1972 SUPPLEMENT

This Supplement to Vernon's Texas Statutes, in two volumes, includes the laws of a general and permanent nature enacted at the Regular and Called Sessions of the 62nd Legislature. The sessions convened and adjourned as follows:

	Convened	Adjourned
Regular Session, 62nd Leg.	Jan. 12, 1971	May 31, 1971
First Called Session, 62nd Leg. ...	June 1, 1971	June 4, 1971

These volumes supplement the 1948 edition of Vernon's Texas Statutes and the biennial Supplements from 1950 through 1970.

Constitutional amendments, approved by the voters on November 3, 1970 and May 18, 1971, are also included.

To assist the user in readily locating any article or section affected by legislation from 1949 through 1971, a special Table has been prepared and is printed on the colored pages in Volume 1.

Vernon's Texas Statutes 1948 and Supplements are under the same classification and arrangement as Vernon's Annotated Texas Statutes and Vernon's Texas Codes Annotated. This means that users of this edition may go from any article or section therein to the same article or section in the annotated editions where the complete constructions of the law by the state and federal courts, as well as complete historical data relative to the origin and development of the law, are conveniently available.

The same practical features which have served to popularize the 1948 Edition, such as a complete index and tables, are continued in the Supplements.

The Publisher extends appreciative thanks to the office of the Secretary of State, as well as to other state officials, for guidance and suggestions during the preparation of this work.

CHAPTER 7. WAREHOUSE RECEIPTS, BILLS OF LADING AND OTHER DOCUMENTS OF TITLE

§ 7.209. Lien of Warehouseman

* * * * *

(c) A warehouseman's lien for a security interest under Subsection (b) is effective against any person who so entrusted the bailor with possession of the goods that a pledge of them by him to a good faith purchaser for value would have been valid but is not effective against a person as to whom the document confers no right in the goods covered by it under Section 7.503. However, the warehouseman's specific lien for charges and expenses under Subsection (a) (1) is effective against any security interest. If the warehouseman learns of a perfected security interest owned by a person as to whom the document confers no right in the goods covered by it under Section 7.503 against the goods and fails thereafter to give such secured party (Section 9.105) written notice of the accrued and unpaid charges and expenses at the time when they have accrued for between two and six months, then the warehouseman's specific lien under Subsection (a) (1) is effective as against such secured party only with respect to unpaid charges and expenses which have accrued by the end of six months.

Subsec. (c) amended by Acts 1971, 62nd Leg., p. 3048, ch. 1010, § 1, eff. June 15, 1971.

The Texas Education Code as adopted in 1969 codified the general and permanent statutes relating to public education, excluding certain laws relating to higher education.

The laws relating to higher education were included in the Code by Acts 1971, 62nd Leg., p. 3072, ch. 1024, Art. 1, § 1, which amended and reenacted Title 3. Numerous other code sections were either added or amended by the 1971 Act, Art. 2, § 1 et seq. The act declared an intent to codify without substantive change.

Acts 1971, 62nd Leg., p. 1449, ch. 405, which by sections 1 to 53 incorporated the provisions of certain acts passed during the regular and second called sessions of the 61st Legisla-

ture into the Code, and which by section 54 repealed the acts so incorporated, provided in sections 55 and 56:

“Sec. 55. Nothing in this Act is intended to make any change in the substantive law, but this Act is merely intended to be a recodification of the present law.

“Sec. 56. If any other Act passed at the same session of the Legislative conflicts with any provision of this Act, the other Act prevails.”

(d) The State Department of Health shall provide the required immunizations to children in areas where no local provision exists to provide these services.

(e) A person may be provisionally admitted to an elementary or secondary school or institution of higher education if he has begun the required immunizations and if he continues to receive the necessary immunizations as rapidly as is medically feasible. (e) Any person who, prior to September 1, 1955, had established his eligibility for any teacher certificate under the then-existing certification laws of this state may apply for and receive the state certificate to which he was entitled under such laws on payment of the fees prescribed. On application, such person may also receive the class of certificate to which the provisions of this chapter entitle him.

(j) Any person who held a valid permanent teaching certificate prior to September 1, 1955, shall, on application, be issued a professional certificate. If any part of this chapter is in conflict with this subsection, then this subsection shall control.

The commissioner of education shall have the power to issue to the holder of a valid certificate or bachelor's or higher degree from another state a Texas certificate which in his judgment the holder merits when the value of his degree or certificate is measured by the standards required for Texas certificates. But no certificate may be issued if the degree or certificate presented is not deemed to meet the requirements for a Texas provisional certificate.

(b) No Texas teacher certificate shall be issued to a person from another state, as provided in Subsection (a) of this section, until that person has secured credit from a college or university in this state in a course or courses which give special emphasis on the Texas Constitution and has secured credit from a college or university in a course or courses which give special emphasis on the United States Constitution, or shall have passed examination(s), administered under the direction of the Central Education Agency, in one or both, as the situation demands. The course or courses may be taken by correspondence, extension classes, or in residence.

The emergency permit shall entitle the applicant to teach in the area of specialization appearing on its face and shall be valid for a period not exceeding one scholastic year. No more than one emergency permit authorized in this subsection shall be issued to any applicant. § 13.101. Probationary or Continuing Contract

Each teacher hereafter employed by any school district in this state shall be employed under, and shall receive from such district, a contract that is either a "probationary contract" or a "continuing contract" in accordance with the provisions of this subchapter if the school board chooses to offer such teacher a "probationary contract" or a "continuing contract." All such contracts shall be in writing, in such form as may be promulgated by or approved by the commissioner of education, and shall embody the terms and conditions of employment hereinafter set forth, and such other provisions not inconsistent with this subchapter as may be appropriate.

Originally § 21.202.

§ 13.103. Probationary Contract: Termination

The board of trustees of any school district may terminate the employment of any teacher holding a probationary contract at the end of the contract period, if in their judgment the best interests of the school district will be served thereby; provided, that notice of intention to terminate the employment shall be given by the board of trustees to the teacher on or before April 1, preceding the end of the employment term fixed in the contract. In event of failure to give such notice of intention to terminate within the time above specified, the board of trustees shall thereby elect to employ such probationary teacher in the same capacity, and under probationary contract status for the succeeding school year if the teacher has been employed by such district for less

than three successive school years, or in a continuing contract position if such teacher has been employed during three consecutive school years.

Originally § 21.203.

§ 13.104. Hearing

Failure of the teacher to accept the contract within such 30 day period shall be considered a refusal on the part of the teacher to accept the contract.

Originally § 21.206.

§ 13.107. Status Under Continuing Contract

Each teacher with whom a continuing contract has been made as herein provided shall be entitled to continue in his position or a position with the school district, at a salary authorized by the board of trustees of said district complying with the minimum salary provisions of the foundation aid law, for future school years without the necessity for annual nomination or reappointment, until such time as the person:

after written notice of the action taken by the board of trustees shall be given to the teacher; or, the teacher may challenge the legality of such action by suit brought in the district court of any county in which such school district lies within 30 days after such notice of the action taken by the board of trustees has been given to the teacher.

(b) If the board of trustees shall order the continuing contract status of any teacher holding such a contract abrogated at the end of any school year and such teacher returned to probationary contract status, or if the board of trustees shall order that any teacher holding a continuing contract be dismissed at the end of the school year, or that any teacher holding a probationary contract shall be dismissed at the end of a school year before the end of the employment period covered by such probationary contract, the teacher affected by such order, after filing notice of appeal with the board of trustees, may appeal to the commissioner of education by mailing a copy of the notice of appeal to the commissioner within 15 days after written notice of the action taken by the board of trustees has been given to the teacher.

(c) Either party to an appeal to the commissioner shall have the right to appeal from his decision to the State Board of Education, according to the procedures prescribed by the State Board of Education. The decision of the State Board of Education shall be final on all questions of fact, but shall be subject to appeal to the district court of any county in which such school district or portion thereof lies, if the decision of the state board:

(a) It is the intention of this section to provide for a comprehensive special education program for exceptional children in Texas.

(b) As used in this section:

(2) "Physically handicapped children" means children of educable mind whose body functions or members are so impaired from any cause that they cannot be adequately or safely educated in the regular classes of the public schools without the provision of special services.

(3) "Mentally retarded children" means children whose mental capacity is such that they cannot be adequately educated in the regular classes of the public schools without the provision of special services.

(4) "Emotionally disturbed children" means children whose emotional condition is medically and/or psychologically determined to be such that they cannot be adequately and safely educated in the

regular classes of the public schools without the provision of special services.

The term "language and/or learning disabled children" shall also apply to children diagnosed as having specific developmental dyslexia.

(6) "Special services" required for the instruction of or program for exceptional children means special teaching in the public school curriculum within and/or without the regular classroom; corrective teaching, such as lipreading, speech correction, sight conservation, corrective health habits; transportation, special seats, books, instructional media and supplies; professional counseling with students and parents; supervision of professional services and pupil evaluation services; established teaching techniques for children with language and/or learning disabilities.

(c) Under rules, regulations and/or formulae adopted by the State Board of Education subject to the provisions of this section, exceptional children teacher units, in addition to other professional and paraprofessional unit allotments herein authorized, shall be allotted to any eligible school district in the number determinable thereunder. Exceptional children teacher units for pupils who are both severely physically handicapped and mentally retarded shall be allocated on a separate formula from other type units.

(d) Professional personnel for the operation and maintenance of a program of special education shall be:

- (3) special education counselors;

(4) special service teachers, such as itinerant teachers of the homebound and visiting teachers, whose duties may or may not be performed in whole or in part on the campus of any school; and

(e) Paraprofessional personnel for the operation and maintenance of a program of special education shall consist of persons engaged as teacher aides, who may or may not hold a teacher certificate. The qualifications and minimum salary levels of paraprofessional personnel for salary allotment purposes of this section shall be established by the commissioner of education.

(f) Quantitative bases for the allotment of all special education unit personnel under Subsection (c) of this section shall be established by the commissioner of education under rules adopted by the State Board of Education. Any school district, at its expense, may employ any special education personnel in excess of its state allotment, may supplement the minimum salary allotted by the state for any special education personnel, and any district is authorized at local expense to pay for all or part of further or continuing training or education of its special education personnel.

(g) Special education unit personnel may be employed and/or utilized on a full-time, part-time, or upon a consultative basis, or may be allotted by the commissioner of education, pursuant to cooperative districts' agreement, jointly to serve two or more school districts. Two or more school districts may operate jointly their special education program and any school district may contract where feasible with any other

(h) To each school district operating an approved special education program there shall also be allotted a special service allowance in an amount to be determined by the commissioner of education for pupil evaluation, special seats, books, instructional media and other supplies required for quality instruction.

(i) To each school district operating an approved special education program, there shall be allotted also a transportation allowance for transporting of children in special education programs who are unable to attend the special education program for exceptional children in public school unless such special transportation is provided. The annual transportation allotment shall be \$150 per exceptional child pupil receiving such transportation. Such allocated transportation funds shall be used only for transportation purposes for children who are enrolled in a program of special education or who are eligible for such enrollment.

(j) The minimum monthly base pay and increments for teaching experience for an exceptional children teacher or a special service teacher conducting a 9, 10, 11, or 12 months special education program approved by the commissioner of education shall be the same as that of a classroom teacher as provided in the Foundation Program Act; provided that special education teachers shall have qualifications approved by the commissioner of education. The annual salary of special education teachers shall be the monthly base salary, plus increments, multiplied by 9, 10, 11, or 12, as applicable.

The annual salary of special education counselors and supervisors shall be the monthly base salary, plus increments, multiplied by 9, 10, 11, or 12, as applicable.

(l) The salary costs of special education teacher units, other professional and paraprofessional units authorized in Subsections (c), (d), and (e) of this section, operating costs as provided in Subsection (h), and transportation costs as provided in Subsection (i), computed as other costs of the Foundation School Program Act for local fund assignment purposes thereof, shall be paid from the Foundation Program School Fund. Provided further, that any school district may supplement any part of the comprehensive special education program it operates or participates in with funds or sources available to it from local source, public and/or private.

(m) Under rules and regulations of the State Board of Education, eligible school districts may contract with nonprofit community mental health and/or mental retardation centers, public or private, or any other nonprofit organization, institution, or agency approved by the State Board of Education, for the provision of services to exceptional children as defined by this section, who reside with their parents or guardians.

(n) Special education program units shall be included in determining the total current operating cost for each district.

(o) The Foundation School Fund Budget Committee shall compute all amounts required for comprehensive special education program purposes to be included in the amounts to be placed in the Foundation School Fund for the ensuing biennium at the same time that certifications are made for other Foundation School Fund purposes.

Every state agency, department, and institution, and every state, county, and school district official is directed to provide such information as may be requested by the committee and to assist the committee in accomplishing its objective.

(h) The committee shall report the results of its studies and make recommendations to the governor and to each member of the legislature not later than August 31, 1970. Because of the serious problem which exists in the financing of the Minimum Foundation Program and of apparent inequities in the allocation of funds to be provided by local school districts, the committee is encouraged to complete its work at the earliest possible date so that a solution might be found to be made applicable to the 1970-1971 school year.

§ 16.72. Total Amount Chargeable to Districts

(a) The sum of the amounts to be charged for the 1969-1970 school year against the local school districts of the state toward the Foundation School Program shall be \$180,800,000, to which shall be added by the State Board of Education at its July meeting in 1969, 20 percent of the estimated increased cost of the Foundation Program authorized by Acts of the 61st Legislature amending the Foundation School Program.

(b) The sum of the amounts to be charged for the 1970-1971 school year against the local school districts of the state toward the Foundation School Program shall be \$204,900,000, to which shall be added by the State Board of Education at its March meeting in 1970, 20 percent of the estimated increased cost of the Foundation Program authorized by Acts of the 61st Legislature amending the Foundation School Program.

(c) For the 1971-1972 school year, and for each school year thereafter, the sum of the amounts to be charged against the local school districts of the state toward the Foundation School Program shall be 20 percent of the estimated total cost of the Foundation School Program for the immediately preceding school year, plus an amount equal to the difference between the gross local fund assignment and the net local fund assignment for the immediately preceding school year.

Amended by Acts 1971, 62nd Leg., p. 1508, ch. 405, § 31, eff. May 26, 1971.

§ 16.73. Estimate of Total Cost of Program; Local Assignment

At its regular meeting in March, 1971, and at each regular meeting in March thereafter, the State Board of Education, after receiving the recommendation of the state commissioner of education, shall estimate the total cost of the Foundation School Program for the then current school year, based upon laws and approved school budgets in effect on the date when such estimate is made. Within 30 days after such estimate has been made, the state commissioner of education, subject to the approval of the State Board of Education, shall assign to each school district, according to its taxpaying ability as determined in this subchapter, its proportionate part of such total to be raised locally for the next school year and applied towards the financing of its Minimum Foundation School Program.

Amended by Acts 1971, 62nd Leg., p. 1509, ch. 405, § 31, eff. May 26, 1971.

§ 16.741. Livestock Sales From Feedlots

(a) In calculating an economic index of the financial ability of each county to support the Foundation School Program pursuant to Section 16.74 of this code, the commissioner of education shall calculate the value of cattle or other animal sales from feedlots at the net increase in value while in the feedlot.

(b) The "net increase in value in a feedlot" is arrived at by using the latest three years' average of the Federal Reserve Bank's interest rate as of January 1 of each year to which is added one and one-half percentage points. This total interest rate percentage figure then multiplied by the average sale value of cattle or other animals from the feedlot, will result in the net increase in value while in a feedlot, and is the figure that shall be used to carry out the purposes of this section.

Added by Acts 1971, 62nd Leg., p. 1494, ch. 405, § 21, eff. May 26, 1971.

§ 16.75. County Assignment

For the school year beginning 1971-1972 and each school year thereafter, the state commissioner of education shall calculate and determine the total sum of local funds that the school districts of a county shall be assigned to contribute toward the total cost of the Foundation School Program by multiplying 20 percent of the estimated Foundation Program cost for the immediately preceding school year, plus an amount equal to the difference between the gross local fund assignment and the net local fund assignment for the immediately preceding school year, as determined under the provisions of this subchapter by the economic index determined for each county. The product shall be regarded as the local funds available in each respective county toward the support of the Foundation School Program and shall be used in calculating the portion of said amount which shall be assigned to each school district in the county.

Amended by Acts 1971, 62nd Leg., p. 1509, ch. 405, § 32, eff. May 26, 1971.

For purposes hereof, state university owned land is defined to mean and include also state owned land located in Brazos County and devoted to the use of Texas A&M University and land owned by East Texas State University in Hunt County and land owned by Pan American University.

The superintendent of any district desiring to receive such a reduction in assignment and qualifying therefor shall certify to the Central Education Agency, not later than December 1 of each year, the following information:

SUBCHAPTER G-1. FOUR-QUARTER SCHOOL YEAR

Subchapter G-1 consisting of §§ 16.861 to 16.864 was added by Acts 1971, 62nd Leg., p. 2054, ch. 632, § 1, effective August 30, 1971.

§ 16.861. Transition to Four-Quarter System; Curriculum Revision

The Central Education Agency shall prepare a reorganized curriculum based on operation of the schools on a quarter basis. The revision shall be so structured that the material covered during the present school year of two semesters is covered in three three-month quarters. The agency shall distribute this restructured curriculum to each school district in the state in sufficient time so that the new curriculum can be put into operation beginning with the 1972-1973 school year.

§ 16.862. Operation on Quarter Basis

Beginning with the 1972-1973 school year, each school district in this state may operate on the basis of a quarter system, and beginning with the 1973-1974 school year, each school district in this state shall operate on the basis of a quarter system, with the schools being in operation during at least three quarters during each school year, providing 180 days of instruction for students and 10 days of inservice education for teachers.

§ 16.863. Foundation School Program Credit

Each school district shall receive average daily attendance credit under the Foundation School Program for attendance by a student for any three quarters during any one school year.

§ 16.864. Four-Quarter Operation Authorized

(a) A school district may choose to operate all or some of its schools for all four quarters of the school year. This choice shall be approved or disapproved by the district school board in a regularly scheduled open meeting. If a district so chooses, no credit for average daily attendance under the Foundation School Program may be given to the district for attendance by any one student for more than three quarters during any one school year. Attendance by a student for his fourth quarter must be financed either by the student on a tuition basis or by the district from its own funds, at the option of the district.

(b) A district operating during all four quarters of the school year shall decide which students are to attend school during which quarters. However, schedules shall be so arranged that all members of a family attending the schools of a district may attend the same three quarters.

(c) A district operating during all four quarters of the school year may not require a teacher to teach more than three quarters plus the number of days provided by law for inservice education and preparation during any one school year. A teacher or other school employee under the Minimum Foundation Program who elects to work four quarters during a school year shall receive a minimum salary which is increased proportionately in compliance with the state compensation plan.

(d) A district operating during all four quarters of the school year may not require a student to attend more than three quarters.

**SUBCHAPTER H. QUARTERLY SEMESTER
PILOT PROGRAMS**

Acts 1971, 62nd Leg., p. 2054, ch. 632, § 2, provides that effective September 1, 1972, Subchapter H (§§ 16.91 to 16.95) is repealed.

SUBCHAPTER H-1. THREE-SEMESTER PILOT PROGRAMS

Subchapter H-1 consisting of §§ 16.971 to 16.975 was added by Acts 1971, 62nd Leg., p. 1449, ch. 405, § 25, effective May 26, 1971.

§ 16.971. Pilot Program

For the purpose of exploring the feasibility of operating three-semester pilot programs, public school districts of this state are hereby authorized to operate (in lieu of the usual 9-month program) a 12-month school year program and to receive allocation of state aid toward financing the additional 3-month operation from the Foundation Program Fund, determined in the manner prescribed in this subchapter. Provided, however, that the district shall operate such 12-month program under its proposed plan submitted to the Central Education Agency, and subject to approval of the agency as meeting policy and regulations established and adopted by the State Board of Education applicable thereto.

§ 16.972. Limitation

(a) Three-semester pilot programs, annually approvable under this subchapter, shall be restricted in number to involve a maximum of 10 programs not to exceed 100,000 pupils, based on average daily attendance in the preceding school year, and the attendance of eligible pupils shall be restricted to two semesters out of the three-semester program.

(b) For purposes only of this pilot program, any child otherwise eligible who becomes six years of age after September 1 may be admitted to public school in any following semester beginning after he has reached six years of age, and such attendance shall be counted as eligible attendance for allocation purposes of the Foundation School Program Fund.

§ 16.973. Cost Basis

The cost of operating such approved three-semester pilot programs shall be borne by the state and each participating district on the same percentage basis that applies to financing the Foundation School Program within the respective district.

§ 16.974. Calculation of Costs

For purpose of computing authorized state aid and allocations under this subchapter, the cost of the program shall be ascertained as follows:

(1) The district's average daily attendance for classroom teacher unit eligibility and allocations shall be determined on a three-semester basis, limiting eligible pupil attendance to two semesters within each scholastic year. Eligibility for special service teachers, supervisors and/or counselors, head teachers, part-time principals, and full-time principals shall be determined by dividing the total aggregate days of attendance in the pilot program by the number of days that instruction is offered during two semesters, determined to the best advantage of the district.

(2) An additional salary adjustment, based on the state minimum salary schedule, shall be added for classroom teacher units occasioned by a 12-month operation. Provided further that the number of months and salary, based on the state minimum salary schedule, for eligible special service teachers, supervisors and/or counselors, head teachers, part-time principals, and full-time principals shall be allowed for 12 months.

(3) The total current operating costs of each pilot program as herein described, other than professional salaries and transportation, shall be determined by multiplying the number of classroom teacher units and exceptional teacher units times the number of months employed times \$67.

(4) An additional transportation allotment shall be added not to exceed the amount of one-third of the transportation allotment as normally computed for a nine-month operation.

§ 16.975. State's Share of Cost

The state's share of the cost shall be paid from the Minimum Foundation Program Fund, and this cost shall be considered by the Foundation Program Committee in estimating the funds needed for Foundation School Program purposes.

§ 23.991. Incentive Aid

Independent school districts created after August 22, 1963, through consolidation may qualify for incentive aid payments by the State of Texas; provided, however, no school district may receive such payments for a period of more than 10 years. Such incentive aid payments shall be made only upon application to the Texas Education Agency and in compliance with the terms and conditions contained in this section.

§ 23.992. Amount; Computation

(a) The amount of incentive aid payments shall not exceed the difference between the sum of the Foundation Program Payments which would have been paid to the several districts included in the newly organized district had there been no consolidation, and the amount of Foundation Program Assistance for which the new district qualifies. Where, however, such newly organized district is budget balance (not eligible for Foundation Program Payments) the amount of the incentive aid payments shall not exceed the sum of the Foundation Program Payments for which the several districts included in the newly organized district were eligible in the scholastic year when they were consolidated.

(b) Where there have been, or hereafter may be one, or a series of consolidations at intervals in compliance with and pursuant to the provisions of this subchapter, the lastly created or newly organized independent school district shall be eligible to receive at due times the total sum of the series of incentive aid payments as computed separately at the time of the several consolidations, subject to provisions in this subchapter. With respect to all such consolidations effected before March 22, 1965, the 10-year payment period shall be computed from the date of consolidation, or from March 22, 1965, whichever is the latest.

§ 23.993. Minimum ADA

The new district created through consolidation shall contain not fewer than 750 children in average daily attendance or a majority of the children in average daily attendance in the county containing the majority of the land area involved in the reorganization.

§ 23.994. Use Restricted

The incentive aid payments shall be used exclusively to retire the existing bonded indebtedness of the school districts which have been consolidated, or shall be applied to the cost of constructing new buildings required by the reorganized district.

§ 23.995. Payments Reduced

The incentive aid payments shall be reduced in direct proportion to any reduction in the annual average daily attendance of the reorganized school district for the preceding year.

§ 23.996. Consolidation Defined

"Consolidation" for purposes of this subchapter shall mean and have application to creation of new districts by election under school district consolidation laws and/or by enlargement of existing districts by annexation thereto of entire contiguous district or districts, other than dormant districts, under annexation laws, and where the district consolidated by election or enlarged by annexation under such laws results as an independent school district.

§ 23.997. Conditions Precedent to Payment

As a condition precedent to receiving incentive aid payments (1) the geographical limits of the proposed consolidated district shall be submit-

ted to the Texas Education Agency for approval and the geographical limits so approved shall be set forth in the petition for any consolidation election; and (2) the consolidation of the school districts shall result in the formation of an independent school district.

§ 23.998. Cost

The cost of incentive aid payments hereby authorized shall be paid from the Foundation School Fund. Such costs shall be considered and included by the Foundation School Fund Budget Committee in estimating the funds needed for purposes of the Foundation School Program and such incentive aid payments.

§ 23.999. Consolidation of County-Line Districts

Hereafter, where two or more contiguous county-line independent school districts, each of which is an accredited 12-grade independent school district, are consolidated and the resulting county-line independent school district so created contains fewer than 750 children in average daily attendance, such a district, subject to approval of the commissioner of education, may qualify and shall be eligible for incentive aid payments authorized by and pursuant to other applicable provisions of the incentive aid law. "Handicapped individual" shall include individuals disadvantaged by reason of their youth or advanced age, low educational attainments, ethnic or cultural factors, prison or delinquency records, or other conditions which constitute a barrier to employment, as well as members of their families when the provision of rehabilitation services to family members is necessary for the rehabilitation of a handicapped individual.

To render a handicapped individual fit to engage in a gainful occupation or independent living, may require the agency to engage in or contract for some or all of such activities as outreach, diagnosis and appraisal, treatment, training, job placement or self-employment, guidance, and counseling. Services may include maintenance, transportation, and training allowances, not exceeding the estimated cost of subsistence during rehabilitation, for the handicapped individual as well as members of his family when necessary for the rehabilitation of the handicapped individual.

(7) "Gainful occupation" includes employment in the competitive labor market; practice of a profession; self-employment; homemaking, farm or family work (including work for which payment is in kind rather than in cash); sheltered employment; and home industries or other gainful homebound work.

For the purpose of facilitating the clearance and collection of the receipts herein enumerated, the state treasurer is hereby authorized to deposit such receipts in any state depository bank and transfer funds representing such receipts enumerated herein to the respective special depository banks. Banks so designated as special depository banks are hereby authorized to pledge their securities to protect such funds.

(b) The governing board of every state institution of higher education shall deposit in the state treasury all cash receipts accruing to any college or university under its control that may be derived from all sources except auxiliary enterprises, noninstructional services, agency and restricted funds, endowment funds, student loan funds, and Constitutional College Building Amendment funds. The state treasurer is directed to credit such receipts deposited by each such institution to a separate fund account for the institution depositing the receipts, but he shall not be required to keep separate accounts of types of funds deposited by each institution. For the purpose of facilitating the transferring of such institutional receipts to the state treasury, each institution shall open in a local depository bank a clearing account to which it shall deposit daily all such receipts, and shall, not less often than every seven days, make remittances therefrom to the state treasurer of all except \$500 of the total balance in said clearing account, such remittances to be in the form of checks drawn on the clearing account by the duly authorized officers of the institution, and no disbursements other than remittances to the state treasury shall be made from such clearing account. All money so deposited in the state treasury shall be paid out on warrants drawn by the comptroller of public accounts as provided by law.

(d) Nothing in this section affects the provisions of Title 47, Revised Civil Statutes of Texas, 1925, usually referred to as the State Depository Law. However, the limitation of deposits contained in Article 2532, Revised Civil Statutes of Texas, 1925, as amended, shall not apply insofar as the specific funds enumerated in this section are concerned.

(e) This section prevails over Sections 51.001–51.007 of this code to the extent of any conflict. (V.A.C.S. Art. 2543c.)

§ 51.051. Investment of General Property Deposits

The governing board of each institution of higher education may invest in United States government securities or may place on time deposit with a bank located in the state not more than 85 percent of the funds received as general property deposits authorized in Section 54.502 of this code. If the funds are placed on time deposit, they shall be secured by United States government securities. (V.A.C.S. Art. 2654d—1, Sec. 1.)

§ 51.052. Student Deposit Fund; Composition and Uses

(a) The student deposit fund consists of the income from the investment or time deposits of general property deposits and of forfeited gener-

al property deposits. Any general property deposit which remains without call for refund for a period of four years from the date of last attendance of the student making the deposit shall be forfeited and become a part of the student deposit fund. Nothing in this section shall be construed to prohibit refund of any balance remaining in a general property deposit when made on proper demand and within the four-year limitation period. The board may require that no student withdraw his deposit until he has been graduated or has apparently withdrawn from school.

(b) The student deposit fund shall be used, at the discretion of the board, either for the purpose of making scholarship awards to needy and deserving students or for the support of a general student union program, or for both purposes. SUBCHAPTER C. FACULTY DEVELOPMENT LEAVES OF ABSENCE

§ 51.101. Definitions

In this subchapter:

(1) "Institution of higher education" has the meaning assigned to it in Section 61.003 of this code, except that Texas State Technical Institute is included and the Rodent and Predatory Animal Control Service is excluded for the purposes of this subchapter.

(2) "Governing board" means the body charged with policy direction of an institution of higher education.

(3) "Faculty member" means a person who is employed by an institution of higher education on a full-time basis as a member of the faculty or staff and whose duties include teaching, research, administration, including professional librarians, or the performance of professional services. However, the term does not include a person employed in a position which is in the institution's classified personnel system or a person employed in a similar type of position if the institution does not have a classified personnel system. (V.A.C.S. Art. 2647c—2, Sec. 2.)

§ 51.102. Legislative Findings and Purpose

The legislature finds that higher education is vitally important to the welfare, if not the survival, of Texas and the United States at this stage in history and that the quality of higher education is dependent upon the quality of college and university faculties. The legislature finds, therefore, that money spent on recognized means for producing an excellent system of public higher education is money spent to serve a public purpose of great importance. The legislature finds further that a sound program of faculty development leaves of absence designed to enable the faculty member to engage in study, research, writing, and similar projects for the purpose of adding to the knowledge available to himself, his students, his institution, and society generally is a well-recognized means for improving a state's program of public higher education. The legislature's purpose in establishing the faculty development leave program provided for by this subchapter is to improve further the higher education

available to the youth at the state-supported colleges and universities and to establish this program of faculty development leaves as part of the plan of compensation for the faculty of these colleges and universities. (V.A.C.S. Art. 2647c—2, Sec. 1.)

§ 51.103. Granting Leaves of Absence; Procedures

(a) On the application of a faculty member, the governing board of an institution of higher education may grant a faculty development leave of absence for study, research, writing, field observations, or other suitable purpose, to a faculty member if it finds that he is eligible by reason of service, that the purpose for which he seeks a faculty development leave is one for which a faculty development leave may be granted, and that granting leave to him will not place on faculty development leave a greater number of faculty members than that authorized.

(b) The governing board by regulation shall establish a procedure whereby the applications for faculty development leaves of absence are received by a committee elected by the general faculty for evaluation and whereby this faculty committee then makes recommendations to the chief administrative officer of the institution of higher education, who shall then make recommendations to the governing board as to which applications should be granted. (V.A.C.S. Art. 2647c—2, Sec. 3.)

§ 51.104. Service Required

A faculty member is eligible by reason of service to be considered for a faculty development leave when he has served as a member of the faculty of the same institution of higher education for at least two consecutive academic years. This service may be as an instructor or as an assistant, associate, or full professor, or an equivalent rank, and must be full-time academic duty but need not include teaching. (V.A.C.S. Art. 2647c—2, Sec. 4.)

§ 51.105. Duration and Compensation

(a) The governing board may grant to a faculty member a faculty development leave either for one academic year at one-half of his regular salary or for one-half academic year at his full regular salary. Payment of salary to the faculty member on faculty development leave may be made only from the funds appropriated by the legislature specifically for that purpose. (Sec. 1, H.B.No.514, 62nd Legis., Reg.Sess., 1971.)

(b) A faculty member on faculty development leave may accept a grant for study, research, or travel from any institution of higher education or from a charitable, religious, or educational corporation or foundation, or from any federal, state, or local governmental agency. A faculty member on faculty development leave may not accept employment from any other person, corporation, or government, unless the governing board determines that it would be in the public interest to do so and expressly approves the employment. (V.A.C.S. Art. 2647c—2, Sec. 5.)

Subsec. (a) amended by Acts 1971, 62nd Leg., p. 3351, ch. 1024, Art. 2, § 27, eff. Sept. 1, 1971.

§ 51.106. Number on Leave at One Time

Not more than six percent of the faculty members of any institution of higher education may be on faculty development leave at any one time. (V.A.C.S. Art. 2647c—2, Sec. 6.)

§ 51.107. Rights Retained

(a) A faculty member on faculty development leave shall continue to be a member of the Teacher Retirement System of Texas or of the Optional Retirement Program of the institution of higher education, or of both, just as any other member of the faculty on full-time duty.

(b) The institution of higher education shall cause to be deducted from the compensation paid to a member of the faculty on faculty development leave the deposit and membership dues required to be paid by him to the Teacher Retirement System of Texas or to the Optional Retirement Program, or both, the contribution for Old Age and Survivors Insurance, and any other amounts required or authorized to be deducted from the compensation paid any faculty member.

(c) A member of the faculty on faculty development leave is a faculty member for purposes of participating in the programs and of receiving the benefits made available by or through the institution of higher education or the state to faculty members. (V.A.C.S. Art. 2647c—2, Sec. 7.)

§ 51.108. Regulations Concerning Absence

(a) The governing board of each college or university supported in whole or in part by state funds shall issue regulations concerning the authorized and unauthorized absence from duty of faculty members, including teaching assistants and research assistants.

(b) Each governing board shall file a copy of these regulations with the Coordinating Board, Texas College and University System. Each governing board shall file any amendment to its regulations with the coordinating board not later than 30 days after the effective date of the amendment. (Secs. 2 and 3, H.B.No.514, 62nd Legis., Reg.Sess., 1971).

Added by Acts 1971, 62nd Leg., p. 3352, ch. 1024, Art. 2, § 28, eff. Sept. 1, 1971.

SUBCHAPTER F. REQUIRED AND ELECTIVE COURSES

§ 51.301. Government or Political Science

Every college and university receiving state support or state aid from public funds shall give a course of instruction in government or political science which includes consideration of the Constitution of the United States and the constitutions of the states, with special emphasis on that of Texas. This course shall have a credit value of not less than six semester hours or its equivalent. No college or university receiving state support or state aid from public funds may grant a baccalaureate degree or a lesser degree or academic certificate to any person unless he has credit for such a course. The college or university may determine that a student has satisfied this requirement in whole or in part on the basis of credit granted to him by the college or university for a substantially equivalent course completed at another accredited college or university or on the basis of the student's successful completion of an advanced standing examination administered on the conditions and under the circumstances common for the college or university's advanced standing examinations. The college or university may grant as much as three semester hours of credit or its equivalent toward satisfaction of this requirement for substantially equivalent work completed by the student in the program of an approved senior R.O.T.C. unit. Credit for the advanced standing examination referred to above shall never exceed three semester hours. (V.A.C.S. Art. 2663b—1, Sec. 2.)

§ 51.302. American or Texas History

No college or university receiving state support or state aid from public funds may grant a baccalaureate degree or a lesser degree or academic certificate to any person unless he has credit for six semester hours or its equivalent in American History. A student is entitled to submit as much as three semester hours of credit or its equivalent in Texas History in partial satisfaction of this requirement. The college or university may determine that a student has satisfied this requirement in whole or part on the basis of credit granted to him by the college or university for a substantially equivalent course completed at another accredited college or university, or on the basis of the student's successful completion of an advanced standing examination administered on the conditions and under the circumstances common for the college or university's advanced standing examinations. The college or university may grant as much as three semester hours of credit or its equivalent toward satisfaction of this requirement for substantially equivalent work completed by a student in the program of an approved senior R.O.T.C. unit. Credit for the advanced standing examination referred to above shall never exceed three semester hours. (V.A.C.S. Art. 2663b—2, Sec. 1.)

§ 51.303. Elective Courses in Dactylogy

The work of the students enrolling in the courses may be credited toward degree requirements under regulations prescribed by the board. (V.A.C.S. Art. 2919e—1.)

SUBCHAPTER G. OPTIONAL RETIREMENT SYSTEM**§ 51.351. Legislative Findings and Purpose**

The legislature finds that higher education is vitally important to the welfare, if not the survival, of Texas and the United States at this stage in history and that the quality of higher education is dependent upon the quality of college and university faculties. The legislature finds, therefore, that money spent on recognized means for producing an excellent system of public higher education is money spent to serve a public purpose of great importance. The legislature finds further that a sound faculty retirement program that provides full and complete retirement benefits to teachers and administrators who have given faithful service to state-supported institutions of higher education is a well-recognized means for improving a state's program of public higher education. The legislature's purpose in establishing the retirement program provided for by this subchapter is to improve further the higher education available to the youth at the state-supported colleges and universities and to establish this retirement program as part of the plan of compensation for the faculty of these colleges and universities. (V.A.C.S. Art. 2922—1i, Sec. 1.)

§ 51.352. Definitions

In this subchapter:

(1) "State Board of Trustees" means the State Board of Trustees of the Teachers Retirement System of Texas.

(2) "Retirement system" means the Teachers Retirement System of Texas.

(3) "Institution of higher education" has the same meaning as is assigned to it in Section 61.003 of this code, except that for the purposes of this subchapter, the Coordinating Board, Texas College and University System, and Texas State Technical Institute are included within, and the Rodent and Predatory Animal Control Service is excluded from, the meaning of the term.

(4) "Faculty member" means a person who is employed by an institution of higher education on a full-time basis as a member of the faculty or staff and whose duties include teaching, research, administration, including professional librarians, or the performance of professional services, but does not mean a person employed in a position which is in the institution's classified personnel system or a person employed in a similar type of position if the institution does not have a classified personnel system.

(5) "Governing board" means the body charged with policy direction of an institution of higher education.

(6) "Optional retirement program" means the program under this subchapter to provide fixed or variable retirement annuities, including retirement unit annuity certificates of participation for faculty members. (V.A.C.S. Art. 2922—1i, Sec. 2.)

§ 51.353. Establishment; Participation

(a) There is hereby established an optional retirement program. Participation in the optional retirement program is in lieu of active membership in the retirement system. The governing boards of all institutions of higher education shall make available to all faculty members in their component institutions, agencies, and units the optional retirement program which shall provide for the vesting of benefits after one year of participation in one or more plans operating pursuant to this Act in one or more institutions of higher education. (S.B.No.421, 62nd Legis., Reg.Sess., 1971.)

(b) All faculty members are eligible to participate in the optional retirement program, subject to such rules as may be prescribed by the governing board of the institution of higher education at which they are employed. (V.A.C.S. Art. 2922—1i, Sec. 3.)

Subsec. (a) amended by Acts 1971, 62nd Leg., p. 3357, ch. 1024, Art. 2, § 35, eff. Sept. 1, 1971.

§ 51.354. Administration

In administering the optional retirement program a governing board may provide for the purchase of annuity contracts from any insurance or annuity company qualified and admitted to do business in this state. Any life insurance or annuity company qualified and admitted to do business in this state shall be exempt from the payment of all franchise or premium taxes as to all annuity or group insurance contracts made pursuant to a benefit program authorized by the governing board of an institution of higher education, or by any private nonprofit educational institution of higher learning, which benefit program is paid for in whole or in part from the funds of such institution. Where a governing board has more than one component institution, agency, or unit under its jurisdiction, it may provide a separate optional retirement program for each component institution, agency, or unit, or place two or more component institutions, agencies, or units under a single program. (V.A.C.S. Art. 2922—1i, Sec. 4.)

§ 51.355. Options

A faculty member who becomes eligible to participate in the optional retirement program and who is a member of the retirement system is hereby extended the option of continuing his membership in the retirement system or participating in the optional retirement program as hereinafter set forth. A faculty member who is eligible to participate in the optional retirement program on the date the optional retirement program becomes available at the institution of higher education at which he is employed, no later than the 1st day of August of the calendar year following the date on which the optional retirement program becomes available at the institution of higher education at which he is employed, shall elect to participate or not to participate in the optional retirement program. A faculty member who becomes eligible to participate in the optional retirement program subsequent to the date on which the optional retirement program becomes available at the institution of higher education at which he is employed shall make such election within 90 days following the date on which he becomes eligible to participate in the optional retirement program. A faculty member exercising the option to participate in the optional retirement program shall not thereafter be eligible for membership in the retirement system unless he ceases to be employed by an institution of higher education and becomes employed by the Texas Public School System other than in an institution of higher education. A faculty member not exercising the option to participate in the optional retirement program shall be deemed to have chosen to continue membership

in the retirement system in lieu of exercising the option to participate in the optional retirement program. (V.A.C.S. Art. 2922—1i, Sec. 5.)

§ 51.356. Withdrawal of Contributions to Retirement System

A faculty member who elects or who has elected to participate in the optional retirement program as provided under Section 51.355 of this code may further elect to withdraw from the retirement system his accumulated contributions as defined in Chapter 3 of this code, upon application in writing as prescribed by the State Board of Trustees, and the applicable amounts shall be paid within 12 months from the date the application is received. Upon such withdrawal of funds, the faculty member shall thereby forfeit and relinquish all accrued rights as a member of the retirement system. (V.A.C.S. Art. 2922—1i, Sec. 6.)

§ 51.357. Contributions

(a) With respect to a faculty member who has elected in accordance with Section 51.355 of this code to participate in the optional retirement program, the following amounts shall be disbursed and credited each fiscal year to the benefit of the faculty member in the optional retirement program:

(1) by the faculty member the amount that he would have been required to deposit during that year as a member of the retirement system; and

(2) by the state the amount that it would have been required to allocate and contribute during that year to the retirement system to the credit of the faculty member as a member of the retirement system.

(b) A faculty member participating in the optional retirement program and the institution of higher education with which he is employed, acting through its governing board, may enter into an agreement under which the salary paid to the faculty member is reduced by the amount of the faculty member's contribution required to be disbursed and credited under Subdivision (1) of Subsection (a), and under which the institution contributes an equal amount to the purchase of an annuity contract under the optional retirement program established by the respective governing board. Not more than one salary reduction agreement shall be entered into in any calendar year. Each salary reduction agreement shall be legally binding and irrevocable with respect to amounts earned while the agreement is in effect, if the agreement so provides by its terms. A salary reduction agreement may be terminable with respect to amounts not yet earned. To the extent that a salary reduction agreement is in force with a faculty member, there shall be no deduction from the salary of the faculty member, and the amounts provided in this section shall be disbursed and credited to the benefit of the faculty member as provided in Subdivision (1) of Subsection (a).

(c) The contributions of faculty members participating in the optional retirement program in each institution of higher education shall be deducted as provided by law applicable to the system or reduced under an agreement described in Subsection (b) of this section. The contribution of the state for faculty members participating in the optional retirement program in each institution of higher education shall be paid by the Comptroller of Public Accounts of the State of Texas to the applicable institution of higher education. The disbursing officer of such institution of higher education shall pay the total of such contributions from both the faculty member and the state to the company providing the optional retirement program for that institution. Each institution of higher education shall certify estimates to the comptroller of funds required for payments under its optional retirement program as required by law for the system. (V.A.C.S. Art. 2922—1i, Sec. 8.)

(f) The bonds shall mature serially or otherwise not later than 40 years from their date and may be redeemable before maturity, at the option of the board, at a price or prices and under terms and conditions fixed by the board in the resolution providing for the issuance of the bonds.

The amount of the loan to any qualified applicant shall be limited to the difference between the financial resources available to him, including but not limited to his income from parents and other sources, scholarships, gifts, grants, other financial aid, and the amount he can reasonably be expected to earn, and the amount necessary to pay his reasonable expenses as a student at the participating institution of higher education where he has been accepted for enrollment, under the rules and regulations adopted by the board. The total loan to any individual student may never be more than the amount he can reasonably be expected to repay in a maximum period of five years after he is last enrolled in a participating institution, except as otherwise provided for in this chapter. (V.A.C.S. Art. 2654g, Art. III, Sec. 3.)

§ 52.34. Payments to Student

No payment may be made to any student until he has executed a note payable to the Texas Opportunity Plan Fund for the full amount of the authorized loan plus interest. For the purposes of this chapter, a student has the capacity to contract and is bound by any contract executed by him, and the defense that he was a minor at the time he executed the note is not available to him in any action arising on the note. Payments to students executing notes may be made annually, semiannually, quarterly, monthly, or for each semester as the board may determine, depending on the demonstrated capacity of the student to manage his financial affairs. Disbursements may be made by the board or by the participating institution pursuant to a contract between the board and the institution executed in conformity with this chapter. No funds may be distributed to a participating institution except to make payments to a student under a loan authorized by this chapter. (V.A.C.S. Art. 2654g, Art. III, Sec. 4.)

§ 52.35. Term of Loans

The term of all authorized loans must be for the shortest possible period, as determined by the board. However, no loan may be made to any student for a period longer than 10 years from the date he is last enrolled in a participating institution, except as a longer period is authorized for medical students, dental students, and students seeking professional or graduate degrees as authorized under the provisions of Section 52.38 of this code. (V.A.C.S. Art. 2654g, Art. III, Sec. 5.)

Amended by Acts 1971, 62nd Leg., p. 3102, ch. 1024, Art. 2, § 7, eff. Sept. 1, 1971.

§ 52.36. Loan Interest

The board shall annually, not later than September 1, fix the interest to be charged for any student loan at a rate sufficient to pay the interest on outstanding bonds plus any expenses incident to their issuance, sale, and retirement. Interest shall be postponed by the board as long as a student is enrolled at a participating institution and may be postponed at the board's discretion as long as a student is enrolled at any other higher educational institution, provided that the total interest paid is to be equal to that fixed at the time the note evidencing the loan is executed. (V.A.C.S. Art. 2654g, Art. III, Sec. 6.)

§ 52.37. Insurance

The board may contract with any insurance company or companies licensed to do business in Texas for insurance on the life of any student borrower in an amount sufficient to retire the principal and interest owed under a loan made under the provisions of this chapter. The cost of the insurance shall be paid by the student borrower. No contract for insurance as provided for in this section may be approved except by the board during a regular meeting attended by a quorum of the total board membership. (V.A.C.S. Art. 2654g, Art. III, Sec. 7.)

§ 52.38. Repayment of Loans

Repayment of any loan and interest authorized under this chapter shall be made monthly and shall begin not later than nine months after the date the student borrower is last enrolled in a participating institution or any other institution of higher education and in no event later than five years from the date the first note evidencing a loan under this chapter is executed. The board may, however, authorize a longer period before beginning repayment of loans to medical students, dental students, and other students seeking professional or graduate degrees. The board may extend the time for beginning repayment for unusual financial hardships, with the approval of the attorney general. Repayment shall be made directly to the board or to a participating institution pursuant to a contract executed by the board in accordance with its rules and regulations. (V.A.C.S. Art. 2654g, Art. III, Sec. 8.)

Amended by Acts 1971, 62nd Leg., p. 3103, ch. 1024, Art. 2, § 7, eff. Sept. 1, 1971.

§ 52.39. Default; Suit

When any person who has received a loan authorized by this chapter has failed or refused to make as many as six monthly payments due in accordance with an executed note, then the full amount of the remaining principal and interest becomes due and payable immediately, and the amount due, the person's name and his last known address, and other necessary information shall be reported by the board to the attorney general. Suit for the remaining sum shall be instituted by the attorney general, or any county or district attorney acting for him, in the county of the person's residence, the county in which is located the institution at which the person was last enrolled, or in Travis County, unless the attorney general finds reasonable justification for delaying suit and so advises the board in writing. (V.A.C.S. Art. 2654g, Art. III, Sec. 9.)

When the governing body of a city finds that it is to the best interest of the city and its inhabitants to create a higher education authority, it shall pass an ordinance creating the authority and designating the name by which it shall be known. If the governing bodies of two or more cities find that it is to the best interest of the cities to create an authority to include those cities, each governing body shall pass an ordinance creating the authority and designating the name by which it shall be known. (V. A.C.S. Art. 1269j—101, Sec. 3 (part).)

§ 53.14. Board of Directors

(a) The authority shall be governed by a board of directors consisting of not less than 7 nor more than 11 members to be determined at the time of creating the authority. Except as otherwise provided by this section, the first directors shall be appointed by the governing body of the city or by the governing bodies of the cities, and they shall serve until their successors are appointed as provided by this section. If the authority includes more than one city, each governing body shall appoint an equal number of directors unless otherwise agreed by the cities.

(b) When the authority issues its revenue bonds, the resolution authorizing the issuance of the bonds or the trust indenture securing them may prescribe the method of selecting and the term of office of a majority of the members of the board. The remaining members of the board shall be appointed by the governing body of the city or the governing bodies of

the cities for two-year terms. The trust indenture may also provide that, in event of default as defined in the trust indenture, the trustee may appoint all of the directors, in which event the terms of the directors then in office shall automatically terminate.

(c) Unless and until provision is made in the bond resolution or indenture in connection with the issuance of bonds for the appointment by other means of part of the directors, all the directors shall be appointed by the governing body of the city or each of the cities, as the case may be, for terms not to exceed two years, but the terms of directors appointed prior to the issuance of the first issue of revenue bonds shall be subject to the exercise of the provision made by this section for appointment of a majority of the members of the board in connection with the issuance of the bonds.

§ 53.33. Facilities: Construction, Acquisition, etc.

The authority may acquire by purchase, purchase contract, or lease, or may construct, enlarge, extend, or improve educational facilities or housing facilities. It may acquire land for those purposes, furnish and equip the facilities, and provide by contract, lease, or otherwise for the operation and maintenance of the facilities. The facilities need not be located

§ 53.34. Revenue Bonds

The authority may issue revenue bonds to provide funds for any of its purposes. The bonds shall be payable from and secured by a pledge of the net revenue to be derived from the operation of the facility or facilities and any other revenue resulting from the ownership of the educational facilities properties. The bonds may be additionally secured by a mortgage or deed of trust on real property of the authority or by a chattel mortgage on its personal property, or by both. (V.A.C.S. Art. 1269j—101, Sec. 7.)

The seal of the authority shall be impressed or printed on the bonds. The bonds shall mature serially or otherwise in not to exceed 50 years and may be sold at a price and under terms determined by the board to be the most advantageous reasonably obtainable, provided that the rate of interest to be borne by the bonds shall not exceed six and one-half percent per annum and that the bonds shall not be sold at less than 90 percent of their par or face value, plus accrued interest. The notice shall be published once each week for two consecutive weeks in a newspaper or newspapers having general circulation in the authority. The first publication shall be at least 14 days prior to the day set for adopting the bond resolution.

(b) If, prior to the day set for the adoption of the bond resolution, there is presented to the secretary or president of the board a petition signed by not less than 10 percent of the qualified voters residing in the city or cities comprising the authority, who own taxable property in the authority and who have duly rendered it for taxation to the city in which such property is located or situated, requesting an election on the proposition for the issuance of the bonds, the bonds shall not be issued unless an election is held and a majority vote is in favor of the bonds. The election shall be called and held in accordance with the procedure prescribed in Chapter 1, Title 22, Revised Civil Statutes of Texas, 1925, as amended, with the board and the president and secretary performing the functions there assigned to the governing body of the city, the mayor and city secretary, respectively. If no such petition is filed, the bonds may be issued without an election. However, the board may call an election on its own motion without the filing of the petition. (V.A.C.S. Art. 1269j—101, Sec. 9.)

§ 53.37. Junior Lien Bonds; Parity Bonds

§ 53.39. Refunding Bonds

Bonds may be issued for the purpose of refunding outstanding bonds in the manner provided in this chapter for other bonds, and may be exchanged by the comptroller of public accounts or sold and the proceeds applied in accordance with the procedure prescribed by Chapter 503, Acts of the 54th Legislature, 1955 (Article 717k, Vernon's Texas Civil Statutes). (V.A.C.S. Art. 1269j—101, Sec. 12.)

§ 53.40. Approval of Bonds; Registration; Negotiability

Bonds issued under this chapter and the record relating to their issuance shall be submitted to the attorney general, and if he finds that they have been issued in accordance with this chapter and constitute valid and binding obligations of the authority and are secured as recited therein he shall approve them, and they shall be registered by comptroller of public accounts who shall certify the registration thereon. Thereafter they are incontestable. The bonds shall be negotiable and shall contain the following provision: "The holder hereof shall never have the right to demand payment thereof out of money raised or to be raised by taxation." § 53.42. Investment of Funds; Security

To the extent it is applicable, the law as to the security for and the investment of funds, applicable to cities, controls the investment of funds belonging to authority. (V.A.C.S. Art. 1269j—101, Sec. 19.)

§ 53.43. Depositories

The authority may select a depository or depositories according to the procedures provided by law for the selection of city depositories, or it may award its depository contract to the same depository or depositories selected by the city or cities and on the same terms. (V.A.C.S. Art. 1269j—101, Sec. 17 (part).)

§ 53.46. **Authority Exempt From Taxation**

Because the property owned by authority will be held for educational purposes only and will be devoted exclusively to the use and benefit of the students, faculty, and staff members of an accredited institution of higher education, it is exempt from taxation of every character. (V.A.C.S. Art. 1269j—101, Sec. 16.)

After residing in Texas for at least 12 months, a nonresident student may be reclassified as a resident student as provided in the rules and regulations adopted by the Coordinating Board, Texas College and University System. The governing board of each institution of higher education may issue scholarships each year to the highest ranking graduate of each accredited high school of this state, exempting the graduates from the payment of tuition during both semesters of the first regular session immediately following their graduation. This exemption may be granted for any one of the first four regular sessions following the individual's graduation from high school when in the opinion of the institution's president the circumstances of an individual case, including military service, merit the action. (V.A.C.S. Art. 2654b—1, Sec. 2.)

§ 54.202. High School Graduates of State Homes

The governing board of each institution of higher education shall exempt each citizen of Texas who at the time of his admission is a high school graduate of a state home from the payment of all dues, fees, and charges, including fees for correspondence courses. The exemption does not apply either to general property deposits, which may be required as security for the return of or proper care of property loaned for the use of a student, or to charges for lodging, board, or clothing. The governing

board shall require every applicant who claims this exemption to submit satisfactory evidence that he is a citizen of Texas and is otherwise entitled to the exemption. (V.A.C.S. Art. 2654f.)

§ 54.203. Veterans, Dependents, Etc.

(a) The governing board of each institution of higher education shall exempt the following persons from the payment of all dues, fees, and charges, including fees for correspondence courses but excluding property deposit fees, student services fees, and any fees or charges for lodging, board, or clothing, provided the persons seeking the exemptions were citizens of Texas at the time they entered the services indicated and have resided in Texas for at least the period of 12 months before the date of registration:

(2) all nurses, members of the Women's Army Auxiliary Corps, members of the Women's Auxiliary Volunteer Emergency Service, and all honorably discharged members of the armed forces of the United States who served during World War II except those who were discharged from service because they were over the age of 38 or because of a personal request on the part of the person that he be discharged from service;

(3) all honorably discharged men and women of the armed forces of the United States who served during the national emergency which began on June 27, 1950, and which is referred to as the Korean War; and

(4) all persons who were honorably discharged from the armed forces of the United States after serving on active military duty, excluding training, for more than 180 days during the Cold War which began on the date of the termination of the national emergency cited in Subdivision (3) of this subsection. (V.A.C.S. Art. 2654b; Art. 2654b—1, Sec. 1 (part), 3 (part), 5 (part), 6(a) (part).)

(d) The exemption from fees provided for in Subsection (a) of this section does not apply to a person if at the time of his registration he is eligible for educational benefits under federal legislation in effect at the time of his registration. A person is covered by the exemptions if his right to benefits under federal legislation is extinguished at the time of his registration. (V.A.C.S. Art. 2654b—1, Sec. 4 (part), 5 (part), and 6(b).)

(e) The governing board of each institution of higher education may enter into contracts with the United States government, or any of its agencies, to furnish instruction to ex-servicemen and ex-service women at

a tuition rate which covers the estimated cost of the instruction or, in the alternative, at a tuition rate of \$100 a semester, as may be determined by the governing board. If the rates specified are prohibited by federal law for any particular class of ex-servicemen or ex-service women, the tuition rate shall be set by the governing board, but shall not be less than the established rate for civilian students. If federal law provides as to any class of veterans that the tuition payments are to be deducted from subsequent benefits to which the veteran may be entitled, the institution shall refund to any veteran who is a resident of Texas within the meaning of this section the amount by which any adjusted compensation payment is actually reduced because of tuition payments made to the institution by the federal government for the veteran. (V.A.C.S. Art. 2654b—1, Sec. 4 (part).)

(4) proof that he meets all other entrance requirements of the institution.

(c) The governing board of an institution may establish special entrance requirements to fit the circumstances of deaf and blind persons. In order to obtain the maximum vocational benefits of their college training, all deaf students applying for a tuition exemption under this legislation shall cooperate with the Commission for Rehabilitation, and all blind students applying for a tuition exemption under this section shall cooperate with the State Commission for the Blind. The Commission for Rehabilitation and the State Commission for the Blind shall utilize all available and appropriate resources at the institutions of higher education to insure that deaf or blind students receive the maximum benefits from college training for which tuition fee exemptions are claimed under this Act. SUBCHAPTER E. OTHER FEES AND DEPOSITS

§ 54.501. Laboratory Fees

An institution of higher education may make and collect a laboratory charge in an amount sufficient to cover in general the cost of laboratory materials and supplies used by a student. The laboratory charge shall be not less than \$2 nor more than \$8 for any one semester or summer term for any student in any one laboratory course, but shall not exceed the

cost of actual materials and supplies used by the student. (V.A.C.S. Art. 2654a, Sec. 2 (part); Art. 2654c, Sec. 1(m) (part), 2 (part).)

§ 54.502. General Property Deposits

An institution of higher education may collect a reasonable deposit not to exceed \$10 from each student to insure the institution against losses, damages, and breakage in libraries and laboratories. The deposit shall be returned on the withdrawal or graduation of a student, less any loss, damage, or breakage caused by the student. The medical and dental units of The University of Texas System shall collect a breakage or loss deposit no greater than \$30. (V.A.C.S. Art. 2654a, Sec. 2 (part).)

§ 54.503. Student Services Fees

(a) For the purposes of this section, "student services" means textbook rentals, recreational activities, health and hospital services, automobile parking privileges, intramural and intercollegiate athletics, artists and lecture series, cultural entertainment series, debating and oratorical activities, student publications, student government, and any other student activities and services specifically authorized and approved by the appropriate governing board.

(b) The governing board of an institution of higher education may charge and collect from students registered at the institution fees to cover the cost of student services which the board deems necessary or desirable in carrying out the educational functions of the institution. The fee or fees may be either voluntary or compulsory as determined by the governing board. The total of all compulsory student service fees collected from a student for any one semester or summer session shall not exceed \$30. No fee for parking services or facilities may be levied on a student unless the student desires to use the parking facilities provided.

(c) The governing board may fix and collect a reasonable fee or fees for the enforcement and administration of parking or traffic regulations approved by the board for the institution.

(d) The provisions of this section do not affect the building use fees or other special fees authorized by the legislature for any institution for the purpose of financing revenue bond issues.

(e) All money collected as student services fees shall be reserved and accounted for in an account or accounts kept separate and apart from educational and general funds of the institution and shall be used only for the support of student services. All the money shall be placed in a depository bank or banks designated by the governing board and shall be secured as required by law. Each year the governing board shall approve for the institution a separate budget for student activities and services financed by fees authorized in this section. The budget shall show the fees to be assessed, the purpose or functions to be financed, the estimated income to be derived, and the proposed expenditures to be made. Copies of the budgets shall be filed annually with the coordinating board, the governor, the legislative budget board, the state auditor, and the state library.

(f) The governing board may waive all or part of any compulsory fee or fees authorized by this section in the case of any student for whom the payment of the fee would cause an undue financial hardship, provided the number of the students does not exceed 10 percent of the total enrollment. The board may limit accordingly the participation of a student in the activities financed by the fee so waived. (V.A.C.S. Art. 2654a, Sec. 4.)

§ 55.12. Contracts for Joint Construction

For the purpose of providing funds to acquire, purchase, construct, improve, enlarge, and/or equip any property, buildings, structures, activities, services, operations, or other facilities, for and on behalf of its institution or institutions, or any branch or branches thereof, each board may issue its revenue bonds from time to time and in one or more issue or series, to be payable from and secured by liens on and pledges of all or any part of any of the revenues, income, or receipts of the board and its institution or institutions, or any branch or branches thereof, including, without limitation, any rentals, rates, charges, fees, or other resources, in the manner provided by this subchapter.

§ 55.14. Terms and Conditions

(a) The bonds may be issued to mature serially or otherwise within not to exceed 50 years from their date, and each board may provide for the subsequent issuance of additional parity bonds, or subordinate lien bonds, under any terms or conditions that may be set forth in the resolution authorizing the issuance of the bonds.

(b) The bonds, and any interest coupons appertaining thereto, are and shall constitute negotiable instruments within the meaning and for all purposes of the Texas Uniform Commercial Code (provided that the bonds may be issued registrable as to principal alone or as to both principal and interest), and shall be executed, and may be made redeemable prior to maturity, and may be issued in such form, denominations, and manner, and under such terms, conditions, and details, and may be sold in such manner, at such price, and under such terms, and said bonds shall bear interest at such rates, all as shall be determined and provided by the board in the resolution authorizing the issuance of the bonds.

§ 55.16. Rentals, Rates, Charges, and Fees

Further, in issuing bonds pursuant to this subchapter, each board additionally may pledge to the payment of outstanding bonds, issued pursuant to any other law, all or any part of the revenues, income, receipts, or resources of the board authorized to be pledged to the payment of bonds issued pursuant to this subchapter.

All pertinent and appropriate provisions of this subchapter shall be applicable to such refunding bonds, and they shall be issued in the manner provided herein for other bonds authorized under this subchapter; provided that such refunding bonds may be sold and delivered in amounts necessary to pay the principal, interest, and redemption premium, if any, of bonds or notes to be funded or refunded, at maturity or on any redemption date. Also, such refunding bonds may be issued to be exchanged for the bonds or notes being refunded thereby. In the latter case, the Comptroller of Public Accounts of the State of Texas shall register the refunding bonds and deliver the same to the holder or holders of the bonds or notes being refunded thereby, in accordance with the provisions of the resolution authorizing the refunding bonds; and any such exchange may be made in one delivery, or in several installment deliveries. § 55.23. Cumulative Effect of Subchapter

This subchapter shall be cumulative of all other law on the subject, but this subchapter shall be wholly sufficient authority within itself for the issuance of the bonds and the performance of the other acts and procedures authorized hereby, without reference to any other law or any restrictions or limitations contained therein, except as herein specifically provided; and when any bonds are being issued under this subchapter, then to the extent of any conflict or inconsistency between any provisions of this subchapter and any provision of any other law, the provisions of this subchapter shall prevail and control; provided, however, that any board shall have the right to use the provisions of any other laws, not in conflict with the provisions hereof, to the extent convenient or necessary to carry out any power or authority, express or implied, granted by this subchapter.

§ 55.24. Pledges Under Previous Laws to Remain in Effect

Where any revenues, income, receipts, or other resources of any board have been pledged to the payment of principal of and interest on any bonds or notes issued and delivered pursuant to any other law, the repeal of such law by virtue of the enactment of Title 3 of this code shall not affect any such pledge or any covenants with respect to such bonds or notes, or any bonds issued to refund same, and all such pledges and covenants shall remain in full force and effect in accordance with the terms and provisions thereof.

The composition, investment, purposes, and use of the permanent university fund are governed by Article VII, Sections 10, 11, 11a, 15, and 18, of the Texas Constitution. (New.)

§ 66.02. Available University Fund

The dividends, interest, and other income from the permanent university fund shall constitute the available university fund. All income derived from the permanent university fund shall be deposited in the State Treasury to the credit of the available university fund within five days after receipt by any state officer, agent, or employee. (V.A.C.S. Art. 2654d, Sec. 5 (part).)

§ 66.03. Apportionment and Use of Available Fund

(a) The reference in Article VII, Section 18, of the Texas Constitution, to "Chapter 42 of the Acts of the Regular Session of the 42nd Legislature of the State of Texas" shall be construed to mean this section.

(b) The board of regents of The University of Texas System shall expend as much of the available university fund as is appropriated by the legislature for the administration of the university lands and of the permanent university fund, the expenses to be apportioned between the two systems in proportion to their receipts of available university funds under the terms of this section.

(c) The board of directors of The Texas A&M University System shall expend one-third of all the available university fund received from the permanent university fund arising from the 1,000,000 acres of land appropriated by the constitution and the land appropriated by the Act of 1883, except income from grazing leases on university lands (less its proportion of expenses of administration and excluding any expenses of admin-

istration from grazing leases); and the board of regents of The University of Texas System shall expend the balance of the available fund, including all the income from grazing leases on university lands (less its proportion of expenses of administration). (R.S. Art. 2592.)

§ 66.04. Validity of Bonds Purchased by Board

Whenever the board has purchased the bonds of any city, county, or municipality, approved by the attorney general, the certificate of the attorney general attesting their validity shall be admitted and received as prima facie evidence of the validity of the bonds; and in all cases in which the proceeds of the sale of these bonds have been received by the proper officers of the city, municipality, or county, or by the party acting for them in negotiating the sale of the bonds, the city, municipality, or county is thereafter estopped from denying the validity of the bonds and they shall be held to be valid and binding obligations. In the case of any bonds bought under this section, premium or discount shall be distributed over the life of the bonds. (V.A.C.S. Art. 2591a, Secs. 3 (part), 4 (part).)

§ 66.05. Reports

(a) Before December 1 of each year the board of regents of The University of Texas System shall prepare a written report disclosing all details concerning the investments made and income realized from the permanent university fund during the year ending August 31 preceding the publication of the report.

(b) The report shall contain a summary of all investments and an itemized list of all securities held for the fund on August 31, a summary of investment changes during the preceding year, and a summary of all income realized from the various components of the fund. The report shall also contain any other information needed to clearly indicate the nature and extent of investments made of the fund and all income realized from the components of the fund.

(c) The report shall be distributed to the governor, state treasurer, state comptroller of public accounts, state auditor, attorney general, commissioner of higher education, and to the members of the legislature by the 1st day of January each year. The board shall furnish copies of the report to any interested person on request. (H.B.No.1198, 62nd Legis., Reg.Sess., 1971.)

SUBCHAPTER B. PERMANENT UNIVERSITY FUND BONDS AND NOTES

§ 66.21. Registration

All bonds and notes issued pursuant to the provisions of Article VII, Section 18, of the Texas Constitution, as originally adopted or as amended, shall be registered by the comptroller of public accounts after they have been approved by the attorney general. (V.A.C.S. Art. 2909d, Sec. 1.)

§ 66.22. Refunding Bonds and Notes

Any bonds or notes issued pursuant to the constitutional provisions described in Section 66.21 of this code, or issued pursuant to this subchapter, may be refunded by the governing board which issued the bonds or

notes, upon such terms and conditions, including interest rates and maturities, as may be determined by that board, provided that such terms and conditions shall not be inconsistent with the applicable constitutional provisions. Any such bonds or notes may be so refunded by the issuance of refunding bonds or notes, either to be exchanged for the bonds or notes being refunded and cancelled, or to be sold, with the proceeds to be used for the redemption and cancellation of the bonds or notes being refunded. (V.A.C.S. Art. 2909d, Sec. 2.)

§ 66.23. Refunding Bonds and Notes: Approval; Registration

All refunding bonds or notes authorized to be issued under this subchapter and the records relating to their issuance, including any proceedings relating to the redemption of any outstanding bonds or notes, shall be submitted to the attorney general for examination, and if he finds that they have been issued in accordance with law, he shall approve them, and then they shall be registered by the comptroller of public accounts, and after such approval and registration they shall be incontestable. When any such refunding bonds or notes are issued to be exchanged for any outstanding bonds or notes, the comptroller of public accounts shall register and deliver such refunding bonds on surrender for cancellation of the bonds or notes being refunded. When any such refunding bonds or notes are sold, with the proceeds to be used for redeeming any outstanding bonds or notes, the comptroller of public accounts shall register such refunding bonds or notes, even though the bonds or notes to be redeemed shall not have been surrendered for redemption or cancellation. § 66.43. University Lands: Surveys; Personnel

When it is impracticable to establish such lines and corners as originally surveyed, or when such sections have not been actually surveyed on the ground, the blocks shall be surveyed or resurveyed and divided into surveys of sections and fractional sections, and as many corners thereof as may be necessary for the identification shall be permanently marked. The surveyors to do such surveying shall be employed by the board. The field notes of such surveys shall be returned to the general land office, and when correct and in accordance with law shall be approved by the commissioner of the general land office, filed in the general land office, and become archives therein.

[Sections 66.45 to 66.60 reserved for expansion]

(b) Neither regent member may be directly or indirectly employed by, or be an officer of or an attorney for, an oil or gas company.

(c) A majority of the board has the power to act for the board.

(d) The board shall perform the duties prescribed by this subchapter and shall keep a public record of all its proceedings. (V.A.C.S. Art. 2603a, Sec. 1 (part); Sec. 18 (part).)

§ 66.63. Oil and Gas Subject to Sale

The oil and gas in the university lands are subject to sale under the regulations, at the times, and on the terms provided in this subchapter, and under the rules and regulations adopted by the board as authorized by this subchapter, not inconsistent with the provisions of this subchapter. (V.A.C.S. Art. 2603a, Sec. 3.)

§ 66.64. Placing Oil and Gas on Market; Public Auction; Advertisement

(a) Whenever there is a demand for the purchase of oil and gas in any university land that will reasonably insure that the oil and gas may be sold advantageously, the board shall place the oil and gas in the land on the market in separate tracts of such area and extent as the board may determine most suitable for profitable marketing; but in no event shall any tract in which oil and gas is offered for as a unit exceed an area of 6,000 acres.

(b) The sale of the oil and gas shall be made at public auction held in Austin at any hour between 10 a. m. and 5 p. m.

(c) The board shall cause an advertisement to be made of the sale in two or more newspapers of general circulation in this state. The advertisement shall state the method, time, and place of sale; the primary term of the lease proposed to be executed covering any sale; the royalty to be paid; that lists describing the land to be sold may be obtained from the board; and other matters that in the judgment of the board are deemed advisable. In addition to the foregoing mandatory provisions, the board may cause the advertisement to be placed in oil and gas journals in and out of the state and to be mailed generally to persons it thinks might be interested. (V.A.C.S. Art. 2603a, Sec. 4.)

§ 66.65. Royalty; Bonus; Annual Rental; Special Fee

(a) The oil and gas in each tract shall be offered for sale for a bonus in addition to the stipulated royalty. Each tract shall be offered separately.

(b) Each bid is subject to the royalty specified in the official advertisement preceding the sale, but in no event less than one-eighth of the gross production of oil and gas in the land; and shall further be subject to the payment of an annual rental after the first year of not less than 10 cents per acre, payable each year in advance, unless the royalties received from the land during the preceding year equal or exceed the amount of the annual rental payment.

(c) Each bid is also subject to the payment of a special fee equal to one percent of the total sum bid, which special payment shall constitute a special fund from which the board for lease shall defray the expenses of the sale, including the payment for the services of the auctioneer crying the sale and the payment of the general operating expenses in geologizing, oil field supervision, and auditing oil and gas production of universi-

ty lands, including salaries and traveling expenses of persons employed by the board of regents for those purposes, and for the purpose of acquiring, constructing, and equipping a building in the city of Midland or adjacent area to house the administrative staff of the offices of University Lands, Geology and Land Agent, and such other related agencies necessary for the management and development of university lands in West Texas.

(d) The board for lease may also direct the comptroller of The University of Texas System to transmit to the state treasurer for deposit to the credit of the permanent university fund any unexpended balances remaining in the special fund after reserving a sufficient amount in it for the payment of current expenses as set out in Subsection (c) of this section.

(e) The highest successful bidder shall pay to the commissioner of the general land office on the day the bid is accepted the full amount of bonus bid and the special fee. (V.A.C.S. Art. 2603a, Sec. 5.)

§ 66.66. Withdrawal of Lands Before Bids Received

The board may withdraw any lands advertised for lease before the hour set for receiving bids. (V.A.C.S. Art. 2603a, Sec. 18 (part).)

§ 66.67. Award of Lease

(a) If any one of the bidders at the sale at public auction has offered a reasonable and proper price for any tract offered, not less than the price fixed by the board, the land advertised may be leased for oil and gas purposes under the terms of this subchapter and any regulations the board may prescribe, not inconsistent with the provisions of this subchapter. All bids may be rejected by the board.

(b) If the board determines that a satisfactory bid has been offered for the oil and gas, it shall make an award to the bidder offering the highest price, and a lease shall be executed by the commissioner of the general land office. A duplicate copy of the lease shall be filed in the general land office. (V.A.C.S. Art. 2603a, Secs. 7, 8(a).)

§ 66.68. Provisions of Lease

(a) Each lease executed under this subchapter shall contain, and each valid and subsisting oil and gas lease previously executed by the commissioner under the source statute for this subchapter, on the application of the lessee and payment of a sum of money equal to one year's annual rental under the lease, shall be amended by written instrument to contain, the provisions prescribed by this section.

(b) Each lease shall provide that the primary term of the lease, as determined by the board prior to the promulgation of the advertisement, shall in no case exceed five years.

(c) Each lease shall provide that if oil and/or gas is being produced in paying quantities from the leased premises before the termination of the primary term, such lease shall not terminate but shall continue in force and effect as long as oil and/or gas is being so produced.

(d) Each lease shall provide that in the event production of oil or gas on the leased premises, after once obtained, shall cease for any cause within 60 days before the expiration of the primary term of such lease or at any time or times thereafter, such lease shall not terminate, if the lessee commences additional drilling or reworking operations within 60 days thereafter, and such lease shall remain in full force and effect so long as such operations continue in good faith and in workmanlike manner, without interruptions, totaling more than 60 days during any one such operation; and if such drilling or reworking operations result in the production of oil and/or gas, such lease shall remain in full force and effect so long as oil or gas is produced therefrom in paying quantities or payment

of shut-in gas well royalty or compensatory royalties is made as hereinafter provided in this subchapter.

(e) Each lease shall provide that if at the expiration of the primary term or at any time thereafter there is located on the leased premises a well or wells capable of producing gas in paying quantities and such gas is not produced for lack of a suitable market and such lease is not being otherwise maintained in force and effect, the lessee may pay as royalty \$1,200 per annum for each well on the lease capable of producing gas in paying quantities, such payment to be made to the commissioner of the general land office at Austin, Texas, prior to the expiration of the primary term of the lease, or if the primary term has expired, within 60 days after lessee ceases to produce gas from such well or wells; and if such payment is made, the lease shall be considered to be a producing lease and such shut-in gas well royalty payment shall extend the term of the lease for a period of one year from the end of the primary term or from the first day of the month next succeeding the month in which production ceased; and thereafter if no suitable market for such gas exists, the lessee may extend the lease for two additional and successive periods of one year each by the payment of a like sum of money each year on or before the expiration of the extended term. Provided, however, that if, while such lease is being maintained in force and effect by payment of such shut-in gas well royalty, gas should be sold and delivered in paying quantities from a well situated within 1,000 feet of the leased premises and completed in the same producing reservoir or in any case where drainage is occurring, the right to further extend the lease by such shut-in gas well royalty payments shall cease, but such lease shall remain in force and effect for the remainder of the current one year period for which the shut-in gas well royalty has been paid, and for an additional period not to exceed a combined total of three years from the expiration of the primary term or from the first day of the month next succeeding the month in which production ceased by the payment by the lessee of compensatory royalty, at the royalty rate provided for in such university lease as would be due on an equivalent amount of like quality gas produced and delivered from the well completed in the same producing reservoir from which gas is being sold and delivered and which is situated within 1,000 feet of, or draining, the leased premises on which shut-in gas well is situated, such compensatory royalty to be paid monthly to the Commissioner of the General Land Office at Austin, Texas, beginning on or before the last day of the month next succeeding the month in which such gas is sold and delivered from the well situated within 1,000 feet of, or draining, the leased premises and completed in the same producing reservoir; provided further, that in the event such compensatory royalties paid in any 12-month period are in a sum less than the annual shut-in gas well royalties provided for in this section, the lessee shall pay an additional sum equal to the difference within 30 days from the end of such 12-month period; provided further, that nothing herein shall relieve the lessee of the obligation of reasonable development, nor of the obligation to drill offset wells required by Section 66.75 of this code.

(f) Each lease shall provide that if, at the expiration of the primary term, production of oil and/or gas has not been obtained in paying quantities on the leased premises but drilling operations are being conducted thereon in good faith and in good and workmanlike manner, the lessee may, on or before the expiration of the primary term, file in the general land office written application to the commissioner for a 30-day extension of such lease, such application to be accompanied by a payment of \$7.50 per acre for each acre in the lease, and the commissioner shall, in writing, extend such lease for a 30-day period from and after the expiration of the primary term and so long thereafter as oil or gas is produced in paying quantities from the premises; provided further, that the lessee

may, so long as such drilling operations are being conducted in good faith, make like application and payment during any 30-day extended period for an additional extension of 30 days not to exceed a combined total of 180 days; provided, however, lessee may, so long as such drilling operations are being conducted in good faith, make written application to the commissioner, on or before the expiration of the initial extended period of 180 days for an additional extension of 180 days, such application to be accompanied by a payment of \$50 per acre for each acre in the lease, and the commissioner shall, in writing, extend such lease for an additional 180-day period from and after the expiration of the initial extended period of 180 days, and so long thereafter as oil or gas is produced in paying quantities from the premises; provided, that no lease shall be extended under the provisions of this section for more than a total of 360 days from and after the expiration of the primary term unless production in paying quantities has been obtained. (V.A.C.S. Art. 2603a, Sec. 8(b)—1.)

§ 66.69. Lease: Additional Provisions

Each oil and gas lease issued on university lands under this subchapter shall include any additional provisions and regulations, not inconsistent with the provisions of this subchapter, that the board may prescribe to preserve the interest of the state and safeguard the university funds. (V.A.C.S. Art. 2603a, Sec. 8(b)—2.)

§ 66.70. Compensatory Royalties in Lieu of Offset Wells

(a) Subject to the provisions of this section, the commissioner of the general land office may execute agreements on behalf of the permanent university fund that provide for the payment by university land oil and gas lessees of compensatory royalty in lieu of drilling offset wells that may be required to protect a university oil and gas lease from drainage from a well or wells located on non-university lands or university lands leased at a lesser royalty situated within 1,000 feet of or draining the university-leased premises.

(b) Agreements providing for the payment of compensatory royalty must be approved by the board for lease of university lands.

(c) Any such agreement must be found by the commissioner and the board for lease to be in the best interest of the state and necessary to prevent economic waste.

(d) Nothing in an agreement shall relieve the lessee of the obligation of reasonable development or of the obligation to drill offset wells as required by Section 66.75 of this code as to other producing horizons.

(e) Beginning on the date fixed in the agreement, the lessee shall pay the compensatory royalty monthly to the commissioner at the land office in Austin.

(f) The agreement with respect to the interest of the state shall remain in force and effect as long as oil and gas, or either of them, is produced from a well located on university or non-university acreage and draining the university-leased premises.

(g) The agreement may contain other provisions the commissioner and the board for lease deem necessary to protect the interests of the permanent university fund. (V.A.C.S. Art. 2603a—1.)

§ 66.71. Prorated or Reduced Production Contracts

Whenever in the discretion of the board it is to the best interest of the university and its permanent fund that production from any lease for a limited period of time should be prorated or reduced, the board may execute the necessary contract or contracts with the lessee or lessees and their assignees to effectuate the same and to carry out the intention of this subchapter. (V.A.C.S. Art. 2603a, Sec. 8(c).)

§ 66.72. Extension of Producing Lease

If oil or gas is discovered in paying quantities on any tract covered by a lease, then the lease as to that tract shall remain in force as long as oil and gas is produced in paying quantities from the tract, provided that the other provisions of this subchapter are complied with by the lessee. (V. A.C.S. Art. 2603a, Sec. 9.)

§ 66.73. Assignment; Relinquishment

(a) All rights purchased may be assigned in quantities of not less than 40 acres, unless there are less than 40 acres remaining out of the tract originally leased under this subchapter, in which case the lesser area may be assigned. All assignments shall be filed in the general land office within 100 days after the date of the first acknowledgment thereof, accompanied by 10 cents an acre for each acre assigned; and if not so filed and payment made, the assignment shall be ineffective.

(b) All rights to any entire lease and to any assigned portion thereof may be relinquished to the state at any time by having an instrument of relinquishment recorded in the county or counties in which the area may be situated and filed in the land office accompanied by \$1 for each area assigned; but such assignment shall not release the owners of any past due obligations theretofore accrued thereon. (V.A.C.S. Art. 2603a, Sec. 10.)

§ 66.74. Royalty Payments; Inspection of Records

(a) Royalty as stipulated in the sale shall be paid to the general land office at Austin for the benefit of the university permanent fund on or before the last day of each month for the preceding month during the life of the rights purchased; and it shall be accompanied by the sworn statement of the owner, manager, or other authorized agent showing the gross amount of oil produced and saved since the last report, the amount of gas produced and sold off the premises, and the market value of the oil and gas, together with a copy of gas meter readings, pipeline receipts, gas line receipts, and other checks and memoranda of the amounts produced and put into pipelines, tanks, or pools and gas lines or gas storage.

(b) The books and accounts, receipt and discharges of all wells, tanks, pools, meters, pipelines, and all contracts and other records pertaining to the production, transportation, sale, and marketing of the oil and gas shall at all times be subject to inspection and examination by the commissioner of the general land office, the attorney general, the governor, or any member of the board of regents, or the representative of either. (V. A.C.S. Art. 2603a, Sec. 11.)

§ 66.75. Protection from Drainage

In every case where the area in which the oil and gas sold shall be contiguous or adjacent to land not university land, the acceptance of the bid and the sale made thereby shall constitute an obligation on the lessee to adequately protect the land leased from drainage from adjacent lands. In cases where the area in which the oil and gas is sold is contiguous to other university lands leased or sold, at a lesser royalty, the lessee shall likewise protect the state from drainage from the land so leased or sold for a lesser royalty. On failure to protect the land from drainage, the sale and all rights thereunder may be forfeited by the board in the manner provided in this subchapter for forfeitures. (V.A.C.S. Art. 2603a, Sec. 12.)

§ 66.76. Forfeiture; Other Remedies; Lien

(a) If the owner of the rights acquired under this subchapter fails or refuses to make the payment of any sum due thereon, either as rental or

royalty on the production, within 30 days after same becomes due, or if the owner or his authorized agent makes any false return or false report concerning production, royalty, or drilling, or if the owner fails or refuses to drill any offset well or wells in good faith, as required by his lease, or if the owner or his agent refuses the proper authority to access to the records and other data pertaining to the operations under this subchapter, or if the owner or his authorized agent fails or refuses to give correct information to the proper authorities, or fails or refuses to furnish the log of any well within 30 days after production is found in paying quantities, or if any of the material terms of the lease are violated, the lease is subject to forfeiture by the board by an order entered upon the minutes of the board reciting the facts constituting the default and declaring the forfeiture.

(b) The board may have suit instituted for forfeiture through the attorney general.

(c) On proper showing by the forfeiting owner, within 30 days after the declaration of forfeiture, the lease may, at the discretion of the board and on such terms as it may prescribe, be reinstated.

(d) In case of violation by the owner of the lease contract, the remedy of the state by forfeiture is not the exclusive remedy, but suit for damages or specific performance, or both, may be instituted.

(e) The state shall have a first lien upon all oil and gas produced upon the leased area and upon all rigs, tanks, pipeline, telephone lines, and machinery and appliances used in the production and handling of oil and gas produced thereon, to secure any amount due from the owner of the lease. (V.A.C.S. Art. 2603a, Sec. 13.)

§ 66.77. Filing of Records

All surveys, files, records, copies of sale and lease contracts, and all other records pertaining to the sales and leases hereby authorized, shall be filed in the general land office and constitute archives thereof. (V.A.C.S. Art. 2603a, Sec. 14 (part).)

§ 66.78. Payments; Disposition

Payments under this subchapter shall be made to the commissioner of the general land office at Austin, who shall:

(1) transmit to the state treasurer for deposit to the credit of the permanent university fund all bonus and royalty payments;

(2) transmit to the state treasurer for deposit to the credit of the available university fund all payments for delay in drilling, all filing, assignment, and relinquishment fees, and all other payments except those described in Subdivision (3) of this section; and

(3) transmit to the comptroller of The University of Texas System the special one percent fee payment prescribed by Section 66.65(c) of this code, which shall be disbursed by the comptroller for the authorized purposes after approval thereof by the board. (V.A.C.S. Art. 2603a, Sec. 14 (part).)

§ 66.79. Forms; Contracts; Regulations

The board shall adopt forms and contracts and shall promulgate rules and regulations, not inconsistent with the terms of this subchapter, that in its judgment will best effectuate the purpose of this subchapter and will best protect the university, its lands, and the income from the lands. (V.A.C.S. Art. 2603a, Sec. 18 (part).)

§ 66.80. Expenses of Executing this Subchapter

The expenses of executing the provisions of this subchapter shall be paid monthly by warrants drawn by the comptroller on the state treasury. (V.A.C.S. Art. 2603a, Sec. 16.)

§ 85.13. Certificate of Appointment

The secretary of state shall forward a certificate to each director within 10 days after his appointment, notifying him of the fact of his appointment. If any person so appointed and notified fails for 10 days to give notice to the governor of his acceptance, his appointment shall be deemed void and his place shall be filled as in the case of a vacancy. (R.S. Art. 2611.)

§ 85.14. President of Board

The board shall elect from its members a president of the board, who shall call the board together for the transaction of business whenever he deems it expedient. (R.S. Art. 2610 (part).)

§ 85.15. Expenses of Directors

[Sections 85.17 to 85.20 reserved for expansion]

SUBCHAPTER C. POWERS AND DUTIES OF BOARD**§ 85.21. General Powers and Duties**

The board shall make bylaws, rules, and regulations it deems necessary and proper for the government of the university system and its institutions, agencies, and services. The board shall regulate the course of study and prescribe the course of discipline necessary to enforce the faithful discharge of the duties of the officers, faculty, and students. (R.S. Art. 2613, subd. 6.)

§ 85.22. Expenditures

All expenditures may be made by order of the board and shall be paid on warrants from the comptroller based on vouchers approved by the president of the board or by some officer or officers designated by him in writing to the comptroller. (R.S. Art. 2613, subd. 9.)

§ 85.23. Permanent Improvements; Contracts; Land Transactions

(a) The board may contract with persons, firms, or corporations for the purchase, acquisition, or construction of permanent improvements on or conveniently located with reference to the campus of any institution of the system; and may purchase, sell, or lease lands and other appurtenances for the construction of the permanent improvements. However, no liability shall be incurred by the State of Texas under this subsection.

(b) The board may sell, encumber, or contract with reference to the divesting or encumbering of the title to, any part of the campus or other property of any institution of the system as may be necessary in the construction or acquisition of dormitories. However, no debt shall be incurred against the institution or the State of Texas. (V.A.C.S. Art. 2613a—1, Secs. 1, 4, and 7.)

§ 85.24. Utilities

(a) The board from time to time may improve and equip existing central power plants and may construct, acquire, improve, and equip steam

plants and additions to them, and the board may acquire land for these purposes for the institutions under its control, when the total cost, type of construction, capacity, and plans and specifications have been approved by the board. As used in this subsection, "steam plants" does not include electrical generating facilities, but "central power plants" does include electrical generating facilities.

(b) The board from time to time may construct, extend, and improve the water systems, sewer systems, or both, for any or all institutions under its control, when the total cost, type of construction, capacity, and plans and specifications have been approved by the board.

(c) The board may furnish water, sewer, steam, power, electricity, or any or all of those services from the power and steam plant or plants and other facilities located at each institution, to any or all dormitories, kitchens and dining halls, hospitals, student activity buildings, gymnasiums, athletic buildings and stadiums, the dormitory for help, laundry, and other buildings or facilities that may have been or may be constructed at each institution, and may determine the amount to be charged as a part of the maintenance and operation expense of those buildings or facilities for the service or services. The board may allocate the cost of furnishing the services to revenue-producing buildings and facilities and to other buildings and facilities at the institutions. The board may pledge the net revenues from the amounts thus received for the services to pay the principal of and interest on, and to create and maintain the reserve for, the negotiable revenue bonds issued for the purpose of constructing, acquiring, improving, extending, or equipping the power and steam plants, or additions thereto, or other facilities, and may secure the bonds additionally by pledging rentals, rates, charges, and fees for the use or availability of all or any property, buildings, structures, activities, operations, or facilities, of any nature, which may be fixed and collected from all or any designated part of the students enrolled in the institution or institutions or from others in the amounts and in the manner determined and provided by the board in the resolution authorizing the issuance of the bonds. (V.A.C.S. Art. 2613a—4, Secs. 1a, 1b, 4.)

§ 85.25. Lands and Mineral Interests

(a) The board is vested with the sole and exclusive management and control of lands and mineral interests under its jurisdiction and that may be acquired by it. The board may convey lands to other units or agencies of government; and where not otherwise authorized by existing law so to do, the board may sell said lands or lease the surface estate under terms and conditions it deems best in the public interest. The board may not, however, sell or otherwise dispose of any land comprising the original main campus of Texas A & M University, located at College Station, except as specifically authorized by existing law. Proceeds received therefrom may be retained in local funds subject to disposition by the board for any lawful purpose.

(b) This section is cumulative of existing statutes relating to the authority of the board to lease for oil, gas, sulphur, mineral ore, and other mineral developments, and otherwise to buy, sell, and lease certain lands under its jurisdiction and supervision.

(c) This section does not cover any lands or minerals held by the general land office. (V.A.C.S. Art. 2613a—11.)

§ 85.26. Leases and Easements; Rights-of-Way for Electric Lines, Pipelines, Irrigation Canals, Etc.

(a) The board may execute leases and grant easements for rights-of-way for telephone, telegraph, electric transmission, and power lines, for oil pipelines, gas pipelines, sulphur pipelines, water pipelines and other electric lines and pipelines of any nature whatsoever, and for irrigation

canals, and laterals, and may execute easements or leases for the erection and maintenance of electric substations, pumping stations, loading racks, tank farms, and other structures, and may execute easements for rights-of-way to the Texas Highway Department, to any county in the state, or to any corporation, group, organization, firm, or individual for highway or roadway purposes, on or across any lands belonging to the state and under the control of the board, if the board in its discretion deems it apparent that the interest of the state can best be served by the granting of the easements and leases.

(b) Each easement granted under this section shall be on forms approved by the attorney general and shall include a complete description of the land on which the easement is to be granted, the period of time covered by the easement, the amount of money to be paid by the grantee to the grantor, or other consideration for the granting of such easement. It shall also specify the terms and conditions, penalties for failure to comply with its provisions, and other pertinent information necessary and desirable to effect a complete understanding of the transaction.

(c) The grant of an easement for right-of-way, except an easement for right-of-way for highway or roadway purposes which may be for an indefinite term shall be limited to a term of not longer than 10 years, but any such easement may be renewed by the board.

(d) All income received by the board under the provisions of this section shall be accounted for and used in the same manner as other money available to the part of the system to which the land from which the easement is granted is assigned.

(e) No person, firm, group, organization, agency, or corporation shall hereafter construct any telephone, telegraph, transmission, or electric line, pipeline, electric substation, tank farm, loading rack, pumping station, irrigation canal or lateral, highway, or roadway of the kind and character enumerated in Subsection (a) of this section, across or on any section or part of a section of land of the character described in Subsection (a) of this section, who has not obtained a proper easement as provided by this section; or continue in possession of any such land without obtaining from the board a grant of a right-of-way easement or other easement across or on such land where the telephone, telegraph, transmission, or electric lines, pipelines, or any other transmission or pipelines, electric substation, tank farm, loading rack, or pumping station, irrigation canal or lateral, highway, or roadway is to² constructed. Any person, firm, group, organization, agency, or corporation violating this subsection shall be liable for a penalty of \$100 for each day of the violation, to be recovered by the attorney general. (V.A.C.S. Art. 2613a—7.)

² Probably should read "to be".

§ 85.27. Flood Control Easements

The board may convey flood control easements over land under its jurisdiction and control to water control and improvement districts of this state. No flood control easement shall be conveyed unless the board receives from the district reasonable consideration for the conveyance. The conveyance shall be under the terms and conditions that the board deems in the best interest of the university system. (V.A.C.S. Art. 2613a—9.)

§ 85.28. Airports

(a) The board may construct or otherwise acquire an airport for any institution within the system. It may maintain and operate the airports in connection with the teaching of courses in aeronautical engineering and for purposes in cooperation with the national defense program and for other purposes which will not interfere with those uses.

(b) The board may acquire by purchase, lease, gift, condemnation, or otherwise, and may use, operate, and maintain any kind of property or property interest necessary or convenient to the exercise of powers under this section. The power of eminent domain shall be exercised in the manner provided by general law, including Title 52, Revised Civil Statutes of Texas, 1925, as amended, except that the board shall not be required to give bond for appeal or bond for costs. (V.A.C.S. Art. 2615c.)

§ 85.29. Research and Experimentation for Highway Department

The state comptroller of public accounts may draw proper warrants in favor of any part of the university system based on vouchers or claims submitted by the system through the State Highway Department covering reasonable fees and charges for services rendered by members of the staff of the system to the State Highway Department and for equipment and materials necessary for research and experimentation in all phases of highway activity, economics, materials, specifications, design of roadways, construction, maintenance, pavement and structures, traffic control, safety, the economics of highway design and construction, and other fields of highway design, construction, maintenance, or operation, based on an agreement between the State Highway Department and the Texas Agricultural and Mechanical College System as passed by the State Highway Department on September 29, 1948, and recorded by the State Highway Department as Minute Order Number 25396; and the state treasurer shall pay warrants so issued against any funds appropriated by the legislature to the State Highway Department for the construction and maintenance of highways, roads, and bridges. The payments made to the system shall be credited and deposited to local institutional funds under its control. (V.A.C.S. Art. 2615e.)

[Sections 85.30–85.50 reserved for expansion]

SUBCHAPTER D. LEASE OF LANDS FOR OIL, GAS, AND OTHER MINERAL DEVELOPMENT

§ 85.51. Authority to Lease

The board may lease for oil, gas, sulphur, mineral ore, and other mineral developments to the highest bidder at public auction all lands used for experimental stations and all other lands under its exclusive control, or any part of those lands, owned or in the future acquired by the state for the use of the university system. (V.A.C.S. Art. 2613a—3, Sec. 1(a).)

§ 85.52. Sale of Mineral Ore in Place

Mineral ore located in and on the land may also be sold in place by the board at not less than the fair market value as determined by the same methods as are provided for leasing of lands under this subchapter for development of the minerals in the lands. (V.A.C.S. Art. 2613a—3, Sec. 4a.)

§ 85.53. Tracts, Lots, Blocks

The board may cause the lands to be surveyed or subdivided into tracts, lots, or blocks that will, in its judgment, be most conducive and convenient to facilitate the advantageous sale of lease for oil, gas, sulphur, mineral ore, and other minerals, and may make maps and plats that may be thought necessary to carry out the purposes of this subchapter. The board may obtain authentic abstracts of title to all the lands as it deems necessary from time to time, and may take any steps necessary to perfect a merchantable title to the lands in the State of Texas. (V.A.C.S. Art. 2613a—3, Sec. 2.)

§ 85.54. Placing Leases on Market; Advertising

(a) Whenever, in the opinion of the board, there is a demand for the purchase of oil, gas, sulphur, mineral ore, or other mineral leases on any tract or part of any tract of land that will reasonably insure an advantageous sale, the board shall place the oil, gas, sulphur, mineral ore, or other mineral leases on the land on the market in any tract or tracts, or any part thereof, that the board may designate.

(b) The board shall cause to be advertised a brief description of the land from which the oil, gas, sulphur, mineral ore, or other minerals is proposed to be leased. The advertisement shall be made by inserting in two or more papers of general circulation in this state; and in addition the board may, in its discretion, cause the advertisement to be placed in an oil and gas journal published in and out of the state, mail copies of the proposals to the county judge of the county where the lands are located, and mail copies of the proposals to other persons the board thinks would be interested. (V.A.C.S. Art. 2613a—3, Sec. 3 (part).)

§ 85.55. Public Auction; Bids; Acceptance; Rejection; Payments

(a) The board may sell the lease or leases to the highest bidder at public auction, at Texas A & M University, in College Station, at any hour between 10 a. m. and 5 p. m.

(b) The board may reject all bids. However, the highest bidder shall pay to the board on the day of the sale 25 percent of the bonus bid, and the balance of the bid shall be paid to the board within 24 hours after notification that the bid has been accepted. Payments shall be in cash, certified check, or cashier's check, as the board may direct. Failure to pay the balance of the amount bid will forfeit to the board the 25 percent paid.

(c) A separate bid shall be made for each tract or subdivision thereof. No bids shall be accepted which offer less than the fair market price per ton for the mineral ore or a royalty of less than one-eighth of the gross production of oil, gas, sulphur, and other minerals in the land bid upon, and this minimum royalty may be increased at the discretion of the board. Every bid shall carry the obligation to pay an amount not less than \$1 per acre for delay in drilling or development. The amount shall be fixed by the board in advance of the advertisement and shall be paid every year for five years unless in the meantime production in paying quantities is had upon the land or the land is re-leased by the lessee. (V.A.C.S. Art. 2613a—3, Secs. 3 (part), 4.)

§ 85.56. Subsequent Procedure if No Bids Accepted

If no bid is accepted by the board at the public auction, any subsequent procedure for the sale of oil, gas, sulphur, mineral ore, and other mineral leases shall be in the manner prescribed by this subchapter. (V.A.C.S. Art. 2613a—3, Sec. 5 (part).)

§ 85.57. Withdrawal of Land Advertised

The board may withdraw any lands advertised for lease or for the sale of mineral ore in place. (V.A.C.S. Art. 2613a—3, Sec. 14 (part).)

§ 85.58. Acceptance of Bids; Award of Lease

(a) If in the opinion of the board any one of the bidders has offered a reasonable and proper price for any tract and not less than the price fixed by the board, the lands advertised may be leased for oil, gas, sulphur, mineral ore, and other mineral purposes under the provisions of this subchapter and any regulations the board may prescribe which are not inconsistent with the provisions of this subchapter.

(b) On acceptance of a bid, the board shall prepare a lease contract. The bid and a copy of the lease contract shall be filed in the general land office. (V.A.C.S. Art. 2613a—3, Secs. 5 (part), 6 (part), 7(a).)

§ 85.59. Exploratory Term; Extension; Other Provisions of Lease

(a) The exploratory term of the lease as determined by the board prior to the promulgation of the advertisement shall in no case exceed five years, and each lease shall provide that the lease will terminate at the expiration of its exploratory term unless by unanimous vote of members of the board the lease may be extended for a period of three years. The lease may be extended if the board finds that there is likelihood of oil, gas, sulphur, mineral ore, and other minerals being discovered by lessees, and that the lessees have proceeded with diligence to protect the interest of the state. However, if oil, gas, sulphur, mineral ore, and other minerals are being produced in paying quantities from the premises, the lease shall continue in force and effect as long as the oil, gas, sulphur, mineral ore, and other minerals are being so produced. No extension under this subsection may be made by the board until the last 30 days of the original term of the lease.

(b) When, in the discretion of the board, it is deemed for the best interest of the state to extend a lease issued by the board, the board by unanimous vote may extend the lease for a period not to exceed three years, on the condition that the lessee shall continue to pay yearly rental as provided in the lease and any additional terms the board may see fit and proper to demand. The board may extend the lease and execute an extension agreement.

(c) The lease shall include any additional provisions and regulations the board may prescribe to preserve the interest of the state, not inconsistent with the provisions of this subchapter. (V.A.C.S. Art. 2613a—3, Sec. 7(b), (c).)

§ 85.60. Discontinuance of Yearly Payments; Termination for Nonproduction

When the royalties amount to as much as the yearly payments as fixed by the board, the yearly payments may be discontinued. If before the expiration of five years oil, gas, sulphur, mineral ore, and other minerals have not been produced in paying quantities, the lease shall terminate unless extended as provided by this subchapter. (V.A.C.S. Art. 2613a—3, Sec. 6 (part).)

§ 85.61. Operations under Lease: Effect on Rental Payments, Term of Lease

If, during the term of any lease issued under the provisions of this subchapter, the lessee is engaged in actual drilling and mining operations for the discovery of oil, gas, sulphur, mineral ore, and other minerals on land covered by any such lease, no rentals shall be payable as to the tract on which the operations are being conducted as long as the operations are proceeding in good faith; and if oil, gas, sulphur, mineral ore, and other minerals are discovered in paying quantities on any tract of land covered by any lease, then the lease as to that tract shall remain in force as long as oil, gas, sulphur, mineral ore, and other minerals are produced in paying quantities from the tract. (V.A.C.S. Art. 2613a—3, Sec. 8 (part).)

§ 85.62. Proration or Reduction of Production

When, in the discretion of the board, it is for the best interest of the state to prorate or reduce production of any land, the board may execute the necessary contract to carry out that purpose. (V.A.C.S. Art. 2613a—3, Sec. 7(d).)

§ 85.63. Interference with Surface Uses

No lease for oil, gas, sulphur, mineral ore, and other minerals shall be made by the board which will permit the drilling or mining for oil, gas,

sulphur, mineral ore, and other minerals within 300 feet of any building on the land without the consent of the board. A lease on any experimental station or farm shall provide that the operations for oil, gas, sulphur, mineral ore, and other minerals shall not in any way interfere with use of the land as an experimental station and shall not cause the abandonment of the property or its use for experimental farm purposes; and the lessee shall drill, mine, and carry on his operations in such a way as not to cause the abandonment of the property for experimental farm purposes, and any such leased property shall be subject to the use by the State of Texas for all experimental purposes and the board shall continue to operate the experimental station. (V.A.C.S. Art. 2613a—3, Sec. 5 (part).)

§ 85.64. Protection from Drainage

In every case where the area in which oil, gas, sulphur, mineral ore, and other minerals sold shall be contiguous or adjacent to lands which are not lands belonging to and held by the university system, the acceptance of the bid and the sale made thereby shall constitute an obligation on the owner to adequately protect the land leased from drainage from the adjacent lands to the extent that a reasonably prudent operator would do under the same and similar circumstances. In cases where the area in which the oil, gas, sulphur, mineral ore, and other minerals are sold is contiguous to other lands belonging to and held by the university system which have been leased or sold at a lesser royalty, the owner shall likewise protect the land from drainage from the lands so leased or sold for a lesser royalty. On failure to protect the land from drainage as herein provided, the sale and all rights thereunder may be forfeited by the board in the manner provided in this subchapter for forfeitures. (V.A.C.S. Art. 2613a—3, Sec. 11.)

§ 85.65. Rights of Purchaser; Assignment; Relinquishment

(a) Title to all rights purchased may be held by the owners as long as the area produces oil, gas, sulphur, mineral ore, and other minerals in paying quantities.

(b) All rights purchased may be assigned. All assignments shall be filed in the general land office within 100 days from the date of the first acknowledgment thereof, accompanied by 10 cents per acre for each acre assigned; and if not so filed and payment made, the assignment shall not be effective.

(c) All rights to any whole tract or to any assigned portion thereof may be relinquished to the state at any time by having an instrument of relinquishment recorded in the county or counties in which the area may be situated, and filed with the chairman of the board, accompanied by \$1 for each area assigned; but such assignment shall not relieve the owner of any past due obligations theretofore accrued thereon.

(d) The board shall authorize the laying of pipeline, telephone line, and the opening of roads as deemed reasonably necessary for and incident to the purpose of this subchapter. (V.A.C.S. Art. 2613a—3, Sec. 9.)

§ 85.66. Royalty Payments; Inspection of Records; Report of Land Commissioner

(a) If oil or other minerals are developed on any of the lands leased by the board, the royalty or money as stipulated in the sale shall be paid to the general land office at Austin on or before the last day of each month for the preceding month during the life of the rights purchased, and shall be set aside in the state treasury as specified in Section 85.70 of this code. The royalty or money paid to the general land office shall be accompanied by the sworn statement of the owner, manager, or other authorized agent showing the gross amount of oil, gas, sulphur, mineral ore,

and other minerals produced and saved since the last report, the amount of oil, gas, sulphur, mineral ore, and other minerals produced and sold off the premises, and the market value of the oil, gas, sulphur, mineral ore, and other minerals, together with a copy of all daily gauges, or vats, tanks, gas meter readings, pipeline receipts, gas line receipts and other checks and memoranda of the amounts produced and put into pipelines, tanks, vats, or pool and gas lines, gas storage, other places of storage, and other means of transportation.

(b) The books and accounts, receipts and discharges of all wells, tanks, vats, pools, meters, pipelines, and all contracts and other records pertaining to the production, transportation, sale, and marketing of oil, gas, sulphur, mineral ore, and other minerals shall at all times be subject to inspection and examination of any member of the board or any duly authorized representative of the board.

(c) The commissioner of the general land office shall tender to the board on or before the 10th day of each month a report of all receipts from the lease or sale of oil, gas, sulphur, mineral ore, and other minerals turned into the special fund in the state treasury of the preceding month. (V.A.C.S. Art. 2613a—3, Sec. 10.)

§ 85.67. Forfeiture; Other Remedies; Lien

(a) If the owner of the rights acquired under this subchapter fails or refuses to make the payment of any sum due thereon, either as rental, royalty on production, or other payment, within 30 days after same becomes due, or if the owner or his authorized agent makes any false return or false report concerning production, royalty, drilling, or mining, or if the owner fails or refuses to drill any offset well or wells in good faith, as required by his lease, or if the owner or his agent refuses the proper authority access to the records and other data pertaining to the operations under this subchapter, or if the owner or his authorized agent fails or refuses to give correct information to the proper authorities, or fails or refuses to furnish the log of any well within 30 days after production is found in paying quantities, or if any of the material terms of the lease are violated, the lease is subject to forfeiture by the board by an order entered upon the minutes of the board reciting the facts constituting the default and declaring the forfeiture.

(b) The board may have suit instituted for forfeiture through the attorney general.

(c) On proper showing by the forfeiting owner, within 30 days after the declaration of forfeiture, the lease may, at the discretion of the board and on such terms as it may prescribe, be reinstated.

(d) In case of violation by the owner of the lease contract, the remedy of the state by forfeiture is not the exclusive remedy, but suit for damages or specific performance, or both, may be instituted.

(e) The state shall have a first lien upon all oil, gas, sulphur, mineral ore, and other minerals produced upon the leased area and upon all rigs, tanks, vats, pipeline, telephone lines, and machinery and appliances used in the production and handling of oil, gas, sulphur, mineral ore, and other minerals produced thereon, to secure any amount due from the owner of the lease. (V.A.C.S. Art. 2613a—3, Sec. 12.)

§ 85.68. Filing of Records

All surveys, files, records, copies of sale and lease contracts, and all other records pertaining to the sales and leases hereby authorized, shall be filed in the general land office and constitute archives thereof. (V. A.C.S. Art. 2613a—3, Sec. 13 (part).)

§ 85.69. Payments; Disposition

Payments under this subchapter shall be made to the commissioner of the general land office at Austin, who shall transmit to the state treasurer all royalties, lease fees, rentals for delay in drilling or mining, and all other payments, including all filing assignments and relinquishment fees, to be deposited in the special fund in the state treasury as provided by Section 85.70 of this code. (V.A.C.S. Art. 2613a—3, Sec. 13 (part).)

§ 85.70. Disposition of Money; Special Funds; Investment

(a) All money received under and by virtue of this subchapter shall be deposited in the state treasury to the credit of a special fund to be known as The Texas A & M University System Special Mineral Investment Fund. In the judgment of the board, this special fund may be invested so as to produce an income which may be expended under the direction of the board in erecting permanent improvements for the university system and in payment of expenses incurred in connection with the administration of this subchapter. The unexpended income likewise may be invested as herein provided.

(b) The income from the investment of the special mineral investment fund shall be deposited to the credit of a fund to be known as The Texas A & M University System Special Mineral Income Fund, and shall be appropriated by the legislature exclusively for the university system for the purposes herein provided. (V.A.C.S. Art. 2613a—3, Sec. 1(b), (c).)

§ 85.71. Forms; Contracts; Regulations

The board shall adopt forms and contracts and shall promulgate rules and regulations that in its best judgment will protect the income from lands leased under this subchapter. A majority of the board may act in all cases, except where otherwise provided by this subchapter. (V.A.C.S. Art. 2613a—3, Sec. 14 (part).)

§ 85.72. Expenses of Executing this Subchapter

The expenses of executing the provisions of this subchapter shall be paid by warrants drawn by the comptroller on the state treasury against the income from the special fund accumulated from leases, rentals, royalties, and other payments. (V.A.C.S. Art. 2613a—3, Sec. 15.)

§ 87.102. Governing Board

The college is under the control and supervision of the board of directors of The Texas A & M University System. The board has the same powers and duties with respect to this college as are conferred on it by statute with respect to Texas A & M University. (R.S. Art. 2638; V.A.C.S. Art. 2643b, Sec. 2 (part).)

[Sections 87.103 to 87.200 reserved for expansion]

SUBCHAPTER C. THE TEXAS MARITIME ACADEMY**§ 87.201. Texas Maritime Academy**

The Texas Maritime Academy, located in Galveston, is a school for the purpose of instructing boys in the practice of seamanship, ship construction, naval architecture, wireless telegraph, engineering, and the science of navigation. It is under the management and control of the board of directors of The Texas A & M University System. (V.A.C.S. Art. 2615b, Secs. 1, 2 (part).)

§ 87.202. General Powers and Duties

The board shall:

The fact that provision for the establishment of this academy is for the primary purpose of giving students practical and technical instruction in the arts and sciences relating to the foregoing subjects, and the further fact that training in these fields will lead to immediate and remunerative employment for those who have finished the prescribed courses, make it necessary that larger fees be charged those students who enter the academy than is now paid by students enrolled in state-supported institutions of higher education. Therefore, the provisions of Subchapter E, Chapter 54 of this code, do not apply to the students enrolled in the academy. The board is specifically charged with the duty of assessing such fees and charges against the students who enter the academy as may be necessary to provide for the maintenance and support of the academy. (V.A.C.S. Art. 2613c, Sec. 4a.)

§ 88.116. Text of Compact

The South Central Interstate Forest Fire Protection Compact reads as follows:

SOUTH CENTRAL INTERSTATE FOREST FIRE
PROTECTION COMPACT

Article I.

The purpose of this compact is to promote effective prevention and control of forest fires in the South Central region of the United States by the development of integrated forest fire plans, by the maintenance of adequate forest fire fighting services by the member States, by providing for mutual aid in fighting forest fires among the compacting States of the region and with States which are party to other Regional Forest Fire Protection compacts or agreements, and for more adequate forest development.

Article II.

This compact shall become operative immediately as to those States ratifying it whenever any two or more of the States of Arkansas, Louisiana, Mississippi, Oklahoma, and Texas which are contiguous have ratified it and Congress has given consent thereto. Any State not mentioned in this article which is contiguous with any member State may become a party to this compact, subject to approval by the legislature of each of the member States.

Article III.

In each State, the State Forester or officer holding the equivalent position who is responsible for forest fire control shall act as compact administrator for that State and shall consult with like officials of the other member States and shall implement cooperation between such States in forest fire prevention and control.

The compact administrators of the member States shall organize to coordinate the services of the member States and provide administrative integration in carrying out the purposes of this compact.

There shall be established an advisory committee of legislators, representatives of the Board of Directors of the Texas Agricultural and Mechanical College System, and forestry or forest products industries representatives, which shall meet from time to time with the compact administrators. Each member State shall name one member of the Senate and one member of the House of Representatives, and the Governor of each member State shall appoint one representative who shall be associated with forestry or forest products industries, and a member of the Board of Directors of the Texas Agricultural and Mechanical College System, to comprise the membership of the advisory committee. Action shall be taken by a majority of the compacting States, and each State shall be entitled to one vote.

The compact administrators shall formulate and, in accordance with need, from time to time, revise a regional forest fire plan for the member States.

It shall be the duty of each member State to formulate and put in effect a forest fire plan for that State and take such measures as may be necessary to integrate such forest fire plan with the regional forest fire plan formulated by the compact administrators.

Article IV.

Whenever the State forest fire control agency of a member State requests aid from the State forest fire control agency of any other member State in combating, controlling or preventing forest fires, it shall be the duty of the State forest fire control agency of that State to render all possible aid to the requesting agency which is consonant with the maintenance of protection at home.

Article V.

Whenever the forces of any member State are rendering outside aid pursuant to the request of another member State under this compact, the employees of such State shall, under the direction of the officers of the State to which they are rendering aid, have the same powers (except the power of arrest), duties, rights, privileges and immunities as comparable employees of the State to which they are rendering aid.

No member State or its officers or employees rendering outside aid pursuant to this compact shall be liable on account of any act or omission on the part of such forces while so engaged, or on account of the maintenance or use of any equipment or supplies in connection therewith; provided, that nothing herein shall be construed as relieving any person from liability for his own negligent act or omission, or as imposing liability for such negligent act or omission upon any State.

All liability, except as otherwise provided herein, that may arise either under the laws of the requesting State or under the laws of the aiding State or under the laws of a third State on account of or in connection with a request for aid, shall be assumed and borne by the requesting State.

Any member State rendering outside aid pursuant to this compact shall be reimbursed by the member State receiving such aid for any loss or damage to, or expense incurred in the operation of any equipment answering a request for aid, and for the cost of all materials, transportation, wages, salaries and maintenance of employees and equipment incurred in connection with such request; provided, that nothing herein contained shall prevent any assisting member State from assuming such loss, damage, expense or other cost or from loaning such equipment or from donating such service to the receiving member State without charge or cost.

Each member State shall provide for the payment of compensation and death benefits to injured employees and the representatives of deceased employees in case employees sustain injuries or are killed while rendering outside aid pursuant to this compact, in the same manner and on the same terms as if the injury or death were sustained within such State.

For the purposes of this compact the term "employee" shall include any volunteer or auxiliary legally included within the forest fire fighting forces of the aiding State under the laws thereof.

The compact administrators shall formulate procedures for claims and reimbursement under the provisions of this article, in accordance with the laws of the member States.

Article VI.

Ratification of this compact shall not be construed to affect any existing statute so as to authorize or permit curtailment or diminution of the forest fire fighting forces, equipment, services or facilities of any member State.

Nothing in this compact shall be construed to limit or restrict the powers of any State ratifying the same to provide for the prevention, control and extinguishment of forest fires, or to prohibit the enactment or enforcement of State laws, rules or regulations intended to aid in such prevention, control and extinguishment in such State.

Nothing in this compact shall be construed to affect any existing or future cooperative relationship or arrangement between the United States Forest Service and a member State or States.

Article VII.

The compact administrators may request the United States Forest Service to act as the primary research and coordinating agency of the South Central Interstate Forest Fire Protection Compact in cooperation with the appropriate agencies in each State, and the United States Forest Service may accept the initial responsibility in preparing and presenting to the compact administrators its recommendations with respect to the regional fire plan. Representatives of the United States Forest Service may attend meetings of the compact administrators.

Article VIII.

The provisions of Articles IV and V of this compact which relate to mutual aid in combating, controlling or preventing forest fires shall be operative as between any State party to this compact and any other State which is party to a regional forest fire protection compact in another region; provided, that the Legislature of such other State shall have given its assent to such mutual aid provisions of this compact.

Article IX.

This compact shall continue in force and remain binding on each State ratifying it until the legislature or the Governor of such State takes action to withdraw therefrom. Such action shall not be effective until six months after notice thereof has been sent by the chief executive of the State desiring to withdraw to the chief executives of all States then parties to the compact. (V.A.C.S. Art. 2613c, Sec. 1 (part).)

For the purpose of purchasing the items permitted to be purchased under Section 104.51 of this code, the board may issue its negotiable revenue bonds from time to time in the amounts it considers necessary or appropriate for the purpose of paying the purchase price or prices. The bonds may be made redeemable before maturity, at the option of the board, at the price or prices and under the terms and conditions that may be fixed by the board prior to the issuance of the bonds. The bonds shall be sold for not less than par and accrued interest. (V.A.C.S. Art. 2628a—11, Sec. 2.)

§ 104.53. Pledge of Revenue; Mortgages

The board may pledge to the payment of the interest on and the principal of the bonds all or any part of the revenue derived or anticipated to be derived in any manner from the land, including any revenue received from rendering scientific or experimental services on the land purchased and all or any part of the revenue of the university derived or anticipated to be derived from the sale, handling, or disposal of the crops, agricultural and horticultural products acquired or to be grown and harvested from the land; and the board may enter into any agreements regarding the pledging thereof that it may deem appropriate. The board may also mortgage the farming equipment, machinery, apparatus, and land thus purchased and any growing fruits, products, and crops, or those to be grown, on any terms the board may determine to be appropriate. (V.A.C.S. Art. 2628a—11, Sec. 3.)

§ 104.54. Bonds as Special Obligations

The bonds authorized to be issued under this subchapter are special obligations of the board, payable only from the revenue pledged, and none of the bonds shall ever be an indebtedness of the State of Texas. (V.A.C.S. Art. 2628a—11, Sec. 4.)

§ 104.55. Bonds as Authorized Investments, Security for Deposits

The bonds are declared to be legal and authorized investments for banks, savings banks, trust companies, building and loan associations, savings and loan associations, and insurance companies. The bonds are eligible to secure the deposit of public funds of the State of Texas and of cities, towns, villages, counties, school districts, and other political corporations or subdivisions of the State of Texas; and the bonds are lawful and sufficient security for those deposits to the extent of the principal amount, or their value on the market, whichever is less, when accompanied by all unmatured coupons appurtenant to them. (V.A.C.S. Art. 2628a—11, Sec. 5.)

§ 104.56. Prior Liens, Pledges, Mortgages

Any pledge of revenue or mortgage of property made under the terms of this subchapter shall be subject to any prior lien, pledge, or mortgage thereof, but the existence of any such prior lien, pledge, or mortgage shall not prevent (a) the making of a subsequent and inferior lien, pledge, or mortgage, unless that action is prohibited under the resolution, order, or indenture authorizing the prior obligations, or (b) the issuing of additional parity lien revenue bonds which are hereby authorized, if and to the extent permitted by the order or indenture authorizing the prior obligations. (V.A.C.S. Art. 2628a—11, Sec. 6.)

§ 104.57. Form, Conditions, Details, Refinancing

Subject to the restrictions contained in this subchapter, the board is given complete discretion in fixing the form, conditions, and details of the bonds, pledge, and mortgage, and the bonds may be refunded or otherwise refinanced whenever the board deems that action to be appropriate or necessary. (V.A.C.S. Art. 2628a—11, Sec. 7.)

§ 104.58. Approval and Registration

Prior to delivery, all bonds authorized to be issued under this subchapter and the records relating to their issuance shall be submitted to the attorney general for examination; and if he finds that they have been issued in accordance with the constitution and this subchapter and that they will be binding special obligations of the board, he shall approve them. They shall then be registered by the comptroller of public accounts. After the approval and registration, the bonds shall be incontestable. (V.A.C.S. Art. 2628a—11, Sec. 8.)

§ 104.59. Cumulative Effect

This subchapter does not repeal any statute now in effect, but is cumulative of all other statutes pertaining to the university, and does not modify or abridge any powers held by the university to control or pledge its funds. However, to the extent that the provisions of this subchapter may be in conflict with the provisions of any other law, the provisions of this subchapter take precedence and prevail. (V.A.C.S. Art. 2628a—11, Sec. 10.)

(b) Any money received by virtue of this section shall be deposited in the state treasury to the credit of a special fund to be known as the Texas A & I University special mineral fund, to be used exclusively for the university and its branches and divisions. However, no money shall ever be expended from this fund except as authorized by the general appropriations act. (V.A.C.S. Art. 2628a—9, Sec. 1.)

§ 104.72. Majority of Board to Act

A majority of the board has power to act in all cases under this subchapter except as otherwise provided in this subchapter. (V.A.C.S. Art. 2628a—9, Sec. 14 (part).)

§ 104.73. Subdivision of Land; Titles

(a) The board may have the lands surveyed or subdivided into tracts, lots, or blocks which, in their judgment, will be most conducive and convenient to an advantageous sale or lease of oil, gas, sulphur, or other minerals in the lands; and the board may make maps and plats which it deems necessary to carry out the purposes of this subchapter.

(b) The board may obtain authentic abstracts of title to the lands from time to time as it deems necessary and may take necessary steps to perfect a merchantable title to the lands. (V.A.C.S. Art. 2628a—9, Sec. 2.)

§ 104.74. Sale of Leases; Advertisements; Payments

(a) Whenever in the opinion of the board there is a demand for the purchase of oil, gas, sulphur, or other mineral leases on any tract or part of any tract of land which will reasonably insure an advantageous sale, the board shall place the oil, gas, sulphur, or other mineral leases on the land on the market in a tract or tracts, or any part of a tract, which the board may designate.

(b) The board shall have advertised a brief description of the land from which the oil, gas, sulphur, or other minerals is proposed to be leased. The advertisement shall be made by inserting in two or more papers of general circulation in this state, and in addition, the board may, in its discretion, cause the advertisement to be placed in an oil and gas journal published in and out of the state. The board may also mail copies of the proposals to the county judge of the county where the lands are located and to other persons the board believes would be interested.

(c) The board may sell the lease or leases to the highest bidder at public auction at the university in Kingsville at any hour between 10 a. m. and 5 p. m.

(d) The highest bidder shall pay to the board on the day of the sale 25 percent of the bonus bid, and the balance of the bid shall be paid within 24 hours after the bidder is notified that the bid has been accepted. Payments shall be made in cash, certified check, or cashier's check, as the board directs. The failure of the bidder to pay the balance of the amount bid will forfeit to the board the 25 percent paid. (V.A.C.S. Art. 2628a—9, Sec. 3.)

§ 104.75. Separate Bids; Minimum Royalty; Delay Rental

(a) A separate bid shall be made for each tract or subdivision of a tract.

(b) No bid shall be accepted which offers a royalty of less than one-eighth of the gross production of oil, gas, sulphur, and other minerals in the land bid upon, and this minimum royalty may be increased at the discretion of the board.

(c) Every bid shall carry the obligation to pay an amount not less than \$1 per acre for delay in drilling or development. The amount shall be fixed by the board in advance of the advertisement. The amount fixed shall be paid every year for five years unless in the meantime production in paying quantities is had upon the land or the land is released by the lessee. (V.A.C.S. Art. 2628a—9, Sec. 4.)

§ 104.76. Rejection of Bids; Withdrawal of Land

The board may reject any and all bids and may withdraw any land advertised for lease. (V.A.C.S. Art. 2628a—9, Sec. 14 (part).)

§ 104.77. Acceptance; Conditions and Provisions of Lease

(a) If, in the opinion of the board, any one of the bidders has offered a reasonable and proper price for any tract, which is not less than the price set by the board, the lands advertised may be leased for oil, gas, sulphur, and other mineral purposes under the terms of this section and subject to regulations prescribed by the board which are not inconsistent with the provisions of this section. In the event no bid is accepted by the board at public auction, any subsequent procedure for the sale of the leases shall be in the manner prescribed in the preceding sections.

(b) No lease shall be made by the board which will permit the drilling or mining for oil, gas, sulphur, or other minerals within 300 feet of any building on the land without the consent of the board. In making any lease on any experimental station or farm, the lease shall provide that the operations for oil, gas, and other minerals shall not in any way inter-

fere with use of the land for university purposes and shall not cause the abandonment of the property or its use for experimental farm purposes. The lease shall also provide that the lessee operating the property shall drill and carry on his operations in such a way as not to cause the abandonment of the property for university purposes, and the leased property shall be subject to the use by the state for all university purposes, and the board shall continue to operate the university. (V.A.C.S. Art. 2628a—9, Sec. 5.)

§ 104.78. Acceptance and Filing of Bids; Yearly Payments; Termination of Lease

(a) If the board determines that a satisfactory bid has been received for the oil, gas, sulphur, or other mineral lands, it shall accept the bid and reject all others and shall file the accepted bid in the general land office.

(b) Whenever the royalties shall amount to as much as the yearly payments fixed by the board, the yearly payments may be discontinued.

(c) If before the expiration of five years oil, gas, sulphur, or other minerals have not been produced in paying quantities, the lease shall terminate unless extended as provided in Sections 104.80 and 104.81 of this code. (V.A.C.S. Art. 2628a—9, Sec. 6.)

§ 104.79. Award and Filing of Lease

If the board determines that a satisfactory bid has been received for the oil, gas, sulphur, or other minerals, it shall make an award to the bidder offering the highest price, and a lease shall be filed in the general land office. (V.A.C.S. Art. 2628a—9, Sec. 7(a).)

§ 104.80. Exploratory Term of Lease; Extension; other Provisions

(a) The exploratory term of a lease as determined by the board prior to the promulgation of the advertisement shall not exceed five years, and each lease shall provide that the lease will terminate at the expiration of its exploratory term unless by unanimous vote of the board the lease is extended for a period of three years.

(b) The lease may be extended if the board finds that there is a likelihood of oil, gas, sulphur, or other minerals being discovered by the lessees, and that the lessees have proceeded with diligence to protect the interest of the state. If oil, gas, sulphur, or other minerals are being produced in paying quantities from the premises, the lease shall continue in force and effect as long as the oil, gas, sulphur, or other minerals are being so produced. No extension may be made by the board until the last 30 days of the original term of the lease.

(c) The lease shall include additional provisions and regulations prescribed by the board to preserve the interest of the state, not inconsistent with the provisions of this subchapter. (V.A.C.S. Art. 2628a—9, Sec. 7(b).)

§ 104.81. Extension of Leases

When in the discretion of the board it is deemed for the best interest of the state to extend a lease issued by the board, the board may by unanimous vote extend the lease for a period not to exceed three years, on the condition that the lessee shall continue to pay yearly rental as provided in the lease and shall comply with any additional terms which the board may see fit and proper to demand. The board may extend the lease and execute an extension agreement. (V.A.C.S. Art. 2628a—9, Sec. 7(c).)

§ 104.82. Control of Drilling and Production

The drilling for and the production of oil, gas, and other minerals from the lands shall be governed and controlled by the Railroad Commission of

Texas and other regulatory bodies which govern and control other fields in this state. (V.A.C.S. Art. 2628a—9, Sec. 7(d).)

§ 104.83. Drilling Operations: Suspension of Rent; Continuance of Lease; Duty to Prevent Drainage

(a) If during the term of a lease issued under the provisions of this subchapter the lessee is engaged in actual drilling operations for the discovery of oil, gas, sulphur, or other minerals, no rentals shall be payable as to the tract on which the operations are being conducted as long as the operations are proceeding in good faith.

(b) In the event oil, gas, sulphur, or other minerals are discovered in paying quantities on any tract of land covered by a lease, then the lease as to that tract shall remain in force as long as oil, gas, sulphur, or other minerals are produced in paying quantities from the tract.

(c) In the event of the discovery of oil, gas, sulphur, or other minerals on any tract covered by a lease or on any land adjoining the tract, the lessee shall conduct such operations as may be necessary to prevent drainage from the tract covered by the lease to properly develop the same to the extent that a reasonably prudent man would do under the same and similar circumstances. (V.A.C.S. Art. 2628a—9, Sec. 8.)

§ 104.84. Title to Rights Purchased; Assignment; Relinquishment

(a) Title to all rights purchased may be held by the owners as long as the area produces oil, gas, sulphur, or other minerals in paying quantities.

(b) All rights purchased may be assigned. All assignments shall be filed in the general land office within 100 days from the date of the first acknowledgment thereof, accompanied by 10 cents per acre for each acre assigned. The assignment shall not be effective unless it is filed and the payment made.

(c) All rights to any whole tract or to any assigned portion thereof may be relinquished to the state at anytime by having an instrument of relinquishment recorded in the county or counties in which the area is situated. The instrument of relinquishment shall be filed with the chairman of the board, accompanied by \$1 for each area assigned. The assignment shall not relieve the owner of any past-due obligations accrued on the lease.

(d) The board shall authorize the laying of pipeline and telephone line and the opening of roads deemed reasonably necessary in carrying out the purposes of this subchapter. (V.A.C.S. Art. 2628a—9, Sec. 9.)

§ 104.85. Payment of Royalties; Records; Report of Receipts

(a) If oil or other minerals are developed on any of the lands leased by the board, the royalty as stipulated in the sale shall be paid to the general land office in Austin on or before the last day of each month for the preceding month during the life of the rights purchased. The royalty payments shall be set aside in the state treasury as specified in Section 104.71 of this code and used as provided in that section.

(b) The royalty paid to the general land office shall be accompanied by the sworn statement of the owner, manager, or other authorized agent showing the gross amount of oil, gas, sulphur, or other minerals produced and sold off the premises and the market value of the minerals, together with a copy of all daily gauges, or vats, tanks, gas meter readings, pipeline receipts, gas line receipts, and other checks and memoranda of the amounts produced and put into pipelines, vats, tanks, or pool and gas lines or gas storage. The books and accounts, receipts and discharges of all wells, tanks, vats, pools, meters, and pipelines, and all contracts and other records pertaining to the production, transportation, sale, and mar-

keting of the oil, gas, sulphur, or other minerals shall at all times be subject to inspection and examination by any member of the board or any duly authorized representative of the board.

(c) The commissioner of the general land office shall tender to the board on or before the 10th day of each month a report of all receipts from the lease or sale of oil, gas, sulphur, or other minerals turned into the special fund in the state treasury during the preceding month. (V. A.C.S. Art. 2628a—9, Sec. 10.)

§ 104.86. Protection from Drainage; Forfeiture of Rights

(a) In every case where the area in which oil, gas, sulphur, or other minerals sold is contiguous or adjacent to lands which are not lands belonging to and held by the university, the acceptance of the bid and the sale made thereby shall constitute an obligation of the owner to adequately protect the land leased from drainage from the adjacent lands to the extent that a reasonably prudent operator would do under the same and similar circumstances.

(b) In cases where the area in which the oil, gas, sulphur, or other minerals sold is contiguous to other lands belonging to and held by the university which have been leased or sold at a lesser royalty, the owner shall protect the land from drainage from the lands leased or sold for a lesser royalty.

(c) On failure to protect the land from drainage as provided in this section, the sale and all rights acquired may be forfeited by the board in the manner provided in Section 104.87 of this code for forfeitures. (V. A.C.S. Art. 2628a—9, Sec. 11.)

§ 104.87. Forfeiture and Other Remedies; Liens

(a) Leases granted under the provisions of this chapter are subject to forfeiture by the board by an order entered in the minutes of the board reciting the acts or omissions constituting a default and declaring a forfeiture.

(b) Any of the following acts or omissions constitutes a default:

(1) the failure or refusal by the owner of the rights acquired under this chapter to make a payment of a sum due, either as rental or royalty on production, within 30 days after the payment becomes due;

(2) the making of a false return or false report concerning production, royalty, drilling, or mining by the owner or his authorized agent;

(3) the failure or refusal of the owner or his agent to drill an offset well or wells in good faith, as required by the lease;

(4) the refusal of the owner or his agent to allow the proper authorities access to the records and other data pertaining to the operations authorized in this subchapter;

(5) the failure or refusal of the owner or his authorized agent to give correct information to the proper authorities, or to furnish the log of any well within 30 days after production is found in paying quantities; or

(6) the violation by the owner of any material term of the lease.

(c) The board may, if it so desires, have suit for forfeiture instituted through the attorney general.

(d) On proper showing by the forfeiting owner within 30 days after the declaration of forfeiture, the lease may be reinstated at the discretion of the board and upon terms prescribed by the board.

(e) In case of violation by the owner of the lease contract, the remedy of forfeiture shall not be the exclusive remedy, and the state may institute suit for damages or specific performance or both.

(f) The state shall have a first lien on oil, gas, sulphur, or other minerals produced in the leased area, and on all rigs, tanks, vats, pipelines, telephone lines, and machinery and appliances used in the production and

handling of oil, gas, sulphur, or other minerals produced, to secure the amount due from the owner of the lease. (V.A.C.S. Art. 2628a—9, Sec. 12.)

§ 104.88. Filing of Documents and Payment of Royalties, Fees, and Rentals

(a) All surveys, files, copies of sale and lease contracts, and other records pertaining to the sales and leases authorized in this subchapter shall be filed in the general land office and shall constitute archives.

(b) Payment of all royalties, lease fees, rentals for delay in drilling or mining, filing fees for assignments and relinquishments, and all other payments shall be made to the commissioner of the general land office at Austin. The commissioner shall transmit all payments received to the state treasurer for deposit to the credit of the Texas A & I University special mineral fund. (V.A.C.S. Art. 2628a—9, Sec. 13.)

§ 104.89. Forms, Regulations, Rules, and Contracts

The board shall adopt proper forms, regulations, rules, and contracts which, in its judgment, will protect the income from lands leased pursuant to this subchapter. (V.A.C.S. Art. 2628a—9, Sec. 14 (part).)

§ 109.61. Mineral Leases; Disposition of Proceeds

(a) The board may lease for oil, gas, sulphur, or other mineral development to the highest bidder at public auction all or part of the lands under the exclusive control of the board owned by the State of Texas and acquired for the use of Texas Tech University and its divisions.

(b) Any money received by virtue of this section shall be deposited in the state treasury to the credit of a special fund to be known as the Texas Tech University special mineral fund, to be used exclusively for the university and its branches and divisions. However, no money shall ever be expended from this fund except as authorized by the general appropriations act. (V.A.C.S. Art. 2628a—9, Sec. 1.)

§ 109.62. Majority of Board to Act

A majority of the board has power to act in all cases under this subchapter except as otherwise provided in this subchapter. (V.A.C.S. Art. 2628a—9, Sec. 14 (part).)

§ 109.63. Subdivision of Land; Titles

(a) The board may have the lands surveyed or subdivided into tracts, lots, or blocks which, in their judgment, will be most conducive and convenient to an advantageous sale or lease of oil, gas, sulphur, or other minerals in the lands; and the board may make maps and plats which it deems necessary to carry out the purposes of this subchapter.

(b) The board may obtain authentic abstracts of title to the lands from time to time as it deems necessary and may take necessary steps to perfect a merchantable title to the lands. (V.A.C.S. Art. 2628a—9, Sec. 2.)

§ 109.64. Sale of Leases; Advertisements; Payments

(a) Whenever in the opinion of the board there is a demand for the purchase of oil, gas, sulphur, or other mineral leases on any tract or part of any tract of land which will reasonably insure an advantageous sale, the board shall place the oil, gas, sulphur, or other mineral leases on the land on the market in a tract or tracts, or any part of a tract, which the board may designate.

(b) The board shall have advertised a brief description of the land from which the oil, gas, sulphur, or other minerals is proposed to be leased. The advertisement shall be made by inserting in two or more papers of general circulation in this state, and in addition, the board may, in its discretion, cause the advertisement to be placed in an oil and gas journal published in and out of the state. The board may also mail copies of the proposals to the county judge of the county where the lands are located and to other persons the board believes would be interested.

(c) The board may sell the lease or leases to the highest bidder at public auction at the university in Lubbock at any hour between 10 a. m. and 5 p. m.

(d) The highest bidder shall pay to the board on the day of the sale 25 percent of the bonus bid, and the balance of the bid shall be paid within 24 hours after the bidder is notified that the bid has been accepted. Payments shall be made in cash, certified check, or cashier's check, as the board directs. The failure of the bidder to pay the balance of the amount bid will forfeit to the board the 25 percent paid. (V.A.C.S. Art. 2628a—9, Sec. 3.)

§ 109.65. Separate Bids; Minimum Royalty; Delay Rental

(a) A separate bid shall be made for each tract or subdivision of a tract.

(b) No bid shall be accepted which offers a royalty of less than one-eighth of the gross production of oil, gas, sulphur, and other minerals in the land bid upon, and this minimum royalty may be increased at the discretion of the board.

(c) Every bid shall carry the obligation to pay an amount not less than \$1 per acre for delay in drilling or development. The amount shall be fixed by the board in advance of the advertisement. The amount fixed shall be paid every year for five years unless in the meantime production in paying quantities is had upon the land or the land is released by the lessee. (V.A.C.S. Art. 2628a—9, Sec. 4.)

§ 109.66. Rejection of Bids; Withdrawal of Land

The board may reject any and all bids and may withdraw any land advertised for lease. (V.A.C.S. Art. 2628a—9, Sec. 14 (part).)

§ 109.67. Acceptance; Conditions and Provisions of Lease

(a) If, in the opinion of the board, any one of the bidders has offered a reasonable and proper price for any tract, which is not less than the price set by the board, the lands advertised may be leased for oil, gas, sulphur, and other mineral purposes under the terms of this section and subject to regulations prescribed by the board which are not inconsistent with the provisions of this section. In the event no bid is accepted by the board at public auction, any subsequent procedure for the sale of the leases shall be in the manner prescribed in the preceding sections.

(b) No lease shall be made by the board which will permit the drilling or mining for oil, gas, sulphur, or other minerals within 300 feet of any building on the land without the consent of the board. In making any lease on any experimental station or farm, the lease shall provide that the operations for oil, gas, and other minerals shall not in any way interfere with use of the land for university purposes and shall not cause the abandonment of the property or its use for experimental farm purposes. The lease shall also provide that the lessee operating the property shall drill and carry on his operations in such a way as not to cause the abandonment of the property for university purposes, and the leased property shall be subject to the use by the state for all university purposes, and the board shall continue to operate the university. (V.A.C.S. Art. 2628a—9, Sec. 5.)

§ 109.68. Acceptance and Filing of Bids; Yearly Payments; Termination of Lease

(a) If the board determines that a satisfactory bid has been received for the oil, gas, sulphur, or other mineral lands, it shall accept the bid and reject all others and shall file the accepted bid in the general land office.

(b) Whenever the royalties shall amount to as much as the yearly payments fixed by the board, the yearly payments may be discontinued.

(c) If before the expiration of five years oil, gas, sulphur, or other minerals have not been produced in paying quantities, the lease shall terminate unless extended as provided in Sections 109.70 and 109.71 of this code. (V.A.C.S. Art. 2628a—9, Sec. 6.)

§ 109.69. Award and Filing of Lease

If the board determines that a satisfactory bid has been received for the oil, gas, sulphur, or other minerals, it shall make an award to the bidder offering the highest price, and a lease shall be filed in the general land office. (V.A.C.S. Art. 2628a—9, Sec. 7(a).)

§ 109.70. Exploratory Term of Lease; Extension; Other Provisions

(a) The exploratory term of a lease as determined by the board prior to the promulgation of the advertisement shall not exceed five years, and each lease shall provide that the lease will terminate at the expiration of its exploratory term unless by unanimous vote of the board the lease is extended for a period of three years.

(b) The lease may be extended if the board finds that there is a likelihood of oil, gas, sulphur, or other minerals being discovered by the lessees, and that the lessees have proceeded with diligence to protect the interest of the state. If oil, gas, sulphur, or other minerals are being produced in paying quantities from the premises, the lease shall continue in force and effect as long as the oil, gas, sulphur, or other minerals are being so produced. No extension may be made by the board until the last 30 days of the original term of the lease.

(c) The lease shall include additional provisions and regulations prescribed by the board to preserve the interest of the state, not inconsistent with the provisions of this subchapter. (V.A.C.S. Art. 2628a—9, Sec. 7(b).)

§ 109.71. Extension of Leases

When in the discretion of the board it is deemed for the best interest of the state to extend a lease issued by the board, the board may by unanimous vote extend the lease for a period not to exceed three years, on the condition that the lessee shall continue to pay yearly rental as provided in the lease and shall comply with any additional terms which the board may see fit and proper to demand. The board may extend the lease and execute an extension agreement. (V.A.C.S. Art. 2628a—9, Sec. 7(c).)

§ 109.72. Control of Drilling and Production

The drilling for and the production of oil, gas, and other minerals from the lands shall be governed and controlled by the Railroad Commission of Texas and other regulatory bodies which govern and control other fields in this state. (V.A.C.S. Art. 2628a—9, Sec. 7(d).)

§ 109.73. Drilling Operations: Suspension of Rent; Continuance of Lease; Duty to Prevent Drainage

(a) If during the term of a lease issued under the provisions of this subchapter the lessee is engaged in actual drilling operations for the discovery of oil, gas, sulphur, or other minerals, no rentals shall be payable as to the tract on which the operations are being conducted as long as the operations are proceeding in good faith.

(b) In the event oil, gas, sulphur, or other minerals are discovered in paying quantities on any tract of land covered by a lease, then the lease as to that tract shall remain in force as long as oil, gas, sulphur, or other minerals are produced in paying quantities from the tract.

(c) In the event of the discovery of oil, gas, sulphur, or other minerals on any tract covered by a lease or on any land adjoining the tract, the lessee shall conduct such operations as may be necessary to prevent drainage from the tract covered by the lease to properly develop the same to the extent that a reasonably prudent man would do under the same and similar circumstances. (V.A.C.S. Art. 2628a—9, Sec. 8.)

§ 109.74. Title to Rights Purchased; Assignment; Relinquishment

(a) Title to all rights purchased may be held by the owners as long as the area produces oil, gas, sulphur, or other minerals in paying quantities.

(b) All rights purchased may be assigned. All assignments shall be filed in the general land office within 100 days from the date of the first acknowledgment thereof, accompanied by 10 cents per acre for each acre assigned. The assignment shall not be effective unless it is filed and the payment made.

(c) All rights to any whole tract or to any assigned portion thereof may be relinquished to the state at any time by having an instrument of relinquishment recorded in the county or counties in which the area is situated. The instrument of relinquishment shall be filed with the chairman of the board, accompanied by \$1 for each area assigned. The assignment shall not relieve the owner of any past-due obligations accrued on the lease.

(d) The board shall authorize the laying of pipeline and telephone line and the opening of roads deemed reasonably necessary in carrying out the purposes of this subchapter. (V.A.C.S. Art. 2628a—9, Sec. 9.)

§ 109.75. Payment of Royalties; Records; Report of Receipts

(a) If oil or other minerals are developed on any of the lands leased by the board, the royalty as stipulated in the sale shall be paid to the general land office in Austin on or before the last day of each month for the preceding month during the life of the rights purchased. The royalty payments shall be set aside in the state treasury as specified in Section 109.61 of this code and used as provided in that section.

(b) The royalty paid to the general land office shall be accompanied by the sworn statement of the owner, manager, or other authorized agent showing the gross amount of oil, gas, sulphur, or other minerals produced and sold off the premises and the market value of the minerals, together with a copy of all daily gauges, or vats, tanks, gas meter readings, pipeline receipts, gas line receipts, and other checks and memoranda of the amounts produced and put into pipelines, vats, tanks, or pool and gas lines or gas storage. The books and accounts, receipts and discharges of all wells, tanks, vats, pools, meters, and pipelines, and all contracts and other records pertaining to the production, transportation, sale, and marketing of the oil, gas, sulphur, or other minerals shall at all times be subject to inspection and examination by any member of the board or any duly authorized representative of the board.

(c) The commissioner of the general land office shall tender to the board on or before the 10th day of each month a report of all receipts from the lease or sale of oil, gas, sulphur, or other minerals turned into the special fund in the state treasury during the preceding month. (V. A.C.S. Art. 2628a—9, Sec. 10.)

§ 109.76. Protection from Drainage; Forfeiture of Rights

(a) In every case where the area in which oil, gas, sulphur, or other minerals sold is contiguous or adjacent to lands which are not lands belonging to and held by the university, the acceptance of the bid and the sale made thereby shall constitute an obligation of the owner to adequately protect the land leased from drainage from the adjacent lands to

the extent that a reasonably prudent operator would do under the same and similar circumstances.

(b) In cases where the area in which the oil, gas, sulphur, or other minerals sold is contiguous to other lands belonging to and held by the university which have been leased or sold at a lesser royalty, the owner shall protect the land from drainage from the lands leased or sold for a lesser royalty.

(c) On failure to protect the land from drainage as provided in this section, the sale and all rights acquired may be forfeited by the board in the manner provided in Section 109.77 of this code for forfeitures. (V. A.C.S. Art. 2628a—9, Sec. 11.)

§ 109.77. Forfeiture and Other Remedies; Liens

(a) Leases granted under the provisions of this chapter are subject to forfeiture by the board by an order entered in the minutes of the board reciting the acts or omissions constituting a default and declaring a forfeiture.

(b) Any of the following acts or omissions constitutes a default:

(1) the failure or refusal by the owner of the rights acquired under this chapter to make a payment of a sum due, either as rental or royalty on production, within 30 days after the payment becomes due;

(2) the making of a false return or false report concerning production, royalty, drilling, or mining by the owner or his authorized agent;

(3) the failure or refusal of the owner or his agent to drill an offset well or wells in good faith, as required by the lease;

(4) the refusal of the owner or his agent to allow the proper authorities access to the records and other data pertaining to the operations authorized in this subchapter;

(5) the failure or refusal of the owner or his authorized agent to give correct information to the proper authorities, or to furnish the log of any well within 30 days after production is found in paying quantities; or

(6) the violation by the owner of any material term of the lease.

(b) The board may, if it so desires, have suit for forfeiture instituted through the attorney general.

(c) On proper showing by the forfeiting owner within 30 days after the declaration of forfeiture, the lease may be reinstated at the discretion of the board and upon terms prescribed by the board.

(d) In case of violation by the owner of the lease contract, the remedy of forfeiture shall not be the exclusive remedy, and the state may institute suit for damages or specific performance or both.

(e) The state shall have a first lien on oil, gas, sulphur, or other minerals produced in the leased area, and on all rigs, tanks, vats, pipelines, telephone lines, and machinery and appliances used in the production and handling of oil, gas, sulphur, or other minerals produced, to secure the amount due from the owner of the lease. (V.A.C.S. Art. 2628a—9, Sec. 12.)

§ 109.78. Filing of Documents and Payment of Royalties, Fees, and Rentals

(a) All surveys, files, copies of sale and lease contracts, and other records pertaining to the sales and leases authorized in this subchapter shall be filed in the general land office and shall constitute archives.

(b) Payment of all royalties, lease fees, rentals for delay in drilling or mining, filing fees for assignments and relinquishments, and all other payments shall be made to the commissioner of the general land office at

Austin. The commissioner shall transmit all payments received to the state treasurer for deposit to the credit of the Texas Tech University special mineral fund. (V.A.C.S. Art. 2628a—9, Sec. 13.)

§ 109.79. Forms, Regulations, Rules, and Contracts

The board shall adopt proper forms, regulations, rules, and contracts which, in its judgment, will protect the income from lands leased pursuant to this subchapter. (V.A.C.S. Art. 2628a—9, Sec. 14 (part).)

If the votes cast in the election show a majority in favor of annexation, the territory shall be declared annexed to the junior college district for junior college purposes only.

(f) The county school board or commissioners court shall cause a certified copy of the order to be transmitted to the governing board of the junior college district.

(g) At the next regular or special meeting of the governing board of the junior college district, the board shall, in the event of annexation by election, enter its order concurring in the order of the county school board or the commissioners court and shall enter an order redefining the boundary lines of the junior college district as enlarged and extended, and shall cause the order to be recorded on the minutes of the board of the junior college district. (Originally Sec. 51.065.)

§ 130.066. Adding Contiguous Territory to a Junior College District

(a) Any territory may be included within the boundaries of a junior college district, herein called "district," for junior college purposes, in the manner hereinafter specified; provided, the territory to be included is contiguous to the district in which such territory is to be included and has been laid out by the Coordinating Board, Texas College and University System, as a service area for assisting junior colleges.

(b) Upon presentation of a petition, signed by 50, or a majority, whichever number is smaller, of the qualified electors residing in the territory proposed for inclusion in a district, to the governing body of the district requesting that the boundaries of the district be changed to include the territory described in said petition, such governing body may, in its discretion, order an election to be held within the boundaries of the entire district as proposed to be changed on the question of whether the boundaries of the district shall be changed to include the proposed territory. The ballots for such election shall have printed thereon "For" and

"Against" boundary change. All qualified electors residing within the boundaries of the entire district as proposed to be changed shall be qualified to vote at such an election.

(c) The governing body of the district calling an election hereunder shall give notice of any such election by causing a substantial copy of its order calling the election to be posted in at least three public places within the boundaries of the district as proposed to be changed and published at least one time in a newspaper of general circulation within such boundaries. Provided, however, if any railroad right-of-way or other property is located within such territory, additional notice shall be given by certified mail, to the railroad company, at the address shown on the latest county tax roll. Such posting, such publication, and such certified mail notice shall be done at least 30 days prior to the date on which the election is to be held.

(d) Except as otherwise provided herein, all elections held hereunder shall be governed by the provisions relating to bond elections held by independent school districts. The order calling the election may provide that the entire district as proposed to be changed shall constitute one election precinct or such order may provide for more than one election precinct.

(e) The returns of any such election shall be canvassed by the governing body of the district and if a majority of persons residing in the district and voting at the election and a majority of the persons residing in the territory proposed to be annexed and voting at the election vote for the boundary change, the governing body of the district shall, in its order canvassing such returns, declare the boundaries of the district changed to include the territory described in the petition theretofore presented to them. Such order may also include the name by which the district as changed shall be known.

(f) At the next regular election held in the junior college district after territory is added to the district under this section, the qualified electors shall elect a new board of trustees. To continue in office, members of the present board of trustees must be reelected at this election.

(g) This section is cumulative of all other laws on the subject, but this section is wholly sufficient authority within itself for the inclusion of territory in the boundaries of a district and the performance of the other acts and procedures authorized hereby, without reference to any other laws or any restrictions or limitations contained therein, except as herein specifically provided in this section. However, the governing body of any district may use the provisions of any other laws, not in conflict with the provisions of this section, to the extent convenient or necessary to carry out any power or authority, express or implied, granted by this section. (V.A.C.S., Art. 2815h—1b.)

§ 130.067. Annexation of County-line Districts for Junior College Purposes

(a) Parts of county-line school districts may be annexed to adjacent county or joint-county junior college districts for junior college purposes only, as provided in this section.

(b) The county or joint-county junior college district as originally created and organized must have included in its boundaries a part of a county-line school district, and the part of the county-line school district to be annexed is not included in any other junior college district.

(c) The county or joint-county junior college districts to which this section is applicable are those where the junior college district as originally created and organized had the same boundaries as a county or as a group of contiguous counties and included all of the territory in a county or group of counties and did not include a part of any county without including the entire territory of such county in such junior college district.

(d) A "county-line school district" as used in this section is any type of public school district created or organized under general or special laws of Texas, which includes within its boundaries territory that extends into or is located in two or more counties of Texas. (Originally Sec. 51.066.)

§ 130.068. Annexation of Non-included Parts of Counties

(a) The non-included portion or portions of such county-line districts may be annexed to the county or joint-county junior college district by either of two methods as provided by Subsections (b) and (c) of this section.

(b) On the petition of 20 or a majority of the legally qualified voters residing in that part of a county-line district not a part of a junior college district as described in Section 130.067 of this code praying for the annexation for junior college purposes only, of that part of the county-line school district to the junior college district in which the remainder of the county-line district is a part, the county judge of that county which has jurisdiction of the county-line school district shall issue an order for an election to be held in the non-included portion of the county-line school district praying to be annexed to the county or joint-county junior college district. The county judge shall give notice of the date of the election by posting notices at three public places in the part of the county-line school district wherein the election is to be held. Only those legally qualified voters residing in that part of the county-line school district shall be permitted to vote. The commissioners court shall at its next meeting canvass the returns of the election, and if the votes cast in the election show a majority in favor of annexation, then the court shall declare that part of the county-line school district annexed to the junior college district for junior college purposes only. The court shall cause certified copies of the order to be transmitted to the commissioners court of every county in which the junior college district and the county-line school district have territory, and each court shall make orders concurring in the order and shall cause them to be entered on the minutes of each commissioners court.

(c) Where a petition, signed by a majority of the legally qualified voters residing in that part of a county-line school district praying for annexation for junior college purposes only, of that part of the county-line school district to the junior college district in which the remainder of the county-line district is a part, is presented to the county judge of that county which has jurisdiction of the county-line school district together with a certified copy of an order by the governing board of the junior college district approving the proposed annexation to the junior college district for junior college purposes only; instead of ordering an election to be held as provided in Subsection (b) of this section, the county judge shall certify the filing of the petition and order to the commissioners court. The court at its next meeting shall pass an order declaring such non-included part of the county-line school district annexed to the junior college district for junior college purposes only and cause certified copies of the order to be transmitted to the commissioners court of every county in which the junior college district and the county-line school district have territory. Each such court shall make orders concurring in the order and cause same to be entered on the minutes of each commissioners court. (Originally Sec. 51.067.)

§ 130.069. Disannexation of Overlapped Territory

(a) All junior college districts whose boundaries have or may hereafter become established so that they include territory which prior to such establishment lay, and shall continue to lie, within the boundaries of another junior college district shall have the power to disannex such overlapped territory.

(b) Upon certification by the governing board of such a junior college district to the county board of school trustees of the county in which its college is located that such an overlapping condition exists, the county board may by resolution disannex the overlapped territory from the district, describing such territory by metes and bounds. (Originally Sec. 51.068.)

§ 130.070. Annexation by District 100 Miles from Nearest Junior College

(a) As used in this section, the term "eligible junior college District" is defined as and means any junior college district which:

- (1) has boundaries located entirely within one county and contains an area which is less than 50 percent of the area of such county; and
- (2) accepts enrollment from students residing outside such junior college district but within such county; and
- (3) is located a distance of at least 100 miles from the nearest junior college educational facilities operated by another junior college district.

(b) The governing body of an eligible junior college district is authorized to change the boundaries of such eligible junior college district by annexing all the territory contained in the county in which it is located, in accordance with the following procedure:

(1) an application shall be filed by an eligible junior college district with the Coordinating Board, Texas College and University System, asking approval by said board of the proposed annexation of such territory;

(2) if such approval is given by order or resolution of the Coordinating Board, Texas College and University System, the governing body of the eligible junior college district is authorized to order an election to be held in and throughout the entire county in which it is located, being the area as a whole constituting the eligible junior college district and the territory proposed to be annexed, on the proposition of whether or not such territory shall be annexed. Such election shall be held in accordance with law, and the election order shall set forth the date of the election, the polling place or places, and any other matters deemed necessary or advisable by such governing body. Notice of said election shall be given by publishing a substantial copy of the election order one time at least 10 days prior to the election, in a newspaper having general circulation in the county in which the eligible junior college district is located;

(3) the governing body of such eligible junior college district shall receive and canvass the returns of said election, and if a majority of the electors voting at said election should vote in favor of such annexation, the governing body of the eligible junior college district is authorized to annex all the territory contained in the county in which it is located by passing an order to that effect, whereupon the boundaries of such junior college district shall be changed and extended to be identical with those of such county.

(c) The annexation of territory by an eligible junior college district pursuant to this section does not create a new junior college district, and the junior college district whose boundaries have been so changed and extended by annexation shall continue to exist as before, but over and with the changed boundaries. The governing board of an eligible junior college district, after annexation of territory pursuant to this section, shall continue to be the governing board of such junior college district; provided that such governing board shall order an election to be held on the first Saturday in April of the next even-numbered year, at which time a board of trustees consisting of seven members shall be elected from such junior college district in accordance with the procedures set

forth in Section 130.082, Texas Education Code, and thereafter such section shall be applicable to such junior college district. (H.B.No.743, 62nd Legis., Reg.Sess., 1971.)

Added by Acts 1971, 62nd Leg., p. 3345, ch. 1024, Art. 2, § 18, eff. Sept. 1, 1971.

SUBCHAPTER E. BOARDS OF TRUSTEES OF JUNIOR COLLEGE DISTRICTS

§ 130.081. Governing Board of Junior College of Independent School District

In each junior college district which is controlled and managed by, and under the jurisdiction of, the governing board of an independent school district or a city school district, such governing board shall be constituted and chosen in accordance with the laws of this state applicable to the governing board of such independent school district or city school district. (Originally Sec. 51.071.)

§ 130.082. Governing Board of Junior College of Other than Independent School District

(a) Except as provided by Section 130.081 or another section of this subchapter, the governing boards of all junior college districts shall be constituted and chosen as described in the provisions of this section.

(b) The official name of the governing board of the junior college district shall be the board of trustees.

(c) The official name of a junior college district shall be the "_____ Junior College District" and the board shall designate an appropriate and locally pertinent descriptive word or words to be filled in the aforesaid blank (and may change such designation when deemed advisable) by resolution or order; provided that no two districts shall have the same or substantially similar names. All resolutions or orders designating or changing names shall be filed immediately with the Coordinating Board, Texas College and University System, and the first name filed shall have priority, and the district shall be advised of any previous filing of any identical or substantially similar name. The name of any junior college district existing on the effective date of this code shall remain the same until and unless it is changed pursuant hereto, and no other district shall use the name of any such existing district.

(d) The number of members or trustees of the governing board shall be either seven or nine, in accordance with the laws applicable to the junior college district on the effective date of this code or on the date of the creation of a new district or a new board. Any seven-member board may be increased to nine, and the two additional members shall be appointed by resolution or order of the board for terms of office as prescribed in Subsection (e) of this section. Any vacancy occurring on the board through death, resignation, or otherwise, shall be filled by appointment by resolution or order of the board, and any person so appointed shall serve until the expiration of the term of office for which the vacating member of the board had been elected or appointed. Each member of the board shall be a resident, qualified voter of the district and shall take

the proper oath of office before taking up the duties thereof. Members of a board shall not receive any remuneration or emolument of office, but they shall be entitled to reimbursement for their actual expenses incurred in performing their duties, to the extent authorized and permitted by the board. The board shall elect one of its members as president of the board, and the president shall preside at meetings of said board and perform such other duties and functions as are prescribed by the board. The president of the board shall have a vote the same as the other members. The board shall elect a secretary of the board who may or may not be a member of the board, and who shall be the official custodian of the minutes, books, records, and seal of said board, and who shall perform such other duties and functions as are prescribed by the board. The board shall be authorized to elect any other officers as deemed necessary or advisable. Officers of the board shall be elected at the first regular meeting of the board following the regular election of members of the board in even-numbered years, or at any time thereafter in order to fill a vacancy. Said board shall be authorized to appoint or employ such agents, employees, and officials as deemed necessary or advisable to carry out any power, duty, or function of said board; and to employ a president, dean, or other administrative officer, and upon the president's recommendation to employ faculty and other employees of the junior college. Said board shall act and proceed by and through resolutions or orders adopted or passed by the board and the affirmative vote of a majority of all members of the board shall be required to adopt or pass a resolution or order, and the board shall adopt such rules, regulations, and bylaws as it deems advisable, not inconsistent with this section.

(e) The basic term of office of a member of the board shall be six years, and one-third of the members of the board shall be elected at large in the district at regular elections to be held on the first Saturday in April in each even-numbered year; provided that with a seven-member board two members shall be elected in two consecutive even-numbered years and three members shall be elected in the following even-numbered year. The members of each board in office at the effective date of this act, and all subsequent members of the board, shall remain in office until the expiration of the terms for which they were elected or appointed, and until their successors shall have been elected and qualified; provided that where any existing board has held its regular elections for members of the board in odd-numbered years prior to the effective date of this act, the board shall nevertheless hold its next regular election on the first Saturday in April of the next even-numbered year following the effective date of this act, and the term of office of each incumbent member of the board shall, in effect, be lengthened by one year so as to comply with the foregoing provisions of this act. Upon the creation of a new board, or in any other situation where necessary, the members of the board shall choose by lot the terms for which they shall serve, so as to comply with the foregoing provisions. If a board is increased from seven to nine members, one of the members shall be appointed to serve until the first election at which two members otherwise would have been elected, and the other shall be appointed to serve until the second election at which two members otherwise would have been elected, and three members shall be elected for six-year terms at each election.

(f) Members of a board shall be elected at large from each junior college district at regular elections to be called and held by the board for such purpose, at the expense of the district, on the first Saturday in April in each even-numbered year. Said elections shall be held in accordance with the Texas Election Code except as hereinafter provided, and all resident, qualified electors of the district shall be permitted to vote. Each such election shall be called by resolution or order of the board, and notice of each such election shall be given by publishing an appropriate notice, in a newspaper of general circulation in the district,

at least 10 days prior to the date of the election, setting forth the date of the election, the polling place or places, the numbers of the positions to be filled, the candidates for each position and any other matters deemed necessary or advisable.

(g) The board shall designate a number for the position held by each member of the board, from one upward in consecutive numerical order in such manner that the lowest numbers shall be assigned to the members whose terms of office expire in the shortest length of time, provided that any such position number designations on existing boards under existing law at the effective date of this act shall remain in effect. At each election candidates shall be voted upon and be elected separately for each position on the board, and the name of each candidate shall be placed on the official ballot according to the number of the position for which he or she is running. A candidate receiving a majority of the votes cast for all candidates for a position shall be declared elected. If no candidate receives such a majority, then the two candidates receiving the highest number of votes shall run against each other for the position. The run-off election for all positions shall be held on the last Saturday in April and shall be ordered, notice thereof given, and held, as provided herein for regular elections. Any resident, qualified elector of the district may have his or her name placed as a candidate on the official ballot for any position to be filled at each regular election by filing with the secretary of the board a written application therefor signed by the applicant, not less than 30 nor more than 60 days prior to the date of the election. Such application must state the number of the position for which he or she is a candidate, or the name of the incumbent member of the board holding the position for which he or she desires to run. The location on the ballot of the names of candidates for each position shall be chosen by lot by the board. A candidate shall be eligible to run for only one position at each election.

(h) Notwithstanding anything in this code to the contrary, the provisions of all or any part of the laws of this state in effect immediately prior to the effective date of this act and relating to the name of any junior college district or the name of its governing board, or to the number of members of its governing board, or the procedures and times of electing or choosing said members, shall remain in effect under the following conditions. If, at any time before the effective date of this act (but not thereafter), the governing board of any junior college district shall specify by resolution or order the particular provisions of the aforesaid laws applicable to it which it desires to remain in effect, then such particular provisions shall continue to apply to said board and its district; provided that at any time thereafter the governing board may make this section in its entirety applicable to it and its district by appropriate resolution or order, and thereby permanently cancel the effect of the aforesaid particular provisions of other laws. All resolutions and orders permitted by this section shall be filed immediately with the Coordinating Board, Texas College and University System. (Originally Sec. 51.072.)

§ 130.083. Governing Board in Enlarged Junior College District

(a) From and after May 22, 1969, those junior college districts which were on May 22, 1969, operating under Chapter 15, Acts of the 58th Legislature, 1963 (Article 2815o—1b, Vernon's Texas Civil Statutes), and to which one, or more, school districts has been annexed for junior college purposes only, may, by a majority vote of the board of regents of the junior college district, choose to operate and be governed by a board of regents.

(b) Each school district which has been annexed to the junior college district for junior colleges purposes only shall be represented by at least

one member of the board of regents. If the assessed tax rolls exceed \$67,500,000, the school district shall be represented by one member of the board of regents for each \$67,500,000 of assessed value, or a major fraction thereof, on the junior college tax roll, located within the school district. The original junior college district shall be represented on the board of regents by a number of regents arrived at according to the same formula.

(c) The total number of members of the board of regents of the junior college district shall never exceed 14. When the valuation of the enlarged district increases to the point that the number of regents exceeds 14 under the formula described in Subsection (b) of this section then the board of regents of the junior college district shall set a formula, based on proportional tax values, of representation, which will produce a total of 14 members of the board of regents.

(d) The terms of office of the regents authorized by this act shall be six years. Those regents serving as regents on May 22, 1969, shall continue in office for the remainder of their respective terms and then until such time as their successors shall have been elected and qualified, and thereafter in each even-numbered year three regents shall be elected from the area originally forming the junior college district to succeed those regents whose terms are expiring, but if the number of regents becomes more or less than nine, the formula set out in Subsection (e) of this section shall be followed. All new regents added to the board of regents under the provisions of this section shall be appointed by the board of regents which orders the enlargement of the membership of such board, and shall serve until election specified in Subsection (e) of this section. All vacancies on the board of regents shall be filled at once for the unexpired term only by appointments made by the remaining members of such board.

(e) Where additional regent positions are provided under the terms of this section, the board of regents at the time of such authorization shall designate by resolution duly recorded in the minutes of such board the term to be served by each such additional regent, provided that the first regent authorized and appointed shall serve only until the next regular regent election, the second such regent shall serve until the regent election two years after the next regular regent election, and the third regent shall serve until the regent election four years after the next regular regent election, with additional regents which may be authorized to follow the same rotation of terms until all terms of additional regents provided under the terms of this section have been fixed to expire at the next regular regent election, or at the regent election two years after the next regular regent election, or at the regent election four years after the next regular election. Additional regents appointed to such terms and until such times as their successors shall have been elected and qualified, and thereafter the terms of such regents shall be for six years.

(f) Regent elections in all parts of the districts affected by the provisions of this section shall be held at the times and in the manner now provided for public junior colleges by general law. The qualified voters residing in the school district represented shall be entitled to vote in such elections. Each regent to be elected shall be a resident of the school district he is to represent and each regent to represent the original college district shall be a resident of the original college district.

(g) The provisions of this section shall be cumulative of existing laws governing elections of regents in public junior college districts. (V.A.C. S., Art. 2815c—1c.)

§ 130.084. Powers and Duties

The board of trustees of junior college districts shall be governed in the establishment, management and control of the junior college by the general law governing the establishment, management and control of independent school districts insofar as the general law is applicable. (Originally Sec. 51.073.)

§ 130.085. Tuition Exemption

(a) The board of trustees of any public junior college may exempt from payment of tuition all students who are residents of the junior college district and who are enrolled for 12 or more semester credit hours, provided that this action will allow the college to participate in and benefit from funds available as provided by Sections 1-7, Title I, 64 Stat. 1100, as amended, 20 U.S.C. Secs. 236-241—1.¹

(b) This action by the board of trustees does not affect their authority under Section 130.123 of this code, nor does this section in any way supersede that section. This action of the board does not affect the right of the college to a proportionate share of state appropriations under Section 130.003 of this code. (Sec. 6, H.B.No.43, 62nd Legis., Reg.Sess., 1971.)

§ 130.086. Branch Campuses

(a) The board of trustees of a junior college district may establish and operate branch campuses, centers, or extension facilities, without regard to the geographical bounds of the junior college district, provided that each branch campus, center, or extension facility is approved by the appropriate state educational agency.

(b) The branch campuses, centers, or extension facilities shall be within the role and scope of the junior college as determined by the appropriate state educational agency.

(c) The board of trustees of a junior college district may accept or acquire by purchase or rent land and facilities in the name of the junior college district without regard to the geographical bounds of the junior college district.

(d) Before any course may be offered by a junior college within the district of an operating public junior college it must be established that the public junior college is not capable of or is unable to offer the course. After the need is established and the course is not locally available, then the junior college may offer the course when approval is granted by the appropriate state educational agency.

(e) The board of trustees of a junior college district may enter cooperative agreement with independent, common, or county school districts, state or federal agencies as may be required to perform the services as outlined in this section.

(f) Out-of-district branch campuses, centers, or extension facilities of junior colleges existing prior to September 1, 1971, shall be reviewed by the appropriate state educational agency to determine their feasibility and desirability with respect to the junior college and the population of the geographical area served by the branch campus, center, or extension facility. SUBCHAPTER F. REGIONAL COLLEGE DISTRICTS

§ 130.091. Creation and Regulation of Regional College Districts

(a) A regional college district may be established according to the method outlined herein by a county which contains a public junior college district, or by a combination of counties if one of such counties contains a public junior college district, and if the county seat of said county, or if the proposed regional college district is composed of a combination of counties, the respective county seats of such counties, is located at least 90 miles by the then direct regularly traveled road or highway from the county seat of any county containing a state-supported senior college or university, provided that the assessed property valuation of the proposed regional college district, for state and county purposes according to the most recent tax rolls is at least \$52,000,000 and that the scholastic population of such proposed district is not less than 20,000 scholastics according to the most recent scholastic census thereof, as approved by the appropriate state authority, and provided that the population of such county containing a public junior college district is not less than 80,000 according to the last preceding federal census.

(b) Any college created under the authority of this subchapter shall be subject to all provisions of Chapter 61 of this code, and it is further provided that the Coordinating Board, Texas College and University System, shall determine the date upon which any college of any grade or level created hereunder shall begin courses of instruction, such date to be determined only if a feasibility study by the Coordinating Board, Texas College and University System, shall establish a need for any such college. (Originally Sec. 51.081.)

§ 130.092. Petition for Election

Whenever it is proposed to establish a regional college district, a petition signed by not fewer than 100 of the qualified property taxpaying voters of said public junior college district and not fewer than 100 of the qualified property tax paying voters of each of the counties in the territory of such proposed regional college district shall be addressed and presented to the commissioners court of the county or the commissioners courts of the respective counties of such proposed regional college district, praying that an election shall be held upon a stated date in such county or counties which date shall be not less than 30 nor more than 60 days after the date of such petitions for the purpose of determining whether or not such a regional college district shall be formed and such regional college shall be established and whether or not such junior college district shall be merged into said regional college district and whether or not such regional college district shall assume the bonded indebtedness of such junior college district and whether or not such proposed district shall have the power to levy taxes for the payment of such bonded indebtedness and for the maintenance and operation of said regional college and for providing buildings and facilities therefor, all of which questions shall be submitted as parts of one proposition to be printed on the ballots at such election. The signatures for such petition shall be segregated according to the county in which the signers reside and the signatures of the petitioners residing in such public junior col-

lege district shall also be segregated, under appropriate headings indicating the county or district of residence. Such petition may be in two or more counterparts according to the number of counties proposed to be included in such regional college district and respective counterparts of said petition may be filed with and presented to the commissioners courts of said respective counties. The name of such proposed regional college district shall be set forth in said petition and shall include therein the words "regional college district." (Originally Sec. 51.082.)

§ 130.093. Election

It shall be the duty of the said commissioners court or courts of said county or respective counties, promptly after receiving said petition or petitions to order an election to be held throughout their respective county or counties on the date fixed in said petition, and said order shall designate the polling places for said election in said county or counties and appoint officers thereof and provide the supplies therefor and shall set forth the name of such proposed district. The election precincts for said election shall conform as nearly as practicable to the regular election precincts of said county or respective counties, but the election precincts within the boundaries of such public junior college district shall not embrace any territory outside of said public junior college district. In the authorization of any such bonds, each board may provide for the subsequent issuance of additional parity bonds, or subordinate lien bonds, or other types of bonds, under such terms or conditions as may be set forth in the resolution or order authorizing the issuance of said bonds, all within the discretion of the board. Said bonds, and any interest coupons appertaining thereto, shall be negotiable instruments (provided that such bonds may be issued registrable as to principal alone or as to both principal and interest), and shall be executed, and may be made redeemable prior to maturity, and may be issued in such form, denominations, and manner, and under such terms, conditions, and details, and may be sold in such manner, at such price, and under such terms, and said bonds shall bear interest at such rate or rates, as shall be determined and provided by the board in the resolution or order, authorizing the issuance of said bonds. If so permitted in the bond resolution, and required part of the proceeds from the sale of the bonds may be used for paying interest thereon during the period of the construction of any facilities to be provided through the issuance of said bonds, and for the payment of operation and maintenance expenses of said facilities to the extent, and for the period of time, specified in said bond resolution, and also for the creation of reserves for the payment of the principal of and interest on the bonds; and such moneys be invested, until needed, to the extent, and in the manner provided, in said bond resolution or order.

(c) Each board shall be authorized to fix and collect rentals, rates, charges, and/or fees from students and others for the occupancy, use, and/or availability of all or any of its property, buildings, structures, activities, operations, or facilities, of any nature, in such amounts and in such manner as may be determined by such board.

(d) Each board shall be authorized to pledge all or any part of any of its revenues from any of the aforesaid rentals, rates, charges, and/or fees to the payment of any bonds issued hereunder, including the payment of principal, interest, and any other amounts required or permitted in connection with said bonds. When any of the revenues from any such rentals, rates, charges, and/or fees are pledged to the payment of bonds, they shall be fixed and collected in such amounts as will be at least sufficient, together with any other pledged resources, to provide for all payments of principal, interest, and any other amounts required in connection with said bonds, and, to the extent required by the resolution or order authorizing the issuance of said bonds, to provide for the payment of operation, maintenance, and other expenses. Each board shall be authorized to establish and enforce such parietal rules for students and others, and to enter into such agreements regarding occupancy, use, and availability, and the amounts and collection of pledged revenues, fees, or other resources as will assure making all said required payments. Fees for the use or availability of all or any property, buildings, structures, activities,

operations, or facilities, of any nature, may be pledged to the payment of said bonds, and shall be fixed and collected from all or any designated part of the students enrolled in the institution or institutions, in such amounts and in such manner as shall be determined and provided by the board in the resolution or order authorizing the issuance of the bonds, and said fees may be collected in the full amounts required or permitted herein, without regard to actual use or availability, commencing at any time designated by the board. Said fees may be fixed and collected for the use or availability of any specifically described property, buildings, structures, activities, operations, or facilities, of any nature; or said fees may be fixed and collected as general fees for the general use or availability of the institution or institutions. Such specific and/or general fees may be fixed and collected and pledged to the payment of any issue or series of bonds issued hereunder, in the full amounts required or permitted herein, in addition to, and regardless of the existence of, any other specific or general fees at the institution or institutions; provided that each board may restrict its power to pledge such additional specific or general fees in any manner that may be provided in the resolution or order authorizing the issuance of any bonds issued hereunder, and provided that no such additional specific fees shall be pledged if prohibited by any resolution or order which authorized the issuance of any then outstanding bonds issued pursuant to any Texas statute.

(e) In addition to the revenues, fees, and other resources authorized to be pledged to the payment of bonds issued hereunder, each board further shall be authorized to pledge irrevocably to such payment, out of the tuition charges required or permitted by law to be imposed at its institution or institutions, an amount not exceeding \$15 from each enrolled student for each regular semester and \$7.50 from each enrolled student for each summer term, and each board also shall be authorized to pledge to such payment all or any part of any grant, donation, or income received or to be received from the United States government or any other public or private source, whether pursuant to an agreement or otherwise.

(f) Any revenue bonds issued by any such board under this act, and any revenue bonds or notes issued by any such board under any other Texas statute and payable from tuition fees and charges and/or any part of the use fees from or revenues of any property, buildings, structures, activities, operations, or facilities at the institution or institutions, may be refunded or otherwise refinanced by such governing board, and in such case all pertinent and appropriate provisions of this section shall be fully applicable to such refunding bonds. In refunding or otherwise refinancing any such bonds or notes the governing board may, in the same authorizing proceedings, refund or refinance bonds issued pursuant to this section and bonds or notes issued pursuant to any other such Texas statute and combine all said refunding bonds and any other additional new bonds to be issued pursuant to this section into one or more issues or series of bonds, and may provide for the subsequent issuance of additional parity bonds, or subordinate lien bonds, or other type of bonds. All refunding bonds shall be issued and delivered under such terms and conditions as may be set forth in the authorizing proceedings.

(g) All bonds permitted to be issued under this section, and the appropriate proceedings authorizing their issuance, shall be submitted to the Attorney General of the State of Texas for examination. If he finds that such bonds have been authorized in accordance with law he shall approve them, and thereupon they shall be registered by the Comptroller of Public Accounts of the State of Texas; and after such approval and registration such bonds shall be incontestable in any court, or other forum, for any reason, and shall be valid and binding obligations in accordance with their terms for all purposes.

(h) All bonds issued under this section shall be legal and authorized investments for all banks, trust companies, building and loan associa-

tions, savings and loan associations, small business investment corporations, insurance companies of all kinds and types, fiduciaries, trustees, and guardians, and for all interest and sinking funds and other public funds of the State of Texas and all agencies, subdivisions, and instrumentalities thereof, including all counties, cities, towns, villages, school districts, and all other kinds and types of districts, public agencies, and bodies politic. Said bonds also shall be eligible and lawful security for all deposits of public funds of the State of Texas and all agencies, subdivisions, and instrumentalities thereof, including all counties, cities, towns, villages, school districts, and all other kinds and types of districts, public agencies, and bodies politic, to the extent of the market value of said bonds, when accompanied by any unmatured interest coupons appurtenant thereto.

(i) All revenue bonds heretofore approved by the Attorney General of the State of Texas and registered by the Comptroller of Public Accounts of the State of Texas which were issued, sold, and delivered by any board, and which are payable from or secured by a pledge of any revenues, use fees, tuition, or other resources of such board, are hereby validated in all respects, together with all proceedings authorizing the issuance thereof, and said bonds and proceedings shall be valid as though they had been duly and legally issued and authorized originally. SUBCHAPTER H. TRANSFER OF ASSETS ON DISSOLUTION OF DISTRICTS

§ 130.131. Dissolution and Transfer of Property Upon Creation of Senior College

(a) Whenever the legislature shall create within the boundary of any union junior college district a state-supported senior college of the first rank offering at least four years of college work, and whenever such union junior college district has been dissolved in the manner provided for in Sections 19.361-19.364 of this code, which said method of dissolution of such district is hereby authorized, the trustees of such union junior college district shall transfer the corporeal properties and facilities of such union junior college district to such state-supported senior college, and such trustees, after such dissolution and transfer of properties of such district, shall not further maintain a junior college and shall function only for the purpose of carrying out the provisions of this section and shall have no authority to create any additional indebtedness against such district, and when the bonded indebtedness of such district has been fully paid, such union junior college district shall cease to exist; provided that in the order calling such election and in the notice thereof, the authorities calling such election shall designate the date when such district shall be dissolved and such transfer shall be made, which date shall be within two years from the date of the election, and on or prior to said date.

(b) When any union junior college district has been dissolved and its properties transferred as provided in Subsection (a) of this section, or in any other lawful manner, having at the time of such dissolution outstanding bonds or other indebtedness enforceable either at law or in equity, then the county commissioners court, for the purpose of paying such bonds, or other indebtedness, shall have power and be authorized to annually levy and collect ad valorem taxes sufficient only to pay the interest and create a sinking fund to retire the bonded indebtedness of such district, and the expense of collecting such taxes and paying such bonded

indebtedness, and for no other purpose; provided such tax shall not exceed the rate voted by such district for junior college purposes; said county commissioners court shall have power to bring and defend litigation in the name of said union junior college district. (Originally Sec. 51.201.)

§ 130.132. Abolition of Junior College Districts

(a) The term "applicable district," as used in this section, shall mean any junior college district which has conveyed all, or substantially all, of its property and assets to a state-supported senior college or university located in such junior college district, and which junior college district has no outstanding bonded indebtedness.

(b) All applicable districts and their governing boards are hereby abolished and shall cease to exist and function; provided, however, that all delinquent and uncollected taxes in said applicable districts shall not hereby be discharged, but shall be and remain fully due, payable and collectible. The persons formerly acting as the governing board and officers of each applicable district shall turn over all remaining property and assets of said applicable district, including all tax collections on hand, directly to the state-supported senior college or university located therein. The governing board of the independent school district in which any such state-supported senior college or university is located shall, for and on behalf of any such applicable district, cause, through its tax collector and other officers, all delinquent and uncollected taxes of any such applicable district to be collected in accordance with the general laws applicable to independent school districts. All of said taxes, as collected, shall be turned over to any such state-supported senior college or university. All taxes turned over to any such state-supported senior college or university in accordance with this section may be used by it for any lawful purpose. (Originally Sec. 51.202.)

§ 130.133. Transfer of Properties of County Junior College Districts after Creation of Senior College

(a) Whenever the legislature has created or shall create within the boundaries of any county junior college district a state-supported senior college offering at least four years college work upon the condition that the board of trustees of said county junior college district shall convey all of the assets, real, personal, tangible, and intangible held in its name as of the date fixed for the establishment of said senior college and containing the other provision that said properties shall be conveyed to the governing body of the senior college free and clear of any indebtedness or indebtednesses, encumbrance or encumbrances of any kind or character and of whatsoever nature, the board of trustees of said county junior college district is hereby fully authorized and empowered to convey to the governing body of the senior college all of such assets, real, personal, tangible, and intangible held by it on the date fixed for such conveyance in the act creating such senior college, except moneys on hand for the payment of outstanding obligations of the district.

(b) From and after the conveyance of the properties of said county junior college district to the governing body of said senior college, the county junior college district shall not further maintain a junior college and shall function only for the purpose of carrying out the provisions of this section.

(c) Where such county junior college district had or has outstanding tax obligations in the nature of bonds or other indebtedness, the board of trustees of said county junior college district shall continue to make the necessary tax levies annually for the purpose of paying necessary administrative expenses of the board of trustees and paying off and discharg-

ing such bonded or other indebtedness, both principal and interest, until all of the same has been fully paid off and discharged.

(d) Where said county junior college district has outstanding any bonds payable from the revenues from any building or buildings which revenue bonds constitute an encumbrance upon the income of such building or buildings, the board of trustees of the county junior college district is hereby authorized to issue bonds of said county junior college district payable from ad valorem taxes of said district and to sell such tax-supported bonds and pay off such revenue bonds or to exchange such tax-supported bonds for said revenue bonds. No such tax-supported bonds shall be issued, however, until authorized at an election held for that purpose and at which election a majority voting thereon shall have voted in favor of the issuance of said bonds.

(e) The board of trustees of the county junior college district is hereby authorized to perform all acts necessary toward the final discharge of all the indebtedness of said county junior college district and to perform all necessary administrative acts in connection therewith. Said board of trustees is specifically authorized to continue to levy and collect sufficient taxes annually within the limits prescribed by law and authorized by the required election for the purpose of discharging the principal and interest on all outstanding bonded and other indebtedness, including the repayment of any temporary loans which said board may find necessary to obtain in order to pay all current operating expenses of the junior college up to the date of the conveyance of the properties until all such obligations have been fully discharged, and such temporary loans are hereby authorized, and such temporary loans heretofore obtained are hereby ratified and validated. Section 160.01. State Policy

It is declared to be the policy of the State of Texas to promote the development and maintenance of regional educational services and facilities in the Southern States in the professional, technological, scientific, literary, and other fields so as to provide greater educational advantages for the citizens of the State of Texas and the citizens of the States in the Southern Region. This policy can best be accomplished under the plan embodied in the regional compact entered into by the State of Texas and thirteen other States February 8, 1948, through their respective Governors.

§ 160.02. Text of Compact

The regional education compact, as amended, reads as follows:

THE REGIONAL COMPACT

(As amended)

WHEREAS, The States who are parties hereto have during the past several years, conducted careful investigation looking toward the establishment and maintenance of jointly owned and operated regional educational institutions in the Southern States in the professional, technological, scientific, literary and other fields, so as to provide greater educational advantages and facilities for the citizens of the several States who reside within such region; and

WHEREAS, Meharry Medical College of Nashville, Tennessee, has proposed that its lands, buildings, equipment, and the net income from its endowment be turned over to the Southern States, or to an agency acting in their behalf, to be operated as a regional institution for medical, dental and nursing education upon terms and conditions to be hereafter agreed upon between the Southern States and Meharry Medical College; which proposal, because of the present financial condition of the institution has been approved by the said States who are parties hereto; and

WHEREAS, The said States desire to enter into a compact with each other providing for the planning and establishment of regional educational facilities; now,

THEREFORE, In consideration of the mutual agreements, covenants and obligations assumed by the respective States who are parties hereto (hereinafter referred to as 'States'), the said several States do hereby form a geographical district or region consisting of the areas lying within the boundaries of the contracting States, which, for the purpose of

this Compact, shall constitute an area for regional education supported by public funds derived from taxation by the constituent States and derived from other sources for the establishment, acquisition, operation and maintenance of regional educational schools and institutions, for the benefit of citizens of the respective States residing within the region so established, as may be determined from time to time in accordance with the terms and provisions of this Compact.

The States do further hereby establish and create a joint agency which shall be known as the Board of Control for Southern Regional Education (hereinafter referred to as the 'Board'), the members of which Board shall consist of the Governor of each State, ex officio, and four additional citizens of each State to be appointed by the Governor thereof, at least one of whom shall be selected from the field of education and at least one of whom shall be a member of the Legislature of that State. The Governor shall continue as a member of the Board during his tenure of office as Governor of the State but the members of the Board appointed by the Governor shall hold office for a period of four (4) years except that in the original appointments one Board member so appointed by the Governor shall be designated at the time of his appointment to serve an initial term of two (2) years, one Board member to serve an initial term of three (3) years, and the remaining Board member to serve the full term of four (4) years, but thereafter the successor of each appointed Board member shall serve the full term of four (4) years. Vacancies on the Board caused by death, resignation, refusal or inability to serve, shall be filled by appointment by the Governor for the unexpired portion of the term. The officers of the Board shall be a Chairman, a Vice-Chairman, a Secretary, a Treasurer, and such additional officers as may be created by the Board from time to time. The Board shall meet annually and officers shall be elected to hold office until the next annual meeting. The Board shall have the right to formulate and establish by-laws not inconsistent with the provisions of this Compact to govern its own actions in the performance of the duties delegated to it, including the right to create and appoint an Executive Committee and a Finance Committee with such powers and authority as the Board may delegate to them from time to time. The Board may, within its discretion, elect as its Chairman a person who is not a member of the Board, provided such person resides within a signatory State; and upon such election such person shall become a member of the Board with all the rights and privileges of such membership.

It shall be the duty of the Board to submit plans and recommendations to the States from time to time for their approval and adoption by appropriate legislative action for the development, establishment, acquisition, operation and maintenance of educational schools and institutions within the geographical limits of the regional area of the States, of such character and type and for such educational purposes, professional, technological, scientific, literary, or otherwise, as they may deem and determine to be proper, necessary or advisable. Title to all such educational institutions when so established by appropriate legislative actions of the States, and to all properties and facilities used in connection therewith, shall be vested in said Board as the agency of and for the use and benefit of the said States and citizens thereof; and all such educational institutions shall be operated, maintained and financed in the manner herein set out, subject to any provisions or limitations which may be contained in the legislative Acts of the State authorizing the creation, establishment and operation of such educational institutions.

In addition to the power and authority heretofore granted, the Board shall have the power to enter into such agreements or arrangements with any of the States and with educational institutions or agencies, as may be required in the judgment of the Board, to provide adequate services

and facilities for the graduate, professional, and technical education for the benefit of the citizens of the respective States residing within the region, and such additional and general power and authority as may be vested in the Board from time to time by legislative enactment of the said States.

Any two (2) or more States who are parties of this Compact shall have the right to enter into supplemental agreements providing for the establishment, financing and operation of regional educational institutions for the benefit of citizens residing within an area which constitutes a portion of the general region herein created, such institutions to be financed exclusively by such States and to be controlled exclusively by the members of the Board representing such States, provided such agreement is submitted to and approved by the Board prior to the establishment of such institutions.

Each State agrees that, when authorized by the Legislature, it will from time to time make available and pay over to said Board such funds as may be required for the establishment, acquisition, operation and maintenance of such regional educational institutions as may be authorized by the States under the terms of this Compact, the contribution of each State at all times to be in the proportion that its population bears to the total combined population of the States who are parties hereto as shown from time to time by the most recent official published report of the Bureau of the Census of the United States of America; or upon such other basis as may be agreed upon.

This Compact shall not take effect or be binding upon any State unless and until it shall be approved by proper legislative action of as many as six (6) or more of the States whose Governors have subscribed hereto within a period of eighteen (18) months from the date hereof. When and if six (6) or more States shall have given legislative approval to this Compact within said eighteen (18) months period, it shall be and become binding upon such six (6) or more States sixty (60) days after the date of legislative approval by the sixth State, and the Governors of such six (6) or more States shall forthwith name the members of the Board from their States as hereinabove set out, and the Board shall then meet on call of the Governor of any State approving this Compact, at which time the Board shall elect officers, adopt by-laws, appoint committees and otherwise fully organize. Other States whose names are subscribed hereto shall thereafter become parties hereto upon approval of this Compact by legislative action within two (2) years from the date hereof, upon such conditions as may be agreed upon at the time. Provided, however, that with respect to any State whose constitution may require amendment in order to permit legislative approval of the Compact, such State or States shall become parties hereto upon approval of this Compact by legislative action within seven (7) years from the date hereof, upon such conditions as may be agreed upon at the time.

After becoming effective this Compact shall thereafter continue without limitation of time; provided, however, that it may be terminated at any time by unanimous action of the States; and provided further that any State may withdraw from this Compact if such withdrawal is approved by its Legislature, such withdrawal to become effective two (2) years after written notice thereof to the Board accompanied by a certified copy of the requisite legislative action, but such withdrawal shall not relieve the withdrawing State from its obligations hereunder accruing up to the effective date of such withdrawal. Any State so withdrawing shall ipso facto cease to have any claim to or ownership of any of the property held or vested in the Board or of any of the funds of the Board held under the terms of this Compact.

If any State shall at any time become in default in the performance of any of its obligations assumed herein or with respect to any obligation imposed upon said State as authorized by and in compliance with the

terms and provisions of this Compact, all rights, privileges and benefits of such defaulting State, its members on the Board and its citizens, shall ipso facto be and become suspended from and after the date of such default. Unless such default shall be remedied and made good within a period of one year immediately following the date of such default this Compact may be terminated with respect to such defaulting State by an affirmative vote of three-fourths ($\frac{3}{4}$) of the members of the Board (exclusive of the members representing the State in default), from and after which time such State shall cease to be a party to this Compact and shall have no further claim to or ownership of any of the property held by or vested in the Board or to any of the funds of the Board held under the terms of this Compact, but such termination shall in no manner release such defaulting State from any accrued obligation or otherwise affect this Compact or the rights, duties, privileges or obligations of the remaining States thereunder.

IN WITNESS WHEREOF this Compact has been approved and signed by Governors of the several States, subject to the approval of their respective Legislatures in the manner hereinabove set out, as of the 8th day of February, 1948.

Section 161.01. Compact Entered Into: Text

The Compact for Education is hereby entered into and enacted into law in the form substantially as follows:

COMPACT FOR EDUCATION**ARTICLE I. PURPOSE AND POLICY**

Section A. It is the purpose of this compact to:

1. Establish and maintain close cooperation and understanding among executive, legislative, professional educational and lay leadership on a nationwide basis at the State and local levels.
2. Provide a forum for the discussion, development, crystalization and recommendation of public policy alternatives in the field of education.
3. Provide a clearing house of information on matters relating to educational problems and how they are being met in different places throughout the Nation, so that the executive and legislative branches of State Government and of local communities may have ready access to the experience and record of the entire country, and so that both lay and professional groups in the field of education may have additional avenues for the sharing of experience and the interchange of ideas in the formation of public policy in education.

4. Facilitate the improvement of State and local educational systems so that all of them will be able to meet adequate and desirable goals in a society which requires continuous qualitative and quantitative advance in educational opportunities, methods and facilities.

Section B. It is the policy of this compact to encourage and promote local and State initiative in the development, maintenance, improvement and administration of educational systems and institutions in a manner which will accord with the needs and advantages of diversity among localities and States.

Section C. The party States recognize that each of them has an interest in the quality and quantity of education furnished in each of the other States, as well as in the excellence of its own educational systems and institutions, because of the highly mobile character of individuals within the Nation, and because the products and services contributing to the health, welfare and economic advancement of each State are supplied in significant part by persons educated in other States.

ARTICLE II. STATE DEFINED

As used in this Compact, "State" means a State, territory, or possession of the United States, the District of Columbia, or the Commonwealth of Puerto Rico.

ARTICLE III. THE COMMISSION

Section A. The Education Commission of the States, hereinafter called "the Commission," is hereby established. The Commission shall consist of seven members representing each party State. One of such members shall be the Governor or his designated representative, and six shall be appointed by and serve at the pleasure of the Governor, unless the laws of the State otherwise provide. In addition to any other principles or requirements which a State may establish for the appointment and service of its members of the Commission, the guiding principle for the composition of the membership on the Commission from each party State shall be that the members representing such State shall, by virtue of their training, experience, knowledge or affiliations be in a position collectively to reflect broadly the interests of the State Government, higher education, the State education system, local education, lay and professional, public and non-public educational leadership. Of those appointees, one may be the head of a State agency or institution, designated by the Governor, having responsibility for one or more programs of public education. In addition to the members of the Commission representing the party States, there may be not to exceed ten non-voting commissioners selected by the steering committee for terms of one year. Such commissioners shall represent leading national organizations of professional educators or persons concerned with educational administration.

Section B. The members of the Commission shall be entitled to one vote each on the Commission. No action of the Commission shall be binding unless taken at a meeting at which a majority of the total number of votes on the Commission are cast in favor thereof. Action of the Commission shall be only at a meeting at which a majority of the commissioners are present. The Commission shall meet at least once a year. In its bylaws, and subject to such directions and limitations as may be contained therein, the Commission may delegate the exercise of any of its powers to the steering committee or the executive director, except for the power to approve budgets or requests for appropriations, the power to make policy recommendations pursuant to Article IV and adoption of the annual report pursuant to Article III(j).

Section C. The Commission shall have a seal.

Section D. The Commission shall elect annually, from among its members, a chairman, who shall be a Governor, a vice chairman and a treasurer. The Commission shall provide for the appointment of an executive

director. Such executive director shall serve at the pleasure of the Commission, and together with the treasurer and such other personnel as the Commission may deem appropriate shall be bonded in such amount as the Commission shall determine. The executive director shall be secretary.

Section E. Irrespective of the civil service, personnel or other merit system laws of any of the party States, the executive director subject to the approval of the steering committee shall appoint, remove or discharge such personnel as may be necessary for the performance of the functions of the Commission, and shall fix the duties and compensation of such personnel. The Commission in its bylaws shall provide for their personnel policies and programs of the Commission.

Section F. The Commission may borrow, accept or contract for the services of personnel from any party jurisdiction, the United States, or any subdivision or agency of the aforementioned governments, or from any agency of two or more of the party jurisdictions or their subdivisions.

Section G. The Commission may accept for any of its purposes and functions under this compact any and all donations, and grants of money, equipment, supplies, materials and services, conditional or otherwise, from any State, the United States, or any other governmental agency or from any person, firm, association, foundation, or corporation, and may receive, utilize and dispose of the same. Any donation or grant accepted by the Commission pursuant to this paragraph or services borrowed pursuant to paragraph (f) of this Article shall be reported in the annual report of the Commission. Such report shall include the nature, amount and conditions, if any, of the donation, grant, or services borrowed, and the identity of the donor or lender.

Section H. The Commission may establish and maintain such facilities as may be necessary for the transacting of its business. The Commission may acquire, hold, and convey real and personal property and any interest therein.

Section I. The Commission shall adopt bylaws for the conduct of its business and shall have the power to amend and rescind these bylaws. The Commission shall publish its bylaws in convenient form and shall file a copy thereof and a copy of any amendment thereto, with the appropriate agency or officer in each of the party States.

Section J. The Commission annually shall make to the Governor and legislature of each party State a report covering the activities of the Commission for the preceding year. The Commission may make such additional reports as it may deem desirable.

ARTICLE IV. POWERS

In addition to authority conferred on the Commission by other provisions of the compact, the Commission shall have authority to:

1. Collect, correlate, analyze and interpret information and data concerning educational needs and resources.
2. Encourage and foster research in all aspects of education, but with special reference to the desirable scope of instruction, organization, administration, and instructional methods and standards employed or suitable for employment in public educational systems.
3. Develop proposals for adequate financing of education as a whole and at each of its many levels.
4. Conduct or participate in research of the types referred to in this Article in any instance where the Commission finds that such research is necessary for the advancement of the purposes and policies of this compact, utilizing fully the resources of national associations, regional compact organizations for higher education, and other agencies and institutions, both public and private.

5. Formulate suggested policies and plans for the improvement of public education as a whole, or for any segment thereof, and make recommendations with respect thereto available to the appropriate governmental units, agencies and public officials.

6. Do such other things as may be necessary or incidental to the administration of any of its authority or functions pursuant to this compact.

ARTICLE V. COOPERATION WITH FEDERAL GOVERNMENT

Section A. If the laws of the United States specifically so provided, or if administrative provision is made therefor within the Federal Government, the United States may be represented on the Commission by not to exceed ten representatives. Any such representative or representatives of the United States shall be appointed and serve in such manner as may be provided by or pursuant to Federal law, and may be drawn from any one or more branches of the Federal Government, but no such representative shall have a vote on the Commission.

Section B. The Commission may provide information and make recommendations to any executive or legislative agency or officer of the Federal Government concerning the common educational policies of the States, and may advise with any such agencies or officers concerning any matter of mutual interest.

ARTICLE VI. COMMITTEES

Section A. To assist in the expeditious conduct of its business when the full Commission is not meeting, the Commission shall elect a steering committee of thirty members which, subject to the provisions of this compact and consistent with the policies of the Commission, shall be constituted and function as provided in the bylaws of the Commission. One-third of the voting membership of the steering committee shall consist of Governors, and the remainder shall consist of other members of the Commission. A Federal representative on the Commission may serve with the steering committee, but without vote. The voting members of the steering committee shall serve for terms of two years, except that members elected to the first steering committee of the Commission shall be elected as follows: fifteen for one year and fifteen for two years. The chairman, vice chairman, and treasurer of the Commission shall be members of the steering committee and, anything in this paragraph to the contrary notwithstanding, shall serve during their continuance in these offices. Vacancies in the steering committee shall not affect its authority to act, but the Commission at its next regularly ensuing meeting following the occurrence of any vacancy shall fill it for the unexpired term. No person shall serve more than two terms as a member of the steering committee; provided that service for a partial term of one year or less shall not be counted toward the two-term limitation.

Section B. The Commission may establish advisory and technical committees composed of State, local, and Federal officials, and private persons to advise it with respect to any one or more of its functions. Any advisory or technical committee may, on request of the States concerned, be established to consider any matter of special concern to two or more of the party States.

Section C. The Commission may establish such additional committees as its bylaws may provide.

ARTICLE VII. FINANCE

Section A. The Commission shall advise the Governor or designated officer or officers of each party State of its budget and estimated expenditures for such period as may be required by the laws of that party

State. Each of the Commission's budgets of estimated expenditures shall contain specific recommendations of the amount or amounts to be appropriated by each of the party States.

Section B. The total amount of appropriation requests under any budget shall be apportioned among the party States. In making such apportionment, the Commission shall devise and employ a formula which takes equitable account of the populations and per capita income levels of the party States.

Section C. The Commission shall not pledge the credit of any party States. The Commission may meet any of its obligations in whole or in part with funds available to it pursuant to Article III(g) of this compact, provided that the Commission takes specific action setting aside such funds prior to incurring an obligation to be met in whole or in part in such manner. Except where the Commission makes use of funds available to it pursuant to Article III(g) thereof, the Commission shall not incur any obligation prior to the allotment of funds by the party States adequate to meet the same.

Section D. The Commission shall keep accurate accounts of all receipts and disbursements. The receipts and disbursements of the Commission shall be subject to the audit and accounting procedures established by its bylaws. However, all receipts and disbursements of funds handled by the Commission shall be audited yearly by a qualified public accountant, and the report of the audit shall be included in and become part of the annual reports of the Commission.

Section E. The accounts of the Commission shall be open at any reasonable time for inspection by duly constituted officers of the party States and by any persons authorized by the Commission.

Section F. Nothing contained herein shall be construed to prevent Commission compliance with laws relating to audit or inspection of accounts by or on behalf of any government contributing to the support of the Commission.

ARTICLE VIII. ELIGIBLE PARTIES; ENTRY INTO AND WITHDRAWAL

Section A. This compact shall have as eligible parties all States, Territories, and Possessions of the United States, the District of Columbia, and the Commonwealth of Puerto Rico. In respect of any such jurisdiction not having a Governor, the term "Governor," as used in this compact, shall mean the closest equivalent official of such jurisdiction.

Section B. Any State or other eligible jurisdiction may enter into this compact and it shall become binding thereon when it has adopted the same: provided that in order to enter into initial effect, adoption by at least ten eligible party jurisdictions shall be required.

Section C. Adoption of the compact may be either by enactment thereof or by adherence thereto by the Governor; provided that in the absence of enactment, adherence by the Governor shall be sufficient to make his State a party only until December 31, 1967. During any period when a State is participating in this compact through gubernatorial action, the Governor shall appoint those persons who, in addition to himself, shall serve as the members of the Commission from his State, and shall provide to the Commission an equitable share of the financial support of the Commission from any source available to him.

Section D. Except for a withdrawal effective on December 31, 1967, in accordance with paragraph C of this Article, any party State may withdraw from this compact by enacting a statute repealing the same, but no such withdrawal shall take effect until one year after the Governor of the withdrawing State has given notice in writing of the withdrawal to the Governors of all other party States. No withdrawal shall affect any liability already incurred by or chargeable to a party State prior to the time of such withdrawal.

ARTICLE IX. CONSTRUCTION AND SEVERABILITY

This compact shall be liberally construed so as to effectuate the purposes thereof. The provisions of this compact shall be severable and if any phrase, clause, sentence or provision of this compact is declared to be contrary to the constitution of any State or of the United States, or the application thereof to any Government, agency, person or circumstance is held invalid, the validity of the remainder of this compact and the applicability thereof to any Government, agency, person or circumstance shall not be affected thereby. If this compact shall be held contrary to the constitution of any State participating therein, the compact shall remain in full force and effect as to the State affected as to all severable matters.

§ 161.02. Texas Representatives

The Texas membership to the Educational Commission of the States shall be the governor or his designated representative and six citizens of the state who shall be appointed and serve at the pleasure of the governor. These seven members shall officially represent Texas on the Education Commission of the States.

§ 161.03. Effective Date

The effective date of this chapter shall be September 1, 1967.

SUBCHAPTER B. MANAGEMENT, CONTROL, AND DISPOSITION OF MARITAL PROPERTY

§ 5.26. Circumstance of Person Missing in Action or Prisoner of War

(a) If a spouse is reported by the United States Department of Defense to be a prisoner of war or missing in action, then not less than six months thereafter the spouse of a prisoner of war or person missing in action, may file a sworn petition stating the facts that make it desirable for the petitioning spouse to manage, control, and dispose of community property (described or defined in the petition) that would otherwise be subject to the sole or joint management, control, and disposition of the other.

(b) The petition shall be filed in a district court of the county in which the petitioning spouse resided at the time the United States Department of Defense report was made. If both spouses are nonresidents of the state at that time, the petition shall be filed in the district court of any county in which any part of the described or defined community property is located.

(c) The court shall appoint an attorney ad litem for the prisoner of war or person missing in action and shall allow him a reasonable fee for his services to be taxed as a part of the costs.

(d) A notice stating that the petition has been filed and specifying the date of the hearing, accompanied by a copy of the petition, shall be issued and served on the attorney ad litem representing respondent spouse as in other cases.

(e) After hearing the evidence, the court, on terms it deems just and equitable, shall enter an order describing or defining the community property at issue that will be subject to the management, control, and disposition of each spouse during marriage.

(f) The jurisdiction of the court is continuing, and on motion of either spouse, after notice stating that the motion has been filed and specifying the date of the hearing, accompanied by a copy of the motion, has been issued and served on the respondent spouse as in other cases, the court shall amend or vacate the original order if the spouse who was a prisoner of war or missing in action returns.

(g) An order authorized by Subsection (e) of this section affecting real property is void as against a good faith purchaser for value or against a creditor without notice unless the order is recorded in the deed records of the county in which the real property is located.

(h) In the exercise of its equity powers, the court may impose any conditions and restrictions it deems necessary to protect the rights of the other spouse. The court may require a bond conditioned on faithful administration of the proceeds or may require payment of all or a portion of the proceeds to the registry of the court, to be disbursed in accordance with the court's further directions.

(i) This section is cumulative of the rights, powers, and remedies otherwise afforded the spouses by law.

Receivership

Section 3 of the 1971 act, which by sections 1 and 2 added this section and section 5.87, respectively, provided:

Sec. 3. (a) Appointment of Receiver. When the separate property of a person reported by the United States Department of Defense to be a prisoner of war or missing in action, or any portion thereof, appears in danger of injury, loss, or waste, and in need of a representative, a district judge of the county where the prisoner of war or person missing in action, or the spouse of such a person, resides, or where the endangered separate property is situated, shall by order, with or without application, appoint a suitable person as receiver to take charge of such endangered separate property, requiring bond of such person as in ordinary receiverships in such sum as the judge deems necessary to protect the separate property, and specifying such duties and powers of the receiver as the judge deems necessary for the protection, conservation, and preservation of the separate property. The clerk shall forthwith enter such order upon the minutes of the court; and the person so appointed shall forthwith make his bond, submit same to the judge for approval, file same, when approved, with the clerk, and proceed to take charge of such endangered separate property pursuant to the duties and powers vested in him by the order of appointment and by such subsequent orders as the judge shall make from time to time.

(b) Expenditures by the Receiver. Whenever, during the pendency of such receivership, the needs of the spouse or depend-

ent children of the prisoner of war or person missing in action shall require the use of the income or corpus of the estate for the education, clothing, or subsistence, the judge shall, with or without application, by order entered upon the minutes of his court, appropriate an amount of such income or corpus sufficient for such purpose; and the same shall be used by the receiver to pay such claims for such education, clothing, or subsistence as are presented to the judge and approved and ordered by him to be paid.

(c) Investments, Loans and Contributions by the Receiver. Whenever, during the pendency of such receivership, the receiver shall have on hand an amount of money belonging to such prisoner of war or person missing in action in excess of the amount needed for current necessities and expenses, he may, under direction of the judge, invest, lend, or contribute such excess money or any portion or portions thereof in the manner, for the security, and on the terms and conditions provided in the Probate Code for investments, loans, or contributions by guardians, and he shall report to the judge all such transactions in the manner that reports are required of guardians.

(d) Receiver's Expenses, Account, and Compensation. All necessary expenses incurred by the receiver in administering the property may be rendered monthly to the judge in the form of a sworn statement of account, including a report of the receiver's acts, the condition of the property, the status of the threatened danger to the

property and the progress made toward abatement of such danger. If the judge is satisfied that such statement is correct and reasonable in all respects, he shall promptly enter his order approving the same and authorizing the receiver to reimburse himself out of the funds in his hands. For his official services rendered, the receiver shall be compensated in the same manner and amount as provided by the Probate Code for similar services rendered by guardians of estates.

(e) Closing Receivership. When the threatened danger has abated and the separate property is no longer liable to injury, loss, or waste for want of a representative, the receiver shall so report to the judge, filing with the clerk a full and final sworn account of all property received into his hands, all sums paid out, all acts performed by him with respect to such property, and all property remaining in his hands.

(f) Action of the Judge. If upon hearing such report and account, the judge is sat-

isfied that the danger of injury, loss, or waste has abated and that said report and account are correct, he shall enter an order so finding and shall direct the receiver to deliver said property to the person from whom he took possession as receiver, or to the person who was a prisoner of war or missing in action, or to such other person as the judge may find to be entitled to possession of the estate, which person in turn shall execute and file with the clerk an appropriate receipt for the property thus delivered. The order of the judge shall discharge the receiver and his sureties. If the judge is not satisfied that the danger has abated, or if he is not satisfied with the report and account, he shall enter an order continuing the receivership in effect until he is so satisfied.

(g) Recordation of Proceedings. All orders, bonds, reports, accounts, and notices in the receivership proceedings shall be recorded in the minutes of the court.

SUBCHAPTER E. HOMESTEAD RIGHTS

§ 5.87. Community Homestead; Circumstance of Person Missing in Action or Prisoner of War; Sale Without Joinder

(a) If the homestead is the community property of the spouses and if a spouse is reported by the United States Department of Defense to be a prisoner of war or missing in action, then not less than six months thereafter the spouse of the prisoner of war or person missing in action, who desires to sell, convey, or encumber the community homestead of the spouses, may file a sworn petition giving a description of the property and stating the facts that make it desirable for the petitioning spouse to sell, convey, or encumber the homestead without the joinder of the other spouse.

(b) The petition shall be filed in a district court of the county in which any portion of the property is located. The court shall appoint an attorney ad litem for the prisoner of war or person missing in action and shall allow him a reasonable fee for his services to be taxed as a part of the costs. Notice shall be issued and served in the manner provided in Subsection (d) of Section 5.26 of this code.

(c) After hearing the evidence, the court shall enter an order granting relief if it appears necessary or advisable, and on terms the court deems advisable.

(d) In the exercise of its equity powers, the court may impose any conditions and restrictions it deems necessary to protect the rights of the other spouse. The court may require a bond conditioned on faithful administration of the proceeds or may require payment of all or a portion of the proceeds to the registry of the court, to be disbursed in accordance with the court's further directions.

(e) This section is cumulative of the rights, powers, and remedies otherwise afforded the spouses by law.

SUBCHAPTER A. PURPOSE AND POLICY

Section 1.001. Purpose of Code

(a) This code is enacted as a part of the state's continuing statutory revision program, begun by the Texas Legislative Council in 1963 as directed by the legislature in Chapter 448, Acts of the 58th Legislature, Regular Session, 1963 (Article 5429b—1, Vernon's Texas Civil Statutes). The program contemplates a topic-by-topic revision of the state's general and permanent statute law without substantive change.

(b) Consistent with the objectives of the statutory revision program, the purpose of this code is to make the general and permanent water law more accessible and understandable, by:

- (1) rearranging the statutes into a more logical order;
- (2) employing a format and numbering system designed to facilitate citation of the law and to accommodate future expansion of the law;
- (3) eliminating repealed, duplicative, unconstitutional, expired, executed, and other ineffective provisions; and
- (4) restating the law in modern American English to the greatest extent possible.

(c) This restatement shall not in any way make any changes in the substantive laws of the State of Texas.

(d) Laws of a local or special nature, such as statutes creating various kinds of conservation and reclamation districts, are not included in, or

affected by, this code. The legislature believes that persons interested in these local and special laws may rely on the session laws and on compilations of these laws. (New.)

§ 1.002. Construction of Code

The Code Construction Act (Article 5429b—2, Vernon's Texas Civil Statutes) applies to the construction of each provision in this code, except as otherwise expressly provided by this code. (New.)

§ 1.003. Public Policy

It is the public policy of the state to provide for the conservation and development of the state's natural resources, including:

- (1) the control, storage, preservation, and distribution of the state's storm and flood waters and the waters of its rivers and streams for irrigation, power, and other useful purposes;
- (2) the reclamation and irrigation of the state's arid, semiarid, and other land needing irrigation;
- (3) the reclamation and drainage of the state's overflowed land and other land needing drainage;
- (4) the conservation and development of its forest, water, and hydroelectric power; and
- (5) the navigation of the state's inland and coastal waters. (R.S. Art. 7466.)

SUBCHAPTER B. RIGHTS IN STATE WATER

Section 5.021. State Water

(a) The water of the ordinary flow, underflow, and tides of every flowing river, natural stream, and lake, and of every bay or arm of the Gulf of Mexico, and the storm water, floodwater, and rainwater of every river, natural stream, canyon, ravine, depression, and watershed in the state is the property of the state.

(b) Water which is imported from any source outside the boundaries of the state for use in the state and which is transported through the beds and banks of any navigable stream within the state or by utilizing any facilities owned or operated by the state is the property of the state. (R.S. Art. 7467, Subsec. (a) (part), (b), as amended.)

§ 5.022. Acquisition of Right to Use State Water

The right to the use of state water may be acquired by appropriation in the manner and for the purposes provided in this chapter. When the right to use state water is lawfully acquired, it may be taken or diverted from its natural channel. (R.S. Art. 7467, Subsec. (a) (part), as amended.)

§ 5.023. Purposes for which Water May Be Appropriated

(a) State water may be appropriated, stored, or diverted for:

- (1) domestic and municipal uses, including water for sustaining human life and the life of domestic animals;
- (2) industrial uses, being processes designed to convert materials of a lower order of value into forms having greater usability and commercial value, including the development of power by means other than hydroelectric;
- (3) irrigation;
- (4) mining and recovery of minerals;
- (5) hydroelectric power;
- (6) navigation;
- (7) recreation and pleasure;
- (8) stock raising;
- (9) public parks; and
- (10) game preserves. (R.S. Art. 7470 (part), as amended; R.S. Art. 7468 (part), as amended.)

(b) State water also may be stored or diverted for any other beneficial use. (R.S. Art. 7468 (part), as amended.)

(c) Unappropriated storm water and floodwater may be appropriated to recharge underground freshwater bearing sands and aquifers in the

portion of the Edwards underground reservoir located within Kinney, Uvalde, Medina, Bexar, Comal, and Hays counties if it can be established by expert testimony that an unreasonable loss of state water will not occur and that the water can be withdrawn at a later time for application to a beneficial use. The normal or ordinary flow of a stream or watercourse may never be appropriated, diverted, or used by a permittee for this recharge purpose. (R.S. Art. 7470 (part), as amended.)

(d) When it is put or allowed to sink into the ground, water appropriated under Subsection (b) of this section loses its character and classification as storm water or floodwater and is considered percolating groundwater. (R.S. Art. 7470 (part), as amended.)

(e) The amount of water appropriated for each purpose mentioned in this section shall be specifically appropriated for that purpose, subject to the preferences prescribed in Section 5.024 of this code. (R.S. Art. 7470 (part), as amended.)

(f) The water of any arm, inlet, or bay of the Gulf of Mexico may be changed from salt water to sweet or fresh water and held or stored by dams, dikes, or other structures, and may be taken or diverted for any purpose authorized by this chapter. (R.S. Art. 7468 (part).)

§ 5.024. Appropriation: Preferences

In order to conserve and properly utilize state water, the public welfare requires not only recognition of beneficial uses but also a constructive public policy regarding the preferences between these uses; and it is therefore declared to be the public policy of this state that, in appropriating state water, preference shall be given to the following uses in the order named:

(1) domestic and municipal uses, including water for sustaining human life and the life of domestic animals;

(2) industrial uses, being processes designed to convert materials of a lower order of value into forms having greater usability and commercial value, including the development of power by means other than hydroelectric;

(3) irrigation;

(4) mining and recovery of minerals;

(5) hydroelectric power;

(6) navigation;

(7) recreation and pleasure; and

(8) other beneficial uses. (R.S. Art. 7471, as amended.)

§ 5.025. Scope of Appropriative Right

A right to use state water under a permit or a certified filing is limited not only to the amount specifically appropriated but also to the amount which is being or can be beneficially used for the purposes specified in the appropriation, and all water not so used is considered not appropriated. (R.S. Art. 7543; Art. 7542, sen. 2.)

§ 5.026. Perfection of an Appropriation

No right to appropriate water is perfected unless the water has been beneficially used for a purpose stated in the original declaration of intention to appropriate water or stated in a permit issued by the commission or one of its predecessors. (R.S. Art. 7473 (part).)

§ 5.027. Rights between Appropriators

As between appropriators, the first in time is the first in right. (R.S. Art. 7472 (part), as amended.)

§ 5.028. Exception

Any appropriation made after May 17, 1931, for any purpose other than domestic or municipal use, is subject to the right of any city or town to

make further appropriations of the water for domestic or municipal use without paying for the water. However, this section does not apply to any stream which constitutes or defines the international boundary between the United States of America and the Republic of Mexico. (R.S. Art. 7472 (part), as amended; 42nd Legis., Ch. 128, Sec. 6.)

§ 5.029. Title to Appropriation by Limitation

When an appropriator from a source of water supply has used water under the terms of a certified filing or a permit for a period of three years, he acquires title to his appropriation by limitation against any other claimant of water from the same source of water supply and against any riparian owner on the same source of water supply. (R.S. Art. 7592.)

§ 5.030. Forfeiture of Appropriation

If any lawful appropriation or use of state water is wilfully abandoned during any three successive years, the right to use the water is forfeited and the water is again subject to appropriation. (R.S. Art. 7544.)

§ 5.031. Annual Report

(a) Not later than March 1 of every year, every person who takes water during the preceding calendar year from a stream or reservoir shall submit a written report to the commission on a form prescribed by the commission. The report shall contain all information required by the commission to aid in administering the water law and in making inventory of the state's water resources. However, with the exception of public utilities and political subdivisions which furnish water for municipal uses, no report is required of persons who take water solely for domestic or livestock purposes. (R.S. Art. 7612, as amended.)

(b) A person who fails to file an annual report with the commission as required by this section is liable to a penalty of \$25, plus \$1 per day for each day he fails to file the statement after March 1. However, the maximum penalty under this section is \$150. The state may sue to recover the penalty. (39th Legis., Ch. 136, Sec. 6, as amended.)

§ 5.032. Records

(a) A person who owns and operates a system of waterworks used for a purpose authorized by this code shall keep a detailed record of daily operations so that the quantity of water taken or diverted each calendar year can be determined.

(b) If the water is used for irrigation, the record must show the number of acres irrigated, the character of the crops grown, and the yield per acre. No survey is required to determine the exact number of acres irrigated. (R.S. Art. 7611.)

§ 5.033. Eminent Domain

The right to take water necessary for domestic and municipal supply purposes is primary and fundamental, and the right to recover from other uses water which is essential to domestic and municipal supply purposes is paramount and unquestioned in the policy of the state. All political subdivisions of the state and constitutional governmental agencies exercising delegated legislative powers have the power of eminent domain, to be exercised as provided by law, for domestic, municipal, and manufacturing uses, and for other purposes authorized by this code, including the irrigation of lands for all requirements of agricultural employment. (42nd Legis., Ch. 128, Sec. 3.)

§ 5.034. Reservoir Site: Land and Rights-of-Way

An appropriator who is authorized to construct a dam or reservoir is granted the right-of-way, not to exceed 100 feet wide, and the necessary area for the site, over any public school land, university land, or asylum land of this state, and the use of the rock, gravel, and timber on the site and right-of-way for construction purposes, after paying compensation as determined by the commission. An appropriator may acquire the reservoir site and rights-of-way over private land by contract. (R.S. Art. 7582.)

§ 5.035. Condemnation of Private Property

(a) An appropriator may obtain rights-of-way over private land and may obtain the land necessary for pumping plants, intakes, headgates, and storage reservoirs by condemnation.

(b) The party obtaining private property by condemnation shall cause damages to be assessed and paid for as provided by the statutes of this state relating to eminent domain.

(c) If the party exercising the power granted by this section is not a corporation, district, city, or town, he shall apply to the commission for the condemnation.

(d) The commission shall investigate the proposed condemnation. After its investigation the commission may give notice to the party owning the land proposed to be condemned and hold a hearing on the proposed condemnation.

(e) If after a hearing the commission determines that the condemnation is necessary, the commission may institute condemnation proceedings in the name of the State of Texas for the use and benefit of the party who applied for the condemnation and all others similarly situated.

(f) The parties at whose instance a condemnation suit is instituted shall pay the costs of the suit and condemnation in proportion to the benefits received by each party as fixed by the commission. Before using any of the condemned rights or property, a party receiving the rights or property shall pay the amount of costs fixed by the commission.

(g) If, after the costs of the condemnation proceedings have been paid, a party seeks to take the benefits of the condemnation proceedings, he shall apply to the commission for the benefits. The commission may grant the application and fix the fees and charges to be paid by the applicant. (R.S. Art. 7583, as amended.)

§ 5.036. Conserved or Stored Water: Supply Contract

(a) A person, association of persons, corporation, or water improvement or irrigation district having in possession and control any storm water, floodwater, or rainwater that is conserved or stored as authorized by this chapter may contract to supply the water to any person, association of persons, corporation, or water improvement or irrigation district having the right to acquire use of the water.

(b) The price and terms of the contract shall be just and reasonable and without discrimination; and the contract is subject to the same revision and control as provided in this code for other water rates and charges. If any person uses the stored or conserved water without first entering into a contract with the party that conserved or stored it, the user shall pay for the use at a rate determined by the commission to be just and reasonable, subject to court review as in other cases. (R.S. Art. 7547.)

§ 5.037. Water Suppliers: Rules and Regulations

Every person, association of persons, corporation, or irrigation district conserving or supplying water for any of the purposes authorized by this chapter shall make and publish reasonable rules and regulations relating to:

- (1) the method of supply;
- (2) the use and distribution of the water; and
- (3) the procedure for applying for the water and paying for it.

(R.S. Art. 7570.)

§ 5.038. Rights of Owners of Land Adjoining Canal, Etc.

(a) A person who owns or holds a possessory interest in land adjoining or contiguous to a canal, ditch, flume, lateral, dam, reservoir, or lake, constructed and maintained under the provisions of this chapter, and who has secured a right to the use of water in the canal, ditch, flume, lateral, dam, reservoir, or lake, is entitled to be supplied from the canal, ditch, flume, lateral, dam, reservoir, or lake with water for irrigation of the land, and for mining, milling, manufacturing, development of power, and stock raising, in accordance with the terms of his contract. (R.S. Art. 7555.)

(b) If the person, association of persons, or corporation owning or controlling the water, and the person who owns or holds a possessory interest in the adjoining land cannot agree on a price for a permanent water right, or for the use of enough water for irrigation of the person's land, or for mining, milling, manufacturing, development of power, or stock raising, then the party owning or controlling the water, if he has any water not contracted to others, shall furnish the water necessary for these purposes at reasonable and nondiscriminatory prices. (R.S. Art. 7556.)

§ 5.039. Distribution of Water During Shortage

(a) If a shortage of water in a water supply results from drouth, accident, or other cause, the water to be distributed shall be divided among all customers pro rata, according to the amount each may be entitled to, so that preference is given to no one and everyone suffers alike.

(b) Nothing in Subsection (a) of this section precludes the person, association of persons, or corporation owning or controlling the water from supplying water to a person who has a prior vested right to the water under the laws of this state. (R.S. Arts. 7557, 7558.)

§ 5.040. Permanent Water Right

(a) A permanent water right is an easement and passes with the title to land.

(b) A written instrument conveying a permanent water right may be recorded in the same manner as any other instrument relating to a conveyance of land.

(c) The owner of a permanent water right is entitled to use water according to the terms of his contract. If there is no contract, the owner is entitled to use water at a just, reasonable, and nondiscriminatory price. (R.S. Art. 7559.)

§ 5.041. Denial of Water: Complaint

(a) Any person entitled to receive or use water from any canal, ditch, flume, lateral, dam, reservoir, or lake, or from any conserved or stored supply may present to the commission a written petition showing:

- (1) that he is entitled to receive or use the water;
- (2) that he is willing and able to pay a just and reasonable price for the water;

(3) that the party owning or controlling the water supply has water not contracted to others and available for the petitioner's use; and

(4) that the party owning or controlling the water supply fails or refuses to supply the available water to the petitioner, or that the price or rental demanded for the available water is not reasonable and just, or is discriminatory.

(b) If the petition is accompanied by a deposit of \$25, the commission shall make a preliminary investigation of the complaint and determine whether or not there is probable ground for the complaint. (R.S. Art. 7560, sen. 1.)

(c) If, after preliminary investigation, the commission determines that probable grounds exist for the complaint, the commission shall enter an order setting a time and place for a hearing on the petition.

(d) The commission may require the complainant to make an additional deposit or execute a bond satisfactory to the commission, in an amount fixed by the commission, conditioned on the payment of all costs of the proceeding.

(e) At least 20 days before the date set for the hearing, the commission shall transmit by registered mail a certified copy of the petition and a certified copy of the hearing order to the person against whom the complaint is made. (R.S. Art. 7561.)

(f) The commission shall hold a hearing on the complaint at the time and place stated in the order. It may hear evidence orally or by affidavit in support of or against the complaint, and it may hear arguments. On completion of the hearing, the commission shall render a written decision. (R.S. Art. 7562.)

(g) If, after its preliminary investigation, the commission determines that no probable ground exists for the complaint, the commission shall dismiss the complaint. The commission may either return the deposit or pay it into the state treasury. (R.S. Art. 7560, sen. 2.)

§ 5.042. Delivering Water Down Banks and Beds

Under rules prescribed by the commission, a person, association of persons, corporation, or water improvement or irrigation district supplying stored or conserved water under contract as provided in this chapter may use the bank and bed of any flowing natural stream in the state to convey the water from the place of storage to the place of use, or to the diversion plant of the appropriator. The commission shall prescribe rules for this purpose. (R.S. Art. 7548, as amended.)

§ 5.043. Recordation of Conveyance of Irrigation Work

(a) A conveyance of a ditch, canal, or reservoir, or other irrigation work, or an interest in such an irrigation work must be executed and acknowledged in the same manner as a conveyance of real estate. Such a conveyance must be recorded in the deed records of the county in which the ditch, canal, or reservoir is located.

(b) If a conveyance of property covered by Subsection (a) of this section is not made in the prescribed manner, it is null and void against subsequent purchasers in good faith and for valuable consideration. (R.S. Art. 7571.)

§ 5.044. Roads and Highways

(a) An appropriator has the right to construct ditches, canals, or other conveyances along or across all roads and highways necessary for the construction of waterworks. Bridges, culverts, or siphons shall be constructed at all road and highway crossings as necessary to prevent any impairment of the uses of the road or highway.

(b) If any public road, highway, or public bridge is located on the ground necessary for a damsite, reservoir, or lake, the commissioners court shall change the road and remove the bridge so that it does not interfere with the construction of the proposed dam, reservoir, or lake. The party desiring to construct the dam, reservoir, or lake shall pay the expense of moving the bridge or roadway. (R.S. Art. 7585.)

§ 5.045. Ditches and Canals

An appropriator is entitled to construct ditches and canals along or across any stream of water. (R.S. Art. 7586.)

§ 5.046. Return Unused Water

A person who takes or diverts water from a running stream for the purposes authorized by this code shall conduct surplus water back to the stream from which it was taken if the water can be returned by gravity flow and it is reasonably practicable to do so. (R.S. Art. 7579.)

§ 5.047. Failure to Fence

If a person, association of persons, corporation, or water improvement or irrigation district that owns or controls a ditch, canal, reservoir, dam, or lake does not keep it securely fenced, there is no cause of action against the owner of livestock that trespass. (R.S. Art. 7593.)

§ 5.048. Cost of Maintaining Irrigation Ditch

(a) If an irrigation ditch is owned or used by two or more persons, mutual or cooperative companies, or corporations, each party who has an interest in the ditch shall pay his proportionate share of the cost of operating and maintaining the ditch.

(b) If a person who owns a joint interest in a ditch refuses to do or to pay for his proportionate share of the work that is reasonably necessary for the proper maintenance and operation of the ditch, the other owners may, after giving him 10 days' written notice, proceed themselves to do his share of the necessary work and recover from him the reasonable expense or value of the work or labor performed. The action for the cost of the work may be brought in any court having jurisdiction over the amount in controversy. (R.S. Art. 7578.)

§ 5.049. Examination and Survey

A person may make any necessary examination and survey in order to select the most advantageous sites for a reservoir and rights-of-way to be used for any of the purposes authorized by this chapter; and for this purpose a person may enter the land or water of any other person. (R.S. Art. 7580.)

§ 5.050. Tidewater Gates, Etc.

An appropriator authorized to take water for irrigation may, subject to the laws of the United States and the regulations made under its authority, construct gates, or breakwaters, dams, or dikes with gates, in waters wholly in this state, as necessary to prevent pollution of the fresh water of any river, bayou, or stream due to the ebb and flow of the tides of the Gulf of Mexico.

(b) The work shall be done in such a manner that navigation of vessels on the stream is not obstructed; and where any gate is used, the appropriator shall at all times keep a competent person at the gate to allow free navigation.

(c) A dam, dike, or breakwater constructed under this section may not be placed at any point except where Gulf tides ebb and flow, and may not

be constructed so as to obstruct the flow of fresh water to any appropriator or riparian owner downstream. (R.S. Art. 7551.)

§ 5.051. Irrigation: Lien on Crops

(a) A person who constructs a ditch, canal, dam, lake, or reservoir for the purpose of irrigation and who leases, rents, furnishes, or supplies water to any person for irrigation, with or without a contract, has a preference lien superior to every other lien on the irrigated crops. However, when any irrigation district or conservation and reclamation district obtains a water supply under contract with the United States, the board of directors of the district, by resolution entered in its minutes, with the consent of the secretary of the interior, may waive the preference lien in whole or in part. (R.S. Art. 7596, as amended.)

(b) To enforce the lien, the lienholder has all the rights and remedies prescribed by Articles 5222-5239, Revised Civil Statutes of Texas, 1925. (R.S. Art. 7597.)

§ 5.052. Activities under the Federal Reclamation Act

(R.S. Art. 7589.)

(b) No person may transfer water from one watershed to another without first applying for and receiving a permit from the commission to do so. (c) If the application proposes construction of a dam greater than six feet in height, either for diversion or storage, the commission may also require filing a copy of all plans and specifications and a copy of the engineer's field notes of any survey of the lake or reservoir. No work on the project shall proceed until approval of the plans is obtained.

(d) If the applicant is a corporation, the commission may require filing a certified copy of its articles of incorporation, a statement of the names and addresses of its directors and officers, and a statement of the amount of its authorized capital stock and its paid-up capital stock.

- (3) the county in which the appropriation is sought to be made.

(R.S. Art. 7505.)

§ 5.130. Examination and Denial of Application Without Hearing

(a) The commission shall make a preliminary examination of the application and, if it appears that there is no unappropriated water in the source of supply or that the proposed appropriation should not be allowed for other reasons, the commission may deny the application.

(b) If the commission denies the application under this section and the applicant elects not to proceed further, the commission may return to the applicant any part of the fee submitted with the application. (R.S. Art. 7503.)

(e) The commission shall also mail a copy of the notice by first-class mail, postage prepaid, to each claimant or appropriator of water from the source of water supply, the record of whose claim or appropriation has been filed in the office of the commission. The notice shall also be mailed by first-class mail, postage prepaid, to all navigation districts within the watershed concerned. The inadvertent failure of the commission to mail a notice to a navigation district which is not a claimant or appropriator of water does not prevent the hearing on the application.

(f) The notice shall be mailed and first published not less than 20 days before the date set for the hearing. (R.S. Art. 7509, as amended.)

§ 5.132. Hearing

At the time and place stated in the notice, the commission shall hold a hearing on the application. (c) When the permit is filed in the office of the county clerk, it is constructive notice of:

- (1) the filing of the application;
- (2) the issuance of the permit; and
- (3) all the rights arising under the filing of the application and the issuance of the permit. (R.S. Art. 7518.)

§ 5.136. Seasonal Permits

(a) The commission may issue seasonal permits in the same manner that it issues regular permits. The provisions of this chapter governing issuance of regular permits apply to issuance of seasonal permits.

(b) The right to take, use, or divert water under seasonal permit is limited to the portion or portions of the calendar year stated in the permit.

(c) In a seasonal permit the commission shall specify the conditions necessary to fully protect prior appropriations or vested rights on the stream. (R.S. Art. 7467c, Sec. (1), as amended.)

prior appropriations or vested rights on the stream. The provisions of this chapter governing issuance of regular permits apply to issuance of temporary permits.

(c) As between temporary permits, the one applied for first has priority.

(d) The commission may not issue a temporary permit for a period exceeding three calendar years.

(e) A temporary permit does not vest in its holder a permanent right to the use of water.

(f) A temporary permit expires and shall be cancelled by the commission in accordance with the terms of the permit.

(g) The commission may prescribe by rule the fees to be paid for issuance of temporary permits, but no fee for issuance or extension of a temporary permit shall exceed \$500. (R.S. Art. 7467c, Sec. (2), as amended.)

§ 5.1371. Emergency Permits

(a) As part of its administrative authority, the commission may grant an emergency permit for the diversion and use of water for a period of not more than 30 days if it finds that emergency conditions exist which threaten the public health, safety, and welfare and which override the necessity to comply with established statutory procedures.

(b) An emergency permit may be granted for a period of not more than 30 days and no extension or additional emergency permit may be granted at the expiration of the original permit.

(c) An emergency permit may be granted under this section without the necessity to comply with statutory and other procedures required for granting other permits issued by the commission.

(d) The commission may prescribe rules and regulations and adopt fees which are necessary to carry out the provisions of this section!

(e) An emergency permit does not vest in the permittee any right to the diversion and use of water and shall expire and be cancelled in accordance with its terms. ((H. B. No. 1418)))

§ 5.140. Domestic and Livestock Reservoir—Permit Exemption

Without obtaining a permit, a person may construct on his own property a dam or reservoir to impound or contain not more than 200 acre-feet of water for domestic and livestock purposes. (39th Legis., Ch. 136, Sec. 5, subsec. 1, as amended.)

(1) any portion of the water appropriated under the permit or certified filing has not been put to an authorized beneficial use during the 10-year period;

(2) the holder has not used reasonable diligence in applying the unused portion of the water to an authorized beneficial use; and

(3) the holder has not been justified in the nonuse or does not then have a bona fide intention of putting the unused water to an authorized beneficial use within a reasonable time after the hearing. (R.S. Art. 7519a, Sec. 2, sen. 5, as amended.)

§ 5.186. Subsequent Proceedings on Same Permit

Once cancellation proceedings have been initiated against a particular permit or certified filing and a hearing has been held, the commission shall not initiate further cancellation proceedings against the same permit or certified filing within the five-year period immediately following the date of the hearing. (R.S. Art. 7519a, Sec. 2, sen. 9, as amended.)

SUBCHAPTER F. ARTESIAN WELLS

Section 5.201. Artesian Well Defined

An artesian well is an artificial water well in which the water, when properly cased, will rise by natural pressure above the first impervious stratum below the surface of the ground. (R.S. Art. 7600; P.C. Art. 845.)

§ 5.202. Right to Drill Artesian Well

A person is entitled to drill an artesian well on his own land for domestic purposes or for stock raising without complying with the general provisions of this code regulating the use of water. However, he shall have the well properly and securely cased; and when water is reached containing mineral or other substances injurious to vegetation or agriculture, he shall have the well securely capped, or its flow controlled so as not to injure another person's land, or shall fill the well so as to prevent the water from rising above the first impervious stratum below the surface of the ground. (R.S. Art. 7604.)

§ 5.203. Artesian Well: Drilling Record

(a) A person who drills an artesian well or has one drilled shall keep a complete and accurate record of the depth, thickness, and character of the different strata penetrated and, when the well is completed, shall transmit a copy of the record to the commission by registered mail.

(b) A person who violates any provision of this section is guilty of a misdemeanor and upon conviction is punishable by a fine of not less than \$10 nor more than \$100. (R.S. Art. 7605; P.C. Art. 848.)

§ 5.204. Report of New Artesian Well

Within one year after an artesian well is drilled, the owner or operator shall transmit to the commission a sworn report stating the result of the drilling operation, the use to which the water will be applied, and the contemplated extent of the use. (R.S. Art. 7614.)

§ 5.205. Wasting Water from Artesian Well

(a) Unless the water from an artesian well is used for a purpose and in a manner in which it may be lawfully used on the owner's land, it is waste to wilfully cause or knowingly permit the water to run off the owner's land or to percolate through the stratum above which the water is found. (R.S. Art. 7602.)

(b) It is not waste to use water from an artesian well, if suitable, for proper irrigation of trees on a street, road, or highway, or for ornamental ponds or fountains, or for the propagation of fish. (R.S. Art. 7603.)

(c) A person who commits waste as defined in this section is guilty of a misdemeanor and upon conviction is punishable by a fine of not more than \$500 or by confinement in the county jail for not more than 90 days or by both. (P.C. Art. 847.)

§ 5.206. Improperly Cased Well: Nuisance

An artesian well that is not tightly cased, capped, and furnished with mechanical appliances that readily and effectively prevent water from flowing out of the well and running over the surface of the ground about the well, or wasting through the strata through which it passes, is a public nuisance and subject to abatement by the commission. (R.S. Art. 7601.)

§ 5.207. Annual Report

(a) Not later than March 1 of each year, a person who, during any part of the preceding calendar year, owned or operated an artesian well for any purpose other than domestic use, shall file a report to the commission on a form supplied by the commission.

(b) The report shall state:

- (1) the quantity of water which was obtained from the well;
- (2) the nature of the uses to which the water was applied;
- (3) the change in the level of the well's water table; and
- (4) other information required by the commission.

(c) If water from the well was used for irrigation, the report shall also state the acreage and yield of each crop irrigated. (R.S. Art. 7615.)

SUBCHAPTER G. WATER RIGHTS ADJUDICATION ACT**Section 5.301. Short Title**

This subchapter may be cited as the Water Rights Adjudication Act. (60th Legis., Ch. 45, Sec. 1.)

§ 5.302. Declaration of Policy

The conservation and best utilization of the water resources of this state are a public necessity, and it is in the interest of the people of the state to require recordation with the commission of claims of water rights which are presently unrecorded, to limit the exercise of these claims to actual use, and to provide for the adjudication and administration of water rights to the end that the surface-water resources of the state may be put to their greatest beneficial use. Therefore, this subchapter is in furtherance of the public rights, duties, and functions mentioned in this section and in response to the mandate expressed in Article XVI, Section 59, of the Texas Constitution, and is in the exercise of the police powers of the state in the interest of the public welfare. (60th Legis., Ch. 45, Sec. 3.)

§ 5.303. Recordation and Limitation of Certain Water Rights Claims

(a) This section applies to:

- (1) claims of riparian water rights;
- (2) claims under Section 5.141 of this code to impound, divert, or use state water for other than domestic or livestock purposes, for which no permit has been issued;
- (3) claims of water rights under the Irrigation Acts of 1889 and 1895 which were not filed with the State Board of Water Engineers in accordance with the Irrigation Act of 1913, as amended; and
- (4) other claims of water rights except claims under permits or certified filings.

(b) Any claim to which this section applies shall be recognized only if valid under existing law and only to the extent of the maximum actual application of water to beneficial use without waste during any calendar year from 1963 to 1967, inclusive. However, in any case where a claimant of a riparian right has prior to August 28, 1967, commenced or completed the construction of works designed to apply a greater quantity of water to beneficial use, the right shall be recognized to the extent of the maximum amount of water actually applied to beneficial use without waste during any calendar year from 1963 to 1970, inclusive.

(c) On or before September 1, 1969, every person claiming any water right to which this section applies shall file with the commission a statement setting forth:

- (1) the name and address of the claimant;
- (2) the location and the nature of the right claimed;

(3) the stream or watercourse and the river basin in which the right is claimed;

(4) the date of commencement of works;

(5) the dates and volumes of use of water; and

(6) other information the commission may require to show the nature and extent of the claim.

(d) A person who files a statement as provided in this section shall certify under oath that the statements made in support of his claim are true and correct to the best of his knowledge and belief.

(e) A claimant who desires recognition of a right based on use from 1968 to 1970, inclusive, as provided in Subsection (b) of this section, shall file an additional sworn statement on or before July 1, 1971.

(f) The commission shall prescribe forms for the sworn statements required by this section, but use of the commission forms is not mandatory.

(g) On or before January 1, 1968, and June 1, 1969, the commission shall cause notice of the requirements of this section to be published once each week for two consecutive weeks in newspapers having general circulation in each county of the state and by first-class mail to each user of surface water who has filed a report of water use with the commission.

(h) On sworn petition, notice, and hearing as prescribed for applications for permits, and upon finding of extenuating circumstances and good cause shown for failure to timely file, the commission may authorize the filing of the sworn statement or statements required by this section until entry of a preliminary determination of claims of water rights, in accordance with Section 5.309 of this code, which includes the area described in the petition, or, if a preliminary determination has not been entered, until September 1, 1974.

(i) Since the filing of all claims to use public water is necessary for the conservation and best utilization of the water resources of the state, failure to file a sworn statement in substantial compliance with this section extinguishes and bars any claim of water rights to which this section applies.

(j) A sworn statement submitted under this section is binding on the person submitting it and his successors in interest, but is not binding on the commission or any other person in interest.

(k) Nothing in this section shall be construed to recognize any water right which did not exist before August 28, 1967.

(l) This section does not apply to use of water for domestic or livestock purposes. (60th Legis., Ch. 45, Sec. 4.)

§ 5.304. Adjudication of Water Rights

The water rights in any stream or segment of a stream may be adjudicated as provided in this subchapter:

(1) on the commission's own motion;

(2) on petition to the commission signed by 10 or more claimants of water rights from the source of supply; or

(3) on petition of the Texas Water Development Board. (60th Legis., Ch. 45, Sec. 5(a), sen. 1.)

§ 5.305. Investigation

(a) Promptly after a petition is filed under Section 5.304 of this code, the commission shall investigate the facts and conditions necessary to determine whether the adjudication would be in the public interest. If the commission finds that an adjudication would be in the public interest, it shall enter an order to that effect, designating the stream or segment to be adjudicated and directing an investigation to be made of the area involved in order to gather relevant data and information essential to the proper understanding of the claims of water rights involved. The results

of the investigation shall be reduced to writing and made a matter of record in the commission's office.

(b) In connection with the investigation, the commission shall make a map or plat showing with substantial accuracy the course of the stream or segment and the location of reservoirs, diversion works, and places of use, including lands which are being irrigated or have facilities for irrigation. (60th Legis., Ch. 45, Sec. 5(a), sen. 2, 3, 4, 5.)

§ 5.306. Notice of Adjudication

(a) The commission shall prepare a notice of adjudication which describes the stream or segment to be adjudicated and the date by which all claims of water rights in the stream or segment shall be filed with the commission. The date shall not be less than 90 days after the date the notice is issued.

(b) The notice shall be published once a week for two consecutive weeks in one or more newspapers having general circulation in the counties in which the stream or segment is located.

(c) The notice shall also be sent by certified mail to each claimant of water rights whose diversion is within the stream or segment to be adjudicated, to the extent that the claimants can reasonably be ascertained from the records of the commission. (60th Legis., Ch. 45, Sec. 5(b), sen. 1, 2, 3.)

§ 5.307. Filing of Sworn Claims

(a) Every person claiming a water right of any nature, except for domestic or livestock purposes, from the stream or segment under adjudication, shall file a sworn claim with the commission within the time prescribed in the notice of adjudication, including any extensions of the prescribed time, setting forth:

- (1) the name and post-office address of the claimant;
- (2) the location and nature of the right claimed, including a description of any permit or certified filing under which the claim is made;
- (3) the purpose of the use;
- (4) a description of works and irrigated land; and
- (5) all other information necessary to show the nature and extent of the claim.

(b) The commission shall prescribe forms for claims, but use of the commission forms is not mandatory. (60th Legis., Ch. 45, Sec. 5(b), sen. 4, 5.)

§ 5.308. Hearings on Claims; Notice

The commission shall set a time and a place for hearing all claims. Not less than 30 days before commencement of the hearings, the commission shall give notice of the hearings by certified mail to all persons who have filed claims in accordance with Section 5.307 of this code; or this notice may be included in the notice of adjudication provided in Section 5.306 of this code. The hearings shall be conducted as provided in Section 5.337 of this code. (60th Legis., Ch. 45, Sec. 5(c).)

§ 5.309. Preliminary Determination of Claims

(a) On completion of the hearings, the commission shall make a preliminary determination of the claims to water rights under adjudication.

(b) One copy of the preliminary determination shall be furnished without charge to each person who filed a claim in accordance with Section 5.307 of this code. Additional copies of the preliminary determination

shall be made available for public inspection at convenient locations throughout the river basin, as designated by the commission. Copies shall also be made available to other interested persons at a reasonable price, based on the cost of reproduction. (60th Legis., Ch. 45, Sec. 5(d), sen. 1, 2, 3, 4.)

§ 5.310. Evidence Open to Inspection

All evidence presented to or considered by the commission shall be open to public inspection for a period of not less than 60 days, as fixed by the commission, after the notice prescribed in Section 5.312 of this code is issued. (60th Legis., Ch. 45, Sec. 5(d), sen. 5.)

§ 5.311. Date for Filing Contests

The commission shall set a date for filing contests on the preliminary determination, which date shall not be less than 30 days after the period for public inspection of the evidence has closed. (60th Legis., Ch. 45, Sec. 5(d), sen. 6.)

§ 5.312. Notice of Preliminary Determination; Copies

(a) Promptly after the preliminary determination is made as provided in Section 5.309 of this code, the commission shall publish notice of the determination once a week for two consecutive weeks in one or more newspapers having general circulation in the river basin in which the stream or segment that is the subject of the adjudication is located.

(b) The commission shall also send notice by certified mail to each claimant of water rights within the river basin in which the stream or segment is located, to the extent that the claimants can be reasonably ascertained from the records of the commission.

(c) Each notice shall state:

(1) the place and the period of time that the preliminary determination and evidence presented to or considered by the commission will be open for public inspection;

(2) the locations throughout the river basin where copies of the preliminary determination will be available for public inspection;

(3) the method of ordering copies of the preliminary determination, and the charge for copies;

(4) the date by which contests on the preliminary determination must be filed. (60th Legis., Ch. 45, Sec. 5(d), sen. 7, 8, 9.)

§ 5.313. Filing Contests

(a) Any water right claimant affected by the preliminary determination, including any claimant to water rights within the river basin but outside the stream or segment under adjudication, who disputes the preliminary determination, may, within the time for filing contests prescribed by the commission in the notice, including any extension of the time, file a written contest with the commission, stating with reasonable certainty the grounds of his contest.

(b) The statement filed to contest a preliminary determination must be verified by an affidavit of the contestant, his agent, or his attorney.

(c) If the contest is directed against the preliminary determination of the water rights of other claimants, a copy shall be served on each of these claimants or his attorney by certified mail, and proof of service shall be filed with the commission. (60th Legis., Ch. 45, Sec. 5(e), sen. 1, 2.)

§ 5.314. Hearing on Contest; Notice

After the time for filing contests has expired, the commission shall prepare a notice setting forth the part of the preliminary determination

to which each contest is directed and the time and place of a hearing on the contest. The notice shall be sent to each claimant of water rights within the river basin in which the stream or segment is located, to the extent that the claimants can be reasonably ascertained from the records of the commission. The hearing shall be conducted as provided in Section 5.337 of this code. (60th Legis., Ch. 45, Sec. 5(e), sen. 3, 4, 5.)

§ 5.315. Final Determination

On completion of the hearings on all contests, the commission shall make a final determination of the claims to water rights under adjudication. The commission shall send a copy of the final determination, and any modification of the final determination, to each claimant whose rights are adjudicated and to each contesting party. (60th Legis., Ch. 45, Sec. 5(f), sen. 1, 2.)

§ 5.316. Application for Rehearing

Within 30 days from the date of the final determination, any affected party may apply to the commission for a rehearing. Applications for rehearing which in the opinion of the commission are without merit may be denied without notice to other parties, but no application for rehearing shall be granted without notice to each claimant whose rights are adjudicated and to each contesting party. (60th Legis., Ch. 45, Sec. 5(f), sen. 3, 4.)

§ 5.317. Filing Final Determination with District Court

(a) As soon as practicable after the disposition of all applications for rehearing, the commission shall file a certified copy of the final determination, together with all evidence presented to or considered by the commission, in a district court of any county in which the stream or segment under adjudication is located. However, if the stream or segment under adjudication includes all or parts of three or more counties and if 10 or more affected persons who appeared in the proceedings petition the commission to do so, the commission shall file the action in a convenient district court of a judicial district which is not within the river basin of the stream or segment under adjudication.

(b) The commission shall obtain an order from the court fixing a time not less than 30 days from the date of the order for the filing of exceptions to the final determination and also fixing a time not less than 60 days from the date of the order for the commencement of hearings on exceptions.

(c) The commission shall immediately give written notice of the court order by certified mail to all parties who appeared in the proceedings before the commission. The commission shall file proof of the service with the court. (60th Legis., Ch. 45, Sec. 5(g).)

§ 5.318. Exceptions to Final Determination

(a) Any affected person who appeared in the proceeding before the commission may file exceptions to the final determination. An exception must state with a reasonable degree of certainty the grounds for the exception and must specify the particular paragraphs and pages of the determination to which the exception is taken.

(b) Three copies of the exceptions shall be filed in court, and a copy shall be served on the commission. The commission shall make copies of all exceptions available at a reasonable price, based on the cost of reproduction. (60th Legis., Ch. 45, Sec. 5(h).)

§ 5.319. Hearings on Exceptions

(a) The court shall hear any exceptions that have been filed. The commission and all affected persons who appeared in the proceedings be-

fore the commission are entitled to appear and be heard on the exceptions. The court may permit other parties in interest to appear and be heard for good cause shown.

(b) The court may conduct nonjury hearings and proceedings at any convenient location within the state. Actual expenses incurred by the court outside its judicial district shall be taxed as costs. (60th Legis., Ch. 45, Sec. 5(i).)

§ 5.320. Scope of Judicial Review

(a) In passing on exceptions, the court shall determine all issues of law and fact independently of the commission's determination. The substantial evidence rule shall not be used. The court shall not consider any exception which was not brought to the commission's attention by application for rehearing. The court shall not consider any issue of fact raised by an exception unless the record of evidence before the commission reveals that the question was genuinely in issue before the commission.

(b) A party in interest may demand a jury trial of any such issue of fact, but the court may in its discretion have a separate trial with a separate jury of any such issue.

(c) The legislature declares that the provisions of this section are not severable from the remainder of this subchapter, and that this subchapter would not have been passed without the inclusion of this section. If this section is for any reason held invalid, unconstitutional, or inoperative in any way, the holding applies to the entire subchapter so that the entire subchapter is null and void. (60th Legis., Ch. 45, Sec. 5(j).)

§ 5.321. Evidence

Any exception heard by the court without a jury may be resolved on the record of evidence before the commission, or the court may take additional evidence or direct that additional evidence be heard by the commission. (60th Legis., Ch. 45, Sec. 5(k), sen. 1.)

§ 5.322. Final Decree

(a) After the final hearing, the court shall enter a decree affirming or modifying the order of the commission.

(b) The court may assess the costs as it deems just.

(c) An appeal may be taken from the decree of the court in the same manner and with the same effect as in other civil cases.

(d) The final decree in every water right adjudication is final and conclusive as to all existing and prior rights and claims to the water rights in the adjudicated stream or segment of a stream. The decree is binding on all claimants to water rights outside the adjudicated stream or segment of a stream.

(e) Except for domestic and livestock purposes or rights subsequently acquired by permit, a water right is not recognized in the adjudicated stream or segment of a stream unless the right is included in the final decree of the court. (60th Legis., Ch. 45, Sec. 5(k), sen. 2, 3, 4, 5.)

§ 5.323. Certificate of Adjudication

(a) When a final determination of the rights to the waters of a stream has been made in accordance with the procedure provided in this subchapter and the time for a rehearing has expired, the commission shall issue to each person adjudicated a water right a certificate of adjudication, signed by the chairman and bearing the seal of the commission.

(b) In the certificate the commission shall include:

(1) a reference to the final decree;

(2) the name and post-office address of the holder of the adjudicated right;

- (3) the priority, extent, and purpose of the adjudicated right; and if the right is for irrigation, a description of the irrigated land; and
- (4) all other information in the decree relating to the adjudicated right. (60th Legis., Ch. 45, Sec. 5(l).)

§ 5.324. Recordation of Certificate

(a) The commission shall transmit the certificate of adjudication or a true copy to the county clerk of each county in which the appropriation is made.

(b) On receipt of the recording fee from the holder of the certificate, the county clerk shall file and record the certificate in a well-bound book provided and kept for that purpose only. The clerk shall index the certificate alphabetically under the name of the holder of the certificate of adjudication and under the name of the stream or source of water supply.

(c) When a certificate of adjudication is filed and recorded as provided in this section, the county clerk shall deliver the certificate, on demand, to the holder. (60th Legis., Ch. 45, Sec. 5(m).)

§ 5.325. Water Divisions

The commission shall divide the state into water divisions for the purpose of administering adjudicated water rights. Water divisions may be created from time to time as the necessity arises. The divisions shall be constituted to secure the best protection to the holders of water rights and the most economical supervision on the part of the state. (60th Legis., Ch. 45, Sec. 8(a).)

§ 5.326. Appointment of Watermaster

(a) The commission may appoint one watermaster for each water division.

(b) A watermaster holds office until a successor is appointed. The commission may remove a watermaster at any time.

(c) The commission may employ assistant watermasters and other employees necessary to aid a watermaster in the discharge of his duties.

(d) In a water division in which the office of watermaster is vacant, the commission has the powers of a watermaster.

(e) The commission shall supervise and generally direct the watermaster in the performance of his duties. A watermaster is responsible to the commission for the proper performance of his duties.

(f) A person dissatisfied with any action of a watermaster may apply to the commission for relief. (60th Legis., Ch. 45, Sec. 8(b).)

§ 5.327. Duties of Watermaster

(a) A watermaster shall divide the water of the streams or other sources of supply of his division in accordance with the adjudicated water rights.

(b) A watermaster shall regulate or cause to be regulated the controlling works of reservoirs and diversion works in time of water shortage, as is necessary because of the rights existing in the streams of his division, or as is necessary to prevent the waste of water or its diversion, taking, storage, or use in excess of the quantities to which the holders of water rights are lawfully entitled.

(c) A watermaster may regulate the distribution of water from any system of works that serves users whose rights have been separately determined. (60th Legis., Ch. 45, Sec. 8(c), sen. 1, 2.)

§ 5.328. Watermaster's Notice Posted

If, in the performance of his duties, a watermaster regulates diversion works or the controlling works of reservoirs, he shall attach to the works

a written notice, properly dated and signed, stating that the works have been properly regulated and are wholly under his control. The notice is legal notice to all parties interested in the diversion and distribution of the water served by the diversion works or reservoir. (60th Legis., Ch. 45, Sec. 8(c), sen. 3.)

§ 5.329. Compensation and Expenses of Watermaster

(a) The commission shall pay the compensation and necessary expenses of a watermaster, assistant watermasters, and other necessary employees, but the holders of water rights that have been determined or adjudicated and are to be administered by the watermaster shall reimburse the commission for the compensation and expenses.

(b) After the adjudication decree becomes final, the commission shall notify each holder of water rights under the decree of the amount of compensation and expenses that will be required annually for the administration of the water rights so determined.

(c) The commission shall hold a public hearing to determine the apportionment of the costs of administration of adjudicated water rights among the holders of the rights. After a public hearing the commission shall issue an order assessing the annual cost against the holders of water rights to whom the water will be distributed under the final decree. The commission shall equitably apportion the costs. The commission may provide for payments in installments and shall specify the dates by which payments shall be made to the commission.

(d) The commission shall transmit all collections under this section to the state treasurer.

(e) No water shall be diverted, taken, or stored by, or delivered to, any person while he is delinquent in the payment of his assessed costs.

(f) An order of the commission assessing costs remains in effect until the commission issues a further order. The commission may modify, revoke, or supersede an order assessing costs with a subsequent order. The commission may issue supplementary orders from time to time to apply to new diversions. (60th Legis., Ch. 45, Sec. 8(d).)

§ 5.330. Outlet for Free Passage of Water

The owner of any works for the diversion or storage of water shall maintain to the satisfaction of the commission a substantial headgate at the point of diversion, or a gate on each discharge pipe of a pumping plant, constructed so that it can be locked at the proper place by the watermaster, or a suitable outlet in a dam to allow the free passage of water that the owner of the dam is not entitled to divert or impound, the suitability of the outlet to be determined by the commission. (60th Legis., Ch. 45, Sec. 8(e), sen. 1.)

§ 5.331. Measuring Devices

The commission may require the owner of any works for the diversion, taking, storage, or distribution of water to construct and maintain suitable measuring devices at points that will enable the watermaster to determine the quantities of water to be diverted, taken, stored, released, or distributed, in order to satisfy the rights of the respective users. (60th Legis., Ch. 45, Sec. 8(e), sen. 2.)

§ 5.332. Installation of Flumes

The commission may order flumes to be installed along the line of any ditch if necessary for the protection of water rights or other property. (60th Legis., Ch. 45, Sec. 8(e), sen. 3.)

§ 5.333. Failure to Comply with Commission Directions

If the owner of waterworks using state water refuses or neglects to comply with the directions of the commission given pursuant to Section 5.330, 5.331, or 5.332 of this code, the commission, after 10 days' notice or after a period of additional time that is reasonable under the circumstances, may order the watermaster to make adjustments of the control works to prevent the owner of the works from diverting, taking, storing, or distributing any water until he has fully complied with the order of the commission. (60th Legis., Ch. 45, Sec. 8(e), sen. 4.)

§ 5.334. Suit Against Commission for Injury

Any person who is injured by an act of the commission under this subchapter may bring suit against the commission to review the action or to obtain an injunction. If the water right involved has been adjudicated as provided in this subchapter, the court shall issue an injunction only if it is shown that the commission has failed to carry into effect the decree adjudicating the water right. (60th Legis., Ch. 45, Sec. 8(f).)

§ 5.335. Administration of Water Rights not Adjudicated

(a) If any area in which water rights of record in the office of the commission have not been adjudicated, the claimants of the rights and the commission may enter into a written agreement for their administration.

(b) An agreement made under authority of this section shall provide:

(1) the basis and manner of distribution of the waters to which the agreement relates;

(2) the services of a special watermaster, and assistants if necessary, to carry out the agreement; and

(3) the allocation, collection, and payment of the annual costs of administration.

(c) An agreement to administer unadjudicated water rights shall be recorded in the offices of the commission and of the county clerk of each county in which any of the works or lands affected by the agreement are located.

(d) The administration of water rights by agreement is governed by the provisions of this subchapter except as regards allocation and payment of the expenses of the administration.

(e) No agreement authorized by this section impairs any vested right to the use of water or creates any additional rights to the use of water. (60th Legis., Ch. 45, Sec. 8(g).)

§ 5.336. Administration of Permits Issued After Adjudication

Permits, other than temporary permits, that are issued by the commission to appropriate water from an adjudicated stream or segment are subject to administration in the same manner as is provided in this subchapter for adjudicated water rights. (60th Legis., Ch. 45, Sec. 6.)

§ 5.337. Hearings: Notice and Procedure

(a) The commission shall give notice of a hearing or other proceeding it orders under this subchapter in the manner prescribed in the rules and regulations of the commission, unless this subchapter specifically provides otherwise.

(b) In any proceeding in any part of the state, the commission may

(1) take evidence, including the testimony of witnesses;

(2) administer oaths;

- (3) issue subpoenas and compel the attendance of witnesses in the same manner as subpoenas are issued out of the courts of the state;
- (4) compel witnesses to testify and give evidence; and
- (5) order the taking of depositions and issue commissions for the taking of depositions in the same manner as depositions are obtained in civil actions.

(c) Evidence may be taken by a duly appointed reporter before the commission or before an authorized representative who has the power to administer oaths.

(d) Repealed by Acts 1971, 62nd Leg., p. 1769, ch. 518, § 10.

(e) If a person neglects or refuses to comply with an order or subpoena issued by the commission, or refuses to testify on any matter about which he may be lawfully interrogated, the commission may apply to a district court of the county in which the proceeding is held to punish him in the manner provided by law for such disobedience in civil actions.

(f) The commission may adjourn its proceedings from time to time and from place to place.

(g) When a proceeding before the commission is concluded, the commission shall render a decision as to the matters concerning which the proceeding was held. (60th Legis., Ch. 45, Sec. 9.)

§ 5.338. Cancellation of Water Rights

Nothing in this subchapter recognizes any abandoned or cancelled water right or impairs in any way the power of the commission under general law to forfeit, cancel, or find abandoned any water right, including adjudicated water rights. (60th Legis., Ch. 45, Sec. 10.)

§ 5.339. Underground Water Not Affected

This subchapter does not apply to underground water as defined in Section 3c, Chapter 25, Acts of the 39th Legislature, 1925, as amended (Article 7880—3c, Vernon's Texas Civil Statutes). (60th Legis., Ch. 45, Sec. 11.)

§ 5.340. Abatement of Certain Civil Suits

(a) Nothing in this subchapter prevents or precludes a person who claims the right to divert water from a stream from filing and prosecuting to a conclusion a suit against other claimants of the right to divert or use water from the same stream. However, if the commission has ordered a determination of water rights as provided in this subchapter, or if the commission orders such a determination within 90 days after notice of the filing of a suit, the suit shall be abated on the motion of the commission or any party in interest as to any issues involved in the water rights determination.

(b) If a suit is abated as provided in Subsection (a) of this section, the court may grant or continue any temporary relief necessary to preserve the status quo pending a final determination of the water rights involved. (60th Legis., Ch. 45, Sec. 7.)

§ 5.341. Saving Clause

This subchapter does not affect any action or proceeding instituted before August 28, 1967, or any right accrued before that date except those specifically provided for in this subchapter. (60th Legis., Ch. 45, Sec. 12.)

[Sections 5.342 to 5.400 reserved for expansion]

SUBCHAPTER H. COURT-APPOINTED WATERMASTER**Section 5.401. Scope of Subchapter**

The provisions of this subchapter apply to a suit if:

- (1) the state is a party;
- (2) the purpose of the suit is to determine the right of the parties to divert or use water of a surface stream; and
- (3) rights are asserted to use water in, or divert water to, not more than four counties. (55th Legis., Ch. 458, Sec. 1, sen. 1 (part).)

§ 5.402. Appointment and Authority of Watermaster

(a) A court having jurisdiction over a suit described in Section 5.401 of this code may appoint a watermaster with power to allocate and distribute, under the supervision of the court, the water taken into judicial custody.

(b) The court may not appoint a watermaster with authority to act both upstream and downstream from an existing reservoir on any surface stream of the state. However, once a watermaster is appointed, the construction of a new reservoir does not invalidate his appointment or restrict his authority over that portion of the stream contemplated by the original order of appointment. (55th Legis., Ch. 458, Sec. 1, sen. 1 (part), 2.)

(c) Under terms and conditions prescribed by the court, the watermaster may incur necessary expenses, appoint necessary deputies and assistants, and perform duties and assume responsibilities delegated to him by the court. (55th Legis., Ch. 458, Sec. 2, 13, as amended.)

§ 5.403. Compensation of Watermaster

The court shall fix the compensation of the watermaster and his staff. (55th Legis., Ch. 458, Sec. 3, sen. 1 (part); and Sec. 14, sen. 1 (part), as amended.)

§ 5.404. Expenses and Assessment of Costs of Watermaster

(a) The trial court shall assess the costs and expenses of the watermaster and his staff against all persons receiving an allocation of the water in judicial custody. The court shall assess the costs and expenses monthly or at other time intervals ordered by the court.

(b) The court shall assess the costs and expenses on the basis of:

- (1) acreage;
- (2) acre-feet of allocated water;
- (3) per capita; or
- (4) any other formula the court, after notice and hearing, determines to be the most equitable.

(c) During the pendency of an appeal, the trial court, in its discretion, may assess costs against some parties on one basis and against other parties on another basis. (55th Legis., Ch. 458, Sec. 3, sen. 1 (part), 2; and Sec. 14, sen. 1 (part), 2, as amended.)

(d) The costs and expenses are not to be taxed as ordinary court costs, but are to be considered costs necessary to protect the rights and privileges of the parties receiving allocations of water during the litigation and are to be paid by those parties. (55th Legis., Ch. 458, Sec. 4, sen. 1; and Sec. 15, sen. 1, as amended.)

§ 5.405. Failure to Pay Assessed Costs

If the costs and expenses assessed are not paid within the time prescribed by the court, the court after notice and hearing may withdraw or limit allocations of water to any party failing or refusing to pay his share until all costs and expenses assessed against him are paid in full. (55th Legis., Ch. 458, Sec. 4, sen. 2; and Sec. 15, sen. 2, as amended.)

§ 5.406. Judicial Custody of Water During Appeal

If a party appeals the judgment of the trial court, that court may retain custody of the water which it has previously taken into judicial custody and over which it has appointed a watermaster. Until final judgment is entered in the case, the trial court has exclusive jurisdiction to administer, allocate, and distribute the water retained in its custody, as provided in Section 5.407 of this code. (55th Legis., Ch. 458, Sec. 9, as amended.)

§ 5.407. Allocation and Distribution of Water During Appeal

During the pendency of an appeal, the trial court shall limit the allocation and distribution of the water in its custody to the parties adjudicated to have a valid right to use the water. However, if any party prosecutes an appeal and files a supersedeas bond, the trial court shall make any necessary adjustments in the water allocations and allocate to that party the same amount of water that he received during the proceedings in the trial court. (55th Legis., Ch. 458, Sec. 10, as amended.)

§ 5.408. Retention of Watermaster During Appeal

During the pendency of an appeal, the trial court may retain the watermaster in office with the same authority he had during the trial proceedings. (55th Legis., Ch. 458, Sec. 12, as amended.)

§ 5.409. Violations of Court Orders

If a party violates any order of the trial court, either during trial proceedings or during an appeal, the trial court may limit or withdraw his allocation of water until he corrects the violation to the satisfaction of the court. (55th Legis., Ch. 458, Sec. 5, 11, as amended.)

The commission's finding that the federal project is either feasible or not feasible is final and the governor shall notify the federal agency that the federal project has been either approved or disapproved. (54th Legis., Ch. 47, Sec. 5.)

(g) The provisions of this section do not apply to the state soil conservation board as long as that board is designated by the governor as the authorized state agency having supervisory responsibility to approve or disapprove of projects designed to effectuate watershed-protection and flood-prevention programs initiated in cooperation with the United States Department of Agriculture. (54th Legis., Ch. 47, Sec. 6.)

(c) A district that wants to issue bonds for any purpose shall submit to the commission a written application for investigation, together with a copy of the engineer's report and a copy of the data, profiles, maps, plans, and specifications made in connection with the engineer's report. (61st Legis., Ch. 563, Sec. 1, sen. 2.)

(d) The commission or its designated agent shall examine the application and other information and shall visit the project and carefully inspect it. The commission or its designated agent may ask for and shall be supplied with additional data and information requisite to a reasonable and careful investigation of the project and proposed improvements. (61st Legis., Ch. 563, Sec. 1, sen. 3.)

(e) The commission or its designated agent shall file in the commission office written suggestions for changes and improvements and shall furnish a copy of the suggestions to the board of the district. If the commission finally approves or refuses to approve the project, or the issuance of bonds for the improvements, it shall make a full written report, file it in its office, and furnish a copy of the report to the board of the district. (61st Legis., Ch. 563, Sec. 1, sen. 4, 5.)

(f) During the course of construction of the project and improvements, no substantial alterations shall be made in the plans and specifications without the approval of the commission. The commission or its designated agent has full authority to inspect the improvements at any time during construction to determine if the project is being constructed in accordance with the plans and specifications approved by the commission. (61st Legis., Ch. 563, Sec. 1, sen. 6, 7.)

If, within 10 days after the notice is mailed, the board of the district does not take steps to insure that the project is being constructed in accordance with the approved plans and specifications, the commission shall give written notice of that fact to the attorney general. (61st Legis., Ch. 563, Sec. 1, sen. 8, 9.)

(h) After the attorney general receives the notice, he may bring an action for injunctive relief, or he may bring quo warranto proceedings against the directors. Venue for either of these actions is exclusively in the district court of Travis County. (61st Legis., Ch. 563, Sec. 1, sen. 10, 11.)

§ 11.102. Interbasin Water Transfer

The board shall not prepare or formulate a plan which contemplates or results in the removal of surface water from the river basin of origin if the water supply involved will be required for reasonably foreseeable water supply requirements within the river basin of origin during the next ensuing 50-year period, except on a temporary, interim basis. After the hearing and on notification of affirmative findings by the commission, the board shall formally adopt the state water plan. A majority vote is necessary for adoption. (55th Legis., Ch. 425, Sec. 3, subsec. (b), sen. 7, 8, 9, as amended.)

(a) No sale, transfer, or lease of a state facility is valid unless the board first makes the following affirmative findings:

- (1) that the applicant has a permit granted by the commission;
- (2) that the sale, transfer, or lease will contribute to the conservation and development of the water resources of the state; and

(3) that the consideration for the sale, transfer, or lease is fair, just, and reasonable and in full compliance with the law.

(b) The consideration for any such sale or transfer may be either money or revenue bonds, which revenue bonds, for the purposes hereof, shall be deemed the same as money.

(c) The amount of money shall be equal to the price for purchasing the facilities as prescribed by the provisions of Section 11.357 of this code, or if revenue bonds shall constitute the consideration, the principal amount of such revenue bonds shall be equal to the price for purchasing the facilities as prescribed by the provisions of Section 11.357 of this code and such revenue bonds shall bear interest at the rate prescribed in Section 11.409 of this code with regard to bonds purchased with the proceeds of the Texas Water Development Fund. (55th Legis., Ch. 425, Sec. 12, subsec. (i), as amended.)

Amended by Acts 1971, 62nd Leg., p. 1974, ch. 612, Art. 1, § 2, eff. Sept. 1, 1971.

§ 11.361. Disposition of Proceeds

(a) The money received from any sale, transfer, or lease of facilities as cash, or in the case of a sale or transfer involving revenue bonds, the money received as matured interest or principal on the bonds shall be used to pay the principal of and interest on water development bonds or to meet contractual obligations incurred by the board. The money shall be collected and credited to the proper special fund as is money received in payment of principal and interest on loans to political subdivisions under this chapter, taking into consideration the manner in which the facilities were acquired.

(b) When enough money has been collected to pay all outstanding indebtedness, including the principal of all state bonds and contractual obligations and the full amount of interest to accrue on these debts, the board may use any further amounts received from the sale, transfer, or lease of facilities to acquire additional facilities or to provide assistance to political subdivisions for water supply projects. ((S.B. No. 29)) (55th Legis., Ch. 425, Sec. 12, subsec. (j), as amended.)

Amended by Acts 1971, 62nd Leg., p. 1975, ch. 612, Art. 1, § 2, eff. Sept. 1, 1971.

§ 11.362. Sale of Stored Water

The board may sell any unappropriated public water of the state and other water acquired by the state that is stored by or for it. The price will be determined by the board. (55th Legis., Ch. 425, Sec. 12, subsec. (k), sen. 2, as amended.)

§ 11.363. Permit

(a) The board may not sell the water stored in a facility to any person who has not obtained a permit from the commission. The rights of the applicant in the water are governed by the terms and conditions of the permit. The permit may be for a term of years.

(b) Whether the application for a permit involves a proposed use of water inside or outside the watershed of the impoundment, the commission shall give paramount consideration to recouping the state's investment in order to protect the public interest and promote the general welfare.

(c) The permit shall be conditioned on continued payment of the obligations assumed under the contract with the board and may provide for cancellation at any time on breach of the contract. (55th Legis., Ch. 425, Sec. 12, subsec. (k), sen. 3, 4, 5, 6, 7, as amended.)

§ 11.364. Sale Contract: Provisions, Limitations

(a) The board may determine the consideration and other provisions to be included in water sale contracts, but the consideration and other provisions shall be fair, reasonable, and nondiscriminatory. The board may include charges for standby service, which means holding water and conservation storage space for use and for actual delivery of water.

(b) The board shall make the same determinations with respect to the sale of water as are required in Section 11.360 of this code with respect to the sale or lease of facilities.

(c) The board shall not compete with any political subdivision in the sale of water when this competition jeopardizes the ability of the political subdivision to meet obligations incurred to finance its own water supply projects. (55th Legis., Ch. 425, Sec. 12, subsec. (k), sen. 8, 9, 10, 11, as amended.)

§ 11.365. Emergency Releases of Water

Unappropriated water and other water of the state stored in any facility acquired by and under the control of the board may be released without charge to relieve any emergency condition arising from drought, severe water shortage, or public calamity, if the Texas Water Rights Commission first determines the existence of the emergency and requests the board to release water. (55th Legis., Ch. 425, Sec. 12, subsec. (k), sen. 14, as amended.)

§ 11.366. Preferences

The board shall give political subdivisions a preferential right, but not an exclusive right, to purchase, acquire, or lease facilities, and to purchase water from facilities. Preferences shall be given in these respects in accord with the provisions of Section 5.122 of this code relating to preferences in the appropriation and use of state water. The board and the Texas Water Rights Commission shall coordinate their efforts to meet these objectives and to assure that the public water of this state, which is held in trust for the use and benefit of the public, will be conserved, developed, and utilized in the greatest practicable measure for the public welfare. (55th Legis., Ch. 425, Sec. 12, subsec. (1), as amended.)

§ 11.367. Lease of Land Prior to Project Construction

The board may lease tracts of land acquired for project purposes for a term of years for any purpose not inconsistent with ultimate project construction. The lease shall be scheduled to expire before initiation of project construction. (55th Legis., Ch. 425, Sec. 12, subsec. (o), sen. 1, 2 (part), as amended.)

§ 11.368. Lease Contributions Equivalent to Taxes

The lease may provide for contribution by the lessee to units of local government of amounts equivalent to ad valorem taxes or special assessments. (55th Legis., Ch. 425, Sec. 12, subsec. (o), sen. 2 (part), as amended.)

SUBCHAPTER J. ASSISTANCE TO POLITICAL SUBDIVISIONS**Section 11.401. Financial Assistance**

The development fund may be used by the board to provide financial assistance to political subdivisions for the construction, acquisition, or improvement of projects, but to the extent that financial assistance is given by the board to an applicant for construction, acquisition, or improvement

of any waste water treatment plant, the financial assistance shall be considered as state matching funds for obtaining maximum federal grants for construction of treatment works. (55th Legis., Ch. 425, Sec. 11, sen. 1; Sec. 12, subsec. (a) sen. 1 (part), as amended.)
Amended by Acts 1971, 62nd Leg., p. 1774, ch. 518, § 21, eff. May 31, 1971.

§ 11.402. Application for Assistance

(a) In an application to the board for financial assistance, the applicant shall include:

- (1) the name of the political subdivision and its principal officers;
- (2) a citation of the law under which the political subdivision operates and was created;
- (3) the total cost of the project;
- (4) the amount of state financial assistance requested;
- (5) the plan for repaying the total cost of the project; and
- (6) any other information the board requires in order to perform its duties and to protect the public interest. (55th Legis., Ch. 425, Sec. 13.)

(b) The board may not accept an application for financial assistance unless it is submitted in affidavit form by the officials of the political subdivision. The board shall prescribe the affidavit form in its rules. The rules do not restrict or prohibit the board from requiring additional factual material from an applicant. (55th Legis., Ch. 425, Sec. 14, sen. 4, 5, as amended.)

§ 11.403. Certificate of Commission or Approval by Texas Water Quality Board

(a) Except as provided in Subsection (b) of this section, the board shall not deliver funds pursuant to an application for financial assistance until the political subdivision has furnished the board a resolution adopted by the Texas Water Rights Commission certifying:

- (1) that an applicant proposing surface water development has the necessary water right authorizing it to appropriate and use the water which the project will provide; or
- (2) that an applicant proposing underground water development has the right to use water that the project will provide.

(b) If an application includes a proposal for a waste water treatment plant, the part of the application relating to the waste water treatment plant does not need to be certified by the Texas Water Rights Commission, but the board may not deliver funds for the waste treatment plant until the political subdivision has furnished the board written evidence of approval of the plans for the waste water treatment plant by the Texas Water Quality Board or the executive director when authorized by the Texas Water Quality Board. (55th Legis., Ch. 425, Sec. 11, sen. 2, as amended.)
Amended by Acts 1971, 62nd Leg., p. 1774, ch. 518, § 21, eff. May 31, 1971.

§ 11.404. Considerations in Passing on Application

In passing on an application from a political subdivision for financial assistance, the board shall consider:

- (1) the needs of the area to be served by the project and the benefit of the project to the area in relation to the needs of other areas requiring state assistance in any manner and the benefits of those projects to the other areas;
- (2) the availability of revenue to the political subdivision, from all sources, for the ultimate repayment of the cost of the project, including interest;

(3) whether the political subdivision can reasonably finance the project without assistance from the state;

(4) the relationship of the project to the overall, statewide water needs; and

(5) the relationship of the project to the state water plan. (55th Legis., Ch. 425, Sec. 14, sen. 1, 2, as amended.)

§ 11.405. Approval of Application

The board by resolution may approve an application if, after considering the factors listed in Section 11.404 of this code and any other relevant factors, the board finds:

(1) that the public interest requires state participation in the project;

(2) that the political subdivision cannot reasonably finance the project without state assistance in the amount finally approved by the board; and

(3) that in its opinion the revenue or taxes pledged by the political subdivision will be sufficient to meet all the obligations assumed by the political subdivision during the succeeding period of not more than 50 years. (55th Legis., Ch. 425, Sec. 14, sen. 3, as amended.)

§ 11.406. Method of Financial Assistance

The board may provide financial assistance by using money in the water development fund to purchase bonds or other securities issued by the political subdivision to finance the project. The board may purchase bonds or securities that are secondary or subordinate to other bonds or securities issued by the political subdivision to finance the same project. The board may purchase outstanding prior lien bonds previously issued by the political subdivision when this will avoid or reduce the necessity for issuing junior lien bonds for subsequent sale to the board. However, the security for both prior lien and junior lien bonds shall be pledged from substantially the same sources of revenue. (55th Legis., Ch. 425, Sec. 15, sen. 1, 2, as amended.)

§ 11.407. Bond Maturity

The board may not purchase bonds or other securities which have a maturity date more than 50 years from the date of issuance. (55th Legis., Ch. 425, Sec. 15, sen. 3, as amended.)

§ 11.408. Repealed by Acts 1971, 62nd Leg., p. 1984, ch. 612, Art. 1, § 11

Section 11.408 provided: "The board may not purchase bonds or other securities of a political subdivision in excess of \$30 million for any one project."

§ 11.409. Interest Rate

(a) Except as provided in Subsection (b) of this section, bonds and securities purchased by the board with money in the development fund shall bear the weighted average effective interest rate on all water development bonds previously sold, plus one-half of one percent. The bonds shall bear coupons evidencing interest at a rate or combination of rates that will approximate the effective rate as nearly as the board deems practicable. The effective rate shall be determined by the payment of premiums or the deduction of discounts as necessary.

(b) Outstanding prior lien bonds purchased by the board under Section 11.406 of this code need not bear the interest rate provided in Subsection (a) of this section, but the board may pay such price or prices for outstanding prior lien bonds which in its discretion will ac-

comply with the objective of Section 11.406. (55th Legis., Ch. 425, Sec. 15, sen. 5, 6, as amended.)

Amended by Acts 1971, 62nd Leg., p. 1766, ch. 518, § 1, eff. May 31, 1971.

§ 11.410. Approval and Registration

The board shall not purchase any bonds or securities that have not been approved by the attorney general and registered by the comptroller. (55th Legis., Ch. 425, Sec. 15, sen. 7 (part), as amended.)

§ 11.411. Bonds Incontestable

The bonds or other securities issued by a political subdivision are valid, binding, and incontestable after:

- (1) approval by the attorney general;
- (2) registration by the comptroller; and
- (3) sale at not less than par value and accrued interest. (55th Legis., Ch. 425, Sec. 15, sen. 7 (part), as amended.)

§ 11.412. Security for Bonds

(a) Bonds purchased by the board shall be supported by:

- (1) all or part of the net revenue from the operation of the project;
- (2) taxes levied by the political subdivision for the purpose; or
- (3) a combination of taxes and net revenue, and revenue from other available sources.

(b) The board may require that the bonds be supported both by taxes and by net revenue from the operation of the project, in any ratio the board considers necessary to fully secure the investment. The board shall establish other conditions and requirements it considers to be consistent with sound investment practices and in the public interest. (55th Legis., Ch. 425, Sec. 17.)

(c) As used in this section, "net revenue" means gross revenue less the amount necessary to provide for principal, interest, and reserve requirements of bonds superior to those purchased by the board and the amount necessary to pay the cost of maintaining and operating the project. (55th Legis., Ch. 425, Sec. 16, sen. 1.)

§ 11.413. Default

(a) In the event of a default in payment of the principal or interest on bonds purchased by the board, a default in payment of amounts due under a loan agreement executed under the provisions of Section 7.10 of House Bill No. 1440, Acts of the 62nd Legislature, Regular Session, 1971,¹ or any other default as defined in the proceedings or indentures authorizing the issuance of the bonds, the attorney general shall institute appropriate proceedings by mandamus or other legal remedies to compel the political subdivision or its officers, agents, and employees to cure the default by performing those duties which they are legally obligated to perform. These proceedings shall be brought in a district court of Travis County.

(b) The provisions of this section are cumulative of any other rights or remedies to which the bondholders may be entitled. (55th Legis., Ch. 425, Sec. 16, sen. 2, 3, 4.)

Amended by Acts 1971, 62nd Leg., p. 1774, ch. 518, § 22, eff. May 13, 1971.

§ 11.414. Sale of Bonds by Board

(a) The board may sell or dispose of bonds purchased with money in the development fund. The board may not sell the bonds for less than par value and accrued interest.

(b) The board shall first offer the bonds at their par value plus accrued interest to the issuing political subdivision at least 30 days before the date of requesting competitive bids.

(c) If the political subdivision fails to give notice to the board of its desire to acquire the bonds at par value and accrued interest within the 30-day period, then the board shall give notice of the sale of the bonds, receive competitive bids, and conduct the sale, all in the manner provided for the sale of water development bonds. (55th Legis., Ch. 425, Sec. 15, sen. 8, 10, as amended.)

§ 11.415. Proceeds From Sale

The proceeds from the sale of political subdivision bonds held by the board shall be credited to the development fund, except that accrued interest shall be credited to the interest and sinking fund. (55th Legis., Ch. 425, Sec. 15, sen. 9, as amended.)

§ 11.416. Construction Contract Requirements

(a) The governing body of each political subdivision receiving financial assistance from the fund shall require in all contracts for the construction of a project:

(1) that payment be made in partial payments as the work progresses;

(2) that each partial payment shall not exceed 90 percent of the amount due at the time of the payment as shown by the engineer of the project; and

(3) that payment of the 10 percent remaining due upon completion of the contract shall be made only after:

(A) approval by the engineer for the political subdivision as required under the bond proceedings; and

(B) certification by the board that the work to be done under the contract has been completed and performed in a satisfactory manner and in accordance with sound engineering principles and practices.

(55th Legis., Ch. 425, Sec. 18, sen. 1, 2, as amended.)

§ 11.417. Filing Construction Contract

The political subdivision shall file in the office of the board a certified copy of each construction contract it enters into for the construction of all or part of a project. Each contract shall contain or have attached to it the specifications, plans, and details of all work included in the contract. (55th Legis., Ch. 425, Sec. 18, sen. 6, 7, as amended.)

§ 11.418. Board Inspection of Projects

(a) The board may inspect the construction of a project at any time to assure that:

(1) the contractor is substantially complying with the engineering plans of the project as submitted when approval of the feasibility of the project was sought; and

(2) the contractor is constructing the project in accordance with sound engineering principles.

(b) Inspection of a project by the board does not subject the state to any civil liability. (55th Legis., Ch. 425, Sec. 18, sen. 3, as amended.)

§ 11.419. Alteration of Plans

After board approval of engineering plans, a political subdivision may not make any substantial or material alteration in the plans unless the

board authorizes the alteration. (55th Legis., Ch. 425, Sec. 18, sen. 4, as amended.)

§ 11.420. Certificate of Approval

The board may consider the following as grounds for refusal to give a certificate of approval for any construction contract:

- (1) failure to construct the project according to the plans as the board approved them or altered with the board's approval;
- (2) failure to construct the works in accordance with sound engineering principles; or
- (3) failure to comply with any term of the contract. (55th Legis., Ch. 425, Sec. 18, sen. 5, as amended.)

The date of the publication shall be not less than 20 days before the date set for the hearing.

(d) If notice of the hearing is required by this chapter to be given to a person, the notice shall be served personally or mailed not less than 20 days before the date set for the hearing to the person at his last address known to the board. The hearing body may continue the hearing from time to time and from place to place without the necessity of publishing, serving, mailing, or otherwise issuing a new notice.

(f) If a hearing is continued and a time and place for the hearing to reconvene are not publicly announced by the person conducting the hearing at the hearing before it is recessed, a notice of any further setting of

the hearing shall be served personally or mailed in the manner prescribed in Subsection (d) of this section at a reasonable time before the new setting, but it is not necessary to publish a newspaper notice of the new setting. (60th Legis., Ch. 313, Sec. 3.13, as amended.)

The board, by order, shall set water quality standards for the water in the state, and may amend the standards from time to time. The board has the sole and exclusive authority to set water quality standards for all water in the state. (60th Legis., Ch. 313, Sec. 3.14, as amended.)

§ 21.076. Hearings on Standards; Consultation

Before setting or amending water quality standards, the board shall:

Notice of a hearing under Section 21.076 of this code shall be given to each of the following that the board believes may be affected:

(1) each local government whose boundary is contiguous to the water in question, or whose boundaries contain all or part of the water, or through whose boundaries the water flows;

§ 21.080. Action on Application

(a) Except as provided in Subsection (b) of this section, a public hearing shall be held on an application for a permit or to amend a permit. Notice of the hearing shall be given to the persons who in the judgment of the board may be affected.

(b) An application to amend a permit to improve the quality of waste authorized to be discharged may be set for consideration and may be acted on by the board at a regular meeting without the necessity of holding a public hearing if the applicant does not seek to increase significantly the quantity of waste authorized to be discharged or change materially the pattern or place of discharge. Notice of the application shall be mailed to the mayor and health authorities for the city or town, and the

county judge and health authorities for the county, in which the waste is or will be discharged, at least 10 days before the board meeting, and they may present information to the board on the application. (60th Legis., Ch. 313, Sec. 3.19, as amended.)

§ 21.081. Conditions of Permit; Amendment; Revocation and Suspension

(a) In each permit the board shall prescribe the conditions on which it is issued, including:

- (1) the duration of the permit;
- (2) the location of the point of discharge of the waste;
- (3) the maximum quantity of waste that may be discharged under the permit at any time and from time to time;
- (4) the character and quality of waste that may be discharged under the permit; and
- (5) any monitoring and reporting requirements prescribed by the board for the permittee.

(b) After a public hearing, notice of which shall be given to the permittee, the board may require the permittee, from time to time, for good cause, to conform to new or additional conditions. The board shall allow the permittee a reasonable time to conform to the new or additional conditions, and on application of the permittee, the board may grant additional time.

(c) A permit does not become a vested right in the permittee. After a public hearing, notice of which shall be given to the permittee, the board may revoke or suspend a permit for good cause on any of the following grounds:

- (1) the permittee has failed or is failing to comply with the conditions of the permit;
- (2) the permit is subject to cancellation or suspension under Section 21.201 of this code;
- (3) the permit or operations under the permit have been abandoned; or
- (4) the permit is no longer needed by the permittee.

(d) The notice required by Subsections (b) and (c) of this section shall be sent to the permittee at his last known address as shown by the records of the board. (60th Legis., Ch. 313, Sec. 3.20, as amended.)

§ 21.082. Permit: Effect on Recreational Water

In considering the issuance of a permit to discharge effluent into any body of water having an established recreational standard, the board shall consider any unpleasant odor quality of the effluent and the possible adverse effect that it might have on the receiving body of water; and the board may consider the odor as one of the elements of the water quality of the effluent. (60th Legis., Ch. 313, Sec. 3.21, as amended.)

§ 21.083. Private Sewage Facilities

(a) As used in this Section and Section 21.084 of this code "private sewage facilities" means septic tanks, pit privies, cesspools, sewage holding tanks, injection wells used to dispose of sewage, chemical toilets, treatment tanks, and all other facilities, systems, and methods used for the disposal of sewage other than disposal systems operated under a permit issued by the board.

(b) Whenever it appears that the use of private sewage facilities in an area is causing or may cause pollution, or is injuring or may injure the public health, the board may hold a public hearing in or near the area to determine whether an order should be entered controlling or prohibiting the installation or use of private sewage facilities in the area.

(c) Before entering such an order, the board shall consult with the State Commissioner of Health for recommendations concerning the impact of the use of private sewage facilities in the area on public health.

(d) If the board finds after the hearing that the use of private sewage facilities in an area is causing or may cause pollution, or is injuring or may injure the public health, the board may enter an order adopting such regulations on private sewage facilities as it may consider appropriate to abate or prevent pollution or injury to public health.

(e) The regulations so ordered may, without limitation, do one or more of the following:

(1) limit the number and kind of private sewage facilities which may be used in the area;

(2) prohibit the installation and use of additional private sewage facilities or kinds of private sewage facilities in the area;

(3) require modifications or improvements to existing private sewage facilities or impose limitations on their use; and

(4) provide for a gradual and systematic reduction of the number or kinds of private sewage facilities in the area.

(f) The board may provide in the regulations for a system of licensing of private sewage facilities in the area, including procedures for cancellation of a license for violation of this Act, the license, or the orders or regulations of the board. The board may also provide in the system of licensing for periodic renewal of the licenses, but this may not be required more frequently than once a year.

(g) The board may delegate the licensing function and the administration of the licensing system to the executive director or to any local government whose boundaries include the area or which has been designated by the board under Sections 21.201–21.205 of this code as the agency to develop a regional waste disposal system which includes the area.

(h) The board also may prescribe and require the payment of reasonable license fees by an applicant for a license, including fees for periodic renewal of a license. The board may change the amount of the license fees from time to time. The amount of the fees shall be based on the reasonable cost of performing the licensing function and administering the licensing system, including, where applicable, costs of soil percolation and other tests to determine the suitability of using a particular type or types of private sewage facilities in the area or at any location within the area, field inspections, travel, and other costs directly attributable to performing the licensing function and administering the licensing system.

(i) If the board or the executive director has the responsibility for performing the licensing function, the license fees shall be paid to the board. Those fees shall not be deposited in the general revenue fund of the state, but shall be deposited in a special fund for use by the board in performing the licensing function and administering the licensing system, and the fees so deposited are hereby appropriated to the board to use for those purposes only.

(j) If a local government has the responsibility for performing the licensing function, the fees shall be paid to the local government. (60th Legis., Ch. 313, Sec. 3.22, subsec. (a), sen. 1–4, as amended.)

Amended by Acts 1971, 62nd Leg., p. 1975, ch. 612, Art. 1, § 3, eff. Sept. 1, 1971.

§ 21.084. Control by Counties

(a) Whenever it appears to the commissioners court of any county that the use of private sewage facilities in an area within the county is causing or may cause pollution, or is injuring or may injure the public health, the county may proceed in the same manner and in accordance with the same procedures as the board to hold a public hearing and enter

an order, resolution, or other regulation as it may consider appropriate to abate or prevent pollution or injury to public health.

(b) The order, resolution, or other regulation may provide the same restrictions and requirements as are authorized for an order of the board entered under this section.

(c) Before the order, resolution, or other regulation becomes effective, the county shall submit it to the board and obtain the board's written approval.

(d) In the event of any conflict within an area between an order adopted by the board and an order, resolution, or other regulation adopted by a county under this section, the order of the board shall take precedence.

(e) Where a system of licensing has been ordered by the board or the commissioners court of a county, no person may install or use private sewage facilities required to be licensed thereunder without obtaining such a license. ((S. B. No. 835)) (60th Legis., Ch. 313, Sec. 3.22, subsec. (b), as amended.)

Amended by Acts 1971, 62nd Leg., p. 1976, ch. 612, Art. 1, § 3, eff. Sept. 1, 1971.

§ 21.085. Rating of Waste Disposal Systems

(a) After consultation with the State Department of Health, the board shall provide by rule for a system of approved ratings for municipal waste disposal systems and other waste disposal systems which the board may designate.

(b) The owner or operator of a municipal waste disposal system which attains an approved rating has the privilege of erecting signs of a design approved by the board on highways approaching or inside the boundaries of the municipality, subject to reasonable restrictions and requirements which may be established by the Texas Highway Department.

(c) In addition, the owner or operator of any waste disposal system, including a municipal system, which attains an approved rating has the privilege of erecting signs of a design approved by the board at locations which may be approved or established by the board, subject to such reasonable restrictions and requirements which may be imposed by any governmental entity having jurisdiction.

(d) If the waste disposal system fails to continue to achieve an approved rating, the board may revoke the privilege. On due notice from the board, the owner or operator of the system shall remove the signs. (60th Legis., Ch. 313, Sec. 3.23, as amended.)

§ 21.086. Approval of Disposal System Plans

(a) This section applies to all sewer systems, treatment facilities, and disposal systems, except those public sewage disposal systems for which plans are subject to review and approval by the State Department of Health or by the Texas Water Rights Commission under statutes pertaining to water districts.

(b) Before beginning construction, every person who proposes to construct or materially alter the efficiency of any sewer system, treatment facility, or disposal system to which this section applies shall submit completed plans and specifications to and obtain the approval of the plans by the board or, when authorized by the board, the executive director.

(c) The board, or the executive director when authorized by the board, shall approve the plans and specifications if they conform to the waste discharge requirements and water quality standards established by the board. (60th Legis., Ch. 313, Sec. 3.24, as amended.)

§ 21.087. Federal Grants

The board may execute agreements with the Department of the Interior, the Federal Water Pollution Control Administration, or any other federal agency that administers programs providing federal cooperation, assistance, grants, or loans for research, development, investigation, training, planning, studies, programming, and construction related to methods, procedures, and facilities for the collection, treatment, and disposal of waste or other water quality control activities. The board may accept federal funds for these purposes and for other purposes consistent with the objectives of this chapter, and may use the funds as prescribed by law or as provided by agreement. (60th Legis., Ch. 313, Sec. 3.25, as amended.)

§ 21.088. Water Quality Management Plans

(a) The board may develop and prepare, and from time to time revise, comprehensive water quality management plans for the different areas of the state, as designated by the board.

(b) The board may contract with local governments, regional planning commissions, planning agencies, other state agencies, colleges and universities in the state, and any other qualified and competent person to assist the board in developing and preparing, and from time to time revising, water quality management plans for areas designated by the board.

(c) With funds provided for the purpose by legislative appropriation, the board may make grants or interest-free loans to, or contract with, local governments, regional planning commissions, and planning agencies to pay administrative and other expenses of such entities for developing and preparing, and from time to time revising, water quality management plans for areas designated by the board. The period of time for which funding under this provision may be provided for developing and preparing, or for revising, a plan may not exceed three consecutive years in each instance. Any loan made pursuant to this subsection shall be repaid when the construction of any project included in the plan is begun.

(d) Any person developing or revising a plan shall, during the course of the work, consult with the board, and with local governments and other federal, state, and local governmental agencies which in the judgment of the board or the executive director may be affected by or have a legitimate interest in the plan.

(e) Insofar as may be practical, the water quality management plans shall be reasonably compatible with the other governmental plans for the area, such as area or regional transportation, public utility, zoning, public education, recreation, housing, and other related development plans. (60th Legis., Ch. 313, Sec. 3.26, subsecs. (a)-(e), as amended.)

§ 21.089. Approval of Plans

(a) After a water quality management plan has been prepared or significantly revised, as authorized in Section 21.088 of this code, it shall be submitted to the board and to such local governments and other federal, state, and local governmental agencies as in the judgment of the board or the executive director may be affected by or have a legitimate interest in the plan.

(b) After a reasonable period of time as determined by the board for the persons to whom the plan was submitted to review and consult on the plan, a public hearing shall be held on whether the plan should be approved or whether the plan should be modified in any way. Notice of the hearing shall be given to the person or persons who prepared or revised the plan and to the persons to whom the plan was submitted for review.

(c) After the public hearing if the board finds that the plan complies with the policy and purpose of this chapter and the rules and policies of the board, it shall approve the plan. If the board does not so find, it may disapprove the plan, modify the plan as necessary so that it will comply, or return it for further development and later resubmission to the board, in accordance with the procedure in Section 21.088 and this code.

(d) When a water quality management plan has been approved as provided in this section, the plan may be furnished to the Federal Environmental Protection Agency, the Federal Water Quality Administration, or any other federal official or agency in fulfillment of any federal water quality management planning requirement specified for any purpose by the federal government.

(e) The board may use an approved water quality management plan, or a plan in progress but not completed or approved, in reviewing and making determinations on applications for permits and on applications for financial assistance for construction of treatment works. (60th Legis., Ch. 313, Sec. 3.27, as amended.)

§ 21.0891. Construction

As used in House Bill No. 1440, Acts of the 62nd Legislature, Regular Session, 1971,¹ "construction" includes:

- (1) preliminary planning to determine the economic and engineering feasibility of the project;
- (2) engineering, architectural, legal, fiscal, and economic investigations and studies;
- (3) surveys, designs, plans, working drawings, specifications, procedures, and other actions necessary to the construction of the project;
- (4) erection, building, acquisition, alteration, remodeling, improvement, and extension; and
- (5) inspection and supervision.

§ 21.090. Fiscal Control on Water Quality Management Planning

"In administering the program for making grants and loans to and contracting with local governments, regional planning commissions, and planning agencies, as authorized in Subsection (c) of Section 21.088 of this code, the board shall adopt rules and procedures for the necessary engineering review and supervision, fiscal control, and fund accounting. The fiscal control and fund accounting procedures are supplemental to other procedures prescribed by law. ((S. B. No. 835)) (60th Legis., Ch. 313, Sec. 3.28, as amended.)

Amended by Acts 1971, 62nd Leg., p. 1978, ch. 612, Art. 1, § 4, eff. Sept. 1, 1971.

§ 21.091. Accidental Discharges and Spills

(a) As used in this section:

- (1) "Accidental discharge" means an act or omission through which waste or other substances are inadvertently discharged into water in the state.
- (2) "Spill" means an act or omission through which waste or other substances are deposited where, unless controlled or removed, they will drain, seep, run, or otherwise enter water in the state.

(3) "Other substances" means substances which may be useful or valuable and therefore are not ordinarily considered to be waste, but which will cause pollution if discharged into water in the state. (60th Legis., Ch. 313, Sec. 3.30, subsec. (a), as amended.)

(b) Whenever an accidental discharge or spill occurs at or from any activity or facility which causes or may cause pollution, the individual operating, in charge of, or responsible for the activity or facility shall notify the office of the board as soon as possible and not later than 24 hours after the occurrence. (60th Legis., Ch. 313, Sec. 3.30, subsec. (b), as amended.)

(c) Activities which are inherently or potentially capable of causing or resulting in the spillage or accidental discharge of waste or other substances, and which pose serious or significant threats of pollution, are subject to reasonable rules or orders establishing safety and preventive measures which the board may adopt or issue. The safety and preventive measures which may be required shall be commensurate with the potential harm which could result from the escape of the waste or other substances. (60th Legis., Ch. 313, Sec. 3.30, subsec. (c), as amended.)

(d) The provisions of this section are cumulative of the other provisions in this chapter relating to waste discharges, and nothing in this section exempts any person from complying with or being subject to any other provision of this chapter. (60th Legis., Ch. 313, Sec. 3.30, subsec. (d), as amended.)

§ 21.092. Control of Certain Waste Discharges by Rule

Whenever the board determines that the quality of water in an area is adversely affected or threatened by the combined effects of several relatively small-quantity discharges of wastes being made for which it is not practical to issue individual permits, or that the general nature of a particular type of activity which produces a waste discharge is such that requiring individual permits is unnecessarily burdensome both to the waste discharger and the board, the board may, by rule, regulate and set the requirements and conditions for the discharges of waste. (60th Legis., Ch. 313, Sec. 3.31, as amended.)

§ 21.093. Health Hazards

The board may use any means provided by this chapter to prevent a discharge of waste that is injurious to public health. (60th Legis., Ch. 313, Sec. 3.32, as amended.)

§ 21.094. Monitoring and Reporting

The board may prescribe reasonable requirements for a person making waste discharges to monitor and report on his waste collection, treatment, and disposal activities. When in the judgment of the board significant water quality management benefits will result or water quality management needs justify, the board may also prescribe reasonable requirements for any person or persons making waste discharges to monitor and report on the quality of any water in the state which the board has reason to believe may be materially affected by the waste discharges. (60th Legis., Ch. 313, Sec. 3.33, as amended.)

§ 21.095. The State of Texas Water Pollution Control Compact

(a) The legislature recognizes that various river authorities (as defined in Article 7621g, Vernon's Texas Civil Statutes¹ and/or Chapter 25 of this code) and municipal water districts and authorities of the state have signed, and that others are authorized to sign and may sign, a document entitled "The State of Texas Water Pollution Control Compact," (hereinafter called the "Compact") which was approved by Order of the Texas Water Quality Board on March 26, 1971, and which is now on file

in the official records of said board, wherein each of the signatories is by law an official agency of the state, created pursuant to Article XVI, Section 59 of the Texas Constitution, and operating on a multiple county or regional basis; and that collectively those signatories constitute an agency of the state authorized to agree to pay, and to pay, for and on behalf of the state, not less than twenty-five per centum of the estimated costs of all water pollution control projects in the state, wherever located, for which federal grants are to be made pursuant to clause (7) of subsection (b) of Section 1158 of Title 33 of the United States Code (the Federal Water Pollution Control Act), as amended,² or any similar law, in accordance with and subject to the terms and conditions of the Compact. The Compact provides a method for taking advantage of increased federal grants for water pollution control projects by virtue of the state payment, which will be made from the proceeds from the sale of bonds by the signatories to the Compact. The Compact is hereby ratified and approved, and it is hereby provided that Section 4a of Article 7621g, Vernon's Texas Civil Statutes and/or Section 25.026 of this code shall not constitute a limitation or restriction on any signatory, with respect to any contract entered into pursuant to the Compact or with respect to any water pollution control project in the state, wherever located, for which the aforesaid federal grants are to be made, and such signatory shall not be required to obtain the consent of any other river authority or conservation and reclamation district, which is not a signatory, with respect to any such contract or project. Each signatory to the Compact is empowered and authorized to do any and all things, and to take any and all action, and to execute any and all contracts and documents, which are necessary or convenient in carrying out the purposes and objectives of the Compact and issuing bonds pursuant thereto, with reference to any water pollution control project in the state, wherever located, for which the aforesaid federal grants are to be made.

(b) It is further found, determined, and enacted that all bonds issued pursuant to said Compact, and all bonds issued to refund or refinance same, are and will be for water quality enhancement purposes, within the meaning of Article III, Section 49-d-1, of the Texas Constitution, and any and all bonds issued by a signatory to said Compact to pay for all or any part of a project pursuant to the Compact, and any bonds issued to refund or refinance any such bonds, may be purchased by the Texas Water Development Board, upon the direction of the Texas Water Quality Board, with money received from the sale of Texas Water Development Board bonds pursuant to said Article III, Section 49-d-1 of the Texas Constitution. Said bonds or refunding bonds shall be purchased directly from any such signatory at such price as is necessary to provide the state payment and any other part of the cost of the project, or necessary to accomplish the refunding; and all such purchases shall constitute loans for water quality enhancement. Said bonds or refunding bonds shall have the characteristics and be issued upon such terms and conditions as are acceptable to the Texas Water Quality Board. The proceeds received by any such signatory from the sale of any such bonds shall be used to provide the state payment pursuant to the Compact and any other part of the cost of the project; and the proceeds from the sale of any such refunding bonds to refund any outstanding bonds issued pursuant to the Compact shall be used to pay off and retire the bonds being refunded thereby.

(c) It is further enacted and provided that the provisions of the foregoing paragraphs (a) and (b) shall be effective immediately upon enactment, notwithstanding the fact that other provisions of this code will not become effective until September 1, 1971.

(d) This subsection is not intended to interfere in any way with the operation of Article III, Section 49-d-1 of the Texas Constitution or the enabling legislation enacted pursuant thereto, and the aforesaid Compact

shall constitute merely a complementary or supplemental method for providing the state payment solely in instances that it is deemed necessary or advisable by the Texas Water Quality Board, particularly during the initial period while the procedures for implementing Article III, Section 49-d-1 are being established and put into effective operation.

SUBCHAPTER D. REGIONAL AND AREA-WIDE SYSTEMS

Section 21.201. Regional or Area-Wide Systems; General Policy

(a) The legislature finds and declares that it is necessary to the health, safety, and welfare of the people of this state to implement the state policy to encourage and promote the development and use of regional and area-wide waste collection, treatment, and disposal systems to serve the waste disposal needs of the citizens of the state and to prevent pollution and maintain and enhance the quality of the water in the state. (60th Legis., Ch. 313, Sec. 3.29, subsec. (a), sen. 1, as amended.)

(b) Within any standard metropolitan statistical area in the state, the board is authorized to implement this policy in the manner and in accordance with the procedure provided in Sections 21.201-21.205 of this code.

(c) In those portions of the state which are not within a standard metropolitan statistical area, the board shall observe this state policy by encouraging interested and affected persons to cooperate in developing and using regional and area-wide systems. The board may not use the procedure specified in Sections 21.201-21.205 of this code in these areas to implement this policy. However, this does not affect or diminish any authority which the board may otherwise have and exercise under other provisions of this chapter. (60th Legis., Ch. 313, Sec. 3.29, subsec. (a), sen. 2, 3, as amended.)

(d) The term "standard metropolitan statistical area," as used in this section, means an area consisting of a county or one or more contiguous counties which is officially designated as such by the United States Bureau of the Budget or its successor in this function. (60th Legis., Ch. 313, Sec. 3.29, subsec. (a), sen. 4, as amended.)

§ 21.202. Hearing to Define Area of Regional or Area-Wide Systems

(a) Whenever it appears to the board that because of the existing or reasonably foreseeable residential, commercial, industrial, recreational, or other economic development in an area a regional or area-wide waste collection, treatment, or disposal system or systems are necessary to prevent pollution or maintain and enhance the quality of the water in the state, the board may hold a public hearing in or near the area to determine whether the policy stated in Section 21.201 of this code should be implemented in that area.

(b) Notice of the hearing shall be given to the local governments which in the judgment of the board may be affected. (60th Legis., Ch. 313, Sec. 3.29, subsec. (b), sen. 1, 2, as amended.)

(c) If after the hearing the board finds that a regional or area-wide system or systems are necessary or desirable to prevent pollution or maintain and enhance the quality of the water in the state, the board may enter an order defining the area in which such a system or systems are necessary or desirable. (60th Legis., Ch. 313, Sec. 3.29, subsec. (b), sen. 3, as amended.)

§ 21.203. Hearing to Designate Systems to Serve the Area Defined; Order; Etc.

(a) At the hearing held under Section 21.202 of this code, or at a subsequent hearing held in or near an area defined under Section 21.202 of this code, the board may consider whether to designate the person to provide a regional or area-wide system or systems to serve all or part of the waste collection, treatment, or disposal needs of the area defined.

(b) Notice of the hearing shall be given to the local governments and to owners and operators of any waste collection, treatment, and disposal systems who in the judgment of the board may be affected. (60th Legis., Ch. 313, Sec. 3.29, subsec. (c), sen. 1, 2, as amended.)

(c) If after the hearing the board finds that there is an existing or proposed system or systems then capable, or which in the reasonably foreseeable future will be capable, of serving the waste collection, treatment, or disposal needs of all or part of the area defined, and that the owners or operators of the system or systems are agreeable to providing the services, the board may enter an order designating the person to provide the waste collection, treatment, or disposal system or systems to serve all or part of the area defined. (60th Legis., Ch. 313, Sec. 3.29, subsec. (c), sen. 3, as amended.)

§ 21.204. Actions Available to Board After Designating Systems

(a) After the board has entered an order as authorized in Section 21.203 of this chapter, the board may, after public hearing and after giving notice of the hearing to the persons who in the judgment of the board may be affected, take any one or more of the following actions:

(1) enter an order requiring any person discharging or proposing to discharge waste into or adjacent to the water in the state in an area defined in an order entered under Section 21.202 of this code to use a regional or area-wide system designated under Section 21.203 of this code for the disposal of his waste;

(2) refuse to grant any permits for the discharge of waste, or to approve any plans for the construction or material alteration of any sewer system, treatment facility, or disposal system in an area defined in an order entered under Section 21.202 of this code unless the permits or plans comply and are consistent with any orders entered under Sections 21.201–21.205 of this code; or

(3) cancel or suspend any permit, or amend any permit in any particular, which authorizes the discharge of waste in an area defined in an order entered under Section 21.202 of this code. (60th Legis., Ch. 313, Sec. 3.29, subsec. (d), sen. 1, as amended.)

(b) Before exercising the authority granted in this section, the board shall find affirmatively:

(1) that there is an existing or proposed regional or area-wide system designated under Section 21.203 of this code which is capable, or which in the reasonably foreseeable future will be capable, of serving the waste collection, treatment, or disposal needs of the person or persons who are the subject of an action taken by the board under this section;

(2) that the owner or operator of the designated regional or area-wide system is agreeable to providing the service; and

(3) that it is feasible for the service to be provided on the basis of waste collection, treatment and disposal technology, engineering, financial, and related considerations existing at the time, exclusive of any loss of revenue from any existing or proposed waste collection, treatment, or disposal systems in which the person or persons who are the subject of an action taken under this section have an interest. (60th Legis., Ch. 313, Sec. 3.29, subsec. (d), sen. 2, as amended.)

§ 21.205. Rates for Services by Designated Systems

(a) On motion of any interested party and after a public hearing, the board may set reasonable rates for the furnishing of waste collection, treatment, or disposal services to any person by a regional or area-wide system designated under Section 21.203 of this code.

(b) Notice of the hearing shall be given to the owner or operator of the designated regional or area-wide system, the person requesting the hearing, and any other person who, in the judgment of the board, may be affected by the action taken by the board as a result of the hearing.

(c) After the hearing the board shall enter an order setting forth its findings and the rates which may be charged for the services by the owner or operator of the designated regional or area-wide system. (60th Legis., Ch. 313, Sec. 3.29, subsec. (e), as amended.)

(2) discharge other waste into or adjacent to any water in the state which in itself, or in conjunction with any other discharge or activity, causes, continues to cause, or will cause pollution of any of the water in the state; or

(3) commit any other act or engage in any other activity, which in itself, or in conjunction with any other discharge or activity, causes, continues to cause, or will cause pollution of any of the water in the state, unless the activity is under the jurisdiction of the Parks and Wildlife Department, the General Land Office, or the Texas Railroad Commission, in which case this Subdivision (3) does not apply. (60th Legis., Ch. 313, Sec. 4.01, subsec. (a), as amended.)

(b) In the enforcement of Subdivisions (2) and (3) of Subsection (a) of this section, consideration shall be given to the state of existing technology, economic feasibility, and the water quality needs of the waters that might be affected. (60th Legis., Ch. 313, Sec. 4.01, subsec. (b), as amended.)

(c) No person may cause, suffer, allow, or permit the discharge of any waste or the performance of any activity in violation of this chapter or of any rule, regulation, permit, or other order of the board. (60th Legis., Ch. 313, Sec. 4.01, subsec. (c), as amended.)

(b) Upon application for injunctive relief and a finding that a person is violating or threatening to violate any provision of this chapter or any rule, permit, or other order of the board, the district court shall grant the injunctive relief the facts may warrant. This power may not be exercised by a local government unless its governing body adopts a resolution authorizing the exercise of the power. In a suit brought by a local government under this section, the board is a necessary and indispensable party. (60th Legis., Ch. 313, Sec. 4.03, subsec. (a), as amended.)

(b) Whenever it appears that a violation or a threat of violation of any provision of Section 21.251 of this code or any rule, regulation, permit, or other order of the board has occurred or is occurring that affects aquatic life or wildlife, the Parks and Wildlife Department, in the same manner as the board, may have a suit instituted in a district court for injunctive relief or civil penalties or both, as authorized in Section 21.253(a) of this code, against the person who committed or is committing, or is threatening to commit, the violation. The suit shall be brought in the name of the State of Texas through the county attorney or the district attorney, as appropriate, of the county where the defendant resides or in the county where the violation or threat of violation occurs. SUBCHAPTER F. AUTHORITY OF LOCAL GOVERNMENTS

Section 21.351. Inspection of Public Water

A local government may inspect the public water in its area and determine whether or not:

- (1) the quality of the water meets the state water quality standards adopted by the board;
- (2) persons discharging effluent into the public water located in the areas of which the local government has jurisdiction have obtained permits for discharge of the effluent; and
- (3) persons who have permits are making discharges in compliance with the requirements of the permits. (60th Legis., Ch. 313, Sec. 5.01, as amended.)

§ 21.352. Recommendations to Board

A local government may make written recommendations to the board as to what in its judgment the water quality standards should be for any public water within its territorial jurisdiction. (60th Legis., Ch. 313, Sec. 5.02, as amended.)

§ 21.353. Power to Enter Property

(a) A local government has the same power as the board has under Section 21.064 of this code to enter public and private property within its territorial jurisdiction to make inspections and investigations of conditions relating to water quality. The local government in exercising this power is subject to the same provisions and restrictions as the board.

(b) When requested by the board, the result of any inspection or investigation made by the local government shall be transmitted to the board for its consideration. (60th Legis., Ch. 313, Sec. 5.03, as amended.)

§ 21.354. Enforcement Action

A local government may bring an enforcement action under this chapter in the manner provided in Subchapter E of this chapter for local governments. (60th Legis., Ch. 313, Sec. 5.04, as amended.)

§ 21.355. Cooperative Agreements

A local government may execute cooperative agreements with the board or other local governments:

(1) to provide for the performance of water quality management, inspection, and enforcement functions and to provide technical aid and educational services to any party to the agreement; and

(2) for the transfer of money or property from any party to the agreement to another party to the agreement for the purpose of water quality management, inspection, enforcement, technical aid and education, and the construction, ownership, purchase, maintenance, and operation of disposal systems.

(b) Whenever in the opinion of the board it would facilitate and enhance the performance by a local government of its water quality management, inspection, and enforcement functions pursuant to a cooperative agreement between the local government and the board, as authorized in Subsection (a) of this section, the board may assign and delegate to the local government during the period of the agreement such of the pertinent powers and functions vested in the board under this chapter as in the judgment of the board may be necessary or helpful to the local government in performing those management, inspection, and enforcement functions.

(c) At anytime and from time to time, prior to the termination of the cooperative agreement, the board may modify or rescind any such assignment or delegation.

(d) The board shall notify immediately a local government to whom it assigns or delegates any powers and functions pursuant to Subsections (b) and (c) of this section or as to when it modifies or rescinds any such assignment or delegation. (S. B. 835) (60th Legis., Ch. 313, Sec. 5.05, as amended.)

Amended by Acts 1971, 62nd Leg., p. 1978, ch. 612, Art. 1, § 5, eff. Sept. 1, 1971.

§ 21.356. Disposal System Rules

(a) Every local government which owns or operates a disposal system is empowered to and shall, except as authorized in Subsection (c) of this section, enact and enforce rules, regulations, ordinances, orders, or resolutions, referred to in this section as rules, to control and regulate the type, character, and quality of waste which may be discharged to the disposal system and, where necessary, to require pretreatment of waste to be discharged to the system, so as to protect the health and safety of personnel maintaining and operating the disposal system and to prevent unreasonable adverse effects on the disposal system.

(b) The local government in its rules may establish the charges and assessments which may be made to and collected from all persons who

discharge waste to the disposal system or who have conduits or other facilities for discharging waste connected to the disposal system, referred to in this subsection as 'users.' The charges and assessments shall be equitable as between all users and shall correspond as near as can be practically determined to the cost of making the waste disposal services available to all users and of treating the waste of each user or class of users. The charges and assessments may include user charges, connection fees, or any other methods of obtaining revenue from the disposal system available to the local government. In establishing the charges and assessments, the local government shall take into account:

(1) the volume, type, character, and quality of the waste of each user or class of users;

(2) the techniques of treatment required;

(3) any capital costs and debt retirement expenses of the disposal system required to be paid for from the charges and assessments;

(4) the costs of operating and maintaining the system to comply with this chapter and the permits, rules, and orders of the board; and

(5) any other costs directly attributable to providing the waste disposal service under standard, accepted cost-accounting practices.

(c) A local government may apply to the board for an exception from the requirements of Subsections (a) and (b) of this section or for a modification of those requirements. The application shall contain the exception or modifications desired, the reasons the exception or modifications are needed, and the grounds authorized in this subsection on which the board should grant the application. A public hearing on the application shall be held in or near the territorial area of the local government and notice of the hearing shall be given to the local government. If after the hearing the board in its judgment determines that the volume, type, character, and quality of the waste of the users of the system, or of a particular user or class of users of the system, do not warrant the enactment and enforcement of rules containing the requirements prescribed in Subsections (a) and (b) of this section, or that the enactment and enforcement of the rules would be impractical or unreasonably burdensome on the local government in relation to the public benefit to be derived, then the board in its discretion may enter an order granting an exception to those requirements or modifying those requirements in any particular in response to circumstances shown to exist.

(d) At any time and from time to time, as circumstances may require, the board may amend or revoke any order it enters pursuant to Subsection (c) of this section. Before the board amends or revokes such an order, a public hearing shall be held in or near the territorial area of the local government in question, and notice of the hearing shall be given to the local government. If after the hearing the board in its judgment determines that the circumstances on which it based the order have changed significantly or no longer exist, the board may revoke the order or amend it in any particular in response to the circumstances then shown to exist.

(e) In the event of any conflict between the provisions of this section and any other laws or parts of laws, the provisions of this section shall control. ((S. B. No. 835))

Added by Acts 1971, 62nd Leg., p. 1978, ch. 612, Art. 1, § 6, eff. Sept. 1, 1971.

§ 21.357. Water Pollution Control Duties of Cities

(a) Every city in this state having a population of 5,000 or more inhabitants shall, and any city of this state may, establish a water pollution control and abatement program for the city. The city shall employ or re-

tain an adequate number of personnel, on either a part-time or full-time basis as the needs and circumstances of the city may require, who by virtue of their training or experience are qualified to perform the water pollution control and abatement functions required to enable the city to carry out its duties and responsibilities under this section.

(b) The water pollution control and abatement program of a city shall encompass the entire city and may include areas within its extraterritorial jurisdiction which in the judgment of the city should be included to enable the city to achieve the objectives of the city for the area within its territorial jurisdiction. The city shall include in the program the services and functions which, in the judgment of the city or as may be reasonably required by the board, will provide effective water pollution control and abatement for the city, including the following services and functions:

(1) the development and maintenance of an inventory of all significant waste discharges into or adjacent to the water within the city and, where the city so elects, within the extraterritorial jurisdiction of the city, without regard to whether or not the discharges are authorized by the board;

(2) the regular monitoring of all significant waste discharges included in the inventory prepared pursuant to Subdivision (1) of this subsection;

(3) the collecting of samples and the conducting of periodic inspections and tests of the waste discharges being monitored to determine whether the discharges are being conducted in compliance with this chapter and any applicable permits, orders or regulations of the board, and whether they should be covered by a permit from the board;

(4) in cooperation with the board, a procedure for obtaining compliance by the waste dischargers being monitored, including where necessary the use of legal enforcement proceedings; and

(5) the development and execution of reasonable and realistic plans for controlling and abating pollution or potential pollution resulting from generalized discharges of waste which are not traceable to a specific source, such as storm sewer discharges and urban runoff from rainwater. (S. B. No. 835)

Added by Acts 1971, 62nd Leg., p. 1980, ch. 612, Art. 1, § 7, eff. Sept. 1, 1971.

(b) Before the delivery of any water quality enhancement funds to the political subdivision, the board with the advice of the development fund manager and the political subdivision shall execute a loan agreement which shall provide that the political subdivision shall pay into the appropriate account not less than the amount necessary to repay the principal of and interest on the loan over the period of time and under the terms and conditions which are mutually agreeable to the Texas Water Development Board and the political subdivision. The contract may also include any other terms and conditions which the board may require.

(c) Each political subdivision may charge and collect necessary fees, rentals, rates, and charges for the use, occupancy, and availability of its treatment works and any of its other properties, buildings, structures, operations, utilities, systems, activities, and facilities, so that it may make all payments required by its loan agreement. The political subdivision shall pledge such amounts to make those payments.

(d) Also, the political subdivision may pledge its ad valorem taxes, if any, and levy and collect the taxes for the purpose of making all or any part of the payments required by its loan agreement. The taxes shall be in addition to all other ad valorem taxes permitted by law, but may not exceed, together with other ad valorem taxes, any maximum imposed by the Texas Constitution.

(e) Each loan agreement executed pursuant to this Act, and the appropriate proceedings authorizing its execution, shall be submitted to the attorney general for examination before the delivery of the money to the political subdivision. If he finds that the loan agreement has been authorized and executed in accordance with law, that the provisions are valid, and that the political subdivision has demonstrated to his reasonable

satisfaction that the payments required by the agreement can be made from the sources pledged, he may approve the agreement.

Added by Acts 1971, 62nd Leg., p. 1983, ch. 612, Art. 1, § 8, eff. Sept. 1, 1971.

§ 21.611. Rules and Regulations

When bonds or other obligations are purchased or a loan agreement is approved by the attorney general, water quality enhancement funds shall be delivered to the political subdivisions entitled to receive them and shall be used only to pay for construction costs of treatment works approved as provided in this subchapter. The purchase of bonds and other obligations as provided in Section 21.609 of this code and the making of direct loans as provided in Section 21.610 of this code together constitute payment by the state of the amount required by federal law of the estimated reasonable construction costs of all projects in the state for which federal grants are to be made under the Federal Water Pollution Control Act, as amended,¹ or any similar law. Each river authority may make contracts authorized by this chapter with any person, including any public agency situated wholly or partly inside its boundaries and any public agency situated wholly or partly inside the river basin and any public agency situated wholly or partly inside the coastal basins adjoining its boundaries, but a river authority may not make contracts to serve a public agency situated wholly inside the boundaries of another river authority or to serve facilities of a person situated wholly within the boundaries of another river authority, except with the consent of the other river authority. (60th Legis., Ch. 97, Sec. 4a, as added.)

§ 25.027. Contract with Public Agency

A public agency may make contracts with a district under which the district will make a disposal system available to the public agency and will furnish waste collection, transportation, treatment, and disposal services to the public agency, group of public agencies, or other persons through the district's disposal system. (60th Legis., Ch. 97, Sec. 5, sen. 1, as amended.)

§ 25.028. Contract Provisions

- (a) The contract may provide for:
 - (1) duration of the contract for a specified period or until issued and unissued bonds and refunding bonds of the district are paid;

(2) assuring equitable treatment of parties who contract with the district for waste collection, transportation, treatment, and disposal services from the same disposal system;

(60th Legis., Ch. 97, Sec. 5, sen. 2 (part), as amended.)

§ 25.030. Source of Contract Payments

(a) A public agency may pay for the waste collection, transportation, treatment, and disposal services with income from its waterworks system, sanitary sewer system, or both systems, or its combined water and sanitary sewer system, as prescribed by the contract. In the alternative, a joint board defined as a public agency in Section 25.003, Subdivision (3), may pay for these services from any revenue or other funds within its control specified in the contract if the city councils of the cities which created the joint board approve, by ordinance, the contract between the joint board and the district. These payments constitute an operating expense of each system whose revenue is so used. (60th Legis., Ch. 97, Sec. 6, sen. 1, 2, 3, as amended.)

(b) The obligation of contract payments on the income of the public agency's water system is subordinate to the obligation imposed by any bonds that are payable solely from the water system net revenue and that are outstanding at the time the contract is made, unless the ordinance or resolution authorizing the bonds expressly reserved the right to give the contract payments a priority over the bond requirements. (60th Legis., Ch. 97, Sec. 6, sen. 4, as amended.)

(c) If a public agency having taxing power holds an election substantially according to the applicable provisions of Chapter 1, Title 22, Revised Civil Statutes of Texas, 1925, as amended, relating to the issuance of bonds by cities, and it is determined that the public agency is authorized to levy an ad valorem tax to make all or part of the payments under a contract with a district, then the contract is an obligation against the taxing power of the public agency to the extent authorized, and payments under the contract may be payable from and constitute solely an obligation against the taxing powers of the city or may be payable both from taxes and from revenue prescribed in the contract. Otherwise, neither the district nor the holders of the district's bonds are entitled to demand payment of the public agency's obligation out of any tax revenue. (60th Legis., Ch. 97, Sec. 6, sen. 5, 6, as amended, and Sec. 7(a), sen. 1.)

§ 25.031. Rates

(a) When all or part of the payments under a contract are to be made from revenue of the waterworks system, sanitary sewer system, both systems, or a combination of both systems, the public agency shall establish, maintain, and periodically adjust the rates charged for services of the systems, so that the revenue, along with any taxes levied in support of the indebtedness, will be sufficient to pay:

- (1) the expenses of operating and maintaining the systems;
- (2) the obligations to the district under the contract; and
- (3) the obligations of bonds that are secured by revenue of the systems. (60th Legis., Ch. 97, Sec. 8, sen. 1.)

(b) The contract may require the use of consulting engineers and financial experts to advise the public agency on the need for adjusting rates. (60th Legis., Ch. 97, Sec. 8, sen. 2.)

§ 25.032. Service to more than One Public Agency

A contract or group of contracts may provide for the district to render services concurrently to more than one person through constructing and operating a disposal system and may provide that the cost of these services be allocated among the persons as provided in the contract or group of contracts. (60th Legis., Ch. 97, Sec. 9, as amended.)

(b) To accomplish the purposes of the chapter, a district may exercise the power of eminent domain to acquire all or any interest in property inside or outside the boundaries of the district. The power shall be exercised according to the laws applicable or available to the district. (60th Legis., Ch. 97, Sec. 4, sen. 2, 3, as amended.)

§ 25.034. Cost of Relocating, Altering, Etc.

If a district makes necessary the relocating, raising, rerouting, changing the grade of, or altering the construction of any highway, railroad, electric transmission line, pipeline, or telephone or telegraph properties or facilities in the exercise of powers granted under this chapter, the district shall pay all of the actual cost of the relocating, raising, rerouting, changing in grade, or altering of construction, and shall pay all of the actual cost of providing comparable replacement of facilities without enhancement, less the net salvage value of the facilities. (60th Legis., Ch. 97, Sec. 15.)

No election is required for the exercise of any power under this chapter except for the tax levy as provided by Section 25.030(c) of this code. (60th Legis., Ch. 97, Sec. 7(a), sen. 2.)

RIO GRANDE COMPACT

The State of Colorado, the State of New Mexico, and the State of Texas, desiring to remove all causes of present and future controversy among these States and between citizens of one of these States and citizens of another State with respect to the use of the waters of the Rio Grande above Fort Quitman, Texas, and being moved by considerations of interstate comity, and for the purpose of effecting an equitable apportionment of such waters, have resolved to conclude a Compact for the attainment of these purposes, and to that end, through their respective Governors, have named as their respective Commissioners:

For the State of Colorado—M. C. Hinderlider

For the State of New Mexico—Thomas M. McClure

For the State of Texas—Frank B. Clayton

who, after negotiations participated in by S. O. Harper, appointed by the President as the representative of the United States of America, have agreed upon the following Articles, to wit:

(e) The term "tributary" means any stream which naturally contributes to the flow of the Rio Grande.

(f) "Transmountain Diversion" is water imported into the drainage basin of the Rio Grande from any stream system outside of the Rio Grande Basin, exclusive of the Closed Basin.

(h) "Annual Credits" are the amounts by which actual deliveries in any calendar year exceed scheduled deliveries.

(i) "Accrued Debits" are the amounts by which the sum of all annual debits exceeds the sum of all annual credits over any common period of time.

(j) "Accrued Credits" are the amounts by which the sum of all annual credits exceeds the sum of all annual debits over any common period of time.

(k) "Project Storage" is the combined capacity of Elephant Butte Reservoir and all other reservoirs actually available for the storage of usable water below Elephant Butte and above the first diversion to lands of the Rio Grande Project, but not more than a total of two million, six hundred and thirty-eight thousand, eight hundred and sixty (2,638,860) acre-feet.

(l) "Usable Water" is all water, exclusive of credit water, which is in project storage and which is available for release in accordance with irrigation demands, including deliveries to Mexico.

(q) "Hypothetical Spill" is the time in any year at which usable water would have spilled from project storage if seven hundred and ninety thousand (790,000) acre-feet had been released therefrom at rates proportional to the actual release in every year from the starting date to the end of the year in which hypothetical spill occurs; in computing hypothetical spill the initial condition shall be the amount of usable water in project storage at the beginning of the calendar year following the effective date of this Compact, and thereafter the initial condition shall be the amount of usable water in project storage at the beginning of the calendar year following each actual spill.

ARTICLE II

The Commission shall cause to be maintained and operated a stream gaging station equipped with an automatic water stage recorder at each of the following points, to wit:

Such gaging stations shall be equipped, maintained, and operated by the Commission directly or in cooperation with an appropriate Federal or State agency, and the equipment, method and frequency of measurement at such stations shall be such as to produce reliable records at all times.

(1) Conejos Index Supply is the natural flow of Conejos River at the U.S.G.S. gaging station near Mogote during the calendar year, plus the natural flow of Los Pinos River at the U.S.G.S. gaging station near Ortiz and the natural flow of San Antonio River at the U.S.G.S. gaging station at Ortiz, both during the months of April to October, inclusive.

(2) Conejos River at mouths is the combined discharge of branches of this River at the U.S.G.S. gaging stations near Los Sauces during the calendar year.

(3) Rio Grande at Del Norte is the recorded flow of the Rio Grande at the U.S.G.S. gaging station near Del Norte during the calendar year (measured above all principal points of diversion to San Luis Valley) corrected for the operation of reservoirs constructed after 1937.

(4) Rio Grande at Lobatos less Conejos at mouths is the total flow of the Rio Grande at the U.S.G.S. gaging station near Lobatos, less the discharge of Conejos River at its mouths, during the calendar year.

The application of these schedules shall be subject to the provisions hereinafter set forth and appropriate adjustments shall be made for (a) any change in location of gaging station; (b) any new or increased depletion of the runoff above inflow index gaging stations; and (c) any transmountain diversions into the drainage basin of the Rio Grande above Lobatos.

In event any works are constructed after 1937 for the purpose of delivering water into the Rio Grande from the Closed Basin, Colorado shall not be credited with the amount of such water delivered, unless the proportion of sodium ions shall be less than forty-five (45) per cent of the total positive ions in that water when the total dissolved solids in such water exceeds three hundred and fifty (350) parts per million.

ARTICLE IV

The obligation of New Mexico to deliver water in the Rio Grande at San Marcial, during each calendar year, exclusive of the months of July, August, and September, shall be that quantity set forth in the following

tabulation of relationship, which corresponds to the quantity at the upper index station:

(5) The Otowi Index Supply is the recorded flow of the Rio Grande at the U.S.G.S. gaging station at Otowi Bridge near San Ildefonso (formerly station near Buckman) during the calendar year, exclusive of the flow during the months of July, August, and September, corrected for the operation of reservoirs constructed after 1929 in the drainage basin of the Rio Grande between Lobatos and Otowi Bridge.

(6) San Marcial Index Supply is the recorded flow of the Rio Grande at the gaging station at San Marcial during the calendar year exclusive of the flow during the months of July, August, and September.

The application of this schedule shall be subject to the provisions hereinafter set forth and appropriate adjustments shall be made for (a) any change in location of gaging stations; (b) depletion after 1929 in New Mexico at any time of the year of the natural runoff at Otowi Bridge; (c) depletion of the runoff during July, August, and September of tributaries between Otowi Bridge and San Marcial, by works constructed after 1937; and (d) any transmountain diversions into the Rio Grande between Lobatos and San Marcial.

Concurrent records shall be kept of the flow of the Rio Grande at San Marcial, near San Acacia, and of the release from Elephant Butte Reservoir, to the end that the records at these three (3) stations may be correlated.

ARTICLE V

If at any time it should be the unanimous finding and determination of the Commission that because of changed physical conditions, or for any other reason, reliable records are not obtainable, or cannot be obtained,

at any of the stream gaging stations herein referred to, such stations may, with the unanimous approval of the Commission, be abandoned, and with such approval another station, or other stations, shall be established and new measurements shall be substituted which, in the unanimous opinion of the Commission, will result in substantially the same results, so far as the rights and obligations to deliver water are concerned, as would have existed if such substitution of stations and measurements had not been so made.

ARTICLE VI

Commencing with the year following the effective date of this Compact, all credits and debits of Colorado and New Mexico shall be computed for each calendar year; provided, that in a year of actual spill no annual credits nor annual debits shall be computed for that year.

In the case of Colorado, no annual debit nor accrued debit shall exceed one hundred thousand (100,000) acre-feet, except as either or both may be caused by holdover storage water in reservoirs constructed after 1937 in the drainage basin of the Rio Grande above Lobatos. Within the physical limitations of storage capacity in such reservoirs, Colorado shall retain water in storage at all times to the extent of its accrued debit.

In the case of New Mexico, the accrued debit shall not exceed two hundred thousand (200,000) acre-feet at any time, except as such debit may be caused by holdover storage of water in reservoirs constructed after 1929 in the drainage basin of the Rio Grande between Lobatos and San Marcial. Within the physical limitations of storage capacity in such reservoirs, New Mexico shall retain water in storage at all times to the extent of its accrued debit. In computing the magnitude of accrued credits or debits, New Mexico shall not be charged with any greater debit in any one year than the sum of one hundred and fifty thousand (150,000) acre-feet and all gains in the quantity of water in storage in such year.

The Commission by unanimous action may authorize the release from storage of any amount of water which is then being held in storage by reason of accrued debits of Colorado or New Mexico; provided, that such water shall be replaced at the first opportunity thereafter.

In computing the amount of accrued credits and accrued debits of Colorado or New Mexico, any annual credits in excess of one hundred and fifty thousand (150,000) acre-feet shall be taken as equal to that amount.

In any year in which actual spill occurs, the accrued credits of Colorado or New Mexico, or both, at the beginning of the year shall be reduced in proportion to their respective credits by the amount of such actual spill; provided, that the amount of actual spill shall be deemed to be increased by the aggregate gain in the amount of water in storage, prior to the time of spill, in reservoirs above San Marcial constructed after 1929; provided, further, that if the Commissioners for the States having accrued credits authorize the release of part, or all, of such credits in advance of spill, the amount so released shall be deemed to constitute actual spill.

In any year in which there is actual spill of usable water, or at the time of hypothetical spill thereof, all accrued debits of Colorado or New Mexico, or both, at the beginning of the year shall be cancelled.

In any year in which the aggregate of accrued debits of Colorado and New Mexico exceeds the minimum unfilled capacity of project storage, such debits shall be reduced proportionally to an aggregate amount equal to such minimum unfilled capacity.

To the extent that accrued credits are impounded in reservoirs between San Marcial and Courchesne, and to the extent that accrued debits are impounded in reservoirs above San Marcial, such credits and debits shall be reduced annually to compensate for evaporation losses in the propor-

tion that such credits or debits bore to the total amount of water in such reservoirs during the year.

ARTICLE VII

Neither Colorado nor New Mexico shall increase the amount of water in storage in reservoirs constructed after 1929 whenever there is less than four hundred thousand (400,000) acre-feet of usable water in project storage; provided, that if the actual releases of usable water from the beginning of the calendar year following the effective date of this Compact, or from the beginning of the calendar year following actual spill, have aggregated more than an average of seven hundred and ninety thousand (790,000) acre-feet per annum, the time at which such minimum stage is reached shall be adjusted to compensate for the difference between the total actual release and releases at such average rate; provided, further, that Colorado or New Mexico, or both, may relinquish accrued credits at any time, and Texas may accept such relinquished water, and in such event the State or States so relinquishing shall be entitled to store water in the amount of the water so relinquished.

ARTICLE VIII

During the month of January of any year the Commissioner for Texas may demand of Colorado and New Mexico, and the Commissioner for New Mexico may demand of Colorado, the release of water from storage reservoirs constructed after 1929 to the amount of the accrued debits of Colorado and New Mexico, respectively, and such releases shall be made by each at the greatest rate practicable under the conditions then prevailing, and in proportion to the total debit of each, and in amounts, limited by their accrued debits, sufficient to bring the quantity of usable water in project storage to six hundred thousand (600,000) acre-feet by March 1st and to maintain this quantity in storage until April 30th, to the end that a normal release of seven hundred and ninety thousand (790,000) acre-feet may be made from project storage in that year.

ARTICLE IX

Colorado agrees with New Mexico that in event the United States or the State of New Mexico decides to construct the necessary works for diverting the waters of the San Juan River, or any of its tributaries, into the Rio Grande, Colorado hereby consents to the construction of said works and the diversion of waters from the San Juan River, or the tributaries thereof, into the Rio Grande in New Mexico, provided the present and prospective uses of water in Colorado by other diversions from the San Juan River, or its tributaries, are protected.

ARTICLE X

In the event water from another drainage basin shall be imported into the Rio Grande Basin by the United States or Colorado or New Mexico, or any of them jointly, the State having the right to the use of such water shall be given proper credit therefor in the application of the schedules.

ARTICLE XI

New Mexico and Texas agree that upon the effective date of this Compact all controversies between said States relative to the quantity or quality of the water of the Rio Grande are composed and settled; however, nothing herein shall be interpreted to prevent recourse by a signatory State to the Supreme Court of the United States for redress should the character or quality of the water, at the point of delivery, be changed hereafter by one signatory State to the injury of another. Nothing here-

in shall be construed as an admission by any signatory State that the use of water for irrigation causes increase of salinity for which the user is responsible in law.

ARTICLE XII

To administer the provisions of this Compact there shall be constituted a Commission composed of one representative from each State, to be known as the Rio Grande Compact Commission. The State Engineer of Colorado shall be ex-officio the Rio Grande Compact Commissioner for Colorado. The State Engineer of New Mexico shall be ex-officio the Rio Grande Compact Commissioner for New Mexico. The Rio Grande Compact Commissioner for Texas shall be appointed by the Governor of Texas. The President of the United States shall be requested to designate a representative of the United States to sit with such Commission, and such Representative of the United States, if so designated by the President, shall act as Chairman of the Commission without vote.

The salaries and personal expenses of the Rio Grande Compact Commissioners for the three (3) States shall be paid by their respective States, and all other expenses incident to the administration of this Compact, not borne by the United States, shall be borne equally by the three (3) States.

In addition to the powers and duties hereinbefore specifically conferred upon such Commission and the Members thereof, the jurisdiction of such Commission shall extend only to the collection, correlation, and presentation of factual data and the maintenance of records having a bearing upon the administration of this Compact, and, by unanimous action, to the making of recommendations to the respective States upon matters connected with the administration of this Compact. In connection therewith, the Commission may employ such engineering and clerical aid as may be reasonably necessary within the limit of funds provided for that purpose by the respective States. Annual reports compiled for each calendar year shall be made by the Commission and transmitted to the Governors of the signatory States on or before March 1st following the year covered by the report. The Commission may, by unanimous action, adopt rules and regulations consistent with the provisions of this Compact to govern their proceedings.

The findings of the Commission shall not be conclusive in any Court or tribunal which may be called upon to interpret or enforce this Compact.

ARTICLE XIII

At the expiration of every five-year period after the effective date of this Compact, the Commission may, by unanimous consent, review any provisions hereof which are not substantive in character and which do not affect the basic principles upon which the Compact is founded, and shall meet for the consideration of such questions on the request of any member of the Commission; provided, however, that the provisions hereof shall remain in full force and effect until changed and amended within the intent of the Compact by unanimous action of the Commissioners, and until any changes in this Compact are ratified by the Legislatures of the respective States and consented to by the Congress, in the same manner as this Compact is required to be ratified to become effective.

ARTICLE XIV

The schedules herein contained and the quantities of water herein allocated shall never be increased nor diminished by reason of any increase or diminution in the delivery or loss of water to Mexico.

ARTICLE XV

The physical and other conditions characteristic of the Rio Grande and peculiar to the territory drained and served thereby, and to the development thereof, have actuated this Compact and none of the signatory States admits that any provisions herein contained establishes any general principle or precedent applicable to other interstate streams.

ARTICLE XVI

Nothing in this Compact shall be construed as affecting the obligations of the United States of America to Mexico under existing treaties, or to the Indian Tribes, or as impairing the Rights of the Indian Tribes.

ARTICLE XVII

This Compact shall become effective when ratified by the Legislatures of each of the signatory States and consented to by the Congress of the United States. Notice of ratification shall be given by the Governor of each State to the Governors of the other States and to the President of the United States, and the President of the United States is requested to give notice to the Governors of each of the signatory States of the consent of the Congress of the United States.

IN WITNESS WHEREOF, The Commissioners have signed this Compact in quadruplicate original, one of which shall be deposited in the archives of the Department of State of the United States of America and shall be deemed the authoritative original, and of which a duly certified copy shall be forwarded to the Governor of each of the signatory States.

Done at the City of Sante Fe, in the State of New Mexico, on the 18th day of March, in the year of our Lord, One Thousand Nine Hundred and Thirty-eight.

§ 42.010. Text of Compact

The Pecos River Compact reads as follows:

PECOS RIVER COMPACT

Entered Into by the States of

NEW MEXICO

and

TEXAS

Santa Fe, New Mexico
December 3, 1948

PECOS RIVER COMPACT

The State of New Mexico and the State of Texas, acting through their Commissioners, John H. Bliss for the State of New Mexico and Charles H. Miller for the State of Texas, after negotiations participated in by Berkeley Johnson, appointed by the President as the representative of the United States of America, have agreed respecting the uses, apportionment and deliveries of the water of the Pecos River as follows:

ARTICLE I

The major purposes of this Compact are to provide for the equitable division and apportionment of the use of the waters of the Pecos River; to promote interstate comity; to remove causes of present and future controversies; to make secure and protect present development within the states; to facilitate the construction of works for, (a) the salvage of water, (b) the more efficient use of water, and (c) the protection of life and property from floods.

ARTICLE II

As used in this Compact:

(a) The term "Pecos River" means the tributary of the Rio Grande which rises in north-central New Mexico and flows in a southerly direction through New Mexico and Texas and joins the Rio Grande near the town of Langtry, Texas, and includes all tributaries of said Pecos River.

(b) The term "Pecos River Basin" means all of the contributing drainage area of the Pecos River and its tributaries above its mouth near Langtry, Texas.

(c) "New Mexico" and "Texas" mean the State of New Mexico and the State of Texas, respectively; "United States" means the United States of America.

(d) The term "Commission" means the agency created by this Compact for the administration thereof.

(e) The term "deplete by man's activities" means to diminish the stream flow of the Pecos River at any given point as the result of beneficial consumptive uses of water within the Pecos River Basin above such point. For the purposes of this Compact it does not include the diminution of such flow by encroachment of salt cedars or other like growth, or by deterioration of the channel of the stream.

(f) The term "Report of the Engineering Advisory Committee" means that certain report of the Engineering Advisory Committee dated January, 1948, and all appendices thereto; including, basic data, processes, and analyses utilized in preparing that report, all of which were reviewed, approved, and adopted by the Commissioners signing this Compact at a meeting held in Santa Fe, New Mexico, on December 3, 1948, and which are included in the Minutes of that meeting.

(g) The term "1947 condition" means that situation in the Pecos River Basin as described and defined in the Report of the Engineering Advisory Committee. In determining any question of fact hereafter arising as to such situation, reference shall be made to, and decisions shall be based on, such report.

(h) The term "water salvaged" means that quantity of water which may be recovered and made available for beneficial use and which quantity of water under the 1947 condition was non-beneficially consumed by natural processes.

(i) The term "unappropriated flood waters" means water originating in the Pecos River Basin above Red Bluff Dam in Texas, the impoundment of which will not deplete the water usable by the storage and diversion facilities existing in either state under the 1947 condition and which if not impounded will flow past Girvin, Texas.

ARTICLE III

(a) Except as stated in paragraph (f) of this Article, New Mexico shall not deplete by man's activities the flow of the Pecos River at the New Mexico-Texas state line below an amount which will give to Texas a quantity of water equivalent to that available to Texas under the 1947 condition.

(b) Except as to the unappropriated flood waters thereof, the apportionment of which is included in and provided for by paragraph (f) of this Article, the beneficial consumptive use of the waters of the Delaware River is hereby apportioned to Texas, and the quantity of such beneficial consumptive use shall be included in determining waters received under the provisions of paragraph (a) of this Article.

(c) The beneficial consumptive use of water salvaged in New Mexico through the construction and operation of a project or projects by the United States or by joint undertakings of Texas and New Mexico, is hereby apportioned forty-three per cent (43%) to Texas and fifty-seven per cent (57%) to New Mexico.

(d) Except as to water salvaged, apportioned in paragraph (c) of this Article, the beneficial consumptive use of water which shall be non-beneficially consumed, and which is recovered, is hereby apportioned to New Mexico but not to have the effect of diminishing the quantity of water available to Texas under the 1947 condition.

(e) Any water salvaged in Texas is hereby apportioned to Texas.

(f) Beneficial consumptive use of unappropriated flood waters is hereby apportioned fifty per cent (50%) to Texas and fifty per cent (50%) to New Mexico.

ARTICLE IV

(a) New Mexico and Texas shall cooperate to support legislation for the authorization and construction of projects to eliminate non-beneficial consumption of water.

(b) New Mexico and Texas shall cooperate with agencies of the United States to devise and effectuate means of alleviating the salinity conditions of the Pecos River.

(c) New Mexico and Texas each may:

(i) Construct additional reservoir capacity to replace reservoir capacity made unusable by any cause.

(ii) Construct additional reservoir capacity for the utilization of water salvaged and unappropriated flood waters apportioned by this Compact to such state.

(iii) Construct additional reservoir capacity for the purpose of making more efficient use of water apportioned by this Compact to such state.

(d) Neither New Mexico nor Texas will oppose the construction of any facilities permitted by this Compact, and New Mexico and Texas will cooperate to obtain the construction of facilities that will be of joint benefit to the two states.

(e) The Commission may determine the conditions under which Texas may store water in works constructed in and operated by New Mexico.

(f) No reservoir shall be constructed and operated in New Mexico above Avalon Dam for the sole benefit of Texas unless the Commission shall so determine.

(g) New Mexico and Texas each has the right to construct and operate works for the purpose of preventing flood damage.

(h) All facilities shall be operated in such manner as to carry out the terms of this Compact.

ARTICLE V

(a) There is hereby created an interstate administrative agency to be known as the "Pecos River Commission." The Commission shall be composed of one Commissioner representing each of the states of New Mexico and Texas, designated or appointed in accordance with the laws of each such state, and, if designated by the President, one Commissioner representing the United States. The President is hereby requested to designate such a Commissioner. If so designated, the Commissioner representing the United States shall be the presiding officer of the Commission, but shall not have the right to vote in any of the deliberations of the Commission. All members of the Commission must be present to constitute a quorum.

(b) The salaries and personal expenses of each Commissioner shall be paid by the government which he represents. All other expenses which are incurred by the Commission incident to the administration of this Compact and which are not paid by the United States shall be borne equally by the two states. On or before November 1 of each even numbered year the Commission shall adopt and transmit to the Governors of the two states and to the President a budget covering an estimate of its expenses for the following two years. The payment of the expenses of the Commission and of its employees shall not be subject to the audit and accounting procedures of either of the two states. However, all receipts and disbursements of funds handled by the Commission shall be audited yearly by a qualified independent public accountant and the report of the audit shall be included in, and become a part of, the annual report of the Commission.

(c) The Commission may appoint a secretary who, while so acting, shall not be an employee of either state. He shall serve for such term, receive such salary, and perform such duties as the Commission may direct. The Commission may employ such engineering, legal, clerical, and other personnel as in its judgment may be necessary for the performance of its functions under this Compact. In the hiring of employees the Commission shall not be bound by the civil service laws of either state.

(d) The Commission, so far as consistent with this Compact, shall have power to:

1. Adopt rules and regulations;
2. Locate, establish, construct, operate, maintain, and abandon water gaging stations, independently or in cooperation with appropriate governmental agencies;
3. Engage in studies of water supplies of the Pecos River and its tributaries, independently or in cooperation with appropriate governmental agencies;

4. Collect, analyze, correlate, preserve and report on data as to the stream flows, storage, diversions, salvage, and use of the waters of the Pecos River and its tributaries, independently or in cooperation with appropriate governmental agencies;
 5. Make findings as to any change in depletion by man's activities in New Mexico, and on the Delaware River in Texas;
 6. Make findings as to the deliveries of water at the New Mexico-Texas state line;
 7. Make findings as to the quantities of water salvaged and the amount thereof delivered at the New Mexico-Texas state line;
 8. Make findings as to quantities of water non-beneficially consumed in New Mexico;
 9. Make findings as to quantities of unappropriated flood waters;
 10. Make findings as to the quantities of reservoir losses from reservoirs constructed in New Mexico which may be used for the benefit of both states, and as to the share thereof charged under Article VI hereof to each of the states;
 11. Acquire and hold such personal and real property as may be necessary for the performance of its duties hereunder and to dispose of the same when no longer required;
 12. Perform all functions required of it by this Compact and do all things necessary, proper or convenient in the performance of its duties hereunder, independently or in cooperation with appropriate governmental agencies;
 13. Make and transmit annually to the Governors of the signatory states and to the President of the United States on or before the last day of February of each year, a report covering the activities of the Commission for the preceding year.
- (e) The Commission shall make available to the Governor of each of the signatory states any information within its possession at any time, and shall always provide free access to its records by the Governors of each of the States, or their representatives, or authorized representatives of the United States.
- (f) Findings of fact made by the Commission shall not be conclusive in any court, or before any agency or tribunal, but shall constitute prima facie evidence of the facts found.
- (g) The organization meeting of the Commission shall be held within four months from the effective date of this Compact.

ARTICLE VI

The following principles shall govern in regard to the apportionment made by Article III of this Compact:

- (a) The Report of the Engineering Advisory Committee, supplemented by additional data hereafter accumulated, shall be used by the Commission in making administrative determinations.
- (b) Unless otherwise determined by the Commission, depletions by man's activities, state-line flows, quantities of water salvaged, and quantities of unappropriated flood waters shall be determined on the basis of three-year periods reckoned in continuing progressive series beginning with the first day of January next succeeding the ratification of this Compact.

(c) Unless and until a more feasible method is devised and adopted by the Commission the inflow-outflow method, as described in the Report of the Engineering Advisory Committee, shall be used to:

(i) Determine the effect on the state-line flow of any change in depletions by man's activities or otherwise, of the waters of the Pecos River in New Mexico.

(ii) Measure at or near the Avalon Dam in New Mexico the quantities of water salvaged.

(iii) Measure at or near the state line any water released from storage for the benefit of Texas as provided for in subparagraph (d) of this Article.

(iv) Measure the quantities of unappropriated flood waters apportioned to Texas which have not been stored and regulated by reservoirs in New Mexico.

(v) Measure any other quantities of water required to be measured under the terms of this Compact which are susceptible of being measured by the inflow-outflow method.

(d) If unappropriated flood waters apportioned to Texas are stored in facilities constructed in New Mexico, the following principles shall apply:

(i) In case of spill from a reservoir constructed in and operated by New Mexico, the water stored to the credit of Texas will be considered as the first water to spill.

(ii) In case of spill from a reservoir jointly constructed and operated, the water stored to the credit of either state shall not be affected.

(iii) Reservoir losses shall be charged to each state in proportion to the quantity of water belonging to that state in storage at the time the losses occur.

(iv) The water impounded to the credit of Texas shall be released by New Mexico on the demand of Texas.

(e) Water salvaged shall be measured at or near the Avalon Dam in New Mexico and to the quantity thereof shall be added a quantity equal to the quantity of salvaged water depleted by man's activities above Avalon Dam. The quantity of water salvaged that is apportioned to Texas shall be delivered by New Mexico at the New Mexico-Texas state line. The quantity of unappropriated flood waters impounded under paragraph (d) of this Article, when released shall be delivered by New Mexico at the New Mexico-Texas state line in the quantity released less channel losses. The unappropriated flood waters apportioned to Texas by this Compact that are not impounded in reservoirs in New Mexico shall be measured and delivered at the New Mexico-Texas state line.

(f) Beneficial use shall be the basis, the measure, and the limit of the right to use water.

ARTICLE VII

In the event of importation of water by man's activities to the Pecos River Basin from any other river basin the state making the importation shall have the exclusive use of such imported water.

ARTICLE VIII

The provisions of this Compact shall not apply to, or interfere with, the right or power of either signatory state to regulate within its boundaries the appropriation, use and control of water, not inconsistent with its obligations under this Compact

ARTICLE IX

In maintaining the flows at the New Mexico-Texas state line required by this Compact, New Mexico shall in all instances apply the principle of prior appropriation within New Mexico.

ARTICLE X

The failure of either state to use the water, or any part thereof, the use of which is apportioned to it under the terms of this Compact, shall not constitute a relinquishment of the right to such use, nor shall it constitute a forfeiture or abandonment of the right to such use.

ARTICLE XI

Nothing in this Compact shall be construed as:

(a) Affecting the obligations of the United States under the Treaty with the United Mexican States (Treaty Series 994);

(b) Affecting any rights or powers of the United States, its agencies or instrumentalities, in or to the waters of the Pecos River, or its capacity to acquire rights in and to the use of said waters;

(c) Subjecting any property of the United States, its agencies or instrumentalities, to taxation by any state or subdivision thereof, or creating any obligation on the part of the United States, its agencies or instrumentalities, by reason of the acquisition, construction or operation of any property or works of whatever kind, to make any payment to any state or political subdivision thereof, state agency, municipality or entity whatsoever, in reimbursement for the loss of taxes;

(d) Subjecting any property of the United States, its agencies or instrumentalities, to the laws of any state to an extent other than the extent to which such laws would apply without regard to this Compact.

ARTICLE XII

The consumptive use of water by the United States or any of its agencies, instrumentalities or wards shall be charged as a use by the state in which the use is made; provided, that such consumptive use incident to the diversion, impounding, or conveyance of water in one state for use in the other state shall be charged to such latter state.

ARTICLE XIII

This Compact shall not be construed as establishing any general principle or precedent applicable to other interstate streams.

ARTICLE XIV

This Compact may be terminated at any time by appropriate action of the legislatures of both of the signatory states. In the event of such termination, all rights established under it shall continue unimpaired.

ARTICLE XV

This Compact shall become binding and obligatory when it shall have been ratified by the legislature of each State and approved by the Congress of the United States. Notice of ratification by the legislature of each State shall be given by the Governor of that State to the Governor of the other State and to the President of the United States, and the President is hereby requested to give notice to the Governor of each State of approval by the Congress of the United States.

In Witness Whereof, the Commissioners have executed three counterparts hereof each of which shall be and constitute an original, one of which shall be deposited in the archives of the Department of State of the United States, and one of which shall be forwarded to the Governor of each State.

§ 43.006. Text of Compact

The Canadian River Compact reads as follows:

CANADIAN RIVER COMPACT

The State of New Mexico, the State of Texas, and the State of Oklahoma, acting through their Commissioners, John H. Bliss for the State of New Mexico, E. V. Spence for the State of Texas, and Clarence Burch for the State of Oklahoma, after negotiations participated in by Berkeley Johnson, appointed by the President as the representative of the United States of America, have agreed respecting Canadian River as follows:

ARTICLE I

The major purposes of this Compact are to promote interstate comity; to remove causes of present and future controversy; to make secure and protect present developments within the States; and to provide for the construction of additional works for the conservation of the waters of Canadian River.

ARTICLE II

As used in this Compact:

(a) The term "Canadian River" means the tributary of Arkansas River which rises in northeastern New Mexico and flows in an easterly direction through New Mexico, Texas and Oklahoma and includes North Canadian River and all other tributaries of said Canadian River.

(b) The term "North Canadian River" means that major tributary of Canadian River officially known as North Canadian River from its source to its junction with Canadian River and includes all tributaries of North Canadian River.

(c) The term "Commission" means the agency created by this Compact for the administration thereof.

(d) The term "conservation storage" means that portion of the capacity of reservoirs available for the storage of water for subsequent release for domestic, municipal, irrigation and industrial uses, or any of them, and it excludes any portion of the capacity of reservoirs allocated solely to flood control, power production and sediment control, or any of them.

ARTICLE III

All rights to any of the waters of Canadian River which have been perfected by beneficial use are hereby recognized and affirmed.

ARTICLE IV

(a) New Mexico shall have free and unrestricted use of all waters originating in the drainage basin of Canadian River above Conchas Dam.

(b) New Mexico shall have free and unrestricted use of all waters originating in the drainage basin of Canadian River in New Mexico below Conchas Dam, provided that the amount of conservation storage in New Mexico available for impounding these waters which originate in the drainage basin of Canadian River below Conchas Dam shall be limited to an aggregate of two hundred thousand (200,000) acre-feet.

(c) The right of New Mexico to provide conservation storage in the drainage basin of North Canadian River shall be limited to the storage of such water as at the time may be unappropriated under the laws of New Mexico and of Oklahoma.

ARTICLE V

Texas shall have free and unrestricted use of all waters of Canadian River in Texas, subject to the limitations upon storage of water set forth below:

(a) The right of Texas to impound any of the waters of North Canadian River shall be limited to storage on tributaries of said River in Texas for municipal uses, for household and domestic uses, livestock watering, and the irrigation of lands which are cultivated solely for the purpose of providing food and feed for the householders and domestic livestock actually living or kept on the property.

(b) Until more than three hundred thousand (300,000) acre-feet of conservation storage shall be provided in Oklahoma, exclusive of reservoirs in the drainage basin of North Canadian River and exclusive of reservoirs in the drainage basin of Canadian River east of the 97th meridian, the right of Texas to retain water in conservation storage, exclusive of waters of North Canadian River, shall be limited to five hundred thousand (500,000) acre-feet; thereafter the right of Texas to impound and retain such waters in storage shall be limited to an aggregate quantity equal to two hundred thousand (200,000) acre-feet plus whatever amount of water shall be at the same time in conservation storage in reservoirs in the drainage basin of Canadian River in Oklahoma, exclusive of reservoirs in the drainage basin of North Canadian River and exclusive of reservoirs east of the 97th meridian; and for the purpose of determining the amount of water in conservation storage, the maximum quantity of water in storage following each flood or series of floods shall be used; provided, that the right of Texas to retain and use any quantity of water previously impounded shall not be reduced by any subsequent application of the provisions of this paragraph (b).

(c) Should Texas for any reason impound any amount of water greater than the aggregate quantity specified in paragraph (b) of this Article, such excess shall be retained in storage until under the provisions of said paragraph Texas shall become entitled to its use; provided, that, in event of spill from conservation storage, any such excess shall be reduced by the amount of such spill from the most easterly reservoir on Canadian River in Texas; provided further, that all such excess quantities in storage shall be reduced monthly to compensate for reservoir losses in proportion to the total amount of water in the reservoir or reservoirs in which such excess water is being held; and provided further that on demand by the Commissioner for Oklahoma the remainder of any such excess quantity of water in storage shall be released into the channel of Canadian River at the greatest rate practicable.

ARTICLE VI

Oklahoma shall have free and unrestricted use of all waters of Canadian River in Oklahoma.

ARTICLE VII

The Commission may permit New Mexico to impound more water than the amount set forth in Article IV and may permit Texas to impound more water than the amount set forth in Article V; provided, that no State shall thereby be deprived of water needed for beneficial use; provided further that each such permission shall be for a limited period not

exceeding twelve (12) months; and provided further that no State or user of water within any State shall thereby acquire any right to the continued use of any such quantity of water so permitted to be impounded.

ARTICLE VIII

Each State shall furnish to the Commission at intervals designated by the Commission accurate records of the quantities of water stored in reservoirs pertinent to the administration of this Compact.

ARTICLE IX

(a) There is hereby created an interstate administrative agency to be known as the "Canadian River Commission." The Commission shall be composed of three (3) Commissioners, one (1) from each of the signatory States, designated or appointed in accordance with the laws of each such State, and if designated by the President an additional Commissioner representing the United States. The President is hereby requested to designate such a Commissioner. If so designated, the Commissioner representing the United States shall be the presiding officer of the Commission, but shall not have the right to vote in any of the deliberations of the Commission. All members of the Commission must be present to constitute a quorum. A unanimous vote of the Commissioners for the three (3) signatory States shall be necessary to all actions taken by the Commission.

(b) The salaries and personal expenses of each Commissioner shall be paid by the government which he represents. All other expenses which are incurred by the Commission incident to the administration of this Compact and which are not paid by the United States shall be borne equally by the three (3) States and be paid by the Commission out of a revolving fund hereby created to be known as the "Canadian River Revolving Fund." Such fund shall be initiated and maintained by equal payments of each State into the fund in such amounts as will be necessary for administration of this Compact. Disbursements shall be made from said fund in such manner as may be authorized by the Commission. Said fund shall not be subject to the audit and accounting procedures of the States. However, all receipts and disbursements of funds handled by the Commission shall be audited by a qualified independent public accountant at regular intervals and the report of the audit shall be included in and become a part of the annual report of the Commission.

(c) The Commission may:

(1) Employ such engineering, legal, clerical, and other personnel as in its judgment may be necessary for the performance of its functions under this Compact;

(2) Enter into contracts with appropriate Federal agencies for the collection, correlation, and presentation of factual data, for the maintenance of records, and for the preparation of reports;

(3) Perform all functions required of it by this Compact and do all things necessary, proper, or convenient in the performance of its duties hereunder, independently or in cooperation with appropriate governmental agencies.

(d) The Commission shall:

(1) Cause to be established, maintained and operated such stream and other gaging stations and evaporation stations as may from time to time be necessary for proper administration of the Compact, independently or in cooperation with appropriate governmental agencies;

(2) Make and transmit to the Governors of the signatory States on or before the last day of March of each year, a report covering the activities of the Commission for the preceding year;

(3) Make available to the Governor of any signatory state, on his request, any information within its possession at any time, and shall al-

ways provide access to its records by the Governors of the States, or their representatives, or by authorized representatives of the United States.

ARTICLE X

Nothing in this Compact shall be construed as:

(a) Affecting the obligations of the United States to the Indian Tribes;

(b) Subjecting any property of the United States, its agencies or instrumentalities, to taxation by any State or subdivision thereof, or creating any obligation on the part of the United States, its agencies or instrumentalities, by reason of the acquisition, construction or operation of any property or works of whatever kind, to make any payment to any State or political subdivision thereof, state agency, municipality or entity whatsoever, in reimbursement for the loss of taxes;

(c) Subjecting any property of the United States, its agencies or instrumentalities, to the laws of any State to an extent other than the extent to which such laws would apply without regard to this Compact;

(d) Applying to, or interfering with, the right or power of any signatory State to regulate within its boundaries the appropriation, use and control of water, not inconsistent with its obligations under this Compact;

(e) Establishing any general principle or precedent applicable to other interstate streams.

ARTICLE XI

This Compact shall become binding and obligatory when it shall have been ratified by the Legislature of each State and approved by the Congress of the United States. Notice of ratification by the Legislature of each State shall be given by the Governor of that State to the Governors of the other States and to the President of the United States. The President is hereby requested to give notice to the Governor of each State of approval by the Congress of the United States.

IN WITNESS WHEREOF, The Commissioners have executed four (4) counterparts hereof, each of which shall be and constitute an original, one (1) of which shall be deposited in the archives of the Department of State of the United States, and (1) of which shall be forwarded to the Governor of each State.

§ 44.010. Text of Compact

The Sabine River Compact reads as follows:

SABINE RIVER COMPACT

Entered Into by the States of

LOUISIANA

and

TEXAS

Logansport, Louisiana
January 26, 1953

SABINE RIVER COMPACT

The State of Texas and the State of Louisiana, parties signatory to this Compact (hereinafter referred to as "Texas" and "Louisiana", respectively, or individually as a "State", or collectively as the "States"), having resolved to conclude a compact with respect to the waters of the Sabine River, and having appointed representatives as follows:

For Texas: Henry L. Woodworth, Interstate Compact Commissioner for Texas; and John W. Simmons, President of the Sabine River Authority of Texas;

For Louisiana: Roy T. Sessums, Director of the Department of Public Works of the State of Louisiana;

and consent to negotiate and enter into the said Compact having been granted by Act of the Congress of the United States approved November 1, 1951 (Public Law No. 252; 82nd Congress, First Session), and pursuant thereto the President having designated Louis W. Prentiss as the representative of the United States, the said representatives for Texas and Louisiana, after negotiations participated in by the representative of the United States, have for such Compact agreed upon Articles as hereinafter set forth. The major purposes of this Compact are to provide for an equitable apportionment between the States of Louisiana and Texas of the waters of the Sabine River and its tributaries, thereby removing the causes of present and future controversy between the States over the conservation and utilization of said waters; to encourage the development, conservation and utilization of the water resources of the Sabine River and its tributaries; and to establish a basis for cooperative planning and action by the States for the construction, operation and maintenance of projects for water conservation and utilization purposes on that

reach of the Sabine River touching both States, and for apportionment of the benefits therefrom.

It is recognized that pollution abatement and salt water intrusion are problems which are of concern to the States of Louisiana and Texas, but inasmuch as this Compact is limited to the equitable apportionment of the waters of the Sabine River and its tributaries between the States of Louisiana and Texas, this Compact does not undertake the solution of those problems.

ARTICLE I

As used in this Compact:

(a) The word "Stateline" means the point on the Sabine River where its waters in downstream flow first touch the States of both Louisiana and Texas.

(b) The term "waters of the Sabine River" means the waters either originating in the natural drainage basin of the Sabine River, or appearing as streamflow in said River and its tributaries, from its headwater source down to the mouth of the River where it enters into Sabine Lake.

(c) The term "Stateline flow" means the flow of waters of the Sabine River as determined by the Logansport gauge located on the U. S. Highway 84, approximately four (4) river miles downstream from the Stateline. This flow, or the flow as determined by such substitute gauging station as may be established by the Administration, as hereinafter defined, pursuant to the provisions of Article VII of this Compact, shall be deemed the actual Stateline flow.

(d) The term "Stateline reach" means that portion of the Sabine River lying between the Stateline and Sabine Lake.

(e) The term "the Administration" means the Sabine River Compact Administration established under Article VII.

(f) The term "Domestic use" means the use of water by an individual, or by a family unit or household for drinking, cooking, laundering, sanitation and other personal comforts and necessities; and for the irrigation of an area not to exceed one acre, obtained directly from the Sabine River or its tributaries by an individual or family unit, not supplied by a water company, water district or municipality.

(g) The term "stock water use" means the use of water for any and all livestock and poultry.

(h) The term "consumptive use" means use of water resulting in its permanent removal from the stream.

(i) The terms "domestic" and "stock water" reservoir mean any reservoir for either or both of such uses having a storage capacity of fifty (50) acre feet or less.

(j) "Stored water" means water stored in reservoirs (exclusive of domestic or stock water reservoirs) or water withdrawn or released from reservoirs for specific uses and the identifiable return flow from such uses.

(k) The term "free water" means all waters other than "stored waters" in the Stateline reach including, but not limited to, that appearing as natural stream flow and not withdrawn or released from a reservoir for specific uses. Waters released from reservoirs for the purpose of maintaining stream flows as provided in Article V, shall be "free water". All reservoir spills or releases of stored waters made in anticipation of spills, shall be free water.

(l) Where the name of the State or the term "State" is used in this Compact, it shall be construed to include any person or entity of any na-

ture whatsoever of the States of Louisiana or Texas using, claiming, or in any manner asserting any right to the use of the waters of the Sabine River under the authority of that State.

(m) Wherever any State or Federal official or agency is referred to in this Compact, such reference shall apply equally to the comparable official or agency succeeding to their duties and functions.

ARTICLE II

Subject to the provisions of Article X, nothing in this Compact shall be construed as applying to, or interfering with, the right or power of either signatory State to regulate within its boundaries the appropriation, use and control of water, not inconsistent with its obligation under this Compact.

ARTICLE III

Subject to the provisions of Article X, all rights to any of the waters of the Sabine River which have been obtained in accordance with the laws of the States are hereby recognized and affirmed; provided, however, that withdrawals, from time to time, for the satisfaction of such rights, shall be subject to the availability of supply in accordance with the apportionment of water provided under the terms of this Compact.

ARTICLE IV

Texas shall have free and unrestricted use of all waters of the Sabine River and its tributaries above the Stateline subject, however, to the provisions of Articles V and X.

ARTICLE V

Texas and Louisiana hereby agree upon the following apportionment of the waters of the Sabine River:

(a) All free water in the Stateline reach shall be divided equally between the two States, this division to be made without reference to the origin.

(b) The necessity of maintaining a minimum flow at the Stateline for the benefit of water users below the Stateline in both States is recognized, and to this end it is hereby agreed that:

(1) Reservoirs and permits above the Stateline existing as of January 1, 1953 shall not be liable for maintenance of the flow at the Stateline.

(2) After January 1, 1953, neither State shall permit or authorize any additional uses which would have the effect of reducing the flow at the Stateline to less than 36 cubic feet per second.

(3) Reservoirs on which construction is commenced after January 1, 1953, above the Stateline shall be liable for their share of water necessary to provide a minimum flow at the Stateline of 36 cubic feet per second; provided, that no reservoir shall be liable for a greater percentage of this minimum flow than the percentage of the drainage area above the Stateline contributing to that reservoir, exclusive of the watershed of any reservoir on which construction was started prior to January 1, 1953. Water released from Texas' reservoirs to establish the minimum flow of 36 cubic feet per second, shall be classed as free water at the Stateline and divided equally between the two States.

(c) The right of each State to construct impoundment reservoirs and other works of improvement on the Sabine River or its tributaries located wholly within its boundaries is hereby recognized.

(d) In the event that either State constructs reservoir storage on the tributaries below Stateline after January 1, 1953, there shall be deducted

from that State's share of the flow in the Sabine River all reductions in flow resulting from the operation of the tributary storage and conversely such State shall be entitled to the increased flow resulting from the regulation provided by such storage.

(e) Each State shall have the right to use the main channel of the Sabine River to convey water stored on the Sabine River or its tributaries located wholly within its boundaries, downstream to a desired point of removal without loss of ownership of such stored waters. In the event that such water is released by a State through the natural channel of a tributary and the channel of the Sabine River to a downstream point of removal, a reduction shall be made in the amount of water which can be withdrawn at the point of removal equal to the transmission losses.

(f) Each State shall have the right to withdraw its share of the water from the channel of the Sabine River in the Stateline reach in accordance with Article VII. Neither State shall withdraw at any point more than its share of the flow at that point except, that pursuant to findings and determination of the Administration as provided under Article VII of this Compact, either State may withdraw more or less of its share of the water at any point providing that its aggregate withdrawal shall not exceed its total share. Withdrawals made pursuant to this paragraph shall not prejudice or impair the existing rights of users of Sabine River waters.

(g) Waters stored in reservoirs constructed by the States in the Stateline reach shall be shared by each State in proportion to its contribution to the cost of storage. Neither State shall have the right to construct a dam on the Stateline reach without the consent of the other State.

(h) Each State may vary the rate and manner of withdrawal of its share of such jointly stored waters on the Stateline reach, subject to meeting the obligations for amortization of the cost of the joint storage. In any event, neither State shall withdraw more than its pro-rata share in any one year (a year meaning a water year, October 1st to September 30th) except by authority of the Administration. All jointly stored water remaining at the end of a water year shall be reapportioned between the States in the same proportion as their contribution to the cost of the storage.

(i) Except for jointly stored water, as provided in (h) above, each State must use its apportionment of the natural stream flows as they occur and there shall be no allowance of accumulation of credits or debits for or against either State. The failure of either State to use the stream flow or any part thereof, the use of which is apportioned to it under the terms of this Compact, shall not constitute a relinquishment of the right to such use in the future; conversely, the failure of either State to use the water at the time it is available does not give it the right to the flow in excess of its share of the flow at any other time.

(j) From the apportionment of waters of the Sabine River as defined in this Article, there shall be excluded from such apportionment all waters consumed in either State for domestic and stock water uses. Domestic and stock water reservoirs shall be so excluded.

(k) Each State may use its share of the water apportioned to it in any manner that may be deemed beneficial by that State.

ARTICLE VI

(a) The States through their respective appropriate agencies or subdivisions may construct jointly, or cooperate with any agency or instrumentality of the United States in the construction of works on the Stateline reach for the development, conservation and utilization for all beneficial purposes of the waters of the Sabine River.

(b) All monetary revenues growing out of any joint State ownership, title and interest in works constructed under Section (a) above, and accruing to the States in respect thereof, shall be divided between the States in proportion to their respective contributions to the cost of construction; provided however, that each State shall retain undivided all its revenues from recreational facilities within its boundaries incidental to the use of the waters of the Sabine River, and from its severally State-owned recreational facilities constructed appurtenant thereto.

(c) All operation and maintenance costs chargeable against any State ownership, title and interest in works constructed under Section (a) above, shall be assessed in proportion to the contribution of each State to the original cost of construction.

ARTICLE VII

(a) There is hereby created an interstate administrative agency to be designated as the "Sabine River Compact Administration" herein referred to as "the Administration".

(b) The Administration shall consist of two members from each State and of one member as representative of the United States, chosen by the President of the United States, who is hereby requested to appoint such a representative. The United States member shall be ex-officio chairman of the Administration without vote and shall not be a domiciliary of or reside in either State. The appointed members for Texas and Louisiana shall be designated within thirty days after the effective date of this Compact.

(c) The Texas members shall be appointed by the Governor for a term of six years; provided, however, that one of the original Texas members shall be appointed for a term to establish a half-term interval between the expiration dates of the terms of such members, and thereafter one such member shall be appointed each three (3) years for the regular term. One of the Louisiana members shall be ex officio the Director of the Louisiana Department of Public Works; the other Louisiana member shall be a resident of the Sabine Watershed and shall be appointed by the Governor of Louisiana for a term of four (4) years; provided that the first member so appointed shall serve until June 30, 1958. Each state member shall hold office subject to the laws of his state or until his successor has been duly appointed and qualified.

(d) Interim vacancy, for whatever cause, in the office of any member of the Administration shall be filled for the unexpired term in the same manner as hereinabove provided for regular appointment.

(e) Within sixty days after the effective date of this Compact, the Administration shall meet and organize. A quorum for any meeting shall consist of three voting members of the Administration. Each State member shall have one vote, and every decision, authorization, determination, order or other action shall require the concurring votes of at least three members.

(f) The Administration shall have power to:

(1) Adopt, amend and revoke by-laws, rules and regulations, and prescribe procedures for administration of and consistent with the provisions of this Compact;

(2) Fix and determine from time to time the location of the Administration's principal office;

(3) Employ such engineering, legal, clerical and other personnel, without regard to the civil service laws of either State, as the Administration may determine necessary or proper to supplement State-furnished assistance as hereinafter provided, for the performance of its functions under this Compact; provided, that such employees shall be paid by and be re-

sponsible to the Administration and shall not be considered to be employees of either State;

(4) Procure such equipment, supplies and technical assistance as the Administration may determine to be necessary or proper to supplement State-furnished assistance as hereinafter provided, for the performance of its functions under this Compact;

(5) Adopt a seal which shall be judicially recognized.

(g) In cooperation with the chief official administering water rights in each State and with appropriate Federal agencies, the Administration shall have and perform powers and duties as follows:

(1) To collect, analyze, correlate, compile and report on data as to water supplies, stream flows, storage, diversions, salvage and use of the waters of the Sabine River and its tributaries, and as to all factual data necessary or proper for the administration of this Compact;

(2) To designate as official stations for the administration of this Compact such existing water gauging stations (and to operate, maintain, repair and abandon the same), and to locate, establish, construct, operate, maintain, repair and abandon additional such stations, as the Administration may from time to time find and determine necessary or appropriate;

(3) To make findings as to the deliveries of water at Stateline as hereinabove provided, from the stream-flow records of the Stateline gauge which shall be operated and maintained by the Administration or in cooperation with the appropriate Federal agency, for determination of the actual Stateline flow unless the Administration shall find and determine that, because of changed physical conditions or for any other reason, reliable records are not obtainable thereat; in which case such existing Stateline station may with the approval of the Administration be abandoned and, with such approval, a substitute Stateline station established in lieu thereof;

(4) To make findings as to the quantities of reservoir storage (including joint storage) and releases therefrom, diversions, transmission losses and as to incident stream-flow changes, and as to the share of such quantities chargeable against or allocable to the respective States;

(5) To record and approve all points of diversion at which water is to be removed from the Sabine River or its tributaries below the Stateline; provided that, in any case, the State agency charged with the administration of the water laws for the State in which such point of diversion is located shall first have approved such point for removal or diversion; provided further, that any such point of removal or diversion once jointly approved by the appropriate State agency and the Administration, shall not thereafter be changed without the joint amendatory approval of such State agency and the Administration;

(6) To require water users at their expense to install and maintain measuring devices of approved type in any ditch, pumping station or other water diversion works on the Sabine River or its tributaries below the Stateline, as the Administration may determine necessary or proper for the purposes of this Compact; provided that the chief official of each State charged with the administration of water rights therein shall supervise the execution and enforcement of the Administration's requirements for such measuring devices;

(7) To investigate any violation of this Compact and to report findings and recommendations thereon to the chief official of the affected State charged with the administration of water rights, or to the Governor of such State as the Administration may deem proper;

(8) To acquire, hold, occupy and utilize such personal and real property as may be necessary or proper for the performance of its duties and functions under this Compact;

(9) To perform all functions required of the Administration by this Compact, and to do all things necessary, proper or convenient in the performance of its duties hereunder.

(h) Each State shall provide such available facilities, supplies, equipment, technical information and other assistance as the Administration may require to carry out its duties and function, and the execution and enforcement of the Administration's orders shall be the responsibility of the agents and officials of the respective States charged with the administration of water rights therein. State officials shall furnish pertinent factual and technical data to the Administration upon its request.

(i) Findings of fact made by the Administration shall not be conclusive in any court or before any agency or tribunal but shall constitute prima facie evidence of such facts.

(j) In the case of a tie vote on any of the Administration's determinations, orders or other actions subject to arbitration, then arbitration shall be a condition precedent to any right of legal action. Either side of a tie vote may, upon request, submit the question to arbitration. If there shall be arbitration, there shall be three arbitrators: one named in writing by each side, and the third chosen by the two arbitrators so elected. If the arbitrators fail to select a third within ten days, then he shall be chosen by the Representative of the United States.

(k) The salaries, if any, and the personal expenses of each member of the Administration, shall be paid by the Government which he represents. All other expenses incident to the administration of this Compact and which are not paid by the United States shall be borne equally by the States. Ninety days prior to the Regular Session of the Legislature of either State, the Administration shall adopt and transmit to the Governor of such State for his approval, its budget covering anticipated expenses for the forthcoming biennium and the amount thereof payable by such State. Upon approval by its Governor, each State shall appropriate and pay the amount due by it to the Administration. The Administration shall keep accurate accounts of all receipts and disbursements and shall include a statement thereof, together with a certificate of audit by a certified public accountant, in its annual report. Each State shall have the right to make an examination and audit of the accounts of the Administration at any time.

(l) The Administration shall, whenever requested, provide access to its records by the Governor of either State or by the chief official of either State charged therein with the administration of water rights. The Administration shall annually on or before January 15th of each year make and transmit to the Governors of the signatory States, and to the President of the United States, a report of the Administration's activities and deliberations for the preceding year.

ARTICLE VIII

(a) This Compact shall become effective when ratified by the Legislature and approved by the Governors of both States and when approved by the Congress of the United States.

(b) The provisions of this Compact shall remain in full force and effect until modified, altered or amended, or in the same manner as hereinabove required for ratification thereof. The right so to modify, alter or amend this Compact is expressly reserved. This Compact may be terminated at any time by mutual consent of the signatory States. In the event this Compact is terminated as herein provided, all rights then vested hereunder shall continue unimpaired.

(c) Should a court of competent jurisdiction hold any part of this Compact to be contrary to the constitution of any signatory State or of

the United States of America, all other severable provisions of this Compact shall continue in full force and effect.

ARTICLE IX

This Compact is made and entered into for the sole purpose of effecting an equitable apportionment and providing beneficial uses of the waters of the Sabine River, its tributaries and its watershed, without regard to the boundary between Louisiana and Texas, and nothing herein contained shall be construed as an admission on the part of either State or any agency, commission, department or subdivision thereof, respecting the location of said boundary; and neither this Compact nor any data compiled for the preparation or administration thereof shall be offered, admitted or considered in evidence, in any dispute, controversy, or litigation bearing upon the matter of the location of said boundary.

The term "Stateline" as defined in this Compact shall not be construed to define the actual boundary between the State of Texas and the State of Louisiana.

ARTICLE X

Nothing in this Compact shall be construed as affecting, in any manner, any present or future rights or powers of the United States, its agencies, or instrumentalities in, to and over the waters of the Sabine River Basin.

IN WITNESS WHEREOF, the Representatives have executed this Compact in three counterparts hereof, each of which shall be and constitute an original, one of which shall be forwarded to the Administrator, General Services Administration of the United States of America and one of which shall be forwarded to the Governor of each State.
