The Expense Fund shall be the Fund from which the expenses of administration and maintenance of the System shall be paid.

(a) The Director shall prepare annually an itemized budget showing the amount required to defray the expenses for the ensuing fiscal year and shall submit the report to the Board for its review, amendment and adoption.

(b) The amount estimated to be required to meet the expenses of the System shall be paid from the general reserves account of the Endowment Fund to the extent available. The Board, as evidenced by a resolution of the Board recorded in its minutes, may transfer to the Expense Fund the amount required to cover the expenses as estimated for the year.

(c) If the amount estimated to be required to meet said expenses of the System is in excess of the amount in the general reserves account of the Endowment Fund which is available for administrative expenses, the Board, by a resolution recorded in its minutes, shall assess the estimated additional amount against and collect the same from the participating subdivisions and from members as Expense Fund contributions.

## Creditable Service

Sec. 6. 1. (a) Under such rules and regulations as the Board shall adopt, each person who is an employee of a participating subdivision on the effective date of participation of such subdivision and who becomes a member on such effective date shall be entitled to receive credit for "prior service" as defined in this Act. Any person who has been an employee of such a participating subdivision prior to the effective date of participation of such subdivision, but who is not in the service of such subdivision on the effective date of such subdivision's participation, shall be entitled to receive credit for "prior service" as defined in this Act, if he again becomes an employee of such participating subdivision within five (5) years after the effective date of such subdivision's participation and becomes a member as of the date of such reemployment and continues as an employee of such subdivision for a period of five (5) consecutive years.

(b) The governing body of a subdivision may order and direct that each of its employees who is serving in a public hospital, utility or other public facility which the subdivision is operating as successor to, or which the subdivision has otherwise acquired from a county, city or other public corporation or agency of government, shall be awarded and allowed prior service credit for the total number of months prior to date of participation during which such employee was employed in such hospital, utility or other facility during the period of its operation by the said predecessor governmental units or agencies as well as during the period of its operation by the participating subdivision; and in such event, the total period of such employment for which such employee is allowed prior service credit hereunder shall be considered service rendered to the participating subdivision for purposes of this Act.

In event any participating subdivision subsequent to date of participation, by contract, purchase or by legal succession shall acquire and become the operator of a public hospital, utility or other public facility theretofore operated by a county, city or other public corporation, the governing body of the participating subdivision may by order direct that persons who were employed in such hospital, utility or other facility at the time of acquisition of or succession to the same by the participating subdivision, and who enter or did enter employment of the participating subdivision at that time, shall be allowed prior service credit for the total number of months during which such employee was employed in such hospital, utility or other public facility during the period of its operation by the predecessor counties, cities and/or other public corporations.

(c) Prior service credits and Allocated Prior Service Credits derivable therefrom allowable under Subsection 1(b) above shall be calculated in the same manner and be limited by the same factors that are applicable to prior service credits allowed employees of other depart-

ments of the participating subdivision for equivalent periods of service.

2. Each member entitled to receive credit for "prior service" shall file a detailed statement of all prior service for which he claims credit with the Treasurer or other disbursing officer of the subdivision to which such service was rendered.

3. Subject to the above provisions and to such other rules and regulations as the Board may adopt, each participating subdivision shall verify, as soon as practicable after the filing of such statements of service, the service therein claimed, and shall certify to the Board the length of "prior service" for which credit is allowed to each employee-member and the "Average prior service compensation" of each such employee-member.

4. After receipt of such certification from the participating subdivision, the Board shall issue prior service certificates certifying to each member the length of "prior service" with which he is credited, his "average prior service compensation" and his "allocated prior service credit" as herein defined. So long as membership continues, a prior service certificate shall be final and conclusive for retirement purposes as to such service; provided, however, that any member or participating subdivision may, within one (1) year from the date of issuance or modification of such certificate, request the Board to modify or correct such prior service certificate.

When membership ceases, such prior service certificate shall become void. Should a person whose membership has terminated again become a member, he shall enter the System as a member not entitled to credit for prior service.

5. Creditable service at retirement on which the retirement allowance of a member shall be based shall consist of the current service rendered by him since he last became a member, and also, if he has a prior service certificate which is in full force and effect, the length of the service credited on his prior service certificate.

6. "Maximum Prior Service Credit" shall mean an amount equivalent to the accumulation at interest of a series of monthly payments for the number of months of prior service certified to in a member's Prior Service Certificate, each such monthly payment being equal to twice the subdivision's initial deposit rate multiplied by the member's "average prior service earnings." Such accumulation shall be at regular interest and on the basis that interest is allowed at the end of each twelve (12) months period and is allowed on the accumulation at the beginning of each such twelve (12) months period and is not to be allowed for parts of a year.

7. "Allocated Prior Service Credit" shall mean that percentage of the calculated "Maximum Prior Service Credit" of a member which is granted by the subdivision to the member, such percentage to be the same for all of the

members of the subdivision and to be such that the total "Allocated Prior Service Credits" granted by the subdivision will not exceed in the aggregate an amount for which the prospective Prior Service Contributions of such subdivision will be adequate:

(a) to accumulate in such subdivision's account in the Prior Service Accumulation Fund by or before the end of the twenty-fifth (25) year of participation of such participating subdivision, a sum equal to the reserve required, according to calculations made by the actuary and approved by the Board, on the basis of mortality and other tables adopted by the Board at the end of such period, to meet all payments in full due after the end of such period under prior service annuities arising from allocated prior service credits granted by such participating subdivision then in effect or to become effective thereafter, and

(b) to provide the amount required according to this Act to be paid during such period under prior service annuities arising from allocated prior service credits granted by such participating subdivision.

8. "Accumulated Allocated Prior Service Credit" shall mean the allocated prior service credit allowed a member as of the effective date of becoming a member, accumulated at regular interest from such date until the effective date of such member's retirement, but interest shall not be allowed for parts of a year.

9. "Current Service Credit" as used herein means an amount equivalent to a per centum (determined as hereinafter provided) of the deposits made to the System by a member during a given calendar year. Such per centum of deposits shall be 100% until the end of the calendar year in which five (5) years of participation by the employer-subdivision is completed: and for each calendar year thereafter such per centum shall continue to be 100% unless increased as permitted by and in conformity to the provisions of subsection 11 of this Section VI to 120% or some greater multiple of 20% as may be elected by the subdivision.

10. "Accumulated Current Service Credit" shall mean the "current service credit" allowed a member for a given calendar year, accumulated at interest (as provided in this subsection) from the end of such year until the effective date of such member's retirement. Interest shall be allowed for each respective year of the accumulation period at the rate of interest allowed by the System on members' deposits for such year, but interest shall not be allowed for part of a year.

11. (a) A participating subdivision may increase benefits theretofore granted, or credits upon which future retirements will be allowed, or may adopt any additional coverage allowed by this Act, in the time and manner, and subject to the conditions set out in this section.

(b) A participating subdivision may provide for increase in such benefits or credits or may

adopt additional coverage only after an actuarial valuation (as prescribed by Section 8, Section 4(e)) has been made as of December 31 valuation date which is co-terminal with, or subsequent to, completion of three or more years of participation from and after the later of the following dates, viz:

(1) the original date of participation by the subdivision involved; or

(2) the effective date of the latest preceding increase in benefits, or extension of coverage, allowed by such subdivision under this section.

(c) Any extension of coverage, or increase in benefits, may be made effective only on January 1 of a calendar year, and after the lapse of twelve months from the actuarial valuation date above mentioned.

(d) The increases in credits or benefits and additional coverages which may be adopted and allowed by the subdivision (conditioned that it may provide for funding the same as hereinbelow provided) are one or more of the following:

(1) Increase in Current Service Credits to be allowed thereafter, which may be increased by 20% multiples;

(2) Increase in Current Service Credits theretofore allowed, which may be increased by 20% multiples;

(3) Increase in Current Service Annuities in effect;

(4) Increase in Allocated Prior Service Credits theretofore granted and in effect;

(5) Increase in Prior Service Annuities in effect;

(6) Granting to any of its employees who has accumulated twenty (20) or more years of Creditable Service the right of deferred service retirement, as hereinbelow defined.

The terms "right of deferred service retirement" as used above means the right to remain in service and to file a written selection with the Retirement Board of an optional allowance and designated nominee (as provided in Subsection 3 of Section 7), and in the event the member thereafter dies while in service he shall be considered to have retired effective as of the last day of the calendar month next preceding the month in which death occurs. In event any person eligible for deferred service retirement shall die without having a written selection of optional allowance and designated beneficiary on file with said Board, or whose designated nominee under options one or two is not living at the date of death of the member; such member shall be considered to have elected Option Three retirement, or (at the election of his beneficiary) shall be considered as having been an active member at date of death and the beneficiary may thereby elect to

receive the accumulated contributions of the deceased member.

(7) Granting prior service credit for any periods of active service (not in excess of 36 months total), in the armed forces of the United States performed during the time the United States was involved in organized conflict with foreign forces, whether in a formal state of war or police action, to any person who was an employee of such subdivision immediately prior to the beginning of such service in the armed forces, who entered such service without intervening employment and who returned to the employment of the participating subdivision within one hundred eighty (180) days following his discharge from or release from active duty with the armed forces.

(e) No increase in prior service annuities, allocated prior service credits, current service annuities or current service credits theretofore allowed shall be permitted which would produce greater benefits for such completed service than would be provided for current service credits allowable for comparable current and future service.

(f) The amount of the additional required reserves on account of any increase in Current Service Annuities or increase or extension of Current Service Credits shall as of the 31st day of December immediately preceding the effective date of such increase or extension of coverage, be transferred from such subdivision's account in the Subdivision Prior Service Accumulation Fund account to the Current Service Annuity Reserve Fund and Subdivision Current Service Accumulation Fund accounts of such subdivision in the respective required amounts, calculated by the actuary and approved by the Board.

(g) No such proposed increase in benefits or credits, or proposed extension of coverage shall be permitted if the result thereof (on the basis of calculations made by the actuary and approved by the Board) would impair the ability of the subdivision to fund within twenty-five (25) years from date of the December 31 valuation referred to in 11(b) above all obligations including those arising from Allocated Prior Service Credits granted by the subdivision.

(h) No such increase in benefits or credits or proposed extension of coverage shall be permitted unless it is determined and certified by the actuary that at the particular December 31 valuation date referred to in 11(b) above, the allocable prior service credits and prior service annuity obligations of the subdivision then existing before any such increase, would be amortized on or before the 20th anniversary of said particular December 31 valuation date.

(i) No such increase in benefits or credits, or proposed extension of coverage shall be effective unless and until the proposal is ap-

proved by the Board as conforming to all of the requirements above.

12. A member may count as creditable service prior service in the Legislature of Texas if the member deposits in the Employees Savings Fund an amount equal to the current contribution percentage of the subdivision multiplied by the base figure of Four Hundred Dollars (\$400) per month for the total number of months he was a member of the Legislature. The subdivision shall make benefit contributions equal to the amount deposited by the member.

##### Sec. 7. 1. Service Requirement Eligibility:

(a) Any member, after one (1) year from the effective date of his membership, shall be eligible for service retirement who (1) shall have attained the age of sixty (60) years and shall have completed at least twelve (12) years of creditable service, or (2) shall have completed thirty (30) years of creditable service.

(b) Application for service retirement shall be made to the Board setting forth the date the member desires his retirement to become effective provided: (1) such application shall be executed and filed at least thirty (30) and not more than ninety (90) days prior to the date on which such retirement is to become effective; (2) the effective date specified in the application shall be the last day of a calendar month, and shall not be a date preceding the termination of the member's employment with an employing subdivision.

(c) With the provision that no retirement shall be effective within one (1) year after the effective date of his membership, each member shall be retired from employment by all subdivisions on the last day of the calendar year in which the age of seventy (70) is attained, or upon the last day of the calendar year in which he completes twelve (12) years of creditable service, whichever shall last occur; provided, however, that in exceptional cases and for substantial cause such retirement may be deferred by mutual consent of the member and the employing subdivision from year to year for a period of not to exceed one (1) year at any time.

(d) Any member who has accepted service retirement shall be ineligible and disqualified to resume or continue service in any participating subdivision.

##### 2. Standard Service Retirement Benefit:

(a) A member who retires upon the basis of service eligibility shall be entitled to receive a "standard service retirement benefit" which shall be an allowance payable in equal monthly installments during the lifetime of the member. The "standard service retirement benefit" of a member

shall consist of (1) a current service benefit which is the actuarial equivalent of his current service annuity reserve, and (2) a prior service benefit to which is accumulated allocated prior service credits under his Prior Service Certificate, if any, entitles him under the provisions of this Act.

(b) The current service annuity reserve of the member shall be derived from:

(1) His accumulated deposits credited to his account in the Employees Saving Fund at the time of retirement; and

(2) An additional sum, from the Subdivision Current Service Accumulation Fund, equal to his accumulated current service credits at the time of his retirement.

(c) If he has a Prior Service Certificate in full force and effect, the prior service benefit shall be the actuarial equivalent of his Accumulated Allocated Prior Service Credit at the time of retirement; subject, however, to the power of the Board, upon recommendation of the actuary, to reduce payments for prior service annuities as provided in Section V of this Act.

### 3. Optional Service Retirement Benefits:

(a) In lieu of the "standard service retirement benefit" allowable under the preceding subsection, and provided that he shall make such election and nomination within thirty (30) days after the date fixed for retirement, any member retiring for service may elect to receive the actuarial equivalent of his current service benefit in a reduced current service annuity payable to the member during his lifetime, but with the provision that:

Option One. Upon his death, the reduced current service annuity shall be continued throughout the life of, and paid to, such person as the member shall nominate by written designation duly acknowledged and filed with the Board within the time above provided; or

Option Two. Upon his death, one-half of the reduced current service annuity shall be continued throughout the life of, and paid to, such person as the member shall nominate by written designation duly acknowledged and filed with the Board within the time above provided; or

Option Three. In the event of his death before sixty (60) monthly payments have been made of his reduced current service annuity, the payments shall be continued to his beneficiary (or to his estate) until the remainder of the sixty (60) monthly payments have been made; or

Option Four. Some other benefit or benefits may be paid either to the member or to such person or persons

as he may nominate, provided the same shall be approved by the Board, and provided such other benefit or benefits, together with the reduced current service annuity of the member shall be certified by the actuary to be the equivalent in actuarial value of the current service annuity reserve to which the member is entitled at the date fixed for his retirement.

(b) Any member who makes an effective election to have his current service benefit paid in accordance with Option One, Option Two, Option Three or Option Four shall likewise receive his prior service benefit, if any, in an adjusted annuity payable upon the same conditions and to the same beneficiary as that selected for his current service benefit, but with the further provision that all prior service benefits shall be subject to reduction by the Board under the circumstances provided for in Section V of this Act.

(c) Any member retiring for service who dies within thirty (30) days after the effective date of his retirement and who has not made an election to receive his annuity under an optional plan as herein provided shall be considered to have elected Option Three above or, at the election of his beneficiary, such deceased member shall be considered as having been an active member at death and the beneficiary may thereby elect to receive the accumulated contributions of the deceased member.

### 4. Vesting. Deferred Service Retirement:

Any member who shall have accumulated at least twenty (20) years of creditable service may withdraw from service prior to the attainment of the age sixty (60) and shall become entitled to retirement with a Service Retirement Allowance upon his attainment of the age of sixty (60) years, or at his option at any date subsequent to his attainment of said age but not later than the date of his mandatory retirement as set out in paragraph (c) of subsection 1 of this Section VII provided that such member is then living and has not withdrawn his contributions and provided that such retirement may not be effective prior to one year after the effective date of his membership and will be effective only as of the last day of a calendar month and will be effective not less than thirty (30) days or more than ninety (90) days subsequent to the execution and filing with the Retirement Board of written application therefor.

Any member who has accumulated thirty (30) or more years of creditable service shall have the right, until the date of his mandatory retirement as set out in paragraph (c) of subsection 1 of this Section VII, to remain in service and to file a written selection with the Retirement Board, in such form as the Retirement Board may prescribe, of an optional al-

allowance and designated nominee, as provided for in subsection 3 of this Section, and in the event such member thereafter dies while in service he shall be considered to have retired effective as of the last day of the calendar month next preceding the month in which death occurs or as of the end of one year after the effective date of his membership whichever date shall occur last; and any such member who has filed such selection of optional allowance and designated nominee, may at his option from time to time, prior to retirement or death, file an amended written selection of optional allowance and designated nominee. Any such member who has accumulated thirty (30) or more years of creditable service who dies in service without having a written selection of optional allowance and designated nominee on file with the Retirement Board or whose designated nominee under such written selection of Option One or Option Two of the options provided by subsection 3 of this Section VII last filed with the Retirement Board is not living on the date of death of the member, shall be considered to have elected Option Three above or, at the election of his beneficiary, such deceased member shall be considered as having been an active member at death and the beneficiary may thereby elect to receive the accumulated contributions of the deceased member.

#### 5. Disability Retirement Eligibility:

With the provision that no retirement shall be effective within one (1) year after the effective date of membership, upon the application of a member or of his employer or his legal representative acting in his behalf, any member with less than twelve (12) years of creditable service may be retired by the Board, not less than thirty (30) and not more than ninety (90) days next following the date of filing of such application, on a disability retirement allowance, provided that the Medical Board, after a medical examination of such member, shall certify that such member is mentally or physically incapacitated for the further performance of duty, that such incapacity is the direct result of injuries sustained subsequent to the effective date of membership by external and violent means as a direct and proximate result of the performance of his duties, that such incapacity is likely to be permanent and that such member should be retired.

With the provision that no retirement shall be effective within one (1) year after the effective date of membership, upon the application of a member or of his employer or his legal representative acting in his behalf, any member with twelve (12) years or more of creditable service, who is not eligible for service retirement, may be retired by the Board, not less than thirty (30) and not more than ninety (90) days next following the date of filing of such application on a disability retirement allowance, provided that the Medical Board, after a medical examination of such member, shall certify that such member is mentally or physically incapacitated for the

further performance of duty, that such incapacity is likely to be permanent and that such member should be retired.

#### 6. Standard Disability Retirement Benefits:

Upon retirement for disability a member shall receive a disability retirement benefit consisting of a current service annuity, which shall be the actuarial equivalent of his current service annuity reserve, and a prior service annuity to which his Accumulated Allocated Prior Service Credit under his Prior Service Certificate, if any, entitles him under the provisions of this Act.

(a) His current service annuity reserve shall be derived from:

(1) His accumulated deposits credited to his account in the Employees Saving Fund at the time of retirement; and

(2) An additional sum from the Subdivision Current Service Accumulation Fund equal to his accumulated current service credits at the time of his retirement.

(b) If he has a Prior Service Certificate in full force and effect, the prior service annuity shall be the actuarial equivalent of his Accumulated Allocated Prior Service Credit at time of retirement. Upon the recommendation of the actuary, the Board shall have the power to reduce payments for prior service annuities as provided in Section V of this Act.

#### 7. Requirements and Conditions Applicable to Disability Benefits:

Once each year during the first five (5) years following retirement of a member on a disability retirement benefit, and once in every three-year period thereafter, the Board may, and upon his application shall, require any disability annuitant who has not yet attained the age of sixty (60) years to undergo a medical examination, such examination to be made at the place of residence of said annuitant or any other place mutually agreed upon, by a physician or physicians designated by the Board. Should any disability annuitant who has not yet attained the age of sixty (60) years refuse to submit to at least one (1) medical examination in any such periods by a physician or physicians designated by the Board, his allowance shall be discontinued until his withdrawal of such refusal, and should his refusal continue for one (1) year, all his rights in and to his allowance shall be revoked by the Board.

(a) Should the Medical Board report and certify to the Board that such disability annuitant is no longer physically or mentally incapacitated for the performance of duty, or that such disability annuitant is engaged in or is able to engage in a gainful occupation, and should the Board by a majority vote concur in such report, then his allowance shall be discontinued.

(b) Should a disability annuitant under the age of sixty (60) years be restored to active service in a participating subdivision, his retirement allowance shall cease, he shall again become a member of the System, and any reserves on his current service annuity at that time in the Current Service Annuity Reserve Fund shall be transferred to the Employees Saving Fund and to the Subdivision Current Service Accumulation Fund, respectively, in proportion to the original sum transferred to the Current Service Annuity Reserve Fund at retirement and the reserves under his prior service annuity, if any, in the Prior Service Annuity Reserve Fund at that time shall be transferred to the Subdivision Prior Service Accumulation Fund. Upon restoration to membership, any Prior Service Certificate on the basis of which his service was computed at the time of his retirement shall be restored to full force and effect, and in addition, upon his subsequent retirement, he shall be credited with all his membership service. Should a disability annuitant die or be removed from the disability list for any cause other than restoration to active service, an amount equal to the amount by which such annuitant's accumulated deposits at the time of disability retirement exceed the current service annuity payments received by such annuitant under his disability allowance, if any such excess exists, shall be paid from the Current Service Annuity Reserve Fund to such annuitant if living; otherwise, such amount shall be paid to his estate unless he has directed such amount to be paid otherwise.

#### 8. Return of Deposits Upon Other Terminations:

Should a member cease to be an employee of a participating subdivision except by death or retirement under the provisions of this Act, he shall, upon application, be paid in full the amount of the accumulated deposits standing to the credit of his individual account in the Employees Saving Fund. In the event of death of a member before retirement, and prior to the accumulation of thirty (30) or more years of creditable service, the amount of his accumulated deposits standing to the credit of his individual account in the Employees Saving Fund shall be paid to his estate unless he has directed the account to be paid otherwise. Seven (7) years after cessation of service, if no previous demand has been made, any accumulated deposits of a contributor shall be returned to him or to his estate. If the contributor or the administrator of his estate cannot then be found, his accumulated deposits shall be escheated to the Retirement System, and shall be credited to the perpetual endowment account of the Endowment Fund.

The Board shall annually elect a chairman and vice-chairman from its membership; and it may designate the Director or one of its own members to serve as Secretary of the Board. All trustees shall serve without compensation, but shall be reimbursed for any reasonable traveling expenses incurred in attending meetings of the Board, authorized committee and association meetings, or in performance of other business for the System as authorized by the Board, and for the amount of any earnings withheld by any employing subdivision because of attendance of any Board meeting. Each trustee shall be entitled to one (1) vote on any and all actions before the Board for consideration at any Board meeting, and at least five (5) concurring votes shall be necessary for every decision or action by the Board at any of its meetings. The Board shall also appoint an actuary for the purpose of carrying out all the necessary actuarial requirements of the System; appoint an attorney; appoint a Medical Board; and employ such additional actuarial, clerical, legal, medical and other assistants as shall be required for the efficient administration of the System; and determine and fix the compensation to be paid.

(g) Have the accounts of the System audited at least annually by a Certified Public Accountant.

(h) Submit an annual statement to the governing body of each subdivision and to any member, upon request, as soon after the end of each calendar year as possible. in the Employees Saving Fund equal to the sum of the accumulated deposits standing to the credit at the beginning of such year of all members included in the membership of the System on December 31 of such year, before any transfers for retirement effective December 31 of such year are made. The amounts so allowed shall be due and payable to said funds and shall be credited thereto by the Board on December 31 of each year from the moneys of the System held in the Interest Fund, provided that current interest shall not be at a rate greater than three percent (3%) per annum and that any excess earnings over such amount required shall be paid to one or another of the several accounts of the Endowment Fund as provided in Section V of this Act.

(j) Accept any gift, grant or bequest of any money or securities for the purposes designated by the grantor, if such purposes are specified as providing an endowment or retirement benefits to some or all of the participating employees or annuitants of this System, or if no such purposes are designated, for deposit to the credit of the Endowment Fund.

(n) Establish such rules and regulations not inconsistent with the provisions of the

Act and generally carry on such other reasonable activities as are deemed necessary or desirable for the efficient administration of the System.

3. The Director shall be in charge of the technical administration of the System and shall have such additional powers and duties as are properly delegated by the Board.

4. The Board shall designate an actuary who shall be the technical adviser of the Board on matters regarding the operation of the Funds created by the provisions of this Act and shall perform such other duties as are required in connection therewith.

As soon as practicable after the establishment of the System, and at least once in each five (5) year period thereafter, the actuary shall make such general investigation of the mortality, and service experience of the members and annuitants of the System as he shall recommend and on the basis of such investigation, he shall recommend for adoption by the Board such tables and rates as are required.

On the basis of such tables and rates as the Board shall adopt, the actuary shall:

The physicians so appointed by the Board shall be legally qualified to practice medicine in Texas and shall be physicians of good standing in the medical profession. If required, other physicians may be employed to report on special cases. The Medical Board shall pass upon all medical examinations required under the provisions of this Act, and shall investigate all essential statements and certificates by or on behalf of a member in connection with an application for disability retirement, and shall report in writing to the Board its conclusions and recommendation upon all the matters referred to it.

7. The assets of the System in excess of the amount of cash required for current operations as determined by the Board, shall be invested and reinvested in the following types of securities:

- (a) Interest-bearing bonds or other evidences of indebtedness: of the State of Texas, or of any county, school district, city or other municipal corporation within the State of Texas; of the United States

or of any authority or agency of the United States, or any such securities which are guaranteed as to the payment of principal and interest by the United States or by any authority or agency of the United States.

- (b) Interest-bearing bonds, notes or other evidence of indebtedness issued by any corporation incorporated under the laws of the United States or of any state, and which obligations are of a company whose stocks are eligible hereunder as investments for the System, or which obligations are rated A or better by one or more nationally recognized rating agencies to be determined by the Board.

In addition to the above listed securities, the Board may invest not exceeding twenty percent (20%) of the total of the assets of the System in preferred stocks and common stocks of companies incorporated within the United States, which have paid dividends on its common stock for ten (10) consecutive years or longer immediately prior to the date of purchase of such securities and which, except for bank and insurance company stocks, are listed upon an exchange registered with the Federal Securities and Exchange Commission or its successors; and provided further that not more than one percent (1%) of the assets of the System shall be invested in stocks issued by any one corporation, nor shall more than five percent (5%) of the voting stock of any one corporation be owned by the System. In making each and all such investments the Board shall exercise the judgment and care under the circumstances which men of prudence, discretion and intelligence exercise in the management of their own affairs, taking into consideration not only the probable income derivable from such securities but as well the probable safety of the capital investment.

The Board shall have full power to sell, assign, exchange, or trade and transfer any of the securities in which the funds of the System at any time may be invested, and to use or reinvest the proceeds as, in the Board's judgment, the needs of the System require.

8. All money received by the System shall immediately be deposited with a depository for the account of the System. All disbursements shall be made only upon vouchers signed by the person or persons designated for such purpose by resolution of the Board, and the depository is hereby authorized to pay the vouchers or checks so signed. The depository shall accept all warrants so signed and shall be released from liability for all payments made thereon. Checks or warrants shall be drawn only upon proper authorization by the Board, properly recorded in the official minute books of the meetings of the Board. All securities of the System when received, shall be deposited in trust with a depository designated by the Board and the depository shall provide adequate safe deposit facilities for their preservation.

9. The assets of the System shall be invested as one Fund, and no particular person or subdivision shall have any right in any specific security or in any item of cash other than an undivided interest in the whole, as set forth in the provisions of this Act.

#### Depositories

Sec. 9. In handling the funds of the System created by this Act, the Board shall have and is hereby given all the power, authority and duties granted the State Depository Board and shall designate depositories to qualify and serve such System in accordance with the provisions of Chapter I, Title 47, Revised Civil Statutes of Texas of 1925, together with all amendments thereto.<sup>1</sup>

<sup>1</sup> Article 2525 et seq.

#### Merger of Existing County Systems

Sec. 10. 1. The voluntary merger into the System established by this Act (in this Section called the "state system") of pension systems heretofore established under Subsection (b) of Section 62 of Article XVI of the Constitution of Texas (in this Section called the "local system") is hereby authorized upon the terms and conditions stated in this section, and upon such additional terms and conditions as may be prescribed by the Board of Trustees of the state system, and after approval of the merger proposal by the governing body of the subdivision.

2. The terms of the merger agreement shall be generally consistent with the provisions of this Act pertaining to participation of subdivisions which do not now have any pension system for their employees, but the provisions of this section shall govern merger of such existing systems in event of variance from other provisions of this Act. The provisions of this Act shall apply to the local system subdivision and its employees after merger except as may be otherwise provided in this Section X.

3. In addition to those persons who conform to the definition of "employee" as set out in Subsection 6 of Section II, each person who at the effective date of merger, by virtue of the position or office then held is considered by the local system to be an employee of the subdivision, shall be classified by the state system as an employee of said subdivision while such person continues to occupy said position or office.

4. All persons who are then members of the local system at the effective date of merger shall become members of this state system. The number of months of creditable service allowed by the local system to the member for service to the date of merger shall be allowed as creditable service by the state system.

5. All persons who conform to the definition of "employee" as set out in Subsection 6 of Section II, but who were not eligible for membership in the local system as established, and are not members of the local system at the date of merger, shall become members of the state system under the merger agreement, un-

less such person executes a waiver of membership in the time and manner prescribed below: provided, however, that no employee who is fifty-eight (58) years of age or more at date of merger shall be eligible for membership unless his service to such subdivision prior to the date of merger is equal to or is in excess of the period by which his then attained age exceeds the age of fifty-eight (58) years.

Any person who becomes a member of the state system as of the date of merger under this Subsection 5 shall not be allowed any credit for service prior thereto except upon the following conditions:

If, for all months during which such person performed service as an employee (as defined in subsection 6, Section II, above) of the subdivision between the time the local system was established and the date of merger, such person shall pay to the state system (within 90 days after date of merger) a sum equal to the deposits which a member of the local system drawing the same compensation during the same period was required to make to the local system, and if the subdivision pursuant to the merger agreement contributes to the state system within the 90-day period an equal amount, then in such event:

(a) the sum so deposited by such member with the state system shall be deposited by it to the credit of such member's individual account in the Employees Saving Fund and shall be treated in the same manner as provided in subsection 9(a) below as to transfer upon merger of individual deposits of members of the local system;

(b) the sum so deposited by the subdivision shall be received and deposited in the subdivision's account in the Prior Service Accumulation Fund in the manner provided in subsection 9(c), below; and

(c) such member shall thereupon receive credit for all service to the subdivision antedating the effective date of merger.

Any person not a member of the local system, but who would become a member of the state system under the terms of this subsection may elect not to become a member if within thirty (30) days after the effective date of the merger agreement, he shall execute and file with the Director of the state system a written waiver of membership in such form as the Board may prescribe. Any such person who files such a waiver of membership may apply for membership in the state system as of the first day of any month thereafter, if the person would then be eligible for membership in the system as a beginning employee of the subdivision, and such person may thereupon become a member of the system but without credit for any service antedating date of membership.

6. Persons who are employees of the subdivision at the effective date of merger but who are not members of the local system by reason

of prior voluntary election not to participate, or because of prior withdrawal from the local system, may apply for membership in the state system as of the effective date of merger or as of the first day of any month thereafter, if the person would then be eligible for membership in the system as a beginning employee of the subdivision, and such person may thereupon become a member of the system but without credit for any service antedating date of membership.

7. In determining the status and rights of persons who are members of the local system, but who are not employees of the subdivision at the time of the merger, the provisions of this Act regarding termination of the membership because of absence from service and membership status upon re-employment shall apply as if the local system at all pertinent times had been merged with the state system.

8. All assets of the pension system being merged into this System shall be accepted by the System on the following basis:

(a) The value of every United States government bond will be determined on an amortized basis to yield three and one-fourth per centum ( $3\frac{1}{4}\%$ ) per annum or on a market value basis, whichever is greater, and all other bonds shall be accepted at their market value, as of the date of merger;

(b) Cash shall be valued at actual value and time deposits shall be valued at face plus accrued interest.

9. Upon merger, the total assets of the local system shall be transferred to the state system, valued as provided in Subsection 8 above, and such assets shall be credited as follows:

(a) An amount equal to the sum of the accumulated deposits of the individual members of the local system will be credited to the Employees Saving Fund of the state system. The state system will establish individual accounts for all such members and will credit to such individual accounts the respective accumulated deposits of the individual members as of the effective date of merger. No current service credits shall accrue in this System to the members of the local system on account of the accumulated deposits so transferred and credited upon merger.

(b) An amount equal to the required annuity reserve, based on such annuity tables as shall be adopted by the Board with regular interest, for current service annuities in effect in the local system as of the date of merger shall be credited to the Current Service Annuity Reserve Fund of this System and such current service annuities shall thereafter be obligations of and paid from the Current Service Annuity Reserve Fund of this System.

(c) The remaining assets of the local system will be credited to the subdivision's account in the Subdivision Prior Service

Accumulation Fund of the state system for the partial funding of the obligations assigned to such account in accordance with this Act.

(d) Each member transferred under the merger, and each person who becomes a member at the date of merger and qualifies for creditable service antedating merger as provided by Subsection 5 above, will be given an "allocated special prior service credit" determined as provided in paragraphs (e) and (f) following.

(e) "Maximum Special Prior Service Credit," as used in this Section shall mean an amount equivalent to the accumulation at interest of a series of monthly payments for the number of months of all creditable service allowed to the member pursuant to the merger agreement for service to the date of merger, each such monthly payment being equal to twice the subdivision's initial deposit rate multiplied by the member's "average local system earnings," with such accumulation then being reduced by an amount equal to the individual member's accumulated deposits transferred on merger or paid in by the member in accordance with Subsection 5 of this Section. Such accumulation shall be at regular interest and on the basis that interest is allowed at the end of each twelve (12) months period and is allowed on the accumulation at the beginning of each such twelve (12) months period and is not allowed for parts of a year.

"Average local system earnings" as used in this subsection means the average monthly earnings received by an employee for service rendered to the local system subdivision during the thirty-six (36) months immediately preceding the effective date of merger of such subdivision's local system into the System, or if there be less than thirty-six (36) months of such service, the average shall be computed for the number of months of such service within such thirty-six (36) months period, or if there be no such service during said thirty-six (36) months, the average shall be computed for the number of months of service rendered to the local system subdivision during the twenty-four (24) months immediately preceding said thirty-six (36) months; provided however, that in calculating the "average local system earnings" of any employee, actual earnings in any month shall be excluded to the extent that they exceed the lower of the following rates of earnings: (i) the annual earnings prescribed by the governing body at the time of merger as the maximum current service earnings for current service deposits and contributions; or (ii) annual earnings in excess of Twelve Thousand Dollars (\$12,000.00) per annum.

(f) "Allocated Special Prior Service Credit" as used in this section shall mean

that percentage of the calculated "Maximum Special Prior Service Credit" of a member which is granted by the subdivision to the member, such percentage, except as hereinafter provided in this paragraph, to be the same for all of the members of the subdivision and to be such that the total "Allocated Special Prior Service Credits" granted by the subdivision will not exceed in the aggregate an amount for which the assets credited to the Prior Service Accumulation Fund on merger and the prospective Prior Service Contributions of such subdivision will be adequate:

(i) to accumulate in such subdivision's account in the Prior Service Accumulation Fund by or before the end of the twenty-fifth (25th) year of participation of such participating subdivision or within the period of time which would have been required to fund the unfunded liability of the local system if greater, a sum equal to the reserve required, according to calculations made by the actuary and approved by the Board, on the basis of mortality and other tables adopted by the Board at the end of such period to meet all payments in full due after the end of such period under prior service annuities chargeable to such participating subdivision then in effect or to become effective thereafter, and

(ii) to provide the amount required according to this Act to be paid during such period under prior service annuities chargeable to such participating subdivision.

It is specifically provided that the allocated special prior service credit granted to any member at merger shall be not less than an amount which together with the amount of such member's accumulated deposits at the time of merger will provide a benefit at retirement equal to that which under the provisions of the local system in effect at time of merger, he would have been entitled to receive at retirement based upon service prior to date of merger.

10. Prior to approval by the Board of the merger agreement, the governing body of the subdivision shall:

(a) Designate the initial deposit rate to be effective upon participation in the state system, in the manner provided in Subsection 1(a) of Section IV, above;

(b) Determine the maximum earnings upon which current service deposits shall be made, as provided in subsection 1(c) of Section IV, above.

If the local system has been in effect more than five years (and subject to the limitations below set out), the governing body of the subdivision may also provide

(substantially in the manner delineated in subsection 11 of Section VI, above):

(c) for proportional increases in prior service annuities theretofore granted by the local system;

(d) for proportional increases in current service annuities theretofore granted by the local system;

(e) for allowance of current service credits after merger in excess of 100% of deposits as provided in subsection 9 of Section VI, above.

No proposal for merger shall be approved until actuarial studies shall have been made by the local system at its expense but in accordance with specifications approved by the Board, and provided that such studies establish to the satisfaction of the Board that the obligations undertaken by or on behalf of the subdivision will be discharged at the time and in the manner provided by this Act and by the merger agreement, and that the obligations incurred by the subdivision in the Prior Service Accumulation Fund will be fully funded within twenty-five (25) years from date of merger, or within such longer period as would have been required to amortize the unfunded liability of the local system as then existing.

11. No retirement of persons becoming active members of the state system by reason of merger, shall become effective until 120 days after the effective date of merger.

12. From and after date of merger, the rights and obligations of the employing subdivision and of persons who as its employees or pursuant to the merger agreement become members of the state system shall be governed by the provisions of Sections I through IX of this Act, except as modified by the terms of the merger agreement and by the provisions of this Section.

#### Merger of Other Local Systems

Sec. 11. The voluntary merger into the state system created by this Act of pension systems heretofore or hereafter established for employees of subdivisions as hereinabove defined (exclusive of such systems as are included within the provisions of Section X, above) is authorized to be effected upon terms and conditions to be prescribed by the Board of Trustees of this state system, and generally in accordance with the provisions of Section X, above, so far as applicable.

#### Optional Coverage of Employees Receiving Supplemental Compensation From Participating Counties

Sec. 11A. 1. The governing body of any participating county which pays compensation from county funds to a person regularly engaged in the performance of the duties of an elective or appointive State or district office in addition to that received from the State of Texas, may by order of the governing body provide that the persons shall be considered employees of the county, and as such eligible for member-

ship in the System to the extent of the compensation paid the person by the county.

2. All persons who on the effective date specified in the order are within the class designated to be included in the System by the order of the governing body of any participating subdivision under this section, shall become members of the System at the effective date specified in the order unless the person executes a waiver of membership in the time and manner prescribed below. Any person thereafter employed for the first time by the subdivision in any covered employment shall become a member of the System at the date of his employment if he is at that date less than fifty-eight (58) years of age.

3. Any person who would become a member of this System by virtue of an order adopted by the governing body of a participating subdivision under this section may elect not to become a member if within thirty (30) days after the effective date specified in the order, he executes and files with the Director of the System a written waiver of membership in such form as the Board may prescribe. Any person who files a waiver of membership may apply for membership in the System as of the first day of any month thereafter, if the person would then be eligible for membership in the System as a beginning employee of the subdivision, and the person may thereupon become a member of the System but without credit for any service antedating the date of membership.

4. Any person who becomes a member of this System pursuant to this section shall not be allowed credit for service from the date of participation of the county to the effective date specified in the order adopted by the governing body pursuant to this section, unless within ninety (90) days after the date so specified:

(a) For all months during which the person performed service as an employee, the member shall pay to this System a sum equal to the deposits which a member of the System drawing the same compensation from the county during the same period was required to make to the System; and

(b) The county within the ninety (90) day period contributes to the System an amount equal to the deposits made by the member under Paragraph (a) of this subsection.

In the event the deposits required under this subsection are made within the time specified, the sum so deposited with the System by the member shall be credited to the member's individual account in the Employees Saving Fund, and the member shall be given current service credit for each month of service from which the deposits derive; and the matching deposits made by the county shall be deposited to its account in the Subdivision Current Service Accumulation Fund.

5. Any person who becomes a member of the System by virtue of this section as an employee of a county which did not operate and maintain a local system (as defined in Section 10, above) prior to the date of participation of the county in this System, and who makes and causes the subdivision to make the deposits in the amounts and within the time prescribed by Subsection 4, above, shall be entitled to receive credit for "prior service" rendered the subdivision, and upon certification of the prior service in the manner provided in Subsection 1 of Section 6, above, shall be allowed an "Allocated Special Prior Service Credit" determined in the same manner and on the same percentage of Maximum Prior Service Credit as was used in determining the Allocated Prior Service Credit of those employees of the subdivision who became members of this System on the date of participation of the subdivision.

6. Any person who becomes a member of the System by virtue of this section as an employee of a county which prior to its participation in this System operated and maintained a "local system" (as defined in Section 10) that was merged into this System pursuant to Section 10 shall not be allowed credit for service rendered the subdivision prior to the effective date of the merger, except upon the following conditions:

(a) The member and the subdivision make the deposits in the amounts and within the time prescribed by Subsection 4, above, to entitle the member to current service credit as provided in Subsection 4; and

(b) For all months during which the person performed service as an employee (as defined in Subsection 6, Section 2) of the subdivision between the time the local system was established and the date of merger, the person shall pay to the State system (within ninety (90) days after the effective date specified in the order of the governing body adopted under this section) a sum equal to the deposits which a member of the local system drawing the same compensation during the same period was required to make to the local system, and the subdivision shall contribute to the State system within said ninety (90) day period an equal amount to match the members' deposits.

In the event the deposits required under this subsection are made within the time specified, the sum so deposited by the member with the State system shall be deposited by it to the credit of the member's individual account in the Employees Saving Fund and shall be treated in the same manner as provided in Subsection 9(a) of Section 10, as to the transfer upon merger of individual deposits of members of the local system; the sum so deposited by the subdivision shall be received and deposited in the subdivision's account in the Prior Service Accumulation Fund in the manner provided in

Subsection 9(c) of Section 10; and the member shall receive credit for all service to the subdivision antedating the effective date of merger, and will be given an "Allocated Special Prior Service Credit" determined in the same manner and on the same percentages of Maximum Special Prior Service Credit as was used in determining the Allocated Special Prior Service Credit of employees of the county who became members of the State system at the effective date of the merger.

#### Miscellaneous

Sec. 12. 1. Each member shall, by virtue of the payment of the deposits required to be paid to this System, receive a vested interest in such deposits.

2. Venue of any action by or on behalf of the System or the Board against any participating subdivision or against any officer or Board of Officers of any participating subdivision to compel accounting by such subdivision or by such officer or officers of such participating subdivision for any sums due by the participating subdivision to the System, or due to the System as contributions of members, or to require withholding of and accounting for sums due from members, shall lie in Travis County, Texas, as well as in the county in which such subdivision is situated.

3. All annuities and other benefits payable under the provisions of this Act and all accumulated credits of employees in this System shall be unassignable and shall not be subject to execution, garnishment or attachment.

4. Any person who shall knowingly make any false statement in any report or application to the System, in any attempt to defraud the System, or who shall knowingly make a false certificate of any official report to the System, shall be guilty of a misdemeanor and shall be punished therefor by fine of not less than One Hundred Dollars (\$100) and not more than One Thousand Dollars (\$1,000), or by confinement in jail for a term of not less than thirty (30) days nor more than one (1) year, or by both such fine and imprisonment.

5. The Board shall require and secure at the expense of the System such fidelity bond as it may deem proper for the faithful performance of the duties of the Director, and may likewise require bonds for other employees of the System.

#### Severability Clause

Sec. 13. If any section, paragraph, sentence or clause of this Act is held to be invalid or unconstitutional for any reason, the remaining articles, sections, paragraphs, sentences and clauses shall continue in full force and effect and shall be construed thereafter as being the entire provisions of this Act.

Section 4 of Acts 1971, 62nd Leg., p. 1780, ch. 522, provided: "In the event any section, subsection, or provision of this Act shall be held and adjudged unconstitutional or invalid for any reason, such adjudication shall not affect or invalidate any of the other or remaining provisions of this Act."

#### Art. 6228h. Assumption of Pension Liabilities of Participating Subdivision by Annexing Governmental Entity

Sec. 1. Should any participating subdivision as defined under the provisions of Chapter 127, Acts of the 60th Legislature, Regular Session, 1967, as amended,<sup>1</sup> establishing and regulating the Texas County and District Retirement System, be annexed into, merged with, or in any manner absorbed by a municipality or other governmental entity, such succeeding entity shall assume, provide for and continue all existing pension rights of the employees of such subdivision, and shall further succeed to the rights of such subdivision in the assets of such system.

Sec. 2. The crowded condition of the calendars, and the need for enacting at the earliest time the above amendment, create an emergency and imperative public necessity that the Constitutional Rule requiring bills to be read on three several days in each House be suspended, and the same is hereby suspended; and that this Act shall take effect and be in force from and after its passage, and it is so enacted.

[Acts 1971, 62nd Leg., p. 992, ch. 179, eff. Aug. 30, 1971.]

<sup>1</sup> Article 6228g.

#### Art. 6228i. Proportionate Service Retirement Benefits

##### Purpose

Sec. 1. The purpose of this Act is to provide proportionate service retirement benefits to eligible members who shall have performed service and made contributions in more than one class of membership in the state funded retirement systems named in this Act; and the applicability of this Act is hereby limited to such persons subject to the provisions of this Act and the provisions of the other state retirement laws not in conflict with this Act.

##### Creditable Service

Sec. 2. (a) Effective September 1, 1973, any eligible person who is a member of one of the systems and not retired under any of the provisions of either the Judicial Retirement System of Texas, Chapter 99, Acts of the 51st Legislature, Regular Session, 1949, as amended (Article 6228b, Vernon's Texas Civil Statutes), or the Teacher Retirement System of Texas, Chapter 470, Acts of the 45th Legislature, Regular Session, 1937, as amended (Chapter 3, Texas Education Code, Vernon's Texas Civil Statutes),<sup>1</sup> or the Employees Retirement System of Texas, Chapter 352, Acts of the 50th Legislature, Regular Session, 1947, as amended (Article 6228a, Vernon's Texas Civil Statutes),

may: (1) continue membership; (2) become a member of the other systems for the purpose of establishing or re-establishing creditable service in such other systems, provided that the total creditable service among such systems shall equal or exceed the minimum amount of creditable service required for a service retirement at age 60 in any class of membership in which he has performed service creditable in any of the systems. Service may not be claimed for the purposes of this Act unless such service has first been classified as creditable service in the system in which such service is to be established.

(b) Creditable service may not be granted for the purposes of this Act by any of the systems herein named if such service is credited by any other retirement system established under or governed by the laws of this state; provided further that credit for any service granted hereunder shall not thereafter be credited by any other retirement system or program established under or governed by the laws of this state.

<sup>1</sup> Education Code, § 3.01 et seq.

#### Membership Contributions

Sec. 3. (a) Credit for the purposes of this Act shall be established only upon proper certification by the authority having custody of the payrolls covering such service and upon payment of all contributions, interest, and membership fees due for eligible service approved by the system granting credit for such service. Any payment required shall be paid in a lump sum.

(b) If the service to be established has not heretofore been established the person claiming such service shall pay contributions equal to six percent of the applicable compensation rate of each month of such service; provided, however, the minimum contribution shall not be less than \$18 per month. Persons claiming such service shall pay interest on the contributions due at the rate of 10 percent per year dating from the date the service to be established was performed plus membership fees.

(c) If the service to be established is previous service canceled by a refund of contributions, the system in which service was canceled shall require the payment of all contributions previously refunded plus applicable interest and membership fees.

(d) Interest payments required by this Act shall be calculated on the basis of the state fiscal year.

(e) Membership fees shall be due and payable for each fiscal year in accordance with the laws governing the system granting credit for such service.

(f) A person who is a member, as an elective state official, and as such has creditable service of eight or more years in one of the employee retirement systems authorized by the Constitution and statutes of the State of Texas is eligible to claim retirement service credit for prior service he had as a federal employee. In

order to obtain credit for prior federal service, a person shall obtain such proof of prior federal service as is satisfactory to the Texas retirement system concerned and shall pay both the employee's share and employer's share of contributions, interest, and any membership fee for the years and months for which credit is sought. The contributions for prior federal service shall be computed and paid into the applicable Texas retirement system based on the contributions paid into the retirement system by the State of Texas and by the individual at the beginning of the person's service to the State of Texas as an elected state official. On proof of prior service and payment of contributions, interest, and membership fee as provided by this section, the person shall be granted retirement service credit for the prior federal service. No person may receive credit under this section, however, for more than six years of prior federal service. In computing the amount of prior federal service creditable, a person shall receive one year of retirement credit for each full year and one year of retirement credit for each 6 months or longer, but less than 12 months, that he worked as a federal employee. Credit for prior service as a federal employee may not be claimed under this section by any person who is, at the time of making claim for such service credit, receiving or eligible to receive, federal civil service retirement benefits, or retirement benefits based upon 20 years of full-time active federal military service, or the equivalent thereof.

(g) Any member while serving as a member of the legislature or in any statewide elective office shall, upon verification of service and payment of contributions, interest and fees as provided in this Act, be granted creditable service for previous employment as an assistant county attorney or as an assistant criminal district attorney in a county in which there was no district attorney at the time such service was performed. Contributions required of members claiming such service shall be based upon state salaries paid to district attorneys during the period of time for which such service is claimed, provided, however, the minimum contribution shall not be less than \$24 per month. Such service credit for previous employment as an assistant county attorney or as an assistant criminal district attorney shall be included in determining all death benefits and eligibility for selection of an optional death benefit plan and in calculating occupational disability retirement benefits. Such service credit for previous employment as an assistant county attorney or as an assistant criminal district attorney shall be included in calculating service retirement and non-occupational disability retirement benefits only if the member at the time of his retirement has 12 or more years creditable service as an elective state official exclusive of military service credit and service credit for previous employment as an assistant county attorney or as an assistant criminal district attorney.

**State Contributions**

Sec. 4. (a) The system in which such service is established shall receive from the general revenue fund of the state contributions in the amount required by the laws governing that system for all such service on which state contributions have not heretofore been paid.

(b) State contributions shall be paid in accordance with the prescribed procedure governing the system in which such service is established.

**Membership Benefits**

Sec. 5. (a) After establishing membership and creditable service, as provided herein, the member shall upon attaining age 60, or as otherwise provided by law, be entitled to proportionate service retirement benefits computed on the basis of his length of creditable service in each class of membership in any of the systems in which such service has been granted.

(b) Any eligible member may receive a service retirement annuity at age 60, or as otherwise provided by law, provided the total creditable service is equal to or exceeds the minimum amount of creditable service required for a service retirement in any class of membership in any of the systems for which he has been granted creditable service, and further provided that any service retirement annuity selection made under the provisions of this Act shall be the same in all systems. Each system shall be responsible only for the payment of that portion of the service retirement annuity which is computed for each class of service at the relative value of such service in the system in which it has been credited. Nothing herein shall authorize the combining of all such creditable service into one of the systems.

**Administration**

Sec. 6. (a) It is specifically declared to be the intention of the legislature that the three systems, as specified herein, shall cooperate fully, each with the others, so that funds of any of the systems not be used for the payment of benefits for services credited in any of the other systems.

(b) The provisions of this Act shall be mandatory on each board of trustees and the administrative officers of each system. and Fire Alarm Operators Pension System containing four hundred thirty-two thousand (432,000) or more inhabitants, according to the last preceding Federal Census, having a fully or partially paid Fire and Police Department, there shall be and there is hereby created a Board to consist of seven (7) members, as follows: the Mayor; two (2) Aldermen, Councilmen or Commissioners, each to serve on this Board for the term of office to which they were elected; and two (2) active firemen who shall be selected by the majority vote of the members of the Fire Department, which two (2) members shall be appointed by the governing body of the said city, one (1) for a term of two (2) years and the other for a term of four (4) years; and two (2) active policemen to be selected by the majority vote of the members of the Police Department, which two (2) members are also to be appointed by the governing body of the said city, one (1) for a term of two (2) years and the other for a term of four (4) years; all said members from the Fire and Police Department shall be elected by the contributors to the fund, as herein provided, and shall serve until their successors are elected and qualified, and their successors shall be appointed to serve for a term of four (4) years. The said appointees and their successors shall constitute the Board of Trustees of the Firemen, Policemen and Fire Alarm Operators Pension Fund, to provide for the disbursement of same, and to designate the beneficiaries thereof. The Board shall be known as the Board of Firemen, Policemen and Fire Alarm Operators Pension Fund Trustees of \_\_\_\_\_, Texas. A Board, as herein provided, shall be selected upon the enactment of this Act and shall hold its office until the next general election in such city for municipal officers, at which time a permanent Board shall be selected, as herein provided. The said Board shall organize by choosing one (1) member as Chairman, and by appointing a Secretary, which Board shall have charge of and administer said fund and shall order payments therefrom in pursuance of the provisions of this Act. It shall report annually to the governing body of such town or city, the condition of the said fund, and the receipts and disbursements on account of same, with a complete list of the beneficiaries of said fund, and the amounts paid them. The Board shall have the power and authority, by a majority vote, to reduce the percentages stipulated in any section or subsection of this Act which deals with disabilities or with awards granted to beneficiaries. The reduction shall be based upon the degrees of disability and circumstances surrounding the case. The Board shall have the complete authority and power to administer all of the provisions of this Act and any implied powers under this Act.

#### Investment Counselor; Qualifications

Sec. 1A. (a) The Board of Trustees may employ an investment counselor to advise the Board in the investment and re-investment of money in the Firemen, Policemen, and Fire

Alarm Operators' Pension Fund. The following will be eligible for employment as an investment counselor:

(b) The investment counselor shall receive such compensation as may be determined by the Board. The compensation of the investment counselor may be paid in whole or in part by the City, and if not paid by the City, the cost of the counseling service shall be paid from the Firemen, Policemen, and Fire Alarm Operators' Pension Fund.

#### Base Pay Defined

Sec. 1B. As used in this Article on and after October 1, 1971, the term "base pay," when used in reference to the plans of said pension fund existing prior to October 1, 1971, shall mean the maximum pay per month of a patrolman or private, exclusive of educational incentive pay.

#### Membership

Sec. 2. Each fully paid Fireman, Policeman and Fire Alarm Operator, in the employ of such city or town, who desires himself or his beneficiaries to participate in said Fund, shall file a written statement with the City Clerk, or Secretary, of his desire to participate in said Fund, and authorize said city or town to deduct not less than one (1%) per cent, nor more than the percentage determined under Section 3 of this Act, of his wages each month to form a part of the Fund known as The Firemen, Policemen and Fire Alarm Operators' Fund.

#### Deductions; Amount; Early Retirement; Donations

Sec. 3. On and after October 1, 1971, there shall be deducted for such fund, from the wages of each fireman, policeman and fire alarm operator in the employment of the said city or town, when he has filed application therefor, six and one-half percent (6.5%) of the wages earned by such employee, except that if approved by a majority vote of the participating members of the fund at an election held for the purpose, there shall be deducted an amount not to exceed nine percent (9%) of the wages earned by such employee, the amount and the date deductions shall begin to be as set in the election so held. Every contributor to said fund shall be required to pay into the fund on the base pay per month as defined in Section 1B hereof, and no more, except where otherwise provided by any amended plan that may be adopted under Section 11B hereof. Any amended plan adopted under said Section 11B by an election held for such purpose, which authorizes a member who meets all

the requirements for retirement set forth in Section 7 hereof, except that he has not attained the age of fifty (50) years, to choose to be retired at an earlier age fixed in such amended plan, may provide for the deduction of an amount not to exceed ten and seventy-five one-hundredths percent (10.75%) from such employee's wages, as defined in such amended plan, notwithstanding the percentage limitations hereinabove set forth. Any donations made to said fund and rewards received by any members of either of the departments and all funds received from any source for such fund, shall be deposited in like manner to such fund.

#### Conduct of Meetings

Sec. 4. The Board shall hold regular monthly meetings and other meetings upon call of its Chairman. It shall issue orders, signed by the Chairman and Secretary, to the persons entitled thereto of the amounts of money ordered paid to such persons from such Fund by said Board which order shall state for what purposes such payment is to be made. It shall keep a record of the proceedings, which record shall be of public record; it shall at each monthly meeting send to the City Treasury a written list of persons entitled to the payment from the Fund, stating the amount of such payment and for what granted, which list shall be certified and signed by the Chairman and Secretary of such Board attested under oath. The Treasurer shall enter a copy of said list upon the book to be kept for that purpose, which book shall be known as The Record Firemen, Policemen and Fire Alarm Operators' Pension Fund Board, of \_\_\_\_\_, Texas, and the said Board shall direct payment of the amounts herein to the persons entitled thereto out of said Fund. No money of said Fund shall be disbursed for any purpose without a majority vote of the Board, which shall be a "no" and "yes" vote entered upon the proceedings of the Board.

#### Custody of Fund

Sec. 5. The Treasurer of said city or town shall be Ex-officio Treasurer of said Fund. All money for said Fund shall be paid over to and received by the Treasurer for the use of said Fund, and the duties thus imposed upon such Treasurer shall be additional duties for which he shall be liable under his oath and bond as such city or town Treasurer, but he shall receive no compensation therefor.

#### Persons Eligible to Participate; Members in Armed Services

Sec. 6. Any person who, at the establishment of said Fund, or thereafter, shall have been duly appointed and enrolled in the Fire Department, Police Department, or Fire Alarm Operators Department of any such city or town within the provisions of this Act, and who has signed an application for participation in said Fund, and has allowed deductions from his salary under any former law and still is in good

standing, and who has filed written application within thirty (30) days after the organization of such Board, or who shall file his application within sixty (60) days after becoming a regular member of such Departments, and after he shall have served the usual probationary period, if any, and who shall have allowed such deductions from his salary; and in addition to the membership provided herein, any person heretofore duly appointed or enrolled in the Fire Department, Police Department, or Fire Alarm Operators Department of any such city or town who is not now a member of the Pension Fund, may file his application with the Board within sixty (60) days after this Act becomes effective and apply for participation therein; provided, however, that said applicant shall pass a physical examination of the same character that is required for original admission into the respective Department in which he serves, and provided that he shall pay into such fund a sum of money equal to the amount of salary deductions he would have paid had he joined immediately upon becoming eligible to participate in the benefits of said fund, as well as the beneficiaries hereinafter named shall be entitled to participate in said fund.

When any incorporated city containing the number of inhabitants stated in Section 1 of Chapter 173, page 292, Acts of the Regular Session of the 52nd Legislature,<sup>1</sup> is consolidated under one government with any other municipality which has maintained a fully paid Fire and Police Department, all permanent policemen and firemen duly appointed or enrolled in the Fire Department or Police Department of the city or town surrendering its corporate existence and who are thereafter duly and lawfully appointed, enrolled or transferred to the respective departments of the city retaining its corporate existence, shall be entitled to membership in the Fund, and the benefits thereof, upon compliance with the requirements of this Act which provides the exclusive procedure for obtaining and maturing any rights and benefits under Chapter 33, Acts of 1941,<sup>2</sup> including all amendments thereto. Written application for participation must be filed with the Board within sixty (60) days after becoming a member of either of such Departments of said city, and in addition shall pass a physical examination of the same character that is required for original admission into the respective departments in which he subsequently serves, and provided he shall pay into such fund within a year the sum of money equal to the salary deduction he would have paid had he been eligible to membership upon becoming a policeman or fireman in any other city or town, and shall also allow the deductions from his current salary as therein provided. The benefits of this Fund accruing to such policemen or firemen shall be all of the benefits accruing to other policemen or firemen generally under the provisions of the original Act of which this is an amendment, and accruing to his years of service, the time he was legally and regularly employed as a policeman or fireman in such other

city or town. No policeman or fireman coming under the applicable provisions of this Section shall be entitled to the full benefits of this Act until all of the money herein required to be paid has been in fact paid to the custodian of the Fund. The custodian of the Fund shall certify to the governing body of the city the fact of compliance with this section, and the said governing body shall appropriate to said Pension Fund from any available funds a sum of money equal to the contributions it would have made had such policeman or fireman been originally employed by the consolidated city retaining its corporate existence. The provisions of this Act shall never be construed as permitting a policeman or fireman to be a member of more than one Pension Fund or to again become a contributing member of the Pension Fund where he is now, either for himself or his heirs receiving any payments from said Fund by reason of any service with the City Police and Fire Departments of the city retaining its corporate existence.

Any member of the Firemen, Policemen and Fire Alarm Operators Pension Fund at the time of the commencement of the Korean conflict; or who may hereafter become a member of said Pension Fund during said conflict or other national emergency connected therewith, who has entered the armed services of the United States or who may hereafter enter the armed services of the United States in any of its branches, voluntarily or involuntarily, or who may be called into the armed services as a member of the Organized Reserve Corps or Texas National Guard upon being released or discharged from said armed service of the United States, and upon his return to duty with the Fire Department, the Police Department, or Fire Alarm Operators Department of any city within the provisions of this Act, may make the payments into said Pension Fund that he would have paid, or would have been required to pay had he remained in said Fire Department, Police Department, or Fire Alarm Operators Department, without interest, within a period of one (1) year from the date of his re-entry into the service of the Department of which he was a former member, and shall be entitled to each and every benefit of said Firemen, Policemen and Fire Alarm Operators Pension Fund and his service shall be computed as being continuous for the purpose of benefits, longevity and retirement, and for all other purposes provided in the Firemen, Policemen and Fire Alarm Operators Pension Act for those members of the Firemen, Policemen and Fire Alarm Operators Pension Fund who remained and continued in that service; provided, however, that payments hereinabove referred to must be made in a lump sum, and until so made the provisions of these rules shall not apply and no person shall be entitled to the benefits hereof until such payment has been made in full. Any member of said Departments, at his option, who has already entered the armed service of the United States, or who may hereafter enter the armed service of the

United States, voluntarily or involuntarily, may make such contributions to the Pension Fund monthly as though he were an active member of said Department, so that upon his return from the armed service he will have kept his payments into said Pension Fund current; provided, however, if any such member who makes such contributions monthly, dies while in the armed service of the United States or becomes disabled so as to prevent him from further rendering service as a Fireman, Policeman or Fire Alarm Operator, then and in that event the contributions made by said member, in the event of death, shall be returned to his legal beneficiaries designated under the Pension Act, and no benefit to a widow or dependent shall accrue; and in the case of disability, the contributions made by the member during the time he was in the armed service of the United States shall be returned to him without interest. In the event any member of the Pension Fund shall die or become disabled through illness or injury while in the armed service of the United States, such member's widow, dependents or beneficiaries named in the Pension Act shall not be entitled to any of the benefits under the Pension Act; nor shall such injured or disabled member be entitled to any disability compensation; provided however, if any member becomes disabled through injuries or illness while in the armed service of the United States, and such member has had twenty years service and membership in the Pension Fund, then his beneficiaries, in case of death, or such member in case of disability injury while in the armed service shall be entitled to the benefits of the Pension Law. All pensions and benefits heretofore granted to such members under any law, or city charter of any city within the provisions of this Act, in force prior to the passage of this Act, such members having served in the armed forces of the United States in conformity with such prior law, or city charter, and having complied with the provisions of such law, or such city charter, are hereby validated.

<sup>2</sup> This article.

**Certificate of Retirement; Retirement Benefits; Eligibility Requirements; Disability Pension; Rights Upon Leaving Service**

Sec. 7. Where any member of said departments shall have contributed a portion of his salary as provided herein, and shall have served twenty (20) years in either of said departments, he shall be issued a certificate of retirement, which said certificate shall thereafter be incontestable. The issuance of such certificate shall be mandatory upon the board; provided, however, that when said member reaches the age of fifty (50) years he may, after making application, be retired. No person to whom such certificate shall have been issued who has not reached the age of fifty (50) years shall be entitled to receive any retirement benefits until he reaches the age of fifty (50) years, and then upon his application. If

any such member shall voluntarily or involuntarily leave the service of the city after he has received such certificate and before he reaches the age of fifty (50) years, he shall not be entitled to participate in the benefits of this Act until he is fifty (50) years of age; provided, however, that if any such member voluntarily or involuntarily leaves the service of the city and thereafter becomes physically disabled before he reaches the age of fifty (50) years, he shall be entitled to apply for, and the board may grant to him, a disability pension in accordance with this Act, unless such disability was caused by his committing a felony or by an intentional self-inflicted injury, which said pension shall become a retirement pension subject to the provisions of this Act upon his reaching the age of fifty (50) years. In the event such member so retiring, voluntarily or involuntarily, after he has such certificate and before he reaches the age of fifty (50) years, shall die, then his widow or children, or other dependents named in this Act, if any, shall be entitled to share in the benefits of this Act. A member retiring under the provisions of this Act shall receive one-half ( $\frac{1}{2}$ ) of the salary received by him at the time of his retirement; provided, however, that in no instance shall the monthly pension allowance awarded him be in excess of one-half ( $\frac{1}{2}$ ) of the base pay per month, as defined in Section 1B hereof, plus one-half ( $\frac{1}{2}$ ) of the service money granted to the member under any provision of any state law or any city charter of any city within the provisions of this Act; which pension allowance shall be computed on the basis of the current payroll. This pension allowance, set out above based on the current payroll, shall be granted to the man going on the pension fund as well as the man already on the pension. Any member reaching the age of sixty-five (65) years and having served twenty (20) years in either of the departments, and who has not then retired from such departments, may be summoned before the board for the purpose of determining whether or not he should be retired under the provisions of this Act.

#### Certificate of Retirement

Sec. 8. When any member of the fire department, police department or fire alarm operators' department has been issued a certificate of retirement under the provisions of Section 7 of this Act, he shall be entitled, after having received said certificate, to one-half ( $\frac{1}{2}$ ) of the base pay per month as defined in Section 1B hereof, plus one-half ( $\frac{1}{2}$ ) of the service money granted to the member under any provision of any city charter, which pension allowance shall be computed on the basis of the current payroll. The pension allowance set out above, based on the current payroll, shall be granted to the man going on the pension as well as the man already on the pension. The said certificate shall further state that in case of death, or in case where he becomes permanently disabled, he shall be and his benefi-

ciaries shall be entitled to the same awards and rights to participate in the provisions of this Act and any other Act heretofore or hereafter made, as well as any of the provisions of the city charter heretofore or hereafter made, as he would have had before the said board issued his certificate of retirement. The said certificate shall be signed by the mayor, or mayor pro tem, or city manager, if such city has a city manager, and by the chairman of the pension board of firemen, policemen and fire alarm operators, and attested under the seal of the city by the city secretary.

#### Pensions to Disabled or Diseased Members

Sec. 9. When any member of the fire department, police department, and fire alarm operators' department of the city or town within the provisions of this Act, and who is contributing to said fund, as herein provided, shall become so permanently disabled through injury or disease, unless such disability was caused by his committing a felony or by an intentional self-inflicted injury, as to incapacitate him from the performance of his duties, and shall make written application subject to medical examination for such injuries or disease, he shall be retired from the service and be entitled to receive from the said fund one-half ( $\frac{1}{2}$ ) the base pay per month as defined in Section 1B hereof, plus one-half ( $\frac{1}{2}$ ) of the service money granted to the member under the provisions of any state law or any city charter of any city within the provisions of this Act; which base pay per month as defined in Section 1B hereof, shall be computed on the basis of the current payroll. The pension allowance shall be granted to the man going on a pension as well as to the man already on the pension at the time he became disabled or diseased, the same to be paid in monthly installments, which monthly installments shall in no instance exceed one-half ( $\frac{1}{2}$ ) of the base pay per month as defined in Section 1B hereof, plus one-half ( $\frac{1}{2}$ ) of the service money granted to the member under the provisions of any state law or any city charter of any city within the provisions of this Act. In no case shall a disability claim be acknowledged or award made hereunder until disability has been proven to be continuous and the member wholly incapacitated for a period of not less than ninety (90) days.

#### Death Benefits to Widow and Minor Children of Member

Sec. 10. In case of the death before or after retirement of any member of the fire department, police department, or fire alarm operators' department of any city or town within the provisions of this Act, from disease contracted or injury received and who at the time of his death or retirement was a member of either of said departments and a contributor to the said fund, leaving a widow, child or children under seventeen (17) years of age, the widow and such child or children shall be entitled to receive from the said fund an amount not to exceed one-half ( $\frac{1}{2}$ ) of the base pay per month as defined in Section 1B hereof, plus one-half

( $\frac{1}{2}$ ) of the service money granted to members under the provisions of any state law or any city charter of any city within the provisions of this Act; one-half ( $\frac{1}{2}$ ) of the widow's amount in the aggregate shall go to the children under seventeen (17) years of age, and the balance of one-half ( $\frac{1}{2}$ ) for the widow. No child of any such member resulting from any marriage contract subsequent to the date of the retirement of such member, shall be entitled to a pension under this Act. In case there are no children, the widow shall receive one-fourth ( $\frac{1}{4}$ ) of the base pay per month as defined in Section 1B hereof plus one-fourth ( $\frac{1}{4}$ ) of the service money granted to members under the provisions of any state law or any city charter of any city within the provisions of this Act. The one-fourth ( $\frac{1}{4}$ ) awarded to the children shall be paid by the board to the widow, who shall equally and uniformly distribute the amount among the children. In no instance shall the amount received by the widow, child or children, exceed a pension allowance of one-half ( $\frac{1}{2}$ ) of the base pay per month as defined in Section 1B hereof, plus one-half ( $\frac{1}{2}$ ) of the service money granted to members under any state law or any city charter of any city within the provisions of this Act. Where the board, after a thorough examination and by a majority vote in favor thereof, determines that the child or children are unable to and lack the proper discretion to handle said amount provided herein for them, it shall designate and appoint said child's or children's natural guardian as custodian of said fund. Where there is no parent and natural guardian living, the board shall have the power and authority to designate a suitable person to receive and administer the said fund; which said party shall receive for such child or children under the age of seventeen (17) years, one-fourth ( $\frac{1}{4}$ ) of the base pay per month as defined in Section 1B hereof, and one-fourth ( $\frac{1}{4}$ ) of the service money granted to members under any state law or any city charter of any city within the provisions of this Act, per month. The said party designated by the board shall receive his authority and power according to established legal practice. When any child or children, who are beneficiaries under this Act, shall reach the age of seventeen (17) years, then such child or children, if any, shall no longer participate in the division of said wages of said deceased, but the same shall be paid to the remaining child or children, if any, under seventeen (17) years of age. In no case shall the amount paid to any one family exceed the amount of one-half ( $\frac{1}{2}$ ) of the base pay per month as defined in Section 1B hereof, plus one-half ( $\frac{1}{2}$ ) of the service money granted to members under the provisions of any state law or any city charter of any city within the provisions of this Act. Upon the remarriage of the widow, either statutory or common law, or the marriage of any child granted such pension, the pension shall cease. No widow of any such member resulting from any marriage contract subsequent to the date of the retirement of said

member, shall be entitled to a pension under this Act.

Death Benefits to Dependent Father and Mother  
of Member

Sec. 11. If any member of the fire, police, and fire alarm operators' department of any city within the provisions of this Act dies from injury received or disease contracted, who was a member of either of such departments and a contributor to said fund and entitled to participation in said fund himself, leaves no widow or child but leaves surviving him a dependent father and mother wholly dependent upon said person for support, such dependent father and mother shall be entitled to receive one-half ( $\frac{1}{2}$ ) of the base pay per month as defined in Section 1B hereof, plus one-half ( $\frac{1}{2}$ ) of the service money granted to members under the provisions of any state law or any city charter of any city within the provisions of this Act, to be equally divided between said father and mother, so long as they are wholly dependent. Where there is one dependent, either father or mother, the board shall grant the surviving dependent one-fourth ( $\frac{1}{4}$ ) of the base pay per month as defined in Section 1B hereof, plus one-fourth ( $\frac{1}{4}$ ) of the service money granted to members under any provisions of any state law or any city charter of any city within the provisions of this Act. The board shall have authority to make a thorough investigation and from investigation determine the facts as to the dependency of the said parties and each of them, as to how long the same exists; and may, at any time, upon the request of any contributor to such fund, reopen any award made to any of said parties and discontinue such pension as to all or any of them as it may deem proper; and the findings of said board in regard to any matters, as well as to all pensions granted under this Act, shall be final upon all parties seeking a pension as a dependent of said deceased, or otherwise, until such award of the trustee shall have been set aside or revoked by a court of competent jurisdiction.

#### Art. 6243d-1. Policemen's Relief and Retirement Fund

##### Creation of Fund; Definitions

Sec. 1. There is hereby created in all incorporated cities in this State having a population of two hundred and ninety thousand (290,000), or more, according to the preceding Federal Census, a fund to be known as the policemen's relief and retirement fund. Said fund shall be administered in each such city by a board to be known as the policemen's relief and retirement board.

The expression "pension fund," as used herein, shall mean the policemen's relief and retirement fund. The expression "pension board," as used in this Act, means the policemen's relief and retirement board of each such city. All members of the police department of any such city shall participate in said pension fund, and shall be subject to all of the provisions of this Act, save and except special officers, part-time officers, janitors, car washers, and cooks. With the exceptions just named, it is the intention hereof to include everyone who is designated by any such city as a member of said police department, regardless of the particular duty or duties performed by such person. The expressions "member" and "members," as used in this Act, mean members of any such police department who are entitled to participate in said pension fund as above set forth, that is, the entire personnel of any such police department, save and except special officers, part-time officers, janitors, car washers, and cooks, in each city.

##### Pension Board

Sec. 2. Said pension board in each such city shall consist of one person to be appointed by the mayor and confirmed by the city council or governing body of such city, the city con-

troller, or, if there be no city controller, then the person discharging the duties of the city controller in such city, and three (3) persons to be elected from the police department by the members. As soon as practicable after the effective date of this Act, said members of each such police department shall elect said three (3) members of said pension board, one to be elected until the next succeeding January 1st thereafter, and two (2) to be elected until the second January 1st following such election, and thereafter, as the terms expire, new members to said pension board shall be similarly elected to hold office until the second January 1st following their respective elections. In case of vacancies, new members shall be elected to serve the unexpired term. All persons elected to said pension board shall hold office until their successors are elected and qualified. Any member shall be eligible to election to said pension board.

Said pension board shall annually elect a chairman, vice-chairman, and a secretary, from the members of said pension board. Each one so elected, shall serve until his successor is elected.

A meeting of said pension board may be called at any time by the chairman, secretary, or by any two (2) members of such pension board. Three (3) members of said pension board shall constitute a quorum for the transaction of business.

Each member of said pension board shall take an oath that he will well and faithfully perform the duties of a member of such pension board.

No moneys shall be paid out of the pension fund except upon an order by said pension board, duly entered in the minutes.

#### Treasurer of Pension Fund

Sec. 3. The city treasurer of any such city, or the person discharging the duties of the city treasurer, is hereby designated as the treasurer of the said pension fund for said city, and his official bond to said city shall operate to cover his position of treasurer of said pension fund. All moneys of every kind and character collected or to be collected for said fund, shall be paid over to said treasurer, and shall be administered and paid out only in accordance with the provisions of this Act.

#### Per Capita Contributions

Sec. 4. Commencing with the next calendar month, immediately following the effective date of this Act, per capita contributions of all such members of each such police department as participate in such fund, as aforesaid, shall be made to said fund. Said monthly per capita contribution shall be made as follows: The salary and future salary of each member participating in such fund is hereby reduced Three Dollars (\$3) per month, but said Three Dollars (\$3) per month shall be paid by such city into the said pension fund. No other money paid into said pension fund, however, shall be

counted as a part of salary, under any law or ordinance fixing or pertaining to salaries of members, of any such police department.

#### Accumulated Funds

Sec. 5. In all such cities where a general pension fund for city employees has been accumulated but has not been put into operation at the effective date of this Act, the governing body of each such city shall segregate from said fund, the proportion which the total number of members of the police department (eligible to said pension fund) bears to the entire number of all city employees, for whose benefit said fund was accumulated, and shall set aside such sum into the policemen's relief and retirement fund.

#### Assignments of Salary to Fund

Sec. 6. Any members who have or may have any back or past due salary due them, from any such city, may assign all or any portion of such back salary to said pension fund, and such assignments as have or may hereafter be executed by any such members, are hereby validated and shall be recognized by the governing body of any such city, and such sums, if any, shall be paid into the said pension fund.

#### Appropriations to Fund Out of General Funds of City

Sec. 7. Any such city may make additional appropriations from time to time out of its general fund, or otherwise, into the said pension fund, and hereafter when any such city shall make any appropriations for pensions of city employees or place any money into any such account, the proportionate amount thereof shall be placed in the policemen's relief and retirement fund. Said pension fund may also be augmented as follows: By the giving of entertainments and benefit performances; by gifts or donations from any person, firm, or corporation; all rewards hereafter paid to or due individual members for, or on account of service rendered by them as members of the police department, shall be paid into such fund; and said pension fund shall also participate in funds otherwise provided or that shall hereafter be provided by law pertaining to police-pensions of cities of the class herein provided for.

#### Investment of Surplus Funds

Sec. 8. Whenever, in the opinion of the said pension board, there is on hand in said pension fund, a surplus over and above a reasonably safe amount to take care of current demands upon such funds, such surplus, or so much thereof as in the judgment of the said pension board is deemed proper, may be invested in securities of the United States, the State of Texas, or of counties, school districts, or municipal corporations. No investment shall be made, however, which does not meet with the approval of the city controller, if any, of such city.

#### Benefits to Begin Not Prior to January 1, 1942

Sec. 9. No benefits of any kind shall be paid out of said fund prior to January 1, 1942.

## Pension Rates

Sec. 10. From and after January 1, 1942, any member who shall have been a member of such police department for the period of twenty-five (25) years, and who shall have reached the age of fifty (50) years, shall be entitled to a retirement pension of Seventy-five Dollars (\$75) per month for the rest of his life upon his retirement from said police department. Upon the completion of the said twenty-five (25) years of service, such pension board shall issue to him a certificate showing that he is entitled to said retirement pension, and thereafter, when such member retires from the police department, whether such retirement be voluntary or involuntary, such monthly payments shall forthwith begin, and continue for the remainder of said member's life. Provided, however, that payments shall not commence until such member is fifty (50) years of age, and further provided that members who are eligible for a pension but who continue in the department shall make their per capita contributions until they retire from the department.

In computing the twenty-five (25) years service required for retirement pension, interruption of less than one year out of service, shall be construed as continuous service and such period out of service shall not be deducted from the twenty-five (25) years, but if out for more than one year and less than five (5) years, credit shall be given for prior service, but deduction made for the length of time out of service. If out of service more than five (5) years, no previous service prior to said time shall be counted.

Service with any such city in some other department, prior to January 1, 1939, shall be included in the twenty-five (25) years above provided for, but service after January 1, 1939, must be in the police department. The pension board may, within its discretion, provide for the payment of such retirement pension to a former member or members of the police department who have heretofore served for the twenty-five-year period and who have reached the age of fifty (50) years, and it is the intention hereof to include in the group of former members those who have heretofore been retired by any such city and who are drawing partial pay or compensation from such city.

## Disability Resulting From Performance of Duty

Sec. 11. If any member shall become totally or permanently disabled as a direct and proximate result of the performance of duties in the police department, said member shall be retired on a pension of Seventy-five Dollars (\$75) per month.

By total and permanent disability is meant such disability as permanently incapacitates a member from performing the usual and customary duties of a police officer.

Before any retirement on disability pension is made, the pension board shall require such medical examination and such other evidence

as it may see fit to establish such total and permanent disability, as above provided.

When any member has been retired for total and permanent disability, he shall be subject at all times to re-examination by the pension board and shall submit himself to such further examination as the pension board may require. If any member shall refuse to submit himself to any such examination, the pension board may within its discretion, order said payment stopped. If a member who has been retired under the provision of this Section, should thereafter recover so that in the opinion of the pension board, he is able to perform the usual and customary duties of a police officer, and such member is reinstated or tendered reinstatement in the police department, then the pension board shall order such payments stopped.

Said pension board may, at its discretion, retire on said permanent and total disability pension, those members of said police department who have heretofore become totally and permanently disabled, as that term is above defined.

## Death Resulting From Performance of Duty

Sec. 12. Should any such member die, as a direct and proximate result of injuries received or sickness incurred in line of duty in said police department, the pension board shall order paid to the beneficiaries hereinafter designated, the sum of Seventy-five Dollars (\$75) per month for a period of ten (10) years. Such beneficiaries shall be as follows: The surviving wife, surviving children under the age of sixteen (16) years, and the dependent parent or parents, if any. If there be neither surviving wife, children under the age of sixteen (16) years, nor dependent parents, then no payments shall be made on account of the death of any such member. If there be a surviving wife, but no children under the age of sixteen (16) years, then the entire payment of Seventy-five Dollars (\$75) per month shall be made to such surviving wife. If there be a surviving wife and children under the age of sixteen (16) years, then the payments shall be Thirty-seven Dollars and Fifty Cents (\$37.50) per month to the wife and Thirty-seven Dollars and Fifty Cents (\$37.50) per month payable to the legal guardian of such children, to be administered in accordance with the orders of the Probate Court. As each child becomes sixteen (16) years of age, the children's part of Thirty-seven Dollars and Fifty Cents (\$37.50) per month shall thereafter be for the use and benefit of the children who then remain under the age of sixteen (16) years. When there are no longer any children under the age of sixteen (16) years, the entire amount of Seventy-five Dollars (\$75) per month shall be paid the surviving wife. When there is no surviving wife, but there are surviving children under the age of sixteen (16) years, the entire Seventy-five Dollars (\$75) per month shall be paid to the legal guardian of such children under the age of sixteen (16) years, but such payment shall not

be made for or on account of any child after said child reaches the age of sixteen (16) years. Should such surviving wife thereafter die, then the entire Seventy-five Dollars (\$75) shall likewise be paid for the benefit of such children as remain under the age of sixteen (16) years. If there be neither a surviving wife nor surviving children under the age of sixteen (16), then such payments shall be made to the dependent parent, or parents, if any, of such deceased member. If there be two (2) dependent parents, then the Seventy-five Dollars (\$75) per month shall be divided equally between them, but if there be only one dependent parent, the Seventy-five Dollars (\$75) per month shall be paid to said parent.

The term "dependent parent" means a parent who is principally dependent upon said member for a livelihood.

By the term "surviving wife" is meant the woman, if any, who is the lawful wife of said member at the time of his death.

No death benefits whatever shall be paid after the expiration of ten (10) years from the death of any said member, and no beneficiary shall ever receive more than Seventy-five Dollars (\$75) per month.

In the event of women members of the department, their surviving husbands shall be entitled to the same rights and benefits as have the wives of the male members.

#### Pension to Dependents, When

Sec. 13. When any member who has been retired upon pension, whether retirement pension or disability pension, or when any member who has a pension certificate shall thereafter die from any cause, his pension of Seventy-five Dollars (\$75) per month shall be payable to his dependents, if any, as is provided in the next preceding Section hereof, but only for the unexpired portion of ten (10) years. In computing said ten (10) years, such length of time as a pension may have been paid to said member during his lifetime shall be deducted from such ten-year period, and such dependents shall receive said payment only for the unexpired term of ten (10) years.

#### Refunds on Leaving Service

Sec. 14. If any such member shall leave such police department either voluntarily or involuntarily before he is entitled to a pension, he shall have refunded to him the deductions from his salary, which have been paid into said pension fund. Said payments may be made to him, either in a lump sum or on a monthly basis, as may be determined by the pension board.

Provided, however, that this Section shall be subject to Section 10 and upon a re-entry into the department all such refunds shall be paid back into the pension fund or prior service of such member shall not be counted toward his retirement pension.

#### Reduction of Benefits Authorized in Case Fund Is Depleted

Sec. 15. In the event said pension fund becomes seriously depleted, in the opinion of the pension board, said pension board may proportionately and temporarily reduce the benefits of all pensioners and beneficiaries, but such reductions shall thereafter be paid to such pensioners or beneficiaries as and when said fund is, in the opinion of the pension board, sufficiently re-established to do so.

#### Legal Counsel for Board

Sec. 16. The city attorney of any such city shall render such legal service, and without additional compensation, as such pension board may request him to do. The pension board may, if it deems necessary, employ additional legal assistance and pay reasonable compensation therefor, out of said police pension fund. Said pension board, may at its discretion, from time to time, employ the services of an actuary, and pay him reasonable compensation out of said police pension fund.

#### Pensions Not Subject to Execution, Etc.

Sec. 17. No portion of any such pension fund, either before or after its order of disbursement by said pension board, and no amounts due or to become due any beneficiary or pensioner, under this Act, shall ever be held, seized, taken, subjected to, detained, or levied upon by virtue of any execution, attachment, garnishment, injunction, or other writ, and no order or decree, or any process or proceeding whatsoever, shall issue out of or by any Court of this State for the payment or satisfaction in whole or in part out of said pension fund, of any debt, damage, claim, demand, or judgment against any such members, pensioners, dependents, or any person whomsoever, nor shall such police pension fund or any part thereof, or any claim thereto be directly or indirectly assigned or transferred and any attempt to transfer or assign the same or any part thereof, or any claim thereto, shall be void. Said fund shall be sacredly held, kept, and disbursed for the purposes provided by this Act, and for no other purposes whatsoever.

#### Severability Clause

Sec. 18. If any provision, section, part, subsection, sentence, clause, phrase, or paragraph of this Act be declared invalid or unconstitutional, the same shall not affect any other portion or provision hereof and all other provisions shall remain valid and unaffected by any invalid portion, if any.

#### Act to be Cumulative to Other Laws

Sec. 19. The provisions hereof shall be cumulative of and in addition to all other laws relating to pensions, which laws are hereby preserved and continued in force and effect, provided, however, that in the event of any conflict, the provisions of this law shall control, and police departmental pensions in the

cities covered by this Act shall be administered in accordance with this law.

(b) in the event the widow dies after being entitled to her allowance as herein provided or in the event there be no widow to receive an allowance, then the amount to be paid to the guardian of any dependent minor child or children under the age of eighteen (18) years shall be Forty Dollars (\$40) per month for each such dependent minor child; and

(c) to the dependent parent only in case no widow or child is entitled to allowance, the amount the widow would have received to be paid to but one (1) parent and such parent to be determined by the Board of Trustees;

provided, however, that the total allowance to be paid all beneficiaries or dependents as herein provided shall not exceed the monthly allowance to be paid the pensioner had he continued to live or be retired on allowance at the date of his death; and further provided, that if such amount be insufficient to pay the full schedule of benefits as herein provided, such benefits shall be prorated. Allowance or benefits payable to any minor child shall cease when such

child becomes eighteen (18) years of age or marries.

(c) Provided, however, that the provisions of this Section shall not apply if the death or disability of the fireman was caused while such fireman was gainfully employed by someone other than the respective fire department for which he was employed or contributed his services.

(d) Any city with a population of less than one hundred twenty-five thousand (125,000), according to the last preceding Federal Census, which has a full paid fire department may, upon a majority vote of the members of the fire department, pay the pension allowances provided by this section even though the fireman was killed or disabled while he was gainfully employed by someone other than the respective fire department for which he was employed or contributed his services.

(e) The provisions of this Section as amended shall be automatically applicable to any relief and retirement fund in which such Section was included by majority vote of the members prior to the effective date of this amending Act, provided, however, that the paragraph providing benefits for surviving beneficiaries of a member of a "full paid" fire department shall only be applicable to beneficiaries of a member of a "full paid" fire department. Provided further, however, that the provisions of this Section shall not be applicable to any particular relief and retirement fund in which such Section was not included prior to the effective date of this amending Act until after an election has been held and the majority of the participating members of that respective fund have voted to include the provisions contained in this Section within the Relief and Retirement Fund. At such election the effective date of these provisions shall also be set.

Cities of 1,200,000 or More; Disability Retirement;  
Amount of Pension; Service Retirement  
Election

Sec. 7B. (a) Whenever a person serving as an active fireman duly enrolled in any regularly active fire department and participating in a fund in any city in the State having a population of one million, two hundred thousand (1,200,000) or more according to the last preceding Federal Census, which city is now within or may come within the provisions of this Act, shall become physically or mentally disabled while in and/or as a consequence of the performance of his duty or shall become physically or mentally disabled from any cause whatsoever after he has participated in a fund for a period of twenty (20) years or more, said Board of Trustees shall, upon his request, or without such request, if they determine that such fireman is not capable of performing the usual and customary duties of his classification or position, retire such fireman on a monthly disability allowance of an amount equal to fifty percent (50%) of his average monthly salary for the highest thirty-six (36)

months during his service, or so much thereof as he may have served.

(b) If such fireman was eligible to be retired under the provisions of Section 6B, he may elect to have his monthly pension allowance calculated under that section.

Cities of 1,200,000 or More; Death or Disability From Cause Other Than Performance of Duties; Monthly Pension Allowance to Fireman or Beneficiaries; Computation; Service Retirement Election; Annual Adjustments

Sec. 7C. (a) Whenever a person serving as an active fireman duly enrolled in any regularly active fire department and participating in a fund in any city in the State having a population of one million, two hundred thousand (1,200,000) or more according to the last preceding Federal Census, which city is now within or may hereafter come within the provisions of this Act, shall die or become disabled from any cause other than a disability acquired in the performance of his duty as a fireman, a monthly pension allowance shall be paid to such fireman or his beneficiaries.

(b) Such monthly pension allowance shall be computed as follows:

(1) If such fireman shall become disabled, he shall be paid a monthly pension allowance equal to twenty-five percent (25%) of the average monthly salary of such fireman, plus two and one-half percent (2½%) of such average monthly salary for each full year of service and of participation in a fund, provided, however, that such monthly pension allowance shall not exceed fifty percent (50%) of such average monthly salary. The average monthly salary shall be based on the monthly average of such fireman's salary for the highest thirty-six (36) months during his service, or so much thereof as he may have served preceding the date of such retirement.

(2) If such fireman was eligible to be retired under the provisions of Section 6B, he or his beneficiaries may elect to have their monthly pension allowance calculated under that section.

(3) If such fireman shall die and shall leave surviving him both a widow who married such fireman prior to his retirement, and a child or children of such fireman under the age of eighteen (18) years, said Board of Trustees shall order paid to the widow of such fireman, a monthly pension allowance equal to one-half (½) of the amount such fireman would have been entitled to receive, if disabled, under the provisions of Subdivision (1) of this subsection; and in addition thereto the Board of Trustees shall order paid to such widow or other person having the care and custody of such child or children under the age of eighteen (18) years a monthly pension allowance, for the use and benefit of such child, or children, equal to the amount hereinabove provided for the widow. If

such fireman shall leave no child under the age of eighteen (18) years surviving him or if at any time after the death of such fireman no child is entitled to allowance, then the monthly pension allowance to be paid such widow, shall be equal to the full amount such fireman would have been entitled to receive, if disabled under Subdivision (1) of this subsection; provided, however, that such allowance to a widow, as herein provided if no child is entitled to allowance, shall not exceed one-half ( $\frac{1}{2}$ ) of the maximum base salary for the position of pipeman at the time of the death of such fireman.

(4) If such fireman shall die and if his widow dies after being entitled to her allowance as herein provided, or in the event that there be no widow to receive an allowance, then the amount of the monthly pension allowance to be paid, for use and benefit of the child or children under the age of eighteen (18) years, to the person having the care and custody of such child or children shall be computed as follows: an amount equal to one-half ( $\frac{1}{2}$ ) of the amount such fireman would have been entitled to receive, if disabled, under the provisions of Subdivision (1) of this subsection shall be paid for each of such fireman's children under the age of eighteen (18) years, provided that the total monthly pension allowance provided hereby for children shall not exceed the amount to which such fireman would have been entitled under Subdivision (1) of this subsection, nor shall such allowance for such children exceed one-half ( $\frac{1}{2}$ ) of the maximum base salary provided for the position of pipeman at the time of the death of such fireman.

(5) If such fireman shall die and only if no widow or child is entitled to an allowance under the provisions of this section, a monthly pension allowance equal to one-half ( $\frac{1}{2}$ ) of the amount such fireman would have been entitled to receive, if disabled, under Subdivision (1) of this subsection shall be paid to each parent of such deceased fireman upon proof to the Board of Trustees that such parent was dependent upon such fireman immediately prior to the death of such fireman, provided that the total monthly pension allowance provided hereby for parents shall not exceed one-half ( $\frac{1}{2}$ ) of the maximum base salary provided for the position of pipeman at the time of the death of such fireman.

(c) Allowance or benefits payable under the provisions of this section for any minor child shall cease when such child becomes eighteen (18) years of age or marries, provided, however, if a fireman who is covered by a provision of this Act dies and leaves a child who is totally disabled as a result of a physical or mental illness, injury, or retardation, that child is entitled to receive any pension allowance to which he is entitled under this Act and is fur-

ther entitled to continue receiving the allowance so long as he remains totally disabled. If the child is not entitled to a pension allowance under this Act solely because he is over the maximum age at the time of the death of his parent and the child is totally disabled as a result of a physical or mental illness, injury, or retardation, the child is entitled to receive as an allowance that to which he would have been entitled had he been under the maximum age at the time of the death of his parent.

(d) Provided further, that the provisions of this section shall not be applicable to a fireman or his beneficiaries if such fireman's death or disability results from suicide or attempted suicide before such fireman shall have completed two (2) years of service with the fire department for which he was employed.

(e) The wife of a deceased fireman who had served actively for a period of twenty (20) years or more in a regularly active fire department as defined in Subsection (a), above, shall, insofar as the provisions of this section are concerned, be considered the fireman's widow as long as she is not married, notwithstanding that she may have married and divorced or married after such fireman died and she became a widow. Provided, further, however, a widow covered under this section shall be limited to the pension allowance of the deceased member of this fund, to whom she was last married.

(f) The monthly pension allowance of beneficiaries of deceased firemen who retired after the effective date of this subsection shall have their monthly pension allowances provided for under this section or Section 12A adjusted annually in accordance with the Consumer Price Index for Urban Wage Earners and Clerical Workers as determined by the United States Department of Labor. The adjusted pension allowance shall never be less than the amount granted the beneficiaries upon the death of the member without regard to changes in the consumer price index. The adjusted pension allowance shall never be more than the amount granted the beneficiaries upon the death of the member increased by three percent (3%) annually notwithstanding a greater increase in the consumer price index.

Retirement for Disability; Cities of 240,000 to  
295,000 Population

Sec. 7D. (a) A person, serving as an active fireman duly enrolled in any regularly active fire department in any city or town in the state having a population of not less than two hundred forty thousand (240,000) nor more than two hundred ninety-five thousand (295,000), according to the last preceding Federal Census, who becomes totally and permanently disabled, the Board of Trustees shall, upon his request, or without his request if it shall deem proper and for the good of the department, retire such person from active service and order that he be paid from the Firemen's Relief and Retirement Fund of such city or town a month-

ly amount equal to his accrued unreduced pension as determined under Subsection (a), Section 6C. If a person becomes totally and permanently disabled while in or as a consequence of the performance of his duty, the amount to be paid shall not be less than Two Hundred Dollars (\$200) and if a person becomes disabled from any other cause, the amount to be paid shall not be less than One Hundred Dollars (\$100).

(b) When the disability of a person who has been granted a pension under Subsection (a) ceases, such pension shall be discontinued and such person shall be restored to active service at not less than the same salary he received at the time of his retirement for disability.

(c) The provisions of this section shall apply even though the fireman was disabled while gainfully employed by someone other than the respective fire department for which he was employed.

#### Cities With Fully Paid Fire Departments; Transfer of Firemen

Sec. 7E. (a) This Section applies to all cities having an organized "fully paid" fire department covered by a Firemen's Relief and Retirement Fund.

(b) A fireman who transfers from the fire department of one city to that of a city covered by this section and desires to participate in the fund of that city shall:

(1) be less than thirty-five (35) years old;

(2) pass a physical examination taken at his expense and performed by a physician selected by the Board;

(3) pay into the fund of that city an amount equal to the total contribution he would have made had he been employed by that city instead of the city from which he transferred, plus four percent (4%) interest.

(c) The city to which the fireman has transferred shall pay an amount equal to the amount it would have paid had the fireman been employed by that city instead of the city from which he transferred, plus four percent (4%) interest.

(d) No fireman may participate in the fund of the city to which he has transferred until he has complied with the provisions of this section.

#### Modification of Benefits and Eligibility

Sec. 7F. This section applies to all cities and towns which are now within or which may hereafter come within the provisions of this Act. The Board of Trustees, as prescribed by law, of any such city or town may modify or change in any manner whatsoever any of the benefits provided hereunder and may modify or change in any manner whatsoever any of the

eligibility requirements for such benefits provided that:

(1) the change or modification is first approved by a qualified actuary selected by a four-fifths vote of the Board of Trustees of the Firemen's Relief and Retirement Fund; such qualified actuary shall be a Fellow of the Society of Actuaries or a Fellow of the Conference of Actuaries in Public Practice or a Member of the American Academy of Actuaries;

(2) a majority of the participating members of the pension fund vote for the change or modification by a secret ballot;

(3) the change or modification applies to all firemen, both paid and volunteer, in any department at the time of the change or modification and those who enter the department thereafter. The change or modification may, but need not, apply to firemen no longer in the department who are either receiving or are entitled to receive benefits under the department's pension plan; and

(4) the change or modification does not deprive a member, without his written consent, of a right to receive benefits hereunder which have already become fully vested and matured in such member.

#### Pension Allowances for Totally Disabled Children of Firemen

Sec. 7G. (a) If a fireman who is covered by a provision of this Act dies and leaves a child who is totally disabled as a result of a physical or mental illness, injury or retardation, that child is entitled to receive any pension allowance to which he is entitled under this Act and is further entitled to continue receiving the allowance so long as he remains totally disabled. If the child is not entitled to a pension allowance under this Act solely because he is over the maximum age at the time of the death of his parent and the child is totally disabled as a result of a physical or mental illness, injury or retardation, the child is entitled to receive as an allowance that to which he would have been entitled had he been under the maximum age at the time of the death of his parent.

(b) This Section does not apply to any particular relief and retirement fund until after an election is held and the majority of the participating members of that fund vote to include the provisions of this Section within that fund.

#### Compensation on Temporary Disability

Sec. 8. Whenever any duly enrolled member of any regularly organized active fire department of any city or town now coming within or that may hereafter come within the provisions of this Act as herein limited, on account of accident or other temporary disability caused or sustained while in, and/or in consequence of the performance of his duties, be confined to any hospital or to his bed and/or shall require the professional services of a physician,

surgeon or nurse, said Board of Trustees shall upon presentation of properly itemized and verified bills therefor, order paid from the Firemen's Relief and Retirement Fund of that city or town, all necessary hospital, physician's, surgeon's, nurse's and/or medicine bills or expenses and not less than Five Dollars (\$5) nor more than Fifteen Dollars (\$15) per week to such fireman during such temporary disability; provided however, that in no case shall the amount or amounts so paid for such bills and expenses exceed the aggregate sum of One Hundred Dollars (\$100) in any one month; and provided further, that the benefits provided by this Section shall not apply to any city or town having a fully paid fire department.

#### Certificates of Disability

Sec. 9. No person shall be retired either for total or temporary disability, except as herein provided, nor receive any allowance from said Fund, unless and until there shall have been filed with the Board of Trustees, certificates of his disability or eligibility signed and sworn to by said person and/or by the city or town physician, if there be one, or if none, then by any physician selected by the Board of Trustees. Said Board of Trustees, in its discretion, may require other or additional evidence of disability before ordering such retirement or payment aforesaid.

Any fireman or beneficiary who shall be entitled to receive a pension allowance under any provision of this Act shall be entitled to receive such allowance from and after the date upon which such fireman ceases to carry out his regular duties as a fireman, notwithstanding the fact that such fireman may remain on the payroll of his fire department or receive sick leave, vacation or other pay after the termination of his regular duties as a fireman; provided that, in the event of a delay resulting from the requirements of the first paragraph of this section, such fireman or beneficiary shall, when such allowance is approved by the Board, be paid the full amount of the allowance which has accrued since the termination of such fireman's regular duties as a fireman.

If any fireman or one or more beneficiaries of a fireman shall be or become entitled to receive payments from a Fund under the provisions of more than one section of this Act, such fireman or beneficiaries shall be entitled to and shall be required to elect one section under which such payments shall be computed and paid; provided however, that any payments provided by Section 6A or Section 8 shall be made in addition to payments provided by any other section.

#### Contributions by Participants Deducted From Salaries

Sec. 10. Each city or town in which a Firemen's Relief and Retirement Fund has been created prior to the time at which this amending section of this Act takes effect and which has a part-paid or volunteer fire department, or the governing body of such city or town, shall henceforth be authorized to deduct from

the salary or compensation of each fireman who is participating in such Fund when this amending section takes effect, or to collect from each such fireman, whatever amount shall have been authorized, or agreed to, by the filing by such fireman, with the Secretary-Treasurers of the Board of Firemen's Relief and Retirement Fund Trustees of such fireman's city or town, of a statement in writing under oath that he desires to participate in the benefits from such Fund, giving the name and relationship of his then actual dependents and authorizing said city or town or the governing body thereof to deduct not less than one (1) per centum nor more than three (3) per centum, the exact amount thereof to be determined by the vote of the fire department of which such person is a member, from his salary or compensation if a part-paid fireman whose salary or compensation is more than Fifty Dollars (\$50) per month, but if a part-paid fireman whose salary is less than Fifty Dollars (\$50) per month, or if a volunteer fireman, the statement shall include a promise and an obligation to pay to said Board of Trustees not less than Three Dollars (\$3) nor more than Five Dollars (\$5) per annum to be paid semi-annually, the exact amount thereof to be likewise determined by vote of the fire department of which such person is a member. Such money so deducted from salaries or compensation or agreed to be paid to become and form a part of the Fund herein designated and established as Firemen's Relief and Retirement Fund of that city or town. Failure or refusal to make and file the statement herein provided, or failure or refusal to allow deduction from salary or to pay the amount herein specified as herein provided on the part of any member shall forfeit his right to participate in any of the benefits from said Firemen's Relief and Retirement Fund. If any such member shall elect not to participate in such Fund, he shall not be liable for any salary deduction nor to pay as herein provided.

#### Contributions and Membership; Cities of Less Than 210,000

Sec. 10A. (a) In all cities having fully paid firemen where Firemen's Relief and Retirement Funds now exist or shall be created under the provisions of this Act and having a population of less than two hundred ten thousand (210,000), inhabitants according to the preceding Federal Census, the city or the governing body of the city shall deduct an amount equal to no less than three per cent (3%) nor more than six per cent (6%) from the monthly salary or compensation of each participating member fireman.

(b) The amount of the monthly deductions which shall be contributed to the Firemen's Relief and Retirement Fund shall be determined by majority vote of the Fund members.

(c) Any city coming within the provisions set out in this Article shall also contribute and appropriate monthly to the Fund an amount equal to the total sum paid into the Fund by salary deductions of the members.

(d) Money deducted from salaries or compensation as provided by this Section and the payments and contributions provided by this Section shall become and form a part of the Firemen's Relief and Retirement Fund of the city or town in which the contributing fireman serves.

(e) In addition to the amount which the city is required to contribute, the governing body of a city may authorize the city to make an additional annual contribution to its Firemen's Relief and Retirement Fund in whatever amount the governing body of the city may fix.

(f) In the event a fireman terminates, resigns, or leaves the active full-time service of the fire department for any reason other than those for which pension benefits will accrue, and before he receives his twenty (20) year pension certificate not having completed twenty (20) years of active full-time service in the city's fire department, he shall receive an amount equal to the sum total of his monthly payments made while a participating member in the Firemen's Relief and Retirement Fund. However, no lump sum payment shall be made without prior approval by majority vote of the Board of Trustees. The adoption of a program to make lump sum payments to terminated firemen in the amount of their total monthly contributions, subject to approval by the Board of Trustees, shall be effective upon a majority vote of the participating members of the Firemen's Relief and Retirement Fund.

(g) However, a fireman who terminates his full-time service from the fire department having completed twenty (20) years of active full-time service and having received his twenty (20) year pension certificate shall make the following election:

(1) To receive an amount equal to the sum total of his monthly payments made while a participating member in the Firemen's Relief and Retirement Fund, or,

(2) To continue to make his monthly payments into the Firemen's Relief and Retirement Fund until he attains the age of fifty-five (55) years at which time he shall be entitled to receive and participate in all pension benefits which would have accrued to him as an active full-time employee.

(h) Each person who shall hereafter become a fireman in any city which has a Firemen's Relief and Retirement Fund to which he is eligible for membership, shall become a member of such Fund as a condition of his appointment, and shall by acceptance of such position agree to make and shall make contributions required under this Act of members of such Fund, and shall participate in the benefits of membership in such Fund as provided in this Act; provided, however, that no person shall be eligible to membership in any such Fund who is more than thirty-five (35) years of age at the time he first enters service as a fireman; and provided, further, that any such per-

son who enters service as a fireman may be denied or excused from membership in the Fund if the Board of Trustees of the Fund determines that such person is not of sound health. The applicant shall pay the cost of any physical examination required in such instance by the Board of Trustees.

(i) Each person who is an active member of a Firemen's Relief and Retirement Fund previously organized and existing under the laws of this State at the effective date of this amendment shall continue as a member of such Fund and he shall retain and be allowed credit for all service to which he was entitled in the Fund of which he was a member immediately prior to the effective date of this amendment.

#### Pension Contribution Funds; Cities of Less Than 210,000

Sec. 10A-1. In all cities having fully paid firemen where Firemen's Relief and Retirement Funds now exist or shall be created under the provisions of this Act and having a population of less than two hundred ten thousand (210,000), according to the last preceding Federal Census, the pension contributions paid by a fireman shall not be refunded to him if the fireman is separated from the service of the fire department for any reason other than those qualifying said fireman for a pension, nor shall his beneficiary or estate receive any amount paid by him into the pension fund or any interest his contributions have accrued.

Provided further, however, a fireman who comes within the preceding paragraph may have his pension contributions refunded in a lump sum if the following provisions have been complied with:

1. A majority of the participating members have voted by secret ballot that pension contributions be refunded if a fireman leaves the service of the Fire Department prior to the time that he is entitled to retirement benefits.

2. The refund provisions if approved by a majority of the members shall apply only to those who leave the service of the Fire Department after the effective date of the election.

#### Cities of Less Than 210,000; Monthly Deductions From Salaries; Contributions and Appropriations; Membership; Service Credits

Sec. 10A-2. (a) In all cities having fully paid firemen where Firemen's Relief and Retirement Funds now exist or shall be created under the provisions of this Act and having a population of less than two hundred ten thousand (210,000), according to the last preceding Federal Census, the city or the governing body of the city shall deduct an amount equal to no less than three per cent (3%) nor more than nine per cent (9%) from the monthly salary or compensation of each participating member fireman; provided, however, that the total of the percentage contributed by such city to the Fund, plus the percentage, if any, contributed

by such city under the Federal Social Security Act, shall not exceed:

(1) nine per cent (9%) of the monthly salary, or

(2) the total percentage contributed to the retirement of other full time employees of such city under the Texas Municipal Retirement System, or any other retirement system, whichever is greater.

(b) The amount of the monthly deductions which shall be contributed to the Firemen's Relief and Retirement Fund shall be determined by majority vote of the Fund members.

(c) Any city coming within the provisions set out in this Article shall also contribute and appropriate monthly to the Fund an amount equal to the total sum paid into the Fund by salary deductions of the members subject to the limitations set out in Section 10A(a). Under no circumstances shall the city contribute an amount greater than the total sum paid into the Fund by salary deductions of members unless authorized under Section 10A(e).

(d) Money deducted from salaries or compensation as provided by this section and the payments and contributions provided by this section shall become and form a part of the Firemen's Relief and Retirement Fund of the city or town in which the contributing fireman serves.

(e) In addition to the amount which the city is required to contribute, the governing body of a city may authorize the city to make an additional annual contribution to its Firemen's Relief and Retirement Fund in whatever amount the governing body of the city may fix.

(f) Each person who shall hereafter become a fireman in any city which has a Firemen's Relief and Retirement Fund to which he is eligible for membership, shall become a member of such Fund as a condition of his appointment, and shall by acceptance of such position agree to make and shall make contributions required under this Act of members of such Fund, and shall participate in the benefits of membership in such Fund as provided in this Act, provided, however, that no person shall be eligible to membership in any such Fund who is more than thirty-five (35) years of age at the time he first enters service as a fireman; and provided, further, that any such person who enters service as a fireman may be denied or excused from membership in the Fund if the Board of Trustees of the Fund determines that such person is not of sound health. The applicant shall pay the cost of any physical examination required in such instance by the Board of Trustees.

(g) Each person who is an active member of a Firemen's Relief and Retirement Fund previously organized and existing under the laws of this State at the effective date of this amendment shall continue as a member of such Fund and he shall retain and be allowed credit for all service to which he was entitled in the

Fund of which he was a member immediately prior to the effective date of this amendment.

Cities of 210,000 or Less; Monthly Deductions From Salaries; Contributions and Appropriations; Membership; Service Credits

Sec. 10A-3. (a) This section applies to all cities which have a population of two hundred ten thousand (210,000) or less according to the last preceding federal census which adopt the provisions of this section by majority vote of the participating members of the fund and adopted by ordinance.

(b) A city having a Firemen's Relief and Retirement Fund shall deduct an amount equal to not less than three percent (3%) nor more than nine percent (9%) of the average monthly salary or compensation as computed in Subsection (d) of this section from each participating member's salary. The total percentage contributed by the city to the fund, plus the percentage, if any, contributed by the city under the Federal Social Security Act, shall not exceed:

(1) nine percent (9%) of the average monthly salary, or

(2) the total percentage contributed to the retirement of other full time employees of the city under the Texas Municipal Retirement System, or any other retirement system, whichever is greater.

(c) The percentage of the monthly deductions which is contributed to the Firemen's Relief and Retirement Fund as provided in this section shall be determined by majority vote of the fund members.

(d) The average monthly salary or compensation shall be computed by dividing the total gross monthly pay for all firemen for the immediately preceding twelve (12) months by the total number of firemen paid in the immediately preceding twelve (12) months. The average monthly salary shall be recalculated each year.

(e) Monthly contributions to the fund shall start on a date to be established by the board of trustees and shall continue for the following 12-month period.

(f) Any city adopting the provisions of this section shall appropriate and contribute monthly to the fund an amount equal to the total sum paid into the fund by salary deductions of the members. Under no circumstances shall the city contribute an amount greater than the total sum paid into the fund by salary deductions of members unless authorized by Subsection (h) of this section.

(g) Money deducted from salaries or compensation as provided by this section and payments and contributions of the city as provided by this section shall become a part of the Firemen's Relief and Retirement Fund of the city in which the contributing fireman serves.

(h) In addition to the amount which the city is required to contribute, the governing body of a city may authorize an annual contribution to

its Firemen's Relief and Retirement Fund in any amount it may fix.

(i) Any person who may become a fireman and is eligible for membership in the city Firemen's Relief and Retirement Fund shall become a member of that fund as a condition of his appointment, make the contributions required of members by this Act, and participate in the benefits of membership in the fund. No person is eligible for membership in the fund if he is more than thirty-five (35) years of age at the time he first enters service as a fireman or if the board of trustees of the fund determines that the person entering the service is not in sound health. The applicant shall pay the cost of any physical examination required by the board of trustees to determine eligibility.

(j) Any person who is an active member of a Firemen's Relief and Retirement Fund previously organized and existing under the laws of this state on the date that this section is adopted by the city shall continue as a member of that fund and retain and be allowed credit for all service to which entitled prior to the date of adoption.

**Application for Participation in Fund for Prior Service;  
Amount of Deductions; Contributions  
for Prior Service**

Sec. 10B. Any fireman who is a member of a regularly organized "full paid" fire department having a Relief and Retirement Fund and who is not participating in such fund, or who is participating but has failed to participate in such fund during some period of his service as a fireman after April 9, 1937, and who desires himself or his beneficiaries to participate in such fund or the benefits therefrom with full credit under this Act for all of such fireman's service as a fireman, shall, within sixty (60) days after this amending section of this Act takes effect, file with the Secretary-Treasurer of the Board of Firemen's Relief and Retirement Fund Trustees of such fireman's city or town a statement in writing under oath that he desires to participate in the benefits from such fund with full credit for all of his service as a fireman and giving the name and relationship of his then actual dependents, and he shall therein authorize said city or town or the governing body thereof to thenceforth deduct not less than one per centum (1%) nor more than seven and one-half per centum (7½%), the exact amount as determined or to be determined by the vote of the fire department of which such person is a member, from his salary or compensation; provided that in cities having a population of five hundred thousand (500,000) or more according to the last preceding Federal Census the amount of the deduction to be authorized shall be not less than five per centum (5%) nor more than seven and one-half per centum (7½%) of such salary or compensation, the exact amount to be determined by the Board of Firemen's Relief and Retirement Fund Trustees; and such fireman shall, at the time of filing such statement, pay to such Fund an amount of money equal to the sum of

all contributions which such fireman did not pay but would have paid into said Fund if such fireman had participated in such Fund throughout his entire service as a fully paid fireman after April 9, 1937; provided, however, that in lieu of such full payment at the time of filing such statement such fireman may include in such statement a promise and obligation to pay to said Board of Trustees within two (2) years the full amount of such contributions for the period of such fireman's service while not participating in such Fund. If any fireman should die or retire for any reason after filing such statement and before paying the full amount of the contributions hereinabove provided, all benefits to which such fireman or his beneficiaries would have been entitled under the provisions of this section shall be withheld until the amount due from such fireman to the fund has been paid in full. When any such fireman, or any person acting for such fireman or for his beneficiaries, shall have paid to such Firemen's Relief and Retirement Fund the correct amount of his contributions for his entire period of service after April 9, 1937, such fireman and his beneficiaries shall be entitled to full credit, under the provisions of this Act, for all of his service as a fireman, and such fireman shall be deemed to have participated in such fund throughout his service as a fireman. Time of service on the "extra board" of a fire department by any person who is now a fully paid fireman entitled to the provisions of this section shall be deemed to be service as a fireman under the provisions of this section, and any fireman who has served on the "extra board" of his department shall be entitled to full credit under this Act for his time of service on such "extra board" if such fireman shall pay to such Fund the correct amount of his contributions for his period of service on such "extra board."

A fireman who is a member of a "full paid" fire department and who complies with the provisions of this section within sixty (60) days after this amending section of this Act takes effect shall be deemed to have participated in and contributed to the Firemen's Relief and Retirement Fund of the fire department for which he is employed, during any period of time after first becoming a fully paid fireman during which period such fireman served in the military forces of the United States in time of war or national emergency; and the correct amount of such fireman's contributions for such period shall be deemed to have been paid in full; provided that this paragraph shall not be applicable to any fireman who does not have full participation credit for all prior time of service and who fails, within sixty (60) days of the effective date of this section, to claim full participation credit for all prior time of service during which he did not participate in a fund.

Provided, however, that no person shall be eligible to begin participation in a Fund in the manner hereinabove provided who was more

than thirty-five (35) years of age at the time he began his service as a fireman for the first time.

Each city or town in which a Firemen's Relief and Retirement Fund has been created prior to the time at which this amending section of this Act takes effect and which has a fully paid fire department and which has a population of less than five hundred thousand (500,000) according to the preceding Federal Census, or the governing body of such city or town, shall henceforth be authorized to deduct not less than one per centum (1%) nor more than seven and one-half per centum (7½%), the exact amount thereof to be determined by the vote of the fire department of such city or town, subject to the approval of the governing body of said city or town, from the salary or compensation of each fireman who is participating in such Fund when this amending section takes effect. Each such city which has a population of five hundred thousand (500,000) or more according to the preceding Federal Census, or the governing body of such city, shall henceforth be authorized to deduct not less than five per centum (5%) nor more than seven and one-half per centum (7½%), the exact amount to be determined by the Board of Firemen's Relief and Retirement Fund Trustees of such city from the salary or compensation of each fireman who is participating in such city's Fund when this amending section takes effect.

Money deducted from salaries or compensation as provided by this section and the payments and contributions provided by this section shall become and form a part of the Firemen's Relief and Retirement Fund of the city or town in which the contributing fireman serves. Failure or refusal to allow deduction from salary as herein provided on the part of any fireman shall forfeit his right to participate in any of the benefits from said Firemen's Relief and Retirement Fund.

Any fireman who is a member of a department which had an existing Firemen's Relief and Retirement Fund prior to the effective date of this amending Act and who has elected and does elect not to participate in such Fund, shall not be liable for any salary deduction provided by this Act; but each person who shall hereafter join a fully paid fire department which then has a Relief and Retirement Fund shall file a statement in writing, in the manner hereinabove provided by this section, upon joining such department and shall thereafter participate in the contributions to and benefits from such Fund, as provided by this Act, unless such new fireman shall be rejected or excused therefrom by the Board of Trustees upon a determination by the Board that such person is not of sound health. Boards of Firemen's Relief and Retirement Fund Trustees are hereby authorized to require complete or partial physical examinations of any person joining a fire department and filing the statement hereinabove required. The applicant shall pay

the cost of any physical examination or examinations so required. If a Board of Trustees determines that an applicant is not of sound health, such Board shall reject the filed statement of such person and shall deny such person participation in the Fund.

(f) The provisions stated herein shall apply to all active full-time members of the fire department at the time of the final passage of this Act and those persons who shall become members of the fire department at any time in the future.

(g) When, in the opinion of the Board of Trustees, there is on hand in the Firemen's Relief and Retirement Fund of any city under this Act a surplus over and above a reasonable and safe amount to take care of the current demands upon such fund, such surplus, or so much of it as in the judgment of said board is deemed safe, may be invested in federal, state, county, or municipal bonds, and in shares or share accounts of savings and loan associations, where such shares or share accounts are insured under and by virtue of the Federal Savings and Loan Insurance Corporation, and in such securities in which the State Permanent School Fund of Texas or the Permanent University Fund of The University of Texas may be invested under present laws, and may also invest in notes and other evidence of debt secured by mortgages insured or guaranteed by the Federal Housing Administration under the provisions of the National Housing Act, and the interest or dividends therefrom and thereon shall be deposited into such fund as a part thereof.

for all service to which he was entitled in the Fund of which he was a member immediately prior to the effective date of this amendment.

(f) If any member's employment by the city, as an employee of the fire department, is terminated for any reason other than those qualifying said employee for a pension, neither the employee nor his beneficiary or estate shall receive any amount paid by him into the pension fund or any interest his contributions may have accrued.

#### Determination of Amount of Contribution by Members

Sec. 11. Within thirty (30) days after this Act takes effect, the fire department of any city or town entitled by the provisions of this Act to participate in said Firemen's Relief and Retirement Fund shall determine by vote of the members thereof, the amount, within the limitations of this Act, of salary to be deducted in case of paid firemen, or the amount to be paid by each member thereof per annum in case of volunteer or part paid firemen whose salary is less than Fifty Dollars (\$50) per month, and the fire chief or other proper officer of such fire department shall so certify the result of said vote and determination to the Board of Firemen's Relief and Retirement Fund Trustees for that city or town, which said certificate shall be authority for the governing body of such city or town to make such deductions from salaries and apply such deductions or payments to such Fund.

(d) to the dependent parent only in case no widow or child is entitled to allowance, the amount the widow would have received to be paid to but one (1) parent and such parent to be determined by the Board of Trustees;

provided however, that the total allowance to be paid all beneficiaries or dependents as herein provided shall not exceed the monthly allowance to be paid the pensioner had he continued to live or be retired on allowance at the date of his death; and further provided, that if such amount be insufficient to pay the full schedule of benefits as herein provided, such benefits shall be prorated. Allowance or benefits payable to any minor child shall cease when such child becomes eighteen (18) years of age or marries.

#### Allowances to Beneficiaries of Deceased Members; Cities of 900,000 or More Population

Sec. 12A. (a) If a member of any fire department in any city having a population of nine hundred thousand (900,000) or more according to the last preceding Federal Census, which city is now within or may hereafter come within the provisions of this Act, who has been retired on allowances because of length of service or disability, shall thereafter die from any cause whatsoever or if while in service, any member shall die from any cause growing out of and/or in consequence of the performance of his duty and such member is participating in a fund, or shall die from any cause whatsoever after he has become entitled to an allowance or pension certificate, and if such fireman shall leave surviving a widow, a child or children under the age of eighteen (18) years or a dependent parent or parents, said Board of Trustees shall order paid a monthly allowance which shall be based, as hereinafter provided, upon the amount which such fireman would have been entitled to receive had he continued to live and be retired on allowance at the date of his death. (2) If such member shall die and if his widow dies after being entitled to her allowance as herein provided, or in the event there be no widow to receive an allowance, then the amount of the monthly pension allowance to be paid, for the use and benefit of the child or children under the age of eighteen (18) years, to the person having the care and custody of such child or children shall be computed as follows: an amount equal to one-half ( $\frac{1}{2}$ ) of said amount such member would have been entitled to receive shall be paid for each of such member's children under the age of eighteen (18) years, provided that the total monthly pension allowance provided hereby for children shall not exceed said amount which such member would have been entitled to receive, nor shall such allowance for such children exceed one-half ( $\frac{1}{2}$ ) of the maximum base salary provided for the position of pipeman at the time of the death of such member.

(3) If such member shall die and only if no widow or child is entitled to an allowance under the provisions of this Section, a monthly pension allowance equal to one-half ( $\frac{1}{2}$ ) of said amount such member would have been entitled to receive shall be paid to each parent of such deceased member upon proof to the Board of Trustees that such parent was dependent upon such member immediately prior to the death of such member, provided that the total monthly pension allowance provided hereby for parents shall not exceed one-half ( $\frac{1}{2}$ ) of the maximum base salary provided for the position of pipeman at the time of the death of such member.

(b) Allowance or benefits payable under the provisions of this Section for any minor child shall cease when such child becomes eighteen (18) years of age or marries, provided, how-

ever, if a fireman who is covered by a provision of this Act dies and leaves a child who is totally disabled as a result of a physical or mental illness, injury or retardation, that child is entitled to receive any pension allowance to which he is entitled under this Act and is further entitled to continue receiving the allowance so long as he or she remains totally disabled. If the child is not entitled to a pension allowance under this Act solely because he or she is over the maximum age at the time of the death of his or her parent and the child is totally disabled as a result of a physical or mental illness, injury or retardation, the child is entitled to receive as an allowance that to which he or she would have been entitled had he or she been under the maximum age at the time of the death of his parent.

(c) The wife of a deceased fireman who has been retired on allowances because of length of service or has been retired for disability after having served actively for a period of twenty (20) years or more in a regularly active fire department in a city of nine hundred thousand (900,000) or more according to the last preceding Federal Census shall in so far as the provisions of this Section are concerned, be considered the fireman's widow as long as she is not married, notwithstanding that she may have married and divorced or married and became a widow after such fireman died. After all payments cease, any excess of the member's total contributions at date of death over any disability and death benefits paid shall be paid to his estate.

the grade of police chief, to be selected by the majority vote of the members of the police department, by secret ballot, one (1) for a term of two (2) years, and the other for a term of four (4) years. All members from the fire and police departments shall be elected by the contributors to the Fund, and shall serve until their successors are elected and qualified and their successors shall be elected for a term of four (4) years. These seven (7) trustees and their successors shall constitute the Board of Trustees of the Firemen and Policemen's Pension Fund, to provide for the disbursement of same, and to designate the beneficiaries thereof, and to have complete and independent control over said Pension Fund. Said Board shall be known as the Firemen and Policemen's Pension Fund Board of Trustees of \_\_\_\_\_, Texas.

#### Powers and Duties of Board

Sec. 2. The board shall organize by choosing one (1) member as chairman and one (1) member as secretary, which board shall control and administer the fund and shall order payments therefrom in pursuance of the provisions of this Act. It shall report annually to the governing body of such city, the condition of the Fund and the receipts and disbursements on account of same, with a complete list of the beneficiaries of the Fund, and the amounts paid them. The Board shall have the complete authority and power to administer all of the provisions of this Act and any implied powers under this Act.

#### Membership

Sec. 3. Repealed by Acts 1959, 56th Leg., p. 799, ch. 363, § 3.

#### Contributions to Fund, Deductions From Wages

Sec. 4. There shall be deducted for such Fund from the wages of each fireman and policeman in the employment of such city a sum equal to five per cent (5%) of the total salary excluding overtime pay. Such city shall pay into said Fund, and at the same time, a matching amount equal to the sum total of all such deductions. Provided, however, the board of trustees can raise the amount of deductions not to exceed seven and one-half percent (7½%) of the total salary excluding overtime pay of each member, of said departments, the additional contribution of the city to be likewise increased at the same time to the same amount. Any donations made to said Fund and all funds received from any source for such Fund shall be deposited in like manner in such Fund. The city's matching amount referred to above shall be in addition to the net revenues from the parking meter monies referred to in Section 16 of this Act to the extent such revenue shall equal in amount the amount of the net revenues therefrom for the calendar year 1958, but such city shall receive credit on such matching amount for each calendar year to the extent such net proceeds shall exceed in amount the amount of the net

proceeds from such meters for the calendar year 1958, if it should exceed such amount in any such calendar year. In the event such parking meter revenues for any calendar year is less than the 1958 amount of such parking meter revenues, it is expressly understood that such sum of revenues shall accrue to the Fund in addition to the matching amount contributed by the city mentioned in this Act, to the full extent necessary, such matching amount shall be paid out of the General Fund, and such city shall make provisions therefor. Beginning August 1, 1963, such city shall, over and above all of the foregoing contributions, contribute an additional sum of Thirty Thousand Dollars (\$30,000) each month to the Fund, and increase said monthly sum by Five Thousand Dollars (\$5,000) per month for the fiscal year beginning August 1, 1964, and increasing said sum at the rate of Five Thousand Dollars (\$5,000) per month per year for each fiscal year thereafter until such additional contribution by the city shall reach a level of Forty-five Thousand Dollars (\$45,000) per month, whereupon said city shall continue to contribute the said sum of Forty-five Thousand Dollars (\$45,000) per month each and every month thereafter until such time as the Board notifies the city that the Fund is actuarially sound. It shall be the duty of the Board to notify the city immediately, when, by periodic actuarial surveys of the actuarial soundness of the Fund, the Fund becomes actuarially sound. Department chiefs shall contribute on the basis of the salary of their permanent civil service rank plus their individual longevity pay and upon death or retirement their pensions shall be computed on the same basis.

#### Meetings; Disbursements; Records

Sec. 5. The Board shall hold regular monthly meetings and other meetings upon call of its Chairman, or written demand of a majority of the members. It shall issue orders signed by the Chairman and Secretary to the persons entitled thereto of the amounts of money ordered paid to such persons from such Fund by the said Board, which order shall state for what purposes such payments are to be made. It shall keep a record of the proceedings which record shall be of public record; it shall at each monthly meeting send to the City Treasurer a written list of persons entitled to the payment from the Fund, stating the amount of such payment and for what granted, which list shall be certified and signed by the Chairman and Secretary of such Board attested under oath. The Treasurer shall enter a copy of said list upon the book to be kept for that purpose, which book shall be known as the Record of the Firemen and Policemen's Pension Fund, and the said Board shall direct payment of the amounts herein to the persons entitled thereto out of said Fund. No money of said Fund shall be disbursed for any purpose without a majority vote of the Board, which shall be a "No" and "Yes" vote entered upon the proceedings of the Board.

## Custody of Fund

Sec. 6. The Treasurer of said City shall be Treasurer of said Fund. All money for said Fund shall be paid over to and received by the Treasurer for the use of said Fund, and the duties thus imposed upon such Treasurer shall be additional duties for which he shall be liable under his oath and bond as such City Treasurer, but he shall receive no compensation therefor.

## Who May Share In Fund

Sec. 7. (a) Any person who has been duly appointed and enrolled in the Fire Department or Police Department of any city having the number of inhabitants provided for in Section 1, as amended, to a position or office expressly established and classified as a position or office in either of said departments by Ordinance of the City Council or other governing body of such city, and who, after such due appointment and enrollment has served the probationary period in such position or office, if any, shall automatically become a member of the Pension Fund of such city upon expiration of ninety (90) days from date such city comes within the provisions of this Act, provided such person at the time of such appointment was not less than eighteen (18) years of age and not more than thirty-five (35) years of age. In all instances where a person is already a member of and contributor to such Pension Fund, he shall retain and be entitled to all rights and privileges due him by virtue of having been such a member and contributor.

(b) Any person not a member of the Pension Fund when this Act becomes effective, who thereafter is duly appointed and enrolled as a Fireman or Policeman of such city in a position or office expressly established and classified as a position or office in either of said departments by ordinance of the city council or other governing body of such city, and who, after such due appointment and enrollment serves the probationary period in such position or office, if any, shall automatically, after six (6) months of service, become a member of the Pension System as a condition of his employment, provided such person at the time of such appointment was not less than eighteen (18) years of age and not more than thirty-five (35) years of age.

(c) Members of this Pension Fund who are called to active military service shall not be required to make the monthly payments into the Fund provided for in this Act as long as they are thus engaged in active military service, nor shall they lose any seniority rights or retirement benefits provided for in the Act by virtue of such military service, provided that after their reinstatement to an active status in either the Fire or Police Department they must file a written statement of intent with the Secretary of the Pension Board within ninety (90) days of their return to such active status to pay into the Pension Fund an amount equal to what they would have paid in

if they had remained on active status in the Department during the period of their absence in military service and make such payment in full within an amount of time after their return equal to the time they were absent, in each case, or forever lose all credit toward a retirement pension for the length of time such member was engaged in active military service. No disability resulting from either injury or disease contracted after the effective date of this Act while engaged in military service shall ever entitle a member of the Fund to a disability pension.

(d) For the purposes of this Act, the regularity of an appointment shall not be presumed from the serving of the full probationary period, if any. And the service by an officer or employee of the probationary period in the Fire Department or Police Department shall not constitute the creation of a position or office to which a regular or a due appointment may be made under this Act. And the drawing of compensation by an officer or employee in the Fire Department or Police Department for his service therein shall not of itself make such a person a member of said Pension Fund.

## Retirement Pension

Sec. 8. (a) Whenever any member of said Departments shall have contributed a portion of his salary as provided by this Act, and shall have both contributed and served for a period of twenty (20), twenty-one (21), twenty-two (22), twenty-three (23), twenty-four (24), twenty-five (25), twenty-six (26), twenty-seven (27), twenty-eight (28), twenty-nine (29) or thirty (30) years in either of said Departments, the Board shall, upon the application of any such member for retirement and a retirement pension, authorize a retirement pension to said applicant based on the average of the member's total salary excluding overtime pay for the highest five (5) years of such member's pay at the rate of two percent (2%) thereof for each full year served as such contributing member through the first thirty (30) years of such service. No member shall ever receive any award from this Fund for retirement until he has served at least twenty (20) years in either or all of the Departments and has also contributed the required amount of money for at least twenty (20) years. In determining the number of years service in a department, the member shall be given full credit for such time, or periods of time, said member was actively engaged in the military service, but only strictly in accordance with the provisions of Section 7(c) of this Act. Disciplinary suspensions of fifteen (15) days, or less, shall not be subtracted from a member's service time credit under this Act toward a retirement pension, provided that the member shall pay into the Fund within thirty (30) days after the termination date of each suspension a sum of money equal to the amount of money which would have been deducted from his salary during that

period of suspension if it had not been for that suspension.

(b) From and after January 1, 1959, whenever any member of said Departments shall have served for a period of thirty (30) years in either of said Departments and shall have contributed a portion of his salary, as provided by this Act, for the same period of time, he shall be retired automatically from service upon attaining the age of sixty-five (65) years; failure of such employee to comply with this provision shall deprive the member, and his widow and children and dependent parents, of any and all pensions and benefits herein provided.

Provided, however, when a member in said departments attains the age of sixty-five (65) years without having served for a period of thirty (30) years in either of said Departments and without having contributed a portion of his salary as provided by this Act for a period of thirty (30) years, he may continue his service until his period of service and period of Pension Fund contributions shall cover thirty (30) years.

**Cessation of Membership in Department; Eligibility for Retirement Benefits; Conditions**

Sec. 9. When any member of said Departments has qualified for a retirement pension as provided in Section 8(a) hereof, but has subsequently ceased to be a member or a duly enrolled member of said Departments, by whatever means or for whatever reason, he shall nevertheless be entitled to such retirement benefits of the Fund as had accrued to him before the time he ceased to be a member or duly enrolled member of said Departments, provided, however, that: (a) application for such retirement pension must be filed with the Board by such former member (or his beneficiary or beneficiaries in the event of his prior death) within one (1) year from the date he ceases to be a member or duly enrolled member of said Departments; (b) such retirement pension shall begin as of the first full calendar month after the month in which such application is filed; and (c) the amount of such pension shall be that established as of the date he ceased to be a member or a duly enrolled member of said Departments, or as of the date he files such application, whichever is the lesser; provided further, that this section shall never be construed to entitle a former member to a pension hereunder who has lost his pension rights because of failure to retire at age sixty-five (65), (or upon attaining thirty years' service past age sixty-five (65)), under the provisions of Section 8(b) hereof.

**Retirement When Disabled**

Sec. 10. When any duly appointed and enrolled member of the Fire Department or Police Department of the city who is contributing to said Fund, as herein provided, shall become so permanently disabled through injury or disease so as to incapacitate him from the performance of his duties, and shall make written

application subject to medical examination for such injury or disease, he shall be retired from the service, if a member in good standing of said Department at the time of retirement, and be entitled to receive from the said fund one-half ( $\frac{1}{2}$ ) of the average of his total salary excluding overtime pay based on his five (5) highest paid years of service, or if he has served less than five (5) years, a theoretical average based on all of his years of service extended back to a date five (5) years before the date of retirement under this Act, using (for the extended period) the actual base pay of a private as of that period of time, in each case, in making the computation. In no case shall a disability claim for incapacity from fire or police duties be received or considered, nor an award made hereunder until disability therefrom has first been proved to be continuous and wholly incapacitating for a period of not less than thirty (30) days. The amount of one-half ( $\frac{1}{2}$ ) of the average total salary excluding overtime pay as set out above is the maximum amount of disability pension for total and permanent disability. Disability resulting from injury or disease incurred after the effective date of this Act while engaged in the active military service shall not entitle a member of this Fund to a disability pension. However, total and permanent disability resulting from injury or disease incurred while a member is on suspension shall, if the suspended member makes up all deducted contributions lost by reason of the suspension within thirty (30) days of the date that they would otherwise have been deducted from his pay, entitle a member of this Fund to a disability pension, except in the case of an indefinite suspension. In the latter case action on an application for a disability pension shall await a final determination of any and all appeals. If the member is finally discharged he shall not be entitled to a disability pension and his application shall be dismissed. If the member is restored to duty, or given a suspension for a specific period of time, his application shall be heard and acted on in the same manner as any other application. These provisions shall not affect the right conferred by Section 9 of this Act.

**Death Benefits to Widows and Children**

Sec. 11. In case of the death before or after retirement of any member of the Fire and Police Pension Fund of such city, who at the time of his death or retirement was a contributor to the said Fund, and a member in good standing of said Fund, leaving a widow, child or children under the age of seventeen (17) years, or an unmarried child or unmarried children seventeen (17) years of age or over but under nineteen (19) years of age currently attending a public or private educational institution, the widow and such child or children shall be entitled to receive from the said Fund an amount not to exceed one-half ( $\frac{1}{2}$ ) of the average total salary excluding overtime pay of the deceased member based on his five (5) highest paid years of service, or a theoretical

average based on all of his years of service extended back to a date five (5) years before the date of his death, using (for the extended period) the actual base pay of a private as of that period in time, in each case, in making the computation; one-half ( $\frac{1}{2}$ ) of the widow's amount in the aggregate shall go to the eligible children and one-half ( $\frac{1}{2}$ ) for the widow. No child resulting from any marriage subsequent to the date of the retirement of said member shall be entitled to a pension under this Act. In case there are no children, the widow shall receive an amount not to exceed one-half ( $\frac{1}{2}$ ) of the average total salary excluding overtime pay of the deceased member computed as provided above if he has served less than five (5) years. In case there is no widow, the children shall receive one-fourth ( $\frac{1}{4}$ ) of the average total salary computed as provided above, except that if the Board determines upon investigation that the eligible child or children is or are destitute then the Board may increase the pension to an amount not exceeding two-fifths ( $\frac{2}{5}$ ths) of that average total salary. The amount awarded hereunder to any child or children shall be paid by the Board of Trustees to the legal guardian of said child or children. In no instance shall the amount received by the widow, child or children exceed a pension allowance of one-half ( $\frac{1}{2}$ ) of the average total salary excluding overtime pay of the deceased member computed as provided above, and in the event of the death of a member who retired upon twenty (20) years service and less than twenty-five (25) years service in no instance shall the amount received by the widow and child or children or the widow alone, exceed a total of two-fifths ( $\frac{2}{5}$ ths) of that average total salary computed as provided above. A child or children alone in such case shall receive only one-fifth ( $\frac{1}{5}$ ) of that average total salary as computed above. A child who is so mentally or physically retarded as to be incapable of its own support to any extent shall, if otherwise qualified, enjoy the rights of children under seventeen (17) years of age regardless of age. Provided, further, that any pension paid hereunder to any mentally or physically retarded child or children shall be reduced to the extent that any of same shall receive any state pension or aid. Provided, however, that in no other instance under this Act shall any child be entitled to any benefit after becoming nineteen (19) years of age. On the remarriage of the widow, either statutory or common law, or the marriage of any child granted such pension, the pension shall cease. No widow whose status as such resulted from any marriage subsequent to the date of the retirement of said member shall be entitled to a pension under this Act. The pension rights of qualified widows, children, and dependent parents of deceased members or pensioners who retired or died before the effective date of the 1971 amendment hereto shall be computed on the basis of the base pay of a private in the department as of the date of such retirement or death. In the event of the death of a member

who is under suspension at the time, including an indefinite suspension which has not yet become final, his widow and children shall enjoy the same rights as any other member hereunder. All widows, or other dependent beneficiaries under this Act, or guardians thereof, may be required by the Board to file an affidavit annually as to their marital status, or that of their wards, or to give an affidavit to the Board at other times when probable cause to suspect the possibility of remarriage exists. In the event of the failure or refusal of such widow or other beneficiary or guardian to file such affidavit, or in the event they should file an incomplete, incorrect, or false affidavit, the Board may suspend pension payments to such widow, other beneficiary, or guardian indefinitely, and until there has been full compliance with the requests and orders of the Board. This provision shall not be construed to be a limitation on or in derogation of any other powers, specific or implied, of the Board as set out in Sections 2, 10, 13, and 14 of the Act, or elsewhere herein.

**Death Benefits to Children Under 17; Remarriage of Widow; Marriage After Retirement**

Sec. 12. Repealed by Acts 1959, 56th Leg., p. 803, ch. 363, § 11.

**Death Benefits to Dependent Father and/or Mother; Investigations**

Sec. 13. If any member of the Fire or Police Department dies before or after retirement, who was a contributor to said Fund and a member in good standing thereof, and leaves no widow or child, but leaves surviving him a father and/or mother wholly dependent upon him for support, such dependent father and/or mother shall be entitled to receive one-third ( $\frac{1}{3}$ rd) of the average total salary excluding overtime pay of the deceased member based on his five (5) highest paid years of service, or a theoretical average based on all of his years of service extended back to a date five (5) years before the date of death under this Act using (for the extended period) the actual base pay of a private as of such period in time, in each case, in making such computation, to be equally divided between said father and mother, so long as they are wholly dependent. When there is only one (1) dependent, either father or mother, the Board shall grant the surviving dependent one-fourth ( $\frac{1}{4}$ th) of that average total salary as computed above. The Board shall have the authority to make a thorough investigation, determine the facts as to the dependency of the said parties, and each of them, as to how long the same exists and may at any time, upon the request of any beneficiary or any contributor to such Fund, reopen any award made to any of said parties and discontinue such pension as to all or any of them as it may deem proper and the findings of any Board in regard to any matters, as well as to all pensions granted under this Act, shall be final upon all parties seeking a pension until such award of the Trustees shall have been set aside or revoked by a court of competent juris-

diction. The Board shall have the power to make any such investigation into any pension application whatsoever or any pensioner's status on its own initiative. In the event of the death of a member who is under suspension at the time, including an indefinite suspension which has not yet become final, his dependent parents shall enjoy the same rights as any other member under this Act. If any member of the Fire and Police Department in active service should die, leaving neither a widow, a child or children, under seventeen (17) years of age, a child under nineteen (19) years of age who is attending school, or a retarded child, or dependent father and mother, or one such, the estate of said deceased member of the Fire or Police Department shall be entitled to a burial death benefit payment in the amount of One Thousand Dollars (\$1,000.00) from said Fund. This benefit shall never be paid if the member of the Fund dying is survived by one or more beneficiaries as defined hereunder.

#### Applications; Hearing

Sec. 14. The Board shall consider all cases for membership in the Fund and retirement and pensioning of the members of the Fire and Police Departments rendered necessary or expedient under the provisions of this Act, and all applications of pensions by widows, the children and dependent parents, and the said Trustees shall give notice to persons asking for membership in said Fund or for a pension to appear before the Board and offer such sworn evidence as he, or they, may desire. Any person who is a member of said Departments and who is a contributor of the said Fund, and a member thereof in good standing, may appear either in person, or by attorney, and contest the application for membership participation in said Fund or for a pension or benefits by any person claiming to be entitled to participate therein, either as a member or beneficiary, and may offer testimony in support of such contest. The Chairman of said Board shall have the authority to issue process for witnesses and administer oaths to said witnesses and to examine any witnesses in any manner affecting retirement or a pension under the provisions of this Act. Such process for witnesses shall be served upon any member of the Fire or Police Departments and upon the failure of any witness to attend and testify, he or she may be compelled to attend and testify as in any judicial proceedings; according to practice in a Justice Court.

#### Medical Examination; Prior Service Credit

Sec. 15. (a) Said Board may cause any person receiving any disability pension under the provisions of this Act, to appear and undergo medical examination or medical examinations by any reputable physician or physicians selected by the Board, as a result of which the Board shall determine whether the relief in said case shall be continued, decreased, or restored to the original amount (if it had been decreased), or discontinued; provided, how-

ever, that such relief shall never be discontinued unless the person receiving any pension shall have first been accepted for reinstatement in his former position or status in the Fire Department or Police Department, as the case may be, by the Chief of the Department. The Board may change any percentage stipulated in this Act, commensurate with any change in the degree of disability; provided, however, that such percentage shall not, except in the case of discontinuance, be reduced to less than two percent (2%) of the base pay of a private per month for each year he shall have served and contributed a portion of his salary as provided by this Act, based on the current rate of pay at the time of the original granting of any pension, or on a minimum base pay of Two Hundred Dollars (\$200.00) per month, whichever is greater, for all those pensioned prior to the effective date of the 1971 amendment hereto, nor be reduced to less than two percent (2%) of the total salary excluding overtime pay for the average of the member's highest five (5) years pay (or the average of all years if service less than five (5) years) as of the time of his original retirement for each full year of service in said departments prior to such amendment. If any person receiving benefits under any provision of this Act, after due notice, fails to appear and undergo any such examination or examinations as ordered by the Board, the Board may reduce or entirely discontinue such benefits.

(b) Any member of the Fund may establish prior service credit by so expressing his intention in writing within ninety (90) days from the effective date of this Act and by thereafter paying into the Pension Fund, within six (6) months, a sum of money equal to the amount of salary deductions he would have paid had he been a member of the Fund for the year or years for which he desires to establish such prior service credit, but in no event, to exceed the total number of years served in the Fire Department and/or the Police Department, as the case may be; provided that each person who is receiving a disability pension under this Act, at the effective date hereof, will be deemed to have established prior service credit for each year served in the Fire Department or Police Department at the time of his retirement, whether he has been a contributor to the Fund for the full period of service or not.

(c) Written notice by registered letter shall be given each and every person eligible to establish such prior service credit by such city within sixty (60) days from the date such city comes under this Act, informing him of the provisions hereof.

#### Public Funds; Parking Meter Funds

Sec. 16. Funds are hereby authorized to be paid out of the General Fund or the Special Fund of any such incorporated City; and, money collected by such Cities from the use of parking meters on the streets shall be used for the purpose of carrying out the provisions of

this Act. Nothing herein is to be construed as denying any City any right which it may have at this time to raise or procure money for the benefit of said pension fund, which might be in addition to the method or methods herein provided.

#### Reserve Retirement Fund

Sec. 17. At the end of the fiscal year all money paid into the Fund that remains as a surplus over and above the orders for payment as issued by the Board, shall be paid into the Reserve Retirement Fund to accumulate interest for the benefit of the reserve funds needs. All such funds as may accumulate in this special retirement reserve shall be invested at regular intervals or at such times as the accumulations justify. The funds may be invested in the following manner:

1. A sum not to exceed ten per cent (10%) may be deposited with a Federal Credit Union restricted to employees of the city.

Of this percentage a sum not to exceed fifty per cent (50%) thereof may be invested in shares of capital stock of national banks having been established at least ten (10) years and having a capitalization of at least Five Million Dollars (\$5,000,000), and/or shares of capital stock of life insurance companies, and/or fire and casualty insurance companies having been established at least twenty-five (25) years and having a capitalization of at least Five Million Dollars (\$5,000,000).

4. A sum not to exceed seventy-five per cent (75%) may be invested in first mortgage bonds or debentures of any solvent dividend-paying corporation which at the

time of purchase was incorporated under the laws of this State or any other state in the United States and which has not defaulted in the payment of any debt within five (5) years next preceding such investment.

5. The entire Fund or any portion thereof, may be invested in United States Treasury Notes, United States Treasury Bonds, Bonds of the State of Texas, or bonds of any county or municipality of the State of Texas; or bonds or debentures, payment of which is guaranteed by an agency of the United States Government, such as Federal Intermediate Credit Bank Debentures; Federal Land Bank Bonds; Federal Home Loan Bank Notes; Banks for Cooperative Debentures; Federal National Mortgage Association Notes and any additional bonds which may be in the future issued, secured by an agency of the United States Government. The Board shall have the power to make these investments for the sole benefit of this Reserve Retirement Fund. The investment shall remain in the custody of the Treasurer in the same manner as provided for the custody of the Funds. The Board shall have the power and authority, by a majority vote of its members, to disburse the monies accumulated as the retirement needs arise.

Sec. 18. No amount awarded to any person under the provisions of this Act shall be liable for the debts of any such person; shall not be assignable; shall be exempt from garnishment or other legal process; and shall be exempt from any inheritance or other tax established by State law.

#### Act as of Essence of Employment Contract

Sec. 19. This Act shall be of the essence of the Contract of Employment and appointment of the Firemen and Policemen by cities of this class; and, the deferred payment is a part of the compensation for services rendered to the city. However, no member of either of said Departments or of said Fund shall ever be entitled to any refund from said Fund on account of the money deducted from their pay for the benefit of the Pension Fund which money is in itself declared to be public money, and the property of said Fund for the benefit of the members qualifying for benefits, and their beneficiaries.

#### Vested Rights

Sec. 20. The right is vested in the persons specified in this Act to participate in such Fund and to receive the payments in strict accord herewith; and the means of its enforcement shall never be impaired nor be denied.

#### Deficiency, Payment by City

Sec. 21. The Cities included in this class shall pay the deficiency, if any, between the money procured under the terms of this Act

and the amount of the deferred payments prescribed herein.

The accounts of the Firemen and Policemen's Pension Fund and of firemen and policemen shall be kept separately, and if any of these classes of employees are included in any statute of the State of Texas creating a pension system, then the Board created herein shall stand in the place of any similar Board created by such statute and shall receive the apportionment due the class of employees mentioned, and shall pay the money allocated, under the terms of this Act to such class, but the other classes specified herein shall not participate in any such funds.

#### Increase in Pensions

Sec. 24. Because of the inflationary increase in the cost of living all pensions originally granted for retirement, death, or disability occurring prior to April 16, 1951, to Firemen, Policemen, and Fire Alarm Operators, or their widows or wholly dependent parents, and which pensions are less than One Hundred Dollars (\$100.00) per month, are hereby increased up to the total sum of One Hundred Dollars (\$100.00) per month in each such case beginning with the first whole month after the effective date hereof, subject to the right of the Board to change any percentage of disability, as provided by Section 15 of this Act.

#### Group II Fund, Members, Benefits, Etc.

Sec. 25. Repealed by Acts 1969, 61st Leg., p. 1675, ch. 538, § 3.

Sec. 26A. (1) All pensions granted before February 1, 1971, in the Fund created hereunder, are hereby increased in the amount of ten percent (10%) or to a minimum pension of One Hundred Fifty Dollars (\$150) per month, whichever is greater, beginning with the first

whole calendar month after the effective date hereof, subject to the continuing right of the Board to change any percentage of disability, as provided by Section 15 of this Act and the One Hundred Fifty Dollars (\$150) monthly minimum shall not apply to those who have been decreased thereunder.

(2) The Board shall annually, beginning in 1972, at or before its regular meeting in the month of March, review the Cost of Living Indexes of the United States Bureau of Labor Statistics for the preceding calendar year. If such index should report an increase or decrease during such calendar year in the cost of living as much as three percent (3%) as compared with the Cost of Living Index at the close of the year 1971 (which is hereby declared to be the base index) the Board shall enter its order increasing or decreasing all pension payments (present and prospective) by three percent (3%), or more (depending on the amount of increase or decrease) but only by full percentage points closest to the exact amount of such increase or decrease. Such increase or decrease shall be effective retroactively as of the month of January next preceding such March (or earlier) Board meeting and shall continue in effect for at least one full year thereafter, and until there has been an additional increase or decrease of at least three percent (3%) compared to such base figure. Provided, however, that no pension shall ever be decreased below the amount at which it was originally granted, except pursuant to the provisions of Section 15 of this Act.

(3) The Cost of Living Index to be used for such purpose shall be the "Consumer's Price Index for Moderate Income Families in Large Cities—All Items" or (in the event the name and/or nature thereof is changed) the nearest equivalent thereto published during each particular year by the Bureau of Labor Statistics of the United States Department of Labor.

#### Cost of Living Increases and Decreases

Sec. 26B. (1) All pensions granted before August 30, 1971, in the Fund created hereunder, to pensioners who had thirty (30) years, or more, of service at the time of their retirement, if less than \$250.00 per month at the effective date of this Act, shall be increased to such amount; those who retired with twenty-five (25) years, or more, of service shall receive a minimum of \$225.00 per month; those who retired with twenty (20) years, or more, of service shall receive a minimum of \$200.00 per month; beneficiaries of those who retired prior to above date shall receive a minimum of \$225.00 per month per whole pension unless the pensioner of whom they are the beneficiaries retired with less than twenty-five (25) years service in which case each whole pension shall be a minimum of \$200.00 per month. Those who retired on disability pensions prior to the said date shall receive a minimum of \$225.00 per month subject to the continuing right of the Board to change any percentage of disability.

ty, as provided by Section 15 of this Act and percentage decreases in disability pensions under existing Board orders shall be automatically applied to the minimum disability pension amount provided above upon the effective date herewith if the full pension in such cases would be less than \$225.00 per month. The cost of living increases provided above for all classes shall take effect beginning with the first whole calendar month after the effective date of this Act.

(2) The increases granted hereunder shall be subject to the cost of living increases or decreases provided for in Section 26A(2) of this Act in the same way and to the same extent as the rest of said pensions.

(3) The cost of paying the increases provided in this section shall be paid by the city out of general funds of the city.

#### Merger of Group II Fund Into Group I Fund

Sec. 27. (a) The Fund heretofore designated as the "Firemen and Policemen's Pension Fund—Group II", as created by Section 4, Chapter 334, Acts of the 58th Legislature, 1963, and all of the monies, securities and accounts thereof, are transferred to and merged with the Fund known as the Group I Fund, and there shall hereafter be only one pension fund hereunder, to be without a numerical designation.

(b) All members of the Group II Fund, as defined in Section 25, and all firemen and policemen becoming members thereof prior to the effective date of this Act, shall automatically be transferred to and be merged with the membership of the Group I Fund, to be full-fledged members thereof, indistinguishable from any other member. Each member of Group II shall become a member of the Group I Fund as of the date such member originally became a member of the Group II Fund, for every purpose under this Act, and shall enjoy all the same rights and benefits as any other member thereof after the effective date hereof.

(c) Provided further, however, that a Group II Fund member who was previously a Group I member in good standing (having resigned from one of the Departments and later re-entering one of the Departments) shall be credited for retirement pension purposes with all post-probationary time he has served in either Department, and as a member of either Group of the Fund, upon the effective date hereof.

(d) All probationary firemen and policemen completing their probationary period, and becoming duly enrolled firemen and policemen, shall automatically become members of the new combined and unnumbered Fund.

(e) This Act shall not affect or change, in any way, the rights of Group II Fund members or their beneficiaries who may have gone on pension prior to the effective date. Provided, however, that as of the first full calendar month after the effective date hereof all pensions of such Group II members, or of their beneficiaries, shall be automatically increased

to the same level as that for Group I members as of that date.

**Art. 6243g. Pension System in Cities Over 900,000**

**Creation of Pension System**

Sec. 1. There is hereby created a Municipal Pension System in all cities in this state having a population of nine hundred thousand (900,000) or more according to the last preceding or any future Federal Census.

Sec. 2. The following words and phrases when used in this Act are defined as follows, to wit:

(a) "Pension System" means the retirement, disability and Pension System for employees of cities coming within the provisions of this Act.

(b) "Member" means each city employee included in the Pension System provided for herein and becoming a member thereof.

(c) "Pension Board" or "Board" means the Pension Board of the Pension System created under this Act for the purpose of administering the Pension System.

(d) "Service" means the services and work performed by an "employee" as that term is defined herein.

(h) The term "employee" means and includes any person whose name appears on a regular full time payroll of any such city and who is paid a regular salary for his services. Provided, that any elected official who becomes a member of the Pension System as permitted by this amended Act shall be considered to be and to have been an employee during the period of any service as an elected official.

(i) "Monthly salary" means base pay, plus longevity pay, plus shift-differential pay, if any, paid to an employee and attributable to services rendered by the employee during a calendar month regardless of how actually paid.

**Persons Eligible Under This Act**

Sec. 3. The following persons are eligible under this Act:

(a) Any person who is now a member of any such System under the terms of the original Act, as amended.

(b) Any person who hereafter becomes an employee of such city shall automatically and immediately at the beginning of his first full pay period become a member of the Pension System as a condition of his employment except as hereinafter enumerated.

(c) Elected officials in good physical condition shall have the option of becoming members of the Pension System. They shall be subject to physical examinations and shall exercise the option by written notice to the Pension Board within ninety (90) days after the effective date of this amendatory Act or within ninety (90) days of the date of taking office, whichever is later. Any former member of the Pension System who shall hereafter be elected to an office of said city shall have the right to reinstatement and shall receive credit for prior service and previous service as an employee on the same conditions as reemployed members. Any elected official coming under the terms hereof who, thereafter, fails of election to said office or another elective office of the city, shall be considered as separated from the service, but if he is again elected or employed by such city within ten (10) years from the expiration of his term of office, he shall be subject to the other provisions of this Act concerning interruptions in service.

**Persons Not Eligible Under This Act**

Sec. 4. Employees of such city who may not become members of the Pension System shall include:

Pension Board

Sec. 5. (a) There is hereby created a Pension Board of the Pension System, in which Board there is hereby vested the general administration management and responsibility for the proper and effective operation of the Pension System. The Board shall be organized immediately after its members have qualified and taken the oath of office and shall serve without compensation.

(b) The Pension Board shall be composed of seven (7) members as follows:

(1) The Mayor of the City, or the Director of the Civil Service Commission as his representative.

(2) The Treasurer of the City or person performing the duties of Treasurer.

(3) Three (3) employees of the city having membership in the Pension System and elected by the members of such System. No city department shall have more than one (1) representative. The persons now serving as employee members of the Board shall continue in office until the expiration of their terms, in cities having established systems under the original Act, as amended. The term of office of succeeding members so elected shall likewise be two (2) years and each such member shall continue to serve until his successor is duly elected and qualified. Vacancies occurring by death, resignation or removal of such representative shall be filled by appointments made by any two (2) of the Board members elected by the members of the Pension System. Such appointees shall serve for the remainder of the unexpired term of the member they replace. The first election of employee members in cities hereafter coming under this Act shall be held in such city at such time and place as shall be fixed by the governing body of the city, and to be not more than seventy-five (75) days from the date such city comes under the terms of this Act.

(4) Two (2) legally qualified taxpayers of such city, who have been residents of the county in which such city is located for the preceding five (5) years, to be chosen by the governing body of the city, being neither employees nor officers of such city. The two (2) members so chosen by the governing body of the city shall serve for two (2) years and until their successors are duly elected and qualified. Vacancies occurring by death, resignation, or removal of such representative shall be filled by the governing body of the city. Public members now on the Boards of cities having established Systems shall continue in office until the expiration of their terms.

(c) Each member of the Pension Board within ten (10) days after his appointment and

election shall take an oath of office that so far as it devolves upon him he will diligently and honestly administer the affairs of the Pension System and that he will not knowingly violate, or willingly permit to be violated, any of the provisions of this law.

(d) The Board shall elect from its membership annually a Chairman, Vice-Chairman and Secretary. Pursuant to the powers granted under the charter of such city, the Chief Administrative Officer of the city shall appoint one (1) or more employees whose positions and salaries shall be fixed by the governing body of the city and who, acting under direction of the Chief Administrative Officer of the city and City Treasurer, shall keep all of the records of and perform all of the clerical services for the Pension System. The salaries of such employees and all administrative expenses of the Pension System shall be paid by the city.

(e) Each member of the Board shall be entitled to one (1) vote in the Board. Four (4) concurring votes shall be necessary for a decision by the members at any meeting of the Board, and four (4) members shall constitute a quorum.

(f) A meeting of said Pension Board may be called at any time by the Chairman, Secretary, or by any four (4) members of such Pension Board.

(g) Notice shall be given to all members of such Pension Board unless waived in writing as to any proposed meeting by depositing of a written notice in the United States mail at least forty-eight (48) hours before such meeting, properly addressed to each such member. If a meeting is had, however, at which all of the members of the Board attend, no notice shall be necessary.

(h) No moneys shall be paid out of the Pension Fund except by warrant, check or draft signed by the Treasurer and countersigned by the Secretary, upon an order by said Pension Board duly entered in the minutes. Facsimile signatures may be authorized by the Board. Provided, however, the Board may by contract with any bank which is a depository for such Pension Fund authorize the bank to make deductions from the Pension Fund's account with such bank in connection with the purchase by the Board of authorized investments.

(i) The Pension Board shall determine the prior service to be credited to each member of the Pension System. The Board shall rely upon the personnel records of such city in determining such prior service credit or upon affidavits if the personnel records are incomplete.

(j) The Pension Board shall determine each member's credited service on the basis of the personnel and financial records of the city and the records of the Pension Board. The Board may permit any member to pay into the Pension Fund and thereby obtain credit for any service with the city for which credit would otherwise be allowable under this amended Act

save only for the fact that no contributions were made by such member with respect to such service, or the fact that contributions, although made with respect thereto, were thereafter refunded to such member as a separation allowance and not subsequently repaid. The following provisions shall apply to such payments:

(1) For service during the period September 1, 1943, to May 29, 1967, the employee shall pay a sum computed at the rate of Twelve Dollars (\$12) a month, and the city shall pay into the Pension Fund one and one-half ( $1\frac{1}{2}$ ) times the amount so paid by the employee.

(2) For service during the period May 29, 1967, to January 5, 1970, the employee shall pay a sum computed at the rate of three percent (3%) of his salary with the minimum payment being Twelve Dollars (\$12) a month, and the city shall pay into the Pension Fund one and one-half ( $1\frac{1}{2}$ ) times the amount so paid by the employee.

(3) For service during the period January 5, 1970, to September 1, 1971, the employee shall pay a sum computed at the rate of three percent (3%) of his salary with the minimum payment being Twelve Dollars (\$12) a month, and the city shall pay into the Pension Fund an amount equal to eleven and one-quarter percent ( $11\frac{1}{4}$ %) of such salary for the same period of time.

(4) For service on and after September 1, 1971, the employee shall pay a sum computed at the rate of four percent (4%) of his salary, and the city shall pay into the Pension Fund an amount equal to thirteen and one-half percent ( $13\frac{1}{2}$ %) of such salary for the same period of time.

(5) In addition to the amounts to be paid by the employee as specified above, the employee shall also pay interest on the same amounts at the rate of six percent (6%) per annum from the time the contributions would have been deducted, if made, or the time contributions were refunded as a separation allowance, as the case may be, to the time of repayment of such contributions into the Pension Fund.

#### Treasurer of Pension Fund

Sec. 6. The City Treasurer of any such city, or the person discharging the duties of the City Treasurer, is hereby designated as the Treasurer of said Pension Fund for said city and his official bond to said city shall operate to cover his position of Treasurer of said Pension Fund and his sureties shall be liable in connection with the Treasurer's actions pertaining to such Fund as fully as they are liable under the terms of said bond for the other actions and conduct of said Treasurer. All moneys of every kind and character collected or to be collected for said Fund shall be paid over to said Treasurer and shall be administered and

paid out only in accordance with the provisions of this Act.

#### Contributions by Members

Sec. 7. Each member of the Pension System shall make periodic contributions thereto during the entire time of his employment by the city in the amount of four percent (4%) of his salary. Such contributions shall be deducted by the city from the salary of each such member and paid to the Treasurer of the Pension Fund for deposit therein.

#### Contributions by City

Sec. 8. In addition to the payments provided for in the next preceding section, such city shall pay monthly into such Pension Fund, from its general fund or other available source, an amount equal to thirteen and one-half percent ( $13\frac{1}{2}$ %) of the total of the monthly salaries paid to members for the same period of time, less an amount equal to the total amount of the employer's part of the payments made by the city for such period of time with respect to such members, to the federal government under the provisions of the Social Security Act and Federal Insurance Contributions Act, it being the intention hereof that the combined total of the payments made by such city, as an employer, with respect to such members, for social security and pension fund purposes shall at all times be thirteen and one-half percent ( $13\frac{1}{2}$ %) of the total of all salaries paid to all such members.

#### Increase in Contributions

Sec. 9. Repealed by Acts 1969, 61st Leg., p. 2549, ch. 851, § 3.

#### Surplus: Investment

Sec. 10. Whenever, in the opinion of the said Pension Board, there is on hand in said Pension Fund a surplus over and above a reasonably safe amount to take care of current demands upon such Funds, such surplus, or so much thereof as in the judgment of the said Pension Board is deemed proper, may be invested in bonds or other interest-bearing obligations and securities of the United States, the State of Texas, or any county, city or other political subdivision of the State of Texas or in first lien real estate mortgage securities insured by the Federal Housing Administration under the National Housing Act of the United States, as amended from time to time, and in such corporation bonds, preferred stocks and common stocks as the Pension Board may deem to be proper investments for said Funds. In making each and all of such investments said Pension Board shall exercise the judgment and care under the circumstances then prevailing which men of ordinary prudence, discretion, and intelligence exercise in the management of their own affairs not in regard to speculation but in regard to the permanent disposition of their funds, considering the safety of their capital; provided, however, that not more than fifty percent (50%) of said Funds shall be in-

vested at any given time in corporate stocks, nor shall investments in securities issued by any one corporation be more than five percent (5%) of this Fund, nor shall more than five percent (5%) of the voting stock of any one (1) corporation be owned; and provided further, that stocks eligible for purchase shall be restricted to stocks of companies incorporated within the United States which have paid dividends for ten (10) consecutive years or longer immediately prior to the date of purchase and which, except for bank stocks and insurance stocks, are listed upon an exchange registered with the Securities and Exchange Commission or its successors, except that two percent (2%) of the Fund may be invested in common stocks that do not have a ten (10) year dividend record. The Board shall have authority to buy and sell any of its authorized investments.

#### Retirement on Pension

Sec. 11. (a) Any member of such Pension System who has attained fifty (50) years of age and completed twenty-five (25) or more years of credited service, and any member of such Pension System who has attained fifty-five (55) years of age and completed twenty (20) or more years of credited service, and any member of the Pension System who has attained sixty (60) years of age and completed ten (10) or more years of credited service shall be eligible for a pension.

(b) The amount of pension a month for each such member shall equal two percent (2%) of the member's average monthly salary multiplied by the total number of years of credited service of such member. For purposes of this Subsection, such average monthly salary shall be computed by adding together the thirty-six (36) highest monthly salaries paid to a member during his period of credited service and dividing the sum by thirty-six (36). Provided, however, that no member's pension shall be more than eighty percent (80%) of such average monthly salary; and no member's pension shall be less than Eight Dollars (\$8) a month for each year of credited service.

(c) A member shall continue to accrue benefits in the Pension System as long as he remains an employee, regardless of his age. Any present employee who was prohibited by previous amendments from accruing any additional benefits upon reaching seventy (70) years of age and prevented from making further contributions into the Pension Fund shall be permitted to continue the accrual of credited service for the period from age seventy (70) until retirement by repaying in one lump sum Twelve Dollars (\$12) a month for each month of service with the city from the date that he reached seventy (70) years of age to the effective date of this amendment and making regular employee contributions thereafter. Any present employee who failed to become a member because he had passed sixty (60) years of age at the time his employment commenced shall now be permitted to become a member by repaying, in one lump sum, Twelve Dollars (\$12) a

month for each month of service with the city to the effective date of this amendment and making regular employee contributions thereafter. Any elected official who becomes a member of the Pension System as permitted by this amended Act may receive credit for any service as an elected official that preceded the effective date of this amended Act by paying, in one lump sum, Twelve Dollars (\$12) a month for each month of such preceding service and making regular employee contributions for any service with the city after the effective date of this amended Act. The city shall also contribute one and one-half (1½) times the amounts so paid into the Fund by such employees and officials.

#### Disability Pensions

Sec. 12. (a) Any member who has completed ten (10) or more years of service and who becomes totally disabled for further duty shall, regardless of age, be retired for "ordinary disability" and shall receive a monthly pension computed in accordance with Section 11(b).

(b) If any member who becomes totally disabled for further duty by reason of a personal injury sustained or a hazard undergone as a result of, and while in the performance of, his duties at some definite place and at some definite time on or after the date of his becoming a member, without serious and willful misconduct on his part, shall be retired for "accidental disability" and shall receive a monthly pension equal to twenty percent (20%) of his monthly salary on the date such injury was sustained or such hazard was undergone plus one percent (1%) of the above salary for each year of credited service; provided, that the total pension as so computed will not exceed forty percent (40%) of such monthly salary, or a monthly pension computed in accordance with Section 11(b), whichever is greater.

(c) By "totally disabled" is meant the sustaining of such disability as completely incapacitates a member from performing the usual and customary duties which he has been performing for such city or other full time duties that could be performed by such member. Before any disability pension is allowed, the Pension Board shall require such medical examination and such other evidence as it may see fit to establish such total disability, as above provided.

(d) Any member receiving a pension on account of "ordinary" or "accidental disability" shall, each January 1, submit a sworn affidavit stating his earnings, if any, obtained from any gainful occupation. If the earnings together with the pension being received by any member exceed the monthly salary of such member at the time of his separation from service, the Pension Board shall have authority to reduce the amount of pension. Failure to submit an affidavit of earnings or a materially false affidavit shall be cause for suspension of the pension upon proper action by the Pension Board.

If a member is eligible for retirement under Section 11 hereof, he shall not be retired under this Section.

When any member has been retired for ordinary or accidental disability, he shall be subject at all times to re-examination by the Pension Board and shall submit himself to such further examination as the Pension Board may require. If any member shall refuse to submit himself to any such examination, the Pension Board may, within its discretion, order said payments stopped. If a member who has been retired under the provisions of this Section should thereafter recover so that in the opinion of the Pension Board he is able to perform the usual and customary duties formerly handled by him for said city, and such member is reinstated or tendered reinstatement to the position he had at the time of his retirement, then the Pension Board shall order such pension payments stopped.

#### Monthly Allowance to Widows and Children

Sec. 13. If any member of the Pension System, as herein defined, shall die from any cause whatsoever after having completed ten (10) years of service with the city, or if, while in the service of the city, any member shall die from any cause growing out of or in consequence of the performance of his duty, or shall die after he has been retired on pension because of length of service or disability and shall leave a surviving widow or widower, or a child or children under the age of eighteen (18) years, or both such widow or widower and child or children, said Board shall order paid monthly allowances as follows:

(a) To the widow or widower, so long as she or he remains a single person and provided she or he shall have married such member prior to her or his retirement, a sum equal to one-half ( $\frac{1}{2}$ ) of the retirement benefits that the deceased member would have been entitled to had she or he been totally disabled at the time of her or his retirement or death.

(b) To the guardian of each child the sum of Sixteen Dollars (\$16) a month until such child reaches the age of eighteen (18) years.

(c) In the event the widow or widower dies after being entitled to her or his allowance as provided, or in the event there be no widow or widower to receive such allowance, the amount to be paid to the guardian of any child or children under the age of eighteen (18) years shall be increased to the sum of Thirty-Two Dollars (\$32) a month for each such child; provided, however, that the total allowance to be paid all beneficiaries or dependents, as herein provided, shall not exceed the monthly pension that would have been paid the pensioner had he continued to live and retire on pension at the date of his death. Allowances or benefits payable to any minor child shall cease when such child

becomes eighteen (18) years of age or marries, provided that when there are only children to collect a pension as beneficiaries, if at the time the last child reaches eighteen (18) years of age, the amount the employee contributed has not been paid out in pensions, the balance shall be refunded to the children. By the term "guardian," as used herein, shall be meant the surviving widow or widower with whom the child or children reside, or any guardian appointed by law, or the person standing in "loco parentis" to such dependent minor child responsible for his or her care and upbringing."

#### Refund of Contributions

Sec. 14. If any member's employment by the city is terminated for other than total and permanent disability arising as a result of or as a consequence of the performance of his duties prior to his having completed ten (10) years of service with the city, he shall not be paid any pension whatsoever, but he shall receive the amount paid by him into the Pension Fund by way of salary deduction without interest as provided in Section 16 of this Act. In the event of his death, if there are no widow or children to receive the allowance provided for in Section 13 above, his beneficiary, and if none, his estate shall receive the said amount.

#### Computing Period of Service

Sec. 15. In the computation of the years of service required for the receipt of a pension by a retiring member, the following rules shall apply:

(a) Interruptions of service of three (3) months or less shall be treated as continuous service, but the member shall be required to pay into the Pension Fund any contributions withdrawn at the time of separation plus the amount of the employee contributions allocable to each such period of interruption.

(b) If there have been interruptions of service of more than three (3) months and less than ten (10) years, no credit shall be allowed for the period of an interruption but credit shall be allowed for previous service and prior service if (1) the employee shall have repaid to the Pension Fund within three (3) months after resumption of service all moneys theretofore withdrawn by him upon separation from service, plus interest thereon at the rate of six percent (6%) per annum, or (2) if the employee shall at any time have made payments to the Pension Fund which, under then existing provisions of law, entitled him to credit for previous service.

(c) If any employee has been out of service for a period longer than ten (10) years, no credit for any service preceding the out-of-service period shall be allowed.

#### Termination of Employment; Death; Reemployment

Sec. 16. When any member of such Pension System shall leave the employment of such

city, either voluntarily or involuntarily, before becoming eligible for a retirement or disability pension, he shall thereupon cease to be a member of such Pension System, and shall have refunded to him all of the payments made by him into said Pension Fund by way of salary deductions without interest, subject to the following provisos:

(a) If such member has completed twenty (20) or more years of service at the time of termination of employment but has not yet attained the age of fifty-five (55) years he may, by written notice to the Pension Board, make an irrevocable election to leave his contributions in the Pension Fund, in which event he shall, upon reaching the age of fifty-five (55) years, be entitled to a pension on the basis of the schedule of benefits for retiring members that was in effect at the time of his separation from service.

(b) If such member has completed fifteen (15) or more years of service at the time of termination of employment but has not yet attained the age of sixty (60) years he may, by written notice to the Pension Board, make an irrevocable election to leave his contributions in the Pension Fund, in which event he shall, upon reaching the age of sixty (60) years, be entitled to a pension on the basis of the schedule of benefits for retiring members that was in effect at the time of his separation from service.

(c) If, while still employed by the city, whether eligible for a pension or not, a member dies, then, unless the provisions of Section 13 hereof are applicable, all of his rights in the Pension Fund shall be satisfied by the refund to his designated beneficiary, if any, or if none, to his estate, of all the payments theretofore made by him into the Pension Fund by way of employee's contributions, without interest.

(d) The provisions of Section 13 concerning payments to widows, widowers and children shall apply in the case of any former member who has made the election permitted by (a) or (b) above, and who dies before reaching the age at which he would be entitled to a pension. If there be no surviving widow, widower or children, then all of such member's rights in the Pension Fund shall be satisfied by the refund to his designated beneficiary if any, or if none, to his estate, of all the payments theretofore made by him into the Pension Fund by way of employee's contributions, without interest.

(e) It is not the intention of this Amending Act to change the status of any former member of the Pension System whose services with the city were terminated under a previous Act. Refunds of contributions above provided for shall be paid such departing member, his beneficiary or estate in a lump sum, but if, in

the opinion of the Pension Board, the funds on hand are too low to justify such lump sum payment, said payment shall be refunded on a monthly basis in such amounts as may be determined by the Pension Board.

(f) When a member has left the service of such city, as aforesaid, and has therefore ceased to be a member of such Pension System, if such person shall thereafter be reemployed by the city, he shall thereupon be reinstated as a member of such Pension System, provided he is in good physical and mental condition as evidenced by a written certificate by a duly licensed and practicing physician residing in said city, satisfactory to the Pension Board. Previous service of such member with such city shall not be counted toward his retirement pension unless such member returns to the service of the city within ten (10) years from his separation therefrom and also shall, within three (3) months after his reemployment by the city, repay in one lump sum to such Pension Fund all moneys withdrawn by him upon his separation from the service plus interest thereon at the rate of six percent (6%) a year from the date of such withdrawal. The three (3) months limitation above mentioned is subject, nevertheless, to the Board's authority as expressed in Section 5(j).

(g) If any member of the pension system, after having made the election permitted by (a) or (b), above, at the time of separation from the service of the city prior to September 1, 1971, shall be reemployed by the city before becoming eligible to receive pension benefits, the following provisions shall apply to the computation of the pension due such member upon his subsequent retirement:

1. The portion of such member's pension attributable to his period of credited service accrued prior to his making the aforesaid election shall be calculated on the basis of the schedule of benefits for retiring members that was in effect at the time said election was made.

2. The portion of such member's pension attributable to his period of credited service accrued after his reemployment by the city shall be calculated on the basis of the schedule of benefits for retiring members that is in effect at the time of such subsequent retirement.

#### Reduction of Benefits; Dissolution of System

Sec. 17. (a) In the event said Pension Fund becomes seriously depleted in the opinion of the Pension Board, said Pension Board may proportionately and temporarily reduce the benefits of all pensioners and beneficiaries, but such reductions shall thereafter be paid to such pensioners and beneficiaries, as and when

said Fund is, in the opinion of the Pension Board, sufficiently reestablished to do so. Should the reserve and surplus in the Pension Fund become exhausted and, at such time, the outgo of the Pension Fund exceeds the income thereto, then, in such event, the governing body of the city shall have the right, by ordinance duly passed, to dissolve the Pension System and require liquidation thereof without any liability to the city whatsoever.

(b) Any member or survivor receiving a retirement pension may, at his option, receive any smaller retirement pension after properly requesting same in writing to the Pension Board.

(c) In the event any member dies within three (3) years from his retirement date and leaves no widow or minor children, his estate shall be entitled to payment in a lump sum, the excess, if any, of his accumulated contributions to the date of his retirement over the aggregate monthly benefit payments received by the member.

#### Legal Services

Sec. 18. The City Attorney of such city shall handle all legal matters for the Pension System which are referred to him by the Pension Board or city without additional compensation therefor. The Pension Board may, however, if it deems necessary, employ outside legal advice to the exclusion of, or to assist, the City Attorney, and pay reasonable compensation therefor out of said Pension Fund.

#### Actuary

Sec. 19. Such Pension Board may, at its discretion, from time to time, employ an actuary which cost shall be paid for by the city. The governing body of the city may require that an actuarial study, survey and report be made of such Pension System not more than once every five (5) years.

#### Exemption From Execution, Attachment or Other Writ

Sec. 20. No portion of any such Pension Fund, either before or after its order of disbursement by said Pension Board, and no amounts due or to become due any beneficiary or pensioner, under this Act, shall ever be held, seized, taken, subjected to, detained, or levied upon by virtue of any execution, attachment, garnishment, injunction, or other writ, and no order or decree, or any process or proceeding whatsoever, shall issue out of or by any court of this state for the payment or satisfaction in whole or in part out of said Pension Fund, of any debt, damage, claim, demand, or judgment against any such members, pensioners, dependents, or any person whomsoever, nor shall such Pension or any part thereof, or any claim thereto, be directly or indirectly assigned or transferred and any attempt to transfer or assign the same or any part thereof, or any claim thereto, shall be void. Said Fund shall be sacredly held, kept, and disbursed for the purposes provided by this Act, and for no other purpose whatsoever, except that the pen-

sioner, survivor, or dependent, at his discretion, may have deducted from his pension the monthly premium cost of the city's group hospitalization and life insurance plan.

#### Members in Military Service

Sec. 21. Members of the Pension System engaged in active military service shall not be required to make the monthly payments into the Pension Fund provided for in this Act, nor shall they lose any previous years of service with the city caused by such military service. Furthermore, the city shall not be required to make any monthly payments into the Pension Fund on such member while he is engaged in the military service. Any member who engages in active military service shall, if he returns to employment by the city within three (3) months after termination of such service, receive credit for his time in such service and shall immediately at the beginning of his first full pay period begin repaying to the Pension Fund the equivalent of all monthly contributions for the total number of months elapsed since he went into such service, such repayment to be completed within twenty-four (24) months of reemployment, and the city shall pay into the Fund one and one-half (1½) times such amount. Credit for military service shall be limited to twenty-four (24) months, unless such period is extended by the Pension Board.

#### Employees on Retirement When Act Enacted

Sec. 22. Subject to the provisions of Section 17, any former employee of any city now on retirement by such city shall hereafter be paid at the same rate he is now receiving and it is not the intention of this Act to change the status of any member now on Pension by such city.

#### Cities With Pension Provisions in Their Charter

Sec. 23. The terms of this Act shall not apply to any city operating a municipal employees pension program under the terms and provisions of its charter.

#### Creation of Pension System for Employees Transferred En Masse to Newly Created Governmental Subdivision

Sec. 23a. Notwithstanding any other provision of this Article 6243g should a governmental subdivision which has been or may be formed in the future to assume and perform the function of a department, agency, or other establishment which was formerly operated by the city or jointly by the city with another governmental subdivision and all employees who performed services for such a department, agency or other establishment were transferred en masse to the newly created governmental subdivision formed to assume and perform the function of the department, agency or other establishment for which such employees performed services prior to their transfer, then such newly created governmental subdivision through its governing body may elect to create a pension system for such transferred employees within ninety days of the enactment of this amendatory act or within ninety days of

the creation of such newly created governmental subdivision, whichever occurs later, and the Pension Board of the Pension System established by the city shall, within thirty days after being notified by the governing body of the newly created governmental subdivision of its intention to create a pension system for such transferred employees, transfer to such governing body in cash and/or in obligations of the United States Government of equal fair market value at date of transfer all contributions made by the transferred employees to the Pension System of the city prior to their transfer, who were not eligible and had not elected benefits under the Pension System at the time of transfer, together with all contributions made by the city and/or any other governmental subdivision to the Pension System of the city on behalf of such transferred employees, all without interest. Such payment by the Pension Board of the Pension System of the city shall be in full satisfaction of all claims such transferred employees may have on the Pension System of the city. If the governing body of the newly created governmental subdivision elects not to create, or fails to elect to create, a pension system for the transferred employees within ninety days of the enactment of this amendatory act or within ninety days of the creation of such newly created governmental subdivision, whichever occurs later, then the Pension Board of the Pension System of the city shall refund to each of the transferred employees who was not eligible and had not elected benefits under the Pension System of the city at the time of transfer his own contributions, without interest, in satisfaction of any claim such transferred employee may have on the Pension System of the city. The rights of any transferred employee who was eligible at the time of transfer and had timely elected a benefit under the Pension System of the city shall not be affected by this Section and such employee shall be entitled to all benefits which had accrued to him or her under the Pension System of the city at the time of transfer without regard to this amendatory act.

#### Effective Date of Increase in Contributions

Sec. 24. The increase in employee and city contributions resulting from the adoption of this amended Act, as provided in Section 7 and Section 8 hereof, shall become effective at the beginning of the next regular pay period of such city occurring after the expiration of ten (10) days from the effective date of this Act.

#### Contributions by Members

Sec. 6. (a) Commencing with the first day of the month following the expiration of thirty (30) days after the passage of this Act or after

the date of publication of the final census report which shows that the city has attained a population of nine hundred thousand (900,000) or more inhabitants, each member of the Pension Fund shall pay into such Fund each month, the sum of five percent (5%) of the base salary provided for the classified position in the police department held by the member. Such payments shall be deducted by the city from the salary of each member monthly and paid to the treasurer of the Pension Fund. Should an emergency arise and the Pension Board deem it necessary for the welfare of the Pension System, the Board may raise the monthly payments of each member of the Pension System to an amount not to exceed ten percent (10%) of the base salary provided for the classified position in the police department held by the member.

(b) The maximum employee contribution which may be made to the fund by a member, other than a member holding a position above the third highest classification on the effective date of this Act, shall be limited to a contribution based on the salary of the third highest classification within the salary schedule of the police department. #### Monthly Payment by City

Sec. 7. In addition to the payments in the next preceding Section, the city shall pay monthly into the Pension Fund, from the general or other appropriate fund of the city, an amount equal to seven and one-half percent (7½%) of the payroll of the police department. However, should the Police Pension Board deem it necessary for the welfare of the Pension System to increase the contribution of each member of the Police Pension System within the statutory limits of Section 6 of this Act, then the contribution made to the Police Pension System by the city may, with the approval of the City Council, be increased by not less than one and one-half (1½) times the percentage increase in contribution of the members. However, no pensioner or beneficiary shall be entitled to any benefits lost to him as a result of the temporary reduction in benefits.

#### Investment of Surplus

Sec. 9. (a) Whenever in the opinion of the said Pension Board, there is on hand in said Pension Fund a surplus over and above a reasonably safe amount to take care of current demands upon such funds, such surplus, or so much thereof as in the judgment of the said Pension Board is deemed proper, may be invested in bonds or other interest-bearing obligations and securities of the United States, the State of Texas, or any county, city or other political subdivision of the State of Texas, or in first lien real estate mortgage securities insured by the Federal Housing Administration under the National Housing Act of the United States, as amended from time to time, and in such corporation bonds, preferred stocks and common stocks as the Pension Board may deem to be proper investments for said funds. The funds may also be invested in a sum not to exceed ten percent (10%) with a Federal Credit Union restricted to employees of the city. In making each and all investments, such Pension Board shall exercise the judgment and care under the circumstances then prevailing which men of ordinary prudence, discretion, and intelligence exercise in the management of their own affairs, not in regard to speculation but in regard to the permanent disposition of their funds, considering the probable income therefrom as well as the probable safety of their capital; provided, however, that not more than fifty percent (50%) of said funds shall be invested at any given time in corporate stocks, nor shall more than five percent (5%) of said funds be invested in securities issued by any one (1) corporation, nor more than five percent (5%) of the voting stock of any one (1) corporation be owned; and provided further, that stocks eligible for purchase shall be restricted to stocks of companies incorporated within the United States which have paid dividends for ten (10) consecutive years or longer immediately prior to the date of purchase, and which, except for bank stocks and insurance stocks, are listed upon an exchange registered with the Security and Exchange Commission or its successors.

(b) The mayor may appoint an Investment Review Committee, consisting of three (3) qualified persons to be selected from the Trust Departments of the banks of the cities to which this law applies. Such persons shall be experienced in securities and investment matters. The Investment Review Committee shall be appointed for a two year term. Such Committee shall (a) review the investments of the Fund to determine their suitability and desirability for the Funds; (b) review the investment procedures and policies pursued by the Board in the administration of the Fund; and (c) submit an annual report of its findings and recommendations to the Pension Board of the Police Officer's Pension System and the Mayor

of the city within ninety (90) days after the end of each calendar year.

**Transfer of Existing Pension Fund**

Sec. 10. Immediately upon passage of this Act, the city pension officer or anyone discharging the duties of the pension officer shall transfer the pro rata share of any existing Police Officer's Pension Fund to the Police Officer's Pension Fund established by this Act.

**Retirement: Amount of Pension**

Sec. 11. (a) From and after passage of this Act, any member of such Pension System who has been in the service of the city police department for the period of twenty (20) years shall be entitled to a retirement pension of an amount equal to thirty percent (30%) of the base salary provided for the classified position in the police department held by the member, provided that if the member has not held the same classified position for five (5) years prior to the date of retirement, the retirement pension shall be based on the average monthly base salary of the member for five (5) years preceding retirement.

(b) From and after the passage of this Act, if a member of the Police Pension System is promoted or appointed to any classified position above the third highest in the personnel classification schedule, that member's contribution and retirement benefits will be computed on the base salary of the third highest classified positions in the police department.

(c) From and after the passage of this Act any member of such Pension System who has been in the service of the city police department for a period of years in excess of twenty (20) years, and who retires from the service of the police department, shall, in addition to the thirty percent (30%) of his base salary be paid an additional sum equal to two percent (2%) of his base salary per month for each year of service in the police department in excess of twenty (20) years. For example, a member with twenty-five (25) years' service would be entitled to forty percent (40%); a member with thirty (30) years, fifty percent (50%); etc.

(d) It shall be compulsory for any member to retire from the service of the police department upon attaining the age of sixty-five (65) years. Failure of any member of the Pension System to comply with this provision shall deprive the member and his dependents of any of the benefits provided for herein. If at the time of retirement because of maximum age requirements, the member has completed less than twenty (20) years of service, his monthly retirement pension shall be prorated on the basis of one and one-half percent (1½%) of the base salary of the position of the member per month for each year of service completed.

(e) Upon a member's completion of twenty (20) years of service in the police department and thereafter, when such member retires, whether such retirement be voluntary or invol-

untary, such monthly payment shall begin forthwith and continue for the remainder of the member's life. However, when such member has completed twenty (20) years' service in the police department and if the physicians of Pension Board agree that the member is physically fit to continue his active duties in the police department, they may so certify, and the member may continue in the service of the city police department until the member attains the age of sixty-five (65) years, at which time his retirement pension shall be computed as hereinbefore stated.

(f) No member shall be required to make any payments into the Pension Fund after the member has retired from the service of the police department.

**Disability Benefits**

Sec. 12. Any member of the police department who becomes incapacitated for the performance of his duty by reasons of any bodily injury received in, or illness caused by, the performance of his duty shall, upon presentation to the Pension Board of proof of permanent disability, be retired and shall receive a retirement allowance equal to the percentage of his disability. Such allowance shall be computed on the same basis as a service retirement with regard to length of service; for example, if the member is fifty percent (50%) disabled he shall receive one-half (½) the retirement allowance granted a member as a service retirement for the period of service he has completed, provided that in case of a disability retirement before the member has completed twenty (20) years of service, he shall receive an allowance based on the minimum allowed for twenty (20) years service. Such allowance as is granted by the Pension Board shall be paid the member for the remainder of his life or so long as he remains incapacitated. When any member has been retired for permanent, total or partial disability, he shall be subject at all times to re-examination by the Pension Board and shall submit himself to such further examination as the Pension Board may require. If any member refuses to submit himself to any such examination, the Pension Board may, within its discretion, order the payments stopped. If a member who has been retired under the provisions of this Section should thereafter recover, so that in the opinion of the Pension Board he is able to perform the usual and customary duties formerly handled by him for the city in the police department, and such member is reinstated or tendered reinstatement to the position he held at the time of his retirement, then the Pension Board shall order such payment stopped. In the event the municipality does not specify a higher maximum rate of earnings to be considered for deposits and contributions, as above authorized, then in that event earnings of its member-employees in excess of Three Thousand, Six Hundred Dollars (\$3,600.00) in any one year shall not be considered.

(d) As to each and every payroll subsequent to the effective date of participation of the Department in which such person is employed, the employing municipality shall cause to be deducted from the compensation due to each member of the System in the employment of the municipality, the deposit which the member is required under this Act to pay to the System on account of such earnings.

(e) The Treasurer or proper disbursing officer of each participating municipality shall make deductions from salaries of members as provided in this Act, and shall transmit monthly, or at such time as the Board shall designate, a certified copy of the payroll, and the amount specified to be deducted shall be paid to the Board at its home office in cash and, after making a record of all receipts, the said Board shall deposit such receipts to the credit of the Employees Saving Fund, and such Funds shall be deemed as appropriated for use according to the provisions of this Act.

(f) For the purpose of enabling the collection of members' deposits to be made as simple

as possible, the city clerk or city secretary of each participating municipality shall within thirty (30) days after the beginning of each year, make up a list of all employees in its employ, who are members, set out their salaries by the month, and by the year, make a certificate to the correctness of this statement, and file the same with the Director. If additions to or deductions from this list should be made during the year, such additions or deductions shall likewise be certified.

(g) The records of the Board shall be open to public inspection and any member shall be furnished with a statement of the amount to the credit of his individual account upon written request, provided that the Board shall not be required to answer more than one such request of a member in any one year.

(h) Repealed by Acts 1965, 59th Leg., p. 1572, ch. 682, § 3.

(i) The rate of contribution required of members of the participating departments of any participating municipality may be reduced from a higher rate of contribution theretofore prescribed by ordinance, to one of the lower rates of contribution authorized by this Act, following an election by secret ballot, conducted under such rules and regulations as may be adopted and promulgated by the Board of Trustees of the System, provided the proposal to reduce the rate of contribution carries by affirmative vote of two-thirds of all the members of the affected participating departments of such city; and provided further that the municipality by ordinance shall so provide. Such reduction in the rate of contribution may be made effective at the beginning of a designated calendar month, provided that the election above required shall have been held and such ordinance shall have been adopted at least ninety (90) days before the date fixed for reduction of contributions, and provided that written notice of such reduction shall have been given to the Director at least sixty (60) days before the date on which such reduction is to be made effective.

exceed five and one-half per centum (5-½%) in the event the current service deposit rate prescribed for members of participating departments is three per centum (3%) of earnings. The above percentages for each participating municipality shall be determined annually from the most recent data available at the time of such determination, and shall be certified by the Board to each participating municipality prior to the beginning of each calendar year. Where the municipality has different rates of contribution for employees of different departments, the maximum rate of contribution required of the participating municipality shall be determined by calculations made by the actuary of the average rate (taking into account the number of employees in each bracket) of contribution prescribed for current service deposits of employees of its participating departments. No reduction in contribution rate required of its employees shall reduce the maximum rate of contribution required of a participating municipality. Any participating municipality which has one or more of its departments with a different date of participation from others of its departments, by action of its council may elect to have all of its participating departments considered and treated, for the purpose of determining normal and prior service contribution rates, and for the purpose of determining any period within which the municipality must fund the obligations mentioned in paragraphs (a), (b) and (c) of this subsection, as having a single composite participation date, which composite date shall be determined by the actuary as an average weighted according to the number of members entering the System on the actual dates of participation of the several departments involved.

(b) Each participating municipality shall make payment of normal contributions to the Municipality Current Service Accumulation Fund of the System each month of an amount equal to the per cent of the earnings during such month of the members of the System employed by such participating municipality, which per cent shall be calculated annually by the actuary and approved by the Board as being the necessary and required per cent: (1) to maintain a reserve in such municipality's account in the Municipality Current Service Accumulation Fund equal to the present and prospective liabilities of such municipality's account in the Municipality Current Service Accumulation Fund, and (2) to amortize over a period of five (5) years the amount by which the present and prospective liabilities of such municipality's account in the Municipality Current Service Accumulation Fund was greater or less than the amount in such account on January 1st of the year preceding the then current year.

"Present and prospective liabilities" as used in this subsection shall mean, at any time, an amount equal to that amount in the Employees Saving Fund standing to the credit of a participating municipality's members at that time

which according to calculations made by the actuary and approved by the Board on the basis of mortality and other tables adopted by the Board will eventually be transferred to the Current Service Annuity Reserve Fund, plus such additional sum as shall be determined to be a proportional adjustment for all such amounts in the Employees Saving Fund for which the participating municipality is obligated to provide (out of its Municipality Current Service Accumulation Fund Account) reserves at retirement in a ratio other than one to one.

(c) Each participating municipality shall make payment of Prior Service Contributions to the Municipality Prior Service Accumulation Fund of the System each month of an amount equal to a per cent of the earnings during such month of the members of the System employed by such participating municipality which per cent shall be calculated annually by the actuary and approved by the Board as being the necessary and required per cent, on the basis of regular interest:

(i) to accumulate in such municipality's account in the Prior Service Accumulation Fund by or before the end of the twenty-fifth year of participation of such participating municipality or by or before the end of the twentieth year from date of allowance by such municipality of any special prior service credits or antecedent service credits pursuant to Articles XV or XVI hereof, whichever date is the later, a sum equal to the reserve required (according to calculations made by the actuary and approved by the Board, on the basis of mortality and other tables adopted by the Board) to meet in full all payments which may become due after the end of such period under existing and anticipated prior service annuities arising from prior service credits, special prior service credits, and antecedent service credits, granted by such participating municipality; and

(ii) to provide the amount required according to this Act to be paid during such period under prior service annuities arising from prior service credits, special prior service credits, and antecedent service credits granted by such participating municipality.

If the per cent of earnings calculated as above for Prior Service Contributions when added to the per cent of earnings calculated according to the preceding paragraph for normal contributions shall together exceed the maximum contributions prescribed in paragraph (a) of this subdivision, then in such event, the per cent of earnings for Prior Service Contributions shall be reduced a per cent which together with the percentage for normal contributions will equal the maximum contributions prescribed by paragraph (a) of this subsection.

(d) Each participating municipality shall make payment of expense contributions to the System each month at a rate per member of

the System employed by such participating municipality as is set by the Board and certified to all participating municipalities prior to the beginning of each calendar year as being the necessary rate required to provide the excess, if any, of the estimated total administrative expense for the year above the anticipated revenue of the Expense Fund from other sources during the year adjusted for any surplus or deficiency existing at the beginning of the year; provided, however, that such rate shall never exceed Fifty (50¢) Cents per month per member.

(e) On or before the fifteenth day of each month, each participating municipality shall remit or cause to be paid to the System at its office the amounts of the normal contributions, Prior Service Contributions and Expense Contributions due for the preceding month as herein provided.

(f) Unless otherwise provided for and paid by a municipality all contributions of the municipality shall be paid out of the fund from which earnings are paid to the members or out of the General Fund of the Municipality.

#### Method of Financing

Sec. V. All of the assets of the System shall be credited according to the purpose for which they are held to one (1) of eight (8) funds, namely, the Employees Saving Fund, the Municipality Current Service Accumulation Fund, the Municipality Prior Service Accumulation Fund, the Current Service Annuity Reserve Fund, the Prior Service Annuity Reserve Fund, the Interest Fund, the Endowment Fund and the Expense Fund.

#### 1. The Employees Saving Fund:

(a) Each participating municipality shall cause to be deducted from the salary of each member, on each and every payroll of such employer for each and every payroll period, a sum of money equal to seven percentum (7%), five percentum (5%), or three percentum (3%) of his earnings, as fixed by the ordinance of the participating municipality. In determining the amount earnable by a member in a payroll period, the Board may consider the rate of annual compensation payable to such member on the first day of the payroll period as continuing throughout such payroll period, and it may omit deductions from earnings for any period less than a full payroll period, if employee was not a member on the first day of the payroll period, and to facilitate the making of deductions, it may modify the deduction required of any member by such an amount as shall not exceed one-tenth ( $\frac{1}{10}$ ) of one percentum (1%) of the annual compensation upon the basis of which such deduction is to be made.

(b) The deductions provided for herein shall be made notwithstanding that the minimum compensation provided for by law for any member shall be reduced thereby. Every member shall be deemed to

consent and agree to the deductions made and provided for herein and shall receipt for his full salary or compensation and payment of salary or compensation, less said deduction, shall be a full and complete discharge and acquittance of all claims and demands whatsoever for the services rendered by such person during the period covered by such payment, except as to the benefits provided under this Act. The employer shall certify to the Board on each and every payroll, or in such other manner as said Board may prescribe, the amounts to be deducted; and each of said amounts shall be deducted, and when deducted shall be paid into said Employees Saving Fund, and shall be credited to the individual account of the member from whose compensation said deduction was made.

(c) During the time that the United States is in a state of war and for twelve (12) months thereafter, a member of the System (1) in the Armed Forces of the United States or their auxiliaries or in the Armed Forces Reserve of the United States and their auxiliaries or in the service of the American Red Cross, as a result of having volunteered or having been drafted or conscripted thereinto, or (2) in war work as a direct result of having been drafted or conscripted by governmental action into said war work, shall be permitted to deposit each year to the System a sum not to exceed the amount deposited by him to said System during the last year that he was employed as an employee under the provisions of this Act. The sum so deposited by such member and received by the System shall be deposited by said System in the Employees Saving Fund to the credit of the member's individual account and shall be treated in the same manner as funds deposited by the member while he was last employed as under the provisions of this Act.

(d) Current interest on member's deposits shall be credited annually as of the thirty-first day of December and shall be allowed on the amount of the accumulated deposits standing to the credit of the member at the beginning of the year and shall not be allowed for parts of a year.

(e) Should a member cease to be an employee of a participating department of a municipality except by death or retirement under the provisions of this Act, upon the filing of formal application therefor, such member's accumulated deposits shall be paid to him and his account in the Employees Saving Fund closed.

Following the automatic termination of membership in the System for those members who have been absent from service in some participating department more than sixty (60) consecutive months, the Em-

ployees Saving Fund account of such members shall cease to draw interest.

(f) Should a member die before retirement the amount of his accumulated deposits shall be paid as provided in Section VII of this Act.

(g) Upon the retirement of a member his accumulated deposits shall be transferred from the Employees Saving Fund to the Current Service Annuity Reserve Fund.

## 2. Municipality Current Service Accumulation Fund:

The Municipality Current Service Accumulation Fund shall be the Fund in which shall be accumulated all normal contributions made to the Texas Municipal Retirement System by the participating municipalities for the purpose of providing upon the retirement of each member an amount at least equal to such member's accumulated deposits as the municipality's contribution to the reserves for the member's current service annuity.

Contributions to and payments from this Fund shall be made as follows:

(a) All normal contributions payable by participating municipalities shall be paid into the Municipality Current Service Accumulation Fund and shall be credited to the accounts of the respective participating municipalities in such Fund.

(b) Upon the retirement of a member, an amount equal to his accumulated deposits in the Employees Saving Fund, or such greater amount as the participating municipality has undertaken (pursuant to Article XIV) to provide, shall be transferred from the Municipality Current Service Accumulation Fund into the Current Service Annuity Reserve Fund. If the accumulated deposits of such retiring members have accumulated from deposits made while an employee of a single participating municipality, such municipality's account in the Municipality Current Service Accumulation Fund shall be reduced by the amount so transferred. If such accumulated deposits arose from service in more than one participating municipality, the accounts of the involved participating municipalities in the Municipality Current Service Accumulation Fund shall be reduced by the respective amounts chargeable to such participating municipalities.

## 3. Municipality Prior Service Accumulation Fund:

The Municipality Prior Service Accumulation Fund shall be the Fund in which shall be accumulated all prior service contributions made to the Retirement System by the participating municipalities for the purpose of providing the amounts required for payment of prior service annuities; and from which prior service annuities shall be paid to the extent herein provided.

Contributions to and payments from this Fund shall be made as follows:

(a) All prior service contributions payable by participating municipalities shall be paid into the Municipality Prior Service Accumulation Fund and shall be credited to the accounts of the respective participating municipalities in such Fund.

(b) All payments under prior service annuities arising from prior service credits, special prior service credits, and antecedent service credits granted by a participating municipality shall be paid from this Fund and charged to such participating municipality's account in this Fund subject to the following: the Board shall have the power to reduce proportionately all payments under prior service annuities arising from prior service credits, special prior service credits, and antecedent service credits granted by any participating municipality, at any time and for such period of time as is necessary so that the payments under such prior service annuities in any year shall not exceed the amounts available in such participating municipality's account in the Municipality Prior Service Accumulation Fund for payment of prior service annuities in such year.

(c) Whenever, at the end of any year, the amount accumulated in any municipality's account in the Municipality Prior Service Accumulation Fund shall equal or exceed the reserve required, as of the end of such year, according to calculations made by the actuary and approved by the Board on the basis of mortality and other tables adopted by the Board, to meet all future payments in full under prior service annuities, arising from prior service credits, special prior service credits, and antecedent service credits granted by such participating municipality, then in effect or to become effective thereafter, then

(1) the amount of the reserve required at the end of such year under such prior service annuities as are then in effect shall be transferred from the Municipality Prior Service Accumulation Fund to the Prior Service Annuity Reserve Fund and such municipality's account in the Municipality Prior Service Accumulation Fund shall be reduced by such amount so transferred; and

(2) future payments under such prior service annuities so transferred shall thereafter be paid by the System from the Prior Service Annuity Reserve Fund; and

(3) the payment of prior service contributions to the System by such participating municipality shall be discontinued.

Thereafter, upon retirement of a member with prior service credits, special prior service credits or antecedent service credits granted by such participating municipality the amount of the reserve required as of the effective date of such retirement to meet all future payments in full under such member's prior service annuity shall be transferred from the Municipality Prior Service Accumulation Fund to the Prior Service Annuity Reserve Fund and such municipality's account in the Municipality Prior Service Accumulation Fund shall be reduced by such amount so transferred.

Thereafter, should it be determined, according to calculations made by the actuary and approved by the Board on the basis of mortality and other tables adopted by the Board, that the amount to the credit of such participating municipality's account in the Municipality Prior Service Accumulation Fund at the end of any year is less than the reserve required as of the end of such year to meet all future payments in full under prior service annuities, arising from prior service credits, special prior service credits, or antecedent service credits granted by such participating municipality, to become effective after the end of such year, such municipality shall resume payment of Prior Service Contributions, subject to the limitations of Section IV of this Act, of such percentage as is required to amortize such deficiency over a period of one (1) year.

Whenever all prior service annuities, arising from prior service credits, special prior service credits, or antecedent service credits granted by a participating municipality have become effective and the reserves therefor transferred to the Prior Service Annuity Reserve Fund as provided above, any then remaining balance to the credit of such municipality's account in the Municipality Prior Service Accumulation Fund shall be paid to such municipality, and such municipality's account in the Municipality Prior Service Accumulation Fund shall be closed.

#### 4. Current Service Annuity Reserve Fund:

The Current Service Annuity Reserve Fund shall be the Fund in which shall be held all reserves for current service annuities granted and in force and from which shall be paid all current service annuities and all benefits in lieu of current service annuities, payable as provided in this Act. This Fund shall be made up of transfers as follows:

(a) At the time of service or disability retirement, the accumulated deposits of a retiring member shall be transferred from the Employees Saving Fund to the Current Service Annuity Reserve Fund as reserves for the current service annuity purchased by said member's deposits.

(b) An amount equal to the accumulated deposits of each retiring member or

such greater sum as the participating municipality has undertaken to provide shall be transferred, upon such member's retirement, from the Municipality Current Service Accumulation Fund as reserves for an additional current service annuity over and above the current service annuity purchased by such member's deposits.

Transfers and payments from the Current Service Annuity Reserve Fund shall be made as provided in Section VII of this Act, upon the death, restoration to active service or removal from the disability list, of an annuitant retired on account of disability.

5. Prior Service Annuity Reserve Fund:

The Prior Service Annuity Reserve Fund shall be the Fund in which shall be accumulated all transfers from the Municipality Prior Service Accumulation Fund as herein provided. All prior service annuity payments under prior service annuities, the reserves for which have been transferred to this Fund, shall be paid from this Fund. The Board shall have the power to reduce proportionately all payments for prior service annuities payable from this Fund at any time and for such period of time as is necessary so that payments under such prior service annuities in any year shall not exceed the available assets in the Fund in such year.

Transfers from this Fund shall be made as provided in Section VII of this Act, upon the restoration to active service of an annuitant retired on account of disability.

6. Interest Fund:

The Interest Fund is hereby created to facilitate the crediting of interest to the various other Funds. All income, interest and dividends derived from the deposits and investments authorized by this Act shall be paid into the Interest Fund.

If the Board shall find and determine that, as of December 31st of any year, (a) the aggregate market value of the common stocks held by the system plus the amount standing to the credit of the interest reserve account of the Endowment Fund as of said date shall exceed in amount the sum of (b) one hundred twenty per cent (120%) of the then book value of said stocks plus two per cent (2%) of the book value of all other invested assets of the system (excluding common stock) as of said date, then, (c) in such event, the Board may direct that all or part of the amount of such excess may be capitalized and applied to adjust upward the book value of said stocks in accordance with rules and formulas adopted by the Board, and the amount of such adjustment shall be treated as investment income and shall be credited to the Interest Fund along with other investment income, interest and dividends.

Once each year on the thirty-first day of December, interest shall be allowed and transferred to the other Funds, respectively. After interest-bearing funds have been duly credited

with interest for the year in the manner provided by this Act, the Board annually shall transfer all excess earnings from the Interest Fund to one or another of the several special accounts of the Endowment Fund as in its judgment the needs and condition of the system may require.

7. Endowment Fund:

The Endowment Fund shall be a Fund in which shall be accumulated gifts, awards, funds and assets accruing to the System which are not specifically required by other Funds established by this Act. The Endowment Fund shall consist of the following special accounts: the interest reserve account; the general reserves account; the distributive benefits account; the perpetual endowment account; and such other special accounts as the Board by resolution may establish.

(a) There shall be credited to the interest reserve account all current interest allocable to the Endowment Fund, and there shall be transferred from the Interest Fund to said account such portion of the excess earnings as in the judgment of the Board may be necessary to provide for transfer to the Expense Fund such amount as is required for the administration and maintenance of the System, and further to provide adequate reserves against insufficient earnings on investments to allow regular interest on Funds entitled thereto under the provisions of this Act. The requirements of this account shall constitute a first charge against excess interest earnings standing to the credit of the Interest Fund at the end of any year.

(b) The general reserves account shall be maintained for maintenance of adequate reserves against special requirements of other Funds of the System; and after the requirements of the interest reserve account of this Fund have been met, the Board may transfer from the Interest Fund to the general reserves account of this Fund such portion of the remaining excess earnings as in its judgment may be needed to maintain the reserves for which this account is established.

(c) After the requirements of the interest reserve account and of the general reserves account of this Fund have been satisfied, the Board may transfer any balance of excess earnings remaining in the Interest Fund at the end of a calendar year to a special account in the Endowment Fund to be denominated the "distributive benefits account." If in the judgment of the Board the amount to the credit of the distributive benefit account at the end of the year is sufficient to warrant such action, the Board may by resolution:

(1) authorize the distribution and payment of all or part of said amount as a distributive benefit to the persons who were annuitants of the System on

the last day of said calendar year in the ratio that the monthly benefit of each such annuitant bears to the total of all annuity payments made by the System for the final month of such year;

(2) authorize the distribution and application of all or part of said amount as supplemental interest earned by, and to be paid and credited to the respective individual accounts of members in the Employees Saving Fund, and to the respective accounts of participating municipalities in the Municipality Current Service Accumulation Fund, in the same manner that current interest was allowed to such accounts and in proportion to the current interest allowed such accounts for such calendar year.

(d) The perpetual endowment account shall be the account in which there shall be deposited and kept such funds, gifts and awards as the grantors thereof may designate as a perpetual endowment for the System.

#### 8. Expense Fund:

The Expense Fund shall be the Fund from which the expenses of administration and maintenance of the System shall be paid. Transfers to and payments from this Fund shall be made as follows:

(a) The Director shall prepare annually an itemized budget showing the amount required to defray the expenses for the ensuing fiscal year and shall submit the report to the Board for its review, amendment and adoption.

(b) The amount estimated to be required to meet the expenses of the System shall be paid from the interest reserve account of the Endowment Fund to the extent available. The Board, as evidenced by a resolution of the Board recorded in its minutes, may transfer to the Expense Fund the amount required to cover the expenses as estimated for the year.

(c) If the amount estimated to be required to meet said expenses of the System is in excess of the amount in the interest reserve account of the Endowment Fund, the Board, by a resolution recorded in its minutes, shall assess the estimated additional amount against the participating municipalities in proportion to the number of members as provided in Section IV of this Act.

#### Creditable Service

Sec. VI. 1. (a) Under such rules and regulations as the Board shall adopt, each person who is an employee of a participating department of a participating municipality on the effective date of participation of such department and who becomes a member on such effective date shall be entitled to receive credit

for "prior service" as defined in this Act. Any person who has been an employee of such a participating municipality prior to the effective date of participation of such municipality, but who is not in the service of such municipality on the effective date of such municipality's participation, shall be entitled to receive credit for "prior service" as defined in this Act, if he again becomes an employee of such participating municipality within five (5) years after the effective date of such municipality's participation and becomes a member as of the date of such reemployment and continues as an employee of a participating department of such municipality for a period of five (5) consecutive years.

(b) The governing body of a municipality may by ordinance direct that each of its employees who is serving in a public hospital, utility or other public facility which the municipality is operating as successor to, or which the municipality has otherwise acquired from a county, special district, or other public corporation or agency of government, shall be awarded and allowed prior service credit for the total number of months prior to date of participation during which such employee was employed in such hospital, utility or other facility during the period of its operation by the said predecessor governmental units or agencies as well as during the period of its operation by the participating municipality; and in such event, the total period of such employment for which such employee is allowed prior service credit hereunder shall be considered service rendered to the participating municipality for purposes of this Act.

In event any participating municipality subsequent to date of participation, by contract, purchase or by legal succession shall acquire and become the operator of a public hospital, utility or other public facility theretofore operated by a county, special district, or other public corporation, the governing body of the participating municipality may by order direct that persons who were employed in such hospital, utility or other facility at the time acquisition of or succession to the same by the participating municipality, and who enter or did enter employment of the participating municipality at that time, shall be allowed prior service credit for the total number of months during which such employee was employed in such hospital, utility or other public facility during the period of its operation by the predecessor counties, districts, and/or other public corporations.

2. Each member entitled to receive credit for "prior service" shall file a detailed statement of all prior service for which he claims credit with the City Clerk or City Secretary of the municipality to which such service was rendered.

3. Subject to the above provisions and to such other rules and regulations as the Board may adopt, each participating municipality shall verify, as soon as practicable after the

filing of such statements of service, the service therein claimed, and shall certify to the Board the length of "prior service" for which credit is allowed to each employee-member and the "average prior service compensation" of each such employee-member.

4. Upon receipt of such certification from the participating municipalities the Board shall issue prior service certificates certifying to each member the length of "prior service" with which he is credited, his "average prior service compensation" and his "prior service credit" as herein defined. So long as membership continues, a prior service certificate shall be final and conclusive for retirement purposes as to such service; provided, however, that any member or participating municipality may, within one (1) year from the date of issuance or modification of such certificate, request the Board to modify or correct such prior service certificate.

When membership ceases, such prior service certificate shall become void. Should a person whose membership has terminated again become a member, he shall enter the System as a member not entitled to credit for prior service.

5. Creditable service at retirement on which the retirement allowance of a member shall be based shall consist of the current service rendered by him since he last became a member, and, also, if he has a prior service certificate which is in full force and effect, the length of the service credited on his prior service certificate.

6. "Prior Service Credit" shall mean an amount equivalent to the accumulation at interest of a series of equal monthly payments of ten per cent (10%) of a member's "average prior service compensation" for the number of months of prior service certified to in such member's Prior Service Certificate. Such accumulation shall be at regular interest and on the basis that interest is allowed at the end of each twelve (12) months period and is allowed on the accumulation at the beginning of each such twelve (12) months period and is not to be allowed for parts of a year.

7. "Accumulated Prior Service Credit" shall mean the "prior service credit" allowed a member as of the effective date of becoming a member, accumulated at regular interest from such date until the effective date of such member's retirement.

8. Repealed by Acts 1969, 61st Leg., p. 1146, ch. 371, § 8.

(c) Application for service retirement shall be made to the Board setting forth the date the member desires his retirement to become effective provided: (1) such application shall be executed and filed at least thirty (30) and not more than ninety (90) days prior to the date on which such retirement is to become effective; (2) the effective date specified in the application shall be the last day of a calendar month, and shall not be a date preceding the termination of the member's employment with an employing municipality.

(d) With the provision that no retirement shall be effective within one (1) year after the effective date of his membership, each member shall be retired from employment by all municipalities on the last day of the calendar year in which the age of sixty-five (65) is attained, or upon the last day of the calendar year in which he completes fifteen (15) years of creditable service, whichever shall last occur; provided, however, that in exceptional cases and for substantial cause such retirement may be deferred by mutual consent of the member and the employing municipality from year to year for a period of not to exceed one (1) year at any time, but in the case of any member who was under the age of fifty (50) years on the effective date of last becoming a member, such member's retirement shall not be so deferred beyond the last day of the calendar year in which he attains the age of seventy (70) or the last day of the calendar year in which he completes fifteen (15) years of creditable service, whichever shall last occur.

(e) Any member who has accepted service retirement shall be ineligible and disqualified to resume or continue service in any participating municipality.

## 2. Standard Benefit on Service Retirement;

(a) A member who retires upon the basis of service eligibility shall be entitled to receive a "standard service retirement benefit" which shall be an allowance payable in equal monthly installments during the lifetime of the member, and in the event of his death before sixty (60) monthly payments of such benefit have been made, such payments shall continue to be paid to the member's beneficiary until the remainder of the sixty (60) monthly payments have been made. The "standard service retirement benefit" of a member shall consist of (1) a current service benefit which is the actuarial equivalent of his current service annuity reserve, and (2) a prior service benefit to which his Accumulated Prior Service Credit, Accumulated Special Prior Service Credit, and Accumulated Antecedent Service Credit, if any, entitles him under the provisions of this Act.

(b) The current service annuity reserve of the member shall be derived from:

(1) His accumulated deposits credited to his account in the Employees Saving Fund at the time of retirement; and

(2) An additional sum, from the Municipality Current Service Accumulation Fund, equal to the accumulated deposits provided by the member, or such greater sum as the participating municipality has undertaken to provide.

(c) If he has a Prior Service Certificate, Special Prior Service Certificate, or Antecedent Service Certificate in full force and effect, the prior service benefit shall be the actuarial equivalent of his Accumulated Prior Service Credit, Accumulated Special Prior Service Credit, and Accumulated Antecedent Service Credit at the time of retirement; subject, however, to the power of the Board, upon recommendation of the actuary, to reduce payments for prior service annuities as provided in Section V of this Act.

## 3. Optional Service Retirement Benefits;

(a) In lieu of the standard service retirement benefit allowable under the preceding subsection, and provided that he shall make such election and nomination within thirty (30) days after the date fixed for retirement, any member retiring for service may elect to receive the actuarial equivalent of his current service benefit in a current service annuity payable to the member during his lifetime, but with the provision that:

Option One. Upon his death, the current service annuity shall be continued throughout the life of, and paid to, such person as the member shall nominate by written designation duly acknowledged and filed with the Board within the time above provided; or

Option Two. Upon his death, one-half of the current service annuity shall be continued throughout the life of, and paid to, such person as the member shall nomi-

nate by written designation duly acknowledged and filed with the Board within the time above provided; or

Option Three. In the event of his death before one hundred twenty (120) monthly payments have been made of his reduced current service annuity, the payments shall be continued to his beneficiary (or to his estate) until the remainder of the one hundred twenty (120) monthly payments have been made; or

Option Four. Some other benefit or benefits may be paid either to the member, or to such person or persons as he may nominate, provided the same shall be approved by the Board, and provided such other benefit or benefits, together with the current service annuity of the member, shall be certified by the actuary to be the equivalent in actuarial value of the current service annuity reserve to which the member is entitled at the date fixed for his retirement.

(b) Any member who makes an effective election to have his current service benefit paid in accordance with Option One, Option Two, Option Three or Option Four, shall likewise receive his prior service benefit, if any, in an adjusted annuity payable upon the same conditions and to the same beneficiary as that selected for his current service benefit, but with the further proviso that all prior service benefits shall be subject to reduction by the Board under the circumstances provided for in Section V of this Act.

## 4. Deferred Service Retirement with Optional Selection;

Any member who has accumulated sufficient creditable service and who is otherwise qualified for service retirement shall have the right to apply in writing (on such forms as the Board may prescribe) for "deferred retirement" under this subsection, and continue in service of a participating municipality, accumulating additional creditable service, upon the terms and with the effect hereinbelow provided.

In the application for deferred retirement, the member shall apply for retirement to be effective on or before the last day of the calendar year in which he reaches seventy (70) years of age, and shall select the standard benefit or one of the optional benefits authorized under Subsection 3, above, and designate the beneficiary of the optional benefit selected. After filing of the application for deferred retirement, the member may continue in the service of a participating municipality, and he may thereafter retire at the end of any month, by filing an amended application in writing for commencement of payment of benefits with the Board at least thirty (30) days before the amended effective date of retirement; or, if such member shall die while in service, or before payments of his deferred annuity have begun, he shall be considered to have retired ef-

fective as of the last day of the calendar month preceding the month in which his death occurs, and his optional selection shall be effective as of that date. Any such member who has applied for deferred retirement may from time to time, prior to beginning of payments of his annuity to him, file an amended application, changing his written selection of optional allowance and/or designated beneficiary. A member who executes an application for deferred retirement will automatically be retired on the last day of the calendar year in which he becomes seventy (70) years of age. A member who is entitled to have applied for deferred retirement hereunder, but who has not executed and filed an application therefor, shall in case of his death be considered as having retired on a standard benefit effective at the end of the calendar month preceding that in which he dies; or, at the election of his beneficiary, such deceased member shall be considered as having been an active member at death and the beneficiary may thereby elect to receive the accumulated contributions of the deceased member.

#### 5. Disability Retirement Eligibility;

With the provision that no retirement shall be effective within one (1) year after the effective date of membership, upon the application of a member or of his employer or his legal representative acting in his behalf, any member with less than ten (10) years of creditable service may be retired by the Board, not less than thirty (30) and not more than ninety (90) days next following the date of filing of such application, on a disability retirement allowance, provided that the Medical Board, after a medical examination of such member, shall certify that such member is mentally or physically incapacitated for the further performance of duty, that such incapacity is the direct result of injuries sustained subsequent to the effective date of membership by external and violent means as a direct and proximate result of the performance of his duties, that such incapacity is likely to be permanent and that such member should be retired.

With the provision that no retirement shall be effective within one (1) year after the effective date of membership, upon the application of a member or of his employer or his legal representative acting in his behalf, any member with more than ten (10) years of creditable service, who is not eligible for service retirement, may be retired by the Board, not less than thirty (30) and not more than ninety (90) days next following the date of filing of such application on a disability retirement allowance, provided that the Medical Board, after a medical examination of such member, shall certify that such member is mentally or physically incapacitated for the further performance of duty, that such incapacity is likely to be permanent and that such member should be retired.

#### 6. Standard Disability Retirement Benefits;

Upon retirement for disability a member shall receive a disability retirement benefit consisting of a current service annuity, which shall be the actuarial equivalent of his current service annuity reserve, and a prior service annuity to which his Accumulated Prior Service Credit, Accumulated Special Prior Service Credit and Accumulated Antecedent Service Credit, if any, entitles him under the provisions of this Act.

(a) His current service annuity reserve shall be derived from:

(1) His accumulated deposits credited to his account in the Employees Saving Fund at the time of retirement; and

(2) An additional sum from the Municipality Current Service Accumulation Fund equal to the accumulated deposits provided by the member, or such greater sum as the participating municipality has undertaken to provide.

(b) If he has a Prior Service Certificate, Special Prior Service Certificate, or Antecedent Service Certificate in full force and effect, the prior service annuity shall be the actuarial equivalent of his Accumulated Prior Service Credit, Accumulated Special Prior Service Credit and Accumulated Antecedent Service Credit at time of retirement. Upon the recommendation of the actuary, the Board shall have the power to reduce payments for prior service annuities as provided in Section V of this Act.

#### 7. Requirements and Conditions Applicable to Disability Benefits;

Once each year during the first five (5) years following retirement of a member on a disability retirement allowance, and once in every three-year period thereafter, the Board may, and upon his application shall, require any disability annuitant who has not yet attained the age of sixty (60) years to undergo a medical examination, such examination to be made at the place of residence of said annuitant or any other place mutually agreed upon, by a physician or physicians designated by the Board. Should any disability annuitant who has not yet attained the age of sixty (60) years refuse to submit to at least one (1) medical examination in any such periods by a physician or physicians designated by the Board, his allowance shall be discontinued until his withdrawal of such refusal, and should his refusal continue for one (1) year, all his rights in and to his allowance shall be revoked by the Board.

(a) Should the Medical Board report and certify to the Board that such disability annuitant is no longer physically or mentally incapacitated for the performance of duty, or that such disability annuitant is engaged in or is able to engage in a gainful occupation, and should the Board by a majority vote concur in such report, then his allowance shall be discontinued.

(b) Should a disability annuitant under the age of sixty (60) years be restored to

active service in a participating department of a participating municipality, his retirement allowance shall cease, he shall again become a member of the System, and any reserves on his current service annuity at that time in the Current Service Annuity Reserve Fund shall be transferred to the Employees Saving Fund and to the Municipality Current Service Accumulation Fund, respectively, in proportion to the original sum transferred to the Current Service Annuity Reserve Fund at retirement and the reserves under his prior service annuity, if any, in the Prior Service Annuity Reserve Fund at that time shall be transferred to the Municipality Prior Service Accumulation Fund. Upon restoration to membership, any Prior Service Certificate, Special Prior Service Certificate or Antecedent Service Certificate, on the basis of which his service was computed at the time of his retirement shall be restored to full force and effect, and in addition, upon his subsequent retirement, he shall be credited with all his membership service. Should a disability annuitant die or be removed from the disability list for any cause other than restoration to active service, an amount equal to the amount by which such annuitant's accumulated deposits at the time of disability retirement exceed the current service annuity payments received by such annuitant under his disability allowance, if any such excess exists, shall be paid from the Current Service Annuity Reserve Fund to such annuitant if living; otherwise, such amount shall be paid to his estate unless he has directed such amount to be paid otherwise.

#### 8. Return of Deposits Upon Other Terminations;

Should a member cease to be an employee of a participating department except by death or retirement under the provisions of this Act, he shall, upon application, be paid in full the amount of the accumulated deposits standing to the credit of his individual account in the Employees Saving Fund. In the event of death of a member before retirement, and prior to eligibility of the member to deferred retirement as hereinafter defined, the amount of his accumulated deposits standing to the credit of his individual account in the Employees Saving Fund shall be paid to his estate unless he has directed the account to be paid otherwise. Seven (7) years after cessation of service, if no previous demand has been made, any accumulated deposits of a contributor shall be returned to him or to his estate. If the contributor or the administrator of his estate cannot then be found, his accumulated deposits shall be escheated to the Retirement System, and shall be credited to the permanent endowment account of the Endowment Fund.

Each such successor trustee shall be appointed from a participating municipality and, to the extent possible, such trustees shall be from different municipalities. A person appointed as a trustee shall qualify as a trustee upon the presentation to the Board of a certified copy of an oath of office taken before the clerk of the municipality by which such person is employed.

Any trustee after the original trustees shall be disqualified immediately upon termination of employment or office with all participating municipalities or upon any change in status which removes any such trustee from employment or office within the group which he represents. All trustees shall serve without compensation, but shall be reimbursed for any reasonable traveling expenses incurred in attending meetings of the Board and for the amount of any earnings withheld by any employing municipality because of attendance of any Board meeting. Each trustee shall be entitled to one (1) vote on any and all actions before the Board for consideration at any Board meeting, and at least four (4) concurring votes shall be necessary for every decision or action by the Board at any of its meetings.

All meetings of the Board shall be open to the public and shall be held in the offices of the Board or in any other place specifically designated in the notice of any meeting.

(g) Have the accounts of the System audited at least annually by a Certified Public Accountant.

(h) Submit an annual statement to the governing body of each municipality and to any member, upon request, as soon after the end of each calendar year as possible. Such statement shall include at least the following: a balance sheet showing the financial and actuarial condition of the System as of the end of the calendar year; a statement of receipts and disbursements during each year; a statement showing changes in the asset, liability, reserve and surplus accounts during the year; and such additional statistics as are deemed necessary for a proper interpretation of the condition of the System.

(i) The Board annually on December 31 shall allow regular interest on the mean amount in the Current Service Annuity Reserve Fund for the year then ending and shall allow regular interest on the mean amount in the Municipality Prior Service Accumulation Fund for the year then ending and shall allow regular interest on the mean amount in the Prior Service Annuity Reserve Fund during such year and shall allow current interest as defined in Section II of this Act on the amount in the Municipality Current Service Accumulation Fund at the beginning of such year and on the amount in the Endowment Fund at the beginning of such year and on an amount in the Employees Saving Fund equal to the sum of the accumulated deposits standing to the credit at the beginning of such year of all members included in the membership of the System on December 31 of each such year, before any transfers for retirement effective December 31 of such year are made. The amounts so allowed shall be due and payable to said funds and shall be credited thereto by the Board on December 31 of each year from moneys of the System held in the Interest Fund.

(j) Accept any gift, grant or bequest of any money or securities for the purposes designated by the grantor, if such purposes are specified as providing an endowment or retirement benefits to some or all of the participating employees or annuitants of this System, or if no such purposes are designated, for deposit to the credit of the Endowment Fund.

(l) Keep in convenient form such data as shall be necessary for all required calculations and valuations as required by the actuary and keep a permanent record of all the proceedings of the Board.

(m) The Board shall have power to incur indebtedness and to borrow money upon the faith and credit of the System for the purpose of paying and providing for the payment of the expenses incident to the operation of the System, and to renew, extend or refund such indebtedness heretofore incurred or hereafter incurred, and for such purposes to issue and sell the negotiable promissory notes or negotiable bonds of the Texas Municipal Retirement System, maturing within twenty (20) years from date of issuance, and bearing interest at a rate not to exceed six per cent (6%) per annum; and such notes or bonds shall be a charge against and shall be payable from the Expense Fund of the Sys-

tem, hereinabove provided for, but shall expressly provide that the same shall never be held or considered to be an obligation of the State of Texas; but the total indebtedness against the Express Fund of the System shall never exceed at any one time the sum of Seventy-five Thousand Dollars (\$75,000).

(n) Establish such rules and regulations not inconsistent with the other provisions of the Act and generally carry on such other reasonable activities as are deemed necessary or desirable for the efficient administration of the System.

3. The Director shall be in charge of the technical administration of the System and shall have such additional powers and duties as are properly delegated by the Board.

4. The Board shall designate an actuary who shall be the technical advisor of the Board on matters regarding the operation of the Funds created by the provisions of this Act and shall perform such other duties as are required in connection therewith.

As soon as practicable after the establishment of the System, and at least once in each five (5) year period thereafter, the actuary shall make such general investigation of the mortality, and service experience of the members and annuitants of the System as he shall recommend and on the basis of such investigation, he shall recommend for adoption by the Board such tables and rates as are required.

On the basis of such tables and rates as the Board shall adopt, the actuary shall:

(a) Calculate the normal contribution rate for participating municipalities;

(b) Calculate the prior service contribution rate for participating municipalities;

(c) Calculate the current interest rate;

(d) Certify the amounts of each annuity and benefits granted by the Board; and

(e) Make an annual valuation of the assets and liabilities of the funds of the System created by this Act.

4. The Board shall designate an attorney who shall be the legal adviser to the Board and shall represent it in all litigation.

5. The Board shall designate a Medical Board to be composed of three (3) physicians not eligible to participate in the Retirement System. The physicians so appointed by the Board shall be legally qualified to practice medicine in Texas and shall be physicians of good standing in the medical profession. If required, other physicians may be employed to report on special cases. The Medical Board shall pass upon all medical examinations required under the provisions of this Act, and shall investigate all essential statements and certificates by or on behalf of a member in connection with an application for disability retirement, and shall report in writing to the Board its conclusion and recommendation upon all the matters referred to it.

6. The assets of the system in excess of the amount of cash required for current operations as determined by the Board, shall be invested and reinvested in the following types of securities:

(a) Interest-bearing bonds or other evidences of indebtedness: of the State of Texas, or of any county, school district, city or other municipal corporation within the State of Texas; of the United States or of any authority or agency of the United States, or any such securities which are guaranteed as to the payment of principal and interest by the United States or by any authority or agency of the United States.

(c) Preferred stocks and common stocks of companies incorporated within the United States, which have paid dividends for ten (10) consecutive years or longer immediately prior to the date of purchase of such securities and which, except for bank and insurance company stocks, are listed upon an exchange registered with the Federal Securities and Exchange Commission or its successors. Provided, however, that not more than two per cent (2%) of the assets of the system be invested in stocks, bonds and debentures of any one corporation, nor shall more than five per cent (5%) of the voting stock of any one corporation be owned by the system. In making each and all such investments the Board shall exercise the judgment and care under the circumstances which men of prudence, discretion and intelligence exercise in the management of their own affairs, taking into consideration not only the probable income derivable from such securities but as well the probable safety of the capital investment.

The Board shall have full power to sell, assign, exchange, or trade and transfer any of the securities in which the funds of the system at any time may be invested, and to use or reinvest the proceeds as, in the Board's judgment, the needs of the system require.

7. All money received by the Board shall immediately be deposited with a depository for the Account of the System. All disbursements shall be made only upon vouchers signed by the person or persons designated for such purpose by resolution of the Board, and the depository is hereby authorized to pay the vouchers or checks so signed. The depository shall accept all warrants so signed and shall be released from liability for all payments made thereon. Checks or warrants shall be drawn only upon proper authorization by the Board,

properly recorded in the official minute books of the meetings of the Board. All securities of the System when received, shall be deposited in Trust with a depository designated by the Board and the depository shall provide adequate safe deposit facilities for their preservation. The assets of the System shall be invested as one Fund, and no particular person or municipality shall have any right in any specific security or in any item of cash other than an undivided interest in the whole, as set forth in the provisions of this Act.

#### Consolidation With Firemen's Relief Pension Fund

Sec. XI. When the members of the Fire Department of a municipality by their election and with the consent of their employer become participants of this municipal system upon the voluntary application of the employing municipality, the Funds, if any, of the "Firemen's Relief and Retirement Fund" of such municipality and all future payments to such Fund may be transferred to the Board and credited to its Prior Service Reserve Fund.

All distributions and payments which could be made annually to a "Firemen's Relief and Retirement Fund" for the firemen of any participating municipality, if the firemen of such municipality were not covered by this or some other Pension or Retirement System or if such participating municipality has or had taken the proper steps to secure such Funds, shall be paid over to the Board and credited for the benefit of such firemen as the Board shall direct.

Sec. XII. 1. Each member shall, by virtue of the payment of the deposits required to be paid to this System, receive a vested interest in such deposits.

2. Venue of any action by or on behalf of Texas Municipal Retirement System or the Board of Trustees of Texas Municipal Retirement System against any participating municipality, or against any officer or Board of Officers of any participating municipality to compel accounting by such municipality or by such

officer or officers of such participating municipality for any sums due by the participating municipality to the System, or due to the System as contributions of participants, or to require withholding of and accounting for sums due from participants, shall lie in Travis County, Texas, as well as in the county in which such municipality is situated.

3. The assets of the System shall be invested as one (1) Fund, and no particular person, group of persons or entity has any right in any specific security or property or in any item of cash other than an undivided interest in the whole as specified in the provisions of this Act as it now exists or is subsequently amended.

4. All annuities and other benefits payable under the provisions of this Act and all accumulated deposits of members in this system shall be exempt from all state, county or municipal taxes, shall be unassignable and shall not be subject to execution, garnishment or attachment.

5. Any person who shall knowingly make any false statement in any report or application to the System, in an attempt to defraud the System, or who shall knowingly make a false certificate of any official report to the System, shall be guilty of a misdemeanor and shall be punished therefor by fine of not less than One Hundred Dollars (\$100) and not more than One Thousand Dollars (\$1,000), or by confinement in jail for a term of not less than thirty (30) days nor more than one (1) year, or by both such fine or imprisonment.

6. The Board shall require and secure at the expense of the System such Fidelity Bond as it may deem proper for the faithful performance of the duties of the Director.

#### Supplemental Benefits Fund

##### Sec. XIII. 1. Establishment;

Upon the terms and conditions hereinafter stated, the Board of Trustees shall establish in addition to the several Funds provided for in Section V, an additional and separate fund to be known as the "Supplemental Benefits Fund" to provide for the payment of supplemental benefits, as hereinafter provided, for employees of municipalities electing to participate in said Fund who are forced to retire because of disabilities sustained as a direct and proximate result of injuries sustained in the course of their employment.

##### 2. Participation in the Fund;

(a) Any municipality which has elected to have one or more of its departments participate in this System may elect to have the employees of all such departments participate in and be covered by the Supplemental Benefits Fund. Such election is authorized to be made in any manner authorized by Subsection 1 of Section III concerning participation in the System.

(b) A municipality which once elects to participate in the Supplemental Benefits Fund may refuse to add new departments or new employees, but shall never discontinue participa-

tion in the Fund as to members who are covered into the Fund.

(c) Membership in the Fund shall be terminated by cessation of membership in the System.

3. Contributions to the Supplemental Benefits Fund;

Each municipality which elects to have participation in the Supplemental Benefits Fund shall contribute to that Fund, in addition to normal contributions and prior service contributions required pursuant to Section IV, such additional percentage of each payment of earnings as may be fixed by the Board, upon the recommendation of the actuary, as necessary to accumulate the reserves needed to pay the anticipated benefits which may accrue during the first year of existence of the Fund, and from year to year thereafter, provided the rate of contribution to the Fund shall not exceed one-half of one percentum ( $\frac{1}{2}\%$ ) of the earnings of employees of such municipality who are covered under the Fund; provided, further, that the rate of contribution to the Supplemental Benefits Fund shall not be subject to the limitation on contributions prescribed by Subsection 2 of Section IV, but shall be in addition thereto.

4. Supplemental Benefits for Covered Employees;

(a) Any covered employee of a municipal department participating in the Supplemental Benefits Fund may be retired with a supplemental disability annuity as herein authorized, provided that the Medical Board, after a medical examination of such member, shall certify that such member is mentally or physically incapacitated so as to be unable to engage in a gainful occupation, and provided the Board shall find that such incapacity is the direct result of injuries sustained subsequent to effective date of his coverage in the Supplemental Benefits Fund as a direct and proximate result of the performance of the duties of his employment, and that such incapacity is likely to be permanent.

If the member is not entitled to service retirement, the supplemental disability annuity shall be an amount which, together with the amount of his standard disability benefit, will equal one-half of his average monthly earnings for service rendered as an employee of a participating department of the municipality during the sixty (60) months immediately preceding the date of his said injury, or if there be less than sixty (60) months of such service, the average earnings computed for the number of months of such service during such sixty (60) months period. If the member is entitled to service retirement, the supplemental disability annuity shall be an amount which, together with the amount of the standard service retirement benefit to which he is entitled, shall equal one-half of his average monthly earnings for service rendered as an employee of a participating department of the municipality dur-

ing the sixty (60) months immediately preceding the date of said injury, or if there be less than sixty (60) months of such service, the average earnings computed for the number of months of such service during such sixty (60) months period. Provided, however, that in calculating the average monthly earnings upon which the supplemental benefit shall be determined, earnings in any month in excess of those on which the member was required to make contributions to the System shall be disregarded.

(b) Supplemental disability benefits payable from the Supplemental Benefits Fund shall be subject to the same conditions prescribed for standard disability benefits, and if the standard disability benefit is discontinued or suspended for any reason, the supplemental disability benefits from the Supplemental Benefits Fund shall likewise be discontinued or suspended.

(c) The Board shall have the power to reduce proportionately all supplemental benefits payable from the Supplemental Benefits Fund at any time and for such period of time as is necessary so that payments of supplemental benefits from such Fund in any year shall not exceed the available assets in the Fund in such year.

5. Operative Date of the Fund;

The Supplemental Benefits Fund shall not become operative until a sufficient number of municipalities elect to participate in the Fund to cover into the Fund at least four thousand members of the System; the Board shall determine the operative date, and shall notify municipalities which have elected to participate the effective date of their participation in the Fund, which shall not precede the operative date of the Fund as herein provided. Municipalities electing to participate in the Fund shall begin contributions to the Fund from the effective date of participation in the Fund. Municipalities electing to participate after the operative date of the Fund shall begin participation therein on the first day of the second calendar month after notice to the Board of its election to enter the Fund.

6. Management of the Fund;

The Supplemental Benefits Fund shall be managed, controlled and handled as are other funds of the System. Regular interest shall be allowed by the Board on December 31 in each year on the mean amount in the Fund during the year, and the sum so allowed shall be transferred to the Supplemental Benefits Fund from the Interest Fund at the time and in the manner in which interest is allowed to other interest-bearing funds of the System.

Optional Provision for Increased Current Service Annuities

Sec. XIV. Any participating municipality electing to do so may provide for an increased current service annuity reserve at retirement

of employees of such municipality, upon the following terms and conditions:

1. The council by ordinance may provide that for each month of current service thereafter rendered by its participating employees, the city will contribute out of its account in the Municipality Current Service Accumulation Fund to the current service annuity reserve of each such member if he retires and at the time of his retirement a sum that is either (at the option of the employing municipality) one hundred fifty per centum (150%) of the accumulated deposits of the member for such month of employment, or two hundred per centum (200%) of the member's accumulated deposits for such month.

2. In the event an employing municipality elects to contribute toward a current service annuity for its employees at the increased rate above provided, the current service annuity reserve of each such employee-member at his retirement (whether for service or for disability) shall consist of:

(a) The accumulated deposits credited to his account in the Employee's Saving Fund at the time of his retirement, which deposits shall be transferred at such time to the Current Service Annuity Reserve Fund; and

(b) An additional sum which shall be the aggregate of the following: (i) an amount equal to the accumulated deposits made by the member during each month of current service in which the participating municipality for which such service was rendered has undertaken to match such deposits on an equal basis; plus (ii) an amount one and one-half times the member's accumulated deposits arising out of periods of employment during which the employing participating municipality had elected to contribute at one hundred fifty per centum (150%) of the deposits made by the employee-member; plus (iii) an amount twice the member's accumulated deposits arising out of periods of employment during which the employing participating municipality had elected to contribute as above provided on a basis of two hundred per centum (200%) of the deposits made by the employee-member.

Upon retirement of any such employee-member, such aggregate sum shall be transferred from the Municipality Current Service Accumulation Fund into the Current Service Annuity Reserve Fund, and the account of the affected participating municipality in the Municipality Current Service Accumulation Fund shall be reduced by the amount so transferred; if the accumulated deposits of the member arose

from service rendered in more than one participating municipality, the accounts of the affected participating municipalities in the Municipality Current Service Accumulation Fund shall be reduced by the respective amounts chargeable to such participating municipalities.

3. The current service annuity of any member affected by this section shall mean the annuity, actuarially determined of the total of his own transferred deposits, and those transferred out of the Municipality Current Service Accumulation Fund on account of his service.

4. In the event any participating municipality elects to provide for the greater current service annuities herein authorized, it shall make normal contributions monthly to the System in the manner prescribed by Paragraph (b), Subsection 2 of Section IV hereof, but as to such municipality the term "present and prospective liabilities" shall include the liabilities defined in Section IV hereof and the additional amounts arising out of its undertaking to contribute (at retirement) one hundred fifty per centum (150%) and two hundred per centum (200%) of its members' accumulated deposits for the periods designated by the municipality.

5. Any participating municipality which has elected for any year to contribute (at retirement) one hundred fifty per centum (150%) of its members' accumulated deposits arising from service during such period, shall be liable for total contributions at a rate per centum of earnings which shall not exceed two per centum (2%) more than the otherwise applicable maximum rate prescribed by Paragraph (a), Subsection 2 of Section IV hereof, and for any year in which the municipality has elected for any year to contribute (at retirement) two hundred per centum (200%) of its members' accumulated deposits arising from service during such year, the municipality shall be liable for total contributions at a rate per centum of earnings which shall not exceed four per centum (4%) more than the otherwise applicable maximum rate prescribed by Paragraph (a) of Subsection 2 of Section IV.

6. No municipality shall undertake to make the increased contributions allowed under this section until it shall have been a participating municipality of the System for at least three calendar years. The increased rate of contributions authorized hereunder shall only be made effective at the beginning of a calendar year.

7. A participating municipality may revert to current-service contributions on an equal-matching basis, or reduce from two hundred per centum (200%) matching to one hundred fifty per centum (150%) matching of deposits as to any service rendered by its members or after the 1st day

of January of the ensuing calendar year after adoption of an ordinance terminating (as to such future service) contributions at the higher percentages allowed under this Section; provided such ordinance shall have been adopted at least ninety (90) days (and notice of such reduction is given by the municipality to the Director of the System at least sixty (60) days) before the 1st day of January on which it is proposed to reduce the rate of contributions under this Section.

**Optional Provision for Special Prior Service Credits**

Sec. XV. Any participating municipality electing to do so may provide for "special prior service credits" to be allowed as to employees of such municipality retiring subsequent to the effective date of the undertaking of the municipality to provide such increased credits, upon the following terms and conditions:

(1) The Council by ordinance may provide that in addition to the "prior service credit" to be allowed each of its employees holding a prior service certificate which is in effect on the last day of the calendar year in which such proposed change is authorized by the Council, a "Special Prior Service Credit" shall be granted which shall be an amount equivalent to the accumulation at interest of a series of equal monthly payments of:

(a) Two and one-half per cent ( $2\frac{1}{2}\%$ ) of the member's "average prior service compensation" for the number of months of prior service certified to in such member's prior service certificate; or

(b) Five per cent (5%) of the member's "average prior service compensation" for the number of months of prior service certified to in such member's prior service certificate.

The accumulation above provided for shall be at regular interest and on the basis that interest is allowed at the end of each twelve (12) months period and is allowable on the accumulation at the beginning of each such twelve (12) months period and is not to be allowed for parts of a year.

(2) No municipality shall undertake to allow the special prior service credits authorized by the preceding paragraph until it shall have been a participating municipality of the System for at least three (3) calendar years; and no such undertaking shall be permitted, and shall not become effective, until it shall have been determined and certified by the actuary of the System that all obligations arising from the "prior service credits" and special prior service credits previously allowed by the municipality plus the "special prior service credits" proposed to be granted can be funded along with other obligations undertaken by the municipality under this

Act, within the applicable maximum total contribution rate by or before the end of the twenty-fifth year from date of participation, or by or before the end of the twentieth year from and after the effective date of the special prior service credits proposed to be granted, whichever date is later.

(3) No "special prior service credits" shall be permitted to be granted under this Section if the result thereof would be to produce greater benefits for completed service than would be provided for current and future service rendered by an employee of the participating municipality for an equivalent period of time and upon the same earnings.

(4) No special prior service credits shall be permitted unless and until the proposal is approved by the Board as conforming to the requirements stated in this Act.

(5) Each employee member entitled to special prior service credit shall be given a "Special Prior Service Certificate" stating the amount of any special prior service credit allowed him pursuant to this Section. In event membership of such employee is terminated such special prior service certificate shall become void.

(6) "Accumulated Special Prior Service Credit," as used in this Act, shall mean the "special prior service credit" allowed a member as above provided, accumulated at regular interest from the effective date of becoming a member until the effective date of such member's retirement.

**Optional Provision for Antecedent Service Credits**

Sec. XVI. Subject to the terms and conditions hereinafter stated, any participating municipality electing to do so may undertake to grant antecedent service credit to those persons in its employment at the effective date of the municipality's election to provide such credit.

(1) Antecedent service credit may be granted for the period beginning at the municipality's date of participation and ending on the earliest date subsequent thereto as of which the municipality has increased its matching ratio for current service in accordance with Section XIV hereof, without having then or thereafter granted corresponding antecedent service credits equal to the increase in the rate of matching made effective on said date. The period of time described above is referred to hereafter as an "antecedent service period."

(2) The Council by ordinance may provide that the municipality will grant antecedent service credit to those persons who are employees of the municipality at the date such undertaking is designated to become effective, which shall be a charge against the prior service accumulation account of the municipality.

(3) "Antecedent Service Credit" shall mean an amount equal to fifty per cent (50%), or at

the election of the participating municipality (made in such ordinance or subsequent amendment thereto), one hundred per cent (100%) of the accumulated deposits of the member at the end of the antecedent service period for which said "Antecedent Service Credit" is allowed.

(4) "Accumulated Antecedent Service Credit" shall mean the "Antecedent Service Credit," determined as of the end of antecedent service period in accordance with this section, and accumulated at regular interest from such date until the effective date of such member's retirement.

(5) The Council by ordinance shall determine whether antecedent service credit shall be allowed, and shall designate the date such undertaking is to become effective provided that the date selected shall be the end of any calendar year after three (3) full years of participation by the municipality.

(6) Each employee member entitled to antecedent service credit shall be given an "Antecedent Service Certificate" stating the amount of his antecedent service credit allowed pursuant to the ordinance adopted by the municipality, and such certificate shall state that in the event membership in the System ceases, such certificate shall become void, and that if the member thereafter returns to employment of any participating municipality, he shall not be entitled to such antecedent service credit."

(7) No antecedent service credit shall be permitted, and no provision therefor shall become effective, unless and until the proposal is approved by the Board as conforming to requirements of this Act. And the Board shall not approve the allowance of antecedent service credit by any participating municipality until it shall have been determined and certified by the actuary of the System that all obligations arising from the antecedent service credits proposed, together with all prior service credits and special prior service credits, if any, granted by the municipality can be funded by the municipality within its maximum total contribution rate by or before the end of the twenty-fifth year from date of participation, or by or before the end of the twentieth year from and after the effective date for allowance of the proposed antecedent service credit, whichever date is later. No antecedent service credit shall be permitted to be granted under this Section if the result thereof would be to produce greater benefits for completed service than would be provided for current and future service rendered by an employee of the participating municipality for an equivalent period of time and upon the same earnings.

(8) Upon retirement of a member holding an antecedent service certificate which is in force and effect, he shall be entitled to a prior service annuity which his accumulated antecedent service credit will provide, which annuity will be paid him as part of his standard service retirement benefit, or as part of an optional benefit in lieu of a standard service retirement

benefit, or if his retirement is for disability, as part of his disability retirement benefit. If the member holds a prior service certificate, the aggregate amount of his accumulated prior service credit, together with his accumulated special service credit, and his accumulated antecedent service credit shall constitute the sum from which his prior service annuity shall be calculated; and payment of such annuity may be reduced by the Board for the reasons and in the manner provided in Section V of this Act.

#### Art. 6243h-1. Loan from General Revenue Fund to Municipal Retirement System

For the purpose of providing the Texas Municipal Retirement System with the funds necessary for organizational expenses which will be incurred prior to such time as the income to the Expense Fund of the System is sufficient to provide for operational expenses, there is hereby authorized to be made to the System a loan in the amount of Fifty Thousand Dollars (\$50,000) out of the General Revenue Fund of the State of Texas, upon the terms and conditions hereinafter provided. The Board of Trustees of the Texas Municipal Retirement System shall by resolution authorize the execution of the promissory note of the Texas Municipal Retirement System, payable to the State of Texas for the principal amount of Fifty Thousand Dollars (\$50,000), and the execution of said note shall be attested by the signature of the Director of the System and the Seal of the System shall be impressed thereon. Such note shall bear no interest, and shall provide that, beginning with the year 1950, the Board of Trustees of said System shall certify to the State Comptroller and the State Treasurer on December 31 of each year the amount of expense contributions received by the System from members and participating municipalities during such year for deposit to the Expense Fund provided for in this Act, and shall pay to the State Treasurer for deposit to the General Revenue Fund of the State of Texas in repayment of said note, ten per cent (10%) of the amount of such expense contributions so received in each such year. Such payments shall continue until the Fifty Thousand Dollars (\$50,000) advanced by the State to the System has been repaid in full, at which time such payments shall cease.

Immediately upon delivery of such note to the State Treasurer, the State Comptroller is hereby authorized and directed to issue his warrant drawn upon the General Revenue Fund of the State, payable to the Texas Munic-

ipal Retirement System, and the State Treasurer is hereby authorized and directed to pay over on surrender of said warrant to the System, Fifty Thousand Dollars (\$50,000) out of any moneys in the General Revenue Fund of the State of Texas not otherwise appropriated, and the Board of Trustees of said System shall deposit such funds in an authorized depository of the System to the credit of the Expense Fund.

**Art. 6243h-2. Boards of Trustees of Municipal Utilities or Property; Application of Municipal Retirement System**

Sec. 1. No pension or retirement benefit plan or system for employees of any Texas municipality, whether provided for by general or special law, city charter, or city ordinance, shall become or be made applicable to employees of any Board of Trustees created or appointed in pursuance of Article 1115, Revised Statutes, or any similar law providing for a Board of Trustees to administer municipal utilities or properties, unless and until such pension or retirement benefit plan or system has been approved and adopted by the Board of Trustees employing such employees and such Board of Trustees has made provision for the payment out of the revenues of the utility systems or its properties of the necessary payments to be made as the employer's contribution to such pension or retirement benefit plan or system.

Sec. 2. Any plan or system providing for pensions or retirement benefits which may have heretofore been adopted or may hereafter be adopted by any such Board of Trustees may be applied to the employees of such Board of Trustees independently of and to the exclusion of any plan or system applicable to or affecting other employees of the municipality.

**Art. 6243i. Repealed by Acts 1951, 52nd Leg., p. 397, ch. 254, § 27**

**Art. 6243j. Police Officers' Pension System in Cities of 150,000 to 400,000 Population**

**Creation of System**

Sec. 1. There is hereby created in this State a Police Officers' Pension System in all cities having a population of not less than one hundred and fifty thousand (150,000) inhabitants, nor more than four hundred thousand (400,000) inhabitants, according to the last preceding or any future Federal Census; provided, however, that once such pension system becomes operative in any city, any right or privilege accruing to any member thereunder shall be a vested right and the same shall not be denied or abridged thereafter through any change in population of any such city taking such city out of the population bracket as herein prescribed, and said pension system shall continue to operate and function regardless of

whether or not any future population exceeds or falls below said population bracket.

Sec. 2. The following words and phrases when used in this Act are defined as follows, to wit:

(a) "Pension System" means the retirement, allowance, disability and pension system for employees of any Police Department coming within the provisions of this Act.

**Membership**

Sec. 3. (a) Any person except as herein provided, who is an employee of such city in the Police Department on the effective date hereof, shall be eligible for membership in the Pension System, and shall automatically become a member upon the expiration of ninety (90) days from the effective date hereof, unless the employee has filed with the Pension Board his written election not to become a member, which shall constitute a waiver of all present and prospective benefits which otherwise would inure to him by participation in the System. But any member of the Police Department of such city, whose membership in the Pension System is contingent upon his own election and who elects not to participate, may later become a member provided he passes such

medical examination as the Pension Board may require. If such employee becomes a member within six (6) months after the effective date of this Act, the employee shall be eligible for prior-service credit, but if he does not become a member within such period, he shall not be eligible for prior-service credit. Written notice shall be given each and every member of the Police Department eligible for membership in the Pension System by the Secretary of the Pension Board within sixty (60) days from the passage of this Act informing him of the terms and provisions of this paragraph.

(b) Any person who hereafter becomes an employee of such city in the Police Department after the passage of this Act shall automatically become a member of the Pension System as a condition of his employment, and he will be required to sign a letter making application for Pension benefits.

(c) Part-time, seasonal, or other temporary employees shall not become, nor be eligible as, members of the Pension System.

#### Pension Board

Sec. 4. (a) There is hereby created in any city within this Act a Pension Board for the Police Officers' Pension System. Said Board is hereby vested with the general administration, management and control of the Pension System herein established for said city.

(b) The Board shall be composed of seven (7) members, as follows:

(1) The Mayor, to serve for the term of office to which he was elected;

(2) The Chief of Police, to serve until his successor is qualified;

(3) The City Treasurer, to serve until his successor is qualified;

(4) Three (3) active policemen who shall be selected by a majority vote of the members of the Pension System; said policemen members shall serve for a period of two (2) years and until their successors are elected and qualified. Vacancies occurring by reason of expiration of term of office, death, resignation or removal shall be filled by an election by a majority vote of the members of said Pension System;

(5) One (1) legally qualified taxpaying voter of the city, who has been a resident thereof for the preceding three (3) years; such member, being neither officer nor employee of the city, shall be chosen by the other six (6) members of the Board, and he shall serve for a period of two (2) years and until his successor is selected and qualified.

Said Board, as herein provided, shall be selected and organized upon the passage of this Act and shall hold its office until the next general election in such city for municipal officers, at which time a permanent Board shall be selected, as herein provided. The said Board shall organize by choosing one (1) member as

Chairman; one (1) member as Vice-Chairman; and one (1) member as Secretary. Beginning with the first day of January, 1952, and annually thereafter, the Board shall elect its Chairman, Vice-Chairman and Secretary for the ensuing year.

(c) Each member of the Pension Board within ten (10) days after his appointment and election shall take an oath of office that he will diligently and honestly administer the affairs of the Pension System and that he will not knowingly violate, or willingly permit to be violated, any of the provisions of this law.

(d) Pursuant to the powers granted under the charter of such city, the mayor shall appoint one or more employees whose positions and salaries shall be fixed by the governing body of such city and who, acting under direction of the Pension Board, shall keep all of the records of and perform all of the clerical services for the Pension System. The salaries of such employees shall be paid by the city.

(e) Five (5) members of the Board shall constitute a quorum, and a majority vote of those members present shall be necessary for a decision of said Board.

(f) No moneys shall be paid out of the Pension System Fund except by warrant, check, or draft signed by the Treasurer and countersigned by either the Chairman or Secretary, upon an order by said Pension Board duly entered in the minutes.

(g) The Pension Board shall determine the prior service to be credited to each present employee of the Police Department who becomes a member of the Pension System. The Board shall rely upon the personnel records of such city in determining such prior-service credit. After obtaining the necessary information such Board shall furnish each member of the Pension System a certificate showing all prior-service credits authorized and credited to such member. Such member may, within one (1) year from the date of issuance or modification of such certificate, request the Board to modify or change his prior-service certificate, otherwise such certificate shall be final and conclusive for retirement purposes as to such service.

#### Treasurer

Sec. 5. The City Treasurer is hereby designated as the Treasurer of said Pension System Fund for said city Police Officers' Pension System, and his official bond to said city shall operate to cover his position as Treasurer of such Pension System Fund and his sureties shall be liable in connection with the Treasurer's actions pertaining to such Fund as fully as they are liable under the terms of said bond for the other actions and conduct of said Treasurer. All moneys of every kind and character collected or to be collected for said Pension System shall be paid over to the said Treasurer and shall be administered and paid out only in accordance with the provisions of this Act.

#### Payments by Members

Sec. 6. Commencing with the first day of the month after the expiration of ninety (90) days from the passage of this Act, each member of the Pension System shall pay monthly into the Pension System Fund not less than four per cent (4%) nor more than seven per cent (7%) of his statutory minimum and longevity pay. Subject to this limitation, the Pension Board shall set the amount that each member shall pay into said Pension System Fund. Said payments into the Pension System Fund shall be effected by the city deducting the amount to be contributed by each member of said Pension System from his wages earned. Said deduction shall be paid into the Pension System Fund by the city.

#### Payments Into Fund by City

Sec. 7. In addition to the payments in the next preceding Section such city shall pay monthly into such Pension System Fund, from the general or other appropriate fund of any such city, an amount equal to the total sum paid into such Fund by salary deductions of members as set out in the next preceding Section.

#### Depletion of Fund; Reduction of Benefits

Sec. 8. In the event the Pension System Fund becomes seriously depleted, in the opinion of the Pension Board, said Pension Board may proportionately and temporarily reduce the benefits of all pensioners and beneficiaries, but such reduction of benefits shall continue only for such time as such depleted condition continues to exist, and after such time of depletion has ceased to exist and the Pension Board finds said Pension System Fund is in condition to warrant, it shall thereafter restore the benefits and resume payment of all pensioners and beneficiaries as though such preceding reductions had not occurred.

#### Investment of Surplus

Sec. 9. Whenever in the opinion of the said Pension Board there is on hand in said Pension System Fund a surplus over and above a reasonably safe amount to take care of current demands upon such funds, such surplus, or so much thereof as in the judgment of the said Pension Board is deemed proper, may be invested in bonds or other interest bearing obligations and securities of the United States, the State of Texas or any city or any county.

#### Transfer of Pro Rata Share of Existing Fund

Sec. 10. Immediately upon this Act becoming a law, there shall be transferred to the Police Officers' Pension System the prorata share of any pension fund heretofore existing to which police officers have contributed, including the prorata part of the fund paid by the city and all accumulated interest on the money which both the policemen and the city have heretofore contributed to the fund. It shall be the duty of the city official or officials responsible for said existing fund to make such transfer immediately.

#### Retirement Pension

Sec. 11. From and after the passage of this Act, any member of such Pension System who has been in the service of the city Police Department for a period of twenty-five (25) years shall receive from the Pension Board a pension certificate. Any person who holds a pension certificate and who has attained fifty-five (55) years of age shall be entitled to a monthly retirement pension equal to one half ( $\frac{1}{2}$ ) of his statutory minimum pay plus one half ( $\frac{1}{2}$ ) of his longevity pay, which he received when such certificate was awarded, each month for the rest of his life upon his retirement from the services of said city Police Department; provided, however, said monthly retirement pension shall not exceed the sum of One Hundred and Twenty-five Dollars (\$125). However, when a member has served twenty-five (25) years or more in the Police Department and has attained the age of fifty-five (55) years, if he desires and if the physicians employed by the Pension Board agree that said member is physically fit to continue his active duties in the Police Department, he may continue such duties until he is not over sixty-five (65) years of age, and when he retires he will receive in addition to his monthly retirement pension set out above, a service bonus of One Dollar (\$1) per month for each year of service over and above the amount per month payable if he had retired when he attained the age of fifty-five (55) years. It shall be compulsory for any member to retire from service upon attaining sixty-five (65) years of age; failure of any member of the Pension System to comply with this provision shall deprive the member or his dependents of any of the benefits provided for herein. If at the time of retirement such member has completed less than twenty-five (25) years of service, but more than twenty (20) years of service, his retirement pension shall be prorated. For example, if the employee has completed only twenty (20) years of service, his monthly pension would be four-fifths ( $\frac{4}{5}$ ) of one half ( $\frac{1}{2}$ ) of his statutory minimum pay and one half ( $\frac{1}{2}$ ) his longevity pay. No member shall be required to make any payments into the Pension System Fund after he has been issued a pension certificate and who has retired from active service in the Police Department. However, if he continues to work for the city Police Department after receiving a pension certificate, he shall continue his monthly payments into the Pension System Fund until he retires.

#### Pensions to Widow and Dependents

Sec. 12. If any member of the Police Department, who has been retired on allowance because of length of service or disability, shall thereafter die from any cause whatsoever or shall die from any cause whatsoever after he has become entitled to an allowance or pension certificate, or if while in service any member shall die from any cause growing out of or in consequence of the performance of his duty, and shall leave surviving a widow, a child or

children under the age of eighteen (18) years or a dependent parent, said Board shall order paid a monthly allowance as follows: (a) To the widow so long as she remains a widow, sixty per cent (60%) of the pension per month that said member would have received if living and had retired with twenty-five (25) years of service, provided she shall have married such member prior to his retirement; (b) to the guardian of each child the sum of Six Dollars (\$6) per month until such child reaches the age of eighteen (18) years or marries; (c) to the dependent parent, only in case no widow is entitled to allowance, the sum the widow would have received to be paid to but one parent and such parent to be determined by the Pension Board, and (d) in the event the widow dies after being entitled to her allowance as herein provided, or in the event there be no widow or dependent parent to receive such allowance, then the amount to be paid to the guardian of any dependent minor child or children under the age of eighteen (18) years shall be increased to the sum of Twelve Dollars (\$12) per month for each said dependent minor child; and provided that such minor child under eighteen (18) years of age is unmarried. Allowance or benefits payable to any minor child shall cease when such child becomes eighteen (18) years of age or marries.

If a member of this Pension System is killed while performing his official duties, or dies from injuries received while performing such duties, the same benefits payable under the provisions of this Act to Pension System members who hold a pension certificate and have attained fifty-five (55) years of age, shall be paid to the persons designated in this Section.

#### Death From Natural Causes or Causes Not Covered

Sec. 13. If a member of this Pension System dies from natural causes or from any cause not covered under the provisions of this Act, the Pension Board shall pay to his estate all of the exact amount of money he has heretofore paid into the Pension System Fund in lieu of any other benefit provided for herein.

#### Retirement for Disability

Sec. 14. Any member of this Pension System who becomes incapacitated for performance of his duty by reason of any bodily injury received in, or illness caused by the performance of his duty, shall be retired upon presentation to the Pension Board of proof of the disability, and shall receive a retirement allowance equal to the percentage of his disability; for example, if he is fifty per cent (50%) incapacitated, he shall receive fifty per cent (50%) of the amount he would receive if retired after completion of twenty-five (25) years service per month during the remainder of his life or so long as he remains incapacitated. Provided, however, that if, at that time, he is qualified as to age and service for retirement, he shall receive the full amount of pension per month, or in the event he is past fifty-five (55) years of

age and has more service than the minimum of twenty-five (25) years, and becomes incapacitated he shall receive the full amount of pension per month plus One Dollar (\$1) for each additional year as his service bonus. When any member has been retired for permanent, total or partial disability, he shall be subject at all times to re-examination by the Pension Board and shall submit himself to such further examination as the Pension Board may require. If any member shall refuse to submit himself to any such examination, the Pension Board may, within its discretion, order said payment stopped. If a member who has been retired under the provisions of this Section should thereafter recover, so that in the opinion of the Pension Board he is able to perform the usual and customary duties formerly handled by him for said city in the Police Department, and such member is reinstated or tendered reinstatement to the position he held at the time of his retirement, then the Pension Board shall order such pension payment stopped. No person shall be retired either for total or partial disability unless there shall be filed with the Pension Board an application for pension benefit, at which time the Pension Board shall have him examined by no fewer than three (3) physicians, to be chosen by the Pension Board and to make their report to the Pension Board. If a policeman is hurt while working on a regular shift or tour of duty, or if he is at home or some other place and an emergency arises wherein he has to perform the official duties of a policeman and is injured, he shall receive the benefits of this Act. In all cases where a policeman seeks benefits under this Section, it shall be the duty of the Pension Board to determine if the policeman did receive his injuries in the performance of his duty.

#### Computation of Period of Service

Sec. 15. In computing the twenty-five (25) years of service required for a retirement pension, twenty-five (25) years of continuous service shall be required; provided, however, that in case of interruption of less than two (2) years, credit shall be given for previous service if out of service more than two (2) years; no service prior to said interruption shall be counted, other than provided in Section 21.

#### Leaving Employment Before Becoming Eligible

Sec. 16. When any member of such Pension System shall leave the employment of such Police Department except as specifically provided for herein, either voluntarily or involuntarily, before becoming eligible for a retirement or disability pension, he shall cease to be a member of such Pension System. When a member has left the service of the city Police Department as aforesaid and has therefore ceased to be a member of such Pension System, if such person shall thereafter be re-employed by the city Police Department he shall thereupon be reinstated as a member of such Pension System provided he is in good physical and mental condition as evidenced by a written certificate executed under oath by a duly licensed and

practicing physician or physicians in the city, satisfactory to the Pension Board. Prior service of such member with such city Police Department shall not be counted toward his retirement pension unless such member returns to the service within two (2) years from his separation therefrom, and also shall, within six (6) months after his re-employment by the city in the Police Department, make a written application to the Pension Board for reinstatement in the Pension System.

#### Transfers From Other City Departments

Sec. 17. No prior credit shall be allowed for service to any person who may hereafter transfer from some other department in the city to the Police Department. Policemen now serving who have heretofore transferred from some other city department may be given credit for such prior service by the Pension Board. The prior-service credits shall all be granted within sixty (60) days after this Act becomes law. For example, if one is transferred from some other department of the city to the city Police Department, sixty-one (61) days after this Act becomes law, such person's service will be computed only from the day he enters the city Police Department.

#### Gifts and Donations

Sec. 18. The Police Officers' Pension System may accept gifts and donations and such gifts or donations shall be added to the Pension Fund for the use of such System.

#### Legal Matters

Sec. 19. The city attorney of such city shall handle all legal matters for the Pension System which are referred to him by the Pension Board or city without additional compensation therefor. The Pension Board may, however, employ an attorney, or attorneys, to handle its legal matters and shall pay reasonable compensation therefor out of said Pension System Fund.

#### Exemption From Legal Process; Assignment or Transfer

Sec. 20. No portion of any such Pension System Fund, either before or after its order of disbursement by said Pension Board, and no amounts due or to become due any beneficiary or pensioner, under this Act, shall ever be held, seized, taken, subjected to, detained, or levied upon by virtue of any execution, attachment, garnishment, injunction, or other writ, and no order or decree, and no process or proceedings whatsoever, shall issue out of or by any court of this State for the payment of satisfaction, in whole or in part, out of said Pension System Fund, of any debt, damage, claim, demand, or judgment against any such members, pensioners, dependents, or any person whomsoever, nor shall such Pension System Fund or any part thereof, or any claim thereto, be directly or indirectly assigned or transferred. Any attempt to transfer or assign the same or any part thereof or any claim thereto shall be void. Said funds shall be sacredly

held, kept, and disbursed for the purposes provided by this Act, and for no other purpose whatsoever.

#### Military Service

Sec. 21. Members of the Pension System engaged in active military service required because of a National Emergency shall not be required to make the monthly payments into the Pension System Fund provided for in this Act, nor shall they lose any previous years of service with the Police Department caused by such military service. Such military service shall count as continuous service in the Police Department, provided that when the member is discharged from the military service he shall immediately return to his former duties with the city Police Department. The city, however, shall be required to make its regular monthly payments into the Pension System Fund on each member while he is so engaged in such military service. In the event of death of a member of this Pension System, either directly or indirectly caused from such military service, his widow or dependent parent or other dependents shall not be entitled to receive any benefits from this Fund.

#### Civil Actions

Sec. 22. The Pension Board of any city as herein created and constituted shall have the power and authority to recover by civil action from any offending party, or from his bondsmen, if any, any moneys paid out or obtained from said Pension Fund through fraud, misrepresentation, theft, embezzlement, or misapplication, and may institute, conduct and maintain such action in the name of said Board for the use and benefit of such Fund.

#### Partial Invalidity

Sec. 23. If any provision, section, part, subsection, sentence, clause, phrase, or paragraph of this Act be declared invalid or unconstitutional, the same shall not affect any other portion or provision hereof, and all other provisions shall remain valid and unaffected by such invalid portion, if any.

#### Former Employees Now Receiving Pension

Sec. 24. Immediately upon this Act becoming a law, the former employees of any such Police Department who are now being paid a pension from a pension fund, shall hereafter be paid a monthly pension of One Hundred Dollars (\$100) per month out of the Pension Fund provided for herein. Any such city shall have the right and option to pay such former employees any amount over and above those hereinabove provided for, but such additional payments, if any, shall be borne by such city and not the Pension Fund.

#### Election; Adoption Without Election

Sec. 25. The city is authorized to call an election to determine if the city desires to adopt this Act after a petition has been presented to the governing body of the city, signed by five per cent (5%) of the qualified

voters of the city who voted in the last municipal election. Such election must be advertised by publication in at least one (1) newspaper of general circulation in said city once each week for four (4) consecutive weeks. The question shall be submitted to the qualified voters of the city at a special election to be held for such purpose at which all ballots shall have printed thereon:

"FOR: The proposed Police Pension System."

"AGAINST: The proposed Police Pension System."

No other issues shall be joined with the proposition submitted at this election on the same ballot.

Nothing herein is to prevent the city governing body from adopting the proposed pension plan without an election.

#### Withdrawal of Moneys; Return on Reinstatement

Sec. 26. Any policeman who has been relieved from duty or voluntarily quits shall have the right to withdraw all moneys paid in by him into the Pension System. If he is reinstated in the Police Department with full seniority, he shall return to the Pension Fund the amount of money previously withdrawn when his services were terminated.

### 3. OLD AGE ASSISTANCE

Art. 6243-1. Repealed by Acts 1941, 47th Leg., p. 914, ch. 562, § 45

Art. 6243-2. Purpose

It is hereby declared to be the intention and purpose of the Legislature by and through the enactment of this Act to provide, in part, for the payment of old age assistance benefits, by raising revenues for such purpose and by delimiting the class of persons who shall be eligible for old age assistance benefits. It is recognized by the Legislature that it is impracticable to pay benefits to persons over sixty-five (65) years of age, except those who are in necessitous circumstances; in order that the needy aged may be cared for, it is necessary that the State have funds on hand to meet the accruing obligations therefor. In order to accomplish this purpose, the Legislature declares that it is necessary to accomplish two incidental objectives, namely: (1) the number of persons receiving old age assistance benefits must be decreased, and (2) in addition, more revenues must be provided for the purposes of paying such benefits. The accomplishment of this object is the purpose of this Act.

Sec. 4. Upon such termination, the money, if any, so withheld, which has not been invested in bonds, shall be immediately remitted by proper warrant to the officer or employee from whose salary or compensation such money has been withheld.

#### No Liability on Official Bonds

Sec. 5. The head of any State Department or the disbursing officer of any county or other political subdivision or municipal corporation herein referred to shall not incur any liability on the bonds required of them as such officials on account of the duties imposed upon them under this Act.

Such written consent shall so designate and direct the city treasurer or comptroller to transfer such withheld funds to the appointed bona fide employee's association in payment of his membership dues.

(b) The payroll deduction shall not exceed the amount stipulated in the written request, which shall be set out in a form and manner prescribed and provided by the city treasurer or comptroller. #### Art. 6252-6. State Property; Responsibility and Accounting

##### Legislative Finding and Purpose

Sec. 1. The Legislature finds that the State has a very substantial investment in real and personal property and that a substantial portion of the annual income of the State is spent to acquire property for State purposes and to maintain State property. The purpose of this Act is to establish a system for the orderly accounting for State property, to establish responsibility for the maintenance and care of State property and to prescribe the method of fixing pecuniary liability for the misuse of State property by officials and employees. The principles embodied in this Act are now found

in the common law and Statutes of this State; this Act restates those principles and prescribes the implementing procedures. The State has a real interest in its property and is entitled to having it managed and used in a sound and businesslike manner so that the maximum benefits may be obtained from it and the State's investment therein protected.

#### Definitions

Sec. 2. The provisions of Articles 10, 11, 12, 14, 22, and 23, Revised Civil Statutes of Texas, 1925, and Acts, Fiftieth Legislature, 1947, Chapter 359,<sup>1</sup> on the interpretation of Statutes shall apply specifically to this Act. In addition to these standard definitions, in this Act, unless the context otherwise requires:

(a) "Agency" shall include any State department, agency, board or other instrumentality, whether it is financed in whole or part by funds appropriated by the Legislature or not; but shall not include local political subdivisions of the State, such as counties, cities, towns, school districts, flood control districts, irrigation districts, and the like.

(b) "Agency head" shall mean the full-time State elected or appointed official or officials who administer the agency or the executive who has been appointed to administer the agency by a part-time State elected or appointed official or officials.

<sup>1</sup> Article 23a.

#### Property Accounting

Sec. 3. All real and personal property belonging to the State shall be accounted for by the head of the agency which has possession of the property.

(a) The Comptroller of Public Accounts shall administer the property accounting system established by this Act. The State Auditor shall administer the property responsibility system established by this Act. The Comptroller shall issue such rules and regulations and manual of instruction and prescribe such records, reports, and forms as he deems necessary to accomplish the objects of this Act subject to the approval of the State Auditor. The State Auditor is directed to cooperate with the Comptroller in the exercise of the Comptroller's rule-making powers herein granted by giving technical assistance and advice.

(b) The Comptroller shall maintain a complete and accurate set of centralized records of State property. However, where the Comptroller finds that an agency has demonstrated its ability and competence to maintain complete and accurate detailed records of the property it possesses without the detailed supervision by the Comptroller, the Comptroller may direct that the detailed records be kept at the principal office of such agency. Where the Comptroller issues such order, the Comptroller shall keep only summary records of the

property of such agency and the agency shall keep such detailed records as the Comptroller directs and furnish the Comptroller with such reports at such times as the Comptroller directs.

(c) Each agency head shall cause each item of State property possessed by his agency to be marked so as to identify it. The agency head shall follow the instructions issued by the Comptroller in marking State property.

#### Agencies and Property Subject to Control

Sec. 4. (a) All State agencies shall comply with the provisions of this Act and shall keep the property records required by the Act.

(b) All real property owned by the State shall be accounted for by the agency which possesses the property. However, the real property administered by the General Land Office shall be accounted for by that office and not by the system prescribed in this Act, and the real property administered by the permanent funds established by the Legislature and people shall be accounted for by the agency now charged with its administration and not by the System prescribed in this Act.

(c) All personal property owned by the state shall be accounted for by the agency that possesses the property. The Comptroller shall by regulation define what is meant by personal property for the purposes of this Act, but such definition shall not include non-consumable personal property having a value of Fifty Dollars (\$50.00) or less per unit. In promulgating such regulations, the Comptroller shall take into account the value of the property, its expected useful life, and the cost of record keeping should bear a reasonable relationship to the cost of the property upon which records are kept. The Comptroller shall consult with the State Auditor in making such regulations and the Auditor shall cooperate with the Comptroller in the exercise of this rule making power by giving technical assistance and advice.

(d) All medical, surgical, technical equipment and supplies provided by the Texas State Department of Health to Local Public Health Units, Local Public Health Laboratories, state institutions, and non-profit institutions, contributing to the promotion and maintenance of public health by the usage of such medical, surgical, technical equipment and supplies shall be accounted for by that Department and not by the system prescribed in this Act.

And providing further, that all medical, surgical, technical equipment and supplies provided by the Texas State Department of Health to Local Public Health Units, Local Public Health Laboratories, state institutions, and non-profit institutions, contributing to the promotion and maintenance of public health by the usage of such medical, surgical, technical equipment and supplies which are now being accounted for and complying with the provisions under the present system of accounting

shall be deleted from and not required after the passage and the effective date of this Act.

Provided, however, the State Department of Health shall maintain at all times a complete record of such medical, surgical, technical equipment and supplies provided and such records shall be verified by the State Auditor and available to the Federal Auditors for the Agency of the Federal Government making such grants for assistance in the purchase of such medical, surgical, technical equipment and supplies.

#### Property Responsibility

Sec. 5. Each agency head is responsible for the proper custody, care, maintenance, and safekeeping of the State property possessed by his agency.

(a) Each agency head shall designate either himself or one of his employees as property manager. The Comptroller shall be informed in writing by the agency head of the name of the property manager and shall be informed of any changes. Where the Comptroller finds that convenience and efficiency will be served, he may permit more than one property manager to be appointed by the agency head.

(b) The property manager shall maintain the required records on all property possessed by the agency and shall be the custodian of all such property.

(c) No person shall entrust State property to any State official or employee or to anyone else to be used for other than State purposes.

(d) When an agency's property is entrusted to some person other than the property manager, the property manager shall require a written receipt for such property executed by the person receiving custody of the property. When the possession of property of one agency is entrusted to another agency on loan, such transfer shall be done only when authorized in writing by the agency head who is lending such property and the written receipt shall be executed by the agency head who is borrowing such property. The property manager is relieved of the responsibility for property which is the subject of such a receipt.

(e) Each agency shall make a complete physical inventory of all property in its possession once a year. The inventory shall be taken on the date prescribed for the agency by the Comptroller.

(f) The agency head shall forward a signed statement describing the method by which the inventory was verified, along with a copy of such inventory within forty-five (45) days after the inventory date for the agency.

(g) The Comptroller shall supervise the property records of each agency so that the records accurately reflect the property currently possessed by the agency. The

Comptroller shall prescribe the methods whereby items of property are deleted from the property records of the agency. Property that has become surplus, or obsolete and no longer serviceable and has been turned over to the Board of Control for disposal under the laws relating thereto shall be deleted from the Comptroller's records upon the authorization of the Board of Control. Property that is missing from the agency or property that is disposed of directly by the agency in a legal manner shall be deleted from the Comptroller's records upon the authorization of the State Auditor.

#### Transfer of Property to Incoming Agency Head

Sec. 6. When there is a change in agency heads or property managers, the incoming agency head or property manager shall execute a receipt for all agency property accounted for to the outgoing agency head or property manager. A copy of such receipt shall be delivered to the Comptroller, to the State Auditor and to the outgoing agency head or property manager. No further warrants in favor of the outgoing agency head or property manager shall be drawn or paid until the State Auditor has certified that the agency property has been properly accounted for. The State Auditor may make this certification without requiring that a physical inventory be taken.

#### Pecuniary Liability

Sec. 7. Where agency property disappears, whether through theft or other cause, as a result of the failure of the agency head, property manager or agency employee entrusted with the property in writing to exercise reasonable care for its safekeeping, such person shall be pecuniarily liable to the State for the loss thus sustained by the State. Where agency property deteriorates as a result of the failure of the agency head, property manager or agency employee entrusted with the property in writing to exercise reasonable care to maintain and service the property, such person shall be pecuniarily liable to the State for the loss thus sustained by the State. Where agency property is damaged or destroyed as a result of an intentional wrongful act or of a negligent act of any State official or employee, such person shall be pecuniarily liable to the State for the loss thus sustained by the State. The liability prescribed by this Section may be found to attach to more than one person in a particular instance; in such cases, the liability shall be joint and several.

#### Reports—Investigation

Sec. 8. When any State property has been lost, destroyed or damaged through the negligence or fault of any State official or employee, the agency head responsible for such property under the provisions of this Act shall immediately report such loss, destruction, or damage to the State Auditor. Upon learning in any manner of such property loss, destruction, or damage, the State Auditor shall inves-

tigate the matter. If the investigation discloses that an injury has been sustained by the State through the fault of a State official or employee, the State Auditor shall make written demand upon such State official or employee for reimbursement to the State for the loss so sustained.

#### Enforcement of State's Claim

Sec. 9. In case the demand made by the State Auditor, in accordance with this Act, for reimbursement for property loss, destruction, or damage is refused or disregarded by the State official or employee upon whom such demand is made, the State Auditor shall report the facts to the Attorney General. If, after an investigation of the facts, the Attorney General finds that legal liability may be adjudged against the State official or employee, he shall take such legal action to recover the monetary loss of the State property occasioned by the loss, damage or destruction as in his opinion may be deemed necessary. Venue for all such suits instituted against a State official or employee shall lie in the Courts of appropriate jurisdiction of Travis County.

#### Sanctions

Sec. 10. When any agency fails to keep the records required under the provisions of this Act or fails to take the annual physical inventory, the Comptroller may refuse to draw any warrants on behalf of such agency.

#### Information Copy to State Employees

Sec. 11. Each agency head shall distribute a copy of this Act to each official and employee of his agency and shall give a copy to each new employee of the agency.

[Acts 1951, 52nd Leg., p. 602, ch. 356; Acts 1953, 53rd Leg., p. 503, ch. 181, §§ 1, 2; Acts 1961, 57th Leg., p. 165, ch. 85, § 1; Acts 1969, 61st Leg., p. 207, ch. 84, § 1, eff. April 17, 1969.]

Sec. 1. Any agency of the State of Texas as defined by Section 2 of this Act is hereby authorized to transfer any personal property of the state under its control or jurisdiction to any other agency of the State of Texas as defined by Section 2 of this Act, with or without reimbursement between the agencies; provided, however, that the provisions of this Act shall not apply to any real property.

When any personal property under the control or jurisdiction of one agency is transferred to the control or jurisdiction of any other agency pursuant to the provisions of this Act, such transfers shall be immediately and simultaneously reported to the Comptroller of Public Accounts by the transferrer and the transferee on forms prescribed by the Comptroller of Public Accounts, and it shall be the duty of the Comptroller of Public Accounts to adjust the inventory records of the agencies involved in making the transfer. Whenever any transfer made pursuant to this Act is made

with reimbursement from funds deposited in the State Treasury, the transferee shall issue a P-1 Voucher payable to the transferrer, and the Comptroller of Public Accounts shall issue warrants for reimbursement.

Sec. 2. The term "agency" includes any department, board, bureau, commission, court of office, institution, university, college and any service or part of a state institution of higher education.

Sec. 3. The provisions of this Act shall be cumulative of all other laws or parts of laws and all agencies shall have the power to make transfers provided for in Section 1 of this Act independent of any other law general or special.

To implement this policy and to strengthen the faith and confidence of the people of Texas in their state government, there are provided standards of conduct and disclosure requirements to be observed by persons owing a responsibility to the people of Texas and the government of the State of Texas in the performance of their official duties. It is the intent of the legislature that this Act shall serve not only as a guide for official conduct of these covered persons but also as a basis for discipline of those who refuse to abide by its terms.

##### Definitions

Sec. 2. In this Act:

(1) "State officer" means an elected officer, an appointed officer, or the executive head of a state agency as defined in this section.

(2) "Elected officer" means:

(A) a member of the legislature;

(B) an executive or judicial officer elected in a statewide election;

(C) a judge of a court of civil appeals, a district court, a court of domestic relations, or a juvenile court created by special law;

(D) a member of the State Board of Education; or

(E) a person appointed to fill a vacancy or newly created office who, if elected rather than appointed, would be an elected officer as defined in paragraph (A), (B), (C), or (D) of this subdivision.

(3) "Appointed officer" means:

(A) the secretary of state;

(B) an individual appointed with the advice and consent of the senate to the governing board of any state-supported institution of higher education;

(C) an officer of a state agency who is appointed for a term of office specified by the constitution or a statute of this state, excluding a person appointed to fill a vacancy in an elective office; or

(D) a person who is not otherwise within the definition of elected officer, appointed officer, or executive head of a state agency, but who holds a position as a member of the governing board or commission of a state agency acquired through a method other than appointment.

(4) "Salaried appointed officer" means an appointed officer as defined in this Act who receives or is authorized to receive for his services to the state a salary as opposed to a per diem or other form of compensation.

(5)(A) "Appointed officer of a major state agency" means any of the following:

(i) a member of the Texas Industrial Commission;

(ii) a member of the Texas Aeronautics Commission;

(iii) a member of the Texas Air Control Board;

(B) If any office listed in paragraph (A) of this section is abolished, the term "appointed officer of a major state agency" includes the successor in function to that office, if any, as provided by law.

(C) In defining the term "major state agency," it is the intent of the legislature to limit the application of the financial disclosure requirements of this Act with respect to appointed state officers to those appointees who exercise substantial power and discretion in the implementation of state programs and in the expenditure of significant amounts of public funds. The legislature hereby finds that the exercise of discretion by these appointed state officers in the granting or withholding of licenses or permits, issuance of regulations, rulings, or orders, construction and location of facilities, and in other matters relating to regulation, adjudication, licensing, or expenditure of public funds, has a major impact on every citizen of this state. Therefore, the legislature finds that the potential for abuse of the public trust by these appointed state officers is significantly greater than in the case of appointed officers of other state agencies.

(D) If for any reason the distinction made by this Act between appointed officers of major state agencies and other appointed officers is held to be invalid in a judgment of a court of competent jurisdiction and the judgment becomes final, the provisions of Section 5 of this Act then become applicable to appointed officers of major state agencies as well as other appointed officers.

(6) "Executive head" of a state agency means the director, executive director,

commissioner, administrator, chief clerk, or other individual not within the definition of appointed officer who is appointed by the governing body or highest officer of the state agency to act as the chief executive or administrative officer of the agency. (i) is in the executive branch of state government;

(ii) has authority that is not limited to a geographical portion of the state; and

(iii) was created by the constitution or a statute of this state; or

(B) a university system or an institution of higher education as defined in Section 61.003, Texas Education Code, as amended, other than a public junior college.

(9) "Regulatory agency" means any department, commission, board, or other agency, except the secretary of state and the comptroller of public accounts, that:

(A) is in the executive branch of state government; and

(C) was created by the constitution or a statute of this state; and

(D) has constitutional or statutory authority to engage in rulemaking, adjudication, or licensing.

(10) "Regulation" means rulemaking, adjudication, or licensing. For the purpose of this definition:

(11) "Business entity" means a sole proprietorship, partnership, firm, corporation, holding company, joint stock company, receivership, trust, or any other entity recognized in law through which business for profit is conducted.

(12) An individual has a "substantial interest" in a business entity if he:

(A) has controlling interest in the business entity;

(B) has ownership in excess of 10 percent of the voting interest in the business entity or in excess of \$25,000 of the fair market value of the business entity;

(C) has any participating interest, either direct or indirect, by shares, stock, or otherwise, whether or not voting rights are included, in the profits, proceeds, or capital gains of the business entity in excess of 10 percent of them;

ried appointed officer, appointed officer of a major state agency, and executive head of a state agency shall file with the secretary of state a financial statement complying with the requirements of Section 4 of this Act.

(b) In the case of appointments of salaried appointed officers and appointed officers of major state agencies on and after the effective date of this Act, each appointee shall file the financial statement within 30 days after the date of his appointment or the date he qualifies for the office, or if confirmation by the senate is required, before his confirmation, whichever is earlier.

(c) Whenever a person is appointed or employed as the executive head of a state agency on or after the effective date of this Act, he shall file the financial statement within 45 days after the date he assumes the duties of the position. Each state agency shall immediately notify the secretary of state of the appointment or employment of an executive head of the agency.

(d) Within 30 days after the filing deadline, every person who is a candidate for an office as an elected officer shall file the financial statement. The secretary of state shall grant an extension for good cause shown of not more than 15 days, provided a request for the extension is received prior to the filing deadline for the financial statement.

(e) Except as otherwise provided in this Act, at least 30 days before the deadline date for the filing of a financial statement by each individual required to file, the secretary of state shall mail to the individual two copies of the financial statement form. In the case of candidates other than those covered by Subsection (f) of this section, the forms shall be mailed within 10 days after the filing deadline date. In the case of appointments of salaried appointed officers and appointed officers of major state agencies, the forms shall be mailed within seven days after the date of the appointment, or if the legislature is in session, sooner if possible.

The secretary of state shall send copies of the financial statement form to the nominee by registered or certified mail within five days after the date the certificate of nomination is filed.

(g) If a person has filed a financial statement as required by one subsection of this section covering the preceding calendar year, he is not required to file a financial statement as required by another subsection if before the

(h) A person required to file a financial statement under Subsection (a) of this section may request the secretary of state to grant an extension of time of not more than 60 days for filing the statement. The secretary of state shall grant an extension of not more than 60 days if the request is received prior to the filing deadline or if a timely filing or request for extension is prevented because of physical or mental incapacity. Not more than one extension may be given to a person in one year except for good cause shown.

(i) The deadline for filing any statement required by this section is 5 p. m. of the last day designated in the pertinent subsection of this section for filing the statement. When the last day of filing falls on a Saturday or Sunday or an official state holiday enumerated in Article 4591, Revised Civil Statutes of Texas, 1925, as amended, the deadline for filing is extended to 5 p. m. of the next day which is not a Saturday or Sunday or enumerated holiday. Any statement required by any provision of this section to be filed within a specified time period shall be deemed to be timely filed if it is placed in the United States Post Office or in the hands of a common or contract carrier properly addressed to the appropriate authority within the time limits applicable to the statement. The postmark or receipt mark (if received by a common or contract carrier) will be prima facie evidence of the date that such statement was deposited with the post office or carrier. The person filing the statement may show by competent evidence that the actual date of posting was to the contrary.

**Art. 6252-11. Position Classification Act of 1961**

Title

Sec. 1. This Act may be cited as the "Position Classification Act of 1961."

Conformance With Plan; Minimum Salary; Exceptions and Deferments From Plan

Sec. 2. All regular, full-time salaried employments within the departments and agencies of the State specified in Article III, and the Central Education Agency, Deaf and Blind Schools in Article IV, and all such State employments in positions other than for Judges, District Attorneys, and Assistant District Attorneys specified in Article I of the biennial Appropriations Act, shall conform with the Position Classification Plan hereinafter described and with the salary rates and provisions of the applicable Appropriations Act commencing with the effective date of this Act, with the exceptions and deferments hereafter provided in this Section.

Effective January 1, 1962, all regular, full-time salaried employments in executive or administrative agencies of the State, regardless of whether their funds are kept inside or outside the State Treasury, shall also conform with the Position Classification Plan hereinafter described and with the salary rates and provisions of the General Appropriations Act with the exceptions hereinafter provided in this Section.

It is further provided, however, that no employee who is presently employed by the State shall be paid less through the application of this Act than the salary he received in accordance with the provisions of House Bill No. 4, Acts of the Fifty-sixth Legislature, Third Called Session, 1959, or the minimum of the appropriate salary range specified in the General Appropriations Act effective September 1, 1961, whichever is the higher, so long as said employee remains in such classified position under the Position Classification Plan.

Specifically excepted from the Position Classification Plan hereinafter described are constitutionally named and elective officers and officials; officers appointed by the Governor; the chief executive head of any State agency covered by the first two paragraphs of this Section; teachers in public schools and special schools of the State, and in the State colleges, universities, and other agencies of higher education; research personnel in State colleges, universities, and other agencies of higher education; medical doctors; professional services compensated on a fee basis; hourly employees, part-time, and temporary employees; and such

other positions in the State Government as have heretofore been or as may hereafter be excluded from such Position Classification Plan by executive order of the Governor or by direction of the Legislature.

Deferred from the provisions of such Position Classification Plan until September 1, 1963, are all positions in Article II of the General Appropriations Act covering employments in the State Hospitals and Special Schools and in offices and institutions of the Texas Youth Council except those specifically excluded heretofore in this Section.

Also deferred from the provisions of such Position Classification Plan until such time as it is deemed practical by order of the Governor or by direction of the Legislature to study and make application of such Plan, are all nonacademic employments in the State colleges, universities, and other agencies of higher education.

Texas Position Classification Plan, 1961; Joint Recommendations

Sec. 3. The Position Classification Plan established for the State Government by this Act shall be that plan which was filed with the Governor by the Lieutenant Governor and Speaker of the House of Representatives pursuant to the joint recommendations of the Senate Finance Committee and House Appropriations Committee of the Fifty-seventh Legislature under date of May 10, 1961, and entitled "Texas Position Classification Plan, 1961," together with any additions, deletions, or modifications which may be approved by the Classification Officer hereinafter established and pursuant to the provisions of this Act, or pursuant to any future enactments of the Legislature.

Conformance of Regular Full-time Salaried Employments With Described Classes of Work; Examination of Expenditures; Report

Sec. 4. Commencing with the effective date of this Act, all regular full-time salaried employments with the exceptions and deferments specified hereinabove shall be made only in conformity with the classes of work described in such Position Classification Plan, and under the titles authorized by such Plan. The State Auditor shall examine or cause to be examined in periodic post-audits of expenditures of State departments and agencies, and by such methods as he deems appropriate and adequate, whether employments have been made in accordance with the provisions of this Act, and shall report the facts as found to the Governor, the Comptroller, and the Legislative Audit Committee.

Existing Statutory Authorizations for Employing, Promoting or Dismissing Employees; General Qualifications Requirements; Merit Systems; New Class Description of Work

Sec. 5. Nothing in this Act shall be construed or applied by any officer or employee of the State as interfering in any way with existing statutory authorizations for governing bod-

ies and executive heads to employ such persons as they may choose, or to select for promotion from one class of employment to another such employees as they may choose, or to dismiss from employment by the State such employees as they may choose to dismiss.

It is further provided that wherever the phrase "General Qualifications Requirements," or any words or phrases of similar meaning, are found in the Position Classification Plan established by this Act, such specifications thereunder as may be set forth for experience and training, or for education, or for knowledges, skills and abilities, or for physical conditions, shall only mean those which are commonly desired by employing officers of the State; and such indicated requirements shall not be interpreted as having the force of law.

The preceding two paragraphs of this Section, however, shall not be construed as abrogating statutory authorizations for certain State agencies to operate under employee merit systems as a condition for qualifying for Federal grants-in-aid; and all such merit systems as have been or may hereafter be agreed to by the respective State agencies and agencies of the U. S. Government shall be in full force and effect, subject only to the applicable laws of this State.

Should any governing board or executive head of an agency affected by the provisions of this Act find need for the employment of a person in a class or kind of work which he believes is not described in the Position Classification Plan, such board or executive head shall notify the Classification Officer of the facts, and such Classification Officer shall promptly provide, within the limitations of the General Appropriations Act and subject to the approval of the State Auditor after obtaining the advice of the Legislative Audit Committee, either an existing or a new class description of work and a corresponding salary range which will permit such needed employment. Notification of such action shall be made to the Comptroller of Public Accounts by the Classification Officer. Nothing in this paragraph or in this Act, however, shall be so construed as to authorize an increase in the number of positions or in the amount of appropriations as may be set forth for any such agency in the General Appropriations Act.

Sec. 6. There is hereby established in the office of the State Auditor the position of Classification Officer. No person shall be appointed to the office of Classification Officer who has not had a minimum of six (6) years experience in position classification or personnel management work, or an equivalent period of experience in related work in State

employment as to peculiarly qualify him for the position. Such Classification Officer shall be paid such annual salary as may be set in the Appropriations Act, and shall have for the performance of his duties such assistance as the State Auditor may assign to him from the appropriations provided for that purpose.

The Classification Officer may, subject to the approval of the State Auditor and the Legislative Audit Committee, appoint a First Assistant Classification Officer to whom he may delegate in his absence statutory authority and responsibility as is provided the Classification Officer in this Act and other acts relating to the Position Classification Plan.

The Classification Officer also may have at his disposal when available without charge the use of the data processing center in the office of the Comptroller of Public Accounts for purposes of processing any position classification data that might be pertinent and useful.

In accordance with the provisions of law, the Classification Officer shall maintain on a current and accurate basis the Position Classification Plan, advise and assist State agencies to insure equitable and uniform application of such Plan, assist in personnel audits to assure conformity, and make such recommendations as he may think necessary and desirable respecting the operation and improvement of the Position Classification Plan to the Governor and the Legislature.

The Classification Officer also shall make periodic studies of salary rates paid in industry and other governmental units for like or similar work performed in the State Government, and shall report his findings and recommendations for the realistic adjustment of State salary ranges to the Governor's Budget Office and to the Legislative Budget Board by not later than October 1st immediately preceding a Regular Session of the Legislature.

When exceptions to or violations of the Position Classification Plan or of prescribed salary ranges are revealed by personnel audits, the Classification Officer shall notify the agency head in writing and specify the points of non-conformity or violation. The executive head of such agency shall then have reasonable opportunity to resolve the exception or end the violation by reassigning the employee to another position title or class consistent with the work actually performed, by changing the employee's title or salary rate to conform to the prescribed Classification Plan and salary range, or by obtaining a new class description of work and salary range to correct the exception or violation.

If no action is taken by the executive head of such agency to correct or end the exception or violation within twenty (20) calendar days following the date of the written notification made by the Classification Officer, such Officer shall make a written report of the facts to the Governor and the Legislative Budget Board. The Governor may then determine, aft-

er obtaining the advice of the Legislative Audit Committee, the action to be taken in correcting the exception or violation and may, within his discretion, direct the Comptroller not to issue payroll warrants for the employee or for the position affected by the exception or violation until such discrepancy has been corrected.

Any decision or finding made by the Classification Officer under the provisions of this Act may be appealed by any employee or by the executive head of any agency to the Legislative Audit Committee under such rules governing appellate procedure as said Committee may adopt.

If the information is in active use or in storage and, therefore, not available at the time a person asks to examine it, the custodian shall certify this fact in writing to the applicant and set a date and hour within a reasonable time when the record will be available for the exercise of the right given by this Act. When records are no longer currently in use, it shall be within the discretion of the agency to determine a period of time for which said records will be preserved.

(b) Neither the custodian nor his agent who controls the use of public records shall make any inquiry of any person who applies for inspection or copying of public records beyond the purpose of establishing proper identification and the public records being requested; and the custodian or his agent shall give, grant, and extend to the person requesting public records all reasonable comfort and facility for the full exercise of the right granted by this Act.

If a decision is not so requested, the information shall be presumed to be public information.

(b) The attorney general shall forthwith render a decision, consistent with standards of due process, to determine whether the requested information is a public record or within one of the above stated exceptions. (c) It shall be the policy of all governmental bodies to provide suitable copies of all public records within a reasonable period of time after the date copies were requested. #### Bond for Payment of Costs for Preparation of Public Records or Cash Prepayment

Sec. 11. A bond for payment of costs for the preparation of such public records, or a prepayment in cash of the anticipated costs for the preparation of such records, may be required by the head of the department or agency as a condition precedent to the preparation of such record where the record is unduly costly and its reproduction would cause undue hardship to the department or agency if the costs were not paid.

#### Penalties

Sec. 12. Any person who wilfully destroys, mutilates, removes without permission as provided herein, or alters public records shall be guilty of a misdemeanor and upon conviction shall be fined not less than \$25 nor more than \$4,000, or confined in the county jail not less than three days nor more than three months, or both such fine and confinement.

#### Procedures for Inspection of Public Records

Sec. 13. Each governmental body may promulgate reasonable rules of procedure by which public records may be inspected efficiently, safely, and without delay.

(b) This Act does not authorize the withholding of information or limit the availability of public records to the public, except as expressly so provided.

(c) This Act does not give authority to withhold information from individual members or

committees of the Legislature of the State of Texas to use for legislative purposes.

(d) This Act shall be liberally construed in favor of the granting of any request for information.

#### Severability

Sec. 15. #### Art. 6252-19. Tort Claims Act

##### Short Title

Sec. 1. This Act shall be known and cited as the Texas Tort Claims Act.

##### Definitions

Sec. 2. The following words and phrases as used in this Act unless a different meaning is plainly required by the context shall have the following meanings:

(1) "Unit of government" or "units of government" shall mean the State of Texas and all of the several agencies of government which collectively constitute the government of the State of Texas, specifically including, but not to the exclusion of, other agencies bearing different designations, all departments, bureaus, boards, commissions, offices, agencies, councils and courts; all political subdivisions, all cities, counties, school districts, levee improvement districts, drainage districts, irrigation districts, water improvement districts, water control and improvement districts, water control and preservation districts, fresh water supply districts, navigation districts, conservation and reclamation districts, soil conservation districts, river authorities, and junior college districts; and all institutions, agencies and organs of government whose status and authority is derived either from the Constitution of the State of Texas or from laws passed by the Legislature pursuant to such Con-

stitution. Provided, however, no new unit or units of government are hereby created.

(2) "Scope of employment" or "scope of office" shall mean that the officer, agent or employee was acting on behalf of a governmental unit in the performance of the duties of his office or employment or was in or about the performance of tasks lawfully assigned to him by competent authority.

(3) "Officer, agent or employee" shall mean every person who is in the paid service of any unit of government by competent authority, whether full or part-time, whether elective or appointive, and whether supervisory or nonsupervisory, it being the intent of the Legislature that this Act should apply to every person in such service of a unit of government, save and except as herein provided. Such definition, however, shall not include an independent contractor or an agent or employee of an independent contractor, or any person performing tasks the details of which the unit of government does not have the legal right to control.

#### Liability of Governmental Units

Sec. 3. Each unit of government in the state shall be liable for money damages for property damage or personal injuries or death when proximately caused by the negligence or wrongful act or omission of any officer or employee acting within the scope of his employment or office arising from the operation or use of a motor-driven vehicle and motor-driven equipment, other than motor-driven equipment used in connection with the operation of flood-gates or water release equipment by river authorities created under the laws of this state, under circumstances where such officer or employee would be personally liable to the claimant in accordance with the law of this state, or death or personal injuries so caused from some condition or some use of tangible property, real or personal, under circumstances where such unit of government, if a private person, would be liable to the claimant in accordance with the law of this state. Such liability is subject to the exceptions contained herein, and it shall not extend to punitive or exemplary damages. Liability hereunder shall be limited to \$100,000 per person and \$300,000 for any single occurrence for bodily injury or death and to \$10,000 for any single occurrence for injury to or destruction of property.

#### Waiver of Sovereign Immunity

Sec. 4. To the extent of such liability created by Section 3, immunity of the sovereign to suit, as heretofore recognized and practiced in the State of Texas with reference to units of government, is hereby expressly waived and abolished, and permission is hereby granted by the Legislature to all claimants to bring suit against the State of Texas, or any and all other units of government covered by this Act, for all claims arising hereunder.

#### Venue

Sec. 5. All cases arising under the provisions of this Act shall be instituted in the county in which the cause of action or a part thereof arises.

#### Cumulative Remedy

Sec. 6. This Act shall be cumulative in its legal effect and not in lieu of any and all other legal remedies which the injured person may pursue.

#### Laws and Rules Applicable

Sec. 7. The laws and statutes of the State of Texas and the Rules of Civil Procedure, as promulgated and adopted by the Supreme Court of Texas, insofar as applicable and to the extent that such rules are not inconsistent with the provisions of this Act, shall apply to and govern all actions brought under the provisions of this Act.

#### Unit of Government as Defendant; Service of Citation

Sec. 8. Suits instituted pursuant to the provisions of this Act shall name as defendant the unit of government against which liability is sought to be established. In suits against the state citation shall be served on the Secretary of State. In suits against other units of government citation shall be served in the manner prescribed by law for other civil cases. If no method is prescribed by law, then service may be had on the administrative head of the unit of government being sued, if available, and if not, the court in which the suit is pending may authorize service in such manner as may be calculated to afford the unit of government a fair opportunity to answer and defend the suit.

#### Counsel; Insurance

Sec. 9. The Attorney General of Texas shall defend all actions brought under the provisions of this Act against any unit of government whose authority and jurisdiction is coextensive with the geographical limits of the State of Texas. All units of government whose area of jurisdiction is less than the entire State of Texas shall employ their own counsel in accordance with the organic act under which such unit of government is operating; provided, however, that all units of government are hereby expressly authorized to purchase policies of insurance providing protection for such units of government, their officers, agents and employees against claims brought under the provisions of this Act, and when they have acquired such insurance, they are further authorized to relinquish to the company providing such insurance coverage the right to investigate, defend, compromise and settle any such claim. In the case of suits defended by the Attorney General, he may be fully assisted by counsel provided by insurance carrier. Neither the existence or amount of insurance shall ever be admissible in evidence in the trial of any case hereunder, nor shall the same be subject to discovery.

## Compromise and Settlement

Sec. 10. Any and all causes of action brought under the provisions of this Act may be settled and compromised by the unit of government involved when, in the judgment of the Governor, in the case of the state, and in the judgment of the governing body of the unit of government in other cases, such compromise would be to the best interests of such government. It is specifically provided, however, that such approval shall not be required in those instances where insurance has been procured under the provisions of Section 9 hereof.

## Collection of Judgments

Sec. 11. Judgments recovered against units of government pursuant to the provisions of this Act shall be enforced in the same manner and to the same extent as judgments are now enforced against such units of government under the statutes and law of Texas; and no additional methods of collecting judgments are granted by this Act. Provided, however, if the judgment is obtained against a unit of government that has procured a contract or policy of liability or indemnity insurance protection, the holder of the judgment may use such methods of collecting said judgment as are provided by the policy or contract and statutes and laws of Texas to the extent of the limits of coverage provided therein. It is expressly provided, however, that judgments under this Act becoming final during any fiscal year need not be paid by such unit of government until the following fiscal year except to the extent that they may be payable by an insurance carrier. For the payment of any final judgment obtained under the provisions of this Act, a unit of government not fully covered by liability insurance is hereby authorized to levy an ad valorem tax, the rate of which, if found by the unit of government to be necessary, may exceed any legal limit otherwise applicable except as may be imposed by the Constitution of the State of Texas. In the event that judgments arising under the provisions of this Act become final against a unit of government in any one fiscal year in an aggregate amount, exclusive of insurance coverage, if any, in excess of one percent of the budgeted tax funds, exclusive of general obligation debt service requirements, of such unit of government for such fiscal year, then such unit of government may pay such judgments over a period of not more than five years in equal annual installments and shall pay interest on the unpaid balance at the rate provided by law.

## Effect of Judgment or Settlement

Sec. 12. (a) The judgment or settlement in an action or claim under this Act shall constitute a complete bar to any action by the claimant, by reason of the same subject matter, against the employee of a unit of government whose act or omission gave rise to the claim.

(b) The State or a political subdivision may not require any employee to purchase liability

insurance as a condition of his employment where the State or political subdivision is insured by a policy of liability insurance.

## Liberal Construction

Sec. 13. The provisions of this Act shall be liberally construed to achieve the purposes hereof.

## Exemptions

Sec. 14. The provisions of this Act shall not apply to:

(1) Any claim based upon an act or omission which occurred prior to the effective date of this Act.

(2) Any claim based upon an act or omission of the Legislature, or any member thereof acting in his official capacity, or to the legislative functions of any unit of government subject to the provisions hereof.

(3) Any claim based upon an act or omission of any of the courts of the State of Texas, or any member thereof acting in his official capacity, or to the judicial functions of any unit of government subject to the provisions hereof.

(4) Any claim based upon an act or omission of an officer, agent or employee of any unit of government in the execution of the lawful orders of any court.

(5) Any claim arising in connection with the assessment or collection of taxes by any unit of government.

(6) Any claim arising out of the activities of the National Guard, the State Militia, or the Texas State Guard, when on active duty pursuant to lawful orders of competent authority.

(7) Any claim based upon the failure of a unit of government to perform any act which said unit of government is not required by law to perform. If the law leaves the performance or nonperformance of an act to the discretion of the unit of government, its decision not to do the act, or its failure to make a decision thereon, shall not form the basis for a claim under this Act.

(8) Any claim arising out of the action of an officer, agent or employee while responding to emergency calls or reacting to emergency situations when such action is in compliance with the laws and ordinances applicable to emergency action.

(9) Any claim based on an injury or death connected with any act or omission arising out of civil disobedience, riot, insurrection or rebellion or arising out of the failure to provide, or the method of providing, police or fire protection.

(10) Any claim arising out of assault, battery, false imprisonment, or any other intentional tort including, but not limited to, disciplinary action by school authorities.

(11) Any claim based upon the theory of attractive nuisance.

(12) Any claim arising from the absence, condition, or malfunction of any traffic or road sign, signal, or warning device unless such absence, condition, or malfunction shall not be corrected by the governmental unit responsible within a reasonable time after notice, or any claim arising from the removal or destruction of such signs, signals or devices by third parties except on failure of the unit of government to correct the same within such reasonable time, after actual notice. Nothing herein shall give rise to liability arising from the failure of any unit of government to initially place any of the above signs, signals, or devices when such failure is the result of discretionary actions of said governmental unit. The signs, signals and warning devices enumerated above are those used in connection with hazards normally connected with the use of the roadway, and this section shall not apply to the duty to warn of special defects such as excavations or roadway obstructions.

#### Individual Immunity

Sec. 15. Notwithstanding any provision hereof, the individual immunity of public officers, agents or employees of government from tort claims for damages is hereby preserved to the extent and degree that such persons presently are immunized.

#### Notice of Death or Injury

Sec. 16. Except where there is actual notice on the part of the governmental unit that death has occurred or that the claimant has received some injury or that property of the claimant has been damaged, any person making a claim hereunder shall give notice of the same to the governmental unit against which such claim is made, reasonably describing the damage or injury claimed and the time, manner and place of the incident from which it arose, within six months from the date of the incident. Provided, however, except where there is such actual notice, charter and ordinance provisions of cities requiring notice within a charter period permitted by law are hereby expressly ratified and approved.

#### Payment of Claim Against State Supported College or University

Sec. 17. No claim or judgment against a state-supported senior college or university, under this Act, shall be payable except by a direct appropriation made by the Legislature for the purpose of satisfying claims and/or judgments, except in the event insurance has been acquired as provided in Section 9, in which case the claimant is entitled to payment to the extent of such coverage as in other cases.

#### Exclusions

Sec. 18. (a) This Act shall not apply to any proprietary function of a municipality.

The term "motor-driven equipment" as used herein shall not be construed so as to include medical equipment, such as, but not limited to iron lungs, located in hospitals.

(b) As to premise defects, the unit of government shall owe to any claimant only the duty owed by private persons to a licensee on private property, unless payment has been made by the claimant for the use of the premises. Provided, however, that the limitation of duty contained in this subsection shall not apply to the duty to warn of special defects such as excavations or obstructions on highways, roads or streets, nor shall it apply to any such duty to warn of the absence, condition or malfunction of traffic signs, signals or warning devices as is required in Section 14(12) hereof.

#### Workmen's Compensation

Sec. 19. Any governmental unit carrying Workmen's Compensation Insurance or accepting the provisions of the Workmen's Compensation Act of the State of Texas shall be entitled to all of the privileges and immunities granted by the Workmen's Compensation Act of the State of Texas to private persons and corporations.

#### Application to School and Junior College Districts

Sec. 19A. The provisions of this Act shall not apply to school districts or to junior college districts except as to motor vehicles.

#### Repealer

Sec. 20. All laws or parts of law, and all enactments, rules and regulations or any and all units of government, and all organic laws of such units of government, in conflict herewith are hereby repealed, annulled and voided, to the extent of such conflict.

#### Severability

Sec. 21. In the event any section, subsection, paragraph, sentence or clause of this Act shall be declared unconstitutional or void, the validity of the remainder of this Act shall not be affected or impaired thereby; and it is hereby declared to be the policy and intent of the Legislature to enact the valid portions of this Act, notwithstanding the invalid portions, if any.

Such insurance shall be provided by the purchase of a policy or policies for that purpose from some liability insurance company or companies authorized to transact business in the State of Texas. All liability insurance so purchased shall be provided on a policy form or forms approved by the State Board of Insurance as to form and by the Attorney General as to liability.

Sec. 2. In case said department elects not to so insure its employees against liability as above mentioned:

An employee of the State of Texas, in addition to any compensation provided in the General Appropriations Act, shall receive as compensation any sum of money expended by such employee for automobile liability insurance required of such employee by the department, agency, commission, or other branch of the state government for which such employee is employed.

Sec. 3. The State Comptroller shall provide the necessary forms to make such claims which shall require a certification from the head of the Department, Agency, Commission or other branch of the State government that such employee is employed; that as a regular part of such employee's duties such employee is required to operate a State-owned motor vehicle, aircraft, motorboat or watercraft; and that such Department, Agency, Commission or other branch of the State government requires such employee to maintain liability insurance as a prerequisite to the operation of the State-owned motor vehicle, aircraft, motorboat or watercraft.

Sec. 4. Such payments are to be charged against the maintenance fund of the department for which such employee is employed.

Sec. 5. Nothing herein shall be construed as a waiver of the immunity of the state from liability for the torts of negligence of the officers or employees of the state.

Sec. 4. Any person who fails to register as required by Section 2 of this Act shall be guilty of a misdemeanor, and upon conviction thereof shall be subject to a fine not exceeding Five Hundred Dollars (\$500) or by imprisonment in the county jail not exceeding six (6) months, or by both such fine and imprisonment.

[Acts 1957, 55th Leg., 1st C.S., p. 30, ch. 12.]

#### Art. 6252-24. Collecting Debts for Others

Any Justice of the Peace, sheriff, constable or other peace officer in this State, who shall receive for collection or undertake the collection of any claim for debt for others except under and by virtue of the processes of law prescribing the duties of such officers, or who shall receive compensation therefor except as prescribed by law, shall be guilty of a misdemeanor and upon conviction thereof shall be punished by a fine of not less than Two Hundred Dollars nor more than Five Hundred Dollars, and in addition to such fine may be removed from office. Provided, however, that nothing herein shall be construed to prohibit any Justice of the Peace who is authorized by law to act for others in the collection of debts from undertaking such collections where the amount is beyond the jurisdiction of the Justice Court.

[Acts 1929, 41st Leg., p. 483, ch. 227, § 1.]

#### Art. 6252-25. Aid and Compensation to Persons Wrongfully Imprisoned

##### Legislative Finding and Statement of Policy

Sec. 1. The Legislature finds that the people of Texas by adding to the Constitution of the State of Texas, Article III, Section 51-c, on November 6, 1956, have adopted the policy that persons who have served sentences in prison for crimes of which they are not guilty should not bear the loss occasioned by this error, but that the people of the State should provide such persons with compensation to reimburse and compensate them for their losses. It is the purpose of this Act to provide the means whereby such compensation may be obtained by persons so wronged.

**Claimants Entitled to Compensation**

Sec. 2. A person is entitled to compensation provided by this Act:

(a) if he has served, in whole or in part, a sentence in prison under the laws of this State; and

(b) if he pleaded "not guilty" to the charge for which he was convicted and which led to the imprisonment; and

(c) if he is not guilty of the crime for which he was sentenced; and

(d) if he has received a full pardon for the crime and punishment for which he was sentenced.

**Permission to Sue State Granted—Venue—Service**

Sec. 3. Any person who by verified petition alleges that he is entitled to compensation under this Act may bring suit against the State of Texas. This Act grants permission to such persons to sue the State and the State's immunity from suit is hereby waived as to all actions brought under this Act. A person who sues the State under this Act shall bring suit in a court of competent jurisdiction either in the county of his residence at the time such suit is commenced or in a court of competent jurisdiction for Travis County. Service of citation upon the State shall be accomplished by service upon the Attorney General. The Attorney General shall represent the State in any proceeding brought under this Act.

**Proof Required**

Sec. 4. In order to obtain a judgment in his favor, a person who brings suit under this Act must establish by a preponderance of the evidence that he is entitled to compensation under this Act and the amount of compensation to which he is entitled. The judgment of conviction in the trial which resulted in the imprisonment in question is not a defense on the part of the State to a suit brought under this Act, nor is an indictment, information, complaint or other formal accusation any defense.

**Admissible Evidence**

Sec. 5. The record of the trial at which the person bringing suit under this Act was convicted, and the pardon or proclamation issued to him by the Governor are admissible as evidence, and all court papers, orders, docket no-

tations or other writings of record in any court in this State are admissible in evidence in a trial of a suit brought under this Act as proof of the facts set out therein.

**Measure of Damages for Compensation**

Sec. 6. If the jury, or the judge where the case is tried before the judge without a jury, finds that the claimant is entitled to compensation, then the jury or the judge, as the case may be, shall assess the claimant's damages at such a sum of money as will fairly and reasonably compensate him:

(a) for the physical and mental pain and suffering sustained by him as a proximate result of the erroneous conviction or imprisonment from the time of conviction by the trial court;

(b) for all reasonable and necessary medical expenses incurred by him as a proximate result of the erroneous conviction or imprisonment from the time of the conviction in the trial court.

It is provided, however, that the judge or jury, as the case may be, shall not assess the claimant's damages under Subsection (a) of this Section 6 at an amount greater than Twenty-five Thousand Dollars (\$25,000). It is further provided that the judge or jury, as the case may be, shall not assess the claimant's total damages under this Act at an amount greater than Fifty Thousand Dollars (\$50,000).

**Limitation of Action**

Sec. 7. Any person claiming compensation under this Act whose claim is based upon a sentence served before the effective date of this Act must bring his action within two years after the effective date of this Act or within two years after he discovered or should have discovered the evidence substantiating his innocence. Any person claiming compensation under this Act whose claim is based upon a sentence served in whole or in part, after the effective date of this Act must bring his action within two years after he ceased serving the sentence of imprisonment or after his release from custody, or within two years after he discovered or should have discovered the evidence substantiating his innocence.

**Art. 6275. To Keep Offices in Texas**

Every railroad company chartered by this State, or owning or operating any line of railway within this State, shall keep and maintain permanently its general offices within this State at the place named in its charter for the location of its general offices. If no certain place is named in its charter where its general offices shall be located and maintained, then said railroad company shall keep and maintain its general offices at such place within this State where it contracts or agrees to locate its general office for a valuable consideration.

[Acts 1925, S.B. 84.]

**Art. 6276. Where No Contract**

If said railroad company has not contracted or agreed for a valuable consideration to maintain its general offices at any certain place within this State, then such general offices shall be located and maintained at such place on its line in this State as said railroad company may designate to be on its line of railway.

The name of the general offices shall not be understood to allow the railroad company to have any of the offices usually known as general offices at any other place than the one at which it is required to keep its general offices; and each railroad is hereby required to have and maintain its general offices at the place named herein. Where the principal shops of a company are situated on its line in the State, at a place other than where its general offices are located, the superintendent of motive power and machinery, master mechanic, either or both, may have his office and residence at such place where such principal shops are located; provided, that the Railroad Commission of Texas, where it is made to appear that any officer, other than the general officers of any company, can more conveniently perform his duties by residing at some place on the line in Texas other than the place where the general offices are situated, may by an order entered on its record, authorize any such officer to so reside and keep his office at such place.

**Art. 6279. Forfeiture**

Each railroad company chartered by this State, or owning, operating, or controlling any line of railroad within this State, which shall violate any provision of this chapter shall forfeit the charter by which it operates its railroad in Texas to the State of Texas. The Attorney General shall, upon the application of an interested party, or on his own motion, proceed at once against every offending railroad company owning, operating or controlling any line of railway within this State and violating any provision of this law, by quo warranto to

forfeit the charter of such railroad company. In addition to forfeiting the charter to that part of the railroad situated within this State, such offending railroad company shall be subject to a penalty of five thousand dollars for each day it violates any provision of this chapter; such penalty to be recovered by suit in the name of the State of Texas to be filed by the Attorney General. Any money recovered from any railroad company under the provisions of this law shall be paid into the State Treasury and become a part of the available public free school fund. A judgment of the court forfeiting the charter of a railroad company shall allow six months from the date of the judgment within which to comply with this law, and if it shall comply within said time no forfeiture shall occur; but if it fails to so comply, then the judgment shall be final.

[Acts 1925, S.B. 84.]

The legislature may, by committee or otherwise, examine the books of any railroad corporation at such times and as often as may by said legislature be deemed necessary.

[Acts 1925, S.B. 84.]

#### Art. 6284. Penalty for Failure

If said railroad or other corporation shall fail or refuse to comply with any provision of the three preceding articles, it shall be liable to pay to the State of Texas, the sum of one thousand dollars for each month that said railroad or other corporation shall fail or refuse to comply therewith, said sum to be recovered by the State. The Commission shall not consent to, or approve of, any removal or change of location in conflict with the restrictions of the first article of this chapter. #### Art. 6345. Right to Borrow Money, Issue Bonds, etc.

Such corporation shall have the right, from time to time, to borrow such sums of money as may be necessary for constructing, completing, improving or operating its railway, and to issue and dispose of its bonds for any amount so borrowed, and to mortgage its corporate property and franchise to secure the payment of any debt contracted by such corporation for the purposes aforesaid, subject, however, to other provisions of law.

[Acts 1925, S.B. 84.]

make its terminus at and build its road to said new county site.

[Acts 1925, S.B. 84.]

#### Art. 6349. Abandonment, Change, or Relocation of Line

When any railroad in this State whether incorporated under State or Federal charter desires to abandon, change or relocate any portion of its line of railroad within this State adjacent to but not within an incorporated city of fifty thousand or more inhabitants according to the preceding Federal census, it shall present a petition therefor to the Railroad Commission of Texas showing that portion of its line sought to be changed, relocated or abandoned and the situation of the new relocated line, with the reasons justifying the same; thereupon said Commission shall set down said application for hearing and give public notice thereof of not less than ten days in the locality where such change is desired by publishing notice in a newspaper of general circulation published nearest thereto, setting out substantially what such contemplated change may be; and if after such hearing said Commission shall be of the opinion that it is to the public interest to permit such change, relocation or abandonment of said line, it shall enter its order approving same and thereupon said railroad corporation or receivers of any railroad shall be empowered to make such change, relocation or abandonment; provided that nothing contained herein shall be construed to authorize said Commission to permit any railroad corporation or receivers of any railroad to abandon such substantial part of its line as shall amount to impairment of its charter contract or deprive any city or town of railroad facilities. [Acts 1925, S.B. 84.]

#### Art. 6355. Shall Survey Twenty-Five Miles

Every railroad company organized under this title shall make an actual survey of its route or line for a distance of twenty-five miles on its projected route, and shall designate the depot grounds along said first twenty-five miles before the roadbed is begun. No railroad company shall change its route or depot grounds after the same have been so designated.

[Acts 1925, S.B. 84.]

#### Art. 6356. Subsequent Mileage

Every such corporation shall, on completion of the first twenty-five miles of its roadbed, make a survey of the next twenty-five miles, and of each subsequent twenty-five miles as the preceding twenty-five miles shall be completed, and every subsequent twenty-five miles

Failure on the part of railroad companies to comply with the requirements of this article shall be deemed an abuse of their rights and privileges and such abuse shall at once be corrected and regulated by the Railroad Commission. [Acts 1925, S.B. 84.]

#### Art. 6358. Action on Abandonment

If any railroad corporation, manager or receiver shall attempt to abandon any railroad, or part thereof, by failing to operate its trains or to resume operation of its trains over its said road, or part thereof, if the operation of trains has been abandoned, the Railroad Commission shall report the same to the Attorney General who shall at once file a suit in behalf of the State against said railroad corporation, manager or receiver in any district court of Travis County, or of any county through which said railroad may pass, for the purpose of determining whether or not said railroad corporation, manager or receiver has failed or refused to carry out the purpose of this law, and if the court shall determine that said corporation, manager or receiver has so failed or refused, said court shall appoint a receiver for the purpose of operating said railroad and carrying out the purposes of this law. levy and sale must take place in the county where the principal office of such company is situated, and the entire roadbed, track, franchise and chartered powers and privileges of such company shall be levied upon and sold. The provisions of this article shall be observed so far as they are applicable in all cases where, by any decree of a competent court, a sale of the roadbed, track, franchise and chartered powers and privileges of any railroad company is directed to be made.

[Acts 1925, S.B. 84.]

#### Art. 6426. Unpaid Stock Subscriptions

The sale of the roadbed, track, franchise and chartered rights, as herein provided, shall not be held to pass or convey to the purchaser any right or claim to recover from the former stockholders of said company any sums which may remain due upon their subscriptions of stock, but the said stockholders shall continue liable to pay the same in discharge and liquidation of the debts due by the sold out company, as hereinafter provided.

[Acts 1925, S.B. 84.]

#### Art. 6427. Old Directors to be Trustees

Whenever a sale of the roadbed, track, franchise and chartered powers and privileges is made as hereinbefore provided (unless other persons shall be appointed by the legislature or by some court of competent authority), the directors or managers of the sold out company at the time of the sale, by whatever name they may be known in law, shall be trustees of the creditors and stockholders of the sold out company, and shall have full power to settle the affairs of the sold out company, collect and pay outstanding debts, and divide among the stockholders the money and other property that shall remain after the payment of the debts and other necessary expenses; and the persons so constituted trustees shall have authority to sue by the name of the trustees of such sold out company, and may be sued as such, and shall be jointly and severally responsible to all creditors and stockholders of such company, to the extent of its property and effects that shall come to their hands.

any other law which authorizes the loan of money to railroad companies, nor shall any creditor of any railroad company be allowed to make the State a party to any suit brought for the enforcement of any debt, mortgage or deed of trust or lien on any railroad, or permitted to require the State to foreclose any lien which it may have had upon any road, but the lien of the State and its right to enforce the same shall continue as if this law had never been passed, and as if no sale had been made under the provisions of the same.

[Acts 1925, S.B. 84.]

#### Art. 6430. Reducing Wages

All persons in the employment of such railway company shall receive thirty full days notice from said company immediately prior to the day upon which a reduction is to take effect before their wages shall be reduced. In all cases of reduction the employé shall be entitled to receive from such company wages at his contract price for the full term of thirty days after such notice is given. Said notice may be given by posting written or printed handbills, specifying the parties whose wages are to be reduced and the amount of such reduction, in at least three conspicuous places in or about each shop, section house, station, depot, train or other place where said employés are at work; provided, such employé shall, within fifteen days from the date of such notice, inform such railway company, by posting like notices as given by such railway company, whether or not he will accept such reduction; and, if no such information is given such company by such employé, then such employé shall forfeit his right to such notice and such reduction shall take effect from the date of such notice, instead of at the expiration of thirty days. Any railway company violating or evading any provision of this article shall pay to each employé affected thereby one month's extra wages.

[Acts 1925, S.B. 84.]

#### Art. 6431. Discharged Employé

If said railroad company fails or refuses to pay such employé, then it shall be liable to pay to such employé twenty per cent on the amount due him, as damages, in addition to the amount so due, in no case the damages to be less than five nor more than one hundred dollars.

#### Art. 6432. Injury to Fellow Servant

Every person, receiver, or corporation operating a railroad or street railway, the line of which shall be situated in whole or in part in this State, shall be liable for all damages sustained by any servant or employé thereof while engaged in the work of operating the cars, locomotives or trains of such person, receiver, or corporation, by reason of the negligence of any other servant or employé of such person, receiver or corporation, and the fact that such servants or employés were fellow-servants with each other shall not impair or destroy such liability.

[Acts 1925, S.B. 84.]

#### Art. 6433. Who are Vice-Principals

All persons engaged in the service of any person, receiver, or corporation controlling or operating a railroad or street railway, the line of which shall be situated in whole or in part in this State, who are intrusted by such person, receiver, or corporation with the authority of superintendence, control or command of the other servants or employés of such person, receiver, or corporation, with the authority to direct any other employé in the performance of any duty of such employé, are vice-principals of such person, receiver, or corporation, and are not fellow-servants with their co-employés.

[Acts 1925, S.B. 84.]

#### Art. 6434. "Fellow-Servants"

All persons who are engaged in the common service of such person, receiver, or corporation controlling or operating a railroad or street railway, and who while so employed are in the same grade of employment and are doing the same character of work or service, and are working together at the same time and place, and at the same piece of work and to a common purpose, are fellow-servants with each other. Employés who do not come within the provisions of this article shall not be considered fellow-servants.

[Acts 1925, S.B. 84.]

#### Art. 6435. Contract Limiting Liability Void

No contract made between the employer and employé based upon the contingency of death or injury of the employé and limiting the lia-

bility of the employer under the preceding articles of this chapter, or fixing damages to be recovered, shall be valid or binding.

[Acts 1925, S.B. 84.]

#### Art. 6436. Contributory Negligence

Nothing in the preceding articles of this chapter shall be held to impair or diminish the defense of contributory negligence when the injury of the servant or employé is caused proximately by his own contributory negligence, except as otherwise provided in this chapter.

[Acts 1925, S.B. 84.]

#### Art. 6437. Assumed Risk

The plea of assumed risk shall not be available as a bar to recovery of damages in any suit brought in any court of this State against any corporation, receiver or other person, operating any railroad, interurban railway or street railway in this State for the recovery of damages for the death or personal injury of any employé or servant caused by the wrong or negligence of such person, corporation or receiver; it being contemplated that while the employé does assume the ordinary risk incident to his employment he does not assume the risk resulting from any negligence on the part of his employer, though known to him.

Where, however, in any such suit, it is alleged and proven that such deceased or injured employé was chargeable with negligence in continuing in the service of any such corporation, receiver or person above named in view of the risk, dangers and hazards of which he knew or must necessarily have known, in the ordinary performance of his duties, such fact shall not operate to defeat recovery, but the same shall be treated and considered as constituting contributory negligence, and if proximately causing or contributing to cause the death or injury in question, it shall have the effect of diminishing the amount of damages recoverable by such employé, or his heirs or representatives in case of the employé's death, only in proportion to the amount of negligence so attributable to such employé.

[Acts 1925, S.B. 84.]

#### Art. 6438. Double Header Trains

Employés of railway companies employed by said companies in the operation of trains within this State, propelled by two or more engines, shall not be held to assume the risk, if any there be, incident to their employment; provided, they be injured while engaged in the operation of such trains and that such injury was occasioned by reason of the operation of two or more engines on such train instead of one.

[Acts 1925, S.B. 84.]

#### Art. 6439. Liable for Injury or Death of Employé

Every corporation, receiver, or other person, operating any railroad in this State, shall be liable in damages to any person suffering inju-

ry while he is employed by such carrier operating such railroad, or in case of death of such employé, to his or her personal representative for the benefit of the surviving widow and children, or husband and children, and mother and father of the deceased, and, if none, then of the next kin dependent upon such employé for such injury or death resulting in whole or in part from the negligence of any of the officers, agents, or employés of such carrier; or by reason of any defect or insufficiency due to its negligence, in its cars, engines, appliances, machinery, track, roadbed, works, boats, wharves, or other equipment. The amount recovered shall not be liable for debts of deceased and shall be divided among the persons entitled to the benefit of the action or such of them as shall be alive, in such shares as the jury, or court trying the case without a jury, shall deem proper. In case of the death of such employé, the action may be brought without administration by all the parties entitled thereto, or by any one or more of them, for the benefit of all, and, if all parties be not before the court, the action may proceed for the benefit of such of said parties as are before the court.

[Acts 1925, S.B. 84.]

#### Art. 6440. Contributory Negligence

In all actions brought against any such common carrier or railroad under or by virtue of any provision of the foregoing article and the three succeeding articles to recover damages for personal injuries to an employé, or where such injuries have resulted in his death, the fact that the employé may have been guilty of contributory negligence shall not bar a recovery, but the damages shall be diminished by the jury in proportion to the amount of negligence attributable to such employé; provided, that no such employé who may be injured or killed shall be held to have been guilty of contributory negligence in any case where the violations by such common carrier of any statute enacted for the safety of employés contributed to the injury or death of such employé.

[Acts 1925, S.B. 84.]

#### Art. 6441. Assumed Risk

In any action brought against any common carrier under or by virtue of any provision of the two preceding articles to recover damages for injuries to or the death of any of its employés, such employé shall not be held to have assumed the risks of his employment in any case where the violation by such common carrier of any statute enacted for the safety of employés contributed to the injury or death of such employé.

[Acts 1925, S.B. 84.]

#### Art. 6442. Contract Changing Liability Void

Any contract, rule, regulation or device whatsoever, the purpose or intent of which shall be to enable any common carrier to exempt itself from any liability created by the three preceding articles shall to that extent be

void; provided, that, in any action brought against any such common carrier by virtue of said articles, such common carrier may set off therein any sum it has contributed or paid to any insurance, relief benefit or indemnity that may have been paid to the injured employé, or the person entitled thereto, on account of the injury or death for which said action was brought.

[Acts 1925, S.B. 84.]

#### Art. 6443. Articles of This Chapter Construed

Nothing in the provisions of the four preceding articles shall be held to limit the duty or liability of common carriers, or to impair the rights of employés, under other articles of these Statutes, but, in case of conflict, these articles shall prevail; and nothing in said articles shall affect the right of action under any law of this State.

**Art. 6448. Duties**

1. Adopt all necessary rates, charges and regulations, to govern and regulate freight and passenger traffic, to correct abuses and prevent unjust discrimination and extortion in rates of freight and passenger traffic on the different railroads in this State.

2. Fairly and justly classify and subdivide all freight and property of whatever character that may be transported over the railroads of this State into such general and special classes or subdivisions as may be found necessary and expedient.

3. Fix to each class or subdivision of freight a reasonable rate for each railroad subject to this title for the transportation of each of said classes and subdivisions. Such classifications shall apply to and be the same for all railroads subject to the provisions of this chapter. It may fix different rates for different railroads and for different lines under the same management, or for different parts of the same lines if found necessary to do justice, and may make rates for express companies different from the rates fixed by railroads.

4. Fix and establish for all or any connecting lines of railroads of this State reasonable joint rates of freight charges for the various classes of freight and cars that may pass over two or more such lines of such railroads.

5. When two or more connecting railroads shall fail to agree upon a fair and just division of the charges arising from the transportation of freights, passengers or cars over their lines, fix the pro rata part of the charges to be received by each connecting line.

6. From time to time, alter, change, amend or abolish any classification or rate established by it when deemed necessary. Such amended, altered or new classification or rates shall be put into effect in the same manner as the originals.

7. Adopt and enforce such rules, regulations and modes of procedure as it may deem proper to hear and determine complaints against the classifications or the rates, the rules, regulations and the determinations of the Commission.

8. Make reasonable and just rates of charges for each railroad subject hereto for the use or transportation of loaded or empty cars on its road and may establish for each railroad or for all railroads alike, reasonable rates for the storing and handling of freight and for the use of cars not unloaded after forty-eight hours' notice to the consignee, not to include Sundays and legal holidays.

9. Make and establish reasonable rates for the transportation of passengers over each railroad subject hereto, which rates shall not exceed the rates fixed by law. The Commission shall have power to prescribe reasonable rates, tolls or charges for all other services performed by any railroad subject hereto.

10. Require each railway subject to this title to provide and maintain adequate, comfortable and clean depots and depot buildings at its several stations for the accommodation of passengers; and to keep them well-lighted and warmed for the comfort and accommodation of the traveling public; and keep and maintain adequate and suitable freight depots and buildings for the receiving, handling, storing and delivering of all freight handled by such roads and such railway, and to obey the requirements of the Commission in respect thereto.

11. See that all laws of this State concerning railroads are enforced and that violations thereof are promptly prosecuted and penalties due the State therefor are recovered and collected; and report all such violations with the facts in its possession to the Attorney General or other officer charged with the enforcement of the law. It shall investigate all complaints against all railroad companies. Suits between the State and a railroad shall have precedence in the courts.

[Acts 1925, S.B. 84.]

#### Art. 6449. Notice

Before any rates shall be established, the Commission shall give each railroad company

to be affected thereby ten days' notice of the time and place when and where the rates shall be fixed; and said railroad company shall be entitled to be heard at such time and place; and it shall have process to enforce the attendance of its witnesses, which shall be served as in civil cases.

[Acts 1925, S.B. 84.]

#### Art. 6450. Rules for Hearing, etc.

The Commission may adopt rules to govern its proceedings and to regulate the mode and manner of all investigations and hearings of railroad companies and other parties before it, in the establishment of rates, orders, charges, and other acts required of it under this law; and no person shall be denied admission at such investigation.

[Acts 1925, S.B. 84.]

#### Art. 6451. May Administer Oaths, etc.

Each Commissioner, for the purposes mentioned in this chapter, shall have power to administer oaths, certify to all official acts, and to compel the attendance of witnesses, and the production of papers, waybills, books, accounts, documents and testimony, and to punish for contempt as fully as is provided by law for the district court.

[Acts 1925, S.B. 84.]

#### Art. 6452. Rates Conclusive

In all actions between private parties and railway companies brought under this law, the rates, charges, orders, rules, regulations and classifications prescribed by the Commission before the institution of such action shall be held conclusive, and deemed and accepted to be reasonable, fair, and just, and in such respects shall not be controverted therein until finally found otherwise in a direct action brought for the purpose in the manner prescribed by the two succeeding articles.

[Acts 1925, S.B. 84.]

#### Art. 6453. Appeal

If any railroad company or other party at interest be dissatisfied with the decision of any rate, classification, rule, charge, order, act or regulation adopted by the Commission, such dissatisfied company or party may file a petition setting forth the particular cause or causes of objection to such decision, act, rate, rule, charge, classification, or order, or to either or all of them, in a court of competent jurisdiction in Travis County, Texas, against said Commission as defendant. Said action shall have precedence over all other causes on the docket of a different nature, and shall be tried and determined as other civil causes in said court. Either party to said action may appeal to the Appellate Court having jurisdiction of said cause; and said appeal shall be at once returnable to said Appellate Court at either of its terms; and said action so appealed shall have precedence in said Appellate Court of all causes of a different character therein pending;

provided, that, if the court be in session at the time such right of action accrues, the suit may be filed during such term and stand ready for trial after ten days' notice. Provided further that no preliminary injunction shall be issued without notice to the opposite party and that no temporary restraining order shall be granted without notice to the opposite party unless it shall clearly appear from specific facts shown by affidavit or by the verified petition that immediate and irreparable injury, loss, or damage will result to the applicant before notice can be served and a hearing had thereon. Every such temporary restraining order shall be enforced with the date and hour of issuance, shall be forthwith filed in the clerk's office and entered of record, shall define the injury and state why it is irreparable and why the order was granted without notice, and shall by its terms expire within such time after entry, not to exceed ten days, as the court or judge may fix, unless within the time so fixed the order is extended for a like period for good cause shown, and the reasons for such extension shall be entered of record. In case a temporary restraining order shall be granted without notice in the contingency specified, the matter of the issuance of a preliminary injunction shall be set down for a hearing at the earliest possible time and shall take precedence of all matters except older matters of the same character; and when the same comes up for hearing the party obtaining the temporary restraining order shall proceed with the application for a preliminary injunction, and if he does not do so the court shall dissolve the temporary restraining order. Upon two days' notice to the party obtaining such temporary restraining order the opposite party may appear and move the dissolution or modification of the order, and in that event the court or judge shall proceed to hear and determine the motion as expeditiously as the ends of justice may require.

[Acts 1925, S.B. 84.]

#### Art. 6454. Burden of Proof

The burden of proof shall rest upon the plaintiff to show the rates, regulations, orders, classifications, acts or charges complained of are unreasonable and unjust to it or them.

[Acts 1925, S.B. 84.]

#### Art. 6455. Schedule of Rates

The Commission shall, when the classifications and schedule of rates herein provided are prepared and adopted, furnish each railroad affected thereby which is subject to the provisions of this title with a complete schedule in suitable form, showing the classification of freight made by it and the rates fixed to be charged by such road for the transportation of each class of freight, and shall cause a certified copy of such classification and schedule of rates to be delivered to each of said railroads at its principal office in Texas, or to any agent of said company in this State; which schedule, rules, and regulations shall take effect at the

date fixed by the Commission, not less than twenty days after the date of service.

[Acts 1925, S.B. 84.]

#### Art. 6456. Schedule to be Printed and Posted

Each of said railroad companies shall cause said schedule to be printed in type of a size not less than pica, and shall have the same posted up in a conspicuous place at each of its depots, so as to be inspected by the public.

[Acts 1925, S.B. 84.]

#### Art. 6457. May Abolish or Alter Regulations

The Commission may at any time abolish, alter, or in any manner amend any such regulations; and in that event certified copies of the schedules, rules or regulations, showing the changes therein, shall be delivered to each road affected as herein specified. In all cases where the rates shall not have been fixed by the Commission, no changes shall be made, except after ten days' notice to and with the consent of the Commission.

[Acts 1925, S.B. 84.]

In order that justice may be done or injury prevented any person, place or locality, said Commission shall have the power at once to suspend temporarily any existing freight or passenger tariffs, rules and regulations for temporary use, to have immediate effect where none exists.

[Acts 1925, S.B. 84.]

#### Art. 6460. Complainants

Any person, firm, corporation, or association, body politic, or municipal organization, complaining of anything done or omitted to be done by any railroad subject hereto, in violation of any law of this State, or any provision of this title, for which penalty is provided, may apply to the Commission under such rules as the Commission may prescribe.

[Acts 1925, S.B. 84.]

**Art. 6461. Procedure**

If there shall appear to the Commission any reasonable grounds for investigating such complaint; (1) it shall give at least five days' notice to such railroad of such charge and complaint, and call upon such road to answer the same at a time and place to be specified by the Commission. (2) It shall investigate and determine such complaint under such rules and modes of procedure as it may adopt. (3) If the Commission finds that there has been a violation, it shall determine if the same was wilful. (4) If it finds that such violation was not wilful, it may call upon said road to satisfy the damage done to the complainant thereby, stating the amount of such damage, and to pay the cost of such investigation; and if the said railroad shall do so within the time specified by the Commission there shall be no prosecution by the State. (5) If said railroad shall not pay said damage and cost within the time specified by said Commission or if the Commission finds such violation was wilful, it shall institute proceedings to recover the penalty for such violation and the cost of the investigation.

[Acts 1925, S.B. 84.]

**Art. 6462. Complaints, How Framed**

All such complaints shall be made in the name of the State of Texas upon the relation of such complainant. All evidence taken before said Commission in the investigation of any such complaint, when reduced to writing and signed and sworn to by the witnesses, may be used by either party, the State, complainant, or by the railroad company, in any proceeding against such railroad involving the same subject matter.

[Acts 1925, S.B. 84.]

**Art. 6463. Testimony Taken**

The Commissioners may require the testimony taken before them to be reduced to writing when they deem necessary, or when requested to do so by either party to such proceedings; and a certified copy, under the hand and seal of said Commission, shall be admissible in evidence upon the trial of any cause or proceeding growing out of the same transaction against such railroad, involving the same subject matter and between the same parties. No provisions of this and the three preceding articles shall abridge nor affect the rights of any person to sue for any penalty that may be due him under the provisions of this title, or any other law of the State.

[Acts 1925, S.B. 84.]

**Art. 6464. May Inspect Books, etc.**

The Commissioners or either of them, or such persons as they may authorize in writing under the hand and seal of the Commission, shall have the right at any time to inspect the books and papers of any railroad company and to examine under oath any officer, agent or

employé of such railroad in relation to the business and affairs of the same.

[Acts 1925, S.B. 84.]

**Art. 6465. Penalty**

If any railroad shall refuse to permit such examination of its books and papers, such railroad company shall, for each offense, pay to the State of Texas not less than one hundred and twenty-five nor more than five hundred dollars for each day it shall so fail or refuse.

[Acts 1925, S.B. 84.]

**Art. 6466. Shall Ascertain Cost of Railway, etc.**

The Commission shall ascertain as nearly as practicable:

1. The amount of money expended in construction and equipment per mile of every railway in Texas;

2. The amount of money expended to procure the right of way, and the amount of money it would require to reconstruct the roadbed, track, depots, and equipment, and to replace all the physical properties belonging to the railroad.

3. The outstanding bonds, debentures and indebtedness, and the amount respectively thereof; when issued, and the rate of interest; when due, for what purpose issued, how used, to whom issued, to whom sold, and the price in cash, property or labor, if any, received therefor.

4. Disposition of the proceeds, by whom the indebtedness is held, and the amount purporting to be due thereon.

5. The floating indebtedness of the company, to whom due and his address, and the credits due on it.

6. The property on hand belonging to the railroad company.

7. The judicial or other sales of said road, its property or franchises, and the amounts purporting to have been paid and in what manner paid therefor.

8. The amounts paid for salaries to the officers of the railroad and the wages paid its employés.

For the purposes in this article named, the Commission may employ sworn experts to inspect and assist them when needed, and from time to time, as the information required by this article is obtained, it shall communicate the same to the Attorney General by report, and file a duplicate thereof with the Comptroller for public use. Said information shall be printed from time to time in the annual report of the Commission.

[Acts 1925, S.B. 84.]

**Art. 6467. Blanks for Information**

The Commission shall as often as necessary furnish each railroad company suitable blanks with questions formed so as to elicit all information concerning such railroads. Any railroad company receiving such blanks shall

cause them to be properly filled out so as to answer fully and correctly each question therein propounded, and if they are unable to answer any question therein propounded, they shall give satisfactory reason for their failure; and the answers duly sworn to by the proper officer of the company, shall be returned to the Commission within thirty days from the receipt thereof.

[Acts 1925, S.B. 84.]

#### Art. 6468. Refusal to Answer

If any officer or employé of a railroad shall fail or refuse to fill out and return any blanks as above required, or fail or refuse to answer any questions therein propounded, or shall give a false answer to any such questions where the fact inquired of is within his knowledge, or shall evade the answer to any such questions, a penalty of five hundred dollars shall be recovered from the company by the State when it appears that such persons acted in obedience to its direction, permission or request in his failure, evasion or refusal. Said Commission shall have the power to prescribe a system of book-keeping to be observed by each railroad subject hereto, under the penalties prescribed in this article.

[Acts 1925, S.B. 84.]

#### Art. 6469. Annual Reports

The Commission shall make and submit to the Governor annual reports containing a full and complete account of the transactions of their office, together with the information gathered by such Commission as herein required, and such other facts, suggestions and recommendations as it may deem necessary, which report shall be published as the reports of heads of departments.

[Acts 1925, S.B. 84.]

#### Art. 6470. Through Freights

The Commission shall investigate all through freight rates on railroads in Texas; and when same are, in the opinion of the Commission, excessive or levied or laid in violation of the interstate commerce law, or the rules and regulations of the Interstate Commerce Commission, the officials of the railroads shall be notified of the facts and requested to reduce them or make the proper corrections, as the case may be. When the rates are not changed and the proper corrections are not made according to the request of the Commission, it shall notify the Interstate Commerce Commission and apply to it for relief.

[Acts 1925, S.B. 84.]

#### Art. 6471. Witnesses

In any examination or investigation provided in this chapter, the Commission is authorized and empowered to compel the attendance of witnesses, and may issue subpoenas for witnesses by such rules as they may prescribe, and such process shall be served by the officer to whom it may be directed. Each witness who

shall appear before the Commission by order of the Commission, at a place outside the county of his residence, shall receive for his attendance one dollar per day and three cents per mile traveled by the nearest practical route, in going to and returning from the place of meeting of the Commission, which shall be paid by the Comptroller upon the presentation of proper vouchers, sworn to by the witness, and approved by the Commission. No witness shall be entitled to fees or mileage who is directly or indirectly interested in a railroad, or who is in anywise interested in any stock, bond, mortgage, security or earnings of such road, or was an officer, agent or employé of such road when summoned at the instance of such railroad. No witness furnished with free transportation shall receive pay for the distance he may travel on such free transportation. The Commission may issue an attachment as in civil cases, for a witness who fails or refuses to obey a subpoena, and compel him to attend before the Commission and give his testimony upon such matter as shall be lawfully required by them. If a witness, after being duly summoned, shall fail or refuse to attend or to answer any question propounded to him, and which he would be required to answer if in court, the Commission may fine and imprison such witness for contempt, in the same manner that a judge of the district court might do under similar circumstances. The claim that any such testimony might tend to criminate the person giving it shall not excuse a witness from testifying, but such evidence or testimony shall not be used against such person on the trial of any criminal proceeding.

[Acts 1925, S.B. 84.]

#### Art. 6472. Depositions

The Commission may in its discretion issue proper process and take written or oral depositions instead of compelling personal attendance of witnesses. The fees of an officer executing any process issued under the provisions of this title shall be such as the Commission may allow, not to exceed fees as prescribed by law for similar services.

[Acts 1925, S.B. 84.]

#### Art. 6472a. Depositions in Matters Pending Before Commission

In all matters pending for hearing before the Railroad Commission of Texas, or any division thereof, the Commission, or any interested party, shall have the right to produce the testimony of any witness, or witnesses, by either written or oral depositions instead of compelling the personal attendance of witnesses. For this purpose the Commission is hereby empowered and authorized to issue commissions and all other process necessary for the purpose of taking such depositions. All depositions taken under the provisions of this Act shall be taken, insofar as applicable and to the fullest extent possible, in accordance with provisions of the Texas Rules of Civil Procedure, as amended, re-

lating to written and oral depositions in civil cases.

[Acts 1930, 41st Leg., 5th C.S., Leg., p. 183, ch. 43, § 1, eff. March 20, 1930; Acts 1971, 62nd Leg., p. 2541, ch. 835, § 1, eff. June 9, 1971.]

**Art. 6472b. Repealed by Acts 1971, 62nd Leg., p. 2541, ch. 835, § 2, eff. June 9, 1971**

**Art. 6473. Extortion**

If any railroad company, subject to the provisions of this title, or its agent or officer, shall charge, collect, demand, or receive a greater rate, charge or compensation than that fixed and established by the Commission for the transportation of freight, passengers or cars, or for the use of any car on the line of its railroad, or any line operated by it, or for receiving, forwarding, handling or storing any such freight or cars, or for any other service performed or to be performed by it, such railroad company and its agent and officer shall be deemed guilty of extortion, and shall forfeit and pay to the State of Texas a sum not less than one hundred nor more than five thousand dollars.

[Acts 1925, S.B. 84.]

**Art. 6474. "Unjust Discrimination"**

Unjust discrimination is hereby prohibited and the following acts or either of them shall constitute unjust discrimination.

1. If any railroad subject hereto, directly or indirectly, or by any special rate, rebate, drawback or other device, shall charge, demand, collect or receive from any person, firm or corporation a greater or less compensation for any service rendered or to be rendered by it than it charges, demands, collects or receives from any other person, firm or corporation for doing a like and contemporaneous service, or shall give any undue or unreasonable preference or advantage to any particular person, firm or corporation, or locality, or to subject any particular description of traffic to any undue or unreasonable prejudice, delay or disadvantage in any respect whatsoever.

2. If any railroad company shall fail or refuse, under regulations prescribed by the Commission, to receive and transport without delay or discrimination the passengers, tonnage and cars, loaded or empty, of any connecting line of railroad, and every railroad which shall, under such regulations as the Commission may prescribe, fail or refuse to transport and deliver without delay or discrimination any passengers, tonnage or cars, loaded or empty, destined to any point on or over the line of any connecting line of railroad; provided perishable freights of all kinds and live stock shall have precedence of shipment.

3. If any railroad company shall charge or receive any greater compensation in the aggregate for the transportation of like kind of property or passengers for the shorter line than for a longer distance over

the same line; provided, that upon application to the Commission any railroad may in special cases, to prevent manifest injury, be authorized by the Commission to charge less for longer than for shorter distances for transporting persons and property, and the Commission shall, from time to time, prescribe the extent to which such designated railroad may be relieved from the operation of this provision. No injustice shall be imposed upon any citizen at intermediate points. Nothing herein shall be so construed as to prevent the commission from making what are known as "group rates" on any line or lines of railroad in this State.

4. **Penalty.**—Any railroad company guilty of unjust discrimination as hereinbefore defined shall for each offense pay to the State of Texas a penalty of not less than five hundred dollars nor more than five thousand dollars.

5. **Exceptions.**—Nothing herein shall prevent the carriage, storage or handling of freight free or at reduced rates, or to prevent railroads from giving free transportation or reduced transportation under such circumstances and to such persons as the law of this State may permit or allow.

[Acts 1925, S.B. 84.]

**Art. 6475. Damages**

If any railroad subject to this title shall do, cause or permit to be done any matter, act or thing prohibited or declared to be unlawful, or shall omit to do any act, matter or thing herein required to be done by it, such railroad shall be liable to the person or persons, firm or corporation injured thereby for the damages sustained in consequence of such violation.

[Acts 1925, S.B. 84; Acts 1951, 52nd Leg., p. 778, ch. 430, § 1.]

**Art. 6476. Penalty Not Otherwise Provided**

If any railway company doing business in this State shall violate any provision of this title, or shall do any act herein prohibited, or shall fail or refuse to perform any duty enjoined upon it for which a penalty has not been provided by law or shall fail, neglect or refuse to obey any lawful requirement, order, judgment or decree made by the Commission, for every such act of violation it shall pay to the State of Texas a penalty of not more than five thousand dollars.

[Acts 1925, S.B. 84.]

**Art. 6477. Suits for Penalty**

All of the penalties herein provided, except as provided in Article 6475, recoverable by the State shall be recovered and suits thereon shall be brought by the Attorney General or under his direction in the name of the State of Texas, in Travis County, or in any county into or through which such railroad may run; and the attorney bringing such suit shall receive a fee to be paid by the State of fifty dollars for

each penalty recovered and collected by him, and ten per cent of the amount collected. In all suits arising under this chapter, the rules of evidence shall be the same as in ordinary civil actions, except as otherwise herein provided. All fines and penalties recovered by the State under this chapter shall be paid into the State Treasury; provided suits brought under Title 66 for recovery of penalties, may be brought in any county:

1. Where an act violative of any provision thereof is committed.

2. Where such company or receiver has an agent or representative.

3. Where the principal office of such company is situated, or such receiver or receivers, or either, reside. One-half of all moneys collected under the provisions of said title, less the commission and expenses allowed by law, shall be paid into the State Treasury; the remainder thereof shall be paid into the treasury of the county where such suit or suits may be maintained and constitute a part of the jury fund of such county.

[Acts 1925, S.B. 84.]

#### Art. 6478. Evidence

Upon application of any person, the Commission shall furnish certified copies of any classification, rates, rules, regulations, or orders, and such certified copies, or printed copies published by authority of the Commission shall be admissible in evidence in any suit and sufficient to establish the fact that any charge, rate, rule, order, or classification therein contained and which may be an issue in the trial, is the official act of the Commission. A substantial compliance with the requirements of this chapter shall be sufficient to give effect to all the classifications, rates, charges, rules, regulations, requirements and orders made and established by the Commission, and none of them shall be declared inoperative for any omission of a technical matter in the performance of such act.

[Acts 1925, S.B. 84.]

#### Art. 6478a. Reception in Evidence of Schedules, Classifications and Tariffs of Rates, Fares and Charges

Printed copies of schedules, classifications and tariffs of rates, fares and charges, and supplements thereto, filed with the Interstate Commerce Commission or the Railroad Commission of Texas, which show respectively an Interstate Commerce Commission number, which may be stated in abbreviated form as I. C. C. No. \_\_\_\_\_, and an effective date, or which show respectively a Railroad Commission of Texas number, which may be stated in abbreviated form as R. C. T. No. \_\_\_\_\_, and an effective date, may be received in evidence without certification and shall be presumed to be correct copies of the original schedules, classifications, tariffs and supplements on file

with the Interstate Commerce Commission or on file with the Railroad Commission of Texas. [Acts 1959, 56th Leg., p. 218, ch. 127, § 1.]

#### Art. 6479. Power of Commission to Relax Requirement as to Number of Passenger Trains; Hearing; Stopping at County Seats; Electric and Motor Cars

The terms "road," "railroad," "railroad companies," and "railroad corporations," as used herein, shall be taken to mean and embrace all corporations, companies, individuals and associations of individuals, their lessees or receivers, appointed by any court whatsoever, that may now or hereafter own, operate, manage or control any railroad, or part of a railroad, in this State, and all such corporations, companies and associations of individuals, their lessees or receivers, as shall do the business of common carriers on any railroad in this State.

1. The provisions of this chapter shall be construed to apply to and affect only the transportation of passengers, freight and cars between points within this State; and this chapter shall not apply to street railways nor suburban or belt lines of railways in or near cities and towns, but shall apply to the transportation of passengers and freight by electric or gasoline motor cars over steam railroads subject to this Act.

2. It shall be the duty of the Commission to see that upon each railroad in this State carrying passengers for hire there shall be run at least one train each day, Sundays excepted, upon which passengers shall be hauled; provided, however, the Commission may, in its discretion, upon application filed and after notice and hearing, relax such requirement as to any railroad, or part, portion or branch thereof, when, in its opinion, public convenience permits of such relaxation, and shall relax such requirement when it appears upon such hearing that the running of one train each day, Sundays excepted, is not necessary in the rendition of adequate service to the public, or that on any railroad, or part, or portion or branch thereof, passenger service as frequent as one train each day, Sundays excepted, with the passenger traffic offered and reasonably to be expected, does not and will not pay the cost of such service plus a reasonable return upon the property employed in the rendition of such service; and Commission shall further regulate passenger train service so as to require the stoppage of such trains, for a time sufficient to receive and let off passengers, at such stations as may be designated by the Commission; and it may further prescribe the number of trains so operated each day which shall be required to stop at County seat stations; and if such railroad, or branch of same shall operate a gasoline or electric motor car over its line, carrying passengers for hire in this

State, such motor car shall be deemed a train within the meaning of this Article and shall be subject to and included within the provisions hereof.

[Acts 1925, S.B. 84; Acts 1927, 40th Leg., p. 283, ch. 198; Acts 1933, 43rd Leg., p. 281, ch. 111.]

**Art. 6479a. Frequency of Freight Train Service; Powers of Commission; Hearing; Certificate; Furnishing Cars**

Every railroad company, receiver, trustee, lessee, agent or other person, company or association operating any line of railroad in this State shall be and hereby is required to furnish freight train service at intervals sufficiently frequent to meet the reasonable necessities of the freight traffic offered for transportation over such line of railroad. If the Railroad Commission of Texas, on application and after notice and hearing shall find that on any line of railroad in this State, or part, portion or branch thereof, the convenience of the public does not require the furnishing of freight train service at more frequent intervals than a specified number of trains each week, it shall certify such finding to said applicant, and until such certificate, after notice and hearing, shall have been modified or revoked, it shall be conclusively presumed that freight train service of the frequency specified in such certificate over the railroad, or part, portion or branch thereof, described in such certificate is fully adequate to discharge the public duty of the person, firm or corporation operating such railroad, and such person, firm or corporation shall not be subject to any penalties or liabilities whatsoever for failing to operate or furnish freight train service in excess of that specified in that certificate. The time within which cars may be required to be furnished for loading under any of the laws of this State shall, on the railroad, or part, or portion or branch thereof, specified in any such certificate, be extended and enlarged, in case any such certificate, be made, by multiplying the maximum number of days otherwise allowed by a fraction whose numerator shall be seven and whose denominator shall be the number of trains in any one direction which may be specified in such certificate as the maximum required in any one week.

[Acts 1933, 43rd Leg., p. 280, ch. 110.]

**Art. 6480. Law Cumulative**

Any provision of this title which may be inconsistent or in conflict with Title 66 shall be void and inoperative, but to that extent only. The provisions of any foregoing article of this title shall not have the effect to release or waive any right of action by the State, or any person, for any right, penalty or forfeiture which may have arisen or may hereafter arise under any law of this State; and all penalties accruing under this title shall be cumulative of each other, and a suit for or recovery of one shall not be a bar to the recovery of any other penalty.

[Acts 1925, S.B. 84.]

**Art. 6481. Railroad to Furnish Cars**

When any person, firm or corporation, desiring to ship any freight of any kind shall make written application to any superintendent, agent, or other person in charge of transportation, to any railway company, receiver or trustee operating a line of railway at the point the cars are desired upon which to ship any freight, it shall be the duty of such railroad company, receiver, trustee, or other person in charge thereof, to supply the number of cars so required, at the point indicated in the application, within a reasonable time thereafter, not to exceed six days from the receipt of such application, and shall supply such cars to the persons so applying therefor, in the order in which such applications are made, without giving preference to any person. If the application be for twelve cars or less, the same shall be furnished in three days; and provided further, that, if the application be for fifty cars or more, the railway company may have ten full days in which to supply the cars. Said application for cars shall state the number of cars desired, the place at which they are desired, and the time they are desired. The place designated shall be at some station or switch on the railroad.

[Acts 1925, S.B. 84.]

**Art. 6482. Penalty**

A railway company failing to furnish cars applied for under the provisions of this chapter shall forfeit to the party or parties so applying for them the sum of twenty-five dollars per day for each car failed to be furnished, and all actual damages that such applicant may sustain.

[Acts 1925, S.B. 84.]

**Art. 6483. Deposit**

Such applicant shall deposit with such agent, superintendent or other person one-fourth of the amount of freight charges for the use of such cars, and shall load said cars within forty-eight hours after they have been duly delivered; and upon failure to do so, he shall forfeit and pay to the company the sum of twenty-five dollars for each car not used. Where applications are made on several days, all of which are filed upon the same day, the applicant shall have forty-eight hours to load the car or cars furnished on the first application, and the next forty-eight hours to load the car or cars furnished on the next application, and so on; Sundays shall not be included in computing the time. The penalty prescribed shall not accrue to any car or lot of cars applied for any one day, until the period within which they may be loaded has expired. If the said applicant shall not use such cars so ordered by him, and shall notify said company or its agent, he shall forfeit and pay to the said railroad company, in addition to the penalty herein prescribed, the actual damages that such company may sustain by the failure to use said cars.

[Acts 1925, S.B. 84.]

**Art. 6484. To Deliver Loaded Cars**

When cars have been supplied and loaded, the railway company shall deliver them to the consignee within a reasonable time; and the consignee shall unload the same within forty-eight hours after delivery and notice, Sundays excepted, or forfeit and pay to the company the sum of twenty-five dollars per day for each car not so unloaded.

[Acts 1925, S.B. 84.]

**Art. 6485. Proof Necessary**

Parties bringing suit against a railroad company under the provisions of this law shall show that such cars if furnished, would have been loaded within the time specified by this law. The provisions of this law shall not apply in cases of strikes or public calamity.

[Acts 1925, S.B. 84.]

**Art. 6486. Not to Affect Demurrage Regulations**

The provisions of this law shall not forfeit or annul the demurrage regulations provided by the Commission, and all penalties accruing to the carrier hereunder shall be cumulative of and additional to all demurrage charges prescribed by said Commission.

[Acts 1925, S.B. 84.]

**Art. 6487. Duty to Furnish Cars**

Each railroad company incorporated under the laws of this State and doing business in this State, under the limitations and regulations prescribed by the Commission, shall equip and provide sufficient motive power and rolling stock to handle all passenger and freight traffic expeditiously and without delay.

[Acts 1925, S.B. 84.]

**Art. 6488. Commission to Require Mortgage**

The Commission shall require each railroad corporation chartered under the laws of this State, holding itself out as a common carrier, to provide and equip itself with sufficient motive power and rolling stock, or other equipment necessary, to handle all passenger and freight traffic, expeditiously and without delay, and it is vested with full power to require of such common carriers the purchase of such rolling stock and motive power as will properly equip such common carrier, and facilitate the movement of all traffic, passenger and freight, and that will supply transportation accommodations which it offers to perform as an inducement to the public to travel or ship via the lines of such railroad company, or common carrier. The Commission is authorized and empowered to approve liens or mortgages that may be given by such railroad companies and common carriers to secure the purchase or lease price of any equipment or motive power which may be deemed by the Commission necessary for the proper discharge of its duty as a common carrier. If in the judgment of the Commission any railroad company in this State which now has an excessive issue of bonds and

stocks outstanding, has not sufficient passenger and freight equipment and motive power to handle the passenger and freight business of such common carrier and railroad company, the Commission after not less than five days' notice and hearing shall issue an order requiring the purchase of such rolling stock as in the judgment and discretion of the Commission may be deemed necessary for the prompt, expeditious and comfortable transportation of freight and passengers over the line of such railroad company and common carrier; and in such case, the Commission is authorized to approve contracts or liens for the purpose of securing the purchase or lease price of such rolling stock, motive power and equipment.

[Acts 1925, S.B. 84.]

**Art. 6489. Penalty**

Any railroad company or common carrier failing to comply with any provision of the two preceding articles, or to obey the orders of the Railroad Commission, made in pursuance of any provision thereof, shall be deemed guilty of an abuse of their rights and privileges, and, shall be subject to a penalty of one hundred dollars payable to the State of Texas. Each day that such railroad company or common carrier neglects, fails or refuses to comply with such orders shall constitute a separate offense.

[Acts 1925, S.B. 84.]

**Art. 6490. Facilities, Interchange Cars, etc.**

Every railroad company operating a line of railroad within this State shall provide sufficient tracks, switches, sidings, yards, depots, motive power, cars and all other needful facilities and appliances, for receiving and delivering freight, to enable it with reasonable dispatch to perform all of its duties as to all traffic which with ordinary foresight and diligence could be anticipated, as a common carrier; and furnish all necessary and suitable cars and vehicles of transportation for all freight offered or tendered to it for shipment within a reasonable time after demand therefor made by a shipper; and supply within a reasonable time, at its station or stations, spurs, sidings, switches, or other places, at which it receives freight for transportation, and from which such shipper gives notice to such railway company that he desires to ship such freight at the time designated by the shipper, where it is within reasonable time, sufficient suitable cars within which to load the same; and as to all services to be performed within the limits of the State, as to such freight and cars shall transport same within a reasonable time to destination, when destined to a point upon the line of such railway receiving such freight, and, if destined to a point beyond the line of such railroad, then transport and deliver within a reasonable time such freight in such loaded car or cars to the connecting carrier forming any part of the route over which such shipment is made, for the purpose of transportation by such connecting carrier on to the destination of such freight, or for delivery by it to

the connecting line or lines forming any part of the route over which same is to be transported to its ultimate destination; and each connecting line of railroad engaged in such transportation, as to all such service to be performed, as to all such freight and cars in which the same is carried within this State shall receive and transport within a reasonable time such loaded car or cars tendered to it, if in suitable condition for movement, and deliver the same at destination thereof, if destined to a point upon its line of railroad, and, if destined to a point beyond its line of railroad, then to its connecting carrier forming any part of the route over which such car or cars are to be transported, subject to the same duties and obligations as if such freight had originated upon such line of railroad. Where such freight forms less than a carload, or where it may be necessary to unload the same because of any accident or injury thereto, or to the car in which the same is being transported, or where such freight is unloaded at the request of the shipper en route, or where by reason of any accident or unavoidable cause, or in order to comply with any law or regulation provided by law, such freight is unloaded, or it is reasonably necessary to do so, or where it is for any other reason necessary to unload such freight in order to forward, or before it can be forwarded, in any such cases, where suitable cars may be supplied, and when the freight is carried wholly within this State, the Commission shall make all needful rules and regulations for unloading cars at junction points, or otherwise forwarding cars, furnishing cars for forwarding or reloading and the exchange of cars and forwarding of such freight in the same or other cars. Whenever by reason of any accidental or unavoidable cause which cannot be provided against by the use of reasonable foresight or diligence, such railroad company fails to so furnish cars and shall use reasonable diligence to do so promptly after the happening of such accidental or unavoidable cause, it shall not, on account of such failure, be liable to the penalties of attorney's fees or as otherwise herein prescribed. But nothing in this article shall in anyway affect the right or remedy of any shipper or other person as same may exist at common law or under any statute to recover on account of the failure, delay, or refusal to furnish cars for transportation of any freight, or other failure to perform any other legal duty, nor to in any wise exempt any such railroad company from any provision of the statutes of this State, or other duties imposed by law.

[Acts 1925, S.B. 84.]

#### Art. 6491. To Interchange Cars at Junction Points

To facilitate the movement, preservation and exchange of freight, every railroad company in this State, whose line of railroad connects with the line of any other railroad company in this State, shall exchange at such connecting or junction points, the loaded and empty cars

used in or for transportation of freight carried upon such lines of railroad forming any part of the route over which said freight is carried or to be carried; and a railroad company forming any part of the through or joint route over which any freight is carried or to be carried, or having or participating in the joint rates on which such freight is carried or to be carried, on demand of any such connecting line delivering to it any such loaded car or cars of freight at junction points within this State shall furnish to such delivery line within a reasonable time after such loaded cars are so received, at such junction point in this State, as many cars suitable for the carriage or transportation of similar freight as may be so delivered to it loaded, by such connecting line; and upon the demand of the owner thereof, or the railroad company entitled thereto, or to the use thereof, every such railroad company so receiving the cars of another shall return the same at the place where they were received, or at such place as may be by said railroads agreed upon, within a reasonable time after demand thereof; and as to cars exchanged in transporting freight wholly within this State within the time and according to the rules and regulations prescribed by the Commission.

[Acts 1925, S.B. 84.]

#### Art. 6492. Commission to Make Rules

As to all freight carried wholly within this State and the cars used therefor, the Commission shall make and establish all needful rules and regulations, general and special, which may be different according to the circumstances and conditions to different railroads and localities and for different kinds and classes of freight and cars, providing for the time, place and manner of demanding cars for or giving notice of shipment of such freight and the time, place, manner and order in which the same shall be furnished to shippers for the purpose of shipping freight between points in this State; and prescribe rules and regulations for the furnishing, exchanging and interchanging of cars, loaded and empty, by railroad companies as between each other; the time, place, terms and conditions upon which such cars shall be furnished and such interchange shall be made, and in the absence of an agreement of such railroad companies, the reasonable compensation to be paid by each railroad company for the use, loss, injury or destruction of the cars of another railroad company in the transportation of such freight; the time within which, and the manner by which railroad companies shall give notice or make demand upon each other for cars to be furnished by one railroad company in exchange for loaded cars, or to have its cars returned, the reasonable free time to be allowed the shippers for the loading of such car or cars without incurring liability for demurrage; the free time which shall be allowed to the shipper or consignee in which to unload such freight without incurring any liability for demurrage; a schedule of reasonable demurrage charges, reciprocal or otherwise, for

the use of cars, irrespective of damages or penalties herein provided, which may be different for different railroads and different traffic and localities, to be paid by shippers for the detention or use of cars either in loading or unloading, or by the railroads for failing in a reasonable time to furnish cars, or to make delivery of loaded cars, subject to the penalties and damages herein provided, and the rules and regulations with respect thereto. Said Commission, whenever it may deem same necessary in order to secure the prompt transportation of freight and preservation of the property, shall be authorized to prescribe the minimum speed at which freight shall be moved when being transported between points within this State, including the time for transfer and delivery as between connecting railroads. Every such railway company shall conform to each rule, regulation and order of the Commission made in accordance with the two preceding and three succeeding articles; and failure to observe the rules and regulations of the Commission, or to comply with the provisions of this law, as to freight carried wholly within this State, shall be deemed an abuse subject to correction by the Commission, and shall subject such railroad company to the penalties hereinafter provided.

[Acts 1925, S.B. 84.]

#### Art. 6493. Liable for Damages, When

Every railroad company which shall fail to furnish cars as provided herein for the shipment of freight within a reasonable time, or in case of the shipment of freight between points within this State, within the time prescribed by the Commission, or shall fail to receive and forward any loaded car or cars or to exchange cars as provided herein, shall be liable to the shipper or other person injured or damaged thereby for all such injury or damages as may result to such shipper, and all special damages of which such railroad company had notice at the time of the shipment, or which shall occur after written notice thereof, and shall be liable in addition thereto for an amount equal to a reasonable attorney's fee in case suit is brought for the recovery of such damage. If any railroad company in this State shall fail or refuse to furnish within a reasonable time after demand therefor, any car or cars for the shipment of live stock, green fruit, vegetables or other perishable freight, such railroad company shall be liable to the shipper for the damage caused thereby, and a reasonable attorney's fee in case of suit to recover the same. Any railroad company which shall fail to furnish or exchange cars as required by the provisions of this law, or by the rules and regulations of the Commission as provided for herein, shall be liable to the railroad company injured thereby for all such damages as may result to it, and in addition thereto an amount equal to a reasonable attorney's fee in case suit is brought for the recovery of any damage. Every railroad company using cars of another railroad compa-

ny, or which have been delivered to it by such railroad company, shall be liable to pay to the party entitled thereto the value of the reasonable use and hire thereof, and for injury or damage thereto, or destruction thereof, while in its possession or under its control, for the amount of such injury; and, in case of cars in the shipment of freight between points wholly within this State, the amount for the use or hire thereof may be prescribed by the Commission, unless the owners of such cars and such railroad companies agree upon such compensation. Where any such railroad company, or owner of any such car or cars, shall be dissatisfied with the amount fixed by the Commission for such use, hire, loss or destruction, or damage to such car, or where the railroad company liable therefor shall fail to pay for the same, the Commission or person entitled thereto, or which is liable for the use, hire, loss, injury or destruction of such cars, shall be entitled to establish the reasonable value thereof by suit.

[Acts 1925, S.B. 84.]

#### Art. 6494. Not to Furnish Cars, When

No railroad company shall be compelled to furnish its own cars to any other railroad company which is involved, except upon reasonable security furnished to it to protect it from loss of or damages to or destruction of such cars and compensation for the use thereof, and in no event shall any railroad company be required to furnish any cars to any connecting line, except to exchange for other cars reasonably suitable for the transportation of freight.

[Acts 1925, S.B. 84.]

#### Art. 6495. Other Penalty

A railroad company which shall willfully, by its gross negligence, or by the gross negligence of its agents having charge and management of the matter of furnishing cars, fail or refuse to furnish or exchange cars as herein provided for, or to transport or deliver the same within the time prescribed by the Commission, as to freight carried between points wholly within this State, or if not so prescribed, then within a reasonable time, shall in addition to the other liabilities herein provided for, forfeit to the State of Texas, for each of such violations, not less than one nor more than one hundred dollars for each offense; and each day of such failure or neglect as to each car which it, by such willful or gross negligence, shall fail or refuse to furnish or exchange shall be a separate offense.

[Acts 1925, S.B. 84.]

#### Art. 6496. "Shipper"

By the term "shipper" as herein used, is meant any person, firm or corporation tendering freight for shipment, and any consignor or consignee of any bill of lading, or other person, firm or corporation having the right of consignor or consignee.

[Acts 1925, S.B. 84.]

**Art. 6497. "Reasonable Time"**

It shall be deemed prima facie a reasonable time within which to order cars that any shipper shall give written notice thereof to the station agent at the place of shipment, or in his absence, to the nearest station agent of the railroad company to which such application is made, three days before such shipment of five cars or less, and five days for less than ten or more than five cars, and eight days for ten cars or more. The railroad companies shall furnish their station agents with printed blanks upon which shippers make application for their cars. Nothing in this and the five preceding articles shall be construed to exempt any railroad company from the obligation to furnish cars for shipment without such written notice, but it shall only be subject to the penalties of this law for failure to furnish cars to shippers where notice thereof shall be given in writing, or in case of shipment of freight wholly between points in this State, then in accordance with the rules and regulations of the Commission.

[Acts 1925, S.B. 84.]

**Art. 6498. Suitable Depots**

They shall keep and maintain apartments in such depot buildings for the use of passengers, and keep and maintain adequate and suitable freight depots and buildings for receiving, handling, storing and delivering of all freight handled by such roads, and the Commission shall require railroad companies to comply fully with the provisions of this law under such regulations as said Commission may deem reasonable.

**Art. 6499. Union Depots**

Where two or more railroad companies reach the same city or town in this State, if the Commission shall deem it practicable for such railroad companies to use a joint or union passenger depot or to join in the construction and use of a passenger depot, then it shall give notice to such railroad companies and after investigation and public hearing, may require the construction and maintenance of such union passenger depot by such railroad companies, if it appears to the Commission that the construction and maintenance of such union passenger depot are just and reasonable to the railroad companies involved, and demanded by the public interest. The Commission may specify the requirements of such union depot as to kind and character and may apportion the cost of construction and maintaining the same to each

railroad company where the companies cannot agree.

[Acts 1925, S.B. 84.]

**Art. 6500. Penalty for Failure**

Failure upon the part of any railroad company to observe and obey the orders of the Railroad Commission, issued in compliance with the two preceding articles shall subject such railroad company to the fines and penalties prescribed by law for failure to obey the lawful requirements, order, judgments and decrees made by the Commission.

[Acts 1925, S.B. 84.]

**Art. 6501. Right to Lease Another Road**

A railroad whose total mileage in this State does not exceed thirty miles in length, which connects at or near the State line with any other railroad, may be leased by the company owning such other railroad, subject to the following provisions:

1. Such lease shall be made on such terms and for such time, not exceeding ten years, as may be approved by the Commission. At any time before or after its expiration the lease may be renewed or another executed subject to the provisions and limitations of this title.

2. During the term of such lease the lessor company shall remain subject to the jurisdiction of the Commission, and shall be liable for any and all things occurring on or in connection with such road. The lease shall not operate to exempt or release either the lessor or lessee company from any liability that would otherwise exist against it.

3. The lessee company shall be exempted from the laws of this State requiring general offices to be maintained and general officers to reside in this State, except as required by provisions of the Constitution of this State and by the orders of the Commission.

4. In a suit against the lessor company the officers and agents of the lessee company shall be the officers and agents of the lessor company for the purpose of serving process.

The provisions of this article shall not apply to any railroad whose total mileage in this State may exceed thirty miles in length, although the part of its line connecting at or near the State line does not exceed thirty miles in length.

[Acts 1925, S.B. 84.]

**Art. 6502. Railroad Crossings**

Any company, corporation or receiver or person operating any railroad in this State shall forfeit and pay to the State of Texas a penal sum of five hundred dollars per week for each week of refusal or neglect to comply with any order made by the Commission in pursuance of the following provisions of this article:

1. When necessary for the track of one railroad company to cross the track of another, the Commission shall ascertain and define by its decree the mode of such crossings which will occasion the least probable injury upon the rights of the company owning the road to be crossed; and, if the Commission decides that it is reasonably practicable to avoid a grade crossing, said Commission shall by its order prevent the same.

2. Where the tracks of two or more railways cross each other at a common grade in this State, such railroad companies shall protect such crossing by interlocking or other safety devices and regulations to be designated by the Commission, to prevent trains colliding at such crossings.

3. When a railway company seeks to cross, at grades with its track or tracks, the track or tracks of another railroad, the one seeking to cross at grade shall be compelled to interlock, or protect such crossings by safety devices to be designated by the Commission, and to pay all cost of appliances together with the expense of putting them in. This law shall not apply to crossings of side tracks.

4. When interlocking or other safety devices are constructed and maintained in good order to the satisfaction of the Commission, the engines and trains of such railroads may pass over such crossings, without stopping.

[Acts 1925, S.B. 84.]

#### Art. 6503. Double-Header Trains

Where an unreasonable degree of hazards results to its employés, it is hereby declared to be an abuse of its franchise and privileges for any railroad company, or receiver, operating a line of railroad in this State to run or operate more than one working locomotive at the same time in propelling or moving any one train of cars, except in moving trains up steep grades, or where a locomotive propelling the train becomes temporarily disabled after leaving the terminal; the Railroad Commission shall investigate such abuses and see that the same are corrected, regulated or prohibited as hereinafter provided:

[Acts 1925, S.B. 84.]

#### Art. 6504. Use Regulated by Commission

Should the Commission decide to regulate or forbid the practice of using more than one working locomotive at the same time in the operation of any train on any railroad, or part of railroad, within this State, then it shall make and record an order fully setting forth its decision and clearly designating the railroad, or part of railroad, on which such practice is forbidden or regulated and how regulated. Notice of such order shall be served upon said railroad affected by it. Said notice shall contain in full a copy of said order, and shall be di-

Said officer executing said writ shall make his return on the original, and deliver the same with his return forthwith to the Commission.

[Acts 1925, S.B. 84.]

The Commission is vested with full power to require any railroad company to purchase or secure for installation in its roadbed or track all ties, rails, ballast and other material and equipment as may, in the judgment of the Commission, be necessary for the proper maintenance of the whole or any designated portion of such track and roadbed so as to put the same in safe condition and enable such railroad to adequately perform its duties to the public and to transport freight and passengers with safety and dispatch.

[Acts 1925, S.B. 84.]

#### Art. 6507. Penalty for Failure to Comply

When the Commission has made such order as authorized by the preceding article, each railroad company subject thereto shall promptly comply with the terms thereof, and for failure or refusal to do so, such company or its receiver shall become liable to the State of Texas, for a penalty of not less than five hundred nor more than five thousand dollars for each offense. In addition to such penalties, any court of competent jurisdiction upon application of the Attorney General shall issue writs of mandamus and mandatory injunctions and other proper writs to compel the compliance with such orders.

[Acts 1925, S.B. 84.]

#### Art. 6508. Improvement Bonds

When the Commission shall make an order as authorized by the provisions hereof for the improvement of any line of railway, it may in its discretion at the same time make an order permitting said railroad corporation to issue bond sufficient to raise the money necessary to

make such improvements; and authorize such railroad corporation to secure the same by proper mortgage upon its property, and designate such bonds and mortgages as "Improvement Bonds and Mortgages;" provided, the entire amount of bonds of said railroad company shall not exceed the assets of the said company. The Commission shall also see that the funds arising from the sale of such bonds are applied to the making of the improvements ordered by it to be made, and shall regulate the same in the proper manner and any sale of such "Improvement Bonds and Mortgages" at less than par value thereof, must in order to be valid, be approved by the Commission.

[Acts 1925, S.B. 84.]

[Acts 1925, S.B. 84.]

#### Art. 6511. Switch Connections

Any railroad company or receiver upon application of a shipper tendering traffic for transportation sufficient to justify it, shall construct, maintain and operate upon reasonable terms, a switch connection with any private sidetrack or spur track constructed by such shipper, to connect with its railroad where such connection is reasonably practicable and can be put in with safety and will furnish sufficient business to justify the construction and maintenance of the same; and shall furnish cars for the movement of such traffic to the best of its ability and without discrimination in favor of or against such shipper.

[Acts 1925, S.B. 84.]

#### Art. 6512. Application

The Commission shall fix just and reasonable rates to be charged by railroad companies or their receivers for traffic moved and handled over private sidetracks or spur tracks extending to private industries, and it shall adopt such rates, rules, and regulations as will prevent any discrimination in the operation of such tracks or the handling of such traffic. Whenever any railway company or receiver thereof shall operate any private sidetrack or spur track without charge, the Commission shall have authority to compel the operation without charge of any private sidetrack or spurtrack similarly situated.

[Acts 1925, S.B. 84.]

#### Art. 6514. To Regulate Private Sidetracks, etc.

The Commission shall prescribe reasonable rates, rules and regulations for the operation of all private sidetracks or spur tracks constructed either by the railroad companies themselves or by individuals or corporate interests, or jointly by such railroads and individuals or corporations, when such private sidetracks or spur tracks are operated by railroad companies or the receivers thereof; and shall have power and authority to order and compel the operation of said private sidetracks or spur tracks whenever the railway company or receiver thereof is operating other private side tracks or spur tracks similarly situated, to prevent discrimination therein.

[Acts 1925, S.B. 84.]

#### Art. 6515. No Discrimination

In said application, it shall exhibit to the Commission its contract with the construction company, if it have any, the profile of its completed road or part of road, the evidence of its right of way, depot grounds, terminal facilities, the extent and value of work done or in the process of completion, the amount of property received, the amount of stock subscribed and the amount paid in, and all other necessary facts showing the value of the franchise and property proposed as security for said contemplated debts. If on investigation, the Commission is satisfied that the company is acting in good faith, and that its contract with the construction company is reasonable and fair to the public, then it shall authorize the execution of said indebtedness and a lien to the extent necessary for the demands of the work, at no time to be fifty per cent over the value of the whole property and franchises. In executing said bonds, the company shall comply with Article 6526, and have them registered as required in Article 6527.

Such statement shall thereupon be entered at large upon the minutes, and, after having the seal of the company affixed thereto, shall be attested by the secretary of the company, and deposited with the Commission, and by it filed and preserved in its office. The secretary of the company shall then be authorized to make out and deliver to each stockholder in said list a certificate corresponding with said statement in number, name, number of shares, amount of stock represented by each share, and the amount of money or its equivalent paid upon each share; which certificate shall be signed by the president of the said railroad company, attested by the secretary, with the seal of said company affixed. When the certificates to be issued are for increase of stock, the statement herein required to be made by the board of directors shall state that all existing shares of stock have been paid in full, or that all shares not paid in full have been sold out or forfeited under the law. In no event shall the stock exceed the value of the railway property, and the correct aggregate amount of stock so issued by each railway company shall be certified to and registered in the office of the Secretary of State by or at the instance of the Commission.

[Acts 1925, S.B. 84.]

Each bond shall be numbered, beginning with number one, or the next highest number of any preceding bond issued by it, and continue consecutively until all are numbered. The bonds shall be dated, made payable at a time not exceeding thirty years from date and shall bear interest not exceeding six per cent per annum. Said bonds, when thus prepared, shall be presented to the Commission, with a written statement, signed and sworn to by the president of said company, showing the amount of the stock of said company and the amount of outstanding bonds, if any, of said company. If said bonds are such as are permitted under this law, and the Commission shall be so satisfied, it shall approve said bonds, and shall issue to the Secretary of State a direction to register said bonds, specifying the numbers, dates, and amounts thereof.

Said Commission shall keep in its office a correct record of the bonds so approved by it, giving the name of the company, the numbers, dates of execution and maturity of the bonds, the amount and rate of interest of each, and the date of approval. This provision shall not apply to receiver's certificates where the amount does not exceed one hundred thousand dollars.

[Acts 1925, S.B. 84.]

(b) The Commission shall issue to each licensee a license in such form and size as shall be prescribed by the Commission. This license shall show the name and address of the licensee, and in case of a Real Estate Salesman's license, shall show the name of the Real Estate Broker by whom he is employed. Each license shall have imprinted thereon the seal of the State of Texas, and in addition to the foregoing shall contain such matter as shall be prescribed by the Commission. The license of each Real Estate Salesman shall be delivered or mailed to the Real Estate Broker by whom such Real Estate Salesman may be employed and shall be kept under the custody and control of such Broker.

(c) The Commission shall prepare and deliver to each licensee a pocket card, which card, among other things, shall contain an imprint of the seal of the State of Texas, and shall certify that the person whose name appears thereon is a licensed Real Estate Broker or Real Estate Salesman, as the case may be; and if it is a Real Estate Salesman's card, it shall also contain the name and address of his employer; the matter to be printed on such pocket card except as above set forth, shall be prescribed by the Commission.

#### Place of Business

Sec. 13. (a) Every Real Estate Dealer licensed under this Act shall have and maintain a definite place of business in this State, and such place of business may be in a portion of licensee's home set aside for said purpose. The license of the Real Estate Broker shall at all times be prominently displayed in licensee's place of business and a duplicate of said license shall likewise be prominently displayed in all branch offices of the licensee. The said place of business shall be specified in the application for license and designated in the license. However, such place of business shall not be in violation of any local laws or deed restrictions which shall be determined by the applicant.

(b) All Real Estate Brokers shall also prominently display in their place or places of business the licenses of all Real Estate Salesmen employed by them therein or in connection therewith. All licenses issued to Real Estate Salesmen shall designate the employer of said Salesmen by name.

(c) Upon change of address of any Broker from that shown in any license held by him or his Salesmen, the Broker shall immediately return such licenses to the Commission together with a fee of Two (\$2.00) Dollars for each license, and the Commission shall issue new licenses for the unexpired term of the returned licenses showing the new address as designated by the Broker.

#### Change of Employer by Salesman

Sec. 14. Prompt notice in writing within ten (10) days shall be given to the Commission by any Real Estate Salesman of his change of employer and the name of the new employer into whose service he is about to enter or has entered, and a new license will thereupon be issued by the Commission to such Salesman for the unexpired term of the original license; provided, that such new employer shall be a duly licensed Real Estate Broker. The Real Estate Broker shall at the time of mailing such Real Estate Salesman's license to the Commission, notify the Salesman thereof at the address of such Real Estate Salesman that this license has been mailed or delivered to the Commission. A copy of such communication to the Real Estate Salesman shall accompany the license when mailed or delivered to the Commission. It shall be unlawful for any Real Estate Salesman to perform any of the acts con-

templated by this Act, either directly or indirectly, under the authority of said license and after the date of receipt of said license from said Broker by the Commission; provided, that another license shall not be issued to such Real Estate Salesman until he has returned his former pocket card to the Commission or shall satisfactorily account to the Commission for the same; provided further, that not more than one license shall be issued to any Real Estate Salesman for the same period of time. The Commission shall issue a new license to said Salesman within ten (10) days from date of receipt of the application for transfer and the payment of the transfer fee as provided for herein.

#### Hearing on Application

Sec. 15. If the Commission declines or fails to license an applicant, it shall immediately give notice of the fact to the applicant; and upon request from such applicant, filed within ten (10) days after the receipt of such notice, shall fix a time and place for hearing, of which ten (10) days notice shall be given to such applicant, and to other persons interested or protesting, to offer evidence relating to the Real Estate Broker's and/or Salesman's application. In such case the Commission shall fix the time of such hearing on a date within thirty (30) days from receipt of the request for the particular hearing, provided the time of hearing may be continued from time to time with the consent of the applicant. If satisfied as aforesaid as a result of such hearing, the Commission shall thereupon license the Real Estate Broker and/or Salesman if all other provisions of this Act shall have been met.

#### Revocation and Suspension of License

Sec. 16. The Commission may, upon its own motion, and shall, upon the verified complaint in writing of any persons, provided such complaint, or such complaint together with evidence, documentary or otherwise, presented in connection therewith shall provide reasonable cause, investigate the actions and records of any real estate broker or real estate salesman and shall have the power to suspend or revoke any license issued under the provisions of this Act at any time when it has been determined that:

rized agent, or on any terms other than those authorized by the owner or his authorized agent; or

This Section of this Act shall not be construed to relieve any person or company from civil liability or from criminal prosecution under this Act or under the laws of this State.

Upon complaint by affidavit of any credible person that any licensee under the provisions of this Act has been guilty of, or has committed any of the acts mentioned in this Section, the Commission shall, after proper investigation and verification of information contained in the complaint, notify the licensee of the filing of such complaint and the date a hearing will be had thereon. After hearing, the Commission shall enter such order as to it appears proper under the facts presented. Either party may appeal from that decision to any District Court of the County where such licensee resides, where a trial shall be had in accordance with the Texas Rules of Civil Procedure.

#### Unlawful Practice of Law

Sec. 17. Any license granted under the provisions of this Act shall be cancelled by the Commission upon proof that the licensee, not being licensed and authorized to practice law in this State, for a consideration, reward, pecuniary benefit, present or anticipated, direct or indirect, or in connection with or as a part of his employment, agency, or fiduciary relations, as licensee, draws any deed, note, deed of trust, or will, or any other written instrument that may transfer or anywise affect the title or interest in land, or advises or counsels any person as to the validity or legal sufficiency of any such instrument above mentioned, or as to the validity of title of real estate.

#### Hearings

Sec. 18. The Commission shall, before suspending or revoking any license, notify the licensee in writing of any charges made in order to afford such licensee an opportunity to be heard, which notification shall be given at least ten (10) days prior to the date set for the hearing. The Commission shall prescribe the time and place of the hearing. The Commission shall have no authority to promulgate rules or regulations which are not definitely set forth in this Act. Such written notice may be served by mailing same by registered mail to the last known business address of such li-

censee. If such licensee be a Salesman, the Commission shall also notify the Real Estate Broker employing him, specifying the charges made against such Real Estate Salesman by sending a notice thereof by registered mail to the Real Estate Broker's last known address. At such hearing, or at any other provided for in this Act, such licensee, any and all persons complaining against him, as well as any other witness whose testimony is relied upon to substantiate the charges made, shall be entitled to be present. He shall also be entitled to present evidence, oral and written, as he may see fit, and as may be pertinent to the inquiry. The said hearing may be held by the Commission, and the said hearing shall be held, if the applicant or licensee so desires, within the county where the applicant or licensee has his principal place of business. In such hearing all witnesses shall be duly sworn by the person herein authorized to preside, and stenographic notes of the proceedings shall be taken and filed as part of the records in the case. Any party to the proceedings desiring it shall be furnished with a copy of the stenographic notes upon the payment to the Commission of a fee not to exceed Fifty Cents (50¢) per page.

#### License Prerequisite to Suit for Compensation

Sec. 19. No person or company may bring or maintain any action for the collection of compensation for the performance in this State of any of the acts set out in subdivision (1) of Section 4 hereof without alleging and proving that the person or company performing the brokerage services was a duly licensed real estate broker or salesman at the time the alleged services were commenced; or was a duly licensed attorney-at-law as exempt from the provisions of this Act by Section 6.

#### Witnesses and Evidence

Sec. 20. (a) The Commission may require by subpoena or summons issued by the Commission, or any person duly authorized to act for the Commission, addressed to the sheriff or any constable, the attendance and testimony of witnesses and the production of any books, accounts, records, papers and correspondence (except such books of account as are necessary to the continued conduct of the business, which books the Commission shall have the right to examine or cause to be examined at the office of the concern, and to require copies of such portion thereof as may be deemed necessary) touching such matter in question under this Act, which copies shall be verified by affidavit of an officer of such concern and shall be admissible in evidence as provided in Section 25 hereof, relating to any matter which the Commission has authority by this Act to consider or investigate; and for this purpose the Commission, or any person duly authorized by the Commission may sign subpoenas, administer oaths and affirmations, examine witnesses and receive evidence. In case of disobedience of any subpoena or of the contumacy of any witness appearing before the Commission, the

Commission or the person duly authorized to act for it may invoke the aid of the District Court within whose jurisdiction any witness may be found and such court may thereupon issue an order requiring the person subpoenaed to obey the subpoena or give evidence or produce books, accounts, records, papers, and correspondence touching the matter in question. Any failure to obey such order of the court may be punished by such court as a contempt thereof.

(b) The Commission, or any person duly authorized by the Commission, may in any investigation cause the deposition of witnesses residing within or without the State to be taken in the manner prescribed for depositions in civil actions under the laws of Texas. Each witness required to attend any hearing provided for in this Act shall receive for each day's attendance the sum of Seven (\$7.00) Dollars and shall receive in addition the sum of Ten Cents (10¢) for each mile traveled by such witness by the usual route going to and returning from the place where his presence is required. All disbursements made in the payments of such fees shall be included in and paid in the same manner as is provided for the payment of other expenses incident to the administration and enforcement of this Act, as hereinbefore provided. The fee for serving the subpoena shall be the same as that paid the sheriff for similar services. The fees, expenses, and costs incurred at or in connection with any hearing may be imposed by the Commission upon any party to the record or may be divided between any and all parties to the record in such proportions as the Commission may determine.

#### Judicial Review

Sec. 21. (a) Any real estate broker, or real estate salesman, or any person having a justiciable interest, who is aggrieved by any decision of the Commission may file within thirty (30) days thereafter in the District Court of the county in which he resides, or in the District Court in the county where his principal place of business is situated, a petition against the Commission officially as defendant, alleging therein in brief detail the action and decision complained of and for an order directing the Commission to license or reinstate the applicant. The case shall be tried in accordance with the Texas Rules of Civil Procedure.

(b) The District Courts may, upon application of either party and upon due notice given, advance the case on the docket. From the decision of the District Court, an appeal may be taken to the Court of Civil Appeals by either party, as in other cases, and no bond shall be required of the Commission. A judgment in favor of the defendant shall not bar after one year a new application by the plaintiff for a license, nor shall a judgment in favor of the plaintiff prevent the Commission from thereafter revoking or refusing the license of such person for any proper cause which may there-

after accrue or be discovered. The court shall have full power to dispose of all costs.

#### Fees

Sec. 22. The commission shall charge and collect the following fees:

(a) A fee not to exceed Twenty Dollars (\$20.00) for the filing of any original application for real estate broker licensure.

(b) A fee not to exceed Twenty Dollars (\$20.00) for the filing of any real estate broker license renewal application.

(c) A fee of Ten Dollars (\$10.00) for the filing of an original application for real estate salesman licensure.

(d) A fee of Ten Dollars (\$10.00) for the filing of any real estate salesman license renewal application.

(e) A fee of Three Dollars (\$3.00) for a license for each additional office or place of business.

(f) A fee of Three Dollars (\$3.00) for a license for a change of place of business or change of employer.

(g) A fee of Three Dollars (\$3.00) to replace a license lost or destroyed.

(h) A fee of Two Hundred Dollars (\$200.00) for the filing of an original application for approval of a real estate brokerage course to be conducted by a privately owned school (other than an accredited institution of higher learning) pursuant to provisions of Section 10 of this Act.

(i) A fee of One Hundred Dollars (\$100.00) per annum for inspecting and renewing approval of a privately owned school (other than an accredited institution of higher learning) conducting real estate courses approved by the commission.

#### Expiration and Renewal

Sec. 23. All licenses issued under provisions of this Act shall expire at midnight on December 31st of the calendar year for which they are issued, unless previously revoked, suspended, or invalidated, and application for renewal thereof shall be made in such manner as the Commission shall prescribe. Applications for renewal of said license shall be made between the 1st day of September and the 1st day of December. Provided, however, that no applicant who has held a license during the preceding year before making application under The Real Estate License Act of Texas shall be required to take an examination unless such license was suspended, revoked, or cancelled for violation of this Act.

#### Expiration Dates of Licenses; Proration of Fees

Sec. 23A. The commission by rule may adopt a system under which licenses expire on various dates during the year. Dates for making application for license renewal shall be adjusted accordingly. For the year in which the

expiration date is changed, license fees payable on December 31 shall be prorated on a monthly basis so that each licensee shall pay only that portion of the license fee which is allocable to the number of months during which the license is valid. On renewal of the license on the new expiration date, the total license renewal fee is payable.

#### Custody and Disposition of Funds

Sec. 24. (a) Ten Dollars (\$10.00) received by the commission for the filing of broker license renewal applications and Five Dollars (\$5.00) received by the commission for the filing of real estate salesman license renewal applications shall be transmitted to Texas A & M University for deposit in a separate banking account. The money in the separate account shall be expended for the support and maintenance of the Real Estate Research Center and for carrying out the purposes, objectives, and duties of the Center.

(b) Except as provided in Subsection (a) of this section all moneys derived from fees, assessments, or charges under this Act, shall be paid by the commission into the State Treasury for safekeeping, and shall by the State Treasurer be placed in a separate fund to be available for the use of the commission in the administration of the Act upon requisition of the commission. So much of such moneys so paid into the State Treasury as is necessary is hereby specifically appropriated to the commission for the purpose of paying the salaries and expenses of all persons employed or appointed as provided herein for the administration of this Act, and all other expenses necessary and proper for the administration of this Act, including equipment and maintenance of any supplies for such offices or quarters as the commission may occupy, and necessary traveling expenses for the commission or persons authorized to act for it when performing duties hereunder at the request of the commission. At the end of the State fiscal year, any unused portion of said funds in said special account, except such funds as may be appropriated to administer this Act pending receipt of additional revenues available for that purpose, shall be set over and paid into the General Revenue Fund. The Comptroller shall, upon requisition of the commission, from time to time draw warrants upon the State Treasurer for the amount specified in such requisition, not exceeding, however, the amount in such fund at the time of making any requisition; provided, however, that all moneys expended in the administration of this Act shall be specified and determined by itemized appropriation in the General Departmental Appropriation Bill for the Texas Real Estate Commission, and not otherwise.

#### Admissibility of Certified Documents in Evidence

Sec. 25. Copies of all papers, instruments, or documents filed in the office of the Commission certified by the Administrator or the

Chairman of the Commission under the seal of the State of Texas, shall be admitted to be read in evidence in all courts of law and elsewhere in this State in cases where the original would be admitted in evidence; provided that the court may, for cause shown, require the production of the originals. In any prosecution, action, suit or proceeding before any of the several courts of this State, based upon or arising out of or under the provisions of this Act, a certificate under the seal of the State duly signed by the Commission showing compliance or non-compliance with the provisions of this Act by any Real Estate Broker or Salesman shall be admissible in evidence in any action at law or in equity to enforce the provisions of this Act.

#### Unlawful Commission

Sec. 26. It shall be unlawful for any Real Estate Broker or Real Estate Salesman to offer, promise, allow, give, pay or rebate, directly or indirectly, any part or share of his commission or compensation arising or accruing from any real estate transaction, to any person who is not licensed in this or another State as a Broker or Salesman, in consideration of service as a Real Estate Broker or Salesman performed or to be performed by such unlicensed person, and no Real Estate Salesman shall be employed by or accept compensation from any person other than the Broker under whom he is at the time licensed; and it shall be unlawful for any licensed Real Estate Salesman to pay a commission to any person except through the Broker under whom he is at the time licensed.

#### Offense Defined and Injunction Authorized

Sec. 27. (a) Any person who knowingly authorizes, directs, or aids in the publication, advertisement, distribution, or circulation of any false statement or representation concerning any land or subdivision offered for sale or lease, and every person who, with knowledge that any advertisement, pamphlet, prospectus, or letter concerning any land or subdivision contains any written statement that is false or fraudulent, issues, circulates, publishes, or distributes the same, or who shall cause the same to be issued, circulated, published, or distributed, or who, while acting as a Real Estate Broker or Salesman, commingles any funds deposited with him in escrow or in trust or who deposits such funds in any bank in any account which contains funds other than those so deposited with him in escrow or in trust, and any person who, in any respect, wilfully violates or fails to comply with any provisions of this Act, or who in any respect wilfully violates or fails, omits or neglects to obey, observe or comply with any order, permit, decision, demand, or requirement of the Commission authorized by this Act shall be guilty of a misdemeanor and upon conviction therefor shall be sentenced to pay a fine of not more than Five Hundred

(\$500.00) Dollars, or to imprisonment in the county jail for not more than one (1) year, or to both such fine and imprisonment.

(b) Whenever in the judgment of the Commission any person has engaged, or is about to engage, in any acts or practices which constitute or will constitute a violation of any provision of this Act, the County Attorney or District Attorney, in the county wherein such violation has occurred or is about to occur, or in the county of the defendant's residence, or the Attorney General, may maintain an action in the name of the State of Texas in the District Court of such county to abate and temporarily and permanently enjoin such acts and practices and to enforce compliance with this Act. The plaintiff shall not be required to give any bond nor shall any court costs be adjudged against the plaintiff.

#### Contract for Commissions

Sec. 28. No action shall be brought in any court in this State for the recovery of any commission for the sale or purchase of real estate unless the promise or agreement upon which action shall be brought, or some memorandum thereof, shall be in writing and signed by the party to be charged therewith or by some person by him thereunder lawfully authorized.

At the time of the execution of any contract of sale of any real estate in this State, the Real Estate Salesman, Real Estate Broker, Real Estate Agent or Realtor shall advise the purchaser or purchasers, in writing, that such purchaser or purchasers should have the abstract covering the real estate which is the subject of the contract examined by an attorney of the purchaser's own selection, or that such purchaser or purchasers should be furnished with or obtain a policy of title insurance; and provided further, that failure to so advise as hereinabove set out shall preclude the payment of or recovery of any commission agreed to be paid on such sale.

#### Art. 6673a. Sale or Exchange and Conveyance of Abandoned Routes; Correction Deeds; Tax Exemption

##### Sale or Exchange; Deeds

Sec. 1. (a) Whenever the State Highway Commission determines that any real property, or interest therein, heretofore or hereafter acquired by the State for highway purposes, is no longer needed for such purposes, and in the case of highway right-of-way it has further determined that such right-of-way is no longer needed for use of citizens as a road, the State Highway Commission may recommend to the Governor that such land or interest therein be sold, and the Governor may execute a proper deed conveying all the State's rights, title and interest in such land. It shall be the duty of the Commission to determine the fair and reasonable value of the State's interest in such land and to advise the Governor thereof. All money derived from such sales shall be deposited in the State Treasury to the credit of the State Highway Fund. Provided further, that where right-of-way property owned by the State was acquired by a city or county and the State Highway Commission determines that said right-of-way property should be sold, such property shall be sold with the following priorities:

- (1) To abutting or adjoining landowners;
- (2) To original grantors, heirs or assigns of the original tract from whence the right-of-way was conveyed; or
- (3) To the general public.

Such sale shall be made on a sealed bid basis, and said land shall not be sold for less than the value recommended by the State Highway Commission as provided above.

(c) Upon recommendation of the State Highway Commission, the Governor may execute a proper deed exchanging any such real property, or interest therein, either as a whole or part consideration, for any other real property, or interest therein, needed by the State for highway purposes.

(d) Provided further, that upon recommendation of the State Highway Commission the Governor may execute a proper deed relinquishing and conveying the State's right, title and interest in such real property as follows:

(1) If title to the State was acquired by donation, convey to the grantor, his heirs or assigns; or if acquired by purchase by a county or city, convey to the county or city, or to the grantor, his heirs or assigns at the request of the county or city.

(2) If the rights and interests conveyed to the State consist only of the right to use such property, and title is not held by the State, convey the State's rights and interests to the owner of the fee in said property.

(3) If title or any interest in such property was acquired and held by a county or city in its own name for use by the State, quitclaim to the county or city any interest of the State which might accrue from the State's use of the property; or if there is no record title to such property, quitclaim the State's interests, which might accrue from its use of the property, to the county or city wherein such land is located, or to abutting property owners at the request of the county or city.

(4) Quitclaim the State's title, rights and interest as necessary to comply with reversionary clauses contained in instruments by which the State's title, rights or interests were acquired.

(5) If property has been acquired by or for the State for use as an approach-way to an urban freeway, but, within 12 months after acquisition, the Commission has determined that, due to relocation of the approach-way, the property is not needed for highway purposes, reconvey the property to the grantor from whom it was acquired by or for the State, or to his heirs, successors, or assigns. The sale price shall be the same as the purchase price paid by or for the State, plus six percent interest per annum from the date of that payment by or for the State. When

the Commission determines that the property is not needed for highway purposes, it shall give written notice of that determination to the grantor. The notice shall be mailed to the grantor at his address as of the time of acquisition. Within two years after the notice is mailed, the grantor, his heirs, successors, or assigns may request in writing that the State reconvey the property to them. If at the expiration of the two-year period, no such request has been received by the Commission, the State may then dispose of the property at public sale.

#### Correction of Error or Ambiguity

Sec. 2. In all cases where there is an ambiguity or an error in any instrument by which title to, or any right or interest in, any real property is or has been conveyed to the State of Texas for highway right-of-way purposes because the metes and bounds description of said property is incomplete or incorrect, or for any other reason, and such ambiguity or error is of sufficient consequence to raise doubt as to the location or extent of the property conveyed thereby, or results in the acquisition of land or an interest in land not intended to be included therein and not needed for highway purposes, the Governor of this State, upon receipt of a recommendation from the State Highway Commission that he so do, shall execute and deliver, in the name of the State of Texas, a quit claim deed, correction deed or other conveyance deemed necessary to rectify and resolve any such ambiguity or error.

Sec. 6. In the event any public road or State highway is located on land in which the fee simple title is not vested in the State or

the county wherein such road is located, such land so dedicated and used for such road purpose shall not be assessed for ad valorem taxation, or the fee simple owner required to pay ad valorem taxes thereon for any purpose so long as same is used for such road purpose. The notices provided for herein shall state the maximum load permitted and the time such use is prohibited and shall be posted upon the highway in such place as will enable the drivers to make detours to avoid the restricted

highways or portions thereof; provided no road shall be closed until detours have been provided.

If the owner or operator of any such vehicle feels himself aggrieved by such action, he may complain in writing to the County Judge of such county, setting forth the nature of his grievance. Upon the filing of such complaint the County Judge shall forthwith set down for hearing the issue thus raised for a day certain, not more than three days later, and shall give notice in writing to such official of the day and purpose of each hearing, and at such hearing the County Judge shall hear testimony offered by the parties respectively, and upon conclusion thereof, shall render judgment sustaining, revoking or modifying such order heretofore made by the County Road Superintendent or Road Supervisor, or the State Highway Commission, and the judgment of the County Judge shall be final as to the issues raised. If upon such hearing the judgment sustains the order of the County Road Superintendent or road Supervisor and it appears that any violation of same has been committed by the complainant since posting such notices, he shall be subject to the same penalty hereinafter provided for such offense as if the same had been committed subsequent to the rendition of such judgment made upon such hearing.

And it is hereby determined that the further provisions of this Act constitute fair, just, and equitable compensation, repayment, and reimbursement to said counties and defined districts and for their aid and assistance to the state in the construction of State Highways and for the construction of said roads which are ancillary to, but do not constitute a part of said System of State Highways, and fully discharges the legally implied obligations of the state to compensate, repay, and reimburse the agencies of the state for expenses incurred at the instance and solicitation of the state, as well as for expenses incurred for the benefit of the state, and fully discharges the state's legally implied obligation to such counties and defined road districts to provide additional funds for the further construction of roads not designated as a part of the State Highway System.

**Art. 6674q-7. County and Road District Highway Fund; Distribution; Board of County and District Road Indebtedness Continued; Powers and Duties; Lateral Road Account**

**Eligibility to Participate in Fund**

(a) All bonds, warrants or other evidences of indebtedness heretofore issued by counties or defined road districts of this state, which mature on or after January 1, 1933, insofar as amounts of same were issued for and proceeds have been actually expended in the construction of roads that constituted and comprised a part of the system of designated State Highways on September 17, 1932, or which subsequent to such date and prior to January 2, 1939, have been designated a part of the System of State Highways or any road that heretofore had constituted a part of said System and which has been or may be changed, relocated or abandoned, whether said indebtedness is now evidenced by the obligation originally issued or by refunding obligations or both, shall be eligible to participate in the distribution of the moneys coming into said County and Road District Highway Fund, subject to the provisions of this Act; provided, that such indebtedness, the proceeds of which have been expended in the construction of roads which have been designated as a part of the State Highway System after September 17, 1932, and prior to January 2, 1939, shall participate in said County and Road District Highway Fund as of the date of the designation of said road as a part of the State System; provided further that any participation in said fund by any county or defined road district shall be less the amount of money which it was required to accumulate in the sinking fund under the provisions of the Statutes and order of the Commissioners Court authorizing the issue of said eligible obligations, and the tax levy authorized at the time of issuance thereof for the time such obligations have run or may have run, regardless of whether the full amount of said fund is, or may be, actually on hand and to the credit of the sinking funds of such county or defined road district. It is provided expressly in this connection that the term "sinking funds" shall include only those funds required under the law for the retirement of principal and interest, and shall not include any excess or surplus which may have been accumulated by any county or defined road district above the legal requirements. The amount of such eligible indebtedness shall be determined as hereinafter provided. Provided further, that no state funds created or provided for by the terms of this Act shall be expended in the payment of any interest maturing on the amount of sinking funds required by the terms of this Act to be accumulated by the county or defined road district at the date of eligibility of its obligations.

In the event that State Highway Commission has, on a date prior to January 2, 1939, recorded a conditional designation, and all conditions precedent to the official designation thereof

have been met or performed in a manner satisfactory and acceptable to the Highway Commission, and the Highway Commission officially enters of record its acceptance and designation of such road as a part of the State Highway System for maintenance, then the provisions of this Act shall apply as if the said roads had been actually designated prior to January 2, 1939.

All bonds, warrants or other legal evidences of indebtedness outstanding as of the date of the designation hereinafter referred to, and issued by a county or defined road district prior to January 2, 1939, insofar as amounts of same were issued and the proceeds actually expended in the construction of roads that have been officially designated as a part of the State Highway System subsequent to January 2, 1939, shall be eligible to participate in the distribution of the moneys coming into said County and Road District Highway Fund as of the date of designation of said road as a part of the State Highway System. The amount of such bonds, warrants, or other legal evidences of indebtedness outstanding as of the date of designation of such road as a part of the State Highway System, shall be eligible for participation in the same manner as provided for other bonds under this Act.

In addition to and regardless of the other provisions of this Act, all bonds, warrants or other legal evidences of indebtedness voted, or issued without being voted by a county, road district or defined road district prior to January 2, 1939, insofar as amounts of same were or may be issued and the proceeds actually expended in the construction of roads which are now a part of the designated System of State Highways or which have since, or which may hereafter become a part of the designated System of State Highways, shall be eligible to participate in the distribution of the moneys coming into said County and Road District Highway Fund the same as provided for other bonds under this Act, and as of the date of the designation of said road as a part of the State Highway System; and where such bonds or warrants were voted prior to January 2, 1939, and prior to the designation of the road as a State Highway and which have not yet been issued or expended, the county or defined road district may issue such bonds or warrants or other legal evidence of indebtedness and place the proceeds in escrow with the State Highway Commission for the construction of such road under plans, contracts, specifications and supervision of the State Highway Department, and when so expended the bonds, warrants, or other evidences of indebtedness shall be eligible to participate in the County and Road District Highway Fund the same as if the bonds had been issued and expended prior to January 2, 1939. Provided, further, that all such bonds or warrants to be hereafter sold pursuant to this paragraph by a county or defined road district which will be eligible for participation in the County and Road District Highway Fund

under the provisions of this Section, shall be sold subject to the approval of the Board of County and District Road Indebtedness, as to amounts, maturities and interest rates.

#### Administration of Act

(b) The Board of County and District Road Indebtedness, created by Chapter 13, Acts of the Third Called Session of the 42nd Legislature,<sup>1</sup> consisting of the State Highway Engineer, State Comptroller of Public Accounts, and State Treasurer, is hereby continued and charged with the duties of administering this Act. The State Comptroller of Public Accounts shall be the Secretary of said Board and said Board shall elect its own chairman from its membership. The Board shall adopt its own rules consistent with this Act for the proceedings held hereunder, and shall have authority to call to its assistance, in arriving at the amount of bonds, warrants, or other evidences of indebtedness eligible to participate in the County and Road District Highway Fund, any official or employee of this state, and shall avail itself of all data and information assembled in the administration of Chapter 13, Acts of the Third Called Session of the 42nd Legislature,<sup>1</sup> and said Board is hereby authorized to call on any County Judge or any county or state official or employee, and shall have full access to all the records, books, and public documents for the purpose of obtaining any information which it may deem necessary and pertinent to its inquiry in arriving at the amount of bonds, warrants, or other evidences of indebtedness eligible to participate in the County and Road District Highway Fund.

<sup>1</sup> Article 6674q-1 et seq.

#### Determination of Amount of Eligible Indebtedness

(c) It shall be the duty of the Board of County and District Road Indebtedness, from the data and information furnished by the County Judges of the state, and by the Chairman of the State Highway Commission and by the State Comptroller of Public Accounts, and from such further investigation as said Board may deem necessary to ascertain and determine the amount of indebtedness eligible under the provisions of this Section of this Act to participate in the moneys coming into said County and Road District Highway Fund. Whenever, in the case of any particular issue of obligations, the proceeds thereof shall have been expended partly on designated State Highways, or highways heretofore constituting designated State Highways, and partly on roads which never have been designated State Highways, said Board shall ascertain and determine the amount of said obligations, the proceeds of which were actually expended on State Highways or on roads heretofore constituting State Highways, and said obligations to said amount and extent shall be eligible for participation in the moneys coming into the County and Road District Highway Fund; and said ascertainment and determination shall be certified to the County Judge by said Board and all of the

unmatured outstanding obligations of said issue shall ratably have the benefit of said participation in said moneys. The ascertainment and determination by the Board of County and District Road Indebtedness, after reasonable notice and hearing, of the amount of any county or defined road district obligations eligible under the provisions of this Act to participate in any moneys coming into the County and Road District Highway Fund, or as to the amount of any obligations the proceeds of which were actually expended on State Highways, or on roads heretofore constituting State Highways, shall be final and conclusive and shall not be subject to review in any other tribunal. But said Board of County and District Road Indebtedness shall have the right at any time to correct any errors or mistakes it may have made.

#### Records

(d) The Board shall make and keep a record of all county and defined road district eligible obligations, issue by issue, and a book shall be prepared and kept in which shall be recorded all eligible issues, maturity dates of principal and interest, rates of interest, and places of payment for each county and each defined road district. Each issue and the date pertaining to same shall be listed separately. The Board shall keep a record of all vouchers issued.

#### Separate Accounts

(e) The State Treasurer shall keep a separate account for each county and defined road district of any moneys received for the credit of said county or defined road district pursuant to the provisions hereof.

#### Lists Showing Eligible Indebtedness

(f) A list shall be compiled by the Board of County and District Road Indebtedness showing the amount ascertained and determined by it to be eligible indebtedness of each county and defined road district, and a copy thereof shall be furnished to each County Judge in this state.

#### Annual Estimates of Sums Necessary

(g) From year to year, and not later than July 15th of each year, said Board shall ascertain and determine the sum necessary to pay the interest, principal and sinking fund requirements on all eligible obligations for the next succeeding calendar year, and shall estimate the sum which shall be applicable to the same, and shall not later than August 1st of each year, give notice to the County Judge of each county of the estimated amount available for application to said interest, principal, and sinking fund requirements. In the event the amount so estimated to be applied to the payment of eligible obligations for any county or defined road district is sufficient to meet all maturing interest, principal, and sinking fund requirements, the Commissioners Court may dispense with the collection of ad valorem levies for such calendar and/or fiscal year for such interest, principal, or sinking fund re-

quirements. In the event the amount of payments so estimated to be applied is not sufficient to meet the maturing interest, principal, and sinking fund requirements, the County Commissioners Court shall collect from taxes on the property in said respective counties and defined road districts, an amount of money equal to the difference between the amount of such requirements and the amount available for application. In this connection it is declared to be the intent of the Legislature that all contractual duties and obligations which may exist between any county and/or defined road district and the owner or holder of the present outstanding indebtedness or any county and/or defined road district, shall not be in any manner disturbed or impaired and shall remain inviolate. Any tax heretofore provided to be levied in support of any present outstanding indebtedness affected by the provisions of this Act shall continue to be assessed, levied, and collected as originally provided; however, the collection of said tax may, by order of the Commissioners Court, be lessened and reduced by the payments made, and to be made, thereon and in behalf of such indebtedness out of the County and Road District Highway Fund, as herein provided, and as succeeding Legislatures shall, by appropriation, make provisions therefor. The entire proceeds of all taxes collected on any eligible issue of bonds shall be remitted by the County Treasurer of each county collecting the same, together with a statement of the amount collected, to the State Treasurer, and shall be held by the State Treasurer as ex-officio Treasurer of said county or defined road district for the benefit of the county or defined road district remitting the same, and be disbursed to meet the interest, principal, and sinking fund requirements on the eligible obligations of said county or defined road district.

In the event the amount of funds available to be applied to meet the maturing interest, principal, and sinking fund requirements in any calendar or fiscal year is not sufficient to satisfy such requirements, the moneys available in the County and Road District Highway Fund, as estimated and determined by the Board, shall be, for that calendar or fiscal year first applied to the payment and satisfaction of interest maturing on all eligible obligations during the particular calendar and/or fiscal year, and this payment is to be made ratably upon the interest on eligible obligations of the various counties or defined road districts; and if there is more of said moneys available than necessary to pay all of said interest, then such balance over the required interest payment for such year shall be distributed ratably to each issue of eligible obligations on the basis of the principal of eligible obligations and sinking fund requirements thereon maturing each year.

#### Allocation of Surplus

(h) On September first of each year after the Board has paid off and discharged all eligi-

ble obligations maturing during the preceding fiscal year, together with the interest on such obligations and the sinking fund requirements accruing thereon out of the County and Road District Highway Fund, any surplus remaining in said Fund over and above Two Million Dollars (\$2,000,000) shall be set aside and credited by the State Treasurer to the respective funds hereinafter named as follows: One-half ( $\frac{1}{2}$ ) of said surplus shall be credited to an account in the State Highway Fund to be known as the "Farm Highway Account," and one-half ( $\frac{1}{2}$ ) shall be credited to an account to be known as the "Lateral Road Account," said funds to be distributed and expended as hereinafter provided.

All moneys deposited in the Farm Highway Account shall be used by the State Highway Commission to match any available funds, other than Federal funds, and all of said moneys shall be used for the sole purpose of constructing or improving farm-to-market roads, which said construction or improvements shall be done or made by the State Highway Commission and not by contract.

As soon as practicable after the passage of this Act and before the Lateral Road Account is allocated to the counties, the Board shall determine the amount each county and each defined road district has paid since January 1, 1933, under the provisions of Chapter 13, Acts of the Third Called Session of the Forty-second Legislature, as amended,<sup>1</sup> toward its debt service upon bonds which at the time of payment were eligible to participate in the County and Road District Highway Fund, and shall deduct from the amount paid by such county or defined road district any and all advancements made by the Board to such county or defined road district in adjusting, refunding, or pre-paying the eligible obligations of such county or defined road district, and after making such deductions the Board shall credit the Lateral Road Account of each county or defined road district with the net balance contributed by such county or road district toward the retirement of said eligible obligations and said funds so credited to any county or defined road district may be used or expended by the counties and defined road districts for the purposes authorized in this Section.

Not later than September fifteenth of each year the said Board shall ascertain the exact amount of money which has been allocated to the said Lateral Road Account for such fiscal year and which at that time is available. The Board shall allocate to each county its proportionate part of the moneys in said Lateral Road Account, which allocation shall be determined in the following manner:

(1) Two-tenths ( $\frac{2}{10}$ ) of the moneys in said Account shall be allocated upon the basis of area, determined by the ratio of the area of the county to the total area of the State.

(2) Four-tenths ( $\frac{4}{10}$ ) of the moneys in said Account shall be allocated on the ba-

sis of rural population according to the last preceding Federal Census, determined by the ratio of the rural population of the county to the total rural population of the State.

(3) Four-tenths ( $\frac{4}{10}$ ) of the moneys in said Account shall be allocated to the counties on the basis of lateral road mileage, determined by the ratio of the mileage of the lateral roads in the county to the total mileage of the lateral roads in the State as of January 1, 1939, as shown by the records of the State-Federal Highway Planning Survey and the State Highway Department.

If the records of the Highway Department and the State-Federal Highway Planning Survey are such that, in the opinion of the Highway Commission or of any county, there is a reasonable doubt as to their accuracy, the Highway Commission may authorize an independent survey to be made of that county's lateral road mileage upon its own motion or on the application of said county. The expense of such survey shall be borne by the county.

The moneys allocated to each county from the Lateral Road Account shall be used by said county first for paying the principal, interest, and sinking fund requirements maturing during the fiscal year for which such money was allocated to such county on bonds, warrants, and other legal obligations issued prior to January 2, 1939, the proceeds of which were actually expended in acquiring right of ways for State designated highways, it being the intention of the Legislature to designate and set apart sufficient money to pay off and discharge said outstanding obligations incurred for right of way acquisition. The Board shall require from each county a sworn statement of the outstanding right of way indebtedness incurred on State designated highways, and in the event a false statement is furnished the Board by any county, or where any county fails or refuses to file a report, then such county shall be denied any benefits under this Section; it being the duty of the Board before distributing any funds to any county under this Section where such county submits a report that it has no right of way indebtedness, or where said report is vague or indefinite, to audit and determine the correctness of such report. Funds remaining in the Lateral Road Fund of any county, after the payment of said right of way obligations, shall be used by the county for paying the maturing principal, interest, and sinking fund requirements, due by the county in that fiscal year on bonds, warrants, or other evidences of indebtedness which were legally issued by such county or road districts prior to January 2, 1939, the proceeds of which were actually expended in the construction or improvement of lateral county roads. Payment to be made ratably upon the principal and interest on the maturing road bond obligations of said county for such fiscal years. Any funds remaining in the Lateral Road Fund of

any county after the payment of said principal, interest, and sinking fund requirements due or maturing in that fiscal year on bonds or warrants which were legally issued by such county or road district prior to January 2, 1939, the proceeds of which were actually expended in the construction or improvement of lateral county roads, may be used by the county under direction of the Commissioners Court for any one or all of the following purposes: (a) for the acquisition of right of ways for county lateral roads and for the payment of legal obligations incurred therefor prior to January 2, 1939; (b) for the construction or improvement of county lateral roads; (c) for the purpose of supplementing funds appropriated by the United States Government for Works Progress Administration highway construction, Public Works Administration highway construction and such other grants of Federal funds as may be made available to the counties of this State for county lateral road construction; and (d) for the purposes of cooperating with the State Highway Department and the Federal Government in the construction of farm-to-market roads. Provided that when such funds are used for the construction or improvement of county lateral roads, such construction or improvement shall be made under the supervision of a competent engineer.

After such allocation has been made to the several counties in the State the Board shall in writing notify the Chairman of the Commissioners Court of each county of the amount which has been credited to that county. After receiving said notice, the Commissioners Court shall, within sixty (60) days, notify the Board of the manner in which it has exercised its option as to the one or more specified uses of said money permitted under this Act.

Such money shall be applied pro rata to the payments of the debt service requirements of all issues of lateral road indebtedness of the county and all included defined road districts, in the proportion that the debt service requirements of each issue bears to the aggregate debt service requirements of all issues for that year. When any issue of obligations which will receive aid under this Section is already listed with the Board of County and District Road Indebtedness, the Board shall credit the amount applicable to said issue to the account of said issue in the State Treasury. As to all other issues of obligations, which will receive aid under this Subsection (h), the Commissioners Court of the specific counties affected shall have the right, if so desired, to utilize the facilities of the State Board of County and District Road Indebtedness in paying the amounts of principal and interest on said issues substantially in the manner that payments are affected as to such eligible obligations.

In the event that the funds so received by the county from the Lateral Road Account are in excess of the amount required to meet the principal and interest of its maturing road bond obligations for the next fiscal year, the

Commissioners Court, in that event, may elect to use such excess money allocated to it from the Lateral Road Account, and in such event, it shall notify, in writing, the said Board of its election to make use of said money. Whereupon, said Board shall remit said balance to be utilized for such purpose to the County Treasurer of such county, said money to be deposited by the County Treasurer in accordance with law, and the same shall be utilized by the county, acting through the Commissioners Court, for the construction of lateral roads. Each county may call upon the State Highway Commission to furnish adequate technical and engineering supervision in making surveys, preparing plans and specifications, preparing project proposals and supervising actual construction. The actual cost of such aid in supervision shall be paid by the county as a charge against its project.

In order that maximum benefits may be obtained in the expenditures of the State fund made available to the counties under this Act for the construction of county lateral roads, and so that the counties may have the benefit of widespread competition among contractors in bidding on such projects, such counties may, in their discretion, authorize the State Highway Commission, to receive bids in Austin on all such construction in the same manner as is now provided by law for the award of contracts on State highways.

When any road which shall have been constructed by any county wholly from the County Lateral Road Account shall be designated by the State Highway Commission as a part of the System of Designated State Highways, the designation of such road by the State Highway Commission shall constitute a full and complete discharge of any and all obligations of the State, moral, legal, or implied, for the payment of such highway.

In the event the Commissioners Court elects to co-operate with the Highway Department in the building of, or in the construction of, farm-to-market roads, it shall by proper resolution entered upon its minutes, authorize the State Treasurer to pay such funds to be so used, over to the State Highway Department for use on certain designated projects. Regardless of how the funds allocated to the counties from the Lateral Road Account are used, the County Judge of each county shall file with the Board on or before October first of each year, a verified report showing the manner in which the said funds have been expended, the nature and location of the roads constructed, and such other information as the Board may from time to time require.

<sup>1</sup> Article 6674q-1 et seq.

#### Refunding Obligations

(i) The County Commissioners Court of any county may exercise the authority now conferred by law to issue refunding obligations for the purpose of refunding any eligible debt of the county or of any defined road district;

<sup>5</sup> West's Tex. Stats. & Codes—41

and such refunding obligations, when validly issued, shall be eligible obligations within the meaning of this Act, if said Board of County and District Road Indebtedness shall approve the maturities of said refunding obligations and the rate of interest borne by them. In any instance where in the opinion of said Board the existing maturities of any issue of eligible obligations or any part thereof are such as to give the county or defined road district which issued them an inequitable or disproportionate participation in the moneys coming into the County and Road District Highway Fund in any particular period, said Board, in its discretion, may require said issue or any part thereof to be refunded into refunding obligations bearing such rate of interest and having such maturities as may be satisfactory to the Board, but in no event at a greater rate of interest than that provided in the original issue. And if said county or defined road district shall fail or refuse to effectuate such refunding within a reasonable time to be fixed by said Board, said obligations so required to be refunded, and all other obligations of said county or defined road district shall cease to be eligible for participation in said County and Road District Highway Fund until the requirements of said Board, with respect to refunding, shall be complied with.

The Board of County and District Road Indebtedness is hereby made the refunding agent of each county, and as such agent is directed to co-operate with the Commissioners Court of each county in effecting the necessary refunding of each issue of bonds; the Board shall prepare the necessary refunding orders for the Commissioners Court, prepare the proceedings and act in an advisory and supervisory capacity to the end that the expense of refunding any issue of bonds may be reduced to the minimum. Provided that no commission, bonus, or premium shall be paid by any county or defined road district for the refunding of such obligations, and no County Treasurer shall receive any commission for handling of the funds derived from the refunding of such obligations. All actual expense incurred in the refunding of its eligible indebtedness, including cost of proceedings, printing, legal approval and interest adjustment, shall be chargeable against the money theretofore or thereafter collected from ad valorem taxes, or at the option of the Commissioners Court conducting such refunding, may be paid from any other money under its control and available for the purpose, provided no obligations for such expense items shall be incurred or paid without affirmative approval by said Board.

#### Appropriation of Deposited Moneys

(j) All moneys to be deposited to the credit of the County and Road District Highway Fund from September 1, 1945, to August 31, 1947, both inclusive, are hereby appropriated to said respective counties and defined road districts and shall be received, held, used and ap-

plied by the State Treasurer, as ex-officio Treasurer of said respective counties and defined road districts, for the purposes and uses more specifically set forth in this Act, including the payment of principal, interest and sinking fund requirements on all eligible obligations maturing up to and including August 31, 1947. And each year thereafter until all of such eligible obligations are fully paid, all moneys coming into the credit of the County and Road District Highway Fund with the State Treasurer, and all moneys remaining therein from any previous year shall be received and held by him as ex-officio Treasurer of such counties and defined road districts, and shall first be subject to the appropriation for the payment of interest, principal and sinking funds maturing from time to time on said eligible obligations, and then for the other uses specified and permitted in this Act.

In the event any county, road district, or defined road district has since September 1, 1941, made any payment on eligible bonds, warrants, or other evidence of eligible indebtedness as defined under the terms of this Act, then such county, road district, or defined road district shall be reimbursed by the Board of County and District Road Indebtedness in the amount of the payment so made on such eligible obligations.

#### Issuance of Warrant

(k) As payment of principal and/or interest becomes due upon such eligible obligations, the State Comptroller of Public Accounts shall issue his warrant to the State Treasurer for the payment thereof, and the State Treasurer shall pay the same at his office in Austin, Texas, or by remitting to the bank or trust company or other place of payment designated in the particular obligation. Such warrants or voucher claims shall show on their face that the proceeds of the same are to be applied by the paying agent to the payment of certain specified obligations or interest therein described, by giving the name of the county or defined road district by which they were issued, numbers, amounts, and dates of maturities of the obligations and interest to be paid, with instructions to the State Treasurer, paying agent, bank, or trust company to return to the State Comptroller of Public Accounts such obligations and interest coupons when same are paid; and the State Comptroller of Public Accounts shall, upon receipt of said obligations and coupons, credit same on his records and send them, duly cancelled, to the Commissioners Court of the appropriate county, which shall cause to be duly entered a record of such cancellation. In instances wherein counties or defined road districts therein shall have arranged with the Board to pay principal or interest thereon, of outstanding lateral road indebtedness, of the Board, and the State Comptroller of Public Accounts, and the State Treasurer shall follow, insofar as practicable, the procedure prescribed in this sub-section (k) for the payment

of the principal and interest of eligible obligations.

#### Payment of Expenses

(l) Expenses necessary to be incurred in the determination of the indebtedness of the counties and defined road districts of the state, and in the discharge of the duties required for the payment of such obligations, shall be paid from the County and Road District Highway Fund by warrant approved by the Chief Accountant, and one other member of said Board, and the State Comptroller of Public Accounts. The compensation of all employees of said Board shall be fixed by the Legislature. All employees of said Board of County and District Road Indebtedness shall be bonded, the amount of such bond being set by the Board.

#### Forwarding Securities to State Treasurer

(m) All of the securities now on hand in which sinking funds collected for the benefit of outstanding eligible issues are invested, and all funds and securities hereafter acquired for the benefit of the entire outstanding balance of all eligible bond issues, shall be forwarded within thirty (30) days from the effective date of this Act, and thereafter within thirty (30) days of the acquisition of such fund or securities, to the State Treasurer as ex officio County Treasurer of the various counties and defined road districts. Provided that the cash now on hand in the sinking fund created for the benefit of outstanding eligible obligations may also be remitted as above set forth, at the option of such county or defined road district. Any county, the Commissioners Court of which fails or refuses to comply with the provisions of this Act in all things, including the levy, assessment, and collection of a tax, and at a rate sufficient to pay all sums due or to become due, which the state is unable to pay, or to provide each year the proportionate amount of sinking fund required to redeem its outstanding bonds at their maturity, shall not participate in any of the benefits of this Act so long as such county fails or refuses to comply with provisions thereof. The Board of County and District Road Indebtedness shall have and possess full authority to invest all such sinking funds, including all future sinking funds acquired in any manner whatsoever, in any eligible obligations of the various political subdivisions of this state which mature within the current biennium in which such securities are purchased; and where there is on hand a sufficient amount of moneys or securities to the credit of any one political subdivision to retire some of its outstanding obligations, whether then due or not, the Board of County and District Road Indebtedness may, if it deems it advisable, purchase and cancel said obligations of such particular political subdivision, irrespective of maturity dates. Provided further, that any county which has selected a depository according to law and in which county such depository has qualified by giving surety bonds or by the deposit of adequate securities of the

kind provided by law, which in the opinion of the Board of County and District Road Indebtedness is ample to cover the county deposits, and which county has not defaulted in the payment of any installment of principal and/or interest on any county bonds for a period of five (5) years next preceding the date of the filing of its application for exemption, and in which county all sinking funds of all bond issues are in excess of the standard required by law, and which county has levied for the current tax year adequate rates in support of outstanding bond issues and warrant as required by the Constitution and Statutes of said state, shall be exempt from the provisions of this sub-section (m) of this Act, and which exemption shall be obtained by such county in the manner and under conditions prescribed by the said Board of County and District Road Indebtedness. Said Board shall have the right to inspect the records of such county at any subsequent date to ascertain whether or not the facts warrant the continuation of the exemption. If at any time, in the opinion of the Board, counties that have been granted exemption under the provisions of this Act shall cease to comply with all the conditions under which the exemption has been granted, the Board shall notify the county to return all securities in which the sinking funds of eligible road bond issues are invested, and the residue in said sinking funds, and to begin immediately forwarding taxes levied and collected for the payment of interest and principal on all eligible road bond issues. Said counties whose exemption has been cancelled by said Board shall be given a period of thirty (30) days in which to comply with the demands of the Board. Provided further, that such counties so exempt shall furnish the Board an annual statement of the condition of the sinking funds of the several eligible road bond issues, together with a financial statement of the county depository. The Board shall have the right to withhold the payment of any maturity on any eligible road bond indebtedness where such county has failed or refused to comply with all the provisions of this Act.

#### Minutes of Board Proceedings

(n) The Board shall keep adequate minutes of its proceedings and semiannually, on or before June 30th and December 31st of each year, shall make itemized reports to each county with respect to the receipt, disbursement, and investment of the funds credited to such county. The Commissioners Court of any county, and/or its accredited representatives shall have the right to inspect the records of said Board and of the State Treasurer, at any reasonable time, for the purpose of making any investigation or audit of the accounts affecting its county.

#### Accounting to Governor

(o) The Board shall, within ninety (90) days after the close of each fiscal year, make a complete accounting for the preceding year to the Governor of this state, showing in such report

its act, investments, changes in investments and sinking fund status of each county and each defined road district, and shall file copies of such report with the President of the Senate and with the Speaker of the House of Representatives.

#### Return of Money to Counties

(p) In the event this Act is repealed, or shall be or become inoperative as to any county or defined road district, then it shall be the duty of the Board to ascertain immediately the amount of moneys and securities remaining on hand with it or with the State Treasurer belonging to the several counties or defined road districts affected, and forthwith to return the same to the County Treasurer of the County entitled thereto, accompanied by an itemized statement of the account of the county or defined road district.

#### Depositories

(q) All funds on hand belonging to, and hereafter credited to, the several counties and defined road districts of the state, shall be considered State Funds, and as such shall be deposited at intervals in the depositories provided for by the state laws and all interest earned on such funds and on the securities in which the sinking funds are invested shall belong to said counties or defined road districts, and shall be credited to them by the State Treasurer as earned and collected.

#### Supplementary Funds

(r) Upon notice from the Board of the amount that such county or defined road district shall be required to pay toward any installment of interest, or maturing principal, the County Treasurer of such county shall, not later than twenty (20) days prior to the maturity date of such interest, principal, or sinking fund requirements, forward to the State Treasurer the amount fixed by the Board as being necessary to supplement the amounts previously placed to the credit of any such county or defined road district by said Board under the provisions of this Act.

No provision of this Act shall be construed to authorize the giving or lending of the credit of the state to any county or district or to pledge the credit of the state in any manner whatever for the payment of any of the outstanding road indebtedness, herein referred to, of the counties or districts of the state. It is

hereby declared that all eligible indebtedness, as herein defined, shall remain indebtedness of the respective counties or defined road districts which issued it, and said counties or defined road districts shall remain liable on said indebtedness according to its terms and tenor; and it is not the purpose or intention of this Act, or any part hereof, to obligate the State of Texas, directly or indirectly or contingently, for the payment of any such obligations, or that the State of Texas should assume the payment of said obligations; and this Act is not to be construed as obligating the State of Texas to the holders of any of said obligations to make any payment of the same, or any part thereof, nor shall such holders have any rights to enforce the appropriation of any of the moneys hereinabove provided for, nor shall any provision hereof constitute a contract on the part of the state to make money available to any county for the construction of additional lateral roads. The provisions hereof are intended solely to compensate, repay, and reimburse said counties and districts for the aid and assistance they have given to the state in furnishing, advancing and contributing money for building and constructing State Highways.

**Art. 6674q-8a. Bonds of Navigation Districts; Preference Over Other Bonds by Board of County and Road District Bond Indebtedness Unauthorized**

All bonds heretofore issued by navigation districts of this state, which mature on or after January 1, 1933, and insofar as amounts of same were issued for and the proceeds thereof actually expended in the construction of bridges across any stream or streams or any other waterways upon any highway that constituted and comprised a part of the system of Designated State Highways on September 17, 1932, shall hereafter be included within and eligible under the provisions of Chapter 13 of the Acts of the 42nd Legislature of Texas,<sup>1</sup> passed at its Third Called Session, as amended by the Acts of the 43rd Legislature of Texas, Regular Session, to the extent that the proceeds of the sale of said bonds shall have been actually expended in the construction of such bridges and in such cases the outstanding bonds of said navigation districts in an amount equal to the amount so expended by such navigation districts shall be redeemed under the same conditions as are provided by said Chapter 13, Acts of the 42nd Legislature of Texas, Third Called Session, as amended by the Acts of the 43rd Legislature of Texas, Regular Session,<sup>1</sup> for the redemption of county and road district bonds.

It is expressly provided that the Board of County and District Road Indebtedness shall not be authorized to give the bonds herein referred to preference over other similar bonds eligible under said Bond Act; and it is further

expressly provided that said Board in determining the amount of bonds eligible for assumption shall take into consideration the amount of the bond money expended for the construction of said bridge, and the balance due on said amount of bonds used in the construction of said bridge, at the effective date of this Act; and in no event shall said Board be authorized to assume in excess of the balance due on the bonds for the said bridge construction at the effective date of this Act.

**Art. 6674q-9. Legislative Policy; State Title to Roads**

If succeeding Legislatures shall continue to carry out the policy herein defined by authorizing a similar appropriation of funds from time to time, (a) then whenever the eligible obligation shall have been fully paid as herein provided, as to or for any county or defined road district according to the provisions of this Act, then, and in that event, the title and possession of all roads, road beds, bridges, and culverts in such county or defined road district, which are included in the system of Designated State Highways, shall automatically vest in fee simple in the State of Texas; in the event of any subsequent physical change therein, such title and possession shall extend to any such change so made; and (b) whenever the interest and principal necessary to retire the outstanding indebtedness owed for lateral roads shall have been fully paid as herein provided, as to, or for any county or defined road district, according to the provisions of this Act, then, and in that event, the title of all roads, road beds, bridges, and culverts in such county or defined road district, pertaining to the lateral roads constructed with the proceeds of such indebted-

Likewise, the title to additional lateral roads, when constructed, shall vest in the State of Texas. Provided, however, that this Act neither imposes the obligation on, nor confers the right in, the State of Texas, to maintain and lay out any roads except those constituting a part of the designated State Highway System as hereinabove in this Act defined. The obligation to maintain or lay out all other roads, including lateral roads and additional lateral roads as defined in this Act, shall remain undisturbed in the several Commissioners Courts as agents of the state.

Sec. 8. Repealed by Acts 1969, 61st Leg., p. 2301, ch. 777, § 2, eff. Sept. 1, 1969.

#### Weekly Payments of Compensation

Sec. 9. It is the purpose of this law that the compensation herein provided for shall be paid from week to week and as it accrues and directly to the person entitled thereto, unless the liability is redeemed as in such cases provided elsewhere herein.

#### Physical Examination; Effect of Refusal to Submit to; Insanitary and Injurious Practices; Procedure

Sec. 10. The Board may require any employee claiming to have sustained injury to submit himself for examination before such Board or some one acting under its authority at some reasonable time and place within the State, and as often as may be reasonably ordered by the Board to a physician or physicians authorized to practice under the laws of this State. If the employee or the Department requests, he or it shall be entitled to have a physician or physicians of his or its own selection present to participate in such examination. Refusal of the employee to submit to such examination shall deprive him of his right to compensation during the continuance of such refusal. When a right to compensation is thus suspended no compensation shall be payable in respect to the period of suspension. If any employee shall persist in insanitary or injurious practices which tend to either imperil or retard his recovery, or shall refuse to submit to such medical or surgical treatment or other remedial treatment recognized by the State, as is reasonably essential to promote his recovery, the Board may in its discretion order or direct the Department to reduce or suspend the compensation of any such injured employee. No compensation shall be reduced or suspended under the terms of this Section without reasonable notice to the employee and an opportunity to be heard.

The Department shall have the privilege of having any injured employee examined by a physician or physicians of its own selection, at reasonable times, at a place or places suitable to the condition of the injured employee and convenient and accessible to him. The Department shall pay for such examination and the reasonable expense incident to the injured employee in submitting thereto. The injured employee shall have the privilege to have a physician of his own selection present to participate

in such examination. Provided, when such examination is directed by the Board or the Department, the Department shall pay the fee of the physician selected by the employee, such fee to be fixed by the Board.

Process and procedure shall be as summary as may be under this law. The Board or any member thereof shall have power to subpoena witnesses, administer oaths, inquire into matters of fact, examine such parts of the books and records of the parties to a proceeding as relate to questions in dispute. All rulings and decisions of the Board relating to disputed claims shall be upon questions of fact and in accord with the provisions of this law.

#### Industrial Accident Board, Authority of; Procedure

Sec. 11. All questions arising under this law, if not settled by agreement of the parties interested therein and within the provisions of this law, shall, except as otherwise provided, be determined by the Board. Any interested party who is not willing and does not consent to abide by the final ruling and decision of said Board shall within twenty (20) days after the rendition of said final ruling and decision by said Board, file with said Board notice that he will not abide by said final ruling and decision. And he shall within twenty (20) days after giving such notice bring suit in the county where the injury occurred to set aside said final ruling and decision and said Board shall proceed no further toward the adjustment of such claim, other than hereinafter provided. Whenever such suit is brought, the rights and liability of the parties thereto shall be determined by the provisions of this law and the suit of the injured employee or person suing on account of the death of such employee shall be against the Department. If the final order of the Board is against the Department, then the Department shall bring suit to set aside said final ruling and decision of the Board, if it so desires, and the Court shall in either event determine the issues in such cause instead of the Board upon trial de novo and the burden of proof shall be upon the party claiming compensation. The Board shall furnish any interested party in said claim pending in Court upon request free of charge, with a certified copy of the notice of the Department becoming an insurer filed with the Board and the same when properly certified to shall be admissible in evidence in any Court in this State upon trial of such claim therein pending and shall be prima facie proof of all facts stated in such notice in the trial of said cause unless same is denied under oath by the opposing party therein. In case of recovery the same shall not exceed the maximum compensation allowed under the provisions of this law. If any party to any such final ruling and decision of the Board, after having given notice as above provided, fails within said twenty (20) days to institute and prosecute a suit to set the same aside, then said final ruling and decision shall be binding upon all parties thereto, and, if the same is against

the Department, it shall at once comply with such final ruling and decision.

In all cases where the Board shall make a final order, ruling, or decision, as provided in the preceding Section and against the Department, and the Department shall fail and refuse to obey or comply with the same and shall fail or refuse to bring suit to set the same aside as in said Section is provided, then in that event the claimant in addition to the rights and remedies given him and the Board in said Section may bring suit in a Court of competent jurisdiction, upon said order, ruling, or decision. If he secures a judgment sustaining such order, ruling, or decision in whole or in part, he shall also be entitled to recover the further sum of twelve (12) per cent as damages upon the amount of compensation so recovered in said judgment, together with a reasonable attorney's fee for the prosecution and collection of such claim.

Where the Board has made an award against the Department requiring the payment to an injured employee or his beneficiaries of any weekly or monthly payments, under the terms of this law, and the Department should thereafter fail or refuse, without justifiable cause, to continue to make said payments promptly as they mature, then the said injured employee or his beneficiaries, in case of his death, shall have the right to mature the entire claim and to institute suit thereon to collect the full amount thereof, together with twelve (12) per cent penalties and attorney's fees as herein provided for. Suit may be brought under provisions of this Section, either in the county where the accident occurred, or in any county where the claimants reside, or where one or more of such claimants may have his place of residence at the time of the institution of the suit.

#### Employees of Subcontractors

Sec. 12. If the Department sublets the whole or any part of the work to be performed or done to any subcontractor, then in the event any employee of such subcontractor, whose name does not appear on the pay roll of the Department, sustains an injury in the course of his employment, he shall be deemed and taken for all purposes of this law not to be an employee as defined in this law. However, in the event that a person leases tractors, trucks, mowing or cutting machinery, or other equipment to the Department, and uses this equipment to perform work under a contract with the Department, then the Department shall

(1) treat the person leasing the equipment as an independent contractor and require him to provide life, health and accident, and disability insurance for himself and any persons employed by him to perform the contract during the time he or his employee are engaged in performing the contract and with such amounts of insurance and coverage as is approved by

the State Board of Insurance as being substantially the same coverage provided for under workmen's compensation insurance;

(2) treat the person leasing the equipment as an employee of the state for purposes of workmen's compensation and require him to provide workmen's compensation insurance for any persons employed by him to perform the contract; in which case the workmen's compensation law applies to such person and his employees regardless of the number of employees; or

(3) treat the person leasing the equipment and any persons employed by him to perform the contract as employees of the state for purposes of workmen's compensation.

#### Records and Reports of Injuries

Sec. 13. The Department shall hereafter keep a record of all injuries fatal or otherwise, sustained by its employees in the course of their employment. Within eight (8) days after the occurrence of an accident resulting in an injury to an employee, causing his absence from work for more than one day, a written report thereof shall be made to the Board on blanks to be procured from the Board for that purpose. Upon the termination of the incapacity of the injured employee, or if such incapacity extends beyond a period of sixty (60) days, the Department shall make a supplemental report upon blanks to be procured for that purpose. The said report shall contain the name, age, sex, and occupation of the injured employee and the character of work in which he was engaged at the time of the injury, and shall state the place, date, and hour of receiving such injury and the nature and cause of the injury, and such other information as the Board may require. The Department shall be responsible for the submission of the reports in the time specified in this Section.

#### Rules and Regulations; Examining Physicians; Reports as Evidence

Sec. 14. The State Highway Department is authorized to promulgate and publish such rules and regulations and to prescribe and furnish such forms as may be necessary to the effective administration of this law, and the State Highway Department shall have authority to make and enforce such rules for the prevention of accidents and injuries as may be deemed necessary. It shall be the duty of the State Highway Department to designate a convenient number of regularly licensed practicing physicians and surgeons for the purpose of making physical examinations of all persons employed or to be employed in the service of the State Highway Department to determine who may be physically fit to be classified as "employees" as that term is defined in Subsection 2 of Section 2 of this Act, and said physicians and surgeons so designated and so conducting such examinations shall make and file with the State Highway Department a complete transcript of said examination in writing

upon a form to be furnished by the State Highway Department. It shall be the duty of the State Highway Department to preserve as a part of the permanent records of the State Highway Department all reports of such examinations so filed. Such reports shall be admissible in evidence before the Industrial Accident Board, and in any court of competent jurisdiction to which an appeal has been made from a final award or ruling of the Industrial Accident Board in which the person named in said examination is a claimant for compensation benefits under the terms and provisions of this Act, and such reports so admitted shall be prima facie evidence as to the facts set out therein.

#### Physical Examination Prerequisite to Certification as Employee

Sec. 14a. No person shall be certified as an employee of the State Highway Department under the terms and provisions of this Act until he has submitted himself for a physical examination as provided in Section 14 herein and has been certified by the examining physician or surgeon to be physically fit to perform the duties and services to which he is to be assigned, provided that absence of a physical examination shall not be a bar to recovery.

#### Award as Evidence; Certified Copies of Orders, Awards, Decisions, or Documents

Sec. 15. Any order, award, or proceeding of said Board when duly attested by any member of the Board or its secretary shall be admissible as evidence of the act of said Board in any Court of this State.

Upon the written request and payment of the fees therefor, which fees shall be the same as those charged for similar services in the Secretary of State's office, the Board shall furnish to any person entitled thereto a certified copy of any order, award, decision, or paper on file in the office of said Board and the fees so received for such copies shall be paid into the State Treasury and credited to the General Revenue Fund; provided that the Department shall be furnished such certified copies without charge. No fee or salary shall be paid to any person in said Board for making such copies in excess of the fees charged for such copies.

#### Suits to Set Aside Decision of Board; Notice

Sec. 16. Any interested party who is not willing and does not consent to abide by the final ruling and decision of the Board shall, in the manner and within the time provided by Section 11 of this law, file notice with said Board, and bring suit in the county where the injury occurred to set aside said final ruling and decision; however, in the event such suit is brought in any county other than the county where the injury occurred, the Court in which same is filed shall, upon ascertaining that it does not have jurisdiction to render judgment upon the merit, transfer the case to the proper Court in the county where the injury occurred. Provided, however, that notice of said transfer

shall be given to the parties and said suit when filed in the Court to which the transfer is made, shall be considered for all purposes, the same as if originally filed in said Court.

#### Time of Hearing

Sec. 17. When an injured employee has sustained an injury in the course of employment and filed claim for compensation and given notice as required by law, the Board shall hear his claim for compensation within a reasonable time. Provided, however, when such injured employee is being paid compensation as provided in this law, and the Department is furnishing either hospitalization or medical treatment to such employee, the Board may, within its discretion, delay or postpone the hearing of his claim, and no appeal shall be taken from any such order made by the Board.

#### Percentage of Payroll Set Aside in Account for Payments Under Act

Sec. 18. The Department is hereby authorized to set aside from available appropriations other than itemized appropriations an amount not to exceed three and one-half (3½) per cent of the annual labor pay roll of the Department for the payment of all costs, administrative expense, charges, benefits, and awards authorized by this law.

The amounts so set aside shall be set up in a separate account in the records of the Department, which account shall show the disbursements authorized by this law; provided the amounts so set aside in this account shall not exceed three and one-half (3½) per cent of the annual labor pay roll at any one time. A statement of the amounts set aside for and disbursements from said account shall be included in reports made to the Governor and the Legislature as required by the Statutes.

#### Notice of Appeal and Judgment; Penalty

Sec. 19. In every case appealed from the Board to any district or county Court, the Clerk of such Court shall, within twenty (20) days after the filing thereof, mail to the Board a notice giving the style, number, and date of filing such suit, and shall, within twenty (20) days after judgment is rendered in such suit, mail to the Board a certified copy of such judgment. The duties devolving upon district and county clerks under this law shall constitute a part of their ex officio duties and for such services they shall not be entitled to any fee.

In every such case the attorney preparing the judgment shall file the original and a copy of same with the Clerk of the Court. However, the failure of such attorney to comply with this provision shall not excuse the failure of the Clerk of a district or county Court to mail a certified copy of such judgment to the Board as above provided.

Any Clerk of a district or county Court who fails to comply with the provisions of this law shall be guilty of a misdemeanor and upon con-

viction shall be punished by a fine of not more than Two Hundred and Fifty Dollars (\$250).

#### Partial Invalidity

Sec. 20. If any section, paragraph, or provision of this law be declared unconstitutional or invalid for any reason, such holding shall not in any manner affect the remaining sections, paragraphs, or provisions of this law, but the same shall remain in full force and effect.

#### Art. 6674s-1. Liability Insurance for Highway Department Employees

Sec. 1. The State Highway Commission shall have the power and authority to insure the officers and employees of the Texas Highway Department from liability arising out of the use, operation, and maintenance of equipment, including but not limited to, automobiles, motor trucks, trailers, aircraft, motor graders, rollers, tractors, tractor power mowers, and other power equipment used or which may be used in connection with the laying out, construction, or maintenance of the roads, highways, rest areas, and other public grounds in the State of Texas. Such insurance shall be provided by the purchase of a policy or policies for that purpose from some reliable insurance company or companies authorized to transact such business in this state. All liability insurance so purchased shall be provided on a policy form or forms approved by the State Board of Insurance as to form and by the attorney general as to liability.

Sec. 2. Nothing herein shall be construed as a waiver of the immunity of the state from liability for the torts or negligence of the officers or employees of the state.

Sec. 1. To facilitate vehicular traffic throughout the State, to promote the agricultural and industrial development of the State, to assist in effecting traffic safety, to provide for the construction of modern expressways, to provide better connections between highways of the State of Texas and the highway system of adjoining states, including cooperation between states, the Texas Turnpike Authority, hereinafter created, is hereby authorized and empowered to construct, maintain, repair and operate Turnpike Projects (as hereinafter defined), and to issue turnpike bonds of the Texas Turnpike Authority, payable solely from the revenues of such projects.

Turnpike Revenue Bonds

Sec. 2. Turnpike revenue bonds issued under the provisions of this Act shall not be deemed to constitute a debt of the State or of any political subdivision thereof or a pledge of

the faith and credit of the State or of any such political subdivision, but such bonds shall be payable solely from the funds herein provided therefor from revenues. All such turnpike revenue bonds shall contain on the face thereof a statement to the effect that neither the State, the Turnpike Authority or any political subdivision of the State shall be obligated to pay the same or the interest thereon except from revenues of the particular project for which they are issued and that neither the faith and credit nor the taxing power of the State or any political subdivision thereof is pledged to the payment of the principal of or the interest on such bonds. The Turnpike Authority shall not be authorized to incur financial obligations which cannot be serviced from tolls or revenues realized from operating its projects as defined in this Act or from moneys provided by this Act.

#### Turnpike Authority; Membership

Sec. 3. There is hereby created an authority to be known as the "Texas Turnpike Authority," hereinafter sometimes referred to as the "Authority." By and in its name the Authority may sue and be sued, and plead and be impleaded. The Authority is hereby constituted an agency of the State of Texas, and the exercise by the Authority of the powers conferred by this Act in the construction, operation, and maintenance of turnpike projects shall be deemed and held to be an essential governmental function of the State.

The Board of Directors of the Authority (hereinafter in this Act sometimes called the "Board") shall be composed of directors, who shall occupy, respectively, places on the Board to be designated as Places 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, and 12. The Directors who will occupy Places 2, 3, 5, 6, 8, 9, 10, 11, and 12 shall be appointed by the Governor, by and with the advice and consent of the Senate. Appointed Directors shall serve staggered terms of six (6) years with the terms of one-third of the members expiring on February 15 of each odd-numbered year. Each Director appointed to fill Places 2, 3, 5, 6, 8, 9, 10, 11, and 12 shall have been a resident of the State and of the County from which he shall have been appointed for a period of at least one (1) year prior to his appointment.

The members of the Texas State Highway Commission at the time this Act becomes effective are hereby made Directors of said Authority, and if for any reason said Texas State Highway Commission at such time because of vacancies is composed of less than three (3) members, then the person or persons appointed to fill such vacancies are hereby made Directors of said Authority. The Highway Commissioners and their successors in office shall respectively and successively occupy Places 1, 4, and 7 on such Board. Each member of the Texas State Highway Commission shall serve ex officio as a member of the Board of Directors of such Authority. All Directors shall serve until their successors have been duly ap-

pointed and qualified, and vacancies in unexpired terms shall be promptly filled by the Governor.

All members of the Board of Directors shall be eligible for reappointment. All Directors shall have equal status and all Directors shall have a vote. Each member of the Board before entering upon his duties shall take an oath as provided by Section 1 of Article XVI of the Constitution of the State of Texas.

The Board shall elect one of the Directors as chairman and another as vice chairman, and shall elect a secretary and treasurer who need not be a member of the Board. Seven members of the Board shall constitute a quorum and the vote of a majority of the members present at any meeting shall be necessary for any action taken by the Board. No vacancy in the membership of the Board shall impair the right of a quorum to exercise all the rights and perform all the duties of the Board.

Before the issuance of any turnpike revenue bonds under the provisions of this Act, each Director shall execute a surety bond in the penal sum of Twenty-five Thousand Dollars (\$25,000) and the secretary and treasurer shall execute a surety bond in the penal sum of Fifty Thousand Dollars (\$50,000), each surety bond to be conditioned upon the faithful performance of the duties of his office, to be executed by a surety company authorized to transact business in the State of Texas as surety and to be approved by the Governor and filed in the office of the Secretary of State. The expense of such bonds shall be paid by the Authority.

Each appointed Director may be removed by the Governor for misfeasance, malfeasance or willful neglect of duty, but only after reasonable notice and public hearing unless the notice and public hearing are in writing expressly waived.

The members of the Authority shall not be entitled to any additional compensation for their services, but each member shall be reimbursed for his actual expenses necessarily incurred in the performance of his duties. All expenses incurred in carrying out the provisions of this Act shall be payable solely from funds provided under the authority of this Act and no liability or obligation shall be incurred by the Authority hereunder beyond the extent to which moneys shall have been provided under the authority of this Act.

The Legislature imposes on any Director, who may be a member of the State Highway Commission the extra duties required hereunder.

#### Incidental Powers

Sec. 6. The Authority shall have authority to construct grade separations at intersections of Turnpike Projects with railroads and with highways, and to change and adjust the lines and grades of such highways so as to accommodate the same to the design of such grade separation. The cost of such grade separations and any damage incurred in changing and adjusting the lines and grades of railroads or such highways shall be paid by the Authority as a part of the cost of such Turnpike Project.

If the Authority shall find it necessary to change the location of any portion of any highway, it shall cause the same to be reconstructed at such location as the Authority and the Texas Highway Department shall deem most favorable and of substantially the same type and in as good condition as the original highway. The cost of such reconstruction and any damage incurred in changing the location of any such highway shall be ascertained and paid by the Authority as a part of the cost of such Turnpike Project. No Project shall be instituted for the purpose of being substituted for or taking the place of an existing highway. Each Project shall be essentially an additional facility.

In addition to the foregoing powers, the Authority and its authorized agents and employees may enter upon any lands, waters and premises in the State for the purpose of mak-

ing surveys, soundings, drillings and examinations as it may deem necessary or appropriate for the purpose of this Act, and such entry shall not be deemed a trespass, nor shall any entry for such purposes be deemed an entry under any condemnation proceedings which may be then pending. The Authority shall make reimbursement for any actual damages resulting to such lands, waters and premises as a result of such activities.

The Authority also shall have power to make reasonable regulations for the installation, construction, maintenance, repair, renewal, relocation and removal of tracks, pipes, mains, conduits, cables, wires, towers, poles and other equipment and appliances (herein called "Public Utility Facilities") of any public utility, railroad or pipeline company, or of any person, in, on, along, over or under the Turnpike Project. Whenever the Authority shall determine that it is necessary that any Public Utility Facilities which now are, or hereafter may be, located in, on, along, over or under the Turnpike Project should be relocated in such Project, or should be removed from such Project, or should be carried along or across the Turnpike by grade separation, the owner or operator of such facilities shall relocate or remove the same in accordance with the order of the Authority; provided, however, that the cost and expenses of such relocation or removal or grade separation, including the cost of installing such facilities in a new location or new locations, and the cost of any land, or any rights, or interest in lands, and any other rights, acquired to accomplish such relocation or removal, and the cost of maintenance of grade separation structures, shall be paid by the Authority as a part of the cost of or cost of operating such Turnpike Project. In case of any such relocation or removal of facilities, the owners or operators of the same, their successors or assigns, may use and operate such facilities, with the necessary appurtenances, in the new location or new locations, for as long a period, and upon the same terms and conditions, as they had the right to maintain and operate such facilities in their former location or locations. Provided, however, notwithstanding anything contained herein to the contrary, the provisions of House Bill No. 393, Acts, Fifty-first Legislature, 1949, Chapter 228, Page 427,<sup>1</sup> shall apply to the erection, construction, maintenance, and operation of lines and poles owned by corporations organized under the Electric Cooperative Corporation Act of this State,<sup>2</sup> and all other corporations (including River Authorities created by the Legislature of this State) engaged in either the generation, transmission, or distribution of electric energy in Texas and whose operations are subject to the Judicial and Legislative processes of this State, over, under, across, upon and along any Project constructed by the Authority; provided, however, that the Authority shall have the same powers and duties as are delegated the State Highway Commission under the provisions of said House Bill No. 393, Acts, Fifty-

first Legislature, 1949, Chapter 228, Page 427, and further provided that notwithstanding anything contained herein to the contrary, the existing laws of the State of Texas applicable to the use of public roads, streets and waters of the State by telephone and telegraph corporations shall apply also to the erection, construction, maintenance, location and operation of lines, poles and other fixtures by telegraph and telephone corporations over, under, across, upon and along any Project constructed by the Authority.

The State of Texas hereby consents to the use of all lands owned by it, including lands lying under water, which are deemed by the Authority to be necessary for the construction or operation of any Turnpike Project. Provided, however, that nothing herein shall be construed as depriving the School Land Board of authority to execute leases in the manner authorized by law for the development of oil, gas and other minerals on State-owned lands adjoining any such Project, or in tidewater limits, and to this end such leases may provide for directional drilling from such adjoining land and tidewater area.

<sup>2</sup> Article 1528b.

#### Purchase of Property

Sec. 7. The Authority is hereby authorized and empowered to acquire by purchase, whenever it shall deem such purchase expedient, any land, property rights, right-of-ways, franchises, easements and other interests in lands as it may deem necessary for the construction or operation of any Turnpike Project upon such terms and at such price as may be considered by it to be reasonable and can be agreed upon between the Authority and the owner thereof, and to take title thereto in the name of the Authority.

The governing body of every county, city, town, political subdivision or public agency is authorized without any form of advertisement to make conveyance of title or rights and easements to any property needed by the Authority to effect its purposes in connection with the construction or operation of a Turnpike Project.

#### Condemnation of Property

Sec. 8. Whenever a reasonable price cannot be agreed upon, or whenever the owner is legally incapacitated, or is absent, unknown or unable to convey valid title, the Authority is hereby authorized, and empowered to acquire, by the exercise of the power of condemnation and in accordance with and subject to the provisions of any and all existing laws and statutes applicable to the exercise of the power of condemnation of property for public use, any land, property rights, right-of-ways, franchises, easements or other property deemed necessary or appropriate for the construction or the efficient operation of any Turnpike Project or necessary to the restoration of, public or private property damaged or destroyed; provided,

however, the Authority may not condemn any land except such as will be necessary for road and right-of-way purposes. The road and right-of-way purposes for which the Authority may condemn land, shall include the land necessary for access, approach, and interchange roads, but shall not include any supplemental facility for other purposes. Such supplemental facilities must be constructed upon land acquired by purchase and not by condemnation. In any condemnation proceedings the Court having jurisdiction of the suit, action or proceeding, may make such orders as may be just to the Authority and to the owners of the property to be condemned and may require an undertaking or other security to secure such owners against any loss or damage by reason of the failure of the Authority to accept and pay for the property, but neither such undertaking or security nor any act or obligation of the Authority shall impose any liability upon the State or the Authority except such as may be paid from the funds provided under the authority of this Act.

In all cases where property of an owner is severed by the Turnpike Project, the Authority shall pay the value of the property acquired and the severance damages, to the property remaining in the owner. Such severance damages shall include those arising from the inaccessibility of one tract to the other. The Authority shall provide and maintain at all times for the owner of such severed land, his employees and representatives, without charge, a passageway over or under the project, provided however that the Authority shall not be required to furnish such a passageway (1) if the owner waives such requirement, or (2) if the original tract or ownership involved is less than eighty acres. The Authority is hereby authorized and empowered to negotiate for, and purchase the land or either tract of the land severed, provided satisfactory terms may be agreed upon with the owner. All severed land acquired by the Authority, as herein provided, shall be sold and disposed of by the Authority within a period of two years after its acquisition.

In addition to any other power granted in this Act, the powers and procedure granted to and available to the State Highway Commission for acquisition of property, are likewise granted to and made available to the Authority, subject to the provisions of this Act.

#### Turnpike Revenue Bonds

Sec. 9. The Authority is hereby authorized to provide by resolution, from time to time, for the issuance of turnpike revenue bonds of the Authority for the purpose of paying all or any part of the cost of a Turnpike Project. Each Project shall be financed and built by a separate issue of bonds. The proceeds of no issue of bonds shall be divided between or among two or more projects. The cost of each Project shall be determined and set up as a separate project and undertaking. The principal of and the interest on such bonds shall be payable

solely from the funds herein provided for such payment and from the revenues of the particular project for which such bonds were issued. The bonds of each issue shall be dated, shall bear interest at such rate or rates, not exceeding five (5) per centum per annum, shall mature at such time or times, not exceeding forty (40) years from their date or dates, as may be determined by the Authority, and may be made redeemable before maturity, at the option of the Authority, at such price or prices and under such terms and conditions as may be fixed by the Authority prior to the issuance of the bonds.

The Authority shall determine the form of the bonds, including any interest coupons to be attached thereto, and shall fix the denomination or denominations of the bonds and the place or places of payment of principal and interest, which may be at any bank or trust company within or without the State. The bonds shall be signed by the Chairman of the Authority, or shall bear his facsimile signature, and the official seal of the Authority or a facsimile thereof shall be impressed or printed thereon, and attested by the Secretary and Treasurer of the Authority. Any coupons attached thereto shall bear the facsimile signature of the Chairman of the Authority. In cases where any officer whose signature or a facsimile of whose signature shall appear on any bonds or coupons shall cease to be such officer before the delivery of such bonds, such signature or such facsimile shall nevertheless be valid and sufficient for all purposes, the same as if he had remained in office until such delivery. All bonds issued under the provisions of this Act shall have and are hereby declared to have all the qualities and incidents of, and are hereby declared to be and are constituted negotiable instruments under the negotiable instruments law of the State. The bonds may be issued in coupon or in registered form, or both, as the Authority may determine, and provisions may be made for the registration of any coupon bonds as to principal alone and also as to both principal and interest, and for the reconversion into coupon bonds of any bonds registered as to both principal and interest. If the duty of such reconversion is imposed on the Trustee in a Trust Agreement as authorized under Section 11, the substituted coupon bonds need not be reapproved by the Attorney General of Texas, and they shall remain incontestable. The Authority may sell such bonds in such manner, either at public or at private sale, and for such price, as it may determine to be for the best interests of the Authority, but no such sale shall be made at a price so low as to require the payment of interest on the money received therefor at more than five (5) per centum per annum, computed with relation to the absolute maturity of the bonds in accordance with standard tables of bond values, excluding, however, from such computation the amount of any premium to be paid on redemption of any bonds prior to maturity.

The proceeds of the bonds of each issue shall be used solely for the payment of the Cost of the Turnpike Project for which such bonds shall have been issued, and shall be disbursed in such manner and under such restrictions, if any, as the Authority may provide in the resolution authorizing the issuance of such bonds or in the trust agreement hereinafter mentioned securing the same. If the proceeds of the bonds of any issue, by error of estimates or otherwise, shall be less than such Cost, additional bonds may in like manner be issued to provide the amount of such deficit, and, unless otherwise provided in the resolution authorizing the issuance of such bonds or in the trust agreement securing the same, shall be deemed to be of the same issue and shall be entitled to payment from the same fund without preference or priority of the bonds first issued. If the proceeds of the bonds of any issue shall exceed the Cost of the Turnpike Project for which the same shall have been issued, the surplus shall be deposited to the credit of the sinking fund for such bonds.

Prior to the preparation of definitive bonds, the Authority may, under like restrictions, issue interim receipts or temporary bonds, with or without coupons, exchangeable or definitive bonds when such bonds shall have been executed and are available for delivery. The Authority may also provide without reapproval by the Attorney General, for the replacement of any bonds which shall become mutilated or shall be destroyed or lost. Bonds may be issued under the provisions of this Act without obtaining the consent of any department, division, commission, board, bureau or agency of the State, and without any other proceedings or the happening of any other conditions or things than those proceedings, conditions or things which are specifically required by this Act.

Before the Authority may deliver any bonds issued hereunder to the purchaser thereof, the proceedings authorizing their issuance and securing the bonds shall be presented to the Attorney General of Texas for examination and approval. If the bonds shall have been duly authorized in accordance with the Constitution and laws of the State and constitute valid and binding obligations of the Authority, according to their tenor and effect, and proper charges against the revenues pledged to their payment, he shall approve the bonds. Without such approval the bonds cannot be so issued and delivered to the purchaser. The bonds when approved shall be registered by the Comptroller of Public Accounts of the State of Texas. After such approval and registration the bonds shall be incontestable.

#### Turnpike Revenue Refunding Bonds

Sec. 10. The Authority is hereby authorized to provide by resolution for the issuance of turnpike revenue refunding bonds of the Authority for the purpose of refunding any bonds then outstanding, issued on account of a Project, which shall have been issued under the

provisions of this Act, including the payment of any redemption premium thereon and any interest accrued or to accrue to the date of redemption of such bonds, and, if deemed advisable by the Authority, for the additional purpose of constructing improvements, extensions or enlargements to the Turnpike Project in connection with which the bonds to be refunded shall have been issued. The issuance of such bonds, the maturities and other details thereof, the rights of the holders thereof, and the rights, duties and obligations of the Authority in respect of the same, shall be governed by the provisions of this Act in so far as the same may be applicable. Within the discretion of the Authority the refunding bonds may be issued in exchange for outstanding bonds or may be sold and the proceeds used for the purpose of redeeming outstanding bonds.

#### Trust Agreement

Sec. 11. In the discretion of the Authority any bonds issued under the provisions of this Act may be secured by a trust agreement by and between the Authority and a corporate trustee, which may be any trust company or bank having the powers of a trust company within or without the State. Any such trust agreement may pledge or assign the tolls and other revenues to be received, but shall not convey or mortgage any Turnpike Project or any part thereof.

No trust agreement shall evidence a pledge of the revenues of any Project to any other purpose than for the payment of the cost of maintaining, repairing and operating the Turnpike Project and the principal of and interest on such bonds as the same shall become due and payable and to create and maintain reserves for such purposes, as prescribed in Section 12 hereof. Any such trust agreement or any resolution providing for the issuance of such bonds may contain such provisions for protecting and enforcing the rights and remedies of the bondholders as may be reasonable and proper and not in violation of law, including covenants setting forth the duties of the Authority in relation to the acquisition of property and the construction, improvement, maintenance, repair, operation and insurance of the Turnpike Project in connection with which such bonds shall have been authorized, and the custody, safeguarding and application of all moneys, and provisions for the employment of consulting engineers in connection with the construction or operation of such Turnpike Project. It shall be lawful for any bank or trust company incorporated under the laws of the State which may act as depository of the proceeds of bonds or of revenues to furnish such indemnifying bonds or to pledge such securities as may be required by the Authority. Any such trust agreement may set forth the rights and remedies of the bondholders and of the trustee, and may restrict the individual right of action by bondholders as is customary in trust agreements or trust indentures securing bonds and debentures of corpo-

rations. In addition to the foregoing, any such trust agreement may contain such provisions as the Authority may deem reasonable and proper for the security of the bondholders. All expenses incurred in carrying out the provisions of any such trust agreement may be treated as a part of the cost of the operation of the Turnpike Project.

#### Revenues

Sec. 12. The Authority is hereby authorized to fix, revise, charge and collect tolls for the use of each Turnpike Project and the different parts or sections thereof, and to contract with any person, partnership, association or corporation desiring the use of any part thereof, including the right-of-way adjoining the paved portion, for placing thereon gas stations, garages, stores, hotels, restaurants, or for any other purpose except for tracks for railroad or railway use, and except for use by telephone, telegraph, electric light or power lines and to fix the terms, conditions, rents and rates of charges for such use. Such tolls shall be so fixed and adjusted in respect of the aggregate of tolls from the Turnpike Project in connection with which the bonds of any issue shall have been issued as to provide a fund sufficient with other revenues, if any, to pay (a) the cost of maintaining, repairing and operating such Turnpike Project and (b) the principal of and the interest on such bonds as the same shall become due and payable, and to create reserves for such purposes. Such tolls shall not be subject to supervision or regulation by any other commission, board, bureau or agency of the State. The tolls and all other revenues derived from the Turnpike Project in connection with which the bonds of any issue shall have been issued, except such part thereof as may be necessary to pay such cost of maintenance, repair and operation and to provide such reserves therefor as may be provided for in the resolution authorizing the issuance of such bonds or in the trust agreement securing the same, shall be set aside at such regular intervals as may be provided in such resolution or such trust agreement in a sinking fund which is hereby pledged to, and charged with, the payment of (1) the interest upon such bonds as such interest shall fall due, (2) the principal of such bonds as the same shall fall due, (3) the necessary charges of paying agents for paying principal and interest, and (4) the redemption price or the purchase price of bonds retired by call or purchase as therein provided. The use and disposition of moneys to the credit of such sinking fund shall be subject to the provisions of the resolution authorizing the issuance of such bonds or of such trust agreement.

The revenues and disbursements for and on behalf of each Project shall be kept separately. No revenues of one Project shall be used to pay cost of another Project. The moneys in the sinking fund, less such reserve as may be provided in such resolution or trust agreement, if not used within a reasonable time for the

purchase of bonds for cancellation as above provided; shall be applied to the redemption of bonds at the redemption price then applicable.

#### Expenditures for Feasibility Studies

Sec. 12a. Notwithstanding the prohibitions contained in Section 12 or any other provision of this Act, Texas Turnpike Authority shall be authorized subject to the prior approval of the Texas Highway Commission to use any available revenues derived from any Turnpike Project, and to borrow money, and issue interest-bearing evidences of indebtedness or enter into a loan agreement or loan agreements, payable out of, and to pledge or hypothecate any available revenues anticipated to be derived from, the operation of any Turnpike Project, for the purpose of paying the expenses of studying the cost and feasibility and any other expenses relating to the preparation and issuance of Turnpike Revenue Bonds for the construction of any other Turnpike Project. The funds expended on behalf of any such new project shall be regarded as a part of the cost of such new project, and shall be reimbursed to the project from which such funds were disbursed out of the proceeds of Turnpike Revenue Bonds issued for the construction of any such new project.

#### Trust Funds

Sec. 13. All moneys received pursuant to the authority of this Act, whether as proceeds from the sale of bonds or as revenues, shall be deemed to be trust funds, to be held and applied solely as provided in this Act. The resolution authorizing the issuance of bonds of any issue or the trust agreement securing such bonds shall provide that any officer to whom, or any bank or trust company to which, such moneys shall be paid shall act as trustee of such moneys and shall hold and apply the same for the purpose thereof, subject to such regulations as this Act and such resolution or trust agreement may provide.

#### Remedies

Sec. 14. Any holder of bonds issued under the provisions of this Act or any of the coupons appertaining thereto, and the trustee under any trust agreement, except to the extent the rights herein given may be restricted by such trust agreement, may, either at law or in equity, by suit, action, mandamus, or other proceedings, protect and enforce any and all rights under the laws of the State or granted hereunder or under such trust agreement or the resolution authorizing the issuance of such bonds, and may enforce and compel the performance of all duties required by this Act or by such trust agreement, or resolution to be performed by the Authority or by any officer thereof, including the charging and collecting of tolls.

#### Exemption From Taxation

Sec. 15. The exercise of the powers granted by this Act will be in all respects for the benefit of the people of the State, for the increase of their commerce and prosperity, and for the

improvement of their health and living conditions, and as the operation and maintenance of Turnpike Projects by the Authority will constitute the performance of essential governmental functions, the Authority will not be required to pay any taxes or assessments upon any Turnpike Project or any property acquired or used by the Authority under the provisions of this Act or upon the income therefrom, and the bonds issued under the provisions of this Act, their transfer and the income therefrom, including any profit made on the sale thereof, shall at all times be free from taxation within the State.

#### Eligibility of Bonds

Sec. 16. All bonds of the Authority shall be and are hereby declared to be legal and authorized investments for banks, savings banks, trust companies, building and loan associations, savings and loan associations, insurance companies, fiduciaries, trustees, guardians, and for the sinking funds of cities, towns, villages, counties, school districts, and other political corporations or subdivisions of the State of Texas. Such bonds shall be eligible to secure the deposit of any and all public funds of the State of Texas, of any and all public funds of cities, towns, villages, counties, school districts and other political subdivisions of the State of Texas; and such bonds shall be lawful and sufficient security for said deposits to the extent of their face value or to the extent of their market value, whichever value is the smaller, when accompanied by all unmatured coupons appurtenant thereto.

#### Dallas-Fort Worth Turnpike Project

Sec. 17. The Authority is expressly authorized and required to take immediate steps to process the construction of a Project to be known as "Dallas-Fort Worth Turnpike," and to construct, maintain, repair and operate such Turnpike Project between the cities of Dallas and Fort Worth. The project shall extend from a convenient connecting point in the principal East-West highway artery through the City of Dallas in Dallas County, to a convenient connecting point in the principal East-West highway artery through the City of Fort Worth in Tarrant County, along a route to be approved by the Highway Commission of the State of Texas, to be situated for the greater part of its length between United States Highway No. 80 and State Highway No. 183, and shall embrace all bridges, tunnels, overpasses, underpasses, interchanges, entrance plazas, approaches, toll houses, service stations and administration, storage and other buildings which the Authority may deem necessary for the operation of the Project, together with all property rights, easements and interests which may be acquired by the Authority for the construction or the operation of the Project.

#### Existing Toll Roads as Part of Free Highway System

Sec. 18. The Authority hereby created is authorized, empowered and directed to receive and accept for the State of Texas as a part of

the free highway system thereof any toll road constructed and operated by a toll road corporation as described in Section 5, subsection (n), hereof, subject to the following conditions and requirements:

"1. That at the time of such acceptance such toll road shall be free and clear of any and all encumbrances.

"2. That no compensation whatsoever shall be required to be paid therefor by the State of Texas.

"3. That at the time of such acceptance by the Authority such toll road shall be in good condition and repair to the satisfaction of the State Highway Commission.

"4. That such toll road shall have been constructed and maintained in such a manner as to be equal or superior to the standards of the State Highway Commission.

"5. That in letting the contracts for the construction and maintenance of said road such toll road corporation shall have followed the methods and procedures as are used by the State Highway Commission of Texas in such matters.

"A toll road corporation as described in Section 5, subsection (n) hereof, shall be obligated to make an irrevocable gift of all of its assets to the State of Texas and shall irrevocably bind itself to use all of its net income or profits to retire the indebtedness created for the acquisition, construction, maintenance and operation of such road, and which corporation shall at the time of the acquisition of any real property execute such instruments as may be necessary to convey or transfer such real property to the State of Texas, which instruments shall be deposited in escrow with any banking corporation chartered under the laws of Texas or of the United States with an escrow agreement which shall authorize and empower said escrow agent to deliver such instruments of conveyance and transfer to the Authority herein created when the requirements and conditions set forth above have been met and complied with. The authority herein created is hereby authorized, empowered and directed on behalf of the State of Texas to execute such instruments as may be necessary to complete such escrow agreement.

"The equitable, beneficial and superior title to the property belonging to a corporation described in Section 5, subsection (n) hereof, which is subject to an escrow agreement provided herein shall be vested at all times in the State of Texas and shall constitute public property used for public purposes, subject only to any liens or encumbrances created against said property by such corporation to finance the acquisition, construction, maintenance or operation of such road, and the board of directors of such corporation is hereby autho-

rized and empowered to pledge, mortgage or otherwise encumber any of its properties or revenues, whether realized or unrealized, for such purposes, and the authorities herein created shall be required to execute such instruments of consent and subordination as may be required to give and grant such corporation such rights to pledge, mortgage or otherwise encumber its property for the purposes above set forth and, provided further, that neither the State of Texas nor any of its political subdivisions nor the Authority herein created shall ever be liable in any way for any indebtedness created by such a corporation or for any claim, demand, or obligation of any kind which may arise or be asserted against such a corporation, and that all bonds or other evidences of indebtedness of such corporation shall contain a statement to that effect on the fact thereof."

#### Cessation of Tolls

Sec. 19. When all bonds issued under the provisions of this Act in connection with any Turnpike Project, and the interest thereon shall have been paid or a sufficient amount for the payment of all such bonds and the interest thereon to the maturity thereof or for the redemption thereof, shall have been set aside in trust for the benefit of the bondholders, such Project, if then in good condition and repair to the satisfaction of the State Highway Commission, shall become part of the State Highway Commission and shall thereafter be maintained by the State Highway Commission, free of tolls. But if at the time such bonds are so paid or the redemption thereof so provided for, the State Highway Commission determines that the Project is not in such state of repair as justifies its acceptance as a part of the State Highway System, the Authority shall continue to operate the Project as a toll facility, and shall continue the tolls then in effect or revise the tolls so as to provide money sufficient to assure payment of the expense of maintenance and operation, and the making of such repairs and replacements as are necessary to meet the minimum requirements of the State Highway Commission within the shortest practicable time. Any money remaining to the credit of such Project after retirement of all of the bonds issued on its account—shall, upon acceptance of the Project by the State Highway Commission, be delivered by the Authority to the State Highway Commission and shall be held by it as a special reserve fund to assure continued maintenance of the facilities comprising the Project, to be administered under rules and regulations to be prescribed by the State Highway Commission. When the bonds issued to finance a Turnpike Project are fully paid and the Turnpike Project has been accepted by the State Highway Commission as provided for in this Section 19, within one (1) year from date of acceptance of said Project, including all the installations thereon, except-

ing only the road bed and highway sections, the State Highway Department shall advertise for public sale all of said installations which may have been acquired as provided in Section 12 hereof, and shall receive sealed bids therefor. It may reject any or all bids but shall dispose of all such properties within two (2) years after accepting title to the Turnpike Project.

#### Preliminary Expenses

Sec. 20. The State Highway Commission is hereby authorized in its discretion, if and to the extent requested by the Authority, to expend out of any funds available for the purpose, such moneys as may be necessary for the study of a Project and to use its engineering and other forces, including consulting engineers and traffic engineers, for the purpose of effecting such study and to pay for such additional engineering and traffic and other expert studies as it may deem expedient and all such expenses incurred by the State Highway Commission prior to the issuance of turnpike revenue bonds under the provisions of this Act, shall be paid by the State Highway Commission and charged to such Project, and the State Highway Commission shall keep proper records and accounts showing each amount so charged. Upon the sale of turnpike revenue bonds for any such project, the funds so expended by the State Highway Commission in connection with such Project shall be reimbursed to the State Highway Commission from the proceeds of such bonds.

#### Miscellaneous

Sec. 21. Each Turnpike Project when constructed and opened to traffic shall be maintained and kept in good condition and repair by the Authority. Each such project shall also be policed and operated by such force of police, toll-takers and other operating employees as the Authority may in its discretion employ. Within its discretion the Authority may make arrangements with the Department of Public Safety for the services of police officers of that Agency.

All private property damaged or destroyed in carrying out the powers granted by this Act shall be restored or repaired and placed in its original condition as nearly as practicable or adequate compensation made therefor out of funds provided under the authority of this Act.

All counties, cities, villages and other political subdivisions and all public agencies and commissions of the State of Texas, notwithstanding any contrary provision of law, are hereby authorized and empowered to lease, lend, grant or convey to the Authority at its request, upon such terms and conditions as the proper authorities of such counties, cities, villages, other political subdivisions or public agencies and commissions of the State may deem reasonable and fair and without the necessity for any advertisement, order of court or other action or formality, other than the regular and formal action of the authorities con-

cerned, any real property which may be necessary or appropriate to the effectuation of the authorized purposes of the Authority, including highways and other real property already devoted to public use.

An action by the Authority may be evidenced in any legal manner, including a resolution adopted by its Board of Directors.

Any member, agent or employee of the Authority who contracts with the Authority or is interested, either directly or indirectly, in any contract with the Authority or in the sale of any property, either real or personal, to the Authority, shall be punished by a fine of not more than One Thousand Dollars (\$1000).

Any person who uses any turnpike project and fails or refuses to pay the toll provided therefor, shall be punished by a fine of not more than One Hundred Dollars (\$100) and in addition thereto the Authority shall have a lien upon the vehicle driven by such person for the amount of such toll and may take and retain possession thereof, until the amount of such toll and all charges in connection therewith shall have been paid.

On or before the thirty-first day of March in each year the Authority shall make an annual report of its activities for the preceding calendar year to the Governor and to the Legislature. In making such report, each project shall be listed and reported separately. Each such report shall set forth a complete operating and financial statement covering its operations for each project during the year. The Authority shall cause an audit of its books and accounts to be made at least once in each year by certified public accountants and the cost thereof may be treated as a part of the cost of construction or of operation of the Turnpike Project.

#### Additional Method

Sec. 22. The foregoing sections of this act shall be deemed to provide an additional and alternative method for the doing of the things authorized thereby, and shall be regarded as supplemental and additional to powers conferred by other laws, and shall not be regarded as in derogation of any powers now existing; provided, however, that the issuance of turnpike revenue bonds or turnpike revenue refunding bonds under the provisions of this Act need not comply with the requirements of any other law applicable to the issuance of bonds.

#### Act Liberally Construed

Sec. 23. This Act, being necessary for the welfare of the State and its inhabitants, shall be liberally construed to effect the purposes thereof.

[Acts 1953, 53rd Leg., p. 967, ch. 410; Acts 1969, 61st Leg., p. 1053, ch. 346, § 1, eff. Sept. 1, 1969; Acts 1971, 62nd Leg., p. 3411, ch. 1042, §§ 1, 2 eff. June 17, 1971.]

See note under article 1436a.*

**Art. 6674w. Purpose; Definitions**

**Purposes.** The Legislature finds, determines and declares that the purpose of this Act is to delegate certain additional authority to the State Highway Commission to promote the Public Safety, to facilitate the movement of traffic, to preserve the financial investment of the public in its highways and to promote the National Defense.

**Definitions.** Wherever used in this Act, "Controlled Access Highway" means any designated State Highway within or without the limits of any incorporated city, town or village, whether under the General Laws or by special charter, including Home Rule Charter Cities, to or from which access is denied or controlled, in whole or in part, from or to abutting land or intersecting streets, roads, highways, alleys or other public or private ways.

Wherever used in this Act, "Person" means any person, individual, individuals, corporation, association, and/or firm.

[Acts 1957, 55th Leg., p. 724, ch. 300, § 1.]

**Art. 6674w-1. Powers of Commission**

1. **Authorization for Modernization of Highway Facilities.** To effectuate the purposes of this Act, the State Highway Commission is empowered to lay out, construct, maintain, and operate a modern State Highway System, with emphasis on the construction of controlled access facilities and to convert, wherever necessary, existing streets, roads and highways into controlled access facilities to modern standards of speed and safety; and, to plan for future

highways. The State Highway Commission is further empowered to lay out, construct, maintain and operate any designated State Highway, now or hereafter constructed, with such control of access thereto as is necessary to facilitate the flow of traffic, and promote the Public Safety and Welfare, in any area of the State, whether in or outside of the limits of any incorporated city, town or village, including Home Rule Cities, and to exercise all of the powers and procedures to it granted by existing laws and this Act for the accomplishment of such purposes and the exercise of such powers and duties; provided, however, that in the case of any project involving the bypassing of or going through any county, city, town, or village, including Home Rule Cities, the State Highway Commission shall afford the opportunity for not less than one (1) public hearing in the locality before an authorized representative of the State Highway Commission, at which persons interested in the development of the project shall have the opportunity for attendance, discussion and inspection of the design and schematic layout presented and filed with the governing body of such county, city, town or village, including Home Rule Cities, at least seven (7) days before the public hearing, by the State Highway Department. Such hearing shall be held not less than three (3) days nor not more than ten (10) days after the publication in the locality of notice of such hearing.

2. **Control of Access.** The State Highway Commission, by proper order entered in its minutes, is hereby authorized and empowered:

(a). To designate any existing or proposed State Highway, of the Designated State Highway System, or any part thereof, as a Controlled Access Highway;

(b). To deny access to or from any State Highway, presently or hereafter designated as such, whether existing, presently being constructed, or hereafter constructed, which may be hereafter duly designated as a Controlled Access Highway, from or to any lands, public, or private, adjacent thereto, and from or to any streets, roads, alleys, highways or any other public or private ways intersecting any such Controlled Access Highway, except at specific points designated by the State Highway Commission; and to close any such public or private way at or near its point of intersection with any such Controlled Access Highway;

(c). To designate points upon any designated Controlled Access Highway, or any part of any such highway, at which access to or from such Controlled Access Highway shall be permitted, whether such Controlled Access Highway includes any existing State Highway or one hereafter constructed and so designated;

(d). To control, restrict, and determine the type and extent of access to be permitted at any such designated point of access;

(e). To erect appropriate protective devices to preserve the utility, integrity, and use of such designated Controlled Access Highway; and,

(f). To modify or repeal any order entered pursuant to the powers herein granted.

Provided, however, that nothing in the foregoing subparagraphs (a) through (f), inclusive, shall be construed to alter the existing rights of any person to compensation for damages suffered as a result of the exercise of such powers by the State Highway Commission under the Constitution and laws of the State of Texas.

Subject to the foregoing limitations any order issued by the State Highway Commission pursuant to such powers shall supersede and be superior to any rule, regulation or ordinance of any department, agency or subdivision of the State or any county, incorporated city, town or village, including Home Rule Cities, in conflict therewith.

No injunction shall be granted to stay or prevent the denial of previously existing access to any State Highway upon the order of the Commission except at the suit of the owner or lessee of real property actually physically abutting on that part of such State Highway to which such access is to be denied pursuant to the Commission's order, and then only in the event that said abutting owner or lessee shall not have released his claim for damages resulting from such denial of access or a condemnation suit shall not have been commenced to ascertain such damages, if any.

Along new Controlled Access State Highway locations, abutting property owners shall not be entitled to access to such new Controlled Access State Highway locations as a matter of right, and any denial of such access shall not be deemed as grounds for special or exemplary damages, except where access to such new Controlled Access State Highway shall have been specifically authorized by the State Highway Commission to or from particular lands abutting upon such new Controlled Access State Highway in connection with the purchase or condemnation of lands or property rights from such abutting owners to be used in such new Controlled Access State Highway location, and the State Highway Commission thereafter denies access to or from such particular abutting lands to such State Highway at the point where such lands actually abut upon such State Highway.

In the event the State Highway Department acquires any property through the exercise of the power of Eminent Domain, the Comptroller of Public Accounts is hereby authorized to issue such warrants as the judgment of the Court may decree, as well as such warrants necessary to be deposited into the Court to entitle the State Highway Department, in the name of the State of Texas, to take possession of such property, as the law may provide.

[Acts 1957, 55th Leg., p. 724, ch. 300, § 3.]

#### Art. 6674w-3. Acquisition of Property

In addition to other powers conferred by law, the following are added, to wit:

1. Powers of Purchase and Condemnation for Highway Purposes. (a) Any land in fee simple or any lesser estate or interest therein; any property rights of any kind or character including, but not limited to, rights of ingress and egress and reservation rights in land which restrict or prohibit the adding of new, or addition to or modification of existing improvements on such land, or subdividing the same; and any timber, earth, stone, gravel, or other material; which the State Highway Commission may in its judgment determine to be necessary or convenient to any State Highway to be constructed, reconstructed, maintained, widened, straightened or lengthened including, but not limited to, any land, property rights or materials deemed by the State Highway Commission necessary or convenient for the purpose of protecting any State Highway; draining any State Highway; diverting streams or rivers or any other watercourse from the right of way of any State Highway; storing materials and equipment used in the construction and maintenance of State Highways; constructing and operating warehouses and other buildings and facilities used in connection with the construction, maintenance, and operation of State Highways; laying out, construction, and maintenance of roadside parks; and any

other purpose related to the laying out, construction, improvement, maintenance, beautification, preservation and operation of State Highways, may be purchased by the State Highway Commission in the name of the State of Texas, on such terms and conditions and in such manner as the Highway Commission may deem proper.

(b) Any land or any estate or interest therein; any property rights of any kind or character including, but not limited to, rights of ingress and egress, and reservation rights in land which restrict or prohibit for any period of time not to exceed seven (7) years the adding of new, or addition to or modification of existing improvements on such land, or subdividing or resubdividing same; and any timber, earth, stone, gravel, or other material; which the State Highway Commission may in its judgment determine to be necessary or convenient to any State Highway to be constructed, reconstructed, maintained, widened, straightened or lengthened including, but not limited to, any land, property rights or materials deemed by the State Highway Commission necessary or convenient for the purpose of protecting any State Highway; draining any State Highway; diverting streams or rivers or any other watercourse from the right of way of any State Highway; and any other purpose related to the laying out, construction, improvement, maintenance, and operation of State Highways, may be acquired by the exercise of the power of Eminent Domain by the State Highway Department in the name of the State of Texas in the manner hereinafter provided.

The purchase or power of Eminent Domain being hereby authorized is granted regardless of the location of any such land, property rights, or materials to be acquired, whether within or without the confines of any incorporated city, town or village, whether same are incorporated under general or special laws, including Home Rule Cities.

In the prosecution of any condemnation suit brought by the State Highway Commission in the name of the State of Texas for the acquisition of property pursuant to the powers granted in this Act, the Attorney General, at the request of the State Highway Commission, or, at the Attorney General's direction, the applicable County or District Attorney or Criminal District Attorney, shall bring and prosecute the suit in the name of the State of Texas and the venue of any such suit shall be in the county in which the property or a part thereof is situated.

In the exercise of the powers of Eminent Domain herein conferred, the State Highway Department shall be subject to the laws and procedures prescribed by Title 52,

Articles 3264 to 3271, inclusive, Revised Civil Statutes of Texas, 1925, as said Articles or said Title have been or may be from time to time amended, and shall be entitled to condemn the fee or such lesser estate or interest as it may specify in any statement or petition in any condemnation proceeding filed by it pursuant to such powers; provided however, that any statement or petition in condemnation brought by the State Highway Department pursuant hereto shall exclude from the estate sought to be condemned all the oil, gas and sulphur which can be removed from beneath the land condemned without any right whatever remaining to the owners of such oil, gas and sulphur of ingress or egress to or from the surface of the land condemned for the purpose of exploring, developing, drilling or mining of the same; and further provided, that none of the powers granted herein shall be a grant to the State Highway Commission for the purpose of condemning property which is used and dedicated for cemetery purposes pursuant to Articles 912a-10 et seq., Vernon's Revised Civil Statutes of Texas.

2. State and Other Public Lands. The governing body of every county, city, town, village, political subdivision or public agency is hereby authorized without any form of advertisement to make conveyance of title or rights and easements, owned by any such body, to any property needed by the State Highway Commission to effect its purposes in connection with the construction or operation of the State Highway System.

Whether purchased or condemned by the State Highway Commission, the lands, property rights and materials which are purchased or condemned may also include those belonging to the public, whether under the jurisdiction of the State or any department or agency thereof, county, city, town, village, including Home Rule Cities, or other entity or subdivision thereof.

The State of Texas hereby consents to the use of all lands owned by it, including lands lying underwater, which are deemed by the State Highway Commission to be necessary for the construction or operation of any State Highway; provided, however, that nothing herein shall be construed as depriving the School Land Board of authority to execute leases in the manner authorized by law for the development of oil, gas and other minerals on State-owned lands adjoining any such State Highway, or in tidewater limits, and to this end such leases may provide for directional drilling from such adjoining land and tidewater area. The State Highway Commission shall advise, and make arrangements with, the State Department or agency having jurisdiction over such lands to accomplish such necessary purposes. Any such State

Department or agency is hereby directed to cooperate with the State Highway Department in this connection, and as to any such department or agency not expressly authorized to act through some designated representatives, express authority is hereby granted to such department or agency to do whatever acts are necessary hereunder by and through the Chairman of its Board, Department Head, or Executive Director, whether appointed or elected, whichever may be appropriate.

If the land, property rights, or material to be acquired by the State Highway Department are of such a nature that its acquisition under the provisions of this Act will deprive any such department or agency of the State of a thing of value to such department or agency in the exercise of its lawful functions, then adequate compensation therefor shall be made, based upon vouchers drawn for this purpose payable to the furnishing department or agency. Payments received by the furnishing department or agency shall be credited to that department's or agency's current appropriation items or accounts from which the expenditures of that character were originally made, or if no such items or accounts from which the expenditures of that character were originally made, or if no such item or account exists, then to an account of such department or agency determined to be appropriate thereto by the Comptroller of Public Accounts.

In the event, but only in the event, the Highway Department and such other department or agency are unable to agree upon adequate compensation, then the Board of Control shall determine the fair, equitable and realistic compensation to be paid.

[Acts 1957, 55th Leg., p. 724, ch. 300, § 4.]

#### Art. 6674w-4. Relocation of Utility Facilities

Whenever the relocation of any utility facilities is necessitated by the improvement of any highway in this State which has been or may hereafter be established by appropriate authority according to law as a part of the National System of Interstate and Defense Highways, including extensions thereof within urban areas, such relocation shall be made by the utility at the cost and expense of the State of Texas provided that such relocation is eligible for Federal participation. Reimbursement of the cost of relocation of such facilities shall be made from the State Highway Fund to the utility owning such facilities, anything contained in any other provision of law or in any permit, or agreement or franchise issued or entered into by any department, commission or political subdivision of this State to the contrary notwithstanding. The term "utility" includes publicly, privately, and cooperatively owned utilities engaged in furnishing telephone, telegraph, communications, electric, gas,

heating, water, railroad, storm sewer, sanitary sewer or pipeline service. The term "cost of relocation" includes the entire amount paid by such utility properly attributable to such relocation after deducting therefrom any increase in the value of the new facility and any salvage value derived from the old facility, and otherwise as may be fixed by regulations for Federal cost participation. It is further provided that by agreement with the affected utility the State Highway Department may relocate such utility facility in accordance with the provisions hereof.

#### Art. 6674w-4a. Repealed by Acts 1971, 62nd Leg., p. 1212, ch. 293, § 6, eff. July 1, 1971

The repealed article provided for payment by the state of costs of relocating utility facilities and of street improvements necessitated by highway construction, and was derived from Acts 1957, 55th Leg., p. 724, ch. 300, § 4B, as added by Acts 1971, 62nd Leg., p. 1204, ch. 292, art. 5, § 5.

#### Art. 6674w-5. Additional Methods and Precedence of Act in Cases of Conflict

The powers, authority, jurisdiction and procedures granted to the State Highway Department and State Highway Commission in the foregoing Sections of this Act shall be deemed to provide additional powers, authority, jurisdiction, and procedures to those now existing and conferred by the laws of the State of Texas upon the State Highway Department and State Highway Commission and shall not be regarded as in derogation of any powers, authority, jurisdiction, or procedures now existing under the laws of Texas, except that restrictions placed upon the powers, authority, jurisdiction or procedures of the State Highway Department and State Highway Commission by other laws, which are in derogation of, or inconsistent with the powers, authority, jurisdiction and procedures prescribed in the foregoing Sections of this Act or which would tend to hamper or limit the State Highway Department and State Highway Commission in the lawful execution of the powers and authority granted by this Act for the proper accomplishment of its purposes, shall be deemed to have been superseded by the provisions hereof, and, to the extent that any other law is in conflict with or inconsistent with the provisions hereof, the provisions of this Act shall take precedence and be effective.

The powers granted to the State Highway Department and State Highway Commission by this Act to perform acts and exercise powers within the limits of counties, incorporated cities, towns and villages, including Home Rule Cities, may be exercised without the consent or agreement of any such county, city, town or village, including Home Rule Cities, after complying with Subsection 1 of Section 2 hereof, and whenever the State Highway Department or the State Highway Commission performs any act or exercises any power within the limits of any county, incorporated city, town or village, including Home Rule Cities, as authorized in

this Act, such act or exercise of power shall qualify and render inexclusive the dominion of such counties, cities, towns or villages, including Home Rule Cities, with respect to the specific streets, alleys, and other public ways affected by such act or exercises of power, but only to the specific extent to which such act or the exercise of such power affects such streets, alleys and other public ways and their use.

Each such application shall be signed by the owner of the vehicle, and shall give his name and address in full, and shall contain a brief description of the vehicle to be registered. The description, in case of a new motor vehicle, shall include: the trade name of the vehicle; the year model; the style, type of body and the weight, if a passenger car, or the net carrying capacity and gross weight if a commercial motor vehicle; the motor number; the date of sale by manufacturer or dealer to the applicant. The application shall contain such other information as may be required by the Department.

(b) It is expressly provided that the owner of a vehicle previously registered in any State for the preceding or current year may, in lieu of filing an application as hereinbefore directed, present the license receipt and transfer receipts, if any, issued for the registration or transfer of the vehicle for the preceding calendar year, and the receipt or receipts shall be accepted by the County Tax Collector as an application for the renewal of the registration of the vehicle, provided the receipts show that the applicant is the rightful owner thereof. Provided, however, that if an owner or a claimed owner offering to register a vehicle has lost or

misplaced the registration receipt or transfer, then upon his furnishing satisfactory evidence to the Tax Collector by affidavit or otherwise that he is the real owner of the vehicle, it shall become the duty of the Tax Collector to issue him license therefor. It shall be the duty of the Tax Collector to date each registration receipt issued for the vehicle the same date that application is made for registration of such vehicle.

(c) Owners of motor vehicles, trailers and semi-trailers which are the property of and used exclusively in the service of the United States Government, the State of Texas, or any county, city or school district thereof, shall apply annually to the Department as provided in Section 3-aa of this Act<sup>1</sup> to register all such vehicles, but shall not be required to pay the registration fees herein prescribed, provided that affidavit is made at the time of registration by a person who has the proper authority that such vehicles are the property of and used exclusively in the service of the United States Government, the State of Texas, or a county, city or school district thereof, as the case may be. Owners of vehicles designed and used exclusively for fire fighting shall apply to the Department as provided in Section 3-aa of this Act to register all such vehicles, but shall not be required to pay the registration fees herein prescribed, provided that affidavit is made at the time of registration by a person who has the proper authority that such vehicles are used exclusively for fire fighting; and provided further, that such person shall supply the Department with a reasonable description of the vehicle and the fire fighting equipment mounted thereon.

Affidavit of the sheriff of the county in which said vehicle is registered that said vehicle has not been used for any purpose except emergency usage shall be required before said vehicle shall be so licensed. Provided, however, that each vehicle

so licensed shall be furnished an appropriate plate or tag indicating its status, which shall be displayed at all times.

(e) Owners of motor vehicles used in the conduct of consular affairs in this State by the representatives of any foreign government which maintains friendly relations with the United States shall apply to the Department annually to register the vehicles as provided by law. (f) Application shall be made for the registration of a new vehicle for the unexpired portion of the year in which it is acquired before it is operated on the public highways; except that a new vehicle may be operated temporarily by a dealer under the dealer's license number or by its purchaser under a special dealer card-board number, as provided in Chapter 211, General and Special Laws of the Regular Session of the Fortieth Legislature, as amended.<sup>2</sup> The year for the purpose of registration of motor vehicles shall be April 1st to March 31st of the next succeeding calendar year, and may be referred to as the "Motor Vehicle Registration Year"; and "current year" where used in the statutes relating to payment of registration fees shall mean that Vehicle Registration Year. However, once an owner obtains personalized plates, he will have first priority on those plates for each of the following years that he makes timely and appropriate application. Ninety-five per cent (95%) of each Ten Dollar fee collected by the Department under this Section shall be deposited in the State Treasury to the credit of the General Revenue Fund and the remaining five per cent (5%) shall be deposited in the State Treasury to the credit of the State Highway Fund to defray the costs of administration of this Section.

**Art. 6675a-5d. Credit for License Fees Paid on Motor Vehicles Subsequently Destroyed**

If the owner of any motor vehicle which is destroyed to such an extent that it cannot thereafter be operated upon the highways of this state transmits the license fee receipt and the license plates for the vehicle to the State Highway Department, he is entitled to a license fee credit if the prorated portion of the license fee for the remainder of the year is over \$15.00. The State Highway Department, upon satisfactory proof of the destruction of the vehicle, shall issue a license fee credit slip to the owner in an amount equal to the prorated portion of the license fee for the remainder of the year if it is over \$15.00. The owner of the vehicle at the time of destruction may during the same or the following registration year use the license fee credit slip as payment or part payment for the registration of additional vehicles to the extent of the license fee credit slip. The State Highway Department shall promulgate regulations necessary for the administration of this Act.

Any owner of a motor vehicle applying for a license fee credit under this Section shall execute a sworn statement upon a form provided by the State Highway Department showing that the license plates have been surrendered to the State Highway Department. This statement shall be delivered to the purchaser of the destroyed vehicle who may surrender this statement to the State Highway Department in lieu of the vehicle license plates.

**Art. 6675a-5e. Disabled Veterans and Their Transporters; Special License Plates; Fee Exemptions; Regulations**

(a) A veteran of the armed forces of the United States who, as a result of military service, has suffered at least a 70% service-connected disability, and who receives compensation from the federal government because of

such disability, is entitled to register, for his own personal use, one passenger car or light commercial vehicle having a manufacturer's rated carrying capacity of one (1) ton or less, without payment of the prescribed annual registration fee.

(b) An organization which owns a motor vehicle used exclusively for the transportation of disabled veterans without charge to them may register the vehicle without the payment of the prescribed annual registration fee. "Disabled veteran," as used in this subsection, means a veteran of the armed forces of the United States who, as a result of military service, has suffered a service-connected disability. A statement by the Veterans County Service Officer of the county in which the vehicle is registered or by the Veterans Administration that the vehicle is exclusively used for the transportation of disabled veterans without charge to them is satisfactory evidence that the organization is qualified under this subsection.

(c) The Highway Department shall provide for the issuance of specially designed license plates for persons and organizations who are qualified under this Act. The letters "DV" shall appear as either a prefix or a suffix to the numerals on the plates, and the words "DISABLED VET" shall also appear on the plates.

(d) Application for the specially designed license plates provided for in this Section shall be made on forms prescribed and furnished by the Department and must be submitted to the Department by October 1st preceding the Registration Year for which requested. Each application shall be accompanied by a fee of One Dollar (\$1.00) and such evidence as the Department may require as proof of the applicant's eligibility to receive the registration fee exemption.

(e) A vehicle on which these specially designed plates are displayed is exempt from the payment of parking fees, including those collected through parking meters, charged by any governmental authority other than a branch of the federal government.

(f) If during the registration year the owner disposes of the vehicle upon which the license plates issued under this Act are affixed, or if an organization ceases to use the vehicle on which the special license plates are affixed exclusively to transport disabled veterans, such plates are automatically cancelled and it shall be the responsibility of such owner to remove the license plates and return them to the Texas Highway Department for cancellation. Thereafter, the owner may qualify for another set of license plates as provided for in this Section.

(g) If the special license plates provided herein become lost, stolen, or mutilated, the owner of the vehicle may secure a set of replacement license plates from the Department for a fee of One Dollar (\$1.00).

(h) The fees provided for in this Section shall be deposited in the State Treasury to the credit of the State Highway Fund.

(i) The Department may promulgate such reasonable rules and regulations as it may deem necessary for the orderly administration of this Act.

**Art. 6675a-6. Fees; Commercial Motor Vehicles or Truck-Tractors**

The annual license fee for the registration of a commercial motor vehicle or truck tractor shall be based upon the gross weight and tire equipment of the vehicle as follows:

Gross Weight in Pounds	Fee per 100 Pounds or Fraction Thereof	
	Equipped with Pneumatic Tires	Equipped with Solid Tires
1- 6,000	\$ .44	\$ .55
6,001- 8,000	.495	.66
8,001-10,000	.605	.77
10,001-17,000	.715	.88
17,001-24,000	.77	.99
24,001-31,000	.88	1.10
31,001-and up	.99	1.32

The term "gross weight" as used in this Section shall mean the actual weight of the vehicle full equipped with body, and other equipment, as certified by any official Public Weigher or any License and Weight Inspector of the State Highway Department, plus its net carrying capacity. "Net carrying capacity" of any vehicle except a bus, as used in this Section, shall be the weight of the heaviest net load to be carried on the vehicle being registered; provided said net carrying capacity shall in no case be less than the manufacturer's rated carrying capacity. The "net carrying capacity" of a bus as defined in this Act shall be computed by multiplying its seating capacity by one hundred and fifty (150) pounds. The seating capacity of any such vehicle shall be the manufacturer's rated seating capacity exclusive of the driver's or operator's seat. The seating capacity of any such vehicle not rated by the manufacturer shall be determined by allowing one (1) passenger for each sixteen (16) inches that such vehicle will seat, exclusive of the driver's or operator's seat.

[Acts 1929, 41st Leg., 2nd C.S., p. 172, ch. 88, § 6; Acts 1941, 47th Leg., p. 144, ch. 110, § 5; Acts 1957, 55th Leg., p. 731, ch. 301, § 2(b).]

**Art. 6675a-6½. Registration and Fees; Combination of Truck Tractors or Commercial Motor Vehicles with Semitrailers**

(a) Notwithstanding the provisions of Sections 6 and 8 of this Act, as amended (Articles 6675a-6 and 6675a-8, Vernon's Texas Civil Statutes), the annual license fee for the registration of a truck tractor or commercial motor vehicle with a manufacturer's rated carrying capacity in excess of one (1) ton used or to be used in combination with a semitrailer having a gross weight in excess of six thousand (6,000) pounds shall be based on the combined gross

weight of all such vehicles used in the combination as follows:

Combined Gross Weight	Fee Per 100 lbs. or Fraction Thereof
*18,000-36,000	\$ .60
36,001-42,000	.75
42,001-62,000	.90
62,001-and up	1.00

\*(No such combination of vehicles may be registered for a combined gross weight of less than 18,000 pounds.)

In addition, semitrailers having gross weights in excess of six thousand (6,000) pounds used or to be used in combination with truck tractors or commercial motor vehicles with manufacturers' rated carrying capacities in excess of one (1) ton shall be registered for a "token" fee of Fifteen Dollars (\$15.00) for the Motor Vehicle Registration Year, regardless of the date such semitrailers are registered within said Registration Year, and the Fifteen Dollar (\$15.00) distinguishing license plates issued for such semitrailers shall be valid only when said vehicles are operated in combination with truck tractors or commercial motor vehicles that have been properly registered for their combined gross weight; provided, however, that the "token" fee for semitrailers shall not exempt such vehicles from the provisions of the Certificate of Title Act.

(b) For registration purposes, semitrailers which are converted to trailers by means of auxiliary axle assemblies shall retain their status as semitrailers.

(c) Truck tractors or commercial motor vehicles with manufacturers' rated carrying capacities in excess of one (1) ton used exclusively in combination with semitrailer-type vehicles displaying Five Dollar (\$5.00) distinguishing license plates for which such semitrailer-type vehicles are eligible under the provisions of this Act shall not be required to register in combination; provided, however, that such truck tractors or commercial motor vehicles continue to be registered as provided in Section 6 of this Act; and provided further, that the provisions of this section shall not apply to:

(1) vehicles registered or to be registered with United States Government license plates or exempt license plates issued by the State of Texas;

(2) truck tractors or commercial motor vehicles registered or to be registered with Five Dollar (\$5.00) distinguishing license plates for which such vehicles are eligible under the applicable registration statutes of this State;

(3) truck tractors or commercial motor vehicles used exclusively in combination with semitrailers of the housetrailer type; provided, however, that such truck tractors or commercial motor vehicles shall continue to be registered as provided in Section 6 of this Act; and, provided further that

semitrailers of the housetrailer type shall continue to be registered as provided in Section 8 of this Act;

(4) vehicles registered or to be registered with temporary registration permits for which such vehicles are eligible under the applicable registration statutes of this State;

(5) truck tractors or commercial motor vehicles registered or to be registered with Farm Truck or Farm Truck Tractor License Plates; provided, however, that such farm trucks or farm truck tractors shall continue to be registered as provided in Section 6a of this Act;<sup>1</sup> or

(6) truck tractors or commercial motor vehicles and semitrailers registered or to be registered with Soil Conservation License Plates; provided, however, that such truck tractors or commercial motor vehicles and semitrailers shall continue to be registered as provided in Subsection (h)(1), Section 2 of this Act,<sup>2</sup> based on the registration fees for truck tractors or commercial motor vehicles as prescribed in Section 6 of this Act, and the registration fees for trailers or semitrailers as prescribed in Section 8 of this Act.

(d)(1) The term "combined gross weight" as used in this section means the empty weight of the truck tractor or commercial motor vehicle combined with the empty weight of the heaviest semitrailer(s) used or to be used in combination therewith plus the heaviest net load to be carried on such combination during the Motor Vehicle Registration Year, provided that in no case may the combined gross weight be less than eighteen thousand (18,000) pounds.

(2) The term "empty weight" as used in this section means the actual unladen weight of the truck tractor or commercial motor vehicle and semitrailer(s) combination fully equipped, as officially certified by any public weigher or license and weight patrolman of the Texas Department of Public Safety.

#### Art. 6675a-6a. Registration Fee; Commercial Motor Vehicles Used Principally for Farm Purposes

When a commercial motor vehicle is to be used for commercial purposes by the owner thereof only in the transportation of his own poultry, dairy, livestock, livestock products, timber in its natural state, and farm products to market, or to other points for sale or processing, or the transportation by the owner thereof of laborers from their place of residence, and materials, tools, equipment and supplies, without charge, from the place of purchase or storage, to his own farm or ranch exclusively for his own use, or use on such farm or ranch, the registration license fee shall be fifty per cent (50%) of the registration fee

prescribed for weight classifications in Section 6 of this Act;<sup>1</sup> provided, however, that the additional use of the vehicle as a means of passenger transportation, without charge, of members of the family to attend church or school, to visit doctors for medical treatment or supplies, and for other necessities of the home or family shall not prevent its registration as a farm vehicle. Nothing in the foregoing shall be interpreted as permitting the use of a farm licensed vehicle in connection with other gainful employment. It shall be the duty of the Highway Commission to provide license plates for vehicles registered under this Section distinguishable from license plates used for other commercial vehicles using the highways. If the owner of any commercial motor vehicle registered under this Section shall use or permit to be used any such vehicle for any other purpose than those provided for in this Section, he shall be guilty of a misdemeanor and upon conviction shall be fined in any sum not less than Twenty-five Dollars (\$25) nor more than Two Hundred Dollars (\$200), and each use of such vehicle and each permission for such use of such vehicle shall constitute a separate offense. All commercial motor vehicles, truck tractors, road tractors, trailers and semi-trailers as defined in Section 1 of Chapter 23 of the General Laws of the Fifth Called Session of the Forty-first Legislature,<sup>2</sup> not coming within the provisions of this Section, shall be required to pay all registration and license fees prescribed by other provisions of this Act.

Sec. 1. When a commercial motor vehicle, truck tractor, trailer or semitrailer which has been registered by the owner, is used for the transportation of his own seasonal agricultural products to market, or to other points for sale or processing, or the transportation of seasonal laborers from their place of residence, and materials, tools, equipment and supplies, without charge, from the place of purchase or storage, to a farm or ranch exclusively for use on such farm or ranch, the owner may, by paying an additional fee, receive a short-term permit allowing him to haul loads of larger tonnage for a limited period of less than one (1) year. No such permit shall be issued for less than one (1) month, and no such permit shall extend beyond the expiration of the regular license. The fee shall be a percentage of the difference between the owner's regular annual registration fee and the annual fee for the desired ton-

nage, and shall be computed according to the following table:

1-month (or 30 consecutive days) ---	10%
1-quarter (3 consecutive months) ---	30%
2-quarters (6 consecutive months) ---	60%
3-quarters (9 consecutive months) ---	90%

The quarters for which such additional permits are to be issued shall be calendar quarters, the first such quarter to commence on April 1st of each year.

Sec. 3. The State Highway Department shall design, prescribe and furnish for each vehicle so registered, the necessary sticker, plate or other means of indicating the additional weight and period of time for which such additional registration is made.

To provide for the movement of commercial motor vehicles, trailers, and semi-trailers subject to registration by the State of Texas, which are not authorized to travel on the public roads of the State for lack of registration or for lack of reciprocity with the State or Country in which such vehicles are registered, the Texas Highway Department is authorized to issue temporary permits which shall be recognized as legal registration. However, such temporary permits shall not be issued for the importation of citrus fruit into Texas from a foreign country under the provisions of this Section except for foreign export or processing for foreign export.

**Fees; Conditions**

Sec. 2. A temporary permit valid for twenty-four (24) hours shall be issued for the fee of Five Dollars (\$5).

The twenty-four hour permit shall be valid for any period of time not to exceed twenty-four (24) hours from the effective date and time as shown on the receipt issued as evidence of such registration, and such permit shall provide only for the movement of each vehicle transporting property between Mexico and counties of this State which have a boundary contiguous with Mexico; provided that each such twenty-four hour permit shall be valid only within the county of entry and within one other county adjoining said county of entry as specified on said permit; providing, however, that each county involved must be contiguous to Mexico. Such temporary permits shall not be issued for the importation of citrus fruit into Texas from a foreign country under the provisions of this Section except for foreign export or processing for foreign export.

Sec. 4. Such temporary registration permits shall be issued by the County Tax Assessors-Collectors or by the Texas Highway Department upon receipt of proper application accompanied by the statutory fees, as prescribed by Section 2 above, in cash, postal money order, or certified check for each such vehicle to be operated or moved upon the public highways. All registration permit fees collected by the Texas Highway Department shall be deposited in the State Treasury to the credit of the State Highway Fund, and such fees collected by the County Tax Assessors-Collectors shall be reported and deposited the same as all other registration fees as provided by Section 10, Chapter 88, Acts of the Forty-first Legislature, Second Called Session, 1929, as amended by Section 2, Chapter 301, Acts of the Fifty-fifth Legislature, Regular Session, 1957 (codified in Vernon's Texas Civil Statutes as Article 6675a-10).

**Art. 6675a-6d. Temporary Permits for Commercial Motor Vehicles**

Purpose; Authority to Issue Temporary Permits in Lieu of Registration

Sec. 1. To provide for the movement of commercial motor vehicles, trailers, semitrailers, and motor buses owned by residents of the United States, or Canada, which are subject to registration by the State of Texas and which are not authorized to travel on the public roads of the State for lack of registration or for lack of reciprocity with the State of the United States or Canadian Province in which such vehicles are registered, the Texas Highway Department is authorized to issue temporary permits which will be recognized in lieu of registration.

Sec. 2. A temporary permit valid for seventy-two (72) hours shall be issued to each such vehicle for the fee of Ten Dollars (\$10), and such temporary permit shall be valid for any period of time not to exceed seventy-two (72) hours from the effective day and time as shown on the receipt issued as evidence of such registration. **Nonresidents; Operation of Motor Vehicle Without Registration**

Sec. 2. A nonresident owner of a motor vehicle, trailer, or semitrailer which has been duly registered for the current year in the State or Country of which the owner is a resident and in accordance with the laws thereof, may be allowed to operate said vehicles for the transportation of persons or property for compensation or hire without being registered in this State, provided the owner thereof does not exceed two (2) trips during any calendar month and remains on each of said trips within the State not to exceed four (4) days. Provided, that nothing in this Act shall prevent a nonresident owner of a motor vehicle from operating at will such vehicle in this State for the sole purpose of marketing farm products raised exclusively by him, nor a resident of an adjoining State or Country from operating at will a privately owned and duly registered vehicle not operated for hire in this State for the purpose of going to and from his place of regular employment and the making of trips for the purpose of purchasing goods, wares, and merchandise. And provided, further, that any nonresident owner of a privately owned vehicle may be permitted to make an occasional trip into this State with such vehicle under this Act without being registered in this State. It is also provided that a nonresident owner of a privately owned passenger car not operated for compensation or hire may be allowed to operate said passenger car if duly registered in his resident State or Country for the length of time the license plates are valid, provided the owner is a visitor in this State and does not engage in gainful employment or enter into any kind of business or occupation. It is expressly provided, that the foregoing privileges may only be allowed in the event that under the laws of such other State or Country like exceptions are granted to vehicles registered under the laws of and owned by residents of this State. Provided further, that nothing in this Act shall affect the rights or status of any vehicle owner under any Reciprocal Agreement between this State and any other State or Foreign Country.

**Trucks, Trailers, Etc., Used in Movement of Farm Products; Temporary Registration Permit to Nonresident Owners**

Sec. 2A. To expedite and facilitate, during the harvesting season, the harvesting and marketing of farm products produced in this State, the Department is authorized to issue to a nonresident owner a 30-day temporary registration permit for any truck, truck-tractor, trailer or semitrailer to be used in the movement of such farm commodities from the place of production to market, storage or railhead, not more than seventy-five (75) miles distant from such place

of production, or to be used in the movement of machinery used to harvest any of the commodities named in this section.

To expedite and facilitate, during the harvesting season, the harvesting and movement of farm products produced outside of Texas but marketed or processed in Texas or moved to points in Texas for shipment, the Department is authorized to issue to a nonresident owner a 30-day temporary registration permit for any truck, truck tractor, trailer or semitrailer to be used in the movement of such farm commodities from the point of entry into Texas to market, storage, processing plant, railhead or seaport not more than eighty (80) miles distant from such point of entry into Texas. All mileages and distances referred to herein are State Highway mileages. Before such temporary registration provided for in this paragraph may be issued, the applicant must present satisfactory evidence that such motor vehicle is protected by such insurance and in such amounts as may be described in Section 5 of the Texas Motor Vehicle Safety-Responsibility Act (Article 6701h, Vernon's Texas Civil Statutes) as it is now written or as it may hereafter be amended, and such policies must be issued by an insurance company or surety company authorized to write Motor Vehicle Liability Insurance in this State; and that such vehicle has been inspected as required under the Uniform Act Regulating Traffic on Highways in Texas (Article XV of Article 6701d, Vernon's Texas Civil Statutes) as it is now written or as it may hereafter be amended.

The Department is authorized to prescribe the form of the application and the information to be furnished therein for such temporary registration permits. If the application is granted, the Department shall issue a special distinguishing insignia which must be attached to such vehicle in lieu of the regular Texas Highway registration plates. Such special insignia shall show its expiration date. The temporary registration permit fee shall be one-twelfth ( $\frac{1}{12}$ ) of the annual Texas registration fee for the vehicle for which the special permit is secured.

The temporary permits herein authorized shall be issued only when the vehicle for which said permit is issued is legally registered in the nonresident owner's home state or country for the current registration year; and said permit will remain valid only so long as the home state or country registration is valid; but in any event the Texas temporary registration permit will expire 30 days from the date of issuance. Not more than three (3) such temporary registration permits may be issued to a nonresident owner during any one (1) vehicle registration year in the State of Texas. A vehicle registered under the terms of this Act may not be operated in Texas after the expiration of the temporary permit unless the nonresident owner secures a second temporary permit as provided above, or unless the nonresident owner registers the vehicle under the ap-

propriate Texas vehicular registration statutes, applicable to residents, for the remainder of the registration year. No such vehicle may be registered with a Texas farm truck license.

Any person who shall transport any of the commodities described in this Act, under a temporary permit provided for herein, to a market, place of storage, processing plant, railroad or seaport, which is a greater distance from the place of production of such commodity in this State, or the point of entry into the State of Texas than is provided for in said temporary permit, or shall follow a route other than that prescribed by the Highway Commission, shall be punished by a fine of not less than Twenty-five Dollars (\$25), nor more than Two Hundred Dollars (\$200).

Nothing in this Act shall be construed to authorize such nonresident owner or operator to operate or cause to be operated any of such vehicles in this State in violation of Chapter 314, Acts of the 41st Legislature, Regular Session, 1929, as amended (Article 911b, Vernon's Texas Civil Statutes) or any of the other laws of this State.

**Motor Vehicles Unauthorized to Travel on Roads for Lack of Registration; Temporary Registration for Transit Only**

Sec. 3. To provide for the movement of any vehicle subject to license by the State of Texas which is not authorized to travel on the public roads of the State for lack of registration or for lack of reciprocity with the state or country in which it is registered, the Department is authorized to temporarily register such vehicle upon application of the owner thereof. Such registration shall be for one (1) trip only between the points of origin and destination and such intermediate points as may be set forth in the application and registration receipt; and, except where the vehicle is a bus operating under charter which is not covered by a reciprocity agreement with the state or country in which it is registered, such registration shall be for the transit of the vehicle only, and the vehicle shall not at the time of the transit be used for the transportation of any passenger or property whatsoever, for compensation or otherwise. In no case shall such temporary registration be valid for a period longer than fifteen (15) days from the effective date of the registration.

Such registration may be obtained by submitting application therefor on a form prescribed and furnished by the Department, to the County Tax Collector of the county in which the vehicle is first to be operated on the public roads of this State, or to the Department in Austin, and by accompanying such application with a fee of Five Dollars (\$5) in cash, post office money order or certified check. **Art. 6686. Dealer's License; Notice of Sale or Transfer; Temporary License Plates**

(a) Dealer's and Manufacturer's License Plates for Unregistered Motor Vehicles, Motorcycles, House Trailers, Trailers, and Semitrailers.

(1) Dealer's License. Any dealer in motor vehicles, motorcycles, house trailers, trailers, or semitrailers doing business in this State may, instead of registering each vehicle he operates or permits to be operated for any reason upon the streets or public highways, apply for and secure a general distinguishing number which may be attached to any such vehicle he owns and operates or permits to be operated unregistered. A dealer within the meaning of this Act means any person, firm, or corporation customarily engaged in the business of buying, selling, or exchanging motor vehicles, motorcycles, house trailers, trailers, or semitrailers at an established and permanent place of business; provided, however, that at each such place of business a sign in letters at least six (6) inches in height must be conspicuously displayed showing the name of the dealership under which such dealer is doing business, and that each such place of business must have an office and sufficient space to display at least one (1) vehicle.

(2) Manufacturer's License. Any manufacturer of motor vehicles, motorcycles, house trailers, trailers, or semitrailers in this State may, instead of registering each new vehicle he may wish to test upon the streets or public highways, apply for and secure a general distinguishing number which must be attached to any such vehicle sent unregistered upon the highways for the purpose of testing; provided, however, that no load may be carried upon commercial motor vehicles so tested. A manufacturer within the meaning of this Act means any person, firm, or corporation who manufactures or assembles in this State new motor vehicles, motorcycles, house trailers, trailers, or semitrailers.

(3) Buyer's Temporary Cardboard Tags. Each dealer holding a current distinguishing number may issue temporary cardboard numbers, corresponding to such dealer's license number, which may be used by a buyer to operate an unregistered vehicle he purchased from said dealer for a period of ten (10) days from the date of purchase; provided, however, that a dealer may issue only one (1) buyer's tag to a purchaser for each unregistered vehicle said dealer sells. The specifications, color, and form of such buyer's cardboard tag shall be prescribed by the Department; provided, however, that each dealer shall be responsible for the safekeeping and distribution of all cardboard tags obtained by him; and furthermore, each dealer is responsible for showing in ink on each buyer's cardboard tag he issues the actual date of sale of each unregistered vehicle together with other information asked for thereon.

(4) Dealer's Temporary Cardboard Tags. Each dealer holding a current dis-

tinguishing number may issue temporary cardboard numbers, corresponding to such dealer's license number, which may only be used by such dealer or his employees for the following purposes:

[a] to demonstrate or cause to be demonstrated his unregistered vehicles to prospective buyers only for the purpose of sale; provided, however, that no provision of this Act shall be construed to prohibit a dealer from permitting a prospective buyer to operate such vehicles in the course of demonstration.

[b] to convey or cause to be conveyed his unregistered vehicles from the dealer's place of business in one part of the State to his place of business in another part of the State, or from his place of business to a place to be repaired, reconditioned, or serviced, or from the point in this State where such vehicles are unloaded to his place of business, including the moving of such vehicles from the State line to his place of business, and such vehicles displaying such tags while being so conveyed shall be exempt from the mechanical inspection requirements of Sections 140 and 141 of the Uniform Act Regulating Traffic on Highways.<sup>1</sup>

Such tags shall not be used to operate vehicles for the personal use of a dealer or his employees. Whenever a dealer sells an unregistered vehicle to a retail purchaser, it shall be such dealer's responsibility to remove the Dealer's Temporary Cardboard Tag and to display the Buyer's Temporary Cardboard Tag thereon pursuant to Subsection (3) of this Act. The specifications, form, and color of such dealer's cardboard tags shall be prescribed by the Department.

<sup>1</sup> Article 6701d, §§ 140, 141.

(5) Cancellation of License. It shall be the duty of the Department to cancel the dealer's or manufacturer's license issued to a person, firm or corporation when such license was obtained by submitting false or misleading information; and the Department is hereby authorized to cancel dealer's licenses whenever a person, firm, or corporation fails, upon demand, to furnish within thirty (30) days to the Department satisfactory and reasonable evidence of being customarily engaged in the business of buying, selling, or exchanging new or used motor vehicles, motorcycles, house trailers, trailers, or semitrailers at either wholesale or retail; and, it is also provided that the Department may cancel dealer's or manufacturer's licenses issued under this Act for the violation of any provisions of this Act or for the misuse or for allowing the misuse of any cardboard tag authorized under this Act; and, fur-

thermore, the Department is hereby authorized to cancel such licenses whenever a dealer refuses to show on such tags the date of sale or any other reasonable information required to be shown thereon by the Department; provided, however, that nothing in this Act shall be construed to prohibit new entries into the business of buying, selling, exchanging, or manufacturing such vehicles; and provided further that any dealer or manufacturer whose license was cancelled under the terms of this Act shall, within ten (10) days, surrender to a representative of the Department any and all license plates, cardboard tags, license stickers, or facsimiles thereof, and receipts issued pursuant to this Act. If any dealer or manufacturer shall fail to surrender to the Department the license plates, the cardboard tags, license stickers, or facsimiles thereof, and receipts as provided herein, the Department shall forthwith direct any peace officer to secure possession thereof and to return same to the Department. Whenever a dealer's or manufacturer's license is cancelled under the provisions of this Act, all benefits and privileges afforded to Texas licensed dealers or manufacturers under Article 1436-1, Penal Code of Texas, are automatically cancelled, also.

(6) Limited Use of Dealer's Plates and Tags. The use of dealer's license or facsimiles thereof is prohibited on service or work vehicles or on commercial vehicles carrying a load; provided, however, that a boat trailer carrying a boat will not be considered to be a commercial vehicle carrying a load, and a dealer complying with the provisions of this Act may affix to the rear of a boat trailer he owns or to the rear of a boat trailer he sells such dealer's distinguishing number or cardboard facsimiles thereof pursuant to the provisions of Subsections (1), (3) and (4) of this Act; and, further provided, that the term "commercial vehicle carrying a load" shall not be construed to prohibit the operation or conveyance of unregistered vehicles by licensed dealers (or buyers therefrom) utilizing the full mount method, the saddle mount method, the tow bar method, or any combination thereof, pursuant to Subsections (3) and (4) of this section.

(7) Fees and Forms. Each applicant for a dealer's or manufacturer's general distinguishing number shall pay to the Department an annual fee of Twenty-five Dollars (\$25) for the first such number desired and Ten Dollars (\$10) for each additional number desired, and all such fees shall be deposited in the State Highway Fund. Applications for a dealer's or manufacturer's license plate shall be made in writing on forms prescribed and furnished by the Department, and such applications

shall require any pertinent information to insure proper enforcement and administration; and, furthermore, each such application shall contain a statement to the effect that the applying dealer agrees to permit the Department to examine during working hours the ownership papers for each vehicle, registered or unregistered, in the possession of said dealer or under his control. All facts stated in an application shall be sworn to before an officer authorized to administer oaths and no dealer's or manufacturer's distinguishing number shall be issued until this Act is complied with. All such applications for dealer's or manufacturer's licenses, accompanied by the prescribed fee, should be made to the Department by January 15 of each year and the license plates for those applications meeting the provisions of this Act will be mailed to the applicants during the succeeding months of February and March. Each dealer's and manufacturer's license shall expire at the expiration of the "Motor Vehicle Registration Year."

(8) Defining Vehicle. The term "vehicle" as used in this Act shall be construed to mean motor vehicle, motorcycle, house trailer, trailer, and semitrailer as defined in Article 6675a-1, Revised Civil Statutes.

(9) Defining Department. The term "Department" as used in this Act means the "Texas Highway Department."

(10) Since the operation of vehicles registered in other states is restricted to residents of such states, a dealer who purchases vehicles displaying out-of-state license plates must immediately remove the license plates from such vehicles; and, furthermore, no dealer shall operate or allow to be operated in Texas, for any reason whatsoever, a vehicle displaying out-of-state license plates.

(11) Rules and Regulations. The Department is hereby authorized to promulgate reasonable rules and regulations for the orderly administration of this Act.

(12) Change of Address. It shall be the duty of any dealer or manufacturer as defined in this Act and to whom dealer's or manufacturer's license plates have been issued to notify the Department of a change of address within ten (10) days after such address change.

(13) Display of Dealer's License Plates. The general distinguishing number and all temporary cardboard tags issued pursuant to this Act shall be displayed in a manner conforming to the Department's regulations pertaining to the display of such plates and tags on unregistered vehicles operating on the streets or highways of this State.

(14) Unauthorized Reproduction of Temporary Cardboard Tags. No one other than a dealer as defined in this Act and to

whom a current distinguishing number has been issued shall be authorized to produce or reproduce by any means whatsoever a Buyer's or Dealer's Temporary Cardboard Tag, and, furthermore, no person, firm or corporation may operate vehicles displaying unauthorized cardboard tags. Any violation of the provisions of this Subsection shall be deemed a misdemeanor and the violator, upon conviction, shall be fined not less than Twenty-five Dollars (\$25) and not more than Two Hundred Dollars (\$200) and all costs of court.

(15) Penalty. Any dealer or manufacturer violating any provisions of this Act for the violation of which no other penalty is prescribed shall be deemed guilty of a misdemeanor, and on conviction, shall be fined not less than Twenty-five Dollars (\$25) nor more than Two Hundred Dollars (\$200) and all the costs of court.

(b) Any person, firm or corporation engaged in this State in the business of transporting and delivering by means of the full mount method, the saddle mount method, the tow bar method, or any other combination thereof, and under their own power, new vehicles and other vehicles, including house trailers, trailers and semi-trailers, from the manufacturer or any other point of origin to any point of destination within the State of Texas, shall make application to the State Highway Commission for a drive-a-way in-transit license. This application for annual license shall be accompanied by a registration fee of Fifty Dollars (\$50) and shall contain such information as the State Highway Commission may require. Upon the filing of the application and the payment of the fee, the State Highway Commission shall issue to each drive-a-way operator a general distinguishing number, which number must be carried and displayed by each motor vehicle in like manner as is now provided by law for vehicles while being operated upon public highways and such number shall remain on the vehicle or vehicles from the manufacturer, or any point of origin, to any point of destination within the State of Texas. Additional number plates bearing the same distinguishing number desired by any drive-a-way operator may be secured from the State Highway Commission upon the payment of a fee of Five Dollars (\$5) for each set of additional license plates. Any person, firm or corporation engaging in the business as a drive-a-way operator of transporting and delivering by means of full mount method, the saddle mount method, the tow bar method, or any combination thereof, and under their own power, new motor vehicles, who fails or refuses to file or cause to be filed an application, as is required by law, and to pay the fees therefor as the law requires, shall be found guilty of violating the provisions of this Act and upon conviction be fined not less than Fifty Dollars (\$50) and not more than Two Hundred Dollars (\$200) and all the costs of Court. Each day so operating without securing the license and plates as required herein

shall constitute a separate offense within the meaning of this Act. The funds collected herein shall be paid into the State Highway Fund of this State.

(c) Every motor vehicle that has been driven under its own power, or towed by another vehicle from the point where manufactured outside this State for the purpose of sale within this State, shall have affixed to the windshield or front thereof in plain view a sticker not less than three inches in diameter stating that such vehicle has been driven or towed from point where manufactured. Such notice shall remain on such vehicle until the sale thereof by the dealer.

(d) Manufacturer to Give Notice of Sale of<sup>1</sup> Transfer. Every manufacturer or dealer, upon transferring a motor vehicle, trailer, or semi-trailer, whether by sale, lease or otherwise, to any person other than a manufacturer or dealer, shall immediately give written notice of such transfer to the Registration Division of the State Highway Department upon the official form provided by the State Highway Department. Every such notice shall contain the date of such transfer, names and addresses of the transferrer and transferee and such description of the vehicle as may be called for in such official form.

<sup>1</sup> So in Session Laws. Probably should read "or."

(d)-1. The Department is authorized to issue or cause to be issued temporary license plates made of cardboard or other similar material to any person, firm, or corporation, other than manufacturers, dealers, or dealers' representatives, of motor vehicles, trailers, and semitrailers, authorizing them to drive or operate any new vehicle, provided same is not used to transport property, upon the public highways of this State from the manufacturer's place of business in another State or Country after having purchased said vehicle from a dealer in this State, and to drive or operate any new vehicle from another State or Country after having purchased said vehicle from a dealer in the other State or Country. It is further provided that the said temporary license plate shall not be valid for a period longer than thirty (30) days from date of issuance and that the Department shall place or cause to be placed on said license plates the date of expiration, and the type of vehicle for which each said temporary license plate is issued at the time it is issued. And provided, a fee of Three Dollars (\$3) shall be paid for each plate and that only one (1) plate shall be issued for each vehicle.

(e) All registration fees shall be paid in the county in which the owner lives at the time of registration of said motor vehicle.

(f) Any person found guilty of violating any of the provisions of this Act shall, upon conviction, be fined not less than Fifty (\$50.00) Dollars and not more than One Hundred Fifty (\$150.00) Dollars, and all costs of court.

A license shall not be issued to any applicant who has not passed the examination required in Sec-

tion 10 of Article 6687b, Vernon's Texas Civil Statutes. The Department shall carry out the duties required of it by the provisions of this Act in any manner that will expedite the performance of such duties, and in a manner that will provide the greatest convenience for the public; provided that any person who has satisfactorily completed and passed the classroom phase of an approved driver education course may apply to the Department for an instruction permit if he is at least fifteen (15) years of age, and the Department may, in its discretion, after the applicant has successfully passed all parts of the driver examination required in Section 10 of this Act, other than the driving test, issue to the applicant an instruction permit which shall entitle the applicant while having such permit in his immediate possession to drive a motor vehicle upon the public highways when accompanied by a licensed operator, commercial operator, or chauffeur, who is at least twenty-one (21) years of age and has had at least one (1) year of driving experience and who is occupying a seat beside the driver; and provided further the Department may issue a license to any person who has attained the age of fifteen (15) years where, in the opinion of the Department, (1) it appears that the failure or refusal to issue such license to any such person will work an unusual economic hardship on the family of the applicant for the license, or (2) it appears that a license should be granted to the applicant because of the sickness or illness of members of the family of the applicant, or (3) a failure to issue such license would be detrimental to the general welfare of the applicant or of his or her family, or (4) it appears that the applicant meets the requirements of Subsection (b), Section 12 of Article 6687b, Vernon's Texas Civil Statutes, and provided further that the applicant has taken and passed the examination required in Section 10 of Article 6687b, Vernon's Texas Civil Statutes. "General welfare of the applicant" as used in (3) above includes but is not limited to those persons between fifteen (15) and eighteen (18) years of age who are regularly enrolled in a vocational education program and who in the opinion of the Department require a driver's license to pursue that program. In no event shall an operator's license of any class be issued to any person of less than fifteen (15) years of age. Any person who has been refused a driver's license under the terms of this paragraph may appeal to the county court in the county in which he is a resident, where the matter may be tried upon request of petitioner or respondent. And provided further that a special combination operator and commercial operator restricted license may be issued to any person between the ages fifteen (15) and

eighteen (18) years to operate only a motorcycle, motor scooter or motorized bicycle, the piston displacement of any of which does not exceed 100 cc. This special restricted license shall be issued by the Driver's License Division of the Department on application to the Department in accordance with Section 7 of Article 6687b, Vernon's Texas Civil Statutes; shall be subject to the requirements of Section 10 of Article 6687b, Vernon's Texas Civil Statutes, and to other provisions of this Act in the same manner as operator's licenses; and shall be in the form as may be prescribed by the Department.

6. To any person, as an operator, commercial operator, or chauffeur, who has previously, by a court of competent jurisdiction, been adjudged insane or an idiot, imbecile, or feebleminded, and who has not, at the time of such application, been

restored to competency by judicial decree or released from a hospital for the insane or feeble-minded upon a certificate of the superintendent that such person is competent;

*[Text of subsection 8 as amended by Acts 1971, 62nd Leg., p. 1182, ch. 282]*

8. To any person when in the opinion of the Department such person is afflicted with or suffering from such physical or mental disability or disease as will serve to prevent such person from exercising reasonable and ordinary control over a motor vehicle while operating the same upon the highways, nor shall a license be issued to any person who is unable to understand highway warnings or direction signs in the English language; provided, however, no person shall be refused a license because of any physical defect unless it be shown by common experience that such defect incapacitates him from safely operating a motor vehicle;

*[Text of subsection 8 as amended by Acts 1971, 62nd Leg., p. 1936, ch. 586, § 2]*

Sec. 5. (a) No person who is under the age of eighteen (18) years shall drive any motor vehicle while in use as a school bus for the transportation of pupils to or from school, nor until he has been licensed as a chauffeur. It shall be unlawful for any person to be employed to drive a motor vehicle while in use as a school bus for the transportation of pupils who has not undergone a physical examination which reveals his physical and mental capabilities

to safely operate a school bus. Such physical examinations shall be conducted annually for each driver, thereafter. A pre-employment driver license check shall have been made with the Texas Department of Public Safety prior to the employment and the person's driving record must be acceptable according to standards developed jointly by the Central Education Agency and the Texas Department of Public Safety. Effective at such date and under provisions as may be determined by the Central Education Agency, the driver of a school bus shall have in possession a certificate stating he is enrolled in, or has completed, a driver training course in school bus safety education, which course has been approved jointly by the Central Education Agency and the Texas Department of Public Safety. The bus driving certificate shall remain valid for a period of three years. It shall be unlawful for any person presently employed as a school bus driver to continue to drive a school bus who does not obtain a physical examination prior to the beginning of the 1973-74 school year and whose driver's license check has not been made by his employer prior to the 1973-74 school year. Such physical and driver's license examinations shall meet the criteria set forth in this Act.

All statutes now prohibiting the operation of such motor vehicles for the transportation of junior college students and employees by said persons eighteen (18) years of age or over, are suspended in so far as junior colleges are concerned. Provided, however, that this Act will not apply to drivers of vehicles operated under permit or certificate issued by the Railroad Commission of Texas.

#### Motorcycle Operator's License

Sec. 5B. (a) "Operator" and "operator's license" as used in other sections of this Act, include "motorcycle operator" and "motorcycle operator's license" respectively.

(b) Beginning January 1, 1968, no person unless expressly exempted by this Act, shall operate a motorcycle upon a highway in this State unless he has a valid license as a motorcycle operator. An operator's license issued before January 1, 1968, is valid for operating a motorcycle until the license expires.

(c) In addition to the examination prescribed by Section 10 of this Act, the Department shall require an applicant for a motorcycle operator's license to operate a motorcycle in an off-street phase and an on-street mobile phase of a road test to determine his ability to exercise ordinary and reasonable control of a motorcycle. An applicant required to submit to a road test must provide a passenger vehicle and licensed driver to convey the license examiner during the road test. The Department shall refuse to give any part of the road test to an applicant who does not provide a passenger vehicle for the examiner.

#### Application for License

Sec. 6. (a) Every application for an original or renewal of an operator's, commercial operator's, or chauffeur's license shall be made upon a form furnished by the Department, and every original application shall be verified by the applicant before a person authorized to administer oaths, and officers and employees of the Department are hereby authorized to administer such oaths without charge. No officer or employee of the State shall be permitted to make any charge to administer such oaths. Every said application shall be accompanied by the required fee.

(b) Every said original application shall state the applicant's full name, place and date of birth, such information to be verified by presentation of a certified copy of the applicant's birth certificate or other documentary evidence deemed satisfactory by the Department. Such application shall also include the thumbprints, or if for any reason thumbprints cannot be taken, the index fingerprints of the applicant, and shall state the sex and residence address of the applicant, and briefly describe the applicant, and shall state whether the applicant has theretofore been licensed as an operator, commercial operator, or chauffeur, and, if so, when and by what state or country, and whether any such license has ever been suspended or revoked or whether an application has ever been refused, and, if so, the date of and reason for such suspension, revocation, or refusal, and such other information as the Department may require to determine the applicant's identity, competency and eligibility.

#### Application of Minors

Sec. 7. (a) The Department may license a person as an operator who is under the age of

eighteen (18) years, provided he is sixteen (16) years of age or older where such person has completed and passed a driver training course approved by the Department, and has passed the examination required by Section 10 of Article 6687b, Vernon's Texas Civil Statutes. The Department shall carry out the duties required of it by the provisions of this Act in any manner that will provide the greatest convenience to the public.

(b) The Department shall not grant the application of any minor under the age of eighteen (18) years for an operator's, commercial operator's, or chauffeur's license unless such application is signed by the father of the applicant, if the father is living and has the custody of the applicant, otherwise by the mother or guardian having the custody of such minor, or in the event a minor under the age of eighteen (18) years has no father, mother, or guardian, the license shall not be issued to the minor unless his application therefor is signed by his employer or by the county judge of his residence.

#### Release From Liability

Sec. 8. Any person who has signed the application of a minor for a license may thereafter file with the Department a request that the license of said minor so granted be cancelled, which request shall be in writing and acknowledged before some officer authorized to administer oaths. Thereupon the Department shall cancel the license of said minor and the person who signed the application of such minor shall be relieved from any liability by reason of having signed such application on account of any subsequent negligence or wilful misconduct of such minor in operating a motor vehicle.

#### Revocation of License Upon Death of Person Signing Minor's Application

Sec. 9. The Department upon receipt of satisfactory evidence of the death of the persons who signed the application of a minor for a license may cancel such license and may not issue a new license until such time as a new application, duly signed and verified, is made as required by this Act. This provision shall not apply in the event the minor has attained the age of eighteen (18) years.

#### Examination of Applicants

Sec. 10. The Department shall examine every applicant for an operator's, commercial operator's, or chauffeur's license, except as otherwise provided in this Section. Such examination shall be held in the county where the applicant resides or makes application within not more than ten (10) days from the date application is made. It shall include a test of the applicant's vision, his ability to understand highway signs in the English language regulating, warning, and directing traffic, his knowledge of the traffic laws of this State, and shall include an actual demonstration of ability to exercise ordinary and reasonable control in the operation of a motor vehicle of the type which

he will be licensed to operate and such further physical and written examination as the Department finds necessary to determine the applicant's fitness to operate a motor vehicle safely upon the highways, and provided further that the Director shall have the authority to cause to be re-examined the licensee in any case which in his judgment the licensee is incapable of operating a motor vehicle, said examination to be held in the county of the licensee's residence unless otherwise agreed to by both parties to be held elsewhere.

#### Alternate Examination for Spanish Speaking Applicants

Sec. 10A. The department shall design and administer an alternate examination for Spanish speaking applicants who are unable to take the ordinary examination in the English language. The alternate examination shall be identical in all respects to the examination given other applicants under Section 10 of this Act except that all directions and written material, other than the actual text of highway signs, shall be in Spanish. The text of highway signs shall be in English. The alternate Spanish language examination shall be available in all counties of the state.

#### Licenses Issued to Operators, Commercial Operators and Chauffeurs

Sec. 11. (a) The Department shall, upon payment of the required fee, issue to every applicant qualifying therefor an operator's, commercial operator's, or chauffeur's license as applied for, which license shall bear thereon a distinguishing number assigned to the licensee by the Department, a color photograph of the licensee, the full name, date of birth, residence address, and a brief description of the licensee, and either a facsimile of the signature of the licensee or a space upon which the licensee shall write his usual signature with pen and ink immediately upon receipt of the license. No license shall be valid until it has been so signed by the licensee.

(b) The Department may issue a temporary license without the photograph to out-of-state applicants, members in the Armed Forces, and in those situations where for any other reason the Department finds it necessary, provided, however, where such temporary license is issued it shall be valid only until the applicant shall have had time to appear and have his picture taken and a license with his photograph issued.

(c) On all provisional licenses issued under Section 11A of this Act, the photograph of the licensee shall show a side profile. On all other licenses, the photograph shall show the entire face of the licensee.

#### Provisional Licenses

Sec. 11A. Whenever the Department of Public Safety issues an original operator's, commercial operator's, or chauffeur's license to a person under twenty-one (21) years of age, the license shall be designated and clearly marked as a provisional license.

#### Restricted Licenses

Sec. 12. (a) The Department, upon issuing an operator's, commercial operator's, or chauffeur's license, shall have authority, whenever good cause appears, to impose restrictions suitable to the licensee's driving ability with respect to the type of, or special mechanical control devices required on a motor vehicle which the licensee may operate, or mechanical attachments (glasses, artificial limbs, etc.) required on the person of the licensee.

(b) The Department shall have the authority to impose restrictions suitable to the licensee's driving ability with respect to areas, location, roads and highways within this State, or with respect to the time of day or night that the licensee shall be permitted to drive a motor vehicle or such other restrictions applicable to the licensee as the Department may determine to be appropriate to assure the safe operation of a motor vehicle by the licensee.

(c) The Department may issue an instruction permit without photograph to any person fifteen (15) years of age or older who has satisfactorily completed and passed the classroom phase of an approved driver education course, and the Department may, in its discretion, after the applicant has successfully passed all parts of the driver examination required in Section 10 of Article 6687b, Vernon's Texas Civil Statutes, other than the driving test, issue to the applicant an instruction permit which shall entitle the applicant while having such permit in his immediate possession to drive a motor vehicle upon the public highways when accompanied by a licensed operator, commercial operator, or chauffeur, who is at least twenty-one (21) years of age, and has at least one (1) year of driving experience and who is occupying a seat by the driver, provided, however, a person who is under twenty-one (21) years of age and is enrolled in a State approved driver education teacher preparation program may accompany a person with an instruction permit.

(d) The Department may issue a license to any person who has attained the age of fifteen (15) years where, in the opinion of the Department:

1. It appears that the failure or refusal to issue such license to any such person will work an unusual economic hardship on the family of the applicant for the license, or

2. It appears that a license should be granted to the applicant because of the sickness or illness of members of the family of the applicant, or

3. A failure to issue such license would be detrimental to the general welfare of the applicant or of his or her family, and

Provided further that the applicant has taken and passed the examination required in Section 10 of Article 6687b, Vernon's Texas Civil Statutes. "General welfare of the applicant" as used in (3) above in-

cludes but is not limited to those persons between fifteen (15) and eighteen (18) years of age who are regularly enrolled in a vocational education program and who in the opinion of the Department require a driver's license to pursue that program. In no event shall an operator's license of any class be issued to any person of less than fifteen (15) years of age. Any person who has been refused a driver's license under the terms of this paragraph may appeal to the county court in the county in which he is a resident, where the matter may be tried upon request of petitioner or respondent.

(e)(1) The Department may issue a special restricted operator's license to any person between the ages fifteen (15) and eighteen (18) years to operate only a motorcycle, motor scooter or motorized bicycle, with less than one hundred (100) cc piston displacement. This special restricted license shall be issued on application to the Department in accordance with Section 7 of Article 6687b, Vernon's Texas Civil Statutes; shall be subject to the requirements of Section 10 of Article 6687b, Vernon's Texas Civil Statutes, and to other provisions of this Act in the same manner as operator's licenses; and shall be in the form prescribed by the Department. A motor-assisted bicycle operator's license is required for operators of motor-assisted bicycles. A person must be at least fifteen (15) years old to be issued a motor-assisted bicycle operator's license. The Department shall examine applicants for that type of license by administering to them a written examination concerning traffic laws applicable to the operation of motor-assisted bicycles. No test involving the operation of the vehicle is required. The fee for the license is Four Dollars (\$4). All applicable provisions of this Act governing restricted operator's licenses for the operation of motorcycles only also apply to motor-assisted bicycle operator's licenses, including provisions relating to the application, issuance, duration, suspension, and cancellation of those licenses.

(2) The Department is hereby required to certify motorcycles, motor scooters and motorized bicycles to ascertain whether they exceed one hundred (100) cc piston displacement as required by this section. The Department is further authorized to establish the procedure which shall be followed to determine the cc piston displacement of the motorcycles, motor scooters and motorized bicycles. Any person, firm or corporation may submit to the Department any such motorcycle, motor scooter or motorized bicycle and make application that the same be tested as to conformity with the regulations of the Department. Upon such application being made, the Department shall cause such test to be made as may be necessary to determine whether the motorcycle, motor scooter or motorized bicycle exceeds one hundred (100) cc piston displacement. Each such

applicant shall upon the filing of his application pay to the Department a fee of fifty cents (50¢). All such fees shall be paid by the Department into the State Treasury to be deposited to the credit of the General Revenue Fund. Every model of motorcycles, motor scooters and motorized bicycles certified by the Department shall carry a metal tag showing that the Department has certified it as not exceeding one hundred (100) cc piston displacement. When the Department has reason to believe that a certified model of motorcycles, motor scooters or motorized bicycles being sold commercially exceeds one hundred (100) cc displacement, the Department may conduct a hearing as prescribed under Subsections (d) and (e), Section 108B, Chapter 303, Acts of the 54th Legislature, Regular Session, 1955 (compiled as Subsections [d] and [e] of Section 108B, Article 6701d, Vernon's Texas Civil Statutes).<sup>1</sup> The Department shall compile a list naming each model and make of motorcycles, motor scooters and motorized bicycles certified by the Department as not exceeding one hundred (100) cc piston displacement and make the list available upon request of the public and to persons who sell motorcycles, motor scooters and motorized bicycles. Any peace officer may stop and detain any motorcycle, motor scooter or motorized bicycle for the purpose of inspecting the motorcycle, motor scooter or motorized bicycle to determine if the motorcycle, motor scooter or motorized bicycle is of a model and make certified by the Department.

(3) The Department is also required to certify whether vehicles which are purported to be motor-assisted bicycles conform to the definition of that vehicle. The Department shall certify those vehicles for the same fee and under the same procedure as it certifies motorcycles, motor scooters and motorized bicycles. The Department shall compile a list of models of motor-assisted bicycles which have been certified. Every model of motor-assisted bicycles certified by the Department shall carry a metal tag showing that the Department has certified that the vehicle conforms to the definition of motor-assisted bicycle. Any peace officer may stop and detain a person operating a motor-assisted bicycle to determine if the vehicle is of a model and make certified by the Department.

(f) The Department may either issue a special restricted license or may set forth such restrictions upon the usual license form.

(g) The Department may, upon receiving satisfactory evidence of any violation of the restrictions on a license, suspend or revoke the same, but the licensee shall be entitled to a hearing as upon a suspension or revocation under this Act.

(h) It is a misdemeanor for any person to operate a motor vehicle in any manner in violation of the restrictions imposed in a license issued to him and punishable as set out in Section 44 of this Act.

<sup>1</sup> Repealed. See, now, art. 6701d, § 108(d) to (g).

## License to be Carried and Exhibited on Demand

Every person shall have an operator's, commercial operator's, or chauffeur's license in his immediate possession at all times when operating a motor vehicle and shall display the same upon demand of a magistrate or any officer of a court of competent jurisdiction or any peace officer. Any person who violates this Section shall be guilty of a misdemeanor and upon conviction thereof be punished by a fine of not more than Two Hundred Dollars (\$200); for a second conviction, within one (1) year thereafter, such person shall be punished by a fine of not less than Twenty-five Dollars (\$25) nor more than Two Hundred Dollars (\$200); upon the third or subsequent conviction within one (1) year after the second conviction such person shall be punished by a fine of not less than Twenty-five Dollars (\$25) nor more than Five Hundred Dollars (\$500), or by imprisonment in the county jail for not less than seventy-two (72) hours nor more than six (6) months, or by both such fine and imprisonment. It shall be a defense to any charge under this Section that the person so charged produce in court an operator's, commercial operator's, or chauffeur's license theretofore issued to such person and valid at the time of his arrest. It shall be the duty of the judge of the court to report forthwith to the Department of Public Safety any convictions obtained in his court under this Section, and it shall be the duty of the Department of Public Safety to keep a record thereof. Any peace officer may stop and detain any motor vehicle operator for the purpose of determining whether such person has a driver's license as required by this Section.

## Notice of Change of Address or Name

Sec. 20. Whenever any person after applying for or receiving an operator's, commercial operator's or chauffeur's license shall move from the address named in such application or in the license issued to him or when the name of the licensee is changed by marriage or otherwise, such person shall within ten (10) days thereafter notify the Department in writing of his old and new addresses or of such former and new names, of the number of any license then held by him, and such person shall apply for a duplicate license as set out in Section 14.

## Records to be Kept by the Department

Sec. 21. (a) The Department shall file every application for a driver's license received by it and shall maintain suitable indexes containing, in alphabetical or numerical order:

(1) All applications denied and on each thereof note the reasons for such denial;

(2) All applications granted; and

(3) The name of every licensee whose driver's license or driving privilege has been cancelled, denied, suspended or revoked and after each such name note the reasons for such action.

(b) The Department shall also file all accident reports and abstracts of court records of convictions received by it under the laws of this State and in connection therewith maintain convenient records or make suitable notations in order that an individual record of each licensee showing the convictions of such licen-

see and the traffic accidents in which he has been involved shall be readily ascertainable and available for the consideration of the Department upon any application for the renewal of a driver's license and at other suitable times. Before licensing or renewing any license, the Department shall examine the applicant's record for information concerning conviction of traffic violations and involvement in traffic accidents. The Department shall not issue or renew a license when, in its opinion, the applicant's record indicates that issuance or renewal of his license would be inimical to the public safety.

(c) The Department shall not be required to maintain records relating to drivers of motor vehicles after such records are, in the opinion of the Director, no longer necessary, except that records of convictions shall be maintained so long as they may form the basis of cancellations, suspensions, revocations or denials, or with other records of convictions may constitute a person a frequent violator of the traffic law. Records which are not required to be maintained may be destroyed with the approval of the State Auditor and the State Librarian.

(d) The Department is authorized to provide information pertaining to an individual's date of birth, current license status, and most recent address as listed on the records of the Department upon written request and the payment of a One Dollar (\$1.00) fee by a person showing a legitimate need for such information.

(e) The Department is authorized to provide a listing of the sum total of accidents and violations from the licensing records and to itemize therefrom by date and location accidents and violations occurring within the immediate past three (3) year period when requested, upon forms approved by the Department, upon payment of a Two Dollar (\$2.00) fee, provided, however, that if requests for such information be prepared and presented by a single person at any one time in the quantities hereinafter specified and upon data processing request forms acceptable to the Department, such information may be provided upon payment of the following fees for each individual request:

If fifty (50) to two hundred forty-nine (249) at a time, a fee of seventy-five cents (75¢) each; and, if two hundred fifty (250) or more at a time, a fee of fifty cents (50¢) each.

(f) The Department is authorized to provide information pertaining to an individual's date of birth, current license status, most recent address, and a listing of reported traffic law violations, and motor vehicle accidents, by date and location, as listed on the records of the Department upon written request and the payment of a Three Dollar (\$3.00) fee by a person showing a legitimate need for such information, provided, however, that if requests for such information be prepared in quantities of one hundred (100) or more from a single person at any one time and upon data processing request forms acceptable to the Department,

such information may be provided upon payment of a One Dollar (\$1.00) fee for each individual request.

(g) No fee shall be charged for information supplied to law enforcement and other governmental agencies for official purposes, provided that bulk information for research projects may be compensated for at regular rates.

(h) All fees and charges required by this Section shall be disposed of as provided in Section 15 of this Article.

(i) Where records are required, the Director may substitute either microfilm or computer records in lieu of hard copies.

#### Medical Advisory Board

Sec. 21A. (a) No member of any Medical Advisory Board serving and advising the Department and all other persons making examinations for or on recommendation of the members of the Board shall be held liable for their opinions and recommendations.

(b) Reports received or made by any such Board, or its members, for the purpose of determining the medical condition of an applicant are for the confidential use of the Board or the Department and as such are privileged information and may not be divulged to any person or used as evidence in any trial except that the reports may be admitted in proceedings under Section 22 and Section 31, and any person conducting an examination pursuant to the request of the Board may be compelled to testify concerning his observations and findings in such proceedings.

(c) The Medical Advisory Board shall be comprised of licensed physicians (including physicians specialty-board-qualified in internal medicine, psychiatry, neurology, physical medicine, and ophthalmology) appointed by the State Health Commissioner from individuals jointly recommended by the Texas State Department of Health and the Texas Medical Society, and optometrists appointed by the State Health Commissioner from individuals jointly recommended by the Texas State Department of Health and the Texas Optometric Association.

Any three (3) members can act on any case or question submitted by the Texas Department of Public Safety.

#### ARTICLE IV—CANCELLATION, SUSPENSION, AND REVOCATION OF LICENSES

##### Authority of Department to Suspend or Revoke a License

Sec. 22. (a) When under Section 10 of this Act the Director believes the licensee to be incapable of safely operating a motor vehicle, the Director may notify said licensee of such fact and summons him to appear for hearing as provided hereinafter. Such hearing shall be had not less than ten (10) days after notification to the licensee or operator under any of the provisions of this section, and upon

charges in writing, a copy of which shall be given to said operator or licensee not less than ten (10) days before said hearing. For the purpose of hearing such cases, jurisdiction is vested in the mayor of the city, or judge of the police court, or a Justice of the Peace in the county where the operator or licensee resides. Such officer may receive a fee for hearing such cases if such a fee is approved and set by the County Commissioners Court which has jurisdiction over the residence of the operator or licensee and such fee shall not exceed Five Dollars (\$5.00) per case and shall be paid from the General Revenue Fund of the County. Any fees, not to exceed Five Dollars (\$5.00) per case, which the County Commissioners Court may determine to be owed to such officer for past hearings, or any fees, not to exceed Five Dollars (\$5.00) per case, previously paid such officer for hearing said cases, is hereby authorized. Such court may administer oaths and may issue subpoenas for the attendance of witnesses and the production of relative books and papers. It shall be the duty of the court to set the matter for hearing upon ten (10) days' written notice to the Department. Upon such hearing, the issues to be determined are whether the license shall be suspended or whether the license shall be revoked, and, in the event of a suspension, the length of time of the suspension, which shall not exceed one (1) year. The officer who presides at such hearing shall report the finding to the Department which shall have authority to suspend the license for the length of time reported; provided, however, that in the event of such affirmative finding, the licensee may appeal to the county court of the county wherein the hearing was held, said appeal to be tried de novo. Notice by registered mail to the address shown on the license of the licensee shall constitute service for the purpose of this section.

(b) The authority to suspend the license of any operator, commercial operator, or chauffeur as authorized in this Section is granted the Department upon determining after proper hearing as hereinbefore set out that the licensee:

1. Has committed an offense for which automatic suspension of license is made upon conviction;
2. Has been responsible as a driver for any accident resulting in death;
3. Is an habitual reckless or negligent driver of a motor vehicle;
4. Is an habitual violator of the traffic law.

The term "habitual violator" as used herein, shall mean any person with four (4) or more convictions arising out of different transactions in a consecutive period of twelve (12) months, or seven (7) or more convictions arising out of different transactions within a period of twenty-four (24) months, such convictions being for

moving violations of the traffic laws of this state or its political subdivisions.

5. Is incapable to drive a motor vehicle;
6. Has permitted an unlawful or fraudulent use of such license;
7. Has committed an offense in another state, which if committed in this State would be grounds for suspension or revocation;
8. Has failed or refused to submit a report of any accident in which he was involved as provided in Section 39 of this Act;
9. Has been responsible as a driver for any accident resulting in serious personal injury or serious property damage;
10. Is the holder of a provisional license under Section 11A of this Act and has been convicted of two (2) or more moving violations committed within a period of twelve (12) months.

(c) In all appeals prosecuted in any of the courts of this state pursuant to Section 22(a) or Section 31, such trials shall be de novo as that term is used and understood in appeals from Justice of the Peace Courts to County Courts. When such an appeal is filed and the court thereby acquires jurisdiction, all administrative or executive action taken prior thereto shall be null and void and of no force and effect, and the rights of the parties thereto shall be determined by the court upon a trial of the matters in controversy under rules governing the trial of other civil suits in the same manner and to the same extent as though the matter had been committed to the courts in the first instance and there had been no intervening administrative or executive action or decision. Under no circumstances shall the substantial evidence rule as interpreted and applied by the courts of Texas in other cases ever be used or applied to appeals prosecuted under the provisions of this Act. The Legislature hereby specifically declares that the provisions of this Section shall not be severable from the balance of this Act, and further specifically declares that this Act would not have been passed without the inclusion of this Section. If this Section, or any part thereof, is for any reason ever held by any court to be invalid, unconstitutional or inoperative in any way, such holding shall apply to this entire Act, and in such event this entire Act shall be null, void and of no force and effect. Any such licensee as may bring suit to vacate and set aside such ruling and decision shall send a copy thereof, certified to by the clerk of said court, to the Department by registered mail. If any licensee who is a party to such final ruling and decision of the Department fails within thirty (30) days to institute or prosecute a suit to set such suspension aside, then said final ruling and decision of the Department shall be binding upon all parties thereto.

(d) Upon the recommendation of a Juvenile Court with jurisdiction of any provisional license and for a term set by such Juvenile Court, but not to exceed one (1) year, the department shall suspend a provisional license when it is found by such court that a provisional licensee has committed any offense which would be a felony if such licensee was an adult or any misdemeanor (except those offenses covered in Article 802e, Vernon's Texas Penal Code) in which a motor vehicle was used to travel to or from the scene of the offense.

In the event the provisional licensee is an adult at the time he commits any of such offenses described in this Subsection, his license shall be suspended by the department for the time and in the manner described herein upon the recommendation of the court in which he is finally convicted.

It shall be the duty of the judge of any Juvenile Court or other court mentioned herein to report any such recommendation forthwith to the department. Such report shall be made in the manner and form prescribed by the department.

(e) The judge or officer holding a hearing under Subsection (a), (b), or (d) of this section, or the court trying an appeal under Subsection (c) of this section, on determining that the License shall be suspended or revoked, may, when it appears to the satisfaction of the court that the ends of justice and the best interests of the public as well as the defendant will be subserved thereby, recommend that the revocation or suspension be probated on terms and conditions deemed by the officer or judge to be necessary or proper. The report to the department of the results of the hearing must include the terms and conditions of such probation. When probation is recommended by the judge or officer presiding at a hearing, the department shall probate the suspension or revocation.

(f) When the director believes that a licensee who has been placed on probation under Subsection (e) of this section has violated a term or condition of the probation, the director shall notify the licensee and summons him to appear at a hearing as provided in Subsection (a) or (d) of this section, after notice as provided in Subsection (a) of this section. The issue at the hearing shall be whether a term or condition of the probation has been violated. The officer or judge presiding at the hearing shall report his finding to the department and if the finding is that a term or condition of the probation is violated, the department shall revoke or suspend the license as determined in the original hearing.

Period of Suspension

Sec. 23. The Department shall not suspend a license for a period of more than one (1) year.

Occupational License to Meet Essential Need; Hearing; Restrictions; Financial Responsibility; Violations

Sec. 23A. (a) Any person whose license has been suspended for causes other than physical or mental disability or impairment may file with the judge of the district court having jurisdiction within the county of his residence, a verified petition setting forth in detail an essential need for operating a motor vehicle in the performance of his occupation or trade. The hearing on the petition may be ex parte in nature. The judge hearing the petition shall enter an order either finding that no essential need exists for the operation of a motor vehicle in the performance of the occupation or trade of the petitioner or enter an order finding an essential need for operating a motor vehicle in the performance of the occupation or trade of the petitioner. In the event the judge enters the order finding an essential need as set out herein, he shall also, as part of such finding, determine the actual need of the petitioner in operating a motor vehicle in his occupation or trade and shall restrict the use of the motor vehicle to the petitioner's actual occupation or trade and the right to drive to and from the place of employment of the petitioner, and shall require the petitioner to give proof of a valid policy of automobile liability insurance in accordance with the provisions of the Texas Safety Responsibility Law, Article 6701h, Vernon's Annotated Texas Statutes. Such restrictions shall be definite as to hours of the day, days of the week, type of occupation and areas or routes of travel to be permitted, except that in any event the petitioner shall not be allowed to operate a motor vehicle more than ten (10) hours in any twenty-four (24) consecutive hours. Unless further extended at the discretion of the District court, orders entered by such court shall extend for a period of twelve (12) months or less from the date of the original suspension. A certified copy of the petition and the court order setting out the judge's finding and the restrictions shall be forwarded to the Department.

(b) Upon receipt of the court order set out in (a) above and after compliance with the provisions of the Texas Safety Responsibility Law, Article 6701h, Vernon's Texas Civil Statutes, the Department shall issue an occupational license, showing on its face the restrictions set out in the order of the court.

(c) Any person who violates the restrictions on his occupational license shall be guilty of a misdemeanor and upon conviction thereof shall be punished in the same manner as one convicted of driving a motor vehicle while license is suspended, and such occupational license shall be automatically cancelled.

Automatic Suspension of License

Sec. 24. (a) The license of any person shall be automatically suspended upon final conviction of any of the following offenses:

1. Negligent homicide resulting from the operation of a motor vehicle;

2. Driving a motor vehicle while under the influence of intoxicating liquor or narcotic drugs;

3. Any offense punishable as a felony under the motor vehicle laws of this State;

4. A conviction of a driver of a motor vehicle involved in an accident or collision, upon a charge of failure to stop, render aid, and disclose his identity at the scene of said accident or collision;

5. A conviction upon a charge of aggravated assault upon the person by means of motor vehicle, as provided by law.

(b) The suspension above provided shall in the first instance be for a period of twelve (12) months. In event any license shall be suspended under the provision of this Section for a subsequent time, said subsequent suspension shall be for a period of eighteen (18) months.

(c) The suspension of any license shall be automatically extended upon licensee being convicted of operating a motor vehicle while the license of such person is suspended; such extended period of suspension to be for a like period as the original suspension, and in addition, to any other penalty assessed, as provided in this Act.

#### Rehabilitation Schools

Sec. 24A. (a) The Department shall establish and develop a program of motor vehicle driver education and training for drivers whose licenses have been suspended or revoked or are subject to suspension or revocation.

The Department shall include in the program study of and training in the rules of the road, and the limitations of persons, vehicles, roads, streets, and highways under varying conditions and situations.

(c) The Department may require a person to attend the education and training program as a condition to the reinstatement of a suspended license or the issuance of a new license to a person whose prior license has been revoked.

(d) In the interest of promoting safe driving, the Department may seek the advice and cooperation of the schools, courts, and other interested persons.

#### When Court to Report Convictions

Sec. 25. (a) Whenever any person is convicted of any offense for which this Act makes automatic the suspension of the operator's, commercial operator's, or chauffeur's license of such person, the court in which such conviction is had shall require the surrender to it of all operators', commercial operators', and chauffeurs' licenses then held by the person so convicted and the clerk of said court shall thereupon forward the same together with a

record of such conviction to the Department, within ten (10) days from the date of conviction.

(b) Every court having jurisdiction over offenses committed under this Act, or any other Acts of this State regulating the operation of motor vehicles on highways, shall forward to the Department a record of the conviction of any person in said court for a violation of any said laws, and may recommend the suspension of the operator's, commercial operator's, or chauffeur's license of the person so convicted, as provided in Section 22 of this Act.

(c) For the purpose of this Act, the term "conviction" shall mean a final conviction. Also, for the purpose of this Act, a forfeiture of bail or collateral deposited to secure a defendant's appearance in court, which forfeiture has not been vacated, shall be equivalent to a conviction.

#### Authority of Department to Cancel License

Sec. 25A. The Department is hereby authorized to cancel any driver's license upon determining that the licensee was not entitled to the issuance thereof hereunder or that said licensee failed to give the required or correct information in his application.

#### Surrender and Return of License

Sec. 26. The Department, upon suspending or revoking a license, shall require that such license shall be surrendered to and be retained by the Department except that at the end of the period of suspension of such license, the license so surrendered shall be returned to the licensee.

#### No Operation Under Foreign License During Suspension or Revocation in This State

Sec. 27. No person, resident or nonresident, whose operator's, commercial operator's, or chauffeur's license or privilege to operate a motor vehicle in this State has been suspended or revoked as provided in this Act shall operate a motor vehicle in this State under a license, permit, or registration certificate issued by any other jurisdiction or otherwise during such suspension or after such revocation until a new license is obtained when and as permitted under this Act.

#### Suspending Resident's License Based Upon Conduct in Another State

Sec. 28. (a) The Department is authorized to suspend or revoke the license of any resident of this State or the privilege of a nonresident to drive a motor vehicle in this State upon receiving notice of the conviction of such person in another state of an offense therein which, if committed in this State, would be grounds for the suspension or revocation of the license of a driver.

(b) The Department may give such effect to conduct of a resident in another state as is provided by the laws of this State had such conduct occurred in this State.

Suspending Privileges of Nonresidents and Reporting Convictions

Sec. 29. (a) The privilege of driving a motor vehicle on the highways of this State given to a nonresident hereunder shall be subject to suspension or revocation by the Department in like manner and for like cause as an operator's, commercial operator's, or chauffeur's license issued hereunder may be suspended or revoked.

(b) The Department is further authorized, upon receiving a record of the conviction in this State of a nonresident driver of a motor vehicle of any offense under the motor vehicle laws of this State, to forward a certified copy of such record to the motor vehicle administrator in the State wherein the person so convicted is a resident.

Cancellation of License Because of Mental Incompetence

It shall be unlawful for any person to act as an operator, commercial operator, or chauffeur who is an habitual drunkard or is addicted to the use of narcotic drugs, or who is an epileptic, or who has been adjudged insane or an idiot, imbecile, or feeble-minded, and who has not been restored to competency by judicial decree or released from a hospital for the insane or feeble-minded upon a certificate of the superintendent that such person is competent, and any finding by any court of competent jurisdiction that any person holding an operator's license, commercial operator's license, or chauffeur's license who is either insane, feeble-minded, an habitual drunkard, an epileptic, an imbecile, an idiot, or addicted to the use of narcotics, shall carry with it a revocation of such operator's, commercial operator's, or chauffeur's license, and it shall be the duty of the clerk of any court in which such findings are made, to certify same to the Department within ten (10) days.

(b) The Department of Public Safety shall revoke the license of every person whose name appears on the list referred to in Subsection (a).

Provided the trial on appeal as herein provided for shall be a trial de novo and the licensee shall have the right of trial by jury and his license shall not be suspended pending the appeal.

Provided further in cases herein provided for suspension of license, the filing of the petition of appeal shall abate said suspension until the trial herein provided for shall have been consummated and final judgment thereon is had.

(b) The make.

(c) The body type.

(d) The motor number.

At such time as the stamping of permanent identification numbers on motor vehicles in a manner and place easily accessible for physical examination is universally adopted by motor vehicle manufacturers as the permanent vehicle identification, the department is authorized to use such permanent identification number as the major identification of motor vehicles subsequently manufactured. The motor number will continue to be the major identification of vehicles manufactured before such change is adopted.

(e) The serial number.

(f) The license number of the current Texas plates.

(g) The names and addresses and dates of any liens on the motor vehicle, in chronological order of recordation.

(h) If no liens are registered on the motor vehicle, a statement of such fact.

**Manufacturer's Certificate**

Sec. 28. No designated agent shall issue a receipt for an application for certificate of title to any new motor vehicle the subject matter of the first sale unless the applicant shall deliver to such agent a manufacturer's certificate properly assigned by the manufacturer, distributor, or dealer shown thereon to be the last transferee to the applicant, upon form to be prescribed by the Department.

**Importer's Certificate**

Sec. 29. No such designated agent shall issue a receipt for a certificate of title to any used motor vehicle imported into this State for the purpose of sale within this State without delivery to him by the applicant of an importer's certificate properly assigned by the importer upon form to be prescribed by the Department.

**Vehicles Brought Into State; Examination; Sale of Vehicles; Liens or Encumbrances**

Sec. 30. (a) Before any motor vehicle which was last registered and titled, or registered in some other state or country may be registered and titled in Texas, the applicant shall furnish to the designated agent a certificate from a duly constituted peace officer in the form prescribed by the Department, certifying that such officer has made a physical examination of the motor number and serial number, or the permanent identification number of the motor vehicle. The said peace officer will certify that he has made a physical examination of the motor number and serial number, or permanent identification number, and note the correct numbers on said form. No designated agent shall accept any application for registration and a certificate of title until the provisions of this Section have been complied with; and further, no designated agent shall accept an application for registration and a certificate of title if the said numbers on the peace officer's certification do not agree with the motor number and serial number, or permanent identification number, shown on the evidence of ownership papers presented by the applicant for registration and a certificate of title. The certificate of examination of the said motor and serial numbers, or permanent identification numbers, issued by the duly constituted peace officer shall become a part of the evidence of ownership to accompany the owner's application for a certificate of title and the Department may not issue a certificate of title

unless and until these provisions have been complied with.

(b) Before any motor vehicle brought into this State by any person, other than a manufacturer or importer, and which is required to be registered or licensed within this State, can be bargained, sold, transferred, or delivered with intent to pass any interest therein or encumber by any lien, application on form to be prescribed by the Department must be made to the designated agent of the county wherein the transaction is to take place for a certificate of title, and no such designated agent shall issue a receipt until and unless the applicant shall deliver to him such evidence of title as shall satisfy the designated agent that the applicant is the owner of such motor vehicle, and that the same is free of liens except such as may be disclosed on an affidavit in form to be prescribed by the Department.

No designated agent of the department shall be liable for civil damages arising out of his failure to reflect liens or encumbrances on such motor vehicle unless such failure constitutes willful or wanton negligence.

**Receipts Issued by Designated Agents**

Sec. 31. Every designated agent in this State receiving an application for certificate of title shall, when the provisions hereof have been complied with, issue a receipt marked "Original" to the applicant and shall note thereon the required information concerning the motor vehicle and the existence or nonexistence of liens as disclosed in the application and deliver such receipt upon payment of the required fees to the applicant; provided however, that in the event there is a lien disclosed in the application, the said receipt shall be issued in duplicate, one of which shall be marked "Original" and shall be mailed or delivered by every such designated agent to the first lien holder as disclosed in said application; the other said copy shall be marked "Duplicate Original" and shall be mailed or delivered to the address of the applicant as disclosed in the said application, and such receipt pending the issuance of the certificate of title shall authorize the operation of such motor vehicle on the highways and public places within this State for a period of not to exceed ten (10) days and upon the expiration of such period of time shall cease to be effective for any purpose, but may be renewed under such reasonable rules and regulations as may be promulgated by the Department.

**Issuance of Certificate of Title**

Sec. 32. Every designated agent within this State shall, on the same day issued by him, forward to the Department, by mail prepaid postage, copies of all receipts issued by him together with such evidences of title as may have been delivered to him by the several applicants, and the Department within five (5) days after receiving such application, if upon inspection thereof it is satisfactorily shown that the certificate of title should issue, shall issue certifi-

cate of title marked "Original" on the face thereof and send the same to the address of the applicant as given in his application by first class mail; provided however, that in the event there is a lien disclosed in the application the said certificate of title shall be issued in duplicate, one of which shall be marked "Original" and shall be mailed to the address of the first lien holder as disclosed in said certificate of title by first class mail; the copy of said certificate of title shall be marked "Duplicate Original" and shall be sent by first class mail to the address of the applicant as given in his application.

#### Duplicate Original

Sec. 32a. The receipt or certificate of title marked "Duplicate Original" shall be used only as evidence of title of said motor vehicle and shall not be used by any person in transferring any interest in said motor vehicle or to establish any lien thereon.

#### Sale; Transfer of Certificate; Affidavit

Sec. 33. No motor vehicle may be disposed of at a subsequent sale unless the owner designated in the certificate of title transfers the certificate of title on a form prescribed by the Department before a Notary Public. This form shall include, among such other matters as the Department may determine, an affidavit to the effect that the signer is the owner of the motor vehicle, and that there are no liens on the motor vehicle, except such as are shown on the certificate of title or are fully described in the affidavit. No title to any motor vehicle shall pass or vest until the transfer is so executed.

#### New Certificate of Title When all Forms Have Been Used

Sec. 34. When all of the forms of transfer on any certificate of title have been used by reason of subsequent sales, such certificate of title may be delivered to any designated agent within this State, and a receipt taken therefor as provided in the case of first sale, and such agent shall forward the same to the Department on the same day received by him, and new certificate of title shall be issued by the Department.

#### Transfer by Operation of Law; New Certificate

Sec. 35. When the ownership of a motor vehicle registered or licensed within this State is transferred by operation of law, as upon inheritance, devise or bequest, bankruptcy, receivership, judicial sale, or any other involuntary divestiture of ownership, the Department shall issue a new certificate of title upon being provided with a certified copy of the order appointing a temporary administrator or of the probate proceedings, or letters testamentary or of administration, if any (if no administration is necessary, then upon affidavit showing such fact and all of the heirs at law and specification by the heirs as to in whose name the certificate shall issue), or order, or bill of sale from the officer making the judicial sale. If the security interest or other lien is foreclosed in accordance with law by nonjudicial means,

the affidavit of the secured party or other mortgagee of the fact of the nonjudicial foreclosure in accordance with law is sufficient to authorize the Department to issue a new certificate of title in the name of the purchaser at the foreclosure sale. If the foreclosure is of a constitutional or statutory lien, the affidavit of the mortgagee of the fact of the creation of the lien and of the divestiture of title by reason thereof in accordance with law is sufficient to authorize the Department to issue a new certificate of title in the name of the purchaser. If an agreement providing for right of survivorship is signed by the husband and wife, upon the death of either spouse the Department shall issue a new certificate of title to the surviving spouse upon being provided with a copy of the death certificate of the deceased spouse.

#### Loss or Destruction of Certificate; Certified Copy

Sec. 36. Should a certificate of title, "Duplicate Original" or "Original," be lost or destroyed, the owner or lien holder thereof may procure a certified copy of same directly from the Department by making affidavit upon such form as may be prescribed by the Department from time to time, accompanied by a fee of Twenty-five (25) Cents, which shall be deposited in the State Highway Fund and be expended as provided by Section 57 of this Act, provided however, that the certified copy of the certificate of title marked "Original" shall issue only to the first lien holder where a lien is disclosed thereon. Said certified copy and all subsequent certificates of title issued, until transfer of ownership of said motor vehicle, shall be plainly marked across their faces "Certified Copy," and all subsequent purchasers or lien holders of said motor vehicle shall acquire only such rights, title, or interest in such motor vehicles as the holder of the said certified copy had, provided however, that upon the transfer of title to said motor vehicle, the words "Certified Copy" shall be eliminated from the new certificate of title. Any purchasers or lien holders of such motor vehicle may at the time of such purchase or at the time lien is established require the seller or owner to indemnify him and all subsequent purchasers of said motor vehicle against any loss which he or they may suffer by reason of any claim or claims presented upon the said original certificate of title. In the event of recovery of the said certificate of title, "Duplicate Original" or "Original" thereof, the said owner shall forthwith surrender the same to the Department for cancellation and the words "Certified Copy" shall be eliminated from said certificates thereafter issued by the Department.

#### Junking Motor Vehicle; Rebuilding or Assembling Motor Vehicle

Sec. 37. (a) When any motor vehicle registered or licensed in Texas to which a certificate of title has been issued is junked, dismantled, destroyed, or its motor number changed or the motor vehicle changed in such manner that

it loses its character as a motor vehicle, or in such manner that it is not the motor vehicle described in such certificate of title, the owner named last in the certificate of title shall surrender the certificate of title to the Department together with the written consent of the holders of all unreleased liens noted thereon, and the certificate shall be cancelled on the records of the Department. Provided that nothing herein shall affect the sale of used parts for automobiles when sold as such.

(b) Any person rebuilding or assembling a motor vehicle, shall, before using same or operating same, or permitting the operation of same, or disposing of same, procure a certificate of title for same from the Department. For the purpose of obtaining any such certificate of title said person shall furnish an affidavit setting forth where, when, and how, and from whom he procured the various respective parts used in the rebuilding or assembling of such motor vehicle for which certificate of title is sought; provided, however, that the Department shall not issue such certificate of title unless and until it has satisfied itself that the facts set forth are true and correct, and that the person making the affidavit is in fact the person purported in such affidavit to be the maker thereof.

#### Grounds for Refusing or Revoking Certificate

Sec. 38. The Department shall refuse issuance of a certificate of title, or having issued a certificate of title, suspend or revoke the same, upon any of the following grounds:

(a) That the application contains any false or fraudulent statement, or that the applicant has failed to furnish required information requested by the Department, or that the applicant is not entitled to the issuance of a certificate of title under this Act.

(b) That the Department has reasonable ground to believe that the vehicle is a stolen or converted vehicle as herein defined, or that the issuance of a certificate of title would constitute a fraud against the rightful owner or a mortgagee.

(c) That the registration of the vehicle stands suspended or revoked.

(d) That the required fee has not been paid.

#### Hearing After Refusal or Revocation; Appeal

Sec. 39. Any person interested in a motor vehicle to which the Department has refused to issue a certificate of title or has suspended or revoked the certificate of title, feeling aggrieved, may apply to the designated agent of the county of such interested person's domicile for a hearing, whereupon such designated agent shall, on the same day such application for hearing is received by him, notify the Department of the date of the hearing, which shall not be less than ten (10) days nor more than fifteen (15) days, and at such hearing such applicant and the Department may submit

evidence, and a ruling of the designated agent shall bind both parties as to whether or not the Department has acted justly in the premises.

(a) Such applicant feeling aggrieved with the ruling of the designated agent, may, within five (5) days and not thereafter, appeal to the County Court of the county of the applicant's residence, who shall proceed to try the issues as in other civil cases, and all rights and immunities granted in the trial of civil cases shall be available to the interested parties.

(b) If the action of the Department complained of is sustained, a certificate of title for the particular motor vehicle involved shall only be issued upon such reasonable rules and regulations as the Department may prescribe.

(c) Should the final decision be against the ruling of the Department, the certificate of title shall issue forthwith.

#### Authority to Execute Application or Transfer

Sec. 40. No person shall, without lawful authority, execute any application or transfer any certificate of title or receipt for any person other than himself, except that firms, associations, and corporations may act through authorized agents.

#### Security Interest; Perfection

Sec. 41. Except for a security interest in motor vehicles held by the debtor or other mortgagor as inventory, a security interest or other lien in a motor vehicle that is the subject of a first or subsequent sale may be perfected only by notation of the lien on the certificate of title in accordance with this Act. A security interest or other lien in a motor vehicle held by a debtor or other mortgagor as inventory may be perfected only by complying with Chapter 9 of the Business and Commerce Code.<sup>1</sup>

<sup>1</sup> Business and Commerce Code, § 9.101 et seq.

#### Notation of Security Interest; Filing

Sec. 42. Presentation of an application for a certificate of title with the lien disclosed therein and tender of the filing fee to the designated agent of the Department or acceptance of the application by the designated agent of the Department constitutes notation of the lien under this Act. The time of the notation of a lien under this Act is deemed to be the time of filing of the security interest for purposes of Chapter 9 of the Business and Commerce Code.<sup>1</sup>

<sup>1</sup> Business and Commerce Code, § 9.101 et seq.

Secs. 43 to 46. Repealed by Acts 1971, 62nd Leg., p. 896, ch. 123, § 7, eff. May 10, 1971.

#### Discharge of Lien

<sup>2</sup> Article 6687-1.

**Authority to Take Possession of Abandoned Motor Vehicles**

Sec. 3. A police department may take into custody any abandoned motor vehicle found on public or private property. In such connection, a police department may employ its own personnel, equipment, and facilities or hire persons, equipment, and facilities for the purpose of removing, preserving, and storing abandoned motor vehicles.

## Notification of Owner and Lien Holders

Sec. 4. (a) A police department which takes into custody an abandoned motor vehicle shall notify within 10 days thereof, by registered or certified mail, return receipt requested, the last known registered owner of the motor vehicle and all lien holders of record pursuant to the Certificate of Title Act, as amended (Article 1436-1, Vernon's Texas Penal Code),<sup>1</sup> that the vehicle has been taken into custody. The notice shall describe the year, make, model, and vehicle identification number of the abandoned motor vehicle, set forth the location of the facility where the motor vehicle is being held, inform the owner and any lien holders of their right to reclaim the motor vehicle within 20 days after the date of the notice upon payment of all towing, preservation, and storage charges resulting from placing the vehicle in custody, or garagekeepers charges if notice is pursuant to the provisions of Section 6 of this Article dealing with garagekeepers and abandoned vehicles. Further, the said notice shall state that the failure of the owner or lien holders to exercise their right to reclaim the vehicle within the time provided shall be deemed a waiver by the owner and all lien holders of all right, title, and interest in the vehicle and their consent to the sale of the abandoned motor vehicle at a public auction.

(b) If the identity of the last registered owner cannot be determined, or if the registration contains no address for the owner; or if it is impossible to determine with reasonable certainty the identity and addresses of all lien holders, notice by one publication in one newspaper of general circulation in the area where the motor vehicle was abandoned shall be sufficient to meet all requirements of notice pursuant to this Article. Such notice by publication can contain multiple listings of abandoned vehicles. Any such notice shall be within the time requirements prescribed for notice by registered or certified mail and shall have the same contents required for a notice by registered or certified mail.

(c) The consequences and effect of failure to reclaim an abandoned motor vehicle shall be as set forth in a valid notice given pursuant to this section.

<sup>1</sup> Transferred; see, now, article 6687-1.

## Auction of Abandoned Motor Vehicles

Sec. 5. If an abandoned motor vehicle has not been reclaimed as provided for in Section 4 of this Article, the police department shall sell the abandoned motor vehicle at a public auction. Proper notice of the public auction shall be given, and in the case of a garagekeepers lien, the garagekeeper shall be notified of the time and place of such auction. The purchaser of the motor vehicle shall take title to the motor vehicle free and clear of all liens and claims of ownership, shall receive a sales receipt from the police department and shall be entitled to register the purchased vehicle and receive a certificate of title. From the pro-

ceeds of the sale of an abandoned motor vehicle the police department shall reimburse itself for the expenses of the auction, the costs of towing, preserving, and storing the vehicle which resulted from placing the abandoned motor vehicle in custody, and all notice and publication costs incurred pursuant to Section 4 of this Article. Any remainder from the proceeds of a sale shall be held for the owner of the vehicle or entitled lien holder for 90 days, and then shall be deposited in a special fund which shall remain available for the payment of auction, towing, preserving, storage, and all notice and publication costs which result from placing other abandoned vehicles in custody, whenever the proceeds from a sale of such other abandoned motor vehicles are insufficient to meet these expenses and costs.

## Garagekeepers and Abandoned Motor Vehicles

Sec. 6. Any motor vehicle left for more than 10 days in a storage facility operated for commercial purposes after notice by registered or certified mail, return receipt requested, to the owner to pick up the vehicle (if such notice is returned by the post office unclaimed, notice by one publication in one newspaper of general circulation in the area where the vehicle was left in such storage facility shall constitute notification), or for more than 10 days after the period when, pursuant to contract, the vehicle was to remain on the premises of such storage facility, and any motor vehicle left for more than 10 days in such storage facility by someone other than the registered owner or left by a person authorized to have possession of the motor vehicle under a contract of use, service, storage, or repair, shall be deemed an abandoned vehicle, and shall be reported by the garagekeeper to the police department. Any garagekeeper who fails to report the possession of such a vehicle within 10 days after it becomes abandoned within the meaning of this section shall no longer have any claim for storage of the vehicle. The police department, upon receipt of a report from a garagekeeper of the possession of a vehicle deemed abandoned under the provisions of this section shall follow the notification procedures set forth in Section 4 of this Article, except that custody of the vehicle shall remain with the garagekeeper until after the notification requirements have been complied with. A fee of \$2 shall accompany the report of the garagekeeper to the police department. The \$2 fee shall be retained by the police department receiving the report and used to defray the cost of notification or other cost incurred in the disposition of abandoned motor vehicles, and where the Texas Department of Public Safety is the "police department" this fee shall be deposited in the state treasury and shall be used to defray the cost of administering this Act. All abandoned vehicles left in storage facilities which are not reclaimed after such notice in accordance with procedures set forth in Section 4 of this Article shall be taken into custody by the police department and sold in accordance with the pro-

cedure set forth in Section 5 of this Article. The proceeds of a sale under the provisions of this Section shall first be applied to the garagekeeper's charges for servicing, storage and repair; provided, however, that as compensation for the expense incurred by the police department in placing the vehicle in custody and the expense of auction the police department shall retain an amount of two percent of the gross proceeds of the sale of each vehicle auctioned, but in case such percent of the gross proceeds shall be less than \$10, the department shall retain the sum of \$10 to defray expenses of custody and auction. Further, it is provided that when the Texas Department of Public Safety conducts the auction, the aforementioned compensation shall be deposited in the State Treasury and shall be used to defray the expense incurred. Any surplus proceeds remaining from such auction shall be distributed in accordance with Section 5 of this Article. Except for the termination of claim for storage for failure to report an abandoned motor vehicle, nothing in this section shall be construed to impair any lien of a garagekeeper under the laws of this State.

#### Disposal to Demolishers

Sec. 7. (a) Any person, firm, corporation, or unit of government upon whose property or in whose possession is found any abandoned motor vehicle, or any person being the owner of a motor vehicle whose title certificate is faulty, lost, or destroyed, may apply to the Texas Highway Department for authority to sell, give away, or dispose of the vehicle to a demolisher, provided, however, that nothing in this section shall in any way be construed as being in conflict with the provisions of Sections 10 and 11 of this Act. All such applications, except those submitted by units of government, shall be accompanied by a fee of \$2 which shall be deposited in the State Highway Fund.

(b) The application shall set out the name and address of the applicant, the year, make, model, and vehicle identification number of the motor vehicle, if ascertainable, together with any other identifying features, and shall contain a concise statement of the facts surrounding the abandonment, or that the title of the motor vehicle is lost or destroyed, or the reasons for the defect of title in the owner. The applicant shall execute an affidavit stating that the facts alleged therein are true and that no material fact has been withheld.

(c) If the Texas Highway Department finds that the application is executed in proper form, and shows that the motor vehicle has been abandoned upon the property of the applicant or if it shows that the motor vehicle is not abandoned but that the applicant appears to be the rightful owner, the Texas Highway Department shall follow the notification procedures set forth in Section 4 of this Article.

(d) If any such abandoned motor vehicle is not reclaimed in accordance with Section 4, the Texas Highway Department, upon notification

of such fact by the applicant, shall issue the applicant a certificate of authority to sell the motor vehicle to any demolisher for demolition, wrecking or dismantling. The demolisher shall accept such certificate in lieu of the certificate of title to the motor vehicle.

(e) The Texas Highway Department may issue the applicant a certificate of authority to dispose of such motor vehicle to a demolisher without following the notification procedures of Section 4 of this Act if the motor vehicle is over 8 years old and has no engine or is otherwise totally inoperable.

(f) Notwithstanding any other provision of this Act, any person, firm, corporation, or unit of government in possession of an abandoned vehicle which was authorized to be towed in by a police department and which is over eight years old and has no engine or is otherwise totally inoperable, may, upon affidavit of such fact and approval of the police department, apply to the Texas Highway Department for a certificate of authority to dispose of such vehicle to a demolisher for demolition, wrecking or dismantling only.

(g) The Texas Highway Department is hereby authorized to adopt such rules and regulations and prescribe such forms as may be necessary to carry out the provisions of this section.

#### Duties of Demolishers

Sec. 8. (a) Any demolisher who purchases or otherwise acquires a motor vehicle for purposes of wrecking, dismantling, or demolition shall not be required to obtain a certificate of title for such motor vehicle in his own name. After the motor vehicle has been demolished, processed, or changed so that it physically is no longer a motor vehicle, the demolisher shall surrender for cancellation the certificate of title or authority. The Texas Highway Department shall issue such forms, rules, and regulations governing the surrender of auction sales receipts and certificates of title as are appropriate. The Certificate of Title Act, as amended (Articles 1436-1 and 1436-2, Vernon's Texas Penal Code),<sup>1</sup> shall govern the cancellation of title of the motor vehicle.

(b) The demolisher shall keep an accurate and complete record of all motor vehicles purchased or received by him in the course of his business. These records shall contain the name and address of the person from whom each such motor vehicle was purchased or received and the date when such purchases or receipts occurred. Such records shall be open for inspection by the Texas Highway Department or any police department at any time during normal business hours. Any record required by this section shall be kept by the demolisher for at least one year after the transaction to which it applies. Any demolisher failing to comply with the provisions of this subsection shall be deemed guilty of a misdemeanor, and upon conviction shall be subject to a fine of not less than \$100 nor more than \$1,000, or confinement in the county jail not less

than 10 days nor more than six months, or by both such fine and confinement.

A city, town or county may operate such a disposal site when its governing body determines that commercial channels of disposition are not available or are inadequate, and it may make final disposition of such vehicles or parts, or the city, town or county may trans-

fer such vehicles or parts to another, provided such disposal shall be only as scrap or salvage, consistent with Section 10, Subdivision (c) of this Article.

They may be dismissed from service on request of the Sheriff whenever approved by the Commissioners Court, or by said Court on its own initiative, whenever their services are no longer needed or have not been satisfactory. The Commissioners Court shall fix their compensation prior to their selection, and may provide at the expense of the county, necessary equipment for said officers. The pay of said deputies shall not be included in the settlements of the Sheriff in accounting for the fees of office. For the purpose of this law, the Commissioners Courts of counties whose funds from the motor registration fees provided herein amount to Thirty Thousand Dollars (\$30,000) or over, may use not exceeding five (5) percent of said funds; and not to exceed seven and one-half (7½) percent of such funds in counties receiving a lesser amount from such registration. Said deputies shall at all times cooperate with the police department of each city or town within the county, in the enforcement of said traffic laws therein and in all other parts of the county, and shall have the same right and duty to arrest violators of all laws as other Deputy Sheriffs have.

No fees or charges whatever shall be made for the service of such officers provided for herein, nor shall any fee for the arrests made by such officers be charged and taxed as costs or paid to such officers in any case in which such officers shall make an arrest. Such officers shall perform all their duties and make arrests for violation of any law of this State appertaining to the control and regulation of vehicles operating in and upon any highway, street, or alley of this State. The district engineer in whose district the county in which such officers operate shall advise with such officers as to the enforcement of the various State laws pertaining to control and regulation of traffic upon the highways, and in case such officers shall not perform their duties in enforcing such laws, the district engineer may complain to the commissioners' court, and upon the filing of such complaint in writing duly signed by the district engineer, the commissioners' court shall summons before them for a hearing the officer or officers so complained of, and if such hearing develops that such officer or officers are not performing their duties as required of them, then such officer or officers shall immediately be discharged from all of their duties and powers as herein provided for, and other officers shall forthwith be appointed. Should any portion or section of this article be held invalid or unconstitutional, such holding shall not affect the validity or constitutionality of any other por-

#### Art. 6701a. Permits for Heavy Trucks on Highways

Sec. 1. When any person, firm or corporation shall desire to operate over a state highway super-heavy or over-size equipment for the transportation of such commodities as cannot be reasonably dismantled, where the gross weight or size exceeds the limits allowed by law to be transported over a state highway the State Highway Department may, upon application, issue a permit for the operation of said equipment with said commodities, when said State Highway Department is of the opinion that the same may be operated without material damage to the highway. Provided, however, that all cities and towns having a state highway within their limits shall designate to the State Highway Department the route within the city or town to be used by said equipment operating over the state highway. When so designated, the route shall be shown on all

maps routing said equipment with said commodities by the State Highway Department. In the event a route is not so designated by a city or town, the State Highway Department shall determine the route on State Highways for the equipment with said commodities within cities or towns. No fee, permit or license shall be required by any city or town for movement of said super-heavy or over-size equipment on the route of a state highway designated by the State Highway Department, or on said special route designated by a city or town.

Sec. 1-a. In order to facilitate the issuance of such special permits, the Highway Department shall designate in each county a special agent or agents who shall at all times be available for the purpose of issuing such permits in compliance with this law.

There shall also accompany the application for permit a fee of Five Dollars (\$5) for single trip permits, Ten Dollars (\$10) for time permits not exceeding a period of thirty (30) days; Fifteen Dollars (\$15) for time permits not exceeding a period of sixty (60) days and Twenty Dollars (\$20) for time permits not exceeding a period of ninety (90) days, which fee shall be by the State Highway Department deposited in the Treasury of the State of Texas to the credit of the State Highway Fund. All payments of fees shall be made by cashier or certified check, postal or express money orders. As a further prerequisite to the issuance of any such permits, the equipment to be operated under such permit must have been registered under Acts 1929, 41st Legislature, 2nd Called Session, Chapter 88, as amended (Vernon's Civil Statutes 6675a) for maximum gross weight applicable to such vehicle under Section 5, Acts 1929, 41st Legislature, 2nd Called Session, Chapter 42, as amended (Vernon's Penal Code, Article 827a), not exceeding seventy-two thousand (72,000) pounds total gross weight. The requirement of a bond contained

in this section does not apply to the driving or transporting of farm equipment which is being used for agricultural purposes if it is driven or transported by or under the authority of the owner of the equipment. The bond requirement does apply to the delivery of farm equipment to a farm equipment dealer.

Sec. 4. Any permit provided for in this Act issued by the State Highway Department, shall be substantially in the following form:

Sec. 1. (a) No person who is related within the second degree of consanguinity or affinity to the owner or operator of a motor vehicle and who is being transported over the public highways of this State by the owner or operator of the motor vehicle as his guest without payment for such transportation, shall have a cause of action for damages against such owner or operator for injuries, death or loss, in case of accident, unless such accident shall have been intentional on the part of said owner or operator, or caused by his heedlessness or his reckless disregard of the rights of others. There shall be no such immunity for an owner or operator who is not so related to the guest.

(b) Nothing in this Act affects any judicially-developed and developing rules under which a person is or is not totally or partially immune from tort liability to another by virtue of a family relationship.

(c) When any liability claim is made by a guest against the owner or operator or his lia-

bility insurance carrier, the owner or operator or his liability insurance carrier shall be entitled to an offset, credit, or deduction against any award made to such guest in an amount of money equal to the amounts paid by the owner, operator or his automobile liability insurance carrier for medical expenses of such guest; provided, however, that nothing herein shall be construed to authorize a direct action against a liability insurance company if such right does not presently exist at law.

Sec. 2. This Act shall not relieve a public carrier or any owner or operator of a motor vehicle while the same is being demonstrated to a prospective purchaser, of responsibility for any injuries sustained by a passenger being transported by such public carrier, or by such owner or operator.

[Acts 1931, 42nd Leg., p. 379, ch. 225; Acts 1973, 63rd Leg., p. 42, ch. 28, § 3, eff. Sept. 1, 1973.]

Sec. 1. The following words and phrases, when used in this Act, shall, for the purpose of this Act, have the meanings respectively ascribed to them in this section, as follows:

"Vehicle". Every mechanical device, in, upon, or by which any person or property is or may be transported or drawn upon a public highway, including motor vehicles, commercial motor vehicles, truck-tractors, trailers, and semi-trailers, severally, as hereinafter defined, but excepting devices moved by human power or used exclusively upon stationary rails or tracks.

"Commercial Motor Vehicle". Every motor vehicle, other than a motorcycle or passenger car, designed or used primarily for the transportation of property, including any passenger car which has been reconstructed so as to be used, and which is being used, primarily for delivery purposes, with the exception of passenger cars used in the delivery of the United States mails.

"Truck-tractor". Every motor vehicle designed or used primarily for drawing other vehicles, and not so constructed as to carry a load other than a part of the weight of the vehicle and load so drawn.

Filing Copy of Lease, Memorandum or Agreement; Letter of Acknowledgment; Copies Carried in Cab; Display; Exceptions

Sec. 2. No commercial motor vehicle nor any truck-tractor shall be operated over any public highway of this state by any person other than the registered owner thereof, or his agent, servant or employee under the supervision, direction, and control of such registered owner unless such other person under whose

supervision, direction and control said motor vehicle or truck-tractor is operated shall have caused to be filed with the Department an executed copy of the lease, memorandum or agreement under which such commercial motor vehicle or truck-tractor is being operated.

Immediately upon receipt thereof, the Department shall deliver or mail forthwith to the lessee of such motor vehicle or truck-tractor, a letter of acknowledgment thereof, with the official stamp or seal of the Department affixed to such letter.

Such letter of acknowledgment shall contain:

1. The names of the lessor and lessee and their addresses;
2. The term of the lease;
3. The make, and motor or serial number of the vehicle covered by such lease; and
4. Such other data as the Department may determine.

For the purposes of this Act, a lease, memorandum or agreement shall not be considered as filed with the Department unless and until the lessee of such motor vehicle or truck-tractor shall have mailed by certified mail a duly executed copy of said lease, memorandum or agreement in the United States Mail properly addressed to the Department, and at the time of said mailing obtaining from the Post Office a receipt for certified mail properly post-marked by the Post Office Clerk showing the date and place of mailing.

The lessee of said motor vehicle or truck-tractor shall have in the cab thereof during the first five (5) days of operation under said lease, memorandum or agreement a true copy of said lease, memorandum or agreement, together with the letter of transmittal of such lease to the Department, as well as said receipt for certified mail, which shall be effective for a period not to exceed five (5) days from the date issued. Following the expiration of said five (5) day period the lessee of said motor vehicle or truck-tractor shall have in the cab thereof at all times while such motor vehicle or truck-tractor is being operated on the roads or highways of this state, a true copy of the original letter of acknowledgment, as provided herein, with the official stamp or seal of the Department affixed thereto. Such letter of acknowledgment, or an effective receipt for certified mail, must be displayed to any officer authorized to enforce this law, upon request of such officer.

The operation of any such leased motor vehicle or truck-tractor over the public highways or roads of this state without having in the cab thereof such letter of acknowledgment from the Department with its official stamp or seal affixed thereto, or an effective receipt for certified mail, as well as the letter of transmittal and copy of said lease, memorandum or agreement, as provided for herein, shall be unlawful.

Wherever the word "Department" is used herein it means "Department of Public Safety of the State of Texas."

Provided, however, that this Act shall not apply to any vehicle lawfully registered as a farm vehicle under the provisions of Acts of the 41st Legislature, 2nd Called Session, 1929, Chapter 88, page 172, Section 6a, as amended by subsequent session of the Legislature and as codified as Article 6675a-6a, Revised Civil Statutes of Texas. And provided further, that this Act shall not apply to motor vehicles, commercial motor vehicles, and truck-tractors used exclusively to transport sand, gravel, dirt, caliche, shell, cement, ready-mix concrete, asphalt rock, and aggregate; nor shall this Act apply to such vehicles as are used exclusively in the transportation of sand, gravel, dirt, caliche, shell, cement, ready-mix concrete, asphalt rock, aggregate, and other similar road-building substances ordinarily transported in bulk when such substances are being transported to or from the job site of any construction project being performed for or on behalf of the Federal Government, the State of Texas or any political subdivision thereof, or to or from the construction site of any national defense project, airport and roadways leading thereto, or to or from the construction site of any road, highway, and expressway; nor shall the requirements of this Act apply to any motor vehicle or truck-tractor which is used exclusively in the transportation of liquefied petroleum gases when such vehicle is being operated in accordance with the provisions of Chapter 363, page 612, Acts 52nd Legislature, 1951, and the provisions of Article 6053, Revised Civil Statutes of Texas, 1925, as amended, and the rules and regulations adopted by the Railroad Commission of Texas governing the handling and odorization of liquefied petroleum gases and specifications for the design, construction and installation of equipment used in the transportation, storage, dispensing, and consumption of liquefied petroleum gases. And provided further, that this Act shall not apply to commercial motor vehicles and truck-tractors leased or rented:

(a) without drivers from an individual, person, co-partnership, association or corporation whose principal business is the bona fide leasing or renting of motor vehicle equipment without drivers for compensation to the general public;

(b) and who maintain an established place of business and whose lease or rental contracts require the motor vehicle equipment to return to the established place of business;

(c) and who have dated and filed within ten (10) days of January 1st, April 1st, July 1st, and October 1st of each year, with the Department of Public Safety, a complete list giving a full description of all such commercial motor vehicles and truck-tractors owned by such individual, person, co-partnership, association or corporation, as of the date of the report, and

available for lease or rent without drivers for compensation. The first complete list filed herein must be accompanied by a fee of One (\$1.00) Dollar for each vehicle listed therein, together with a photostat or certified copy of the registration or title papers on every such motor vehicle; however, no such fee need be filed in subsequent quarterly filings unless such subsequent list contains additional equipment, in which event a fee of One (\$1.00) Dollar, together with photostat or certified copy of the registration or title papers on such additional equipment shall be filed. Provided, however, that the provisions of this Act shall not apply to motor vehicles, commercial motor vehicles, and truck-tractors used exclusively to transport household goods, used office furniture and equipment.

If for any reason any one or more of the foregoing exceptions contained in this Act is unconstitutional or invalid, it is hereby declared to be the intention of the Legislature to enact, and it does here now enact and pass, this Act without any such exception, one or more, and if any such exception, one or more, be invalid, then such exception alone shall fail and be held for naught, and the remainder of the Act shall be and remain unimpaired, and it is so enacted.

**Subsequent Lease, Memorandum or Agreement Covering Same Vehicle**

Sec. 3. When any such lease, memorandum, or agreement, as required by Section 2 of this Act, shall have been filed with the Department of Public Safety covering the operation of any commercial motor vehicle or truck-tractor, no further such lease, memorandum, or agreement covering the operation of the same commercial motor vehicle or truck-tractor may be accepted by the Department of Public Safety for filing until the existing lease, memorandum, or agreement shall have expired in accordance with its own terms or there shall have been filed with the Department of Public Safety a full release thereof.

**Contents of Lease, Memorandum or Agreement; Information Confidential**

Sec. 4. Such lease, memorandum, or agreement as required by Section 2 of this Act shall contain or provide, but shall not be limited to, the name and address of the registered owner of such commercial motor vehicle or truck-tractor, the name and address of the person other than the owner, the actual consideration, the term, the commodity or commodities to be transported under such lease, memorandum, or agreement and a full description of the commercial motor vehicle or vehicles or truck-tractors covered thereby; that the operation of such vehicle shall be under the full and complete control and supervision of the person other than the registered owner, and except as to leases between regulated carriers subject to the jurisdiction of the Railroad Commission or Interstate Commerce Commission, that the per-

son other than the registered owner shall provide for public liability and property damage insurance on each and every vehicle during the term of such lease, memorandum or agreement of not less than Five Thousand (\$5,000.00) Dollars for bodily injury to any one person or a total of Ten Thousand (\$10,000.00) Dollars for any one accident involving two or more persons and property damage for any one accident of not less than Five Thousand (\$5,000.00) Dollars, and shall state that such commercial motor vehicle or vehicles or truck-tractors are not the subject of any other such lease, memorandum, or agreement which shall have been filed with the Department of Public Safety in accordance with Section 2 of this Act and which is still in effect.

All information contained in any lease, memorandum, or agreement filed with the Department of Public Safety as required by Section 2 of this Act shall, with the exception of the name and address of the registered owner, the name and address of the person other than the owner, under whose supervision, direction and control the same is being operated, and a full description of the commercial motor vehicle or truck-tractor covered thereby, shall be for the confidential use of the Department of Public Safety; except, however, that the Department of Public Safety may make such information available to the law enforcement officers of the Interstate Commerce Commission, and may further use such information in any judicial proceeding brought in the name of the State of Texas.

**Filing Fee; Photostat or Certified Copy of Registration or Title Papers**

Sec. 5. Any filing of a lease, memorandum, or agreement, or of a release thereof, as provided for in Section 2 and Section 3 of this Act shall be accompanied by a fee of One (\$1.00) Dollar, for each and every vehicle operated, or to be operated, under such lease, memorandum or agreement, together with a photostat or certified copy of the registration or title papers on every such motor vehicle, which shall be deposited in the Treasury of the State of Texas to the credit of the Operator's and Chauffeur's License Fund to be used by the Department of Public Safety for the purpose of enforcement of this Act.

**Sign or Placard**

Sec. 6. No commercial motor vehicle or truck-tractor shall be operated over any public highway of this State when said vehicle is being operated by a person other than the registered owner or his agent, servant or employee under the supervision, direction, and control of such registered owner, unless there shall be affixed in a conspicuous place on each side thereof a sign or placard, in letters not less than two inches in height or less than one-fourth inches in width, showing the name and address of such person, firm or corporation under whose control, direction and supervision said vehicle is being operated, whether individually or through an agent, servant or employee,

under the supervision, direction, and control of such person, firm or corporation other than the registered owner. Such sign or placard as is required by the provisions of this section to be affixed in a conspicuous place on each side of the vehicle need not be painted on such vehicle but may be placed on a durable placard, canvas or other material by painting, drawing, stenciling or otherwise, and in such event such placard or canvas or other material shall be securely affixed to each side of such vehicle.

#### No Presumption of Violation of Other Laws

Sec. 7. Compliance with the requirements of this Act shall not be construed as making a prima facie case of a bona fide lease covering a motor vehicle, nor shall compliance be construed as creating any presumption that the commercial motor vehicle or truck-tractor in question is not being operated in violation of the terms and provisions of the Acts of the 41st Legislature, 1929, Chapter 314, page 698, as amended by Acts of the 42nd Legislature, 1931, Chapter 277, page 480, as amended by Acts of the 47th Legislature, 1941, Chapter 442, page 713, and Chapter 290, page 463, and codified as Article 911b, Vernon's Civil Statutes, and Article 1690b, Vernon's Penal Code.<sup>1</sup>

<sup>1</sup> Transferred; see, now, art. 911b, § 16.

#### Loan of Vehicle Without Compensation

Sec. 8. It shall be a complete defense to any alleged violation hereof that such commercial motor vehicle or any truck-tractor was under loan to the driver thereof or his employer, and that no compensation was paid for the use thereof.

#### Violations; Punishment

Sec. 9. The lessor, lessee, person, driver, operator, or other person, corporation, firm or co-partnership, operating or driving or causing or permitting the operating or driving of such commercial motor vehicle or truck-tractor failing to comply with any provision of this Act shall be guilty of a misdemeanor and upon conviction shall be fined a sum of not less than One Hundred (\$100.00) Dollars and not exceeding Two Hundred (\$200.00) Dollars.

At the regular registration period the Tax Collector shall give the applicant the call letter tags and corresponding receipts. Such call letter license tags shall be the legal registration insignia for the registration year for which issued, on the vehicle containing the mobile amateur radio equipment, while applicant is the bona fide owner of said vehicle.

Sec. 4. If during the registration year the applicant shall sell, trade, give, or in any way dispose of the vehicle upon which the call letter license tags are affixed, he shall turn such tags into the County Tax Assessor and Collector and receive from him replacement license tags for a fee as prescribed by law.

**ARTICLE III—TRAFFIC SIGNS, SIGNALS, AND MARKINGS**

Such uniform system shall correlate with and so far as possible conform to the system then current as approved by the American Association of State Highway Officials.

**State Highway Department to Sign State Highways**

Sec. 30. (a) The State Highway Department may place and maintain, or under the authority of Senate Bill No. 415, Acts, 46th Legislature, Regular Session,<sup>1</sup> provide for such placing and maintaining such traffic-control devices, conforming to its manual and specifications, upon all state highways as it may deem necessary, to indicate and carry out the provisions of this Act or to regulate, warn, or guide traffic.

(b) No local authority shall place or maintain any traffic-control device upon any high-

way under the jurisdiction of the State Highway Department except by the latter's permission.

<sup>1</sup> Article 6673b.

**Local Traffic-Control Devices**

Sec. 31. (a) Local authorities, in their respective jurisdiction, may place and maintain any traffic-control devices upon any highway under their jurisdiction as they may deem necessary to indicate and carry out the provisions of this Act, or local traffic ordinances, or regulate, warn or guide traffic. All such traffic-control devices hereafter erected shall conform to the State Highway Department's manual and specifications.

**Obedience to and Required Traffic-Control Devices**

Sec. 32. (a) The driver of any vehicle and the motorman of any streetcar shall obey the instructions of any official traffic-control device applicable thereto placed in accordance with the provisions of this Act, unless otherwise directed by a traffic or police officer, subject to the exceptions granted the driver of an authorized emergency vehicle in this Act.

(b) No provision of this Act for which official traffic-control devices are required shall be enforced against an alleged violator if at the time and place of the alleged violation an official device is not in proper position and sufficiently legible to be seen by an ordinarily observant person. Whenever a particular section does not state that official traffic-control devices are required, such section shall be effective even though no devices are erected or in place.

**Traffic-Control Signal Legend**

Sec. 33. Whenever traffic is controlled by traffic-control signals exhibiting different colored lights, or colored lighted arrows, successively one at a time or in combination, only the colors Green, Red and Yellow shall be used, except for special pedestrian signals carrying a word legend, and said lights shall indicate and apply to drivers of vehicles and pedestrians as follows:

(a) Green indication

1. Vehicular traffic facing a circular green signal may proceed straight through or turn right or left unless a sign at such place prohibits either such turn. But vehicular traffic, including vehicles turning right or left, shall yield the right-of-way to other vehicles and to pedestrians lawfully within the intersection or an adjacent crosswalk at the time such signal is exhibited.

2. Vehicular traffic facing a green arrow signal, shown alone or in combination with another indication, may cautiously enter the intersection only to make the movement indicated by such arrow, or such other movement as is permitted by other indications shown at the same time. Such vehicu-

lar traffic shall yield the right-of-way to pedestrians lawfully within an adjacent crosswalk and to other traffic lawfully using the intersection.

3. Unless otherwise directed by a pedestrian control signal, as provided in Section 34, pedestrians, facing any green signal, except when the sole green signal is a turn arrow, may proceed across the roadway within any marked or unmarked crosswalk.

(b) Steady yellow indication

1. Vehicular traffic facing a steady yellow signal is thereby warned that the related green movement is being terminated or that a red indication will be exhibited immediately thereafter when vehicular traffic shall not enter the intersection.

2. Pedestrians facing a steady yellow signal, unless otherwise directed by a pedestrian control signal as provided in Section 34, are thereby advised that there is insufficient time to cross the roadway before a red indication is shown and no pedestrian shall then start to cross the roadway.

(c) Steady red indication

1. Vehicular traffic facing a steady red signal alone shall stop at a clearly marked stop line, but, if none, before entering the crosswalk on the near side of the intersection, and may then turn right or, if the intersecting streets are both one-way streets and left turns are permissible, may turn left, after standing until the intersection may be entered safely, yielding right-of-way to pedestrians lawfully within an adjacent crosswalk and to other traffic lawfully using the intersection. Traffic not so turning shall remain standing until an indication to proceed is shown. The State Highway Commission, municipal authorities, and Commissioners Courts, within their respective jurisdictions, may prohibit such turns on a steady red signal by posting a notice that turns of that type are prohibited. Such notice shall be erected at such intersection giving notice thereof.

2. Unless otherwise directed by a pedestrian control signal as provided in Section 34, pedestrians facing a steady red signal alone shall not enter the roadway.

(d) In the event an official traffic-control signal is erected and maintained at a place other than an intersection, the provisions of this section shall be applicable except as to those provisions which by their nature can have no application. Any stop required shall be made at a sign or marking on the pavement indicating where the stop shall be made, but in the absence of

any such sign or marking the stop shall be made at the signal.

(e) The motorman of any streetcar shall obey the above signals as applicable to vehicles.

The fact that any person charged with a violation of this section is or has been entitled to use such drug under the laws of this State shall not constitute a defense against any charge of violating this section.

(b) Every person who is convicted of a violation of Subsection (a) of this section shall be punished by imprisonment for not less than ten (10) days nor more than two (2) years, or by fine of not less than One Hundred Dollars (\$100) nor more than One Thousand Dollars (\$1,000), or by both such fine and imprisonment. ARTICLE VI—DRIVING ON RIGHT SIDE OF ROADWAY; OVERTAKING AND PASSING, ETC.

Drive on Right Side of Roadway—Exceptions

Sec. 52. (a) Upon all roadways of sufficient width a vehicle shall be driven upon the right half of the roadway, except as follows:

1. When overtaking and passing another vehicle proceeding in the same direction under the rules governing such movement;
2. When an obstruction exists making it necessary to drive to the left of the center of the highway; provided, any person so doing shall yield the right-of-way to all vehicles traveling in the proper direction upon the unobstructed portion of the highway within such distance as to constitute an immediate hazard;
3. Upon a roadway divided into three marked lanes for traffic under the rules applicable thereon; or
4. Upon a roadway restricted to one-way traffic.

(b) Upon all roadways any vehicle proceeding at less than the normal speed of traffic at the time and place and under the conditions then existing shall be driven in the right-hand lane then available for traffic, or as close as practicable to the right-hand curb or edge of the roadway, except when overtaking and passing another vehicle proceeding in the same direction or when preparing for a left turn at an intersection or into a private road or driveway.

(c) Upon any roadway having four or more lanes for moving traffic and providing for two-way movement of traffic, no vehicle shall be driven to the left of the center line of the roadway, except when authorized by official traffic-control devices designated certain lanes to the left side of the center of the roadway for use by traffic not otherwise permitted to use such lanes, or except as permitted under Subsection (a) 2 hereof. However, this subsection shall not be construed as prohibiting the crossing of the center line in making a left turn into or out of an alley, private road, or driveway.

Passing Vehicles Proceeding in Opposite Directions

Sec. 53. Drivers of vehicles proceeding in opposite directions shall pass each other to the right, and upon roadways having width for not more than one line of traffic in each direction each driver shall give to the other at least one-half (1/2) of the main-traveled portion of the roadway as nearly as possible.

## Overtaking a Vehicle on the Left

Sec. 54. The following rules shall govern the overtaking and passing of vehicles proceeding in the same direction, subject to those limitations, exceptions and special rules hereinafter stated:

(a) The driver of a vehicle overtaking another vehicle proceeding in the same direction shall pass to the left thereof at a safe distance and shall not again drive to the right side of the roadway until safely clear of the overtaken vehicle.

(b) Except when overtaking and passing on the right is permitted, the driver of an overtaken vehicle shall give way to the right in favor of the overtaking vehicle on audible signal and shall not increase the speed of his vehicle until completely passed by the overtaking vehicle.

## When Overtaking on the Right is Permitted

Sec. 55. (a) The driver of a vehicle may overtake and pass upon the right of another vehicle only under the following conditions:

1. When the vehicle overtaken is making or about to make a left turn;

2. Upon a street or highway with unobstructed pavement not occupied by parked vehicles of sufficient width for two or more lines of moving vehicles in each direction;

3. Upon a one-way street, or upon any roadway on which traffic is restricted to one direction of movement, where the roadway is free from obstructions and of sufficient width for two (2) or more lines of moving vehicles.

(b) The driver of a vehicle may overtake and pass another vehicle upon the right only under conditions permitting such movement in safety. In no event shall such movement be made by driving off the pavement or main traveled portion of the roadway.

## Limitations on Overtaking on the Left

Sec. 56. No vehicle shall be driven to the left side of the center of the roadway in overtaking and passing another vehicle proceeding in the same direction unless authorized by the provisions of this Act and unless such left side is clearly visible and is free of oncoming traffic for a sufficient distance ahead to permit such overtaking and passing to be completely made without interfering with the operation of any vehicle approaching from the opposite direction or any vehicle overtaken. In every event the overtaking vehicle must return to an authorized lane of travel as soon as practicable and in the event the passing movement involves the use of a lane authorized for vehicles approaching from the opposite direction, before coming within two hundred (200) feet of any approaching vehicle.

## Further Limitations on Driving to Left of Center of Roadway

[Text of subsection (a) as amended by Acts 1971, 62nd Leg., p. 732, ch. 83, § 24]

Sec. 57. (a) No vehicle shall at any time be driven to the left side of the roadway under the following conditions:

1. Where sight restriction is such that the section of highway being traversed lies within a no passing zone as determined and marked in accordance with Section 58;

2. When approaching within one hundred (100) feet of or passing through any intersection or railroad grade crossing within the limits of an incorporated city or town;

3. Outside the limits of an incorporated city or town when approaching within one hundred (100) feet of or passing through any intersection or railroad grade crossing and the intersection or crossing is indicated by signs or markings in accordance with Section 58;

4. When approaching within one hundred (100) feet of any bridge, viaduct, or tunnel.

[Text of subsection (a) as amended by Acts 1971, 62nd Leg., p. 2418, ch. 767]

(a) No vehicle shall at any time be driven to the left side of the roadway under the following conditions:

1. Where sight restriction is such that the section of highway being traversed lies within a no passing zone as determined and marked in accordance with Section 58;

2. When approaching within one hundred (100) feet of or traversing any intersection or railroad grade crossing;

3. When approaching within one hundred (100) feet of any bridge, viaduct, or tunnel.

4. When awaiting access to a ferry operated by the State Highway Commission.

(b) The foregoing limitations shall not apply upon a one-way roadway, nor to any driver of a vehicle turning left into or from an alley, private road, or driveway.

(c) The State Highway Commission shall post signs along the approach to any ferry operated by it notifying motorists that passing is prohibited when there is a standing line of vehicles awaiting access to the ferry.

## No-Passing Zones

Sec. 58. (a) The State Highway Commission on State highways under its jurisdiction, and local authorities on highways under their jurisdiction, are authorized to determine those portions of any highway under their appropriate jurisdiction where overtaking and passing or driving to the left of the roadway would be especially hazardous and may by appropriate signs or marking on the roadway indicate the

beginning and end of such zones and when such signs or markings are in place and clearly visible to an ordinarily observant person every driver of a vehicle shall obey the directions thereof.

(b) Where signs or markings are in place to define a no-passing zone as set forth in Subsection (a) no driver shall at any time drive on the left side of the roadway within such no-passing zone or on the left side of any pavement striping designed to mark such no-passing zone throughout its length. However, this subsection shall not be construed as prohibiting the crossing of such pavement striping, or the center line within a no-passing zone marked by signs only, in making a left turn into or out of an alley, private road, or driveway.

#### One-Way Roadways and Rotary Traffic Islands

Sec. 59. (a) The State Highway Commission may designate any highway or any separate roadway under its jurisdiction for one-way traffic and shall erect appropriate signs giving notice thereof.

(b) Upon a roadway designated and signposted for one-way traffic the driver of a vehicle shall drive only in the direction designated.

(c) The driver of a vehicle passing around a rotary traffic island shall drive only to the right of such island.

#### Driving on Roadways Laned for Traffic

Sec. 60. Whenever any roadway has been divided into two (2) or more clearly marked lanes for traffic the following rules in addition to all others consistent herewith shall apply:

(a) The driver of a vehicle shall drive as nearly as practical entirely within a single lane and shall not be moved from such lane until the driver has first ascertained that such movement can be made with safety.

(b) Upon a roadway which is divided into three (3) lanes and provides for two-way movement of traffic, a vehicle shall not be driven in the center lane except when overtaking and passing another vehicle traveling in the same direction when such center lane is clear of traffic within a safe distance, or in preparation for making a left turn or where such center lane is at the time allocated exclusively to traffic moving in the same direction that the vehicle is proceeding and such allocation is designated by official traffic-control devices.

(c) Official signs may be erected directing slow-moving traffic to use a designated lane or designating those lanes to be used by traffic moving in a particular direction regardless of the center of the roadway and drivers of vehicles shall obey the direction of every such sign.

(d) Official traffic-control devices may be installed prohibiting the changing of lanes on sections of roadway and drivers

of vehicles shall obey the directions of every such device.

#### Following Too Closely

Sec. 61. (a) The driver of a motor vehicle shall, when following another vehicle, maintain an assured clear distance between the two vehicles, exercising due regard for the speed of such vehicles, traffic upon and conditions of the street or highway, so that such motor vehicle can be safely brought to a stop without colliding with the preceding vehicle, or veering into other vehicles, objects or persons, on or near the street or highway.

(b) The driver of any motor truck or motor vehicle drawing another vehicle when traveling upon a roadway outside of a business or residential district and which is following another motor truck or motor vehicle drawing another vehicle shall whenever conditions permit leave sufficient space so that an overtaking vehicle may enter and occupy such space without danger, except that this shall not prevent a motor truck or motor vehicle drawing another vehicle from overtaking and passing any like vehicle or other vehicle.

(c) The drivers of motor vehicles driven upon any roadway outside of a business or residential district in a caravan or motorcade whether or not towing other vehicles shall drive so as to allow sufficient space between each such vehicle or combination of vehicles so as to enable any other vehicles to enter and occupy such space without danger. This provision shall not apply to funeral processions.

#### Driving on Divided Highways

Sec. 62. Whenever any highway has been divided into two (2) or more roadways by leaving an intervening space or by a physical barrier or clearly indicated dividing section so constructed as to impede vehicular traffic, every vehicle shall be driven only upon the right-hand roadway unless directed or permitted to use another roadway by official traffic-control devices or police officers. No vehicle shall be driven over, across or within any such dividing space, barrier or section, except through an opening in such physical barrier or dividing section or space or at a crossover or intersection as established by public authority.

#### Restricted Access

Sec. 63. No person shall drive a vehicle onto or from any limited access or controlled access roadway except at such entrances and exits as are established by public authority.

#### Restrictions on Use of Controlled-Access Roadway

Sec. 64. The State Highway Commission may by resolution or order entered in its minutes, and local authorities may by ordinance, with respect to any limited-access or controlled-access roadway under their respective jurisdictions prohibit the use of any such roadway by parades, funeral processions, pedestrians, bicycles, nonmotorized traffic, or by any person operating a motor driven cycle.

The State Highway Commission or the local authority adopting any such prohibitory regulation shall erect and maintain official traffic-control devices on the limited-access or controlled-access highway on which such regulations are applicable and when in place no person shall disobey the restrictions stated on such devices.

#### ARTICLE VII—TURNING AND STARTING AND SIGNALS ON STOPPING AND TURNING

##### Required Position and Method of Turning at Intersections

Sec. 65. The driver of a vehicle intending to turn at an intersection shall do so as follows:

(a) Right turns. Both the approach for a right turn and a right turn shall be made as close as practicable to the right-hand curb or edge of the roadway.

(b) Left turns. The driver of a vehicle intending to turn left at any intersection shall approach the intersection in the extreme left-hand lane lawfully available to traffic moving in the direction of travel of such vehicle, and, after entering the intersection, the left turn shall be made so as to leave the intersection in a lane lawfully available to traffic moving in such direction upon the roadway being entered. Whenever practicable the left turn shall be made in that portion of the intersection to the left of the center of the intersection.

(c) The State Highway Commission and local authorities in their respective jurisdictions may cause official traffic-control devices to be placed within or adjacent to intersections and thereby require and direct that a different course from that specified in this section be traveled by vehicles turning at an intersection, and when such devices are so placed no driver of a vehicle shall turn a vehicle at an intersection other than as directed and required by such devices.

##### Turning on Curve or Crest of Grade Prohibited

Sec. 66. No vehicle shall be turned so as to proceed in the opposite direction upon any curve, or upon the approach to or near the crest of a grade, where such vehicle cannot be seen by the driver of any other vehicle approaching from either direction within five hundred (500) feet.

##### Starting Parked Vehicle

Sec. 67. No person shall start a vehicle which is stopped, standing, or parked unless and until such movement can be made with safety.

##### Turning Movements and Required Signals

Sec. 68. (a) No person shall turn a vehicle at an intersection unless the vehicle is in proper position upon the roadway as required in Section 65, or turn a vehicle to enter a private road or driveway, or otherwise turn a vehicle from a direct course or move right or left upon

a roadway unless and until such movement can be made with safety. Except under conditions set out in Section 24(a) no person shall so turn any vehicle without giving an appropriate signal in the manner hereinafter provided.

(b) A signal of intention to turn right or left when required shall be given continuously during not less than the last one hundred (100) feet traveled by the vehicle before turning.

(c) No person shall stop or suddenly decrease the speed of a vehicle without first giving an appropriate signal in the manner provided herein to the driver of any vehicle immediately to the rear when there is opportunity to give such signal.

(d) The signals provided for in Section 69 of this Act shall be used to indicate an intention to turn, change lanes, or start from a parked position and shall not be flashed on one side only on a parked or disabled vehicle, or flashed as a courtesy or "do pass" signal to operators of other vehicles approaching from the rear.

##### Signals by Hand and Arm or Signal Lamps

Sec. 69. (a) Any stop or turn signal when required herein shall be given either by means of the hand and arm or by signal lamps, except as otherwise provided in Subsection (b).

(b) Any motor vehicle in use on a highway shall be equipped with, and required signal shall be given by, signal lamps when the distance from the center of the top of the steering post to the left outside limit of the body, cab or load of such motor vehicle exceeds 24 inches, or when the distance from the center of the top of the steering post to the rear limit of the body or load thereof exceeds 14 feet. The latter measurement shall apply to any single vehicle, also to any combination of vehicles.

##### Method of Giving Hand and Arm Signals

Sec. 70. All signals herein required given by hand and arm shall be given from the left side of the vehicle in the following manner and such signals shall indicate as follows:

1. Left turn. Hand and arm extended horizontally.
2. Right turn. Hand and arm extended upward.
3. Stop or decrease speed. Hand and arm extended downward.

The signals herein required shall be given either by means of the hand-and-arm, or by a signal lamp or signal device approved by the department.

#### ARTICLE VIII—RIGHT-OF-WAY

##### Vehicles Approaching or Entering Intersection

Sec. 71. (a) The driver of a vehicle approaching the intersection of a different street or roadway shall stop, yield and grant the privilege of immediate use of such intersection in obedience to any stop sign, yield right-of-way sign or traffic control device erected by public

authority, and after so stopping, may only proceed thereafter when such driver may safely enter the intersection without interference or collision with traffic using such different street or roadway.

(b) The driver of a vehicle on a single lane street or roadway, or a street or roadway consisting of only two traffic lanes, upon approaching the intersection, not otherwise controlled by traffic signs or signals, of a divided street or roadway, or of a street or roadway divided into three or more marked traffic lanes, shall stop, yield and grant the privilege of immediate use of such intersection to vehicles on such other street which are within the intersection or approaching such intersection in such proximity thereto as to constitute a hazard and after so stopping may only proceed thereafter when such driver may safely enter the intersection without interference or collision with traffic using such different street or roadway.

(c) The driver of a vehicle on an unpaved street or roadway approaching the intersection of a paved roadway shall stop, yield and grant the privilege of immediate use of such intersection to any vehicle on such paved roadway which is within the intersection or approaching such intersection in such proximity thereto as to constitute a hazard, and after so stopping may only proceed thereafter when such driver may safely enter the intersection without interference or collision with traffic using such paved street or roadway.

(d) The driver of a vehicle approaching the intersection of a different street or roadway, not otherwise regulated herein, or controlled by traffic control signs or signals, shall stop, yield and grant the privilege of immediate use of such intersection to any other vehicle which has entered the intersection from such driver's right or is approaching such intersection from such driver's right in such proximity thereto as to constitute a hazard and after so stopping may only proceed thereafter when such driver may safely enter such intersection without interference or collision with traffic using such different street or roadway.
