Sec. 5. (a) There is hereby created a Pension Board of the Pension System, in which Board there is hereby vested the general administration, management and responsibility for the proper and effec-
(b) The Pension Board shall be composed of seven (7) members as follows:

(1) The Mayor of the City, or the Director of the Civil Service Commission as his representative.

(2) The Treasurer of the City or person performing the duties of Treasurer.

(3) Three (3) employees of the city having membership in the Pension System and elected by the members of such System. No city department shall have more than one (1) representative. The persons now serving as employee members of the Board shall continue in office until the expiration of their terms, in cities having established systems under the original Act, as amended. The term of office of succeeding members so elected shall likewise be two (2) years and each such member shall continue to serve until his successor is duly elected and qualified. Vacancies occurring by death, resignation or removal of such representative shall be filled by appointments made by any two (2) of the Board members elected by the members of the Pension System. Such appointees shall serve for the remainder of the unexpired term of the member they replace. The first election of employee members in cities hereafter coming under this Act shall be held in such city at such time and place as shall be fixed by the governing body of the city, and to be not more than seventy-five (75) days from the date such city comes under the terms of this Act.

(4) Two (2) legally qualified taxpayers of such city, who have been residents of the county in which such city is located for the preceding five (5) years, to be chosen by the governing body of the city, being neither employees nor officers of such city. The two (2) members so chosen by the governing body of the city shall serve for two (2) years and until their successors are duly elected and qualified. Vacancies occurring by death, resignation, or removal of such representative shall be filled by the governing body of the city. Public members now on the Boards of cities having established Systems shall continue in office until the expiration of their terms.

(c) Each member of the Pension Board within ten (10) days after his appointment and election shall take an oath of office that so far as it devolves upon him he will diligently and honestly administer the affairs of the Pension System and that he will not knowingly violate, or willingly permit to be violated, any of the provisions of this law.

(d) The Board shall elect from its membership annually a Chairman, Vice-Chairman and Secretary. Pursuant to the powers granted under the charter of such city, the Chief Administrative Officer of the city shall appoint one (1) or more employees whose positions and salaries shall be fixed by the governing body of the city and who, acting under direction of the Chief Administrative Officer of the city and City Treasurer, shall keep all of the records of and perform all of the clerical services for the Pension System. The salaries of such employees and all administrative expenses of the Pension System shall be paid by the city.

(e) Each member of the Board shall be entitled to one (1) vote in the Board. Four (4) concurring votes shall be necessary for a decision by the members at any meeting of the Board, and four (4) members shall constitute a quorum.

(f) A meeting of said Pension Board may be called at any time by the Chairman, Secretary, or by any four (4) members of such Pension Board.

(g) Notice shall be given to all members of such Pension Board unless waived in writing as to any proposed meeting by depositing of a written notice in the United States mail at least forty-eight (48) hours before such meeting, properly addressed to each such member. If a meeting is had, however, at which all of the members of the Board attend, no notice shall be necessary.

(h) No moneys shall be paid out of the Pension Fund except by warrant, check or draft signed by the Treasurer and countersigned by the Secretary, upon an order by said Pension Board duly entered in the minutes. Facsimile signatures may be authorized by the Board. Provided, however, the Board may by contract with any bank which is a depository for such Pension Fund authorize the bank to make deductions from the Pension Fund's account with such bank in connection with the purchase by the Board of authorized investments.

(i) The Pension Board shall determine the prior service to be credited to such member of the Pension System. The Board shall rely upon the personnel records of such city in determining such prior service credit or upon affidavits if the personnel records are incomplete.

(j) The Pension Board shall determine each member's credited service on the basis of the personnel and financial records of the city and the records of the Pension Board. The Board may permit any Group A member to pay into the Pension Fund and thereby obtain credit for any service with the city for which credit would otherwise be allowable under this amended Act save only for the fact that no contributions were made by such member with respect to such service, or the fact that contributions, although made with respect thereto, were thereafter refunded to such member as a separation allowance and not subsequently repaid. The following provisions shall apply to such payments:

(1) For service during the period September 1, 1943, to May 29, 1967, the employee shall pay a sum computed at the rate of Twelve Dollars ($12) a month, and the city shall pay into the Pension Fund one and one-half ($1½) times the amount so paid by the employee.
Art. 6243g  PENSIONS  3822

(2) For service during the period May 29, 1967, to January 5, 1970, the employee shall pay a sum computed at the rate of three percent (3%) of his salary with the minimum payment being Twelve Dollars ($12) a month, and the city shall pay into the Pension Fund one and one-half (1½) times the amount so paid by the employee.

(3) For service during the period January 5, 1970, to September 1, 1971, the employee shall pay a sum computed at the rate of three percent (3%) of his salary with the minimum payment being Twelve Dollars ($12) a month, and the city shall pay into the Pension Fund an amount equal to eleven and one-quarter percent (11¼%) of such salary for the same period of time.

(4) For service during the period September 1, 1971, to January 1, 1976, the employee shall pay a sum computed at the rate of four percent (4%) of his salary, and the city shall pay into the Pension Fund an amount equal to thirteen and one-half percent (13½%) of such salary for the same period of time.

(5) For service on and after January 1, 1976, the employee shall pay a sum computed at the rate of four percent (4%) of his salary, and the city shall pay into the Pension Fund an amount equal to eighteen percent (18%) of such salary for the same period of time.

(6) In addition to the amounts to be paid by the employee as specified above, the employee shall also pay interest on the same amounts at the rate of eight percent (8%) per annum from the time the contributions would have been deducted, if made, or the time contributions were refunded as a separation allowance, as the case may be, to the time of repayment of such contributions into the Pension Fund.

Treasurer of Pension Fund

Sec. 6. The City Treasurer of any such city, or the person discharging the duties of the City Treasurer, is hereby designated as the Treasurer of said Pension Fund for said city and his official bond to said city shall operate to cover his position of Treasurer of said Pension Fund and his sureties shall be liable in connection with the Treasurer's actions pertaining to such Fund as fully as they are liable under the terms of said bond for the other actions and conduct of said Treasurer. All moneys of every kind and character collected or to be collected for said Fund shall be paid over to said Treasurer and shall be administered and paid out only in accordance with the provisions of this Act.

Contributions by Members

Sec. 7. Each Group A member of the Pension System shall make periodic contributions during employment by the city in the amount of four percent (4%) of salary. Such contributions shall be deducted by the city from the salary of each such member and paid to the Treasurer of the Pension Fund for deposit therein.

Contributions by City

Sec. 8. (a) Until January 1, 1983, such city shall pay monthly into such Pension Fund, from its general fund or other available source, an amount equal to eighteen percent (18%) of the total of the monthly salaries paid to Group A and Group B members for the same period of time, less an amount equal to the total amount of the employer's part of the payments made by the city for such period of time with respect to such members, to the federal government under the provisions of the Social Security Act and Federal Insurance Contributions Act, it being the intention hereof that the combined total of the payments made by such city, as an employer, with respect to such members, for social security and pension fund purposes shall at all times be eighteen percent (18%) of the total of all salaries paid to all such members.

(b) Beginning January 1, 1983, the city shall make periodic payments into the Pension Fund in an amount equal to the percentage contribution rate multiplied by the salaries paid to Group A and Group B members of the Fund. Such contribution rate expressed as a percentage shall be based on the results of actuarial valuations made at least every three (3) years, with the first such actuarial valuation to be made as of January 1, 1982. The city's contribution rate shall be comprised of the normal cost plus the level percentage of salary payment required to amortize the unfunded actuarial liability over a period of forty (40) years from January 1, 1983, calculated on the basis of an acceptable actuarial reserve funding method approved by the Pension Board.

1 42 U.S.C.A. § 301 et seq.
2 26 U.S.C.A. § 3101 et seq.

Investment of Surplus

Sec. 10. Whenever, in the opinion of the Board, there exists a surplus of funds in an amount exceeding the current demands upon the Fund, the Board shall invest such surplus funds in the manner provided for in Chapter 817, Acts of the 66th Legislature, 1979 (Article 6228n, Vernon's Texas Civil Statutes).

Retirement on Pension

Sec. 11. (a) Any Group A member of such Pension System who has attained fifty (50) years of age and completed twenty-five (25) or more years of credited service, and any Group A member of such Pension System who has attained fifty-five (55) years of age and completed twenty (20) or more years of credited service, and any Group A member of the Pension System who has attained sixty (60) years of age and completed ten (10) or more years of credited service shall be eligible for a pension.
(b) The amount of the monthly pension for each such Group A member shall equal two percent (2%) of the member’s average monthly salary multiplied by the total number of years of credited service of such member. For purposes of this Subsection, such average monthly salary shall be computed by adding together the thirty-six (36) highest monthly salaries paid to a member during his period of credited service and dividing the sum by thirty-six (36). Provided, however, that no Group A member’s pension shall be more than eighty percent (80%) of such average monthly salary; and no Group A member’s pension shall be less than Eight Dollars ($8) a month for each year of credited service, or One Hundred Dollars ($100) a month total pension, whichever is the greater amount.

(c) A member shall continue to accrue service credits, provided that in the case of a Group A member the required contributions are made to the fund, regardless of his age.

(d) All Group A members who retire under this section or under Section 12 on or after January 1, 1976, shall have their pensions adjusted annually upward or downward in accordance with the percentage change in the Consumer Price Index for All Urban Consumers (CPI) for the preceding year as determined by the United States Department of Labor. The adjusted pension shall never be less than the basic monthly salary which the retired member or survivor would otherwise be entitled to receive without regard to changes in the CPI. The adjusted pension shall never be greater than the amount of the retired Group A member’s basic pension plus increases of not to exceed two percent (2%) annually, not compounded, notwithstanding a greater increase in the CPI.

(e) All pensioners or the survivors of pensioners who retired prior to January 1, 1976, shall have their pensions adjusted on a one-time basis in an amount equivalent to one percent (1%) of their pension payment per year of retirement, subject to a minimum increase of Ten Dollars ($10) per month. This postretirement adjustment shall be effective September 1, 1981.

Disability Pensions

Sec. 12. (a) Any Group A member who has completed ten (10) or more years of service and who becomes totally disabled for further duty shall, regardless of age, be retired for “ordinary disability” and shall receive a monthly pension computed in accordance with Section 11(d).

(b) If any Group A member who becomes totally disabled for further duty by reason of a personal injury sustained or a hazard undergone as a result of, and while in the performance of, his duties at some definite place and at some definite time on or after the date of his becoming a Group A member, without serious and willful misconduct on his part, shall be retired for “accidental disability” and shall receive a monthly pension equal to twenty percent (20%) of his monthly salary on the date such injury was sustained or such hazard was undergone plus one percent (1%) of the above salary for each year of credited service; provided, that the total pension as so computed will not exceed forty percent (40%) of such monthly salary, or a monthly pension computed in accordance with Section 11(b), whichever is greater.

(c) By “totally disabled” is meant the sustaining of such disability as completely incapacitates a member from performing the usual and customary duties which he has been performing for such city or other full time duties that could be performed by such member. Before any disability pension is allowed, the Pension Board shall require such medical examination and such other evidence as it may see fit to establish such total disability, as above provided.

(d) Any Group A member receiving a disability pension in accordance with this section or any Group B member receiving a disability pension in accordance with Section 25 of this Act shall, each April 1, submit a sworn affidavit stating his earnings for the previous calendar year, if any, obtained from any gainful occupation. If the earnings together with the disability pension being received by any member exceed the monthly salary of such member at the time of his separation from service, the Pension Board shall have authority to reduce the amount of pension. Failure to submit an affidavit of earnings or submission of a materially false affidavit shall be cause for suspension of the pension upon proper action by the Pension Board.

No member shall receive a disability and service pension at the same time. However, in the event a member who is already eligible for retirement is granted a disability pension and, thereafter, although his disability ceases to exist, he does not return to work for the city, he shall be entitled to receive a service pension, calculated in accordance with Section 11 for Group A members and Section 24 for Group B members. Such service pension shall be based on actual service up to the time of disability.

When any member has been retired for disability, he shall be subject at all times to re-examination by the Pension Board and shall submit himself to such further examination as the Pension Board may require. If any such member shall refuse to submit himself to any such examination, the Pension Board may, within its discretion, order said payments stopped. If such a member who has been retired under the provisions of this Section should thereafter recover so that in the opinion of the Pension Board he is able to perform the usual and customary duties formerly handled by him for said city, and such member is reinstated or tendered reinstatement to the position he had at the time of his retirement, then the Pension Board shall order such pension payments stopped.
Monthly Allowance to Widows and Children

Sec. 13. If any Group A member of the Pension System, as herein defined, shall die from any cause whatsoever after having completed ten (10) years of service with the city, or if, while in the service of the city, any such member shall die from any cause growing out of or in consequence of the performance of his duty, or shall die after he has been retired on pension because of length of service or disability and shall leave a surviving widow or widower, a child or children under the age of eighteen (18) years, or both such widow or widower and child or children, said Board shall order paid monthly allowances as follows:

(a) To the widow or widower, so long as she or he remains a single person and provided she or he shall have married such member prior to her or his retirement, a sum equal to one-half (½) of the retirement benefits that the deceased Group A member would have been entitled to had she or he been totally disabled at the time of her or his retirement or death, but the allowance payable to any such widow or widower shall not in any event be less than Thirty Dollars ($30) a month.

(b) To the guardian of each child the sum of Sixteen Dollars ($16) a month until such child reaches the age of eighteen (18) years.

(c) In the event the widow or widower dies after being entitled to her or his allowance as provided, or in the event there be no widow or widower to receive such allowance, the amount to be paid to the guardian of any child or children under the age of eighteen (18) years shall be increased to the sum of Thirty-Two Dollars ($32) a month for each such child; provided, however, that the total allowance to be paid all beneficiaries or dependents, as herein provided, shall not exceed the monthly pension that would have been paid the Group A member had he been continued to live and retire on pension at the date of his death. Allowances or benefits payable to any minor child shall cease when such child becomes eighteen (18) years of age or marries, provided that when there are only children to collect a pension as beneficiaries, if at the time the last child reaches eighteen (18) years of age, the amount the employee contributed has not been paid out in pensions, the balance shall be refunded to the children. The term “guardian,” as used herein, shall mean the surviving widow or widower with whom the child or children reside, or any guardian appointed by law, or the person standing in “locus parentis” to such dependent minor child responsible for his or her care and upbringing.

Refund of Contributions

Sec. 14. If any member's employment by the city is terminated for other than total and permanent disability arising as a result of or as a consequence of the performance of his duties prior to his having completed ten (10) years of service with the city, he shall not be paid any pension whatsoever, but he shall receive the amount paid by him into the Pension Fund by way of salary deduction without interest as provided in Section 16 of this Act. In the event of his death, if there are no widow or children to receive the allowance provided for in Section 13 above, his beneficiary, and if none, his estate, shall receive the said amount.

Computing Period of Service

Sec. 15. In the computation of the years of service of an employee who is a Group A member, the following rules shall apply:

(a) Interruptions of service of three (3) months or less shall be treated as continuous service, but such employee shall be required to pay into the Pension Fund any contributions withdrawn at the time of separation plus the amount of the employee contributions allocable to each such period of interruption.

(b) If there have been interruptions of service of more than three (3) months and less than ten (10) years, no credit shall be allowed for the period of an interruption but credit shall be allowed for previous service and prior service if (1) such employee shall have repaid to the Pension Fund within three (3) months after resumption of service all moneys theretofore withdrawn by him upon separation from service, plus interest thereon at the rate of eight percent (8%) per annum, or (2) if such employee shall at any time have made payments to the Pension Fund which, under then existing provisions of law, entitled him to credit for previous service.

(c) If such employee has been out of service for a period longer than ten (10) years, no credit for any service preceding the out-of-service period shall be allowed.

Termination of Employment; Death; Reemployment

Sec. 16. When any Group A member shall leave the employment of such city, either voluntarily or involuntarily, before becoming eligible for a retirement or disability pension, he shall thereupon cease to be a member of such Pension System, and shall have refunded to him all of the payments made by him into said Pension Fund by way of salary deductions, without interest, subject to the following provisions:

(a) If such member has completed twenty-five (25) or more years of service at the time of termination of employment but has not yet attained the age of fifty (50) years he may, by written notice to the Pension Board, make an irrevocable election to leave his contributions in the Pension Fund, in which event he shall, upon reaching the age of fifty (50) years, be entitled to a pension on the basis of the schedule of benefits for retiring Group A members that was in effect at the time of his separation from the service.

(b) If such member has completed twenty (20) or more years of service at the time of termination of employment but has not yet attained the age of fifty-five (55) years he may, by written notice to the
Pension Board, make an irrevocable election to leave his contributions in the Pension Fund, in which event he shall, upon reaching the age of fifty-five (55) years, be entitled to a pension on the basis of the schedule of benefits for retiring Group A members that was in effect at the time of his separation from service.

(c) If such member has completed fifteen (15) or more years of service at the time of termination of employment but has not yet attained the age of sixty (60) years he may, by written notice to the Pension Board, make an irrevocable election to leave his contributions in the Pension Fund, in which event he shall, upon reaching the age of sixty (60) years, be entitled to a pension on the basis of the schedule of benefits for retiring Group A members that was in effect at the time of his separation from service.

(d) If, while still employed by the city, whether eligible for a pension or not, a Group A member dies, then, unless the provisions of Section 13 hereof are applicable, all of his rights in the Pension Fund shall be satisfied by the refund to his designated beneficiary, if any, or if none, to his estate, of all the payments theretofore made by him into the Pension Fund by way of employee’s contributions, without interest.

(e) The provisions of Section 13 concerning payments to widows, widowers and children shall apply in the case of any former Group A member who has made the election permitted by Subsection (a), (b) or (c), above, and who dies before reaching the age at which he would be entitled to a pension. If there be no surviving widow, widower or children, then all of such member’s rights in the Pension Fund shall be satisfied by the refund to his designated beneficiary, if any, or if none, to his estate, of all the payments theretofore made by him into the Pension Fund by way of employee’s contributions, without interest.

(f) It is not the intention of this Amendatory Act to change the status of any former member of the Pension System whose services with the city were terminated under a previous Act. Refunds of contributions above provided for shall be paid such departing member, his beneficiary or estate in a lump sum, but if, in the opinion of the Pension Board, the funds on hand are too low to justify such lump sum payment, said payment shall be refunded on a monthly basis in such amounts as may be determined by the Pension Board.

(g) When a Group A member has left the service of such city, as aforesaid, and has therefore ceased to be a member of such Pension System, if such person shall thereafter be reemployed by the city on or after September 1, 1981, he shall thereupon become a Group B member. Previous service of such member with such city shall not be counted toward his retirement pension unless such member returns to the service of the city within ten (10) years from his separation therefrom.

(h) If any Group A member of the pension system, after having made the election permitted by Subsection (a), (b) or (c), above, at the time of separation from the service of the city, shall be reemployed by the city before September 1, 1981, and before becoming eligible to receive pension benefits, the following provisions shall apply to the computation of the pension due such member upon his subsequent retirement:

1. The portion of such member’s pension attributable to his period of credited service accrued prior to his making the aforesaid election shall be calculated on the basis of the schedule of benefits for retiring members that was in effect at the time said election was made. However, in the case of any such member who made the election permitted by Subsection (a), (b) or (c), above, prior to September 1, 1981, the portion of such member’s pension attributable to service prior to the election shall be based on such member’s average monthly salary at the time of such subsequent retirement, only if the member has completed five (5) years of continuous service from the date of reemployment.

2. The portion of such member’s pension attributable to his period of credited service accrued after his reemployment by the city shall be calculated on the basis of the schedule of benefits for retiring members that is in effect at the time of such subsequent retirement.

Reduction of Benefits; Dissolution of System

Sec. 17. (a) In the event said Pension Fund becomes seriously depleted in the opinion of the Pension Board, said Pension Board may proportionately and temporarily reduce the benefits of all pensioners and beneficiaries, but such reductions shall thereafter be paid to such pensioners and beneficiaries, as and when said Fund is, in the opinion of the Pension Board, sufficiently reestablished to do so. Should the reserve and surplus in the Pension Fund become exhausted and, at such time, the outgo of the Pension Fund exceeds the income thereto, then, in such event, the governing body of the city shall have the right, by ordinance duly passed, to dissolve the Pension System and require liquidation thereof without any liability to the city whatsoever.

(b) Any member or survivor receiving a retirement pension may, at his option, receive any smaller retirement pension after properly requesting same in writing to the Pension Board.

(c) In the event any member dies within three (3) years from his retirement date and leaves no widow or minor children, his estate shall be entitled to payment in a lump sum of the excess, if any, of his accumulated contributions to the date of his retirement over the aggregate monthly benefit payments received by the member.

Legal Services

Sec. 18. The City Attorney of such city shall handle all legal matters for the Pension System.
which are referred to him by the Pension Board or city without additional compensation therefor. The Pension Board may, however, if it deems necessary, employ outside legal advice to the exclusion of, or to assist, the City Attorney, and pay reasonable compensation therefor out of said Pension Fund.

Actuary

Sec. 19. The Pension Board shall employ an actuary which cost shall be paid for by the city. The actuary shall prepare an actuarial valuation and report to the Pension Board at least every three (3) years.

Exemption from Execution, Attachment or Other Writ

Sec. 20. No portion of any such Pension Fund, either before or after its order of disbursement by said Pension Board, and no amounts due or to become due any beneficiary or pensioner, under this Act, shall ever be held, seized, taken, subjected to, detained, or levied upon by virtue of any execution, attachment, garnishment, injunction, or other writ, and no order or decree, or any process or proceeding whatsoever, shall issue out of or by any court of this state for the payment or satisfaction in whole or in part out of said Pension Fund, of any debt, damage, claim, demand, or judgment against any such members, pensioners, dependents, or any person whomsoever, nor shall such Pension or any part thereof, or any claim thereto, be directly or indirectly assigned or transferred and any attempt to transfer or assign the same or any part thereof, or any claim thereto, shall be void. Said Fund shall be sacredly held, kept, and disbursed for the purposes provided by this Act and for no other purpose whatsoever, except that the actuary, or his successor, may have deducted from his pension the monthly premium cost of the city's group hospitalization and life insurance plan.

Members in Military Service

Sec. 21. Members of the Pension System engaged in active military service shall not be required to make the monthly payments into the Pension Fund provided for in this Act, nor shall they lose credit for any previous years of service with the city as a result of such military service. Furthermore, the city shall not be required to make any monthly payments into the Pension Fund for such member while he is engaged in the military service. Any member who engages in active military service shall, if he returns to employment by the city within three (3) months after termination of such service, receive credit for his time in such service and shall immediately at the beginning of his first full pay period begin repaying to the Pension Fund the equivalent of all monthly contributions for the total number of months elapsed since he went into such service, such repayment to be completed within twenty-four (24) months of reemployment, and the city shall pay into the Fund one and one-half (1 1/2) times such amount. Credit for military service shall be limited to twenty-four (24) months, unless such period is extended by the Pension Board.

Group B Membership, Service Requirements, and Benefit Provisions

Sec. 22. (a) Any employee initially hired or reemployed after September 1, 1981, shall become a Group B member. On or after September 1, 1981, any Group A member may irrevocably elect to become a Group B member effective January 1, 1982, by filing an election form with the Board. Such election must be made prior to December 1, 1981. A Group A member who makes such an election shall be refunded his or her accumulated contributions without interest and shall not be required to make further contributions as a Group B member. Such refund shall be made by March 1, 1982. Upon the effective date of the election, all rights as a Group A member shall be extinguished; however, pensions and benefits shall be based on total credited service as a Group A and Group B member. Any former Group A member who was entitled to purchase service credit for previous employment under the provisions of this Act in effect prior to the date of this amendment and who becomes a Group B member may purchase such service credit at any time after September 1, 1981, by paying into the fund an amount equal to eight percent (8%) interest on any contributions previously withdrawn for the period from the date of withdrawal to the date of purchase.

(b) The Board shall prepare and print a brochure explaining the effects of the election provided for by the preceding subsection. Such brochure shall fully describe the benefit alternatives under both Group A and Group B coverage and shall be designed to provide sufficient information upon which an employee can base his or her decision to elect Group B coverage. The Board shall designate one or more individuals who shall serve as contact persons for any employee or group of employees who may require additional information.

The election of Group B coverage shall be on a form approved by the Board and shall be notarized upon its execution by the member. The election form shall specifically state that the employee has read and understood the information supplied by the Board and understands the consequences of her or his decision. Once made such election shall be irrevocable.

Eligibility for Pension

Sec. 23. (a) A Group B member shall become eligible to receive a normal pension after he has terminated employment, beginning with the month when he has ten (10) years of credited service and has attained age sixty-two (62).

(b) A Group B member shall become eligible to receive an early pension after he has terminated employment, beginning with the month when he has twenty (20) years of credited service and has attained age fifty-five (55).
(c) A Group B member who has ten (10) years of credited service and terminates employment shall have a vested right to a normal pension payable beginning with the month when he has attained age sixty-two (62).

Amount of Pension

Sec. 24. (a) The amount of the normal pension payable to a retired Group B member shall be one and one-quarter percent (1 1/4%) of average monthly salary multiplied by the number of years (not to exceed forty (40)), taken to the nearest twelfth (12th) of a year, in the period of credited service. Average monthly salary shall be the average of the thirty-six (36) highest monthly salaries during a member's period of credited service.

(b) The amount of the early pension payable to a retired Group B member shall be equal to the normal pension reduced by one-half of one percent (½ %) for each month the member is less than age sixty-two (62) at retirement. The increase in employee and city contributions resulting from the adoption of this amended Act, as provided in Section 7 and Section 8 hereof, shall become effective at the beginning of the next regular pay period of such city occurring after the expiration of ten (10) days from the effective date of this Act.

Disability Eligibility

Sec. 25. (a) A Group B member who becomes disabled by reason of a personal injury sustained or a hazard undergone as a result of, or while in the performance of, his duties at some definite place and at some definite time on or after the date of his becoming a Group B member, without serious and willful misconduct on his part, shall be eligible to receive a service-connected disability pension.

(b) A Group B member who has ten (10) years of credited service and who becomes disabled, but is not eligible for a service-connected disability pension, shall be eligible to receive an ordinary disability pension.

Disability Pension Amount and Duration

Sec. 26. The disability pension shall equal the member's accrued normal pension, but in the case of a service-connected disability shall not be less than twenty percent (20%) of the member's salary at the time of disablement. The pension shall be paid for the first twenty-four (24) months following disablement while the member is unable to perform the duties of his position. The pension shall be continued beyond twenty-four (24) months while the member is unable to engage in any occupation for which he is reasonably suited by training or experience.

Disability Review

Sec. 27. The provisions of Section 12(d) of this Act shall apply to any Group B member receiving a disability pension.

Death Benefit

Sec. 28. (a) The surviving spouse and/or dependent child or children of a Group B member shall be eligible for a death benefit, if the member dies:

1. from any cause while in service of the city and has ten (10) years of credited service; or

2. from any cause while in service of the city in consequence of the performance of his duty.

(b) For the surviving spouse the amount of the death benefit shall equal one-half (% of the pension the member would have received if the member had been disabled at the time of death, but not less than Fifty Dollars ($50) per month. The benefit shall be paid while the surviving spouse remains a single person but shall not be paid if the surviving spouse married the member after the member's retirement.

If the primary survivor is the surviving spouse, such person must have been married to the deceased member prior to retirement.

(b) A survivor’s pension shall begin with the month following the month in which the member or retired member dies. If payable to a surviving spouse who subsequently dies or marries, it shall become payable in the following month only to a surviving dependent child as defined in Section 1 of this article. If payable to a dependent child who dies or fails to meet the conditions of eligibility in Section 1 of this article, the pension shall then cease. (b) If a member has a vested right to a service pension and withdraws from service and is not immediately eligible for a service or disability benefit, he may request refund of his accumulated contributions without interest. Refund of such contributions shall extinguish all rights to benefits under this article.

Adjustment of Benefits

Sec. 24. A pension payable under this article may be adjusted annually on April 1, beginning in the year the member attains age 60, or in the case of disability and survivor's pensions, beginning in the year next following 12 months of payments, in accordance with changes in the Consumer Price Index for All Urban Consumers, but not below the original pension amount nor above the original pension amount increased by four percent annually, not compounded, notwithstanding a greater increase in the consumer price index.

Application of Benefits

Sec. 25. (a) A service pension, disability pension, survivor's pension, death benefit, or withdrawal benefit shall be paid only upon the filing of an application in a form prescribed by the board. A monthly benefit shall not be payable for any month earlier than the second month preceding the date on which the application for such benefit is filed. If a retired member receives both pension benefits from the fund and a salary from the city that cover the same period of time, the retired member shall repay pension benefits received during the period to the fund.

(b) The board may require any member, inactive member, retired member, or eligible survivor to furnish such information as may be required for the determination of benefits under this article. The board may withhold payment of any pension under this article whenever the determination of such pension is dependent upon such information and the member, inactive member, retired member, or eligible survivor does not cooperate in the furnishing or procuring thereof.

Election of Membership

Sec. 26. (a) A member, as defined in Chapter 76, Acts of the 50th Legislature, 1947 (Article 6243g-1, Vernon's Texas Civil Statutes), may elect to become a member, as defined in this article, by filing an election with the board no later than December 31, 1961.

(b) Commencing January 1, 1982, a member who has made the election described in Subsection (a) of this section or an employee who is rehired by the department shall be covered by the provisions of this article and all rights to a pension under Chapter 76, Acts of the 50th Legislature, 1947 (Article 6243g-1, Vernon's Texas Civil Statutes), shall be extinguished. Such member shall receive credited service for all prior service which was recognized under Chapter 76, Acts of the 50th Legislature, 1947 (Article 6243g-1, Vernon's Texas Civil Statutes). However, such credit may be reinstated only by payment of any contribution previously refunded with interest at the rate of eight percent per annum from the date of refund.

Dual Membership Prohibited

Sec. 27. An employee hired before the effective date of this Act shall be covered by the plan described in Chapter 76, Acts of the 50th Legislature, 1947 (Article 6243g-1, Vernon's Texas Civil Statutes), unless he elects to become a member pursuant to Section 26 of this article. An employee hired or rehired subsequent to the effective date of this Act shall be covered by the plan described in this article.

Sec. 28. (a) The city shall deduct monthly from the salary or compensation of each member participating in the fund a sum equal to seven percent of such salary or compensation, such deduction to be paid by the city to the fund.

(b) For purposes of this article, the chief of police shall be considered to hold the highest classified position in the department. The maximum contribution which may be made to the fund by a member shall be limited to a contribution based on the compensation of the second highest classification within the salary schedule of the police department. The maximum benefit which may be paid from the fund to any person holding a position above that of the second highest classified position shall be based on the compensation paid the second highest classified position within the department.

Contribution by City

Sec. 29. Until January 1, 1988, the city shall pay into the fund after each payroll period an amount equal to 20 percent of the base salaries paid to members of the fund. Beginning January 1, 1983, the city shall make monthly contributions to the pension fund in an amount equal to the percentage contribution rate multiplied by the salaries paid to members, as defined by Section 1 of this article. Such contribution rate, expressed as a percentage, shall be based on the results of actuarial valuations made at least every three years, with the first such actuarial valuation to be made as of January 1, 1983. The city's contribution rate shall be comprised of the normal cost plus the level percentage of salary payment required to amortize the actuarial liability over a period of 40 years from January 1,

Department on the effective date hereof, shall be eligible for membership in the Pension System, and shall automatically become a member upon the expiration of ninety (90) days from the effective date hereof, unless the employee has filed with the Pension Board his written election not to become a member, which shall constitute a waiver of all present and prospective benefits which otherwise would inure to him by participation in the System. But any member of the Police Department of such city, whose membership in the Pension System is contingent upon his own election and who elects not to participate, may later become a member provided he passes such medical examination as the Pension Board may require. Pension Board

Sec. 4. (a) There is hereby created in any city within this Act a Pension Board for the Police Officers' Pension System. Said Board is hereby vested with the general administration, management and control of the Pension System herein established for said city.

(b) The Board shall be composed of seven (7) members, as follows:

(1) The Mayor, to serve for the term of office to which he was elected;

(2) The Chief of Police, to serve until his successor is qualified;

(3) The City Treasurer, to serve until his successor is qualified;

(4) Three (3) active policemen who shall be selected by a majority vote of the members of the Pension System; said policemen members shall serve for a period of two (2) years, and until their successors are elected and qualified. Vacancies occurring by reason of expiration of term of office, death, resignation or removal shall be filled by an election by a majority vote of the members of said Pension System;

(5) One (1) legally qualified taxpayer of the city, who has been a resident thereof for the preceding three (3) years; such member, being neither officer nor employee of the city, shall be chosen by the other six (6) members of the Board, and he shall serve for a period of two (2) years, and until his successor is selected and qualified.

Said Board, as herein provided, shall be selected and organized upon the passage of this Act and shall hold its office until the next general election in such city for municipal officers, at which time a permanent Board shall be selected, as herein provided. The said Board shall organize by choosing one (1) member as Chairman; one (1) member as Vice-Chairman; and one (1) member as Secretary. Beginning with the first day of January, 1962, and annually thereafter, the Board shall elect its Chairman, Vice-Chairman and Secretary for the ensuing year.

(c) Each member of the Pension Board within ten (10) days after his appointment and election shall take an oath of office that he will diligently and honestly administer the affairs of the Pension System and that he will not knowingly violate, or willingly permit to be violated, any of the provisions of this law.

(d) Pursuant to the powers granted under the charter of such city, the mayor shall appoint one or more employees whose positions and salaries shall be fixed by the governing body of such city and who, acting under direction of the Pension Board, shall keep all of the records of and perform all of the clerical services for the Pension System. The salaries of such employees shall be paid by the city.
(e) Five (5) members of the Board shall constitute a quorum, and a majority vote of those members present shall be necessary for a decision of said Board.

(f) No moneys shall be paid out of the Pension System Fund except by warrant, check, or draft signed by the Treasurer and countersigned by either the Chairman or Secretary, upon an order by said Pension Board duly entered in the minutes.

(g) The Pension Board shall determine the prior service to be credited to each present employee of the Police Department who becomes a member of the Pension System. The Board shall rely upon the personnel records of such city in determining such prior-service credit. After obtaining the necessary information such Board shall furnish each member of the Pension System a certificate showing all prior-service credits authorized and credited to such member. Such member may, within one (1) year from the date of issuance or modification of such certificate, request the board to modify or change his prior-service certificate, otherwise such certificate shall be final and conclusive for retirement purposes as to such service.

Treasurer

Sec. 5. The City Treasurer is hereby designated as the Treasurer of said Pension System Fund for said city Police Officers' Pension System, and his official bond to said city shall operate to cover his position as Treasurer of such Pension System Fund and his sureties shall be liable in connection with the Treasurer's actions pertaining to such Fund as fully as they are liable under the terms of said bond for the other actions and conduct of said Treasurer. All moneys of every kind and character collected or to be collected for said Pension System shall be paid over to the said Treasurer and shall be administered and paid out only in accordance with the provisions of this Act.

Payments by Members

Sec. 6. Commencing with the first day of the month after the expiration of ninety (90) days from the passage of this Act, each member of the Pension System shall pay monthly into the Pension System Fund not less than four per cent (4%) nor more than seven per cent (7%) of his statutory minimum and longevity pay. Subject to this limitation, the Pension Board shall set the amount that each member shall pay into said Pension System Fund. Said payments into the Pension System Fund shall be effected by the city deducting the amount to be contributed by each member of said Pension System from his wages earned. Said deduction shall be paid into the Pension System Fund by the city.

Payments Into Fund by City

Sec. 7. In addition to the payments in the next preceding Section such city shall pay monthly into such Pension System Fund, from the general or other appropriate fund of any such city, an amount equal to the total sum paid into such Fund by salary deductions of members as set out in the next preceding Section.

Depletion of Fund; Reduction of Benefits

Sec. 8. In the event the Pension System Fund becomes seriously depleted, in the opinion of the Pension Board, said Pension Board may proportionately and temporarily reduce the benefits of all pensioners and beneficiaries, but such reduction of benefits shall continue only for such time as such depleted condition continues to exist, and after such time of depletion has ceased to exist and the Pension Board finds said Pension System Fund is in condition to warrant, it shall thereafter restore the benefits and resume payment of all pensioners and beneficiaries as though such preceding reductions had not occurred.

Investment of Surplus

Sec. 9. Whenever in the opinion of the said Pension Board there is on hand in said Pension System Fund a surplus over and above a reasonably safe amount to take care of current demands upon such funds, such surplus, or so much thereof as in the judgment of the said Pension Board is deemed proper, may be invested in bonds or other interest bearing obligations and securities of the United States, the State of Texas or any city or any county.

Transfer of Pro Rata Share of Existing Fund

Sec. 10. Immediately upon this Act becoming a law, there shall be transferred to the Police Officers' Pension System the prorata share of any pension fund heretofore existing to which police officers have contributed, including the prorata part of the fund paid by the city and all accumulated interest on the money which both the policemen and the city have heretofore contributed to the fund. It shall be the duty of the city official or officials responsible for said existing fund to make such transfer immediately.

Retirement Pension

Sec. 11. From and after the passage of this Act, any member of such Pension System who has been in the service of the city Police Department for a period of twenty-five (25) years shall receive from the Pension Board a pension certificate. Any person who holds a pension certificate and who has attained fifty-five (55) years of age shall be entitled to a monthly retirement pension equal to one half (1/2) of his statutory minimum pay plus one half (1/2) of his longevity pay, which he received when such certificate was awarded, each month for the rest of his life upon his retirement from the services of said city Police Department; provided, however, said monthly retirement pension shall not exceed the sum of One Hundred and Twenty-five Dollars ($125). However, when a member has served twenty-five (25) years or more in the Police Department
and has attained the age of fifty-five (55) years, if
he desires and if the physicians employed by the
Pension Board agree that said member is physically fit
to continue his active duties in the Police Depart-
ment, he may continue such duties until he is not
over sixty-five (65) years of age, and when he
retires he will receive in addition to his monthly
retirement pension set out above, a service bonus of
One Dollar ($1) per month for each year of service
over and above the amount per month payable if he
had retired when he attained the age of fifty-five
(55) years. It shall be compulsory for any member
to retire from service upon attaining sixty-five (65)
years of age; failure of any member of the Pension
System to comply with this provision shall deprive
the member or his dependents of any of the benefits
provided for herein. If at the time of retirement
such member has completed less than twenty-five
(25) years of service, but more than twenty (20)
years of service, his retirement pension shall be
prorated. For example, if the employee has com-
pleted only twenty (20) years of service, his monthly
pension would be four-fifths (4/5) of one half (1/2)
of his statutory minimum pay and one half (1/2) his
longevity pay. No member shall be required to
make any payments into the Pension System Fund
after he has been issued a pension certificate and
who has retired from active service in the
Police Department. However, if he continues to work for
the city Police Department after receiving a pension
certificate, he shall continue his monthly payments
into the Pension System Fund until he retires.

Pensions to Widow and Dependents

Sec. 12. If any member of the Police Depart-
ment, who has been retired on allowance because of
length of service or disability, shall thereafter die
from any cause whatsoever or shall die from any
cause whatsoever after he has become entitled to an
allowance or pension certificate, or if while in ser-
vice any member shall die from any cause growing
out of or in consequence of the performance of his
duty, and shall leave surviving a widow, a child or
children under the age of eighteen (18) years or a
dependent parent, said Board shall order paid a
monthly allowance as follows: (a) To the widow so-
long as she remains a widow, sixty per cent (60%)
of the pension per month that said member would have
received if living and had retired with twenty-five
(25) years of service, provided she has married
such member prior to his retirement; (b) to the
guardian of each child the sum of Six Dollars ($6)
per month until such child reaches the age of eigh-
teen (18) years or marries; (c) to the dependent
parent, only in case no widow is entitled to allow-
ance, then the amount to be paid to the guardian of any
dependent minor child or children under the age of
eighteen (18) years shall be increased to the sum of
Twelve Dollars ($12) per month for each said de-
pendent minor child; and provided that such minor
child under eighteen (18) years of age is unmarried.
Allowance or benefits payable to any minor child
shall cease when such child becomes eighteen (18)
years of age or marries.

If a member of this Pension System is killed while
performing his official duties, or dies from injuries
received while performing such duties, the same
benefits payable under the provisions of this Act to
Pension System members who hold a pension certifi-
cate and have attained fifty-five (55) years of age,
shall be paid to the persons designated in this
Section.

Death From Natural Causes or Causes Not Covered

Sec. 13. If a member of this Pension System
dies from natural causes or from any cause not
covered under the provisions of this Act, the Pen-
sion Board shall pay to his estate all of the exact
amount of money he has heretofore paid into the
Pension System Fund in lieu of any other benefit
provided for herein.

Retirement for Disability

Sec. 14. Any member of this Pension System
who becomes incapacitated for performance of his
duty by reason of any bodily injury received in, or
illness caused by the performance of his duty, shall
be retired upon presentation to the Pension Board of
proof of the disability, and shall receive a retire-
ment allowance equal to the percentage of his dis-
ability; for example, if he is fifty per cent (50%) incapacitated, he shall receive fifty per cent (50%) of
the amount he would receive if retired after comple-
tion of twenty-five (25) years service per month
during the remainder of his life or so long as he
remains incapacitated. Provided, however, that if,
at that time, he is qualified as to age and service for
retirement, he shall receive the full amount of pen-
sion per month, or in the event he is past fifty-five
(55) years of age and has more service than the
minimum of twenty-five (25) years, and becomes
incapacitated he shall receive the full amount of
pension per month plus One Dollar ($1) for each
additional year as his service bonus. When any
member has been retired for permanent, total or
partial disability, he shall be subject at all times to
re-examination by the Pension Board and shall sub-
mit himself to such further examination as the
Pension Board may require. If any member shall
refuse to submit himself to any such examination,
the Pension Board may, within its discretion, order
said payment stopped. If a member who has been
retired under the provisions of this Section should
thereafter recover, so that in the opinion of the
Pension Board he is able to perform the usual and
customary duties formerly handled by him for said
city in the Police Department, and such member is
reinstated or tendered reinstatement to the position
he held at the time of his retirement, then the
Pension Board shall order such pension payment stopped. No person shall be retired either for total or partial disability unless there shall be filed with the Pension Board an application for pension benefit, at which time the Pension Board shall have him examined by no fewer than three (3) physicians, to be chosen by the Pension Board and to make their report to the Pension Board. If a policeman is hurt while working on a regular shift or tour of duty, or if he is at home or some other place and an emergency arises wherein he has to perform the official duties of a policeman and is injured, he shall receive the benefits of this Act. In all cases where a policeman seeks benefits under this Section, it shall be the duty of the Pension Board to determine if the policeman did receive his injuries in the performance of his duty.

**Computation of Period of Service**

Sec. 15. In computing the twenty-five (25) years of service required for a retirement pension, twenty-five (25) years of continuous service shall be required; provided, however, that in case of interruption of less than two (2) years, credit shall be given for previous service if out of service more than two (2) years; no service prior to said interruption shall be counted, other than provided in Section 21.

**Leaving Employment Before Becoming Eligible**

Sec. 16. When any member of such Pension System shall leave the employment of such Police Department except as specifically provided for herein, either voluntarily or involuntarily, before becoming eligible for a retirement or disability pension, he shall cease to be a member of such Pension System. When a member has left the service of the city Police Department as aforesaid and has therefore ceased to be a member of such Pension System, if such person shall thereafter be re-employed by the city Police Department he shall thereupon be reinstated as a member of such Pension System provided he is in good physical and mental condition as evidenced by a written certificate executed under oath by a duly licensed and practicing physician or physicians in the city, satisfactory to the Pension Board. Prior service of such member with such city Police Department shall not be counted toward his retirement pension unless such member returns to the service within two (2) years from his separation therefrom, and also shall, within six (6) months after his re-employment by the city in the Police Department, make a written application to the Pension Board for reinstatement in the Pension System.

**Transfers From Other City Departments**

Sec. 17. No prior credit shall be allowed for service to any person who may hereafter transfer from some other department in the city to the Police Department. Policemen now serving who have heretofore transferred from some other city department may be given credit for such prior service by the Pension Board. The prior-service credits shall be granted within sixty (60) days after this Act becomes law. For example, if one is transferred from some other department of the city to the city Police Department, sixty-one (61) days after this Act becomes law, such person's service will be computed only from the day he enters the city Police Department.

**Gifts and Donations**

Sec. 18. The Police Officers' Pension System may accept gifts and donations and such gifts or donations shall be added to the Pension Fund for the use of such System.

**Legal Matters**

Sec. 19. The city attorney of such city shall handle all legal matters for the Pension System which are referred to him by the Pension Board or city without additional compensation therefor. The Pension Board may, however, employ an attorney, or attorneys, to handle its legal matters and shall pay reasonable compensation therefor out of said Pension System Fund.

**Exemption From Legal Process; Assignment or Transfer**

Sec. 20. No portion of any such Pension System Fund, either before or after its order of disbursement by said Pension Board, and no amounts due or to become due any beneficiary or pensioner, under this Act, shall ever be held, seized, taken, subjected to, detailed, or levied upon by virtue of any execution, attachment, garnishment, injunction, or other writ, and no order or decree, and no process or proceedings whatsoever, shall issue out of or by any court of this State for the payment of satisfaction, in whole or in part, out of said Pension System Fund, of any debt, damage, claim, demand, or judgment against any such members, pensioners, dependents, or any person whomsoever, nor shall such Pension System Fund or any part thereof, or any claim thereto, be directly or indirectly assigned or transferred. Any attempt to transfer or assign the same or any part thereof or any claim thereto shall be void. Said funds shall be sacredly held, kept, and disbursed for the purposes provided by this Act, and for no other purpose whatsoever.

**Military Service**

Sec. 21. Members of the Pension System engaged in active military service required because of a National Emergency shall not be required to make the monthly payments into the Pension System Fund provided for in this Act, nor shall they lose any previous years of service with the Police Department caused by such military service. Such military service shall count as continuous service in the Police Department, provided that when the member is discharged from the military service he shall immediately return to his former duties with the city Police Department. The city, however, shall be required to make its regular monthly pay-
ments into the Pension System Fund on each member while he is so engaged in such military service. In the event of death of a member of this Pension System, either directly or indirectly caused from such military service, his widow or dependent parent or other dependents shall not be entitled to receive any benefits from this Fund.

Civil Actions

Sec. 22. The Pension Board of any city as herein created and constituted shall have the power and authority to recover by civil action from any offending party, or from his bondsmen, if any, any moneys paid out or obtained from said Pension Fund through fraud, misrepresentation, theft, embezzlement, or misapplication, and may institute, conduct and maintain such action in the name of said Board for the use and benefit of such Fund.

Partial Invalidity

Sec. 23. If any provision, section, part, subsection, sentence, clause, phrase, or paragraph of this Act be declared invalid or unconstitutional, the same shall not affect any other portion or provision hereof, and all other provisions shall remain valid and unaffected by such invalid portion, if any.

Former Employees Now Receiving Pension

Sec. 24. Immediately upon this Act becoming a law, the former employees of any such Police Department who are now being paid a pension from a pension fund, shall hereafter be paid a monthly pension of One Hundred Dollars ($100) per month out of the Pension Fund provided for herein. Any such city shall have the right and option to pay such former employees any amount over and above those hereinafore provided for, but such additional payments, if any, shall be borne by such city and not the Pension Fund.

Election: Adoption Without Election

Sec. 25. The city is authorized to call an election to determine if the city desires to adopt this Act after a petition has been presented to the governing body of the city, signed by five per cent (5%) of the qualified voters of the city who voted in the last municipal election. Such election must be advertised by publication in at least one (1) newspaper of general circulation in said city once each week for four (4) consecutive weeks. The question shall be submitted to the qualified voters of the city at a special election to be held for such purpose at which all ballots shall have printed thereon:

No other issues shall be joined with the proposition submitted at this election on the same ballot except as provided in Subsection (f), Section 3 of this Act.

Nothing herein is to prevent the city governing body from adopting the proposed pension plan without an election.

Withdrawal of Moneys; Return on Reinstatement

Sec. 26. Any policeman who has been relieved from duty or voluntarily quits shall have the right to withdraw all moneys paid in by him into the Pension System. If he is reinstated in the Police Department with full seniority, he shall return to the Pension Fund the amount of money previously withdrawn when his services were terminated. [Acts 1951, 52nd Leg., p. 387, ch. 254. Amended by Acts 1971, 63rd Leg., p. 1056, ch. 562, § 1 to 5, eff. Aug. 29, 1971.]

Each member of the system shall contribute to the system an amount determined by the city or town, which may not exceed 10 percent of the member's annual compensation paid by the city or town, and the city or town shall contribute for each member an amount that at least equals but is not more than twice the amount of the member's contribution. A member of a municipal system is eligible for disability benefits if he is disabled in the course of his employment with the city or town. A member is eligible for retirement benefits if he is 65 years old or older, or he is 60 years old but less than 65 years old and has been employed by the city or town for 25 years or more.

3. OLD AGE ASSISTANCE

Art. 6243-1. Repealed by Acts 1941, 47th Leg., p. 914, ch. 562, § 45

Art. 6243-2. Purpose

It is hereby declared to be the intention and purpose of the Legislature by and through the enactment of this Act to provide, in part, for the payment of old age assistance benefits, by raising revenues for such purpose and by delimiting the class of persons who shall be eligible for old age assistance benefits. It is recognized by the Legislature that it is impracticable to pay benefits to persons over sixty-five (65) years of age, except those who are in necessitous circumstances; in order that the needy aged may be cared for, it is necessary that the State have funds on hand to meet the accruing obligations therefor. In order to accomplish this purpose, the Legislature declares that it is necessary to accomplish two incidental objectives, namely: (1) the number of persons receiving old age assistance benefits must be decreased, and (2) in addition, more revenues must be provided for the purposes of paying such benefits. The accomplishment of this object is the purpose of this Act.

Transfer to Texas Old Age Assistance Fund

Sec. 2. It is further provided that there is hereby appropriated and transferred all monies, choses in action, funds and things of value now a part of and accumulated in the Permanent Old Age Pension Fund into the Texas Old Age Assistance Fund to be used by the Old Age Assistance Commission for the sole purpose of paying Old Age Assistance Grants to applicants whose applications have been and may be approved and allowed; and be it further provided that no portion of said money shall be expended for administrative purposes; and be it further provided that the State Treasurer and all other accounting officers in the State are hereby authorized and

Sec. 4. The authority conferred by this Act to pay said interest shall not be limited by the provisions of Section 6 of Chapter 472, Acts of the Second Called Session of the Forty-fourth Legislature.

Sec. 5. For the purposes of this Act and until the appropriation made in House Bill No. 8, now pending in this, the Third Called Session of the Forty-fourth Legislature, becomes available, the unexpended balance of the appropriation made in Chapter 472 of the Acts of the Second Called Session of the Forty-fourth Legislature for the purpose of paying Old Age Assistance and defraying the expense of the administration of the Old Age Assistance Act is hereby reappropriated. The unexpended balance of the appropriation made in said House Bill No. 8 remaining on hand on August 31, 1937, is hereby reappropriated for the purposes of this Act for the fiscal year ending August 31, 1938, to assure the payment of any warrants issued under the provisions of this Act. Provided, however, that the power conferred in this Act does not authorize the issuance of more than Three Million Dollars ($3,000,000) of warrants upon which or on account of which interest may be paid, and provided further that no such warrants shall be issued after March 1, 1937.

A member may not receive any compensation for travel expenses, including expenses for meals and lodging, other than transportation expenses. A member is entitled to compensation for transportation expenses as provided by the General Appropriations Act. The members of the Board shall qualify by taking the constitutional oath of office before an officer authorized to administer oaths within this state, and, upon presentation of such oath of office, together with the certificate of their appointment, the Secretary of State shall issue commissions to them, which shall be evidence of their authority to act as such.

The Board shall report to the Governor of the State of Texas the receipts and disbursements under this Act for each fiscal year. At the end of the state fiscal year, any unused portion of the funds in the special fund, except funds appropriated to administer this Act, shall be deposited to the credit of the General Revenue Fund. The state auditor shall audit the financial transactions of the Board during each fiscal biennium.

(b) Within 30 days after the date a licensing examination is administered under this Act, the Board shall notify each examinee of the results of the examination.

(c) If requested in writing by a person who fails the licensing examination administered under this Act, the Board shall furnish the person with an analysis of the person's performance on the examination.

(d) The Board may waive any license requirement for an applicant with a valid license from another state having license requirements substantially equivalent to those of this state.

(d) The Board shall prepare information of consumer interest describing the regulatory functions of the Board and the Board's procedures by which consumer complaints are filed with and resolved by the Board. The Board shall make the information available to the general public and appropriate state agencies.

(e) Each written contract for services in this state of a licensed plumber shall contain the name, mailing address, and telephone number of the Board.

A violation of this Act shall include but not be limited to: obtaining a license through error or fraud; having wilfully, negligently or arbitrarily violated municipal rules or ordinances regulating sanitation, drainage and plumbing; knowingly making a substantial misrepresentation of services to be provided or which have been provided; or making any false promise with intent to influence, persuade, or induce an individual to contract for services. Any person whose license has been revoked may, after the expiration of one year from the date of such revocation, but not before, apply for a new license.

(b) A person who violates any provision of this Act or any rule, regulation, permit, or other order of the Board is subject to a civil penalty of not less than $50 or more than $1,000 for each act of violation and for each day of violation after notification to be recovered as provided by this Act.

(c) If the Board purposes to refuse a person's application for licensure or to suspend or revoke a person's license, the person is entitled to a hearing before the Board. Grounds for suspension or revocation of a license due to suspected incompetence or wilful violation by a licensee may be determined through retesting procedures.

(d) Proceedings for the refusal, suspension, or revocation of a license are governed by the Administrative Procedure and Texas Register Act, as amended (Article 6252-13a, Vernon's Texas Civil Statutes).

However, in no case may the commission, on its own initiative, issue opinions that include the name of any individual who may be affected by the opinion.

(e) The commission shall number and categorize each advisory opinion issued and shall annually compile a summary of its advisory opinions in a single reference document.

(f) It is a defense to prosecution or to imposition of a civil penalty that the person reasonably relied on a written advisory opinion of the commission relating to the provision of law he is alleged to have violated.

(g) If the commission issues an advisory opinion concluding that a transaction or activity constitutes the conversion of a contribution to personal use in violation of Section 239d, Texas Election Code, a person involved in such a conversion will not be civilly liable to the state if, on or before the 30th day after the date the opinion is published, he returns an amount equal to the amount converted to the political fund from which it was removed and within that period notifies the commission by certified mail that the return has been completed as required by this subsection.

(h) The authority of the commission to issue an opinion does not affect the authority of the attorney general or the secretary of state to issue an opinion as authorized by law. If an opinion of the secretary of state conflicts with an opinion of the commission, the attorney general shall issue an opinion to resolve the conflict.

(i) The commission shall make recommendations to the legislature for proposed legislation it considers necessary in connection with this article.

Existing Statutory Authorizations for Employing, Promoting or Dismissing Employees; General Qualifications Requirements; Merit Systems; New Class Description of Work

Sec. 4. Commencing with the effective date of this Act, all regular full-time salaried employments with the exceptions and deferments specified hereinabove shall be made only in conformity with the classes of work described in such Position Classification Plan, and under the titles authorized by such Plan. The State Auditor shall examine or cause to be examined in periodic post-audits of expenditures of State departments and agencies, and by such methods as he deems appropriate and adequate, whether employments have been made in accordance with the provisions of this Act, and shall report the facts as found to the Governor, the Comptroller, and the Legislative Audit Committee.

The preceding two paragraphs of this Section, however, shall not be construed as abrogating statutory authorizations for certain State agencies to operate under employee merit systems as a condition for qualifying for Federal grants-in-aid; and all such merit systems as have been or may hereafter be agreed to by the respective State agencies and agencies of the U.S. Government shall be in full force and effect, subject only to the applicable laws of this State.

Art. 6252-11 PUBLIC OFFICES, OFFICERS AND EMPLOYEES

promptly provide, within the limitations of the General Appropriations Act and subject to the approval of the State Auditor after obtaining the advice of the Legislative Audit Committee, either an existing or a new class description of work and a corresponding salary range which will permit such needed employment. Notification of such action shall be made to the Comptroller of Public Accounts by the Classification Officer. Nothing in this paragraph or in this Act, however, shall be so construed as to authorize an increase in the number of positions or in the amount of appropriations as may be set forth for any such agency in the General Appropriations Act.

Classification Officer; Qualifications; Duties; Assistant; Use of Data Processing Center; Periodic Studies; Exceptions to or Violations of Plan; Appeals

Sec. 6. There is hereby established in the office of the State Auditor the position of Classification Officer. The Classification Officer shall be appointed by the State Auditor, subject to the advice and approval of the Legislative Audit Committee. No person shall be appointed to the office of Classification Officer who has not had a minimum of six (6) years experience in position classification or personnel management work, or an equivalent period of experience in related work in State employment as to peculiarly qualify him for the position. Such Classification Officer shall be paid such annual salary as may be set in the Appropriations Act, and shall have for the performance of his duties such assistance as the State Auditor may assign to him from the appropriations provided for that purpose.

The Classification Officer may, subject to the approval of the State Auditor and the Legislative Audit Committee, appoint a First Assistant Classification Officer to whom he may delegate in his absence statutory authority and responsibility as is provided the Classification Officer in this Act and other acts relating to the Position Classification Plan.

The Classification Officer also may have at his disposal when available without charge the use of the data processing center in the office of the Comptroller of Public Accounts for purposes of processing any position classification data that might be pertinent and useful.

In accordance with the provisions of law, the Classification Officer shall maintain on a current and accurate basis the Position Classification Plan, advise and assist State agencies to insure equitable and uniform application of such Plan, assist in personnel audits to assure conformity, and make such recommendations as he may think necessary and desirable respecting the operation and improvement of the Position Classification Plan to the Governor and the Legislature.

The Classification Officer also shall make periodic studies of salary rates paid in industry and other governmental units for like or similar work performed in the State Government, and shall report his findings and recommendations for the realistic adjustment of State salary ranges to the Governor's Budget Office and to the Legislative Budget Board by not later than October 1st immediately preceding a Regular Session of the Legislature.

When exceptions to or violations of the Position Classification Plan or of prescribed salary ranges are revealed by personnel audits, the Classification Officer shall notify the agency head in writing and specify the points of nonconformity or violation. The executive head of such agency shall then have reasonable opportunity to resolve the exception or end the violation by reassigning the employee to another position title or class consistent with the work actually performed, by changing the employee's title or salary rate to conform to the prescribed Classification Plan and salary range, or by obtaining a new class description of work and salary range to correct the exception or violation.

If no action is taken by the executive head of such agency to correct or end the exception or violation within twenty (20) calendar days following the date of the written notification made by the Classification Officer, such Officer shall make a written report of the facts to the Governor and the Legislative Budget Board. The Governor may then determine, after obtaining the advice of the Legislative Audit Committee, the action to be taken in correcting the exception or violation and may, within his discretion, direct the Comptroller not to issue payroll warrants for the employee or for the position affected by the exception or violation until such discrepancy has been corrected.

Any decision or finding made by the Classification Officer under the provisions of this Act may be appealed by any employee or by the executive head of any agency to the Legislative Audit Committee under such rules governing appellate procedure as said Committee may adopt.

A department, insti-

Sec. 4. Public funds may be expended by the department, institution, or agency for the training or education of an administrator or employee only where the training or education is related to the current or prospective duty assignment of the administrator or employee. Where the training or education is so related, the department, institution, or agency may make the administrator’s or employee’s present duty assignment, in part or in whole, attendance at designated training or education programs.

Sec. 5. Each department, institution, and agency shall make regulations concerning the eligibility of its administrators and employees for training and education supported by it and the obligations assumed by the administrators and employees upon receiving this training and education. (c) The Texas State Library shall compile a list of documents, films, recordings, and reports of intangible results submitted to it under Section 5(b) of this Act and shall file the list in each quarter of the calendar year with the Secretary of State for publication in the Texas Register.

(d) If the consulting service desired by a state agency is a continuation of a service previously performed by a private consultant, the agency shall state this in the invitation for offers filed with the Secretary of State under Subsection (a) of this section. If the state agency intends to award the contract for the consulting services to the private consultant that previously performed the services unless a better offer is submitted, it shall state this in the invitation for offers.

Conflicts of Interest

Sec. 6A. An officer or employee of a state agency who has a financial interest in a firm or corporation that is a private consultant and that submits an offer to provide consulting services to the agency or who is related within the second degree by consanguinity or affinity to a person having the financial interest shall report the financial interest to the executive head of the state agency not later than the 10th day after the day on which the private consultant submits the consulting services offer.

Restriction on Former Employees of a State Agency

Sec. 6B. A person who offers to perform a consulting service for a state agency and who has been employed by the agency or by another state agency at any time during the two years preceding the making of the offer shall disclose in the offer the nature of the previous employment with the agency or the other state agency, the date of termination of the employment, and the annual rate of compensation for the employment at the time of its termination. A state agency that accepts the offer shall include in the information filed under Subsection (b) of Section 6 of this Act a statement about the previous employment and the nature of the employment.

Contract Void

Sec. 6C. (a) If a state agency contracts to use a private consultant without complying with the requirements of Section 6 of this Act or if a person contracts to perform a consulting service for a state agency without complying with the requirements of Section 6B of this Act, the contract is void.

(b) If a contract is void under this section, the comptroller or a state agency may not make any payments under the contract from any state or federal funds held in or outside the State Treasury.

Legislative Intent

Sec. 6D. (a) It is the intent of the legislature that this Act be interpreted in a manner that assures the greatest fair competition in the selection by state agencies and regional councils of government of private consultants under contracts covered by this Act and that assures that all potential providers of consulting services are afforded notice of the need for and opportunity to provide the services.

(b) This Act is not intended to discourage the use by state agencies or regional councils of government of private consultants if their use may reasonably be expected to result in a more efficient and less costly operation or project. This Act is not intended to prohibit the letting of a sole-source contract for consulting services if no proposal is received from a competent, knowledgeable, and qualified private consultant at a reasonable fee, after the procedures set forth in this Act have been followed.

Without prejudice to any other mode of citation, the contents of the Texas Register may be cited by volume and page number.

Procedure for Adoption of Rules

Sec. 5. (a) Prior to the adoption of any rule, an agency shall give at least 30 days' notice of its intended action. Notice of the proposed rule shall be filed with the secretary of state and published by the secretary of state in the Texas Register. The notice must include:

(1) a brief explanation of the proposed rule;

(2) the text of the proposed rule, except any portion omitted as provided in Section 6(c) of this Act, prepared in a manner to indicate the words to be added or deleted from the current text, if any;

(3) a statement of the statutory or other authority under which the rule is proposed to be promulgated, including a concise explanation of the particular statutory or other provisions under which the rule is proposed, and a certification that the proposed rule has been reviewed by legal counsel and found to be within the agency's authority to adopt;

(4) a fiscal note showing the name and title of the officer or employee responsible for preparing or approving it and stating for each year for the first five years that the rule will be in effect:

(B) estimated reductions in costs to the state and to local governments as a result of enforcing or administering the rule;

(C) estimated loss or increase in revenue to the state or to local governments as a result of enforcing or administering the rule; and

(b) Each notice of a proposed rule becomes effective as notice when published in the register. The notice shall be mailed to all persons who have made timely written requests of the agency for advance notice of its rulemaking proceedings. However, failure to mail the notice does not invalidate any actions taken or rules adopted. Except as provided by this subsection, a proposed rule is automatically withdrawn six months after the date of publication of notice of the proposed rule in the Texas Register if the agency has failed within that time to adopt, adopt as amended, or withdraw the proposed rule.

c) Prior to the adoption of any rule, an agency shall afford all interested persons reasonable opportunity to submit data, views, or arguments, orally or in writing. In the case of substantive rules, opportunity for public hearing must be granted if requested by at least 25 persons, by a governmental subdivision or agency, or by an association having at least 25 members. The agency shall consider fully all written and oral submissions concerning the proposed rule. On adoption of a rule, the agency, if requested to do so by an interested person either prior to adoption or within 30 days after adoption, shall issue a concise statement of the principal reasons for and against its adoption, incorporating in the statement its reasons for overruling the considerations urged against its adoption.

c-1) The agency order finally adopting a rule must include:

(1) a reasoned justification of the rule, including a summary of comments received from parties interested in the rule and showing the names of any interested group or association offering comment on the rule and whether they were for or against its adoption, and also including a restatement of the rule's factual bases and the reasons why the agency disagrees with party submissions and proposals;

(2) a concise restatement of the particular statutory provisions under which the rule is adopted and of how the agency interprets these provisions as authorizing or requiring the rule; and

subsection, and the agency's written reasons for the adoption of a rule on fewer than 30 days' notice and states in writing its reasons for that finding, it may proceed without prior notice or hearing or on any abbreviated notice and hearing that it finds practicable to adopt an emergency rule. The rule may be effective for a period of not longer than 120 days renewable once for a period not exceeding 60 days, but the adoption of an identical rule under Subsections (a) and (c) of this section is not precluded. An emergency rule adopted under the provisions of this section, and the agency's written reasons for the adoption, shall be filed in the office of the secretary of state for publication in the Texas Register.

(e) No rule hereafter adopted is valid unless adopted in substantial compliance with this section. A proceeding to contest any rule on the ground of noncompliance with the procedural requirements of this section must be commenced within two years after the effective date of the rule.

(f) An agency may use informal conferences and consultations as means of obtaining the viewpoints and advice of interested persons concerning contemplated rulemaking. Each agency also is authorized to appoint committees of experts or interested persons or representatives of the general public to advise it with respect to any contemplated rulemaking. The powers of these committees are advisory only.

(g) Each house of the legislature shall adopt rules establishing a process under which the presiding officer of each house shall refer each proposed agency rule to the appropriate standing committee for review prior to adoption of the rule. When an agency files notice of a proposed rule with the secretary of state pursuant to Subsection (a) of this section, it shall also deliver a copy of the notice to the lieutenant governor and the speaker. On the vote of a majority of its members, a standing committee may transmit to the agency a statement supporting or opposing adoption of a proposed rule.

(3) notices of open meetings issued and filed in the office of the secretary of state as provided by law;
(4) executive orders issued by the governor;

(7) other information of general interest to the public of Texas, which may include, but is not limited to, federal legislation or regulations affecting the state or state agencies and state agency organizational and personnel changes.

(b) The secretary of state shall publish the register at regular intervals, but not less than 100 times each calendar year.

(c) The secretary of state may omit from the register any information the publication of which he deems cumbersome, expensive, or otherwise inexpedient, if the information is made available in printed or processed form by the adopting agency on application for it, and if the register contains a notice stating the general subject matter of the information and the manner in which a copy of it may be obtained.

(d) One copy of each issue of the register shall be made available free on request to each board, commission, and department having statewide jurisdiction, to the governor, to the lieutenant governor, to the attorney general, to each member of the legislature, to each county clerk in the state, and to the supreme court, court of criminal appeals, and each court of civil appeals.

Filing Procedures

Sec. 8. (a) Each agency shall file a document for publication in the Texas Register by either delivering to the office of the secretary of state during normal working hours two certified copies of the document to be filed or by transmitting by electronic means during normal working hours one copy of the document to be filed and delivering during normal working hours a letter of certification to the office of the secretary of state. On receipt of a document required by this Act to be filed in the office of the secretary of state and published in the register, the secretary of state shall note the day and hour of filing on the certified copies or on the letter of certification. One copy of each filed document must be maintained in original form or on
microfilm in a permanent register in the office of
the secretary of state and, on filing, shall be made
available immediately for public inspection during
regular business hours.

(b) If there is a conflict, the official text of a rule
is the text on file with the secretary of state, and
not the text published in the register or on file with
the issuing agency.

(c) The secretary of state may promulgate rules
to insure the effective administration of this Act.
The rules may include, but are not limited to, rules
prescribing paper size and the format of documents
required to be filed by this Act. The secretary of
state may refuse to accept for filing and publication
any document that does not substantially conform
to the promulgated rules.

(d) The secretary of state may maintain on micro-
film or on an electronic storage and retrieval system
the files of agency rules and any other information

tain a table of contents.

(b) A cumulative index to all information required
by this Act to be published during the previous year
shall be published at least once each year.

(c) Each document submitted to the secretary
of state for filing or publication as provided in this Act
must be certified by an official of the submitting
agency authorized to certify documents of that
agency.

(d) Each agency shall designate at least one
individual to act as a liaison through whom all required
documents may be submitted to the secretary of
state for filing and publication.

Effect of Filing
Sec. 10. (a) Each rule hereafter adopted be-
comes effective 20 days after it is filed in the office
of the secretary of state, except that:

(1) if a later date is required by statute or speci-
fied in the rule, the later date is the effective date; and

(2) subject to applicable constitutional or statuto-
ry provisions, an emergency rule becomes effective
immediately on filing with the secretary of state, or
on a stated date less than 20 days thereafter, if the
agency finds that this effective date is necessary
because of imminent peril to the public health, safety
or welfare; and

(3) if a federal statute or regulation requires that
an agency implement a rule by a certain date, the
rule is effective on the prescribed date.

(b) An agency finding, as described in Subsection
(a)(2) of this section, and a brief statement of the
reasons for it, shall be filed with the rule. The
agency shall take appropriate measures to make
emergency rules known to persons who may be
affected by them.

(c) A rule adopted as provided in Subsection (a)(3)
of this section shall be filed in the office of the
secretary of state and published in the register.

petition in writing, stating its reasons for the denial,
or shall initiate rulemaking proceedings in accord-
ance with Section 5 of this Act.

Declaratory Judgment on Validity or Applicability
of Rules
Sec. 12. The validity or applicability of any rule,
including an emergency rule adopted under Section
5(d) of this Act, may be determined in an action for
declaratory judgment in a district court of Travis
County, and not elsewhere, if it is alleged that the
rule, or its threatened application, interferes with or
impairs, or threatens to interfere with or impair, the
legal rights or privileges of the plaintiff. The agen-
cy must be made a party to the action. A declarato-
ry judgment may be rendered whether the plaintiff
has requested the agency to pass on the validity or
applicability of the rule in question. However, no
proceeding brought under this section may be used
to delay or stay a hearing after notice of hearing
has been given if a suspension, revocation, or can-
celation of a license by an agency is at issue before
the agency.

Contested Cases; Notice; Hearings; Records
Sec. 13. (a) In a contested case, all parties must
be afforded an opportunity for hearing after reason-

(b) The notice must include:

(1) a statement of time, place, and nature of the
hearing;

(2) a statement of the legal authority and jurisdic-
tion under which the hearing is to be held;

(3) a reference to the particular sections of the
rules involved; and

(4) a short and plain statement of the matters
asserted.

(c) If the agency or other party is unable to state
the matters in detail at the time the notice is served,
the initial notice may be limited to a statement of the
issues involved. Thereafter, on timely written
application, a more definite and detailed statement
must be furnished not less than three days prior to
the date set for the hearing.
(d) Opportunity must be afforded all parties to respond and present evidence and argument on all issues involved.

(e) Unless precluded by law, informal disposition may be made of any contested case by stipulation, agreed settlement, consent order, or default.

(f) The record in a contested case includes:

(1) all pleadings, motions, and intermediate rulings;
(2) evidence received or considered;
(3) a statement of matters officially noticed;
(4) questions and offers of proof, objections, and rulings of them;
(5) proposed findings and exceptions;
(6) any decision, opinion, or report by the officer presiding at the hearing; and
(7) all staff memoranda or data submitted to or considered by the hearing officer or members of the agency who are involved in making the decision.

(g) Proceedings, or any part of them, must be transcribed on written request of any party. The agency may pay the cost of the transcript or assess the cost to one or more parties. This Act does not limit an agency to a stenographic record of proceedings.

(h) Findings of fact must be based exclusively on the evidence and on matters officially noticed.

(i) The agency may continue a hearing from time to time and from place to place. The notice of the hearing must indicate the times and places at which the hearing may be continued. If a hearing is not concluded on the day it commences, the agency shall, to the extent possible, proceed with the conduct of the hearing on each subsequent working day until the hearing is concluded.

Interpreters for Deaf Parties and Witnesses

Sec. 13A. (a) If a party or subpoenaed witness in a contested case is deaf, the agency shall provide an interpreter whose qualifications are approved by the State Commission for the Deaf to interpret the proceedings for that person.

(b) In this section, “deaf person” means a person who has a hearing impairment, whether or not the person also has a speech impairment, that inhibits the person’s comprehension of the proceedings or communication with others.

Rules of Evidence, Official Notice

Sec. 14. (a) In contested cases, irrelevant, immaterial, or unduly repetitious evidence shall be excluded. The rules of evidence as applied in nonjury civil cases in the district courts of this state shall be followed. When necessary to ascertain facts not reasonably susceptible of proof under those rules, evidence not admissible thereunder may be admitted, except where precluded by statute, if it is of a type commonly relied upon by reasonably prudent men in the conduct of their affairs. Agencies shall give effect to the rules of privilege recognized by law. Objections to evidentiary offers may be made and shall be noted in the record. Subject to these requirements, if a hearing will be expedited and the interests of the parties will not be prejudiced substantially, any part of the evidence may be received in written form.

(b) In connection with any contested case held under the provisions of this Act, an agency may swear witnesses and take their testimony under oath.

(c) On its own motion or on the written request of any party to a contested case pending before it, on a showing of good cause, and on deposit of sums that will reasonably insure payment of the amounts estimated to accrue under Subsections (f)(1) and (2) of this section, an agency shall issue a commission, addressed to the several officers authorized by statute to take depositions, to require that the deposition of a witness be taken, which commission shall authorize the issuance of any subpoenas necessary to require that the witness appear and produce, at the time the deposition is taken, books, records, papers, or other objects as may be necessary and proper for the purposes of the proceeding. The deposition of a member of an agency board may not be taken after a date has been set for hearing.

(d) On its own motion or on the written request of any party to a contested case pending before it, on a showing of good cause, and on deposit of sums that will reasonably insure payment of the amounts estimated to accrue under Subsections (f)(1) and (2) of this section, an agency shall issue a commission, addressed to the several officers authorized by statute to take depositions, to require that the deposition of a witness be taken, which commission shall authorize the issuance of any subpoenas necessary to require that the witness appear and produce, at the time the deposition is taken, books, records, papers, or other objects as may be necessary and proper for the purposes of the proceeding. The deposition of a member of an agency board may not be taken after a date has been set for hearing.

(e) The place of taking the depositions shall be in the county of the witness’ residence, or where the witness is employed or regularly transacts business in person. The commission shall authorize and require the officer or officers to whom it is addressed, or either of them, to examine the witness before him on the date and at the place named in the commission and to take answers under oath to questions which may be propounded to the witness by the parties to the proceeding, the agency, or the attorneys for the parties or the agency. The commission shall require the witness to remain in attendance from day to day until the deposition is begun and completed.

(f) The witness shall be carefully examined, the testimony shall be reduced to writing or typewriting by the officer taking the deposition, or by some person under the officer’s personal supervision, or by the deponent in the officer’s presence, and by no other person, and shall, after it has been reduced to
writing or typewriting, be subscribed by the deponent.

(g) The officer taking the oral deposition may not sustain objections to any of the testimony taken, or exclude any of it, and any of the parties or attorneys engaged in taking testimony have their objections reserved for the action of the agency before which the matter is pending. The administrator or other officer conducting the hearing is not confined to objections made at the taking of the testimony.

(h) When the testimony is fully transcribed, the deposition shall be submitted to the witness for examination and read to or by the witness, unless the examination and reading are waived by the witness and by the parties in writing. However, if the witness is a party to the contested case pending before the agency with an attorney of record, the deposition officer shall notify the attorney of record in writing by registered mail or certified mail that the deposition is ready for examination and reading at the office of the deposition officer, and if the witness does not appear and examine, read, and sign the deposition within 20 days after the mailing of the notice, the deposition shall be returned as provided in this Act for unsigned depositions. In any event, the witness must sign the deposition at least three days prior to the hearing, or it shall be returned as provided in this Act for unsigned depositions. Any changes in form or substance which the witness desires to make shall be entered on the deposition by the officer with a statement of the reasons given by the witness for making them. The deposition shall then be signed by the witness, unless the parties present at the taking of the deposition by stipulation waive the signing or the witness is ill, cannot be found, or refuses to sign. If the deposition is not signed by the witness, the officer shall sign it and state on the record the fact of the waiver, illness, or absence of the witness or the fact of the refusal to sign, together with the reason, if any, given for failure to sign. The deposition may then be used as fully as though signed.

(i) A deposition may be returned to the agency before which the contested case is pending either by mail, or by a party interested in taking the deposition, or by any other person. If returned by mail, the agency shall endorse on the deposition that it was received from the post office and shall cause the agency employee so receiving the deposition to sign it. If not sent by mail, the person delivering it to the agency shall make affidavit before the agency employee so receiving it from the hands of the officer before whom it was taken, that it has not been out of his possession since, and that it has undergone no alteration.

(j) A deposition, after being filed with the agency, may be opened by any employee of the agency at the request of either party or his counsel. The employee shall endorse on the deposition on what day and at whose request it was opened, signing the deposition, and it shall remain on file with the agency for the inspection of any party.

(k) Regardless of whether cross interrogatories have been propounded, any party is entitled to use the deposition in the contested case pending before the agency.

(l) A witness or deponent who is not a party and who is subpoenaed or otherwise compelled to attend any hearing or proceeding to give a deposition or to produce books, records, papers, or other objects that may be necessary and proper for the purposes of the proceeding under the authority of this section is entitled to receive:

(1) mileage of 10 cents a mile, or a greater amount as prescribed by agency rule, for going to, and returning from the place of the hearing or the place where the deposition is taken, if the place is more than 26 miles from the person's place of residence; and

(2) a fee of §10 a day, or a greater amount as prescribed by agency rule, for each day or part of a day the person is necessarily present as a witness or deponent.

(m) Mileage and fees to which a witness is entitled under this section shall be paid by the party or agency at whose request the witness appears or the deposition is taken, on presentation of proper vouchers sworn by the witness and approved by the agency.

(n) In the case of failure of a person to comply with a subpoena or commission issued under the authority of this Act, the agency issuing the subpoena or commission, acting through the attorney general, or the party requesting the subpoena or commission, may bring suit to enforce the subpoena or commission. The court, if it determines that good cause exists for the issuance of the subpoena or commission, shall order compliance with the requirements of the subpoena or commission. Failure to obey the order of the court may be punished by the court as contempt.

(o) In contested cases, documentary evidence may be received in the form of copies or excerpts if the original is not readily available. On request, parties shall be given an opportunity to compare the copy with the original.

(p) In contested cases, a party may conduct cross-examinations required for a full and true disclosure of the facts.

(q) In connection with any hearing held under the provisions of this Act, official notice may be taken of all facts judicially cognizable. In addition, notice may be taken of generally recognized facts within the area of the agency's specialized knowledge. Parties shall be notified either before or during the hearing, or by reference in preliminary reports or otherwise, of the material officially noticed, including any staff memoranda or data, and they must be
afforded an opportunity to contest the material so noticed. The special skills or knowledge of the agency and its staff may be utilized in evaluating the evidence.

(c) In contested cases, all parties are entitled to the assistance of their counsel before administrative agencies. This right may be expressly waived.

Discovery, Entry on Property; Use of Reports and Statements

Sec. 14a. (a) Upon motion of any party showing good cause therefor and upon notice to all other parties, and subject to such limitations of the kind provided in Rule 186b of the Rules of Civil Procedure as the agency may impose, the agency in which an action is pending may order any party:

(1) to produce and permit the inspection and copying or photographing by or on behalf of the moving party any of the following which are in his possession, custody, or control: any designated documents, papers, books, accounts, letters, photographs, objects, or tangible things, not privileged, which constitute or contain, or are reasonably calculated to lead to the discovery of, evidence material to any matter involved in the action; and

(2) to permit entry upon designated land or other property in his possession or control for the purpose of inspecting, measuring, surveying, or photographing the property or any designated object or operation thereon which may be material to any matter involved in the action.

(b) The order shall specify the time, place, and manner of making the inspection, measurement, or survey and taking the copies and photographs and may prescribe such terms and conditions as are just.

(c) The identity and location of any potential party or witness may be obtained from any communication or other paper in the possession, custody, or control of a party, and any party may be required to produce and permit the inspection and copying of the reports, including factual observations and opinions, of an expert who will be called as a witness. Provided, that the rights herein granted shall not extend to other written statements of witnesses or other written communications passing between agents or representatives or the employees of any party to the suit or to other communications between any party and his agents, representatives, or other employees, where made subsequent to the occurrence or transaction upon which the suit is based, and made in connection with the prosecution, investigation, or defense of such claim or the circumstances out of which same has arisen.

(d) Any person, whether or not a party, shall be entitled to obtain, upon request, a copy of any statement he has previously made concerning the action or its subject matter and which is in the possession, custody, or control of any party. If the request is refused, the person may move for an agency order under this section. For the purpose of this paragraph, a statement previously made is (1) a written statement signed or otherwise adopted or approved by the person making it; or (2) a stenographic, mechanical, electrical, or other recording, or a transcription thereof, which is a substantially verbatim recital of an oral statement by the person making it and contemporaneously recorded.

Examination of Record by Agency

Sec. 15. If in a contested case a majority of the officials of the agency who are to render the final decision have not heard the case or read the record, the decision, if adverse to a party to the proceeding other than the agency itself, may not be made until a proposal for decision is served on the parties, and an opportunity is afforded to each party adversely affected to file exceptions and present briefs to the officials who are to render the decision. If any party files exceptions or presents briefs, an opportunity must be afforded to all other parties to file replies to the exceptions or briefs. The proposal for decision must contain a statement of the reasons for the proposed decision and of each finding of fact and conclusion of law necessary to the proposed decision, prepared by the person who conducted the hearing or by one who has read the record. The proposal for decision may be amended pursuant to exceptions, replies, or briefs submitted by the parties without again being served on the parties. The parties by written stipulation may waive compliance with this section.

Decisions and Orders

Sec. 16. (a) A final decision or order adverse to a party in a contested case must be in writing or stated in the record.

(b) A final decision must include findings of fact and conclusions of law, separately stated. Findings of fact, if set forth in statutory language, must be accompanied by a concise and explicit statement of the underlying facts supporting the findings. If, in accordance with agency rules, a party submitted proposed findings of fact, the decision shall include a ruling on each proposed finding. Parties shall be notified either personally or by mail of any decision or order. On written request, a copy of the decision or order shall be delivered or mailed to any party and to his attorney of record.

(c) A decision is final, in the absence of a timely motion for rehearing, on the expiration of the period for filing a motion for rehearing, and is final and appealable on the date of rendition of the order overruling the motion for rehearing, or on the date the motion is overruled by operation of law. If an agency board includes a member who (1) receives no salary for his work as a board member and who (2) resides outside Travis County, the board may rule on a motion for rehearing at a meeting or by mail, telephone, telegraph, or other suitable means of communication. If an agency finds that an imminent peril to the public health, safety, or welfare requires immediate effect of a final decision or order in a contested case, it shall recite the finding
in the decision or order as well as the fact that the
decision or order is final and effective on the date
rendered, in which event the decision or order is
final and appealable on the date rendered and no
motion for rehearing is required as a prerequisite
for appeal.

(d) The final decision or order must be rendered
within 60 days after the date the hearing is finally
closed. In a contested case heard by other than a
majority of the officials of an agency, the agency
may prescribe a longer period of time within which
the final order or decision of the agency shall be
issued. The extension, if so prescribed, shall be
announced at the conclusion of the hearing.

(e) Except as provided in Subsection (e) of this
section, a motion for rehearing is a prerequisite to
an appeal. A motion for rehearing must be filed
within 15 days after the date of rendition of the final
decision or order. Replies to a motion for rehearing
must be filed with the agency within 25 days after
the date of rendition of the final decision or order,
and agency action on the motion must be taken
within 45 days after the date of rendition of the
final decision or order. If agency action is not
taken within the 45-day period, the motion for re-
hearing is overruled by operation of law 45 days
after the date of rendition of the final decision or
order. The agency may by written order extend the
period for agency action beyond 90 days after the date of rendition of the final decision or order. In the event of an extension, the motion for rehearing is overruled by operation of law on the date fixed by the order, or in the absence of a fixed date, 90 days after the date of the final decision or order.

(f) The parties may by agreement with the
approval of the agency provide for a modification
of the times provided in this section.

Ex Parte Consultations

Sec. 17. Unless required for the disposition of
ex parte matters authorized by law, members or
employees of an agency assigned to render a deci-
sion or to make findings of fact and conclusions of
law in a contested case may not communicate, di-
rectly or indirectly, in connection with any issue of
fact or law with any agency, person, party, or their
representatives, except on notice and opportunity
for all parties to participate. An agency member
can communicate ex parte with other members of
the agency, and pursuant to the authority provided
in Subsection (e) of Section 14, members or employ-
ees of an agency assigned to render a decision or to
make findings of fact and conclusions of law in a
contested case may communicate ex parte with em-
ployees of the agency who have not participated in
any hearing in the case for the purpose of utilizing
the special skills or knowledge of the agency and its
staff in evaluating the evidence.

Judicial Review of Contested Cases

Sec. 19. (a) A person who has exhausted all ad-
ministrative remedies available within the agency
and who is aggrieved by a final decision in a con-
tested case is entitled to judicial review under this
Act. This section is cumulative of other means of
redress provided by statute.

(b) Proceedings for review are instituted by filing
a petition within 30 days after the decision com-
plained of is final and appealable. Unless otherwise
provided by statute:

(1) the petition is filed in a District Court of
Travis County, Texas;

(2) a copy of the petition must be served on the
agency and all parties of record in the proceedings
before the agency; and

(3) the filing of the petition vacates an agency
decision for which trial de novo is the manner of
review authorized by law, but does not affect the
enforcement of an agency decision for which anoth-
er manner of review is authorized.

(c) If the manner of review authorized by law for
the decision complained of is by trial de novo, the
reviewing court shall try all issues of fact and law
in the manner applicable to other civil suits in this
state but may not admit in evidence the fact of prior
agency action or the nature of that action (except to
the limited extent necessary to show compliance
with statutory provisions which vest jurisdiction in
the court). Any party to a trial de novo review may
have, on demand, a jury determination of all issues
of fact on which such a determination could be had
in other civil suits in this state.
(d) If the manner of review authorized by law for the decision complained of is other than by trial de novo:

(1) after service of the petition on the agency, and within the time permitted for filing an answer (or such additional time as may be allowed by the court), the agency shall transmit to the reviewing court the original or a certified copy of the entire record of the proceeding under review and such agency record shall be filed with the clerk of the court. By stipulation of all parties to the review proceedings, the record may be shortened. A party unreasonably refusing to stipulate to limit the record may be taxed by the court for the additional costs. The court may require or permit subsequent corrections or additions to the record;

(2) any party may apply to the court for leave to present additional evidence and the court, if it is satisfied that the additional evidence is material and that there were good reasons for the failure to present it in the proceeding before the agency, may order that the additional evidence be taken before the agency on conditions determined by the court. The agency may modify its findings and decision by reason of the additional evidence and shall file such evidence and any modifications, new findings, or decisions with the reviewing court;

(3) the party seeking judicial review shall offer, and the reviewing court shall admit, the agency record into evidence as an exhibit. The review is conducted by the court sitting without a jury and is confined to the agency record, except that the court may receive evidence of procedural irregularities alleged to have occurred before the agency but which are not reflected in the record.

(e) The scope of judicial review of agency decisions is as provided by the law under which review is sought. Where the law authorizes appeal by trial de novo, the courts shall try the case in the manner applicable to other civil suits in this state and as though there had been no intervening agency action or decision. Where the law authorizes review under the substantial evidence rule, or where the law does not define the scope of judicial review, the court may not substitute its judgment for that of the agency as to the weight of the evidence on questions committed to agency discretion but may affirm the decision of the agency in whole or in part and shall reverse or remand the case for further proceedings if substantial rights of the appellant have been prejudiced because the administrative findings, inferences, conclusions, or decisions are:

(1) in violation of constitutional or statutory provisions;

(2) in excess of the statutory authority of the agency;

(3) made upon unlawful procedure;

(4) affected by other error of law;

(5) not reasonably supported by substantial evidence in view of the reliable and probative evidence in the record as a whole; or

(6) arbitrary or capricious or characterized by abuse of discretion or clearly unwarranted exercise of discretion.

Enforcement of Orders, Decisions, and Rules

Sec. 19A. If it appears to an agency that a person is engaging in or is about to engage in a violation of a final order or decision or a rule of the agency or is failing or refusing to comply with a final order or decision or a rule of the agency, the attorney general, on the request of the agency and in addition to any other remedy provided by law, may bring an action in a district court that is authorized by law to exercise judicial review of the final order or decision or the rule to enjoin or restrain the continuation or commencement of the violation or compel compliance with the final order or decision or the rule.

Appeals

Sec. 20. Appeals from any final judgment of the district court may be taken by any party in the manner provided for in civil actions generally, but no appeal bond may be required of an agency.

Exceptions

Sec. 21. (a) This Act does not apply to suspensions of driver's licenses as authorized in Article IV, Chapter 173, Acts of the 47th Legislature, Regular Session, 1941, as amended (Article 6687b, Vernon's Texas Civil Statutes).

(b) Sections 12 through 20 of this Act do not apply to the granting, payment, denial, or withdrawal of financial or medical assistance or benefits under service programs of the State Department of Public Welfare.

(c) Sections 12 through 20 of this Act do not apply to the Texas Department of Mental Health and Mental Retardation in the allocation of grants-in-aid by the department to mental health and mental retardation services provided by community centers.

(d) This Act does not apply to matters related solely to the internal personnel rules and practices of an agency.

(e) Sections 12 through 20 of this Act do not apply to action by the Commissioner of Banking or the State Banking Board with respect to the issuance of a state bank charter for a bank to assume the assets and liabilities of a state bank the commissioner deems to be in an unsafe condition as defined in Section 1, Article 1a, Chapter VIII, Texas Banking Code of 1943.1

(f) Sections 12 through 20 of this Act do not apply to the Texas Board of Pardons and Paroles in the conducting of hearings or interviews relating to the
Art. 6252-13a  PUBLIC OFFICES, OFFICERS AND EMPLOYEES  3896

grant, rescission, or revocation of parole or other form of administrative release.

(g) Sections 12 through 20 do not apply to hearings by the Texas Employment Commission to determine whether or not a claimant is entitled to unemployment compensation nor shall the remainder of this Act have applicability to other than matters of unemployment insurance maintained by the Texas Employment Commission. In regard to the applicability of Sections 1 through 11, regarding unemployment insurance matters, the agency is precluded from complying with Subdivision (3) of Subsection (a) and Subsection (b) of Section 4 as related to orders and decisions.

(h) Section 19(b)(1) of this Act does not apply to an appeal under Section 32.18, Alcoholic Beverage Code.

1 Article 342-401A, § 1.

Repeal of Conflicting Laws

Sec. 23. Chapter 274, Acts of the 57th Legislature, Regular Session, 1961, as amended (Article 6252-13, Vernon's Texas Civil Statutes), and all other laws and parts of laws in conflict with this Act are repealed. This Act does not repeal any existing statutory provisions conferring investigatory authority on any agency, including any provision which grants an agency the power, in connection with investigatory authority, to take deposits, administer oaths or affirmations, examine witnesses, receive evidence, conduct hearings, or issue subpoenas or summons.

Effective Date

Sec. 23. This Act takes effect on January 1, 1976.

Sections 3 and 4 of Acts 1981, 67th Leg., p. 3605, ch. 816, provide:

"Sec. 3. The attorney general has authority under Section 18A, Administrative Procedure and Texas Register Act (Article 6252-13a, Vernon's Texas Civil Statutes), as added by this Act, to bring an action to enjoin or restrain a person's conduct only if an element of the conduct occurs on or after the effective date of this Act.

The attorney general has authority under that section to bring an action to compel a person to perform certain conduct only if an element of the person's failure or refusal to perform the conduct occurs on or after the effective date of this Act.

"Sec. 4. Sections 5(a) and (b), Administrative Procedure and Texas Register Act (Article 6252-13a, Vernon's Texas Civil Statutes), as amended by this Act, apply to proposed rules submitted for publication in the Texas Register on or after the effective date of this Act."

Section 2 of Acts 1983, 68th Leg., p. 4055, ch. 887, provides:

"This Act takes effect September 1, 1983, and applies only to appeals filed on or after that date. An appeal filed before the effective date of this Act is subject to Section 19(d), Administrative Procedure and Texas Register Act (Article 6252-13a, Vernon's Texas Civil Statutes), as it existed before this Act was filed, and the former law is continued in effect for that purpose."

Art. 6252-13b.  Administrative Code Act

Short Title
Sec. 1. This Act shall be known and may be cited as the Texas Administrative Code Act.

Definitions
Sec. 2. As used in this Act:

(1) "Agency" means any state board, commission, department, or officer having statewide jurisdiction, other than an agency wholly financed by federal funds, the legislature, the courts, the Industrial Accident Board, and institutions of higher education, that makes rules or determines contested cases.

(2) "Code" means the Texas Administrative Code established by this Act.

(3) "Rule" means any agency statement of general applicability that implements, interprets, or prescribes law or policy, or describes the procedure or practice requirements of an agency. The term includes the amendment or repeal of a prior rule but does not include statements concerning only the internal management or organization of any agency and not affecting private rights or procedures.

Compilation: Exclusions
Sec. 3. (a) The secretary of state shall compile, index, and cause to be published a Texas Administrative Code. Periodic supplementation of the code shall be made as often as necessary, but not less than once each year. The code shall contain all rules adopted by each agency pursuant to the Administrative Procedure and Texas Register Act,1 but shall not contain emergency rules adopted pursuant to Section 10(a)(2) of that Act. The code shall also contain appropriate annotations to judicial decisions and opinions of the Attorney General of the State of Texas.

(b) The secretary of state may omit from the code all rules which are general in form but of such local or limited application as to make their inclusion therein impracticable, undesirable, or unnecessary. The secretary of state may also omit from the code any information the publication of which he deems cumbersome, expensive, or otherwise inexpedient, if the information is made available in printed or processed form by the adopting agency on application for it, and if the code contains a notice stating the general subject matter of the information and the
manner in which a copy of it may be obtained. Any such exclusions from publication in the code shall not affect the validity or effectiveness of any rules omitted.

1 Article 6252-13a.

Evidentiary Value

Sec. 4. The codified rules of the agencies published in the Texas Administrative Code, as approved by the secretary of state and as amended by documents subsequently filed with the office of the secretary of state, are to be judicially noticed and constitute prima facie evidence of the text of the documents and of the fact that they are in effect on and after the date of the notation.

Rules

Sec. 5. The secretary of state may promulgate rules to ensure the effective administration of this Act. The rules may include, but are not limited to, rules establishing titles of the code and a system of classification of the subject matter of the code.

Confidentiality of Data Base

Sec. 5A. The data base, which is the machine-readable form of the material prepared for and used in the publication of the Texas Administrative Code, including indexes, annotations, tables of contents, tables of authority, cross-references, compiled rules, and other unique material, is confidential and is exempted from disclosure under the open records law, Chapter 424, Acts of the 63rd Legislature, Regular Session, 1973, as amended (Article 6252-17a, Vernon's Texas Civil Statutes).

Art. 6252-13c. Eligibility of Persons with Criminal Backgrounds for Certain Occupations, Professions, and Licenses

Sec. 1. The definitions contained in the Administrative Procedure and Texas Register Act (Article 6252-13a, Vernon's Texas Civil Statutes) shall apply to this Act.

Sec. 2. This Act shall not apply to the Supreme Court of Texas or to persons licensed or seeking to be licensed under its authority on behalf of the judicial department of government or to any person who seeks to become or is a peace officer as defined in Article 2.12, Code of Criminal Procedure, 1965.

Sec. 3. All agencies of this state and its political subdivisions with the duty and responsibility of licensing and regulating members of particular trades, occupations, businesses, vocations, or professions shall have the authority to obtain from the Texas Department of Public Safety or from a local law enforcement agency the record of any conviction of any person applying for or holding a license from the requesting agency.

Sec. 4. (a) A licensing authority may suspend or revoke an existing valid license, disqualify a person from receiving a license, or deny to a person the opportunity to be examined for a license because of a person's conviction of a felony or misdemeanor if the crime directly relates to the duties and responsibilities of the licensed occupation.

(b) In determining whether a criminal conviction directly relates to an occupation, the licensing authority shall consider:

(1) the nature and seriousness of the crime;
(2) the relationship of the crime to the purposes for requiring a license to engage in the occupation;
(3) the extent to which a license might offer an opportunity to engage in further criminal activity of the same type as that in which the person previously had been involved; and
(4) the relationship of the crime to the ability, capacity, or fitness required to perform the duties and discharge the responsibilities of the licensed occupation.

(c) In addition to the factors that may be considered under Subsection (b) of this section, the licensing authority, in determining the present fitness of a person who has been convicted of a crime, shall consider the following evidence:

(1) the extent and nature of the person's past criminal activity;
(2) the age of the person at the time of the commission of the crime;
(3) the amount of time that has elapsed since the person's last criminal activity;
(4) the conduct and work activity of the person prior to and following the criminal activity;
(5) evidence of the person's rehabilitation or rehabilitative effort while incarcerated or following release;
(6) other evidence of the person's present fitness, including letters of recommendation from: prosecution, law enforcement, and correctional officers who prosecuted, arrested, or had custodial responsibility for the person; the sheriff and chief of police in the community where the person resides; and any other persons in contact with the convicted person; and
(7) it shall be the responsibility of the applicant to the extent possible to secure and provide to the licensing authority the recommendations of the prosecution, law enforcement, and correctional authorities as required under this Act; the applicant shall also furnish proof in such form as may be required by the licensing authority that he or she has maintained a record of good conduct and has paid all outstanding court costs, supervision fees, fines, and restitution as may have been ordered in all criminal cases in which he or she has been convicted.
Art. 6252-13c PUBLIC OFFICES, OFFICERS AND EMPLOYEES 3898

Application
Sec. 2. This Act applies to the Texas Department of Human Resources, the Texas Department of Health, the Texas Department of Community Affairs, the Central Education Agency, the Texas Department of Mental Health and Mental Retardation, and any other commission, board, or department designated to receive block grant funds.

Unit of Government as Defendant; Service of Citation
Sec. 8. Suits instituted pursuant to the provisions of this Act shall name as defendant the unit of government against which liability is sought to be established. In suits against the state citation shall be served on the Secretary of State. In suits against other units of government citation shall be served in the manner prescribed by law for other civil cases. If no method is prescribed by law, then service may be had on the administrative head of the unit of government being sued, if available, and if not, the court in which the suit is pending may authorize service in such manner as may be calculated to afford the unit of government a fair opportunity to answer and defend the suit.

Counsel; Insurance
Sec. 9. The Attorney General of Texas shall defend all actions brought under the provisions of this Act against any unit of government whose authority and jurisdiction is coextensive with the geographical limits of the State of Texas. All units of government whose area of jurisdiction is less than the entire State of Texas shall employ their own counsel in accordance with the organic act under which such unit of government is operating; provided, however, that all units of government are hereby expressly authorized to purchase policies of insurance providing protection for such units of government, their officers, agents and employees against claims brought under the provisions of this Act, and when they have acquired such insurance, they are further authorized to relinquish to the company providing such insurance coverage the right to investigate, defend, compromise and settle any such claim. In the case of suits defended by the Attorney General, he may be fully assisted by counsel provided by insurance carrier. Neither the existence or amount of insurance shall ever be admissible in evidence in the trial of any case hereunder, nor shall the same be subject to discovery.

Compromise and Settlement
Sec. 10. Any and all causes of action brought under the provisions of this Act may be settled and compromised by the unit of government involved when, in the judgment of the Governor, in the case of the state, and in the judgment of the governing body of the unit of government in other cases, such compromise would be to the best interests of such government. It is specifically provided, however, that such approval shall not be required in those instances where insurance has been procured under the provisions of Section 9 hereof.

Collection of Judgments
Sec. 11. Judgments recovered against units of government pursuant to the provisions of this Act shall be enforced in the same manner and to the same extent as judgments are now enforced against such units of government under the statutes and law of Texas; and no additional methods of collecting judgments are granted by this Act. Provided, however, if the judgment is obtained against a unit of government that has procured a contract or policy of liability or indemnity insurance protection, the holder of the judgment may use such methods of collecting said judgment as are provided by the policy or contract and statutes and laws of Texas to the extent of the limits of coverage provided therein. It is expressly provided, however, that judgments under this Act becoming final during any fiscal year need not be paid by such unit of government until the following fiscal year except to the extent that they may be payable by an insurance carrier. For the payment of any final judgment obtained under the provisions of this Act, a unit of government not fully covered by liability insurance is hereby authorized to levy an ad valorem tax, the rate of which, if found by the unit of government to be necessary, may exceed any legal limit otherwise applicable except as may be imposed by the Constitution of the State of Texas. In the event that judgments arising under the provisions of this Act become final against a unit of government in any one fiscal year in an aggregate amount, exclusive of insurance coverage, if any, in excess of one percent of the budgeted tax funds, exclusive of general...
Art. 6252-19  PUBLIC OFFICES, OFFICERS AND EMPLOYEES

obligation debt service requirements, of such unit of government for such fiscal year, then such unit of government may pay such judgments over a period of not more than five years in equal annual installments and shall pay interest on the unpaid balance at the rate provided by law.

Effect of Judgment or Settlement

Sec. 12. (a) The judgment or settlement in an action or claim under this Act shall constitute a complete bar to any action by the claimant, by reason of the same subject matter, against the employee of a unit of government whose act or omission gave rise to the claim.

(b) The State or a political subdivision may not require any employee to purchase liability insurance as a condition of his employment where the State or political subdivision is insured by a policy of liability insurance.

Liberal Construction

Sec. 13. The provisions of this Act shall be liberally construed to achieve the purposes hereof.

Exemptions

Sec. 14. The provisions of this Act shall not apply to:

(1) Any claim based upon an act or omission which occurred prior to the effective date of this Act.

(2) Any claim based upon an act or omission of the Legislature, or any member thereof acting in his official capacity, or to the legislative functions of any unit of government subject to the provisions hereof.

(3) Any claim based upon an act or omission of any of the courts of the State of Texas, or any member thereof acting in his official capacity, or to the judicial functions of any unit of government subject to the provisions hereof.

(4) Any claim based upon an act or omission of an officer, agent or employee of any unit of government in the execution of the lawful orders of any court.

(5) Any claim arising in connection with the assessment or collection of taxes by any unit of government.

(6) Any claim arising out of the activities of the National Guard, the State Militia, or the Texas State Guard, when on active duty pursuant to lawful orders of competent authority.

(7) Any claim based upon the failure of a unit of government to perform any act which said unit of government is not required by law to perform. If the law leaves the performance or nonperformance of an act to the discretion of the unit of government, its decision not to do the act, or its failure to make a decision thereon, shall not form the basis for a claim under this Act.

(8) Any claim arising out of the action of an officer, agent or employee while responding to emergency calls or reacting to emergency situations when such action is in compliance with the laws and ordinances applicable to emergency action.

(9) Any claim based on an injury or death connected with any act or omission arising out of civil disobedience, riot, insurrection or rebellion or arising out of the failure to provide, or the method of providing, police or fire protection.

(10) Any claim arising out of assault, battery, false imprisonment, or any other intentional tort including, but not limited to, disciplinary action by school authorities.

(11) Any claim based upon the theory of attractive nuisance.

(12) Any claim arising from the absence, condition, or malfunction of any traffic of road sign, signal, or warning device unless such absence, condition, or malfunction shall not be corrected by the governmental unit responsible within a reasonable time after notice, or any claim arising from the removal or destruction of such signs, signals or devices by third parties except on failure of the unit of government to correct the same within such reasonable time, after actual notice. Nothing herein shall give rise to liability arising from the failure of any unit of government to initially place any of the above signs, signals, or devices when such failure is the result of discretionary actions of said governmental unit. The signs, signals and warning devices enumerated above are those used in connection with hazards normally connected with the use of the roadway, and this section shall not apply to the duty to warn of special defects such as excavations or roadway obstructions.

Individual Immunity

Sec. 15. Notwithstanding any provision hereof, the individual immunity of public officers, agents or employees of government from tort claims for damages is hereby preserved to the extent and degree that such persons presently are immunized.

Notice of Death or Injury

Sec. 16. Except where there is actual notice on the part of the governmental unit that death has occurred or that the claimant has received some injury or that property of the claimant has been damaged, any person making a claim hereunder shall give notice of the same to the governmental unit against which such claim is made, reasonably describing the damage or injury claimed and the time, manner and place of the incident from which it arose, within six months from the date of the incident. Provided, however, except where there is such actual notice, charter and ordinance provisions of cities requiring notice within a charter period permitted by law are hereby expressly ratified and approved.
Payment of Claim Against State Supported College or University

Sec. 17. No claim or judgment against a state-supported senior college or university, under this Act, shall be payable except by a direct appropriation made by the Legislature for the purpose of satisfying claims and/or judgments, except in the event insurance has been acquired as provided in Section 9, in which case the claimant is entitled to payment to the extent of such coverage as in other cases.

Exclusions

Sec. 18. (a) This Act shall not apply to any proprietary function of a municipality. The term “motor-driven equipment” as used herein shall not be construed so as to include medical equipment, such as, but not limited to iron lungs, located in hospitals.

(b) As to premise defects, the unit of government shall owe to any claimant only the duty owed by private persons to a licensee on private property, unless payment has been made by the claimant for the use of the premises. Provided, however, that the limitation of duty contained in this subsection shall not apply to the duty to warn of special defects such as excavations or obstructions on highways, roads or streets, nor shall it apply to any such duty to warn of the absence, condition or malfunction of traffic signs, signals or warning devices as is required in Section 14(12) hereof.

Workmen’s Compensation

Sec. 19. Any governmental unit carrying Workmen’s Compensation Insurance or accepting the provisions of the Workmen’s Compensation Act of the State of Texas shall be entitled to all of the privileges and immunities granted by the Workmen’s Compensation Act of the State of Texas to private persons and corporations.

Application to School and Junior College Districts

Sec. 19A. The provisions of this Act shall not apply to school districts or to junior college districts except as to motor vehicles.

Repealer

Sec. 20. All laws or parts of law, and all enactments, rules and regulations or any and all units of government, and all organic laws of such units of government, in conflict herewith are hereby repealed, annulled and voided, to the extent of such conflict.

 Severability

Sec. 21. In the event any section, subsection, paragraph, sentence or clause of this Act shall be declared unconstitutional or void, the validity of the remainder of this Act shall not be affected or impaired thereby; and it is hereby declared to be the policy and intent of the Legislature to enact the valid portions of this Act, notwithstanding the invalid portions, if any.

Effective Date

Sec. 22. This Act shall be effective from and after January 1, 1970.

Art. 6252-19a. Insurance; Operation of Motor Vehicles, Aircraft, Motorboats or Watercraft; Foster Grandparent Program; State Departments and Agencies; Allowance to Employees

Sec. 1. The State Departments or Agencies who own and operate motor vehicles, aircraft and motorboats or watercraft of all types and sizes shall have the authority to insure their officers and employees from liability arising out of the use, operation and maintenance of such automobiles, trucks, tractors, power equipment, aircraft and motorboats or watercraft used or which may be used in the operation of such Department or Agency. Such insurance shall be provided by the purchase of a policy or policies for that purpose from some liability insurance company or companies authorized to transact business in the State of Texas. All liability insurance so purchased shall be provided on a policy form or forms approved by the State Board of Insurance as to form and by the Attorney General as to liability.

The State Departments and Agencies who receive federal grant funds for a foster grandparent program shall also have the authority to expend those funds to insure the person and property of those foster grandparents as required by the grant.

Sec. 2. In case said department elects not to so insure its employees against liability as above mentioned:

An employee of the State of Texas, in addition to any compensation provided in the General Appropriations Act, shall receive as compensation any sum of money expended by such employee for automobile liability insurance required of such employee by the department, agency, commission, or other branch of the state government for which such employee is employed.

Sec. 3. The State Comptroller shall provide the necessary forms to make such claims which shall require a certification from the head of the Department, Agency, Commission or other branch of the State government that such employee is employed; that as a regular part of such employee’s duties such employee is required to operate a State-owned

motor vehicle, aircraft, motorboat or watercraft; and that such Department, Agency, Commission or other branch of the State government requires such employee to maintain liability insurance as a prerequisite to the operation of the State-owned motor vehicle, aircraft, motorboat or watercraft.

Sec. 4. Such payments are to be charged against the maintenance fund of the department for which such employee is employed.

Sec. 5. Nothing herein shall be construed as a waiver of the immunity of the state from liability for the torts of negligence of the officers or employees of the state.

Art. 6252-19b. Liability of Political Subdivisions for Certain Acts or Omissions of Officers and Employees

Definition

Sec. 1. In this Act “employee” includes an elected official and any other officer or employee, a former officer or employee or their estates, of a county, city, town, special purpose district, or any other political subdivision of the state.

Persons and Conduct Covered: Limits on Liability

Sec. 2. (a) A county, city, town, special purpose district, or any other political subdivision of the state may pay actual damages, court costs, and attorney’s fees adjudged against its employee, if damages are based on an act or omission by the employee in the course and scope of his or her employment for such political subdivision and if the damages arise out of a cause of action for negligence, except a wilful or wrongful act or omission or an act or omission constituting gross negligence or for official misconduct.

(b) This Act shall not be construed to waive, repeal, or modify any defense, immunity, or jurisdictional bar available to the political subdivision or its employees, nor shall this Act be construed to waive, repeal, or modify any provision of the Texas Tort Claims Act, as amended (Article 6252-19, Vernon’s Texas Civil Statutes). The county or political subdivision is not liable under this Act to the extent that damages are recoverable under a contract of insurance or under a plan of self-insurance authorized by statute. Liability of the political subdivision under this Act is limited to $100,000 to a single person and $300,000 for a single occurrence, in the case of personal injury or death, and to $10,000 for a single occurrence of injury of or damage to property.

Defense of Actions

Sec. 3. (a) The political subdivision may provide counsel to represent a defendant in a cause of action covered by this Act. The counsel provided may be the county attorney when the defendant is a county employee or if he is an employee of any other political subdivision an attorney regularly employed by such political subdivision unless there is a potential conflict of interest between the defendant and the county or other political subdivision, in which case the county or other political subdivision may hire private counsel to defend the suit.

(b) Counsel for the county or political subdivision may settle or compromise the portion of a lawsuit that may result in liability of the county or political subdivision under this Act.

(c) In a case defended under this Act, neither the defendant nor the political subdivision may be required to advance security for cost or give bond on appeal or on review by writ of error.

Sec. 4. [Amends § 1 of art. 2372h-7]

Construction Not to Modify Insurance Policies; Rules and Rates

Sec. 5. Section 2 of this Act shall not be construed to modify or change any policy of insurance providing coverage to an officer or employee of a political subdivision. The State Board of Insurance shall promulgate rules and set rates to implement Section 4 of this Act.

A copy of the signed complaint must be presented to the affected officer or employee within a reasonable amount of time after the complaint is filed and before any disciplinary action may be taken against the affected employee.

See, now, art. 6813d.

Such reports shall show the purpose for which such vehicle was used, the mileage traveled, the amounts of gasoline and oil consumed, the passengers carried, and such other information as may be necessary to provide a proper record of the use of such vehicle. Said reports shall be official records of the State and shall be subject to inspection by any State officer or state employee.

Penalty for Failure to Make Reports

Sec. 2. Whoever uses any automobile or truck owned by this State for any purpose and fails to make and file a report of such use as required by this Act within ten (10) days after the use of said automobile or truck shall be fined not less than Five Dollars ($5.00) nor more than One Hundred Dollars ($100.00).

Penalty for Making False Report

Art. 6252–22. Postage Meters of State; Imprint Plates; Private Use Prohibited

Sec. 1. Each State Department, Board, Commission, or State Educational Institution which has installed a postage meter machine must place an imprint plate on such machine, showing: first, that the mail carried by such postage is official State of Texas mail; and second, that there is a penalty for the unlawful use of such postage meters for private purposes.

Sec. 3. The installation and cost of such imprint plates shall be paid from appropriations for postage and contingent expenses made to the various State Departments, Boards, Commissions, or State Educational Institutions.

Art. 6252–23. Representation Before State Agencies; Registration; Violations

Definitions

Sec. 1. In this Act, unless the context otherwise requires:

(a) "state agency" means any office, department, commission or board of the executive department of government;

(b) "person" means any individual including a member of the Legislature, legislative employee, state officer or state employee.

Registration

Sec. 2. Except as herein provided, every person appearing before a state agency or contacting in person any officer or employee thereof on behalf of any other person, firm, partnership, corporation or association in relation to any case, proceeding, application, or other matter before such agency, shall register in an appropriate record, which shall be maintained by the agency for such purpose, the following information:

(a) the name and address of the registrant;

(b) the name and address of the person, firm, partnership, corporation, or association on whose behalf the appearance or contact is made;

(c) a statement as to whether or not the registrant has received or expects to receive any money, thing of value or financial benefit in return for the services rendered in making the appearance or contact.

This Act shall not apply to officers or employees of a state agency when appearing before or contact-
ing officers or employees of another state agency on official inter-agency matters.

Reporting and Filing of Registrations

Sec. 3. Each state agency shall file a report with the Secretary of State between the first and tenth of the month following the close of each calendar quarter. The report shall set forth the names of persons registering with the agency during the preceding quarter, together with the detailed information specified in Section 2 of this Act. Such reports, which shall be considered public records of this state and open to public inspection, shall be appropriately indexed and kept on file in the office of the Secretary of State for a period of four (4) years from the date of filing.

Persons Not Required to Register

Sec. 3A. No person shall be required to register if:
(a) the contact with a state agency or its officers or employees is solely for the purpose of obtaining information, and no attempt is made to influence the action of any officer or employee of such agency;
(b) the contact consists in participating in a public hearing, at which such person enters his appearance at such hearing;
(c) the contact is made in connection with any matter where pleadings or instruments disclosing such person's representation is on file with the agency;
(d) the contact is one for which such person receives no fee, payment, compensation or any thing of value.

Provided, however, that nothing herein shall be construed to prohibit any Justice of the Peace who is authorized by law to act for others in the collection of debts from undertaking such collections where the amount is beyond the jurisdiction of the Justice Court.

[Acts 1929, 41st Leg., p. 483, ch. 227, § 1.]

Art. 6252-25. Aid and Compensation to Persons Wrongfully Imprisoned

Legislative Finding and Statement of Policy

Sec. 1. The Legislature finds that the people of Texas by adding to the Constitution of the State of Texas, Article III, Section 51-c, on November 6, 1956, have adopted the policy that persons who have served sentences in prison for crimes of which they are not guilty should not bear the loss occasioned by this error, but that the people of the State should provide such persons with compensation to reimburse and compensate them for their losses. It is the purpose of this Act to provide the means whereby such compensation may be obtained by persons so wronged.

Claimants Entitled to Compensation

Sec. 2. A person is entitled to compensation provided by this Act if:
(a) if he has served, in whole or in part, a sentence in prison under the laws of this State; and
(b) if he pleaded "not guilty" to the charge for which he was convicted and which led to the imprisonment; and
(c) if he is not guilty of the crime for which he was sentenced; and
(d) if he has received a full pardon for the crime and punishment for which he was sentenced.

Permission to Sue State Granted—Venue—Service

Sec. 3. Any person who by verified petition alleges that he is entitled to compensation under this Act may bring suit against the State of Texas. This Act grants permission to such persons to sue the State under the State's immunity from suit is hereby waived as to all actions brought under this Act. A person who sues the State under this Act shall bring suit in a court of competent jurisdiction either in the county of his residence at the time such suit is commenced or in a court of competent jurisdiction for Travis County. Service of citation upon the State shall be accomplished by service upon the Attorney General. The Attorney General shall represent the State in any proceeding brought under this Act.

Proof Required

Sec. 4. In order to obtain a judgment in his favor, a person who brings suit under this Act must establish by a preponderance of the evidence that he is entitled to compensation under this Act and the amount of compensation to which he is entitled. The judgment of conviction in the trial which resulted in the imprisonment in question is not a defense
on the part of the State to a suit brought under this Act, nor is an indictment, information, complaint or other formal accusation any defense.

Admissible Evidence

Sec. 5. The record of the trial at which the person bringing suit under this Act was convicted, and the pardon or proclamation issued to him by the Governor are admissible as evidence, and all court papers, orders, docket notations or other writings of record in any court in this State are admissible in evidence in a trial of a suit brought under this Act as proof of the facts set out therein.

Measure of Damages for Compensation

Sec. 6. If the jury, or the judge where the case is tried before the judge without a jury, finds that the claimant is entitled to compensation, then the jury or the judge, as the case may be, shall assess the claimant's damages at such a sum of money as will fairly and reasonably compensate him:

(a) for the physical and mental pain and suffering sustained by him as a proximate result of the erroneous conviction or imprisonment from the time of conviction by the trial court;

(b) for all reasonable and necessary medical expenses incurred by him as a proximate result of the erroneous conviction or imprisonment from the time of the conviction in the trial court.

It is provided, however, that the judge or jury, as the case may be, shall not assess the claimant’s damages under Subsection (a) of this Section 6 at an amount greater than Twenty-five Thousand Dollars ($25,000). It is further provided that the judge or jury, as the case may be, shall not assess the claimant’s total damages under this Act at an amount greater than Fifty Thousand Dollars ($50,000).

Limitation of Action

Sec. 7. Any person claiming compensation under this Act whose claim is based upon a sentence served before the effective date of this Act must bring his action within two years after the effective date of this Act or within two years after he discovered or should have discovered the evidence substantiating his innocence. Any person claiming compensation under this Act whose claim is based upon a sentence served in whole or in part, after the effective date of this Act must bring his action within two years after he ceased serving the sentence of imprisonment or after his release from custody, or within two years after he discovered or should have discovered the evidence substantiating his innocence.

served in the case and the state has been given an opportunity to defend the suit, or the officer, contractor, or employee, former officer, contractor, or employee, or estate against whom the action is brought has delivered to the attorney general all process served on him or it not later than 10 days after the service. The attorney general may settle or compromise the portion of a lawsuit that may result in liability of the state under this Act. It is not a conflict of interest for the attorney general to defend a person or estate under this Act and also to prosecute a legal action against that person or estate as may be required or authorized by law if different assistant attorneys general are assigned the responsibility for each action.

(b) In a case defended by the attorney general under this Act, neither the officer, contractor, employee, former officer, contractor, or employee, estate, or attorney general may be required to advance security for cost or give bond on appeal or on review by writ of error.

Funds for Defense or Prosecution

Sec. 4. No funds other than those appropriated by the legislature from the General Revenue Fund to the attorney general may be used to conduct the defense or prosecution of any action that the attorney general is required to defend or prosecute under the provisions of this Act. The term “conduct of the defense of any action” as used in this section includes, but is not limited to, any steps in the investigation, preparation for trial, and participation in actual trial, including depositions or other discovery, and the preparation of any exhibits or other evidence.

Officer Defined

Sec. 5. A member of the commission, board, or other governing body of an agency, institution, or department is an officer of the agency, institution, or department for purposes of this Act.

Section 2 of the 1981 amendatory act provides:

"The law as amended by this Act applies to a judgment awarding damages for a cause of action that arises from an act or omission that occurs on or after the effective date of this Act."

Section 2 of Acts 1983, 68th Leg., p. 6416, ch. 726, provides:

"The provisions of Chapter 309, Acts of the 64th Legislature, Regular Session, 1975 (Article 6252-26, Vernon's Texas Civil Statutes), do not apply to Article 4999, Revised Statutes."

Art. 6252-26a. Medical Malpractice Coverage for University of Texas and Texas A&M University Systems, Texas Tech University School of Medicine, and Texas College of Osteopathic Medicine

Repeal

This article was repealed by Acts 1983, 68th Leg., p. 998, ch. 235, art. 2, § 1(b), eff. Sept. 1, 1983, without reference to the amendment of § 2(1) of this article by Acts 1983, 68th Leg., p. 2210, ch. 413, § 1. See, now, Education Code, § 55.01 et seq.

Art. 6252-27. State Employees Health Fitness and Education Act of 1983

Short Title

Sec. 1. This Act may be cited as the State Employees Health Fitness and Education Act of 1983.

Purpose

Sec. 2. The legislature finds that effective state administration is materially enhanced by programs designed to encourage and create a condition of health fitness in state administrators and employees, and that public money spent for these programs serve an important public purpose. Among the purposes that may be served by these programs are an understanding and diminution of the health risk factors associated with modern society's most debilitating diseases, development of greater productivity and work capacity, reduction in absenteeism, reduction of health insurance costs, and an increase in the general level of health fitness.
Funds and Facilities For Health Fitness Programs

Sec. 3. A state department, institution, commission, or agency may use available public funds for health fitness education and activities and other health fitness related costs. A state department, institution, commission, or agency may also use available facilities for health fitness programs.

Agreements With Other State, Local or Federal Departments

Sec. 4. A state department, institution, commission, or agency may, and is encouraged to, enter into agreements with other state, local, or federal departments, institutions, commissions, or agencies, including a state-supported college or university to present, join in presenting, or participate jointly in health fitness education or fitness activity programs for its administrators and employees.

Plans; Approval

Sec. 5. Each department, institution, commission, or agency desiring to implement a health fitness program shall develop a plan prior to such implementation which shall address the participants, purpose, nature, duration, costs, and expected results of such program. However, no such plan shall be implemented and no public funds shall be expended for such programs until the program is approved in writing by the governor or his designated representative after review and comment by the Governor's Commission on Physical Fitness.

CHAPTER 1. GENERAL PROVISIONS

Sec.
1.001. Purpose of Title.
1.002. Construction of Title.

§ 1.001. Purpose of Title

(a) This title is enacted as a part of the state's
continuing statutory revision program, begun by
the Texas Legislative Council in 1963 as directed by
the legislature in Chapter 448, Acts of the 58th Legislature, 1963 (Article 5429b-1, Vernon's Texas Civil Statutes). The program contemplates a topic-by-topic revision of the state's general and permanent statute law without substantive change. It is contemplated that this title will be included in the future in a government code.

(b) Consistent with the objectives of the statutory revision program, the purpose of this title is to make the general and permanent public retirement system law more accessible and understandable by:

1. rearranging the statutes into a more logical order;
2. employing a format and numbering system designed to facilitate citation of the law and to accommodate future expansion of the law;
3. eliminating repealed, duplicative, unconstitutional, expired, executed, and other ineffective provisions; and
4. restating the law in modern American English to the greatest extent possible.

§ 1.002. Construction of Title
The Code Construction Act (Article 5429b-2, Vernon's Texas Civil Statutes) applies to the construction of each provision in this title, except as otherwise expressly provided by this title.

The actuarial determination must be disclosed to members and annuitants at the time annual statements are next provided under Subsection (c) of this section after the determination is made. An actuary who makes a determination under this subsection must have at least five years of experience working with one or more public retirement systems and be a fellow of the Society of Actuaries, a member of the American Academy of Actuaries, or an enrolled actuary under the federal Employees Retirement Income Security Act of 1974.

§ 12.201

appropiated or dedicated to the system, for the benefit of the members and retirees of the system and their beneficiaries.

§ 12.202. Investment of Surplus

(a) The governing body of a public retirement system is responsible for the management and administration of the funds of the system.

(b) When, in the opinion of the governing body, a surplus of funds exists in accounts of a public retirement system over the amount needed to make payments as they become due within the next year, the governing body shall deposit all or as much of the surplus as the governing body considers prudent in a reserve fund for investment.

(c) The governing body shall determine the procedure it finds most efficient and beneficial for the management of the reserve fund of the system. The governing body may directly manage the investments of the system or may choose and contract for professional investment management services.

§ 12.203. Fiduciary Responsibility

(a) In making and supervising investments of the reserve fund of a public retirement system, an investment manager or the governing body shall discharge its duties solely in the interest of the participants and beneficiaries:

(1) for the exclusive purposes of:
   (A) providing benefits to participants and their beneficiaries; and
   (B) defraying reasonable expenses of administering the system;

(2) with the care, skill, prudence, and diligence under the prevailing circumstances that a prudent person acting in a like capacity and familiar with matters of the type would use in the conduct of an enterprise with a like character and like aims;

(3) by diversifying the investments of the system to minimize the risk of large losses, unless under the circumstances it is clearly prudent not to do so; and

(4) in accordance with the documents and instruments governing the system to the extent that the documents and instruments are consistent with this subchapter.

(b) In choosing and contracting for professional investment management services and in continuing the use of an investment manager, the governing body must act prudently and in the interest of the participants and beneficiaries of the public retirement system.

(c) A trustee is not liable for the acts or omissions of an investment manager appointed under Section 12.204 of this subtitle, nor is a trustee obligated to invest or otherwise manage any asset of the system subject to management by the investment manager.

(d) An investment manager appointed under Section 12.204 of this subtitle shall acknowledge in writing the manager's fiduciary responsibilities to the fund the manager is appointed to serve.

(e) The investment standards provided by Subsection (a) of this section and the policies, requirements, and restrictions adopted under Section 12.204(c) of this subtitle are the only standards, policies, or requirements for, or restrictions on, the investment of funds of a public retirement system by an investment manager or by a governing body during a 90-day interim between professional investment management services. Any other standard, policy, requirement, or restriction provided by law is suspended and not applicable during a time, and for 90 days after a time, in which an investment manager is responsible for investment of a reserve fund. If an investment manager has not begun managing investments of a reserve fund before the 91st day after the date of termination of the services of a previous investment manager, the standards, policies, requirements, and restrictions otherwise provided by law are applicable until the date professional investment management services are resumed.

§ 12.204. Investment Manager

(a) The governing body of a public retirement system may appoint investment managers for the system by contracting for professional investment management services with one or more organizations, which may include a bank if it has a trust department, that are in the business of managing investments.

(d) A political subdivision of which members of the public retirement system are officers or employees may pay all or part of the cost of professional investment management services under a contract under this section. Any cost not paid directly by a
political subdivision is payable from funds of the public retirement system.

1 29 U.S.C.A. § 901 et seq.

§ 12.205. Investment Custody Account

(a) If the governing body of a public retirement system contracts for professional investment management services, it also shall enter into an investment custody account agreement designating a state or national bank as custodian for all assets allocated to or generated under the contract.

(b) Under a custody account agreement, the governing body of a public retirement system shall require the designated bank to perform the duties and assume the responsibilities for funds under the contract for which the agreement is established that are performed and assumed, in the absence of a contract, by the custodian of system funds.

(c) A political subdivision of which members of the retirement system are officers or employees may pay all or part of the cost of bank services under a custody account agreement under this section. Any cost not paid directly by a political subdivision is payable from funds of the public retirement system.

§ 12.206. Evaluation of Investment Services

(a) The governing body of a public retirement system may at any time and shall at frequent intervals monitor the investments made by any investment manager for the system. The governing body may contract for professional evaluation services to fulfill this requirement.

(b) A political subdivision of which members of the retirement system are officers or employees may pay all or part of the cost of professional evaluation services under a contract under this section. Any cost not paid directly by a political subdivision is payable from funds of the public retirement system.

§ 12.207. Custody and Use of Funds

(a) An investment manager other than a bank having a contract with a public retirement system under Section 12.204 of this subtitle may not be a custodian of any assets of the reserve fund of the system.

(b) When demands of the public retirement system require, the governing body shall withdraw from a custodian of system funds money for use in paying benefits to members and other beneficiaries of the system and for other uses authorized by this subchapter and approved by the governing body.

[Sections 12.208 to 12.300 reserved for expansion]

SUBCHAPTER D. ACTUARIAL ANALYSIS OF LEGISLATION

§ 12.301. When Actuarial Analysis Required

(a) Except as provided by Subsection (f) of this section, a bill or resolution that proposes to change the amount or number of benefits or participation in benefits of a public retirement system or that proposes to change a fund liability of a public retirement system is required to have attached to it an actuarial analysis as provided by this subchapter.

(b) An actuarial analysis required by this section must be prepared by an actuary who is a fellow of the Society of Actuaries, a member of the American Academy of Actuaries, an enrolled actuary under the federal Employees Retirement Income Security Act of 1974,1 and a required actuarial analysis must be attached to the bill or resolution:

(1) at the time it is filed for introduction in either house of the legislature and before a committee hearing on the bill or resolution is held; and

(2) at the time it is reported from a legislative committee of either house for consideration by the full membership of a house of the legislature.

(d) An actuarial analysis must remain with the bill or resolution to which it is attached throughout the legislative process, including the process of submission to the governor.

(e) A bill or resolution for which an actuarial analysis is required is exempt from the requirement of a fiscal note as provided by Chapter 284, Acts of the 63rd Legislature, Regular Session, 1973 (Article 542b-1, Vernon’s Texas Civil Statutes).

(f) An actuarial analysis is not required for a bill or resolution that proposes to have an economic effect on a public retirement system only by providing new or increased administrative duties.

1 29 U.S.C.A. §§ 1001 et seq.

§ 12.302. Action by State Pension Review Board

(a) When a bill or resolution for which an actuarial analysis is required is filed for introduction in either house of the legislature, the office in which the proposed legislation is filed shall send a copy of the bill or resolution, accompanied by an actuarial analysis as required by Section 12.301(c)(1) of this subtitle, to the State Pension Review Board.

(b) The State Pension Review Board may have a second actuary either review the actuarial analysis
acompanying the bill or resolution or prepare a
separate actuarial analysis.

c. An actuary who reviews or prepares an ana-
lysis for the State Pension Review Board must have
at least five years of experience as an actuary
working with one or more public retirement systems
and must be a fellow of the Society of Actuaries, a
member of the American Academy of Actuaries, or
an enrolled actuary under the federal Employees
Retirement Income Security Act of 1974. 1

Sept. 1, 1981.]

\[1\text{ 29 U.S.C.A. § 1001 et seq.}\]

§ 12.303. Contents of Actuarial Analysis

(a) An actuarial analysis must show the economic
effect of the bill or resolution on the public retirement
system affected, including a projection of the annual
cost to the system of implementing the legislation
for at least 10 years. If the bill or resolution
applies to more than one public retirement system,
the cost estimates in the analysis may be limited to
working with one or more public retirement systems.

(b) An actuarial analysis must include a state-
ment of the actuarial assumptions and methods of
computation used in the analysis and a statement of
whether or not the bill or resolution, if enacted, will
make the affected public retirement system actuarially
unsound or, in the case of a system already
actuarially unsound, more unsound.

(c) The projection of the effect of the bill or
resolution on the actuarial soundness of the system
must be based on a computation of advanced fund-
ing of actuarial costs.

[Acts 1981, 67th Leg., p. 1876, ch. 453, § 1, eff.
Sept. 1, 1981.]

§ 12.304. Cost of Actuarial Analysis

The state may not pay the cost of a required actuarial analysis that is prepared for a public retirement system not financed by the state, except that a sponsor of the bill or resolution for which the analysis is prepared may pay the cost of preparation out of funds available for the sponsor’s personal or office expenses.

[Acts 1981, 67th Leg., p. 1876, ch. 453, § 1, eff.

§ 13.003. Construction of Chapter

The provisions of this chapter are exceptions to the other laws governing statewide retirement systems and prevail over those laws to the extent of explicit conflict, but this chapter must be construed strictly as against those laws.

§ 13.101. Participation by Retirement Systems

(a) Except as provided by Subsection (b) of this section, each statewide retirement system is required to participate in the program of proportionate retirement benefits provided by this chapter.

(b) A subdivision participating in the Texas County and District Retirement System or a municipality participating in the Texas Municipal Retirement System is not required to participate in the proportionate retirement program if the subdivision or municipality elected not to participate under the authority of former law and has not revoked the election under Subsection (c) of this section.

(c) A subdivision or municipality that elected not to participate in the proportionate retirement program may revoke the election and elect to participate. An election to participate may be made by vote of the governing body of the subdivision or municipality in the manner required for official actions of the governing body. The governing body shall send notice of an election to participate to the board of trustees of the retirement system in which the subdivision or municipality participates.

(d) The effective date of participation in the proportionate retirement program by a subdivision or municipality electing to participate under Subsection (c) of this section is the first day of the month after the month in which the appropriate board of trustees receives notice of an election.

(e) Participation in the proportionate retirement program includes all persons who are members of a statewide retirement system and, in the case of members of the Texas County and District Retirement System or the Texas Municipal Retirement System, who are also employees or former employees of a subdivision or municipality participating in the proportionate retirement program.

§ 13.102. Retirement System Membership

(a) Membership in a statewide retirement system does not terminate because of absence from service covered by that system during a period for which the member earns service credit in another statewide retirement system for service performed for an employer other than a subdivision or municipality not participating in the program provided by this chapter.

(b) A person may continue membership in a statewide retirement system while absent from service with all statewide retirement systems if the person would be eligible, under the laws governing that system, to continue membership if the person's combined service credit had been earned in that system.

(c) In this section, a person's absence from service begins on the day after the last day of service covered by any statewide retirement system.

§ 13.201. Retirement Eligibility Based on Combined Service Credit

(a) A person who has membership in two or more statewide retirement systems is subject to the laws governing each of those systems for determination of the person's eligibility for service retirement benefits from each system, except that, for the purpose of determining whether a person meets the length-of-service requirements for service retirement of a system, the person's combined service credit must be considered as if it were all credited in each system.

(b) A person's combined service credit is usable only in determining eligibility for service retirement benefits and may not be used in determining:

(1) eligibility for disability retirement benefits, death benefits, or any type of benefit other than service retirement benefits; nor

(2) the amount of any type of benefit.

(2) may elect to become or remain a member if the position is included in the elected class.

(c) A person who is retired from the elected class of membership and who holds a position included in that class may elect to become a member by filing notice with the retirement system before December 31, 1983. (d) If a retiree takes the oath for a position included in the elected class of membership, the retirement system shall suspend annuity payments to the person for service that was credited in that class, until the person no longer holds that position.

(e) If a member who originally retired before January 1, 1976, with service credited at the time of that retirement only in the elected class of membership again retires, the person at the time of subsequent retirement may select an annuity based on service in the elected class as if the person were retiring for the first time. If the person selects an annuity under Subdivision (3) or (4) of Subsection (c) of Section 24.108 of this subtitle, the retirement system shall reduce the number of months of guaranteed payment by the number of months for which an annuity was paid under the person's original retirement.

(b) The standard service retirement annuity for
service credited in the employee class may not be

(a) A member who has at least 20 years of service

eligible to retire regardless of age and receive a ser-

at least 37 but less than 38 77 percent
at least 38 but less than 39 78 percent
at least 39 but less than 40 79 percent
40 or more 80 percent

c) The portion of the standard combined service retirement annuity that is payable from the law enforcement and custodial officer supplemental retirement fund is based on retirement at the age of 55 or older. A law enforcement or custodial officer who retires before attaining the age of 55 is entitled to that portion actuarially reduced from the annuity available at the age of 55 to the earlier retirement age.

d) A member who retires under this section retires simultaneously from the employee class of membership, although the person must meet the applicable age requirements of Section 24.104 of this subtitle before becoming entitled to receive a service retirement annuity under Section 24.105 of this subtitle. Optional retirement annuities provided by Section 24.108 of this subtitle are available to a member eligible to receive a service retirement annuity under this section, but the same plan and designee must be selected for the portion of the annuity payable under this section and the portion payable under Section 24.105 of this subtitle.

e) The portion of a combined service retirement annuity payable under this section from money in the law enforcement and custodial officer supplemental retirement fund is the amount remaining after deduction of any amount payable for service as a law enforcement or custodial officer under Section 24.105 of this subtitle from the total derived under Subsections (b) and (c) of this section.

f) The standard combined service retirement annuity payable for at least 20 years of service credit as a law enforcement or custodial officer may not exceed 80 percent of the higher of the average compensation computed under Section 24.106 of this subtitle or the average compensation computed under Subsection (b) of this section.

g) For purposes of this section, service as a law enforcement or custodial officer is creditable as provided by rule of the board of trustees or on a month-to-month basis, whichever is greater.

h) If Section 25.405 of this subtitle is held to be invalid by a court of competent jurisdiction and the decision becomes final, an annuity may not be paid under this section.

§ 24.108. Optional Service Retirement Benefits

(a) Instead of the standard service retirement annuity payable under Section 24.103, 24.105, or 24.106 of this subtitle, the standard combined service retirement annuity payable under Section 24.107 of this subtitle, or an annuity actuarially reduced because of age under one of those sections, a retiring member may elect to receive an optional service retirement annuity under this section.

(b) A person who selects an optional lifetime retirement annuity must designate before the selection becomes effective one person to receive the annuity on the death of the person making the selection. A person who selects an optional retirement annuity payable for a guaranteed period may designate, before or after retirement, one or more persons to receive the annuity on the death of the person making the selection.

c) An eligible person may select any optional retirement annuity approved by the board of trustees, or may select one of the following options, which provide that:

(1) after the retiree's death, the reduced annuity is payable in the same amount throughout the life of the person designated by the retiree before retirement;

(2) after the retiree's death, one-half of the reduced annuity is payable throughout the life of the person designated by the retiree before retirement;

(3) if the retiree dies before 60 monthly annuity payments have been made, the remainder of the 60 payments are payable to one or more designees or, if one does not exist, to the retiree's estate; or

(4) if the retiree dies before 120 monthly annuity payments have been made, the remainder of the 120 payments are payable to one or more designees or, if one does not exist, to the retiree's estate.

(d) The computation of an optional annuity must be made without regard to the sex of the annuitant or designee involved.

hazard to which law enforcement or custodial officers are exposed because of the nature of law enforcement or custodial duties is payable under the same terms and conditions that apply to other occupational disability retirement annuities under this subtitle, except that the source and amount of the annuity are as provided by this section.

(b) Except as provided by Subsection (c) of this section, an occupational disability retirement annuity under this section is an amount, but not more than $80,000, computed on the basis of the officer's monthly compensation at the time of the disabling injury or disease, times a percentage derived by application of the table provided by Section 24.107(b) of this subtitle.

(c) A disability retirement annuity under this section is not reducible because of age and may not be less than 50 percent of the officer's monthly compensation regardless of the amount of service credited to the officer in the employee class.

(d) The portion of the annuity under this section payable from the law enforcement and custodial officer supplemental retirement fund is the amount remaining after deduction of any amount payable under Section 24.206 of this subtitle except the portion of an amount that exceeds the minimum payments provided by Section 24.206(b) of this subtitle and that is made for service other than as a law enforcement or custodial officer.

(e) If Section 25.405 of this subtitle is held to be invalid by a court of competent jurisdiction and the decision becomes final, an annuity may not be paid under this section.

§ 24.208. Medical Examination of Disability Retiree

(a) Once each year during the first five years after a member retires for disability, and once in each three-year period after that, the retirement system may require a disability retiree who is less than 60 years old and is engaged in employment, to undergo a medical examination.

(b) An examination under this section may be held at the retiree's residence or at any place mutually agreed to by the retirement system and the retiree. The retirement system may designate a physician to perform the examination.

(c) If a disability retiree refuses to submit to a medical examination as provided by this section, the executive director shall discontinue the retiree's annuity payments until the retiree submits to an examination.

(d) The amount of an annuity adjusted under this section may not be more than the total of the amount of the annuity determined at the time of retirement plus increases provided by law after the date of retirement.

§ 24.209. Modification of Disability Retirement Annuity

(a) If the medical board finds that a disability retiree is no longer mentally or physically incapacitated for the performance of duty or is able to engage in employment, it shall certify its findings and submit them to the executive director.

(b) If the executive director concurs in a certification under this section or finds that the retiree is engaged in employment, the director shall adjust the monthly payments to the retiree who is the subject of the certification or finding to an amount by which the retiree's average monthly compensation during the last year of service as a member exceeds the retiree's present monthly earning capacity, including the amount of the retiree's monthly annuity paid by the retirement system, as determined by the director. If the retiree's present earning capacity exceeds the average salary during the last year of membership service, the executive director shall reduce the amount of annuity payments to the retiree to the amount of the retiree's average monthly compensation during the last year of membership service.

(c) If the executive director finds, from time to time, a change in the retiree's earning capacity, the director shall adjust the retiree's annuity payments in the same manner that the original adjustment was made.

(d) The amount of an annuity adjusted under this section may not be more than the total of the amount of the annuity determined at the time of retirement plus increases provided by law after the date of retirement.

§ 24.210. Restoration of Disability Retiree to Active Service

(a) If a retiree who is less than 60 years old and who is receiving a disability retirement annuity returns to state service or if the retiree is found to be no longer incapacitated for the further performance of duty, the person must again become a member of the retirement system or, if the person holds a position included in the elected class of membership, may elect to become a member. If a person becomes a member under this section, the board of trustees shall terminate the person's annuity payments.

(b) A person who becomes a member under this section is entitled to service credit for all service previously established and not canceled by a withdrawal of contributions.

§ 24.211. Refund at Annuity Discontinuance

(a) Except as provided by Subsection (b) of this section, if a disability retirement annuity is discontinu-
continued under Section 24.208 of this subtitle, the retiree is entitled to a lump-sum payment from the retirement annuity reserve fund in an amount, if any, by which the amount in the retiree's individual account in the employees saving fund at the time of disability retirement exceeds the amount of payments payable before the date the annuity was discontinued.

(b) The benefit provided by this section is not payable to a retiree who, after discontinuance of a disability retirement annuity, returns to state service.

SUBCHAPTER D. DEATH BENEFIT ANNUITIES

§ 24.301. Selection of Death Benefit Plan by Member

(a) A contributing member who has at least 10 years of service credit in the elected class of membership, or a noncontributing member who has at least 12 years of service credit in the elected class, may select a death benefit plan for the payment, if the member dies while eligible to select a plan, of a death benefit annuity to a person designated by the member. Death benefit annuities available for selection by a member described in this subsection are the optional annuities provided by Sections 24.108(c)(1) and 24.108(c)(4) of this subtitle, payable as if the member had retired at the time of death.

(b) A member who has a total of at least 20 years of service credit in retirement systems administered by the board of trustees may select a death benefit plan for the payment, if the member dies while eligible to select a plan, of a death benefit annuity to a person designated by the member. Death benefit annuities available for selection by a member described in this subsection are the optional annuities provided by Sections 24.108(c)(1) and 24.108(c)(4) of this subtitle, payable as if the member had retired at the time of death.

(c) If a member of a retirement system administered by the board of trustees selects death benefit plans under more than one board-administered retirement system, each plan selected may take effect. The plan selected most recently governs payments based on service in a system other than the one in which the plan was selected if the amount of service credit in that other system, if any, by which the amount in the retiree's individual account in the employees saving fund at the time of death would be insufficient to permit selection of a death benefit plan. If a member selects a death benefit plan under only one retirement system administered by the board of trustees, the plan applies to service credit in that other retirement system.

(d) The computation of a death benefit annuity selected under this section must include the ages of the member and the member's designated beneficiary at the time of the member's death.

(e) A member may select a death benefit plan by filing an application for a plan with the retirement system on a form prescribed by the retirement system. After selection, a death benefit plan takes effect at death unless the member amends the plan, selects a retirement annuity at the time of retirement, has chosen a plan that cannot take effect, or becomes ineligible to select a plan.

§ 24.302. Selection of Death Benefit Plan by Survivor of Member

(a) If a member eligible to select a death benefit plan under Section 24.301 of this subtitle dies without having made a selection, or if a selection cannot be made effective, the member's surviving spouse may select a plan in the same manner as if the member had made the selection. If there is no surviving spouse, the personal representative of the decedent's estate may make the selection for the benefit of the decedent's heirs or devisees.

(b) If a person dies who, at the time of death, was a contributing member of a retirement program administered by the board of trustees and was eligible, having met the requirements of service credit and attained age, for a service retirement annuity based on service in one or more board-administered programs, but was not eligible to select a death benefit plan, the person's surviving spouse may select a plan in the same manner that the decedent's estate may make the selection for the benefit of the decedent's heirs or devisees.

§ 24.303. Effect of Disability Retirement on Death Benefit Plan

(a) At the time of death of a person who was receiving a disability retirement annuity, a death benefit annuity selected by the retiree while a member takes effect.

(b) If the retiree had not selected a death benefit plan before retirement or if the plan cannot be made effective, a death benefit annuity may not be paid.

§ 24.304. Annuity for Survivor of Elected Member

(a) Except as provided by Subsections (b) and (c) of this section, if a member who has at least eight
years of service credit in the elected class of membership dies, a death benefit annuity is payable in an amount computed at the rate of one-half of the standard service retirement annuity to which the member would have been entitled at the member's age at the time of death or at the age of 60, whichever is later.

(b) The annuity provided by this section is payable only to the member's surviving spouse. If the member is not survived by a spouse, a benefit may not be paid under this section.

(c) An annuity may not be paid under this section if, at the time of death, the member was eligible to select a death benefit annuity under Section 24.301 of this subtitle.

§ 24.305. Annuity for Survivor of Law Enforcement or Custodial Officer

(a) If a member who has at least 20 years of service credit as a law enforcement or custodial officer dies, the amount of the death benefit annuity payable for the member's service as a law enforcement or custodial officer is derivable from the greater of:

(1) an amount computed as provided by Section 24.105 of this subtitle, including any applicable reduction factors; or

(2) an amount computed as provided by Section 24.107 of this subtitle, including any applicable reduction factors.

(b) The portion of a death benefit annuity computed as provided by Subdivision (2) of Subsection (a) of this section that is payable from the law enforcement or custodial officer supplemental retirement fund is the amount remaining after deduction of an amount computed for service as a law enforcement or custodial officer as provided by Section 24.106 of this subtitle, including any applicable reduction factors, from the amount computed as provided by Subdivision (2) of Subsection (a) of this section.

§ 24.402. Member Occupational Death Benefits

(a) Except as provided by Subsection (b) of this section, if a member dies and the executive director determines that the death was an occupational death, a lump-sum death benefit is payable from the state accumulation fund in an amount equal to one year's salary, computed on the basis of the member's rate of compensation at the time of death.

(b) The benefit provided by this section is payable only to the member's surviving spouse or, if there is no surviving spouse, to the guardian of the member's surviving dependent minor children. If the member is not survived by a spouse or dependent minor children, a benefit may not be paid under this section.

§ 24.403. Return of Contributions

(a) Except as provided by Subsection (c) of this section, if a member dies before retirement, the amount in the member's individual account in the employees saving fund at the time of death is payable as a lump-sum death benefit.

(b) The benefit provided by this section is payable to a person designated by the member in a signed document filed with the retirement system. If a member does not designate a beneficiary or if the beneficiary does not survive the member, the benefit is payable to the member's estate.

(c) A death benefit may not be paid under this section if, at the time of death, the member was
eligible to select a death benefit annuity under Section 24.301 of this subtitle.

[Sections 24.404 to 24.500 reserved for expansion]

SUBCHAPTER F. RETIREE DEATH BENEFITS

§ 24.501. Retiree Death Benefits Generally

(a) A lump-sum death benefit in the amount of $5,000 is payable if the board of trustees receives proof satisfactory to it of the death, on or after September 1, 1975, of a person retired under a retirement system administered by the board.

(b) The benefit provided by this section is payable to a person designated by the retiree in a signed and witnessed document filed with the retirement system. If a retiree does not designate a beneficiary or if the beneficiary does not survive the retiree, the benefit is payable to the retiree's estate.

§ 24.502. Disability Retiree Death Benefits

(a) Except as provided by Subsection (b) of this section, if a person who receives a disability retirement annuity dies, a lump-sum death benefit is payable in the manner provided by Section 24.401 of this subtitle, except that the amount is computed at the rate of five percent of the amount in the retiree's individual account in the employees saving fund at the time of disability retirement, times the number of full years of service credit the retiree had at the time of retirement.

(b) A death benefit may not be paid under this section if, at the time of death, the member was not entitled to select a disability benefit annuity under Section 24.301 of this subtitle.

§ 24.503. Occupational Disability Retiree Death Benefits

(a) Except as provided by Subsection (b) of this section, if a person who receives an occupational disability retirement annuity dies and the executive director determines that the death was an occupational death, a lump-sum death benefit is payable from the state accumulation fund in an amount equal to one year's salary, computed on the basis of the retiree's rate of compensation at the time of disability retirement.

(b) The benefit provided by this section is payable only to the retiree's surviving spouse or, if there is no surviving spouse, to the guardian of the retiree's surviving dependent minor children. If the retiree is not survived by a spouse or dependent minor children, a benefit may not be paid under this section.

§ 24.504. Return of Excess Contributions

(a) Except as provided by Subsection (c) of this section, if a person who receives a disability retirement annuity dies, a lump-sum death benefit is payable from the retirement annuity reserve fund in an amount, if any, by which the amount in the retiree's individual account in the employees saving fund at the time of disability retirement exceeds the amount of annuity payments payable before the retiree's death.

(b) The benefit provided by this section is payable to a person designated by the retiree in a signed and witnessed document filed with the retirement system. If a retiree does not designate a beneficiary or if the beneficiary does not survive the retiree, the benefit is payable to the retiree's estate.

(c) A death benefit may not be paid under this section if, at the time of death, the member was not eligible to select a death benefit annuity under Section 24.301 of this subtitle.

[Sections 24.505 to 24.600 reserved for expansion]

SUBCHAPTER G. INCREASES IN BENEFITS

§ 24.601. Annuity Increase After Death or Retirement

(a) Except as provided by Subsections (b) and (e) of this section, on the first day of each fiscal year, the retirement system shall increase the amounts of annuities that are:

(1) computed as provided by Section 24.105 of this subtitle or a predecessor to that section, Section 24.205 of this subtitle or a predecessor to that section, or if the standard annuity is derived from Section 24.105 or a predecessor, as provided by Section 24.108 of this subtitle or a predecessor to that section;

(2) based on service that was credited in the retirement system as employee class service; and

(3) payable to a retiree of the retirement system, to the survivor of a retiree of the retirement system, or to the survivor of a deceased member of the retirement system.

(b) The retirement system may not increase under this section the amount of an annuity unless the retirement or death on which the annuity is based occurred before the first day of the preceding fiscal year.

(c) The legislature may appropriate money from the general revenue fund to pay the costs of increasing the amounts of annuities under this section. On the first day of each fiscal year, the state comptroller of public accounts shall transfer to the

retirement system any money appropriated for the fiscal year for the purpose of this section.

(d) If the amount of money appropriated for a fiscal year is insufficient to finance the rate of increase in annuities specified in the act making the appropriation or if the act fails to specify a rate of increase, the board of trustees shall set the rate as the rate that the amount of money appropriated will finance for the duration of the annuities payable to those persons entitled to receive an increase in annuities under this section.

(e) If an appropriation is not made for a fiscal year for the purpose of this section, the retirement system may not increase under this section the amount of annuities for that year.

§ 34.202. Eligibility for standard service retirement annuity if the member:

(a) A member is eligible to retire and receive a standard service retirement annuity if the member:

1. is at least 65 years old and has at least 10 years of service credit in the retirement system; or

2. is at least 60 years old and has at least 20 years of service credit in the retirement system.

(b) If a member is at least 55 years old and has at least 10 years of service credit in the retirement system, the member is eligible to retire and receive a service retirement annuity reduced from the standard service retirement annuity available under Subsection (a)(2) of this section, to a percentage derived from the following table:

<table>
<thead>
<tr>
<th>Years of Service</th>
<th>Age at Date of Retirement</th>
</tr>
</thead>
<tbody>
<tr>
<td>25</td>
<td>55, 56, 57, 58, 59, 60</td>
</tr>
<tr>
<td>30</td>
<td>60</td>
</tr>
<tr>
<td>35</td>
<td>65, 66, 67, 68, 69</td>
</tr>
</tbody>
</table>

(c) If a member is at least 55 years old and has at least 20 years of service credit in the retirement system, the member is eligible to retire and receive a service retirement annuity reduced from the standard service retirement annuity available under Subsection (a)(2) of this section, to a percentage derived from the following table:

<table>
<thead>
<tr>
<th>Years of Service</th>
<th>Age at Date of Retirement</th>
</tr>
</thead>
<tbody>
<tr>
<td>20</td>
<td>55, 56, 57, 58, 59</td>
</tr>
<tr>
<td>25</td>
<td>60</td>
</tr>
<tr>
<td>30</td>
<td>65, 66, 67, 68</td>
</tr>
</tbody>
</table>

(d) If a member has at least 30 years of service credit in the retirement system, the member is eligible to retire regardless of age and receive a reduced service retirement annuity consisting of a percentage of the standard service retirement annuity available under Subsection (a)(2) of this section, derived from the table in Subsection (c) of this section. The board of trustees shall extend the table in Subsection (c) of this section to ages earlier than 55 years by decreasing the percentages by two percent for each year of age under 55 years.

(e) The board of trustees may adopt tables for reduction of benefits for early retirement by each month of age, but the range of percentages in the tables within a year must be limited to the range provided between two years of age by this section.

(f) Except as provided by Section 33.403(c) of this subtitle or the proportionate retirement program in Subtitle B of this title, a member is not eligible to receive service retirement benefits from the retirement system unless the member has at least 10 years of service credit in the retirement system for actual service in public schools.

§ 34.203. Standard Service Retirement Benefits

(a) Except as provided by Subsections (c) and (d) of this section, the standard service retirement annuity is an amount computed on the basis of the member's average annual compensation for the three years of service, whether or not consecutive, in which the member received the highest annual compensation, times two percent for each year of service credit in the retirement system.

(b) In the case of a person who retired before August 27, 1979, ceilings in the definition of "annual compensation" apply to the computation of average annual compensation under Subsection (a) of this section. In the case of a person who retires on or after that date, those ceilings do not apply and the computation shall be based on actual compensation paid or payable for services as an employee to the extent that the computation includes compensation for school years before the 1981-82 school year.

(c) Except as provided by Subsection (d) of this section, for benefits payable because of the death or retirement of a member that occurred before September 1, 1982, the standard service retirement annuity is computed in accordance with applicable prior law.

(d) In no case may the standard service retirement annuity be less than $6.50 a month for each year of service credit or, for a member who is at least 65 years old at the time of retirement, less than the greater of $6.50 a month for each year of service credit or $75 a month. The minimum benefits provided by this section are subject to reduction in the same manner as other benefits because of early retirement or selection of an optional retirement annuity.

34.202 of this subtitle, a retiring member may elect to receive an optional service retirement annuity, reduced for early retirement if applicable, under this section.

(b) An optional service retirement annuity is an annuity payable throughout the life of the retiree and is actuarially reduced from the annuity otherwise payable under this subtitle to its actuarial equivalent under the option selected under Subsection (c) of this section.

(c) An eligible member may select one of the following options, which provide that:

(1) after the retiree’s death, the reduced annuity is payable to and throughout the life of the person nominated by the retiree’s written designation filed prior to retirement;

(2) after the retiree’s death, one-half of the reduced annuity is payable to and throughout the life of the person nominated by the retiree’s written designation filed prior to retirement;

(3) if the retiree dies before 60 monthly annuity payments have been made, the remainder of the 60 payments are payable to the designated beneficiary; or

(4) if the retiree dies before 120 monthly annuity payments have been made, the remainder of the 120 payments are payable to the designated beneficiary.

An eligible member may not select an option that provides for a reduced annuity payable to and throughout the life of the person nominated by the retiree’s written designation filed prior to retirement if the retiree elected a service retirement annuity payable throughout the life of the person nominated by the retiree’s written designation filed prior to retirement under Subsection (a) of this section.

An eligible member may not select an option that provides for a reduced annuity payable to and throughout the life of the person nominated by the retiree’s written designation filed prior to retirement if the retiree elected a service retirement annuity payable throughout the life of the person nominated by the retiree’s written designation filed prior to retirement under Subsection (a) of this section.

If a member elects to receive an annuity based on the service credit in the retirement system, the retiree is entitled to that annuity only upon retirement from service in the retirement system.

A member may elect to receive an annuity based on the service credit in the retirement system only if the member is retired on or after the date the member was certified as disabled or if the member is retired under Section 34.202(a) of this subtitle.

A member may elect to receive an annuity based on the service credit in the retirement system only if the member is retired on or after the date the member was certified as disabled or if the member is retired under Section 34.202(a) of this subtitle.

An annuity based on the service credit in the retirement system may be elected only if the member becomes disabled on or after the date the member was certified as disabled or if the member becomes disabled under Section 34.202(a) of this subtitle.

A member may elect to receive an annuity based on the service credit in the retirement system only if the member is retired on or after the date the member was certified as disabled or if the member is retired under Section 34.202(a) of this subtitle.
§ 34.304

(1) a standard service retirement annuity computed on the basis of the amount of the person's service credit on the date of retirement; or
(2) § 6.50 a month for each year of service credit on the date of retirement.

(c) If a person receives a disability retirement annuity under Subsection (b) of this section and the retirement begins after or continues until the person becomes 60 years old, the disability is conclusively presumed continuous for the rest of the person's life.

(d) Before the 31st day after the date on which the medical board certifies a member's disability, the member may reinstate withdrawn contributions and make deposits for service previously waived, military service, and equivalent membership service and receive service credit as provided by this subtitle.

§ 34.305. Medical Examination of Disability Retiree

(a) Once each year during the first five years after a member retires for disability, and once in each three-year period after that, the board of trustees may require a disability retiree who is less than 60 years old to undergo a medical examination by one or more physicians the board designates.

(b) If a disability retiree refuses to submit to a medical examination as provided by this section, the board of trustees shall discontinue the retiree's annuity payments and the retiree must again become a member of the retirement system.

§ 34.306. Report of Earnings of Disability Retiree

(a) A disability retiree who is less than 60 years old annually shall submit a report of earnings to the retirement system. The retirement system shall examine each report and may require at any time that a disability retiree undergo a medical examination by one or more physicians the retirement system designates, if the retiree has reported earnings that the board of trustees considers excessive.

(b) The board of trustees may adopt rules establishing limits on the annual earnings of disability retirees and such other rules as are necessary to administer this section.

§ 34.307. Restoration of Disability Retiree to Membership

(a) If the medical board finds that a disability retiree who is less than 60 years old is no longer mentally or physically incapacitated for the performance of duty, it shall certify its findings and submit them to the board of trustees.

(b) If a disability retiree who is less than 60 years old is restored to active service or refuses for more than one year to submit to a required medical examination, or if the board of trustees concurs in a certification issued under Subsection (a) of this section, the board shall discontinue the retiree's annuity payments and the retiree must again become a member of the retirement system.

(c) When a person becomes a member under this section, an amount equal to the sum in the person's individual account in the member savings account at the time of retirement, minus the amount of annuity payments made since retirement, shall be transferred from the retired reserve account to the person's individual account in the member savings account. The member is entitled to service credit for all service credit used to compute the member's disability retirement annuity at the time of retirement.

§ 52.102. Election to Become Member

An employee of a participating subdivision who was not required to become a member of the retirement system at the time of employment may elect to become a member by filing a written application for membership with the person's employer and with the director. Membership begins on the first day of the calendar month that begins after the date the application is filed.

§ 52.103. Credit for Person Who Elects to Become Member

A person who becomes a member of the retirement system under Section 52.102 of this subtitle may not receive credit for service performed before membership except as provided by Section 53.102(a) of this subtitle.

§ 52.104. County Hospital Employees

(a) If a county elects to participate in the retirement system, the commissioners court of the county may elect to deny membership to the employees of a county hospital governed by Chapter 5, Title 71, Revised Civil Statutes of Texas, 1925.

(b) After making an election under this section, the commissioners court may at any time reverse its decision and require that county hospital employees become members on a date fixed by order of the commissioners court.

(c) If the commissioners court reverses an election under this section and requires the employees of a county hospital to become members of the retirement system, for the purposes of this subtitle the employees of the county hospital comprise a separate subdivision from other county employees.

§ 52.105. Status as an Employee

For the purposes of this subtitle, a person has the standing of an employee in a participating subdivision if the person:
§ 52.105

(2) is eligible for optional membership in the retirement system under Subchapter C of this chapter.

§ 52.106. Multiple Retirement System Membership

(b) A person may simultaneously be a member of, and receive credit for service performed during the same period in the retirement system, the federal program providing old age and survivors insurance, and the Judicial Retirement System of Texas.

§ 52.107. Exception to General Membership Requirement

(a) If on the date a subdivision’s participation in the retirement system becomes effective a person has a basis of employment with the subdivision that would be violated by a membership requirement of this subchapter, the person may elect not to become a member of the retirement system.

(b) If a person qualified to make an election under this section has been notified that the subdivision will begin participation in the retirement system, the person is considered to have elected membership in the retirement system unless before the date the subdivision’s participation becomes effective the person files with the governing body of the subdivision written notice of an election not to become a member.

§ 52.108. Withdrawal of Contributions

A person who is not an employee of any participating subdivision and who has not retired may, after application, withdraw all of the accumulated contributions credited to the person's individual account in the employees saving fund, and the retirement system shall close the account.

§ 52.109. Termination of Membership

(b) A member of the retirement system is not absent from service and continues to accumulate membership credited service if at any time during a declared or undeclared war involving the United States, during a conflict between the armed forces of the United States and the armed forces of a foreign country, or before the first anniversary of the last day of the war or conflict, the person:

(1) performs active duty service in the armed forces of the United States or their auxiliaries;

(2) performs active duty service in the armed forces reserve of the United States or their auxiliaries;

(3) performs service in the American Red Cross; or

(4) is conscripted and performs war-related service.

(c) On any termination of membership in the retirement system, a person forfeits all credited service established in the retirement system.

§ 52.110. Resumption of Service by Retiree

A person who has retired under this subtitle because of service may not rejoin the retirement system or resume or continue service with a participating subdivision.

[Sections 52.111 to 52.200 reserved for expansion]

SUBCHAPTER C. OPTIONAL MEMBERSHIP COVERAGE

§ 52.201. Optional Membership Class

(a) The commissioners court of a county that participates in the retirement system and that uses county funds to pay supplemental compensation to those persons who regularly perform the duties of
an elected or appointed state or district office, who also receive compensation from the state, may by order make those persons eligible, to the extent of the compensation paid by the county, for membership in the retirement system.

(b) Unless membership is waived, a person who is made eligible for membership in the retirement system under Subsection (a) of this section becomes a member on the date specified in the order of the commissioners court.

(c) If, after the effective date of an order under Subsection (a) of this section, a person who is less than 60 years old is employed for the first time by the county in a position described by Subsection (a) of this section, the person becomes a member of the retirement system on the date the person’s employment begins.

§ 52.203. Subsequent Election to Become Member

(a) A person who has filed a waiver under Section 52.202 of this subtitle may thereafter become a member of the retirement system, if the person meets the requirements for membership that are applicable to new employees of the subdivision at the time that the person applies for membership that was previously waived. Application for membership under this section must be on a form prescribed by the board of trustees.

(b) The effective date of membership applied for under this section is the first day of the first month after the month in which the application is filed, and no credit in the retirement system may be given for any type of service prior to that effective date.

CHAPTER 53. CREDITABLE SERVICE

SUBCHAPTER A. GENERAL PROVISIONS

Sec.
53.001. Types of Creditable Service.
53.002. Benefit Eligibility Based on Creditable Service.
53.003. Credit in the Retirement System.
§ 53.003. Credited Service Previously Forfeited

(a) An eligible member who has withdrawn contributions from the retirement system may reestablish the forfeited credit in the system of the service on which the credit was based was performed for a participating subdivision the governing body of which by order authorizes reestablishment of the credit by eligible employee members of the subdivision.

(b) A member eligible to reestablish credit under this section is one who:

(1) was a member on the effective date of an order made under Subsection (a) of this section; and

(2) has, since resuming membership, at least 24 consecutive months of service as an employee of the subdivision for which the order was made.

(c) A member eligible under this section may reestablish credit by depositing with the retirement system in a lump sum the amount withdrawn from the system on which the credit was based was performed for a subdivision the governing body of which by order authorizes reestablishment of the credit by eligible employee members of the subdivision.

(d) A governing body may not make an order under Subsection (a) of this section unless the actuary first determines that reestablishment of forfeited credit service would not impair the ability of the subdivision:

(1) to meet all present and prospective liabilities of the subdivision's account in the subdivision accumulation fund; and

(2) to provide for payment of all basic and supplemental annuities derived from credits granted by the subdivision.

(e) The board of trustees may adopt rules concerning verification and certification of service and compensation as determined by the subdivision.

(f) The board of trustees may adopt rules concerning eligibility for prior service under Section 53.104 of this subtitle, the subdivision employing the officer receiving the statement shall verify the prior service claimed and certify to the board of trustees the amount of service approved and the member's average prior service compensation.

(g) Except as provided by Subsection (e) of this section, the average prior service compensation of a member is computed as the average monthly compensation for service performed for the subdivision:

(1) for the 36 months immediately preceding the effective date of the subdivision's participation in the retirement system; or

(2) if the member did not perform service in each of the 36 months immediately preceding participation, for the number of months of service within the 36-month period.

(h) In a computation of average prior service compensation for service performed for a subdivision whose retirement system participation began before January 1, 1978, monthly compensation is excluded to the extent that it exceeds the lower of the following rates of compensation:

(1) the annual compensation for member contributions as determined by the subdivision governing body at the time of its election to participate in the retirement system; or

(2) annual compensation of $12,000.

(i) The board of trustees may adopt rules concerning verification and certification of service and compensation under this section.

§ 53.004. Creditable Prior Service

Prior service creditable in the retirement system is service performed as an employee of a participating subdivision before the date the subdivision's participation in the retirement system became effective.

§ 53.005. Eligibility for Prior Service

(a) A member is eligible to receive credit in the retirement system for prior service if the member:

(1) became a member as an employee of a subdivision on the effective date of the subdivision's participation in the retirement system; or

(b) The board of trustees may adopt rules concerning eligibility for prior service under Subsection (a) of this section.

§ 53.103. Statement of Prior Service

A member claiming credit for prior service shall file a detailed statement of the service with the treasurer or other disbursing officer of the subdivision for which the service was performed.

§ 53.104. Certification of Service and Average Compensation

(b) Except as provided by Subsection (e) of this section, the average prior service compensation of a member is computed as the average monthly compensation for service performed for the subdivision:

(1) for the 36 months immediately preceding the effective date of the subdivision's participation in the retirement system; or

(2) if the member did not perform service in each of the 36 months immediately preceding participation, for the number of months of service within the 36-month period.

(c) In a computation of average prior service compensation for service performed for a subdivision whose retirement system participation began before January 1, 1978, monthly compensation is excluded to the extent that it exceeds the lower of the following rates of compensation:

(1) the annual compensation for member contributions as determined by the subdivision governing body at the time of its election to participate in the retirement system; or

(2) annual compensation of $12,000.

(d) The board of trustees may adopt rules concerning verification and certification of service and compensation under this section.

§ 53.105. Determination of Allocated Prior Service Credit

(a) After receiving a certification of prior service and average prior service compensation under Section 53.104 of this subtitle, the board of trustees shall determine the member's maximum and allocated prior service credits.
PUBLIC RETIREMENT SYSTEMS § 53.202

(b) The maximum prior service credit is an amount equal to the accumulation at interest of a series of equal monthly amounts for the number of months of approved prior service. Each monthly amount equals twice the subdivision’s initial deposit rate, times the member’s average prior service compensation. Interest is allowed at the end of each 12-month period on an accumulated amount at the beginning of each period and is credited only for each whole 12-month period. The rate of interest allowed on a maximum prior service credit granted by a subdivision having an effective date of participation in the retirement system after December 31, 1981, is three percent a year.

(c) The allocated prior service credit is the percentage of the maximum prior service credit granted by the subdivision to all members who performed prior service for the subdivision. The total allocated prior service credits for members claiming prior service with the subdivision may not exceed an amount for which the prospective subdivision contributions to the retirement system will be adequate to amortize, before the 25th anniversary of the effective date of subdivision participation in the retirement system:

(1) all obligations charged to its account in the subdivision accumulation fund; and

(2) all basic and supplemental annuities derived from credits granted by the subdivision.

(d) Interest is earned for each whole year on an allocated prior service credit from the effective date of membership to the effective date of retirement at the applicable rate for the period as provided by Section 55.313 of this subtitle.

§ 53.206. Prior Service Certificate

(a) After determining a member’s allocated prior service credit under Section 53.105 of this subtitle, the board of trustees shall issue to the member a prior service certificate stating:

(1) the number of months of prior service credited;

(2) the average prior service compensation; and

(3) the allocated prior service credit.

(b) As long as a person remains a member, the person’s prior service certificate is, for purposes of retirement, conclusive evidence of the information it contains, except that a member or participating subdivision may, before the first anniversary of its issuance or modification, request the board of trustees to modify the certificate.

§ 53.207. Void Prior Service Certificate

(a) When a person terminates membership in the retirement system, any prior service certificate issued to the person becomes void.

(b) A person who has terminated membership and subsequently resumes membership in the retirement system is not entitled to credit for prior service.

(1) the effective date of the subdivision’s participation in the retirement system, if the facility was acquired by the subdivision before that date; or

(2) the date of acquisition of the facility, if the facility was acquired after the effective date of the subdivision’s participation in the retirement system.

(b) A member eligible to establish credit under this section after an order under Subsection (a) of this section is one who was employed by a public facility:

(b) A member may establish credit under this section by establishing current service credit under Section 53.402 of this subtitle.

§ 53.303. Member Not Entitled to Prior Service Credit

A person who becomes a member of the retirement system under Section 52.203 of this subtitle is not entitled to credited service in the retirement system for service performed before the date the person's membership begins.

§ 53.304. Certification of Service and Average Compensation; Determination of Allocated Local Service Credit

SUBCHAPTER E. ESTABLISHMENT OF CURRENT SERVICE

§ 53.401. Current Service Generally
Service that is performed while a member as an employee of a participating subdivision is credited in the retirement system for each month for which the required contributions are made by the member and the employing subdivision.

§ 53.402. Current Service for Member of Option­al Class
(a) A person who becomes a member of the retirement system under Section 52.201 of this subtitle may establish current service credit in the retirement system for service performed for the subdivision for the period beginning on the effective date of the subdivision's participation in the retirement system and ending on the day before the date of an order made under Section 52.201(a) of this subtitle.

(b) A member claiming credit under this section shall deposit with the retirement system, before the 91st day after the effective date of an order made under Section 52.201(a) of this subtitle, for the total number of months of service claimed under this section, an amount equal to the amount of deposits that a member earning the same compensation from the subdivision during the same period was required to make to the retirement system.

(c) If the subdivision deposits with the retirement system, within the period required under this section for member deposits, an amount equal to the amount deposited under Subsection (b) of this section, the retirement system shall grant the member current service credit under this section.

(b) The current service credit of a member is an amount equal to a percentage of the accumulated contributions made by the member to the retirement system during a calendar year. The percentage is 0 percent until a greater percentage is adopted as provided by Section 53.708 of this subtitle or, for a subdivision whose participation in the retirement system began after October 31, 1980, unless a greater percentage is adopted by its governing body before the first anniversary of the subdivision's effective date of retirement system participation, after the actuary has determined and certified that the greater percentage would not impair the ability of the subdivision to amortize, before the 25th anniversary of the participation date, all obligations that are charges against its account in the subdivision accumulation fund. A multiple matching credit includes any portion of a current service credit in effect on January 1, 1978, that exceeds the member's current service credit determined under Subsection (b) of this section.

subtitle, increase the percentage of maximum prior
service credits used in determining the allocated
prior service credits previously granted and in ef­

[Acts 1981, 67th Leg., p. 1876, ch. 453, § 1, eff. Sept. 1,
1981.]

§ 53.702. Recomputation of Service Credits

(a) The governing body of a participating subdivi­sion
having active members and annuitants whose
current or maximum prior service credits have been
computed on a basis other than total compensation
may by order elect to have the credits recomputed
as the sum of:

53.105 of this subtitle, using average compen­

subtitle, except that compensation exceeding the
limits provided by Section 53.104(c) may not be
excluded in the computation; plus either

(2) an amount determined as two times the

the date one year prior to the date of election to
the subdivision’s participation date, where (i) is
the amount of accumulated contributions the
member would have had one year prior to the
date of election to the subdivision if in each calendar year since
membership began the member had contributed on
the basis of the contribution rate applicable at
that time and the member’s total compensation at
that time, and (ii) is the member’s actual accumu­
lated contributions one year prior to the date of
election; or

(3) an amount determined as two times the
excess of (i) over (ii), discounted at interest from
the date of retirement to the subdivision’s partici­

that time and the annuitant’s total compensation at

that time, and (ii) is the annuitant's actual accumulated contributions on the date of retirement.

(b) The subdivision governing body shall determine the effective date of an election under this section, which may be the first day of any calendar year.

c) An election must require member contributions to be based, beginning on the effective date of the election, on the basis of total compensation as prescribed by this section. An election must apply to all members and annuitants.

d) A subdivision governing body may not make an election under this section unless the actuary first determines that the recomputation would not impair the ability of the subdivision to pay obligations charged against its account in the subdivision accumulation fund, before the 25th anniversary of the December 31 valuation date determined under Section 54.201 of this subtitle.

§ 53.703. Increase in Multiple Matching Credits

The types of benefits payable by the retirement system are:

1. service retirement benefits;
2. disability retirement benefits; and
3. death benefits.

§ 54.002. Composition of Retirement Annuity

(a) Each retirement annuity payable under this subtitle consists of a basic annuity and a supplemental annuity.

(b) A basic annuity is an amount payable from the current service annuity reserve fund and is actuarially determined from the sum of member's:

1. accumulated contributions; and
2. current service credit, accumulated at interest as provided by Section 58.403(d) of this subtitle.

(c) A supplemental annuity is an amount payable from the subdivision accumulation fund, subject to reduction under Section 55.307(c) of this subtitle, and equal to the sum of:
§ 54.002  TITLE 110B

(1) a member’s allocated prior service credit, accumulated at interest as provided by Section 53.105(d) of this subtitle;
(2) a member’s multiple matching credit, accumulated at interest as provided by Section 53.403(d) of this subtitle; and
(3) any increase in the annuity granted by a participating subdivision after December 31, 1978.

§ 54.003. Effective Date of Retirement

(a) Except as provided by Section 54.004 of this subtitle and Subsection (b) of this section, the effective date of a member’s service retirement is the date the member designates at the time the member applies for retirement under Section 54.101 of this subtitle, but the date must be the last day of a calendar month and may not precede the date the member terminates employment with all participating subdivisions.

(b) If a member who has at least 30 years of credited service in the retirement system dies after selecting an optional retirement annuity but before retirement, the member is considered to have retired on the last day of the month before the month in which death occurred or on the day before the first anniversary of the effective date of the person’s membership, whichever is later.

(c) Except as provided by Subsection (b) of this section, the effective date of a member’s disability retirement is the date designated on the application for retirement filed by or for the member as provided by Section 54.301 of this subtitle, but the date may not precede the date the member terminates employment with all participating subdivisions.

§ 54.004. Mandatory Retirement

(a) Except as provided by Subsections (b) and (c) of this section, a member is required to retire and terminate employment with all participating subdivisions on the later of:

(1) the last day of the calendar year in which the member becomes 70 years old; or
(2) the last day of the calendar year in which the member accumulates 12 years of credited service in the retirement system.

(b) A member is not required to retire before the first anniversary of the effective date of the person’s membership.

(c) In an exceptional case for substantial cause, a retirement otherwise required by this section may be deferred for a period of not more than one year at a time by mutual consent of the member and the employing subdivision.

§ 54.005. When Annuity is Payable

An annuity under this subtitle is payable for a period beginning on the last day of the first month following the month in which retirement occurs and ending, except as otherwise provided by this subtitle, on the last day of the month immediately preceding the month in which death occurs.

SUBCHAPTER B. SERVICE RETIREMENT BENEFITS

§ 54.101. Application for Service Retirement Annuity

A member may apply for a service retirement annuity by filing an application for retirement with the board of trustees not less than 30 nor more than 90 days before the date the member wishes to retire.

§ 54.102. Eligibility for Service Retirement Annuity

(a) A member is eligible, beginning on the first anniversary of the effective date of the person’s membership, to retire and receive a service retirement annuity, if the member:

(1) is at least 60 years old and has at least 12 years of credited service in the retirement system; or
(2) has at least 30 years of credited service in the retirement system.

(b) A member may terminate employment with all participating subdivisions and, beginning on the first anniversary of the effective date of the person’s membership, remain eligible to retire and receive a service retirement annuity at any time after the member attains the age of 60, if the member has at least 20 years of credited service in the retirement system.

(c) A member whose most recent service was performed for a subdivision having an effective date of participation in the retirement system after August 31, 1979, may terminate employment with all participating subdivisions and remain eligible to retire and receive a service retirement annuity at any time after the member attains the age of 60, if the member has at least 12 years of credited service performed for one or more subdivisions that are either subject to this subsection or have adopted a like provision under Section 54.202 of this subtitle.

§ 54.103. Standard Service Retirement Annuity

(a) The standard service retirement annuity payable under this subtitle is discounted for the possi-
capacity of payment of a benefit under Section 54.402
of this subtitle and is the actuarial equivalent of the
sum of a member's:
(1) accumulated contributions;
(2) current service credit, accumulated at inter-
est as provided by Section 53.403(d) of this subti-
tle;
(3) allocated prior service credit, accumulated at inter-
est as provided by Section 53.105(d) of this subti-
ble; and
(4) multiple matching credit, accumulated at in-
terest as provided by Section 53.403(d) of this subti-
ble.
(b) A standard service retirement annuity is pay-
able throughout the life of a retiree.
[Acts 1981, 67th Leg., p. 1876, ch. 453, § 1, eff. Sept. 1,
ch. 19, § 48, eff. Nov. 10, 1981.]
§ 54.104. Optional Service Retirement Annuity
(a) Instead of the standard service retirement an-
nuity payable under Section 54.103 of this subtitle, a
retiring member may elect to receive an optional
service retirement annuity under this section.
(b) An optional service retirement annuity is pay-
able throughout the life of the retiree and is actua-
arily reduced from the standard service retirement
annuity to its actuarial equivalent under the option
selected under Subsection (c) of this section.
(c) An eligible person may select any optional
annuity approved by the board of trustees, the
entire benefit of which is certified by the actuary as
the actuarial equivalent of the annuity to which the
person is entitled, or may select one of the following
options, which provide that:
(1) after the retiree's death, the reduced annui-
ty is payable throughout the life of a person
designated by the retiree;
(2) after the retiree's death, one-half of the
reduced annuity is payable throughout the life of
a person designated by the retiree;
(3) for the estate to receive a refund of the
member's accumulated contributions under Sec-
tion 54.401 of this subtitle, in which case the
member will be considered to have been a contributing member at the time of
death.
[Acts 1981, 67th Leg., p. 1876, ch. 453, § 1, eff. Sept. 1,
1981.]
§ 54.105. Selection of Optional Service Retire-
ment Annuity
(a) A member who has at least 30 years of credit-
ed service in the retirement system may, before the
effective date of the member's retirement, file with
the board of trustees, on a form prescribed by the
board, a selection of an optional service retirement
annuity available under Section 54.104 of this subti-
ble and a designation of beneficiary.
(b) A member may change a selection of an op-
tional annuity or a designation of beneficiary at any
time before the member's retirement or death in the
same manner that the original selection and design-
nation were made.
(c) If a member eligible under this section to
select an optional service retirement annuity dies
before retirement without having made a selection,
the member's surviving spouse may select an op-
tional annuity in the same manner as if the member
had made the selection. If there is no surviving
spouse, the executor or administrator of the mem-
ber's estate may elect:
(1) for an estate beneficiary to receive the op-
tional annuity under Section 54.104(c)(4) of this
subtitle, in which case the member will be con-
sidered to have retired on the last day of the
month before the month in which death occurred;
or
(2) for the estate to receive a refund of the
member's accumulated contributions under Sec-
tion 54.401 of this subtitle, in which case the
member will be considered to have been a contrib-
uting member at the time of death.
[Acts 1981, 67th Leg., p. 1876, ch. 453, § 1, eff. Sept. 1,
1981.]
§ 54.106. Selection of Optional Service Retire-
ment Annuity by Certain Members
(a) An eligible member who is an employee of a
subdivision having an effective date of participation
in the retirement system after August 31, 1979,
may select an optional service retirement annuity in
the manner and under the conditions provided by
Section 54.105 of this subtitle.
(b) A member eligible under this section to select
an optional service retirement annuity is one who:
(1) is at least 60 years old and has at least 12
years of credited service in the retirement system
performed for one or more subdivisions whose
employees may select an optional annuity after
§ 54.106

meeting the same age and service requirements provided in this subdivision; or

(2) has at least 20 years of credited service in the retirement system performed for one or more subdivisions whose employees may select an optional annuity after meeting the same service requirement provided in this subdivision.

[Sections 54.107 to 54.200 reserved for expansion]

SUBCHAPTER C. OPTIONAL RETIREMENT BENEFITS

§ 54.201. Conditions for Optional Benefits

(a) The governing body of a participating subdivision by order or resolution may, on the terms provided by this section:

(1) authorize the establishment of credited service under Section 53.202 or 53.601 of this subtitle;

(2) [54.200] [54.203]

(b) The governing body of a subdivision may not authorize an employee of the subdivision to termi­nate employment with the subdivision and remain eligible to retire and receive a service retirement annuity at any time after the member attains the age of 60, if the member has at least 12 years of credited service performed for one or more subdivisions that either have authorized the eligibility under this section or are subject to Section 54.105 of this subtitle.

(c) An increase in annuity payments payable from the current service annuity reserve fund or the subdivision accumulation fund, or attributable to recomputation of allocated prior service credits, current service credits, or multiple matching credits that were originally determined previously may not provide greater benefits for completed service than would be provided through current service credits and multiple matching credits for service that is performed in the future.

(d) An order or resolution may not be adopted as provided by Subsection (a) of this section unless the actuary determines and certifies that:

(1) implementation of the order or resolution would not impair the ability of the subdivision to fund, before the 25th anniversary of the valuation date described in Subsection (b) of this section, all obligations charged against the subdivision’s account in the subdivision accumulation fund; and

(2) all retirement obligations of the subdivision existing before the proposed effective date of an order or resolution under this section would be amortized on or before the 20th anniversary of the valuation date described in Subsection (b) of this section.

(e) An order or resolution under this section may not take effect until the order or resolution is approved by the board of trustees as meeting the requirements of this section. After approval by the board, an order or resolution may take effect only:

(1) after the first anniversary of the valuation date described in Subsection (b) of this section; and

(2) on January 1 of a year.

(a) The governing body of a participating subdivision may authorize an employee of the subdivision who is a member of the retirement system to terminate employment with the subdivision and remain eligible to retire and receive a service retirement annuity at any time after the member attains the age of 60, if the member has at least 12 years of credited service performed for one or more subdivisions that either have authorized the eligibility under this section or are subject to Section 54.105 of this subtitle.

(b) The governing body of a subdivision may not authorize eligibility for service retirement under this section except on the terms provided by Section 54.201 of this subtitle.

§ 54.203. Optional Selection of Optional Annuity by Certain Members

(a) The governing body of a participating subdivision may authorize an employee of the subdivision who is a member of the retirement system to select an optional service retirement annuity in the manner and under the conditions provided by Section 54.105 of this subtitle, if the member has at least 20 years of credited service in the system performed for one or more subdivisions whose employees may select an optional annuity after meeting the same service requirement provided in this subdivision.

(b) If a member authorized under this section to select an optional service retirement annuity dies before retirement without having made a selection, the member’s surviving spouse or the executor or administrator of the member’s estate may make the selection provided by Section 54.105 of this subtitle under the terms of that subsection.
(c) The governing body of a subdivision may not authorize selection of an optional annuity under this section except on the terms provided by Section 54.201 of this subtitle.

§ 54.204. Optional Selection of Optional Annuity by Certain Other Members

(a) The governing body of a participating subdivision may authorize an employee of the subdivision who is a member of the retirement system to select an optional service retirement annuity in the manner and under the conditions provided by Section 54.105, if the member is at least 60 years old and has at least 12 years of credited service in the system performed for one or more subdivisions whose employees may select an optional annuity after meeting the same age and service requirements provided in this subsection.

(b) If a member authorized under this section to select an optional service retirement annuity dies before retirement without having made a selection, the member's surviving spouse or the executor or administrator of the member's estate may make the selection provided by Section 54.105(e) of this subtitle under the terms of that subsection.

(c) The governing body of a subdivision may not authorize selection of an optional annuity under this section except on the terms provided by Section 54.201 of this subtitle.

§ 54.205. Optional Increase in Annuities From Current Service Annuity Reserve Fund

(a) The governing body of a participating subdivision may increase that part of each annuity payment that is attributable to credit granted by the subdivision and that is payable from the current service annuity reserve fund.

(b) The governing body of a subdivision may not increase annuity payments under this section except on the terms provided by Section 54.201 of this subtitle.

§ 54.206. Optional Increase in Annuities From Subdivision Accumulation Fund

(a) The governing body of a participating subdivision may increase that part of each annuity payment that is attributable to credit granted by the subdivision and that is payable from the subdivision accumulation fund.

(b) The governing body of a subdivision may not increase annuity payments under this section except on the terms provided by Section 54.201 of this subtitle.

§ 54.303. Certification of Disability

(a) As soon as practicable after an application for disability retirement is filed, the medical board shall evaluate the medical and other pertinent information concerning the member's application.

(b) The medical board shall issue a certification of disability and submit it to the board of trustees, if the medical board finds:

(1) in the case of a member who has less than 12 years of credited service in the retirement system, that:
(A) the member is mentally or physically incapacitated for the further performance of duty;

(B) the incapacity is the direct result of injuries sustained during membership by external and violent means as a direct and proximate result of the performance of duty;

(C) the incapacity is likely to be permanent; and

(D) the member should be retired.

§ 54.304. Standard Disability Retirement Annuity

(a) The standard disability retirement annuity is discounted for the possibility of payment of a benefit under Section 54.403 of this subtitle and is the actuarial equivalent of the sum of a member's:

(1) accumulated contributions;

(2) current service credit, accumulated at interest as provided by Section 53.408(d) of this subtitle;

(3) allocated prior service credit, accumulated at interest as provided by Section 53.105(d) of this subtitle; and

(4) multiple matching credit, accumulated at interest as provided by Section 53.403(d) of this subtitle.

(b) A standard disability retirement annuity is payable throughout the life of a retiree.

§ 54.3041. Optional Disability Retirement Annuity

(a) Instead of the standard disability retirement annuity payable under Section 54.304 of this subtitle, a retiring member may elect to receive an optional disability retirement annuity under this section.

(b) An optional disability retirement annuity is payable throughout the life of the retiree and is actuarially reduced from the standard disability retirement annuity to its actuarial equivalent under the option selected under Subsection (c) of this section.

(c) An eligible person may select any optional annuity approved by the board of trustees, the entire benefit of which is certified by the actuary as the actuarial equivalent of the annuity to which the person is entitled, or may select one of the following options, which provide that:

(1) after the retiree's death, the reduced annuity is payable throughout the life of a person designated by the retiree;

(2) after the retiree's death, one-half of the reduced annuity is payable throughout the life of a person designated by the retiree;

(3) if the retiree dies before 60 monthly annuity payments have been made, the remainder of the 60 payments are payable to the retiree's beneficiary or, if one does not exist, to the retiree's estate; or

(4) if the retiree dies before 120 monthly annuity payments have been made, the remainder of the 120 payments are payable to the retiree's beneficiary or, if one does not exist, to the retiree's estate.

(d) To select an optional disability retirement annuity, a member or retiree must make the selection and designate a beneficiary on a form prescribed by and filed with the board of trustees before the 31st day after the effective date of retirement.

(e) A retiree who dies before the 31st day after the effective date of disability retirement and who did not select an optional disability retirement annuity before death is considered to have selected an optional annuity under Subsection (c)(4) of this section. Alternatively, the decedent's beneficiary may elect to receive a refund of the decedent's accumulated contributions under Section 54.401 of this subtitle, in which case the decedent will be considered to have been a contributing member at the time of death.

(f) If a person's disability retirement annuity is discontinued under Section 54.306 or 54.307 of this subtitle, the person's selection of any optional annuity under this section becomes void.

§ 54.305. Medical Examination of Disability Retiree

(a) Once each year during the first five years after a person retires for disability, and once in each three-year period after that, the board of trustees may require a disability retiree who is less than 60 years old to undergo a medical examination.

(b) An examination under this section may be held at the retiree's residence or at any place mutually agreed to by the board and the retiree. The board shall designate a physician to perform the examination.

(c) If a disability retiree refuses to submit to a medical examination as provided by this section, the board of trustees shall suspend the retiree's annuity payments until the retiree submits to an examination. If a retiree has not submitted to an examina-
tion as provided by this section before the first anniversary of the date of first refusal, the board shall revoke all rights of the retiree to an annuity.

§ 54.306. Certification of End of Disability

(a) If the medical board finds that a disability retiree is no longer mentally or physically incapacitated for the performance of duty or is engaged in or able to engage in gainful occupation, it shall certify its findings and submit them to the board of trustees.

(b) If the board of trustees concurs in a certification under this section, it shall discontinue annuity payments to the retiree.

§ 54.307. Return of Disability Retiree to Active Service

(a) If a retiree who is less than 60 years old and who is receiving a disability retirement annuity resumes employment with a participating subdivision, the person automatically resumes membership in the retirement system, and the board of trustees shall terminate the person's annuity payments.

(b) If a person resumes membership under this section, the retirement system shall restore to effect any prior service certificate used in determining the amount of the person's annuity at the time of disability retirement. If the person is subsequently rehired, the retirement system shall allow the person credit for all current service for which required contributions have been made and not withdrawn.

§ 54.308. Refund at Annuity Discontinuance

(a) Except as provided by Subsection (b) of this section, if a disability retirement annuity is discontinued under Section 54.306 of this subtitle or the right to an annuity revoked under Section 54.305(c) of this subtitle, the retiree is entitled to a lump-sum payment in an amount, if any, by which the amount in the retiree's individual account in the employees saving fund at the time of disability retirement exceeds the amount of basic and supplemental annuity payments made before the date the annuity was discontinued or the right to an annuity revoked.

(b) The benefit provided by this section is not payable to a retiree who resumes employment with a participating subdivision.

(c) The benefit provided by this section is payable from the current service annuity reserve fund and the subdivision accumulation fund in the ratio that the parts of the disability retirement annuity that were payable from the funds bear to the entire benefit as determined on the effective date of retirement.

[Sections 54.309 to 54.400 reserved for expansion]

SUBCHAPTER E. DEATH BENEFITS

§ 54.401. Return of Contributions

(a) Except as provided by Subsection (c) of this section, if a member dies before retirement, a lump-sum death benefit is payable from the employees saving fund in the amount of:

(1) the accumulated contributions in the member's individual account in the fund; plus

(2) interest computed from the beginning of the year in which death occurs through the end of the month before the month in which death occurs at the rate allowed on member contributions during the preceding year.

(b) The benefit provided by this section is payable to the decedent's estate unless the decedent has directed that the benefit be paid otherwise.

(c) A benefit is not payable under this section if an annuity based on the decedent's service is payable under this subtitle.

§ 54.402. Excess Contributions of Service Retiree

(a) If a person who receives a standard service retirement annuity dies, a lump-sum death benefit is payable in an amount, if any, by which the amount in the retiree's individual account in the employees saving fund at the time of service retirement exceeds the amount of annuity payments made before the retiree's death.

(b) The benefit provided by this section is payable to the decedent's estate unless the decedent has directed that the benefit be paid otherwise.

(c) The benefit provided by this section is payable from the current service annuity reserve fund and the subdivision accumulation fund in the ratio that the parts of the service retirement annuity that were payable from the funds bear to the entire benefit as determined on the effective date of retirement.

§ 54.403. Excess Contributions of Disability Retiree

(a) If a person who receives a standard disability retirement annuity dies, a lump-sum death benefit is payable in an amount, if any, by which the amount in the retiree's individual account in the employees saving fund at the time of disability retirement exceeds the sum of annuity payments made before the retiree's death.
§ 54.403

(b) The benefit provided by this section is payable to the decedent's estate unless the decedent has directed that the benefit be paid otherwise.

(c) The benefit provided by this section is payable from the current service annuity reserve fund and the subdivision accumulation fund in the ratio that the parts of the disability retirement annuity that were payable from the funds bear to the entire benefit as determined on the effective date of retirement.

(Sections 54.404 to 54.500 reserved for expansion.)

SUBCHAPTER F. OPTIONAL DEATH BENEFITS

§ 54.501. Coverage in Supplemental Death Benefit Program

(a) An employee of a participating subdivision is included within the coverage of the supplemental death benefit program on the first day of the first month in which:

(1) the employing subdivision is participating in the supplemental death benefit fund for coverage of all members it employs;

(2) the employee is a member of the retirement system; and

(3) the employee is required to make a contribution to the retirement system.

(b) Once established, coverage of a person in the supplemental death benefit program continues until the last day of a month in which a requirement of Subsection (a) of this section is not met.

§ 54.502. Extended Supplemental Death Benefit Coverage

(a) A member included in the coverage of the supplemental death benefit program who fails to earn compensation in a month for service to a subdivision participating in the supplemental death benefits fund is eligible to receive extended coverage in the program on complying with the terms of this section.

(b) A member may apply to the retirement system for extended program coverage and submit evidence of eligibility for extended coverage.

(c) The board of trustees shall grant extended coverage in the supplemental death benefit program to an applicant, if the board finds:

(1) that as a result of illness or injury, the member is unable to engage in gainful occupation; and

(2) that the member made a required contribution to the retirement system as an employee of a subdivision participating in the supplemental death benefits fund for the month immediately preceding the first full month in which the member was unable to engage in gainful occupation.

(d) Once established, extended coverage of a person in the supplemental death benefit program continues until the last day of the month in which:

(1) the member returns to work as an employee of a participating subdivision;

(2) the board of trustees finds that the member is able to engage in gainful occupation;

(3) the person's membership in the retirement system is terminated; or

(4) the member retires under this subtitle.

(e) The board of trustees by rule may require a member to submit to it annual proof of continued inability to engage in gainful occupation. The board may require a member to undergo a medical examination by a physician designated by the board. Failure of a member to undergo a medical examination as required by this subsection is a ground for the board's finding that the member has become able to engage in gainful occupation.

§ 54.503. Member Supplemental Death Benefit

(a) If a person included in the coverage or extended coverage of the supplemental death benefit program dies, a lump-sum supplemental death benefit is payable from the supplemental death benefit fund in an amount equal to the current annual salary of the member at the time of death.

(b) Except as provided by Subsection (c) of this section, the current annual salary of a member is computed as the amount paid to the member for service on which contributions were made to the retirement system during the 12 months immediately preceding the month of death. If a member did not receive compensation for service in each of the 12 months immediately preceding the month of death, the member's current annual salary is computed by converting to an annual basis the amount paid to the member on which contributions were made to the system during the period of employment within the 12-month period. If a member did not receive compensation for service in any of the 12 months immediately preceding the month of death, or if the member was employed by a subdivision that was not participating on a full-salary basis for 12 calendar months immediately preceding the month of death, the member's current annual salary is computed by converting to an annual basis the rate of compensation payable to the member during the month of death.

(c) The current annual salary of a member included in the extended coverage of the supplemental death benefit program is computed in the manner provided by Subsection (b) of this section but as if the member had died during the first month of extended coverage.

(d) If a member, because of a change in employment, makes contributions to the retirement system
during the same month as an employee of more than one subdivision participating in the supplemental death benefits fund, a death benefit is payable only on the basis of the member's most recent employment. If a member, because of simultaneous employment by more than one subdivision, makes contributions to the retirement system during the same month as an employee of more than one subdivision participating in the supplemental death benefits fund, a death benefit is payable on the basis of the member's employment by each subdivision participating in the fund.

(e) The board of trustees by rule may require such proof of compensation and periods of employment as it finds necessary.

§ 54.504. Retiree Supplemental Death Benefit

If a retiree dies whose most recent employment as a member of the retirement system was with a subdivision that has elected to provide, and continues to provide, postretirement supplemental death benefits, a lump-sum supplemental death benefit is payable from the fund in the amount of $2,500. If a retiree dies who was employed at the time of retirement by more than one subdivision that has elected to provide, and continues to provide, postretirement supplemental death benefits, the financing of the lump-sum benefit shall be prorated among the employing subdivisions participating in the fund.

§ 54.505. Beneficiary of Supplemental Death Benefit

(a) Unless a member has directed otherwise on a form prescribed by the board of trustees and filed with the retirement system:

(1) a supplemental death benefit under Section 54.503 of this subtitle is payable to the person entitled to receive the decedent's accumulated contributions, unless the decedent was eligible under Section 54.105 of this subtitle to select an optional service retirement annuity, in which case the benefit is payable to the beneficiary designated by the decedent or, if no designation was made, to the person entitled under that section to receive an optional annuity; and

(2) a supplemental death benefit under Section 54.504 of this subtitle is payable to a person entitled to receive any remaining payments of the decedent's annuity.

(b) If a person entitled under this section to receive a supplemental death benefit does not survive a retiree covered by the supplemental death benefit program, the benefit is payable to the estate of the covered member or retiree.

(a) Each payroll period after the effective date of a subdivision’s participation, the subdivision shall cause the contribution for that period to be deducted from the compensation of each member that it employs.

(b) In determining the amount of a member’s compensation for a payroll period, the board of trustees may use the rate of annual compensation payable to a member on the first day of the payroll period as the rate for the entire period and may omit deductions from compensation for less than a full payroll period if the employee was not a member on the first day of the period.

(c) To facilitate the making of deductions, the board of trustees may modify a member’s required deductions by an amount that does not exceed 25 cents.

(d) A participating subdivision shall certify to the board of trustees on each payroll, or in another manner prescribed by the board, the amount to be deducted from the compensation of each member that it employs.

(e) The treasurer or disbursing officer of each participating subdivision shall:

(1) make deductions from each member’s compensation for contributions to the retirement system;

(2) transmit monthly, or at the time designated by the board of trustees, the payroll and other pertinent information prescribed by the board; and

(3) pay the deductions to the board of trustees at the board’s home office.

(f) After the deductions for member contributions are paid, the board of trustees shall:

(1) record all receipts; and

(2) deposit the receipts to the credit of the employees saving fund.

(g) The treasurer or disbursing officer of a participating subdivision shall make the deductions required by this section even if the member’s compensation is reduced below the amount equal to the minimum compensation provided by law.

(h) By becoming a member of the retirement system, a member consents to the deductions required by this section. The payment of compensation less those deductions is a complete release of all claims, except benefits provided by this subtitle, for services rendered by the member during the payroll period.

§ 55.404. Collection of Subdivision Contributions

(a) Before the 16th day of each month, each participating subdivision shall pay or cause to be paid to the retirement system at the system’s office:
(1) an amount equal to the total amount of contributions to the retirement system paid by all employees of the subdivision for the preceding month; and

(2) a contribution for expenses of the retirement system equal to the total amount of membership fees paid by the employees of the subdivision for the preceding month.

(b) Unless otherwise provided for and paid by a subdivision, a subdivision shall pay its contributions to the retirement system from:

(1) the fund from which compensation is paid to members; or

(2) the general fund of the subdivision.

§ 55.405. War Period Contributions

(a) A member to whom this section applies may pay to the retirement system, during each 12 months of the period described by Subsection (b) of this section, an amount that does not exceed the amount of the member's contribution to the system during the most recent 12-month period in which the member was employed by a participating subdivision.

(b) This section applies to a member who, as a result of conscription or volunteering, is serving in the United States armed forces, armed forces reserve, an auxiliary of the armed forces or reserves, or the American Red Cross or who as a result of government conscription is in war work, during a declared or undeclared war involving the United States, during a conflict between the armed forces of the United States and the armed forces of a foreign country, or before the first anniversary of the last day of the war or conflict.

(c) The board of trustees shall treat the amounts paid by the member during the most recent 12-month period in which the member was employed by a participating subdivision as funds deposited by the member while an employee of a participating subdivision.

(d) The participating subdivision that most recently employed a member paying contributions under this section shall pay an amount equal to the amount paid by the member under this section.

§ 55.406. Supplemental Death Benefits Program

(a) In addition to other contributions to the retirement system required by this subtitle, each subdivision participating in the supplemental death benefits fund monthly shall pay to the fund an amount equal to the rate of contribution computed in accordance with this section, multiplied by the total compensation for the month of the members employed by the subdivision.

(b) A limitation on subdivision contribution rates provided by this subtitle does not apply to the rate of the contribution to the supplemental death benefits fund.

(c) As soon as practical after the supplemental death benefits program is established and at the time of each investigation of members' mortality and service experience required by Section 55.110 of this subtitle, the actuary shall investigate the mortality experience of the members and eligible annuitants participating in the supplemental death benefits program. On the basis of the result of that investigation, the actuary shall recommend to the board of trustees rates and tables necessary to determine supplemental death benefits contribution rates. The rates and tables may provide for the anticipated mortality experience of the persons covered under the supplemental death benefits fund and for a contingency reserve.

(d) Before a subdivision's participation date in the supplemental death benefits fund and before January 1 of each subsequent year, the actuary shall compute, on the basis of rates and tables adopted by the board of trustees, the supplemental death benefits contribution rate of a subdivision participating in the supplemental death benefits contribution fund. The rate must be expressed as a percentage of the compensation of members employed by the subdivision. When the rate is approved by the board of trustees, the rate is effective for the calendar year for which it was approved.

(e) If the balance in the supplemental death benefits fund is insufficient to pay the supplemental death benefits due, the board of trustees may direct that, to the extent available, an amount equal to the amount of the deficiency be transferred from the general reserves account of the endowment fund to the supplemental death benefits fund. The board may adjust future contributions to the supplemental death benefits fund to repay to the general reserves account the transferred amount.

(f) If the total number of members covered by the supplemental death benefits fund becomes fewer than 4,000, the board of trustees may order that the fund be discontinued and all coverage terminated. The termination date must be December 31 of a year designated by the board and may not be before the expiration of six months after the date on which the order of termination was adopted.

(g) To protect against adverse claim experience, the board of trustees may secure reinsurance from one or more stock insurance companies doing business in this state if the board determines that reinsurance is necessary. The retirement system shall pay the premiums for reinsurance from the supplemental death benefits fund.

(3) was less than 55 years old on the later of January 1, 1979, or the date of employment, and became a member on August 27, 1979, by being an employee of a participating department of a municipality that adopts the provisions of Sections 62.105 and 64.202 of this subtitle; or

(4) became a member under Section 62.105 of this subtitle.

(b) The board of trustees may adopt rules concerning eligibility for prior service under this section.

§ 63.103. Statement of Prior Service

A member may claim credit for prior service by filing a detailed statement of the service with the city clerk or city secretary of the municipality for which the service was performed.

§ 63.104. Certification of Service and Average Compensation

(a) As soon as practicable after a member files a statement of prior service under Section 63.103 of this subtitle, the municipality that employs the person who receives the statement shall verify the prior service claimed and certify to the board of trustees the amount of service approved and the member's average prior service compensation.

(b) The average prior service compensation of a member is computed as the average monthly compensation for service performed for a participating department of the municipality:

(1) for the 36 months immediately preceding the effective date of the department's participation in the retirement system; or

(2) if the member did not perform service in each of the 36 months immediately preceding participation, for the number of months of service within the 36-month period.

(c) The board of trustees may adopt rules concerning verification and certification of service and compensation under this section.

§ 63.105. Determination of Prior Service Credit

Each monthly amount equals 10 percent of the member's average prior service compensation, or $300 a month, whichever is less. Interest is allowed at the end of each 12-month period on an accumulated amount at the beginning of each period and is credited only for each whole 12-month period.

(c) For an employee of a municipality having an effective date of participation in the retirement system after December 31, 1975, the prior service credit is an amount computed as a percentage determined as provided by Subsection (d) of this section, times a base credit equal to the accumulation at three percent interest of a series of monthly amounts for the number of months of approved prior service, times the sum of:

(1) the rate of contributions required of employees of the municipality for current service; plus

(2) the rate described in Subdivision (1) of this subsection times the municipal current service matching ratio.

(d) The governing body of a municipality having an effective date of retirement system participation after December 31, 1975, shall determine in the ordinance providing for participation the percentage to be applied against the base credit in computing a prior service credit under Section 63.102(a)(3) of this subtitle or who is entitled to prior service credit under Section 63.102(a)(3) of this subtitle is computed on the percentage of the base prior service credit that was most recently used by the person's employing municipality in computing prior or updated service credits for current employees.

(e) The prior service credit of a person who becomes a member of the retirement system under Section 62.105 of this subtitle or who is entitled to prior service credit under Section 63.102(a)(3) of this subtitle is computed on the percentage of the base prior service credit that was most recently used by the person's employing municipality in computing prior or updated service credits for current employees.

(f) Interest on a prior service credit is earned for each whole year beginning on the effective date of membership and ending on the effective date of retirement.

§ 63.106. Prior Service Certificate

(a) After determining a member's prior service credit under Section 63.105 of this subtitle, the
board of trustees shall issue to the member a prior service certificate stating:

1. the number of months of prior service credited;
2. the average prior service compensation; and
3. the prior service credit.

(b) As long as a person remains a member, the person's prior service certificate is, for purposes of retirement, conclusive evidence of the information it contains, except that a member or participating municipality, before the first anniversary of its issuance or modification, may request the board of trustees to modify the certificate.

§ 63.107. Void Prior Service Certificate

SUBCHAPTER D. OPTIONAL SERVICE

§ 63.301. Service for Certain Public Facilities

(a) The governing body of a participating municipality by ordinance may authorize the granting of prior service credit in the retirement system for service performed in a public hospital, utility, or other public facility currently operated by the municipality, during a time the facility was operated by a unit of government other than the municipality and before:

1. the effective date of the municipality's participation in the retirement system, if the facility was acquired by the municipality before that date; or
2. the date of acquisition of the facility, if the facility was acquired after the effective date of the municipality's participation in the retirement system.

(b) A member eligible to receive credit under this section after an ordinance is adopted under Subsection (a) of this section is one who was employed by the municipality at a public facility:

1. on the effective date of the municipality's participation, for service under Subsection (a)(1) of this section; or
2. on the date of acquisition of the facility, for service under Subsection (a)(2) of this section.

(c) All credit authorized by a municipality under this section is treated as if it were performed for the municipality.

§ 63.302. Service for Elected Officers

An elected officer who becomes a member of the retirement system on the effective date of an ordinance adopted under Section 62.107 of this subtitle is entitled to prior service credit computed as provided by Section 63.105 of this subtitle, except that if the employing municipality has granted updated service credits, the percentage to be used in computing a prior service credit under this section is the percentage of the base updated service credit that was most recently used by the municipality in computing updated service credits.

[Sections 63.303 to 63.400 reserved for expansion]

SUBCHAPTER E. OPTIONAL INCREASES IN SERVICE CREDITS

§ 63.401. Ordinance Authorizing Updated Service Credits

(a) Except as provided by Subsection (b) of this section, the governing body of a participating municipality by ordinance may authorise the crediting in the retirement system of updated service credits for service performed for the municipality by members. An updated service credit authorized under this section replaces any updated service credit, prior service credit, special prior service credit, or antecedent service credit previously authorized for part of the same service.

(b) A municipality may not authorize updated service credits for members who had less than 36 months of credited service on the date prescribed by Section 63.402(c) of this subtitle.

(c) In adopting an ordinance under this section, a governing body shall specify the percentage of base updated service credits to be used in computing updated service credits for employees of the municipality and shall specify the date the updated service credits will take effect. The percentage adopted may be any multiple of 10 percent that does not exceed 100 percent of a base updated service credit. The effective date must be January 1 of a year specified by the governing body.
§ 63.401  TITLE 11B  4030

(d) An ordinance under this section also must require, beginning on the effective date of the updated service credits, that a member's monthly contributions for current service be based on the member's total monthly compensation from the municipality, if the requirement is not already in effect for employees of the municipality.

(e) A governing body that adopts an ordinance under this section shall send it to the retirement system, and the system must receive it before the effective date of the updated service credits authorized in the ordinance.

§ 63.402. Determination of Updated Service Credits

(a) If a governing body sends the retirement system an ordinance adopted under Section 63.401 of this subtitle, the retirement system shall determine for each affected member the average updated service compensation, base updated service credit, and updated service credit.

(b) The average updated service compensation of a member is computed as the monthly average compensation for:

(1) the 36 months immediately preceding the date prescribed by Subsection (e) of this section;

(2) if the member did not perform service in each of the 36 months described in Subdivision (1) of this subsection, for the number of months of service within the 36-month period; or

(3) if the member did not perform any service within the 36-month period, for the number of months of service within the 36-month period ending with the last month of the calendar year in which the member's most recent service was performed.

(c) The base updated service credit of a member is an amount computed as the number

(1) "(1)" is an amount equal to the accumulation at three percent interest of a series of monthly amounts for the number of months of credited service on the date prescribed by Subsection (e) of this section, each amount of which equals the member's average updated service compensation, times the sum of:

(A) the rate of contributions required of the member for current service; plus

(B) the member's contribution rate, times the municipal current service ratio in effect on the effective date of the ordinance adopted under Section 63.401 of this subtitle; and where

(2) "(2)" is an amount equal to the sum of:

(A) the amount credited to the member's individual account in the employees saving fund on the date prescribed by Subsection (e) of this section, subject to a 1 to 1 matching ratio, times 1; plus

(B) the amount credited to the member's individual account, subject to a 1.5 to 1 matching ratio, times 2.5; plus

(C) the amount credited to the member's individual account, subject to a 2 to 1 matching ratio, times 3.

(d) The updated service credit of a member is an amount equal to the greatest of the following:

(1) the percentage determined under Section 63.401(c) of this subtitle, times the member's base updated service credit; or

(2) any updated service credit previously authorized by the municipality and in effect for the member, accumulated at interest as provided by Subsection (f) of this section from the date it took effect to the date prescribed by Subsection (e) of this section; or

(3) the sum of any prior service credit, special prior service credit, and antecedent service credit previously authorized by the municipality and in effect for the member, accumulated at interest as provided by Subsection (f) of this section from the dates the credits took effect to the date prescribed by Subsection (e) of this section.

(e) The date used in computing updated service compensation and updated service credits under this section is January 1 of the year immediately preceding the January 1 on which the updated service credits will take effect.

(f) Interest on an updated service credit is earned for each whole calendar year beginning on the date the updated service credit takes effect and ending on the effective date of retirement.

§ 63.403. Approval of Ordinance

(a) An ordinance adopted under Section 63.401 of this subtitle may not take effect unless the board of trustees approves the ordinance as meeting the requirements of this section. The board may not approve an ordinance unless the actuary first determines, and the board concurs in the determination, that all obligations charged against the municipality's account in the municipality accumulation fund, including obligations proposed in the ordinance, can be funded by the municipality within its maximum total contribution rate before the 25th anniversary of the date the updated service credits take effect.

(b) The board of trustees may adopt rules it finds necessary to insure that the retirement system receives in a timely manner from a municipality the certified information the actuary requires to make the necessary determinations before the date the updated service credits take effect.

[Sections 63.404 to 63.500 reserved for expansion]

SUBCHAPTER F. OPTIONAL MILITARY SERVICE

§ 63.501. Creditable Military Service

(a) The governing body of a participating municipality by ordinance may authorize eligible members in its employment to establish credit in the retirement system for active military service performed as a member of the armed forces or armed forces reserves of the United States or of an auxiliary of the armed forces or armed forces reserves, during a period in which the United States is or was involved in a state of conflict with foreign forces.

(b) A member eligible to establish credit for military service creditable as provided by this section is one:

(1) who is an employee of a municipality that has adopted an ordinance under this section;

(2) who has at least 10 years of credited service in the retirement system;

(3) who has been an employee of one or more participating municipalities for at least 10 years;

(4) whose military service was terminated by release from active duty or discharge, on terms not dishonorable;

(5) who does not receive and is not eligible to receive federal retirement payments based on 20 years or more of active military duty or its equivalent; and

(6) who does not have and does not receive credit for the service in any other public retirement system or program established under laws of this state.

(c) A member may not establish more than 60 months of credit in the retirement system for military service.

(d) The board of trustees by rule shall determine the periods recognized for purposes of this subchapter in which the state is involved in periods of organized conflict.

§ 63.502. Establishment of Military Service Credit

(a) A member may establish credit for military service under this subchapter by depositing with the retirement system an amount equal to $15 for each month for which credit is sought.

(b) A member must make the deposit required by this section before the first anniversary of the effective date of the ordinance adopted under Section 63.501 of this subtitle or before the first anniversary of the date the member becomes eligible to establish the credit, whichever is later.

(c) The employing municipality shall contribute for service established under this section an amount equal to the amount required of the member, times the municipality’s current service matching percent-age in effect on the date the member applies for credit under this section.

§ 63.503. Use of Military Service Credit

(a) The retirement system shall use military service credit established under this subchapter in determining satisfaction of length-of-service requirements for benefits.

(b) When a person who has military service credit retires, the retirement system shall transfer to the current service annuity reserve fund the amounts paid by the person and the employing municipality under Section 63.502 of this subchapter. The retirement system shall use the amounts to make annuity payments to the person computed in the same manner as is the person’s current service annuity, but the credit and the amounts may not be used in other computations, including computations of updated service credits, antecedent service credits, prior service credits, or special prior service credits.

SUBCHAPTER G. OPTIONAL UPDATED SERVICE CREDIT FOR TRANSFERRED SERVICE

§ 63.601. Ordinance Authorizing Updated Service Credit for Transferred Service

(a) The governing body of a participating municipality in ordinances authorizing updated service credits under Section 63.401 on or after January 1, 1984, may provide that those members who are eligible for such credits on the basis of service with the granting municipality, who have un forfeited credit for prior service and/or current service with another participating municipality or municipalities by reason of previous employment, and who are contributing members on the date prescribed by Subsection (e) of Section 63.402, shall be credited in the retirement system with updated service credit calculated in the manner prescribed by Sections 63.401 and 63.402, except that in determining the base updated service credit of the member under Subdivision (1) of Subsection (e) of Section 63.402 all unforfeited credited service performed by the member by reason of previous employment in other participating municipalities prior to the date prescribed by Subsection (e) of Section 63.402 shall be treated as if performed in the service of the municipality adopting the ordinance, and that amount shall be reduced by an amount equal to the sum of:

(1) 2 times the amount credited to the member's individual accounts in the employees saving fund on the date prescribed in Subsection (e) of Section 63.402, which any participating municipality has undertaken to match on a 1 to 1 ratio; plus

(2) 2.5 times the amount credited to the member's individual accounts, subject to a 1.5 to 1...
matching ratio by any participating municipality; plus

(3) 3 times the amount credited to the member’s individual accounts, subject to a 2 to 1 matching ratio by any participating municipality; and plus

(4) the sum of all updated service credits, prior service credits, special prior service credits, and antecedent service credits allowed to the member by any other participating municipality by which the member was previously employed and to which the member is entitled.

(b) If the member is granted an updated service credit by a previously employing municipality on or after the granting of an updated service credit under Subsection (a) of this section, the updated service credit granted under Subsection (a) of this section shall be reduced by the amount of increase in credits resulting from the granting of updated service credits by the previous employer.

1. service retirement benefits;
2. disability retirement benefits; and
3. death benefits.

§ 64.002. Composition of Retirement Annuity

(a) Each retirement annuity payable under this subtitle consists of a prior service annuity and a current service annuity.

(b) A prior service annuity is actuarially determined from any updated service credit or any prior service, special prior service, or antecedent service credit in effect for a member on the date of retirement, plus accumulated interest.

(c) A current service annuity is actuarially determined on the date of a member’s retirement from the sum of:

1. the amount credited to the member’s individual account in the employees saving fund; and
2. the amount from the municipality accumulated in the employee’s individual account or a greater amount authorized by a participating municipality under Section 65-501 of this subtitle.

§ 64.003. Effective Date of Retirement

(a) The effective date of a member’s service retirement is the date the member designates at the time the member applies for retirement under Section 64.101 of this subtitle, but the date must be the last day of a calendar month and may not precede the date the member terminates employment with all participating municipalities.

(b) If a member dies before retirement and has a valid optional retirement annuity selection on file
with the retirement system, the member is considered to have retired on the last day of the month immediately preceding the month in which death occurred.

(c) The effective date of a member's disability retirement is the date designated on the application for retirement filed by or for the member as provided by Section 64.301 of this subtitle, but the date may not precede the date the member terminates employment with all participating municipalities.

§ 64.004. When Annuity is Payable

§ 64.005. Reduction of Annuity Payments on Request

(a) An annuitant by written request may authorize the retirement system to reduce the annuitant's monthly payment to an amount specified in the request. In writing, the annuitant may subsequently request the retirement system to increase the annuitant's monthly payment to any specified amount that does not exceed the amount originally payable.

(b) If the retirement system receives a request under Subsection (a) of this section, the director may cause the monthly annuity payment of the requesting annuitant to be reduced or increased as specified in the request.

(c) Any amounts by which an annuity is reduced under this section are forfeited to the retirement system and are not recoverable by any person.

[Sections 64.006 to 64.100 reserved for expansion]

SUBCHAPTER B. SERVICE RETIREMENT BENEFITS

§ 64.101. Application for Service Retirement

A member may apply for service retirement by filing a retirement application with the board of trustees not less than 90 days nor, if the member has not previously selected an optional service retirement annuity under Section 64.105 of this subtitle, more than 90 days before the date the member wishes to retire.

§ 64.102. Eligibility for Service Retirement Annuity

(a) A member is eligible, beginning on the first anniversary of the effective date of the person's membership, to retire and receive a service retirement annuity, if the member:

(1) is at least 60 years old and has at least 15 years of credited service in the retirement system; or

(2) has at least 28 years of credited service in the retirement system.

(b) A member is eligible, beginning on the first anniversary of the effective date of the person's membership, to retire and receive a service retirement annuity, if the member is at least 50 years old and has at least 25 years of credited service in the retirement system performed for one or more municipalities that:

(1) have effective dates of participation in the retirement system after May 28, 1969; or

(2) have adopted a like provision under Section 64.201 or 64.202 of this subtitle.

(c) A member is eligible, beginning on the first anniversary of the effective date of the person's membership, to retire and receive a service retirement annuity, if the member is at least 60 years old and has at least 10 years of credited service in the retirement system performed for one or more municipalities that either have an effective date of participation in the retirement system after August 26, 1979, or have adopted a like provision under Section 64.202 of this subtitle.

(d) A member employed by a municipality having an effective date of participation in the retirement system after May 28, 1969, may terminate employment and remain eligible to retire and receive a service retirement annuity at any time after the member attains an applicable age provided by law for service retirement employees of the municipality, if the member has at least 20 years of credited service performed for one or more municipalities that are either subject to this subsection or have adopted a like provision under Section 64.201(c) of this subtitle.

(e) A member employed by a municipality having an effective date of participation in the retirement system after August 26, 1979, may terminate employment and remain eligible to retire and receive a service retirement annuity at any time after the member attains an applicable age and service requirement, if the member has at least 10 years of credited service performed for one or more municipalities that are either subject to this subsection or have adopted a like provision under Section 64.202 of this subtitle.

§ 64.102. Standard Service Retirement Annuity

(a) The standard service retirement annuity payable under this subtitle is the sum of a member's prior service annuity and current service annuity.

(b) A standard service retirement annuity is payable throughout the life of a retiree. If a retiree dies before 60 monthly payments of a standard service retirement annuity have been made, the remainder of the 60 monthly payments are payable to the retiree's designated beneficiary.

§ 64.104. Optional Service Retirement Annuity

(a) Instead of the standard service retirement annuity payable under Section 64.103 of this subtitle, a retiring member may elect to receive an optional service retirement annuity under this section.

(b) An optional service retirement annuity is payable throughout the life of the retiree and is actuarially adjusted from the standard service retirement annuity to its actuarial equivalent under the option selected under Subsection (c) of this section.

(c) An eligible person may select any optional annuity approved by the board of trustees, the entire benefit of which is certified by the actuary as the actuarial equivalent of the annuity to which the person is entitled, or may select one of the following options, which provide that:

1. if the retiree dies before 120 monthly annuity payments have been made, the remainder of the 120 payments are payable to the retiree's beneficiary or, if one does not exist, to the retiree's estate;

2. if the retiree dies before 180 monthly annuity payments have been made, the remainder of the 180 payments are payable to the retiree's beneficiary or, if one does not exist, to the retiree's estate; or

3. the annuity is payable only during the retiree's lifetime.

(d) An option under Subsection (c) of this section applies to both prior and current service annuities, except that prior service annuities are subject to reduction under Section 65.308(f) of this subtitle.

(e) To select an optional service retirement annuity, a member or retiree must make the selection and designate a beneficiary on a form prescribed by and filed with the board of trustees before the 31st day after the effective date of retirement.

§ 64.105. Selection of Optional Service Retirement Annuity

(a) A member who is eligible for service retirement may, while continuing to perform service for a participating municipality, file with the board of trustees, on a form prescribed by the board, a selection of an optional service retirement annuity available under Section 64.104 of this subtitle and a designation of beneficiary. An annuity selected as provided by this section is payable on the member's retirement or on the member's death before retirement.

(b) A member may change a selection of an optional annuity or a designation of beneficiary at any time before the member's retirement or death in the same manner that the original selection and designation were made.

(c) If a member eligible under this section to select an optional service retirement annuity dies before retirement without having made a selection, the member's surviving spouse may select an optional annuity in the same manner as if the member had made the selection. If there is no surviving spouse, the executor or administrator of the member's estate may elect:

1. for an estate beneficiary to receive the optional annuity under Section 64.104(c)(4) of this subtitle, in which case the estate will be considered to have received the last of the monthly payments before the member's death occurred; or

2. for the estate to receive a refund of the member's accumulated contributions under Section 64.501 of this subtitle, in which case the estate will be considered to have been a contributing member at the time of death.

[Sections 64.106 to 64.200 reserved for expansion]
municipality, if the member has at least 20 years of credited service performed for one or more municipalities that either have authorized eligibility under this section or are subject to Section 64.102(d) of this subtitle.

(c) A governing body may not adopt an ordinance under this section unless the actuary first determines that all obligations charged against the municipality's account in the municipality accumulation fund, including the obligations proposed in the ordinance, can be funded by the municipality within its maximum contribution rate and within its amortization period.

(d) Expired.

Subsection (d) of this section expired by its own terms on April 1, 1982.

§ 64.202. Additional Optional Service Retirement Eligibility

(a) The governing body of a municipality that has an effective date of participation in the retirement system after December 31, 1975, or that has previously authorized updated service credits, by ordinance may authorize eligibility for a service retirement annuity as provided by this section for a member who is or was an employee of any participating department of the municipality.

(b) The governing body may authorize a member, beginning on the first anniversary of the effective date of the person's membership, to retire and receive a service retirement annuity, if the member:

(1) is at least 50 years old and has at least 25 years of credited service performed for one or more municipalities that have authorized eligibility under this subdivision; or

(2) is at least 60 years old and has at least 10 years of credited service performed for one or more municipalities that either have authorized eligibility under this subdivision or have a participation date in the retirement system after August 26, 1979.

(c) The governing body may authorize a member who is or was an employee of the municipality to terminate employment and remain eligible to retire and receive a service retirement annuity at any time after the member attains an applicable age and service requirement, if the member has at least 10 years of credited service performed for one or more municipalities that either have authorized eligibility under this subdivision or are subject to Section 64.102(e) of this subtitle.

(d) An ordinance adopted under this section must also include the provisions specified in Section 62.105 of this subtitle. A governing body may not adopt an ordinance under this section unless the actuary first determines, on the basis of mortality and other tables adopted by the board of trustees, that all obligations of the municipality to the municipality accumulation fund, including obligations proposed under the ordinance, can be funded by the municipality within its maximum contribution rate and within its amortization period.

(e) The governing body shall specify the effective date of an ordinance under this section, which may be the first day of any month after the month in which the actuary makes the determination required by Subsection (d) of this section.

(f) Expired.

Subsection (f) of this section expired by its own terms on April 1, 1982.

§ 64.203. Optional Increase in Retirement Annuities

(a) The governing body of a participating municipality by ordinance, from time to time but not more frequently than once in each 12-month period, may authorize and provide for increased annuities to be paid to retirees and beneficiaries of deceased retirees of the municipality. An annuity increased under this section replaces any annuity or increased annuity previously granted to the same person.

(b) The amount of annuity increase under this section is computed as the sum of the prior and current service annuities on the effective date of retirement of the person on whose service the annuities are based, multiplied by:

(1) the percentage change in the Consumer Price Index for All Urban Consumers, published by the Bureau of Labor Statistics of the United States Department of Labor, from December of the year immediately preceding the effective date of the person's retirement to the December that is 13 months before the effective date of the ordinance providing the increase; and

(2) a fraction, specified by the governing body in the ordinance, that is not less than 70 percent and is a multiple of 5 percent.

(c) Except as provided by Subsection (g) of this section, the effective date of an ordinance under this section is January 1 of the year that begins after the year in which the governing body adopts and notifies the retirement system of the ordinance.

(d) An increase in an annuity that was reduced because of an option selection is reducible in the same proportion and in the same manner that the original annuity was reduced.

(e) If a computation under Subsection (b) of this section does not result in an increase in the amount of an annuity, the amount of the annuity may not be changed under this section.

(f) The amount by which an increase under this section exceeds all previously granted increases to an annuitant is payable as a prior service annuity, is an obligation of the municipality's account in the
municipality accumulation fund, and is subject to reduction under Section 65.308(f) of this subtitle.

(g) An ordinance under this section may not take effect until it is approved by the board of trustees as meeting the requirements of this section. The board may not approve an ordinance unless the actuary determines that all obligations charged against the municipality’s account in the municipality accumulation fund, including the obligations proposed in the ordinance, can be funded by the municipality within its maximum contribution rate before the 25th anniversary of the effective date of the ordinance.

(h) A governing body may not authorize and provide for annuity increases under this section unless it simultaneously provides for updated service credits under Subchapter E of Chapter 63 of this subtitle.

§ 64.304. Certification of Disability

(a) As soon as practicable after an application for disability retirement is filed, the medical board shall evaluate the medical and other pertinent information concerning the member’s application.

(b) The medical board shall issue a certification of disability and send it to the board of trustees if the medical board finds:

(1) in the case of a member who has less than 10 years of credited service in the retirement system, that:
   (A) the member is mentally or physically incapacitated for the further performance of duty;
   (B) the incapacity is the direct result of injuries sustained during membership by external and violent means as a direct and proximate result of the performance of duty;
   (C) the incapacity is likely to be permanent; and
   (D) the member should be retired;

(2) in the case of a member who has at least 10 years of credited service in the retirement system but is not eligible for a service retirement annuity, that:
   (A) the member is mentally or physically incapacitated for the further performance of duty;
   (B) the incapacity is likely to be permanent; and
   (C) the member should be retired.

§ 64.305. Standard Disability Retirement Annuity

(a) The standard disability retirement annuity payable under this subtitle is the sum of a member’s prior service annuity and current service annuity.

(b) A prior service annuity is subject to reduction as provided by Section 65.308(f) of this subtitle.

(c) A standard disability retirement annuity is payable throughout the life of a retiree. When a retiree who receives an annuity under this section dies, an additional benefit may be payable under Section 64.302 of this subtitle.

§ 64.3041. Optional Disability Retirement Annuity

(a) Instead of the standard disability retirement annuity payable under Section 64.304 of this subtitle, a member retiring for disability may elect to receive an optional disability retirement annuity under this section.

(b) An optional disability retirement annuity is payable throughout the life of the retiree and is actuarially adjusted from the standard disability retirement annuity to its actuarial equivalent under the option selected under Subsection (e) of this section.

(c) An eligible person may select any optional annuity approved by the board of trustees, the entire benefit of which is certified by the actuary as the actuarial equivalent of the annuity to which the person is entitled, or may select one of the following options, which provide that:

1. after the retiree's death, the reduced annuity is payable throughout the life of a person designated by the retiree;
2. after the retiree's death, one-half of the reduced annuity is payable throughout the life of a person designated by the retiree;
3. if the retiree dies before 120 monthly annuity payments have been made, the remainder of the 120 payments are payable to the retiree's beneficiary or, if one does not exist, to the retiree's estate; or
4. if the retiree dies before 180 monthly annuity payments have been made, the remainder of the 180 payments are payable to the retiree's beneficiary or, if one does not exist, to the retiree's estate.

(d) An option under Subsection (c) of this section applies to both prior and current service annuities, except that prior service annuities are subject to reduction under Section 65.308(f) of this subtitle.

(e) To select an optional disability retirement annuity, a member or retiree must make the selection and designate a beneficiary on a form prescribed by and filed with the board of trustees before the effective date of retirement.

(f) If a disability retirement annuity is discontinued under Section 64.307 of this subtitle, any selection of an option that applies to the annuity becomes void.

§ 64.305. Medical Examination of Disability Retiree

(a) Once each year during the first five years after a person retires for disability, and once in each three-year period after that, the board of trustees may require a disability retiree who is less than 60 years old to undergo a medical examination.

(b) An examination under this section may be held at the retiree's residence or at any place mutually agreed to by the board and the retiree. The board shall designate a physician to perform the examination.

(c) If a disability retiree refuses to submit to a medical examination as provided by this section, the board of trustees shall suspend the retiree's annuity payments until the retiree submits to an examination. If a retiree has not submitted to an examination as required by this section before the first anniversary of the date of first refusal, the board shall revoke all rights of the retiree to an annuity.

§ 64.306. Certification of End of Disability

(a) If the medical board finds that a disability retiree is no longer mentally or physically incapacitated for the performance of duty or is able to engage in gainful occupation, it shall certify its findings and submit them to the board of trustees.

(b) If the board of trustees concurs in a certification under this section, it shall discontinue annuity payments to the retiree.

§ 64.307. Return of Disability Retiree to Active Service or Employment

(a) If a retiree who is less than 60 years old and who is receiving a disability retirement annuity resumes employment with a participating municipality or otherwise becomes gainfully employed, the person automatically resumes membership in the retirement system, and the board of trustees shall terminate the person's annuity payments.

(b) If a person resumes membership under this section, the retirement system shall restore to the person credit for all current service, antecedent service credit, or updated service credit used in determining the amount of the person's annuity at the time of disability retirement. If the person subsequently retires, the retirement system shall allow the person credit for all current service for which required contributions have been made and not withdrawn.

§ 64.308. Refund at Annuity Discontinuance

(a) Except as provided by Subsection (b) of this section, if a disability retirement annuity is discontinued under Section 64.306 of this subtitle or the right to an annuity revoked under Section 64.305(c) of this subtitle, the retiree is entitled to a lump-sum payment in an amount, if any, by which the amount in the retiree's individual account in the employees saving fund at the time of disability retirement exceeds the amount of current service annuity pay-

SUBCHAPTER E. OPTIONAL DISABILITY RETIREMENT BENEFITS

§ 64.401. Eligibility for Supplemental Disability Retirement Annuity

A member as an employee of a municipal department included, as provided by Section 62.003 of this subtitle, in the coverage of the supplemental disability benefits fund is eligible to retire and receive a supplemental disability retirement annuity if the member:

1. is eligible to receive a disability retirement annuity under Section 64.302 of this subtitle; and

2. is the subject of a certification and finding under Section 64.402 of this subtitle, as well as a certification under the applicable finding provided by Section 64.303 of this subtitle.

§ 64.402. Certification and Finding of Disability

(a) The medical board shall issue and send to the board of trustees a certification of disability for a member included in the coverage of the supplemental disability benefits fund if, after a medical examination of the member, the medical board finds that the member is mentally or physically incapacitated and is unable to engage in gainful occupation.

(b) A member is entitled to a supplemental disability retirement annuity if the board of trustees, after receiving a certification of disability for the member under this section, finds that the member's incapacity:

1. is the direct result of injuries sustained after the effective date of coverage of the member in the supplemental disability benefits fund as a direct and proximate result of the performance of the duties of the member's employment; and

2. is likely to be permanent.

§ 64.403. Supplemental Disability Retirement Annuity

(a) A supplemental disability retirement annuity payable under this subtitle is an amount that, when added to a member's standard disability retirement annuity or, if the member is eligible for service retirement, to the member's standard service retirement annuity, equals one-half of the member's average monthly compensation for service as an employee of a participating department of a municipality:

1. for the 60 months immediately preceding the month in which the injury occurred; or

2. if the member did not perform service in each of the 60 months immediately preceding the month in which the injury occurred, for the number of months of service within the 60-month period.

(b) In a computation of average monthly compensation under this section, compensation is excluded that exceeds the maximum amount on which the member was required to make contributions to the retirement system.

§ 64.404. Conditions for Benefits

(a) Supplemental disability benefits payable from the supplemental disability benefits fund cease on the death of the disability retiree and are, except as provided by this subchapter, subject to the same terms of issuance as are standard disability retirement benefits. The suspension or discontinuance of a disability retirement annuity automatically suspends or discontinues, as applicable, a supplemental disability retirement annuity based on the same service.

(b) The board of trustees may reduce proportionally all supplemental disability benefits payable from the supplemental benefits fund at any time and for a period that the board finds necessary to prevent payments from the fund in a year from exceeding available assets in the fund in that year.

[Sections 64.405 to 64.500 reserved for expansion]

SUBCHAPTER F. DEATH BENEFITS

§ 64.501. Return of Contributions

(a) Except as provided by Subsection (c) of this section, if a member dies before retirement, a lump-sum death benefit is payable from the employees saving fund in the amount of:

1. the amount credited to the member's individual account in the fund; plus

2. interest computed from the beginning of the year in which death occurs through the end of the month immediately preceding the month in which death occurs at the rate allowed on member contributions during the preceding year.

(b) The benefit provided by this section is payable to the decedent's estate unless the decedent has directed that the benefit be paid otherwise.
(c) A benefit is not payable under this section if an annuity based on the decedent's service is payable under this subtitle.

§ 64.602. Excess Contributions of Disability Retiree

(a) If a person dies who receives a standard disability retirement annuity, a lump-sum death benefit is payable in an amount, if any, by which the amount in the retiree's individual account in the employees saving fund at the time of disability retirement exceeds the amount of current service annuity payments made before the retiree's death.

(b) The benefit provided by this section is payable to the retiree's estate unless the retiree has directed that the benefit be paid otherwise.

(c) The benefit provided by this section is payable from the current service annuity reserve fund.

[Sections 64.503 to 64.600 reserved for expansion]

SUBCHAPTER G. OPTIONAL DEATH BENEFITS

§ 64.601. Coverage in Supplemental Death Benefit Program

(a) An employee of a participating municipality is included within the coverage of the supplemental death benefit program on the first day of the first month in which:

(1) the employing municipality is participating in the supplemental death benefits fund for coverage of all members it employs;

(2) the employee is a member of the retirement system; and

(3) the employee is required to make a contribution to the retirement system.

(b) Once established, coverage of a person in the supplemental death benefit program continues until the last day of a month in which a requirement of Subsection (a) of this section is not met.

§ 64.602. Extended Supplemental Death Benefit Coverage

(a) A member included in the coverage of the supplemental death benefit program who fails to earn compensation in a month for service to a municipality participating in the supplemental death benefits fund is eligible to receive extended coverage in the program on complying with this section.

(b) A member may apply to the retirement system for extended program coverage and submit evidence of eligibility for extended coverage.

(c) The board of trustees shall grant extended coverage in the supplemental death benefit program to an applicant, if the board finds:

(1) that as a result of illness or injury, the member is unable to engage in gainful occupation; and

(2) that the member made a required contribution to the retirement system as an employee of a municipality participating in the supplemental death benefits fund for the month immediately preceding the first full month in which the member was unable to engage in gainful occupation.

(d) Once established, extended coverage of a person in the supplemental death benefit program continues until the last day of the month in which:

(1) the member returns to work as an employee of a participating municipality;

(2) the board of trustees finds that the member is able to engage in gainful occupation;

(3) the person's membership in the retirement system is terminated; or

(4) the member retires under this subtitle.

(e) The board of trustees by rule may require a member to submit to it annual proof of continued inability to engage in gainful occupation. The board may require a member to undergo a medical examination by a physician designated by the board. Failure of a member to undergo a medical examination as required by this subsection is a ground for the board's finding that the member has become able to engage in gainful occupation.

§ 64.603. Member Supplemental Death Benefit

(a) If a person included in the coverage or extended coverage of the supplemental death benefit program dies, a lump-sum supplemental death benefit is payable from the supplemental death benefits fund in an amount equal to the current annual salary of the member at the time of death.

(b) Except as provided by Subsection (c) of this section, the current annual salary of a member is computed as the amount paid to the member for service on which contributions were made to the retirement system during the 12 months immediately preceding the month of death. If a member did not receive compensation for service in each of the 12 months immediately preceding the month of death, the member's current annual salary is computed by converting to an annual basis the amount paid to the member on which contributions were made to the retirement system during the period of employment within the 12-month period. If a member did not receive compensation for service in any of the 12 months immediately preceding the month of death, the member's current annual salary is computed by converting to an annual basis the rate of compensation payable to the member during the month of death.
§ 64.603

(e) The current annual salary of a member included in the extended coverage of the supplemental death benefit program is computed in the manner provided by Subsection (b) of this section but as if the member had died during the first month of extended coverage.

(d) If a member makes contributions to the retirement system during the same month as an employee of more than one municipality participating in the supplemental death benefits fund, a death benefit is payable only on the basis of the member's most recent employment.

(e) The board of trustees by rule may require such proof of compensation and periods of employment as it finds necessary.

§ 64.604. Retiree Supplemental Death Benefit

If a retiree dies whose most recent employment as a member of the retirement system was with a municipality that has elected to provide, and continues to provide, postretirement supplemental death benefits, a lump-sum supplemental death benefit is payable from the fund in the amount of $2,500.

§ 64.605. Beneficiary of Supplemental Death Benefit

(a) Unless a member has directed otherwise on a form prescribed by the board of trustees and filed with the retirement system:

(1) a supplemental death benefit under Section 64.603 of this subtitle is payable to the person entitled to receive the decedent's accumulated contributions; and

(2) a supplemental death benefit under Section 64.604 of this subtitle is payable to a person entitled to receive any remaining payments of the decedent's annuity.

(b) If a person entitled under this section to receive a supplemental death benefit does not survive the member or retiree covered by the supplemental death benefit program, the benefit is payable to the estate of the covered member or retiree.

The board shall collect the assessments and deposit the amount collected in the expense fund.

§ 65.313. Supplemental Disability Benefits Fund

(b) If the retiring member’s accumulated contributions are the result of service for more than one participating municipality, the retirement system shall transfer from the account of each municipality the amount chargeable to that municipality for the member.

(c) If a retiree resumes employment under Section 64.307 of this subtitle, the board of trustees shall transfer the balance of the person’s retirement reserve from the current service annuity reserve fund to the employees saving fund and to the municipality accumulation fund in proportion to the original amount transferred to the current service annuity reserve fund from those funds.

§ 65.317. Transfer of Assets From Interest Fund

(1) to the current service annuity reserve fund, interest on the mean amount in the current service annuity reserve fund during that year;

(b) The board of trustees shall transfer to the interest reserve account of the endowment fund the portion of the amount remaining in the interest fund after the transfers required by Subsection (a) of this section are made that the board determines is necessary:

The board shall treat the amount of the adjustment as investment income and shall credit the amount to the interest fund.

§ 65.401. Member Contributions

(a) Each municipality that has one or more departments participating in the retirement system by ordinance shall designate the rate of member contributions for employees of a participating department. The municipality shall elect a rate of three, five, or seven percent of the employees' compensation. Different departments of a municipality may have different rates of member contributions.

(b) A participating municipality by ordinance may increase the rate of member contributions.

(c) A participating municipality may reduce the rate of member contributions if:

(1) an election by secret ballot conducted under rules adopted by the board of trustees, the proposal to reduce the rate is passed by an affirmative vote of two-thirds of all members employed by the municipality; and

(2) the municipality by ordinance provides for the reduction.

(d) A reduction in a member contribution rate may become effective only on the first day of a calendar month. The effective date of the reduction must be after the 90th day after the day on which the election required by Subsection (c) of this section is held or the day on which the ordinance required by Subsection (c) of this section is adopted, whichever is later. The municipality shall give written notice of a reduction in the deposit rate to the director before the 60th day preceding the effective date of the reduction.

§ 65.402. Collection of Member Contributions

(a) Each payroll period each participating municipality shall cause the contribution for the period to be deducted from the compensation of each member that it employs.

(b) In determining the amount of a member's compensation for a payroll period, the board of trustees may use the rate of annual compensation payable to a member on the first day of the payroll period as the rate for the entire period and may omit deductions from compensation for less than a full payroll period if the employee was not a member on the first day of the period.

(c) The board of trustees may modify a member's required deduction by an amount that does not exceed one-tenth of one percent of the annual compensation on which the deduction is made.

(d) A participating municipality shall certify to the board of trustees on each payroll, or in another manner prescribed by the board, the amount to be deducted from the compensation of each member that it employs.

(e) The treasurer or disbursing officer of each participating municipality shall:

(1) make deductions from each member's compensation for contributions to the retirement system;

(2) transmit monthly, or at the time designated by the board of trustees, a certified copy of the payroll; and

(3) pay the deductions in cash to the board of trustees at the board's home office.

(f) To facilitate the collection of member contributions, the city clerk or city secretary of each participating municipality, before January 31 of each year, shall file with the director a certified list that states the name and monthly and annual salaries of each employee of the municipality who is a member of the retirement system. Any addition to or deletion from the list must be certified.

(g) After the deductions for member contributions are paid, the board of trustees shall:

(1) record all receipts; and

(2) deposit the receipts to the credit of the employees' saving fund.

(h) The treasurer or disbursing officer of a participating municipality shall make the deductions required by this section even if the member's compensation is reduced below the amount equal to the minimum compensation provided by law.
§ 65.402. Title 110B 4050

(i) By becoming a member of the retirement system, a member consents to the deductions required by this section. The payment of compensation less those deductions is a complete release of all claims, except benefits provided by this subtitle, for services rendered by the member during the payroll period.

Text of subsection (j) added effective upon I.R.S. determination

(j) Each participating municipality shall pick up the required contributions required by Section 65.401 and this section for all compensation earned after December 31, 1983, and shall pay these picked-up employee contributions from the same source of funds which is used in paying earnings to the employee. The participating municipality may pick up these contributions by a reduction in the cash salary of the employee or by an offset against a future salary increase or by a combination of a reduction in salary and offset against a future salary increase; unless it is otherwise determined by the governing body of the participating municipality, the pick-up shall be accomplished by a corresponding reduction in the cash salary of the employee.

Contributions picked up as herein provided shall be treated as employer contributions in determining tax treatment of the amounts under the United States Internal Revenue Code; however, each participating municipality shall continue to withhold federal income taxes based upon these contributions until the Internal Revenue Service determines or the federal courts rule that pursuant to Section 414(h) of the United States Internal Revenue Code, these picked-up contributions that are picked up as above provided shall be deposited to the time as they are distributed or made available. Employee contributions that are picked up as above provided shall be deposited to the individual account of the member and shall thereupon be treated for all other purposes of this subtitle in the same manner and with like effect as if the amount had been deducted from the compensation of the employee pursuant to the provisions of Section 65.401 and Subsections (a) through (d) of Section 65.402; and picked-up contributions shall not be included in calculating the limitations on municipality contribution rates prescribed by Section 65.407 or other provisions of this subtitle.

Section 3 of the 1983 amendatory act provides:

"The provisions of Section 2 of this Act shall become effective on the first day of January of the calendar year following that in which the Internal Revenue Service has issued a letter of determination that the Texas Municipal Retirement System is a qualified retirement plan under Section 403(a) of the Internal Revenue Code of 1954, as amended [26 U.S.C.A. § 403(a)l, and that its related trust is tax exempt under Section 501(c) of the Internal Revenue Code, as amended [26 U.S.C.A. § 501(c)]"

§ 65.403. Collection of Municipality Contributions

(a) Before the 16th day of each month, each participating municipality shall pay or cause to be paid to the retirement system at the system's office expense contributions in accordance with Section 65.404 of this subtitle, current service contributions in accordance with Section 65.406 of this subtitle, and prior service contributions in accordance with Section 65.408 of this subtitle.

(b) Unless otherwise provided for and paid by a municipality, a municipality shall pay its contributions to the retirement system from:

(1) the fund from which earnings are paid to members; or

(2) the general fund of the municipality.

§ 65.404. Municipality Expense Contribution

(a) Each participating municipality shall pay to the retirement system an expense contribution prescribed in accordance with this section.

(b) The board of trustees, before January 1 of each year, shall set the rate of the contribution necessary to provide an amount required to pay the difference between:

(1) the estimated administrative expenses for the following year; and

(2) the anticipated revenue, from sources other than municipality contributions, to be used for the expenses of the year as adjusted for a surplus or deficiency existing on January 1 of that year.

(c) The rate set by the board of trustees under Subsection (b) of this section may not exceed 50 cents a month for each member.

(d) The board of trustees shall certify the rate set under Subsection (b) of this section to each participating municipality before January 1 of the year for which the rate is set.

§ 65.405. Municipality Normal Contribution

Each participating municipality shall pay to the municipality accumulation fund, as its normal contribution, an amount equal to a percentage of the compensation of members employed by the municipality for that month. The rate of contribution is the normal contribution rate determined annually by the actuary and approved by the board of trustees.

§ 65.406. Municipality Prior Service Contribution

(a) Each participating municipality shall pay to the municipality accumulation fund, as its prior service contribution, an amount equal to a percent-
§ 65.407. Limitation on Municipality Contribution Rates

(a) The combined rates of a municipality's normal contributions and prior service contributions may not exceed:

1. 9½ percent of the total compensation paid by the municipality to the employees of its participating departments if the rate of member contributions of the employees of its participating departments is 7 percent of their compensation;

2. 7½ percent of the total compensation paid by the municipality to the employees of its participating departments if the rate of member contributions of the employees of its participating departments is 5 percent of their compensation; or

3. 5½ percent of the total compensation paid by the municipality to the employees of its participating departments if the rate of member contributions of the employees of its participating departments is 3 percent of their compensation.

(b) The actuary annually shall determine the municipality normal contribution rate and the prior service contribution rate from the most recent data available at the time of the determination. Before January 1 of each year, the board of trustees shall certify the rates to each participating municipality. If a participating municipality has different rates of contribution for employees of different departments, the actuary shall determine the maximum rate for the municipality using the average rate of contribution prescribed for contributions of employees of its participating departments. To compute the average rate the actuary shall consider the number of employees in each participating department of the municipality.

(c) A reduction in the member contribution rate for employees of a participating municipality does not reduce the maximum rate of contribution of the municipality.

(d) If the dates of participation of each department of a municipality are not the same, the governing body of the municipality may request that, to determine the municipality normal contribution rate and prior service contribution rate and to determine the period during which the municipality must fund the obligations charged against its account in the municipality accumulation fund, all of its departments have a single composite participation date. The actuary shall determine the composite participation date by computing an average weighted according to the number of members entering the retirement system on the actual dates of participation of the departments involved.

(e) If the combined rates of a municipality's normal contributions and prior service contributions exceed the rate prescribed by Subsection (a) of this section, the rate for prior service contributions shall be reduced to the rate that equals the difference between the maximum rate prescribed by Subsection (a) of this section and the normal contribution rate for the municipality.

§ 65.408. Municipality Supplemental Disability Benefits Fund Contribution

(a) Beginning from the effective participation date of the municipality, each municipality participating in the supplemental disability benefits fund shall pay to that fund an amount equal to a percentage of the compensation of members employed by the municipality.

(b) The board of trustees on the recommendation of the actuary shall determine the rate of contribution necessary to accumulate the reserves needed to pay the benefits from the supplemental disability benefits fund. The rate of contribution may not exceed one-half of one percent of the compensation of the municipality's employees covered by the fund.

(c) The limitation of Section 65.407(e) of this subtitle does not affect the rate of contribution to the supplemental disability benefits fund.

§ 65.409. Municipality Supplemental Death Benefits Contribution

(a) In addition to other contributions to the retirement system required by this subtitle, each municipality participating in the supplemental death benefits fund monthly shall pay to the supplemental death benefits fund an amount equal to the rate of contribution computed in accordance with Section 65.502 of this subtitle, multiplied by the total compensation for the month of the members employed by the municipality.

(b) The limitation of Section 65.407(e) of this subtitle does not apply to the rate of the contribution to the supplemental death benefits fund.

§ 65.410. War Period Contributions

(a) During a period that the United States is at war and until the first anniversary of the last day of
the war, a member who as a result of conscription or volunteering is serving in the United States armed forces, armed forces reserve, an auxiliary of the armed forces or reserves, or the American Red Cross or who as a result of conscription by the government is in war work may pay, each year, to the retirement system an amount that does not exceed the amount of the member's contribution to the system during the last year that the member was employed by a participating municipality.

(b) The board of trustees shall treat the amounts paid to the system under this section in the same manner as funds deposited by the member while an employee of a participating municipality.

[Sections 65.411 to 65.500 reserved for expansion]

SUBCHAPTER F. OPTIONAL PROGRAMS

§ 65.501. Increased Current Service Annuities

(a) A participating municipality may elect to provide for an increased current service annuity reserve on the retirement of each of its employees who are members.

(b) The governing body of a municipality electing to provide for increased reserves by ordinances shall provide that for each month of current service rendered by a participating employee of the municipality after the date of its election the municipality will provide a contribution as provided by Subsection (c) of this section equal to 150 or 200 percent of the member's accumulated contribution to the retirement system for that month.

(c) On the retirement of a member covered by an increased current service annuity reserve, the retirement system shall transfer to the current service annuity reserve fund:

(1) accumulated contributions credited to the member's account in the employees saving fund; and

(2) the amount from the municipality's account in the municipality accumulation fund that the municipality has adopted under Subsection (b) of this section.

(d) If the retiring member's accumulated contributions are the result of service for more than one participating municipality, the retirement system shall transfer from the account of each municipality the amount chargeable to that municipality for the member.

(e) A participating municipality electing to provide an increased current service annuity reserve and electing a contribution rate of 150 percent for a year is liable for total contributions at a rate that does not exceed a rate equal to the maximum rate prescribed for the municipality by Section 65.407 of this subtitle plus four percent a year. A municipality electing a rate of 200 percent a year is liable for contributions at a rate that does not exceed a rate equal to the maximum rate prescribed for the municipality by Section 65.407 of this subtitle plus four percent a year.

(f) Except as provided by Subsection (g) of this section, an increased rate of contribution authorized under this section may become effective only on January 1 of a calendar year.

(g) A municipality that begins participation in the retirement system after December 31, 1973, may elect to provide for an increased current service annuity reserve beginning on its effective date of participation. That election remains in effect until the municipality elects to pay contributions at another rate.

(h) A municipality electing to provide for an increased current service annuity reserve may reduce its rate of contribution to 150 percent of the member contributions or to a rate equal to the member contributions. The reduction becomes effective on January 1 of the calendar year following the date on which the municipality's governing body adopts an ordinance reducing the rate of contribution.

§ 65.502. Supplemental Death Benefits Program

(a) As soon as practical after the supplemental death benefits program is established and at the time of each investigation of members' mortality and service experience required by Section 65.110 of this subtitle, the actuary shall determine supplemental death benefits contribution rates. The rates must be expressed as a percentage of compensation of members employed by the municipality. When the rate is approved by the board of trustees, it is effective for the calendar year for which it was approved.

(b) Before a municipality's participation date in the supplemental death benefits fund and before January 1 of each subsequent year, the actuary shall compute, on the basis of rates and tables adopted by the board of trustees, the supplemental death benefits contribution rate of a municipality participating in the supplemental death benefits contribution fund. The rate must be expressed as a percentage of the compensation of members employed by the municipality. When the rate is approved by the board of trustees, the rate is effective for the calendar year for which it was approved.

(c) If the balance in the supplemental death benefits fund is insufficient to pay the supplemental death benefits due, the board of trustees may direct that, to the extent available, an amount equal to the amount of the deficiency be transferred from the general reserves account of the endowment fund to the supplemental death benefits fund. The board...
may adjust future contributions to the supplemental death benefits fund to repay to the general reserves account the transferred amount.

(d) If the total number of members covered by the supplemental death benefits fund becomes fewer than 4,000, the board of trustees may order that the fund be discontinued and all coverage terminated. The termination date must be December 31 of a year designated by the board and may not be before the expiration of six months after the date on which the order of termination was adopted.

(e) To protect against adverse claim experience, the board of trustees may secure reinsurance from one or more stock insurance companies doing business in this state if the board determines that reinsurance is necessary. The retirement system shall pay the premiums for reinsurance from the supplemental death benefits fund.

§ 65.603. Forfeiture of Contributions

(a) If an application under Section 62.103 of this subtitle for the accumulated contributions of a person who has ceased to be employed by a participating department for a reason other than death or retirement has not been made before the seventh anniversary of the person’s last day of service, the retirement system shall return to the person or the person’s estate all accumulated contributions of the person.

(b) If the person or the administrator of the person’s estate cannot be found, the person’s accumulated contributions are forfeited to the retirement system. The retirement system shall credit the amount forfeited to the perpetual endowment account of the endowment fund.

§ 65.604. Merger

A pension system for municipal employees may merge into the retirement system under terms adopted by the board of trustees and the trustees of the other system after the other system has approved the merger by a majority vote.

§ 65.605. Participation of Members of Fire Department

(a) If the employees of the fire department of a municipality, with the consent of the municipality, elect to become members of the retirement system, the funds of the municipality’s firemen’s relief and retirement fund, if any, and future payments to the fund may be transferred to the board of trustees on the voluntary application of the municipality.

(b) A participating municipality shall pay to the board of trustees money that could have been paid annually to the firemen’s relief and retirement fund if the fire department were not covered by the retirement system or another pension system or if the municipality had taken the proper steps to secure the money. The retirement system shall credit amounts paid under this subsection for the benefit of fire fighters as the board of trustees directs.

the recovery of damages for the death or personal
injury of any employe or servant caused by the
wrong or negligence of such person, corporation or
receiver; it being contemplated that while the em-
ploye does assume the ordinary risk incident to his
employment he does not assume the risk resulting
from any negligence on the part of his employer,
though known to him.

Where, however, in any such suit, it is alleged and
proven that such deceased or injured employe was
chargeable with negligence in continuing in the
service of any such corporation, receiver or person
above named in view of the risk, dangers and haz-
ards of which he knew or must necessarily have
known, in the ordinary performance of his duties,
such fact shall not operate to defeat recovery, but
the same shall be treated and considered as constit-
tuting contributory negligence, and if proximately
causing or contributing to cause the death or injury
in question, it shall have the effect of diminishing
the amount of damages recoverable by such em-
ploye, or his heirs or representatives in case of the
employe's death, only in proportion to the amount of
negligence so attributable to such employe.

[Acts 1925, S.B. 84.]

Art. 6438. Double Header Trains

Employees of railway companies employed by said
companies in the operation of trains within this State,
propelled by two or more engines, shall not be
held to assume the risk, if any there be, incident
to their employment; provided, they be injured
while engaged in the operation of such trains and
that such injury was occasioned by reason of the
operation of two or more engines on such train
instead of one.

[Acts 1925, S.B. 84.]

Art. 6439. Liable for Injury or Death of Em-
ploye

Every corporation, receiver, or other person, oper-
ating any railroad in this State, shall be liable in
damages to any person suffering injury while he is
employed by such carrier operating such railroad, or
in case of death of such employe, to his or her
personal representative for the benefit of the sur-
viving widow and children, or husband and children,
and mother and father of the deceased, and, if none,
then of the next kin dependent upon such employe
for such injury or death resulting in whole or in
part from the negligence of any of the officers,
agents, or employes of such carrier; or by reason of
any defect or insufficiency due to its negligence, in
its cars, engines, appliances, machinery, track,
roadbed, works, wharves, or other equip-
ment. The amount recovered shall not be liable for
debts of deceased and shall be divided among the
persons entitled to the benefit of the action or such
of them as shall be alive, in such shares as the jury,
or court trying the case without a jury, shall deem
proper. In case of the death of such employe, the
action may be brought without administration by all
the parties entitled thereto, or by any one or more
of them, for the benefit of all, and, if all parties be
not before the court, the action may proceed for the
benefit of such of said parties as are before the
court.

[Acts 1925, S.B. 84.]

Art. 6440. Contributory Negligence

In all actions brought against any such common
carrier or railroad under or by virtue of any provi-
sion of the foregoing article and the three succeed-
ing articles to recover damages for personal inju-
ries to an employe, or where such injuries have re-
ulted in his death, the fact that the employe may have
been guilty of contributory negligence shall not bar
a recovery, but the damages shall be diminished by the
jury in proportion to the amount of negligence
attributable to such employee; provided, that no
such employee who may be injured or killed shall be
held to have been guilty of contributory negligence
in any case where the violations by such common
carrier of any statute enacted for the safety of
employees contributed to the injury or death of such
employee.
[Acts 1925, S.B. 84.]

Art. 6441. Assumed Risk
In any action brought against any common carrier
under or by virtue of any provision of the two
preceding articles to recover damages for injuries to
or the death of any of its employees, such employee
shall not be held to have assumed the risks of his
employment in any case where the violation by such
common carrier of any statute enacted for the safety
of employees contributed to the injury or death of
such employee.
[Acts 1925, S.B. 84.]

Art. 6442. Contract Changing Liability Void
Any contract, rule, regulation or device whatsoev­
er, the purpose or intent of which shall be to enable
any common carrier to exempt itself from any
liability created by the three preceding articles shall to
that extent be void; provided, that, in any action
brought against any such common carrier by virtue
therein any sum it has contributed or paid to any
person entitled thereto, on account of the injury or death
of said employe.
[Acts 1925, S.B. 84.]

Art. 6443. Articles of This Chapter Construed
Nothing in the provisions of the four preceding
articles shall be held to limit the duty or liability of
common carriers, or to impair the rights of em­
ployes, under other articles of these Statutes, but,
in case of conflict, these articles shall prevail; and
nothing in said articles shall affect the right of
action under any law of this State.

Said action shall have precedence over all other causes on the docket of a different nature, and shall be tried and determined as other civil causes in said court. Either party to said action may appeal to the Appellate Court having jurisdiction of said cause; and said appeal shall be at once returnable to said Appellate Court at either of its terms; and said action so appealed shall have precedence in said Appellate Court of all causes of a different character therein pending; provided, that, if the court be in session at the time such right of action accrues, the suit may be filed during such term and stand ready for trial after ten days' notice. Provided further that no preliminary injunction shall be issued without notice to the opposite party and that no temporary restraining order shall be granted without notice to the opposite party unless it shall clearly appear from specific facts shown by affidavit or by the verified petition that immediate and irreparable injury, loss, or damage will result to the applicant before notice can be served and a hearing had thereon. Every such temporary restraining order shall be enforced with the date and hour of issuance, shall be forthwith filed in the clerk's office and entered of record, shall define the injury and state why it is irreparable and why the order was granted without notice, and shall by its terms expire within such time after entry, not to exceed ten days, as the court or judge may fix, unless within the time so fixed the order is extended for a like period for good cause shown, and the reasons for such extension shall be entered of record. In case a temporary restraining order shall be granted without notice in the contingency specified, the matter of the issuance of a preliminary
injunction shall be set down for a hearing at the earliest possible time and shall take precedence of all matters except older matters of the same character; and when the same comes up for hearing the party obtaining the temporary restraining order shall proceed with the application for a preliminary injunction, and if he does not do so the court shall dissolve the temporary restraining order. Upon two days’ notice to the party obtaining such temporary restraining order the opposite party may appear and move the dissolution or modification of the order, and in that event the court or judge shall proceed to hear and determine the motion as expeditiously as the ends of justice may require.

[Acts 1925, S.B. 84.]

[Acts 1925, S.B. 84.]

Art. 6455. Schedule of Rates
The Commission shall, when the classifications and schedule of rates herein provided are prepared and adopted, furnish each railroad affected thereby which is subject to the provisions of this title with a complete schedule in suitable form, showing the classification of freight made by it and the rates fixed to be charged by such road for the transportation of each class of freight, and shall cause a certified copy of such classification and schedule of rates to be delivered to each of said railroads at its principal office in Texas, or to any agent of said company in this State; which schedule, rules, and regulations shall take effect at the date fixed by the Commission, not less than twenty days after the date of service.

[Acts 1925, S.B. 84.]

Art. 6457. May Abolish or Alter Regulations
The Commission may at any time abolish, alter, or in any manner amend any such regulations; and in that event certified copies of the schedules, rules or regulations, showing the changes therein, shall be delivered to each road affected as herein specified. In all cases where the rates shall not have been fixed by the Commission, no changes shall be made, except after ten days’ notice to and with the consent of the Commission.

[Acts 1925, S.B. 84.]

[Acts 1925, S.B. 84.]

In order that justice may be done or injury prevented any person, place or locality, said Commission shall have the power at once to suspend temporarily any existing freight or passenger tariffs, rules and regulations for temporary use, to have immediate effect where none exists.

[Acts 1925, S.B. 84.]

Art. 6460. Complainants
Any person, firm, corporation, or association, body politic, or municipal organization, complaining of anything done or omitted to be done by any railroad subject hereto, in violation of any law of this State, or any provision of this title, for which penalty is provided, may apply to the Commission under such rules as the Commission may prescribe.

[Acts 1925, S.B. 84.]

Art. 6461. Procedure
If there shall appear to the Commission any reasonable grounds for investigating such complaint; (1) it shall give at least five days’ notice to such railroad of such charge and complaint, and call upon such road to answer the same at a time and place to be specified by the Commission. (2) It shall investigate and determine such complaint under such rules and modes of procedure as it may adopt. (3) If the Commission finds that there has been a violation, it shall determine if the same was wilful. (4) If it finds that such violation was not wilful, it may call upon said road to satisfy the damage done to the complainant thereby, stating the amount of such damage, and to pay the cost of such investigation; and if the said railroad shall do so within the time specified by the Commission there shall be no prosecution by the State. (5) If said railroad shall not pay said damage and cost within the time specified by said Commission or if the Commission finds such violation was wilful, it shall institute proceedings to
recover the penalty for such violation and the cost of the investigation.
[Acts 1925, S.B. 84.]

Art. 6462. Complaints, How Framed

All such complaints shall be made in the name of the State of Texas upon the relation of such complainant. All evidence taken before said Commission in the investigation of any such complaint, when reduced to writing and signed and sworn to by the witnesses, may be used by either party, the State, complainant, or by the railroad company, in any proceeding against such railroad involving the same subject matter and between the same parties. No shall abridge nor affect the rights of any person to sue for any penalty that may be due him under the cause or proceeding growing out of the same

[Acts 1925, S.B. 84.]

Art. 6463. Testimony Taken

The Commissioners may require the testimony taken before them to be reduced to writing when they deem necessary, or when requested to do so by either party to such proceedings; and a certified copy, under the hand and seal of said Commission, shall be admissible in evidence upon the trial of any cause or proceeding growing out of the same transaction against such railroad, involving the same subject matter and between the same parties. No provisions of this and the three preceding articles shall abridge nor affect the rights of any person to sue for any penalty that may be due him under the provisions of this title, or any other law of the State.
[Acts 1925, S.B. 84.]

Art. 6464. May Inspect Books, etc.

The Commissioners or either of them, or such persons as they may authorize in writing under the hand and seal of the Commission, shall have the right at any time to inspect the books and papers of any railroad company and to examine under oath any officer, agent or employee of such railroad in relation to the business and affairs of the same.
[Acts 1925, S.B. 84.]

Art. 6465. Penalty

If any railroad shall refuse to permit such examination of its books and papers, such railroad company shall, for each offense, pay to the State of Texas not less than one hundred and twenty-five nor more than five hundred dollars for each day it shall so fail or refuse.
[Acts 1925, S.B. 84.]

Art. 6466. Shall Ascertain Cost of Railway, etc.

The Commission shall ascertain as nearly as practicable:
1. The amount of money expended in construction and equipment per mile of every railway in Texas;
2. The amount of money expended to procure the right of way, and the amount of money it would require to reconstruct the roadbed, track, depots, and equipment, and to replace all the physical properties belonging to the railroad.

3. The outstanding bonds, debentures and indebtedness, and the amount respectively thereof; when issued, and the rate of interest; when due, for what purpose issued, how used, to whom issued, to whom sold, and the price in cash, property or labor, if any, received therefor.
4. Disposition of the proceeds, by whom the indebtedness is held, and the amount purporting to be due thereon.
5. The floating indebtedness of the company, to whom due and his address, and the credits due on it.
6. The property on hand belonging to the railroad company.
7. The judicial or other sales of said road, its property or franchises, and the amounts purporting to have been paid and in what manner paid therefor.
8. The amounts paid for salaries to the officers of the railroad and the wages paid its employees.
For the purposes of this article named, the Commission may employ sworn experts to inspect and assist them when needed, and from time to time, as the information required by this article is obtained, it shall communicate the same to the Attorney General by report, and file a duplicate thereof with the Comptroller for public use. Said information shall be printed from time to time in the annual report of the Commission.
[Acts 1925, S.B. 84.]

Art. 6467. Blanks for Information

The Commission shall as often as necessary furnish each railroad company suitable blanks with questions formed so as to elicit all information concerning such railroads. Any railroad company receiving such blanks shall cause them to be properly filled out so as to answer fully and correctly each question therein propounded, and if they are unable to answer any question therein propounded, they shall give satisfactory reason for their failure; and the answers duly sworn to by the proper officer of the company, shall be returned to the Commission within thirty days from the receipt thereof.
[Acts 1925, S.B. 84.]

Art. 6468. Refusal to Answer

If any officer or employee of a railroad shall fail or refuse to fill out and return any blanks as above required, or fail or refuse to answer any questions therein propounded, or shall give a false answer to any such questions, a penalty of five hundred dollars shall be recovered from the company by the State when it appears that such persons acted in obedience to its direction, permission or request in his failure, evasion or refusal. Said Commission
shall have the power to prescribe a system of bookkeeping to be observed by each railroad subject hereto, under the penalties prescribed in this article.

[Acts 1925, S.B. 84.]

Art. 6470. Through Freights

The Commission shall investigate all through freight rates on railroads in Texas; and when same are, in the opinion of the Commission, excessive or levied or laid in violation of the interstate commerce law, or the rules and regulations of the Interstate Commerce Commission, the officials of the railroads shall be notified of the facts and requested to reduce them or make the proper corrections, as the case may be. When the rates are not changed and the proper corrections are not made according to the request of the Commission, it shall notify the Interstate Commerce Commission and apply to it for relief.

[Acts 1925, S.B. 84.]

Art. 6471. Witnesses

In any examination or investigation provided in this chapter, the Commission is authorized and empowered to compel the attendance of witnesses, and may issue subpoenas for witnesses by such rules as they may prescribe, and such process shall be served by the officer to whom it may be directed. Each witness who shall appear before the Commission by order of the Commission, at a place outside the county of his residence, shall receive for his mileage to and returning from the place of meeting of the Commission, which shall be paid by the Comptroller upon the presentation of proper vouchers, sworn to by the witness, and approved by the Commission. No witness shall be entitled to fees or mileage who is directly or indirectly interested in a railroad, or who is in anywise interested in any stock, bond, mortgage, security or earnings of such road, or was an officer, agent or employe of such road when summoned at the instance of such railroad. No witness furnished with free transportation shall receive pay for the distance he may travel on such free transportation. The Commission may issue an attachment as in civil cases, for a witness who fails or refuses to obey a subpoena, and compel him to attend before the Commission and give his testimony upon such matter as shall be lawfully required by them. If a witness, after being duly summoned, shall fail or refuse to attend or to answer any question propounded to him, and which he would be required to answer if in court, the Commission may fine and imprison such witness for contempt, in the same manner that a judge of the district court might do under similar circumstances. The claim that any such testimony might tend to criminate the person giving it shall not excuse a witness from testifying, but such evidence or testimony shall not be used against such person on the trial of any criminal proceeding.

[Acts 1925, S.B. 84.]

Art. 6472. Depositions

The Commission may in its discretion issue proper process and take written or oral depositions instead of compelling personal attendance of witnesses. The fees of an officer executing any process issued under the provisions of this title shall be such as the Commission may allow, not to exceed fees as prescribed by law for similar services.

[Acts 1925, S.B. 84.]

Art. 6472a. Depositions in Matters Pending Before Commission

In all matters pending for hearing before the Railroad Commission of Texas, or any division thereof, the Commission, or any interested party, shall have the right to produce the testimony of any witness, or witnesses, by either written or oral depositions instead of compelling the personal attendance of witnesses. For this purpose the Commission is hereby empowered and authorized to issue commissions and all other process necessary for the purpose of taking such depositions. All depositions taken under the provisions of this Act shall be taken, insofar as applicable and to the fullest extent possible, in accordance with provisions of the Texas Rules of Civil Procedure, as amended, relating to written and oral depositions in civil cases.

Art. 6473. Extortion

If any railroad company, subject to the provisions of this title, or its agent or officer, shall charge, collect, demand, or receive a greater rate, charge or compensation than that fixed and established by the Commission for the transportation of freight, passengers or cars, or for the use of any car on the line of its railroad, or any line operated by it, or for receiving, forwarding, handling or storing any such freight or cars, or for any other service performed or to be performed by it, such railroad company and its agent and officer shall be deemed guilty of extortion, and shall forfeit and pay to the State of
Texas a sum not less than one hundred nor more than five thousand dollars.
[Acts 1925, S.B. 84.]

Art. 6474. "Unjust Discrimination"

Unjust discrimination is hereby prohibited and the following acts or either of them shall constitute unjust discrimination.

1. If any railroad subject hereto, directly or indirectly, or by any special rate, rebate, drawback or other device, shall charge, demand, collect or receive from any person, firm or corporation a greater or less compensation for any service rendered or to be rendered by it than it charges, demands, collects or receives from any other person, firm or corporation for doing a like and contemporaneous service, or shall give any undue or unreasonable preference or advantage to any particular person, firm or corporation, or locality, or to subject any particular shipment.

2. If any railroad company shall fail or refuse, under regulations prescribed by the Commission, to receive and transport without delay or discrimination the passengers, tonnage and cars, loaded or empty, of any connecting line of railroad, and every railroad which shall, under such regulations as the Commission may prescribe, fail or refuse to transport and deliver without delay or discrimination any passengers, tonnage or cars, loaded or empty, destined to any point on or over the line of any connecting line of railroad; provided perishable freights of all kinds and live stock shall have precedence of such circumstances and to such persons as the law of this State may permit or allow.

3. If any railroad company shall charge or receive any greater compensation in the aggregate for the transportation of like kind of property or passengers for the shorter line than for a longer distance over the same line; provided, that upon application to the Commission any railroad may in special cases, to prevent manifest injury, be authorized by the Commission to charge less for longer than for shorter distances for transporting persons and property, and the Commission shall, from time to time, prescribe the extent to which such designated railroad may be relieved from the operation of this provision. No injustice shall be imposed upon any citizen at intermediate points. Nothing herein shall be so construed as to prevent the commission from making what are known as "group rates" on any line or lines of railroad in this State.

4. Penalty.—Any railroad company guilty of unjust discrimination as hereinbefore defined shall for each offense pay to the State of Texas a penalty of not less than five hundred dollars nor more than five thousand dollars.

5. Exceptions.—Nothing herein shall prevent the carriage, storage or handling of freight free or at reduced rates, or to prevent railroads from giving free transportation or reduced transportation under such circumstances to such persons as the law of this State may permit or allow.

[Acts 1925, S.B. 84.]

Art. 6475. Damages

If any railroad subject to this title shall do, cause or permit to be done any matter, act or thing prohibited or declared to be unlawful, or shall omit to do any act, matter or thing herein required to be done by it, such railroad shall be liable to the person or persons, firm or corporation injured thereby for the damages sustained in consequence of such violation.

[Acts 1925, S.B. 84. Amended by Acts 1951, 52nd Leg., p. 778, ch. 430, § 1.]

Art. 6476. Penalty Not Otherwise Provided

If any railway company doing business in this State shall violate any provision of this title, or shall do any act herein prohibited, or shall fail or refuse to perform any duty enjoined upon it for which a penalty has not been provided by law or shall fail, neglect or refuse to obey any lawful requirement, order, judgment or decree made by the Commission, for every such act of violation it shall pay to the State of Texas a penalty of not more than five thousand dollars.

[Acts 1925, S.B. 84.]

Art. 6477. Suits for Penalty

All of the penalties herein provided, except as provided in Article 6476, recoverable by the State shall be recovered and suits thereon shall be brought by the Attorney General or under his direction in the name of the State of Texas, in Travis County, or in any county into or through which such railroad may run; and the attorney bringing such suit shall receive a fee to be paid by the State of fifty dollars for each penalty recovered and collected by him, and ten percent of the amount collected. In all suits arising under this chapter, the rules of evidence shall be the same as in ordinary civil actions, except as otherwise herein provided. All fines and penalties recovered by the State under this chapter shall be paid into the State Treasury; provided suits brought under Title 66 for recovery of penalties, may be brought in any county:

1. Where an act violative of any provision thereof is committed.

2. Where such company or receiver has an agent or representative.

3. Where the principal office of such company is situated, or such receiver or receivers, or either, reside. One-half of all moneys collected under the provisions of said title, less the commission and expenses allowed by law, shall be paid into the State Treasury; the remainder thereof shall be paid into the treasury of the county where such suit or suits
may be maintained and constitute a part of the jury fund of such county.

[Acts 1925, S.B. 84.]

**Art. 6478. Evidence**

Upon application of any person, the Commission shall furnish certified copies of any classification, rates, rules, regulations, or orders, and such certified copies, or printed copies published by authority of the Commission shall be admissible in evidence in any suit and sufficient to establish the fact that any charge, rate, rule, order, or classification therein contained and which may be an issue in the trial, is the official act of the Commission. A substantial compliance with the requirements of this chapter shall be sufficient to give effect to all the classifications, rates, charges, rules, regulations, requirements and orders made and established by the Commission; and none of them shall be declared inoperative for any omission of a technical matter in the performance of such act.

[Acts 1925, S.B. 84.]

**Art. 6478a. Reception in Evidence of Schedules, Classifications and Tariffs of Rates, Fares and Charges**

Printed copies of schedules, classifications and tariffs of rates, fares and charges, and supplements thereto, filed with the Interstate Commerce Commission or the Railroad Commission of Texas, which show respectively an Interstate Commerce Commission number, which may be stated in abbreviated form as I.C.C. No. _____, and an effective date, or which show respectively a Railroad Commission of Texas number, which may be stated in abbreviated form as R.C.T. No. _____, and an effective date, may be received in evidence without certification and shall be presumed to be correct copies of the original schedules, classifications, tariffs and supplements on file with the Interstate Commerce Commission or on file with the Railroad Commission of Texas.

[Acts 1925, S.B. 84.]

**Art. 6479. Power of Commission to Relax Requirement as to Number of Passenger Trains; Hearing; Stopping at County Seats; Electric and Motor Cars**

The terms "road," "railroad," "railroad companies," and "railroad corporations," as used herein, shall be taken to mean and embrace all corporations, companies, individuals and associations of individuals, their lessees or receivers, appointed by any court whatsoever, that may now or hereafter own, operate, manage or control any railroad, or part of a railroad, in this State, and all such corporations, companies and associations of individuals, their lessees or receivers, as shall do the business of common carriers on any railroad in this State.

1. The provisions of this chapter shall be construed to apply to and affect only the transportation of passengers, freight and cars between points within this State; and this chapter shall not apply to street railways nor suburban or belt lines of railways in or near cities and towns, but shall apply to the transportation of passengers and freight by electric or gasoline motor cars over steam railroads subject to this Act.

2. It shall be the duty of the Commission to see that upon each railroad in this State carrying passengers for hire there shall be run at least one train each day, Sundays excepted, upon which passengers shall be haled; provided, however, the Commission may, in its discretion, upon application filed and after notice and hearing, relax such requirement as to any railroad, or part, portion or branch thereof, when, in its opinion, public convenience permits of such relaxation, and shall relax such requirement when it appears upon such hearing that the running of one train each day, Sundays excepted, is not necessary in the rendition of adequate service to the public, or that on any railroad, or part, or portion or branch thereof, passenger service as frequent as one train each day, Sundays excepted, with the passenger traffic offered and reasonably to be expected, does not and will not pay the cost of such service plus a reasonable return upon the property employed in the rendition of such service; and Commission shall further regulate passenger train service so as to require the stoppage of such trains, for a time sufficient to receive and let off passengers, at such stations as may be designated by the Commission; and it may further prescribe the number of trains so operated each day which shall be required to stop at County seat stations; and if such railroad, or branch of same shall operate a gasoline or electric motor car over its line, carrying passengers for hire in this State, such motor car shall be deemed a train within the meaning of this Article and shall be subject to and included within the provisions hereof.

**Art. 6479a. Frequency of Freight Train Service; Powers of Commission; Hearing; Certificate; Furnishing Cars**

Every railroad company, receiver, trustee, lessee, agent or other person, company or association operating any line of railroad in this State shall be and hereby is required to furnish freight train service at intervals sufficiently frequent to meet the reasonable necessities of the freight traffic offered for transportation over such line of railroad. If the Railroad Commission of Texas, on application and after notice and hearing shall find that on any line of railroad in this State, or part, portion or branch thereof, the convenience of the public does not require the furnishing of freight train service at more frequent intervals than a specified number of trains each week, it shall certify such finding to said
Art. 6479a  RAILROADS  4100

applicant, and until such certificate, after notice and hearing, shall have been modified or revoked, it shall be conclusively presumed that freight train service of the frequency specified in such certificate over the railroad, or part, portion or branch thereof, described in such certificate is fully adequate to discharge the public duty of the person, firm or corporation operating such railroad, and such person, firm or corporation shall not be subject to any penalties or liabilities whatsoever for failing to operate or furnish freight train service in excess of that specified in that certificate. The time within which cars may be required to be furnished for loading under any of the laws of this State shall, on the railroad, or part, portion or branch thereof, specified in any such certificate, be extended and enlarged, in case any such certificate, be made, by multiplying the maximum number of days otherwise allowed by a fraction whose numerator shall be seven and whose denominator shall be the number of trains in any one direction which may be specified in such certificate as the maximum required in any one week.

[Acts 1933, 43rd Leg., p. 290, ch. 110.]

Art. 6480. Law Cumulative

Any provision of this title which may be inconsistent or in conflict with Title 66 shall be void and inoperative, but to that extent only. The provisions of any foregoing article of this title shall not have the effect to release or waive any right of action by the State, or any person, for any right, penalty or forfeiture which may have arisen or may hereafter arise under any law of this State; and all penalties accruing under this title shall be cumulative of each other, and a suit for or recovery of one shall not be a bar to the recovery of any other penalty.

[Acts 1925, S.B. 84.]

Art. 6481. Railroad to Furnish Cars

When any person, firm or corporation, desiring to ship any freight of any kind shall make written application to any superintendent, agent, or other person in charge of transportation, to any railway company, receiver or trustee operating a line of railway at the point the cars are desired upon which to ship any freight, it shall be the duty of such railroad company, receiver, trustee, or other person in charge thereof, to supply the number of cars so required, at the point indicated in the application, within a reasonable time thereafter, not to exceed six days from the receipt of such application, and shall supply such cars to the persons so applying therefor, in the order in which such applications are made, without giving preference to any. If the application be for twelve cars or less, the same shall be furnished in three days; and provided further, that, if the application be for fifty cars or more, the railway company may have ten full days in which to supply the cars. Said application for cars shall state the number of cars desired, the place at which they are desired, and the time they are desired. The place designated shall be at some station or switch on the railroad.

[Acts 1925, S.B. 84.]

Art. 6482. Penalty

A railway company failing to furnish cars applied for under the provisions of this chapter shall forfeit to the party or parties so applying for them the sum of twenty-five dollars per day for each car failed to be furnished, and all actual damages that such applicant may sustain.

[Acts 1925, S.B. 84.]

Art. 6483. Deposit

Such applicant shall deposit with such agent, superintendent or other person one-fourth of the amount of freight charges for the use of such cars, and shall load said cars within forty-eight hours after they have been duly delivered; and upon failure to do so, he shall forfeit and pay to the company the sum of twenty-five dollars for each car not used. Where applications are made on several days, all of which are filed upon the same day, the applicant shall have forty-eight hours to load the car or cars furnished on the first application, and the next forty-eight hours to load the car or cars furnished on the next application, and so on; Sundays shall not be included in computing the time. The penalty prescribed shall not accrue to any car or lot of cars applied for any one day, until the period within which they may be loaded has expired. If the said applicant shall not use such cars so ordered by him, and shall notify said company or its agent, he shall forfeit and pay to the said railroad company, in addition to the penalty herein prescribed, the actual damages that such company may sustain by the failure to use said cars.

[Acts 1925, S.B. 84.]

Art. 6484. To Deliver Loaded Cars

When cars have been supplied and loaded, the railway company shall deliver them to the consignee within a reasonable time; and the consignee shall unload the same within forty-eight hours after delivery and notice, Sundays excepted, or forfeit and pay to the company the sum of twenty-five dollars per day for each car not so unloaded.

[Acts 1925, S.B. 84.]

Art. 6485. Proof Necessary

Parties bringing suit against a railroad company under the provisions of this law shall show that such cars if furnished, would have been loaded within the time specified by this law. The provisions of this law shall not apply in cases of strikes or public calamity.

[Acts 1925, S.B. 84.]

Art. 6486. Not to Affect Demurrage Regulations

The provisions of this law shall not forfeit or annul the demurrage regulations provided by the
Commission, and all penalties accruing to the carrier hereunder shall be cumulative of and additional to all demurrage charges prescribed by said Commission.

[Acts 1925, S.B. 84.]

Art. 6487. Duty to Furnish Cars

Each railroad company incorporated under the laws of this State and doing business in this State, under the limitations and regulations prescribed by the Commission, shall equip and provide sufficient motive power and rolling stock to handle all passenger and freight traffic expeditiously and without delay.

[Acts 1925, S.B. 84.]

Art. 6488. Commission to Require Mortgage

The Commission shall require each railroad corporation chartered under the laws of this State, holding itself out as a common carrier, to provide and equip itself with sufficient motive power and rolling stock, or other equipment necessary, to handle all passenger and freight traffic, expeditiously and without delay, and it is vested with full power to require of such common carriers the purchase of such rolling stock and motive power as will properly equip such common carrier, and facilitate the movement of all traffic, passenger and freight, and that will supply transportation accommodations which it offers to perform as an inducement to the public to travel or ship via the lines of such railroad company, or common carrier. The Commission is authorized and empowered to approve liens or mortgages that may be given by such railroad companies and common carriers to secure the purchase or lease price of any equipment or motive power which may be deemed by the Commission necessary for the proper discharge of its duty as a common carrier. If in the judgment of the Commission any railroad company in this State which now has an excessive issue of bonds and stocks outstanding, has not sufficient passenger and freight equipment and motive power to handle the passenger and freight business of such common carrier and railroad company, the Commission after not less than five days' notice and hearing shall issue an order requiring the purchase of such rolling stock and motive power as in the judgment and discretion of the Commission may be deemed necessary for the prompt, expeditious and comfortable transportation of freight and passengers over the line of such railroad company and common carrier; and in such case, the Commission is authorized to approve contracts or liens for the purpose of securing the purchase or lease price of such rolling stock, motive power and equipment.

[Acts 1925, S.B. 84.]

Art. 6489. Penalty

Any railroad company or common carrier failing to comply with any provision of the two preceding articles, or to obey the orders of the Railroad Commission, made in pursuance of any provision thereof, shall be deemed guilty of an abuse of their rights and privileges, and, shall be subject to a penalty of one hundred dollars payable to the State of Texas. Each day that such railroad company or common carrier neglects, fails or refuses to comply with such orders shall constitute a separate offense.

[Acts 1925, S.B. 84.]

Art. 6490. Facilities, Interchange Cars, etc.

Every railroad company operating a line of railroad within this State shall provide sufficient tracks, switches, sidings, yards, depots, motive power, cars and all other needful facilities and appliances, for receiving and delivering freight, to enable it with reasonable dispatch to perform all of its duties as to all traffic which with ordinary foresight and diligence could be anticipated, as a common carrier; and furnish all necessary and suitable cars and vehicles of transportation for all freight offered or tendered to it for shipment within a reasonable time after demand therefor made by a shipper; and supply within a reasonable time, at its station or stations, spurs, sidings, switches, or other places, at which it receives freight for transportation, and from which such shipper gives notice to such railway company that he desires to ship such freight at the time designated by the shipper, where it is within reasonable time, sufficient suitable cars within which to load the same; and as to all services to be performed within the limits of the State, as to such freight and cars shall transport same within a reasonable time to destination, when destined to a point upon the line of such railway receiving such freight, and, if destined to a point beyond the line of such railroad, then transport and deliver within a reasonable time such freight in such loaded car or cars to the connecting carrier forming any part of the route over which such shipment is made, for the purpose of transportation by such connecting carrier on to the destination of such freight, or for delivery by it to the connecting line or lines forming any part of the route over which same is to be transported to its ultimate destination; and each connecting line of railroad engaged in such transportation, as to all such service to be performed, as to all such freight and cars in which the same is carried within this State, shall receive and transport within a reasonable time such loaded car or cars tendered to it, if in suitable condition for movement, and deliver the same at destination thereof, if destined to a point upon its line of railroad, and, if destined to a point beyond its line of railroad, then to its connecting carrier forming any part of the route over which such car or cars are to be transported, subject to the same duties and obligations as if such freight had originated upon such line of railroad. Where such freight forms less than a carload, or where it may be necessary to load the same because of any accident or injury thereto, or to the car in which the same is being transported, or where such freight is unloaded at the request of the shipper en route, or where by reason of any accident or unavoidable cause, or in order to comply
Art. 6490

with any law or regulation provided by law, such freight is unloaded, or it is reasonably necessary to do so, or where it is for any other reason necessary to unload such freight in order to forward, or before it can be forwarded, in any such cases, where suitable cars may be supplied, and when the freight is carried wholly within this State, the Commission shall make all needful rules and regulations for unloading cars at junction points, or otherwise forwarding cars, furnishing cars for forwarding or reloading and the exchange of cars and forwarding of such freight in the same or other cars. Whenever by reason of any accidental or unavoidable cause which cannot be provided against by the use of reasonable foresight or diligence, such railroad company fails to so furnish cars and shall use reasonable diligence to do so promptly after the happening of such accidental or unavoidable cause, it shall not, on account of such failure, be liable to the penalties of attorney's fees or as otherwise herein prescribed. But nothing in this article shall in any way affect the right or remedy of any shipper or other person as to recover on account of the failure, delay, or refusal to furnish cars for transportation of any freight, or other failure to perform any other legal duty, nor to in any wise exempt any such railroad company from any provision of the statutes of this State, or other duties imposed by law.

[Acts 1925, S.B. 84.]

Art. 6491. To Interchange Cars at Junction Points

To facilitate the movement, preservation and exchange of freight, every railroad company in this State, whose line of railroad connects with the line of any other railroad company in this State, shall exchange at such connecting or junction points, the loaded and empty cars used in or for transportation of freight carried upon such lines of railroad forming any part of the route over which said freight is carried or to be carried; and a railroad company forming any part of the through or joint route over which any freight is carried or to be carried, or having or participating in the joint rates on which such freight is carried or to be carried, on demand of any such connecting line delivering to it any such loaded car or cars of freight at junction points within this State shall furnish to such delivery line within a reasonable time after such loaded cars are so received, at such junction point in this State, as many cars suitable for the carriage or transportation of similar freight as may be so delivered to it loaded, by such connecting line; and upon the demand of the owner thereof, or the railroad company entitled thereto, or to the use thereof, every such railroad company so receiving the cars of another shall return the same at the place where they were received, or at such place as may be by said railroads agreed upon, within a reasonable time after demand thereof; and as to cars exchanged in transporting freight wholly within this State within the time and according to the rules and regulations prescribed by the Commission.

[Acts 1925, S.B. 84.]

Art. 6492. Commission to Make Rules

As to all freight carried wholly within this State and the cars used therefor, the Commission shall make and establish all needful rules and regulations, general and special, which may be different according to the circumstances and conditions to different railroads and localities and for different kinds and classes of freight and cars, providing for the time, place and manner of demanding cars for or giving notice of shipment of such freight and the time, place, manner and order in which the same shall be furnished to shippers for the purpose of shipping freight between points in this State; and prescribe rules and regulations for the furnishing, exchanging and interchanging of cars, loaded and empty, by railroad companies as between each other; the time, place, terms and conditions upon which such cars shall be furnished and such interchange shall be made, and in the absence of an agreement of such railroad companies, the reasonable compensation to be paid by each railroad company for the use, loss, injury or destruction of the cars of another railroad company in the transportation of such freight; the time within which, and the manner by which railroad companies shall give notice or make demand upon each other for cars to be furnished by one railroad company in exchange for loaded cars, or to have its cars returned, the reasonable free time to be allowed the shippers for the loading of such car or cars without incurring liability for demurrage; the free time which shall be allowed to the shipper or consignee in which to unload such freight without incurring any liability for demurrage; a schedule of reasonable demurrage charges, reciprocal or otherwise, for the use of cars, irrespective of damages or penalties herein provided, which may be different for different railroads and different traffic and localities, to be paid by shippers for the detention or use of cars either in loading or unloading, or by the railroads for failing in a reasonable time to furnish cars, or to make delivery of loaded cars, subject to the penalties and damages herein provided, and the rules and regulations with respect thereto. Said Commission, whenever it may deem same necessary in order to secure the prompt transportation of freight and preservation of the property, shall be authorized to prescribe the minimum speed at which freight shall be moved when being transported between points within this State, including the time for transfer and delivery as between connecting railroads. Every such railroad company shall conform to each rule, regulation and order of the Commission made in accordance with the two preceding and three succeeding articles; and failure to observe the rules and regulations of the Commission, or to comply with the provisions of this law, as to freight carried wholly within this State, shall be deemed an abuse subject to correction by the Commission, and shall subject such
railroad company to the penalties hereinafter provided.

[Acts 1925, S.B. 84.]

Art. 6493. LIABLE FOR DAMAGES, WHEN

Every railroad company which shall fail to furnish cars as provided herein for the shipment of freight within a reasonable time, or in case of the shipment of freight between points within this State, within the time prescribed by the Commission, or shall fail to receive and forward any loaded car or cars, or to exchange cars as provided herein, shall be liable to the shipper or other person injured or damaged thereby for all such injury or damages as may result to such shipper, and all special damages of which such railroad company had notice at the time of the shipment, or which shall occur after written notice thereof, and shall be liable in addition thereto for an amount equal to a reasonable attorney's fee in case suit is brought for the recovery of such damage. If any railroad company in this State shall fail or refuse to furnish within a reasonable time after demand thereof, any car or cars for the shipment of live stock, green fruit, vegetables or other perishable freight, such railroad company shall be liable to the shipper for the damage caused thereby, and a reasonable attorney's fee in case of suit to recover the same. Any railroad company which shall fail to furnish or exchange cars as required by the provisions of this law, or by the rules and regulations of the Commission as provided for herein, shall be liable to the railroad company injured thereby for all such damages as may result to it, and in addition thereto an amount equal to a reasonable attorney's fee in case suit is brought for the recovery of any damage. Where any such railroad company, or owner of any such car or cars, shall be dissatisfied with the amount fixed by the Commission for such use, hire, loss or destruction, or damage to such car, or where the railroad company liable therefor shall fail to pay for the same, the Commission or person entitled thereto, or which is liable for the use, hire, loss, injury or destruction of such cars, shall be entitled to establish the reasonable value thereof by suit.

The railroad companies shall furnish their station agents with printed blanks upon which shippers make application for their cars. Nothing in this and the five preceding articles shall be construed to exempt any railroad company from the obligation to furnish cars for shipment without such written notice, but it shall only be subject to the penalties of this law for failure to furnish cars to shippers where notice thereof shall be given in writing, or in case of shipment of freight wholly between points in this State, then in accordance with the rules and regulations of the Commission.

or part of railroad, or the franchises or property appurtenant or belonging thereto, over the reason-

property so sold from liability in the hands of purchasers for claims for damages, unsecured debts, or
junior mortgages against such railroad company so sold, shall have the effect to annul and cancel all
claims of every stockholder therein to any share in the stock of such railroad; and it shall not be lawful
for said purchasers, or for any railroad company to operate said railroad, to issue any stock in lieu of
the old stock or to allow any compensation therefor in any manner whatever, nor shall all or any part of

work done or in the process of completion, the amount of property received, the amount of stock
subscribed and the amount paid in, and all other necessary facts showing the value of the franchise
and property proposed as security for said contemplated debts. If on investigation, the Commission is
satisfied that the company is acting in good faith, and that its contract with the construction company
is reasonable and fair to the public, then it shall authorize the execution of said indebtedness and a
lien to the extent necessary for the demands of the work, at no time to be fifty per cent over the value
of the whole property and franchises. In executing said bonds, the company shall comply with Article

each, the amount of stock represented by each share and the amount actually paid, labor done or
property received on each share of stock, and shall cause to be affixed to each name on said list a
certificate issued to the stockholder shown thereby, bearing the number, beginning with number one, or the next
highest number of any certificate previously issued. The president of the board, or presiding officer of
the meeting at which the issuing of such certificates of stock is authorized, shall make a certificate
signed by him in person to said statement to the
effect that the same is correct, and that the amount of money paid, labor done and property received as stated is correct. Such statement shall thereupon be entered at large upon the minutes, and, after having the seal of the company affixed thereto, shall be attested by the secretary of the company, and deposited with the Commission, and by it filed and preserved in its office. No railroad company shall increase its stock unless all existing shares of stock shall have been paid in full, or all unpaid shares of such stock have been sold out as forfeited under the law. When the certificates to be issued are for increase of stock, the statement herein required to be made by the board of directors shall state that all existing shares of stock have been paid in full, or that all shares not paid in full have been sold out or forfeited under the law. In no event shall the stock exceed the value of the railway property, and the correct aggregate amount of stock so issued by each railroad company shall be certified to and registered in the office of the Secretary of State by or at the instance of the Commission.

[Acts 1925, S.B. 84.]

Art. 6527. Prerequisites

When any railroad company in this State desires to make, issue, and sell any bonds, or evidences of debt, which are to become a lien on its property, it shall comply with the laws of this State regulating the same, and in addition thereto shall have said bonds prepared, signed by the president of the company, and attested by the secretary, with the seal of said company attached thereto. Each bond shall be numbered, beginning with number one, or the next highest number of any preceding bond issued by it, and continue consecutively until all are numbered. If said bonds are such as are permitted under this law, and the Commission shall be so satisfied, it shall approve said bonds, and shall issue to the Secretary of State a direction to register said bonds, specifying the numbers, dates, and amounts thereof. Said Commission shall keep in its office a correct record of the bonds so approved by it, giving the name of the company, the numbers, dates of execution and maturity of the bonds, the amount and rate of interest of each, and the date of approval. This provision shall not apply to receiver's certificates where the amount does not exceed one hundred thousand dollars.

[Acts 1925, S.B. 84.]

Art. 6528. Registering Bonds

The Secretary of State shall endorse on each bond, under the seal of his office and his official signature, together with the date thereof, as follows: "This bond is registered under the direction of the Railroad Commission of Texas." Provided, however, that at the direction of the Secretary of State his said seal may be a facsimile seal in lieu of his manually impressed seal and his said signature may be his facsimile signature in lieu of his manual signature. No bond or other evidence of debt, hereafter issued by or under the authority of any person, firm, corporation, court, or railroad company, whereby a lien is created on its franchise or property situated in this State, shall be valid or have any force until the same has been registered as required herein.

Art. 6529. Forfeiture of Charter

If any railroad company owning or operating a railroad in this State shall issue or consent or cause to be issued any bonds or other evidences of debt to be or become a lien on its railroad property so owned or operated, or shall issue any stock not in accordance with the provisions of this chapter, such action shall work a forfeiture of its charter.

[Acts 1925, S.B. 84.]

Art. 6530. Certificates, Bonds, etc., Void

Art. 6550c. Rural Rail Transportation Districts

Findings

Sec. 1. The legislature finds that:

(1) the state contains many rural areas that are heavily dependent on agriculture for economic survival;

(2) transportation of agricultural and industrial products is essential to the continued economic vitality of rural areas;

(3) the rail transportation systems in some rural areas are threatened by railroad bankruptcies and abandonment proceedings that would cause the cessation of rail services to the areas; and

(4) it is in the interest of all citizens of the state that existing rail systems be maintained for the most efficient and economical movement of essential agricultural products from the areas of production to the local, national, and export markets.

Definitions

Sec. 2. In this Act:

(1) “Board” means the board of directors of a rural rail transportation system.

(2) “District” means a rural rail transportation district created under this Act.

(3) “System” means all real and personal property held or used for rail transportation purposes, including land, easements, rights-of-way, other interests in land, franchises, stations, terminals, garages, shops, control houses, other buildings and structures, rolling stock, tracks, signals, other equipment, supplies, and other facilities neces-
Creation of District

Sec. 3. (a) The commissioners courts of two or more eligible counties that, taken together, constitute a contiguous geographic area may by order create a rural rail transportation district consisting of the territory of the counties whose commissioners courts adopt the order.

(b) After approval by the board of directors of a district, the commissioners court of an eligible county by order may include the territory of that county in the district.

(c) A county eligible to form or join a district is one in which is located a rail line that is in the process of being or has been abandoned through a bankruptcy court or Interstate Commerce Commission proceeding, or any line carrying 3 million gross tons per mile per year or less.

Board of Directors; Employees

Sec. 4. (a) Each commissioners court that participates in the creation of or joins a district shall appoint one person to be a member of the board of directors of the district. Provided however, that if the district shall be composed of three counties or less, then each commissioners court shall appoint two directors to the board of directors. The board is responsible for management, operation, and control of the district.

(b) To be eligible for appointment to the board, a person must be a resident of the district. A board member serves for a term of two years. A vacancy on the board shall be filled for the remainder of the term by the commissioners court that appointed the member who vacated the position. A board member may be removed from office for neglect of duty or malfeasance in office by the commissioners court that appointed the member, after at least 10 days' written notice to the member and a hearing before the commissioners court. At a hearing on the question of removal of a board member, the board member is entitled to be heard in person or through counsel.

Powers of District

Sec. 5. (a) A rural rail transportation district is a public body exercising public and essential governmental functions and having all the powers necessary or convenient to carry out the purposes of this Act, including the powers granted in this section.

(b) A district has perpetual succession.

(c) A district may sue and be sued in all courts of competent jurisdiction, may institute and prosecute suits without giving security for costs, and may appeal from a judgment without giving supersedeas or cost bond.

(d) A district may acquire by grant, purchase, gift, devise, lease, or otherwise and may hold, use, sell, lease, or dispose of real and personal property, licenses, patents, rights, and interests necessary, convenient, or useful for the full exercise of any of its powers under this Act.

(e) A district may acquire, construct, own, operate, and maintain a system within its boundaries, both inside and outside the limits of incorporated cities, towns, and villages, and has the right to use the streets, alleys, roads, highways, and other public ways and to relocate, raise, lower, reroute, regulate, change the grade of, and alter the construction of any street, alley, highway, or road; any railroad track, bridge, or other facility or property; any gas transmission or distribution pipes, pipelines, mains, or other facility or property; any water, sanitary sewer, or storm sewer pipes, pipelines, or other facility or property; any electric lines, telegraph or telephone facility or property; any cable television lines, cables, conduits, or other facility or property; and pipelines and facilities, conduits and facilities, or other property whether publicly or privately owned, in the construction, reconstruction, repair, maintenance, or operation of the system. The right may not be exercised in a manner that would unduly interfere with interstate commerce or unduly impair the neighborhood character of property surrounding or adjacent to the property sought to be condemned. Eminent domain proceedings brought by a district are governed by Title 52, Revised Civil Statutes of Texas, 1925, except as it is inconsistent with this Act. Proceedings for the exercise of the power of eminent domain are commenced by the adoption by the board of a resolution declaring the public necessity for the acquisition by the district of the property or interest described in the resolution, and that the acquisition is necessary and proper for the construction, extension, improvement, or development of the system and is in the public interest. The resolution of the district is

conclusive evidence of the public necessity of the proposed acquisition and that the real or personal property or interest in property is necessary for public use.

(g) A district may enter into agreements with any other public utility, private utility, communication system, common carrier, or transportation system for the joint use of its facilities, installations or properties within the district and establish through routes, joint fares, and, subject to approval of any tariff-regulating body having jurisdiction, divisions of tariffs.

(h) A district shall establish and maintain rents or other compensation for the use of the facilities of the system acquired, constructed, operated, regulated, or maintained by the district that are reasonable and nondiscriminatory and, together with grants received by the district, are sufficient to produce revenues adequate:

(1) to pay all expenses necessary to the operation and maintenance of the properties and facilities of the district;

(2) to pay the interest on and principal of all bonds issued by the district under this Act payable in whole or in part from the revenues, as they become due and payable; and

(3) to fulfill the terms of any agreements made with the holders of bonds or with any person in their behalf.

(i) A district may make contracts, leases, and agreements with, and accept grants and loans from the United States of America, its departments and agencies, the state, its agencies, and political subdivisions, and public or private corporations and persons, and may generally perform all acts necessary for the full exercise of the powers vested in it. A district may acquire rolling stock or other property under conditional sales contracts, leases, equipment trust certificates, or any other form of contract or trust agreement. Any revenue bond indenture may provide limitations on the exercise of the powers vested in it. A district may acquire rolling stock or other property under conditional sales contracts, leases, equipment trust certificates, or any other form of contract or trust agreement. Any revenue bond indenture may provide limitations on the exercise of the powers vested in it. A district may acquire rolling stock or other property under conditional sales contracts, leases, equipment trust certificates, or any other form of contract or trust agreement.

(j) A district may sell, lease, convey, or otherwise dispose of any of its rights, interests, or properties not needed for or, in the case of leases, not inconsistent with the efficient operation and maintenance of the system. It may sell, lease, or otherwise dispose of, at any time, any surplus materials or personal or real property not needed for its requirements or for the purpose of carrying out its power under this Act.

(k) A district by resolution may adopt rules and regulations governing the use, operation, and maintenance of the system and shall determine all routings and change them whenever the board considers it advisable.

(l) A district may lease the system or any part to, or contract for the use or operation of the system or any part by, any operator. A district shall encourage to the maximum extent practicable the participation of private enterprise in the operation of the system.

(m) A district may contract with any county or other political subdivision of the state for the district to provide rail transportation services to any area outside the boundaries of the district on such terms and conditions as may be agreed to by the parties.

1 Article 3264 et seq.

The commissioners hold office for staggered terms of six years with the terms of three members expiring every two years. Each member holds office until his successor is appointed and has qualified. Within 15 days after his appointment, each member shall qualify by taking the constitutional oath of office and furnishing a bond payable to the Governor of Texas in the penal sum of $10,000, conditional on the faithful performance of his duties as prescribed by law. A vacancy for any cause shall be filled by the governor for the unexpired term. Notwithstanding any other provisions in this subsection, the six members of the commission in office on September 1, 1979, shall continue in office until the 5th day of October of the years in which their respective terms expire, or until their successors are appointed and have qualified. The terms of office of the appointees who fill the offices of incumbent members whose terms expire October 5, 1979, 1981, and 1983, expire on January 31, 1985, 1987, and 1989, respectively. Each succeeding term of office expires on January 31 of odd-numbered years. For the three public members initially appointed under this Act, the governor shall designate one member for a term expiring January 31, 1981, one member for a term expiring January 31, 1983, and one member for a term expiring January 31, 1985. At a regular meeting in February of each year, the commission shall elect from its own membership a chairman, vice-chairman, and secretary. Each member of the commission shall be present for at least one-half of the regularly scheduled meetings held each year by the commission. The failure of a member to meet this requirement automatically removes the member from the commission and creates a vacancy on the commission. A quorum of the commission consists of five members.

(b) All members, officers, employees, and agents of the commission are subject to the code of ethics and standards of conduct imposed by Chapter 421, Acts of the 63rd Legislature, Regular Session, 1973 (Article 6252-9b, Vernon's Texas Civil Statutes).

(c) Appointments to the commission shall be made without regard to the race, creed, sex, religion, or national origin of the appointees. Each member of the commission shall be a citizen of Texas and a qualified voter. Six members shall have been engaged in the real estate brokerage business as licensed real estate brokers as their major occupations for at least five years next preceding their appointments. Three members must be representatives of the general public who are not licensed under this Act and who do not have, other than as consumers, a financial interest in the practice of a real estate broker or real estate salesperson. It is grounds for removal from the commission if:

(1) a broker-member of the commission ceases to be a licensed real estate broker; or

(2) a person is required to register as a lobbyist under Chapter 422, Acts of the 63rd Legislature, Regular Session, 1973, as amended (Article 6252-9c, Article 6573a REAL ESTATE DEALERS

If the appropriate standing committees of both houses of the legislature acting under Subsection (g), Section 5, Administrative Procedure and Texas Register Act, as added (Article 6252-13a, Vernon's Texas Civil Statutes), transmit to the commission statements opposing adoption of a rule under that section, the rule may not take effect, or if the rule has already taken effect, the rule is repealed effective on the date the commission receives the committees' statements. In addition to any other action, proceeding, or remedy authorized by law, the commission shall have the right to institute an action in its own name to enjoin any violation of any provision of this Act or any rule or regulation of the commission and in order for the commission to sustain such action it shall not be necessary to allege or prove, either that an adequate remedy at law does not exist, or that substantial or irreparable damage would result from the continued violation thereof. Either party to such action may appeal to the appellate court having jurisdiction of said cause. The commission shall not be required to give any appeal bond in any action or proceeding to enforce the provisions of this Act.

(f) The commission is empowered to select and name an administrator, who shall also act as executive secretary, and to select and employ such other subordinate officers and employees as are necessary to administer this Act. The salaries of the administrator and the officers and employees shall be fixed by the commission not to exceed such amounts as are fixed by the applicable general appropriations bill. The commission may designate a subordinate officer as assistant administrator who shall be authorized to act for the administrator in his absence. A person who is required to register as a lobbyist under Chapter 422, Acts of the 63rd Legislature, Regular Session, 1973, as amended (Article 6252-9c, Vernon's Texas Civil Statutes), may not act as the general counsel to the commission or serve as a member of the commission.

(g) The commission shall adopt a seal of a design which it shall prescribe. Copies of all records and papers in the office of the commission, duly certified and authenticated by the seal of the commission, shall be received in evidence in all courts with like effect as the original.

(h) Except as provided in Subsections (i) and (j) of this section, all money derived from fees, assessments, or charges under this Act, shall be paid by the commission into the State Treasury for safekeeping, and shall be placed by the State Treasurer in a separate fund to be available for the use of the commission in the administration of this Act on requisition by the commission. A necessary amount of the money so paid into the State Treasury is hereby specifically appropriated to the commission for the purpose of paying the salaries and expenses necessary and proper for the administration of this Act, including equipment and maintenance of supplies for the offices or quarters occupied by the commission, and necessary travel expenses for the commission or persons authorized to act for it when performing duties under this Act. At the end of the state fiscal year, any unused portion of the funds in the special account, except such funds as may be appropriated to administer this Act pending receipt of additional revenues available for that purpose, shall be paid into the General Revenue Fund. The comptroller shall, on requisition of the commission, draw warrants from time to time on the State Treasurer for the amount specified in the requisition, not exceeding, however, the amount in the fund at the time of making a requisition. However, all money expended in the administration of this Act shall be specified and determined by itemized appropriation in the general departmental appropriation bill for the Texas Real Estate Commission, and not otherwise.

(i) In the event that fees collected under the Residential Service Company Act (Article 6573b, Vernon's Texas Civil Statutes), are insufficient to fund the legislative appropriation for that activity, funds from the real estate license fund are hereby authorized to be used for the administration of that Act. In no event, however, will the total expenditures for that activity exceed the legislative appropriation therefor.

(j) Fifteen dollars received by the commission from fees received from real estate brokers and $7.50 received by the commission from fees received from real estate salesmen for licensure status shall be transmitted annually to Texas A & M University for deposit in a separate banking account. The money in the separate account shall be expended for the support and maintenance of the Texas Real Estate Research Center and for carrying out the purposes, objectives, and duties of the center. However, all money expended from the separate account shall be as determined by legislative appropriation.

(k) The Texas Real Estate Commission is subject to the Texas Sunset Act, as amended (Article 4292k, Vernon's Texas Civil Statutes), and unless continued in existence as provided by that Act the com-
mission is abolished, and this Act expires effective September 1, 1991.

(1) The commission is subject to the open meetings law, Chapter 271, Acts of the 60th Legislature, Regular Session, 1967, as amended (Article 6252-17, Vernon's Texas Civil Statutes), and the Administrative Procedure and Texas Register Act, as amended (Article 6252-13a, Vernon's Texas Civil Statutes).

Licenses; Qualification

Sec. 6A. (a) A person desiring to act as a real estate broker in this state shall file an application for a license with the commission on a form prescribed by the commission. A broker desiring to engage a person to participate in real estate brokerage activity shall join the person in filing an application for a salesperson license on a form prescribed by the commission.

(b) To be eligible for a license, an individual must be a citizen of the United States or a lawfully admitted alien, be at least 18 years of age, and be a legal resident of Texas for at least 60 days immediately preceding the filing of an application, and must satisfy the commission as to his honesty, trustworthiness, integrity, and competency. However, the competency of the individual, for the purpose of qualifying for the granting of licensure privileges, shall be judged solely on the basis of the examination referred to in Section 7 of this Act.

(c) To be eligible for a license, a corporation must designate one of its officers to act for it. The designated person must be a citizen of the United States or a lawfully admitted alien, be at least 18 years of age, and be a resident of Texas for at least 60 days immediately preceding the filing of an application, and must satisfy the commission as to his honesty, trustworthiness, integrity, and competency. However, the competency of the person shall be judged solely on the basis of the examination referred to in Section 7 of this Act.

Moral Character Checks

Sec. 6A. (a) If, at any time before a person applies for a license under this Act, the person requests the commission to determine whether his moral character complies with the commission's moral character requirements for licensing under this Act and the person pays a $10 fee for the moral character determination, the commission shall make its determination of the person's moral character.

(b) Not later than the 30th day after the day on which the commission makes its determination, the commission shall give the person notice of the determination.

(c) If the person later applies for a license under this Act, the commission may conduct a supplemental moral character check of the person. The supplemental check may cover only the time since the day on which the person requested the original moral character determination.

Examinations, Educational Requirements; Evidence of Qualification

Sec. 7. (a) Competency as referred to in Section 6 of this Act shall be established by an examination prepared by or contracted for by the commission. The examination shall be given at such times and at such places within the state as the commission shall prescribe. The examination shall be of scope sufficient in the judgment of the commission to determine that a person is competent to act as a real estate broker or salesman in a manner to protect the interest of the public. The examination for a salesperson license shall be less exacting and less stringent than the examination for a broker license.

The commission shall furnish each applicant with study material and references on which his examination shall be based. When an applicant for real estate licensure fails a qualifying examination, he may apply for reexamination by filing a request therefor together with the proper fee. The examination requirement shall be satisfied within one year from the date the application for a license is filed. Courses of study required for licensure shall include but not be limited to the following which shall be considered core real estate courses for all purposes of this Act:

(b) The commission shall waive the examination of an applicant for broker licensure who has, within one year previous to the filing of his application, been licensed in this state as a broker, and shall waive the examination of an applicant for salesman licensure who has, within one year previous to the filing of his application, been licensed in this state as either a broker or salesman.

(c) From and after the effective date of this Act, each applicant for broker licensure shall furnish the commission satisfactory evidence that he has had not less than two years active experience in this state as a licensed real estate salesman practitioner during the 36-month period immediately preceding the filing of his application, and, in addition, shall furnish the commission satisfactory evidence of having completed successfully 36 semester hours of core real estate courses or related courses accepted by the commission. On January 1, 1983, the number of required semester hours shall be increased to 48. On or after January 1, 1985, the required semester hours shall be increased to 60. These qualifications for broker licensure shall not be required of an applicant who, at the time of making the application, is duly licensed as a real estate broker by any other state in the United States if that state's requirements for licensure are comparable to those of Texas. As a prerequisite for applying for broker licensure, those persons licensed as salesmen subject to the annual education requirements provided by Subsection (d) of this section shall, as part of the semester hours required by this subsection, furnish the commission satisfactory evidence of having completed all the requirements of Subsection (d) of this section.

(d) From and after the effective date of this Act, as a prerequisite for applying for salesman licensure each applicant shall furnish the commission satisfactory evidence of having completed 12 semester hours of postsecondary education, six semester hours of which must be completed in core real estate courses, of which a minimum of two semester hours must be completed in Principles of Real Estate as described in Subdivision (1) of Subsection (a) of Section 7. The remaining six semester hours shall be completed in core real estate courses or related courses. As a condition for the first annual certification of salesman licensure privileges, the applicant shall furnish the commission satisfactory evidence of having completed a minimum of 14 semester hours, eight semester hours of which must be completed in core real estate courses. As a condition for the second annual certification of salesman licensure privileges, the applicant shall furnish the commission satisfactory evidence of having completed a minimum of 16 semester hours, 10 semester hours of which must be completed in core real estate courses. As a condition for the third annual certification of salesman licensure privileges, the applicant shall furnish the commission satisfactory evidence of having completed a minimum of 18 semester hours, 12 semester hours of which must be completed in core real estate courses.

(f) Insofar as is necessary for the administration of this Act, the commission is authorized to inspect and accredit educational programs or courses of study in real estate and to establish standards of accreditation for such programs conducted in the State of Texas, other than accredited colleges and universities. Schools, other than accredited colleges and universities, which are authorized to offer real estate educational courses pursuant to provisions of this section shall be required to maintain a corporate surety bond in the sum of $10,000 payable to the commission, for the benefit of a party who may suffer damages resulting from failure of a commission approved school or course to fulfill obligations attendant to the approval.

(g) A person licensed as a salesman on May 19, 1975, is not subject to the educational requirements or prerequisites of this Act as a condition for holding salesman licensure privileges. A person licensed as a broker on May 19, 1975, is not subject to the educational requirements or prerequisites of this Act as a condition for holding broker licensure privileges.

(h) Notwithstanding any other provision of this Act, from and after the effective date of this Act each applicant for broker licensure shall furnish the commission with satisfactory evidence:

(1) that he has satisfied the requirements of Subsection (c) of this section; or

(2) that he is a licensed real estate broker in another state, that he has had not less than two
years' active experience in the other state as a licensed real estate salesman or broker during the 36-month period immediately preceding the filing of the application, and that he has satisfied the educational requirements for broker licensure as provided by Subsection (c) of this section; or
(2) that he has, within one year previous to the filing of his application, been licensed in this state as a broker.

(i) Notwithstanding any other provision of this Act, the commission shall waive the requirements of Subsection (d) of Section 7 of this Act for an applicant for salesman licensure who has, within one year previous to the filing of his application, been licensed in this state as a broker or salesman. However, with respect to an applicant for salesman licensure who was licensed as a salesman within one year previous to the filing of the application but whose original licensure privileges were issued under the provisions that second and third annual certification of the licensure privileges would be conditioned upon furnishing satisfactory evidence of successful completion of additional education, the commission shall require the applicant to furnish satisfactory evidence of successful completion of any additional education that would have been required if the licensure privileges had been maintained without interruption during the previous year.

(j) Not later than the 90th day after the day on which a person completes an examination administered by the commission, the commission shall send to the person his or her examination results.

(k) All applicants for licensure must complete at least three classroom hours of coursework on federal, state, and local laws governing housing discrimination, housing credit discrimination, and community reinvestment or at least three semester hours of coursework on constitutional law.

Real Estate Recovery Fund

Sec. 8. Part 1. (a) The commission shall establish a real estate recovery fund which shall be set apart and maintained by the commission as provided in this section. The fund shall be used in the manner provided in this section for reimbursing aggrieved persons who suffer actual damages by reason of certain acts committed by a duly licensed real estate broker or salesman, or by an unlicensed employee or agent of a broker or salesman, provided the broker or salesman was licensed by the State of Texas at the time the act was committed and provided recovery is ordered by a court of competent jurisdiction against the broker or salesman.

The use of the fund as provided in Part 1 of this section is limited to an act that is either a violation of Section 15(3) or (4) of this Act.

(b) On the effective date of this Act, the commission shall collect from each real estate broker and salesman licensed by this state a fee of $10 which shall be deposited in the real estate recovery fund. The commission shall suspend a license issued under the provisions of this Act for failure to pay this fee. After the effective date of this Act, when a person makes application for an original license pursuant to this Act he shall pay, in addition to his original license application fee, a fee of $10 which shall be deposited in the real estate recovery fund. If the commission does not issue the license, this fee shall be returned to the applicant.

Part 2. If on December 31 of any year the balance remaining in the real estate recovery fund is less than $300,000, each real estate broker and each real estate salesman, on recertification of his license during the following calendar year, shall pay, in addition to his license recertification fee, a fee of $10, which shall be deposited in the real estate recovery fund, or a pro rata share of the amount necessary to bring the fund to $1 million, whichever is less.

Part 3. (a) No action for a judgment which subsequently results in an order for collection from the real estate recovery fund shall be started later than two years from the accrual of the cause of action. When an aggrieved person commences action for a judgment which may result in collection from the real estate recovery fund, the real estate broker or real estate salesman shall notify the commission in writing to this effect at the time of the commencement of the action.

(b) When an aggrieved person recovers a valid judgment in a court of competent jurisdiction against a real estate broker, or real estate salesman, on the grounds described in Part 1(a) of this section that occurred on or after May 19, 1975, the aggrieved person may, after final judgment has been entered, execution returned nulla bona, and a judgment lien perfected, file a verified claim in the court in which the judgment was entered and, on the hearing on the application, the court shall proceed on the application forthwith. On the hearing on the application, the aggrieved person is required to show that:

(1) the judgment is based on facts allowing recovery under Part 1(a) of this section;
(2) he is not a spouse of the debtor, or the personal representative of the spouse; and he is not a real estate broker or salesman, as defined by this Act, who is seeking to recover a real estate commission
Art. 6573a REAL ESTATE DEALERS

in the transaction or transactions for which the application for payment is made;

(3) he has obtained a judgment as set out in Part 2(b) of this section, stating the amount of the judgment and the amount owing on the judgment at the date of the application;

(4) the judgment debtor lacks sufficient attachable assets to satisfy the judgment; and

(5) the amount that may be realized from the sale of real or personal property or other assets liable to be sold or applied in satisfaction of the judgment and the balance remaining due on the judgment after application of the amount that may be realized.

(d) The court shall make an order directed to the commission requiring payment from the real estate recovery fund of whatever sum it finds to be payable on the claim, pursuant to and in accordance with the limitations contained in this section, if the court is satisfied, on the hearing, of the truth of all matters required to be shown by the aggrieved person by Part 3(c) of this section and that the aggrieved person has satisfied all of the requirements of Parts 3(b) and (e) of this section.

(e) A license granted under the provisions of this Act shall be revoked by the commission on proof that the commission has made a payment from the real estate recovery fund of any amount toward satisfaction of a judgment against a licensed real estate broker or salesman. No broker or salesman is eligible to receive a new license until he has repaid in full, plus interest at the current legal rate, the amount paid from the real estate recovery fund on his account. A discharge in bankruptcy shall not relieve a person from the penalties and disabilities provided in this Act.

Part 4. The sums received by the real estate commission for deposit in the real estate recovery fund shall be held by the commission in trust for carrying out the purposes of the real estate recovery fund. These funds may be invested and reinvested in the same manner as funds of the Texas State Employees Retirement System, and the interest from these investments shall be deposited to the credit of the real estate recovery fund, provided, however, that no investments shall be made which will impair the necessary liquidity required to satisfy judgment payments awarded pursuant to this section.

Part 5. When the real estate commission receives notice of entry of a final judgment and a hearing is scheduled under Part 3(d) of this section, the commission may notify the Attorney General of Texas of its desire to enter an appearance, file a response, appear at the court hearing, defend the action, or take whatever other action it deems appropriate on behalf of, and in the name of, the defendant, and take recourse through any appropriate method of review on behalf of, and in the name of, the defendant. In taking such action the real estate commission and the attorney general shall act only to protect the fund from spurious or unjust claims or to insure compliance with the requirements for recovery under this section.

Part 6. When, on the order of the court, the commission has paid from the real estate recovery fund any sum to the judgment creditor, the commission shall be subrogated to all of the rights of the judgment creditor to the extent of the amount paid. The judgment creditor shall assign all his right, title, and interest in the judgment up to the amount paid by the commission which amount shall have priority for repayment in the event of any subsequent recovery on the judgment. Any amount and interest recovered by the commission on the judgment shall be deposited to the fund.

Part 7. The failure of an aggrieved person to comply with the provisions of this section relating to the real estate recovery fund shall constitute a waiver of any rights under this section.

Part 8. (a) Notwithstanding any other provision, payments from the real estate recovery fund are subject to the conditions and limitations in Subsections (b) through (d) of this part.

(b) Payments may be made only pursuant to an order of a court of competent jurisdiction, as provided in Part 3, and in the manner prescribed by this section.

(c) Payments for claims, including attorneys’ fees, interest, and court costs, arising out of the same transaction shall be limited in the aggregate to $20,000 regardless of the number of claimants.

(d) Payments for claims based on judgments against any one licensed real estate broker or salesman may not exceed in the aggregate $50,000 until the fund has been reimbursed by the licensee for all amounts paid.

Part 9. Nothing contained in this section shall limit the authority of the commission to take disciplinary action against a licensee for a violation of this Act or the rules and regulations of the commission; nor shall the repayment in full of all obligations to the real estate recovery fund by a licensee nullify or modify the effect of any other disciplinary proceeding brought pursuant to this Act.

Part 10. Any person receiving payment out of the real estate recovery fund pursuant to Section 8 of this Act shall be entitled to receive reasonable attorney fees as determined by the court, subject to the limitations stated in Part 8 of this section.

Issuance of License; Certification Fees; Expiration Dates

Sec. 9. (a) When an applicant has satisfactorily met all requirements and conditions of this Act, a license shall be issued which may remain in force and effect so long as the holder of the license remains in compliance with the obligations of this Act, which include payment of the annual certification fee as provided in Section 11 of this Act. Each
salesman license issued shall be delivered or mailed to the broker with whom the salesman is associated and shall be kept under his custody and control.

(b) An applicant is not permitted to engage in the real estate business either as a broker or salesman until a license evidencing his authority to engage in the real estate business has been received.

(c) The commission by rule may adopt a system under which licenses expire on various dates during the year. Dates for payment of the annual certification fee shall be adjusted accordingly. For the year in which the certification date is changed, annual certification fees payable shall be prorated on a monthly basis so each licensee shall pay only that portion of the license fee which is allocable to the number of months during which the license is valid. On certification of the license on the new certification date, the total annual certification fee is payable.

(d) Any other provision of this Act notwithstanding, the commission may issue licenses valid for a period not to exceed 24 months and may charge and collect certification fees for such period; provided, however, that such certification fees shall not, calculated on an annual basis, exceed the amounts established in Section 11 of this Act, and further provided that the educational conditions for annual certification established in Subsection (d) of Section 11 of this Act shall not be waived by the commission.

Refusal to Issue License; Review

Sec. 10. If the commission declines or fails to license an applicant, it shall immediately give written notice of the refusal to the applicant. Before the applicant may appeal to a district court as provided in Section 18 of this Act, he must file within 10 days after the receipt of the notice an appeal from the ruling, requesting a time and place for a hearing before the commission. The commission shall set a time and place for the hearing within 30 days from the receipt of the appeal, giving 10 days' notice of the hearing to the applicant. The time of the hearing may be continued from time to time with the consent of the applicant. Following the hearing, the commission shall enter an order which is, in its opinion, appropriate in the matter concerned.

If an applicant fails to request a hearing as provided in this section, the commission's ruling shall become final and not subject to review by the courts.

Fees

Sec. 11. The commission shall charge and collect the following fees:

(1) a fee not to exceed $100 for the filing of an original application for real estate broker licensure;

(2) a fee not to exceed $100 for annual certification of real estate broker licensure status;

(3) a fee not to exceed $50 for the filing of an original application for salesman licensure;

(4) a fee not to exceed $50 for annual certification of real estate salesman licensure status;

(5) a fee not to exceed $25 for taking a license examination;

(6) a fee not to exceed $10 for filing a request for a license for each additional office or place of business;

(7) a fee not to exceed $20 for filing a request for a license for a change of place of business or change of sponsoring broker;

(8) a fee not to exceed $10 for filing a request to replace a license lost or destroyed;

(9) a fee not to exceed $400 for filing an application for approval of a real estate course pursuant to the provisions of Subsection (f) of Section 7 of this Act; and

(10) a fee not to exceed $200 per annum for and in each year of operation of a real estate course, established pursuant to the provisions of Subsection (f) of Section 7 of this Act.

Maintenance and Location of Offices; Display of License

Sec. 12. (a) Each resident broker shall maintain a fixed office within this state. The address of the office shall be designated on the broker's license. Within 10 days after a move from a previously designated address, the broker shall submit an application for a new license, designating the new location of his office, together with the required fee, whereupon the commission shall issue a license, reflecting the new location, provided the new location complies with the terms of this section.

(b) If a broker maintains more than one place of business within this state, he shall apply for, pay the required fee for, and obtain an additional license to be known as a branch office license for each additional office he maintains.

(c) The license or licenses of the broker shall at all times be prominently displayed in the licensee's place or places of business.

(d) Each broker shall also prominently display in his place or in one of his places of business the license of each real estate salesman associated with him.

Inactive Licenses

Sec. 13. (a) When the association of a salesman with his sponsoring broker is terminated, the broker shall immediately return the salesman license to the commission. The salesman license then becomes inactive.

(b) The salesman license may be activated if, before the license expires, a request, accompanied by the required fee, is filed with the commission by a

licensed broker advising that he assumes sponsor-
ship of the salesman.

Unlawful Employment or Compensation: Nonresident License

Sec. 14. (a) It is unlawful for a licensed broker to employ or compensate directly or indirectly a person for performing an act enumerated in the definition of real estate broker in Section 2 of this Act if the person is not a licensed broker or licensed salesman in this state or an attorney at law licensed in this state or in any other state. However, a licensed broker may pay a commission to a licensed broker of another state if the foreign broker does not conduct in this state any of the negotiations for which the fee, compensation, or commission is paid.

(b) A resident broker of another state who furnishes the evidence required in Subsection (b) of Section 7 of this Act may apply for a license as a broker in this state. A nonresident licensee need not maintain a place of business in this state. The commission may in its discretion refuse to issue a broker license to an applicant who is not a resident of this state for the same reasons that it may refuse to license a resident of this state.

(c) Each nonresident applicant shall file an irrevocable consent that legal actions may be commenced against him in the proper court of any county of this state in which a cause of action may arise, or in which the plaintiff may reside, by service of process or pleading authorized by the laws of this state, or by serving the administrator or assistant administrator of the commission. The consent shall stipulate that the service of process or pleading shall be valid and binding in all courts as if personal service had been made on the nonresident broker in this state. The consent shall be duly acknowledged, and if made by a corporation, shall be authenticated by its seal. A service of process or pleading served on the commission shall be by duplicate copies, one of which shall be filed in the office of the commission and the other forwarded by registered mail to the last known principal address which the commission has for the nonresident broker against whom the process or pleading is directed. No default in an action may be taken except on certification by the commission that a copy of the process or pleading was mailed to the defendant as provided in this section, and no default judgment may be taken in an action or proceeding until 20 days after the day of mailing of the process or pleading to the defendant.

Notwithstanding any other provision of this subsec-
tion, a nonresident of this state who resides in a city whose boundaries are contiguous at any point to the boundaries of a city of this state, and who has been an actual bona fide resident of that city for at least 60 days immediately preceding the filing of his application, is eligible to be licensed as a real estate broker or salesman under this Act in the same manner as a resident of this state. If he is licensed in this manner, he shall at all times maintain a place of business either in the city in which he resides or in the city in this state which is contiguous to the city in which he resides, and he may not maintain a place of business at another location in this state unless he also complies with the requirements of Section 14(b) of this Act. The place of business must satisfy the requirements of Subsection (a) of Section 12 of this Act, but the place of business shall be deemed a definite place of business in this state within the meaning of Subsection (a) of Section 12.

Investigations; Suspension or Revocation of License; Civil or Criminal Liability

Sec. 15. The commission may, on its own motion, and shall, on the verified complaint in writing of any person, provided the complaint, or the complaint together with evidence, documentary or otherwise, presented in connection with the complaint, provides reasonable cause, investigate the actions and records of a real estate broker or real estate salesman. The commission may suspend or revoke a license issued under the provisions of this Act at any time when it has been determined that:

(1) (A) the licensee has entered a plea of guilty or nolo contendere to, or been found guilty of, or been convicted of, a felony, in which fraud is an essential element, and the time for appeal has elapsed or the judgment or conviction has been affirmed on appeal, irrespective of an order granting probation following such conviction, suspending the imposition of sentence; or

(B) a final money judgment has been rendered against the licensee resulting from contractual obligations of the licensee incurred in the pursuit of his business, and such judgment remains unsatisfied for a period of more than six months after becoming final; or

(2) the licensee has procured, or attempted to procure, a real estate license, for himself or a sales-
man, by fraud, misrepresentation or deceit, or by making a material misstatement of fact in an applic-
ation for a real estate license; or

(3) the licensee, when selling, buying, trading, or renting real property in his own name, engaged in misrepresentation or dishonest or fraudulent action; or

(4) the licensee has failed within a reasonable time to make good a check issued to the commission after the commission has mailed a request for payment by certified mail to the licensee's last known business address as reflected by the commission's records; or

(5) the licensee has disregarded or violated a pro-
vision of this Act; or

(6) the licensee, while performing an act constitut-
ing an act of a broker or salesman, as defined by this Act, has been guilty of:

(A) making a material misrepresentation, or fail-
ing to disclose to a potential purchaser any latent structural defect or any other defect known to the
broker or salesman. Latent structural defects and other defects do not refer to trivial or insignificant defects but refer to those defects that would be a significant factor to a reasonable and prudent purchaser in making a decision to purchase; or

(B) making a false promise of a character likely to influence, persuade, or induce any person to enter into a contract or agreement when the licensee could not or did not intend to keep such promise; or

(C) pursuing a continued and flagrant course of misrepresentation or making of false promises through agents, salesmen, advertising, or otherwise; or

(D) failing to make clear to all parties to a transaction, which party he is acting for, or receiving compensation from more than one party except with the full knowledge and consent of all parties; or

(E) failing within a reasonable time properly to account for or remit money coming into his possession which belongs to others, or commingling money belonging to others with his own funds; or

(F) paying a commission or fees to or dividing a commission or fees with anyone not licensed as a real estate broker or salesman in this state, in any other state, or not an attorney at law licensed in this state or any other state, for compensation for services as a real estate agent; or

(G) failing to specify in a listing contract a definite termination date which is not subject to prior notice; or

(H) accepting, receiving, or charging an undisclosed commission, rebate, or direct profit on expenditures made for a principal; or

(I) soliciting, selling, or offering for sale real property under a scheme or program that constitutes a lottery or deceptive practice; or

(J) acting in the dual capacity of broker and undisclosed principal in a transaction; or

(K) guaranteeing, authorizing, or permitting a person to guarantee that future profits will result from a resale of real property; or

(L) placing a sign on real property offering it for sale, lease, or rent without the written consent of the owner or his authorized agent; or

(M) inducing or attempting to induce a party to a contract of sale or lease to break the contract for the purpose of substituting in lieu thereof a new contract; or

(N) negotiating or attempting to negotiate the sale, exchange, lease, or rental of real property with an owner or lessor, knowing that the owner or lessor had a written outstanding contract, granting exclusive agency in connection with the property to another real estate broker; or

(O) offering real property for sale or for lease without the knowledge and consent of the owner or his authorized agent, or on terms other than those authorized by the owner or his authorized agent; or

(b) Notwithstanding the provisions of this Act or any other law, the completion of contract forms which bind the sale, exchange, option, lease, or rental of any interest in real property by a real estate broker or salesman incident to the performance of the acts of a broker as defined by this article does not constitute the unauthorized or illegal practice of law in this state, provided the forms have been promulgated for use by the Texas Real Estate Commission for the particular kind of transaction involved, or the forms have been prepared by an attorney at law licensed by this state and approved by said attorney for the particular kind of transaction involved, or the forms have been prepared by the property owner or prepared by an attorney and required by the property owner.

(c) A Texas Real Estate Broker-Lawyer Committee is hereby created which, in addition to other powers and duties delegated to it, shall draft and revise contract forms capable of standardization for use by real estate licensees and which will expedite real estate transactions and reduce controversies to a minimum while containing safeguards adequate to protect the interests of the principals to the transaction.

For the purpose of this section, contract forms prepared by the Texas Real Estate Broker-Lawyer Committee appointed by the commission and the State Bar of Texas and promulgated by the commission prior to the effective date of this Act shall be deemed to have been prepared by the Texas Real Estate Broker-Lawyer Committee. (d) If a hearing relating to the denial, suspension, or revocation of a license under this Act is conducted by the administrator or assistant administrator, the applicant for the license or the licensee who is adversely affected by the decision of the administrator or assistant administrator is entitled to request a rehearing by the commission itself on making a timely motion for the rehearing.

Sec. 2. In areas under a city's extraterritorial jurisdiction as defined by Subsections A, B, and C, Section 3, Chapter 160, Acts of the 58th Legislature, 1963 (Article 2372k, Vernon's Texas Civil Statutes), no plat shall be filed with the county clerk without the authorization of both the city and the county. Inside said extraterritorial jurisdiction the city shall have independent authority to regulate subdivisions under Chapter 160, Acts of the 55th Legislature, 1957 (Article 6626a, Vernon's Texas Civil Statutes), and Chapter 231, Acts of the 49th Legislature, Regular Session, 1927 (Article 974a, Vernon's Texas Civil Statutes), and other statutes applicable to cities; and the county shall have independent authority to regulate subdivisions under Chapter 436, Acts of the 55th Legislature, Regular Session, 1957 (Article 6626a, Vernon's Texas Civil Statutes), and other statutes applicable to counties. Inside said extraterritorial jurisdiction whenever such city regulations conflict with such county regulations, the more stringent provisions of such regulations shall govern; and in unincorporated areas outside said extraterritorial jurisdiction a city shall have no authority to regulate subdivisions or to authorize the filing of plats, except as provided by The Interlocal Cooperation Act (Article 4413(32c), Vernon's Texas Civil Statutes).

Section 5 of the 1983 Act provides:

"Chapter 436, Acts of the 55th Legislature, Regular Session, 1957 (Article 6626a, Vernon's Texas Civil Statutes), and Articles 6626aa, 6626a.1, and 6626a.2, Revised Statutes, as amended or added by this Act, and all other laws, statutes, and ordinances promulgated by and within a reasonable time as may be allowed by the Commissioners Court of the county, apply to a subdivision of land for which a plat was filed on or after September 1, 1983 or from which one or more lots was conveyed by a metes and bounds description and for which no subdivision plat was filed before September 1, 1983. The prior laws and requirements are continued in effect for this purpose as if this Act were not in force."

added by this Act, and the requirements adopted under the amend-
red or added laws apply to a subdivision of land for which a plat is
filed on or after September 1, 1983. Chapter 436, Acts of the 56th
Legislature, Regular Session, 1957 (Article 6626a, Vernon's Texas
Civil Statutes), and Chapter 151, Acts of the 52d Legislature,
Regular Session, 1933 (Article 2372k, Vernon's Texas Civil Stat-
utes), as they existed immediately before September 1, 1983, and
the requirements adopted under those prior laws, apply to a
subdivision of land for which a plat was filed before September 1,
1983 or from which one or more lots was conveyed by a metes
and bounds description and for which no subdivision plat was filed
before September 1, 1983. The prior laws and requirements are
continued in effect for this purpose as if this Act were not in
force.  

Art. 6626a.1. Optional System of Subdivision
Control for Certain Counties

Sec. 1. (a) This article applies to each county:

(1) that has a population of more than 2.2 million
or is contiguous with a county with a population of
more than 2.2 million, according to the most recent
federal census; and

(2) in which the commissioners court by order
elects to operate under this article.

(b) The owner of any tract of land located outside
the corporate limits and extraterritorial jurisdiction
of any city in the state who divides the land in two
or more parts for the purpose of laying out any
subdivision of any such tract of land or an addition,
for the purpose of laying out suburban lots or
building lots, and for the purpose of laying out
streets, squares, alleys, parks, or other portions
intended for public use or for the use of purchasers
or owners of lots fronting thereon or adjacent thereto,
shall cause a plat to be made. The plat shall
accurately describe all of the subdivision or addition
by metes and bounds and locate the subdivision or
addition with respect to an original corner of the
original survey of which it is a part. The plat shall
give the dimensions of the subdivision or addition
and the dimensions of all lots, streets, alleys, parks,
or other portions intended to be dedicated to public
use or for the use of purchasers or owners of lots
fronting thereon or adjacent thereto. However, a
plat of any subdivision of any tract of land or any
addition may not be recorded unless it accurately
describes all of the subdivision or addition by metes
and bounds and locates the same with respect to an
original corner of the original survey of which it is a
part and gives the dimensions of the subdivision or
addition and dimensions of all streets, alleys,
squares, parks, or other portions intended to be
dedicated to public use or for the use of purchasers
or owners of lots fronting thereon or adjacent thereto.

Sec. 2. The plat shall be duly acknowledged by
the owners or proprietors of the land or by some
duly authorized agent of the owners or proprietors
in the manner required for acknowledgement of
deeds. The plat, subject to the provisions contained
in this article, shall be filed for record and be
recorded in the office of the county clerk of the
county in which the land lies.

Sec. 3. The commissioners court of the county
may, by an order adopted and entered on the min-
utes of the court and after publishing a notice in a
newspaper of general circulation in the county, es-
tablish requirements:

(1) to provide for a right-of-way on main artery
streets or roads within the subdivision or addition of
a width of not less than 50 feet nor more than 100
feet;

(2) to provide for a right-of-way on all other
streets or roads in the subdivision or addition of not
less than 40 feet nor more than 50 feet;

(3) to provide that the street cut on main arteries
within the right-of-way be not less than 30 feet nor
more than 45 feet;

(4) to provide for the street cut on all other
streets or roads within the subdivision or addition
within the right-of-way to be not less than 25 feet
nor more than 35 feet;

(5) to promulgate reasonable specifications to be
followed in the construction of any roads or streets
within the subdivision or addition, considering the
amount and kind of travel over the streets;

(6) to promulgate reasonable specifications to
provide adequate drainage in accordance with stan-
dard engineering practices for all roads or streets in
the subdivision or addition; and

(7) to require the owner or owners of any tract of
land that may be so divided to give a good and
sufficient bond for the proper construction of the
roads or streets affected, with such sureties as may
be approved by the court. If a surety bond by a
 corporative surety is required, the bond shall be
executed by a surety company authorized to do busi-
ness in this state. The bond shall be made payable
to the county judge, or his successor in office, of
the county in which the subdivision or addition lies and
shall be conditioned that the owner or owners of the
tract of land to be divided will construct any roads
or streets within the subdivision or addition in ac-
cordance with the specifications promulgated by the
commissioners court of the county. The bond shall
be in an amount as may be determined by the
commissioners court not to exceed the estimated
cost of constructing the roads or streets.

Sec. 4. The commissioners court of the county
may refuse to approve and authorize any map or
plat of a subdivision or addition unless the map or
plat meets the requirements as set forth in this
article and unless there is submitted at the time of
approval of the map or plat any bond required by
this article.

[Acts 1983, 68th Leg., p. 1721, ch. 327, § 4, eff. Sept. 1,
1983.]

Section 5 of the 1983 Act provides:

"Chapter 436, Acts of the 56th Legislature, Regular Session,
1957 (Article 6626a, Vernon's Texas Civil Statutes), and Articles
6626a, 6626a.1, and 6626a.2, Revised Statutes, as amended
or added by this Act, and the requirements adopted under the amend-
ed or added laws apply to a subdivision of land for which a plat is

Chapter 436, Acts of the 55th Legislature, Regular Session, 1957 (Article 6626a, Vernon's Texas Civil Statutes), and Chapter 151, Acts of the 63rd Legislature, Regular Session, 1951 (Article 4413(32c), Vernon's Texas Civil Statutes), as they existed immediately before September 1, 1983, and the requirements adopted under those prior laws, apply to a subdivision of land for which a plat was filed before September 1, 1983 or from which one or more lots was conveyed by a metes and bounds description and for which no subdivision plat was filed before September 1, 1983. The prior laws and requirements are continued in effect for this purpose as if this Act were not in force."

Art. 6626a.2. Subdivisions in Municipal Extra-territorial Jurisdiction

Sec. 1. This article applies only to counties operating under Article 6626a.1, Revised Statutes.

Sec. 2. In areas under a city's extraterritorial jurisdiction as defined by Section 3, Municipal Annexation Act (Article 970a, Vernon's Texas Civil Statutes), a subdivision plat may not be filed with the county clerk without the authorization of the city. Inside the extraterritorial jurisdiction, the city has exclusive authority to regulate subdivisions under the Municipal Annexation Act (Article 970a, Vernon's Texas Civil Statutes), under Chapter 231, Acts of the 40th Legislature, Regular Session, 1927 (Article 974a, Vernon's Texas Civil Statutes), and under other statutes applicable to cities. In unincorporated areas outside the extraterritorial jurisdiction, a city does not have authority to regulate subdivisions or to authorize the filing of plats, except as provided by The Interlocal Cooperation Act (Article 4413(32c), Vernon's Texas Civil Statutes).

Section 5 of the 1983 Act provides:

"Chapter 436, Acts of the 55th Legislature, Regular Session, 1957 (Article 6626a, Vernon's Texas Civil Statutes), and Articles 6626a, 6626a-1, and 6626a-2, Revised Statutes, as amended or added by this Act, and the requirements adopted under the amended or added laws apply to a subdivision of land for which a plat is filed on or after September 1, 1983. Chapter 436, Acts of the 55th Legislature, Regular Session, 1957 (Article 6626a, Vernon's Texas Civil Statutes), and Chapter 151, Acts of the 63rd Legislature, Regular Session, 1951 (Article 4413(32c), Vernon's Texas Civil Statutes), as they existed immediately before September 1, 1983, and the requirements adopted under those prior laws, apply to a subdivision of land for which a plat was filed before September 1, 1983 or from which one or more lots was conveyed by a metes and bounds description and for which no subdivision plat was filed before September 1, 1983. The prior laws and requirements are continued in effect for this purpose as if this Act were not in force."

Acts 1983, 68th Leg., ch. 576, repealing this article, enacts the Property Code. For disposition of the subject matter of the repealed article, see Disposition Table preceding the Property Code.

Art. 6626c. Recording Maps or Plats of Subdivisions of Real Estate

Sec. 1. No party shall file for record or have recorded in the official records in the County Clerk's office any map or plat of a subdivision or resubdivision of real estate without first securing approval therefor as may be provided by law, and no party so subdividing or resubdividing any real estate shall use the subdivision's or resubdivision's description in any deed of conveyance or contract of sale delivered to a purchaser unless and until the map and plat of such subdivision or resubdivision shall have been duly authorized as aforesaid and such map and plat thereof has actually been filed for record with the Clerk of the County Court of the county in which the real estate is situated.

Sec. 2. Any party violating any provision of Section 1 of this Act shall be guilty of a misdemeanor and upon conviction thereof shall be fined in a sum not less than Ten Dollars ($10.00) nor more than Five Hundred Dollars ($500.00), or confined in the county jail not exceeding ninety (90) days, or both fine and imprisonment, and each act of violation shall constitute a separate offense, and in addition to the above penalties any violation of the provisions of Section 1 of this Act shall constitute prima facie evidence of an attempt to defraud.

[Acts 1983, 68th Leg., p. 266, ch. 169.]
application is granted as hereinafter provided, the owner or owners of said land shall be permitted to pay such delinquent taxes upon an acreage basis, the same as if said lands had not been subdivided, and for the purpose of assessing lands for such preceding years the county assessor of taxes shall back assess such lands upon an acreage basis. This law shall not apply to any lands or lots included in an incorporated city or town or subject to the extraterritorial jurisdiction thereof.

(b) Upon application of the owner or owners of 75 percent of the land area in any subdivision or phase or identifiable subdivision thereof or other lands to which this article may apply for cancellation of such subdivision or of such phase or identifiable subdivision thereof, including cancellation of dedicated roadways or easements, the commissioners court shall issue an order authorizing such cancellation in the manner provided for in Subsection (a) hereof, after notice and hearing as therein provided. Provided, however, that upon the receipt of written objection to cancellation by the owners of 10 percent of the land area affected by the application, the grant of an order of cancellation shall be at the discretion of the commissioners court.

c) No person who does not own a lot or portion of a subdivision directly abutting upon that portion or a roadway or easement canceled under the provisions of this article may maintain an action to enjoin the cancellation or closing of such roadway or easement, and no person owning a lot or portion within a subdivision canceled in whole or in part under the provisions of this article may maintain an action to enjoin the cancellation or closing of such roadway or easement other than that which leads from the lot or portion of the subdivision owned by him to the nearest remaining public highway or county road or access thereto or to any uncanceled common amenity of the subdivision by the most direct feasible route. Any person who appears before the commissioners court to protest the cancellation of a subdivision or any portion thereof may maintain an action for damages against the persons making application for cancellation and may recover as damages an amount not to exceed the amount of the original purchase price of the lands in the canceled subdivision or canceled portion thereof owned by the person protesting such cancellation, provided, however, that any such action for damage must be brought within one year of the date of the entry of the order of the commissioners court.

Sections 6 and 7 of the 1983 amendatory act provide:

"Sec. 6. If any provision of this Act or the application thereof to any person or circumstance is held to be invalid, such invalidity shall not affect the other provisions or applications of this Act which can be given effect without the invalid provision or application, and to this end the provisions of this Act are declared to be severable.

"Sec. 7. The provisions of this Act shall apply to all cases, at law or in equity, now pending in the courts of this state."

Art. 6663. Department

(a) The name of the State Highway Department is changed to the State Department of Highways and Public Transportation. The name of the State Highway Commission is changed to the State Highway and Public Transportation Commission. The name of the State Highway Engineer is changed to the State Engineer-Director for Highways and Public Transportation. Any reference in law to the State Highway Department or Texas Highway Department shall be construed as meaning the State Department of Highways and Public Transportation. A reference in law to the State Highway Engineer shall be construed as meaning the State Engineer-Director for Highways and Public Transportation.

(b) The administrative control of the State Department of Highways and Public Transportation, hereinafter called the Department, shall be vested in the State Highway and Public Transportation Commission, hereinafter called the Commission, and the State Engineer-Director for Highways and Public Transportation. Said Department shall have its office at Austin where all its records shall be kept.

(c) The State Department of Highways and Public Transportation is hereby authorized to photograph, microphotograph, or film all records of any kind or character pertaining to departmental operations; and the Texas Department of Public Safety is hereby authorized to photograph, microphotograph, or film all records in connection with the issuance of operators' licenses, chauffeurs' licenses, and commercial operators' licenses and all records of the various divisions of the Texas Department of Public Safety, with the exception that no original fingerprint card or any evidence submitted in connection with a criminal case or any confession or statement made by the defendant in a criminal case shall be photographed or filmed for the purpose of disposing of the original records, and that whenever the State Department of Highways and Public Transportation or the Texas Department of Public Safety shall

Duly certified or authenticated copies of such photographs or microphotographs or films shall be admitted in evidence equally with the original photographs or microphotographs or films.

Sec. 2a. The State Engineer-Director of the State Department of Highways and Public Transportation, and the Director of the Texas Department of Public Safety, or their duly authorized representatives are hereby authorized to certify to the authenticity of any photograph or microphotograph herein authorized and shall make such changes therefor as may be authorized by law. Such certified records shall be furnished to any person who is entitled to receive the same under the law.

Sec. 3. If any section, subsection, sentence, clause or phrase of this Act is for any reason held unconstitutional, the unconstitutionality thereof shall not affect the validity of the remaining portion of this Act. The Legislature hereby declares that it would have passed this Act and each section, subsection, sentence, clause, and phrase thereof, irrespective of the fact that one or more of the sections, subsections, sentences, clauses or phrases be declared unconstitutional.

Section 3 of the 1979 amendatory act provided:

"All laws and parts of laws in conflict herewith are hereby repealed to the extent of such conflict only."

Art. 6663b. Mass Transportation

Sec. 1. (a) The State Department of Highways and Public Transportation:

(1) may purchase, construct, lease, and contract for public transportation systems in the state;

(2) shall encourage, foster, and assist in the development of public and mass transportation, both intracity and intercity, in this state;

(8) may apply for and receive gifts and grants from governmental and private sources to be used in carrying out its function under this Act;

Sec. 2. On the effective date of this Act, all programs, contracts, assets, and personnel of the Texas Mass Transportation Commission are transferred to the State Department of Highways and Public Transportation. The comptroller of public accounts and the State Board of Control shall assist in the orderly implementation of this transfer.

Sections 3 and 4 of the 1975 Act amended arts. 6663 and 6669; § 5 thereof repealed art. 4413(34) creating the Mass Transportation Commission.
Art. 6663c. Administration and Funding of Mass Transportation

Findings and Purpose

Sec. 1. (a) The legislature finds that:

1. transportation is the lifeblood of an urbanized society, and the health and welfare of that society depend on the provision of efficient, economical, and convenient transportation within and between urban areas;

2. public transportation is an essential component of the state's transportation system;

3. energy consumption and economic growth are vitally influenced by the availability of public transportation;

4. providing public transportation has become so financially burdensome that private industry can no longer provide service in many areas in the state and that the continuation of this essential service on a private or proprietary basis is threatened; and

5. providing public transportation is a public, governmental responsibility and a matter of direct concern to state government and to all the citizens of the state.

Sec. 1. (a) Whenever the State Highway Commission determines that any real property, or interest therein, heretofore or hereafter acquired by the State for highway purposes, is no longer needed for such purposes, and in the case of highway right-of-way it has further determined that such right-of-way is no longer needed for use of citizens as a road, the State Highway Commission may recommend to the Governor that such land or interest therein be sold, and the Governor may execute a proper deed conveying all the State's rights, title and interest in such land. It shall be the duty of the Commission to determine the fair and reasonable value of the State's interest in such land and to advise the Governor thereof. All money derived from such sales shall be deposited in the State Treasury to the credit of the State Highway Fund. Provided further, that where right-of-way property owned by the State was acquired by a city or county and the State Highway Commission determines that
said right-of-way property should be sold, such property shall be sold with the following priorities:

1. To abutting or adjoining landowners;
2. To original grantors, heirs or assigns of the original tract from whence the right-of-way was conveyed; or

1. If title to the State was acquired by donation, convey to the grantor, his heirs or assigns; or if acquired by purchase by a county or city, convey to the county or city, or to the grantor, his heirs or assigns at the request of the county or city.

2. If the rights and interests conveyed to the State consist only of the right to use such property, and title is not held by the State, convey the State’s rights and interests to the owner of the fee in said property.

3. If title or any interest in such property was acquired and held by a county or city in its own name for use by the State, quitchain to the county or city any interest of the State which might accrue from the State’s use of the property; or if there is no record title to such property, quitchain the State’s interests, which might accrue from its use of the property, to the county or city wherein such land is located, or to abutting property owners at the request of the county or city.

If property has been acquired by or for the State for use as an approach-way to an urban freeway, but, within 12 months after acquisition, the Commission has determined that, due to relocation of the approach-way, the property is not needed for highway purposes, reconvey the property to the grantor from whom it was acquired by or for the State, or to his heirs, successors, or assigns. The sale price shall be the same as the purchase price paid by or for the State, plus six percent interest per annum from the date of that payment by or for the State. When the Commission determines that the property is not needed for highway purposes, it shall give written notice of that determination to the grantor. The notice shall be mailed to the grantor at his address as of the time of acquisition. Within two years after the notice is mailed, the grantor, his heirs, successors, or assigns may request in writing that the State reconvey the property to them. If at the expiration of the two-year period, no such request has been received by the Commission, the State may then dispose of the property at public sale.

Correction of Error or Ambiguity

Sec. 2. In all cases where there is an ambiguity or an error in any instrument by which title to, or any right or interest in, any real property is or has been conveyed to the State of Texas for highway right-of-way purposes because the metes and bounds description of said property is incomplete or incorrect, or for any other reason, and such ambiguity or error is of sufficient consequence to raise doubt as to the location or extent of the property conveyed thereby, or results in the acquisition of land or an interest in land not intended to be included therein and not needed for highway purposes, the Governor of this State, upon receipt of a recommendation from the State Highway Commission that he so do, shall execute and deliver, in the name of the State of Texas, a quit claim deed, correction deed or other conveyance deemed necessary to rectify and resolve any such ambiguity or error.

In the event that State Highway Commission 1 has, on a date prior to January 2, 1939, recorded a conditional designation, and all conditions precedent to the official designation thereof have been met or performed in a manner satisfactory and acceptable to the Highway Commission, and the Highway Commission officially enters of record its acceptance and designation of such road as a part of the State Highway System for maintenance, then the provisions of this Act shall apply as if the said roads had been actually designated prior to January 2, 1939.

All bonds, warrants, or other legal evidences of indebtedness outstanding as of the date of the designation hereinafter referred to, and issued by a county or defined road district prior to January 2, 1939, insofar as amounts of same were issued and the proceeds actually expended in the construction of roads that have been officially designated as a part of the State Highway System subsequent to January 2, 1939, shall be eligible to participate in the distribution of the moneys coming into said County and Road District Highway Fund as of the date of designation of said road as a part of the State Highway System. The amount of such bonds, warrants, or other legal evidences of indebtedness outstanding as of the date of designation of such road as a part of the State Highway System, shall be eligible for participation in the same manner as provided for other bonds under this Act.

In addition to and regardless of the other provisions of this Act, all bonds, warrants or other legal evidences of indebtedness voted or issued without being voted by a county, road district or defined road district prior to January 2, 1939, insofar as amounts of same were or may be issued and the
proceeds actually expended in the construction of roads which are now a part of the designated System of State Highways, shall be eligible to participate in the distribution of the moneys coming into said County and Road District Highway Fund the same as provided for other bonds under this Act, and as of the date of the designation of said road as a part of the State Highway System; and where such bonds or warrants were voted prior to January 2, 1939, and prior to the designation of the road as a State Highway and which have not yet been issued or expended, the county or defined road district may issue such bonds or warrants or other legal evidence of indebtedness and place the proceeds in escrow with the State Highway Commission for the construction of such road under plans, contracts, specifications and supervision of the State Highway Department, and when so expended the bonds, warrants, or other evidences of indebtedness shall be eligible to participate in the County and Road District Highway Fund the same as if the bonds had been issued and expended prior to January 2, 1939. Provided, further, that all such bonds or warrants to be hereafter sold pursuant to this paragraph by a county or defined road district which will be eligible for participation in the County and Road District Highway Fund under the provisions of this Section, shall be sold subject to the approval of the Board of County and District Road Indebtedness, as to amounts, maturities and interest rates.

Administration of Act

(b) The Board of County and District Road Indebtedness, created by Chapter 13, Acts of the Third Called Session of the 42nd Legislature, consisting of the State Highway Engineer, State Comptroller of Public Accounts, and State Treasurer, is hereby continued and charged with the duties of administering this Act. The State Comptroller of Public Accounts shall be the Secretary of said Board and said Board shall elect its own chairman from its membership. The Board shall adopt its own rules consistent with this Act for the proceedings held hereunder, and shall have authority to call to its assistance, in arriving at the amount of bonds, warrants, or other evidences of indebtedness eligible to participate in the County and Road District Highway Fund, any official or employee of this state, and shall avail itself of all data and information assembled in the administration of Chapter 13, Acts of the Third Called Session of the 42nd Legislature, and said Board is hereby authorized to call on any County Judge or any county or state official or employee, and shall have full access to all the records, books, and public documents for the purpose of obtaining any information which it may deem necessary and pertinent to its inquiry in arriving at the amount of bonds, warrants, or other evidences of indebtedness eligible to participate in the County and Road District Highway Fund.

2 Name changed to State Engineer-Director for Highways and Public Transportation; see art. 6666.

Application of Sunset Act

(b-1) The Board of County and District Road Indebtedness is subject to the Texas Sunset Act; and unless continued in existence as provided by that Act the board is abolished, and this Act expires effective September 1, 1979.

1 Article 6429k.

Determination of Amount of Eligible Indebtedness

(c) It shall be the duty of the Board of County and District Road Indebtedness, from the data and information furnished by the County Judges of the state, and by the Chairman of the State Highway Commission and by the State Comptroller of Public Accounts, and from such further investigation as said Board may deem necessary to ascertain and determine the amount of indebtedness eligible under the provisions of this Section of this Act to participate in the moneys coming into said County and Road District Highway Fund. Whenever, in the case of any particular issue of obligations, the proceeds thereof shall have been expended partly on designated State Highways, or highways heretofore constituting designated State Highways, and partly on roads which never have been designated State Highways, said Board shall ascertain and determine the amount of said obligations, the proceeds of which were actually expended on State Highways or on roads heretofore constituting designated State Highways, and said obligations to said amount and extent shall be eligible for participation in the moneys coming into said County and Road District Highway Fund. Whenever, in the case of any particular issue of obligations, the proceeds thereof shall have been expended partly on designated State Highways, or highways heretofore constituting designated State Highways, and partly on roads which never have been designated State Highways, said Board shall ascertain and determine the amount of said obligations, the proceeds of which were actually expended on State Highways or on roads heretofore constituting designated State Highways, and said obligations to said amount and extent shall be eligible for participation in the moneys coming into said County and Road District Highway Fund; and said ascertainment and determination shall be certified to the County Judge by said Board and all of the unmatured outstanding obligations of said issue shall ratably have the benefit of said participation in said moneys. The ascertainment and determination by the Board of County and District Road Indebtedness, after reasonable notice and hearing, of the amount of any county or defined road district obligations eligible under the provisions of this Act to participate in the moneys coming into the County and Road District Highway Fund, or as to the amount of any obligations the proceeds of which were actually expended on State Highways, or on roads heretofore constituting State Highways, shall be final and conclusive and shall not be subject to review in any other tribunal. But said Board of County and District Road Indebtedness shall have the right at any time to correct any errors or mistakes it may have made.

Records

(d) The Board shall make and keep a record of all county and defined road district eligible obligations,
issue by issue, and a book shall be prepared and
kept in which shall be recorded all eligible issues,
notary bonds of principal and interest, rates of
interest, and places of payment for each county and
each defined road district. Each issue and the date
pertaining to same shall be listed separately. The
Board shall keep a record of all vouchers issued.

Separate Accounts

(e) The State Treasurer shall keep a separate
account for each county and defined road district of
any moneys received for the credit of said county or
defined road district pursuant to the provisions
hereof.

Lists Showing Eligible Indebtedness

(f) A list shall be compiled by the Board of Coun-
ty and District Road Indebtedness showing the
amount ascertained and determined by it to be
eligible indebtedness of each county and defined
road district, and a copy thereof shall be furnished
to each County Judge in this state.

Annual Estimates of Sums Necessary

(g) From year to year, and not later than July
15th of each year, said Board shall ascertain and
determine the sum necessary to pay the interest,
principal and sinking fund requirements on all eligi-
ble obligations for the next succeeding calendar
year, and shall estimate the sum which shall be
applicable to the same, and shall not later than
August 1st of each year, give notice to the County
Judge of each county of the estimated amount avail-
able for application to said interest, principal, and
sinking fund requirements. In the event the amount
so estimated to be applied to the payment of eligi-
bly obligations for any county or defined road
district is sufficient to meet all maturing interest,
principal, and sinking fund requirements, the Com-
missioners Court may dispense with the collection
of ad valorem levies for such calendar and/or fiscal
year for such interest, principal, or sinking fund
requirements. In the event the amount so estimated to
be applied is not sufficient to meet the maturing
interest, principal, and sinking fund requirements,
the Commissioners Court shall collect from taxes on
the property in said respective counties and defined road
districts, an amount of money equal to the difference
between the amount of such requirements and the
amount available for application. In this connection
it is declared to be the intent of the Legislature that
all contractual duties and obligations which may
exist between any county and/or defined road
district and the owner or holder of the present out-
standing indebtedness or any county and/or defined
road district, shall not be in any manner disturbed
or impaired and shall remain inviolate. Any tax
herefore provided to be levied in support of any
present outstanding indebtedness affected by the
provisions of this Act shall continue to be assessed,
levied, and collected as originally provided; how-
ever, the collection of said tax may, by order of the
Commissioners Court, be lessened and reduced by
the payments made, and to be made, thereon and in
behalf of such indebtedness out of the County and
Road District Highway Fund, as herein provided,
and as succeeding Legislatures shall, by appropria-
tion, make provisions therefor. The entire proceeds
of all taxes collected on any eligible issue of bonds
shall be remitted by the County Treasurer of each
county collecting the same, together with a state-
ment of the amount collected, to the State Treasurer,
and shall be held by the State Treasurer as ex-officio
Treasurer of said county or defined road
district for the benefit of the county or defined road
district remitting the same, and be disbursed to
meet the interest, principal, and sinking fund re-
quirements on the eligible obligations of said county
or defined road district.

In the event the amount of funds available to be
applied to meet the maturing interest, principal, and
sinking fund requirements in any calendar or fiscal
year is not sufficient to satisfy such requirements,
the moneys available in the County and Road Dis-
trict Highway Fund, as estimated and determined
by the Board, shall be, for that calendar or fiscal
year first applied to the payment and satisfaction of
interest maturing on all eligible obligations during
the particular calendar and/or fiscal year, and this
payment is to be made ratably upon the interest on
eligible obligations of the various counties or de-
efined road districts; and if there is more of said
moneys available than necessary to pay all of said
interest, then such balance over the required inter-
est payment for such year shall be distributed rata-
ble to each issue of eligible obligations on the basis
of the principal of eligible obligations and sinking
fund requirements thereon maturing each year.

Allocation of Surplus

(b) On September first of each year after the
Board has paid off and discharged all eligible obli-
gations maturing during the preceding fiscal year,
together with the interest on such obligations and
the sinking fund requirements accruing thereon out
of the County and Road District Highway Fund,
any surplus remaining in said Fund over and above
Two Million Dollars ($2,000,000) shall be set aside
and credited by the State Treasurer to the respec-
tive funds hereinafter named as follows: One-half
(½) of said surplus shall be credited to an account in
the State Highway Fund to be known as the "Farm
Highway Account," and one-half (½) shall be credit-
ed to an account to be known as the "Lateral Road
Account," said funds to be distributed and expended
as hereinafter provided.

All moneys deposited in the Farm Highway Ac-
count shall be used by the State Highway Commis-
sion to match any available funds, other than Feder-
alfunds, and all of said moneys shall be used for
the sole purpose of constructing or improving farm-
to-market roads, which said construction or im-

Art. 6674q-7 ROADS, BRIDGES, AND FERRIES 4182
The moneys allocated to each county from the Lateral Road Account shall be used by said county first for paying the principal, interest, and sinking fund requirements maturing during the fiscal year for which such money was allocated to such county on bonds, warrants, and other legal obligations issued prior to January 2, 1939, the proceeds of which were actually expended in acquiring right of way indebtedness, or where said report is vague or indefinite, to audit and determine the correctness of such report. Funds remaining in the Lateral Road Fund of any county, after the payment of said right of way obligations, shall be used by the county for paying the maturing principal, interest, and sinking fund requirements, due by the county in that fiscal year on bonds, warrants, or other evidences of indebtedness which were legally issued by such county or road district prior to January 2, 1939, the proceeds of which were actually expended in the construction or improvement of lateral county roads. Payment to be made ratably upon the principal and interest on the maturing road obligations of said county for such fiscal years. Any funds remaining in the Lateral Road Fund of any county after the payment of said principal, interest, and sinking fund requirements due or maturing in that fiscal year on bonds or warrants which were legally issued by such county or road district prior to January 2, 1939, the proceeds of which were actually expended in the construction or improvement of state designated highways, may be used by the county under direction of the Commissioners Court for any one or all of the following purposes: (a) for the acquisition of right of ways for county lateral roads and for the payment of legal obligations incurred therefor prior to January 2, 1939; (b) for the construction or improvement of county lateral roads; (c) for the purpose of supplementing funds appropriated by the United States Government for Works Progress Administration highway construction, Public Works Administration highway construction and such other grants of Federal funds as may be made available to the counties of this State for county lateral road construction; and (d) for the purposes of cooperating with the State Highway Department and the Federal Government in the construction of farm-to-market roads. Provided that when such funds are used for the construction or improvement of county
lateral roads, such construction or improvement shall be made under the supervision of a competent engineer.

After such allocation has been made to the several counties in the State the Board shall in writing notify the Chairman of the Commissioners Court of each county of the amount which has been credited to that county. After receiving said notice, the Commissioners Court shall, within sixty (60) days, notify the Board of the manner in which it has exercised its option as to the one or more specified uses of said money permitted under this Act.

Such money shall be applied pro rata to the payments of the debt service requirements of all issues of lateral road indebtedness of the county and all included defined road districts, in the proportion that the debt service requirements of each issue bears to the aggregate debt service requirements of all issues for that year. When any issue of obligations which will receive aid under this Section is already listed with the Board of County and District Road Indebtedness, the Board shall credit the amount applicable to said issue to the account of said issue in the State Treasury. As to all other issues of obligations, which will receive aid under this Subsection (h), the Commissioners Court of the specific counties affected shall have the right, if so desired, to utilize the facilities of the State Board of County and District Road Indebtedness in paying the amounts of principal and interest on said issues substantially in the manner that payments are affected as to such eligible obligations.

In the event that the funds so received by the county from the Lateral Road Account are in excess of the amount required to meet the principal and interest of its maturing road bond obligations for the next fiscal year, the Commissioners Court, in that event, may elect to use such excess money allocated to it from the Lateral Road Account, and in such event, it shall notify, in writing, the said Board of its election to make use of said money. Whereupon, said Board shall remit said balance to be utilized for such purpose to the County Treasurer of such county, said money to be deposited by the County Treasurer in accordance with law, and the same shall be utilized by the county, acting through the Commissioners Court, for the construction of lateral roads. Each county may call upon the State Highway Commission to furnish adequate technical and engineering supervision in making surveys, preparing plans and specifications, preparing project proposals and supervising actual construction. The actual cost of such aid in supervision shall be paid by the county as a charge against its project.

In order that maximum benefits may be obtained in the expenditures of the State fund made available to the counties under this Act for the construction of county lateral roads, and so that the counties may have the benefit of widespread competition among contractors in bidding on such projects, such counties may, in their discretion, authorize the State Highway Commission, to receive bids in Austin on all such construction in the same manner as is now provided by law for the award of contracts on State highways.

When any road which shall have been constructed by any county wholly from the County Lateral Road Account shall be designated by the State Highway Commission as a part of the System of Designated State Highways, the designation of such road by the State Highway Commission shall constitute a final and complete discharge of any and all obligations of the State, moral, legal, or implied, for the payment of such highway.

In the event the Commissioners Court elects to cooperate with the Highway Department in the building of, or in the construction of, farm-to-market roads, it shall by proper resolution entered upon its minutes, authorize the State Treasurer to pay such funds to be so used, over to the State Highway Department for use on certain designated projects. Regardless of how the funds allocated to the counties from the Lateral Road Account are used, the County Judge of each county shall file with the Board on or before October first of each year, a verified report showing the manner in which the said funds have been expended, the nature and location of the roads constructed, and such other information as the Board may from time to time require.

Refunding Obligations

(i) The County Commissioners Court of any county may exercise the authority now conferred by law to issue refunding obligations for the purpose of refunding any eligible debt of the county or of any defined road district; and such refunding obligations, when validly issued, shall be eligible obligations within the meaning of this Act, if said Board of County and District Road Indebtedness shall approve the maturities of said refunding obligations and the rate of interest borne by them. In any instance where in the opinion of said Board the existing maturities of any issue of eligible obligations or any part thereof are such as to give the county or defined road district which issued them an inequitable or disproportionate participation in the moneys coming into the County and Road District Highway Fund in any particular period, said Board, in its discretion, may require said issue or any part thereof to be refunded into refunding obligations bearing such rate of interest and having such maturities as may be satisfactory to the Board, but in no event at a greater rate of interest than that provided in the original issue. And if said county or defined road district shall fail or refuse to effectuate such refunding within a reasonable time to be fixed by said Board, said obligations so required to be refunded, and all other obligations of said county or defined road district shall cease to be eligible for participation in said County and Road District High-

way Fund until the requirements of said Board, with respect to refunding, shall be complied with.

The Board of County and District Road Indebtedness is hereby made the refunding agent of each county, and as such agent is directed to co-operate with the Commissioners Court of each county in effecting the necessary refunding of each issue of bonds; the Board shall prepare the necessary refunding orders for the Commissioners Court, prepare the proceedings and act in an advisory and supervisory capacity to the end that the expense of refunding any issue of bonds may be reduced to the minimum. Provided that no commission, bonus, or premium shall be paid by any county or defined road district for the refunding of such obligations, and no County Treasurer shall receive any commission for handling of the funds derived from the refunding of such obligations. All actual expense incurred in the refunding of its eligible indebtedness, including cost of proceedings, printing, legal approval and interest adjustment, shall be chargeable against the money therefore or thereafter collected from ad valorem taxes, or at the option of the Commissioners Court conducting such refunding, may be paid from any other money under its control and available for the purpose, provided no obligations for such expense items shall be incurred or paid without affirmative approval by said Board.

Appropriation of Deposited Moneys

(f) All moneys to be deposited to the credit of the County and Road District Highway Fund from September 1, 1945, to August 31, 1947, both inclusive, are hereby appropriated to said respective counties and defined road districts and shall be received, held, used and applied by the State Treasurer, as ex-officio Treasurer of said respective counties and defined road districts, for the purposes and uses more specifically set forth in this Act, including the payment of principal, interest and sinking fund requirements on all eligible obligations maturing up to and including August 31, 1947. And each year thereafter until all of such eligible obligations are fully paid, all moneys coming into the credit of the County and Road District Highway Fund with the State Treasurer, and all moneys remaining therein from any previous year shall be received and held by him as ex-officio Treasurer of such counties and defined road districts, and shall first be subject to the appropriation for the payment of interest, principal and sinking funds maturing from time to time on said eligible obligations, and then for the other uses specified and permitted in this Act.

In the event any county, road district, or defined road district has since September 1, 1941, made any payment on eligible bonds, warrants, or other evidence of eligible indebtedness as defined under the terms of this Act, then such county, road district, or defined road district shall be reimbursed by the Board of County and District Road Indebtedness in the amount of the payment so made on such eligible obligations.

(k) As payment of principal and/or interest becomes due upon such eligible obligations, the State Comptroller of Public Accounts shall issue his warrant to the State Treasurer for the payment thereof, and the State Treasurer shall pay the same at his office in Austin, Texas, or by remitting to the bank or trust company or other place of payment designated in the particular obligation. Such warrants or voucher claims shall show on their face that the proceeds of the same are to be applied by the paying agent to the payment of certain specified obligations or interest therein described, by giving the name of the county or defined road district by which they were issued, numbers, amounts, and dates of maturities of the obligations and interest to be paid, with instructions to the State Treasurer, paying agent, bank, or trust company to return to the State Comptroller of Public Accounts such obligations and interest coupons when same are paid; and the State Comptroller of Public Accounts shall, upon receipt of said obligations and coupons, credit same on his records and send them, duly cancelled, to the Commissioners Court of the appropriate county, which shall cause to be duly entered a record of such cancellation. In instances wherein counties or defined road districts therein shall have arranged with the Board to pay principal or interest thereon, of outstanding lateral road indebtedness, the Board, and the State Comptroller of Public Accounts, and the State Treasurer shall follow, insofar as practicable, the procedure prescribed in this sub-section (k) for the payment of the principal and interest of eligible obligations.

Payment of Expenses

(l) Expenses necessary to be incurred in the determination of the indebtedness of the counties and defined road districts of the state, and in the discharge of the duties required for the payment of such obligations, shall be paid from the County and Road District Highway Fund by warrant approved by the Chief Accountant, and one other member of said Board, and the State Comptroller of Public Accounts. The compensation of all employees of said Board shall be fixed by the Legislature. All employees of said Board of County and District Road Indebtedness shall be bonded, the amount of such bond being set by the Board.

Forwarding Securities to State Treasurer

(m) All of the securities now on hand in which sinking funds collected for the benefit of outstanding eligible issues are invested, and all funds and securities hereafter acquired for the benefit of the entire outstanding balance of all eligible bond issues, shall be forwarded within thirty (30) days from the effective date of this Act, and thereafter within thirty (30) days of the acquisition of such fund or securities, to the State Treasurer as ex officio County Treasurer of the various counties and defined road districts. Provided that the cash now
on hand in the sinking fund created for the benefit of outstanding eligible obligations may also be remitted as above set forth, at the option of such county or defined road district. Any county, the Commissioners Court of which fails or refuses to comply with the provisions of this Act in all things, including the levy, assessment, and collection of a tax, and at a rate sufficient to pay all sums due or to become due, which the state is unable to pay, or to provide each year the proportionate amount of sinking fund required to redeem its outstanding bonds at their maturity, shall not participate in any of the benefits of this Act so long as such county fails or refuses to comply with provisions thereof. The Board of County and District Road Indebtedness, having the power and authority to invest all such sinking funds, including all future sinking funds acquired in any manner whatsoever, in any eligible obligations of the various political subdivisions of this state which mature within the current biennium in which such securities are purchased; and where there is on hand a sufficient amount of moneys or securities to the credit of any one political subdivision to retire some of its outstanding obligations, whether then due or not, the Board of County and District Road Indebtedness may, if it deems it advisable, purchase and cancel said obligations of such particular political subdivision, irrespective of maturity dates. Provided further, that any county which has selected a depository according to law and in which county such depository has qualified by giving surety bonds or by the deposit of adequate securities of the kind provided by law, which in the opinion of the Board of County and District Road Indebtedness is ample to cover the county deposits, and which county has not defaulted in the payment of any installment of principal and/or interest on any county bonds for a period of five (5) years next preceding the date of the filing of its application for exemption, and in which county all sinking funds of all bond issues are in excess of the standard required by law, and which county has levied for the current tax year adequate rates in support of outstanding bond issues and warrant as required by the Constitution and Statutes of said state, shall be exempt from the provisions of this sub-section (m) of this Act, and which exemption shall be obtained by such county in the manner and under conditions prescribed by the said Board of County and District Road Indebtedness. Said Board shall have the right to inspect the records of such county at any subsequent date to ascertain whether or not the facts warrant the continuation of the exemption. If at any time, in the opinion of the Board, counties that have been granted exemption under the provisions of this Act shall cease to comply with all the conditions under which the exemption has been granted, the Board shall notify the county to return all securities in which the sinking funds of eligible road bond issues are invested, and the residue in said sinking funds, and to begin immediately forwarding taxes levied and collected for the payment of interest and principal on all eligible road bond issues. Said counties whose exemption has been cancelled by said Board shall be given a period of thirty (30) days in which to comply with the demands of the Board. Provided further, that such counties so exempt shall furnish the Board an annual statement of the condition of the sinking funds of the several eligible road bond issues, together with a financial statement of the county depository. The Board shall have the right to withhold the payment of any maturity on any eligible road bond indebtedness where such county has failed or refused to comply with all the provisions of this Act.

Minutes of Board Proceedings

(o) The Board shall keep adequate minutes of its proceedings and semianually, on or before June 30th and December 31st of each year, shall make itemized reports to each county with respect to the receipt, disbursement, and investment of the funds credited to such county. The Commissioners Court of any county, and/or its accredited representatives shall have the right to inspect the records of said Board and of the State Treasurer, at any reasonable time, for the purpose of making any investigation or audit of the accounts affecting its county.

Accounting to Governor

(p) The Board shall, within ninety (90) days after the close of each fiscal year, make a complete accounting for the preceding year to the Governor, State Treasurer belonging to said counties or defined road districts, and shall file copies of such report with the President of the Senate and with the Speaker of the House of Representatives.

Return of Money to Counties

(q) In the event this Act is repealed, or shall be or become inoperative as to any county or defined road district, then it shall be the duty of the Board to ascertain immediately the amount of moneys and securities remaining on hand with it or with the State Treasurer belonging to the several counties or defined road districts affected, and forthwith to return the same to the County Treasurer of the County entitled thereto, accompanied by an itemized statement of the account of the county or defined road district.

Depositories

(r) All funds on hand belonging to, and hereafter credited to, the several counties and defined road districts of the state, shall be considered State Funds, and as such shall be deposited at intervals in the depositories provided for by the state laws and all interest earned on such funds and on the securities in which the sinking funds are invested shall belong to said counties or defined road districts, and shall be credited to them by the State Treasurer as earned and collected.
Supplementary Funds

(r) Upon notice from the Board of the amount that such county or defined road district shall be required to pay toward any installment of interest, or maturing principal, the County Treasurer of such county shall, not later than twenty (20) days prior to the maturity date of such interest, principal, or sinking fund requirements, forward to the State Treasurer the amount fixed by the Board as being necessary to supplement the amounts previously placed to the credit of any such county or defined road district by said Board under the provisions of this Act.

Art. 6674q-7b. Repealed by Acts 1937, 45th Leg., p. 761, ch. 370, § 3

Art. 6674q-8. Restrictions as to Extending State Credit

No provision of this Act shall be construed to authorize the giving or lending of the credit of the state to any county or district or to pledge the credit of the state in any manner whatever for the payment of any of the outstanding road indebtedness, herein referred to, of the counties or districts of the state. It is hereby declared that all eligible indebtedness, as herein defined, shall remain indebtedness of the respective counties or defined road districts which issued it, and said counties or defined road districts shall remain liable on said indebtedness according to its terms and tenor; and it is not the purpose or intention of this act, or any part thereof, to obligate the State of Texas, directly or indirectly or contingently, for the payment of any such obligations, or that the State of Texas should assume the payment of said obligations; and this Act is not to be construed as obligating the State of Texas to the holders of any of said obligations to make any payment of the same, or any part thereof, nor shall such holders have any rights to enforce the appropriation of any of the moneys hereinabove provided for, nor shall any provision hereof constitute a contract on the part of the state to make money available to any county for the construction of additional lateral roads. The provisions hereof are intended solely to compensate, repay, and reimburse said counties and districts for the aid and assistance they have given to the state in furnishing, advancing and contributing money for building and constructing State Highways.

Art. 6674q-8a. Bonds of Navigation Districts; Preference Over Other Bonds by Board of County and Road District Bond Indebtedness Unauthorized

All bonds heretofore issued by navigation districts of this state, which mature on or after January 1, 1933, and insofar as amounts of same were issued for and the proceeds thereof actually expended in the construction of bridges across any stream or streams or any other waterways upon any highway that constituted and comprised a part of the system of Designated State Highways on September 17, 1932, shall hereafter be included within and eligible under the provisions of Chapter 13 of the Acts of the 42nd Legislature of Texas, passed at its Third Called Session, as amended by the Acts of the 43rd Legislature of Texas, Regular Session,1 to the extent that the proceeds of the sale of said bonds shall have been actually expended in the construction of such bridges and in such cases the outstanding bonds of said navigation districts in an amount equal to the amount so expended by such navigation districts shall be redeemed under the same conditions as are provided by said Chapter 13, Acts of the 42nd Legislature of Texas, Third Called Session, as amended by the Acts of the 43rd Legislature of Texas, Regular Session,1 for the redemption of county and road district bonds.

It is expressly provided that the Board of County and District Road Indebtedness shall not be authorized to give the bonds herein referred to preference over other similar bonds eligible under said Bond Act; and it is further expressly provided that said Board in determining the amount of bonds eligible for assumption shall take into consideration the amount of the bond money expended for the construction of said bridge, and the balance due on said amount of bonds used in the construction of said bridge, at the effective date of this Act; and in no event shall said Board be authorized to assume in excess of the balance due on the bonds for the said bridge construction at the effective date of this Act.

Art. 6674q-8c. Lateral Road Account; Punishment for Unauthorized Use

It shall be unlawful for any County Judge or any County Commissioner, while acting in his official capacity or otherwise, to use any money out of the Lateral Road Account for any purpose except the
purposes enumerated in this Act. If any County Judge or any County Commissioner shall knowingly expend or use, or vote for the use of, or agree to expend or use any sum of money accruing to any county in this state from the Lateral Road Account, for any purpose not authorized by this Act, or shall knowingly make any false statement concerning the expenditure of any such money, he shall be deemed guilty of a felony, and upon conviction shall be punished by confinement in the State Penitentiary for not less than two (2) years nor more than five (5) years.

Art. 6674q-9. Legislative Policy; State Title to Roads

If succeeding Legislatures shall continue to carry out the policy herein defined by authorizing a similar appropriation of funds from time to time, (a) then whenever the eligible obligation shall have been fully paid as herein provided, as to or for any county or defined road district according to the provisions of this Act, then, and in that event, the title and possession of all roads, road beds, bridges, and culverts in such county or defined road district, which are included in the system of Designated State Highways, shall automatically vest in fee simple in the State of Texas; in the event of any subsequent physical change therein, such title and possession shall extend to any such change so made; and (b) whenever the interest and principal necessary to retire the outstanding indebtedness owed for lateral roads shall have been fully paid as herein provided, as to, or for any county or defined road district, according to the provisions of this Act, then, and in that event, the title of all roads, road beds, bridges, and culverts in such county or defined road district, pertaining to the lateral roads constructed with the proceeds of such indebtedness, shall automatically vest in the State of Texas; but the possession thereof shall remain in such county or defined road district, and in the event of any subsequent physical change therein, such title and possession shall extend to any such change so made; provided that when the right-of-way, or any part thereof, pertaining to either a State Highway or a lateral road, has been abandoned because of the abandonment of such road for all public purposes, and such right-of-way, or any part thereof, was donated by the owner of the land for right-of-way purposes, then, and in that event, the title to the said right-of-way shall vest in said owner, his heirs or assigns; provided, however, that nothing in this Act shall prevent the State Highway Commission from changing or abandoning any State Highway, and if the Commission shall change or abandon any State Highway in any county, the Commissioners Court of such county shall have the right to assume jurisdiction over such portion of such highway so abandoned by the State Highway Commission. Likewise, the title to additional lateral roads, when constructed, shall vest in the State of Texas. Provided, however, that this Act neither imposes the obligation on, nor confers the right in, the State of Texas, to maintain and lay out any roads except those constituting a part of the designated State Highway System as hereinabove in this Act defined. The obligation to maintain or lay out all other roads, including lateral roads and additional lateral roads as defined in this Act, shall remain undisturbed in the several Commissioners Courts as agents of the state.

By virtue of the provisions of Section 59 of Article III of the Constitution of the State of Texas granting the Legislature power to pass such laws as may be necessary to provide for Workmen's Compensation Insurance for State employees, as in its judgment is necessary or required, and to provide for the payment of all costs, charges, and premiums on such insurance, provision is made as hereinafter set forth.

Definitions

Sec. 2. The following words and phrases as used in this law shall, unless a different meaning is plainly required by the context, have the following meanings, respectively:

1. "Department" whenever used in this law shall be held to mean the State Highway Department of Texas.
2. "Employee" shall mean every person in the service of the State Highway Department under any appointment or expressed contract of hire, oral or written, whose name appears upon the payroll of the State Highway Department.
3. "Insurance" shall mean Workmen's Compensation Insurance.
4. "Board" shall mean the Industrial Accident Board of the State of Texas.
5. "Legal beneficiaries" shall mean the relatives named in Section 8a of Article 8306, Revised Civil Statutes of Texas of 1925, adopted in Section 7 of this law.
6. "Average weekly wages" shall be as defined in Section 1, Article 8309, Revised Civil Statutes of Texas of 1925.
Sec. 6. Employees of the Department and parents of minor employees shall have no right of action against the agents, servants, or employees of the Department for damages for personal injuries nor shall representatives and beneficiaries of deceased employees have a right of action against the agents, servants, or employees of the Department for injuries resulting in death, but such employees and their representatives and beneficiaries shall look for compensation solely to the Department as is provided in this law. All compensation allowed herein shall be exempt from garnishment, attachment, judgment, and all other suits or claims, and no such right of action and no such compensation and no part thereof nor of either shall be assignable, except as otherwise herein provided, and any attempt to assign the same shall be void.

Adoption of General Workers' Compensation Laws

Sec. 7. (a) The following laws as amended or as they may hereafter be amended are adopted except to the extent that they are inconsistent with this Act:

(1) Article 8306, except Sections 5 and 28, and Articles 8307, 8307b, and 8309, Revised Civil Statutes of Texas, 1925, as amended;

(2) Chapter 248, General Laws, Acts of the 42nd Legislature, Regular Session, 1971 (Article 8306a, Vernon's Texas Civil Statutes);

(3) Chapter 77, Acts of the 65th Legislature, Regular Session, 1977 (Article 8306b, Vernon's Texas Civil Statutes);

(4) Chapter 205, General Laws, Acts of the 42nd Legislature, Regular Session, 1981, as amended (Article 8307a, Vernon's Texas Civil Statutes);

(6) Chapter 358, Acts of the 64th Legislature, 1975 (Article 8307d, Vernon's Texas Civil Statutes); and

(b) Provided that whenever in the above adopted laws the words "association," "subscriber," or "employer" or their equivalents appear, they shall be construed to and shall mean "the department."

Weekly Payments of Compensation

Sec. 9. It is the purpose of this law that the compensation herein provided for shall be paid from week to week and as it accrues and directly to the person entitled thereto, unless the liability is redeemed as in such cases provided elsewhere herein.

Physical Examination; Effect of Refusal to Submit to Insanitary and Injurious Practices; Procedure

Sec. 10. The Board may require any employee claiming to have sustained injury to submit himself for examination before such Board or some one acting under its authority at some reasonable time and place within the State, and as often as may be reasonably ordered by the Board to a physician or
physicians authorized to practice under the laws of this State. If the employee or the Department requests, he or it shall be entitled to have a physician or physicians of his or its own selection present to participate in such examination. Refusal of the employee to submit to such examination shall deprive him of his right to compensation during the continuance of such refusal. When a right to compensation is thus suspended no compensation shall be payable in respect to the period of suspension. If any employee shall persist in insanitary or injurious practices which tend to either imperil or retard his recovery, or shall refuse to submit to such medical or surgical treatment or other remedial treatment recognized by the State, as is reasonably essential to promote his recovery, the Board may in its discretion order or direct the Department to reduce or suspend the compensation of any such injured employee. No compensation shall be reduced or suspended under the terms of this Section in such parts of the books and records of the employee, such fee to be fixed by the State, as is reasonably essential to promote his recovery.

The Department shall have the privilege of having any injured employee examined by a physician or physicians of its own selection, at reasonable times, at a place or places suitable to the condition of the injured employee and convenient and accessible to them. The Department shall pay for such examination and the reasonable expense incident to the injured employee in submitting thereto. The injured employee shall have the privilege to have a physician of his own selection present to participate in such examination. Provided, when such examination is directed by the Board or the Department, the Department shall pay the fee of the physician selected by the employee, such fee to be fixed by the Board.

Process and procedure shall be as summary as may be under this law. The Board or any member thereof shall have power to subpoena witnesses, administer oaths, inquire into matters of fact, examine such parts of the books and records of the parties to a proceeding as relate to questions in dispute. All rulings and decisions of the Board relating to disputed claims shall be upon questions of fact and in accord with the provisions of this law.

**Industrial Accident Board, Authority of; Procedure**

Sec. 11. All questions arising under this law, if not settled by agreement of the parties interested therein and within the provisions of this law, shall, except as otherwise provided, be determined by the Board. Any interested party who is not willing and does not consent to abide by the final ruling and decision of said Board shall within twenty (20) days after giving such notice bring suit in the county where the injury occurred to set aside said final ruling and decision and said Board shall proceed no further toward the adjustment of such claim, other than hereinafter provided. Whenever such suit is brought, the rights and liability of the parties thereto shall be determined by the provisions of this law and the suit of the injured employee or person suing on account of the death of such employee shall be against the Department. If the final order of the Board is against the Department, then the Department shall bring suit to set aside said final ruling and decision of the Board, if it so desires, and the Court shall in either event determine the issues in such cause instead of the Board upon trial de novo and the burden of proof shall be upon the party claiming compensation. The Board shall furnish any interested party in said claim pending in Court upon request free of charge with a certified copy of the notice of the Board becoming an insurer filed with the Board and the same when properly certified to shall be admissible in evidence in any Court in this State upon trial of such claim therein pending and shall be prima facie proof of all facts stated in such notice in the trial of said cause unless same is denied under oath by the opposing party therein. In case of recovery the same shall not exceed the maximum compensation allowed under the provisions of this law. If any party to any such final ruling and decision of the Board, after having given notice as above provided, fails within said twenty (20) days to institute and prosecute a suit to set the same aside, then said final ruling and decision shall be binding upon all parties thereto, and, if the same is against the Department, it shall at once comply with such final ruling and decision.

In all cases where the Board shall make a final order, ruling or decision, as provided in the preceding Section and against the Department, and the Department shall fail and refuse to obey or comply with the same and shall fail or refuse to bring suit to set the same aside as in said Section is provided, then in that event the claimant in addition to the rights and remedies given him and the Board in said Section may bring suit in a Court of competent jurisdiction, upon said order, ruling, or decision. If he secures a judgment sustaining such order, ruling, or decision in whole or in part, he shall also be entitled to recover the further sum of twelve (12) per cent as damages upon the amount of compensation so recovered in said judgment, together with a reasonable attorney's fee for the prosecution and collection of such claim.

Where the Board has made an award against the Department requiring the payment to an injured employee or his beneficiaries of any weekly or monthly payments of any the terms of this law, and the Department should thereafter fail or refuse, without justifiable cause, to continue to make said payments promptly as they mature, then the said injured employee or his beneficiaries, in case of his death, shall have the right to institute suit thereon to collect the full amount thereof, together with twelve (12) per cent penalties and attorney's fees as herein provided for.
Suit may be brought under provisions of this Section, either in the county where the accident occurred, or in any county where the claimants reside, or where one or more of such claimants may have his place of residence at the time of the institution of the suit.

Employees of Subcontractors

Sec. 12. If the Department sublets the whole or any part of the work to be performed or done to any subcontractor, then in the event any employee of such subcontractor, whose name does not appear on the pay roll of the Department, sustains an injury in the course of his employment, he shall be deemed and taken for all purposes of this law not to be an employee as defined in this law. However, in the event that a person leases tractors, trucks, mowing or cutting machinery, or other equipment to the Department, and uses this equipment to perform work under a contract with the Department then the Department shall

(1) treat the person leasing the equipment as an independent contractor and require him to provide life, health and accident, and disability insurance for himself and any persons employed by him to perform the contract during the time he or his employees are engaged in performing the contract and with such amounts of insurance and coverage as is approved by the State Board of Insurance as being substantially the same coverage provided for under workmen’s compensation insurance;

(2) treat the person leasing the equipment as an employee of the state for purposes of workmen’s compensation and require him to provide workmen’s compensation insurance for any persons employed by him to perform the contract; in which case the workmen’s compensation law applies to such person and his employees regardless of the number of employees; or

(3) treat the person leasing the equipment and any persons employed by him to perform the contract as employees of the state for purposes of workmen’s compensation.

Records and Reports of Injuries

Sec. 13. The Department shall hereafter keep a record of all injuries fatal or otherwise, sustained by its employees in the course of their employment. Within eight (8) days after the occurrence of an accident resulting in an injury to an employee, causing his absence from work for more than one day, a written report thereof shall be made to the Board on blanks to be procured from the Board for that purpose. Upon the termination of the incapacity of the injured employee, or if such incapacity extends beyond a period of sixty (60) days, the Department shall make a supplemental report upon blanks to be procured for that purpose. The said report shall contain the name, age, sex, and occupation of the injured employee and the character of work in which he was engaged at the time of the injury, and shall state the place, date, and hour of receiving such injury and the nature and cause of the injury, and such other information as the Board may require. The Department shall be responsible for the submission of the reports in the time specified in this Section.

Rules and Regulations; Examining Physicians; Reports as Evidence

Sec. 14. The State Highway Department is authorized to promulgate and publish such rules and regulations as may be necessary to the effective administration of this law, and the State Highway Department shall have authority to make and enforce such rules for the prevention of accidents and injuries as may be deemed necessary. It shall be the duty of the State Highway Department to designate a convenient number of regularly licensed practicing physicians and surgeons for the purpose of making physical examinations of all persons employed to be employed in the service of the State Highway Department to determine who may be physically fit to be classified as “employees” as that term is defined in Subsection 2 of Section 2 of this Act, and said physicians and surgeons so designated and so conducting such examinations shall make and file with the State Highway Department a complete transcript of said examination in writing upon a form to be furnished by the State Highway Department. It shall be the duty of the State Highway Department to preserve as a part of the permanent records of the State Highway Department all reports of such examinations so filed. Such reports shall be admissible in evidence before the Industrial Accident Board, and in any court of competent jurisdiction to which an appeal has been made from a final award or ruling of the Industrial Accident Board in which the person named in said examination is a claimant for compensation benefits under the terms and provisions of this Act, and such reports so admitted shall be prima facie evidence as to the facts set out therein.

Physical Examination Prerequisite to Certification as Employee

Sec. 14a. No person shall be certified as an employee of the State Highway Department under the terms and provisions of this Act until he has submitted himself for a physical examination as provided in Section 14 herein and has been certified by the examining physician or surgeon to be physically fit to perform the duties and services to which he is to be assigned, provided that absence of a physical examination shall not be a bar to recovery.

Award as Evidence; Certified Copies of Orders, Awards, Decisions, or Documents

Sec. 15. Any order, award, or proceeding of said Board when duly attested by any member of the Board or its secretary shall be admissible as evidence of the act of said Board in any Court of this State.
Upon the written request and payment of the fees therefor, which fees shall be the same as those charged for similar services in the Secretary of State’s office, the Board shall furnish to any person entitled thereto a certified copy of any order, award, decision, or paper on file in the office of said Board and the fees so received for such copies shall be paid into the State Treasury and credited to the General Revenue Fund; provided that the Department shall be furnished such certified copies without charge. No fee or salary shall be paid to any person in said Board for making such copies in excess of the fees charged for such copies.

Suits to Set Aside Decision of Board; Notice

Sec. 16. Any interested party who is not willing and does not consent to abide by the final ruling and decision of the Board shall, in the manner and within the time provided by Section 11 of this law, file notice with said Board, and bring suit in the county where the injury occurred to set aside said final ruling and decision; however, in the event such suit is brought in any county other than the county where the injury occurred, the Court in which same is filed, shall, upon ascertaining that it does not have jurisdiction to render judgment upon the merit, transfer the case to the proper Court in the county where the injury occurred. Provided, however, that notice of said transfer shall be given to the parties and said suit when filed in the Court to which the transfer is made, shall be considered for all purposes, the same as if originally filed in said Court.

Time of Hearing

Sec. 17. When an injured employee has sustained an injury in the course of employment and filed claim for compensation and given notice as required by law, the Board shall hear his claim for compensation within a reasonable time. Provided, however, when such injured employee is being paid compensation as provided in this law, and the Department is furnishing either hospitalization or medical treatment to such employee, the Board may, within its discretion, delay or postpone the hearing of his claim, and no appeal shall be taken from any such order made by the Board.

Percentage of Pay roll Set Aside in Account for Payments Under Act

Sec. 18. The Department is hereby authorized to set aside from available appropriations other than itemized appropriations an amount not to exceed three and one-half (3½) per cent of the annual labor pay roll at any one time. A statement of the amounts set aside for and disbursements from said account shall be included in reports made to the Governor and the Legislature as required by the Statutes.

Notice of Appeal and Judgment; Penalty

Sec. 19. In every case appealed from the Board to any district or county Court, the Clerk of such Court shall, within twenty (20) days after the filing thereof, mail to the Board a notice giving the style, number, and date of filing such suit, and shall, within twenty (20) days after judgment is rendered in such suit, mail to the Board a certified copy of such judgment. The duties devolving upon district and county clerks under this law shall constitute a part of their ex officio duties and for such services they shall not be entitled to any fee.

In every such case the attorney preparing the judgment shall file the original and a copy of same with the Clerk of the Court. However, the failure of such attorney to comply with this provision shall not excuse the failure of the Clerk of a district or county Court to mail a certified copy of such judgment to the Board as above provided.

Any Clerk of a district or county Court who fails to comply with the provisions of this law shall be guilty of a misdemeanor and upon conviction shall be punished by a fine of not more than Two Hundred and Fifty Dollars ($250).

Partial Invalidity

Sec. 20. If any section, paragraph, or provision of this law be declared unconstitutional or invalid for any reason, such holding shall not in any manner affect the remaining sections, paragraphs, or provisions of this law, but the same shall remain in full force and effect.

Art. 6674s-1. Liability Insurance for Highway Department Employees

Sec. 1. The State Highway Commission shall have the power and authority to insure the officers and employees of the Texas Highway Department from liability arising out of the use, operation, and maintenance of equipment, including but not limited to, automobiles, motor trucks, trailers, aircraft, motor graders, rollers, tractors, tractor power mowers, and other power equipment used or which may be used in connection with the laying out, construction, or maintenance of the roads, highways, rest areas, and other public grounds in the State of Texas. Sec. 2. Nothing herein shall be construed as a waiver of the immunity of the state from liability for the torts or negligence of the officers or employees of the state.

Art. 6674t. Right-of-Way Easements from State Youth Development Council

Sec. 1. The Texas State Highway Department is hereby authorized and empowered, upon request of the Board for Texas State Hospitals and Special Schools or the State Youth Development Council, to enter into agreements or contracts with the Board or with the Council for the construction, maintenance and repair of roads within any of the institutions, hospitals and schools under the control, management or supervision of the Board or the Council.

Sec. 2. The Board for Texas State Hospitals and Special Schools and the State Youth Development Council are hereby authorized to reimburse the appropriate funds of the Texas State Highway Department for the cost of construction and/or maintenance performed under Section 1. Prior to the transfer of any funds, the Board and/or the Council shall notify the Comptroller in writing what funds and what amounts are to be transferred and direct the Comptroller to make the appropriate transfer.

Sec. 3. If any section, subsection, sentence, clause or phrase of this Act is for any reason held unconstitutional, the unconstitutionality thereof shall not affect the validity of the remaining portion of this Act. The Legislature hereby declares it would have passed the Act and each section, subsection, sentence, clause and phrase thereof, irrespective of the fact that one or more of the sections, subsections, sentences, clauses or phrases be declared unconstitutional.

Sec. 1. To facilitate vehicular traffic throughout the State, to promote the agricultural and industrial development of the State, to assist in effecting traffic safety, to provide for the construction of modern expressways, to provide better connections between highways of the State of Texas and the highway system of adjoining states, including cooperation between states, the Texas Turnpike Authority, hereinafter created, is hereby authorized and empowered to construct, maintain, repair and operate Turnpike Projects (as hereinafter defined), and to issue turnpike bonds of the Texas Turnpike Authority, payable solely from the revenues of such projects.

Credit of State Not Pledged

Sec. 2. Turnpike revenue bonds issued under the provisions of this Act shall not be deemed to constitute a debt of the State or of any political subdivision thereof or a pledge of the faith and credit of the State or of any such political subdivision, but such bonds shall be payable solely from the funds herein provided therefor from revenues. All such turnpike revenue bonds shall contain on the face thereof a statement to the effect that neither the State, the Turnpike Authority or any political subdivision of the State shall be obligated to pay the same or the interest thereon except from revenues of the particular project for which they are issued and that neither the faith and credit nor the taxing power of the State or any political subdivision thereof is pledged to the payment of the principal or the interest on such bonds. The Turnpike Authority shall not be authorized to incur financial obligations which cannot be serviced from tolls or revenues realized from operating its projects as defined in this Act or from moneys provided by this Act.

Texas Turnpike Authority

Sec. 3. There is hereby created an authority to be known as the "Texas Turnpike Authority," hereinafter sometimes referred to as the "Authority." By and in its name the Authority may sue and be sued, and plead and be impleaded. The Authority is hereby constituted an agency of the State of Texas, and the exercise by the Authority of the powers conferred by this Act in the construction, operation, and maintenance of turnpike projects shall be deemed and held to be an essential governmental function of the State.

The Board of Directors of the Authority (hereinafter in this Act sometimes called the "Board") shall be composed of directors, who shall occupy, respectively, places on the Board to be designated as Places 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, and 12. The Directors who will occupy Places 2, 3, 5, 6, 8, 9, 10, 11, and 12 shall be appointed by the Governor, by and with the advice and consent of the Senate. Appointed Directors shall serve staggered terms of six (6) years with the terms of one-third of the members expiring on February 15 of each odd-numbered year. Each Director appointed to fill Places 2, 3, 5, 6, 8, 9, 10, 11, and 12 shall have been a resident of the State and of the County from which he shall have been appointed for a period of at least one (1) year prior to his appointment.

Appointments to the Authority shall be made without regard to the race, creed, sex, religion, or national origin of the appointees.

The members of the Texas State Highway Commission at the time this Act becomes effective are hereby made Directors of said Authority, and if for any reason said Texas State Highway Commission at such time because of vacancies is composed of less than three (3) members, then the person or persons appointed to fill such vacancies are hereby made Directors of said Authority. The Highway Commissioners and their successors in office shall respectively and successively occupy Places 1, 4, and 7 on such Board. Each member of the Texas State Highway Commission shall serve ex officio as a member of the Board of Directors of such Authority. All Directors shall serve until their successors have been duly appointed and qualified, and vacancies in unexpired terms shall be promptly filled by the Governor.

All members of the Board of Directors shall be eligible for reappointment. All directors shall have equal status and all Directors shall have a vote. Each member of the Board before entering upon his duties shall take an oath as provided by Section 1 of Article XVI of the Constitution of the State of Texas.

The Board shall elect one of the Directors as chairman and another as vice chairman, and shall elect a secretary and treasurer who need not be a member of the Board. Seven members of the Board shall constitute a quorum and the vote of a majority shall be necessary for any action taken by the Board. No vacancy in the membership of the Board shall impair the right of a quorum to exercise all the rights and perform all the duties of the Board.

Before the issuance of any turnpike revenue bonds under the provisions of this Act, each Director shall execute a surety bond in the penal sum of Twenty-five Thousand Dollars ($25,000) and the secretary and treasurer shall execute a surety bond in the penal sum of Fifty Thousand Dollars ($50,000), each surety bond to be conditioned upon the faithful performance of the duties of his office, to be executed by a surety company authorized to transact business in the State of Texas as surety and to be approved by the Governor and filed in the office of the Secretary of State. The expense of such bonds shall be paid by the Authority.
Each appointed Director may be removed by the Governor for misfeasance, malfeasance or willful neglect of duty, but only after reasonable notice and public hearing unless the notice and public hearing are in writing expressly waived. Failure of an appointed member to attend at least one-half of the regularly scheduled meetings held each year automatically removes such member and creates a vacancy on the Board.

The members of the Authority shall not be entitled to any additional compensation for their services, but each member shall be reimbursed for his actual expenses necessarily incurred in the performance of his duties. All expenses incurred in carrying out the provisions of this Act shall be payable solely from funds provided under the authority of this Act and no liability or obligation shall be incurred by the Authority hereunder beyond the extent to which moneys shall have been provided under the authority of this Act.

The Legislature imposes on any Director, who may be a member of the State Highway Commission the extra duties required hereunder.

1. Name changed to State Highway and Public Transportation Commission; see art. 6663.

Application of Sunset Act

Sec. 3a. The Texas Turnpike Authority is subject to the Texas Sunset Act, and unless continued in existence as provided by that Act the authority is abolished, and this Act expires effective September 1, 1991.

(m) All contracts of the Authority for the con­

any turnpike project shall, in so far as applicable, be
made and awarded under the same conditions,
terms, requirements, and provisions as are now
provided for with respect to contracts of the State
Highway Department in Sections 8 and 9 of Chapter 186, pages 457, 458, Acts, Thirty-ninth Legislature, 1925, as amended by Chapter 103, page 286, Acts, Forty-third Legislature, First Called Session, 1929, and Sections 10 and 13 of Chapter 186, page 458, Acts, Thirty-ninth Legislature, 1925, codified as Articles 6674h, 6674i, 6674j, and 6674m, Vernon's Civil Statutes, and in the making and awarding of such contracts the Authority shall, in so far as applicable, be under the same duties and responsibilities with respect thereto as are now imposed upon the State Highway Department by the terms and provisions of the Statutes herein enumerated. It is hereby declared to be the intention of the Legislature that the provision of this paragraph shall be mandatory.

(n) Provided, however, that the Authority in this Act created, save and except for the region included within the boundaries of Dallas and Tarrant Counties of this State, shall not be empowered or authorized to process or commence plans for or the construction of any toll road or turnpike over the same route or parts thereof or between the same terminal or intervening cities or towns, or through any counties or regions served by a toll road corporation as hereinafter described, which could in any manner whatsoever be construed as a duplication of the services rendered by a toll road running in the same general directions over the same general route or part thereof or through the same regions or counties of the State which has been planned, commenced or constructed by a toll road corporation chartered prior to April 1, 1953, under the laws of this State which provides in its articles of incorporation, bylaws, or otherwise, that none of the net income or profits, whether realized or unrealized, shall ever inure to the benefit of or be distributed to any private shareholder or any other private person, association or corporation whatsoever, and that, after payment of all indebtedness for the acquisition, construction, maintenance and operation of such toll road, the title of all the assets of said toll road corporation shall be conveyed to the State of Texas or to the county or counties in which such toll road is situated; provided further, however, that such toll road corporation commence the construction of such toll road within a period of eighteen (18) months from the effective date of this Act.

(o) To do all acts and things necessary or appropriate to carry out the powers expressly granted in this Act.

Incidental Powers

Sec. 6. The Authority shall have authority to construct grade separations at intersections of Turnpike Projects with railroads and with highways, and to change and adjust the lines and grades of such highways so as to accommodate the same to the design of such grade separation. The cost of such grade separations and any damage incurred in changing and adjusting the lines and grades of railroads or such highways shall be paid by the Authority as a part of the cost of such Turnpike Project.

If the Authority shall find it necessary to change the location of any portion of any highway, it shall cause the same to be reconstructed at such location as the Authority and the Texas Highway Department shall deem most favorable and of substantially the same type and in as good condition as the original highway. The cost of such reconstruction and any damage incurred in changing the location of any such highway shall be ascertained and paid by the Authority as a part of the cost of such Turnpike Project. No Project shall be instituted for the purpose of being substituted for or taking the place of an existing highway. Each Project shall be essentially an additional facility.

In addition to the foregoing powers, the Authority and its authorized agents and employees may enter upon any lands, waters and premises in the State for the purpose of making surveys, soundings, drillings and examinations as it may deem necessary or appropriate for the purpose of this Act, and such entry shall not be deemed a trespass, nor shall any entry for such purposes be deemed an entry under any condemnation proceedings which may be then pending. The Authority shall make reimbursement for any actual damages resulting to such lands, waters and premises as a result of such activities.

The Authority also shall have power to make reasonable regulations for the installation, construction, maintenance, repair, renewal, relocation and removal of trucks, pipes, mains, conduits, cables, wires, towers, poles and other equipment and appliances (herein called “Public Utility Facilities”) of any public utility, railroad or pipeline company, or of any person, in, on, along, over or under the Turnpike Project. Whenever the Authority shall determine that it is necessary that any Public Utility Facilities which now are, or hereafter may be, placed in, on, along, over or under the Turnpike Project should be relocated in such Project, or should be removed from such Project, or should be carried along or across the Turnpike by grade separation, the owner or operator of such facilities shall relocate or remove the same in accordance with the order of the Authority; provided, however, that the cost and expenses of such relocation or removal or grade separation, including the cost of installing such facilities in a new location or new locations, and the cost of any land, or any rights, or interest in lands, and any other rights, acquired to accomplish such relocation or removal, and the cost of maintenance of grade separation structures, shall be paid by the Authority as a part of the cost of or cost of operating such Turnpike Project. In case of any such relocation or removal of facilities, the owners or operators of the same, their successors or assigns, may use and operate such facilities, with the necessary appurtenances, in the new location or new locations, for as long a period, and upon the same terms and conditions, as they had the right to
maintain and operate such facilities in their former location or locations. Provided, however, notwithstanding anything contained herein to the contrary, the provisions of House Bill No. 393, Acts, Fifty-first Legislature, 1949, Chapter 228, Page 427, shall apply to the erection, construction, maintenance, and operation of lines and poles owned by corporations organized under the Electric Cooperative Corporation Act of this State; and all other corporations (including River Authorities created by the Legislature of this State) engaged in either the generation, transmission, or distribution of electric energy in Texas and whose operations are subject to the Judicial and Legislative processes of this State, over, under, across, upon and along any Project constructed by the Authority; provided, however, that the Authority shall have the same powers and duties as are delegated the State Highway Commission under the provisions of said House Bill No. 393, Acts, Fifty-first Legislature, 1949, Chapter 228, Page 427, and further provided that notwithstanding anything contained herein to the contrary, the existing laws of the State of Texas applicable to the use of public roads, streets and waters of the State by telephone and telegraph corporations shall apply also to the erection, construction, maintenance, location and operation of lines, poles and other fixtures by telegraph and telephone corporations over, under, across, upon and along any Project constructed by the Authority.

The State of Texas hereby consents to the use of all lands owned by it, including lands lying under water, which are deemed by the Authority to be necessary for the construction or operation of any Turnpike Project. Provided, however, that nothing herein shall be construed as depriving the School Land Board of authority to execute leases in the manner authorized by law for the development of oil, gas and other minerals on State-owned lands adjoining any such Project, or in tidewater limits, and to this end such leases may provide for directiona drilling from such adjoining land and tidewater area.

Sec. 7. The Authority is hereby authorized and empowered to acquire by purchase, whenever it shall deem such purchase expedient, any land, property rights, right-of-ways, franchises, easements and other interests in lands as it may deem necessary for the construction or operation of any Turnpike Project upon such terms and at such price as may be considered by it to be reasonable and can be agreed upon between the Authority and the owner thereof, and to take title thereto in the name of the Authority.

The governing body of every county, city, town, political subdivision or public agency is authorized without any form of advertisement to make conveyance of title or rights and easements to any property needed by the Authority to effect its purposes in connection with the construction or operation of a Turnpike Project.

Condemnation of Property

Sec. 8. Whenever a reasonable price cannot be agreed upon, or whenever the owner is legally incapacitated, or is absent, unknown or unable to convey valid title, the Authority is hereby authorized, and empowered to acquire, by the exercise of the power of condemnation and in accordance with and subject to the provisions of any and all existing laws and statutes applicable to the exercise of the power of condemnation of property for public use, any land, property rights, right-of-ways, franchises, easements or other property deemed necessary or appropriate for the construction or the efficient operation of any Turnpike Project or necessary to the restoration of, public or private property damaged or destroyed; provided, however, the Authority may not condemn any land except such as will be necessary for road and right-of-way purposes. The road and right-of-way purposes for which the Authority may condemn land, shall include the land necessary for access, approach, and interchange roads, but shall not include any supplemental facility for other purposes. Such supplemental facilities must be constructed upon land acquired by purchase and not by condemnation. In any condemnation proceedings the Court having jurisdiction of the suit, action or proceeding, may make such orders as may be just to the Authority and to the owners of the property to be condemned and may require an undertaking or other security to secure such owners against any loss or damage by reason of the failure of the Authority to accept and pay for the property, but neither such undertaking or security nor any act or obligation of the Authority shall impose any liability upon the State or the Authority except such as may be paid from the funds provided under the authority of this Act.

In all cases where property of an owner is severed by the Turnpike Project, the Authority shall pay the value of the property acquired and the severance damages, to the property remaining in the owner. Such severance damages shall include those arising from the inaccessibility of one tract to the other. The Authority shall provide and maintain at all times for the owner of such severed land, his employees and representatives, without charge, a passageway over or under the project, provided however that the Authority shall not be required to furnish such a passageway (1) if the owner waives such requirement, or (2) if the original tract or ownership involved is less than eighty acres. The Authority is hereby authorized and empowered to negotiate for, and purchase the land or either tract of the land severed, provided satisfactory terms may be agreed upon with the owner. All severed land acquired by the Authority, as herein provided, shall be sold and disposed of by the Authority within a period of two years after its acquisition.
In addition to any other power granted in this Act, the powers and procedure granted to and available to the State Highway Commission for acquisition of property, are likewise granted to and made available to the Authority, subject to the provisions of this Act.

Turnpike Revenue Bonds

Sec. 9. The Authority is hereby authorized to provide by resolution, from time to time, for the issuance of turnpike revenue bonds of the Authority for the purpose of paying all or any part of the cost of a Turnpike Project. Each Project shall be financed and built by a separate issue of bonds. The proceeds of no issue of bonds shall be divided between or among two or more projects. The cost of each Project shall be determined and set up as a separate undertaking and project. The principal of and the interest on such bonds shall be payable solely from the funds herein provided for such payment and from the revenues of the particular project for which such bonds were issued. The bonds of each issue shall be dated, shall bear interest at such rate or rates, not exceeding five (5) per centum per annum, shall mature at such time or times, not exceeding forty (40) years from their date or dates, as may be determined by the Authority, and may be made redeemable before maturity, at the option of the Authority, at such price or prices and under such terms and conditions as may be fixed by the Authority prior to the issuance of the bonds.

The Authority shall determine the form of the bonds, including any interest coupons to be attached thereto, and shall fix the denomination or denominations of the bonds and the place or places of payment of principal and interest, which may be at any bank or trust company within or without the State. The bonds shall be signed by the Chairman of the Authority, or shall bear his facsimile signature, and the official seal of the Authority or a facsimile thereof shall be impressed or printed thereon, and attested by the Secretary and Treasurer of the Authority. Any coupons attached thereto shall bear the facsimile signature of the Chairman of the Authority. In cases where any officer whose signature or a facsimile of whose signature shall appear on any bonds or coupons shall cease to be such officer before the delivery of such bonds, such signature or such facsimile shall nevertheless be valid and sufficient for all purposes, the same as if he had remained in office until such delivery. All bonds issued under the provisions of this Act shall have and are hereby declared to have all the qualities and incidents of, and are hereby declared to be and are constituted negotiable instruments under the negotiable instruments law of the State. The bonds may be issued in coupon or in registered form, or both, as the Authority may determine, and provisions may be made for the registration of any coupon bonds as to principal alone and also as to both principal and interest, and for the reconversion into coupon bonds of any bonds registered as to both principal and interest. If the duty of such reconversion is imposed on the Trustee in a Trust Agreement as authorized under Section 11, the substituted coupon bonds need not be reapproved by the Attorney General of Texas, and they shall remain incontestable. The Authority may sell such bonds in such manner, either at public or at private sale, and for such price, as it may determine to be for the best interests of the Authority, but no such sale shall be made at a price so low as to require the payment of interest on the money received therefor at more than five (5) per centum per annum, computed with relation to the absolute maturity of the bonds in accordance with standard tables of bond values, excluding, however, from such computation the amount of any premium to be paid on redemption of any bonds prior to maturity.

The proceeds of the bonds of each issue shall be used solely for the payment of the Cost of the Turnpike Project for which such bonds shall have been issued, and shall be disbursed in such manner and under such restrictions, if any, as the Authority may provide in the resolution authorizing the issuance of such bonds or in the trust agreement hereinafter mentioned securing the same. If the proceeds of the bonds of any issue, by error of estimates or otherwise, shall be less than such Cost, additional bonds may in like manner be issued to provide the amount of such deficit, and, unless otherwise provided in the resolution authorizing the issuance of such bonds or in the trust agreement securing the same, shall be deemed to be of the same issue and shall be entitled to payment from the same fund without preference or priority of the bonds first issued. If the proceeds of the bonds of any issue shall exceed the Cost of the Turnpike Project for which the same shall have been issued, the surplus shall be deposited to the credit of the sinking fund for such bonds.

Prior to the preparation of definitive bonds, the Authority may, under like restrictions, issue interim receipts or temporary bonds, with or without coupons, exchangeable or definitive bonds when such bonds shall have been executed and are available for delivery. The Authority may also provide without reapproval by the Attorney General, for the replacement of any bonds which shall become mutilated or shall be destroyed or lost. Bonds may be issued under the provisions of this Act without obtaining the consent of any department, division, commission, board, bureau or agency of the State, and without any other proceedings or the happening of any other conditions or things than those proceedings, conditions or things which are specifically required by this Act.

Before the Authority may deliver any bonds issued hereunder to the purchaser thereof, the proceedings authorizing their issuance and securing the bonds shall be presented to the Attorney General of Texas for examination and approval. If the bonds shall have been duly authorized in accordance with
the Constitution and laws of the State and constitute valid and binding obligations of the Authority, according to their tenor and effect, and proper charges against the revenues pledged to their payment, he shall approve the bonds. Without such approval the bonds cannot be so issued and delivered to the purchaser. The bonds when approved shall be registered by the Comptroller of Public Accounts of the State of Texas. After such approval and registration the bonds shall be incontestable.

Turnpike Revenue Refunding Bonds

Sec. 10. The Authority is hereby authorized to provide by resolution for the issuance of turnpike revenue refunding bonds of the Authority for the purpose of refunding any bonds then outstanding, issued on account of a Project, which shall have been issued under the provisions of this Act, including the payment of any redemption premium thereon and any interest accrued or to accrue to the date of redemption of such bonds, and, if deemed advisable by the Authority, for the additional purpose of constructing improvements, extensions or enlargements to the Turnpike Project in connection with which the bonds to be refunded shall have been issued. The issuance of such bonds, the maturities and other details thereof, the rights of the holders thereof, and the rights, duties and obligations of the Authority in respect of the same, shall be governed by the provisions of this Act in so far as the same may be applicable. Within the discretion of the Authority the refunding bonds may be issued in exchange for outstanding bonds or may be sold and the proceeds used for the purpose of redeeming outstanding bonds.

Trust Agreement

Sec. 11. In the discretion of the Authority any bonds issued under the provisions of this Act may be secured by a trust agreement by and between the Authority and a corporate trustee, which may be any trust company or bank having the powers of a trust company within or without the State. Any such trust agreement may pledge or assign the tolls and all other revenues, if any, to furnish such revenue refunding bonds of the Authority for the purpose of refunding any bonds then outstanding, issued on account of a Project, which shall have been issued under the provisions of this Act, including the payment of any redemption premium thereon and any interest accrued or to accrue to the date of redemption of such bonds, and, if deemed advisable by the Authority, for the additional purpose of constructing improvements, extensions or enlargements to the Turnpike Project in connection with which the bonds to be refunded shall have been issued. The issuance of such bonds, the maturities and other details thereof, the rights of the holders thereof, and the rights, duties and obligations of the Authority in respect of the same, shall be governed by the provisions of this Act in so far as the same may be applicable. Within the discretion of the Authority the refunding bonds may be issued in exchange for outstanding bonds or may be sold and the proceeds used for the purpose of redeeming outstanding bonds.

No trust agreement shall evidence a pledge of the revenues of any Project to any other purpose than for the payment of the cost of maintaining, repairing and operating the Turnpike Project and the principal of and interest on such bonds as the same shall become due and payable and to create and maintain reserves for such purposes, as prescribed in Section 12 hereof. Any such trust agreement or any resolution providing for the issuance of such bonds may contain such provisions for protecting and enforcing the rights and remedies of the bondholders as may be reasonable and proper and not in violation of law, including covenants setting forth the duties of the Authority in relation to the acquisition of property and the construction, improvement, maintenance, repair, operation and insurance of the Turnpike Project in connection with which such bonds shall have been authorized, and the custody, safeguarding and application of all moneys, and provisions for the employment of consulting engineers in connection with the construction or operation of such Turnpike Project. It shall be lawful for any bank or trust company to incorporate in such trust agreement the laws of the State which may act as depository of the proceeds of bonds or of revenues to furnish such indemnifying bonds or to pledge such securities as may be required by the Authority. Any such trust agreement may set forth the rights and remedies of the bondholders and of the trustee and may restrict the individual right of action by bondholders as is customary in trust agreements or trust indentures securing bonds and debentures of corporations. In addition to the foregoing, any such trust agreement may contain such provisions as the Authority may deem reasonable and proper for the security of the bondholders. All expenses incurred in carrying out the provisions of any such trust agreement may be treated as a part of the cost of the operation of the Turnpike Project.

Revenues

Sec. 12. The Authority is hereby authorized to fix, revise, charge and collect tolls for the use of each Turnpike Project and the different parts or sections thereof, and to contract with any person, partnership, association or corporation desiring the use of any part thereof, including the right-of-way adjoining the paved portion, for placing thereon gas stations, garages, stores, hotels, restaurants, or for any other purpose except for tracks for railroad or railway use, and except for use by telephone, telegraph, electric light or power lines and to fix the terms, conditions, rents and rates of charges for such use. Such tolls shall be so fixed and adjusted in respect of the aggregate of tolls from the Turnpike Project in connection with which the bonds of any issue shall have been issued as to provide a fund sufficient with other revenues, if any, to pay (a) the cost of maintaining, repairing and operating such Turnpike Project and (b) the principal of and the interest on such bonds as the same shall become due and payable, and to create reserves for such purposes. Such tolls shall not be subject to supervision or regulation by any other commission, board, bureau or agency of the State. The tolls and all other revenues derived from the Turnpike Project in connection with which the bonds of any issue shall have been issued, except such part thereof as may be necessary to pay such cost of maintenance, repair and operation and to provide such reserves therefor as may be provided for in the resolution authorizing the issuance of such bonds or in the trust agreement securing the same, shall be set aside at such regular intervals as may be provided in such resolution or such trust agreement in a sinking fund which is hereby pledged to, and charged with, the payment of (1) the interest upon such bonds as such interest shall fall due, (2) the
principal of such bonds as the same shall fall due, (3) the necessary charges of paying agents for paying principal and interest, and (4) the redemption price or the purchase price of bonds retired by call or purchase as therein provided. The use and disposition of moneys to the credit of such sinking fund shall be subject to the provisions of the resolution authorizing the issuance of such bonds or of such trust agreement.

The revenues and disbursements for and on behalf of each Project shall be kept separately. No revenues of one Project shall be used to pay cost of another Project. The moneys in the sinking fund, less such reserve as may be provided in such resolution or trust agreement, if not used within a reasonable time for the purchase of bonds for cancellation as above provided, shall be applied to the redemption of bonds at the redemption price then applicable.

Expenditures for Feasibility Studies

Sec. 12a. Notwithstanding the prohibitions contained in Section 12 or any other provision of this Act, Texas Turnpike Authority shall be authorized subject to the prior approval of the Texas Highway Commission to use any available revenues derived from any Turnpike Project, and to borrow money, and issue interest-bearing evidences of indebtedness or enter into a loan agreement or loan agreements, payable out of, and to pledge or hypothecate any available revenues anticipated to be derived from, the operation of any Turnpike Project, for the purpose of paying the expenses of studying the cost and feasibility and any other expenses relating to the preparation and issuance of Turnpike Revenue Bonds for the construction of any new project, and said fund shall be reimbursable to the party paying the expenses out of the proceeds of turnpike revenue bonds issued for the construction of such new project. The funds expended on behalf of any such new project shall be regarded as a part of the cost of such new project, and said fund shall be reimbursed out of the proceeds of turnpike revenue bonds issued for the construction of any such additional project. After this Act is signed by the governor, all money reimbursable from the sale of bonds of projects whose studies and other expenses have been advanced from funds of the Dallas-Fort Worth Turnpike shall be reimbursed to this fund for use as a part hereof. For the same purposes, the authority may borrow money and issue promissory notes or other interest-bearing evidences of indebtedness payable out of this fund, pledging or hypothecating thereto any sums therein or to be placed therein.

In addition to the above, any municipality or group of municipalities, any county or group of counties, or any combination of municipalities and counties, or any private group or combination of individuals within the state may pay all or part of the expenses of studying the cost and feasibility and any other expenses relating to the preparation and issuance of turnpike revenue bonds for the construction of a turnpike project. The funds expended on behalf of any new project shall be regarded as part of the cost of such new project, and shall be reimbursed to the project from which such funds were disbursed out of the proceeds of Turnpike Revenue Bonds issued for the construction of any such new project.

Texas Turnpike Authority Feasibility Study Fund

Sec. 12b. Any funds of the Dallas-Fort Worth Turnpike remaining on December 31, 1977, or on such earlier date as the tolls may be lifted in the authority's discretion, after provision for transition expenses, debts, and obligations pursuant to Section 17a of this Act shall be deposited by the authority in a fund which shall be entitled "Texas Turnpike Authority Feasibility Study Fund." No more than One Million Dollars shall be so deposited on such date. The amount deposited shall be reduced by the cost of feasibility studies, if any, requested by the authority and approved by the State Highway and Public Transportation Commission between April 4, 1977, and the date of such deposit. Such fund shall be a revolving fund held in trust by a banking institution chosen by the authority separate and apart from the funds of any project. No funds from any other existing, presently constructed project shall be added to this fund. Such fund shall be used for the purpose of paying the expenses of studying the cost and feasibility and any other expenses relating to the preparation and issuance of turnpike revenue bonds for the construction of any turnpike project; the study of which thereafter shall be authorized by the Texas Turnpike Authority, subject to the prior approval of the State Highway and Public Transportation Commission. The funds expended from this fund on behalf of any such new project shall be regarded as a part of the cost of such new project, and said fund shall be reimbursed out of the proceeds of turnpike revenue bonds issued for the construction of any such additional project. For the same purposes, the authority may borrow money and issue promissory notes or other interest-bearing evidences of indebtedness payable out of this fund, pledging or hypothecating thereto any sums therein or to be placed therein.

In addition to the above, any municipality or group of municipalities, any county or group of counties, or any combination of municipalities and counties, or any private group or combination of individuals within the state may pay all or part of the expenses of studying the cost and feasibility and any other expenses relating to the preparation and issuance of turnpike revenue bonds for the construction of a turnpike project. The funds expended on behalf of any new project shall be regarded as part of the cost of such new project and, with the consent of the Texas Turnpike Authority, shall be reimbursable to the party paying the expenses out of the proceeds of turnpike revenue bonds issued for the construction of such new project.

Trust Funds

Sec. 13. All moneys received pursuant to the authority of this Act, whether as proceeds from the sale of bonds or as revenues, shall be deemed to be trust funds, to be held and applied solely as provided in this Act. The resolution authorizing the issuance of bonds of any issue or the trust agreement securing such bonds shall provide that any officer to whom, or any bank or trust company to which, such moneys shall be paid shall act as trustee of such moneys and shall hold and apply the same for the purpose thereof, subject to such regulations as this Act and such resolution or trust agreement may provide.

Remedies

Sec. 14. Any holder of bonds issued under the provisions of this Act or any of the coupons appertaining thereto, and the trustee under any trust agreement, except to the extent the rights herein...
given may be restricted by such trust agreement, may, either at law or in equity, by suit, action, mandamus, or other proceedings, protect and enforce any and all rights under the laws of the State or granted hereunder or under such trust agreement or the resolution authorizing the issuance of such bonds, and may enforce and compel the performance of all duties required by this Act or by such trust agreement, or resolution to be performed by the Authority or by any officer thereof, including the charging and collecting of tolls.

Exemption From Taxation

Sec. 15. The exercise of the powers granted by this Act will be in all respects for the benefit of the people of the State, for the increase of their commerce and prosperity, and for the improvement of their health and living conditions, and as the operation and maintenance of Turnpike Projects by the Authority will constitute the performance of essential governmental functions, the Authority will not be required to pay any taxes or assessments upon any Turnpike Project or any property acquired or used by the Authority under the provisions of this Act or upon the income therefrom, and the bonds issued under the provisions of this Act, their transfer and the income therefrom, including any profit made on the sale thereof, shall at all times be free from taxation within the State.

Eligibility of Bonds

Sec. 16. All bonds of the Authority shall be and are hereby declared to be legal and authorized investments for banks, savings banks, trust companies, building and loan associations, savings and loan associations, insurance companies, fiduciaries, trustees, guardians, and for the sinking funds of cities, towns, villages, counties, school districts, and other political corporations or subdivisions of the State of Texas. Such bonds shall be eligible to secure the deposit of any and all public funds of the State of Texas, of any all public funds of cities, towns, villages, counties, school districts, and other political subdivisions or subdivisions of the State of Texas. Such bonds shall be eligible to secure the deposit of any and all public funds of the State of Texas, of any all public funds of cities, towns, villages, counties, school districts, and other political subdivisions of the State of Texas; and such bonds shall be lawful and sufficient security for said deposits to the extent of their face value or to the extent of their market value, whichever value is the smaller, when accompanied by all unmatured coupons appurtenant thereto.

Public Hearings

Sec. 16a. (a) Before the authority finally approves an engineering design for a project, the authority or a designated representative of the authority shall hold at least one public hearing in the general locality in which the project is to be located. Persons interested in the project shall be given an opportunity at the public hearing to testify about the project and to inspect the plans and designs prepared for the project.

(b) Not less than 15 days nor more than 21 days before the public hearing, the authority shall furnish a written notice of the public hearing to the governing body of each county, city, or town in which any part of the project is to be located and shall publish the notice in the general locality in which the project is to be located in a manner likely to inform the general public of the public hearing.

(c) At least seven days before the public hearing, the authority shall file with the governing bodies the plans and designs prepared for the project.

Dallas-Fort Worth Turnpike Project

Sec. 17. The Authority is expressly authorized and required to take immediate steps to process the construction of a Project to be known as "Dallas-Fort Worth Turnpike," and to construct, maintain, repair and operate such Turnpike Project between the cities of Dallas and Fort Worth. The project shall extend from a convenient connecting point in the principal East-West highway artery through the City of Dallas in Dallas County, to a convenient connecting point in the principal East-West highway artery through the City of Fort Worth in Tarrant County, along a route to be approved by the Highway Commission of the State of Texas, to be situated for the greater part of its length between United States Highway No. 80 and State Highway No. 183, and shall embrace all bridges, tunnels, overpasses, underpasses, interchanges, entrance plazas, approaches, toll houses, service stations and administration, storage and other buildings which the Authority may deem necessary for the operation of the Project, together with all property rights, easements and interests which may be acquired by the Authority for the construction or the operation of the Project.

Toll Free Status of Dallas-Fort Worth Turnpike; Transition Plan

Sec. 17a. This section shall apply only to the Dallas-Fort Worth Turnpike, constructed pursuant to this Act and presently existing in Dallas and Tarrant Counties, and to no other project now or hereafter existing and shall supersede any provisions of this Act in conflict herewith. The Dallas-Fort Worth Turnpike shall become toll free, at 12:00 p.m. on December 31, 1977, or on such earlier date as the tolls may be lifted in the authority’s discretion. The authority shall, with the approval of the State Highway and Public Transportation Commission, effectuate a plan for an orderly transition of the Dallas-Fort Worth Turnpike to the State Department of Highways and Public Transportation on the date when tolls are lifted. In no event shall the transition plan operate to extend the cutoff time for the collection of tolls set out above. The transition plan shall provide a reasonable time within which said plan shall be consummated and shall include retention by the authority of toll collection and accounting equipment, toll booths and other equipment, furnishings, and supplies usable by the authority in the operation of other projects, the provision of funds for unemployment compensation and
other payments required by state law in the termination of employment of state employees, the payment of debts and other contractual obligations of the authority payable from funds of the Dallas-Fort Worth Turnpike, including but not limited to the payment to the City of Fort Worth and Tarrant County of their proportionate interests in the balance remaining in the Special Trust Fund created to hold money paid by said city and county for free use of the Dallas-Fort Worth Turnpike from Oakland Boulevard to the Fort Worth terminus and such other requisites to the transition as may be appropriate. Money for the payment of such transition expenses, debts, and obligations shall be set aside and retained by the authority for such purposes in a trust fund with a banking institution chosen by the authority to be used for such purposes and the payment of expenses appurtenant thereto.

Existing Toll Roads as Part of Free Highway System

Sec. 18. The Authority hereby created is authorized, empowered and directed to receive and accept for the State of Texas as a part of the free highway system thereof any toll road constructed and operated by a toll road corporation as described in Section 5, subsection (n), hereof, subject to the following conditions and requirements:

1. That at the time of such acceptance such toll road shall be free and clear of any and all encumbrances.

2. That no compensation whatsoever shall be required to be paid therefor by the State of Texas.

3. That at the time of such acceptance by the Authority such toll road shall be in good condition and repair to the satisfaction of the State Highway Commission.

4. That such toll road shall have been constructed and maintained in such a manner as to be equal or superior to the standards of the State Highway Commission.

5. That in letting the contracts for the construction and maintenance of said road such toll road corporation shall have followed the methods and procedures as are used by the State Highway Commission of Texas in such matters.

A toll road corporation as described in Section 5, subsection (n) hereof, shall be obligated to make an irrevocable gift of all of its assets to the State of Texas and shall irrevocably bind itself to use all of its net income or profits to retire the indebtedness created for the acquisition, construction, maintenance and operation of such road, and which corporation shall at the time of the acquisition of any real property execute such instruments as may be necessary to convey or transfer such real property to the State of Texas, which instruments shall be deposited in escrow with any banking corporation chartered under the laws of Texas or of the United States with an escrow agreement which shall authorize and empower said escrow agent to deliver such instruments of conveyance and transfer to the Authority herein created when the requirements and conditions set forth above have been met and complied with. The authority herein created is hereby authorized, empowered and directed on behalf of the State of Texas to execute such instruments as may be necessary to complete such escrow agreement.

"The equitable, beneficial and superior title to the property belonging to a corporation described in Section 5, subsection (n) hereof, which is subject to an escrow agreement provided herein shall be vested at all times in the State of Texas and shall constitute public property used for public purposes, subject only to any liens or encumbrances created against said property by such corporation to finance the acquisition, construction, maintenance or operation of such road, and the board of directors of such corporation is hereby authorized and empowered to pledge, mortgage or otherwise encumber any of its properties or revenues, whether realized or unrealized, for such purposes, and the authorities herein created shall be required to execute such instruments of consent and subordination as may be required to give and grant such corporation such rights to pledge, mortgage or otherwise encumber its property for the purposes above set forth and, provided further, that neither the State of Texas nor any of its political subdivisions nor the Authority herein created shall ever be liable in any way for any indebtedness created by such a corporation or for any claim, demand, or obligation of any kind which may arise or be asserted against such a corporation, and that all bonds or other evidences of indebtedness of such corporation shall contain a statement to that effect on the fact thereof."

Cessation of Tolls

Sec. 19. When all bonds issued under the provisions of this Act in connection with any Turnpike Project, and the interest thereon shall have been paid or a sufficient amount for the payment of all such bonds and the interest thereon to the maturity thereof or for the redemption thereof, shall have been set aside in trust for the benefit of the bondholders, such Project, if then in good condition and repair to the satisfaction of the State Highway Commission, shall become part of the State Highway Commission and shall thereafter be maintained by the State Highway Commission, free of tolls. But if at the time such bonds are so paid or the redemption thereof so provided for, the State Highway Commission determines that the Project is not in such state of repair as justifies its acceptance as a part of the State Highway System, the Authority shall continue to operate the Project as a toll facility, and shall continue the tolls then in effect or revise the tolls so as to provide money sufficient to assure payment of the expense of maintenance and operation, and the making of such repairs and replacements as are necessary to meet the minimum requirements of the State Highway Commission.
within the shortest practicable time. Any money remaining to the credit of such Project after retire-
ment of all of the bonds issued on its account—
shall, upon acceptance of the Project by the State
Highway Commission, be delivered by the Authority
to the State Highway Commission and shall be held
by it as a special reserve fund to assure continued
maintenance of the facilities comprising the Project,
to be administered under rules and regulations to be
prescribed by the State Highway Commission.

When the bonds issued to finance a Turnpike
Project are fully paid and the Turnpike Project has
been accepted by the State Highway Commission as
provided for in this Section 19, within one (1) year
from date of acceptance of said Project, including
all the installations thereon, excepting only the road
bed and highway sections, the State Highway De-
partment shall advertise for public sale all of said
installations which may have been acquired as pro-
vided in Section 12 hereof, and shall receive sealed
bids therefor. It may reject any or all bids but shall
dispose of all such properties within two (2) years
after accepting title to the Turnpike Project.

Preliminary Expenses

Sec. 20. The State Highway Commission is here-
by authorized in its discretion, if and to the extent
requested by the Authority, to expend out of any
funds available for the purpose, such moneys as
may be necessary for the study of a Project and to
use its engineering and other forces, including con-
sulting engineers and traffic engineers, for the pur-
pose of effecting such study and to pay for such
additional engineering and traffic and other expert
studies as it may deem expedient and all such
expenses incurred by the State Highway Commiss-
ion prior to the issuance of turnpike revenue bonds
under the provisions of this Act, shall be paid by the
State Highway Commission and charged to such
Project, and the State Highway Commission shall
keep proper records and accounts showing each
amount so charged. Upon the sale of turnpike
revenue bonds for any such project, the funds so
expended by the State Highway Commission in con-
nection with such Project shall be reimbursed to the
State Highway Commission from the proceeds of
such bonds.

sions of the State of Texas, notwithstanding any
contrary provision of law, are hereby authorized
and empowered to lease, lend, grant or convey to
the Authority at its request, upon such terms and
conditions as the proper authorities of such coun-
ties, cities, villages, other political subdivisions or
public agencies and commissions of the State may
decide reasonable and fair and without the necessity
for any advertisement, order of court or other ac-
tion or formality, other than the regular and formal
action of the authorities concerned, any real prop-
erty which may be necessary or appropriate to the
effectuation of the authorized purposes of the Au-
thority, including highways and other real property
already devoted to public use.

An action by the Authority may be evidenced in
any legal manner, including a resolution adopted by
its Board of Directors.

If the Authority employs a general counsel, the
counsel shall be prohibited from lobbying for the
Authority, and no member of the Authority shall
engage in activities requiring registration as a lob-
byist under Chapter 422, Acts of the 63rd Legis-
lature, Regular Session, 1973, as amended (Article
6252-9c Vernon's Texas Civil Statutes).

who contracts with the Authority or is interested,
either directly or indirectly, in any contract with the
Authority or in the sale of any property, either real

fails or refuses to pay the toll provided therefor,
shall be punished by a fine of not more than One
Hundred Dollars ($100) and in addition thereto the
Authority shall have a lien upon the vehicle driven
by such person for the amount of such toll and may

shall have been paid.

The Authority shall cause an audit of its books
and accounts to be made at least once in each year
by certified public accountants and the cost thereof
may be treated as a part of the cost of construc-
tion or of operation of the Turnpike Project.

General Appropriations Act.

(b) The secretary, treasurer, the project manager

are entitled to reimbursement for actual and necessary expenses incurred for travel on official business, except that reimbursement for transportation expenses is at the rates provided in the travel provisions of the General Appropriations Act.

Reports

Sec. 21b. (a) The authority shall file with the governor, the Legislative Reference Library, and the Legislative Budget Board certified copies of the minutes of the authority's meetings. Sec. 23. This Act, being necessary for the welfare of the State and its inhabitants, shall be liberally construed to effect the purposes thereof.

Secs. 24 to 26. [Omitted].

Project Pooling Within the Same County

Sec. 27. Notwithstanding any conflicting provisions in this Act and superseding the same where in conflict with this section, the authority is hereby authorized and empowered, but only as to projects located wholly within the same county and subject to all the provisions of this section:

(a) To determine after a public hearing, subject to prior approval by the State Highway and Public Transportation Commission and a resolution approving the same duly passed by the county commissioners court of the county where the projects are located, that any two or more projects now or hereafter constructed or determined to be constructed by the authority in the same county shall be pooled and designated as a "pooled project." Any existing project or projects may be pooled in whole or in part with any new project or projects or parts thereof. Upon designation such "pooled project" shall become a "project" or "turnpike project" as defined in Section 4(c) of this Act and as used in other sections of this Act. No project may be pooled more than once. Consistent with the trust indenture regarding securing bonds of that project, the resolution of the county commissioners court shall set a date certain when each of the projects being authorized to be pooled shall become toll free.

(b) Subject to the terms of this Act and subject to the terms of any trust agreement securing the payment of any turnpike revenue bonds, the authority is authorized to provide by resolution from time to time for the issuance of turnpike revenue bonds of the authority for the purpose of paying all or any part of the cost of any pooled project or the cost of any part of such pooled project and to pledge revenues of such pooled project or any part thereof.

(c) Subject to the terms of any trust agreement securing the payment of any turnpike revenue bonds, the authority is authorized to issue by resolution turnpike revenue refunding bonds of the authority for the purpose of refunding any bonds then outstanding, issued on account of any pooled project or any part of any pooled project issued under the provisions of this Act, including the payment of any redemption premium thereon and any interest accrued or to accrue to the date of redemption of such bonds and, if deemed advisable by the authority, for the additional purpose of constructing improvements, extensions, and enlargements to the pooled project or to any part of any pooled project in connection with which or in connection with any part of which bonds to be refunded shall have been issued. Revenues of all or any part of such pooled project may be pledged to the payment of such refunding and improvement bonds. Such improvements, extensions, or enlargements are not restricted to and need not be constructed on any particular part of a pooled project in connection with which bonds to be refunded may have been issued but may be constructed in whole or in part on other parts of the pooled project not covered by the bonds to be

[Acts 1957, 55th Leg., p. 724, ch. 300, § 1.]

Art. 6674w. Powers of Commission

1. Authorization for Modernization of Highway Facilities. To effectuate the purposes of this Act, the State Highway Commission is empowered to lay out, construct, maintain, and operate a modern State Highway System, with emphasis on the construction of controlled access facilities and to convert, wherever necessary, existing streets, roads and highways into controlled access facilities to modern standards of speed and safety; and, to plan for future highways. The State Highway Commission is further empowered to lay out, construct, maintain and operate any designated State Highway, now or hereafter constructed, with such control of access thereto as is necessary to facilitate the flow of traffic, and promote the Public Safety and Welfare, in any area of the State, whether in or outside of the limits of any incorporated city, town or village, including Home Rule Cities, and to exercise all of the powers and procedures to it granted by existing laws and this Act for the accomplishment of such purposes and the exercise of such powers and duties; provided, however, that in the case of any project involving the bypassing of or going through any county, city, town, or village, including Home Rule Cities, the State Highway Commission shall afford the opportunity for not less than one (1) public hearing in the locality before an authorized representative of the State Highway Commission, at which persons interested in the development of the project shall have the opportunity for attendance, discussion and inspection of the design and schematic layout presented and filed with the governing body of such county, city, town or village, including Home Rule Cities, at least seven (7) days before the public hearing, by the State Highway Department. Such hearing shall be held not less than three (3) days nor more than ten (10) days after the publication in the locality of notice of such hearing.

2. Control of Access. The State Highway Commission, by proper order entered in its minutes, is hereby authorized and empowered:

(a) To designate any existing or proposed State Highway, of the Designated State Highway System, or any part thereof, as a Controlled Access Highway;
(b) To deny access to or from any State Highway, presently or hereafter designated as such, whether existing, presently being constructed, or hereafter constructed, which may be hereafter duly designated as a Controlled Access Highway, from or to any lands, public, or private, adjacent thereto, and from or to any streets, roads, alleys, highways or any other public or private ways intersecting any such Controlled Access Highway, except at specific points designated by the State Highway Commission; and to close any such public or private way at or near its point of intersection with any such Controlled Access Highway;

(f) To control, restrict, and determine the type and extent of access to be permitted at any such designated point of access;

g) To erect appropriate protective devices to preserve the utility, integrity, and use of such designated Controlled Access Highway; and,

(h) To modify or repeal any order entered pursuant to the powers herein granted.

Provided, however, that nothing in the foregoing subparagraphs (a) through (f), inclusive, shall be construed to alter the existing rights of any person to compensation for damages suffered as a result of the exercise of such powers by the State Highway Commission under the Constitution and laws of the State of Texas.

Subject to the foregoing limitations any order issued by the State Highway Commission pursuant to such powers shall supersede and be superior to any rule, regulation or ordinance of any department, agency or subdivision of the State or any county, incorporated city, town or village, including Home Rule Cities, in conflict therewith.

No injunction shall be granted to stay or prevent the denial of previously existing access to any State Highway upon the order of the Commission except at the suit of the owner or lessee of real property actually physically abutting on that part of such State Highway to which such access is to be denied pursuant to the Commission's order, and then only in the event that said abutting owner or lessee shall not have released his claim for damages resulting from such denial of access or a condemnation suit shall not have been commenced to ascertain such damages, if any.

Along new Controlled Access State Highway locations, abutting property owners shall not be entitled to access to such new Controlled Access State Highway locations as a matter of right, and any denial of such access shall not be deemed as grounds for special or exemplary damages, except where access to such new Controlled Access State Highway shall have been specifically authorized by the State Highway Commission to or from particular lands abutting upon such new Controlled Access State Highway in connection with the purchase or condemnation of lands or property rights from such abutting owners to be used in such new Controlled Access State Highway location, and the State Highway Commission thereafter denies access to or from such particular abutting lands to such State Highway at the point where such lands actually abut upon such State Highway.

I. Powers of Purchase and Condemnation for Highway Purposes. (a) Any land in fee simple or any lesser estate or interest therein; any property rights of any kind or character including, but not limited to, rights of ingress and egress and reservation rights in land which restrict or prohibit the adding of new, or addition to or modification of existing improvements on such land, or subdividing
the same; and any timber, earth, stone, gravel, or other material which the State Highway and Public Transportation Commission may in its judgment determine to be necessary or convenient to any State Highway to be constructed, reconstructed, maintained, widened, straightened or lengthened including, but not limited to, any land, property rights or materials deemed by the Commission necessary or convenient for the purpose of protecting any State Highway; draining any State Highway; diverting streams or rivers or any other watercourse from the right of way of any State Highway; storing materials and equipment used in the construction and maintenance of State Highways; constructing and operating warehouses and other buildings and facilities used in connection with the construction, maintenance, and operation of State Highways; laying out, construction, and maintenance of roadside parks; laying out, construction, and maintenance of vehicular parking lots that will contribute to maximum utilization of State Highways with the least possible congestion; and any other purpose related to the laying out, construction, improvement, maintenance, beautification, preservation and operation of State Highways, may be purchased by the State Highway and Public Transportation Commission in the name of the State of Texas, on such terms and conditions and in such manner as the Commission may deem proper.

(b) Any land or any estate or interest therein; any property rights of any kind or character including, but not limited to, rights of ingress and egress, and reservation rights in land which restrict or prohibit for any period of time not to exceed seven (7) years the adding of new, or addition to or modification of existing improvements on such land, or subdividing or resubdividing same; and any timber, earth, stone, gravel, or other material which the State Highway and Public Transportation Commission may in its judgment determine to be necessary or convenient to any State Highway to be constructed, reconstructed, maintained, widened, straightened or lengthened including, but not limited to, any land, property rights or materials deemed by the Commission necessary or convenient for the purpose of protecting any State Highway; draining any State Highway; diverting streams or rivers or any other watercourse from the right of way of any State Highway; laying out, construction, and maintenance of roadside parks; laying out, construction, and maintenance of vehicular parking lots that will contribute to maximum utilization of State Highways with the least possible congestion; and any other purpose related to the laying out, construction, improvement, maintenance, and operation of State Highways, may be acquired, whether within or without the confines of any incorporated city, town or village, whether same are incorporated under general or special laws, including Home Rule Cities.

In the prosecution of any condemnation suit brought by the State Highway and Public Transportation Commission in the name of the State of Texas for the acquisition of property pursuant to the powers granted in this Act, the Attorney General, at the request of the Commission, or, at the Attorney General's direction, the applicable County or District Attorney or Criminal District Attorney, shall bring and prosecute the suit in the name of the State of Texas and the venue of any such suit shall be in the county in which the property or a part thereof is situated.

In the exercise of the powers of Eminent Domain herein conferred, the State Department of Highways and Public Transportation shall be subject to the laws and procedures prescribed by Title 52, Articles 3264 to 3271, inclusive, Revised Civil Statutes of Texas, 1925, as said Articles or said Title have been or may be from time to time amended, and shall be entitled to condemn the fee or such lesser estate or interest as it may specify in any statement or petition in any condemnation proceeding filed by it pursuant to such powers; provided however, that any statement or petition in condemnation brought by the Department pursuant hereto shall exclude from the estate sought to be condemned all the oil, gas and sulphur which can be removed from beneath the land condemned without any right whatever remaining to the owners of such oil, gas and sulphur to or from the surface of the land condemned for the purpose of exploring, developing, drilling or mining of the same; and further provided, that none of the powers granted herein shall be a grant to the State Highway and Public Transportation Commission for the purpose of condemning property which is used and dedicated for cemetery purposes pursuant to Articles 912w-10 et seq., Vernon's Revised Civil Statutes of Texas.

2. State and Other Public Lands. The governing body of every county, city, town, village, political subdivision or public agency is hereby authorized without any form of advertisement to make conveyance of title or rights and easements, owned by any such body, to any property needed by the State Highway and Public Transportation Commission to effect its purposes in connection with the construction or operation of the State Highway System.

Whether purchased or condemned by the Commission, the lands, property rights and materials which are purchased or condemned may also include those belonging to the public, whether under the jurisdiction of the State or any department or agency thereof, county, city, town, village, including Home Rule Cities, or other entity or subdivision thereof.
The State of Texas hereby consents to the use of all lands owned by it, including lands lying underwater, which are deemed by the Commission to be necessary for the construction or operation of any State Highway; provided, however, that nothing herein shall be construed as depriving the School Land Board of authority to execute leases in the manner authorized by law for the development of oil, gas and other minerals on State-owned lands adjoining any such State Highway, or in tidewater limits, and to this end such leases may provide for directional drilling from such adjoining land and tidewater area. The Commission shall advise, and make arrangements with, the State Department or agency having jurisdiction to be such lands to accomplish such necessary purposes. Any such State Department or agency is hereby directed to cooperate with the State Department of Highways and Public Transportation in this connection, and as to any such department or agency not expressly authorized to act through some designated representatives, express authority is hereby granted to such department or agency to do whatever acts are necessary hereunder by and through the Chairman of its Board, Department Head, or Executive Director, whether appointed or elected, whichever may be appropriate.

If the land, property rights, or material to be acquired by the State Department of Highways and Public Transportation are of such a nature that its acquisition under the provisions of this Act will deprive any such department or agency of the State of a thing of value to such department or agency in the exercise of its lawful functions, then adequate compensation therefor shall be made, based upon vouchers drawn for this purpose payable to the furnishing department or agency. Payments received by the furnishing department or agency shall be credited to that department’s or agency’s current appropriation items or accounts from which the expenditures of that character were originally made, or if no such items or accounts from which the expenditures of that character were originally made, or if no such item or account exists, then to an account of such department or agency determined to be appropriate thereto by the Comptroller of Public Accounts.

In the event, but only in the event, the State Department of Highways and Public Transportation and such other department or agency are unable to agree upon adequate compensation, then the State Board of Control shall determine the fair, equitable and realistic compensation to be paid.

The powers, authority, jurisdiction and procedures granted to the State Highway Department and State Highway Commission in the foregoing Sections of this Act shall be deemed to provide additional powers, authority, jurisdiction, and procedures to those now existing and conferred by the laws of the State of Texas upon the State Highway Department and State Highway Commission and shall not be regarded as derogation of any powers, authority, jurisdiction, or procedures now existing under the laws of Texas, except that restrictions placed upon the powers, authority, jurisdiction or procedures of the State Highway Department and State Highway Commission by other laws, which are in derogation of, or inconsistent with the powers, authority, jurisdiction and procedures prescribed in the foregoing Sections of this Act or which would tend to hamper or limit the State Highway Department and State Highway Commission in the lawful execution of the powers and authority granted by this Act for the proper accomplishment of its purposes, shall be deemed to have been superseded by the provisions hereof, and, to the extent that any other law is in conflict with or inconsistent with the provisions hereof, the provisions of this Act shall take precedence and be effective.

ment or the State Highway Commission performs any act or exercises any power within the limits of any county, incorporated city, town or village, in-
cluding Home Rule Cities, as authorized in this Act, such act or exercise of power shall qualify and render inexclusive the dominion of such counties,
cities, towns or villages, including Home Rule Cities, with respect to the specific streets, alleys, and other public ways affected by such act or exercises of power, but only to the specific extent to which such act or the exercise of such power affects such streets, alleys and other public ways and their use.

The system shall be designed so as to distribute the work load as uniformly as practicable within the various offices of the county tax assessor-collectors, as well as the Department, on a year-round basis. In implementing a year-round registration system, the Department may establish separate and distinct registration years for any vehicles or classifications of vehicles. Each registration year so designated shall begin on the first day of a calendar month and expire on the last day of the last calendar month in a registration period. Registration periods may be designated to include less than twelve (12) consecutive calendar months and registration fees shall be computed at a rate of one-twelfth of the appropriate annual registration fee per month in each registration period. The Department shall not establish a registration year of more than twelve (12) months except that registration fees for designated periods of more than twelve (12) months may be paid at the option of the owner. Each application for registration filed more than one month subsequent to the expiration date of the previous year's registration shall be accompanied by an affidavit that the vehicle has not been operated upon the streets or highways of this state at any time subsequent to the expiration of the previous year's registration. The Department may promulgate reasonable rules and regulations to carry out the orderly implementation and administration of the year-round registration system.

(b) Notwithstanding the provisions of Subsection (a) of this section or any other section of this Act, the registration or license of any vehicle shall not be issued for or reduced to a fee less than $5.00, regardless of the month of the registration period in which application is filed.

Art. 6675a-5. Fees: Motorcycles, Passenger Cars, Buses

(a) The annual license fee for registration of a motorcycle is Five Dollars and Seventy-five Cents ($5.75).

(b) The annual license fee for registration of a passenger car and a street or suburban bus shall be based upon the weight of a vehicle as follows:

Art. 6675a-5a. Registration of Antique Passenger Cars and Trucks; License Plates; Fees; Renewal; Penalty

Passenger cars and trucks that were manufactured in 1929 or before, or which become twenty-five (25) or more years old, shall be excepted from the annual license fee for registration otherwise provided by law upon written, sworn application by the owner thereof on a form furnished by the Department. Such application shall show the make, body style, motor number, age of such passenger car or truck, and any other information required by the Department, and shall also state that the passenger car or truck is a collector's item and will be used solely for exhibitions, club activities, parades, and other functions of public interest, and in no case for regular transportation, and will carry no advertising. The Department shall issue license plates which shall contain the words “Antique Auto” or “Antique Truck” and which are valid for a maximum period of five (5) years. Alternatively, the Department may allow antique license plates to be used on an antique car or truck if the owner of the car or truck presents the antique license plates to the Department for approval and the antique license plates were issued by this state in the same year as the model year of the car or truck. If antique license plates are used on a car or truck, the Department shall issue to the owner a symbol, valid for a maximum period of five (5) years, to be placed on one of the license plates, as determined by the Department, designating the year in which the car or truck was registered under this section. The registration fee for the five (5) year period for passenger cars and trucks qualifying under this Act which were manufactured in 1921 and subsequent years shall be Twenty-five Dollars ($25.00) and shall be reduced Five Dollars ($5.00) for each year of the period that has fully expired at the time of the application. Provided further, that upon such application and upon payment of the proper fee to the County Tax Assessor-Collector of the county in which the owner resides, the Department shall furnish such license plates or a symbol and receipts which shall be issued to the owner and such plates or symbol shall be valid without renewal for the period for which the car or truck is registered, provided such vehicle continues to be owned by the same owner. If it is further provided that in the event the vehicle is transferred to another owner, or is junked, destroyed, or otherwise ceases to exist, the registration receipt and plates or symbol shall become null and void and any plates or symbol issued under this section shall be sent immediately to the Department. It is further provided that the Tax Assessor-Collector shall not renew the registration of any such vehicle until the registered owner surrenders to him any license plates or symbol and receipt that were issued for such vehicle for the previous period. In the event license plates issued under this section become lost, stolen, or mutilated, the owner may secure replacement plates by executing an affidavit and application on a form furnished by the Department and by the payment of the fee prescribed in Section 13a of this Act.¹ Any owner of a passenger car or truck registered under the provisions of this section who violates any of the provisions herein shall be guilty of a misdemeanor, and upon conviction shall be fined not less than Five Dollars ($5.00) and not more than Two Hundred Dollars ($200.00).

Section 2 of the Act of 1967 repealed all conflicting laws and parts of laws to the extent of such conflict.

Art. 6675a-5b. Vehicles of Nonprofit Service Organizations Designed for Parade Purposes; Registration; Fee Exemption

Sec. 1. A motor vehicle owned and operated by a nonprofit service organization and designed, constructed and used primarily for parade purposes is subject to registration as provided by Chapter 88, General Laws, Acts of the 41st Legislature, 2nd Called Session, 1929, as amended (Article 6675a-1 et seq., Vernon's Texas Civil Statutes), but is exempt from the annual fee for registration.

Sec. 2. The provisions of this Act shall not apply to any motor vehicle on which an annual license fee for registration has been paid pursuant to other laws of this state.

Section 10(1) of the 1983 amendatory act provides:

"Subsection (c) of this section applies to a timely application for registration or renewal of registration made on or after September 1, 1980. The amendment made by that section does not entitle a
motor vehicle owner to a refund of all or part of a license fee paid before September 1, 1965. A license fee payment delinquent on September 1, 1965, is governed by the law as it existed August 31, 1965, and that law is continued in effect for that purpose.

Art. 6675a-5c. Special Personalized Prestige License Plates

The State Highway Department shall establish and issue special personalized prestige license plates. For a fee of Ten Dollars ($10.00), which fee shall be in addition to the regular motor vehicle registration fee, any owner may apply for issuance of said personalized license plates. The Department shall establish and promulgate procedures for application for and issuance of such special personalized prestige license plates and provide a deadline each year for the applications. No two owners will be issued identical lettered and/or numbered plates. An owner must make a new application and pay a new fee each year he desires to obtain special personalized prestige license plates. However, once an owner obtains personalized plates, he will have first priority on those plates for each of the following years that he makes timely and appropriate application. Ninety-five per cent (95%) of each Ten Dollars ($15.00) fee charged by the Department under this Section shall be deposited in the State Treasury to the credit of the General Revenue Fund and the remaining five percent (5%) shall be deposited in the State Treasury to the credit of the State Highway Fund to defray the costs of administration of this Section.

Art. 6675a-5d. Credit for License Fees Paid on Motor Vehicles Subsequently Destroyed

If the owner of any motor vehicle which is destroyed to such an extent that it cannot thereafter be operated upon the highways of this state transmits the license fee receipt and the license plates for the vehicle to the State Highway Department, he is entitled to a license fee credit if the prorated portion of the license fee for the remainder of the year is over $15.00. The State Highway Department, upon satisfactory proof of the destruction of the vehicle, shall issue a license fee credit slip to the owner in an amount equal to the prorated portion of the license fee for the remainder of the year if it is over $15.00. The owner of the vehicle at the time of destruction may during the same or the following registration year use the license fee credit slip as payment or part payment for the registration of additional vehicles to the extent of the license fee credit slip. The State Highway Department shall promulgate regulations necessary for the administration of this Act.

Any owner of a motor vehicle applying for a license fee credit under this Section shall execute a sworn statement upon a form provided by the State Highway Department showing that the license plates have been surrendered to the State Highway Department. This statement shall be delivered to the purchaser of the destroyed vehicle who may surrender this statement to the State Highway Department in lieu of the vehicle license plates.

Art. 6675a-5e. Disabled Veterans and Their Transporters; Special License Plates; Fee Exemptions; Regulations

(a) A veteran of the armed forces of the United States who, as a result of military service, has suffered at least a 40% service-connected disability or has a 46% service-connected disability due to the amputation of a lower extremity, and who receives compensation from the federal government because of such disability, is entitled to register, for his own personal use, one passenger car or light commercial vehicle having a manufacturer's rated carrying capacity of one (1) ton or less, without payment of the prescribed annual registration fee.

(b) An organization which owns a motor vehicle used exclusively for the transportation of disabled veterans without charge to them may register the vehicle without the payment of the prescribed annual registration fee. "Disabled veteran," as used in this subsection, means a veteran of the armed forces of the United States who, as a result of military service, has suffered a service-connected disability. A statement by the Veterans County Service officer of the county in which the vehicle is registered or by the Veterans Administration that the vehicle is exclusively used for the transportation of disabled veterans without charge to them is satisfactory evidence that the organization is qualified under this subsection.

(c) The Highway Department shall provide for the issuance of specially designed license plates for persons and organizations who are qualified under this Act. The letters "DV" shall appear as either a prefix or a suffix to the numerals on the plates, and the words "DISABLED VET" shall also appear on the plates.

(d) Application for the specially designed license plates provided for in this Section shall be made on forms prescribed and furnished by the Department and must be submitted to the Department by October 1st preceding the registration year for which requested. The registration year for these license plates is from April 1st through March 31st of the following year. Each application shall be accompanied by a fee of three dollars ($3.00) and such evidence as the Department may require as proof of the applicant's eligibility to receive the registration fee exemption. The exemption continues until the license plates are cancelled under Subsection (f) of this Section.

(e) A vehicle on which these specially designed plates are displayed is exempt from the payment of parking fees, including those collected through parking meters, charged by any governmental au-

Authority other than a branch of the federal government:

(1) when being operated by or for the transportation of the person who registered the vehicle under Subsection (a) of this section; or

(2) when being operated by or for the transportation of a disabled veteran, as defined in Subsection (b) of this section, and when registered under that subsection.

(f) If during the registration year the owner disposes of the vehicle upon which the license plates issued under this Act are affixed, or if an organization ceases to use the vehicle on which the special license plates are affixed exclusively to transport disabled veterans, such plates are automatically returned to the Department of Highways and shall be deposited in the Texas Highway Department for cancellation. Thereafter, the owner may qualify for another set of plates as provided for in this Section.

(g) If the special license plates provided herein become lost, stolen, or mutilated, the owner of the vehicle may secure a set of replacement license plates from the Department for a fee of One Dollar ($1.00).

(h) The fees provided for in this Section shall be deposited in the State Treasury to the credit of the State Highway Fund.

(i) The Department may promulgate such reasonable rules and regulations as it may deem necessary for the orderly administration of this Act.

Art. 6675a-5e.1. Disabled Persons; Special License Devices; Fee; Parking Privileges

Provision for License Plate Devices and Identification Cards

Sec. 1. (a) The State Department of Highways and Public Transportation shall provide for the issuance of specially designed symbols, tabs, or other devices to be attached to the license plates of motor vehicles regularly operated by or for the transportation of permanently disabled persons. Such devices shall be of a design prescribed by the department and shall have the word "Disabled" printed thereon. They shall be issued in addition to regular license plates in years in which license plates are issued or as the legal registration insignia in years in which license plates are not issued.

(b) In addition, the department shall provide identification cards for issuance to disabled persons. These cards shall be of a design prescribed by the department. Cards issued to permanently disabled persons are valid permanently. Cards issued to temporarily disabled persons become invalid after a definite time to be determined by the department.

Definitions; Application

Sec. 2. (a) A person is disabled who has mobility problems that substantially impair the person's ability to ambulate, or who is legally blind. In this Act, "legally blind" means having not more than 20/200 of visual acuity in the better eye with correcting lenses, or visual acuity greater than 20/200 but with a limitation in the field of vision such that the widest diameter of the visual field subtends an angle no greater than 20 degrees.

(b) Owners of motor vehicles regularly operated by or for the transportation of such persons may make application to the department through the county tax collector of the county in which they reside for the special symbol, tab, or other device on a form prescribed and furnished by the department. The first such application must be accompanied by acceptable medical proof that the operator or regularly transported passenger is currently and permanently disabled.

(c) A disabled person may apply for an identification card to the department through the county tax collector of the county in which they reside on a form prescribed and furnished by the department. The application of each permanently disabled person must be accompanied by medical proof acceptable to the department that the applicant is currently disabled and that the applicant's disability will continue for the applicant's lifetime. The application of each temporarily disabled person must be accompanied by medical proof acceptable to the department that the applicant is currently disabled.

Submission of Application; Fee

Sec. 3. An application for a symbol, tab, or other device shall be submitted to the county tax collector of the vehicle owner's resident county and shall be accompanied by the annual registration fee prescribed by law for the particular vehicle being registered plus $1. Applications for disabled person identification cards shall be submitted to the county tax collector of the disabled person's county and shall be accompanied by $5. The county tax collector shall forward the fees to the department for deposit in the State Highway Fund to defray the cost of providing the specially designed symbols, tabs, or other devices and identification cards.

Vehicles

Sec. 4. The special devices shall be issued only for passenger vehicles and light commercial vehicles having a manufacturer's rated carrying capacity of one ton or less operated by or for the transportation of permanently disabled persons for noncommercial use.
Furnishing Devices and Identification Cards; Design of Sign for Posting

Sec. 5. (a) The department shall furnish the special devices and identification cards to the appropriate county tax assessor-collector.

(b) The department shall provide at cost a design and stencil for use by political subdivisions or persons who own or control property used for parking to designate parking spaces as provided by Section 6A of this Act.

Parking Privileges

Sec. 6. (a) Any vehicle upon which such special devices are displayed or in which a disabled person identification card is placed in the lower left-hand side of the front windshield, when being operated by or for the transportation of a disabled person, shall be allowed to park for unlimited periods in any parking space or parking area designated specifically for the physically handicapped.

(b) The owner of a vehicle on which the special devices are displayed or in which a disabled person identification card is placed in the lower left-hand side of the front windshield is exempt from the payment of fees or penalties imposed by a governmental authority for parking at a meter or in a space with a limitation on the length of time for parking, unless the vehicle was not parked at the time by or for the transportation of a disabled person. This exemption does not apply to fees or penalties imposed by a branch of the United States government. This section does not permit parking a vehicle at a place or time that parking is prohibited.

Designation of Parking Spaces by Political Subdivision or Private Property Owner; Enforcement

Sec. 6A. (a) A political subdivision or a person who owns or controls property used for parking may designate one or more parking spaces or a parking area for the exclusive use of vehicles transporting temporarily or permanently disabled persons. A political subdivision designates a space or area by conforming to the rules promulgated by the State Purchasing and General Services Commission under Subsection (c) of Section 7.05 of the State Purchasing and General Services Act (Article 601b, Vernon's Texas Civil Statutes), relating to the identification and dimensions of parking spaces for the disabled. A person who owns or controls private property used for parking may designate a parking space or area specifically for the disabled without conforming to these rules relating to the identification and dimensions of parking spaces for the disabled, unless required to conform by state or local law.

(b) A political subdivision may require a private property owner or a person who controls property used for parking:

(1) to designate one or more parking spaces or a parking area for the exclusive use of vehicles transporting temporarily or permanently disabled persons; or

(2) to conform to the identification and dimension requirements referred to in Subsection (a) of this section when designating a parking space or area for the disabled.

(c) A political subdivision may provide for the application of Section 10 of this Act to any parking space or area for the disabled on private property designated in compliance with the identification requirements referred to in Subsection (a) of this section.

(d) A peace officer or a person designated by a political subdivision to enforce parking regulations may file charges against a person who commits an offense under this Act at a parking space or a parking area designated specifically for the temporarily or permanently disabled by a political subdivision or a private property owner as provided by Subsection (a) of this section. A security officer commissioned under the Private Investigators and Private Security Agencies Act, as amended, (Article 4413.22(b), Vernon's Texas Civil Statutes), and employed by the owner of private property may file charges against a person who commits an offense under this Act at a parking space or area designated for the disabled by the owner of the private property as provided by Subsection (a) of this section.

Disposition of Devices Upon Disposal of Vehicle

Sec. 7. Except as provided by Section 9(d) of this Act, if the owner of a vehicle bearing such special devices disposes of the vehicle during the registration year, he shall turn the devices in to the county tax assessor-collector. If the owner registers another vehicle under this Act at the time he returns the devices, the assessor-collector shall issue replacement devices for the fee prescribed by law.

Registration Year

Sec. 8. Devices with the "Disabled" designation provided for by this Act shall be issued for the registration year beginning April 1, 1976, and thereafter.

Registration under Other Act

Sec. 9. (a) A person who is eligible to register a motor vehicle under both this Act and Section 5e, Chapter 88, General Laws, Acts of the 41st Legislature, 2nd Called Session, 1959, as amended (Article 6675a-5e, Vernon's Texas Civil Statutes), may register a vehicle under either or both Acts.

(b) If a person has registered a motor vehicle under Section 5e, Chapter 88, General Laws, Acts of the 41st Legislature, 2nd Called Session, 1929, as amended (Article 6675a-5e, Vernon's Texas Civil Statute...
Art. 6675a-5e.1 ROADs, BRIDGES, AND FERRIES

Statutes), and then applies for registration of the vehicle under this Act, the county tax collector, after the person pays the application fee of $1 required by Section 3 of this Act, shall issue the special devices but may not issue a set of license plates. The person shall attach the devices to the plates issued under Section 5e.

(c) If a person has registered a motor vehicle under this Act and then applies for registration of the vehicle under Section 5e, the person shall return to the Department the license plates and devices issued under this Act. After the person pays the registration fee required by Section 5e, the Department shall issue license plates as provided by that section and also shall issue without charge a set of devices provided for by this Act.

(d) If the owner of a vehicle registered under both this Act and Section 5e disposes of the vehicle during the registration year provided by either Act, the person shall return to the Department the license plates and devices. At that time the person may register another vehicle under both Acts and, after paying the replacement fee required by this Act and the issuance fee required by Section 5e, receive from the Department another set of license plates and devices.

Offenses; Punishment

Sec. 10. (a) A person commits an offense if the person is neither temporarily or permanently disabled nor transporting a temporarily or permanently disabled person and parks a vehicle with such special device or displaying a disabled person identification card in a parking space or parking area designated specifically for the disabled by a political subdivision or by a person who owns or controls private property used for parking for which a political subdivision has provided for the application of this section under Subsection (c) of Section 6A of this Act.

(b) A person commits an offense if the person parks a vehicle neither displaying the special device nor displaying a disabled person identification card in a parking space or parking area designated specifically for the disabled by a political subdivision or by a person who owns or controls private property used for parking for which a political subdivision has provided for the application of this section under Subsection (c) of Section 6A of this Act.

(c) A person commits an offense if the person parks a vehicle so that the vehicle blocks an access or curb ramp or any other architectural improvement designed to aid the disabled.

(d) A person commits an offense if he lends an identification card issued to him under this Act to a person who uses the identification card in violation of this section.

(e) An offense under this section is a Class C misdemeanor.

Section 3 of Acts 1981, 67th Leg., p. 234, ch. 101, provides: "This Act takes effect September 1, 1981, and applies to offenses committed on or after that date. An offense committed before the effective date of this Act is subject to disposition under Chapter 338, Acts of the 64th Legislature, 1975 (Article 6675a-5e.1, Vernon’s Texas Civil Statutes), as it existed on the date the offense was committed, and that law is continued in effect for that purpose. For purposes of this Act, an offense is continued before the effective date of this Act if any element of the offense occurs before that date."

The “net carrying capacity” of a bus as defined in this Act shall be computed by multiplying its seating capacity by one hundred and fifty (150) pounds. The seating capacity of any such vehicle shall be the manufacturer’s rated seating capacity exclusive of the driver’s or operator’s seat. Art. 6686. Dealer's and Manufacturer's License Plates and Tags

(a) Dealer's and Manufacturer's License Plates for Unregistered Motor Vehicles, Motorcycles, House Trailers, Trailers, and Semitrailers.

(1) Dealer's License. Any dealer in motor vehicles, motorcycles, house trailers, trailers, or semitrailers doing business in this State may, instead of registering each vehicle he operates or permits to be operated for any reason upon the streets or public highways, apply for and secure a general distinguishing number and master dealer's license plate which may be attached to any such vehicle he owns and operates or permits to be operated unregistered. Each dealer holding a current distinguishing number and master dealer's license plate may apply for and be issued additional or supplemental metal dealer's plates, as hereinafter provided, which may be attached to any vehicle which he owns and operates or permits to be operated unregistered in the same manner as a vehicle operated on the master dealer's license plate. A dealer within the meaning of this Act means any person, firm, or corporation
regularly and actively engaged in the business of buying, selling, or exchanging motor vehicles, motorcycles, house trailers, trailers, or semitrailers at an established and permanent place of business; provided, however, that at each such place of business a sign in letters at least six (6) inches in height must be conspicuously displayed showing the name of the dealership under which such dealer is doing business, and that each such place of business must have a furnished office and, except for dealers who are licensed by the Texas Motor Vehicle Commission pursuant to the Texas Motor Vehicle Commission Code and dealers who sell vehicles to or exchange vehicles with no person other than another dealer licensed under this Act, sufficient space to display five (5) vehicles of the type customarily bought, sold, or exchanged by such dealer.

(2) Manufacturer's License. Any manufacturer of motor vehicles, motorcycles, house trailers, trailers, or semitrailers in this State may, instead of registering each new vehicle he may wish to test upon the streets or public highways, apply for and secure a general distinguishing number which must be attached to any such vehicle sent unregistered upon the highways for the purpose of testing; provided, however, that no load may be carried upon commercial motor vehicles so tested. A manufacturer whose license was issued by the Department is hereby authorized to cancel dealer's or manufacturer's licenses issued to him; and, it is also provided that the Department may cancel dealer's or manufacturer's licenses issued under this Act for the violation of any provisions of Sections 140 and 141 of the Uniform Act Regulating Traffic on Highways.

Such tags shall not be used to operate vehicles for the personal use of a dealer or his employees. Whenever a dealer sells an unregistered vehicle to a retail purchaser, it shall be such dealer's responsibility to display the Buyer's Temporary Cardboard Tag thereon pursuant to Subsection (3) of this Act. The specifications, form, and color of such dealer's cardboard tags shall be prescribed by the Department.

(5) Cancellation of License. It shall be the duty of the Department to cancel the dealer's or manufacturer's license issued to a person, firm or corporation when such license was obtained by submitting false or misleading information; and the Department is hereby authorized to cancel dealer's licenses whenever a person, firm, or corporation fails, upon demand, to furnish within thirty (30) days to the Department satisfactory and reasonable evidence of being regularly and actively engaged in the business of buying, selling, or exchanging new or used motor vehicles, motorcycles, house trailers, trailers, or semitrailers at either wholesale or retail; and, it is also provided that the Department may cancel dealer's or manufacturer's licenses issued under this Act for the violation of any provisions of this Act or for the misuse or for allowing the misuse of any cardboard tag authorized under this Act; and, furthermore, the Department is hereby authorized to cancel such licenses whenever a dealer refuses to show on such tags the date of sale or other reasonable information required to be shown thereon by the Department; provided, however, that nothing in this Act shall be construed to prohibit new entries into the business of buying, selling, exchanging, or manufacturing motor vehicles; and provided further that any dealer or manufacturer whose license was cancelled under the terms of this Act shall, within ten (10) days, surrender to a representative of the Department any and all license plates, cardboard tags, license stickers, and receipts issued pursuant to this Act. If any dealer or manufacturer shall fail to surrender to the Department the license plates, the cardboard tags, license stickers, and receipts as provided herein, the
Department shall forthwith direct any peace officer to secure possession thereof and to return same to the Department. Whenever a dealer's or manufacturer's license is cancelled under the provisions of this Act, all benefits and privileges afforded to Texas licensed dealers or manufacturers under the Certificate of Title Act (Article 6687-1, Vernon's Texas Civil Statutes), are automatically cancelled, also.

(6) Limited Use of Dealer's Plates and Tags. The use of dealer's license or dealer's temporary cardboard tags is prohibited on service or work vehicles or on commercial vehicles carrying a load; provided, however, that a boat trailer carrying a boat will not be considered to be a commercial vehicle carrying a load, and a dealer complying with the provisions of this Act may affix to the rear of a boat trailer he owns or to the rear of a boat trailer he sells such dealer's distinguishing number or cardboard tags pursuant to the provisions of Subsections (1), (3) and (4) of this section; and, further provided, that the term "commercial vehicle carrying a load" shall not be construed to prohibit the operation or conveyance of unregistered vehicles by licensed dealers (or buyers therefrom) utilizing the full mount method, the saddle mount method, the tow bar method, or any combination thereof, pursuant to the full mount method, the saddle mount method, the tow bar method, or any combination thereof, pursuant to Subsections (3) and (4) of this section.

(7) Fees and Forms. Each applicant for an original dealer's or manufacturer's general distinguishing number and master dealer's license plate shall pay to the Department a fee of Two Hundred and Ten Dollars ($100) and for renewal thereof, shall be made in writing on forms prescribed and furnished by the Department, and such applications shall require any pertinent information, including sufficient information for the Department to determine that the applicant is actively and regularly engaged in the sale of motor vehicles, motorcycles, house trailers, trailers, or semitrailers as a dealer, to insure proper enforcement and administration; and, furthermore, each such application shall contain a statement to the effect that the applying dealer agrees to permit the Department to examine during working hours the ownership papers for each vehicle, registered or unregistered, in the possession of said dealer or under his control. All facts stated in an application shall be sworn to before an officer authorized to administer oaths and no dealer's or manufacturer's distinguishing number shall be issued until this Act is complied with. All such applications for dealer's or manufacturer's licenses, accompanied by the prescribed fee, should be made to the Department by January 15 of each year and the license plates for all such applications meeting the provisions of this Act shall be mailed to the applicants during the succeeding months of February and March. Each dealer's and manufacturer's license shall expire on March 31 of each year. As a condition for the issuance of a license or licenses described in this subsection, each applicant shall procure and file with the Department a good and sufficient bond in the amount of Twenty-five Thousand Dollars ($25,000). The bond shall be approved as to form by the attorney general and conditioned on the applicant's payment of all valid bank drafts drawn by the applicant for the purchase of motor vehicles from another dealer and the applicant's transfer of good title to each motor vehicle that the applicant purports to sell. Recovery against the bond may be made by anyone who obtains a court judgment assessing damages for an act or omission on which the bond is conditioned. If an applicant has a valid dealer's license issued by the Texas Motor Vehicle Commission, the bond required by this subsection is waived.

(8) Defining Vehicle. The term "vehicle" as used in this Act shall be construed to mean motor vehicle, motorcycle, house trailer, trailer, and semitrailer as defined in Article 6675a-1, Revised Civil Statutes.

(9) Defining Department. The term "Department" as used in this Act means the "Texas Highway Department."

(10) Since the operation of vehicles registered in other states is restricted to residents of such states, a dealer who purchases vehicles displaying out-of-state license plates must immediately remove the license plates from such vehicles; and, furthermore, no dealer shall operate or allow to be operated in Texas, for any reason whatsoever, a vehicle displaying out-of-state license plates.

(11) Rules and Regulations. The Department is hereby authorized to promulgate reasonable rules and regulations for the orderly administration of this Act.

(12) Change of Address. It shall be the duty of any dealer or manufacturer as defined in this Act and to whom dealer's or manufacturer's license plates have been issued to notify the Department of a change of address within ten (10) days after such address change.

(13) Display of Dealer's License Plates. The general distinguishing number and all temporary cardboard tags issued pursuant to this Act shall be displayed in a manner conforming to the Department's regulations pertaining to the display of such plates and tags on unregistered vehicles operating on the streets or highways of this State.

(14) Unauthorized Reproduction of Temporary Cardboard Tags. No one other than a dealer as defined in this Act and to whom a current distinguishing number has been issued shall be authoriz-
ed to produce or reproduce by any means whatsoever a Buyer's or Dealer's Temporary Cardboard Tag, and, furthermore, no person, firm or corporation may operate vehicles displaying unauthorized cardboard tags. Any violation of the provisions of this Subsection shall be deemed a misdemeanor and the violator, upon conviction, shall be fined not less than Twenty-Five Dollars ($25) and not more than Two Hundred Dollars ($200) and all costs of court.

(15) Penalty. Any dealer or manufacturer violating any provisions of this Act for the violation of which no other penalty is prescribed shall be deemed guilty of a misdemeanor, and on conviction, shall be fined not less than Twenty-Five Dollars ($25) nor more than Two Hundred Dollars ($200) and all the costs of court.

(b) Any person, firm or corporation engaged in this State in the business of transporting and delivering by means of the full mount method, the saddle mount method, the tow bar method, or any other combination thereof, and under their own power, new vehicles and other vehicles, including house trailers, trailers and semitrailers, from the manufacturer or any other point of origin to any point of destination within the State of Texas, shall make application to the State Highway Commission for a drive-away in-transit license. This application for annual license shall be accompanied by a registration fee of Fifty Dollars ($50) and shall contain such information as the State Highway Commission may require. Upon the filing of the application and the payment of the fee, the State Highway Commission shall issue to each drive-away operator a general distinguishing number, which number must be carried and displayed by each motor vehicle in like manner as is now provided by law for vehicles being operated upon public highways and such number shall remain on the vehicle or vehicles from the manufacturer, or any point of origin, to any point of destination within the State of Texas. Additional number plates bearing the same distinguishing number desired by any drive-away operator may be secured from the State Highway Commission upon the payment of a fee of Five Dollars ($5) for each set of additional license plates. Any person, firm or corporation engaging in the business as a drive-away operator of transporting and delivering by means of full mount method, the saddle mount method, the tow bar method, or any combination thereof, and under their own power, new motor vehicles, who fails or refuses to file or cause to be filed an application, as is required by law, and to pay the fees therefor as the law requires, shall be found guilty of violating the provisions of this Act and upon conviction be fined not less than Fifty Dollars ($50) and not more than Two Hundred Dollars ($200) and all the costs of Court. Each day so operating without securing the license and plates as required herein shall constitute a separate offense within the meaning of this Act. The funds collected herein shall be paid into the State Highway Fund of the State.

(c) Every motor vehicle that has been driven under its own power, or towed by another vehicle from the point where manufactured outside this State for the purpose of sale within this State, shall have affixed to the windshield or front thereof in plain view a sticker not less than three inches in diameter stating that such vehicle has been driven or towed from point where manufactured. Such notice shall remain on such vehicle until the sale thereof by the dealer.

(d) Manufacturer to Give Notice of Sales of Transfer. Every manufacturer or dealer, upon transferring a motor vehicle, trailer, or semi-trailer, whether by sale, lease or otherwise, to any person other than a manufacturer or dealer, shall immediately give written notice of such transfer to the Registration Division of the State Highway Department upon the official form provided by the State Highway Department. Every such notice shall contain the date of such transfer, names and addresses of the transferee and transferor and such description of the vehicle as may be called for in such official form.

(d)-1. The Department is authorized to issue or cause to be issued temporary license plates made of cardboard or other similar material to any person, firm, or corporation, other than manufacturers, dealers, or dealers' representatives, of motor vehicles, trailers, and semitrailers, authorizing them to drive or operate any new vehicle, provided same is not used to transport property, upon the public highways of this State from the manufacturer's place of business in another State or Country after having purchased said vehicle from a dealer in this State, and to drive or operate any new vehicle from another State or Country after having purchased said vehicle from a dealer in the other State or Country. It is further provided that the temporary license plate shall not be valid for a period longer than thirty (30) days from date of issuance and that the Department shall place or cause to be placed on said license plates the date of expiration, and the type of vehicle for which each said temporary license plate is issued at the time it is issued. And provided, a fee of Three Dollars ($3) shall be paid for each plate and that only one (1) plate shall be issued for each vehicle.

(e) All registration fees shall be paid in the county in which the owner lives at the time of registration of said motor vehicle.

(f) Any person found guilty of violating any of the provisions of this Act shall, upon conviction, be fined not less than Fifty ($50.00) Dollars nor more than One Hundred Fifty ($150.00) Dollars, and all costs of court.

Before licensing or renewing any license, the Department shall examine the applicant's record for information concerning conviction of traffic violations and involvement in traffic accidents. The Department shall not issue or renew a license when, in its opinion, the applicant's record indicates that issuance or renewal of his license would be inimical to the public safety.  
(c) The Department shall not be required to maintain records relating to drivers of motor vehicles after such records are, in the opinion of the Director, no longer necessary, except that records of convictions shall be maintained so long as they may form the basis of cancellations, suspensions, revocations or denials, or with other records of convictions may constitute a person a frequent violator of the traffic law. If fifty (50) to two hundred forty-nine (249) at a time, a fee of seventy-five cents (75¢) each; and, if two hundred fifty (250) or more at a time, a fee of fifty cents (50¢) each.

(f) The Department is authorized to provide information pertaining to an individual's date of birth, current license status, most recent address, completion of an approved driver education course, the fact of (but not the reason for) completion of a driving safety course, and a listing of reported traffic law violations, and motor vehicle accidents, by date and location, as listed on the records of the Department, upon written request and the payment of a Three Dollar ($3.00) fee by a person who submits the individual's driver's license number or his full name and date of birth and who shows a legitimate need for such information. If requests for such information be prepared in quantities of one hundred (100) or more from a single person at any one time and upon data processing request forms acceptable to the Department, such information may be provided upon payment of a One Dollar ($1.00) fee for each individual request.

(g) No fee shall be charged for information supplied to law enforcement and other governmental agencies for official purposes, provided that bulk information for research projects may be compensated for at regular rates.

(h) All fees and charges required by this Section shall be disposed of as provided in Section 15 of this Article.

The Legislature hereby specifically declares that the provisions of this Section shall not be severable from the balance of this Act, and further specifically declares that this Act would not have been passed without the inclusion of this Section. It shall be the duty of the judge of any Juvenile Court or other court mentioned herein to report any such recommendation forthwith to the department. Such report shall be made in the manner and form prescribed by the department.

(e) The judge or officer holding a hearing under Subsection (a), (b), or (d) of this section, or the court trying an appeal under Subsection (c) of this section, on determining that the License shall be suspended or revoked, may, when it appears to the satisfaction of the court that the ends of justice and the best interests of the public as well as the defendant will be subserved thereby, recommend that the revoc­ation or suspension be probated on terms and conditions deemed by the officer or judge to be necessary or proper. The report to the department of the results of the hearing must include the terms and conditions of such probation. When probation is recommended by the judge or officer presiding at a hearing, the department shall probate the suspension or revocation.

Period of Suspension

Sec. 23. The Department shall not suspend a license for a period of more than one (1) year.

Occupational License to Meet Essential Need; Hearing and Order; Financial Responsibility

Sec. 23A. (a) Any person whose license has been suspended for causes other than physical or mental disability or impairment may file with the judge of the county court or district court having jurisdiction within the county of his residence, or with the judge of the county court or district court having jurisdiction within the county where an offense occurred for which his license was suspended, a verified petition setting forth in detail an essential need for operating a motor vehicle. The hearing on the petition may be ex parte in nature, except as provided by Subsection (e) of this section.

(b) "Essential need" as used in this section means a need for the use of a motor vehicle:

(1) in the performance of an occupation or trade or for transportation to and from the place where a person practices his occupation or trade;

(2) for transportation to and from an educational facility in which the person is enrolled; or

(3) in the performance of essential household duties.

(c) In determining whether essential need exists, the judge shall consider the driving record of the petitioner and any evidence presented by a person who attends the hearing on the petition under Subsection (e) of this section.

(d) If the petitioner's license was suspended following a conviction for an offense under Article 67011–1 or 67011–2, Revised Statutes, or an offense under Subdivision (2), Subsection (a), Section 19.05 or Section 19.07, Penal Code, as amended, the clerk of the court shall send by certified mail a copy of the verified petition and notice of the hearing to the attorney representing the state.

(e) A person receiving a copy of a petition under Subsection (d) of this section may attend the hearing on the petition and may present evidence at the hearing against granting the petition.
(f) The judge hearing the petition shall enter an order either finding that no essential need exists for the operation of a motor vehicle or enter an order finding an essential need for operating a motor vehicle. In the event the judge enters the order finding an essential need, he shall also, as part of the order, determine the actual need of the petitioner in operating a motor vehicle. The order shall require the petitioner to give proof of a valid policy of automobile liability insurance in accordance with the Texas Motor Vehicle Safety-Responsibility Act, as amended (Article 6701h, Vernon's Texas Civil Statutes). The order shall be definite as to hours of the day, days of the week, specific reasons or travel, and areas or routes of travel to be permitted, except that the petitioner shall not be allowed to operate a motor vehicle more than four (4) hours in any twenty-four (24) consecutive hours. On a proper showing of necessity, however, the court may waive the four-hour restriction and allow the petitioner to operate a motor vehicle for any period determined by the court that does not exceed twelve (12) hours in any twenty-four (24) consecutive hours. An order entered by the court shall extend for the period of the original suspension. A certified copy of the order and the court order setting out the judge's finding and the restrictions shall be forwarded to the Department.

(g) Upon receipt of the court order set out in Subsection (f) of this section and after compliance with the Texas Motor Vehicle Safety-Responsibility Act, as amended (Article 6701h, Vernon's Texas Civil Statutes), the Department shall issue to the petitioner an occupational license, referring on its face to the order of the court.

Essential Need Licensee to Carry Copy of Court Order; Violations

Sec. 23B. (a) A person who is issued a license under Section 23A or 25 of this Act must carry a certified copy of the court order with him when he is operating a motor vehicle. The person must allow a peace officer to examine the order at the officer's lawful request.

(b) A person who holds a license issued under Section 23A or 25 of this Act commits an offense if he operates a motor vehicle in violation of the restrictions on the license or if he fails to carry a certified copy of the court order as required by Subsection (a) of this section. An offense under this subsection is a Class C misdemeanor, and on conviction the license and order issued under Section 23A or 25 are automatically terminated.

Automatic Suspension of License

Sec. 24. (a) Except as provided by Subsection (g) of this Section, the license of any person shall be automatically suspended upon final conviction of any of the following offenses:

1. An offense under Section 19.07, Penal Code, committed as a result of the person's criminally negligent operation of a motor vehicle, or an offense under Subdivision (2), Subsection (a), Section 19.05, Penal Code;
2. An offense under Article 6701I-1, Revised Statutes, as amended;
3. Any offense punishable as a felony under the motor vehicle laws of this State;
4. A conviction of a driver of a motor vehicle involved in an accident or collision, upon a charge of failure to stop, render aid, and disclose his identity at the scene of said accident or collision.

(b) Except as provided by Subsections (d), (e), (g), and (h) of this Section, the suspension above provided shall in the first instance be for a period of twelve (12) months. In event any license shall be suspended under the provision of this Section for a subsequent time, said subsequent suspension shall be for a period of eighteen (18) months, except as provided by Subsections (d), (e), (g), and (h) of this Section.

(c) The suspension of any license shall be automatically extended upon licensee being convicted of operating a motor vehicle while the license of such person is suspended; such extended period of suspension to be for a like period as the original suspension, and in addition to any other penalty assessed, as provided in this Act.

(d) Except as provided by Subsections (g) and (h) of this Section, if a person is convicted of an offense under Article 6701I-1, Revised Statutes, as amended, the suspension of the person's license shall be for a period determined by the court according to the following schedule:

1. not less than ninety (90) or more than three hundred sixty-five (365) days, if the person is punished under Subsection (c) of that article, whether or not the punishment is increased under Subsection (f) of that article; or
2. not less than one hundred eighty (180) days or more than two (2) years, if the person is punished under Subsection (d) or (e) of that article, whether or not the punishment is increased under Subsection (f) of that article.

(e) If a person is convicted of an offense under Subdivision (2), Subsection (a), Section 19.05, Penal Code, the suspension of the person's license shall be for a period determined by the court of not less than one hundred eighty (180) days or more than two (2) years.

(f) Except as otherwise provided by this subsection, the court shall credit toward the period of suspension of a person's license required by this article a period of suspension imposed on the person for refusal to give a specimen under Chapter 434, Acts of the 61st Legislature, Regular Session, 1965 (Article 6701J-5, Vernon's Texas Civil Statutes), if the refusal followed an arrest for the same offense for which the court is suspending the person's license under this article. The court may not extend the credit to a person that has been previously
Art. 6687b  ROADS, BRIDGES, AND FERRIES 4254

convicted of an offense under Article 6701-1, Revised Statutes, or Subsection (2), Subsection (a), Section 19.05, Penal Code.

(g)(1) Except as provided by Subdivision (2) of this subsection, the Department may not, during the period of probation, suspend the driver’s license, permit, or nonresident operating privilege of a person if the person is required under Section 6c, Article 42.13, Code of Criminal Procedure, 1965, to attend and successfully complete an educational program designed to rehabilitate persons who have driven while intoxicated. The Department also may not suspend the driver’s license, permit, or nonresident operating privilege of a person for whom the jury has recommended, under Section 6a, Article 42.13, Code of Criminal Procedure, 1965, no suspension.

(2) After the date has passed, according to records of the Department, for successful completion of an educational program designed to rehabilitate persons who have driven while intoxicated, if the records do not indicate successful completion of the program, the Director shall suspend the person’s driver’s license, permit, or nonresident operating privilege or, if the person is a resident without a license or permit to operate a motor vehicle in this state, shall issue an order prohibiting the person from obtaining a license or permit. A suspension or prohibition order under this subsection is effective for a period of twelve (12) months.

(3) The Director shall promptly send notice of a suspension or prohibition order issued under this subsection, by certified mail, return receipt requested, to the person at the person’s most recent address as listed in records of the Department. The notice must include the date of the suspension or prohibition order, the reason for the suspension or prohibition, and the beginning and ending dates of the suspension or prohibition. A suspension or prohibition under this subsection may not take effect before the twenty-eighth (28th) day after the date the person receives notice by certified mail or the thirty-first (31st) day after the Director sends notice by certified mail, if the person has not accepted delivery of the notice. The notice must also include a statement that the person has a right to demand in writing that a hearing on the suspension or prohibition be held. If, not later than the twentieth (20th) day after the date on which the person receives notice by certified mail or the twenty-third (23rd) day after the date the Director sent notice by certified mail, if the person has not accepted delivery of the notice, the Department receives a written demand that a hearing be held, the Department shall, not later than the tenth (10th) day after the day of receipt of the demand, request a court to set the hearing for the earliest possible date. If a person demands a hearing as provided by this subsection, the suspension or prohibition does not take effect until resolution of the hearing.

(4) A hearing on suspension or prohibition shall be held in a municipal or justice court in the county of the person’s residence in the manner provided for a hearing on suspension under Section 22(a) of this Act. At a hearing, the issues to be determined are whether the person has successfully completed an educational program that was imposed under Section 6c, Article 42.13, Code of Criminal Procedure, 1965, and whether the period for completion of the program has passed. If the court determines that the educational program imposed has not been completed and the period for completion of the program has passed, the court shall confirm the suspension or prohibition and notify the Department of that fact. If the court finds that the program imposed has been completed or that the period for completion has not passed, the court shall direct the Department to promptly rescind the order and reinstate in the records of the Department any driver’s license, permit, or privilege of the person. The court may modify or revoke an order of suspension or prohibition if the court determines that good cause shown that the person was unable to complete an educational program within the period originally specified by the court. The court shall condition the modification or revocation of the order on the person’s completion of the course within a period specified by the court not to exceed one (1) year from the beginning date of the person’s probation.

(b) The Department shall suspend the license of a person on receiving an order from a juvenile court under Section 54.042, Family Code, to suspend that person’s license. The period of the suspension shall be for the period specified in the order.

Rehabilitation Schools

Sec. 24A. (a) The Department shall establish and develop a program of motor vehicle driver education and training for drivers whose licenses have been suspended or revoked or are subject to suspension or revocation.

(b) The Department shall instruct, educate, and inform all persons attending the driver training program in the proper, lawful, and safe operation of a motor vehicle. The Department shall include in the program study of and training in the rules of the road, and the limitations of persons, vehicles, roads, streets, and highways under varying conditions and situations.

(c) The Department may require a person to attend the education and training program as a condition to the reinstatement of a suspended license or the issuance of a new license to a person whose prior license has been revoked.

(d) In the interest of promoting safe driving, the Department may seek the advice and cooperation of the schools, courts, and other interested persons.
Court to Report Convictions; Restricted Licenses for Convicted Persons

Sec. 25. (a) Whenever any person is convicted of any offense for which this Act makes automatic the suspension of the driver's license of such person, the court in which the conviction is had shall require the surrender to it of all drivers' licenses then held by the person convicted and the clerk of the court shall forward the licenses together with a record of the conviction. The court may enter an order restricting the operation of a motor vehicle for essential need, provided the person has filed a verified petition with the court setting forth in detail an essential need for operating a motor vehicle and has given notice of the hearing and a copy of the verified petition to the person provided under Subsection (d), Section 23A, of this Act, and provided the person gives proof of a valid policy of automobile liability insurance in accordance with the provisions of the Texas Motor Vehicle Safety-Responsibility Act (Article 6701h, Vernon's Texas Civil Statutes). "Essential need" as used in this section has the meaning assigned to it by Subsection (b) of Section 23A of this Act. The order shall state restrictions as to hours of the day, days of the week, specific reasons for travel, and areas or routes of travel to be permitted, except that the person convicted may not be allowed to operate a motor vehicle more than four (4) hours in any consecutive twenty-four (24) hours, providing, on proper showing of necessity, the court may waive the four-hour restriction and allow the person to operate a motor vehicle for any period determined by the court that does not exceed twelve (12) hours in any consecutive twenty-four (24) hours. The order shall be effective for the period for which the convicted person's license has been suspended. A certified copy of the order shall be given to the person convicted and shall be forwarded to the Department together with the person's licenses and the record of his conviction. Upon receipt of the order, the Department shall issue a license referring on its face to the restrictions and expiration date set out in the order. The person convicted may use the order of the court as a restricted license for a period of fourteen (14) days following the date of the order.

(b) Every court having jurisdiction over offenses committed under this Act, or any other Acts of this State regulating the operation of motor vehicles on highways, shall forward to the Department a record of the conviction of any person in said court for a violation of any said laws, and may recommend the suspension of the driver's license of the person so convicted, as provided in Section 29 of this Act.

(c) For the purpose of this Act, the term "conviction" shall mean a final conviction. Also, for the purpose of this Act, a forfeiture of bail or collateral deposited to secure a defendant's appearance in court, which forfeiture has not been vacated, shall be equivalent to a conviction.

Authority of Department to Cancel License or Certificate

Sec. 25A. The Department is hereby authorized to cancel any driver's license, identification certificate, or handicap or health condition certificate upon determining that the licensee or holder of the certificate was not entitled to the issuance thereof hereunder or that said licensee or holder of the certificate failed to give the required or correct information in his application.

Surrender and Return of License

Sec. 26. The Department, upon suspending or revoking a license, shall require that such license shall be surrendered to and be retained by the Department except that at the end of the period of suspension of such license, the license so surrendered shall be returned to the licensee.

No Operation Under Foreign License During Suspension or Revocation in This State

Sec. 27. No person, resident or nonresident, whose driver's license or privilege to operate a motor vehicle in this State has been suspended or revoked as provided in this Act shall operate a motor vehicle in this State under a license, permit, or registration certificate issued by any other state during such suspension or after such revocation until a new license is obtained when and as permitted under this Act.

Suspending Resident's License Based Upon Conduct in Another State

Sec. 28. (a) The Department is authorized to suspend or revoke the license of any resident of this State or the privilege of a nonresident to drive a motor vehicle in this State upon receiving notice of the conviction of such person in another state of an offense therein which, if committed in this State, would be grounds for the suspension or revocation of the license of a driver.

(b) The Department may give such effect to conduct of a resident in another state as is provided by the laws of this State had such conduct occurred in this State.

Suspending Privileges of Nonresidents and Reporting Convictions

Sec. 29. (a) The privilege of driving a motor vehicle on the highways of this State given to a nonresident hereunder shall be subject to suspension or revocation by the Department in like manner and for like cause as a driver's license issued hereunder.

(b) The Department is further authorized, upon receiving a record of the conviction in this State of a nonresident driver of a motor vehicle of any offense under the motor vehicle laws of this State, to forward a certified copy of such record to the motor vehicle administrator in the State wherein the person so convicted is a resident.
Revocation of License for Medical Reasons

Sec. 30. Any finding by any court of competent jurisdiction that any person holding a driver's license is mentally incompetent or addicted to the use of alcohol or a controlled substance shall carry with it a revocation of the driver's license. It shall be the duty of the clerk of any court in which such findings are made, to certify same to the Department within ten (10) days.

Revoking Licenses of Needy Blind

Sec. 30A. (a) Once each month the Department of Public Welfare shall furnish the Department of Public Safety a list of those persons who apply for or receive assistance to the needy blind. The list is privileged information and may be used only by the Department of Public Safety. (b) The Department of Public Safety shall revoke the license of every person whose name appears on the list referred to in Subsection (a).

Right of Appeal to Courts

Sec. 31. Any person denied a license or whose license has been cancelled or revoked by the Department except where such cancellation or revocation is automatic under the provisions of this Act shall have the right to file a petition within thirty (30) days thereafter for a hearing in the matter in the Department within ten (10) days.

Provided the trial on appeal as herein provided for shall be a trial de novo and the license shall have the right of trial by jury and his license shall not be suspended pending the appeal.

Provided further in cases herein provided for suspension of license, the filing of the petition of appeal shall abate said suspension until the trial herein provided for shall have been consummated and final judgment thereon is had.

Violation of License or Certificate Provision

Any purchasers or lien holders of said motor vehicle may at the time of such purchase or at the time lien is established require the seller or owner to indemnify him and all subsequent purchasers of said motor vehicle against any loss which he or they may suffer by reason of any claim or claims presented upon the said original certificate of title. the Department, or that the applicant is not entitled
to the issuance of a certificate of title under this
Act.

(b) That the Department has reasonable ground
to believe that the vehicle is a stolen or converted
vehicle as herein defined, or that the issuance of a
certificate of title would constitute a fraud against
the rightful owner or a mortgagee.

(c) That the registration of the vehicle stands
suspended or revoked.

(d) That the required fee has not been paid.

(15) days, and at such hearing such applicant and
such evidence, the owner may present the certificate of
title to the designated agent in the county together
with application for title as prescribed in this Act
and shall receive from the Department a new title.

(a) Such applicant feeling aggrieved with the rul-

days and not thereafter, appeal to the County Court

cases shall be available to the interested parties.

(b) If the action of the Department complained of

Section 2 of Acts 1983, 68th Leg., p. 4675, ch. 813, provides: "This Act takes effect September 1, 1983. A vehicle that entered the United States before the effective date of this Act is subject to the requirements for a certificate of title in Section 28, Certificate of Title (Article 6687-1, Vernon's Texas Civil Statutes), as it existed on the date the vehicle entered the United States, and the former law is continued in effect for that purpose."

A charge filed for an offense under Section 49, Certificate of Title (Article 6687-1, Vernon's Texas Civil Statutes), before the effective date of this Act is subject to the law in effect when the charge was filed, and the former law is continued in effect for the disposition of proceedings on that offense."

Provided, however, that all cities and towns having a state highway within their limits shall designate to the State Highway Department the route within the city or town to be used by said equipment operating over the state highway. When so designated, the route shall be shown on all maps routing said equipment with said commodities by the State Highway Department. (b) Nothing in this Act affects any judicially-developed and developing rules under which a person is or is not totally or partially immune from tort liability to another by virtue of a family relationship.

(c) When any liability claim is made by a guest against the owner or operator or his liability insurance carrier, the owner or operator or his liability insurance carrier shall be entitled to an offset, credit, or deduction against any award made to such guest in an amount of money equal to the amounts paid by the owner, operator or his automobile liability insurance carrier for medical expenses of such guest; provided, however, that nothing herein shall be construed to authorize a direct action against a liability insurance company if such right does not presently exist at law.

Sec. 2. This Act shall not relieve a public carrier or any owner or operator of a motor vehicle while the same is being demonstrated to a prospective purchaser, of responsibility for any injuries sustained by a passenger being transported by such public carrier, or by such owner or operator.

When any such lease, memorandum, or agreement, as required by Section 2 of this Act, shall have been filed with the Department covering the operation of any commercial motor vehicle or truck-tractor, no further such lease, memorandum, or agreement covering the operation of the same commercial motor vehicle or truck-tractor may be accepted by the Department for filing, except a lease between regulated carriers subject to the jurisdiction of the Railroad Commission of Texas or the Interstate Commerce Commission, that the operation of such vehicle shall be under the full and complete control and supervision of the person other than the registered owner, that the person other than the registered owner shall provide for each vehicle during the term of such lease, memorandum or agreement proof of financial responsibility as defined in the Texas Motor Vehicle Safety-Responsibility Act, as amended (Article 6701h, Vernon's Texas Civil Statutes), and shall state that such commercial motor vehicle or vehicles or truck-tractors are not the subject of any other such lease, memorandum, or agreement which shall have been filed with the Department of Public Safety in accordance with Section 2 of this Act and which is still in effect, unless the lease, memorandum, or agreement is otherwise required by law.

All information contained in any lease, memorandum, or agreement filed with the Department as required by Section 2 of this Act shall, with the exception of the name and address of the registered owner, the name and address of the person other than the owner, under whose supervision, direction and control the vehicle is being operated, and a full description of the commercial motor vehicle or truck-tractor covered thereby, shall be for the confidential use of the Department; except, however, that the Department of Public Safety may make such information available to the law enforcement officers of the Interstate Commerce Commission, and may further use such information in any judicial proceeding brought in the name of the State of Texas.

Local Traffic-Control Devices

Sec. 31. Local authorities, in their respective jurisdictions, may place and maintain any traffic-control devices upon any highway under their jurisdiction as they may deem necessary to indicate and carry out the provisions of this Act, or local traffic ordinances, or regulate, warn or guide traffic. All such traffic-control devices hereafter erected shall conform to the State Highway Department's manual and specifications.

Obedience to and Required Traffic-Control Devices

Sec. 32. (a) The driver of any vehicle and the motorman of any streetcar shall obey the instructions of any official traffic-control device applicable thereto placed in accordance with the provisions of this Act, unless otherwise directed by a traffic or police officer, subject to the exceptions granted the driver of an authorized emergency vehicle in this Act.

(b) No provision of this Act for which official traffic-control devices are required shall be enforced against an alleged violator if at the time and place of the alleged violation an official device is not in proper position and sufficiently legible to be seen by an ordinarily observant person. Whenever a particular section does not state that official traffic-control devices are required, such section shall be effective even though no devices are erected or in place.

Traffic-Control Signal Legend

Sec. 33. Whenever traffic is controlled by traffic-control signals exhibiting different colored lights, or colored lighted arrows, successively one at a time or in combination, only the colors Green, Red and Yellow shall be used, except for special pedestrian signals carrying a word legend, and said lights shall indicate and apply to drivers of vehicles and pedestrians as follows:

(a) Green indication

1. Vehicular traffic facing a circular green signal may proceed straight through or turn right or left unless a sign at such place prohibits either such turn. But vehicular traffic, including vehicles turn-
ing right or left, shall yield the right-of-way to other vehicles and to pedestrians lawfully within the intersection or an adjacent crosswalk at the time such signal is exhibited.

2. Vehicular traffic facing a green arrow signal, shown alone or in combination with another indication, may cautiously enter the intersection only to make the movement indicated by such arrow, or such other movement as is permitted by other indications shown at the same time. Such vehicular traffic shall yield the right-of-way to pedestrians lawfully within an adjacent crosswalk and to other traffic lawfully using the intersection.

3. Unless otherwise directed by a pedestrian control signal, as provided in Section 34, pedestrians, facing any green signal, except when the sole green signal is a turn arrow, may proceed across the roadway within any marked or unmarked crosswalk.

(b) Steady yellow indication

1. Vehicular traffic facing a steady yellow signal is thereby warned that the related green movement is being terminated or that a red indication will be exhibited immediately thereafter when vehicular traffic shall not enter the intersection.

2. Pedestrians facing a steady yellow signal, unless otherwise directed by a pedestrian control signal as provided in Section 34, are thereby advised that there is insufficient time to cross the roadway before a red indication is shown and no pedestrian shall then start to cross the roadway.

(c) Steady red indication

1. Vehicular traffic facing a steady red signal alone shall stop at a clearly marked stop line, but, if none, before entering the crosswalk on the near side of the intersection, and may then turn right or, if the intersecting streets are both one-way streets and left turns are permissible, may turn left, after standing until the intersection may be entered safely, yielding right-of-way to pedestrians lawfully within an adjacent crosswalk and to other traffic lawfully using the intersection. Traffic not so turning shall remain standing until an indication to proceed is shown. The State Highway Commission, municipal authorities, and Commissioners Courts, within their respective jurisdictions, may prohibit such turns on a steady red signal by posting a notice that turns of that type are prohibited. Such notice shall be erected at such intersection giving notice thereof.

2. Unless otherwise directed by a pedestrian control signal as provided in Section 34, pedestrians facing a steady red signal alone shall not enter the roadway.

(d) In the event an official traffic-control signal is erected and maintained at a place other than an intersection, the provisions of this section shall be applicable except as to those provisions which by their nature can have no application. Any stop required shall be made at a sign or marking on the pavement indicating where the stop shall be made, but in the absence of any such sign or marking the stop shall be made at the signal.

(e) The motorman of any streetcar shall obey the above signals as applicable to vehicles.

Pedestrian Control Signals

Sec. 34. Whenever special pedestrian control signals exhibiting the words "Walk," "Don't Walk," or "Wait" are in place such signals shall indicate as follows:

(a) Walk. Pedestrians facing such signal may proceed across the roadway in the direction of the signal and shall be given the right-of-way by the drivers of all vehicles.

(b) Don't Walk or Wait. No pedestrian shall start to cross the roadway in the direction of such signal, but any pedestrian who has partially completed his crossing on the "Walk" signal shall proceed to a sidewalk or safety island while the "Don't Walk" or "Wait" signal is showing.

Flashing Signals

Sec. 35. (a) Whenever an illuminated flashing red or yellow signal is used in a traffic sign or signal it shall require obedience by vehicular traffic as follows:

1. Flashing red (stop signal). When a red lens is illuminated with rapid intermittent flashes, drivers of vehicles shall stop at a clearly marked stop line, but if none, before entering the crosswalk on the near side of the intersection, or if none, then at the point nearest the intersecting roadway where the driver has a view of approaching traffic on the intersecting roadway before entering the intersection, and the right to proceed shall be subject to the rules applicable after making a stop at a stop sign.

2. Flashing yellow (caution signal). When a yellow lens is illuminated with rapid intermittent flashes, drivers of vehicles may proceed through an intersection or past such signal only with caution.

(b) This section does not apply at railroad grade crossings. Conduct of drivers of vehicles approaching railroad grade crossings shall be governed by the rules as set forth in Section 86 of this Act.

Lane-Direction-Control Signals

Sec. 35A. When lane-direction-control signals are placed over the individual lanes of a street or highway, vehicular traffic may travel in any lane over which a green signal is shown, but shall not enter or travel in any lane over which a red signal is shown.

Display of Unauthorized Signs, Signals or Markings

Sec. 36. (a) No person shall place, maintain or display upon or in view of any highway any unauthorized sign, signal, marking or device which purports to be or is an imitation of or resembles an
ARTICLE IV—ACCIDENTS

Accidents Involving Death or Personal Injuries

Sec. 38. (a) The driver of any vehicle involved in an accident resulting in injury to or death of any person shall immediately stop such vehicle at the scene of such accident or as close thereto as possible but shall then forthwith return to and in every event shall remain at the scene of the accident until he has fulfilled the requirements of Section 40. Every such stop shall be made without obstructing traffic more than is necessary.

However, when an accident occurs on a main lane, ramp, shoulder, median, or adjacent area of a freeway in a metropolitan area and each vehicle involved can be normally and safely driven, each driver shall move his vehicle as soon as possible off the freeway main lanes, ramps, shoulders, medians, and adjacent areas to a designated accident investigation site, if available, a location on the frontage road, the nearest suitable cross street, or other suitable location to complete the requirements of Section 40, so as to minimize interference with the freeway traffic. Any person failing to stop or to comply with said requirements under such circumstances shall be guilty of a misdemeanor.

Sec. 40. The driver of any vehicle involved in an accident resulting in injury to or death of any person or damage to any vehicle which is driven or attended by any person shall give his name, address, and the registration number of the vehicle he is driving and the name of his motor vehicle liability insurer, and shall upon request and if available exhibit his operator's license, operator's license, or chauffeur's license to the person struck or the driver or occupant of or person attending any vehicle colliding with and shall render to any person injured in such accident reasonable assistance, including the carrying, or the making of arrangements for the carrying, of such person to a physician, surgeon, or hospital for medical or surgical treatment if it is apparent that such treatment is necessary or if such carrying is requested by the injured person.

Sec. 41. The driver of any vehicle which collides with and damages any vehicle which is unattended shall immediately stop and shall then and there either locate and notify the operator or owner of such vehicle of the name and address of the driver and owner of the vehicle striking the unattended vehicle or shall leave in a conspicuous place in, or securely attached to and plainly visible, the vehicle struck a written notice giving the name and address of the driver and of the owner of the vehicle doing the striking and a statement of the circumstances thereof.

Duty Upon Striking Fixtures Upon a Highway

Sec. 42. The driver of any vehicle involved in an accident resulting only in damage to fixtures legally upon or adjacent to a highway shall take reasonable steps to locate and notify the owner or person in charge of such property of such fact and of his name and address and of the registration number of the vehicle he is driving and shall upon request and if available exhibit his operator's, commercial operator's, or chauffeur's license, and shall make report
of such accident when and as required in Section 44 hereof.

Immediate Reports of Accidents

Sec. 43. The driver of a vehicle involved in an accident resulting in injury to or death of any person or damage to any vehicle to the extent that it cannot be normally and safely driven shall immediately by the quickest means of communication give notice of such accident to the local police department if such accident occurs within a municipality, otherwise to the office of the county sheriff or the nearest office of the Texas Highway Patrol.

Investigation of Accidents

Sec. 43A. A peace officer notified of a motor vehicle accident resulting in injury to or death of any person or damage to the property of any one person to an apparent extent of Two Hundred and Fifty Dollars ($250) or more may investigate the accident and file any justifiable charges relating thereto without regard to whether the accident occurred on a public street or highway or other public property, on a road owned and controlled by any water control and improvement district, whether or not a fee is charged for the use of the road, or on private property commonly used by the public such as supermarket or shopping center parking lots, parking areas provided by business establishments for the convenience of their customers, clients, or patrons, parking lots owned and operated by the State or any other parking area owned and operated for the convenience of, and commonly used by, the public. It is specifically provided, however, that this Section shall not apply to accidents occurring on privately owned residential parking areas or on privately owned parking lots where a fee is charged for the privilege of parking or storing a motor vehicle.

Written Report of Accidents

Sec. 44. (a) The driver of a vehicle involved in an accident not investigated by a law enforcement officer and resulting in injury to or death of any person, or damage to the property of any one person, including himself, to an apparent extent of at least Two Hundred Fifty Dollars ($250), shall within ten (10) days after such accident forward a written report of such accident to the Department. Any person who shall fail to make such a report shall be guilty of a misdemeanor and upon conviction shall be punished as provided in Section 148. The venue for the prosecution of such offense shall be in the county where the accident occurred.

(b) The Department may require any driver of a vehicle involved in an accident of which report must be made as provided in this Section to file supplemental reports whenever the original report is insufficient in the opinion of the Department and may require witnesses of accidents to render reports to the Department.

(c) Every law enforcement officer, who, in the regular course of duty, investigates a motor vehicle accident resulting in injury to or death of any person, or damage to the property of any one person to an apparent extent of at least Two Hundred Fifty Dollars ($250), either at the time of and at the scene of the accident or thereafter by interviewing participants or witnesses shall, within ten (10) days after such accident, forward a written report of such accident to the Department.

Accident Report Forms

Sec. 45. (a) The department shall prepare and upon request supply to police departments, coroners, sheriffs, garages, and other suitable agencies the forms for accident reports required hereunder, appropriate with respect to the persons required to make such reports and the purposes to be served. The written reports to be made by person involved in accidents and by investigating officers shall call for sufficiently detailed information to disclose with reference to a traffic accident the cause, conditions then existing, and the persons and vehicle involved. Also, the forms for the written reports shall include a means for designating and identifying peace officers and fire fighters who during an emergency are involved in accidents while driving law enforcement vehicles or fire department vehicles in pursuit of their duties. The forms shall also contain a statement by the peace officers and fire fighters describing the nature of the emergency.

(b) Every accident report required to be made in writing shall be made on the appropriate form approved by the department and shall contain all of the information required therein unless not available.

Coroners to Report

Sec. 46. Every coroner or other official performing like functions shall on or before the tenth (10th) day of each month report in writing to the department the death of any person within his jurisdiction during the preceding calendar month as the result of a traffic accident giving the time and place of the accident and the circumstances relating thereto.

Accident Reports

Sec. 47. All accident reports made by persons involved in accidents, by garages, or peace officers shall be without prejudice to the individual so reporting and shall be privileged and for the confidential use of the Department or other State agencies having use for the records for accident prevention purposes, except that the Department may disclose the identity of a person involved in an accident when such identity is not otherwise known or when such person denies his presence at such accident, provided that accident reports submitted by peace officers after January 1, 1970, are public records open for inspection. After January 1, 1970, the Department shall provide a copy or copies of any
peace officer's report submitted after that date to any person upon written request and payment of a Four Dollar ($4) fee. Such copy may be certified by the Department for an additional fee of Two Dollars ($2). In the event no report is on file the Department may certify such fact for a fee of Four Dollars ($4). All fees collected under this Section shall be placed in the Operators and Chauffeurs License Fund and are hereby appropriated to be used by the Department in the administration of this Act.

Department to Tabulate and Analyze Accident Reports

Sec. 48. The Department shall tabulate and may analyze all accident reports and shall publish annually, or at more frequent intervals, statistical information based thereon as to the number and circumstances of traffic accidents.

Any Incorporated City May Require Accident Reports

Sec. 49. (a) Any incorporated city, town, village, or other municipality may by ordinance require that the driver of a vehicle involved in an accident shall also file with a designated city department a report of such accident, except that no report may be required if there is no injury to or death of any person and the apparent total property damage is less than Twenty-five ($25.00) Dollars, or a copy of any report herein required to be filed with the department. All such reports shall be for the confidential use of the city department and subject to the provisions of Section 47 of this Act.

(b) Any incorporated city, town, village, or other municipality may by ordinance require the person in charge of any garage or repair shop to which is brought any motor vehicle which shows evidence of having been involved in an accident of which report is brought any motor vehicle which shows evidence of having been involved in an accident of which report is required and the apparent total property damage is less than Twenty-five ($25.00) Dollars, or a copy of any report herein required to be filed with the department. All such reports shall be for the confidential use of the city department and subject to the provisions of Section 47 of this Act.

Drive on Right Side of Roadway—Exceptions

Sec. 52. (a) Upon all roadways of sufficient width a vehicle shall be driven upon the right half of the roadway, except as follows:
1. When overtaking and passing another vehicle proceeding in the same direction under the rules governing such movement;
2. When an obstruction exists making it necessary to drive to the left of the center of the highway; provided, any person so doing shall yield the right-of-way to all vehicles traveling in the proper direction upon the unobstructed portion of the highway within such distance as to constitute an immediate hazard;
3. Upon a roadway divided into three marked lanes for traffic under the rules applicable thereon; or
4. Upon a roadway restricted to one-way traffic.

(b) Upon all roadways any vehicle proceeding at less than the normal speed of traffic at the time and place and under the conditions then existing shall be driven in the right-hand lane then available for traffic, or as close as practicable to the right-hand curb or edge of the roadway, except when overtaking and passing another vehicle proceeding in the same direction or when preparing for a left turn at an intersection or into a private road or driveway.

(c) Upon any roadway having four or more lanes for moving traffic and providing for two-way movement of traffic, no vehicle shall be driven to the left of the center line of the roadway, except when authorized by official traffic-control devices designated certain lanes to the left side of the center of the roadway for use by traffic not otherwise permitted to use such lanes, or except as permitted under Subsection (a) 2 hereof. However, this subsection shall not be construed as prohibiting the crossing of the center line in making a left turn into or out of an alley, private road, or driveway.

Passing Vehicles Proceeding in Opposite Directions

Sec. 53. Drivers of vehicles proceeding in opposite directions shall pass each other to the right, and upon roadways having width for not more than one line of traffic in each direction each driver shall give to the other at least one-half (1/2) of the main-traveled portion of the roadway as nearly as possible.

Overtaking a Vehicle on the Left

Sec. 54. The following rules shall govern the overtaking and passing of vehicles proceeding in the same direction, subject to those limitations, exceptions and special rules hereinafter stated:
(a) The driver of a vehicle overtaking another vehicle proceeding in the same direction shall pass to the left thereof at a safe distance and shall not
again drive to the right side of the roadway until safely clear of the overtaken vehicle.

(b) Except when overtaking and passing on the right is permitted, the driver of an overtaken vehicle shall give way to the right in favor of the overtaking vehicle on audible signal and shall not increase the speed of his vehicle until completely passed by the overtaking vehicle.

**Operation of Vehicle on Improved Shoulder**

Sec. 54A. (a) A driver may operate a vehicle on an improved shoulder to the right of the main traveled portion of the roadway as long as necessary and when the operation may be done in safety only under the following circumstances:

1. to stop, stand, or park;
2. to accelerate prior to entering the main traveled lane of traffic;
3. to decelerate prior to making a right turn;
4. to overtake and pass another vehicle that is slowing or stopped on the main traveled portion of the highway disabled or preparing to make a left turn;
5. to allow other vehicles to pass that are traveling at a greater speed;
6. when permitted or required by an official traffic control device; or
7. at any time to avoid a collision.

(b) A driver may operate a vehicle on the improved shoulder to the left of the main traveled portion of a divided or controlled-access highway when the operation may be done in safety only under the following conditions:

1. where sight restriction is such that the section of highway being traversed lies within a no passing zone as determined and marked in accordance with Section 58;
2. when approaching within one hundred (100) feet of or passing through any intersection or railroad grade crossing within the limits of an incorporated city or town;
3. when approaching within one hundred (100) feet of or passing through any intersection or railroad grade crossing and the intersection or crossing is indicated by signs or markings in accordance with Section 58.
Art. 6701d ROADS, BRIDGES, AND FERRIES

4. When approaching within one hundred (100) feet of any bridge, viaduct, or tunnel.

Text of (a) as amended by Acts 1971, 62nd Leg., p. 2418, ch. 767, § 1

(a) No vehicle shall at any time be driven to the left side of the roadway under the following conditions:

1. Where sight restriction is such that the section of highway being traversed lies within a no passing zone as determined and marked in accordance with Section 58.

2. When approaching within one hundred (100) feet of or traversing any intersection or railroad grade crossing.

3. When approaching within one hundred (100) feet of any bridge, viaduct, or tunnel.

4. When awaiting access to a ferry operated by the State Highway Commission.

(b) The foregoing limitations shall not apply upon a oneway roadway, nor to any driver of a vehicle turning left into or from an alley, private road, or driveway.

(c) The State Highway Commission shall post signs along the approach to any ferry operated by it notifying motorists that passing is prohibited when there is a standing line of vehicles awaiting access to the ferry.

No-Passing Zones

Sec. 58. (a) The State Highway Commission on State highways under its jurisdiction, and local authorities on highways under their jurisdiction, are authorized to determine those portions of any highway under their appropriate jurisdiction where overtaking and passing or driving to the left of the roadway would be especially hazardous and may by appropriate signs or marking on the roadway indicate the beginning and end of such zones and when such signs or markings are in place and clearly visible to an ordinarily observant person every driver of a vehicle shall obey the directions thereof.

(b) Where signs or markings are in place to define a no-passing zone as set forth in Subsection (a) no driver shall at any time drive on the left side of the roadway within such no-passing zone or on the left side of any pavement striping designed to mark such no-passing zone throughout its length. However, this subsection shall not be construed as prohibiting the crossing of such pavement striping, or the center line within a no-passing zone marked by signs only, in making a left turn into or out of an alley, private road, or driveway.

One-Way Roadways and Rotary Traffic Islands

Sec. 59. (a) The State Highway Commission may designate any highway or any separate roadway under its jurisdiction for one-way traffic and shall erect appropriate signs giving notice thereof.

(b) Upon a roadway designated and signposted for one-way traffic the driver of a vehicle shall drive only in the direction designated.

(c) The driver of a vehicle passing around a rotary traffic island shall drive only to the right of such island.

Driving on Roadways Laned for Traffic

Sec. 60. Whenever any roadway has been divided into two (2) or more clearly marked lanes for traffic the following rules in addition to all others consistent herewith shall apply:

(a) The driver of a vehicle shall drive as nearly as practical entirely within a single lane and shall not be moved from such lane until the driver has first ascertained that such movement can be made with safety.

(b) Upon a roadway which is divided into three (3) lanes and provides for two-way movement of traffic, a vehicle shall not be driven in the center lane except when overtaking and passing another vehicle traveling in the same direction when such center lane is clear of traffic within a safe distance, or in preparation for making a left turn or where such center lane is at the time allocated exclusively to traffic moving in the same direction that the vehicle is proceeding and such allocation is designated by official traffic-control devices.

(c) Official signs may be erected directing slow-moving traffic to use a designated lane or designating these lanes to be used by traffic moving in a particular direction regardless of the center of the roadway and drivers of vehicles shall obey the direction of every such sign.

(d) Official traffic-control devices may be installed prohibiting the changing of lanes on sections of roadway and drivers of vehicles shall obey the directions of every such device.

Following Too Closely

Sec. 61. (a) The driver of a motor vehicle shall, when following another vehicle, maintain an assured clear distance between the two vehicles, exercising due regard for the speed of such vehicles, traffic upon and conditions of the street or highway, so that such motor vehicle can be safely brought to a stop without colliding with the preceding vehicle, or veering into other vehicles, objects or persons on or near the street or highway.

(b) The driver of any motor truck or motor vehicle drawing another vehicle when traveling upon a roadway outside of a business or residential district and which is following another motor truck or motor vehicle drawing another vehicle shall whenever conditions permit leave sufficient space so that an overtaking vehicle may enter and occupy such space without danger, except that this shall not prevent a motor truck or motor vehicle drawing another vehicle from overtaking and passing any like vehicle or other vehicle.
(c) The drivers of motor vehicles driven upon any roadway outside of a business or residential district in a caravan or motorcade whether or not towing other vehicles shall drive so as to allow sufficient space between such such vehicle or combination of vehicles so as to enable any other vehicles to enter and occupy such space without danger. This provision shall not apply to funeral processions.

Driving on Divided Highways

Sec. 62. Whenever any highway has been divided into two (2) or more roadways by leaving an intervening space or by a physical barrier or clearly indicated dividing section so constructed as to impede vehicular traffic, every vehicle shall be driven only upon the right-hand roadway unless directed or permitted to use another roadway by official traffic-control devices or police officers. No vehicle shall be driven over, across or within any such dividing space, barrier or section, except through an opening in such physical barrier or dividing section or space or at a crossover or intersection as established by public authority.

Restricted Access

Sec. 63. No person shall drive a vehicle onto or from any limited access or controlled access roadway except at such entrances and exits as are established by public authority.

Restrictions on Use of Limited-Access or Controlled-Access Roadway

Sec. 64. The State Highway Commission may by resolution or order entered in its minutes, and local authorities may by ordinance, with respect to any limited-access or controlled-access roadway under their respective jurisdictions prohibit the use of any such roadway by parades, funeral processions, pedestrians, bicycles, nonmotorized traffic, or by any person operating a motor driven cycle.

The State Highway Commission or the local authority adopting any such prohibitory regulation shall erect and maintain official traffic-control devices on the limited-access or controlled-access highway on which such regulations are applicable and when in place no person shall disobey the restrictions stated on such devices.

ARTICLE VII—TURNING AND STARTING AND SIGNALS ON STOPPING AND TURNING

Required Position and Method of Turning at Intersections

Sec. 65. The driver of a vehicle intending to turn at an intersection shall do so as follows:

(a) Right turns. Both the approach for a right turn and a right turn shall be made as close as practicable to the right-hand curb or edge of the roadway.

(b) Left turns. The driver of a vehicle intending to turn left at any intersection shall approach the intersection in the extreme left-hand lane lawfully available to traffic moving in the direction of travel of such vehicle, and, after entering the intersection, the left turn shall be made so as to leave the intersection in a lane lawfully available to traffic moving in such direction upon the roadway being entered. Whenever practicable the left turn shall be made in that portion of the intersection to the left of the center of the intersection.

(c) The State Highway Commission and local authorities in their respective jurisdictions may cause official traffic-control devices to be placed within or adjacent to intersections and thereby require and direct that a different course from that specified in this section be traveled by vehicles turning at an intersection, and when such devices are so placed no driver of a vehicle shall turn a vehicle at an intersection other than as directed and required by such devices.

Turning on Curve or Crest of Grade Prohibited

Sec. 66. No vehicle shall be turned so as to proceed in the opposite direction upon any curve, or upon the approach to or near the crest of a grade, where such vehicle cannot be seen by the driver of any other vehicle approaching from either direction within five hundred (500) feet.

Starting Parked Vehicle

Sec. 67. No person shall start a vehicle which is stopped, standing, or parked unless and until such movement can be made with safety.

Turning Movements and Required Signals

Sec. 68. (a) No person shall turn a vehicle at an intersection unless the vehicle is in proper position upon the roadway as required in Section 65, or turn a vehicle to enter a private road or driveway, or otherwise turn a vehicle from a direct course or move right or left upon a roadway unless and until such movement can be made with safety. Except under conditions set out in Section 24(a) no person shall so turn any vehicle without giving an appropriate signal in the manner hereinafter provided.

(b) A signal of intention to turn right or left when required shall be given continuously during not less than the last one hundred (100) feet traveled by the vehicle before turning.

(c) No person shall stop or suddenly decrease the speed of a vehicle without first giving an appropriate signal in the manner provided herein to the driver of any vehicle immediately to the rear when there is opportunity to give such signal.

(d) The signals provided for in Section 69 of this Act shall be used to indicate an intention to turn, change lanes, or start from a parked position and shall not be flashed on one side only on a parked or disabled vehicle, or flashed as a courtesy or “do pass” signal to operators of other vehicles approaching from the rear.
Art. 6701d  ROADS, BRIDGES, AND FERRIES  4298

Signals by Hand and Arm or Signal Lamps

Sec. 69. (a) Any stop or turn signal when required herein shall be given either by means of the hand and arm or by signal lamps, except as otherwise provided in Subsection (b).

(b) Any motor vehicle in use on a highway shall be equipped with, and required signal shall be given by, signal lamps when the distance from the center of the top of the steering post to the left outside limit of the body, cab or load of such motor vehicle exceeds 24 inches, or when the distance from the center of the top of the steering post to the rear limit of the body or load thereof exceeds 14 feet. The latter measurement shall apply to any single vehicle, also to any combination of vehicles.

Method of Giving Hand-and-Arm Signals

Sec. 70. All signals herein required given by hand and arm shall be given from the left side of the vehicle in the following manner and such signals shall indicate as follows:

1. Left turn. Hand and arm extended horizontally.
2. Right turn. Hand and arm extended upward.
3. Stop or decrease speed. Hand and arm extended downward.

The signals herein required shall be given either by means of the hand-and-arm, or by a signal lamp or signal device approved by the department.

ARTICLE VIII—RIGHT-OF-WAY

Vehicles Approaching or Entering Intersection

Sec. 71. (a) The driver of a vehicle approaching the intersection of a different street or roadway shall stop, yield and grant the privilege of immediate use of such intersection in obedience to any stop sign, yield right-of-way sign or traffic control device erected by public authority, and after so stopping may only proceed thereafter when such driver may safely enter the intersection without interference or collision with traffic using such different street or roadway.

(b) The driver of a vehicle on a single lane street or roadway, or a street or roadway consisting of only two traffic lanes, upon approaching the intersection, not otherwise controlled by traffic signs or signals, of a divided street or roadway, or of a street or roadway divided into three or more marked traffic lanes, shall stop, yield and grant the privilege of immediate use of such intersection to vehicles on such other street which are within the intersection or approaching such intersection in such proximity thereto as to constitute a hazard and after so stopping may only proceed thereafter when such driver may safely enter the intersection without interference or collision with traffic using such different street or roadway.

(c) The driver of a vehicle on an unpaved street or roadway approaching the intersection of a paved roadway shall stop, yield and grant the privilege of immediate use of such intersection to any vehicle on such paved roadway which is within the intersection or approaching such intersection in such proximity thereto as to constitute a hazard, and after so stopping may only proceed thereafter when such driver may safely enter the intersection without interference or collision with traffic using such paved street or roadway.

(d) Except as provided in Subsection (d-1) of this section, the driver of a vehicle approaching the intersection of a different street or roadway, not otherwise regulated herein, or controlled by traffic control signs or signals, shall stop, yield and grant the privilege of immediate use of such intersection to any other vehicle which has entered the intersection from such driver's right or is approaching such intersection from such driver's right in such proximity thereto as to constitute a hazard and after so stopping may only proceed thereafter when such driver may safely enter such intersection without interference or collision with traffic using such different street or roadway.

(d-1) The driver of a vehicle approaching the intersection of a street or roadway from a street or roadway which terminates at the intersection, not otherwise regulated in this section or controlled by traffic control signs or signals, shall stop, yield, and grant the privilege of immediate use of the intersection to another vehicle which has entered the intersection from the other street or roadway or is approaching the intersection on the other street or roadway in such proximity as to constitute a hazard and after stopping may only proceed when the driver may safely enter the intersection without interference or collision with the traffic using the other street or roadway.

(e) A driver obligated to stop and yield the right-of-way in accord with Sections (a), (b), (c), (d), and (d-1) of Section 71, who is involved in a collision or interference with other traffic at such intersection is presumed not to have yielded the right-of-way as required by this Act.

Vehicle Turning Left

Sec. 72. The driver of a vehicle intending to turn to the left within an intersection or into an alley, private road, or driveway shall yield the right-of-way to any vehicle approaching from the opposite direction which is within the intersection or so close thereto as to constitute an immediate hazard.

Vehicle Entering Stop or Yield Intersection

Sec. 73. (a) Preferential right-of-way at an intersection may be indicated by stop signs or yield signs as authorized in Subsection (a) of Section 91 of this Act.

(b) Except when directed to proceed by a police officer or traffic-control signal, every driver of a vehicle approaching a stop intersection indicated by a stop sign shall stop as required by Subsection (b)

Provided, however, that if such a driver is involved in a collision with a vehicle in the intersection, after driving past a yield sign without stopping, such collision shall be deemed prima facie evidence of his failure to yield right-of-way.

Vehicle Entering or Leaving Controlled Access Highway

Sec. 78A. The driver of a vehicle proceeding on an access or feeder road of a controlled access highway shall yield the right-of-way to a vehicle entering or about to enter the road from the highway or leaving or about to leave the road to enter the highway.

(c) A nonprofit organization may erect a temporary structure at a rest area to provide services, food, or beverages to travelers, provided that the Department of Highways and Public Transportation has found that such services would constitute a public service for the benefit of the traveling public and has issued a permit to such organization.

(d) In this section "rest area" means any area of public land designated by the State Department of Highways and Public Transportation as a rest area, comfort station, picnic area, roadside park, or scenic overlook.

ARTICLE XIV—EQUIPMENT
Prohibitions and Rules
Sec. 108. (a) In this Article, "vehicle equipment" means a system, part, or device that is manufactured or sold as original equipment, as replacement equipment, or as an accessory for a vehicle or a device or article of apparel manufactured or sold to protect a driver or passenger of a vehicle.

(a-1) It is a misdemeanor for any person to drive or move or for the owner to cause or knowingly permit to be driven or moved on any highway any vehicle or combination of vehicles that:

(1) is in an unsafe condition so as to endanger any person;
(2) is not equipped at all times with equipment required by and meeting standards established in this Article; or
(3) is equipped in any manner in violation of this Article.

(a-2) It is a misdemeanor for a person to operate on a public highway a vehicle that is equipped with an item of vehicle equipment that the person knows has been determined under Section 108E of this Article not to comply with a standard established by the Department.

(a-3) It is a misdemeanor for any person to do any act forbidden or fail to perform any act required under this Article.

(b) Nothing contained in this Article or rules of the Department shall be construed to prohibit the use of equipment required by any federal agency or the use on any vehicle of additional parts and accessories not inconsistent with the provisions of this Article or rules of the Department.

(c) The provisions of this Article and rules of the Department adopted under this Article with respect to equipment on vehicles shall not apply to implements of husbandry, road machinery, road rollers or farm tractors, except as herein made applicable.

(c-1) The provisions of this article do not apply to bicycles, bicyclists, or bicycle equipment unless a provision is specifically made applicable to bicycles, bicyclists, or bicycle equipment.

(c-1) The Department may adopt any rules necessary to administer this Article.

Standards for Equipment
Sec. 108A. (a) The Department may establish standards that are not inconsistent with standards established by this Article for vehicle equipment for the purposes of protecting the public from unreasonable risk of death or injury and providing such enforcement of federal safety standards by the Department which is permissible under provisions of the federal motor vehicle act.

(b) A person may not sell, offer to sell, or distribute for sale any item of vehicle equipment for which a standard is in effect as provided by this Article or by rule of the Department adopted under this Article, unless the item complies with the applicable standard.

(c) If a standard has been established by a federal agency and is in effect for an item of vehicle equipment, a standard established by the Department that applies to the same aspect of performance of that item must be identical to the federal standard.

(d) If a federal standard for an aspect of performance of an item of vehicle equipment is not in effect, a standard established by the Department for that aspect of performance of the item must conform to the greatest extent possible to any other relevant federal standards, similar standards established by other states, and standards issued or endorsed by recognized national standard-setting organizations and agencies.

(e) Each sale or distribution for sale of or offer to sell an item of vehicle equipment in violation of Subsection (b) of this section is a separate offense; provided that it is an affirmative defense to prosecution under this Section that the person did not have reason to know, in the exercise of due care that the item of equipment was not in compliance with the applicable standard.

Identification of Manufacturer

Sec. 108C. A person may not sell, offer to sell, or distribute for sale in this State an item of vehicle equipment for which a standard has been established by this Article or the Department and is in effect unless the item or its package bears the manufacturer's trademark or brand name or unless it complies with applicable identification requirements of a federal agency and the Department.

Testing

Sec. 108D. (a) Concurrent with the first sale within this State of an item of vehicle equipment or thereafter, the Department shall determine whether the item is one for which a standard has been established under Section 108A of this Act, and if so, whether the item complies with the standard.

(b) The Department by rule may require the manufacturer of an item of vehicle equipment to submit, concurrent with the first sale of the item in this State or thereafter, adequate test data showing that the item complies with any applicable standards established by the Department. The Department may periodically require a manufacturer to submit revised test data demonstrating continuing compliance.

(c) The Department shall establish standards for and approve testing laboratories and facilities to review reports submitted under Subsection (b) of this section and to test an item independently for compliance under Section 108E of this Act.

(d) The Department may purchase an item of vehicle equipment at retail for purposes of testing and review under Subsection (c) of this section.

(e) In performing its duties under this section, the Department may enter into cooperative arrangements with other states and interstate agencies to minimize duplication of testing and to facilitate compliance by manufacturers and sellers with any requirements under Subsection (b) of this section.

(f) The Department by rule may require its approval before the sale of an item of vehicle equipment for which a standard established by a federal agency or the Department is not in effect.

(g) The Department may not require certification or approval of motor vehicle equipment subject to federal motor vehicle safety standards and may not impose product certification or approval fees, including fees for laboratory approvals.

(h) The Department may undertake independent testing of vehicles and equipment subject to federal motor vehicle safety standards and may require manufacturers to submit adequate test data concurrently with first sale or thereafter, showing compliance with federal standards. The Department may review a manufacturer's laboratory testing data as well as the qualifications of the laboratory selected by the manufacturer. However, the Department may not require manufacturers to use outside laboratories or specified laboratories.

Proceedings on Compliance

Sec. 108E. (a) If the Department has reason to believe that an item of vehicle equipment is being sold, offered for sale, or distributed for sale in this State in violation of a standard established by the Department and applicable at the time of the sale or offer, the Department may initiate proceedings to determine whether or not the item complies with the standard.

(b) The Department shall deliver to the manufacturer of the item by certified mail, return receipt requested, written notice of the proceedings. The notice must:

(1) include a citation to the standard that the item allegedly violates; and

(2) state that if the manufacturer desires a hearing on the issue of compliance, he must file with the Department a written request for the hearing not later than the 30th day after the date the notice is received.

(c) At the same time that notice under Subsection (b) of this section is delivered, the Department shall require a manufacturer to submit to the Department not later than the 30th day after the date the notice is received a list of the names and addresses of persons that the manufacturer knows to be offering the item for sale to retail merchants. On receipt of a list submitted under this subsection, the Department shall deliver by certified mail, return receipt requested, to each person whose name appears on the list written notice of the proceedings. The notice must include a citation to the standard that the item allegedly violates and state that:

(1) the manufacturer of the item has been notified and may before a stated date request a hearing on the issue of compliance;

(2) if the manufacturer or another person requests a hearing, the person may appear at the hearing;

(3) if the manufacturer does not request a hearing, the person may request a hearing by filing a written request with the Department not later than the 30th day after the date the notice is received; and

(4) the person may contact the Department to determine whether a hearing is to be held and if so, the time and place of the hearing.

(d) If a manufacturer or other person notified under Subsection (b) or (c) of this section requests a hearing as provided by those subsections, the Department shall conduct a hearing on the issue of compliance. If a hearing is not requested within the period required by Subsection (b) or (c) of this section, the Department is not required to conduct a hearing.
Art. 6701d  ROADS, BRIDGES, AND FERRIES

(e) In a determination of whether an item of vehicle equipment complies with a standard established by the Department, the only issues that may be decided are:

(1) whether an item of vehicle equipment has been sold, offered for sale, or distributed for sale in this State in violation of a standard for the item established by the Department;

(2) whether the manufacturer failed to make a submission required by Subsection (b) of Section 108D of this Act; and

(3) whether an item of vehicle equipment has been sold, offered for sale, or distributed for sale in this State in violation of Section 108C of this Act.

(f) If the Department finds in the affirmative one of the issues in Subsection (e) of this section, the Department shall enter an order prohibiting the manufacture, sale, offer for sale, and distribution for sale of the item in this State. After entering an order under this subsection, the Department shall deliver written notice of the order by certified mail, return receipt requested, to each person whom the Department notified regarding the proceedings on compliance.

(g) A person who is aggrieved by an order entered under Subsection (f) of this section after a hearing and who appeared at the hearing may appeal the order to a district court in Travis County. Review of the order shall be under the substantial evidence rule.

Injunction

Sec. 108F. The Department may bring an action in a district court of Travis County to enjoin the manufacture, sale, offer for sale, and distribution for sale in this State of an item of vehicle equipment that is the subject of an order entered under Subsection (f) of Section 108E of this Act. The attorney general shall represent the Department in a suit under this section.

(b) Except for Section 118 of this Act, the provisions of this Act requiring the installation of fixed electric lights on vehicles do not apply to boat trailers with a gross weight of less than four thousand (4,000) pounds, if they are operated on the highways only during daytime, and not at times when, due to insufficient light or unfavorable atmospheric conditions, persons and vehicles on the highway are not clearly discernible at a distance of one thousand (1,000) feet ahead.

(c) Except for Section 118 of this Act, the provisions of this Act relating to lamps, reflectors, and lighting equipment do not apply to a mobile home if it is moved over the highways only during daytime and not at times when, due to insufficient light or
unfavorable atmospheric conditions, persons and vehicles are not clearly discernible at a distance of one thousand (1,000) feet ahead, and if the mobile home is being moved pursuant to a special permit issued by the State Highway Department under Chapter 41, Acts of the 41st Legislature, 2nd Called Session, 1929, as amended (Article 6701a, Vernon's Texas Civil Statutes). In no event may a mobile home lighted as provided in this section move on the highways other than at daytime.

Sec. 116. (a) Reflectors shall be mounted at a height of not less than twenty-four (24) inches and not higher than sixty (60) inches above the ground on which the vehicle stands, except that if the highest part of the permanent structure of the vehicle is less than twenty-four (24) inches the reflector at such point shall be mounted as high as that part of the permanent structure will permit.

The rear reflectors on a pole trailer may be mounted on each side of the bolster or load.

Any required red reflector on the rear of a vehicle may be incorporated with the tail lamp, but such reflector shall meet all the other reflector requirements of this Act.

(b) Clearance lamps shall, so far as is practicable, be mounted on the permanent structure of the vehicle in such a manner as to indicate the extreme height and width of the vehicle. Provided, that when rear identification lamps are required and are mounted as high as it is practicable, rear clearance lamps may be mounted at optional height and when the mounting of front clearance lamps results in such lamps failing to indicate the extreme width of the trailer, such lamps may be mounted at optional height but must indicate, as near as practicable, the extreme width of the trailer. Clearance lamps on truck tractors shall be located so as to indicate the extreme width of the truck tractor cab. Clearance lamps and side marker lamps may be mounted in combination provided illumination is given as required herein with reference to both.

Stop Lamps and Turn Signals

Sec. 118. (a) After January 1, 1972, every motor vehicle, trailer, semitrailer and pole trailer shall be equipped with two (2) or more stop lamps meeting the requirements of Section 124, except that passenger cars manufactured or assembled prior to the model year 1960, shall be equipped with at least one (1) stop lamp. (b) After January 1, 1972, every motor vehicle, trailer, semitrailer and pole trailer shall be equipped with electric turn signal lamps meeting the requirements of Section 124, except that passenger cars and trucks less than eighty (80) inches in width, manufactured or assembled prior to model year 1960, need not be equipped with electric turn signal lamps.

Obstructed Lights Not Required

Sec. 119. Whenever motor and other vehicles are operated in combination during the time that lights are required, any lamp (except tail lamp) need not be lighted which, by reason of its location on a vehicle of the combination, would be obscured by another vehicle of the combination, but this shall not affect the requirement that lighted clearance lamps be displayed on the front of the foremost vehicle required to have clearance lamps, nor that all lights required on the rear of the rearmost vehicle of any combination shall be lighted.
Sec. 120. Whenever the load upon any vehicle extends to the rear four (4) feet or more beyond the bed or body of such vehicle there shall be displayed at the extreme rear end of the load, at the times specified in Section 108, two (2) red lamps visible from a distance of at least five hundred (500) feet to the rear, two (2) red reflectors visible at night from all distances within six hundred (600) feet to one hundred (100) feet to the rear when directly in front of lawful lower beams of head lamps and located so as to indicate maximum width, and on each side one red lamp visible from a distance of at least five hundred (500) feet to the side and located so as to indicate maximum overhang. There shall be displayed at all other times on any vehicle having a load which extends beyond its sides or more than four (4) feet beyond its rear, red flags, not less than twelve (12) inches square, marking the extremities of such load, at each point where a lamp would otherwise be required by this section.

(b) Whenever a vehicle is lawfully parked upon a street or highway during the hours between a half hour after sunset and a half hour before sunrise and in the event there is sufficient light to reveal any persons and vehicles within a distance of one thousand (1,000) feet upon such street or highway, no lights need be displayed upon such parked vehicle.

(c) Whenever a vehicle is parked or stopped upon a roadway or shoulder adjacent thereto, whether attended or unattended, during the hours between a half hour after sunset and a half hour before sunrise and there is insufficient light to reveal any person or object within a distance of one thousand (1,000) feet upon such highway, such vehicle so parked or stopped shall be equipped with and shall display lamps meeting the requirements of Subsection (a).

(d) Any lighted head lamps upon a parked vehicle shall be depressed or dimmed.

(c) Every combination of farm tractor and towed farm equipment or towed implement of husbandry shall at all times mentioned in Section 109 be equipped with lamps and reflectors as follows:

1. The farm tractor shall be equipped as required in Subsections (a) and (b).

2. If the towed unit or its load extends more than four (4) feet to the rear of the tractor or obscures any light thereon, said unit shall be equipped on the rear with at least two (2) red reflectors visible from all distances within six hundred (600) feet to one hundred (100) feet to the rear when directly in front of lawful lower beams of head lamps.

3. If the towed unit of such combination extends more than four (4) feet to the left of the centerline of the tractor, said unit shall be equipped on the front with an amber reflector visible from all distances within six hundred (600) feet to one hundred (100) feet to the front when directly in front of lawful lower beams of head lamps. Turn signal lamps on vehicles less than eighty (80) inches wide shall be visible at a distance of not less than three hundred (300) feet to the front and rear in normal sunlight. Turn signal lamps may, but need not be, incorporated in other lamps on the vehicle.

Additional Lighting Equipment

Sec. 125. (a) Any motor vehicle may be equipped with not more than two (2) side cowl or fender lamps which shall emit an amber or white light without glare.

(b) Any motor vehicle may be equipped with not more than one (1) running board courtesy lamp on each side thereof which shall emit a white or amber light without glare.
(c) Any motor vehicle may be equipped with one (1) or more back-up lamps either separately or in combination with other lamps, but any such back-up lamp or lamps shall not be lighted when the motor vehicle is in forward motion.

(d) Any vehicle may be equipped with lamps for the purpose of warning the operators of other vehicles of the presence of a vehicular traffic hazard requiring the exercise of unusual care in approaching, overtaking or passing. After January 1, 1972, every bus, truck, truck tractor, trailer, semitrailer or pole trailer eighty (80) inches or more in overall width or thirty (30) feet or more in overall length shall be equipped with lamps meeting the requirements of this subsection. The lamps used to display such warning to the front shall be mounted at the same level and as widely spaced laterally as practicable, and shall display simultaneously flashing white or amber lights, or any shade of color between white and amber. The lamps used to display such warning to the rear shall be mounted at the same level and as widely spaced laterally as practicable, and shall show simultaneously flashing amber or red lights, or any shade of color between amber and red. These warning lights shall be visible from a distance of not less than five hundred (500) feet in normal sunlight.

(e) Any vehicle eighty (80) inches or more in overall width, if not otherwise required by this Act, may be equipped with not more than three (3) identification lamps showing to the front which shall emit an amber light without glare and not more than three (3) identification lamps showing to the rear which shall emit a red light without glare. Such lamps shall be mounted as specified in Subsection (f) of Section 114.

Multiple-Beam Road Lighting Equipment

Sec. 126. Except as hereinafter provided, the headlamps or the auxiliary driving lamp or the auxiliary passing lamp or combination thereof on motor vehicles other than motorcycles or motor driven cycles shall be so arranged that the driver may select at will between distributions of light projected to different elevations and such lamps may, in addition, be so arranged that such selection can be made automatically, subject to the following limitations:

(a) There shall be an uppermost distribution of light, or composite beam, so aimed and of such intensity as to reveal persons and vehicles at a distance of at least four hundred and fifty (450) feet ahead for all conditions of loading.

(b) There shall be a lowermost distribution of light, or composite beam so aimed and of sufficient intensity to reveal persons and vehicles at a distance of at least one hundred and fifty (150) feet ahead; and on a straight level road under any condition of loading none of the high-intensity portion of the beam shall be directed to strike the eyes of an approaching driver.

c) Every new motor vehicle, other than a motorcycle or motor-driven cycle, registered in this State after January 1, 1948, which has multiple-beam road lighting equipment shall be equipped with a beam indicator, which shall be lighted whenever the uppermost distribution of light from the head lamps is in use, and shall not otherwise be lighted. Said indicator shall be so designed and located that when lighted it will be readily visible without glare to the driver of the vehicle so equipped.

Use of Multiple-Beam Road Lighting Equipment

Sec. 127. (a) Whenever a motor vehicle is being operated on a roadway or shoulder adjacent thereto during the times specified in Section 109, the driver shall use a distribution of light, or composite beam, directed high enough and of sufficient intensity to reveal persons and vehicles at a safe distance in advance of the vehicle, subject to the following requirements and limitations:

(b) Whenever the driver of a vehicle approaches an oncoming vehicle within five hundred (500) feet, such driver shall use a distribution of light, or composite beam, so aimed that the glaring rays are not projected into the eyes of the oncoming driver. The lowermost distribution of light, or composite beam, specified in Section 126(b) and Section 139F(f)(2b) shall be deemed to avoid glare at all times, regardless of road contour and loading.

(c) Whenever the driver of a vehicle approaches another vehicle from the rear, within three hundred (300) feet, such driver shall use a distribution of light permissible under this Article other than the uppermost distribution of light specified in Sections 126(a) and 139F(f)(2a).

Single Beam Road Lighting Equipment

Sec. 128. Head lamp systems which provide only a single distribution of light shall be permitted on all farm tractors regardless of date of manufacture, and on other motor vehicles manufactured and sold prior to one (1) year after the effective date of this Act in lieu of multiple-beam road-lighting equipment herein specified if the single distribution of light complies with the following requirements and limitations:

1. The head lamps shall be so aimed that when the vehicle is not loaded none of the high-intensity portion of the light shall at a distance of twenty-five (25) feet ahead project higher than a level of five (5) inches below the level of the center of the lamp from which it comes, and in no case higher than forty-two (42) inches above the level on which the vehicle stands at a distance of seventy-five (75) feet ahead.

2. The intensity shall be sufficient to reveal persons and vehicles at a distance of at least two hundred (200) feet.
Alternate Road Lighting Equipment

Sec. 129. Any motor vehicle may be operated under the conditions specified in Section 109 when equipped with two (2) lighted lamps upon the front thereof capable of revealing persons and vehicles one hundred (100) feet ahead in lieu of lamps required in Section 126 or Section 128, provided, however, that at no time shall it be operated at a speed in excess of twenty (20) miles per hour.

Number of Driving Lamps Required or Permitted

Sec. 130. (a) At all times specified in Section 109, at least two (2) lighted lamps shall be displayed, one on each side at the front of every motor vehicle except when such vehicle is parked subject to the regulations governing lights on parked vehicles.

(b) Whenever a motor vehicle equipped with head lamps as herein required is also equipped with any auxiliary lamps or a spot lamp or any other lamp on the front thereof projecting a beam of an intensity greater than three hundred (300) candlepower, not more than a total of four (4) of any such lamps on the front of a vehicle shall be lighted at any one time when upon a highway.

Special Restrictions on Lamps

Sec. 131. (a) Any lighted lamp or illuminating device upon a motor vehicle other than head lamps, spot lamps, auxiliary lamps, or flashing turn signals, emergency vehicle warning lamps, and school bus warning lamps, which projects a beam of light of an intensity greater than three hundred (300) candlepower shall be so directed that no part of the high intensity portion of the beam will strike the level of the roadway on which the vehicle stands at a distance of more than seventy-five (75) feet from the vehicle.

(b) No person shall drive or move any vehicle or equipment upon any highway with any lamp or device thereon displaying a red light visible from the front thereof projecting a beam of an intensity greater than three hundred (300) candlepower, not more than a total of four (4) of any such lamps on the front of a vehicle shall be lighted at any one time when upon a highway.

(f) The Texas Highway Department shall adopt standards and specifications applicable to head lamps, clearance lamps, identification and other lamps on snow-removal and other highway maintenance and service equipment when operated on the highways of this State in lieu of the lamps otherwise required on motor vehicles by this Article. Such standards and specifications may permit the use of flashing lights for purposes of identification on snow-removal and other highway maintenance and service equipment when in service upon the highways. The standards and specifications for lamps referred to in this section shall correlate with and, so far as possible, conform with those approved by the American Association of State Highway Officials.

(g) It shall be unlawful to operate any snow-removal and other highway maintenance and service equipment on any highway unless the lamps thereon comply with and are lighted when and as required by the standards and specifications adopted as provided in this section.

Brakes

Sec. 132. Every motor vehicle, trailer, semitrailer and pole trailer, and any combination of such vehicles operating upon a highway within this State shall be equipped with brakes in compliance with the requirements of this Article.

(a) Service brakes—adequacy. Every such vehicle and combination of vehicles, except special mobile equipment which is not designed or used primarily for the transportation of persons or property and only incidentally operated or moved on a highway, shall be equipped with service brakes complying with the performance requirements as required and adequate to control the movement of and to stop and hold such vehicle under all conditions of loading, and on any grade incident to its operation.

(b) Parking brakes—adequacy. Every such vehicle and combination of vehicles shall be equipped with parking brakes adequate to hold the vehicle on any grade on which it is operated, under all conditions of loading, on a surface free from snow, ice, or loose material. The parking brakes shall be capable of being applied in conformance with the foregoing requirements by the driver's muscular effort or by spring action or by equivalent means. Their operation may be assisted by the service brakes or other source of power provided that failure of the service brake actuation system or other power assisting mechanism will not prevent the parking brakes from being applied in conformance with the foregoing requirements. The parking brakes shall be so designed that when once applied they shall remain applied with the required effectiveness despite exhaustion of any source of energy or leakage of any kind. The same brake drums, brake shoes and lining assemblies, brake shoe anchors and mechani-
eral brake shoe actuation mechanism normally associated with the wheel brake assemblies may be used for both the service brakes and the parking brakes. If the means of applying the parking brakes and the service brakes are connected in any way, they shall be so constructed that failure of any one part shall not leave the vehicle without operative brakes.

(c) Brakes on all wheels. Every vehicle shall be equipped with brakes acting on all wheels except:

1. Certain trailers, semitrailers, and pole trailers, which are treated as follows:
   a. If the gross weight of the trailer, semitrailer, or pole trailer does not exceed four thousand, five hundred (4,500) pounds, it is not required to have brakes.
   b. If the gross weight of the trailer, semitrailer, or pole trailer exceeds four thousand, five hundred (4,500) pounds but does not exceed fifteen thousand (15,000) pounds, it is not required to have brakes.
   c. If the gross weight of the trailer, semitrailer, or pole trailer exceeds four thousand, five hundred (4,500) pounds but does not exceed fifteen thousand (15,000) pounds, and the vehicle is driven at a speed in excess of thirty (30) miles per hour, it is not required to have brakes.
   d. “Gross weight,” as used in this subsection, means the weight of the trailer, semitrailer, or pole trailer plus the weight of the load actually carried.

2. Any vehicle being towed in driveaway or towaway operations, provided the combination of vehicles is capable of complying with the performance requirements of this Act.

3. Trucks and truck tractors having three (3) or more axles need not have brakes on the front wheels, except that when such vehicles are equipped with at least two (2) steerable axles, the wheels of one (1) steerable axle need not have brakes. However, such trucks and truck tractors must be capable of complying with the performance requirements of this Act.

4. Special mobile equipment as defined in Subsection (a) above.

5. Any farm trailer or farm semitrailer operated or moved temporarily upon the highways when its gross weight does not exceed ten thousand (10,000) pounds and when the speed of such farm trailer or farm semitrailer does not exceed thirty (30) miles per hour and when the vehicle and its operation meet all other requirements for total or partial exemption from registration fees as set forth in Section 2, Chapter 88, Acts of the 41st Legislature, 2nd Called Session, 1929, as last amended by Chapter 111, Acts of the 55th Legislature, Regular Session, 1957 (Article 6675a–2, Vernon’s Texas Civil Statutes). The term “gross weight” as used in this subsection shall mean the combined weight of the trailer or semitrailer and the weight of the load actually carried on the highway.

6. Any farm trailer or farm semitrailer operated or moved temporarily upon the highways solely to transport cotton
   a. if the gross weight of the trailer or semitrailer is not more than fifteen thousand (15,000) pounds;
   b. if the speed of the trailer or semitrailer is not more than thirty (30) miles per hour; and
   c. if the trailer or semitrailer is totally or partially exempt from the regular registration fees under Section 2, Chapter 88, Acts of the 41st Legislature, 2nd Called Session, 1929, as amended (Article 6675a–2, Vernon’s Texas Civil Statutes).

(d) Automatic trailer brake application upon breakaway. Every trailer, semitrailer, and pole trailer equipped with air or vacuum actuated brakes and every trailer, semitrailer, and pole trailer with a gross weight in excess of three thousand (3,000) pounds, shall be equipped with brakes acting on all wheels and of such character as to be applied automatically and promptly, and remain applied for at least fifteen (15) minutes, upon breakaway from the towing vehicle.

(e) Tractor brakes protected. Every motor vehicle used to tow a trailer, semitrailer, or pole trailer equipped with brakes, shall be equipped with means for providing that in case of a breakaway of the towed vehicle, the towing vehicle will be capable of being stopped by the use of its service brakes.

(f) Trailer air reservoirs safeguarded. Air brake systems installed on trailers shall be so designed that the supply reservoir used to provide air for the brakes shall be safeguarded against backflow of air from the reservoir through the supply line.

(g) Two (2) means of emergency brake operation.

1. Air brakes. After January 1, 1972, every towing vehicle, when used to tow another vehicle equipped with air controlled brakes, in other than driveaway or towaway operations, shall be equipped with two (2) means for emergency application of the trailer brakes. One of these means shall apply the brakes automatically in the event of a reduction in the towing vehicle air supply to a fixed pressure which shall be not lower than twenty (20) pounds per square inch nor higher than forty-five (45) pounds per square inch. The other means shall be a manually controlled device for applying and releasing the brakes, readily operable by a person seated in the driving seat, and its emergency position or method of operation shall be clearly indicated. In no instance may the manual means be so arranged as to permit its use to prevent operation of the automatic means. The automatic and the manual means required by this section may be, but are not required to be, separate.

2. Vacuum brakes. After January 1, 1972, every towing vehicle used to tow other vehicles
equipped with vacuum brakes, in operations other than driveaway or towaway operations, shall have, in addition to the single control device required by Subsection (h), a second control device which can be used to operate the brakes on towed vehicles in emergencies. The second control shall be independent of brake air, hydraulic, and other pressure, and independent if other controls, unless the braking system be so arranged that failure of the pressure upon which the second control depends will cause the towed vehicle brakes to be applied automatically. The second control is not required to provide modulated braking.

(b) Single control to operate all brakes. After April 1, 1973, every motor vehicle, trailer, semitrailer and pole trailer, and every combination of such vehicles, equipped with brakes shall have the braking system so arranged that one control device can be used to operate all service brakes. This requirement does not prohibit vehicles from being equipped with an additional control device to be used to operate brakes on the towed vehicles. Surge or inertia brake systems may be used on trailers and semitrailers with a gross weight of not more than fifteen thousand (15,000) pounds in satisfaction of the requirements of Subsection (c) of this section. This regulation does not apply to driveaway or towaway operations unless the brakes on the individual vehicles are designed to be operated by a single control on the towing vehicle.

(i) Reservoir capacity and check valve.

1. Air brakes. Every bus, truck or truck tractor with air operated brakes shall be equipped with at least one (1) reservoir sufficient to insure that, when fully charged to the maximum pressure as regulated by the air compressor governor cut-out setting, a full service brake application may be made without lowering such reservoir pressure by more than twenty (20%) percent. Each reservoir shall be provided with means of readily draining accumulated oil or water.

2. Vacuum brakes. After January 1, 1972, every truck tractor and truck used for towing a vehicle equipped with vacuum operated brakes and every truck with three (3) or more axles using vacuum in the operation of its brakes, except those in driveaway or towaway operations, shall be equipped with a warning signal, other than a gauge indicating vacuum, readily audible or visible to the driver, which will operate at any time the air reservoir pressure of the vehicle is below fifty (50) percent of the air compressor governor cut-out pressure. In addition, each such vehicle shall be equipped with a pressure gauge visible to the driver, which indicates in pounds per square inch the pressure available for braking.

2. Vacuum brakes. After January 1, 1972, every truck tractor and truck used for towing a vehicle equipped with vacuum operated brakes and every truck with three (3) or more axles using vacuum in the operation of its brakes, except those in driveaway or towaway operations, shall be equipped with a warning signal, other than a gauge indicating vacuum, readily audible or visible to the driver, which will operate at any time the air reservoir in the vehicle's supply reservoir or reserve capacity is less than eight (8) inches of mercury.

3. Combination of warning devices. When a vehicle required to be equipped with a warning device is equipped with both air and vacuum power for the operation of its own brakes or the brakes on a towed vehicle, the warning devices may be, but are not required to be, combined into a single device which will serve both purposes.

A gauge or gauges indicating pressure or vacuum shall not be deemed to be an adequate means of satisfying this requirement.

(k) Performance ability of brakes. Every motor vehicle and combination of vehicles, at all times and under all conditions of loading, upon application of the service brake, shall be capable of:

1. Developing a braking force that is not less than the percentage of its gross weight tabulated herein for its classification;

2. Decelerating to a stop from not more than twenty (20) miles per hour at not less than the feet per second per second tabulated herein for its classification, and

3. Stopping from a speed of twenty (20) miles per hour in not more than the distance tabulated herein for its classification, such distance to be measured from the point at which movement of the service brake pedal or control begins.

Tests for deceleration and stopping distance shall be made on a substantially level (not to exceed plus or minus one (1) percent grade), dry, smooth, hard surface that is free from loose material.

(1) Maintenance of brakes. All brakes shall be maintained in good working order and shall be so adjusted as to operate as equally as practicable with respect to the wheels on the opposite sides of the vehicle.

Horns and Warning Devices

Sec. 133. (a) Every motor vehicle when operated upon a highway shall be equipped with a horn in good working order and capable of emitting sound audible under normal conditions from a distance of not less than two hundred (200) feet, but no horn or other warning device shall emit an unreasonably loud or harsh sound or a whistle. The driver of a motor vehicle shall when necessary to insure safe operation give audible warning with his horn but shall not otherwise use such horn when upon a highway.

(b) No vehicle shall be equipped with nor shall any person use upon a vehicle any siren, whistle or bell, except as otherwise permitted in this section.

(c) It is permissible but not required that any commercial vehicle be equipped with a theft alarm signal device which is so arranged that it cannot be used by the driver as an ordinary warning signal.

(d) Any authorized emergency vehicle may be equipped with a siren, whistle or bell, capable of emitting sound audible under normal conditions from a distance of not less than five hundred (500) feet and of a type approved by the department, but such siren shall not be used except when such vehicle is operated in response to an emergency call or in the immediate pursuit of an actual or suspected violator of the law, in which said latter event the driver of such vehicle shall sound said siren when necessary to warn pedestrians and other drivers of the approach thereof.

Mufflers, Prevention of Noise

Sec. 134. (a) Every motor vehicle shall at all times be equipped with a muffler in good working order and in constant operation to prevent excessive or unusual noise and no person shall use a muffler cut out, bypass, or similar device upon a motor vehicle on a highway.

(b) The engine and power mechanism of every motor vehicle shall be so equipped and adjusted as to prevent the escape of excessive fumes or smoke.

(c) Every new motor vehicle and new motor vehicle engine beginning with the model year 1968 shall at all times be so equipped that crankcase emissions are not discharged into the ambient atmosphere from the vehicle or engine.

(d) The owner or operator of any new motor vehicle or new motor vehicle engine beginning with the model year 1968 equipped with an exhaust emission system shall maintain the exhaust emission system in good operable condition and shall use it at all times that the motor vehicle or motor vehicle engine is operated. The owner or operator of the motor vehicle or motor vehicle engine shall not remove or intentionally make inoperable within the State of Texas the exhaust emission system, or any part thereof, except where the purpose of removal of the exhaust emission system, or part thereof, is to install another exhaust emission system, or part thereof, which is intended to be equally effective in reducing atmospheric emissions from the vehicle or engine.

Mirrors

Sec. 134A. On and after January 1, 1972, every motor vehicle, operated singly or when towing any other vehicle, shall be equipped with a mirror so located as to reflect to the driver a view of the highway for a distance of at least two hundred (200) feet to the rear of such motor vehicle.

Windshields Must be Unobstructed and Equipped With Wipers

Sec. 134B. (a) No person shall drive a motor vehicle with any sign, poster or other nontransparent material upon the front windshield, side wings or side or rear windows of such vehicle which materially obstructs, obscures, or impairs the driver's clear view of the highway or any intersecting highway.

(b) The windshield on every motor vehicle shall be equipped with a device for cleaning rain, snow or other moisture from the windshield, which device shall be so constructed as to be controlled or operated by the driver of the vehicle.

(c) Every windshield wiper upon a motor vehicle shall be maintain in good working order.

Restrictions as to Tire Equipment

Sec. 135. (a) Every solid rubber tire on a vehicle shall have rubber on its entire traction surface extending above the edge of the flange of the entire periphery.

(b) No person shall operate or move on any highway any motor vehicle, trailer, or semitrailer having any metal tire in contact with the roadway, provided however this section shall not apply to farm wagons and/or farm trailers having a gross weight less than five thousand (5,000) pounds where owners are in the act of transporting farm products to market or for processing or from farm to farm.

(c) No tire on a vehicle moved on a highway shall have on its periphery any block, stud, flange, cleat, or spike or any other protrusion of any material other than rubber which projects beyond the treat of the traction surface of the tire, except that it shall be permissible to use tires having protruberances which will not injure the highway, and except also that it shall be permissible to use tire chains of reasonable proportions upon any vehicle when required for safety because of snow, ice, or other conditions tending to cause a vehicle to skid.

(d) The State Highway Commission and local authorities in their respective jurisdictions may in
their discretion issue a special permit authorizing the operation upon a highway of traction engines or tractors having movable tracks with transverse corrugations upon the periphery of such movable tracks or farm tractors or other farm machinery, the operation of which upon a highway would otherwise be prohibited under this Act.

(e)(1) After January 1, 1973, no person may sell or offer for sale regrooved tires. The provisions of this Section shall apply only to private passenger automobile tires.

(2) Any person violating Subdivision (1) of this Subsection is guilty of a misdemeanor and upon conviction is punishable by a fine of not less than $500 nor more than $2,000.

Safety Glazing Material in Motor Vehicles

Sec. 136. (a) On and after January 1, 1972, no person shall sell any new motor vehicle as specified herein, nor shall any new motor vehicle as specified herein be registered thereafter unless such vehicle is equipped with safety glazing material of a type approved by the Department of Public Safety wherever glazing material is used in doors, windows and windshields. The foregoing provisions shall apply to all passenger-type motor vehicles, including passenger buses and school buses, but in respect to trucks, including truck tractors, the requirements as to safety glazing material shall not apply to glazing material in compartments not so designed and equipped that persons may ride therein.

(b) The term “safety glazing materials” means glazing materials so constructed, treated or combined with other materials as to reduce substantially, in comparison with ordinary sheet glass or plate glass, the likelihood of injury to persons by objects from exterior sources or by these safety glazing materials when they may be cracked or broken.

(c) It shall be unlawful after the first day of January, 1972, for any person to replace or cause to be replaced, any glass in doors, windows or windshields in any motor vehicle, unless such replacement be made with safety glazing materials as defined in this Act.

Text of (d) as added by Acts 1971, 62nd Leg., p. 758, ch. 83, § 79

(d) No person shall sell or affix to a motor vehicle any camper manufactured or assembled after January 1, 1972, unless such camper is equipped with safety glazing material of a type approved by the Department of Public Safety, wherever glazing material is used in doors and windows. As used in this section “camper” means any structure designed to be loaded onto, or affixed to, a motor vehicle to provide temporary living quarters for recreation, travel, or other use.

Text of (d) as added by Acts 1971, 62nd Leg., p. 3046, ch. 1007

(d) No person shall sell imperfect safety glass for doors, windows, or windshields of motor vehicles unless the glass is labelled “second” or “imperfect” or by a similar term in red letters each letter being at least one inch in size which will clearly indicate to the consumer the quality of the glass being sold; the seller of each piece of imperfect glass will notify the consumer verbally of the imperfection and what could possibly result because of said imperfection, and will also deliver in writing at the time of purchase the quality of the glass explaining all imperfections and what could result because of the imperfections.

Certain Vehicles to Carry Flares or Other Devices

Sec. 137. (a) No person shall operate any truck, bus or truck tractor, or any motor vehicle towing a house trailer, upon any highway outside an urban district or upon any divided highway at any time from a half hour after sunset to a half hour before sunrise unless there shall be carried in such vehicle the following equipment except as provided in Subsection (b):

1. At least three (3) flares or three (3) red electric lanterns or three (3) portable red emergency reflectors, each of which shall be capable of being seen and distinguished at a distance of not less than six hundred (600) feet under normal atmospheric conditions at nighttime.

No flare, fusee, electric lantern or warning flag shall be used for the purpose of compliance with the requirements of this section unless such equipment has been approved by the Texas Department of Public Safety. No portable reflector unit shall be used for the purpose of compliance with the requirements of this section unless it is so designed and constructed as to be capable of reflecting red light clearly visible from all distances within six hundred (600) feet to one hundred (100) feet under normal atmospheric conditions at night when directly in front of lawful lower beams of head lamps, and unless it is of a type which has been approved by the Department of Public Safety.

2. At least three (3) red-burning fusees unless red electric lanterns or red portable emergency reflectors are carried.

(b) No person shall operate at the time and under conditions stated in Subsection (a) any motor vehicle used for the transportation of explosives, or any cargo tank truck used for the transportation of flammable liquids or compressed gases, unless there shall be carried in such vehicle three (3) red electric lanterns or three (3) portable red emergency reflectors meeting the requirements of Subsection (a) of this section and there shall not be carried in any said vehicle any flares, fusees or signal produced by flame.

(c) No person shall operate any truck, bus or truck tractor, or any motor vehicle towing a house trailer, upon any highway outside an urban district or upon any divided highway at any time from a half hour after sunset to a half hour before sunrise unless there shall be carried in such vehicle the following equipment except as provided in Subsection (b):

No flare, fusee, electric lantern or warning flag shall be used for the purpose of compliance with the requirements of this section unless such equipment has been approved by the Texas Department of Public Safety. No portable reflector unit shall be used for the purpose of compliance with the requirements of this section unless it is so designed and constructed as to be capable of reflecting red light clearly visible from all distances within six hundred (600) feet to one hundred (100) feet under normal atmospheric conditions at night when directly in front of lawful lower beams of head lamps, and unless it is of a type which has been approved by the Department of Public Safety.

2. At least three (3) red-burning fusees unless red electric lanterns or red portable emergency reflectors are carried.
Display of Warning Lights and Devices When Vehicle is Stopped or Disabled.

Sec. 138. (a) Whenever any truck, bus, truck tractor, trailer, semitrailer or pole trailer eighty (80) inches or more in overall width or thirty (30) feet or more in overall length is stopped upon a roadway or adjacent shoulder, the driver shall immediately actuate vehicular hazard warning signal lamps meeting the requirements of Section 125. Such lights need not be displayed by a vehicle parked lawfully in an urban district, or stopped lawfully to receive or discharge passengers, or stopped to avoid conflict with other traffic or to comply with the directions of a police officer or an official traffic-control device, or while the devices specified in Subsections (b) to (h) are in place.

(b) Whenever any vehicle of a type referred to in Subsection (a) is disabled, or stopped for more than ten (10) minutes, upon a roadway outside of an urban district at any time when lighted lamps are required, the driver of such vehicle shall display the following warning devices except as provided in Subsection (c):

1. A lighted fusee, a lighted red electric lantern or a portable red emergency reflector shall immediately be placed at the traffic side of the vehicle in the direction of the nearest approaching traffic.

2. As soon thereafter as possible but in any event within the burning period of the fusee (15 minutes), the driver shall place three (3) liquid-burning flares (pot torches), or three (3) lighted red electric lanterns, or three (3) portable red emergency reflectors on the roadway in the following order:

(I) One (1), approximately one hundred (100) feet from the disabled vehicle in the center of the lane occupied by such vehicle.

(II) One (1), approximately one hundred (100) feet in the opposite direction from the disabled vehicle and in the center of the traffic lane occupied by such vehicle.

Flares, fusees or signals produced by flame shall not be used as warning devices for disabled vehicles of the type mentioned in this subsection.

(f) The warning devices described in Subsections (b) to (e) need not be displayed where there is sufficient light to reveal persons and vehicles within a distance of one thousand (1,000) feet.

unless the same shall be equipped with and unless there shall be displayed at the rear thereof a "slow-moving-vehicle emblem" conforming to the standards and specifications adopted by the Director of the Department of Public Safety as above directed; provided that this requirement shall not apply to any such vehicle when being used in actual construction or maintenance work and while traveling within the limits of a construction area which is marked as such in accordance with requirements of the State Highway Commission. Such emblem shall be mounted base down on the rear of the vehicle, not less than three (3) feet nor more than five (5) feet above the road surface, and shall be maintained in a clean, reflective condition. The requirement of such emblem shall be in addition to any other lighting or reflective devices required by law.

When a motor vehicle displaying a slow-moving-vehicle emblem is drawing or towing an implement of husbandry or other machinery, and the visibility of the emblem on the pulling unit is not obstructed by the implement or machinery being towed, it shall not be necessary to display a similar emblem on the towed unit.

Subd. 4. The use of the "slow-moving-vehicle emblem" shall be restricted to the slow-moving vehicles specified in Subdivision 1, and its use on any other type of vehicle or stationary object on the highway is prohibited.

(b) This section does not prohibit the use of television-type receiving equipment used exclusively for safety or law enforcement purposes provided each such installation is approved by the Department of Public Safety, or installations in remote television transmission trucks.

c) This section does not prohibit the use of television-type receiving equipment used exclusively for receiving digital information for commercial purposes.

Seat Belts

Either a tail lamp or a separate lamp shall be so constructed and placed as to illuminate with a white light the rear registration plate and render it clearly legible from a distance of fifty (50) feet to the rear. Any tail lamp or tail lamps, together with any separate lamp or lamps for illuminating the rear registration plate, shall be so wired as to be lighted whenever the head lamps or auxiliary driving lamps are lighted.

(c) Reflectors
1. Every motorcycle and motor-driven cycle shall carry on the rear, either as part of the tail lamp or separately, at least one (1) red reflector meeting the requirements of Section 121(b).

(d) Stop Lamps

(e) Lamps on Parked Vehicles
1. Every motorcycle must comply with the provisions of Section 121 regarding lamps on parked vehicles and the use thereof.

2. Motor-driven cycles need not be equipped with parking lamps nor otherwise comply with the provisions of Section 121.

(f) Multiple-beam Road-lighting Equipment
1. Every motorcycle other than a motor-driven cycle shall be equipped with multiple-beam road-lighting equipment.

(g) Lighting Equipment for Motor-driven Cycles
The head lamp or head lamps upon every motor-driven cycle may be of the single-beam or multiple-beam type but in either event shall comply with the requirements and limitations as follows:

1. Every said head lamp or head lamps on a motor-driven cycle shall be of sufficient intensity to reveal persons and vehicles at a distance of not less than one hundred (100) feet when the motor-driven cycle is operated at any speed less than twenty-five (25) miles per hour and at a distance of not less than two hundred (200) feet when the motor-driven cycle is operated at a speed of twenty-five (25) or more miles per hour, and at a distance of not less than three hundred (300) feet when the motor-driven cycle is operated at a speed of thirty-five (35) or more miles per hour.

2. In the event the motor-driven cycle is equipped with a multiple-beam head lamp or head lamps, such equipment shall comply with the requirements of subsection (f) of said section.

3. In the event the motor-driven cycle is equipped with a single-beam lamp or lamps, said lamp or lamps shall be so aimed that when the vehicle is loaded none of the high-intensity portion of light, at a distance of twenty-five (25) feet ahead, shall project higher than the level of the center of the lamp from which it comes.

(b) Brake Equipment Required. Every motorcycle and motor-driven cycle must comply with the provisions of Section 132, except that:

1. Motorcycles and motor-driven cycles need not be equipped with parking brakes.

2. The wheel of a sidecar attached to a motorcycle or to a motor-driven cycle, and the front wheel of a motor-driven cycle need not be equipped with brakes, provided that such motorcycle or motor-driven cycle is capable of complying with the performance requirements of this article.

1. Developing a braking force that is not less than 43.5% of its gross weight;

2. Decelerating to a stop from not more than twenty (20) miles per hour at not less than fourteen (14) feet per second; and

3. Stopping from a speed of twenty (20) miles per hour in not more than thirty (30) feet, such distance to be measured from the point at which movement of the service brake pedal or control begins.

Tests for deceleration and stopping distance shall be made on a substantially level (not to exceed plus or minus one per cent grade), dry, smooth, hard surface that is free from loose material.

(j) Brakes on Motor-driven Cycles
1. The Director is authorized to require an inspection of the braking system on any motor-driven cycle and to disapprove any such braking system on a vehicle which he finds will not comply with the performance ability standard set forth in Subsection (i), or which in his opinion is equipped with a braking system that is not so designed or constructed as to insure reasonable and reliable performance in actual use.

2. The State Highway Department may refuse to register or may suspend or revoke the registration of any vehicle referred to in this section when it
determines that the braking system thereon does not comply with the provisions of this section.

3. No person shall operate on any highway any vehicle referred to in this section in the event the Director has disapproved the braking system upon such vehicle.

(k) Other Equipment. Every motorcycle and every motor-driven cycle shall comply with the requirements and limitations of Section 133 on horns and warning devices, Section 134 on mufflers and prevention of noise, and Section 134A on mirrors.

ARTICLE XV—INSPECTION OF VEHICLES

Compulsory Inspection

Sec. 140. (a) Every motor vehicle, trailer, semitrailer, pole trailer, or mobile home, registered in this state and operated on the highways of this state, shall have the tires, brake system (including power brake unit), lighting equipment, horn and warning devices, mirrors, windshield wipers, front seat belts in vehicles where seat belt anchorages were part of the manufacturer's original equipment on the vehicle, steering system (including power steering), wheel assembly, safety guards or flaps if required by Section 139A of this Act, tax decal if required by Section 141(d) of this Act, exhaust system, and exhaust emission system inspected at state-appointed inspection stations or by State Inspectors as hereinafter provided. Provisions relating to the inspection of trailers, semitrailers, pole trailers, or mobile homes shall not apply when the registered or gross weight of such vehicles and the load carried thereon is four thousand five hundred (4,500) pounds or less. Only the mechanism and equipment designated in this section may be inspected, and the owner shall not be required to have any other equipment or part of his motor vehicle inspected as a prerequisite for the issuance of an inspection certificate.

(b) If such inspection discloses the necessity for adjustments, corrections, or repairs, the vehicle shall be adjusted, corrected, or repaired before a certificate is issued as hereinafter provided. The owner may have such adjustments, corrections, or repairs made by such qualified person or persons as he may choose, subject to reinspection as hereinafter provided.

If an inspection discloses the necessity for adjustments, corrections, or repairs, such vehicle shall be reinspected once within fifteen (15) days, not including day of issuance, free of charge at the same inspection station after the adjustments, corrections, or repairs have been made. Any such vehicle under the terms of this Act, if involved in an accident subsequent to the required inspection, which accident affects the safe operation of any item of inspection, shall return to an inspection station after adequate repairs are made. The subsequent inspection shall be as if the vehicle had not been inspected before. The inspection fee shall be charged for reinspection.

(c) Official inspection stations appointed and supervised by the State of Texas shall make all inspections pursuant to the provisions of this Section, except as provided in subdivision (d) hereof. The Department shall cause one (1) inspection to be made in the year commencing with the effective date of this Act, and annually thereafter. If the motor vehicle, trailer, semitrailer, pole trailer or mobile home, registered in this State, is damaged to the apparent extent that it would require repair before passing state inspection, the investigating officer shall remove the inspection certificate from the vehicle windshield and shall give the operator of the vehicle a dated receipt. Within thirty (30) days of the date indicated on the receipt, the vehicle shall be reinspected. The periods of inspection shall be fixed by the Department, provided, however, that at no time, except as provided in Section 142A of this Act, shall a certificate of inspection or a receipt for a certificate of inspection be required or demanded as a condition precedent to securing a license plate for any motor vehicle, regardless of any period or periods of inspection as may be fixed by the Department. The Department shall have power to make rules and regulations, not inconsistent with law, with respect to the periods of inspection.

(d) The Department may, in its discretion, permit inspection as herein provided to be made by State inspectors under such terms and conditions as the Department may prescribe. Provided, however, the Department may authorize the acceptance in this State of a certificate of inspection and approval issued in another state having a similar inspection law and may extend the time within which a certificate shall be obtained by the resident owner of a vehicle which was not in this State during the time an inspection was required.

(e) After the fifth (5th) day following the expiration of the period designated for the inspection, no person shall operate on the highways of this State any motor vehicle registered in this State unless a valid certificate of inspection is displayed thereon as required by this Section. Any peace officer who shall exhibit his badge or other signs of authority may stop any vehicle not displaying this inspection certificate on the windshield and require the owner or operator to produce an official inspection certificate for the Vehicle being operated. It is a defense to a prosecution under this section that a valid inspection certificate for the vehicle is in effect at the time of the arrest.

(f) All mopeds shall be subject to annual inspection in the same manner as are motorcycles and the fee for inspection shall be as provided in Section 141 of this Act and shall be used for the purposes prescribed by law. The only items of equipment required to be inspected are the brakes, headlamps, rear lamps, and reflectors, which are required to
comply with the standards prescribed in Section 139F of this Act for motorcycles and motor-driven cycles. The Department shall promulgate rules and regulations relating to the inspection of mopeds and the issuance and display of inspection certificates with respect to those vehicles.

(g) Any person operating a vehicle on the highways of this State, other than a vehicle licensed in another State and being temporarily and legally operated under a valid reciprocity agreement, in violation of the provisions of this Act or without displaying a valid inspection certificate or having equipment which does not comply with the provisions of Article XIV of this Act is guilty of a misdemeanor and on conviction shall be punished as provided in Section 143 of this Act.

(b) The provisions of this Act shall not apply to the vehicles referred to in Subsection (a) of this Section when moving under or bearing current "Factory-Delivery License Plates" or current "In-transit License Plates." Nor shall the provisions of this Act apply to farm machinery, road-building equipment, farm trailers, paper dealer in-transit tag, machinery license, disaster license, parade license, prorate tabs, one-trip permits, antique license, temporary 24-hour permits, permit license, and all other vehicles required to have a slow-moving-vehicle em­blem under Section 139D of this Act.

State Appointed Inspection Stations
Sec. 141. (a) The Department may establish state-appointed inspection stations to carry out the provisions of this Section. Such stations may be located anywhere in the state, and should any be established or appointed, there shall be at least one (1) for each county. The Department is authorized to furnish instructions to, and to supervise official inspection stations and mechanics for inspection of motor vehicles, trailers, semi-trailers, pole trailers, and mobile homes for the proper and safe performance of the required items of inspection. The certifi­cation of persons to inspect vehicles shall be in accordance with the rules and regulations promulgated by the Department. Every person desiring to operate as an official inspection station shall file an application for a certificate of appointment with the Department.

The application shall be made upon a form pre­scribed and furnished by the Department, and shall set forth the name of the applicant, the name under which the applicant transacts or intends to transact business, the location of his place of business within the state, and such other information as the Department may require. If the applicant has or intends to have more than one place of business within the state, a separate application shall be made for each place of business.

If the applicant is an association, the application shall set forth the names and the addresses of the persons constituting the association, and if a corpo­ration, the names and addresses of the principal officers thereof, and any other information pre­scribed by the Department for purposes of identifi­cation. The application shall be signed and verified by oath or affirmation by the owner, if a natural person; in the case of a corporation, by an executive officer thereof or some person specifically author­ized by the corporation to sign the application, to which shall be attached written evidence of his authority.

Only such locations which fulfill the Department's requirements and whose owners or proprietors com­ply with the Department regulations shall qualify and be appointed and issued a certificate. Upon approval of an application, the Department shall issue to the owner a certificate of appointment as an official inspection station for the place of busi­ness within the state set forth in the application. Certificates of appointment shall not be assign­able, and shall be valid for the owners in whose names issued and for the transaction of business at the place designated therein, and shall at all times be conspicuously displayed at the place for which issued.

The application for certificate as an inspector will be made upon a form prescribed and furnished by the Department and shall set forth the name of the applicant, residence address, place of employment address, driver license number, and such other in­formation as the Department may require. An applicant for appointment as an inspector shall submit with his first application a certificate fee of Ten Dollars ($10). An individual's first appointment as an inspector is effective until August 31 of the even-numbered year following the date of appoint­ment. Thereafter, appointments of inspectors shall be made for two-year periods, and the certificate fee for each two-year period shall be Ten Dollars ($10).

Upon being advised that an application will be approved, an applicant for an appointment as an inspection station shall pay a fee of Thirty Dollars ($30) which shall constitute the certificate fee until August 31 of the odd-numbered year following the date of appointment. Thereafter, appointments of stations shall be made for two-year periods and the certificate fee for each such period shall be Thirty Dollars ($30). All certificate fees shall be placed in a fund in the State Treasury to be known as the Motor Vehicle Inspection Fund and shall be used by the Department in the administration of this Act.

(b) Any owner of an official inspection station who by himself, agent, servant, or employee, viol­ates any provision of Section 140, 141, 142, or 142A of this Act, or requires the repair of any mechanism or equipment other than that set forth in the uni­form standards of safety items to be inspected as
established, shall upon conviction, be punished by a fine not exceeding Two Hundred Dollars ($200).

(c) The fee for compulsory inspection to be made under this Section shall be Five Dollars and Twenty-Five Cents ($5.25). Two Dollars ($2.00) of each fee shall be paid to the Department and shall be placed in the Motor Vehicle Inspection Fund for the purpose of paying the expense of the administration of this law and the payment of supplemental retirement benefits as provided by law. The Department may require each official inspection station to make an advanced payment of Two Dollars ($2.00) for each inspection certificate furnished to it, and the money so received shall be placed in the Motor Vehicle Inspection Fund, and no further payment to the Department shall be required upon issuance of the certificate. If such advance payment has been made, the Department shall refund to the inspection station the amount of Two Dollars ($2.00) for each unissued certificate which the inspection station returns to the Department in accordance with rules and regulations promulgated by the Department.

(d) No certificate of inspection shall be issued by any inspector or inspection station until the vehicle has been inspected and found to be in proper and safe condition and to comply with the uniform standards of safety, inspection rules and regulations, and laws of this state. No person shall make, issue, or knowingly use an imitation or counterfeit of an official inspection certificate. No certificate of inspection may be issued by any inspector or inspection station for a motor vehicle equipped with a carburetion device permitting the use of liquefied gas alone or interchangeably with other fuels, unless a currently valid liquefied gas tax decal issued by the comptroller of public accounts is affixed to the lower right-hand corner of the front windshield of the vehicle on the passenger side.

No person shall display or cause or permit to be displayed any inspection certificate knowing the same to be fictitious or issued for another vehicle or issued without the required inspection having been made. No person may transfer an inspection certificate from one windshield or location to another windshield or location.

No person shall perform an inspection or issue an inspection certificate without such person first having been certified to do so by the Department.

No person shall drive or move on any highway any motor vehicle, trailer, semitrailer, pole trailer, mobile home, or combination thereof unless the equipment upon any and every said vehicle is in good working order and adjustment as required in this Act and said vehicle is in such safe mechanical condition as not to endanger the driver or other occupant or any person or property.

(e) The Department may appoint as official inspection stations, for the limited purpose of inspecting vehicles owned by political subdivisions and agencies of the state, vehicle maintenance facilities owned and operated by the political subdivisions or agencies. The political subdivisions and agencies may not be required to pay the compulsory inspection fee but shall pay to the Department an advance payment such as provided for in Subsection (c) of this section for each inspection certificate issued to it. The funds received by the Department shall be placed in the Motor Vehicle Inspection Fund and used for the purpose of paying the expense of the administration of this law and the payment of supplemental retirement benefits as provided by law. The Department may require each official inspection station to make an advanced payment of Two Dollars ($2.00) for each inspection certificate furnished to it, and the money so received shall be placed in the Motor Vehicle Inspection Fund, and no further payment to the Department shall be required upon issuance of the certificate. If such advance payment has been made, the Department shall refund to the inspection station the amount of Two Dollars ($2.00) for each unissued certificate which the inspection station returns to the Department in accordance with rules and regulations promulgated by the Department.

(f) The Director may deny an application for a license or revoke or suspend an outstanding certificate of any inspection station or the certificate of any person to inspect vehicles, in addition to action taken under Subsection (g) of this section, for any of the following reasons:

(1) issuing a certificate without required adjustments, corrections, or repairs having been made when an inspection disclosed the necessity for those adjustments, corrections, or repairs;

(2) refusing to allow the owner of the vehicle to have required corrections or adjustments made by any qualified person he may choose;

(3) issuing an inspection certificate without having made an inspection of the vehicle;

(4) knowingly or willfully issuing an inspection certificate for a vehicle without the required items of inspection or with items which were not at the time of issuance in good condition and in conformity with the laws of this state or in compliance with rules of the Commission;

(5) failure to charge the required fee for inspection;

(6) charging more than the required inspection fee;

(7) failing to make a report of inspection;

(8) proof of unfitness of applicant or licensee under standards set out in this Act or in Commission rules;

(9) material misrepresentation in any application or any other information filed under this Act or Commission rules;

(10) willful failure to comply with this Act or any rule promulgated by the Commission under the provisions of this Act;
(11) failure to maintain the qualifications for a license; or

(12) any act or omission by the licensee, his agent, servant, employee, or person acting in a representative capacity for the licensee which act or omission would be cause to deny, revoke, or suspend a license to an individual licensee.

When there is cause to deny an application for a certificate of any inspection station or the certificate of any person to inspect vehicles or revoke or suspend the outstanding certificate, the Director shall, in less than thirty (30) days before refusal, suspension, or revocation action is taken, notify the person, in writing, in person, or by certified mail at the last address supplied to the Department by the person, of the impending refusal, suspension, or revocation, the reasons for taking that action, and of his right to an administrative hearing for the purpose of determining whether or not the evidence is sufficient to warrant the refusal, suspension, or revocation action proposed to be taken by the Director. If, within twenty (20) days after the personal notice of the notice is sent or notice has been deposited in the United States mail, the person has not made a written request to the Director for this administrative hearing, the Director, without a hearing, may suspend or revoke or refuse to issue any certificate. On receipt by the Director of a written request of the person within the twenty-day (20-day) period, or in person, or by certified mail at the last address supplied to the Department by the applicant or certificate holder, the administrative hearing in these cases shall be before the Director or his designee. The Director or his designee shall conduct the administrative hearing and may administer oaths and issue subpoenas for the attendance of witnesses and the production of relevant books, papers, or documents. On the basis of the evidence submitted at the hearing, the Director acting for himself or upon the recommendation of his designee may refuse the application or suspend or revoke the certificate.

Any person dissatisfied with the action of the Director, without filing a motion for rehearing, may appeal the action of the Director by filing a petition within thirty (30) days after the action is taken in a district court in the county where the person resides or in a district court of Travis County, and the court is vested with jurisdiction, and it shall be the duty of the court to set the matter for hearing upon ten (10) days written notice to the Director and the attorney representing the Director. The court in which the petition of appeal is filed shall determine whether any action of the Director shall be suspended pending hearing and enter its order accordingly, which shall be operative when served upon the Director, and the Director shall provide the attorney representing the Director with a copy of the petition and order. The Director shall be represented in these appeals by the district or county attorney of the county, or the attorney general, or any of their assistants.

(g) No person who performs an inspection at a state-appointed inspection station may fraudulently represent to an applicant that a mechanism or item of equipment required to be inspected must be repaired, adjusted, or replaced before the vehicle will pass inspection when that is not the case. The Department may cancel or suspend the certificate of appointment of any state-appointed inspection station or the certificate of the person performing the inspection if it finds, after notice and hearing, that a violation of this Section occurred at the inspection station.

Safety Standards, Inspection Certificates and Verification Forms

Sec. 142. (a) The Public Safety Commission shall establish uniform standards of safety whenever applicable with respect to items to be inspected as provided by Section 140 of this Act and shall list those items to be inspected in conformity with these standards established as provided by law. The list of items to be inspected and uniform standards of safety shall be posted in every official inspection station. Every vehicle inspected shall conform in all respects to the uniform standards of safety and the list of items to be inspected established pursuant to this Section.

(b) The Department shall furnish serially numbered certificates of inspection and verification forms to inspection stations. It shall be the responsibility of each owner and certified inspector, upon being licensed, to provide for the safeguarding of certificates of inspection and verification forms, safeguarding them against theft, loss or damage, controlling their sequence of issuance, and insuring that they are issued in accordance with the Department rules and regulations. Each inspection certificate and verification form, when issued, shall bear such information as required by the Department for the type of vehicle that was inspected. The inspection certificate shall be invalid after the end of the twelfth month in which the vehicle was last inspected, approved, and the certificate of inspection issued. A certificate of inspection and approval for any vehicle shall be attached to or produced for such vehicles as the Department shall require. The Department shall require that certificates for motorcycles be attached to the rear of the vehicle near the license plate. A record and report as prescribed by the Department shall be made of every inspection and every certificate so issued. (e) The Public Safety Commission shall adopt standards for inspection criteria applicable to a county in which such a program, pursuant to Subsection (d) of this section, is established.

(f) The department may issue a unique inspection certificate for those vehicles inspected pursuant to Subsection (d) of this section.

(g) The Public Safety Commission may establish by rule an inspection fee in addition to the fee for compulsory inspection as provided by Subsection (c) of Section 141 of this Act for those vehicles inspected pursuant to Subsection (d) of this section, and such additional fee shall not exceed $5.

(b) A motor vehicle emissions inspection and maintenance program instituted under this Act shall be terminated upon discontinuation of federal requirements for such action.

Inspection Before Certificate of Title Registration

Sec. 142A. (a) Before a vehicle may be registered and titled under Subsection (a), Section 30, Certificate of Title Act, as amended (Article 6687-1, Vernon's Texas Civil Statutes), the owner must have the vehicle inspected as required under Section 140 of this Act and in addition must have the state-appointed inspection station record the permanent identification number, the number appearing on the odometer of the motor vehicle at the time of the inspection, if the motor vehicle has an odometer and such other information as the Department may require on a verification form prescribed and furnished by the Department.

(b) An inspection station may not issue a verification form required under Subsection (a) of this section unless the vehicle satisfies the inspection requirements under Article XV of this Act.

(c) The fee for issuance of an inspection certificate and advance payment to the Department for certificates issued under this section shall be as provided under Subsection (c), Section 141 of this Act and shall be placed in the Motor Vehicle Inspection Fund and used for the purposes prescribed by law. ARTICLE XVI-PENALTIES AND DISPOSITION OF FINES AND FORFEITURES

Penalties for Misdemeanors

Sec. 143. (a) It is a misdemeanor for any person to violate any of the provisions of this Act unless such violation is by this Act or other law of this State declared to be a felony.

(b) Every person convicted of a misdemeanor for a violation of any of the provisions of this Act for which another penalty is not provided shall be punished by a fine of not less than One ($1.00) Dollar nor more than Two Hundred ($200.00) Dollars.

Dismissal of Certain Misdemeanor Charges Upon Completing Driving Safety Course

Sec. 143A. (a) When a person is charged with a misdemeanor offense under this Act, other than a violation of Section 51, committed while operating a motor vehicle, the court:

(1) in its discretion may defer proceedings and allow the person 90 days to present evidence that, subsequent to the alleged act, the person has successfully completed a defensive driver's course approved by the Texas Department of Public Safety or other driving safety course approved by the court; or

(2) shall defer proceedings and allow the person 90 days to present evidence that, subsequent to the alleged act, the person has successfully completed a defensive driver's course approved by the Texas Department of Public Safety or another driving safety course approved by the court, if:

(A) the person presents to the court an oral request or written motion to take a course;

(B) the person has a valid Texas driver's license or permit; and

(C) the person's driving record as maintained by the Texas Department of Public Safety does not indicate successful completion of a driving safety course under this subdivision within the two years immediately preceding the date of the alleged offense.

(b) When the person complies with the provisions of Subsection (a) of this section and the evidence presented is accepted by the court, the court shall dismiss the charge.
When a charge is dismissed under this section, the charge may not be part of the person's driving record or used for any purpose, but the court shall report the fact that a person has successfully completed a driving safety course and the date of completion to the Texas Department of Public Safety for inclusion in the person's driving record. The court shall note in its report whether the course was taken under the procedure provided by Subdivision (2) of Subsection (a) of this section for the purpose of providing information necessary to determine eligibility to take a subsequent course under that subdivision.

Disposition of Fines and Forfeitures

Sec. 144. (a) Fines collected for violation of any highway law as set forth in this Act shall be used by the municipality or the counties in which the same are assessed and to which the same are payable in the construction and maintenance of roads, bridges, and culverts therein, and for the enforcement of the traffic laws regulating the use of the public highways by motor vehicles and motorcycles and to help defray the expense of county traffic officers.

(b) When a person is convicted in a municipal court of the offense of operating a vehicle on an interstate highway, as that term is defined in Subsection 144(c), at a speed greater than is reasonable and prudent under the circumstances, the municipal court shall remit to the state treasurer any portion of the fine assessed and collected which exceeds two dollars ($2) times the number of miles per hour by which the offender exceeded the posted speed limit as such excess speed is determined by a speed-measuring device as defined in Subsection 144(d). The number of miles per hour by which an offender exceeds the posted speed limit is determined by subtracting the posted prima facie speed limit from the number of miles per hour the offender is alleged to have driven at the time of the offense according to the summons or promise to appear. The state treasurer shall deposit funds received under this Section in the General Revenue Fund.

(c) Definition: “Interstate highway” as used herein is a portion of the national system of interstate and defense highways located within this state which now or hereafter may be designated officially by the Texas Highway Commission and approved pursuant to Title 23, United States Code.

(d) Definition: “Speed-measuring device” as used herein is any “Doppler shift speed meter” or other “radar” device whether operating under a pulse principle or a continuous-wave principle, photo-traffic camera, or any other electronic device used to detect and measure speed.

(e) The provisions of Subsection 144(b), shall not be applicable to municipal courts of any municipality having a population of 5,000 or more inhabitants according to the last preceding federal census.

(c) The place specified in said notice to appear must be before a magistrate within the city or county in which the offense charged is alleged to have been committed and who has jurisdiction of such offense.

(d) The arrested person in order to secure release as provided in this section, must give his written promise so to appear in court by signing in duplicate the written notice prepared by the arresting officer. The original of said notice shall be retained by said officer and the copy thereof delivered to the person arrested. Thereupon, said officer shall forthwith release the person arrested, from custody.

Such city or town shall make written application to the State Highway Department for approval of such installation and operation, and upon the filing of any such application, the State Highway Department shall designate an employee to investigate such application, and within ninety (90) days thereafter, said Department shall grant or refuse such application. In granting any such application, the Highway Department may prescribe the conditions under which the signals or signs may be erected and operated, their location, size, shape, height, color, wording, timing, spacing, and all other aspects of such signals or signs, provided that the Highway Department shall consider not only the convenience of the traveling public in raising speed limits in noncongested areas, but also the proper control of traffic for the protection of the lives of school children and other inhabitants of small communities where there are areas of congestion and cross traffic.

Arrest for Non-Compliance With Unauthorized Signal or Sign
Sec. 159. If any officer shall arrest or attempt to arrest or stop the driver of any vehicle for failing to comply with any unauthorized traffic signal or sign, knowing that such signal or sign has not been authorized, he shall be guilty of a misdemeanor, and, upon conviction, shall be fined not less than One Hundred Dollars ($100) and not more than Five Hundred Dollars ($500).

ARTICLE XIX—SPEED RESTRICTIONS

Maximum Speeds of Vehicles

Sec. 166. (a) No person shall drive a vehicle on a highway at a speed greater than is reasonable and prudent under the circumstances then existing. Except when a special hazard exists that requires lower speeds for compliance with paragraph (b) of this Section, the limits specified in this Section or established as hereinafter authorized shall be lawful, but any speed in excess of the limits specified in this Section or established as hereinafter authorized shall be prima facie evidence that the speed is not reasonable or prudent and that it is unlawful:

1. Thirty (30) miles per hour in any urban district;

2. Seventy (70) miles per hour during the daytime and sixty-five (65) miles per hour during the nighttime for any passenger car, motorcycle, or motor-driven cycle on any State or Federal numbered highway outside any urban district, including farm- and/or ranch-to-market roads, and sixty (60) miles per hour during the daytime and fifty-five (55) miles per hour during the nighttime for any passenger car, motorcycle, or motor-driven cycle on all other highways outside any urban district;

3. Sixty (60) miles per hour for all other vehicles on any highway outside any urban district;

4. The speed limits for any bus or other vehicle engaged in this State in the business of transporting passengers for compensation or hire, for any commercial vehicle which is in authorized use as a “Highway Post Office” vehicle furnishing Highway Post Office service in the transportation of the United States mail, and for any light truck, as described in Subdivision 5 of this subsection, shall be the same as prescribed for passenger cars at the same location.

5. The above limitations notwithstanding, the following prima facie maximum limits are declared, for any highway outside any urban district;

a. Forty-five (45) miles per hour for any vehicle towing any house trailer of actual or registered gross weight exceeding four thousand, five hundred (4,500) pounds or with an over-all length exceeding thirty-two (32) feet, excluding the tow bar.

b. Sixty (60) miles per hour in daytime and fifty-five (55) miles per hour during nighttime for any truck, except light trucks as described in this Subdi-
vision 5, truck tractor, trailer or semitrailer, or for any vehicle towed by any trailer, semitrailer, another motor vehicle, or any house trailer of actual or registered gross weight, less than four thousand, five hundred (4,500) pounds and over-all length of thirty-two (32) feet or less, excluding the tow bar.

c. Fifty (50) miles per hour for any school bus.

“Daytime” means from one-half (1/2) hour before sunrise to one-half (1/2) hour after sunset, and “nighttime” means at any other hour.

“Urban District” means the territory contiguous to and including any highway or street which is built up with structures devoted to business, industry or dwelling houses, situated at intervals of less than one hundred (100) feet for a distance of one-quarter (1/4) of a mile or more on either side.

“Passenger car” means every motor vehicle, except motorcycles and motor-driven cycles, designed for carrying ten (10) passengers or less and used for the transportation of persons.

“Light truck” means any truck, as defined in this Act, with a manufacturer's rated carrying capacity not to exceed two thousand (2,000) pounds and is intended to include those trucks commonly known as pick-up trucks, panel delivery trucks and carry-all trucks.

The maximum speed limits set forth in this Section may be altered as authorized in Sections 167, 168 and 169.

(b) No person shall drive a vehicle on a highway at a speed greater than is reasonable and prudent under the conditions and having regard to the actual and potential hazards then existing. In every event speed shall be so controlled as may be necessary to avoid colliding with any person, vehicle or other conveyance on or entering the highway in compliance with legal requirements and the duty of all persons to use due care.

c. The driver of every vehicle shall, consistent with the requirements of paragraph (b), drive at an appropriate reduced speed when approaching and crossing an intersection or railway grade crossing, when approaching a hill crest, when traveling upon any narrow or winding roadway, and when special hazard exists with respect to pedestrians or other traffic or by reason of weather or highway conditions.

d. A person may not operate a motor vehicle on a beach at a speed greater than 25 miles per hour during the daytime or greater than 20 miles per hour during the nighttime.

Authority of State Highway Commission to Alter Maximum Speed Limits

Sec. 167. (a) Whenever the State Highway Commission shall determine upon the basis of an engineering and traffic investigation that any prima facie maximum speed limit hereinafter set forth is greater or less than is reasonable or safe under the conditions found to exist at any intersection or other place or upon any part of the highway system, taking into consideration the width and condition of the pavement and other circumstances on such portion of said highway as well as the usual traffic thereon, said State Highway Commission may determine and declare a reasonable and safe prima facie maximum speed limit thereat or thereon, and another reasonable and safe speed when conditions caused by wet or inclement weather require it, by proper order of the Commission entered on its minutes, which limits, when appropriate signs giving notice thereof are erected, shall be effective at such intersection or other place or part of the highway system at all times or during hours of daylight or darkness, or at such other times as may be determined; provided, however, that said State Highway Commission shall not have the authority to modify or alter the rules established in Paragraph (b) of Section 166, nor to establish a speed limit higher than seventy (70) miles per hour; and provided further that the speed limits for vehicles described in Paragraphs a, b, and c of Subsection 5 of Subsection (a) of Section 166 shall not be increased.

By wet or inclement weather is meant conditions of the pavement or roadway caused by precipitation, water, ice or snow which make driving thereon unsafe and hazardous.

(b) The authority of the State Highway Commission to alter maximum speed limits shall exist with respect to any part of any highway, road or street officially designated or marked by the State Highway Commission as part of the State Highway System. Also, this authority shall exist both within and without the limits of an incorporated city, town or village, including Home Rule Cities, with respect to highways declared to be limited-access or controlled-access highways as defined by this Act.

c. The State Highway Commission shall, in conducting the engineering and traffic investigation specified in paragraph (a) of Section 167, follow its “Procedure for Establishing Speed Zones” which is in use on the effective date of this Act and as same may be subsequently revised for reasons of technological advancements in traffic operation, design and construction of highways and motor vehicles, as well as the safety of the motoring public.

d. The State Highway and Public Transportation Commission shall hold upon request a public hearing at least once each calendar year to consider maximum prima facie speed limits on highways in the State Highway System that are near public or private institutions of elementary or secondary education.
Art. 6701d  ROADS, BRIDGES, AND FERRIES  4334

Authority of Texas Turnpike Authority to Alter Maximum Prima Facie Speed Limits on Turnpike Projects

Sec. 168. (a) Whenever the Texas Turnpike Authority shall determine upon the basis of an engineering and traffic investigation that any maximum prima facie speed limit hereinbefore set forth is greater or less than is reasonable or safe under the conditions found to exist at any intersection or other place or upon any part of a turnpike constructed and maintained by it, taking into consideration the width and condition of the pavement and other circumstances on such portion of said turnpike as well as the usual traffic thereon, the Legislature hereby directs the Texas Turnpike Authority to determine and declare a reasonable and safe maximum prima facie speed limit thereat or thereon, by proper order of the Authority entered on its minutes, for all vehicles or for any class or classes of vehicles hereinabove established, which limit, when appropriate signs giving notice thereof are erected, shall be effective at such intersections or other places or part of the highway at all times or during hours of daylight or darkness, or at such other times as may be determined.

(b) The authority of the Texas Turnpike Authority to alter maximum prima facie speed limits shall be effective upon any part of any turnpike project constructed and maintained by it pursuant to House Bill No. 4, Chapter 410, Acts of 1953, Fifty-third Legislature, Regular Session, codified as Article 6674v, Vernon's Revised Civil Statutes of Texas, as same may be amended, both within and without the corporate limits of any incorporated city, town or village, including Home Rule Cities. Such authority shall be exclusive with respect to any such project, and the authorities prescribed in Sections 167 and 169 shall not apply upon any part of any such turnpike project; provided, however, that should any turnpike constructed by the Texas Turnpike Authority ever become a part of the designated State Highway System, the State Highway Commission shall then have the sole authority to alter maximum prima facie speed limits thereon as prescribed in Section 167. The Texas Turnpike Authority shall not have the authority to alter the basic rule established in paragraph (a) or Section 166 nor to establish a speed limit higher than seventy (70) miles per hour.

c) The Texas Turnpike Authority shall, in conducting the engineering and traffic investigation specified in paragraph (a) of Section 168, following the "Procedure for Establishing Speed Zones" prepared by the Texas Highway Department, which is in use on the effective date of this Act and as same may be subsequently revised for reasons of technological advancements in traffic operation, design and construction of highways and motor vehicles, as well as the safety of the motoring public.

Authority of County Commissioners Court and Governing Bodies of Incorporated Cities, Towns and Villages to Alter Maximum Prima Facie Speed Limits

Sec. 169. (a) The County Commissioners Court of any county with respect to county highways or roads outside the limits of the right-of-way of any official designated or marked highway, road or street of the State Highway System and outside the limits of any incorporated city, town or village shall have the same authority by order of the County Commissioners Court entered upon its records to alter maximum prima facie speed limits upon the basis of an engineering and traffic investigation as that delegated to the State Highway Commission with respect to any officially designated or marked highway, road or street of the State Highway System; provided that under no circumstances shall any County Commissioners Court have the authority to modify or alter the basic rule established in paragraph (a) of Section 166 nor to establish a speed limit higher than sixty (60) miles per hour.

(b) The governing body of an incorporated city, town or village with respect to any highway, street or part of a highway or street, including those marked as a route of a highway of the State Highway System, within its corporate limits, shall have the same authority by city ordinance to alter maximum prima facie speed limits upon the basis of an engineering and traffic investigation as that delegated to the State Highway Commission with respect to any officially designated or marked highway, road or street of the State Highway System; provided that under no circumstances shall any such governing body have the authority to modify or alter the basic rule established in paragraph (a) of Section 166, nor to establish a speed limit higher than sixty (60) miles per hour, and provided, further, that any order of the State Highway Commission declaring a speed limit upon any part of a designated or marked route of the State Highway System made pursuant to Section 167 shall supersede any city ordinance in conflict therewith.

c) An incorporated city, town, or village with respect to any highway, street, or part of a highway or street, including those marked as a route of a highway of the State Highway System, within its corporate limits, shall have the same authority to alter maximum prima facie speed limits upon the basis of an engineering and traffic investigation as that delegated to the State Highway Commission with respect to any officially designated or marked highway, road, or street of the State Highway System, when the highway, street, or part of a highway or street, including those marked as a route of a highway of the State Highway System, is under
repair, construction, or maintenance, which limits, when appropriate signs giving notice of the limits are erected, shall be effective at that highway, street, or part of a highway or street, including those marked as a route of a highway of the State Highway System at all times or during hours of daylight or darkness, or at other times as may be determined; provided that under no circumstances may any governing body have the authority to modify or alter the basic rule established in Subsection (a) of Section 166, nor to establish a speed limit higher than sixty (60) miles per hour, and that any order of the State Highway Commission declaring a speed limit upon any part of a designated or marked route of the State Highway System made pursuant to Section 167 or Section 169B shall supersede any conflicting designated speed established under the provisions of this section.

Text of (d) as added by Acts 1977, 65th Leg., p. 2120, ch. 846, § 1

(d) The commanding officer of a United States military reservation, with respect to any highway, street, or part of a highway or street, including one marked as a route of a highway of the State Highway System, within the limits of the military reservation, has the same authority by order to alter maximum prima facie speed limits on the basis of an engineering and traffic investigation as that delegated to the State Highway and Public Transportation Commission with respect to any officially designated or marked highway, road, or street of the State Highway System. However, a commanding officer may not modify or alter the basic rule established in Subsection (a) of Section 166 of this Act, as amended, nor may he establish a speed limit higher than sixty (60) miles an hour. An order of the State Highway and Public Transportation Commission declaring a speed limit on any part of a designated or marked route of the State Highway System made pursuant to Section 167 or Section 169B of this Act, as amended, supersedes any conflicting order of a commanding officer.

(e) The chairman of the State Highway and Public Transportation Commission and the chairman of the State Board of Education shall provide assistance and information relevant to consideration of speed limits to commissioners courts, municipal governing bodies, and other interested persons.

Special Speed Limitations

Sec. 169A. (a) No person shall operate any motor-driven cycle at any time mentioned in Subsection (a) of Section 163 at a speed greater than thirty-five (35) miles per hour unless such motor-driven cycle is equipped with a head lamp or lamps which are adequate to reveal a person or vehicle at a distance of three hundred (300) feet ahead.

(b) No person shall drive any vehicle equipped with solid rubber or cushion tires at a speed greater than a maximum of ten (10) miles per hour.

(c) No person shall drive a vehicle over any bridge or other elevated structure constituting a part of a highway at a speed which is greater than the maximum speed which can be maintained with safety to such bridge or structure, when such structure is signposted as provided in this section.

(d) The State Highway Commission upon State highways, the Texas Turnpike Authority upon any part of a turnpike constructed and maintained by it, and local authorities on highways under their jurisdiction, may conduct an investigation of any bridge or other elevated structure constituting a part of a highway, and if it shall thereupon find that such structure cannot with safety to itself withstand vehicles traveling at a speed otherwise permissible under this Act, the Commission, Texas Turnpike Authority, or local authority shall determine and declare the maximum speed of vehicles which such structure can safely withstand, and shall cause or permit suitable signs stating such maximum speed to be erected and maintained before each end of such structure.

(e) No person may operate on a public highway at a speed greater than thirty (30) miles per hour any self-propelled machinery specifically designed or especially adapted for applying plant food materials or agricultural chemicals and not designed or adapted for the sole purpose of transporting the materials or chemicals, unless the machinery is registered under Chapter 88, General Laws, Acts of the 41st Legis-
finds that the facts specified in Subsection (b) of this section exist, it may enter an order establishing maximum prima facie speed limits of not more than seventy (70) miles per hour applicable to all highways in this state, including highways under the control of the Texas Turnpike Authority, incorporated cities and towns, and counties. An order entered under this section does not have the effect of increasing a speed limit on any highway. The limits established under this section are prima facie prudent and reasonable speed limits enforceable in the same manner as prima facie limits established under other provisions of this article. When speed limits established under this section are in effect, they prevail over any other established speed limit which would permit a person to operate a motor vehicle at a higher rate of speed, but do not apply to vehicles permitted to exceed established limits under Sections 24 and 172 of this Act.

(b) An order issued under Subsection (a) of this section is justified if the commission finds the following facts exist, which must be stated in the order:

(1) That a severe shortage of motor fuel or other petroleum product exists; and

(2) That the shortage was caused by war, national emergency or other circumstances; and

(3) That a reduction of speed limits will serve to foster conservation purposes and safety; or

(4) The failure to alter state speed limits will prevent the state from receiving revenue for highway purposes from the federal government.

(c) Unless a specific speed limit is required by federal law or directive under threat of loss of federal highway funds then the State Highway Commission may not set maximum prima facie speed limits under this section of all vehicles below sixty (60) miles per hour.

(d) Before the commission may enter an order establishing a maximum prima facie speed limit, it must hold a public hearing preceded by the publication in at least three newspapers of general circulation in the state of a notice of the date, time, and place of the hearing and of the action proposed to be taken. The notice must be published at least 12 days before the date of the hearing. At the hearing, all interested persons may present oral or written testimony regarding the proposed order.

(e) When the commission enters an order under this section, it shall file the order in the office of the governor. The governor shall then undertake an independent finding of fact and determine the existence of the facts in Subdivisions (1), (2), (3) or (4) of Subsection (b) of this section. Before the eighth day after the order is filed in his office, the governor shall conclude his finding of fact, issue a proclamation stating whether the necessary facts exist to support the issuance of the commission's order, and file copies of the order and his proclamation in the office of the secretary of state.

(f) If the governor's proclamation states that the facts necessary to support the issuance of the commission's order exist, the order takes effect according to Subsection (g) of this section. Otherwise, the order has no effect.

(g) In an order issued under this section, the commission may specify the date on which the order takes effect, but that date may not be sooner than the eighth day after the order is filed with the governor. If the order contains no effective date, it takes effect on the 21st day after it is filed with the governor. Unless the order by its own terms expires earlier, it remains in effect until a subsequent order adopted by the procedure prescribed by this section amends or repeals it, except that any order adopted under this section expires when this section expires. The procedure for repealing an order is the same as for adopting an order except that the commission and the governor must find that the facts required to support the issuance of an order under Subsection (b) of this section no longer exist.

(h) When an order is adopted in accordance with this section, the commission and all governmental authorities responsible for the maintenance of highway speed limit signs shall proceed with appropriate action to conceal or remove all signs which give notice of a speed limit higher than the one contained in the order and to erect appropriate signs. All governmental entities having responsibility for administration of traffic safety programs and the enforcement of traffic laws shall also proceed to use all available resources to notify the public of the effect of the order, and to accomplish this purpose they are directed to seek to enlist the cooperation of all news media in the state.

(i) Any change in speed limits under this section shall be effective for a maximum of 120 days, unless the commission makes a finding prior to the expiration of the 120 day period that the conditions specified under Section 169B, Subsection (b) continue to exist. If such conditions are found to still exist such limits may be continued in effect for additional 120 day periods.

(j) This section expires when the national maximum speed limit of 55 miles per hour as provided in Section 154, Chapter 1, Title 23, United States Code,1 is repealed.

Minimum Speed Regulations

Sec. 170. (a) No person shall drive a motor vehicle at such a slow speed as to impede the normal and reasonable movement of traffic except when reduced speed is necessary for safe operation or in compliance with law.

(b) Whenever the State Highway Commission, Texas Turnpike Authority, County Commissioners Court, or the governing body of an incorporated city, town, or village, within their respective jurisdictions, as specified in Sections 167, 168 and 169, determine on the basis of an engineering and traffic investigation that slow speeds on any part of a highway consistently impede the normal and reasonable movement of traffic, the said State Highway Commission, Texas Turnpike Authority, County Commissioners Court, or governing body of an incorporated city, town or village are hereby empowered and may determine and declare a minimum speed limit thereat or thereon, and when appropriate signs are erected, giving notice of such minimum speed limit, no person shall drive a vehicle below that limit except when necessary for safe operation or in compliance with law.

Charging Violations and Rule in Civil Cases

Sec. 171. (a) In every charge of violation of any speed regulation in this Act, the complaint, also the summons or notice to appear, shall specify the speed at which the defendant is alleged to have driven, also the maximum or minimum speed limit applicable within the district or at the location.

(b) The provisions of this Act declaring maximum or minimum speed limitations shall not be construed to relieve the plaintiff in any action from the burden of proving negligence on the part of the defendant as the proximate cause of an accident.

Exceptions to Speed Law

Sec. 172. The provisions of this Article regulating speeds of vehicles shall not apply to authorized emergency vehicles responding to calls, nor to police patrols, nor to physicians and/or ambulances responding to emergency calls, provided that incorporated cities and towns may by ordinance regulate the speed of ambulances, emergency medical service vehicles, and authorized emergency vehicles operated by blood banks or tissue banks.

Acts 1971, 62nd Leg., p. 2900, ch. 950, which by sections 2 to 5 amended §§ 135, 140, 141 and 143, provided in section 1:

"This Act takes effect on January 1, 1972."

"The Department of Highways and Public Transportation shall erect appropriate signs near the entrances and exits of controlled access highways to advise motorists of the requirements of this Act."

Section 2 of Acts 1979, 66th Leg., p. 776, ch. 558, provided:

"This Act takes effect September 1, 1979, and applies only to offenses committed on or after that date. Offenses committed under Section 50, Uniform Act Regulating Traffic on Highways, as amended (Article 698d, Vernon's Texas Civil Statutes), before the effective date of this Act are subject to prosecution under that section as it existed when the offense occurred, and that law is continued in effect for that purpose. For the purposes of this Act, an offense is committed before the effective date of this Act if any element of the offense occurs before the effective date."

Section 6 of Acts 1981, 67th Leg., p. 999, ch. 377, provided:

"This Act takes effect September 1, 1981, and applies only to offenses committed on or after that date. Offenses committed before the effective date of this Act are subject to prosecution under that section as it existed when the offense occurred, and that law is continued in effect for that purpose. For the purposes of this Act, an offense is committed before the effective date of this Act if any element of the offense occurs before the effective date."

Section 4 of Acts 1981, 67th Leg., p. 3725, ch. 741, provided:

"Sec. 4. This Act takes effect January 1, 1982, and applies only to offenses committed on or after that date. An offense committed before the effective date of this Act is continued in effect when the offense was committed and the prior law is continued in effect for that purpose. An offense is continued before the effective date of this Act if any element of the offense occurs before that date."

Section 160 of Acts 1983, 68th Leg., p. 398, ch. 81, provided:

"This section applies only to fees payable on or after September 1, 1983."

Section 286 of Acts 1983, 68th Leg., p. 1607, ch. 303, provided:

"An offense committed before the effective date of this Act is covered by the law in effect when the offense was committed, and the former law is continued in effect for that purpose."

Section 3(b) of Acts 1983, 68th Leg., p. 2053, ch. 369, provided:

"This Act applies to certificates of inspection furnished to be issued on or after September 1, 1983, and to inspections that occur on or after that date. For purposes of this section, an inspection occurs on or after September 1, 1983, if any part of the inspection or the inspection occurs on or after that date. A certificate that is furnished to be issued before September 1, 1983, or an inspection that occurs before that date, is subject to Section 141, Uniform Act Regulating Traffic on Highways, as amended (Article 6701d, Vernon's Texas Civil Statutes), and Section 23.465, Title 1205, Revised Statutes, as they exist at the time the certificate is furnished or the inspection occurs, and the former law is continued in effect for that purpose."

Section 2 of Acts 1983, 68th Leg., p. 3775, ch. 581, provided:

"An administrative proceeding initiated before the effective date of this Act under Subsection (f), Section 108, Uniform Act Regulating Traffic on Highways (Article 6701d, Vernon's Texas Civil Statutes), before it was amended by this Act, is subject to that law as it existed when the proceeding was initiated, and the former law is continued in effect for that purpose."

Section 2 of Acts 1983, 68th Leg., p. 4498, ch. 728, provided:

"This Act takes effect December 1, 1983, and applies to disposition of offenses committed on or after that date. An offense
committed before the effective date of this Act is subject to
disposition under Section 143A, Uniform Act Regulating Traffic on
Highways (Article 6701d, Vernon's Texas Civil Statutes), as that
section existed when the offense occurred, and that law is contin-
ued in effect for that purpose. For the purposes of this Act, an
offense is committed before the effective date of this Act if any
element of the offense occurs before the effective date.

Section 3 of Acts 1983, 68th Leg., p. 5123, ch. 933, provides:

"(a) Except as provided by Subsection (b) of this section, this Act
applies only to offenses committed on or after its effective date.
A criminal action for an offense committed before that date is
governed by the accident reporting requirements existing before the
effective date and the former law is continued in effect for this
purpose, as if this Act were not in force. For purposes of this
section, an offense is committed on or after the effective date of
this Act if any element of the offense occurs on or after the effective
date.

(b) Conduct that constituted an offense under an existing law
that is amended by this Act and that does not constitute an offense
after amendment by this Act may not be prosecuted on or after the
effective date of this Act. If, on the effective date of this Act, a
criminal action is pending for conduct that was an offense before
the effective date of this Act and that does not constitute an
offense after the effective date of this Act, the action is automati-
cally dismissed on the effective date of this Act. However, a
conviction existing on the effective date of this Act for conduct
that constituted an offense before that date is valid and unaffected
by this Act. For purposes of this section, "conviction" means a
finding of guilt in a court of competent jurisdiction, whether or not
the conviction is final.

"(c) This Act applies only to those administrative actions taken
on or after its effective date. An administrative action based
solely on a motor vehicle accident that occurred before that date is
governed by the law existing before the effective date, and the
former law is continued in effect for that purpose, as if this Act
were not in force. For purposes of this section, a motor vehicle
accident occurs on or after the effective date of this Act if any part
of the transactions occurs on or after the effective date."

For subject matter of former § 50 of this article, see, now, art. 6701d-1.

Art. 6701d-1. Children Standing in School Bus

Art. 6701d-2. Approval and Filing of Rules and

Regulations Wherever in this Act the Department is autho-
rized to prescribe or to promulgate rules and regula-
tions, such rules and regulations, before they shall
become effective, shall be first approved in writing
and filed in the office of the county clerk of each county in this State
for public inspection during business hours. Any
changes or amendments to such rules and regula-
tions likewise shall be first approved in writing
and filed in the office of the county clerk of each county
in this State.

Lawful Installation In any civil case in this State, proof by either
party to the case of the existence of any traffic control
device, including, but not limited to, control
lights, stop signs, and one-way street signs, or on
alongside any public thoroughfare shall constitute
prima facie proof of all facts (including proof of
competent authority and a duly enacted ordinance
by municipalities or all duly promulgated orders by
Commissioners Courts) necessary to prove the prop-
er, lawful installation of such sign or device at that
place. Such proof of the existence of any one-way
street sign shall further constitute prima facie proof
that the public thoroughfare on or alongside of
which it was placed was duly designated by proper,
competent authority to be a one-way public thorough-
fare for traffic to go only in the direction indicated
by the sign. The prima facie proof herein
provided for may be rebutted by any party to the
suit.

one hundred dollars.

Sec. (2). An officer making an arrest for an

Sec. (3). The hearing must be before a magis-

[1925 P.C. Amended by Acts 1983, 68th Leg., p. 106, ch. 29, § 1, eff. Sept. 1, 1983.]

Section 2 of the 1983 amendatory act provides:
"The change in law made by this Act applies only to the criminal responsibility for conduct occurring on or after the effective date of this Act. Criminal responsibility for conduct occurring before the effective date of this Act is covered by the law in effect when the conduct occurred, and the former law is continued in effect for this purpose."

Art. 6701d-6. Exceptions as to Railways

The city council of any incorporated city may by ordinance grant a franchise to a railway company to obstruct a street crossing, not a part of a "Designated State Highway," by railway passenger trains for the purpose of receiving and discharging passengers, mail, express or freight, for a longer time than specified herein, and may enact and enforce reasonable ordinances in the premises. When any such franchise has been granted under the provisions of this law, the street crossing named therein shall be excepted from the preceding article. The provisions hereof shall not apply to a city having a special charter unless it shall first be amended so as to adopt the provisions hereof.

Any person wilfully violating such promise, regardless of the disposition of the charge upon which he was originally arrested, shall be fined not less than five nor more than two hundred dollars.

Art. 6701d-9. Badge and Uniform of Officers

No Sheriff, Constable, or Deputy or either, shall have authority to arrest or accost any person for driving a motor vehicle over the highways of this State in violation of the law relating to motor vehicles unless he is at the time wearing on his left breast on the outside of his garment so that it can be clearly seen a badge showing his title, and unless he is also wearing a cap, coat or blouse, and trousers of dark grey color, or dark blue, which cap and other uniform shall be of the same color. Provided, if any person shall violate the provisions hereof, he shall be guilty of a misdemeanor and shall be punished as provided in Section 3 hereof, and if any officer charged by law so to do shall refuse to take any complaint or prosecute the same, he shall be removed from office.

Weights and Loads of Vehicles; Special Permits; Municipal Regulation

Sec. 2. (a) Except as otherwise provided by law, no person may drive, operate, or move, nor may the owner cause or permit to be driven, operated or moved, on any highway, any vehicle or vehicles of a size or weight exceeding the limitations stated in this Act, or any vehicle or vehicles which are not constructed or equipped as required by this Act, or constructed thereon any load or loads exceeding the dimensions or weight prescribed in this Act.

(b) The Commissioners Courts through the County Judges of the several counties of this State may issue permits limited to periods of ninety (90) days or less for the transportation over highways of their respective counties other than State highways and public roads within the boundaries of an incorporated municipality, overweight or oversize or overlength commodities which cannot be reasonably dismantled, or for the operation over these highways of superheavy or oversize equipment for the transportation of oversize or overweight or overlength commodities which cannot be reasonably dismantled. A County Judge may exercise authority independently of the Commissioners Court until the Commissioners Court takes action on each request.

(c) The Commissioners Court, in its discretion, may require a bond to be executed by an applicant in an amount sufficient to guarantee the payment of any damages to any road or bridge sustained as a consequence of the transportation authorized by the permit.

(d) The governing body of any incorporated municipality may regulate the movement and operation of overweight or oversize or overlength commodities which cannot reasonably be dismantled, and the movement and operation of superheavy or oversize equipment for the transportation of oversize or overweight or overlength commodities which cannot be reasonably dismantled, on public roads other than state highways within the corporate boundaries of the municipality.

Width, Length and Height

Sec. 3. (a)(1) Except as provided by Subdivision (2) of this subsection, it shall be unlawful to operate a vehicle on a public highway if the total outside width of the vehicle exceeds one hundred and two (102) inches, including any load on the vehicle, but excluding any safety device determined by the Federal Department of Transportation or the Texas Department of Public Safety to be necessary for the safe and efficient operation of motor vehicles of that type.

(b) No vehicle unladen or with load shall exceed a height of thirteen feet six inches (13' 6") including load; provided, however, it shall be unlawful to operate or attempt to operate any vehicle over or on any bridge or through any underpass or similar structure unless the height of such vehicle, including load, is less than the vertical clearance of such structure as shown by the records of the Department. In every case or proceeding, civil and criminal, in which a violation of this Act may be an issue a certificate signed by the State Highway Engineer as to such vertical clearance shall be admissible in evidence for all purposes.

(c)(1) No motor vehicle, other than a truck-tractor, shall exceed a length of forty-five (45) feet. Except as provided in Subsection (c-1) of this section, it shall be lawful for any combination of not more than three (3) vehicles to be coupled together including, but not limited to, a truck and semi-trailer, truck and trailer, truck-tractor and semi-trailer and trailer, or a truck-tractor and two trailers, provided such combination of vehicles, other than a truck-tractor combination, shall not exceed a length of sixty-five (65) feet, unless such vehicle or combination of vehicles is operated exclusively within the limits of an incorporated city or town; and unless, in the case of any combination of such vehicles, same be operated by municipal corporations in adjoining suburbs wherein said municipal corporation has heretofore been using such or like equipment in connection with an established service to such suburbs of the municipality; provided further, that motor buses as defined in Acts of the 41st Legislature, 2nd Called Session, 1929, Chapter 88, as amended, exceeding thirty-five (35) feet in length, but not exceeding forty (40) feet in length, may be lawfully operated over the highways of this state if such motor buses are equipped with air brakes and have a minimum of four (4) tires on the rear axle; and provided further, that the above limitations shall not apply to any mobile home or to any combination of a mobile home and a motor vehicle, but no mobile home and motor vehicle combination shall exceed a total length of fifty-five (55) feet. "Mobile home" as used herein means a living quarters equipped and used for sleeping and eating and which may be moved from one location to another over a public highway by being pulled behind a motor vehicle. No mobile home, as the same is defined herein, shall be entitled to the exemption contained in this Subsection unless the owner there-
of shall have paid all taxes, including ad valorem
taxes, and fees due and payable under the laws of
this state, levied on said mobile home.

(2) A semi-trailer may not exceed a length of
fifty-seven (57) feet when operated in a truck-trac­
tor and semi-trailer combination. A semi-trailer or
tractor may not exceed a length of twenty-eight and
one-half (28½) feet when operated in a truck-tractor,
semi-trailer, and trailer combination.

(3) The length limitations in this subsection do
not include any safety device determined by regula­
tion of the Department of Transportation or by rule
of the Department of Public Safety to be necessary
for the safe and efficient operation of motor vehi­
cles.

(4) The length limitations in this subsection for
semi-trailers and trailers do not apply to semi-trail­
ers or trailers that would be actually and lawfully
operated in this State on December 1, 1982.

(c-1) (1) In this subsection:
(A) “Passenger car” means a motor vehicle de­
signed for the transportation of persons which is
not designed to accommodate more than ten (10)
persons at one time.

(B) ‘Towing device’ means a device used to tow a
vehicle behind a motor vehicle by supporting one
end of the towed vehicle above the surface of the
road while permitting the wheels at the other end of
the towed vehicle to remain in contact with the road.

(2) Except as provided in Subdivision (3), no pas­
enger car, regardless of weight, nor any other
motor vehicle with an unloaded weight of less than
two thousand five hundred (2,500) pounds, may be
coupled with more than one other vehicle or towing
device at one time.

(3) If a passenger car or other motor vehicle has
an unloaded weight of two thousand five hundred
(2,500) pounds or more, it may be coupled with a
towing device and one other vehicle. Subdivision (2)
of this subsection does not apply to the towing of a
disabled vehicle to the nearest intake place for
repairs.

(d) No train or combination of vehicles or vehicle
operated alone shall carry any load extending more
than three (3) feet beyond the front thereof, nor,
except as hereinbefore provided, more than four (4)
feet beyond the rear thereof.

(e) No passenger vehicle shall carry any load
extending more than three (3) inches beyond the line
of the fenders on the left side of such vehicle, nor
extending more than six (6) inches beyond the line of
the fenders on the right side thereof; provided,
that the total overall width of such passenger vehi­
cle shall in no event exceed ninety-six (96) inches,
including any and all such load.

(f) Immediately upon the taking effect of this
Act, it shall thereafter be unlawful for any person
to operate or move, or for any owner to cause to be
operated or moved, any motor vehicle or combina­
transported, or aid or abet the loading or transporting, in a motor vehicle, commercial motor vehicle, truck-tractor, trailer or semi-trailer, any loose material on or over the public roads, streets or highways of this State in violation of any requirement of this section.

(b) As used in this section, “loose material” means dirt, sand, gravel, wood chips, or other material that is capable of blowing or spilling from a vehicle as a result of movement or exposure to air, wind currents, or weather, but shall not include agricultural products in their natural state.

(c) The bed carrying the load must be completely enclosed on both sides by sideboards or sidepanels, on the front by a board or panel or by the cab of the vehicle, and on the rear by tailgate or board or panel, all of which must be so constructed as to prevent the escape of any part of the load because of blowing or spilling.

(d) The top of the load must be covered with a canvas, tarpaulin, or other covering firmly secured to the front and the back to prevent the escape of any part of the load because of blowing or spilling.

(e) The excess spillage of loose material on the non-load carrying parts of the vehicle occasioned by or from the act of loading shall be removed before the vehicle is operated over a public road, street, or highway of this State.

(f) The tailgate must be securely closed to prevent spillage during transportation, whether loaded or empty.

(g) The bed shall not have any holes, cracks, or openings through which loose material may escape.

(h) The residue of the transported loose material shall be removed from the non-load carrying parts of the vehicle upon completion of unloading before the vehicle is operated over a public road, street, or highway of this State.

(i) Subsection (d) of this section does not apply to any load-carrying compartment that completely encloses the load or to the transportation of any load of loose materials that are not blowing or spilling over the top of the load-carrying compartment.

(j) Nothing in this Section 3A applies to:

(1) any vehicle or construction or mining equipment which is moving between construction barriers on a public works project, or merely crossing a public road, street, or highway; or

(2) any vehicle while being operated at a speed less than thirty (30) miles per hour.

(k) Any person, co-partnership, limited partnership, association, corporation, or any departmental head, agent or employee of the State or of any county, municipality, town, village, or any department or political subdivision thereof who fails to comply with the provisions of this section shall be guilty of a misdemeanor, and upon first conviction shall be fined a sum of not less than Twenty-five Dollars ($25) nor more than Two Hundred Dollars ($200), and on a second or a subsequent conviction a sum of not less than Two Hundred Dollars ($200) nor more than Five Hundred Dollars ($500).

Vehicles Transporting Seed Cotton Modules

Sec. 3B. (a) Except as provided by Subdivision (4) of Subsection (a) of this Act, a single motor vehicle used exclusively to transport seed cotton modules shall not exceed a width of one hundred and eight (108) inches when operated on any highway designated by the State Highway and Public Transportation Commission pursuant to Section 3% of this Act, and shall not exceed a width of one hundred and two (102) inches when operated on any highway not so designated.

(b) Except as provided by Subsection (d) of this section, a single motor vehicle used exclusively to transport seed cotton modules may exceed the limitation on width provided for a single vehicle by Subsection (e) of Section 3 of this Act but may not exceed a length of forty-eight (48) feet.

(c) Except as provided by Subsection (d) of this section, a vehicle or combination of vehicles used exclusively to transport seed cotton modules may exceed the limitations on weight provided by Section 5 of this Act, but the load on any one axle may not exceed twenty thousand (20,000) pounds, the tandem axle load may not exceed thirty-eight thousand (38,000) pounds without van-type cover, thirty-nine thousand, four hundred (39,400) pounds with van-type cover, and the overall gross weight of the vehicle or vehicles may not exceed fifty-nine thousand, four hundred (59,400) pounds.

(d) A vehicle may not be operated on the national system of interstate and defense highways if it exceeds the maximum size or weight authorized by 23 U.S.C. Section 127.

(e) The owner of a vehicle covered by this section having a tandem axle weight greater than thirty-four thousand (34,000) pounds is liable to and shall compensate the state, county, or city for all damages to a highway, street, road, or bridge caused by the weight of the tandem axle load.

(f) Except as provided by Subsection (d) of this section, a single motor vehicle used exclusively to transport seed cotton modules may exceed the limitation on height provided for a single vehicle by Subsection (b) of Section 3 of this Act but may not exceed a height of fourteen (14) feet, six (6) inches.

Lights or Flags on Extended Loads

Sec. 4. Wherever the load or drawbar or coupling on any vehicle shall extend beyond the rear of the bed or body thereof, there shall be displayed at the end of such load or extension, in such position as to be clearly visible at all times from the rear of such load or extension, a red flag not less than twelve (12) inches both in length and width, except that between one-half hour after sunset and one-half hour before sunrise there shall be displayed at
the end of any such load or extensions a red light, plainly visible under normal atmospheric conditions at least five hundred (500) feet from the rear of such vehicle.

1 So in enrolled bill. Session Laws omit word "hour."

Weight of Load; Intent to Violate Weight Limitations

Sec. 5. (a) Except as otherwise provided by law, no commercial motor vehicle, truck-tractor, trailer or semitrailer, nor combination of such vehicles, shall be operated over, on, or upon the public highways outside the limits of an incorporated city or town, or over, on, or upon the state-maintained public highways inside the limits of an incorporated city or town, having a weight in excess of one or more of the following limitations:

(1) No such vehicle nor combination of vehicles shall have a greater weight than twenty thousand (20,000) pounds carried on any one axle, including all enforcement tolerances; or with a tandem axle weight in excess of thirty-four thousand (34,000) pounds, including all enforcement tolerances; or with an overall gross weight on a group of two or more consecutive axles produced by application of the following formula:

\[
W = 500 \left( \frac{LN + 12N + 36}{N-1} \right)
\]

where \( W \) = overall gross weight on any group of two or more consecutive axles to the nearest 500 pounds, \( L \) = distance in feet between the extreme of any group of two or more consecutive axles, and \( N \) = number of axles in group under consideration except that two consecutive sets of tandem axles may carry a gross load of 34,000 pounds each providing the overall distance between the first and last axles of such consecutive sets of tandem axles is thirty-six (36) feet or more; provided, that such overall gross weight may not exceed eighty thousand (80,000) pounds, including all enforcement tolerances.

(2) No such vehicle nor combination of vehicles shall have a greater weight than six hundred (600) pounds per inch width of tire upon any wheel concentrated upon the surface of the highway and using high-pressure tires, and a greater weight than six hundred and fifty (650) pounds per inch width of tire upon any wheel concentrated upon the surface of the highway and using low-pressure tires, and no wheel shall carry a load in excess of eight thousand (8,000) pounds on high-pressure tires and ten thousand (10,000) pounds on low-pressure tires, nor any axle a load in excess of sixteen thousand (16,000) pounds on high-pressure tires, and twenty thousand (20,000) pounds on low-pressure tires.

(3) Nothing in this section shall be construed as permitting size or weight limits on the national system of interstate and defense highways in this state in excess of those permitted under 23 U.S.C. Section 127. If the federal government prescribes or adopts vehicle size or weight limits greater than those now prescribed by 23 U.S.C. Section 127 for the national system of interstate and defense highways, the increased limits shall become effective on the national system of interstate and defense highways in this state.

(4) Nothing in this section shall be construed to deny the operation of any vehicle or combination of vehicles that could be lawfully operated upon the highways and roads of this state on December 16, 1974.

(5) In this section, an axle load is defined as the total load transmitted to the road by all wheels whose centers may be included between two (2) parallel transverse vertical planes forty (40) inches apart, extending across the full width of the vehicle. Tandem axle group is defined as two (2) or more axles spaced forty (40) inches or more apart from center to center having at least one (1) common point of weight suspension.

(b) No person shall load, or cause to be loaded, a vehicle for operation on the public highways of this state with the intent to violate the weight limitations in Subsection (a) of this section. Intent to violate those limitations is presumed if the loaded vehicle exceeds the applicable gross vehicular weight limit by 15 percent or more. This subsection does not apply to the loading or causing to be loaded of an agricultural or a forestry commodity prior to the processing of the commodity.

Exceeding Weight Limits to Cross Width of Highway

Sec. 5(a). A person may operate a vehicle that exceeds the overall gross weight limits as provided by Section 5 of this Act to cross the width of a highway with the vehicle from private property to other private property if:

(1) the overall gross weight of the vehicle does not exceed 110,000 pounds;

(2) the person is operating the vehicle to transport grain, sand, other commodities, and products;

(3) an agreement authorized by law was executed under which a private party has contracted with the State Department of Highways and Public Transportation to indemnify the department for the cost of the maintenance and repair for damage caused by the vehicles crossing that portion of the highway; and

(4) the private party has executed an adequate surety bond to compensate for the cost of maintenance and repairs, approved by the State Treasurer and the attorney general, with a corporate surety authorized to do business in this state, conditioned on the private party fulfilling the obligations of the agreement.

Farm-to-Market and Ranch-to-Market Roads; Highway Commission to Fix Loads

Sec. 5a. The State Highway Commission shall have the power and authority upon the basis of an
engineering and traffic investigation to determine
and fix the maximum gross weight of vehicle, or
combination thereof, and load as well as the maxi-
mum axle and wheel loads, to be transported or
moved, on over or upon any State highway or any
road that has been classified by the Highway Com-
mision and shown by the records of the Commiss-
ion as a Farm-to-Market or Ranch-to-Market road
under the jurisdiction of the State Highway Com-
mission, at less than the maximums hereinbefore
fixed by law, taking into consideration the width,
condition and type of pavement structures and other
circumstances on such road, when it is found that
greater maximum weights would tend to rapidly
deteriorate to destroy the roads, bridges or culverts
along the particular road or highway sought to be
protected. Whenever the State Highway Commiss-
ion shall determine and fix the maximum gross
weight of vehicle, or combination thereof, and load
or maximum axle and wheel loads, which may be
transported or moved on, over or upon any such
State Highway or Farm-to-Market or Ranch-to-Mar-
ket road at a less weight than the respective maxi-
mums hereinbefore set forth in this Act and shall
declare such maximums by proper order of the
Commission entered on its minutes, such gross
weight of vehicle, or combination thereof, and load
and maximum axles and wheel loads shall become
effective and operative on said highway or road
when appropriate signs giving notice thereof are
erected under the order of the Commission on such
State highway or Farm-to-Market or Ranch-to-Mar-
ket road.

The Commissioners Court of any county shall
have the same power and authority to limit the
maximum weights to be transported or moved on,
over or upon any county road, bridge or culvert that
is given by this Act to the State Highway Commiss-
ion with respect to State highways and State Farm-
to-Market and Ranch-to-Market roads. The Com-
missioners Court shall exercise its authority with
respect to county roads in the same manner and
under the same conditions as provided herein for
the State Highway Commission with respect to
highways and roads under its jurisdiction, and its
action shall be entered on its minutes and become
effective and operative on county roads when appro-
priate signs giving notice thereof are erected on
such roads in accordance with the order of the
Commissioners Court.

It shall be unlawful for and constitute a misde-
meanor for any person, corporation, receiver or
association to drive, operate or move, or for the
owner to cause or permit to be driven, operated or
moved, on any such highway or road any vehicle, or
combination of vehicles, which in any respect ex-
ceds the maximum gross weight or maximum axle
or wheel loads fixed for any such highway or road
by the State Highway Commission or a Commission-
ers Court in accordance with the terms of this
Section. Any person, corporation, receiver or asso-
ciation who commits the violation heretofore set out
shall, upon conviction, be subject to and punished by
the same fines and penalties for the first and subse-
quent offenses as are set out in Section 5 of House
Bill No. 19, Chapter 71, Acts of the Forty-seventh
Legislature, Regular Session, 1941, (codified in Ver-
non's as Section 9c of Article 827a of the Penal
Code).1

Provided, however, that nothing in this Act shall
in anywise alter, amend or repeal any law of this
State authorizing or providing for special permits
for weights in excess of those provided by law or
fixed under this Act.

Provided, further, that this Section shall not apply
to vehicles making deliveries of groceries or farm
products to destinations requiring travel over such
roads; but, if for any reason this exception is un-
constitutional or invalid, it is the intention of the
Legislature to enact, and it does here and now enact
and pass, this Act without such exception; and if it
be invalid, such exception alone shall fall and be
held for naught, and the remainder of the Act shall
be and remain unimpaired and it is so enacted.

1 Section 9c of this article.

Exceeding Weight Limits to Cross Width of
Highway; Unlicensed Vehicles

Text of § 5% as added by Acts 1983, 68th Leg.,
p. 728, ch. 171, § 1

Sec. 5%. A person may operate an unlicensed
vehicle that exceeds the overall gross weight limits
as provided by Section 5 of this Act to cross the
width of a highway with the vehicle from private
property to other private property if:

(1) the person is operating the vehicle to trans-
port sand, gravel, stones, rock, caliche, or other
similar commodities;

(2) an agreement authorized by law was executed
under which a private party has contracted with the
State Department of Highways and Public Trans-
portation to indemnify the department for the cost
of the maintenance and repair for damage caused
by the vehicle crossing that portion of the highway;
and

(3) the private party has executed an adequate
surety bond to compensate for the cost of main-
tenance and repairs, approved by the State Treasurer
and the attorney general, with a corporate surety
authorized to do business in this state, conditioned
on the private party fulfilling the obligations of the
agreement.

Contracts to Indemnify Department; Exceeding
Weight Limits

Text of § 5% as added by Acts 1983, 68th Leg.,
p. 4224, ch. 689, § 1

Sec. 5%. (a) When any person, firm, or corpo-
ration desires to operate any vehicle, from private
property to other private property, across the width
of any road or highway under the jurisdiction of the
State Department of Highways and Public Trans-
portation, other than a controlled access highway as defined in Chapter 300, General Laws, Acts of the 55th Legislature, Regular Session, 1957 (Article 6674w, Vernon’s Texas Civil Statutes), and when such vehicle cannot comply with one or more of the restrictions of Sections 3 and 5 of this Act, the State Highway and Public Transportation Commission is authorized to contract with such person, firm, or corporation to indemnify the department for the cost of maintenance and repair of that portion of such highway crossed by such vehicles.

(b) The State Highway and Public Transportation Commission shall formulate rules and regulations regarding the forms and procedures to be used and such other matters as the commission may deem necessary to carry out the provisions of this section.

(c) It is recognized that the movement of such overweight and oversize vehicles is a privilege not accorded to every user of the highway system, and it is logical and proper that the terms and conditions of any contract authorized by this section be prescribed by the State Highway and Public Transportation Commission in such manner as will adequately protect the safety of the traveling public, minimize any delays and inconveniences to the operators of vehicles in regular operation, and assure payment for the added wear on the highways in proportion to the reduction of service life. It is, therefore, declared to be the policy of the legislature that in formulating such rules and regulations and prescribing such terms and conditions, the commission shall consider and be guided by:

1. the safety and convenience of the general traveling public;
2. the suitability of roadways and subgrades on the various roads and highways to be crossed, variation in soil grade prevalent in the different regions of the state, and the seasonal effects on highway load capacity as well as the highway shoulder design and other highway geometrics; and
3. the state’s investment in its highway system.

(d) The private party to any contract authorized by this section shall, prior to exercising any rights thereunder, execute an adequate surety bond in such amount as may be determined by the State Highway and Public Transportation Commission to compensate for the cost of maintenance and repairs as provided herein, approved by the State Treasurer and the attorney general, with a corporate surety as provided herein, approved by the Treasurer, or one of his duly authorized deputies, an affidavit, duly sworn to before an officer authorized to administer oaths, showing the weight of said vehicle, the maximum load to be transported thereon, and the total gross weight for which said vehicle is to be registered; which affidavit shall be kept on file by the Collector. The license receipt issued to the applicant shall also show said total gross weight for which said vehicle is registered. A copy of said receipt shall be carried at all times on any such vehicle while same is upon the public highway.

The copy of the registration license receipt above required shall be admissible in evidence in any cause in which the gross registered weight of such vehicle is an issue, and shall be prima facie evidence of the gross weight for which such vehicle is registered. Such copy of the registration license receipt shall be displayed to any officer authorized to enforce this Act, upon request by such officer.

The driver, owner operator, or other person operating or driving such vehicle, failing to comply with this provision of this Act, shall be guilty of a misdemeanor and upon conviction shall be fined in any sum not exceeding Two Hundred ($200.00) Dollars.

Exception to Limitation on Weight

Sec. 5a. Notwithstanding other provisions of the statutes governing the weight of motor vehicles which may be operated over, on, and upon the highways and roads of this state, it shall be lawful to operate motor vehicles whose total gross weight shall not exceed fifty-eight thousand (58,000) pounds, where such vehicles comply with all other provisions of law excepting only as to their total gross weight and the limitations of weight on axle or group of axles, where such vehicles are used exclusively for transporting fixed load oil field service equipment used in connection with servicing oil and gas wells from the point of origin to well location not more than fifty (50) highway miles distant from such origin.

Sec. 5b. Repealed by Acts 1941, 47th Leg., p. 86, ch. 71, § 2.

Weighing Loaded Vehicles by Inspectors

Sec. 9. Subd. 1. Any License and Weight inspector of the Department of Public Safety, any highway patrolman or any sheriff or his duly authorized deputy, or any municipal police officer in cities with population of 1.5 million or more according to the most recent federal census, having reason to believe that the gross weight or axle load of a loaded motor vehicle is unlawful, is authorized to weigh the same by means of portable or stationary scales furnished or approved by the Department of
Public Safety, or cause the same to be weighed by any public weigher, and to require that such vehicle be driven to the nearest available scales for the purpose of weighing. In the event the gross weight of such vehicle be found to exceed the maximum gross weight authorized by law, plus a tolerance allowance of five per cent (5%) of the gross weight authorized by law, such license and weight inspector, highway patrolman, sheriff or his duly authorized deputy, or any municipal police officer in cities with population of 1.5 million or more according to the most recent federal census, shall demand and require the operator or owner of such motor vehicle to unload such portion of the load as may be necessary to reduce the gross weight thereof to such lawful maximum and such vehicle may not be operated further over the public highways or roads of the State of Texas until the gross weight of such vehicle has been reduced to a weight not in excess of the maximum limit plus such tolerance allowance. In the event the axle load of any such vehicle be found to exceed the maximum authorized by law, plus a tolerance allowance of five per cent (5%) of the axle load authorized by law, such officer shall demand and require the operator or owner thereof to rearrange his cargo, if possible, to bring such vehicle and load within the maximum axle load authorized by law, and if this cannot be done by rearrangement of said cargo, then such portion of the load as may be necessary to decrease the axle load to the maximum authorized by law plus such tolerance allowance shall be unloaded before such vehicle may be operated further over the public highways or roads of the State of Texas. Provided, however, that if such load consists of livestock, then such operator shall be permitted to proceed to destination without being unloaded provided destination be within the State of Texas.

It is further provided that in the event the gross weight of the vehicle exceeds the registered gross weight, the License and Weight Inspector, State Highway Patrolman or Sheriff or his duly authorized Deputy, or any municipal police officer in cities with population of 1.5 million or more according to the most recent federal census, shall require the operator or owner thereof to apply to the nearest available County Tax Assessor-Collector for additional registration in an amount that will cause his gross registration to be equal to the gross weight of the vehicle. Provided such total registration shall not exceed gross weight allowed for such vehicle, before such operator or owner may proceed. Provided, however, that if such load consists of livestock or perishable merchandise then such operator or owner shall be permitted to proceed with his vehicle to the nearest practical point in the direction of his destination where his load may be protected from damage or destruction in the event he is required to secure additional registration before being allowed to proceed. It shall be conclusively presumed and deemed prima facie evidence that where an operator or owner is apprehended and found to be carrying a greater gross load than that for which he is licensed or registered, he has been carrying similar loads from the date of purchase of his current license plates and will therefore be required to pay for the additional registration from the date of purchase of such license. Provided further that when an operator or owner is required to purchase additional registration in a county other than the county in which the owner resides, the Tax Assessor-Collector of such county shall remit the fees collected for such additional registration to the State Highway Department. It shall be the duty of the State Highway Department, and the necessary funds are hereby appropriated, to remit the counties' portion of such fees collected to the county of the residence of the owner and it is provided further that the provisions of this Section will in no way conflict with Article 6675a, Section 2, of the Revised Civil Statutes.

It is further provided that all forms and accounting procedure necessary to carry out the provisions of this Section shall be prescribed by the State Highway Department.

Subd. 2. Except inside the limits of incorporated cities over 1.5 million in population, the officers named in Subdivision 1 of this section are the only officers authorized to enforce the provisions of this Act. The officers have exclusive authority to enforce all weight limitations for a vehicle on a state-maintained public highway.

Subd. 3. It shall be unlawful for any of the persons, officers or deputies authorized to enforce the weighing and unloading provisions of this Act, to accept or agree to accept any gift, emolument, money or thing of value, privilege or the promise of either, from any person, firm, corporation, association, partnership, or the officers, agents, servants, or employees thereof as an inducement to enforce or attempt to enforce the weighing and unloading provisions of this Act. Any person who violates the provisions of this Section shall be guilty of a felony and upon conviction shall be punished as provided in Article 159, Penal Code of Texas.2

Subd. 4. It shall be unlawful for any person, firm, corporation, association, partnership, or the officers, agents, servants or employees thereof, to give, or offer to give or promise to give to any of the persons, officers or deputies authorized to enforce the weighing and unloading provisions of this Act, any gift, emolument, money or thing of value, privilege, or the promise of either, as an inducement to enforce or attempt to enforce the weighing and unloading provisions of this Act. Any person who violates the provisions of this Section shall be guilty of a felony and upon conviction shall be punished as provided in Article 158, Penal Code of Texas.2
Provided, however, if a corporation shall be convicted of a violation of any of the provisions of this Section the penalty shall be a fine of not less than One Hundred Dollars ($100) nor shall be a fine of not more than Five Thousand Dollars ($5,000) for each such offense.

Subd. 5. The prohibitions in Subdivisions 3 and 4 above shall not apply to the regular compensation paid to such persons or officers by the State or a county of this State.

Subd. 6. Notwithstanding Subdivision 1 of Section 6 of this Act, the operator or the owner of a motor vehicle loaded with timber or pulp wood or agricultural products in their natural state being transported from the place of production to the place of market or first processing, the operator or owner of a vehicle crossing a highway as provided by Section 5% of this Act, or the operator or owner of a vehicle crossing a highway as provided by Section 5% of this Act, is not required to unload any portion of his load.

1 See subd. 6 of this section.
2 Repealed: see, now, Penal Code, § 26.02.

Length of Connections Between Vehicles

(b) The drawbar or other connection between any two vehicles, one of which is towing or drawing the other on a highway, shall not exceed twenty (20) feet in length from one vehicle to the other.

Equipment With Lights, Brakes, Etc.

A motor vehicle requiring clearance lights hereunder may, in lieu of such clearance lights, be equipped with adequate reflectors conforming as to color and marginal location to the requirements for clearance lights. No such reflector shall be deemed adequate unless it is so designed, located as to height and maintained as to be visible for at least two hundred (200) feet when opposed by the light of a motor vehicle displaying lawful undimmed headlights at night on an unlighted highway. Reflectors herein referred to must be approved by the Department as to specifications before they can be lawfully used on a vehicle, and it shall be unlawful and constitute a misdemeanor to use a reflector on a motor vehicle unless it has been approved by the Department, and such approval by the Department shall be firmly affixed to such reflector.

All vehicles not heretofore by law required to be equipped with specified lighted lamps shall carry one or more lighted lamps or lanterns displaying a white light visible under normal atmospheric conditions from a distance of not less than five hundred (500) feet to the front of such vehicle and displaying a red or yellow light visible under like conditions from a distance of not less than five hundred (500) feet to the rear of such vehicle, which light shall be kept lighted while the vehicle is upon a highway from one-half hour after sunset to one-half hour before sunrise. Provided, however, that vehicles drawn by animal power may in lieu of such lamps or lanterns be equipped with adequate reflectors.

Every owner, driver or operator of a vehicle while it is upon the main traveled portion of the highway during the period from one-half hour after sunset to one-half hour before sunrise, and at any other time when there is not sufficient light to render clearly discernible any person upon the highway from a distance of at least two hundred (200) feet ahead, shall keep lighted all lamps or lighting devices with which such vehicle is required to be equipped, whether the vehicle is in motion or not.

It shall be unlawful for any person to operate or move any vehicle upon a highway with a red light thereof visible directly from the front thereof, except, that this provision shall not apply to law enforcement officers, fire departments, and ambulances.

Every member vehicle other than a motorcycle when operated upon the highway shall be equipped with brakes adequate to control the movement of the same, to stop and to hold such vehicle, including two separate means of applying the brakes, each of which means shall be effective to apply the brakes to at least two wheels. If these two separate means of applying the brakes are connected in any way, they shall be so constructed that failure of any one part of the operating mechanism shall not leave the motor vehicle without brakes on at least two wheels. Any motor vehicle or combination of motor vehicles, trailer, or semitrailer or other vehicle, shall be equipped with brakes upon one or more of such vehicles adequate to stop such combination of vehicles in dry weather upon a reasonably level surface within a distance of forty-five (45) feet from the spot where such brakes are first applied when such vehicle or combination of vehicles are traveling at a rate of speed of twenty (20) miles per hour.

Every motor vehicle when operated upon a highway shall be equipped with a horn in good working order capable of emitting sounds audible under normal conditions for a distance of not less than two hundred (200) feet, and it shall be unlawful for any vehicle to be equipped with or for any person to use
upon a vehicle any bell, siren, compression or exhaust whistle or for any person at any time to use a horn otherwise than as a reasonable warning or to make any unnecessary or unreasonably loud or harsh sound by means of a horn or other warning device, except that vehicles operated in the performance of duty by law enforcement officers, fire departments and ambulances may attach and use a bell, siren, compression or exhaust whistle.

Every motor vehicle engaged in the transportation of passengers for hire or lease shall be equipped with at least one quart of chemical type fire extinguisher in good condition and conveniently located for immediate use.

Except as otherwise provided herein, it shall be unlawful for any person to operate or permit to be operated any commercial motor vehicle for hire or lease upon the highways of this State without first having obtained a chauffeur's license as provided in Article 6687 of the Revised Civil Statutes of Texas, 1925; and provided further, however, the driver or operator of such vehicle who has secured a driver's license under the provisions of any other statute of this State, shall not be required to secure the chauffeur's license under Article 6687 of the Revised Civil Statutes of Texas, 1925.

Section 9-e. Acts 1941, 47th Leg., ch. 71, § 5, formerly classified as § 9-e of Vernon's Ann.P.C. (1925) art. 827a (now this article), was amended in part by Acts 1983, 68th Leg., p. 4764, ch. 837, § 3, to read as set out below.

Whenever any peace officer or license and weight inspector of the Department finds a vehicle standing upon a highway in violation of the provisions of this section, he is hereby authorized to move such vehicle or require the driver or person in charge of such vehicle to move such vehicle to a position permitted under this section.

Sec. 4. This Act does not authorize the operation on the national system of interstate and defense highways in this state of vehicles of a size or weight greater than authorized in Title 23, United States Code, Section 127, as amended. If the United States government authorizes the operation on the national system of interstate and defense highways of vehicles of a size or weight greater than those authorized on January 1, 1977, the new limits automatically shall be in effect on the national system of interstate and defense highways in this state.

Art. 6701d-13. Length of Vehicles Transporting Poles, Piling or Unrefined Timber

Sec. 1. (a) Notwithstanding other provisions of the statutes governing the length of motor vehicles and combinations thereof which may be operated over the highways and roads and except as provided by Subsection (b) of this section, it shall be lawful to
operate such vehicles and combinations not to exceed ninety (90) feet in length including the load where such vehicles and combinations are used exclusively for transporting poles, piling or unrefined timber from the point of origin of such timber (the forest where such timber is felled) to a wood processing mill. No such vehicles and combinations as covered by the provisions of this Act shall be permitted to travel in excess of one hundred and twenty-five (125) miles from their point of origin to destination or delivery point.

Art. 6701d-16

Movement of Oversize or Overweight Oil Well Servicing and Drilling Machinery

Purpose of Act

Sec. 1. The provisions of this Act shall be cumulative of all other laws regulating the operation of vehicles and the movement of machinery on the highways of this state, it being the express intent of this Act to provide an optional procedure for the issuance of permits for the movement of oversize or overweight oil well servicing and/or oil well drilling machinery and equipment.

Permits: Designation of Routes

Sec. 2. When any person, firm or corporation, desires to operate over any road or highway under the jurisdiction of the State Highway Department any vehicle which is a piece of fixed load mobile machinery or equipment used for the purpose of servicing, cleaning out, or drilling oil wells, and when such vehicle cannot comply with one or more of the restrictions set out in Sections 3 and 5 of Acts 1929, 41st Legislature, 2nd Called Session, Chapter 42, page 72, as amended (Article 827a, Vernon's Annotated Penal Code), 1 the State Highway Department may, as an alternative to any other procedure authorized by law, upon application, issue a permit for the movement of such vehicle, when the Department is of the opinion that the same may be moved without material damage to the highway or serious inconvenience to highway traffic. Provided, however, that all cities and towns having a state highway within their limits may designate to the State Highway Department the route within the city or town to be used by said vehicles operating over the state highway. When so designated, the route shall be shown on all maps routing said vehicles by the State Highway Department. In the event a route is not so designated by a city or town, the State Highway Department shall determine the route on state highways for such vehicles within cities or towns. No fee, permit or license shall be required by any city or town for movement of said vehicles on the route of a state highway designated by the State Highway Department or on said special route designated by a city or town.

1 Transferred; see, now, article 6701d-11, §§ 3, 5.

Necessity of Registration of Vehicles

Sec. 3. Prior to issuing any permit for the movement of such vehicles, said vehicles must have been registered under Acts, 1929, 41st Legislature, 2nd Called Session, Chapter 88, as amended (Article 6675a, Vernon's Annotated Civil Statutes) 2 for the maximum gross weight applicable to such vehicles under Section 5, Acts, 1929, 41st Legislature, 2nd Called Session, Chapter 42, page 72, as amended (Article 827a, Vernon's Penal Code), 3 or shall have the distinguishing license plates as provided in Paragraph (e) of Section 2, Acts 1929, 41st Legislature, 2nd Called Session, Chapter 88, as added by Acts, 1961, 57th Legislature, Regular Session, Chapter 259, page 554, as amended, 4 if applicable to said vehicles.

1 See article 6675a-1 et seq.
2 Transferred; see, now, article 6701d-11, § 5.
3 Article 6675a-2, par. (c).
4 See article 6675a-1 et seq.

Rules and Regulations; Forms and Procedures; Violations; Fees

Sec. 4. The State Highway Commission shall formulate rules and regulations regarding the issuance of such permits including, but not limited to, the forms and procedures to be used in applying for same; conditions with regard to route and time of movement and special requirements as to flags, flagmen and warning devices; the fees to be collected and deposited in the State Highway Fund; whether a particular permit shall be for one trip only, or for a period of time to be established by the Commission; and such other matters as the Commission may deem necessary to carry out the provisions of the Act. The failure of an owner or his representative to comply with any rule or regulation of the Commission or with any condition placed on his permit shall render the permit void and, immediately upon such violation, any further movement over the highways of the oversize or overweight vehicles, shall be in violation of existing laws regulating the size and weight of vehicles on public highways.

It is recognized that the movement of such overweight and oversize vehicles is a privilege not accorded to every user of the highway system, and it is logical and proper that the fees to be charged for special transportation permit be sufficient to provide that the permittee pay the administrative costs incurred in the processing and issuing of the permits, pay for the added wear on the highways in proportion to the reduction of service life, and for the special privilege of transporting a more hazardous load over the highways thus compensating for the economic loss to the operators of vehicles in regular operation due to necessary delays and inconveniences occasioned by these types of vehicle movements. It is, therefore, declared to be the policy of the Legislature that in formulating such rules and regulations and in establishing such fees, the Commission shall consider and be guided by:

a. The state's investment in its highway system;

b. The safety and convenience of the general traveling public;

c. The amount of registration or license fee previously paid on the vehicle for which the permit is desired, and the amount of such fees paid by vehicles operating within legal limits; and

d. The suitability of roadways and sub-grades on the various classes of highways of the system, variation in soil grade prevalent in the different regions of the state and the seasonal effects on highway load capacity as well as the highway shoul-
under design and other highway geometrics and the load capacity of the highway bridges.

DAMAGES TO HIGHWAYS

Sec. 5. The issuance of a permit for an oversize or overweight movement shall not be a guarantee by the Department that the highways can safely accommodate such movement, and the owner of any vehicle involved in any oversize or overweight movement, whether with or without permit, shall be strictly liable for any damage such movement shall cause the highway system or any of its structures or appurtenances.

Determination as to Whether Vehicle Subject to Registration; License Plates

Sec. 6. With respect to oil well servicing, oil well clean out, and/or oil well drilling machinery or equipment, the State Highway Department may, if determined by it to be necessary or expedient for the proper administration of the laws of this state regarding the registration and licensing of motor vehicles, establish criteria for determining whether a vehicle of the specific type described in this Section is subject to registration under Article 6675a, Revised Civil Statutes, or eligible for the distinguishing license plate provided for in Paragraph (c) of Section 2, Acts 1929, as amended, and on the basis of such criteria, said Department is authorized to determine whether such vehicle is or is not subject to registration under Article 6675a. Provided, however, that no vehicle heretofore authorized by the State Highway Department to operate without registration under the provisions of Article 6675a shall hereafter be required to register under the provisions thereof. For all purposes under this Section 6 of this Act, oil well servicing, oil well clean out and oil well drilling machinery or equipment shall mean only those vehicles constructed as a machine used solely for servicing, cleaning out, and/or drilling oil wells, and consisting in general of a mast, an engine for power, a draw works and a chassis permanently constructed or assembled for such purpose or purposes.

Application of Act

Sec. 7. Nothing in this Act shall be construed to include or apply to any person, firm or corporation authorized by the Railroad Commission of Texas to operate as a carrier for compensation or hire over the public highways of this state, whether or not all the operations of such person, firm or corporation are performed under such certificate, permit or authority granted by the Commission.

ART. 6701D-17. LENGTH OF VEHICLES TRANSPORTING POLES OR PIPE

Sec. 1. (a) Notwithstanding other provisions of the statutes governing the length of motor vehicles and combinations thereof and provisions of the statutes controlling the distance which a load may extend beyond the front or rear of a vehicle or combination of vehicles which may be operated over the highways and roads except as provided by Subsection (b) of this section, it shall be lawful to operate such vehicles and combinations thereof where the combined length of the vehicle or vehicles and its load does not exceed sixty-five (65) feet in length and where such vehicles or combinations thereof are used exclusively for the transportation of poles or pipe.

(b) The length limitation in Subsection (a) of this section does not apply to a truck-tractor or truck-tractor combination transporting poles or pipe.

Sec. 2. Such vehicles may be operated only between the hours of sunrise and sunset as defined by law and there shall at all times be displayed at the extreme rear end of the load carried on such vehicles a red flag or cloth not less than twelve (12) inches square and so hung that the entire area is visible to the driver of a vehicle approaching from the rear.

Sec. 3. The width, height, length and weight of each vehicle or combination thereof shall conform to the requirements of Article 827a, Revised Penal Code of Texas, and nothing in this Act shall be construed to repeal any other provisions of the statutes other than the necessity to secure a permit from the Texas Highway Department to operate a combination of vehicles hauling pipe or poles.

1Transferred; see, now, article 6701d-11.

Section 7 of the 1983 amendatory act provides:

"A person who violated a length limitation for a motor vehicle before the effective date of this Act is subject to the law in effect when the violation occurred, and the former law is continued in effect for that purpose."

ART. 6701D-18. SPECIAL PERMITS FOR UNLADEN LIFT EQUIPMENT EXCEEDING WEIGHT AND WIDTH LIMITS

Notwithstanding other provisions of the statutes governing the weight and width of motor vehicles which may be operated over the highways and roads of Texas, the State Highway Department may, on application, issue annual permits for a fee of $50 each to authorize the movement of unladen lift equipment motor vehicles which because of their design for use as lift equipment exceed the maximum weight and width limitations prescribed by statute.

Sec. 1. The Nonresident Violator Compact of 1977 is adopted by this state and entered into with all other jurisdictions adopting the compact in form substantially as follows:

"NONRESIDENT VIOLATOR COMPACT OF 1977"

"Art. I. FINDINGS, DECLARATION OF POLICY, AND PURPOSE"

"(a) The party jurisdictions find that:

"(1) In most instances, a motorist who is cited for a traffic violation in a jurisdiction other than his home jurisdiction:

"(i) Must post collateral or bond to secure appearance for trial at a later date; or

"(ii) If unable to post collateral or bond, is taken into custody until the collateral or bond is posted; or

"(iii) Is taken directly to court for his trial to be held.

"(2) In some instances, the motorist's driver's license may be deposited as collateral to be returned after he has complied with the terms of the citation.

"(3) The purpose of the practices described in paragraphs (1) and (2) above is to ensure compliance with the terms of a traffic citation by the motorist who, if permitted to continue on his way after receiving the traffic citation, could return to his home jurisdiction and disregard his duty under the terms of the traffic citation.

"(4) A motorist receiving a traffic citation in his home jurisdiction is permitted, except for certain violations, to accept the citation from the officer at the scene of the violation and to immediately continue on his way after promising or being instructed to comply with the terms of the citation.

"(5) The practice described in paragraph (1) above causes unnecessary inconvenience and, at times, a hardship for the motorist who is unable at the time to post collateral, furnish a bond, stand trial, or pay the fine, and thus is compelled to remain in custody until some arrangement can be made.

"(6) The deposit of a driver's license as a bail bond, as described in paragraph (2) above, is viewed with disfavor.

"(7) The practices described herein consume an undue amount of law enforcement time.

"(b) It is the policy of the party jurisdictions to:

"(1) Seek compliance with the laws, ordinances, and administrative rules and regulations relating to the operation of motor vehicles in each of the jurisdictions.

"(2) Allow motorists to accept a traffic citation for certain violations and proceed on their way without delay whether or not the motorist is a resident of the jurisdiction in which the citation was issued.

"(3) Extend cooperation to its fullest extent among the jurisdictions for obtaining compliance with the terms of a traffic citation issued in one jurisdiction to a resident of another jurisdiction.

"(4) Maximize effective utilization of law enforcement personnel and assist court systems in the efficient disposition of traffic violations.

"(c) The purpose of this compact is to:

"(1) Provide a means through which the party jurisdictions may participate in a reciprocal program to effectuate the policies enumerated in paragraph (b) above in a uniform and orderly manner.

"(2) Provide for the fair and impartial treatment of traffic violators operating within party jurisdictions in recognition of the motorist's right of due process and the sovereign status of a party jurisdiction.

"Art. II. DEFINITIONS"

"(a) In the Nonresident Violator Compact, the following words have the meaning indicated, unless the context requires otherwise.

"(b) Personal recognizance is acceptable only if not prohibited by law. If mandatory appearance is required, it must take place immediately following issuance of the citation.

"(c) Upon failure of a motorist to comply with the terms of a traffic citation, the appropriate official shall report the failure to comply to the licensing authority of the jurisdiction in which the traffic citation was issued. The report shall be made in accordance with procedures specified by the issuing jurisdiction and shall contain information as specified in the Compact Manual as minimum requirements for effective processing by the home jurisdiction.

"(g) The licensing authority of the issuing jurisdiction shall not transmit a report on any violation where the date of issuance of the citation predates the most recent of the effective dates of entry for the two jurisdictions affected.

"Art. IV. PROCEDURE FOR HOME JURISDICTION

"(a) Upon receipt of a report of a failure to comply from the licensing authority of the issuing jurisdiction, the licensing authority of the home jurisdiction shall notify the motorist and initiate a suspension action, in accordance with the home jurisdiction's procedures, to suspend the motorist's driver's license until satisfactory evidence of compliance with the terms of the traffic citation has been furnished to the home jurisdiction licensing authority. Due process safeguards will be accorded.

"(b) The licensing authority of the home jurisdiction shall maintain a record of actions taken and make reports to issuing jurisdictions as provided in the Compact Manual.

"Art. V. APPLICABILITY OF OTHER LAWS

"Except as expressly required by provisions of this compact, nothing contained herein shall be construed to affect the right of any party jurisdiction to apply any of its other laws relating to licenses to drive to any person or circumstance, or to invalidate or prevent any driver license agreement or other cooperative arrangement between a party jurisdiction and a nonparty jurisdiction.

"Art. VI. COMPACT ADMINISTRATOR PROCEDURES

"(a) For the purpose of administering the provisions of this compact and to serve as a governing body for the resolution of all matters relating to the operation of this compact, a Board of Compact Administrators is established. The board shall be composed of one representative from each party jurisdiction to be known as the compact administrator. The compact administrator shall be appointed by the jurisdiction executive and will serve and be subject to removal in accordance with the laws of the jurisdiction he represents. Administration of Act; Appeal to Court; Stay Order; Proof of Financial Responsibility; Maintaining Proof With Department

Sec. 2. (a) The Department shall administer and enforce the provisions of this Act and may make rules and regulations necessary for its administration, and shall provide for hearings upon request of persons aggrieved by orders or acts of the Department under the provisions of this Act.

(b) Any order or act of the Department, under the provisions of this Act, may be subject to review within thirty (30) days after notice thereof, or thereafter for good cause shown, by appeal to the County Court at Law at the instance of any party in interest and in the county wherein the person aggrieved by such order or act resides, or if there be no County Court at Law therein, then in the County Court of said county, or if there be no County Court having jurisdiction, then such jurisdiction shall be in the District Court of said county, and such Court is hereby vested with jurisdiction, and such appeal shall be by trial de novo. The Court shall determine whether the filing of the appeal shall operate as a stay of any such order or decision of the Department, with the exception that no stay order shall be granted staying an order of suspension by the Department of Public Safety that is based on a final judgment rendered against any person in this State by a court of competent jurisdiction growing out of the use of a motor vehicle in this State when said judgment is a subsisting final judgment and unsatisfied; further, an appeal shall not operate as a stay of any such order or decision of the Department of Public Safety where the aggrieved party was involved in an accident involving a motor vehicle which he was operating if he was charged with a violation of any of the laws of the State of Texas, or any of its political subdivisions, and said complaint or indictment is pending at the time the appeal from an order or decision of the Department of Public Safety is filed, unless the aggrieved party shall file proof of financial responsibility with the Department of Public Safety as a condition precedent to the obtaining of said stay and maintain said proof of financial responsibility until dismissal of said complaint or indictment or for such period of time as provided for in Section 3(d) of this Act. If the aggrieved party shall at the time of said appeal in lieu of proof of financial responsibility file with the court and the Department of Public Safety an affidavit setting forth specific facts which would entitle the aggrieved party to an acquittal of the complaint or indictment filed against the aggrieved party, he shall be entitled to a temporary stay of the order of the Department of Public Safety without the necessity of filing proof of financial responsibility. Upon the filing of such affidavit, the cause shall be set upon the court’s docket in said Court where said complaint or indictment is pending and if the same is not tried within forty-five (45) days from the date of filing of such complaint or indictment, shall thereafter be subject to transfer to such county or District Court of an adjoining county upon the filing of a motion thereof by the aggrieved party. If within ninety (90) days from the date of the original suspension or order by the Department of Public Safety, the Department has not received a certified copy of a judgment of the court acquitting the aggrieved party, the Department of Public Safety shall again order the driver’s license and the registrations of all motor vehicles registered in the aggrieved party’s name suspended and from this said order of the Department of Public Safety, no appeal shall operate as a stay unless the aggrieved party files with the Department of Public Safety, as an absolute condition precedent to the obtaining of a stay, proof of financial responsibility and maintain said proof of financial responsibility until said complaint or indictment has been dismissed or if the aggrieved party has pled guilty or been convicted for the period of time provided for in Section 2(d) of this Act. Upon the disposition of said complaint or indictment either by a plea of guilty or final conviction, the aggrieved party who shall have pled guilty or been finally convicted and has previously filed
shall also fully designate the motor vehicles, if any, for which the State, or of any of the political subdivisions shall be responsible upon proper application.

The substantial evidence rule shall not be invoked or applied, but the same shall be tried without regard to precedent to the obtaining of a stay of any order or decision of the Department of Public Safety with the Department of Public Safety as a condition precedent to the obtaining of a stay from any order or decision of the Department of Public Safety, and prior filing of proof of financial responsibility with the Department of Public Safety as a condition precedent to obtaining a stay from an order or decision of the Department of Public Safety, may be withdrawn. The above provision restricting the granting of a stay order in appeals where the aggrieved party has been charged with the violation of any of the laws of the State of Texas or of any of the political subdivisions shall also limit any court in this State in any original action brought against the Department of Public Safety to enjoin or order the enforcement of any order of the Department of Public Safety issued under this Act.

(c) Trial in the court shall be de novo, with the burden of proof upon the Department, and the substantial evidence rule shall not be invoked or apply, but the same shall be tried without regard to any prior holding of fact or law by the Department, and judgment entered only upon the evidence offered at the trial by the Court. A trial by jury may be had upon proper application.

(d) Whenever a person has been convicted or pleads guilty to a violation of any of the laws of the State of Texas, or its political subdivisions, growing out of a motor vehicle accident, as specified in Section 2(b) of this Act, and said party is required to file proof of financial responsibility as a condition precedent to the obtaining of a stay from any order or decision of the Department of Public Safety, said party shall have the burden of proof of financial responsibility shall be maintained with said Department of Public Safety by said party for a period of three (3) years from date of final conviction or plea of guilty.

Department to Furnish Operating Record

Sec. 3. The Department shall, upon request and receipt of proper fees, furnish any person a certified abstract of the operating record of any person subject to the provisions of this Act, which abstract shall also fully designate the motor vehicles, if any, registered in the name of such person, and, if there shall be no record of any conviction of such person of violating any law relating to the operation of a motor vehicle or of any injury or damage caused by such person, the Department shall so certify.

ARTICLE III—SECURITY FOLLOWING ACCIDENT

Report Required Following Accident

Sec. 4. The operator of every motor vehicle which is in any manner involved in an accident within the State not investigated by a law enforcement officer, in which any person is killed or injured or in which damage to the property of any one person, including himself, to an apparent extent of at least Two Hundred Fifty Dollars ($250.00) is sustained, shall within ten (10) days after such order or decision of the Department of Public Safety, and prior filing of proof of financial responsibility with the Department of Public Safety, shall be sufficient provided it also contains the information required herein. The Department may rely upon the accuracy of the information unless and until it has reason to believe that the information is erroneous. If such operator be physically incapable of making such report, the owner of the motor vehicle involved in such accident shall, within ten (10) days after learning of the accident, make such report. The operator or the owner shall furnish such additional relevant information as the Department shall require.

Non-domiciliary of U.S.; Proof of Financial Responsibility; Impounding Vehicle

Sec. 4A. (a) Any motor vehicle operator who is not domiciled within the United States and who operates a vehicle which is in any manner involved in an accident within the State of Texas in which any person is killed or injured or in which damage to the property of any one person, not including himself, to an apparent extent of at least One Hundred Dollars ($100.00) is sustained shall be taken immediately before a magistrate and there shall present proof of financial responsibility.

(b) If a person does not present proof of financial responsibility in accordance with Subsection (a), the magistrate shall enter an order directing the Department to impound the vehicle operated by the foreign domiciliary. The Department shall hold the vehicle until:

(1) a cash bond, in an amount to be determined by the magistrate, has been posted with the Department;
Sec. 5. (a) If twenty (20) days after the receipt of a report of a motor vehicle accident within this State which has resulted in bodily injury or death, or damage to the property of any one person of at least Two Hundred Fifty Dollars ($250), the Department shall determine the amount of security which shall be sufficient in its judgment, and in no event less than Two Hundred Fifty Dollars ($250), to satisfy any judgment or judgments for damages resulting from such accident as may be recovered against each operator or owner.

(b) The Department shall, subject to the provisions of Subsection (c) of this section, suspend the license and all registrations of each operator and owner of a motor vehicle in any manner involved in such accident, if there is found to be a reasonable probability of a judgment being rendered against the person as a result of the accident. The Department shall determine the amount of security which shall be sufficient in its judgment, and in no event less than Two Hundred Fifty Dollars ($250) to satisfy any judgment or judgments for damages resulting from such accident as may be recovered against each operator or owner.

(2) a release has been executed by the other party or parties to the accident and the release is filed with the Department; or

(3) the Department receives certification of the entry of a final judgment of liability in the accident from a court of record.

Security; Determination of Amount; Suspension of License and Registrations; Notice; Exception

If, after a hearing, the determination is that there is a reasonable probability of a judgment being rendered against the person requesting the hearing as a result of the accident, but in no event less than Two Hundred Fifty Dollars ($250), that may be recovered against each operator or owner.

Before suspension of a license, registration, or privilege, the Department must find that there is a reasonable probability of a judgment being rendered against the person as a result of the accident and the amount of security that must be deposited. For this purpose it may consider the report of the investigating officer, the accident reports of all parties involved, and any affidavits of persons having knowledge of the facts. Notice of the determination by the Department shall be served personally on the person or mailed by certified mail, return receipt requested, to the affected person's last known address, as shown by the records of the Department. The notice shall specify that the license to operate a motor vehicle and the registration, or nonresident's operating privilege, will be suspended unless the person, within twenty (20) days after personal service or the mailing of the notice, establishes that the provisions of this section are not applicable to him and that he has previously furnished such information to the Department or that there is no reasonable probability of a judgment being rendered against him as a result of the accident. The notice shall recite that the person to whom it is addressed is entitled to a hearing as provided in this Act if a written request for a hearing is delivered or mailed to the Department within twenty (20) days after personal service or the mailing of the notice. The person's license to operate the vehicle and his registration or nonresident's operating privilege may not be suspended pending the outcome of the hearing and any appeal.

If a hearing is requested, the Department shall summon the person requesting the hearing to appear for the hearing as provided in this subsection. The hearing shall be held not less than ten (10) days after notice is given to the person requesting the hearing and written charges shall be made and a copy given to the person requesting the hearing at the time he is given the hearing notice. Jurisdiction for the hearing is vested in the judge of a police court, or a justice of the peace in the county and precinct in which the person requesting the hearing resides. The hearing officer may receive a fee for hearing these cases if the fee is approved by the commissioners court of the county of jurisdiction, but the fee may not be more than Five Dollars ($5) a case and shall be paid from the general revenue fund of the county. The hearing officer may administer oaths and may issue subpoenas for the attendance of witnesses and the production of books and papers. It shall be the duty of the court to set the matter for hearing upon ten (10) days written notice to the Department. Such proceeding shall have precedence over all other matters of a different nature, and shall be tried before the judge within fifteen (15) days from the filing thereof, and neither party shall be entitled to a jury. At the hearing, the issues to be determined are whether there is a reasonable probability of a judgment being rendered against the person requesting the hearing as a result of the accident and, if so, the amount of security that will be sufficient to satisfy any judgment or judgments for damages resulting from the accident, but in no event less than Two Hundred Fifty Dollars ($250) that may be recovered from the person requesting the hearing. The officer who presides at the hearing shall report the findings in the case to the Department. Notice as required by this paragraph shall be served personally on the person or mailed by certified mail, return receipt requested, to the person's last known address, as shown by the records of the Department.

If, after a hearing, the determination is that there is a reasonable probability of a judgment being
rendered against the person as a result of the accident, the person may appeal the findings to the court of the county in which the hearing was held and the appeal shall be de novo.

If a written request for a hearing is not delivered or mailed to the Department within twenty (20) days after personal service or the mailing of notice and the person has not established within that time that the provisions of this section do not apply to him or if within twenty (20) days after a hearing and exhaustion of the appeal procedure, if an appeal is made in which the decision is against the person requesting the hearing, security and proof of financial responsibility are not deposited with the Department, the Department shall suspend the person's license to operate a motor vehicle, the vehicle registration, or nonresident's operating privilege until the person complies with the provisions of this Act.

Notice of such suspension shall be sent by the Department to such operator and owner not less than ten (10) days prior to the effective date of such suspension and shall state the amount required as security and the necessity for proof of financial responsibility. Where erroneous information is given the Department with respect to the matters set forth in subdivisions 2, 3, and 4 of Subsection (c) of this Section, it shall take appropriate action as hereinafter provided, within sixty (60) days after receipt by it or correct information with respect to said matters.

The determination by the Department or by a person presiding at a hearing of the question of whether there is a reasonable probability of a judgment being rendered against a person as a result of an accident may not be introduced in evidence in any civil suit for damages arising from the accident.

(c) This section shall not apply under the conditions stated in Section 6 nor:

1. To a motor vehicle operator or owner against whom the Department or a person presiding at a hearing finds there is not a reasonable probability of a judgment being rendered as a result of the accident;

2. To such operator or owner if such owner had in effect at the time of such accident a motor vehicle liability policy with respect to the motor vehicle involved in such accident;

3. To such operator, if not the owner of such motor vehicle, if there was in effect at the time of such accident a motor vehicle liability policy or bond with respect to his operation of motor vehicles not owned by him;

4. To any person employed by the government of the United States, when such person is acting within the scope or office of his employment;

5. To such operator or owner if the liability of such operator or owner for damages resulting from such accident is, in the judgment of the Department, covered by any other form of liability insurance policy or bond; nor

6. To any person qualifying as a self-insurer under Section 34 of this Act, or to any person operating a motor vehicle for such self-insurer.

No such policy or bond shall be effective under this section or under Section 7 unless issued by an insurance company or surety company authorized to write motor vehicle liability insurance in this State, except that if such motor vehicle was not registered in this State, or was a motor vehicle which was registered elsewhere than in this State at the effective date of the policy, or the most recent renewal thereof, such policy or bond shall not be effective under this section unless the insurance company or surety company if not authorized to do business in this State shall execute a power of attorney authorizing the Department to accept service on its behalf of notice or process in any action upon such policy or bond arising out of such accident; providing, however, every such policy or bond is subject, if the accident has resulted in bodily injury or death, to a limit, exclusive of interest and costs, as follows: effective January 1, 1984, not less than Fifteen Thousand Dollars ($15,000) because of bodily injury to or death of one person in any one accident and, subject to said limit for one person, to a limit of not less than Thirty Thousand Dollars ($30,000) because of bodily injury to or death of two (2) or more persons in any one accident, and, if the accident has resulted in injury to or destruction of property, to a limit of not less than Twenty Thousand Dollars ($20,000) because of bodily injury to or death of one person in any one accident and, subject to said limit for one person, to a limit of not less than Forty Thousand Dollars ($40,000) because of bodily injury to or death of two (2) or more persons in any one accident, and, if the accident has resulted in injury to or destruction of property, to a limit of not less than Fifteen Thousand Dollars ($15,000) because of injury to or destruction of property of others in any one accident and effective January 1, 1986, not less than Twenty Thousand Dollars ($20,000) because of bodily injury to or death of one person in any one accident, and, subject to said limit for one person, to a limit of not less than Forty Thousand Dollars ($40,000) because of bodily injury to or death of two (2) or more persons in any one accident, and, if the accident has resulted in injury to or destruction of property, to a limit of not less than Fifteen Thousand Dollars ($15,000) because of injury to or destruction of property of others in any one accident.

The policy or bond may exclude coverage of the first Two Hundred Fifty Dollars ($250) of liability for bodily injury to or death of any one person in any one accident, and, subject to that exclusion for one person, may exclude coverage of the first Five Hundred Dollars ($500) of liability for the bodily injury to or death of two (2) or more persons in any one accident and may exclude coverage for the first Five Hundred Dollars ($500) of liability for the bodily injury to or death of two (2) or more persons in any one accident and may exclude coverage for the first Two Hundred Fifty Dollars ($250) of liability for the injury to or destruction of property of others in any one accident.

7. Wherever the word "bond" appears in this section or this Act, it shall mean a bond filed with and approved by the Department of Public Safety.
Further Exceptions to Requirement of Security

Sec. 6. The requirements as to security, proof of financial responsibility and suspension in Section 5 shall not apply:

1. To the operator or the owner of a motor vehicle involved in an accident wherein no injury or damage was caused to the person or property of any one other than such operator or owner;

2. To the operator or the owner of a motor vehicle legally parked or legally stopped at a traffic signal at the time of the accident;

3. To the owner of a motor vehicle if at the time of the accident the vehicle was, being operated without his permission, express or implied, or was parked by a person who had been operating such motor vehicle without such permission; nor

4. If, prior to the date that the Department would otherwise suspend license and registration or nonresident's operating privilege under Section 5, there shall be filed with the Department evidence satisfactory to it that the person, who would otherwise have to file security and proof, has been released from liability or been finally adjudicated not to be liable or has executed a duly acknowledged written agreement providing for the payment of an agreed amount in installments, with respect to all claims for injuries or damages resulting from the accident.

Duration of Suspension

Sec. 7. The license and registration and nonresident's operating privilege suspended as provided in Section 5 shall remain so suspended and shall not be renewed nor shall any such license or registration be issued to such person until:

1. Such person shall deposit and file or there shall be deposited and filed on his behalf the security and proof required under Section 5 and under this Section; or

2. Two (2) years shall have elapsed following the date of such accident and evidence satisfactory to the Department has been filed with it that during such period no action for damages arising out of the accident has been instituted, provided such person files proof of financial responsibility; or

3. Evidence satisfactory to the Department has been filed with it of a release from liability, or a final adjudication of nonliability, or a duly acknowledged written agreement, in accordance with subdivision 4 of Section 6; provided, however, in the event there shall be any default in the payment of any installment under any duly acknowledged written agreement, then, upon notice of such default, the Department shall forthwith suspend the license and registration or nonresident's operating privilege of such person defaulting which shall not be restored unless and until

(a) Such person deposits and thereafter maintains security as required under Section 5 in such amount as the Department may then determine and files proof of financial responsibility; or

(b) Two (2) years shall have elapsed following the date when such security was required and during such period no action upon such agreement has been instituted in a court in this State, provided such person gives proof of financial responsibility.

Reinstatement—Fees

Sec. 7A. Whenever a license or registration, or nonresident's operating privilege is suspended and the filing of proof of financial responsibility is, under this Article, made a prerequisite to reinstatement thereof, or to the issuance of a new license or registration, no such license or registration, or nonresident's operating privilege shall be reinstated or new license or registration shall be issued unless the licensee or registrant or nonresident, in addition to complying with other provisions of this Article, pays to the Department a fee of Ten Dollars ($10) in addition to any other fees which may be required by law. Only one such fee shall be paid by any one person regardless of the number of licenses and registrations to be reinstated for or issued to such person in connection with such payment.

The fees paid pursuant to this Section shall be used by the Department to administer the provisions of this Article.

Application to Non-Residents, Unlicensed Drivers; Unregistered Motor Vehicles and Accidents in Other States

Sec. 8. (a) In case the operator or the owner of a motor vehicle involved in an accident within this State has no license or registration, or is a nonresident, he shall not be allowed a license or registration until he has complied with the requirements of this Article to the same extent that would be necessary if, at the time of the accident, he had held a license and registration.

(b) When a non-resident's operating privilege is suspended pursuant to Section 5 or Section 7, the Department shall transmit a certified copy of the record of such action to the official in charge of the issuance of licenses and registration certificates in the state in which such non-resident resides, if the law of such other state provides for action in relation thereto similar to that provided for in Subsection (e) of this Section.

(c) Upon receipt of certification by the Department that the operating privilege of a Texas resident has been suspended or revoked in another state pursuant to a law providing for its suspension or revocation for failure to deposit security for the payment of judgments arising out of a motor vehicle accident or for failure to file proof of financial responsibility, the Department shall contact the official who issued the certification and request information pertaining to the specific nature of the Texas resident's noncompliance. If the alleged noncompliance is based on the failure of the Texas resi-
dent's insurance company or surety company to obtain authorization to write motor vehicle liability insurance in the other state and for failure of the insurance or surety company to execute a power of attorney directing the appropriate official in the other state to accept service on its behalf of notice or process in any action upon the policy arising out of the accident, then the Department shall not suspend the Texas resident's license and other registrations.

If the evidence shows that the Texas resident's operating privilege was suspended in the other state for any other violation of another state's laws providing for suspension or revocation for failure to deposit security for the payment of judgments arising out of motor vehicle accidents or for failure to file proof of financial responsibility, under circumstances that would require the Department to suspend a nonresident's operating privilege had the accident occurred in this state, then the Department shall suspend the Texas resident's license and registrations. The suspension shall continue until the resident furnishes evidence of his compliance with the law of the other state relating to the deposit of security and proof of financial responsibility.

Form and Amount of Security
Sec. 9. The security required under this Article may be by cash deposit or by bond written by an insurance company duly authorized to execute surety bonds in this State in the amount the Department may require or in such other form and in such amount as the Department may require but in no case less than Two Hundred Dollars ($200) nor in excess of the limits specified in Section 5 in reference to the acceptable limits of a policy. The person depositing security shall specify in writing the person or persons on whose behalf the deposit is made and, at any time while such deposit is in the custody of the Department or the State Treasurer of the State of Texas, the person depositing it may, in writing, amend the specification of the person or persons on whose behalf the deposit is made to include an additional person or persons; provided, however, that a single deposit of security shall be applicable only on behalf of persons required to furnish security because of the same accident and the same motor vehicle.

The Department may reduce the amount of security ordered in any case within six (6) months after the date of the accident if, in its judgment, the amount ordered is excessive. In case the security originally ordered has been deposited the excess deposit over the reduced amount ordered shall be returned to the depositor or his personal representative forthwith, notwithstanding the provisions of Section 10.

Custody, Disposition and Return of Security
Sec. 10. “Cash” security deposited in compliance with the requirements of this Article shall be placed by the Department in the custody of the State Treasurer and shall be applicable only to the payment of a judgment or judgments rendered against the person or persons on whose behalf the deposit was made, for damages arising out of the accident in question in an action at law, begun not later than two (2) years after the date of such accident, or within two (2) years after the date of deposit of any security under Subdivision 3 of Section 7, or to the payment in settlement, agreed to by the depositor, of a claim or claims arising out of such accident. Such deposit or any balance thereof shall be returned to the depositor or his personal representative when evidence satisfactory to the Department has been filed with it that there has been a release from liability, or a final adjudication of nonliability, or a duly acknowledged agreement, in accordance with Subdivision 4 of Section 6, or whenever, after the expiration of two (2) years from the date of the accident, or within two (2) years after the date of deposit of any security under Subdivision 3 of Section 7, the Department shall be given reasonable evidence that there is no such action pending and no judgment rendered in such action left unpaid.

Matters Not to be Evidence in Civil Suits
Sec. 11. Upon the filing of the report required by Section 4, the action taken by the Department pursuant to this Article, the findings, if any, of the Department upon which such action is based, nor the security or proof of financial responsibility filed as provided in this Article shall be referred to in any way, nor be any evidence of the negligence or due care of either party, at the trial of any action at law to recover damages.

ARTICLE IV—PROOF OF FINANCIAL RESPONSIBILITY FOR THE FUTURE
Courts to Report Non-Payment of Judgments and Convictions
Sec. 12. (a) Whenever any person fails within sixty (60) days to satisfy any judgment, upon the written request of the judgment creditor or his attorney it shall be the duty of the clerk of the court, or of the judge of a court which has no clerk, in which any such judgment is rendered within this State, to forward to the Department immediately after the expiration of said sixty (60) days, a certified copy of such judgment.

(b) If the defendant named in any certified copy of a judgment reported to the Department is a non-resident, the Department shall transmit a certified copy of the judgment to the official in charge of the issuance of licenses and registration certificates of the State of which the defendant is a resident.

(c) The clerk of the court, or the judge of a court which has no clerk, in which any conviction for violation of a motor vehicle law is rendered, or in which a person charged with violation of a motor vehicle law has pleaded guilty or forfeited bail, shall forward immediately to the Department a certified copy of the judgment, order or record of other action of the court. This copy shall be prima-facie
Sec. 13. (a) Upon the receipt of a certified copy of a judgment, the Department shall forthwith suspend the license and all registrations and any non-resident's operating privilege of any person against whom such judgment was rendered, except as hereinafter otherwise provided in this Section and in Section 16 of this Act.

(b) If the judgment creditor consents in writing, in such form as the Department may prescribe, that the judgment debtor be allowed license and registration or nonresident's operating privilege, the same may be allowed by the Department, in its discretion, for six (6) months from the date of such consent and thereafter until such consent is revoked in writing, notwithstanding default in the payment of such judgment, or of any installments thereof prescribed in Section 16, provided the judgment debtor furnishes proof of financial responsibility.

(c) Notwithstanding any other provision of this Act any person whose license, registration or non-resident's operating privilege has been suspended, or is about to be suspended or shall become subject to suspension under this Article, may relieve himself from the effect of the judgment by filing with the Department satisfactory evidence that there was in effect at the time of the accident out of which the judgment arose a policy of liability insurance covering the operation of the motor vehicle involved and filing with the Department an affidavit stating that at the time of the accident upon which the judgment has been rendered he was insured, that the insurer is liable to pay such judgment, and the reason, if known, why the insurance company has not paid the judgment. He shall also file the original policy of insurance or a certified copy thereof, if available, and such other documents as the Department may require to show that the loss, injury, or damage for which the judgment was rendered, was covered by the policy of insurance.

If the Department is satisfied from such papers that the insurer was authorized to issue the policy of insurance in this State at the time of issuing the policy and that such insurer is liable to pay such judgment, at least to the extent and for the amounts provided in this Article, the Department shall not suspend the license, registration or nonresident's operating privilege, or if already suspended, shall reinstate them.

Any person whose license, registration or nonresident's operating privilege has heretofore been suspended under the provisions of this Article may take advantage of this Section.

Suspension to Continue Until Judgments Paid and Proof Given

Sec. 14. (a) Such license, registration and nonresident's operating privilege shall remain so suspended and shall not be renewed, nor shall any such license or registration be thereafter issued in the name of such person, including any such person not previously licensed, unless and until every such judgment is stayed, satisfied in full or to the extent hereinafter provided and until the said person gives proof of financial responsibility subject to the exemptions stated in Sections 13 and 16 of this Act.

(b) A discharge in bankruptcy following the rendering of any such judgment shall not relieve the judgment debtor from any of the requirements of this Article.

Payments Sufficient to Satisfy Requirements

Sec. 15. Judgments herein referred to shall, for the purpose of this Act only, be deemed satisfied:

1. When the amount set out in Subdivision (6) of Subsection (c) of Section 5 of this Act for bodily injury to or death of one person in any one accident has been credited upon any judgment or judgments rendered in excess of that amount because of bodily injury to or death of one person as the result of any one accident;

2. When, subject to the limit set out in Subdivision (6) of Subsection (c) of Section 5 of this Act because of bodily injury to or death of one person, the sum set out in Subdivision (6) of Subsection (c) of Section 5 of this Act for bodily injury to or death of two (2) or more persons in any one accident has been credited upon any judgment or judgments rendered in excess of that amount because of bodily injury to or death of two (2) or more persons as the result of any one accident; or

3. When the sum set out in Subdivision (6) of Subsection (c) of Section 5 of this Act for injury to or destruction of property of others in any one accident has been credited upon any judgment or judgments rendered in excess of that amount because of injury to or destruction of property of others as a result of any one accident;

Provided, however, payments made in settlement of any claims because of bodily injury, death or property damage arising from a motor vehicle accident shall be credited in reduction of the amounts provided for in this Section.

Installment Payment of Judgments—Default

Sec. 16. (a) A judgment debtor upon due notice to the judgment creditor may apply to the court in which such judgment was rendered for the privilege of paying such judgment in installments and the court, in its discretion and without prejudice to any other legal remedies which the judgment creditor may have, may so order and fix the amounts and times of payment of the installments.
(b) The Department shall not suspend a license, registration or a non-resident's operating privilege, and shall restore any license, registration or non-resident's operating privilege suspended following non-payment of a judgment, when the judgment debtor gives proof of financial responsibility and obtains such an order permitting the payment of such judgment in installments, and while the payment of any said installment is not in default.

(c) In the event the judgment debtor fails to pay any installment as specified by such order, then upon notice of such default, the Department shall forthwith suspend the license, registration or non-resident's operating privilege of the judgment debtor until such judgment is satisfied, as provided in this Act.

Suspension of Registration for All Vehicles; Duration; Subsequent Proof of Financial Responsibility

Sec. 17. (a) Whenever the Department, under any law of this State, suspends or revokes the license of any person upon receiving record of a conviction or a forfeiture of bail, the Department shall also suspend the registrations for all motor vehicles registered in the name of such person, and whenever the Department shall receive record of a plea of guilty to any offense for which the Department is required to suspend or revoke the license of any person, the Department shall immediately suspend the registrations for all motor vehicles registered in the name of such person, except that the Department shall not suspend any such registrations, unless otherwise required by law, if such person has previously given or shall immediately give and thereafter maintain proof of financial responsibility with respect to all motor vehicles registered by such person.

(b) Whenever the Department under any law of this State, suspends or revokes the license of any person upon receiving record of a conviction or suspends the registrations of any person upon receiving record of a plea of guilty, and such person was not the owner of the motor vehicle used at the time of the violation resulting in the conviction or the plea of guilty, the Department shall also suspend the license and all registrations in the name of the owner of the motor vehicle so used, if such vehicle was operated with such owner's permission or consent at the time of the violation unless such owner has previously given or shall immediately give and thereafter maintain proof of financial responsibility with respect to all motor vehicles registered by such person.

(c) Registrations suspended or revoked under this Section shall remain suspended or revoked and shall not at any time thereafter be renewed nor shall any license be thereafter issued to such person, nor shall any motor vehicle be thereafter registered in the name of such person until permitted under the Motor Vehicle Laws of this State and not then unless and until he shall give and thereafter maintain proof of financial responsibility.

d) If a person is not licensed but by final order or judgment is convicted of or forfeits any bail or collateral deposited to secure an appearance for trial for (or pleads guilty to any such offense) any offense requiring the suspension or revocation of license, or for operating a motor vehicle upon the highways without being licensed to do so, or for operating an unregistered motor vehicle upon the highways, no license shall thereafter be issued to such person and no motor vehicle shall continue to be registered or thereafter be registered in the name of such person until he shall give and thereafter maintain proof of financial responsibility.

(e) Whenever the Department suspends or revokes a nonresident's operating privilege by reason of a conviction, forfeiture of bail or a plea of guilty, such privilege shall remain so suspended or revoked unless such person shall have previously given or shall immediately give and thereafter maintain proof of financial responsibility.

Alternate Methods of Giving Proof

Sec. 18. Proof of financial responsibility when required under this Act with respect to a motor vehicle or with respect to a person who is not the owner of a motor vehicle may be given by filing:

1. A certificate of insurance as provided in Section 19 or Section 20; or
2. A bond as provided in Section 24; or
3. A certificate of deposit of money or securities as provided in Section 25; or
4. A certificate of self-insurance, as provided in Section 34, supplemented by an agreement by the self-insurer that, with respect to accidents occurring while the certificate is in force, he will pay the same judgments and in the same amounts that an insurer would have been obligated to pay under an owner's motor vehicle liability policy if it had issued such a policy to said self-insurer.

No motor vehicle shall be or continue to be registered in the name of any person required to file proof of financial responsibility unless such proof shall be furnished for such motor vehicle.

Certificate of Insurance as Proof

Sec. 19. (a) Proof of financial responsibility may be furnished by filing with the Department the written certificate of any insurance company duly authorized to write motor vehicle liability insurance in this State certifying that there is in effect a motor vehicle liability policy for the benefit of the person required to furnish proof of financial responsibility. Such certificate shall give the effective date of such motor vehicle liability policy, which date shall be the same as the effective date of the certificate, and shall designate by explicit description or by appropriate reference all motor vehicles.
covered thereby, unless the policy is issued to a person who is not the owner of a motor vehicle.

(b) No motor vehicle shall be or continue to be registered in the name of any person required to file proof of financial responsibility unless such motor vehicle is so designated in such a certificate.

Certificate Furnished by Non-Resident as Proof

Sec. 20. (a) The non-resident owner of a motor vehicle not registered in this State may give proof of financial responsibility by filing with the Department a written certificate or certificates of an insurance company authorized to transact business in the State in which the motor vehicle or motor vehicles described in such certificate are registered, or if such non-resident does not own a motor vehicle, then in the state in which the insured resides, provided such certificate otherwise conforms to the provisions of this Act, and the Department shall accept the same upon condition that said insurance company complies with the following provisions with respect to the policies so certified:

1. Said insurance company shall execute a power of attorney authorizing the Department to accept service on its behalf of notice or process in any action arising out of a motor vehicle accident in this State;

2. Said insurance company shall agree in writing that such policies shall be deemed to conform with the terms of motor vehicle liability policies issued herein.

(b) If any insurance company not authorized to transact business in this State, which has qualified to furnish proof of financial responsibility, defaults in any said undertakings or agreements, the Department shall not thereafter accept as proof any certificate of said company whether theretofore filed or thereafter tendered as proof, so long as such default continues.

Motor Vehicle Liability Policy Defined

Sec. 21. (a) A "motor vehicle liability policy" as said term is used in this Act shall mean an owner's or an operator's policy of liability insurance, certified as provided in Section 19 or Section 20 as proof of financial responsibility, and issued, except as otherwise provided in Section 20, by an insurance company duly authorized to write motor vehicle liability insurance in this State, to or for the benefit of the person named therein as insured.

(b) Such owner's policy of liability insurance:

1. Shall designate by explicit description or by appropriate reference all motor vehicles with respect to which coverage is thereby to be granted; and

2. Shall pay on behalf of the insured named therein and any other person, as insured, using any such motor vehicle or motor vehicles with the express or implied permission of such named insured, all sums which the insured shall become legally obligated to pay as damages arising out of the ownership, maintenance or use of such motor vehicle or motor vehicles within the United States of America or the Dominion of Canada, subject to limits exclusive of interest and costs, with respect to each such motor vehicle, as set out in Subdivision (f) of Subsection (c) of Section 5 of this Act. The policy may exclude coverage for the first Two Hundred Fifty Dollars ($250) of liability for bodily injury to or death of any one person in any one accident, and, subject to that exclusion for one person, may exclude coverage for the first Five Hundred Dollars ($500) of liability for the bodily injury to or death of two (2) or more persons in any one accident and may exclude coverage for the first Two Hundred Fifty Dollars ($250) of liability for the injury to or destruction of property of others in any one accident.

(c) Such operator's policy of liability insurance shall pay on behalf of the insured named therein all sums which the insured shall become legally obligated to pay as damages arising out of the use by him of any motor vehicle not owned by him, within the same territorial limits and subject to the same limits of liability as are set forth above with respect to an owner's policy of liability insurance.

(d) Such motor vehicle liability policy shall state the name and address of the named insured, the coverage afforded by the policy, the premium charged therefor, the policy period and the limits of liability, and shall contain an agreement or be endorsed that insurance is provided thereunder in accordance with the coverage defined in this Act as respects bodily injury and death or property damage, or both, and is subject to all the provisions of this Act.

(e) Such motor vehicle liability policy shall not insure:

1. Any obligation for which the insured or any company as his insurer may be held liable under any workmen's compensation law;

2. Any liability on account of bodily injury to or death of any employee of the insured while engaged in the employment, other than domestic, of the insured, or in domestic employment if benefits therefor are either payable or required to be provided under any workmen's compensation law; nor

3. Any liability because of injury to or destruction of property owned by, rented to, in charge of or transported by the insured.

(f) Every motor vehicle liability policy shall be subject to the following provisions which need not be contained therein:

1. The liability of the insurance company with respect to the insurance required by this Act shall become absolute whenever injury or damage covered by said motor vehicle liability policy occurs; said policy may not be canceled or annulled as to such liability by any agreement between the insurance company and the insured after the occurrence of the injury or damage; no statement made by the in-
sured or on his behalf and no violation of said policy
shall defeat or void said policy;

2. The satisfaction by the insured of a judgment for such injury or damage shall not be a condition precedent to the right or duty of the insurance company to make payment on account of such injury or damage;

3. The insurance company shall have the right to settle any claim covered by the policy, and if such settlement is made in good faith, the amount thereof shall be deductible from the limits of liability specified in Subdivision 2 of Subsection (b) of this Section;

4. The policy, the written application therefor, if any, and any rider or endorsement which does not conflict with the provisions of the Act shall constitute the entire contract between the parties.

(g) Any policy which grants the coverage required for a motor vehicle liability policy may also grant any lawful coverage in excess of or in addition to the coverage specified for a motor vehicle liability policy and such excess or additional coverage shall not be subject to the provisions of this Act. With respect to a policy which grants such excess or additional coverage the term “motor vehicle liability policy” shall apply only to that part of the coverage which is required by this Section.

(h) Any motor vehicle liability policy may provide that the insured shall reimburse the insurance company for any payment the insurance company would not have been obligated to make under the terms of the policy except for the provisions of this Act.

(i) Any motor vehicle liability policy may provide for the prorating of the insurance thereunder with other valid and collectible insurance.

(j) The requirements for a motor vehicle liability policy may be fulfilled by the policies of one (1) or more insurance companies which policies together meet such requirements.

(k) Any binder issued pending the issuance of a motor vehicle liability policy shall be deemed to fulfill the requirements for such a policy.

Notice of Cancellation or Termination of Certified Policy

Sec. 22. When an insurance company has certified a motor vehicle liability policy under Section 19 or a policy under Section 20, the insurance so certified shall not be canceled or terminated until at least five (5) days after a notice of cancellation or termination of the insurance so certified shall be received in the office of the Department, except that such a policy subsequently procured and certified shall, on the effective date of its certification, terminate the insurance previously certified with respect to any motor vehicle designated in both certificates.

Act Not to Affect Other Policies

Sec. 23. (a) This Act shall not be held to apply to or affect policies of motor vehicle insurance against liability which may now or hereafter be required by any other law of this State, and such policies, if they contain an agreement or are endorsed to conform to the requirements of this Act, may be certified as proof of financial responsibility under this Act.

(b) This Act shall not be held to apply to or affect policies insuring solely the insured named in the policy against liability resulting from the maintenance or use by persons in the insured’s employ or on his behalf of motor vehicles not owned by the insured.

Bond as Proof

Sec. 24. (a) Proof of financial responsibility may be furnished by filing a bond with the Department, accompanied by the statutory recording fee of the County Clerk to cover the cost of recording of the notice provided for herein, and with at least two (2) individual sureties each owning real estate within this State, not exempt under the Constitution or laws of the State of Texas, and together having equities equal in value to at least twice the amount of such bond. Such real estate shall be scheduled in the bond approved by a judge of a court of record, and shall be certified by the tax assessor and collector of the county where the property is situated as being free from any tax liens. Such bond shall be conditioned for payments in amounts and under the same circumstances as would be required in a motor vehicle liability policy, and shall not be cancelable except after five (5) days written notice is received by the Department, but cancellation shall not prevent recovery with respect to any right or cause of action arising prior to the date of cancellation. Such bond shall constitute a lien in favor of the State upon the real estate so scheduled of any surety, which lien shall exist in favor of any holder of a final judgment against the person who has filed such bond. Notice to that effect, which shall include a description of the real estate scheduled in the bond, shall be filed by the Department in the office of the County Clerk of the county where such real estate is situated. Such notice shall be accompanied by the statutory fee for the services of the County Clerk in connection with the recordation of such notice, and the County Clerk or his deputy, upon receipt of such notice, shall acknowledge and cause the same to be recorded in the lien records. Recordation shall constitute notice as provided by the statutes governing the recordation of liens on real estate.

(b) If a judgment, rendered against the principal on such real estate bond, shall not be satisfied within sixty (60) days after it has become final, the judgment creditor may, for his own use and benefit and at his sole expense, bring an action or actions in the name of the State against the persons who executed such bond, including an action or proceeding to foreclose any lien that may exist upon the real estate of a person who has executed such bond, which foreclosure action shall be brought in like
manner and subject to all the provisions of law applicable to an action to foreclose a mortgage on real estate.

Money or Securities as Proof

Sec. 25. (a) Proof of financial responsibility may be evidenced by the certificate of the State Treasurer that the person named therein has deposited with him the following amounts: effective January 1, 1984, Forty-Five Thousand Dollars ($45,000); effective January 1, 1986, Fifty-Five Thousand Dollars ($55,000); in cash, or securities such as may legally be purchased by savings banks or for trust funds of a market value of those respective sums. The State Treasurer shall not accept any such deposit and issue a certificate therefor and the Department shall not accept such certificate, unless accompanied by evidence that there are no unsatisfied judgments of any character against the depositor in the county where the depositor resides.

(b) Such deposit shall be held by the State Treasurer to satisfy, in accordance with the provisions of this Act, any execution on a judgment issued against such person making the deposit, for damages, including damages for care and loss of services, because of bodily injury to or death of any person, or for damages because of injury to or destruction of property, including the loss of use thereof, resulting from the ownership, maintenance, use or operation of a motor vehicle after such deposit was made. Money or securities so deposited shall not be subject to attachment or execution unless such attachment or execution shall arise out of a suit for damages as aforesaid.

Owner May Give Proof for Others

Sec. 26. Whenever any person required to give proof of financial responsibility hereunder is or later becomes an operator in the employ of any owner, or is or later becomes a member of the immediate family or household of the owner, the Department shall accept proof given by such owner in lieu of proof by such other person to permit such other person to operate a motor vehicle for which the owner has given proof as herein provided. The Department shall designate the restrictions imposed by this Section on the face of such person's license.

Substitution of Proof

Sec. 27. The Department shall consent to the immediate cancellation of any bond or certificate of insurance, or the Department shall direct and the State Treasurer shall return to the person entitled thereto any money or securities deposited pursuant to this Act as proof of financial responsibility, or the Department shall waive the requirement of filing proof, in any of the following events:

1. At any time after five (5) years from the date such proof was required when, during the five-year period preceding the request, the Department has not received record of a conviction or a forfeiture of bail which would require or permit the suspension or revocation of the license, registration or nonresident's operating privilege of the person by or for whom such proof was furnished; or

2. In the event of the death of the person on whose behalf such proof was filed or the permanent incapacity of such person to operate a motor vehicle; or

3. In the event the person who has given proof surrenders his license and registration to the Department; provided, however, that the Department shall not consent to the cancellation of any bond or the return of any money or securities in the event any action for damages upon a liability covered by such proof is then pending or any judgment upon any such liability is then unsatisfied, or in the event the person who has filed such bond or deposited such money or securities has, within two (2) years immediately preceding such request, been involved as an operator or owner in any motor vehicle accident resulting in injury or damage to the person or property of others. An affidavit of the applicant as to the nonexistence of such facts, or that he has been released from all of his liability, or has been finally adjudicated not to be liable, for such injury or damage, shall be sufficient evidence thereof in the absence of evidence to the contrary in the records of the Department.

Whenever any person whose proof has been cancelled or returned under Subdivision 3 of this Section applies for a license or registration within a period of five (5) years from the date proof was originally required, any such application shall be refused unless the applicant shall re-establish such proof for the remainder of such five-year period.

ARTICLE V—VIOLATION OF PROVISIONS OF ACT—PENALTIES

Transfer of Registration to Defeat Purpose of Act Prohibited

Sec. 30. If an owner's registration has been suspended hereunder, such registration shall not be
transferred nor the motor vehicle in respect of which such registration was issued registered in any other name until the Department is satisfied that such transfer of registration is proposed in good faith and not for the purpose or with the effect of defeating the purposes of this Act. Nothing in this Section shall in any wise affect the rights of any conditional vendor, chattel mortgagee or lessor of a motor vehicle registered in the name of another as owner who becomes subject to the provisions of this Section.

Surrender of License and Registration

Sec. 31. Any person whose license or registration shall have been suspended as herein provided, or whose policy of insurance or bond, when required under this Act, shall have been cancelled or terminated or who shall neglect to furnish other proof upon request of the Department, shall return his license and registration to the Department within ten (10) days after receiving notice from the Department in writing, either by personal delivery thereof to the person to be so notified or by deposit in the United States mail as a part of the regular organization of the Department by the licensee, which notice shall be presumed to be complete upon the expiration of nine (9) days after such is deposited in the United States mail. If any person shall fail to return to the Department the license or registration as provided herein, the Department shall forthwith direct any employee of the Department to secure possession thereof and to return the same to the Department. The Director of the Department of Public Safety, or a person designated by him, may file a complaint in any court of competent jurisdiction under Subsection (d) of Section 32 against any person whom he has reason to believe has wilfully failed to return license or registration as required herein. Proof of the giving of notice in either such manner as hereinabove set out may be made by the certificate of any employee of the Department that such notice was prepared in the regular course of business and placed in the United States mail as a part of the regular organized activity of the Department, or, if given in person, by certificate of the employee of the Department, naming the person to whom such notice was given and specifying the time, place and manner of the giving thereof.

Other Violations—Penalties

Sec. 32. (a) Failure to report an accident as required in Section 4 shall be punished by a fine not in excess of Twenty-five Dollars ($25), and in the event of injury or damage to the person or property of another in such accident, the Department shall suspend the license of the person failing to make such report, or the non-resident's operating privilege of such person, until such report has been filed and for such further period not to exceed thirty (30) days as the Department may fix.

(b) Any person who gives information required in a report or otherwise as provided for in Section 4, knowing or having reason to believe that such information is false, or who shall forge or, without authority, sign any evidence of proof of financial responsibility, or who files or offers for filing any such evidence of proof knowing or having reason to believe that it is forged or signed without authority, shall be fined not more than One Thousand Dollars ($1,000) or imprisoned for not more than one year, or both.

(c) Any person whose license or registration or non-resident's operating privilege has been suspended or revoked under this Act and who, during such suspension or revocation drives any motor vehicle upon any highway or knowingly permits any motor vehicle owned by such person to be operated by another upon any highway, except as permitted under this Act, shall be fined not more than Five Hundred Dollars ($500) or imprisoned not exceeding six (6) months, or both.

(d) Any person wilfully failing to return license or registration as required in Section 31 shall be fined not more than Two Hundred Dollars ($200).

(e) Any person who shall violate any provision of this Act for which no penalty is otherwise provided shall be fined not more than Five Hundred Dollars ($500) or imprisoned not more than ninety (90) days, or both.

(f) Any person who is required to maintain proof of financial responsibility under this Act and who, during the period financial responsibility is required to be maintained, drives any motor vehicle owned by him upon any highway or knowingly permits any motor vehicle owned by him to be operated by another upon any highway, except as permitted under this Act, when proof of financial responsibility is not in force, shall be fined not more than Five Hundred Dollars ($500) or imprisoned not exceeding six (6) months, or both.

(g) Any person who is required to maintain proof of financial responsibility under this Act and who, during the period financial responsibility is required to be maintained, drives any motor vehicle owned by the United States, the State of Texas or any political subdivision of this state, or any municipality therein except as provided in Section 35, nor to the officers, agents or employees of the United States, the State of Texas, or any political subdivision of the state, while driving said vehicle in the course of their employment; provided, however, that the operator of every motor vehicle specified herein shall comply with the provisions of Section 4 of this Act; nor, except for Sections 4 and 20 of this Act, with respect to any motor vehicle

ARTICLE VI—GENERAL PROVISIONS

Exceptions

Sec. 33. This Act shall not apply with respect to any motor vehicle owned by the United States, the State of Texas or any political subdivision of this state, or any municipality therein except as provided in Section 35, nor to the officers, agents, or employees of the United States, the State of Texas, or any political subdivision of the state, while driving said vehicle in the course of their employment; provided, however, that the operator of every motor vehicle specified herein shall comply with the provisions of Section 4 of this Act; nor, except for Sections 4 and 20 of this Act, with respect to any motor vehicle
which is subject to the requirements of Articles 911a (Sec. 11) and 911b (Sec. 13) of the Revised Civil Statutes of Texas; provided, however, that nothing in this Act shall be construed so as to exclude from this Act its applicability to taxicabs, jitneys, or other vehicles for hire, operating under franchise or permit of any incorporated city, town or village.

Self-Insurers

Sec. 34. (a) Any person in whose name more than 25 motor vehicles are registered may qualify as a self-insurer by obtaining a certificate of self-insurance issued by the Department as provided in Subsection (b) of this Section.

(b) The Department may, in its discretion, upon the application of a person, issue a certificate of self-insurance when it is satisfied that such person is possessed and will continue to be possessed of ability to pay judgments obtained against such person.

(c) Upon not less than five (5) days notice and a hearing pursuant to such notice, the Department may upon reasonable grounds cancel a certificate of self-insurance. Failure to pay any judgment within thirty (30) days after such judgment shall have become final shall constitute a reasonable ground for the cancellation of a certificate of self-insurance.

Sec. 35. Subject to the provisions of Article 5.10, Texas Insurance Code of 1951, as amended, insurance companies authorized to issue motor vehicle liability policies in this state may establish an administrative agency and make necessary reasonable rules in connection therewith, relative to the formation of a plan and procedure to provide a means by which insurance may be assigned to an authorized insurance company for a person required by this Act to show proof of financial responsibility for the future and who is in good faith entitled to motor vehicle liability insurance in this state but is unable to secure it through ordinary methods; or, in amounts not to exceed the limits prescribed in Section 21(b)2 of this law, for any unit of government within the State of Texas, which, acting in good faith, is unable to secure motor vehicle liability insurance in this state through ordinary methods; and may establish a plan and procedure for the equitable apportionment among such authorized companies of applicants for such policies and for motor vehicle liability policies, including, but not limited to, voluntary agreements by insurance companies to accept such assignments. When any such plan has been approved by the State Board of Insurance, all insurance companies authorized to issue motor vehicle liability policies in the State of Texas shall subscribe thereto and participate therein.

The State Board of Insurance, in addition to the provisions prescribed by Subchapter A, Chapter 5, Texas Insurance Code of 1951, as amended,1 may determine, fix, prescribe, promulgate, change, and amend rates or minimum premiums normally applicable to a risk so as to apply to any and every assignment such rates and minimum premiums as are commensurate with the greater hazard of the risk, considering in connection therewith the experience, physical or other conditions of such risk of the person or municipality applying for insurance under any such plan.

In addition to statutory recording fees of county clerks required in Section 24, any filing with, certification or notice to the Department in compliance with any of the provisions of this Act, or request for certified abstract of operating record required in Section 3, except report of accident required in Section 4, shall be accompanied by a fee of Ten Dollars ($10) for each transaction. Short Title of Act

Sec. 43. This Act may be cited as the Texas Motor Vehicle Safety-Responsibility Act.

Definitions

Sec. 1. In this Act:

(1) "Brake fluid" means the liquid medium through which force is transmitted in the hydraulic brake system of any motor vehicle operated upon the highways of this state.

(2) "Package" means the immediate container in which the brake fluid is packed for sale but does not include a carton or wrapping containing several packages, or a tank car or truck.

(3) "Packer" means a person who fills with brake fluid a package that is subsequently distributed for sale in this state.

(4) "Person" means an individual, corporation, or association.

(5) "Sell" means to convey, give, barter, trade, exchange, keep for sale, offer for sale, expose for sale, advertise for sale, deliver for or after sale, or distribute.
mindful of the importance of braking systems in motor vehicles, determines that it is necessary in the interest of the safety of the motoring public to properly enforce the standards.

Purpose

Sec. 1A. The legislature of the State of Texas, mindful of the importance of braking systems in motor vehicles, determines that it is necessary in the interest of the safety of the motoring public to establish brake fluid standards and provide for the proper enforcement of the standards. It is the purpose of this Act to insure to the motoring public at the time of purchase of brake fluid that the fluid meets the necessary minimum standards established under this Act.

Prohibition

Sec. 2. (a) A person who knowingly, intentionally, or recklessly manufactures, packs, sells, or adds to the hydraulic brake system of a motor vehicle in this state, any brake fluid (1) which is misbranded, (2) which is not currently registered under this Act, or (3) which is adulterated, commits an offense.

(b) An offense under this section is a misdemeanor.

Misbranding and Adulteration

Sec. 3. (a) A brake fluid is misbranded:

(1) if its labeling is false or misleading in any particular; or

(2) if its quality or characteristics do not meet the standards and specifications adopted under this Act and a designation of the contents as described by rule of the department; and

(b) A brake fluid is adulterated:

(1) if the formula for or proportions of its contents have been changed since it was most recently registered; or

(2) if its quality or characteristics do not meet the standards and specifications for brake fluid established by the department.

Rules

Sec. 4. The Department of Public Safety shall from time to time adopt rules relating to the enforcement of this Act and establishing as minimum standards and specifications for brake fluids and packages for brake fluid the standards adopted from time to time by the United States Department of Transportation.
(2) the registrant has failed since registration to comply with a requirement of this Act or a rule issued under the authority of this Act.

(b) An appeal from a decision of the department after a hearing under Subsection (f) or (g) of this section is by trial de novo.

Enforcement

Sec. 6. (a) If brake fluid is manufactured, packed, or sold in violation of Section 2 of this Act, the department may issue and enforce a written or printed stop-sale order prohibiting the further manufacture, packing, or sale of brake fluid of the same brand name on the premises where the violation occurred. The department shall terminate a stop-sale order after remedy of the violation or after voluntary destruction or other disposal, under the supervision of the department, of the fluid that is the subject of the violation. The owner or custodian of brake fluid to which a stop-sale order applies may appeal the stop-sale order to a district court in the county in which the brake fluid is located. Appeal is by trial de novo.

(b) The department may apply to a magistrate in a county in which brake fluid manufactured, packed, or sold in violation of Section 2 of this Act is located for a search warrant to inspect the premises where the violation occurred or is occurring and to seize misbranded, unregistered, or adulterated brake fluid. Brake fluid seized under warrant issued under this subsection is subject to disposition in the manner provided for disposition of brake fluid seized as provided by Subsection (d) of this section.

(c) The department may institute an action in a district court in the county in which a violation of Section 2 of this Act has occurred or is occurring, to enjoin further violations of this Act. A bond may not be required for issuance of an injunction under this subsection.

(d) Any misbranded, unregistered, or adulterated brake fluid sold within this state may be proceeded against in any county or district court in any county of the state where it may be found, by the county or district attorney for the county, and seized for confiscation by process of libel for condemnation. If, following seizure, the article is condemned it shall, after entry of decree, be disposed of by destruction or sale as the court may direct, and the proceeds, if such article is sold, less legal costs, shall be paid to the State Treasury. The article shall not be sold contrary to the provisions of this Act and upon payment of costs and execution and delivery of a good and sufficient bond, to be approved by the court, conditioned that the article shall not be disposed of unlawfully, the court may direct that the article be delivered to the owner thereof for relabeling or reprocessing as the case may be.

(e) The department may enter, during reasonable hours, any premises where brake fluid is manufactured, packed, or sold, for the purpose of enforcing this Act. The department may inspect, sample, analyze, and test any brake fluid found on the premises. Before the department requests entrance to premises where brake fluid is manufactured, packed, or sold or if the department is refused entrance to the premises, the department may request a magistrate in the county in which the premises are located to issue a search warrant to inspect the area. The magistrate shall issue the warrant without prior notice to the owner or custodian of the premises if the department shows specific evidence of a violation of a requirement of this Act or a rule adopted under the authority of this Act or shows that the department has compiled with reasonable administrative standards for conducting inspections under this Act. The department shall adopt rules prescribing reasonable administrative standards for conducting inspections under this Act.

As used in this section, the term "any traffic law of this state" shall include the following statutes, as heretofore or hereafter amended:

Guilty Pleas; Presence of Parents or Guardians
Sec. 1a. No such minor may plead guilty to any offense described in Section 1 of this Act except in open court before the judge. No such minor shall be convicted of such an offense or fined as provided in this Act except in the presence of one or both parents or guardians having legal custody of the minor. The court shall cause one or both parents or guardians to be summoned to appear in court and shall require one of both of them to be present during all proceedings in the case. However, the court may waive the requirement of the presence of parents or guardians in any case in which, after diligent effort, the court is unable to locate them or to compel their presence.

Default in Payment of Fines
Sec. 2. No such minor, after conviction or plea of guilty and imposition of fine, shall be committed to any jail in default of payment of the fine imposed, but the court imposing such fine shall have power to suspend and take possession of such minor's driving license and retain the same until such fine has been paid.

Driving Without License; Penalties
Sec. 3. If any such minor shall drive any motor vehicle upon any public road or highway in this state or upon any street or alley within the limits of any corporate city, town or village, or upon any beach as defined in Chapter 430, Acts of the 51st Legislature, 1949, without having a valid driver's license authorizing such driving, such minor shall be guilty of a misdemeanor and shall be fined as set out in Section 1 hereof.

Jurisdiction; Effect on Juvenile Courts; Cumulative Effect
Sec. 4. The offenses created under this Act shall be under the jurisdiction of the courts regularly empowered to try misdemeanors carrying the penalty herein affixed, and shall not be under the jurisdiction of the Juvenile Courts; but nothing contained in this Act shall be construed to otherwise repeal or affect the statutes regulating the powers and duties of Juvenile Courts. The provisions of this Act shall be cumulative of all other laws on this subject.

Repealer
Sec. 5. Chapter 436, Acts of the 51st Legislature, Regular Session, 1949, 1 is hereby repealed, but the repeal thereof shall not exempt from punishment any person who may have previously violated such repealed law, and persons convicted of a violation thereof shall be punished as therein provided.

Art. 6701-5. Specimens of Breath or Blood; Implied Consent; Evidence

Consent to Taking of Specimens
Sec. 1. Any person who operates a motor vehicle upon the public highways or upon a public beach in this state shall be deemed to have given consent, subject to the provisions of this Act, to submit to
the taking of one or more specimens of his breath or blood for the purpose of analysis to determine the alcohol concentration or the presence in his body of a controlled substance or drug if arrested for any offense arising out of acts alleged to have been committed while a person was driving or in actual physical control of a motor vehicle while intoxicated. Any person so arrested may consent to the giving of any other type of specimen to determine his alcohol concentration, but he shall not be deemed solely on the basis of his operation of a motor vehicle upon the public highways or upon a public beach in this state, to have given consent to give any type of specimen other than a specimen of his breath or blood. The specimen, or specimens, shall be taken at the request of a peace officer having reasonable grounds to believe the person to have been driving or in actual physical control of a motor vehicle upon the public highways or upon a public beach in this state while intoxicated.

Refusal to Give Specimen: Suspension of License, Permit or Privilege

Sec. 2. (a) Except as provided by Subsection (i) of Section 3 of this Act, if a person under arrest refuses, upon the request of a peace officer, to give a specimen designated by the peace officer as provided in Section 1, none shall be taken.

(b) Before requesting a person to give a specimen, the officer shall inform the person orally and in writing that if the person refuses to give the specimen, that refusal may be admissible in a subsequent prosecution, and that the person's license, permit, or privilege to operate a motor vehicle will be automatically suspended for 90 days after the date of adjournment of the hearing provided for in Subsection (f) of this section, whether or not the person is subsequently prosecuted as a result of the arrest. If the officer determines that the person is a resident without a license or permit to operate a motor vehicle in this state, the officer shall inform the person that the Texas Department of Public Safety shall deny to the person the issuance of a license or permit for a period of 90 days after the date of adjournment of the hearing provided for in Subsection (f) of this section, whether or not the person is subsequently prosecuted as a result of the arrest. The officer shall inform the person that the person has a right to a hearing on suspension or denial if, not later than the 20th day after the date on which the notice of suspension or denial is received, the department receives a written demand that the hearing be held.

(c) The officer shall provide the person with a written statement containing the information required by Subsection (b) of this section. If the person refuses the request of the officer to give a specimen, the officer shall request the person to sign a statement that the officer requested that he give a specimen, that he was informed of the consequences of not giving a specimen, and that he refused to give a specimen.

(d) If the person refuses to give a specimen, whether the refusal was express or the result of an intentional failure of the person to give a specimen as designated by the peace officer, the officer before whom the refusal was made shall immediately make a written report of the refusal to the Director of the Texas Department of Public Safety.

(e) The director shall approve the form of the report. The report must show the grounds for the officer's belief that the person had been operating a motor vehicle while intoxicated. The report must also show that the person refused to give a specimen, as evidenced by:

(1) a written refusal to give a specimen, signed by the person; or

(2) a statement signed by the officer stating that the person refused to give a specimen and also refused to sign the statement requested by the officer under Subsection (c) of this article.

(f) When the director receives the report, the director shall suspend the person's license, permit, or nonresident operating privilege, or shall issue an order prohibiting the person from obtaining a license or permit, for 90 days effective 28 days after the date the person receives notice by certified mail or 31 days after the date the director sends notice by certified mail, if the person has not accepted delivery of the notice. If, not later than the 20th day after the date on which the person receives notice by certified mail or the 23rd day after the date the director sent notice by certified mail, if the person has not accepted delivery of the notice, the department receives a written demand that a hearing be held, the department shall, not later than the 10th day after the day of receipt of the demand, request a court to set the hearing for the earliest possible date. The hearing shall be set in the same manner as a hearing under Section 22(a), Chapter 173, Acts of the 47th Legislature, Regular Session, 1941, as amended (Article 6687b, Vernon's Texas Civil Statutes). If, upon such hearing the court finds (1) that probable cause existed that such person was driving or in actual physical control of a motor vehicle on the highway or upon a public beach while intoxicated, (2) that the person was placed under arrest by the officer and was offered an opportunity to give a specimen under the provisions of this Act, and (3) that such person refused to give a specimen upon request of the officer, then the Director of the Texas Department of Public Safety shall suspend the person's license or permit to drive, or any nonresident operating privilege for a period of 90 days, as ordered by the court. If the person is a resident without a license or permit to operate a motor vehicle in this State, the Texas Department of Public Safety shall deny to the person the issuance of a license or permit for 90 days.

(g) If, after the hearing, the court finds in the negative one of the issues required by Subsection (f) of this section, the director shall reinstate any license, permit, or privilege to operate a motor vehi-
Admissibility of Results or Refusal; Qualifications and Methods for Making Analysis; Additional Analysis by Request; Persons Incapable of Refusal; Mandatory Analysis; Definitions

Sec. 3. (a) Upon the trial of any criminal action or proceeding arising out of an offense under Subdivision (2), Subsection (a), Section 19.05, Penal Code, or an offense under Article 6701I-1, Revised Statutes, evidence of the alcohol concentration or presence of a controlled substance or drug as shown by analysis of a specimen of the person's blood, breath, urine, or any other bodily substances taken at the request or order of a peace officer, shall be admissible.

(b) Analysis of a specimen of the person's breath, to be considered valid under the provisions of this section, must be performed according to rules of the Texas Department of Public Safety and by an individual possessing a valid certificate issued by the Texas Department of Public Safety for this purpose. The Texas Department of Public Safety is authorized to establish rules approving satisfactory techniques or methods, to ascertain the qualifications and competence of individuals to conduct such analysis, and to issue certificates certifying such fact. These certificates shall be subject to termination or revocation, for cause, at the discretion of the Texas Department of Public Safety.

(c) When a person gives a specimen of blood at the request or order of a peace officer under the provisions of this Act, only a physician, qualified technician, chemist, registered professional nurse, or licensed vocational nurse under the supervision or direction of a licensed physician may withdraw a blood specimen for the purpose of determining the alcohol concentration or presence of a controlled substance or drug therein. The sample must be taken by a physician or in a physician's office or a hospital licensed by the Texas Department of Health. This limitation shall not apply to the taking of specimens of breath, urine, or bodily substances other than blood. The person drawing the blood specimen at the request or order of a peace officer under the provisions of this Act, or the hospital where that person is taken for the purpose of securing the blood specimen, shall not be held liable for damages arising from the request or order of the peace officer to take the blood specimen as provided herein, provided the blood specimen was withdrawn according to recognized medical procedures, and provided further that the foregoing shall not relieve any such person from liability for negligence in the withdrawing of any blood specimen. Breath specimens taken at the request or order of a peace officer must be taken and analysis made under such conditions as may be prescribed by the Texas Department of Public Safety, and by such persons as the Texas Department of Public Safety has certified to be qualified.

(d) The person who gave a specimen of breath, blood, urine, or other bodily substances in connection with this Act may, upon request and within a reasonable time not to exceed two hours after the arrest, have a physician, qualified technician, chemist, or registered professional nurse of his own choosing draw a specimen and have an analysis made of his blood in addition to any specimen taken and analyzed at the direction of a peace officer. The failure or inability to obtain an additional specimen or analysis by a person shall not preclude the admission of evidence relating to the analysis of the specimen taken at the direction of the peace officer under this Act.

(e) Upon the request of a person who has given a specimen at the request of a peace officer, full information concerning the analytical results of the test or tests of the specimen shall be made available to him or his attorney.

(f) If for any reason the person's request to have a chemical test is refused by the officer or any other person acting for or on behalf of the state, such fact may be introduced into evidence on the trial of such person.

(g) If the person refuses a request by an officer to give a specimen of breath or blood, whether the refusal was express or the result of an intentional failure of the person to give the specimen, that fact may be introduced into evidence at the person's trial.

(h) Any person who is dead, unconscious, or otherwise in a condition rendering the person incapable of refusal, whether the person was arrested or not, shall be deemed not to have withdrawn the consent provided by Section 1 of this Act. If the person is dead, a specimen may be withdrawn by the county medical examiner or the examiner's designated agent or, if there is no county medical examiner for the county, by a licensed mortician or a person authorized as provided by Subsection (c) of this section. Evidence of alcohol concentration or the presence of a controlled substance or drug obtained by an analysis authorized by this subsection is admissible in a civil or criminal action.

(i) A peace officer shall require a person to give a specimen under Section 2 of this Act if:

(1) the officer arrests the person for an offense under Subdivision (2), Subsection (a), Section 19.05, Penal Code, or an offense under Article 6701I-1, Revised Statutes, as amended;
(2) the person was the operator of a motor vehicle involved in an accident that the officer reasonably believes occurred as a result of the offense;

(3) at the time of the arrest the officer reasonably believes that a person has died or will die as a direct result of the accident; and

(4) the person refuses the officer's request to voluntarily give a specimen.

(j) In this Act:

(1) “Alcohol concentration” means:

(A) the number of grams of alcohol per 100 milliliters of blood;

(B) the number of grams of alcohol per 210 liters of breath; or

(C) the number of grams of alcohol per 67 milliliters of urine.

(2) “Controlled substance” has the same meaning as is given that term in Section 1.02, Texas Controlled Substances Act (Article 4476-15, Vernon’s Texas Civil Statutes).

(3) “Drug” has the same meaning as is given that term in Section 1.02, Texas Controlled Substances Act (Article 4476-15, Vernon’s Texas Civil Statutes).

Severability

Sec. 5. The inscription shall be of such a nature, and the official having control thereof shall have such wording placed thereon as prescribed herein, and whoever drives any automobile, truck or other motor vehicle belonging to the State upon the streets of any town or city or upon a highway without such inscription printed thereon shall be fined not less than Twenty-five Dollars ($25.00) nor more than One Hundred Dollars ($100.00). Such rules and regulations shall specify the primary use to which vehicles exempt from the requirements of this Act are devoted, the purpose to be served by not printing on them the inscriptions required by this Act and such rules and regulations shall not be effective until filed with the Secretary of State. Whoever drives a vehicle exempted from the requirements of this Act as authorized by this provision shall not be subject to the penalties prescribed in this Act.

Provided however, that the provisions of this Section shall not apply to automobiles used by police and sheriffs' departments, which shall be unmarked at the discretion of the sheriff or the police chief.

CHAPTER 1. GENERAL PROVISIONS

Short Title

Sec. 1.001. This Act may be cited as the County Road and Bridge Act.

CHAPTER 2. POWERS OF COMMISSIONERS COURT

SUBCHAPTER A. CREATING OR DISCONTINUING ROADS

Public Roads

Sec. 2.001. Public roads and highways that have not been discontinued but have been laid out and established according to law are declared to be public roads.
funds arising through the sale of bonds or the collection of special taxes.

Applying for New Roads or Road Changes

Sec. 2.003. (a) Citizens may apply for a new road or a change in an existing road by presenting to the commissioners court a petition signed by:

1. eight landowners in the precinct if the request is for a new road or to discontinue an existing road; or
2. one landowner in the precinct if the request is for a change in a road.

(b) The petition must specify the beginning and termination points of a proposed new road or a road to be discontinued.

(c) Before the commissioners court may grant an order based on an application described by Subsection (a) of this section, the applicants must first give notice of their intent to apply by a written advertisement of their intent posted on the courthouse door and at two other places in the vicinity of the route affected for at least 20 days.

Laying Out New Roads by Jury of View

Sec. 2.004. (a) New roads ordered by the commissioners court must be laid out by a jury of view, appointed by the court and consisting of five landowners. The court may order the cooperation of the county surveyor. The jury of view shall lay out, survey, and describe the road to the greatest advantage of the public and make a written report containing the field notes, survey or description of the road, and the jury's proceedings to the next term of the court.

(b) When jurors of view are appointed, the clerk of the court shall make out and deliver to the sheriff duplicate copies of the appointing order not later than the 10th day after the day the appointment was made, endorsing on those copies the date of the order. The sheriff shall serve the order on the district or county attorney in the name of the owner, and knowledge.

(c) The jurors shall first take the following oath: "I, do solemnly swear that I will lay out the road now directed to be laid out by the order to us directed from the commissioners court, according to law, without favor or affection, malice or hatred, to the best of my skill and knowledge. So help me God."
ing hills, mountains, or streams through any and all enclosures), subject to the following conditions.

(b) One or more persons, firms, or corporations, who are landowners into whose land there is no public road or public means of access and who desire an access road connecting their land with the county public road system, may make a sworn application to the commissioners court for an order establishing the road, designating the lines sought to be opened and the names and residences of the persons affected by the proposed access road, and stating the facts that show a necessity for the road.

(c) After the application is filed, the county clerk shall issue a notice to the sheriff or constable commanding him to summon those landowners affected by the application. Those summoned must appear at the next regular term of the commissioners court if they desire to contest the application. The notice shall be served and returned as in the service of citations in civil actions in justice courts.

(d) At a regular term of the court after due service of the notice, the court may hear evidence as to the truth of the application, and if it appears that the applicants have no means of access to their land and premises, it may issue an order declaring the lines designated in the application or the lines as may be fixed by the commissioners court to be a public highway and may direct the public highway to be opened by the owners and left open for a space of not less than 15 feet or more than 30 feet on each side of the designated line, but the marked trees and other objects used to designate the lines and the corners of surveys may not be removed or defaced. Notice of the order shall be immediately served on the owners and return of the notice shall be made as previously provided in this section. A copy of the order shall be filed in the deed records in the office of the county clerk of the county.

(e) The damages to the landowners shall be assessed by a jury of landowners, as for other public roads, and all costs attending the proceedings in opening the road shall be paid by the county. The commissioners court is not required to keep the road worked by the roadhands as in the case of other public roads but shall place the roads in the first instance in condition for use as access public roads.

(f) Once the commissioners court has designated a public road under this section that involves an enclosure of 1280 acres or more, a person or owner who fails, neglects, or refuses for 12 months after legal notice to leave open his land free from all obstructions for 15 feet on his side on the designated line commits an offense and shall be fined not more than $250 per month after the first 12 months.

Classes of Roads

Sec. 2.007. (a) The commissioners court shall classify all public roads in their counties as follows:

(1) first-class roads shall be clear of all obstructions and not less than 40 feet nor more than 100 feet wide; all stumps over six inches in diameter shall be cut down to six inches of the surface and rounded off, all stumps six inches in diameter and under cut smooth with the ground, and all causeways made at least 18 feet wide;

(2) second-class roads shall conform to the requirements of first-class roads except that they may not be less than 40 feet wide;

(3) third-class roads may not be less than 20 feet wide and the causeway not less than 12 feet wide; otherwise they shall conform to the requirements of first-class roads.

(b) Any county in this state containing a population of less than 60,000 inhabitants according to the most recent federal census may by a majority vote of the commissioners court authorize the construction of cattle guards across any or all of the first-class, second-class, or third-class roads in said county, and the cattle guards may not be classed or considered as obstructions on the roads.

(c) A first-class or second-class road may not be reduced to a lower class.

(d) The commissioners court of any county coming under this section shall provide proper plans and specifications for a standard cattle guard to be used on the roads of the county. The plans and specifications shall be plainly written, supplemented by drawings as may be necessary, and shall be available to the inspection of the citizens of the county. After the commissioners court provides the proper plans and specifications for a standard cattle guard to be used on the roads of the county, any person constructing any cattle guard that is not in accordance with the approved plans and specifications prepared by the commissioners court is guilty of obstructing the roads of the county, and the person responsible for the improper construction of the cattle guards commits a misdemeanor and shall be fined not less than $5 nor more than $100.

(e) The commissioners court of any county coming under the provisions of this section may construct cattle guards on the first-class, second-class, and third-class roads of the county and may pay for the construction out of the road and bridge funds of the county when in its judgment it believes the construction of the cattle guards to be in the best interest of the citizens of the county.

(f) The owners of land across which a third-class or neighborhood road may run, when the right-of-way for the road has been acquired without cost to the county, may erect gates across the road when necessary, the gates to be not less than 10 feet wide and free, of obstructions at the top.

(g) Any person placing a gate on or across any third-class road or on or across any road designated by Section 2.006 of this Act shall be required to keep the gate and the approaches to it in good order. The gate shall be not less than 10 feet wide.
and so constructed as to cause no unnecessary delay to the traveling public in opening and shutting the gate. The person shall provide a fastening to hold the gate open until the passengers go through; the person shall place a permanent hitching post and stile block on each side of and within 60 feet of the gate. Any person who places a gate on or across a third-class road or on or across any road designated by Section 2.006 and who shall willfully or negligent­ly fail to comply with any requirement of this section commits an offense and shall be fined not less than $5 nor more than $20 for each offense, and each week of failure is a separate offense. Whoever wilfully or negligently leaves open any gate on or across any third-class road or on or across any road so designated by Section 2.006 of this Act commits an offense and shall be fined as previously provided by this section.

Abandoned Roads
Sec. 2.008. (a) Whenever the use of a county road has become so infrequent that the adjoining landowner or landowners have enclosed the road with a fence and the road has been continuously under fence for a period of 20 years or more, the public has no further easement or right to use the road unless and until the road is reestablished in the same manner as required for the establishment of a new road.

(b) This section does not apply to roads to a cemetery or access roads reasonably necessary to reach adjoining land.

Commissioners as Road Supervisors
Sec. 2.009. (a) Except when road commissioners are employed, the county commissioners shall be supervisors of public roads in their respective counties, and each commissioner shall supervise the public roads within his commissioner's precinct once each month. He shall also make a sworn report to each regular term of the commissioners court held in his county during the year, showing:

(1) the condition of all roads and parts of roads in his precinct;
(2) the condition of all culverts and bridges;
(3) the amount of money remaining in the hands of overseers subject to be expended on the roads within his precinct;
(4) the number of mileposts and fingerboards defaced or torn down;
(5) what, if any, new roads of any kind should be opened in his precinct and what, if any, bridges, culverts, or other improvements are necessary to place the roads in his precinct in good condition and the probable cost of the improvements; and
(6) the name of every overseer who has failed to work on the roads or who in any way neglected to perform his duty.

(b) The report shall be spread on the minutes of the court to be considered in improving public roads and determining the amount of taxes levied for public roads.

(c) The supervisor's report shall be submitted, together with all contracts made by the court since its last report for any work on any road, to the grand jury at the first term of the district court occurring after the report is made to the commis­sioners court.

SUBCHAPTER B. DRAINAGE ON PUBLIC ROADS
Public Roads
Sec. 2.101. For the purposes of this subchapter, roads and highways that have not been discontinued but have been laid out and established according to law, including all roads and highways that have been opened to and used by the public for 10 years prior to March 25, 1897, are declared to be public roads.

Court Authority
Sec. 2.102. (a) The commissioners court may order at any regular session after complying with the provisions of this subchapter the construction and maintenance of ditches, drains, and watercourses as provided by this subchapter. These ditches, drains, and watercourses, hereinafter called ditches, shall be placed on or within the exterior lines of all public roads within the county and shall have the capacity to carry off into natural waterways all surface water reasonably adjacent and liable to collect in the ditches from natural causes.

(b) In connection with this authority to construct and maintain ditches, the commissioners court may construct any side, lateral, spur, branch ditch, or watercourse necessary. However:

(1) a ditch may not be constructed without an outlet to a natural waterway large enough to carry off all water that may collect in the ditch; and
(2) a commissioners court or its employee may not change the natural course of any branch, creek, or stream; branches, creeks, or streams shall cross public roads at the water's natural crossing; cul­verts shall be of sufficient size to allow water to flow at high tide from its intersection with the road across its natural outflow at the opposite natural channel.

(c) The commissioners court shall:
(1) make a drain on each side of a road and use the dirt from the drain excavation to build the road;
(2) drain public roads when necessary and have ditches cut for that purpose, taking into account the natural waterflow and causing as little injury as possible to adjacent landowners; and
(3) in case of damages to a landowner, assess the damages and make payment to the landowner out of the county's general revenue; in case of disa-
The commission's court may acquire by purchase or condemnation any new or wider right-of-way not exceeding 100 feet in width for streambed diversion and drainage channels, but only for locating, relocating, building, rebuilding, or maintaining public roads. This may be paid out of the county road and bridge fund or out of any available funds.

Private Ditches
Sec. 2.103. Any owner of land abutting on the road or ditch or the owner of any tract of land lying wholly or partially within one mile of the road or ditch may construct at his own cost lateral drainage ditches and connect the ditches with the main ditch or ditches constructed under this subchapter.

Petition for Drainage Construction
Sec. 2.104. Before the commissioners court may order that a drainage system be constructed, a petition shall be presented to the court that includes:
(1) signatures of at least 100 qualified voters of the county;
(2) a statement of the necessity for and availability of the drainage system;
(3) the number of miles of public roads as accurately as possible;
(4) the width and depth of the ditches to be built along the first-class roads;
(5) the name and location of each natural waterway crossed by the county's first-class roads;
(6) the distance of each waterway from another along the first-class road; and
(7) the names and residences, if known, of each landowner with land adjacent to or within one mile of each first-class road.

Hearing Notice
Sec. 2.105. (a) After the petition is filed, the clerk shall issue five notices not later than the 20th day before the day on which the next regular session of the commissioners court will convene. The notices must contain a brief statement of the petition's contents and must command all interested persons who wish to contest the petition to appear at the court's next regular session.
(b) The notices are to be posted in the following manner:
(1) one at the courthouse door; and
(2) one at four other public places in the county, no two of which may be in the same city or town.
(c) The sheriff shall post the notices and return them to the clerk on or before the first day of the term.
(d) The clerk shall receive $1.50 and the sheriff $3 for their services.

Hearing
Sec. 2.106. (a) At the specified time, the commissioners court shall:
(1) consider the petition and hear all testimony for or against its provisions; and
(2) determine whether the petition proposing the drainage system is necessary or advisable for the public benefit.
(b) If the court approves the petition, the court shall:
(1) order the decision entered into the court's minutes and made part of the record; and
(2) enter whether notice has been properly served.
(c) If notice was properly served, the court's order is final.
(d) If the court disapproves the petition for the drainage system, another application for the drainage system may not be heard for one year after the date of disapproval.

Survey
Sec. 2.107. (a) The commissioners court, following its approval of the petition, shall hire a surveyor for a sum to be determined by the court at either the same meeting or at any succeeding term of the court. The surveyor must be an engineer.
(b) The surveyor shall run a line of levels along the county's public roads, measure the roads from beginning to end, and measure the distance of each waterway crossed by a public road from that waterway's beginning point. The survey and the drainage system shall be first applied to the first-class roads, followed by the second-class and third-class roads.
(c) This section does not prohibit the court from constructing one or more ditches at the same time, as the financial condition of the county will permit.

Survey: Report
Sec. 2.108. (a) The surveyor shall:
(1) as soon as practicable after his employment, proceed to make such survey and system of levels and shall cause stakes or monuments to be placed along the line at intervals of 100 feet, with intermediate stakes as may be necessary, numbered progressively;
(2) establish permanent benchmarks along the line at intervals of one mile or less as may be necessary;
(3) establish by stake or monument of a different character and appearance from all other stakes or monuments the highest point on the road between each of the natural waterways crossed by the road;
(4) measure and establish by suitable marks the frontage of each tract of land abutting on the road;

(5) if there is a natural waterway adjacent to the line of the road and ditch; and the waterway is necessary for use as an outlet for the water at any point on the ditch, measure the distance to the waterway and run the line of levels to the waterway at the nearest practicable point on the road and ditch; and

(6) prepare a map showing:

(A) the location of the ditch or ditches, together with the position of stakes or monuments with numbers corresponding with those on the ground;

(B) the location of benchmarks with their elevations referred to an assumed or previously determined datum; and

(C) the lines and boundaries of adjacent land and the courses and distances of any adjacent watercourse, together with a profile of the line of the ditch, which shall show the assumed datum and the elevation of each stake, monument, or other important feature along the line, such as the top of the banks, the bottom of all ditches or watercourses, the surface of the water, the top of the rail, the bottom of the line of embankment, and the bottom of the borrow pits of all railroads.

(b) The map prepared under Subdivision (6) of Subsection (a) of this section or the explanation accompanying the map shall:

(1) give in tabular form the depth of the cut and the width at the bottom, at the top, at the source, at the outlet, and at each 100-foot stake or monument to the ditch;

(2) show the total number of cubic yards of earth to be excavated and removed from the ditch between each natural waterway into which the water is to be conveyed;

(3) show an estimate of the cost of each portion of the ditch or ditches lying between natural waterways crossed by the road; and

(4) show an estimate of total cost of the whole work.

(c) The surveyor shall also prepare detailed specifications for the execution of the project. Whenever in his opinion it may be advantageous to run the ditch underground through drainage tiles, he shall so state in the report, map, and specifications, together with the statement of the location of the underground ditch, its length, and the dimensions or character of tiling or other material required for the underground ditch.

(d) As soon as completed, the surveyor shall file the survey, report, map, explanation, and estimate with the county clerk.
the court out of the funds set aside for the ditch before the ditch can be opened.

(e) The jury shall make a sworn report to the court, signed by at least three jurors, as soon as is practicable after its meeting. The report must include:
(1) an accurate description of each tract of land assessed with the amount of acres and the names of the owners; and
(2) the amount assessed against the tract and its owners.

(f) The jury shall also return the surveyor's report and records. The clerk shall file the jury's report and the surveyor's report and records, and they are a public record after filing.

(g) The commissioners court shall approve or reject the jury's report at the next regular or called term.

Oath of Jury

Sec. 2.111. The jury must take the following oath before assuming its duties: "I do solemnly swear that I am not directly interested in the construction of the proposed ditch, either as the owner or otherwise, or in adjacent land lying within one mile of the proposed ditch, and that I am not related to any person who is so interested. I further swear that I have no bias or prejudice toward any person directly interested in the ditch, and that I will assess the amount of expense due on and by all adjacent lands lying within one mile of the ditch, according to law, without fear, favor, hatred, or hope of reward, to the best of my knowledge and ability. So help me God."

Claims

Sec. 2.112. Any person whose land may be affected by the ditch may appear before the jury and freely express his opinion on all matters pertaining to the assessment of expense against him. The owner of the land may at the time stated in the notice or previous to that time present to the jury a written statement of any objections to or dissatisfaction with the ditch or drain and any claim for damages that he may have sustained by reason of making the ditch or drain. A failure to make the objection or claim for damages or compensation is a waiver of all claim or right to make the objection or claim. The claims or objections shall be returned to the commissioners court in connection with the report of the jury. Any adjacent landowner may appear before and be heard by the commissioners court on his protest or claim against the action of the jury.

Appeals

Sec. 2.113. (a) Any person, firm, or corporation aggrieved by an assessment may appeal from the final order of the commissioners court approving the report of the jury to any proper court within the county. The appeal is made by giving notice of appeal in open court and having the notice entered as a part of the judgment of the court and by filing a transcript of the proceeding in the commissioners court with the justice or clerk of the court to which appeal is taken. The transcript must be filed not later than the 10th day after the day the judgment is entered and must be filed with an appeal bond that has at least two good sureties. The appeal bond must be approved by the clerk or justice, be in double the amount of the probable costs to accrue, and be conditioned that the appellant will prosecute his appeal to effect and pay all costs that may be adjudged against him in the court.

(b) Appeals from an assessment of expense shall be heard on the issue of whether the assessments made against the appellant for the construction of the ditch are in proportion to the benefits to be derived from the ditch. Appeals from an assessment of compensation shall be heard on the issue of whether the assessment of compensation made by the jury is adequate to the injury occasioned and to the value of the land.

Trial on Appeal

Sec. 2.114. (a) In the trial of all appealed cases the burden of proof is on the appellant. The court or jury trying the cause shall state the correct amount of expense chargeable to appellant or the correct amount of compensation due the appellant as found by them, and that amount shall be entered as the judgment of the court. No further appeal from the judgment is allowed to either party.

(b) If the verdict of the jury finds that the appellant is chargeable with a lesser amount of expense or that the appellant is entitled to a greater amount of compensation as damages than was found by the jury of viewers, the costs shall be adjudged against the county. Otherwise the costs shall be adjudged against the appellant.

(c) Not later than the fifth day after the day of the judgment, the clerk or justice shall issue and return to the commissioners court a certified copy of the judgment. The commissioners court shall file the judgment with the papers pertaining to the ditch, and the judgment shall be entered by the commissioners court as the judgment of that court. After the commissioners court enters the judgment, the clerk or justice shall issue and return to the commissioners court a certified copy of the judgment.

Appropriation for Construction

Sec. 2.115. (a) The commissioners court, following its approval of the jury's report, may order that a portion of the road and bridge fund or the special road and bridge fund, if necessary, be set aside for the construction of the ditch described in the jury's report.

(b) The court shall order whoever is in charge of the road adjoining the proposed ditch to construct the ditch in the manner prescribed, using the earth
taken from the excavation to build a raised road adjoining the ditch. The court may hire a suitable and competent person other than the person normally in charge of the road adjacent to the proposed ditch to oversee the construction of the ditch at a sum to be ordered by the court.

(c) The court by order shall assign to whoever is in charge of constructing the ditch all county employees assigned to the road adjacent to the ditch and all equipment and materials owned by the county. The court shall further order that whoever is in charge of constructing the ditch may employ additional labor or purchase additional equipment or material to construct the ditch. This order shall show the sum due the director of construction for his services. The money required for the additional labor, equipment, or material shall be ordered paid by the jury of view and approved by the court.

Assessments

Sec. 2.116. (a) At the same term or at any succeeding term after the entry of the order for the construction of the ditches and roadway, the commissioners court shall make and enter on the minutes of the court a list showing the names of the owners, the amounts due, the tract of land, the original grantee, and the number of acres covered by each assessment of expense, as made and reported by the jury of view and approved by the court. The county clerk shall issue a certificate against any land and its owner by the jury of view or by order of court constitute a lien on the land unless prohibited by the constitution of this state. The money required for the additional labor, equipment, or material shall be ordered paid from the funds set aside from the road and bridge fund, as ordered by the court.

(b) All assessments, sums, and charges assessed against any land and its owner by the jury of view or by order of court constitute a lien on the land unless prohibited by the constitution of this state. The county judge shall deliver the certificate to the county treasurer, taking his receipt for delivery, which shall be filed with the papers and archives concerning the ditch. The county treasurer shall collect the sums due on the certificates and deposit the amount collected to the credit of the road and bridge fund. If any person against whom the certificate may be issued fails or refuses to pay the same in part or in whole, the county treasurer on demand, the treasurer shall turn the case over to the county attorney, who shall at once file suit for foreclosure of the lien on the land or for a personal judgment, as permitted by law.
(b)(1) The commissioners court may determine and fix the maximum, reasonable, and prudent speed at any road or highway intersection, railroad grade crossing, curve, or hill or on any other part of a county road slower than the maximum fixed by law for public highways. The court shall take into consideration the width and condition of the surface of the road and other circumstances on the affected portion of the road as well as the usual traffic on the road. If the commissioners court of any county determines and fixes the maximum rate of speed at any point on any county road at a slower rate than the maximum fixed by law for public highways and declares the maximum, reasonable, and prudent speed limit by proper order of the court entered on its minutes, the limit becomes effective and operative at that point on the road when appropriate signs giving notice of the speed limit are erected under order of the court for that portion of the road.

(2) The commissioners court may establish load limits for any road or bridge and may authorize the county traffic officer, if one or more officers have been appointed, or any sheriff, deputy sheriff, constable, or deputy constable to weigh vehicles for the purpose of ascertaining whether a vehicle is loaded in excess of the prescribed limit.

(e) Any person who shall deface, injure, knock down, or remove any sign or traffic control device erected under an order of the commissioners court as provided by this section commits a misdemeanor.

(f) Any person operating a motor vehicle in violation of any order of the commissioners court entered under this section or otherwise violating this section commits a misdemeanor and shall on conviction be punished by a fine not exceeding $50 for the first offense, by a fine not exceeding $200 for the second offense, and by a fine not exceeding $500 or imprisonment in the county jail not to exceed 60 days, or both for each subsequent offense.

(g) The county commissioner of any precinct, the county road superintendent of any county, or the road supervisor whose road is affected may forbid the use of highways or parts of highways, if from wet weather or recent construction or repairs they cannot be safely used without probable serious damages to the highway or if the bridge or culverts on the highway are unsafe, under the following rules: the officer shall post notices on the highway stating the maximum load permitted and the time the use is prohibited, and the notices shall be posted on the highway in places that will enable the drivers to make detours to avoid the restricted highway or portions of it.

(h) If the owner or operator of any vehicle feels himself aggrieved by an action taken under this subsection, he may complain in writing to the county judge of the county, setting forth the nature of his grievance; if the complaint is filed, the judge shall set the complaint down for a day not later than the third day after the day the complaint is filed and shall give written notice to the county judge of the day and purpose of the hearing; the judge shall hear testimony offered by the parties to the complaint and on conclusion of the hearing shall render judgment sustaining, revoking, or modifying the order or notice, and the judgment is final as to the issues raised.

(i) The owners, operators, drivers, or movers of any vehicle, object, or contrivance over a public highway or bridge are jointly and severally responsible for all damages that the highway or bridge may sustain as the result of negligent driving, operating, or moving of the vehicle or as a result of operating the vehicle at a time forbidden by the road officials; the amount of the damages may be recovered in any action at law by the county judge for the use of the county for the benefit of the damaged road; the county attorney shall represent the county in the suit.

Detour Roads

Sec. 2.302. The commissioners court has the responsibility to select and maintain detour roads and to post all necessary signs when county roads not part of the state system of highways are under construction as provided by Chapter 25, Acts of the
County Traffic Officers

Sec. 2.303. (a) The commissioners court of each county, acting in conjunction with the sheriff, may employ not more than five regular deputies, nor more than two additional deputies for special emergencies to aid the regular deputies, to be known as county traffic officers. The deputies shall enforce the highway laws of this state regulating the use of the public highways by motor vehicles. The deputies shall be, whenever practicable, motorcycle riders and shall be assigned to work under the direction of the sheriff. They shall give bond and take oath of office as other deputies. They may be dismissed from service on request of the sheriff whenever approved by the commissioners court or by the court on its own initiative, whenever the deputies’ services are no longer needed or have not been satisfactory. The commissioners court shall fix the compensation of the deputies prior to their selection and may provide at the expense of the county necessary equipment for the officers. The pay of the deputies may not be included in the settlements of the sheriff in accounting for the fees of office.

(b) For the purpose of this section, the commissioners courts of counties whose funds from the motor registration fees provided in this section amount to $30,000 or over my use an amount not exceeding five percent of the funds. The commissioners courts of other counties may use an amount not to exceed 7½ percent of the funds from the motor registration fees.

(c) The deputies shall at all times cooperate with the police department of each city or town within the county in the enforcement of the traffic laws in the city or town and in all other parts of the county. The deputies have the same right and duty to arrest violators of all laws as other deputy sheriffs have.

(d) Deputies shall be paid a salary out of the general county fund. The commissioners court is hereby authorized to provide at the expense of the county the necessary uniforms, caps, and badges, the badges to be not less than two inches by three inches in dimension, and other necessary equipment, to include a motorcycle and its maintenance, as is necessary for them to discharge their duties. The salaries paid to the deputies acting as highway officers shall be paid directly to the deputies by the commissioners court. The salaries are independent of any salary or fee paid to the sheriff and all of his deputies not so acting as highway officers, and the sheriff shall not be required to account for the salaries provided for in this section as fees of office or as salary to the sheriff or his other deputies. The deputies provided for in this section shall be appointed by the commissioners court and shall be deputized by either the sheriff or any constable of the county in which they are appointed. The deputies shall at all times when in the performance of their duties wear a full uniform with a cap and badge, the badge to be displayed on the outside of the uniform in a conspicuous place.

(e) The officers shall remain in and on the highway and shall at all times patrol the highway while in the performance of their duties, only leaving the highway to pursue an offender whom the officers were unable to apprehend on the highway itself. No arrest by an officer is binding or valid on the person apprehended if the officer making the arrest was in hiding or if he set a trap to apprehend persons traveling on the highway.

(f) No fees or charges may be made for the service of the officers nor may any fee for the arrest made by the officers be charged and taxed as costs or paid to the officers in any case in which the officers make an arrest.

(g) The officers shall perform all their duties and make arrests for violation of any law of this state pertaining to the control and regulation of vehicles operating in and on any highway, street, or alley of this state. The district engineer in whose district the officers operate shall advise the officers as to the enforcement of the various state laws pertaining to control and regulation of traffic on the highways. In case the officers do not perform their duties in enforcing the laws, the district engineer may complain to the commissioners court. On the filing of the complaint in writing, duly signed by the district engineer, the commissioners court shall summon before them for a hearing the officer or officers complained of. If the hearing develops that the officer or officers are not performing their duties as required of them, the officer or officers shall immediately be discharged from all of their duties and powers and other officers shall promptly be appointed.

SUBCHAPTER E. ROAD REGULATIONS IN SUBDIVISIONS

Real Estate Subdivisions in Counties of 190,000 or More Population

Sec. 2.401. (a) In all counties having a population of not less than 190,000, according to the last preceding or any future federal census, the commissioners courts of such counties shall have the authority to require the owner or owners of any tract of land situated outside of the boundaries of any incorporated town or city in such counties, who may hereafter divide the same in two or more parts for the purpose of laying out any subdivision of any such tract of land, or for laying out suburban lots or building lots, and streets, alleys, or parks or other portions intended for public use, or the use of purchasers or owners of lots of any such tract of land, to provide for a right-of-way of not less than 60 feet for any road or street within such subdivision.

(b) The commissioners courts of any such counties shall have the authority to promulgate reasonable specifications to be followed in the construction
of any such roads or streets within such subdivisions, which specifications may include provisions for the construction of adequate drainage for such roads or streets.

(e) The commissioners courts of any such counties shall have the authority to require the owner or owners of any such tract of land which may be so subdivided to give a good and sufficient bond for the proper construction and maintenance of such roads and streets, executed by some surety company authorized to do business in this state. Such bond shall be made payable to the county judge or his successors in office, of the county wherein such subdivision lies, and conditioned that the owner or owners of any such tract of land to be subdivided will construct any roads or streets within such subdivision in accordance with the specifications promulgated by the commissioners court of such county and will maintain such roads or streets for a period of one year from the date of the approval by such commissioners court of any map or plat of any such subdivision. The bond shall be in such amount as may be determined by the commissioners court but shall not exceed a sum equal to $8 for each linear foot of road or street within such subdivision.

(d) The commissioners courts of any such counties shall have the authority to refuse to approve and authorize any map or plat of any such subdivision unless such map or plat provides for not less than the minimum right-of-way for roads or streets as required in Subsection (a) of this section, and there is submitted with such map or plat a bond as required by Subsection (c) of this section.

Real Estate Subdivisions in Counties of Less Than 190,000 Population

Sec. 2.402. (a) In all counties having a population of less than 190,000 according to the last preceding federal census, every owner of any tract of land situated without the corporate limits of any city in the State of Texas, who may hereafter divide the same in two or more parts for the purpose of laying out any subdivision of any such tract of land, or an addition without the corporate limits of any town or city, or for laying out suburban lots or building lots, and for the purpose of laying out streets, alleys, or parks, or other portions intended for public use, or the use of purchasers or owners of lots fronting thereon or adjacent thereto, shall cause a plat to be made thereof, which shall accurately describe all of said subdivision or addition by metes and bounds and locate the same with respect to an original corner of the original survey of which it is a part, giving the dimensions thereof of said subdivision or addition and dimensions of all streets, alleys, squares, parks, or other portions of same intended to be dedicated to public use or for the use of purchasers or owners of lots fronting thereon or adjacent thereto.

(b) Every such plat shall be duly acknowledged by owners or proprietors of the land, or by some duly authorized agent of said owners or proprietors, in the manner required for acknowledgement of deeds. Subject to the provisions contained in this Act, such plat shall be filed for record and be recorded in the office of the county clerk of the county in which the land lies.

(c) The commissioners courts of any such counties may, by an order duly adopted and entered upon the minutes of the court, after a notice published in a newspaper of general circulation in the county, be specifically authorized to make the following requirements:

1. to provide for right of way on main artery streets or roads within such subdivision of a width of not less than 50 feet nor more than 100 feet;
2. to provide for right of way on all other streets or roads in such subdivision of not less than 40 feet nor more than 50 feet;
3. to provide that the street cut on main arteries within the right of way be not less than 30 feet nor more than 45 feet;
4. to provide for the street cut on all other streets or roads within such subdivision within the right of way to be not less than 25 feet nor more than 35 feet;
5. to promulgate reasonable specifications to be followed in the construction of any such roads or streets within such subdivision, considering the amount and kind of travel over said streets;
6. to promulgate reasonable specifications to provide adequate drainage in accordance with standard engineering practices for all roads or streets in said subdivision or addition;
7. to require the owner or owners of any such tract of land which may be so subdivided to give a good and sufficient bond for the proper construction of such roads or streets affected, with such sureties as may be approved by the court. In the event a surety bond by a corporate surety is required, such bond shall be executed by a surety company authorized to do business in the State of Texas. Such bond shall be made payable to the county judge or his successors in office, of the county wherein such subdivision lies, and conditioned that the owner or owners of any such tract of land to be subdivided will construct any roads or streets within such subdivision in accordance with the specifications promulgated by the commissioners court of such county. The bond shall be in such an amount as
may be determined by the commissioners court not to exceed the estimated cost of constructing such roads or streets.

(d) The commissioners court of any such county shall have the authority to refuse to approve and authorize any map or plat of any such subdivision, unless such map or plat meets the requirements as set forth in this Act, and there is submitted at the time of approval of such map or plat such bond as may be required by this Act.

CHAPTER 3. OPTIONAL METHODS OF ORGANIZING THE COMMISSIONERS COURT FOR ROAD CONSTRUCTION AND MAINTENANCE RESPONSIBILITIES

SUBCHAPTER A. COMMISSIONERS AS EX OFFICIO ROAD COMMISSIONERS

Ex Officio Commissioners

Sec. 3.001. (a) In all counties the members of the commissioners court are ex officio road commissioners of their respective precincts and under the direction of the commissioners court have charge of the teams, tools, and machinery belonging to the county and placed in their hands by the court. They shall superintend the laying out of new roads, the making or changing of roads, and the building of bridges under rules adopted by the court.

(b) Each commissioner shall first execute a bond of $3,000 payable to and to be approved by the county judge for the use and benefit of the road and bridge fund, conditioned that he will perform all the duties required of him by law or by the commissioners court and that he will account for all money or other property belonging to the county that may come into his possession.

(c) Subchapters B and C of this chapter do not apply in a county in which the commissioners court acting under Section 3.004 of this Act has adopted this subchapter.

Powers of the Commissioners Court

Sec. 3.002. (a) The commissioners court shall adopt a system for working, laying out, draining, and repairing the public roads as it considers best, and from time to time the court may change its plan or system of working. The court may purchase teams, tools, and machinery necessary for the working of public roads and may construct, grade, or otherwise improve any road or bridge by contract in the manner provided by Subchapter B of this chapter.

(b) The commissioners court may provide the necessary houses, prisons, clothing, bedding, food, medicine, medical attention, superintendents, and guards for the safe and humane keeping of county convicts working on public roads. The court may provide reasonable regulations and punishment as may be necessary to require the convicts to perform good work and may provide a reward not to exceed $10 to be paid out of the road and bridge fund for the recapture and delivery of any escaped convict to be paid to any person other than the guard or person in charge of the convict at the time of his escape.

Powers of Ex Officio Road Commissioners

Sec. 3.003. (a) Subject to authorization by the commissioners court, each ex officio road commissioner may employ persons for positions in the commissioner's precinct paid from the county road and bridge funds. Each ex officio road commissioner may discharge any county employee working in the commissioner's precinct if the employee is paid from county road and bridge funds. Each ex officio road commissioner also has the duties of a supervisor of public roads as provided by Section 2.009 of this Act.

(b) Each county commissioner, when acting as a road commissioner, shall inform himself of the condition of the public roads in his precinct, shall determine what character of work is to be done on the roads, and shall direct the manner of grading, draining, or otherwise improving the roads, which directions shall be followed and obeyed by all road overseers of his precinct.

Law Cumulative

Sec. 3.004. (a) This subchapter is cumulative of all general laws on the subject of roads, but in case of conflict with those laws, this subchapter controls.

(b) This subchapter applies to a county only if the commissioners court in its judgment considers it advisable and accepts this subchapter by an order of the court made at some regular term of the court when all the members are present. The order shall be entered in the minutes of the court and is not void for want of form. Substantial compliance with this subsection is sufficient.

SUBCHAPTER B. COURT/ROAD COMMISSIONER OR ROAD SUPERINTENDENT SYSTEM

Road Commissioners

Sec. 3.101. (a) Each commissioners court may employ not more than four road commissioners, who must be resident citizens of the district for which they are employed. If more than one is employed, the district that each road commissioner is to control shall be defined and fixed by the court. Before assuming duties, each road commissioner must execute a bond, payable to the county judge of the county and his successors in office, in the sum of $1,000, with one or more good and sufficient sureties, to be approved by the county judge and conditioned on the faithful performance of his duties.

(b)(1) A road commissioner has control over all overseers, hands, tools, machinery, and teams to be used on the roads in his district and may require overseers to order out hands in any number he may designate for the purpose of opening, working, or
repairing roads or building or repairing bridges or culverts in his district. He shall see that all roads and bridges in his district are kept in good repair. Under the direction and control of the commissioners court, he shall inaugurate a system of grading and draining public roads in his district and see that the system is carried out by the overseers and hands under his control. He shall obey all orders of the commissioners court. He shall be responsible for the safekeeping and liable for the loss or destruction of all machinery, tools, or teams placed under his control, unless the loss is without his fault, and when he is discharged he shall deliver them to the person designated by the court.

(2) He shall expend the money placed in his hands by the commissioners court under its direction in the most economical and advantageous manner on the public roads, bridges, and culverts of his district. His acts shall be subject to the control, supervision, orders, and approval of the commissioners court. He shall work the convicts and other labor as may be furnished him by the commissioners court. When he has funds in his hands to expend for labor on the roads and when it is necessary for any overseer in his district to work more than five days during any one year on the public roads, he may employ the overseer to continue his duties for the length of time as may be necessary and pay the overseer for the services provided after the five days. However, the convicts may not be required to work when there is on hand, after building and repairing bridges, a sufficient road fund to provide for the necessary work on the roads.

(3) The road commissioner shall report to the commissioners court at each regular term under oath showing an itemized account of all money he has received to be expended on roads and bridges and what disposition he has made of the money, showing the condition of all roads, bridges, and culverts in his district, and stating other facts on which the court may desire information. He shall make other reports at such time as the court may desire.

(c) The commissioners court shall see that the road and bridge fund is judiciously and equitably expended on the roads and bridges of its county. As nearly as the condition and necessity of the roads will permit, the fund shall be expended in each county commissioner's precinct in proportion to the amount collected in the precinct. Money used in building permanent roads shall first be used only on first-class or second-class roads and on those roads that have the right-of-way furnished free of cost to make as straight a road as is practicable and that have the greatest bonus offered by the citizens of money, labor, or other property.

Road Superintendents
Sec. 3.102. (a) The commissioners court of any county subject to this subchapter may appoint a competent person as road superintendent for the county or one superintendent in each commissioners precinct as it determines by an order made at a regular term of the court. The order must be entered in the minutes of the court and is not void for want of form, but substantial compliance with this subsection is sufficient. A road superintendent must be a qualified voter in the county or precinct for which he is appointed and holds office for two years or until removed by the commissioners court for good cause. No county is under the operation of this subchapter whose commissioners court does not appoint a road superintendent or superintendents.

(b)(1) Subject to the orders of the court, each superintendent has general supervision over all public roads of his county or precinct and shall superintend the laying out of new roads, the making, changing, and repairing of roads, and the building of bridges, except where otherwise contracted, and over all county convicts worked on the roads. This subsection does not prevent the commissioners court from employing a person to watch and manage the convicts and direct the work to be done by them. The road superintendent shall take charge of and be responsible for the safekeeping of all tools, machinery, implements, and teams placed under his control by the commissioners court and execute his receipt for the items, which shall be filed with the county clerk. He shall be liable for the loss, injury, or destruction of any of the tools, teams, implements, or machinery unless the loss occurred without his fault and for the wrongful or improper expenditure of any road funds coming into his hands. On leaving office, he shall deliver all the money and property to any person as the commissioners court may direct.

(2) Each superintendent shall see that all roads and bridges in his county or precinct are kept in good repair. Under the direction of the commissioners court, he shall inaugurate and carry out a system of working, grading, and draining the public roads in his county or precinct. He shall act as supervisor of the roads in his county or precinct and perform all the duties of supervisor devolving on the county commissioners in counties not adopting this subchapter. He shall do and perform other service as the court requires.

(3) Each superintendent shall make a sworn report to the court at each regular term of the court showing an itemized account of all money belonging to the road fund he has received, from whom received, what disposition he has made of the money, the condition of all roads and bridges in the county or precinct, and other matters on which the court may desire information. He shall make other reports as required by the court. Not later than the 10th day after the day of collection of any money on account of the road or bridge fund, he shall deliver the money to the county treasurer, taking his receipt for the money, and shall keep an accurate account of the money.
(4) Each road superintendent shall employ a sufficient force to enable him to do the necessary work in his county or precinct, as the case may be, having due regard for the condition of the county road and bridge fund and the quality and durability of the work to be done. He shall buy or hire tools, teams, implements, and machinery as directed by the commissioners court, and he shall work the roads in the manner directed by the commissioners court. The work at all times is subject to the general supervision of the commissioners court. He shall make the best contract possible for labor or machinery and in payment for the labor or machinery he shall issue to the entitled person his certificate showing the amount due and the purpose for which it was given. On approval by the commissioners court, a warrant shall be issued to the person, to be paid by the county treasurer out of the proper fund as other warrants. The certificates shall be dated, numbered, and signed by the road superintendent, and he and the sureties on his official bond shall be liable for all loss or damage caused by the wrongful issue of a certificate or any extravagance in the amount of a certificate.

(5) If the court so directs, each superintendent shall divide his county or precinct into road districts of convenient size to be approved by the court and shall define the boundaries of the districts and shall designate the districts by number. The boundaries shall be recorded in the minutes of the commissioners court. He shall ascertain the names of all persons subject to road duty in each district and keep a record of the persons and report the record to the commissioners court.

(c) Each road superintendent shall, not later than the 20th day after the day of his appointment, take and subscribe the oath required by the constitution and give bond payable to and to be approved by the county judge. The bond must be in the sum fixed by the commissioners court and must be conditioned that the road superintendent will faithfully perform all the duties required of him by law or the commissioners court and that he will pay out and disburse the funds subject to his control as the law provides or the court directs.

(d) Each road superintendent's salary shall be paid on the order of the court at stated intervals. The court may suspend the salary of any superintendent whose continued services are not needed.

(e) The commissioners court is authorized to purchase or hire all necessary road machinery, tools, implements, teams, and labor required to grade, drain, or repair the roads of the county. The court may make all reasonable and necessary orders and regulations not in conflict with law for laying out, working, and otherwise improving the public roads, utilize the labor and money expended on the roads, and enforce the orders and regulations.

(2) The commissioners court may, when considered best, construct, grade, gravel, or otherwise improve any road or bridge by contract, advertise for bids, and reject any bid. The contract shall be awarded to the lowest responsible bidder, who shall enter into bond with good and sufficient sureties payable to and to be approved by the county judge, in a sum determined by the court, conditioned on the faithful compliance with the contract. At the time of making the contract the court shall direct the county treasurer to pass the amount of money stipulated in the contract to a particular fund and to keep a separate account of the money. The money may be used for no other purpose and can only be paid out on the order of the court.

Donations

Sec. 3.103. The commissioners court or road commissioners may accept donations of money, land, labor, equipment, or any other kind of property or material to aid in building or maintaining roads in the county.

Injuring Property

Sec. 3.104. Any person who knowingly or wilfully destroys, injures, or misplaces any bridge, culvert, drain, sewer, ditch, signboard, or milepost or anything of like character placed on any road for the benefit of the road is liable to the county and any person injured for all damages caused by that action.

Person Authorized to Drain Land Along Public Road

Sec. 3.105. (a) The commissioners court, a road commissioner, or a road superintendent may authorize a person to make a drain along a public road for the purpose of draining the person's land. The road superintendent must have the concurrence of the commissioners court to grant the authorization.

(b) The person shall make the drain under the direction of the commissioners court, road commissioner, or the person designated by the commissioners court.

Law Cumulative

Sec. 3.106. This subchapter is cumulative of all other general laws on the subject of roads and bridges but in case of conflict with those laws, this subchapter controls.

Counties Exempt From Application of This Law

Sec. 3.107. The counties of Angelina, Aransas, Blanco, Bowie, Calhoun, Camp, Cass, Cherokee, Comal, Dallas, Delta, DeWitt, Fayette, Franklin, Galveston, Gillespie, Grayson, Gregg, Harris, Harrison, Henderson, Hill, Hopkins, Houston, Jack, Hardeman, Lamar, Lavaca, Limestone, McLennan, Milam, Montgomery, Morris, Nacogdoches, Newton, Panola, Parker, Rains, Red River, Refugio, Sabine, San Augustine, Shelby, Smith, Tarrant, Titus, Travis, Trinity, Tyler, Upshur, Van Zandt, Victoria, Washington, and Wood are exempt from this subchapter. However, the commissioners courts of Dallas and Collin counties may accept and adopt this subchapter instead of the special acts for Dallas.
or Collin county, if in its judgment, the provisions of this subchapter are better suited to Dallas or Collin county than the special laws.

**SUBCHAPTER C. COURT/ENGINEER SYSTEM**

**Adoption of Optional County Road System**

Sec. 3.201. (a) By a majority vote of its qualified voters, any county at an election held for that purpose may adopt this subchapter for the construction and maintenance of county roads and bridges and for the expenditure of the county road and bridge fund.

(b) The commissioners court shall submit the question to the qualified voters of the county at a general or special election if it receives a petition of the qualified voters of the county in a number equal to 10 percent of the number voting for governor at the last preceding general election in the county. The court shall order the election to be held on the next uniform election date authorized by Section 9b, Texas Election Code, as amended (Article 2.01b, Vernon's Texas Election Code), that occurs after the 30th day after the day the petition is filed with the commissioners court. The ballot for the election shall be printed to permit voting for or against the proposition: "Adopting the Optional County Road System in _________ County."

(c) If the majority of the votes cast at the election favor adoption, this subchapter becomes effective in the county with the official proclamation of the results of the election. In like manner, a county that votes to come under this subchapter may vote to abandon this subchapter. No election on the questions of adopting or abandoning this subchapter may be held more often than every two years.

**Organization of System**

Sec. 3.202. The construction and maintenance of county roads is vested in the county road department, which shall include the commissioners court as the policy-determining body, the county road engineer as the chief executive officer, other administrative personnel, and road employees.

**System Based on Whole County**

Sec. 3.203. The construction and maintenance of county roads, the ownership and use of all county road department equipment, materials, and supplies, and the administration of the county road department shall be on the basis of the county as a whole without regard to commissioners precincts.

**Appointment of County Road Engineer**

Sec. 3.204. The county road engineer shall be appointed by the commissioners court. He must be a licensed professional engineer experienced in road construction and maintenance and must meet the qualifications required by the State Department of Highways and Public Transportation for its county engineers. If the commissioners court is not able to employ a licensed professional engineer for any reason, the commissioners court may employ a qualified road administrative officer, who is to be known as the county road administrator, to perform the duties of the county road engineer. The county road administrator must have had experience in road building or maintenance or other types of construction work qualifying him to perform the duties imposed on him, but it is not necessary that he have had any fixed amount of professional training or experience in engineering work. The county road administrator shall perform the same duties as are imposed upon the county road engineer, and all references in other sections of this subchapter to the county road engineer include and apply to the county road administrator.

**Compensation**

Sec. 3.205. The county road engineer shall receive an annual salary to be paid in 12 equal monthly installments out of the road and bridge fund of the county.

**Term and Removal**

Sec. 3.206. The county road engineer holds his position for an indefinite term and may be removed by a majority vote of the commissioners court. Removal does not become effective until the 30th day after the day he receives notice in writing of the intention of the commissioners court to remove him. The court shall hold a public hearing on the question of his removal before the removal becomes effective if the hearing is requested in writing by the county road engineer.

**Inability to Perform Duties**

Sec. 3.207. In the absence or inability of the county road engineer to perform his duties, the commissioners court may designate a qualified administrative officer to perform the duties of county road engineer during the absence or inability.

**Duties**

Sec. 3.208. (a) The county road engineer is responsible to the commissioners court for the efficient and economical construction and maintenance of the county roads. He may appoint for an indefinite term and remove all county road department personnel, subject to the approval of the commissioners court. He may authorize certain administrative personnel to employ and remove subordinates or employees under their respective direction. Except for the purpose of inquiry, the commissioners court shall deal with the county road department’s administrative personnel and employees through the county road engineer.

(b) The county road engineer shall attend all meetings of the commissioners court when it sits to consider county road matters. The county road engineer has the right to participate in the discussion and to make recommendations. He shall see that the policies of the commissioners court relating
to county roads are faithfully executed, supervise the administration of the county road department, and prepare detailed annual budget estimates for the construction and maintenance of the county roads and the operation of the county road department. The county road engineer shall prepare estimates and specifications for all equipment, materials, supplies, and labor necessary for the construction and maintenance of the county roads and the operation of the county road department, serve as custodian for all equipment, materials, and supplies belonging to the county road department, prepare plans and specifications for all county road construction and maintenance, maintain cost-accounting records on county road department expenditures, keep a perpetual inventory of all county road department equipment, material, and supplies, and perform other duties that are required by the commissioners court and are consistent with this subchapter.

Inspections
Sec. 3.209. On projects of county road construction and maintenance let to private contractors, the county road engineer is the representative of the county in inspecting the progress of the work. Before a claim for county road construction or maintenance done by private contractors may be ordered paid by the commissioners court, the county road engineer must certify in writing the correctness of the claim and must certify that the work done conforms to the plans and specifications called for in the contract.

Funding
Sec. 3.210. All expenditures for the construction and maintenance of the county roads and the operation of the county road department shall be paid out of the road and bridge funds strictly in accordance with annual budgeted appropriations. However, on application of the county road engineer, the commissioners court may transfer any part of any unencumbered appropriation balance for some item within the road and bridge fund budget to some other item.

Competitive Bidding
Sec. 3.211. All equipment, materials, and supplies for the construction and maintenance of county roads and for the county road department shall be purchased by the commissioners court on competitive bids in conformity with estimates and specifications prepared by the county road engineer. However, on recommendation of the county road engineer and when in the judgment of the commissioners court it is considered in the best interest of the county, purchases in an amount not to exceed $1,000 may be made through negotiation by the commissioners court or the commissioners court's authorized representative on requisition to be approved by the commissioners court or the county auditor without advertising for competitive bids. Before any claim covering the purchase of the equipment, materials, and supplies and for any services contracted for by the commissioners court may be ordered paid by the commissioners court, the county road engineer must certify in writing the correctness of the claim and must certify that the respective equipment, materials, and supplies were delivered in good condition, and that any road department services contracted for by the commissioners court have been satisfactorily performed. This section does not permit the division or reduction of purchases for the purpose of avoiding the requirement of taking formal bids on purchases that would otherwise exceed $1,000.

Bonding
Sec. 3.212. The county road engineer and other administrative personnel of the county road department as required by the commissioners court shall give bond in an amount and with surety approved by the commissioners court. The premiums on the bonds shall be paid by the county.

Oath
Sec. 3.213. The county road engineer must take the official oath of office.

1) one-fifth of the money appropriated is allocated on the basis of area, determined by the ratio of the area of the county to the area of the state;
2) two-fifths of the money appropriated is allocated on the basis of rural population according to the most recent federal census, determined by the ratio of the rural population of the county to the rural population of the state; and

(c) On its own motion or at the request of a county, the State Highway and Public Transportation Commission may have a survey made of the county's lateral road mileage. If a survey is made its results shall be substituted for the correspond-

(h) On request by a county the State Highway and Public Transportation Commission shall provide technical and engineering assistance in making surveys, preparing plans and specifications, preparing project proposals, and supervising construction. The cost of this assistance shall be paid by the county.

Farm-to-Market Road Fund

Sec. 4.002. (a) The farm-to-market road fund is established for financing the construction of farm-to-market roads by the State Department of Highways and Public Transportation.

(b) The State Department of Highways and Public Transportation shall use the money transferred to the farm-to-market road fund under Article 4834a, Revised Statutes, as amended, and other funds made available to the department for such purposes so that not less than $23 million each year is used for the construction of additional miles of newly designed farm-to-market roads, meaning roads in rural areas, including feeder roads, secondary roads, school bus routes, rural mail routes, milk routes, and others, which roads and routes are not a part of the designated state highway system or the designated primary federal aid highway system.

(c) The farm-to-market road fund shall be used for a system of roads selected by the State Department of Highways and Public Transportation after consultation with the commissioners courts of the counties of the state relative to the most needed unimproved rural roads in the counties. The selections shall be made in a manner to ensure equitable and judicious distribution of funds and work among the several counties of the state.

(d) The general characteristics of the roads to be selected are as follows:

(1) the roads shall not be potential additions to the federal aid primary highway system;

(2) the roads shall serve rural areas primarily and shall connect farms, ranches, rural homes, and sources of natural resources such as oil, mines, timber, and water loading points, schools, churches, and points of public congregation, including community developments and villages;

(3) the roads shall be capable of assisting in the creation of economic values in the areas served;

(4) the roads shall preferably serve as public school bus routes or rural free delivery postal routes or both; and

(5) the roads shall be capable of early integration with the previously improved Texas road system, and at least one end should connect with a road already or soon to be improved on the state system of roads.

County Road and Bridge Fund

Sec. 4.003. (a) Article VIII, Section 9, of the Texas Constitution, as amended, gives counties the authority to establish a county road and bridge fund and to use a portion of its general revenue as a source of money for the fund, subject to the limitation on tax rates described in that article. That article, with limitations, permits counties to levy an additional tax for the road and bridge fund if that tax is approved by the voters in a manner described by Section 4.102 of this Act.

(b) Money in the road and bridge fund may be spent only by order of the commissioners court, except when otherwise provided and only for working public roads or building bridges. The court may make the necessary orders for utilizing the money and for exercising labor for these purposes.

(c) The county's share of funds collected from the registration of motor vehicles that is deposited in the county road and bridge fund shall be determined according to Chapter 88, General Laws, Act of the 41st Legislature, 2nd Called Session, 1929, as amended (Article 6675a-10, Vernon's Texas Civil Statutes), or a future law.
SUBCHAPTER B. TAXES

Authority to Levy Tax

Sec. 4.101. The commissioners court of each county may levy a tax, part of the revenue from which may be used to establish the road and bridge fund, as long as the limitations in Article VIII, Section 9, of the Texas Constitution, as amended, are observed.

Special Road Tax

Sec. 4.102. (a) On presentation to the commissioners court at any regular session of a petition signed by 200 qualified voters of the county or a petition of 50 persons so qualified in any political subdivision or defined district of the county requesting the election, the court shall order an election to determine whether the county shall levy a road tax not to exceed 15 cents on the $100 value of property under the provisions of the amendment of 1889 to the constitution of the State of Texas, adopted in 1890. The court may act on the petition without notice and may make an order for the election, fixing the amount to be levied, not to exceed 15 cents on the $100. The court shall order the election to be held on the next uniform election date authorized by Section 9b, Texas Election Code, as amended (Article 2.01b, Vernon's Texas Election Code), that occurs after the 20th day after the day the order is made. On a petition signed by a majority of the qualified voters of any portion of any county or of any political subdivision of any county to the court requesting that the portion of the county or political subdivision be created as a defined district, the court shall declare the territory a defined district and record the order for the district in the minutes of the court. The petition must define by metes and bounds the territory desired to be incorporated in the defined district.

(b) No formal notice need be given of the election, but the county judge shall issue an election proclamation. Notice of the election shall be published in the newspapers of the county or political subdivision or defined district as fully as practicable. Ballots for the election shall be printed by the county and sent to each voting precinct by the county judge before the election opens and as long before that time as practicable. The ballots shall be printed to provide for voting for or against the proposition: "Adopting a road tax." The expenses of the election shall be paid for by the county. The special election shall be conducted as other elections to the extent practicable. The officers to conduct the same shall be appointed as in other cases. Only qualified voters in the county or political subdivision or defined district shall be permitted to vote at the election.

(c) If at the election a majority of the qualified voters voting on the question vote for the tax, it is not necessary to make further proclamation of that fact than to count the votes, as in other cases, and officially announce the result, and the commission-
and in constructing and maintaining farm-to-market and lateral roads.

(e) The funds transferred to the flood control fund are under the jurisdiction and control of the commissioners court of the county and shall be used solely for flood control purposes. All or part of the funds may be used in connection with the plans and programs of the federal Soil Conservation Service and the state soil conservation districts and the state extension service, conservation and reclamation districts, drainage districts, water control and improvement districts, navigation districts, flood control districts, levee improvement districts, and municipal corporations. The funds may be expended by the commissioners court in accordance with this section for flood control purposes, including all soil conservation practices such as contouring, terracing, and tank building, and all other practices actually controlling and conserving moisture and water, within the county and political subdivisions of the county for flood control and soil conservation programs. The plans for improvement must be approved by the county and political subdivision.

(f) To this end, the commissioners court may in its discretion engage the services of a federal or state soil conservation engineer or of extension service personnel in devising and planning a soil, water, erosion, and drainage program coming within the purview of this section and consistent with the expenditure of the funds for flood control purposes only and may acquire whatever machinery, equipment, and material is useful and necessary in carrying out the flood control program. The machinery and equipment shall be made available to farm and ranch owners for purposes consistent with the provisions of this section on an out-of-pocket expense basis, not including depreciation.

(g) Both the farm-to-market and lateral road fund and the flood control fund shall be expended so as to equitably distribute as nearly as possible the benefits derived from the expenditures to the various commissioners' precincts in accordance with the taxable values in the precincts.

(h) Before any county may levy, assess, and collect the tax provided for in this section, the commissioners court shall submit the question to a vote of the qualified voters of the county at an election called for that purpose, either on the commissioners court's own motion or on petition of 10 percent of the qualified voters of the county as shown by the returns of the last general election. The election shall be ordered at a regular session of the commissioners court and the order shall specify the rate of tax to be voted on, not to exceed 30 cents on each $100 valuation of taxable property within the county, shall state the date when the election shall be held, and shall appoint officers to hold the election in accordance with the election laws of this state. The proposition submitted to the qualified voters at the election may provide that the tax at a rate not to exceed 30 cents on each $100 valuation may be used for the construction and maintenance of farm-to-market and lateral roads or for flood control purposes, either or both, as the commissioners court may determine (in which event the ballots shall be printed to permit voting for or against the proposition: "Adopting a tax not exceeding — cents on each $100 valuation," specifying the tax to be voted on), or the proposition may provide for a specific maximum tax for farm-to-market and lateral roads purposes and a specific maximum tax for flood control purposes, the total of the two specific maximum taxes not to exceed 30 cents on the $100 valuation (in which event the ballots shall be printed with the proposition: "Adopting a farm-to-market and lateral roads tax not exceeding — cents and a flood control tax not exceeding — cents, on the $100 valuation"). Elections may subsequently be called and held in the same manner for the purpose of changing the amount of the maximum tax within the limit of 30 cents on the $100 valuation or for changing the amounts of the maximum specific tax voted for each purpose.

(i) The county judge shall cause notice of the election to be posted at a public place in each voting precinct in the county not later than the 14th day before the day of the election and to be published on the same day in each of two successive weeks in a newspaper of general circulation published within the county, the date of the first publication to be not later than the 14th day before the day of the election, which notice shall be a substantial copy of the election order. Only those shall be entitled to vote at the election who are qualified voters in the county.

(j) If a majority of the qualified voters voting at the election vote in favor of the tax, the tax shall be annually levied, assessed, and collected as other county ad valorem taxes are levied, assessed, and collected.

(k) After an election has been held under Subsections (h) and (i) of this section, at which election a majority of the qualified voters voting at the election voted in favor of the tax, the commissioners court may issue either negotiable county bonds or county time warrants for the purpose of the construction or improvement of farm-to-market and lateral roads or for the purpose of constructing permanent improvements for flood control purposes. However, the bonds or warrants must have been authorized by a majority of the qualified voters voting at an election called by the commissioners court. The bonds and warrants shall be issued and the taxes levied and collected in accordance with Chapter 1, Title 22, Revised Statutes, and each proposition shall be separately submitted to the voters at the election.

SUBCHAPTER C. FEES AND FINES

Disposition of Fines

Sec. 4.201. Fines collected for violations of any highway law that was previously set forth in Chap-
ter 1, Title 13, Vernon's Texas Penal Code, 1925, shall be used by the municipality or the counties in which the fines are assessed and to which the fines are payable in the construction and maintenance of roads, bridges, and culverts in the municipality or county, for the enforcement of the traffic laws regulating the use of the public highways by motor vehicles and motorcycles, and to help defray the expense of county traffic officers.

County Share of Vehicle Registration Fee

Sec. 4.202. (a) As compensation for his services under the laws relating to the registration of vehicles, each county tax assessor-collector shall receive a uniform fee of $1.50 for each of the receipts issued each year pursuant to those laws. The compensation shall be deducted weekly by each county tax assessor-collector from the gross collection made pursuant to this Act and other laws relating to registration of vehicles.

(b) Out of the compensation allowed the county tax assessors-collectors, they shall pay the entire expense of issuing all license receipts and license plates issued pursuant to this Act. The county tax assessors-collectors may collect an additional service charge of $1 from each applicant desiring to register or reregister by mail. This service charge shall be used to cover the cost of handling and postage to mail the registration receipt and insignia to the applicant.

(c) The State Department of Highways and Public Transportation may adopt rules to cover the timely application for and issuance of registration receipts and insignia by mail.

Transfer of Surplus Funds From Registration Fees

Sec. 4.203. The commissioners court of any county not levying a tax for building and maintaining roads and bridges and having surplus funds from revenues derived from motor vehicle registration fees is authorized to transfer the surplus to any county fund that the court may designate and to expend the surplus for any use or purpose.

SUBCHAPTER D. CONDEMNATION

Condemnation of Right-of-Way and Materials by the Commissioners Court for the State Highway System

Sec. 4.301. (a) Whenever, in the judgment of the State Highway and Public Transportation Commission, the use or acquisition of any land for road or right-of-way purposes, timber, earth, stone, gravel, or other material is necessary or convenient to any road to be constructed, reconstructed, maintained, widened, straightened, or lengthened, or land not exceeding 100 feet in width for streambed diversion in connection with the locating, relocating, or construction of a designated state highway or land or material, with title to the county road and bridge fund or out of any special road funds or any available county funds.

(b) Any commissioners court may secure by purchase or by condemnation on behalf of the State of Texas any new or wider right-of-way or land not exceeding 100 feet in width for streambed diversion in connection with the locating, relocating, or construction of a designated state highway or land or lands for material or borrow pits to be used in the construction, reconstruction, or maintenance of state highways and may pay for the acquisition out of the county road and bridge fund or out of any special road funds or any available county funds. This authority includes the power to exercise the right of eminent domain by any commissioners court within the boundaries of a municipality with the prior consent of the governing body of the municipality. The State Highway and Public Transportation Commission shall furnish to the commissioners court the plats or field notes of the right-of-way or land and the description of the materials as may be required, after which the commissioners court may purchase or condemn the right-of-way or land or material, with title to the State of Texas, in accordance with the field notes. In the event of condemnation by the county, the procedure shall be the same as that set out in Title 52, Articles 3264 to 3271, Revised Statutes. If the right-of-way in any county is in the judgment of the State Highway and Public Transportation Commission necessary for the construction of a part of a designated state highway and the commissioners court of that county fails or refuses to secure by purchase or by condemnation for or on behalf of the State of Texas the right-of-way or part of it, immediately and as speedily as possible, after being served with a copy of an order of the State Highway and Public Transportation Commission identifying by field notes the part of the highway necessary for the construction of the designated state highway and requesting the commissioners court to secure the right-of-way, then not later than the 10th day after the day the notice is served the State Highway and Public Transportation Commission shall direct the attorney general to institute condemnation proceedings in the name of the State of Texas for the purpose of securing the right-of-way. The condemnation proceedings shall be instituted by the county or district attorney of the county in which the land is situated and the venue of the proceedings shall be in the county in which the land is situated, and jurisdiction and authority to appoint three disinterested landowners of the county as commissioners is conferred on the county judge of the county in which the land is situated, and otherwise the condemnation shall be according to the provisions of Title 52, Articles 3264 to 3271, Revised Statutes.
(c) In the acquisition of all rights-of-way authorized and requested by the State Department of Highways and Public Transportation in cooperation with local officials for all highways designated by the State Highway and Public Transportation Commission as United States or state highways, the State Department of Highways and Public Transportation is authorized and directed to pay to the counties and cities not less than 90 percent of the value as determined by the State Department of Highways and Public Transportation of the requested right-of-way or the net cost of the right-of-way, whichever is the lesser amount. If condemnation is necessary, the participation by the State Department of Highways and Public Transportation shall be based on the final judgment, conditioned that the department has been notified in writing prior to the filing of the suit and prompt notice is also given as to all action taken in the suit. The department has the right to acquire the right of-way for the highways as are requested and authorized by the State Department of Highways and Public Transportation as provided by existing laws, and in the event condemnation is necessary, the procedure shall be the same as that set out in Title 52, Articles 3264 to 3271, Revised Statutes.

(d) A county or city is authorized and directed to acquire the right-of-way for the highways as are requested and authorized by the State Department of Highways and Public Transportation shall be based on the findings and assessment of damages by the commissioner appointed for that purpose may not suspend work by the county in connection with which the land, right-of-way, or easement is sought to be acquired. In case of appeal, counties may not be required to give a bond for costs or other purposes.

Cost of Relocating or Adjusting Eligible Utility Facilities in Right-of-Way Acquisition
Sec. 4.400. The county should include the cost of relocating or adjusting eligible utility facilities in the expense of right-of-way acquisition.

SUBCHAPTER E. PUBLIC ROAD BONDS
PART 1. GENERAL PROVISIONS
Investment of Sinking Fund
Sec. 4.401. The commissioners court may invest sinking funds accumulated for the redemption and payment of any bonds issued by the county, political subdivision, road district, or defined district of the county in bonds of the United States, of Texas, or any county in this state, or any school district or road district of this state, or any incorporated city or town of this state, in bonds of the Federal Farm Loan Bank system, or in war-savings certificates or certificates of indebtedness issued by the secretary of the treasury of the United States. No bonds may be purchased that according to their terms mature at a date subsequent to the time of maturity of the bonds for the payment of which the sinking fund was created.

Interest on Investments
Sec. 4.402. All interest on the investments shall be applied to the sinking fund to which it belongs, and the use of the funds for any other purpose is considered a diversion of the funds and shall be punished as provided by Section 36.01, Penal Code.

Cancellation or Revocation of Unsold Road Bonds
Sec. 4.403. (a) In the event any road bonds voted or issued or any portion of the road bonds voted or authorized by a county, political subdivision, or defined district of the county remain unsold on September 22, 1932, the commissioners court may on its own motion or on petition of not less than 50 or a majority of the qualified voters of the governmental entity order an election to determine whether or not the road bonds shall be revoked or cancelled. The election shall be ordered, held, and conducted in the same form and manner as that at which the bonds were originally authorized.

(b) The result of the election, whether favorable to the cancellation of the bonds or not, shall be duly
returns and the result duly entered of record in the
minutes of the court. In the event the result of the
election for the cancellation and revocation of the
unsold bonds shows that two-thirds of the qualified
voters of the county, political subdivision, or defined
district of the county voting at the election have
voted for the cancellation and revocation of the
unsold bonds, the commissioners court shall cancel
and burn the bonds and forward to the comptroller
a certified copy of the minutes showing the destruc­
tion and cancellation. The comptroller shall prompt­
ly cancel and registration of the bonds on the
records of his office.

(c) When the bonds have been destroyed, the com­
misssioners court shall readjust the existing tax lev­
ies in the county, political subdivision, or defined
district by any amount equal to that levied or pro­
posed to be levied for the interest and sinking fund
accounts of the bonds to be cancelled.

(d) After deducting the compensation of the tax
assessor, tax collector, and county treasurer and
any other claims properly chargeable against the
taxes, the unexpended part of all taxes that have
been collected, with a view to the sale of the bonds
as destroyed, shall be refunded to the taxpayers
ratably on order of the commissioners court. The
county treasurer shall take and file proper receipts
for all funds so refunded. In the event there shall
remain an unclaimed surplus of the taxes, after a
period of 20 years and after a diligent effort has
been made to return the unclaimed surplus, the
surplus may be used by the county, political subdivi­
sion of the county, or any local district that has
been or may be created by any general or special
law for the purpose of the maintenance, operation,
and improvement of macadamized, graveled, or
paved roads as may be determined by the commis­
sioners court of any county or the officials of any
political subdivision of a county or any road district.

(e) The expense of holding the election shall be
paid out of the general fund of the county.

(f) This section does not invalidate any bond elec­
tion or bonds that have been sold by the county,
political subdivision, or defined district.

Election for Repurchase and Cancellation of Bonds

Sec. 4.404. (a) In the event unexpended and un­
pledged money realized from the sale of any road
bonds voted or issued by any county, political subdivi­
sion, or defined district of the county remains to
the credit of the county, political subdivision, or
defined district voting or issuing the bonds, the
commissioners court or petition of not less than 50
of the qualified voters of the governmental entity
shall order an election to determine whether or not
the road bonds to the extent of the unexpended and
unpledged money remaining to the credit of the
county, political subdivision, or defined district of
the county shall be repurchased and on the repur­
chase, cancelled and revoked. The election shall be
ordered, held, and conducted in the same manner
and form as that at which the bonds were originally
authorized.

(b) The result of the election, whether favorable
to the repurchase, cancellation, and revocation of
the bonds or not, shall be duly recorded by the
commissioners court and the result entered in the
records of the court. In the event the result of the
election for the repurchase, cancellation, and revoca­
tion of the bonds shows that two-thirds of the
qualified voters of the county, political subdivision,
or defined district of the county voting at the elec­
tion have voted for the repurchase, cancellation, and
revocation of bonds, the commissioners court may
advertise for and purchase the outstanding bonds
from the holders and on completion of the purchase
shall cancel and burn the bonds so purchased and
forward to the comptroller of public accounts a
certified copy of the minutes showing the purchase,
destruction, and cancellation. The comptroller shall
promptly cancel the registration of the bonds on the
records of his office to the extent of the amount so
repurchased, cancelled, and destroyed.

(c) The expense of holding the election shall be
paid out of the general funds of the county.

(d) This section does not invalidate any bond elec­
tion or bonds that have been sold by the county,
political subdivision, or defined district.

PART 2. COUNTY AND DISTRICT BONDS

Power to Issue Road Bonds; Surplus in Sinking Fund

Sec. 4.411. (a) In this part, “political subdivi­
sion” means any commissioners precinct or any
justice precinct of a county.

(b) Any county or any political subdivision of a
county or any road district may issue bonds for the
purpose of the construction, maintenance, and oper­
ation of macadamized, graveled, or paved roads and
turnpikes or in aid of these purposes in any amount
not to exceed one-fourth of the assessed valuation
of the real property of the county, political subdivi­
sion, or road district and may levy and collect ad
valorem taxes to pay the interest on the bonds and
provide a sinking fund for the redemption of the
bonds. The bonds shall be issued in the manner
provided in this part and as contemplated and autho­
rized by Article III, Section 62, of the Texas Consti­
tution.

(c) When the principal and all interest on the
bonds are fully paid, in the event there is any
surplus remaining in the sinking fund, the remain­
ing surplus not used in the full payment of the
principal and interest on the bond or bonds may be
used by the county, political subdivision of the coun­
ty, or any road district for the purpose of the
construction, maintenance, and operation of maca­
damized, graveled, or paved roads and turnpikes or
in the aid of these purposes or for any other lawful
permanent improvement as may be determined by
the commissioners court of any county or the offi­
Bond Elections

Sec. 4.412. On the petition of the qualified voters of any county equivalent in number to one percent or more of the total votes cast in the county in the last preceding general election for governor, the commissioners court of the county at any regular or special session shall order an election to be held in the county to determine whether or not the bonds of the county shall be issued for the purpose of the construction, maintenance, and operation of macadamized, graveled, or paved roads and turnpikes or in aid of these purposes and whether or not taxes shall be levied on all taxable property of the county subject to taxation, for the purpose of paying the interest on the bonds and to provide a sinking fund for the redemption of the bonds at maturity. However, if the petition designates any particular road or roads, project or projects, or any portion or portions of a road or project, the petition shall be accompanied with a written estimate of the cost of the roads or projects prepared by the county engineer at county expense. In lieu of the petition process described in this section the commissioners court of a county may by majority vote order the election. The election order and notice of election shall state the purpose for which the bonds are to be issued, the amount of the bonds, the rate of interest, and the fact that ad valorem taxes are to be levied annually on all taxable property within the county sufficient to pay the bonds at maturity.

Establishment of Road Districts

Sec. 4.413. (a) The county commissioners courts may establish one or more road districts in their respective counties and may or may not include within the boundaries and limits of the districts, villages, towns, and municipal corporations or any portion of a village, town, and municipal corporation and may or may not include previously created road districts and political subdivisions or precincts that have voted and issued road bonds pursuant to Article III, Section 52, of the Texas Constitution, by entering an order declaring the road district established and defining the boundaries of it.

(b) This part does not prevent the creation of defined road districts and the issuance of bonds of districts in counties having outstanding countywide road bonds. The defined road districts may be created in the counties in the manner provided by statute for the creation of defined road districts and issuing the bonds of the districts.

Abolishment of Dormant Road Districts

Sec. 4.414. When any road district in any county in this state has paid off and discharged all of the bonds issued and sold by the road district, or when an election to issue bonds in the road district has failed by a vote of the people and the road district has issued no bonds, and no further election has been held in the road district for a period of one year from date of its creation, or when the bonds issued by the road district have been assumed and exchanged for county bonds under the compensation bond statutes, Chapter 16, General Laws, 39th Legislature, 1st Called Session, 1926, and in the opinion of the commissioners court of the county the road district has become dormant and there exists no further necessity for the road district, the commissioners court of any county may by an order passed abolishing the road district abolish the road district, and it shall then cease to exist.

Road District Including Portion of Previous Road District Containing Other Improvement District

Sec. 4.415. If any road district, a portion of which is proposed to be incorporated into a new road district, should embrace the whole or any part of any levee improvement district, drainage district, or other improvement district created under any law passed pursuant to Article III, Section 52, of the Texas Constitution, the territory covered by the other district and other adjacent territory may be excluded from the district sought to be created. Except as specifically permitted in this subchapter, no fractional part of a previously created road district shall be included within the limits of the road district created under this subchapter. The excluded territory shall continue to bear and pay its proper proportion or any existing debt created for the construction of macadamized, graveled, or paved roads and turnpikes or in aid of these purposes, but may not pay any portion of any debt created for these purposes after the territory is excluded from the district.

Petition for Election

Sec. 4.416. (a) If any political subdivision or any road district desires to issue bonds, there shall be presented to the commissioners court of the county in which the subdivision or district is situated, a petition signed by 50 or a majority of the qualified voters of the subdivision or road district praying the court to order an election to determine whether or not the bonds of the subdivision or district shall be issued to an amount stated for the purpose of the construction, maintenance, and operation of macadamized, graveled, or paved roads and turnpikes or in aid of these purposes and whether taxes shall be levied on all taxable property within the subdivision or district in payment of the bonds.

(b) On presentation of the petition, the court to which it is presented shall fix a time and place at which the petition shall be heard, which date shall be not less than 15 nor more than 30 days after the date of the order. The clerk of the court shall immediately issue a notice of the time and place of hearing. The notice must inform all concerned persons of the time and place of hearing and of their right to appear at the hearing and contend for or protest the ordering of the bond election. The notice must state the amount of bonds proposed to
be issued, describe the political subdivision or road district by its name or number, and describe the boundaries of the subdivision or district as those boundaries are described and defined in the order of the commissioners court establishing the subdivision or district. The clerk shall execute the notice by posting copies of it in three public places within the subdivision or road district and one at the courthouse door of the county. The notice shall be posted for at least 10 days prior to the date of the hearing. The notice shall also be published in a newspaper of general circulation in the subdivision or district, if a newspaper is published in that area, one time, and at least five days prior to the hearing. If no newspaper is published in the subdivision or district, the notice shall be published in some newspaper published in the county, if there be one.

(c) The duties imposed by this subchapter on the clerk may be performed by the clerk in person or by deputy as provided by law for other similar duties.

Hearing and Determination

Sec. 4.417. At the time and place set for the hearing of the petition or a subsequent date as may be fixed, the court shall proceed to hear the petition and all matters in respect of the proposed bond election. Any interested person may appear before the court in person or by attorney and contend for or protest the calling of the proposed bond election. The hearing may be adjourned from day to day and from time to time as the court may consider necessary. If on the hearing of the petition the court finds that the petition is signed by 50 or a majority of the qualified voters of the subdivision or road district, that due notice has been given, and that the proposed improvements would be for the benefit of all taxable property situated in the subdivision or road district, the court may issue and cause to be entered of record in its minutes an order directing that an election be held within and for the subdivision or road district at a date to be fixed in the order for the purpose of determining the questions mentioned in the petitions. However, the court may change the amount of the bonds proposed to be issued, if on the hearing the change is found necessary or desirable. The proposition to be submitted at the election shall specify the purpose for which the bonds are to be issued, the amount of the bonds, the rate of interest, and the fact that ad valorem taxes are to be levied annually on all taxable property within the district or subdivision sufficient to pay the annual interest and provide a sinking fund to pay the bonds at maturity.

Notice of Election

Sec. 4.418. If the proposed issue of bonds and levy of taxes is for the entire county, notice of the election shall be given by publication in a newspaper published in the county, for three successive weeks, if there be one. In addition, for at least three weeks prior to the election, notice shall be posted by the county clerk at four public places in the county, one of which shall be the courthouse door.

Election in Political Subdivision or Road District

Sec. 4.419. If the proposed issue of bonds and levy of taxes is for a political subdivision or road district, notice of the election shall be given by publication in a newspaper in the subdivision or district for three successive weeks and by posting notices in at least three public places in the subdivision or district and at the courthouse door of the county. If no newspaper is published in the subdivision or district, the published notice shall be given in some newspaper published in the county, if there be one.

Place of Holding Election in Subdivisions

Sec. 4.420. The commissioners court shall determine the time and place or places of holding the election, and the date of the election shall be the next uniform election date authorized by Section 9b, Texas Election Code, as amended (Article 2.01b, Vernon’s Texas Election Code), that occurs after the 30th day after the day the order is made.

Manner of Holding Election

Sec. 4.421. The manner of holding the election and canvassing and making returns shall be governed by the general laws of this state when not in conflict with the provisions of this subchapter.

Issuance of Bonds

Sec. 4.422. If at the election two-thirds of the voters voting at the election cast their ballots in favor of the issuance of bonds, the commissioners court shall, as soon thereafter as practicable, issue the bonds on the faith and credit of the county, political subdivision, or road district as the case may be.

Maturity Dates and Interest Rate

Sec. 4.423. The bonds shall mature not later than 30 years from their date, except as otherwise provided in this subchapter. (b) It is hereby expressly found that the property in all political subdivisions and road districts the bonds of which are validated by this section will be benefited by the improvements proposed to be made with the proceeds of the bonds to an amount not less than the taxes that will be levied against the property for the purpose of paying principal of and interest on the bonds.

The court may provide that the eligibility of the bonds being refunded shall be distributed among the various series of refunding bonds in the amounts, or none, as may be agreed on. The eligibility, in dollars and cents, of bonds whose owners do not agree to the distribution shall not be affected.

the election, the conduct of the election, canvassing

manner affect the debt or lien, evidenced by any legally outstanding
road bonds issued by any road district or road
districts, all or any part of which is embraced within
the boundaries of the road district or political subdivi-
sion the bonds of which are validated. The bonds
so outstanding shall be and remain the debt and

counties containing the road district may continue

the purpose of paying the principal and interest on

Validation of Road Bonds

Sec. 4.444. (a) All road bonds voted and autho-
rized before May 21, 1959, under the provisions of
Article III, Section 52, of the Texas Constitution, by
a two-thirds majority vote of the qualified voters
voting at an election held for that purpose and all
proceedings had in connection with the bonds, in-
cluding the petition for election, the order of elec-
tion, the giving of notice of the election, the holding
of the election and declaring the results of the
election, and the order authorizing the issuance and
levying of a tax in payment of the bonds are in all
things validated. The bonds, when approved by the
attorney general, registered by the comptroller of
public accounts, and delivered to the purchaser, are
general, direct, and binding obligations of the political subdivi-
sion or road district issuing the bonds and are incon-
testable except for fraud or forgery. The
bonds that have been approved before May 21, 1959,
by the attorney general, registered by the comptrol-
er of public accounts, and delivered to the purchaser
are in all things validated and are general, direct,
and binding obligations of the political subdivision
or road district that issued the bonds and are incon-
testable except for fraud or forgery.

(b) This section does not apply to any political
subdivision or road district that is now or has been
involved in litigation questioning the validity of its
road bonds if the litigation is ultimately determined
against the validity of the bonds.

4415 ROADS, BRIDGES, AND FERRIES Art. 6702-1
Validation of Road Bonds

Sec. 4.445. (a) All road bonds voted and authorized before June 10, 1969, under the provisions of Article III, Section 52, of the Texas Constitution, by a two-thirds majority vote of the qualified voters voting at an election held for that purpose in any road district or other defined district in the state as the case may be and all proceedings had with respect to the voting of the bonds, including the petition praying for the calling of the elections, the giving of notice of the hearing had on the petition, and the holding of the hearing and also including the order calling the elections and the giving of the notices of election in the elections, including also the holding of each election and the declaring of the results of the election, are in all things validated. The bonds voted and issued before June 10, 1969, including the order authorizing the issuance of the bonds and the levying of the tax in payment of the bonds, are in all things validated. The bonds voted before June 10, 1969, but not yet issued, when approved by the attorney general, registered by the comptroller of public accounts, and delivered to the purchaser, are general, direct, and binding obligations of the road district or other defined district against which the bonds are issued and are incontestable except for fraud or forgery. The bonds that have been approved before June 10, 1969, by the attorney general, registered by the comptroller of public accounts, and delivered to the purchaser, are in all things validated and are general, direct, and binding obligations of the road district or other defined district against which the bonds are issued and are incontestable except for fraud or forgery.

(b) All road districts or other districts created and defined before June 10, 1969, by the commissioners courts of this state that have voted and authorized before that date the issuance of road bonds under the provisions of Article III, Section 52, of the Texas Constitution, by a two-thirds majority vote of the qualified voters of the road district or other defined district at an election held for that purpose in any road district or other defined district in the state as the case may be and all proceedings had with respect to the voting of the bonds, including the petition praying for the calling of the elections, the giving of notice of the hearing had on the petition, and the holding of the hearing and also including the order calling the elections and the giving of the notices of election in the elections, including also the holding of each election and the declaring of the results of the election, are in all things validated. The bonds voted and issued before June 10, 1969, including the order authorizing the issuance of the bonds and the levying of the tax in payment of the bonds, are in all things validated. The bonds voted before June 10, 1969, but not yet issued, when approved by the attorney general, registered by the comptroller of public accounts, and delivered to the purchaser, are general, direct, and binding obligations of the road district or other defined district against which the bonds are issued and are incontestable except for fraud or forgery.

(c) The county bonds shall be issued in an amount as may be stated in the order of the commissioners court, but within the limitations of the constitutional and statutory provisions. At the election there shall also be submitted to the qualified voters of the county the question as to whether or not a tax shall be levied on the property of the county, subject to taxation, for the purpose of paying the interest on the bonds and to provide a sinking fund for the redemption of the bonds.

(d) When the road district or districts have by the requisite vote of the qualified voters authorized the issuance of county bonds and the bonds have not been issued and sold or if sold and the proceeds have not been expended at the time the election is to be ordered for the entire county, then the proposed county bonds shall be issued for the following purpose: "The issuance of county bonds for the construction of district roads and the further construction, maintenance, and operation of macadamized, graveled, or paved roads and turnpikes, or in aid of these purposes, throughout the county." If the proposition to issue the county bonds for this purpose receives the necessary favorable vote and the bonds shall have been approved and issued, then so much of the bonds so issued by the county as may be necessary to fairly and fully compensate the road district or districts shall be set aside by the commissioners court for that purpose. In the event the district bonds have not been issued and sold, then so much of the bonds so issued by the county as may
be necessary to fairly and fully compensate the road district or districts shall be set aside for that purpose, and the bonds shall be sold and the proceeds applied to the construction, maintenance, and operation of the roads within and for the road district or districts as contemplated by the election or elections held within and for the road district or districts. The unsold district bonds shall then become totally void, and it shall be the duty of the commissioners court of the county to immediately cancel and destroy the unsold district bonds. However, in the event the district bonds have been sold, then an exchange of a like amount of the county bonds may be made with the holder or holders of the district bonds as provided by Subsection (b) of Section 4.452 of this Act. If the commissioners court should find that the exchange cannot be made, then so much of the county bonds as may be necessary shall be transferred and placed to the credit of the interest and sinking fund account of the road district or districts in conformity with the procedure prescribed by Subsection (e) of Section 4.452.

(e) Where the road district or districts have issued bonds for the construction of public roads and the proceeds derived from the sale of the bonds have been applied to the construction of roads within and for the districts, the district roads may be merged into and become a part of the general county system of public roads and the road district or districts shall be fully and fairly compensated by the county in an amount equal to the amount of bonds outstanding against the road district or districts at the time the bonds are issued by the county, and the proposed county bonds shall be issued for the following purpose: "The issuance of county bonds for the purchase of district roads and the further construction, maintenance, and operation of macadamized, graveled, or paved roads and turnpikes, or in aid of these purposes, throughout the county." In the event the proposition to issue the county bonds receives the necessary favorable vote and the bonds shall have been approved and issued, then so much of the bonds so issued by the county as may be necessary for that purpose shall be set aside and exchanged for a like amount of outstanding district bonds, or the bonds may be transferred and placed to the credit of the road district or districts for the purpose of paying and retiring the district bonds as the bonds may mature.

Exchange of Bonds

Sec. 4.452. (a) If the proposition to issue the county bonds receives the necessary favorable vote and the bonds shall have been approved and issued, the taxes previously levied and collected in any road district or districts shall from that date be dispensed with as provided in this section. The bonds so set apart by the commissioners court shall be used exclusively for the purpose of constructing the roads in the subdivisions or districts or for the purpose of purchasing or taking over the improved roads in the subdivisions or districts as the case may be. The exchange of the county bonds for the outstanding district bonds shall be made in one of the methods prescribed by this section.

(b) An exchange of the bonds may be made with the holder or holders of any outstanding district bonds. The agreement for the exchange shall be evidenced by order of the commissioners court authorizing the exchange and by the written consent of the holder or holders of the district bonds, properly signed and acknowledged, as provided by law for the acknowledgment of written instruments. The order of the commissioners court, written agreement properly executed by the holder or holders of the district bonds, together with the county bonds to be given in exchange, shall be presented to and approved by the attorney general of the state and shall bear his certificate of approval before the exchange is finally consummated. When the exchange of county bonds for district bonds is consummated, the commissioners court shall cancel and destroy the district bonds, and then no tax shall ever be levied or collected for the bonds under the original election in the subdivisions or districts. The sinking funds then on hand to the credit of the subdivisions or districts shall be passed to the sinking fund account of the county.

(c) In the event the exchange of the county bonds for the outstanding district bonds cannot be made as provided by Subsection (b) of this section, the commissioners court at as early a date as practicable shall deposit with the county treasurer for the credit of the interest and sinking fund account of the road district or districts an amount of county bonds equal in value to the amount of outstanding district bonds. The order of the commissioners court authorizing the deposit of county bonds for the credit of the interest and sinking fund account of the road district or districts, together with the county bonds so authorized to be deposited, shall be presented to and approved by the attorney general of the state and shall bear his certificate of approval before the deposit of county bonds shall be made and credit passed to the road district or districts. However, the county bonds before deposited shall have printed or written across their face the word "Nonnegotiable" and shall further recite that they are deposited to the credit of the interest and sinking fund account of the road district named in the bonds as a guarantee for the payment of the outstanding district bonds that have not been exchanged. The coupons annexed to the county bonds so deposited shall have written or printed on them the word "Nonnegotiable." After the county bonds shall have been deposited for the credit of the interest and sinking fund accounts of the road district or districts, the sinking fund then on hand to the credit of the road district or districts shall be passed to the credit of the sinking fund account of the county, and the commissioners court may no longer levy and collect the taxes provided for under the original election for the bonds in the road district or districts. In lieu of the taxes, the court
shall, from the taxes levied for the purpose of providing the necessary interest on the county bonds, pay annually the interest on the county bonds deposited for the credit of the road district or districts, detaching the coupon for the payment. The payment of interest shall be passed to the credit of the interest account of the road district or districts as the owner or owners of the county bonds, and the funds so realized by the road district or districts shall be used by the commissioners court for the purpose of paying the interest on the outstanding district bonds. The commissioners court shall set aside annually, from the taxes levied to provide the necessary sinking fund for the county bonds, the necessary sinking fund for the retirement of the county bonds. On maturity of the county bonds the commissioners court shall pay the bonds in full, and the payments shall be passed to the credit of the sinking fund of the road district or districts, and the funds so realized by the road district or districts shall be used by the commissioners court to pay in full all outstanding district bonds.

Issuance, Form, and Requisites of Compensation Bonds

Sec. 4.455. The county bonds issued for the purpose contemplated in Subsections (d) and (e) of Section 4.451 of this Act shall be issued in similar denominations, bearing the same rate of interest, having the same date or dates of maturity and with similar options of payment as the outstanding district bonds. It is the intent of this section that the county bonds shall in every respect be similar to the district bonds, except they shall be county obligations instead of district obligations, and shall be dated on a date after the date of the election at which they were authorized. The county bonds issued in excess of the amount required to exchange, offset, and retire the outstanding district bonds shall be issued and sold in the manner provided by law and may mature serially or otherwise at the discretion of the commissioners court and may run for a term not to exceed 40 years, and the bonds shall bear not more than the amount of interest prescribed by Chapter 3, Acts of the 61st Legislature, Regular Session, 1989, as amended (Article 117k-5, Vernon's Texas Civil Statutes). The proceeds from the bonds shall be credited to the available road fund of the county and shall be expended by the commissioners court in constructing, maintaining, and operating macadamized, graveled, or paved roads and turnpikes or in aid of these purposes throughout the county. The issuance and sale of the bonds authorized in this section and the levy and collection of taxes for the bonds shall be conducted as required by law on other county bonds, except as otherwise provided. The necessary expense incident to the issuance of the bonds may be paid out of the proceeds from the sale of the bonds.

Previously Created Districts and Subdivisions

Sec. 4.454. Where any road district created under the provisions of this part includes within its limits any previously created road district or any political subdivision or precinct having at the time road bond debts outstanding, the included district or subdivision shall be fully and fairly compensated by the new district in an amount equal to the amount of the bonds outstanding against the included subdivision or district, and that shall be done in the form and manner prescribed for the issuance of county bonds under Sections 4.451 through 4.453 of this Act. However, the petition must be signed by 50 or a majority of the qualified voters of the new district, and the bonds proposed to be issued shall be for the purchase or construction of roads in the included subdivisions or districts and the further construction, maintenance, and operation of macadamized, graveled, or paved roads and turnpikes or in aid of these purposes.

Bond Issue by Road District Including Previously Created Road District or Political Subdivision

Sec. 4.455. Where any road district includes within its limits a portion of any previously created road district or portion of any political subdivision or precinct, pursuant to authority of Section 4.415 of this Act, and the previously created road district, political subdivision, or precinct had road bond debts outstanding, the newly created road district may issue bonds for the purchase of the roads within the previously created district, subdivision, or precinct and for further construction of macadamized, graveled, or paved roads and turnpikes in the subsequently created road district. The bonds shall be authorized and issued in the form and manner prescribed in Sections 4.451 through 4.454 of this Act. However, this section does not affect or impair the obligation or indebtedness evidenced by the outstanding bonds of the previously created district, subdivision, or precinct. The indebtedness remains chargeable against the territory which voted the indebtedness.

Bond Issues and Elections Therefor Validated

Sec. 4.456. (a) If (1) under authority of Article III, Section 52, of the Texas Constitution, a two-thirds majority of the qualified voters of any road district embracing portions of any previously created road district, subdivision, or precinct, which district was created in conformity with the provisions and requirements of Section 4.415 of this Act, voting on the proposition, having voted at an election held in the road district in favor of the issuance of bonds, for the purchase of roads within the road district, subdivision, or precinct, portions of which were and are included within the new district, and also voting on the proposition of the further construction of roads within the new district, and the levy of taxes in payment of the bonds, the canvass of the vote revealing the two-thirds majority having been recorded in the minutes of the county commis-
subdivision, or precinct not included in the newly created road district shall continue to bear and pay its proper proportion of the outstanding road bond debt thereof, and the bonds were approved by the attorney general and registered by the comptroller created road district shall continue to bear and pay its proper proportion of the outstanding road bond debt thereof, and the bonds were approved by the attorney general and registered by the comptroller public accounts, each election and all acts and proceedings had and done in connection with the bonds by the county commissioners court and the levy of taxes on taxable property in each road district, subdivision, or precinct is situated. (b) The commissioners court of the county in which the district is situated may adopt all orders and do all acts necessary in the issuance or sale of any unissued or unsold bonds of the district. The manner of issuing the district compensation bonds for the district shall be the same as that provided for the issuance of other district and county compensation bonds.

(c) This part does not impair, release, or in any manner affect the lien evidenced by outstanding bonds on any portion of any road district, subdivision, or precinct, not included within the limits of the subsequently created road district, authorizing or issuing the bonds for the purchase of roads from the previously created district, subdivision, or precinct.

(d) The excluded territory shall continue to bear and pay its proper proportion of the existing debt. The subsequently created road district shall assume only that portion of the outstanding bonded indebtedness of the previously created district, subdivision, or precinct in the same ratio that the assessed valuation of the property of the previously created road district, subdivision, or precinct (and which property is included in the subsequently created district) bears to the assessed valuation of the property situated within the original boundaries of the previously created road district, subdivision, or precinct.

Commissioners Court Authorized to Levy Tax to Pay Road District Bonds

Sec. 4.457. Taxes in an amount sufficient to pay the principal of and interest on the bonds outstanding or issued in the future shall be annually assessed and collected by the county commissioners court of each county in which the district, subdivision, or precinct is situated. Express authority to do so is delegated and granted to the commissioners courts.

A separate petition for the establishment of the district must be presented to the commissioners court of each county in the proposed district. The proceedings prescribed by this section shall be had in each county.

(b) Each petition must describe in general terms the road or roads proposed to be constructed and in like general terms the cities, towns, and villages, if any, to be connected by the road or roads and must name each county proposed to be included within the road district. Each petition must request the commissioners court to order an election to determine whether the county shall be included in the proposed road district.

(c) On presentation of each petition, the court to which it is presented shall fix a time the petition shall be heard, and the date of hearing must be not less than 15 nor more than 30 days after the date of the order. The hearing shall be held at the regular meeting place of the commissioners court in the county courthouse.
(d) The county clerk shall immediately issue notice of the time and place of hearing. The notice must inform all concerned persons of the time and place of hearing and of their right to appear at the hearing and contend for or protest the ordering of the election. The notice must set forth in substance the contents of the petition and must give the name of each county proposed to be included within the road district. The clerk shall execute the notice by posting copies in five public places within the county as follows: one copy at the courthouse door and one copy in each commissioners precinct. The notice shall be posted for at least 10 days prior to the date of the hearing. The notice shall also be published in a newspaper of general circulation, published in the county one time, and at least five days prior to the hearing. If no newspaper is published in the county, the posting of the notice as directed previously in this section is sufficient. The duties imposed by this part upon the clerk may be performed by the clerk in person or by a deputy as provided by law for similar duties.

(e) At the time and place set for the hearing of the petition or the subsequent date as may then be fixed, the court shall proceed to hear the petition and all matters in respect to the proposed road district. Any interested person may appear before the court in person or by attorney and contend for or protest the creation of the proposed road district. The hearing may be adjourned from day to day and from time to time as the court may consider necessary. If on the hearing of the petition it is found that the petition is signed by 50 of the qualified voters of the county and that due notice of the hearing has been given and that the creation of the proposed district by the consolidation of the county with the other counties named in the proceedings would be for the benefit of all taxable property situated in the county, the court may issue and cause to be entered of record in its minutes an order directing that an election be held within the county. The court shall order the election to be held on the next uniform election date authorized by Section 9b, Texas Election Code, as amended (Article 2.01b, Vernon's Texas Election Code), that occurs after the 15th day after the day the order is made. Notice of the election shall be given in the same manner and for the same time required for notices of the hearing on the petition. The elections must be held on the same date in each county.

(f) The manner of holding the election and canvassing and making the returns shall be governed by the general laws of this state when not in conflict with this part.

(g) When the election for the creation of the district has been held, the officers named by the commissioners courts of the different counties to hold the election in their respective counties shall make returns of the election to the commissioners courts of their respective counties and return all ballot boxes to the clerk of the commissioners court of the county. The commissioners court of each county in the proposed road district, on receiving the returns of the election, shall canvass the returns and certify the result of the election in the county to the county judge of the county having the largest number of inhabitants as shown by the most recent federal census. On receipt of the returns of the election in the different counties of the district, the county judge designated to canvass the vote shall canvass the vote and certify the result to each county in the proposed district. If the votes cast in each and all counties show a majority in favor of the consolidation of the counties into a defined road district, the commissioners court of each county shall declare the defined road district created, and the district shall be known as Counties Road District of Texas, enumerating the counties embraced within the district in alphabetical order.

Directors of District

Sec. 4.464. The county judges and county commissioners of the counties composing the district shall be ex officio directors of the district. They shall have the same power and authority with reference to the management of the affairs of the district as commissioners courts have in respect of road districts wholly within one county. The district when so formed shall be a defined district within the meaning of the constitution and a body corporate.

Purchasing Improved Roads

Sec. 4.465. The road district may or may not purchase or take over improved roads already constructed by any county or other road district included in the district. In the event the road district is determined to take over or purchase the improved roads, the take-over or purchase shall be done in conformity with the procedure prescribed by Part 3 of this subchapter except that no petition shall be necessary.

Bond Election

Sec. 4.466. (a) After the creation of the road district, the commissioners court of the counties included in the district at a joint meeting held in the county having the largest number of inhabitants as shown by the most recent federal census may order an election to be held within the district. The court shall order the election to be held on the next uniform election date authorized by Section 9b, Texas Election Code, as amended (Article 2.01b, Vernon's Texas Election Code), that occurs after the 30th day after the day the order is made. The voters shall be permitted to vote for or against the proposition:

"Authorizing the Counties Road District of Texas to issue the bonds of the district in the total sum of $____ and to levy annually ad valorem taxes on all taxable property in the district to pay the interest on the bonds and create a sinking fund to redeem the principal at maturity for the purpose of the con-
struction, maintenance, and operation of macadamized, graveled, or paved roads and turnpikes or in aid of these purposes within the district.

"The roads to be constructed from the proceeds of the sale of the bonds and the amount apportioned to each road is as follows:

"[Here set out the road or roads as described in the order and notice of the election to determine the creation of the district and the amount to be expended on each road or roads."

(b) If it is proposed to purchase or take over the improved roads already constructed by an included county or any included road district, the election order shall be in conformity with the provisions of Section 4.461 of this Act.

Notice of Election and Declaring Result

Sec. 4.467. After the election order has been passed at a joint meeting of the commissioners courts as the ex officio directors of the road district, a certified copy of the order shall be transmitted to the county clerk of each county within the district. Thereupon, the commissioners court of each county at a regular or special session held in their respective counties shall give notice of the proposed bond election to be held on the date named in the order of the courts passed at the joint meeting. Each election notice must state the time and place of holding the election and must state in substance the contents of the election order. All other proceedings in respect of the question so submitted shall be in accordance with the provisions of Section 4.411 of this Act relative to county road bond elections. The commissioners courts of the counties as ex officio directors of the road district shall by order declare the result, and the county judge shall certify the result to the county judge of the county having the largest number of inhabitants. If at the election two-thirds of the qualified voters of each county voting at the election cast their ballots in favor of the issuance of the bonds, the commissioners court of each county, as soon after the declaration of the result as practicable, shall pass the orders that may be necessary in the issuance of the bonds and the levy of taxes in payment of the bonds.

Maturity Dates, Interest, and Proceeds

Sec. 4.468. The general laws relative to county road bonds authorized pursuant to Article III, Section 52, of the Texas Constitution, shall apply to the authorization, issuance, approval, certification, registration, sale, and payment of the bonds provided for in this part, except as otherwise provided. The bonds shall mature not later than 40 years from their date and shall bear interest not to exceed the interest rate prescribed by Chapter 3, Acts of the 61st Legislature, Regular Session, 1969, as amended (Article 717k-2, Vernon's Texas Civil Statutes). The necessary expense incident to the issuance of the bonds may be paid out of the proceeds from the sale of the bonds. On the issuance and sale of the bonds provided for in this part, the commissioners court of each county may pass all orders that may be necessary, setting aside so much of the proceeds derived from the sale of the bonds as the ex officio directors of the road district may consider necessary to be used for the maintenance, repair, and upkeep of the roads of the district. Bond Tax

Sec. 4.469. The amount of the bond tax to be levied annually shall be determined by the commissioners courts of the respective counties before the period at which the annual levy of taxes is made in the counties composing the district. The proportion of the tax levied against the property in each of the counties, respectively, shall be levied by the commissioners court of the county at the same time and in the same manner that other taxes in the counties are levied. The levy and collection of the tax shall be governed by the same laws that govern the levy and collection of county taxes.

Issuance of Bonds

Sec. 4.470. The bonds shall be issued as nearly as may be in form in use in this state in the issuance of county bonds, except that the bonds shall be issued in the name of the district and shall be signed by the county judges of the several counties composing the district and countersigned by the county clerks of the counties, with the seals of the commissioners courts of the counties impressed on the bonds. The bonds shall be attested by the treasurer or depository of the district.

Sale of Bonds

Sec. 4.471. The commissioners court of the counties embraced in the district, at a joint meeting held in the county having the largest number of inhabitants, shall authorize the sale of the bonds for issuance. The advertisement or notice of the proposed sale shall be published in a newspaper of general circulation published in the district, one time, and not later than the 10th day before the day fixed for the sale. The commissioners courts shall convene in joint meeting on the date specified in the published notice for the sale of the bonds. The joint meeting shall be held in the county having the largest number of inhabitants for the purpose of considering bids for the purchase of the bonds. The courts are entitled to reject any and all bids. The bonds shall be sold by the courts at the joint meeting to the highest and best bidder for cash either in whole or in parcels at not less than their par value. The purchase money shall be placed in the treasury or depository of the district to the credit of the available road fund of the district.

Meetings of Commissioners Courts

Sec. 4.472. Any joint meeting of the courts may be adjourned from day to day and from time to time as the courts may consider necessary and advisable.

Sec. 6. The damages to such land owners shall be assessed by a jury of freeholders, as for other public roads, and all cost attending the proceeding in opening neighborhood roads, if the application is granted, shall be paid by the county.

Navigable Streams

Sec. 7. The lack of adequate roads for the purpose of public access to navigable streams or public lakes, or to shores of lakes or bays within tide water limits is hereby declared to create a public necessity for additional roads in the Counties of Leon or Madison, which will furnish a means of such access for the general public. "Navigable streams," as that term is used herein, are defined to be statutory navigable streams of an average width of thirty (30) feet, and public lakes are defined to be those lakes in which the State owns the beds, or reserves the right of access for its citizens for fishing, boating, hunting or other recreation.

On application being filed in accordance with Sections 1, 2, 3, 4, 5, and 6 of this Act, the Commissioners Courts of Leon and Madison Counties may issue an order opening a public road sixty (60) feet in width running parallel with and adjacent to the bank of any statutory navigable stream of this State for such distance as the Court may deem necessary, said right of way to be used for access to said public streams, and for camping purposes. The opening of highways along and adjacent to the banks of said navigable streams shall be in accordance with the terms of this Act and compensation shall be made to the owners of said lands as provided for in Section 6 of this Act.

Purpose of Act

Sec. 10. It is the purpose of this Act to make accessible public streams, bays, lakes and other bodies of public waters which are now fenced in and not accessible to the general public, by establishing roads and highways. Any bank of a stream and shore of a lake or bay which extends more than five (5) miles without a public highway furnishing access to the public, to said bank or shore of said stream, lake or bay is declared to be inaccessible and subject to be opened to public access under the terms of this Act.

Sec. 1. The Commissioners' Court situated within any County having not less than three hundred and fifty thousand (350,000) population, according to the last preceding Federal Census shall have full power and authority to grant to a person, firm or private corporation, a franchise for the construction, maintenance and operation of a toll underpass or tunnel under any stream, channel or body of water in the State of Texas and necessary approaches thereto and to enter into a contract with such person, firm and/or corporation to finance, build, construct, own, maintain, and operate such toll underpass or tunnel and approaches, with a reasonable toll charge to be agreed upon, to be levied upon or charged all railroads, persons, vehicles, cattle, motor cars and motor buses and/or other vehicles of transportation passing through said tunnel or underpass; said franchise to be granted to said person, firm or corporation for such number of years as the Court may think proper not to exceed fifty (50) years and such contract and franchise to provide that such persons, firm or corporation shall keep said tunnel and/or underpass and approaches in continuous repair during the term of said contract or franchise; the granting of said franchise shall be conditioned that the contractor shall build and keep in continuous repair the tunnel or underpass and approaches so contemplated for the term of years agreed upon, in accordance with the plans and specifications thereof set out in said contract and franchise.

Sec. 3. Said tunnel or underpass when crossing a navigable stream shall be located, built and constructed at an adequate depth below the fixed navigable depth of such navigable stream, river or channel, as may be provided by law or by the rules and regulations of the State authorities and/or Department of the United States Government having control or charge of said river, stream or channel and said franchise from the Commissioners' Court of the County wherein such tunnel or underpass is to be built, constructed, operated and maintained, shall so provide.

Sec. 6. The provisions of this Act shall be severable and if any of its provisions shall be held to be unconstitutional the decision so holding shall not be construed to affect the validity of any of the remaining provisions of this Act. Art. 6795b. Causeways, Bridges, and Tunnels Authorized in Gulf Coast Counties of 20,000 or More

Construction and Operation Authorized; Cost and Expenses

Sec. 1. Any county in the State of Texas which borders on the Gulf of Mexico and which has a
population of twenty thousand (20,000) or more, according to the last Federal Census, preceding the authorization of bonds hereunder, acting through its Commissioners Court, is hereby authorized and empowered to construct, acquire, improve, operate, and maintain a causeway, bridge, tunnel, or any combination of such facilities, including all necessary approaches, fixtures, accessories, and equipment (all of which are hereinafter referred to as "the project") from one point in said county to another, in, over, through, or under the waters of the Gulf of Mexico or any bay or inlet opening thereinto, and to issue its revenue bonds payable solely from the revenues to be derived from the operation thereof, to pay the cost of such construction, acquisition, or improvement. The cost of the project shall be paid from the proceeds derived from the sale of the bonds; and shall include the payment of all legal, fiscal, and engineering expenses incurred in connection with the acquisition and construction of the project and the making of preliminary surveys and investigations and the authorization and issuance of the revenue bonds; and shall include the payment of interest on the bonds prior to and during the period occupied by the construction of the project and for one year thereafter. If the Commissioners Court shall consider it desirable to acquire, through purchase or lease, existing ferry properties for the purpose of operating such properties during the period of construction, over the route to be traversed by the project, such properties may be so acquired and the cost thereof paid from the proceeds of the bonds. Any preliminary expenses paid from county funds shall be repaid to such funds from the proceeds of the bonds when available, and all engineering and fiscal contracts and agreements for such projects heretofore entered into are hereby validated and confirmed; provided, however, that nothing in this Act shall authorize the construction of a bridge over and across any ship channel or waterway with a maintained depth of twenty (20) feet or more.

Bonds; Charge Only on Revenues of Project; Approval and Registration

Sec. 2. No bonds authorized hereunder shall ever be a debt of the county issuing them, but shall be solely a charge upon the revenues of the project and shall never be reckoned in determining the power of the county to issue any bonds for any purpose authorized by law. Each such bond shall contain this clause: "The holder hereof shall never have the right to demand, and shall never be entitled to the right of this obligation out of any funds raised or to be raised by taxation." Bonds issued hereunder may be presented to the Attorney General for his approval in the same manner and with like effect as is provided for the approval of tax bonds issued by counties. In such case the bonds shall be registered by the State Comptroller as in the case of other county bonds.

Acceptance of Federal Aid: Contracts: Acquisition of Property

Sec. 3. Any county proceeding hereunder may accept any loan, gift, or grant from the United States of America or the State of Texas, or any agency or instrumentality thereof, and may enter into any agreement or agreements not prohibited by the constitution which may be necessary to obtain such loan, grant, or gift. Construction contracts may be awarded with or without advertised notice for bids in such manner as may be deemed advisable by the Commissioners Court. Such county may enter on any lands, waters, and premises for the purpose of making surveys, soundings, and examinations, and if considered advisable may exercise the right of eminent domain and may institute condemnation proceedings under the provisions of any pertinent general law of Texas for the purpose of acquiring any property to be used or useful in connection with the project. The county shall be under no obligation to accept and pay for any property condemned and shall in no event pay for same except from the proceeds derived from the sale of the revenue bonds, and in any condemnation suit the Court having jurisdiction may make such orders as may be just to the county and to the owners of the property to be condemned. Upon the institution of any such condemnation proceedings and upon tender of a bond or other security in sufficient sum to secure the owner or owners for damages and upon approval of such bond or other security by the Court, the county shall have the right to immediate possession of the property which is the subject matter of the condemnation proceedings and may enter thereon. The State of Texas hereby expressly grants to any such county full easements and rights of way through, across, under, and over any lands or property owned by the State which may be necessary or convenient to the construction, acquisition or efficient operation of the project.

Bonds; Tolls; Trust Indenture

Sec. 4. Bonds issued hereunder may be authorized by resolution at one time or from time to time. Such bonds shall be payable solely from the revenues to be derived from the operation of the project and it shall be the mandatory duty of the county to impose such tolls and charges for use of the project as will be fully sufficient to operate and maintain the project, pay principal of and interest on the bonds when due and establish such reserve therefor as may be provided, and establish an adequate fund for depreciation and replacement. The Commissioners Court shall have full discretion in fixing the details of the bonds and in determining the manner of sale thereof, provided that the bonds shall not run more than forty (40) years from their date, and
that the interest rate and salo price shall be such that the interest cost of the bonds shall not exceed six (6) per cent per annum, computed on average maturities according to standard tables of bond values. The bonds may be made redeemable prior to maturity in such manner and at such prices as may be determined by the Commissioners Court providing the issue of the bonds. All bonds issued hereunder shall and are hereby declared to have all of the qualifications and incidents of negotiable instruments under the Negotiable Instruments Law of Texas. Provision may be made for registration of such bonds as to principal or interest or both. The proceeds of the bonds shall be used solely to pay the cost of the project as above defined, and shall be disbursed under such restrictions as may be provided in the bond resolution or trust indenture hereinafter mentioned, and there shall be and is hereby created and granted a lien upon such monies until so applied in favor of the holders of the bonds or any trustee provided for in respect of such bonds. Unless otherwise provided in such resolution or indenture, if the proceeds of the bonds prove insufficient to pay the cost of the project, additional bonds may be issued to the amount of the deficit and shall be deemed to be of the same issue and entitled to payment from the same fund without preference or priority of the bonds first issued. Any surplus remaining from bond proceeds after the cost of the project has been paid in full shall be used in paying interest on and retiring bonds. Prior to the issuance of the bonds, temporary or interim bonds, with or without coupons, exchangeable for definitive bonds may be issued. Such bonds may be authorized and issued without any proceedings or the happening of any conditions or things or the publication of any proceedings or notices other than those specifically specified and required by this Act, and may be authorized and issued without regard to the requirements, restrictions, or procedural provisions contained in any other law. The resolution authorizing the bonds may provide that such bonds shall contain a recital that they are issued pursuant to this Act and such recital shall be conclusive evidence of their validity and the regularity of their issuance. If so provided by the Commissioners Court, the bonds may be secured by a trust indenture by and between the county and a corporate trustee, which may be any trust company or bank having the powers of a trust company within or outside of the State of Texas. Such trust indenture may pledge or mortgage the project itself or any part thereof. Either the resolution providing for the issuance of the bonds or such trust indenture may contain such provisions for protecting and enforcing the rights and remedies of the bondholders as may be reasonable and proper and not in violation of law, including covenants setting forth the duties of the county in relation to the acquisition of properties and the construction, maintenance, operation, repair, and insurance of the project, and the custody, safeguarding, and application of all moneys. It shall be lawful for any bank or trust company in this State to act as depository of the proceeds of the bonds or revenues derived from the operation of the project and to furnish such indemnity bonds or to pledge such securities as may be required by the county. Such bond resolution or indenture may set forth the rights and remedies of the bondholders and of the trustee and may restrict the individual rights of action of the bondholders. In addition to the foregoing, such bond resolution or trust indenture may contain such other provisions as the Commissioners Court may deem reasonable and proper for the security of the bondholders including, but without limitation, covenants prescribing all happenings or occurrences which constitute events of default and the terms and conditions upon which any or all of the bonds shall become or may be declared to be due before maturity and as to the rights, liabilities, powers, and duties arising upon the breach by the county of any of its duties or obligations.

1. Articles 5922 to 5948 (repealed; see now, Business and Commerce Code, § 3.101 et seq.).

Rights of Bondholders or Trustee for Bondholders; Receiver

Sec. 5. Any holder or holders of bonds issued hereunder, including a trustee or trustees for such holders, shall have the right in addition to all other rights by mandamus or other proceeding in any court of competent jurisdiction to enforce his or their rights against the county and its employees and against any board which may be created to operate the project and against the agents and employees thereof, including, but not limited to, the right to require the county and such board to impose and collect sufficient tolls and charges to carry out the agreements contained in the bond resolution or trust indenture and to perform all agreements and covenants therein contained and duties arising therefrom, and to apply for and obtain the appointment of a receiver for the project. If such receiver be appointed, he may enter, and take possession of the project and maintain the project and collect and receive all revenues and tolls arising therefrom in the same manner as the county itself might do and shall dispose of such moneys and apply same in accordance with the obligations of the county under the bond resolution or trust indenture and as the Court may direct.

Board of Trustees to Manage Project

Sec. 6. The management and control of the project during such time as any of the bonds remain outstanding may by the terms of the bond resolution or trust indenture be placed in the hands of a Board of Trustees to be named therein, consisting of not more than five (5) members, to be appointed in such manner and to have such powers and duties as may be therein provided.
Bonds Free From Taxation

Sec. 7. The accomplishment of the purposes stated in this Act being for the benefit of the people of this State and for the improvement of their commerce and property, the county in carrying out the purposes of this Act will be performing an essential governmental function and shall not be required to pay any tax or assessment on the project or any part thereof, and the bonds issued hereunder and their transfer and the income therefrom, including any profits made on the sale thereof, shall at all times be free from taxation within this State.

Powers of Counties and of State Highway Commission

Sec. 8. The powers herein granted may be carried out by such counties and the projects may be acquired and operated and tolls and charges fixed and maintained without the consent, approval, supervision, or regulation of any commission, department, bureau, agency, or officer of the State of Texas, provided however, that nothing in this Section shall be construed to prevent the State Highway Commission from operating and maintaining the project or contributing to the cost of such maintenance under such provisions not inconsistent with the rights of bondholders as may be agreed to by the county. The State Highway Commission shall have authority without further legislative enactment to make such provision for and contributions toward maintenance of the project as it may see fit, and to lease the project under such terms not inconsistent with the provisions of the bond resolution or contract rights in the project and in the bonds are not unfavorably affected thereby. When all of the bonds and interest thereon shall have been paid, or a sufficient amount for the payment of all bonds maturing or redeemable within three (3) months.

Repeal

Sec. 10. House Bill No. 9, Chapter 32, Acts, Fourth Called Session, Forty-third Legislature, is hereby repealed.

Partial Invalidity

Sec. 11. That if any clause, sentence, paragraph, or part of this Act shall for any reason be adjudged by any Court of competent jurisdiction to be invalid or ineffective, such judgment shall not affect, impair, or invalidate the remainder of this Act, but shall be confined in its operation to the clause, sentence, paragraph, or part thereof directly involved in the controversy in which such judgment has been rendered.

Art. 6795b-1. Causeways, Bridges, Tunnels, Turnpikes, or Highways Authorized in Gulf Coast Counties of 50,000 or More

Construction and Operation Authorized; Cost and Expenses

Sec. 1. Any county in the State of Texas which borders on the Gulf of Mexico or any bay or inlet opening thereinto and which has a population of fifty thousand (50,000) or more, according to the last Federal Census preceding the authorization of the project, is hereby authorized and empowered to erect, construct, acquire, improve, operate and maintain a causeway, bridge, tunnel, turnpike, highway, or any combination of such facilities, including all necessary approaches, fixtures, accessories, equipment, and administration, storage, and other necessary buildings, together with all property rights, easements, and interests acquired in connection therewith (all of which are hereinafter referred to as "the project") from one (1) point in said county to another, or from one (1) point in said county to a point in another county (regardless of the population of such other county), and to issue its tax bonds, revenue bonds, or combination tax and revenue bonds, to pay the cost of such construction, acquisition, or improvement. Among other things, the cost of the project may include the following: the cost of construction; the cost of all property, real, personal, and mixed, and all appurtenances, easements, tracts, franchises, pavements, and properties of every nature, used or useful in connection with the
construction, acquisition, improvement, operation, and maintenance of the project; the payment of the cost of condemning any such property, including both the payment of the award and the payment of the court costs and attorneys fees; the payment of all legal, fiscal, and engineering expenses incurred in connection with the acquisition and construction of the project and the making of preliminary surveys and investigations and the authorization and issuance of the bonds; and the payment of interest on the bonds and operating expenses on the project prior to and during the period occupied by the construction of the project and for one (1) year thereafter. If the Commissioners Court shall consider it desirable to acquire, through purchase or lease, existing ferry properties for the purpose of operating such properties during the period of construction, over the route to be traversed by the project, such properties may be so acquired and the cost thereof paid from the proceeds of the bonds. Any preliminary expenses paid from county funds shall be repaid to such funds from the proceeds of the bonds when available, and all engineering and fiscal contracts and agreements for such projects heretofore entered into are hereby validated and confirmed. Where any causeway, bridge, tunnel, turnpike, highway, or combination thereof constructed or acquired and financed hereunder extends from a point in the county issuing the bonds to a point in another county, it may be so constructed or acquired only after there shall have been adopted by the Commissioners Court of the county not issuing the bonds, a resolution approving and consenting to such construction or acquisition, and the Commissioners Court of any such county is hereby authorized to adopt such resolution. So long as and to the extent that the project, or part thereof, has not been designated as part of the State Highway System and is not considered a Turnpike Project, as defined in Chapter 410, Acts of the Fifty-Third Legislature, 1953, as amended, that part of the project (which has not been so designated and is not so considered) in each county shall be considered a part of the county road system of such county, and all laws relating to the maintenance and operation of county roads are hereby made applicable to any project constructed or acquired hereunder in so far as they do not conflict with the provisions hereof; and each county into which the project extends may acquire necessary lands or right of ways or other property by purchase, condemnation or otherwise, under the General Laws of Texas, and the county issuing the bonds shall have such powers with respect to necessary lands or right of ways or other property in each county into which the project extends; provided that provision for the payment of the purchase price, award, or other costs may be upon such terms as may be agreed upon by the Commissioners Courts of the county issuing the bonds and the other county, and the proceeds of the bonds issued hereunder may be used for such purposes; and provided, further, that no election shall be necessary to authorize the issuance of any bonds issued hereunder payable solely from revenues, but in case no election is held, notice of intention to issue such bonds shall be given as provided in Sections 2 and 3 of the Bond and Warrant Law of 1931, as amended, and the authority to issue such bonds shall be subject to the right of referendum provided in Section 4 of said Law. Bonds authorized to be issued under this law shall be sold in such manner, either at public or private sale, and for such price as the Commissioners Court of the county issuing the bonds may determine to be for the best interests of the county.

2 Article 2505a.

Bonds; Charge Only on Revenues of Project; Approval and Registration; Alternative Methods

Sec. 2. No bonds authorized pursuant to Subsection (a) of this section shall ever be a debt of the county issuing them, but shall be solely a charge upon the revenues of the project and shall never be reckoned in determining the powers of the county to issue any bonds, payable in whole or in part from taxes, for any purpose authorized by law. Each such bond payable solely from the revenues of a project shall contain this clause: “The holder hereof shall never have the right to demand payment of this obligation out of any funds raised or to be raised by taxation.” All bonds issued hereunder may be presented to the Attorney General for his approval in the same manner and with like effect as is provided for the approval of tax bonds issued by counties. In such case the bonds shall be registered by the State Comptroller as in the case of other county bonds. But notwithstanding any limitations in this Act or in the law which it amends, any county proceeding hereunder after this amendatory Act becomes effective may issue bonds for such purpose secured by any one of the following methods:

(a) Solely by the pledge of revenues as prescribed hereinafore in this Section and elsewhere in Chapter 304, Acts of the Regular Session of the Fiftieth Legislature, as amended; or

(b) A pledge of and payable from either an ad valorem tax levied under Article 8, Section 9 of the Constitution, or an unlimited ad valorem tax authorized under Article 3, Section 52 of the Commission and laws enacted pursuant thereto; or

(c) A designated part of the bonds to be secured solely by a pledge of revenues as provided under sub-section (a) and a designated part of the bonds to be secured by pledges of such ad valorem tax as provided under sub-section (b) of this Section; or

(d) A combination of the methods prescribed under sub-sections (a) and (b) wherein all of the bonds are to be supported and paid for by such ad valorem tax with the duty imposed on the County to collect tolls for use of the facilities so long as any of the bonds are outstanding so that in the manner to be prescribed in the bond resolution or the trust inden-
Art. 6795b-1  ROADS, BRIDGES, AND FERRIES 4430

Pooled Projects

Sec. 2a. Any two or more projects constructed by a county proceeding hereunder may, upon the adoption of a resolution approving the same, duly passed by the Commissioners Court, be pooled and designated as a "pooled project." Any existing project or projects may be pooled in whole or in part with any new project or projects thereof. After being so designated, such "pooled project" shall become a "project" as used in Chapter 394, Acts of the Regular Session of the Fiftieth Legislature, 1947, as amended. No project may be pooled more than once. Consistent with the resolution or order providing for the issuance of the bonds or the trust indenture securing the same, the resolution of the Commissioners Court shall set a date certain when each of the projects being authorized to be pooled shall be available for the free use of the public. Subject to the terms of any such bond resolution or trust indenture, any county proceeding hereunder is authorized to issue from time to time bonds of the county as hereinbefore authorized, including bonds which are payable either in whole or in part from the revenues of a pooled project, for the purpose of (i) paying all or any part of the cost of such pooled project or the cost of any part of such pooled project, (ii) paying the costs of constructing improvements, extensions, or enlargements to all or any part of any pooled project, or (iii) refunding any bonds then outstanding issued on account of any pooled project or any part of any pooled project, including the payment of any redemption premium thereon and any interest accrued or to accrue to the date of redemption of such bonds, and, if deemed advisable by the Commissioners Court, paying the costs of constructing improvements, extensions, and enlargements to the pooled project or to any part of any pooled project in connection with which or in connection with any part of which bonds to be refunded shall have been issued. Revenues of all or any part of such pooled project may be pledged to the payment of such bonds. Improvements, extensions, or enlargements to be paid from refunding bonds issued hereunder are not restricted to and need not be constructed on any particular part of a pooled project in connection with which bonds to be refunded may have been issued but may be constructed in whole or in part on other parts of the pooled project not covered by the bonds to be refunded. Within the discretion of the issuing county, refunding bonds issued hereunder may be issued in exchange for outstanding bonds or may be sold and the proceeds used for the purpose of redeeming outstanding bonds. Any county having previously designated a "pooled project" may from time to time, subject to the terms of any bond resolution or trust indenture, add to, delete from, or otherwise amend the extent or component parts of any pooled project, which pooled project as so amended shall be and become a project as used in Chapter 394, Acts of the Regular Session of the Fiftieth Legislature, Regular Session, 1947, as amended.

Federal or State Aid; Contracts; Acquisition of Property

Sec. 3. Any county proceeding hereunder may accept any loan, gift, or grant from the United States of America or the State of Texas, or any agency or instrumentality thereof, and may enter into any agreement or agreements not prohibited by the Constitution which may be necessary to obtain such loan, grant, or gift. Construction contracts may be awarded with or without advertised notice for bids in such manner as may be deemed advisable by the Commissioners Court. Such county may enter on any lands, waters, and premises for the purpose of making surveys, soundings, and examinations, and if considered advisable may exercise the right of eminent domain and may institute condemnation proceedings under the provisions of any pertinent General Law of Texas for the purpose of acquiring any property to be used or useful in connection with the project. In any condemnation suit the Court having jurisdiction may make such orders as may be just to the county and to the owners of the property to be condemned. Upon the institution of any such condemnation proceedings and upon tender of a bond or other security in sufficient sum to secure the owner or owners for damages and upon approval of such bond or other security by the Court, the county shall have the right to immediate possession of the property which is the subject matter of the condemnation proceedings and may enter thereon. The State of Texas hereby expressly grants to any such county full easements and right of ways through, across, under, and over any lands or property owned by the State which may be necessary or convenient to the construction, acquisition or efficient operation of the project.

Contract or Agreement for Project Construction, Acquisition, etc.: Project Feasibility Studies and Surveys

Sec. 3a. Notwithstanding anything contained herein to the contrary, any county proceeding hereunder may contract or agree with any other county, city, village, town, special district, or any other legally constituted political subdivision or agency of the State of Texas, or any combination of these, to construct, acquire, improve, operate, and maintain a project. Any such contract or agreement may pro-
vide for joint ownership of the project or for title to
the project to be in any one of the contracting
parties. In addition, any contracting county pro-
cceeding hereunder may issue its bonds, as authori-
ized herein, for the purpose of paying all or any part
of the cost of a project which said county is obligat-
ed to pay under any such contract or agreement.
Any contract or agreement entered into under this
section may contain any terms and extend for any
period of time to which the parties can agree, and
may provide that it will continue in effect until
bonds specified in it and refunding bonds issued in
lieu of those bonds are paid. If any such contract
or agreement so provides, payments made thereun-
dered, the operating and maintenance expenses of
the project, and the revenues derived from oper-
ation of such project may be pledged to such pay-
ment.

If on the effective date of this amendment any
agency of the State of Texas has expended funds in
the amount of $75,000 or more for the purpose of
cconducting studies and surveys or making other
investigations for the purpose of determining the
feasibility and practicability of constructing a toll
project, a county proceeding hereunder may not,
without the consent of such state agency, assume sole
responsibility for the construction, acquisition,
improvement, operation, and maintenance of the
project and thereby exclusively preempt the state
agency from constructing such project; provided,
however, that the foregoing restriction set forth in
this sentence shall not apply to any county pro-
cceeding hereunder if such county has given the state
agency written notice by certified mail of its inten-
tion to proceed with construction, acquisition, im-
provement, operation, and maintenance of the
project and the state agency has failed or refused
for any reason within six months from the date of
such notice to issue its bonds in the amount re-
quired to pay the cost of the project.

**Bonds; Tolls; Ad Valorem Tax; Trust Indenture**

Sec. 4. The bonds issued hereunder may be au-
thorized by resolution or order at one time or from
time to time. Bonds payable from gross or net
revenues may be authorized by and issued under a
resolution or order of the Commissioners Court of
the county issuing the bonds, and no other authori-
zation or approval is required. However, the bonds
may be presented to the Attorney General as pro-
vided by Section 2 of this article. If such bonds are
payable in whole or in part from the revenues to be
derived from the operation of the project, it shall be
the mandatory duty of the county, which duty may
be executed by an operating board appointed pursuant
to Section 5b hereof, to impose such tolls and
charges for the use of the project as will be fully
sufficient, when taken with any other funds or
revenues available for such purposes, including ad
valorem taxes, to pay the maintenance and operat-
ing expenses of the project, to pay the principal of
and premium, if any, and interest on the bonds
when due, to establish such reserve therefor as may
be provided, and to establish an adequate fund for
depreciation and replacement. However, in connec-
tion with the issuance of bonds described in Subsec-
tion (a) of Section 2 of this article, the county may
authorize, in the bond resolution or order, the pay-
ment of the principal of and premium, if any, and
interest on the bonds from the gross revenues of
the project, and the county may levy and pledge to
the payment of maintenance and operating expenses
of the project and to the establishment and mainte-
nance of a reserve fund and a depreciation and
replacement fund for the project, either as a supple-
ment to the pledge of revenues for those purposes
or in lieu of a pledge of revenues, a direct continu-
ing ad valorem tax under Article VIII, Section 9, as
amended, or Article III, Section 52, as amended, of
the Texas Constitution and the laws enacted under
those provisions, as may be provided in the resolu-
tion or order authorizing issuance of the bonds.
The proceeds of a tax pledged under this section
shall be utilized annually to the extent required by
the resolution or order for such purposes, and the
county may provide in the resolution or order that
certain costs listed in the resolution or order or all
of such costs will be paid by the county from the
proceeds of the tax. As to such bonds which are
payable either in whole or in part from the revenues
to be derived from the operation of a project, the
operating and maintenance expenses of the project
shall include only such items as are set forth and
defined in the proceedings authorizing the issuance
of such bonds. The Commissioners Court shall
have full discretion in fixing the details of the bonds
authorized to be issued hereunder and in determin-
ing the manner of sale thereof, provided that the
bonds, whether term, serial, or combination thereof,
shall mature not more than forty (40) years from
their date. The bonds may contain such mandatory
or optional redemption provisions and may mature
in such manner and at such prices as may be deter-
dined by the Commissioners Court prior to the
issuance of the bonds. All bonds issued hereunder,
and any interest coupons pertaining to the bonds, on
delivery shall be considered and construed to be
"securities" within the meaning of Chapter 8, Busi-
ness & Commerce Code, and the bonds are negotia-
bile if they are issued in accordance with this Act.
Provision may be made for registration of such
bonds as to principal or interest or both. The
proceeds of the bonds shall be used solely to pay the
cost of the project as above defined, and shall be
disbursed under such restrictions as may be provid-
ed in the bond resolution, order, or trust indenture
hereinafter mentioned, and there shall be and is
hereby created and granted a lien upon such mon-
eys until so applied in favor of the holders of the
bonds or any trustee provided for in respect of such
bonds. Unless otherwise provided in such resolu-
tion, order, or indenture, if the proceeds of the
bonds prove insufficient to pay the cost of the
project, additional bonds may be issued to the
amount of the deficit and shall be deemed to be of
the same issue and entitled to payment from the same fund without preference or priority of the bonds first issued. Any surplus remaining from bond proceeds after the cost of the project has been paid in full shall be used in paying interest on and retiring bonds unless otherwise provided in the bond resolution, order, or trust indenture. Prior to the issuance of definitive bonds, interim bonds, with or without coupons, exchangeable for definitive bonds may be issued. Such bonds may be authorized and issued without any proceedings or the happening of any conditions or things or the publication of any proceedings or notices other than those specifically specified and required by this Act, and may be authorized and issued without regard to the requirements, restrictions, or procedural provisions contained in any other law. The resolution or order authorizing the bonds may provide that such bonds shall contain a recital that they are issued pursuant to this Act and such recital shall be conclusive evidence of their validity and the regularity of their issuance.

If so provided by the Commissioners Court, the bonds may be secured by a trust indenture by and between the county and a corporate trustee, which may be any trust company or bank having the powers of a trust company within or outside of the State of Texas. Such trust indenture may pledge or assign tolls and revenues but shall not convey or mortgage the project itself or any part thereof. Either the resolution or order providing for the issuance of the bonds or such trust indenture may contain such provisions for protecting and enforcing the rights and remedies of the bondholders as may be reasonable and proper and not in violation of law, including covenants setting forth the duties of the county in relation to the acquisition of properties and the construction, maintenance, operation, repair, and insurance of the project, and the custody, safeguarding, and application of all moneys. It shall be lawful for any bank or trust company in this State to act as depository of the proceeds of the bonds or revenues derived from the operation of the project and to furnish such securities as may be required by the county. Such bond resolution, order, or indenture may set forth the rights and remedies of the bondholders and of the trustee and may restrict the individual rights of action of the bondholders. In addition to the foregoing, such bond resolution, order, or trust indenture may contain such other provisions as the Commissioners Court may deem reasonable and proper for the security of the bondholders including, but without limitation, covenants prescribing all happenings or occurrences which constitute events of default and the terms and conditions upon which any or all of the bonds shall become or may be declared to be due before maturity and as to the rights, liabilities, powers and duties arising upon the breach by the county of any of its duties or obligations.

Use of County Property; Conveyances; Reconstruction of Closed or Relocated Nontoll Roads, Streets, or Highways

Sec. 4a. Notwithstanding any other provision of law, the commissioners court may use any county land, rights-of-way, or other property, regardless of when or how the property is acquired, for the purposes of a project under this Act. The governing body of such political subdivision or agency of this state, without any form of advertisement, may convey title or right and easements to any property needed by a county for a project under this Act. If the county shall find it necessary to close or change the location of any portion of any nontoll road, street, or highway, it shall cause the nontoll road, street, or highway to be reconstructed at such a location and in such a fashion as the county shall determine will provide substantially the same access as the nontoll road, street, or highway being closed or relocated.

Validity and Effect of Liens or Pledges

Sec. 4b. Each lien on or pledge of revenues derived from the project or on the reserve fund, depreciation and replacement fund, or other reserves or funds established in connection with bonds issued under this Act is valid and enforceable from the time of payment for and delivery of the bonds authorized by the resolution or order of the commissioners court creating or confirming the lien or pledge. Such a lien or pledge is fully effective as to items then on hand or subsequently received, and the items are subject to such a lien or pledge without physical delivery of the items or further act. The lien or pledge is valid and enforceable against any party having a claim of any kind in tort, contract, or otherwise against the county, regardless of whether the party has notice of the lien or pledge. Neither a resolution or order authorizing the issuance of bonds under this Act nor any other instrument by which the lien or pledge is created or confirmed need be filed or recorded except in the regular records of the county.

Rights of Bondholders or Trustee for Bondholders; Receiver

Sec. 5. Any holder or holders of bonds issued hereunder, including a trustee or trustees for such holders, shall have the right in addition to all other rights by mandamus or other proceeding in any Court of competent jurisdiction to enforce his or their rights against the county and its employees and against any board which may be created to operate the project and against the agents and employees thereof, including, but not limited to, the right to require the county and such board to impose and collect sufficient tolls and charges to carry out the agreements contained in the bond resolution or trust indenture and to perform all agreements and covenants therein contained and duties arising therefrom, and to apply for and obtain the appointment of a receiver for the project. If such receiver be appointed, he may enter and take possession of
the project and maintain the project and collect and receive all revenues and tolls arising therefrom in the same manner as the county itself might do and shall dispose of such moneys and apply same in accordance with the obligations of the county under the bond resolution or trust indenture and as the Court may direct.

Contract or Lease Agreement

Sec. 5a. Any county proceeding hereunder after this amendment becomes effective may, within the discretion of the Commissioners Court, to the extent prescribed by the bond resolution or the trust indenture or pursuant to the provisions thereof make a contract or lease agreement under which the facilities may be operated for a period fixed therein not extending beyond the date of the maturity of the last maturing bond, by another agency, person, firm, or corporation, provided that nothing in such contract or lease shall be so interpreted as to interfere with the right of the holders of the bonds or their representatives to require proper operation and maintenance of the facilities and the payments for the benefit of the bonds as prescribed in the bond resolution or in the trust indenture.

Operating Board

Sec. 5b. Any county proceeding hereunder, upon a determination by the Commissioners Court thereof that a project could be developed, constructed, operated, and managed better and more efficiently by an operating board, may provide for the appointment of such an operating board. An operating board so appointed shall have and may exercise, subject to such limitations and restrictions as may be prescribed by the Commissioners Court, the same power and authority, including the power of eminent domain, as may be exercised by the Commissioners Court in regard to the development, construction, operation, and management of a project; provided, however, that an operating board appointed hereunder shall not have the power to tax or to borrow money. Without limiting the generality of the foregoing, such an operating board shall have the power and authority, subject to the restrictions and limitations prescribed by the Commissioners Court, to design the project, to acquire necessary lands or rights-of-way or other property for the project by purchase, condemnation, or otherwise, to establish and revise from time to time the rates and tolls charged for use of said project, to establish and prescribe the methods, systems, procedures, and policies for the operation, maintenance, and use of the project, and to employ consultants, attorneys, engineers, financial advisors, agents, and other employees or contractors in connection with the development, construction, operation, and management of the project.

Bonds Free From Taxation

Sec. 6. The accomplishment of the purposes stated in this Act being for the benefit of the people of this State and for the improvement of their commerce and property, the county in carrying out the purposes of this Act will be performing an essential governmental function and shall not be required to pay any tax or assessment on the project or any part thereof, and the bonds issued hereunder and their transfer and the income therefrom, including any profits made on the sale thereof, shall at all times be free from taxation within this State.

Powers of Counties and of State Highway Commission

Sec. 7. The powers herein granted may be carried out by such counties and the projects may be acquired and operated and tolls and charges fixed and maintained without the consent, approval, supervision or regulation of any commission, department, bureau, agency, or officer of the State of Texas, provided, however, that nothing in this Section shall be construed to prevent the State Highway Commission from operating and maintaining the project or contributing to the cost of such operation and maintenance under such provisions as may be agreed to by the county which are not inconsistent with the rights of bondholders or the rights of any agency, person, firm or corporation then operating the project under lease or contract with the county. Rules, Regulations, Plans and System

Sec. 1. In all counties in this State having a population of more than one hundred and ninety-eight thousand (198,000) inhabitants, and less than four hundred thousand (400,000) inhabitants according to the last preceding Federal Census, and wherein is situated an incorporated city having a population in excess of two hundred and fifty thousand (250,000) inhabitants according to the last preceding Federal Census, the Commissioners Court of such counties shall have full power and authority, and it shall be its duty to adopt, at a meeting of said court of which the county judge and at least three (3) of the county commissioners of said counties shall be present and cause to be recorded in the minutes of said court, and put into effect such rules, regulations, plans and system for the maintenance, laying out, opening, widening, draining, grading, constructing, building and repairing of the public roads of said counties, other than the State highways located therein, as the available funds of the counties will permit so as to facilitate travel between the communities thereof, subject to and in harmony with the duties of the county engineer as herein specified. Where such rules, regulations, plans and system have already been adopted by the Commissioners Court of such counties and are of record, it shall not be necessary to repeat the same number and name as it is delineated on said map. As new roads are opened and improved, and the existing roads are widened or improved so as to change their class, such facts shall be added to the record of such roads in the “Records of Roads.” Such information shall be made available to the public; provided, however, that any omission in respect to the above requirement shall not invalidate any contract for the construction or repair of any road or highway in said county, and where such classification, records and indexes have heretofore been prepared there shall be no necessity to repeat the same in the absence of public necessity therefor, but same may be amended, added to or taken from as the facts and public need may demand.

County Engineer

Sec. 2. The Commissioners Court of each such county shall appoint a county engineer, but the selection shall be controlled by considerations of skill and ability for the task; such engineer may be selected at any regular meeting of the Commissioners Court, or at any special meeting called for that purpose, and such engineer shall hold his office for a period of two (2) years, his term of office expiring concurrently with the terms of other county officers, but may be removed at the pleasure of the Commissioners Court. Such engineer shall receive a salary to be fixed by the Commissioners Court not to exceed Ten Thousand Dollars ($10,000) per year, to be paid out of the second-class road and bridge fund; such engineer before entering upon the discharge of his duties, shall take the oath of office prescribed by law, and shall execute a bond in the sum of Fifteen Thousand Dollars ($15,000), with a good and sufficient surety or sureties thereon, pay-
minutes of the court, stating such facts and the reason for disposing of such equipment and shall have authority to dispose of same as it deems best. When in its opinion it is necessary to purchase other machinery, supplies, tools and other equipment and materials, the Commissioners Court shall enter an order on the minutes showing the necessity therefor. All equipment purchased or acquired as herein specified, shall be shown on the “Permanent Inven

tory Record.”

Employees

Sec. 5. The Commissioners Court shall employ all help necessary for the discharge of their public service. Such employees shall receive such compensation as may be fixed by the court, but in all such cases an order shall be passed and entered on the minutes of the court, showing in each case the public necessity of such employment and the amount of compensation to be paid each employee and the fund out of which it is to be paid.

Daily Time Sheet

Sec. 6. The engineer shall keep, or cause to be kept, in duplicate a daily time sheet which shall show the amount of time and the character of work performed and the place where the same is performed by each person working for the county on road maintenance or construction, and such other records in connection therewith as the Commissioners Court and the county auditor may require, one (1) copy of which shall be furnished the county auditor, and one (1) copy shall be retained in the office of the engineer.

Master Plan

Sec. 7. The county engineer shall, when funds are available and when authorized by the Commissioners Court to do so, make a careful and thorough survey of all roads at that time opened and constructed with a view of determining what new roads and connections of roads should be opened and constructed, as well as what roads should be widened and improved. In making such survey, he shall take into consideration the convenience of the traveling public, and especially the convenience of the citizenship of the county, so that each community or part of the county shall have easy and practical connection with the other and with the State highway system of roads in said county, thereby furnishing to the citizenship of the county a convenient means of ingress and egress into and out of every city and town, as well as every other community in the county. The roads indicated in such surveys to be opened and constructed, as well as existing roads that are designated to be widened and improved, shall be located and designated with a view of giving the entire county an efficient road system. The Commissioners Court shall, in selecting roads or new roads, as well as the improvement of existing roads, look to the density of the population, the amount of traffic that will normally flow over such roads. Such survey, when completed by the engineer, and when adopted by the Commissioners Court at a regular meeting thereof, shall be known as the “Master Plan.” When such “Master Plan” has been completed, and adopted by the court as herein stipulated, the same shall be made in permanent record form and kept by the county engineer, and after such adoption, all new construction, widening and permanent improvement shall be done in accordance with such “Master Plan” with a view of ultimately completing the same, both as to location and character of construction. The construction and completion of said “Master Plan” shall proceed as the available funds of the county will permit, and each unit of such construction shall be made in accordance with such “Master Plan.” The order in which the roads or projects in the construction of said “Master Plan” are constructed shall be determined by the county engineer, with the approval of the Commissioners Court and in determining the priority of roads or projects, the engineer and court shall take into consideration the necessity and convenience of the public and shall give priority to those roads or projects that will result in the greatest service to the greatest number of the citizenship of the county, looking at all times to the entire county as a unit and wholly disregarding precinct lines.

Adoption and Alteration of Master Plan

Sec. 8. The Commissioners Court shall, when said “Master Plan” is submitted to them for adoption, or if after adoption an amendment or change thereto shall be deemed advisable, set a date at a regular meeting of the Commissioners Court called for that purpose, and give public notice thereof at least two (2) weeks in advance of such meeting and the purpose thereof, inviting the citizenship of the county to be present and protest any part of said “Master Plan” and also to make such suggestions as they deem pertinent in connection with same, or any change therein, but the decision of the Commissioners Court shall become and be final and conclusive as to said “Master Plan”, and no succeeding Commissioners Court shall have the power or authority to alter and/or change or amend any of the provisions thereof except by unanimous vote of the Commissioners Court. Provided, that where such “Master Plan” has once been adopted, there shall be no necessity to repeat the same in absence of public necessity therefor, but same may be amended and altered when public necessity therefor is shown, and after notice is given as hereinabove provided.

Subdivisions and Additions

Sec. 9. Many subdivisions and additions, for residential, industrial and commercial purposes, lying and being outside the corporate limits of any city, town or village, have in recent years been platted and such plats and dedications approved by Commissioners Courts and filed for record in such counties. And many more such subdivisions will hereafter be prepared and submitted to Commissioners Courts of
said counties. The platting and dedicating of such additions and the consequent sale of lots in such subdivisions have caused the rapid development of such subdivisions and consequent increase of traffic in, on and along the dedicated streets in said additions and subdivisions, and it shall be the duty of the county engineer and the Commissioners Court to cause the "Master Plan" to be conformed to such needs and demands of such subdivision by constructing adequate highways leading from such subdivisions to the county seat, provided that from and after the passage of this Act the Commissioners Court, before approving the plat or plan of any subdivision lying outside the corporate limits of any city, town or village, as required by Article 6626 of the Revised Civil Statutes of the State of Texas, 1925, as amended, shall require such subdivider to enter into a written contract and agreement with the county that such subdivider or dedicatee will grade, and gravel, all streets and provide all necessary drainage structures within such tract of land so subdivided. Such street improvements and drainage structures shall be in accordance with standard plans and specifications prepared by the county engineer. Such contract shall be for the benefit of any person or persons, firm or corporation who may thereafter acquire by purchase or otherwise any lot or lots in said addition or subdivision, and the faithful performance of said contract as to the initial improvements of said streets shall be deemed a part of the consideration paid for said lot and be read into the contract of sale of same, and such contract shall be enforceable at the instant, and suit if necessary, of the owner or owners of any of said lot or lots in a given subdivision suing singly or as a group or class. After such initial street improvements have been completed in accordance with such plans, said streets then become and remain a part of the county road system and shall be maintained by the county unless and until included within the corporate limits of some city, town or village capable of maintaining its own streets.

Payment of Employees

Sec. 10. It shall be the duty of the county auditor to compute the pay for all employees under the court's supervision from time sheets furnished him by the engineer, and no check or warrant shall be issued in favor of any such employee without the approval of such auditor. It shall be the duty of said auditor to see that no employee is paid for time not actually served by such employees and to this end he shall have authority, and it is hereby made his duty, at such time or times as he deems advisable, to check any or all of such employees while they are actually engaged in work. Nothing in this Act, however, shall be construed as repealing or being in conflict with the provisions of Article 2372g-1, Vernon's Revised Statutes of 1925.
of eminent domain by railroad corporations except that, in no case, shall the county be required to give bond or to deposit more than the amount assessed by the Commissioners in condemnation; provided, however, that nothing contained in this Section shall be held to repeal the provisions of the General Law now in force or that may hereafter be passed relating to the opening or construction of public roads by a jury of view, but this Section shall be held to be cumulative thereof, and the Commissioners Court of said county may, at the option of said court, in such cases proceed under the provisions of such General Law or under the provisions of this Act according as same may be best adapted, in the judgment of said Commissioners Court, to expedite the relief sought to be obtained.

Drainage of Railroad Rights of Way

Sec. 14. Whenever it shall be made to appear to the satisfaction of said Court that it is necessary for the better drainage of any public road or roads within said county that the ditches along the right of way of any railroad in the county should be emptied and drained, said court may, by an order entered upon its minutes at a regular or special term of the court, require any such railway whose ditches or borrow pits are so constructed or so out of repair as to impede the easy and rapid flow of water accumulating on, along or near its right of way to the nearest gully, ravine, creek, water course or outlet, and it shall be the duty of said railway in reference to which said order is made and entered within sixty (60) days after a certified copy of said order shall have been delivered to any general officer of such railway company or to any of its agents in said county to supply proper and sufficient drainage in the premises and within sixty (60) days thereafter to commence the work so ordered to be done and to continue such work with reasonable dispatch until its completion. In the event such railway company, its officers and agents shall fail to commence work within sixty (60) days from the date of service of a certified copy of such order, or having begun shall fail to finish the same within a reasonable time, the Commissioners Court may have such work performed, keeping an accurate account of the money expended upon said work, and said money so expended being reasonable in amount, may be recovered from the railway company along whose right of way said work was done at the suit of the county for the benefit of its road and bridge fund in any court of competent jurisdiction.

Payment of Road Taxes; Overseers

Sec. 15. In such county the payment of road taxes by labor is abolished and all provisions of laws concerning overseers shall be of no further force or effect.

County Commissioners; Duties and Compensation

Sec. 16. Each member of the Commissioners Court shall be and he is hereby required to devote all of his time (unless prevented by illness) to the duties of his office, and shall be in attendance at all sessions of the court. In addition thereto he shall personally inspect the conditions of the roads and bridges of the county, and shall see to it that employees under the control of the Commissioners Court perform their full duties. Each member shall receive an annual salary as provided by the General Statutes of the State of Texas relating to the salaries of county commissioners in counties having a population which conforms to the population of the counties affected by this Act. Said salaries to be paid out of the road and bridge fund of the county.

Amount of Road and Bridge Tax

Sec. 17. It shall be unlawful for said Commissioners Court to levy any road and bridge tax in excess of the maximum rate prescribed by law, and any member of said court who shall vote for such excessive levy, knowing it to be excessive, shall be deemed guilty of a misdemeanor and upon conviction thereof shall be punished by a fine of not more than Five Hundred Dollars ($500).

Convict Labor

Sec. 18. Said court may require all county convicts of said county, who may be physically able and not otherwise employed, to work on the public roads of said county under such rules and regulations as the court may prescribe, and each convict so worked shall receive a credit of Three Dollars ($3) per day, one half of which shall be as nearly as practicable, applied to the fine, and one half to the court costs, provided that this shall not be so construed as to relieve a convict from the payment of all costs for which he would be liable under the General Laws of this State; said court may, as a reward for good behavior and faithful service, grant a reasonable commutation which shall in no case exceed one-tenth (1/10) of the whole time. Said court may provide all such houses, tents, clothing, bedding, food, medicine, medical attention, supplies and guards as it may deem necessary or proper for the safe and humane treatment and for the safe-keeping of such county convicts. Said court may also provide and enforce and such guards may, under the direction of said court and in accordance with its rules and regulations, administer such reasonable and humane punishment as may be necessary to require such convicts to perform good work. Said court may provide a reward, not exceeding Ten Dollars ($10) in any instance, to be paid out of the road and bridge fund for the capture and delivery of an escaped convict, but no such reward shall be paid to any guard or persons in charge of or assisting such convict at the time of his escape.

Road Issues; Resolution; Election

Sec. 19. Whenever the Commissioners Court shall deem it necessary or expedient to build, construct, improve, repair or maintain first or second-class roads of a permanent nature with the proceeds
of the sale of bonds issued for road and bridge purposes under the terms of this Act, said court, shall at any regular meeting pass and record in its minutes a resolution setting forth that it is the sense of said court that public roads and bridges of a permanent nature should be built, constructed, improved, repaired or maintained and that the county should issue its bonds to raise money for that purpose in an amount to be named in such resolution, and said resolution shall be submitted to the vote of the property-owning, qualified voters of the county under the law and the Constitution at any regular or special election which the court may order for that purpose, and if at such election a majority of the votes cast shall be for such resolution, then the same shall be deemed to be adopted; otherwise it shall be deemed to be rejected. Such election shall be governed in all respects by the laws governing elections in this State, save that the time for holding such election shall not be more than thirty days from the date of the resolution, and that notice shall be fixed by the Commissioners Court, and the returns shall be made and canvassed in the same manner and the result declared by proclamation of the county judge, which proclamation shall be posted in at least three (3) public places in the county, or at the option of the court published one time in a daily newspaper of general circulation in the county.

Qualifications of Voters; Ballots
Sec. 20. No person shall be permitted to vote at any election provided for in the next preceding Section of this Act unless he is a property owner, taxpayer, who has duly rendered his property for taxation, and a qualified voter of the county under the law and Constitution of Texas. Those desiring to vote for the resolution shall have written or printed on their ballots the words "FOR the Resolution to issue bonds to ___________" and those desiring to vote against the resolution shall have written or printed on their ballots the following: "AGAINST the Resolution to issue bonds to ___________" (here insert such purpose of the proposed bond issue as set forth in said resolution). Such ballots shall be written or printed on plain white paper with black ink and shall contain no distinguishing mark or device except as above provided, and if printed, shall be in type of uniform size and face.

Preparation and Execution of Bonds; Terms of Bonds; Registration and Enrolled; Sale or Negotiation; Tax Levy
Sec. 21. If, at the election hereinafter provided for, a majority of the property-owning qualified voters, under the Constitution and Laws of the State, shall vote in favor of the resolution hereinafter provided for and the Commissioners Court shall have canvassed the vote and declared the result, and proclamation thereof has been made by the county judge or publication made in lieu thereof, declaring said result, then it shall be the duty of said court to prepare and execute the bonds of the county in such sums as may be deemed advisable by the court, not exceeding the amount authorized at the election, said bonds to bear interest at not exceeding five per cent (5%) per annum, payable annually or semi-annually as the courts shall direct, which bonds shall be redeemable or payable not more than forty (40) years from date thereof, and at such intermediate periods, serially or otherwise as the court may direct, the time of maturity to be expressed on the face of the bonds and such bonds shall be registered or enrolled as in case of other county bonds, and the same shall not be sold or negotiated at less than their par value; provided, however, that the tax levy for the payment of interest and principal on any issue of bonds under the terms of this Act shall not exceed in any one case the sum of Fifteen Cents (15c) on the One Hundred Dollars ($100) property valuation, and the amount of bonds so to be issued shall be limited accordingly; provided further, that no bond in this language or in the terms of this Act shall be held to impair the right of the county to issue bonds under the provisions of Article 3 of Section 52 of the State Constitution and the Statutes enacted pursuant thereof.

Levy of Tax; Use of Tax and Bond Proceeds
Sec. 22. At or prior to the issuance of said bonds, it shall be the duty of said Commissioners Court to levy an annual ad valorem tax on all property within the county liable to taxation, sufficient to provide for the interest on such bonds and to create a sinking fund for the payment of the principal thereof at the maturity of same. Such tax and the levy thereof may vary or lessen accordingly as assessed taxable values may increase or diminish from year to year. The fund arising from such tax and the levy thereof shall not be used for any other purpose than that for which it was created, and the proceeds of the sale of such bonds shall be confined strictly for the purpose of which they were issued and for all necessary and incidental expense incurred in the issuance and sale thereof. It shall be unlawful for said court, to transfer any money or fund from the road and bridge fund to any other purpose, except as outlined in Section 16 of this Act, than the laying out, opening, widening, draining, constructing, building, repairing and maintaining the public roads of said counties and the incidental and necessary expense growing out of the issuance of said bonds and the sale thereof.

Account and Disbursement of Bond Proceeds
Sec. 23. It shall be the duty of the county treasurer to keep a separate account of all moneys received from the sale of bonds of said county issued for road and bridge purposes, and said treasurer shall pay out none of it except on written order or warrant of said court, specifying the contract against which it is drawn or for the purpose for which it is expended.
Art. 6812b  ROADs, BRIdGES, AND FERRIES 448

Contracts; Alternative Methods; Record of Cost

Sec. 24. Except as otherwise provided in this Act, no contract requiring the expenditure of money derived from the sale of bonds authorized by this Act shall be made until said county engineer shall have made and filed with the Commissioners Court maps, profiles, plans, specifications, and estimates of the work to be done under such contract and not until said court shall have considered the same and ordered it of record. Provided, however, that in the event said court shall have advertised for and rejected bids, it may in its discretion proceed to do the work mentioned in said advertisement. In the expenditure of road funds other than moneys derived from the sale of bonds, the Commissioners Court may authorize the building, construction and repair of roads by contract, day labor or convict labor as said court may deem to be for the best interest of the county. In every instance where the court chooses to do so under the terms of this Act to build, improve, repair or maintain roads by having the work done by the county, then the county must keep a careful and accurate record of the cost of the work, provided the work referred to in this Section shall be done under the direction of the county engineer in harmony with the other provisions of this Act.

Purchase of Equipment and Material

Sec. 25. Any and all tools, implements, machinery, material and supplies which may be purchased from the second-class road and bridge fund by the court under its direction shall be purchased only after competitive bid therefor shall have been invited by the court, and then only from the lowest responsible bidder, with the right on the part of the court to reject any and all bids and call for other competitive bids thereon; provided, however, bridge lumber, corrugated iron pipe for culverts, road surfacing materials, cement, gasoline, oil, groceries, convict supplies and other materials in regular or competitive bids thereon; provided, however, that this shall not be held to invalidate or prevent purchases, without competitive bids under the terms of the next preceding Section hereof.

Whenever any such contract is let in which competitive bids are required, the successful bidder or contractor shall enter into a bond in a sum not less than the amount of the contract with a surety company authorized to do business in Texas thereon, payable to the county judge or his successors in office, in trust for the use and benefit of the road and bridge fund of said counties, to be approved by the court and conditioned for the faithful performance of said contract and upon such other conditions as the court may require. In no event shall such contract be or become effective until the bond herein required shall have been filed and approved by the court. Provided, further, that during the progress of such work, the court in allowing estimates on the contract shall withhold fifteen per cent (15%) of each estimate until the work shall have been entirely completed and is accepted by the county engineer and by the Commissioners Court.

Transfers to Road and Bridge Fund

Sec. 27. The Commissioners Court is authorized and empowered, whenever and in such manner as it may determine, to transfer to and make a part of the road and bridge fund of said county any money now in the county, to pay interest and create a sinking fund for any bonds of said county herefore issued and which have now been retired and cancelled. Such money so transferred to the road and bridge fund may be expended by the Commissioners Court at their discretion in constructing or repairing any of the first-class or cross roads of the county, such expenditures to be made in compliance with the provisions and requirements of this Act.

Record of Vote on Expenditures

Sec. 28. The records of the Commissioners Court shall show in detail every vote for expenditure of any of the funds mentioned in this Act.

Shade Trees; Signboards or Signposts

The Commissioners Court may, where funds are available for that purpose, plant shade trees along the side of the public roads; the Commissioners Court may protect all shade trees along the side of said thoroughfares and erect, place and keep a substantial signboard or signpost at every point where a public road forks or is intersected by another public road and such signboard or signpost shall contain a legible inscription directing the way and giving the distance of the next important place on such highway. Any person who shall willfully remove, injure, deface or mutilate or injure the growth of any shade tree along the side of a public road or any signboard or signpost thereon or thereof shall be deemed guilty of a misdemeanor and on conviction thereof shall be punished by a fine of not less than Twenty-five Dollars ($25) nor more than One Hundred Dollars ($100).
Financial Interest of Members of Commissioners Court; Violations of Act

Sec. 30. It shall be unlawful for any member of the Commissioners Court or for any county officer to be or become financially interested, directly or indirectly, in any contract with said county for road work or for the purchase or sale of any material or supplies of any character or in any transaction whatsoever in connection with any of the roads of said county, excepting only his own salary, fees or per diem. If any such county commissioner or such county officer shall willfully violate any of the foregoing provisions of this Section, he shall be punished by a fine of not less than Five Hundred Dollars ($500) nor more than One Thousand Dollars ($1,000) or by imprisonment in the county jail of said county for not more than one (1) year or by both such fine and imprisonment and in addition thereto shall be forthwith removed from office as provided for by General law. If any member of said Commissioners Court or any such officer shall willfully violate any of the other provisions of this Act, he shall be deemed guilty of a misdemeanor and upon conviction thereof shall be punished by a fine of not more than Five Hundred Dollars ($500) or by imprisonment in the county jail of said county for not more than six (6) months or by both such fine and imprisonment.

Fines and Moneys Collected Applied to Road and Bridge Fund

Sec. 31. All fines for any and all violations of any of the provisions of this Act and any and all moneys which may be collected by or on behalf of said county on, under, or by virtue of any contract which may be executed under the provisions of this Act shall be applied to the road and bridge fund of said county.

Definitions

Sec. 32. The terms “Road” and “Highway” as used in this Act shall be held to include bridges, viaducts, causeways, culverts, roadbeds, ditches, drains and every part of a road or highway as such terms are commonly understood whether herein specified or not.

Judicial Notice of Law

Sec. 33. This Act is and shall be held and construed to be a public act of which the court shall take cognizance without proof thereof, and in any court proceedings wherein the provisions of this Act are drawn in question, the necessity for pleadings or proving same is hereby dispensed with.

Law Cumulative; Conflict or Inconsistency

Sec. 34. The provisions of this Act are and shall be held and construed to be cumulative of all General Laws of this State on the subject treated of and embraced in this Act when not in conflict or inconsistent herewith, but in case of such conflict or inconsistency in whole or in part, this Act shall control said county.

Partial Invalidity

Sec. 35. If any section, subdivision, paragraph, sentence, clause or word of this Act shall be held to be unconstitutional, the remaining portions of same shall, nevertheless, be valid and it is declared that such remaining portions would have been included in this Act though the unconstitutional portion had been omitted.

The records shall show when each county road was dedicated to the use of the public, a complete description as to location, measured length, width of right-of-way, character of construction, and terminals of same.

(b) Each road shall be indexed in the record by the same number and name as it is delineated on the map. As new roads are opened and improved, and the existing roads are widened or improved so as to change their class, such facts shall be added to the record of such roads in the “Records of Roads.” Such information shall be made available to the public; provided, however, that any omission in respect to the above requirement shall not invalidate any contract for the construction or repair of any road or highway in said county, and where such classification, records and indexes have heretofore been prepared there shall be no necessity to repeat the same in the absence of public necessity therefor, but same may be amended, added to or taken from as the facts of public need may demand.

Master Plan

Sec. 4. The county engineer shall, when funds are available and when authorized by the commissioners court, to do so, make a careful and thorough study of all roads at that time opened and constructed with a view of determining what new roads and connections of roads should be opened and constructed, as well as what roads should be widened and improved. In making such survey, he should take into consideration the convenience of the traveling public, and especially the convenience of the citizenship of the county, so that each community a part of the county shall have easy and practical connection with the other and the state highway system of roads in the county, thereby furnishing to the citizenship of the county a convenient means of ingress and egress into and out of every city and town, as well as every other community in the county. The roads indicated in such surveys to be opened and constructed, as well as existing roads that are designated to be widened and improved, shall be located and designated with the view of giving the entire county an efficient road system.

The commissioners court shall, in selecting roads or new roads, as well as the improvement of existing roads, look to the density of the population and amount of traffic that will normally flow over such roads; such survey when completed by the engineer, and when adopted by the commissioners court at a regular meeting thereof, shall be known as the Master Plan. When such Master Plan has been completed and adopted by the court as it is stipulated, the same shall be made into permanent record form and kept by the county engineer, and after such adoption, all new construction, widening and permanent improvement shall be done in accordance with such Master Plan and with the view of ultimately completing the same, both as to location and character of construction. The construction of said Master Plan shall proceed as the available funds of the county will permit, and each unit of such construction shall be made in accordance with such Master Plan. The order in which the roads or projects in the construction of said Master Plan are constructed shall be determined by the county engineer, with the approval of the commissioners court and in determining the priority of roads or projects, the engineer and court shall take into consideration the necessity and convenience of the public and should give priority to those roads or projects that will result in the greatest service to the greatest number of the citizenship of the county, looking at all times to the entire county as a unit and wholly disregardling precinct lines.

Adoption and Amendment of Master Plan

Sec. 5. The commissioners court shall when said Master Plan is submitted to them for adoption, or if after adoption, an amendment or change thereto shall be deemed advisable, set a date at a regular meeting of commissioners court called for that purpose, and give public notice thereof at least two weeks in advance of such meeting and the purpose thereof, inviting the citizenship of the county to be present to protest any part of said Master Plan and also to make such suggestions as they deem pertinent in connection with same, or any change therein, but the decision of the commissioners court shall become and be final and conclusive as to said Master Plan. When such Master Plan has once been adopted, there shall be no necessity to repeat the same in absence of public necessity thereof, for
same may be amended and altered when public necessity therefor is shown, and after notice is given as herein above provided.

Subdivisions

Sec. 6. It shall be the duty of the county engineer and the commissioners court in each respective precinct to cause the Master Plan to be conformed to the needs and demands of existing and new subdivisions by constructing adequate highways leading from such subdivisions to the county seat. Provided that from and after the passage of this Act, the commissioners court, before approving the plan or plans of any subdivision lying outside the corporate limits of any city, town, or village, as required by Article 6626, Revised Civil Statutes of Texas, 1925, as amended, shall require such subdivision to enter into a written contract in agreement with the county, then such subdivider or dirt dealer will grade, and gravel all streets and provide all necessary drainage structures within such tract of land so subdivided. Such street improvements and drainage structures shall be in accordance with standard plans and specifications prepared by the county engineer. Such contracts shall be for the benefit of any person or persons, firm or corporation who may thereafter acquire by purchase or otherwise any lot or lots in said subdivision, and the faithful performance of said contract as to the initial improvements of said streets shall be deemed a part of the consideration paid for said lot and be read into the contract of sale of same, and such contract shall be enforceable at the instance, if necessary, of the owner or owners of any lot or lots in a given subdivision, suing singularly or as a group or class. After such initial street improvements have been completed in accordance with such plans, said streets then become and remain a part of the county road system and shall be maintained by the county unless and until included within the corporate limits of a city, town or village capable of maintaining its own streets.

Inspections of Plats, Subdivision Plans and Land

Encompassed; Advice to Commissioners

Court and Developers

Sec. 7. The county engineer when directed to do so by the commissioners court of the county, shall inspect all plats and plans of subdivisions to be recorded within said county, and make an on-site inspection of the land encompassed within said subdivision and advise the court as to the roads, drainage, sewage, and all aspects of said subdivision and terrain. The county engineer when and if required by the commissioners court, shall affix his signature to said plat along with the county judge and the commissioners court upon any plat approved and accepted by the commissioners court and filed in the county clerk's office. The county engineer will offer advice and suggestions to said developer and commissioners court in order to promote conformity with any and all rules and regulations for subdividing as laid out by the commissioners court.

Sec. 8. The county engineer when directed by the commissioners court shall make such inspections of any and all utility districts, water districts, sewage districts, and any other type district formed within the confines of the county, to ascertain whether or not said districts meet the state and county requirements. The county engineer will keep a map setting out each and every type district created within the county and make it available for public use at any and all times required to do so.

Assistance on County Functions

Sec. 9. The county engineer when requested to do so by the commissioners court or by a commissioner shall assist said commissioner in connection with any county road in said county, any drainage problem, public buildings, health and sanitation district, planning commissions, and any other function or service over which the commissioner or commissioners court might have jurisdiction.

Employees

Sec. 10. The commissioners court shall employ all help necessary for the discharge of their public service or for the discharge of the duties of the county engineer. Such employees shall receive such compensation as may be fixed by the court, but in all such cases an order shall be passed and entered on the minutes of the court, showing in such case the public necessity for such employment and the amount of compensation to be paid each employee and the fund out of which it is to be paid.

Work Records; Daily Time Sheet

Sec. 11. The county engineer shall keep or cause to be kept, in duplicate, a daily time sheet which shall show the amount of time and the character of work performed and the place where the same is performed by himself and each person working for the county engineer, and such other records in connection therewith as the commissioners court and county auditor may require, one copy of which shall be furnished to the county auditor, and one copy shall be retained by the engineer.

County Commissioners; Duties

Sec. 12. This Act shall in no way diminish, alter or eliminate any of the duties presently handled by the commissioners court or by any individual commissioner. Each member of the commissioners court shall be and he is hereby required to devote all of his time unless prevented by illness to the duties of his office, and shall be in attendance at all sessions of the court.

Cumulative Effect; Conflict or Inconsistency

Sec. 13. The provisions of this Act are and shall be held and construed to be cumulative of all general laws or special laws of this state on the subject treated in this Act when not in conflict or inconsist-
ent herewith, but in case of such conflict or inconsistency in whole or in part, this Act shall control.

Severability

Sec. 14. If any section, subsection, paragraph, sentence, clause, or word in this Act shall be held to be unconstitutional, the remaining portions of same shall nevertheless be valid and it is declared that such remaining portions would have been included in this Act though the unconstitutional portion had been omitted.

County Engineer; Release From Position

Sec. 15. If at any time the commissioners court at any time feels that the county engineer position is no further of any necessity or benefit to the county, then said commissioners court has the authority to release said engineer without any obligation to fill said position or vacancy.

Art. 6812c. Building or Set-Back Lines; Adja­cent Counties of 350,000

Establishment of Set-Back Lines on Major Highways and Roads

Sec. 1. Whenever the Commissioners Court in any county having a population of not less than 350,000 according to the last Federal Decennial Census and which is adjacent to another county having a population of not less than 350,000 according to the last Federal Decennial Census, deems that the general welfare will be promoted thereby, it is hereby authorized and empowered to establish building lines or set-back lines on major highways and roads in such county, not to exceed one hundred fifty (150) feet from the center line of such major highways and roads, and to prohibit any new building being located within such building or set-back lines outside of the corporate limits of any city, village or incorporated town. Such Commissioners Court is further authorized and empowered to regulate and limit and to change and amend by order such build­ing or set-back lines on such major highways or roads and to prohibit any new buildings being located within such building or set-back lines outside the corporate limits of any city, village or incorporated town.

Hearing and Adoption of Plan; Amendment or Alteration

Sec. 2. Before the adoption of any plan for major highways and the establishing of building or set-back lines thereon the Commissioners Court shall hold at least one public hearing related there­to, fifteen days notice of the time and place of which shall be published in at least one newspaper having general circulation within the county. Such hearing may be adjourned from time to time. Adoption of the major highway plan shall be by resolution carried by not less than a majority vote of the full membership of the court. The establishment of building or set-back lines shall by order passed by not less than a majority vote of the full membership of the court. After adoption of a major highway plan or plans an attested copy shall be filed with the County Clerk. Thereafter, the Commissioners Court may upon like approval, publication and notice change, amend, supplement or alter the major highway plan and building lines relating thereto.

Notice; Failure to Begin Construction

Sec. 3. The property owners of all property fronting upon any major highway or road on which a building line or set-back line has been established shall be charged with notice of the requirement of the building line order. All building lines established pursuant to this Act shall be shown in a general manner upon a map and the same shall be filed with the County Clerk and notice thereof shall be published in at least one newspaper having general circulation within the county, and such notice shall also be posted in at least three conspicuous places along each highway affected; provided, how­ever, that in the event the county should fail to begin the construction of the improvement or widen­ing of the road on which any building or set-back line has been established within four (4) years from the date when said building or set-back line had been fixed, such designation of the building or set-back line shall cease and be of no force or effect unless the time is extended therefor by agreement of the county and the property owners interested.

Board of Adjustment

Sec. 4. The Commissioners Court is hereby au­thorized and empowered to appoint a Board of Ad­justment. Such Board shall consist of five (5) free­holders of such county. The membership of the first Board appointed shall serve respectively: two members for one year, and three members for two years. Thereafter members shall be appointed for terms of two years. Members shall be removable for cause by the Commissioners Court upon written charge after public hearings. Vacancies shall be filled by the Commissioners Court for the unexpired term of any member whose term becomes vacant. The Board of Building Line Adjustment shall elect its own chairman and shall adopt rules of procedure. All meetings of the Board shall be open to the public and minutes shall be kept and filed in the office of the Board and shall be a public record. Said Board of Adjustment shall have the following powers and it shall be its duty to modify or vary the regulations affecting building lines or set-back lines in specific cases, subject to appropriate conditions and safeguards in cases where unnecessary hard­ship may result from a literal enforcement of such building line or set-back line requirements, so that substantial justice may be done and the intent and purpose of the regulations to protect the public welfare and public safety observed:
Such Board of Adjustment shall hear and decide appeals where, by reason of exceptional narrowness, shallowness, shape, topography, existing building development or other exceptional and extraordinary situation or condition of a specific piece of property, the strict application of a building line established under this Act would result in peculiar and exceptional difficulties to, or hardship to, the owner of such property, to authorize upon an appeal relating to such property, a variance from the strict application under such conditions as such Board of Adjustment may impose so as to relieve the hardship or difficulties, provided such relief, can be granted without substantially impairing the intent and purpose of the building line or set-back line.

The Board of Adjustment shall, with appropriate safeguards, authorize the construction of improvements or structures which may encroach on any building or set-back line established under this Act; provided, however, that should the county proceed with the projected improvement of the road within the time specified herein, then the owner of such improvements will be required to remove the same without cost to the county whatsoever.

Violation of Line; Injunction or Abatement

Sec. 5. In case any building or structure is erected, constructed or reconstructed in violation of any building line or set-back line adopted by any Commissioners Court pursuant to this Act, then such court, the District Attorney or County Attorney, as the case may be, may, any owner of real property within the county in which such building or structure is located may institute injunction, mandamus, abatement, or any appropriate action or proceeding to prevent, enjoin, abate or remove such unlawful erection, construction or reconstruction.

Appeals

Sec. 6. Any property owner who feels injured or damaged by any Act or order of the Board of Adjustment may appeal within thirty days from such act or order to the Commissioners Court of such county. Any property owner in such county who feels injured or damaged by any final order of such Board of Adjustment or by any final order of such Commissioners Court shall have and is hereby given the right to appeal from such order to the District Court or to any other court having jurisdiction thereof, provided that such appeal shall be made within thirty days from the date of such order; and provided further that such appellant shall execute an appeal bond in an amount fixed by such court.

Art. 6812f. Road Improvements and Assessments by Galveston County Commissioners Court

Improvements Authorized

Sec. 1. The Commissioners Court of Galveston County may cause to be improved any county road in the county, whether by filling, grading, raising, paving, or repairing in a permanent manner, or by constructing, reconstructing, repairing, or realigning curbs, gutters, and sidewalks, or by constructing drains and culverts.

Constitutional Basis

Sec. 2. This Act is a local law relating to the maintenance of public roads authorized by Article VIII, Section 9, of the Texas Constitution.

Assessments Against Property Owners; Liens

Sec. 3. (a) The commissioners court by order may assess all or any part of the cost of constructing, reconstructing, repairing, or realigning curbs, gutters, and sidewalks, and not more than nine-tenths of the cost of any other improvements authorized by this Act, against property abutting on the portion of the county road to be improved, and against the owners of that property. The commissioners court may provide the time, terms, and conditions of payment and default of the assessments, and may prescribe the rate of interest on them, which may not exceed eight percent a year.

(b) Any assessment against abutting property is a first and prior lien on the property from the date improvements are ordered, and is a personal liability and charge against the owner or owners of the property, whether named or not. Nothing in this Act empowers the commissioners court to fix a lien against any interest in property that is exempt at the time the improvements are ordered, but the owner or owners of the property are personally liable for any assessment in connection with the property.

Front Foot Rule

Sec. 4. The part of the cost of improvements on each portion of the county road ordered improved which is assessed against abutting property and owners of the property shall be apportioned among the parcels of abutting property and the owners thereof in accordance with the front foot plan or rule, except that if the application of this rule would, in the judgment of the commissioners court, in particular cases, result in injustice or inequity, the commissioners court may apportion and assess the costs against abutting property owners in a manner that the commissioners court determines is just and equitable, so as to produce a substantial equality of benefits received and burdens imposed. Provided, however, it is expressly found and determined that railroad rights-of-way will not benefit from such improvements and may not be assessed therefor.

Certificates

Sec. 5. (a) The commissioners court may order the issuance of assignable certificates in evidence of assessments levied, declaring the lien on the property and the liability of the true owner or owners of the property, and may fix the terms and conditions
of the certificates. Any certificate that recites sub-
stantially that the proceedings referred to in it have
occurred in compliance with law and that all prereq-
usites to the fixing of the assessment lien against
the property described in the certificate and the
personal liability of the owner or owners of the
property have been performed, is prima facie evi-
dence of all matters recited in the certificate, and no
further proof of the matters is required.

(b) In any suit on an assessment or reassessment
in evidence of which a certificate may be issued in
accordance with the provisions of this Act, it is
sufficient to allege the substance of the recitals in
the certificate and that the recitals are in fact true.
Further allegations as to the proceedings relating to
the assessment or reassessment are not necessary.

(c) The assessments are collectable with interest,
expense of collections, and reasonable attorney's
fee, if any are incurred, and are a first and prior
lien on the property assessed, superior to all other
liens and claims except county, school district, and
city ad valorem taxes, and are a personal liability and
charge against owners of the property as-

Joint Assessments

Sec. 6. Assessments against several parcels of
property may be made in one assessment when
owned by the same person, firm, corporation, or
estate, and property owned jointly may be assessed
jointly.

Estimate

Sec. 7. No assessment is valid unless the com-
mis­sioners court makes or causes to be made an
estimate of the cost of the improvement or improve-
ments to be constructed, and the estimate is includ-
ed in any published or mailed notice of the public
hearing required by this Act.

Public Hearing and Notice

Sec. 8. (a) No assessment may be made against
any abutting property or its owners until after
notice and opportunity for hearing has been provid-
ed in accordance with this Act, and no assessment
may be made against any abutting property or
owners of it in excess of the special benefits to the
property and owners resulting from the enhanced
value of the property by means of the improvement,
as may be determined at the hearing.

(b) Notice shall be by advertisement inserted at
least three times in a newspaper of general circula-
tion in the county, the first publication to be made
at least 21 days before the date of the hearing.
Additional written notice of the hearing shall be
given by depositing in the United States mail, at
least 14 days before the date of the hearing, post-
age prepaid, in an envelope addressed to the owners
of the respective properties abutting the county
road to be improved, as the names of the owners
are shown on the then current rendered or unren-
dered tax rolls of the county, at the addresses listed
there. To be sufficient and binding on any person
owning or claiming the abutting property, or any
interest in it, the mailed notice must describe in
general terms the nature of the improvements for
which assessments are to be levied, the county road
or portion of it to be improved, the estimated cost
per front foot proposed to be assessed against the
property and the owner or owners of the property,
the estimated total cost of the improvement or
improvements, and the time and place of the hear-
ing. The notice to be mailed may be a copy of the
public notice, which must contain all of the informa-
tion required for a mailed notice to be sufficient and
binding. If the owner is listed on the county tax
roll as an estate, the mailed notice may be ad-
dressed to the estate.

(c) The commissioners court shall hold the hear-
ing. Any person owning abutting property or any
interest in it may be heard at the hearing on any
matter relating to the improvement or assessment,
including the amount of the proposed assessment or
assessments, the lien and liability created by it, the
special benefits to the abutting property and owners
of the property by the improvements for which
assessments are to be levied, and the accuracy,
sufficiency, regularity, and validity of the proceed-
ings and contract in connection with the improve-
ments and proposed assessments.

(d) The commissioners court may correct any er-
rors, inaccuracies, irregularities, and invalidities,
and may supply any deficiencies, and may deter-
mine the amount of assessments and all other mat-
ters necessary, and may levy the assessments be-
fore, during, or after the construction of the im-
provements, except no part of any assessment may
be made to mature prior to acceptance by the coun-
ty of the improvements for which the assessment is
levied.

Appeal

Sec. 9. Any person owning or claiming any in-
terest in any property assessed under the provisions
of this Act, who desires to contest any assessment
because of the amount of it or any inaccuracy,
irregularity, invalidity, or insufficiency of the pro-
cedings or contract with reference to it, or with
reference to the improvements, or because of any
matter or thing not in the discretion of the commis-
sioners court, may appeal to a district court in the
county within 15 days after the time the assessment
is levied. Any person who fails to institute suit
within this time shall be held to have waived every
matter that might have been heard at the hearing
before the commissioners court, and shall be barred
and estopped from contesting or questioning the
assessment or any matter relating to it, and the
only defense to any assessment in a suit to enforce
it is that the notice of hearing was not mailed or
delivered as required by this Act, was not published,
or did not contain the information required by this Act, or that the assessments exceeded the amount of the estimate. No words or acts of any officer or employee of the county, or any member of the commissioners court, shall in any way affect the force and effect of the provisions of this Act.

Changes in Proceedings

Sec. 10. The commissioners court may provide for any changes in plans, methods, or contracts for improvements, but any change substantially affecting the nature or quality of any improvements may be made only after it is determined by a four-fifths vote of the commissioners court that it is not practical to proceed with the improvement as previously provided, and following any such vote, the commissioners court may make the substantial change only after obtaining the consent of the person, firm, or corporation with which the commissioners court has contracted for construction of the improvements, and after obtaining a new estimate for the cost of the improvements and holding a new hearing, together with the issuance of proper notice as required by this Act. The commissioners court may at any time abandon any improvement with the consent of the person, firm, or corporation constructing the improvements, and shall by order cancel any assessments levied for abandoned improvements.

Correction

Sec. 11. If any assessment is for any reason held or determined to be invalid or unenforceable, the commissioners court may supply any deficiency in proceedings and correct any mistake or irregularity relating to the assessment, and may at any time make and levy reassessments after notice and hearing as nearly as possible in the manner provided by this Act for the original improvements. Recitals in certificates issued in evidence of reassessments must be deposited in the mail not later than the 14th day before the date of the hearing. The notice must be delivered or deposited in the mail not later than the 14th day before the date of the hearing.

Sec. 1. This Act applies only to Live Oak County.

Sec. 2. The commissioners court may provide for financing all or part of the cost of improving any portion of the county road system that is located in a recorded subdivision and outside the limits of an incorporated city or town by levying special assessments against real property abutting the portion of the road that is improved and against the owners of the property.

Sec. 3. The commissioners court shall prepare a plan of each proposed improvement to be financed by special assessments. The plan must specify the nature of the proposed improvement, the location of the improvement, an estimate of the total cost of the improvement, a statement of the total amount of the costs to be financed by special assessments, and an estimate of the cost per front foot to be assessed against property abutting the improvement. If the estimate of costs to be assessed per front foot is not uniform, each variation must be specified in the plan.

(a) After preparing a plan of a proposed improvement as required by this Act, the commissioners court by order shall set a time, date, and place for a public hearing on the proposed improvement.

(b) In addition to notice otherwise required by law, the commissioners court shall publish notice of the hearing in a newspaper of general circulation in the area where the proposed improvement is located. The notice must be published once each week for at least three consecutive weeks. The first publication must appear no later than the 21st day before the date of the hearing.

(c) The commissioners court must also give written notice of the hearing to the owner of each parcel of property subject to assessment under the plan of the proposed improvement. For purposes of this section, the owner of a parcel of property is the owner as shown on the current county tax roll. An owner is not entitled to notice under this subsection if the owner's name or address is not listed on the current county tax roll. Notice under this subsection must be delivered personally or sent by the United States mail. The notice must be delivered or deposited in the mail not later than the 14th day before the date of the hearing.

(d) Notice under Subsection (b) or (c) of this section must contain the following information:

(1) a general description of the proposed improvement which is to be financed by special assessments;

(2) an estimate of the proposed assessment per front foot of abutting property;

(3) an estimate of the total cost of the proposed improvement to be made on each portion of road;

(4) the location of the proposed improvement; and

(5) the date, time, and place of the hearing on the proposed improvement.

(e) If the estimate under Subsection (d)(2) of this section is not uniform, then the notice under Subsections (b) and (c) of this section must specify each variation and identify the property which is affected.
Art. 6812g

ROADS, BRIDGES, AND FERRIES

Conduct of Hearing

Sec. 5. The commissioners court shall hold a public hearing at which any owner of an interest in property abutting a proposed improvement is entitled to contest the amount of the assessment as well as the accuracy, sufficiency, and validity of the proceedings and the determinations of the commissioners court related to the proposed improvement and assessment. After correcting any deficiencies or errors in its proceedings or determinations, the commissioners court by order may levy assessments against property abutting the proposed improvement.

Determination of Assessments

Sec. 6. (a) The commissioners court shall apportion the cost of the improvements assessed against abutting property and property owners on a front footage basis, which may vary among the properties assessed. In order to produce a substantial equality of burdens imposed in relation to benefits received, the commissioners court shall determine assessments in a just and equitable manner, keeping in mind the enhanced value to be gained by the abutting property and property owners. The commissioners court may not levy an assessment in excess of the special benefit in enhanced value to the property or property owner.

(b) If several parcels of property are owned by the same person or entity, the commissioners court may make one assessment covering them all. If property is owned jointly, the commissioners court may assess the owners jointly.

(c) The commissioners court may determine the time, terms, conditions of payment and default, and rate of interest, which may not exceed 10 percent a year, of the assessments levied.

Enforcement of Assessments

Sec. 7. (a) The county has a lien against property assessed under this Act from the date the assessment is levied. This lien has the same priority as a lien for county ad valorem taxes.

(b) The owner of an interest in property against which the commissioners court has levied an assessment for improvements is personally liable for the amount assessed. Liability for an assessment levied against property having more than one owner is joint and several. The county may not assert a lien against property which on the date the assessment is ordered is exempt by law from execution on a judgment for debt. A property owner may, however, waive an exemption to which he is entitled and voluntarily grant an assessment lien against his property in the same manner provided by law for granting a mechanic's lien for improvements to a homestead.

(c) The lien against assessed property and the personal liability of the owner of the property may be enforced by suit in the district court. Interest and the expenses of collection, including attorneys' fees, may also be recovered, and are included in the assessment lien. It is a defense to a suit brought to enforce the levy of an assessment that the notice of hearing was not delivered or published in the form or manner required, or that the amount of the assessment exceeded the estimate given in the notice.

(d) No part of an assessment matures before the commissioners court accepts the improvements for which the assessment is levied.

Certificates of Assessment

Sec. 8. (a) The commissioners court may issue assignable certificates in the name of the county which evidence the assessments levied and which declare the existence of a lien against the assessed property and the personal liability of the property owner. The commissioners court may determine the terms and conditions of the certificates.

(b) If a certificate recites that the proceedings ordering the improvements referred to in the certificate were conducted in compliance with the law, and that all prerequisites to fixing the assessment lien against the property described in the certificate and the personal liability of the property owner have been met, the certificate is prima facie evidence of its recitals.

Correction of Assessments

Sec. 9. (a) If an assessment is held to be invalid or unenforceable, the commissioners court may correct any error related to the assessment, and make and levy a reassessment after notice and hearing in the manner provided for an original assessment.

(b) The commissioners court may issue a reassessment certificate which reflects each modification of the original assessment. A reassessment certificate has the same attributes and effect from the date a reassessment is ordered as an original certificate. Any one owning or claiming an interest in property against which there has been a reassessment has the same right of appeal, from the date the reassessment is ordered, as provided with regard to an original assessment. The provisions of this Act regarding waiver of appeal and limitation of defenses also apply to reassessments.

Appeal

Sec. 10. The owner of an interest in property against which an assessment for improvements has been levied may contest the amount of the assessment, or the accuracy or validity of the proceedings or determinations related to the assessment or the improvements, by filing a suit for that purpose in the district court not later that the 15th day after the date on which the assessment is ordered. The 15-day time limit begins on the day after the date on which the property owner receives actual notice of the results of the hearing. If the property owner shows by a preponderance of the evidence that notice of hearing was not mailed or delivered to the

(3) "Highway" means any street, avenue, alley, roadway, highway, limited-access highway, frontage road, boulevard, drive, bridge, culvert, storm sewer, esplanade, divider, public place, square, or any portion of any of those, including any landscaping and including any portion that may be wholly or partly unimproved in connection with other highway improvements.
(4) "Improve" or "improvements" means new construction, reconstruction, repairs, filling, grading, raising, paving, repaving, realignment, widening, narrowing, straightening, and construction of appurtenances and incidentals to any improvements, including drains, storm sewers, culverts, curbs, gutters, sidewalks, landscaping, temporary or permanent relocation of utilities, and acquisition of right-of-way relating to highways.
(5) "Cost" or "costs of improvements" means costs of legal, engineering, and other consultant services, the cost of interest on money borrowed to make improvements by the county or the contractor, the cost of acquiring rights-of-way, and the costs of other expenses incident to construction of improvements, in addition to the costs of the improvements.
(6) "Property" or "property benefited" means all property against which the eligible county intends to levy assessments and which is benefited by access to the highway improvements, access to the area of highway improvements, an increase in actual market value of the land attributable to the highway improvements, or receipt of any other advantages the property would not have had but for the highway improvements; provided, however, that any such property or property benefited shall only include property situated within a distance of 1,000 feet from the highway improvements unless the owner of such property petitions the governing body to levy assessments for such highway improvements.
(7) "Owner" or "true owner" means the owner shown on legal title of record as of the date the order assessing benefits to property is adopted.

Authority to Make Improvements
Sec. 2. An eligible county may cause to be improved any highway located within its boundaries including causing to be made any one or more of the kinds or classes of improvements named in this Act. An eligible county may improve the highway and
may assess all or a part of the cost of the improvement against property within its boundaries benefited by the improvement in accordance with this Act. Consents, ratifications, or approval from any city, town, or village is not required by the eligible county initiating the improvement within its boundaries, if such eligible county is otherwise authorized by law to improve such highway without such consent, ratification, or approval.

Powers of Governing Body

Sec. 3. (a) The governing body of an eligible county has the power to carry out all the terms and provisions of this Act and to exercise all the powers granted in this Act, either by resolution, motion, or order except when an order is specifically required. The governing body has the power to adopt either by resolution or order any and all rules or regulations appropriate to the exercise of the powers, the method and manner of ordering and holding any hearings, and the giving of notices of hearings, without the consent or approval of a political subdivision of this state.

(b) The governing body has the power to:

1. determine the necessity for and order the improvement of a highway or part of a highway located within the boundaries of the eligible county;
2. contract for the construction of the improvement in the name of the eligible county; and
3. provide for the payment of the cost of the improvement by the eligible county, partly by the eligible county and partly by assessments against property benefited, wholly by assessments against the property benefited, or wholly by the eligible county with a right of reimbursement by assessment for the amount benefited.

(c) The governing body has the power by order or resolution to:

1. deliver certificates of assessment to a contractor employed to construct the improvements benefiting assessed property;
2. sell certificates of assessment on terms that the governing body finds equitable;
3. retain the certificates of assessment; and
4. pledge any or all the assessments to the payment of public securities subject to Chapter 3, Acts of the 61st Legislature, Regular Session, 1969 (Article 717k-2, Vernon’s Texas Civil Statutes), including certificates of obligation it is authorized to issue under The Certificate of Obligation Act of 1971, as amended (Article 2368a.1, Vernon’s Texas Civil Statutes), whether the special assessments are paid alone or in combination with taxes and revenues or any other source of payment.

Cost of Improvement; Estimate for Assessment

Sec. 4. The cost of improvements may be paid wholly by the eligible county with or without reimbursement, wholly by the owners of the property benefited by the highway or the portion of the highway ordered to be improved, or partly by the eligible county and partly by special assessments against property benefited by the owners of the property. If all or any part of the cost is to be paid by special assessments against the property benefited and the owners, before any improvements are actually constructed and before any hearing under this Act is held, the governing body shall prepare or cause to be prepared an estimate of the cost of the improvements. In no event shall more than the total cost of improvements as shown on the estimate be assessed against the property and owners of the property. A hearing under this Act may be held before or after construction begins.

Assessments on Property; Terms; Certificates of Obligation

Sec. 5. (a) Subject to the terms of this Act, the governing body of an eligible county has the power by order or resolution to:

1. assess all or any part of the cost of improvements against the owners of property benefited by the highway or the portion of the highway ordered to be improved;
2. provide the time, terms, denominations, and conditions of payment and defaults of the assessments; and
3. prescribe the rate of interest on the assessments, not to exceed the legal limit on rates established by Chapter 274, Acts of the 60th Legislature, Regular Session, 1967 (Article 5089-1.04, Vernon’s Texas Civil Statutes).

(b) The governing body has the power to cause to be issued in the name of the eligible county assignable certificates of obligation in evidence of assessments levied under this Act declaring the lien on the property and the liability of the true owner or owners of the property whether correctly named or not and to fix the terms and conditions of the certificates of obligation. If a certificate of obligation substantially recites that the proceedings on making the improvements complied with the law and that all prerequisites to the fixing of the assessment lien against the property described in the certificate and the personal liability of the owner or owners of the property have been performed, the certificate is prima facie evidence of all the matters recited in the certificate, and no further proof is required. In a suit on an assessment or reassessment in evidence of which a certificate of obligation may be issued under this Act, a pleading is sufficient if it alleges the substance of the recitals in the certificate and that the recitals are in fact true. Further allegations with reference to the proceedings relating to the assessment or reassessment are not necessary.

(c) Delinquent assessments are collectible together with interest at the then prevailing legal rate, any penalties imposed, expense of collection, and reasonable attorney’s fees incurred. An assess-
ment under this Act is a first and prior lien on the property assessed, from the date improvements are ordered, superior to all other liens and claims except ad valorem taxes levied by cities and other political subdivisions. An assessment under this Act is a personal liability and charge against the owners, whether named or not, of the property assessed. The lien may be transferred to other nonexempt property owned by the same person or persons, but if the lien is transferred, it must be recorded in the deed records of each county in which the property encumbered by the assessment is located.

Method of Assessment

Sec. 6. All or part of the cost of improvements on each portion of highway ordered improved may be assessed against property which is benefited by access to the highway improvements, access to the area of highway improvements, an increase in actual market value of the land attributable to the highway improvements, or receipt of any other advantages the property would not have had but for the highway improvements, all as determined by the governing body, provided the amount of the assessment does not exceed the value of the benefits conferred. The governing body of the eligible county making the highway improvements shall apportion and assess the costs in the proportions that it determines are just and equitable, considering the special benefits in enhanced value received by and the burdens imposed on the parcels of property and owners of the property. Without limiting the authority granted in this section, assessments against property that abuts each portion of highway ordered improved or that abuts streets having access to the highway improvements may be levied in accordance with the front foot rule or the square foot rule if, in the opinion of the governing body of the eligible county, the application of either rule would result in an equitable assessment of costs for benefits conferred.

No Lien on Property Exempt: Personal Liability of Owner; Enforcing Lien

Sec. 7. This Act does not empower an eligible county or its governing body to fix a lien against any interest in property exempt, at the time the improvements are ordered, from the lien of special assessment for highway improvements. The owner or owners of the property are nevertheless personally liable for any assessment in connection with the property. The lien created against any property and the personal liability of the owner or owners of the property may be enforced by suit in any court of competent jurisdiction and, if necessary, by sale of the property assessed or of other nonexempt property to which the lien may have been transferred, in the same manner as provided by law for sale of property for nonpayment of county ad valorem taxes.

Notice and Hearing: Contents of Notice; Hardship; Appeal

Sec. 8. (a) An assessment under this Act may not be made against any property or the owners of the property, unless notice and opportunity for hearing have been provided. The true owners of the property may waive in writing notice or the opportunity for hearing. Notice under this section must be by advertisement inserted at least three times in a newspaper of general circulation published in the county where the assessment is to be imposed, unless there is not such a newspaper in the county, in which event notice must be inserted in a newspaper of general circulation published in the nearest county to the eligible county. The first publication of the notice of hearing must be made at least 21 days before the date of the hearing. Additional written notice of the hearing must be given by certified mail, return receipt requested, at least 14 days before the date of the hearing to the owners of the properties benefited by the highway or portion of the highway to be improved. A return receipt is prima facie evidence of providing proper notice, provided the notice is mailed to the owner as listed in the current appraisal or tax rolls as prepar ed under the Tax Code. If the notice describes in general terms the nature of the improvements for which the assessments are to be levied, states the highway or portion of the highway to be improved, states the estimated total cost of the improvements on the highway or portion of the highway, and states the time and place of the hearing, the notice is sufficient, valid, and binding on all owning or claiming the property or any interest in the property. The notice to be mailed may consist of a copy of the published notice. If an owner of property benefited by a highway or portion of the highway to be improved is listed as "unknown" on the current county or central appraisal district tax roll or the name of an owner is shown on the appraisal or tax roll but no address for the owner is shown, notice need not be mailed. If the owner is shown to be an estate, the mailed notice shall be addressed to the estate.

(b) A hearing under this Act shall be conducted by and before the governing body of the eligible county. A person who owns the property or any interest in the property is entitled at the hearing to be heard on any matter, to contest the amounts of the proposed assessments, the lien and liability for the lien, the special benefits to the property and owners of the property of the improvements for which assessments are to be levied, and the accuracy, sufficiency, regularity, and validity of the proceedings and contract relating to the improvements and proposed assessments, to offer evidence of the inability to satisfy or the hardship imposed by satisfying the proposed assessments, and to request exemption or modification of the amount of the proposed assessments. The governing body has the
power to correct any errors, inaccuracies, irregularities, and invalidities, to supply any deficiencies, to determine the amounts of assessments, to make findings on claims of hardship, to exempt certain property from assessment if evidence presented at the hearing indicates that the exemption is equitable, to make determinations as to all other matters necessary, and by order to close the hearing and levy the assessments before, during, or after the construction of the improvements. No part of any assessment may mature before acceptance by the eligible county of the improvements for which the assessment is levied. The acceptance may be of a portion of the planned improvements that was the basis of the assessments, if in the judgment of the governing body the benefits of the improvement construction to that date are realized with respect to the particular piece of property assessed, notwithstanding the continuation of work on remaining portions of the planned improvements. A recitation in the certificate of assessment that all acts, conditions, and things required to exist and necessary to be done or performed precedent to the issuance of the certificate of assessment to render the certificate lawful, valid, and binding have been properly done and performed is prima facie evidence of all the matters recited in the certificate, and no further proof of those matters is required.

A person owning or claiming any property assessed, or any interest in the property, who wants to contest the amount of any assessment, any inaccuracy, irregularity, invalidity, or insufficiency of the proceedings relating to the assessment or the improvements, or any matter or thing not in the discretion of the governing body, is entitled to appeal from the hearing by instituting suit for that purpose in any district court in the county imposing the assessments within 30 days from the date of the hearing. A person who fails to institute a suit within the required time period waives every matter which might have been appealed and is barred and stopped from contesting or questioning the assessment, the amount, accuracy, validity, regularity, and sufficiency of the assessment, or the proceedings relating to the assessment and the improvements. It is not a challenge to an assessment that contracts for construction are invalid. The only challenge to an assessment is that the notice of the hearing was not made in accordance with this Act or that the assessment exceeds the amount of the estimate.

Changes in Improvements: Procedure

Sec. 9. The governing body of an eligible county has the power to provide for changes in plans, methods, or contracts for improvements, or other proceedings relating to the improvements. Any change substantially affecting the nature or quality of any improvements and increasing the amount of the assessments may only be made when it is determined by two-thirds vote of the governing body that it is not practical to proceed with the improvements as originally planned. If any substantial change is made after any hearing has been ordered or held, unless the improvements are abandoned, a new estimate of cost shall be made, a new hearing shall be ordered and held, and new notices shall be given, all with the same effect and in the same manner as the original notices and hearing. An owner may waive the notice or opportunity for hearing on the change provided the waiver is in writing, notwithstanding any previous waivers for previous planned improvements. Changes in or abandonment of improvements must be with the consent of the persons, firm, or corporation that has contracted with the eligible county for the construction of the improvements, if any contract has been made. In case of abandonment of any particular improvement, an order shall be adopted that cancels any assessments levied for the improvement.

Assessments Against Parcels Owned Jointly

Sec. 10. Assessments against several parcels of property may be made in one assessment when owned by the same person, firm, corporation, or estate, and property owned jointly by one or more persons, firms, or corporations, may be assessed jointly.

Correction of Assessments; Reassessment Certificates

Sec. 11. If an assessment is for any reason held or determined to be invalid or unenforceable, the governing body of the eligible county is empowered to supply any deficiency in proceedings relating to the assessment, correct any mistake or irregularity, and at any time make and levy reassessments after notice and hearing as nearly as possible in the same manner provided for original assessments. Recitals in certificates issued in evidence of reassessment have the same force as recitals in certificates relating to original assessments.

Appeal

Sec. 12. A person owning or claiming any property or interest in any property against which a reassessment is levied has the same right of appeal as provided for original assessments. In the event of failure to appeal within 30 days from the date of hearing on the reassessment, the provisions relating to waiver, bar, estopped, and defense of original assessments apply to the reassessment.

Other Laws

Sec. 13. The power to make improvements and levy assessments conferred upon eligible counties by this Act is cumulative and not in derogation of any other validly enacted measures that confer powers on counties to construct and maintain streets or highways and to raise revenues for the construction or maintenance.
Alternative Procedure

Sec. 14. If a procedure in this Act is held by any court to violate either the federal or state constitution, the governing body of an eligible county has the power by resolution to provide an alternative procedure consistent with the constitutions.
