(d) A financing statement may be amended by filing a writing signed by both the debtor and the secured party, provided, however, that an amendment to a financing statement which changes only the name of the secured party or the required address of either the secured party or the debtor is sufficient when it is signed by the secured party instead of the debtor. An amendment does not extend the period of effectiveness of a financing statement. If any amendment adds collateral, it is effective as to the added collateral only from the filing date of the amendment. In this chapter, unless the context otherwise requires, the term “financing statement” means the original financing statement and any amendments.

(e) A financing statement covering timber to be cut or covering minerals or the like (including oil and gas) or accounts subject to Subsection (e) of Section 9.103, from the date of its filing for record if (1) the goods or other collateral are described in the mortgage by item or type, (2) in the case of a fixture filing, the goods are or are to become fixtures related to the real estate described in the mortgage, (3) in the case of timber to be cut, the timber is standing on the real estate described in the mortgage, (4) in the case of minerals or the like (including oil and gas) or accounts subject to Subsection (e) of Section 9.103, the minerals or the like (including oil and gas) or the accounts are to be financed at the wellhead or minehead of the well or mine located on the real estate described in the mortgage, (5) the mortgage complies with the requirements for a financing statement in this section other than a recital that it is to be filed in the real estate records, and (6) the mortgage is duly filed for record. § 9.403. What Constitutes Filing; Duration of Filing; Effect of Lapsed Filing; Duties of Filing Officer

(a) Presentation for filing of a financing statement or other statement and tender of the filing fee or acceptance of the financing statement or other statement by the filing officer constitutes filing under this chapter.

[See Compact Edition, Volume 1 for text of (b) and (c)]

(d) Except as provided in Subsection (g) a filing officer shall mark each financing statement with a file number and with the date and hour of filing and shall hold the financing statement or a microfilm or other photographic copy thereof for public inspection. In addition the filing officer shall index the financing statements according to the name of the debtor and shall note in the index the file number and the address of the debtor given in the financing statement. The filing officer shall mark each continuation statement with the date and hour of filing and shall note it in the index of the original financing statement.

(e) The uniform fee for filing and indexing and for stamping a copy furnished by the secured party to show the date and place of filing for an original financing statement or for a continuation statement shall be $3.00 if the statement is in the standard form prescribed by the Secretary of State and otherwise shall be $6.00, plus in each case, if the financing statement is subject to Subsection (e) of Section
§ 9.404. Termination Statement

(a) A financing statement may disclose an assignment of a security interest in the collateral described in the financing statement by indication in the financing statement of the name and address of the assignee or by an assignment itself or a copy thereof on the face or back of the financing statement. On presentation to the filing officer of such a financing statement the filing officer shall mark the same as provided in Section 9.403.

(d) The uniform fee for filing, indexing, and furnishing filing data for a financing statement so indicating an assignment shall be $3.00 if the statement is in the standard form prescribed by the Secretary of State and otherwise shall be $6.00, plus, in each case where the original financing statement was filed pursuant to Subsection (e) of Section 9.402, an amount equal to the fee prescribed by law for recording and indexing in the real property records of the county clerk.

§ 9.406. Release of Collateral; Duties of Filing Officer; Fees

A secured party of record may by his signed statement release all or a part of any collateral described in a filed financing statement. The statement of release is sufficient if it contains a description of the collateral being released, the name and address of the debtor, the name and address of the secured party, and the file number of the financing statement. A statement of release signed by a person other than the secured party of record must be accompanied by a separate written statement of assignment signed by the secured party of record and complying with Subsection (b) of Section 9.405, including payment of the required fee. Upon presentation of such a statement of release to the filing officer he shall mark the statement with the hour and date of filing and shall note the same upon the margin of the index of the filing of the financing statement. The uniform fee for filing and noting such a statement of release shall be $3.00 if the statement is in the standard form prescribed by the Secretary of State and otherwise shall be $6.00, plus, in each case where the original financing statement was filed pursuant to Subsection (e) of Section 9.402, an amount equal to the fee prescribed by law for recording and indexing in the real property records of the county clerk.

or is of a type customarily sold on a recognized market, reasonable notification of the time and place of any public sale or reasonable notification of the time after which any private sale or other intended disposition is to be made shall be sent by the secured party to the debtor, if he has not signed after default a statement renouncing or modifying his right to notification of sale. In the case of consumer goods no other notification need be sent. In other cases notification shall be sent to any other secured party who has a security interest in the same collateral and who has duly filed in the office of the Secretary of State or of the county clerk in the proper county in this state a financing statement indexed in the name of the debtor or from whom the secured party has received (before sending his notification to the debtor or before the debtor’s renunciation of his rights) written notice of a claim of an interest in the collateral. The secured party may buy at any public sale and if the collateral is of a type customarily sold in a recognized market or is of a type which is the subject of widely distributed standard price quotations he may buy at private sale.

[See Compact Edition, Volume 1 for text of (d) and (e)]

§ 9.505. Compulsory Disposition of Collateral; Acceptance of the Collateral as Discharge of Obligation

[See Compact Edition, Volume 1 for text of (a)]

(b) In any other case involving consumer goods or any other collateral a secured party in possession may, after default, propose to retain the collateral in satisfaction of the obligation. Written notice of such proposal shall be sent to the debtor if he has not signed after default a statement renouncing or modifying his rights under this subsection. In the case of consumer goods no other notice need be given. In other cases notice shall be given to any other secured party who has a security interest in the same collateral and who has duly filed in the office of the Secretary of State or the County Clerk in the proper county in this state a financing statement indexed in the name of the debtor or from whom the secured party has received (before sending his notice to the debtor or before the debtor’s renunciation of his rights) written notice of a claim of an interest in the collateral. If the secured party receives objection in writing from a person entitled to receive notification within twenty-one days after the notice was sent, the secured party must dispose of the collateral under Section 9.504. In the absence of such written objection the secured party may retain the collateral in satisfaction of the debtor’s obligation.

[See Compact Edition, Volume 1 for text of (c)]

(d) If the filing for record of a mortgage would have been effective as to the types of collateral enumerated in Subsection (f) of Section 9.402 if the 1973 amendments had been in effect on the date of the filing for record of the mortgage, the mortgage shall be deemed effective as such a filing as to the types of collateral enumerated in Subsection (f) of Section 9.402 of this code, as amended, on January 1, 1974.

[Amended by Acts 1975, 64th Leg., p. 944, ch. 353, §§ 10, 11, eff. June 19, 1975.]

§ 11.108. Presumption That Rule of Law Continues Unchanged

Unless a change in law has clearly been made, the provisions of this title with 1973, 1975, and 1977 amendments shall be deemed declaratory of the meaning of the title.

CHAPTER 17. DECEPTIVE TRADE PRACTICES

SUBCHAPTER E. DECEPTIVE TRADE PRACTICES AND CONSUMER PROTECTION

§ 17.42. Waivers: Public Policy

Any waiver by a consumer of the provisions of this subchapter is contrary to public policy and is unenforceable and void; provided, however, that a consumer, other than the State of Texas or any political subdivision thereof, with assets of at least $25,000,000 or more at the time of such transactions, acts, or practices, may by written contract waive the provisions of this subchapter, other than Section 17.55A.

Section 2 of the 1981 amendatory act provides:
"Nothing in this Act shall affect procedurally or substantively a cause of action arising in whole or in part prior to the effective date of this Act."

§ 17.43. Cumulative Remedies

The provisions of this subchapter are not exclusive. The remedies provided in this subchapter are in addition to any other procedures or remedies provided for in any other law; provided, however, that no recovery shall be permitted under both this subchapter and another law of both actual damages and penalties for the same act or practice. A violation of a provision of law other than this subchapter is not in and of itself a violation of this subchapter. An act or practice that is a violation of a provision of law other than this subchapter may be made the basis of an action under this subchapter if the act or practice is proscribed by a provision of this subchapter or is declared by such other law to be actionable under this subchapter. The provisions of this subchapter do not in any way preclude other political subdivisions of this state from dealing with deceptive trade practices.
[Amended by Acts 1979, 66th Leg., p. 1327, ch. 603, § 1, eff. Aug. 27, 1979.]

§ 17.45. Definitions

As used in this subchapter:
(1) "Goods" means tangible chattels or real property purchased or leased for use.
(2) "Services" means work, labor, or service purchased or leased for use, including services furnished in connection with the sale or repair of goods.
[See Compact Edition, Volume 1 for text of (3)]
§ 17.45  BUSINESS AND COMMERCE CODE 520

§ 17.45  BUSINESS AND COMMERCE CODE 520

(4) "Consumer" means an individual, partnership, corporation, or governmental entity who seeks or acquires by purchase or lease, any goods or services.

(5) "Unconscionable action or course of action" means an act or practice which, to a person's detriment:

(A) takes advantage of the lack of knowledge, ability, experience, or capacity of a person to a grossly unfair degree; or

(B) results in a gross disparity between the value received and consideration paid, in a transaction involving transfer of consideration.

[See Compact Edition, Volume 1 for text of (6) to (8)]

(9) "Knowingly" means actual awareness of the falsity, deception, or unfairness of the act or practice giving rise to the consumer's claim or, in an action brought under Subdivision (2) of Subsection (a) of Section 17.50, actual awareness of the act or practice constituting the breach of warranty, but actual awareness may be inferred where objective manifestations indicate that a person acted with actual awareness.

[Amended by Acts 1975, 64th Leg., p. 149, ch. 62, § 1, eff. Sept. 1, 1975; Acts 1977, 65th Leg., p. 600, ch. 216, § 1, eff. May 23, 1977; Acts 1979, 66th Leg., p. 1327, ch. 603, § 2, eff. Aug. 27, 1979.]

§ 17.46.  Deceptive Trade Practices Unlawful

(a) False, misleading, or deceptive acts or practices in the conduct of any trade or commerce are hereby declared unlawful and are subject to action by the consumer protection division under Sections 17.47, 17.58, 17.60, and 17.61 of this code.

(b) Except as provided in Subsection (d) of this section, the term "false, misleading, or deceptive acts or practices" includes, but is not limited to, the following acts:

(1) passing off goods or services as those of another;

(2) causing confusion or misunderstanding as to the source, sponsorship, approval, or certification of goods or services;

(3) causing confusion or misunderstanding as to affiliation, connection, or association with, or certification by, another;

(4) using deceptive representations or designations of geographic origin in connection with goods or services;

(5) representing that goods or services have sponsorship, approval, characteristics, ingredients, uses, benefits, or quantities which they do not have or that a person has a sponsorship, approval, status, affiliation, or connection which he does not;
(19) representing that a guarantee or warranty confers or involves rights or remedies which it does not have or involve, provided, however, that nothing in this subsection shall be construed to expand the implied warranty of merchantability as defined in Sections 2.314 through 2.318 of the Business & Commerce Code to involve obligations in excess of those which are appropriate to the goods;

(20) selling or offering to sell, either directly or associated with the sale of goods or services, a right of participation in a multi-level distributorship. As used herein, "multi-level distributorship" means a sales plan for the distribution of goods or services in which promises of rebate or payment are made to individuals, conditioned upon those individuals recommending or securing additional individuals to assume positions in the sales operation, and where the rebate or payment is not exclusively conditioned on or in relation to proceeds from the retail sales of goods;

(21) representing that work or services have been performed on, or parts replaced in, goods when the work or services were not performed or the parts replaced;

(22) filing suit founded upon a written contractual obligation of and signed by the defendant to pay money arising out of or based on a consumer transaction for goods, services, loans, or extensions of credit intended primarily for personal, family, household, or agricultural use in any county other than in the county in which the defendant resides, has his principal place of business, or that such person would destroy relevant records if such failure to disclose such information was intended to induce the consumer into a transaction into which the consumer would not have entered had the information been disclosed.

(c)(1) It is the intent of the legislature that in construing Subsection (a) of this section in suits brought under Section 17.47 of this subchapter the courts to the extent possible will be guided by Subsection (b) of this section and the interpretations given by the Federal Trade Commission and federal courts to Section 5(a)(1) of the Federal Trade Commission Act [15 U.S.C.A. 45(a)(1)].

(2) In construing this subchapter the court shall not be prohibited from considering relevant and pertinent decisions of courts in other jurisdictions.

(d) For the purposes of the relief authorized in Subdivision (1) of Subsection (a) of Section 17.50 of this subchapter, the term "false, misleading, or deceptive acts or practices" is limited to the acts enumerated in specific subdivisions of Subsection (b) of this section.

Section 9 of the 1979 amendatory act provided:

"This Act shall be applied prospectively only. Nothing in this Act affects either procedurally or substantively a cause of action that arose either in whole or in part prior to the effective date of this Act."

§ 17.47. Restraining Orders

(a) Whenever the consumer protection division has reason to believe that any person is engaging in, has engaged in, or is about to engage in any act or practice declared to be unlawful by this subchapter, and that proceedings would be in the public interest, the division may bring an action in the name of the state against the person to restrain by temporary restraining order, temporary injunction, or permanent injunction the use of such method, act, or practice. The consumer protection division may bring any action under this section against a licensed insurer or insurance agent for a violation of this subchapter, Article 21.21, Texas Insurance Code, as amended, or the rules and regulations of the State Board of Insurance issued under Article 21.21, Texas Insurance Code, as amended, only on the written request of the State Board of Insurance or the commissioner of insurance.

Nothing herein shall require the consumer protection division to notify such person that court action is or may be under consideration. Provided, however, the consumer protection division shall, at least seven days prior to instituting such court action, contact such person to inform him in general of the alleged unlawful conduct. Cessation of unlawful conduct after such prior contact shall not render such court action moot under any circumstances, and such injunctive relief shall lie even if such person has ceased such unlawful conduct after such prior contact. Such prior contact shall not be required if, in the opinion of the consumer protection division, there is good cause to believe that such person would evade service of process if prior contact were made or that such person would destroy relevant records if prior contact were made.

(b) An action brought under Subsection (a) of this section which alleges a claim to relief under this section may be commenced in the district court of the county in which the person against whom it is brought resides, has his principal place of business, has done business, or in the district court of the
§ 17.47  BUSINESS AND COMMERCE CODE  522

county where the transaction occurred, or, on the consent of the parties, in a district court of Travis County. The court may issue temporary restraining orders, temporary or permanent injunctions to restrain and prevent violations of this subchapter and such injunctive relief shall be issued without bond.

(c) In addition to the request for a temporary restraining order, or permanent injunction in a proceeding brought under Subsection (a) of this section, the consumer protection division may request a civil penalty of not more than $2,000 per violation, not to exceed a total of $10,000, to be paid to the state.

(d) The court may make such additional orders or judgments as are necessary to compensate identifiable persons for actual damages or to restore money or property, real or personal, which may have been acquired by means of any unlawful act or practice. Damages may not include any damages incurred beyond a point two years prior to the institution of the action by the consumer protection division. Orders of the court may also include the appointment of a receiver or a sequestration of assets if a person who has been ordered by a court to make restitution under this section has failed to do so within three months after the order to make restitution has become final and nonappealable.

§ 17.50.  Relief for Consumers

(a) A consumer may maintain an action where any of the following constitute a producing cause of actual damages:

(1) the use or employment by any person of a false, misleading, or deceptive act or practice that is specifically enumerated in a subdivision of Subsection (b) of Section 17.46 of this subchapter;

(2) breach of an express or implied warranty;

(3) any unconscionable action or course of action by any person; or

(4) the use or employment by any person of an act or practice in violation of Article 21.21, Texas Insurance Code, as amended, or rules or regulations issued by the State Board of Insurance under Article 21.21, Texas Insurance Code, as amended.

(b) In a suit filed under this section, each consumer who prevails may obtain:

(1) the amount of actual damages found by the trier of fact. In addition the court shall award two times that portion of the actual damages that does not exceed $1,000. If the trier of fact finds that the conduct of the defendant was committed knowingly, the trier of fact may award not more than three times the amount of actual damages in excess of $1,000;

(2) an order enjoining such acts or failure to act;

(3) orders necessary to restore to any party to the suit any money or property, real or personal, which may have been acquired in violation of this subchapter; and

(4) any other relief which the court deems proper, including the appointment of a receiver or the revocation of a license or certificate authorizing a person to engage in business in this state if the judgment has not been satisfied within three months of the date of the final judgment. The court may not revoke or suspend a license to do business in this state or appoint a receiver to take over the affairs of a person who has failed to satisfy a judgment if the person is a licensee of or regulated by a state agency which has statutory authority to revoke or suspend a license or to appoint a receiver or trustee. Costs and fees of such receivership or other relief shall be assessed against the defendant.

(c) On a finding by the court that an action under this section was groundless and brought in bad faith, or brought for the purpose of harassment, the court shall award to the defendant reasonable and necessary attorneys' fees and court costs.

(d) Each consumer who prevails shall be awarded court costs and reasonable and necessary attorneys' fees.

§ 17.50A.  Notice: Offer of Settlement

(a) As a prerequisite to filing a suit seeking damages under Subdivision (1) of Subsection (b) of Section 17.50 of this subchapter against any person, a consumer shall give written notice to the person at least 30 days before filing the suit advising the person of the consumer's specific complaint and the amount of actual damages and expenses, including attorneys' fees, if any, reasonably incurred by the consumer in asserting the claim against the defendant.

(b) If the giving of 30 days' written notice is rendered impracticable by reason of the necessity of filing suit in order to prevent the expiration of the statute of limitations or if the consumer's claim is asserted by way of counterclaim, the notice provided for in Subsection (a) of this section is not required, but the tender provided for by Subsection (c) of this section and by Subsection (d), Section 17.50B of this subchapter may be made within 30 days after the filing of the suit or counterclaim.

(c) Any person who receives the written notice provided by Subsection (a) of this section may, within 30 days after the receipt of the notice, tender to the consumer a written offer of settlement, includ-
§ 17.55A  Indemnity

A person against whom an action has been brought under this subchapter may seek contribution or indemnity from one who, under the statute law or at common law, may have liability for the damaging event of which the consumer complains. A person seeking indemnity as provided by this section may recover all sums that he is required to pay as a result of the action, his attorney's fees reasonable in relation to the amount of work performed in maintaining his action for indemnity, and his costs.

§ 17.56. Venue

An action brought which alleges a claim to relief under Section 17.50 of this subchapter may be commenced in the county in which the person against whom the suit is brought resides, has his principal place of business, or has a fixed and established place of business at the time the suit is brought or in the county in which the alleged act or practice occurred or in a county in which the defendant or an authorized agent of the defendant solicited the transaction made the subject of the action at bar. [Amended by Acts 1977, 65th Leg., p. 604, ch. 216, § 8, eff. May 23, 1977; Acts 1979, 66th Leg., p. 1332, ch. 603, § 7, eff. Aug. 27, 1979.]

§ 17.56A. Limitation

All actions brought under this subchapter must be commenced within two years after the date on which the false, misleading, or deceptive act or practice occurred or within two years after the consumer discovered or in the exercise of reasonable diligence should have discovered the occurrence of the false, misleading, or deceptive act or practice. The period of limitation provided in this section may be extended for a period of 180 days if the plaintiff proves that failure timely to commence the action was caused by the defendant's knowingly engaging in conduct solely calculated to induce the plaintiff to refrain from or postpone the commencement of the action. [Amended by Acts 1979, 66th Leg., p. 1332, ch. 603, § 8, eff. Aug. 27, 1979.]

§ 17.59. Post Judgment Relief

(a) If a money judgment entered under this subchapter is unsatisfied 30 days after it becomes final and if the prevailing party has made a good faith attempt to obtain satisfaction of the judgment, the following presumptions exist with respect to the party against whom the judgment was entered:

1. that the defendant is insolvent or in danger of becoming insolvent; and

2. that the defendant's property is in danger of being lost, removed, or otherwise exempted from collection on the judgment; and

3. that the prevailing party will be materially injured unless a receiver is appointed over the defendant's business; and

4. that there is no adequate remedy other than receivership available to the prevailing party.

(b) Subject to the provisions of Subsection (a) of this section, a prevailing party may move that the defendant show cause why a receiver should not be appointed over the defendant's business unless the defendant proves that all of the presumptions set forth in Subsection (a) of this section are not applicable. (c) The order appointing a receiver must clearly state whether the receiver will have general power to manage and operate the defendant's business or have power to manage only a defendant's finances. The order shall limit the duration of the receivership to such time as the judgment or judgments awarded under this subchapter are paid in full. Where there are judgments against a defendant which have been awarded to more than one plaintiff, the court shall have discretion to take any action necessary to efficiently operate a receivership in order to accomplish the purpose of collecting the judgments. [Amended by Acts 1977, 65th Leg., p. 604, ch. 216, § 9, eff. May 23, 1977.]

   (D) social or emotional;
   (E) self-help skills; or

(2) an organic defect or condition that is very likely to result in such a delay.

(c) A developmentally delayed child is eligible for services under this section if the child is under three years of age or until reaching the age of eligibility for entry into the comprehensive special education program for handicapped children under Section 16-104 of the Texas Education Code.

(d) The agency shall allocate appropriated funds to local intervention programs on a competitive basis giving consideration to the following:

(1) the extent to which the program would meet identified needs;

(2) the cost of initiating a program, if applicable;

(3) the need for funds from the agency if other funding sources are available;

(4) the proposed cost to the parents for the services; and

(5) the assurance of quality services.

(e) After approval of a grant request, the agency shall execute a contract with the service provider that requires the provider to agree to meet the following program standards:

(g) The service provider may charge a fee for intervention services, based on the parent's ability to pay, to be used to offset the cost of providing or securing the service. A determination of the parent's ability to pay must include a consideration of the availability of financial assistance or other benefits for which the child may be eligible. If a fee is charged, a separate charge shall be made for each type of service.

(h) The agency shall develop specific program guidelines in the following areas:

Enabling deaf children who are unable to attend schools at their place of residence and whose parents or guardians live too far from facilities of regional day school programs for the deaf for daily commuting or to be accommodated five nights a week in foster homes or other residential school facilities provided for by the Central Education Agency in order that such children may attend a regional day school program for the deaf; and

(4) Enrolling in the Texas School for the Deaf at Austin or any other educational facility for the deaf as determined by the parents of deaf children only those children whose needs can best be met in that institution, designating the Texas School for the Deaf as the statewide educational and residential resource for students to whom adequate educational opportunities are unavailable in local or regional programs; and

(5) Encouraging children enrolled in regional day school programs for the deaf who have demonstrated ability to do so to return to regular school classes on a part-time, full-time or trial basis. Supplemental aid from the regional day school program for the deaf shall be made available to such children; and

(6) Recognizing the need for development of oral communications abilities in deaf children and the ability of many to achieve high educational excellence through that method, but also recognizing the inability of some to gain their education successfully by this means, the comprehensive plan developed by the director of services to the deaf will call for the use of methods of communication which will best meet the needs of each individual deaf child in this state, with each child to be examined thoroughly so as to ascertain his potential for communications through oral means. The director of services to the deaf may establish separate programs to accommodate diverse communication methodologies. [See Compact Edition, Volume 1 for text of (p)]

(q) It is the intent of the legislature that local resources be utilized to the fullest practicable extent in the establishment and operation of the regional day school programs for the deaf. The Central Education Agency is authorized and expected to contract with any qualified public or private organization or qualified individuals for diagnostic, evaluation and instructional services or any other services incidental to the education of deaf children, including transportation and/or maintenance.

The Central Education Agency shall employ educational and other personnel, may purchase or lease real or personal property, may accept gifts or grants of real or personal property or services from any source, public or private, including independent school districts and any institution of higher learning in this state, for the purpose of establishing and operating regional day school programs for the deaf.

operation and that all equipment, classroom supplies, and other personal property owned by the countywide schools shall become the property of the regional day school. When any such programs are combined, the directors and employees of the former countywide schools shall be employed in appropriate, substantially similar capacities within the regional day school program for that region.

(r) Except for certain transportation costs, costs of operation of the regional day school programs for the deaf shall be borne by the state and paid from the Foundation School Program Fund. Such costs shall be considered and included by the Foundation School Fund Budget Committee in estimating the needs for purposes of the Foundation School Program and the regional day school programs for the deaf. However, funds allocated to countywide schools shall remain so allocated except in those regions in which the countywide program has been made a part of the appropriate region, as aforesaid. Funds specially appropriated to the regional day school program by the General Appropriations Act of the 63rd Legislature, or any substitute therefor, shall be used so as to implement as completely as may be possible the provisions of this Act during the next biennium and in accordance with a budget of expenditures approved by the State Board of Education with the first funds, however, hereby required to be expended for staffing and planning of the regional day school program. Such funds may be used in conjunction with funds from the Foundation School Program Fund in accordance with rules and regulations adopted by the Central Education Agency, the allocation and reallocation of which is hereby authorized. While the principal cost of educating deaf children shall be borne by the state, independent school districts and all institutions of higher learning in the state are hereby authorized and encouraged to make available real or personal property or services in cooperation with the regional day school programs for the deaf for any activities related to education and betterment of education of deaf children including, but not limited to research and personnel training and development. The school district in which a regional day school is located shall bear the costs of transporting students in the program who live within the district and is entitled to have those students counted in its allotment of transportation funds from the state. The regional day school program shall bear the costs of transporting children who live outside the district to the regional day school. It is the intent of the legislature in enacting this subsection that the use of all of the educational resources of this state be maximized to carry out the intent and objectives of this Act.

(s) Operating costs for the program in each regional day school program for the deaf shall be determined and paid on the following basis:

(1) An estimated allocation of $2,700 for each student enrolled in the program of the regional day school program for the deaf in any current year.

(2) Teachers, principals, supervisors, counselors, para-professional and supporting personnel shall be employed in such numbers as the Central Education Agency finds to be necessary to establish and operate the regional day school programs for the deaf, and such numbers shall not be less than student-professional ratios known to be requisite for success in education of deaf children. Salaries of all personnel employed in the regional day school programs for the deaf shall be determined in accordance with policies established by the State Board of Education.

(3) Local districts may receive allocations for transportation of students participating in the regional day school programs on the same basis as that provided for in Section 16.206 of this code.

(t) To assure effective implementation of this Act the Central Education Agency shall upon the passage of this Act institute planning and research designed to accomplish the intent and objectives set forth herein including employment of personnel considered essential to meet the operational date specified for this Act.

§ 13.906.  Student Teachers

(a) A person assigned to perform student teaching in a student teacher center is entitled to the same protection of law accorded to the supervising teacher and the principal of the school in which the student teacher serves or acts in the course of employment. While serving as a student teacher, a person shall comply with the rules of the school and of the board of trustees of the district serving as the student teacher center.

(c) The institution of higher education, the supervising teacher, and the principal shall exercise due care to avoid placing the student teacher in a situation that any of them knows the student teacher is not capable of handling successfully.

(d) Except as otherwise provided by this section, a student teacher may not be required to serve as a substitute teacher. A student teacher is not considered to be serving as a substitute if the student teacher assumes responsibility for the class while the supervising teacher is out of the classroom for part of the day but is in the building or is engaged in an approved activity relating to student teaching, including conferring with a university supervisor or attending a professional development seminar to improve supervisory skills related to student teaching. A student teacher is considered to be serving as a substitute if:

(1) the supervising teacher is absent from school, no other teacher is provided as a substitute, and the student teacher is fully responsible for one or more classes; or

(2) the student teacher is taken from the class of the assigned supervising teacher and placed in another classroom in place of the regular teacher under conditions in which the regular teacher is either absent from school or performing duties requiring absence from the regularly assigned teaching station.

(e) If a supervising teacher cannot perform regularly assigned duties as a result of illness of the teacher or a member of the teacher's family, a death in the teacher's family, or other cause for which the district excuses teachers from duties, the student teacher may serve as a substitute for the supervising teacher, or at the discretion of the department chairman or lead teacher, for not more than one day if:

(1) a substitute teacher is not immediately available;

(2) the student teacher has been in that student teaching assignment for a minimum of 15 school days;

(5) the principal of the school or the principal's representative is readily available in the building.

(f) A student teacher may not be paid for any service rendered while serving as a substitute teacher.

(e) With the approval of the State Board of Education, the commissioner of education may add additional positions and months of service to the Texas Public Education Compensation Plan to reflect curriculum and program changes authorized by law. The pay grade assigned to each new position shall be comparable to the pay grade for authorized personnel with similar academic training, experience, and duties. With the approval of the board, the commissioner shall also develop policies for the implementation and administration of the compensation plan. The policies shall provide for the adjustment of salaries for promotions and demotions within grades and the placement of personnel with prior educational experience into the compensation plan.

(g) Each person employed in the public schools of this state who is assigned to a position classified under the Texas Public Education Compensation Plan must be certified according to the certification requirements or standards for each position as established by rule adopted by the State Board of Education.

(h) The State Board of Education shall prescribe the general duties and required preparation and education for the positions listed in Subsection (d) of this section.

§ 16.102. Education Program Personnel

(a) Education program personnel units shall be allotted to each school district on the basis of the district's current average daily attendance for the best five six-week reporting periods of the school term unless exceptions are authorized by other sections of this code.

(b) The attendance of kindergarten students may not be counted for personnel unit allotment purposes for more than one-half of a school day during the full school year or for the full school day for more than one-half of the school year unless the student is educationally handicapped. An educationally handicapped student is a student who cannot speak and comprehend the English language or who is from a family whose income, according to standards promulgated by the State Board of Education, is at or below a subsistence level.

(c) Each school district shall be allotted personnel units on the basis of the district’s average daily attendance in education programs as follows:

- (1) one personnel unit for each 18.5 students in average daily attendance in kindergarten and grades 1 through 5;
- (2) one personnel unit for each 21 students in average daily attendance in grades 4 through 6;
- (3) one personnel unit for each 20 students in average daily attendance in grades 7 through 9; and
- (4) one personnel unit for each 18 students in average daily attendance in grades 10 through 12.

(d) The personnel unit allotment for a school district which contains at least 500 square miles and which has not more than 1,000 students in average daily attendance in its education program shall be adjusted according to the following formula:

\[
[1 + (1000 - \text{ADA}) \times (0.00455)] \times \text{PU} = \text{APU}
\]

where PU is the district's personnel units determined in accordance with Subsection (c) of this section; and APU is the district's adjusted personnel units.

(e) The personnel unit allotment for a school district which contains less than 500 square miles and has not more than 1,000 students in average daily attendance in its education program shall be adjusted according to the following formula:

\[
[1 + (1000 - \text{ADA}) \times (0.0003)] \times \text{PU} = \text{APU}
\]

where PU is the district's personnel units determined in accordance with Subsection (c) of this section; and APU is the district's adjusted personnel units.

(f) Fractional personnel units in excess of one-half shall be counted as whole units.
§ 16.103  Vocational Personnel Units

(a) Vocational personnel units for each school district shall be determined and allotted as prescribed by this section.

(b) Each school district having a four-year accredited high school shall be eligible, under rules and regulations of the State Board of Education, for two vocational teacher units to teach one or more vocational programs provided there is a need thereof, and provided the programs have been approved by the commissioner of education.

(c) Additional vocational teacher units for districts with four-year accredited high schools may be allotted according to needs determined by a survey.
§ 16.103  TEXAS EDUCATION CODE

of the community and approved by the commissioner of education.

(d) A district having an accredited high school which qualifies, according to the rules and regulations of the State Board of Education, for less than one vocational teacher unit, may be allotted by the commissioner of education a fractional part of a vocational teacher professional unit. A fractional part of a vocational teacher professional unit shall entitle a district to employ a part-time vocational teacher or assign a classroom teacher to serve as part-time vocational teacher.

(e) Each school district having a four-year accredited high school shall be eligible, under rules and regulations approved by the State Board of Education, for such specialized vocational supervisor units and vocational counselor units as there is a need, and in the number determined by application of formulas adopted by the State Board of Education and subject to approval by the commissioner of education.

(f) Vocational professional unit allotments, except classroom teachers who also served as part-time vocational teachers, shall be made in addition to other professional unit allotments. Any school district may, with the commissioner's approval, utilize its vocational professional unit allotments to employ vocational teachers, vocational supervisors, vocational counselors, and job placement coordinators on a 10-, 11-, or 12-month basis, in accordance with rules adopted by the State Board of Education. Vocational administrative units shall be approved on a 12-month contract, based on need. In addition to the regular operating allowance, there shall be an additional allocation of $400 for each vocational teacher unit which shall be used for instructional materials related to vocational education programs operated by the district.

(g) School districts which, because of limited enrollments, tax resources, or facilities are unable to offer appropriate vocational education in all occupational areas needed may enter into contracts with post-secondary public institutions, as defined by the State Board of Education, to provide for such appropriate vocational education instruction provided the instructors and instructional materials and equipment utilized meet secondary school program requirements.

(h) The contract shall be executed pursuant to rules and regulations of the State Board of Education and the cost to the state shall not exceed the cost that would result if the programs were operated by the respective school districts entering into the contracts.

(i) The legislature shall set a limit on the amount of funds that may be expended under the provisions of this section each year in the General Appropriations Act. Should the amount of funds required to fully fund the provisions of this section pursuant to the rules and regulations of the State Board of Education exceed the amount set by the legislature, the commissioner, with the approval of the board, shall make such adjustments as are necessary to reduce the total cost of the vocational education program to the limit set by the legislature.

§ 16.104. Comprehensive Special Education Program for Handicapped Children

(a) The commissioner of education, with the approval of the State Board of Education, shall develop, and modify as necessary, a statewide design for the delivery of services to handicapped children in Texas which includes rules for the administration and funding of the special education program so that a free appropriate public education is available to all handicapped children between the ages of three and 21 by no later than September 1, 1980. The statewide design shall include, but may not be limited to, the provision of services primarily through local school districts and special education cooperatives, supplemented by a regional delivery structure. The commissioner shall further develop and implement a statewide plan with programmatic content which includes procedures designed to:

1. ensure state compliance with requirements for supplemental federal funding for all state-administered programs involving the delivery of instructional or related services to handicapped students as defined in this section;

2. facilitate interagency coordination when state agencies other than the Central Education Agency are involved in the delivery of instructional or related services to handicapped students;

3. assess statewide personnel needs in all areas of specialization related to special education on a periodic basis and pursue strategies to meet those needs through a consortium of representatives from regional education service centers, local education agencies, and institutions of higher education and through other available alternatives;

4. ensure that regional education service centers throughout the state maintain a regional support function, which may include direct service delivery and a component designed to facilitate the placement of handicapped students who cannot be appropriately served within their resident districts;

5. allow the Central Education Agency to effectively monitor and periodically conduct site visits of all local districts to ensure that agency rules adopted under this section are applied in a consistent and uniform manner, to ensure that districts are complying with those rules, and to ensure that annual statistical reports filed by the districts are accurate and complete;

6. ensure the availability of sequentially related, field-based, inservice special education training programs for regular and special educators serv-
ing handicapped students and further ensure that all local districts dedicate at least the equivalent of one full day of their required inservice program per school year to that special education inservice training for those personnel;

(7) ensure that appropriately trained personnel are involved in the diagnostic and evaluation procedures operating in all local districts and that those personnel routinely serve on local district admissions, review, and dismissal teams;

(8) ensure that an individualized education plan for each handicapped student is properly developed, implemented, and maintained in the least restrictive environment which is appropriate to meet the student’s educational needs;

(9) ensure that, when appropriate, each handicapped student is provided an opportunity to participate in vocational and physical education classes, in addition to participation in regular or special classes; and

(10) ensure that each handicapped student is provided necessary related services.

(b) As used in this section:

(1) “Special services” means:

(A) “special teaching,” which may be provided by professional and paraprofessional personnel in the following instructional settings:

(i) resource room;

(ii) self-contained classroom, regular or special campus;

(iii) hospital or community class;

(iv) homebound or bedside;

(v) speech or hearing therapy class; or

(B) “related services,” which are developmental, corrective, supportive, or evaluative services, not instructional in nature, that may be required for the proper development and implementation of a handicapped student’s individualized educational plan, including but not limited to special transportation, school health services, counseling with students or families, psychological services, audiological services, visual training, medical or psychiatric diagnostic services, occupational therapy, physical therapy, recreational therapy, social work services, parent counseling and training, adaptive equipment, special seating, orientation and mobility training, speech therapy, music therapy, and corrective therapy.

(2) “Resident district” means the local school district in which the parent or other person who has the primary legal obligation for care, control, and custody of a handicapped student resides, except that if the state is managing conservator of the student, the resident district is the district within which the student is placed by the state.

(c) The commissioner, with the approval of the State Board of Education, shall develop specific eligibility criteria based on the general classifications established by this section with reference to contemporary diagnostic or evaluative terminologies and techniques. Eligible handicapped students shall enjoy the right to a free appropriate public education, which may include instruction in the regular classroom, instruction through special teaching, or instruction through contracts approved under this section. Instruction shall be supplemented by the provision of related services when appropriate. The following classifications of handicapped students shall serve as the general eligibility criteria for participation in a district’s special education program:

(1) “Handicapped students” means students between the ages of 3 and 21, inclusive;

(A) with educational handicaps (physically handicapped, auditorily handicapped, visually handicapped, mentally retarded, emotionally disturbed, learning disabled, speech handicapped, autistic, or multiply handicapped); and children leaving and not attending public school for a time because of pregnancy; and

(B) whose disabilities are so limiting as to require the provision of special services in place of or in addition to instruction in the regular classroom.

(2) “Physically handicapped students” means students whose body functions or members are so impaired from any cause that they cannot be adequately or safely educated in the regular classes of the public schools without the provision of special services.

(3) “Auditorially handicapped students” means students whose hearing is so impaired that they cannot be adequately educated in the regular classes of the public schools without the provision of special services.

(4) “Visually handicapped students” means students whose sight is so impaired that they cannot be adequately or safely educated in the regular classes of the public schools without the provision of special services.

(5) “Mentally retarded students” means students with significantly subaverage general intellectual functioning existing concurrently with deficiencies in adaptive behavior and manifested during the developmental period such that they cannot be adequately educated in the regular classes of the public schools without the provision of special services.

(6) “Emotionally disturbed students” means students whose emotional condition is psychologically or psychiatrically determined to be such that they cannot be adequately and safely educated in the regular classes of the public schools without the provision of special services.

(7) “Learning disabled students” means students:

(A) who demonstrate a significant discrepancy between academic achievement and intellec-
subsection a school district is allocated education personnel units for the first education personnel unit for each additional students in refined average daily attendance up to a daily attendance thereafter. The units may be used in refined average daily attendance, one special education personnel, the number of special education personnel units to which the district is entitled under Subdivision (1) of this subsection shall only for personnel listed in Subsections (e) and (f) of this section.

(8) "Speech handicapped students" means students whose speech is so impaired that they cannot be adequately educated in regular classes of the public schools without the provision of special services.

(9) "Autistic students" means students whose disturbances of speech and language, relatedness, perception, developmental rate, and motility are such that they cannot be adequately educated in the regular classes of the public schools without the provision of special services.

(10) "Multiply handicapped students" means students handicapped by any two or more of the handicapping conditions described in Subdivisions (2) through (9) of this subsection that may result in multisensory or motor deficiencies and developmental lags in the cognitive, affective, or psychomotor areas such that they cannot be adequately educated in the regular classes of the public schools without the provision of special services.

(d)(1) Except as provided in Subdivision (2) of this subsection a school district is allocated 30 special education personnel units for the first 3,000 students in refined average daily attendance, one special education personnel unit for each additional 100 students in refined average daily attendance up to a total of 6,000 students in refined average daily attendance, and 85 special education personnel unit for each additional 100 students in refined average daily attendance thereafter. The units may be used only for personnel listed in Subsections (e) and (f) of this section.

(2) If less than 12 percent of the district's students are identified as eligible handicapped students and provided with special services by the district's special education personnel, the number of special education personnel units to which the district is entitled under Subdivision (1) of this subsection shall be reduced to a percent of full allocation based on the percent of students served according to the following schedule:

(3) The percent of students served is determined by dividing the number of identified and eligible handicapped students served by the district's special education personnel by the district's refined average daily attendance and rounding the dividend to the nearest 10th. A district that serves less than 12 percent of the students in refined average daily attendance is entitled to an increase in the percent of allocation for a percent of students served specified in the schedule above equal to one percent of full allocation for each additional one-tenth of one percent of the students served but not exceeding the allocation specified on the schedule for the next highest percent of students served.

(4) Local districts may receive an additional allocation of $100 per personnel unit as a start-up allocation during the first year of a new unit's activation.

(5) In addition to all other allocations authorized in this section, any local district may receive supplemental special education personnel unit allocations through application by the district to the commissioner of education. The application shall include a thorough demonstration of the particular needs which justify the requested supplemental allocation. Under rules adopted by the State Board of Education, the commissioner may approve the allocations on a discretionary basis, having primary regard for those requests which demonstrate such circumstances as:

(A) an unusually high concentration of handicapped students or an unusually high concentration of severely handicapped students eligible to receive services required by law to be provided by the applicant district's personnel and to whom the actual demonstrated cost of providing an appropriate education to those students either individually or collectively overcomes the district's ability to meet those needs after a proper utilization of that district's allocations under this section;

(B) an unusual cost burden imposed on a rural school district due to the difficulty involved in serving handicapped students in sparsely populated areas; or

(C) an unusual difficulty involved in the administration of a special education cooperative which indicates a need for additional support personnel.

(6) Each local district is entitled to a basic support allocation of $400 for each personnel unit activated under this section. Local districts may expend these funds to provide special instructional materials and related services or for consultant services, pupil evaluation services, or personnel travel in multicounty or
multicity school districts in accordance with rules adopted by the State Board of Education.

(7) Any personnel units allocated under this subsection but not utilized by the local district may be reallocated by the commissioner in the manner described in Subdivision (5) of this subsection.

(e) Professional personnel for the operation and maintenance of a program of special education shall be:

(1) handicapped students' teachers, including itinerant teachers whose duties may or may not be performed in whole or in part on the campus of a school;

(2) special education related service personnel, including occupational therapists, physical therapists, nurses, orientation and mobility instructors, and other noneducational personnel who are otherwise professionally licensed by state or national certification recognized by the commissioner of education; and

(3) special education support personnel, including special education directors, special education supervisors, special education counselors, special education visiting teachers, psychologists, educational diagnosticians, and other pupil evaluation specialists.

(f) Paraprofessional personnel for the operation and maintenance of a program of special education shall consist of persons engaged as teacher aides, who may or may not hold a teacher certificate.

(g) Certification standards for professional and paraprofessional personnel authorized in Subsections (e) and (f) of this section shall be developed by the commissioner, approved by the State Board of Education, and reviewed periodically. The standards shall be independent of certification or endorsement in other fields and shall include requirements for additional training and recertification as necessary.

(h) Except as provided by Subsection (i) of this section, the minimum salary levels, months of service, and personnel unit values for all authorized personnel shall be determined by the provisions of Section 16.056 of this code. If positions authorized in this section are not specifically provided for in Section 16.056, the commissioner shall add those positions to the Texas Public Education Compensation Plan in accordance with Subsection (e) of Section 16.056 of this code.

(i) Special education unit personnel may be employed on a full-time, part-time, or consultative basis. Any school district may, with the commissioner's approval, utilize its personnel unit allocations to employ authorized personnel on a 10-, 11-, or 12-month basis in accordance with rules adopted by the State Board of Education. Handicapped students' teachers, paraprofessional personnel, or related service personnel employed on an extended basis under this subsection shall, during the extended period of their contract, only be engaged in pupil evaluations or in direct service delivery to handicapped students for which the disruption of continuous services may result in severe regression.

(j) In accordance with rules adopted by the State Board of Education, local districts may jointly operate their special education programs. Personnel units and other funds to which the cooperating districts are entitled under this section may be allocated to the districts jointly as cooperative units or cooperative funds in accordance with the cooperative districts' agreement.

(k) Any local district, special education cooperative, or regional education service center may contract with any public or private facility, institution, or agency within or outside of this state for the provision of services to handicapped students under rules adopted by the State Board of Education. Contracts for residential placements, including placements with the Texas Department of Mental Health and Mental Retardation and its community facilities, Texas School for the Blind, Texas School for the Deaf, and other public or private agencies, institutions, or facilities, shall be approved by the commissioner. The rules shall provide for approval of residential placement contracts only after at least a programmatic evaluation of personnel qualifications, adequacy of physical plant and equipment, and curriculum content. Either the whole or a part of a facility or program may be approved. Rules relating to the residential contract approval process shall include provisions designed to ensure that no contract is approved which:

(1) involves the delivery of unapproved services;

(2) involves the delivery of services which the district is capable of providing or is developing the capability to provide; or

(3) is not cost-effective when compared with other alternatives.

(l) Except as provided by Subsection (m) of this section, contracts for residential placements when approved may be paid for from a combination of federal, state, and local funds. The local share of the total contract cost per pupil is that portion of the local tax effort (total dollars generated by debt service and maintenance taxes) which exceeds the district's local fund assignment, divided by the average daily attendance in the district. If the contract involves a private facility, the state share of the total contract cost is that which remains after subtracting the local share. If the contract involves a public facility other than a program or facility administered by the Central Education Agency, the state share is that which remains after subtracting the local share from that portion of the contract which involves the costs of instructional and related services. If the contract involves a program or facility administered by the Central Education Agency, there is no state share paid from this program.

(m) If the state is managing conservator of a student placed in a private residential facility, the
§ 16.104  TEXAS EDUCATION CODE 570

total cost of the residential placement shall be paid from state and federal funds. If the contract involves a public facility other than a program or facility administered by the Central Education Agency, the total of that portion of the contract which involves the costs of instructional and related services shall be paid from state and federal funds. If the contract involves a program or facility administered by the Central Education Agency, there is no state share paid from this program. The State Board of Education shall adopt rules governing the use of federal funds as supplemental or partial payment of the local or state share under Subsections (I) and (m) of this section.

(n) The resident district has the ultimate responsibility for providing or causing the provision of appropriate services to each handicapped student. If the district contracts for the provision of services rather than providing the services of its own accord, then that district retains the responsibility of overseeing the implementation of the student's individualized education plan as well as the responsibility of an annual reevaluation of the appropriateness of the arrangement. An approved facility, institution, or agency with whom the district contracts shall assume as a part of the contract the responsibility of providing the district with periodic reports of services the student has received or will receive in accordance with the terms of the contract as well as diagnostic or other evaluative information which the district requires in order to fulfill its obligations under this section. The State Board of Education shall adopt rules designed to effectuate this subsection.

(o) The salary costs of special education teacher units, other professional and paraprofessional units authorized in this section, operating costs as provided in Subsection (d)(6) of this section and state portion contract costs as provided in Subsections (I) and (m) of this section, computed as other costs of the Foundation School Program for local fund assignment purposes, shall be paid from the Foundation School Program Fund. Provided further, that any school district may supplement any part of the comprehensive special education program it operates or participates in with funds or resources available to it from local sources, public or private. Local enrichment may take the form of but is not limited to employing personnel in excess of the state allocation or supplementing minimum salaries of any personnel employed by the district, and any district may at local expense pay for all or part of further or continuing training or education of its special education personnel.

(p) The legislature shall set a limit on the amount of funds that may be expended under the provisions of this section each year in the General Appropriations Act. Should the amount of funds required to fully fund the provisions of this section pursuant to the rules and regulations of the State Board of Education exceed the amount set by the legislature, the commissioner, with the approval of the board, shall make such adjustments as are necessary to reduce the total cost of the special education program to the limit set by the legislature. The commissioner may make allocations under Subsection (d)(5) of this section not to exceed $3 million a year from the sum appropriated to fund the provisions of this section. The restriction on the dollar amount available under Subsection (d)(5) of this section does not apply to any funds remaining from the sum appropriated after all other allocations are made or to the remaining balance of unexpended funds carried forward from the previous fiscal year.

Section 33 of the 1979 amendatory act provided: "All residential placements of handicapped persons made prior to the effective date of this Act are subject to Subsections (k), (l), and (m), Section 16.104, Texas Education Code, as amended by this Act."

§ 16.105. [Blank]

§ 16.106. Support for Fast-Growing School Districts

(a) It is the purpose of this section to provide state aid to local school districts which experience unusually rapid growth in student enrollment from one year to the next so as to assist those districts in sustaining an adequate educational program for all students.

(b) A district is eligible to receive aid under this section if:

(1) the district's effective tax rate as determined under Subsection (c) of this section is greater than the statewide average effective tax rate as determined under that subsection;

(2) the district's current year's total number of students in average daily attendance as determined under Section 16.102 of this code is equal to or greater than 106 percent of its prior year's total number of students in average daily attendance; and

(3) the district raises its local fund assignment.

(c) For purposes of this section, a district's effective tax rate shall be determined by dividing the total amount of ad valorem tax revenue collected in the immediately preceding school year in the district by the total value of property which is used to calculate the district's local fund assignment. The statewide average effective tax rate shall be determined by dividing the total amount of ad valorem tax revenue collected by all the school districts in the state in the immediately preceding school year by the total index value of property in the state as determined pursuant to Section 11.86 of this code. For the 1979-1980 and 1980-1981 school years, the index values used herein shall be determined in accordance with Section 16.252(b) of this chapter.
(d) For the 1979–1980 school year and for each school year thereafter, the amount of state aid for each eligible school district under this section shall be determined by the formula:

\[ \text{FGA} = \left( \frac{\text{PDG}}{.06} - 1 \right) \times \text{CADA} \times \$80 \]

"FGA" is the district's fast growth allotment; "PDG" is the percentage of the district's student growth, as determined by dividing the difference between the district's current and previous year's number of students in average daily attendance by the district's previous year's number of students in average daily attendance; and "CADA" is the district's current year's number of students in average daily attendance as determined under Section 16.102 of this code.

(e) If the district's index value per student in average daily attendance as determined under Section 16.252(b) of this code is more than $150,000 for each student in average daily attendance, the state aid provided in this section shall be determined by multiplying the following fraction to the otherwise computed amount:

\[ 1 - \left( \text{District's index value per ADA} - \$150,000 \right) \]

\[ \times \$100,000 \]

Section 2 of the 1981 amendatory act provided that it took effect beginning with the 1981–1982 school year which, under the provisions of § 21.001, began on September 1, 1981.

SUBCHAPTER D. CURRENT OPERATING COST COMPONENT

§ 16.151. Operating Cost Allotment

Each school district shall be allotted an operating cost allotment of $139, or a greater amount provided by the General Appropriations Act, for each student in average daily attendance.

SUBCHAPTER E. CATEGORICAL PROGRAM AID COMPONENT

§ 16.176. Support for Educationally Disadvantaged Pupils

(a) In this section "educationally disadvantaged pupils" are pupils who are eligible for the free and reduced lunch program under the provisions of the national school lunch program. The commissioner of education with the approval of the State Board of Education shall review the standards established for educationally disadvantaged pupils and adjust the standards if they perpetuate inequities or become obsolete.

(b) Each school district which is eligible and which also receives aid under the national school lunch program is eligible to receive an allotment of $44, or a greater amount provided by the General Appropriations Act, for each educationally disadvantaged pupil enrolled in its public schools. For purposes of the allocation made pursuant to this section, the number of educationally disadvantaged pupils in each district shall be determined by averaging the best six months' enrollment in the free and reduced lunch program for the school year preceding the biennium in which the allocation is made.

(c) Beginning with the 1979–1980 school year, and each year thereafter the Central Education Agency shall adopt and administer appropriate criterion referenced assessment instruments designed to assess minimum basic skills competencies in reading, writing, and mathematics for all pupils at the fifth grade level and shall also adopt and administer to all ninth grade pupils secondary exit level assessment instruments designed to assess minimum mathematics and English language arts competencies which it deems appropriate for a high school graduate. All ninth grade students who fail to demonstrate mastery of minimum exit level competencies shall be given the opportunity to retake the assessment instrument each year the assessment instrument is administered. Beginning with the 1980–1981 school year and each year thereafter, the Central Education Agency shall adopt and administer appropriate criterion referenced assessment instruments designed to assess basic skills competencies among all students at the third grade level. In addition to the assessment instruments adopted and administered by the Central Education Agency, a local school district may adopt and administer criterion and/or norm referenced assessment instruments at any grade level. Any student who has a physical or mental impairment or a learning disability that prevents the student from mastering the competencies which the assessment instruments are designed to measure...
may be exempted from the requirements of this section.

(d) In adopting assessment instruments pursuant to this section, the Central Education Agency and/or a local school district shall insure the security of the instruments in their preparation, administration, and grading. Meetings or portions of meetings held by the Central Education Agency and/or a local school district at which individual assessment instruments or assessment instrument items are discussed or adopted are not open to the public under Chapter 271, Acts of the 60th Legislature, Regular Session, 1967, as amended (Article 6252-17, Vernon’s Texas Civil Statutes), and the assessment instruments and items are confidential.

(e) The results of individual student performance on assessment instruments administered pursuant to this section are confidential and may be made available only to the student, the student’s parent or guardian, and to the school personnel directly involved with the student’s educational program. However, overall student performance data shall be aggregated by campus and district and made available to the public, with appropriate interpretations, at regularly scheduled meetings of the governing board of each school district. The information may not contain the names of individual students or teachers. The commissioner of education shall compile all of the data and report it to the legislature, lieutenant governor, and governor no later than January 1 of each odd-numbered year.

(f) Each school district shall utilize the student performance data resulting from the assessment instruments administered pursuant to this section to design and implement appropriate compensatory instructional services for students in the district’s schools and shall submit an annual report to the commissioner of education which describes how state compensatory funds received pursuant to this section have been used to provide for those services.

(g) The legislature in each General Appropriations Act shall set a limit on the amount of funds that may be expended under this section each year. If the total amount of compensatory education aid required by this section exceeds the limit set by the legislature, each district’s allotment shall be reduced proportionately until the amount of aid allocated equals that limit.

(h) If the cost of preparing, administering, or grading the assessment instruments is paid from the compensatory aid provided by this section, each district shall bear the cost on the basis of the number of students in the district to whom the instruments are administered. If a district does not receive an allocation of compensatory aid, the commissioner of education shall subtract the cost from the district’s foundation school fund allocation.

§ 16.177. Driver Education
(a) The Central Education Agency shall develop a program of organized instruction in driver education and traffic safety for public school students who are 15 years of age or older.

(b) With the approval of the State Board of Education, the commissioner of education shall establish standards for the certification of professional and paraprofessional personnel who conduct the programs in the public schools.

(c) Beginning with the 1975-1976 school year, a school district is eligible to receive annually funds to finance a driver education program in an amount not to exceed $25 multiplied by 20 percent of its high school enrollment in grades 10-12, but in no instance shall the allotment made to the district exceed $25 multiplied by the number of students actually enrolled in driver education during the school year for which the funds were provided.

SUBCHAPTER F. TRANSPORTATION COMPONENT

§ 16.201. Transportation Services
Transportation services shall be provided and allotments therefor shall be determined according to the provisions of this subchapter.

§ 16.202. Public School Transportation System
(a) The county school boards, where funded under law, or local district school boards, subject to approval by the state commissioner of education, are authorized to establish and operate an economical public school transportation system within their respective counties or school districts.

(b) In establishing and operating such transportation systems, the county or local district school boards shall:

(1) requisition buses and supplies from the state board of control as provided for in this subchapter;

(2) prior to June 1 of each year, with the commissioner’s approval, establish school bus routes in...
§ 16.206. Calculation of Allotment

(a) The total annual regular transportation cost allotment for each district or county shall be based on the rules and formulas of this section.

(b) As used in this section:

(1) "Regular eligible pupil" means a pupil who resides two or more miles from his or her campus of regular attendance, measured along the shortest route that may be traveled on public roads, and who is not classified as an eligible handicapped pupil.

(2) "Eligible handicapped pupil" means a pupil who is handicapped as defined in Section 16.104 of this code and who would be unable to attend classes without special transportation services.

(3) "Linear density" means the average number of regular eligible pupils transported daily, divided by the approved daily route miles traveled by the respective transportation system.

(c) For the 1979–1980 and 1980–1981 school years, allowable total base costs of maintenance, operation, salaries, depreciation, etc., for each bus route shall be:

Density grouping shall be based on the 1977–78 data compiled by the commissioner of education pursuant to Section 10, Chapter 1, Acts of the 65th Legislature, 1st Called Session, 1977.

(d) For the 1981–82 school year and thereafter, the commissioner of education shall determine the daily cost per regular eligible pupil of operating and maintaining the regular transportation system based on the linear density of that system. In determining the cost, the commissioner shall give consideration to factors affecting the actual cost of providing these transportation services in each district. The average actual cost is to be computed by the commissioner of education and included for consideration by the Foundation School Program Committee and the legislature in the General Appropriations Act.

(e) A district may apply for and on approval of the commissioner of education receive an additional amount of up to 10 percent of its regular transportation allotment to be used for the transportation of children living within two miles of the school they...
§ 16.206  TEXAS EDUCATION CODE  574

attend who would be subject to hazardous traffic conditions if they walked to school. Each board of trustees shall provide to the commissioner the definition of hazardous conditions applicable to that district and shall identify the specific hazardous areas for which the allocation is requested. A hazardous condition exists where no walkway is provided and children must walk along or cross a freeway or expressway, an underpass, an overpass or a bridge, an uncontrolled major traffic artery, an industrial or commercial area, or another comparable condition.

(f) The state commissioner of education may grant an amount not exceeding $600 per pupil per year in 1979–1980 and 1980–1981 for private or commercial transportation for eligible pupils from isolated areas. The per pupil per year allowable for the 1981–1982 school year and thereafter shall be determined by the commissioner of education and included for consideration by the Foundation School Program Committee and the legislature in the General Appropriations Act. The need for this type of transportation shall be determined on an individual basis and the amount granted shall not exceed the actual cost. The grants shall be made only in extreme hardship cases, and no grants shall be made if the pupils live within two miles of an approved school bus route.

(g) The cost of transporting vocational education students from one campus to another inside a district or from a sending district to another secondary public school for a vocational program or an area vocational school or to an approved post-secondary institution under a contract for instruction approved by the Central Education Agency shall be reimbursed based on the number of actual miles traveled times the district's official extracurricular travel per mile rate as set by their local board of trustees and approved by the Central Education Agency.

(h) A school district that provides special transportation services for eligible handicapped pupils is entitled to a state allocation. Allocations for handicapped transportation in district- or county-operated school buses shall be paid on a previous year's cost-per-mile basis. For the 1979–1980 and 1980–1981 school years, the maximum allowable per mile cost will be 80 cents. For the 1981–1982 and 1982–1983 school years and thereafter, the maximum rate per mile allowable shall be recalculated based on data gathered from the first year of each preceding biennium. Districts may use a portion of their support allocation to pay transportation costs, if necessary. The commissioner of education may grant an amount not to exceed 18 cents per mile or a maximum of $600 per pupil per year for private transportation to reimburse parents or their agents for providing eligible handicapped pupils. For the 1981–1982 and 1982–1983 school years and thereafter, the rate per mile and the maximum allowable per pupil will be determined by the commissioner of education for consideration by the Foundation School Program Committee and the legislature in the General Appropriations Act. The mileage allowed shall be computed along the shortest public road from the pupil's home to school and back, morning and afternoon. The need for this type transportation shall be determined on an individual basis and shall be approved only in extreme hardship cases.

(i) The allocation for eligible regular students transported by the regular transportation system shall be increased by five percent for any district or county school board which has complied with the provisions of Section 21.173 of this code in accordance with rules adopted by the State Board of Education.

(j) The total allocation for a district or county transportation unit for the 1979–1980 or 1980–1981 school year shall not be less than the total allocation received for the 1978–1979 school year based on an equal number of state-approved bus routes. If the district or county has deleted routes, the minimum allocation shall be proportionately reduced.

§ 16.207. Routes and Systems: Evaluation and Approval

(a) All bus routes and transportation systems shall be reviewed by the state commissioner of education and he shall be responsible for establishing criteria for evaluating the several transportation systems of this state, but all the criteria shall be subject to approval by the State Board of Education.

(b) The commissioner shall evaluate all transportation systems as rapidly as possible.

(c) No new bus routes or extensions shall be approved prior to the survey of the transportation system of the district or county requesting them.

(d) In approving a transportation system for a district or county, consideration shall be given to providing transportation for only those pupils who reside in hazardous areas or live two or more miles from the school they attend except handicapped pupils. No consideration shall be given to providing transportation for pupils transferred from one district to another when their grades are taught in their home district unless transferred as provided by law and transportation has been approved as provided by law.

(e) There shall be no duplication of bus routes and services within sending districts by buses operated by two school districts and/or counties except on approval by the state commissioner of education.

§ 16.208. Use of Transportation Funds for Other Purposes

No funds paid to the several transportation units for the operation of transportation systems in this state shall be expended for any other purpose. [Amended by Acts 1975, 64th Leg., p. 877, ch. 334, § 1, eff. Sept. 1, 1975.]

§ 16.209. Rules of Commissioner

The commissioner of education shall formulate rules and regulations, subject to approval by the State Board of Education for enforcing the provisions of this subchapter. [Amended by Acts 1975, 64th Leg., p. 877, ch. 334, § 1, eff. Sept. 1, 1975.]

Appeals to the commissioner of education and to the State Board of Education may be had from policy decisions of the school boards affecting transportation. [Amended by Acts 1975, 64th Leg., p. 877, ch. 334, § 1, eff. Sept. 1, 1975; Acts 1979, 66th Leg., p. 1314, ch. 602, § 12, eff. Aug. 27, 1979.]

§ 16.211. Purchase of Vehicles

(a) Motor vehicles used for the purpose of transporting school children, including school buses, their chassis and/or bodies purchased through the state board of control, shall be paid for by the state board of control as set out in applicable laws. The legislature may appropriate out of any money in the state treasury not otherwise appropriated a sum not exceeding $250,000, or as much thereof as necessary, for the state board of control to be used for such purposes.

(b) Any sum appropriated shall be known as the school bus revolving fund. When motor vehicles and school buses are delivered to the various schools coming within the provisions of this chapter, the governing bodies of those schools shall reimburse the state board of control for the money expended for such school buses including their chassis and/or bodies and the money shall be deposited by the state board of control in the school bus revolving fund. [Amended by Acts 1975, 64th Leg., p. 877, ch. 334, § 1, eff. Sept. 1, 1975.]

§ 16.212. Contract With Public Transportation Company

(a) As an alternative to maintaining and operating a complete public school transportation system under this subchapter, a county or district school board may contract with public transportation companies for all or any part of its public school transportation if the board is able to obtain an economically advantageous contract.

(b) A contract is economically advantageous if the cost of the service contracted for is equal to or less than the total cost to the school district for providing its own complete bus service. The total cost to the school district is the state transportation cost allotment plus the supplementary funds necessarily provided by the local school district to provide complete transportation services.

(c) This section in no way prohibits the local school board from supplementing the state transportation cost allotment with local funds necessary to provide complete transportation services.

(d) The state commissioner of education, subject to the approval of the State Board of Education, shall make rules for the administration of this section.

(e) Contracts for alternative public school transportation may include provisions for transporting students to and from approved school activities.

(f) Upon approval of the contract by the State Board of Education, the portion of the annual transportation allotment which is to be used to finance the contract for alternative transportation services shall be included in the annual transportation cost allotment for the respective county or district. [Added by Acts 1979, 66th Leg., p. 1314, ch. 602, § 12, eff. Aug. 27, 1979.]

SUBCHAPTER G. FINANCING THE PROGRAM

§ 16.251. Financing; General Rule

(a) The sum of the approved minimum salaries for personnel, current operating expenses, categorical program aid, and transportation services for each district, computed in accordance with the provisions of this chapter, constitute the total cost of the Foundation School Program.

(b) The program shall be financed by:

(1) ad valorem tax revenue generated by an equalized local school district effort;

(2) state available school funds distributed in accordance with law; and

(3) state funds appropriated for the purposes of public school education and allocated to each district in an amount sufficient to finance the cost of each district's Foundation School Program not covered by other funds specified in this subsection.

[Amended by Acts 1975, 64th Leg., p. 877, ch. 334, § 1, eff. Sept. 1, 1975; Acts 1977, 65th Leg., 1st C.S., p. 46, ch. 1, § 35, contained similar provisions.]

§ 16.252. Local Share of Program Cost

(a) Each school district's share of its guaranteed entitlement under the Foundation School Program shall be an amount equal to the product of an index rate of .0016, or a different rate provided by the General Appropriations Act, multiplied by the index...
§ 16.252  TEXAS EDUCATION CODE 576

value of property determined pursuant to Section 11.86 of this code. The commissioner of education shall utilize the official biennial report of the State Property Tax Board estimates of index value in each school district for determining the local fund assignment.

(b) No district's local fund assignment as determined pursuant to this section shall exceed 120 percent of its prior year's local fund assignment.

(c) The commissioner of education shall adjust the values reported in the official report of the State Property Tax Board to reflect reductions in taxable value of property resulting from natural or economic disaster after January 1 in the year in which the valuations are determined. The decision of the commissioner of education shall be final. Appeals of district valuations shall be held pursuant to Subsection (d) of Section 11.86 of this code.

(d) A district need not raise its total local share of its program cost.

Section 33(d) of the 1977 amendatory act provides, in part, that subsec. (d) of this section shall take effect on the passage of the Act and that all other sections of the Act take effect on September 1, 1977.

§ 16.253. Excess of Local Funds Over Amount Assigned

Local maintenance funds in excess of the amount assigned to a district may be expended for any lawful school purpose or carried over to the next school year.

[Amended by Acts 1975, 64th Leg., p. 877, ch. 334, § 1, eff. Sept. 1, 1976.]

§ 16.254. Distribution of Foundation School Fund

(a) The commissioner of education shall determine annually:

(1) the amount of money necessary to operate a Foundation School Program in each school district;

(2) the amount of local funds assigned to each school district for the support of the program; and

(3) the amount of state available school funds distributed to each school district.

(b) The commissioner of education shall then grant to each school district from the Foundation School Program appropriation the amount of funds necessary to provide the difference between Subdivision (1) and the sum of Subdivisions (2) and (3) of Subsection (a) of this section.

(c) The commissioner shall approve warrants to each school district equaling the amount of its grant. Warrants for all money expended according to the provisions of this chapter shall be approved and transmitted to treasurers or depositories of school districts in the same manner as warrants for state apportionment are transmitted.

(d) Notwithstanding Subsection (b) of this section, no school district shall receive less state aid, plus pay raises exclusive of service increments for foundation personnel provided by Section 16.055(b) of this code, per student in average daily attendance that it received per student in average daily attendance under the total of the Foundation School Program for the 1980–1981 school year added to the amount received for that year under Subchapter D, Chapter 20 of this code.

§ 16.255. Falsification of Records; Report

(a) When, in the opinion of the director of school audits of the Central Education Agency, audits or reviews of accounting, enrollment, or other records of a school district reveal deliberate falsification of the records, or violation of the provisions of this chapter, whereby the district's share of state funds allocated under the authority of this chapter would be, or has been, illegally increased, the director shall promptly and fully report the fact to the State Board of Education and the state auditor.

(b) In the event of overallocation of state funds, as determined by the State Board of Education or the state auditor by reference to the director's report, the Central Education Agency shall, by withholding from subsequent allocations of state funds, recover from the district an amount, or amounts, equal to the overallocation.

[Amended by Acts 1975, 64th Leg., p. 877, ch. 334, § 1, eff. Sept. 1, 1975.]

The repealed section, relating to duties of tax assessors, was derived from former § 16.77, as amended by Acts 1975, 64th Leg., p. 877, ch. 334, § 1, as § 16.256.

§ 16.257. Foundation School Fund Budget Committee

(a) The foundation school fund budget committee is composed of the governor, the lieutenant governor, and the comptroller of public accounts.

(b) On or before November 1 before each regular session of the legislature, the budget committee shall determine and certify to the comptroller of public accounts an amount of money to be placed in the foundation school fund for the succeeding biennium for the purpose of financing the Foundation School Program as described in this code.

(c) The budget committee may, during the biennium, change the estimate of money necessary to finance the Foundation School Program.

[Sections 16.258 to 16.300 reserved for expansion]
§ 16.301. Determination of Equalization Aid Entitlement

The amount of state equalization aid to which a district is entitled is determined by the formula:

\[
\text{SEA} = 1 - (\frac{\text{SPV}}{\text{ADA}} \times 1.10) \times \frac{\text{ADA}}{\text{MAXENT}}
\]

where

- “SEA” is the state equalization aid guaranteed to the district;
- “DPV/ADA” is the average of the district’s market value and index value of property as determined pursuant to Section 11.86 of this code divided by the number of students in average daily attendance in the district, which for districts not offering a kindergarten through grade 12 program includes the average daily attendance of eligible students transferred to other school districts in grades not taught by the resident district;
- “SPV/ADA” is the average of the total statewide market value and index value of property as determined pursuant to Section 11.86 of this code divided by the total number of students in average daily attendance in the state;
- “MAXENT” is the maximum entitlement per ADA, which is $290 or a greater amount provided by the General Appropriations Act;
- “ADA” is the number of students in average daily attendance in the district.

§ 16.302. Districts in Major Disaster Areas

If a school district is within an area that has been declared a major disaster area by the governor and has suffered a property value loss equivalent to 12½ percent or more of its prior year valuations for tax purposes, the school district shall be eligible under rules and regulations of the commissioner of education for the maximum entitlement provided by this section for the two subsequent school years.

[Amended by Acts 1979, 66th Leg., p. 1319, ch. 602, § 14, eff. Aug. 27, 1979.]

§ 16.303. Payment of State Aid

(a) The state’s equalization aid for program enrichment shall be paid from the Foundation School Fund pursuant to regulations of the State Board of Education.

(b) The legislature in each General Appropriations Act shall set a limit on the amount of funds that may be expended under this subchapter each year. If the amount of state aid required by this subchapter exceeds the limit set by the legislature, the amount of state equalization aid guaranteed to each district shall be reduced proportionately until the total amount of funds required equals that limit.

SUBCHAPTER I. SCHOOL-COMMUNITY GUIDANCE CENTERS

§ 16.401. Establishment

(a) Each school district with an average daily attendance of at least 6,000 students may establish a school-community guidance center designed to locate and assist children with problems which interfere with their education, including but not limited to juvenile offenders and children with severe behavioral problems or character disorders. The centers shall coordinate the efforts of school district personnel, local police departments, truant officers, and probation officers in working with students, dropouts, and parents in identifying and correcting factors which adversely affect the education of the children.

(b) With the approval of the commissioner of education, school districts with an average daily attendance of less than 6,000 students may cooperate with other districts for the purpose of establishing a common center.

§ 16.402. Cooperative Programs

The board of trustees of a school district may develop cooperative programs with state youth agencies for children found guilty of delinquent conduct.

§ 16.403. Guidance Center Personnel Allotments

(a) Each school-community guidance center is eligible for two guidance center teachers, one attendance consultant, and one teacher aide. Each center is also eligible for one additional guidance center teacher for each 6,000 students in average daily attendance above 6,000 students in the district or cooperating districts. One additional attendance consultant and one additional teacher aide shall be provided for every two additional guidance center teachers.
§ 16.403  TEXAS EDUCATION CODE

(b) The commissioner shall determine the qualifications and applicable pay grade under the Texas State Public Education Compensation Plan for the guidance center teachers, attendance consultants, and teacher aides employed at a center.

(c) The local boards of trustees may enter into contracts with other agencies for funding of personnel involved in cooperative programs.

§ 16.404. Operating Costs

(a) The cost of operating an approved school-community guidance center shall be borne by the state and each participating district on the same percentage basis that applies to financing the Foundation School Program within the district. The state's share of the cost shall be paid from funds appropriated for that purpose. While in attendance at a school-community guidance center, a student may not be counted in the average daily attendance of the school district for other Foundation School Program purposes.

(b) Should the appropriation in any biennium be insufficient to fully fund the Act, the State Board of Education shall establish criteria in addition to those provided herein for selecting districts to be funded on a need basis. The commissioner shall use these criteria to determine annually the districts to be authorized to receive funds for operating school-community guidance centers.

§ 16.405. Cooperation of Governmental Agencies

Each governmental agency concerned with children in the school district shall cooperate with the school-community guidance centers on the request of the superintendent of schools and shall designate liaison persons to work with the centers in identifying and correcting problems affecting school-age children in the district.

The deleted section, relating to a termination date, was added by Acts 1977, 65th Leg., p. 1858, ch. 736, § 1. Section 3 of the 1981 Act provided that it was to take effect with the 1981–1982 school year (which, under § 21.001, was September 1, 1981) except that to the extent it affected this section it was to take effect immediately. Due to failure to take record vote of yeas and nays, however, as required by Const. Art. 3, § 39, the Act's affect on this section did not take effect until the general 90-day effective date, August 31, 1981.

SUBCHAPTER J. EDUCATIONAL PROGRAMS FOR GIFTED AND TALENTED STUDENTS

§ 16.501. Exemplary Programs

(a) As used in this section, "gifted and talented student" means a student who, by virtue of outstanding mental abilities, is capable of high performance. The student may demonstrate, singly or in combination, above-average achievement or potential in such areas as general intellectual ability, specific subject matter aptitude, ability in creative and productive thinking, and leadership ability. The phrase does not include students who demonstrate above-average achievement or potential in areas relating to physical abilities.

(b) The Central Education Agency shall establish exemplary programs for gifted and talented students in various regions of the state. The exemplary programs shall reflect different approaches and alternatives suitable to the needs of the gifted and talented and commensurate with their learning abilities and special talents. The exemplary programs shall be representative of different types of districts in various parts of the state in terms of size, composition, geographical influences, and shall be proportionate to the number of gifted and talented students and districts to benefit by their establishment.

(c) Students shall be identified as gifted and talented for the exemplary programs through the use of criteria established by the commissioner of education.

(d) A school district or a combination of school districts electing to establish an exemplary program for gifted and talented students shall submit an application to the Central Education Agency based on guidelines established by the commissioner of education. To be eligible for funding consideration, an educational program for gifted and talented students shall be planned and conducted for no less than a full school year.

(e) The Central Education Agency shall develop and periodically update a state plan for the education of the gifted and talented to guide local education agencies in establishing and improving programs for students identified as gifted and talented. The Central Education Agency shall assist local education agencies in the development of planned programs which are appropriately designed to meet the special needs of gifted and talented students.

[Added by Acts 1979, 66th Leg., p. 1161, ch. 562, § 1, eff. Aug. 27, 1979.]

§ 16.502. Funding

(a) The funds for the exemplary programs for gifted and talented students shall be administered by the Central Education Agency. If the total amount of aid requested by applying eligible districts for exemplary programs for gifted and talented students exceeds the amount appropriated for the programs, the Central Education Agency shall select programs to be funded based on the criteria in
Subsection (b) of Section 16.501 and the guidelines established by the commissioner of education pursuant to Subsection (d) of Section 16.501. The state’s share of the cost shall be paid from the foundation school fund and shall be considered by the foundation school fund budget committee in estimating the funds needed for foundation school program purposes.

(b) Applying eligible districts shall receive an allotment of $150 per pupil identified and served by the district in an exemplary program. A district or combination of districts must identify a minimum of 20 students to be eligible for an allotment. For the purposes of receiving funds under this section, no district may count as pupils served more than five percent of its total average daily attendance and no district shall receive in excess of $100,000.

(c) Up to 10 percent of the funds allocated for the establishment of the exemplary programs may be reserved by the commissioner of education for program administration in coordination with the regional education service centers for program planning, technical assistance, and statewide staff development.

[Added by Acts 1979, 66th Leg., p. 1161, ch. 562, § 1, eff. Aug. 27, 1979. Amended by Acts 1981, 67th Leg., p. 73, ch. 33, § 1, eff. April 15, 1981.]

SUBCHAPTER K. SCHOOL FINANCE STUDIES

For another Subchapter K, see Subchapter K, post

§ 16.503. Contents; Recommendations to Legislative Budget Board

By July 1, 1982, the Central Education Agency shall have conducted a study of school finance and shall reflect the results of the study in the agency’s recommendations to the Legislative Budget Board regarding state appropriations for the 1983–1984 and 1984–1985 school years. The study shall include but not be limited to local property tax burden variance in purchasing power of the dollar in different types of school districts as compared to state average. The study shall also consider the development of alternative finance formulas and/or formula adjustments for use by the Legislative Budget Board and the legislature.

SUBCHAPTER K. SUMMER SCHOOL PILOT PROGRAM

For another Subchapter K, see Subchapter K, ante

Text of Subchapter K effective until September 1, 1985

§ 16.521. Pilot Programs

(a) With the approval of the commissioner of education, a school district may establish a summer school pilot program to provide instruction beyond the number of days required by this chapter for:

(1) elementary and secondary students who do not accomplish designated minimum grade level objectives;

(2) secondary students who do not accomplish designated minimum objectives in a required course during the regular school term; and

(3) elementary and secondary students who are identified as having limited English proficiency.

(b) The Central Education Agency shall develop a state plan for the establishment and operation of the summer school pilot programs. In order to be approved for state funding, a school district’s program must be consistent with the state plan as determined by the commissioner of education. The agency shall assist districts in the development of programs.

(c) Two or more school districts may apply for approval of a cooperative pilot program.

(d) No district may establish such a summer school pilot program in a manner which would supplant the offering of similar remedial programs during the regular school term, nor may any district offering such a summer school pilot program require a student to participate in the program.

§ 16.522. Operating Costs

The cost of operating an approved pilot program shall be borne by the state and each participating district. The state’s share of the cost shall be paid from the foundation school fund and shall be allocated by the commissioner of education, taking into consideration each district’s available funds and program. The commissioner is not required to make equal or proportional allocations to each district. To the extent available, each district shall allocate applicable federal or state compensatory funds to the support of the program.

§ 16.523. Cost Limitation

For each school year, the total cost to the state under this subchapter may not exceed $5 million.

§ 16.524. Termination

(a) The commissioner of education shall cause the pilot programs to be evaluated and shall report the evaluations to the State Board of Education. The state board shall report its findings and recommendations to the governor and the 69th Legislature. The state board shall make recommendations as to
whether the programs should be implemented on a statewide basis.

(b) The pilot program is abolished and this subchapter expires effective September 1, 1985.

[Amended by Acts 1979, 66th Leg., p. 2167, ch. 829, § 1, eff. Aug. 27, 1979.]

§ 20.43. Interest Bearing Time Warrants

(a) Any school district in the State of Texas in need of funds to repair or renovate school buildings; purchase school buildings and school equipment; to equip school properties with necessary heating, water, sanitation, lunchroom and electric facilities; or is in need of funds with which to employ an individual firm or corporation deemed to have special skill and experience to compile taxation data for use by its board of equalization; and said school district is financially unable out of available funds to make such repairs, renovations of school buildings, purchase school buildings, purchase school equipment, to equip school properties with necessary heating, water, sanitation, lunchroom or electric facilities or is unable to pay such individual or corporation for the performance of the professional duties hereinabove mentioned, may, subject to the provisions hereof, issue interest-bearing time warrants, in amounts sufficient to make such purchase and improvements, to pay all or part of the compensation of such individual, firm or corporation to compile such data, any law to the contrary notwithstanding. Such warrants shall mature in serial installments of not more than five years from their date of issue, and to bear interest at a rate not to exceed six percent per annum. Such warrants shall upon maturity be payable out of any available funds of such school district in the order of their maturity dates. Any such interest-bearing time warrants so issued may be issued and sold by such district for not less than their face value, and the proceeds thereof used to provide funds required for the purpose for which they are issued. Such warrants shall be entitled to first and prior payment out of any available funds of such district as they become due. Included in such purposes is the payment of any amounts owed by said school districts, which indebtedness was incurred in carrying out any of such purposes.

(b) No such interest-bearing time warrants shall be issued or sold by a common school district or rural high school district until the same shall have been approved by the county board of school trustees; and said board shall, upon application of such school district, inquire into the financial conditions and needs of such district, and shall not approve the issuance of such interest-bearing time warrants unless in its opinion said district is in need of such repair and renovation of school building, and school equipment and to equip school properties with neces-
sary heating, water, sanitation, lunchroom and electric facilities, and will be able with the resources in prospect to liquidate said warrants at their maturity.

(c) No school district in the State of Texas shall issue such interest-bearing time warrants in excess of five percent of the assessed valuation of the district, for the year in which such interest-bearing time warrants are issued; nor shall the payment of such interest-bearing time warrants in any one year exceed the anticipated surplus income of the district for the year in which the warrants are issued. Based on the budget of the district for said year, such anticipated income to be computed by taking the entire expected income of such school district from every source for the year in which such interest-bearing time warrants are issued, less teachers' salaries, bus aid included in the foundation fund, and that part of the local maintenance tax earmarked for salaries and known in the Gilmer-Aiken Law as the economic index or fund assignment. The anticipated income computation as herein defined shall be exclusive of all bond taxes. No school district shall have outstanding at any one time warrants totaling in excess of $120,000 under the provisions of this section.

(d) In every instance wherein interest-bearing time warrants or other evidence of indebtedness have been issued by school districts within the State of Texas for any of the purposes herein provided for, the act of the board of trustees, and/or governing board of such district in issuing such interest-bearing time warrants are each and all hereby expressly validated. The indebtedness thus attempted to be created by such action is hereby declared to be the indebtedness of such district and shall be paid out of available funds as herein provided.

(e) Whenever any such interest-bearing time warrants have been issued under this section, and so long as any of them may be outstanding the officer in charge of the collection of delinquent taxes shall pay the same to legal depository of the district, to be deposited and held in a special fund for the payment of such interest-bearing time warrants, and except as herein otherwise provided, no part thereof shall be applied or used for any other purpose.

(f) Interest and penalties on delinquent taxes shall be deemed a part of such taxes for the purpose of this section. Should any delinquent taxes, including interest and penalties, be cancelled, waived, released or reduced either by such school district or in any other way, with or without its consent, the amount of the loss so sustained shall be paid by the district to the special fund provided for herein out of funds not otherwise pledged to such special fund.

(g) All school districts issuing interest-bearing time warrants shall have the power to fix lien on and encumber and mortgage any and all property purchased with the proceeds of such warrants, and to fix a lien on and encumber any property, including teacherages owned by the district to secure the payment of legally incurred obligations. Provided, however, there shall never be a valid lien authorized or fixed on any school building wherein actual classroom instruction of pupils attending such school is being carried on or conducted.

(h) The word "interest-bearing time warrant" as used in this section means promissory note, interest-bearing time warrant, obligation or other evidence of indebtedness issued under this section.

(i) Taxes levied in any year to pay principal and interest of bonds and which taxes subsequently become delinquent for the purpose of this section, shall not be included in the term taxes or revenues or delinquent taxes as herein used.

Section 1 of Acts 1979, 66th Leg., ch. 841, repealing this section, enacted the Property Tax Code, constituting Title 1 of the Tax Code.

In those cases, the board of trustees of the independent school district may, on its own motion, order an election for the purpose of submitting to the qualified voters of the district the proposition of whether or not the authorized but unissued bonds may be issued, sold, and delivered for other and different purposes specified in the election order and the election notice. The election shall be ordered, held, and conducted in the same form and manner as that at which the bonds were originally authorized. If a majority of those voting at the election vote in favor of the sale and delivery of the unissued bonds and the use of the proceeds of the bonds for the purpose or purposes specified in the election order and the election notice, the board of trustees of the independent school district shall be authorized to issue, sell, and deliver the bonds and use the proceeds of the bonds for the purpose or purposes authorized at the election.

of Control or by the county school trustees or the trustees of the school district under such rules and regulations as the Board of Control may provide. [Amended by Acts 1979, 66th Leg., p. 1321, ch. 602, § 20, eff. Aug. 27, 1979.]

Prior to repeal, this section was amended by Acts 1979, 66th Leg., p. 603, ch. 279, §§ 1, 2, eff. May 24, 1979, by repealing subsec. (c) and deleting the last portion of the last sentence of subsec. (d).

The rules shall include guidelines describing situations that justify operation of a bus with standees and shall provide a mechanism that ensures that applications under Subsection (b) of this section are acted on without delay. [Added by Acts 1979, 66th Leg., p. 1325, ch. 602, § 29, eff. Aug. 27, 1979.]

The board of trustees of each school district shall provide by written policy for the periodic written evaluation of each teacher in its employ at annual or more frequent intervals. Such evaluation shall be considered by the board of trustees prior to any decision by the board not to renew the term contract of any teacher.

§ 21.203. Nonrenewal of Term Contracts

(a) The board of trustees of each school district may choose not to renew the employment of any teacher employed under a term contract effective at the end of the contract period.

(b) The board of trustees of each school district shall establish policies consistent with this subchapter which shall establish reasons for nonrenewal.

(c) The board of trustees of each school district shall establish policies and procedures for receiving recommendations from its school administration for the nonrenewal of teacher term contracts, excepting only the general superintendent of schools.

§ 21.204. Notice

(a) In the event the board of trustees receives a recommendation for nonrenewal, the board, after consideration of the written evaluations required by Section 21.202 of this subchapter and the reasons for the recommendation, shall, in its sole discretion, either reject the recommendation or shall give the teacher written notice of the proposed nonrenewal on or before April 1 preceding the end of the employment term fixed in the contract.

(b) In the event of failure to give such notice of proposed nonrenewal within the time herein specified, the board of trustees shall thereby elect to employ such employee in the same professional capacity for the succeeding school year.

(c) The notice of proposed nonrenewal required in this section shall contain a statement of all the reasons for such proposed action.

§ 21.205. Hearing

(a) If the teacher desires a hearing after receiving notice of the proposed nonrenewal, the teacher shall notify the board of trustees in writing within 10 days after receiving the notice of nonrenewal. The board shall provide for a hearing to be held within 15 days after receiving written notice from the teacher requesting a hearing. § 21.207. Appeal

(a) If the teacher is aggrieved by the decision of the board of trustees, he may appeal to the State Commissioner of Education pursuant to Section 11-13 of this code. The commissioner may not substitute his judgment for that of the board of trustees, unless the decision below was arbitrary, capricious, unlawful, or not supported by substantial evidence.

(b) The State Board of Education shall have jurisdiction to hear appeals from such decisions of the State Commissioner of Education.

§ 21.208. Superintendents

If a majority of the board of trustees of any school district shall determine that the term contract of the general superintendent of schools should be considered for nonrenewal, the provisions of this subchapter shall apply, except that there need not be a recommendation from the designated school administration.

The board of trustees of any school district may provide by written policy for a probationary period not to exceed the first two years of continuous employment in the district, in which case the provisions of this subchapter shall not apply during such probationary period.

Nothing in this subchapter shall prohibit a board of trustees from discharging a teacher for cause during the term of the contract.

§ 21.211. Exemptions

This subchapter does not apply to teachers who are employed under the provisions of the probationary or continuing contract law as set out in Subchapter C of Chapter 13 of this code.1

[See Compact Edition, Volume 1 for text of (e) and (f)]

[Amended by Acts 1977, 65th Leg., p. 1378, ch. 549, § 1, eff. June 15, 1977.]

SUBCHAPTER I. DISCIPLINE, LAW AND ORDER

§ 21.301. Suspension of Incorrigible Pupil

(a) The board of trustees of any school district may suspend from the privileges of the schools any pupil found guilty of incorrigible conduct, but such suspension shall not extend beyond the current term of the school.

(b) A teacher may remove a pupil from class in order to maintain effective discipline in the classroom. The principal shall respond by employing disciplinary alternatives consistent with local policy.

(c) A teacher may recommend for suspension, and remove from class immediately, any pupil who assaults that teacher on school property as defined in Section 4.23(b) of this code, or has been documented in that teacher's opinion to repeatedly interfere with that teacher's ability to communicate effectively with the majority of students in the class.

(d) Upon a recommendation for suspension under Subsection (c) of this section, the principal shall schedule a hearing within three class days following the pupil's removal between the principal, or a designated representative, a parent or guardian of the pupil, the teacher, and the pupil. Following the hearing, and whether or not all requested parties are in attendance after valid attempts to require their attendance, the principal shall:

(1) suspend the pupil from the privileges of the schools for any period of time consistent with local policy, but not beyond the current term of school; or

(2) suspend the pupil from the class for any period of time not to extend beyond the current term of school; or

(3) place the pupil back in that class. If the pupil commits a second offense under this section, the pupil may be removed from that class immediately by the teacher, and following the teacher's recommendation for suspension may not return to that class during the current term of school without the teacher's approval. The recommendation of the teacher may only be reversed by action of the superintendent at the request of the principal. Upon any third or subsequent offense under this section by the same pupil, only the board of trustees may return that pupil to that class during the current term of school after the teacher's recommendation has been reversed by the principal and superintendent.

(e) Regardless of the decision at any hearing, any party may appeal the decision to the superintendent of schools and thereafter, if desired, to the board of trustees.

[Amended by Acts 1979, 66th Leg., p. 1130, ch. 541, § 1, eff. Aug. 27, 1979.]

SUBCHAPTER L BILINGUAL EDUCATION AND SPECIAL LANGUAGE PROGRAMS

§ 21.451. State Policy

English is the basic language of the State of Texas. Public schools are responsible for providing full opportunity for all students to become competent in speaking, reading, writing, and comprehending the English language. The legislature finds that there are large numbers of students in the state who come from environments where the primary language is other than English. Experience has shown that public school classes in which instruction is given only in English are often inadequate for the education of these students. The legislature recognizes that the mastery of basic English language skills is a prerequisite for effective participation in the state's educational program. The legislature believes that bilingual education and special language programs can meet the needs of these students and facilitate their integration into the regular school curriculum. Therefore, pursuant to the policy of the state to insure equal educational opportunity to every student, and in recognition of the educational needs of students of limited English proficiency, it is the purpose of this subchapter to provide for the establishment of bilingual education and special language programs in the public schools and to provide supplemental financial assistance to help local school districts meet the extra costs of the programs.

§ 21.452. Definitions

In this subchapter the following words have the indicated meanings:

(1) "Agency" means the Central Education Agency.

(2) "Board" means the governing board of a school district.

(3) "Students of limited English proficiency" means students whose primary language is other than English and whose English language skills are such that the students have difficulty performing ordinary classwork in English.

(4) "Parent" means the parent(s) or legal guardian(s) of the student.

§ 21.453. Establishment of Bilingual Education and Special Language Programs

(a) The State Board of Education shall adopt rules establishing a procedure for identifying school districts that are required to offer bilingual education and special language programs in accordance with this subchapter.

(b) Within the first four weeks following the first day of school, the language proficiency assessment committee established under Section 21.462 shall determine and report to the governing board of the school district the number of students of limited English proficiency on each campus and shall classify them according to the language in which they possess primary proficiency. The governing board shall report that information to the agency before the first day of November each year.

(c) Each school district which has an enrollment of 20 or more students of limited English proficiency in any language classification in the same grade level shall offer a bilingual education or special language program.

(d) Each district that is required to offer bilingual education and special language programs under this section shall offer the following for students of limited English proficiency:

   (1) bilingual education in kindergarten through the elementary grades;

   (2) bilingual education, instruction in English as a second language, or other transitional language instruction approved by the agency in post-elementary grades through grade 8; and

   (3) instruction in English as a second language in grades 9–12.

(e) If a program other than bilingual education must be used in kindergarten through the elementary grades, documentation for the exception must be filed with and approved by the commissioner of education, pursuant to the rules of the State Board of Education.

(f) An application for an exception may be filed with the commissioner of education when an individual district is unable to hire a sufficient number of endorsed bilingual teachers to staff the required program. The exception must be accompanied by:

   (1) documentation showing that the district has taken all reasonable affirmative steps to secure endorsed bilingual teachers and has failed;

   (2) documentation showing that the district has affirmative hiring policies and procedures consistent with the need to serve limited English proficiency students;

   (3) documentation showing that, on the basis of district records, no teacher with a bilingual endorsement or emergency credentials has been unjustifiably denied employment by the district within the past 12 months; and

   (4) a plan detailing specific measures to be used by the district to eliminate the conditions that created the need for an exception.

(g) An exception shall be granted under Subsection (f) of this section on an individual district basis and is valid for only one year. Application for an exception a second or succeeding year must be accompanied by the documentation set forth in Subdivisions (1), (2), (3), and (4) of Subsection (f) of this section.

(h) During the period of time for which the school district is granted an exception under Subsection (f) of this section, it must use alternative methods approved by the commissioner of education, pursuant to the rules of the State Board of Education, to meet the needs of its students of limited English proficiency such as, but not limited to, the hiring of teaching personnel on a bilingual emergency permit.

§ 21.454. Program Content; Method of Instruction

(a) The bilingual education program established by a school district shall be a full-time program of dual-language instruction that provides for learning basic skills in the primary language of the students of limited English proficiency who are enrolled in the program, and that provides for carefully structured and sequenced mastery of English language skills. The program shall be designed to consider the students' learning experiences and shall incorporate the cultural aspects of the students' backgrounds.

(b) The program of instruction in English as a second language established by a school district shall be a program of intensive instruction in English from teachers trained in recognizing and dealing
with language differences. The program shall be
designed to consider the students' learning experi­
ences and shall incorporate the cultural aspects of
the students' backgrounds.

(c) In subjects such as art, music, and physical
education students of limited English proficiency
shall participate fully with English-speaking stu­
dents in regular classes provided in the subjects.

(d) Elective courses included in the curriculum
may be taught in a language other than English.

(e) Each school district shall insure to students
enrolled in the program a meaningful opportunity to
participate fully with other students in all extra­curricular activities.

(f) The State Board of Education shall establish a
limited number of pilot programs for the purpose of
examining alternative methods of instruction in bi­
lingual education and special language programs.

(g) Districts approved to establish pilot programs
as required by Subsection (f) of this section shall be
allocated an amount per student which is equal to
the amount per student allocated to districts with
approved bilingual education programs as outlined in
this subchapter.

[Amended by Acts 1981, 67th Leg., p. 2138, ch. 498, § 1, eff.
Sept. 1, 1981.]

§ 21.455. Enrollment of Students in Program

(a) The State Board of Education by rule shall
adopt standardized criteria for the identification,
assessment, and classification of students of limited
English proficiency eligible for entry into the pro­
gram or exit from the program. The parent must
be notified of a student's entry into the program,
exit from the program, or placement within the
program. A student's entry into the program or
placement within the program must be approved by
the student's parents. The local school district may
appeal the decision under Section 21.463 of this code.
The parent may appeal the decision under Section
21.463 of this code. The criteria may include, but
are not limited to, the following:

(1) results of a home language survey conducted
within four weeks of each student's enrollment in
order to determine the language normally used in
the home and the language normally used by the
student, conducted in English and the home lan­
guage, signed by the student's parents if in kin­
dergarten through grade 8 or by the student if in
grades 9 through 12, and kept in the student's
permanent folder by the language proficiency as­
essment committee;

(2) the results of an agency-approved English
language proficiency test administered to all stu­
dents identified through the home survey as nor­
mally speaking a language other than English to
determine the level of English language proficien­
cy, with students in kindergarten or grade 1 being
administered an oral English proficiency test and
students in grades 2 through 12 being adminis­
tered an oral and written English proficiency test; and

(3) the results of an agency-approved proficien­
cy test in the primary language administered to
all students identified under Subdivision (2) of this
subsection as being of limited English proficiency
to determine the level of primary language profi­
cency, with students in kindergarten or grade 1 being
administered an oral primary language profi­
cency test and students in grades 2 through 12
being administered an oral and written primary
language proficiency test.

(b) Tests under Subsection (a) of this section
should be administered by professionals or paraprofessional­
with the appropriate English and primary
language skills and the training required by the test
publisher.

(c) The language proficiency assessment commit­
tee may classify a student as limited English profi­
cency if one or more of the following criteria are
met:

(1) the student's ability in English is so limited
or the student is so handicapped that assessment
procedures cannot be administered;

(2) the student's score or relative degree of
achievement on the agency-approved English pro­
ciciency test is below the levels established by the
agency as indicative of reasonable proficiency;

(3) the student's primary language proficiency
score as measured by an agency-approved test is
greater than his proficiency in English; or

(4) the language proficiency assessment com­
mittee determines, based on other information
such as (but not limited to) teacher evaluation,
parental viewpoint, or student interview, that the
student's primary language proficiency is greater
than his proficiency in English or that the student
is not reasonably proficient in English.

(d) Within 10 days after the student's classifica­
tion as limited English proficiency, the language
proficiency assessment committee shall give written
notice of the classification to the student's parent.
The notice must be in English and the primary
language. The parents of students eligible to partic­
ipate in the required bilingual education program
shall be informed of the benefits of the bilingual
education or special language program and that it is
an integral part of the school program.

(e) All records obtained under this section may be
retained by the language proficiency assessment
committee for documentation purposes.

(f) The school district may not refuse instruction
in a language other than English to a student solely
because the student has a handicapping condition.

(g) With the approval of the school district and a
student's parents, a student who does not have limited
English proficiency may also participate in a
bilingual education program. The number of partic­
ipating students who do not have limited English
§ 21.455  TEXAS EDUCATION CODE 596

proficiency may not exceed 40 percent of the students enrolled in the program.

(h) A school district may transfer a student of limited English proficiency out of a bilingual education or special language program if the student is able to participate equally in a regular all-English instructional program as determined by:

(1) tests administered at the end of each school year to determine the extent to which the student has developed oral and written language proficiency and specific language skills in both the student's primary language and English;

(2) an achievement score at or above the 40th percentile in the reading and language arts sections of an English standardized test approved by the agency; and

(3) other indications of a student's overall progress as determined by, but not limited to, criterion-referenced test scores, subjective teacher evaluation, and parental evaluation.

(i) If later evidence suggests that a student who has been transferred out of a bilingual education or special language program has inadequate English proficiency and achievement, the language proficiency assessment committee may reenroll the student in the program. Classification of students for reenrollment must be based on the criteria required by this section.

§ 21.456. Facilities; Classes

(a) Bilingual education and special language programs shall be located in the regular public schools of the district rather than in separate facilities.

(b) Students enrolled in bilingual education or a special language program shall be placed in classes with other students of approximately the same age and level of educational attainment. The school district shall ensure that the instruction given each student is appropriate to his or her level of educational attainment, and the district shall keep adequate records of the educational level and progress of each student enrolled in the program.

(c) The maximum student-teacher ratio shall be set by the agency and shall reflect the special educational needs of students enrolled in the programs.

§ 21.457. Cooperation Among Districts

(a) A school district may join with any other district or districts to provide the bilingual education and special language programs required by this subchapter. The availability of the programs shall be publicized throughout the affected districts.

(b) A school district may allow a nonresident student of limited English proficiency to enroll in or attend its bilingual education or special language programs if the student's district of residence provides no appropriate program. The tuition for the student shall be paid by the district in which the student resides.

§ 21.458. Preschool, Summer School, and Extend- ed Time Programs

A school district may establish on a full- or part-time basis preschool, summer school, extended day, or extended week bilingual education or special language programs for students of limited English proficiency and may join with other districts in establishing the programs. The preschool or summer programs shall not be a substitute for programs required to be provided during the regular school year.

§ 21.459. Bilingual Education and Special Lan- guage Program Teachers

(a) The State Board of Education shall promulgate rules and regulations governing the issuance of teaching certificates with bilingual education endorsements to teachers who possess a speaking, reading, and writing ability in a language other than English in which bilingual education programs are offered and who meet the general requirements set out in Chapter 13 of this code. The State Board of Education shall also promulgate rules and regulations governing the issuance of teaching certificates with an endorsement for teaching English as a second language. The agency may issue emergency endorsements in bilingual education and in teaching English as a second language.

(b) A teacher assigned to a bilingual education program must be appropriately certified by the agency for bilingual education.

(c) A teacher assigned to an English as a second language or other special language program must be appropriately certified by the agency for English as a second language.

(d) The minimum monthly base pay and increments for teaching experience for a bilingual education teacher or a special language program teacher are the same as for a classroom teacher with an equivalent degree under the Texas State Public Education Compensation Plan. The minimum annual salary for a bilingual education teacher or a special language program teacher is the monthly base salary, plus increments, multiplied by 10, 11, or 12, as applicable.

(e) The district may compensate out of funds appropriated in Subsection (a) of Section 21.460 of this subchapter, a bilingual education or special language teacher for participating in a continuing education program which is in addition to the teacher's regular contract. The continuing education program must be designed to gain advanced bilingual education or special language program endorsement or skills.
§ 21.460. Allotments for Operational Expenses and Transportation

(a) Under the rules of the State Board of Education, each school district operating an approved bilingual education or special language program shall be allotted a special allowance equal to: (1) the number of limited English proficiency students enrolled in the bilingual education program multiplied by $50, or a greater amount as provided by the General Appropriations Act, and (2) the number of limited English proficiency students enrolled in the ESL or special language program multiplied by 25 percent of the bilingual education per pupil allocation. A district's bilingual education or special language allocation may be used for program and pupil evaluation and equipment, instructional materials and equipment, staff development, supplemental staff expenses, and other supplies required for quality instruction.

(b) The cost of transporting bilingual education and special language program students from one campus to another within a district or from a sending district to an area vocational school or to an approved post-secondary institution under a contract for instruction approved by the agency shall be reimbursed based on the number of actual miles traveled times the district's official extracurricular travel per mile rate as set by their local board of trustees and approved by the agency.

(c) The Foundation School Fund Budget Committee shall consider all amounts required for the operation of bilingual education and special language programs in estimating the funds needed for purposes of the Foundation School Program.

§ 21.461. Compliance

(a) The legislature recognizes that compliance with this subchapter is an imperative public necessity. Therefore, pursuant to the policy of the state, the agency shall monitor school district compliance with the state rules by inspecting each school district on site at least every three years.

(b) The areas to be monitored include:
(1) program content and design;
(2) program coverage;
(3) identification procedures;
(4) classification procedures;
(5) staffing;
(6) learning materials;
(7) testing materials;
(8) reclassification of students for either entry into regular classes conducted exclusively in English or for reentry into a bilingual education or special language program; and
(9) activities of the language proficiency assessment committee.

(c) Not later than the 30th day after the date of an on-site monitoring inspection, the agency shall report its findings to the school district and to the division of accreditation.

(d) The agency shall notify a school district found to be in noncompliance in writing not later than the 30th day after the date of the on-site monitoring. The district shall take immediate corrective action.

(e) If a school district fails to or refuses to comply after proper notification, the agency shall apply sanctions, which may include removal of accreditation, loss of foundation school funds, or both.

§ 21.462. Language Proficiency Assessment Committees

(a) The State Board of Education by rule shall require districts that are required to offer bilingual education and special language programs to establish a language proficiency assessment committee.

(b) Each committee shall be composed of members including but not limited to a professional bilingual educator, professional transitional language educator, a parent of a limited English proficiency student, and a campus administrator.

(c) The language proficiency assessment committee shall:

1. review all pertinent information on limited English proficiency students, including the home language survey, the language proficiency tests in English and the primary language, each student's achievement in content areas, and each student's emotional and social attainment;

2. make recommendations concerning the most appropriate placement for the educational advancement of the limited English proficiency student after the elementary grades;

3. review each limited English proficiency student's progress at the end of the school year in order to determine future appropriate placement;

4. monitor the progress of students formerly classified as limited English proficiency who have exited from the bilingual education or special language program and, based on the information, designate the most appropriate placement for the student; and

5. ...
§ 21.462 TEXAS EDUCATION CODE

(d) The State Board of Education by rule may prescribe additional duties for language proficiency assessment committees.

§ 21.463. Appeals

A parent of a student enrolled in a district offering bilingual education or special language programs may appeal to the commissioner of education under Section 11.18 of this code if the district fails to comply with the requirements of law or the rules of the State Board of Education. If the parent disagrees with the placement of the student in the program, he or she may appeal that decision to the local board of trustees. Appeals shall be in accordance with procedures adopted by the State Board of Education consistent with the appeal of contested cases under the Administrative Procedure and Texas Register Act, as amended (Article 6252–13a, Vernon's Texas Civil Statutes).

SUBCHAPTER A.  BOARD OF TRUSTEES

Section

23.002.  Districts With Fewer Than 150 Students.

23.003.  Districts With 66,000 or More Students.

SUBCHAPTER A.  BOARD OF TRUSTEES

§ 23.01.  Number of Trustees

The public schools of an independent school district shall be under the control and management of a board of seven trustees. [Amended by Acts 1978, 65th Leg., 2nd C.S., p. 16, ch. 7, § 5, eff. Aug. 14, 1978.]

See now, § 23.022.
§ 23.022. Districts With Fewer Than 150 Students

(a) In accordance with this section, an independent school district with fewer than 150 students in gross average daily attendance may be governed by a board of three or five trustees.

(b) If at least 10 percent of the registered voters of the district sign and present to the board a petition requesting submission to the voters of the proposition that the district be governed by a board of three trustees or by a board of five trustees, the board shall order the proposition placed on the ballot at the next regular school board election. The petition must be presented before the 25th day preceding the election at which the proposition is to be submitted and must specify the number of trustees sought to govern the district.

(c) The board of trustees on its own motion may order by resolution that the proposition that the district shall be governed by a board of three trustees or by a board of five trustees be placed on the ballot at the next regular school board election. The order must be entered before the 25th day preceding the election at which the first three-member or five-member board is to be elected.

(d) Approval of the proposition is by majority vote. If the proposition is approved, the district shall be governed by a board of three or five trustees, as applicable, beginning with the next following regular school board election.

(e) At the first election following approval of a proposition, that the district shall be governed by a board of three or five trustees, all positions on the board shall be filled. If the board is to be composed of three trustees, the trustees then elected shall draw lots so that one member shall serve for a term of one year, one shall serve for a term of two years, and one shall serve for a term of three years. If the board is to be composed of five trustees, the trustees then elected shall draw lots so that one member will serve for a term of one year, two shall serve for terms of two years, and two shall serve for terms of three years. Thereafter, one or two members, as applicable, shall be elected annually to a term of three years.

(f) In an independent school district with a board of three trustees or a board of five trustees, the ballot shall be prepared and the election shall be conducted in the same manner as provided by this chapter for other independent school districts.

(g) An independent school district that adopts a three-member or a five-member board of trustees as provided by this section shall remain governed by a board of that size even if the gross average daily attendance increases to 150 or more students. If the attendance so increases, the membership of the board may be increased to seven members in the manner provided for special law districts under Section 23.021 of this code.

[Added by Acts 1979, 66th Leg., p. 1786, ch. 725, § 1, eff. Aug. 27, 1979.]

§ 23.023. Districts With 66,000 or More Students

(a) Any independent school district, whether created by special or general law, with 66,000 or more students in average daily attendance for the 1975-1976 school year or thereafter shall be under the management and control of a board of nine trustees elected in accordance with the provisions of this section.

(b) At all elections held after December 31, 1977, seven members of the board of trustees shall be elected by the qualified voters of single-member districts and two members, who shall be the president and vice-president of the board, shall be elected at large.

(c) At least 120 days before the school board election to be held in April, 1978, the board shall divide the school district into seven trustee districts which are compact, contiguous, and contain as nearly as practicable an equal population according to the last preceding federal decennial census.

(d) Except as provided for the initial election under single-member districts, a candidate seeking to represent a trustee district must reside in the district he seeks to represent, and vacates his office if he ceases to reside in that district. A candidate for president or vice-president may seek election to only one position and shall be designated on the official ballot according to the position for which he seeks election. A candidate for president or vice-president must reside in the school district, and vacates his office if he ceases to reside in the district.

(e) The candidate receiving a majority of the votes cast in each position is elected. If no candidate receives a majority of the votes cast for that position, the board shall order a runoff to be held on the third Saturday in April immediately following the first election, and only the names of the two candidates receiving the highest number of votes in the first election shall be listed on the ballot. The candidate receiving the majority of the votes cast in the runoff election is elected.

(f) A member of the board may resign his position to seek election to the office of president or vice-president.

(g) At least 120 days before an election to be held in the second year following the calendar year in which the federal decennial census is taken, the board shall redivide the district into seven trustee districts if the census data indicate that the population of the most populous district exceeds the population of the least populous district by more than 10 percent.

(h) In districts with seven board members on January 1, 1978, members of the board serving on that date shall serve for the remainder of their terms, except those choosing to resign. At the election held in April, 1978, four members shall be elected—the president, vice-president, and two regular members. The president and vice-president then elected shall
serve for a term of two years. The other two members then elected shall draw lots so that one will serve for a term of two years, and one will serve for a term of four years. The five members of the board holding the offices for which there was no election shall draw lots to determine which trustee district they will represent during the remainder of their terms. Thereafter, all members shall be elected to staggered terms of four years.

(i) A school district having 66,000 or more students in average daily attendance for the 1975-1976 school year or thereafter which has previously adopted single-member district representation may continue to operate under that plan.

(j) This section does not apply to a district with 66,000 or more students in average daily attendance for the 1975-1976 school year or thereafter all or part of which is located in a city with a population of between 600,000 and 700,000 according to the 1970 federal census.

(k) A school district with less than 66,000 students in average daily attendance for the 1975-1976 school year that later becomes subject to this section shall begin electing trustees from single-member districts in accordance with this section no later than the first regular election following the next calendar year in which the federal census is taken. A school district subject to this section whose average daily attendance drops below 66,000 students shall continue to be governed by this section.

[Added by Acts 1977, 65th Leg., p. 2134, ch. 852, § 1, eff. Aug. 29, 1977.]

(b) The ballots must be of uniform style and dimension and must be of the stub type provided for in the general election laws.

(c) The ballots must be printed with black ink on clear white paper of sufficient thickness to prevent the marks thereon from being seen through the paper.

(d) The ballots shall have printed at the top, "Official Ballot, ______ Independent School District," specifying the name of the school district.

(e) The names of all eligible persons who have properly qualified as candidates for school trustee of the district shall be included, and if the positions on the board are designated by number as provided in Section 23.11 of this code, the position for which each person is a candidate shall be clearly shown.

§ 23.10. Returns; Canvass

§ 23.11. Election by Position

[See Compact Edition, Volume 1 for text of (a) and (b)]

(c) The positions on the board of trustees shall be designated by number in any independent school district in which the board of trustees, by appropriate action as specified below, orders that all candidates for trustee be voted upon and elected separately for positions on the board of trustees and that all candidates be designated on the official ballot according to the number of the positions for which they seek election.

[See Compact Edition, Volume 1 for text of (b) and (c)]

[See Compact Edition, Volume 1 for text of (a) to (f)]

(g) The governing board of an independent school district whose trustees serve for terms of four years may order by resolution that the terms of office be reduced to three years. The order of the board must be entered at least 75 days before the first election at which trustees are to be elected to reduced terms. Trustees in office on the date of the order shall serve for the remainder of their terms. At the first election following the order, the trustees elected shall serve for a term of two years. At the next regular trustee election, all positions on the board shall be filled. The trustees then elected shall draw lots so that two will serve for terms of one year, two will serve for terms of two years, and three will serve for terms of three years. Thereafter, two or three members shall be elected annually for terms of three years.

(h) The governing board of an independent school district whose trustees serve for terms of six years may order by resolution that the terms of office be reduced to three years. If the board orders that the terms are to be reduced, the trustees shall be elected to three-year terms beginning with the first regular trustee election held more than 75 days after the order of the board. CHAPTER 53. HIGHER EDUCATION AUTHORITIES

SUBCHAPTER C. POWERS AND DUTIES

§ 53.47. Bonds for the Purchase of Student Loan Notes

(a) An authority heretofore created may, upon approval of the city or cities which created the same, issue revenue bonds to obtain funds to purchase student loan notes which are guaranteed under the provisions of the Higher Education Act of 1965 (Public Law 89–329). Revenue bonds issued for such purpose shall be issued in accordance with and with the effect provided in this chapter, except Section 53.36 shall not apply, as said chapter has been modified by Chapter 3, Acts of the 61st Legislature, Regular Session, 1969, as amended (Article 717k–2, Vernon’s Texas Civil Statutes), and by Chapter 754, Acts of the 61st Legislature, Regular Session, 1969 (Article 717k–3, Vernon’s Texas Civil Statutes). Such bonds shall be payable from and secured by a pledge of revenues derived from or by reason of the ownership of student loan notes and investment income after deduction of such expenses or operating the loan program as may be specified by the bond resolution or trust indenture.

(b) The authority, acting through a bank with trust powers, may cause bond proceeds to be expended to purchase for its account student loan notes executed by students who (1) are residents of this state or (2) who have been admitted to attend an accredited institution within this state. An accredited institution shall mean an institution which has either been recognized by a recognized accrediting agency, as defined by Section 61.003(12) of the Texas Education Code, or accredited by the Association of Independent Colleges and Schools, the National Association of Trade and Technical Schools, or the National Accrediting Commission of Cosmetology Arts and Sciences.

(c) The authority shall contract with a nonprofit corporation, organized under the laws of this state, whereby such corporation will provide the reports and other information required for continued participation in the federally guaranteed loan program provided by the Higher Education Act of 1965 (Public Law 89–329). The custody of student loan notes, purchased by the bank on behalf of the authority, shall be held by a bank with trust powers located within this state.

(d) The authority, as a municipal corporation of the state, is charged with a portion of the responsibility of the state to provide educational opportunities in keeping with all applicable state and federal laws. Nothing in this section shall be construed as a prohibition against establishing policies to limit the purchase of notes to notes executed by students attending school in a certain geographical area or by students who are residents of the area.
(e) In lieu of establishing an authority under the provisions of this chapter, the governing body of a home-rule city or cities may request a nonprofit corporation organized to exercise the powers enumerated and provided in this section for and on its behalf. If the corporation agrees to exercise such powers, the directors of such corporation shall thereafter be appointed by and be subject to removal by the governing body of the home-rule city or cities, and except as herein provided, Sections 53.14, 53.15, 53.31, 53.32, 53.38, and 53.41 through 53.43 of the Texas Education Code shall apply to and govern such corporation, its procedures, and bonds. Notwithstanding the provisions of Section 53.42, a nonprofit corporation which has been requested to exercise the powers enumerated and requested in this section may invest or cause a trustee or custodian on behalf of such nonprofit corporation, to invest the proceeds of any bonds, notes, or other obligations issued by such nonprofit corporation and any monies which are pledged to the payment thereof in (1) government obligations (as defined hereinbelow), (2) certificates of deposit of banks and savings and loan associations which are insured by the Federal Deposit Insurance Corporation or the Federal Savings and Loan Insurance Corporation, provided the amount of any certificate of deposit in excess of that covered by such insurance must be secured by a first and prior pledge of government obligations having a market value of not less than 100 percent of the excess. For purposes of this paragraph "government obligations" means any of the following which at the time of investment are legal investments under the laws of the state for the monies proposed to be invested therein:

(1) direct general obligations of, or obligations the payment of the principal and interest of which are unconditionally guaranteed by, the United States of America;

(2) bonds, debentures, or notes issued by any one or a combination of any of the following federal agencies: federal financing bank.

Section 4 of ch. 515 provided:

"The provisions of this Act apply only to foreign students who enter state colleges and universities for the first time after the effective date of this Act."
§ 54.052. Residents; Nonresidents; General Rules

(a) In this subchapter:

(1) "Residence" means "domicile."

(2) "Resided in" means "domiciled in."

(3) "Dependent" means an individual who is claimed as a dependent for federal income tax purposes by the individual's parent or guardian at the time of registration and for the tax year preceding the year in which the individual registers.

(b) For the purposes of this subchapter, the status of a student as a resident or nonresident student is determined as prescribed by this section, subject to the other applicable provisions of this subchapter.

(c) An individual who is under 18 years of age or is a dependent and who is living away from his family and whose family resides in another state or is a dependent and whose family has not resided in Texas for the 12-month period immediately preceding the date of registration shall be classified as a nonresident student.

(d) An individual who is 18 years of age or under or is a dependent and whose family has not resided in Texas for the 12-month period immediately preceding the date of registration shall be classified as a nonresident student, regardless of whether he has become the legal ward of residents of Texas or has been adopted by residents of Texas while he is attending an educational institution in Texas, or within a 12-month period before his attendance, or under circumstances indicating that the guardianship or adoption was for the purpose of obtaining status as a resident student.

(e) An individual who is 18 years of age or over who has come from outside Texas and who is gainfully employed in Texas for a 12-month period immediately preceding registration in an educational institution shall be classified as a resident student as long as he continues to maintain a legal residence in Texas.

(f) An individual who is 18 years of age or over who resides out of the state or who has come from outside Texas and who registers in an educational institution before having resided in Texas for a 12-month period shall be classified as a nonresident student.

(g) An individual who would have been classified as a resident for the first five of the six years immediately preceding registration but who resided in another state for all or part of the year immediately preceding registration shall be classified as a resident student.

§ 54.055. Parents, Change of Residence to Another State

An individual who is 18 years of age or under or is a dependent and whose parents were formerly residents of Texas is entitled to pay the resident tuition fee following the parents' change of legal residence to another state, as long as the individual remains continuously enrolled in a regular session in a state-supported institution of higher education.

§ 54.060. Resident of Bordering State: Tuition

The nonresident tuition fee prescribed in this chapter does not apply to a nonresident student who is a resident of a state situated adjacent to Texas and who registers in any Texas public junior college situated in a county immediately adjacent to the state in which the nonresident student resides. The nonresident junior college student described in this section shall pay an amount equivalent to the amount charged a Texas student registered at a similar school in the state in which the nonresident student resides. The nonresident student described in this section shall pay equivalent fees and charges to those charged Texas students registered at a similar institution in the state in which the nonresident student resides, when such student registers at a Texas public senior upper level (those institutions offering only junior, senior, and graduate level programs) institution of higher education located within the Texas public junior college district from which the nonresident student has graduated or completed 45 semester credit hours.

§ 54.062. Tuition Limit in Cases of Concurrent Enrollment

When a student registers at more than one public institution of higher education at the same time, his tuition charges shall be determined in the following manner:

(1) The student shall pay the full tuition charge to the first institution at which he is registered; and in any event he shall pay an amount at least equal to the minimum tuition specified in this code.

(2) If the minimum tuition specified in this code for the first institution at which the student is registered is equal to or greater than the minimum tuition specified in this code for the second institution at which the student is registered concurrently, the student shall not be required to pay the specified minimum tuition charge to the second institution in addition to the tuition charge paid to the first institution, but shall pay only the
hourly rates, as provided in this code, to the second institution.

(3) If the minimum tuition specified in this code for the first institution at which the student is registered is less than the specified minimum tuition charge at the second institution (that is, if the second institution has a higher minimum tuition charge specified in this code), then the student shall first register at the institution having the lower minimum tuition and shall pay to the second institution only the amount equal to the difference between his total tuition charge at the second institution and his total tuition charge at the first institution, but in no case shall the student pay to the second institution less than the hourly rates as provided in this code.

(4) If a student is considered to be a Texas resident and therefore qualified to pay Texas resident tuition rates by one institution at which he is registered, that student shall be considered a Texas resident at each of the institutions at which he is concurrently registered for the purposes of determining the proper tuition charges. Nothing in this subsection shall be so construed as to allow a nonresident to pay resident tuition except at institutions covered by Section 54.060 of this code.

SUBCHAPTER E. OTHER FEES AND DEPOSITS

§ 54.503. Student Service Fees

(a) For the purposes of this section, "student services" means activities which are separate and apart from the regularly scheduled academic functions of the institution and directly involve or benefit students, including textbook rentals, recreational activities, health and hospital services, medical services, automobile parking privileges, intramural and intercollegiate athletics, artists and lecture series, cultural entertainment series, debating and oratorical activities, student publications, student government, and any other student activities and services specifically authorized and approved by the governing board of the institution of higher education. The fee or fees may be either voluntary or compulsory as determined by the governing board. The total of all compulsory student services fees collected from a student for any one semester or summer session shall not exceed $60. All compulsory student services fees charged and collected under this section by the governing board of an institution of higher education, other than a public junior college, shall be assessed in proportion to the number of semester credit hours for which a student registers. No fee for parking services or facilities may be levied on a student unless the student desires to use the parking facilities provided.

[See Compact Edition, Volume 1 for text of (c) to (f)]

(g) Prior to recommending student fee raises to the governing board, the president of each institution may duly consider the recommendations of a student fee advisory committee. A majority of the committee's members shall be students enrolled in the institution and appointed by the student governing body of the institution or elected by a majority of students enrolled in the institution voting in an election held for that purpose. Other committee members from the staff and faculty may be included and selected as the president sees fit. The regents may duly consider the matter of raising student fees
in open meeting. Along with his own recommenda-
tions, the president may make known to the Board

IMPROVEMENTS

SUBCHAPTER B. REVENUE BONDS
AND FACILITIES

§ 55.16. Rentals, Rates, Charges, and Fees

Each board shall be authorized to fix and collect
rentals, rates, charges, and/or fees from students
and others for the occupancy, services, use, and/or
availability of all or any of its property, buildings,
structures, activities, operations, or other facilities,
in such amounts and in such manner as may be
determined by the board; provided, however, that
all student use fees shall be fixed and collected in
proportion to the number of semester credit hours
for which a student registers, and shall not exceed
$6 per semester hour, except that those schools

5% of the total enrollment; and further provided
that nothing in this section shall affect, limit, or
impair any pledge, covenant, or option made or

section, issued by the board pursuant to this chapter;

principal of and interest on the bonds when due,
together with (2) the aggregate amount of all use
fees which were levied on a semester hour basis for
the then current semester to pay the principal of and
interest on all previously issued bonds, do not exceed
$6 per semester hour, then such limited or unlimited
use fee shall be levied and collected when and to the
extent required by the resolution authorizing the
issuance of the bonds in any amount required to
provide for the payment of the principal of and
interest on the bonds, regardless of any other provi-
sion of this section or the limitations contained here-
in.

CHAPTER 58. COMPENSATION OF RESIDENT PHYSICIANS

§ 58.001. Legislative Finding and Intent

(a) The legislature finds that it will improve the quality of the delivery of medical care to the citizens of this state and, therefore, that it will be in the public interest of this state for the resident physicians being educated, trained, developed, and prepared for a career in medicine by the schools of medicine in The University of Texas System, the Texas Tech University Health Sciences Center, the Texas A & M University Medical Program, and the Texas College of Osteopathic Medicine to be compensated by those schools while the resident physicians are undergoing education, training, development, and preparation. The legislature further finds that the delivery of quality medical care to the citizens of this state has been and will continue to be enhanced by the expansion of family practice residency programs as provided by Sections 61.501 through 61.505 of this code and intends that nothing in this chapter be interpreted or implemented in a manner that will deter the development or expansion of family practice residency programs or will deter the legislative goal of having at least 25 percent of the first-year residency positions devoted to family medicine.

(b) Beginning September 1, 1981, and subject to the provisions of Section 58.003 of this code, each resident physician being educated, trained, developed, and prepared for a career in medicine by an accredited school of medicine in the schools listed in Subsection (a) of this section shall be compensated by that school while the person is undergoing education, training, development, and preparation at or under the direction and supervision of the school.

[Added by Acts 1981, 67th Leg., p. 3245, ch. 855, § 1, eff. Aug. 31, 1981.]

§ 58.002. Definitions

(a) In this chapter:

(1) "Resident physician" means a person who is appointed a resident physician by one of the schools of medicine listed in Section 58.001 of this code and who:

(A) has received a Doctor of Medicine or a Doctor of Osteopathic Medicine degree from some other school of medicine that is accredited by the Liaison Committee on Medical Education or by the Bureau of Professional Education of the American Osteopathic Association.

(B) is a citizen of Texas and has received a Doctor of Medicine or a Doctor of Osteopathic Medicine degree from one of the schools listed in Section 58.001 of this code; or

(C) has received a Doctor of Medicine or a Doctor of Osteopathic Medicine degree from some other school of medicine.

(2) "Primary teaching hospital" means a hospital at which one of the schools listed in Section 58.001 of this code educates and trains both resident physicians and undergraduate medical students.

(3) "Compensation" includes stipends; payments, if any, for services rendered; and fringe benefits when applied to payments to or for the benefit of resident physicians.

(b) A person may not be considered a resident physician for a period of time longer than is ordinarily and customarily required for a resident physician to complete a graduate medical specialty program approved by the Accrediting Council on Graduate Medical Education or the American Osteopathic As-
society for the specialty in which the resident physician seeks certification as a diplomate and to obtain the certification from the appropriate board or agency approved by the American Board of Medical Specialties or the American Osteopathic Association.

(c) Notwithstanding the provisions of Subsection (b) of this section, a person may not be considered a resident physician under this Act for a period of time longer than four years.

(d) The total number of the first-year resident physicians compensated under this chapter and Sections 61.097 through 61.099 of this code may not exceed the combined total number of persons in the previous year's graduating classes of the schools listed in Section 58.001 of this code and the Baylor College of Medicine. Each school shall give priority consideration to applicants who demonstrate a willingness to practice in medically underserved areas of Texas.

(e) It is the intent of this chapter that eventually at least 50 percent of the first-year resident physicians appointed by medical schools shall be in the primary care areas of family medicine, internal medicine, pediatrics, geriatrics, and obstetrics/gynecology, with 25 percent of those residents in family practice.

[Added by Acts 1981, 67th Leg., p. 3245, ch. 855, § 1, eff. Aug. 31, 1981.]

§ 58.003. Authorization for Legislative Appropriations of Funds; Conditions Regarding Those Funds

(a) Beginning September 1, 1981, each accredited school listed in Section 58.001 of this code is entitled to receive funds appropriated by the legislature in an amount not to exceed $15,000 in any fiscal year for each resident physician appointed by the school as a resident physician for that year. Money appropriated under this chapter may not be transferred from the resident physicians program.

(b) If a resident physician under this chapter does not perform in that appointed capacity during an entire fiscal year, the compensation paid to the person by the school shall be reduced proportionately to cover only the part of the fiscal year during which the performance is actually rendered.

(c) If any resident physician under this chapter is compensated by an agency of the federal government or by any other agency or institution other than a primary teaching hospital for the person's performance as a resident physician, the compensation that would otherwise be paid to the person by the school shall be reduced by the amount of the compensation actually received by the person from the agency or institution. If a school under this chapter receives from an agency or institution of the federal government or from any other agency or institution other than a primary teaching hospital compensation for the performance of resident physicians' duties by any of the school's resident physicians to or for the benefit of the agency or institution, to the extent of the compensation actually received by the school, the school is prohibited from spending funds appropriated under this chapter that would otherwise be available to pay the same resident physicians for the performance of the same resident physician duties.

(d) If a school covered by this chapter receives from the Coordinating Board, Texas College and University System, a sum granted for the education, training, development, and preparation of the school's family practice resident physicians, to the extent of the sum actually received by the school, the school is prohibited from spending funds appropriated under this chapter that would otherwise be available to pay the same family practice resident physicians for the same education, training, development, and preparation.

(e) To the extent that the University of Texas Medical Branch at Galveston receives legislative appropriations under this chapter for the education and training of resident physicians, that school may not receive legislative appropriations in any other state appropriation act for the education and training of the same resident physicians in the same fiscal year.

[Added by Acts 1981, 67th Leg., p. 3245, ch. 855, § 1, eff. Aug. 31, 1981.]

Section 3 of the 1981 Act provided:
"The 67th Session of the Texas Legislature [1981] shall appropriate no funds for this legislation but may authorize the use of federal block grant funds if such funds become available."
§ 58.005. Appointment of Resident Physicians
Under Certain Conditions

Notwithstanding any other provisions of this chapter, if at any time a school under this chapter determines that it cannot provide one of its primary teaching hospitals with resident physicians who qualify under Subdivision (1) of Subsection (a) of Section 58.002 of this code in sufficient quantity or kind to meet the standard that the school deems necessary in order to provide the delivery of the best possible medical care to the citizens of this state, the school is able to provide the hospital with a sufficient quantity and kind or resident physicians who do qualify, the school may appoint, to be educated and trained in the hospital, resident physicians who are not citizens of Texas but otherwise qualify under Subdivision (1) of Subsection (a) of Section 58.002 and may compensate those resident physicians as if they did qualify under the provisions of that section. SUBCHAPTER D. CONTRACTS WITH BAYLOR COLLEGE OF MEDICINE AND BAYLOR UNIVERSITY COLLEGE OF DENTISTRY

§ 61.096. Restrictions: Medical School Admission Policies

As a restriction of the authority granted to the Coordinating Board by Sections 61.092 and 61.093 of this Code, no contract shall be entered into with the Baylor College of Medicine until the Baylor College of Medicine promulgates appropriate rules and regulations pertaining to the admission of students to medical schools under its jurisdiction which will provide for admission of those students to its entering class each year who are equally or as well qualified as all other students, and who have entered a contract with or received a commitment for a stipend, grant, loan or scholarship from the State Rural Medical Education Board. The State Rural Medical Education Board may contract with medical students providing for such students to engage in a general or family practice of medicine for not less than four years after licensing and a period of medical residency, as determined by the rules and regulations established by the State Rural Medical Education Board, in cities of Texas which have a population of less than 5,000 or in rural areas, as that term may be defined by the State Rural Medical Education Board, and said Board is hereby given the authority to define and from time to time redefine the term rural area, at the time the medical practice is commenced. This contract shall provide for a monthly stipend of at least $100 to be granted by the State Rural Medical Education Board to each person under contract with the State while enrolled as a medical school student.

[Added by Acts 1975, 64th Leg., p. 2407, ch. 740, § 1, eff. Sept. 1, 1975.]

§ 61.097. Contracts with Respect to Resident Physicians

(a) The board shall contract with the Baylor College of Medicine for the administration, direction, and performance of services necessary or proper to
the education, training, development, and preparation of resident physicians for a career in medicine. Included in those services shall be the payment and furnishing by the medical school to the resident physicians of all compensation that has previously been paid or furnished by the hospital or hospitals in which the resident physicians have been educated and trained.

(b) In Sections 61.097 and 61.098 of this code:
(1) “Resident physician” means a person who is appointed a resident physician by the Baylor College of Medicine and who:
(A) has received a Doctor of Medicine or a Doctor of Osteopathic Medicine degree from the Baylor College of Medicine or from one of the schools of medicine listed in Section 58.001 of this code; or
(B) is a citizen of Texas and has received a Doctor of Medicine or a Doctor of Osteopathic Medicine degree from some other school of medicine that is accredited by the Liaison Committee on Medical Education or by the Bureau of Professional Education of the American Osteopathic Association.

(2) “Primary teaching hospital” is a hospital at which the Baylor College of Medicine educates and trains both resident physicians and undergraduate medical students.

(3) “Compensation” includes stipends; payments, if any, for services rendered; and fringe benefits when applied to payments to or for the benefit of resident physicians.

(c) A person may not be considered a resident physician for a period of time longer than is ordinarily and customarily required for a resident physician to complete a medical specialty program approved by the Accrediting Council on Graduate Medical Education for the specialty in which the resident physician seeks certification as a diplomat and to obtain the certification from the appropriate board or agency approved by the American Board of Medical Specialties.

(d) Notwithstanding the provisions of Subsection (e) of this section, a person may not be considered a resident physician under this section for a period of time longer than four years.

(e) The total number of the first-year resident physicians compensated under this section and Chapter 58 of this code may not exceed the combined total number of persons in the previous year’s graduating classes of the schools listed in Section 58.001 of this code and the Baylor College of Medicine. The Baylor College of Medicine shall give priority consideration to applicants who demonstrate a willingness to practice in medically underserved areas of Texas.

(f) It is the intent of this section that eventually at least 50 percent of the first-year resident physicians appointed by medical schools shall be in the primary care areas of family medicine, internal medicine, pediatrics, geriatrics, and obstetrics/gynecology, with 25 percent of those residents in family practice.

(g) In the exercise of the authority under Subsection (a) of this section, the board shall disburse to the Baylor College of Medicine, out of funds appropriated by the legislature to the board for that purpose, an amount not to exceed $15,000 per fiscal year of disbursement for each resident physician appointed by the school for that year. The board shall establish, by contract with the Baylor College of Medicine, the method by which the disbursement shall be accomplished. The funds authorized by this section are separate from and in addition to the funds authorized in Sections 61.092 and 61.093 of this code.

Section 3 of the 1981 Act provided:
“The 67th Session of the Texas Legislature [1981] shall appropriate no funds for this legislation but may authorize the use of federal block grant funds if such funds become available.”

(a) Notwithstanding the provisions of Section 61.092 of this code, the board shall include in the contract that it makes with the medical school under Section 61.097 of this code provisions that will effectuate the terms and conditions provided in this section.

(b) The money appropriated to the board and disbursed to the Baylor College of Medicine under Section 61.097 of this code shall be spent by the school exclusively for the education, training, development, and preparation of resident physicians for a career in medicine.

(c) If a resident physician does not perform in that capacity during an entire fiscal year of disbursement, the compensation paid to the person by the medical school shall be reduced by the amount of the compensation actually received by the person from such agency or institution. If the medical school receives from an agency or institution of the federal government or from any other agency or institution other than a primary teaching hospital on account of the person’s performance as a resident physician, the compensation that would otherwise be paid to the person by the medical school shall be reduced by the amount of the compensation actually received by the person from such agency or institution. If the medical school receives from an agency or institution of the federal government or from any other agency or institution other than a primary teaching hospital on account of the person’s duties by any of the school’s resident physicians to or for the benefit of such agency or institution to the extent of the compensation actually received by the medical school, the school is prohibited from spending funds that are appropriated and disbursed under Section 61.097 of this code and that would otherwise be available to pay the same resi-
dent physicians for the performance of the same resident physician duties.

(e) If the medical school receives from the Coordinating Board, Texas College and University System, a sum granted for the education, training, development, and preparation of the school's family practice resident physicians, to the extent of the sum actually received by the medical school, the school is prohibited from spending funds that are appropriated and disbursed under Section 61.097 of this code and that would otherwise be available to pay the same family practice resident physicians for the same education, training, development, and preparation.

(f) If at any time the medical school determines that it does not have sufficient available funds from legislative appropriations and other sources to support adequately the full number of resident physicians that the school deems to be required in order to provide the delivery of the best possible medical care to the citizens of this state, the school may assign and place for education and training in any hospital or hospitals with which the school has a resident physician affiliation agreement any of its resident physicians that cannot be supported adequately from the funds available for that purpose. During the period for which a resident physician is assigned and placed in a hospital or hospitals under this subsection, the resident physician shall directly or indirectly receive all or a primary portion of his or her compensation from the hospital or hospitals just as has been ordinarily and customarily done before the adoption of this section. The exact method and manner of compensating the resident physician shall be set forth in the resident physician affiliation agreement entered into between the school and the hospital or hospitals.

§ 61.099. Appointment of Resident Physicians Under Certain Conditions

Notwithstanding any other provisions of Sections 61.097 and 61.098 of this code, if at any time the medical school determines that it cannot provide one of its primary teaching hospitals with resident physicians who qualify under Subdivision (1) of Subsection (b) of Section 61.097 of this code in sufficient quantity or kind to meet the standard that the medical school deems necessary in order to provide the delivery of the best possible medical care to the citizens of this state, until the medical school is able to provide the hospital with a sufficient quantity and kind of resident physicians who do qualify, the medical school may appoint, to be educated and trained in the hospital, resident physicians who are not citizens of Texas but otherwise qualify under Subdivision (1) of Subsection (b) of Section 61.097 of this code and may compensate the resident physicians as if they did qualify under the provisions of that section.

The board shall consider the application of any accreditation standard that prohibited accreditation of the institution on the basis of religious policies practiced by the institution as a prima facie justification for extending the eligibility for certification if all other standards of the board are satisfied.

(f) Each lease shall provide that if, at the expiration of the primary term, production of oil and/or gas has not been obtained in paying quantities on the leased premises but drilling operations are being conducted thereon in good faith and in good and workmanlike manner, the lessee may, on or before the expiration of the primary term, file with the Board of Regents of The University of Texas System a written application for a 30-day extension of such lease, such application to be accompanied by a payment to the Board of Regents of The University of Texas System of $7.50 per acre for each acre in the lease, and the Chairman of the Board of Regents of The University of Texas System or a designee appointed by the Chairman shall, in writing, extend such lease for a 30-day period from and after the expiration of the primary term and so long thereafter as oil or gas is produced in paying quantities from the premises; provided further, that the lessee may, so long as such drilling operations are being conducted in good faith, make like application and payment during any 30-day extended period for an additional extension of 30 days not to exceed a combined total of 180 days; provided, however, lessee may, so long as such drilling operations are being conducted in good faith, make written application to the Board of Regents of The University of Texas System on or before the expiration of the initial extended period of 180 days for an additional extension of 180 days, such application to be accompanied by a payment to the Board of Regents of The University of Texas System of $50 per acre for each acre in the lease, and the Chairman of the Board of Regents of The University of Texas System or a designee appointed by the Chairman shall, in writing, extend such lease for an additional 180-day period from and after the expiration of the initial extended period of 180 days, and so long thereafter as oil or gas is produced in paying quantities from the premises; provided, that no lease shall be extended under the provisions of this section for more than a total of 360 days from and after the expiration of the primary term unless production in paying quantities has been obtained.

(b) The land is described in the deed of record in Record Book 3, pages 496, 497, and 498 of the records of the County Clerk of Waller County as being 110 acres of land off a 320-acre survey patented to the heirs of Solomon Smith No. 276, Vol. 11, the said 110 acres lying on the south side of said 320-acre survey and adjoining the Law Survey and is described by metes and bounds in Decree of Partition in District Court of Austin County in Matters Probate between Helen M. Kirby and the estate of Jared E. Kirby, deceased.

(c) The board of directors is authorized to lease the land for oil, gas, sulphur, and other mineral development under existing law applicable to other lands under its control and supervision and to apply the proceeds from such lease to the use and benefit of Prairie View A & M University.

[Added by Acts 1975, 64th Leg., p. 570, ch. 229, § 1, eff. May 20, 1975.]

§ 87.104. Purpose of the University
In addition to its designation as a statewide general purpose institution of higher education and its designation as a land-grant institution, Prairie View A&M University is designated as a statewide special purpose school for undergraduate instruction in the practice of seamanship, ship construction, naval architecture, wireless telegraph, engineering, the science of navigation, and undergraduate educational programs related to the general field of marine resources. Courses and programs are subject to prior approval by the Coordinating Board, Texas College and University System. The school is under the management and control of the board of regents of The Texas A & M University System, with degrees offered under the name and authority of Texas A & M University at College Station.

Section 4 of the 1981 amendatory act provides:
"All references to and appropriations for the Texas Maritime Academy and Moody College of Marine Sciences and Maritime Resources, sometimes referred to as Moody College, apply to Texas A & M University at Galveston."

§ 87.202. General Powers and Duties
The board shall:

The board may receive any funds or property that may be subscribed, loaned, or bequeathed for the organization or maintenance of the university and shall execute all necessary agreements for the faithful application of the funds or property.

§ 87.205. Fees and Charges
The fact that provision for the establishment of this university is for the primary purpose of giving students practical and technical instruction in the arts and sciences relating to the foregoing subjects, and the further fact that training in these fields will lead to immediate and remunerative employment for those who have finished the prescribed courses, make it necessary that larger fees be charged those students who enter the university than is now paid by students enrolled in state-supported institutions of higher education. Therefore, the provisions of Subchapter E, Chapter 54 of this code, do not apply to the students enrolled in the university. The board is specifically charged with the duty of assessing such fees and charges against the students who enter the university as may be necessary to provide for the maintenance and support of the university.

The president of the board shall have a vote the same as the other members. The board shall elect a secretary of the board who may or may not be a member of the board, and who shall be the official custodian of the minutes, books, records, and seal of said board, and who shall perform such other duties and functions as are prescribed by the board. (i) The governing board of a countywide junior or community college district that contains a city with a population of more than 800,000 residents may set the date for an election held under the provisions of this section on any day in April by a resolution adopted not less than 90 days before the date selected; provided, however, that such election may not be held on the same date as the election of the governing board of any independent school district in such county unless the election date of all independent school districts in such county is on such date. The elections in each trustee district may be conducted jointly with the elections held in April in a city or school district in the trustee district. When a runoff election is necessary, the board may order the election for a date to coincide with the date of the runoff election for city officials, if the city is holding a runoff election; otherwise, the board shall set the date of the runoff election for not later than three weeks following the regular election. When members of the board and municipal officers are to be elected on the same day, the governing bodies of the district and the city shall enter into an agreement governing the conduct of the joint election in accordance with the provisions of Article 978b, Revised Civil Statutes of Texas, 1925, as amended. [Amended by Acts 1975, 64th Leg., p. 2035, ch. 673, § 1, eff. June 20, 1975; Acts 1977, 65th Leg., p. 1386, ch. 554, § 1, eff. June 15, 1977.]

(a) The members of the governing board of a countywide community college district that contains a city with a population of more than 800,000 residents shall be elected from single-member trustee districts at all elections held after January 1, 1978.

(b) Before January 1, 1978, the board of trustees shall divide the district into seven compact trustee districts which contain as nearly as practicable an equal number of inhabitants according to the last preceding federal census. Residents of each trustee district shall be entitled to elect one member of the board, and each candidate seeking to represent a trustee district must reside in the trustee district he seeks to represent. Trustees shall, during their term of office, reside within the trustee district from which they were elected.

(c) Members of the board of trustees of the district shall serve for staggered terms of six years with the terms of two or three members expiring in even-numbered years.

(e) Within 90 days following the publication of census tract data compiled during each subsequent decennial federal census, the board of trustees shall redivide the district into seven trustee districts if such census data indicates that the population of the most populous trustee district exceeds the population of the least populous district by more than 10 percent. At the next district election following the redivision of the district, each trustee district shall elect a member of the board, and the members elected shall draw lots for two two-year terms, two four-year terms, and three six-year terms.

(f) Any election held pursuant to the terms of this section shall be conducted in accordance with the provisions of Subsection (i), Section 130.082 of this code.

(g) Trustees elected under the provisions of this section take office on the first Tuesday in May. [Added by Acts 1977, 65th Leg., p. 1868, ch. 743, § 1, eff. Aug. 20, 1977.]

(b) Such branch campuses, centers, or extension facilities shall be within the role and scope of the junior college as determined by the Coordinating Board, Texas College and University System.

[See Compact Edition, Volume 1 for text of (c)]

(d) Before any course may be offered by a junior college within the district of another operating public junior college, it must be established that the second public junior college is not capable of or is unable to offer the course. If the course is to be offered in a county which has a population of more than 97,500 persons, according to the last preceding federal census, and which has no state-supported senior college or university within its boundaries, it must also be established that any other college or university in the county is not able and willing to offer the course. After the need is established and the course is not locally available, then the first junior college may offer the course when approval is granted by the Coordinating Board, Texas College and University System, under the provisions of Subsection (a).

[See Compact Edition, Volume 1 for text of (e)]

(f) Out-of-district branch campuses, centers, or extension facilities of junior colleges existing prior to September 1, 1971, shall be reviewed by the Coordinating Board, Texas College and University System, to determine their feasibility and desirability with respect to the junior college and the population of the geographical area served by the branch campus, center, or extension facility.

3.631. Agreement Incident to Divorce or Annulment.

SUBCHAPTER B. JURISDICTION AND VENUE; RESIDENCE QUALIFICATIONS

§ 3.26. Acquiring Jurisdiction over Nonresident Respondent

(a) If the petitioner is a resident or a domiciliary of this state at the commencement of a suit for divorce, annulment, or to declare a marriage void, the court may exercise personal jurisdiction over the respondent, or the respondent's personal representative, although the respondent is not a resident or a domiciliary of this state if:

(1) this state is the last state in which marital cohabitation between petitioner and the respondent occurred and the suit is commenced within two years after the date on which cohabitation ended; or

(2) notwithstanding Subdivision (1) above, there is any basis consistent with the constitution of this state or the United States for the exercise of the personal jurisdiction.
§ 3.52. Pleadings

Pleadings of the parties in a suit for divorce or annulment or to declare a marriage void shall contain allegations of the grounds relied on substantially in the language of the statute and without a detailed statement of evidentiary facts. Allegations of grounds for relief, matters of defense, or facts relied on for temporary relief stated in short and plain terms are not subject to special exceptions because of form or sufficiency. All allegations of evidentiary facts shall be stricken from the pleadings on the motion of any party to the suit or by the court on its own motion.

§ 3.521. Citation by Publication

(a) Citation in a suit for divorce or annulment or to declare a marriage void may be given by publication as in other civil cases, except that notice shall be published one time only.

(d) Where no parent-child relationship exists, service by publication may be completed by posting the citation at the courthouse door for a period of seven days in the county where the suit is filed.

(e) Where the petitioner or his or her attorney of record shall make oath that no children presently under 18 years of age were born or adopted by the parties and that no appreciable amount of property was accumulated by the parties during the marriage, the court may dispense with the appointment of an attorney ad litem; but, in every such case a statement of the evidence, approved and signed by the judge, shall be filed with the papers of the cause as a part of the record thereof.

[Added by Acts 1975, 64th Leg., p. 622, ch. 254, § 9, eff. Sept. 1, 1975.]

(a) After a petition for divorce is filed, the court may, in its discretion, direct the parties to counsel with a person or persons named by the court, who shall submit a written report to the court before the hearing on the petition.

(b) In his report, the counselor shall give only his opinion as to whether there exists a reasonable expectation of reconciliation of the parties, and if so, whether further counseling would be beneficial. The sole purpose of the report is to aid the court in determining whether the suit for divorce should be continued pending further counseling, and the report shall not be admitted as evidence in the suit. Copies of the report shall be furnished to the parties.

(c) If the court is of the opinion that there exists a reasonable expectation of the parties' reconciliation, the court may by written order continue the proceedings and direct the parties to any person or persons named by the court for further counseling for a period of time fixed by the court not to exceed 60 days, subject to any terms, conditions, and limitations the court deems desirable. The court shall consider the circumstances of the parties, including the needs of the parties' family, and the availability of counseling services, in making its order. At the expiration of the period of time specified by the court, the counselor to whom the parties were directed shall report to the court whether the parties have complied with the court's order. Thereafter, the court shall proceed as in divorce suits generally.

Section 4 of the 1981 repealing act provides:

"This Act takes effect September 1, 1981, and applies only to suits for divorce, annulment, or to declare a marriage void filed on or after the effective date of this Act."

§ 3.58. Temporary Orders

(a) After a petition for divorce or annulment or to declare a marriage void is filed, the court, on the motion of any party, or on the court's own motion, may grant a temporary restraining order ex parte and, in addition, after notice and hearing may issue a temporary injunction for the preservation of the property and the protection of the parties as deemed necessary and equitable, including but not limited to an order prohibiting one or both parties from:

1. Intentionally communicating with the other by telephone or in writing in vulgar, profane, obscene, or indecent language, or in a coarse or offensive manner, with intent to annoy or alarm the other;
2. Threatening the other, by telephone or in writing, to take unlawful action against any person, intending by this action to annoy or alarm the other;
3. Placing one or more telephone calls, anonymously, at an unreasonable hour, in an offensive and repetitious manner, or without a legitimate purpose of communication with the intent to annoy or alarm the other;
4. Intentionally, knowingly, or recklessly causing bodily injury to the other, or to a child of either;
5. Threatening the other or a child of either with imminent bodily injury;
6. Intentionally, knowingly, or recklessly destroying, removing, concealing, encumbering, transferring, or otherwise harming or reducing the value of the property of the parties, or either of them, with intent to obstruct the authority of the court to order a division of the estate of the parties in a manner that the court deems just and right, having due regard for the rights of each party and any children of the marriage;
7. Intentionally falsifying any writing or record relating to the property of either of them;
8. Intentionally misrepresenting or refusing to disclose to the other or to the court, on proper request, the existence, amount, or location of any property of the parties, or either of them;
9. Intentionally or knowingly damaging or destroying the tangible property of the parties, or either of them; or
10. Intentionally or knowingly tampering with the tangible property of the parties, or either of them, and causing pecuniary loss or substantial inconvenience to the other.

(b) After a petition for divorce or annulment or to declare a marriage void is filed, the court, on the motion of any party or on the court's own motion, may grant a temporary injunction after notice and hearing for the preservation of the property and protection of the parties as deemed necessary and equitable, including but not limited to an order directed to one or both parties:

1. Requiring a sworn inventory and appraisement of all property, both real and personal, owned or claimed by the parties, and a list of all debts and liabilities owed by the parties (the form, manner, and substance of the inventory and appraisal and list of debts and liabilities to be specified by the court);
2. Requiring the support of either of the spouses;
3. Requiring the production of books, papers, documents, and tangible things by any party;
4. Ordering payment of reasonable attorney's fees and future expenses properly chargeable as court costs, on proof of necessity;
5. Appointing a receiver for the preservation and protection of the property of the parties;
6. Excluding either spouse from occupancy of the residence where the party is living;
7. Prohibiting the parties, or either of them, from engaging in acts reasonable and necessary to the conduct of that party's usual business or occupation;
The terms of the orders issued under this subsection may not be the subject of a temporary restraining order issued ex parte.

c) A temporary restraining order or a temporary injunction issued under this section may be granted without the necessity of an affidavit or a verified pleading stating specific facts showing that immediate and irreparable injury, loss, or damage will result before notice can be served and a hearing can be held.

d) In a suit for divorce, annulment, or to declare a marriage void, the court may dispense with the necessity of a bond as between the spouses when issuing temporary orders.

(e) The violation of any restraining order or injunction issued under this section is punishable as contempt.

Section 3 of the 1981 amendatory act provides: "This Act takes effect September 1, 1981, and applies only to suits for divorce or annulment in which a hearing on the issue of divorce or annulment has not been held before that date."

§ 3.59. Temporary Support

After a petition for divorce or annulment is filed, the judge, after due notice may order payments for the support of the wife, or for the support of the husband until a final decree is entered.

§ 3.61. Jury

In a suit for divorce or annulment or to declare a marriage void, either party, except as provided in Section 2.41 of this code, may demand a jury trial.

§ 3.63. Division of Property

(a) In a decree of divorce or annulment the court shall order a division of the estate of the parties in a manner that the court deems just and right, having due regard for the rights of each party and any children of the marriage.

(b) In a decree of divorce or annulment the court shall order a division of the following real and personal property, wherever situated, in a manner that the court deems just and right, having due regard for the rights of each party and any children of the marriage:

1. Property that was acquired by either spouse while domiciled elsewhere and that would have been community property if the spouse who acquired the property had been domiciled in this state at the time of the acquisition; or

2. Property that was acquired by either spouse in exchange for real or personal property, and that would have been community property if the spouse who acquired the property so exchanged had been domiciled in this state at the time of its acquisition.

Section 3 of the 1981 amendatory act provides: "This Act takes effect September 1, 1981, and applies only to suits for divorce or annulment in which a hearing on the issue of divorce or annulment has not been held before that date."

§ 3.631. Agreement Incident to Divorce or Annulment

(a) To promote amicable settlement of disputes on the divorce or annulment of a marriage, the parties may enter into a written agreement concerning the division of all property and liabilities of the parties and maintenance of either of them. The agreement may be revised or repudiated prior to rendition of the divorce or annulment unless it is binding under some other rule of law.

(b) In a proceeding for divorce or annulment, the terms of the agreement are binding on the court unless it finds that the agreement is not just and right. If the court finds the agreement is not just and right, the court may request the parties to submit a revised agreement.

§ 5.44. Formalities of Agreements

Each agreement, partition, or exchange agreement made under this subchapter must be in writing and subscribed by all parties.

§ 5.45. Marital Agreements: Burden of Proof

In any proceeding in which the validity of a provision of an agreement, partition, or exchange agreement made under this subchapter is in issue as against a spouse or a person claiming from a spouse, the burden of showing the validity of the provision is on the party who asserts it. The proponent of the agreement, partition, or exchange agreement or any person claiming under the proponent has the burden to prove by clear and convincing evidence that the party against whom enforcement of the agreement is sought gave informed consent and that the agreement was not procured by fraud, duress, or over-reaching.

(a) A court has original jurisdiction of a suit affecting the parent-child relationship, whether or not the child is physically present in the state, only if one of the following conditions is met:

(1) this state:

(A) is the principal residence of the child at the time the proceeding is commenced; or

(B) was the principal residence of the child at any time during the six-month period before the proceeding was commenced, and a parent or person acting as a parent resides in this state at the time the proceeding is commenced; or

(2) it is in the best interest of the child that a court of this state assume jurisdiction because:

(A) the child and the child's parents or the child and at least one contestant have a significant connection with this state and there is available in this state substantial evidence concerning the child's present or future care, protection, training, and personal relationships;

(B) the child is physically present in this state and there is a serious immediate question concerning the welfare of the child; or
(C) it appears that no other state would have jurisdiction under prerequisites substantially in accordance with this section, or another state has declined to exercise jurisdiction on the ground that this state is the more appropriate forum to determine issues concerning the child.

(b) The physical presence in this state of the child or of the child and one of the contestants is alone insufficient to confer jurisdiction to the court to make a determination under this subtitle.

[Added by Acts 1979, 66th Leg., ch. 584, § 2, eff. June 13, 1979.]

§ 11.05. Continuing Jurisdiction

Text of subsection as amended by Acts 1979, 66th Leg., p. 1201, ch. 584, § 1, and Acts 1979, 66th Leg., p. 1888, ch. 763, § 1

(a) Except as provided in Subsections (b), (c), (d), and (e) of this section and in Section 11.052 of this code, when a court acquires jurisdiction of a suit affecting the parent-child relationship, that court retains continuing jurisdiction of all parties and matters provided for under this subtitle in connection with the child. No other court of this state has jurisdiction of a suit affecting the parent-child relationship with regard to that child except on transfer as provided in Section 11.06 of this code.

Text of subsection as amended by Acts 1979, 66th Leg., p. 1471, ch. 643, § 2, and Acts 1979, 66th Leg., p. 1888, ch. 763, § 1

(a) Except as provided in Subsections (b), (c), (d), and (e) of this section and Section 17.05 of this code, when a court acquires jurisdiction of a suit affecting the parent-child relationship, that court retains continuing jurisdiction of all matters provided for under this subtitle in connection with the child, and no other court has jurisdiction of a suit affecting the parent-child relationship with regard to that child except on transfer as provided in Section 11.06 or 17.06 of this code.

(b) A final decree of adoption ends a court's continuing jurisdiction over the child, and any subsequent suit affecting the child shall be commenced as though the child had not been the subject of a suit for adoption or any other suit affecting the parent-child relationship prior to the adoption.

(c) A court shall have jurisdiction over a suit affecting the parent-child relationship if it has been, correctly or incorrectly, informed by the Texas Department of Human Resources that the child has not been the subject of a suit affecting the parent-child relationship and the petition states that no other court has continuing jurisdiction over the child.

(dX1) In a suit in which a determination of paternity is sought, except as provided in paragraph (2), the jurisdiction of the court terminates when an order dismissing with prejudice a suit under Chapter 13 becomes final, or when an order under Subsection (b), Section 13.08, declaring that the alleged father is not the father of the child becomes final, or when an order denying voluntary legitimation under Section 13.21 becomes final.

(2) The jurisdiction of the court does not terminate if the child was subject to the jurisdiction of the court or some other court in a suit affecting the parent-child relationship prior to the commencement of the suit to determine paternity.

Text of subsection as added by Acts 1979, 66th Leg., p. 1201, ch. 584, § 1

(e) A court does not acquire continuing, exclusive jurisdiction over the matters provided for under this subtitle in connection with the child before the entry of a final decree. A voluntary or involuntary dismissal of a suit affecting the parent-child relationship or the entry of a decree by another court having dominant jurisdiction of the suit terminates all jurisdiction of the court. Unless a final decree has been entered by a court of continuing, exclusive jurisdiction, a subsequent suit shall be commenced as an original proceeding.

Text of subsection as added by Acts 1979, 66th Leg., p. 1888, ch. 763, § 2

(e) A court acquires jurisdiction of a suit affecting the parent-child relationship without a transfer under Section 11.06 of this code, even though another court has continuing jurisdiction over the child, if the parents of the child have remarried after the dissolution of a previous marriage between the parents and file in the court acquiring jurisdiction a suit for the dissolution of their subsequent marriage combined with a suit affecting the parent-child relationship concerning the child.

§ 11.051. Acquiring Jurisdiction Over Nonresident

In a suit affecting the parent-child relationship, the court may exercise personal jurisdiction over a person on whom service of citation is required or over the person's personal representative, although the person is not a resident or domiciliary of this state, if:

(1) the child was conceived in this state and the person on whom service is required is a parent or an alleged or probable father of the child;

(2) the child resides in this state, as defined by Section 11.04 of this code, or with the approval of the person on whom service is required;

(3) the person on whom service is required has resided with the child in this state; or

(4) notwithstanding Subdivisions (1), (2), or (3) above, there is any basis consistent with the constitutions of this state or the United States for the exercise of the personal jurisdiction.

[Added by Acts 1975, 64th Leg., p. 1255, ch. 476, § 7, eff. Sept. 1, 1975.]
§ 11.052. Exceptions to Continuing Jurisdiction

(a) Except on the written agreement of all the parties, a court may not exercise its continuing jurisdiction to modify:

(1) the appointment of a managing conservator if the managing conservator and the child have established and continued to maintain their principal residence in another state for more than six months unless the action was filed and pending before the six-month period; or

(2) any part of a decree if all of the parties and the child have established and continue to maintain their principal residence outside this state.

(b) This section does not affect the power of the court to enforce and enter a judgment on its decree.

[Added by Acts 1979, 66th Leg., p. 1202, ch. 584, § 3, eff. June 13, 1979.]

§ 11.053. Recognition of Out-of-State Decrees Affecting a Child

A court of this state shall recognize and enforce an original or modified final decree granted by a court of another state and entered in litigation that would have been a suit affecting the parent-child relationship in this state unless it is shown that the out-of-state court did not exercise jurisdiction under the jurisdictional prerequisites of this code.

[Added by Acts 1979, 66th Leg., p. 1202, ch. 584, § 4, eff. June 13, 1979.]

§ 11.06. Transfer of Proceedings

(a) If venue is improperly laid in the court in which a suit affecting the parent-child relationship is filed, and no other court has continuing jurisdiction of the suit, on the timely motion of any party other than the petitioner, the court shall transfer the proceeding to the county where venue is proper on the basis of either a supporting uncontested affidavit or after a hearing when a controverting affidavit contesting the venue has been filed.

(b) If a petition for further action concerning the child or a motion to modify or enforce a decree is filed in a court having continuing jurisdiction of the suit, on the timely motion of any party, the court shall transfer the proceeding to the county where venue is proper on the basis of either a supporting uncontested affidavit or after a hearing when a controverting affidavit contesting the venue has been filed.

(d) For the convenience of the parties and witnesses and in the interest of justice, the court, on the timely motion of any party, may transfer the proceeding to a proper court in any other county in the state.

(e) If a court has continuing jurisdiction over a child but another court has acquired jurisdiction over the child in suit affecting the parent-child relationship under Section 11.05(c) or (e) of this code, the court previously having jurisdiction over the child, on a motion of any party, on the court’s motion, or on the request of the other court, shall transfer the proceeding to the court which has acquired jurisdiction under Section 11.05(e) or (e) of this code.

(f) A motion to transfer by a petitioner or movant is timely if it is made at the time the initial pleadings are filed. A motion to transfer by any other party is timely if it is made on or before the Monday next after the expiration of 20 days after the date of service of citation or notice of the action or before the commencement of the hearing, whichever is sooner. If a timely motion to transfer has been filed and no controverting affidavit is filed within the period allowed for its filing, the proceeding shall be transferred promptly without a hearing to the proper court.

(g) On or before the Monday next after the expiration of 20 days after the date of notice of a motion to transfer is served, a party desiring to contest the motion must file a controverting affidavit denying that grounds for the transfer exist.

(h) If a controverting affidavit contesting the motion to transfer is filed, each party is entitled to at least 10 days’ notice of the hearing on the motion to transfer.

(i) Only evidence pertaining to venue shall be taken at the hearing. An order transferring or refusing to transfer the proceeding is not subject to interlocutory appeal.

(j) The court transferring a proceeding shall send to the proper court in the county to which transfer is made the complete files in all matters affecting the child, certified copies of all entries in the minutes, and a certified copy of any decree of dissolution of marriage issued in a suit joined with the suit affecting the parent-child relationship. If the transferring court retains jurisdiction of another child who was the subject of the suit, the court shall send a copy of the complete files to the court to which the transfer is made and shall keep the original files.

(k) A court to which a transfer is made becomes the court of continuing jurisdiction, and all proceedings in the suit are continued as if it were brought there originally. All judgments, decrees, and orders

(c) On the receipt of a petition requesting further action concerning the child in the court of continuing jurisdiction, the clerk shall file the petition and all other papers relating to the request for further action in the file of the suit affecting the parent-child relationship under the same docket number as the prior proceeding.

§ 11.071. Identification of Court of Continuing Jurisdiction

(a) The petitioner or the court shall request from the Texas Department of Human Resources identification of the court that last had jurisdiction of the child in a suit affecting the parent-child relationship unless:

paternity must be brought before the child is four years old, or the suit is barred.

(a) When the respondent appears in a paternity suit, the court shall order the mother, alleged father, and child to submit to the taking of blood for the purpose of one or more blood tests. If the appearance is before the birth of the child, the court shall order the taking of blood to be made as soon as medically practical after the birth.

(b) The court may fix a reasonable fee for each court-appointed examiner and may require the fee to be paid by any or all of the parties or by the Texas Department of Human Resources, if the department is a party of the suit, in the amounts and in the manner directed, or the court may tax all or none of the fee as costs in the suit.

(c) A party may employ other qualified examiners of blood tests. The court may order blood samples made available to these examiners if requested.

(a) At the conclusion of the pretrial conference, if the court finds that the tests show by clear and convincing evidence that the alleged father is not the father of the child, the court shall dismiss the suit with prejudice.

(b) If the court finds that the blood tests fail to show by clear and convincing evidence the alleged father is not the father of the child, the court shall set the suit for trial.

(c) If the blood tests show the possibility of the alleged father's paternity, the court may admit this evidence if offered at the trial.

(d) Evidence of a refusal by the respondent to submit to a blood test is admissible to show only that the alleged father is not precluded from being the father of the child.

Amended by Acts 1975, 64th Leg., p. 1261, ch. 476, § 24, eff. Sept. 1, 1975.]

[Sections 13.10 to 13.20 reserved for expansion]
§ 13.21. Voluntary Legitimation

(a) If a statement of paternity has been executed by the father of an illegitimate child, the father or mother of the child or the Texas Department of Human Resources may file a petition for a decree designating the father as a parent of the child. The statement of paternity must be attached to the petition.

(b) The court shall enter a decree designating the child as the legitimate child of its father and the father as a parent of the child if the court finds that:

3. the mother or the managing conservator, if any, has consented to the decree.

(b) If the father’s address is unknown or he is outside the jurisdiction of the court at the time a suit is instituted under Section 13.21 of this code, his statement of paternity, in the absence of controverting evidence, is sufficient for the court to enter a decree establishing his paternity of the child.

Such relief shall not be granted unless one of the child’s legal parents at the time the relief is requested is the child’s natural parent. § 14.08. Modification of Order

(a) A court order or the portion of a decree that provides for the support of a child or the appointment of a conservator or that sets the terms and conditions of conservatorship for support for, or access to a child may be modified only by the filing of a motion in the court having jurisdiction of the suit affecting the parent-child relationship. Any party affected by the order or the portion of the decree to be modified may file the motion.

(b) Each party whose rights, privileges, duties, or powers may be affected by the motion is entitled to at least 30 days' notice of a hearing on the motion to modify.

(c) After a hearing, the court may modify an order or portion of a decree that:

(1) designates a managing conservator if the circumstances of the child or parent have so materially and substantially changed since the entry of the order or decree to be modified that the retention of the present managing conservator would be injurious to the welfare of the child and that the appointment of the new managing conservator would be a positive improvement for the child; or

(2) provides for the support of a child, sets the terms and conditions for access to or possession of a child, or prescribes the relative rights, privileges, duties, and powers of conservators if the circumstances of the child or a person affected by the order or portion of the decree to be modified have materially and substantially changed since the entry of the order or decree; except that an order providing for the support of a child may be modified only as to obligations accruing subsequent to the motion to modify.

(d) If the motion is filed for the purpose of changing the designation of the managing conservator and is filed within one year after the date of issuance of the order or decree to be modified, there shall be attached to the motion an affidavit executed by the person making the motion. The affidavit must contain at least one of the following allegations along with the supportive facts:

(1) that the child's present environment may endanger his physical health or significantly impair his emotional development; or

(2) that the managing conservator is the person seeking the modification or consents to the modification, and the modification is in the best interest of the child.

(e) On the filing of a motion to which the provisions of Subsection (d) of this section apply, the court shall deny the motion and refuse to schedule a hearing unless the court determines, on the basis of the affidavit, that adequate facts to support an allegation listed in Subdivision (1) or (2) of Subsection (d) of this section are stated in the affidavit. If the court determines that the facts stated are adequate to support an allegation, a time and place for the hearing shall be set.

[Amended by Acts 1975, 64th Leg., p. 1265, ch. 476, § 29, eff. Sept. 1, 1975.]

§ 14.10. Habeas Corpus

[See Compact Edition, Volume 1 for text of (a)]

(b) The court shall disregard any cross action or motion pending for modification of the decree determining managing conservatorship, possession, or support of or access to the child unless it finds that:

(1) the previous order was granted by a court that did not have jurisdiction of the parties; or

(2) the child has not been in the relator's possession and control for at least 6 months immediately preceding the filing of the petition for the writ.

[See Compact Edition, Volume 1 for text of (c) and (d)]

(e) If the right to possession of a child is not governed by a court order, the court in a habeas corpus proceeding involving the right of possession of the child shall compel return of the child to the relator if, and only if, it finds that the relator has a superior right to possession of the child by virtue of the rights, privileges, duties, and powers of a parent as set forth in Section 12.04 of this code.

(f) The court shall disregard any motion for temporary or permanent adjudication relating to the possession of the child in a habeas corpus proceeding brought under Subsection (e) of this section unless at the time of the hearing an action is pending under this subtitle, in which case the court may proceed to issue any temporary order as provided by Section 11.11 of this code.

[Amended by Acts 1975, 64th Leg., p. 1266, ch. 476, § 30, eff. Sept. 1, 1975; Acts 1977, 65th Leg., p. 1290, ch. 508, § 1, eff. Aug. 29, 1977.]

§ 14.11. [Blank]

§ 14.12. Probation of Contempt Order

(a) If the court finds that a person who has been ordered to make payments for the support of a child is in contempt of the court for the failure or refusal to make a payment, the court may suspend the imposition of the court's order of commitment and place the person on probation on the condition that the person shall continue the court-ordered child support payments with court costs and on other reasonable conditions that the court requires.

The terms and conditions of probation may include but shall not be limited to the conditions that the probationer shall:

1. report to the probation officer as directed;

2. permit the probation officer to visit him at his home or elsewhere;

3. obtain counseling on financial planning, budgeting management, alcohol or drug abuse, or other matters causing the defendant to fail to pay the child support payments;

4. pay all court costs.

(b) The probation may be for any period not to exceed five years or until one year has elapsed after all payments in arrears have been paid, whichever period is the longer.

[Amended by Acts 1975, 64th Leg., p. 1265, ch. 476, § 29, eff. Sept. 1, 1975.]
(c) A court granting probation may fix a fee not exceeding $10 per month to be paid to the court by the probationer during the probationary period. The court may make payment of the fee a condition of granting or continuing the probation.

The court shall deposit the fees received under this section in the special fund of the county treasury provided by Subsection (b) of Section 4.05 of Article 42.121, Code of Criminal Procedure, 1965, to be used for the provision of adult probation or community-based adult corrections services or facilities other than a jail or prison.

(d) If a probationer violates a condition of probation, the court may cause the probationer’s arrest by warrant as in other cases. An arrested probationer shall be brought promptly before the court causing the arrest, and the court, after a hearing without a jury, may continue, modify, or revoke the probation as the evidence warrants.

(e) When a probationary period has been satisfactorily completed, the court shall on its own motion discharge the probationer from probation. On the motion of a probationer who has satisfactorily completed one year of probation while not delinquent in the payment of child support, the court may discharge the probationer from probation.

Any adult is eligible to adopt a child who may be adopted.

§ 16.03. Prerequisites to Petition

[See Compact Edition, Volume 1 for text of (a) ]

(b) Except as provided in Subsection (c) of this section, no petition for adoption of a child may be considered unless there has been a decree terminating the parent-child relationship as to each living parent of the child or unless the termination proceeding is joined with the proceeding for adoption.
[See Compact Edition, Volume 1 for text of (c) ]

(d) If an affidavit of relinquishment of parental rights contains a consent that the Texas Department of Human Resources or an authorized agency may place the child for adoption and appoints the department or agency managing conservator of the child, no further consent by the parent is required and the adoption decree shall terminate all rights of the parent without further termination proceedings.

Former subsec. (d) was repealed by § 39 of the 1975 Act.

(b) The court shall set the date for the hearing on the adoption at a time not later than 60 days, nor earlier than 40 days, after the date on which the investigator is appointed. For good cause shown, the court may set the hearing at any time that provides adequate time for filing the report of the study.

(b) If a request for termination of the parent-child relationship has been joined with the petition for adoption, the court shall also enter in its decree a termination of the parent-child relationship. The court must make separate findings that the termination is in the best interests of the child and that the adoption is in the best interests of the child.

[Amended by Acts 1975, 64th Leg., p. 1269, ch. 476, § 42, eff. Sept. 1, 1975.]

CHAPTER 17. EMERGENCY PROCEDURES IN SUIT BY GOVERNMENTAL ENTITY

§ 17.01. Governmental Entity May Bring Suit
A suit affecting the parent-child relationship may be brought by a governmental entity with an interest in the child under Chapters 11, 13, 14, and 15 of this code. An emergency order or taking possession of a child without a court order as provided by Section 17.02 or 17.03 of this code is governed by this chapter.

§ 17.011. Living Child After Abortion
An authorized representative of the Texas Department of Human Resources may assume the care, control, and custody of a child born alive as the result of an abortion as defined in Subsection (b) of Section 15.022 of this code and, if so, shall file a petition under Section 17.02 or 17.03 of this code and comply with all the provisions of Section 11.09 of this code. A child the possession of whom is assumed under this section need not be delivered to the court except on the order of the court.

[Added by Acts 1979, 66th Leg., p. 1193, ch. 580, § 3, eff. June 13, 1979.]

This section was added by Acts 1979, 66th Leg., p. 1193, ch. 580, § 3, without reference to the amendment of this chapter by Acts 1979, 66th Leg., p. 1471; ch. 643, § 4.

§ 17.02. Emergency Orders
(a) Before any temporary restraining order or attachment of the child is issued without a full adversary hearing in a suit affecting the parent-child relationship brought by a governmental entity, the court must be satisfied from a sworn petition or affidavit that:

(1) there is an immediate danger to the physical health or safety of the child; and

(2) there is no time, consistent with the physical health or safety of the child, for an adversary hearing.

(b) The petition or affidavit required by Subsection (a) of this section shall be sworn to by a person with personal knowledge and shall state facts sufficient to satisfy a person of ordinary prudence and caution that there is an immediate danger to the physical health or safety of the child and that there is no time, consistent with the physical health or safety of the child, for an adversary hearing.

(c) A temporary restraining order or attachment of the child issued under Subsection (a) of this section may not extend for more than 10 days.

[Am. by Acts 1979, 66th Leg., p. 1472, ch. 643, § 2, eff. Sept. 1, 1979.]

§ 17.03. Taking Possession of a Child Without a Court Order
(a) An authorized representative of the Texas Department of Human Resources, a law enforcement officer, or a juvenile probation officer may take possession of a child without a court order under the following conditions and no others:

(1) upon discovery of a child in a situation of danger to the child’s physical health or safety when the sole purpose is to deliver the child without unnecessary delay to the parent, managing conservator, possessory conservator, guardian, caretaker, or custodian who is presently entitled to possession of the child;

(2) upon the voluntary delivery of the child by the parent, managing conservator, possessory conservator, guardian, caretaker, or custodian who is presently entitled to possession of the child;

(3) upon personal knowledge of facts which would lead a person of ordinary prudence and caution to believe that there is an immediate danger to the physical health or safety of the child and that there is no time to obtain a temporary restraining order or attachment under Section 17.02 of this code; or

(4) upon information furnished by another which has been corroborated by personal knowledge of facts and all of which taken together would lead a person of ordinary prudence and caution to believe that there is an immediate danger to the physical health or safety of the child and that there is no time to obtain a temporary restraining order or attachment under Section 17.02 of this code.

(b) When a child is taken into possession under Subdivision (3) or (4) of Subsection (a) of this section, the person taking the child into possession shall, without unnecessary delay, cause to be filed a suit affecting the parent-child relationship and request the court to cause hearing to be held by no later than the first working day after the child is taken into possession.

(c) The court in which the suit affecting the parent-child relationship has been filed under Subsection (b) of this section shall hold a hearing on or before the first working day after the child is taken

into possession and shall make such orders as are necessary to protect the physical health and safety of the child. If the court is unavailable for a hearing on the first working day, then, and only in that event, the hearing shall be held no later than the first working day after the court becomes available, provided that the hearing is held no later than the third working day after the child is taken into possession. The hearing may be ex parte and proof may be by sworn petition or affidavit if a full adversary hearing is not practicable. If the hearing established by this subsection is not held within the time limits required, the child shall be returned to the parent, managing conservator, possessor, conservator, guardian, caretaker, or custodian who is presently entitled to possession of the child.

(d) Unless the court at the hearing required under Subsection (c) of this section is satisfied that there is a continuing danger to the physical health or safety of the child if the child is returned to the parent, managing conservator, possessor, conservator, guardian, caretaker, or custodian who is presently entitled to possession of the child, the court shall order the return of the child to the person entitled to possession.

(e) A full adversary hearing shall be held within 10 days of the taking of the child into possession under Subdivision (3) or (4) of Subsection (a) of this section and such orders made as are necessary for the protection of the physical health and safety of the child.

(f) When possession of the child has been acquired under Subdivision (2) of Subsection (a) of this section, the person taking the child into possession shall cause to be filed a suit affecting the parent-child relationship within 60 days from the date of the taking of the child into possession and a hearing to be held thereon.

(g) When a child is taken into possession under this section, that child shall not be held in a jail or juvenile detention facility.

[Amended by Acts 1979, 66th Leg., p. 1471, ch. 643, § 4, eff. Sept. 1, 1979.]

§ 17.04. Adversary Hearing

(a) Unless the child has already been returned to the parent, managing conservator, possessor, conservator, guardian, caretaker, or custodian entitled to possession and any temporary orders dissolved, a full adversary hearing shall be held within 10 days of:

(1) the taking of the child into possession by authority of Subdivision (3) or (4) of Subsection (a) of Section 17.03 of this code;

(2) the taking of the child into possession by authority of a temporary restraining order or attachment of a child issued under Section 17.02 of this code; or

(3) the filing of the suit provided under Subsection (f) of Section 17.03 of this code.

(b) At the conclusion of the full adversary hearing, the court shall order the return of the child to the parent, managing conservator, possessor, conservator, guardian, caretaker, or custodian entitled to possession unless the court finds sufficient evidence to satisfy a person of ordinary prudence and caution that there is a danger to the physical health or safety of the child which was caused by any act or failure to act of the person entitled to possession.

(c) If the court finds sufficient evidence to satisfy a person of ordinary prudence and caution that there is a danger to the physical health or safety of the child, the court shall issue appropriate temporary orders under Section 11.11 of this code.

[Amended by Acts 1979, 66th Leg., p. 1471, ch. 643, § 4, eff. Sept. 1, 1979.]

§ 17.05. Jurisdiction of Chapter 17 Proceedings

(a) A suit affecting the parent-child relationship brought by a governmental entity seeking conservatorship or termination and a temporary restraining order or attachment of a child under this chapter may be filed in any court with jurisdiction to hear suits affecting the parent-child relationship in the county in which the child is found.

(b) Immediately after the issuance of such temporary orders as are necessary for the protection of the child pending a final hearing, a governmental entity shall determine the court of continuing jurisdiction and shall institute any transfers as are necessary under Section 17.06 or 11.06 of this code.

§ 17.06. Transfers in Chapter 17 Proceedings

(a) Immediately after entry of temporary orders necessary for the protection of the child pending a final hearing, the court on the motion of a party shall transfer to the court of continuing jurisdiction, if there is a court of continuing jurisdiction, or if there is no court of continuing jurisdiction, to the court having venue of the suit affecting the parent-child relationship under Section 11.04 of this code. Transfers shall be made under the procedures provided by Section 11.06 of this code.

(b) Temporary orders issued under this chapter are valid and enforceable until properly superseded by a court with jurisdiction to do so.

(c) Any court to which the suit has been transferred may enforce by contempt or otherwise any temporary order properly issued under this chapter.

[Amended by Acts 1979, 66th Leg., p. 1471, ch. 643, § 4, eff. Sept. 1, 1979.]

§ 17.08. Civil Liability

[Sections 21.09 to 21.10 reserved for expansion]
§ 21.24. Jurisdiction

Jurisdiction of all proceedings hereunder is vested in the district court and in any other court authorized to order support for children.

§ 21.25. Petition for Support

The petition shall be verified and shall state the name and, so far as known to the plaintiff, the address and circumstances of the defendant and his dependents for whom support is sought and all other pertinent information. The plaintiff shall attach to the petition a certified copy of the court order, decree, or judgment of support sought to be enforced, whether interlocutory or final, if any. The plaintiff may include in or attach to the petition any information which may help in locating or identifying the defendant, such as a photograph of the defendant, a description of any distinguishing marks of his person, other names and aliases by which he has been or is known, the name of his employer, his fingerprints, or Social Security number.

§ 21.26. Representation of Plaintiff

The prosecuting attorney, upon the request of the court or the Texas Department of Human Resources, shall represent the plaintiff in any proceeding under this chapter.

§ 21.28. Court of This State as Initiating State

If the court of this state acting as an initiating state finds that the petition sets forth facts from which it may be determined that the defendant owes a duty of support and that a court of the responding state may obtain jurisdiction of the defendant or his property, it shall so certify and shall cause three copies of the petition, its certificate, and this chapter to be transmitted to the court in the responding state. If the name and address of such court is unknown and the responding state has an information agency comparable to that established in the initiating state, it shall cause such copies to be transmitted to the state information agency or other proper official of the responding state, with a request that it forward them to the proper court, and that the court of the responding state acknowledge their receipt to the court of the initiating state.

§ 21.31. State Information Agency

The Texas Department of Human Resources is the state information agency under this chapter, and it shall:

(1) compile a list of the courts and their addresses in this state having jurisdiction under this chapter and transmit the same to the state information agency of every other state which has adopted this chapter or a substantially similar act; and

(2) maintain a register of such lists received from other states and transmit copies thereof as soon as possible after receipt to every court in this state having jurisdiction under this chapter.

§ 21.32. Duty of State as Responding State

(a) After the court of this state, acting as a responding state, has received from the court of the initiating state the aforesaid copies, the clerk of the court shall docket the case and notify the district judge or the judge of the domestic relations court, or both judges, of his action.

[See Compact Edition, Volume 1, for text of (b)]

§ 21.35. Testimony of Husband and Wife

Laws attaching a privilege against the disclosure of communications between husband and wife are inapplicable to proceedings under this chapter. The defendant is a competent witness in the responding court and may be compelled to testify to any relevant matter, including marriage and other relevant matter establishing the duty of support or the ability to contribute support, which testimony may be the only evidence that is the basis for entry of an order.

§ 21.36. Rules of Evidence; Presumptions

(a) In any hearing under this chapter, the court shall be bound by the same rules of evidence that bind the district court.

(b) In any suit brought under this chapter, if the initiating court certifies that the petition sets forth facts from which it may be determined that the defendant owes a duty of support and that a court of the responding state may obtain jurisdiction over the defendant or his property, the certified petition shall be admitted in the responding state as prima facie evidence that the defendant's duty to support exists.

(c) In a contested case, it is presumed:

(1) that the obligor and the obligee have an equal duty of support; or
§ 21.36

(2) if there is a prior support order, that the most recent order correctly designates the current amount of support and duty of support.

§ 21.39. Enforcement Power of Court

In addition to the foregoing powers, the court of this state when acting as the responding state has the power to subject the defendant to such terms and conditions as the court may deem proper to assure compliance with its orders, and in particular:

(1) to require the defendant to furnish a cash deposit or bond of such character and in such amount as the court may deem proper to assure payment of any amount required to be paid by the defendant;

(2) to require the defendant to make payments at specified intervals to the district clerk or probation department of the court;

(3) to punish the defendant who shall violate any order of the court to the same extent as is provided by law for contempt of the court in any other suit or proceeding cognizable by the court; and

(4) to order the defendant (obligor) to pay as court costs a reasonable fee to any attorney or to the prosecuting attorney's office who represents the petitioner in any enforcement proceeding.

[Amended by Acts 1975, 64th Leg., p. 1271, ch. 476, § 49, eff. Sept. 1, 1975.]

§ 21.42. Stay of Proceedings

No proceeding under this chapter shall be stayed because of the existence of a pending suit for divorce, separation, annulment, dissolution, habeas corpus, custody proceeding, or suit affecting the parent-child relationship.

§ 21.45. Interdistrict Application

(a) This chapter is applicable when both the plaintiff and the defendant are in this state but in different judicial districts.

(b) If the initiating court finds that the petition sets forth facts from which it may be determined that the defendant owes a duty of support and finds that another court in this state may obtain jurisdiction of the defendant or his property, the clerk of the court shall send three copies of the petition and a certification of the findings to the court of the judicial district in which the defendant or his property is found. The clerk of the court receiving these copies shall notify the prosecuting attorney of their receipt. The prosecuting attorney and the court to which the copies are forwarded shall then have duties corresponding to those imposed upon them when acting for the state as a responding state.

(c) In a suit under this section, no defense may be raised other than payment and satisfaction of the support obligation or invalidity of the decree or judgment creating the obligation.

(b) A minor who is not a resident of this state and is at least 17 years of age may petition to have his disabilities of minority removed for a limited purpose or for general purposes if he is an adult under the laws of the state of his residence.

If the person who is to verify the petition is unavailable or his whereabouts are unknown, the guardian ad litem shall verify the petition after his appointment.

(a) Nonaccusatory reports reflecting the reporter's belief that a child has been or will be abused or neglected, or has died of abuse or neglect, has violated the compulsory school attendance laws on three or more occasions, or has, on three or more occasions, been voluntarily absent from his home without the consent of his parent or guardian for a substantial length of time or without the intent to return shall be made to any local or state law enforcement agency, and in addition shall be made to:

(1) the Texas Department of Human Resources; or

(2) the agency designated by the court to be responsible for the protection of children.

[See Compact Edition, Volume 1 for text of (b)]

(c) All reports received by any local or state law enforcement agency shall be referred to the Texas Department of Human Resources or to the agency designated by the court to be responsible for the protection of children. The department or designated agency immediately shall notify the appropriate state or local law enforcement agency of any report it receives, other than from a law enforcement agency, that concerns the suspected abuse or neglect of a child or death of a child from abuse or neglect.

[See Compact Edition, Volume 1 for text of (d)]

§ 34.05. Investigation and Report of Receiving Agency

(a) The Texas Department of Human Resources or the agency designated by the court to be responsible for the protection of children shall make a thorough investigation promptly after receiving either the oral or written report. The primary purpose of the investigation shall be the protection of the child.

(b) In the investigation the department or agency shall determine:

(1) the nature, extent, and cause of the abuse or neglect;

(2) the identity of the person responsible for the abuse or neglect;

(3) the names and conditions of the other children in the home;

(4) an evaluation of the parents or persons responsible for the care of the child;

(5) the adequacy of the home environment;

(7) all other pertinent data.

(e) The investigation shall include a visit to the child's home, a physical examination of all the children in that home, and an interview with the subject child. The investigation may include a psychological or psychiatric examination of all the children in that home. If admission to the home, school, or any place where the child may be, or permission of the parents or persons responsible for the child's care for the physical examinations cannot be obtained, then the juvenile court, or the district court, upon cause shown, shall order the parents or the persons responsible for the care of the child. If the child's care is not ordered, then the department or agency, juvenile court, or district court, upon cause shown, shall order the examination to be made at the times and places designated by the court. A parent or personal responsible for the child's care is entitled to notice and a hearing when the department or agency seeks a court order to allow a psychological or psychiatric examination.

[See Compact Edition, Volume 1 for text of (d)]

(e) The agency designated by the court to be responsible for the protection of children or the department shall make a complete written report of the investigation. The report, together with its recommendations, shall be submitted to the juvenile court or the district court, the district attorney, and the appropriate law enforcement agency if sufficient grounds for the institution of a suit affecting the parent-child relationship are found.

The examination may include X-rays, blood tests, and penetration of tissue necessary to accomplish these tests.

(b) Unless consent is obtained as otherwise allowed by law, a physician or dentist may not examine a child:

1. who is 16 years old or over and refuses to consent; or

2. if consent is refused by an order of a court.

(c) A physician or dentist examining a child under the authority of this section is not liable for damages except those damages resulting from his negligence.

§ 51.04. Jurisdiction

[See Compact Edition, Volume 1 for text of (b) and (c)]

(d) If the judge of a court designated in Subsection (b) or (c) of this section is not an attorney licensed in this state, there shall also be designated an alternate court, the judge of which is an attorney licensed in this state. [Amended by Acts 1975, 64th Leg., p. 2154, ch. 693, § 8, eff. Sept. 1, 1975.]

§ 51.09. Waiver of Rights

(a) Unless a contrary intent clearly appears elsewhere in this title, any right granted to a child by this title or by the constitution or laws of this state or the United States may be waived in proceedings under this title if:

(1) the waiver is made by the child and the attorney for the child;

(2) the child and the attorney waiving the right are informed of and understand the right and the possible consequences of waiving it;

(3) the waiver is voluntary; and

(4) the waiver is made in writing or in court proceedings that are recorded.

(b) Notwithstanding any of the provisions of Subsection (a) of this section, the statement of a child is admissible in evidence in any future proceeding concerning the matter about which the statement was given if:

(1) when the child is in a detention facility or other place of confinement or in the custody of an officer, the statement is made in writing and the statement shows that the child has at some time prior to the making thereof received from a magistrate a warning that:

(A) he may remain silent and not make any statement at all and that any statement he makes may be used in evidence against him;

(B) he has the right to have an attorney present to advise him either prior to any questioning or during the questioning;

(C) if he is unable to employ an attorney, he has the right to have an attorney to counsel with him prior to or during any interviews with peace officers or attorneys representing the state;

The magistrate must be fully convinced that the child understands the nature and contents of the statement and that the child is signing the same voluntarily. If such a statement is taken, the magistrate shall sign a written statement verifying the foregoing requisites have been met.

The child must knowingly, intelligently, and voluntarily waive these rights prior to and during the making of the statement and sign the statement in the presence of a magistrate who must certify that he has examined the child independent of any law enforcement officer or prosecuting attorney and determined that the child understands the
nature and contents of the statement and has knowingly, intelligently, and voluntarily waived these rights.

(2) it be made orally and the child makes a statement of facts or circumstances that are found to be true, which conduct tends to establish his guilt, such as the finding of secreted or stolen property, or the instrument with which he states the offense was committed.

[Amended by Acts 1975, 64th Leg., p. 2154, ch. 693, § 9, eff. Sept. 1, 1975.]

§ 51.12. Place and Conditions of Detention

[See Compact Edition, Volume 1 for text of (a) and (b)]

(c) In each county, the judge of the juvenile court and the members of the juvenile board, if there is one, shall personally inspect the detention facilities at least annually and shall certify in writing to the authorities responsible for operating and giving financial support to the facilities that they are suitable or unsuitable for the detention of children in accordance with:

(1) the requirements of Subsection (a) of this section;

(2) the requirements of Article 5115, Revised Civil Statutes of Texas, 1925, as amended, defining “safe and suitable jails,” if the detention facility is a county jail; and

(3) recognized professional standards for the detention of children.

[See Compact Edition, Volume 1 for text of (d)]

(e) If there is no certified place of detention in the county in which the petition is filed, the designated place of detention may be in another county.

[Amended by Acts 1975, 64th Leg., p. 2156, ch. 693, §§ 1 to 3, eff. June 11, 1979.]

§ 51.15. Fingerprints and Photographs

(a) No child may be fingerprinted without the consent of the juvenile court except as provided in Subsection (f) of this section. However, if a child 15 years of age or older is referred to the juvenile court for a felony, his fingerprints may be taken and filed by a law-enforcement officer investigating the case.

(b) Except as provided in Subsection (h) of this section, no child taken into custody may be photographed without the consent of the juvenile court unless the child is transferred to criminal court for prosecution under Section 54.02 of this code.

[See Compact Edition, Volume 1 for text of (c) to (f)]

(g) When destruction of fingerprints or photographs is required by Subsection (e), (f), or (h) of this section, the agency with custody of the fingerprints or photographs shall proceed with destruction without judicial order. However, if the fingerprints or photographs are not destroyed, the juvenile court, on its own motion or on application by the person fingerprinted or photographed, shall order the destruction as required by this section.

(h) If, during the investigation of a criminal offense, a law enforcement officer has reason to believe that a photograph of a child taken into custody or detained as permitted under this title will assist in the identification of the offender and if not otherwise prohibited by law, the officer may photograph the face of the child. If the child is not identified as an offender, the photograph and its negative shall be destroyed immediately. If the child is identified through the photograph and the child is referred to the juvenile court for the offense investigated, the photograph and its negative shall be delivered to the juvenile court for disposition. If the child is not referred to the juvenile court for the offense investigated, the photograph and its negative shall be destroyed immediately.

[Amended by Acts 1975, 64th Leg., p. 2156, ch. 693, § 12, eff. Sept. 1, 1975; Acts 1979, 66th Leg., p. 1101, ch. 517, §§ 1 to 8, eff. June 11, 1979.]

§ 51.16. Sealing of Files and Records

[See Compact Edition, Volume 1 for text of (a) to (g)]

(h) A person whose files and records have been sealed under this Act is not required in any proceeding or in any application for employment, information, or licensing to state that he has been the subject of a proceeding under this Act; and any statement that he has never been found to be a delinquent child shall never be held against the person in any criminal or civil proceeding.

(i) On the motion of a person in whose name files and records are kept or on the court’s own motion, the court may order the destruction of all files and records concerning a person who has been adjudicated to be a child in need of supervision or a delinquent child if:

(1) seven years have elapsed since the child’s 16th birthday; and

(2) the person has not been convicted of a felony.

[Amended by Acts 1975, 64th Leg., p. 2156, ch. 693, § 13, eff. Sept. 1, 1975; Acts 1979, 66th Leg., p. 708, ch. 507, § 1, eff. Aug. 27, 1979.]

§ 51.18. Powers and Duties of Alternate Juvenile Court

If a juvenile court, the judge of which is not an attorney licensed in this state, issues an order that may be appealed as provided in Subsection (e) of Section 56.01 of this code, the child shall have a right to a trial de novo before the alternate juvenile court or may appeal the order of the court as provided in Section 56.01.

CHAPTER 53. PROCEEDINGS PRIOR TO JUDICIAL PROCEEDINGS

§ 53.02. Release from Detention
[See Compact Edition, Volume 1 for text of (a)]
(b) A child taken into custody may be detained prior to hearing on the petition only if:
   (1) he is likely to abscond or be removed from the jurisdiction of the court;
   (2) suitable supervision, care, or protection for him is not being provided by a parent, guardian, custodian, or other person;
   (3) he has no parent, guardian, custodian, or other person able to return him to the court when required;
   (4) he is accused of committing a felony offense and may be dangerous to himself or others if released; or
   (5) he has previously been found to be a delinquent child or has previously been convicted of a penal offense punishable by a term in jail or prison and is likely to commit an offense if released.

[See Compact Edition, Volume 1 for text of (f) to (l)]

CHAPTER 54. JUDICIAL PROCEEDINGS

§ 54.01. Detention Hearing
(a) If the child is not released under Section 53.02 of this code, a detention hearing without a jury shall be held promptly, but not later than the second working day after he is taken into custody; provided, however, that when a child is detained on a Friday or Saturday, then such detention hearing shall be held on the first working day after the child is taken into custody.
[See Compact Edition, Volume 1 for text of (b) to (d)]

(e) At the conclusion of the hearing, the court shall order the child released from detention unless it finds that:
   (1) he is likely to abscond or be removed from the jurisdiction of the court;
   (2) suitable supervision, care, or protection for him is not being provided by a parent, guardian, custodian, or other person;
   (3) he has no parent, guardian, custodian, or other person able to return him to the court when required;
   (4) he is accused of committing a felony offense and may be dangerous to himself or others if released; or
   (5) he has previously been found to be a delinquent child or has previously been convicted of a penal offense punishable by a term in jail or prison and is likely to commit an offense if released.

§ 54.02. Waiver of Jurisdiction and Discretionary Transfer to Criminal Court
[See Compact Edition, Volume 1 for text of (a) to (i)]
(j) The juvenile court may waive its exclusive original jurisdiction and transfer a person to the appropriate district court or criminal district court for criminal proceedings if:
   (1) the person is 18 years of age or older;
   (2) the person was 15 years of age or older and under 17 years of age at the time he is alleged to have committed a felony;
   (3) no adjudication concerning the alleged offense has been made or no adjudication hearing concerning the offense has been conducted; and
   (4) the juvenile court finds from a preponderance of the evidence that after due diligence of the state it was not practicable to proceed in juvenile court before the 18th birthday of the person because:
      (A) the state did not have probable cause to proceed in juvenile court and new evidence has been found since the 18th birthday of the person; or
      (B) the person could not be found.
(k) The petition and notice requirements of Sections 53.04, 53.05, 53.06, and 53.07 of this code must be satisfied, and the summons must state that the hearing is for the purpose of considering waiver of jurisdiction under Subsection (j) of this section.
   (l) The juvenile court shall conduct a hearing without a jury to consider waiver of jurisdiction under Subsection (j) of this section.
[Amended by Acts 1975, 64th Leg., p. 2156, ch. 693, §§ 14 and 15, eff. Sept. 1, 1975; Acts 1979, 66th Leg., p. 1102, ch. 518, § 2, eff. June 11, 1979.]
§ 54.03. Adjudication Hearing

(c) Trial shall be by jury unless jury is waived in accordance with Section 51.09 of this code. Jury verdicts under this title must be unanimous.

(e) A child alleged to have engaged in delinquent conduct or conduct indicating a need for supervision need not be a witness against nor otherwise incriminate himself. An extrajudicial statement which was obtained without fulfilling the requirements of this title or of the constitution of this state or the United States, may not be used in an adjudication hearing. A statement made by the child out of court is insufficient to support a finding of delinquent conduct or conduct indicating a need for supervision unless it is corroborated in whole or in part by other evidence. An adjudication of delinquent conduct or conduct indicating a need for supervision cannot be had upon the testimony of an accomplice unless corroborated by other evidence tending to connect the child with the alleged delinquent conduct or conduct indicating a need for supervision; and the corroborating is not sufficient if it merely shows the commission of the alleged conduct. Evidence illegally seized or obtained is inadmissible in an adjudication hearing.

§ 54.04. Disposition Hearing

(d) If the court makes the finding specified in subsection (c) of this section, it may:

(1) place the child on probation on such reasonable and lawful terms as the court may determine for a period not to exceed one year, subject to extensions not to exceed one year each:

(A) in his own home or in the custody of a relative or other fit person;

(B) in a suitable foster home; or

(C) in a suitable public or private institution or agency, except the Texas Youth Council; and

(D) the juvenile court, on notice to the child and on hearing, may order the child to make full or partial restitution to the victim of the offense. An order under this subsection may provide for periodic payments by the child for the period specified in the order not to exceed five years after the 18th birthday of the child. If the child is unable to make full or partial restitution or if a restitution order is not appropriate under the circumstances, the court may order the child to render personal services to a charitable or educational institution in the manner prescribed in the court order in lieu of restitution. The victim of an offense is not entitled to receive more than actual damages under a juvenile court order;

(2) if the court or jury found at the conclusion of the adjudication hearing that the child engaged in delinquent conduct, the court may commit the child to the Texas Youth Council.

§ 54.041. Orders Affecting Parents and Others

(a) When a child has been found to have engaged in delinquent conduct or conduct indicating a need for supervision and the juvenile court has made a finding that the child is in need of rehabilitation or that the protection of the public or the child requires that disposition be made, the juvenile court, on notice to all persons affected, may:

(1) order any person found by the juvenile court to have, by a wilful act or omission, contributed to, caused, or encouraged the child's delinquent conduct or conduct indicating a need for supervision to do any act that the juvenile court determines to be reasonable and necessary for the welfare of the child or to refrain from doing any act that the juvenile court determines to be injurious to the welfare of the child; or

(2) enjoin all contact between the child and a person who is found to be a contributing cause of the child's delinquent conduct or conduct indicating a need for supervision.

(b) If a child is found to have engaged in delinquent conduct arising from the commission of an offense in which property damage occurred, the juvenile court, on notice to all persons affected and on hearing, may order the child or a parent to make full or partial restitution to the victim of the offense. An order under this subsection may provide for periodic payments by the child or a parent of the child for the period specified in the order not to exceed five years after the 15th birthday of the child. If the child or parent is unable to make full or partial restitution or if a restitution order is not appropriate under the circumstances, the court may order the child to render personal services to a charitable or educational institution in the manner prescribed in the court order in lieu of restitution. Restitution under this section is cumulative of any other remedy allowed by law and may be used in addition to other remedies; except that a victim of an offense is not entitled to receive more than actual damages under a juvenile court order.
(c) A person subject to an order proposed under Subsection (a) of this section is entitled to a hearing on the order before the order is entered by the court.  
(d) An order made under this section may be enforced as provided by Section 54.07 of this code.  

§ 54.05. Hearing to Modify Disposition  
[See Compact Edition, Volume 1 for text of (a) to (e)]  
(d) A hearing to modify disposition shall be held on the petition of the child and his parent, guardian, guardian ad litem, or attorney, or on the petition of the state, a probation officer, or the court itself. Reasonable notice of a hearing to modify disposition shall be given to all parties. When the petition to modify is filed under Section 51.03(a)(2) of this code, the court must hold an adjudication hearing and make an affirmative finding prior to considering any written reports under Subsection (e) of this section.  
(e) After the hearing on the merits or facts, the court may consider written reports from probation officers, professional court employees, or professional consultants in addition to the testimony of other witnesses. Prior to the hearing to modify disposition, the court shall provide the attorney for the child with access to all written matter to be considered by the court in deciding whether to modify disposition. The court may order counsel not to reveal items to the child or his parent, guardian, or guardian ad litem if such disclosure would materially harm the treatment and rehabilitation of the child or would substantially decrease the likelihood of receiving information from the same or similar sources in the future.  
[See Compact Edition, Volume 1 for text of (f) to (i)]  
[Amended by Acts 1979, 66th Leg., p. 1829, ch. 743, § 1, eff. Aug. 27, 1979.]

§ 54.061. Payment of Probation Fees  
(a) If a child is placed on probation under Section 54.04(d)(1) of this code, the juvenile court, after giving the child, parent, or other person responsible for the child's support a reasonable opportunity to be heard, may order the child, parent, or other person, if financially able to do so, to pay to the court a fee of not more than $15 a month during the period that the child continues on probation.  
(b) Orders for the payment of fees under this section may be enforced as provided by Section 54.07 of this code.  
(c) The court shall deposit the fees received under this section in the county treasury to the credit of a special fund that may be used only for juvenile probation or community-based juvenile corrections services or facilities in which a juvenile may be required to live while under court supervision.  

§ 54.07. Enforcement of Order  
[See Compact Edition, Volume 1 for text of (a)]  
(b) The juvenile court may enforce its order for support or for the payment of restitution or probation fees by civil contempt proceedings after 10 days' notice to the defaulting person of his failure or refusal to carry out the terms of the order.  
(c) On the motion of the juvenile court or any person or agency entitled to receive restitution or probation payments or payments for the benefit of a child, the juvenile court may render judgment against a defaulting person for any amount unpaid and owing after 10 days' notice to the defaulting person of his failure or refusal to carry out the terms of the order. The judgment may be enforced by any means available for the enforcement of judgments for other debts.  

§ 54.10. Hearings Before Referee  
(a) The hearing provided in Sections 54.01, 54.03, and 54.04 of Title 3 of this code and the hearing provided in Article IV, Article V, and Article VI of the Uniform Interstate Compact on Juveniles (Chapter 25 of this code) may be held by a referee appointed in accordance with Section 51.04(g) of this code provided:  
(1) the parties have been informed by the referee that they are entitled to have the hearing before the juvenile court judge or in the case of a detention hearing provided for in Section 54.01 of this code, a substitute judge as authorized by Section 51.04(f) of this code; or  
(2) the child and the attorney for the child have in accordance with the requirements of Section 51.09 of this code waived the right to have the hearing before the juvenile court judge or substitute judge.  
(b) At the conclusion of the hearing, the referee shall transmit written findings and recommendations to the juvenile court judge. The juvenile court judge shall adopt, modify, or reject the referee's recommendations within 24 hours. In the same case of a detention hearing as authorized by Section 54.01 of this code, the failure of the juvenile court to act within 24 hours results in release of the child by operation of law and a recommendation that the child be released operates to secure his immediate release subject to the power of the juvenile court judge to modify or reject that recommendation.  

CHAPTER 55. PROCEEDINGS CONCERNING CHILDREN WITH MENTAL ILLNESS, RETARDATION, DISEASE, OR DEFECT  
§ 55.01. Physical or Mental Examination  
(a) At any stage of the proceedings under this title, the juvenile court may cause the child to be
§ 55.01

examined by a physician, psychiatrist, or psychologist.

(b) If an examination ordered under Subsection (a) of this section is to determine whether the child is mentally retarded, the examination must consist of a comprehensive diagnosis and evaluation as defined in the Mentally Retarded Persons Act and shall be conducted at a facility approved by the Texas Department of Mental Health and Mental Retardation.

[Amended by Acts 1977, 65th Leg., p. 1453, ch. 591, § 1, eff. Jan. 1, 1978.] 1

1 See Civil Statutes, art. 5547-300.

§ 55.02. Mentally Ill Child

[See Compact Edition, Volume 1 for text of (a) and (b)]

(c) If the juvenile court enters an order of temporary hospitalization of the child, the child shall be cared for, treated, and released in conformity to the Texas Mental Health Code except:

(1) a juvenile court order of temporary hospitalization of a child automatically expires when the child becomes 18 years of age;

(2) the head of a mental hospital shall notify the juvenile court that ordered temporary hospitalization at least 10 days prior to discharge of the child; and

(3) appeal from juvenile court proceedings under this section shall be to the court of civil appeals as in other proceedings under this title.

[See Compact Edition, Volume 1 for text of (d)]

(e) If the child is discharged from the mental hospital before reaching 18 years of age, the juvenile court may:

(1) dismiss the juvenile court proceedings with prejudice; or

(2) continue with proceedings under this title as though no order of temporary hospitalization had been made.

§ 55.03. Mentally Retarded Child

(a) If it appears to the juvenile court, on the suggestion of a party or on the court's own notice, that a child alleged or found to have engaged in delinquent conduct or conduct indicating a need for supervision may be mentally retarded, the court shall order a comprehensive diagnosis and evaluation of the child to be performed at a facility approved by the Texas Department of Mental Health and Mental Retardation. If the court finds that the results of such comprehensive diagnosis and evaluation indicate a significantly subaverage general intellectual function of 2.5 or more standard deviations below the age-group mean for the tests used existing concurrently with deficits in adaptive behavior of Levels I–IV, the court shall initiate proceedings to order commitment of the child to a facility for the care and treatment of mentally retarded persons.

(b) The Mentally Retarded Persons Act (Article 3871b, Vernon's Texas Civil Statutes) governs proceedings for commitment of a child meeting the criteria set forth in Subsection (a) of this section except that:

(1) the juvenile court shall conduct the proceedings whether or not the juvenile court is also a county court; and

(2) on receipt of the court's order entering the findings set forth in Subsection (a) of this section, together with those findings set forth in the Mentally Retarded Persons Act as prerequisites for court commitments, the Texas Department of Mental Health and Mental Retardation or the appropriate community center shall thereupon admit the child to a residential care facility for the mentally retarded.

[See Compact Edition, Volume 1 for text of (c) and (d)]

(e) If the child is discharged from the facility for the care and treatment of mentally retarded persons before reaching 18 years of age, the juvenile court may:

(1) dismiss the juvenile court proceedings with prejudice; or

(2) continue with proceedings under this title as though no order of commitment had been made.

§ 1.001. Purpose of Code
(a) This code is enacted as a part of the state's continuing statutory revision program, begun by the Texas Legislative Council in 1963 as directed by the legislature in Chapter 448, Acts of the 58th Legislature, Regular Session, 1963 (Article 5429b–1, Vernon's Texas Civil Statutes). The program contemplates a topic-by-topic revision of the state's general and permanent statute law without substantive change.

(b) Consistent with the objectives of the statutory revision program, the purpose of this code is to make the general and permanent human resources law more accessible and understandable by:

(1) rearranging the statutes into a more logical order;
(2) employing a format and numbering system designed to facilitate citation of the law and to accommodate future expansion of the law;
(3) eliminating repealed, duplicative, unconstitutional, expired, executed, and other ineffective provisions; and
(4) restating the law in modern American English to the greatest extent possible.

§ 1.002. Construction of Code
The Code Construction Act (Article 5429b–2, Vernon's Texas Civil Statutes) applies to the construction of each provision of this code, except as otherwise expressly provided by this code.

No provision of this title is intended to release the counties and municipalities in this state from the specific responsibilities they have with regard to the support of public welfare, child welfare, and relief services. SUBCHAPTER B. INTERSTATE COMPACT ON THE PLACEMENT OF CHILDREN

§ 45.021  Adoption of Compact; Text

The Interstate Compact on the Placement of Children is adopted by this state and entered into with all other jurisdictions joining therein in form substantially as follows:

INTERSTATE COMPACT ON THE PLACEMENT OF CHILDREN

ARTICLE I. PURPOSE AND POLICY

It is the purpose and policy of the party states to cooperate with each other in the interstate placement of children to the end that:

(a) Each child requiring placement shall receive the maximum opportunity to be placed in a suitable environment and with persons or institutions having appropriate qualifications and facilities to provide a necessary and desirable degree and type of care.

(b) The appropriate authorities in a state where a child is to be placed may have full opportunity to ascertain the circumstances of the proposed placement, thereby promoting full compliance with applicable requirements for the protection of the child.

(c) The proper authorities of the state from which the placement is made may obtain the most complete information on the basis on which to evaluate a projected placement before it is made.

(d) Appropriate jurisdictional arrangements for the care of children will be promoted.

ARTICLE II. DEFINITIONS

As used in this compact:

(a) "Child" means a person who, by reason of minority, is legally subject to parental, guardianship, or similar control.

(b) "Sending agency" means a party state, officer, or employee thereof; a subdivision of a party state, or officer or employee thereof; a court of a party state; a person, corporation, association, charitable agency, or other entity which sends, brings, or causes to be sent or brought any child to another party state.

(c) "Receiving state" means the state to which a child is sent, brought, or caused to be sent or brought, whether by public authorities or private persons or agencies, and whether for placement with state or local public authorities or for placement with private agencies or persons.

(d) "Placement" means the arrangement for the care of a child in a family free or boarding home or in a child-caring agency or institution but does not include any institution caring for the mentally ill, mentally defective, or epileptic or any institution primarily educational in character, and any hospital or other medical facility.

ARTICLE III. CONDITIONS FOR PLACEMENT

(a) No sending agency shall send, bring, or cause to be sent or brought into any other party state any child for placement in foster care or as a preliminary to a possible adoption unless the sending agency shall comply with each and every requirement set forth in this article and with the applicable laws of the receiving state governing the placement of children therein.

(b) Prior to sending, bringing, or causing any child to be sent or brought into a receiving state for placement in foster care or as a preliminary to a possible adoption, the sending agency shall furnish the appropriate public authorities in the receiving state written notice of the intention to send, bring, or place the child in the receiving state. The notice shall contain:
(1) the name, date, and place of birth of the child;
(2) the identity and address or addresses of the parents or legal guardian;
(3) the name and address of the person, agency, or institution to or with which the sending agency proposes to send, bring, or place the child;
(4) a full statement of the reasons for such proposed action and evidence of the authority pursuant to which the placement is proposed to be made.

(c) Any public officer or agency in a receiving state which is in receipt of a notice pursuant to Paragraph (b) of this article may request of the sending agency, or any other appropriate officer or agency of or in the sending agency's state, and shall be entitled to receive therefrom, such supporting or additional information as it may deem necessary under the circumstances to carry out the purpose and policy of this compact.

(d) The child shall not be sent, brought, or caused to be sent or brought into the receiving state until the appropriate public authorities in the receiving state shall notify the sending agency, in writing, to the effect that the proposed placement does not appear to be contrary to the interests of the child.

ARTICLE IV. PENALTY FOR ILLEGAL PLACEMENT

The sending, bringing, or causing to be sent or brought into any receiving state of a child in violation of the terms of this compact shall constitute a violation of the laws respecting the placement of children of both the state in which the sending agency is located or from which it sends or brings the child and of the receiving state. Such violation may be punished or subjected to penalty in either jurisdiction in accordance with its laws. In addition to liability for any such punishment or penalty, any such violation shall constitute full and sufficient grounds for the suspension or revocation of any license, permit, or other legal authorization held by the sending agency which empowers or allows it to place or care for children.

ARTICLE V. RETENTION OF JURISDICTION

(a) The sending agency shall retain jurisdiction over the child sufficient to determine all matters in relation to the custody, supervision, care, treatment, and disposition of the child which it would have had if the child had remained in the sending agency's state, until the child is adopted, reaches majority, becomes self-supporting or is discharged with the concurrence of the appropriate authority in the receiving state. Such jurisdiction shall also include the power to effect or cause the return of the child or its transfer to another location and custody pursuant to law. The sending agency shall continue to have financial responsibility for support and maintenance of the child during the period of the placement. Nothing contained herein shall defeat a claim of jurisdiction by a receiving state sufficient to deal with an act of delinquency or crime committed therein.

(b) When the sending agency is a public agency, it may enter into an agreement with an authorized public or private agency in the receiving state providing for the performance of one or more services in respect of such case by the latter as agent for the sending agency.

(c) Nothing in this compact shall be construed to prevent a private charitable agency authorized to place children in the receiving state from performing services or acting as agent in that state for a private charitable agency of the sending state; nor to prevent the agency in the receiving state from discharging financial responsibility for the support and maintenance of a child who has been placed on behalf of the sending agency without relieving the responsibility set forth in Paragraph (a) hereof.

ARTICLE VI. INSTITUTIONAL CARE OF DELINQUENT CHILDREN

A child adjudicated delinquent may be placed in an institution in another party jurisdiction pursuant to this compact but no such placement shall be made unless the child is given a court hearing on notice to the parent or guardian with opportunity to be heard, prior to his being sent to such other party jurisdiction for institutional care and the court finds that:

(1) equivalent facilities for the child are not available in the sending agency's jurisdiction; and

(2) institutional care in the other jurisdiction is in the best interest of the child and will not produce undue hardship.

ARTICLE VII. COMPACT ADMINISTRATOR

The executive head of each jurisdiction party to this compact shall designate an officer who shall be general coordinator of activities under this compact in his jurisdiction and who, acting jointly with like officers of other party jurisdictions, shall have power to promulgate rules and regulations to carry out more effectively the terms and provisions of this compact.

ARTICLE VIII. LIMITATIONS

This compact shall not apply to:

(a) the sending or bringing of a child into a receiving state by his parent, stepparent, grandparent, adult brother or sister, adult uncle or aunt, or his guardian and leaving the child with any such relative or nonagency guardian in the receiving state;

(b) any placement, sending, or bringing of a child into a receiving state pursuant to any other interstate compact to which both the state from which the child is sent or brought and the receiving state are party, or to any other agreement between said states which has the force of law.
ARTICLE IX. ENACTMENT AND WITHDRAWAL

This compact shall be open to joinder by any state, territory, or possession of the United States, the District of Columbia, the Commonwealth of Puerto Rico, and, with the consent of congress, the government of Canada or any province thereof. It shall become effective with respect to any such jurisdiction when such jurisdiction has enacted the same into law. Withdrawal from this compact shall be by the enactment of a statute repealing the same, but shall not take effect until two years after the effective date of such statute and until written notice of the withdrawal has been given by the withdrawing state to the governor of each other party jurisdiction. Withdrawal of a party state shall not affect the rights, duties, and obligations under this compact of any sending agency therein with respect to a placement made prior to the effective date of withdrawal.

ARTICLE X. CONSTRUCTION AND SEVERABILITY

The provisions of this compact shall be liberally construed to effectuate the purposes thereof. The provisions of this compact shall be severable and if any phrase, clause, sentence, or provision of this compact is declared to be contrary to the constitution of any party state or of the United States or the applicability thereof to any government, agency, person, or circumstance is held invalid, the validity of the remainder of this compact and the applicability thereof to any government, agency, person, or circumstance shall not be affected thereby. If this compact shall be held contrary to the constitution of any state party thereto, the compact shall remain in full force and effect as to the remaining states and in full force and effect as to the state affected as to all severable matters.

(4) place physically fit children in parks-maintenance camps, forestry camps, or ranches owned by the state or the United States and require the performance of suitable conservation and maintenance work.

§ 72.001. Policy and Purpose

It is the policy of this state to foster and support families as the most important continuing factor in determining what a child will become and to provide effective public services to strengthen the family unit to fulfill the unmet developmental needs of children and youth. Each child is entitled to the concern and full protection of this state acting in concert with communities in which the child lives. In the absence of parents or in the inability of parents to provide essential care, protection, and nurture for their children, competent substitute care, protection, and nurture should be provided by proper coordinative efforts. The legislature recognizes that the public interest requires the wise investment of resources to prevent abnormalities and maladjustments in children who will later require institutional care and treatment at many times the human and fiscal costs of prevention. It further recognizes that supportive activities to families with children and youth are primarily a community responsibility that can best be served by having the state assist in the coordination of programs within communities and rural areas of the state. To carry out these policies and purposes, this chapter is enacted authorizing the Texas Department of Community Affairs to assist communities in providing for programs to enhance the development of children and youth.

Section 2 of the 1981 Act provided:
"The Texas Commission on Services to Children and Youth is abolished. The records and other property in the custody of the commission are transferred to the Texas Department of Community Affairs."

§ 72.002. Definitions

In this chapter:
(1) "Department" means the Texas Department of Community Affairs.
(2) "Director" means the executive director of the Texas Department of Community Affairs.

§ 72.003. Authorization

The department may assist communities in planning, developing, implementing, and coordinating programs to provide services to enhance the development of children and youth.

§ 72.004. Powers

Within the policies and purposes provided by Section 72.001 of this chapter, the department shall give a priority to children and youth, and in addition to other powers and duties given to it by this chapter or by any other law, the department may:

(1) advocate and provide an articulate focus for the needs of children and youth and disseminate information to the public regarding children’s and youth’s services;

(2) determine the extent and availability of public and private resources and services to children and youth and their families;

(3) coordinate the determination of the need for services to children and youth in this state by surveying and measuring their unmet developmental needs and make recommendations to all appropriate public and private agencies as needed;

(4) provide for the development and demonstration of programs that will enhance development of children and youth;

(5) establish and promote cooperation among private groups and governmental agencies to encourage and assist families in the provision of an environment for children and youth suitable to their full development, particularly at the community level;

(6) arrange technical assistance and consultation for sources and potential sources of services to children and youth;

(7) encourage the development of systems for the efficient and effective delivery of services to children and youth and their families rendered by the departments and agencies of state government, including particularly services delivered at the neighborhood and community levels;

(8) develop, revise, and implement a state plan for childhood development in cooperation with interagency councils and with the assistance of appropriate public and private groups and agencies providing for a mechanism at the community and state levels that assures a coordinated approach in
§ 72.004  HUMAN RESOURCES CODE

assessing the need for and the delivery of services to children and youth and their families;

(9) provide assistance, including financial assistance, in the administration of community multipurpose programs that assist children and youth and their families;

(10) provide departmental assistance in developing and financing joint training programs for community-based staff specialists from the state and local agencies rendering services to children and youth and their families;

(11) provide, perform, and promote consultative, evaluative, referral, and other functions as may be directed to improve service delivery;

(12) provide services directly to children and youth and their families, but only to those who have needs which are not met from any other resources of state or community governments;

(13) prepare and submit a report to the governor and appropriate interagency councils before September 1 prior to each legislative session containing a review of the status of services to children and youth, recommendations for priorities for the development and coordination of services to children and youth, an evaluation of the progress made as the result of the recommendations made in the past, a statement of goals for activities of the department relating to children and youth during the next year, and specific recommendations about what changes in law or appropriations need to be made to assist these programs to greater effectiveness; and

(14) perform other functions that may be consistent with the purposes of this chapter.

§ 72.005. Use of Interagency Councils

The department shall utilize the coordinative expertise provided by interagency councils as authorized by law and as established by the governor, and there shall exist a working committee composed of one representative appointed by each interagency council to assist and advise the department in the administration of this chapter.

§ 72.006. Prior Law; Public Instrumentality; Cooperation of State Agencies and Personnel

Nothing in this chapter shall be construed as amending prior statutory enactments which confer specific responsibilities on departments or agencies of this state for services to children and youth, including the Texas Department of Human Resources, the Texas Department of Health, the Texas Department of Mental Health and Mental Retardation, the Texas Rehabilitation Commission, and the Central Education Agency. It is the intent of the legislature that the department be the public instrumentality for advocating, planning, developing, and coordinating services to optimize the development of children and youth throughout the state, but the department shall not directly administer the services except as authorized by law. All state agencies, officers, and employees shall cooperate with the department for the accomplishment of the purposes of this chapter.

The judges on the commission must, at the time of their appointment, be presiding judges over courts designated by at least one county in their district as a juvenile court except that in counties in which a system of rotating the juvenile court among the several district courts exists, any of the district court judges is eligible to serve on the commission.

SUBCHAPTER C. POWERS AND DUTIES OF COMMISSION

§ 75.041. Standards for Juvenile Boards, Probation Officers, and Facilities

Based on local information and evidence gathered through public hearings around the state, the commission shall promulgate reasonable rules for juvenile boards, probation officers, programs, and facilities:

(1) establishing minimum standards for personnel, staffing, case loads, programs, facilities, record keeping, equipment, and other aspects of the operation of a juvenile board necessary for the provision of adequate and effective probation services;

(2) establishing a code of ethics for probation officers and providing for the enforcement of the code; and

(4) have satisfactorily completed the course of preservice training or instruction, have passed the tests or examinations, and possess the level of certification as the commission may prescribe.

(d) The commission may make rules under which the requirement of a year of graduate study or full-time employment experience may be waived if the authority responsible for the employment of the probation officer establishes in a manner satisfactory to the commission that no person meeting this requirement could be located to fill a job opening after a diligent effort to locate a person was made. The commission may make rules providing for the temporary employment of a person who has not yet completed a course of preservice training, passed the examination, nor attained a prescribed level of certification, the employment to be contingent on his completing those requirements within the time specified by the commission.

(e) Any person to be eligible for employment by a probation office in a position having the responsibility for supervision of other probation officers must possess a level of training, experience, and certification as the commission prescribes, and several levels of certification may be required to reflect increasing levels of responsibility. However, no rule of the commission with regard to required levels of certification may affect the continued employment of a probation officer in a supervisory position that he is holding on the date that the rule takes effect.

(f) A peace officer, a prosecuting attorney, and any other person who is employed by or who reports directly to a law enforcement or prosecution official may not act as a probation officer or be made responsible for supervision of a juvenile on probation. A probation officer may not carry a firearm in the course of his official duties.

(b) The executive directors of the Texas Juvenile Probation Commission and the Texas Youth Council shall meet at least quarterly to discuss mutual problems and make recommendations to the governor and legislature.

§ 75.047. Inspections, Audits

(b) Juvenile boards receiving funds under this chapter are also subject to audit by the Legislative Budget Board, the Governor's Budget and Planning Office, the State Auditor, and the State Comptroller of Public Accounts.

§ 75.048. Studies

(a) The commission may, at the request of the governor or on its own motion, conduct or participate in the studies of corrections methods and systems, and treatment and therapy programs.

(b) The commission shall review and make a written report to the governor and the legislature on or before December 31, 1982, on the current practices in Texas regarding children who are charged with committing offenses that would be a felony if committed by an adult and the disposition of these incidents, charges, or cases.

SUBCHAPTER D. STATE AID TO JUVENILE BOARDS

§ 75.061. State Aid Defined

"State aid" means funds allocated by the commission for financial assistance to juvenile boards to achieve the purposes of this chapter as stated by Section 75.001 and to conform to the standards and policies promulgated by the commission.

§ 75.062. Provision of Probation and Detention Services

(a) The commission shall assist counties in providing their own probation and juvenile detention services by encouraging the establishment of juvenile boards. If two or more counties lack sufficient population to provide adequate juvenile probation and detention services, the commission may assist the counties in establishing multicounty boards or offices.
§ 75.062 HUMAN RESOURCES CODE

(b) If a county does not provide a juvenile probation department or officer before September 1, 1985, the commission may directly provide probation or detention services in the county.

§ 75.063. Determination of Amount
The commission shall annually allocate funds for financial assistance to juvenile boards for the provision of juvenile services. The allocation of the funds shall be based on juvenile population and other factors determined to be appropriate by the commission. The legislature shall determine and appropriate the amount of state aid necessary to supplement local funds for maintenance and improvement of statewide juvenile services which comply with the standards promulgated by the commission. A portion of the funds appropriated to the commission for state aid may be set aside for programs designed to address special needs or projects of local juvenile boards.

§ 75.064. Maintenance of Local Financial Support
A juvenile jurisdiction does not qualify and is not eligible for state aid unless it first is demonstrated to the satisfaction of the commission that the amount of local or county funds budgeted for juvenile services, including for the basis of this calculation the amount expended on juvenile detention and correctional facilities and excluding construction or renovation, is at least equal to or greater than the amount expended for those services in the 1980 county fiscal year. At the end of each fiscal period, the commission shall satisfy itself that actual expenditures of local or county funds for juvenile services as defined in this subsection were as reflected in the representations made to the commission at the beginning of the period and may require a rebate or may withhold future state aid funds to the extent necessary to satisfy this requirement.

§ 75.065. Special Rules for Multicounty Jurisdictions
If necessary, the commission may make rules providing for the payment of compensation, insurance, retirement, fringe benefits, and all related matters to those juvenile probation officers whose jurisdictions are composed of more than one county; providing for the centralization of administrative responsibilities associated with the state aid program in one of the counties in a jurisdiction composed of more than one county; and providing for the application of Section 75.063 in a jurisdiction composed of more than one county. Those juvenile probation officers who serve a jurisdiction composed of one county are considered to be employees of that county.

§ 75.066. Reports
A juvenile board receiving state aid shall submit reports as required by the commission.

§ 75.067. Payment of State Aid
(a) When the commission determines that a juvenile board complies with its standards, the commission shall prepare and submit to the State Comptroller of Public Accounts a voucher for payment to the juvenile board of the amount of state aid to which it is entitled.

(b) The fiscal officer designated for the juvenile board shall deposit all state aid received under this chapter into a special fund to be used solely by the juvenile board for the provision of juvenile probation services.

§ 75.068. Refusal or Suspension of State Aid
The commission shall refuse or suspend payment of state aid to any juvenile board that fails to comply with the commission’s standards or maintain local financial support. The commission shall provide for notice and a hearing in cases in which it refuses or suspends state aid.

§ 75.069. Applicability
The provisions of this subchapter relating to state aid do not apply to juvenile boards until September 1, 1983.

CHAPTER 94. VENDING FACILITIES OPERATED BY BLIND PERSONS

§ 94.001. Definitions

In this chapter:

(1) "Blind person" means a person having not more than 20/200 visual acuity in the better eye with correcting lenses or visual acuity greater than 20/200 but with a limitation in the field of vision such that the widest diameter of the visual field subtends an angle no greater than 20 degrees.

(2) "Vending facility" means a facility in which food, drinks, drugs, novelties, souvenirs, tobacco products, notions, or related items are sold regularly. The term excludes facilities consisting solely of vending machines that do not compete directly or indirectly with a facility that is or could be operated by a vocationally handicapped person.

(3) "State property" means land and buildings owned, leased, or otherwise controlled by the state.

(4) "Agency" means the state agency in charge of state property.

(5) "Handicapped" means a physical or mental condition that the commission or rehabilitation commission determines to constitute a substantial vocational disadvantage.

(6) "Commission" means the State Commission for the Blind.
(c) The commission shall maintain a roster of the names of each person who has been certified as suitable for licensing. If two or more equally qualified persons are listed on the roster and apply for a license to operate an available vending facility, the commission shall issue the license to the person who is most in need of employment.

(d) The granting of a license does not vest the licensee with property or other rights which may constitute the basis of a cause of action, at law or in equity, against the state or its officers or employees.

§ 94.006. Expiration, Renewal, and Revocation of Licenses

(a) A license or general permit to operate a vending facility on state property is valid for a period of three years from the date it is issued.

(b) The commission shall review each license or permit prior to its expiration and shall issue a new or different license or permit as the circumstances warrant.

(c) The commission and the agency may consent mutually to revoke a general permit prior to its expiration if changed circumstances warrant that action.

(d) A blind person's willful failure to comply with the commission's rules or the provisions of this chapter constitutes grounds for the automatic revocation of the person's license.

(e) The commission shall adopt substantive and procedural rules governing the revocation of licenses.

[Acts 1979, 66th Leg., p. 2412, ch. 842, art. 1, § 1, eff. Sept. 1, 1979.]

§ 94.007. Operation of Vending Facilities Under the Rehabilitation Commission

(a) If the commission determines that a blind person could not properly operate a vending facility at a particular location, the rehabilitation commission may survey the property to determine whether a handicapped person whose disability is not of a visual nature could operate the facility in a proper manner.

(b) The commission and the rehabilitation commission may develop procedures and methods of exchanging information necessary to implement cooperative activities.

(c) The installation and operation of a vending facility by the rehabilitation commission must conform to the provisions of this chapter applicable to vending facilities installed by the commission.

[Acts 1979, 66th Leg., p. 2412, ch. 842, art. 1, § 1, eff. Sept. 1, 1979.]

§ 94.008. Closing Certain Facilities Prohibited

Neither a vending facility operated by a blind or otherwise vocationally handicapped individual nor a vending facility location surveyed by the commission may be closed as a result of the transfer of state property from one agency to another, the alteration of a state building, or the reorganization of a state agency unless the commission or the rehabilitation commission agrees to the closing.

[Acts 1979, 66th Leg., p. 2413, ch. 842, art. 1, § 1, eff. Sept. 1, 1979.]

§ 94.009. Employment of Assistants

(a) If an individual licensed to operate a vending facility on state property requires an assistant, a qualified visually handicapped person must be given preference for employment. If the commission determines that a visually handicapped person could not perform the labor for which an assistant is required, or if a visually handicapped person is not available, a handicapped person whose disability is not of a visual nature must be given preference for employment. If no handicapped person is available for the job, preference must be given to a person who is socially, culturally, economically, or educationally disadvantaged.

(b) An assistant employed by a blind person licensed by the commission must be approved by the commission, and the deliberate refusal of a blind licensee to comply with this section constitutes grounds for the revocation of his or her license.

[Acts 1979, 66th Leg., p. 2413, ch. 842, art. 1, § 1, eff. Sept. 1, 1979.]

§ 94.010. Competing Vending Machines

(a) If the commission and an agency agree to the installation and operation of an additional vending facility or vending machine on property that already has a commission-sponsored vending facility, no additional permit or license is required. However, the installation of a competing vending facility consisting of vending machines or other coin-operated devices must be authorized by the commission. The commission's authorization must be made with a view toward providing the greatest economic benefits for blind persons consonant with supplying the additional services required at the building.

(b) State agencies shall cooperate and negotiate in good faith to accomplish the purposes of this chapter.

(c) Vocationally handicapped individuals who operate vending facilities on state property are entitled to receive all commissions from vending machines installed on the same property. If two or more vending facilities are operated by vocationally handicapped persons in a building in which vending machines are installed, the commission shall divide the commissions from the vending machines among the handicapped operators in a manner that will achieve equity and equality in the incomes of the handicapped operators. If the commission and the rehabilitation commission have decided not to locate a vending facility in a building, the agency to whom a general permit has been issued shall determine the
§ 94.010  HUMAN RESOURCES CODE

assignment of the commissions from vending machines installed in the building. [Acts 1979, 66th Leg., p. 2413, ch. 842, art. 1, § 1, eff. Sept. 1, 1979.]

§ 94.011. Vending Facility Equipment and Stock
(a) The commission may supply a blind vending facility operator with equipment and initial stock necessary for the operator to begin business.
(b) The commission shall collect and set aside from the proceeds of the operation of its vending facilities enough money:
   (1) to insure a sufficient amount of initial stock for the facilities and for their proper maintenance;
   (2) to pay the costs of supervision and other expenses incidental to the operation of the facilities; and
   (3) to pay other program costs to the extent necessary to assure fair and equal treatment of the blind persons licensed to operate the facilities and to the extent allowed under federal programs that provide financial support to the commission.
(c) Except for purchasing and installing original equipment, the operation of commission-sponsored vending facilities must be as self-supporting and self-sustaining as possible. To achieve this end, the commission shall periodically review and, when necessary, revise its schedules for collecting and setting aside money from the proceeds of its vending facilities. [Acts 1979, 66th Leg., p. 2414, ch. 842, art. 1, § 1, eff. Sept. 1, 1979.]

§ 94.012. Duties and Privileges of Parties
(a) The commission may promulgate rules and initiate procedures necessary to implement this chapter.
(b) A blind person licensed to operate a vending facility on state property shall operate the facility in accordance with law and the commission’s rules and policies.
(c) The agency in charge of state property shall cooperate with the commission and its blind licensees to accomplish the purposes of this chapter. The agency shall also furnish all necessary utility service, including connections and outlets required for the installation of the facility, janitorial and garbage disposal services where feasible, and other related assistance. [Acts 1979, 66th Leg., p. 2414, ch. 842, art. 1, § 1, eff. Sept. 1, 1979.]

§ 94.013. Training Programs
The commission may establish training or experimentation locations necessary to train blind persons who desire to be licensed to operate vending facilities and to develop techniques which will allow blind persons to operate the facilities or related types of small businesses more efficiently and productively. [Acts 1979, 66th Leg., p. 2414, ch. 842, art. 1, § 1, eff. Sept. 1, 1979.]

§ 94.014. Conformity With Federal Statutes
(a) This chapter shall be construed in a manner consistent with the requirements of federal programs that provide financial assistance to the commission.
(b) If a provision of this chapter conflicts with a federal program requirement, the commission may waive or modify the provision to the extent necessary to secure the full benefits of the federal program. [Acts 1979, 66th Leg., p. 2414, ch. 842, art. 1, § 1, eff. Sept. 1, 1979.]

§ 94.015. Application of Chapter
(a) This chapter does not apply to property over which the federal government maintains partial or complete control or to property maintained and operated by state-supported institutions of higher education. However, the commission may enter into agreements with state institutions of higher education concerning the use of blind labor in vending facilities at the institutions.
(b) This chapter does not apply to vending facilities operated by an institution under the control of the Texas Department of Mental Health and Mental Retardation, or its successor, if the vending facilities are operated without profit for the benefit of the patients at the institution.
(c) This chapter does not prohibit the commission from selecting blind persons to operate other suitable types of vending facilities or business enterprises, and the chapter does not prohibit the installation of automated vending facilities serviced by blind persons. [Acts 1979, 66th Leg., p. 2414, ch. 842, art. 1, § 1, eff. Sept. 1, 1979.]

Amendment by Acts 1979, 66th Leg., p. 1669, ch. 697, § 1

Acts 1979, 66th Leg., p. 2435, ch. 842, art. 2, § 7, which added this section, purported to do so in order to incorporate the amendment to Education Code, § 30.42, by the addition of subdivision (7) thereto by Acts 1979, 66th Leg., p. 1669, ch. 697, § 1, said § 30.42 being repealed by Acts 1979, 66th Leg., p. 2429, ch. 842, art. 1, § 2(2). However, as so added, subdivision (7) read:

"(7) The agency is authorized:

* * * * * *"

"(7) to obtain information from the Board of Pardons and Paroles and the Texas Department of Corrections, if such records relate to an applicant for rehabilitation services or to a client of the agency, who has been or is about to be released by the Texas Department of Corrections; the Board of Pardons and Paroles and the Texas Department of Corrections shall upon request supply the commission with information applying to applicants for rehabilitation services or clients of the commission if the person has been or is about to be released by the Texas Department of Corrections; the commission shall treat all information as privileged and confidential and for commission use only."

Section 3.11(c) of the Code Construction Act (Civil Statutes, art. 5429b–2) provides, in part, that the repeal of a statute by a code does not affect an amendment of the statute by the same legislature which enacted the code and that the amendment is preserved and given effect as part of the code provision.

(a) A person, firm, association, corporation, or other organization, or the agent of a person, firm, association, corporation, or other organization who violates Section 121.003 of this chapter is guilty of a misdemeanor and on conviction shall be punished by a fine of not less than $100 nor more than $300.

(b) In addition to the fine described in subsection (a) of this section, a person, firm, association, corporation, or other organization who violates Section 121.003 of this chapter shall be liable for an equal amount in damages to a handicapped person who is aggrieved by such violation.

(c) Nothing in this section shall require any person renting, leasing, or providing for compensation real property to modify his or her property in any way or furnish for compensation only one room.

(d) Nothing in this section shall require any person to modify his or her property in any way or to furnish for compensation only one room.

§ 121.003. Discrimination Prohibited

(1) Subject only to limitations and conditions established by law and applicable alike to all persons, persons who are physically handicapped have the same right as the able-bodied to the full use and enjoyment of any public facility in the state.

(2) No common carrier, airplane, railroad train, motor bus, streetcar, boat, or other public conveyance or mode of transportation operating within the state may refuse to accept as a passenger a person who is physically handicapped solely because of the person's handicap, nor may a handicapped person be required to pay an additional fare because of his or her use of a dog guide, wheelchair, crutches, or other device used to assist the handicapped person in travel.

(3) No person who is physically handicapped may be denied admittance to or be admitted to any public facility in the state because of the handicapped person's use of a white cane, dog guide, wheelchair, crutches, or other device of assistance in mobility, or because the person is handicapped.

(4) The discrimination prohibited by this section includes discrimination through an open and obvious refusal to allow a handicapped person to use or be admitted to any public facility, as well as discrimination based on a ruse or subterfuge calculated to prevent or discourage a handicapped person from using or being admitted to a public facility. Regulations relating to the use of public facilities by any designated class of persons from the general public may not prohibit the use of particular public facilities by handicapped persons who, except for their handicaps or use of dog guides or other devices for assistance in travel, would fall within the designated class. Lists containing the names of persons who desire to use particular public facilities may not be composed or manipulated so as to deny a handicapped person a fair and equal opportunity to use or be admitted to any public facility.

(5) This section does not limit the right of the owner or manager of a public facility to refuse to admit, to refuse to serve, or to evict from a public facility a person who is so unkempt as to be clearly offensive to others using the public facility, who is obviously intoxicated, or who conducts himself in a belligerent, boisterous, profane, or other offensive manner which unreasonably interferes with the right of other persons to use and enjoy the public facility.

(6) An employer who conducts business in this state may not discriminate in his or her employment practices against a handicapped person on the basis of the handicap if the person's ability to perform the task required by a job is not impaired by the handicap and the person is otherwise qualified for the job.

(7) It is the policy of the state that the blind, the visually handicapped and the otherwise physically disabled be employed by the state, by political subdivisions of the state, in the public schools, and in all other employment supported in whole or in part by public funds on the same terms and conditions as the able-bodied, unless it is shown that the particular disability prevents the performance of the work involved.

(8) The blind, the visually handicapped, and the otherwise physically disabled shall be entitled to full and equal access, as other members of the general public, to all housing accommodations offered for rent, lease, or compensation in this state, subject to the conditions and limitations established by law and applicable alike to all persons.

(9) Nothing in this section shall require any person renting, leasing, or providing for compensation real property to modify his or her property in any way or provide a higher degree of care for a blind person, visually handicapped person, or otherwise physically disabled person than for a person who is not physically disabled.

(10) A totally or partially blind person who has or obtains a dog guide or a deaf person who has or obtains a hearing ear dog is entitled to full and equal access to all housing accommodations provided for in this section, and may not be required to pay extra compensation for the dog but is liable for damages done to the premises by the dog.

The handicapped person deprived of his or her civil liberties may maintain a cause of action for damages in a court of competent jurisdiction, and there is a conclusive presumption of damages in the amount of at least $100 to the handicapped person.
[Acts 1979, 66th Leg., p. 2427, ch. 842, art. 1, § 1, eff. Sept. 1, 1979.]

§ 121.005. Responsibilities of Handicapped Persons

(a) A blind or deaf person who uses a dog guide or a hearing aid dog for assistance in travel is liable for any damages done to the premises or facilities by the dog.

(b) A blind or deaf person who uses a dog guide or hearing aid dog for assistance in travel or auditory awareness shall keep the dog properly harnessed or leashed, and a person who is injured by the dog because of a blind or deaf person's failure to properly harness or leash the dog is entitled to maintain a cause of action for damages in a court of competent jurisdiction under the same law applicable to other causes brought for the redress of injuries caused by animals.

(c) A physically handicapped person who, after being duly warned of a danger unique to a handicapped person's use of a particular public facility, is injured in using the facility because of a danger of the type about which warning was given, is deemed to have assumed the risk of using the public facility.

§ 121.006. Penalties for Improper Use of Dog Guides

(a) A person who fits a dog with a harness or leash of the type commonly used by blind or deaf persons who use trained dogs for purposes of travel or auditory awareness, in order to represent that his or her dog is a specially trained dog guide when training of the type described in Section 121-002(2)(C) of this chapter has not in fact been provided, is guilty of a misdemeanor and on conviction shall be punished by a fine of not more than $200.

(b) The driver of a vehicle approaching an intersection or crosswalk where a pedestrian guided by a guide dog or carrying a white cane is crossing or attempting to cross shall take necessary precautions to avoid injuring or endangering the pedestrian. The driver shall bring the vehicle to a full stop if injury or danger can be avoided only by that action.

(b) State agencies regularly mailing forms or information to significant numbers of public facilities operating within the state shall cooperate with state agencies responsible for the rehabilitation of the handicapped by sending information about this chapter to those to whom regular mailings are sent. The information, which must be sent only on the request of state agencies responsible for the rehabilitation of the handicapped and not more than once each year, may be included in regular mailings or sent separately. If sent separately, the cost of mailing is borne by the state rehabilitation agency or agencies requesting the mailing and, regardless of whether sent separately or as part of a regular mailing, the cost of preparing information about this chapter is borne by the state rehabilitation agency or agencies requesting distribution of this information.

(c) The examiner may use as an alternate form of testing any procedure or adaption that will help ensure the best performance possible by a handicapped adult, including oral or visual administration of the test, oral or manual response to the test, the use of readers, the use of tape recorders, the removal of time constraints, and multiple testing sessions.

(d) An examiner shall select and administer a test to an examinee who has a handicap that impairs sensory, manual, or speaking skills so that the test accurately reflects the factor the test is intended to measure and does not reflect the examinee's impaired sensory, manual, or speaking skills.

(e) An examiner may not use a test that has a disproportionate, adverse effect on a handicapped adult or class of handicapped adults unless:

1. The test has been validated as a predictor of success in the program or activity for which the handicapped adult is applying; and
2. Alternate tests that have a less disproportionate, adverse effect do not exist or are not available.

(a) The committee shall determine the fair market price of all products and services manufactured or provided by blind or other severely disabled persons and offered for sale to the various agencies and departments of the state and its political subdivisions by a nonprofit agency for blind or other severely disabled persons organized under state law and recognized by the State Commission for the Blind or the Texas Rehabilitation Commission as capable of contributing to the purposes of this chapter.

(b) The committee shall revise the prices periodically to reflect changing market conditions.

(c) The committee shall make rules regarding designation of a central nonprofit agency to facilitate the distribution of orders among agencies serving blind or other severely disabled persons and regarding other matters related to the state's use of the products and services of blind and severely disabled persons.

(d) Requisitions for products and services required by state agencies are processed by the State Purchasing and General Services Commission according to rules established by the commission.

§ 122.005. Procurement at Determined Price

[Added by Acts 1981, 67th Leg., p. 2280, ch. 556, § 1, eff. Sept. 1, 1981.]

§ 122.006. Records

§ 122.009. Interagency Cooperation

State agencies responsible for the provision of rehabilitation and related services to blind or other severely disabled persons shall cooperate with the committee in the operation of this program. The State Commission for the Blind, the Texas Rehabilitation Commission, and other state human services agencies responsible for assisting disabled persons may, through written agreements or interagency contracts, provide space, storage, logistical support,
consultation, expert services, communications services, or financial assistance with respect to any function or responsibility of the committee. However, a state agency may not assume permanent fiscal responsibility for the expense of marketing the products and services of blind or other severely disabled persons under this program.

[Added by Acts 1981, 67th Leg., p. 2280, ch. 556, § 1, eff. Sept. 1, 1981.]

§ 122.010. Rules
The committee may adopt rules for the implementation, extension, administration, or improvement of the program authorized by this chapter. Rules adopted under this section do not take effect unless approved by the State Commission for the Blind and the Texas Rehabilitation Commission.

[Added by Acts 1981, 67th Leg., p. 2280, ch. 556, § 1, eff. Sept. 1, 1981.]

§ 122.011. Product Specifications
Except as otherwise provided by this section, a product manufactured for sale through the State Purchasing and General Services Commission to any office, department, institution, or agency of the state under this chapter shall be manufactured or produced according to specifications developed by the State Purchasing and General Services Commission. If the State Purchasing and General Services Commission has not adopted specifications for a particular product, the production shall be based on commercial or federal specifications in current use by industry for the manufacture of the product for sale to the state.

[Added by Acts 1981, 67th Leg., p. 2280, ch. 556, § 1, eff. Sept. 1, 1981.]

§ 122.012. Determinations of Fair Market Value
(a) In determining the fair market value of products or services offered for sale under this chapter, the committee shall give due consideration to the following type of factors:

(1) to the extent applicable, the amounts being paid for similar articles in similar quantities by federal agencies purchasing the products or services under the authorized federal program of like effect to the state program authorized by this chapter;

(2) the amounts which private business would pay for similar products or services in similar quantities if purchasing from a reputable corporation engaged in the business of selling similar products or services;

(3) to the extent applicable, the amount paid by the state in any recent purchases of similar products or services in similar quantities, making due allowance for general inflationary or deflationary trends;

(4) the actual cost of manufacturing the product or service at a sheltered workshop offering employment services on or off premises to blind or other severely disabled persons, with adequate weight to be given to legal and moral imperatives to pay blind or other severely disabled workers equitable wages; and

(5) the usual, customary, and reasonable costs of manufacturing, marketing, and distribution.

(b) The fair market value of a product or service, determined after consideration of relevant factors of the foregoing type, may not be excessive or unreasonable.

[Added by Acts 1981, 67th Leg., p. 2280, ch. 556, § 1, eff. Sept. 1, 1981.]

§ 122.013. Exceptions
(a) Exceptions from the operation of the mandatory provisions of Section 122.011 of this code may be made in any case where:

(1) under the rules of the State Purchasing and General Services Commission, the product or service so produced or provided does not meet the reasonable requirements of the office, department, institution, or agency; or

(2) the requisitions made cannot be reasonably complied with through provision of products or services produced by blind or other severely disabled persons.

(b) Each month, the State Purchasing and General Services Commission shall provide the committee with a list of all items purchased under the exception provided by Subsection (a) of this section. The committee shall adopt the form in which the list is to be provided and may require the list to include the date of requisition, the type of product or service requested, the reason for purchase under the exception, and any other information that the committee considers relevant to a determination of why the product or service was not purchased in accordance with Section 122.011 of this code.

(c) No office, department, institution, or agency may evade the intent of this section by slight variations from standards adopted by the State Purchasing and General Services Commission, when the products or services produced or provided by blind or other severely disabled persons, in accordance with established standards, are reasonably adapted to the actual needs of the office, department, institution, or agency.

[Added by Acts 1981, 67th Leg., p. 2280, ch. 556, § 1, eff. Sept. 1, 1981.]

§ 122.014. Procurement for Political Subdivisions
A product manufactured for sale to a political subdivision of this state or an office or department thereof shall be manufactured or produced according to specifications developed by the purchaser. A political subdivision of this state may purchase products or services for its use from private businesses through its authorized purchasing procedures, but may substitute equivalent products or services produced by blind or other severely disabled persons under the provisions of this chapter. Nothing in this chapter shall be construed to require a nonprofit

agency for blind or other severely disabled persons to engage in competitive bidding.
[Added by Acts 1981, 67th Leg., p. 2280, ch. 556, § 1, eff. Sept. 1, 1981.]

§ 122.015. Political Subdivisions Excluded

There are excluded from the application of this chapter the political subdivisions of the state that are not covered by Title V of the Federal Rehabilitation Act of 1973, as amended (29 U.S. Code Sections 790 through 794). Nothing in this chapter shall be construed as limiting blind or other severely disabled persons in their capacity to sell their products to any willing buyer.

§ 1.001. Purpose of Code

(a) This code is enacted as a part of the state's continuing statutory revision program, begun by the Texas Legislative Council in 1963 as directed by the legislature in Chapter 448, Acts of the 58th Legislature, Regular Session, 1963 (Article 5429b-1, Vernon's Texas Civil Statutes). The program contemplates a topic-by-topic revision of the state's general and permanent statute law without substantive change.

(b) Consistent with the objectives of the statutory revision program, the purpose of this code is to make the general and permanent natural resources law more accessible and understandable by:

1. rearranging the statutes into a more logical order;
2. employing a format and numbering system designed to facilitate citation of the law and to accommodate future expansion of the law;
3. eliminating repealed, duplicative, unconstitutional, expired, executed, and other ineffective provisions; and
4. restating the law in modern American English to the greatest extent possible.

[Acts 1977, 65th Leg., p. 2347, ch. 871, art. 1, § 1, eff. Sept. 1, 1977.]

§ 1.002. Construction of Code

The Code Construction Act (Article 5429b-2, Vernon's Texas Civil Statutes) applies to the construction of each provision in this code, except as otherwise expressly provided by this code.

[Acts 1977, 65th Leg., p. 2347, ch. 871, art. 1, § 1, eff. Sept. 1, 1977.]

[Sections 11.002 to 11.010 reserved for expansion]
§ 11.011. Vacant and Unappropriated Land

So that the law relating to the public domain may be brought together, the following extract is taken from the joint resolutions of the Congress of the United States relating to the annexation of Texas to the United States, which was approved June 23, 1845: "Said State, when admitted into the Union, shall also retain all the vacant and unappropriated lands lying within its limits, to be applied to the payment of debts and liabilities of said Republic of Texas, and the residue of said lands, after discharging said debts and liabilities, to be disposed of as said State may direct.

§ 11.012. Gulfward Boundary of Texas

(a) The gulfward boundary of the State of Texas is the boundary determined in and pursuant to the decision of the United States Supreme Court in Texas v. Louisiana, 426 U.S. 465 (1976).

(b) The State of Texas has full sovereignty over the water, the beds and shores, and the arms of the Gulf of Mexico within its boundaries as provided in Subsection (a) of this section, subject only to the right of the United States to regulate foreign and interstate commerce under Article I, Section 8 of the United States Constitution, and the power of the United States over admiralty and maritime jurisdiction under Article III, Section 2 of the United States Constitution.

(c) The State of Texas owns the water and the beds and shores of the Gulf of Mexico and the arms of the Gulf of Mexico within the boundaries provided in this section, including all land which is covered by the Gulf of Mexico and the arms of the Gulf of Mexico either at low tide or high tide.

(d) None of the provisions of this section may be construed to relinquish any dominion, sovereignty, territory, property, or rights of the State of Texas previously held by the state.

§ 11.013. Gulfward Boundaries of Counties, Cities, Towns, or Villages

(a) The gulfward boundary of each county located on the coastline of the Gulf of Mexico is the Three Marine League line as determined by the United States Supreme Court.

(b) The area in the extended boundaries of the counties as provided in this section becomes a part of the public free school land and is subject to the constitutional and statutory provisions of this state pertaining to the use, distribution, sale, and lease of public free school land in this state.

(c) The gulfward boundaries of any city, town, or village created and operating under the general laws of the State of Texas shall not be established or extended by incorporation or annexation more than 5,280 feet gulfward beyond the coastline, and any inclusion of territory in any such city, town, or village more than 5,280 feet gulfward beyond the coastline is void. The term "coastline" as used in this subsection means the line of mean low tide along that portion of the coast which is in direct contact with the open Gulf of Mexico. The term "city, town, or village created and operating under the general laws of the State of Texas" shall not include any city operating under a home-rule charter.

If any such general-law city, town, or village has heretofore been established by incorporation or attempted incorporation more than 5,280 feet gulfward beyond the coastline, the corporate existence of such general-law city, town, or village is in all things validated, ratified, approved, and confirmed.

The boundaries of such general-law city, town, or village, including the gulfward boundaries to the extent of 5,280 feet gulfward beyond the coastline, are in all things validated, ratified, approved, and confirmed and shall not be held invalid by reason of the inclusion of more territory than is expressly authorized in Article 97I, Revised Civil Statutes of Texas, 1925, as amended, or by reason of the inclusion of territory other than that which is intended to be used for strictly town or city purposes as required by Article 1134 of the Revised Civil Statutes of Texas, 1925, as amended, or by reason of not constituting a city, town, or village.

Neither this Act nor the general laws nor the special laws of the state shall have the effect of validating, ratifying, approving, or confirming the inclusion of territory in any such general-law city, town, or village more than 5,280 feet gulfward beyond the coastline.

If for any reason it should be determined by any court of competent jurisdiction that any such general-law city, town, or village has heretofore been incorporated in violation of the laws of the state in effect as of the date of such incorporation or is invalid, the corporate boundaries of any such general-law city, town, or village shall be revised and reformed to exclude all territory more than 5,280 feet gulfward of the coastline.

Sections 2 and 3 of the 1979 amendatory act provided:

"Sec. 2. If any provision of this Act or its application to any person or circumstance is held to be invalid for any reason, the invalidity does not affect any other provision or application of this Act which can be given effect without the invalid provision or application, and to this end the provisions of this Act are declared to be severable.

"Sec. 3. This Act applies to any litigation pending on the date this Act takes effect which questions the validity of the incorporation, boundaries, or governmental proceedings or acts of any city, town, or village and shall be applied thereto and determinative thereof."

(c) A contract or agreement by which a home-rule city purports to pledge, directly or indirectly, taxes or other revenue from or attributable to state-owned submerged lands located more than one marine league gulfward from the coastline does not create an enforceable right to prevent the removal, by disannexation or other means, of all or part of the submerged lands from the city’s jurisdiction.
(d) This section expires October 1, 1983.

Section 2 of the 1981 Act provides:
"This Act does not affect an annexation that was completed before the effective date of this Act or a contract or agreement that is in effect on the effective date of this Act."

§ 11.014. Land Acquired From Oklahoma

Clark in 1859 and later retraced to completion on September 26, 1911, by the Boundary Commission composed of Francis M. Cockrell and Sam R. Scott, under authority of S.J.R. No. 124, of the 61st Congress, Third Session.
(b) The boundary line is referred to as the 103rd Meridian and is described as follows:

Beginning at the point where the one hundred and third degree of longitude west from Greenwich intersects the parallel of thirty-six degrees and thirty Minutes North latitude, as determined and fixed by John H. Clark, the Commissioner on the part of the United States in the years eighteen hundred and fifty-nine and eighteen hundred and sixty; thence South with the line run by said Clark for the said one hundred and third degree of longitude to the Thirty-second parallel of North latitude to the point marked by said Clark as the Southeast corner of New Mexico; and thence West with the thirty-second degree of North latitude as determined by said Clark to the Río Grande.
(c) Copies of the deeds certified by the custodian of records in each of the counties in New Mexico in which the land is located and other instruments of title are admissible as evidence in suits filed in this state to the same extent as the original deeds or certified copies of them.
(d) The county clerk of each of the counties in Texas in which the land is now located may file the certified copies of deeds and other instruments affecting title in the same manner as the original deeds could have been filed.

(b) The parcels and tracts of land acquired by the state constitute a part of the respective counties within whose boundaries they are located by extending the county boundaries to the Río Grande and are subject to the civil and criminal jurisdiction of these counties.
(c) Any parcels or tracts, parts of which are located in two separate counties, shall be surveyed by the county surveyors of both counties, who shall determine the portion of the land located in their respective counties and shall file the field notes of the land in their offices together with a map of the parcels or tracts in the map records of the county.
(d) For the purpose of determining the boundaries, the boundary lines of the parcels and tracts established by the American Section of the International Boundary Commission, United States and Mexico, shall be accepted as the true boundaries.
(e) Any parcels or tracts of land that are adjacent to or contiguous to a water improvement district or
a conservation and reclamation district may be included within the district by a written contract entered into between the owner of the land and the board of directors of the district. The contract shall specifically describe the land to be included in the district, the character of water service to be furnished to the land, and the terms and conditions on which the land is to be included in the district and shall be acknowledged in the manner required for the acknowledgment of deeds and recorded in the deed records of the county in which the land is located.

(f) None of the provisions of this section may be construed to affect the ownership of the land.

(b) This cession is made on the express condition that the State of Texas retain concurrent jurisdiction with the United States of America over every portion of land ceded which remains within the territorial limits of the United States after the project is completed so that process may be executed in the same manner and with the same effect as before the cession took place.

(e) None of the provisions of this section may be construed as a cession or relinquishment of any rights which the State of Texas, its citizens, or any property owners have in the water of the Rio Grande, its use, or access to it.

SUBCHAPTER D. TEXAS CO-ORDINATE SYSTEM

§ 21.071. Adoption of Co-Ordinate System
The system of plane rectangular co-ordinates which has been established by the National Oceanic and Atmospheric Administration for defining and stating the positions or locations of points on the surface of the earth within the State of Texas is adopted and will be known and designated as the “Texas Co-ordinate System.”

§ 21.072. Purpose and Limitations of Co-Ordinate System
(a) The only purpose for adopting the Texas Co-ordinate System is to recognize the system for use in the State of Texas to definitely ascertain positions on the surface of the earth.

(b) Notwithstanding any other provisions of this subchapter, the use of the system is not required, and the provisions of this subchapter shall not be construed to set aside or disturb any corner or survey already established.

(c) The use of the term “Texas Co-ordinate System” on a map, report, survey, or other document is limited to co-ordinates based on the Texas Co-ordinate System as defined in this subchapter.

§ 21.073. Division of State Into Zones
For the purpose of using the system, the state is divided into five zones:

(1) the North Zone;
(2) the North Central Zone;
(3) the Central Zone;
(4) the South Central Zone; and
(5) the South Zone.

§ 21.074. Area Within Zones
(a) The area included in the following counties constitutes the North Zone: Armstrong, Briscoe, Carson, Castro, Childress, Collingsworth, Dallam, Deaf Smith, Donley, Gray, Hall, Hansford, Hartley, Hemphill, Hutchinson, Lipscomb, Moore, Ochiltree, Oldham, Parmer, Potter, Randall, Roberts, Sherman, Swisher, and Wheeler.

(d) The area included in the following counties constitutes the South Central Zone: Anderson, Atascosa, Austin, Bandera, Bee, Bexar, Brazoria, Brewster, Caldwell, Calhoun, Chambers, Colorado, Comal, DeWitt, Dimmit, Edwards, Fayette, Fort Bend, Frio, Galveston, Goliad, Gonzales, Guadalupe, Harris, Hays, Jackson, Jefferson, Karnes, Kendall, Kerr, Kinney, LaSalle, Lavaca, Live Oak, McMullen, Matagorda, Maverick, Medina, Presidio, Real, Refugio, Terrell, Uvalde, Val Verde, Victoria, Waller, Wharton, Wilson, and Zavala.

(e) The area included in the following counties constitutes the South Zone: Brooks, Cameron, Duval, Hidalgo, Jim Hogg, Jim Wells, Kenedy, Kleberg, Nueces, San Patricio, Starr, Webb, Willacy, and Zapata.

§ 21.076. Zone Names in Land Description

(a) As established for use in the North Zone, the Texas Co-ordinate System shall be named, and in any land description in which it is used it shall be designated, the "Texas Co-ordinate System, North Zone."

(b) As established for use in the North Central Zone, the Texas Co-ordinate System shall be named, and in any land description in which it is used it shall be designated, the "Texas Co-ordinate System, North Central Zone."

(c) As established for use in the Central Zone, the Texas Co-ordinate System shall be named, and in any land description in which it is used it shall be designated, the "Texas Co-ordinate System, Central Zone."

(d) As established for use in the South Central Zone, the Texas Co-ordinate System shall be named, and in any land description in which it is used it shall be designated, the "Texas Co-ordinate System, South Central Zone."

(e) As established for use in the South Zone, the Texas Co-ordinate System shall be named, and in any land description in which it is used it shall be designated, the "Texas Co-ordinate System, South Zone."

§ 21.076. Co-Ordinate System Definitions

(a) For the purpose of precisely defining the Texas Co-ordinate System, the following definitions by the National Oceanic and Atmospheric Administration are adopted:

1. The Texas Co-ordinate System, North Zone, is a Lambert conformal projection of the Clarke spheroid of 1866, having standard parallels at north latitudes 34° 39' and 36° 11', along which parallels the scale shall be exact. The origin of co-ordinates is at the intersection of the meridian 101° 30' west longitude and the parallel 34° 00' north latitude. This origin is given the co-ordinates: x = 2,000,000 feet (720,000 varas) and y = 0 feet (0 varas).

2. The Texas Co-ordinate System, North Central Zone, is a Lambert conformal projection of the Clarke spheroid of 1866, having standard parallels at north latitudes 32° 08' and 33° 58', along which parallels the scale shall be exact. The origin of co-ordinates is at the intersection of the meridian 97° 30' west longitude and the parallel 34° 00' north latitude. This origin is given the co-ordinates: x = 2,000,000 feet (720,000 varas) and y = 0 feet (0 varas).

3. The Texas Co-ordinate System, Central Zone, is a Lambert conformal projection of the Clarke spheroid of 1866, having standard parallels at north latitudes 30° 07' and 31° 53', along which parallels the scale shall be exact. The origin of co-ordinates is at the intersection of the meridian 100° 20' west longitude and the parallel 29° 40' north latitude. This origin is given the co-ordinates: x = 2,000,000 feet (720,000 varas) and y = 0 feet (0 varas).

4. The Texas Co-ordinate System, South Central Zone, is a Lambert conformal projection of the Clarke spheroid of 1866, having standard parallels at north latitudes 28° 23' and 30° 17', along which parallels the scale shall be exact. The ori-

§ 21.077. Unit of Measurement

The unit of measurement in this subchapter has the following values, based on the International Meter established by the National Bureau of Standards:

1. one meter = 39.37 inches exactly;
2. one foot = 12.00 inches exactly; and
3. one vara = 33⅓ inches exactly.

§ 21.078. Terms “X Co-Ordinate” and “Y Co-Ordinate”

(a) The plane rectangular co-ordinates of a point on the earth’s surface, to be used in expressing the position or location of the point in the appropriate zone, of this system, shall consist of two distances, expressed in feet and decimals of a foot.

(b) One of these distances, to be known as the “x co-ordinate,” shall give the position in an east-and-west direction; the other, to be known as the “y co-ordinate,” shall give the position in a north-and-south direction.

(c) These co-ordinates shall be made to depend on and conform to the plane rectangular co-ordinates of the triangulation and traverse stations of the National Oceanic and Atmospheric Administration within the State of Texas, as those co-ordinates have been determined by the survey.

§ 21.079. Land in More Than One Zone

If a tract of land to be defined by a single description extends from one zone into another of the co-ordinate zones, the positions of all points on its boundaries may be referred to by either of the zones, the zone which is used being specifically named in the description.

The board may not grant an application for a permit which would violate the public policy of this state as expressed in this chapter and may not grant a permit for any structure not in existence on August 27, 1973.

§ 33.130.  Repairs and Rebuilding

If a structure for which a permit is issued is severely damaged or destroyed by any means, no major repairs or rebuilding may be undertaken by the permit holder without the approval of the board.

§ 33.131.  Structures as Property of the State

A structure presently existing or to be constructed in the future for which a permit is required under this subchapter is the property of the state. Any construction, maintenance, or use of the structure other than as provided in this subchapter is declared to be a nuisance per se and is expressly prohibited.

§ 33.132.  Registration by Board

(a) The registration by the board on or before December 31, 1973, of a structure located in whole or in part on coastal public land on August 27, 1973, and claimed by the person submitting it for registration as an incident of the ownership of littoral property shall not be construed as evidence of the acquiescence of the state in the claim by the owner.

(b) Failure of the owner to register the structure estops the owner from making any further claim of right against the state in the structure and renders the structure a nuisance per se subject to abatement by the state at the expense of the littoral owner.

§ 33.133.  Remedies Cumulative

Remedies provided in this subchapter are cumulative of all other remedies which may be applicable, including those remedies arising from the power of a court to enforce its jurisdiction and its judgments.

§ 33.134.  Use and Development of Land by Littoral Owner

None of the provisions of this chapter shall prevent the littoral owner of property from developing or otherwise using his property in a lawful manner, and this chapter shall not be construed to confer on the board the authority to regulate, control, or restrict the use or development of the property.

[Sections 33.135 to 33.170 reserved for expansion]

SUBCHAPTER E.  ENFORCEMENT AND APPEAL

§ 33.171.  Enforcement of Rights of Littoral Owners

(b) Service of citation may be obtained by serving the commissioner.

§ 33.172.  Venue

(1) arising out of an alleged violation of any provision of this chapter or any rule adopted by the board under this chapter;

(2) touching any interest in land sought or granted under this chapter; and

(3) to determine the boundaries or title to any coastal public land.

§ 33.173.  Right to Appeal

action by filing a petition in a district court in Travis County.

§ 33.174. Time for Filing Petition

§ 33.175. Service of Citation
Service of citation on the board may be accomplished by serving the commissioner.

§ 33.176. Issue on Appeal

§ 33.202. Policy
(a) It is declared to be the policy of this state to make more effective and efficient use of public funds and public facilities in coastal natural resource areas, and to better serve the people of Texas by:

(1) continually reviewing the principal coastal problems of state concern, the performance of state coastal programs, and the measures required to resolve identified coastal problems; and

(2) making the state's many existing coastal management processes more visible, accessible, and accountable to the people of Texas.

(b) It is declared to be the policy of this state that the chief executive officer of the state should represent the State of Texas in discussions and negotiations with the federal government with regard to the effect of federal actions on the coastal programs and policies of the State of Texas.

(1) "Coastal natural resource areas" means areas in the Gulf of Mexico within the boundaries of this state, tidal inlets and tidal deltas, bays, lagoons which contain seawater and which have unimpaired connection with the Gulf of Mexico, oyster reefs, grassflats, channels which contain seawater, coastal lakes containing seawater, beaches adjacent to seawater, barrier islands, wind tidal flats, marsh which contains seawater, washover areas, sand dune complexes on the Gulf shoreline, river mouths and tidal streams up to the farthest point of intrusion by seawater, and spoil deposits in direct contact with seawater or located within, upon, or in direct contact with any of these coastal natural resource areas, but does not include any mainland area where seawater is present only during storms or hurricanes as defined by the Beaufort Wind Scale.

(2) "Council," means the Natural Resources Council created by the Natural Resources Council Act of 1977 (Article 4413(48), Vernon's Texas Civil Statutes).¹

(3) "Seawater" means any water containing a concentration of one-twentieth of one percent or more by weight of total dissolved inorganic salts derived from the marine water of the Gulf of Mexico.

(b) The definition in Subsection (a)(1) of this section is not admissible in evidence in any court of law for any purpose other than the implementation and construction of this subchapter unless otherwise agreed by all parties to the case or controversy before the court.

¹ Repealed; see, now, Civil Statutes, art. 4413(47c).

§ 33.204. Study of Coastal Problems and Issues
(a) The council shall make studies of problems and issues affecting the coastal natural resource areas of the state that are in the public interest.

(b) The council shall prepare and submit to the governor and legislature before March 1 of each even-numbered year a comprehensive report with recommendations for action on problems and issues affecting the coastal natural resource areas of the state. The comprehensive report may include a minority report and recommendations and shall include:

(1) a short description of the environmental, social, and economic changes in or affecting the coastal natural resource areas of the state during the preceding two years, this description to include changes in boundaries and state or federal coastal policies;

(2) a statement of the principal problems of state concern in or affecting coastal natural resource areas;

The council may reasonably limit the length and format of the testimony and the time at which it will be received. Notice of the period during which the testimony will be received shall be published in the Texas Register not less than 30 days before the commencement of that period.

Subchapter G. Coastal Wetland Acquisition

§ 33.231. Short Title

This subchapter may be cited as the Coastal Wetland Acquisition Act.

§ 33.232. Policy

It is the declared policy of the state:

(1) to protect the property rights of those who sell interests in land to the state by fairly compensating the sellers;

(2) to protect that coastal wetland which is most essential to the public interest by acquiring fee and lesser interests in the coastal wetland and managing it in a manner that will preserve and protect the productivity and integrity of the land as coastal wetland; and

(3) to assure that the state does not expend funds to acquire any coastal wetland to which it already holds a valid title at the time of the expenditure.

§ 33.233. Definitions

In this subchapter:

(1) "Acquiring agency" means the Parks and Wildlife Department.

(2) "Certifying agency" means the General Land Office.

(3) "Coastal wetland" means marshes and other areas of high biologic productivity where seawater is present during times other than and in addition to storms or hurricanes as defined by the Beaufort Wind Scale, but does not include any areas seaward of the line of mean annual low spring tide, nor any mainland area where seawater is present only during storms or hurricanes as defined by the Beaufort Wind Scale, and the presence at a given point of vegetation characteristic of marshes containing seawater is prima facie evidence that seawater is present at the point during times other than and in addition to storms or hurricanes as defined by the Beaufort Wind Scale.

(4) "Seaward" means the direction away from the shore and toward the body of water bounded by the shore.

(5) "Seawater" means any water containing a concentration of one-twentieth of one percent or more by weight of total dissolved inorganic salts derived from the marine water of the Gulf of Mexico.

§ 33.234. Duties and Authority of Acquiring Agency

(a) The acquiring agency shall do the following:

(1) accept gifts, grants, or devises of interests in land;

(2) acquire, by purchase or condemnation, fee and lesser interests in the surface estate in coastal wetland certified by the certifying agency as most essential to protection of the public interest, provided that in each instance in which an interest in land is acquired by the acquiring agency pursuant to this section, a sufficient interest shall be acquired to preserve and protect the productivity and integrity of such land as coastal wetland; and

(b) This subchapter shall not be construed to authorize the condemnation of any interest in the mineral estate in any coastal wetland.

(c) The acquiring agency shall promulgate reasonable rules and regulations necessary to preserve and protect the productivity and integrity of the land as coastal wetland acquired pursuant to this subchapter. The rules and regulations shall include regulations governing activities conducted on the land in conjunction with mineral exploration, development, and production.

(d) If the acquiring agency seeks to condemn an interest less than the fee interest in the surface estate in any coastal wetland, the owner of the coastal wetland may demand that the acquiring
agency instead seek condemnation of the fee interest in the surface estate in the coastal wetland. Upon this demand, the acquiring agency shall either:

(1) seek to condemn the fee interest in the surface estate in the coastal wetland; or

(2) cease all condemnation proceedings pursuant to this subchapter against the coastal wetland.

§ 33.235. Agricultural Exemption

Coastal wetland used only for farming or ranching activities, including maintenance and repair of buildings, earthworks, and other structures, shall not be subject to any power of condemnation exercised pursuant to this subchapter. However, this exemption from condemnation shall terminate upon the receipt by any state or federal agency of an application for a permit, license, or other authorization to conduct on the wetland, activities other than farming and ranching activities, including irrigation and water well drilling, and activities necessary to exploration, development, or production of the underlying mineral estate.

§ 33.236. Duties and Authority of Certifying Agency

(a) The certifying agency shall do the following:

(1) certify to the acquiring agency that coastal wetland which is most essential to the public interest in accordance with the criteria in this subchapter, assign priorities for acquisition of interests in the coastal wetland, and revoke certification made pursuant to this section when it is in the public interest to do so; and

(2) publicize the importance to the public interest of coastal wetland in general, and of designated coastal wetland in particular.

(b) A certification, assignment of priority for acquisition, or revocation of certification made pursuant to this subchapter does not constitute a “contested case” within the meaning of the Administrative Procedure and Texas Register Act (Article 6252-13a, Vernon’s Texas Civil Statutes).

(c) The commissioner of the General Land Office shall forward a copy of any certification to the county judge of every county in which any part of the wetland certified is located and shall request the recommendation of the commissioners of the county on the certification.

(d) Within 45 days of receipt of a certification from the commissioner of the General Land Office, the commissioners court shall send to the commissioner of the General Land Office written recommendations concerning the certification.

(e) If the commissioners court of a county described in Subsection (c) of this section agrees that the portion of the certified wetland within the county should be certified, or if the commissioners court does not submit recommendations to the commissioner of the General Land Office within the time specified in Subsection (d) of this section, then as to that portion of the wetland, the certification shall continue in full force and effect.

(f) If the commissioners court of any county described in Subsection (c) of this section recommends that certified wetland or any part of it within the county should not be certified, the certification shall be revoked as to that part of the wetland.

(g) If the commissioner of the General Land Office wishes to contest a revocation of certification pursuant to Subsection (f) of this section, he shall forward the certification to the governor, together with the recommendations of the commissioners courts and any further information the commissioner of the General Land Office shall deem advisable.

(h) If the governor determines that any certification revoked pursuant to Subsection (f) of this section should be reinstated in whole or in part, he shall notify the commissioner of the General Land Office within 60 days of receipt of the certification pursuant to Subsection (g) of this section. Upon receipt of notice from the governor, the commissioner of the General Land Office may recertify the part of the wetland to the acquiring agency, and the certification shall be in full force and effect.

§ 33.237. Most Essential Coastal Wetland Certification

(a) In selecting and certifying coastal wetland most essential to the public interest, and in assigning priorities of acquisition to coastal wetland, the certifying agency shall consider the following criteria:

(1) whether the land is coastal wetland within the definition, intent, and purpose of this subchapter;

(2) whether the state owns the coastal wetland or claims title to it, which title can be validated by bringing an appropriate action in a court of law;

(3) whether the biological, geological, or physical characteristics of the coastal wetland, including the interrelationship of the coastal wetland with other coastal wetland, is essential to the public interest;

(4) the degree to which the coastal wetland is in danger of being altered, damaged, or destroyed, and the imminence of that danger; and

(5) the cost of acquiring the coastal wetland.

(b) The legislature declares that certifications, assignments of priority for acquisition, and revocations of certifications made pursuant to Section 33.235 of this code are made only for the purpose of administering the provisions of this subchapter. No certifications, assignments of priority for acquisition, or revocations of certification shall be grounds for an inference, or admissible in a court of law to prove,
that any coastal wetland is of greater or lesser value than any other coastal wetland for any purpose other than administering the provisions of this subchapter.

c) A certification made pursuant to this subchapter shall expire one year from the date of certification.

d) If on or before the expiration date of such certification the acquiring agency files suit in a court of law to condemn the certified coastal wetland, the certification shall extend until the suit is settled, dismissed, or otherwise terminated.

e) If a contract of sale between the state and the owner of the certified coastal wetland is entered into on or before the expiration date of the certification, the certification shall extend until title to the coastal wetland is conveyed to the state or the contract is rescinded, invalidated, or otherwise terminated.

§ 33.238. Funding

The acquiring agency may compensate the seller of land acquired pursuant to this subchapter with funds obtained through:

(1) gift, grant, or devise;
(2) legislative appropriation; or
(3) gift or grant from the United States.

§ 34.052. Subdivision of Land

A board may have the land subject to its control surveyed or subdivided into tracts, lots, or blocks which will, in its judgment, be most conducive and convenient to facilitate the advantageous sale of oil, gas, or mineral leases.

A board may make maps and plats it considers necessary to carry out the purposes of this chapter.

§ 34.054. Abstracts of Title

A board may obtain authentic abstracts of title to the land subject to its control that it considers necessary and may take the necessary steps to perfect a marketable title to the land.

§ 34.055. Geological Surveys and Investigations

A board may issue a permit for geological, geophysical, and other surveys and investigations on land subject to lease by the board that is not under valid and existing leases and that will encourage the development of the land for oil, gas, or other minerals. A permit may be issued for a consideration and under terms and conditions which the board considers to be in the best interest of the state.

§ 34.056. Placing Lease on Market

If a board determines there is a demand for the purchase of oil, gas, or mineral leases on a lot or tract of land subject to the control of the board which will reasonably insure an advantageous sale, the board shall place the oil, gas, or mineral leases on the market in the tract or tracts which the board may designate.

§ 34.057. Advertisement of Lease

A board shall insert an advertisement that leases will be offered for sale on a certain date in at least three issues of each of four daily newspapers 30 days in advance of the sale date. (c) If the successful bidder fails or refuses to pay the fee within 30 days after demand is made by the commissioner, the bidder is not entitled to a lease on the tract covered by his bid and the cash bonus is automatically forfeited to the state. § 34.146. State's Lien on Minerals

The state has a first lien on oil, gas, or other minerals produced from the area covered by the lease to secure the payment of all unpaid royalty or other sums of money that may be due under the lease.

Subchapter G. Drilling Operations

§ 34.182. Protection From Drainage

The lessee shall adequately protect the oil, gas, or other minerals under the land covered by the lease from drainage from adjacent land or leases.

§ 34.183. Effect of Payment on Obligation

The payment of the bonus, rentals, or royalties under the lease does not relieve the lessee of the obligation to develop the lease and protect the oil, gas, or other minerals from drainage.

§ 34.184. Offset Drilling

(a) If oil or gas is produced in paying quantities from a well on privately owned land and the well is within 1,000 feet of the area covered by the lease, or in any case if the land covered by the lease is being drained, the lessee shall begin in good faith the drilling of an offset well on the area covered by his lease within 60 days after initial production on the private land and shall diligently prosecute the drilling.

(b) The offset well shall be drilled to the depth necessary to prevent the undue drainage of the area covered by the lease.

(c) The lessee, manager, or driller shall use all means reasonably necessary in a good-faith effort to make the offset well produce in paying quantities.

§ 34.185. Forfeiture of Lease

(a) A lease is subject to forfeiture by the commissioner if:

(1) the owner of the rights acquired under the provisions of this chapter fails or refuses to make the payment of a sum due as rental on the lease or for royalty on production within 30 days after it becomes due;

(2) the owner or his authorized agent knowingly makes a false return or false report concerning production, royalty, or drilling;

(3) the owner fails or refuses to drill an offset well or wells in good faith as required by his lease and the rules adopted by the board;

(4) the owner or his agent refuses the proper authority access to the records and other data pertaining to operations under his lease;

(5) the owner or his authorized agent knowingly fails to furnish the log of a well within 30 days after production is found in paying quantities; or

(6) any of the material terms of the lease are violated.

(b) If a lease is forfeited, the area is subject again to lease to the highest bidder under the same rules.

(c) A forfeiture may be set aside and the lease reinstated at any time before the rights of a third party intervene on compliance with the provisions of this chapter and the rules adopted relative to this chapter.

The board may lease all land or parcels of land within a park that is a part of the state park system.  

Section 2 of the 1979 amendatory act provided:  
"All leases of park land entered into by the Board for Lease of State Park Lands before the effective date of this Act are in all things and all respects ratified, confirmed, approved, and validated. This section does not apply to any litigation in progress that questions the validity of a lease of park land if the litigation is ultimately determined against the validity of the lease."

§ 35.052  Subdivision of Land  
The board may have state park land surveyed and subdivided into lots or blocks which will be conducive or convenient to facilitate the advantageous sale of oil or gas leases. The board may identify the lots and blocks by permanent markings on the ground.

§ 35.058  Advertisement of Lease  
(a) The board shall advertise a brief description of the land from which the oil and gas is proposed to be sold. The advertisement shall give notice that sealed bids for the purchase of the oil and gas by lease will be opened at 10 a. m. on the designated day and that sealed bids received up to that time will be considered.  
(b) The advertisement shall be made by:

§ 35.059. Minimum Royalty and Rental

(c) The bid shall state the amount of royalty offered and the amount the bidder is willing to pay in addition to the royalty and annual delay rentals provided for in this subchapter.

(a) An applicant shall submit with his application the required first payment in the form of money or remittance collectible on demand in Austin and convertible at par into money on order of the State Treasurer without liability.

(b) If a remittance is made payable to the commissioner, the payment is not invalid for that reason, but the commissioner shall endorse it to the State Treasurer without incurring liability and the remittance shall be treated as if it were payable to the State Treasurer.

(c) An application is void if the payment is not made as provided in this section.

§ 51.059. Opening Applications

(a) On the date of sale, the application envelopes shall be opened and the applications shall be filed and the information entered on the docket of the board as provided in Section 32.108 of this code.

(b) Any person who desires to be present at the time the envelopes are opened may do so.

§ 51.060. Recordation of First Payments

(a) After each application envelope is opened and the first payment for the land is in the land office, the commissioner shall have the payment listed on a daily list which shall be made in triplicate, showing the name and address of each applicant and the purpose for which each payment is made and shall transmit to the State Treasurer all of the payments together with two of the lists.

(b) On receiving the payments and the lists, the treasurer shall compare the payments with the lists, and if the treasurer finds that the payments and the lists are correct, he shall receipt one of the lists and return it to the commissioner and shall retain the other list.

(c) On receiving the list from the treasurer, the commissioner shall deliver the third list to the comptroller.

§ 51.061. Collection of Remittances

(a) The State Treasurer shall immediately collect all collectible remittances and shall report to the commissioner and comptroller all remittances not collectible in Austin.

(b) Any remittances that cannot be collected shall be returned to the commissioner.

§ 51.062. Disposition of First Payments

(b) After the treasurer is notified, he shall return to each applicant whose application is rejected the amount of his first payment.

(c) A duplicate of the notice to the treasurer of accepted and rejected applications and the amount of the first payment shall be transmitted to the comptroller.

(d) On the last working day of each month, the treasurer shall deposit in the State Treasury to the credit of the proper fund the amount collected by him on accepted applications during that month.

§ 51.063. Duplicate High Bids

If two or more applicants submit the same bid for a tract of land and the bids are the highest bids offered on the sale date, the school land board shall reject all of the bids and the land shall be offered for sale on the next sale date. Any subsequent bid for the land may not be considered if it is less than the high bids rejected under this section.

§ 51.064. Individual Bids

(a) Any public school or asylum land offered for sale for which no application is made under Section 51.056 of this code may be sold to any person who files a proper application in the land office in the manner provided by law.

(b) A person who files an application under this section is not required to have any memorandum on the envelope containing the application.

(c) If two or more applications are filed under this section on the same day for the same land, the person offering the highest price shall have his offer accepted, but if two or more persons offer the same price for the land, the commissioner and the school land board shall proceed in the manner provided by this chapter for the first filing.

§ 51.065. Notice and Record of Sale

(a) The commissioner shall notify the county clerk of the proper county of the sale of each tract of land, the name and address of the purchaser, and the price of the land.

(b) After being informed of any sale of public school or asylum land, the county clerk shall enter in his books opposite the description of the land sold, the name of the purchaser and the date of the sale.

(c) The notice of sale and the book containing the entry are public records.

§ 51.066. Notice of Award

(a) The commissioner shall prepare and issue a notice of award for each tract of land sold.

(b) Each notice of award shall be appropriately numbered and shall be worded in a manner that will constitute a receipt for the first payment after it is signed by the commissioner.

(c) One copy of the notice of award shall be retained in the land office and the other copy shall be sent to the purchaser.

§ 51.067. Information Required With Payments

A person who is making a payment of principal, interest, or lease rental on land shall give the name of the original purchaser or lessee and shall sufficiently designate the land.

§ 51.068. Fund Accounts

(a) Payments of principal, interest, and lease rental shall be accounted for in a similar form but separate from first payments on land.

(b) The state treasurer shall deposit 80 percent of all these payments received each month to the probable fund to which they belong as indicated by the commissioner and shall hold the remaining 20 percent on deposit receipts furnished by the comptroller until definite notice is received from the commissioner as to the proper fund. After definite notice is received, the State Treasurer shall credit the full amount to the proper fund.

(c) The commissioner shall give definite notice to the State Treasurer and comptroller immediately after he issues receipts to the persons making the payments.

(d) The commissioner, State Treasurer, and comptroller shall keep an account with each fund according to advices given by them and shall retain the advices as permanent records.

§ 51.069. Disposition of Payments on Public School Land

§ 51.070. Unpaid Interest on Public School Land

(a) Unpaid and delinquent interest on sales of public school land shall bear interest at a rate of five percent compounded annually as it accrues on November 1 of each year.

(b) No patent may be issued for any public school land until all compounded interest is paid to the time of issuing the patent.

§ 51.071. Forfeiture of Land

(a) If interest on a sale of land is not paid when due, the land is subject to forfeiture by the commissioner by entry on the wrapper containing the papers "Land Forfeited" or similar words, the date of the forfeiture, and the official signature of the commissioner.

(b) After the entry is made on the wrapper, the land and all payments that have been made for it are forfeited to the state, and the land may be offered for sale on a subsequent sale date.

§ 51.072. Effect of Forfeiture

In cases of forfeiture, the original obligations and penalties are as binding as if no forfeiture occurred.

§ 51.073. Classification and Sale of Leased and Forfeited Land

(a) Before it is sold, the commissioner shall classify and value land on which leases have been cancelled or have expired and land forfeited to the state.

(b) Except as provided in Section 51.064 of this code, no land may be sold until it is advertised.

§ 51.074. Reinstatement of Land Purchases

(a) If no rights of third persons have intervened, the purchasers or their vendees, heirs, or legal representatives, who claim land that has been forfeited for nonpayment of interest, may have the claim reinstated on written request by paying into the State Treasury the amount of interest due on the claim up to the date of reinstatement.

(b) The right to reinstate a claim under this section is limited to the last purchaser from the state, or his vendees, heirs, or legal representatives, and must be exercised within five years from the date of the forfeiture.

(c) If there is a valid outstanding grazing lease that prevents reinstatement within the time provided in Subsection (b) of this section, the claim may be reinstated within 60 days after the grazing lease expires if the application for reinstatement together
with the payment for all past due interest has been filed in the land office within five years from the date of forfeiture.

§ 51.075. Forfeiture of a Deceased Purchaser's Land

(a) If a purchaser of land dies, the heirs or legal representatives of the deceased have one year following November 1 after the purchaser's death in which to make payment before the commissioner declares the land to be forfeited.

(b) If the forfeiture is declared by the commissioner within the time period stated in Subsection (a) of this section, it will be set aside on proper proof of death if no rights of third parties have intervened.

§ 51.076. Legal Proceedings

None of the provisions of Sections 51.071 through 51.072 and 51.074 through 51.075 of this code shall prevent the state from instituting legal proceedings necessary:

(1) to enforce a forfeiture;

(2) to recover the full amount of interest and penalties that may be owed to the state at the time the forfeiture occurred; or

(3) to protect another right to the land.

§ 51.077. Lien

To secure the payment of principal and interest due on a sale of public school land, university land, and asylum land, the state has an express lien for the use and benefit of the fund to which the land belongs. The lien is in addition to any right and remedy that the state has for enforcement of the payment of principal or interest due and unpaid.

§ 51.078. Transfer of Indebtedness

(a) If a person or the Federal Farm Loan Bank, with the consent of the owner of land covered by Section 51.077 of this code, pays to the state the principal and interest due on any obligation given for the land, the commissioner, on written request of the owner, may execute, acknowledge, and deliver to the person or the Federal Farm Loan Bank a written transfer of the indebtedness held by the state. The written request of the owner shall be acknowledged in the manner required for the conveyance of real estate and shall be accompanied by an affidavit of ownership.

(b) The person or the Federal Farm Loan Bank is subrogated to all the rights, liens, and remedies held by the state to secure and enforce the payment of the principal and interest that was paid to the state.

(c) If the land claimed by a person claiming to be the owner is held under evidence of title that the law or rules of the land office do not authorize to be filed in the land office, the commissioner may admit the owner to be the person that the person or the Federal Farm Loan Bank paying the indebtedness admits to be the owner, and on making this admission the instrument of transfer shall be executed.

(d) None of the provisions of this section shall change any part of the law or rules that apply to the land office with relation to titles to land and issuance of patents.

§ 51.079. Transfers Generally

(a) An owner of public school land or asylum land purchased from the state may sell the land or a definite portion of the land in any size tract.

(b) If land to be sold is separated from another portion of land but is not sufficiently designated by metes and bounds in the papers offered to be filed so that it may be identified with certainty, the commissioner shall require that proper field notes accompany the papers before he files them and separates the land.

§ 51.080. Personal Transfers

(a) A vendee who obtains through personal transfer a whole survey or a whole portion of a survey purchased from the state as a whole or who obtains through personal transfer a portion of a survey purchased from the state as a whole or in a quantity less than the whole survey is entitled to become a substitute purchaser directly from the state in the manner provided in this section.

(b) With the approval of the commissioner, the vendee may file in the land office a complete chain of title through personal transfers that have been duly executed and recorded in the counties in which the land or a part of the land is located and shall pay the fees provided by law.

(c) After the papers are filed in the land office, the substituted purchaser shall have his portion of land separated from the other portion of land, if any, on the records of the land office and shall assume and be liable to the state for all unpaid principal and interest due the state for the land.

(d) The obligation of the original purchaser and the obligation of all vendors of the substituted purchaser are enforceable against the substituted purchaser as if he were the original purchaser from the state, and the obligation of the vendor or vendors of the substituted purchaser are canceled.

§ 51.081. Transfers Other Than Personal Transfer

A person who claims title through a source other than by personal transfer to a definite portion of a survey that is less than the whole survey purchased from the state, with the approval of the commissioner, may have the portion of land that he claims separated from the other portion of the survey on the records of the land office by filing in the land office evidence of claims that may be required by the commissioner and by paying the fees provided by law for papers filed as evidence of the claim or a right to a separation of the area.

§ 51.082. Liability of Vendee

After a separation of land is made on the records of the land office, the portion that is separated shall be charged and credited with its pro rata part of the principal and interest due and paid to November 1 preceding the date of the filing of the transfers or other papers.

§ 51.083. Patent on Part of a Tract

(a) If an owner or claimant of land whose ownership or claim is shown on the records of the land office desires a patent on a portion of the whole tract, the owner or claimant, with the approval of the commissioner, may file field notes for the portion of the tract on which the patent is desired, together with the filing fee required by law, and may obtain a patent for the portion of the tract after the full price is paid, together with all fees required by law.

(b) If the ownership of the tract is evidenced by personal transfer, the patent shall be issued to the owner and his assigns, but if the claimant claims title through other evidence than by personal transfer, the patent shall be issued in the name of the person and his assigns who hold title by original purchase or in the name of the person and his assigns who appear on the records to hold title through the last personal transfer.

(c) If a patent is issued in the name of any person other than the legal owner, the patent and the rights granted in the patent inure to the benefit of the legal owner.

§ 51.084. Sale Without Condition of Residence

No sale made without condition of settlement may be questioned by the state or any person after one year from the date of the sale.

§ 51.085. Time for Purchase of Land

Each purchaser of land has the option of paying the purchase price in full at any time, together with all fees, and obtaining a patent for the land.

[Sections 51.086 to 51.120 reserved for expansion]
§ 51.125. Rejection of Bid or Offer to Lease
Any bid or offer to lease may be rejected by the board for fraud, collusion, or other good and sufficient cause before the lease is signed.

§ 51.126. Notification of Acceptance and Execution of Lease
After the applications are received, the commissioner shall give written notification to the successful applicant that his bid or offer to lease is accepted and execute a lease to the applicant in the name and by the authority of the State of Texas.

§ 51.127. Recording Lease
(a) After the lessee has paid the rent for the land for a year in advance, the commissioner shall deliver the lease to the clerk of the county in which the land is located.
(b) When a lease is filed for record, the clerk shall prepare a memorandum or abstract of the lease and shall record the memorandum or abstract in a well-bound book or on microfilm kept in his office.
(c) The memorandum or abstract shall contain:
   (1) the number of the survey leased;
   (2) the name of the original grantee;
   (3) the amount of land leased;
   (4) the name of the lessee;
   (5) the date of the lease; and
   (6) the term of years the lease is to run.
(d) On payment of the fee required by law, the clerk shall deliver the lease to the lessee.
(e) Except for the record made under this section, no other record of a lease is required.

§ 51.128. Cancellation of Lease

(b) The commissioner shall file the document with the other papers relating to the lease, and the lease shall terminate immediately.

§ 51.129. Lien
(a) During the continuance of the lease and after forfeiture, the state has a lien on all property owned by the lessee which is located on the leased premises to secure payment of rent due.
(b) The lien is superior to all other liens.
(c) A reservation of the lien in the lease is not essential to preserve its validity.

§ 51.130. Removal of Improvements
An improvement made by a lessee on land leased by him may be removed by the lessee on the expiration of the lease or, at the discretion of the commissioner, may become the property of the state if, in the original lease, the commissioner and the lessee agree on adequate credit to be applied to the rental to be paid the state by the lessee, thereby allowing the lessee an agreed consideration.

SUBCHAPTER E. SALE AND LEASE OF VACANCIES

§ 51.171. Sale and Lease of Vacant Land
Vacant and unsurveyed public school land except riverbeds, channels, islands, lakes, bays, and other areas in tidewater limits shall be sold and leased under the provisions of this subchapter.

§ 51.172. Definitions
In this subchapter:
(1) "Good-faith claimant" and "claimant" mean any person:
   (A) who occupies or uses or has previously occupied or used or whose predecessors in interest have occupied or used a vacancy for purposes other than exploring for or removing oil, gas, sulphur, or other minerals from the vacancy; and
   (B) who has himself or whose predecessors in interest had the vacancy enclosed or within definite recognized boundaries and in possession for a period of 10 years with a good-faith belief that the vacancy was included inside the boundaries of the survey or surveys that were previously titled, awarded, or sold under circumstances that would have vested title in the vacancy if it were actually located within the boundaries of the survey or surveys whose boundaries are recognized boundaries in the community.
(2) "Vacancy" means an area of unsurveyed public school land that:
   (A) is not in conflict on the ground with land previously titled, awarded, or sold;
   (B) has not been listed on the records of the land office as public school land; and
   (C) was, on the date of filing, neither subject to an earlier subsisting application to purchase or lease by a discoverer or claimant nor involved in pending litigation brought by the state to recover the land.
(3) "Applicant" means any person, other than a good-faith claimant, who discovers and files an application to purchase or lease a vacancy.
§ 51.173. Persons Eligible to Purchase and Lease Land

(a) A vacancy may be sold to a good-faith claimant whether or not the vacancy is located within five miles of a well producing oil, gas, or other minerals in commercial quantities, but a person who is not a good-faith claimant may not purchase a vacancy that is located within five miles of a well producing oil or gas in commercial quantities.

(b) If there is no good-faith claimant or if the claimant fails to exercise his preferential right, a vacancy located within five miles of a well producing oil, gas, or other minerals shall be available only for lease.

§ 51.174. Purchase of Vacancy by Adjoining Landowner

If the owner of the land adjoining an alleged vacancy files an application to purchase the vacancy and no application to purchase or lease the vacancy has been previously filed, the owner of the adjoining land, who otherwise qualifies as a good-faith claimant, shall be considered a good-faith claimant regardless of the length of time he has owned the adjoining land or has enclosed the vacancy or has had it within definite recognized boundaries and in possession with the belief that the vacancy was included within his survey.

§ 51.175. Application to Purchase or Lease a Vacancy

(a) An applicant who claims that a vacancy exists and who desires to purchase or lease the vacancy shall file with the county surveyor in the county in which any part of the vacancy is located a sworn written application in duplicate to purchase or lease the vacancy.

(b) The application shall:

(1) describe the land that is claimed to be vacant;

(2) state the desire of the applicant to purchase or lease the land under the provisions of this chapter;

(3) give the names and addresses of any owners or claimants of land or any interest in land or of leases on, adjoining, overlapping, or including the land claimed to be vacant as far as can be determined from the records of the land office and the county clerk's office in the county in which the land is located and the tax records of the county in which the land is located;

(4) give the names and addresses of any persons who, from facts known to the applicant, assert any right to the alleged vacant land; and

(5) state that the applicant knows of no other claimants than those listed.

§ 51.176. Filing Fee

At the time the application is filed, the applicant shall pay to the county surveyor a filing fee of $5.

§ 51.177. Filing Application With County

(a) The county surveyor shall mark the exact date and hour of filing on the original and duplicate copy of each application and shall return one copy of the application to the applicant and shall record the other copy in a book kept for that purpose.

(b) If the county does not have a county surveyor, the preliminary filing of the application shall be with the county clerk. The county clerk shall record the application in a book kept for that purpose and not in the deed records.

§ 51.178. Filing Application With Commissioner

(a) Within 10 days after the application is filed with the county surveyor, the copy of the application that is returned to the applicant shall be filed with the commissioner.

(b) The commissioner shall mark the date of filing on the application.

(c) The applicant shall pay to the commissioner a filing fee of $100.

(d) Failure to file the application with the commissioner in the time provided by this section and to pay the filing fee constitutes a waiver of all rights under the application.

(e) As between applicants, priority dates from the time of filing the application with the county surveyor.

§ 51.179. Deposit

(a) The commissioner shall notify the applicant by letter of the estimated cost of proceeding under the application, and within 30 days after the date of the commissioner’s letter, the applicant shall make a deposit with the commissioner to pay the cost of the work that may be necessary to comply with the request contained in the application.

(b) On failure to make the deposit required under this section, all rights under the application are lost.

§ 51.180. Insufficient Deposit

(a) If the deposit is insufficient, the applicant shall be requested by letter to make a further deposit of an amount determined by the commissioner.

(b) If the further deposit is not made within 30 days after the date of the letter, work shall be discontinued and the application canceled with the cancellation endorsed on the application.
§ 51.181. Appeal of Amount of Deposit
(a) The applicant is entitled to appeal the estimated cost determined by the commissioner to a district court in Travis County by giving written notice to the commissioner within 15 days after receiving the estimated cost determined by the commissioner as provided in Sections 51.179 through 51.180 of this code.
(b) The applicant has 15 days after the district court enters its decision in which to pay the amount ordered by the court's decision.

§ 51.182. Deposits as Trust Fund
Deposits provided under Sections 51.179 through 51.180 of this code shall be a special trust fund to be used only for the purpose authorized by this subchapter.

§ 51.183. Statement and Refund of Remaining Deposit
As soon as the total expense properly charged against the deposit is determined, the commissioner shall render a complete statement to the applicant together with any balance remaining from the deposit.

§ 51.184. Notice of Intention to Survey

(b) The surveyor shall be a surveyor licensed by the state or the county surveyor of the county in which the vacancy or part of the vacancy is located.
(c) The fees and expenses paid for the survey shall be the same as provided by law, and if the fees and expenses are not provided by law, the commissioner and surveyor shall make an agreement as to fees and expenses that shall not be more than an amount that is reasonable for the work performed.
(d) The fees and expenses shall be paid by the applicant.

§ 51.186. Survey Report
(a) Except as provided in Subsection (b) of this section, a written report of the survey, together with field notes describing the land and the lines and corners surveyed and a plat showing the results of the survey, shall be filed in the land office within 120 days from the filing of the application.
(b) The commissioner may extend the time for filing the survey if good cause is shown. The cause for extension of time shall be stated in writing and filed as part of the record of the proceedings. An extension of time may not be more than 60 days.
(c) The survey report shall give the names and post-office addresses of all persons who have possession of the land described in the application and of all persons found by the surveyor who have or claim any interest in the land.

§ 51.187. Personal Survey
Any interested party at his own expense may have any surveying done that he considers desirable.

§ 51.188. Hearing and Notice
(a) Within 60 days after the surveyor makes his report, a hearing may be held before the commissioner to determine whether or not there is a vacancy.
(b) The date for the hearing shall be provided in the notice that the commissioner shall give to all persons thought to be interested parties and to all persons shown by the record of the proceeding to be interested parties, including the attorney general.
(c) The notice of the hearing shall be deposited at the post office in Austin at least 10 days before the date set for the hearing.
(d) At the hearing, the state and each interested party, whether or not he received notice, is entitled to be heard.

§ 51.189. Determination of Vacancy by Commissioner
(a) If it appears to the commissioner that the alleged vacancy is not in conflict with land previously titled, awarded, or sold by the state, he shall give prompt notice of this finding to the applicant and to all persons who were previously identified as interested parties.
§ 51.189

(b) After the notice is given under Subsection (a) of this section, and subject to the preferential right of a good-faith claimant, the applicant is entitled for 120 days to purchase or lease the portion of the land that is determined to be vacant at a price set by the board as provided in this code and with the same royalty reservation as provided in Section 51.201 of this code.

(c) No award may be made by the commissioner unless a hearing is held, and no presumption may obtain in a suit involving the existence of a vacancy as a result of the action of the commissioner in this respect.

[Acts 1977, 65th Leg., p. 2431, ch. 871, art. 1, § 1, eff. Sept. 1, 1977.]

§ 51.192. Denial of Vacancy by Commissioner

(a) If the commissioner decides that the area alleged to be vacant is not vacant, he shall endorse his finding.

(b) The commissioner shall promptly notify the applicant of his decision by registered mail and shall file all reports and papers received in connection with the application.

(c) After the commissioner takes all action provided under Subsections (a) and (b) of this section, he shall take no further action with respect to the application unless the existence of the alleged vacancy is determined by a court of competent jurisdiction.

(d) Within 90 days after the commissioner's decision is mailed, unless the applicant files suit in a district court in a county in which part of the alleged vacancy is located to litigate the question of the existence of a vacancy, the applicant's application and all preference rights acquired to purchase or lease the alleged vacancy become null and void.

[Acts 1977, 65th Leg., p. 2432, ch. 871, art. 1, § 1, eff. Sept. 1, 1977.]

§ 51.193. Preferential Right of Good-Faith Claimant

(a) A good-faith claimant who ascertains that a vacancy exists or that a claimed vacancy may exist or who has been notified by the commissioner that a vacancy has been found to exist on land claimed by him shall have a preferential right to purchase or lease the vacancy at any time until 90 days after a decision of the commissioner declaring the existence of a vacancy.

[Acts 1977, 65th Leg., p. 2432, ch. 871, art. 1, § 1, eff. Sept. 1, 1977.]

§ 51.195. Effect of Good-Faith Claimant's Application

The application of a good-faith claimant may not be used or considered as an admission on his part that a vacancy exists.

[Acts 1977, 65th Leg., p. 2432, ch. 871, art. 1, § 1, eff. Sept. 1, 1977.]

§ 51.196. Procedure for Purchase or Lease by Good-Faith Claimant

1. a $1 filing fee;
2. a written report of a surveyor licensed by the state or by the county surveyor of any county in which all or part of the alleged vacancy is located;
3. field notes describing the land and the lines and corners surveyed;
4. a plat showing the results of the survey; and
§ 51.197. Failure to Exercise Preferential Right Within Certain Time

(a) If the good-faith claimant does not exercise his preferential right to purchase within 90 days after a decision of the commissioner under the provisions of this subchapter, the applicant shall be awarded the preferential right to purchase within 120 days from the date of filing the application with the commissioner. If the commissioner has a survey made of the alleged vacancy and file the report, field notes, and plat in the land office together with proof that he is a good-faith claimant.

[Acts 1977, 65th Leg., p. 2433, ch. 871, art. 1, § 1, eff. Sept. 1, 1977.]

§ 51.199. Judicial Determination of Good-Faith Claimant

[Acts 1977, 65th Leg., p. 2433, ch. 871, art. 1, § 1, eff. Sept. 1, 1977.]

§ 51.200. Rights of Holders of Title and Holders of Interests in Title of a Claimant

(a) If all owners holding title under the claimant or an interest in the title under which the claimant claims to be a good-faith claimant accept the provisions of this section and contribute their proportionate part of the royalty reserved to the state and the royalty awarded to the applicant, the purchase by the good-faith claimant under the preferential right inures distributively to their benefit.

(b) The royalty reservations shall be deducted distributively and proportionately from the mineral interest of each owner including mineral leases if the area is under a mineral lease.

(c) As a condition of this subchapter, the good-faith claimant receiving the patent or award for whose benefit a patent or award is received shall recognize the proportionate interests of other owners who benefit by the award of the preferential right.

(d) The consideration for the purchase shall be determined by the board without considering the potential value of minerals or any improvements located on the vacancy but shall not be less than $1 an acre. The state retains the right to recover from the party or parties liable the market value when produced of all oil, gas, sulphur, or other minerals that may have been produced from the area before the effective date of the patent or award less an offset to the operator for the actual cost of development and production.

(e) No mineral lease executed by a good-faith claimant before filing the vacancy claim may give the lessee any interest in or to the vacancy.

(f) No title to land or to a mineral interest in land acquired from the state under a preferential right may be held to pass as after-acquired title because of any covenant of general warranty, description, or other provision contained in any conveyance executed before the date of award under the preferential right.

[Acts 1977, 65th Leg., p. 2433, ch. 871, art. 1, § 1, eff. Sept. 1, 1977.]

(b) If the commissioner has previously executed a mineral lease on a larger portion of the minerals under the land, the lease shall be amended to cover only thirteen-sixteenths of the minerals so that it will conform to preferential rights given to good-faith claimants.

§ 51.203. Royalty for Applicant

If there is a valid subsisting application previously filed by an applicant on the date that the good-faith claimant files his application to purchase under a preferential right, and if the good-faith claimant exercises his preferential right to purchase within 90 days after the commissioner's decision under this subchapter, a free royalty of one-sixteenth of all oil, gas, sulphur, and other minerals that may be produced from the land shall be added to the free royalty interest reserved to the state and shall be awarded by the state to the applicant. The free royalty shall be deducted proportionately from the good-faith claimant's award.

§ 51.204. Lease of Vacancy for Mineral Development

(a) The instrument of sale for a vacancy shall provide that the purchaser is entitled to execute oil, gas, and mineral leases on the vacancy without the joinder or approval of the commissioner or the board.

(b) Bonus money and rentals paid under a lease executed under this section shall be paid to and shall be the property of the purchaser of the land.

(c) Any lease executed under the provisions of this section shall reserve to the state the free royalty provided in Section 51.201 of this code.

§ 51.205. Appeal

(a) A person who is aggrieved by any action taken by the commissioner under the provisions of this subchapter or with reference to any application to purchase or lease a vacancy may institute suit in the district court of any county in which part of the land is located to try the issues of boundary, title, ownership of any alleged vacancy involved, and preferential rights of the person.

(b) Within 30 days after the suit is filed, the plaintiff shall have a certified copy of the original petition served on the attorney general and the commissioner by the sheriff or a constable of Travis County and shall have the officer's return filed with the papers in the suit.

(c) Whether the attorney general answers or intervenes in the suit or institutes a suit, the venue of all suits following the filing of the application shall be in the county in which the land or part of the land is located.

(d) If the litigation is prosecuted to a final judgment, the judgment is binding on the state.

(e) The attorney general must intervene on behalf of the state in suits brought under this section.

§ 51.206. Effect of Land Office Records on Certain Vacancies

In any case involving the boundary, title, or possession of surveys partly or wholly included in any incorporated city, town, or village validated under Section 1, Chapter 254, General Laws, Acts of the 42nd Legislature, Regular Session, 1931, where there is sought to be established a vacancy between surveys, the field notes and official maps in use in the land office at the date of the incorporation are conclusive concerning the nonexistence of the vacancy. If no vacancy appears from the field notes or maps, it is conclusively presumed that no vacancy exists.

SUBCHAPTER F. PATENTS

§ 51.241. Issuance of Patent

The commissioner shall issue a patent when the records of his office reflect that full payment for land has been made where required and fees that are due on the land have been paid to the land office and have not been withdrawn, including the fee for recording the patent in the county or counties in which the land is located.
§ 51.242. Patent Fees

When a person applies for a patent, he shall pay to the land office in addition to all other required payments $1 for each county in which all or a part of the land is located and shall give the name and address of the owner or agent.

§ 51.243. Requisites of a Patent

(a) Each patent for land from the state shall be issued in the name and by authority of the state under the seal of the state and the land office and shall be signed by the governor and countersigned by the commissioner.

(b) Before the patent is delivered to the person who is entitled to it, it shall be registered in the land office patent book.

§ 51.244. Delivery of Patent

(a) When a patent is ready for delivery, the commissioner shall send it, together with the check for payment of the fee required by Section 51.242 of this code and the name and address of the owner or his agent, by registered mail to the clerk of the proper county.

(b) On receiving the patent, the clerk shall record it and shall send the patent, together with the name and address of the owner or his agent and the remaining recording fees, by registered mail to the clerk of another proper county until the patent has been recorded in each county in which all or part of the land is located.

(c) After the patent is recorded in all the proper counties, it shall be sent by registered mail to the proper party.

§ 51.245. Deceased Patentee

A patent issued in the name of a person who is deceased at the time the patent is issued conveys and secures valid title to the heirs or assignee of the deceased person.

§ 51.246. Acquisition of Deed of Acquittance to Excess Acreage

(a) If the area of a tract of land that is titled or patented exceeds the quantity provided in the title or patent and if under the existing law the title to all or a part of the tract may be affected by the existence of the excess acreage, the person who owns the survey or portion of the survey or has an interest in it may pay for the total excess acreage in the survey or the total excess in a given tract out of the patented or titled survey at the price fixed by the board.

(b) Any person who owns an interest in a titled or patented survey or any portion of a titled or patented survey in which excess acreage is located and who desires to pay for the excess acreage shall file with the commissioner a request for an appraisement of the land with corrected field notes in the form provided by law, together with a sworn statement of facts relating to his right to purchase and other evidence of his right to purchase which may be required by the commissioner. The corrected field notes shall describe the patented tract, and if purchasing excess in a portion of a tract, shall include a description of the portion in which the applicant is making application to purchase excess.

(c) If it appears that excess acreage actually exists and that the applicant is entitled to obtain it under the law, the commissioner shall execute a deed of acquittance covering the land in the name of the original patentee or his assignees with a mineral reservation or with no mineral reservation accordingly as may have been the case when the survey was titled or patented.

(d) The transfer shall inure distributively to the benefit of the lawful owners of the land in proportion to their holdings.

§ 51.247. Patents for Land That Cannot be Patented by Other Methods

(a) Any headright survey, homestead donation, preemption survey, scrip survey, or other survey awarded or sold before August 20, 1931, which has been held and claimed in good faith by a person for 10 years before the date of application for a patent but which cannot be patented under existing law may be patented on payment to the commissioner of the purchase price as set by the board.

(b) The patent shall be issued to the owner of record as shown in the records of the land office and shall inure distributively to the legal owners of the land.

(c) If a tract of school land has been occupied by mistake as part of another tract, the occupant shall have a preference right for a period of six months after discovery of the mistake to purchase the land at the same price paid or contracted to be paid for the land actually conveyed to him.

§ 51.248. Doubtful Claim

If it appears to the commissioner from the records of his office or from information given to him under oath that there is an illegality in a claim, the commissioner, if he considers it necessary, shall refer the matter to the attorney general, and the attorney general’s written decision is sufficient authority for the commissioner to issue or withhold the patent.

§ 51.249. Conflicting Surveys

If conflicts exist between surveys, the commissioner shall issue patents to the portions of the surveys that are free from conflict.

[Acts 1977, 65th Leg., p. 2437, ch. 871, art. 1, § 1, eff. Sept. 1, 1977.]

§ 51.250. Conflicting Title

(a) If a patent to land is issued by mistake on any valid claim for land and is afterwards found to be in conflict with an older title, the owner of the patent or any part of the land embraced by the patent which is in conflict may return the patent to the commissioner for cancellation. If the owner of the land that is the subject of the conflict cannot obtain the patent, he shall return to the commissioner legal evidence of his title to the patent or part of the patent.

(b) The person returning the patent or filing the evidence also shall make and file with the commissioner an affidavit stating that he is still the owner of the land and has not sold or transferred it.

(c) If the land office records or a duly certified copy of a judgment of a court of competent jurisdiction that has adjudicated the title reflects that a conflict exists, the commissioner may cancel the patent or the part of a patent that appears to belong to the party making the application.

(d) In cases where a survey in a block or system of surveys conflicts on one side or more, and omits an unpatented strip on another side or sides due to the patent being issued on an erroneous subsequent survey not conforming to the original and recognized pattern for the block or system, the commissioner, at the request of all parties owning under said patent, may cancel said patent and issue a corrected patent. In the event that excess acreage exists, a deed of acquittance shall be procured, as provided by law, and will be issued simultaneously with the corrected patent. This Subsection (d) shall not adversely affect the rights of any party in or entitled to possession of land affected by this subsection, but merely clarifies that the ownership in any land in a block or system of surveys exists as if the patent had been correctly issued on the date the erroneous patent was issued. The rights of a claimant under applicable law shall be construed as if the corrected patent had been originally issued.

§ 51.251. Partial Conflict of Title

If there is only a partial conflict of title under a patent, the commissioner in the manner provided in Section 51.250 of this code may cancel any patent presented to him and issue a patent to the applicant for the portion of the land that is covered by his original patent but that is not in conflict with the older title if the area can be determined from the field notes.

§ 51.252. Refund of Purchase Money

(a) If a patent cannot be issued for land because of a conflict, erroneous survey, or illegal sale or if a patent is issued for land and is later canceled, the comptroller, on proper proof, may issue his warrant to the proper parties for amounts paid in good faith to the State Treasury for taxes, lease payments, or purchase payments on this land.

(b) Proof of these good-faith payments may be shown by the certificate of the commissioner if the records of the land office show that a patent cannot be issued because of conflict, erroneous survey, or illegal sale or that a patent has been canceled.

(c) The provisions of this section do not apply to surveys on which the errors may be corrected.

§ 52.001 DEFINITIONS

In this chapter:

(1) "Commissioner" means the Commissioner of the General Land Office.

(2) "Land office" means the General Land Office.

(3) "Board" means the school land board.

[Sections 52.002 to 52.010 reserved for expansion]
§ 52.016. Special Fee
Each bidder on a lease under this subchapter shall remit by separate check a special sale fee in the amount and in the manner provided in Section 34.061 of this code.

§ 52.017. Keeping and Opening Bids
The envelopes shall be kept securely and unopened by the commissioner or his chief clerk until the day on which the applications are to be opened, and at that time, the board shall open the envelopes in the presence of any persons who desire to be present.

§ 52.018. Void Application
An application that includes two or more areas or that is for a price that is less than the fixed royalty and price per acre is void.

§ 52.019. Tie Bids
(a) If the highest bid for an area is made by more than one applicant, all applications shall be rejected and the board shall set a date for lease of the area that shall not be later than the 15th day of the following month.

(b) The area will be subject to lease in the same manner as it was originally subject to lease.

(c) No bids for a lease shall be considered if the price is less than the highest bid offered in the original application.

§ 52.020. Return of Payments on Rejected Applications
The State Treasurer shall return all amounts paid on rejected applications.

§ 52.021. Term of Lease
A lease granted under this subchapter shall be for a primary term of five years and for as long after that time as oil or gas is produced from the leased area.

§ 52.022. Royalty and Delay Rentals
(a) In addition to the cash amount bid for a lease, the area included in the lease shall be leased for not less than one-eighth of the gross production of oil produced and saved, or its value, and not less than one-eighth of the gross production of gas produced and sold off the area or its value, plus an amount determined by the board, until production is secured.

(b) If production is secured in commercial quantities and the payment of royalty begins and continues to be paid, the lessee is exempt from further delay rental payments on the acreage.

(c) If production ceases and royalty is not paid, the lessee shall pay at the end of the lease year in which the royalty ceased to be paid and annually after that time in advance, an amount determined by the board for as long as the lessee desires to maintain the rights acquired under the lease, but not for more than five years from the date of the lease.

§ 52.023. Lease Provisions for Drilling and Reworking
Each lease shall provide that:
(1) if the production of oil or gas on premises leased under this subchapter ceases for any reason at or after the expiration of the primary term, the lease will not terminate if the lessee commences additional drilling or reworking operations within 60 days after the cessation of production;

(2) the lease shall remain in effect as long as the drilling and reworking operations continue in good faith and in a workmanlike manner, without interruptions totaling more than 60 days during any one such operation; and

(3) if the drilling or reworking operations result in the production of oil or gas, the lease shall remain in effect as long as oil or gas is produced from the premises in paying quantities or payment of shut-in gas royalties or compensatory royalties is made as provided by law.

§ 52.024. Lease Provisions for Shut-In Oil or Gas Royalty and Compensatory Royalty
Each lease shall provide that:
(1) if at the expiration of the primary term or at any time after the expiration of the primary term a well or wells capable of producing oil or gas in paying quantities are located on the leased premises but oil or gas is not being produced for lack of suitable production facilities or a suitable market and the lease is not being maintained in force and effect, before the expiration of the primary term or if the primary term has expired, within 60 days after the lessee ceases to produce oil or gas from the well, the lessee may pay as a shut-in oil or gas royalty an amount equal to double the annual rental provided in the lease but not less than $1,200 a year for each well capable of producing oil or gas in paying quantities;

(2) if the shut-in oil or gas royalty is paid, the lease shall be considered to be a producing lease and the payment shall extend the term of the lease for a period of one year from the end of the
§ 52.024 NATURAL RESOURCES CODE

primary term or from the first day of the month next succeeding the month in which production ceased and after that if no suitable production facilities or suitable market for the oil or gas exists, the lessee may extend the lease for four additional and successive periods of one year by paying the same amount each year on or before the expiration of the extended term;

(3) if, during the period the lease is kept in effect by payment of the shut-in oil or gas royalty, oil or gas is sold and delivered in paying quantities from a well located within 1,000 feet of the leased premises and completed in the same producing reservoir or in any case in which drainage is occurring, the right to continue to extend the lease by paying the shut-in oil or gas royalty shall cease, but the lease shall remain effective for the remainder of the year for which the royalty has been paid and for an additional period of not more than five years from the expiration of the primary term by the lessee paying compensatory royalty at the royalty rate provided in the lease of the value at the well of production from the well which is causing the drainage or which is completed in the same producing reservoir and within 1,000 feet of the leased premises;

(4) the compensatory royalty is to be paid monthly to the commissioner beginning on or before the last day of the month next succeeding the month in which the oil or gas is sold and delivered from the well located within 1,000 feet of or draining the leased premises and completed in the same reservoir;

(5) if the compensatory royalty paid in any 12-month period is in an amount less than the annual shut-in oil or gas royalty, the lessee shall pay an amount equal to the difference within 30 days from the end of the 12-month period; and

(6) none of these provisions will relieve the lessee of the obligation of reasonable development nor the obligation to drill offset wells as provided in Section 52.034 of this code.

Section 2 of the 1981 amendatory act provides:

"On application of a lessee, a valid and existing mineral lease issued by the commissioner of the General Land Office before the effective date of this Act that covers any state-owned minerals shall be amended by the commissioner of the General Land Office, by instrument in writing, to include the provisions in Section 52.024, Natural Resources Code, as amended by this Act."

§ 52.025. Disposition of Lease Payments

The State Treasurer shall credit the permanent school fund with amounts received from unsurveyed school land and with two-thirds of the amount received from other areas and shall credit the General Revenue Fund with the remaining one-third of the payments for the other areas.

§ 52.026. Lease Transfer

(a) A lessee of an area under this subchapter may transfer his lease at any time.

(b) The transfer of the lease shall be recorded in any county in which all or part of the leased area is located.

(c) Within 90 days after the execution of the transfer, the recorded transfer or a certified copy of the recorded transfer accompanied by a $5 filing fee shall be filed in the land office.

(d) The transferee shall succeed to all rights and be subject to all obligations and penalties of the original lessee.

§ 52.027. Lease Relinquishment

(a) A lessee may relinquish his lease to the state at any time by recording the relinquishment in each county in which all or part of the leased area is located.

(b) Within 90 days after the execution of the relinquishment, the recorded relinquishment or a certified copy of the recorded relinquishment together with a $5 filing fee shall be filed in the land office.

(c) After the lessee relinquishes the area, he is relieved of any further obligations to the state, but the relinquishment does not release the lessee from any obligations or liabilities previously accrued in favor of the state.

§ 52.028. Suspension of Oil and Gas Leases

(a) If an oil and gas lease issued by the commissioner is involved in litigation relating to its validity or to the authority of the commissioner to lease the land, the primary term of the lease shall be suspended and all obligations imposed by the lease set aside during the period of the litigation.

(b) If the litigation is instituted at least six months before the expiration of the primary term, after final judgment is rendered, the primary term provided in the lease shall begin to run again and shall continue to run for the remainder of the period specified in the lease and all obligations and duties imposed by the lease shall be operative.

(c) The lessee shall pay all annual delay rentals and any royalties that accrue during the period of litigation in the same manner as they are paid during the period of an extended primary term. The delay rentals paid during the period of litigation shall be held and returned to the lessee if the state is unsuccessful in the litigation.

§ 52.029. Forfeiture of Rights

The provisions of Subchapter F of this chapter governing the forfeiture and reinstatement of rights apply to forfeiture and reinstatement of leases issued under this subchapter, and on forfeiture of a lease, the area covered by the lease may be leased, after advertisement, by any other person.

§ 52.030. Refund of Lease Money in Certain Situations

(a) If a lessee is prevented from exploring, developing, drilling, or producing oil and gas from the tract leased to him as a result of the action of any agency of the United States or of this state during the entire primary term of the lease, he is entitled to a refund of all money paid for bonus, delay rentals, and other fees under the lease as provided by legislative appropriation.

(b) A refund shall be made only on verification of the claim by the board or on the judgment of a court of competent jurisdiction.

(c) A lessee who has a claim under this section is given permission to bring suit against the state within two years after the expiration of the lease in any court of competent jurisdiction to recover the money paid.

§ 52.0301. Suspension of Terms of Lease in Certain Situations

(a) If the owner of a valid oil and gas lease granted by the state is denied access to or is denied a permit to drill on or produce from the leased premises by any duly constituted authority of the United States after a bona fide attempt has been made by the owner to obtain access or a permit to drill on or produce from the leased premises, the owner may file with the board an application describing and giving the date of the action that deprived him of access to or the right to drill on or produce from the premises.

(b) If the board is satisfied that the facts included in the application are true, the board may enter an order in its minutes suspending the running of both the primary and the principal term of the lease or suspending any condition, obligation, or duty under the lease, from the date of the cause for the suspension through the continued existence of the cause for the suspension, so long as the lessee continues to make the annual rental payments that are stipulated in the lease on each anniversary date of the lease during the period of suspension.

(c) Until 90 days after the board enters an order in its minutes stating that the cause for suspension has ceased to exist, the oil and gas lease shall remain in status quo, and all obligations and conditions existing under the lease or any of those obligations or conditions that are suspended by the board are inoperative and of no force and effect except for the obligation to pay delay rentals.

(d) Ninety days after the board enters its order stating the cause for suspension has ceased to exist, the oil and gas lease shall again become operative if the rental payments have been made during the period of suspension, and all suspended obligations and conditions, including the payment of rentals, shall again attach and be in force. In the case of the suspension of the primary and principal terms of the lease, the lease shall continue in force for a period equivalent to the unexpired term of the lease on the date the cause of suspension began.

(e) The commissioner shall give notice immediately to the lessee of the entry of an order stating that the cause of suspension has ceased to exist, provided annual rental payments have been made.

(f) This section may not be construed as abridging any rights or privileges conveyed under Chapter 287, Acts of the 47th Legislature, Regular Session, 1941 (Article 5366a, Vernon’s Texas Civil Statutes). [Added by Acts 1979, 66th Leg., p. 2006, ch. 785, § 7, eff. June 13, 1979.]

§ 52.031. Extension of Lease by Commissioner

(a) At the expiration of the primary term of a lease made under the provisions of this subchapter, if production of oil or gas has not been obtained on the leased premises but drilling operations are being conducted in good faith and in good workman-like manner, the lessee may file in the land office on or before the expiration of the primary term a written application to the commissioner for a 30-day extension of the lease accompanied by $3,000 for 640 acres or less or $6,000 for more than 640 acres.

(b) The commissioner shall extend the lease in writing for a 30-day period from the expiration of the primary term and as long after that time as oil or gas is produced in paying quantities.

(c) As long as drilling operations are being conducted, the lessee may submit an application and payment during any 30-day extended period for an additional extension of 30 days. On receiving the application and payment, the commissioner shall again extend the lease in writing so that it will remain effective for an additional 30-day period and as long after that time as oil or gas is produced in paying quantities.

(d) No lease may be extended under this section for more than 390 days after the expiration of the primary term unless production is obtained in paying quantities.

§ 52.032. Regulation of Development and Operations

(b) The commissioner shall adopt and enforce rules that may be necessary for the purposes stated in Subsection (a) of this section.

(c) Any rules and changes of rules adopted under this section shall be submitted to the attorney general for his written approval before the rules or their changes become effective.

§ 52.033. Access to Land

(a) If it is necessary for the lessee to enter the enclosed land of another person for the purpose of ingress and egress to and from the area leased from the state and if the lessee and the owner cannot agree on the place or the conditions of entry and exit, the lessee or his agent may petition the commissioners court of the county in which all or part of the enclosure is located to open the places of ingress and egress that may be necessary.

(b) On filing the petition, the commissioners court shall delineate the roads necessary for the stated purpose in the manner provided for delineating third-class public roads.

§ 52.034. Offset Wells

(a) If oil or gas is produced in commercial quantities from a well located on a privately owned area and the well is located within 1,000 feet of an area leased under this subchapter, the lessee of the state area shall begin in good faith and prosecute diligently the drilling of an offset well or wells on the area leased from the state within 60 days after the initial production on the privately owned area.

(b) An offset well shall be drilled to a depth and the means shall be employed which may be necessary to prevent undue drainage of oil or gas from beneath the state area.

(c) Within 30 days after an offset well has been completed or abandoned, a log of each well shall be filed in the land office.

(1) to lease riverbeds and channels for oil and gas development;

(2) to drill riverbeds and channels on consideration involving compensation with oil and gas or money so that the state will receive a portion of the oil and gas as it is produced or advanced royalties paid in money; and

(3) to purchase oil and gas in place or recoverable without requiring mineral development.

(b) The board shall advertise the proposals as provided in Section 52.107 of this code.

§ 52.077. Bids

(a) The board may receive bids on all proposals listed in Section 52.076 of this code.

(b) The board may accept any bid it considers to be in the best interest of the state, or it may reject any and all bids.

§ 52.078. Special Fee
Each bidder on a lease under this subchapter shall remit by separate check a special sale fee in the amount and in the manner provided in Section 34.061 of this code.

§ 52.079. Contract to Drill Wells
(a) If the board considers it advisable to reject all bids, it may give additional notice for bids or it may enter into a contract for drilling of the wells.

(b) A well that is drilled by order of the board shall be done under a contract let on competitive bids to the lowest and best bidder for a completed well.

(c) A contractor drilling under a contract with the board shall carry workmen's compensation insurance for all employees engaged in the drilling operation.

§ 52.080. Forms for Lease and Contract
Leases and contracts for the development of riverbeds and channels shall be executed on forms approved by the attorney general and the board.

§ 52.081. Procedure for Orders and Contracts
Orders and contracts made or entered into by the board shall be authorized at a meeting of the board and shall be signed by two members of the board. The orders and contracts shall be approved as to their legality by the attorney general.

§ 52.082. Term of Lease
A lease granted under this subchapter shall be for a primary term of five years and for as long after that time as oil or gas is produced from the leased area.

§ 52.083. Conditions of Lease
Oil and gas shall only be leased together and separately from other minerals.

§ 52.084. Special Lease Provisions
Each lease shall include the provisions required by Sections 52.023 and 52.024 of this code.

§ 52.085. Prevention of Pollution
(a) Each lease and contract shall require the lessee or contracting party or his successors or assigns to use the highest degree of care and all proper safeguards to prevent pollution of streams.

(b) If the lessee or contracting party fails to meet the requirements in Subsection (a) of this section, the state is entitled to take charge of the property immediately and to cancel the lease.

§ 52.086. Development of Riverbeds and Channels More Than Two Miles From a Well
(a) The board may not lease or contract for the development or drilling of any riverbed or channel located at the time the lease or contract is to be executed more than two miles from a well producing or capable of producing oil or gas in paying quantities unless the owner of the leasehold or mineral interest in the oil or gas estate in land located adjacent to or within two miles of the riverbed or channel desires to drill a test well in, under, or within two miles of the riverbed or channel.

(b) The owner of the interest desiring to drill the test well shall apply to the board for an oil and gas lease on the available portions of the riverbed or channel he desires to lease, indicating the site in or within two miles of the riverbed or channel where he desires to drill the well.

(c) Within 60 days after the date the application is received, the board shall lease the riverbed or channel to the highest bidder for oil and gas development.

(d) The leased area shall be limited to the portion of the riverbed or channel which is within two miles of a point therein at the end of a line drawn from the designated well site perpendicular to the general course of the riverbed or channel.

(e) The lease shall expire at the end of two years from the date of its delivery to the highest bidder unless oil or gas is produced in paying quantities from the portion of the riverbed or channel covered by the lease or from adjacent or nearby land with which the leased land or a portion of it has been lawfully pooled or unitized so that royalties payable under the lease are accruing to the state on that date.

§ 52.087. Determination of Lease Price and Delay Rentals
The board shall determine the price at which riverbeds and channels shall be leased and the amount of delay rentals that shall be charged.
§ 52.088. Royalty and Delay Rentals
(a) In addition to the cash amount bid for a lease, the board shall lease the area for not less than one-eighth of the gross production of oil produced and saved or its value and not less than one-eighth of the gross production of gas produced and sold off the area or its value plus an amount determined by the board until production is secured.
(b) If production is secured in commercial quantities and the payment of royalty begins and continues to be paid, the lessee is exempt from further delay rental payments on the acreage.
(c) If production ceases and royalty is not paid, the lessee shall pay at the end of the lease year in which the royalty ceased to be paid and annually after that time in advance, in an amount determined by the board as long as the lessee desires to maintain the rights acquired under the lease, but not for more than five years from the date of the lease.

(a) Money collected by the board under the provisions of this subchapter shall be deposited in the State Treasury and shall be credited to the mineral development fund.
(b) The board may make disbursements from the mineral development fund to carry out the provisions of this subchapter and the necessary amounts for disbursement are appropriated from the fund.
(c) Any portion of the fund not needed for the purposes stated in Subsection (b) of this section shall be paid from time to time to the General Revenue Fund, but any portion of the mineral development fund that belongs to the public school fund shall be paid to that fund.

[Acts 1977, 65th Leg., p. 2453, ch. 871, art. 1, § 1, eff. Sept. 1, 1977.]

§ 52.092. Power of Eminent Domain
The board or any person including a leaseholder or assignee, who has a contract with the board for the development of oil and gas resources in riverbeds and channels may exercise the power of eminent domain to condemn land as provided in the general laws of this state for the purposes stated in Section 52.093 of this code.
[Acts 1977, 65th Leg., p. 2453, ch. 871, art. 1, § 1, eff. Sept. 1, 1977.]

The board and any person, including a leaseholder or assignee, who has a contract with the board for the development of oil and gas resources in riverbeds and channels may exercise the power of eminent domain for the following purposes:
(1) to secure additional adjoining land that may be necessary to erect power machinery and to construct storage tanks and slush pits for the operation of the river or channel development and to prevent or lessen the dangers of pollution involved in the drilling of any well in the riverbed or channel; and
(2) to secure a right-of-way to and from any well that is drilled in the riverbed or channel so that the board or any of the leaseholders or contracting parties may go to and from the well and may transport any materials necessary to develop the riverbed or channel and to transport oil and gas away from the well.
[Acts 1977, 65th Leg., p. 2453, ch. 871, art. 1, § 1, eff. Sept. 1, 1977.]

§ 52.094. Drilling Offset Well on Condemned Land
(a) If the landowner or other interested party and the board or the lessee of the riverbed or channel cannot agree on the amount of damages, if any, and it is necessary to commence condemnation proceedings and if it is necessary for the landowner or other interested party to drill an offset well within the area to be condemned, the mineral rights of the condemned party are superior to the surface rights of the condemning party.
(b) If there is any conflict surrounding the drilling of an offset well under a permit from the Railroad Commission of Texas, the condemning party is required to move any interference or hindrance or to go around any offset well, and if he fails or refuses to immediately move the interference or hindrance on demand, the owner of the mineral rights is entitled to do so immediately without liability.
[Acts 1977, 65th Leg., p. 2453, ch. 871, art. 1, § 1, eff. Sept. 1, 1977.]

[Acts 1977, 65th Leg., p. 2454, ch. 871, art. 1, § 1, eff. Sept. 1, 1977.]
§ 52.096. Exclusion From Damages in Condemnation

In determining the damages resulting from condemnation, the commissioners or any other tribunal shall not consider the value of oil or gas located beneath the rights-of-way of the condemned property.

§ 52.097. Injunction

(a) No injunction may be granted against the board, its agents, or persons with whom it has contracted, to restrain the board from enforcing its orders or contracts or from carrying out any development that has begun or was contemplated by the board until notice is given to the board and its agents or the contracting parties and a hearing is held.

(b) Before an injunction or restraining order is issued or becomes effective, the court shall require the complaining party to execute a bond payable to the governor with good and sufficient sureties authorized to do business in this state in an amount determined by the court to be sufficient to protect the state from loss from drainage of the riverbed or navigable streams in the state and that have been patented or awarded as provided in this chapter.

§ 52.098. Appeal

(a) Either party to the suit for an injunction or restraining order is entitled to appeal from the final judgment.

(b) The appeal shall be returnable to the appellate court at once and shall have precedence in that court over all pending cases, proceedings, and causes of a different character.

(c) The court of appeals shall decide the questions involved in the appeal at as early a date as possible.

(d) If any question is certified to the supreme court or if writ of error is requested or granted, the supreme court shall set the cause for hearing immediately, and the cause shall have precedence over all other cases, proceedings, and causes of a different character. The supreme court shall decide the cause at as early a date as possible.

§ 52.099. Venue

The venue for any suit arising from this subchapter either by or against the board and regardless of the kind or nature shall be in Travis County.

SUBCHAPTER D. ROYALTIES

§ 52.131. Payment of Royalty Generally

(a) Royalties due under a lease of state land or minerals that are required to be paid to the land office shall be due and shall be paid as provided in this section.

(b) Royalty on oil is due and payable on or before the 5th day of the second month succeeding the month of production and royalty on gas is due and payable on or before the 15th day of the second month succeeding the month of production.

(c) Royalty payments shall be accompanied by:

1. an affidavit of the owner, manager, or other authorized agent, completed in the form and manner required by the land office and showing the gross amount and disposition of all oil and gas produced and the market value of the oil and gas;

2. a copy of all documents, records, or reports confirming the gross production, disposition, and market value, including gas meter readings, pipeline receipts, gas line receipts, and other checks or memoranda of amount produced and put into pipelines, tanks, pools, and gas lines or gas storage;

3. a check stub, schedule, summary, or other remittance advice showing by the assigned land office lease number the amount of royalty being paid on each lease; and

4. other reports or records that the land office may require to verify the gross production, disposition, and market value.

(d) The lessee has the responsibility for paying royalties or having royalties paid by the date provided for payment in this section.

(e) Any royalty not paid or affidavits and supporting documents not filed when due shall become delinquent and a delinquency penalty of one percent...
for each 30-day period of delinquency or fractional part of that period shall be added to the amount owed, however, no penalty may be less than $5. Payment of this penalty in no way operates to prohibit the state's right of forfeiture as provided by law and does not postpone the date on which royalties were originally due. The penalty does not apply in cases of title dispute as to the state's portion of the royalty or to that portion of the royalty in dispute as to fair market value.

[Acts 1977, 65th Leg., p. 2455, ch. 871, art. 1, § 1, eff. Sept. 1, 1977]

[Acts 1977, 65th Leg., p. 2455, ch. 871, art. 1, § 1, eff. Sept. 1, 1977]

§ 52.133. Payment of Royalty in Kind

(a) In this section, "royalty" means royalty payable in a sum of money equal to the market value for the general area where produced and when run or royalty that may be collected in kind.

(b) Each oil or gas lease covering land leased by the board, by a board for lease other than the Board for Lease of University Lands, or by the surface owner of land under which the state owns the minerals, commonly referred to as Relinquishment Act land, which shall be subject to approval by the commissioner before it is effective, shall include a provision granting the board authorized to lease the land or the owner of the soil of Relinquishment Act land and the commissioner authority to take their royalty in kind, and the commissioner and the boards for lease may include any other reasonable provisions that are not inconsistent with this section.

(c) The option to take the royalty in kind may be exercised at any time or from time to time on not less than 60 days' notice to the holder of the lease.

(d) The board, the commissioner, each board for lease other than the Board for Lease of University Lands, or the owner of the soil under Subchapter F of this chapter may negotiate and execute sales contracts or any other instruments or agreements necessary to dispose of their portion of the royalty taken in kind.

(e) This section does not apply to or have any effect on the Board for Lease of University Lands or any lease executed on university land.

(f) This section shall not be construed to surrender or in any way affect the right of the state or the owner of the soil under existing or future leases to receive royalty from its lessee on the basis of the fair market value produced from state public land or land under the provisions of Subchapter F of this chapter.

[Acts 1977, 65th Leg., p. 2455, ch. 871, art. 1, § 1, eff. Sept. 1, 1977]

§ 52.134. Filing Contracts and Agreements

Copies of contracts for the sale or processing of gas and subsequent agreements and amendments to those contracts shall be filed in the land office within 30 days after the contracts, agreements, or amendments are made. These contracts and agreements received by the land office shall be held in confidence by the land office unless otherwise authorized by the lessee.

[Acts 1977, 65th Leg., p. 2456, ch. 871, art. 1, § 1, eff. Sept. 1, 1977]

§ 52.135. Inspections and Examinations

The books and accounts, receipts, and discharges of all lines, tanks, pools, and meters and all contracts and other records relating to the production, transportation, sale, and marketing of the oil and gas are subject at any time to inspection and examination by the commissioner and the attorney general and governor or their representatives.

[Acts 1977, 65th Leg., p. 2456, ch. 871, art. 1, § 1, eff. Sept. 1, 1977]

§ 52.136. Lien

The state has a first lien on all oil and gas produced on any lease area to secure payment of unpaid royalty and other amounts due.

[Acts 1977, 65th Leg., p. 2456, ch. 871, art. 1, § 1, eff. Sept. 1, 1977]

SUBCHAPTER E. UNITIZATION OF LEASED AREAS

§ 52.151. Authorization to Operate Areas as Units

(a) The commissioner on behalf of the state or any fund that belongs to the state may execute agreements that provide for operating areas as a unit for the exploration, development, and production of oil or gas or both and to commit to the agreements the royalty interests in oil or gas or both reserved to the state or any fund of the state by law, in a patent, in a contract of sale, or under the terms of an oil and gas lease legally executed by an official, board, agent, agency, or authority of the state.

(b) The commissioner must find that the agreement is in the best interest of the state.

[Acts 1977, 65th Leg., p. 2456, ch. 871, art. 1, § 1, eff. Sept. 1, 1977]

§ 52.152. Approval of Unit Agreements

(a) An agreement that commits the royalty interest in land belonging to the permanent school fund or the asylum funds in riverbeds, inland lakes, and channels, or in an area within tidewater limits, in-
including islands, lakes, bays, inlets, marshes, reefs, and the bed of the sea must be approved by the board and executed by the owner of the soil if the agreement covers land leased for oil and gas under Subchapter F of this chapter.

(b) An agreement that commits the royalty interest in any land or an area not listed in Subsection (a) of this section must be approved by the board, official, agent, agency, or authority of the state which has the authority to lease or to approve the lease of the land for oil and gas.

§ 52.153. Agreement Provisions

(a) The agreement to operate areas as units may provide:

(1) that operations incident to drilling a well on any portion of a unit shall be considered for all purposes to be conduct of the operations on each separately owned tract in the unit by the several owners;

(2) that production allocated by the agreement to each tract included in the unit when produced shall be considered for all purposes to have been produced from the tract;

(3) that the agreement and lease, with respect to the interest of the state, shall be effective as long as oil or gas or both are produced from the unit in paying quantities and royalties are paid to the state; and

(4) that royalties reserved to the state or to any fund of the state on production from any tract or portion of a tract included in the unit shall be paid only on the portion of the production allocated to the tract by the agreement.

(b) The agreement may include any other provision which the board, official, agent, agency, or authority of the state which has the authority to lease or to approve the leasing of the land may consider necessary for the protection of the interests of the state.

SUBCHAPTER F. RELINQUISHMENT

§ 52.171. School and Asylum Lands

The state hereby constitutes the owner of the soil its agent for the purposes herein named, and in consideration therefor, relinquishes and vests in the owner of the soil an undivided fifteen-sixteenths of all oil and gas which has been undeveloped and the value of the same that may be upon and within the surveyed and unsurveyed public free school land and asylum lands and portions of such surveys sold with a mineral classification or mineral reservation, subject to the terms of this law. The remaining undivided portion of said oil and gas and its value is hereby reserved for the use of and benefit of the public school fund and the several asylum funds. [Acts 1977, 65th Leg., p. 2457, ch. 871, art. I, § 1, eff. Sept. 1, 1977.]

§ 52.172. Sale and Lease by Agent

The owner of said land is hereby authorized to sell or lease to any person, firm, or corporation the oil and gas that may be thereon or therein upon such terms and conditions as such owner may deem best, subject only to the provisions hereof, and he may have a second lien thereon to secure the payment of any sum due him. All leases and sales so made shall be assignable. No oil or gas rights shall be sold or leased hereunder for less than 10 cents per acre per year plus royalty, and the lessee or purchaser shall in every case pay the state 10 cents per acre per year of sales and rentals; and in case of production shall pay the state the undivided one-sixteenth of the value of the oil and gas reserved herein, and like amounts to the owner of the soil.

§ 52.173. Offset Wells

If oil and/or gas should be discovered in commercial quantities on lands not included in this law and within 1,000 feet of and draining land that is so included, or in any case where land so included in this law is being drained by production of oil or gas from land not so included, the owner, lessee, sublessee, receiver, or other agent in control of land included herein shall in good faith begin the drilling of a well or wells upon such land within 100 days after such well or wells on lands not so included commence to produce in commercial quantities, and shall prosecute such drilling with diligence to reasonably develop the land included hereunder and to protect such land against drainage by wells on other lands in the locality.

§ 52.174. Failure to Drill Offset

If such persons fail or refuse to begin the drilling of such well or wells within the time required or to prosecute such drilling as necessary for the purpose intended herein, any lease of such land executed under the provisions of this law shall be subject to forfeiture by the Commissioner of the General Land Office, and he shall forfeit same when he is sufficiently informed of the facts which authorize a forfeiture, and shall, on the wrapper containing the papers relating to such lease, write and sign officially words declaring such forfeiture, and the lease and all rights thereunder shall thereupon be forfeited together with all payments made thereunder. Notice of such action shall forthwith be mailed to the persons shown by the records of the General Land Office to be the owners of the surface and the

owners of the forfeited lease at their last known addresses as shown by the records of said office. Upon proper showing by the owner of the forfeited lease within 30 days after the declaration of forfeiture, the lease may, at the discretion of the commissioner and upon the terms of this subchapter and such other terms as he may prescribe, be reinstated. If such lease be not reinstated within such time, or if the commissioner finds that any unleased land included in this law is being drained, the commissioner shall notify the person at his last known address, as shown by records of the General Land Office to be the surface owner, that the oil and gas is subject to sale or lease by the owner of the soil in accordance with this law, and that drilling is required. If such owner shall fail or refuse to obtain the commencement of such a well within 100 days after the date of such notice, the relinquishment herein granted and the rights acquired thereunder shall be subject to forfeiture by the commissioner by endorsing on the file wrapper containing the papers relating to the sale of the land, words indicating such forfeiture, and such rights shall thereupon be forfeited, and notice of such forfeiture shall be forwarded to the county clerk of the county wherein the land is situated. The rights of any owner of the soil which may have ipso facto terminated under prior laws shall be reinstated and are hereby reinstated, together with all rights acquired thereunder except where rights of third parties may have intervened. All rights herein reinstated shall be subject to the terms and provisions of this subchapter.

§ 52.175. Lease of Oil and Gas After Forfeiture

When the relinquishment herein granted has been so forfeited by the commissioner, the land shall be subject to lease for oil and gas under the procedure provided by law for the leasing of unsold surveyed public school lands. No lease shall be executed which provides for a royalty of less than one-eighth, payable to the state for the benefit of the permanent free school fund, and the lessee shall in every case pay to the surface owner amounts equal to one-half of all royalty above the reserved one-eighth. Upon the termination or expiration of a lease so executed by the Commissioner of the General Land Office, or if no acceptable offer is received for such lease after due advertisement, the rights of the surface owner to act under this law shall be ipso facto reinstated.

§ 52.176. Forfeiture of Rights

If any person, firm, or corporation operating under this law shall fail or refuse to make the payment of any sum within 30 days after it becomes due, or if such one or an authorized agent should knowingly make any false return or false report concerning production or drilling, or if such one should fail to file reports in the manner required by law or fail to comply with General Land Office rules and regulations or refuse the proper authority access to the records pertaining to the operations, or if such one or an authorized agent should knowingly fail or refuse to give correct information to the proper authority, or knowingly fail or refuse to furnish the land office a correct log of any well, or if any lease is assigned and the assignment is not filed in the General Land Office as required by law, the rights acquired under the permit or lease shall be subject to forfeiture by the commissioner, and he shall forfeit same when sufficiently informed of the facts which authorize a forfeiture, and the oil and gas shall be subject to sale in the manner provided for the sale of other forfeited rights hereunder, except that the owner of the soil shall not thereby forfeit his interest in the oil and gas. Such forfeiture may be set aside and all rights theretofore existing shall be reinstated at any time before the rights of another intervene, upon satisfactory evidence of future compliance with the provisions of this subchapter.

§ 52.177. Rights of Subsequent Purchaser

If one acquires a valid right by permit or lease to the oil and gas in any unsold public free school or asylum land under any other law, a subsequent purchaser of such land shall not acquire any rights to any of the oil and gas that may be therein, but when the rights under such permit or lease terminate in the manner provided in the law under which they were obtained, then the owner of the soil shall become the owner of that portion of the oil and gas herein relinquished, and shall be thereafter subject to the provisions of this law. A forfeiture of the purchase of any survey or tract for any cause shall operate as a forfeiture of the minerals therein to the state. A relinquishment to the state of a lease producing oil or gas in paying quantities shall not operate to relinquish or convey to the owner of the soil any interest whatever in the oil and gas that may be in the land included in said lease.

§ 52.178. Operation Under Permit

The owner of a permit or combination of permits shall have 18 months from the date or average date thereof in which to begin drilling a well for oil and gas on some portion of the land included therein. The drilling on one permit shall be sufficient protection against forfeiture of all the permits included in a combination. Owners of permits or combination of permits included herein shall have three years after the date or average date thereof in which to complete the development of oil and gas thereon, and if
oil and gas should not be found in paying quantities and a lease applied for within said time all rights in such permit or combination of permits shall terminate, and the oil and gas in such land shall become subject to the provisions of this law relating to the relinquishment of oil and gas to the owner of the soil.

§ 52.179. Lease Under Permit

If oil or gas should be produced in paying quantities upon any land included in this law, the owner of the permit shall report the development to the commissioner within 30 days thereafter and apply for a lease upon such whole surveys or tracts in each permit as the owner or owners of a combination of permits may desire to be leased, and accompany the application with a log of the wells, and the correctness of the log shall be sworn to by the owner, manager, or driller, and thereupon a lease shall be issued without the payment of any additional sum of money and for a period not to exceed 10 years, subject to renewal or renewals.

§ 52.180. Payments Under Permit

The owner of a permit or combination of permits who desires to avail himself of the terms of this law, shall pay the state 10 cents per acre, annually in advance, for the second and third years, and shall likewise pay the owner of the soil 10 cents per acre for the first year of such permit, before availing himself of the privileges hereof, and a like sum thereafter annually in advance. A failure to make either of said payments shall subject the permit or permits to forfeiture by the commissioner, and when sufficiently informed of the facts which subject the permits to forfeiture, said commissioner shall forfeit the same by an endorsement of forfeiture upon the wrapper containing the papers relating to the permits and sign it officially. The payment of 10 cents per acre to the owner of the soil may be made to him or to the county clerk of the county in which the land is situated, and said clerk shall deposit such payment in some bank at the county seat to the credit of the record owner of such land. If the owner of the soil refuses to accept such payment, said clerk shall withdraw such deposit and return it to the owner of the permit. The payment, or the tender of payment, shall be evidenced by the receipt of the owner or part owner or county clerk filed among the papers in the land office relating to such permits.

§ 52.181. Relinquishment Under Permit

The owner of a permit or combination of permits may relinquish to the state a permit or combination of permits or any whole survey or whole tract included in a permit at any time before obtaining a lease therefor by having such relinquishment recorded in the counties in which the land or part thereof is situated, and by filing it in the land office within 60 days after its execution, with $1 as a filing fee.

§ 52.182. Damages to Soil

The payment of the 10 cents per acre and the obligation to pay the owner of the soil one-sixteenth of the production and the payment of same when produced and the acceptance of same by the owner, shall be in lieu of all damages to the soil.

§ 52.183. Effective Date of Lease

No mineral lease executed by the owner of the land or minerals under this subchapter is effective until a certified copy of the lease is filed in the land office.

§ 52.184. Statement of Consideration

No lease executed under this subchapter after September 17, 1939, is binding on the state unless it recites the actual and true consideration paid or promised.

§ 52.185. University Land

The provisions of this subchapter relating to a combination of permits and extension of time for beginning development and time for development applies to permits on university land.

§ 52.186. Lease of Oil and Gas When Owner of the Soil Unavailable

When the commissioner finds, upon the written request of any party interested in bargaining for an oil and gas lease, that the owner of the soil or of any undivided interest therein of any land subject to the terms of this chapter is unavailable to act as the state's agent for oil and gas leasing purposes, or that his name, identity, or place of residence is unknown, such land or undivided interest therein shall be subject to lease for oil and gas under the procedure provided by Subchapter B of this Chapter 52 for the leasing of unsold surveyed public school lands.

An owner of the soil or of an undivided interest therein may be found to be unavailable by the commissioner if the written request for such finding is supported by a sworn affidavit detailing attempts to locate and contact such surface owner, which attempts satisfy the commissioner that reasonable

diligence has been used in attempting to locate and contact such surface owner and by written certification from the tax assessor-collector of each taxing entity in which the land is located stating that ad valorem taxes owed to that entity have not been paid by the owner of the soil or an undivided interest therein or his representative for any year within the five years preceding the year in which the written request is submitted to the commissioner under this section. Notice of such finding shall forthwith be mailed to the person shown by the records of the tax assessor-collector in the county where the land is located to be the surface owner at his last known address as shown by the records of said office.

If the surface owner appears within 30 days after the date of such finding or prior to the execution of an oil and gas lease on his land pursuant to this section, his rights to act under this subchapter may, at the discretion of the commissioner and upon such terms as the commissioner may prescribe, be reinstated. If the owner of the soil or of any undivided interest therein appears within two years after the execution of such oil and gas lease on his land pursuant to this section, he shall be entitled to one-half of all royalties theretofore paid or thereafter to be paid under such oil and gas lease, reduced in the proportion which his interest bears to the whole and undivided surface estate, upon showing to the satisfaction of the commissioner that a reasonably diligent search would have resulted in his being located.

Upon the termination or expiration of a lease for oil and gas executed pursuant to this section, or if no acceptable offer is received for such lease after due advertisement, the rights of the owner of the soil to act under this subchapter shall be ipso facto reinstated.

(b) On receiving $1 as a filing fee, the county clerk shall file and record the application and shall note the filing and recording together with the time of filing on his record of surveys opposite the entry of the proper survey.

(c) The application shall be filed with the land office within 30 days after it is filed with the county clerk.

§ 52.223. Limitations on Surveyed Areas for Prospect and Development

(a) If an applicant under Section 52.222 of this code obtains four sections or their equivalent that are eligible to be included in one permit, he shall not obtain any more land within two miles of the permitted land, but if the applicant obtains less than four sections that are eligible to be included in one permit, he may obtain any additional area within two miles of the other area which will equal the four sections.

(b) No applicant may obtain more than 1,000 acres of land located within one mile of a well that is producing oil.

§ 52.224. Application for Prospect and Development of Unsurveyed Areas

(a) A person who desires to obtain the right to prospect for and develop oil and gas in an unsurveyed area shall file with the county surveyor of the county in which the area or part of the area is located a written application for each area for which application is made, designating the area sufficiently to identify it.

(b) If examination of the application and the field notes are found to be correct and the area for which application is made is covered by the provisions of this subchapter, the commissioner shall issue to the applicant or his assignee a permit conferring on him an exclusive right to prospect for and develop oil and gas within the designated area for a period of not more than two years.

§ 52.226. Annual Permit Fee

After production of oil and gas is obtained in paying quantities and subject to the provisions of this subchapter, the permittee is entitled to a lease that shall run as long as the area covered by the lease produces oil or gas in paying quantities.

§ 52.232. Removal of Oil and Gas

(a) Except as provided in Subsection (b) of this section, no permittee may take, carry away, or sell any oil or gas before a lease is obtained.

(b) Before a lease is obtained, the quantity of oil or gas necessary for continued development of the area may be used without accounting for it.

SUBCHAPTER B. ACCESS TO PUBLIC BEACHES

§ 61.011. Public Policy

It is declared and affirmed to be the public policy of this state that the public, individually and collectively, shall have the free and unrestricted right of ingress and egress to and from the state-owned beaches bordering on the seaward shore of the Gulf of Mexico, or if the public has acquired a right of use or easement to or over an area by prescription, dedication, or has retained a right by virtue of continuous right in the public since time immemorial, as recognized in law and custom.

[Aets 1977, 65th Leg., p. 2477, ch. 871, art. I, § 1, eff. Sept. 1, 1977.]

§ 61.012. Definition

In this subchapter, “beach” means state-owned beaches to which the public has the right of ingress and egress bordering on the seaward shore of the Gulf of Mexico or any larger area extending from the line of mean low tide to the line of vegetation bordering on the Gulf of Mexico if the public has acquired a right of use or easement to or over the area by prescription, dedication, or has retained a right by virtue of continuous right in the public.

[Aets 1977, 65th Leg., p. 2477, ch. 871, art. I, § 1, eff. Sept. 1, 1977.]

§ 61.013. Prohibition of Obstructions

(a) It is an offense against the public policy of this state for any person to create, erect, or construct any obstruction, barrier, or restraint that will interfere with the free and unrestricted right of the public, individually and collectively:

(1) to enter or to leave any public beach; or
(2) to use lawfully and legally any public beach or any larger area abutting on or contiguous to a public beach if the public has acquired a right of use or easement to or over the area by prescription, dedication, or has retained a right by virtue of continuous right in the public.

(b) For purposes of this section, “public beach” shall mean any beach bordering on the Gulf of Mexico which extends inland from the line of mean low tide to the natural line of vegetation bordering on the seaward shore of the Gulf of Mexico, or such larger contiguous area to which the public has acquired a right of use or easement to or over by prescription, dedication, or estoppel, or has retained a right by virtue of continuous right in the public since time immemorial as recognized by law or custom. This definition does not include a beach which is not accessible by a public road or public ferry.

(c) A person who creates, erects, or constructs an obstruction, barrier, or restraint in violation of Subsection (a) of this section is liable to the state for a civil penalty of not less than $50 nor more than $1,000.

§ 61.014. Denial of Access by Posting

(a) As used in this section, “public beach” means the area extending from the line of mean low tide of the Gulf of Mexico to the line of vegetation bordering on the Gulf of Mexico, or to a line 200 feet inland from the line of mean low tide, whichever is nearer the line of mean low tide, if the public has acquired a right of use or easement to or over the area by prescription, dedication, or has retained a right by virtue of continuous right in the public.

(b) Any person who displays or causes to be displayed on any public beach any sign, marker, or warning, or who shall make or have made any written or oral communication which states that the public beach is private property or who states in any other manner that the public does not have the right of access to the public beach in violation of the lawful access rights of the public guaranteed by this subchapter is liable to the state for a civil penalty of not less than $50 nor more than $1,000.

(c) Each day that the communication is made constitutes a separate offense.

(d) Any person who violates the provisions of this section shall be prosecuted in the county in which the public beach is located.

(e) This section does not apply to any island or peninsula that is not accessible by public road or common carrier ferry facility so long as the condition exists.

§ 61.015. Satisfaction of Ingress and Egress Requirement

The requirement of free and unrestricted right of ingress and egress over an area landward of the line of vegetation is considered fully satisfied by access roads or ways which are in existence now and available to the public or which by or with the approval of any governmental authority having jurisdiction may be provided in the future.

§ 61.016. Boundaries for Areas With No Marked Vegetation Line

(a) To determine the elevation reached by the highest waves of the Gulf of Mexico, in any area in which there is no clearly marked vegetation line (for instance, a line immediately behind well-defined dunes or mounds of sand and at a point where vegetation begins) recourse shall be to the nearest clearly marked line of vegetation on each side of the unmarked area.

(b) The “line of vegetation” for the unmarked area shall be the line of constant elevation connecting the two clearly marked lines of vegetation on each side.

(c) If the elevation of the two points on each side of the area are not the same, the extension defining the line reached by the highest waves of the Gulf shall be the average elevation as between the two points, but if there is no clearly marked line of vegetation, the extended line shall not extend inland further than 200 feet from the seaward line of mean low tide.

§ 61.017. Line of Vegetation Unaffected by Certain Conditions

(a) The “line of vegetation” is not affected by the occasional sprigs of salt grass on mounds and dunes or seaward from them and by artificial fill, the addition or removal of turf, or by other artificial changes in the natural vegetation of the area.

(b) If the changes listed in Subsection (a) of this section are made and the vegetation line is obliterated or is created artificially, the line of vegetation shall be determined in the same manner as in those areas covered by Section 61.016 of this code, but if there is a vegetation line consistently following a line more than 200 feet from the seaward line of mean low tide, the 200-foot line shall constitute the landward boundary of the area subject to public easement until a final court adjudication establishes the line in another place.

§ 61.018. Suit to Remove Obstructions

(a) The attorney general or any county attorney, district attorney, or criminal district attorney shall file a suit to remove any obstruction or barrier if it is removed by public authorities pursuant to an order of the court.

(b) Service of citation on the state shall be made by serving the citation on the attorney general.

§ 61.020. Prima Facie Evidence

In a suit brought or defended under this subchapter or whose determination is affected by this subchapter, a showing that the area in question is located in the area from mean low tide to the line of vegetation is prima facie evidence that:

(1) the title of the littoral owner does not include the right to prevent the public from using the area for ingress and egress to the sea; and

(2) there is imposed on the area, subject to proof of easement, a prescriptive right or easement in favor of the public for ingress and egress to the sea.

§ 61.021. Area Not Covered by Subchapter

None of the provisions of this subchapter apply to beaches on islands or peninsulas that are not accessible by a public road or ferry facility for as long as the condition exists.

§ 61.022. Exemption for Certain Structures

The provisions of this subchapter do not prevent any agency, department, institution, subdivision, or instrumentality of this state or of the federal government from erecting or maintaining any groin, seawall, barrier, pass, channel, jetty, or other structure as an aid to navigation, protection of the shore,

§ 61.024. Effect of Subchapter on Definition of Public Beach

None of the provisions of this subchapter shall reduce, limit, construct, or vitiate the definition of public beaches which has been defined from time immemorial in law and custom.

The commissioners court of any county located or bordering on the Gulf of Mexico may spend from any available fund the amount it considers necessary to carry out the responsibilities provided in this subchapter.

§ 61.079. Notice of Ineligibility

After reasonable notice and opportunity for a hearing to a city or county that is receiving funds under the provisions of this subchapter, if the department finds that the city or county no longer complies with the requirements of this subchapter, it shall notify the city or county that further payments will not be made until the department is satisfied that there is no longer any failure to comply.

(b) If these regulatory ordinances are adopted by a city, town, or village and the ordinance conflicts with the general law of the state or with an order of the commissioners court adopted under this subchapter, the ordinance shall control over the state law and the order, and in cases of violation, prosecution may be maintained only under the ordinance.

§ 61.130. Rights of the Public

SUBCHAPTER E. LICENSES FOR BUSINESS ESTABLISHMENTS

§ 61.161. Public Policy
It is the public policy of this state that the state-owned beaches bordering on the seaward shore of the Gulf of Mexico, and any larger area extending from the line of mean low tide to the line of vegetation bordering on the Gulf of Mexico, if the public...
§ 61.161  NATURAL RESOURCES CODE

has acquired a right of use or easement to or over the area by the prescription or dedication or has retained a right by virtue of continuous right in the public, shall be used primarily for recreational purposes, and any use which substantially interferes with the enjoyment of the beach area by the public shall constitute an offense against the public policy of the state. Nothing in this subchapter prevents any agency, department, political subdivision, or municipal corporation of this state from exercising its lawful authority under any law of this state to regulate safety conditions on any beach area subject to public use.

§ 61.162. Findings

(a) The legislature finds that the operation and maintenance of business establishments at fixed or permanent locations on the public beaches of this state bordering on the seaward shore of the Gulf of Mexico constitute a potential public health hazard and a substantial interference with the free and unrestricted rights of ingress and egress of the public, both individually and collectively, to and from the state-owned beaches bordering on the seaward shore of the Gulf of Mexico or any larger area extending from the line of mean low tide to the line of vegetation bordering on the Gulf of Mexico if the public has acquired a right of use or easement to or over the area by prescription, dedication, or has retained a right by virtue of continuous right in the public.

(b) The legislature finds that a reasonable number of mobile business establishments which traverse the public beach while doing business are beneficial to the public interest and do not interfere with the free and unrestricted rights of ingress and egress of the public as provided in this subchapter.

§ 61.163. Definition

In this subchapter, “business establishment” means any structure or vehicle where any commodity including memberships in any private club or other similar organization is offered to the public for sale or lease but does not include any structure or vehicle where only services are offered to the public for sale.

§ 61.164. Application

A person who desires to operate a mobile business establishment on a public beach located outside the municipal limits of an incorporated city shall submit a written application to the department.

§ 61.165. Contents of Application

The application shall include:

(1) the name and street address of the applicant;

(2) the commodity to be sold or leased; and

(3) the limits of the territory within which the mobile business establishment will operate.

§ 61.166. Filing Fee

(a) The application shall be accompanied by a filing fee in an amount determined by the department, not to exceed $25.

(b) The filing fee shall be deposited in the state treasury in the Land and Water Recreation and Safety Fund 63, and the department may pay from this fund the expenses of carrying out the provisions of this subchapter.

§ 61.167. Separate Applications

Any applicant who plans to operate more than one mobile business establishment must file a separate application accompanied by a separate filing fee for each mobile business establishment that he seeks to have licensed.

§ 61.168. Granting License

(a) On finding that the issuance of a license is consistent with recreational needs and the public welfare, and that the mobile business establishment would not create a traffic or safety hazard, and on compliance with this subchapter by the applicant, the department shall grant the license.

(b) The license shall be valid for one year from the day it is issued.

(c) If the license is not granted, the department shall return the filing fee to the applicant.

§ 61.169. Applications Not to be Granted

The department shall not grant an application:

(1) for a business establishment located at a fixed or permanent location on a public beach;

(2) for a business establishment that does not traverse the beach while doing business; or

(3) that does not otherwise meet the terms and provisions of this subchapter.

§ 61.170. License Prohibition Against Glass Containers

(a) Each license granted under this subchapter authorizing the sale of commodities on a public beach shall include a prohibition against the sale of any commodity in a glass container.

(b) Any person selling a commodity in a glass container on a public beach outside the boundaries of any incorporated city shall have his rights conferred by the license immediately terminated and revoked as provided in Section 61.172 of this code.

§ 61.171. Assignment

No license issued under this subchapter may be assigned.

§ 61.172. Termination and Revocation of License

(a) The failure or refusal of the licensee to comply with the terms and conditions of a license shall operate as an immediate termination and revocation of all rights conferred in or claimed under the license.

(b) The termination and revocation of the license is not effective until notice is delivered by mail to the address of the licensee listed on the application for the license.

§ 61.173. Maximum Territorial Limits

(a) If territorial limitations are applied uniformly to all applicants seeking to operate mobile business establishments in the territory, the department may establish maximum territorial limits over which mobile business establishments may operate.

(b) A license to sell or lease only surfboards and related equipment may not be limited as to the territory over which the mobile business establishment may operate.

§ 61.174. Additional Standards

In addition to other standards provided in this subchapter, it is the intention of the legislature that the department exercise the authority delegated to it under this subchapter according to the following considerations:

(1) that the number of mobile business establishments licensed by the department should not constitute a substantial interference with the free and unrestricted rights of ingress and egress of the public provided in this subchapter;

(2) that the number of licenses issued by the department under this subchapter are sufficient to ensure free and unrestricted competition in selling or leasing of commodities to the public; and

(3) that no person should be allowed to operate any mobile business establishment on any public beach in restraint of trade or competition by which the person controls all or substantially all the business establishments on the public beach licensed by the department.

§ 61.175. Rules, Procedures, and Conditions

The department may establish additional rules, procedures, and conditions necessary or appropriate to carry out the purposes of this subchapter.

§ 61.176. Areas Exempt From Subchapter

This subchapter does not apply to a public beach that is within the boundaries of a state park designated by the department or to a remote beach on any island or peninsula which is not accessible by public road or common carrier ferry facility as long as that condition exists.

§ 61.177. Penalty

A penalty to which a person, who for himself or on behalf of or under the direction of another person, operates any business establishment, whether mobile or at a fixed or permanent location, on any public beach outside the boundaries of any incorporated city without first obtaining a license to operate the business establishment from the department shall be fined not less than $10 nor more than $200.

[Sections 61.178 to 61.210 reserved for expansion]

SUBCHAPTER F. REMOVAL OF SAND, MARL, GRAVEL, AND SHELL

§ 61.211. Findings

The legislature finds that the unregulated excavation, taking, removal, and carrying away of sand, marl, gravel, and shell from islands and peninsulas bordering on the Gulf of Mexico and from the public beaches of the state constitute a substantial interference with public enjoyment of Texas beaches and a hazard to life and property.

§ 61.212. Exemptions From Subchapter

(a) The provisions of this subchapter do not apply:

(1) to excavating, taking, removing, or carrying away sand, marl, gravel, or shell made for the purpose of constructing improvements on real property if the improvements are constructed on the property on which the excavating, taking, removing, or carrying away occurs;
§ 61.212. Application

Before a person excavates, takes, removes, or carries away sand, marl, gravel, or shell from land located on an exposed island or peninsula bordering on the Gulf of Mexico or from land located within 1,500 feet of a mainland public beach that is located outside the boundaries of an incorporated city, town, or village, he must submit a written application to the commissioners court of the county in which the excavation, taking, removal, or carrying away is to take place.

§ 61.213. Contents of Application

The application shall include:
1. The name of the applicant;
2. The location and dimensions of the proposed excavation;
3. The property interest or contractual right that enables the applicant to excavate, take, remove, or carry away sand, marl, gravel, or shell; and
4. Certification by the county treasurer, or other official exercising similar authority if there is no county treasurer, that the applicant has deposited a filing fee of $50.

§ 61.214. Prerequisites to Issuance of Permit

No permit may be issued by the commissioners court under this subchapter to excavate, take, remove, or carry away sand, marl, gravel, or shell from land owned by the state, public beach, or privately owned land that is subject to this subchapter and that is located on a public beach, unless the applicant is the owner of the land on which the proposed excavating, taking, removing, or carrying away is to take place or unless the applicant is acting with the knowledge and consent of the owner.

§ 61.215. Notice of Applications Received

(a) The commissioners court shall give public notice of all applications received for permits to excavate, take, remove, or carry away sand, marl, gravel, or shell.

(b) The notice shall be published once in a newspaper of general circulation in the county.

(c) The notice shall include the name of the applicant and the location and dimensions of the proposed activity.

§ 61.216. Notice of Public Hearing

(a) The commissioners court shall hold a public hearing if the hearing is requested by any citizen within 10 days after notice is published under Section 61.216 of this code.

(b) The hearing may not be held less than 30 days from the date of the first publication of notice under Section 61.218 of this code.

§ 61.217. Issuance of Permit

(a) On a finding that the proposed excavating, taking, removing, or carrying away would not create hazardous conditions or imperil lives or property by exposing the island or peninsula or public beach to the ravages of storm water, the commissioners court may issue a permit to the applicant, and it shall be valid for six months from the date of its issuance.

(b) The decision to issue a permit shall be made with the advice and counsel of the county engineer in counties in which the commissioners court employs a county engineer.

(c) None of the provisions of this subchapter prohibit a commissioners court from issuing a permit to a person who holds a right-of-way easement granted by the commissioner for a pipeline to cross state land, provided the applicant complies with the provisions of this subchapter relating to the issuance of permits.

§ 61.219. Return of Filing Fee

If the commissioners court refuses to issue the permit, the applicant may recover his filing fee from the county treasurer.

§ 61.221. Assignment of Permits

No permit may be assigned without the approval of the commissioners court.

§ 61.222. Termination and Revocation of Permit

Failure or refusal of the permittee to comply with the terms and conditions of the permit operates as an immediate termination and revocation of all rights conferred by or claimed under the permit.

§ 61.223. Suits for Orders and Injunctions

The attorney general, any county attorney, district attorney, or criminal district attorney of the state shall file in a district court in the county in which the conduct take place, a suit seeking temporary or permanent court orders or injunctions to prohibit any excavating, taking, removing, or carrying away of any sand, marl, gravel, or shell from land located on an exposed island or peninsula bordering on the Gulf of Mexico or from land located within 1,500 feet of a public beach of this state if the land is located outside the boundaries of an incorporated city, town, or village in violation of the provisions of this subchapter.

§ 61.224. Penalty

A person who for himself or on behalf of or under the direction of another person excavates, takes, removes, or carries away sand, marl, gravel, or shell from land located on an exposed island or peninsula bordering on the Gulf of Mexico or from land located within 1,500 feet of a public beach of this state, if the land is located outside the boundaries of any incorporated city, town, or village, in violation of the provisions of this subchapter shall be fined not less than $10 nor more than $200. Each day a violation occurs constitutes a separate offense.

§ 61.225. Sand, Marl, Gravel; or Shell From Public Beaches Within Incorporated Cities, Towns, or Villages

No incorporated city, town, or village having within its boundaries a public beach may authorize a person to excavate, take, remove, or carry away any sand, marl, gravel, or shell from the public beach except for the construction of a publicly owned and operated recreational facility or for the construction of a shoreline protection structure.

§ 62.001  NATURAL RESOURCES CODE

§ 62.001. Applicability

(a) The provisions of this chapter apply to counties that are located or border on the Gulf of Mexico and have within their boundaries beaches that are suitable for park purposes. The suitability of a beach for park purposes is established conclusively when the commissioners court of the county makes a finding that the beach located within its boundaries, but not located within the boundaries of an incorporated city, is suitable for park purposes.

(b) As long as an island or peninsula is not accessible by a public road or common carrier ferry facility, the provisions of this chapter do not apply to that island or peninsula.

(c) The provisions of this chapter do not interfere with, preempt, or in any manner restrict or usurp the authority of the land office over state-owned beaches.

(d) The provisions of this chapter do not prohibit the creation of, or limit the lawful actions of, a beach park board of trustees of a home-rule city as provided in Chapter 33, Acts of the 57th Legislature, 3rd Called Session, 1962, as amended (Article 6081g–1, Vernon’s Texas Civil Statutes).

(e) The provisions of this chapter do not permit any interference with the right the public has under the provisions of Subchapter B of Chapter 61 of this code to the free and unrestricted use of, and to ingress and egress to, the area bordering on the Gulf of Mexico from mean low tide to the line of vegetation, as that term is defined in Subsection (2), Section 61.001 of this code. A county, county official, or anyone acting under the authority of this chapter may not exercise any authority, contract out a right to exercise authority, or otherwise delegate authority beyond that specifically granted to it in Sections 61.122 through 61.128 of this code over that area notwithstanding any of the specific provisions of this chapter. The rights established in Subchapters B and D of Chapter 61 of this code are paramount over the rights or interests that might otherwise be created by the provisions of this chapter, and nothing in this chapter encroaches on those rights or upon land, or interests in land, that may ultimately be held subject to those rights.

§ 62.002. Definition

In this chapter, “board” means the Beach Park Board of Trustees.

[Sections 62.003 to 62.010 reserved for expansion]

§ 62.092. Priority of Jurisdiction
(a) The board has no jurisdiction over a public beach located inside the boundaries of the county that has been designated a national park, national seashore, or state park.

Acts 1977, 65th Leg., p. 1263, ch. 487, § 1, purports to amend § 7 of Civil Statutes, art. 5415d-3 [now, this section in part], without reference to repeal of said article by Acts 1977, 65th Leg., p. 2089, ch. 871, art. I, § 2(a)(1). As so amended, the applicable part of § 7 reads: "* * * In addition to the powers and authority herein granted, the board shall have and exercise the following powers and authority:

Section 3.11(c) of the Code Construction Act (Civil Statutes, art. 5429b-2) provides, in part, that the repeal of a statute by a code does not affect an amendment of the statute by the same legislature which enacted the code and that the amendment is preserved and given effect as part of the code provision.

It is the intent of the legislature in enacting the provisions of this chapter that the rights established or recognized in Subchapters B and D of Chapter 61 of this code are paramount over any rights or interests that might otherwise be considered created by this chapter, and none of the provisions of this chapter may trench on those rights or encroach on land or interests in land that may ultimately be held subject to those rights.

SUBCHAPTER A. GENERAL PROVISIONS

§ 63.001. Findings of Fact

The legislature finds and declares:

(1) that the barrier islands and peninsulas of this state and the adjacent mainland areas contain a significant portion of the state's human, natural, and recreational resources;

(2) that these areas are wholly or in part protected from the action of the water of the Gulf of Mexico and storms on the Gulf by a system of natural or artificially constructed vegetated sand dunes that provide a protective barrier for adjacent land and inland water and land against the action of sand, wind, and water;

(3) that certain persons have from time to time modified or destroyed the effectiveness of the protective barriers in the process of developing the shoreline for various purposes;

(4) that the operation of recreational vehicles over these dunes has destroyed the natural vegetation on them;

(5) that these practices constitute serious threats to the safety of adjacent properties, to public highways, to the taxable basis of adjacent property and constitute a real danger to the health, safety, and welfare of persons living, visiting, or sojourning in the area;

(6) that it is necessary to protect these dunes as provided in this chapter because stabilized, vegetated dunes offer the best natural defense against storms;

(7) that vegetated stabilized dunes help preserve state-owned beaches and shores by protecting against erosion of the shoreline;

(8) that the area bounded on the north by the Mansfield Ship Channel and extending to the southern tip of South Padre Island is an area of irregular dunes, the vast majority of which are unvegetated, unstable, and migratory, and these dunes do not afford significant protection to persons and property inland from this area; and

(9) that the area bounded on the north by the inlet known as Aransas Pass and on the south by the Mansfield Ship Channel is an area of a mixture of irregular dunes as described in Subdivision (8) of this section and dunes that afford protection to persons and property inland.

After notice and hearing, the commissioners court of any county bordering on the Gulf of Mexico that has within its boundaries a barrier island or peninsula located north of the Mansfield Ship Channel may establish a dune protection line on the island or peninsula for the purpose of preserving sand dunes that offer a defense against storm water and erosion of the shoreline.

§ 63.012. Location of Dune Protection Line

The dune protection line shall not be located further landward than a line drawn parallel to and 1,000 feet landward of the line of mean high tide of the Gulf of Mexico.

§ 63.013. Notice

SUBCHAPTER C. PROVISIONS GENERALLY APPLICABLE TO THE CONSERVATION OF OIL AND GAS

§ 85.041. Acts Prohibited in Violation of Laws, Rules, and Orders

(a) The purchase, acquisition, or sale, or the transporting, refining, processing, or handling in any other way, of oil or gas, produced in whole or in part in violation of any oil or gas conservation statute of this state or of any rule or order of the commission under such a statute, is prohibited.

(b) The purchase, acquisition, or sale, or the transporting, refining, processing, or handling in any other way, of any product of oil or gas which is derived in whole or in part from oil or gas or any product of either, which was in whole or part produced, purchased, acquired, sold, transported, refined, processed, or handled in any other way, in violation of any oil or gas conservation statute of this state, or of any rule or order of the commission under such a statute, is prohibited.

§ 85.042. Rules and Orders

(a) The commission may promulgate and enforce rules and orders necessary to carry into effect the provisions of Section 85.041 of this code and to prevent that section's violation.
§ 85.043. Application of Certain Rules and Orders

If the commission requires a showing that refined products were manufactured from oil legally produced, the requirement shall be of uniform application throughout the state; provided that, if the rule or order is promulgated for the purpose of controlling a condition in any local area or preventing a violation in any local area, then on the complaint of a person that the same or similar conditions exist in some other local area and the promulgation and enforcement of the rule could be beneficially applied to that additional area, the commission shall determine whether or not those conditions do exist, and if it is shown that they do, the rule or order shall be enlarged to include the additional area.

§ 85.044. Exempt Purchases

The provisions of Sections 85.041 through 85.043 of this code do not apply to the purchase of products of oil if made by the ultimate consumer from a retail distributor of the products.

§ 85.045. Waste Illegal and Prohibited

The production, storage, or transportation of oil or gas in a manner, in an amount, or under conditions that constitute waste is unlawful and is prohibited.

§ 85.046. Waste

(a) The term "waste," among other things, specifically includes:

(1) operation of any oil well or wells with an inefficient gas-oil ratio and the commission may determine and prescribe by order the permitted gas-oil ratio for the operation of oil wells;

(2) drowning with water a stratum or part of a stratum that is capable of producing oil or gas or both in paying quantities;

(3) underground waste or loss, however caused and whether or not the cause of the underground waste or loss is defined in this section;

(4) permitting any natural gas well to burn wastefully;

(5) creation of unnecessary fire hazards;

(6) physical waste or loss incident to or resulting from drilling, equipping, locating, spacing, or operating a well or wells in a manner that reduces or tends to reduce the total ultimate recovery of oil or gas from any pool;

(7) waste or loss incident to or resulting from the unnecessary, inefficient, excessive, or improper use of the reservoir energy, including the gas energy or water drive, in any well or pool; however, it is not the intent of this section or the provisions of this chapter that were formerly a part of Chapter 26, Acts of the 42nd Legislature, 1st Called Session, 1931, as amended, to require repressuring of an oil pool or to require that the separately owned properties in any pool be unitized under one management, control, or ownership;

(8) surface waste or surface loss, including the temporary or permanent storage of oil or the placing of any product of oil in open pits or earthen storage, and other forms of surface waste or surface loss including unnecessary or excessive surface losses, or destruction without beneficial use, either of oil or gas;

(9) escape of gas into the open air in excess of the amount necessary in the efficient drilling or operation of the well from a well producing both oil and gas;

(10) production of oil in excess of transportation or market facilities or reasonable market demand, and the commission may determine when excess production exists or is imminent and ascertain the reasonable market demand; and

(11) surface or subsurface waste of hydrocarbons, including the physical or economic waste or loss of hydrocarbons in the creation, operation, maintenance, or abandonment of an underground hydrocarbon storage facility.

(b) Notwithstanding the provisions contained in this section or elsewhere in this code or in other statutes or laws, the commission may permit production by commingling oil or gas or oil and gas from multiple stratigraphic or lenticular accumulations of oil or gas or oil and gas where the commission, after notice and hearing, has found that producing oil or gas or oil and gas in a commingled state will prevent waste, promote conservation, or protect correlative rights.

§ 85.047. Exclusion From Definition of Waste

The use of gas produced from an oil well within the permitted gas-oil ratio for manufacture of natural gasoline shall not be included in the definition of waste.

§ 85.048. Authority to Limit Production

(a) Under the provisions of Subsection (10), Section 85.046 of this code, the commission shall not restrict the production of oil from any new field brought into production by exploration until the total production from that field is 10,000 barrels of oil a day in the aggregate.

(b) The commission's authority to restrict production from a new field under other provisions of Section 85.046 of this code is not limited by this section.

§ 85.049. Hearing

(a) On verified complaint of any person interested in the subject matter that waste of oil or gas is taking place in this state or is reasonably imminent, or on its own initiative, the commission, after proper notice, may hold a hearing to determine whether or not waste is taking place or is reasonably imminent and if any rule or order should be adopted or if any other action should be taken to correct, prevent, or lessen the waste.

(b) The hearing shall be held at the time and place determined by the commission.

§ 85.050. Procedure at Hearing

(a) At the hearing, interested parties shall be entitled to be heard and to introduce evidence and require the attendance of witnesses.

(b) The production of evidence may be required as provided by law.

§ 85.051. Adoption of Rule or Order

If the commission finds at the hearing that waste is taking place or is reasonably imminent, it shall adopt a rule or order in the manner provided by law as it considers reasonably required to correct, prevent, or lessen the waste.

§ 85.052. Compliance With Rule or Order

From and after the promulgation of a rule or order of the commission, it is the duty of each person affected by the rule or order to comply with it.

§ 85.053. Distribution, Proration, and Apportionment of Allowable Production

(a) If a rule or order of the commission limits or fixes in a pool or portion of a pool the production of oil, or the production of gas from wells producing gas only, the commission shall distribute, prorate, or otherwise apportion or allocate the allowable production among the various producers on a reasonable basis.

(b) When, as provided in Subsection (b) of Section 85.046 or Subsection (b) of Section 86.012 of this code, as amended, the commission has permitted production by commingling oil or gas or oil and gas from multiple stratigraphic or lenticular accumulations of oil or gas or oil and gas, the commission may distribute, prorate, apportion, or allocate the production of such commingled separate multiple stratigraphic or lenticular accumulations of oil or gas or oil and gas as if they were a single pool; provided, however, that:

(i) the commingling and distribution, proration, apportionment, or allocation of separate accumulations with commission established discovery dates after January 1, 1940, and prior to June 1, 1945, shall not serve to expand, add to, or extend the vertical or areal extent of any single pool;

(ii) such commingling shall not cause the allocation of allowable production from a well producing from any separate accumulation or accumulations to be less than that which would result from the commission applying the provisions of Section 86.095 of this code to such accumulation or accumulations;

(iii) the allocation of the allowable for such commingled production shall be based on not less than two factors which the Railroad Commission shall take into account as directed by Section 86.089 of this code; and

(iv) No gas well in any field falling within the classification under Subdivision (i) above where commingled separate accumulations of gas are being prorated under the authority granted by this Subsection (b) shall be assigned an allowable in excess of its production during the most recent production period reported to the commission and in the absence of any reported production the assigned allowable shall not exceed the open-flow potential of such well as reported to the commission; provided, however, that the commission may, if it finds special conditions require such, make a greater assignment.

§ 85.054. Allowable Production of Oil

(a) To prevent unreasonable discrimination in favor of one pool as against another, and on written complaint and proof of such discrimination, the commission may allocate or apportion the allowable production of oil on a fair and reasonable basis among the various pools in the state.

(b) In allocating or ascertaining the reasonable market demand for the entire state, the reasonable market demand of one pool shall not be discriminated against in favor of another pool.
§ 85.055. Allowable Production of Gas

(a) If full production from wells producing gas only from a common source of supply of gas in this state is in excess of the reasonable market demand, the commission shall inquire into the production and reasonable market demand for the gas and shall determine the allowable production from the common source of supply.

(b) The allowable production from a common source of supply is that portion of the reasonable market demand that can be produced without waste.

(c) The commission shall allocate, distribute, or apportion the allowable production from the common source of supply among the various producers on a reasonable basis and shall limit the production of each producer to the amount allocated or apportioned to the producer.

(d) When, as provided in Subsection (b) of Section 85.046 or Subsection (b) of Section 86.012 of this code, as amended, the commission has permitted production by commingling oil or gas or oil and gas from multiple stratigraphic or lenticular accumulations of oil or gas or oil and gas, the commission may allocate, distribute, or apportion the production of such commingled separate multiple stratigraphic or lenticular accumulations of oil or gas or oil and gas as if they were a single common source of supply; provided, however, that:

(i) the commingling and distribution, proration, apportionment, or allocation of separate accumulations with commission established discovery dates after January 1, 1940, and prior to June 1, 1945, shall not serve to expand, add to, or extend the vertical or areal extent of any single common source of supply;

(ii) such commingling shall not cause the allocation of allowable production from a well producing from any separate accumulation or accumulations to be less than that which would result from the commission applying the provisions of Section 86-095 to such accumulation or accumulations;

(iii) the allocation of the allowable for such commingled production shall be based on not less than two factors which the Railroad Commission shall take into account as directed by Section 86.089 of this code; and

no gas well in any field falling within the classification under (i) above where commingled separate accumulations of gas are being prorated under the authority granted by this Subsection (d) shall be assigned an allowable in excess of its production during the most recent production period reported to the commission and in the absence of any reported production the assigned allowable shall not exceed the open-flow potential of such well as reported to the commission; provided, however, that the commission may, if it finds special conditions require such, make a greater assignment.

§ 85.056. Public Interest

In the administration of the provisions of this chapter that were formerly a part of Chapter 2, Acts of the 42nd Legislature, 4th Called Session, 1932, as amended, the commission shall take into consideration and protect the rights and interests of the purchasing and consuming public in oil and all its products, such as gasoline and lubricating oil.

§ 85.057. Restriction on Unexplored Territory

The provisions of this chapter that were formerly a part of Chapter 2, Acts of the 42nd Legislature, 4th Called Session, 1932, as amended, shall not be construed to grant the commission any authority to restrict or in any manner limit the drilling of wells to explore for oil or gas or both in territory that is not known to produce either oil or gas.

§ 85.058. Commission Inquiry and Determination

From time to time, the commission shall inquire into the production, storage, transportation, refining, reclaiming, treating, marketing, and processing of oil and gas, and the reasonable market demand for oil and gas, so that it may determine whether or not waste exists or is imminent or whether the oil and gas conservation laws of this state or the rules and orders of the commission promulgated under those laws are being violated.

§ 85.059. Records

Each person who produces, stores, transports, refines, reclaims, treats, markets, or processes oil or gas or the products of either shall keep in this state accurate records of the amount of oil or gas which such person produced, stored, transported, refined, reclaimed, treated, marketed, or processed and of the source from which the person produced, obtained, or received the oil or gas or the products of either and the disposition made of them.

§ 85.060. Sworn Statements and Reports

The commission may require a person who produces, stores, transports, refines, reclaims, treats,
§ 85.060  NATURAL RESOURCES CODE
markets, or processes oil or gas or the products of either to make and file with the commission sworn statements or reports as to facts within his knowledge or possession pertaining to the reasonable market demand for oil and to the production, storage, transportation, refining, reclaiming, treating, marketing, or processing of oil or gas and the products of either. The report shall include those facts enumerated in Section 85.059 of this code.
[Acts 1977, 65th Leg., p. 2519, ch. 871, art. 1, § 1, eff. Sept. 1, 1977.]

§ 85.061. Inspection and Gauging
The commission may require any well, lease, refinery, plant, tank or storage, pipeline, or gathering line that belongs to or is under the control of a person who produces, stores, transports, refines, reclaims, treats, markets, or processes oil or gas or the products of either to be inspected or gauged by the agents of the commission whenever and as often as and for such periods as the commission considers necessary.
[Acts 1977, 65th Leg., p. 2519, ch. 871, art. 1, § 1, eff. Sept. 1, 1977.]

§ 85.062. Examination of Books and Records
The commission and its agents and the attorney general and his assistants and representatives may examine the books and records of a person who produces, stores, transports, refines, reclaims, treats, markets, or processes oil or gas or the products of either as often as considered necessary for the purpose of determining the facts concerning matters covered by Sections 85.058 through 85.061 of this code.
[Acts 1977, 65th Leg., p. 2520, ch. 871, art. 1, § 1, eff. Sept. 1, 1977.]

§ 85.063. Violations by Corporations
(a) The failure of a corporation chartered under the laws of this state to comply with the provisions of Sections 85.059 through 85.062 of this code and to keep the records required by Section 85.059 of this code in this state or the refusal to permit officers designated in Section 85.062 of this code to inspect and examine the records required by Section 85.059 of this code shall constitute grounds for forfeiture of the corporation's charter rights and privileges and dissolution of its corporate existence.
(b) The failure of a foreign corporation to comply with the provisions of Sections 85.059 through 85.062 of this code and to keep the records required by Section 85.059 of this code in this state or the refusal to permit officers designated in Section 85.062 of this code to inspect and examine the records required by Section 85.059 of this code shall be grounds for enjoining and forever prohibiting such corporation from doing business in this state.
[Acts 1977, 65th Leg., p. 2520, ch. 871, art. 1, § 1, eff. Sept. 1, 1977.]

§ 85.064. Action Against Corporation
(a) If he determines that the public interest requires it, the attorney general shall institute suit or other appropriate action in Travis County for forfeiture of charter rights of a domestic corporation or to enjoin a foreign corporation from doing business in this state when a corporation is deemed guilty of violating the provisions of Sections 85.059 through 85.062 of this code. The attorney general may take this action on his own motion and without leave or order of any judge or court.
(b) On judgment against a defendant for violating the provisions of Sections 85.059 through 85.062 of this code, the court may, if in its judgment the public interest requires it, forfeit the charter rights of a defendant domestic corporation or enjoin a defendant foreign corporation from doing business in this state.

SUBCHAPTER D. MARGINAL WELLS

§ 85.121. Definitions
(a) In this subchapter, "marginal well" means an oil well that is incapable of producing its maximum capacity of oil except by pumping, gas lift, or other means of artificial lift, and which well so equipped is capable, under normal unrestricted operating conditions, of producing such daily quantities of oil, as provided in this subchapter, that would be damaged, or result in a loss of production ultimately recoverable, or cause the premature abandonment of the well, if its maximum daily production were artificially curtailed.
(b) As used in Subsection (a), Section 85.121 and Section 85.122 of this code, "gas lift" means gas lift by the use of gas not in solution with oil produced.
[Acts 1977, 65th Leg., p. 2520, ch. 871, art. 1, § 1, eff. Sept. 1, 1977.]

§ 85.122. Wells Considered as Marginal Wells
Wells that are considered marginal wells include any oil well in this state that is incapable of producing its maximum daily capacity of oil except by pumping, gas lift, or other means of artificial lift and having:
(1) when producing from a depth of 2,000 feet or less, a maximum daily capacity for production of 10 barrels or less, averaged over the preceding 30 consecutive days;
(2) when producing from a horizon deeper than 2,000 feet and less in depth than 4,000 feet, a maximum daily capacity for production of 20 barrels or less, averaged over the preceding 30 consecutive days;
(3) when producing from a horizon deeper than 4,000 feet and less in depth than 6,000 feet, a
§ 85.123. Curtailment of Marginal Well Production as Waste

To artificially curtail the production of a marginal well below the marginal limit as set out in Sections 85.121 through 85.122 of this code before the marginal well’s ultimate plugging and abandonment is declared to be waste.

§ 85.124. Rules and Orders Restricting Marginal Wells

No rule or order of the commission or of any other constituted legal authority shall be adopted requiring the restriction of the production of a marginal well.

§ 85.125. Effect of Other Subchapters

SUBCHAPTER E. CERTIFICATE OF COMPLIANCE

§ 85.161. Well Owners and Operators Certificates

The owner or operator of an oil or gas well, before connecting with any oil or gas pipeline, shall secure from the commission a certificate showing compliance with the oil or gas conservation laws of the state and conservation rules and orders of the commission.

§ 85.162. Prohibited Connection

No operator of a pipeline or other carrier shall connect with any oil or gas well until the owner or operator of the well furnishes a certificate from the commission that the owner or operator has complied with the conservation laws of this state and the rules and orders of the commission.

§ 85.163. Temporary Connection

The provisions of this subchapter do not prevent a temporary connection with a well in order to take care of production and prevent waste until opportunity shall have been given the owner or operator of the well to secure the certificate.

§ 85.164. Cancellation of Certificate

The commission may cancel any certificate of compliance issued under the provisions of this subchapter if it appears that the owner or operator of a well covered by the provisions of the certificate, in the operation of the well or the production of oil or gas from the well, has violated or is violating the oil and gas conservation laws of this state or rules or orders of the commission adopted under those laws.

§ 85.165. Effect of Cancellation on Operator of Pipeline or Other Carrier

(a) On notice from the commission to the operator of a pipeline or other carrier connected to an oil or gas well that the certificate of compliance pertaining to that well has been cancelled, the operator of the pipeline or other carrier shall disconnect from the well.

(b) It shall be unlawful for the operator of a pipeline or other carrier to transport oil from the well until a new certificate of compliance has been issued by the commission.

§ 85.166. Effect of Cancellation on Owner or Operator of Well

On notice from the commission that a certificate of compliance for an oil or gas well has been cancelled, it shall be unlawful for the owner or operator of the well to produce oil or gas from the well until a new certificate of compliance covering the well has been issued by the commission.

[Sections 85.167 to 85.200 reserved for expansion]
§ 85.201. Adoption of Rules and Orders

§ 85.202. Purposes of Rules and Orders
(a) The rules and orders of the commission shall include rules and orders:

(1) to prevent waste, as defined in Section 85.046 of this code, of oil and gas in drilling and producing operations and in the storage, piping, and distribution of oil and gas;

(2) to require dry or abandoned wells to be plugged in a manner that will confine oil, gas, and water in the strata in which they are found and prevent them from escaping into other strata;

(3) for the drilling of wells and preserving a record of the drilling of wells;

(4) to require wells to be drilled and operated in a manner that will prevent injury to adjoining property;

(5) to prevent oil and gas and water from escaping from the strata in which they are found into other strata;

(6) to provide rules for shooting wells and for separating oil from gas;

(7) to require records to be kept and reports made; and

(8) to provide for issuance of permits, tenders, and other evidences of permission when the issuance of the permits, tenders, or permission is necessary or incident to the enforcement of the commission's rules or orders for the prevention of waste.

(b) The commission shall do all things necessary for the conservation of oil and gas and prevention of waste of oil and gas and may adopt other rules and orders as may be necessary for those purposes.

§ 85.203. Considerations in Adopting Rules and Orders to Prevent Waste
The commission may consider any or all of the definitions of waste stated in Section 85.046 of this code, whenever the facts, circumstances, or conditions make them applicable, in adopting rules or orders to prevent waste of oil or gas.

§ 85.204. Prohibited Rules and Orders
The commission is not authorized to adopt a rule or order or to make a determination or holding that any mode, manner, or process of refining oil constitutes waste.

§ 85.205. Notice and Hearing
No rule or order pertaining to the conservation of oil and gas or to the prevention of waste of oil and gas may be adopted by the commission except after notice and hearing as provided by law.

§ 85.206. Emergency Order
(a) If the commission finds an emergency to exist, that in the commission's judgment requires the adoption of an order without giving notice or holding a hearing, the emergency order may be adopted and shall be valid as though notice had been given and a hearing held.

(b) The emergency order shall remain in force no longer than 15 days from its effective date.

(c) The emergency order shall expire, in any event, at the time an order relating to the same subject matter and adopted after proper notice and hearing becomes effective.

§ 85.207. Effect of Amendment, Repeal, or Expiration of a Rule or Order
The amendment, repeal, or expiration of a rule or order of the commission adopted under the provisions of this chapter that were formerly a part of Chapter 76, General Laws, Acts of the 44th Legislature, Regular Session, 1935, as amended, or the provisions of Title 102, Revised Civil Statutes of Texas, 1925, as amended, including provisions of this code formerly included in that title, shall not have the effect of releasing or discharging from liability, penalty, or forfeiture any person violating the rule or order before the effective date of the amendment, repeal, or expiration. Prosecutions and suits for these violations, liabilities, penalties, and forfeitures shall be instituted and proceeded with in all respects as if the rule or order had not been amended or repealed, or had not expired.

§ 85.243. Burden of Proof
In the trial of a suit brought under Section 85.241 of this code, the burden of proof shall be on the party complaining of the law or order, and the law or order is deemed prima facie valid.

§ 85.244. Conditions for Injunctive Relief
No temporary restraining order, temporary or permanent injunction, or other form of injunctive relief may be granted against the commission, its members, agents, and representatives to restrain it or them from enforcing any rule or order adopted by the commission under the oil and gas conservation laws of this state or from enforcing any of these laws unless notice is given to the commission and a hearing is held as provided in this subchapter.

§ 85.245. Notice to Commission
(a) At the time a petition or application is filed requesting a temporary restraining order or any form of temporary injunctive relief, the clerk of the court in which the petition or application is filed shall issue notice in writing to the commission.
(b) The notice shall include:

In the discretion of the court, any person who is interested in the subject matter of the suit may intervene.

§ 85.247. Rules and Orders Prima Facie Valid
The rule or order complained of in the suit is prima facie valid, and the use and introduction of the verified petition of the plaintiff shall not be sufficient to overcome the prima facie validity of the rule or order or to authorize the court to grant any injunctive relief against the enforcement of the rule or order.

§ 85.248. Bond
Before an order granting injunctive relief against an oil and gas conservation law, rule, or order of the commission becomes effective, the plaintiff shall be required by the court to execute a bond with good and sufficient sureties in a reasonably sufficient amount determined by the court to indemnify any persons whom the court may find from the facts proven will suffer damage as a result of the violation of the law, rule, or order in question. The persons shall be named in the order of the judge at the time the amount of the bond is fixed by the court and entered in the record.

§ 85.249. Conditions of Bond
(a) In determining the amount of the bond, the judge shall consider all facts and circumstances surrounding the parties and the ability of the plaintiff to make the bond so that the judge can determine the amount and reasonableness of the bond under the facts and circumstances.
(b) A bond made or executed by a bonding or surety company shall be by a company authorized to do business in Texas.
(c) The bond shall be approved by the judge and shall be for the use and benefit of and may be sued on by any person named in the order who suffers damage as a result of violation of the law, rule, or order.

§ 85.250. Changing Amount, Parties, and Sureties
On a motion and for good cause shown, and after notice to the parties, the court periodically may:
(1) increase or decrease the amount of the bond;
(2) add new beneficiaries; and
(3) require new and additional sureties that the facts may justify.

§ 85.251. Suits on Bonds
A suit on a bond must be instituted within six months from the date of the final determination of the validity in whole or in part of the rule or order.
§ 85.252. Inadmissible Evidence

A finding by the court that any party is likely to suffer damage is not admissible as evidence of damages in a suit on the bond.

§ 85.253. Appeal

After notice and hearing on an application for injunctive relief, either party to the suit is entitled to appeal the judgment or order granting or refusing the temporary restraining order, temporary or permanent injunction, or other form of injunctive relief or granting or overruling a motion to dissolve the temporary restraining order, temporary or permanent injunction, or other form of injunctive relief.

§ 85.254. Appeal Has Precedence

§ 85.255. Early Decision by Court of Appeals

The court of appeals shall decide the question in the appeal at as early a date as possible.

§ 85.256. Appeal Procedures

The provisions and requirements of Article 4662, Revised Civil Statutes of Texas, 1925, as amended, and Rule 385 of the Texas Rules of Civil Procedure, as amended, relating to temporary injunctions, apply to appeals from any order granting or refusing a temporary restraining order, or granting or overruling a motion to dissolve a temporary restraining order under the provisions of this subchapter.

§ 85.257. Certified Questions and Writs of Error

(a) If a question is certified or writ of error requested or granted to the supreme court, the supreme court shall set the cause for hearing immediately and shall decide the cause at as early a date as possible.

(b) The cause shall have precedence over all other causes, proceedings, and causes of a different character in the court.

§ 85.258. Authority of Court of Appeals to Issue Writs

The court of appeals and its judges have the jurisdiction to issue writs of prohibition, mandamus, and injunction to prevent the enforcement of any order or judgment of a trial court or judge who grants any type of injunctive relief without notice and hearing in violation of the requirements of Sections 85.244 and 85.245 of this code.

§ 85.259. Issuance of Writs by Court of Appeals

If it appears that the provisions of Sections 85.244 and 85.245 of this code have not been complied with, then on proper application from the commission to the court of appeals having jurisdiction, the court shall issue instanter the necessary writs of prohibition, mandamus, or injunction to prohibit and restrain the trial judge from enforcing or attempting to enforce the provisions of the injunction issued by him and to prohibit and restrain the party or parties in whose favor the order is entered from acting or attempting to act under the protection of the order or from violating the law, rule, or order of the commission attacked.

§ 85.293. Duties of Receiver

As soon as the receiver is qualified, he shall take possession of the property and shall perform his duties as receiver of the property under the orders of the court, strictly observing the rule or order of the court.

**SUBCHAPTER B. WASTE OF GAS**

§ 86.011. Prohibition Against Waste

The production, transportation, or use of gas in a manner, in an amount, or under conditions which constitute waste is unlawful and is prohibited.

§ 86.012. Definition of Waste

(a) The term "waste" includes:

1. The operation of an oil well or wells with an inefficient gas-oil ratio;
2. The drowning with water of a stratum or part of a stratum capable of producing gas in paying quantities;
3. Permitting a gas well to burn wastefully;
4. The creation of unnecessary fire hazards;
5. Physical waste or loss incident to or resulting from so drilling, equipping, or operating a well or wells as to reduce or tend to reduce the ultimate recovery of gas from any pool;
6. The escape of gas from a well producing both oil and gas into the open air in excess of the amount that is necessary in the efficient drilling or operation of the well;
7. The production of gas in excess of transportation or market facilities or reasonable market demand for the type of gas produced;
8. The use of gas for the manufacture of carbon black without first having extracted the natural gasoline content from the gas, except it shall not be necessary to first extract the natural gasoline content from the gas where it is utilized in a plant producing an average recovery of not less than five pounds of carbon black to each 1,000 cubic feet of gas;
9. The use of sweet gas produced from a gas well for the manufacture of carbon black unless it is used in a plant producing an average recovery of not less than five pounds of carbon black to each 1,000 cubic feet and unless the sweet gas is produced from a well located in a common reservoir producing both sweet and sour gas;
10. Permitting gas produced from a gas well to escape into the air before or after the gas has been processed for its gasoline content, unless authorized as provided in Section 86.185 of this code;
11. The production of natural gas from a well producing oil from a stratum other than that in which the oil is found unless the gas is produced in a separate string of casing from that in which the oil is produced;
(12) the production of more than 100,000 cubic feet of gas to each barrel of crude petroleum oil unless the gas is put to one or more of the uses authorized for the type of gas so produced under allocations made by the commission or unless authorized as provided in Section 86.185 of this code; and

(b) Notwithstanding the provisions contained in this section or elsewhere in this code or in other statutes or laws, the commission may permit production by commingling oil or gas or oil and gas from multiple stratigraphic or lenticular accumulations of oil or gas or oil and gas where the commission, after notice and hearing, has found that producing oil or gas or oil and gas in a commingled state will prevent waste, promote conservation, or protect correlative rights.

[Sections 86.012 to 86.040 reserved for expansion]

**SUBCHAPTER C. POWERS AND DUTIES OF THE COMMISSION**
