within each group, but for the purpose of determining the solvency of the association, the funds of the association shall be deemed one and indivisible. The board of directors shall have power to re-arrange any of the groups by withdrawing any subscriber and transferring him wholly or in part to any group and to set up new groups at its discretion.

#### Limit of Liability of Subscribers, Fixing

Sec. 14. The association may, in its by-laws and policies, fix the limit of liability of the subscribers for the payment of assessments hereinafter provided for, but such limit of liability of the subscribers shall not, except by special agreement in writing between the association and subscriber, be fixed at an amount greater than an amount equal to and in addition to an annual premium.

#### Assessments

Sec. 15. If the association, at the end of any calendar year, is not possessed of admitted assets in excess of unearned premiums sufficient for the payment of its incurred losses and expenses, it shall make an assessment for the amount needed to pay such losses and expenses, first upon the subscribers within each group whose earned premiums compared with its incurred losses and expenses show a deficiency for the group, and second only upon the subscribers within each group whose earned premiums compared with its incurred losses and expenses show a surplus, and in no event shall it make an assessment for any aggregate amount more than is needed to pay losses and expenses. Every subscriber shall, in accordance with the law and his contract, pay his proportionate part of any assessment which may be levied by the association on account of losses and expenses incurred during any calendar year while he is a subscriber.

#### Dividends

Sec. 16. The board of directors may, from time to time, by vote fix the amount to be paid as dividends to its subscribers, in such manner and under such plan as shall be determined by said directors in the exercise of their powers and discretion. No such dividend shall take effect until the same has been approved by the Board of Insurance Commissioners, and no such dividend shall be approved until adequate reserves have been provided by the Association, said reserves to be computed on the same basis as required for other classes of stock or mutual companies, reciprocals, inter-insurance exchanges, or Lloyds' associations under the laws of this State and applicable rules of the Board of Insurance Commissioners. Dividends and assessments may be fixed by and for groups, but the entire assets of the Association, including the liability of the subscriber to assessment within the limits fixed by the by-laws or by special agreement in writing as au-

thorized, shall be subject to the payment of any approved claim for compensation against the Association.

#### Surplus; Liability of Members Suspended

Sec. 16a. Whenever the Association shall have accumulated, at the end of any calendar year, an admitted surplus in excess of incurred losses, expenses and unearned premiums or other liabilities amounting to the sum of Two Hundred Thousand Dollars (\$200,000.00) or more, the liability of its members to assessment under Article 8308, Section 15, shall be suspended, and it shall be authorized to issue policies not subject to assessment. It shall be the duty of the Board of Insurance Commissioners to determine promptly after the filing of the annual Statement of the Association, whether or not such an amount of surplus exists and if it finds that it does, it shall so state in a certificate. Such certificate shall remain in full force and effect for one (1) year or until such time as a later report to or<sup>1</sup> examination by the Department of Insurance shall show the surplus to be less than Two Hundred Thousand (\$200,000.00) Dollars, whereupon the Board of Insurance Commissioners shall cancel and revoke such certificate and require the Association to issue policies subject to assessment under Article 8308, Section 15, as they were prior to the time when such surplus of Two Hundred Thousand (\$200,000.00) Dollars or more was first accumulated.

Sec. 17. Repealed by Acts 1939, 46th Leg., p. 713.

#### Furnishing Workmen's Compensation Benefits to Additional Employees or Classifications of Employees by Purchasing Appropriate Insurance

Sec. 18. Any employer may assume with respect to any employee or classification of employees not within the coverage of this law, other than any such employee or classification of employees for whom a rule of liability or a method of compensation has been or may be established by the Congress of the United States, the liability for compensation imposed upon employers by this law with respect to employees within the coverage of this law, and the purchase and acceptance by such employer of valid workmen's compensation insurance applicable to such employee or classification of employees shall constitute as to such employer subscription to this law without any further act on the part of such employer, but only with respect to such employee or such classification of employees as is within the coverage of said workmen's compensation insurance, and such subscription shall take effect from the effective date of such workmen's compensation insurance and shall continue as long only as such employer remains a subscriber, and each such employee shall be held to have waived his right of action at common law or under any statute of this State to recover damages for injuries sustained in the course of his employ-

ment if he shall not have given his employer notice that he claimed such right, in accordance with the provisions of Article 8306, Section 3a. It is specifically provided, however, that under no circumstances shall the failure of any employer to assume with respect to any employee or classification of employees the liability for compensation and to purchase workmen's compensation insurance applicable to such employee or classification of employees, as made optional with the employer by this law, be construed as depriving such employer of the common law defenses listed in Section 1 of Article 8306, Revised Civil Statutes of the State of Texas.

Information to be Furnished When Employer Becomes Subscriber; Filing Fee; Failure to Comply; Notice; Penalty

Sec. 18a. Whenever any employer of labor in this State becomes a subscriber to this law, he or the insurance company shall immediately notify the Board of such fact, stating in such notice his name, place of business, character of the business, approximate number of employees, estimated amount of his payroll and the name of the insurance company carrying his insurance, the date of issuing the policy and the date when the same will expire, and whenever any policy is renewed that fact shall be immediately made known to the Board and the notice thereof shall contain the above facts. Such subscriber's notice shall be acknowledged by the insurance company. #### Effect of Amendments on Existing Right, Remedies, Etc.

Sec. 3b. No inchoate, vested, matured, existing or other rights, remedies, powers, duties or authority, either of any employee or legal beneficiary, or of the board, or of the association, or of any other person shall be in any way affected by any of the amendments herein made to the original law hereby amended, but all such rights, remedies, powers, duties, and authority shall remain and be in force as under the original law just as if the amendments hereby adopted had never been made, and to that end it is hereby declared that said original law is not repealed, but the same is, and shall remain in full force and effect as to all such rights, remedies, powers, duties and authority; and further this law in so far as it adopts the law of which it is an amendment is a continuation thereof, and only in other respects a new enactment. The maximum weekly benefit and the total amount payable in effect upon the date of injury shall remain the applicable maximum weekly benefit and total amount payable for the injury or death regardless of the increase of any benefits that shall take effect at any later date.

#### Advance Payments of Compensation

Sec. 4. (a) In cases of emergency or impending necessity the association may make advanced payments of compensation to any employee during the period of his incapacity or to his beneficiaries within the terms of this law, and when the same is either directed or approved by the Board it shall be credited as against any unaccrued compensation due said employee or beneficiaries.

Such employer payments of employer compensation shall not be construed as an admission of liability. The payments of employer compensation provided for herein shall in no way affect the payment of benefits from any other source.

#### Reports of Accidents as Admissions and Evidence

Sec. 5. The reports of accidents required by this law to be made by subscribers shall not be deemed as admissions and evidence against the association or the subscriber in any proceedings before the board or elsewhere in a contested case where the facts set out therein or in any one of them is sought to be contradicted by the association or subscriber.

#### Payment of Compensation; Exhaustion of Earned Annual and Sick Leave

Sec. 9. It is the purpose of this Act that the compensation herein provided for shall be paid from week to week and as it accrues and directly to the person entitled thereto, unless the liability is redeemed as in such cases provided elsewhere herein; except that the institution may provide that an injured workman may remain on the payroll until his earned annual and sick leave is exhausted, during which time the services provided in Section 7, Article 8306, as amended, will remain available to the workman but no workmen's compensation payment will accrue or become due and payable to the injured workman.

#### Examination by Physicians or Chiropractors; Process and Procedure

Sec. 10. The Board may require any workman claiming to have sustained injury to submit himself for examination before such Board or some one acting under its authority at some reasonable time and place within the State, and as often as may be reasonably ordered by the Board to a physician or physicians, chiropractor or chiropractors, authorized to practice under the Laws of this State. If the workman or the institution requests, he or it shall be entitled to have a physician or physicians, a chi-

ropractor or chiropractors of his or its own selection present to participate in such examination. Refusal of the workman to submit to such examination shall deprive him of his right to compensation during the continuance of such refusal. When a right to compensation is thus suspended no compensation shall be payable in respect to the period of suspension. If any workman shall persist in insanitary or injurious practices which tend to either imperil or retard his recovery, or shall refuse to submit to such medical or surgical treatment, chiropractic, or other remedial treatment recognized by the State, as is reasonably essential to promote his recovery, the Board may in its discretion order or direct the institution to reduce or suspend the compensation of any such injured workman. No compensation shall be reduced or suspended under the terms of this Section without reasonable notice to the workman and an opportunity to be heard.

The institution shall have the privilege of having any injured workman examined by a physician or physicians, a chiropractor or chiropractors of its own selection, at reasonable times, at a place or places suitable to the condition of the injured workman and convenient and accessible to him. The institution shall pay for such examination and the reasonable expense incident to the injured workman in submitting thereto. The injured workman shall have the privilege to have a physician or chiropractor of his own selection present to participate in such examination. Provided, when such examination is directed by the Board or the institution, the institution shall pay the fee of the physician or chiropractor selected by the workman, such fee to be fixed by the Board.

Process and procedure shall be as summary as may be under this Act. The Board or any member thereof shall have power to subpoena witnesses, administer oaths, inquire into matters of fact, examine such parts of the books and records of the parties to a proceeding as relate to questions in dispute. All rulings and decisions of the Board relating to disputed claims shall be upon questions of fact and in accord with the provisions of this Act.

#### Decisions of Board; Suits; Enforcement of Award

Sec. 11. All questions arising under this Act, if not settled by agreement of the parties interested therein and within the provisions of this Act, shall, except as otherwise provided, be determined by the Board. Any interested party who is not willing and does not consent to abide by the final ruling and decision of said Board shall within twenty (20) days after the rendition of said final ruling and decision by said Board, file with said Board notice that he will not abide by said final ruling and decision. And he shall within twenty (20) days after giving such notice bring suit in the county where the injury occurred to set aside said final ruling and decision and said Board shall proceed no further toward the adjustment of

such claim, other than hereinafter provided. Whenever such suit is brought, the rights and liability of the parties thereto shall be determined by the provisions of this Act and the suit of the injured workman or person suing on account of the death of such workman shall be against the institution. If the final order of the Board is against the institution, then the institution shall bring suit to set aside said final ruling and decision of the Board, if it so desires, and the court shall in either event determine the issues in such cause instead of the Board upon trial de novo and the burden of proof shall be upon the party claiming compensation. The Board shall furnish any interested party in said claim pending in court upon request free of charge, with a certified copy of the notice of the institution becoming an insurer filed with the Board and the same when properly certified to shall be admissible in evidence in any court in this State upon trial of such claim therein pending and shall be prima-facie proof of all facts stated in such notice in the trial of said cause unless same is denied under oath by the opposing party therein. In case of recovery the same shall not exceed the maximum compensation allowed under the provisions of this Act. If any party to any such final ruling and decision of the Board, after having given notice as above provided, fails within said twenty (20) days to institute and prosecute a suit to set the same aside, then said final ruling and decision shall be binding upon all parties thereto, and, if the same is against the institution, it shall at once comply with such final ruling and decision.

In all cases where the Board shall make a final order, ruling, or decision, as provided in the preceding Section and against the institution, and the institution shall willfully fail and refuse to obey or comply with the same and shall fail or refuse to bring suit to set the same aside as in said Section is provided, then in that event the claimant in addition to the rights and remedies given him and the Board in said Section may, after demanding compliance, bring suit in a Court of competent jurisdiction, upon said order, ruling, or decision. If he secures a judgment sustaining such order, ruling, or decision in whole or in part, he shall also be entitled to recover the further sum of twelve per cent (12%) as damages upon the amount of compensation so recovered in said judgment, together with a reasonable attorney's fee for the prosecution and collection of such claim.

Where the Board has made an award against the institution requiring the payment to an injured workman or his beneficiaries of any weekly or monthly payments, under the terms of this Act, and the institution should thereafter fail or refuse, without justifiable cause, to continue to make said payments promptly as they mature, then the said injured workman or his beneficiaries, in case of his death, shall have the right to mature the entire claim and to institute suit thereon to collect the full

amount thereof, together with twelve per cent (12%) penalties and attorney's fees as herein provided for. Suit may be brought under provisions of this Section, either in the county where the accident occurred, or in any county where the claimants reside, or where one or more of such claimants may have his place of residence at the time of the institution of the suit.

#### Record of Injuries; Reports

Sec. 12. The institution shall hereafter keep a record of all injuries fatal or otherwise, sustained by its workmen in the course of their employment. Within eight (8) days after the occurrence of an accident resulting in an injury to a workman, causing his absence from work for more than one day, a written report thereof shall be made to the Board on blanks to be procured from the Board for that purpose. Upon the termination of the incapacity of the injured workman, or if such incapacity extends beyond a period of sixty (60) days, the institution shall make a supplemental report upon blanks to be procured for that purpose. The said report shall contain the name, age, sex and occupation of the injured workman and the character of work in which he was engaged at the time of the injury, and shall state the place, date and hour of receiving such injury and the nature and cause of the injury, and such other information as the Board may require. The institution shall be responsible for the submission of the reports in the time specified in this Section.

#### Rules and Regulations; Physicians or Chiropractors for Examinations; Reports of Examinations

Sec. 13. The institution is authorized to promulgate and publish such rules and regulations and to prescribe and furnish such forms as may be necessary to the effective administration of this Act, and the institution shall have authority to make and enforce such rules for the prevention of accidents and injuries as may be deemed necessary. It shall be the duty of the institution to designate a convenient number of regularly licensed practicing physicians, surgeons and chiropractors for the purpose of making physical examinations of all persons employed or to be employed in the service of the institution to determine who may be physically fit to be classified as "workman" as that term is defined in subsection 2 of Section 2 of this Act, and said physicians, surgeons and chiropractors so designated and so conducting such examinations shall make and file with the institution a complete transcript of said examination in writing and sworn to upon a form to be furnished by the institution. It shall be the duty of the institution to preserve as a part of the permanent records of the institution all reports of such examinations so filed with it.

#### Physical Examination Necessary to be Certified as Workman; Exception

Sec. 14. Except as provided in Section 15, no person shall be certified as a workman in

the institution under the terms and provisions of this Act until he has submitted himself for a physical examination as provided in Section 13 herein and has been certified by the examining physician, surgeon, or chiropractor, to be physically fit to perform the duties and services to which he is to be assigned.

**Certification as Workman of Person Failing to Pass  
Physical Examination; Waiver of Insur-  
ance Coverage**

Sec. 15. In the discretion of the institution, any person failing to pass a physical examination as provided in Section 14 may be certified as a workman on the condition that such person shall execute in writing, prior to his employment, or continued employment if such person is already employed by the institution upon the effective date hereof, a waiver of coverage under the provisions of this Act. Such waiver shall be valid and binding on the workman so executing it and in the event of injury or death of the workman suffered in the course of his employment no compensation or death benefits shall be paid to him or his beneficiaries.

**Certified Copies of Orders, Awards and Decisions**

Sec. 16. Any order, award, or proceeding of said Board when duly attested by any member of the Board or its secretary shall be admissible as evidence of the act of said Board in any court of this State.

Upon the written request and payment of the fees therefor, which fees shall be the same as those charged for similar services in the Secretary of State's office, the Board shall furnish to any person entitled thereto a certified copy of any order, award, decision, or paper on file in the office of said Board and the fees so received for such copies shall be paid into the State Treasury and credited to the General Revenue Fund; provided that the institution shall be furnished such certified copies without charge. No fee or salary shall be paid to any person in said Board for making such copies in excess of the fees charged for such copies.

**Suit to Set Aside Final Decision**

Sec. 17. Any interested party who is not willing and does not consent to abide by the final ruling and decision of the Board shall, in the manner and within the time provided by Section 11 of this Act, file notice with said Board, and bring suit in the county where the injury occurred to set aside said final ruling and decision; however, in the event such suit is brought in any county other than the county where the injury occurred, the court in which same is filed shall, upon ascertaining that it does not have jurisdiction to render judgment upon the merit, transfer the case to the proper court in the county where the injury occurred. Provided, however, that notice of said transfer shall be given to the parties and said suit when filed in the court to which the transfer is made, shall be considered for all purposes, the same as if originally filed in said court.

**Hearing of Claim**

Sec. 18. When an injured workman has sustained an injury in the course of his employment, and filed claim for compensation and given notice as required by law, the Board shall hear his claim for compensation within a reasonable time; provided, however, when such injured workman is being paid compensation as provided in this Act, and the institution is furnishing either hospitalization, medical treatment, or chiropractic care to such workman, the Board may, within its discretion, delay or postpone the hearing of his claim, and no appeal shall be taken from any such order made by the Board.

**Amounts to be Set Aside for Awards and Expenses**

Sec. 19. The institutions covered by this Act are hereby authorized to set aside from available appropriations other than itemized salary appropriations an amount not to exceed two per cent (2%) of the annual workman pay roll of the institution for the payment of all costs, administrative expense, charges, benefits, and awards authorized by this Act.

The amounts so set aside shall be set up in a separate account in the records of the institution, which account shall show the disbursements authorized by this Act; provided the amounts so set aside in this account shall not exceed two per cent (2%) of the annual workman pay roll at any one time. A statement of the amounts set aside for and disbursements from said account shall be included in reports made to the Governor and the Legislature as required by the Statutes.

**Attorney General as Legal Representative**

Sec. 20. The Attorney General of the State of Texas shall be the legal representative of the institution and is hereby given power and authority to bring and defend all suits and hearings necessary to carry out the purposes of this Act.

**Notice by Clerk on Appeal**

Sec. 21. In every case appealed from the Board to any District or County Court, the Clerk of such Court shall, within twenty (20) days after the filing thereof, mail to the Board a notice giving the style, number, and date of filing such suit, and shall, within twenty (20) days after judgment is rendered in such suit, mail to the Board a certified copy of such judgment. The duties devolving upon District and County Clerks under this Act shall constitute a part of their ex officio duties and for such services they shall not be entitled to any fee.

In every such case the attorney preparing the judgment shall file the original and a copy of same with the Clerk of the Court. However, the failure of such attorney to comply with this provision shall not excuse the failure of the Clerk of a District or County Court to mail a certified copy of such judgment to the Board as above provided.

Any Clerk of a District or County Court who fails to comply with the provisions of this Act shall be guilty of a misdemeanor and upon conviction shall be punished by a fine of not more than Two Hundred and Fifty Dollars (\$250).

Partial Invalidity

Sec. 22. If any section, paragraph, or provision of this Act be declared unconstitutional or invalid for any reason, such holding shall not in any manner affect the remaining sections, paragraphs, or provisions of this Act, but the same shall remain in full force and effect.

Group Insurance of Employees Other Than Workmen;  
Compensation for Workmen; Acceptance  
of Provisions

Sec. 3. After the effective date of this Act the Board of Regents of The University of Texas is hereby authorized to require, as a condition of employment, all employees except workmen as defined above, to acquire protection under a group life and accident insurance plan approved by it.

After the effective date, any workman, as defined in this Act, who sustains an injury in the course of his employment shall be paid compensation as hereinafter provided.

The institution is hereby authorized to be self-insuring and is charged with the administration of this Act. The institution shall notify the Board of the effective date of such insurance, stating in such notice the nature of the work performed by the workmen of the institution, the approximate number of workmen, and the estimated amount of payroll.

The institution shall give notice to all workmen that, effective at the time stated in such notice, the institution has provided for payment of insurance.

Workmen of the institution shall be conclusively deemed to have accepted the provisions hereof in lieu of common law or statutory causes of action, if any, for injuries resulting in the course of their employment.

**Compensation for Injury in Course of Employment**

Sec. 4. If a workman of the institution sustains an injury in the course of his employment, he shall be paid compensation by the institution as herein provided except that compensation for any person employed on less than a full work-day basis shall not exceed sixty per cent (60%) of his average weekly earning.

**Defenses**

Sec. 5. In an action to recover damages for personal injuries sustained by a workman in the course of his employment, or for death resulting from personal injuries so sustained, the institution may defend in such action on the ground that the injury was caused by the willful intention of the workman to bring about the injury, or was so caused while the workman was in a state of intoxication.

**Exclusiveness of Remedy; Exemptions and Non-Assignability**

Sec. 6. Workmen of the institution and parents of minor workmen shall have no right of action against the agents, servants, or employees of the institution for damages for personal injuries, nor shall representatives and beneficiaries of deceased workmen have a right of action against the agents, servants or employees of the institution for injuries resulting in death, but such workmen and their representatives and beneficiaries shall look for compensation solely to the institution as is provided in this Act. All compensation allowed herein shall be exempt from garnishment, attachment, judgment, and all other suits or claims, and no such right of action and no such compensation and no part thereof nor of either shall be assignable, except as otherwise herein provided, and any attempt to assign the same shall be void.

**Applicability of Existing Laws**

Sec. 7. The following sections are adopted and shall govern as applicable under the provisions of this Act: Sections 1, 6, 7, 7b, 7c, 7d, 7e, 8, 8a, 8b, 9, 10, 11, 11a, 12, 12a, 12b, 12c, 12d, 12e, 12f, 12i, 13, 15, 15a, 16, 17, 19, 20, 21, 22, 23, 24, 25, 26, and 27 of Article 8306, Revised Civil Statutes of Texas, 1925; as amended, and as may be hereafter amended; Section 1, Chapter 248, Acts of the 42nd Legislature, Regular Session, 1931 (Article 8306a, Vernon's Texas Civil Statutes), as last amended by Section 2, Chapter 26, Acts of the 54th Legislature, Regular Session, 1955, and as may be hereafter amended; Sections 4a, 6a, 10, 11, 12, 13, and 14 of Article 8307, Revised Civil Statutes of Texas, 1925, as amended, and as may be hereafter amended; Sections 4 and 5, Article 8309, Revised Civil Statutes of Texas, 1925, as amended, and as may be hereafter amended; Section 1, Chapter 179, Acts of the 42nd Legislature, Regular Session, 1931 (Article 8309a, Vernon's Texas Civil Statutes), as amended by Section 7, Chapter 178, Acts of the 53rd Legislature, Regular Session, 1953, and as may be hereafter amended.

Wherever the words "association," "subscriber," or "employer," or the equivalent of any of these words, are used in Article 8306, 8307, or 8309, Revised Civil Statutes of Texas, as amended, or as may be hereafter amended, and in Section 1, Chapter 179, Acts of the 42nd Legislature, Regular Session, 1931 (Article 8309a, Vernon's Texas Civil Statutes), as amended by Section 7, Chapter 178, Acts of the 53rd Legislature, Regular Session, 1953, and as may be hereafter amended, for the purpose of this Act they mean "the institution."

**Attorney's Fees**

Sec. 8. Repealed by Acts 1969, 61st Leg., p. 2311, ch. 781, § 3, eff. June 14, 1969.

**Weekly Payments; Annual and Sick Leave**

Sec. 9. It is the purpose of this Act that compensation herein provided for shall be paid from week to week and as it accrues and directly to the person entitled thereto, unless the liability is redeemed as in such cases provided elsewhere herein; except that the institution may provide that an injured workman may remain on the payroll until his earned annual and sick leave is exhausted, during which time the services in Section 7, Article 8306, Revised Civil Statutes of Texas, 1925, as amended, and as may be hereafter amended, will remain available to the workman, but no workmen's compensation payment will accrue or become due and payable to the injured employee.

**Medical Examinations; Insanitary or Injurious Practices; Process and Procedure**

Sec. 10. The Board may require any workman claiming to have sustained injury to submit himself for examination before such Board or someone acting under its authority at some reasonable time and place within the State, and as often as may be reasonably ordered by the Board to a physician or physicians authorized to practice under the Laws of this State. If the workman or the institution requests, he or it shall be entitled to have a physician or physicians of his or its own selection present to participate in such examination. Refusal of the workman to submit to such examination shall deprive him of his right to compensation during the continuance of such refusal. When a right to compensation is thus suspended no compensation shall be payable in respect to the period of suspension. If any workman shall persist in insanitary or injurious practices which tend to either imperil or retard his recovery, or shall refuse to submit to such medical or surgical treatment or other remedial treatment recognized by the State, as is reasonably essential to promote his recovery, the Board may in its discretion order or direct the institution to reduce or suspend the compensation of any such injured workman. No compensation shall be reduced or suspended under the terms of this Section without reasonable notice to the workman and an opportunity to be heard.

The institution shall have the privilege of having any injured workman examined by a physician or physicians of its own selection, at reasonable times, at a place or places suitable to the condition of the injured workman and convenient and accessible to him. The institution shall pay for such examination and the reasonable expense incident to the injured workman in submitting thereto. The injured workman shall have the privilege to have a physician of his own selection present to participate in such examination. Provided, when such examination is directed by the Board or the institution, the institution shall pay the fee of the physician selected by the workman, such fee to be fixed by the Board.

Process and procedure shall be as summary as may be under this Act. The Board or any member thereof shall have power to subpoena witnesses, administer oaths, inquire into matters of fact, examine such parts of the books and records of the parties to a proceeding as relate to questions in dispute. All rulings and decisions of the Board relating to disputed claims shall be upon questions of fact and in accord with the provisions of this Act.

**Board to Determine Questions; Suits to Set Aside or Enforce Rulings; Failure to Make Payments**

Sec. 11. All questions arising under this Act, if not settled by agreement of the parties interested therein and within the provisions of this Act, shall, except as otherwise provided, be determined by the Board. Any interested party who is not willing and does not consent to abide by the final ruling and decision of said Board shall within twenty (20) days after the rendition of said final ruling and decision by the said Board, file with said Board notice that he will not abide by said final ruling and decision. And he shall within twenty (20) days after giving such notice bring suit in the county where the injury occurred to set aside said final ruling and decision and said Board shall proceed no further toward the adjustment of such claim, other than hereinafter provided. Whenever such suit is brought, the rights and liability of the parties thereto shall be determined by the provisions of this Act and the suit of the injured workman or person suing on account of the death of such workman shall be against the institution. If the final order of the Board is against the institution, then the institution shall bring suit to set aside said final ruling and decision of the Board, if it so desires, and the court shall in either event determine the issues in such cause instead of the Board upon trial de novo and the burden of proof shall be upon the party claiming compensation. The Board shall furnish any interested party in said claim pending in court upon request free of charge, with a certified copy of the notice of the institution becoming an insurer filed with the Board and the same when properly certified to shall be admissible in evidence in any court in this State upon trial of such claim therein pending and shall be prima-facie proof of all facts stated in such no-

tice in the trial of said cause unless same is denied under oath by the opposing party therein. In case of recovery the same shall not exceed the maximum compensation allowed under the provisions of this Act. If any party to any such final ruling and decision of the Board, after having given notice as above provided, fails within said twenty (20) days to institute and prosecute a suit to set the same aside, then said final ruling and decision shall be binding upon all parties thereto, and, if the same is against the institution, it shall at once comply with such final ruling and decision.

In all cases where the Board shall make a final order, ruling, or decision, as provided in the preceding section and against the institution, and the institution shall willfully fail and refuse to obey or comply with the same and shall fail or refuse to bring suit to set the same aside as in said Section is provided, then in that event the claimant in addition to the rights and remedies given him and the Board in said Section may, after demanding compliance, bring suit in a Court of competent jurisdiction, upon said order, ruling, or decision. If he secures a judgment sustaining such order, ruling, or decision in whole or in part, he shall also be entitled to recover the further sum of twelve per cent (12%) as damages upon the amount of compensation so recovered in said judgment, together with a reasonable attorney's fee for the prosecution and collection of such claim.

Where the Board has made an award against the institution requiring the payment to an injured workman or his beneficiaries of any weekly or monthly payments, under the terms of this Act, and the institution should thereafter fail or refuse, without justifiable cause, to continue to make said payments promptly as they mature, then the said injured workman or his beneficiaries, in case of his death, shall have the right to mature the entire claim and to institute suit thereon to collect the full amount thereof, together with twelve per cent (12%) penalties and attorney's fees as herein provided for. Suit may be brought under provisions of this Section, either in the county where the accident occurred, or in any county where the claimants reside, or where one or more of such claimants may have his place of residence at the time of the institution of the suit.

**Records and Reports**

Sec. 12. The institution shall hereafter keep a record of all injuries fatal or otherwise, sustained by its workmen in the course of their employment. Within eight (8) days after the occurrence of an accident resulting in an injury to a workman, causing his absence from work for more than one day, a written report thereof shall be made to the Board on blanks to be procured from the Board for that purpose. Upon the termination of the incapacity of the injured workman, or if such incapacity extends beyond a period of sixty (60) days, the institu-

tion shall make a supplemental report upon blanks to be procured for that purpose. The said report shall contain the name, age, sex and occupation of the injured workman and the character of work in which he was engaged at the time of the injury, and shall state the place, date and hour of receiving such injury and the nature and cause of the injury, and such other information as the Board may require. The institution shall be responsible for the submission of the reports in the time specified in this Section.

**Rules and Regulations; Designation of Physicians and Surgeons; Reports of Examinations**

Sec. 13. The institution is authorized to promulgate and publish such rules and regulations and to prescribe and furnish such forms as may be necessary to the effective administration of this Act, and the institution shall have authority to make and enforce such rules for the prevention of accidents and injuries as may be deemed necessary. It shall be the duty of the institution to designate a convenient number of regularly licensed practicing physicians and surgeons for the purpose of making physical examinations of all persons employed or to be employed in the service of the institution to determine who may be physically fit to be classified as "workman" as that term is defined in subsection 2 of Section 2 of this Act, and said physicians and surgeons so designated and so conducting such examinations shall make and file with the institution a complete transcript of said examination in writing and sworn to upon a form to be furnished by the institution. It shall be the duty of the institution to preserve as a part of the permanent records of the institution all reports of such examinations so filed with it.

**Physical Examination Before Certification**

Sec. 14. Repealed by Acts 1973, 63rd Leg., p. 200, ch. 88, § 18, eff. July 1, 1974.

**Waiver of Rights**

Sec. 15. An agreement to waive his rights under this Act made in writing by any workman prior to his employment shall be valid.

**Evidence; Certified Copies**

Sec. 16. Any order, award, or proceeding of said Board when duly attested by any member of the Board or its secretary shall be admissible as evidence of the Act of said Board in any Court of this State.

Upon the written request and payment of the fees therefor, which fees shall be the same as those charged for similar services in the Secretary of State's office, the Board shall furnish to any person entitled thereto a certified copy of any order, award, decision, or paper on file in the office of said Board and the fees so received for such copies shall be paid into the State Treasury and credited to the General Revenue Fund; provided that the institution shall be furnished such certified copies without charge. No fee or salary shall be paid to

any person in said Board for making such copies in excess of the fees charged for such copies.

**Venue of Suits; Transfer to Proper County**

Sec. 17. Any interested party who is not willing and does not consent to abide by the final ruling and decision of the Board shall, in the manner and within the time provided by Section 11 of this Act, file notice with said Board, and bring suit in the county where the injury occurred to set aside said final ruling and decision; however, in the event such suit is brought in any county other than the county where the injury occurred, the court in which same is filed shall, upon ascertaining that it does not have jurisdiction to render judgment upon the merit, transfer the case to the proper court in the county where the injury occurred. Provided, however, that notice of said transfer shall be given to the parties and said suit when filed in the court to which the transfer is made, shall be considered for all purposes, the same as if originally filed in said court.

**Time for Hearing**

Sec. 18. When an injured workman has sustained an injury in the course of employment and filed claim for compensation and given notice as required by law, the Board shall hear his claim for compensation within a reasonable time. Provided, however, when such injured workman is being paid compensation as provided in this Act, and the institution is furnishing either hospitalization or medical treatment to such workman, the Board may, within its discretion, delay or postpone the hearing of his claim, and no appeal shall be taken from any such order made by the Board.

**Setting Aside Funds; Account; Reports**

Sec. 19. The institutions covered by this Act are hereby authorized to set aside from available appropriations other than itemized salary appropriations an amount not to exceed two per cent (2%) of the annual workman payroll of the institution for the payment of all costs, administrative expense, charges, benefits, and awards authorized by this Act.

The amounts so set aside shall be set up in a separate account in the records of the institution, which account shall show the disbursements authorized by this act; provided the amounts so set aside in this account shall not exceed two per cent (2%) of the annual workman payroll at any one time. A statement of the amounts set aside for and disbursements from said account shall be included in reports made to the Governor and the Legislature as required by the Statutes.

**Legal Representative**

Sec. 20. The Attorney General of the State of Texas shall be the legal representative of the institution and is hereby given power and authority to bring and defend all suits and hearings necessary to carry out the purposes of this Act.

Duties of Clerk of Court and Attorneys

Sec. 21. That in every case appealed from the Board to any District or County Court, the Clerk of such Court shall, within twenty (20) days after the filing thereof, mail to the Board a notice giving the style, number, and date of filing such suit, and shall, within twenty (20) days after judgment is rendered in such suit, mail to the Board a certified copy of such judgment. The duties devolving upon District and County Clerks under this Act shall constitute a part of their ex officio duties and for such services they shall not be entitled to any fee.

In every such case the attorney preparing the judgment shall file the original and a copy of same with the Clerk of the Court. However, the failure of such attorney to comply with this provision shall not excuse the failure of the Clerk of a District or County Court to mail a certified copy of such judgment to the Board as above provided.

Any Clerk of a District or County Court who fails to comply with the provisions of this Act shall be guilty of a misdemeanor and upon conviction shall be punished by a fine of not more than Two Hundred and Fifty Dollars (\$250).

Partial Unconstitutionality

Sec. 22. If any section, sentence, clause or part of this Act is for any reason held to be unconstitutional, such decision shall not affect the remaining portions of this Act. The Legislature hereby declares that it would have passed this Act and each sentence, clause and part thereof despite the fact that one or more sections, sentences, clauses or parts thereof be declared unconstitutional.

Art. 8309f. Texas Tech University Employees  
Constitutional Authority

Sec. 1. By virtue of the provisions of Section 59 of Article III of the Constitution of the State of Texas granting the Legislature power to pass such laws as may be necessary to provide for workmen's compensation insurance for state employees, as in its judgment is necessary or required, and to provide for the payment of all costs, charges, and premiums on such insurance, provision is made as hereinafter set forth.

Definitions

Sec. 2. The following words and phrases as used in this Act shall, unless a different meaning is plainly required by the context, have the following meanings, respectively:

1. "Institution" whenever used in this Act shall be held to mean the institution and agency under the direction or government of the Board of Regents of Texas Tech University including the following:

Texas Tech University, Lubbock;

Pan Tech Farm, Carson County, Texas;

Texas Tech University School of Medicine at Lubbock;

Any other agencies now or hereafter under the direction and control of said Board of Regents.

2. "Workman" shall mean every person in the service of Texas Tech University under any appointment or expressed contract of hire, oral or written, whose name appears upon the payroll of the university.

Authority of Institution; Notice

Sec. 3. The institution is hereby authorized to either be self-insuring or to purchase Workmen's Compensation Insurance for their employees from a company authorized to do business in the State of Texas, and who shall be charged with the administration of this Act. The institution shall notify the Board of the effective date of such insurance, stating in such notice the nature of the work performed by the workmen of the institution, the approximate number of workmen, and the estimated amount of payroll.

Compensation for Injury in Course of Employment

Sec. 4. If a workman of the institution sustains an injury in the course of his employ-

ment, he shall be paid compensation by the institution as herein provided except that compensation for any person employed on less than a full work-day basis shall not exceed sixty per cent (60%) of his average weekly earning.

#### Actions; Defenses

Sec. 5. In an action to recover damages for personal injuries sustained by a workman in the course of his employment, or for death resulting from personal injuries so sustained, the institution may defend in such action on the ground that the injury was caused by the willful intention of the workman to bring about the injury, or was so caused while the workman was in a state of intoxication.

#### Exclusiveness of Remedy; Exemption of Compensation From Legal Process; Assignability

Sec. 6. Workmen of the institution and parents of minor workmen shall have no right of action against the agents, servants, or employees of the institution for damages for personal injuries, nor shall representatives and beneficiaries of deceased workmen have a right of action against the agents, servants or employees of the institution for injuries resulting in death, but such workmen and their representatives and beneficiaries shall look for compensation solely to the institution as is provided in this Act. All compensation allowed herein shall be exempt from garnishment, attachment, judgment, and all other suits or claims, and no such right of action and no such compensation and no part thereof nor of either shall be assignable, except as otherwise herein provided, and any attempt to assign the same shall be void.

#### Laws Governing

Sec. 7. Unless otherwise provided herein, Sections 1, 6, 7, 7b, 7c, 7e, 8, 8a, 8b, 9, 10, 11, 11a, 12, 12a, 12b, 12c, 12d, 12e, 12f, 12i, 13, 15, 15a, 16, 17, 19, 20, 21, 22, 23, 24, 25, 26 and 27 of Article 8306, Revised Civil Statutes of Texas, 1925, as amended or as they may hereafter be amended; Chapter 248, Acts of the 42nd Legislature, Regular Session, 1931 (compiled as Article 8306a of Vernon's Texas Civil Statutes), as amended or as it may hereafter be amended; Sections 4a, 6a, 11, 12, 13 and 14 of Article 8307, Revised Civil Statutes of Texas, 1925, as amended or as they may hereafter be amended; and Sections 4 and 5 of Article 8309, Revised Civil Statutes of Texas, 1925, as amended or as they may hereafter be amended, are adopted and shall govern where applicable. However, when in the above adopted Sections of Articles 8306, 8307 and 8309 of the Revised Civil Statutes of Texas, 1925, the words "association," "subscriber," "employer" or their equivalent appear, they shall mean "the institution."

#### Attorney's Fees

Sec. 8. For representing the interest of any claimant in any matter carried from the Board into the courts, it shall be lawful for the attorney representing such interest to contract with

any beneficiary under this Act for an attorney's fee for such representation, such fee to be determined as herein provided and, when the amount recovered exceeds the amount of the award appealed from, to include not more than one-third ( $\frac{1}{3}$ ) of the amount by which the judgment exceeds the award, such fee for services so rendered to be determined and allowed by the trial court in which such causes may be heard and determined.

#### Payment of Compensation

Sec. 9. It is the purpose of this Act that the compensation herein provided for shall be paid from week to week and as it accrues and directly to the person entitled thereto, unless the liability is redeemed as in such cases provided elsewhere herein.

#### Examination by Physician; Process and Procedure

Sec. 10. The Board may require any workman claiming to have sustained injury to submit himself for examination before such Board or some one acting under its authority at some reasonable time and place within the state, and as often as may be reasonably ordered by the Board to a physician or physicians authorized to practice under the laws of this state. If the workman or the institution requests, he or it shall be entitled to have a physician or physicians of his or its own selection present to participate in such examination. Refusal of the workman to submit to such examination shall deprive him of his right to compensation during the continuance of such refusal. When a right to compensation is thus suspended no compensation shall be payable in respect to the period of suspension. If any workman shall persist in insanitary or injurious practices which tend to either imperil or retard his recovery, or shall refuse to submit to such medical or surgical treatment or other remedial treatment recognized by the state, as is reasonably essential to promote his recovery, the Board may in its discretion order or direct the institution to reduce or suspend the compensation of any such injured workman. No compensation shall be reduced or suspended under the terms of this section without reasonable notice to the workman and an opportunity to be heard.

The institution shall have the privilege of having any injured workman examined by a physician or physicians of its own selection, at reasonable times, at a place or places suitable to the condition of the injured workman and convenient and accessible to him. The institution shall pay for such examination and the reasonable expense incident to the injured workman in submitting thereto. The injured workman shall have the privilege of having a physician of his own selection present to participate in such examination. Provided, when such examination is directed by the Board or the institution, the institution shall pay the fee of the physician selected by the workman, such fee to be fixed by the Board.

Process and procedure shall be as summary as may be under this Act. The Board or any member thereof shall have the power to subpoena witnesses, administer oaths, inquire into matters of fact, and examine such parts of the books and records of the parties to a proceeding as relate to questions in dispute. All rulings and decisions of the Board relating to disputed claims shall be upon questions of fact and in accordance with the provisions of this Act.

Decisions of Board; Suits to Set Aside Decisions; Suit on Order, Ruling or Decision; Suit to Collect Award

Sec. 11. All questions arising under this Act, if not settled by agreement of the parties interested therein and within the provisions of this Act, shall, except as otherwise provided, be determined by the Board. Any interested party who is not willing and does not consent to abide by the final ruling and decision of said Board shall within twenty (20) days after rendition of said final ruling and decision by the said Board, file with said Board notice that he will not abide by said final ruling and decision. And he shall within twenty (20) days after giving such notice bring suit in the county where the injury occurred to set aside said final ruling and decision and said Board shall proceed no further toward the adjustment of such claim, other than hereinafter provided. Whenever such suit is brought, the rights and liability of the parties thereto shall be determined by the provisions of this Act and the suit of the injured workman or person suing on account of the death of such workman shall be against the institution. If the final order of the Board is against the institution, then the institution shall bring suit to set aside said final ruling and decision of the Board, if it so desires, and the court shall in either event determine the issues in such cause, instead of the Board, upon trial de novo, and the burden of proof shall be upon the party claiming compensation. The Board shall furnish any interested party in said claim pending in court, upon request, free of charge, with a certified copy of the notice of the institution becoming an insurer filed with the Board, and the same when properly certified to shall be admissible in evidence in any court in this state upon trial of such claim therein pending and shall be prima facie proof of all facts stated in such notice in the trial of said cause unless same is denied under oath by the opposing party therein. In case of recovery the same shall not exceed the maximum compensation allowed under the provisions of this Act. If any party to any such final ruling and decision of the Board, after having given notice as above provided, fails within said twenty (20) days to institute and prosecute a suit to set the same aside, then said final ruling and decision shall be binding upon all parties thereto, and, if the same is against the institution, it shall at once comply with such final ruling and decision.

In all cases where the Board shall make a final order, ruling, or decision, as provided in the preceding section and against the institution, and the institution shall willfully fail and refuse to obey or comply with the same and shall fail or refuse to bring suit to set the same aside as in said section is provided, then in that event the claimant in addition to the rights and remedies given him and the Board in said section may, after demanding compliance, bring suit in a court of competent jurisdiction, upon said order, ruling, or decision. If he secures a judgment sustaining such order, ruling, or decision in whole or in part, he shall also be entitled to recover the further sum of twelve per cent (12%) as damages upon the amount of compensation so recovered in said judgment, together with a reasonable attorney's fee for the prosecution and collection of such claim.

Where the Board has made an award against the institution requiring the payment to an injured workman or his beneficiaries of any weekly or monthly payments, under the terms of this Act, and the institution should thereafter fail or refuse, without justifiable cause, to continue to make said payments promptly as they mature, then the said injured workman or his beneficiaries, in case of his death, shall have the right to mature the entire claim and to institute suit thereon to collect the full amount thereof, together with twelve per cent (12%) penalties and attorney's fees as herein provided for. Suit may be brought under provisions of this section, either in the county where the accident occurred, or in any county where the claimants reside, or where one or more of such claimants may have his place of residence at the time of the institution of the suit.

Record of Injuries; Reports

Sec. 12. The institution shall hereafter keep a record of all injuries, fatal or otherwise, sustained by its workmen in the course of their employment. Within eight (8) days after the occurrence of an accident resulting in an injury to a workman, causing his absence from work for more than one day, a written report thereof shall be made to the Board on blanks to be procured from the Board for that purpose. Upon the termination of the incapacity of the injured workman, or if such incapacity extends beyond a period of sixty (60) days, the institution shall make a supplemental report upon blanks to be procured for that purpose. The said report shall contain the name, age, sex and occupation of the injured workman and the character of work in which he was engaged at the time of the injury, and shall state the place, date and hour of receiving such injury and the nature and cause of the injury, and such other information as the Board may require. The institution shall be responsible for the submission of the reports in the time specified in this section.

Rules and Regulations; Designation of Physicians and Surgeons; Reports of Examinations

Sec. 13. The institution is authorized to promulgate and publish such rules and regulations and to prescribe and furnish such forms as may be necessary to the effective administration of this Act, and the institution shall have authority to make and enforce such rules for the prevention of accidents and injuries as may be deemed necessary. It shall be the duty of the institution to designate a convenient number of regularly licensed practicing physicians and surgeons for the purpose of making physical examinations of all persons employed or to be employed in the service of the institution to determine who may be physically fit to be classified as "workman" as that term is defined in subsection 2 of Section 2 of this Act, and said physicians and surgeons so designated and so conducting such examinations shall make and file with the institution a complete transcript of said examination in writing and sworn to upon a form to be furnished by the institution. It shall be the duty of the institution to preserve as a part of the permanent records of the institution all reports of such examinations so filed with it.

Physical Examination Before Certification

Sec. 14. No person shall be certified as a workman of the institution under the terms and provisions of this Act until he has submitted himself for a physical examination as provided in Section 13 herein and has been certified by the examining physician or surgeon to be physically fit to perform the duties and services to which he is to be assigned; provided that absence of a physical examination shall not be a bar to recovery.

Waiver of Rights

Sec. 15. An agreement to waive his rights under this Act made in writing by any workman prior to his employment shall be valid.

Orders, Awards or Proceeding as Evidence; Certified Copies; Fees

Sec. 16. Any order, award, or proceeding of said Board when duly attested by any member of the Board or its secretary shall be admissible as evidence of the act of said Board in any court of this state.

Upon the written request and payment of the fees therefor, which fees shall be the same as those charged for similar services in the Secretary of State's office, the Board shall furnish to any person entitled thereto a certified copy of any order, award, decision, or paper on file in the office of said Board and the fees so received for such copies shall be paid into the State Treasury and credited to the General

Revenue Fund; provided that the institution shall be furnished such certified copies without charge. No fee or salary shall be paid to any person in said Board for making such copies in excess of the fees charged for such copies.

Venue of Suits; Transfer to Proper County

Sec. 17. Any interested party who is not willing and does not consent to abide by the final ruling and decision of the Board shall, in the manner and within the time provided by Section 11 of this Act, file notice with said Board, and bring suit in the county where the injury occurred to set aside said final ruling and decision; however, in the event such suit is brought in any county other than the county where the injury occurred, the court in which same is filed shall, upon ascertaining that it does not have jurisdiction to render judgment upon the merit, transfer the case to the proper court in the county where the injury occurred. Provided, however, that notice of said transfer shall be given to the parties and said suit when filed in the court to which the transfer is made, shall be considered for all purposes, the same as if originally filed in said court.

Time for Hearing of Claim

Sec. 18. When an injured workman has sustained an injury in the course of employment and filed claim for compensation and given notice as required by law, the Board shall hear his claim for compensation within a reasonable time. Provided, however, when such injured workman is being paid compensation as provided in this Act, and the institution is furnishing either hospitalization or medical treatment to such workman, the Board may, within its discretion, delay or postpone the hearing of his claim, and no appeal shall be taken from any such order made by the Board.

Amounts to be Set Aside for Awards and Expenses; Accounts; Reports

Sec. 19. The institution covered by this Act is hereby authorized to set aside from available appropriations other than itemized salary appropriations an amount not to exceed three and one-half percent (3½%) of the annual workman payroll of the institution for the payment of all costs, administrative expense, charges, benefits, insurance, and awards authorized by this Act.

The amounts so set aside shall be set up in a separate account in the records of the institution, which account shall show the disbursements authorized by this Act; provided the amounts so set aside in this account shall not exceed three and one-half percent (3½%) of the annual workman payroll at any one time. A statement of the amounts set aside for and disbursements from said account shall be included in reports made to the Governor and the Legislature and required by the statutes.

## Legal Representative of Institution

Sec. 20. The Attorney General of the State of Texas shall be the legal representative of the institution and is hereby given power and authority to bring and defend all suits and hearings necessary to carry out the purposes of this Act.

## Appeals; Notice; Duties of Clerk of Court and Attorneys

Sec. 21. In every case appealed from the Board to any District or County Court, the clerk of such court shall, within twenty (20) days after the filing thereof, mail to the Board a notice giving the style, number, and date of filing such suit, and shall, within twenty (20) days after judgment is rendered in such suit, mail to the Board a certified copy of such judgment. The duties devolving upon district and county clerks under this Act shall constitute a part of their ex officio duties and for such services they shall not be entitled to any fee.

In every such case the attorney preparing the judgment shall file the original and a copy of same with the clerk of the court. However, the failure of such attorney to comply with this provision shall not excuse the failure of the clerk of a district or county court to mail a certified copy of such judgment to the Board as above provided.

Any clerk of a district or county court who fails to comply with the provisions of this Act shall be guilty of a misdemeanor and upon conviction shall be punished by a fine of not more than Two Hundred and Fifty Dollars (\$250.00).

## Option of Institution as to Appropriations

Sec. 22. The institution covered by this Act shall have an option to set aside available appropriations, depending on the availability of such appropriations, as approved by the Legislature. Under no circumstances shall the institution be obligated to execute this Act should it jeopardize its existing financial operations.

## Partial Invalidity

Sec. 23. If any section, sentence, clause or part of this Act is for any reason held to be unconstitutional, such decision shall not affect the remaining portions of this Act. The Legislature hereby declares that it would have passed this Act and each sentence, clause and part thereof despite the fact that one or more sections, sentences, clauses or parts thereof be declared unconstitutional.

Any such school or college must obtain renewal of its certificate by September 1st each year by the payment of an annual renewal fee of One Hundred Twenty-five Dollars (\$125).

(i) When a barber school or college changes ownership, the Board shall be notified of the transfer within ten (10) days from the date of such change.

If said Board suspends or revokes said permit at said hearing, then such school or college may file suit to prevent the same or to appeal from said order. Any and all suits filed hereunder shall be filed within twenty (20) days from the date of the order of said Board in any of the District Courts of Travis County, Texas, and not elsewhere, and the order shall not become effective until said twenty (20) days has expired.

(m) The Attorney General or any District or County Attorney may institute any injunction proceedings or such other proceeding as to enforce the provisions of this Act, and to enjoin any barber, assistant barber, or school or college from operating without having complied with the provisions hereof, and each shall forfeit to the State of Texas the sum of Twenty-five Dollars (\$25) per day as a penalty for each day's violation, to be recovered in a suit by the District or County Attorney, and/or the Attorney General.

(n) Nothing in this Section shall prevent the practice of barbering or practice as a hairdresser or cosmetologist by present holders of "Class B" certificates, but any persons obtaining a "Class B" certificate as that term is defined in House Bill No. 104, Acts of the Forty-first Legislature, First Called Session, 1929, as amended (codified as Article 734a, Penal Code of the State of Texas),<sup>1</sup> after the effective date of this Act shall not engage in the practice of barbering as barbering is defined in the said House Bill No. 104.

Every certificate of registration which has not been renewed prior to that date shall expire on November 1 of that year.

(b) A registered barber or a registered assistant barber, whose certificate of registration has expired, may, within thirty (30) days thereafter, and not later, have his certificate of registration restored upon making a satis-

(c) Any registered barber who retires from the practice of barbering for not more than five (5) years may renew his certificate of registration by making proper showing to the Board, supported by his personal affidavit, which, in the opinion of the Board, would justify the Board in issuing a certificate to such applicant as upon an original application upon payment of a fee of Thirty Dollars (\$30) if the applicant applies during the period from November 1 of an odd-numbered year and extending through October 31 of the following even-numbered year or Seventeen Dollars and Fifty Cents (\$17.50) if the applicant applies during the period from November 1 of an even-numbered year and extending through October 31 of the following odd-numbered year.

The renewal fee shall be:

(1) Ten Dollars (\$10) if the application and payment is made during the period from November 1 of an odd-numbered year and extending through October 31 of the following even-numbered year;

(2) Five Dollars (\$5) if the application and payment is made during the period from November 1 of an even-numbered year and extending through October 31 of the following odd-numbered year.

**Expiration Dates of Certificates; Proration of Fees**

Sec. 20b. The board by rule may adopt a system under which certificates expire on vari-

ous dates during the year. For the year in which the expiration date is changed, certificate renewal fees payable on November 1 shall be prorated on a monthly basis so that each certificate holder shall pay only that portion of the certificate renewal fee which is allocable to the number of months during which the certificate is valid. On renewal of the certificate on the new expiration date, the total certificate renewal fee is payable.

**Refusal, Suspension or Revocation of Certificates; Grounds**

Sec. 21. The board shall either refuse to issue or to renew, or shall suspend or revoke any certificate of registration for any one of, or a combination of the following causes:

(H) No certificate shall be issued or renewed, unless and until each applicant shall present a health certificate from a regular practicing medical doctor showing that the applicant is free from any kind of infectious or contagious diseases, tuberculosis, communicable diseases, and free from the use of any kind of morphine, cocaine, or other habit-forming drug, or a habitual drunkard and that said applicant shall make affidavit to said medical examiner that all of the said facts are true.

**Violation or Noncompliance With Requirement; Hearing; Denial, Suspension or Revocation of Certificate; Appeal**

Sec. 22. (a) If a barber inspector believes that any of the grounds specified in Section 21 exist, or that the holder of a certificate or permit has failed to comply with any of the requirements of this Act, he shall notify the holder of the certificate or permit of that fact and summons him to appear for hearing as provided in this section. The hearing shall be had not less than twenty (20) days after notification in writing to the holder of the certificate or permit, specifying the violation or non-compliance alleged. For the purpose of hearing such cases concurrent jurisdiction is vested in the county court of the county where the holder of the certificate or permit resides and in the county court of the county where the violation allegedly occurred. The court may administer oaths and may issue subpoenas for the

attendance of witnesses and the production of relative books and papers. The holder of the certificate or permit shall have the right to be represented by counsel. At the hearing, the board shall be represented by the attorney general, district attorney or county attorney. At such a hearing the issue to be determined is whether any grounds exist under Section 21 for denial, refusal to renew, suspension, or revocation of the certificate or permit. The judge who presides at the hearing shall report his finding to the board, which may, if the finding warrants, deny, suspend, revoke, or refuse to renew the certificate or permit.

(b) If, after the hearing specified in Subsection (a), the board denies, suspends, revokes, or refuses to renew a certificate or permit, then the person holding the certificate or permit may file suit to prevent the action of the Board or to appeal from the order of the Board. Any and all suits filed hereunder shall be filed within twenty (20) days from the date of the order of said Board in a District Court of the county where the person filing such suit or appeal has his residence, or in any of the District Courts of Travis County, Texas. Such suit shall be a trial de novo as that term is used in appeals from Justice Courts to County Courts, and under no circumstances shall the substantial evidence rule, as defined by the Supreme Court of Texas, ever be used or applied in such cases. The burden of proof shall be on the Board to prove a violation.

Every public display of fireworks which includes in whole or in part "Class A Fireworks" shall be handled or supervised by a competent and experienced pyrotechnic operator approved by the chief of the fire department or the chief fire prevention officer of the city or county in

which the display is to be held, or by the State Fire Marshal or his authorized deputy therefor, if there be no chief of the fire department or chief fire prevention officer in the area.

Public display of "Class B Fireworks" may be supervised or handled by any competent adult person approved by the officer issuing the permit.

The State Fire Marshal shall adopt reasonable rules and regulations not inconsistent with the provisions of this part, for the granting of permits for, and the presentation of, public displays of fireworks.

A certificate evidencing such general license, when so obtained, shall be filed with the legislative body or officer granting a permit for the display of fireworks prior to the issuance thereof.

No permit shall be granted for the discharge of dangerous fireworks except in connection with public display of fireworks.

No person shall transport, convey or deliver any dangerous fireworks except for permittees making delivery to any other permittees, or to locations of public displays of fireworks authorized hereunder or to distributors outside of this state.

For purposes of license the sale and/or possession of "Class A" and "Class B" fireworks only, as described herein, shall require a Distributor's permit.

Be it further enacted, that any individual, firm, partnership, or corporation that violates any provisions of this Act shall be guilty of a misdemeanor, and upon conviction shall be punished by a fine of not more than One Thousand Dollars (\$1,000.00), or imprisoned for not more than one (1) year, or both, in the discretion of the court or jury.

**Identification Number**

Sec. 4. (a) The owner of each motorboat requiring numbering by this state shall file an application for number with the department on forms approved by it. The application shall be signed by the owner of the motorboat and shall be accompanied by a fee for which is hereinafter provided. Upon receipt of the application in approved form, the department shall enter the same upon the records of its office and issue to the applicant a certificate of number stating the number awarded to the motorboat and the name and address of the owner. The owner shall paint on or attach to each side of the motorboat or vessel near the bow thereof the identification number, and a validation decal, in such manner as may be prescribed by the department. The number shall read from left to right and shall be of block characters of good proportion of not less than three (3) inches in height. The numbers shall be of a color which will contrast the hull material of the vessel and so maintained as to be clearly visible and legible. The certificate of number shall be pocket size. The form of certificate of number, application form, and manner of renewal shall be prescribed by the department; provided, however, that the certificate of number does not have to physically be on the person of the operator, if prior to trial operator can produce for examination a valid certificate of number. Fees for newly purchased watercraft or other boats not previously operated within this state shall pay the full registration fee.

(b) The numbering pattern to be used shall be divided into parts. The first part shall consist of the Prefix "TX" followed by a combination of exactly four (4) numerals and further followed by a suffix of two (2) letters. The group of numerals appearing between the let-

ters shall be separated from those letters by hyphens or equivalent spaces. All basic numbers of each series shall begin with 1000. TX-1000-AA through TX-9999-AA will be allotted to dealers and manufacturers. TX-1000-AB through TX-9999-ZZ will be allotted to all other boat owners and livery operators.

The letters "G", "I", "O", and "Q" shall be omitted from all letter sequences.

(c) The owner of any vessel or motorboat for which a current certificate of number has been awarded pursuant to any Federal law or a federally approved numbering system of another state shall, if such motorboat, or vessel is operated on the waters of this state in excess of ninety (90) days, make application for a certificate of number in the manner prescribed in this Act for a resident of this state.

(d) The department may award any certificate of number directly or may authorize any person to act as agent for awarding of certificates. In the event that a person accepts authorization he shall execute a faithful performance bond of not less than One Thousand Dollars (\$1,000) in favor of the State of Texas and may be assigned a block or blocks of numbers and certificates which upon award, in conformity with this Act and with any rules and regulations of the department, shall be valid as if awarded directly by the department. Such agent shall be entitled to a fee for his services not to exceed ten percent (10%) of the fee for each certificate.

(e) The owner shall furnish the department notice of the transfer of all or any part of his interest other than the creation of a security interest in a motorboat numbered in this state or of the destruction or abandonment of such motorboat, within a reasonable time thereof. In all such cases, the notice shall be accompanied by a surrender of the certificate of number. When the surrender of the certificate is by reason of the motorboat being destroyed or abandoned, the department shall cancel the certificate and enter such fact in the records. The purchaser of a motorboat shall within a reasonable time after acquiring same present evidence of ownership thereof and make application to the department for transfer to him of the certificate of number issued to such motorboat, giving his name, address, and number of the motorboat and shall at the same time pay to the department a fee of One Dollar (\$1). Upon receipt of the application and fee the department shall transfer the certificate of number issued for such motorboat to the new owner. Unless such application is made and fee paid within a reasonable time, such motorboat shall be deemed to be without certificate of number, and it shall be unlawful for any person to operate such motorboat until the certificate is issued.

(f) All ownership records of the department made or kept pursuant to this Act shall be public records. Copies of all rules and regulations pursuant to this Act shall be furnished without cost with each certificate of number issued.

(g) Every certificate of number awarded pursuant to this Act shall continue in full force and effect for a period of two (2) years unless sooner terminated or discontinued in accordance with the provisions of this Act.

(h) Any holder of a certificate of number shall notify the department within a reasonable time if his address no longer conforms to the address appearing on the certificate, and shall, as a part of the notification, include his new address. The department may provide in its regulations for the surrender of the certificate bearing the former address and its replacement with a certificate bearing the new address or for the alteration of the outstanding certificate to show the new address of the holder. Changes of address shall be noted on the records of the department.

(i) In the event that any certificate of number becomes lost, mutilated or illegible, the owner of the motorboat for which the certificate was issued may obtain a duplicate upon application to the department and the payment of a fee of One Dollar (\$1).

(j) It shall be unlawful for any person to paint, attach, or otherwise display on either side of the bow of any motorboat any number other than the number awarded to said motorboat or granted reciprocity pursuant to this Act.

(k) It shall be unlawful for any person to deface or alter the certificate of number or number assigned and appearing on the bow of any boat.

(l) An application for the renewal of certificate of number shall be prepared by the department and mailed to each vessel owner within a period consisting of the last ninety (90) days before the expiration date on the certificate of number and the same number will be issued upon renewal. Any application not so received shall be treated in the same manner as an original application.

#### Ownership

Sec. 5. (a) A certified statement on the application for number shall be the minimum requirement for proof of ownership.

(b) Liens: Liens of all kinds, including reservations or transfers of title to secure debts, or claims, will be disregarded in determining ownership of a vessel.

A lien holder who acquires possession and title by virtue of default in the terms of the lien instrument, or any person who acquires ownership through such action as a lien holder, may apply for a number and shall attach to such application a notarized affidavit of repossession.

(c) Transfers by Operation of Law: Any person who acquires ownership of a vessel by inheritance, devise, or bequest may apply for a certificate of number by attaching a notarized heirship affidavit to his application along with the prescribed fee.

Any person who acquires ownership of a vessel by bankruptcy proceedings, through receivership or by any other involuntary divestiture of ownership, may apply for a certificate of number by attaching a copy of the court order, authorizing such action, to his application together with the prescribed fee.

(d) Cancellation of Certificate and Voiding of Number: A certificate of number may be cancelled and the identification number voided by the Department even though such action occurs before the expiration date on the certificate and such certificate is not surrendered to this Department. Certain causes for cancellation of certificates and voiding of numbers are:

- (1) Surrender of certificate for cancellation.
- (2) Issuance of new number for the same boat.
- (3) Issuance of a marine document by the Bureau of Customs for the same vessel.
- (4) False or fraudulent certification in an application for number.
- (5) Failure to pay the prescribed fee.

(b) The owner of any vessel not required to carry a manufacturer's serial number may file an application for a serial number with the Department on forms approved by it. The application shall be signed by the owner of the vessel and shall be accompanied by a fee of One Dollar (\$1). Upon receipt of the application in approved form, the Department shall enter the same upon the records of its office and issue to the applicant a serial number.

(c) No person shall wilfully destroy, remove, alter, cover, or deface the manufacturer's serial number, or plate bearing such serial number, or the serial number issued by the Department, on any boat. The possession of a boat with a serial number which has been altered, defaced, mutilated, or removed, is forbidden, and any person who obtains or comes into possession of such a boat is required to file with the Department a sworn statement describing the boat, proving legal ownership and, if known, the reason for the destruction, removal or defacement of the serial number.

#### Dealer's and Manufacturer's Number

Sec. 7. (a) Any dealer or manufacturer of motorboats of this state may, instead of securing a certificate of number for each motorboat he may wish to show or demonstrate or test on waters of this State, procure a dealer's and manufacturer's number which shall be attached to any motorboat which he sends temporarily on the waters. The two-year fee for a dealer's

and manufacturer's number shall be Twenty-five Dollars (\$25). Every dealer or manufacturer applying for such a number shall apply on forms provided by the Department. The application shall state that the applicant is a dealer or manufacturer within the meaning of this Act, and the facts stated on the application shall be sworn before an officer authorized to administer oaths. No such number shall be issued until the provisions of this Article have been satisfied.

(b) Each dealer or manufacturer holding a dealer's or manufacturer's number may issue a reasonable temporary facsimile of such number which may be used by any authorized person. A person purchasing a motorboat may use the dealer's number for a period not to exceed fifteen (15) days, prior to filing application for number. The form of the facsimile of the dealer's and manufacturer's number and the manner of display shall be prescribed by the Department.

(g) Every motorboat shall be provided with such number, size, and type of fire extinguishers, capable of promptly and effectually extinguishing burning gasoline, as may be prescribed by the regulations of the Commandant of the Coast Guard, which fire extinguishers shall be at all times kept in condition for immediate and effective use and shall be so placed as to be readily accessible.
