SUBCHAPTER G. COASTAL WETLAND ACQUISITION

§ 33.231 Short Title
This subchapter may be cited as the Coastal Wetland Acquisition Act.

§ 33.232 Policy
It is the declared policy of the state:

(1) to protect the property rights of those who sell interests in land to the state by fairly compensating the sellers;

(2) to protect that coastal wetland which is most essential to the public interest by acquiring fee and lesser interests in the coastal wet-
land and managing it in a manner that will preserve and protect the productivity and integrity of the land as coastal wetland; and

(3) to assure that the state does not expend funds to acquire any coastal wetland to which it already holds a valid title at the time of the expenditure.

§ 33.233. Definitions

In this subchapter:

(1) “Acquiring agency” means the Parks and Wildlife Department.

(2) “Certifying agency” means the General Land Office.

(3) “Coastal wetland” means marshes and other areas of high biologic productivity where seawater is present during times other than and in addition to storms or hurricanes as defined by the Beaufort Wind Scale, but does not include any areas seaward of the line of mean annual low spring tide, nor any mainland area where seawater is present only during storms or hurricanes as defined by the Beaufort Wind Scale, and the presence at a given point of vegetation characteristic of marshes containing seawater is prima facie evidence that seawater is present at the point during times other than and in addition to storms or hurricanes as defined by the Beaufort Wind Scale.

(4) “Seaward” means the direction away from the shore and toward the body of water bounded by the shore.

(5) “Seawater” means any water containing a concentration of one-twentieth of one percent or more by weight of total dissolved inorganic salts derived from the marine water of the Gulf of Mexico.

§ 33.234. Duties and Authority of Acquiring Agency

(a) The acquiring agency shall do the following:

(1) accept gifts, grants, or devises of interests in land;

(2) acquire, by purchase or condemnation, fee and lesser interests in the surface estate in coastal wetland certified by the certifying agency as most essential to protection of the public interest, provided that in each instance in which an interest in land is acquired by the acquiring agency pursuant to this section, a sufficient interest shall be acquired to preserve and protect the productivity and integrity of such land as coastal wetland; and

(3) manage interests in land acquired pursuant to this section in a manner that will preserve and protect the productivity and integrity of the land as coastal wetland.

(b) This subchapter shall not be construed to authorize the condemnation of any interest in the mineral estate in any coastal wetland.

(c) The acquiring agency shall promulgate reasonable rules and regulations necessary to preserve and protect the productivity and integrity of the land as coastal wetland acquired pursuant to this subchapter. The rules and regulations shall include regulations governing activities conducted on the land in conjunction with mineral exploration, development, and production.

(d) If the acquiring agency seeks to condemn an interest less than the fee interest in the surface estate in any coastal wetland, the owner of the coastal wetland may demand that the acquiring agency instead seek condemnation of the fee interest in the surface estate in the coastal wetland. Upon this demand, the acquiring agency shall either:

(1) seek to condemn the fee interest in the surface estate in the coastal wetland; or

(2) cease all condemnation proceedings pursuant to this subchapter against the coastal wetland.

§ 33.235. Agricultural Exemption

Coastal wetland used only for farming or ranching activities, including maintenance and repair of buildings, earthworks, and other structures, shall not be subject to any power of condemnation exercised pursuant to this subchapter. However, this exemption from condemnation shall terminate upon the receipt by any state or federal agency of an application for a permit, license, or other authorization to conduct on the wetland, activities other than farming and ranching activities, including irrigation and water well drilling, and activities necessary to exploration, development, or production of the underlying mineral estate.

§ 33.236. Duties and Authority of Certifying Agency

(a) The certifying agency shall do the following:

(1) certify to the acquiring agency that coastal wetland which is most essential to the public interest in accordance with the criteria in this subchapter, assign priorities for acquisition of interests in the coastal wetland, and revoke certification made pursuant to this section when it is in the public interest to do so; and
§ 33.236  NATURAL RESOURCES CODE  500

(2) publicize the importance to the public interest of coastal wetland in general, and of designated coastal wetland in particular.

(b) A certification, assignment of priority for acquisition, or revocation of certification made pursuant to this subchapter does not constitute a "contested case" within the meaning of the Administrative Procedure and Texas Register Act (Article 6252-13a, Vernon's Texas Civil Statutes).

(c) The commissioner of the General Land Office shall forward a copy of any certification to the county judge of every county in which any part of the wetland certified is located and shall request the recommendation of the commissioners of the county on the certification.

(d) Within 45 days of receipt of a certification from the commissioner of the General Land Office, the commissioners court shall send to the commissioner of the General Land Office written recommendations concerning the certification.

(e) If the commissioners court of a county described in Subsection (c) of this section agrees that the portion of the certified wetland within the county should be certified, or if the commissioners court does not submit recommendations to the commissioner of the General Land Office within the time specified in Subsection (d) of this section, then as to that portion of the wetland, the certification shall continue in full force and effect.

(f) If the commissioners court of any county described in Subsection (c) of this section recommends that certified wetland or any part of it within the county should not be certified, the certification shall be revoked as to that part of the wetland.

(g) If the commissioner of the General Land Office wishes to contest a revocation of certification pursuant to Subsection (f) of this section, he shall forward the certification to the governor, together with the recommendations of the commissioners courts and any further information the commissioner of the General Land Office shall deem advisable.

(h) If the governor determines that any certification revoked pursuant to Subsection (f) of this section should be reinstated in whole or in part, he shall notify the commissioner of the General Land Office within 60 days of receipt of the certification pursuant to Subsection (g) of this section. Upon receipt of notice from the governor, the commissioner of the General Land Office may recertify the part of the wetland to the acquiring agency, and the certification shall be in full force and effect.

§ 33.237.  Most Essential Coastal Wetland Certification

(a) In selecting and certifying coastal wetland most essential to the public interest, and in assigning priorities of acquisition to coastal wetland, the certifying agency shall consider the following criteria:

(1) whether the land is coastal wetland within the definition, intent, and purpose of this subchapter;

(2) whether the state owns the coastal wetland or claims title to it, which title can be validated by bringing an appropriate action in a court of law;

(3) whether the biological, geological, or physical characteristics of the coastal wetland, including the interrelationship of the coastal wetland with other coastal wetland, is essential to the public interest;

(4) the degree to which the coastal wetland is in danger of being altered, damaged, or destroyed, and the imminence of that danger; and

(5) the cost of acquiring the coastal wetland.

(b) The legislature declares that certifications, assignments of priority for acquisition, and revocations of certifications made pursuant to Section 33.235 of this code are made only for the purpose of administering the provisions of this subchapter. No certifications, assignments of priority for acquisition, or revocations of certification shall be grounds for an inference, or admissible in a court of law to prove, that any coastal wetland is of greater or lesser value than any other coastal wetland for any purpose other than administering the provisions of this subchapter.

(c) A certification made pursuant to this subchapter shall expire one year from the date of certification.

(d) If on or before the expiration date of such certification the acquiring agency files suit in a court of law to condemn the certified coastal wetland, the certification shall extend until the suit is settled, dismissed, or otherwise terminated.

(e) If a contract of sale between the state and the owner of the certified coastal wetland is entered into or on before the expiration date of the certification, the certification shall extend until title to the coastal wetland is conveyed to the state or the contract is rescinded, invalidated, or otherwise terminated.

§ 33.238.  Funding

The acquiring agency may compensate the seller of land acquired pursuant to this subchapter with funds obtained through:

(1) gift, grant, or devise;

(2) legislative appropriation; or

(3) gift or grant from the United States.

§ 34.052. Subdivision of Land
A board may have the land subject to its control surveyed or subdivided into tracts, lots, or blocks which will, in its judgment, be most conducive and convenient to facilitate the advantageous sale of oil, gas, or mineral leases.

A board may make maps and plats it considers necessary to carry out the purposes of this chapter.

§ 34.054. Abstracts of Title
A board may obtain authentic abstracts of title to the land subject to its control that it considers necessary and may take the necessary steps to perfect a marketable title to the land.

§ 34.055. Geological Surveys and Investigations
A board may issue a permit for geological, geophysical, and other surveys and investigations on land subject to lease by the board that is not under valid and existing leases and that will encourage the development of the land for oil, gas, or other minerals. A permit may be issued for a consideration and under terms and conditions which the board considers to be in the best interest of the state.

§ 34.056. Placing Lease on Market
If a board determines there is a demand for the purchase of oil, gas, or mineral leases on a lot or tract of land subject to the control of the board which will reasonably insure an advantageous sale, the board shall place the oil, gas, or mineral leases on the market in the tract or tracts which the board may designate.

§ 34.057. Advertisement of Lease
A board shall insert an advertisement that leases will be offered for sale on a certain date in at least three issues of each of four daily newspapers 30 days in advance of the sale date. § 34.058. Minimum Royalty, Bonus, and Rental
(a) A bid shall not be accepted which offers:
   (1) a royalty of less than one-eighth of the gross production of oil, gas, or other minerals; or
   (2) a cash bonus of less than $2 an acre.
(b) The minimum royalty and bonus may be increased at the discretion of the board.
(c) A bid shall contain an obligation to pay at least $1 an acre annual rental beginning with the second year of the lease, with the amount to be set by the board in advance of the advertisement.

   (1) set the royalty and rental and provide for bidding on a basis of the highest cash bonus offered; or
   (2) set the cash bonus and rental and provide for bidding on the basis of the highest royalty offered.

§ 34.060. Bids
(a) Bidding shall be by sealed bids to be opened at 10 a. m. on the sale date by a majority of the board.
(b) A separate bid shall be made for each tract offered for lease.

§ 34.061. Special Fee
(a) In addition to the payment accompanying a bid as provided in Subsection (d) of Section 34.060 of this code, a bidder on a mineral lease sale held by a board shall remit a special sale fee by separate check in an amount equal to one percent of the bid in the manner provided in Section 32.110 of this code.
(b) Failure to pay the special fee does not render the bid void, but the commissioner shall demand payment of the fee before he issues a lease to the successful bidder.
(c) If the successful bidder fails or refuses to pay the fee within 30 days after demand is made by the commissioner, the bidder is not entitled to a lease on the tract covered by his bid and the cash bonus is automatically forfeited to the state. The commissioner shall deposit the bonus in the State Treasury to the appropriate fund.

§ 34.063. Issuance of Lease

The commissioner shall issue awards or leases in accordance with the minutes as approved by each board.

§ 34.064. Easements

(a) A board may grant easements on the land covered by the provisions of this chapter for irrigation canals, laterals, flumes and ditches, telephone, telegraph, and electric power lines, and pipelines for the gathering or transportation of oil, gas, water, and other fluids or substances, together with the devices, equipment, and appurtenances which may be necessary.

(b) The easements may be granted on terms and conditions the board considers to be in the best interest of the state.

(a) All rights purchased may be assigned.

(b) An assignment must be recorded in the county or counties in which the area is located.

(c) The recorded assignment or a certified copy of the recorded assignment shall be filed in the land office within 100 days from the date of the first acknowledgment of the assignment, accompanied by 10 cents an acre for each acre assigned and a filing fee of $1. The assignment is not effective if it is not filed and the fee paid in accordance with this section.

§ 34.104. Relinquishment of Lease

(a) Rights to a whole tract or to an assigned portion of a tract may be relinquished to the state at any time by recording an instrument of relinquishment in the county or counties in which the area is located and filing the recorded relinquishment or a certified copy of the recorded relinquishment in the land office, accompanied by a filing fee of $1.

(b) A relinquishment does not release the lessee from an obligation or liability already accrued in favor of the state.

§ 34.105. State Laws and Orders of Regulatory Authority

Drilling or mining operations for oil, gas, or other minerals and the production of oil, gas, or other minerals under a lease issued under the authority of this chapter are subject to:

(1) the laws of the state;

(2) valid orders made by the Railroad Commission of Texas or other regulatory authority controlling the development of leases for the production of oil, gas, or other minerals; and

(3) regulations which the board may adopt.

[Sections 34.106 to 34.140 reserved for expansion]
SUBCHAPTER E. RENTAL AND ROYALTY PAYMENTS

§ 34.141. Annual Rental

(a) Beginning with the second year of the lease, the lessee shall pay the annual rental specified by the board each year during the life of the lease, unless oil, gas, or other minerals are being produced in paying quantities.

(b) If royalties paid during any year of the life of the lease equal or exceed the annual rental, no annual rental is due for the following year.

(c) If royalties paid during the preceding year do not equal or exceed the annual rental, the annual rental is the amount specified by the board less the amount of royalties paid during the preceding year.

§ 34.142. Due Date for Payment

(a) Annual rental is due and payable on or before the anniversary date of the lease.

(b) Royalty payments shall be paid on or before the last day of each month following the month in which the oil, gas, or other minerals are produced.

§ 34.143. Payment to Commissioner

The rental and royalty payments shall be paid to the commissioner at Austin.

§ 34.144. Statements Accompanying Payment

A payment shall be accompanied by sworn statements of the lessee, manager, or other authorized agent showing the gross amount of production since the last report and the market value of the production, together with copies of all daily gauges of tanks, gas meter readings, pipeline run tickets and receipts, and other checks or memoranda of the amounts produced.

§ 34.145. Records Subject to Inspection

The books, accounts, records, and contracts relating to producing, transporting, selling, and marketing the oil, gas, or other minerals are subject to inspection and examination at all times by the commissioner, the attorney general, and the chairman, president, or other member of the board, or the representative of either of them.

§ 34.146. State's Lien on Minerals

The state has a first lien on oil, gas, or other minerals produced from the area covered by the lease to secure the payment of all unpaid royalty or other sums of money that may be due under the lease.

[Sections 34.147 to 34.180 reserved for expansion]

SUBCHAPTER F. DUTIES OF LESSEE

§ 34.181. Duty to Develop

The lessee shall reasonably develop the lease by drilling or mining to the extent the facts justify.

§ 34.182. Protection From Drainage

The lessee shall adequately protect the oil, gas, or other minerals under the land covered by the lease from drainage from adjacent land or leases.

§ 34.183. Effect of Payment on Obligation

The payment of the bonus, rentals, or royalties under the lease does not relieve the lessee of the obligation to develop the lease and protect the oil, gas, or other minerals from drainage.

§ 34.184. Offset Drilling

(a) If oil or gas is produced in paying quantities from a well on privately owned land and the well is within 1,000 feet of the area covered by the lease, or in any case if the land covered by the lease is being drained, the lessee shall begin in good faith the drilling of an offset well on the area covered by his lease within 60 days after initial production on the private land and shall diligently prosecute the drilling.

(b) The offset well shall be drilled to the depth necessary to prevent the undue drainage of the area covered by the lease.

(c) The lessee, manager, or driller shall use all means reasonably necessary in a good-faith effort to make the offset well produce in paying quantities.

§ 34.185. Forfeiture of Lease

(a) A lease is subject to forfeiture by the commissioner if:

(1) the owner of the rights acquired under the provisions of this chapter fails or refuses to
make the payment of a sum due as rental on the lease or for royalty on production within 30 days after it becomes due;

(2) the owner or his authorized agent knowingly makes a false return or false report concerning production, royalty, or drilling;

(3) the owner fails or refuses to drill an offset well or wells in good faith as required by his lease and the rules adopted by the board;

(4) the owner or his agent refuses the proper authority access to the records and other data pertaining to operations under his lease;

The board may lease all land or parcels of land within a park that is a part of the state park system.

Section 2 of the 1979 amendatory act provided:
"All leases of park land entered into by the Board for Lease of State Park Lands before the effective date of this Act are in all things and all respects ratified, confirmed, approved, and validated. This section does not apply to any litigation in progress that questions the validity of a lease of park land if the litigation is ultimately determined against the validity of the lease."

§ 35.052. Subdivision of Land
The board may have state park land surveyed and subdivided into lots or blocks which will be conducive or convenient to facilitate the advantageous sale of oil or gas leases. The board may identify the lots and blocks by permanent markings on the ground.

§ 35.053. Maps and Plats
The board may make the maps and plats it considers necessary to carry out the purposes of this chapter.

§ 35.054. Abstracts of Title

§ 35.058. Advertisement of Lease
(a) The board shall advertise a brief description of the land from which the oil and gas is proposed to be sold. (b) The board may reject all bids and may withdraw any land advertised for lease before receiving and opening bids.

(c) If the board rejects all bids after a bidding by sealed bids, it may offer for sale and sell the oil and gas in the land, in separate whole surveys only or subdivisions of them, by open public auction at a price less than the price offered by the sealed bids.

that is determined to be vacant at a price set by the board as provided in this code and with the same royalty reservation as provided in Section 51.201 of this code.

(c) No award may be made by the commissioner unless a hearing is held, and no presumption may obtain in a suit involving the existence of a vacancy as a result of the action of the commissioner in this respect.

§ 51.190. Purchase or Lease by Applicant

(b) The commissioner shall promptly notify the applicant of his decision by registered mail and shall file all reports and papers received in connection with the application.

(c) After the commissioner takes all action provided under Subsections (a) and (b) of this section, he shall take no further action with respect to the application unless the existence of the alleged vacancy is determined by a court of competent jurisdiction.

(d) Within 90 days after the commissioner's decision is mailed, unless the applicant files suit in a district court in a county in which part of the alleged vacancy is located to litigate the question of the existence of a vacancy, the applicant's application and all preference rights acquired to purchase or lease the alleged vacancy become null and void.

§ 51.193. Preferential Right of Good-Faith Claimant

(a) A good-faith claimant who ascertains that a vacancy exists or that a claimed vacancy may exist or who has been notified by the commissioner that a vacancy has been found to exist on land claimed by him shall have a preferential right to purchase or lease the vacancy at any time until 90 days after a decision of the commissioner declaring the existence of a vacancy.

(b) The good-faith claimant may purchase or lease the vacancy by submitting a written application to the commissioner for the purchase or lease of the vacancy and by furnishing to the commissioner satisfactory proof that he is a good-faith claimant.

(c) The good-faith claimant is entitled to purchase or lease the portion of the land that is vacant at the price set by the board subject to the royalty reservations provided in this subchapter which are effective on the date the application is filed.

§ 51.194. Term of Preferential Right

A good-faith claimant has a preferential right to purchase the land alleged or adjudicated to be vacant until 90 days after the final judicial determination of the existence of the vacancy.

§ 51.195. Effect of Good-Faith Claimant's Application

The application of a good-faith claimant may not be used or considered as an admission on his part that a vacancy exists.

§ 51.196. Procedure for Purchase or Lease by Good-Faith Claimant

(a) On the date a good-faith claimant's application is filed, if there is no valid and subsisting application previously filed by an applicant covering the alleged vacancy, the application of the good-faith claimant shall be filed and shall be accompanied by:

2. a written report of a surveyor licensed by the state or by the county surveyor of any county in which all or part of the alleged vacancy is located;

4. a plat showing the results of the survey; and

5. any proof that will show to the satisfaction of the commissioner that the applicant is a good-faith claimant.
§ 51.197. Failure to Exercise Preferential Right Within Certain Time

(a) If the good-faith claimant does not exercise his preferential right to purchase within 90 days after a decision of the commissioner under the provisions of this subchapter, the applicant shall be awarded an oil, gas, and mineral lease on not more than seven-eighths of the minerals.

(b) The consideration for the lease shall not be less than $1 an acre, and the lease shall be for a primary term of five years.

(c) The lease shall be subject to other considerations and terms required by the board and the preferential right of a good-faith claimant until 90 days after final judicial determination under Section 51.194 of this code.

§ 51.198. Repayment of Applicant's Expenses

Within 90 days after the commissioner declares the vacancy to exist, the good-faith claimant shall repay to the applicant the expenses incurred in determining the existence of a vacancy, except filing fees, as provided in this subchapter or the good-faith claimant will lose all preferential rights to purchase or lease the land.

§ 51.199. Judicial Determination of Good-Faith Claimant

If the commissioner fails to determine whether or not there is a good-faith claimant or if his decision is questioned by an applicant or by a person asserting to be a good-faith claimant, the issue shall be determined in any suit brought under this subchapter to determine the existence of the alleged vacancy.

§ 51.200. Rights of Holders of Title and Holders of Interests in Title of a Claimant

(a) If all owners holding title under the claimant or an interest in the title under which the claimant claims to be a good-faith claimant accept the provisions of this section and contribute their proportionate part of the royalty reserved to the state and the royalty awarded to the applicant, the purchase by the good-faith claimant under the preferential right inures distributively to their benefit.

(b) The royalty reservations shall be deducted distributively and proportionately from the mineral interest of each owner including mineral leases if the area is under a mineral lease.

(c) As a condition of this subchapter, the good-faith claimant receiving the patent or award or for whose benefit a patent or award is received shall recognize the proportionate interests of other owners who benefit by the award of the preferential right.

(d) The consideration for the purchase shall be determined by the board without considering the potential value of minerals or any improvements located on the vacancy but shall not be less than $1 an acre. The state retains the right to recover from the party or parties liable the market value when produced of all oil, gas, sulphur, or other minerals that may have been produced from the area before the effective date of the patent or award less an offset to the operator for the actual cost of development and production.

(e) No mineral lease executed by a good-faith claimant before filing the vacancy claim may give the lessee any interest in or to the vacancy.

(f) No title to land or to a mineral interest in land acquired from the state under a preferential right may be held to pass as after-acquired title because of any covenant of general warranty, description, or other provision contained in any conveyance executed before the date of award under the preferential right.

§ 51.201. Reservation of Minerals

(a) If a good-faith claimant purchases a vacancy located within five miles of a well producing oil, gas, or other minerals in commercial quantities, a free royalty of one-eighth of all oil, gas, sulphur, and other minerals shall be reserved to the state.

(b) If a vacancy that is not covered by Subsection (a) of this section is sold, a free royalty of one-sixteenth of all oil and gas production and one-eighth of all sulphur and other minerals shall be reserved to the state.

(c) If a good-faith claimant fails to exercise his preferential right to purchase a vacancy within 90
§ 51.201  NATURAL RESOURCES CODE

(d) The state shall reserve as a free royalty at least one-eighth of all oil, gas, sulphur, and other minerals on vacancies that are leased by the state as determined by the board.

(a) If a good-faith claimant does not exercise his preferential right to purchase until after 90 days after the decision of the commissioner determining the existence of a vacancy, the sale made to the claimant shall be subject to a reservation to the state of a free royalty of one-eighth of all oil, gas, sulphur, and other minerals and subject to any lease made by the state to the applicant of not more than thirteen-sixteenths mineral interest as provided in this chapter.

(b) If the commissioner has previously executed a mineral lease on a larger portion of the minerals under the land, the lease shall be amended to cover only thirteen-sixteenths of the minerals so that it will conform to preferential rights given to good-faith claimants.

§ 51.203. Royalty for Applicant

If there is a valid subsisting application previously filed by an applicant on the date that the good-faith claimant files his application to purchase under a preferential right, and if the good-faith claimant exercises his preferential right to purchase within 90 days after the commissioner's decision under this subchapter, a free royalty of one-sixteenth of all oil, gas, sulphur, and other minerals that may be produced from the land shall be added to the free royalty interest reserved to the state and shall be awarded by the state to the applicant. The free royalty shall be deducted proportionately from the good-faith claimant's award.

§ 51.204. Lease of Vacancy for Mineral Development

(a) The instrument of sale for a vacancy shall provide that the purchaser is entitled to execute oil, gas, and mineral leases on the vacancy without the joinder or approval of the commissioner or the board.

(b) Bonus money and rentals paid under a lease executed under this section shall be paid to and shall be the property of the purchaser of the land.

(c) Any lease executed under the provisions of this section shall reserve to the state the free royalty provided in Section 51.201 of this code.

§ 51.205. Appeal

(b) Within 30 days after the suit is filed, the plaintiff shall have a certified copy of the original petition served on the attorney general and the commissioner by the sheriff or a constable of Travis County and shall have the officer's return filed with the papers in the suit.

(c) Whether the attorney general answers or intervenes in the suit or institutes a suit, the venue of all suits following the filing of the application shall be in the county in which the land or part of the land is located.

(d) If the litigation is prosecuted to a final judgment, the judgment is binding on the state.

(e) The attorney general must intervene on behalf of the state in suits brought under this section.

§ 51.206. Effect of Land Office Records on Certain Vacancies

In any case involving the boundary, title, or possession of surveys partly or wholly included in any incorporated city, town, or village validated under Section 1, Chapter 254, General Laws, Acts of the 42nd Legislature, Regular Session, 1931, where there is sought to be established a vacancy between surveys, the field notes and official maps in use in the land office at the date of the incorporation are conclusive concerning the nonexistence of the vacancy. If no vacancy appears from the field notes or maps, it is conclusively presumed that no vacancy exists.

(2) the portion of the Gulf of Mexico within the jurisdiction of the state; and
(3) all unsold surveyed and unsurveyed public school land.

§ 52.012. Conditions for Lease
Oil and gas shall only be leased together and shall be leased separately from other minerals.

§ 52.013. Determination of Lease Price and Delay Rentals
The board shall determine the price at which areas under this subchapter shall be leased and the amount of delay rentals that shall be charged.

§ 52.014. Date for Lease and Notice
(a) The date for lease of areas covered by this subchapter shall be set and notice of the date shall be given in the manner provided in Sections 32.105 and 32.107 of this code.
§ 52.015. Application for Lease

(a) Each application for a separate area and the first payment shall be delivered to the land office on or before the day and hour on which the area is subject to lease.

(b) The application and payment shall be delivered in a sealed envelope endorsed with "application to lease oil and gas" and the date on which the area is subject to lease.

(c) Any application received up to the hour in which the applications are to be opened shall be considered to be properly delivered regardless of whether it is opened or sealed or endorsed or unendorsed.

§ 52.016. Special Fee

Each bidder on a lease under this subchapter shall remit by separate check a special sale fee in the amount and in the manner provided in Section 34.061 of this code.

§ 52.017. Keeping and Opening Bids

The envelopes shall be kept securely and unopened by the commissioner or his chief clerk until the day on which the applications are to be opened, and at that time, the board shall open the envelopes in the presence of any persons who desire to be present.

§ 52.018. Void Application

An application that includes two or more areas or that is for a price that is less than the fixed royalty and price per acre is void.

§ 52.019. Tie Bids

(a) If the highest bid for an area is made by more than one applicant, all applications shall be rejected and the board shall set a date for lease of the area that shall not be later than the 15th day of the following month.

(b) The area will be subject to lease in the same manner as it was originally subject to lease.

(c) No bids for a lease shall be considered if the price is less than the highest bid offered in the original application.

§ 52.020. Return of Payments on Rejected Applications

The State Treasurer shall return all amounts paid on rejected applications.

§ 52.021. Term of Lease

A lease granted under this subchapter shall be for a primary term of five years and for as long after that time as oil or gas is produced from the leased area.

§ 52.022. Royalty and Delay Rentals

(a) In addition to the cash amount bid for a lease, the area included in the lease shall be leased for not less than one-eighth of the gross production of oil produced and saved, or its value, and not less than one-eighth of the gross production of gas produced and sold off the area or its value, plus an amount determined by the board, until production is secured.

(b) If production is secured in commercial quantities and the payment of royalty begins and continues to be paid, the lessee is exempt from further delay rental payments on the acreage.

(c) If production ceases and royalty is not paid, the lessee shall pay at the end of the lease year in which the royalty ceased to be paid and annually after that time in advance, an amount determined by the board for as long as the lessee desires to maintain the rights acquired under the lease, but not for more than five years from the date of the lease.

§ 52.023. Lease Provisions for Drilling and Reworking

Each lease shall provide that:

1) if the production of oil or gas on premises leased under this subchapter ceases for any reason at or after the expiration of the primary term, the lease will not terminate if the lessee commences additional drilling or reworking operations within 60 days after the cessation of production;

2) the lease shall remain in effect as long as the drilling and reworking operations continue in good faith and in a workmanlike manner, without interruptions, totaling more than 60 days during any one such operation; and

3) if the drilling or reworking operations result in the production of oil or gas, the lease shall remain in effect as long as oil or gas is produced from the premises in paying quantities or payment of shut-in gas royalties or compensatory royalties is made as provided by law.
§ 52.024. Lease Provisions for Shut-In Gas Royalty and Compensatory Royalty

Each lease shall provide that:

(1) if at the expiration of the primary term or at any time after the expiration of the primary term a well or wells capable of producing gas in paying quantities are located on the leased premises but gas is not being produced for lack of a suitable market and the lease is not being maintained in force and effect, before the expiration of the primary term or if the primary term has expired, within 60 days after the lessee ceases to produce gas from the well, the lessee may pay as a shut-in gas royalty an amount equal to double the annual rental provided in the lease but not less than $1,200 a year for each well capable of producing gas in paying quantities;

(2) if the shut-in gas royalty is paid, the lease shall be considered to be a producing lease and the payment shall extend the term of the lease for a period of one year from the end of the primary term or from the first day of the month next succeeding the month in which production ceased and after that if no suitable market for the gas exists, the lessee may extend the lease for four additional and successive periods of one year by paying the same amount each year on or before the expiration of the extended term;

(3) if, during the period the lease is kept in effect by payment of the shut-in gas royalty, gas is sold and delivered in paying quantities from a well located within 1,000 feet of the leased premises and completed in the same producing reservoir or in any case in which drainage is occurring, the right to continue to extend the lease by paying the shut-in gas royalty shall cease, but the lease shall remain effective for the remainder of the year for which the royalty has been paid and for an additional period of not more than five years from the expiration of the primary term by the lessee paying compensatory royalty at the royalty rate provided in the lease of the value at the well of production from the well which is causing the drainage or which is completed in the same producing reservoir and within 1,000 feet of the leased premises;

(4) the compensatory royalty is to be paid monthly to the commissioner beginning on or before the last day of the month next succeeding the month in which the gas is sold and delivered from the well located within 1,000 feet of or draining the leased premises and completed in the same reservoir;

(5) if the compensatory royalty paid in any 12-month period is in an amount less than the annual shut-in gas royalty, the lessee shall pay an amount equal to the difference within 30 days from the end of the 12-month period; and

(6) none of these provisions will relieve the lessee of the obligation of reasonable development nor the obligation to drill offset wells as provided in Section 52.034 of this code.

§ 52.025. Disposition of Lease Payments

The State Treasurer shall credit the permanent school fund with amounts received from unsurveyed school land and with two-thirds of the amount received from other areas and shall credit the General Revenue Fund with the remaining one-third of the payments for the other areas.

§ 52.026. Lease Transfer

(a) A lessee of an area under this subchapter may transfer his lease at any time.

(b) The transfer of the lease shall be recorded in any county in which all or part of the leased area is located.

(b) Within 90 days after the execution of the relinquishment, the recorded relinquishment or a certified copy of the recorded relinquishment together with a $5 filing fee shall be filed in the land office.

(c) After the lessee relinquishes the area, he is relieved of any further obligations to the state, but the relinquishment does not release the lessee from any obligations or liabilities previously accrued in favor of the state.

§ 52.028. Suspension of Oil and Gas Leases

(a) If an oil and gas lease issued by the commissioner is involved in litigation relating to its validity or to the authority of the commissioner to lease the

§ 52.030. Refund of Lease Money in Certain Situations

(a) If a lessee is prevented from exploring, developing, drilling, or producing oil and gas from the tract leased to him as a result of the action of any agency of the United States or of this state during the entire primary term of the lease, he is entitled to a refund of all money paid for bonus, delay rentals, and other fees under the lease as provided by legislative appropriation.

(b) A refund shall be made only on verification of the claim by the board or on the judgment of a court of competent jurisdiction.

(c) A lessee who has a claim under this section is given permission to bring suit against the state within two years after the expiration of the lease in any court of competent jurisdiction to recover the money paid.

§ 52.0301. Suspension of Terms of Lease in Certain Situations

(a) If the owner of a valid oil and gas lease granted by the state is denied access to or is denied a permit to drill on or produce from the leased premises by any duly constituted authority of the United States after a bona fide attempt has been made by the owner to obtain access or a permit to drill on or produce from the leased premises, the owner may file with the board an application describing and giving the date of the action that deprives him of access to or the right to drill on or produce from the premises.

(b) If the board is satisfied that the facts included in the application are true, the board may enter an order in its minutes suspending the running of both the principal and the principal term of the lease or suspending any condition, obligation, or duty under the lease, from the date of the cause for the suspension through the continued existence of the cause for the suspension, so long as the lessee continues to make the annual rental payments that are stipulated in the lease on each anniversary date of the lease during the period of suspension.

(c) Until 90 days after the board enters an order in its minutes stating that the cause for suspension has ceased to exist, the oil and gas lease shall remain in status quo, and all obligations and conditions existing under the lease or any of those obligations or conditions that are suspended by the board are inoperative and of no force and effect except for the obligation to pay delay rentals.

§ 52.031. Extension of Lease by Commissioner

(a) At the expiration of the primary term of a lease made under the provisions of this subchapter, if production of oil or gas has not been obtained on the leased premises but drilling operations are being conducted in good faith and in good and workmanlike manner, the lessee may file in the land office on or before the expiration of the primary term a written application to the commissioner for a 30-day extension of the lease accompanied by $3,000 for 640 acres or less or $6,000 for more than 640 acres.
(b) The commissioner shall extend the lease in writing for a 30-day period from the expiration of the primary term and as long after that time as oil or gas is produced in paying quantities.

(c) As long as drilling operations are being conducted, the lessee may submit an application and payment during any 30-day extended period for an additional extension of 30 days. On receiving the application and payment, the commissioner shall again extend the lease in writing so that it will remain effective for an additional 30-day period and as long after that time as oil or gas is produced in paying quantities.

(d) No lease may be extended under this section for more than 390 days after the expiration of the primary term unless production is obtained in paying quantities.

§ 52.032. Regulation of Development and Operations

(a) Development and operations on areas covered by this subchapter shall be done insofar as practicable in a manner that will prevent the pollution of water, destruction of fish, oysters, and other marine life, and obstruction of navigation.

(b) The commissioner shall adopt and enforce rules that may be necessary for the purposes stated in Subsection (a) of this section.

(c) Any rules and changes of rules adopted under this section shall be submitted to the attorney general for his written approval before the rules or their changes become effective.

§ 52.033. Access to Land

(a) If it is necessary for the lessee to enter the enclosed land of another person for the purpose of ingress and egress to and from the area leased from the state and if the lessee and the owner cannot agree on the place or the conditions of entry and exit, the lessee or his agent may petition the commissioners court of the county in which all or part of the enclosure is located to open the places of ingress and egress that may be necessary.

(b) On filing the petition, the commissioners court shall delineate the roads necessary for the stated purpose in the manner provided for delineating third-class public roads.

§ 52.034. Offset Wells

(a) If oil or gas is produced in commercial quantities from a well located on a privately owned area and the well is located within 1,000 feet of an area leased under this subchapter, the lessee of the state area shall begin in good faith and prosecute diligently the drilling of an offset well or wells on the area leased from the state within 60 days after the initial production on the privately owned area.

(b) An offset well shall be drilled to a depth and the means shall be employed which may be necessary to prevent undue drainage of oil or gas from beneath the state area.

(c) Within 30 days after an offset well has been completed or abandoned, a log of each well shall be filed in the land office.

(a) The board shall advertise for proposals:
(1) to lease riverbeds and channels for oil and gas development;
(2) to drill riverbeds and channels on consideration involving compensation with oil and gas or money so that the state will receive a portion of the oil and gas as it is produced or advanced royalties paid in money; and
(3) to purchase oil and gas in place or recoverable without requiring mineral development.
(b) The board shall advertise the proposals as provided in Section 32.107 of this code.

§ 52.077. Bids
(a) The board may receive bids on all proposals listed in Section 52.076 of this code.
(b) The board may accept any bid it considers to be in the best interest of the state, or it may reject any and all bids.

(b) A well that is drilled by order of the board shall be done under a contract let on competitive bids to the lowest and best bidder for a completed well.
(c) A contractor drilling under a contract with the board shall carry workmen's compensation insurance for all employees engaged in the drilling operation.

§ 52.080. Forms for Lease and Contract
Leases and contracts for the development of riverbeds and channels shall be executed on forms approved by the attorney general and the board.

§ 52.081. Procedure for Orders and Contracts

(a) The board may not lease or contract for the development or drilling of any riverbed or channel located at the time the lease or contract is to be executed more than two miles from a well producing or capable of producing oil or gas in paying quantities unless the owner of the leasehold or mineral interest in the oil or gas estate in land located adjacent to or within two miles of the riverbed or

(b) The owner of the interest desiring to drill the test well shall apply to the board for an oil and gas lease on the available portions of the riverbed or channel he desires to lease, indicating the site in or within two miles of the riverbed or channel where he desires to drill the well.

(c) Within 60 days after the date the application is received, the board shall lease the riverbed or channel to the highest bidder for oil and gas development.

(d) The leased area shall be limited to the portion of the riverbed or channel which is within two miles of a point therein at the end of a line drawn from the designated well site perpendicular to the general course of the riverbed or channel.

(e) The lease shall expire at the end of two years from the date of its delivery to the highest bidder unless oil or gas is produced in paying quantities from the portion of the riverbed or channel covered by the lease or from adjacent or nearby land with which the leased land or a portion of it has been lawfully pooled or unitized so that royalties payable under the lease are accruing to the state on that date.

§ 52.087. Determination of Lease Price and Delay Rentals

(b) If production is secured in commercial quantities and the payment of royalty begins and continues to be paid, the lessee is exempt from further delay rental payments on the acreage.

(c) If production ceases and royalty is not paid, the lessee shall pay at the end of the lease year in which the royalty ceased to be paid and annually after that time in advance, in an amount determined by the board as long as the lessee desires to maintain the rights acquired under the lease, but not for more than five years from the date of the lease.

(a) Money collected by the board under the provisions of this subchapter shall be deposited in the State Treasury and shall be credited to the mineral development fund.

(b) The board may make disbursements from the mineral development fund to carry out the provisions of this subchapter and the necessary amounts for disbursement are appropriated from the fund.

(c) Any portion of the fund not needed for the purposes stated in Subsection (b) of this section shall be paid from time to time to the General Revenue Fund, but any portion of the mineral development fund that belongs to the public school fund shall be paid to that fund.

(b) If there is any conflict surrounding the drilling of an offset well under a permit from the Railroad Commission of Texas, the condemning party is required to move any interference or hindrance or to go around any offset well, and if he fails or refuses to immediately move the interference or hindrance on demand, the owner of the mineral rights is entitled to do so immediately without liability.

(a) No injunction may be granted against the board, its agents, or persons with whom it has contracted, to restrain the board from enforcing its orders or contracts or from carrying out any development that has begun or was contemplated by the board until notice is given to the board and its agents or the contracting parties and a hearing is held.

(b) Before an injunction or restraining order is issued or becomes effective, the court shall require the complaining party to execute a bond payable to the governor with good and sufficient sureties authorized to do business in this state in an amount determined by the court to be sufficient to protect the state from loss from drainage of the riverbed or channel, of lease or bonus or consideration, or from any other reason. In determining the amount of the bond, the court shall consider the probable and possible loss to the state by granting the injunction.

(c) The attorney general shall bring suit on the bond to recover any loss to the state caused by the suit for injunction.

[Acts 1977, 65th Leg., p. 2454, ch. 871, art. 1, § 1, eff. Sept. 1, 1977.]

(c) Royalty payments shall be accompanied by:

1. An affidavit of the owner, manager, or other authorized agent, completed in the form and manner required by the land office and showing the gross amount and disposition of all oil and gas produced and the market value of the oil and gas;

§ 52.132. Form of Payment

Except as provided in Section 52.133 of this code, royalty payments shall be made in cash, by bank draft drawn on a state or national bank in Texas, by a post-office or express money order, or in any other form that the law may provide for making payments to the State Treasury and are payable to the commissioner in Austin.

(b) Each oil or gas lease covering land leased by the board, by a board for lease other than the Board for Lease of University Lands, or by the surface owner of land under which the state owns the minerals, commonly referred to as Relinquishment Act land, which shall be subject to approval by the commissioner before it is effective, shall include a provision granting the board authorized to lease the land or the owner of the soil of Relinquishment Act land and the commissioner authority to take their royalty in kind, and the commissioner and the boards for lease may include any other reasonable provisions that are not inconsistent with this section.

(c) The option to take the royalty in kind may be exercised at any time or from time to time on not less than 60 days’ notice to the holder of the lease.

(d) The board, the commissioner, each board for lease other than the Board for Lease of University Lands, or the owner of the soil under Subchapter F of this chapter may negotiate and execute sales contracts or any other instruments or agreements necessary to dispose of their portion of the royalty taken in kind.

(e) This section does not apply to or have any effect on the Board for Lease of University Lands or any lease executed on university land.

(f) This section shall not be construed to surrender or in any way affect the right of the state or the owner of the soil under existing or future leases to receive royalty from its lessee on the basis of the fair market value produced from state public land or land under the provisions of Subchapter F of this chapter.

§ 52.134. Filing Contracts and Agreements

Copies of contracts for the sale or processing of gas and subsequent agreements and amendments to those contracts shall be filed in the land office within 30 days after the contracts, agreements, or amendments are made. These contracts and agreements received by the land office shall be held in confidence by the land office unless otherwise authorized by the lessee.

§ 52.135. Inspections and Examinations

The books and accounts, receipts, and discharges of all lines, tanks, pools, and meters and all contracts and other records relating to the production, transportation, sale, and marketing of the oil and gas are subject at any time to inspection and examination by the commissioner and the attorney general and governor or their representatives.

§ 52.136. Lien

SUBCHAPTER E. UNITIZATION OF LEASED AREAS

§ 52.151. Authorization to Operate Areas as Units

(a) The commissioner on behalf of the state or any fund that belongs to the state may execute agreements that provide for operating areas as a unit for the exploration, development, and production of oil or gas or both and to commit to the agreements the royalty interests in oil or gas or both reserved to the state or any fund of the state by law, in a patent, in a contract of sale, or under the terms of an oil and gas lease legally executed by an official, board, agent, agency, or authority of the state.

(b) The commissioner must find that the agreement is in the best interest of the state.

§ 52.152. Approval of Unit Agreements

(a) An agreement that commits the royalty interest in land belonging to the permanent school fund or the asylum funds in riverbeds, inland lakes, and channels, or in an area within tidewater limits, including islands, lakes, bays, inlets, marshes, reefs, and the bed of the sea must be approved by the board and executed by the owner of the soil if the agreement covers land leased for oil and gas under Subchapter F of this chapter.

(b) An agreement that commits the royalty interest in any land or an area not listed in Subsection (a) of this section must be approved by the board, official, agent, agency, or authority of the state which has the authority to lease or to approve the lease of the land for oil and gas.

§ 52.153. Agreement Provisions

(a) The agreement to operate areas as units may provide:

(1) that operations incident to drilling a well on any portion of a unit shall be considered for all purposes to be conduct of the operations on each separately owned tract in the unit by the several owners;

(2) that production allocated by the agreement to each tract included in the unit when produced shall be considered for all purposes to have been produced from the tract;

(3) that the agreement and lease, with respect to the interest of the state, shall be effective as long as oil or gas or both are produced from the unit in paying quantities and royalties are paid to the state; and

(4) that royalties reserved to the state or to any fund of the state on production from any tract or portion of a tract included in the unit shall be paid only on the portion of the production allocated to the tract by the agreement.

(b) The agreement may include any other provision which the board, official, agent, agency, or authority of the state which has the authority to lease or to approve the leasing of the land may consider necessary for the protection of the interests of the state.

SUBCHAPTER F. RELINQUISHMENT

§ 52.171. School and Asylum Lands

The state hereby constitutes the owner of the soil its agent for the purposes herein named, and in consideration therefor, relinquishes and vests in the owner of the soil an undivided fifteen-sixteenths of all oil and gas which has been undeveloped and the value of the same that may be upon and within the surveyed and unsurveyed public free school land and asylum lands and portions of such surveys sold with a mineral classification or mineral reservation, subject to the terms of this law. The remaining undivided portion of said oil and gas and its value is hereby reserved for the use of and benefit of the public school fund and the several asylum funds.

§ 52.172. Sale and Lease by Agent

The owner of said land is hereby authorized to sell or lease to any person, firm, or corporation the oil and gas that may be thereon or therein upon such terms and conditions as such owner may deem best, subject only to the provisions hereof, and he may
§ 52.172  NATURAL RESOURCES CODE

have a second lien thereon to secure the payment of any sum due him. All leases and sales so made shall be assignable. No oil or gas rights shall be sold or leased hereunder for less than 10 cents per acre per year plus royalty, and the lessee or purchaser shall in every case pay the state 10 cents per acre per year of sales and rentals; and in case of production shall pay the state the undivided one-sixteenth of the value of the oil and gas reserved herein, and like amounts to the owner of the soil.

§ 52.173. Offset Wells

If oil and/or gas should be discovered in commercial quantities on lands not included in this law and within 1,000 feet of and draining land that is so included, or in any case where land so included in this law is being drained by production of oil or gas from land not so included, the owner, lessee, sublessee, receiver, or other agent in control of land included herein shall in good faith begin the drilling of a well or wells upon such land within 100 days after such well or wells on lands not so included commence to produce in commercial quantities, and shall prosecute such drilling with diligence to reasonably develop the land included hereunder and to protect such land against drainage by wells on other lands in the locality.

§ 52.174. Failure to Drill Offset

If such persons fail or refuse to begin the drilling of such well or wells within the time required or to prosecute such drilling as necessary for the purpose intended herein, any lease of such land executed under the provisions of this law shall be subject to forfeiture by the Commissioner of the General Land Office, and he shall forfeit same when he is sufficiently informed of the facts which authorize a forfeiture, and shall, on the wrapper containing the papers relating to such lease, write and sign officially words declaring such forfeiture, and the lease and all rights thereunder shall thereupon be forfeited together with all payments made thereunder. Notice of such action shall forthwith be mailed to the persons shown by the records of the General Land Office to be the owners of the surface and the owners of the forfeited lease at their last known addresses as shown by the records of said office. Upon proper showing by the owner of the forfeited lease within 30 days after the declaration of forfeiture, the lease may, at the discretion of the commissioner and upon the terms of this subchapter and such other terms as he may prescribe, be reinstated. If such lease be not reinstated within such time, or if the commissioner finds that any unleased land included in this law is being drained, the commissioner shall notify the person at his last known address, as shown by records of the General Land Office to be the surface owner, that the oil and gas is subject to sale or lease by the owner of the soil in accordance with this law, and that drilling is required. If such owner shall fail or refuse to obtain the commencement of such a well within 100 days after the date of such notice, the relinquishment herein granted and the rights acquired thereunder shall be subject to forfeiture by the commissioner by endorsing on the file wrapper containing the papers relating to the sale of the land, words indicating such forfeiture, and such rights shall thereupon be forfeited, and notice of such forfeiture shall be forwarded to the county clerk of the county wherein the land is situated. The rights of any owner of the soil which may have ipso facto terminated under prior laws shall be reinstated and are hereby reinstated, together with all rights acquired thereunder except where rights of third parties may have intervened. All rights herein reinstated shall be subject to the terms and provisions of this subchapter.

§ 52.175. Lease of Oil and Gas After Forfeiture

When the relinquishment herein granted has been so forfeited by the commissioner, the land shall be subject to lease for oil and gas under the procedure provided by law for the leasing of unsold surveyed public school lands. No lease shall be executed which provides for a royalty of less than one-eighth, payable to the state for the benefit of the permanent free school fund, and the lessee shall in every case pay to the surface owner amounts equal to the bonus money and the delay rentals paid to the state, and in case of production such lessee shall pay to the surface owner amounts equal to one-half of all royalty above the reserved one-eighth. Upon the termination or expiration of a lease so executed by the Commissioner of the General Land Office, or if no acceptable offer is received for such lease after due advertisement, the rights of the surface owner to act under this law shall be ipso facto reinstated.

§ 52.176. Forfeiture of Rights

If any person, firm, or corporation operating under this law shall fail or refuse to make the payment of any sum within 30 days after it becomes due, or if such one or an authorized agent should knowingly make any false return or false report concerning production or drilling, or if such one should fail to file reports in the manner required by law or fail to comply with General Land Office rules and regulations or refuse the proper authority access to the records pertaining to the operations, or if such one or an authorized agent should knowingly fail or
refuse to give correct information to the proper authority, or knowingly fail or refuse to furnish the land office a correct log of any well, or if any lease is assigned and the assignment is not filed in the General Land Office as required by law, the rights acquired under the permit or lease shall be subject to forfeiture by the commissioner, and he shall forfeit same when sufficiently informed of the facts which authorize a forfeiture, and the oil and gas shall be subject to sale in the manner provided for the sale of other forfeited rights hereunder, except that the owner of the soil shall not thereby forfeit his interest in the oil and gas. Such forfeiture may be set aside and all rights therefore existing shall be reinstated at any time before the rights of another intervene, upon satisfactory evidence of future compliance with the provisions of this subchapter. [Acts 1977, 65th Leg., p. 2459, ch. 871, art. I, § 1, eff. Sept. 1, 1977.]

§ 52.177. Rights of Subsequent Purchaser
If one acquires a valid right by permit or lease to the oil and gas in any unsold public free school or asylum land under any other law, a subsequent purchaser of such land shall not acquire any rights to any of the oil and gas that may be therein, but when the rights under such permit or lease terminate in the manner provided in the law under which they were obtained, then the owner of the soil shall become the owner of that portion of the oil and gas herein relinquished, and shall be thereafter subject to the provisions of this law. A forfeiture of the purchase of any survey or tract for any cause shall operate as a forfeiture of the minerals therein to the state. A relinquishment to the state of a lease producing oil or gas in paying quantities shall not operate to relinquish or convey to the owner of the soil any interest whatever in the oil and gas that may be in the land included in said lease. [Acts 1977, 65th Leg., p. 2459, ch. 871, art. I, § 1, eff. Sept. 1, 1977.]

§ 52.178. Operation Under Permit
The owner of a permit or combination of permits shall have 18 months from the date or average date thereof in which to begin drilling a well for oil and gas on some portion of the land included therein. The drilling on one permit shall be sufficient protection against forfeiture of all the permits included in a combination. Owners of permits or combination of permits included herein shall have three years after the date or average date thereof in which to complete the development of oil and gas thereon, and if oil and gas should not be found in paying quantities and a lease applied for within said time all rights in such permit or combination of permits shall terminate, and the oil and gas in such land shall become subject to the provisions of this law relating to the relinquishment of oil and gas to the owner of the soil. [Acts 1977, 65th Leg., p. 2460, ch. 871, art. I, § 1, eff. Sept. 1, 1977.]

§ 52.179. Lease Under Permit
If oil or gas should be produced in paying quantities upon any land included in this law, the owner of the permit shall report the development to the commissioner within 30 days thereafter and apply for a lease upon such whole surveys or tracts in each permit as the owner or owners of a combination of permits may desire to be leased, and accompany the application with a log of the wells, and the correctness of the log shall be sworn to by the owner, manager, or driller, and thereupon a lease shall be issued without the payment of any additional sum of money and for a period not to exceed 10 years, subject to renewal or renewals. [Acts 1977, 65th Leg., p. 2460, ch. 871, art. I, § 1, eff. Sept. 1, 1977.]

§ 52.180. Payments Under Permit
The owner of a permit or combination of permits who desires to avail himself of the terms of this law, shall pay the state 10 cents per acre, annually in advance, for the second and third years, and shall likewise pay the owner of the soil 10 cents per acre for the first year of such permit, before availing himself of the privileges hereof, and a like sum thereafter annually in advance. A failure to make either of said payments shall subject the permit or permits to forfeiture by the commissioner, and when sufficiently informed of the facts which subject the permits to forfeiture, said commissioner shall forfeit the same by an endorsement of forfeiture upon the wrapper containing the papers relating to the permits and sign it officially. The payment of 10 cents per acre to the owner of the soil may be made to him or to the county clerk of the county in which the land is situated, and said clerk shall deposit such payment as he receives, in some bank at the county seat to the credit of the record owner of such land. If the owner of the soil refuses to accept such payment, said clerk shall withdraw such deposit and return it to the owner of the permit. The payment, or the tender of payment, shall be evidenced by the receipt of the owner or part owner or county clerk filed among the papers in the land office relating to such permits. [Acts 1977, 65th Leg., p. 2460, ch. 871, art. I, § 1, eff. Sept. 1, 1977.]

§ 52.181. Relinquishment Under Permit
The owner of a permit or combination of permits may relinquish to the state a permit or combination of permits or any whole survey or whole tract included in a permit at any time before obtaining a lease therefor by having such relinquishment recorded in the counties in which the land or part thereof is situated, and by filing it in the land office within 60 days after its execution, with $1 as a filing fee. [Acts 1977, 65th Leg., p. 2460, ch. 871, art. I, § 1, eff. Sept. 1, 1977.]
§ 52.182. Damages to Soil
The payment of the 10 cents per acre and the obligation to pay the owner of the soil one-sixteenth of the production and the payment of same when produced and the acceptance of same by the owner, shall be in lieu of all damages to the soil.

§ 52.183. Effective Date of Lease
No mineral lease executed by the owner of the land or minerals under this subchapter is effective until a certified copy of the lease is filed in the land office.

§ 52.184. Statement of Consideration
No lease executed under this subchapter after September 17, 1939, is binding on the state unless it recites the actual and true consideration paid or promised.

§ 52.185. University Land
The provisions of this subchapter relating to a combination of permits and extension of time for beginning development and time for development applies to permits on university land.

§ 52.186. Lease of Oil and Gas When Owner of the Soil Unavailable
When the commissioner finds, upon the written request of any party interested in bargaining for an oil and gas lease, that the owner of the soil or of any undivided interest therein subject to the terms of this subchapter is unavailable to act as the state's agent for oil and gas leasing purposes, or that his name, identity, or place of residence is unknown, such land or undivided interest therein shall be subject to lease for oil and gas under the procedure provided by Subchapter B of this Chapter 52 for the leasing of unsold surveyed public school lands.

An owner of the soil or of an undivided interest therein may be found to be unavailable by the commissioner if the written request for such finding is supported by a sworn affidavit detailing attempts to locate and contact such surface owner, which attempts satisfy the commissioner that reasonable diligence has been used in attempting to locate and contact such surface owner and by written certification from the tax assessor-collector of each taxing entity in which the land is located stating that ad valorem taxes owed to that entity have not been paid by the owner of the soil or an undivided interest therein or his representative for any year within the five years preceding the year in which the written request is submitted to the commissioner under this section. Notice of such finding shall forthwith be mailed to the person shown by the records of the tax assessor-collector in the county where the land is located to be the surface owner at his last known address as shown by the records of said office.

If the surface owner appears within 30 days after the date of such finding or prior to the execution of an oil and gas lease on his land pursuant to this section, his rights to act under this subchapter may, at the discretion of the commissioner and upon such terms as the commissioner may prescribe, be reinstated. If the owner of the soil or of any undivided interest therein appears within two years after the execution of such oil and gas lease on his land pursuant to this section, he shall be entitled to one-half of all royalties theretofore paid or thereafter to be paid under such oil and gas lease, reduced in the proportion which his interest bears to the whole and undivided surface estate, upon showing to the satisfaction of the commissioner that a reasonably diligent search would have resulted in his being located.

Upon the termination or expiration of a lease for oil and gas executed pursuant to this section, or if no acceptable offer is received for such lease after due advertisement, the rights of the owner of the soil to act under this subchapter shall be ipso facto reinstated.

§ 52.237. Application of Fee to Certain Land

The provisions of Section 52.236 of this code relating to the payment of $2 an acre during the lease period and the life of the lease do not apply to leases of bays, marshes, reefs, saltwater lakes, or other submerged land that contains as much as 100 acres but not in excess of 500 acres on which as many as five wells have been drilled and on which as much as $100,000 has been spent. § 52.249. Status of Assignees
After transfers provided in Sections 52.245 through 52.246 of this code are filed in the land office, the assignee or assignees in the transfer are substituted for the original permittee or lessee and assume the obligations, pains, and penalties that the law has imposed on the original permittee or lessee.

(b) After the commissioner is informed sufficiently of the facts, he may declare the permit or lease forfeited by proper entry on the duplicate of the permit or lease in his office.

(c) The commissioner shall mail a notice of the forfeiture to the proper county clerk, and the area shall be subject to the application of other persons than the forfeiting permittee or lessee after the notice has had time to reach the county clerk through regular mail.

(d) The commissioner may exercise great discretion in requiring persons to develop gas wells.

[Acts 1977, 65th Leg., p. 2477, ch. 871, art. 1, § 1, eff. Sept. 1, 1977.]

[Sections 61.002 to 61.010 reserved for expansion]
§ 61.013. Prohibition of Obstructions
(a) It is an offense against the public policy of this state for any person to create, erect, or construct any obstruction, barrier, or restraint that will interfere with the free and unrestricted right of the public, individually and collectively:

(1) to enter or to leave any public beach; or
(2) to use lawfully and legally any public beach or any larger area abutting on or contiguous to a public beach if the public has acquired a right of use or easement to or over the area by prescription, dedication, or has retained a right by virtue of continuous right in the public.

(b) For purposes of this section, “public beach” shall mean any beach bordering on the Gulf of Mexico which extends inland from the line of mean low tide to the natural line of vegetation bordering on the seaward shore of the Gulf of Mexico, or such larger contiguous area to which the public has acquired a right of use or easement to or over by prescription, dedication, or estoppel, or has retained a right by virtue of continuous right in the public since time immemorial as recognized by law or custom. This definition does not include a beach which is not accessible by a public road or public ferry.

(c) A person who creates, erects, or constructs an obstruction, barrier, or restraint in violation of subsection (a) of this section is liable to the state for a civil penalty of not less than $50 nor more than $1,000.

§ 61.014. Denial of Access by Posting
(a) As used in this section, “public beach” means the area extending from the line of mean low tide of the Gulf of Mexico to the line of vegetation bordering on the Gulf of Mexico, or to a line 200 feet inland from the line of mean low tide, whichever is nearer the line of mean low tide, if the public has acquired a right of use or easement to or over the area by prescription, dedication, or has retained a right by virtue of continuous right in the public.

(b) Any person who displays or causes to be displayed on any public beach any sign, marker, or warning, or who shall make or have made any written or oral communication which states that the public beach is private property or who states in any other manner that the public does not have the right of access to the public beach in violation of the lawful access rights of the public guaranteed by this subchapter is liable to the state for a civil penalty of not less than $50 nor more than $1,000.

(c) Each day that the communication is made constitutes a separate offense.

(d) Any person who violates the provisions of this section shall be prosecuted in the county in which the public beach is located.

(e) This section does not apply to any island or peninsula that is not accessible by public road or common carrier ferry facility so long as the condition exists.

§ 61.015. Satisfaction of Ingress and Egress Requirement
The requirement of free and unrestricted right of ingress and egress over an area landward of the line of vegetation is considered fully satisfied by access roads or ways which are in existence now and available to the public or which by or with the approval of any governmental authority having jurisdiction may be provided in the future.

§ 61.016. Boundaries for Areas With No Marked Vegetation Line
(a) To determine the elevation reached by the highest waves of the Gulf of Mexico, in any area in which there is no clearly marked vegetation line (for instance, a line immediately behind well-defined dunes or mounds of sand and at a point where vegetation begins) recourse shall be to the nearest clearly marked line of vegetation on each side of the unmarked area.

(b) The “line of vegetation” for the unmarked area shall be the line of constant elevation connecting the two clearly marked lines of vegetation on each side.

(c) If the elevation of the two points on each side of the area are not the same, the extension defining the line reached by the highest waves of the Gulf shall be the average elevation as between the two points, but if there is no clearly marked line of vegetation, the extended line shall not extend inland further than 200 feet from the seaward line of mean low tide.

§ 61.017. Line of Vegetation Unaffected by Certain Conditions
(a) The “line of vegetation” is not affected by the occasional sprigs of salt grass on mounds and dunes or seaward from them and by artificial fill, the addition or removal of turf, or by other artificial changes in the natural vegetation of the area.

(b) If the changes listed in subsection (a) of this section are made and the vegetation line is obliterated or is created artificially, the line of vegetation
shall be determined in the same manner as in those areas covered by Section 61.016 of this code, but if there is a vegetation line consistently following a line more than 200 feet from the seaward line of mean low tide, the 200-foot line shall constitute the landward boundary of the area subject to public easement until a final court adjudication establishes the line in another place.

§ 61.018. Suit to Remove Obstructions

(a) The attorney general or any county attorney, district attorney, or criminal district attorney shall file in a district court of Travis County, or in the county in which the property is located, a suit to obtain either a temporary or permanent court order or injunction to remove any obstruction or barrier or to prohibit any restraint or interference which restricts the right of the public, individually or collectively, to free and unrestricted ingress and egress to and from any area described in Section 61.012 of this code or any property abutting on or contiguous to the state-owned beach on which the public has acquired a prescriptive right.

(b) In the same suit, the attorney general, county attorney, district attorney, or criminal district attorney may seek recovery of the costs of removing any obstruction or barrier if it is removed by public authorities pursuant to an order of the court.

(b) Service of citation on the state shall be made by serving the citation on the attorney general.

§ 61.020. Prima Facie Evidence

In a suit brought or defended under this subchapter or whose determination is affected by this subchapter, a showing that the area in question is located in the area from mean low tide to the line of vegetation is prima facie evidence that:

(1) the title of the littoral owner does not include the right to prevent the public from using the area for ingress and egress to the sea; and

(2) there is imposed on the area, subject to proof of easement, a prescriptive right or easement in favor of the public for ingress and egress to the sea.

§ 61.021. Area Not Covered by Subchapter

None of the provisions of this subchapter apply to beaches on islands or peninsulas that are not accessible by a public road or ferry facility for as long as the condition exists.

§ 61.022. Exemption for Certain Structures

The provisions of this subchapter do not prevent any agency, department, institution, subdivision, or instrumentality of this state or of the federal government from erecting or maintaining any groin, seawall, barrier, pass, channel, jetty, or other structure as an aid to navigation, protection of the shore, fishing, safety, or other lawful purpose authorized by the constitution or laws of this state or the United States.

§ 61.023. Effect on Land Titles and Property Adjacent to and on Beaches

The provisions of this subchapter shall not be construed as affecting in any way the title of the owners of land adjacent to any state-owned beach bordering on the seaward shore of the Gulf of Mexico or to the continuation of fences for the retention of livestock across sections of beach which are not accessible to motor vehicle traffic by public road or by beach.

§ 61.024. Effect of Subchapter on Definition of Public Beach

None of the provisions of this subchapter shall reduce, limit, construct, or vitiate the definition of public beaches which has been defined from time immemorial in law and custom.

This creates a responsibility for the state, in its position as trustee for the public to assist local governments in the cleaning of beach areas which are subject to the access rights of the public as defined in Subchapter B of this chapter.

[Acts 1977, 65th Leg., p. 2480, ch. 871, art. 1, § 1, eff. Sept. 1, 1977.]

SUBCHAPTER E. LICENSES FOR BUSINESS ESTABLISHMENTS

§ 61.161. Public Policy
It is the public policy of this state that the state-owned beaches bordering on the seaward shore of the Gulf of Mexico, and any larger area extending from the line of mean low tide to the line of vegetation bordering on the Gulf of Mexico, if the public has acquired a right of use or easement to or over the area by the prescription or dedication or has retained a right by virtue of continuous right in the public, shall be used primarily for recreational purposes, and any use which substantially interferes with the enjoyment of the beach area by the public shall constitute an offense against the public policy of the state. Nothing in this subchapter prevents any agency, department, political subdivision, or municipal corporation of this state from exercising its lawful authority under any law of this state to regulate safety conditions on any beach area subject to public use.

§ 61.162. Findings
(a) The legislature finds that the operation and maintenance of business establishments at fixed or permanent locations on the public beaches of this state bordering on the seaward shore of the Gulf of Mexico constitute a potential public health hazard and a substantial interference with the free and unrestricted rights of ingress and egress of the public, both individually and collectively, to and from the state-owned beaches bordering on the seaward shore of the Gulf of Mexico or any larger area extending from the line of mean low tide to the line of vegetation bordering on the Gulf of Mexico if the public has acquired a right of use or easement to or
over the area by prescription, dedication, or has retained a right by virtue of continuous right in the public.

(b) The legislature finds that a reasonable number of mobile business establishments which traverse the public beach while doing business are beneficial to the public interest and do not interfere with the free and unrestricted rights of ingress and egress of the public as provided in this subchapter.

§ 61.163. Definition

In this subchapter, "business establishment" means any structure or vehicle where any commodity including memberships in any private club or other similar organization is offered to the public for sale or lease but does not include any structure or vehicle where only services are offered to the public for sale.

§ 61.164. Application

A person who desires to operate a mobile business establishment on a public beach located outside the municipal limits of an incorporated city shall submit a written application to the department.

§ 61.165. Contents of Application

The application shall include:

(1) the name and street address of the applicant;
(2) the commodity to be sold or leased; and
(3) the limits of the territory within which the mobile business establishment will operate.

§ 61.166. Filing Fee

(a) The application shall be accompanied by a filing fee in an amount determined by the department, not to exceed $25.

(b) The filing fee shall be deposited in the state treasury in the Land and Water Recreation and Safety Fund 63, and the department may pay from this fund the expenses of carrying out the provisions of this subchapter.

§ 61.167. Separate Applications

Any applicant who plans to operate more than one mobile business establishment must file a separate application accompanied by a separate filing fee for each mobile business establishment that he seeks to have licensed.

§ 61.168. Granting License

(a) On finding that the issuance of a license is consistent with recreational needs and the public welfare, and that the mobile business establishment would not create a traffic or safety hazard, and on compliance with this subchapter by the applicant, the department shall grant the license.

(b) The license shall be valid for one year from the day it is issued.

(c) If the license is not granted, the department shall return the filing fee to the applicant.

§ 61.169. Applications Not to be Granted

The department shall not grant an application:

(1) for a business establishment located at a fixed or permanent location on a public beach;
(2) for a business establishment that does not traverse the beach while doing business; or
(3) that does not otherwise meet the terms and provisions of this subchapter.

§ 61.170. License Prohibition Against Glass Containers

(a) Each license granted under this subchapter authorizing the sale of commodities on a public beach shall include a prohibition against the sale of any commodity in a glass container.

(b) Any person selling a commodity in a glass container on a public beach outside the boundaries of any incorporated city shall have his rights conferred by the license immediately terminated and revoked as provided in Section 61.172 of this code.

§ 61.171. Assignment

No license issued under this subchapter may be assigned.

§ 61.172. Termination and Revocation of License

(a) The failure or refusal of the licensee to comply with the terms and conditions of a license shall operate as an immediate termination and revocation of all rights conferred in or claimed under the license.

(b) The termination and revocation of the license is not effective until notice is delivered by mail to the address of the licensee listed on the application for the license.

§ 61.173. Maximum Territorial Limits
(a) If territorial limitations are applied uniformly to all applicants seeking to operate mobile business establishments in the territory, the department may establish maximum territorial limits over which mobile business establishments may operate.
(b) A license to sell or lease only surfboards and related equipment may not be limited as to the territory over which the mobile business establishment may operate.

§ 61.174. Additional Standards
In addition to other standards provided in this subchapter, it is the intention of the legislature that the department exercise the authority delegated to it under this subchapter according to the following considerations:

(1) that the number of mobile business establishments licensed by the department should not constitute a substantial interference with the free and unrestricted rights of ingress and egress of the public provided in this subchapter;

(2) that the number of licenses issued by the department under this subchapter are sufficient to ensure free and unrestricted competition in selling or leasing of commodities to the public; and

(3) that no person should be allowed to operate any mobile business establishment on any public beach in restraint of trade or competition by which the person controls all or substantially all the business establishments on the public beach licensed by the department.

§ 61.175. Rules, Procedures, and Conditions
The department may establish additional rules, procedures, and conditions necessary or appropriate to carry out the purposes of this subchapter.

§ 61.176. Areas Exempt From Subchapter
This subchapter does not apply to a public beach that is within the boundaries of a state park designated by the department or to a remote beach on any island or peninsula which is not accessible by public road or common carrier ferry facility as long as that condition exists.

§ 61.177. Penalty
A person, who for himself or on behalf of or under the direction of another person, operates any business establishment, whether mobile or at a fixed or permanent location, on any public beach outside the boundaries of any incorporated city without first obtaining a license to operate the business establishment from the department shall be fined not less than $10 nor more than $200.
[Sections 61.178 to 61.210 reserved for expansion]

SUBCHAPTER F. REMOVAL OF SAND, MARL, GRAVEL, AND SHELL

§ 61.211. Findings
The legislature finds that the unregulated excavation, taking, removal, and carrying away of sand, marl, gravel, and shell from islands and peninsulas bordering on the Gulf of Mexico and from the public beaches of the state constitute a substantial interference with public enjoyment of Texas beaches and a hazard to life and property.

§ 61.212. Exemptions From Subchapter
(a) The provisions of this subchapter do not apply:

(1) to excavating, taking, removing, or carrying away sand, marl, gravel, or shell made for the purpose of constructing improvements on real property if the improvements are constructed on the property on which the excavating, taking, removing, or carrying away occurs;

(2) to any landowner who desires to shift sand, marl, gravel, or shell from one location to another on land wholly owned by him; or

(3) to any agency of the federal or state government or any county, city, or other political subdivision or any of their agents or officers acting in their official capacities.

(b) Any person who holds a lease that was issued by the state under Chapter 377, Acts of the 57th Legislature, Regular Session, 1961 (Article 5415e, Vernon’s Texas Civil Statutes), before it was repealed shall be treated as an owner of the land and shall be entitled to excavate, take, remove, and carry away sand, marl, gravel, or shell for the purposes provided in Subsection (a) of this section without obtaining a permit from the commissioners court.

§ 61.213. Application
Before a person excavates, takes, removes, or carries away sand, marl, gravel, or shell from land located on an exposed island or peninsula bordering on the Gulf of Mexico or from land located within 1,500 feet of a mainland public beach that is located
outside the boundaries of an incorporated city, town, or village, he must submit a written application to the commissioners court of the county in which the excavation, taking, removal, or carrying away is to take place.

§ 61.214. Contents of Application

The application shall include:

1. the name of the applicant;
2. the location and dimensions of the proposed excavation;
3. the property interest or contractual right that enables the applicant to excavate, take, remove, or carry away sand, marl, gravel, or shell; and
4. certification by the county treasurer, or other official exercising similar authority if there is no county treasurer, that the applicant has deposited a filing fee of $50.

§ 61.215. Prerequisites to Issuance of Permit

No permit may be issued by the commissioners court under this subchapter to excavate, take, remove, or carry away sand, marl, gravel, or shell from land owned by the state, public beach, or privately owned land that is subject to this subchapter and that is not located on a public beach, unless the applicant is the owner of the land on which the proposed excavating, taking, removing, or carrying away is to take place or unless the applicant is acting with the knowledge and consent of the owner.

§ 61.216. Notice of Applications Received

(a) The commissioners court shall give public notice of all applications received for permits to excavate, take, remove, or carry away sand, marl, gravel, or shell.

(b) The notice shall be published once in a newspaper of general circulation in the county.

(b) The hearing may not be held less than 30 days from the date of the first publication of notice under Section 61.218 of this code.

§ 61.218. Notice of Public Hearing

Notice of the public hearing shall be published at least once a week for at least two weeks in a newspaper of general circulation in the county.

§ 61.219. Issuance of Permit

(a) On a finding that the proposed excavating, taking, removing, or carrying away would not create hazardous conditions or imperil lives or property by exposing the island or peninsula or public beach to the ravages of storm water, the commissioners court may issue a permit to the applicant, and it shall be valid for six months from the date of its issuance.

(b) The decision to issue a permit shall be made with the advice and counsel of the county engineer in counties in which the commissioners court employs a county engineer.

(c) None of the provisions of this subchapter prohibit a commissioners court from issuing a permit to a person who holds a right-of-way easement granted by the commissioner for a pipeline to cross state land, provided the applicant complies with the provisions of this subchapter relating to the issuance of permits.

§ 61.220. Return of Filing Fee

If the commissioners court refuses to issue the permit, the applicant may recover his filing fee from the county treasurer or other official exercising similar authority if there is no county treasurer.

§ 61.221. Assignment of Permits

No permit may be assigned without the approval of the commissioners court.

§ 61.222. Termination and Revocation of Permit

Failure or refusal of the permittee to comply with the terms and conditions of the permit operates as an immediate termination and revocation of all rights conferred by or claimed under the permit.

§ 61.223. Suits for Orders and Injunctions

The attorney general, any county attorney, district attorney, or criminal district attorney of the state shall file in a district court in the county in which the conduct take place, a suit seeking temporary or permanent court orders or injunctions to prohibit any excavating, taking, removing, or carrying away of any sand, marl, gravel, or shell from land located on an exposed island or peninsula bordering on the Gulf of Mexico or from land located within 1,500 feet of a public beach of this state if the land is located outside the boundaries of any incorporated city, town, or village in violation of the provisions of this subchapter.

§ 61.224. Penalty

A person who for himself or on behalf of or under the direction of another person excavates, takes, removes, or carries away sand, marl, gravel, or shell from land located on an exposed island or peninsula bordering on the Gulf of Mexico or from land located within 1,500 feet of a public beach of this state if the land is located outside the boundaries of any incorporated city, town, or village, in violation of the provisions of this subchapter shall be fined not less than $10 nor more than $200. Each day a violation occurs constitutes a separate offense.

§ 61.225. Sand, Marl, Gravel, or Shell From Public Beaches Within Incorporated Cities, Towns, or Villages

No incorporated city, town, or village having within its boundaries a public beach may authorize a person to excavate, take, remove, or carry away any sand, marl, gravel, or shell from the public beach except for the construction of a publicly owned and operated recreational facility or for the construction of a shoreline protection structure.

§ 61.226. Application of Subchapter to Certain Islands and Peninsulas

The provisions of this subchapter do not apply to any island or peninsula that is not accessible by a public road or common carrier ferry facility as long as that condition continues.

§ 61.227. Authority of Parks and Wildlife Department

None of the provisions of this subchapter may be construed to repeal or modify the provisions of Chapter 86, Parks and Wildlife Code, which relate to the powers and duties of the Parks and Wildlife Department over matters pertaining to the sale, taking, carrying away, or disturbing of sand, marl, gravel, or shell of commercial value and gravel, shells, mud shell, and oyster beds and their protection from free use and unlawful disturbing or appropriation, nor may this subchapter be construed to create additional or supplemental requirements or procedures to those provided in Chapter 86, Parks and Wildlife Code.

§ 62.001  NATURAL RESOURCES CODE

SUBCHAPTER A. GENERAL PROVISIONS

§ 62.001. Applicability
(a) The provisions of this chapter apply to counties that are located or border on the Gulf of Mexico and have within their boundaries beaches that are suitable for park purposes. The suitability of a beach for park purposes is established conclusively when the commissioners court of the county makes a finding that the beach located within its boundaries, but not located within the boundaries of an incorporated city, is suitable for park purposes.

(b) As long as an island or peninsula is not accessible by a public road or common carrier ferry facility, the provisions of this chapter do not apply to that island or peninsula.

(c) The provisions of this chapter do not interfere with, preempt, or in any manner restrict or usurp the authority of the land office over state-owned beaches.

(d) The provisions of this chapter do not prohibit the creation of, or limit the lawful actions of, a beach park board of trustees of a home-rule city as provided in Chapter 33, Acts of the 57th Legislature, 3rd Called Session, 1962, as amended (Article 6081g-1, Vernon's Texas Civil Statutes).

(e) The provisions of this chapter do not permit any interference with the right the public has under the provisions of Subchapter B of Chapter 61 of this code to the free and unrestricted use of, and to ingress and egress to, the area bordering on the Gulf of Mexico from mean low tide to the line of vegetation, as that term is defined in Subsection (2), Section 61.001 of this code. A county, county official, or anyone acting under the authority of this chapter may not exercise any authority, contract out a right to exercise authority, or otherwise delegate authority beyond that specifically granted to it in Sections 61.122 through 61.128 of this code over that area notwithstanding any of the specific provisions of this chapter. The rights established in Subchapters B and D of Chapter 61 of this code are paramount over the rights or interests that might otherwise be created by the provisions of this chapter, and nothing in this chapter encroaches on those rights or upon land, or interests in land, that may ultimately be held subject to those rights.

SUBCHAPTER A. GENERAL PROVISIONS

§ 63.001. Findings of Fact

The legislature finds and declares:

1. that the barrier islands and peninsulas of this state and the adjacent mainland areas contain a significant portion of the state's human, natural, and recreational resources;

2. that these areas are wholly or in part protected from the action of the water of the Gulf of Mexico and storms on the Gulf by a system of natural or artificially constructed vegetated sand dunes that provide a protective barrier for adjacent land and inland water and land against the action of sand, wind, and water;

3. that certain persons have from time to time modified or destroyed the effectiveness of the protective barriers in the process of developing the shoreline for various purposes;

4. that the operation of recreational vehicles over these dunes has destroyed the natural vegetation on them;

5. that these practices constitute serious threats to the safety of adjacent properties, to public highways, to the taxable basis of adjacent property and constitute a real danger to the health, safety, and welfare of persons living, visiting, or sojourning in the area;

6. that it is necessary to protect these dunes as provided in this chapter because stabilized, vegetated dunes offer the best natural defense against storms;

7. that vegetated stabilized dunes help preserve state-owned beaches and shores by protecting against erosion of the shoreline;

8. that the area bounded on the north by the Mansfield Ship Channel and extending to the southern tip of South Padre Island is an area of irregular dunes, the vast majority of which are unvegetated, unstable, and migratory, and these dunes do not afford significant protection to persons and property inland from this area; and

9. that the area bounded on the north by the inlet known as Aransas Pass and on the south by the Mansfield Ship Channel is an area of a mixture of irregular dunes as described in Subdivision (8) of this section and dunes that afford protection to persons and property inland.

§ 63.002. Definitions.

In this chapter:

1. "Commissioner" means the Commissioner of the General Land Office.

2. "Barrier island" means an island bordering on the Gulf of Mexico and entirely surrounded by water.
§ 63.002 NATURAL RESOURCES CODE

(4) "Recreational vehicle" means a dune buggy, marsh buggy, minibike, trail bike, jeep, or any other mechanized vehicle that is being used for recreational purposes, but does not include any vehicle not being used for recreational purposes.

§ 63.003. Effect of Chapter

The provisions of this chapter do not apply to any island or peninsula not accessible by public road or common carrier ferry facility for as long as that condition exists.

[Sections 63.004 to 63.010 reserved for expansion]

SUBCHAPTER B. DUNE PROTECTION LINE

§ 63.011. Establishing Dune Protection Line

After notice and hearing, the commissioners court of any county bordering on the Gulf of Mexico that has within its boundaries a barrier island or peninsula located north of the Mansfield Ship Channel may establish a dune protection line on the island or peninsula for the purpose of preserving sand dunes that offer a defense against storm water and erosion of the shoreline.

§ 63.012. Location of Dune Protection Line

The dune protection line shall not be located farther landward than a line drawn parallel to and 1,000 feet landward of the line of mean high tide of the Gulf of Mexico.

§ 63.013. Notice

(b) Notice shall be given to the commissioner not less than one week nor more than three weeks before the hearing.

§ 63.014. Map and Description of Dune Protection Line

(a) The commissioners court in establishing a dune protection line shall define the line by presenting it on a map or drawing, by making a written description, or by both. Each shall be designated appropriately and filed with the county clerk and with the commissioner.

(b) Notice of alterations in the dune protection line shall be filed with the county clerk and with the commissioner, and the appropriate changes shall be made on the map, drawing, or description.

§ 63.054. Grant of Application

§ 63.055. Terms and Conditions of Permit
The commissioners court may include in a permit the terms and conditions it finds necessary to assure the protection of life and property.

SUBCHAPTER C. PROVISIONS GENERALLY APPLICABLE TO THE CONSERVATION OF OIL AND GAS

§ 85.041. Acts Prohibited in Violation of Laws, Rules, and Orders

(a) The purchase, acquisition, or sale, or the transporting, refining, processing, or handling in any other way, of oil or gas, produced in whole or in part in violation of any oil or gas conservation statute of this state or of any rule or order of the commission under such a statute, is prohibited.

(b) The purchase, acquisition, or sale, or the transporting, refining, processing, or handling in any other way, of any product of oil or gas which is derived in whole or in part from oil or gas or any product of either, which was in whole or part produced, purchased, acquired, sold, transported, refined, processed, or handled in any other way, in violation of any oil or gas conservation statute of this state, or of any rule or order of the commission under such a statute, is prohibited.

§ 85.042. Rules and Orders

(a) The commission may promulgate and enforce rules and orders necessary to carry into effect the provisions of Section 85.041 of this code and to prevent that section’s violation.

(b) When necessary, the commission shall make and enforce rules either general in their nature or applicable to particular fields for the prevention of actual waste of oil or operations in the field dangerous to life or property.

§ 85.043. Application of Certain Rules and Orders

If the commission requires a showing that refined products were manufactured from oil legally produced, the requirement shall be of uniform application throughout the state; provided that, if the rule or order is promulgated for the purpose of controlling a condition in any local area or preventing a violation in any local area, then on the complaint of a person that the same or similar conditions exist in some other local area and the promulgation and enforcement of the rule could be beneficially applied to that additional area, the commission shall determine whether or not those conditions do exist, and if it is shown that they do, the rule or order shall be enlarged to include the additional area.

§ 85.044. Exempt Purchases

The provisions of Sections 85.041 through 85.043 of this code do not apply to the purchase of products of oil if made by the ultimate consumer from a retail distributor of the products.

§ 85.045. Waste Illegal and Prohibited

The production, storage, or transportation of oil or gas in a manner, in an amount, or under conditions that constitute waste is unlawful and is prohibited.

§ 85.046. Waste

(a) The term “waste,” among other things, specifically includes:

(1) operation of any oil well or wells with an inefficient gas-oil ratio and the commission may determine and prescribe by order the permitted gas-oil ratio for the operation of oil wells;

(2) drowning with water a stratum or part of a stratum that is capable of producing oil or gas or both in paying quantities;

(3) underground waste or loss, however caused and whether or not the cause of the underground waste or loss is defined in this section;

(4) permitting any natural gas well to burn wastefully;
§ 85.046  NATURAL RESOURCES CODE

(5) creation of unnecessary fire hazards;

(6) physical waste or loss incident to or resulting from drilling, equipping, locating, spacing, or operating a well or wells in a manner that reduces or tends to reduce the total ultimate recovery of oil or gas from any pool;

(7) waste or loss incident to or resulting from the unnecessary, inefficient, excessive, or improper use of the reservoir energy, including the gas energy or water drive, in any well or pool; however, it is not the intent of this section or the provisions of this chapter that were formerly a part of Chapter 26, Acts of the 42nd Legislature, 1st Called Session, 1931, as amended, to require repressuring of an oil pool or to require that the separately owned properties in any pool be unitized under one management, control, or ownership;

(8) surface waste or surface loss, including the temporary or permanent storage of oil or the placing of any product of oil in open pits or earthen storage, and other forms of surface waste or surface loss including unnecessary or excessive surface losses, or destruction without beneficial use, either of oil or gas;

(9) escape of gas into the open air in excess of the amount necessary in the efficient drilling or operation of the well from a well producing both oil and gas; and

(10) production of oil in excess of transportation or market facilities or reasonable market demand, and the commission may determine when excess production exists or is imminent and ascertain the reasonable market demand.

(b) Notwithstanding the provisions contained in this section or elsewhere in this code or in other statutes or laws, the commission may permit production by commingling oil or gas or oil and gas from multiple stratigraphic or lenticular accumulations of oil or gas or oil and gas where the commission, after notice and hearing, has found that producing oil or gas or oil and gas in a commingled state will prevent waste, promote conservation, or protect correlative rights.

§ 85.047  Exclusion From Definition of Waste

The use of gas produced from an oil well within the permitted gas-oil ratio for manufacture of natural gasoline shall not be included in the definition of waste.

§ 85.048  Authority to Limit Production

(a) Under the provisions of Subsection (10), Section 85.046 of this code, the commission shall not restrict the production of oil from any new field brought into production by exploration until the total production from that field is 10,000 barrels of oil a day in the aggregate.

(b) The commission's authority to restrict production from a new field under other provisions of Section 85.046 of this code is not limited by this section.

§ 85.049  Hearing

(a) On verified complaint of any person interested in the subject matter that waste of oil or gas is taking place in this state or is reasonably imminent, or on its own initiative, the commission, after proper notice, may hold a hearing to determine whether or not waste is taking place or is reasonably imminent and if any rule or order should be adopted or if any other action should be taken to correct, prevent, or lessen the waste.

(b) The hearing shall be held at the time and place determined by the commission.

§ 85.050  Procedure at Hearing

(a) At the hearing, interested parties shall be entitled to be heard and to introduce evidence and require the attendance of witnesses.

(b) The production of evidence may be required as provided by law.

§ 85.051  Adoption of Rule or Order

If the commission finds at the hearing that waste is taking place or is reasonably imminent, it shall adopt a rule or order in the manner provided by law as it considers reasonably required to correct, prevent, or lessen the waste.

§ 85.052  Compliance With Rule or Order

From and after the promulgation of a rule or order of the commission, it is the duty of each person affected by the rule or order to comply with it.

§ 85.053  Distribution, Proration, and Apportionment of Allowable Production

If a rule or order of the commission limits or fixes in a pool or portion of a pool the production of oil, or
the production of gas from wells producing gas only, the commission shall distribute, prorate, or otherwise apportion or allocate the allowable production among the various producers on a reasonable basis. [Acts 1977, 65th Leg., p. 2518, ch. 871, art. I, § 1, eff. Sept. 1, 1977.]

§ 85.054. Allowable Production of Oil
(a) To prevent unreasonable discrimination in favor of one pool as against another, and on written complaint and proof of such discrimination, the commission may allocate or apportion the allowable production of oil on a fair and reasonable basis among the various pools in the state.

(b) In allocating or ascertaining the reasonable market demand for the entire state, the reasonable market demand of one pool shall not be discriminated against in favor of another pool.

(c) The commission shall determine the reasonable market demand of the respective pool as the basis for determining the allotments to be assigned to the respective pool so that discrimination may be prevented.

§ 85.055. Allowable Production of Gas
(a) If full production from wells producing gas only from a common source of supply of gas in this state is in excess of the reasonable market demand, the commission shall inquire into the production and reasonable market demand for the gas and shall determine the allowable production from the common source of supply.

(b) The allowable production from a common source of supply is that portion of the reasonable market demand that can be produced without waste.

(c) The commission shall allocate, distribute, or apportion the allowable production from the common source of supply among the various producers on a reasonable basis and shall limit the production of each producer to the amount allocated or apportioned to the producer.

§ 85.056. Public Interest
In the administration of the provisions of this chapter that were formerly a part of Chapter 2, Acts of the 42nd Legislature, 4th Called Session, 1932, as amended, the commission shall take into consideration and protect the rights and interests of the purchasing and consuming public in oil and all its products, such as gasoline and lubricating oil.

§ 85.057. Restriction on Unexplored Territory
The provisions of this chapter that were formerly a part of Chapter 2, Acts of the 42nd Legislature, 4th Called Session, 1932, as amended, shall not be construed to grant the commission any authority to restrict or in any manner limit the drilling of wells to explore for oil or gas or both in territory that is not known to produce either oil or gas.

§ 85.058. Commission Inquiry and Determination
From time to time, the commission shall inquire into the production, storage, transportation, refining, reclaiming, treating, marketing, and processing of oil and gas, and the reasonable market demand for oil and gas, so that it may determine whether or not waste exists or is imminent or whether the oil and gas conservation laws of this state or the rules and orders of the commission promulgated under those laws are being violated.

§ 85.059. Records
Each person who produces, stores, transports, refines, reclaims, treats, markets, or processes oil or gas or the products of either shall keep in this state accurate records of the amount of oil or gas which such person produced, stored, transported, refined, reclaimed, treated, marketed, or processed and of the source from which the person produced, obtained, or received the oil or gas or the products of either and the disposition made of them.

§ 85.060. Sworn Statements and Reports
The commission may require a person who produces, stores, transports, refines, reclaims, treats, markets, or processes oil or gas or the products of either to make and file with the commission sworn statements or reports as to facts within his knowledge or possession pertaining to the reasonable market demand for oil and to the production, storage, transportation, refining, reclaiming, treating, marketing, or processing of oil or gas and the products of either. The report shall include those facts enumerated in Section 85.059 of this code.

§ 85.061. Inspection and Gauging
The commission may require any well, lease, refinery, plant, tank or storage, pipeline, or gathering line that belongs to or is under the control of a person who produces, stores, transports, refines, reclaims, treats, markets, or processes oil or gas or the
products of either to be inspected or gauged by the agents of the commission whenever and as often as and for such periods as the commission considers necessary.

§ 85.062. Examination of Books and Records

The commission and its agents and the attorney general and his assistants and representatives may examine the books and records of a person who produces, stores, transports, refines, reclaims, treats, markets, or processes oil or gas or the products of either as often as considered necessary for the purpose of determining the facts concerning matters covered by Sections 85.058 through 85.061 of this code.

§ 85.063. Violations by Corporations

(a) The failure of a corporation chartered under the laws of this state to comply with the provisions of Sections 85.059 through 85.062 of this code and to keep the records required by Section 85.058 of this code does not constitute grounds for forfeiture of its charter rights and privileges and dissolution of its corporate existence.

(b) The failure of a foreign corporation to comply with the provisions of Sections 85.059 through 85.062 of this code and to keep the records required by Section 85.058 of this code may be grounds for enjoining and forever prohibiting such corporation from doing business in this state.

§ 85.064. Action Against Corporation

(a) If he determines that the public interest requires it, the attorney general shall institute suit or other appropriate action in Travis County for forfeiture of charter rights of a domestic corporation or to enjoin a foreign corporation from doing business in this state when a corporation is deemed guilty of violating the provisions of Sections 85.059 through 85.062 of this code. The attorney general may take action on his own motion and without leave or order of any judge or court.

(b) On judgment against a defendant for violating the provisions of Sections 85.059 through 85.062 of this code, the court may, if in its judgment the public interest requires it, forfeit the charter rights of a defendant domestic corporation or enjoin a defendant foreign corporation from doing business in this state.

SUBCHAPTER D. MARGINAL WELLS

§ 85.121. Definitions

(a) In this subchapter, "marginal well" means an oil well that is incapable of producing its maximum capacity of oil except by pumping, gas lift, or other means of artificial lift, and which well so equipped is capable, under normal unrestricted operating conditions, of producing such daily quantities of oil, as provided in this subchapter, that would be damaged, or result in a loss of production ultimately recoverable, or cause the premature abandonment of the well, if its maximum daily production were artificially curtailed.

(b) As used in Subsection (a), Section 85.121 and Section 85.122 of this code, "gas lift" means gas lift by the use of gas not in solution with oil produced.

§ 85.122. Wells Considered as Marginal Wells

Wells that are considered marginal wells include any oil well in this state that is incapable of producing its maximum daily capacity of oil except by pumping, gas lift, or other means of artificial lift and having:

(1) when producing from a depth of 2,000 feet or less, a maximum daily capacity for production of 10 barrels or less, averaged over the preceding 30 consecutive days;

(2) when producing from a horizon deeper than 2,000 feet and less in depth than 4,000 feet, a maximum daily capacity for production of 20 barrels or less, averaged over the preceding 30 consecutive days;

(3) when producing from a horizon deeper than 4,000 feet and less in depth than 6,000 feet, a maximum daily capacity for production of 25 barrels or less, averaged over the preceding 30 consecutive days;

(4) when producing from a horizon deeper than 6,000 feet and less in depth than 8,000 feet, a maximum daily capacity for production of 30 barrels or less, averaged over the preceding 30 consecutive days; or

(5) when producing from a horizon deeper than 8,000 feet, a maximum daily capacity for production of 35 barrels or less, averaged over the preceding 30 consecutive days.

§ 85.123. Curtailment of Marginal Well Production as Waste

To artificially curtail the production of a marginal well below the marginal limit as set out in Sections 85.121 through 85.122 of this code before the marginal well's ultimate plugging and abandonment is declared to be waste.

§ 85.124. Rules and Orders Restricting Marginal Wells

No rule or order of the commission or of any other constituted legal authority shall be adopted requiring the restriction of the production of a marginal well.

§ 85.125. Effect of Other Subchapters

None of the provisions of this chapter that were formerly a part of Chapter 26, Acts of the 42nd Legislature, 1st Called Session, 1931, as amended, Chapter 2, Acts of the 42nd Legislature, 4th Called Session, 1932, as amended, or Chapter 76, General Laws, Acts of the 44th Legislature, Regular Session, 1935, as amended, authorize or may be construed to limit, modify, or repeal the provisions of this subchapter.

[Sections 85.126 to 85.160 reserved for expansion]

SUBCHAPTER E. CERTIFICATE OF COMPLIANCE

§ 85.161. Well Owners and Operators Certificates

The owner or operator of an oil or gas well, before connecting with any oil or gas pipeline, shall secure from the commission a certificate showing compliance with the oil or gas conservation laws of the state and conservation rules and orders of the commission.

§ 85.162. Prohibited Connection

No operator of a pipeline or other carrier shall connect with any oil or gas well until the owner or operator of the well furnishes a certificate from the commission that the owner or operator has complied with the conservation laws of this state and the rules and orders of the commission.

§ 85.163. Temporary Connection

The provisions of this subchapter do not prevent a temporary connection with a well in order to take care of production and prevent waste until opportunity shall have been given the owner or operator of the well to secure the certificate.

§ 85.164. Cancellation of Certificate

The commission may cancel any certificate of compliance issued under the provisions of this subchapter if it appears that the owner or operator of a well covered by the provisions of the certificate, in the operation of the well or the production of oil or gas from the well, has violated or is violating the oil and gas conservation laws of this state or rules or orders of the commission adopted under those laws.

§ 85.165. Effect of Cancellation on Operator of Pipeline or Other Carrier

(a) On notice from the commission to the operator of a pipeline or other carrier connected to an oil or gas well that the certificate of compliance pertaining to that well has been cancelled, the operator of the pipeline or other carrier shall disconnect from the well.

(b) It shall be unlawful for the operator of a pipeline or other carrier to transport oil from the well until a new certificate of compliance has been issued by the commission.

§ 85.166. Effect of Cancellation on Owner or Operator of Well

On notice from the commission that a certificate of compliance for an oil or gas well has been cancelled, it shall be unlawful for the owner or operator of the well to produce oil or gas from the well until a new certificate of compliance covering the well has been issued by the commission.

   (1) to prevent waste, as defined in Section 85.046 of this code, of oil and gas in drilling and producing operations and in the storage, piping, and distribution of oil and gas;
   (2) to require dry or abandoned wells to be plugged in a manner that will confine oil, gas, and water in the strata in which they are found and prevent them from escaping into other strata;
   (3) for the drilling of wells and preserving a record of the drilling of wells;
   (4) to require wells to be drilled and operated in a manner that will prevent injury to adjoining property;
   (5) to prevent oil and gas and water from escaping from the strata in which they are found into other strata;
   (6) to provide rules for shooting wells and for separating oil from gas;
   (7) to require records to be kept and reports made; and
   (8) to provide for issuance of permits, tenders, and other evidences of permission when the issuance of the permits, tenders, or permission is necessary or incident to the enforcement of the commission's rules or orders for the prevention of waste.
(b) The commission shall do all things necessary for the conservation of oil and gas and prevention of waste of oil and gas and may adopt other rules and orders as may be necessary for those purposes.

§ 85.203. Considerations in Adopting Rules and Orders to Prevent Waste
The commission may consider any or all of the definitions of waste stated in Section 85.046 of this code, whenever the facts, circumstances, or conditions make them applicable, in adopting rules or orders to prevent waste of oil or gas.

§ 85.204. Prohibited Rules and Orders
The commission is not authorized to adopt a rule or order or to make a determination or holding that any mode, manner, or process of refining oil constitutes waste.

§ 85.205. Notice and Hearing
No rule or order pertaining to the conservation of oil and gas or to the prevention of waste of oil and gas may be adopted by the commission except after notice and hearing as provided by law.

§ 85.206. Emergency Order
(a) If the commission finds an emergency to exist, that in the commission's judgment requires the adoption of an order without giving notice or holding a hearing, the emergency order may be adopted and shall be valid as though notice had been given and a hearing held.
(b) The emergency order shall remain in force no longer than 15 days from its effective date.
(c) The emergency order shall expire, in any event, at the time an order relating to the same subject matter and adopted after proper notice and hearing becomes effective.

§ 85.207. Effect of Amendment, Repeal, or Expiration of a Rule or Order
The amendment, repeal, or expiration of a rule or order of the commission adopted under the provisions of this chapter that were formerly a part of Chapter 76, General Laws, Acts of the 44th Legislature, Regular Session, 1935, as amended, or the provisions of Title 102, Revised Civil Statutes of Texas, 1925, as amended, including provisions of this code formerly included in that title, shall not have the effect of releasing or discharging from liability, penalty, or forfeiture any person violating the rule or order before the effective date of the amendment, repeal, or expiration. Prosecutions and suits for these violations, liabilities, penalties, and forfeitures shall be instituted and proceeded with in all respects as if the rule or order had not been amended or repealed, or had not expired.

CHAPTER 86. REGULATION OF NATURAL GAS

SUBCHAPTER A. GENERAL PROVISIONS

§ 86.001. Declaration of Policy

In recognition of past, present, and imminent evils occurring in the production and use of gas as a result of waste in this production and use of gas in the absence of correlative opportunities of owners of gas in a common reservoir to produce and use the gas, the provisions of this chapter are enacted for the protection of public and private interests against these evils by prohibiting waste and compelling ratable production.

[Acts 1977, 65th Leg., p. 2531, ch. 871, art. 1, § 1, eff. Sept. 1, 1977.]

§ 86.002. Definitions

In this chapter:

(1) “Oil” means crude petroleum oil.

(2) “Gas” means natural gas.

(3) “Commission” means the Railroad Commission of Texas.

(4) “Common reservoir” means all or part of any oil or gas field or oil and gas field that comprises and includes any area that is underlaid or that, from geological or other scientific data or experiments or from drilling operations or other evidence, appears to be underlaid by a common pool or accumulation of oil or gas or oil and gas.

(5) “Gas well” means a well that:

(A) produces gas not associated or blended with oil at the time of production;

(B) produces more than 100,000 cubic feet of gas to each barrel of oil from the same producing horizon; or

(C) produces gas from a formation or producing horizon productive of gas only encountered in a well bore through which oil also is produced through the inside of another string of casing.

(6) “Oil well” means any well that produces one barrel or more of oil to each 100,000 cubic feet of gas.

(7) “Dry gas” means gas produced from a stratum that does not produce oil.

(8) “Sour gas” means gas:

(A) containing more than one and one-half grains of hydrogen sulphide per 100 cubic feet;

(B) containing more than 30 grains of total sulphur per 100 cubic feet; or

(C) which in its natural state is found by the commission to be unfit for use in generating light or fuel for domestic purposes.

(9) “Sweet gas” means all gas except sour gas and casinghead gas.

(10) “Casinghead gas” means any gas or vapor indigenous to an oil stratum and produced from the stratum with oil.

(11) “Natural gasoline” means gasoline manufactured from casinghead gas or from any gas.
§ 86.002  NATURAL RESOURCES CODE

(12) "Cubic foot of gas" or "standard cubic foot of gas" means the volume of gas, including natural and casinghead gas, contained in one cubic foot of space at a standard pressure base of 14.65 pounds per square inch absolute and at a standard temperature base of 60 degrees Fahrenheit, and if the conditions of pressure and temperature differ from this standard, conversion of the volume from the differing conditions to the standard conditions shall be made in accordance with the ideal gas laws, corrected for deviation.

§ 86.003. Determination of Separate Wells

If oil or gas, or both, is produced through different strings of casing set in the same well bore, the inner string through which oil or gas, or both, is produced shall be regarded as one well, and each successive additional string of casing through which oil or gas, or both, is produced from a different producing horizon through the same well bore shall be regarded as another well.

§ 86.004. Applicability

The provisions in this chapter do not impair the authority of the commission to prevent waste under the oil and gas conservation laws of this state and do not repeal, modify, or impair any of the provisions relating to oil and gas conservation in Sections 85.002, 85.041 through 85.055, 85.066 through 85.064, 85.125, 85.201 through 85.207, 85.241 through 85.249, 85.249 through 85.252, and 85.381 through 85.385 of this code and Subchapters E and J of Chapter 85 of this code.

SUBCHAPTER B. WASTE OF GAS

§ 86.011. Prohibition Against Waste

The production, transportation, or use of gas in a manner, in an amount, or under conditions which constitute waste is unlawful and is prohibited.

§ 86.012. Definition of Waste

(a) The term "waste" includes:

(1) the operation of an oil well or wells with an inefficient gas-oil ratio;

(2) the drowning with water of a stratum or part of a stratum capable of producing gas in paying quantities;

(3) permitting a gas well to burn wastefully;

(4) the creation of unnecessary fire hazards;

(5) physical waste or loss incident to or resulting from so drilling, equipping, or operating a well or wells as to reduce or tend to reduce the ultimate recovery of gas from any pool;

(6) the escape of gas from a well producing both oil and gas into the open air in excess of the amount that is necessary in the efficient drilling or operation of the well;

(7) the production of gas in excess of transportation or market facilities or reasonable market demand for the type of gas produced;

(8) the use of gas for the manufacture of carbon black without first having extracted the natural gasoline content from the gas, except it shall not be necessary to first extract the natural gasoline content from the gas where it is utilized in a plant producing an average recovery of not less than five pounds of carbon black to each 1,000 cubic feet of gas;

(9) the use of sweet gas produced from a gas well for the manufacture of carbon black unless it is used in a plant producing an average recovery of not less than five pounds of carbon black to each 1,000 cubic feet and unless the sweet gas is produced from a well located in a common reservoir producing both sweet and sour gas;

(10) permitting gas produced from a gas well to escape into the air before or after the gas has been processed for its gasoline content, unless authorized as provided in Section 86.185 of this code;

(11) the production of natural gas from a well producing oil from a stratum other than that in which the oil is found unless the gas is produced in a separate string of casing from that in which the oil is produced;

(12) the production of more than 100,000 cubic feet of gas to each barrel of crude petroleum oil unless the gas is put to one or more of the uses authorized for the type of gas so produced under allocations made by the commission or unless authorized as provided in Section 86.185 of this code; and

(13) underground waste or loss however caused and whether or not defined in other subdivisions of this section.

(b) Notwithstanding the provisions contained in this section or elsewhere in this code or in other statutes or laws, the commission may permit production by commingling oil or gas or oil and gas from multiple stratigraphic or lenticular accumulations of oil or gas or oil and gas where the commission, after notice and hearing, has found that producing oil or gas or oil and gas in a commingled state will prevent...
§ 86.084 Determination of Status of Production

(a) The commission shall determine the status of gas production from all reservoirs in the state.

(b) If the commission finds that waste exists or is imminent in the production of gas from a reservoir, or that the capacity of the wells to produce gas from waste, promote conservation, or protect correlative rights.

[Sections 86.013 to 86.040 reserved for expansion]
§ 86.084  NATURAL RESOURCES CODE

a reservoir exceeds the market demand for gas from the reservoir, the commission by proper order shall prorate and regulate the gas production from the reservoir on a reasonable basis.

§ 86.085.  Determination of Demand and Volume

On or before the 20th day of each month, the commission, after notice and hearing, shall determine:
(1) the lawful market demand for gas to be produced from each reservoir during the following month; and
(2) the volume of gas that can be produced without waste from the reservoir and each well in the reservoir during the following month.

§ 86.086.  Monthly Reservoir Allowable

After determining demand and volume of production as provided in Section 86.085 of this code, the commission shall fix the monthly reservoir allowable of gas to be produced from the reservoir at the lawful market demand for the gas or at the volume that can be produced from the reservoir without waste, whichever is the smaller quantity.

§ 86.087.  Monthly Well Allowable

The monthly reservoir allowable shall be allocated among all wells entitled to produce gas from the reservoir to give each well its fair share of the gas to be produced from the reservoir, but each well is restricted to the amount of gas that can be produced from it without waste. The volume of gas allocated to each well is the monthly allowable for that well.

§ 86.088.  Daily Allowable

The daily market demand for gas and the daily allowable shall be determined by dividing the monthly demand and the monthly allowable by the number of days in the month.

§ 86.089.  Factors in Determining Allowable

(a) In determining the daily allowable production for each gas well, the commission shall take into account:
(1) the size of the tract segregated with respect to surface position and common ownership on which the gas well or wells are located;
(2) the relation between the daily producing capacity of each gas well and the aggregate daily capacity of all gas wells producing the same kind of gas in the same common reservoir or zone; and
(3) other factors that are pertinent.
(b) In determining the daily allowable production for each gas well, the commission shall not take into account the size of the tract on which any gas well or wells are located in excess of the efficient drainage area of the well or wells, producing at 25 percent of the daily productive capacity. The drainage area shall be determined by the commission.
(c) In ascertaining the drainage area of a well, the commission shall take into account such factors as are reflected in the productive capacity of a gas well, including formation pressure, the permeability and porosity of the producing formation, and the well bore's structural position, together with all other factors taken into account by a reasonably prudent operator in determining the drainage area for a gas well.

§ 86.090.  Authorizing Overproduction and Underproduction

(a) In order to adjust the correlative rights and opportunities of each owner to produce, use, and sell gas from a common reservoir from which a portion of the market demand is seasonal or where a portion of the market demand fluctuates from month to month, the commission may permit the wells in the reservoir to be produced in excess of the monthly allowable, in accordance with the conditions and limitations set forth in Subsections (b), (c), and (d) of this section, if no waste is caused.
(b) No well may be permitted in any one month to produce:
(1) at a rate in excess of 25 percent of the daily producing capacity of the well as found by the commission; or
(2) in excess of two times its monthly allowable, except that if on application to the commission there is shown to exist, or there is threatened and unforeseen, an emergency requiring an increase in the demand for the gas from the reservoir which cannot be satisfied otherwise from the reservoir, then the wells under the application may be produced as authorized in this subchapter but not in excess of four times each of the well's monthly allowable.
(c) No well may ever be allowed to produce in excess of twice its allowable for more than two months in any period of six months beginning on the first day of March and September of each year. If a well has produced twice its allowable or more during a period of six months beginning on the first day of...
March or September, it shall be closed in until its production and allowable are in balance.

(d) On the first day of March and September of each year, the commission shall restrict production from all wells that are then overproduced to the fractional part of their monthly allowable that will bring the accumulated allowables and the accumulated monthly production in balance during the next six months. If the overproduction is not balanced during that six-month period, the overproduced well shall be shut in until its production and allowable are in balance.

(e) The commission by appropriate order may permit a gas well to be underproduced for a period of six consecutive months and may allow the accumulated underproduction to be produced in addition to the regular monthly allowable during the following six-month period.

§ 86.091. Minimum Limits on Well Restrictions

(a) None of the provisions of this chapter require that the production from a gas well with a daily natural open flow of 200,000 cubic feet of gas or more be restricted to a quantity less than 50,000 cubic feet of gas daily.

(b) None of the provisions of this chapter require that the production from a gas well with a daily natural open flow of less than 200,000 cubic feet of gas be reduced to a quantity less than 25 percent of its natural open flow.

§ 86.092. Maximum Well Production

(a) In a common reservoir producing both sweet and sour gas, no gas well may be permitted to produce in excess of 25 percent of its daily productive capacity except as provided in Subsection (b) of this section.

(b) If the commission finds that reservoir conditions require that the percentage be increased to prevent waste and that the increase will not create a drainage condition between sweet and sour gas land, the commission may authorize an increase in the allowable production.

(c) If the allowable production previously allocated to a well is more than 15 percent of its daily producing capacity and the commission finds that the production of its daily allowable from the well will cause waste due to the intermingling of sweet and sour gas, the commission may order the production from the well restricted to 15 percent of its daily producing capacity. This subsection shall not be construed to militate against the right of the commission to fix the allowable production of a well below 15 percent of its daily producing capacity in carrying out the requirements of Sections 86.089 and 86.090 of this code.

§ 86.093. Effect of Oil and Gas Stratum on Gas Only Stratum

If gas is produced from one stratum and oil and gas are produced from another stratum in the same well bore, the commission shall take into account the amount of gas produced from the oil stratum in determining the amount of gas that may be produced from the stratum producing gas only. The commission may subtract the amount of the casinghead gas produced from the dry gas that would be allocated to the well if it produced dry gas and may restrict the dry gas production accordingly.

§ 86.094. Authority to Increase Take Above Allowable

If unforeseen contingencies increase the demand for gas required by a distributor, transporter, or purchaser to an amount in excess of the total allowable production of the wells to which he is connected, the distributor, transporter, or purchaser may increase his take ratably from all these wells in order to supply his demand for gas, provided that notice of the increase and the amount of the increase are given to the commission within five days; and provided further, the commission, at its next hearing, shall adjust the inequality of withdrawals caused by the increase in fixing the allowable production of the various wells in the common reservoir or zone.

§ 86.095. Zoning Common Reservoirs

(a) The commission shall zone a common reservoir if, on consideration of the evidence introduced at a hearing, it finds that either the prevention of waste or adjustment of correlative rights and opportunities, or both, as designated in Section 86.081 of this code, may be accomplished more adequately by zoning the common reservoir.

(b) If the commission zones a common reservoir, each zone shall be regarded as a separate common reservoir in making allocations of daily allowable production as provided in this chapter.

(c) If the commission zones a common reservoir, the commission:

(1) shall allocate to each zone its just proportion of the market demand for gas from the common reservoir;

(2) shall establish appropriate rules applicable to each zone;

(3) may adjust its orders to the practicable conditions that exist; and
§ 86.095  NATURAL RESOURCES CODE 598

(4) may enter any reasonable order necessary to effectuate the purposes of this chapter.

(d) The commission may segregate a sour gas area from a sweet gas area and is not required to restrict the allowable production of the sour gas zone to the same percentages that may be produced from the sweet gas zone.

§ 86.096.  Failure to Use or Sell Allowable Production

If the commission finds that the owner of a gas well failed or refused to use or sell the allowable production from his well when the owner was offered a connection or market for the gas at a reasonable price, the well shall be excluded from consideration in allocating the daily allowable production from the reservoir or zone in which it is located until the owner of the well signs to the commission his desire to use or sell the gas. In all other cases, all gas wells shall be taken into account in allocating the allowable production among wells producing the same type of gas.

§ 86.097.  Production of Gas From Oil Well

No person in possession of or operating an oil well may produce from the oil well gas found in a horizon productive of gas only.

[Sections 86.098 to 86.140 reserved for expansion]

SUBCHAPTER E.  METER AND PRESSURE TESTS

§ 86.141.  Duty to Test Pressure

All persons producing gas from any gas well shall determine through appropriate tests during the months of January and July of each year the open flow and rock pressure of each gas well from which gas is produced.

§ 86.142.  Pressure Test Requirements

The test to determine pressure of a gas well shall be made:

(1) under uniform and generally recognized methods;

(2) in the presence of and under the supervision of a representative of the commission; and

(3) under rules prescribed by the commission.

§ 86.143.  Pressure Test Reports

(a) Verified reports of the tests to determine pressure shall be filed with the commission on or before the 10th day of each January and July.

(b) The reports shall disclose the name of the representative of the commission who was actually present when the tests were made.

(c) The reports are a permanent public record. They shall be kept on file with the commission and shall be open to the inspection and examination of the public.

§ 86.144.  Demanding Second Test

A person producing gas from the same common reservoir who is dissatisfied with the test as made and reported may demand that a second test be made in the manner provided in this subchapter and in the presence of the person making the demand or his representative.

§ 86.145.  Duty to Test Meter

The commission shall require one of its duly authorized agents to inspect, read, or test any meter or meters through which gas is being measured or gauged on the request of a lessor, lessee, operator, or royalty owner from whose land, lease, or royalty interest gas is being produced.

[Sections 86.146 to 86.180 reserved for expansion]

SUBCHAPTER F.  USE OF GAS

§ 86.181.  Use of Sweet Gas Produced From Gas Well

No sweet gas produced from a gas well may be used for any purpose except:

(1) light or fuel;

(2) efficient chemical manufacture, other than the manufacture of carbon black, provided that sweet gas produced from wells located in a common reservoir producing both sweet and sour gas may be used for the manufacture of carbon black if it is used in a plant producing an average recovery of not less than five pounds of carbon black to each 1,000 cubic feet of gas;

(3) bona fide introduction of gas into oil or gas bearing horizon in order to maintain or increase the rock pressure, or otherwise increase the ultimate recovery of oil or gas from the horizon; and
(4) the extraction of natural gasoline when the residue is returned to the horizon from which it is produced.

§ 86.182. Use of Sour Gas

In addition to the purposes for which sweet gas produced from a gas well may be used, sour gas may be used for efficient chemical manufacturing purposes including the manufacture of carbon black provided:

(1) it is utilized in a plant producing a recovery of not less than one pound of carbon black to each 1,000 cubic feet of gas; and

(2) the gasoline content is removed and saved from the sour gas before the gas is used for carbon black.

§ 86.183. Use of Casinghead Gas

Casinghead gas may be used for any beneficial purpose, which includes the manufacture of natural gasoline.

§ 86.184. Use as Gas Lift

(a) A producer of either sweet or sour gas or casinghead gas may use the gas as gas lift in the bona fide production of oil if the gas is not used in excess of 10,000 cubic feet per barrel of oil produced.

(b) To prevent waste in a case where the facts in the case warrant it, the commission may permit the use of additional quantities of gas to lift oil provided:

(1) all the gas used in excess of 10,000 cubic feet for each barrel of oil is processed for natural gasoline; and

(2) the residue is burned for carbon black when it is reproduced.

§ 86.185. Prohibition Against Gas in Air

No gas from a gas well may be permitted to escape into the air after the expiration of 10 days from the time the gas is encountered in the gas well, or from the time of perforating the casing opposite a gas-bearing zone if casing is set through the zone, whichever is later, but the commission may permit the escape of gas into the air for an additional time if the operator of a well or other facility presents information to show the necessity for the escape; provided that the amount of gas which is flared under that authority is charged to the operator's allowable production. A necessity includes but is not limited to the following situations:

(1) cleaning a well of sand or acid or both following stimulation treatment of a well; and

(2) repairing or modifying a gas-gathering system.

[Sections 86.186 to 86.220 reserved for expansion]

SUBCHAPTER G. ENFORCEMENT; JUDICIAL REVIEW

§ 86.221. Unauthorized Production Prohibited

No person may produce gas from a gas well in violation of the valid orders of the commission.

§ 86.222. Penalty

Any person who violates a provision of this chapter is liable for a penalty of not more than $1,000 for each offense. Each day a violation occurs constitutes a separate offense.

§ 86.223. Suit for Penalty

The penalty may be recovered with the cost of suit by the State of Texas through the attorney general or the county or district attorney when joined by the attorney general in a civil action instituted in Travis County or in the county in which the violation occurred.

§ 86.224. Suit for Injunction

A violation or threatened violation of this chapter may be enjoined by any court of competent jurisdiction in which the suit for penalty may be brought. The court may issue mandatory or prohibitory writs of injunction that the facts justify.

§ 86.225. Judicial Review

Any person affected by an order of the commission adopted under the authority of this chapter is entitled to judicial review of that order in a manner other than trial de novo.

of the commission. The rate of production from a sour gas well is considered to be the daily average rate of production for the calendar month.

§ 87.052. Maximum Production of Sour Gas for Carbon Black Manufacture

(a) In any common reservoir in the state producing both sweet and sour gas, there shall never be produced from the common reservoir for use in carbon black manufacture a maximum daily volume of sour gas from the gas wells in excess of 750 million cubic feet.

(b) The commission shall prorate the daily volume of sour gas from gas wells among all the sour gas wells in the reservoir to prevent cognizable and preventable drainage of gas from tracts of land in the sour gas producing area segregated as to surface position and common ownership on which the sour gas wells are located.

§ 87.053. Effect of Demand Below Maximum Allowable Production

(a) If the daily demand for sour gas from gas wells for use in carbon black manufacture is less than the daily maximum allowable permitted in Section 87.052 of this code, the total daily volume of gas from gas wells from the sour gas area for use in carbon black manufacture shall be equal to the daily demand.

(b) The commission shall determine the daily demand and prorate it among all the sour gas wells in the area as provided in Section 87.052 of this code.

§ 87.054. Effect of Demand for Other Purposes Than Carbon Black Manufacture

(a) If a lawful daily demand exists for sour gas from gas wells for purposes of utilization permitted by law, other than the manufacture of carbon black, the additional demand shall be added to the daily demand for carbon black manufacture, and that sum shall constitute the daily volume of sour gas from gas wells that may be withdrawn from the common reservoir for utilization.

(b) The commission shall prorate the daily volume provided for in Subsection (a) of this section among the sour gas wells in the area on the basis set forth in Section 87.052 of this code.

[Sections 87.055 to 87.090 reserved for expansion]
§ 87.096. Residue Gas: Determination by Commission

If a plant operating under this subchapter commingles casinghead gas with sweet gas or sweet gas with sour gas, the commission shall ascertain:

(1) the quantity of residue gas required to be used for fuel purposes in the efficient operation of the plant; and

(2) the quantity of residue gas required to be returned by the operator of the plant to the leases to which the plant is connected for use as fuel in the operation of the leases.

[Acts 1977, 65th Leg., p. 2543, ch. 871, art. 1, § 1, eff. Sept. 1, 1977.]

§ 87.097. Use of Residue Gas for Other Purposes

(a) The operator of the plant is required to use, or cause to be used, for one or more of the uses provided for sweet gas by law a quantity of the residue gas from the plant equal to the quantity of sweet gas taken into the plant for processing, less the extraction loss from the processing.

(b) The operator shall not be credited with use of residue for plant-fuel or lease-fuel operations in an amount in excess of the quantity found by the commission to be necessary for the leases to which the plant is connected for use as fuel for lease operations.

SUBCHAPTER E. USE OF GAS WITHOUT EXTRACTION OF NATURAL GASOLINE

§ 87.131. Use of Sweet Gas for Carbon Black Manufacture

Sweet gas produced from any gas well in this state may be used without the prior extraction of its natural gasoline content if:

(1) it is used in a plant producing an average recovery of not less than one and one-half pounds of carbon black for each 1,000 cubic feet of gas; and

(2) the royalty rate and market price paid for the gas at the wellhead at least equals the royalty rate and market price paid at the wellhead in the immediate area for gas used for light and fuel purposes.

(b) In arriving at the market price of sour gas, a reduction of not more than one-half cent per 1,000 cubic feet shall be allowed for purifying the gas to render it suitable for light and fuel purposes.

(c) If the gas is used by a producer, any royalty rate paid shall be paid on the same basis.

[Acts 1977, 65th Leg., p. 2544, ch. 871, art. 1, § 1, eff. Sept. 1, 1977.]

§ 87.133. Determining Market Price

(a) After due notice of hearing, the commission shall hold annual or semiannual hearings, as it considers necessary, for the purpose of determining the market price that is being paid at the wellhead for gas being used and sold for light and fuel purposes.

(b) After the hearing and determination of the market price, the commission shall post and publish the price in its main office in Austin, and its branch office, if any, in the area affected.

(c) All parties contracting for gas under the provisions of this subchapter may accept the posted and published price as the market price to be paid for the gas.

[Acts 1977, 65th Leg., p. 2544, ch. 871, art. 1, § 1, eff. Sept. 1, 1977.]

§ 87.134. Effect of Subchapter

The provisions of this subchapter are cumulative of existing laws relating to the uses of gas and do not restrict or affect the manufacture of carbon black from processed sour gas as authorized by Section 86.182 of this code.

[Acts 1977, 65th Leg., p. 2545, ch. 871, art. 1, § 1, eff. Sept. 1, 1977.]

SUBCHAPTER F. USE OF GAS DETERMINED BY HYDROCARBON CONTENT

§ 87.171. Gas Containing Low Hydrocarbon Content

Any natural gas, including casinghead gas, produced from any gas well or oil well in this state, containing less than one and one-half gallons of propane and heavier hydrocarbons per 1,000 cubic feet, as determined by fractional analysis made of
the gas, may be used for the manufacture of carbon black in a plant producing an average recovery of at least one and one-half pounds of carbon black for each 1,000 cubic feet of gas consumed.

§ 87.172. Gas Containing High Hydrocarbon Content

(a) Except as provided in Subsection (b) of this section, no natural gas, including casinghead gas, produced from any gas well or oil well in this state, containing one and one-half gallons or more of propane and heavier hydrocarbons per 1,000 cubic feet, as determined by fractional analysis made of the gas, may be used for the manufacture of carbon black in a plant producing an average recovery of at least one and one-half pounds of carbon black for each 1,000 cubic feet of gas consumed without the prior extraction of its natural gasoline content.

(b) On the filing of an application and after proper notice and hearing as provided by law, the commission may authorize the use of any natural gas, including casinghead gas, containing one and one-half gallons or more of propane and heavier hydrocarbons per 1,000 cubic feet, as determined by fractional analysis made of the gas, in the manufacture of carbon black if the commission finds it is unprofitable to first extract the natural gasoline content.

§ 87.173. Additional Extraction to Alleviate Shortage

If a general shortage of propane or heavier liquid hydrocarbons occurs, the commission, after notice and hearing, may require additional extraction of hydrocarbons from the gas to alleviate the shortage, but additional extraction shall not be required if it is not economically feasible to do so.

§ 87.174. Applicability of This Subchapter

The provisions of this subchapter shall not apply to:

(1) gas produced from a common reservoir that contains both sweet and sour gas which was being lawfully used for the manufacture of carbon black under the provisions of the source law codified in Subchapters D and E of this chapter at the time of the passage of the source law for this section; or

(2) gas from gas wells located in these reservoirs which were entitled to be so used under the provisions of the source law codified in Subchapters D and E of this chapter at the time of the passage of the source law for this section.

(1) the limits of a city, town, or village incorporated at or before the time the erection or construction of the plant is begun; or

(2) a commercially operated citrus fruit orchard planted not less than one year before the time the erection or construction of the plant is commenced.

[Acts 1977, 65th Leg., p. 2550, ch. 871, art. I, § 1, eff. Sept. 1, 1977.]

§ 88.132. Service of Process
(a) In a suit or action involving the enforcement of the conservation laws of this state or the orders of the commission affecting the conservation of the natural resources of this state, a Texas Ranger or an agent of the commission may serve civil or judicial process, citation, notice, warrant, subpoena, or writ, including process of every character in contempt proceedings, the same and as fully as a sheriff or constable of a county to whom the process, writ, notice, citation, subpoena, or warrant might be directed could within the limits of his own county.
(b) A ranger or an agent of the commission may serve the process anywhere in the State of Texas although it may be directed to “any sheriff or constable” of a particular county. He shall make the same return as any other officer, sign his name, and add under his name the title of “State Ranger” or “Agent, Railroad Commission of Texas,” as the case may be, which is sufficient to make it valid if the writ otherwise is properly prepared.
(c) No fees are allowed the rangers or agents of the commission other than their regular salary or compensation.

§ 88.133. Responsibility for Compliance and Liability to Prosecution
The president of each corporation, the chief managing executive of each association, all active members of each firm and partnership, and all trustees of each trust subject to the provisions of this chapter shall be responsible for the compliance with the terms of this chapter by the corporation, association, firm, partnership, or trust of which he is, respectively, president, chief managing executive, member, or trustee, and he shall be liable to prosecution under and subject to the criminal penalties provided in this chapter for violations of this chapter by the respective corporation, association, firm, partnership, or trust of which he has actual knowledge or to which he assents.

§ 88.134. Penalties
(a) A person who violates any of the provisions of Sections 88.091 through 88.098 of this code, or any person who fails to comply with any of the provisions of those sections, is guilty of a misdemeanor and on conviction shall be subject to a fine not more than $500, or by confinement in the county jail for not more than six months, or by both.

SUBCHAPTER A. GENERAL PROVISIONS

§ 89.001. Policy

The conservation and development of all the natural resources of this state are declared to be a public right and duty. It is also declared that the protection of water and land of the state against pollution or the escape of oil or gas is in the public interest. In the exercise of the police power of the state, it is necessary and desirable to provide additional means so that wells that are drilled for the exploration, development, or production of oil or gas, or as injection or salt water disposal wells, and that have been abandoned and are leaking salt water, oil, gas, or other deleterious substances into freshwater formations or on the surface of the land, may be plugged, replugged, or repaired by or under the authority and direction of the commission.

§ 89.002. Definitions

(a) In this chapter:

(1) “Well” means a hole drilled for the purpose of:

(A) producing oil or gas;
(B) injecting fluid or gas in the ground in connection with the exploration or production of oil or gas; or
(C) obtaining geological information by taking cores or through seismic operations.

(2) “Operator” means a person who is responsible for the physical operation and control of a well at the time the well is about to be abandoned or ceases operation.

(3) “Nonoperator” means a person who owns a working interest in a well at the time the well is about to be abandoned or ceases operation and is not an operator as defined in Subdivision (2) of this subsection.

(4) “Landowner” means the owner of the land on which the well is located at the time the well is abandoned and one who holds a mineral interest therein.

(5) “Commission” means the Railroad Commission of Texas.

(b) The terms operator and nonoperator as defined in this section do not mean a royalty interest owner or an overriding royalty interest owner.

§ 89.003. Applicability

The provisions of this chapter do not alter causes of action arising before August 30, 1965.

[Sections 89.004 to 89.010 reserved for expansion]

SUBCHAPTER B. DUTY TO PLUG WELLS

§ 89.011. Duty of Operator

The operator of a well shall properly plug the well when required and in accordance with the commission’s rules that are in effect at the time of plugging.

§ 89.012  Duty of Nonoperator

If the operator of a well fails to comply with Section 89.011 of this code, each nonoperator is responsible for his proportionate share of the cost of the proper plugging of the well within a reasonable time, according to the rules of the commission in effect at the time the responsibility attaches.

§ 89.013  Duty of Landowner

If the operator and the nonoperator fail to comply with Sections 89.011 and 89.012 of this code, respectively, each landowner is responsible for his proportionate share of the cost of proper plugging of the well within a reasonable time, according to the rules of the commission in effect at the time the responsibility attaches.

[Sections 89.014 to 89.040 reserved for expansion]

SUBCHAPTER C. POWERS AND DUTIES OF THE COMMISSION

§ 89.041  Determining Proper Plugging

If it comes to the attention of the commission that a well that has been abandoned or is not being operated is causing or is likely to cause pollution of fresh water above or below the ground or if gas or oil is escaping from the well, the commission shall determine at a hearing, after due notice, whether or not the well was properly plugged as provided in Section 89.011, Section 89.012, or Section 89.013 of this code.

§ 89.042  Commission Order to Plug

(a) If the commission finds that the well was not properly plugged, it shall order the operator to plug the well according to the rules of the commission in effect at the time the order is issued.

(b) If the operator cannot be found or is no longer in existence or has no assets with which to properly plug the well, the commission shall order the nonoperators to plug the well according to the rules of the commission in effect at the time the order is issued.

(c) If the nonoperators cannot be found or are no longer in existence or have no assets with which to properly plug the well, the commission shall order the landowners to properly plug the well according to the rules of the commission in effect at the time the order is issued.

§ 89.043  Plugging by Commission

If the commission determines at a hearing under Section 89.041 of this code that a well has not been properly plugged or needs replugging, the commission, through its employees or through a person acting as agent for the commission, may plug or replug the well if:

(1) the well was properly plugged according to rules in effect at the time the well was abandoned or ceased to be operated; or

(2) neither the operator, nonoperator, nor the landowner properly plugged the well, and

(A) neither the operator, nonoperator, nor the landowner can be found; or

(B) neither the operator, nonoperator, nor the landowner has assets with which to properly plug the well.

§ 89.044  Right to Enter on Land

The commission or its employees or agents, the operator, the nonoperator, or the landowner may enter the land of another for the purpose of plugging or replugging a well that the commission has determined, under the provisions of Section 89.041 of this code, has not been properly plugged.

§ 89.045  Liability for Damages

The commission and its employees and agents, the operator, the nonoperator, and the landowner are not liable for any damages that may occur as a result of acts done or omitted to be done by them or each of them in a good-faith effort to carry out the provisions of this chapter.

[Sections 89.046 to 89.080 reserved for expansion]

SUBCHAPTER D. COSTS OF PLUGGING WELLS

§ 89.081  Cause of Action for Disproportionate Share of Cost

If an operator, nonoperator, or landowner owns only a partial interest in the well, oil and gas, or land and the operator, nonoperator, or landowner pays a larger proportion of the cost of plugging the well than his proportionate interest in the well, oil and gas, or land, he has a cause of action against the other operators, nonoperators, or landowners for their proportionate shares of the cost of plugging.
§ 89.082. Cause of Action If Landowner Plugs
(a) If a landowner plugs or replugs a well under Section 89.013 of this code, the landowner has a cause of action against the operator and nonoperator or either of them in any court of competent jurisdiction for all reasonable costs and expenses incurred in the plugging or replugging of the well, to be secured by a lien on the interest of the operator and the nonoperator or either of them in:
   (1) the oil and gas underlying the lease on which the well is located; and
   (2) the fixtures, machinery, and equipment found or used on the lease.
(b) Notwithstanding the provisions of Subsection (a) of this section, if the landowner is responsible for the well not being plugged properly, the landowner does not have a cause of action under this chapter. [Acts 1977, 65th Leg., p. 2554, ch. 871, art. I, § 1, eff. Sept. 1, 1977.]

§ 89.083. Cause of Action If Commission Plugs
If the commission plugs a well under the provisions of Sections 89.043 through 89.044 of this code, the state has a cause of action for all reasonable expenses incurred in plugging or replugging the well according to the rules of the commission in effect at the time the well is plugged or replugged. The cause of action is:
   (1) first, against the operator, to be secured by a lien on his interest in the oil and gas in the land and his fixtures, machinery, and equipment found or used on the land where the well is located;
   (2) second, against the nonoperator at the time the well should have been plugged, to be secured by a lien on his interest in the oil and gas in the land; and
   (3) third, against the landowner, to be secured by a lien on his interest in the land. [Acts 1977, 65th Leg., p. 2555, ch. 871, art. I, § 1, eff. Sept. 1, 1977.]

§ 89.084. Money Paid Commission by Private Person
(a) The commission may accept money from private persons and use the money to plug or replug a well.
(b) Paying money to the commission is not an admission that the person paying the money is obligated to plug or replug the well. Evidence that a person has paid money to the commission is not admissible against the person in a suit in which the person's obligation to plug a well is an issue and introducing the evidence is a compulsory ground for mistrial. [Acts 1977, 65th Leg., p. 2555, ch. 871, art. I, § 1, eff. Sept. 1, 1977.]

[Sections 89.085 to 89.120 reserved for expansion]
perform for the state all the powers and duties as a member of the Interstate Oil Compact Commission.

(b) The governor may appoint an assistant representative who shall act in his stead as the official representative of the State of Texas as a member of the commission.

(c) The representative shall take the oath of office prescribed by the constitution, which shall be filed with the Secretary of State.

Application of Sunset Act

Acts 1977, 65th Leg., p. 1840, ch. 735, § 2.062, purports to add § 5a to Civil Statutes, art. 6008–1, without reference to repeal of said article by Acts 1977, 65th Leg., p. 2989, ch. 871, art. I, § 2(a)(2). As so added, § 5a reads:

"The office of Interstate Oil Compact Commissioner for Texas is subject to the Texas Sunset Act [Civil Statutes, art. 5429k]; and unless continued in existence as provided by that Act the office is abolished, and this Act expires effective September 1, 1983."

Section 3.11(e) of the Code Construction Act (Civil Statutes, art. 5429b–2) provides, in part, that the repeal of a statute by a code does not affect an amendment of the statute by the same legislature which enacted the code and that the amendment is preserved and given effect as part of the code provision.

§ 90.004. Extension

(a) The continuous extension of the Interstate Compact to Conserve Oil and Gas until September 1, 1951, by an agreement executed by the governor in the name of the State of Texas with other states currently members of the Interstate Oil Compact Commission was authorized by the legislature, subject to the approval of Congress, in:

3. Chapter 63, Acts of the 47th Legislature, Regular Session, 1941;
4. Chapter 15, Acts of the 48th Legislature, Regular Session, 1943; and

(b) The governor may execute agreements in the name of the State of Texas for the further extension of the expiration date of the Interstate Compact to Conserve Oil and Gas.

§ 90.005. Form of Agreement

The agreement to extend the Interstate Compact to Conserve Oil and Gas, which the governor is authorized to execute for the state, shall be in substance as follows:

"It is hereby agreed that the Interstate Compact to Conserve Oil and Gas executed in the City of Dallas, Texas, on the 16th day of February, 1935, and now on deposit with the Department of State of the United States, be and the same is hereby extended for a period of four (4) years from its date of expiration (September 1, 1947), this agreement to become effective when executed by any three (3) of the States of Texas, Oklahoma, California, Kansas and New Mexico, and consent thereto is given by Congress."

§ 90.006. Withdrawal From Compact

(a) The governor may determine if and when it is in the best interest of the state to withdraw from the compact as provided by its terms on 60 days' notice.

(b) If the governor determines that the state should withdraw from the compact, he has full authority to give necessary notice and take any steps necessary and proper to effect the withdrawal of the State of Texas from the compact.

§ 90.007. Text of Compact

The Interstate Compact to Conserve Oil and Gas reads as follows:

AN INTERSTATE COMPACT TO CONSERVE OIL AND GAS

ARTICLE I

This agreement may become effective within any compacting state at any time as prescribed by that state, and shall become effective within those states ratifying it whenever any three (3) of the States of Texas, Oklahoma, California, Kansas and New Mexico have ratified, and Congress has given its consent. Any oil-producing state may become a party hereto as hereinafter provided.

ARTICLE II

The purpose of this Compact is to conserve oil and gas by the prevention of physical waste thereof from any cause.

ARTICLE III

Each state bound hereby agrees that within a reasonable time it will enact laws, or if laws have
been enacted, then it agrees to continue the same in force, to accomplish within reasonable limits the prevention of:

(a) The operation of any oil well with an inefficient gas-oil ratio;

(b) The drowning with water of any stratum capable of producing oil or gas, or both oil and gas, in paying quantities;

(c) The avoidable escape into the open air or the wasteful burning of gas from a natural gas well;

(d) The creation of unnecessary fire hazards;

(e) The drilling, equipping, locating, spacing, or operating of a well or wells so as to bring about physical waste of oil or gas or loss in the ultimate recovery thereof;

(f) The inefficient, excessive, or improper use of the reservoir energy in producing any well.

The enumeration of the foregoing subjects shall not limit the scope of the authority of any state.

ARTICLE IV

Each state bound hereby agrees that it will, within a reasonable time, enact statutes, or if such statutes have been enacted then that it will continue the same in force, to provide in effect that oil produced in violation of its valid order and/or gas conservation statutes or any valid rule, order, or regulation promulgated thereunder, shall be denied access to commerce; and providing for stringent penalties for the waste of either oil or gas.

ARTICLE V

It is not the purpose of this Compact to authorize the states joining herein to limit the production of oil or gas for the purpose of stabilizing or fixing the price thereof, or create or perpetuate monopoly, or to promote regimentation, but is limited to the purpose of conserving oil and gas and preventing the avoidable waste thereof within reasonable limits.

ARTICLE VI

Each state joining herein shall appoint a representative to a Commission hereby constituted and designated as The Interstate Oil Compact Commission, the duty of which said Commission shall be to make inquiry and ascertain from time to time such methods, practices, circumstances, and conditions as may be disclosed for bringing about conservation and the prevention of physical waste of oil and gas; and at such intervals as said Commission deems beneficial it shall report its findings and recommendations to the several states for adoption or rejection.

The Commission shall have power to recommend the coordination of the exercise of the police powers of the several states within their several jurisdictions to promote the maximum ultimate recovery from the petroleum reserves of said states, and to recommend measures for the maximum ultimate recovery of oil and gas. Said Commission shall organize and adopt suitable rules and regulations for the conduct of its business.

No action shall be taken by the Commission, except: (1) by the affirmative votes of the majority of the whole number of the compacting states, represented at any meeting; and (2) by a concurring vote of a majority in interest of the compacting states at said meeting, such interest to be determined as follows: Such vote of each state shall be in the decimal proportion fixed by the ratio of its daily average production during the preceding calendar half-year to the daily average production of the compacting states during said period.

ARTICLE VII

No state by joining herein shall become financially obligated to any other state, nor shall the breach of the terms hereof by any state subject such state to financial responsibility to the other states joining herein.

ARTICLE VIII

This Compact shall expire September 1, 1937. But any state joining herein may, upon sixty (60) days notice, withdraw herefrom.

The representatives of the signatory states have signed this agreement in a single original, which shall be deposited in the archives of the Department of State of the United States, and a duly certified copy shall be forwarded to the Governor of each of the signatory states.

This Compact shall become effective when ratified and approved as provided in Article I. Any oil-producing state may become a party hereto by affixing its signature to a counterpart to be similarly deposited, certified, and ratified.

(a) Each sale, purchase, delivery, and receipt of gas by volume made in this state by, for, or on behalf of an oil and gas lease owner, royalty owner under a lease, or other mineral interest owner shall be made and the gas shall be measured, calculated, purchased, delivered, and accounted for on the basis of a standard cubic foot of gas as defined in this subchapter and determined under this subchapter.

(b) If the provisions of this subchapter operate to change the basis of measurement provided in existing contracts, the price for gas, including royalty gas, provided for in the contracts shall be adjusted to compensate for the change in the method of measuring the volume of gas delivered under the contracts if either the purchaser or seller so desires.

(b) The penalty is recoverable in the name of the state in a district court in Travis County.

(c) Each day a violation is committed constitutes a separate offense.

(d) It is a defense to a claim for the penalty that the commission has not made the findings under Section 91.055 of this code with regard to the particular field in question.

§ 91.061. Civil Suit

None of these provisions shall prevent an aggrieved person from maintaining a civil suit for damages in the county or counties in which the gas is produced.

None of the provisions of Sections 91.058 through 91.061 of this code affect or apply to purchases or sales made on any basis other than a volume basis.

SUBCHAPTER F. UNDERGROUND NATURAL GAS STORAGE AND CONSERVATION

§ 91.171. Short Title

This subchapter may be cited as the Underground Natural Gas Storage and Conservation Act of 1977. [Added by Acts 1979, 66th Leg., p. 1997, ch. 785, § 3, eff. June 13, 1979.]

§ 91.172. Declaration of Policy

The underground storage of natural gas promotes the conservation of natural gas, permits the building of reserves for orderly withdrawal in periods of peak demand, makes more readily available natural gas resources to residential, commercial, and industrial customers of this state, provides a better year-round market to the various gas fields, and promotes the public interest and welfare of this state. [Added by Acts 1979, 66th Leg., p. 1997, ch. 785, § 3, eff. June 13, 1979.]

§ 91.173. Definitions

In this subchapter:

(1) “Person” means any natural person, partnership or other combination of natural persons, corporation, group of corporations, trust, or governmental entity.

(2) “Gas utility” means a gas utility as defined in Section 3, Public Utility Regulatory Act (Article 1446c, Vernon’s Texas Civil Statutes), or Article 6050, Revised Civil Statutes of Texas, 1925, as amended.

(3) “Natural gas” means any gaseous material composed predominantly of the following hydrocarbons or mixtures thereof: methane, ethane, propane, butane (normal or isobutane), in either its original or manufactured state, or gas which has been processed to separate it into one or more of its component parts after its withdrawal from the earth.

(4) “Native gas” means:

(A) natural gas which has not previously been withdrawn from the earth; or

(B) natural gas which has been withdrawn from the storage facility, processed, and reinjected into the storage facility.

(5) “Storage facility” means any subsurface sand, stratum, or formation used or to be used for the underground storage of natural gas and all surface and subsurface rights and appurtenances necessary to the operation of a facility for the underground storage of natural gas.

(6) “Storer” means (A) a gas utility, (B) a wholly owned subsidiary of a gas utility, (C) the parent corporation of a gas utility, or (D) a wholly owned subsidiary of a parent corporation which also wholly owns a subsidiary gas utility, but a nonutility storer included in category (B), (C), or (D) must operate the storage facility pursuant to a contract with its affiliated gas utility that provides that all withdrawals of recoverable native gas reserves originally in place in any gas-bearing sand, formation, or stratum have been withdrawn from the sand, formation, or stratum.

(7) “Substantially depleted” means that at least 75 percent of the estimated volume of recoverable native gas reserves originally in place in any gas-bearing sand, formation, or stratum have been withdrawn from the sand, formation, or stratum.

(8) “Interested person” means any person who enters an appearance at the commission hearing required by Section 91.174 of this code.

§ 91.174. Findings of Commission

(a) Any storer desiring to exercise the right of eminent domain for the acquisition of a storage facility shall, as a condition precedent to the filing of its petition in the appropriate court, obtain from the commission an order finding:

(1) that the underground formation or stratum sought to be acquired is classified by the commission as a gas reservoir and is suitable for the underground storage of natural gas and that the storage of natural gas is necessary for the gas utility to provide adequate service to the public and is in the public interest;

(2) that the use of the formation or stratum as a storage facility will cause no injury to surface or underground water resources;

(3) that the formation or stratum does not contain native gas producible in paying quantities unless the recoverable volumes of native gas originally in place are substantially depleted and unless the formation or stratum has a greater value of ultimate use to the consuming public as a storage facility to ensure an adequate supply of natural gas or for the conservation of natural gas than the production of native gas which remains;

(4) the extent of the horizontal limits of the reservoir expected to be penetrated by displaced or injected gas; and

(5) that no portion of the formation or stratum sought to be acquired has been condemned or is being utilized for the injection, storage, and withdrawal of gas by others.

(b) The designation of a storage facility does not prevent any storer from instituting additional proceedings in the event it is later determined that the underground reservoir should be extended to prevent the escape, displacement, or withdrawal by others of injected gas.

§ 91.175. Commission Jurisdiction

The commission shall have jurisdiction to supervise the construction and operation of all storage facilities formed pursuant to this subchapter, and in addition to the findings required by Section 91.174 of this code, the commission shall include in any order of approval a requirement that the storer file each month, including each month prior to the time the storage facility is in operation, with the commission showing, for that month, the volume of gas injected and stored gas withdrawn from storage.

§ 91.176. Withdrawal of Native Gas

A storer may withdraw from storage injected and stored gas as market demand dictates. However, any time a storer's withdrawals from a storage facility equal the volume of gas injected for storage, the storer shall not withdraw additional gas from the storage facility without first obtaining specific authority from the commission.

§ 91.177. Storage Operations Must be Bona Fide

(a) A storer must initiate injection operations for gas storage within 12 months after the condemnation order of the court becomes final and storage operations must continue with reasonable diligence after that time.

(b) Should the monthly reports to the commission indicate that bona fide underground gas storage operations are not being conducted, the commission may, on its own motion or on motion of any interested person, schedule a public hearing, giving the storer the opportunity to show cause why the commission approval of the project should not be withdrawn.

(c) If the commission finds that the storage project is not being conducted in a bona fide manner, it shall issue an order withdrawing approval of the storage facility, and all property, both mineral and surface, that was condemned by the storer shall revert to those who owned the property at the time of condemnation or their successors.

§ 91.178. Relocation of Facilities

In the event the acquisition or operation of a storage facility acquired through the exercise of the power of eminent domain requires the relocation or alteration of any railroad, electric, telegraph, telephone, or pipeline lines or facilities, the expense of the relocation or alteration shall be borne by the storer. The expense of relocation means the actual cost incurred in providing a comparable replacement line or facility, less net salvage value from the sale or other disposition of the old facility.

§ 91.179. Appropriation of Storage Facilities; Limitations

After an order of the commission is issued approving a storage facility, a storer may condemn without further attack as to its right to condemn, any subsurface sand, stratum, or formation for the underground storage of natural gas, condemning all mineral and royalty rights as are reasonably necessary for the operation of the storage facility, subject to
§ 91.179  NATURAL RESOURCES CODE

the limitations of this subchapter, and the storer may condemn any other interests in property that may be required, including interests in the surface estate in the sand, stratum, or formation reasonably necessary to the operation of the storage facility, provided that:

(1) no part of a reservoir is subject to condemnation unless the storer has acquired by option, lease, conveyance, or other negotiated means at least 66-2/3 percent of the ownership of minerals, including working interests, and 66-2/3 percent of the ownership of the royalty interests, computed in relation to the surface area overlying the part of the reservoir which as found by the commission to be expected to be penetrated by displaced or injected gas;

(2) no dwelling, barn, store, or other building is subject to condemnation; and

(3) the right of condemnation is without prejudice to the rights of the owners or holders of other rights or interests of land to drill through the storage facility under such terms and conditions as the commission may prescribe for the purpose of protecting the storage facility against pollution or escape of natural gas and is without prejudice to the rights of the owners or holders of other rights or interests of the land to all other uses so long as those uses do not interfere with the operation of the storage facility.

§ 91.180. Institution of Condemnation Proceedings

(a) The finding by the commission that underground storage is in the public interest is binding on all persons whose property the storer has the right to condemn. After that finding of the commission, the storer has the right to condemn all of the underground storage area and any surface area required for the use and enjoyment of the storage facility.

(b) The storer shall initiate eminent domain proceedings in the court having jurisdiction in the area in which a portion of the land is situated. The petition shall set forth the purpose for which the property is sought to be acquired, a description of the sand, stratum, or formation and of the land under which it is alleged to be contained, the names of the owners as shown by the deed records of the county, and a description of all other property and rights sought to be appropriated for use in connection with the storage facility, including any parts of the surface necessary for any facilities incidental to the operation of the storage facility.

(c) The petition shall state facts showing that the storer has obtained the findings of the commission required by Section 91.174 of this code, that the storer in good faith has been unable to acquire the rights sought to be appropriated, that the storer has acquired, prior to the filing of the petition, by any means other than condemnation, at least 66-2/3 percent of the ownership of the minerals, including working interests, and 66-2/3 percent of the royalty interests of the property rights in the storage facility required for that purpose, and shall describe the surface area overlying the storage facility the storer seeks to acquire and the names of the owners of those rights and interests.

(d) Where more than one tract of land is involved, all or any tracts may be joined in one proceeding, without prejudice to the right of the storer to institute additional proceedings; provided, that the failure to make service upon a defendant does not affect the right of the storer to proceed against any or all other of the defendants upon whom service has been made.

§ 91.181. Exercise of Right of Eminent Domain

All proceedings in connection with the condemnation and acquisition of storage facilities shall be in accordance with Articles 3264 through 3271, Revised Civil Statutes of Texas, 1925, as amended, and to the extent of any conflict between those articles and this subchapter, the provisions of this subchapter prevail.

§ 91.182. Ownership of Stored Gas

All natural gas in the stratum condemned which is not native gas, and which is subsequently injected into storage facilities is personal property and is the property of the injector or its assigns, and in no event is the gas subject to the right of the owner of the surface of the land or of any mineral or royalty owner's interest under which the storage facilities lie, or of any person other than the injector to produce, take, reduce to possession, either by means of the law of capture or otherwise, waste, or otherwise interfere with or exercise any control over a storage facility. Upon failure, neglect, or refusal of the person to comply with this section, the storer has the right to compel compliance by injunction or by other appropriate relief by application to a court of competent jurisdiction.

§ 91.183. Rights of Purchasers of Native Gas

(a) In the event there are remaining reserves of native gas in the storage facility which are dedicated to a purchaser and the purchaser and storer are unable to agree on an equitable settlement of rights with respect to the remaining native gas within a period of time that will prevent interference with
the operation of the storage facility, the storer or purchaser may apply to the commission for an adjudication concerning remaining reserves of native gas.

(b) Upon application, the commission shall direct a settlement of remaining reserves of native gas that is equitable to all parties, but which does not interfere with the public benefits arising from the operation of the storage facility.

(c) In addition to any other disposition that is equitable to all parties, the commission may make a finding of the quantity of remaining recoverable native gas and an allocation of future production on a reasonable production schedule and order delivery to the purchaser by the storer of the amounts of native gas that the commission finds would have been taken by the purchaser during the term of the purchase agreement.

§ 91.184. Abandonment

(a) When a storer has permanently abandoned the storage facility, the storer shall file with the commission a notice of abandonment, and shall file an instrument in the deed records in the appropriate county or counties, stating that the storage has ceased, and that all property, both mineral and surface, condemned by the storer has reverted to those who owned the property at the time of condemnation, or their heirs, successors, or assigns.

(b) The storer shall also file in the deed records in the appropriate county or counties a list of the owners of the mineral, royalty, and surface interests to whom the various interests have reverted, together with an affidavit that the storer has compiled the list from a current examination of title records and that the list is true and correct to the best of the knowledge of the affiant.

§ 101.004. Conflict With Antitrust Acts

(a) Agreements and operations under agreements which are in accordance with the provisions in this chapter, being necessary to prevent waste and conserve the natural resources of this state, shall not be construed to be in violation of the provisions of Chapter 15, Business & Commerce Code, as amended.

(b) If a court finds a conflict between the provisions in this chapter and Chapter 15, Business & Commerce Code, as amended, the provisions in this chapter are intended as a reasonable exception to that law, necessary for the public interests stated in Subsection (a) of this section.

(c) If a court finds that a conflict exists between the provisions in this chapter and Chapter 15, Business & Commerce Code, as amended, and finds that the provisions in this chapter are not a reasonable
exception to said Chapter 15, it is the intent of the legislature that the provisions in this chapter, or any conflicting portion of them, shall be declared invalid rather than declaring Chapter 15, Business & Commerce Code, as amended, or any portion of it, invalid.

SUBCHAPTER B. COOPERATIVE AGREEMENTS IN SECONDARY RECOVERY OPERATIONS

§ 101.011. Authorized Agreements for Separately Owned Properties

Subject to the approval of the commission, as provided in this chapter, persons owning or controlling production, leases, royalties, or other interests in separate property in the same oil field, gas field, or oil and gas field may voluntarily enter into and perform agreements for either or both of the following purposes:

(1) to establish pooled units, necessary to effect secondary recovery operations for oil or gas, including those known as cycling, recycling, represuring, water flooding, and pressure maintenance and to establish and operate cooperative facilities necessary for the secondary recovery operations;

(2) to establish pooled units and cooperative facilities necessary for the conservation and use of gas, including those for extracting and separating the hydrocarbons from the natural gas or casinghead gas and returning the dry gas to a formation underlying any land or leases committed to the agreement.

§ 101.012. Persons Bound by Agreements

Agreements for pooled units and cooperative facilities do not bind a landowner, royalty owner, lessor, lessee, overriding royalty owner, or any other person who does not execute them. The agreements bind only the persons who execute them, their heirs, successors, assigns, and legal representatives. No person shall be compelled or required to enter into such an agreement.

§ 101.013. Commission Approval

(a) Agreements for pooled units and cooperative facilities are not legal or effective until the commission finds, after application, notice, and hearing:

(1) that the agreement is necessary to accomplish the purposes specified in Section 101.011 of this code;

(2) that it is in the interest of the public welfare as being reasonably necessary to prevent waste and to promote the conservation of oil or gas or both;

(3) that the rights of the owners of all the interests in the field, whether signers of the unit agreement or not, would be protected under its operation;

(4) that the estimated additional cost, if any, of conducting the operation will not exceed the value of additional oil and gas so recovered, by or on behalf of the several persons affected, including royalty owners, owners of overriding royalties, oil and gas payments, carried interests, lien claimants, and others as well as the lessees;

(5) that other available or existing methods or facilities for secondary recovery operations or for the conservation and utilization of gas in the particular area or field concerned or for both are inadequate for the purposes; and

(6) that the area covered by the unit agreement contains only that part of the field that has reasonably been defined by development, and that the owners of interests in the oil and gas under each tract of land in the area reasonably defined by development are given an opportunity to enter into the unit on the same yardstick basis as the owners of interests in the oil and gas under the other tracts in the unit.

(b) A finding by the commission that the area described in the unit agreement is insufficient or covers more acreage than is necessary to accomplish the purposes of this chapter is grounds for the disapproval of the agreement.

§ 101.014. Jointly Owned Properties

None of the provisions in this chapter shall be construed to require the approval of the commission of voluntary agreements for the joint development and operation of jointly owned property.

§ 101.015. Commission Regulation

An agreement executed under the provisions of this chapter is subject to any valid order or rule of the commission relating to location, spacing, proration, conservation, or other matters within the authority of the commission, whether adopted prior to or subsequent to the execution of the agreement.

(a) An agreement authorized by this chapter may provide for the location and spacing of input wells and for the extension of leases covering any part of land committed to the unit as long as operations for drilling or reworking are conducted on the unit or as long as production of oil or gas in paying quantities is had from any part of the land or leases committed to the unit. However, no agreement may relieve an operator from the obligation to develop reasonably the land and leases as a whole committed to the unit.

(b) An agreement authorized by this chapter may provide that the dry gas after extraction of hydrocarbons may be returned to a formation underlying any land or leases committed to the agreement and may provide that no royalties are required to be paid on the gas so returned.

[Acts 1977, 65th Leg., p. 2568, ch. 871, art. 1, § 1, eff. Sept. 1, 1977.]

### § 101.017. Prohibited Provisions

(a) No agreement authorized by this chapter may attempt to contain the field rules for the area or field, or provide for or limit the amount of production of oil or gas from the unit properties, those provisions being solely the province of the commission.

(b) No agreement authorized by this chapter may provide directly or indirectly for the cooperative refining of crude petroleum, distillate, condensate, or gas, or any by-product of crude petroleum, distillate, condensate, or gas. The extraction of liquid hydrocarbons from gas, and the separation of the liquid hydrocarbons into propanes, butanes, ethanes, distillate, condensate, and natural gasoline, without any additional processing of any of them, is not considered to be refining.

(c) No agreement authorized by this chapter may provide for the cooperative marketing of crude petroleum, condensate, distillate, or gas, or any by-products of them.

[Acts 1977, 65th Leg., p. 2569, ch. 871, art. 1, § 1, eff. Sept. 1, 1977.]

### § 101.018. Effect of Approval Outside of Unit

The approval of an agreement authorized by this chapter shall not of itself be construed as a finding that operations of a different kind or character in the portion of the field outside of the unit are wasteful or not in the interest of conservation.

[Acts 1977, 65th Leg., p. 2569, ch. 871, art. 1, § 1, eff. Sept. 1, 1977.]

[Sections 102.005 to 102.010 reserved for expansion]
§ 102.014. Productive Acreage Equal to Standard Proration Unit

(a) The commission shall not require the owner of a mineral interest, the productive acreage of which is equal to or in excess of the standard proration unit for the reservoir, to pool his interest with others unless requested by the holder of an adjoining mineral interest, the productive acreage of which is smaller than such pattern, who has not been provided a reasonable opportunity to pool voluntarily.

(b) If the conditions specified in Subsection (a) of this section exist, the commission shall pool the smaller tract with adjacent acreage on a fair and reasonable basis and may authorize a larger allowable for the unit if it exceeds the size of the standard proration unit for the reservoir.

§ 102.015. Prohibited Provisions in Operating Agreement

A pooling agreement, offer to pool, or pooling order is not considered fair and reasonable if it provides for an operating agreement containing any of the following provisions:

1. Preferential right of the operator to purchase mineral interests in the unit;
2. A call on or option to purchase production from the unit;
3. Operating charges that include any part of district or central office expense other than reasonable overhead charges; or
4. Prohibition against nonoperators questioning the operation of the unit.

§ 102.016. Notice of Hearing

On the filing of an application for pooling of interests into a unit under the provisions of this chapter, at least 30 days notice before hearing on the application shall be given to all interested parties, including notice by publication if there are unknown owners or owners whose whereabouts are unknown. The notice shall be given in the manner and form prescribed by the commission.

§ 102.017. Pooling Order

(a) After notice and hearing, all orders effecting the pooling shall be made on terms and conditions that are fair and reasonable and will afford the owner or owners of each tract or interest in the unit the opportunity to produce or receive his fair share.

(b) Each order shall:
1. Describe the land included in the unit, identifying the reservoir to which it applies;
2. Designate the location of the well; and
3. Appoint an operator for the unit.

§ 102.018. Acreage Subject to Pooling

The commission shall pool only the acreage which at the time of its order reasonably appears to lie within the productive limits of the reservoir.

[Sections 102.019 to 102.050 reserved for expansion]

SUBCHAPTER C. RIGHTS IN A POOLED UNIT

§ 102.051. Ownership of Production

(a) For the purpose of determining the portions of production owned by the persons owning interests in the pooled unit, the production shall be allocated to the respective tracts within the unit in the proportion that the number of surface acres included within each tract bears to the number of surface acres included in the entire unit.

(b) Notwithstanding the provisions in Subsection (a) of this section, if the commission finds that allocation on a surface-acreage basis does not allocate to each tract its fair share, the commission shall allocate the production so that each tract will receive its fair share, which for any nonconsenting owner shall be no less than he would receive under a surface-acreage allocation.

§ 102.052. Drilling and Completion Costs

(a) As to an owner who elects not to pay his proportionate share of the drilling and completion costs in advance, the commission shall make provision in the pooling order for reimbursement solely out of production, to the parties advancing the costs, of all actual and reasonable drilling, completion, and operating costs plus a charge for risk not to exceed 100 percent of the drilling and completion costs.

(b) If there is a dispute relative to the costs, the commission shall determine the proper costs and their allocation among working interest owners af-
§ 102.052
NATURAL RESOURCES CODE

Effect of Operations
(a) The operations on and production from any portion of a unit for which a pooling order has been entered shall be considered for all purposes the conduct of the operations on and production from each separately owned tract in the pooled unit. If a gas well on a pooled unit is shut-in, it shall be considered that the shut-in gas well is on each separately owned tract in the pooled unit.

(b) If only part of a tract is included in the unit, operations on, production from, or a shut-in gas well on the unit shall maintain an oil and gas lease on the tract as to the part excluded from the unit only if the lease would be maintained had the unit been created voluntarily under the provisions of the lease.

SUBCHAPTER D. DISSOLUTION OF UNIT

§ 102.081. Dissolved With Consent of Owners
A unit established by order of the commission under this chapter may not be modified or dissolved subsequently without the consent of all mineral owners affected, except as necessary to permit its enlargement as provided in Subchapter B of this chapter.

§ 102.082. Automatic Dissolution
A unit is automatically dissolved:
(1) one year after its effective date if no production or drilling operations have been had on the unit;
(2) six months after the completion of a dry hole on the unit; or
(3) six months after cessation of production from the unit.

§ 102.083. Termination of Pooled Lease
On termination of a lease pooled by order of the commission under authority granted by this chapter, interests covered by the lease are considered pooled as unleased mineral interests.

SUBCHAPTER E. JUDICIAL REVIEW

§ 102.111. Right to Appeal
A person affected by an order of the commission adopted under the authority of this chapter is entitled to judicial review of that order in a manner other than by trial de novo.

§ 102.112. Venue
Appeal shall be to the district court of the county in which the land or any part of the land covered by the order is located and not elsewhere, notwithstanding the provisions of Sections 85.241 through 85.243 of this code.

Section 111.001. Definitions

In this chapter:

(1) "Commission" means the Railroad Commission of Texas.

(2) "Public utility" means a person, association of persons, or corporation that owns, operates, or manages crude petroleum storage tanks or storage facilities for the public for hire, either in connection with a pipeline, pipelines, or otherwise.

Section 111.002. Common Carriers Under Chapter

A person is a common carrier subject to the provisions of this chapter if it:

A pipeline subject to the provisions of this chapter not exempt under Section 111.003 of this code, which is used in connection with the business of purchasing or purchasing and selling crude petroleum, or in the business of transporting coal in whatever form by pipeline for hire in Texas, shall be operated as a common carrier and shall be subject to the jurisdiction of the commission.

A person that is a common carrier under Subsection (5), Section 111.002 of this code must apply for and be issued a certificate of public convenience and necessity from the commission pursuant to the commission’s authority to issue certificates under Section 111.302 of this code if the commission finds after a hearing that the public convenience and necessity will be served by the construction and operation of the pipeline.

§ 111.302. Commission Authority to Issue Certificates

(a) The commission is further authorized, empowered, and directed to issue certificates of public convenience and necessity to pipeline transporting coal in whatever form or mixture for hire in Texas if the commission finds that the public convenience and necessity will be served in that existing facilities will not be able to provide the transportation as economically or efficiently as the proposed pipeline.

(b) In exercising its powers and duties under this section, the commission may not issue a permit for or attempt to regulate in any manner the condemnation, appropriation, or acquisition of surface or ground water in Texas.

(c) The commission shall not issue a permit, certificate, or any authority to any applicant whose rates and charges are not regulated by government authority, either state or federal, and that state or federal regulations insure to the public and to the ultimate electric consumer that the contracts, rates, and charges shall be just and reasonable, nondiscriminatory, and offering no preference or advantage to any person, corporation, entity, or group.

(d) The commission shall not issue a permit, certificate, or any authority to any applicant whose pipeline transporting coal in whatever form unless the pipeline transporting coal in whatever form is to be buried at least 36 inches below the surface, except in such instances in which the commission specifically exempts the 36-inch depth requirement and unless the pipeline transporting coal in whatever form conforms to all applicable state or federal regulations concerning the operation, maintenance, and construction of that same pipeline.

(e) The commission shall condition the issuance of a certificate upon the requirement that the pipeline company shall take no more than 50 feet in width of right-of-way under the power of eminent domain, except for temporary work areas adjacent to the right-of-way and then not to exceed 100 feet in width for the duration of the construction period only; and provided that any condemnation award granted under this chapter shall take into account the damages to the remainder caused by the exercise of eminent domain for the temporary work areas.

§ 111.303. Certification Procedure

(a) The coal pipeline applicant shall publish, in accordance with regulations promulgated by the commission and existing law, a notice that it has filed an application for a certificate of public convenience and necessity under this Act in a newspaper of general circulation in each county in which the project will be located. The notice shall, among other things, specify to the extent practicable the land which would be subject to the power of eminent domain.

§ 111.304. Construction of and for Right-Of-Way

(a) The pipeline company shall take no more than 50 feet in width of right-of-way under the power of eminent domain, except for temporary work areas adjacent to the right-of-way and then not to exceed 100 feet in width for the duration of the construction period only; and provided that any condemnation award granted under this chapter shall take into account the damages to the remainder caused by the exercise of eminent domain for the temporary work areas.

(b) The commission shall then conduct public hearings in areas of the state along the prospective pipeline right-of-way as it shall determine shall be necessary to give property owners an opportunity to be heard. The commission is vested with authority
to alter the right-of-way to meet with local objections.

§ 111.304. Transportation Contract

No common carrier pipeline transporting coal in whatever form shall contract or otherwise agree to transport coal for a term in excess of three years without prior approval of that contract or agreement by the commission which approval shall be given on determination that the contract or agreement is in the public interest in which case the contract or agreement shall be enforceable.

§ 111.305. Other Agencies

(a) The commission shall seek and act on the recommendations of the Texas Air Control Board, the Texas Water Quality Board, the Governor's Energy Advisory Council, or their successors responsible for environmental determinations and shall specify the proper use and disposal of nondischargeable water.

(b) Neither the authority conveyed to the commission by this subchapter to issue certificates and to promulgate rules governing pipelines transporting coal in whatever form nor the powers and duties conveyed on those pipelines by this chapter shall affect, diminish, or otherwise limit the jurisdiction and authority of the Texas Water Commission and the Texas Water Quality Board, or their successors, to regulate by applicable rules the acquisition, use, control, disposition, and discharge of water or water rights in Texas.

SUBCHAPTER A. GENERAL PROVISIONS

§ 131.001. Short Title
This chapter may be cited as the Texas Uranium Surface Mining and Reclamation Act.

§ 131.002. Declaration of Policy
The legislature finds and declares that:

(1) the extraction of minerals by surface mining operations is a basic and essential activity making an important contribution to the economic well-being of the state and nation;

(2) proper reclamation of surface-mined land is necessary to prevent undesirable land and water conditions that would be detrimental to the general welfare, health, safety, and property rights of the citizens of this state;

(3) surface mining takes place in diverse areas where the geologic, topographic, climatic, biological, and social conditions are significantly different and that reclamation operations and the specifications for reclamation operations must vary accordingly;

(4) it is not always possible to extract minerals required by our society without disturbing the surface of the earth and producing waste materials, and the very character of certain types of surface mining operations occasionally precludes complete restoration of the affected land to its original condition;

(5) unregulated surface mining may destroy or diminish the utility of land for commercial, industrial, residential, recreational, agricultural, and forestry purposes by causing erosion and landslides, by contributing to floods, by polluting the water, by destroying fish and wildlife habitats, by impairing natural beauty, by damaging the property of citizens, by creating hazards dangerous to life and property, by degrading the quality of life in local communities, and by counteracting governmental programs and efforts to conserve soil, water, and other natural resources, which results are declared to be inimical to the public interest and destructive to the public health, safety, welfare, and economy of the State of Texas;

(6) due to its unique character or location, some land within the state may be unsuitable for all or certain types of surface mining operations;

(7) reclamation of surface-mined land as provided by this chapter will allow the mining of valuable minerals in a manner designed for the protection and subsequent beneficial use of land; and

(8) the requirements of this chapter for reclamation and maintenance of affected land are necessary for the public health and safety and thus constitute a valid application of the police power of this state.

§ 131.003. Purposes
It is declared to be the purpose of this chapter:

(1) to prevent the adverse effects to society and the environment resulting from unregulated surface mining operations as defined in this chapter;

(2) to assure that the rights of surface landowners and other persons with a legal interest in the land or appurtenances to the land are protected from unregulated surface mining operations;

(3) to assure that surface mining operations are not conducted where reclamation as required by this chapter is not possible;

(4) to assure that surface mining operations are conducted in a manner that will prevent unreasonable degradation of land and water resources; and

(5) to assure that reclamation of all surface-mined land is accomplished as contemporaneously as practicable with the surface mining, recognizing that the extraction of minerals by responsible mining operations is an essential and beneficial economic activity.

[Acts 1977, 65th Leg., p. 2608, ch. 871, art. 1, § 1, eff. Sept. 1, 1977.]

§ 131.004. Definitions
In this chapter:

(1) “Minerals” means uranium and uranium ore.

(2) “Surface mining” means the mining of minerals by removing the overburden lying above the natural deposit of minerals and mining directly from the natural deposits that are exposed and those aspects of underground mining having significant effects on the surface; provided, this definition shall not be construed to include in situ mining activities associated with the removal of uranium or uranium ore.

(3) “Exploration activity” means the disturbance of the surface or subsurface for the purpose of or related to determining the location, quantity, or quality of a mineral deposit, except those exploration activities associated with the drilling of test holes or core holes that are not required by federal law.

(4) “Affected land” or “land affected” means:
(A) the area from which any materials are to be or have been displaced in a surface mining operation;
(B) the area on which any materials that are displaced are to be or have been deposited;
(C) the haul roads and impoundment basins within the surface mining area; and

(D) other land whose natural state has been or will be disturbed as a result of the surface mining operations.

(5) “Surface mining operation” means those activities conducted at or near the mining site and concomitant with the surface mining, including extraction, storage, processing, and shipping of minerals and reclamation of the land affected.

(6) “Operator” means the individual or entity, including any public or governmental agency, that is to engage or that is engaged in a surface mining operation, including any individual or entity whose permit has expired or been suspended or revoked.

(7) “Overburden” means all materials displaced in a mining operation which are not, or will not be, removed from the affected area.

(8) “Reclamation” means the process of restoring an area affected by a surface mining operation to its original or other substantially beneficial condition, considering past and possible future uses of the area and the surrounding topography.

(9) “Topsoil” means the unconsolidated mineral matter naturally present on the surface of the earth which has been subjected to and influenced by genetic and environmental factors of parent material, climate, macroorganisms and microorganisms, and topography, all acting over a period of time, and which is necessary for the growth and regeneration of vegetation on the surface of the earth.

(10) “Surface mining permit” means the written certification by the commission that the named operator may conduct the surface mining operations described in the certification during the term of the surface mining permit and in the manner established in the certification.

(11) “Person affected” means any person who is a resident of a county or any county adjacent or contiguous to the county in which a mining operation is or is proposed to be located, including any person who is doing business or owns land in the county or adjacent or contiguous county and any local government and who demonstrates that he has suffered or will suffer actual injury or economic damage.

(12) “Commission” means the Railroad Commission of Texas.

(13) “Fund” means the Land Reclamation Fund.

(14) “Toxic material” means any substance present in sufficient concentration or amount to cause injury or illness to plant, animal, or human life.
§ 131.004  NATURAL RESOURCES CODE

(15) “Approximate original contour” means that surface configuration achieved by backfilling and grading of the surface-mined area so that it resembles the surface configuration of the land prior to mining and blends into and complements the drainage pattern of the surrounding terrain, with all highwalls, spoil piles, and depressions eliminated, although the new contour may subsequently be at a moderately lower or higher elevation than existed prior to the surface mining operation.

(16) “Person” means an individual, partnership, society, jointstock company, firm, company, corporation, business organization, governmental agency, or any organization or association of citizens.

(17) “Party to the administrative proceedings” means any person who has participated in a public hearing or filed a valid petition or timely objection pursuant to any provision of this chapter.

(18) “Permit area” means all the area designated as such in the permit application and shall include all land affected by the surface mining operations during the term of the permit and may include any contiguous area that the operator proposes to surface mine after that time.

Acts 1977, 65th Leg., p. 1320, ch. 524, § 1, purported to amend subds. (2) and (5) of § 4 of Civil Statutes, art. 5920-10 [now, subds. (2) and (5) of this section], without reference to repeal of said article by Acts 1977, 65th Leg., p. 2690, ch. 871, art. 1, § 2(a)(5). Said amendment was subsequently repealed by identical provisions of Acts 1979, 66th Leg., p. 308, ch. 141, § 43, and Acts 1979, 66th Leg., p. 854, ch. 379, § 7, which provided in part that the repeal does not affect the continued validity of this section or amendments thereto made by the 66th Legislature, Regular Session, 1979.

[Sections 131.007 to 131.020 reserved for expansion]

SUBCHAPTER B. POWERS AND DUTIES OF THE COMMISSION

(2) to issue permits pursuant to the provisions of this chapter;

(3) to conduct hearings pursuant to the provisions of this chapter;

(4) to issue orders requiring an operator to take actions that are necessary to comply with this chapter and with rules adopted under this chapter;

(5) to issue orders modifying previous orders;

(6) to issue a final order revoking the permit of an operator who has failed to comply with an order of the commission to take action required from mining or any other activity that may be considered necessary to accomplish the reclamation of the land affected to a substantially beneficial condition.

[Acts 1977, 65th Leg., p. 2610, ch. 871, art. 1, § 1, eff. Sept. 1, 1977.]

§ 131.006. Exclusions and Exemptions

[Acts 1977, 65th Leg., p. 2610, ch. 871, art. 1, § 1, eff. Sept. 1, 1977.]

Acts 1977, 65th Leg., p. 1322, ch. 524, § 7, purported to amend § 5 of Civil Statutes, art. 5920-10 [now, this section], without reference to repeal of said article by Acts 1977, 65th Leg., p. 2690, ch. 871, art. 1, § 2(a)(5). Said amendment was subsequently repealed by identical provisions of Acts 1979, 66th Leg., p. 308, ch. 141, § 43, and Acts 1979, 66th Leg., p. 854, ch. 379, § 7, which provided in part that the repeal does not affect the continued validity of this section or amendments thereto made by the 66th Legislature, Regular Session, 1979.
§ 131.022. Jurisdiction of Commission

The commission is the mining and reclamation authority for the State of Texas and has exclusive jurisdiction for establishing reclamation requirements for mining operations in this state.

§ 131.023. Commission Procedure

The commission shall seek the accomplishment of the purposes of this chapter by all practicable methods.

§ 131.024. Compliance With Federal Surface Mining Laws

(a) On passage of federal surface mining legislation, the commission shall take actions necessary to establish the exclusive jurisdiction of this state over the regulation of surface mining and reclamation operations.

(b) If the federal administrative agency disapproves the regulatory program of this state as submitted, the commission shall take all necessary and appropriate action, including making recommendations for remedial legislation, to clarify, alter, or amend the program to comply with the requirements of the federal act.

§ 131.025. Hearing Procedure

At a hearing under this chapter, the commission may:

(1) administer oaths or affirmations;
(2) subpoena witnesses and compel their attendance;
(3) take evidence; and
(4) require production of books, papers, correspondence, memoranda, agreements, or other documents or records that are considered relevant or material to the administration of this chapter.

The repealed sections, relating to promulgation and filing of rules, requirement of a public hearing, notice of hearing, written comments and evidence, consideration of comments and data, duty to publish rules, and amending and repealing rules, respectively, were derived from Acts 1977, 65th Leg., p. 2612, ch. 871, art. I, § 1.

§ 131.033. Differing Terms and Provisions of Rules

A rule or an amendment of a rule adopted by the commission may differ in its terms and provisions between particular conditions, particular mining techniques, particular areas of the state, or any other conditions that appear relevant and necessary so long as the action taken is consistent with attainment of the general intent and purposes of this chapter.

§ 131.034. Exploration Activities

The commission shall promulgate rules in the manner provided in Sections 131.026 through 131.031 of this code for the conduct of exploration activities.

§ 131.035. Rules Designating Unsuitable Land
(a) The commission shall develop rules that adopt appropriate procedures for identifying and designating land in this state as unsuitable for all or certain types of surface mining in accordance with Sections 131.036 through 131.041 of this code.
(b) The rules shall be in sufficient detail to provide reasonable notice to prospective operators of areas that might be designated as unsuitable for surface mining.

§ 131.036. Survey of Land
(a) When application is made to conduct surface mining operations and before a permit is issued, the commission shall immediately have the areas to be included in the proposed permit surveyed in accordance with the requirements of Sections 131.037 and 131.038 through 131.041 of this code.
(b) In conducting the survey and in declaring various areas to be unsuitable for mining, the commission shall employ competent and scientifically sound data and information as the basis for objective decisions on areas to be unsuitable for surface mining.

§ 131.037. Commission Statement
Before designating a land area as unsuitable for surface mining operations, the commission shall prepare a detailed statement on the potential mineral and other resources in the area, the demand for these resources, and the impact of the designation on the environment, the economy, and the supply of the mineral.

§ 131.038. Reasons for Unsuitable Designation
After the survey is made, an area may be designated unsuitable for all or certain types of surface mining if:

(1) the commission determines that reclamation under this chapter is not feasible;
(2) the operations will result in significant damage to important areas of historic, cultural, or archaeological value or to important natural systems;
(3) the operations will affect renewable resource land that includes aquifers and aquifer recharge areas, resulting in a substantial loss or reduction of long-range productivity of water supply or food or fiber products;
(4) the operations are located in an area subject to frequent flooding or an area that is geologically unstable and may reasonably be expected to endanger life and property;
(5) the operations will adversely affect any national park, national monument, national historic landmark, property listed on the national register of historic places, national forest, national wilderness area, national wildlife refuge, national wild and scenic river area, state park, state wildlife refuge, state forest, recorded Texas historic landmark, state historic site, state archaeological landmark, or city or county park;
(6) the operations would endanger any public road, public building, cemetery, school, church, or similar structure or existing dwelling outside the permit area.

§ 131.039. Petition and Hearing on Designation
(a) Any person is entitled to petition the commission to have an area designated as unsuitable for surface mining operations or to have the designation terminated.
(b) The petition shall include allegations of facts with supporting evidence that in the opinion of the commission would tend to establish the allegations.
(c) The commission shall make a determination of the validity of the petition, and if the petition is found to be valid, it shall be kept on file by the commission and made available for public inspection.
(d) On application for a surface mining permit for which a valid petition has been filed, the commission shall hold a public hearing as provided in Section 131.163 of this code in the locality of the proposed mining operation.
(e) Any person affected may intervene before the public hearing by filing allegations of facts with supporting evidence that would tend to establish the allegations.
(f) If all the petitioners and the applicant stipulate agreement before the requested hearing, the hearing does not have to be held.

§ 131.040. Modifying, Amending, and Terminating Designations
The commission may modify, amend, or terminate a designation pursuant to the requirements of Sections 131.035 through 131.039 of this code.

§ 131.041. Applicability of Subchapter
The provisions of Sections 131.035 through 131.040 of this code do not apply to land on which surface mining operations were being conducted on June 21, 1975.

§ 131.042. Records, Reports, Monitoring Equipment, and Information

The commission shall require each permittee to:

(1) establish and maintain appropriate records;
(2) make reports as frequently as the commission may prescribe;
(3) install, use, and maintain necessary monitoring equipment for observing and determining relevant surface or subsurface effects of the mining operation and reclamation program; and
(4) provide other information relative to mining and reclamation operations the commission determines to be reasonable and necessary.

§ 131.043. Inspection by Commission

Without advance notice and on presentation of appropriate credentials to the operation supervisor, if present, the authorized representatives of the commission are entitled to enter in, on, or through a surface mining operation or premises in which any records required under Section 131.042 of this code are located, and may at reasonable times and without delay have access to and copy any records and inspect monitoring equipment or methods of operation required under this chapter.

§ 131.044. Time and Procedures for Inspections

(a) The inspections by the commission shall occur on an irregular basis at a frequency necessary to insure compliance with the intent and purposes of this chapter and the commission's rules for the surface mining and reclamation operations covered by each permit.

(b) The inspections shall occur only during normal operating hours if practicable and without prior notice to the permittee or his agents or employees.

(c) An inspection shall include the filing of an inspection report adequate to enforce the requirements of and to carry out the terms and purposes of this chapter. The commission shall make each report a part of the record and furnish one copy of the report to the operator.

(d) Insofar as practicable, the commission shall establish a system of rotation of inspectors.

§ 131.045. Sign

Each permittee shall maintain at the entrances to the surface mining and reclamation operations a clearly visible sign that sets forth the name, business address, and phone number of the permittee and the permit number of the surface mining and reclamation operations.

§ 131.046. Procedure on Detection of Violation

On detection of each violation of a requirement of this chapter, each inspector shall inform the operator of the violation orally at the time of the detection and in writing at a later time and shall report the violation in writing to the commission.

§ 131.047. Judicial Review

(a) Any party to the administrative proceedings whose interest is or may be adversely affected by a ruling, order, decision, or other act of the commission may appeal by filing a petition in a district court of Travis County or in the county in which the greater portion of the land in question is located.

(b) The plaintiff shall pursue his action with reasonable diligence, and if the plaintiff does not prosecute his action within one year after the action is filed, the court shall presume that the action has been abandoned. The court shall dismiss the suit on a motion for dismissal made by the attorney general unless the plaintiff, after receiving due notice, can show good and sufficient cause for the delay.

(c) The court shall hear the complaint solely on the record made before the commission. The findings of the commission, if supported by substantial evidence on the record considered as a whole, shall be upheld.

(d) The court may, under conditions it may prescribe, grant temporary relief that it considers appropriate pending final determination of the proceedings.

(e) The commencement of a proceeding under this section shall not, unless specifically ordered by the court, operate as a stay of the action, order, or decision of the commission.

(f) Any action arising under this chapter shall be given precedence by the court over cases of a different nature.

§ 131.048. Confidentiality

Information submitted to the commission concerning mineral deposits, test borings, core samplings, or trade secrets or privileged commercial or financial information relating to the competitive rights of the applicant and specifically identified as confidential by the applicant, if not essential for public review as determined by the commission, shall not be disclosed by any member, agent, or employee of the commission.

§ 131.049. Temporary Orders Prior to Notice and Hearing

(a) The commission may issue temporary orders relating to a surface mining operation without notice and hearing, or with the notice and hearing as the commission considers practical under the circumstances, when necessary to enable action to be taken more expeditiously than is otherwise provided by this chapter to effectuate the policy and purposes of this chapter.

(b) If the commission issues a temporary order under this authority without a hearing, and if the subject matter of the order is such as to require a public hearing under Section 131.163 of this code or under any rule of the commission, the order shall set a time and place for a public hearing to be held. The hearing shall be held as soon after the temporary order is issued as is practical.

(c) At the hearing, the commission shall affirm, modify, or set aside the temporary order. If the nature of the commission's action requires, further proceedings shall be conducted as appropriate under provisions of the Administrative Procedure and Texas Register Act, as amended (Article 6252-13a, Vernon's Texas Civil Statutes).

(d) The requirements of Sections 131.159 and 131-160 of this code relating to the time for notice, newspaper notice, and method of giving a person notice do not apply to the hearing, but general notice of the hearing shall be given that the commission considers practical under the circumstances.

SUBCHAPTER C. PLANS AND STANDARDS

§ 131.101. Reclamation Plan

(a) A reclamation plan shall be developed in a manner consistent with local, physical, environmental, and climatological conditions and current mining and reclamation technologies.

(b) A reclamation plan submitted as part of a permit application shall include:

(1) the identification of the entire area to be mined and affected over the estimated life of the mining operation;

(2) the condition of the land to be covered by the permit prior to any mining, including:

(A) the uses existing at the time of the application, and if the land has a history of previous mining, the uses, if reasonably ascertainable, that immediately preceded any mining; and

(B) the capability of the land prior to any mining to support a variety of uses giving consideration to soil and foundation characteristics, topography, and vegetative cover;

(3) the capacity of the land to support its anticipated use following reclamation, including a discussion of the capacity of the reclaimed land to support alternative uses;

(4) a description of how the proposed post-mining land condition is to be achieved and the necessary support activities that may be needed to achieve the condition, including an estimate of the cost per acre of the reclamation;

(5) the steps taken to comply with applicable air and water quality and water rights laws and regulations and any applicable health and safety standards, including copies of any pertinent permit applications;

(6) a general timetable that the operator estimates will be necessary for accomplishing the major events included in the reclamation plan; and

(7) other information the commission, by rule, determines to be reasonably necessary to effectuate the purposes of this chapter.

(c) The operator may revise or amend the reclamation plan at any time in accordance with the requirements of this code.

[Acts 1977, 66th Leg., p. 3616, ch. 871, art. 1, § 1, eff. Sept. 1, 1977.]

§ 131.102. Reclamation Standards

(a) A permit issued under this chapter to conduct surface mining operations shall require that the surface mining operations meet all applicable reclamation standards of this chapter and any other requirements that the commission establishes by rule.

(b) Reclamation standards shall apply to all surface mining and reclamation operations that are not exempted or excluded and shall require the operator as a minimum to:

(1) conduct surface mining operations in a manner consistent with prudent mining practice, so as to maximize the utilization and conservation of the resource being recovered so that reaffecting the land in the future through surface mining can be minimized; and

(2) restore the land affected to the same or a substantially beneficial condition considering the present and past uses of the land, so long as the condition does not present any actual or probable hazard to public health or safety or pose an actual or probable threat of water diminution or pollution, and the permit applicants' declared anticipated land use following reclamation is not considered to be impractical or unreasonable, to involve unreasonable delay in imple-
mentation, or to violate federal, state, or local law, provided that a variety of postmining land conditions that differ from the land condition immediately preceding the surface mining operation, including but not limited to stock ponds, fishing or recreational lakes, school or park sites, industrial, commercial, or residential sites, or open space uses, may be approved by the commission if the proposed condition is determined to be substantially beneficial and complies with the provisions of this section;

(3) reduce all highwalls, spoil piles, and banks to a degree to control erosion effectively and sufficiently to sustain vegetation, where required, consistent with the anticipated subsequent use of the affected land, provided that backfilling, compacting, and grading shall be required to restore the approximate original contour where required by federal law and where the volume of overburden is large in comparison to the volume of mineral deposit and the commission considers the requirement to be practical;

(4) stabilize and protect all surface areas affected by the mining and reclamation operation effectively to control erosion and attendant air and water pollution;

(5) remove the topsoil, if any, from the land in a separate layer, replace it on the backfill area, or if not utilized immediately, segregate it in a separate pile from other spoil and when the topsoil is not replaced on a backfill area within a time short enough to avoid deterioration of the topsoil, maintain a successful cover by quick growing plants or other means so that the topsoil is preserved from wind and water erosion, remains free of any contamination by toxic material, and is in a usable condition for sustaining vegetation when restored during reclamation, except if topsoil is of insufficient quantity or of poor quality for sustaining vegetation and if other strata can be shown to be as suitable for vegetation requirements, then the operator shall remove, segregate, and preserve in a like manner the other strata which is best able to support vegetation, provided that the requirements of this provision shall not apply if a mixing of strata can be shown to be equally suitable for revegetation requirements;

(6) replace the topsoil or the best available subsoil, if any, on top of the land to be reclaimed;

(7) fill any auger holes with an impervious material in order to prevent drainage;

(8) minimize the disturbances to the prevailing hydrologic balance at the mine site and in associated offsite areas and to the quality and quantity of water in surface and groundwater systems both during and after surface mining operations and during reclamation by:

(A) avoiding toxic mine drainage by such measures as:

(i) preventing or removing water from contact with toxic-producing deposits,

(ii) treating drainage to reduce toxic content,

(iii) easing, sealing, or otherwise managing boreholes, shafts, and wells to keep toxic drainage from entering ground and surface water;

(B) conducting surface mining operations in a manner to prevent unreasonable additional contributions of suspended solids to streamflow or runoff outside the permit area above natural levels under seasonal flow conditions;

(C) removing temporary or large siltation structures from drainways consistent with good water conservation practices after disturbed areas are revegetated and stabilized; or

(D) other actions as the commission may prescribe pursuant to its rules;

(9) stabilize any waste piles;

(10) refrain from surface mining in proximity to active and abandoned underground mines in which mining would cause breakthroughs or would endanger the health or safety of miners;

(11) incorporate with respect to the use of impoundments for the disposal of mine wastes, processing wastes, or other liquid or solid wastes current engineering practices for the design and construction of water retention facilities which, at a minimum, shall be compatible with the requirements of Section 6.0731, Water Code, and applicable federal laws, ensure that leachate will not pollute surface or groundwater, and locate impoundments so as not to endanger public health and safety should failure occur;

(12) ensure that all debris, toxic materials, or materials constituting a fire hazard are treated or disposed of in a manner designed to prevent contamination of ground or surface water or combustion;

(13) ensure that any explosives are used only in accordance with existing state and federal law and rules promulgated by the commission;

(14) ensure that all reclamation efforts proceed as contemporaneously as practicable with the surface mining operations;

(15) ensure that construction, maintenance, and postmining conditions of access roads into and across the site of operations will minimize erosion and siltation, pollution of air and water, damage to fish or wildlife or their habitat, or

NATURAL RESOURCES CODE

public or private property, provided that the commission may permit the retention of certain access roads if compatible with the approved reclamation plan;

(16) refrain from the construction of roads or other access ways up a streambed or drainage channel or in proximity to such channel where such construction would seriously alter the normal flow of water;

(17) establish on all affected land, where required in the approved reclamation plan, a diverse vegetative cover native to the affected land where vegetation existed prior to mining and capable of self-regeneration and plant succession equal in extent of cover to the natural vegetation of the area, except that introduced species may be used in the revegetation process where desirable or necessary to achieve the approved reclamation plan;

(18) assume responsibility for successful revegetation for a period of four years beyond the first year in which the vegetation has been established as evidenced by the land being used as anticipated in the reclamation plan;

(19) ensure with respect to permanent impoundments of water as part of the approved reclamation plan that:

(A) the size of the impoundment and the availability of water are adequate for its intended purpose;

(B) the impoundment dam construction will meet the requirements of Section 6.0731, Water Code, and applicable federal laws;

(C) the quality of impounded water will be suitable on a permanent basis for its intended use and the discharges from the impoundment will not degrade the water quality in the receiving stream;

(D) final grading will provide adequate safety and access for anticipated water users; and

(E) the water impoundments will not result in the diminution of the quality or quantity of water utilized by adjacent or surrounding landowners for agricultural, industrial, recreational, or domestic uses; and

(20) meet other criteria pursuant to the commission's rules as are necessary to achieve reclamation in accordance with the purposes of this chapter, taking into consideration the physical, climatological, and other characteristics of the site.

The purpose of this section is to have land affected restored to the same condition as the land that existed enjoyed before the mining or some substantially beneficial condition.

(d) A method of reclamation other than that provided in this section may be approved by the commission after public hearing if the commission determines that any method of reclamation required by this section is not practical and that the alternative method will provide for the affected land to be restored to a substantially beneficial condition.

(e) If an alternative method of reclamation is generally applicable to all surface mining operations involving a particular mineral, the commission shall promulgate rules in the manner provided in Section 131.033 of this code.

(f) The operator is entitled to access to the land affected to the extent necessary to carry out the reclamation and maintenance required under this chapter.

SUBCHAPTER D. SURFACE MINING PERMITS

§ 131.131. Permit Required for Operation

(a) No person shall conduct a surface mining operation unless he first obtains a surface mining permit issued by the commission under this subchapter; provided, any operator conducting a surface mining operation in this state before September 20, 1976, who has filed a permit application pursuant to this chapter, may continue to conduct that surface mining operation until the commission approves or denies his application.

(b) An operator who was conducting a surface mining operation in this state after the expiration of 180 days following the promulgation of the initial rules under Section 131.026 of this code and who has filed a permit application in accordance with the provisions of this subchapter may continue to conduct the surface mining operation until the commission approves or denies his application.

Only one independent estimate need be submitted if the applicant waives his right to submit an estimate.

Liability under the bond shall be for the duration of surface mining and reclamation operations and

[Acts 1977, 65th Leg., p. 2627, art. I, § 1, eff. Sept. 1, 1977.]

§ 131.208. Application for Release of Performance Bond or Deposit

3. the probability of continuance or future occurrence of pollution; and

§ 131.211. Basis for Release of Bond or Deposit

The commission may release in whole or part the bond or deposit if it is satisfied that reclamation covered by the bond or deposit or a portion of the bond or deposit has been accomplished as required by this chapter according to the following schedule:

1. when the operator completes required backfilling, regrading, and drainage control of a bonded area as provided in his approved recla-
mation plan, the commission may authorize the release of up to 75 percent of the bond or substitute collateral for the applicable permit area, provided the amount of the unreleased portion of the bond or substitute collateral is not less than the amount necessary to assure completion of the reclamation work by a third party in the event of forfeiture; and

(2) when the operator has successfully completed the remaining reclamation activities, but not before the expiration of the period specified for operator responsibility in Section 131.102 of this code, the commission may release the remaining portion of the bond or substitute collateral, provided that no bond is fully released until all reclamation requirements of this chapter are fully met.

§ 131.212. Disapproval of Application for Bond or Deposit Release

(b) The objections must be filed with the commission within 30 days after the last publication of notice as provided in Section 131.209 of this code.

§ 131.261. Conditions, Practices, and Violations Creating Imminent Danger or Causing Imminent Harm

(a) On the basis of any inspection, if the commission or its authorized representative or agent determines that a condition or practice exists or that a permittee is in violation of a requirement of this chapter or a permit condition required by this chapter, and that this condition, practice, or violation also creates an imminent danger to the health or safety of the public or is causing or reasonably expected to cause significant imminent harm to land, air, or water resources, a member of the commission shall immediately order a cessation of surface mining operations on the portion of the area relevant to the condition, practice, or violation.

(b) The cessation order shall set a time and place for a hearing to be held before the commission and shall be held as soon after the order is issued as is practicable.

(c) The requirements of Section 131.159 of this code relating to time for notice, newspaper notice, and method of giving notice do not apply to a hearing under this section, but general notice shall be given in the manner that the commission judges to be practicable under the circumstances.

(d) No more than 24 hours after the commencement of the hearing and without adjournment, the commission shall affirm, modify, or set aside the order. [Acts 1977, 65th Leg., p. 2630, ch. 871, art. I, § 1, eff. Sept. 1, 1977.]

§ 131.262. Violations Not Creating Imminent Danger or Causing Imminent Harm

(a) On the basis of an inspection, if the commission or its authorized representative or agent determines that a permittee is in violation of a requirement of this chapter or a permit condition required by this chapter, but the violation does not create an imminent danger to the health or safety of the public or is not causing or reasonably expected to cause significant imminent harm to land, air, or water resources, the commission shall issue a notice to the permittee or his agent setting a reasonable time not to exceed 30 days for the abatement of the violation.

(b) If, on expiration of the period of time as originally set or subsequently extended, for good cause shown, and on written finding of the commission, the commission finds that the violation has not been abated, it may order a cessation of surface mining operations on the portion of this area relevant to the violation. However, if requested by the operator, a hearing must be held prior to a commission finding or order.

(c) The cessation order shall remain in effect until the commission determines that the violation has been abated or until modified, vacated, or terminated by the commission under Section 131.263 of this code. [Acts 1977, 65th Leg., p. 2631, ch. 871, art. I, § 1, eff. Sept. 1, 1977.]

§ 131.263. Continuous Violations

(a) On the basis of an inspection, if the commission has reason to believe that a pattern of violations of any requirements of this chapter or any permit conditions required by this chapter exists or has existed, and if the commission also finds that these violations are caused by the unwarranted failure of the permittee to comply with requirements of this chapter or permit conditions or that the violations are wilfully caused by the permittee, the commission shall issue an order to the permittee forthwith to show cause as to why the permit should not be suspended or revoked.

(b) The order shall set a time and place for a public hearing to be held in accordance with the notice and procedural requirements of Sections 131-159 through 131.164 of this code.

(c) On failure of a permittee to show cause why the permit should not be suspended or revoked, the commission shall promptly suspend, or revoke the permit. [Acts 1977, 65th Leg., p. 2631, ch. 871, art. I, § 1, eff. Sept. 1, 1977.]

(b) The action shall be brought in a district court in Travis County or in the county in which the greater portion of the surface mining and reclamation operation is located.

(c) The court has jurisdiction to provide the relief that is appropriate, and relief granted by the court to enforce Subdivision (1) of Subsection (a) of this section shall continue in effect until the completion or final termination of all proceedings for review of the order under this chapter unless before that time the district court granting the relief sets the order aside or modifies it.

§ 131.266. Injunctive Relief and Civil Penalty

(a) The commission may have a civil suit instituted for injunctive relief to restrain a permittee from continuing a violation or threatening a violation or for the assessment of a civil penalty of not more than $5,000 as the court considers proper for each day of violation, or for both.

(b) In determining the amount of the civil penalty, consideration shall be given to:

(1) the permittee's history of previous violations under this chapter;

(2) the appropriateness of the penalty to the size of the business of the permittee;

(3) the seriousness of the violation, including irreparable harm to the environment and hazard to the health or safety of the public;

CHAPTER 132. INTERSTATE MINING COMPACT

§ 132.001. Adoption of Compact
The Interstate Mining Compact is enacted into law and entered into with all other jurisdictions legally joining in the compact in the form provided in Section 132.002 of this code.

Application of Sunset Act
Acts 1977, 65th Leg., p. 1841, ch. 735, § 2.063, purports to add § 1a to Acts 1975, 64th Leg., ch. 136 [now, this Chapter], without reference to repeal of said Act by Acts 1977, 65th Leg., p. 2690, ch. 871, art. I, § 2(a)(3). As so added, § 1a reads:

"The office of Interstate Mining Compact Commissioner for Texas is subject to the Texas Sunset Act [Civil Statutes, art. 5429k]; and unless continued in existence as provided by that Act the office is abolished, and this Act expires effective September 1, 1983."

Section 3.11(c) of the Code Construction Act (Civil Statutes, art. 5429b–2) provides, in part, that the repeal of a statute by a code does not affect an amendment of the statute by the same legislature which enacted the code and that the amendment is preserved and given effect as part of the code provision.

§ 132.002. Text of Compact
The Interstate Mining Compact reads as follows:

INTERSTATE MINING COMPACT

ARTICLE I. FINDINGS AND PURPOSES
(a) The party states find that:
(1) Mining and the contributions thereof to the economy and well-being of every state are of basic significance.

(2) The effects of mining on the availability of land, water, and other resources for other uses present special problems which properly can be approached only with due consideration for the rights and interests of those engaged in mining, those using or proposing to use these resources for other purposes, and the public.

(3) Measures for the reduction of the adverse effects of mining on land, water, and other resources may be costly and the devising of means to deal with them are of both public and private concern.

(4) Such variables as soil structure and composition, physiography, climatic conditions, and the needs of the public make impracticable the application to all mining areas of a single standard for the conservation, adaptation, or restoration of mined land, or the development of mineral and other natural resources, but justifiable requirements of law and practice relating to the effects of mining on land, water, and other resources may be reduced in equity or effectiveness unless they pertain similarly from state to state for all mining operations similarly situated.

(5) The states are in a position and have the responsibility to assure that mining shall be conducted in accordance with sound conservation principles and with due regard for local conditions.

(b) The purposes of this compact are to:
(1) advance the protection and restoration of land, water, and other resources affected by mining;

(2) assist in the reduction or elimination or counteracting of pollution or deterioration of land, water, and air attributable to mining;

(3) encourage, with due recognition of relevant regional, physical, and other differences, programs in each of the party states which will achieve comparable results in protecting, conserving; and improving the usefulness of natural resources, to the end that the most desirable conduct of mining and related operations may be universally facilitated;

(4) assist the party states in their efforts to facilitate the use of land and other resources affected by mining, so that such use may be consistent with sound land use, public health, and public safety, and to this end to study and recommend, wherever desirable, techniques for the improvement, restoration, or protection of such land and other resources;

(5) assist in achieving and maintaining an efficient and productive mining industry and in increasing economic and other benefits attributable to mining.
ARTICLE II. DEFINITIONS

As used in this compact, the term:

(a) “Mining” means the breaking of the surface soil in order to facilitate or accomplish the extraction or removal of minerals, ores, or other solid matter, any activity or process constituting all or part of a process for the extraction or removal of minerals, ores, and other solid matter from its original location, and the preparation, washing, cleaning, or other treatment of minerals, ores, or other solid matter so as to make them suitable for commercial, industrial, or construction use; but shall not include those aspects of deep mining not having significant effect on the surface, and shall not include excavation or grading when conducted solely in aid of on-site farming or construction.

(b) “State” means a state of the United States, the District of Columbia, the Commonwealth of Puerto Rico, or a territory or possession of the United States.

ARTICLE III. STATE PROGRAMS

Each party state agrees that within a reasonable time it will formulate and establish an effective program for the conservation and use of mined land, by the establishment of standards, enactment of laws, or the continuing of the same in force, to accomplish:

(a) the protection of the public and the protection of adjoining and other landowners from damage to their land and the structures and other property thereon resulting from the conduct of mining operations or the abandonment or neglect of land and property formerly used in the conduct of such operations;

(b) the conduct of mining and the handling of refuse and other mining wastes in ways that will reduce adverse effects on the economic, residential, recreational, or aesthetic value and utility of land and water;

(c) the institution and maintenance of suitable programs of adaptation, restoration, and rehabilitation of mined land;

(d) the prevention, abatement, and control of water, air, and soil pollution resulting from mining, present, past, and future.

ARTICLE IV. POWERS

In addition to any other powers conferred on the Interstate Mining Commission established by Article V of this compact, such commission shall have power to:

(a) study mining operations, processes, and techniques for the purpose of gaining knowledge concerning the effects of such operations, processes, and techniques on land, soil, water, air, plant and animal life, recreation, and patterns of community or regional development or change;

(b) study the conservation, adaptation, improvement, and restoration of land and related resources affected by mining;

(c) make recommendations concerning any aspect or aspects of law or practice and governmental administration dealing with matters within the purview of this compact;

(d) gather and disseminate information relating to any of the matters within the purview of this compact;

(e) cooperate with the federal government and any public or private entities having interest in any subject coming within the purview of this compact;

(f) consult, on the request of a party state and within resources available therefor, with the officials of such state in respect to any problem within the purview of this compact;

(g) study and make recommendations with respect to any practice, process techniques, or course of action that may improve the efficiency of mining or the economic yield from mining operations;

(h) study and make recommendations relating to the safeguarding of access to resources which are or may become the subject of mining operations to the end that the needs of the economy for the products of mining may not be adversely affected by unplanned or inappropriate use of land and other resources containing minerals or otherwise connected with actual or potential mining sites.

ARTICLE V. THE COMMISSION

(a) There is hereby created an agency of the party states to be known as the “Interstate Mining Commission,” hereinafter called “the commission.” The commission shall be composed of one commissioner from each party state who shall be the governor thereof. Pursuant to the laws of his party state, each governor shall have the assistance of any advisory body (including membership from mining industries, conservation interests, and such other public and private interests as may be appropriate) in considering problems relating to mining and in discharging his responsibilities as the commissioner of his state on the commission. In any instance where a governor is unable to attend a meeting of the commission or perform any other function in connection with the business of the commission, he shall designate an alternate, from among the members of the advisory body required by this paragraph, who shall represent him and act in his place and stead. The designation of an alternate shall be communicated by the governor to the commission in such manner as its bylaws may provide.
§ 132.002  NATURAL RESOURCES CODE

(b) The commissioners shall be entitled to one vote each on the commission. No action of the commission making a recommendation pursuant to Articles IV(c), IV(g), and IV(h) of this compact, or requesting, accepting, or disposing of funds, services, or other property pursuant to this paragraph or Article V(g), V(h), or VII of this compact, shall be valid unless taken at a meeting at which a majority of the total number of votes on the commission is cast in favor thereof. All other action shall be by a majority of those present and voting; provided that action of the commission shall be only at a meeting at which a majority of the commissioners, or their alternates, is present. The commission may establish and maintain such facilities as may be necessary for the transacting of its business. The commission may acquire, hold, and convey real and personal property and any interest therein.

(c) The commission shall have a seal.

(d) The commission shall elect annually, from among its members, a chairman, a vice-chairman, and a treasurer. The commission shall appoint an executive director and fix his duties and compensation. Such executive director shall serve at the pleasure of the commission. The executive director, the treasurer, and such other personnel as the commission shall designate shall be bonded. The amount or amounts of such bond or bonds shall be determined by the commission.

(e) Irrespective of the civil service, personnel, or other merit system laws of any of the party states, the executive director with the approval of the commission, shall appoint, remove, or discharge such personnel as may be necessary for the performance of the commission's functions, and shall fix the duties and compensation of such personnel.

(f) The commission may establish and maintain independently or in conjunction with a party state, a suitable retirement system for its employees. Employees of the commission shall be eligible for social security coverage in respect of old age and survivor's insurance provided that the commission takes such steps as may be necessary pursuant to the laws of the United States, to participate in such program of insurance as a governmental agency or unit. The commission may establish and maintain or participate in such additional programs of employee benefits as it may deem appropriate.

(g) The commission may borrow, accept, or contract for the services of personnel from any state, the United States, or any other governmental agency, or from any person, firm, association, or corporation, and may receive, utilize, and dispose of the same. Any donation or grant accepted by the commission pursuant to this paragraph or services borrowed pursuant to Paragraph (g) of this article shall be reported in the annual report of the commission. Such report shall include the nature, amount, and conditions, if any, of the donation, grant, or services borrowed and the identity of the donor or lender.

ARTICLE VI. ADVISORY, TECHNICAL, AND REGIONAL COMMITTEES

§ 1.001. Purpose of Code

(a) This code is enacted as a part of the state's continuing statutory revision program, begun by the Texas Legislative Council in 1963 as directed by the legislature in Chapter 488, Acts of the 58th Legislature, 1963 (Article 5429b-1, Vernon's Texas Civil Statutes). The program contemplates a topic-by-topic revision of the state's general and permanent statute law without substantive change.

(b) Consistent with the objectives of the statutory revision program, the purpose of this code is to make the general and permanent parks and wildlife law more accessible and understandable by:

1. Rearranging the statutes into a more logical order;
2. Employing a format and numbering system designed to facilitate citation of the law and to accommodate future expansion of the law;
3. Eliminating repealed, duplicative, unconstitutional, expired, executed, and other ineffective provisions; and
4. Restating the law in modern American English to the greatest extent possible.

[Acts 1975, 64th Leg., p. 1405, ch. 545, § 1, eff. Sept. 1, 1975.]

§ 24.001 PARKS AND WILDLIFE CODE

potentials of areas for adequate parks, recreational, and open space opportunities.

(7) "Federal rehabilitation and recovery grants" means matching grants made by the United States to or for political subdivisions for the purpose of rebuilding, remodeling, expanding, or developing existing outdoor or indoor parks, recreational, or open space areas and facilities, including improvements in park landscapes, buildings, and support facilities.

(8) "Fund" means the Texas local parks, recreation, and open space fund.

§ 24.002. Fund Established
The Texas local parks, recreation, and open space fund is established in the state treasury.

§ 24.003. Use of Fund
Appropriations from the fund may be used only for assistance grants under Section 24.004 of this code, direct grants under Section 24.005 of this code, and the uses permitted under Section 24.006 of this code.

§ 24.004. Assistance Grants
(a) The department may make grants of money from the fund to a political subdivision in an urban area for use by the political subdivision as all or part of the subdivision's required share of funds for eligibility for receiving a federal rehabilitation and recovery grant.

(b) In order to receive a grant under this section, the political subdivision seeking the federal grant shall apply to the department for the grant and present evidence that the political subdivision qualifies for the federal grant.

(c) A grant under this section is conditioned on the political subdivision qualifying for and receiving the federal grant.

§ 24.005. Direct State Matching Grants
(a) The department may make grants of money from the fund to a political subdivision in an urban area to provide one-half of the costs of the planning, acquisition, or development of a park, recreational area, or open space area in an urban area to be owned and operated by the political subdivision.

(b) In establishing the program of grants under this section, the department shall adopt those allocation formulas, conditions for fund uses, and other procedural requirements, to the extent not inconsistent with this chapter, as are provided for the land and water conservation fund established by Section 4601-4, Title 16, United States Code, and the rules and regulations for grant assistance made from that fund.

(c) Money granted to a political subdivision under this section may not be used for the operation and maintenance of parks, recreational areas, and open space areas.

§ 24.006. Acquisition and Development of State Parks
The department may acquire and develop in an urban area a state park, recreational area, open space area, or natural area with money appropriated from the fund.

§ 24.007. Fund Use to be Consistent With Plans
No grant may be made under Section 24.005 of this code nor may fund money be used under Section 24.006 of this code unless:

(1) there is a present or future need for the acquisition and development of the property for which the grant is requested or the use is proposed;

(2) the acquisition and development is consistent with the local parks, recreational, and open space plan and the Texas outdoor recreation plan; and

(3) a written statement is obtained from the regional planning commission having jurisdiction of the area in which the property is to be acquired and developed that the acquisition and development is consistent with the local parks, recreational, and open space plan most closely reflecting local needs.

§ 24.008. Acquisition of Property
(a) No property may be acquired with grant money made under this chapter or by the department under this chapter if the purchase price exceeds the fair market value of the property as determined by two independent appraisers.

(b) A political subdivision may qualify for assistance in acquiring property in advance of actual need for development if presented with the opportunity to do so.

(c) Property may be acquired with provision for a life tenancy if that provision facilitates the orderly and expedient acquisition of the property.
(d) Property that is not to be developed for recreational use for several years may be leased back to the owner if the lessee's use of the property will not impair the character of the property for the park, recreational, or open space purpose for which it was acquired. The terms of the lease must be approved in writing by the department.

(e) If land or water designated for park, recreational, or open space use is included in the local and regional park, recreational, and open space plans for two or more contiguous jurisdictions and that land or water is also included in the Texas outdoor recreation plan, the two or more jurisdictions may cooperate under state law to secure assistance from the fund to acquire or develop the property. In those cases, the department must be assured that a cooperative management plan for the land or water can be developed and effectuated.

(f) All land or water purchased with assistance from the fund shall be dedicated for park, recreational, and open space purposes in perpetuity and may not be used for any other purpose, except where the use is compatible with park, recreational, and open space objectives, and the use is approved in advance by the department.

[Added by Acts 1979, 66th Leg., p. 1733, ch. 710, § 1, eff. Sept. 1, 1979.]

(a) On the approval of a grant under this chapter and on the written request by the director, the comptroller of public accounts shall issue a warrant drawn against the fund and payable to the political subdivision in the amount specified by the director.

(b) Each recipient of assistance under this chapter shall keep records as required by the department, including records which fully disclose the amount and the disposition of the proceeds by the recipient, the total cost of the acquisition, a copy of the title and deed for the property acquired, the amount and nature of that portion of the cost of the acquisition supplied by other funds, and other records that facilitate effective audit. The director and the comptroller, or their authorized representatives, may examine any book, document, paper, and record of the recipient that are pertinent to assistance received under this chapter.

(c) The recipient of funds under this chapter shall, on each anniversary date of the grant for five years after the grant is made, furnish to the department a comprehensive report detailing the present and anticipated use of the property, any contiguous additions to the property, and any major changes in the character of the property, including the extent of park development which may have taken place.

[Added by Acts 1979, 66th Leg., p. 1733, ch. 710, § 1, eff. Sept. 1, 1979.]

(6) a statement of the amount of money annually deposited to the credit of the fund that was not disbursed during the year and the reason for nondisbursement; and
(7) a statement of any significant problems encountered in administering the fund, with recommendations for their solution.

(b) The annual report on the fund may be included as a portion of the department's annual report to the governor.

§ 24.011. Noncompliance With Act

The attorney general shall file suit in a court of competent jurisdiction against a political subdivision that fails to comply with the requirements of this chapter to recover the full amount of the grant plus interest on that amount of five percent a year accruing from the time of noncompliance or for injunctive relief to require compliance with this
chapter. If the court finds that the political subdivision has not complied with the requirements of this chapter, it is not eligible for further participation in the program for three years following the finding for noncompliance.

GULF STATES MARINE FISHERIES COMPACT

The contracting states solemnly agree:

ARTICLE I

Whereas the Gulf Coast States have the proprietary interest in and jurisdiction over fisheries in the waters within their respective boundaries, it is the purpose of this compact to promote the better utilization of the fisheries, marine, shell and anadromous, of the seaboard of the Gulf of Mexico, by the development of a joint program for the promotion and protection of such fisheries and the prevention of the physical waste of the fisheries from any cause.

ARTICLE II

This compact shall become operative immediately as to those states ratifying it whenever any two or more of the states of Florida, Alabama, Mississippi, Louisiana and Texas have ratified it and the Congress has given its consent, pursuant to Article I, Section 10 of the Constitution of the United States. Any state contiguous to any of the aforementioned states or riparian upon waters which flow into waters under the jurisdiction of any of the aforementioned States and which are frequented by anadromous fish or marine species, may become a party hereto as hereinafter provided.

ARTICLE III

Each state joining herein shall appoint three representatives to a commission hereby constituted and designated as the Gulf States Marine Fisheries Commission. One shall be the head of the administrative agency of such State charged with the conservation of the fishery resources to which this compact pertains; or, if there be more than one officer or agency, the official of that State named by the Governor thereof. The second shall be a member of the Legislature of such State designated by such Legislature, or in the absence of such designation, such legislator shall be designated by the Governor thereof; provided that if it is constitutionally impossible to appoint a legislator as a commissioner from such State, the second member shall be appointed in such manner as may be established by law. The third shall be a citizen who shall have a knowledge of and interest in the marine fisheries, to be appointed by the Governor. This commission shall be a body corporate with the powers and duties set forth herein.

ARTICLE IV

The duty of the said commission shall be to make inquiry and ascertain from time to time such methods, practices, circumstances and conditions as may be disclosed for bringing about the conservation and the prevention of the depletion and physical waste of the fisheries, marine, shell and anadromous, of the Gulf Coast. The commission shall have power to recommend the coordination of the exercise of the police powers of the several States within their respective jurisdictions to promote the preservation of these fisheries and their protection against overfishing, waste, depletion or any abuse whatsoever, and to assure a continuing yield from the fishery resources of the aforementioned States. To that end the commission shall draft and recommend to the Governors and Legislatures of the various signatory States, legislation dealing with the conservation of the marine, shell and anadromous fisheries of the Gulf seaboard. The commission shall from time to time present to the Governor of each compacting State its recommendations relating to enactments to be presented to the Legislature of that State in furthering the interest and purposes of this compact. The commission shall consult with and advise the pertinent administrative agencies in the States party hereto with regard to problems connected with the fisheries, and recommend the adoption of such regulations as it deems advisable. The commission shall have power to recommend to the States party hereto
the stocking of the waters of such States with fish and fish eggs or joint stocking by some or all of the States party hereto, and when two or more States shall jointly stock waters the commission shall act as the coordinating agency for such stocking.

ARTICLE V

The commission shall elect from its number a chairman and vice-chairman and shall appoint, and at its pleasure remove or discharge, such officers and employees as may be required to carry the provisions of this compact into effect and shall fix and determine their duties, qualifications and compensation. Said commission shall adopt rules and regulations for the conduct of its business. It may establish and maintain one or more offices for the transaction of its business, and may meet at any time or place; but must meet at least once a year.

ARTICLE VI

No action shall be taken by the commission in regard to its general affairs except by the affirmative vote of a majority of the whole number of compacting States. No recommendation shall be made by the commission in regard to any species of fish except by the affirmative vote of a majority of the compacting States which have an interest in such species. The commission shall define what shall be an interest.

ARTICLE VII

The Fish and Wildlife Service of the Department of the Interior of the Government of the United States shall act as the primary research agency of the Gulf States Marine Fisheries Commission, cooperating with the research agencies in each State for that purpose. Representatives of the said Fish and Wildlife Service shall attend the meetings of the commission. An advisory committee to be representative of the commercial salt water fishermen and the salt water anglers and such other interests of each State as the commissioners deem advisable may be established by the commissioners from each State for the purpose of advising those commissioners upon such recommendations as it may desire to make.

ARTICLE VIII

When any State, other than those named specifically in Article II of this compact, shall become a party hereto for the purpose of conserving its anadromous fish or marine species in accordance with the provisions of Article II, the participation of such State in the action of the commission shall be limited to such species of fish.

ARTICLE IX

Nothing in this compact shall be construed to limit the powers of the proprietary interest of any signatory State, or to repeal or prevent the enactment of any legislation or the enforcement of any requirement by a signatory State, imposing additional conditions and restrictions to conserve its fisheries.

ARTICLE X

It is agreed that any two or more States party hereto may further amend this compact by acts of their respective Legislatures, subject to approval of Congress as provided in Article I, Section X, of the Constitution of the United States, to designate the Gulf States Marine Fisheries Commission as a joint regulating authority for the joint regulation of specific fisheries affecting only such States as shall so compact, and at their joint expense. The representatives of such States shall constitute a separate section of the Gulf States Marine Fisheries Commission for the exercise of the additional powers so granted, but the creation of such section shall not be deemed to deprive the States so compacting of any of their privileges or powers in the Gulf States Marine Fisheries Commission as constituted under the other Articles of this compact.

ARTICLE XI

Continued absence of representation or of any representative on the commission from any State party hereto, shall be brought to the attention of the Governor thereof.
